16 EXPLANATION

17 The inclusion of this explanation does not constitute agreement with
18 the explanation's substance by the members of the general assembly.

19 Under current law, a person must be licensed by the department
20 of transportation (DOT) as an authorized vehicle recycler to,
21 with respect to vehicles required to be registered, sell certain
22 used parts of more than six used vehicles; dismantle, scrap,
23 recycle, or salvage more than six vehicles; or rebuild or restore
24 for sale more than six wrecked or salvage vehicles in a 12-month
25 period; or with respect to vehicles not currently registered,
26 store more than six vehicles or store damaged vehicles except
27 where such storage is incidental to the primary purpose of the
28 repair of vehicles for others. The licensing requirement does
29 not apply to persons who are educational institutions, licensed
30 as new vehicle dealers, engaged in a hobby not for profit,
31 engaged in the business of purchasing certain parts of vehicles
32 only for sale as scrap metal, insurance companies, county mutual
33 insurance associations, or state mutual insurance associations.
34 A license issued to a person must be conspicuously displayed at
35 the person's principal place of business except during periods

1 when the license is surrendered for modifications.

2 This bill prohibits a person, beginning January 1, 2027,
3 from recycling battery electric motor vehicles or plug-in hybrid
4 electric motor vehicles unless the person is an authorized
5 vehicle recycler who has successfully completed a vehicle
6 high-voltage battery safe handling and storage education program
7 approved by the DOT and displays a program completion certificate
8 next to the recycler's license. The DOT is required to approve
9 such programs, which must award a program completion certificate
10 to an authorized vehicle recycler who successfully completes the
11 program.

17 by plugging into an electrical outlet or electric vehicle
18 charging station. "Plug-in hybrid electric motor vehicle" means
19 a motor vehicle equipped with electrical drivetrain components,
