Monthly Medicaid Forecast – December 2014

Forecasting Group. Staff members from the Department of Human Services (DHS), the Department of Management (DOM), and the Fiscal Services Division of the Legislative Services Agency (LSA) met on December 12, 2014, to discuss estimated Medical Assistance (Medicaid) expenditures for FY 2015 and FY 2016. The forecasting group meets regularly to discuss estimated expenditures and agree on a range for the current and upcoming fiscal years.

FY 2015 Range. For FY 2015, the group agreed Medicaid will have a need of \$53.0 million to \$83.0 million, with a midpoint need of \$68.0 million. The range includes the following savings and expenditures enacted in <u>HF 2463 (FY 2015 Health and Human Services Appropriations Act)</u>:

- An increase of \$79.1 million to replace federal funds due to a reduction in the Federal Medical Assistance Percentage (FMAP) rate.
- An increase of \$25.6 million to replace one-time funding sources and other revenue changes from FY 2014.
- An increase of \$6.0 million to reduce the Home and Community-Based Services waiver waiting list.
- An increase of \$3.1 million to fund the higher pharmacy dispensing fee survey.
- An increase of \$2.5 million to increase primary care physician rates.
- An increase of \$2.0 million for the cost of Hepatitis C drugs.
- An increase of \$1.4 million to provide coverage to foster children up to the age of 26, as required by the Affordable Care Act.
- An increase of \$1.3 million to rebase the nursing facility reimbursement rates.
- An increase of \$252,000 to increase eligibility for the Miller Trust to 125.0% of the statewide average.
- An increase of \$239,000 to provide a 10.0% increase for ambulance reimbursement rates.
- A decrease of \$1.1 million due to savings from the Balancing Incentive Payment Program.
- A decrease of \$9.1 million due to savings from the implementation of health homes for both children and adults.
- A decrease of \$11.9 million due to the elimination of the transfer to the IowaCare Program that ends during FY 2014.
- A decrease of \$16.3 million due to shifting Medicaid for Employed Persons with Disabilities (MEPD), Dependent Persons, and Pregnant Women to other coverage.

FY 2016 Range. For FY 2016, the group agreed Medicaid will have a need of \$176.0 million to \$236.0 million, with a midpoint need of \$206.0 million. The range includes the full cost of rebasing nursing facilities, hospitals, and home health services, all of which the General Assembly may choose to rebase at a lower level.

- An increase of \$68.0 million to fund the projected shortfall in FY 2015.
- An increase of \$56.1 million to replace federal funds due to a reduction in the FMAP rate. The FMAP adjustment includes a \$34.4 million increase due to a reduction of the regular FMAP, a \$15.1 million dollar increase due to the reduction of the Balancing Incentive Payment (BIP) Program enhanced FMAP rate, and a \$6.6 million increase due to a reduction of Health Home enhanced FMAP rate.
- An increase of \$32.5 million to rebase nursing facilities.
- An increase of \$5.4 million to fund the hospital rebase.
- An increase of \$3.4 million to fund the home health services Lower Upper Payment Limit (LUPA) adjustment.
- An increase of \$1.0 million to fund the hospital inpatient psychiatric cost-based adjustment.
- An increase of \$2.5 million to increase primary care physician rates.
- An increase of \$2.0 million for the cost of Hepatitis C drugs.

• A decrease of \$5.0 million due to savings from the implementation of health homes for both children and adults.

New Hepatitis C Drug. There are several new Hepatitis C drugs on the market or coming to market. The most prominent drug currently available, Solvaldi, is highly effective at treating Hepatitis C, but very costly, with treatment costing a minimum of \$84,000 per individual over the course of the treatment. The Medicaid Program is treating this new drug as they would any other new drug that is available and it is anticipated to add significant cost increases to the Program over the next few years. For FY 2015 and FY 2016, the forecasting group has included an additional \$2.0 million each year in State expenditures to cover expenditure increases for these drugs.

Medicaid Enrollment. For FY 2014, enrollment grew by 1.6% adding 6,279 individuals, for a total enrollment of 408,356. In the first three months of FY 2015, Medicaid enrollment declined by 3,549 individuals, for a total Program enrollment of 404,807 individuals.

Iowa Health and Wellness Program (I-HAWP) Enrollment. The new I-HAWP Program began on January 1, 2014. The Program is paid for with 100.0% federal dollars for the first three years. The enrollment through the first fiscal year (FY 2014) was 110,533, with 86,270 of those individuals enrolled in the Wellness Plan. For the first three months of FY 2015, enrollment has increased by 7,165. Individuals enrolled in both the Iowa Wellness Plan and the Marketplace Choice Plan may be determined medically exempt by the DHS and provided coverage through the regular Medicaid State Plan if they meet certain requirements. As of November 2014, there were 12,434 Medically Exempt individuals.

Home and Community-Based Services (HCBS) Waiver. The Medicaid HCBS Waivers provide support services to 26,639 individuals, helping them to stay in their homes instead of living in a facility. In FY 2014, the State spent \$244.9 million on the seven HCBS waivers, with the majority (\$183.8 million) being spent on the Intellectual Disabilities Waiver.

Below is a chart of the current enrollment on the waivers, slots pending, and the number of individuals on the waiting list for each waiver. Individuals may apply for more than one waiver so there may be duplicate individuals on the waiting list. Individuals apply for the waivers before they go through the eligibility process, so there may be individuals on the waiting list who are not eligible, are no longer eligible, or who's circumstances have changed and no longer need waiver services.

FY 2016 FMAP. The Bureau of Economic Analysis released their final state personal per capita income data for 2013 on September 30, 2014. This allowed states to calculate their final FY 2016 FMAP rates. The FY 2016 FMAP rates are based on per capita personal incomes for calendar years 2011-2013. Iowa's FY 2016 FMAP rate declined significantly dropping by 1.07% to 55.07%. The FMAP decrease also indicates that Iowa's economy is doing better compared to other states, resulting in a smaller share of the total FMAP pie for Iowa. Iowa's FMAP rate has declined 7.8% since FY 2012 and this shift means several hundred million dollars of Medicaid expenditures are shifted from the federal funding to state funding.
