25 This bill relates to physical activity requirements applicable
26 to students in kindergarten through grade five.

27 Current law requires all physically able students in
28 kindergarten through grade five to engage in a physical activity
29 for a minimum of 30 minutes per school day, which may include
30 physical education. The bill provides that physical education
31 shall not be used to meet this physical activity requirement.
32 The bill requires that the 30 minutes of required physical
33 activity be consecutive.

34 The bill provides that the physical activity requirement shall
35 not apply when a student is suspended or expelled. The bill

1 also provides that a school shall not prevent a student from
2 engaging in 30 minutes of physical activity per school day unless
3 the student poses a danger to the health or safety of certain
4 specified persons, the school relocates physical activity that
5 was to take place outdoors due to inclement weather, the school
6 dismisses classes early due to unforeseen circumstances, or the
7 student is absent from school, including due to illness or a
8 medical appointment, during the time of the school day that the
9 school provides for the student's class to engage in physical
10 activity.
