10 indirectly publicly disclose any of the following:

11 EXPLANATION

12 The inclusion of this explanation does not constitute agreement with
13 the explanation's substance by the members of the general assembly.

14 This bill relates to the regulation of pharmacy benefits
15 managers (PBMs). Under current law, a PBM owes a duty of good
16 faith and fair dealing to third-party payors. The bill expands
17 that duty to pharmacies.

18 The bill prohibits retaliation by a PBM against a pharmacy
19 based on the pharmacy's exercise of any right or remedy, or on
20 the pharmacy's cooperation with the commissioner. Prohibited
21 retaliation includes terminating or refusing to renew a
22 contract with a pharmacy, subjecting a pharmacy to increased
23 audits, or withholding or failing to promptly pay the pharmacy
24 any money owed by the PBM.

25 Current law prohibits a PBM from assessing, charging,
26 or collecting any form of remuneration that passes from a
27 pharmacist in a pharmacy network to the PBM. Under the bill,
28 a PBM is prohibited from assessing, charging, or collecting
29 any form of remuneration that passes from any pharmacist,
30 regardless of whether the pharmacist is in a pharmacy network.

31 Under current law, for each maximum allowable cost list that
32 a PBM uses, a PBM shall update the maximum allowable cost list
33 within seven days from the date of an increase of 10 percent or
34 more in the pharmacy acquisition cost of a prescription drug
35 on the list. Under the bill, for each maximum allowable cost

1 list that a PBM uses, a PBM shall update the maximum allowable
2 cost list within seven days from the date of an increase of 10
3 percent or more in the national average drug acquisition cost
4 of a prescription drug on the list.

5 The bill requires that the annual report provided by a PBM
6 to the commissioner of insurance regarding prescription drug
7 benefits provided to covered persons of each third-party payor
8 with whom the PBM has contracted during the prior calendar year
9 be in a format that does not publicly disclose the identity of
10 a specific third-party payor, the price charged by a specific
11 pharmaceutical manufacturer for prescription drugs, or the
12 amount of rebates provided for prescription drugs.
