

# Early Childhood Iowa – Changes in State Funding

FY 2012 to FY 2013

Note: Early Childhood Iowa (ECI) provides funds on a regional basis for services to families with children ages 0-5. Funding is allocated by a formula that considers 0-5 population and poverty levels. Appropriations for FY 2012 and FY 2013 are the same and differences in allocations to ECI Areas are due to mergers, carryforward funds, and demographic changes. Percent change in allocations is in bold and italics.
