18 EXPLANATION

19 The inclusion of this explanation does not constitute agreement with
20 the explanation's substance by the members of the general assembly.

21 This bill relates to event-driven contracts traded on
22 dedicated contract markets by requiring a permit to conduct
23 business in the state, imposing a tax on adjusted revenues, and
24 making adjustments to individual and corporate income taxes.

25 REGULATION AND ADMINISTRATION. The bill defines "event-driven
26 contract" to generally mean a financial derivative traded on a
27 designated contract market (prediction market) that is regulated
28 by the federal commodity futures trading commission that provides
29 a fixed binary payout based upon the occurrence or nonoccurrence
30 of a specific future event rather than being based upon the
31 continuous fluctuation of a security price, commodity value, or
32 interest rate. The bill limits event-driven contracts to those
33 financial derivatives relating to sporting activities, elections,
34 legislative actions, and economic indicators.

35 The bill prohibits a person from engaging in the business

1 of serving as a prediction market at any place of business in
2 this state or through delivery sales, unless the person obtains a
3 permit through the department of revenue (department).

4 The bill directs the department to administer the bill.
5 The bill requires an application for a permit to be made to
6 the department in an electronic format or made in any other
7 manner prescribed by the department accompanied by any associated
8 fees required for the permit and any supporting documentation
9 required. The application shall include information that is
10 reasonably necessary to identify the person applying for the
11 permit and to administer and collect the taxes imposed under the
12 bill. The bill establishes the initial fee to obtain a permit
13 at \$10 million. All permits expire June 30. The annual renewal
14 permit fee is established at \$100,000.

15 The bill imposes a new tax on the adjusted revenues received
16 each fiscal year by a prediction market from any event-driven
17 contracts authorized at the rate of 20 percent. The bill defines
18 "adjusted revenues".

19 The bill specifies all revenues generated from the fees and
20 the new tax are credited to the general fund of the state.

21 INDIVIDUAL AND CORPORATE INCOME TAXES. The starting point for
22 determining either individual or corporate Iowa net income is
23 federal taxable income. The bill specifies section 1256 of
24 the Internal Revenue Code (IRC), with respect to event-driven
25 contracts, does not apply in computing net income for purposes of
26 state individual and corporate income taxes. The bill requires
27 a taxpayer to recompute the gains and losses from event-driven
28 contracts including any loss carried back for purposes of Iowa
29 net income and then requires the taxpayer to add back the gain
30 derived from trading on a prediction market if the trade involves
31 an event-driven contract. If the taxpayer itemized deductions
32 on the taxpayer's federal return, the bill requires the taxpayer
33 to subtract the total loss from each event-driven contract up
34 to an amount equal to 90 percent of the gains added back from
35 event-driven contracts.

1 The bill requires state income tax to be withheld on gains
2 derived from an event-driven contract that is subject to federal
3 taxation under section 1256 of the IRC and is in excess of \$600.
