The Iowa Department of Transportation (DOT) administers the State Aviation Program. The Program provides funds to Iowa general aviation and commercial service airports in the form of grants for aviation safety, planning and development, and vertical infrastructure.

Both Commercial Service Vertical Infrastructure (CSVI) and General Aviation Vertical Infrastructure (GAVI) grants are typically funded from the Rebuild Iowa Infrastructure Fund. In FY 2018, the General Assembly appropriated $900,000 for commercial service airports, and $500,000 for general aviation airports. In FY 2018, the DOT used an additional $20,200 in Airport Improvement Program funds for GAVI grants.

### Commercial Service Vertical Infrastructure Grants

- **Sioux Gateway** Regional $61,397
- **Fort Dodge Regional** $57,281
- **Des Moines International** Regional $348,769
