31 faith.

32 **EXPLANATION**

33 The inclusion of this explanation does not constitute agreement with
34 the explanation's substance by the members of the general assembly.

35 **BACKGROUND.** Current law provides for veterinary medical

1 services that include diagnosing or treating an animal's injury.
2 The services are required to be provided by a veterinarian
3 holding a license or temporary permit issued by the Iowa board of
4 veterinary medicine (Code chapter 169). Certain exceptions apply
5 which allow other persons to provide limited services, such as
6 persons performing accepted livestock management practices (Code
7 section 169.4).

8 BILL'S PROVISIONS. This bill provides an exception for a
9 person certified by the department of health and human services
10 as an emergency medical care provider (Code chapter 147A) when
11 diagnosing or treating a police service dog acting under the
12 supervision of peace officer (e.g., county sheriff or deputy,
13 police officer employed by a city, or member of the department
14 of public safety). The police service dog must be injured while
15 on duty, the injury must be severe, and the veterinary medical
16 services must be necessary to immediately stabilize the police
17 service dog's condition for a later diagnosis or treatment by
18 a licensed veterinarian or temporary permit holder. The bill
19 provides that an emergency medical care provider is not required
20 to diagnose or treat a police service dog, cannot provide such
21 a service prior to diagnosing or treating a human at the scene
22 of an emergency, and is not civilly liable for diagnosing or
23 treating the police service dog if the emergency medical care
24 provider acted reasonably and in good faith.
