Rebuild Iowa Infrastructure Fund appropriation to the DNR for the Water Trails and Low Head Dam Public Hazard Program.

DETAIL: Projects related to eligible water bodies as defined in Iowa Code section [456A.33C](#) are eligible for grants from the Water Trails and Low Head Dam Safety grants appropriation in FY 2024. This includes projects funded by the On-Stream Impoundment Restoration Fund.

These funds support grant awards to local entities for water trail enhancements and dam mitigation grants to dam owners, including State and local government entities and private owners, to improve low head dam safety. State-designated water trails are designed to provide four basic types, or levels, of recreational experiences: Gateway, Recreational, Challenge, and Wilderness. Each segment of a water trail is assigned one of these experience ratings to reflect a range of conditions available to the user in the designated waterways.

While there are different types of low head dams, they generally consist of a riverwide dam that is normally overtopped by the entire river's flow. Flood gates may or may not be present to reduce upstream flooding effects. The height of these dams is less than 30 feet. Low head dams were originally constructed throughout Iowa to power gristmills and sawmills. Some dams were later used for hydroelectric generation. Low head dams can be extremely dangerous

due to the powerful recirculating hydraulics that are generated. Prior year appropriations for the Water Trails and Low Head Dam Public Hazard Program include:

- FY 2023: \$1,500,000 from the RIIF.
- FY 2022: \$1,000,000 from the RIIF.

This appropriation is exempt from the vertical infrastructure requirement in Iowa Code section [8.57](#)(5)(c).

This is an increase compared to previous years due to the State contractually assuming an annual maintenance agreement in the amount of \$2,315,350 beginning in FY 2024. The difference will be funded from the Road Use Tax Fund and Primary Road Fund.

A lease-purchase contract was signed with Motorola in 2015 at an estimated cost of \$39,500,000 (\$36,400,000 in principal and \$3,100,000 in interest) over 10 years. This is the eighth payment made by the State. This is the seventh year the payment for the Communications System has been funded by the RIIF. In prior years, the payment was funded by the E911 Fund. 8 21 and charges, and institutional income to finance the cost of

8 24 FY 2023-2024:
8 25 \$ 27,900,000

Rebuild Iowa Infrastructure Fund appropriation to the Board of Regents to replace tuition used to pay debt service on academic revenue bonds.

DETAIL: Since FY 2016, \$192,358,738 has been appropriated from the RIIF to the Board of Regents to fund payments on debt service. This appropriation replaces student tuition and fees that pay the debt service on academic revenue bonds authorized in prior fiscal years. Iowa Code chapter [262A](#), enacted in the 1969 Legislative Session, authorizes the sale of academic revenue bonds by the Board of Regents.

The first academic revenue bonds were issued in 1970 and provided the primary source of funds for construction of academic facilities at the universities for several decades. Academic revenue bonds are secured by student tuition and fees. The appropriation is not mandatory by statute, but the Board of Regents indicated that without a tuition replacement appropriation, an aggregate tuition increase of 4.10% across the universities will be required to pay the debt service.

Funding for tuition replacement has been provided for many decades. Until FY 2002, the appropriation was made solely from the General Fund. After FY 2002, portions were funded from the General Fund and from infrastructure-related funds such as the RIIF and the RCF. From FY 2006 to FY 2008, funding for this appropriation was divided between the General Fund and the RIIF. Since FY 2009, the entire appropriation has been funded from the RIIF. The exception to this is FY 2018, in which appropriations were made from both the RIIF and the State Bond Repayment Fund.

The tuition replacement appropriation provides most of the annual debt service on the academic revenue bonds, but a portion of the debt service is paid from reserve fund interest.

8 26 b. For an addition to the veterinary diagnostic laboratory

8 28 FY 2023-2024:

Phase one of the Veterinary Diagnostic Laboratory is expected to be completed in fall 2023 and will house case receiving, initial assessment, and sample processing functions. *House File 711 (Levee Safety and Improvements Bill) appropriates \$5,000,000 of State wagering tax receipts off-the-top to the Levee Improvement Fund each year from FY 2024 through FY 2028. If enacted, this would reduce available State wagering taxes to the RIIIF by \$5,000,000 in FY 2024.
