

Iowa Wind Energy — 2017

4,172 Turbines
Statewide

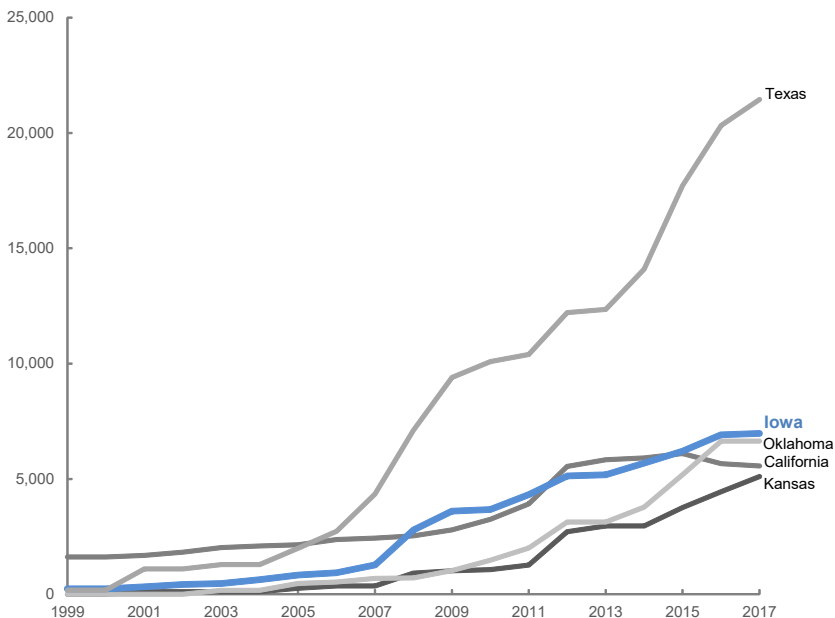

7,312 Total Generating
Capacity in Megawatts*

37.0% Estimated Percentage
of Electricity Generated
by Wind in Iowa*

Installed Wind Energy Generating Capacity and Number of Turbines — July 2017

Top 5 States by Installed Wind Capacity
In Megawatts (MW)

Click [here](#) for a short interactive story map on wind energy in Iowa.

*Statewide capacity and percentage of electricity generated by wind is estimated by the American Wind Energy Association (AWEA).
