DATE: July 1, 2020

Monthly General Fund Revenue Receipts Through June 30, 2020

The attached spreadsheet presents FY 2020 General Fund total net receipts with comparable figures for actual FY 2019. The figures can be compared to the FY 2020 estimate of \$7.834 billion set by the Revenue Estimating Conference (REC) on May 29, 2020, adjusted for the enactment of revenue changes in [HF 2641](#) (Department of Revenue Omnibus Act). The FY 2020 estimate is an increase of \$97.9 million (1.3%) compared to FY 2019 actual receipts (excluding transfers). The next REC meeting has not been scheduled.

Overview of Current Situation

June 2020 net General Fund revenue was \$28.5 million (4.3%) above the June 2019 revenue level. Part of the increase experienced this month resulted from tax due date delays ordered in response to the COVID-19 pandemic, with more details available in this [Fiscal Update Article](#).

Cash year-to-date net receipts are \$184.3 million (-2.4%) lower than FY 2019. A further year-to-date analysis of the tax due date delays and economic impacts of business closures by tax type is available in this [Fiscal Update Article](#). Some portion of the revenue reduction experienced between mid-March and the end of July will be a real reduction in tax collections, while some

portion will be the result of tax due date delays initiated by the State. It will not be until the delayed tax payments have been deposited that the economic impact of recent events can be reasonably estimated. Major sources of revenue and their contributions to the FY 2020 year-to-date revenue change include:

- Personal income tax (negative \$292.0 million, -5.9%).
- Sales/use tax (positive \$130.6 million, 4.3%).
- Corporate tax (negative \$57.6 million, -8.2%).
- Other taxes (positive \$6.2 million, 1.9%).
- Other receipts (negative \$2.6 million, -0.8%).
- Tax refunds not including school infrastructure refunds (positive \$32.6 million).
- School infrastructure sales/use tax refunds (negative \$1.4 million).

Fiscal Year Growth

Table 1 converts year-to-date receipts from a cash year basis to a fiscal year basis.

	FY 2019	FY 2020	Difference		
Net Personal Income Tax	\$ 3,812.9	\$ 3,490.6	\$ -322.3		-8.5%
Net Sales/Use Tax	2,269.4	2,387.3	117.9		5.2%
Net Corporate Income Tax	498.9	498.8	-0.1		0.0%
Net Franchise Tax	34.8	58.2	23.4		67.2%
Net Inheritance Tax	61.2	63.4	2.2		3.6%
Net Insurance & Other Taxes	170.8	162.3	-8.5		-5.0%
Other Receipts	305.4	303.9	-1.5		-0.5%
Net Revenue	\$ 7,153.4	\$ 6,964.5	\$ -188.9		-2.6%

Revenue Categories

Personal Income Tax receipts received in June 2020 totaled \$376.8 million, a decrease of \$2.7 million (-0.7%) compared to June 2019.

The FY 2020 REC personal income tax estimate of \$4.613 billion represents a projected decrease of 6.7% compared to actual FY 2019. Through June 2020, personal income tax receipts decreased 5.9%. By subcategory, withholding payments decreased \$35.7 million (-0.9%), estimate payments increased \$24.6 million (4.9%), and payments with returns decreased \$280.9 million (47.5%). **Chart 2** compares FY 2019 and FY 2020 monthly income tax receipts from the three personal income tax subcategories.

Sales/Use Tax receipts received in June 2020 totaled \$238.3 million, an increase of \$10.2 million (4.5%) compared to June 2019.

The REC estimate for FY 2020 sales/use tax receipts is \$3.144 billion, a projected increase of 3.2% compared to actual FY 2019. Through June 2020, sales/use tax receipts increased 4.3%. **Chart 3** compares FY 2019 and FY 2020 monthly sales/use tax receipts.

Corporate Income Tax receipts received in June 2020 totaled \$101.4 million, an increase of \$4.6 million (4.8%) compared to June 2019.

The REC estimate for FY 2020 corporate income tax revenue is \$647.4 million, a projected decrease of -8.2% compared to actual FY 2019. Through June 2020, corporate income tax receipts decreased 8.2%. **Chart 4** compares FY 2019 and FY 2020 monthly corporate income tax receipts.

Other Tax receipts received in June 2020 totaled \$43.1 million, an increase of \$22.1 million (105.2%) compared to June 2019. This increase is due to a \$23.4 million deposit in insurance premium tax receipts, which is a deposit timing issue compared to deposits in FY 2019. Through June 2020, insurance premium tax receipts decreased 6.5%.

The REC estimate for FY 2020 other tax revenue is \$328.7 million, a projected increase of 2.3% compared to actual FY 2019. Through June 2020, other tax receipts increased 1.9%.

Other Receipts (nontax) received in June 2020 totaled \$26.6 million, a decrease of \$3.5 million (-11.6%) compared to June 2019.

The REC estimate for FY 2020 other receipts revenue is \$336.0 million, a projected increase of 0.4% compared to actual FY 2019. Through June 2020, other receipts decreased 0.8%.

Tax Refunds issued in June 2020 totaled \$51.6 million, a decrease of \$1.1 million compared to June 2019. In addition to regular refunds, school infrastructure refunds totaled \$44.8 million, an increase of \$3.1 million compared to June 2019.

Status of the Economy

Iowa Nonfarm Employment was reported at 1,425,300 for the month of May 2020 (not seasonally adjusted), 177,500 (-11.1%) lower than May 2019.

Iowa's 12-month average nonfarm employment is presented as the blue line on **Chart 5**. Iowa's average nonfarm employment peaked in November 2019 at 1,586,200. This figure is 59,900 above the prior peak that occurred in October 2008. The current 12-month average reading is 1,552,900, resulting in an annual average Iowa nonfarm employment level that is 33,300 below the 2019 peak.

The red line on **Chart 5** presents Iowa nonfarm employment as a percent of U.S. nonfarm employment. Iowa's share of U.S. nonfarm employment decreased noticeably from 1999 through 2002, decreased at a much slower pace from 2002 through 2007, and increased from January 2008 through June 2010. However, Iowa's percentage of U.S. employment has declined as the percentage growth in U.S. employment has exceeded the percentage growth in Iowa employment since June 2010. Iowa's percentage of U.S. employment has increased slightly from its lowest level in March 2020, when U.S. employment fell more in the wake of the COVID-19 pandemic response. The National Bureau of Economic Research announced that the peak in monthly economic activity occurred in the U.S. economy in February 2020. The peak marks the end of the expansion that began in June 2009 and the beginning of a recession. The expansion lasted 128 months, the longest in the history of U.S. business cycles dating back to 1854. The previous record was held by the business expansion that lasted for 120 months from March 1991 to March 2001.

The **Consumer Price Index (CPI)** through May 2020 was 256.4 (1983/84=100). Consumer prices were unchanged in May 2020 (not seasonally adjusted), and the annual rate of inflation decreased to 0.1%.

Core CPI, an inflation measure excluding food and energy expenditures, decreased 0.1% in May 2020 and increased 1.2% year-over-year. This is the second month where core inflation rate was below 2.0% year-over-year. For the two components excluded from the core inflation rate, energy prices are down 18.9% year-over-year and food prices are up 4.3% year-over-year.

Further information can be found on the Fiscal Services Division webpages related to [State General Fund Daily Receipts](#) and other [Iowa Economic Trends](#).
