

Percent of Age 0-5 Population with Family Income Below 185% of Poverty Level

By County - FY 2013

Note: Percentages are calculated as the number of children, age 0 - 5, below 185% of the federal poverty level divided by the total age 0 - 5 population in each county. The figure for each county represents the total number of children age 0 - 5 population below 185% poverty and the percent of children age 0-5 below 185% poverty.
