28 EXPLANATION

29 The inclusion of this explanation does not constitute agreement with
30 the explanation's substance by the members of the general assembly.

31 Under current law, the department of transportation (DOT) is
32 authorized to issue special registration plates with a space
33 to display an organization decal. The DOT does not issue the
34 organization decal. Instead, the organization is responsible for
35 producing, administering, and issuing the decal. An organization

1 must submit an application to the DOT for approval to issue
2 a decal. An application must include proof of eligibility to
3 issue the decal, a color copy of the completed decal design,
4 a clear and concise explanation of the purpose of the decal,
5 all eligibility requirements for purchasing the decal, and the
6 fees to be charged for the decal. To qualify for approval,
7 the primary activity or interest of the organization must serve
8 the community, contribute to the welfare of others, and cannot
9 be discriminatory in its purpose, nature, activity, or name;
10 the name and purpose of the organization cannot promote any
11 specific product or brand name that is provided for sale; and
12 the organization is required to be a nonprofit corporation which
13 is exempt from taxation under section 501(c)(3) of the Internal
14 Revenue Code and organized under Iowa's laws or authorized to do
15 business within Iowa.

16 This bill authorizes an organization which is exempt under
17 section 501(c)(19) of the Internal Revenue Code to apply
18 for approval to issue an organization decal. To be exempt
19 under section 501(c)(19), an organization must be a post or
20 organization of past or present members of the United States
21 armed forces, an auxiliary unit or society of such post
22 or organization, or a trust or foundation for such post or
23 organization.

24 In 2011, the general assembly authorized the DOT, in
25 consultation with the adjutant general, to design combat
26 infantryman badge, combat action badge, combat action ribbon,
27 air force combat action medal, and combat medical badge
28 distinguishing processed emblem special registration plates.
29 However, the DOT is required to receive 250 orders, including a
30 start-up fee, for each plate before the DOT can produce or issue
31 any of the registration plates. The bill strikes the provisions
32 relating to the special registration plates and minimum order
33 requirements and instead requires the DOT to design and issue
34 separate and distinct decals representing the applicable badges,
35 ribbons, and medals. The decals must be designed to be displayed

1 on registration plates issued under Code section 321.34(13)
2 (plates with space reserved for a decal).

3 The DOT must issue two decals to an approved applicant and the
4 fee for a pair of decals is \$10. The fee is deposited into the
5 road use tax fund and, each month, the treasurer of state must
6 transfer from the statutory allocations fund the amount of fees
7 received under the bill to the veterans license fee fund. The
8 bill makes corresponding changes to Code sections 35A.11(2)(h)
9 and 321.34(20C).

10 The DOT is required to make reasonable efforts to contact
11 applicants who previously applied for and paid the required
12 start-up fee. An applicant is eligible to receive a refund of
13 the \$20 fee, or receive a refund of \$10 plus the applicable
14 decals and plates as provided in the bill.
