Monthly General Fund Revenue Receipts Through January 31, 2021

The attached spreadsheet presents FY 2021 General Fund total net receipts with comparable figures for actual FY 2020. The figures can be compared to the FY 2021 estimate of \$7.861 billion set by the Revenue Estimating Conference (REC) on December 11, 2020. The FY 2021 estimate is an increase of \$45.4 million (0.6%) compared to FY 2020 actual receipts (excluding transfers). The next REC meeting has not been scheduled.

Overview of Current Situation

January 2021 net General Fund revenue was \$115.4 million (14.0%) below the January 2020 revenue level. The decrease over this time frame reflects the result of the quarter-end and annual tax payment due dates falling on the weekend this year, pushing tax payments into February 2021. Major sources of revenue and their contributions to the FY 2021 year-to-date revenue change include:

- Personal income tax (positive \$196.5 million, 7.2%).
- Sales/use tax (positive \$2.0 million, 0.1%).

- Corporate tax (positive \$126.8 million, 33.3%).
- Other taxes (negative \$7.9 million, -4.4%).
- Other receipts (negative \$19.8 million, -10.1%).
- Tax refunds not including school infrastructure refunds (negative \$16.9 million).
- School infrastructure sales/use tax refunds (negative \$10.3 million).

Status of the Economy

Iowa Nonfarm Employment

was reported at 1,522,500 for the month of December 2020 (not seasonally adjusted), 66,500 (-4.2%) lower than December 2019.

Iowa's 12-month average nonfarm employment is presented as the blue line on **Chart 5**. Iowa's average nonfarm employment peaked in November 2019 at 1,586,200. This figure is 59,900 above the

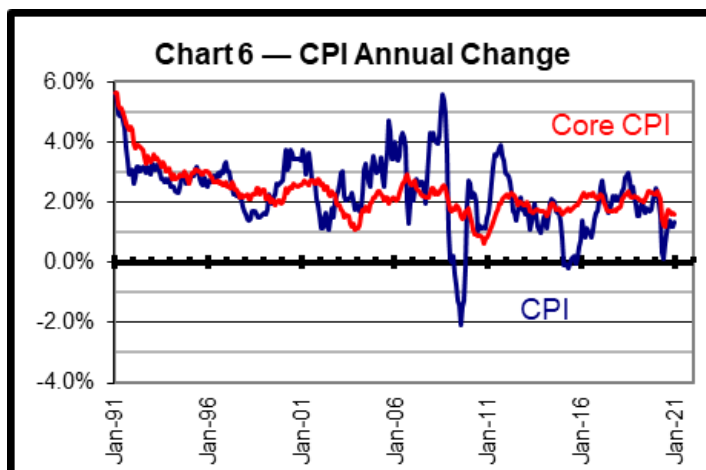

prerecession peak that occurred in October 2008. The current 12-month average reading is 1,501,600, resulting in an annual average Iowa nonfarm employment level that is 84,600 below the November 2019 peak.

The red line on **Chart 5** presents Iowa nonfarm employment as a percent of U.S. nonfarm employment. Iowa's share of U.S. nonfarm employment decreased noticeably from 1999 through 2002, decreased at a much slower pace from 2002 through 2007, and increased from January 2008 through June 2010. Iowa's percentage of U.S. employment is declining as the percentage growth in U.S. employment has exceeded the percentage growth in Iowa employment since June 2010. Iowa's percentage of U.S. employment has increased slightly from its lowest level (March 2020) as U.S. employment fell more in the wake of the COVID-19 pandemic response.

The **Consumer Price Index (CPI)** through December 2020 was 260.5 (1983/84=100). Consumer prices increased slightly in December 2020 (not seasonally adjusted), and the annual rate of inflation increased to 1.4%.

Core CPI, an inflation measure excluding food and energy expenditures, decreased slightly in December 2020 and increased 1.6% year-over-year. This is the ninth consecutive month in which the core inflation rate was below 2.0% year-over-year. For the two components excluded from the core inflation rate, energy prices are down 7.0% and food prices are up 3.8% year-over-year.
