

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Orange

My name is Stella King. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

New York NY

09/18/1999

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not spoken to. there was no information given to me about the procedure or the affect physical and mentally.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no talking, no counselor, no information given to me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Parents

9. How has abortion affected you?

I suffered depression, thoughts of suicide, low self esteem and unworthiness. i regret the decision I made mourn for my baby.

10. How has your abortion affected others in your life?

My husband now, who was not in my life at the time, has add to stand by and watch me mourn the loss of my child and felt helpless, my children were sad knowing the have a sibling they never met because of a choice I made.

11. Based upon your experience, what would you tell a woman considering abortion?

That it is a life, not a piece of tissue. That the joy a child brings is greater than the worry. And that the murder of their child is not worth it, because she wound not be getting rid of the problem, changing her life because the choice to abort will hunt her and affect her life, negatively.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

That just because it is legal now, does not mean it is right. the murder of a child at one month after birth is just as devastating as the murder of a child at contraception. AND that a baby at 3 weeks after conception even tho is may not be fully formed yet is exactly what a baby looks like at that stage of life.. just as a 3 weeks old baby after birth does not look and talk like a 6 year old, it does not mean they are not a human being, because they are!! it is a life!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of IL

County of Rock Island

My name is Beth Lizano. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Iowa City IL

04/14/2003

2. How many weeks pregnant were you?

3

3. What type of abortion was performed?

unsure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

no explanation that I can recall. Just information on the pain pill I was taking, and that they may not be able to do the procedure because I was only 3 weeks pregnant.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea what I was doing. I had no idea how they did the procedure...I only remember that I would feel like I was having a period afterwards and to wear a pad until the bleeding stopped.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have dealt with anger and rage. Regret, often thinking about how old my children would be...wishing someone could have stopped me...I also had a tubal pregnancy later on in 2006 and wondered if it was because of the abortions.

10. How has your abortion affected others in your life?

I am unsure of the fathers I have not talked to them. I have had 2 abortions. I would say the biggest effect was on my family and how I behaved, lashing out in anger, spiraling into a depressed state, hating myself and contemplating suicide.

11. Based upon your experience, what would you tell a woman considering abortion?

I would share with her my experience and choice to abort my babies. I would tell how years later you still feel regret and like you are hiding a secret. I would ask her to go to a pro life clinic and to watch a video on what an abortion really is...that they are removing a bay from your womb...a living, breathing baby. I would encourage here to think of other options like adoption...look and see what kind of help

and support is out there for a pregnant woman...

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

When you make the decision to abort your baby and walk into a clinic, they do not sit you down and explain the procedure, what to expect later in life when you have a miscarriage and blame yourself for making the previous choice to abort. They don't tell you all the other choices you have besides abortion. Because of the corruption of this world and our money- hungry, "civilized" persons in control, abortion is legal because it rakes in 100's of 1000's of dollars. You can walk into The Woman's Choice Center and look at all your options and they will show you all the stages of pregnancy and the different procedures for aborting your baby. They also share the statistics of both choices. I think that is the ideal choice. We are a governed democracy, and we have an obligation to vote for what is right and just for one nation under God. After my abortions I started condemning myself for choosing abortion, I was filled with anger and rage...having outbursts at any given time, not realizing it partly stemmed from my "choice" to abort my children. Gradually, through the grace and mercy of an awesome God, I began to heal. I went through a tremendous bible study, Surrendering the Secret, and was able to share my abortion story with other post abortive women....and I knew I was not alone. I learned that I was forgiven by a great God and now I can share my story in hopes that other women who become pregnant will not choose abortion, but LIFE.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Navarro

My name is Amanda Coyle. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

10//2000

2. How many weeks pregnant were you?

3. What type of abortion was performed?

not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was fifteen at the time and was forced by my mother to have an abortion. I do not recall much of the actual day or leading up to it. The trauma of it all has affected my memory badly.

5. Were you adequately informed of the consequences of abortion?

Yes No

See above

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my mom - biologically grandmother

9. How has abortion affected you?

It completely changed who I was. Before the abortion, I was an outgoing, social teenager. After, I lost my worth and value as a person, became depressed and anti-social. The insecurities took over me for ten years until God brought healing. I became a people pleaser and tried to prove in any way I could that I was a good person.

10. How has your abortion affected others in your life?

It affected all my relationships. I was no longer the same person, but no one knew why. I carried the pain into a marriage that didn't survive and am now a single mom doing my best to not let my negative past affect my daughter's future.

11. Based upon your experience, what would you tell a woman considering abortion?

Please choose life for your child. There are so many other options than death. Not only are you ending your child's life, but you will be profoundly affecting yours in ways you could never imagine. I would ask if I could share my story and pray with her.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Murder is murder, period. A woman's right stops at her own body. A child has a right to life, it should not be someone else's choice. I would like to point out the cases of mothers and fathers being charged with murder when they intentionally kill their children and ask how it is okay then for the same thing to occur in clinics across the country and it be declared a medical procedure. I would like to share the emotional and mental aftershocks of this simple medical procedure. I would also like to stand up and say that rape is NOT an excuse to allow an abortion. You should not punish the child for the father's crime. I can first handedly tell them that having the life of your child ripped from your body is much more traumatic then having your body taken over unwillingly. The loss of a child is a haunting sorrow that never fades in time.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of AK

County of none

My name is Victoria Faber. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Anchorage AK

//1976

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told nothing

5. Were you adequately informed of the consequences of abortion?

Yes No

I was given no information whatsoever.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

My entire life was affected. I was so emotionally wrecked at the time that I had a hysterectomy because I believed I was too messed up to ever be a good parent. Consequently I never married though I was engaged several times until my boyfriend found out I couldn't have children. By the time I found Christ I was suicidal. I personally think abortion is the most evil scourge in this country.

10. How has your abortion affected others in your life?

It broke my mother's heart. It has colored all my relationships. I had to leave home when my sister started having kids as I couldn't stand to hear children cry.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT. DON'T DO IT. DON'T DO IT!!!!!!!!!!!!!!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Except in the most extreme medical cases where needed to save the Mom's life should it ever be legal. We need to set in place alternatives for women so they won't feel they have no choice. They need to be given all the facts especially about the long term effects of abortion. Abortion is big business and as long as it is it will never be abolished. Cut off the money pipeline.

QUESTIONS

1. Where and when did your abortion occur?

Boston MA

06//1974

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

Not sure - suction of some kind

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I had a serious infection afterwards, that left scar tissue in my fallopian tubes, which made having children difficult later on in life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents

9. How has abortion affected you?

I have suffered from guilt all of my life, and also have relived the horror of that day many times during my life.

10. How has your abortion affected others in your life?

It probably affected a lot of my choices earlier in life. Certainly my decision to marry my first husband as I was trying to feel that I was capable of being loved even though I had done something so horrendous.

11. Based upon your experience, what would you tell a woman considering abortion?

I would, and have, encourage and more than that, strongly urge women to give birth and adopt out their baby. It is the most loving, humane way to resolve an unwanted pregnancy.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

No, definitely not.

HOW MY ABORTION AFFECTED ME

The State of AK

County of Ketchikan Boro

My name is DIANE SZURLEYS. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

New York NY

07/20/1969

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

first trimester-vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told about the procedure but not about the pain or the physical side effects. Bleeding etc.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told nothing about after effects, the subject was not brought up.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

boyfriend and fear of parents.

9. How has abortion affected you?

After the abortion, I started drinkin and smoking, experimented with drugs,I would cry often,suffered from anxiety attacks,(though I was told back then that there was nothing wrong with me and the doctor offered me sleeping pills and tranquilizers while he also told me that I couldn't kill myself with them. I was shocked at this remark and asked the doctor if he thought I was suicidal,he said he wasn't sure. I refused the medication and left. I also became antisocial, felt tired all the time, became involved in bad relationships, 3 years later became pregnant again and had another abortion in Boston,(felt numb).

10. How has your abortion affected others in your life?

when I got married and conceived my first child I worried all the time about the pregnancy.I begged God not to hurt my baby as punishment for my abortions. I became a very overprotective mother to the point that I almost drove my children away until I finally went into therapy.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't have one, the side effects are terrible, and you are never the same again. You always have a hole

in your heart that will never be filled even if you learn to forgive yourself. We are not animals, we are human beings and are not supposed to kill our babies. You can never go on the Oprah show and see the child you gave up because there is no child. Adoption is a much better option, the guilt you feel from that is nothing compared to abortion. Your child is just that, a child, with the right to live and laugh and play and love. We do not have the right to treat that baby as a non-person.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

They are wrong. The side effects of abortion are taking a financial toll on this country that can never be payed back. Drug and alcohol addiction, promiscuity, sexual transmitted diseases, suicide, cancer, child abuse, parent abuse, the list goes on.

3. What type of abortion was performed?

?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

The only explanation that was given to me concerned the nature of the procedure strictly from a medical perspective, i.e., what they were doing and what the result would be as well as any immediate complications that I should watch for. There was no explanation of what could happen to me long term.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

boyfriend

9. How has abortion affected you?

It has caused deep depression and has made me feel hopeless at times. It reaches out to many areas of my life -- my health both physically, emotionally and spiritually -- and is something that I will always regret. It is an active memory in my mind and my heart - something that stays with me, not passing with time and I often wonder about the child, what would he or she look like, how old would he or she be if alive today. If I had the chance to do it over again, I would not go through with it.

10. How has your abortion affected others in your life?

I struggle with depression which affects my family.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her the truth about how scarring it really is, not just the pitiful explanation provided at the time of the procedure. I would tell her that adoption is a much better option.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that it's murder and that it should not be legal.

9. How has abortion affected you?

It took me 17 years to finally face the pain and deal with it. I went through "Women In Ramah" counseling and was able to accept forgiveness from God for murdering my baby and accept forgiveness for myself. I cried and grieved over the loss of my baby and look forward to seeing her one day in heaven. Abortion robs a woman's soul and is like aticking time bomb waiting to go off and affects every relationship a person has. It causes a woman shame, there is little supprt available to her to actively grieve her loss and acknowledge it. It is hidden and lies underground like an infestation or some dreaded disease until it erupts through anger,etc affecting every relationship she has.

10. How has your abortion affected others in your life?

They have tried to understand but cannot comprehend the pain and grief associated with it. Because it is not dealt with in the open, it makes healing so much more difficult for the woman or young girl who has experienced abortion. One cannot help but be affected by the decision for a life time and in so many ways, too numerous to mention. Also know that even your closest friends may not understand and may turn against you and curse you for your decision. There will probably be no support for you from anyone.

11. Based upon your experience, what would you tell a woman considering abortion?

NO!!!!!!!!!!!!!! You are more important than that and so is your baby's life. You will live to regret the decision for the rest of your life even though you may forgive yourself and seek forgiveness from God, you will still remember and nothing can take that away. You will wonder about your unborn baby and the priceless treasure you threw away all because of your fear, selfishness, etc. Even your best friends will probably turn against you and there will be no support for you from anyone for the decision you made. The news may become public information at school if you tell the wrong person and you will dread going to school because of the talk and sneers behind your back and to your face. Is it really worth it? wouldn't it be better to just have your baby and give it up for adoption?

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Please rethink your decision and carefully weigh the pros and cons before God, our Creator. Ultimately you will answer to Him alone for the choices you make to bless life or destroy it by your verdict.

The State of AK

County of USA

My name is Marsha George. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Seattle WA

//1975

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

1st trimester in each of 3 abortions... 1975, 1976, 1977

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was barely 18, just a kid. I heard the staff talk to me but didn't really hear a thing let alone really understand what I was actually doing. Ending inconvenient pregnancies, yes, but, killing babies? Not a clue.

5. Were you adequately informed of the consequences of abortion?

Yes No

Consequences? What consequences? How could ending an inconvenient pregnancy have consequences? No one, but no one could have even begun to explain back then the next 35+ years of depression and guilt that I will carry the rest of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I am 51 yrs old. My first abortion I may have been 18. My second, 19 and my third at 20. I became a born-again Christian shortly after my 21st birthday. Read the poem I wrote 6 years ago. You can read it on my website at <http://www.ketchipoems.com/mommawhy.htm> I've also included it below in the answer to question #11 of this statement.

10. How has your abortion affected others in your life?

Well, as to my family members: My husband and I have been together since we were 16. He is the father of both my two living sons, my 3 aborted children and 1 lost to miscarriage. My sons have been deprived of knowing their 3 sisters and another brother. I try to make their lives count by being there for other people's children during their tough times of life.

11. Based upon your experience, what would you tell a woman considering abortion?

MOMMA WHY? I have two sons, Present with me. Tall and strong, Handsome as can be. God in His mercy, Gave me to raise. Lent for a time, To teach them to praise. Alone with my thoughts, I wondered why no girls? To dress up with ribbons, And play with their curls. I answered my own questions, As I remembered why. I was way too young, And on planes I would fly. Returning so empty, I did not even know, Little souls went to heaven, Tears later, would flow. Again in my thoughts, Will I see them once more? Instantly I knew, They're on heavens golden shore. I wondered, when I see them, Would their question to me, Be, why Momma why? Why didn't you want me? As I wake from my trance, A river was flowing. A river of tears, That seemed never slowing. I wondering how they, Would have looked today? Tall and strong, Like their brothers, they may? I see a young maid, Standing next to my son. I look to see, Yes, she's the one. She had his complexion, His smile and his hair. She was tall and strong, Like his, her spirit, fair. I see her now, In the maidens He sends. The Lord sends my way, To minister and defend. Forgiven I know, But I'm looking to hold. For the daughters I'd not had, With those still here in the fold. Dedicated to all my children Here: Michael & Josh Home: Jonathan, Danielle, Michelle, Corrina Copyright 2002 by Marsha George, Ketchikan, Alaska

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Only butcher's in a butcherous country could justify the butchery that they allow to continue. Murder is murder regardless of "legalities" of bad law!

HOW MY ABORTION AFFECTED ME

The State of AK

County of none

My name is L D I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dal TX

//1981

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

don' remember-

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I asked for anesthesia and was crying because I knew what I was doing was wrong. My life was in a shambles and I wasn't talking to anyone.

5. Were you adequately informed of the consequences of abortion?

Yes No

It was a proceedure to them.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Very negatively-nightmares, guilt, even though I started to work through greif process, it is too hard for me to sit and talk about it.

10. How has your abortion affected others in your life?

Probably my my family, but they don't even know I had this and I would not want to tell them

11. Based upon your experience, what would you tell a woman considering abortion?

I would say, Dear heart, do not do this on a whim thinking that having this operation will make you life less complicated. When you are carrying a child, that child is with you forever, if not in your arms, or in an adoptive parents arms, your child will be in your dreams and conscience forever. Love yourself enough to go through with the pregnancy no matter what shame you may feel or think what an inconvienece another "life" may be to you at this time in your life, well too late now, we should have thought of that before we had sex.(this may seem harsh to some, but when you are panicing because you are all alone and to prideful to ask for help it is real)The word inconvenience is shallow because

and dear child is never an inconvenience, just the timing in our society tells us and indoctrinates us to believe so. Please open yourself up to consider another route. You will not regret adoption as much as ending another person's life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe that women, since the beginning of time are natural caretakers, but we have also been exploited, misunderstood and abused. Education should always include the whole story, not just one side. Leaving out facts is the same as lying! Every young adult from 12 on up should be shown what birth is and what abortion is. They see thier peers shoot up heroin, smoke dope, and what horrifying thing on TV and play aggressive, bloody, computer games. Why not show a baby being killed through abortion along sid of a new life being brought into this world. Teach them to be responsible with thier heart and body so they will never have to make a choice like this.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of AK

County of Kenai

My name is Mendy Bradham. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Augusta GA

//1979

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

DNC

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Though the procedure & the fact that it 'terminates pregnancy' were made clear, there was no discussion of the nature of abortion. Nothing was mentioned of the emotional or physical consequence of abortion for the mother, & more importantly, there was no mention of the fact that the fetus in my womb was really a living and viable baby already and not simply 'growing tissue'.

5. Were you adequately informed of the consequences of abortion?

Yes No

When I was about 15 years old (I am unsure of the exact time/year), I found out I was pregnant. I was, in essence, an unsupervised teen from a greatly dysfunctional family. I went to my mother for help. There was no discussion. She drove me to a local clinic and the abortion was performed without explanation.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

mother

9. How has abortion affected you?

The 'glossy' feeling I had as a young girl during and after the abortion stayed with me for years throughout my teen and young adult life. I got pregnant out of marriage again in my early twenties and did not even think about keeping the child. A friend drove me to another clinic in Columbia, SC, where I had a second abortion. It was, for lack of a better way to say it, 'a way of life', so much so that the complete lack of moral, ethical, and biblical value of life were not in the picture...I was completely lost and had 'learned' to view abortion as an answer to 'birth control' instead of what it really is...the murdering of an innocent life and an avenue for deep pain, shame & guilt to enter and take over mine. It

was not until my adulthood in my 30s that I realized what had really occurred, and what followed afterward was many years of a long and difficult road to find inner healing. I finally got to a place where I could forgive myself, having recieved forgiveness.

10. How has your abortion affected others in your life?

In 2001, (married and pregnant with our 3rd child), I was asked to abort my pregnancy at 9 weeks due to an Abrupted Placenta over 50% around my uterus. I was bleeding heavily and my OB told us if we did not abort, I could hemorrhage to death and there was no chance a normal delivery. MD said he had never seen a abruption this advanced make it. I refused to terminate because of my prior experiences with abortion. They sent me home on complete bed rest and said if I make it to come back the next week. For the next three weeks, I would we went back for another Sonogram (I still have the pictures documanting this). People brought meals and many prayed. We heard from people we didn't even know. Each Tuesday, the sonogram showed the blood around the uterus becoming smaller than the last. They MD & Sonogram Techs wouldn't say much, but it was obvious so many were watching. Finally, after three weeks, the sonogram was completely clear! 'Ezra', which means, 'God has helped' is a beautiful, healthy 10 year-old! I was asked to share my story because people in the community were calling it a 'miracle'. We knew it was. I testified of how my life had been changed and I had been crippled by shame & guilt for so long because of abortion and why doing it again was much worse torment than facing my own death. Many women were moved, encouraged, and strengthened through my testimony. Since then, I have had several oppotunities to share with others.

11. Based upon your experience, what would you tell a woman considering abortion?

This is not just about the life of this child, though that in & of itself is enough...THIS IS A PERSON, A UNIQUE & BEAUTIFUL LIVING BABY, YOUR BABY, WHO NEEDS YOU TO PROTECT THEM EVEN NOW. But this decision, either way, will change your life for the rest of your life. If you choose life, it will not always be easy, but you & your child will live & grow and you will know you took the 'higher road'. If you choose to end the child's life, the pain, guilt, shame and regrets will become a part of your very being, whether you know the Lord or are spiritual or not...your deepest innermost parts will 'scream & cry out' for your unborn child, as if we women were born for such a time as this.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Please Sirs & Madames, you have been entrusted with a position of great authority and responsibility; and with this comes great accountability. Please listen carefully to the voice of the people and to your own aspiration to walk in wisdom & counsel. Abortion is, plainly & simply, a legalized and organized murdering of babies that is cauterizing our societal conscious. We have been choosing to live irresponsibly by modeling 'birth control' instead of abstinence and purity. Which would you like to see your son or daughter choose? Which feels right in your heart? Enough is enough! As a strong country, set apart for great things, we can do this! We can choose life and teach our children, families, & citizens to weigh more carefully our decisions and our actions, which all have consequences. The fact that the termination of a life is even listed among 'birth control' is a sad picture of our present moral decay. PLEASE, you are leaders in a fight for honor & integrity, so please do the noble thing...do the right thing. Remove this stain from our nation, because you are in a position to make & change history, so we may begin the process of healing and our children will not be subject to 'life' as barbarians. Thank you & sincerely, Mendy Bradham

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of AL

County of Tuscaloosa

My name is Jamie Casey. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

I don't know AL

09/13/1998

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Let me clarify the form I have filled out. I have no idea the exact date or location where my abortion was performed (or how many weeks pregnant I was). I am not even sure of the year or state. My mother took care of all the details and I had a hangover from getting drunk the night before. I slept most of the way there and was still mostly sedated on the drive home. I was 18 and only knew that an abortion would rid me of my pregnancy. I don't recall anyone explaining anything to me except that I was to far along for a "traditional" abortion. I was then referred to a clinic that could perform "late" abortions. I don't even remember exactly when or where I was. My mother drove me and paid for everything. There is not a lot I recall, except that we had to stay overnight in a hotel. They killed the baby the first day by sticking a needle in my belly and injecting something. We were warned as a big group that we must come back the next day to complete the procedure or something bad could happen. I only remember having an IV for several hours prior to the 2nd days procedure and the pain of the medicine injected into my veins to sedate me. When I woke up, I was offered juice and crackers and I could barely walk when they released me to leave.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was only told that I would need to come back 1 time for a "check-up". I am still to this day (10 years later) not aware of the consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

the baby's father and my own mother

9. How has abortion affected you?

Up until I accepted Jesus as my Lord and Savior about 5 years ago, I tried my best not to think about my abortion. It was something I put out of my mind with alcohol. I think this may be why the details are so vague. I can't explain how it affected me except that I was very depressed and felt guilty for many years. I felt like I did not deserve to have children and would not even become engaged to my now husband until he promised me he never wanted kids. He assured me we would cross that bridge when we got there. I used to have dreams about my little baby boy (they tell you the sex of the baby during the ultrasound to find the heart to kill it) and am crying right now in spite of having peace that I am forgiven by God. I can never explain how abortion has affected me to anyone, because I will never allow myself to ever fully understand.

10. How has your abortion affected others in your life?

The only other person that I know it has affected is my husband. It was hard for him to know how to comfort me or help me after I told him 4 years after it happened. He is not the baby's father and had no control over the procedure. I am sure it had to affect my mother, who helped me through it, but we have not spoken of the occasion, since that day.

11. Based upon your experience, what would you tell a woman considering abortion?

I wish that someone had encouraged me to even consider adoption. At the time of the abortion, I felt embarrassed to be pregnant. The baby's father wanted nothing to do with me or the baby and I felt like it was my fault. I would tell another woman that pregnancy is a natural thing and that only she and God have the power to drown out all the negative feelings. I don't believe any woman looking back would rather know she killed her baby when she could have given that baby to someone else.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Everyone should have rights. As people we make decisions that affect our lives. If you go out and drink and drive and you kill someone, you are prosecuted for murder because you did not have the right to take that persons life solely because you made a wrong decision. Consequently, we should not have the right to kill a baby because we made the decision to have sex. Who are you to decide the fate of millions of lives?

The State of AL

County of Marshall

My name is K H I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Huntsville AL

11/15/1985

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

Suction aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told anything. I was only 16 years old and I was being forced into having the abortion by my mother. I had runaway from home twice to try and get to the golden week of 12 so that it could not be performed. The nurses never spoke to me about anything that would go on, what was going on, or what would happen later other than not to get pregnant again.

5. Were you adequately informed of the consequences of abortion?

Yes No

Like I said before, they never talked to me. They spoke some to my mother but never to me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Mother

9. How has abortion affected you?

I have suffered from depression and generalized anxiety disorder. After the abortion, I immediately became promiscuous to feel the void that had been ripped from me. I got pregnant again and had this baby. It took me years to love myself for who I am and forgive myself and my mother for what had occurred.

10. How has your abortion affected others in your life?

My mother and I had problems for years due to lack of forgiveness.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT HAVE ONE! It should be illegal! Had it been illegal, my mother could not have forced me to have one. Noone will be able to explain adequately how you feel after the abortion, but you will wish

that you could die. I know there are some women that feel nothing and have had several. God help them. Their hearts are stone.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

In no way should abortion be legal. When you have an abortion, you do not become unpregnant, you become the mother of a dead baby. Who has the right to take the life on an innocent child?

HOW MY ABORTION AFFECTED ME

The State of AL

County of Marengo

My name is Donna Barham. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Tuscaloosa AL

//1988

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had the abortion that I really didn't want but I felt I could not take care of the baby on my own. However, later after taking an anatomy class discovered what my baby looked like. Even though I was emotional after the abortion I was really mentally tortured after realizing what I did.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was depressed, cried and had suicidal idiations

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I had a hard time, at first, loving the child I had later because I didn't feel right loving her when I should be loving my other baby, too. I loved the child I lost and the new one but I couldn't come to terms of loving one when they should both be alive. I ended up in counselling for help.

10. How has your abortion affected others in your life?

They never speak of it and would not support me or help me make the decision to keep the baby when all I needed was reassuring that I could take care of it.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not do it. A child is the best gift a person can be given. I always wonder what my child would have been- a boy or a girl? What would she look like and what would he/she become. In my heart I think my child was a girl. I even had names picked before the abortion. If any questions - don't do it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

They should stay out of people's business. Until they have gone through the pain (mentally and physically) of an abortion they do not have the right to judge and pass laws that could cause some to commit suicide and live in depression all their lives. Besides, there are loving parents out there wanting to give a child a home if it no wanted by the parents.

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea the physical pain that would rack my body after the anesthesia wore off. Nobody told me that I would think of myself as the most inhumane of murderers in that I murdered my first child. I felt the loss of my second pregnancy to miscarriage was my penalty for aborting my baby. The scars that carry on a mental, spiritual, and emotional level are permanent. My children live with the fact that their mother killed their sibling. The fact is that this choice kills an innocent child and also kills a portion of the soul of the mother. She is never the same because the burden of this horrific act is a weight that can never be lifted.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

10. How has your abortion affected others in your life?

See above explanation regarding consequences.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that the consequences of the act is permanent and will haunt her for the rest of her life. I would also tell her that there are good people who would do anything to have a baby to love and care for and it would be better to allow this baby to continue living than to kill a life that is already within her and

a part of her.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that if it believes abortion should be legal, perhaps all murders should be legal.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of AL

County of Marshall

My name is Mary Fainn. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Scottsdale AZ

08//1989

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told how bad it would hurt physically or that it was a baby not just tissue.

5. Were you adequately informed of the consequences of abortion?

Yes No

I may become depressed and suicidal or that I may not be able to get pregnant again.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Depression, suicidal, rage and anger, sadness, I miss my baby. Also, it left me unable to ever have children.

10. How has your abortion affected others in your life?

Caused a divorce after 17 yrs of marriage. Made it hard for me to feel good about my self so therefore I keep people at "arms length."

11. Based upon your experience, what would you tell a woman considering abortion?

Have the child and let someone adopt him or her. Don't make a bad situation worse by taking the life of your child. It's a lifetime nightmare.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That they need to ask God first what He thinks. I believe abortion is the cause of mental illness, drug use, break down of family and morals, and the downfall of our economy over 53 million people are

missing from our country and that has to effect us as a nation. Also that while some say they are protecting women they are acutally hurting us. Let's see, how many more cases of breast and cervical cancer there are since 1973 - there is a link. Stop turning a blind eye to this killing and allowing people to make money off of killing.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of AL

County of Madison

My name is Cynthia (Cindy) Adams. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Huntsville AL

03//1985

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

Aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

All I was told was that they would remove the blob of cells from my uterus.

5. Were you adequately informed of the consequences of abortion?

Yes No

I wasn't told that there were any consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

For 23 years I felt shame, I started drinking heavily to try to hide the pain, I became promiscuous because I felt unworthy of love, I prayed that God would end my life. I never allowed myself to become pregnant again because I felt I didn't deserve the gift of a child since I had an abortion even though I had always wanted children. It was 23 years before I finally got the help that I needed because I was too ashamed to admit to anyone that I had an abortion. It was 25 years after my abortion when I discovered that what I had aborted was not a blob of cells or potential life, but my 5 gestational week old baby that had a heartbeat. The devastation of learning this can not be described with words. There is not a day that goes by that I don't regret believing the lies and the having aborted my child.

10. How has your abortion affected others in your life?

The father of my aborted child contacted me about 12 years after and asked me to forgive him. I found out recently that he works as a speaker promoting responsibility and abstinence.

11. Based upon your experience, what would you tell a woman considering abortion?

Life begins at the moment of conception, and abortion not only kills your unborn baby, but it

permanently scars the mother and father of that child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That I can't understand how it can be legal to kill the most innocent humans, and that abortion is NEVER the answer. No woman walks away from an abortion without pain and regret. It may take years before the woman acknowledges this because it is too painful to admit and accept.

The State of AL

County of lauderdale

My name is Debbi Carlson. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Detroit MI

01/25/1977

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I didn't know it then, but I was not given very much information at all. I was adamant about aborting my baby even though I already had 3 beautiful children. I have had 2 more since then. My first born committed suicide at age 13.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed that there would be any consequences whatsoever!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

No Answer

9. How has abortion affected you?

Torment, grief, regret, sorrow. Though it has been 32 years, and I know that I am forgiven, I still regret what I did and wonder what she would be like now, who she would have become. I miss the grandchildren I would have had and the children they would have had and the children they would have had. Abortion doesn't just kill one life, it takes the life of ALL of their posterity as well.

10. How has your abortion affected others in your life?

My children are missing a sibling. My husband is missing his first-born child! We have been married for 29 yrs now and had 2 children after the abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT! It really is murder and you would have innocent blood on your hands. This is irreversible! You can't change your mind afterwards! I would offer to raise the child myself if that is what it would

take to save its life. The after effects will torment you afterwards for many years!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

"If I used a gun, would it still be OK?" Why is it OK to abort a child while still in the womb, but it is murder punishable by law if one takes the life of a baby that is only hours or minutes old? Abortion IS murder that not only takes the life of the child, but the life of their children and their childrens children. Abortion denies destinies of real people. We probably already murdered the ones who would have found the cure for cancer, for Alzheimers, and many other diseases. Do not be deceived. Abortion IS murder of the most vilest kind!

8. Did anyone pressure you into having an abortion?

Yes No

Mother

9. How has abortion affected you?

I was severely depressed, suicide attempts, miscarriage and an ectopic pregnancy, endometriosis and hysterectomy at age 30 for cervical damage and uterine scars.

10. How has your abortion affected others in your life?

I have had relational and sexual issues with my husband and very very protective of my daughters!

11. Based upon your experience, what would you tell a woman considering abortion?

This is a decision that will be with you for the rest of your life and you will never escape it or the damages of it! Don't do it!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The court should not be able to legalize something that causes this much physical and emotional harm! Drugs are not legalized due to the adverse effects they have and abortion is no different. Furthermore, legalizing abortion is not giving woman a choice, it is taking choice away, When abortion is legalized that gives husbands,boyfriends, parents, etc.. the excuse to push a woman into that decision. It takes her choice away!

9. How has abortion affected you?

I recall the day I got pregnant June 10, 1991. My cycle was to come on that Monday. My boyfriend and I said we were going to get married and buy a house, then kids, so we were telling ourselves we were out of order and we would have other kids. We made an appointment for the last Saturday in July. I do recall going to the Holiness church during my teen years, and I had called myself having a relationship with God. The week before going to the clinic, I was at my cousin house, in my head I had two voices, one voice said to tell Nita (my cousin) you are pregnant. Then the same voice said, if you abort this baby...one day you are going to want kids and can't have them, you are going to long for a child and nothing will come from you, one man....one seed. I ignored that voice also, we went on to B'ham that weekend and I had the abortion. My boyfriend and I eventually broke up within the next year. I dated this one guy, and we tried to have kids....and to no avail. The first, I was 8 weeks and they called it a blighted ovum (no baby inside the sac). The second, I was 8 weeks and I was out one night at the store with my friends and then I went to bleeding none stop. This guy and I broke up I was so hurt. I went and rededicated my life to Christ in 1995 after the 2nd miscarriage. I asked God to forgive me and restore me. I was living for God and suppressed the memory of my abortion. I met a new guy in 1999, he's now

my husband. I still didn't have children. It hurts really bad!!

10. How has your abortion affected others in your life?

The only people know are: God, my ex-boyfriend, my husband, and myself.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT....I will share my story!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Please stop it, its to emotional.

3. What type of abortion was performed?

Suction Aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I dont feel the consequences are fully explained. I think when a women goes in to have an abortion the last thing she wants to hear are the consequences. When in reality it should be the first thing put out there...

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My husband

9. How has abortion affected you?

I have actually been through the abortion process twice. The first time I was in my senior year in high school. I had just turned 18. I feel it was totally my decision and it definately had a negative impact on my self esteem and my self worth. I felt because I had done this I wasnt worthy of love. The second time was EXTREMELY difficult. There was a tremendous amount of pressure from my husband. I know he feels bad now and he really wont talk about it. We were going thru an extremely hard time in our marriage. We were having financial problems when I found out I was pregnant (we already had two kids at this time). I felt that the only way I could save our marriage was to have an abortion (it was what my husband wanted). We ended splitting up shortly after I had the abortion. We remained split up for about a year, but have managed to reconcile and work thru this together. The second abortion completely crushed me. My self esteem went from almost nothing to non existent. I went through a period when I didnt even feel I could walk into a church. Even though no one new I automatically felt condemned by everyone... I didnt even feel worthy of Gods love.

10. How has your abortion affected others in your life?

For a long time the only people that knew about it were myself and my husband. My husband still to this day wont really talk about it. I know it effects him. Anytime I try to talk about it he gets mad and wants me to change the subject.

11. Based upon your experience, what would you tell a woman considering abortion?

If I had an opportunity to speak to a women who was considering abortion I would tell her there are other options!! I would tell her the damage that this will do to her self esteem and self worth, and I feel it's very important for her to know the guilt and shame that comes along with this. I would make sure she knew that adoption is a great option. There are tons of people out there that could give her baby the life she feels she cant. Most importantly I would tell her that its not right... its not the way God planned for it to be, and if adoption isnt something she feels she can go through with I would do all I could to let her know she can make it... It may seem impossible but through God all things are possible!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them to take a look at me and my story. I feel I am a perfect example why it should not be legal. For a long time I felt it was a women's choice and that it wasnt up to the government what I do with my body. I can truly say that is rediculous!! Abortion is wrong!! It is not the way God intended it to be!! I am a women who loves children... I now have three of my own and I cant imagine my life without them, but if abortion had never been an option in the first place I would have been saved from so much shame and heartache. I think if the option is taken away completely the turmoil that so many women choose to go through can be eliminated... just by our government making the choice to do the right thing!!

HOW MY ABORTION AFFECTED ME

The State of AL

County of Talladega

My name is Deborah I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Austin TX

08/15/1974

2. How many weeks pregnant were you?

17

3. What type of abortion was performed?

Saline injection

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I wasn't given any details about the procedure. At the time abortion wasn't as popular or prolific as it is now. There was still a sense of shame attached to it. I was told the less detail I had the better off I would be.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was only told that once the procedure was over, life would return to normal and there would be no further worries.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Even after all these years I am still haunted by the fact that I killed my baby. I still today hear my ex-husband (the father) asking me "what'd you do - Kill It? I still imagine that God is telling me that I committed an unpardonable sin by killing my baby. I still wonder if it would have been a girl or a boy. I still feel the same shame and guilt that I felt at the time. The years haven't dulled those feelings very much. Every time I see or hear the word "abortion" I cringe inside.

10. How has your abortion affected others in your life?

I didn't tell anyone what I did at the time, and only one person knows today. It is a secret that I am too ashamed to admit to anyone. My current husband of 21 years doesn't even know about it. I just can't bring myself to talk about it to anyone.

11. Based upon your experience, what would you tell a woman considering abortion?

I would have them consider ALL options before putting themselves through this procedure. I would tell them that it seems like a simple solution, but they can and probably will be caught in a trap of guilt, shame, and depression. They will be haunted by those feelings, and questions about their baby forever. The pain they will encounter AFTER the procedure is sometimes unbearable.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell a court that abortion damages the women who have them, in many varied ways. It isn't just a decision made for the moment - it is a decision that has lasting ramifications, unseen and unknown by anyone that hasn't experienced an abortion. I would ask that the court, if it refuses to halt abortion, make it mandatory that a woman must have a sonogram, so that she knows she has real life growing inside - not just a lump of tissue. And I would make psychological counseling a requirement, so a woman would be able to handle the emotional devastation that would occur. But the best situation would be for the court to recognize that life begins at conception, and that the baby growing inside a woman has rights equally as important as the woman's. God may forgive us, if we ask for it, but in my experience, self-forgiveness is almost impossible.

QUESTIONS

1. Where and when did your abortion occur?

Atlanta GA

05//2002

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

I'm not sure what it was called. I assume a suction abortion, like a D and C.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I never understood at what stage the baby was. They didn't explain to me what he/she was doing at the stage of pregnancy. In my mind it wasn't really a baby yet and they helped to encourage that.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had NO comprehension of what affect it would have on me mentally and none of the physical possibilities were explained to me. I was never offered any type of counseling afterward or anything of that nature.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have two beautiful boys and everyday I wonder what my other child would have been. I think about he or she being in Heaven now and me meeting them one day. I worry that they hurt and wonder why their mommy didn't want them. I let my worry for what people think be the reason I had an abortion. There is an emptiness in my heart that I can never fill. My children are so wonderful that I know this one would have been too. Everytime I see a child his or her age I think about my baby that I killed, those words will never leave my mind. I feel guilty, ashamed and like God will never forgive me. I know He has, but I can't forgive myself. I question everyday why God saw fit to give me two children after I killed my first one. It makes me sick that I did this to me and my then boyfriend, now husband.

10. How has your abortion affected others in your life?

Only my husband knows. We never told anyone. I don't know that he thinks about it anymore. He never wanted me to do it. He took me and was there for me but he cried and begged for me not to. I can't tell you how much I wished I would have listened to him.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't. You will never fill the void that it leaves in your life. No matter what stage of pregnancy, your precious baby is alive. Please, please, if you don't want your baby at least give him/her a chance at life and put him up for adoption. There are families out there desperately wanting babies, give them a home! It's not worth it!!! It's not an easy way out, it will haunt you forever.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Why? Our country struggles with putting people to death that have done wrong and deserve it, but what about innocent babies that have not even had the chance at life? They haven't even gotten the chance to make their mark on this world before their lives are taken. A woman should choose birth control prior to conception, not after.

QUESTIONS

1. Where and when did your abortion occur?

Birmingham AL

11/27/1994

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Suction aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that the lump of tissue (the baby) would be removed. That I would be asleep and when I woke up, 'it' would be done. I was not allowed to see the ultrasound screen. It was actually turned away from me by the nurse when I asked if I could see it.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told that there would be some bleeding and cramping, but nothing about any emotional consequences. It all happened very fast. I was told that there was a small chance that the abortion 'wouldn't take' and I'd have to come back or I could die, but both were said to be unlikely.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

For a long time I thought I wasn't worth anything because I had killed two babies. I would have nightmares of my baby being ripped out of me by doctors. Terrors of dogs eating my stomach out. I actually woke up during the part where they were suctioning the baby out and had intense pain. That still haunts me today. I saw blood splatter on the doctor's mask, which looked like a clear welder's mask. It was after that procedure that I began abusing the pain medication given to me. I got several refills from the clinic and almost overdosed. I began to lose all sense of self and didn't care what happened to me. As a result, I got pregnant again two years later. I had a second abortion, but don't

remember a whole lot about it. I stayed messed up on drugs so much that I think I blocked it out. I moved back home with my mom and started going through a program for recovery in 1997 at a Sav-a-Life clinic. That and my acceptance of Christ as my Savior were the only things that saved me from committing suicide. I hadn't told anyone about the second abortion. I was ready to give up, but instead, I finally got help. I still don't believe I deserve the healthy, happy baby girl I have now. And sometimes I think that if other mom's knew I'd had TWO abortions, they wouldn't want me around their kids. I feel like I am still branded a 'baby killer.'

10. How has your abortion affected others in your life?

Both fathers of the children and I eventually stopped talking. Both got heavily into drugs and many friends told me they were never the same. My mom still feels guilty for not talking me out of it the first time. She is the one that took me to my first abortion. She wanted me to give the baby up for adoption. My mom was adopted, so she thought that was a good option. I was too scared to listen. Too selfish. Too young to understand that I couldn't run from this and there would still be consequences...emotionally, socially, and spiritually.

11. Based upon your experience, what would you tell a woman considering abortion?

I know it's a hard decision. I know that the thought of having a baby right now, and possibly without support from other people, is a huge challenge and extremely scary, but there are people that long to help and love you and your baby. This baby is still a gift. Either carry this precious child and fall in love with it and keep it or love it enough to give it a chance to live with another family. Don't make the same mistake I made...twice. Now that I have a baby girl, I mourn my other two children even more. I am appalled at what I did. My daughter is more than I could have ever hoped or asked for...she brings such joy to us. Your baby will do the same. For you, or another family.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It disgusts me to think that someone can look at the remains of an aborted child and not feel anything. To use aborted babies as research, stem cell or otherwise, is grotesque and an abomination. I know the argument is that women should have the right to choose and if abortion is made illegal, women would still seek out illegal (and more dangerous) abortions by doctors willing to break the law. However, abortion is TOO easy in this country. Kids don't think their is a true consequence to having sex. If AIDS or STD's don't scare them, then a baby they can get rid of with a 15 minute surgery or a pill you take the morning after having sex, would seem not to phase them! Kids need to be held to higher standards. I also know that the issue of getting pregnant by rape or incest is an issue. These things must be dealt with, of course, but through therapy, support, and proper medical help...not to just immediately kill the child. Abortion is just too easy. I should know...I had two in two years. If I was raped or impregnated by a relative (God forbid!), I would still look at my daughter's pudgy, angelic face and all those ultrasound pictures, and know that child deserves a chance.

The State of CA

County of los angeles

My name is R L . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Los Angeles CA

//1972

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

I didn't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was never told that I had a living being in my womb and I was never told what kind of procedure would be used and exactly what would happen to my baby during the procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never told that the baby was alive and that I would be killing my baby if I proceed with the abortion. I was never told that I would experience emotional and psychological pain the rest of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have had two absortions, both prior to my salvation. Although I know that God has forgiven, whenever I hear about abortions, I still think of the two precious lives that I killed because of my sin and igornance. I get very depressed and cry for the loss of my babies and what I did to them. The Lord always comforts me and the reassures me that He has forgiven me and that I will see my babies in heaven one day. The Lord is still healing me emotionally, mentally and spiritually.

10. How has your abortion affected others in your life?

I have never told anyone that I have had an abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

To pray and ask God for direction and strength to have their baby. I know it would be very hard, but not has hard as living with the pain of aborting their baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That abortion is taking the life of an innocent child growing in their mother's womb. Legalizing abortion only advocates murder and child abuse. Besides the child being a victim, the mother and all who take part in the abortion also become victims impacting our society.

The State of AL

County of Houston

My name is Cheryl Hall. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Tallahassee FL

07/09/1986

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

NO I was NOT told the truth as a young girl, They told me it was just a tiny embro the size of a seed that hasn't even formed at all.It was only many years later I learned the truth of what I had allowed a so-called doctor to do.

5. Were you adequately informed of the consequences of abortion?

Yes No

I wasn't told anything about the abortion other than it only takes a minute or so with a vacuum suction and then it's all over. It wasn't until I felt a cold sharp object that made me feel like there perhaps was more to it than I was told. It was years later while online studying up on abortions that I came across websites that uncovered the hard-core truth with photos of aborted babies. The photos showed aborted babies in those clinics in trash cans that looked like a slaughter house! Full grown fingers and toes and body parts.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend, an older man that I was dating

9. How has abortion affected you?

It affected me for many years with guilt and shame and depression after I learned what I had done. Not a day went by that I didn't think of the son that I allowed to be murdered. I cry as I write this, thinking of who he'd be today.I gave him a proper name a few years ago.Jeremiah Matthew Hall.

10. How has your abortion affected others in your life?

My 2 sons were cheated out of another brother. It caused me many many many emotional disturbed years of drinking, DUI'S, no self-respect, I believe today that it is the reason that I'm constantly sick, since the day of the abortion/murder I've been sick in my body. Not long after I had to have a emergency dnc, a Hysterectomy, then not long after my ovaries removed, My body has gone down hill since.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't kill your child, your flesh and blood that looks just like you....You will never have the chance to hold that child when you realize how you were lied to by the abortion clinics. Please do an online search and get the whole truth and see the photos of the babies little fingers and toes and eyes and watch films where the baby screams to get away from the doctor while being cut-up and vacuumed alive.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Please you must put a stop to this abuse that is going on to women and babies. This hurts women when they discover they were lied to by the clinics and that it was a real baby that they just had murdered and not a tiny little seed with no feelings...That is a lie from Hell! The only hope I've found in life to heal the emotional problems I ran from afterwards was when I knelt at an Altar and gave my life to Jesus Christ, He healed all wounds and removed the quilt and shame when I became born-again, A new person in Christ!

The State of AL

County of Montgomery

My name is Tina . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Montgomery AL

08//1984

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Wasn't told

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only told that it would terminate my pregnancy.

5. Were you adequately informed of the consequences of abortion?

Yes No

I wasn't told anything regarding the after effects of abortion; such as depression, guilt, grief, etc. Or any long term, physical consequences of abortion. After the procedure, while in recovery, I was sobbing uncontrollably. I was told that there was no point in crying, I'd made the decision to have it done & they were not going to allow me to upset their other patients.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Father

9. How has abortion affected you?

It has been 25 years & I still regret it & I'm ashamed of it. I know God has forgiven me but I can't forgive myself.

10. How has your abortion affected others in your life?

I haven't told anyone else.

11. Based upon your experience, what would you tell a woman considering abortion?

That it will affect her for the rest of her life. They make it sound like a simple procedure but the long-term results are anything but simple. Love your baby & yourself enough to consider other options.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Life begins at conception. Although, I was told that it was just unformed tissue at 6 weeks; this 'tissue' has caused me 25 yrs. of grief, regret & shame.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one explained anything to me at all. I was given a pamphlet for the women's clinic at the Health Dept. where I went for my pregnancy test.

5. Were you adequately informed of the consequences of abortion?

Yes No

I can't remember anyone explaining anything to me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I spent a lot of years trying to forget about what I had done by using drugs and alcohol to hide my pain.

10. How has your abortion affected others in your life?

I am almost sure that my abortion has affected the Father in the same way it did me because he has lived a life of alcohol and drug abuse also.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to please reconsider and to get facts first. And to start by just simply looking up fetal development and seeing what her baby looks like right now.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The pain that my abortion has caused me goes very deep and that babies are human beings from the moment of conception. I now realize that abortion is murder and there is no way to deny this as a woman's choice. There should be no choice of life or death except by the hand of God.

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

? abortion to terminate pregnancy after a date rape

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had no idea of what an abortion does to the unborn child...and I had no idea of how this would haunt me all of my life. I have fought depression since then as well as disassociation with others. I have never felt as though I could join in with "normal" people.

5. Were you adequately informed of the consequences of abortion?

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

For many years it has been a terrible burden...a dark secret and shame. It has left tremendous emotional scarring..thank God, He is merciful and forgiving and has helped me through this ordeal.

10. How has your abortion affected others in your life?

I have children now and am so thankful for them. However, for many years I was very smothering. I have not told them of what I have done and really don't know how to.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't. This is something you do not want to experience. The physical aspect is that you are ripping your baby, who can feel, into parts literally. Your life and future children are at stake as it is very easy to perforate the uterine lining which can cause death and, or, you can be permanently mamed which can cause difficulty in ever having children. Emotionally and mentally, the scars of abortion will be with you the rest of your life. Every time you hear a baby cry, you will be reminded of what you have done.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

This is an illegal act - taking an innocent person's life should never be made a legal act - and should never be endorsed by any government. Please do not legislate morality. This is such a monstrous act on all levels and destroys multiple lives it should never be condoned. A child is a gift - there are other ways to handle unexpected pregnancies but murder is not one of them!

HOW MY ABORTION AFFECTED ME

The State of AL

County of Jefferson

My name is Lee Mathews. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Birmingham AL

10//1988

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

D @ C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one said it would hurt, just "discomfort." No one told me of the loud vacuum, but if they did I didn't hear it. I just wanted to get it over with. Their policy was cash only, but they reluctantly took a check to keep us from leaving.

5. Were you adequately informed of the consequences of abortion?

Yes No

The physical pain & cramps I experienced afterward were breath taking. I cried and cried. I was so overwhelmed with guilt in addition that I would not consider returning for a follow up check up. We called and they sent us a perscription of antibiotics which made it stop. I still don't know what happened and why because I was too ashamed to see a doctor and confess what I had done.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Just before going in, and very ashamed and nervous I will never forget meeting a 16 year old girl there for her 6th abortion! She didn't care at all....about anything. Immediately afterwards I cried uncontrollably and they slid me out the back door so that "no one would see me" but in reality they didn't want to scare the upcoming patients. I experienced self loathing and guilt to the point that I became even more permisicious feeling quite worthless. I mean I had done the worst. I had taken another's life. There was nothing that could change that now. Someone would be missing because of what I did. The father of my child who went with me to have the abortion let me decide. He chose to support my decision and really loved me. But he became a reminder of my failure. I hated him for not fighting harder to talk me out of it. I could never marry him because there would always be this failure

between us. We chose the "easy way out" and it wasn't. We chose to kill our child.

10. How has your abortion affected others in your life?

I had my abortion in large part because I didn't want my parents to know. My parents both died and I never shared my greatest pain with them. It was largely because of them, but they never knew. I shared my abortion with my fiancé in order to let him out of his obligation, if he wanted out. He just felt sorry for me. When we married and tried to have a child I never expected to be able to and when I did I feared a miscarriage all the way through. When he was born healthy, I found the real joy of motherhood and vowed to do whatever I could to stop abortion. My husband has had to support my conviction as I have shared my testimony to hundreds at my church and prolife banquets. He is a private man, but sees the pain it has caused me and is willing to open up our private matters because he knows how strongly I feel and he understands how wrong it is.

11. Based upon your experience, what would you tell a woman considering abortion?

The price is too high. Whatever your immediate circumstances are that tell you, "I can't do this." are nothing in comparison to the consequences that weigh on you for the rest of your life. You must either deny the truth to survive or courageously face them and work through the truth of the pain. There is real help out there to help you choose life for your child. Say "yes" to this life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I know, and you do too, that abortion is taking the life of another human being. Doctors vow to do no harm. But just because the government deems it "legal" doesn't change the fact that someone is missing that should be here. In any other case we would call that murder. And the life of that person would take precedent over why the life was taken. Self defense is our logic here? No. Giving birth rarely kills the mother. It is simple. I had sex before I got married and I didn't want to have to deal with the consequences of my choice. I just got caught with my hand in the cookie jar. I wanted to hide. The government is justifying an immoral lifestyle and the consequences that inevitably come with it. Individually it is bad enough, but culturally we will suffer untold damage. We devalue life. We are killing off the ones who will cure cancer or AIDS. We are killing our future. Millions are missing who should be here. God have mercy on us and those who OK it.

My name is Vickie Jackson. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Birmingham AL

08/10/1974

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told nothing about the actual procedure before I had it done.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told it could complicate later pregnancies or deliveries. I was told nothing about long term emotional effects of purposefully ending a life inside my womb.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Emotional guilt and condemnation, miscarriages, feelings of unworthiness and shame.

10. How has your abortion affected others in your life?

Four people of their first grandchild, two children of a sibling and a father of his child, My unborn child was robbed of a life.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT DO IT! Go to a local bible believing church and let them know you need help with your unborn child. Accept the help that is offered you to continue the pregnancy and plan for the life of the child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It should not be legal because it goes completely against the word of God, which is what our constitution was founded upon. No man or woman has the right to end the life of another and an unborn

child is a created being, created by God, whether it has been born or not.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Brief explanation that they would suction out the content of my womb and I that might have cramping and nausea later. I went back 4 weeks later for a check-up and the Dr asked me if I knew what to do to prevent pregnancy. He offered to put me on the birth control pill.

5. Were you adequately informed of the consequences of abortion?

Yes No

There we no consequences mentioned at all.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Husband

9. How has abortion affected you?

Every time I think about the life I destroyed, I become sad. I can't believe I did it. I had to name the child so I could properly grieve over the decision I made. It was 8 years later before I was able to conceive again. I couldn't help but wonder if I was being punished for what I had done. I still have a hard time believing that I destroyed the life of a child. I wonder what he would be like today. He would be 32 years old today if I hadn't snuffed out his life because the Supreme Court told me I had the right and if the Supreme Court said it was okay then it must not be human life. What a LIE!!!

10. How has your abortion affected others in your life?

My oldest son became very angry when he found out he had an older brother that wasn't allowed to live. He had to go through the mourning process too. My husband and I couldn't talk about it because there was so much shame involved.

11. Based upon your experience, what would you tell a woman considering abortion?

To seriously consider adoption or letting us help her to be the mother of her child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

How can murder ever be considered legal? The baby might not be viable at 8 weeks of age, but that doesn't change the fact that it is a human life. Truth is truth. The Supreme Court condoned slavery at one time so the Supreme Court can be wrong. Please reconsider when life begins because it begins at conception and not at birth.

8. Did anyone pressure you into having an abortion?

Yes No

my ex-husband

9. How has abortion affected you?

I regret having the abortion and it has caused much emotional pain, guilt, shame, and sadness in my life. I have a nephew the same age as my child would have been and I often think of what I so carelessly discarded, thinking it was a choice I had. I should have put my foot down and had the baby as I planned originally. I wish I had not had the choice on taking that life that I so wish I had now.

10. How has your abortion affected others in your life?

At the one year anniversary of the abortion I became suicidal and that affected many people in my life that love me. My parents and one of my sisters I have never told about it.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that all life has value. I would encourage her to choose life for her child and a new way of experiencing love for her. I regret that I will not get to experience that bond that is between mother and child.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I don't understand why I have a choice in killing someone without a voice that at the end of development will be a person when I don't have a choice of killing someone that can already speak. Why is there a different value placed on the two? We are all created equally... aren't we?

The State of AL

County of Geneva

My name is Mildred Ploss. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Montgomery AL

04/18/1981

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Most of this has been blocked from my memory, but I can't remember that I was told anything about what was going to happen or what the abortion did.

5. Were you adequately informed of the consequences of abortion?

Yes No

Again, most of this I've blocked out. But to the best of my recollection, I don't remember being told anything.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My husband

9. How has abortion affected you?

For 25 years I acted as if this had never occurred. My marriage continued to deteriorate. I became pregnant again directly after the abortion without even having a menstrual period in between. I was told this pregnancy could be remnants of the abortion. Thank God it wasn't and I gave birth to a healthy baby. Until recently I've always had terrible trouble with self-esteem, always thought everything bad that happened was my fault. I really didn't suffer from depression until I realized what I had done 25 years later.

10. How has your abortion affected others in your life?

I can't say the abortion for sure wrecked by marriage, but it certainly didn't help it any. After the birth of my third child, the marriage continued to go down hill until my husband and I divorced. As my children got older and were told about my abortion, I believe it has affected them to think they have a little sister

in heaven that they never knew. So far as my ex-husband is concerned, I'm pretty sure he has never given it a second thought since that fateful day.

11. Based upon your experience, what would you tell a woman considering abortion?

No matter how bad it seems, there is hope. There are millions of women out there who do want your baby. This is a human life...it's not a fetus....but a living, breathing, tiny baby who can feel.....and who will know what you have done to him or her. They will be waiting in heaven for you.....don't let that precious life die. Abortion is NOT a procedure, it's MURDER!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Again, I can only say over and over again. This is a human life. Life begins at conception....not a couple days or weeks later. From the moment that sperm fertilizes the egg, it is a life. Abortion is murder, pure and simple.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Clinicians offered no explanations on how the abortion would take place - no details on how it works. I just remembered the name of what it was called from what was written on the bottom of the form I received for my after care instructions.

5. Were you adequately informed of the consequences of abortion?

Yes No

Counseling was brief and generally consisted of a statement that said that some womwn regret having an abortion afterward. There was no elaboration of how and why. No personal written testimonies of those who had had past abortions. No alternative choice representatives available for counseling.

6. Were you informed of any link between abortion and breast cancer?

my mother

9. How has abortion affected you?

anxiety and panic attacks depression insomnia bulimia self-destructive behaviors low self-esteem feelings of unworthiness of forgiveness marital problems over-protective of my children overwhelming guilt

10. How has your abortion affected others in your life?

marital problems depression-related issue I have that affect family helplessness on how to help me

11. Based upon your experience, what would you tell a woman considering abortion?

Please, please seek out all alternatives before deciding to do anything. please talk to or at least read testimonies of women who have had abortions. Consider how many women are willing to pour out their

hearts by writing their testimonies of how they were so happy to have an abortion. (You will find none for a reason.) Please pray or ask someone to pray with you. Please look at how this could affect everyone involved years down the road. Consider the father's feeling. Please do not do as I did and not tell him. You seal the fate of your living baby when you have an abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Will you please consider the overwhelming evidence that supports the facts that abortion is purposely killing an unborn baby who is currently alive. Please consider the testimonies of so many women who have had abortions, such as myself, that tells of the trauma both physically and mentally of abortion. These are issues that never go away for the citizens involved. We are an evolved and enlightened society. Please help send a message to the world that we embrace our human sexuality as part of our nature and deal with it as we do so many other medical and psychological issues: by educating our young citizens about themselves and preserving the sanctity and respect for life.

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my mother told me I had to have the abortion

9. How has abortion affected you?

At age 15 I didn't know what to do when I realized I was pregnant. The pregnancy was a result of what today would be called date rape. I told my mother who insisted I have the abortion. I became depressed and rebellious. I went from a straight A student to just passing. I began to drink and got into drugs. I married the first boy I could talk into marrying me (at age 16) because I felt like I was not worth waiting for the "right man" because I had killed a baby. That marriage resulted in years of physical abuse which, again, I endured because I had no selfworth. Every year in October I get sad, I would to cry for just about the the whole month. Over the years I became a full blown alcoholic which I have since overcome. I developed clinical depression for which I still take medication. I still morn the child that was lost to abortion from time to time as I think about it. I was a very young girl at the time of the abortion but that does not stop the feelings guilt, shame and remorse that goes along with it. That abortion occurred 38 years ago, if anyone thinks there are no negative effects from abortion they are sadly mistaken. That baby would have been one more precious child I would have today. Then there could have been countless number of possible grandchildren. I speak out against abortion every chance I get.

10. How has your abortion affected others in your life?

My children would have a older sibling. I have raised my daughters to be very much against abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

The same thing I told my daughters. Don't even consider abortion. An abortion will affect you for the rest of your life. Abortion is killing a human no matter how tiny it may be.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It should not be allowed. God is the only one to make the decision to take a life.

10. How has your abortion affected others in your life?

My husband is very supportive and he consoles me when I grieve.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't take your baby's life away. You were designed by God Almighty to bear children and protect your baby with everything you have in your arsenal. If you go against that, you will have a battle to fight that you can't win.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

This is the slaughter of unborn babies. Judgement must come, but not from man. Our courts are supposed to be in place for the good of the people. Please don't destroy our nation by allowing young women to make this irrevocable decision to kill their unborn child.

9. How has abortion affected you?

I have remembered that day every day since, with shame. I have asked God for forgiveness but I haven't forgiven myself. After that event, I felt unworthy to have a child and we did not. Mother's Day is the worst day of the year for me. Since my mother and mother-in-law died, I no longer go to church on Mother's day and that helps a little bit.

10. How has your abortion affected others in your life?

Although my present husband and I made the decision together we have never talked about it. This is the one thing in my life I don't feel free to discuss with him.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't! There is more shame that you'll experience from the abortion that you could possibly experience when other's find out that you are pregnant and violated God's instruction.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them the same thing that I would tell the woman considering the abortion. I would also tell them to read the Bible on which this country was based and make a decision that is also right in God's

eyes.

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

I regret it and pray for forgiveness every single day of my life. I have 2 beautiful children now and often imagine how much more full my life would be if the child I aborted was here. Now I am unable to have anymore children, and it makes me sad & disgusted with myself to know that I killed my own child.

10. How has your abortion affected others in your life?

I've kept this dark secret from everyone except the friend who drove me to the clinic.

11. Based upon your experience, what would you tell a woman considering abortion?

Even though I was 29 years old at the time of the abortion (with a Masters Degree in Electrical Engineering), I still did not have the maturity to be making an abortion decision. I would tell another woman, DON'T DO IT! YOU WILL REGRET IT FOREVER!!!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

For the most part, abortion should be illegal. I would only allow it if the health of the mother is in serious jeopardy. I would not even allow it in cases of rape.

It was illegal in 1966

5. Were you adequately informed of the consequences of abortion?

Yes No

no one talked to me

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

mother

9. How has abortion affected you?

I am in my 60's and have no children. As I look back, I consider this a tragedy not to have had children. I was afraid what I did might hurt a child I might have. And the emotional scar is still with me. I know the Lord forgave me, and that is the only way one can deal with it. I only wish I could undo what I did. Life is so precious.

10. How has your abortion affected others in your life?

My mom and I never talked about it.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT DO IT. Life is sacred. Abortion is murder. And the memories NEVER leave you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe this brings condemnation on our country. Aside from my religious beliefs, it is detrimental to

the person having an abortion. It is a scar that never leaves.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of AL

County of Montgomery

My name is Susan I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Birmingham AL

07/20/1973

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Abortion had just become legal in Alabama. I knew in my heart that I was killing my baby, but had been convinced that it was "just a few cells".

5. Were you adequately informed of the consequences of abortion?

Yes No

I have actually had three abortions. The first one was horrific. I was married the second time and my (now ex) husband and his family insisted that I abort the baby. I begged them for weeks not to make me do that - but ultimately I killed that baby, too.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My sister, my (ex) husband

9. How has abortion affected you?

Negatively - extremely negatively. It led me down paths that I do not believe I would have gone if not for the "numbing" of my mind in order to justify what I had done.

10. How has your abortion affected others in your life?

I have a daughter who has no "full" siblings - only half-brothers and a half-sister.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT - YOU HAVE NO IDEA WHAT YOU ARE DOING. You will be sorry one day - if not today, if not tomorrow, then one day you will realize that you have voluntarily killed your own child and you will mourn for that precious baby whose life YOU chose to end.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

At what stage of development in life does a person's life become non-viable? Would you kill a pre-born baby, would you kill a child, would you kill an elderly person because they were "inconvenient" to you??

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of AL

County of Covington

My name is Jennifer Ingram. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Glen Burnie MD

03/17/1987

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Saline

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that I would be having what amounted to a pelvic exam and when it was over I wouldn't be pregnant anymore.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never told that I would be awake, that I would be able to hear, see, smell, and experience the baby being ripped from me or see the blood and tissue being sucked away. I was never told about an IV or about recovery. I was never told that 22 years later, I would still have nightmares, that I would still be mourning for my child.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents, my boyfriend, my friends, everyone.

9. How has abortion affected you?

I still have nightmares about the procedure. Mostly about the suction and that stupid poster they made me concentrate on which was on the ceiling. I lost two children after the abortion and when I finally held my daughter in my arms, I was afraid that she would be taken from me. I've never forgiven myself for murdering my child which in my heart I believe was a boy. I have never truly gotten over the fact of the threats of my parents, the isolation of the aftermath, I just have never gotten over any aspect of it and I doubt that I ever will. I suffer from extreme depression, nervous disorder, I am morbidly obese, I have various health problems, and I am under the care of a mental health professional who is trying to get me to come to terms with the abortion although I have not yet been able to talk about it really. I have been married for almost 9 years, and my husband knows about my past. But after the procedure, I

became VERY out of control. Drinking, promiscuity, recreational drugs, whatever I could do to forget even for a little bit became my way of life. I battle "suicidal tendencies" (my psychologists term) just about every day to a degree. If not for my family now, and my faith in God, I would not be here.

10. How has your abortion affected others in your life?

I have told my daughter who is now 17 about the experience and I think she hurts for me. My mother and father and I do not have a good relationship to this day, I cannot be around friends with small children for long, it's hard for me to help out with the babies at Church. It is just so hard.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't do it. You have no idea what the repercussions are. Every woman reacts differently and that is true, but you have no way of knowing if you will be the one that 10 years down the road you have a nervous breakdown because of it, or try to kill yourself. I would do EVERYTHING in my power to help someone against this decision. I have even offered to take women into my home to prevent an abortion. This procedure doesn't just kill "tissue", or a child, this kills the mothers soul whether they have a bad experience or not. It kills hope.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If abortion should be legal, than it should be legal for me to spray someone with saline until they burn to death, cut them up, and then suction what's left of them into a shop vac. But because God and the law of this great nation tell me that murder is wrong, then so is abortion.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of AL

County of Morgan

My name is Rita Wise. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Melbourne FL

07//1983

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one ever told me of the procedure, what took place or how long it would take for the abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one ever told me of any consequences in any way, shape or form.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

No one at the abortion clinic, but from my husband

9. How has abortion affected you?

For the first few years I never thought about it. Put it completely out of my mind. I became a Christian in 1991, and at a Wednesday night Bible Study the Pastor spoke of Randall Terry and his fight to save the unborn. It took several minutes for my brain to connect to what the Pastor said and it was at that time that I realized what I had done in 1983. From that time on I tried to deal with what I had done, listening to good godly people tell me I was forgiven, but my heart did not believe that God would ever forgive me for murder. The years following I lived in shame, guilt and an overwhelming feeling of grief. The abortion was a direct result in my anger towards anyone and everything. I could not be around pregnant women, babies, children, anything to do with birth. I avoided all events or situations that would place me in that environment. Along the way in my experiences I have been blessed to find forgiveness thru Jesus Christ and a ministry called 12 Steps at my church. I will soon lead a group of women who have suffered from their decision and I now am a receptionist at my local Sav-A-Life Center, telling my story of my abortion to abortion minded girls and women who come in to the center every day.

10. How has your abortion affected others in your life?

My husband was deeply affected because of my denial of my resentment towards him. He and I have talked thru this and both of us have gotten healing from the resentments. I was not able to bond with my grandchildren, and at the time did not know why. I kept my wall up towards everyone for fear they would find out my "secret" When you have a miscarriage, you can find comfort in the words of a friend, but when you have an abortion you are alone.

11. Based upon your experience, what would you tell a woman considering abortion?

God gives life. No matter what the circumstances of the conception, He is the giver of life. When you say it is your body, please remember that there are now 2 heart beats. Abortion may seem like the answer, to get rid of the problem, to be done with that problem that would cause so much trouble, but it only creates problems. I read once where someone said the abortion clinics will tell you it is like getting your tonsils out. I had my tonsils out and I have never regretted getting them out, but every day I regret getting an abortion. Abortion is not the only answer for these women. There is adoption. There are so many agencies that will help during and after the pregnancy...school and medical care and open adoption. Choose Life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

First of all, no one has a right to determine who lives and who dies. No one has the right to say that it is okay to take a baby, who is a baby at conception, and destroy its very existence. The grief, sorrow, shame and guilt that comes from doing just that overwhelms and it destroys. Women all over the world are suffering, some in silence, from having an abortion. Most women turn to what ever can stop (they think) the memories. They turn to drugs, alcohol, sex, destroying the very person God made them to be. Mentally women suffer tremendous torture from hearing sounds or smelling smells that remind them of the abortion. Men suffer also when they have not been included in the decisions that are made, or find out later that they were denied fatherhood. The answer is not pills, or condoms or protection, the answer is abstinence. Teaching young girls and women to value their bodies and their lives. So that it would carry over into babies and respect for their lives. We can not continue to murder children for convenience sake. I aborted twins, I will never know the joy or great rewards they may have given me because I wanted to get rid of a "problem." I will spend the rest of my life here on earth wondering what my life would have been had I not aborted my babies. And I will spend the rest of my life fighting for the right for every baby to live.

HOW MY ABORTION AFFECTED ME

The State of AL

County of Colbert

My name is Myra Hammond. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Tuscaloosa AL

02//2000

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I thought that clinics were required to offer counseling in this regard. At my initial evaluation I was given a packet of paperwork. One of the sheets mentioned counseling as part of the process I was to go through at the clinic however that part was seemingly skipped over and not offered to me. I had to go out of my way to ask if I could speak with someone. I was conflicted and needed counsel. My request was met with frustration and a little disdain before they rounded up someone to talk to me.

5. Were you adequately informed of the consequences of abortion?

Yes No

When after going out of my way to ask for someone to counsel me the counselor's words were this: Don't worry honey. It's just a speed bump.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

The day after I had the abortion I woke to emotional hell. I experienced full blown suicidal depression. I stopped going to class and lost months of my life. I was in so much emotional pain that I turned to drugs for the first time. For about a year and half after it I was out of control. I finally had a drug overdose and nearly lost my life. By that time I had had a total of three abortions. I hated myself. I hated life. My credit was ruined. My relationships were ruined. My soul was wrecked. I fell behind in school. I was so ashamed. I thought I was alone. I went to rehab and became a Christian. My faith has helped but in 2009 my life is still devastated by the consequences. I suffer from extreme depression. I did graduate law school and am now a lawyer but because of my depression I lost my high ranking that I held at the start of law school and ended up graduating a semester late with no ranking at all making

it very difficult to get a job. The depression has fed into other health problems that have caused me at times be unable to work. As such my credit is still ruined, I am broke, and I am broken. I have wounds that have not healed. While my other friends have moved on in their lives I feel like I have been stuck and the consequences keep building. I am currently unemployed, single, depressed, and broke. I attribute it all of this to the abortion.

10. How has your abortion affected others in your life?

My friends and family members have mourned and have been robbed of the children and of me. The fathers have suffered and mourn. Society at large has suffered from their absence.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. I would educate them on what I now know and believe.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

When does life begin? Who is a "person"? When does "liberty" of one person override the very "life" of another? Please, revisit this. Please, reconsider.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of AL

County of Marion

My name is L R I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Birmingham AL

05/22/1991

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

not sure?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't remember the exact dates of this or any of my abortions...just the months and years.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had two at Planned Parenthood and I don't remember them counseling me. The three I had at Women's clinics, I think they did, at least on two of them, if memory serves me right.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I had 5 abortions in a span of four years from May 1991 to March 1995. After the fifth and final abortion, I started having severe panic attacks directly related to all of them coming back to haunt me at one time. I suffered mental and emotional breakdowns which resulted in me having to receive lots of counseling and Psychiatric help. They were so severe I was put on medication for anxiety and depression and am still on it to this day. I completely turned my life around and gave my heart to Jesus Christ and He is the only reason I'm here to tell about it.

10. How has your abortion affected others in your life?

When I returned home after leaving my husband for ten years, I had Jesus very much in my heart and life but my emotions were a wreck. I believe some of it was directly related to the abortions both mentally AND physically. That has affected myself and my family profoundly. After my hysterectomy in 2005, my emotions were immediately changed for the better, considerably! I still struggle at times with depression and I believe the grief never completely goes away in this life for me or my family.

11. Based upon your experience, what would you tell a woman considering abortion?

I have had girls ask for my advice and I tried my best to talk them out of it, but it's hard to convince them as it was me at that time. But I have and would tell them it's a lie to hear that it wont affect you, that it's not a human life that you are taking, and that you won't have regrets. I also would tell them at this age I'm at now about the physical and mental problems I believe goes along with it also. It's just death of a child and death of a soul that can only be healed by Jesus.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them my experience with panic attacks, emotional instability, depression, anger and regret, even though when I had all five of them, I came out of there expecting and believing otherwise. I chose to believe their lies and it came back to haunt me!! I think I would tell them they are deceived as I was and just so caught up in a lie. If they would at least make much stricter laws about it, the trauma and what most of us consider murder would go down significantly in this country. I would tell them it should be mostly outlawed, because in my case as in many others I was around at the time, abortion was a form of birth control. Had it not been so readily available, I would have not had another choice but to have the first baby instead of an abortion. Then after the first one was born, chances are, I may have been quicker in getting my act together and letting God takeover before having a housefull of children being an unwed mother with little or no income.

HOW MY ABORTION AFFECTED ME

The State of AL

County of St Clair

My name is Leslie Davis. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Birmingham AL

08/01/2001

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I didn't know about the emotional pain it would cause. I also didn't know it would leave me experiencing menstrual cramps for years to come. I had never experienced them prior to my abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It caused depression, anxiety over my ability to conceive again, worries when I became pregnant, guilt, physical changes to my body.

10. How has your abortion affected others in your life?

My relatives have lost the ability to know and love a beautiful child. My parents lost a grandchild. My paranoia surely affected my husband.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't do it. I know that it seems like the easy way out, but it's not. There are real consequences. It's not just a ball of cells you're getting rid of. That is a real person. Even if you can't care for a baby, plenty of people are willing, able, and ready to help. You deserve better in life. YOU deserve to know that you did something selfless. You are better than all of the pain, both physical and emotional, that abortion will cause.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Just because something is legal does not mean it is the best thing. By having all abortions legal it presents a view that abortion can't be bad. If the government says that something is okay, most assume that it is. Abortion is bad for women, families, and communities. It has numerous documented consequences that the public needs to know about. Women deserve to be able to make a choice. Their decision needs to be an informed one. Women do not currently have that information to make a real choice.

HOW MY ABORTION AFFECTED ME

The State of AL

County of Shelby

My name is Cindy Harless. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

There was no counseling, I was just urged to make an immediate appointment to take care of "it" while it was still a blob of cells.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no explanation or counseling.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I turned to drinking, drugs and sexual promiscuity. I had an unnatural link to the father of the baby. All these things let me to make wrong choices in my life. At one point, I was suicidal.

10. How has your abortion affected others in your life?

It gave the green light to my brother to abort 3 babies of his own, my mom felt guilty for providing the money (going against her Catholic beliefs), my husband and my children (now grown) have been affected by my participation in Pro-Life ministries.

11. Based upon your experience, what would you tell a woman considering abortion?

It is not worth the pain, shame, depression, feelings of unworthiness or guilt. Abortion almost ruined my life and you will face the consequences of your decisions. Abortion is not the answer and I will do anything you need me to do for you to bring your child into this world. You are not alone.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Abortion hurts women, sometimes physically, but in a majority of cases, the hurt is emotional and spiritual. When most women realize that they have taken the life of their own child, they feel self-condemnation, shame and huge guilt. They wonder about the child and how that child would have effected their life. They sometimes punish themselves, especially if they are not able to have more children. Since they feel unworthy, they tend to make wrong choices in life, feeling they don't deserve to be treated well or to be loved. They may feel that something must be wrong with anyone who would love them after what they had done. They sometimes wish that they had died along with their babies, they feel they don't deserve to live.

We didn't talk about it.

11. Based upon your experience, what would you tell a woman considering abortion?

The problems she's facing with the baby are nothing compared to abortion. The grief is unbelievable. There are other options. Abortion is murder. She will regret it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You've made it & allowed it to be legal & medically possible for my baby to be murdered in my womb. You too are guilty of murder. God will hold us all accountable as individuals & corporate. Murdering our children has cursed our nation.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of AL

County of USA

My name is Jennifer I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Birmingham AL

02/14/1987

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

surgical

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 14 years old at the time of my abortion. I was informed of what an abortion is, but never did I understand the emotional and mental damage of the aftermath.

5. Were you adequately informed of the consequences of abortion?

Yes No

I knew that I would not have that child, but for years I dreamed of becoming preganate again. I do believe that the abortion damaged my organs.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

mother

9. How has abortion affected you?

As a young child, scared to tell my mother that I had been raped, the day she took me to find out I was preganate and found out that I was, I remember her saying "You're father is going to kill you." I really believed this them, maybe not so much now, 24 years later.

10. How has your abortion affected others in your life?

My parents want grandchildren and have none, probally never will. It has also affected every relationship that I have been in.

11. Based upon your experience, what would you tell a woman considering abortion?

Not just NO, but HELL NO! I would tell them to consider adoption and not make the final decision until after they have gave birth.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I pray that one day I will open up all wounds, let out all emotions and fears, share my story; in hopes that the courts see how much emotional and mental damage a individual puts on themself afterwards. I would want them to know that studies and research was inadaquate in 1973 and I would plea that they change laws to save someone else. I would want them to know that the effects don't just last a few months or a few years; I've been dealing with the effects for 24 years and it is still just as hard, hurtful, and fearful as it was on that Valentine's Day.

HOW MY ABORTION AFFECTED ME

The State of AL

County of Morgan

My name is Rita Wise. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one talked with me about any procedures to be done. They only talked to me, very briefly, about protection. Nothing was explained in any way.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nothing was said about any lasting physical or emotional or mental consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my husband

9. How has abortion affected you?

For years I lived with shame and guilt. Not telling more than 5 people in my life that I had an abortion. I would declare how wrong it was in the crowd who objected. I would think about the babies I aborted (the "dr" said it was twins) and cry. I became depressed and turned to alcohol to numb my life. I could not bring myself to hold a baby or be around women expecting. This robbed me of being close to my own grandchildren. It has only been because of God's forgiveness, and me accepting His forgiveness that I have been able to rid myself of the shame and guilt.

10. How has your abortion affected others in your life?

My husband lived with guilt for even suggesting I get an abortion. We were getting a divorce and I thought if I got pregnant he would stay, but when I told him I was pregnant he suggested an abortion, I had the abortion so he would stay. However he still left. We were separated for 6 months when we got back together. However for 9 years we NEVER talked about the abortion. We both have accepted Christ

and have now be able to talk with others about the worst decision we ever made in our lives by going ahead with the abotion.

11. Based upon your experience, what would you tell a woman considering abortion?

The emotional scars are so deep. It seems like the easy and quickest way to end the "problem" but it keeps you so in bondage. It is because it is taking a life and no one can live a healthy life knowing that. I worked at a Crisis Pregnancy for 2 years and it was there that I experienced God's forgiveness, finally, thru holding a 2 month old baby. I also heard the heart-beat of an 8 week old baby in it's mothers womb. It is not a glob, it is a baby. If it was really all about "my body" then why are there 2 heart beats? Be informed, get all the material and read about what takes place, not only to your body, but to the baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

In talking with one of the girls at the center I was informed she had a 4 year old daughter and now being pregnant she could not afford to raise another child. So, I suggested that she kill her 4 year old, then she would still only have one child. She looked at me with such surprise and said..why I couldn't do that...that is murder. I said..yes, killing a child is murder. She then began to cry. Her choice was to keep the baby. Life begins at conception. There is not time that it is not a living, breathing, person. Killing a living, breathing person is the last time I heard murder.

The State of AL

County of Baldwin

My name is Lucille Patrick. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Tampa FL

04/03/1980

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They did not ask if I wanted it. I was their because my parents made me. And I don't think they were informed of the nature and what would happen and the possible complications.

5. Were you adequately informed of the consequences of abortion?

Yes No

But I feel like because I was a minor my parents should have been informed and other options should have been given to them. No other options was even brought up except by me on the way there.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my mother

9. How has abortion affected you?

I spent 30 years hating my mother. As an adult when I found myself with an unplanned pregnancy. I gave the baby up for an adoption due to my daughter that I had and myself was homeless. After giving the baby up. I was able to go back to school. I became a nurse, and tried to make a good life for my daughter and I. Then when my son that I had given up found me after he turned 18. I was the happiest I had been in years. But I found myself still angry at my mother. I said to myself" Why should she meet him when she made me kill my other baby. I then gave my anger to God, and he has allowed me to forgive my mother. But I sometimes think about the wasted 30 years of anger and bitterness. I feel I am blessed cause I get to know my son, but I will forever suffer not getting a chance to ever know my first baby. I just have to wait till I get to heaven.

10. How has your abortion affected others in your life?

My mother suffered my anger and her own sadness of loosing her grandchildren.

11. Based upon your experience, what would you tell a woman considering abortion?

don't the pain is to great. The emotional baggage it to great. The nightmares.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

go to an abortion clinic and see the suction machine that is used to suck the baby out. Then look under the sink and see the garbage desposial tht most people use for rotten food. And remember it could be your child or grandchild. Is it worth it to play God. What makes you an expirt on when life begins. If you want an abortion clinic to go into go to Mobile, Alabama they have an aboution clinic that has been closed down. It is now a museam that you can see. So then you can make informed decisions.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of AL

County of Mobile

My name is Cynthia I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Mobile AL

//1982

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

do not know the name of it

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had no idea exactly how an abortion was performed. I was told that it was a good thing I was there then and not 2 weeks later as then there would be a heartbeat. They said right now "it" not alive.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was asked a few questions about myself and if I went to church and what type of church. The lady was very nice and did seem to be doing an assessment of sorts.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I remember being put to sleep but apparently it was not enough to keep me from feeling the performance of the abortion. It still haunts me to this day of the sensation of my baby being sucked out of my body. My heart and soul cried out in protest as he was ripped from his place of protection. Upon actually waking up from the procedure, I was feeled with a sense of horror and remembrance of my child not wanting to leave me. I cannot describe the mental anguish that came over me as I left that place of death an hour later. What had I done?! Why had I done it?! Who were they to tell me that "it" was not alive yet and that this was something normal that many do. The hurt and pain was so strong within me. For the next year my life was filled on a daily basis of shame and regret and horror and a sadness that ran so deep. I wished I was dead so many times and I cried so many tears. Of course my boyfriend was of no help as the abortion had solved a big problem for him. My outbursts of grief were tiresome to him. It was the only way I had of seeking peace and desiring some sort of comfort that I was never able to find. Time and prayers were what it took to pick me up out of the muck that I had sunk into. To this

day I miss my son so much!! I played God and did not allow him a life here on earth. But Jesus has him there in Heaven.I have asked them both to forgive me!! If not for God's grace,I would have ended my life a long time ago. What kind of mother ends the life of her own child?!

10. How has your abortion affected others in your life?

The abortion was a factor in the breakup of my boyfriend and I. I have not told that many people for fear they would look down on me. I already have punished myself so much, I do not need for others to judge me and make me feel any worst than I already have.

11. Based upon your experience, what would you tell a woman considering abortion?

Anyone considering an abortion should stop and really understand that from the moment of conception, there is a baby growing inside you. It is not just a glob of tissue but rather the very beginning of "someone" that depends upon you to be a mother and provider of life as your mother did for you. This stage of life is where we all began. The Bible tells us that God knew us even in our mother's womb. I wish someone would have been there at the clinic and would have explained this all to me. It was made out to be very common and normal over within a few hours and I could get on with my life. And within those few hours of me getting on with my life, no one said, the life of my baby would be over with as well. Simply put....my life continued on, my baby's continued not. How can that possibly seem common and normal.....?

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Our Creator made women to put the childbearers...not the childkillers. As someone who has done both, there is no comparison of the two. One brings forth feelings of undescrivable joy and the other of undescrivable shame. Even my miscarriage was not of the same nature as my abortion was. My miscarriage was not of my doing and I grieved for the loss of that child even through I never got to hold him. That type of grief is a loss but a loss not of your control. An abortion type grief grips your inner most being and leaves you with a constant reminder that you were in control and you chose death over life. I know to this day, if abortions had not been a viable option that day, my son would be with me this day. My life would have been totally different and so would have his!!!!

HOW MY ABORTION AFFECTED ME

The State of AR

County of Pike

My name is Crystal Roden. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Little Rock AR

09/06/1984

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

suction, I guess.....I dont know the clinical name for it

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I didn't know that it would be so violent to the baby, I thought it would be a painless procedure, not that the baby would be suctioned out and torn to bits in the process.....I thought it would be like putting someone to sleep or something, I really DIDN'T think about it after I made the decision. I was seventeen.

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my boyfriend who was also my fiance

9. How has abortion affected you?

I was a christian in my heart who'd had a rough upbringing and didn't feel wanted at home, having the baby at home was not an option because my mom was determined to get me out of the house, I knew she didn't want a screaming baby there on top of me there.....the boyfriend told me if I didn't have the abortion he'd hit me in the stomach and make me miscarry and if that didn't work he'd abuse the child once it was here....so I gave the baby back to God where it would be wanted and safe.....how it affected me? I hated myself, I am a murderer and I used to think I was a good person.....it was an innocent baby that had never harmed a person in it's life because it didn't have a life. I stayed high for years mentally running from it, I didn't think I deserved children after and I hated listening to people talk about

their kids....I was seventeen when I had that abortion.....I never would have kids with that man after that....and he wouldn't let me go until I finally put a state line between us nine years later.....took me years to finally deal with what I had done.....YEARS!

10. How has your abortion affected others in your life?

In MY life? How can one know? My father was heartbroken, I think my mother was relieved.....the boyfriend? He was happy he'd never have to worry about child support and his mother decided it must not have been meant to be.....the real question is, how did it affect the lives that baby might have touched? that's the real question. and no one will ever know will they?

11. Based upon your experience, what would you tell a woman considering abortion?

I have already talked one out of it. She had a baby already and I asked her if she could look into the eyes of her baby and rip it apart from limb to limb and kill it knowing how innocent it was and how much it loved her? because that's what the process I encountered did, it was suction, it was violent....she changed her mind and had her baby.....if we did that to hardened criminals people would be up in arms....I told the girl she could give the baby up for adoption so some other people who couldn't have kids could take care of it.....I told her how she would always think of the baby if she killed it.....I'm glad she changed her mind.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that the truth is, most of the time it isn't the young girl making the choice to have an abortion. Many times she is marched there by some boyfriend who didn't want to be responsible for a child or some parent who doesn't want to sully the family name.....I would tell them that this country guarantees the right to life. liberty, and the pursuit of happiness and the right to life begins at conception because stopping the life of the baby in the place that should be the safest place in the world for it is STILL stopping the life of the baby and that's a fact they cannot deny.....

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

My mother

9. How has abortion affected you?

I have not been able to forget it, I have committed so many immoral acts just to gain a feeling of acceptance. I feel that I will never get past this feeling of failure and self loathing. I have become so numb inside, I don't feel like a real person anymore. I am just alive because I am breathing. I don't have any enjoyment in life. I have a 4 year old, and the majority of the time, I am just going through the motions. I don't have the emotions that a mother should have because all those emotions died when my aborted children died.

10. How has your abortion affected others in your life?

Inside, I am distrustful of everyone, and I know that is unhealthy; but I long for affection and acceptance and have lived a dangerous lifestyle trying to find it.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't. I don't know if a person can fully understand the trauma abortion causes. It is a traumatic experience that I have to think about all the time and I sincerely believe it is the root of all my disfunctionality.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It seems to be so easy to justify the legality or illegality of an issue because we live in an age of such moral decay. I think it is important for us as people to realize that abortion is murder. No matter how you look at it, the baby will die. How then can abortion be legal? It is just another word for murder. I feel responsible because I committed murder and have gone without punishment; I know God forgives me, but I have such a hard time forgiving myself. We will never live in a perfect world; but until we stop this killing of unborn children, our nation will always suffer. God only forgives when you come to him humbly and ask. Those who would keep abortion forever legal are not asking for forgiveness but instead openly promoting death, murder, and sin. What must God think? How can we expect to live in peace when our leaders flaunt sin in the face of a holy god. The ways of the liberal courts are not working. Step out on faith and do what is right. Don't allow abortion to be legal; overturn Roe v. Wade.

9. How has abortion affected you?

I thought by doing this, was the quick fix, permanent fix. I did not realize it would haunt me forever. Everytime I see a child playing or hold a baby in my arms. It has only been the last two year with GOD's Strength that I am able to even speak of it. That's after 3 therapists and thousands of depression pills. Some say that I may have been depressed anyway. But it isn't a happenstance that since I have finally opened up and dealin with what I have done that I have not been on anti-depressants.

10. How has your abortion affected others in your life?

Have you ever lived with someone that is always depressed. I look back and I believe my children have suffered more than me. I did not give them the love that they deserved, due to I thought that it was unfair to the one I never gave a chance to.

11. Based upon your experience, what would you tell a woman considering abortion?

It isn't a fix to a problem. It's the start of the worst choice of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

As I do believe that a woman has the right over her own body and the choices of the life. The baby's rights need to be protected.

HOW MY ABORTION AFFECTED ME

The State of AZ

County of Pima

My name is Darlene Reavis. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Bethesda MD

09/09/1978

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that all that was inside me was a blob of tissue.

5. Were you adequately informed of the consequences of abortion?

Yes No

The only information I received was to contact a doctor if I had continued bleeding or pain.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

As soon as the abortion began, I began to feel sick to my stomach. As it continued, I knew without a doubt that I was killing a child, that it was not a mere blob of tissue as they had said. At this point, I wanted to stop it, but I believed it was too late and that the damage was done. For years I had to carry the guilt of killing my own child. I later carried four children and with each child, for nine months, I was consumed with guilt over the murder of my first child. Make no mistake, abortion IS murder. Even after 30 years, the pain still lingers.

10. How has your abortion affected others in your life?

Most women I know feel bad about having had abortions. What I have found most interesting is that many women will condone and defend abortion because if they admit it is wrong, they will have to admit they were wrong. They don't want to face what they have done.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that she will live to regret it. I would inform her that there are many resources out there that would help her and her child. I would tell her there are many, many people out there who would love

to have a baby, and can't who would be happy to raise their child. I am so convinced that abortion is wrong that I have offered to help raise the children of many young girls who were considering abortion. Oddly enough, when many young girls hear that you would be willing to take and raise the child, they realize the value of that child, and they keep it rather than kill it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that abortion is murder, and that all you have to do is have one to know that. I would tell the court that murder is murder, and nobody has the right to take the life of an innocent. I would tell the court that just because a woman is carrying a child no more gives her the right to kill it, than she would have if she had already delivered the child. I would tell the court that by allowing women to kill their children, they are not only killing the children, but they are damaging the women/girls, and society as a whole. The less value life has in the womb equals the less value life has outside the womb.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of AR

County of Craighead

My name is Linda Jackson. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Francisco CA

11/15/1972

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was receiving treatment from a planned parenthood clinic. I don't even remember the word abortion being used. I was very sick and in a very abusive marriage, had an infant son and totally isolated from friends and family. (My recollection is very vague on a lot of the details and the date, exact location and time, etc.)

5. Were you adequately informed of the consequences of abortion?

Yes No

Again, I don't recall the word abortion being used. Seems the word D&C was used. They were going to make me feel better. Physically I did, emotionally, I've never been the same since.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Influenced yes.

9. How has abortion affected you?

There is seldom a day that goes by I do not think of my son and what he could have accomplished in this world. The loss never goes away. As my children are having children there is the ever present realization that there is a generation forever lost.

10. How has your abortion affected others in your life?

Depression, self destructive behavior, failed relationships, marriages, breast cancer. When I told my children they were devastated and it took a while to re-build their confidence in their mother.

11. Based upon your experience, what would you tell a woman considering abortion?

Whatever is going on in your life, it is temporary! Abortion is forever! You can make it through. There are

Pregnancy Crisis Centers available to assist you physically, emotionally and spiritually. I wonder had their been a PRC available to me would my life have been different?

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Would you take your innocent infant child or grandchild and cut it to pieces and throw it away? Abortion is no different!

HOW MY ABORTION AFFECTED ME

The State of AR

County of benton

My name is j h . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

fayetteville AR

01/08/1996

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They simply took a wand ultra sound which they didn't show me and they didn't tell me anything else except the basic fact of the procedure- it would terminate the pregnancy.

5. Were you adequately informed of the consequences of abortion?

Yes No

Of course they told me it would end the pregnancy, however they didn't inform me of any risks involved from a health and emotional standpoint.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend at the time strongly recommended it

9. How has abortion affected you?

For the next 1 1/2 years after the abortion, it completely ruined me emotionally and spiritually. This one friend reached out to me and brought me to a church revival and it was at this time I gave it all over to God and then forgave myself and accepted the forgiveness Jesus gave.

10. How has your abortion affected others in your life?

no one in my family has ever known

11. Based upon your experience, what would you tell a woman considering abortion?

I would strongly recommend she seeks counsel- preferably Christian support to help better understand the damage of abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Even if you aren't a Christian, abortion is just wrong. Life truly begins when conception takes place and there isn't any question on this fact. It damages the body, mind, spirit and so much more in a girl . . .there is no question that abortion should be illegal.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of AR

County of Crittenden

My name is Dickie Ann Lashlee. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Memphis TN

//1976

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

I don't remember

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that it was not a life. I did not realize then what I know now.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told there would not be any after effects and of course then I only thought of the physical effects.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have trouble having a relationship with my husband. I don't like to be around babies and I do not want to hold one. I have numbness on my left side and I feel like it is a result of that. I have lower abdomen pain all the time and I feel like that is also a result. The mental effects seem as if they will never go away. I have had 2 abortions.

10. How has your abortion affected others in your life?

I really don't think my husband realizes how I have been affected. We don't talk about it. I don't think he understands the reason for my lack of interest in a physical relationship.

11. Based upon your experience, what would you tell a woman considering abortion?

First that she is taking the life of a human being. I would tell her that God condemns murder. That He is the Creator of all things and He created that child she is carrying. I would tell her how it has affected me even though I know that God forgave me when I was saved. I would ask her to consider adoption rather than abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If I could go back, I would not have had either abortion. I would go through with my pregnancy. I would have sought good Biblical counseling. I would tell them that the physical effects and the mental effects last a lifetime. I would explain that I have not been able to fulfill my duties as a wife. I would explain to them there is such great mental anguish.

HOW MY ABORTION AFFECTED ME

The State of AR

County of Washington

My name is Kari Hodges. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Bellevue WA

09/16/1980

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

suction aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 16. It was surreal. I knew I was pregnant, even picked out a name, but after counselors talked me through the negative consequences for my future, I somehow justified the abortion, and did not think about the affects on my child. Choosing to not think about the actual act. I made myself believe the spirit of my child would still exist in order to go through with it.

5. Were you adequately informed of the consequences of abortion?

Yes No

I did not understand the emotional pain, guilt, and shame that I would carry with me for the rest of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My father, the counselor

9. How has abortion affected you?

My need for love & attention only intensified after the abortion. With my fairytale ideal of motherhood broken, I spent ten years in promiscuity and short term relationships. I had pledged to myself I would never do that again, regardless of my circumstances, and so ended up marrying when I became pregnant again at 24. When my son was born, I knew in that instant, what a miracle had just happened. There was no way a messed up, self-centered girl could have ever created something so perfect. Divorced after 3 years, with two children, I began to seek healing. I put my faith and trust in Jesus Christ at 28, and my life was changed forever. However, this still did not force me to address what I had done. It wasn't polite to discuss a past abortion, so it wasn't until I watched the story of a mother who murdered her two tiny children by drowning them in her car, that I realized I had been no different.

The shock and horror that the nation expressed toward this mother, should have been directed at me as well. I was screaming inside to tell the world I was a murderer. I am thankful I have found grace and mercy in Christ. I am forgiven, but I still have a long way to go to be truly healed of the experience. I do not condemn anyone for past decisions, but long for the truth of abortion to be proclaimed, and for healing to begin for all women and men who have been deceived about abortion, and what it really is.

10. How has your abortion affected others in your life?

My Parents, and sisters were greatly traumatized by my choices, and the consequences. My husband now is very supportive of me, and very willing to help me work through, and hopefully help others who have had, or who are contemplating abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

No matter what the circumstances of their situation, I would ask them to please consider making the better sacrifice of NOT choosing to end the life you have growing inside. Look at the real truth of pregnancy. It is a baby, not a lifeless blob; undeserving of care, and love. There are people and places that can help you. Whether you decide to keep the child yourself, or place her in a loving home, the temporary sacrifices of time, money, physical change, or shame are far less than the pain and suffering you inflict on yourself, and your child for the rest of your life. The real choice to make, is choosing life over death.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe that abortion at any stage is the intentional murder of another human being. I believe you cannot make the excuse of saving women's lives from back alley abortion hack jobs, to justify legalized murder. Not one person has a higher right to life than another. Women are being deceived. Education about pregnancy, and standing beside women of all ages and soceo-economic backgrounds who are pregnant, no matter what the circumstances, should be where we focus our resources.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of AR

County of Benton

My name is Lisa Nunley. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

TX

//1987

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

Suction Aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was a mass of tissue. I was NOT told that at the time of my abortion, all arteries are present, including the coronary vessels of the heart and that blood was fully circulating through these vessels to all body parts. I was NOT told that the "mass of tissue" had complete vocal chords and that the brain was fully formed and that the "mass of tissue" had organized muscles, could feel pain, suck it's thumb, and had eye lids that protected its delicate optical nerve fibers. I was NOT told that the flutters I felt were actually kicks and movements of the "mass of tissue"... of course, I did hear them say in the middle of the abortion "she is farther along than we thought" as I cried for them to stop... "It's too late, honey. You did the right thing. Now, you can go on with your life." I could hear the water running in the sink nearby. I then heard a big plop... "Did you just throw my baby in the trash?" I thought. ... Then they shuffled me out the back way.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told that I would never forget anything. I was not told I would experience deep despair and lonely scars of regret. I did not bring enough money to be put to sleep through the "procedure"... so I was awake the whole time. They numbed me. I felt no physical pain... but I will never forget the tugging and the pulling. I will never forget the sound of that vacuum. Instead, I was told I did the right thing. It was just a mass of tissue. That I could go on with my life. I am 40 years old with 6 living children. Two of my children are adopted. I have never forgotten my first child. The child murdered by having an abortion because they kept assuring me it was a mass of tissue. Who gets attached to a mass of tissue? A mass of tissue that could easily be aborted, forgotten, right? No. ...no. Not a "mass of tissue". A life wonderfully made, knit within my womb. A life destroyed. Literally ripped from my body. I can't forget. I will never forget.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

I pressured myself. I was afraid to have a baby.

9. How has abortion affected you?

I became pregnant as an older teen. My father begged me NOT to abort. So I went to my mother. She left my dad, me, my sister and brother when I was 6 years old. She took me to the hospital to get an exam. They asked me, after they confirmed that I was pregnant, if I wanted to carry the baby to full term or abort the mass of tissue. Since I had no attachment to a "mass of tissue" I figured this would be no big deal. My mother gave me the money I needed to have the abortion. She dropped me off at the clinic. I was alone and had no idea what I was doing. I did not bring enough money to be put to sleep through the "procedure"... so I was awake the whole time. They numbed me. I felt no physical pain... but I will never forget the tugging and the pulling... the sound of the vacuum. After the abortion, I was shuffled out the back way. I sat alone on the curb outside, waiting for my mother to come pick me up. She was an hour late. They told me I would forget about the "mass of tissue" and be able to go on with my life, but I was having nightmares every night. For many years, a day did not go by that I did not contemplate suicide. Guilt, sorrow, loss of dignity and deep shame are the most felt responses after an abortion. I experienced deep despair and lonely scars of regret. Though forgiven, I will never forget.

10. How has your abortion affected others in your life?

When my oldest 2 children found out, it devastated them that I would do that. They were angry with me and could not understand why I would ever do such a thing. I spoke for CareNet Crisis Pregnancy Centers fundraiser one year and then gave my abortion testimony on the radio. I hired a babysitter to watch my children. I had NO IDEA she would listen to the testimony on the radio with my children listening. I wanted to tell them myself when they were a bit older. It was a very difficult time. They asked so many hard questions. Especially "Why"... I still have a hard time answering that. I can't answer that. By the grace of God alone, I have an amazing life now. With 6 children, precious gifts from God, I do not take life for granted. Most especially in light of having experienced the nightmare horror of abortion and even the fact that I was diagnosed with multiple sclerosis in 1999. I try to live every moment to its fullest because the value of life, the value of living, should never be taken for granted.

11. Based upon your experience, what would you tell a woman considering abortion?

Please choose life. Your life should never be taken for granted. Please do not take for granted the life of the child being knit together in your womb by the hand of God. What is inside of you is not a "mass of tissue" You have a choice. You can have the memories of a child being knit in your womb and given the chance to live. Perhaps even giving a family who cannot have a child the opportunity to provide a loving home for your baby. or You can have the memory of a baby being ripped from your womb. A life aborted with the only excuse of inconvenience. A choice that will haunt you for the rest of your life. Choose a memory that will bless you and not haunt you. Please... choose life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Women aren't forced to bear children, they choose to bear children by the act of having sexual intercourse. (rape or incest account for less than 1% of legal abortions.) If a man chooses not to be a father, he is considered a dead-beat loser. If a women chooses not to be a mother, she is kindly labeled pro-choice. Why? Abortions based on the mother's health account for 3% of abortions. Abortions based on the baby's health account for 3% of abortions. Most women pursuing abortion feel selfishly inconvenienced by pregnancy. 1.5 Million babies are being aborted every year. That is over a million babies dying due to inconvenience. This is not a mass of tissue. This is life. A baby. A person... and 100% of a person's genetic makeup is determined at the moment of conception. Science and medicine define being a person (human) by genetic means. No one is saying that babies should have rights equal to or superior to a woman's. Babies simply have a right to life. Every child is a wanted child. The option of adoption is a far healthier option and there are endless lists of families waiting and longing to adopt those babies. Abortion is not a choice about women's value, family, career, how to live their lives, or when or whether to have children. Abortion is a choice between allowing an unborn baby to live or killing it.

Dad

9. How has abortion affected you?

I feel very betrayed because my dad did this to me. I was not even aware I was for sure pregnant until 9 years later when as an adult I requested my medical records. I was given no information or choice about anything. I endured extreme physical pain in the waiting room as the "shot" took effect and then the contents were scraped out on an exam table. I can only imagine the pain women have that choose abortion if I have had this much pain when I had no choice.

10. How has your abortion affected others in your life?

I have struggled with trust and fear of abandonment issues that affected my intimate relationships.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to do it. There are plenty of other alternatives.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

They are making something legal that is detrimental to mankind, both the killed babies and the living people left to grieve this awful procedure.

QUESTIONS

1. Where and when did your abortion occur?

//

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

none

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was pregnant out of wedlock and abortion was offered to me as a choice. I chose to marry my husband of 28 years and we have a total of 4 children. I now hold in my arms my 1st Grandson from my oldest daughter, whom I could have ended her life, if I had chose to do so. What an impact on society and my life that would have been. Should we really have the right to destroy life or should our choice stop at if we should have sex that creates life? Thank God, I kept her!

5. Were you adequately informed of the consequences of abortion?

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

My family

9. How has abortion affected you?

Choosing Not to have an abortion has given me a Grandson and a wonderful daughter that I would never have had!

10. How has your abortion affected others in your life?

My daughter has an Accounting Degree, is a trusting, loyal friend, a wife, a mother and an active part in the Church and the community. She touches many lives every day.

11. Based upon your experience, what would you tell a woman considering abortion?

My choice was to have sex. My daughter and Grandson were results of that choice. To destroy that baby within me would have destroyed some of the best of my life!

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Women make the choice to act on their lust and have sex or not. After that choice is made, if a life is created, then that baby should have the chance to live. The mother can choose to give her child to someone else to love, but she should not be able to destroy life, because she had already made a bad choice in having sex.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of AR

County of pulaski

My name is P O I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

little rock AR

09//1980

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

I didn't realize there was more than one kind of abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that it was just a blob of protoplasm, and not alive. I was told that it couldn't feel pain because it wasn't alive.

5. Were you adequately informed of the consequences of abortion?

Yes No

At the time, I didn't realize there would be consequences. I'm not sure if you're referring to physical or emotional consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

For years, I believed that because it was a blob, no harm done. It wasn't alive, it didn't feel pain, so it wasn't yet a "baby". When I realized that this wasn't true, I felt great shame for many years.

10. How has your abortion affected others in your life?

I only told those who would be supportive. To my knowledge, they didn't think much about it. To this day, my own mother doesn't know. I didn't tell her because she was one of those people who judges, name calls, etc. I was 19, and the father was 33. If I had known the truth, I would have endured all of that rather than live with what I did, which was ordering the murder of my child. I know that there would have been others who would have stood in support of my decision to have the baby, including my father.

11. Based upon your experience, what would you tell a woman considering abortion?

Your baby is alive, and is a real baby at every stage while in the womb. Just because the government

says it's not alive doesn't mean it is so. It has been proven scientifically, as well as spiritually that the baby is alive the very second it is conceived. It's human at every stage.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Stop lying to women about the child not being able to feel pain, and about it not being "real" until it's three months old. It's deceptive and cruel to the child as well as the mother. The government has no business keeping this fact from the mothers. The mothers are already confused and scared—deception only enforces the guilt that comes later, and never goes away. Telling these women the truth is the only fair thing to do. Take the responsibility that goes with our position. Women deserve better.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of AR

County of White

My name is A H I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Minneapolis MN

07//2006

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Medical Induced

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea of the intense emotional and psychological pain I would experience for years after the abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has caused depression, anxiety, feelings of guilt and shame, the inability to forgive myself, the trauma of having to hide a painful secret from my family and problems sleeping.

10. How has your abortion affected others in your life?

It has made it so my family cannot really know me and has burned my marriage.

11. Based upon your experience, what would you tell a woman considering abortion?

It may seem like the best thing to do but you will experience pain later on. It took me several years to grieve the death of my child. That ultimately is what a woman who has had an abortion must come to terms with. There was a baby and that baby is no longer here. It is a terrible realization.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The practice of abortion is barbaric. The sanctity of life must be respected at all stages. If our country is to be built on human liberty we must choose life for every human being.

HOW MY ABORTION AFFECTED ME

The State of AR

County of Crawford

My name is Kristi Hays. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Little Rock AR

08/06/1990

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

Vacuum aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The only thing I understood is I would no longer be pregnant after the procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me that there could and/or would be consequences physically, emotionally, mentally or spiritually.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

boyfriend, parents and myself

9. How has abortion affected you?

After my abortion I shut down. I acted in ways that were damaging to my health by drinking, pursesly dating guys who were mentally and emotionally abusive because I thought that is what I deserved. For years I fought anger and depression issues not realizing that it was connected to my abortion. Most of all I know that I am a mother to my aborted child and now know that I should have chosen life for her.

10. How has your abortion affected others in your life?

My mom still has a difficult time forgiving herself for her part in my abortion. My husband who is not the father to my child had to pay some consequences to a choice he had nothing to do with because of how it affected me.

11. Based upon your experience, what would you tell a woman considering abortion?

I would give her intense details of what will actually be taking place and furthermore details of how her life WILL change should she choose abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion HURTS women terribly for years and years after the abortion. But it also hurts men as well. The emotional effects can harm a womans ability to mother her living children. It can tear marriages apart. It can and does cause women to inflict pain on theirselves as well as suicide.

HOW MY ABORTION AFFECTED ME

The State of AR

County of Lonoke

My name is Paulette Bunting. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Little Rock AR

01/11/1995

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

vacuum aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told instruments would be much like when having a pap smear and the contents of my uterus would be suctioned out.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told of no after effects physical or emotional

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother

9. How has abortion affected you?

For 12 years I had depression, nightmares, difficult bonding with my subsequent children, use of prescription drugs to numb the pain, a mild nervous break down, anger issues, low self esteem, self-hate.

10. How has your abortion affected others in your life?

Because of my anger issues I often lashed out at my husband and children. My husband has had to help me through my depression and my feeling of wanting to die.

11. Based upon your experience, what would you tell a woman considering abortion?

That life never goes back to normal. That you are simply trading one set of challenges for another. That everytime you look at a family protrait one person will be missing. You will one day realize that you have killed your baby and that realization will be a hard one to face.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

All life is created equal, born and unborn. That women will suffer much more damage from abortion, physically, emotionally and spiritually than from being carrying and delivering a child.

HOW MY ABORTION AFFECTED ME

The State of AR

County of Greene

My name is Kellie Eaton. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Memphis TN

08//1983

2. How many weeks pregnant were you?

3

3. What type of abortion was performed?

not sure what it was called. They used a machine.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told I would no longer be pregnant. That's about it.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Mother

9. How has abortion affected you?

Many ways. I was not given a choice by my mother & was told to keep it a secret. At the time it made me feel dirty. As I got older and learned more about abortions I was then mentally & emotionally distraught at what I had done. Even though my mother did not give me any other option it was I who had the abortion and I was ashamed and felt like a murderer. I carried all this around with me for many, many years.

10. How has your abortion affected others in your life?

It didn't seem to affect anyone else in my life because at the time my mother was the only one who knew. Didn't phase her at all. Later in years when I began to talk about it as an adult it didn't seem to affect anyone then either.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT DO IT. It is a life forming inside you. A life that was not asked to be put there. It is your responsibility to carry that child whether you intend to raise the baby or adopt it out. Abortion is wrong. You do not realize the aftermath of an abortion. Not only will you kill a child but you yourself will be

emotionally and mentally damaged from it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If you have never had an abortion or know of someone that has then how could you possibly know the affects it has. You know that it's taking a life away but it goes much further than that. It is emotionally & mentally damaging. At the time a person has one I don't think they always realize that..maybe because they are young or just haven't given it that much deep thought. Every child needs a chance in this world whether the person who is carrying the child wants to give that baby a chance or not.

My friends

9. How has abortion affected you?

There isn't a day that goes by that I don't think about it and ask God to forgive me. I feel so guilty.

10. How has your abortion affected others in your life?

No.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her not to do it. I would tell her that she will find a way to take care of and love her baby with God's help or to consider giving up the baby to a loving couple that would love to love it. I would tell her that she will never forgive herself if she goes through with an abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court to consider the mental well being of women, that having an abortion preys on your conscience forever, not just a few days. I would tell the court to consider the millions of couples

patiently waiting for a child to adopt to love as their own.

My mother, and boyfriend

9. How has abortion affected you?

I am over weight sometimes not a very happy person to live with.

10. How has your abortion affected others in your life?

They don't all know and my husband knows and knows that is why I am not always happy. About 6 years ago my husband surrendered to Preach and I have a problem. I can't work and do the things I should do in church, because I don't feel worthy and forgiven even though I know I have been.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T PLEASE DON'T. It is something you will never get over I was 17 and now I am 50 and I still remember and can't forgive myself and have a problem working in the church.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I don't know I could without breaking. It is a horrible thing to do the women and babies. It has lasting effects for years mentally and phycial.

9. How has abortion affected you?

grew up bitter and angry!! I was 15 years old when I had the abortion. My mother told me that I was not going to make her an unfit mother. I guess she thought that was best thing for me not considering what it done to my spirit.

10. How has your abortion affected others in your life?

lived a life of shame and guilt and been angry at my children without realizing how i was hurting them. not been able to love them the way i should.

11. Based upon your experience, what would you tell a woman considering abortion?

don't do it. because regardless if they tell you that it is only a fetus. it is a spirit. and children are a hertige of the Lord.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

reagardless what they say. it is murder to me and i don't want to stand in front of the Lord saying I killed my child. and you just open the door for the enemy to torture you. it does more damage to your spirit then you realize and if you don't have the Lord as your foundation you're really in trouble.

My name is Deanna Ekings. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Newbury Park CA

06//1985

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Suction Curettage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

24 hours prior to my appointment the nurse put me in a room and turned on the VCR then left. I watched a video but had no idea what I was watching and of course was told at the time that the fetus was just blobs of tissue not formed or even a baby at that time. They never even told me about how the abortion would be performed or what was being done to my body and my baby.

5. Were you adequately informed of the consequences of abortion?

Yes No

No, no one told me that there was risk of infection, death future miscarriages, breast cancer, and so many other future psychological problems. They talked about it as if it were just like having a pap smear. Over in no time and life would go back to normal.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend, friends

9. How has abortion affected you?

For many years I suffered from sexual disfunction, addictive behaviors, self hatred, depression, guilt, sorrow. I have two children born premature, I had one ectopic pregnancy, lots of scar tissue on my cervix and an incompetent cervix.

10. How has your abortion affected others in your life?

After I was able to come to terms with what I had done and found healing and forgiveness through Jesus Christ I was able to tell my mother and family. Not a single person is glad that I made the decision and as for my son who is now 16 he cried and said to me "you mean I would have an older

sister or brother"? That just broke my heart. Not a single day goes by that I don't think about my child and what he/she would be like today. I am now able to help others as a Crisis Pregnancy Center Director.

11. Based upon your experience, what would you tell a woman considering abortion?

I have already encountered women in my job considering abortion I tell them that there are other options such as parenting and adoption. I tell them they are worth more than abortion and that They can have a good life with a baby. I tell them the life inside of them is a baby, I show them models of babies we have I tell them about the procedures of abortion and what it does to them and the baby. I also tell them Jesus loves them and he loves their baby too.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them how it has changed my life. How If I could go back I would have made the choice for life. I would also tell them to take a look at what an abortion does to the baby. Most women have abortions for birth control reasons. I would tell them that every child deserves a chance at life. Abortion does not cure rape and abortion does not make a woman not a mother. Abortion hides incest and molestation because of our laws we are not protecting our children we are hurting them. If we could educate and inform women make available crisis pregnancy centers instead of Planned Parenthood, more women would choose life. I would also tell them at one time slaves were not considered human either and they were given no rights. I baby inside a mother is not a monkey it has two human parents which makes it human, which gives the child the right to life, liberty and the puruit of happiness. I am ashamed at the politicians who are for abortion but don't bother finding out more about it. I wonder how many of them have ever had to make the such a decision.

HOW MY ABORTION AFFECTED ME

The State of AZ

County of Pinal

My name is Jennifer Brannon. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Queens NY

07/31/1993

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

Not sure what that means.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No, for if I had known that my baby had functioning organs and therefore could possibly feel pain, I would not have gone through with it. If I thought my baby was anything other than a "blob of tissue", I would not have been able to do it.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told about the possible physical consequences, such as death, breast cancer links, the possibility of being rendered infertile, or psychological and emotional effects, when I was counseled.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

How hasn't it? Severe depression, nightmares where I see my child dragging its mangling limbs behind it as it walks towards me, knowing I've killed my own child, feelings of inadequacy as a mother to my children born afterwards.

10. How has your abortion affected others in your life?

My resulting depression has had negative effects on everyone in my life.

11. Based upon your experience, what would you tell a woman considering abortion?

Please, don't do it. You will never get over choosing to kill your baby. There are people out there waiting to help you, if you want to keep your baby, and adopt if you don't. I know you're scared, but don't do it.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Women are told it's their right and choice to have an abortion, and stuff their grief, shame and guilt inside afterwards, and it hurts them for the rest of their lives. Killing any innocent human life is wrong, no matter how young it is.

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

When I was at the abortion clinic they told me some information but definitely not enough.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was in no way informed nor prepared for the emotional, physical and mental effects of abortion. I suffered through years of depression, alcoholism, and self-hatred.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Just three years after my abortion I found myself pregnant again in the very same circumstances as the first time. I knew without a doubt that there was NO way that I could have another abortion. I carried that precious baby fearing a miscarriage the entire time. Once I had her I had a hard time not feeling a lot of guilt and shame. I was not the best mom. How could I be, when I was so depressed.

10. How has your abortion affected others in your life?

My mother and Father lost a grandchild. The baby's father lost a child. My daughter lost a sibling. My siblings lost a niece or a nephew. Just recently I recorded a radio spot for some of the local radio stations about my abortion experience. I had to tell my 11-year-old daughter about the abortion. It was one of the hardest things that I have ever had to do. She cried and got angry and then cried some more. She has always wanted a brother or a sister. Learning this devastated her.

11. Based upon your experience, what would you tell a woman considering abortion?

An abortion doesn't make you unpregnant. It just takes the life of your child. You are already a mother.

Give your child a chance at life. Even if you can't raise this child you can still give it life. There are people out there who would love to help by adopting your child. An abortion will not leave you with peace, but rather pain, shame, guilt, depression and regret. Before making a decision talk to someone who has experience and I guarantee you they will tell you not to choose abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Bottom line. Abortion is the taking of an innocent human life. There is no period of non-life from conception to death. Nowhere in the United States is it legal to kill someone because they are an inconvenience, too much responsibility, expensive to support, or just not wanted. Why should we justify abortion as the exception.

8. Did anyone pressure you into having an abortion?

Yes No

Doctor. No \$ = Burden to society.

9. How has abortion affected you?

Abortion has left me guilty of the sin of murder. I suffer guilt, depression, mourning, anxiety, fear, deep sorrow, and terrible regrets. I go through counseling. Abortion hurts women! I am infertile now.

10. How has your abortion affected others in your life?

My family, friends, and I will not know the person my baby was to be. People have lost respect for me due to my decision to have an abortion. My baby's father left me because he was so horrified. I am infertile, which has affected my husband and My relationship and lifestyle.

11. Based upon your experience, what would you tell a woman considering abortion?

I would describe in great detail what the abortion procedure was like, as well as the awful emotional toll and effects. I mourn every day for my child. It is very difficult to come out of depression. I am now infertile.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should never be legal!!! Abortion kills people!

HOW MY ABORTION AFFECTED ME

The State of AZ

County of Maricopa

My name is Carolyn Roberts. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

CA

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

vacuum aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not given any details on how the abortion would be performed or on how it actually worked.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not given any information whatsoever on consequences of abortion and certainly not on any possible long-term emotional/psychological effects or consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have experienced deep regret, depression, and guilt.

10. How has your abortion affected others in your life?

My husband and two children are affected directly by my emotional state.

11. Based upon your experience, what would you tell a woman considering abortion?

I would give her all the information that I did not have; I would pray with her; I would offer to take her for an ultrasound; I would encourage her to consider adoption; I would do whatever I could do to save that baby and save that woman from a lifetime of regret.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say that unborn babies are people--the weakest, most vulnerable people--and that they deserve our protection. We do not have the right to take an innocent life. That child is alive and, if a United States citizen, is therefore protected under the U.S. Constitution and entitled to "life, liberty, and the pursuit of happiness."

The father of the baby

9. How has abortion affected you?

It has really been a long road of regret and pain and healing.

10. How has your abortion affected others in your life?

I don't know. I was on my own and it had little to no affect that I know of on any one else besides me and the baby.

11. Based upon your experience, what would you tell a woman considering abortion?

I would urge her with all my energy NOT to get an abortion, but to give the baby a chance at life. Her mistakes do not need to be compounded by hurting an innocent life that WILL torture her to some extent in the future.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that abortion is murder: a murder of convenience. It is often used as birth control...Even those of us who think there will be no lasting emotional consequences are terribly mistaken.

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

DNC

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Was not told size of baby or what the developmental stage was. Was not told what it did to the baby as it was being extracted.

5. Were you adequately informed of the consequences of abortion?

Yes No

Did not even tell me what mental or physical scars it would leave.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I think about it all the time even after I have given it to God and I know he has forgiven me I still cannot quite forgive myself.

10. How has your abortion affected others in your life?

My husband won't even talk to me about it and did not even want to hear my story and why it happened. I told him at the first of our dating and we have been married 19 years.

11. Based upon your experience, what would you tell a woman considering abortion?

Find out every single detail about what it does to the baby and you, talk to women who have had one,

there are other options and there are couples who are waiting for babies to adopt. It may not affect at first, until you have a planned child, that is when it hurts the most.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Women should be informed of every aspect of an abortion. Every bloody detail! I would think once they know what it does to the baby I don't think a woman in her right mind would have it done.

I JUST WENT INTO A DOCTOR'S OFFICE AND HAD THE PROCEDURE DONE. THE FATHER OF THE BABIES(TWINS) CAME WITH ME. THE ABOVE DATE MAY NOT BE TOTALLY ACCURATE. I CAME FROM CHICAGO AS ABORTIONS WERE NOT LEGAL IN IL. AND RETURNED HOME THE SAME DAY.

5. Were you adequately informed of the consequences of abortion?

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

I HAVE DEDICATED MY LIFE TO HELPING KIDS-TEACHING SCHOOL, WORKING IN CHILD ABUSE AND NEGLECT AND AT CHRISTMAS I BUY LOTS OF GIFTS FOR KIDS, ALL THE WHILE TRYING TO REPLACE THE TWO I LOST. I PURPOSLY CUT OFF COMMUNICATION WITH MY BEST FRIEND AFTER SHE GOT MARRIED AND HAD CHILDREN BECAUSE I COULDN'T LOOK AT HER CHILDREN AND REALIZE THAT I HAD ABORTED MINE. I HAD TALKED TO HER BEFORE MY ABORTION AND SHE HAD AGREED WITH MY CHOICE. I HATED HER FOR THAT.I SUFFER FROM DEPRESSION AND AM RIGHT NOW CRYING BECAUSE OF MY DECISION. MANY TIMES I WONDER IF MY

CHILDREN WOULD HAVE BEEN A BOYS OR GIRLS, WHAT THEY WOULD HAVE TURNED OUT LIKE. THEY ARE NEVER OUT FROM MY MIND.

10. How has your abortion affected others in your life?

I NEVER MARRIED OR HAD CHILDREN AND I HAVE HAD TO DEAL WITH THIS DECISION BY MYSELF IT HAS BEEN VERY HARD.

11. Based upon your experience, what would you tell a woman considering abortion?

WHEN I HAD MY ABORTION I THOUGHT I WOULD HAVE OTHER CHANCES TO HAVE KIDS. I DIDN'T WANT TO DISAPPOINT MY MOTHER. I WASN'T SURE I WANTED BERNIE(THE FATHER) IN MY LIFE FOREVER. YOU CANNOT PREDICT THE FUTURE. I NEVER HAD OTHER CHILDREN AND I REGRET WHAT I DID. IT WOULD HAVE BEEN MUCH BETTER IF I HAD HAD THE BABIES AND GIVEN THEM UP FOR ADOPTION,I WOULD KNOW THEY WERE ALIVE SOMEWHERE AND HOPEFULLY HAPPY AND FULFILLED. I DON'T KNOW HOW BERNIE FEELS ABOUT IT BUT I KNOW HE NEVER HAD KIDS EITHER. MY MOTHER WOULD HAVE BEEN DISAPPOINTED BUT MAKING HER HAPPY DID NOT OUTWEIGH THE DECISION TO GIVE THESE KIDS A CHANCE AT LIFE. I HAVE MADE MY PEACE WITH GOD BUT NOT WITH MYSELF AND EVEN IF I HAD HAD OTHER CHILDREN MY DECISION WAS THE WRONG ONE. WHEN I HAD MY ABORTION THERE WERE NO ULTRASOUNDS AND NOW WHEN I SEE A CHILD MOVING IN THE WOMB I KNOW THAT MY DECISION WOULD HAVE BEEN DIFFERENT. NOW, THERE ARE MANY AGENCIES THAT CAN HELP YOU IF YOU CHOOSE TO KEEP THE CHILD. YES,KEEPING A CHILD WILL CHANGE YOUR LIFE BUT ABORTING A CHILD WILL HAVE FAR MORE DEVASTATING EFFECTS.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I BELIEVE THAT EVERY ONE MAKES A MISTAKE. THERE ARE IRRESPONSIBLE PERSONS OUT THERE THAT HAVE NUMEROUS PREGNANCIES AND ABORTIONS. THIS SHOULDN'T BE ALLOWED. ABORTION ON DEMAND IS AN EXCUSE FOR NOT BEING RESPONSIBLE. MORE SERVICES ARE NEEDED TO HELP PERSONS FINDING THEMSELVES IN THIS PREDICAMENT. THEY SHOULD HELP PEOPLE REALIZE THAT THE INCONVENIENCE OF BEING PREGNANT AND THE POSSIBLE HUMILIATION OF CARRYING A CHILD WILL PASS AND THAT IF THEY CHOOSE NOT TO KEEP THE CHILD THERE WILL BE HELP IN HAVING THEM ADOPTED. COUNSELING IS NEEDED AS TO LONG TERM EFFECTS OF THIS DECISION BEFORE THE DECISION IS MADE AND AFTER IT HAS HAS BEEN IMPLEMENTED. MANY MORE AGENCIES MUST BE INVOLVED TO SUPPORT THE PREGNANT GIRL AND IF THE GIRL HAS A RELIGIOUS BACKGROUND A PRIEST, MINISTER OR RABBAI SHOULD BE SOUGHT.THE MAN WHO IMPREGNATED THE GIRL OR WOMAN SHOULD HAVE SOME SAY AS TO WHAT HAPPENS. THIRD TERM ABORTIONS SHOULD BE OUTLAWED AND ABORTION SHOULD BE THE EXCEPTION RATHER THAN THE RULE AND BE DONE AFTER EXTENSIVE COUNSELING OF BOTH INVOLVED ADULTS. I FEEL PARENTS SHOULD BE TOLD THAT THEIR CHILD IS PREGNANT- THE ONLY EXCEPTION BEING IF THE PARENT HAS IMPRGNATED THE CHILD OR THE PARENT HAS A HISTORY OF VIOLENT BEHAVIOR. I BELIEVE THAT EACH STATE SHOULD MAKE IT'S OWN LAWS ABOUT ABORTION IT SHOULD DEFINITLY BE OUT OF THE HANDS OF THE FEDERAL GOVERNMENT.

9. How has abortion affected you?

I have suffered from depression since the abortion. When I finally married we divorced 11 years later, again from my depression over the abortion. I didn't feel like a total woman.

10. How has your abortion affected others in your life?

My ex husband didn't understand what I was going through while we were married. I know he really loved me but I didn't feel worthy of his love for my decision to have an abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T.....there are alternatives and give that person detailed information so they can receive counseling. I also would ask them to get into a Bible based church so they don't have to feel alone.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion not only takes unborn children's lives it also affects the woman. Maybe not at that moment but later in life when they realize that they ended a precious little life who didn't have a voice.

9. How has abortion affected you?

it has haunted me everyday of my life since then. if i had a second chance to make the decision over, i would have chose life for my baby. i have often thought that all of my misfortunes were a direct result of my decision including the misscarriage of my first baby with husband. i now have a dauchter that i look at and think about how much she would love her older brother or sister

10. How has your abortion affected others in your life?

i think that ultimately my depression and unresolved issues with dealing with it has effected my husband--even after all these years later. i still grieve daily!

11. Based upon your experience, what would you tell a woman considering abortion?

not to make a decision of the moment. life does carry on, but the pain and loss of any child WILL effect her forever. the emotional attachment will always be there. it is life that has been placed there not just

something unplanned.remember life and birth is a miracle!!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

we are a country that supposedly protects children and the innocent, so why not protect the lives of these babies that don't even have a chance when laws are made to harm and kill them!!!! we are a civilized society not savages!

No. I thought there was no consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I married the father after the abortion and we have had a very bad relationship. I have been depressed and felt like I was not worth much for at least 26 years. We recently went on a retreat and getting counseling and are doing somewhat better. My husband agreed to the abortion and even volunteered to help pay for it but 30 years later said he has been upset about it. He has been talking down to me for years.

10. How has your abortion affected others in your life?

It has affected my husband as above and has hurt our 4 children.

11. Based upon your experience, what would you tell a woman considering abortion?

Absolutely do not do this. Put the baby up for adoption. It seems like an easy way out now but you will absolutely regret it for the rest of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

To think about being a murderer is devastating to the human psyche. Abortion absolutely harms men and women. Please do not legalize abortion!

The State of AZ

County of Maricopa

My name is Loretta I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Tempe AZ

//1990

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

Not sure, was in the first trimester

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told that it would kill a living being. I was told what was inside of me was a piece of flesh. I was not told I had a baby inside of me that had a heartbeat. I had three abortions in 1990, 1992, and 1997. For my first abortion, I lied about the date of conception to pay the lessor fee and the doctor did not inform me of how far along I was or how developed the baby was.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told what I had inside me was a piece of flesh, not a baby. I was told that having an abortion would be the solution to "my problem", being pregnant. I was told I would have no side affects later if I wanted children. I was not told about the deep emotional and psychological suffering I would go through.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I spent many years in a deep depression. I considered committing suicide many times. I was unaware of the affects. I went to counselors, I became a sex addict. For 15 years, I was full of shame and anger, but didn't know why. I stayed in an abusive relationship because I thought no one would want to be with a girl who had multiple abortions. I stayed even after being raped.

10. How has your abortion affected others in your life?

I was unable to have true relationships with friends and family. I isolated myself from everyone. I acted like everything was perfect, meanwhile, I fell into a deeper depression. I pushed my husband away and my kids because I was not able to handle being close to them. Loving and being loved was painful and scary.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her my story of deep regret and pain. I would advise her to read about fetal development. Have an ultrasound done. Talk to other women who have had an abortion. Talk to others who kept their babies after considering abortion. Talk to mothers who cannot have children that are waiting to adopt a child. Talk to people who have been through this situation. Learn the truth about abortion, the side affects, the risks, the long-term consequences. The consequences are very real and life-long.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court to listen to the pain in our voices and the truth we speak about how our abortions have affected our lives. Unplanned pregnancies and innocent babies are not the problem. If you want to help women, teach men and women about the reality of their choices to be sexually active. Make childcare, insurance, food, all the things needed to have a child available to a pregnant mom, while teaching them about the reality of using birth control. Teach them how to respect themselves and their bodies. Require all clinics to provide information on the real consequences of abortion like breast cancer. Abortion seems like such an easy answer, but it comes with some of the most life altering and damage consequences that one could ever imagine.

There was no counseling offered.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no counseling offered.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has haunted me all my life. I have been filled with pain and regret for what I did. I wish I had known more about the consequences instead of just always hearing about women's rights and other propaganda of that era.

10. How has your abortion affected others in your life?

It has not, as I have kept it to myself mostly.

11. Based upon your experience, what would you tell a woman considering abortion?

That she will regret it all her life and live with the pain of knowing that she ended a life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

They're misguided. It is killing a living human being. It is murder.

QUESTIONS

1. Where and when did your abortion occur?

TUCSON AZ

04/15/1978

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

NOT SURE OF THE EXACT PROCEEDUREVAGINAL

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I WAS ABSOLUTELY AWARE OF WHAT I WAS ABOUT TO DO, BUT DID NOT CONSIDER THE REAL CONSEQUENCES LONG TERM. I WAS YOUNG, MARRIED AND NOT READY FOR ANOTHER CHILD. I THOUGHT! BIG MISTAKE.

5. Were you adequately informed of the consequences of abortion?

Yes No

NO ABSOLUTELY NOT.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

IT HAS CREATED A "HOLE" IN MY HEART. I'VE NEVER COME TO TERMS WITH IT. I OFTEN THINK ABOUT THAT CHILD, I THINK IT WAS PROBABLY A GIRL. I'M FOREVER REGRETFUL OF MY ACTION. AND HAVE ASKED GOD'S FORGIVENESS.

10. How has your abortion affected others in your life?

I'M NOT SURE. I'VE NOT TOLD MANY PEOPLE. I CARRY THE BURDEN MYSELF.

11. Based upon your experience, what would you tell a woman considering abortion?

NO. DO NOT DO IT. HAVE THE CHILD, KEEP IT IF YOU CAN, IF NOT, THERE ARE SO MANY PEOPLE WHO WANT DESPERATLY TO ADOPT CHILDREN.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

THEY DON'T KNOW WHAT THEY'RE TALKING ABOUT. IT DOESN'T HAVE ANYTHING TO DO WITH THE RIGHTS OF THE WOMAN. THE RIGHTS SHOULD BE WITH THE UNBORN CHILD. IT IS AN INCREDABLY SELFISH ACT. I KNOW THAT NOW. TOO LATE FOR ME. BUT PERHAPS NOT OTHERS.

2. How many weeks pregnant were you?

20

3. What type of abortion was performed?

surgical

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Since it was illegal at the time, there was no discussion except about ability to pay.

5. Were you adequately informed of the consequences of abortion?

Yes No

Severe bleeding off and on for several months - additional surgical procedure performed.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Grandmother

9. How has abortion affected you?

Shame and complete loss of self-respect. Later married and had two children. Every time I look at them, I wonder what their older brother would have been like. Have thought of him every day for almost 60 years. Not until I came back to Christ - about 10 years ago - was the burden lifted and the pain eased but the regret will never leave.

10. How has your abortion affected others in your life?

They never knew about it.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it, especially since there is no stigma attached to either mother or child in today's society. If you can't or won't rear a child, there are good homes waiting for him.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Never. It has never been impossible to get an abortion, even illegally, but it was a lot more difficult and probably saved a lot of babies. 'Shotgun' marriages or 'homes for unwed mothers' and adoptions are better than murder - and abortion is murder.

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

DNC

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Pregnancy matter is what my doctor called it.

5. Were you adequately informed of the consequences of abortion?

Yes No

It was described as a vacuume that would clean out my uterus of the pregnancy matter.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My dad and mom.

9. How has abortion affected you?

I ended up terminating a total of 3 pregnancies. First trimester DNC abortions. Depression, ran away from home misery-anger-self-hate, an attitude of denial and hopelessness with alcohol and drug experimentations.

10. How has your abortion affected others in your life?

My family members were shocked. They did not know what to do. They prayed and learned to love unconditionally.

11. Based upon your experience, what would you tell a woman considering abortion?

Please get all the facts and realize life begins at conception. Human beings are sacred and deserve to live life and make a difference in our world.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is a way to rid unwanted life aka as murder. One day we will all be held accountable for what, when, where, and how we lived our life here on earth. Do you want to be remembered as a murderer?

HOW MY ABORTION AFFECTED ME

The State of AZ

County of Coconino

My name is Susan Palm. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Tillamook OR

//

2. How many weeks pregnant were you?

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

My abortion was done before Roe v. Wade. I lived in rural Oregon, and had a baby who was about 15 weeks old when I discovered I was pregnant again. I'm sorry that I don't know whether this happened after my 1st (1/8/69) or my 2nd son (3/21/71) was born. That period in my life was a time of heavy drug use, and the statistics and dates are unclear. I simply said to my husband "I can't do this", he agreed with me, and we went to our doctor, who "took care of the problem" as an outpatient.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no discussion of any kind. I wanted an abortion, the doctor gave me one.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have had a lot of trouble with depression. In the early 90's I discovered a Bible study called PACE - Post Abortion Counseling and Education. This was a very intense 10 week time of emotional work, during which I discovered that my attempts to dismiss the abortion as minor were not working. I was missing a child in my life and in my family and had been grieving and guilty for over 20 years without allowing it to come to the surface.

10. How has your abortion affected others in your life?

When I told my son about the abortion, he was in college, probably about 22 years old. I thought it would just be a little anecdote, a story of something that happened in our family. He was furious with me, because he knew immediately he had lost a sibling.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. You are a mom, and that is your own dear child. Your nature is to nurture and love this child. Killing it will give you huge emotional trauma, whether you allow yourself to acknowledge it, or you choose to bury it and it kills you secretly and insidiously. God will provide you with the strength and the provision you need to raise this child, or to find adoptive parents for it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

What can possibly be "legal" about killing babies? I began at conception. All life begins at conception. How can you argue that the "me" who is now, began at conception but did not become a human being until some time later? That's just nonsense.

My name is sandra scott. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

tucson AZ

11//1976

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

suction, curretage after expansion of my cervix

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The procedure to open the cervix in preparation for the abortion the next day was quite painful. I was told I would have some cramping but did not realize how painful it is to open an "unripe cervix".

5. Were you adequately informed of the consequences of abortion?

Yes No

The emotional trauma was not discussed at all. I expected to feel happy and free of the "burden". I did not consider I would be still thinking about my babies years later.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

My first abortion I flew to an abortion factory in Los Angeles,CA (1972). I got a really severe infection and was placed on antibiotics orally and by injection. With my second abortion (1976) the affects were more emotional which I believe to be more tormenting. I thought as a nineteen year old I would marry and have children later and "make up" for the two I aborted. I am now 52, ended up never marrying and never had anymore children. The feelings of loss are overwhelming. Though I am a born-again believer and know of the forgiveness of God, the devastating truth of the bad choices I made confront me continually, especially as the years have gone by and the full force of the fact I have probably lost any opportunity to have children. I had two chances to bring a life into the world, face the consequences of my lifestyle and be responsible but I refused. As an RN on a Post-Partum, mother-baby unit, I see what I gave up, two precious lives. My heart wrenches when I see the adoring look a new mother gives her newborn. That should have been me if I had not been so proud and afraid; if I had had more options given to me.

10. How has your abortion affected others in your life?

My mother died wanting but not having any grandchildren from me.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT DO IT! Give your baby the life it deserves. Give your baby the chance to fulfill its purpose from God. You will regret the choice not giving life. Even with the amazing mercy and forgiveness of the Lord the sadness is still there; wanting to know what my children look like, what kind of personalities they would possess, what walks of life they would have pursued, what kind of relationship I would have had with them.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Absolutely not. We need to stop playing God. Stop giving a license for the sinful lifestyles of free sex. It is anything but free. The emotional costs are huge and the cost to human life, 50 million plus. Besides we have so many options besides the murder of the innocent.

The State of AZ

County of Pima

My name is Felicia Leija. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Tucson AZ

05/07/1994

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

Not exactly sure, there was something inserted a day prior to expand my cervix

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't believe so. I was just told that once my cervix was expanded there was no turning back.

5. Were you adequately informed of the consequences of abortion?

Yes No

No, I wasn't really informed of anything. I didn't want to have the abortion and they knew that. My mother had given me a week to get an abortion or to get out of her house. I had no where to go. I had first left because I had been crying so much, then returned a day later. They never offered ANY other options or any resources of where I could maybe get help.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother, the father of the child, Planned Parent

9. How has abortion affected you?

It took a long time to be healed from it. I would cry all the time for the first couple of years. The regret of what I had done was too much, but God has healed me and forgiven me. The reality that I had life sucked from my body was too much to bear.

10. How has your abortion affected others in your life?

It probably has made me more cautious. For the first few years I was extremely cold and distant towards everyone in my life.

11. Based upon your experience, what would you tell a woman considering abortion?

I have explained the reality of what is being done. And that it is life inside our bodies and there ARE other options. That it is the worst mistake of my life and I will always regret it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That from conception, it is life. That anyone going through the process does know that, because (unless you are under anesthesia) you feel the life being sucked from your body. That all women I have talked to that have had one, it has had such a negative impact on their lives. We were never intended to end life this way or for it even to be up for discussion.

My name is K C I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Phoenix AZ

01//1986

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They just performed the abortion. I remember be frightened in this little room where all I was told was "Now you're going to feel some cramping". I can remember just wanting someone's hand to hold and feeling like the smallest person on the face of the earth.

5. Were you adequately informed of the consequences of abortion?

Yes No

I sat in recovery with other girls around my age and remember how quiet everyone was. Not one soul, except for my mother, was there to comfort me. However, she was the one that told me, in no uncertain terms, that I WAS GOING TO GET THIS ABORTION.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

mother and cousin

9. How has abortion affected you?

I cannot even begin to tell you the mental anguish I still go through. I know that since I have asked God for forgiveness, I am forgiven. But what about the precious soul and human being that I chose to not bring into this world??? I am ridden with guilt and sorrow each and every day.

10. How has your abortion affected others in your life?

My husband knows and has forgiven me. This has also put a huge barrier between my mother and me. I can understand that at the time, she didn't want me to ruin my life, but look what I've been going through since then.

11. Based upon your experience, what would you tell a woman considering abortion?

That, of course, according to state law, every woman has a choice. But, to think that growing inside of

her is a living, breathing, loving baby who, right this minute can hear her voice and loves you already. How can we hurt the ones we love, especially the innocent defenseless ones? I understand that, given the other options, it would be difficult in so many ways to go through this pregnancy especially if there are others who are against it. There are people and organizations that are out there to support you the entire way. But, getting "rid of this issue" will only raise others down the road. One day, it will hit you what has happened, what you've done and it's hell getting through that point in your life. If she were raped, I would still tell her the same thing. This creation of God is still 50% you. Why would you want to end a life that you've also created? Even though it was created through pain and suffering, it was still creating by the hands of God. This baby can and will be adopted, no matter how it was created.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

How can taking away a beating heart not be considered murder? Assisted suicide is still illegal in many states, but not abortions. Why is that? It is still assisting in ending a life. NO MATTER WHAT THE SIZE of the person. Instead of taking God's work into your own hands, why don't we use these efforts in helping women to realize that there is support and other options out there. Most women view abortion as their only option. Why is that? Personally, my view is if some families consider it to save the life of the mother, and I was that mother, then take my life to bring another into this world. If that's God's plan, then so be it. I've lived my life; it's time I give that baby a chance. In the case of rape or incest, that is a very touchy one, by my views remain intact. This baby didn't ask to be created in this way and why should he be subject to pain for something he never even did. There are thousands upon thousands of loving parents who cannot have children and do not care how they are created. It would be difficult for the woman to carry this child knowing how it was conceived, but knowing that this child will have a chance at life and love, that's the biggest kind of selfless love I can imagine. Have you seen the videos of abortions??? Can you see the pain these babies go through? Each and every member who votes pro-choice should have to actually see a partial birth abortion video. IT'S NOT PRETTY, PEOPLE AND THAT'S WHAT YOU BELIEVE IN!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of AZ

County of Yuma

My name is Carolyn I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Sacramento CA

04/09/1971

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

"Therapeutic" Abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

At this time, abortion was not legal. My physician told me if I were her daughter, she would encourage me to have an abortion. I told her no, it is murder. She said No, this is not a baby, but a blob of tissue..... I am now a 57 year old woman and was 19 at the time. My child would have recently celebrated his or her 37th birthday. Now, I sadly remember 04/09 as one of the saddest days of my life.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told any of the consequences of abortion at all and as you can see above - I have a huge hole in my heart.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My physician.

9. How has abortion affected you?

The only way I know to say is it is the saddest and most unnecessary act I ever allowed to happen. I cheated myself, my husband, our family and worst of all I cheated our baby. I know he or she awaits me at the gates of Heaven and look forward to that but getting over the guilt is difficult.

10. How has your abortion affected others in your life?

I believe the guilt from this as well as the guilt of what my former husband had from the VietNam war led to his drinking and the eventual end of our marriage.

11. Based upon your experience, what would you tell a woman considering abortion?

Please Please Please DO NOT abort your baby. They are a precious gift from God.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I think all I could say is - how would you feel if your daughter aborted (killed) your grandchild or your girlfriend or wife aborted your child? What if your Mom had aborted you?! Please DO NOT make abortion legal.

HOW MY ABORTION AFFECTED ME

The State of AZ

County of Maricopa

My name is Monica Jordan. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

El Paso TX

04//1995

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

vacumm suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No I was informed about the procedure by video, not told of side effects, or possible death etc. Not told that my child was more than a piece of tissue. I was told it was as small as a lima bean and would be over quickly.

5. Were you adequately informed of the consequences of abortion?

Yes No

Never told that I would carry what I had done for the rest of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Abortion affected all areas of my life. Once it was done I was never the same.

10. How has your abortion affected others in your life?

It affected relationships from than on. It took twelve years to find healing. This choice has been a life sentence. My loved ones have been affected because it has taken a whole lot of healing to be able to love myself and others after making a decision like this.

11. Based upon your experience, what would you tell a woman considering abortion?

It won't make your life easier without having this child. That the child growing inside her is not her choice but God's choice. That baby has a right to live. Explore healthy options such as adoption etc. Let her know God loves her and that abortion is never a option. It isn't a quick fix to a problem. Abortion is something you'll pay for for the rest of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would let them know that think of the unborn babies as if they where there own child. This is a living and growing baby not just a lump of tissue. Each baby deserves life not death. Women are the second victim after abortion. It is a death sentence for both child and mother. The pain it causes women both physically and mentally no women should have to endure.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They did not tell me what the fetus looked like, how developed it was. But they did tell me what this procedure entailed to some degree.

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't think they really realized then what the emotional consequences were.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Boyfriend, boyfriend's friends, boyfriend's brothe

9. How has abortion affected you?

I actually had two abortions. I didn't want to have either one of them, but was relieved immediately afterwards. I never mentioned them again because of the embarrassment and buried any thoughts of the abortions. Then one day, about 10 years after the last abortion, I saw a book with the development of the fetus and I broke down. I felt guilt and shame and regret from that moment on.

10. How has your abortion affected others in your life?

I have not told many people and can't think of any outward affects on any of them. I'm sure that if I told my mother she would be hurt.

11. Based upon your experience, what would you tell a woman considering abortion?

I would want to scream from the rooftops, "Please, Please do not abort this baby." And it IS truly a baby. My first inclination is to make sure they know that this is not a blob of tissue, that life begins at conception. And now that there are so many woman coming forward with their stories of how this has

affected their lives so negatively, there is absolutely no doubt that you never ever forget what you have done. Even though I have realized the forgiveness of God, the fact that I killed two babies never will go away. Once you've had an abortion, there's no taking it back. And there's no taking back the consequences.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It became all too real to me that life begins at conception. Look at the fetal development for yourself. Those precious, defenseless babies I aborted looked to me to protect them and I didn't. We need laws to protect our babies. We have laws that don't allow us to kill one another, how can we possibly say it's legal to kill our child just because it has not come out of the womb yet. And because of the life there, woman instinctively know in their innermost being that they are killing their child and this leads to the aftermath of abortion. At least one million women a year walking around like ticking time bombs.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of AZ

County of Mohave

My name is Kriston Delhommer. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Las Vegas NV

03/14/2001

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

DNC

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The medical terminology was explained to me so I could understand. Looking back now, I do not feel the information I was given about the nature of abortion was adequate enough for me to have made an informed decision regarding my options. There was no one to tell me I had any other choice other than abortion, except for the father of the child I was carrying who accosted me at the center, shortly after abusing me at home. No one at the center seemed to notice I was battered, bruised, being assaulted in their parking lot, and in no frame of mind to make decisions of that gravity. His actions seemed to affirm they'd be getting their money's worth from me that day.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not adequately informed of the severe physical, emotional, and spiritual pain I would experience. Not only was I injured from a previous assault from the father of my child, I suffered very painful cramping, spasming, and other physical pain. I was emotionally disturbed from the moment I left the center; crying out for people that were no longer alive; seeing, hearing, and conversing with imaginary peoples about what I had just done; night terrors and sweating so profusely while asleep the sheets had to be changed every 2-3 hours. I cried for a month. I still cry to this day. I had no idea of the spiritual repercussions of my decision.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My family, friends, and my employment

9. How has abortion affected you?

My soul hurts from this. I regret the decision I made. I have tried to justify this with lies and half truths. I

developed problems with alcohol and drugs and suffer from both to this day. I have trouble sleeping. It's difficult connecting with the children I have today because I wonder what or if the child I had aborted would have looked like them, laugh like they do, or if their hair would smell the same. I have two daughters and wonder if I had given up a son and what it would have been like to raise a boy. I have self doubt and low self esteem because I realize what a poor decision I had made and what living with the consequences of my actions is really like. I've been suicidal, with several unsuccessful attempts, and take medicine to sleep at night. It was so easy to sign the papers and breathe in the sleep like they said to do, but so hard to breathe out ever since.

10. How has your abortion affected others in your life?

No one dares to talk about it, and I no longer associate with the father, so I don't know.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't give up 9 months before the miracle. While that might seem like a long time, try taking it in 5 minute increments. That's 5 minutes longer that you have allowed someone to live.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abandoning the life inside me caused me to abandon my own life. Giving someone legal right to abandon life is giving permits for murder, and unfortunately, I'm one of those murderers who you let get away with it. Save them from themselves as I wish someone had saved me from myself. Recognize the life and give a voice to those who have not had the opportunity to speak yet for themselves.

My name is Gina Dwyer. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Berkeley AZ

03/12/1976

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

If I had had someone compassionately tell me about the life that I was carrying (i.e., seeing a sonogram, hearing the heartbeat) I would have seriously reconsidered. I was listening to a friend who had 2 abortions before and she brought me to my appt. and told me it was "a piece of cake" and had no repercussions to her procedures. She was able to conceive afterward and have a child. I knew this was my only chance and still gave it up due to my ignorance.

5. Were you adequately informed of the consequences of abortion?

Yes No

I experienced extreme pain afterwards and the emotional trauma was indescribable. I regretted it immediately and knew I had done the wrong thing. It wasn't until I became a Christian many years later that I was able to release the guilt and anger I harbored all those years.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

Do ANYTHING TO AVOID having an abortion! There are options and loving families waiting to adopt your precious baby. Never think that the life you are carrying is ANYTHING other than a human baby, an individual deserving of the life God has given it.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

It is WRONG: INFANTICIDE and MURDER! If they are parents how would they consider murdering one of their own children? That is EXACTLY what it IS.

9. How has abortion affected you?

I had a miscarriage and had trouble conceiving, anorexia, scar tissue and bleeding, chronic depression and thoughts of suicide, low self esteem and promiscuity.

10. How has your abortion affected others in your life?

My relationship with my husband has been strained for most of our marriage since we didn't discuss the abortion after it happened. He was the father of the child. Adult children felt deprived of their older brother that they would have had. My parents died without us ever discussing it again.

11. Based upon your experience, what would you tell a woman considering abortion?

To instead consider looking into resources that could help her with the birth and child rearing or to consider adoption. I would tell her the facts and my experience.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that it should be illegal and that there should atleast be limitations such as parental notification, availability of viewing an ultrasound of the baby.

I've written my story and feelings in numerous places online. On my blog <http://teawithtiffany.blogspot.com>. On websites for others. It's changed my life, haunted me for years and years. I was stuck in shame.

10. How has your abortion affected others in your life?

I'm sure it affected my sister who was 12 at the time. She cried and cried when she heard. She ended up pregnant at 14 and kept her baby.

11. Based upon your experience, what would you tell a woman considering abortion?

NOT A HEALTHY OPTION.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I'd tell them my story. I'd tell them my thoughts on when life begins. I'd tell them so many women are hiding this shame and feeling terrible about their "choice." I'd read them my letter I wrote to President Obama, who was a Senator running for President when I wrote it. October 2008. This letter has been reposted and resent via email and on blogs supporting life.

3. What type of abortion was performed?

Vacuum Extraction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no "after abortion" information given. There was no warning about the link between abortion and breast cancer. I was NOT allowed to see the ultra sound picture of my baby when I asked. I was not told about the devastatng emotional trauma that may happen to me after abortion. Planned Parenthood did not offer any strenuous alternative choices to abortion, and offer only performing the abortion as a last resort.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I remember the pulling and scraping feeling, the way it felt like my insides were being ripped from my body, the cramping in vivid detail. It was like paying to be RAPED BY A VACCUM and kill my baby in the process. I bitterly regret my decision. I constantly feel the weight of my choice to abort. I am constantly aware of what I stole from God.I have thoughts of what happened to the baby. The torture it must have felt! I think about the pulling and ripping and tearing of it's little body into pieces and the horror of being murdered! The helplessness of that baby to defend itself...oh my God.I can't stand knowing what I have done. It is the worst and most horrible choice I have ever made in my life. I paid money to do this and gave Planned Parenthood more power. That child DESERVED a life and deserved to grow and be safe within my womb until it was born.

10. How has your abortion affected others in your life?

No one talks about it. My mother has talked to me maybe twice and shared the incredible pain and guilt she feels to this day. She thinks she should have done more to stop me and offer me a different alternative. I try to tell her, she did everything she could and the guilt is all mine, but it doesn't ease her pain.

11. Based upon your experience, what would you tell a woman considering abortion?

I would share exactly what I shared with you above. I would share it in painstaking detail and take the "euphoric escape" she wants and reveal that life of inner prison she will NEVER escape. The only difference between me and convicted murderer, is that person goes to jail and possibly goes to death row while I remain free to walk around society. I would tell her how I went to "Bodies the Exhibition" once. They had the stages of life from conception to full term with real embryos and fetuses displayed. I'm very glad I saw it. I looked at stage 9 weeks. I broke down in tears. I saw fingers and toes, little legs, the beginning of a face, and it's arms. It was very plainly a human baby. I could see what my child looked like the day I chose to kill it. I wish ALL women considering abortion could look at that FIRST so that they would KNOW for SURE what they were doing and WHO they were doing it to. I wish the exhibit were available to see at clinics. No one talks about any of this to a woman or a young girl when she goes in there. They offer all kinds of "support" for the "yes" decision, but when you're done, you become a number, you become like a cow being ushered through, you become a statistic for their records, you become a shell.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would BEG the court to reverse it's decision and legally refuse laws for abortion except in the case of life or death of the mother and baby. I would at least petition for the court to make it mandatory for ALL abortion clinics to have adoption information READILY available. The clinic would also be required to offer resources and information on aid, clothing, diapers, formula, food and assistance. If clinics didn't comply they would be fined substantially and the money would be directly payable to an adoption agency or women's aid agency pre approved by the state. Mandatory trained professionals should be available who specialize in counseling and aiding women who have been raped or sexually abused and become pregnant as a result. Aid for her to be sheltered with other women in the same position so that they don't have to face traumatic pregnancy alone she is protected and nurtured. The woman could remain anonymous if she chose to. Clinics should be monitored on a regular basis by an official to witness the clinic's compliance. Clinics should have to file documents regularly showing compliance. There should be mandatory signed documents by the woman showing that EVERY possible alternative was explored thoroughly before abortion. I would petition the court to make it as serious and liable as possible for the clinic to approve abortions. Right now it's as easy and going through a drive-through and ordering a hamburger.

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

I believe it was suction aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

NOTHING was explained to me personally. My parents are who arranged all of this and I am not sure if THEY knew the consequences or not-but I certainly was not made aware of any consequences whatsoever.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents

9. How has abortion affected you?

Abortion affected me profoundly over the course of my life. In the beginning I went through a severe depression & was very suicidal. I had several miscarriages; I had many female problems (excessive bleeding) for many years that resulted in my having a hysterectomy many years later-which brought on a whole other set of problems all on it's own. I struggled with addictions; emotional problems; & inability to maintain normal longlasting relationships; numerous partners. It's a miracle I don't have any STDs; I also had two lumps in my breast that turned out to be non-cancerous.

10. How has your abortion affected others in your life?

My parents have expressed deep regret about their decision to abort their first grandchild on several occasions over the years. I think if they had it to do all over again, and knew what we know now - how it affected me and the truth about what happens to the baby during this procedure - they would never had made that "choice." I did ask the baby's father one time (fairly recently, who happens to be my ex-

husband and the father of my two living sons) how it affected him and he didn't seem to want to talk about it so I have no idea really how it affected him.

11. Based upon your experience, what would you tell a woman considering abortion?

I would encourage her to have an ultrasound and to look at her baby so she could see it's not a blob of tissue. I would ask her to talk to other women who have had abortions and let them tell her about their experience. And let her know if she thinks it will all be over once the child is aborted-she will be very sadly mistaken; and let her know it will affect her life profoundly in a negative way. I would ask her to seek out a local pro-life pregnancy care ctr (like I volunteer at). And let her know she is not alone in this there are other options here such as keeping the baby and adoption. She should also know the spiritual, mental, and physical risks.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them they have no right to decide when life begins or to tell women it is OK to abort their children. That is the Author and Creator of life's decision. As it says in Lev. 17:11-the life of a creature is in it's blood and that the last time I checked, human's are considered creatures. More specifically God's creatures. And if our God says life is in the blood and since the structure and function of blood vessels (as well as heart, lungs, arteries, etc) begins in the 3rd-4th week of gestation-then I'd say at no time is abortion appropriate.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of AZ

County of pima

My name is Kerri Swiniuch. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Iowa City IA

02//1983

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Standard

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Nothing was really said by the Dr or the staff. I just knew that after it was done I would no longer be pregnant.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nothing was said I was totally on my own

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Even after twenty plus years I still morn the death of my unborn child. I drank a lot, did drugs just felt worthless. Even after asking God for forgiveness it's still hard to accept his forgiveness because to me it is the ultimate crime. I would never tell anyone at my church due to the shame I would feel.

10. How has your abortion affected others in your life?

My husband found out and he was devastated. It was not his child but still he was very hurt. He has forgiven me and even accepted my unborn child as his own and looks forward to meeting her in heaven someday.

11. Based upon your experience, what would you tell a woman considering abortion?

It's a life sentence of pain. Do not do it, there are so many other options, give that baby a chance to change your life for the better, or if not yours someone elses through adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

It's just not right for us to decide if an unborn baby should live or die. Who are we to sit on Gods throne and make that choice. For the pro choice people come and look into the eyes of the many women who now live with their choice and tell me if they are happy with the choice. Let them feel our pain, shame, guilt. I wish I could turn back time, even had the chance to see a sonogram, been educated about my choice before the fact. It needs to stop, it just needs to stop. And why are trees more important than children, like the Casting Crown song goes, "we're a nation that saves the tree but kills it children"

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has haunted me as a sin against God. Rejecting a gift...rather than bringing me and otherslifelong joy, this child is a living, painful memory.

10. How has your abortion affected others in your life?

They do not know.

11. Based upon your experience, what would you tell a woman considering abortion?

Your child will live within you as a real life, bringing joy even if adopted, or your child will live in you as dead truth which may never bring joy to anyone. A life is real and should not be murdered for personal reasons.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder and should not be condoned/honored/justified by the American legal system. It should be considered a medical issue/procedure and be determined by the medical community with regards to the life of both the unborn child and mother under the oaths and provisions and laws that the medical community adheres to.

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

don't remember

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

i had recently been diagnosed w/arthritis, and while under extreme treatment, i found out i had become pregnant. many of the prescription medications i was on could potentially harm the baby. even though the obstetrician said the odds were very small, rather than risk having anything less than a "perfect baby", i decided to have an abortion. i went to planned parenthood, met briefly with someone, and they scheduled the abortion for the next day. no counseling of any kind, other than the matter of fact details on what the procedure entailed.

5. Were you adequately informed of the consequences of abortion?

Yes No

only the physical consequences/complications for myself, not the emotional/psychological consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

i went on to have 2 health babies, but i will always regret my decision to abort my first child. i still consider her my oldest, and although i know i'm forgiven, the sorrow/regret will never, ever, ever go away.

10. How has your abortion affected others in your life?

i am now a strong pro-life supporter, and using my example....went on to counsel my sister against an abortion she was considering.

11. Based upon your experience, what would you tell a woman considering abortion?

that it is a life. that it is a gift. that you have a responsibility and privilege of bringing a life into the world. if you don't think you can handle raising a child, there are many adoption choices available, and many wonderful couples waiting anxiously for a child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

abortion shouldn't be legal. someone needs to speak on the behalf of the unborn babies of the world. let them live.

I still cry and think what it could of been and I feel like I killed my baby and I feel like a bad person .. every year in march I would tell my self this year my child will be another year older. 14 yr later I still cry ..

10. How has your abortion affected others in your life?

no one in my family knows about it .. I had to keep this to my self.

11. Based upon your experience, what would you tell a woman considering abortion?

Think about it and look up what is abortion and look up how they do the abortion . if they see what they do to our baby a lot of woman will change their mind.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say its a baby what about that baby that didn't ask to me conceived and they need a change to life. and what about after words no one is there to help us heal . what about what can happen to us yrs later ? and some woman don't know what they are doing and how they KILL our baby and some woman keep doing abortion over and over .. Please stop this.. these baby could be one day a DR. or even a Judge. we don't know if your parents ever thought about having an abortion with us. and you all have life.. why take a life way ? is not a tissue.. I pray some thing is done.

HOW MY ABORTION AFFECTED ME

The State of AZ

County of Apache

My name is Donette Fox. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Phoenix AZ

03/13/1978

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

At the time, I had no idea how formed and functioning my baby had already become. I was told it was just a mass of tissue that would be scraped from my uterus.

5. Were you adequately informed of the consequences of abortion?

Yes No

I never knew that many women become sterile after having abortions or any other consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The baby's biological father.

9. How has abortion affected you?

Having an abortion when I twenty years old, has caused me to live a life of regret of what might have been. I've had dreams of a little dark haired girl calling out to me and know now what I would have named her...Candice. On a positive note, my abortion has caused me to speak out to young women about their self-worth and given me great empathy towards them. I've missed having a little girl in my life until recently having a granddaughter. Another consequence, less grandchildren.

10. How has your abortion affected others in your life?

I married a wonderful man about a year and a half after my abortion. We had a son about 9 months later, which was the happiest day of my life. Unfortunately, I had a still-born little girl two years later and I learned a hard lesson about the sanctity of life. What I had thrown away as an inconvenience before was the most important thing in my life. I was able to conceive again and had another little boy and year later, but I still grieve the two babies I lost, one by "choice", another by health complications.

11. Based upon your experience, what would you tell a woman considering abortion?

You don't know the future or who that little one inside you is supposed to become. If you could see their smile and know who they are and what joy they will bring you, you would never destroy them. You never know if you'll have the chance again to bring a life into the world.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is pre-meditated homicide and is a decision that haunts a woman the rest of her life. It is one of the most selfish decisions a woman can make, especially when there are so many people out there who would love to adopt a child.

9. How has abortion affected you?

It made it possible to continue taking care of the child I already had.

10. How has your abortion affected others in your life?

It had no affect on anyone. No one knew except the father and he agreeded it was best.

11. Based upon your experience, what would you tell a woman considering abortion?

If that's what you want then do it and don't worry about all these long term affects some people say are going to happen. It's been years and I'm still glad I did it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The law passed years ago and should be left just like it is. It's a good thing. Since I think abortion should be legal I'm sure this won't be used..

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told of the emotional trauma I would suffer for years to come. The shame, the guilt, the regret I lived with day after day was at times unbearable. Had to get counseling after 22 years.

6. Were you informed of any link between abortion and breast cancer?

8. Did anyone pressure you into having an abortion?

baby's father

9. How has abortion affected you?

for 22 years I kept it a secret, never telling anyone because I was so ashamed. the only people who knew was the father and my sister and we never talked about it. I carried the shame and the guilt alone. It was, at times unbearable. Finally after 22 years, I got counseling.

10. How has your abortion affected others in your life?

Not really sure, no one has said.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them don't do it. The relief they may feel for a couple of weeks for getting out of a bad situation is only temporary. The day of reckoning will come. When the shock is over, They will say "Oh My God, What have I done" And there is no going back.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say that even though abortion may be legally all right No court in the land can make it morally right. We all have a God given moral compass, some call a conscience. And when it's violated we will suffer. As countless women are finding out and I am one of them.

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

I was scared and didn't ask questions but was just informed I would go into the Dr's office and it would be just like having an exam.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one mentioned any thing about how I might feel physical or spritually after wards.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It is the one most devastating event of my life. I will never forget the emotional pain of losing my child and feeling like a murderer. I have since become a born again Christian and know that God has forgiven me but I still struggle with forgiving myself. I never will. I ache to hold my child in my arms and never will. I also have realized since then with therapy that the reason I chose to never have children after that was because I didn't deserve to be a mother after what I had done. My life was never the same afterwards. I have the love of Christ and with that I know His healing but the pain is still there.

10. How has your abortion affected others in your life?

I was single at the time so I really don't know if the father or anyone else was affected other than the way I interacted with them.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. No matter what anyone says. It is a life of your child and if you can't take care of them there are many women out there who would love to have your child. You will never recover the pain is far

deeper than you can ever imagine.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

To consider how they are playing God with the lives of people they don't even know. Women who are not in a position to make a rational decision. They would be legalizing murder. To think.....what if their Mother had decided to abort them.

HOW MY ABORTION AFFECTED ME

The State of AZ

County of Maricopa

My name is Cindy Seipel. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Columbus OH

07/21/1978

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction I think - wasn't informed of anything

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

If there had been any information available to me, about what was growing inside of me, or a 24 hour waiting period in place, I would have my firstborn 30 year old child with me now. No information was given, we were given drugs and hearded through like cattle. It is a harsh reality years later to find out that it wasn't just a blob of cells inside of me and that I murdered my child in an act of desperation and misinformation.

5. Were you adequately informed of the consequences of abortion?

Yes No

No information - just paid and it was done.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

As I said, years later after being blessed with 3 children, I have come to the full realization of what I did back then and have had to deal with many years of regret and pain in my life. Without the internet back then, information was not readily available as to fetus development and certainly no information was offered to me in the clinic in downtown Columbus. I wish pro-lifers would have been outside that clinic when I went in, because it would have saved 2 lives, mine and that of my child's. Nothing good ever comes out of acts of desperation!

10. How has your abortion affected others in your life?

I have finally been able to share with my children (19, 17, and 13) that I had an abortion, in hopes that they will know of my experience and the pain it has caused me.

11. Based upon your experience, what would you tell a woman considering abortion?

That if you chose to have sex, then you were accepting the responsibility of having a child in your life. Sex is not meant to be casual, as is so accepted in our society, but a sacred act between a man and a woman who are devoted to each other in marriage. Don't do anything in haste, don't just think of yourself and how your life will be changed. If God gave you the gift of a child, even though you might not see it that way now, accept it. And if after the child is born you still are not ready to accept the responsibility, then there are many couples who are unable to have children, who would be blessed to have the gift of adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The "pro-choice" movement refuses to see the reality of abortion and the women who insist that it is their right to determine what they do with their body, just don't realize the magnitude of the decision that they will be faced with when considering having an abortion. The abortion industry is not concerned with women's health - they are in it for the money and offer no information or counseling services after the fact. It is a fraud and just because of a bad court decision making it legal, it doesn't mean that it is right. Just like slavery was legal but was determined not to be right. If we don't protect the most vulnerable of our society, who do not have a voice, as all of the groups claim they are so concerned with doing nowadays, what kind of a society are we? This is a decision that is so grave, that at the time, you have no idea how it will affect you for the rest of your life. You just have no idea until it's too late.

9. How has abortion affected you?

I think about my first, and second child (both aborted) several or more times a week. I have a sticker on my car trying to raise awareness of the humanity of embryos. My third pregnancy was horrific with problems and my daughter was a month past due.

10. How has your abortion affected others in your life?

Probably not at all.

11. Based upon your experience, what would you tell a woman considering abortion?

To not make a short term decision that will have long term consequences for the purpose of convenience, pride, or circumstances. There is support available for pregnancies that are challenging to the mothers, there are choices, there are options. And killing a baby is not one of them.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It's murder. A mother knows from the moment she is aware of her pregnancy that the embryo inside of her is a "baby" and a "life". Women mourn the loss of their babies when miscarriages occur, even in the first trimester....if the baby were not a baby this would not occur. It's what makes us human.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of AZ

County of Pima

My name is Yvonne Morris. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Tulsa OK

06//1974

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

dilation & curretage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

informed that it would remove tissue, not told it was a baby

5. Were you adequately informed of the consequences of abortion?

Yes No

I wasn't told of any consequences

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

ex-husband and mother

9. How has abortion affected you?

I was angry for 23 years. Overprotective of my 3 living children. Was promiscuous and engaged in risky behaviors such as alcohol abuse as a result. Wanted to be sterilized at age 26 so I couldn't face pregnancy again. Fortunately my ob-gyn dr talked me out of it. Was mistrustful of men and doctors. Would blurt out statements in anger defending abortion in public settings, realizing later I was only attempting to justify my actions; and knowing my child would never return, I would never know how that child would have turned out as a productive human being. All because of a rash decision made in the time of crisis. Felt guilt, humiliation and shame. Put off having children in my second marriage because of the guilt of aborting my second child. Waited until the last moment of my biological clock ticking before having my 3rd son at age 36 and my first daughter at age 38.

10. How has your abortion affected others in your life?

My marriage crumbled, largely due to the abortion. We could no longer trust each other. Abortion has been repeated in my family at least 3 times. Once in my mother's life, once in my own life and once in

my sister's life. 3 missing people in our family. My sister never had the privilege of having more children. My first son grew up as an only child and would have benefited having siblings near his own age.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion leads to anguish plus physical, emotional and spiritual problems that affect the participants the rest of their lives. Aborting a child is unnatural as mothers are to protect their children. I did not protect my 2nd child. Although participating in a post abortion recovery Bible study has brought me some peace, I will always live with regret that I willingly participated in my own child's destruction. Despite the circumstances that lead a woman to abortion, she will always wonder (whether she will admit to it or not) what that child could have become.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion destroys more than the child; it destroys the mother and father and extended family. Child abuse and spousal abuse stats have climbed since Roe V Wade. Life is not deemed sacred which places society, especially women and children, at risk. The USA adopted child labor laws in the early part of the 20th Century to stop child abuse. Abortion is child abuse and with the latest technology of 4D ultrasound, there can be no denial that a fetus is a living human being and suffers pain and death when abortion is performed on the fetus in the womb. Regardless of what pro-abortionists say, abortion is a lucrative business and makes money for people who are taking advantage of women and children. Roughly 829 million babies have lost their lives in the 20th Century due to abortion. Morally, that is wrong and that death toll would be making loud noises if applied to war, plagues, racial genocide or conquering other nations. Why must the court rule on the side of death?

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of AZ

County of PIMA

My name is Cynthia Chinn. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Hickum AFB HI

05/20/1977

2. How many weeks pregnant were you?

18

3. What type of abortion was performed?

second trimester; labor induced

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Parents insisted I terminate the pregnancy. Had no clue what was about to happen or what I would experience emotionally, as well as physically, afterwards. I was prepared for delivery. That was pretty much it.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea my life would go in the direction that it did. I did not feel "emotionally" for a long time. I was angry all the time. I had subsequent abortions, as a result, because I thought it was okay. If my parents would subject me to such a thing...it must be okay...right? WRONG!!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Parents; later on it was my spouse

9. How has abortion affected you?

Negatively for a long time. I began to drink excessively and was unable to develop a close bond with my other children. I've been divorced twice and had two other children out of wedlock. Life has gotten back on course since...but only with God. Today, I am a Christian pro-life advocate and womens post abortion group facilitator.

10. How has your abortion affected others in your life?

Well, unbeknown to us then that it was related to my abortion, my relationships with my living children suffered. Of course, for many years, my relationship with my parents was estranged and is still in a restorative process. My sisters were unaware that I had had so many abortions. But they are actually

supportive of me today.

11. Based upon your experience, what would you tell a woman considering abortion?

That it is an unwarranted temporary solution to the real underlying problem, especially if they are having sex outside of marriage. It is a long term decision that brings with it a traumatically devastating consequence, which is the realization that we've participated in the murder of our unborn child/or children. Wrapping your mind around that concept is not one you adjust to easily.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That unless they've lived in my world of torment from the nightmares and endured the trauma wrought from having a living creation ripped from their womb, they have no moral business continuing abortion as a legal practice. It is inhumane. We care more about our freakin' dogs in this country than we do an a baby in the womb and that is not only scary but disgustingly abhorring.

The State of AZ

County of Maricopa

My name is Tamara I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Tempe AZ

05//1982

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

Vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't feel that it was explained to me the results and years of heartache I would feel. The medical side was presented, but not the emotional. This should be a must for anyone considering abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I was always afraid that having had the abortion, that I wouldn't be able to have children- I also felt horrible disgust for the decision I made- yes, I made the decision, but as a child of 16- I wish someone might have counseled me on real alternatives, not with a bias toward abortion.

10. How has your abortion affected others in your life?

My husband and son are fully aware of the pain and disgust I went through, and would still have for myself if I hadn't accepted forgiveness from the Lord for this sin. They know that I wish I'd never let myself get in that position, and that I would have made the better CHOICE.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT--- There are options, if you don't want the child, so many others do, consider every Mother's Day, every month that your baby would have been born, you WILL think of him or her. You DO have CHOICES, ones that DON'T include killing an innocent.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

If the statistics and pleas from countless who believe in life can't convince you- Please consider making it a law that anyone seeking an abortion should have to go through a class or something where both sides are presented. A child doesn't understand that the rest of her life will be affected.

My name is Lisa I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Milwalke WI

09/13/1976

2. How many weeks pregnant were you?

3. What type of abortion was performed?

vaccum/suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told by my mother that I was going to have an abortion. That's it. No one at the center discussed it since "I had already made up my mind."

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea how I would feel emotionally and of course it hurt physically which I was not told about. They said it would be like cramps. The problem with that is I had never had cramps before nor have I had them since.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my mother

9. How has abortion affected you?

I have always felt that is was wrong. When I finally did have a child I had depression afterwards. Of course everyone said that was normal. Only I know that it wasn't the typical post-partem depression, it was guilt.

10. How has your abortion affected others in your life?

My mother and I never had a good relationship after that. She blamed me for making her make me have an abortion. We are Catholics and even though we both confessed I know we never felt absolved of this sin.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to do it. I would tell her how she will feel guilt for the rest of her life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That abortion is no solution and that choice is just another word for murdering a baby so that you can go on with the life you "want."

QUESTIONS

1. Where and when did your abortion occur?

Tucson AZ

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I didn't realize the pain the baby would suffer when the procedure was done. That he would surely feel all of it.

5. Were you adequately informed of the consequences of abortion?

Yes No

I didn't understand that I would feel so ashamed and empty when it was over. I still feel ashamed after all these years and miss that precious one in my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My husband didn't want any more children

9. How has abortion affected you?

The memory of this child has haunted me all my life. I miss knowing and loving that little person. I cry, even now, telling you about it, because I am so ashamed of what I have done. I still can't grasp why I didn't defend my child, even against my husband.

10. How has your abortion affected others in your life?

My girls only know I lost a baby. I haven't told anyone but my new husband and God. It's a horrible thing to tell someone what I did.

11. Based upon your experience, what would you tell a woman considering abortion?

I would encourage her to carry the baby to full term and consider adoption. My daughter has adopted to precious babies that we love so much. Thank God their birth Mom didn't abort. Life begins at conception and it is worth fighting for and preserving for someone to love.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It should only be considered if it is life threatening to the Mother or baby. Babies are not mistakes but gifts from God Himself. We are not God and should not take a life. We are to protect them with everything we have and can do.

My name is Cassandra I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

2. How many weeks pregnant were you?

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I feel it has made me consider to be more responsible over important life issues. For example, sex, school, jobs, health, well being emotionally.

10. How has your abortion affected others in your life?

My sister had custody over me and if I had not had the abortion she would be raising me and a new born child. She was in her prime of getting a career at age 22.

11. Based upon your experience, what would you tell a woman considering abortion?

Consider more about todays world. Do not think about how it will affect you. Instead think how society and you will effect your unborn child. People do not realize how expensive and hard it is to adopt. Will your child even be adopted? Or live in foster care wondering who they are. I have been affected personally by this. It has caused me depression as I have blossomed into a young woman. What about all those children who are suffering and waiting to be adopted? Will you have enough money to support your child? Will you be mentally healthy enough to ensure your child will be happy? Were you drug free and eating organic at least a year before consepction? The world is so polluted, do you think your child will even pass on healthy genes themselves? You have a lot to consider with an unplanned pregnancy.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I agree abortion should be legal. I am so poor right now that if I had had the baby I do not think I would be able to feed the baby let alone myself. Giving the baby up for adoption because of my past would be more heart renching than knowing that I did not take the risk of my child having a good childhood or a horrible one.

My name is Minda Martine. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Diego CA

//1983

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Planned Parenthood asked me once "Do you want to do this?" I was in the back room within minutes of walking in. No info about how far along my baby was and that the baby had it's own DNA and was NOT just "tissue". It makes me sick to think back on how easy they made it and "nothing" it was. It has been 26 years and I still suffer from the emotional scars of murdering my unborn child. The Government is complicit in this and it MUST STOP!

5. Were you adequately informed of the consequences of abortion?

Yes No

See above

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has caused me depression, regret, anger, shame, suicidal thoughts and emotional overeating. I feel unworthy of my life because I have taken my own child's. There is always an underlying "dis-associated" feeling to life and what goes on around me. I was not that way before the abortion.

10. How has your abortion affected others in your life?

I often isolate myself from those who care about me. They don't know why I do it, but I do. I also self sabotage myself when it comes to relationships with men. They don't know why I do it, but I do.

11. Based upon your experience, what would you tell a woman considering abortion?

Please understand it is a living, breathing human being that you are considering murdering. That is the truth of it. Abortion has become just a "word" and a "deed". Abortion is NOT a choice. You are not

"choosing" what shoes go with what dress. You are not "choosing" to clip your fingernails. Nature has "chosen" you as a vessel for another human being. A body within a body. Protect it. Love it. Nurture it. It is YOUR child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murdering an INNOCENT human being. A human being that has committed no crime of God or man. The court has NO right to make such an act legal.

2. How many weeks pregnant were you?

3. What type of abortion was performed?

d andc

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was informed that the fetus would be vacuumed out-that it was so very small it could be easily removed

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told anything. I did not know about the mental and emotional trauma I would deal with. My daughter also had one without telling me. It destroyed her self-image. I could not figure out why my good girl was hanging out with losers. When I found out she had one, her behavior was understandable. I have spent much time trying to help her.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

the father and the doctor's assistants

9. How has abortion affected you?

I spent time dealing with the thought and emotions that I killed my baby--the realization hit me immediately after the abortion. I'm one of the lucky ones--God has been my helper through this. Every year in May I deal with the sadness of losing the baby.

10. How has your abortion affected others in your life?

My mother had to deal with the loss of a grandchild. I don't think my dad ever knew. Mom had guilt to deal with. The father and I broke up over it.

11. Based upon your experience, what would you tell a woman considering abortion?

I always tell anyone--man or woman when the subject comes up that abortion causes more problems

than it solves. And make sure they understand the mental and emotional results.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

They need to experience the loss of a young loved one-a painful death- so they have an understanding of the actual results. There is more than one victim and the abortion industry is deceitful about everything. From start to finish the whole experience was about their profit. It had not changed in 30 years. They did give me a 3x5 card with 6-font print listing possible side affects to read while sitting on a footstool in poor light. All designed to keep me from reading it. This occurred after the insertion of the cork to expand the cervix and after I had paid! So I couldn't change my mind.

The Doctor, Alan Jack Messenger, is a killer. I was only 20, and it was horrible. Other drs in the valley looked shocked when they heard he had done my abortion since he is a baby Dr. I still hate him to this day. I was so young and had no idea what I was doing. Luckily, I have had no health problems, but never had children after that.

9. How has abortion affected you?

I feel nervous around babies and do not want to be around them. Another couple I know, gave up their baby for adoption, and will not hold children.

10. How has your abortion affected others in your life?

I have had several friends who had abortions, and I am sure they thought it was horrible. One friend was raped by several blacks, and she aborted the baby, another friend said her husband told her to get one and she drove herself down to Phoenix from Prescott and went through it all alone. I have several more horror stories from other people but do not feel like talking about it.

11. Based upon your experience, what would you tell a woman considering abortion?

Give her pamphlets and show her an Ultrasound with the baby in her uterus.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I am not sure. Several women in Phoenix have thrown their babies in the garbage where they died. Also, one baby did not have a head on the ultrasound. My neighbor, Brett Franks, is in Florence prison (Tucson,AZ) for beating his three weeks old sons brains in. The baby has permanent brain damage, he is three or four now. Brett only got 2.5 years in prison.I dont know what to think.a

My name is LINETTE HOLLYFIELD. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

New York City NY

09/06/1973

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Suction Aspiration Abortion with no anesthesia

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told about the procedure itself, only that I would experience some cramping while it was being done. I was not told of the possible side effects or complications. I was only told that I needed to return to a local planned parenthood clinic to be placed on birth control six weeks after the abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

No consequences were explained whether of a physical, emotional or spiritual nature.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Bruce Hollyfield, boyfriend then/ husband 35 years

9. How has abortion affected you?

I have struggled with relationships, especially my husband and children and my mother who took me for the abortion. Ongoing depression since a teenager, drug and alcohol use for many years, promiscuous sexual relationships prior to and during the early years of my marriage, Bulimia and overeating, self injuring cutting and bruising myself, anger and rage at times, inability to trust, difficulty being a mother and bonding with my girls, being overprotective as a mother, feeling suicidal at least three times in my life, Physical complications after the abortion included developing Ashermens Syndrome, Three miscarriages over eight years before having my two daughters, High Risk Pregnancy for both children which required me to have a tubal ligation after the second pregnancy although I had wanted more children. I developed a benign breast tumor which was surgically removed in 1986 and am at risk for breast cancer now because my mother died of breast cancer in 2005. Depression and emotional numbness, difficulty being around children.

10. How has your abortion affected others in your life?

It nearly destroyed my marriage and there has been a lot of distance in our relationship and difficulty talking about the abortion. My husband also feel a lot of guilt and responsibility for the abortion. My two grown daughters know of my abortion and one wants a lot of children when she marries and the other doesn't want any. I know they would have wanted older siblings. My relationship with my mother was difficult for many years even up to the time she died in 2005. My mother felt tremendous guilt for not helping me and for taking me to the abortion clinic although she would never want to talk about it or listen to me share anything with her about my regret.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't do it, you will regret this decision for the rest of your life, maybe not right away but the regret will surface and try to destroy your life. You have other choices besides abortion. Go to a Crisis Pregnancy Center and talk with someone who can help and explain all of your options. But what ever you do, please don't abort your child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is NEVER legal to take the life of another and life begins at conception. I would remind our supreme court of the words written into our Declaration of Independence and that we need to protect those who are unable to protect themselves, namely the Unborn. We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness. — That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, — That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of AZ

County of Pima

My name is Renee Villani. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

//1977

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

dilation and cuttrege

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was just "tissue".

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me of the reproductive horrors I'd face down the pike and no one told me that the guilt I'd feel would send me into a deep abyss of sadness and pain.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

husband

9. How has abortion affected you?

Abortion affected me so greatly that the undefined guilt I felt was assuaged by divorce, re-marriage, infidelity, self-medication. Not until I was able to reconcile with God the absolute remorse I feel in allowing a child to be ripped from my womb

10. How has your abortion affected others in your life?

Abortion affects all society. A link in the natural chain is broken.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell a woman there are viable other options than to destroy an innocent life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Now that an "appropriate" measure of time has passed since the passing of Roe v. Wade, the Court

must clearly see that abortion affects women (and men) in some of the most horrendous emotional manifestations. That we are "allowed" to kill our offspring is NOT normal.

my fiancée

9. How has abortion affected you?

In November 2001 the anniversary of my abortion, I had a brief psychotic episode. I ran away from home for eight days and it took me three years on antipsychotic medication to recover.

10. How has your abortion affected others in your life?

I do not have children of my own and my husband had to live through my being missing for eight days and thinking that I was dead.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell others to not believe the lies. That having an abortion will destroy your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion has destroyed the fabric of our country. It is contrary to our constitution and what the founding fathers designed for the future of our country based on a solid belief in God.

9. How has abortion affected you?

That I allowed the lives of two children to be literally ripped from my womb leaves a scar that is so profoundly deep.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

I would encourage women to get all the facts... look at an ultrasound, see the beating heart, watch the arms and legs exercise. I would encourage women to seek alternatives to abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The only difference from homicide and abortion is one life is in the womb. Neither received the opportunity to live.

3. What type of abortion was performed?

saline solution/DNC

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Went in on the 22nd of Dec told Dr, I wanted an abortion, he gave me saline solution and I came back the next day for a DNC was not told anything about the procedure what the was about or why I had to come back the next day for DNC why they couldn't do it that day. Nothing, and was given nothing to ease the pain of the procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

No., I had no idea of the emotional termoil that would follow my decision to have an abortion

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Baby's father, to lessor degree, my sister

9. How has abortion affected you?

For 22 years I lived in silent shame and guilt. Daily remembering that I killed my unborn baby. It wasn't untill I went through a Bible based post abortion class and received forgiveness from God that I was able to recover. and now I'm leading a post abortion recovery ministry.

10. How has your abortion affected others in your life?

Not much except those that I'm ministering to and that's in a positive way

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. Women who are pregnant by "accidenta' have one of 3 choice to make 1) have the baby and keep it and raise it. 2) have the baby and give it up for adoption and 3)have an abortion. None of these are easy decisions. But I believe the grief and the shame that follows an abortion is a far heavier burden

to carry than the other two choices.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Most courts say it's the mothers right to have an abortion. But I ask #1 what about the father's rights? Where are the fathers of these abortde babies? why aren't they speaking up. Could it be because the courts aren't listening. #2 The women who choose abortion as an alternative suffer silently because of shame and guilt. It is an immoral act. and just because it's legal doesn't mean it's right.,

QUESTIONS

1. Where and when did your abortion occur?

Canoga Park CA

//1979

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Surgical

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 16 and my mother was forcing me to have it and I had no idea what to expect and wanted to carry my child to full term and put it up for adoption. I was completely distraught in the clinic crying profusely not wanting to have the abortion. Never once were we counseled and referred to an agency to discuss adoption or did the counselors honor my wants. They pushed me through to get it over with and did not care about me.

5. Were you adequately informed of the consequences of abortion?

Yes No

Neither my mother or I were informed or the Father of the child. I am at risk of breast cancer and have had to have yearly checks for the last 7 years and I am only 47.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

my mother and the clinic

9. How has abortion affected you?

I have been psychologically damaged and spiraled into major problems, depression, dropped out of school, drug and alcohol and constant suicidal tendencies. Multiple failed relationships and 4 more abortions. I have been in and out of counseling my entire life and inpatient for suicide. On and off medications and have 3 live children that have developed PTSD as a result of my inability to be properly developed mentally to parent. My last abortion was between relationships and after I had 2 live children and it plummeted me into a breakdown which required inpatient treatment for suicide. I allowed myself to get sterilized after my last child which permanently affected me to never be able to have children again. Abortions ruined my life and the next generation of my life which is my adult live children, 2

dropped out of school in and out of trouble with the law and into drugs and alcohol. My eldest is divorced and has one child a grandchild and we have no relationship.

10. How has your abortion affected others in your life?

It has ruined my childrens lives from my PTSD transending and transferring onto them they have never developed properly in thier decision making skills and are angry and full of problems, my 2 boys have dropped out of school and the eldest is teatering on a prison sentence for something so stupid, because he does not know how to respond in stressful situations. He has been in and out of trouble with the law and dropped out of school too. He is sexually permissive. He literally freezes in his ability to respond and reactes without being able to see the consequences, he has been misdiagnosed now for years and has PTSD. My youngest, now 18 dropped out of school at the age of 14 and in and out of trouble on and off drugs. My youngest has also been sexually permissive since the age of 14.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them that they need to have an ultrasound to see the beautiful creation within them. I would tell them as hard as it may be that they would be better to consider adoption as the system with open adoption now is so wonderful and makes the transition so much easier, however, they can decide that much later, but to give themselves and the child a chance. Abortion does not make things better and actually ruins your life with grief, Forbidden Grief that no one can understand and you are not allowed to feel. It is not a choice it is the unchoice. That carrying your child is the most sacraficial love and it does not require anything more from you financially for 9 months till the baby is born. You have 9 months to see what your situation is and than can prepare for adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Mandatory ultrasound for all women and reporting for girls under age Pre-abortion and Post abortion counseling with guidelines Laws required notification to pregnant mother of the risks Explicit wording to indicate the baby is human person independent from the mother it's own DNA. They need to be counseled they are killing a human being not a blob of tissue. Require a study on the cost on related health care problems including mental health. Mandatory reporting from all hospitals and doctors to report problems associated to abortions afterwards in emergency rooms etc. health professionals even if it is 20 years down the road. If you are not going to overturn the decision of legalized abortion for obvious reasons such as, mental health issues, breakdown in the education of our society and family increased drug/alcohol/ crimes against people require changes to the current system to protect women and men and the babies from abortion. Must have consent from both party's and a father's right to refuse. Require laws to notify each person of the risks breast cancer etc and risk of death. Take away the 501(3)c status since it is a money making business and require records for tracking Hippa laws will protect confidentiality aside for medical affiliations track suicide, mental health, breast cancer and other female reproductive problems and deaths that occur. Make them pay taxes on teh money they earn and keep track of all abortioins to prevent fraud and under the table dealings.

HOW MY ABORTION AFFECTED ME

The State of AZ

County of Maricopa

My name is Gina Kent. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Phoenix AZ

03/25/2008

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Not in any way, shape or form. The doctor that performed the abortion did not speak to me at all. No one else explained anything like that to me.

5. Were you adequately informed of the consequences of abortion?

Yes No

No. I specifically asked the counselor at Planned Parenthood about what is going to happen to me afterwards, I told her I was scared I was going to regret it and I was scared about how I would be after it happened. She told me nothing, except that most women feel relief after. That is all she said. No mention of PTSD, depression, regret, nothing of the sort.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend

9. How has abortion affected you?

I can describe it like a nightmare that I will never wake up from. Depression, loss of all self-esteem, extreme grief and feeling of loss for my child, symptoms of PTSD, anger/rage, lost friends, loss of valued relationship with the father, and so much more. I can never take back this heart breaking mistake I made when I was at my most vulnerable and desperate. A part of me died, my child died at my own hand, how can I ever come to terms with that fact? It is a nightmare that I will never wake up from.

10. How has your abortion affected others in your life?

My living children lost their sibling and those experiences. Although I do not know if I will even ever tell

my living children because I am so ashamed of telling them. My entire family has lost someone critically important. Society had lost the benefit of what my child would have brought. My children have suffered through watching me cry every day for over a year and watching me suffer through depression, neglecting them and their needs because of an incapacitating, debilitating, traumatic death experience.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell a woman considering abortion to really find someone who will tell her all of the facts. I will tell her to write a letter to her unborn child. I will tell her to imagine telling the people closest to her about the abortion. I would tell her that she is intricately intertwined with the life of her fetus, and there are repercussions that will affect her in a deep and profound way. I would tell her that the reasons for doing so will probably become insignificant in the face of the reality of the death of her child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You must change the standing decision and make abortion illegal immediately. If it had been illegal in 2008 then I would not have made the biggest mistake of my life, I would have my irreplaceable child here with me, I would not have PTSD, and I would not have destroyed my entire self-esteem and my life. I wish that it had been illegal because then I would have been saved, and my child would have been saved also. I could not have saved myself because of the complete fear, panic and denial state I was in. Please help women by making this procedure illegal.

HOW MY ABORTION AFFECTED ME

The State of AZ

County of Maricopa

My name is Sally Swanson. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Detroit MI

//1974

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that there may be some pain. I was never told of emotional pain. I experienced excruciating physical pain during the act of abortion. I had no anesthesia. I didn't know that my baby would try to save his/her life by pulling away. I didn't realize that my baby was probably torn apart and suffered immeasurable pain. I didn't understand. I wasn't told anything about what my baby would suffer.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me that I would suffer every day for the remainder of my life and that the feelings would grow more intense the older I got. No one told me that I may grow old alone and that children are a protection. No one told me that I may want to end my life because of my abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has devastated my life. I have never married nor hsd children. I have felt that I did not deserve to have a life. I deserved nothing. It seems I have gotten what I felt that I deserved.

10. How has your abortion affected others in your life?

I have difficulty being close to people. I will not be intimate with others. I don't allow them to know me or get close to me for fear that they may find out my secret. I am alone. Completely alone in life. I have no friends or family. I can trace it all back to my abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that to kill her baby is to kill herself. I would tell her that God has plan for her life and it

includes her baby. I would tell her that the struggles that may come with raising her baby cannot compare with the pain of living without her/him. I would tell her that her "loss" is immeasurable and irreplaceable. And, the guilt that builds as her life goes forward is not how God would intend for her to live. I would say to her that life is by nature hard. Difficulties in life are what makes up the majority of our life. Whether we have babies or don't have babies, our lives are hard. But, living with the knowledge that you took the life of your baby is much, much harder than raising your baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell a court that unless they have been pregnant and aborted their child they are unqualified to make a decision to legalize it. The ability of women to deny the decision they made in a hasty, fearful moment is immeasurable. It is decades before some women even realize that the decision they made in their young lives has caused the devastation of their lives and the lives of many they care about. Killing children is not up to the courts to decide. Now that I have lived most of my life, I look back at my decision and realize that my mother would have supported me in my decision to keep my baby. Had I had the courage to protect my baby's and my life instead of worrying about what my family and others would think of me, I would have enjoyed this gift of life. Instead, I have suffered more than my God ever intended for me.

The State of AZ

My name is S T I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

AL

//

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that there was no child there, that it was not human, that I was doing the right thing. I was not shown pictures of embryos at that stage which may have changed my mind. I was offered a valium without the abortion "counselor" having any knowledge at that point of what other medications I was on.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had two abortions. I was never told it might make it difficult to carry a baby full term, I later had a miscarriage of a planned pregnancy.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I feel terrible about myself. I have raised 2 daughters who are strongly pro life, but who do not know what a hypocrite I have been. I will never tell them. I know they would forgive me but I do not want to disappoint them so badly. I have tendencies to hurt myself by over eating to the point of ruining my health and by scarring my flesh. I am crying now. I have murdered two children as surely as if I had killed them at birth, or two, or 25 years old.

10. How has your abortion affected others in your life?

Only my husband knows all of this. He is very compassionate, but he still is stuck dealing with me like this.

11. Based upon your experience, what would you tell a woman considering abortion?

That I would do anything to help her raise her child, that she will be tortured if she goes through with it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If abortion had not been legal, I would have been too afraid to do anything but have my children and raise them the best way I could. I know now (too late) that my family and others would have helped me. By having a legal way to get "rid" of a "problem" I killed two children, and the government and the abortionists (ALL people involved in any capacity at the clinic) helped. My choice, I am a murderer but they were the accomplices. I am still trying to forgive them.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of AZ

County of PIMA

My name is Kerri I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Iowa City IA

12/01/1984

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

not sure I was awake

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They just took me to a room told me there would be sucking noise and that was it.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nothing was said of given to me to help me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Shortly afterwards I tried to kill myself a couple of times. God just wouldn't let it happen. I just ignored the pain and went on with life. It wasn't until I was pregnant with my son that it all came to the surface again. I asked God to forgive me, but also asked the child that I had aborted to forgive me. I now fight against PP and abortions.

10. How has your abortion affected others in your life?

My husband was shocked at first, (it wasn't his) but none the less he was so hurt. Then he asked God what to do and he has now adopted the child as his own and prays for her along with our earthly children. He is the only one that knows about this. My mother died in 2007, so I am sure she is with my child now.

11. Based upon your experience, what would you tell a woman considering abortion?

The pain never really goes away, and it is so not worth it. Mine was so long ago but it still feels as it was done yesterday. I feel so violated and the child deserves to have life, as God intended.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would have to trust the Holy spirit to put the words in my mouth. But I doubt any of them have seen the remains of an unborn child, maybe a dose of reality would do them all a bit of good. All I know is that the blood of innocent unborn children are on their hands and that they should be begging God almighty for forgiveness.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of Tulare

My name is Deborah Stinson. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Fullerton CA

01/17/1986

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Vacuum extraction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I experienced severe depression, to equal PTSD symptoms. I was so emotionally impacted that I repressed my memories for two years about the event. Then on the second anniversary of my abortion it all came back to me. I also contracted Pelvic Inflammatory Disease (which the clinic immediately treated for free) from the procedure.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My father threatened to "throw me in the street"

9. How has abortion affected you?

It is something that I have always carried with me. It has affected my marriage, my parenting, my relationships in general.

10. How has your abortion affected others in your life?

My parents have both been impacted. Both of my parents feel tremendous guilt which is overwhelming for them to deal with. My kids have a difficult time dealing with their emotions as well.

11. Based upon your experience, what would you tell a woman considering abortion?

I would definitely tell them that abortion is NOT a "quick fix" solution. They will carry this with them emotionally, physically and even spiritually forever.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Every woman I know who has had an abortion has been deeply affected by the consequences of that decision. It is not simply a medical procedure, but something that affects at least two lives forever. I will always regret that decision more than anything else in my life, and I was a very "typical" candidate for abortion. I was sixteen years old, with my whole life ahead, and felt this was the best choice for me and the baby. I know adoption or raising the baby would have been very difficult, but at least I would have been able to live with a clear conscience!

3. What type of abortion was performed?

not sure but they put me out and took my baby

4. Were you adequately informed of the nature of abortion, what it is, what it does?

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

my mother and her boyfriend

9. How has abortion affected you?

Directly after my baby was taken from me I was in so much physical and emotional pain that I couldn't finish high school in the normal way. I did something to finish up early and could not enjoy the innocent life a 16 year old girl should have. I did have sex, I did get pregnant but all that became my life after my mother's boyfriend molested me over and over and told me he loved me. When he stopped "loving" me I found that in boys. I have never forgotten my baby, I could have made a life for him/her and I. I would have gotten married with my baby. And my child would have led the way to my next 3 children to come. Every time I go for a visit to a gyn/ob, I ponder over how many pregnancies, how many live births I've had. I hate to tell them I had an abortion because I regret it possibly more than anything that has happened in my life. I wish there was never an option to kill a baby. I wish women would have to be responsible for their actions of choosing sex. I wish the only options were adoption or becoming responsible for your child and your action. To think of all the childless couples and to know my child was murdered is an awful nightmare I live with every single day.

10. How has your abortion affected others in your life?

My youngest daughter often brings up what if, and I talk with her about it.

11. Based upon your experience, what would you tell a woman considering abortion?

No, you will always regret it. This is an actually baby inside of you, you can't just kill it and get on with your life. You will never live a day without hating yourself, and thinking about the baby you killed. There are so many people who are wanting a baby and cannot have one, if you do not want to take care of your baby there are many who will love your baby and give him/her a wonderful life. Please give this thought.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Murder is wrong. Worse murder for someones convenience is pre-meditated. How could it be a crime to murder a baby who is being carried by a woman of a crime, but not be illegal to intentionally murder a child? It makes no sense. Murder is murder, whether by choice or by crime. The victim is still a living, heart beating child. There is no difference, a child needs protection no matter how old and what stage of development. How can a man/judge say killing a child is legal? What if that child were you, George Washington, your mother, your living child?

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of fresno

My name is Jennifer Serban. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Fresno CA

11/18/2001

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told about the pain during the procedure and I was most definately not told of the side effects, mainly the emotional and mental effects. I suffered after my abortion with terrible depression and suicidal thoughts for over 5 years following my abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed that my child would be ripped to pieces inside my body and that I would see the gruesome pictures later only to realize the full extent of what had happened.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have struggled many years with depression and suicidal thoughts, much guilt and shame. It has made it very difficult to have a normal relationship with my living children. I find it is hard to connect to them emotionally and have outburst of anger and even rage at times.

10. How has your abortion affected others in your life?

It has been a very hard topic for my husband and I to talk about and therefore creates tension and distance between us.

11. Based upon your experience, what would you tell a woman considering abortion?

It IS a baby, and you WILL regret it. There are other options, there are people that want to help you. The cost of covering your own mistakes or bad judgement should not result in the death of another person, let alone your own child. If you do this, you will never forget.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is wrong. Anyone who sees the pictures of the little dismembered babies can see that those babies look just like us, who are we to say if a baby is worth giving a life. When someone goes in for an abortion one life is ended that day and another is wounded in one of the worst ways. The affect abortion has on mothers, children and society as a whole is much more destructive than it will ever be therapeutic.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of Riverside

My name is Lisa I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Sacramento CA

05/14/1993

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

D&C and vacuum extraction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was given literature to read explaining what would take place during the abortion and how the 'tissue' would be handled. I was not shown graphics of what my baby would look like at 16 weeks gestation.

5. Were you adequately informed of the consequences of abortion?

Yes No

due to the size of the baby at 16 weeks gestation I experienced pain very similar to giving birth...afterwards I was warned that if all the 'tissue' had not been removed I could develop blood clots, which did occur. I was not informed that I would pass clots the size of a large navel orange and that this would cause extreme pain as well. These were only the physical consequences that were not fully discussed. The emotional consequences, which were much more severe, were not even vaguely implied.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

the father

9. How has abortion affected you?

Because I went on to give birth to live children, the emotional toll has only increased through the years. Feelings of depression, suicidal thoughts and spiritual vacancy have plagued me for years. Each time I held one of my babies it only heightened the acute loss of the child I never had the opportunity to know. Immediately after the abortion I became strangely promiscuous, not fully realizing I was actually trying to get pregnant to replace the baby I had killed. I found myself consuming vast quantities of drugs and alcohol, not fully aware that I was attempting to numb the pain of the loss and grief I was experiencing. Now that I have a child in high school I find myself looking at the 14-15 year old girls walking and

talking and laughing with their friends (I 'accidentally' discovered that my baby was female when the nurse assisting during the abortion blurted out, "Poor baby girl" - to which the doctor quickly retorted, "Quiet now") and thinking to myself, "If only I hadn't killed my daughter." I look at these vibrant young women knowing that there will be those who will choose to kill their unborn babies unaware of the horrible consequences they will face for years to come. I feel incredible sadness at this possibility and a responsibility to help those who feel that abortion may be a 'solution' to their 'problem'.

10. How has your abortion affected others in your life?

I have been too ashamed to speak with anyone about this until recently. Now that I am speaking out about my abortion experience I find that there are a myriad women who have gone through similar experiences and have buried or hid them because they were told that plenty of other women who have had abortions felt fine and even glad that they had them done. From the many women I have spoken to, I have found that this is not the case in the majority willing to discuss their abortions and it's aftermath. There has been a great catharsis in my life and those of other women who have had abortions, through the sharing of thoughts, feelings and emotions directly relating to the aftermath of their abortions. Knowing that I am not alone in my pain and grief has provided solace on an emotional level.

11. Based upon your experience, what would you tell a woman considering abortion?

All women must be given the opportunity to fully understand that after the first few weeks of gestation the fetus is no longer just a 'blob of tissue', rather it is a fully formed human baby, a living breathing human being who can move and cry and react to physical stimuli. All women need to know that there are millions of women who are now coming forward to talk about what is really happening. That there are many women, like myself, who are willing to open their hearts and homes to women who feel trapped by their circumstances. All women need to know that the aftermath of abortion is forever.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The physical, emotional and spiritual ramifications of abortion are much greater than can ever be expressed through words. It is my personal experience that women who have had abortions were encourage not to discuss the emotional impact of the abortion and were even looked at as traitors to the women's rights movement if they did. The social and societal impact of thirty years of legalized abortions is evident in the moral decay and deterioration of family. There are potentially tens of millions of would be fathers who were able to side-step their legal, financial and moral obligation for their children while avoiding the physical and emotional trauma that the mother had to incur as a result of the abortion. As for me, the pain and guilt of having knowingly killed my child will haunt me for the rest of my natural life.

9. How has abortion affected you?

years of grieving for my child years of hating my self for killing my own baby. difficult birth when i finally had children. scar tissue does not stretch it tears and lots of scar tissue from the abortion existed. severe tearing and bleeding involved. the nest child had to be c section too much damage.

10. How has your abortion affected others in your life?

my girls always wnted a big brother its like they knew they were missing one.

11. Based upon your experience, what would you tell a woman considering abortion?

please please re consider. if you think this is hard just think of the alternative.it doesnt go away in minutes like they told you it never goes away.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Laws are put in place to help people. from others who might hurt them and from hurting themselves.
This is one of the ways women are hurting sometimes killing themselves along with the unborn. Please
think of these women along with the unborn babies who are crying out from the womb let me live.

The State of CA

County of San Bernadino

My name is Loretta Soto. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Ontario CA

05//1981

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

No Answer

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I wasn't told anything except that everything would be fine. When I asked what sex was my baby, the dr. looked at me coldly and said, "Why would u want to know that?" I was crushed, devastated and his coldness just threw me into a downward spiral that would take 27 years to come out of.

5. Were you adequately informed of the consequences of abortion?

Yes No

Once again, I was only told that everything would be ok. I was told that there would be minimal bleeding and I would be fine.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

the staff at the clinic

9. How has abortion affected you?

I became suicidal, depressed, not knowing what was wrong with me, I just accepted that everything that was wrong with me could be cured by a pill. I hated myself, I drank, I was promiscuous, I pushed all the hurt down into my very deepest place never to speak of it again. Every December(I would get deeply depressed) which was when my baby would have been born, I never connected the two. I was an emotionally unstable person, considering suicide at every turn and never connecting the abortion to any of my problems.

10. How has your abortion affected others in your life?

I pushed everyone away from me. I didn't tell my children until 12/07. It took me 26 years to tell of this awful decision that I made.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to do it. There are many alternatives to taking a life. It is a life, not a tissue mass, but a living being that God has placed inside of her. I would tell her of the heartaches that come and the emotional bankruptcy that happens in your life. I would plead with her to reconsider this decision because it is one that will stay with her for a very long time (forever) It is a BABY and it deserves to live.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it is wrong, morally and spiritually. If our country is founded on the beliefs that there is a God, God did not give women a baby for it to be murdered. It is innocent blood that is being shed and that it needs to be stopped because it costs millions of dollars in health care dealing with abortions and the after effects that it leaves in its path....

My name is Jeannie Seanor. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Charlotte NC

02/20/1990

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

the kind which kills a child of 10 weeks, D and C or something.....

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Was not informed of child's beating heart; was not informed of depression and promiscuity to follow; was not informed of breast cancer and substance abuse risk; was not adequately referred to adoptive alternatives; was not clarified I could not be made "unpregnant", but I would become rather, the mother of a murdered child.

5. Were you adequately informed of the consequences of abortion?

Yes No

Was not informed how bitter-sweet the pregnancies I carried to term (i.e. THE CHILDREN JUDGES AND POLITICIANS IN THIS COUNTRY DID NOT MURDER) would be when the LIES of abortion became apparent. Was not prepared for the realization of how sick and unnatural Roe v. Wade has made motherhood in this country -- setting a great number of mothers in murderous rage against their children in ways which would not be possible AND WOULD NOT HAPPEN if doctors, lawyers, judges, and presidents weren't in effect telling women, "Go ahead, kill your child -- if she doesn't have any value to you right now SHE IS WHOLLY WITHOUT VALUE FOR ALL TIME".

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

child's father, college with no facilities for baby

9. How has abortion affected you?

I remember the child I WAS TRICKED BY LEGAL ABORTION into murdering every day. Men and women of LEARNING and of JUSTICE have failed me and their values are a sham. Keep catering to the selfishness and depravity of the lowest possible rung of human experience and this country's current slide into decadence and perversion will escalate. How can the rights of PORNOGRAPHERS be

exalted so far above the rights of CHILDREN? When did this country become so lost and disgusting? It's not bad enough that we shamelessly kill our children here, but now we want to export the aborti-murder to other developing countries via the UN and human right's commissions?

10. How has your abortion affected others in your life?

I will never be the same person. You may as well have let me LEGALLY kill my mother or my brothers - what reason is good enough to allow killing one's family? In retrospect, I would've rather killed anyone else than my own precious innocent child.

11. Based upon your experience, what would you tell a woman considering abortion?

You will never get over killing your own son or daughter. The reasons you have for this murder will not exist in 5 or 10 or 15 years, but your regret and will grow stronger and will be with you on your deathbed. The person/ people pressuring you into murdering your son/daughter will probably not be important to you or involved in your life after 5 or 10 years and you won't remember how they convinced you to kill your first (possibly only) son or daughter.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion can only be legal in a country which believes other people can/should be killed to solve problems. The natural consequences of legal aborti-murder are school shootings, domestic murder-suicides, euthinasia, genocide and the newly acquired "virtue" of starving people with health problems to death. The depths to which this SEVERELY selfish way of thinking has taken Americans makes me ashamed of my own country. We can stand for nothing good while we massacre 1/5 of our youngest children FOR NO LEGITIMATE REASON WHATSOEVER.

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

No Answer

9. How has abortion affected you?

I suffer from an eating disorder and low self esteem. I suffer from much guilt having to do with my abortion. I now realize that I killed my child.

10. How has your abortion affected others in your life?

No one knew.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her my experience and how it affected me adversely. I would tell her that there are those who could help her raise the child herself or to give her child up for adoption. There are many couples not able to conceive who cannot adopt because of the many abortions. I would warn her that she would inevitably regret the decision to abort.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We all came into the world in our mother's womb. No matter how tiny, these babies are alive and growing, just as we once were. What gives us the right to kill the unborn? It is a sin against God. It not only harms the woman, it most often harms those around her, too. It is against nature for a woman to kill her unborn child. We do not have the right to kill - period!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of Fresno

My name is T G I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Fresno CA

08//1990

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

I don't know what it is called, but basically they inserted a device that destroyed my baby.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't recall being given much information. I do remember someone telling me that they needed to let me know that I could give the baby up for adoption. I have done a good job of blocking alot of this out, because to this date, I regret it.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me that I might suffer depression, anxiety. Neither did they offer counseling prior to or after.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I remember waking up and saying,"I changed my mind, I changed my mind", then a woman just looking at me. I don't remember if she said anything to me. I do know that that was the saddest day of my life. I was 19 yrs. old and a coward. For the next 10 yrs I suffered tremendously. I was traumatized. I couldn't look at myself. I got married in 1995 and it affected my marriage also, because I felt I was living a lie, when my husband thought I was this wonderful person. I prayed about it for many years, asking God's forgiveness. I even gave my unborn child a name (Angel or Angelica)and begged him/her to forgive me. In Spring of 2003 I felt the Holy Spirit say to me,"I have forgiven you, but you have not forgiven yourself". I wept for hours, and then I had peace. I am now 37 (18 yrs. later) and to remember still brings knots to my stomach. I plan to talk to my children about pregnancy, and the special, precious, defenseles gift that it is no matter what the circumstances are!!! I know that I'm forgiven, but I will never forget.

10. How has your abortion affected others in your life?

My husband was affected terribly. He had me up on a pedestal. I couldn't take it anymore, til one day, after 10 years married, I risked it all and told him what I had done. I had to tell him. Our marriage was threatened, but I put it in God's hands and he blessed me with strength and reassurance that everything was going to be okay. I'm sure my husband never saw me the same again, but that is the very least I could do.

11. Based upon your experience, what would you tell a woman considering abortion?

Please, for your own sake, "Don't do it!" You will spend the rest of your life regretting it and wondering what your life might be like if you had that child in it. The years go by and you'll think about how old your child would be. Would it have been a boy or a girl?

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is the cruelest of killers. It kills the most defenseless little ones without warning, and in it's mothers' womb where it should be protected and nurtured until maturity. Abortion also kills the soul of the woman. Please put an end to Abortion NOW! How can we continue to be such cowards, not defending the defenseless!!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of United States

My name is Kathy O'Shea. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Santa Barbara CA

//1977

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I just went into the doctor's office and put on a gown. I remember putting my feet into the stirrups, however I don't remember if they gave me an injection or I just went into shock because everything went blank after that. Although I do remember the vacuum noise. (This is horrible to go over.)

5. Were you adequately informed of the consequences of abortion?

Yes No

I suppose they assumed I knew the consequences. No more baby. The emotional toll was/is never broached.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

By all the silence I got from everyone around me.

9. How has abortion affected you?

It has been over 30 years since I committed this horror and there are no emotional scars, only a gaping, hemorrhaging wound from the middle of my chest. I cannot explain the remorse and pain this has caused me. When the doctor was finished, apparently I got home somehow and then I had another follow up appointment. Seemed a little soon only a week later. However it turned out I'd been away for two weeks. I do not remember a single thing from when I started hearing that unbelievable vacuum until I was back in the doctor's office 2 weeks later. The pain and sorrow never stops. It's the only wound in my life which has never healed.

10. How has your abortion affected others in your life?

It hasn't affected them at all. I don't present it to them. I convinced my daughter not to have one

because she would never forgive herself...ever. Then I explained what I had done. She did not have the abortion and now I'm a very happy grandma. Otherwise, no one else cares. I do all my talking with Our Lord.

11. Based upon your experience, what would you tell a woman considering abortion?

Never, NEVER do this. It will ruin you. I knew a woman once who used abortion as birth control. Last count, 7. I've always wondered what happened to her. She wasn't a particularly happy woman.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The same thing I'd tell a woman. I tend to run on, so there'd probably be quite a lot of words used, but basically, it would be, "Human life begins at conception, not after birth; which shoots down partial birth abortion, doesn't it? What are they, only 1/2 human? We are not frogs when conceived, nor when we are 10 weeks old, or 3 months in our development, then suddenly become a human being. We are human beings, created in the image of God. We are all fools playing in God's arena. It has to stop. Now, not gradually in say, oh, 3, maybe 5 years down the road, NOW. Pro-abortionists, et.al tend to use the phrase "It' just a fetus", as if it was nothing but a dirty spot on a diaper. Actually, the Latin meaning of fetus is "offspring, bringing forth, hatching of young";"Indo-European-suckling".

HOW MY ABORTION AFFECTED ME

The State of CA

County of Riverside

My name is A T I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Irvine CA

01/22/1998

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

Don't recall

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I didn't ask questions and not much was said about the procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

No consequences were listed; that I can recall

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have regretted it for years. It has been 10 years and I still suffer deep pain from my selfish decision. I WISH it had been illegal at that point!

10. How has your abortion affected others in your life?

Almost everyone that I have known or heard of who has had an abortion deeply regrets it and suffers emotional pain.

11. Based upon your experience, what would you tell a woman considering abortion?

So much! I would plead for her not to do it, tell her my experience, and even offer to adopt the baby!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That as a woman, I do NOT feel I have a right to that choice. It is murdering a child, there is no other way around it.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of Placer

My name is C M S I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Santa Clara CA

12/31/1976

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was just a blob of tissue. I was a teen at the time and didn't know anything beyond what they told me.

5. Were you adequately informed of the consequences of abortion?

Yes No

They certainly didn't indicate that I'd ever have any problems. This was supposedly a simply solution to a "terrible problem".

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I've had Post Abortion Syndrome, and even with years of psychotherapy, with one "shrink" suggesting I had repressed sexual abuse (no, I didn't), not one of the doctors asked anything about abortion or explored a possible link of abortion as the trauma associated with my symptoms.

10. How has your abortion affected others in your life?

Now that my daughter knows, she is angry and distant. I hope she'll work through it. I have had difficulty forming loving bonds with the people in my life. After attending a Rachel's Vineyard weekend a year ago, I have had a significant improvement in my mental health. I really thought I'd dealt with everything before going on the weekend, but based on the improvements I've seen since attending, I can say there were aspects of the trauma that I must not have properly resolved until then (and the subsequent pro-life work I'm involved in.)

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it!! It's a permanent solution to a temporary problem. If you really feel you can't raise your child, at least give it life and offer it to a good family through adoption. That's a choice you can both live with!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Foey! Abortion really does hurt women. I denied it for years, and yet as I've learned about Post-Abortion-Syndrome, I've seen my life described in the symptoms. Now I find it hard to believe that I denied the impact of abortion for so many years, and yet now that I've gone through a healing program, my life is significantly better and I am more functional in my daily life.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of Los Angeles

My name is Vickie Munoz. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Los Angeles CA

//1976

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I didn't know what to expect especially after the procedure. I remember someone talking to me about the procedure, saying we will remove the fetus, like it was a foreign object. I am glad they knocked me out because I don't think I could have endured hearing that suction machine. All they said was, "you won't feel anything and you'll be able to go home in a couple of hours. Options were never given, what I was feeling, going through emotionally was never addressed. If I needed to talk to someone after was never addressed. I felt horrible after and cried for days after, I couldn't understand and didn't even desire to have sex with my boyfriend at the time. After months I became very promiscuous. I didn't like myself and view myself as just a "boy toy". I didn't matter to anyone and no one mattered to me.

5. Were you adequately informed of the consequences of abortion?

Yes No

I didn't know that having an abortion can sometimes make you sterile. Or lead to feelings of total despair and guilt. I didn't know how this horrible ordeal would hover over me all my life. Because I had such low self esteem I would attract men who had the same feelings. Abusive, view women as objects and love had nothing to do with it.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have harbored feelings of guilt and remorse and felt that even God could not take away or forgive me of murder. I was very young but did not know there were options at the time. I always felt if someone would have taken the time and saw me as a person first rather than just an object maybe I would not have gone through with it. No one asked how are you feeling, can you cope with ending this pregnancy.

I became very promiscuous and had little self respect.

10. How has your abortion affected others in your life?

I am not sure. I hope now that I can go forward in my life...it is only because I have the Lord in my life now, I am born again that the Lord has continued to heal and forgive me and so now I can take that next step and share with others, not to have abortions and what the effects of them are.

11. Based upon your experience, what would you tell a woman considering abortion?

It's not worth it. There are other options. This experience will effect you for the rest of your life. Every child is a gift from God, God doesn't make mistakes, life begins at the moment of conception. It is not a mass of tissue but a living human being.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You are playing God. You are killing babies and because you use the word "legal" gives women a false since of it being acceptable. But your not telling them the truth. They are taking a life, an innocent life. A life that God created. Yes, babies change lives....but for the better. You need to places to equip women to raise their babies not kill them. You need to be honest with them and tell them the truth. That their are options, and most importantly that they need to know the truth about the haunting reality of them becoming murderers. God is the giver of life and man is the taker.

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

suction??

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Very little information was given about the procedure. They told me it would be "a little" uncomfortable (they were wrong, it hurt like hell)over quickly (it took forever) and little or no risk was involved.

5. Were you adequately informed of the consequences of abortion?

Yes No

Minor bleeding for a couple of days (try 2 weeks of thick clotting)pain simalar to minor cramps (if minor is being unable to get out of bed and laying on a heating pad for 3 days minor then ok)

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Planned Parenthood/It was the "only" way out

9. How has abortion affected you?

Used drugs and alcohol for 8 years to try to deal with the guilt shame and pain of what I had done. (NO ONE TELLS YOU ABOUT THE EMOTIONAL PAIN). At 42 I had to have a total hysterectomy due to all the scarring in my uterus

10. How has your abortion affected others in your life?

It robbed me of the person I could have been for a long time so my daughter suffered due to my drug and alcohol abuse.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT!!! The procedure may be over quickly but you will deal with the emotional pain for the rest of your life. You may NEVER be able to have children, something Planned Parenthood will never tell you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Just because it's legal doesn't mean it's safe. The procedure can and has killed women. Does Phen Phen or Vioxx ring a bell????????? They were approved by the FDA and we know what happened in those cases. Get more information from the women who have gone through an abortion, parents who have lost daughters to the procedures and men who are dealing with the pain of talking their girlfriends into having abortions.

HOW MY ABORTION AFFECTED ME

The State of CA

County of San Diego

My name is S N I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Diego CA

05/14/2008

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

I am not sure how far along I was. They never told me. I am guessing I was in my 2nd trimester

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 19 at the time. It was October. I went in to Planned Parenthood and they took me back for a sonogram. The lady (not sure if she was a nurse or not, didn't talk to me much) seemed harsh. I asked to see the sonogram and she said, and I remember this clearly "we don't do that here" then I asked if there was only 1 baby and she looked at me oddly and said "yes". She then seemed irritated and told me my cervix was already closed and that I had to come back next week and it would be another \$350. That they would insert something into my cervix (that would be a Friday) and then I would come back Saturday and have the procedure done. She never told me what was to happen to the baby, or how far along I was. My most distinct memory is a week after my baby died my milk came in... I am crying now just thinking about it. My body made milk for my baby that I had just murdered... That means I was in to my 2nd trimester and never even knew. Why didn't they tell me?

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea that an abortion tore a baby apart. I had no idea that my child was already fully formed. I had no idea that my baby could already feel pain. They Should've showed me my sonogram when I asked, they should have told me how many weeks along I was when I asked. I didn't even want the abortion my boyfriend was making me do it. If she had just showed me the baby I would've never gone through with it. I fully blame planned parenthood for the death of my child. They did nothing to help me, all they wanted was to collect my money and get me out the door. Why is it a women that gives birth or has a miscarriage can get 6 weeks off for disability because the procedure and child birth is so hard on your body, but when you abort your expected to be fully functioning the next day. Is your body not going through the same thing? Our society is so wrong and so unjust when it comes to women and children.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

David Rose

9. How has abortion affected you?

almost immediately I couldn't eat, that turned into anorexia. Then I turned 21 and turned to alcohol. It's been a struggle ever since. In 2002 I had a miscarriage. That's when I learned that I had a high chance of miscarriage due to my abortion. Then I had a baby girl in 2005, she saved my life. But I went through a lot of postpartum because I just couldn't get over the fact that she should have an older brother or sister. Even this morning she was playing with a 5 year old neighbor girl and I broke into tears sobbing because she should have her own sibling to play with.

10. How has your abortion affected others in your life?

It's hard on my husband to see me go through these emotions over and over again. It's been 10 years this October but it's like it just happened yesterday. I will never be the same girl I was back then. The abortion changed who I was and where my life was going. All I want is my baby back.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. In fact I just did, and ended up getting in a fight with a good friend because I crossed a line and it was "her choice". But I had to be honest. Abortion ruins lives, even the women that say that "it was the best thing I did" blah blah blah. Secretly they are hurting inside. They have to keep telling themselves that was the best "choice" for them so they can get on with their life. But I can assure you if they had someone supporting them, or a man that loved them, or free childcare they would've made a different choice.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it's legalized murder, what's the difference between smothering your newborn and ripping apart a baby in the womb? Nothing, same baby different technique, ultimately you are stopping a beating heart and that is considered murder. Only a woman can know what it's like to kill a person inside her own body. Inside the one place that person should be the safest. The courts have legalized murder; they haven't given anyone a "choice" all they've accomplished is allowing people like my ex-boyfriend the legal right to tell me that it's okay to kill my baby. In my opinion 40% of the female population is convicted of murder in their own hearts. You can't even be angry at them like you would a murderer that goes and kills a stranger... because the victim is NOT a stranger the victim is your own flesh and blood. The victim is your child, a grandchild, a niece or nephew. The victim was supposed to be your child's class mate, or college room mate, co-worker, best friend. But we will never get to meet all these people because they were murdered inside their mothers bodies, they were torn apart, burned alive, or had their brains pulled out. The most horrible serial killers captured never even had a death penalty that heinous... it is not considered civilized. The world is more concerned with the human rights of criminals than it is with the human rights of unborn babies and children that have committed no crime.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of Sacramento

My name is Helen Demas. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Sacramento CT

03/30/1979

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Perhaps. I don't remember what they told except that I would be fine the next day.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told it was a minor procedure. I could go on with me life. I would be fine.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Yes. Myself, fiance, fear

9. How has abortion affected you?

Until I did PACE, I had anger, denial about what I had done, self-revulsion, believing I was a horrible person. Unable to accept love and give it freely.

10. How has your abortion affected others in your life?

I'm sure in so many unobvious ways. Trying to be perfect expecting others to be. Uncontrolled anger towards my children.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion is not just a word or procedure. It's the actual killing of an innocent life. Surprise to us but not to God. Abortion will not solve the problem of an unexpected pregnancy. A baby can change your life but not ruin it. Beyond the fear of the unknown of having a baby there is help.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It has hidden devastating consequences to a woman and all of her relationships are affected negatively. It actually kills innocent life regardless of the conception circumstances. It does not fix bad relationships or stop abuse. It's a baby not a monster who has an opportunity to bless us or someone else. Abortion solves nothing but does perpetuate more abortions.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of San Diego

My name is L E I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Deigo CA

10//2003

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Not sure, but they used suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They did not explain any negative effects abortion could have on me physically, and they certainly did not explain or offer anything for emotional healing either.

5. Were you adequately informed of the consequences of abortion?

Yes No

No consequences were talked about or discussed, they never refered to the child as a child or a baby, they used the term fetus, and never said anything about pain and suffering of the child, they never talked about any consequences I may suffer after the abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It makes me uncertain as to whether or not I deserve another child, and if I'd be a good mother, after being able to choose so off handedly to kill one of my children how can I possibly think I'd make choices that would be in the best interest of any of my subsequent children?

10. How has your abortion affected others in your life?

It's a stigma I think on people who know about it, my husband, has a hard time about it too, he thinks the same as me that maybe he's not worthy have raising and making sound choices regarding a child if we could make that choice so easily.

11. Based upon your experience, what would you tell a woman considering abortion?

It's not a sound option. It's not a simple procedure. It's not worth the risks, and it is not the easy choice. There are so many things that throughout your whole life will pop up and plague you. It never

goes away. There are so many couples and families who are willing to adopt and love and care for the child growing in you if you really do not believe you can raise it yourself. There are also many organizations who are willing to come alongside of you to help you through your pregnancy and help you find the resources you need to raise the child. Moses was adopted, and he is the most widely known icon of the Christian and Jewish faith. Adoption is a valid option. Many of our own Historical icons in America were people who were brought up in families that were wanting financially and who didn't have fathers involved in their lives for one reason or another, but that didn't stop them from doing the great things they did.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You are sentencing many women to a life of torment and despair. You are not upholding the rights of their children. Those children have the exact same rights as their mothers do. I believe somewhere in our constitution we say every man has the right to the pursuit of life, liberty and justice, how are you honoring the child's right to pursue these when you are dishonoring the right to life right away? I believe when a woman who is pregnant is killed and her baby is killed, it's considered a double homicide, what's the difference between her child and the child of the woman walking into a clinic? Homicide is homicide, manslaughter is manslaughter, there's no difference between the two. I committed a crime against humanity, and against a wonderful human being, and I hold myself accountable to that every day.

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I didn't know how angry I'd be. Also I was awake during the procedure. No one told me it would hurt like that. I wanted to get pregnant again.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents, my boyfriend's mother, and my boyfrien

9. How has abortion affected you?

Well, I had a history of becoming pregnant. Though I didn't get pregnant for 4 years afterward. It became an obsession. I was very angry with my parents. I became pregnant 4 years later and stubbornly kept my son.

10. How has your abortion affected others in your life?

I'm not sure

11. Based upon your experience, what would you tell a woman considering abortion?

To not have one

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them of my experience. I also had another one ten years later when my youngest daughter was 10 months old. I was talked into that one too

9. How has abortion affected you?

guilt, shame, sorrow, affected my later marriage

10. How has your abortion affected others in your life?

my now adult children who would've been siblings are now aware.

11. Based upon your experience, what would you tell a woman considering abortion?

don't do it. there are so many other ways to care for a child and people who are waiting to hold and love a child. it's a selfish choice to abort a child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is stopping a beating heart of a human being. It's wrong, and has lifetime implications for the people involved. Besides, there are so many couples looking for children to adopt now.

I was told that my child was simply tissue and not in human form, that it would take less than ten seconds and not hurt. That I could go back to school and resume normal activities that day, and never give it another thought.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told that there would be NO physical or mental effects and that i would probably never even give it a passing thought again.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The School Nurse, boyfriend and abortion counselor

9. How has abortion affected you?

i thought about it day and night, I sought out sex as comfort and found myself pregnant a year later, and had another abortion. The depression ruined my college career and almost ruined my marriage later, until I finally recieved counseling. I contemplated suicide a few times.

10. How has your abortion affected others in your life?

I pulled away from my family from the shame and guilt, I pulled away from my husband about it.

11. Based upon your experience, what would you tell a woman considering abortion?

That she will never get over it, that the consequences are eternal and that noones bad opinion of her pregnancy can be as bad as the shame and guilt she will feel once she kills her child. We are mothers, we are suppose to protect our children and abortion forces you to go against that instinct and kill what in most cases you would gladly give your life to protect. It is not natural.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That they have NO idea what they are talking about. That if they experienced what I had, they would feel differently. Allowing this procedure is tantamount to murder, not only of the child, but of the mothers. We are destroying generations of women and children for convenience sake, and God will hold them responsible.

HOW MY ABORTION AFFECTED ME

The State of CA

County of Los Angeles

My name is V I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Bellflower CA

03/01/1970

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Unknown

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No illustration shown or explained in detail exactly what happens during abortion of a live fetus - a living, tiny human being. Perhaps, I might have changed my mind if only someone had explained to me & including, most importantly, the moral issue for such action.

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

To this day, after all the years (I was 18 at the time, I am 56 now), I still regret my decision & think every now & then about the baby I have had killed. Was the baby a boy or girl? What could have been his/her life today had I allowed him/her to live instead? I know God had forgiven me but I could never forget what I've done for as long as I am alive. I hope my baby had forgiven me as well. I am hoping to see this baby after this life. I had a baby girl in 12/1979 born with a genetic disorder & lived only for 20-days. Somehow, I felt she was "a punishment" for what I did 9-years prior to her conception & abnormal condition. I can honestly say that abortion had affected me greatly - mentally & spiritually. I always go back in time especially each time the subject [abortion] comes across, such as this email, & have the same thoughts over & over - sadness, regrets, shame, & guilt. I am grateful to God He still blessed me & my husband with 2-sons who are now 30 & 33 yrs old & even have children of their own. We are now

grandparents of a boy & girl.

10. How has your abortion affected others in your life?

I had disclosed it to my two sons & 1-sister but had remained a secret to everyone else. I had advised my two sons to never allow their other halves to have an abortion under any circumstances & explained to them its effects on a woman's whole being.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT DO IT. If she's thinking about it, she should first speak to a priest or any person with religious affiliation then to a counselor/psychologist especially if she has issues/problems speaking to her parents.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It should not be legal unless a woman's life is in danger somehow. The government must insist & provide the financial/medical means for any woman contemplating on having an abortion to first go through a process of consulting with a clinical psychologist, counselor & a religious authority.

9. How has abortion affected you?

I still mourn my decision. I feel unworthy, dirty and ashamed.

10. How has your abortion affected others in your life?

He finally grieved just a few months ago when I brought it up because it still haunts me.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T! Give the child up for adoption!!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Read all of these declarations and see the other side of abortion - that the fetus may "go away" but the affects last a life time. To put funding into adoption agencies.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of San Diego

My name is Taylor Orona. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Portland OR

06/01/1990

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

I don't know what it was called, but they go in and suck the embryo off the wall inside

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that it was "Painless" and that it would help me "get my life together". I was never informed about any options to keep it or how to avoid an abortion in the future, just that it was no big deal and that it wasn't actually a baby until it came out of the womb, they said.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told not to have sex or put anything in the vagina for a certain time, but not what could happen if something went wrong.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I went on to have two more abortions in California in 1991 and 1992. The attitude is that it's just a quick fix if you are reckless and get pregnant and an easy way out. If I had some education at the clinic after the first one, I would have been more careful with contraception, which was not pushed at the Planned Parenthood. They never really explained what was happening, exactly. If I had seen pictures or had been counseled it could have prevented the other two abortions. But they were like 'No big deal' and took my money. I just kept doing it. After the first abortion, I started drinking and eventually got into drugs. I ended up in 1998 living on the street with a needle in my arm trying to stop reliving the experience. I had nightmares of hearing babies crying after the other two. Every time I saw a mommy

with a new baby I would cry. I couldn't even look at them. Three little lives on my conscience was more than a woman under 21 could bear. The guilt that I feel is the heaviest a woman can feel. I am still affected by it and it has almost been 20 years, even though I am married now, have been clean and sober for 7 years. TWENTY YEARS has not erased these abortions from my life even though I know God has forgiven me. I can't forgive me.

10. How has your abortion affected others in your life?

My family has watched me go through this entire ordeal of trying to mask the pain of the abortions through chemical dependency and being homeless and having no will to live. It caused a lot of pain in my family. I have only gotten my life together since I got saved in jail in 2001.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to have the child and lovingly give it a home where the child would be wanted, if the young woman has plans and wants to get on with her life. And to stop using abortion as contraception. Mistakes happen, and things happen that you don't plan but there are responsible ways out of it instead of just ending the child's life. If she doesn't want the baby there is a line around the block of people who do!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Why should a little human being be penalized because of the actions of its parents? In this country we are "born to be free" but not FREE to be born. Regardless of how a little life is formed, it should be protected and given rights to live. Even the environment is protected in America, but not babies? ANIMALS have more rights than children? There is something wrong with that attitude in America. Abortion is hurting more than a "fetus" it ruined my life as well. I can't believe its allowed to happen.

My name is Kristin Walters. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Fresno CA

05//1994

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

unsure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I do not remember those details

5. Were you adequately informed of the consequences of abortion?

Yes No

There were many things to read. I am usure of the what the saud.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

A friend who had had two already

9. How has abortion affected you?

The memories used to haunt me. The doctor stroking my hair telling me I was a good girl and not to worry, the women telling me in sign language (we didn't speak the same language) that this was her third and it didn't seem to bother her in the least, the fact that everytime I see that boy I remember I chose to murder a life. I had to forgive myself you see. But that was something I could never have done on my own. When I learned who Jesus was He helped me. Those memories still come up and it is still hard to know that I made the choice to kill

10. How has your abortion affected others in your life?

I have not told many people in my life.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them to consider adoption and give the child a chance.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would ask if they would ever consider that option for themselves or their daughters or grand-daughters. If their answer is yes, then I would ask them to imagine what that child might look like, what that child's personality would be like, who they would grow up to be and understand that that question could haunt the person, and the ones they love, who made the decision for the rest of their lives. The only answer would be, they would never know because they chose to murder their own child.

my husband at the time

9. How has abortion affected you?

Concern for future pregnancies, worry about breast cancer (it runs in my family), regret and sadness over the loss of my baby.

10. How has your abortion affected others in your life?

My husband at the time felt guilty and didn't know how to manage his guilt. We ended up divorcing. Both our parents were sad we made that choice, missed having a grandchild.

11. Based upon your experience, what would you tell a woman considering abortion?

It is a BABY. Though abortion may solve a few short term problems, it creates many more long term problems you can't even imagine. There are so many resources available to help girls / women and their families cope with an unplanned pregnancy. It is not the only option, in fact is it the worst of all possible options.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is the killing of one human life for the convenience of another person. The one making the "choice" to abort often makes it under pressure from others and without informed consent of nature of the unborn child and the potential short and long term risks. It is the easy way out that is really a trap to a lifetime of heartache and other problems.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of San Bernardino

My name is Christine Peterson. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Los Angeles CA

12/29/1990

2. How many weeks pregnant were you?

24

3. What type of abortion was performed?

Partial Birth

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They told me that the procedure would take three days. During the first two visit they would insert sticks that swell to open up my uterus. They never told me that the pull my baby part way out then, excuse me, suck his brains out.

5. Were you adequately informed of the consequences of abortion?

Yes No

Not at all. There wasn't any mention of the depression ten years later, the way you may distance yourself from your future children, or the way you would feel about yourself, forever, even though we learn that God loves you and forgives you, forgiving yourself is something else.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I had three abortions before I was old enough to realise what I was doing to my life. I thought it was a way to hide my promiscuity (sleeping around), I was taking drugs too and thought my babies would be born defective. I told this to the nurses at Planned Parenthood but they would only shake there head, never talked to me about choices, the choice to keep my babies. And like with all other things we hide instead of coming forward the problems just increase, they are never solved.

10. How has your abortion affected others in your life?

My daughter who is 14 now wants a mom who doesn't pull away from her, but its hard. I love her with all my heart, but sometimes I just don't want anyone to touch me. This also affects my relationship with my parents and my brothers.

11. Based upon your experience, what would you tell a woman considering abortion?

I would hold her hand and pray with her, I would send her to an alternative to abortion facility where they can hook her up with some excellent resources to help pay for her pregnancy, show her a sonogram of the life inside her. I would tell her how God knows the number of hairs on her babies head and everything else about that childs life. I would tell her that a living human being is inside of her not a bunch of tissue unable to live outside of the womb, that abortion would be murder and though she would feel relief for quite sometime afterward a day will come when she has to face herself and what she see's will devastate her.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Planned Parenthood in particular lies to women. They do not tell you the gruesome truth of how they kill your baby and when you are depressed and want to take your own life somewhere down the road because you no longer value it as God intended Planned Parenthood won't be there to help you pick up the pieces and find healing, but they will be there if you are pregnant again and want to murder that child too.

HOW MY ABORTION AFFECTED ME

The State of CA

County of Sacramento

My name is Christine Mabery. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

AL

08//1991

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told to fill out a packet of information and for the answer to the question of "Reason for terminating pregnancy" I was told to just put financial. The receptionist said, "That's what we tell everyone to put."

5. Were you adequately informed of the consequences of abortion?

Yes No

My abortion was not treated as a traditional surgery. I did not talk with a doctor, nor did I even see him or her. I was put under and when I woke up, it was done. I remember asking the nurse if I was a "bad person". She took my hand and said, "No, honey, you're not."

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father of the baby; the law

9. How has abortion affected you?

I always felt that I was a terrible person and that God was going to punish me. Throughout my three pregnancies, I knew God was going to punish me and my babies wouldn't be healthy. This was most evident with my first child, as I remember she was so blue and her head was sooo pointy, I knew this was it. It took me a couple of minutes to hold my daughter; I remember that my husband had to coax me to hold her. At that moment I felt I didn't deserve this new baby. I had always thought of what I did and thought my abortion was so terrible, that God would never love me or want me anymore. It affected my sex life and relationships with men as well. I pushed all relationships away and was content to be

by myself. It wasn't until a man, who is currently my husband, wanted to know what was wrong with me. I told him about my abortion and assumed he would leave me. He didn't, and after I shared my experience with him, I felt less guilty for doing what I had done. Feeling guilty and living with my "choice" was something I faced everyday. I had a hard time watching a show dealing with unplanned pregnancies and watching others give their baby up for adoption. I felt so awful I didn't bring my baby to term. It wasn't until 10 years after my abortion that I finally sought counseling.

10. How has your abortion affected others in your life?

Well, my parents don't have another grandchild and I know my mom has some feelings about what I did, especially since she was in the same situation, but kept her baby, which was me. I haven't told my dad because I don't want him to say something he may regret later.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to not do it. It's a decision she can't change later.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

One of the deciding factors for me in having my abortion was the fact that it WAS legal. I figured that if the government made it legal, it must be safe and not harm me. Well, having the abortion has done more harm to me than good. Everyday I live with my choice and I regret my decision. The years of pain I have lived with since my abortion can not come close to the emotions and feelings I would've had had I kept my baby or given it up for adoption. The decision to have an abortion is not a rational decision, it's a decision that is based on emotion and many times made too hastily.

Husband and in-laws

9. How has abortion affected you?

I have been forgiven by my God, but without Him I was a wreck, The guilt of killing my baby was intense, My sex life has been greatly affected, for a very long time I wouldn't let my husband near me, it put a great stress on our marriage.

10. How has your abortion affected others in your life?

My mother was distressed by it, my sons now know and understand, but didn't know at the time. My husband also struggled with guilt, for putting me through this, and he still does to this day, he regrets his decision.

11. Based upon your experience, what would you tell a woman considering abortion?

Everything within screams out, DON'T DO IT! You will never be the same again, no matter what anyone tells you. There are other options, like adoption, but PLEASE, let your baby live!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

They are wrong. Abortion is murder, I murdered my baby, no-one can tell me otherwise, and I will always have to live with that.

9. How has abortion affected you?

i still feel guilt, even though i know God has forgiven me, i have had difficulty forgiving myself, i still think about what my child would be doing today, i have not told my children i have now about it yet, the oldest is 10, i will soon. i wonder what i could possibly say to my child when i get to heaven to adequately apologize to him/her

10. How has your abortion affected others in your life?

my mother did not talk to me for a long time, i have 3 friends that had abortions around the same time,

they all had almost identical experiences that i did

11. Based upon your experience, what would you tell a woman considering abortion?

please pray and seek God's direction, please consider what your life would be like and i would, and have, shared my experience with them...i was fortunate enough to protest in front of an abortion clinic once, a young woman was going to abort and several of us talked to her, she changed her mind and i saw her at a march for Jesus rally a year later, with her baby, and the babys dad, now her husband and they all knew The Lord!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

it is so damaging to women, men and families...please make it illegal, if it had been illegal when i had it, i would not have had one.

The State of CA

County of Santa Clara

My name is Shadia . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

upstate NY

05//1983

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 15 years old. I was directly told by the abortion saleswoman that my pregnancy was simply a glob of meaningless tissue. I was not asked if I wanted an ultrasound. I was never told I was killing a child. I was told if I hurried up and scheduled it before I reached 12 weeks, I'd save \$150.

5. Were you adequately informed of the consequences of abortion?

Yes No

No consequences of any kind, physical, mental, emotional or otherwise were ever communicated to me in any form whatsoever. There was no discussion of any consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

parents, boyfriend

9. How has abortion affected you?

Physically: I tried but failed to ever get pregnant again. Within just a few years of the abortion, I had to have a D&C for unknown reasons, a breast tumor was removed, I have painful uterus fibroid tumors, I had another breast biopsy and cancer scare. Mentally/Emotionally/Spiritually: I never experienced the joy of motherhood. Less than 6 months after the abortion, I became suicidal and didn't know why and came close several times of taking my life. I did not value my life and developed severe low self-esteem. I grew distant from other people, especially small children. I could not hold babies without feeling unworthy. I avoid being with babies and small children and have constant guilt around them although for

years I did not understand why since I had been taught abortion is not killing. As a result, I became even more distraught and confused as to why I was this way. I eventually came to believe I simply was a cold, unfeeling, unloving person and never could get close to anyone as a result.

10. How has your abortion affected others in your life?

I distanced myself from my mother for nearly 20 years as I partly blamed her for not telling me the truth about abortion though it was the abortion saleswoman who I believe was ultimately responsible for lying to us both. I eventually divorced and never had children. I still have difficulty opening myself up to others, even those whom I know love me.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't believe the lies!! You are already a mother and the child within you is completely dependent on you for his/her very life. Don't make the same mistake I did. You will hate yourself one day when you realize what you have done. You will suffer guilt and depression and physical consequences possibly including becoming sterile. They are lying to you about what abortion really is. Please research the truth for yourself.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Every abortion, at the bare minimum, leaves one dead another forever wounded. Abortion not only murders an innocent child, it robs the mother of her ability to value all remaining human life - with the very next life being her own. Please listen to the millions of women who have suffered, not to the thousands of clinics who have profited at our expense. Our suffering is real. Our children are real. We've been lied to and you have the power to stop the lies. I am begging you - this time, please don't ignore the truth.

9. How has abortion affected you?

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

Please do not take the decision to abort your unborn child lightly. It is a decision that will affect you physically, emotionally, mentally and spiritually for the rest of you life. The consequences of your actions cannot be undone nor can the knowledge that you have literally murdered your own child. You may not think of it that way now, but there will come that day when, even though you won't want to confront the reality, it will confront you. The ache doesn't go away after that day comes. There are always options. There are agencies and organizations that are able and willing to help you through the pregnancy and that can find a home for the baby after he/she is born. Please consider ALL your options before you make the decision that will alter your life and end your childs life forever.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Laws that prohibit people from harming themselves and others are enforced everyday in this country. Drug laws, drunk driving laws and laws that make it a crime to harm another persons property or person. We tell people that they can't smoke in a public place because it is harmful to the people around them. We force tobacco and alcohol companies to run public service announcements and place warnings on their products pointing out the social ills and physical harm associated with their products. We have finance laws that make it illegal to defraud each other, but yet we have a society that believes that it is perfectly fine to 'kill' our unborn children. If a mother drinks or does drugs while pregnant, her infant child can be taken away from her at birth. That same mother could 'choose' to kill that baby before it is born and we call that 'acceptable' and 'a woman's choice'. We even have laws that make it illegal for any person to 'attempt' suicide but prosecute those who would try to talk women out of making the choice to slaughter yet another generation of babies. Please, open your eyes to the horrendous genocide and the veiling of it's consequences that is taking place in this country. Please, please look into your heart and hear the cries of the unborn calling out to you to save them...please.

3. What type of abortion was performed?

dnc

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

This abortion was illegal. After going to a Free Clinic, the staff informed me that I could get an abortion for fee at a place in Los Angeles around the Slauson area. A Dr. Allred performed the abortion. There were other girls with me. We were all minors, one girl was only 14. I was 16 and could drive. Dr. Allred let me drive home following the abortion which now is incredulous to me because I know that after an endoscopy, I would not be able to drive home. I don't know how I made it back home to this day. No information was given to us as to the possible problems that could occur after the abortion, neither did they inform our parents. The father of the baby was not present.

5. Were you adequately informed of the consequences of abortion?

Yes No

This abortion was illegal.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

9. How has abortion affected you?

it definitely brought depression. a friend of mine had an abortion at the same time, she has never been able to have children. she knows that it is her. probably scar tissue. i have grown children today. it took me years to forgive myself.

10. How has your abortion affected others in your life?

my family does not know for the most part.

11. Based upon your experience, what would you tell a woman considering abortion?

please consider adoption. give the baby to someone who really wants one and pray for the outcome.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should not be legalized. I have three friends my age that could not have children due to the scar tissue left from having an abortion.

9. How has abortion affected you?

I was very depressed after the procedure and it remained a empty hole inside me, I was overwhelmed with guilt and they dont tell you that your body will think that you have given birth and you will produce breast milk but no Baby to nurse, that was very hard the ache and emptiness I felt was undescrivable, I wish I knew more and had been informed step by step what happens during after and so on, that is a part of my life I have had to try to forget but it haunted me until God set me free!

10. How has your abortion affected others in your life?

I believe that my family was hurt and that they to always wonder what if? as well as I was for so many years a life is so precious and so many families want a family.

11. Based upon your experience, what would you tell a woman considering abortion?

To pray about it and if they truly can not give that baby a life the Baby deserves dont rob them of a

family that can and will adoption is something I wish I would have considered there are so many programs out there to help it is just that they are not told about them, this is something they will regret later they may not see it now but it will haunt them.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That is a wrong we are robbing life from an innocent child that did not plan this and was tossed aside for convenience that is wrong, life is precious and a blessing, there is so much I would say I would not even know where to begin? This is something that you will never be able to undo, I pray that my testimony will help others in making the right choice.

Yes No

I was never told that I would suffer depression, nightmares, guilt, extensive bleeding & pain.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My school counselors, sisters, and friends

9. How has abortion affected you?

It mentally tortured me is the only way I can explain it. I would have nightmares that I was swimming in pools of aborted babies. I was deceived into thinking it was a harmless, painless, discreet answer to my predicament.

10. How has your abortion affected others in your life?

It has destroyed my respect for myself. My daughters found out about it from my sister & it destroyed the respect my children had for me. Unfortunately abortion is so common that many people could care

less about it.

11. Based upon your experience, what would you tell a woman considering abortion?

God can get you through it! It is better to have a baby out of wedlock at a young age than to suffer for eternity with the guilt. Facing your fear is not as hard as the consequences of lifetime of guilt. The spiritual ramifications are too costly. Jesus forgives and, Satan is a liar!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That our basis of law is founded on our Judeo Christian heritage. WWJD

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of Mendocino

My name is Joyce Crommett. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Woodland Hills CA

//1970

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

saline

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told it was a simple procedure - which I guess it was. I never dreamed I would some day regret my decision.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I actually had an abortion before this one, but I was so young, I don't remember where or when. I do have one child now, and when I evaluate how good a mother I have been, I realize I was not good. I took the life of my first 2 children. I will never get over that.

10. How has your abortion affected others in your life?

My husband is sorry - he has guilt too. My daughter sometimes wishes she had brothers and sisters (family) to help her when her parents die.

11. Based upon your experience, what would you tell a woman considering abortion?

Someday, you will look back and evaluate how good a mother you have been. You will have to look in

the mirror and confess you killed your baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I was a child even though I was 18 years old. I thought pregnancy was the worst think that could happen to me. Since then, I have learned that I was blessed with 3 children and I took the life of 2 of them. I don't know their sex & I don't know how they were discarded. That bothers me. For someone who is considered "smart", I did a very "dumb" thing. I would not have had the abortions if it were illegal.

QUESTIONS

1. Where and when did your abortion occur?

long beach CA

03//1973

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

i didn't know there were types..mine was conducted at long beach memorial hospital

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

iwas so traumatized that i probably didn't hear or want to hear what i was told

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

i will never, ever forgive myself. i still live with it everyday even though it was such a long time ago. i have asked for forgiveness but i still wonder if i've truly been forgiven. i really think abortion should only occur if the mothers life is endangered. it's just a horrible thing to go thru, if you have any morals at all..

10. How has your abortion affected others in your life?

my family has to live with my moodyness occasionally, when i really get down on myself. very sad experience.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT DO IT...put the child up for adoption. there are plenty of people looking for children and then you can still look at yourself in the mirror and have you dignity and self respect.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

i think that unless you've been thru one you cannot understand the consequences of such a life altering event. i also think that making it legal was the start of the moral decay of this country. if you can kill a child with no regard for life, than what are we as human beings?

QUESTIONS

1. Where and when did your abortion occur?

Orange CA

08/10/1981

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Standard I think I was only 13

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They told me it was basically a blood clot at that point and would feel nothing.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never told of the heartbreak I would experience. It has been years and I still cry. I am not sure of the exact day that I killed my baby but the month and year are correct.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriends parents

9. How has abortion affected you?

Over the years I have wondered if my baby was a boy or a girl, if they would resemble my other children. In 1985 I became a christian and joined a right to life group after viewing a movie called "Silent Scream", I was horrified by what I had seen. A 3month old unborn baby being aborted and its tiny mouth would open screaming as its limbs were being torn apart and sucked through that very same straw like tube that they used on my baby! I will never lose those images knowing that I participated in the torture and maming of my unborn baby is heartbreaking! however, I was mal-informed! I am strong in the Lord & I know he has forgiven me and I have forgiven myself. I will hoever NEVER be the same.

10. How has your abortion affected others in your life?

Honestly I am no longer with the father of that unborn child and I dont think it had much impact on him or his family. My Mom has hurt for me and my unborn child but she also is a christian and forgives me.

11. Based upon your experience, what would you tell a woman considering abortion?

You have no idea what you are doing and the abortion clinic is not going to tell you! Look up the stage of your pregnancy as if your keeping the baby, or ask your doctor whats important for you to know about this stage in your pregnancy? They say the first 3 months are very crucial!By the time you are 7 weeks the heart is beating, the brain is developing the body is forming it is about the size of an eraser, and within the next couple of weeks the baby triples in size and is active..I can go on and on! And how about the courts they would charge a mother with child endangerment if she uses drugs and alcohol while pregnant its her body right? Why does the unborn baby all of a sudden have rights and a life? If your life is so tough and you just feel its unfair talk to the father of the baby maybe he can raise the child and you can sign off all rights... Or maybe you were raped and thats not an optain well there is adoption and there are literely million of couple waiting for a baby to adopt. I know it would be hard to give your baby away after carring it for nine months, its hard for you, not your baby! Its unfair for you to put your own feeling of guilt before the safety of your baby! I tell you from my own experience the guilt you feel after giving your baby to a loving couple goes away after a few days, but after killing your baby you never get over it! Think about it there are options!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

How can you say that? You have no idea what you are doing and the abortion clinic is not going to tell you! Look up the stages of pregnancy as if the baby was going to be kep, or ask a doctor what is important for to know about the stages in pregnancy? You will find that they say; the first 3 months are very crucial! And how can you charge a mother with child endangerment when she uses drugs and alcohol while pregnant it her body right? Why does the unborn baby all of a sudden have rights and a life?

HOW MY ABORTION AFFECTED ME

The State of CA

County of San Bernardino

My name is Maralyn Smith. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Sacramento CA

08//1977

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Not sure of the name

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was confused because they never used the word "baby." I was only 15 and they made it sound like they were only removing an unsightly wart or something.

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My step father

9. How has abortion affected you?

I was immediately affected by a deep wrenching sadness and awareness of taking a life. I was severely depressed for several months and deeply affected for many years until I became a Christian. Even then, it took a mighty touch from the Lord to be assured of His forgiveness.

10. How has your abortion affected others in your life?

Not much...since I moved into a different situation. Thirty years later, my husband is saddened by what I experienced.

11. Based upon your experience, what would you tell a woman considering abortion?

Please, please don't do it.....abortion is taking the life of a baby....people don't want you to know that you are carrying a life and that you would be ending that life...

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That having an abortion carries life-long affects to the mother....she has to live with the decision that she made to murder her baby...not "terminate her pregnancy"....that the baby is not a cyst, but a real, living baby....life didn't "start" at a certain time in the womb, IT NEVER STOPPED! A sperm is alive and so is an egg and together they become a life! I knew that my baby was alive as soon as the doctor started the abortion and I pleaded with him to stop....but he didn't....and I have to live with that the rest of my life...

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of Orange

My name is Marie Knapp. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Santa Ana CA

08/03/1995

2. How many weeks pregnant were you?

18

3. What type of abortion was performed?

vacuum extraction under general anesthetic a day after laminaria insertion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only told that because my pregnancy was so far along, it would be a 2 day procedure. They said I would have seaweed sticks inserted into my cervix one day, and the next day they would perform the abortion under a general anesthetic. I was not told that this would be an extremely uncomfortable and painful procedure. They certainly did not tell me what the actual procedure was. I was not told or shown what the baby looked like at this stage of pregnancy and I was not told the horrifying details of what abortion actually is.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told that I would have heavy bleeding that would taper off. What I experienced was emotional turmoil that persists to this very day. After several years, the emotions poured out one day at work. I was crying unconsolably and although my co-workers were very supportive, I simply couldn't work that way and was asked to leave. In a daze, I drove home and began calling around to seek counselling. Eventually I learned that abortion literally tears apart a tiny living body and the guilt that washed over me was horrible. I had to face the fact that I had committed murder. I remember reading a newspaper article about a woman in jail for killing her child. I was guilty and ashamed, for I was living free and clear, although I had committed the same crime. But somehow my crime was legal and hers was not. In my heart, I knew they were the same. And in my heart, I knew I had committed murder and I experienced that guilt. So was I informed of the consequences? Certainly not. I was not informed that I would wake up from the anesthetic with an emptiness in my gut where that child had been growing. I was not informed that that decision would haunt me for the rest of my life. I was not informed that later, when I did have children, I would always think of our family as incomplete. I was not informed that that was a BABY I had decided to throw away.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend at the time (now my husband)

9. How has abortion affected you?

I have carried the guilt of a murderer. I have endured sleepless nights, nights of crying myself to sleep, uncontrollable weeping. I have experienced mental anguish that is so hard for me to describe with words. If only you could see....

10. How has your abortion affected others in your life?

My husband and I have cried and prayed together for the awful decision we made.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't. It seems like an easy fix. It seems like a way to pretend your pregnancy never happened. But it doesn't work that way. You will carry your guilt and shame with you forever. You will always wonder what could have been. As difficult as it may seem, having that baby and either raising him/her yourself or adopting will be easier in the long term. When you can look back on your life and know you did the best you could.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder. A woman who has an abortion faces all the inner turmoil of a murderer because they are the same thing. It only stands to reason that if murder is the killing of a human being, then abortion is murder.

QUESTIONS

1. Where and when did your abortion occur?

St Thomas

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that it was not a baby yet. That it was just tissue and that the process was simple in nature.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed of the long term emotional and psychological effects. i was not told that this decision would haunt me the rest of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has been difficult for me to fathom that I could actually cause harm to my own child. I think about who that child would have grown up to be. I have only been able to live with myself and to eventually find peace because I have opened myself up to God's forgiveness.

10. How has your abortion affected others in your life?

My grown children had a look of great dismay when I disclosed my action. I have taught them that life is precious at any stage, this act was opposite of everything I am and believe in. I dread the day my grandchildren become aware. I pray that I can save one child by coming forward with this great shame I carry.

11. Based upon your experience, what would you tell a woman considering abortion?

Please do not go through with it. The consequences are too great. You will not be the same person you are now. You will think differently years from now, and what seems like a problem now, will be your blessing later. The pain and regret is too great. That child will always be a part of you. It is a lie that you can have an abortion and walk away from it the same.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion ends the life of a precious baby, the pain remains long after and affects the mother as well as that of those around her. End the lies!!!! We have too much medical knowledge on hand to verify the existence of a precious child in the womb, defend the defenseless, please reverse this wicked, evil solution, or we are no better than Germany during the Hitler years.

HOW MY ABORTION AFFECTED ME

The State of CA

County of San Diego

My name is Sylvia Chaffee. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Diego CA

07//1990

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

I don't remember

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It was explained to me that what would be removed from me was basically a mass of cells and similar to "going to the dentist" to have a tooth removed. I know that there was a paper that I signed at the place where the abortion was performed and I think it told about possible physical side effects or consequences. I don't think that the consequences of this procedure were fully explained to me.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was 19 at the time that I had the abortion and I'm 37 now. At the place where the abortion was performed, I was given a paper that from what I can remember went over some of the physical consequences that could happen from abortion. It possibly mentioned mental consequences as well, I honestly can't remember for sure.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father of the baby and a friend and others.

9. How has abortion affected you?

After the abortion, I experienced heavy guilt. I knew at this point that it had been a life and there was nothing I could do to go back. This was something that affected my life and my thoughts in what I was doing at the time. At the time I was going to school and it was hard at times to stay focused on my studies due to these feelings of guilt, great sadness and grief.

10. How has your abortion affected others in your life?

After one to two years, I told my parents what I had done. My dad told me that "all have sinned and fall

short of the glory of God." My parents have never brought it up again so I don't know how it might have affected them. I have a sister who at the time was younger than me and had thought I should have the abortion at the time. I think that she has seen how I have suffered and realizes that abortion is not a good thing.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that I believe that abortion is the taking of a life and I would let her know how abortion has affected me. I think that there is much power in the personal testimony of a person who has experienced abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I think that something that Ronald Reagan said in his essay "Abortion and the Conscience of the Nation" is fitting here. He was saying that the very fact that people are not sure if a fetus is a human being, that we should give the benefit of the doubt. He gave the example that we would never bury a body unless we know that the person is truly dead and in the case of abortion since we're not sure about when life begins, we should give the benefit of the doubt. Also, I have heard the testimonies of too many women who have suffered greatly as a result of this procedure. I believe that according to the Bible, life in the womb is precious to God and worthy of protection.

My name is Rebecca . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Monterey Park CA

06/05/1983

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They said the procedure would not take long. There would be mild discomfort, like menstrual cramps.

5. Were you adequately informed of the consequences of abortion?

Yes No

I didn't know to ask and they didn't offer any information.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

baby's father

9. How has abortion affected you?

I have experienced depression, tried to commit suicide, very low self-esteem. Trust and anger issues, eating disorders, extreme guilt and shame.

10. How has your abortion affected others in your life?

My aborted child's father who is now my husband refuses to discuss that it even happened. My sisters look down at me in disgust.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to do it, that what ever they think they will be escaping by going through with it, compares nothing to what they will experience everyday of the rest of their lives.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

To please listen to us who were not informed, who were lied to, listen to the damage it does to women

of all ages. To please close down the clinics that perform abortions. It could be their daughters or grand-daughters that are being lied to, would they want their family members to experience abortion first hand?

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of Santa Cruz County

My name is Sheri Del Core. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Richmond CA

//1982

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

Dilation Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 17, went to Planned Parenthood. I was not shown what the fetus looked like or would look like in a few weeks. I was not given options. I never heard from any person at the clinic or in my life that this was my first child. That I could HAVE this baby. I felt I had no options and that was only reinforced at planned parenthood.

5. Were you adequately informed of the consequences of abortion?

Yes No

Not at all! I bled profusely and had to return after a couple of days and have the procedure redone. It was horifying--words cannot describe it. I went into a depression that I didn't even realize at the time was from the horror and grief of the whole experience.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

the clinic counselor & my mother

9. How has abortion affected you?

HUGELY! A year after I practically forced my boyfriend, (the father of my first baby), to marry me so we could have a baby the right way. I became obsessed with trying to make it right. I had so much grief but no one who I could talk to about it and no acknowledgement of what I was experiencing. Later when I did have children I was very over protective and tried to be Super Mom-- still trying to make up for what I'd done.

10. How has your abortion affected others in your life?

It affected the birthfather and his entire family as I married him on the anniversary of the abortion. Left

him on the second anniversary. Married again on the fourth anniversary and, as mentioned above, drove my own family batty trying to be the perfect mom.

11. Based upon your experience, what would you tell a woman considering abortion?

Seek counseling outside of the clinic or doctors office. Get as much information as you can and speak to women who have had abortions and lived to regret it. Find out about fetal developemnt and adoption. Your "product of conception" has a beating heart, it's own unique DNA and a right to live. This is a seperate body, a whole different person, this is not part of your body. You will realize in your heart at some point that this is your child, whether you ever see it's face or not, whether you ever hold it in your arms or not.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion takes a life, it is murder. I wish it had not been so easy for me to make the snap decision to end my childs life before I even knew what was really going on. I wish there hadn't been such willing hands to take my baby out of this world so quickly.

HOW MY ABORTION AFFECTED ME

The State of CA

County of Los Angeles

My name is Mary I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Fontana CA

06/15/1974

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Not Really. I just knew I didn't want a child at the time, but no one showed me ultrasounds, or pictures of babies at certain stages of life. No one told me the psychological ramifications this abortion would cause. I don't blame anyone but myself because I knew what I was doing. At the time, it was for my convenience. I never really thought of it as a baby. I had other priorities in my life, and I was extremely self-centered, and selfish. I regret doing what I did.

5. Were you adequately informed of the consequences of abortion?

Yes No

I never thought this would ever come back to haunt me, EVER. But it has affected my life, and I am so sorry I did what I did. I would counsel woman to first think about having sex and not protecting themselves even within the confines of marriage if you really aren't yet prepared to have this child. Once you've conceived, it's really not the child's fault that he/she is beginning to be formed in the womb. It's really best to either keep it or give it up for adoption. I really never knew how many couples are dying to have a child.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My husband-not exactly excited about kids.

9. How has abortion affected you?

I could let it cause me depression, but I turn it over to the Lord. I know my child is in heaven w/God, and that someday I will see him or her. I've actually had 2 abortions so there will be 2 children there. Also, I feel horrible that I treated a gift from God like trash.

10. How has your abortion affected others in your life?

Yes, my daughter. She absolutely cannot believe that I aborted 2 kids.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't do it. Also think about your relationships. If you're having sex outside of marriage, think about the consequences. Of course, if you're married, and you really don't think you're ready, God will make a way.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Try interviewing a few women who have had abortions. They don't want to hear their stories. The liberals always tout "A woman's right to choose", but what about the innocent baby's right to choose life. Of course, the woman has a right to choose, but she also had the right to say "NO" to sex too or take better precautionary measures to not conceive.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of Calaveras

My name is D L I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Downey CA

01/01/1983

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

I'm not sure, but I think it was "suction"

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not given any counseling. I was not spoken to at all about what was happening -- except what was happening to make sure they received the payment due. It's true that they gave me some papers, but I didn't look at them -- I was only 16.

5. Were you adequately informed of the consequences of abortion?

Yes No

There wasn't any information about this whatsoever, except possibly in the papers that they gave me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I didn't tell anybody about it for over 20 years, including my husband. When I see children I wonder if my child would have looked like them. I wonder what my child would have looked like. I wonder what life would have been like if my child were alive today -- we'd probably be driving around and having fun and enjoying life. I used to feel that my child was going to hate when I saw him/her one day. I still cry about it upon occasion. The sense of loss is very much present in my life. The knowledge that the abortion was permanent and there is absolutely nothing I can do about it at this point is devastating. Most choices can be undone somehow or mitigated, but not this one. At the time I had no idea that I would come to very much want this child and regret this decision. Since I'm very likely to not have children (husband's decision mostly) I killed the only child I will ever have.

10. How has your abortion affected others in your life?

Not many people know about the abortion, but the father of the baby had juvenile diabetes and currently

cannot have kids because of complications of the diabetes. I am sure that he thinks about this child that we killed as he is trying to conceive. I'm sure that my mother would have loved this baby if she were aware of him/her.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell this woman that there are other options. It may be very difficult to give a baby up for adoption, but she may not realize that this abortion will be, if not now, very difficult in the future as she realizes that she had killed her baby on purpose. Either way there is grief -- but at least with adoption your baby is ALIVE.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that children, especially children under the age of 18 (I was 16 when I had my abortion) cannot conceive of what they might have to go through later on in life. Children this age cannot even get their homework done, much less know the consequences of such an action. I also think that possibly if people know that they don't have the "easy" option of abortion that they may try harder to not get pregnant in the first place. Women who are contemplating abortion have no idea what the future has waiting for them as they know that they have committed murder.

County of San Luis Obispo

My name is Christl Siller. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Luis Obispo CA

05//1989

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

they cut my baby up and sucked it out of me

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one told me about what abortion does to your body, mind, and spirit. After 3 weeks I was still positive for pregnancy, and I told them I wanted to keep my baby, and they told me "NO" and I would have to terminate my baby. After another week I took another test and I was not pregnant any more.

5. Were you adequately informed of the consequences of abortion?

Yes No

My health went down hill. No one helped. I miscarried one child and finally had a beautiful baby girl but I lost my uterus. My baby's placenta had grown through my uterus and I had to have a hysterectomy. My child always wanted siblings and I wanted more children too. I blame my hysterectomy on my abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My ex husband and a person from plan parenthood

9. How has abortion affected you?

There are no words. I am an ill person that the doctors can't fix, and some days I feel like dying because of my afflictions.

10. How has your abortion affected others in your life?

My daughter does not have any brothers or sisters and my new wonderful husband of 15 years can only have one child because of me.

11. Based upon your experience, what would you tell a woman considering abortion?

Just don't do it. They don't know what there doing and there is no help after. You might never be heathy

again, but more importantly, you will forever remember you killed your baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I just don't know how they can legalize something that has ruined my whole life, yet, they ban drugs, alcohol to minors, even 16 to drive first car, but abortion is legal. What side of The Iron Wall do these judges believe in?

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of Placer

My name is Angela Sisneroz. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

El Paso TX

10//1990

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that it was a mass of tissue and that there would be no pain, but other than that, no counsel whatsoever. No truth spoken.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nothing discussed.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It caused me to block out reality and became an alternative source of birth control. It led to 4 other abortions over the next 6 years. I have killed 5 babies...I am not proud of this at all, but trying to numb out the first choice lead to many years of alcohol abuse and the slaughter of other children.

10. How has your abortion affected others in your life?

It has robbed my daughter of brothers and a sister. It has left my family incomplete.

11. Based upon your experience, what would you tell a woman considering abortion?

To trust in God with all your heart. Every child is a gift and a blessing from God. God calls each child into existence, he knows you before you were born and knits you together in your mother's womb. That means this child that you carry has been called by The God of the Universe for a purpose and He is knitting this child in your womb. Do not kill it. Do not be deceived by what the enemy tells you. This will impact you for the rest of your life. If your life is not at a place where you can take care of this child, give it the best gift you can give him/her and give them life. Choose adoption not abortion. You will be

amazed at how close you get to this child and by the time 9 months is up you will never regret it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Thou shalt not kill. Abortions cannot take place until a child is completely formed and has a beating heart. Most abortions take place when a child's fingerprints are complete. This means you could fingerprint them...this is a person. Killing is a crime. If you, as the people God has placed to judge us, continue to turn a blind eye to murder, you will stand before the Final Judge with these children's blood on your hands. Their innocent blood cries out for justice and God is clear in His word that it would be better for you to have a millstone tied around your neck and thrown into the sea than to cause one harm to God's children. Its time that you hear the cries of those who have been deceived that abortion is a choice. Its not a choice, its a crime! Hear our cries, hear our pleas and rule to overturn Roe vs. Wade before its too late and the scales of justice tip too far. When God will close his ears to our cries of mercy on this nation. His judgement is about to be poured out on this country, on this nation. For those who have an ear to hear, repent...

The State of CA

County of San Diego

My name is Dana Watson. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Phoenix CA

05//1979

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction extraction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

They never mentioned the post depression, or the possibility of bleeding for two months straight afterward.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I had changed my mind just as they were about to put the suction and tube inside of me and I tried to stop it, but they held me down, kept going and told me to calm down. It felt like they were literally pulling my insides out. It was the worst pain that I have ever experienced and also the emotional trauma related to it. Then guilt and depression followed the procedure, and also bleeding for two months afterwards. I noticed after a couple of years that during the same month I would feel empty and just kind of down, for years following. Finally I had some ministry counseling and had a major release of the shame and unresolved grief due to being a murderer that had been hidden inside of me since the abortion.

10. How has your abortion affected others in your life?

My boyfriend at the time was devastated because he had wanted to get married and have the baby, but at the time I didn't feel ready because I was afraid it would be deformed from the drugs that I had been taking. My parents were also emotionally affected because they too were willing to help and wanted a grandchild.

11. Based upon your experience, what would you tell a woman considering abortion?

That it should not even be an option to consider because of the lasting emotional effects that it has on all parties involved and even other family members. Bottom line, it is the murder of an innocent life from the moment of conception and there are grave moral consequences associated with it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That they should strongly reconsider their stance after 35 years of emotionally ruined lives, and from the scientific evidence that shows that it truly is a human life from the time the sperm penetrates the egg. Nothing else has ever evolved from that connection except a person.

HOW MY ABORTION AFFECTED ME

The State of CA

County of Kern

My name is Therese Dill. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Valencia or Newhall CA

12/28/1975

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

abortion with general anesthesia

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

"Counseling" was minimal, if that. I was just handed post op instructions, and a lady went over the general aspects of what would happen in an abortion procedure. I know I must have signed papers, but I was so afraid and nervous, that I don't remember signing documents. I was only 21 years of age.

5. Were you adequately informed of the consequences of abortion?

Yes No

Not really. I don't remember being told what emotional stages I would experience, nor was I counseled about how to tell my friends and family where I went on my "vacation". Most of the women who talked to me seemed older and aloof.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Huge guilt, for way too many years. I, at age 54, have only recently come to terms with what I let happen to me. Back then, I was told that "it" (the baby) was just a "piece of tissue" and that I'd have no side effects, or barely any, side effects at all. (At the top I listed Valencia or Newhall, I cannot remember exactly which city I went to to have the abortion performed.)

10. How has your abortion affected others in your life?

I remember my sons (now 29 and 26) cried when I told them that they had had another sibling. I remember telling them how helpless I had felt, and I felt that I really had no other choice. I even remember telling my mom years later about the abortion and she even cried, even though at the time I had not told her because she was very "women's lib" and thought abortion should be every woman's

right. Adoption was never even presented to me as a choice instead of abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

Have a 3D ultrasound, study ALL your options, even adoption if you cannot keep your baby, but please, do not have an abortion!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

In our paper plate and plastic silverware society, where just about everything is thrown away today, children cannot be included in that throwaway category. The right to life for all human beings is to be held sacred, especially for those who cannot speak for themselves, the unborn and soon to be born babies. Every child deserves a chance to be born and to live!

My name is Lilly Simmons. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Pasadena CA

11//1979

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

DNC

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No, I was 21, married and a Christian. I knew some basics, but I know much more now. I was very sick at the time and afraid of having more children since I had spinal cord bleeding causing paralysis, which was unknown to the doctors.

5. Were you adequately informed of the consequences of abortion?

Yes No

I only knew of the spiritual ramifications not physical.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

At first I felt so guilty and went into deep depression for over a year until God healed me and set me free from condemnation and guilt and the depression. I don't know if it caused any other physical problems since I already had many ailments due to the Artery Vein Malformation of the Spinal Cord.

10. How has your abortion affected others in your life?

I don't know.

11. Based upon your experience, what would you tell a woman considering abortion?

I would say not to have one unless her life was in danger or she was raped. The right to choose is not after you are pregnant, but before when choosing to use protection or not to. The life of the child is a gift from God. Life begins when blood is present and to take that life is murder in the eyes of God.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I would tell them it should not be legal since life begins when blood is present. Life is in the blood. Therefore, to take this life would be and should be murder in the eyes of the law. I would also make exception for the life of the mother or rape since this is something that is forced on the woman and has nothing to do with choice at all. The choice is when you are deciding to have sex and you choose to use protection or not to.

2. How many weeks pregnant were you?

3. What type of abortion was performed?

I can't remember

4. Were you adequately informed of the nature of abortion, what it is, what it does?

I was never told about the pain it would cause the baby, nor about the physical and emotional pain it would cause me.

5. Were you adequately informed of the consequences of abortion?

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

The father of the baby

9. How has abortion affected you?

I never wanted to abort this baby, but I allowed the father to talk me into it. I was extremely upset when waking up in the recovery room after the abortion. I was so upset that they wouldn't let me leave for about an hour. Even then I wasn't completely calm. I still have regrets to this day.

10. How has your abortion affected others in your life?

Not many people knew about it, but I know that it made the ones who knew very sad.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her not to do it. It causes physical pain to the baby you are carrying. And it causes you much emotional pain as well as physical pain. It is something that you will never forget. And it is very hard to forgive yourself. Please carry this baby to term and if you still don't think you can care for your baby, please allow some deserving couple to adopt the baby.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

You may think of abortion as just another medical procedure, but that is not the case. This "medical procedure" actually tortures the tiny baby and, ultimately, kills it. It also causes much emotional pain as well as physical pain to the mother, whether she admits it or not. Please do not allow the killing of these innocent babes any longer. Please allow them to have a chance at life and, if need be, to be adopted by loving parents.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of Shasta

My name is Sunny . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Santa Ana CA

04/23/1973

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

D & C with vacuum curet

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

There was never an discussion as to why, options, or the psychological consequences. I was barely told any physical complications, and no one told me how painful it would be. There were so many people and no one even acknowledged my pain or any loss at all.

5. Were you adequately informed of the consequences of abortion?

Yes No

See above

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

No, but there was never any options given, either.

9. How has abortion affected you?

Loss...I didn't think I would feel this way. I had a 2 yr old daughter and an absent father. The baby's father was a casual relationship that had already broken up, and I thought that it would be best for all. My doctor appeared to agree. It wasn't. It took me quite some time to get over a very surreal detachment. I couldn't even think about it and told none of my family. When I did begin to think about it, I became consumed. I began to wonder what life would have been like for my daughter, myself and her sibling(s) I then began to realize that I could never recover the children I had lost: to my own hands. I began to get hard and isolated myself from men. I worked harder and tried a lot of different things to help me forget and rationalize why I did what I did. In the end, I had to go through a great deal of emotional healing and found my return to faith was the only thing that removed the guilt I felt. I have heard of Jesus raising the babies that were aborted and that helped me tremendously. I have a hope that someday I would be reunited with the precious life (lives) that I lost. It is still painful to think about,

and oddly enough, it seems that as I get older and see my two grown daughters and grandchildren, I think it is a little harder. I still feel the sense that "someone" is missing.

10. How has your abortion affected others in your life?

I have two daughters that would probably have had brothers. In addition, my one daughter followed my footsteps and had two abortions. Her first one was awful, and I came to visit her (at college) just in time to take her to the hospital for bleeding. She became very bitter and for a long time felt her inability to get pregnant was God punishing her (we know better) for not keeping the children she had had aborted. She is still healing.

11. Based upon your experience, what would you tell a woman considering abortion?

Think of all the other options. It is better to give a couple who could love, cherish and afford to dote on a child, your baby, as an act of love, than it is to suffer all the consequences of an abortion. We have many options for beautiful children. However, if she were dead set on an abortion, I think she should feel good enough about it to tell her mate, her family and her friends. If she feels any reason for not telling them, odds are very good she will suffer depression and sever guilt after.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It shouldn't. Unfortunately, there are cases of a mother's health truly being in danger, and those are very rare. In those cases it is usually considered more than an abortion. Usually there are extreme circumstances and it falls into a hysterectomy or more. The abortions laws have made young women irresponsible with birth control and caused a huge problem with the psyche of many of our young women. Abortions are not guaranteeing any freedom: they are enslaving women every day. I personally know many young girls who have had their 'boyfriends' tell them they did not want to use condoms or whatever because if she gets pregnant she can just get an abortion. That is how far fetched the beliefs are about abortions, the process, and the dangers involved. I have worked for Planned Parenthood and the Public Health Department, and neither have a good well-rounded program to offer other options. In fact, a lot of the co-workers I had at both places had a somewhat d"serves 'em ight" type of attitude toward the women who were seeking help. We have to rise above this "band-aid" for why young women let themselves be victimized and begin to put money into creating psychologically health women who are trained in self-respect and good birth control methods, as well as other hygeine practices (like avoiding STD's).

HOW MY ABORTION AFFECTED ME

The State of CA

County of USA

My name is Kathleen White. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Harbor City CA

//1972

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

unknown

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

On the gurney they asked me if I was sure I wanted "it". That was the only time I was ever questioned and the only "counseling" I received.

5. Were you adequately informed of the consequences of abortion?

Yes No

I went in filled out a medical form, taken into a room with many other women, put on a gurney and forced to wait my turn in line.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I woke up screaming from my anesthesia. I was quickly hustled out of the abortion mill as I was upsetting the other clients. I was so deeply ashamed I could not talk to any one about what I had done for over 30 years. As a consequence I ended up having a hysterectomy at 32 and never had any other children except for the one I had prior to the abortion.

10. How has your abortion affected others in your life?

My husband was the only one who knew previously and though it was not his child, he grieved for it and for my hurt. Today, I publically speak about my abortion and I work in a Pro Life Clinic.

11. Based upon your experience, what would you tell a woman considering abortion?

I explain how abortion is never forgotten by the woman who does it. It hurts her spiritually and emotionally. Women were meant to have babies, not kill them. There is no situation so terrible that can justify the death of an unborn baby at the hands of her mother.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Get rid of the law. It is harmful to women in general and society. The only one who profits is the abortionist. Everyone else feels the evil effects because abortion affects the whole family. My husband and I eventually got a divorce.

9. How has abortion affected you?

I was depressed and scared for along time. I didn't tell anyone for years and years. There was alot of shame especially with my family when would talk about people who would do such a thing. Someone gave me a flyer for an abortion recovery group 20 years later. It was extremely healing for me to finally let go of the loss and shame and guilt.

10. How has your abortion affected others in your life?

It affected my daughter when I told her when she was about 20. She was angry and disappointed that she could have had a sister.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell woman that we were created to nurture and embrace life and that is what the womb is all about a place of safety and the holding of life. And when you have an abortion it becomes a place of violence and death. Psychologically it affects you as a person and a woman you lose self esteem and

begin to struggle within yourself with depression and darkness in the mind. The fact is it does cause breast cancer. If I had known what I would have gone through I would have chosen the alternative which is to give the child up for adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Unless you have had this experience it would be difficult for anyone to judge correctly who has never experienced an abortion. I would never recommend an abortion to anyone because of the silent suffering that I've experienced

8. Did anyone pressure you into having an abortion?

The father of the baby

9. How has abortion affected you?

I was plagued with nightmares for many years. I felt unworthy to even live. I have always felt guilty of a heinous crime against a defenseless innocent life.

10. How has your abortion affected others in your life?

I don't think there has been much affect on others, as I have not been very open about this aspect of my life until recently.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that abortion offered as a solution is one of Satan's greatest lies! It is murder, and she would be trading one problem for a new set of problems that last a lifetime. I would tell her to take her time making the decision. Everyone wants to rush this before "the procedure" gets more complicated and costly. Take your time, because as far as me, I did not give enough consideration to what I was actually going to do. I rushed the most important decision I would ever make! In my stress, rush, and overwhelmed state, I made the wrong decision!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I convinced myself that abortion was not wrong, because it was legal. When I realized what I had done, in many ways, I felt betrayed by the lawmakers. The law should have protected me and my baby, but instead it lead down a devistating path of "no return!"

2. How many weeks pregnant were you?

3. What type of abortion was performed?

It was in the early stages of my pregnancy.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It was many years ago, and I honestly, before the Lord Jesus, do not remember all the details of it, SO I CANNOT FILL IN THE ABOVE INFORMATION!

5. Were you adequately informed of the consequences of abortion?

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I was married and had several sick children close together, and when I found out I was pregnant again, I didn't think that I could have handled more children, and since abortion had just become legal, decided to have an abortion. Immediately after that abortion, I went into depression and sorrow. God let me know in the inner being that it was wrong, even if I wasn't a real Christian living a Holy Life at that point. Since that time, it has grieved me totally whenever I remember what I did, even though I know I have repented of it and been forgiven by Jesus Christ. * IF IT HAD NOT BEEN LEGAL, I WOULD NEVER HAVE DONE IT, AND REALIZE THAT GOD WOULD HAVE HELPED ME WITH THAT NEW CHILD. IT WAS WRONG AND ABORTION TAKES A LIFE, BECAUSE GOD KNEW US WHEN WE WEREN'T EVEN BORN YET. PLEASE CHANGE THIS LAW FOR OTHER'S SAKE ~ ABORTION IS TOTALLY WRONG!

10. How has your abortion affected others in your life?

I CANNOT SPEAK FOR ANOTHER'S HEART RIGHT NOW.

11. Based upon your experience, what would you tell a woman considering abortion?

NEVER DO IT! GOD WILL HELP YOU THRU YOUR PREGNANCY AND WITH THIS NEW LIFE.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

IT IS TOTALLY WRONG TO DO, AND IT JUST ADDS MORE PROBLEMS AND HEARTACHE INTO THE SITUATION. NO MATTER WHAT THE CAUSE OF THE PREGNANCY, ABORTION STOPS A HEART BEATING AND IT'S MURDER. I AM APPALLED THAT I WAS ABLE TO BE CONVINCED THAT IT WAS OK TO COMMIT MURDER. GOD GIVES THE RESPONSIBILITY TO THE GOVERNMENT TO PROTECT THE LIVES OF ITS CITIZENS UNDER IT. WHAT'S THE DIFFERENCE IN THIS ACTION, THAN HITLER KILLING PEOPLE UNDER HIM?

My name is Gail Levin. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Brooklyn NY

03//1973

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told by my doctor that I was killing my baby. I was assured that I just had a clump of cells in my womb, not a baby.

5. Were you adequately informed of the consequences of abortion?

Yes No

This was just three months after Roe v. Wade. I was not aware of the lingering effects of murdering my baby.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I murdered my baby. I terminated the marvel of life for this marvelous person entrusted to my care by God. I did not want it to be murder; I allowed myself to believe it was just a medical procedure on a clump of cells, as I was assured. I have missed the person I was to bear. Without the Lord, I could not stand the guilt and the pain. With Jesus, I know my baby is with God and I am forgiven. The stain of taking a life is terrible. The life the world missed in this little one is irreplaceable. I apologize to my baby's generation. I apologize to my family. Only God's blood and forgiveness can cover my sin. I am so sorry, my precious baby. I love you. God has forgiven me. I have forgiven myself. Please forgive me, my little one. Please forgive me, my baby's generation: The contribution you will never receive; the person missing my baby as a spouse; my grandchildren whose heritage was stolen by abortion. How has this affected me? How has it not affected my family and me? Thank God, years later I worked at a Crisis Pregnancy Center as a counselor. I praise God for the opportunity I had to help other women give their children life through birth, instead of death through abortion. Thank You, God for Your redemptive

nature!

10. How has your abortion affected others in your life?

It caused a deep sadness and emptiness instead of the joy of a birth.

11. Based upon your experience, what would you tell a woman considering abortion?

Please, do not abort your baby! It is a baby, not a clump of cells. God loves your child and will take care of the both of you. He has a good plan, with a future and a hope! Please, let me take you to a Crisis Care Center. See the video of the stages of growth for a fetus, and of abortions. Let them show you the wonder of the new life inside of you. I will help you. Others will help you. Give your child life; you will never regret it and it is the best decision you can make!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

A fetus is a human being from the moment of conception. Abortion is murder. It is a deception to call abortion anything but murder. Courts are appointed in the United States to uphold life. Roe v. Wade was based on a lie. Norma L. McCorvey, the woman used in the case, was duped. She was used. The entire case is a travesty. No one in our society should have the right to murder another person. It is not compassionate to call abortion a "choice." It is a baby. Not a choice. We are raping our society by denying it the children appointed to be born by God. We are raping our consciences. We are devaluing life in every right. As a court, make decisions that are just and righteous. Build our society; don't destroy it. Give our children a future and a hope by creating a culture of life, not a culture of death. Have mercy on our children. Don't allow the fact that these children are hidden in the womb fool us into complacency. Save our children's lives. Please!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of Los Angeles

My name is GapHyun Oh. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Seoul, Korea

//1974

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I've had 3 abortions altogether in Korea, before becoming an American citizen. I just went into the clinic and asked for an abortion. No one specifically told me its nature or how it's done. Asking in detail as to what it entails was also not encouraged.

5. Were you adequately informed of the consequences of abortion?

Yes No

It was as if like asking for a vaccination. I ask, they just perform. I had not known there can be any complications or consequences of abortion. Having an abortion was not illegal, but I believe it was still shameful for me to ask in detail. Just get it done fast and get out.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I've had 8 pregnancies and had 3 aborted. Birth control is usually the woman's responsibility and I was not in favor of pills. Then, many women had abortions, so I did not feel much guilt. After becoming a Christian, I realized what I had done, and it was difficult to forgive myself. I had blamed my mother-in-law for almost forcing me to have more sons (so, if the baby happens to be a girl, then what?), and my husband for not taking birth control measures. I had to live in constant guilt and vain attempts of self-justification. Guilt and self-condemnation had adversely affected me in my relationship with my 5 children as well.

10. How has your abortion affected others in your life?

I'm not sure about this one.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't. Abortion is not about women's rights, freedom of choice or selfish convenience. It's a life, and murder of your own flesh and blood. Can you truly live with your own child's innocent blood on your hands? Killing your own child is your right and choice? If you are unable to keep the child, then please give your baby a chance to live by giving to another to raise.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

How can you have a clear conscience legalizing murder? Who are you to define that a baby in the womb is not a human being? You're encouraging mothers to murder their own children, and you call yourselves upholders of justice?

9. How has abortion affected you?

On the table I said, No stop. The doctor said, You better decide. Do you want me to stop? I thought a minute and said No, go ahead. After the suction he placed a tampon in. Within days I started to have abdominal pain, went back to the doctor and found out I had a bacterial infection. I was put on antibiotics. I was anxious to be with my boyfriend. He was anxious to find out when it was ok to have sex again. After that I brooded and within a short time I didnt use any contraception at all in an attempt to replace the loss of my aborted baby.

10. How has your abortion affected others in your life?

After the abortion I was bent on getting pregnant, although I was a single mother, divorced with two daughters, a teacher at a college, and a Catholic. Somehow the Federal Law giving me the right to an

abortion made it easier to have one. I did not realize how sad I would be after, how I dwelled on the loss, asking my boyfriend if we could try to have another. We did not use contraception and we did not get pregnant. He then said he wanted to have a child and it didnt seem like I could, so he moved on. In my next relationship I tried to get pregant and did and had two children. I treasured them. Always heartbroken about the abortion I sought spiritual help and asked for forgiveness altho sometimes that never seems enough

11. Based upon your experience, what would you tell a woman considering abortion?

I would say, life is precious. I used to think about the child I aborted being a boy named Marco after my boyfriend. Only recently did I realize the horror of naming that child I aborted as a girl named Rita, after me. How could I abort a little girl like me. My mother raised us to believe in the sacredness of life and had a large family. She gave birth to my sister when she was 47. I have five beautiful sisters I love and talk to everyday. What would I do without them? They are so precious in my life. My mother sacrificed to have us. She did not abort any one of us, thanks be to God. We learn these things and appreciate them later. Dont do something you will later regret.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Change this law. You do not have to punish women who have abortions and put them in jail or refuse them. Every person has to make a moral choice about what to do with an unwanted pregnancy. But please do not keep a law that makes light of something so devastating, the taking of a life, even a potential life. Change the wording of the law. No one should have abortion on demand. No life should be taken when a heartbeat is present. That is too horrible to ponder. And we who do not know have to live with the horror everyday. Show exactly what is going on up to 12 weeks and then refuse to take a life after that time. No abortions. Also please do not have doctors ask us, "Do you plan to keep this child?" as if it is a conscious choice we make at every turn. I was asked, "Do you plan to keep this child" as if to say, "Do you plan to keep your mother alive?" Or "Do you plan to commit suicide?" No.

HOW MY ABORTION AFFECTED ME

The State of CA

County of Santa Cruz

My name is K S I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Palo Alto CA

03/08/1970

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Therapeutic

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The hospital told the nurses that it was a D and C but they new the truth. They treated me very badly.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told nothing.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother, but I agreed to having it done.

9. How has abortion affected you?

I live everyday knowing that I was responsible for the life of God's child that was murdered in my womb. I was so young.

10. How has your abortion affected others in your life?

My adopted daughter had 2 long term abortions given to her by planned parenthood through her public high school. This was done without my knowledge. They gave her a post office box number and a bus ticket out of town. She told me that she was staying with a friend. She was 17, young, and afraid. I never forget how broken she she was upon returning home. It was pathetic what they did to her

11. Based upon your experience, what would you tell a woman considering abortion?

That the fetus inside you is a real human being that has no voice. Please protect it and let it live. Adoption is the humane thing to do.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

You people are not god's and how can you kill so many human beings that God created? You are killing them. For the most part abortion is being used as a form of birth control and being misused by many boyfriends who don't want to be responsible for this created child. Sex is fun, but raising a child is out of the question and you make it so easy for them to just kill these innocent babies. How can you sleep at night????

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It was a horrible experience. During the abortion I had to be restrained and I had nightmares and terrors constantly following the abortion. I was in physical pain for 3 months after the abortion and mental and emotional anguish.

10. How has your abortion affected others in your life?

I lost a lot of friends after my abortion due to the depression that plagued my life after.

11. Based upon your experience, what would you tell a woman considering abortion?

I would recommend against it. It was painful mentally and physically and it is something you can never take back or undo.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would recommend the courts to provide other options. In the state of California when you go for assistance when you are pregnant they offer you money for an abortion. It is a horrible experience that woman should not have to suffer and it is displayed as not a big deal and an easy procedure. I completely understand that it seems like a way out but it only leads to further issues in the life of the woman. The government really should look to other options before offering to pay for something that will

cause trauma to the woman for the rest of her life.

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Not sure, it was at Kaiser

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Mine was forced by my parents and i had no idea till it hit me @ the office (kaiser). the dr. asked me MANY times if my dad raped me(he did not) and she said nothing really except I'll feel better when its over. Also when I arrived in the room there was a bloody tray etc. Just the whole thing was tormenting. Even when I tried to get out of it, they were like "its ok, you are here now, you will feel better soon".

5. Were you adequately informed of the consequences of abortion?

Yes No

They never said I could not sleep or eat and that I would grieve my loss as a death and that I had no control at 15 years old but my parents did. I also did not realize that when I got married and wanted children how the fear would come to haunt me that I could not have children because of past abortion etc.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents

9. How has abortion affected you?

I was 15 at the time and it threw me into drugs,alchol and seperation from my family. Thanks to God he restored me, my life and my family in a year. I had much coussel and prayer.. it was years before i was totally healed. I still do think about the baby I have in heaven and that my children now are missing a sibling.

10. How has your abortion affected others in your life?

My children have a older sibling, my husband feels awkward about it.

11. Based upon your experience, what would you tell a woman considering abortion?

NEVER DO IT. You will be tormented with thoughts, images, regrets and pain that are terrible. You will miss that baby deeply and always.

QUESTIONS

1. Where and when did your abortion occur?

Reno NV

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not in any state of mind to understand what was happening.

5. Were you adequately informed of the consequences of abortion?

Yes No

I can only remember being told I would experience some heavy cramping.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I am now 53 years old, and remember that day on that cold table as if it were yesterday. My whole life was affected by that decision. I turned to drinking and drugs, and a lifestyle of selling my body to whoever wanted me, as that was the only way I could relate to people.

10. How has your abortion affected others in your life?

my lifestyle choices when I was younger have and still do effect the relationship with my children.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her my testimony, I would tell her how my heart broke into when I held my own daughter as she lay weeping, when she took the same step I did and aborted my Grandchild. Your life will never be the same again. Ever!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would ask them to think of how they would feel if that were their Grandchild. I would ask them to listen at the door of all those precious young women's hearts, as they lay in bed the next day, running the

ticker tape over and over in their mind of what they just agreed to. I would ask them to look in the faces of those same women as they try to pick up the pieces of their shattered life. I would say, look into the eyes of their heart each time they see another mother with her baby. I would say, look into my eyes each time I look into my daughters face and see that empty hole left by her decision. And I would say, It's been a very long time sense I made that choice and I wish there wouldn't have been a choice to make. I wish I had my child back.

My name is Gina Bartok. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Downey CA

12/09/1994

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't recall getting any information on what was really going to happen. They confirmed I was pregnant, signed me up for an appointment, said we'd be done quickly, put me under general anesthesia and did the procedure. When I awoke, I was given juice and told how long I would bleed and sent home.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me what it would be like afterward. It was presented that it would erase all of my problems. All it did was add a huge burden and make things more difficult. I would have been better off keeping the baby and struggling or adopting out, but those weren't offered as options. I was told as a young collegiate with a bright future abortion was my best path to fixing the problem.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Not pressured, but really lead

9. How has abortion affected you?

I had a huge emotional burden and deep pain. I did end up with PID after the abortion, which my dr. blamed on the clinic. It was awful. I spent a lot of time searching for help, which never seemed to surface. There aren't a lot of resources available for women mourning the loss of an infant through abortion. For as socially acceptable as it is, it sure is put under the carpet. Ten years later, my heart heavy and my arms empty, I finally found a program at a crisis pregnancy center that helped me open up, pour out my pain, and begin to heal. It is such a long process. I will always, to some extent, suffer the loss, I know that now, but at least now, the pain isn't so deep.

10. How has your abortion affected others in your life?

My husband, the father, suffers emotinally as well. He has not had the opportunity to go through a healing program like I have--they are even fewer and further between. I know he carries deep guilt and feels the loss of a child, especially since we have others now. Knowing what we are missing out on really adds to the pain.

11. Based upon your experience, what would you tell a woman considering abortion?

I would do all I could to have her seriously consider her other options--because there always are other options. Abortion never fixes a problem, it exacerbates it. In the beginning, it may seem to erase issues, but it will always catch up with you. I would share my own story, it's so textbook statistically, and tell her what I wish I would have done. I would emphasize options, and help her to find hers. But listening to her fears, that would be the biggest thing. Abortion is so fear based. Women often cannot see past the fear and the "problem" to make a wise and life saving choice.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I emphatically disagree-aboriton should not be legal. I know all of the stand by arguments of women seeking unsafe abortions if they aren't legal, but that happens even now with all of the access. People go to drastic measures to fix a problem, even if a clinic is available--abortions aren't cheap. Pregnant women need to be fully informed in order to make a decision-choices stick with you forever. Those offering abortion services *really* need to make informed consent standard practice. Abortion is murder, no two ways about it, and moms, dads, doctors, and nurses need to understand that. Pregant women need to see the ultrasound of their tiny babies, see the beating hearts, and then be told of what she can do--keep it, adopt out, or abort. Helpful resources, like homes for unwed moms, government assistance programs, numbers for counseling groups and crisis pregnancy clinics, who to contact to set up an adoption and how the adoption process typically works, all of the abortion procedudres, how they are done, what happens to the baby and what mom should expect to feel (both emotionally and physically) afterward should be explained, counseling programs, books to read, and support groups should be given. They need to know about breast cancer, PID, infertility and other complications that may arise if they choose abortion. Full informed consent is necessary.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of Los Angeles

My name is F O I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Boston MA

08//1982

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

D&C, Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not informed as to any complications or adverse reactions to the abortion, and as a result, when the abortionist did an incomplete abortion, leaving some of the fetal tissue inside my uterus, I was left crying in pain on a cot with someone standing over me waving some type of additional form (probably a consent to waive all rights to me suing their clinic - 'Preterm' on Commonwealth Ave in Brighton, Mass.) telling me I had to sign it so they could take me in again and do another 'procedure' to "remove the rest of the tissue." al Was told my baby was a 'blob of tissue' and not a baby. The intake person asked only if I was in a 'stable relationship' with the father of the baby. When I responded 'no', she agreed the abortion was the best decision.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed of any consequences of the abortion. As per above in answering #4, the abortionist botched the abortion and left remains of the baby inside my uterus and had to repeat the abortion to remove the remaining fetal tissue. It was incredibly painful physically and emotionally for me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Detrimental to my life. Post abortion stress (or post traumatic stress) has plagued me for years. I'd cry uncontrollably and became depressed (crying for 3 days straight and held onto the emptiness of my womb). I did not understand why because no one had told me it would affect me adversely. I knew much later that I had made the wrong decision. When I came to realize I had killed a life, I was able to find healing through a crisis pregnancy center's caring post abortion counseling and education. I spent

over 15 years condemning myself for killing my baby.

10. How has your abortion affected others in your life?

I have deprived others of getting to know me as a vibrant daughter, sister, and friend. I've sabotaged my relationships with men when they became too close, thus never married. Now I'm post-menopausal and cannot birth a child. I deprived my siblings of their nieces or nephews, and my parents of their grandchildren and my cousins of their extended family. And I've deprived the fathers of my babies the knowledge that they have a baby in Heaven. (I did not share my pregnancy with the fathers of my babies because I didn't want them to think I was roping them into marriage).

11. Based upon your experience, what would you tell a woman considering abortion?

That abortion is wrong because it is taking a life. That they need to make an 'informed decision' regarding their pregnancy because the abortionists will not tell you that baby has a heartbeat at 21 days after conception. That there ARE emotional and potential physical scars from abortion. That abortion HURTS and affects many lives, not just hers. That abortion takes away God's right to life. That God has a plan for that baby's life and abortion thwarts His divine plan. That abortion will more than likely plague her for the rest of her life because in her mind and conscience and heart she knows it is the wrong decision. That she CAN have the baby and still continue her plans for her life, even if it means delaying her plans for the time being. That there is a LOT of assistance for her out there and money is not a deterrent to having a baby. That God ordained life and only God has a right to take away life. That she will live with regret, shame, and emotional baggage if she has an abortion, but she can live with joy and peace knowing she did the right thing by allowing that baby to live. That there are other options besides abortion. There are many, many couples who would love to adopt a baby and offer him/her a safe haven and upbringing. That life is a GIFT from God.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

They are wrong... dead wrong. They are supressing the truth because abortion is killing. It is taking a life without regard. That they do not understand the trauma that a woman faces when she has an abortion. It is against every human beings' moral conscience. Please DO NOT allow any more infanticide!

1. Where and when did your abortion occur?

montclair CA

07//2002

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

i have no idea

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

i have no idea what type of procedure was performed.

5. Were you adequately informed of the consequences of abortion?

Yes No

there was mainly paper work only. not a whole lot of talking, nothing about consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

my doctor had a hard time figuring out my uterus. when i came back, it was a different doctor, i got worried because i knew that it was complicated and he had never seen me before. i tried to tell him and he brushed me off, like, "oh i know, i've dealt with this type of thing before". i woke up not once but 3 times out of the anesthesia to a room full of panicking nurses and doctors who put me under again. 1 month later at work i started hemoraging and getting really sharp stabbing pains in my stomach. i knew something was wrong. so i called them panicking they told me to wait until the next day, i told them i felt like i was dying so they let me come in. the nurse gave me an ultra sound and told me that i had a 1 month old fetus in me and prescribed me some medication sent me home and told me to come back asap the next morning. i did, they rushed me back, ahead of everyone else, put me under, no paper work involved at all, didn't tell me a word.

10. How has your abortion affected others in your life?

no one really knew until a long time after, it has been a good testimony to other girls who are contemplating it. otherwise, the only other people who knew where the guys, and it affected them

minimally.

11. Based upon your experience, what would you tell a woman considering abortion?

i would tell her to think, really really think about it. consider if she was "planned". consider how it changes your mind, consider how it is so easy, if it will make her less responsible, consider how many are performed, how much money the medical industry makes off of it. Consider if they are really doing it for her, or for profit, consider why adoption is so expensive. i would tell her that if i could do it all over, i would get over my vanity of not wanting to be pregnant and "ruin" my body and give the child to someone who actually wants it. i never realized it would ruin me anyway, i am married now, totally different person and i have so much scar tissue now, i may not even be able to have children.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

i would tell them send their pregnant wives or daughters in there, go in for the procedure and bail out in the end and give them a full report on it. It's gross, it's not how they say it is. it's unsafe, it's unprofessional, it's not the government's choice to decide if the body miscarries or not. it never has been since the beginning. i would say that all it produces are young girls who think that when they do something that causes a reaction that they don't like that they do not have to take responsibility. then i would tell them no wonder the kids are the way they are, maybe when a kid does something that causes a consequence that ends up in court they should just let them go without a penalty because the kid doesn't want to deal with it. same thing.

QUESTIONS

1. Where and when did your abortion occur?

San Jose CA

//1986

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my mother and her boyfriend at that time

9. How has abortion affected you?

I felt such a deep down to my soul depression. I felt empty and angry. I felt a part of myself was missing. I shut down. I alienated family and friends. I couldn't stop crying day and night for months. I quit eating and went down to 86pds. I started to cut myself again. Then I started to smoke, drink, do drugs, and became violent again but more heavily. I became promiscuous with other risky behaviors. I spun out of control. Which even led to 2 more abortions and a miscarriage. I often wonder of my children who could have been and should have been. I cry every time I think about what people around me was saying during those times. Not once did they ever call it a baby. They called it a fetus, tissue, unwanted, a problem, a decision, a choice, etc. But they were all wrong.

10. How has your abortion affected others in your life?

Well, I'm not really sure. We never talked about it again. We all acted as if it never happened.

11. Based upon your experience, what would you tell a woman considering abortion?

Watch the video on youtube.com called the "Silent Scream" It would show you the truth about abortions. I wished that I did. It's a baby, a life. Not a choice, not a decision, and not a problem. Having an abortion hurts more than giving birth.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

IT'S A BABY, A LIFE!! NOT A DECISION, NOT A PROBLEM, NOT A CHOICE!! What you are doing is killing, murdering babies and wounding their mothers for life. Who are you to play God?! Who are you to judge who lives or who dies?! No one should have the power to take away a life! Only God should have that power. How greedy for money can you be?! Before abortion became legal or before that thought ever entered anybody's minds our families and our ancestors did just fine. Now with even more advanced technology why would we be any different? I am crying out for the unborn! No longer will their voice will be silent! And no longer will us wounded mothers be silent again! Stop hurting us! Stop killing us!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of Santa Clara

My name is Nora Navarro-Smith. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Jose CA

05/04/1991

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

1st Trimester

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told about the emotional devastation or about the depression that ensued over the next 10 years.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend

9. How has abortion affected you?

I REGRET IT!!!! I wish I would have been stronger and stood up for myself and for my baby. My boyfriend threatened me and I was young (19 years old) and I did not think I could go home to my parents and ask for help.

10. How has your abortion affected others in your life?

This has been a part of my life that I don't readily share with people. It is an area that is filled with shame, remorse, and deep pain... even after 18 years.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her the regret and wondering that never goes away. I would tell her the death that happens in your soul as you extinguish your own flesh and blood... well, that feeling never goes away. The sadness never stops. Whatever the temporary fix abortion appears to present, it is a lie straight from HELL!!! It is torment and so not worth it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I ask them what right they have to give me permission to give me a choice I have no right or reason to make. We criticize doctors and physicians for "playing God" and say they have no right to end a life... but the highest court in our esteemed and beloved country takes advantage and abuses women in their most vulnerable state and gives them the green flag to in essence "play God." The Justices were not sitting with me while I was laying in my bed crying wishing I could die because of the deep sorrow I felt. They were not there 10 years later when I was wondering what my child would look like had I not chosen to take their life. No one was with me when I would question my choice and my thinking at that point in my life. The court was not in my room with me as I sat and painfully reckoned with myself for what I had done. How dare the court give me permission to "make a choice" that is going to cause such emotional devasation, emptiness, and outright bondage?!!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of Kings

My name is Paula Pearce. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Montclair CA

01/08/1984

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Vaginal

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 17 years old and on birth control. I had been given an antibiotic by the same clinic that gave me my birth control pills. They failed to inform me that the pill was not effective while I was taking the antibiotic and that I should have been using other methods. After receiving the positive pregnancy test results, this same clinic encouraged an abortion stating, "The baby will more than likely be born severely defected due to the birth control pill and the antibiotic. I was convinced they new what they were talking about and never thought to question it. The abortion was performed the following week with out the knowledge or consent of my parents. The only reason my parents found out was because the school called to question the doctors note for my absence from school the day of the abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

It was explained that the abortion would terminate the pregnancy but no one ever spoke about the lasting memory, nagging questions and eternal regret that I would feel. Emotional consequences were never discussed.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

the nurse at the clinic.

9. How has abortion affected you?

I turned to alcohol to numb the pain for several years. Especially after discovering the lies about how birth control pills may affect a fetus. Ultimately it was my responsibility to research my options before I chose.

10. How has your abortion affected others in your life?

My father and I didn't speak for almost 6 years following my abortion. I moved out on my own at 17 and in the middle of my senior year in high school.

11. Based upon your experience, what would you tell a woman considering abortion?

It may get rid of the fetus but the pregnancy will never go away. You will be pregnant with the memory and the questions for the rest of your life. And instead of being able to think of what you may have built up in someone else's life through adoption, all you have is the life you've destroyed.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion hurts longer and deeper than giving birth! And the scars are ugly.

HOW MY ABORTION AFFECTED ME

The State of CA

County of Alameda

My name is Cindy Silva. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Hayward CA

//

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

I'm not really sure, but I believe it was a suction type abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't recall being told much of anything. I just told them that I needed an abortion and they set it up for me. I really don't recall being given any kind of detail as to what type of procedure they would use.

5. Were you adequately informed of the consequences of abortion?

Yes No

Again, I really don't recall being told anything about the consequences of an abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My husband

9. How has abortion affected you?

I believe that it was instrumental in my marriage coming to an end. I have experienced intimacy issues ever since my abortion. I had this unlying sadness, that I really couldn't explain. I often think about my aborted child. I suddenly came to the realization that the abortion was affecting me, years after my abortion. I would become very agitated when abortion was talked about. Bumper stickers or any kind of media regarding abortion, would make me cry. I sought help with all these feelings by attending a Bible study at a Crisis Pregnancy Center, which helped me to come face to face with what I had done, to forgive myself, ask for God's forgiveness and work through the healing process. I now work with other women to help them to heal.

10. How has your abortion affected others in your life?

It took a grandchild from my mom. It took a brother away from my two daughters. It eventually helped me to help others who have gone through the same thing. It ended my baby's life.

11. Based upon your experience, what would you tell a woman considering abortion?

I would do everything that I could to convince them not to have an abortion. I would tell them my own story. I would share with them what the Bible has to say about abortion. I would tell them about how a Crisis Pregnancy Center can help them through this. I would give them books and literature about the affects of abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that life starts at conception. I would tell them that abortion is murder. I would tell them my story of how abortion affected me and how it has affected others that I know.

parents

9. How has abortion affected you?

I developed PTSD. I struggled with alcoholism all my life. I suffered with anxiety and depression - and chronic thoughts about the abortion.

10. How has your abortion affected others in your life?

My depression has made me irritable and the folks around me suffered constantly.

11. Based upon your experience, what would you tell a woman considering abortion?

Make sure it is YOUR decision and not someone elses. Seek professional counseling PRIOR to the abortion so that you can be prepared for the stress you will feel afterward. Don't talk to any pro-lifers prior to the abortion. They will try to make you feel worse than you already feel.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I had my abortion in 1973 BEFORE Roe v Wade. I have suffered ever since because the added stigma of the illegal nature of the abortion made it twice as bad as it already was. If you think making abortion

illegal will stop abortion and save lives, I don't think the statistics would support your views. Abortion still occurred, legal or not. Abortion needs to remain safe and legal. But, more than that, we need to stop arguing about it. The pro-lifers need to stop making women feel guilty about the abortion. Believe me, we are feeling guilty enough without the added burden of the social stigma that pro-lifers are adding to the situation. We need to stop treating women who have abortions as "sinners". These women need to feel socially "safe" to open up and deal with the feelings the abortion causes. Women shouldn't have to suffer all their lives because they feel they have to deal with this problem alone. This is the 21st century! We can't create legislation for ALL based on the religious view of some. Please - keep abortion legal and safe! Please don't add to an already traumatic situation by making it monumentally worse than it has to be.

my aunt.

9. How has abortion affected you?

guilt, shame, embarrassment, I still remember laying on the bed that day.I remember after they had done the abortion crying and asking God to forgive me for what I had done.I still remember me crying and asking for them to give me back my baby that I had made a very bad mistake... and the nurse looking at me like I was crazy. and told me she could not do that. for the longest time I didn't want to have children due to the abortion. When I got pregnant 3 years later I knew I could not have another abortion.

10. How has your abortion affected others in your life?

I'm not sure. I have not told all of my family yet.

11. Based upon your experience, what would you tell a woman considering abortion?

I would share my life and what pain and emotion pain I have had by the decision I made by having abortion.. and that I would pray for her to not make that same mistake I made.. and that I would be more then happy to help in anyway I can.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Honestly I am not sure.. but that this was the BIGGEST MISTAKE that the courts ever made by letting this pass 40 years ago.

QUESTIONS

1. Where and when did your abortion occur?

Woodland CA

06//1983

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

I took a pill the day before and vacuumed? the next day

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The Dr. just said take this pill and I'll do a D&C vacuum. "it won't take long"

5. Were you adequately informed of the consequences of abortion?

Yes No

No He just told me to make sure i agree with my husband.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My ex husband and inlaws and my mom agreed

9. How has abortion affected you?

I went against my feelings and believed it would be Ok. It put me into a ten year of self hatred, I had my tubes tied as a punishment, giving up all hope to have my little girl. I knew I had a girl in me and gave her up. I indulged into drugs and alcohol for years. I believe the Dr. seen me as a Mexican spitting out kids cause my first two are 13mos. apart and she would have been 3 at 13 mos apart. I miss her and keep her name alive in my heart.(Maria Anjelica)sometimes I morn her and sometimes cry knowing I have to die to see her.She would be 24 years old. Sometimes I wonder if I saved her from the horrible life I led and seen hoe it affected my boys.But I praise God he saved us all.

10. How has your abortion affected others in your life?

I hated my Ex husband for talking me into it and the drugs and alcohol life with him became abusive towards the end. And I hated myself for allowing it to happen. I did not know Gods forgiveness. I don't believe it affected the rest of the family who at that time were all drinkers and druggies. And my sister in law at that time had several with no second thought.

11. Based upon your experience, what would you tell a woman considering abortion?

Find out if they know about Jesus and His love for life. That it would be the biggest mistake and would cause more heart ache than she can imagine. That God will walk her through her pregnancy, He will provide for her, He will give her peace and ensure her that her baby is called of God into this world and is alive from the moment of conception, with scripture references.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Tell them they are wrong in their thinking. That it is MURDER and the baby is alive at the moment of conception. That the blood of the babies on their hands and God will hold them accountable for it. And ask how would they like it if their child killed without a chance to speak for their life, Just cause others say its OK.

HOW MY ABORTION AFFECTED ME

The State of CA

County of San Diego

My name is Patricia Byrne. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Diego CA

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I do not recall being informed on anything regarding what would take place during my abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was given antibiotics and birth control pills then sent home. I don't recall given any specific instructions regarding any consequences of my abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend

9. How has abortion affected you?

I became very self destructive. I tried to self medicate through the use of alcohol and drugs and I put myself in situations that were pretty risky. After my abortion I became emotionally disconnected with people. I just shut down, not to the point of being clinically depressed but I know there was that part of me that did not care anymore. I still after all these years know the time around the anniversary of my abortion and when my child would have been born. I know how old she would be. Every January and September there is that time of being aware of what I did and what I now missed out on.

10. How has your abortion affected others in your life?

I know have two children and they are now old enough to know about it. When I told my oldest son he was somber, but my youngest son who is 16 became very upset. They know that they have a sibling that was taken from them and the feel the loss as well.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to not do it. Reconsider it, because it is not worth the emotional trauma that she will go through for the rest of her life. It will be something she will live with for the rest of her life. The initial relief that one may feel right after having an abortion is never worth the emotional and sometimes physical consequences that will come. I would plead with her to know that it is a child, worth giving life to.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it is human life, such as we all are and deserves the same kind of protection that our laws give all citizens of the United States. To consider that this is where we are started, at conception. From technology today, we can prove that it is human life and while it may not initially be viable outside the womb, it needs protection so that they may be given the opportunity to become one day a productive member of our society. We have too many women who have been hurt physically and emotionally by legal abortions here in America and it needs to stop. We can see how it has hurt our country economically, has destroyed families.

the father

9. How has abortion affected you?

I was emotional unstable and was on suicide watch afterwards. I thru myself into a strong drug addiction for years after that. I feel shame and grief every time I try to think about it. I live in deniel of that day.

10. How has your abortion affected others in your life?

It is hard for me to teach my son's that it is wrong when they are aware of mine. they question my actions.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! The pain and loss are damaging. Look at other outcomes. don't ruin your body (by causes inside damage) or your emotional and heart state.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it is a crime against life. That the is a child, a life in you and should not be taken. God gave us the

gift to create in his likeness, not to kill. The damage that is caused physically and emotionally are severe and can cause damage that last a life time

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of San Diego

My name is A C I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Washington DC

//1966

2. How many weeks pregnant were you?

3

3. What type of abortion was performed?

I only remember receiving an injection and I was left to myself until there was an urge to urinate.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

At the time, I was a sophomore in college and went to see my family doctor who told me I was pregnant. He told my mother and she made the arrangement even though she said it was against her belief. I believe the stigma of unwanted pregnancy in our society at the time caused her to make this decision. This has also pained me through the years since I caused her to go against her belief. I pray that God has forgiven us both.

5. Were you adequately informed of the consequences of abortion?

Yes No

Never - it was only recently when I heard about Operation Outcry that I started to understand why I have been condemned within myself all these years. Even though I have prayed and asked for forgiveness, I cannot get over the pain and shame of having done such a horrible act to another human being. I can hardly bear to hear the word 'abortion' because it reminds me of this dastardly deed that I have done. I feel like Esau who when he wanted to repent could find no place.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

The psychological pain is hard to describe because it is something that you live with everyday when you realize that you have killed someone. For years I was so ashamed that I just tried to pretend that it didn't happen. When I started hearing the numbers that have been killed and realized that it is now an industry that even made it harder to bear. I have contributed to the death of one of God's creation. So this is a scar that I must bear and I have prayed and prayed but nothing can alleviate the pain in my conscience. I cannot undo the wrong so that makes it doubly hard to bear. So basically there is

nothing for me to do but trust that God in His mercy has forgiven me because I cannot forget.

10. How has your abortion affected others in your life?

I am sure that my mother is very hurt and she also have to live with this.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I pray that this declaration would cause those who are making legal decisions about this most heinous crime to search their consciences to recognize that they would not even be in the place they are if someone had aborted them. I cheated someone out of their God-given right to life because of my failure to recognize that murder is murder regardless if it cloaked in legal terms. Planned Parenthood and the legal system will have to face their Judge one day to answer the following - "Now knowing the truth that abortion is not about a woman's right to choose but that it is a systematic attempt to profit from a woman's fear, weakness, shame, parents or friends, including the male, pressures, etc. why do you continue to do it."

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of USA

My name is Sandy I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Diego CA

05/07/1987

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction procedure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

At seventeen, I remember not telling my mother I was pregnant and it was my sister who assisted me in getting the abortion. She not only paid for it but she drove me to the clinic. Planned Parenthood didn't even ask me for a parent and never did explain the details to me or my sister. All I remember was they took a pregnancy test said I was pregnant and sent me to get the procedure done.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never told of the procedure or how it would take place, much less the consequences I would face making this decision. The emotional guilt and pain that has followed me throughout my life - no! Planned Parenthood never told the lasting effects it would have on me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend, family and the abortion clinics

9. How has abortion affected you?

I still cry and become very upset about it. I am blessed I have been able to have other children. At times, I think if my son or daughter were alive today, how old would he/she would have been. I think of what they may have looked like. Other times, I feel ashamed and as though this ugly secret in my life holds me captive. It's an ugly feeling.

10. How has your abortion affected others in your life?

Abortion has affected others around me. I never shared with my husband this deep secret about me until a couple of years ago. I don't know that my kids are affected by it through me relating to them, but

I have to believe it does to a certain degree. I fear my children will find out some day and I it scares me to know how it would change our relationship with each other. When I think about my sister and how she assisted me in having an abortion, I feel anger towards her. Abortion affects everything and everyone in my life. How could it not - innocent blood crys out and its in my head, I can never forget.

11. Based upon your experience, what would you tell a woman considering abortion?

I would plea to any woman who finds themselves in an unwanted pregnancy - not to have an abortion. The consequences of having one is far more greater than having the baby. I wish I would have found someone to have shared the truth with me and stuck by me. I would also tell any woman in a unwanted pregnancy - listen to the voice of your unborn child crying out and seek support and encouragement to stick with the pregnancy. Find rescue, not in an abortion clinic or anyone steering you in that direction - find a woman whos had an abortion and hear her story of pain and saddness. Abortion will change your life forever. Give your unborn child a chance.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

America has it all wrong when it comes to abortion. Abortion is murder! We don't have the right to take anyones life away - no, not one. Abortion clinics and doctors don't have the woman's best interest at heart and they are cold and calous. I remember being treated as a number at the abortion clinic. A room full of young teenagers being led to the slauder house, thats how I felt. It was a caddel call and it was all about the money for the clinic. At the end of the procedure, I felt numb to what had happened as tears rolled down my cheeks. With no compassion I was asked to get dressed because it was time to leave - the beds had to get set-up for the next set of victims. Our courts need to hear the truth of abortion and its affect on woman. I would plead to the courts - end abortion NOW!! Should you not, the blood of every innocent baby killed will be on your hands and on your conscience forever, as it is mine.

HOW MY ABORTION AFFECTED ME

The State of CA

County of Orange

My name is Laura I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Diego CA

05/15/1991

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Was not really told much of anything about the procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

Again, was not really told much of anything.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

As I now know, that was the only time I was ever pregnant. A few years after the abortion, I married a man that said he was a christian and wanted children. He later changed his mind about children and also about marriage. He decided to pursue a gay life instead. So now I have to live with never having any children---something I have wanted for as long as I can remember.

10. How has your abortion affected others in your life?

I have only told one person about the abortion so the people it effects, have no idea.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them how much I regret the decision and often wonder "what if" about the child I never had.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If committing suicide is considered illegal, why not murdering an innocent child. Yes, there is a choice and that is to have intercourse or not; the choice should not be about the life of a child.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of Orange

My name is Sonja Bates. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Santa Ana CA

//1979

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I have had two abortions. I have no recollection of any kind of pre-abortion counseling prior to either surgery. At that time, I thought that the baby was just a few cells. I had no idea it already had a heart beat, fingers, toes . . . it was a tiny person. No one told me any of that.

5. Were you adequately informed of the consequences of abortion?

Yes No

As I said, there was no pre-surgery discussion of any kind. I think that the clinic personnel assumed that I knew what I was there for, so they took the money, performed the abortion, and assumed that everyone in the "deal" was happy.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

In the first abortion, my boyfriend and his parent

9. How has abortion affected you?

I had my first abortion at age 19. I did not want to abort that baby, but I caved in to surrounding opinions. By the time of the second abortion at around age 22, my heart was stone. I was angry, cynical, and full of self-hatred. I hurt myself and I hurt the men in my life.

10. How has your abortion affected others in your life?

Yes. It played a role in the end of my first two marriages. I hated myself, and I hated those two men. I was angry and depressed. Even though I wanted to love and be loved, even though I truly wanted to be a good wife, my thoughts about myself and about them were full of anger and hatred.

11. Based upon your experience, what would you tell a woman considering abortion?

Pregnancy can cause heightened emotions and an inability to see past the immediate problem. But if women are given encouragement and support, they will carry their child to term. They will be proud and happy that they have done the hard, but right, thing. Everyone knows that abortion kills a child, despite all the rationalizations. A woman who aborts her unborn child knows she has paid for its death, and there is no honor in that. A woman who fulfills her pregnancy and gives her child life can be proud of that. Abortion causes death, guilt and sorrow. It is the death of hope. Giving life, even under difficult circumstances, is honorable and courageous. Adults face their difficult circumstances, while children blame and make excuses. Adults give birth, children abort. This is, essentially, what I would want to convey to another woman.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I know that I caused the death of two of my children. No amount of fancy legal language can cover up that fact. My children were people who had a right to life, liberty and the pursuit of happiness. I took that from them. The court knows that the unborn are people, and it knows that millions of people are killed each year simply because they are small, voiceless, and inconvenient. A culture that refuses to see the truth of that is a culture that will not survive.

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

Saline with labor

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 15 and told that was aht I was going to do. Explanation was just a "mass of cells"

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed of any consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Parents and grandparents

9. How has abortion affected you?

I can't forget and keep on asking over and over for God's forgiveness. I hope he is listening. I had one child and wanted more and never could get pregnant, again. I wish I had that child I aborted to love, too.

10. How has your abortion affected others in your life?

It hasn't. No one cares and everyone involved thought it was the best thing to do.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't. It is life and you are murdering a baby. You will never forget and never quit balming yourself and wondering what could have been.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

No. There are so many families wanting babies that can't have them; all the aborted babies could be placed in homes with loving parents if their lives were spared.

The State of CA

County of San Bernardino

My name is Terri Blackburn. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Montclair CA

07/01/1978

2. How many weeks pregnant were you?

26

3. What type of abortion was performed?

Seaweed - They used sticks to open my uterus and then did the abortion the very next day.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told how the abortion would affect me emotionally or physically. I had to have my uterus coiterized.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The nurses, friend & boyfriend.

9. How has abortion affected you?

After the abortion I became extremely angry, depressed, extremes highs and lows.

10. How has your abortion affected others in your life?

It caused me to be distant with my children. I did not want to go near children for fear of feeling very inadequate.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell the woman not to have an abortion because it would destroy her life. I will give her other options such as adoption, or keeping the child and raising him/her. Even if a woman was raped I would tell her the same thing.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that it destroys the lives of women and those around them. Yes a woman has a

right to choose what to do with her own body, but not that of a baby which is not her body. It is a life and has a body of its own and should be treated like a human being with the right to live and grow up in this world, making his/her own choices that will be benefit all for the good. We don't have a right to take a life whether in the womb or outside the womb. Please give our children the right to live their own lives, just as we have been given the right to live ours.

My mother

9. How has abortion affected you?

I was on a path of self-destruction afterwards. I did drugs crime gave myself away ended up homeless nad hopeless then in jail for crime. I really said to myself I hate myself and now I have done it all theres no reason for me to care anymore.

10. How has your abortion affected others in your life?

My mother did not even remember she pushed me into it. It made her feel really sad and guilty. If it was not legal this would not have happened. She was one of the women in 1968 who were put into an unwed mothers home and had her baby and gave him up for adoption.

11. Based upon your experience, what would you tell a woman considering abortion?

WHatever you do do not take the life of an unborn child into you own hands. Especially your own child.

It comes back to you, the guilt emotion thinking of what it would have been how old lots of guilt and shame...even though it is legal we know inside that it is just wrong.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Life begins at conception that child has a spirit and a destiny. It is not up to man or a group of people to decide whether an unborn child should live or not.

3. What type of abortion was performed?

First trimester

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I went to the County clinic and was told that I should have an abortion. They never discussed adoption or anything else. They told me where to go for the abortion, when to be there and the name of the doctor. (DR. CARLTON)

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told nothing other than how to get the money to pay for it.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Unknown names -

9. How has abortion affected you?

I was unable to have biological children. I have thought about it for the past 34 years. Was it a boy or a girl, how old would he/she be. What would he/she be like. It is devastating. I wish someone had told me than what it would be like for the rest of my life.

10. How has your abortion affected others in your life?

I don't know.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT!!! It will change your life; it will change how you look at yourself. The life of a child is more important than anything else.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I would tell them that, if laws can be made to prevent secondhand smoke in buildings to protect the individuals inside than laws should be created to protect the life of the unborn child residing in the mother. The unborn child has no voice and someone needs to speak for them. God did not create life to have it snuffed out before it has an opportunity to live. I have a son and a daughter now. Both I adopted. I can not imagine the world without them and yet they might not have existed if their birth mothers had chosen abortion. The right to life is for all.

9. How has abortion affected you?

Before the abortion I was self destructive from an abusive childhood. But after I became even more self destructive. The guilt and shame was so much. I started doing drugs, which I thought I'd never get into.

10. How has your abortion affected others in your life?

My younger sister took it really hard. I haven't discussed it much with my family.

11. Based upon your experience, what would you tell a woman considering abortion?

To really consider adoption. I'd tell her the truth about the emotional baggage that comes with it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it doesn't make women free, it places such a burden of pain and guilt. That even if they believe life

doesn't begin till we take our first breath, we all were a "fetus" once and wouldn't have any freedom of choice if we were aborted.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of Shasta

My name is Heather Sparks. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Chico CA

09/17/2000

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

Two Day with seaweed sticks

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was young Only 17 yrs. old and they did not tell me everything that they would have to do.

5. Were you adequately informed of the consequences of abortion?

Yes No

They never told me of the mental and spiritual affects it would have on me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My family, my father, sister ect.

9. How has abortion affected you?

I started having panic attacks after my second pregnancy. My son was born and I was depressed and always anxious. I thought something was wrong with me mentally.

10. How has your abortion affected others in your life?

No others were affected by my decision. Everyone told me it would be the best thing for me. I was raped at the age of 16 and I was doing drugs at the time. I had no idea I was pregnant until I was almost 4 months along.

11. Based upon your experience, what would you tell a woman considering abortion?

I regret having an abortion every day of my life. I remember laying on that cold hard bed with no one to comfort me and remembering the sonogram picture of my baby. They could even see the sex. The awful sound the vacume made as they were sucking out my baby stays with you. Thank God for the P.A.C.E program. I have been forgiven and set free but oh to only take back my desicion, Adam would still be here with me. Some where a long the way your abortion will come back to haunt you and you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I feel that abortion should not be legal. I think that adoption is the best answer to unwanted pregnancy. Abortion is not only physically dangerous but mentally, emotionally and spiritually. You will be creating more health problems in the United States. Every life deserves a chance. The baby is a baby even in the first days of your pregnancy not just an egg. Were you just an egg in your mothers womb or were you a baby? Would you have wanted to have a chance at life? Please I would take it back in a second if I could because now I see the everlasting affects it has on not just me but my friends and family as well who have had one or know someone who has. Make abortion legal puts the message out there that it is ok to kill. For anyone out there who has had an abortion or is thinking of having one or more. I strongly urge you to look into it first. To think about the outcome and to educate yourself in all aspects. There is a wonderful PACE program out there to help with the healing of abortion and all the pain that comes with it.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of Shasta

My name is Jaclyn LaBarbera. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Martinez CA

05/16/1999

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction Curettage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that my baby was the size of a crumb of toast. I was not told that my baby had a heartbeat, movement or anything else.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no one to tell me what would happen after. There was no one to help me deal with the horrendous guilt and pain (physical and emotional) I felt immediately after the abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents.

9. How has abortion affected you?

I have two children that I have never got to hold, nurture or love. Abortion lead me down a long hard road of drug abuse and self hatred. Abortion is a lie. The decision for me to abort was in both instances made from a place of fear. I was never given the chance to make an informed decision.

10. How has your abortion affected others in your life?

Abortion took two siblings away from my three children that are alive and well. It robbed them of a relationship and an opportunity to grow in ways only their two siblings could have helped them grow. Abortion took two grandchildren from their grandparents and left empty places in their hearts.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not buy into the lie of abortion. Fear is not truth. There is hope, there is a way and there are people to walk with you and help you find your way! When you choose abortion all other choices are gone.

After it is done you nor your child will ever have another chance to choose anything with regards to their life. Abortion at first seems an easy way out, but it results in death, which is dark and hopeless. Abortion is the most selfish thing you can do. Life is full of hope and choices and there are people who can help you find that hope.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion takes away a human beings right to life. Abortion takes away every right a human being will ever have. Abortion is not freedom it is death. These children have every right that the mother has...why are their rights laid to waste? There is no unwanted child....ever!

10. How has your abortion affected others in your life?

I had trouble trusting men , going to the doctor..

11. Based upon your experience, what would you tell a woman considering abortion?

Dont do it...It changes you...You will never forget. When i got married and was pregnant with my wanted child ..it brought back memories of the child i aborted ...I could not look at my sonograms..cause i realized then that it was a life i took..

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would ask them..if it is just a tissue and it is not life..why did i feel so bad..why did i have dreams of my child..why did i just not forget and move on..??Why did evey year after the abortion i remembered

the month i had the abortion after 25 years....why did i remember every year how old my child would have been? WHY did i feel so depressed and guilty even though i was pro choice at the time?Why did each time i was pregnant with my wanted children i always felt guilty about the one i aborted? Why did i feel like a part of me died with my aborted child that day?

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Suffered from extreme anxiety attacks for years, denial, depression, loss of self worth.

10. How has your abortion affected others in your life?

Kept it a secret until about 8 years ago. People were shocked and hurt for me.

11. Based upon your experience, what would you tell a woman considering abortion?

I have tried to talk people out of having abortions because of my experience. I have been successfu.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The long term ramifications of such a decision are life changing. Women who have had abortions should be able to tell their stories. Women considering abortion should hear the whole truth before making such life changing choices.

The State of CA

County of Kern

My name is Paulette Williams. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Bakersfield CA

10//1970

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

DNC

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I question the word adequately... yes, I knew it would terminate the pregnancy but I don't think I fully understood what that meant.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was 18 years old at the time and I didn't understand the lifetime consequences or even that it would be considered a sin in the Christian church.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents felt it best.

9. How has abortion affected you?

It has devastated me. There is not a day in my life that I don't feel the guilt or wish that I could undo what can't be undone. I was engaged to marry the father and one week from the wedding I had to call it off because I just felt as though I couldn't live with what I had done and then have it be for naught.

10. How has your abortion affected others in your life?

It hasn't affected others in my life because I suffer this quietly. It has cheated my other two children out of a sibling.

11. Based upon your experience, what would you tell a woman considering abortion?

I would recommend she not have the abortion. If life circumstances are such that she is not able to care for the baby properly then my suggestion would be to look for a family member to adopt the baby and if that wasn't possible then look into open adoptions. It is too difficult on a child who later wants to

know where he or she came from.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should only be legal if a mother's life is in jeopardy or in cases of rape. There are too many other forms of birth control available and abortion should not be one of them.

2. How many weeks pregnant were you?

3

3. What type of abortion was performed?

under anesthetic- so I'm unsure- I think it was suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Well, I was informed in a sterile way. No talk of a living being or any side effects. They acted more as an understanding friend helping me through a bad time

5. Were you adequately informed of the consequences of abortion?

Yes No

None!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Profoundly

10. How has your abortion affected others in your life?

It's difficult to know.

11. Based upon your experience, what would you tell a woman considering abortion?

ANY CHOICE IS BETTER THAN AN ABORTION. IT IS'NT A COICE AT ALL....IT'S A SENTANCE

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would plead with the court to do WHATEVER THEY COULD DO to change thier position(as it stands now),so to now protect and guard (really ALL PEOPLE)- From these life long sentances paid with guilt, anxiety,deep pain, internal conflict and sadly lack of self worth- That I believe stems Directly from abortions.I know it has greatly affected me in all these areas and even more not listed here, from

my personal and ongoing experience.

QUESTIONS

1. Where and when did your abortion occur?

Denver CA

2. How many weeks pregnant were you?

3. What type of abortion was performed?

Aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They gave a video of the procedure only, but it was hurried and a blur. We sedate you, we dilate the cervix, etc...They had me sign something, I think, but I just wanted it to get over with it. I remember feeling like I couldn't ask questions.

5. Were you adequately informed of the consequences of abortion?

Yes No

The never shared that it was a life I was ending. They told me it was a safe procedure and would not cause any problems.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

father of child

9. How has abortion affected you?

I spent years of shame and carried the "secret" without being able to grieve the loss of my child. I felt duped by the father, the medical staff etc. I spent years being sexually active in a destructive to my self-esteem and spiritual life way. I used alcohol and relationships to fill emotional voids. I reacted in ways I didn't even know could be linked to my abortion.

10. How has your abortion affected others in your life?

I was secretive and cautious. A bit clingy. Later, after having a family and telling my teenage girls, I realized I robbed them of a brother they have always wanted.

11. Based upon your experience, what would you tell a woman considering abortion?

It affects you. It is killing another human being and that's unnatural, it is not how we are created. The

"choice" you made was when you had unprotected sex, not if the child should live or die. They are in your body, but it is not like they are a leg or ear or liver...they are a created being. If it was the result of rape (which is very rare) it is still a human life and deserves to live a life (there are so many who desire to be parents.) Abortion should never be a consideration.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe that if I had been pre-Rowe/Wade this tragic, horrible experience in my life wouldn't have happened because it wouldn't be so available. One would argue that if a woman wants one, they will seek it out...that is probably true, but gun laws don't keep criminals from getting guns or drug restrictions from addicts...but they help keep the majority out. Making it illegal would prevent some deaths from occurring. It would have my child.

my boyfriend at the time

9. How has abortion affected you?

Knowing that I killed an innocent baby tortures me. I am deeply saddened when I remember what I've done and who could have been here if I hadn't made that mistake.

10. How has your abortion affected others in your life?

Although my boyfriend at the time wanted me to have the abortion it changed our relationship and we were both sad and drifted apart.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her not to go through with it. Just because it is legal does not make it right. It will put you through the worst kind of depression you can go through knowing that you can never go back and undo the damage that has already been done, not only to the baby but to the woman as well.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say consider not just the consequences that women suffer after having an abortion, but also the

lives of the unborn that only have the voice of the court to protect them.

My name is Bonnie Alvarado. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Fairfield CA

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Their emphasis was that the abortion was the quick solution.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never told how it could emotionally impact me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has changed my entire life. I was a completely different and withdrawn woman after the abortion. I reached the lowest time of my life immediately following. Through the desperation, guilt, remorse, regret, depression, anxiety, I found Jesus, who was able to make me new again.

10. How has your abortion affected others in your life?

It hurts my children to know that they have another sibling they've never met. My life was tarnished by abortion. It now is a factor that helps me to help others the same profound way that I found help.

11. Based upon your experience, what would you tell a woman considering abortion?

It is the single, worse decision that they could ever make. That there's no turning back. That God knew their little one before they even conceived, and that their little one was created with a purpose and a destiny.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Open your eyes! Abortion leaves a trail of devastation! To the woman, to the man, to the siblings,

grandparents, etc. How can one continue to stand for the approval of murdering your very own child?

QUESTIONS

1. Where and when did your abortion occur?

NY

//1981

2. How many weeks pregnant were you?

3. What type of abortion was performed?

vacuum aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I received no information about what was about to happen to me. I was given no information about alternatives, like adoption.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was given no instructions about what to do if I had complications. There was no information about possible physical or emotional consequences. I had no physical, but I suffered emotionally.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my fiance

9. How has abortion affected you?

For the 28 years following my abortion, until I found healing, I made one bad decision after another. I abused alcohol. I became overly promiscuous. I shut myself off emotionally. I would not allow anyone to get too close; I did not trust anyone. I was unable to enjoy intimacy with my husband until I found healing.

10. How has your abortion affected others in your life?

It has affected my husband because it hindered our relationship. We spent many years fighting. We tried marriage counseling. We were able to put all of this behind us after I had looked at my abortion for what it was and what it did to me.

11. Based upon your experience, what would you tell a woman considering abortion?

I am very pro-life, but I would not focus on the unborn baby because that woman is also very important and valuable. I would share with her the psychological consequences I faced. I would share with her the

stories of the many women I have led through abortion recovery classes. Each woman experiences and suffers uniquely. All women need to know about the physical, emotional, and psychological consequences.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

First, I would tell the court that women need protection. Abortion is so touted as the best, most acceptable decision concerning an unwanted or unexpected pregnancy, that women are many times forced to have one. Society in general does not understand the consequences of this decision. I believe if it did, women would receive the support they need to keep their babies. I would also tell the court that an unborn baby is not a part of the woman's body; it is a unique human being. This unique life must be recognized as a life. I would also share the consequences of my abortion. I would tell the court about the abortion recovery ministry I lead and of the women who are suffering in silence. Lastly, I would remind the court that I don't have millions of dollars to push my agenda. Nor do I stand to make large amounts of money, unlike agencies that push for abortion. I simply know the truth. If the court would take the time to fully educate itself - seek truth and not accept studies paid for by pro-abortion agencies - it would better understand my position. If all the truth was made available, a great many people would change their opinion about abortion.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of Madera

My name is Jennifer Kapur. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Fresno CA

07/10/1980

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one in the clinic explained to me the procedure, the consequences, or offered me alternatives. I called, made the appointment with no questions asked.

5. Were you adequately informed of the consequences of abortion?

Yes No

It was an assembly line process, get them in and get them out. Not one staff member took an asserted effort to offer me any information on what physical, emotional, mental, and spritual ramifications I could expect after my abortions.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend at the time.

9. How has abortion affected you?

I fell into a deep depression, self loathing, I hated myself for what I had done. I started drinking, using drugs, lived a permiscuous lifestyle for twenty years. One broken relationship after another paved the road behind me as I had no self worth. My weight became a lifelong issue as I tried to hide behind it like a blanket of shame. I was consumed with guilt, regret, grief, despair, and contempt for myself. Yes, it's affected me.

10. How has your abortion affected others in your life?

My family has watched me suffer emotionally and physically for years, with no knowledge as to why I was in such despair. I would come up with excuses to not attend events that involved children being there, turn down babysitting opportunities with friends, feel left out because I don't have children. I went

through a period of hiding myself. I don't have any trust in men and feel that another relationship would lead to more hurt.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. There are other options available, options that you can live with for the rest of your life. Abortion is a dangerous lie told that will tare away the beautiful person God created in you and the wonderful blessing of His creation in your child. Let me help you make a decision that you and your child can live with.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Take a look at Russia and the consequences they are now suffering because abortion is the number one source of brith control. Take a look at other countries who treat human life and women's bodies as commodities rather than with a moral sacridness it is so deserving. When we remove the sanctity of human life from our value system we become barbarians who defile the very image of God, what this country was founded on, who human life was imaged after. We become like those who hung Jesus on the cross visously and we will then pay dearly for our crimes against humanity as we all will be held accountable in the highest court of all before the greatest Judge of all, GOD.

2. How many weeks pregnant were you?

18

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that it is a 'blob of tissue' and not a baby. They never informed me that I was killing a baby who had life.

5. Were you adequately informed of the consequences of abortion?

Yes No

They never explained the aftermath. Abortion brings a lifelong guilt that creates anger and can lead to emotional problems.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father of the deceased

9. How has abortion affected you?

It has destroyed my emotional health. I suffered from depression over the guilt of my unborn children.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her what God teaches about Life in the Bible. I would tell her about Jesus Christ. I would tell her she can choose adoption or other resources, but NEVER abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would look at the judge straight in the eye and say, 'abortion is THE BIGGEST LIE'.

HOW MY ABORTION AFFECTED ME

The State of CA

County of Ventura

My name is Barbara I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Hollywood CA

03/05/1985

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

I do not know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Nothing was explained. I went in, filled out the paperwork and the abortion was performed. There were very few words spoken between myself and the clinic.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nothing was explained to me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

After the abortion I had feelings that I just wanted to die. I felt a tremendous amount of guilt. I ended marrying a physically abusive man because I felt no 'good' man would want me. I think about the child I aborted everyday.

10. How has your abortion affected others in your life?

They have suffered through my depression and feelings of worthlessness.

11. Based upon your experience, what would you tell a woman considering abortion?

I would give them other options (adoption or raising the child themselves). I would explain that no matter how much they think they could not raise a child they can or someone else could. I would explain the mental pain that never goes away once you have an abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

In today's day and age with so many birth control options out there that abortion should not be one of them. We are killing children...who have a right to live.

1. Where and when did your abortion occur?

San Gabriel CA

04/02/1990

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

There were no explanation what an abortion can do to me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

The guilt and shame.... everyday I am thinking when things are not right, it is the punishment of what I did. I am so scare of the health effect now that I am older. Will I get cancer, or some kind of illness as my consequenses of my abortion

10. How has your abortion affected others in your life?

None... Noone knew about it.

11. Based upon your experience, what would you tell a woman considering abortion?

It is extremely difficult to face the facts and people around you when you have an "unwanted pregnancy". It is so easy to just get rid of the "problem". But the consequences of abortion is so much harder to bare than accepting the responsibility of carrying out the pregnancy. It is not the end of the world. It is a great opportunity to grow up and to build the character which I lacked at the time. Abortion is easy, pain free, and relatively cheap. But this easy way out of your problem is as much a easy way to step into the guilt for the rest of your life. I know God has forgiven me but the cloud is forever in my head. And for that I wish I had carry the pregnancy through and given him up for adoption. I didn't have the courage and the character to do then, I pray that the woman now facing the "problem" can rise up

to the occasion and do what pleasing to God.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I don't know how the court can define killing a human being is legal.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of San Diego

My name is Christiana Brotherton. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Arcadia CA

07//1979

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that I would be terminating a product of conception. I was not told about the development of my baby. I did not discover the truth about his heart, etc. until I was enrolled in a biology class in college a year later.

5. Were you adequately informed of the consequences of abortion?

Yes No

Absolutely nothing was mentioned about the consequences of abortion. I found out the hard way.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I was unable to conceive; but my abortion affected me psychologically even more. I stopped going to church, made new 'friends', I believed I was unlovable, unworthy of being a mother (or respected in any way), my husband and I legally seperated...

10. How has your abortion affected others in your life?

I have no idea how many people were truly affected. Not only was my husband & I deprived of our only biological child & the children he may have had... Our parents were deprived of grandchildren, great-grandchildren...our sisters were deprived of nephews and neices... our nephews & neices were deprived of another cousin...& on & on. It also affected my relationship with those people.

11. Based upon your experience, what would you tell a woman considering abortion?

Having an abortion will 'cost' them much more than they could or would ever want. It is not a solution for anything. It will be with them their entire life. The consequences of their decision is 'life or death'.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

My abortion was performed for what was considered health reasons, but no matter how or why an abortion is performed it is ultimately a death sentence for at least one human (the innocent baby) & it is also extremely - sometimes permanently damaging to the woman.

HOW MY ABORTION AFFECTED ME

The State of CA

County of Tulare

My name is Ruthann Doyle. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Fresno CA

11/05/1983

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Suction Aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

All I was told is that they would take care of the problem quickly and then I could go on with my life.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no discussion about the procedure or possible consequences what so ever!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The nurse at Family Planning.

9. How has abortion affected you?

After keeping it a secret for many years, I eventually ended up a homeless drug addict and having a second abortion 15 years later which almost brought me to commit suicide if it weren't the grace of God and a praying mom.

10. How has your abortion affected others in your life?

Two marriages, three siblings, parents, friends, but most important are my children alive on earth. Because of the choice I made and the consequences that resulted from my decision, there was a lot of hurt and pain that was not dealt with properly and caused additional pain and grief.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! You will regret it! There are no short cuts in life and you can never bring them back. You will have to live with it for the rest of your life! God has already forgiven you but you will have a very difficult time forgiving yourself! You will have a void in your life and have a hard time seeking any post abortive recovery. It will cripple your future.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That unless you have had an abortion yourself, you don't understand the emotional trauma that a woman or man lives with in silence. It is morally wrong. The decision you make should be between yourself and your Maker and family if you are underage. There should be more education on what the consequences are from having an abortion and offer alternative options like adoption. Abstinence should be taught instead of safe sex. Girls should be taught how to have higher self esteem and not look to boys to be approved of and then coerced to have sex with them. Abortion kills not only the baby, but the mother of the unborn child, too!

QUESTIONS

1. Where and when did your abortion occur?

Los Angeles CA

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

D&C suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I found the name of an abortion provider in the phone book, made the appointment, paid the money upon admission, was placed in a room to change clothes, and then I got on a gurney. It was not a 'private decision between me and my doctor'..or with anyone for that matter. I don't remember if they ran a pregnancy test, but I had already done one through another clinic. I only saw the doctor when I was put on the surgical table. After the procedure I was recovered in a room with others, and over a period of time they released me with some paper instructions.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one counseled me. I just paid the fee and the procedure was scheduled.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I had been a Christian for a number of years and was married and had given birth to two children. Throughout the pregnancies that I had carried to term, I felt sadness and regret for the one that was killed. Once you carry a child to term, you are more aware that the child you killed was a unique individual that you missed the opportunity to know. I only assumed God had forgiven me when I had become a Christian years earlier. When I had a miscarriage after the first two children were born, I experienced such deep anguish that it shocked everyone. It was at that point I had to really REPENT of the abortion I had years before and not just assume I was forgiven. After that, I felt a release. But there still are tears and sadness to this day since I'm always mindful of the child I never got to meet. I am not able to tell my children of their dead sibling to this day.(it was my husbands child too) and I live in fear

that they will know my secret some day. I also discovered years later that there was evidence that at one time I had pelvic inflammatory disease, most likely from the abortion. I am grateful it didn't affect my ability to bear children after that.

10. How has your abortion affected others in your life?

My husband is ashamed about it and doesn't like to speak of it. It is one area we cannot share about with each other. This makes me sad because he is denying the existence of a child we created together..a real person - that I want him to acknowledge. My children do not know I killed their sibling and it causes anxiety when I think they might find out. I am strongly proLife, but I am not able to express why or be as candid with others in front of them because I don't want them to know even though they are adults now.

11. Based upon your experience, what would you tell a woman considering abortion?

They will ALWAYS be a mother; either the mother of a dead baby or a live baby because they know instinctively they carry a LIFE inside of them. Killing their child does not 'fix' the difficult situation they find themselves in, but only adds more burdens to their life. Regret and remorse can be replaced by doing something they can be proud of one day - giving LIFE to a human being. In spite of their hardships, they might experience, they will feel a sense of pride and satisfaction in doing a selfless and solemn act..giving LIFE. It is what their body was created to do...that is why women have ovaries and a womb..to give life. The act that got them into the situation might have been a mistake, but the CHILD is never a mistake. Killing that life only brings remorse and pain and is not a solution to their problems.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Babys die violent deaths in abortion, having their limbs torn off and bodies sucked apart. If we believe we can kill the most vulnerable and helpless among us in such a way, we are barbarians. Abortion is not a legal issue, not a woman's issue, and not a political issue. It is a HUMAN issue. When we respect life at all levels, we are respecting humanity and elevating our culture. Nothing good comes out of death. ONLY pain and regret for all it touches.

Absolutely not. Additionally, no other options were presented to me. It was presented as a perfectly simple, easy way to do away with an inconvenient problem.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend

9. How has abortion affected you?

I still think about it almost every day. I ache in my soul, although I know that God has forgiven me. I worry that my children may one day make the same horrible and devastating decision without being aware of the lifelong pain it will cause. I had three miscarriages and I wonder if they were somehow correlated to the abortion.

10. How has your abortion affected others in your life?

I really think that the pain in my deepest being is a result of this, and I often feel depressed. I think that it may have robbed me of a lighter-hearted joy in life that I just don't feel.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT! Choose adoption if you cannot keep and care for the baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

They are out of their minds and living under the influence darkness.

1. Where and when did your abortion occur?

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I didn't want to know. I didn't ask questions, they didn't offer information. I never even had a pregnancy test and to this day I'm not sure that I was even pregnant.

5. Were you adequately informed of the consequences of abortion?

Yes No

Not once did anyone tell me it was a baby nor did they tell me that I might live to regret my decision. They did not offer alternatives. They didn't even make sure that I was pregnant.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

After my first abortion at age 26, I became very promiscuous. I eventually had 3 abortions all without ever having a pregnancy test. At the first sign of a missed period, I would head to the abortion clinic. I think I hated myself for what I had done and felt I didn't deserve to be happy. So I'd find ways to hide my pain: drinking, drugs, sex.

10. How has your abortion affected others in your life?

My husband and I have never been able to have our own biological children. Until my 40's I suffered with the guilt. In my 40's I became a Christian and then pro-life. I was able to forgive myself because God has forgiven me. But I will never ever forget what I have done. And I've never told my husband or my adopted children. My abortions are a secret that I carry alone.

11. Based upon your experience, what would you tell a woman considering abortion?

I have many times offered women whatever help I can to keep them from aborting. From sidewalk

counseling, to sitting in front of abortion clinics, to volunteering at crisis pregnancy clinics, to taking women into my home. I would tell the woman that she will live to regret her choice of abortion so please let me help her make another choice.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that abortion kills a human being in its most vulnerable stage of life and that abortion damages the woman's soul. I would tell the court that we are better than that - that we should offer hope, not death. I would tell the court that there are countless millions of people walking around our cities hurting from the pain of abortion and that is not good for a country.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one shared with me the post traumatic distress symptoms that I have suffered from.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Lowered my self esteem and actually caused me to start a class that helps other women who are suffering to keep them from committing suicide and substance abuse.

10. How has your abortion affected others in your life?

It changed it completely.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her she is valuable and the child she carries is valuable. Whatever sacrifice or fears someone have, they are temporary-the joy of a child is everlasting. The relief of an abortion is only temporary but the pain is everlasting.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would be them to value women and children so they can value themselves. If someone is seen as dispensible by our community they will see themselves that way as well.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of El Dorado

My name is A S I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Roseville CA

05/28/1990

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

in office, local anethstisia

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

consequences were never discussed. No pamphlet was given to me regarding grief counseling or anything of the sort. I was young and impressionable and this was the impression that the Govt. left on me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

mainly my parents and the birth fathers parents

9. How has abortion affected you?

I got married at 22yrs of age, eager to start a family. But something in the back of my mind kept lingering. The guilt of knowing I was going into a new lifestyle the hope of wanting to start a family but knowing after having aborted my first I didn't feel it was fair to give life to other children if I took the life of another. I am now 35 yrs old and have yet to have children. I also have endometriosis (endometrial lining of the uterus grows on the outside instead of the inside attacking the surrounding organs). I wonder if my abortion could've contributed to my illness.

10. How has your abortion affected others in your life?

My husband is not the birth father from my abortion. I can't help but think that he feels like he's missing out on becoming a father, not just because of his infertility but had I not had one my daughter would've been raised by my husband since the age of 2. I met him 3 yrs. after my abortion and feel like it was our only chance of being able to be parents. He mourns with me, because he knows the regret and

pain I go through. Also, I feel like the guilt and shame of it all my dad took upon himself. Especially with us not being able to get pregnant I saw the impact it took once I turned 30yrs. He even told me before he passed away from cancer that he would be answering to God for that decision not me. I can't help but also feel that cancer took over because of my dad's regrets.

11. Based upon your experience, what would you tell a woman considering abortion?

Always go back to the Bible. Life is life. No one has the right to tell you any different. If someone handed you a weapon to wipe out any of your mistakes would you use it? I never saw it this way when I was younger. But I now realize the Govt. has handed you a weapon to weild against your own flesh. If you don't want the baby there are other options that don't put you in the position of being blood guilt. There are options for giving your child up for adoption where they won't have to be raised in foster care. There are millions of childless couples like me, waiting for the opportunity to become a parent who cannot conceive.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

My first question would be,What purpose does it serve? Also, why is that a mother with extreme post-pardom smothers her baby or shaken baby syndrome at the tender first months of their lives is taken. Why would you spend states \$ on prosecuting that, but on the flip side give someone a license to kill. It's contradictory & hypocritical.

My name is Nancy I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Northridge CA

06/10/1985

2. How many weeks pregnant were you?

2

3. What type of abortion was performed?

Vaginal

4. Were you adequately informed of the nature of abortion, what it is, what it does?

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I just wish I never had been involved with some at 16 and had to make a the decision of terminating the pregnancy, but I was not capable of taking care of a child. There should be more real talk in school with girls and boys about the effects of having sex, getting pregnant and the responsibilities that come from making a simple impulse decision. Adults tell you not to have sex, but they don't share their experiences or the consequences. We should be more open with teens and let them ask questions without it being taboo. I also wish girls understood they have the power and the responsibility to say no and wait. Boys shouldn't pressure girls by saying if you love me, then you have sex with me. It is just wrong and the consequences could be a life. You never forget and keep it with you always.

10. How has your abortion affected others in your life?

It is not something you really talk about. My husband knows and he understands. I had to learn to forgive myself and ask God to forgive me.

11. Based upon your experience, what would you tell a woman considering abortion?

Think about the consequences and see how many couples cannot have babies and consider giving it up for adoption. Ask all the questions you can before you make the final decision. God gave us free will, but it also what to do what is best for the baby. Remember it is a baby and it is a life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If abortion is legal, it will become a form a birth control. This is not the answer to the larger problem. We need to understand teens and help them look for other alternatives that having sex to fit in and be accepted. We need to teach girls to have the courage to take care of their body and treat it like a precious diamond that you wouldn't give away to anyone. We need to teach boys that guilty girls into have sex is wrong and they need to take just a much responsibility because they help make that baby. As parents we need to willing and have several conversations with our kids about this and be open to listen and answer questions. It starts at home and should be a law.

HOW MY ABORTION AFFECTED ME

The State of CA

County of Placer

My name is Barbara Riggs. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Phoenix AZ

10//1978

2. How many weeks pregnant were you?

15

3. What type of abortion was performed?

Vaccum extraction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that at 15 weeks what would be removed was a small wad of tissue.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed that I could develop accute endometriosis,adhesions,infertility. All of which I have.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My in-laws and the Doctor that I was sent to.

9. How has abortion affected you?

It has left me physically & emotionally scarred, in physical pain, and post abortion childless. While waiting for my turn, I told the nurse that I had changed my mind and DID NOT want to go through with the abortion, she quickly administered the anesthesia and the abortion took place. After the procedure I asked the nurse why, after I had stated that I did not want to proceed, it was done anyway. I was told that I came in for an abortion and that is what I received, that I had signed the authorization and the only reason I wanted to back out was that I was afraid of pain. She also stated that this "happens alot".

10. How has your abortion affected others in your life?

It has taken away any chance my husband would ever have to be a father and my son to have brothers and sisters.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion not only takes the life of a child, it has the very real potential to take away any chance you would ever have to some day me a mother. All life is precious. Please do not buy the lie that abortion is

safe and that the child in your womb is only tissue. The heartache of abortion is REAL and it will come, and it is devastating. If you feel that you cannot give your child a good home, please opt for adoption. There are so many couples that cannot have children, please give them the gift of life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion not only destroys the life of a child, it also destroys the physical and emotional life of women. As a woman who has had an abortion I know first hand the damage it causes. The physical pain I live with every day is a constant reminder of the child I do not have in my life and any future children I could no longer have due to the acute and chronic uterine disease that has been directly linked to my abortion. The emotional pain of abortion is as real and agonizing as the physical pain it causes, the feelings of guilt and remorse are overwhelming. I beg you to end the holocaust of abortion. To end the physical and psychological damage to women and the death of innocent children.

//1992

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I have had to abortions and no one ever explained a thing. I just called said I wanted an abortion and they gave me a price and I went in and they collected my money & performed the murder of my first & second child. I never knew how developed my children were. I was young 16 & 19. I have never been the same!

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never informed!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I will never be the same! I don't stop thinking of what I have done to my innocent babies. I am married now for 9 years & we have never prevented a pregnancy & I have not gotten pregnant!

10. How has your abortion affected others in your life?

It affected both the men that the babies were from and it affects my husband now when he sees me sad and crying from regret of the choice I made.

11. Based upon your experience, what would you tell a woman considering abortion?

It will change her life forever. She will never forget what she has done. The guilt & shame are there. It might seem like swept under the rug as they say, not seen, not heard, just forgotten, but that is a lie that she will never forget! It will affect the mother, the father, unborn child & family & friends. There is no escaping the pain of have your own child murdered.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Our society is partly failing because of all of the murders that are occurring on a second to second basis. This innocent bloodshed must stop!

HOW MY ABORTION AFFECTED ME

The State of CA

County of San Diego

My name is Julie I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Orange County CA

//1987

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Saline---They used a suction machine and drugged me with Nitrous Oxide (Laughing Gas)

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was never told of any of the affects of what the abortion actually would do to the baby, or how it would cause my pregnancy to end. I was only told that the pregnancy would be terminated and that it was a "safe" procedure performed by a licensed, practicing Medical Doctor.

5. Were you adequately informed of the consequences of abortion?

Yes No

They never informed me of any real dangers that having an abortion might cause, i.e. infection, infertility, or even death, and never addressed the profound emotional pain. They only said that I was to drink orange juice and eat some crackers after the procedure, and that I could go home if I wasn't experiencing any dizziness---things along that line.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend; the abortion clinic supported him.

9. How has abortion affected you?

It has been over 20 years now, and I still find myself crying about it. I am always filled with the regret that I wasn't strong enough to stand up to the outside pressures and choose life for my baby. I regret that I didn't seek out more counseling before making my decision to have an abortion. I hate myself sometimes--there are days I want to end my life.

10. How has your abortion affected others in your life?

One family member and two friends know, but feel that it is in the past and that I should just leave it there and get on with my life. I thank God for Rachel's Vineyard as they have helped, and are helping

me process my profound deep sadness, emptiness and regret I always feel inside by having had an abortion. The father of my unborn child has also expressed feelings of guilt and regret and is so sorry for not "doing right by me and our child". This is a statement he made directly to me and as recently as 2 years ago, so those feelings of sadness for those of us who have been forever scarred by an abortion never go away.

11. Based upon your experience, what would you tell a woman considering abortion?

I would definitely tell her not to go through with it because of the profound and devastating effect this one selfish act does to your feelings of self worth, and to your soul. I would urgently counsel her to seek guidance from members of the clergy, and other experienced pro-life professionals that offer solid alternate choices that will support her and the life of her child--not abandonment and death.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would begin by saying that they don't know the first thing about what it feels like to rip a living child from its mother. I would tell them that pregnancy is a gift from God, and to destroy that gift is a sin against God and a sin against mankind. I would tell them that our job as citizens of this world is to defend and protect life, not to destroy it. And I would ask them to consider why we work so hard to support medical advances that save lives on the one hand yet on the other are so ready to dismiss the right to protect and defend the life of an innocent unborn child. Finally, I would ask them to ask themselves that if we are truly the nation we say we are, one that stands up for those that are innocent, why is the question of abortion even allowed to be debated at all in our courts, for this is a death sentence without a judge, jury or trial. WE MUST BE THEIR VOICE FOR THEY CANNOT SPEAK FOR THEMSELVES, AND WE MUST PROTECT EACH AND EVERY ONE OF THEM FROM BEING DESTROYED AND SLAUGHTERED--BEING PUT TO THEIR DEATHS LIKE SACRIFICIAL LAMBS!

QUESTIONS

1. Where and when did your abortion occur?

Sacramento CA

02/22/1971

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It was done in a hospital. It was called a 'therapeutic' abortion. I was 19 years old and was not told of any choices by medical staff nor the procedure they were going to perform.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was only told it was 'therapeutic', no consequences were ever mentioned. No care instructions for afterwards were given.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I immediately went into a deep crying and did not know why. I felt like I was slipping down a slope. I have had lots of anger and deep emotional complications that has effected how I have devalued myself, a very hard marriage and unhealthy relationships with my children.

10. How has your abortion affected others in your life?

My parents were wounded, my husband was the receiver of lots of anger, my children were raised with lots of fear of my letting go of them.

11. Based upon your experience, what would you tell a woman considering abortion?

The pain and effects never go away. There is no joy, it is not an answer to your situation. Adoption would allow you to give life to a child and joy to a family. Also you may get to have a relationship later with your child when your life would be so blessed by him or her.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

This is saying death is an answer, a permanent solution to a situation that has other answers that would bring life and joy to others.

My name is K S I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Sacramento CA

11//1970

2. How many weeks pregnant were you?

3. What type of abortion was performed?

Dilation & Curretage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

5. Were you adequately informed of the consequences of abortion?

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I was 20 years old when I had my abortion. From the moment I woke up from anesthesia, I knew I had done something terrible - I had killed my own baby. It took me TWENTY YEARS to get past the guilt and shame, and I recovered when my spiritual mentor, a devout Christian woman, asked me during a period of time that I was having panic attacks, "Kathy - did you have an abortion?" I had never told her anything about it. I admitted I had, and she explained to me that God had completely forgiven me because of my relationship to Him through Jesus Christ. After twenty years of self-torment, I was free.

10. How has your abortion affected others in your life?

Now when women tell me there's nothing wrong with having an abortion, I ask them if they've experienced its trauma. Many have not, and I tell them what it's like to realize you've killed your baby. For the ones who tell me that and they have had an abortion - after we talk awhile, I discover they are grieved and guilt-ridden. I tell them about Jesus and His love and forgiveness of them. Each baby is God's creation.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. There are alternatives.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That abortion is a weapon of mass destruction that we have unleashed upon ourselves, and have been granted the right to do so based on our own selfishness and sexual immorality. Mine was granted as a mental health issue; now, no reason is necessary. I understand how the misguided can see abortion as a right, but that's the problem - we are misguided. It is a scourge that has decimated entire generations. Is that what the law was intended to do?

QUESTIONS

1. Where and when did your abortion occur?

03/01/1987

2. How many weeks pregnant were you?

3. What type of abortion was performed?

not sure of medical term, I believe cut.. and then suctioned out (the date is approximate)

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I think so, at least, I just wanted to get it over with, so I probably didn't listen well

5. Were you adequately informed of the consequences of abortion?

Yes No

guilt, emotional feelings errupted when I saw babies that would be my baby's age

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my own perception of what my parents would think

9. How has abortion affected you?

I know beyond any doubt that I have tremendous guilt and shame because of my two abortions... my two living girls to my knowwledge, do not know. This is my dark secret. In retrospect and in the big scheme of things, there really was no justification for going through with it. Having an abortion was "legal" and because I wanted an easy way out, and I wanted to hide my promiscuous behavior, I made a case for myself to justify doing it. Two sets of parents would have been raising two amazingly beautiful children. The oldest would be 23 and the youngest would have been 9. I think that the support would have been there for me had I chose adoption instead.

10. How has your abortion affected others in your life?

It seems that my guilt affects how I feel about myself and in turn how I react toward others.

11. Based upon your experience, what would you tell a woman considering abortion?

That in the long run the accomplishment of knowing you did the right and noble thing will pay off in your life and I will do whatever I can to support you through this in addition to helping you find professional

help.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That taking the life of someone who is not yet visible on the outside and of one who does not have a voice is murder just like any other crime of murder. There is overwhelming evidence of societal, cultural and personal degeneration because we have devalued human life for so long. What else has to happen ? Who else has to speak up who hasn't already given astonishing personal accounts of the affects of abortion? Do we really need to convince the court of anything more once they are presented with the earliest possible ultrasound proving life in the womb?

5. Were you adequately informed of the consequences of abortion?

Yes No

I initialed a form with a list of dozens of side effects. No one spoke to me about it, but they did have me read and sign.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my boyfriend and father of the baby, Greg Johnson

9. How has abortion affected you?

severe depression, unforgiveness toward my ex-boyfriend, fear of being able to conceive, a deep passion for the unborn, and for women who have traumatized by abortion. I very often refer back to my abortion as a major event in my life.

10. How has your abortion affected others in your life?

I don't know.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! You will regret it forever! It painfully destroys and tortures an innocent life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion destroys the lives of women and kills millions of beautiful and helpless babies. Would you take your helpless infant and dismember him or her? Why do it in the womb where these precious little ones are supposed to be protected and nurtured? Abortion ruined my life.

HOW MY ABORTION AFFECTED ME

The State of CA

County of Alameda

My name is Jennifer Kraft. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Cleveland OH

05/10/2006

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

surgical

4. Were you adequately informed of the nature of abortion, what it is, what it does?

9. How has abortion affected you?

My abortion helped me take control of my life and realize that I am a strong and smart woman. I know that I will have difficult times in my life, and that I will not only be able to handle them but I will grow stronger with each one. My abortion helped me discover how much power I have in my own life.

10. How has your abortion affected others in your life?

My abortion has brought my boyfriend and me closer. We know that we are able to experience emotional and physical difficulties and overcome them together. We know that we can trust and depend on each other. My girlfriends and I are closer since we know each other better having experienced my pregnancy and abortion together. My parents and I are closer since we know that we will be honest with each other and available for each other in difficult times.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell a woman that she knows herself best. I would tell her not to make her decision based on what anyone else is telling her to do, and to give herself as much time as possible to make it. I would tell her that it may be more difficult than she expects, and it may be easier. I would tell her that whatever she decides, she knows best. I would tell her that whatever she decides, she will survive.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell a court that believes that abortion should be legal that both I and the law are 100% behind them.

Afterwards I bled profusely. I was whisked away to an apartment of an uncle of the father. I could not stop crying. I was overcome with grief. I was inconsolable. When I got home I finally called my internist who was totally disgusted with me and no longer wanted to be my doctor. More shame. He referred me to an ob/gyn. I was still bleeding. He treated me and gave me anti-depressants. It took me over 3 mos to be able to even smile. I went thru a depression after I was married and had my son, thinking of the baby I had murdered. It took me from 22 yrs to 42 years before I finally could get the forgiveness I needed. It is murder and no one is exempt from its consequences.

HOW MY ABORTION AFFECTED ME

The State of CA

County of Nevada

My name is Victoria I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Sacramento CA

02/05/1976

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Suction abortion while I was put to sleep

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 17, and I think everyone just assumed I wanted to have an abortion without me mentioning it first. They told me who to call the next day, which I did. On the phone an appt. was made for me. All I was asked was would I like to be asleep or awake? I told them asleep. They gave the abortion time and place and told me not to eat or drink first. When I arrived I taken into a room with about 20 other women, put into gowns and told to lie down on the beds and they would come and get us when it was our turn. I was never talked to about abortion at all, or any other options either.

5. Were you adequately informed of the consequences of abortion?

Yes No

The way everyone acted after my pregnancy test I literally assumed there would be no consequences. They made it all seem so natural.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My school nurse told me it was smart.

9. How has abortion affected you?

I am now 50 yrs. old. I didn't want to have a baby at age 17, but I was going out with the man I did end up marrying later, and we always knew we wanted a large family. Four yrs. after marriage I got pregnant after trying for a year and had a miscarriage. This scared me so badly. I felt I was being punished. Also, during these years I used drugs and drank alot which was something I never did before my abortion. My boyfriend (future husband) lost alot of respect for me, and he too used drugs and drank heavily. We both dealt with feelings of self-loathing, guilt, very low self-asteem. Unworthy of anything good, I thought that's why I had a miscarriage. A yr. later I got pregnant again and went on to have 3 children. In all my

pregnancies I went into labor between 24 and 28 weeks. I was in the hospital a week with the first 2 babies for a week then home in bed for the term of my pregnancy. My 3rd I had early labor pains but was in a high risk clinic and I never went into the hospital. I was told that I needed to make my 3rd baby my last. I wanted 1-3 more. My husband and I hadn't decided on how many yet. But, after my 3rd was born I had my tubes tied. My doctor told me he thought all of my pre-term pregnancy problems was most likely due to my abortion. So, I only got half my family.

10. How has your abortion affected others in your life?

My husband has gone through some very hard times over it, he's blamed me, he's blamed himself. He's hated me and himself. He's used drugs heavily and drank. As our children grew we really saw all that we missed with that abortion and that broke our hearts. I have never told my adult kids, unless they ask me, I won't ever tell them. I am way to ashamed for them to ever know. I know they would be devastated.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to talk to someone about all her options. Someone objective, with no agenda. I would also have to tell her of my negative experience. I would feel wrong if I didn't. I wish I knew at 17 and pregnant what I know now. I wish someone had helped me more.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

A court would legalize abortions believing they were helping women. I would tell them the truth. I have known many other women who have had terribly negative experiences like mine. Some even worse. One who killed herself. Abortion doesn't help anyone. It only kills babies, then those who would have loved them had they had a chance at life.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of San Francisco

My name is Catherine Avenel. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Francisco CA

02//1971

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

With a similar instrument commonly used for "DNA.s" at Planned Parenthood

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was ill from an infection caused from an Inner Uterary device called a Lupe's Loop. The infection was also causing lower back problems. After the removal of this device, I was taking antibiotics for over a month, then at the end of the next month discovered I was pregnant. I was told the baby could not survive without the possibility of suffering from the infection I still had and with the back problems I would not likely be able to carry the baby to term without total bed rest and if I took bed rest the baby had a small percentage of growing normally in the womb. My OBGYN advised an abortion by the recommendation of a DNA, or no choice but for total bed rest for the entire pregnancy. I felt helpless and defeated and after the abortion suffered from nightmares and severe depression for years wondering if my baby suffered, was my baby a girl or a boy. I still wonder.

5. Were you adequately informed of the consequences of abortion?

Yes No

The DNA was recommended to remedy.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My Doctor, saying there was no hope.

9. How has abortion affected you?

I still live with regrets.

10. How has your abortion affected others in your life?

My oldest son was greatly disappointed in me when he learned of the choice I made...I took a position as a director with a Crisis Pregnancy Center for two years to hopefully help women make healthier

choices. I share my experience and the regrets I have had to learn live with as often as I can. Most have chosen life for the child as a result.

11. Based upon your experience, what would you tell a woman considering abortion?

I show them pictures of what their baby looks like depending on the timing of their pregnancy...it says more than words can say.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

There is no situation that can be used to kill a live baby. The baby is an alive human being whether in the womb or out of the womb...it moves,experiences emotions, hiccups, eats, poops, pees, sucks it's finger, grows and killing an alive baby is murder and murder is illegal by the law.

QUESTIONS

1. Where and when did your abortion occur?

Santa Ana CA

2. How many weeks pregnant were you?

3. What type of abortion was performed?

Don't know since my girlfriend had the abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

5. Were you adequately informed of the consequences of abortion?

6. Were you informed of any link between abortion and breast cancer?

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

One of my college girlfriends got pregnant and we decided to have the abortion. I had feelings of guilt and shame. I was afraid that when I got married in the future that my wife would not get pregnant or that there would be something wrong with the baby as a consequence for my willingness to go along with my previous girlfriend's decision. I worried that my future wife, who turned out to be a virgin, might suffer consequences as a result of my decision. I didn't start finding relief until I released it to God and asked for forgiveness multiple times. When my wife got pregnant, I worried throughout the pregnancy about the health and safety of the baby. Both are daughters are healthy. Even though I have asked God for forgiveness, I continue to have sadness at the loss of one of my children and wonder if I will meet him/her in heaven. I cry to think of the life he/she would have had and what he/she might say to me in heaven.

10. How has your abortion affected others in your life?

Only my wife knows. She is sad for the feelings and pain I experience. I have been ashamed to tell my family.

11. Based upon your experience, what would you tell a woman considering abortion?

The emotional scars and questions will always remain a heavy burden on you forever.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion kills a life and leaves physical and emotional scars. I like to ask people - how do you think the 48 million babies aborted would vote on the right to abortions?

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of San Bernardino

My name is Cyndy Melnyk. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Arcadia CA

12//1971

2. How many weeks pregnant were you?

15

3. What type of abortion was performed?

Not sure. Saline, I think

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 19 years old, unaware and ignorant. No one told me anything about what I was going to do. I did not even think of my baby as a baby, just a problem that could be taken care of by abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

For one thing, I was not told that my baby was a real life, a human being. It was not until I was 21, in a child psychology class, reading about the development of a baby in the womb, that I realized with a jolt what I had done -- that I had killed a baby, my baby. I am not kidding, my vision became literally tunnel vision. After knowing what I did, I have experienced guilt and sorrow, which no one ever told me would happen. To this day, 37 years later, I still think of my baby and what I did to him/her. Thanks be to God in Christ for forgiveness. However, it does not take away that I had my baby killed and not only that but killed in a horrific way.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend, at the time.

9. How has abortion affected you?

Remorse that I was so weak and just went along with what I was told to do. I was afraid for a while that I would not be able to have children but God blessed me with motherhood. I still have guilt that I struggle with and wonder if my baby was a boy or girl; I think of how old my child would have been; the life that he/she would have had; how selfish and stupid I was.

10. How has your abortion affected others in your life?

I don't really know. My family knows about it and I think my kids were surprised and think of the baby as a brother or sister that almost was. This is really hard to write and brings up sorrow in my heart. To think that I had the audacity to do that. It shocks even me and is quite devastating when I really think of what I did. I can't even explain the feelings of remorse and sorrow. It seems they are too deep for adequate words.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. Bless a husband and wife who cannot have children by placing your baby for adoption. Give that baby a chance for a life in a stable, 2-parent, mother and father, home. My daughter did just that and while it was hard and painful, it was right. Abortion is the cowardly way out of this situation. I have heard people say that they could never give up their baby for adoption but elect to kill their baby instead. How selfish is that! Murder your baby to spare yourself the pain (however agonizing) of giving him or her up to a mom and dad who want a baby. Unbelievable.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I think abortion should be illegal across the board. The baby is a human being created by God, regardless of the circumstances of conception. However, since I don't think that abortion will really ever be illegal again, I would say that the other victims of abortion, the mother and/or father of the baby, should be fully informed of the status of the baby in the womb. Not a blob of tissue but a developing human being. The parent(s) should be informed of the very real emotional ramifications of killing their baby. They should be told about and encouraged to place their baby for adoption if they really don't want to be parents. The baby is not the problem. The decision of what to do about an unwanted pregnancy is the issue. The babies have a right to live. The parents, in choosing abortion, in my opinion, are acting with the utmost selfishness and self-centeredness. This is probably not what you want but that is how I feel.

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't remember any kind of explanation other than that I would be sedated and what to do when I woke up.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was lead into a room with a councilor of some sort who gave me some pamphlets ask if I had any questions. And that was that. I was lead back to another room to wait for the "procedure"

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My older sister and her friend

9. How has abortion affected you?

It's taken many years to try and get past the pain of deep regret. Still I keep track of how old that child would be, thinking what kind of person he could have become if I hadn't killed him. I now have been blessed with 2 beautiful children. They are wonderful and almost make the painful regret even stronger. I've often thought, oh if it had just been illegal, it never would have happened!

10. How has your abortion affected others in your life?

There is an unspoken code between my sister and I. We NEVER mention what happened. And I try not to blame her. I have enough blame for myself. It was my decision. I chose wrong. But how I wished she or SOMEONE talked me out of it instead of leading me by the hand right to the abortion clinic.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't do it. Wait, think more..... I would find out what was the root reason she was considering

it...is it shame, fear, youth, inexperience, lack of knowledge, finances then I would help her find council that would reassure her that she could handle this, she could be strong. The shame of taking a child's life is far greater than embarassment of an out of wedlock pregnancy.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Please reconsider. If it had been illegal, I never would have had one and wouldn't have lived with this pain for the last 20 years

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Frankly, I was in such a daze. My memory is fuzzy about the details. I just remember, I was told it wouldn't hurt, it would be quick and easy.

5. Were you adequately informed of the consequences of abortion?

Yes No

I think, I was told that I would have some contractions. It would feel like cramps when I had my menstrual period. NOT! It was the worst pain I'd ever experienced!

10. How has your abortion affected others in your life?

Those that I have told about my abortion become sad and some I felt stayed away from me.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! You made a mistake but an innocent life is at stake. Give that life a chance. You can keep the child or give it up for adoption. Where there's life there's hope.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

A life just because you can't see it, is still a life. We must honor & respect the personhood no matter how small. A woman's body is not her own to do what she desires when it affect another human being.

9. How has abortion affected you?

guilt at not only killing a person, but murdering my own child. sadness that my other children have not been able to know their sibling. ongoing issues in the relationship with the father. shame. grief at the loss.

10. How has your abortion affected others in your life?

it affected my later marriage to the father, and 25 years of difficulty before the marriage ended. it also has affected my other children, one of whom always had a sense that there was an unknown sibling. they must deal with their own thoughts and feelings about the act as well as how to think of their parents. it has damaged trust.

11. Based upon your experience, what would you tell a woman considering abortion?

do not have an abortion. there are many other options available for women who do not feel they can care for a child; however eradicating a being who, if left unhindered, would be born and have its own

identity apart from its mother's - is basically murder, and having that blood on your hands is something no one should experience. Even Shakespeare wrote of it in Macbeth -- "Out, out, damn spots, out, out!"

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Since there is no absolute moment that we can determine when life actually begins, and is viable (the ability of modern medicine to sustain and equip lives of the unborn or premature continues to improve), we are therefore submitting living beings to murder, a crime we punish when it occurs outside the womb. There are other means to help a mother or child who are not able to be a family unit. It is immoral and against the fabric of the basis for our constitution and bill of rights, as well as American tradition to allow abortion to be legal.

My name is M D I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Torrance CA

//

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

The information I received was given with the expectation that I was going to have an abortion anyway. Emotional trauma and regret were not made real to me by the counseling I was given, prior to the procedure.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has haunted me. I'm so saddened that I was so selfish and did not choose to give my baby up for adoption. I, myself, was adopted at 3 days old in Santa Monica California. The gratitude and respect I have for my biological mother is immeasurable. She thought not herself but of me, first. The strength and courage it must have taken to sign me over to strangers is more than admirable. My adopted parents have given me a life one can only dream of filled with love, adoration, protection, and opportunity. I'm ashamed, and will be until the day I die, that I murdered my baby, knowingly, selfishly, and callously to preserve my lifestyle and future.

10. How has your abortion affected others in your life?

My parents are the only ones who know about it and they know I blew it. They don't talk about it.

11. Based upon your experience, what would you tell a woman considering abortion?

When you're pregnant and in a desperate situation, you don't think straight, and you need a true voice of reason and comfort to give you sound advice and support. I didn't have that. I thought the only option for

me was abortion and so...I would explain to the woman that by aborting (knowingly ending your baby's life) is not a single moment thing. The memory and guilt follow you forever. How about instead of the memory of death and destruction you live with the memory of hope and life. Instead of guilt, you live with hope that your baby is growing up well-cared-for and loved. That memory gives not torment but peace. And then, I'd support her emotionally, financially and physically to help her make the right decision not just for her but for the human inside of her depending on her to do just that.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe that our country is great because we have our freedom to choose. But, I do not believe that others should have to pay (taxpayers) for those choices, especially when they know, personally, it is not the choice they would make again or have anyone else make. Government should not be involved in the declaration of death upon it's most vulnerable citizens.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of San Diego

My name is Patti Smith. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Seattle WA

//

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction (twice)

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had two abortions, one in the late 70's and one in the early 80's. I do not recall anyone discussing the nature of the abortion, just what kind of anesthetic I wanted.

5. Were you adequately informed of the consequences of abortion?

Yes No

I do not recall any explanations of the consequences at all. The only caution they provided was regarding bleeding and possible infection.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

After my first abortion, I began to drink more and after the second one my drinking increased significantly....to the point of contemplating suicide. I was extremely promiscuous as I lost all respect for myself. I have had sexual side-affects (not enjoying or wanting intimacy) but pretending I did because it was what was expected. I went into rehab and am now sober; however, the guilt over the abortions was still there. I am still medicated for depression and still have problems letting myself love totally without fear of loss. I recently attended a post-abortion healing retreat that helped me deal with the guilt and shame as well as intimacy issues. I'm not saying the abortions caused my alcoholism but were a contributing factor.

10. How has your abortion affected others in your life?

My relationships with men were affected significantly. I was in and out of affairs, not willing to make a commitment. I am on my third marriage. The first two marriages ended as a result of my alcoholism

and reluctance to be intimate. My current marriage still suffers from the intimacy issue but with counseling, is improving. One other affect is that after the two abortions I had a tubal ligation because I did not want to go through the abortion experience again. I justified it by saying I did not want children and that I didn't want to be on birth control pills because of the side affects. This action also resulted in guilt and shame because I could not bear children in my second marriage. This was another contributing factor in my continued alcohol abuse. My second husband and I adopted a ten-year old child out of foster care and although he was cared for and given love, our relationship was always strained because I could not emotionally bond with him.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them that even though they think they are making the right decision at the time, they will suffer guilt and shame down the road. Their future relationships could suffer as well as their spiritual, psychological and physical health.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That women are led to believe the babies they are carrying are just "tissue", when that, in fact, is not true. That there are spiritual and psychological consequences as well as potential physical consequences that have been completely ignored.

HOW MY ABORTION AFFECTED ME

The State of CA

County of Monterey

My name is L A I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Omaha NE

//

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction of the fetus

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only given something to calm me but not fully aware of what the proces would entail & the effect it would have on me emotionally, psychologically & physically!

5. Were you adequately informed of the consequences of abortion?

Yes No

NO because having had 3 abortions (Sad to admit) it caused me to have an incompetent cervix & the damage to my body & cervix caused me to have a miscarry at almost 7mos into a wanted pregnancy resulting in my son dying! I had two other pregnancies after him that required cervical cerclages so I could carry them full term.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend at the time who became my husband

9. How has abortion affected you?

I walked around for years with guilt, shame and remembering the horror of seeing them suck the body of my first child out of me! I saw little hands and feet! I was horrified that they had pulled apart a REAL baby (I did not realize how real until I saw the body parts)out of me. And to know that that baby was alive when they pulled it apart was horrible for me to know I was the cause of the suffering and pain of that child. I had to forgive myself years later, get counsel and write letters to each child I had aborted to ask them to forgive me for my ignorance and for causing them such pain because of my selfishness and intimidation suffered.

10. How has your abortion affected others in your life?

I did not share my story except to my counselor & only shared my story to one of my children who is now an adult. I have been able to share with some women wanting to get abortions my story

11. Based upon your experience, what would you tell a woman considering abortion?

Please do not do it because not only is that life inside of you a baby (the heart is the first organ to develop & then the nervous system) but it has feelings (emotions) & suffers pain especially when aborted! It not only affects that child but it does affect you more than you think! It effects your emotions, physical body (because like me you may have problems in the future carrying full term a child or may not be able to have children if you want them later). At times I thought I was going to have a nervous breakdown from the guilt & shame I felt. It was torment because it was almost as if I could hear my babies crying. Besides that God tells us "Thou shalt not murder" and if you allow someone to murder that child inside of you then you are considered a murderer also because you allowed it. God intended for us to give life - not take it - its not ours to take. Please believe me - a woman who suffered for 15 years with secrets of abortions & I had three! I was told by my husband that he would leave me if I had another child and he left me anyway! He remarried and had more children!!! I had such anguish because of all that happened and regretted murdering my children. Although God has forgiven me now and I am free from all the bad emotions, I still cry for my children & try to reach out to others to tell them the truth. Thank you for letting me share.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That they are taking life into their own hands which was against God. They have found a way to commit murder to innocent life and that unless they see it and experience the suffering, pain, emotions, etc., they have no idea and cannot relate to what happens and will happen if abortion is legalized. I know I am not eloquent in speech about this, however, I am passionate enough to speak against it and let them know through experience that it is wrong, murder, and inhumane...why would they rather save animals over saving a baby!? They will put someone in jail for killing a dog/puppy before someone who kills a baby! HOW BACKWARD IS THAT!

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I asked for explanation and they said it would be better if i had an abortion instead of bringing a baby that i cant afford

5. Were you adequately informed of the consequences of abortion?

Yes No

They offered no information. would downplay any questions asked

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

the planned parenthood clinic

9. How has abortion affected you?

Its devastating i wish i wouldve gotten better advice and maybe some counseling b4 i did it. It makes me feel beyond sadness when i think of it because i know now that i actually committed murder and it devastates me and i miss the baby sooo much. it is with much regret that i committed this act.

10. How has your abortion affected others in your life?

I never told anyone i am tooo ashamed of myself.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to do it to consider adoption instead. If not just keep the baby. they always bless your life somehow. Life always is better when u make the right decisions. God blesses good moral decisions.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Its morally wrong it affects the morality of society. It is another form of genocide of the unborn. Judgement will come to America if we do not change the way we think of the helpless victims of our society, if we cant protect the innocent we are in trouble. It devalues us as human beings, and it devalues life.

HOW MY ABORTION AFFECTED ME

The State of CA

County of Shasta

My name is J F I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Jose CA

2. How many weeks pregnant were you?

3. What type of abortion was performed?

I don't remember

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

All I knew was that I would no longer be pregnant, than they put me under.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea how it would affect me emotionally, and it was not until many years later that I found out it could have prevented me from having any other children.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My father

9. How has abortion affected you?

I started cutting myself afterwards, I spent the next 13 years drinking and doing drugs. I cry anytime I think about it. I have never forgiven myself for what I did.

10. How has your abortion affected others in your life?

I have had two, one in 1990, and the other one in 1994 with my ex-husband. To say the least that issue destroyed any trust there could have been between us. I never forgave him for abandoning me or myself for allowing my family to pressure me into this again.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them that it will ruin their lives. They will never recover emotionally without serious counseling. I am so damaged by what happened that I still cannot forgive myself. When I think about what I did I think about how old those kids would be today, and that I murdered them.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that abortion is evil, and that it does affect women in a negative way mentally, emotionally, and physically. I also feel that any person who says that abortion does not hurt women either has not had one, or is a liar.

Parent

9. How has abortion affected you?

I still suffer emotional scars from what I did. It made me a part of me detach from myself and even years later when I had my own children, I had to fight an extreme detachment from my own children!! and only by healing that came through raising children, a supportive husband, and God was I able to handle it and push past the detachment I felt. My heart wrenches every time I remember what I've done.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her not to do it. I still hear the awful haunting sounds of the vacuum and remember every moment of that visit. I still have emotional scarring from it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

How can we protect animal rights and not the life of the unborn? That after having seen the baby in ultrasounds and being far enough along to feel the baby move and then seeing the child come out how was it I could think I wasn't murdering a child-a human life-no matter how small!!! No matter what pain you face in having the child-even giving it up for adoption-the pain of knowing what I've done far outweighs what I thought so inconceivable at the time.

Iowa City IA

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They didn't adequately inform me on the level of pain of the procedure itself, I wasn't even led to believe it would be painful at all. It was described as having menstrual cramping. They also did not inform me about how sick I would be afterward, and the recovery of it.

5. Were you adequately informed of the consequences of abortion?

Yes No

They never talked about any psychological pain or possible consequence either. They completely avoided the issue of the development of the child within, and purposely dehumanize the fetus as if it is not a life entity being killed. They never prepare you for the emotional consequences, and the possible guilt or depression you may experience, and if by chance you do encounter those feelings and try to talk about them, then they tell you that you did the right thing, and you shouldn't feel guilty. I should also note that you are told you can turn back at anytime prior to the procedure, but after I signed the papers the day of the procedure, after I got into the room to have it done, while I was on the table, and before the started, I changed my mind and didn't want to go through with it, but they refused to listen and I was forced to follow through with the procedure. It was horribly traumatic and I cried the whole time and was severely depressed immediately afterward.

6. Were you informed of any link between abortion and breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

boyfriend and extreme pressure from the clinic

9. How has abortion affected you?

I have been a christian my whole life. I knew abortion was bad, but I didn't know much about it. I went to the U of I family planning clinic, to seek counsel and advice, and I got heavy pressure from them, they

told me it would be irresponsible to have a baby, even though I argued I didn't think abortion was right and didn't want to have it. Since they were the only source I knew to turn to, having them pound into me that it was the right thing to do it made me think eventually I should do it. I suffered extreme guilt and shame throughout my life, being afraid to disclose what I had done to those close to me in my life. Carrying this kind of burden and not being able to share, and fear of rejection from those close to me was a real burden. I am 46 and still ashamed of it.

10. How has your abortion affected others in your life?

I eventually told my mother, and she was very upset by it.

11. Based upon your experience, what would you tell a woman considering abortion?

That it far more painful and traumatic than what they will be told, and that they will carry the act with them for life. That there may be those close to them that will reject what they have done.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it is selfish to not carry a child to term considering that there are so many couples who desire to adopt. I would say that if you created life you are obligated to that life, and that from time of conception it is life, and you should carry it to term. To have an abortion to avoid shame of a pregnancy is cowardness, and they will carry shame for having an abortion as well, so there is no way of escaping the consequences of an unplanned or illegitimate pregnancy. The worst thing you can live with is regret. Giving life, and giving the gift of life to a family who cannot have it themselves, is the ultimate gift, and a life long one without the consequence of regret or shame attached.

HOW MY ABORTION AFFECTED ME

The State of CA

County of Orange

My name is Jennifer I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Huntington Beach CA

03/17/1981

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

I just remember the Dr. saying Saline solution and D and C.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told that it would kill my living, breathing baby in my womb. That my baby had a heartbeat, nor that it had its fingers, toes, and that they would be burning my baby and cutting my baby in pieces and then having to count to make sure everything is there once they finished the procedure. If I had been told that and/or been shown pictures I would of never chosen to go along with this procedure. It is horrific. Anyone with a heart would see that it is just inhuman.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told I might/would regret my decision. I was not told that it would affect me emotionally and haunt me once I walked out the doors. I was not told that it would lead to depression and guilt and that it would be the beginning of many sorrows.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend at the time wanted this.

9. How has abortion affected you?

I cried over it many times throughout the years. I could not say the word at all until up to one year ago. If anyone brought up the word abortion I would change the subject. I couldn't talk about the subject. I felt guilty and drank heavily, which lead to sex with many different men. I hated myself for what I did. Even though its been almost 30 years ago it still affects me today. Whenever I drive by the building the abortion took place at I am reminded of it. It just never goes away. Its a deep scar deep within the heart of the loss of a life that should of been but was cut short because of the "choice" of abortion that was available that day.

10. How has your abortion affected others in your life?

My boyfriend ended up breaking up with me and it was so painful. The worst breakup I ever experienced. As far as others in my life I kept it silent and didn't tell anyone so no one ever knew about it. Its not something you want to go bragging about. It is a shameful thing.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that I did that and that it was the worse decision I ever made. That her life will never be the same and that she will suffer greatly for it. And that like me she will regret her decision and she will have to live with that decision for the rest of her life. There is no going back. I would try to convince her to keep her baby, and that she would be so glad she did.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It needs to be illegal. There is not one good thing that comes out of abortion. It kills the life inside the womb and it scars the mother for life. Forever she has to live with the fact that she killed the baby inside her. And to live with that guilt and shame is so very painful. It something you can never take back and so you do all that you can to try to stop someone from going through the heartache and pain that you went through. We protect the animals, the fish, why aren't we protecting the life inside the womb who deserve far more protection than an animal. It just doesn't make sense. I ask myself daily "how can this be legal, how?? And since it is legal than woman need to see the other side, not just the one side where they soften it up and make it seem like "its just a blob of tissue" Show the real pictures of abortion and there would be far less abortions out there. Also the rapist are getting away with rape and then covering it up by giving the young girl money to abort her baby. Its all bad. Abortion is bad every way you look at it. It needs to be stopped!

1. Where and when did your abortion occur?

Montclair CA

03/10/2005

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

medical abortion (not surgical) I believe they gave me Mifepristone.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Most of the information I had looked up online before actually going to the clinic. At the clinic itself I was just told a brief description of what the pill was for. They did not give me the details of it, but because I had already researched it myself I didn't really need them to explain more.

5. Were you adequately informed of the consequences of abortion?

Yes No

Again just a very brief description of what I may or may not feel and then I was given a number to call in case of emergency or questions.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

After the abortion I did not feel any remorse or regrets. In fact I had completely forgotten about the fact that I even had an abortion until one year later when I was tucking my daughter in bed and the reality of what I had done suddenly hit me. I had killed my daughters sibling! Whether I wanted to admit it or not, that it exactly what I had done. To make matters worse, I had also paid good money to have my own child killed. In a sense, I had hired someone to help me kill my child! Well, it's been almost 5 years since but to this day I still think about my unborn all the time. I know how old he/she would be right now. I wonder what his personality would have been like. The thought of him sometimes brings tears to my eyes. But it's very comforting to know that at least he is safe and one day I will meet him. So even though the physical pain was temporary and very minimal (just some cramping and bleeding) the psychological effect is permanent.

10. How has your abortion affected others in your life?

Not much, aside from the fact that my children don't know their brother/sister. And having to deal with the fact that will have to explain this to them one day.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! It's just not worth it. If it's because of financial issues or boyfriend problems, a child's joy will make up for ANY hard times. There are many great programs out there ready to help you with meeting your baby's needs. And don't ever let ANYONE pressure you into having an abortion. It's YOUR body and YOUR life not theirs.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Bad choice! In my opinion, abortions should be kept to a minimum. Like myself, most women don't have a problem with abortions until they've had one themselves. They don't see the impact it has until they are living it.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of Sacramento

My name is A B I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Sacramento CA

04/08/1984

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was clearly in distress. I didn't want to get an abortion, but felt compelled out of fear that my abusive ex-husband would use an out-of-wedlock pregnancy to take my two children away from me. He may not have succeeded, but I was terrified he would try, and I couldn't afford more legal fees. Marrying the father of that baby was absolutely not an option. Anyway, they explained the physical process, and made me wait until the very last (out of 22 women in the clinic that day) for my procedure, thinking I might "bail." At the end, they just said "If you're not sure you want to do this, now is the time to leave. If you want to proceed, now is the time to decide to live with it." What a tragic choice I made!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Indescribable grief! For the first several years after the abortion, I would have dreams of my lost child around the time s/he would have been born (December). I would also have nightmares around the anniversaries of the abortion (just before Easter). For YEARS I suffered depression at Christmas and Easter, wishing I could just go to sleep at the beginning of the month and wake up when it was over. It also made me rather paranoid when my daughter became a teenager. I was terrified that she would make a similar mistake and be similarly harmed, and there would be nothing I could do to stop it.

10. How has your abortion affected others in your life?

There is a part of me that has remained unavailable, even after the dreams and nightmares stopped. It's

like scar tissue in my heart: hard, rather numb, with the surrounding healthy tissue adapting and working around it.

11. Based upon your experience, what would you tell a woman considering abortion?

If you think this will make your life easier, think again. If you're feeling not ready to be a mother, the truth is, you already are - and pretending it's not so will only make the pain deeper, longer. Carrying and giving birth to this baby will require less than a year of your life, if you cannot or don't want to keep him/her. Then it's over for you, and it's the beginning of this child's life and the beginning of a dream for some grateful couple. The rest of your life, your conscience will be clear. You can know that your child lives! If you go through with this abortion, the only grave for this child will be the one in your heart. Believe me when I say, you don't want that.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I'm really torn on the legality issue. As painful as abortion is, the truth is, a desperate woman will find a way to abort. But I absolutely object to the government paying for abortions - even in the first trimester. Desperate women will find the money and the practitioner. And organizations like Planned Parenthood or others who want to support "abortion rights" can do so with private funds. Our society should offer support services in favor of life: prenatal care, adoption resources, counseling, etc. Also, if it were widely known that post-abortion counseling or support groups were also available, more women could be helped and public awareness of post-abortion trauma and depression would be raised. I believe THAT would make our culture a more gentle, life affirming culture. And it would take the profit motive out of death.

HOW MY ABORTION AFFECTED ME

The State of CA

County of san bernardino

My name is Lorraine I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

san bernardino CA

10/16/1985

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

d&c

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The people at Planned Parenthood didn't tell me anything about the procedure or what to expect.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no mention of any consequences, emotional or physical, or anything. It was very strange. It was very much like an assembly-line slaughter house. It wasn't like a doctor visit or standard operation at all. We ladies were in line and went from one station to the next--sit in a waiting room, get into a gown, have our blood pressure and vitals taken, wait in the hall for a room, get into a room. It was 25 years ago, but I will never forget. I wish I could forget and wipe it from my memory and my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

For circumstantial and relational reasons, I have never had children, so that one child I got rid of is a great loss to me that I can never get back. I will always regret that decision and that day. Now I am too old to have children, and I will never have a family. The abortion has also affected me emotionally, knowing that I sacrificed my baby who could have lived a long life.

10. How has your abortion affected others in your life?

I didn't tell anyone until recently. I have been too ashamed to tell anyone. I am still very much ashamed.

11. Based upon your experience, what would you tell a woman considering abortion?

I would plead with all women not to have an abortion, even if you're too young to care for a child. You

will regret the decision for the rest of your life. Adoption is a wonderful alternative. I know women personally who have been unable to conceive and would love to adopt a baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should be illegal. From a medical standpoint, if you look at the phases of growth of a fetus inside the womb, it is obviously a baby, even at one or two months! It isn't a little cell, it's a baby. Oh, you think it's appalling for a mother to put a new born--or a 4-month-old baby--in a trash can and leave it to die. But it's okay to kill it before it reaches outside the womb. Some doctors even leave a fetus to die after a botched abortion. And late-term abortions! The doctor stabs the skull with a pair of scissors!! God help us.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of Los Angeles

My name is D B I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

North Hollywood CA

//1972

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was actually led to believe that it was no more than a "blob of tissue"....it was not referred to as a baby, a life

5. Were you adequately informed of the consequences of abortion?

Yes No

I was 17 yrs old when I had an abrtion.....I had 1 miscarriage before and one after! I now believe it led to tumors, cysts, and polyps growing in my tubes and at age 19 had to have my right fallopian tube taken out and@20 yrs old more tumors cysts, polyps and adhesians (scar tissue) which led to a total hysterectomy

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents and Dr.

9. How has abortion affected you?

It left me not only scarred emotionally but also barren due to an early hysterectomy.....I was unable to become pregnant after I married we tried but the Dr. said I would never have been able to carry to term due to the scarring and tumors which I believe were a direct result of my abortion.....

10. How has your abortion affected others in your life?

Well I know that my mother lives w/the guilt of her making a decision that she should have allowed me to make and for the fac that I had been unable to concieve any of my "own" children...however God did Bless our lives w/a baby boy whom we adopted from birth and he will be 30 yrs. old on the 29th of June '09 and is now a fine young man.

11. Based upon your experience, what would you tell a woman considering abortion?

I would share my own nightmare of living a life of not only emotional pain but also physical pain beginning with my abortion followed by 3 D & C's due to excessive bleeding and then ended with a total hysterectomy and that was under the care of a so called "Good Beverly Hills Doctor" payed for by welfare at the time

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

My case may be the "Extreme" but none the less the truth as to what can happen to the life of any woman who has an abortion. How can they "justify" murder? The killing of an unborn child at 8wks. or 8mo. is murder. Abortion on demand should be illegal just as it is illegal to commit murder.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It was my personal choice, and one that I do not regret - AT ALL! I was not prepared to bring a young life into the world, emotionally, or financially. I have had two abortions at a young age. I was able to continue my life and pursue a career that would not have been possible had I had to care for a child. I am very proud of my career, and when I was ready, I started a family. I love my children.

10. How has your abortion affected others in your life?

My abortion was supported by my friends and family.

11. Based upon your experience, what would you tell a woman considering abortion?

To weigh everything she values in life - including her dreams and desires to live a full life as a woman.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The court is right to believe abortion should be the personal choice of every individual.

I didn't consider the long term spiritual trauma it would defastate my life and conscience with. I believed the lie that it was not a child and did not want to take on the responsibility of raising a child. I did not have the abortion. My girl friend did and I allowed her to go through with it, with only the slightest objections, easily dismissed. I suffered unimaginable regret, remorse, shame, guilt, sadness, loneliness, fear of God's retribution in addition to my own personal anguish and disgust with myself.

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

I struggle with depression on a daily basis. I am also very emotionally needy because having had an abortion makes me feel worthless, like I don't count as a human being, especially as a woman because a good and mature woman would never think of aborting her innocent child. I grieve because I let my child, myself and God down by being foolish and short-sighted enough to have an abortion. It is very hard to live with myself and every day is a battle to make peace with myself by doing good now and, therefore, not aborting more life.

10. How has your abortion affected others in your life?

They, in a way, have to deal with my depression and the poor decisions I have made.

11. Based upon your experience, what would you tell a woman considering abortion?

Just know that it is never worth it to throw away life. You may think it is making life easier, but you couldn't be more wrong. The guilt will make your life a struggle because it will weigh you down and haunt you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is the killing of a human being. Therefore, a person who has an abortion performed will have the same psychological, moral, and emotional damage as anyone else who has killed a human being out of convenience.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of Santa Clara

My name is Debbie I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Santa Clara CA

07/03/1983

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

vaginal - not sure of the name but it was sure painful.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told that I would physically feel the pain of the abortion process during the actual procedure. I was told that I would be given a pain medication. In fact during the procedure I remember hearing a "Beach Boys" song playing. The nurse who stood next to me and let me hold her hand - I squeezed her hand so very hard that I almost broke it because the pain was so intense. The doctor performing the procedure said to me, "You are the worst patient we have had today, ha!ha!" because I was screaming from pain. The worst of it all was when I sat up from the bed in the procedure room, looked in front of me and saw fetuses lined up in jars w/lids on them sitting on the counter. I now knew what a horrible, horrible act I just committed. I have never been the same since before that day,

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't feel I was given adequate information about the physical and emotional side of having an abortion as the experience before and after were quite different. Knowing what I know about the abortion procedure and the mental aspects after wards, I would never ever have an abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Tremdenously. Since 1983 I have had emotional/mental issues stemming from this choice I made to have an abortion at 22 years of age. I felt that my parents would have been very disappointed in me and I felt that I did not have the monetary resources to care or raise for a child. I so, wish I would have told my parents and chose to keep the baby. I anguish about this pretty much on a daily basis. As I write this declaration, I am crying so hard I can barely write this. I believe in my heart that because I chose

to "throw away" my child in 1983 that this is the reason I was never able to bear another child. I am not 48 years old, married but childless. I did become pregnant at 40 yrs of age but miscarried at 3 months. I am completely devastated over the fact that I will never be able to raise and care for my child. My husband and do not have the money it takes to adopt a child. I hate myself for what I did and I won't be able to forgive myself.

10. How has your abortion affected others in your life?

My husband has no children because of me. My parents who are in their mid-70's are grandchild less. My only sibling- brother- married an older woman who had a child of her own prior to the marriage. He does not have his own biological child. In fact, his step-daughter was just married yesterday 6/6/09. It was sad to see her biological father dancing the father-daughter dance while my brother stood and watched. (His step-daughter lived with my brother and wife since she was 8yrs old. She is now 22) How sad that there could not have been two father daughter dances. I felt so sad about this that it brought back many sad emotions about the fact that I chose to take a life and now my family will never have the laughter or cry of a child and my parents will go to their graves without ever having a grandchild. I am so evil.

11. Based upon your experience, what would you tell a woman considering abortion?

Please, Please, please re-think what you are about to do. I will never be the same because 27 years ago I made a huge mistake. There is not a day that goes by that I don't think about my son (for some reason my gut tells me it was a boy) He would be around 26 years old now. I always thought I would have lots of children, but my own self insecurities and the fact that I had an abortion took care of that for me. I also believe that I have been punished for this abortion and the fact that I have no children, not by God but by myself. Please don't do it. It will change your life forever and not in a good way. It literally has broken my heart.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is wrong. There are so many wonderful people that cannot have children that would make great adoptive parents. I was so young when I had my abortion, I so wish I had not done it. By the courts making it legal, I thought this was my only way to deal with being pregnant. Although I married a great guy when I was 41 yrs of age. my life has been tormented with the fact that I "killed" my child and that I am now childless. My husband and I are not fortunate enough to have the funds for in-vitro or adoption therefore I am living my life now with great sadness inside. There is not a day that goes by that I don't wish that I would have not had that abortion back in 1983. Please do not legalize abortion. It only causes heart break and ruins many, many lives.

9. How has abortion affected you?

I was sexually molested between the ages of 3 and 5, and I hated myself. I cannot begin to tell you the horror I have lived with. I had 5 abortions between the ages of 14 to 32. I became an alcoholic at an early age (14), got heavily involved in drugs, was extremely promiscuous. Anything to not have to think. I used abortion as a means of birth control, I am ashamed to say. I kept killing parts of me hoping that I would die, too. It wasn't until I accepted Jesus Christ as my Savior that I was able to somewhat forgive myself. Today I know that I am forgiven of my sins. But I still live daily with what I did to those babies and am still sad beyond words. I suffer from depression and have been on and off meds for most of my life.

10. How has your abortion affected others in your life?

My mother was furious with me at 14. She kept kicking me in the stomach saying she hoped I miscarried. I took the lives of five babies. They would have been outstanding young men or women. I won't see my unborn children until I get to heaven, but I know they are in Jesus' loving arms. I cannot

believe I did what I did. God, I am so sorry.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. The pain is forever. It never goes away. Trust that God has a plan for that child's life, even though it may not be with you, but another loving forever family. Step up to the plate and be responsible for your actions. Why should an innocent be penalized for your mistakes? Please consider adoption. Please consider keeping your child. If you don't want to be responsible for these lives, then abstain from sex or get your tubes tied. Think of someone other than yourself because abortion is selfish. Accept the consequences of your actions. If you decide to have that child, God will bless it, just like my youngest. Don't do it. The memory never goes away. Choose life. You can do it. Don't kill your own flesh and blood. Babies are a gift from heaven. Take it from someone who has been there/done that. You don't want to live the life I have led, with the daily pain and shame of what I have done.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would ask how many of them had ever killed their own children? in the days of the most advanced contraceptives of all time, women need to accept the consequences of their behaviors. Instead of killing babies, force all women the age of 13 and above to take birth control instead. Quit worrying about killing the whales and start saving the babies. We are killing our next generation of scientists, mathematicians, Mother Theresa's, astronauts, the child that might have been the one to find the cure for cancer. There is blood on the hands of our leaders. Blood that won't wash off until we get on our knees and repent before God for the wickedness in our hearts and the murder of the most helpless of all. Our President is an out and out murderer. Defy him. Stand up and fight for the unborn.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of USA

My name is M E. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Arketa CA

//

2. How many weeks pregnant were you?

22

3. What type of abortion was performed?

induced labor

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

This was 41 years ago. I was 15 years old. I was only asked by my mother if I thought I was old enough to work and support a child because my dad refused to.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had to go see 3 psychologists before I could legally have an abortion. I was drilled pretty much with the same questions. Such as do I think I would take my own life if I could not have an abortion. Did I want to keep the baby? How would I take care of a baby? How would I finish my schooling? Mostly all I can remember now.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My dad through my mother.

9. How has abortion affected you?

For 13 years I felt God would never forgive me and I would never be given another chance to have a child. I kept it to myself except for those who already knew through gossip. I was ashamed and it almost killed me. I hemorrhaged and my dad was told if he had gotten me to the hospital 15 minutes later I probably would have been dead. I had a hard time with relationships and sexual desire. I hated shopping for baby showers! Often just cried thinking about the son I would have had. I actually saw fully formed legs and feet dangling from the toilet seat at age 15 and was hit full force, screaming and not able to move. Not knowing I really had that in me! So many don't think of a baby as a life before they can hold it in their arms! Now I absolutely hate abortion choice even being available!

10. How has your abortion affected others in your life?

I have no idea!

11. Based upon your experience, what would you tell a woman considering abortion?

Please! Get all the facts! I know I was a child with a horrible experience and today abortion is rampant! Like everybody does it if that's what they want. Well keep your legs closed or use proper precautions if you are not ready. You don't want to hear what God says, fine. Please consider the one fact no matter how simplified everyone else makes it sound. You are a murderer when you take a life! It's not just tissue! It's a life once the egg is fertilized. It doesn't take long to educate yourself. Do it! Do not take life just because you haven't seen or held the child!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should not be legal under any circumstances! People are waiting to adopt, even the most hopeless cases with disabilities! Rape victims get help but deliver that life. The only case I would consider abortion is if a womans life is in danger and she has children at home to care for. Even then it needs to be a very serious case! Abortion truly can damage women mentally as well as in some cases physically.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of Orange

My name is Jeanne Scott. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Orange CA

06//1994

2. How many weeks pregnant were you?

26

3. What type of abortion was performed?

a late term abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was pressured by my boyfriend to have an abortion and went to Planned Parenthood to seek their services. I was told to sign the paperwork and return on a certain day for the abortion, which I did. I was very upset about the abortion, crying, full of sorrow. Nobody offered counsel. They medicated me and put me to sleep and shortly after, they woke me up, telling me they had misjudged the duration of my pregnancy. I was 26 weeks pregnant! I was heavily medicated, too much so to make a sound decision. They asked me to decide at that moment whether to proceed with a "different" procedure to abort the baby. I agreed. When I woke up, I vaguely remembered something having changed, and I asked the attendant about it. She said I had been 26 weeks pregnant and they had to perform a different procedure to abort the baby. That baby could have been viable at that time. I was NOT of sound mind to make this decision. I was offered NO counseling. I was distraught, I am still distraught. This was murder. And I consented to it.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not aware that I could be that far along. i was not aware that I would still ache for that baby.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My school, boyfriend, mother, friends

9. How has abortion affected you?

I am guilty of murder. I have to live with having handed someone the right to take the life of my child.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

Oh, please do not. There are other options. People will raise the baby, if you can not, I will. There is help.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is a travesty. Blood is being spilled every day, and we are told to turn our heads. We are guilty of the worst human rights violations - against the babies who have no voice and the mothers who feel they have no choice.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of San Diego

My name is C P I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Ridgecrest CA

//1972

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Not sure what you mean. A poisoned thorn was first inserted to dilate my cervix.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had no idea how twisted abortion would leave my conscience! I was informed I needed one, in order to save my own life, and that the fetus was likely malformed, because I was profusely bleeding. All the same, no one addressed the emotional trauma I would suffer for decade upon decade, and night and day. I still wonder what blessings that child may have brought to my life!

5. Were you adequately informed of the consequences of abortion?

Yes No

Addressed above. I received no psychological counseling, but the first clue should have been that my own physician refused to perform the abortion. He explained that his faith wouldn't permit that, but that his business partner would do the abortion. That was a big HINT about the matter of conscience, but I didn't take it. Very unfortunate, because the mental agony would haunt me for years and years to come!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Physicians in the emergency room at the hospital.

9. How has abortion affected you?

Mental anguish and shame beyond one's imagination! Pain unlike any I'd ever suffered. Sheer heartbreak.

10. How has your abortion affected others in your life?

I have no idea. I refused to speak of it to anyone, afterward.

11. Based upon your experience, what would you tell a woman considering abortion?

Get other medical opinions! Get SOLID professional counseling. Speak to a minister. Talk with other women, if possible, who have lived with the scar for many years!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion damages women in ways that are indescribable! It scars the soul and leaves a mammoth hole inside our spirit -- one that many of us never quite recover from. Most of all, I am appalled that President Obama would spend American tax dollars to fund this crime against women, overseas, and that he would, through Federal rule, force physicians here in the USA to perform this tragic and exceedingly damaging procedure, if their faith teaches against it! Our medical practitioners have been VIOLATED by this President's policies with respect to demanding that they perform abortions, in spite of the dictates of their religious beliefs! What happened to FREEDOM of religion in America? Has this man no conscience?

9. How has abortion affected you?

I think about it all the time, sometimes I cry for the baby. I was 24 when I had the procedure and am 54 now but I can't, no matter what I do, forgive myself for what I did.

10. How has your abortion affected others in your life?

No one in my family knows

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that it may seem like the right thing to do at this moment but you must think about what the future will hold. The hardest time for me was when my first grandchild was born, I held him and cried because I killed a baby just like him. I'll never forgive myself for what I did.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it should not be allowed, I don't know how this affects other people but I have been treated for major depression and I think it has a direct relation to this big mistake I made. Mine is mild but it could have been worse, and am sure it is for many women. Babies are people, watch an ultrasound sometime. They look like a little person and they react to stimulation. How can they not be a viable human being?

QUESTIONS

1. Where and when did your abortion occur?

San Francisco CA

04/06/1974

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had no idea what was going on. The doctor & nurse talked over me & only paid attention when I asked a direct question. They had problems dilating me & only explained when I asked. When it was over, the nurse commented in my hearing "It's a perfect fetus". Those word echo in my head to this date.

5. Were you adequately informed of the consequences of abortion?

Yes No

I think in the back of my mind was the thought that I would have other children. I never became pregnant again.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It is something I have had to live with my whole life. To talk about it still causes tears and an ache in my soul that will never truly heal. Only in the past year have I actually verbally discussed it and that in the confines of the confessional.

10. How has your abortion affected others in your life?

I can't talk to other people about it. It is not something I share with people. It is too private. This puts a strain on my relationships. When people want to discuss the abortion issue with me, I have to leave the room. Usually because I am too emotionally distraught to discuss the matter.

11. Based upon your experience, what would you tell a woman considering abortion?

It is your choice. But I strongly urge you not to. It is something you will regret all the days of your life. It is better to know that there is someone out there who lives because of you than to think that when you

die there is nothing left of you to continue.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Every life is important. What if the life you abort was the one that would cure cancer? or some other life threatening disease? Think of the consequences to the woman and her family & friends. The repercussions are life long. Sometimes generational. Too, once the beginning of life becomes disposable, what about the end of life. Isn't it just a hop, skip & a jump to euthanasia?

I didn't realize that the fetus was a human being at that point.

5. Were you adequately informed of the consequences of abortion?

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has made me so sad that I ended the life of my unborn child. I am totally against abortion. I have come to know that if one wants the child it is a human being, if one doesn't, it's not and can be aborted. I feel that we will have to answer to God for the millions of lives that have been killed.

10. How has your abortion affected others in your life?

It has strengthened their resolve to fight abortions.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to have it, to give birth and raise the child if she can, or give it up for adoption if she cannot raise it herself.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That trying to justify abortion is just caving in to those who don't consider human life sacred. They care more for animals than they do for human life, the life of the unborn. I have been forgiven and hope to see

my child some day in heaven - with all the other children that have been aborted. Those on the court will stand before God and answer for their vote on this issue.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

It was a hospital. There were no discussions; just preparation for the procedure.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I had two sons. One was killed in a car accident a few years ago at age 25. I wish I would not have aborted my son. Since that time, I've learned that a pregnancy is not just carrying an unformed piece of flesh. It's a human being maturing within my body. I'm his/her caretaker. Even before realizing this, I could never wipe away the guilt or the shame of doing this. Now, I live with the realization that I could have two sons alive today, instead of one who has been so affected by the loss of his only brother.

10. How has your abortion affected others in your life?

See above. I robbed my surviving son of having a living brother.

11. Based upon your experience, what would you tell a woman considering abortion?

Please know that God entrusted you with the life of the child you're carrying. That your child has a destiny that will be like no other. Don't rob him/her of the opportunity to live his/her own unique life and impact the lives of others. God weeps when we refuse His special gift to us.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Don't aid a human being to commit an action that she will regret for the rest of her life; especially if she is inadequately informed. We can deny. We can repress; but our conscience knows on some level that we have ended a life. This subconscious knowledge erodes the quality of our lives.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was never told what they were going to do to me during the horrific surgery. Planned Parenthood told me that my baby was a blob of tissue. They said it was not a baby. I was completely awake during my abortion and felt everything.

5. Were you adequately informed of the consequences of abortion?

Yes No

They never told me that I would have scar tissue (adhesions) that would continue to grow on the inside of my body and wrap themselves around my bowels and attach them to my back and that I would have horrific pain from this and have to have 2 surgeries to remove the scar tissue, which causes more scar tissue. The doctors told me that I would never be able to have children because my ovaries were severely damaged from the vacuum suction from the abortion doctor suctioning the innocent baby out of my womb. By God's grace, I have been able to have 2 living children!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

My boyfriends mom & Planned Parenthood personell

9. How has abortion affected you?

Every January 31st, the anniversary of my son's death, I barely can get through the day. I think of my son who never had a voice or a chance at life. He was yanked out of my womb and came out in pieces. I look at my family photo and know he is missing. There isn't a day that goes by that I don't regret my abortion!

10. How has your abortion affected others in your life?

My Mother & Father lost a Grandson, my Sister's & Brother's lost a Nephew. They all watched me go on a path of depression & self destruction. I was dieing on the inside!

11. Based upon your experience, what would you tell a woman considering abortion?

There is help out there for you! This is a precious life inside you and he or she is trusting in you to make the right decision and bring them into this world. You can do it! The Bible says (all) Children are a gift from the Lord. Psalm 127:3. Trust God to provide ALL your needs. He has a plan & a purpose for this precious life inside you Jeremiah 29:11.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I had an abortion. I wished someone would have stood up for me & my son who died a horrific death. People just turn their heads & look the other way and say it's ok, when IT IS NOT OK! My life has been forever changed. There is a hole in my heart that can never be fixed. If you think it's ok to abort (end) an innocent life, then I would like to see you go inside an abortion clinic and a watch them do an abortion on a woman and watch the entire procedure , then look at the baby torn into pieces, and let your conscience be your guide. Yes, I said conscience. Hopefully you still have one. We are all accountable for what we know! We will all have to answer for what we did or did not do in our lives.

My ex-husband

9. How has abortion affected you?

I regret everyday the decision to have the abortion. I have had 2 children since then, but I wonder all the time what that child would look like, what he/she would be doing now. How would that child have changed the lives of my other two children. I became deeply depressed after the abortion and thought that my life was no more important than that child's life. I should just kill myself just like I killed that child. I have since been able to deal more appropriately with the love of the Lord, but I still feel terribly guilty and often think what a terrible person I was to do that even though I was pressured into it.

10. How has your abortion affected others in your life?

I believe that my parents feel guilty about it as well, because they were there for me.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. There are other alternatives that are much easier to live with. A one hour procedure will change your life forever, and not for the better. They don't tell you how having an abortion messes you up psychologically. They don't tell you that every time you look at a child you think that your child would have been about that age, or that your child might have looked like that. They have no idea how

hard it actually is, and even though it may seem like the only answer, there are several alternatives out there for them.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I think that except in cases where rape or personal health to the mother is involved, I do not think that it should be allowed. I do not believe that they should be allowed at all, but making it so easy and making it sound like it is no big deal is a terrible dis-service to every woman out there. They are taking a life and it is tantamount to murder in my eyes. Yes I am a murderer and I will live with that for the rest of my life. I hate to think that any other woman, would ever have to live with those same feelings of remorse, regret, and shame that I do on a daily basis.

The State of CA

County of San Bernardino

My name is C B I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Long Beach CA

//1973

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Because of media brain-washing, I did not realize that my preborn baby was not just "tissue", "contents of pregnancy", "parasitic", and that he was interwoven into my soul and conscience even then.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was led to believe by liberal media that my pregnancy was not a human being, not yet a real baby, and if "inconvenient", I could return to my pre-pregnant state with little bother. What they didn't say haunts me and other victims of abortion now and forever. This little son, of whom I was complicit in his murder, could be part of my life and my family today. Even though now as a believer in Jesus Christ I know I am forgiven by God, I miss this son as much as if he had been untimely killed in a war.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The liberal media, the lie of 2 max. children.

9. How has abortion affected you?

My heart is always heavy and cries out for my child that I helped murder. The loneliness I feel for this child, even though I have three wonderful children now, and beautiful grandchildren, is ever with me. I never gave this one, whom I have named Sean Michael, a chance at life.

10. How has your abortion affected others in your life?

Those that know that I had an abortion are desensitized just that much more to this grievous, appalling, gigantic holocaust in our nation. I believe that Almighty God will not hold our nation guiltless for its stance on abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell anyone considering abortion that their preborn baby is a real baby, and that soon she or someone could love him or her. There are many childless marriages that yearn to be a mommy and a daddy and can provide a wonderful home full of love and give the baby a chance at life that he was created to have. Also, she may not realize it now, but the overwhelming majority of women who go through an abortion later regret it forever. Abortion even makes some women infertile so that they can never have a child of their own later on when they desire one.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The legalization of abortion only opened the flood gates of this grievous sin and made it our nation's shame. Life became devalued with the legalization of abortion, so much so that crimes against people have mushroomed logarithmically, especially noticeable child abuse, rapes, murders, rage of all kinds, and the underlying knowledge that we as a nation are doing what goes against our innate common sense and consciences.

HOW MY ABORTION AFFECTED ME

The State of CA

County of san diego

My name is y c I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

san diego CA

//

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

suction aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only told it suctions the baby out. I was never told it suctions the baby out in pieces. Had I know that I probably would have kept it.

5. Were you adequately informed of the consequences of abortion?

Yes No

All I was told is that there could be some scarring tissue.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

As I looked at pictures years later it kills me to think that this is what I did to my baby. I know that if they had told me that the baby would come out in pieces I would have never done it. All I can do now is live with the emotional pain of what I did. I wish I could take it all back. I can only ask God to forgive me for doing this to a life he gave to me. I was so young and naive and thought there was nothing wrong with it as I'm sure alot of young girls do today but they WILL regret it when they get older and have a child. It is then when you begin to think of the awful thing you did. It is something that I will always regret doing. Emotionally, it kills me everytime I think about it.

10. How has your abortion affected others in your life?

I never told anyone.

11. Based upon your experience, what would you tell a woman considering abortion?

I would ask her to research the different methods on the internet so that she can KNOW exactly what it is she will be doing to her baby and hopefully choose to keep it or give it up for adoption. I would tell

how about how she will regret it as she gets older and has a child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Alot of the girls who are having abortions are probably young and uninformed as I was. I ask that you make it illegal for women and girls to have abortions. I know it goes into a womans rights but what about the babies rights? Do they not get a chance to voice how they would feel about being cut up into pieces. If it contues to be legal I beg that when women and girls choose to do this that whatever facility they go to make them watch a MANDATORY short film on what it is they are doing to their babies and SHOW them how their babies will be ripped apart. I know that if this happens many women/girls will change their minds. If they don't, they just don't have a concious.

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

Vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one talked to me about the reality of an unborn child. I saw my baby on the ultrasound though and that haunted me for a long time after.

5. Were you adequately informed of the consequences of abortion?

Yes No

It wasn't painted as even having consequences, more like a "get out of jail free" card, no one told me how hard it would be after the fact.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents

9. How has abortion affected you?

I have since found healing, but after it it wounded my heart badly, I struggled with anger and depression until I found healing.

10. How has your abortion affected others in your life?

It put my marriage at risk. Since the Lord has changed my life it has been a catalyst to share the truth about abortion with others.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to do it, it is the choice that ends all choices. <http://dianalovestowrite.blogspot.com/2009/01/why-i-am-pro-life.html>

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

That they are ignorant to the damage it does, not only to the unborn child but to the people who are affected by it, even those who "choose" it.

I've felt guilt for all these years. It's horrible.

10. How has your abortion affected others in your life?

N/A

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. If you're young it seems like the only alternative and at first you're relieved. You might not think about it until when you get older and start feeling bad about not taking advantage of other options at the time.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

All life is sacred. There are much better options than abortion. Think of all the people we would have walking around if there were no abortions. People that could make a difference. Be the next president, a ceo, scientist, doctor, artist..... the list could go on and on.....

9. How has abortion affected you?

IT BROUGHT A LOT OF HURT,PAIN AND SHAME. IN THE BEGINNING YOUR TOLD THAT IF YOU DO IT UNDER 8 WEEKS, IT'S NOT A FULL FLEDGE BABY. THAT IT'S STILL AN EMBRYO.

10. How has your abortion affected others in your life?

IT IS BETWEEN MY HUSBAN AND I. NOBODY ELSE KNOWS STILL TO THIS DAY.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT! YOU HAVE TO TAKE RESPONSIBILITY FOR THAT BABY. WHETHER YOU KEEP IT OR GIVE IT UP FOR ADOPTION. BUT DON'T KILL IT.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

SO YOU WANT TO MAKE MURDERING BABIES LEGAL. THAT'S WHAT IT IS, MURDER. WHETHER YOU HAVE IT DONE BEFORE 8 WEEKS OR AT 8 MONTHS. IT HURTS A WOMAN PHYSICALLY, MENTALLY AND SPIRITUALLY. SO NOT ONLY DO YOU MURDER A BABY BUT THE MOTHER IS LEFT SCARRED FOR THE REST OF HER LIFE. ESPECIALLY IF SHE DOESN'T KNOW JESUS CHRIST. AT LEAST IF YOU KNOW JESUS HE CAN HEAL YOUR PAIN, FORGIVE YOU AND LOVE

YOU UNCONDITIONALLY.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of USA

My name is Elizabeth I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Diego CA

11/20/1980

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Suction Abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No I was not informed as to what the suction would do to my baby.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one explained to me the pain I would endure physically and emotionally nor the consequences of having an abortion. I was not informed of how guilty I would feel.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My doctor at the time and a couple of my friends.

9. How has abortion affected you?

I had no idea just how badly I would feel afterward both physically and emotionally. At the time I felt it was an inconvenience not knowing that I would never have children of my own. At the age of 41 I had a full hysterectomy and the fact that I killed the only baby I was ever going to have set me into a deep depression. I gained a lot of weight and have had to work through that depression.

10. How has your abortion affected others in your life?

My abortion occurred from a "one night stand". Years after I had it my mother found out and she was saddened and heart broken that I would do such a thing. I lied for years and said that the child was from an old boyfriend that had long since been gone. 18 years later he returned into my life and my mother told him that I had aborted our child so the lie continued until her death. I did become a Christian and even though I now have God in my life I had a real hard time facing the people who were pro life here in our church. They would bring pictures to show of what a fetus looks like and it broke my

heart even more to see what size my baby had actually been when I decided to abort it. After much prayer I was able to receive the forgiveness that Christ has for me but the guilt remained for many years. I was finally able to tell my old boyfriend that the baby was not his. He sighed a big sigh of relief because he could not understand how I could have aborted our child if I truly loved him. The scar of doing that still remains in my heart but I am able to take that experience and warn others of the consequences.

11. Based upon your experience, what would you tell a woman considering abortion?

Pray and consider the options. The world's answer is to abort an unwanted child but that is not God's answer. I would also let them know that they will never forget it and that having an abortion can lead to breast cancer. I never understood when I would go to a new doctor why they wanted to know how many abortions I had gone thru. Never had I been told of the higher risk to breast cancer because of having one. That is something that was never shared with me when I did have my abortion. Not by the Doctor who referred me nor the Doctor who performed it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We have become a very screwed up nation when we believe that we have the right to kill unborn babies. I have heard the arguments that what if this and what if that...does the baby also need to suffer? Is it the baby's fault that someone raped his/her mother? Does one wrong mean that we have now the privilege to commit another error? If abortion had not been an option when I did it I would have a child now and he or she would be 27 years old now. I imagine all the things that they would have been able to do and how blessed I would have been to have gone thru with the pregnancy. Life is hard enough without giving our women another tool to screw up their lives. Choosing life is much more honorable than choosing to end someone's life because of our selfishness. Bad things happen to many of us but the answer is not to turn around and commit an error that will effect our lives forever. I am ashamed of our country and the shameful way we treat our unborn, unwanted children. We lost a few thousand people in 911, but who are we to judge when we have killed hundreds of thousands of babies in the name of choice. Shame on America, our forefathers would be devastated to see where we are today.

The State of CA

County of san diego

My name is maricela contreras. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Diego CA

07/06/1996

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that the "pregnant tissue" would be sucked out into a container. By calling it tissue, I was disconnected from my feeling towards it being a baby, a life -A Human!

5. Were you adequately informed of the consequences of abortion?

Yes No

I was only told not to go swimming for 6 weeks so that I wouldn't get an infection, I was never told that I would feel like the Life was just sucked out me and have nightmares about baby graves and so forth!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I turned to alcohol to numb my feelings shortly after the abortion. I started drinking heavily, everyday because I could not live with myself. Everywhere I went, turned etc, I was faced with this overwhelming guilt, I had nightmares of babies being buried in my back yard, and finding myself in swamps of buried babies in their strollers. I just felt guilt!

10. How has your abortion affected others in your life?

My husband was the only one affected, since he was the one who would find me hunched up in a fetal position, crying and crying and nothing would soothe me. I cried as if I had actually lost a child that had been born and lived. It was hard for him because he didn't know what to do. It wasn't his child I killed so he couldn't understand---It was hard.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT!!!! I have managed to sway one person from making the mistake and I told her everything I

felt. First of all, pro-choicers tell you that it is not a life and not a baby inside of you, but the minute the vacuum sucked out my baby out of my uterus I felt that life gone! You can actually feel that life go out from inside of you!! My aunt died in front of me and I felt her life go it was the same feeling, but worse, because this was my child. I would also tell her about all the devastation and guilt I felt for many years!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The only thing I can tell the court is my own testimony.

QUESTIONS

1. Where and when did your abortion occur?

Montclair CA

//1974

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

At the time I was told that there was nothing but a blob of tissue, nothing was there.

5. Were you adequately informed of the consequences of abortion?

Yes No

I do not recall

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The man I had sex with and myself

9. How has abortion affected you?

To this day I have had to deal with killing a person. Without the forgiveness of my sins by my Lord and Savior Jesus Christ I could not bear the thought of what I now know that I have done, killing an innocent human being. I strongly believe that as long as the government has our tax money going to the likes of Planned Parenthood this will continue. I say that as I went back a second time to kill another human being, I had an escape, someone else to pay for it and no one would know. As a frightened young person, knowing that this behavior was wrong having an abortion was my coward way of escape. I am ashamed of my behavior to this day and I am not proud of what I have done. It brings tears to my eyes now as it did right after I found out there was a real live being in my stomach. When I had a miscarriage due to my lining having gaps in it I was devastated at the lose, due to my decisions several years before, another life gone. For anyone to say that it does not effect you they are totally wrong. I have eve sent a letter to each of the Supreme Court Justices several years ago telling them of what it has done to me. I have not heard back but I did state my case on how wrong it was.

10. How has your abortion affected others in your life?

Other than my husband, my 3 grown daughters do not know, I am ashamed to tell them because I speak out against how wrong it is.

11. Based upon your experience, what would you tell a woman considering abortion?

Yes, the fear and being ashamed is real. But you can give the baby up for adoption. It would be far better to give up this baby to a loving family than live with the regret forever and ever. If you do not know the Lord, Jesus Christ as your Savior, I cannot think of how unbearable it would be, emotionally, physically and spiritually.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If you do not want a baby do not engage in sexual activity. Stop funding Planned Parenthood, as long as the money is there to kill, it will not make people consider their actions, why, because they have a way out. Consider yourself in the babies position, who the heck want's their brains sucked out and knowing that who would have the self righteous act to kill in such a manner.

QUESTIONS

1. Where and when did your abortion occur?

02/10/1983

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

D/C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It was a long time ago; everything was called "tissue." There was very little discussion; the procedure was not even outlined. I was asked if I had any questions.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told of the possible dangers; I was not told I would have heavy bleeding and would not be able to work. It was presented as a simple procedure.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have a deep sense of loss, and sometimes even now, almost 30 years later, wonder about the child I allowed to be killed. I suffered emotional distance from my entire family as I hid this secret from them all. No one knew. My own mother didn't find out until 25 years after the fact.

10. How has your abortion affected others in your life?

It ended the relationship I was in at the time. My mother was shocked that this had happened over 25 years ago.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't end an innocent life. At least give the child a chance to live; let it become a member of a loving family who wants a child.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

There are no excuses for our selfishness and a 'woman's right to do with her body as she wishes' doesn't stand in the face of the fact that her decision affects another life. If she would want to cut off her own arm, ok, it's her arm. A baby is not a spare arm, or a mole or wart to be cut off because it's inconvenient.

my boyfriend at the time

9. How has abortion affected you?

I suffered a very sad loss that caused me to "numb" myself for a long time, making very bad choices in my life and relationships. I still feel sad and a loss every time I think about it.

10. How has your abortion affected others in your life?

My daughter was crushed when I told her about it. I am very over-protective of my children, and I believe that in some way I've tried to make it up to the child I aborted by "smothering" and over-mothering my children.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT! You will never forget it!That baby deserves life, whether with you or someone else!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Please reconsider. These girls can never really be prepared for the effects of this decision. Most of

them are not mature enough to realize just what they are getting into, let alone the gift of life that we are doing away with when we have abortions.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of San Diego

My name is Jessica Green. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

La Mesa CA

09/08/2001

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

under twilight

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

For 6 months after the abortion, I couldn't yet come to terms with going through the abortion. I finally was able to ask God to forgive me but was on the brink of insanity--literally. It took another 6 months or so before I could come out of an intense depression and an almost state of paranoia. I was 29 when I had the abortion and had an 18 month old daughter at the time. I remarried 2 years after the abortion and have been married for 6 years now. My husband wants kids but something inside of me doesn't want to get pregnant again. It's too painful to go there. I've healed since, but it has left a tremendous void and scare on my life. Government is not helping women by giving them the option to abort their child. It shouldn't even be an option. There are consequences to having sex outside a committed relationship and having a child that isn't planned, but the consequences and fallout from an abortion are worse and far greater to the woman. The emotional and spiritual fallout--which no one can see but the person experiencing it--is monumental.

10. How has your abortion affected others in your life?

I wanted to keep the baby but the father wanted me to have the abortion. His family was inheriting \$86 million and he said my getting pregnant would hamper his part of the inheritance. I thought that having the abortion would help save the relationship I was in because I wanted to be with him. The day of the

abortion, he took me to the clinic, out to lunch afterwards, and then dropped me off at my house. I didn't ever hear from him again--not even a phone call. I not only lost the person I was dating seriously but I also lost the child I wanted to keep.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that even though the responsibility of the child isn't in your life anymore, the child doesn't escape your heart or conscience. Even if you don't feel it at first, there will be a time in the future when you have to come to terms with it. Then I would let her know adoption is the better alternative. Either have the child and raise it or have the child and let someone else raise it. Abortion is a lie--it doesn't make your life easier emotionally or spiritually.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The court needs to understand they are allowing women to make a choice at a completely vulnerable point in their life. The woman has gotten pregnant and it's not planned. The woman is vulnerable. The court needs to understand that a woman ultimately doesn't want to end the life that has begun in her womb and that if she could, she would let the child be born. But because the law gives us the choice, we try to convince ourselves that it's OK and it allows others to pressure us into that decision whether it be pressure from the father, our parents, etc.

HOW MY ABORTION AFFECTED ME

The State of CA

County of San Bernardino

My name is Janis I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Reno NV

07//1979

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not informed of the stage of development, just a general description of what they would do.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me of the psychological ramifications of an abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I cannot begin to describe the incredible guilt and shame I feel on a daily basis. The nightmares I've had over the years about MY CHILD and how I have murdered HIM/HER. It is something that has haunted me for almost 20 years and will continue to do so.

10. How has your abortion affected others in your life?

My subsequent children are aware of it and feel a sadness for the brother/sister they might have had. Each one of them are STRONGLY ANTI-ABORTION as I have made them aware of what truly happens during an abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

I WOULD BEG, PLEAD, CAJOLE, anything to get her to reconsider. I would tell her everything the abortion providers NEGLECT or AVOID discussing. It's the end of another human life!!! How is that condoned??? Adoption is always a better option than murder!

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I would ask them how can such an act be condoned when what is being sucked in pieces into a sink is the beginning of a human life? Does one life have more importance than another? When a woman (and man) decide to engage in sexual intercourse without protection, they take the chance of creating another life. If that occurs, then the woman cannot claim "It's MY BODY/ MY CHOICE!" She now shares that same body with ANOTHER HUMAN BEING and who should have the right to take a human life without consequences? I believe in a womans choice - THE CHOICE WHETHER OR NOT TO ENGAGE IN SEXUAL ACTIVITY, WHETHER OR NOT TO USE PROTECTION, WHETHER TO KEEP THE CHILD OR GIVE IT UP FOR ADOPTION!!!!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of San Bernardino

My name is Lorraine Johnson. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Montclair CA

04/19/1997

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told that I would be opened up and suctioned out. I did not realize that my baby had a beating heart. I did not get to hear the beating heart. I was not shown pictures of the fetal development. I was denied an ultrasound. I did not realize that a perfectly formed baby was inside me. They made me think I had a "blob of tissue" inside of me.

5. Were you adequately informed of the consequences of abortion?

Yes No

No, I was not informed of the consequences of my abortion. No one told me that I could experience post-operative depression and trauma. Neither did they give me any other resources for my pregnancy besides their abortion. I did not know at all the risks that came with the surgery. I felt that they only wanted me to get an abortion and get out.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Dr. Newandee, Dr. Stevens & the "Family Planning"

9. How has abortion affected you?

The abortion that "Family Planning" in Montclair did wounded me. I was "botched". They infected me with something and I had to return the following day to have the disgusting procedure redone. This specific event was the trigger of post-traumatic stress response in my life. After, I used drugs, sex, and anything to numb up the pain I had been through. I ended up being hospitalized for severe anxiety-depression for 2 months, on two separate occasions because of this. I also had developed ovarian cysts, that needed to be removed because of this abortion.

10. How has your abortion affected others in your life?

The abortion made me not deal with reality. I began to try and escape reality through drugs and partying. I missed out on opportunities to develop normal dating relationships with men. Instead, I gave my body away, because I felt so horrible about what I had done. I was very promiscuous and suffered many infections as a result of casual sexual relationships.

11. Based upon your experience, what would you tell a woman considering abortion?

From my experience, I would tell women that they deserve better than abortion. I would let them know that an abortion doesn't solve a "problem", but in fact that it creates many more. I would tell her "I regret my abortion". I would suggest adoption, and getting all the facts before she makes the worst decision of her life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that abortion promotes obscene and profane behaviors to womens health. I would let them know that my abortion experience was detrimental to my mental. physical and spiritual self. Under no circumstances should abortions remain legal. They violate the constitutional provision to the right of "LIFE, liberty and the pursuit of happiness"

My name is Roberta I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Phoenix AZ

08//1970

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

I'm not sure, like a D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I wasn't told that it is harmful psychologically to the woman and that it is actually ending a life that was begun.

5. Were you adequately informed of the consequences of abortion?

Yes No

I didn't know that I would suffer depression and serious suicidal thoughts afterwards.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

it left me feeling very guilty and unable to tell anyone about it for many years. The good thing is, I found Jesus after that and He forgave me and helped me to go on without having to carry such a heavy burden of condemnation, and he gave me three more beautiful children since then!

10. How has your abortion affected others in your life?

I'm not sure.

11. Based upon your experience, what would you tell a woman considering abortion?

I was tell her that she will be sorry, that the decision to end that life will seriously condemn and haunt her and we will probably have to face that child in heaven one day. 'Don't do it.' Your choice has a consequence. Babies are work and they change everything, but they are truly the one thing you will never regret having!

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I would say, don't be so rash. Don't make it so easy. Be sure the mother can know both sides before allowing her to make such a major decision of destroying a life. I am not a Catholic, but I would quote Mother Teresa who said: The greatest destroyer of peace is abortion because if a mother can kill her own child, what is left for me to kill you and you to kill me? There is nothing between. And--isn't killing illegal?

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was given a brochure which I didn't read because I was so conflicted with the moral decision. I didn't realize the complications of never having more children or possible death.

5. Were you adequately informed of the consequences of abortion?

Yes No

I didn't realized the emotional pain would never go away! That I would always search for that missing part of myself, the part I had carelessly eliminated.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It affected my relationship to my other children and my sense of loss has been overwhelming at times.

10. How has your abortion affected others in your life?

They judged me for my failure and they lost confidence in me as a person with morals.

11. Based upon your experience, what would you tell a woman considering abortion?

Will you never think of this as a child again? Can you eliminate this child from your heart as well as your body. What will you do when you are judged by God by this child as to why you chose abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

What contributions is the world missing by eliminating these souls. Are you willing to carry on your soul the destruction of millions of babies to God. What authority gives you the right to destroy what

God has created.

9. How has abortion affected you?

Many ways; making me feel dirty, my self-esteem is lower still to this day. Not being able to be closer with my own husband.

10. How has your abortion affected others in your life?

It hasn't because I was told not to say anything to anybody....I have only told a few family members

11. Based upon your experience, what would you tell a woman considering abortion?

Oh yes, I would want to sit down and share my experience and help them to not go through with it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That abortion is wrong, that you are taking that life that is growing inside the womb. Life begins in the heart of God, and when these girls go to get an abortion they are not being able to see that precious face that comes out of the womb in giving birth....and if it needs to be that adoption happens, that is

what they should do!

QUESTIONS

1. Where and when did your abortion occur?

San Diego CA

02/02/2007

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

I don't remember. I just remember a suction machine being used

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I chose to abort, as a sort of "after -the-fact" contraception. It would hide any embarrassment I would cause. Aside from the cost, I was unaware and unprepared for the emotional fallout afterwards. I thought the abortion would erase the pregnancy as well as feelings or afterthoughts. I thought I'd be able to move on with my life. It is always in the back of my mind. My feelings immediately after were of relief. Relief, because I no longer had the morning sickness. Yet, I was in a calm panic of "what was I thinking, aborting a life that never had a chance"? Even thoughts of "How can I go back to change what just happened?" No one explained any after-effects about how I would feel, what to expect afterwards, and who can I turn to? The abortion clinic staff told me what to expect before, during, and after the procedure. They spoke in medical terms. But they didn't discuss emotional effects. They didn't provide counseling prior to my decision--that's not something they do at that time (but say it is available). They never mention providing counseling afterwards. I felt empty and yet wanting to be held as if I did something wrong. I thought, I can't go back. From the first day, I wish I tried to stop the experience, but now, what can I do? Although I felt relief, I was upset with myself. I felt that I was looking for blame, and felt angry in my time of peril.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Emotions can come and go. I think about what could have been. My niece and my child would have been the same age. I am very emotional writing about this now. I have sincerely become a pro-life

supporter. I wish to help women considering an abortion to understand the emotional and physical effects. My abortion was performed in a Planned Parenthood surgical clinic. I no longer wish to be involved with anything that has to do with supporting Planned Parenthood. Just as they treated me as a business transaction to decide to abort, or pay a higher fee because of the timeframe involved, I no longer wish to be a part of anything that has to do with Planned Parenthood. I get emotional when I've found myself driving in the same neighborhood of the clinic. Now, I try to avoid driving near there altogether.

10. How has your abortion affected others in your life?

It is still a secret that I hide from almost everyone I know. I don't mind sharing it with those I believe to trust, but I can only share my story and how it has affected me.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell the woman to please reconsider, regardless of the circumstances. There are places that I can refer her to, and places that are willing to help. I would advise against the abortion because of the facts that most women do not understand and may regret later in life. I would support her decision if she chose to carry the child(ren) to term and relinquish them for adoption. There are positive options besides abortion, with so many people willing to help. In my situation, I happened to find counseling and a retreat in the month following my abortion. Many women hide their emotions and their issues many years after their abortion(s), only realizing that many of their life choices were based on having had an abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe they should carefully consider testimony of people willing to come forward with their stories of how abortion has affected them. The Court indicates there is no reliable data on the source of the problem. This is because medical reference books and journals do not consider nor recognize abortion as a Post Traumatic Stress Disorder (PTSD). Therefore, how can any research be based on something that does not exist in writing. The information needs to be gathered before it can be presented. Critics are always looking for credible justification with scientific data to prove theories and outcomes. The abortion scenario is a critical subject only used to promote political opposition without realizing how it affects the people to whom this secret is kept--like me.

8. Did anyone pressure you into having an abortion?

Yes No

Society. At 16 in 1972 there was no help for me.

9. How has abortion affected you?

For 16 years after the abortion I had depression. I was an over protective mother, fearful something awful would happen to my children. Panic attacks came out of no where. I found counseling through a local crisis pregnancy center. They were able to help me where no one else could.

10. How has your abortion affected others in your life?

I had suicidal thoughts which caused my husband great sorrow. My mothering skills were over protective. I could not experience joy.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her the TRUTH. Abortion is never the answer. Abortion destroys not only the life of HER baby but her life as well. YOU NEVER FORGET. It's an emptiness that you forever try and fill. It's an emotional pain like no other. People will say they could never carry their baby to term then give it up for

adoption...how can they expect to participate in their baby's death and be unscathed?

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We are a governed society. Because we know how detrimental things such as prostitution is for a woman we have laws that prohibit it, thus protecting her in the long run. Same with drug use. We have helmet laws, seatbelt laws, talking on cell phone while driving laws! How can we not use common sense and prohibit such a tragic medical procedure?

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of USA

My name is Cindy Broese Van Groenou. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Simi Valley CA

03//1973

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They didn't explain anything to me about the procedure or offer any other options. I was told that I could get an abortion without my parents knowing about it and that I could just tell them I was spending the night at a friend's house. They said it was no big deal because it was "just a mass of tissue." The only counseling I got was from my doctor who said, "This could cause you to never be able to have children."

5. Were you adequately informed of the consequences of abortion?

Yes No

Just that it could cause me to never be able to have children, as mentioned above.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

There are so many missing pieces. Although it has been 36 years, new things come to my mind on a regular basis. Only recently did I realize I had a two day procedure because the night before, in the hospital, they inserted something into my cervix. I now know it was probably lameneria because they said it would help open me up. I get really sad and cry from time to time thinking about that little baby and how our family would have been had he been in our lives. I have difficulty making decisions. I have a lot of regret for what I did. Even though my experience would probably be considered a "good" one, I wish I could go back and undo it.

10. How has your abortion affected others in your life?

Basically, I have used my experience to help others to see their options and make informed choices. I

would like to believe that I may have made a different decision had I known what I know now. Abortion is not the answer to an unwanted pregnancy. I have found forgiveness and forgiven myself but I have worked with others who can't find that place and have severe problems.

11. Based upon your experience, what would you tell a woman considering abortion?

To know that it is a decision of a lifetime. To know that the majority of women regret their abortions and suffer because of that choice. If someone isn't ready to parent, they should consider adoption so they can not only give their child life, they can bless another family unable to have children.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

An unborn baby is a human life and abortion is a barbaric practice for a "civilized" society. Women everywhere are suffering because of their abortions. Many are suicidal or addicted to alcohol or drugs. Their relationships are fractured. They are "walking wounded" and need to be helped not by saying it was legal and okay but validated for the grief they feel.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of Humboldt

My name is Karen Cooper. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Monterey CA

02/01/1971

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

A friend suggested I visit a certain doctor who performed "therapeutic abortions". I don't recall the doctor ever suggesting I consider any alternatives to abortion. In fairness to him, I will say that I was pretty determined to have one.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was referred to a psychiatrist for evaluation before the procedure - he said he felt I would be very depressed if I had to continue the pregnancy, and that any sadness I felt after an abortion would be fairly easy for me to deal with.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I haven't talked about it very much (until recently) - I pushed it down and avoided the whole issue. I would say this produced a certain hardening of my sensibilities - avoiding the fact that I denied life to a child within me.

10. How has your abortion affected others in your life?

I believe that I wasn't as loving toward my husband and my children as I might have been in light of the hardening I mentioned above. Recently this has changed as I attended an abortion recovery program and I now volunteer in a Pregnancy Care Center.

11. Based upon your experience, what would you tell a woman considering abortion?

I tell them (in my volunteer work) to please take some time and really explore options, and really think

things through. I tell them that this stays with you for your entire life, that it is a major life decision with far-reaching consequences.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I think the biggest factor at work here is the human ability to deceive itself. There are two forms this deception takes: 1. Abortion destroys a life. Anyone with any sense knows that. I knew it when I chose abortion; I just hid it from myself. When we as a society condone abortion, we are saying we support murder. 2. Abortion is fundamentally a selfish act. The woman does not want to be inconvenienced, is unwilling to make the sacrifice. This was true of me when I chose abortion, and I believe - and see - that it is true in the women today who choose it.

2. How many weeks pregnant were you?

3. What type of abortion was performed?

Don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I basically wasn't told anything except that an abortion would make the pregnancy go away. fetal development was not explained at all.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never told there were any consequences

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend

9. How has abortion affected you?

I have had severe depression and have been on medication for the past 15 years. Probably should have been on it for 15 years before that! After the abortion I became very promiscuous, used drugs and alcohol almost daily. I became absolutely obsessed about having another baby.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

Not to even consider it. The after affects are not worth it besides it is anabsolutly violent murder of another human being.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

How can ripping babies apart in the the womb be beneficial to a woman or even tolerated by society?

Whales and other animals are protected but the most innocent human being is left to the "choice" of an often frightened young girl. This is crazy!

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

suction aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I do not remember being told anything.

5. Were you adequately informed of the consequences of abortion?

Yes No

Absolutely not. They took my money, I waited my turn, they sent me home.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Depression, low self esteem, extreme fear over something happening to my living children, never feeling whole or normal.

10. How has your abortion affected others in your life?

My husband has suffered and he had nothing to do with it. I have not been able to be completely myself with him. My poor children have had a very over protective, fearful mom.

11. Based upon your experience, what would you tell a woman considering abortion?

It will alter the rest of your life. You will never be the same. It is extremely hard to forgive yourself. You will regret this decision. You can never take it back.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them to kill somebody and then see how easy it is to live with that knowledge for the rest of your life.

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

vacuum??? Not exactly sure.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't think anyone really cared if I understood what was happening. There was no real communication about anything, just sign on the dotted line and wait your turn.

5. Were you adequately informed of the consequences of abortion?

Yes No

Abortion leaves emotional scars that last a lifetime. No one talked to me and asked if I was sure of what I was doing. I was 21 and already had one child. I felt like I was just one of many procedures that would be performed that day - cold, indifferent, and non-caring. I felt horrible and was very scared. My husband DID NOT want a child and I was scared to go against his demands.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My husband

9. How has abortion affected you?

It has been a long time since my abortion and I feel that my babies (yes more than one) are with God and that I have been forgiven for murdering a precious gift. There are scars that will never heal but you learn to live with the pain the same way you learn to live with the pain of losing a loved one, however, you are always aware of the mistake that you made.

10. How has your abortion affected others in your life?

It has not affected my family as I have not shared with them the real pain it caused me. I refuse to allow a mistake that I made 30 years ago continue to affect my life. I have moved beyond the real pain but continue to feel the loss.

11. Based upon your experience, what would you tell a woman considering abortion?

DONT DO IT!!!!!!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Why? So some young lady that doesn't want to take the pill can use abortion as birth control. I know someone that has had 6 abortions and NO ONE has ever stopped to ask her why she continues to make the same mistake. She is scarred for life and may not be able to have children due to scar tissue. Six abortions at the same place....makes you think that they are still just having the patient sign on the bottom line and just wait your turn! Sad...

QUESTIONS

1. Where and when did your abortion occur?

San Diego CA

04/08/1995

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I wish I would have seen a picture or ultrasound to see what was really growing inside me. I wish I would have been counseled on actual positive options. I was just scared . I was so naive and misinformed. I was obviously concerned about the fetus when I asked the girl who I thought was a medical assistant if she thought the fetus would be hurt by my use of drugs two times. She just shrugged her shoulders and proceeded to schedule me the abortion. I wish she would have recommended me to a doctor who would answer my question and show me a ultrasound of that beautiful baby.

5. Were you adequately informed of the consequences of abortion?

Yes No

I did not realize that it would lead to self-hatred , depression, obsessive suicidal thoughts, feelings of failure, worthlessness,inability to forgive myself, self destructive behavior. I did not realize that I would carry the huge burden of knowing that I killed my child and did not give him or her a chance at life. And imagining what I missed which I thought about after I experienced mothering my two latter children. The only thing that has given me peace is the belief that God and my baby forgive me. Also it adds to my drive to be a better person, so that hopefully we can all meet in heaven some day.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

As I explained in question 5, depression, suicidal thoughts,self destructive behavior, self hatred. Enormous amount of guilt and sorrow for having killed my first baby. Huge sense of remorse, loneliness and emptiness in living our lives with my first baby misssing from our lives.

10. How has your abortion affected others in your life?

My self destructiveness of the first 10 years after the abortion affected my parents and sibling as I hurt them by hurting myself. I have hurt my husband and my two living young children with my depression. Not to mention that my parents have struggled with wishing they could have done more to support me having their grandchild , and my children missing out on loving their sibling.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to spend some time seriously thinking about having that beautiful baby. To get an ultrasound so that she can see it. To talk to a priest or minister who can give her the right outlook and support. To see a Doctor who will educate her on the fetal development of her precious child. To pray, that she can do what Jesus would do. I would encourage her to get a support system of pro life people of which I would be a part, so she is not being so influenced by the pro "choice" people surrounding her. And so she begins to see the light at the end of the tunnel and realizes that she really does have options of good moral choices that she can make. I would tell her about the real psychological consequences she will suffer for example depression, addiction, suicidal thoughts and many other things that women suffer. Worst of all having to live with the reality that she killed her baby and will never know him or her in this life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

From the moment of conception it is a life. The little growing fetus is obviously alive. Abortion is murder. People who have had abortions will eventually realize it, after they try to avoid and numb the pain they will face that truth which will cause severe emotional trauma and a huge sense of loss.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of Kern

My name is Debbie Woods. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Los Angeles CA

//1971

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

vaccume

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one really explained anything about any procedure. I was fifteen and a half years old, and all I knew was I was pregnant, and I really didn't understand abortion except that it was all tissue, and it would be removed. No one said this was a forming baby, or that this child had nerves, blood vessels, feelings, or anything else. At the time. I had no idea what I was doing. My sister drove me to L.A., and it was done. No one told me I would be angry with myself for tearing a part of me out, or the regrets, or crying. I'm not talking day's but a lifetime. See I've had three beautiful children since then and the oldest is 30 yrs old. They don't tell you that you'll wonder what those children would have looked like would their eyes be blue or green, or their hair blond, or maybe that baby looked just like you.or the wonderful abilities they would have been blessed with, or the times you would have laughed together. My only consolation is that Jesus lives in me, and I know that someday I will see this baby, and I will be able to say I love you. No explanation, that's my hope beyond hope. Thank you for letting me share my story, and I pray somehow, some way abortion will be overturned, until then I'll continue to pray. Oh yes, now I'm part of Youth for Christ, and I mentor teen mommies, so they won't give up those babies, we even provide all the necessities for mommy and baby. There is Hope. Debbie Woods.

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

No but it was highly suggested

9. How has abortion affected you?

I've learned how to forgive myself, but it wasn't easy

10. How has your abortion affected others in your life?

I met a young girl who had her first baby at 15, and she was pregnant with her 2nd when I found out she was considering abortion, I brought her home to live with us, and let her know we would have everything she needed to have this baby. She ended up marrying our son, and now they have three children.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it, everything will work out, if you don't want to keep your baby, there are resources out there, and people who would love to be a blessing in the life of a child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I personally don't think this decision should have ever been up to the courts to start with. Every case is different, only in the case where a mother's life would be at risk, should it have ever been considered. Life is a precious gift, and our supreme court should never have gone beyond the will of the people to start with. I'm not quite sure as to what happen to WE THE PEOPLE, and if parents had been asked for consent, before their teen went out for an abortion, I believe their would be many more children alive today. I really don't think thde supreme court has a true understanding of what this does to a persons ability to go on with life or even walk in guilt or low self esteem because of the choice that was made.

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I basically was just told where and when to show up and that it would be performed.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told NOTHING.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It affected me in that I ended up with anger issues, lack of intimacy problems, physical problems with menstrual cycles, and a deep sense of loss, grief and regret.

10. How has your abortion affected others in your life?

Others have been the victim of my anger and problems with developing and maintaining intimacy.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that abortion is NOT the quick fix that she has been led to believe. What might seem like an easy solution to a short term problem will only result in more severe and longer lasting problems in the future. You cannot take an innocent life and not suffer the consequences - physically, emotionally, mentally, and spiritually.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that they are NOT doing women a favor. They need to consider all the ramifications of abortion and make it as illegal as taking a gun and walking up and shooting someone.

The State of CA

County of Fresno

My name is H H I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Detroit MI

03/13/2000

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

I do not remember the details

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was aware of what they were going to do as far as the abortion was concerned, but as far as understanding the pain and heartache that it would later cause me, no I did not understand what it does. I was fifteen at the time.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was informed that it might cause some health problems, but those types of things rarely ever occurred.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

I was raped

9. How has abortion affected you?

I have severe depression, mood swings, and constant regrets. I am in recovery for alcohol and drugs and I truly believe that this choice to have a abortion is one of the reasons that I drank and used for so long.

10. How has your abortion affected others in your life?

Those around me have had to put up with all my emotional issues.

11. Based upon your experience, what would you tell a woman considering abortion?

That it is not the right choice. There are so many other options when you become pregnant. The baby did not asked to be conceived, so therefore I do not believe that the child should be condemned to death just because he/or she is a inconvenience to us. Weigh out your options before you make the wrong choice, because it is something that definitely remains with you for the rest of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It should be illegal. I understand that things happen, but I do believe that we that we should educate our children on abstinence or emphasize the dangers of unsafe sex. If abortion is allowed the least the government can do is be truthful about th physical, mental, and emotional dangers that it poses. I do not condone abortion, I just thik that it is another easy way to get out of a responsibility. America is turning into a heathen nation that does not fear God, don't you think that it is time we stand up, stop conforming, and fight for what is right?

HOW MY ABORTION AFFECTED ME

The State of CA

County of Orange

My name is Sarah I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Orange CA

06//2004

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

the boyfriend who got me pregnant

9. How has abortion affected you?

I felt and still feel so much emotional pain and guilt for what I have done to an innocent baby. I know an abortion is not natural. If I could go back I would have kept the baby full term. I can never go back and I can never remove the scars left behind.

10. How has your abortion affected others in your life?

I have kept it a secret from friends and family members.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to do it. You can never go back and change what you've done. You will always remember who could have been on this Earth.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You should consider not only the physical problems but also the emotional effects women experience after having an abortion.

HOW MY ABORTION AFFECTED ME

The State of CA

County of fresno

My name is Luisa Casados. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

fresno CA

11/19/2001

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told what was going to happen, How mature the baby was, or All the side effects from abortion such as depression or medical complications. The one thing I do remember being told was that it was a good thing I caught "this" on time. I truly feel like I was let down on receiving the proper medical information on what abortion really was. I received way more adequate information when I had my wisdom teeth pulled.

5. Were you adequately informed of the consequences of abortion?

Yes No

No. no one ever mentioned what might happen if I had complications. No one told me how depressed one could feel soon afterwards. No one told me how dangerous it was. My uterus could have been punctured.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my husband, who was my boyfriend at the time.

9. How has abortion affected you?

I feel like I have lost a child. I have three other children and I never look at my family photographs without thinking about my poor little child that is missing, because of the worst mistake I have I ever made. I also have night mares of a nurse cutting me open and taking my baby out to kill it. These nightmares happened more frequently when I got pregnant 3 years later after having had the abortion.

10. How has your abortion affected others in your life?

My husband feels guilty as well. My older daughter who knows mommy lost a baby, often talks about

how it would have been like had that baby been born.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to be aware of all the side effects of abortion. That its not a ball of cells but a baby inside her. I would strongly recommend that she have an ultrasound so that she could see what exactly is going on in her. I would also tell her how dangerous this procedure is, and let her know about other alternatives such as adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We need to stand up for our women and inform them better about what abortion is and what dangerous side effects can come from abortion. It should not be so easy for a women to go in and get an abortion. Abortion is a big life changing experience and should be treated like it. Their should be laws that require women to have to take classes,counseling and watch videos to inform them on what abortion is and does. Especially when those women are young and unsure. I was 18 yrs old when I had my abortion and was going through postpartum depression. I was in no way mentally ready to make such a big decision, but all the abortion clinic staff kept on reassuring me that it was no big deal. What a let down. I feel like my country has failed me, by not making sure that the abortion clinic provided me with the proper medical information about this horrible medical procedure.

County of Calaveras

My name is Nicki Swendeman. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Stockton CA

02/10/1981

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

vacuum aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was a little hazy on exactly how developed my baby was. I only knew it was very, very small.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nobody told me anything about the increased risk for miscarriages or the increased risk of cancer. Nobody told me I might suffer from depression or nightmares either.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have suffered from depression, and had trouble bonding with my daughter who was born after the abortion. I have also had several miscarriages.

10. How has your abortion affected others in your life?

Other than my daughter, I've noticed that the depression affected more people in my life than I thought. At least six other people around me have been adversely affected by my emotional damage I attribute directly to the abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT!!!! Your life will be affected in ways you don't even know, and nobody in the abortion industry(that's what it is you know) will be honest enough to give you sufficient information to make a truly INFORMED decision.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

There is no accidental abortion. It takes planning. "The premeditated(planned) ending of a human life by the hand of another." That is a definition of murder. Read the laws of this nation and then YOU decide if abortion should be legal. I think NOT!!!

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

Not one warning of psychological after effects. Nothing discussed in regards to post-abortive care other than what to expect in bleeding and be sure to follow up with local clinic in two weeks.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend

9. How has abortion affected you?

Dramatically. Self-esteem issues, drug and alcohol usage. Aggressive, controlling behavior. Self-destructive tendencies.

10. How has your abortion affected others in your life?

Withdrawn from parents. Aggressive and angry.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT have an abortion. The psychological effects are incredibly damaging. Please pursue other alternatives such as adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Why proceed with legalizing a surgical procedure that has proven to cause women psychological damage for many years, more often a lifetime? There are other alternatives to unwanted pregnancies.

HOW MY ABORTION AFFECTED ME

The State of CA

County of Los Angeles

My name is Jane Suchner. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Glendale CA

06/14/1986

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

don't remember, the usual clinic kind

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was a practicing but functioning alcoholic at the time and was living on self-will run riot. Some friends tried to dissuade me, but I wouldn't listen. I wish I had listened to them.

5. Were you adequately informed of the consequences of abortion?

Yes No

I thought it was a quick solution; I was mentally unprepared, no job or medical insurance, not yet married (although we did marry 6 months later). I was hoping to conceive, but was not able to.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Doctor's idea of a solution to my alcohol use.

9. How has abortion affected you?

I was not able to conceive again. My husband was not interested in adoption, wanting his own. Although I went through a post-abortion bible study and am reconciled, my husband has not. It is the silent elephant in the room. I tell others what a big irretrievable mistake it was and how much I regret it all.

10. How has your abortion affected others in your life?

My husband, our marriage, both our families. Our child would have been his parents only grandchild. They are without, and so ends his family line. My mother before her death said she would have paid for everything if I had asked for help. I did not know how to ask for help and wouldn't listen to any one's trying to reason with me.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. I was so sure I was being brave at the time, and doing the right thing, when in fact it was selfish, irresponsible and inconsiderate of my husband and families. The mental anguish and spiritual pain isn't mentioned in Pro Choice circles. It's a bad choice and ignores the stirrings of new life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is pre meditated murder. It does not encourage personal responsibility for one's actions but an "easy, affordable" way out that leads to personal stress, family tension and a culture of death in our nation. It is the biggest regret of my life.

QUESTIONS

1. Where and when did your abortion occur?

Chico CA

05/10/1985

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

I'm not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea of the guilt I would feel afterwards, that I was killing my unborn child.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Up until recently, I could not believe God forgave me of the heinous crime I committed, as I could not forgive myself.

10. How has your abortion affected others in your life?

Until recently, only one friend knew I had an abortion. I recently told my husband and he was very supportive of me, not the procedure.

11. Based upon your experience, what would you tell a woman considering abortion?

I would let her know of the option of adoption. Also, I would let her know, in a non-judgemental fashion, the mental consequences of abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would let them know that even though I had the choice, and chose that choice, to have an abortion as a young woman, I feel abortion is a very wrong option to an unplanned pregnancy.

1. Where and when did your abortion occur?

San Jose CA

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Scraping of the uterus-Horrible I know :-(

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't remember.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told of the adverse effect it would have years later. Nor was I not told that it may effect the fact if I might be able to get pregnant again.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

For a long time, because I was in denial, I thought that it was my right to choose. As I have grown, I know that no one has the right to take a life. Only God has that right.

10. How has your abortion affected others in your life?

Yes, I have been quite open with my decision of a 19 year old girl with my adult sons (total 4). Two of them have always been pro-life and would never consider an abortion. One of the two has a 4 year old son with Beckwith-Weiderman Growth Syndrome (a muscle disorder) and he is also autistic. Abortion was never the option as they knew that something was not right from the beginning of the pregnancy. The other two I am not sure which does concern me as I think they may be on the fence. I can only advise at this point being they are all grown men.

11. Based upon your experience, what would you tell a woman considering abortion?

Never-there is always a better answer.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Yes-most definetely!

QUESTIONS

1. Where and when did your abortion occur?

Sacramento CA

06//1971

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told by Planned Parenthood it was "just a blob of tissue." If I had seen a picture of a fetus at the age my baby was, I could never have had an abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was informed of the physical discomfort I would face following the procedure, but never of the psychological damage and deep regret that I would live with the rest of my life. It haunts me to this day, and I am even now writing a book about my experience. I am hoping the process of writing about my pain will bring complete healing, and will also be a means of reaching out to others who have suffered as well.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I live with deep regret and feel I was misinformed and misled by Planned Parenthood. Every year I think of how old my first-born would have been if he/she had lived. I have two wonderful children (now adults), but no grandchildren yet. I torment myself wondering if the child I aborted may have been the only one who would eventually give me grandchildren. What if, in addition to the pain of knowing I murdered the very first life within me, I also killed any chance of having a grandchild to love and adore? The hurt is renewed yet again after 38 years.

10. How has your abortion affected others in your life?

I don't think it has affected anyone else, because it's been a secret between my husband and I all

these years. My husband was the baby's father, but we were young and unmarried at the time. He has been able to forget about it and does not understand my pain. I have only told one close friend, and she has been very supportive and understanding. Her own sister had two abortions, and she knows the pain her sister has had through the years.

11. Based upon your experience, what would you tell a woman considering abortion?

I would beg her not to have one. I would tell her there are other options, and that she simply cannot know the pain and regret she will have later if she goes through with an abortion. It is not a procedure you can go back and change once done.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You are fools. It is the worst possible procedure a woman can have a "choice" for. The consequences are far reaching and while physical healing takes place, the emotional scars that are left behind never, ever go away.

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It was the best thing I could have done. I was addicted to drugs and used drugs through the entire pregnancy, and I doubt I would have been able to quit just to be pregnant and give birth. I made the best of a bad situation. It was either get an abortion or be an addict and give birth to a child that would have been exposed to drugs in the womb. The baby would have been born to a woman who was not at all capable of taking care of herself, much less a child. My only regret was that I got pregnant in the first place - if I had used birth control I would never have been in that situation.

10. How has your abortion affected others in your life?

It hasn't.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that it is up to her to make her own choice about what is best for her. No one should pressure her IN EITHER DIRECTION about a choice that is entirely up to her.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would agree 100% that it should be legal. Ideally, there would be no unwanted pregnancies and so no

need for abortion, but in this imperfect world that's just not the way it is. If you want to do some good, why not help women by educating them on birth control so they don't have to even have the abortion?

QUESTIONS

1. Where and when did your abortion occur?

Chicago IL

06/11/1963

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was extremely stressed out and had no pre-appointment, just came the evening before for some ??? preparation??? procedure and back the next am for the abortion. This of course was before abortions were legal. I was young and frightened out of my mind. It all took place at a cabin on a lake outside of Chicago, have no idea where I was as I was escorted by my fiance.

5. Were you adequately informed of the consequences of abortion?

Yes No

No, not that I could remember, too stressed to remember anything except the cabin, the table the trash can, and the lake where the doctor went fishing.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Just myself, thinking I had no choice

9. How has abortion affected you?

I suppose shame, guilt feelings more than anything. Also, possibly and unwillingness to share many things in my life.

10. How has your abortion affected others in your life?

Each of my two daughters have had one abortion

11. Based upon your experience, what would you tell a woman considering abortion?

To absolutely not consider abortion, but other choices with first choice to be adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Pro choice is all about choosing to kill a baby. Our culture is in decline in so many ways because of legal abortions which I believe have been abused in the most awful ways imaginable. I believe all the horrible stories I have read about abortions, the selling of, the botched procedures, the dishonesty, the money involved, etc. I am just now becoming aware of the damage an abortion does to a woman's emotional well-being.

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

My abortion was performed in 1979. The emotional, physical and spiritual damages were not really considered at that time by the medical community.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

boyfriend, mother, father

9. How has abortion affected you?

I was 18 when I had my abortion and was very much a troubled young woman - in a sick relationship with a 23-yr.-old and others, drugs, alcohol, partying; very unsure what to do with my life; parents divorced and mother struggling emotionally, financially. After my abortion, I was somewhat relieved but swore I would never do that again. I ended up pregnant again at 20 from the same boyfriend/bad relationship. Praise God I had my son (now a wonderful 27 year old man). But after having my son, I realized even more so that I had not only taken a life, but my own child's life. Approximately 1989 I happen to be on an OC freeway near the hospital where I had my abortion and when I saw the hospital, I burst out crying. I was not even thinking about the abortion. Since then, I've received God's forgiveness through His Son Jesus Christ - my only real peace. But I have gone through serious Christian abortion counseling and even writing about it right now hurts my heart. I share selectively this experience. The hardest has been sharing it with my sons in the hope that they will not make the same mistake. I am reminded right now of a girl that was getting an abortion at the same time I was. She had had over eight, and that was 1979. It's sickening. God has been good to me and I am going on my second

grandbaby. But, yes, my heart still hurts to this day for the missing person in my life and my family's life.

10. How has your abortion affected others in your life?

I tried to raise my two sons (now 21 and 27) in the love and admonition of the Lord God Almighty and that He is the giver of life to all and that all life is precious in his sight. Also how precious they are to Him and to me. Then to share with them as young men the abortion I had had was devastating to me as a mother - - did they feel like a burden to me? Was "life" that I taught them was so precious really that important? Does God really care? - - I can only imagine the thoughts and mostly the feelings they were processing regarding their mother who would do such a thing. I have to wonder what a difference this older brother or sister possibly would have made in their lives, in my life? I'll never know this side of Heaven and neither will they. My mother and I cannot talk about it without a lot of guilt and pain. The subject is avoided. I never talk about it with my father. The old boyfriend is an alcoholic/drug addict that I do not have contact with.

11. Based upon your experience, what would you tell a woman considering abortion?

No matter what the circumstance, DON'T DO IT! Give your baby life and possibly the greater sacrifice: If you cannot provide a family, there are many who would gladly adopt your baby into theirs.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

This is a human life. The more science knows about a baby in the first three months, the more we can know how destructive abortion is. These babies do not choose to be conceived and they have NO VOICE to say "I want to live." Yet they tell us by thriving, surviving and growing that they are viable HUMAN life. I personally am sickened that my tax dollars pay for women to use abortion as a form of birth control. I KNOW THIS FROM PERSONAL EXPERIENCE. I am educated enough on partial birth abortion to KNOW beyond a doubt that it is the killing of a baby, the most innocent, helpless of human beings. I PERSONALLY STRUGGLE TO THIS DAY WITH DEPRESSION, GUILT AND ANXIETY - and, yes, I take medication for this - Even though it has been 30 years and I have recieved MANY blessings in my life. I am hoping and praying that someone with good sense will hear the voices of women who have had abortions and regret it deeply. I honestly believe anyone who has had one says "I have no regrets" is either insane or in horrible denial. Thank you.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of San Diego

My name is Jennifer Woerner. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Sacramento CA

07/16/1999

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

NO! First of all I was under age and scared to death so to even understand the lasting consequences for my choice was impossible. Sure they gave the simple explanation. That it was a very routine and gentle procedure (which it was far from gentle). That what they were doing was taking "tissue" not a human life. Very brief and very wrong explanations. They never told me exactly what would happen to the baby. That my baby would be dismembered and that they would have to count to make sure all the peices were there etc.

5. Were you adequately informed of the consequences of abortion?

Yes No

I recieved NO counseling before or afterwards to see my mental or emotional condition or even my home life (I was raised in a very abusive home). In fact there was no follow up after the procedure to make sure my body was okay. If they would have given me counseling they would have known that I had previously attempted suicide and that I was a very depressed child who even took anti depressants at times.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

MediCal

9. How has abortion affected you?

In what way has it not? I was in spiritual, physical, emotional, and mental torment for years. The shame and burden I carried was unbearable. I didn't even know that it was my abortion that caused this pain until I had children later down the road and by then I was a mess. I had serious post partum depression that got so severe it turned into psychosis. I was unable to have healthy relationships with others,

including bonding with my own children. Even today, 10 years later I still look at my children and feel unbearable pain knowing that it could have been one of them that I aborted and that I am missing a beautiful child that I can never get back. I attempted to commit suicide several times and was in put in a mental hospital. I have also suffered from serious hormonal problems as well as lasting irreversable scar tissue as a direct result from the procedure. I still am resentful that no one at the clinic told me about PASS (Post Abortion Stress Syndrome) nor that fact that I have NEVER been able to get adequate counseling for my symptoms. PASS is similar to the mental condition that soldiers suffer from after being at war. That is literally what it has felt living with that pain and trauma of my experience. That my body is a violent battleground.

10. How has your abortion affected others in your life?

Well it has affected every relationship in my life. First and above all it affected my relationship with God. Then it made my relationship with my husband like hell. We couldn't communicate and I held unforgiveness and hate towards him for 10 years. I can't tell you how many times we almost divorced. The worst is what it has done to my bonding with my children that I bore afterwards. It was extremely difficult to bond with them and I became a very anxious paranoid parent that was constantly fearful of loosing my babies. I had serious post partum and was on several medications for depression. Another affect my abortion has had with people is my fear and distrust of doctors. I simply just don't go to the Dr, unless I have to for maternity. I don't like Drs. and I don't trust them. Plus going to them is a constant reminder of my abortion. They always ask how many pregnancies I have had and how they ended. I have had very few friendships over the years, I became isolated from society and unable to function at a human level.

11. Based upon your experience, what would you tell a woman considering abortion?

CIRCUMSTANCES CHANGE, BUT ABORTION IS FOREVER! I would tell them my story and then I would ask them questions that are never asked. Are you willing to live with the consequences? Is it worth it? Do you know what abortion entails, the EXACT procedure? What method and what it does to the baby? Do you know how a human develops? Have you seen an ultrasound of your baby? Do you know that you do NOT have to make a rash quick decision, that you should have time or "cooling off" period to look at ALL the information? Do you know that the baby can feel pain? Do you know the risks involved to your health: physically, mentally, spiritually, emotionally? Have you heard of Post Abortion Stress Syndrome? Do you know your options besides abortion? Do you know how much money these Drs., clinics, Planned Parenthood make off abortions? Do you know about Planned Parenthood's cover up, how they will illegally conceal and not report rape and abuse victims? That they purposefully target minorities, have you heard of Black genocide? Abortion is not an answer to social problems, it creates more. It is NOT a tissue, it is NOT YOUR body. The UGLY TRUTH is the ABORTION HURTS, not helps WOMEN!!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

As Americans we all believe in the GOD GIVEN RIGHT, that ALL PERSONS ARE CREATED EQUAL! That EVERY PERSON has the RIGHT to: LIFE, liberty, and happiness. Who can truly judge which person is allowed to live and die and what potential every life has? Despite the lies that Planned Parenthood and other clinics like to say, that it is ONLY a TISSUE and that it is a woman's body and therefore a woman's choice. Science and basic fundamental knowledge that is ever growing tells a different side, the TRUTH! With all the technology today we KNOW that it is a life, a HUMAN LIFE from CONCEPTION! The baby has a different DNA than the mother. It has a heartbeat, brainwaves, and the potential to grow and develop. You might hear from other sources (that have financial interests at stake) that this innocent life will bring problems to the mother, hardships. Well there are many options out there to help and empower women, they just need the knowledge and tools. And honestly a lot of them are not grown women. They are children that are unable to make logical decisions and understand the long term consequences, whose brains are not yet developed. I was one of them!!! I PERSONALLY KNOW and have EXPERIENCED the forever affects of abortion. It is not pretty, it is like living in constant war. MUCH MUCH MORE PROBLEMS are brought on by abortion for women. ABORTION DESTROYS 2 LIVES: the WOMAN and the CHILD!

9. How has abortion affected you?

I was very sick with hyper emmissus graviderium, I was told that I would die if I did not do this act. This was the beginning to the journey to salvation. I had a near death experiance and was devistated by the sin. God is loving and desires to heal, the broken hearted

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

Not to do it. Every life is precious, there are not good reasons, to do this act. Life and death are in the hands of the Lord God.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The spirit of death has been released over the nation due to the complisit acts of the courts, and generations are being distroyed with the conflict of life and death. This should be identified as an act of God's soverignty.

9. How has abortion affected you?

Its been 3 1/2 years and there is not a day that goes by and i dont regret what i did. I was scared that time, but i never stopped to think it through clearly. Now every time OCT 4th comes around i cant help thinking that it would be my baby's birthday...that he or she would be turning one year older. Now that i have two little boys, i just wonder what he or she would have been like...the cute things s/he would do or say. I dont even know if it was a little boy or girl. I dont have place to him/her flowers and go sit there and cry and beg him/her to forgive me. Im NEVER gonna know what s/he was like, never. The second the "procedure" was over i felt, sad... it was this...i dotn know what it was it was just an empty feeling, i guess it was regret. After that day i knew i would regret it forever. The pain and hurt and crying did not happen until one day that i as looking at videos on you tube and cam across a video called THE SILENT SCREAM, after watching that video, every time it think about my biggest mistake i get a stomach ache, and hate myself for KILLING my baby. The pulled my baby out in pieces, and i allowed them to. My poor defenseless baby, im sorry!!!!

10. How has your abortion affected others in your life?

as sad as it is to say, i dont think it has affected my husband, who at the time was my boyfriend. This is another thing that really hurts me, that he seems to not be affected or neither seems to regret. My parents did not know, but some way some how my dad found out asn questioned me about it and i had no choice but to admit to my mistake. i was ashamed and embarrassed, all he said to me was " do you know how dangerous that is? do you how many girls have died? " we had a small conversation about it, and i honestly don't remember anything he said but the ONE thing i do remember was " now you dont even have the joy of having your baby"

11. Based upon your experience, what would you tell a woman considering abortion?

to not do it. You will regret it all your life. At the time it seems like the easiest way out, like its something you do, forget about it and move on with your life...but its not like that. You think that later on in life when you are older you will have children and you'll be okay, but its not like that. You think you will forget it with time, but no. Even as time passes by the the pain, shame , hurt dont go away, as a matter of fact they get worse because as time goes by you wonder more and more things. Every though is a should of, could of, would of. Have your baby... you can take care of him/her...your family will help you, if not there IS help. You can do it....you can not imagine the joy a little baby brings, the millions of smiles they put on your face. DONT do it, it is something that will stay with you for the rest of your life, and you will NEVER be able to change. I know my words wont help, because i had a friend telling me not to do it, she had not gone through this but she told me not to, that i would regret it and i said i wouldn't, that it was best because i did not have the money or age to have a baby. Therefore, ask anyone who is considering an abortion to watch teh video i watched.... dont put yourself in my position, watch this video and dont let your baby be put through this.... becasue if you do it and THEN watch this video...it is the most painful thing you will even go through...the video is called THE SILENT SCREAM on youtube.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should not be legal. Women who go for abortion are not thinking correctly. MOst are young girls who are scared of being pregnant. These girls are not thinking correctly they are acting out of fear and shame, but none ever thinking of the consequences that they will have. They are not informed of the way their baby's life is taken. Abortion is a murder. Once you are pregnant you baby is a tiny person, sure it may not yet have a human like shape but it is a human. it is murder, it is worse than killing an adult, because this is a poor defenseless creature that has done no harm to anyone, it is a tiny little angel that did absolutely nothing wrong, s/he did not ask to be created. No one should have the right to destroy and HURT such a tiny little innocent BEING.

9. How has abortion affected you?

I suffer from depression and anxiety attacks. I have no children because I believed I did not deserve one after what I had done.

10. How has your abortion affected others in your life?

My father was so ashamed of me and my mother was not very supporting, and it was never talked about it again.

11. Based upon your experience, what would you tell a woman considering abortion?

Please listen to your heart. Do not kill your baby. If you can't raise this baby, give it to a good family who wants to have that child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If any one of those Judges experienced the killing of an unborn child and think this should be legal, they should be removed from their duties.

QUESTIONS

1. Where and when did your abortion occur?

San Francisco CA

10//1972

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

My memory is fuzzy. It's been so long ago. I just remember being told it's just a fetus not a baby.

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't remember only that the condition would be eliminated. Funny how words can be so twisted and sound innocent.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

For a long time I was in denial. Although every anniversary of the abortion I would be somewhat depressed. I felt shame but would put up a front and even rationalize by action.

10. How has your abortion affected others in your life?

I haven't had any feed back, just silence. I did tell my husband and he told me I did what I needed to do. He told my young men about it. They said, they were sorry that I did that.

11. Based upon your experience, what would you tell a woman considering abortion?

Humble yourself and ask for help. You are not alone, go to people who will speak the truth and give the hard facts like Crisis Pregnancy or Pregnancy Prevention. Ask a friend who is of good character and speaks truth in love.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

TRUTH must be foremost. Words like abortion, parts of conception, fetus are sanitized words for murder, ripping apart a baby and human baby. Murdering a baby is not acceptable. Our Declaration of Independence says, "all men (babies included) are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life..." We are snuffing out babies lives that is not ours to take.

HOW MY ABORTION AFFECTED ME

The State of CA

County of LA

My name is Jill Davis. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

LA CA

12/10/1980

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Not sure, was put out

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

After going to Planned Parenthood and hearing that the pregnancy which I didn't want was probably not a viable anyway...my boyfriend made an appointment with a Dr. and I was wisked in and when I showed my feelings of anxiousness, they said firmly..."What's wrong with you?" .. in an accusatory way.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nothing was said of consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend

9. How has abortion affected you?

I had a previous abortion in Oregon at a womens' clinic and was not informed of any real help there except that I would be better off to get it...then coming to LA, I resumed my foolishness and had sex outside of marriage again. The above describes that one. Soon after, I gave my life to Jesus...then I got married and God mercifully gave me 2 children...but also 5 painful miscarriages which I feel were related to my compromising my reproduction.

10. How has your abortion affected others in your life?

I feel my son has a pervasive fear which I believe may be because of my womb having been a place of violence and death.

11. Based upon your experience, what would you tell a woman considering abortion?

I volunteered in a Pregnancy Crisis Center for many years and I did every thing I could to convince

women not to abort their pregnancies.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should be outlawed....if those who just must have one because of some personal conviction than it should be very difficult to get and very expensive and private...no public funding.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of orange

My name is Tonja I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Westminster CA

07/05/1986

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

I dont remember

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I dont think I was. Was never told what damage it was going to do to my heart once I totally realized what I just did and how I took the life of my own child, what would have and should have been my first born.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Yes it did in the beginning, but with time it has gotten a little easier, but it will never be something I will ever forget. I remember what would have been my childs birthday and I still shed many tears on the day that should have been.....

10. How has your abortion affected others in your life?

I dont believe so, not many people in my life know about it. My mom stood behind me and helped me make what I thought at the time the right thing to do. Without my mom nothing herself she did the best she could at the time. I really wish someone would have talked me out of it.

11. Based upon your experience, what would you tell a woman considering abortion?

To seriously sit down and think about what you are really doing. I am sorry to say but you WILL live to regret it for the rest of your life. There will always been something and someone missing from my heart and my life. It maybe the easy thing to do at first but its the hardest thing to get over, so please talk to someone and really get an understanding of what you will go through for the rest of your life, when you

take that life away.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I pray that your own mothers, daughters, wives never have to go thru the pain and heartache that I do everytime I think about what I did. I truly wish someone would have talked me out of it, and really explained what it would truly do to me even after so many years. To this day on what I believe would have been my babies birthday, I cry for what was lost and what could and should have been.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of San Diego

My name is Kimberley Seward. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

La Mesa CA

07//1987

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

a regular one

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I did not want the abortion and I was forced into it and was made me feel irresponsible for not wanting it. I kept waiting to feel normal again and I never have. I am not the same person I was and I dont think I ever will be

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my boyfriend

9. How has abortion affected you?

I never wanted to do it, but I was pressured so much that I was afraid and weak and I gave in and I thought I could find help at the clinic, but no one cared about what I wanted. I do not feel that I am the same person. It has created gaps between me and my family that they do not understand but I cannot fix. I do not feel worthy of any relationship. If I were not a Christian, I would seek to die. I have three children now, and I am always afraid they are going to die or be killed or be lost forever. It is something I cannot stop or get rid of. I have nightmares of dead children who need to be rescued. I know I am saved, but I feel I have ruined my relationship with God forever because I knew better than to do that. If abortion had not been legal, this would not have happened to me because my boyfriend could not have made me go because there would not have been a place he could have done that to me and got away with it.

10. How has your abortion affected others in your life?

I married the father of the child that was terminated and to this day we still fight about it. I feel distant from my mother and my other family members and I have a hard time letting others get to know me because I dont think they will want to get to know me because of who I really am because I did that

11. Based upon your experience, what would you tell a woman considering abortion?

It will never be worth anything that anyone is telling you. If anyone is telling you it is the right thing or you should do that just this one time.....it is all lies straight from the pit of hell. The devil comes to kill and destroy and that is what he is trying to do to your child through lies that make you sound stupid if you save your child from death. My boyfried told me that having a baby is forever and he thought he was being the responsible one, but what he did not know is that our baby was and is eternal and he or she is forever still. I think about my baby every day.....every day and it has been over 20 years. The kind of forever we have is tragic. I would much rather have my baby forever with me alive.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Any court that believes abortion should be legal is a death court, and is killing off the most innocent of society. The very ones that should be protected are being killed in the name of liberty. That is wrong and is not liberty. There is no liberty for the mother or father that looses their child this way no matter what. The courts should protect the citizens of this country no matter how young or what stage of life they are in. We should be protected not destroyed.

HOW MY ABORTION AFFECTED ME

The State of CA

County of USA

My name is Judy Bowles. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Montclair CA

//1976

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Do not remember

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was a piece of blob, nothing there

5. Were you adequately informed of the consequences of abortion?

Yes No

I just remember going in and coming out

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

There has not been a time where I don't think about what I did. Other than the Lord Jesus Christ forgiving me I have been able to live with myself. I am always reminded of it and that I took someone's life. When I married I had on my third pregnancy a miscarriage, and was told because of the lining having pockets that were gone I lost the baby. That is when it hit me as to what I had done and sobbed. Present day, hearing more I abortion I think about and am so very ashamed, BUT, like I said, due to the Lord forgiving me, I live with but know I am forgiven.

10. How has your abortion affected others in your life?

n/a

11. Based upon your experience, what would you tell a woman considering abortion?

Give the child up for adoption if you do not want it. If not the day will be forever etched in your mind. If you don't know the Lord Jesus Christ as your savior, your past will haunt you.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

THE DATES ON THIS ARE NOT FOR SURE, I AM GUESSING AS IT WAS LONG AGO. I have written each supreme court justice and gave my experience, heard nothing back, but believe they read it. I believe that due to having the availability of PLANNED PARENTHOOD to pay for the service at no cost to me made it easy to have more than one abortion. It was an open door, no one knew, done in secret, paid for by who knows, it was a blob nothing there. All of these made it easy to commit the crime again. As long as it cost me nothing and no one knew. But God above knows and your conscience mind gets to you. You pay somehow.

Boyfriend

9. How has abortion affected you?

My first abortion has been 18 years ago, my second has been eleven years ago. I have had an ectopic pregnancy, and lost a living child. Therefore, I have four children not with me here on earth. All, whom I believe are in Heaven. Nothing can describe the guilt, shame and life long feelings of something missing in my heart. The way I hang my head when faced with children that are my children's ages. Knowing I made that decision to end a life I had no business ending. Who am I? I constantly ask myself that question. Who am I? Why do I think I can play god with such a beautiful gift such as children? I'll tell you who I am. I am a nobody who is selfish and heartless. A person who refused to trust God, even though when faced with uncertainty, chose to trust others and herself. What a mistake it was. A life long mistake. I know my Heavenly Father is a forgiving Father. That does not change how my heart has no right to be forgiven. No right to live! No right to breathe! Who am I? I'll tell you who I am. I am one who wakes up every day asking God's forgiveness. Even though I know forgiveness was given so long ago on the Cross. Somehow feelings of dread and unforgiveness creep in on a daily basis. This decision has defined every other decision in my life, right down to the one child I still have living today. I really know I don't deserve a second, then third chance? I continue to ask for forgiveness to ease the pain

from the my horrible path my life has gone.

10. How has your abortion affected others in your life?

My name is Sharon I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Chico CA

//1980

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

I'm not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I have really not suffered any sort of physical consequences, but was never informed of the mental and emotional torment I could experience for years after.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I suffered for years with major depression, and a huge death wish. The mental and emotional torment I experienced haunted me for years, along with the self loathing I experienced, until I finally laid it to rest with prayer counseling.

10. How has your abortion affected others in your life?

I never told anyone.

11. Based upon your experience, what would you tell a woman considering abortion?

I would do my best to convince someone to choose another option. I would share with them the effects it had on me, and other women that I have talked to.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We are not only allowing young women to make uninformed decisions about the years of personal torment they can suffer because of this choice; but we are also a nation suffering the consequences

of people not living up to their full potential due to debilitating depression. Human life was never ment to be disposable, and we are sending a message that we can do what ever we want and not pay the consequences of our actions. I believe we as a nation are paying a higher price than any of us really realize. I have heard more than once comments like "well just have it sucked out." or "go have it yanked." This has become the mentality of society, and I believe it reflects they way we view our relationships as a whole, if it doesn't work dispose of it. I am also strongly apposed to government paying for abortion. If a person chooses to do that I do not want my hard earned money going to fund it.

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told I would have to go into labor to abort the fetus. I was not told how big and already developed the baby was. I was not told I had options.

5. Were you adequately informed of the consequences of abortion?

Yes No

I never realized it would affect me the rest of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The fear of my Dad was enough.

9. How has abortion affected you?

I have nightmares to this day and miss the child I destroyed. I take anti depressants every day and have to keep my mind from thinking about what I have done.

10. How has your abortion affected others in your life?

I have alot of resentment towards some family members for making me make these decisions. I still feel the emotional and psychological pain, they do not.

11. Based upon your experience, what would you tell a woman considering abortion?

Please reconsider. It will not just be a day and be over. You will think about the child you didn't have everyday for the rest of your life. It is not a form of birth control.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would not have been in that hospital room 28 years ago if it was not legal. I would not have been in all the subsequent hospital rooms and may be able to stand to look at myself.

QUESTIONS

1. Where and when did your abortion occur?

Chicago CA

02/01/1994

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was never asked if I knew about the procedure or how it was done. At the time, however, I was a doctor in residency training, so perhaps they assumed I already knew.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never asked if I knew of the consequences of abortion. But I think I had an idea on my own.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend at the time.

9. How has abortion affected you?

I regret it because I am currently infertile. I often wonder about the child I killed and imagine how old he/she would be. I have since married and my husband and I have adopted a son and are waiting to adopt a daughter. But wish I could have had my own birth child.

10. How has your abortion affected others in your life?

My husband said that it would not have mattered to him if I had a child when he met me. He would have still wanted to be with me. I thought that it might have made a difference to those around me if I had a child out of wedlock. In fact, the opposite seemed to be true.

11. Based upon your experience, what would you tell a woman considering abortion?

I would say, please reconsider all options. There are wonderful childless couples who would be thrilled to have a baby. You might also wish you had the child later in your life...talk with your family and your friends. Get help and get supportive advice.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

At the time, I was glad for the 'easy way out' of my predicament, being pregnant when I did not want to be. However, in retrospect, if abortion hadn't been so easily attainable, I probably would have found some way to have this child, and in the long run, would have been richer for it.

9. How has abortion affected you?

It has affected me WAY TO MUCH!! I have spent many years regretting it, have had to go through tons of counseling. I've also had to realize that I "killed" an innocent life!

10. How has your abortion affected others in your life?

It has affected my relationship to my husband...I won't go into details, but, I feel bad for him.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't go through it, you WILL regret it! Find somebody to talk to, this baby is innocent and can't speak for him or herself...it you can't afford anything, PLEASE consider adoption, there are thousands of people who would love to have children, but, can't....they would love to adopt your baby if you were considering.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should NOT be legal. Women do make mistakes, that is apart of life, BUT, these are innocent

lives that can't speak for themselves!!!!

DAD

9. How has abortion affected you?

I have carried guilt, shame and sadness my whole life, extreme and still growing anger with my parents. I have tried to occupy my mind with business so I wouldn't think about it EVERY day, but it didn't work. I had periods of depressions and severe insecurities about my parenting.

10. How has your abortion affected others in your life?

My husband and children have had to deal with my bouts of depression and anger. I have a very poor relationship with my parents.

11. Based upon your experience, what would you tell a woman considering abortion?

The inconvenience and/or embarrassment of an unwanted pregnancy is a far less burden to deal with rather than a life of feeling like you are missing someone you killed and you hide the body with denial, shame and poor self worth for the rest of your life. First get an ultrasound to see that real and live

heartbeat. Don't let someone murder a child. Have the baby and give it up for adoption if you truly can't keep it. There are so many people out there that deserve a child that can't have one, have it for them and give your child a chance at this life. They could be the person that cures cancer or helps with world peace or even a simple person that does something right for the world. Get out of whatever situation that you are in that you have no support. Don't do it until you talk to someone that already has.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

At conception it is a live human being, murder is never tolerated, why should this be? God's Ten Commandments "Thou shalt not kill". This is the foundation for the ruin of many women and children and families that suffer through the debilitating psychological pain and effects that no one describes to them. This is not like going to the dentist to have a tooth pulled. It is not something you forget when the physical pain ends. Someone has to do right by these babies. If it had not been legal or so readily available, I would never have done it.

HOW MY ABORTION AFFECTED ME

The State of CA

County of Riverside

My name is Paula Johnson. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Sacramento CA

05//1984

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

I think suction aspiration, unsure.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

All I can recall from the traumatic experience was that it would "take care of the problem." That I could go on with my life. As far as actual medical procedures explained, I was so terrified - I didn't understand anything being explained. I just went along with it trusting they knew what they were doing, and that it was okay.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me I could lose a future pregnancy (which I did) or have other physical problems. No one told me of the emotional or spiritual trauma.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Planned Parenthood and to some extent, the father

9. How has abortion affected you?

For 26 years I've stifled memories and emotions that have prevented me of having healthy relationships with my spouse (not the father), children (of the same father), other family and friends. I have suffered physically, although I was able to finally give birth to four beautiful daughters (of the same father). Without being graphic, I cannot even go to the restroom without "help." I don't even go to the dentist regularly because I trust NO medical caregiver for ANYTHING.

10. How has your abortion affected others in your life?

They've been gyped from a whole "me." Subject to lots of anger that even I couldn't explain, until I started my journey of healing from this horrible, horrific experience.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT!! YOU'LL REGRET IT FOR THE REST OF YOUR LIFE!! I wish someone had told me, as I am trying to tell you now...

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We are accountable to protect those that are unable to defend themselves. How can we legalize the destruction of lives unable to defend themselves, the unborn? If legalized, WE will be accountable for their deaths. Their blood will be on OUR hands...

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of Los Angeles

My name is Mary Lou Rodriguez. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Monterey Park CA

03//1983

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

Suction Aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was just "tissue" and not a baby. I was not told my baby already had a heartbeat. I was not given a complete explanation of the method used.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told of the emotional or physical damage that could lead to not being able to conceive ever again.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Immediate regret, even during the procedure I had tears rolling down my cheek. I became depressed, and began a lifestyle of drug & alcohol use to ease the pain. I lost respect for myself, became promiscuous.

10. How has your abortion affected others in your life?

I withdrew from people who were closest to me. I lied alot.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion is never the answer. I would tell her of the emotional and physical consequences that I experienced. I would tell her she's not alone and I can help her thru her pregnancy. I would share Jesus and tell her how He has helped me.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

That abortion led me to a world regret, pain and suffering. I would explain the development of a baby in the womb. And this is a life that is entitled to the right to live. That I was never able to conceive again, because of the physical damage I incurred.

24

3. What type of abortion was performed?

dont honestly know three day procedure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

no one ever told me that they would inject me in the belly button to stop the fetal heartbeat no one ever mentioned that once i started the process it was basically irreversible no one ever told me that i would actually have real labor pains no one ever held my hand and said any words of comfort instead i woke up in the recovery room with the worst feeling i have ever experianced in my entire life and i have gone through h some traumatic events from sexual abuse as a child to being raped at 13.....

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not. I was never told that I could feel as depressed and traumatized as I did and still am.I remember sitting in a small fitting room for almost an hour I even called the responsible party hoping he would say dont do it, but instead all he said to me was, karla you are already there I begged her to move I can remember telling her if she moved if she could just show me she was ok, I wouldnt do it she wasnt even born I was the adult I was also the responsible party the second day of the procedure she moved,I remember telling the nurse I didnt want to go through with she just dismissed what I felt nd told me it was impossible, when they did the ultra sound they walked out of the room I managed to take a picture of her and print it I still carry that picture today

9. How has abortion affected you?

It has changed my will to live, I am now an alcoholic. It seems as if I am drinking myself to death. I actually feel as if I am a dead man walking, if it wasnt for my kids I think let me rephrase that I would of

already put a bullet in my head. But thanks to them, I try and continue to live with it the guilt the shame the saddness. But it would be a dam shame for my children to think that they werent enough for me to live for

10. How has your abortion affected others in your life?

We dont talk about it much but I am sure in my heart that there is not a day in my mothers heart that she doesnt think of her life.....

11. Based upon your experience, what would you tell a woman considering abortion?

GET ALL THE FACTS BUT REMEMBER THE ONLY THAT SHOULD CHOSE IS JESUS CHRIST....

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

LIKE I JUST SAID ONLY JESUS SHOULD DECIDE!!!

My name is Ellen Brazelton. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Castro Valley CA

08/01/1987

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

unknown

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Scraping of the uterus, not that this "few cells" was actually a fetus, and that it would be basically cut to pieces while the uterus was scraped out.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea that I could lose my life (spent the night in ICU), and had no idea of the psychological pain that would commence and last many years.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Physician who backdated the informed consent.

9. How has abortion affected you?

Was almost 10 years before I was able to deal with the guilt via post abortion counseling. Spent years wasted on this.

10. How has your abortion affected others in your life?

Partner affected for 20 years, lost our additional family, and grandparents and siblings lost out as well.

11. Based upon your experience, what would you tell a woman considering abortion?

A. get counseling FIRST B. make an informed decision C. consider the partner, family and future

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Many procedures require pre-procedural counseling and this most definately should be required. Long

term consequences which cannot be undone, the loss is huge.

2. How many weeks pregnant were you?

3. What type of abortion was performed?

I don't know. I was in the very early weeks of Pregnancy, and it was many years ago.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't believe so, because if I had known what I do now, I would not have done it, and committed Murder.

5. Were you adequately informed of the consequences of abortion?

Yes No

NO! Even after all of these years, I would especially want that it would not have been legal to do it.

HUSBAND

9. How has abortion affected you?

I love children, and I know now that Jesus has forgiven Me, but I still cry sometimes about it. I was married, had a two year old, when I got pregnant with Identical Twins. A short time later I became Pregnant again. Abortion had just been made Legal in our country, so I thought that it might be ok to do it. Immediately after the Abortion, I experienced such an Internal Upsetness, that I now realize was conviction of what I had done. Now I know THAT I killed my baby, because Life begins at conception. Even after all of these years, knowing Jesus' Mercy, Forgiveness and Healing from it, I am still heartbroken that I killed a baby, and especially My own. IF ABORTION WAS NOT LEGAL, I WOULDN'T HAVE DONE IT! It is and was wrong, and I know that God would have helped Me somehow, to handle all those children (Mine were born with health problems that required more attention than normal healthy children would have.

10. How has your abortion affected others in your life?

Not many people know that I had one, but I am continuing to stand against it

11. Based upon your experience, what would you tell a woman considering abortion?

That God will help somehow with whatever has happened to make them consider an abortion. The pain, grief, and realization of what you have done in killing your own baby, is not worth the relief of not having another child, etc!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Please change your opinion on it. God says, We aren't to Murder Anyway. It's wrong, and the reasons why follow: I love children, and I know now that Jesus has forgiven Me, but I still cry sometimes about it. I was married, had a two year old, when I got pregnant with Identical Twins. A short time later I became Pregnant again. DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of Los Angeles

My name is Denise Keiser. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Laguna Hills CA

03/01/1999

2. How many weeks pregnant were you?

1

3. What type of abortion was performed?

I had an Intra uterine device (IUD)

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

When I was 18 I asked my OBGYN for an IUD because my 42 year old boyfriend at the time suggested I get one. This doctor only told me that 'some religious groups don't approve of this birth control device' and he also said that 'usually only married women get this device' that was all he said. The doctor (Dr. Wainwright who was formally employed with Bristol Park medical group in Mission Viejo, CA 949-661-9600) SHOULD have stressed for me the need for ABSTINENCE as I was an unmarried single female and he also should have mentioned the abortive effects of an IUD. The consequences of getting this IUD is that I proceeded to sleep around with an unmentionable number of men I met from the internet and also get an STD. These actions brought on an extreme sense of devaluation and it's only my Catholic faith that has brought back my sense of value. I estimate that with this IUD I lost at least 3 babies because I lived with a man for 1 year while I had it. The IUD was removed in 2004 and I have much better self esteem now that it is gone. Now I practise abstinence for birth control as I am unmarried and hopefully with enough prayer I can hope to never offend God in this way again.

5. Were you adequately informed of the consequences of abortion?

Yes No

Dr. Wainwright did not tell me that an IUD creates a hostile environment for a developing embryo. A precious miniature Denise in my womb that might have had my brown eyes or it's fathers intelligence. These little embryos which had potential to grow and be healthy, intelligent individuals were wiped out by my own selfishness. May they rest in peace.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Kevin Green who lives in San Diego, CA

9. How has abortion affected you?

I have less value for myself, and I think of the little child I could have had that would have drawn me pictures.

10. How has your abortion affected others in your life?

Other girls probably look at me and notice I have no children. They also notice that I'm probably not a virgin and they probably put two and two together and decide abortion is ok.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that abortion makes you lose your self worth, and I regret my abortion and I wish I could take it back.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

All unborn babies should have a right to be born. If we allow all babies to be born we will be putting out trust in evolution and God to keep our race strong. If we kill babies we might be killing the best of our race. I survived the abortion holocaust and I can honestly say I'm not the best leader though I do have other good qualities. Others in my generation who weren't as lucky as me and were murdered probably would have been a great leader, and gave more to society than I do.

The State of CA

My name is A K I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dobbs Ferry NY

01/23/1988

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Surgical, vacuum, with the looped cutter.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Only the risk of uterine perforation and infection was discussed, with a paper to sign. No discussion of after-effects, hormonal changes, depression. I was told I would feel relieved.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was only told I would feel relieved. I was not warned about hormonal changes or depression.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My Ob/gyn, didn't offer prenatal care only aborti

9. How has abortion affected you?

I had a lump in my breast removed in 1994 but it had not become malignant. I am not able to adequately describe the emotional devastation. There was immediate grief, depression, nightmares, followed by substance abuse, and years of negative emotional fall out, plus strained and broken relationships with almost everyone involved. I no longer trusted any friend who had been 'supportive' of the abortion. Not one had offered real help to me or encouragement to bear the child

10. How has your abortion affected others in your life?

Both of my parents were devastated emotionally. It became a subject we could not discuss. It affected EVERY relationship in my immediate family, even between siblings and in laws. My mother no longer trusted me. She was sure I would euthanize her when she got old. She began making plans for suicide and did not let up on that for 19 years. She did not have the nerve to commit suicide but she had plans and spoke about it frequently over the years. When my father suspected I was pregnant, he bought a

gift and for over 20 years has not been able to discard it. The child's father has also been negatively affected. His natural rights were violated; that was his child too.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. It cannot be undone. A haircut can grow out, but murder changes you forever. You will know that you murdered your child. Maybe not the day, or the week after. It will leave a hole in your family. Every year you will be haunted anew by three anniversaries: the conception, the abortion, and the due date. Adoption is a much better choice if you are unable to care for your own child. Adoption is the humane thing for the child's sake.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Back in the 70's we were told that abortion had to be legal to protect young women from hurting themselves trying to commit or procure illegal abortions. Instead it became a product, advertised and promoted. When I went to my ob/gyn, I had already told her in a previous visit that I was afraid of abortion, afraid of Planned Parenthood. She recommended only abortion to me, she did not offer any prenatal care or perform any kind of exam on me or my developing child. She only took my blood pressure and did a breast exam. She pushed me toward abortion, telling me "This child won't make it" and never offered anything else. At the time I was ignorant about fetal development. I didn't know the child had a heartbeat, that it was not just an unrecognizable clump of cells. I was lied to. I was assaulted and traumatized. In the Dobbs Ferry Women's Pavillion, on the table, they gave me a tranquilizer. After it hit me, I was no longer afraid of the pregnancy and I wanted to leave. I was not allowed to leave. The doctor pressed on with the procedure despite my very loud screaming. I was awake the entire time. I remember everything. It was murder. It was more violent than a sexual assault. It should be illegal. No human being should ever endure what my child and I endured.

HOW MY ABORTION AFFECTED ME

The State of CA

County of Orange

My name is Z N I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Irvine CA

06/16/2005

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I only recall a staff that coerced me into signing a document that would release the abortion provider from any responsibility in the event of abortion related complications.

5. Were you adequately informed of the consequences of abortion?

Yes No

I recall being lied to on the day that I entered the clinic for my scheduled abortion. I was given a little note that stated that abortions were safe and that, if any, the feelings of sadness were temporary and would go away a few weeks after the abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Over the past six years I have experienced intense shame, guilt, anger, inability to concentrate at tasks, sleeping disorders, flash-backs of the abortion trauma when exposed to children or baby items, low self esteem, and sudden radical and dangerous behavior. With these and other post-abortive symptoms I was diagnosed with clinical depression after a suicide attempt.

10. How has your abortion affected others in your life?

After the abortion my relationship with my fiance was destroyed eventhough we tried very hard for five years to make things work. I believe all our relationship problems were routed to the abortion experience.

11. Based upon your experience, what would you tell a woman considering abortion?

That abortion is not her only choice and that it is the one decision that she will regret for the rest of her

life. The thoughts of what would have become of my child if only I had let him(her) live can not be ignored.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I as a women deserved support and help when faced with my unplanned pregnancy; instead I was presented with the "quick fix" advertised by the abortion providers of this nation. The reality about abortion, that struck me only when it was too late, is that abortion had turned me into the mother of a dead child...and this wounded me deeply. I became a living victim of abortion by having to deal with the pain and suffering alone. I believe that if I had had greater access to counseling through crisis pregnancy centers I would not have made the decision to abort my baby. My decision would have been one that I could live with such as parenting or adoption. Whith all my heart I believe that Roe v. Wade should be overturned, and meanwhile women need to be empowered and educated about the reality of abortion. When this happens and women get to see abortion for what it really is (a traumatic experience that hurts women physically, emotionally, and spiritually) then will the abortion business crumble down and just like when slavery was abolished abortion will be a sad chapter in the history of our nation. I pray that your daughters, sisters, friends, and every women in our nation are spared from living and abortion experienced.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I went to Planned Parenthood, because I was sick, I tested positive on a pregnancy test. I was told to call "this" phone number & they would take care of "it". I was told that if I waited any longer it would cost more money.

5. Were you adequately informed of the consequences of abortion?

Yes No

All anyone was worried about was the money. I did not even understand that I was having a baby.

6. Were you informed of any link between abortion and breast cancer?

9. How has abortion affected you?

Screwed up my head for many years. I carried a lot of anger, resentment and punished myself, by watching a live ultra-sound video of an abortion over & over.

10. How has your abortion affected others in your life?

Pushed them away.

11. Based upon your experience, what would you tell a woman considering abortion?

I would explain to them my story, that I have been forgiven by God. That, there are other options, I would support them in their choice & let them know that even if they do have an abortion, that I would still be here for them when they need the help.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I would tell the court that it is not legal to murder, an abortion is the same thing, and that the outcome for men & women involved in an abortion does not go away, it scars beyond what anyone can imagine. I do not just take a baby's life, but the life of the mother. She awakes each morning knowing she killed her baby, the only hope is Jesus's forgiveness and love.

2. How many weeks pregnant were you?

26

3. What type of abortion was performed?

Partial birth abortion under full sedation

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I went to Planned Parenthood under full impression that I was in early pregnancy (up to 8 weeks). I had medical issues which led me to believe I could never carry another baby full term. I was put under anesthesia, then awoken and told I was 26 weeks pregnant and a separate procedure would be performed to which I (drugged) consented. My baby could have lived.

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend, and the clinic.

9. How has abortion affected you?

Prior to finding Christ, I was riddled with guilt and regret. I cried and cried at what I had done, knowing full well that it was murder.

10. How has your abortion affected others in your life?

I have known many women who have had much guilt and sorrow associated with abortion. One is bulimic, another has constant medical issues and suffers from self condemnation all associated with abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

Please, do not do this to yourself. You will never feel peace about this choice. There are so many people who will be so happy to raise your child. I can help you to find a home for it. There is hope.

There is another way.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion destroys lives. As a young woman I was persuaded by the world that it was the wise choice to abort. But it led to so much heartache, bitterness and unforgiveness, leading to a lifetime of grief. Besides that, I am convinced that a baby is a person, no matter the age. When we begin to determine the point of viability in life, we arrive at a slippery slope that will lead to dismissing the lives of the elderly, the infirm, the indigent, even mentally challenged. We are claiming power over life; when it should begin and end. This is never, ever a position a person should take. It is extremely dangerous ground.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of Contra Costa

My name is Cassandra I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Concord CA

04/01/1990

2. How many weeks pregnant were you?

3. What type of abortion was performed?

vaginal at 8 weeks

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not allowed to see my ultrasound. I was not informed about the stages of my baby's life.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea about the regret I would have, or the years of torment. I became anorexic and eventually addicted to pain medication trying to run from what I had done. It wasn't until I watched a movie on the stages of a baby's life in utero that I realized exactly what I had done. I had been fed the lie that my baby was a "clump" of tissue and not alive.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

MY boyfriend, his father, my mother and co-workers

9. How has abortion affected you?

It ruined many years of my life. Years I spent in anger, hiding the pain, running from it. It took away a family member. I was never able to conceive again so I have no children. It has been devastating and not a week goes by that I haven't thought about my son.

10. How has your abortion affected others in your life?

I am sure because of my anger and depression I have not been the person I could be to others.

11. Based upon your experience, what would you tell a woman considering abortion?

I would make sure she had all the facts first. What her baby looks like at her stage in pregnancy. That her baby is alive and it will affect her negatively someday. If not now within a decade or so she will feel the nagging pangs of what she has done. For me the only healing I found was through God. There is healing after an abortion but you will never be the same person ever again.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would show them pictures of a fetus, let them hear the babies heart beating... I would challenge them to prove the child is not alive. If you can not prove it is not a person then you are risking murder. I would tell them my story and the stories of many women who regret the "choice" they made without facts. I am convinced that if women were giving ALL the facts they would never choose to kill their child.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of Alameda

My name is S S . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Castro Valley CA

09//1971

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was so profoundly afraid and felt so alone and ashamed of myself. I vaguely knew the procedure was suction but I had no idea what that really meant, until years later when I finally grieved the loss of my baby.

5. Were you adequately informed of the consequences of abortion?

Yes No

After the abortion, I wanted to forget what had happened. I tried to get on with my life as though nothing had changed. I managed to do that for several years but after I got married and desperately wanted to have a baby I could not get pregnant for seven years. I couldn't help but think it had to do with the abortion I had years before. I sought counselling and subsequently grieved the profound loss of my baby. I made a live-long decision at such a young age not realizing it would impact me for the rest of my life. I will NEVER forget what I did, but I have forgiven myself and received the love and forgiveness of my Lord and Savior and my baby boy. There are a few decisions in my life that I regret, giving consent to abort my baby is absolutely one of them.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The system....

9. How has abortion affected you?

Abortion has affected me in many ways. I graduated in 1970...I listened to the debate on the news/television/school about a woman having the "right" to choose about what she does with her own body. I was told it was just a bunch of cells not a fully formed baby with fingers and toes who was able to hear and see. Womens lib was in full form.... I wish someone would have told me about what the

Bible teaches about life or even what our own Constitution says about life, liberty and the pursuit of happiness, I feel, in retrospect, I was not protected. I was young, naive, impressionable, and vulnerable. I feel my country failed me, the judicial system too. Is it not supposed to protect its citizens???? Born and unborn????

10. How has your abortion affected others in your life?

The way in which abortion has affected others in my life is numerous. First and foremost, is my baby boy himself. He was deprived of life itself and all that it entails.. He didn't get to "choose" whether or not he could live...the most vulnerable of vulnerable didn't have a voice. The father of my baby....he didn't have a choice either....I made it for him. I didn't consult him about the decision, just told him of my decision....all very women's Lib. My life was devastated as well. I have to live with the knowledge that I "gave consent to be killed" my baby boy. My parents/the father's parents and extended family were deprived of their grandchild and nephew. The World was deprived of ever getting to know my baby boy and what mark he would have left in this world.

11. Based upon your experience, what would you tell a woman considering abortion?

What I would tell a woman considering abortion is don't do it before she thoroughly considers the alternatives and knows percisely what is happening to her body, the risks posed to her own health and, especially, the developmental stages of the "life" that is within her. She should see pictures of the fetus. I would share with her that there is hope, she is not alone and there are other alternatives to consider. She needs to know ALL the options there is. She NEEDS and deserves to know the truth in order to make a fully informed decision. I would share with her that according to God's Word all babies in the womb are known to Him...no child is a mistake.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

What I would tell a court that believes abortion should be legal is to go back to our Constitution which says that, we the People, including an unborn baby in his mother's womb, have a God-given(not government-given)RIGHT to life, liberty and the pursuit of happiness and the decision to abort should be overturned and it should NEVER has passed in the first place. I would tell them that it has been detrimental to our society, it's people and our Nation. I would say that it goes against my moral conscience of right and wrong. It sears my conscience to know that "my" tax dollars are going toward funding something that is beyond horrific, and according to my religion is WRONG and I should not be forced to contribute to it. I would say, defund it. What we are doing is no different than Nazi Germany did during the holocaust where tens of thousands of innocent people were killed simple because of who they were. America, too, has been engaged in its own holocaust of a similar, but different kind...that of slaughtering our innocent, unborn babies for over forty years now, the most vulnerable of all creation. Their blood cries out to God and to us and reaches to the heavens...who is protecting them? who is caring for them? who is speaking for them? where is their right to life, liberty and the pursuit to happiness??? There blood is upon this Nation and upon each of it's citizens. I would implore them to overturn it.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of San Luis Obispo

My name is Naomi Killough. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Salinas CA

03//1988

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

Suction aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not adequately informed of what the abortion does, i was shown a quick video that referred to the baby as more of a mass of tissue. Being i was so young, I really had no understanding of the consequences of what I was doing.

5. Were you adequately informed of the consequences of abortion?

Yes No

No not at all I told no other adults so literally the only adult people who knew were the clinic workers I remember thinking surely they would help me through this and be honest and explain things to me after all they are adults and I'm so young, but I was surprised to find out that they acted very callous and really did not seem to care and tried to reassure me it would be over quickly.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father who was over 21 pressured me.

9. How has abortion affected you?

The information above is regarding my first abortion at 14 almost 15 years old. I later went on to have another abortion in 1995 after the birth of my first born son in 1993 i was 21 years old at the time of my second abortion i was almost 13 weeks pregnant. The trauma associated with both abortions brought so much guilt and shame that I literally became a different person especially after my first one. I knew I had done something that had closed a door to one part of my life and opened a door to another. The pain and loss was so deep that i couldn't even understand what was happening to me. So I chose to harden my heart and I became very self destructive after and very promiscuous then started down a road to more lying to parents, partying and experimenting with drugs. I felt I had done something so

unforgivable that anything else I did after that would not even compare to the life I had taken, I really lost all fear of any consequences.

10. How has your abortion affected others in your life?

It has affected every part of my life to intimacy with my husband to connecting with my children and also connecting with my parents. I have since received healing from the Lord and have rediscovered who God has called me to be and through His amazing forgiveness have been able to open up to family and friends about my abortions and it has definitely brought us closer together and also has given us as a family a burden to pray for the ending of abortion especially my son who is 18 who I almost aborted as well.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that she needs to consider all the facts about abortion before making this life changing decision. I would let her know that it is a baby from the point of conception and that even though this may seem like the easier choice for the season she is in that God will make a way for her to care for her baby and she will never regret her decision. Also I would let her know a woman will never forget the baby that she has carried in her womb that God has divinely connected them together and no matter what she WILL feel that loss and will forever come back to haunt her with feelings of shame, guilt, unforgiveness toward herself, depression, anxiety.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that how can they make something legal that ultimately hurts women? it kills a child but also a wounds a mother's heart forever. Women never forget the devastation and trauma of abortion in fact it is the cause for alot of depression, anxiety and self destructive habits such as alcoholism, drug abuse and suicide. This is not a good option or alternative at all whatsoever adoption is a better choice for women who may not be able to care for the baby on their own.

don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Absolutely not. I was told it was just "a blob of tissue."

5. Were you adequately informed of the consequences of abortion?

Yes No

No consequences physically or emotionally were ever mentioned. Just "it will be over soon."

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

boyfriend, priest, fortune teller

9. How has abortion affected you?

I lived in hell for a year. Suicidal ideations, severe depression, turned to drugs. Couldn't sleep. I think I really should have been in a hospital. I couldn't see a diaper commercial without cryig hysterically. Couldn't control my emotions. It took me 10 + years of walking with God to finally be free from the guilt and shame.

10. How has your abortion affected others in your life?

I have no children or grandchild for my family.

11. Based upon your experience, what would you tell a woman considering abortion?

If you want to live in hell emotionally have an abortion. That's the quickest way to get there. It's about more than just getting rid of the evidence.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

A judge is suppose to uphold justice. Abortion is the greatest injustice to a defenseless child and an injustice to women who aren't given the full truthful facts but instead told lies to make business owners a lot of \$. The abortion industry is about making \$ not helping women. I've yet to meet a woman who thought her abortion was a life enriching experience.

3. What type of abortion was performed?

the day after pill

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had a faint idea of what the pill would do, I was in denial for many years that taking the pill would make my uterus a "not suitable environment for the egg to implant" I did not have a pregnancy test done. I justified myself and thought yes I took the pill but maybe no fertilization took place.

5. Were you adequately informed of the consequences of abortion?

knowing what i did and having confirmation of the abortion, as i look back on my life. i can see the shame and guilt i lived in for many years, the pain of the loss of my children, thoughts of suicide came over me several times, now i reflect it happened after the abortions. I took the day after pill on 2 occasions.I lived in denial for 13 yrs.

10. How has your abortion affected others in your life?

To this day my husband nor my children know of what i did.

11. Based upon your experience, what would you tell a woman considering abortion?

Oh wow i would tell her not to have one, their are so many resources to help you, Abortion not only kills innocent life, but kills a part of you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion hurts women, men and children, the effects are long lasting its not just a momentary thing. That "blob of mass" is a Baby, Psalms 139:13 For you form my inward parts you covered me in my mothers womb, i will praise you for I am fearfully and wonderfully made, marvelous are your works and that my soul knows very well.

Eugene OR

//1976

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

When I called when I was changing my mind, I was told the process was started and I had to go through with it. I was scared and the day I went in I was praying for somehow to not go through it. I don't remember an ultra sound done. I was never told about a adoption choice. In fact I felt so bad about doing it that I called an adoption office for help and they rejected me and shun me for doing it I felt so abanded. I told them at first I was concern my baby may become born with problems because the father was taking drugs. Still the abortion was only suggested I should do and soon. I am so sorry for doing this.

5. Were you adequately informed of the consequences of abortion?

Yes No

after my baby was taken, I was in such a mess during their process, I was a mess after, and for years until 2006 when I came to know Jesus. It wasn't until January of 2012 that I was in prayer with Kim Clement and he mentioned a women didn't know where to go about her baby, it was something in the praying for this women something triggered my body to remember the process of the suction that went on that horrible painful day. The memory became so real that I began to feel alot of pain in my womb. The pain increased so much that I bent over and became so scared because I didn't know what was happening. After a while in this prayer momnet experience I began to pray to Jesus and in my cry I began to realize this was a healing process for my body had engraved the abortion experience so deep and God arranged a situation with a man of God to help me through the healing process I needed.

the father, an aunt, the abortion clinic

9. How has abortion affected you?

shame,lost,empty in my womb,scared to let family know,before I got married I told my fiance about it because I was told I might never have children after the abortion,it affected my relationships with everyone even my children I couldn't get close to them because I never felt good enough for them.

10. How has your abortion affected others in your life?

mistrust for life, always ashamed and distant to people,relationships, it is so hard to keep such a secret for so long, and even when I did share this with my two children it hurt them, I also had my daughter become a mother at 14 years, when I found out I wanted her to abort because I felt she and I couldn't handle having this child in our life at that time. She kept the baby thank God she would not listen to me, but our relationship is distant because I did not support her. She later had two other abortions, which she needs to find forgiveness and healing.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it, let's find all those who can help you through this time.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The Esther Call Conference gave me a voice to meet other women who have gone through so many symptoms and problems alike. Please see and listen to our stories and know it was through the Savior Jesus that brought us to understand, that so much pain, years of what shame, guilt, regrets of the lie abortion is a good thing for us to even believe this is a choice of humanity of love and nothing but good could happen for such a choice for a better future. No Abortion is a slow painful way that leads us to a cruel death in more ways than one.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not allowed to see my ultra sound. I was told it " was against policy". To this day I wonder what frightened them about me seeing my baby and deciding to keep it? I was told it was a simple "procedure" and that it was OK because it wasn't a baby yet. They also said I was too young (19) and my child would not have a good life. Never did they give me alternative options.

5. Were you adequately informed of the consequences of abortion?

Yes No

Again, I was just told it was OK, my child would have a horrible life if I wasn't ready. No one told me about the nightmares, anorexia, need to be in control, depression and suicidal attempts that would follow.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The Father and Grand-Father (Grand Father paid)

9. How has abortion affected you?

I was a mess in the "post procedure" room. Crying my eyes out because I knew what I had done was wrong. The "nurse" explained AGAIN that I did the right thing. That it wasn't a child. Not to feel bad. But I did. I went on to be very angry, controlling and depressed. I became severely anorexic/bulemic and then went on to become a pain medication addict. All to cover up the fact that I had indeed killed my child. For 19 years I lied to others about it. I spoke out against pro-lifers (but never admitted I had an abortion) I hated children. Then in my late 20's I found out I would never be able to conceive a child and that my abortion would be my only pregnancy. Again major depression fell upon me. Though 21 years later I have come to terms with what I did and found healing. I still cry for the loss of my son (I know it was a boy Mom's know).

10. How has your abortion affected others in your life?

My self destructive behaviors pushed MANY away. Probably caused my divorce. I have physically and mentally tortured myself to run away from the murder of my child. I have since talked to the Father of the child, and he too never had any children, went into depression and alcoholism post the abortion. It not only affected me it affected him. The world also lost out on a cousin, Uncle, Father, Husband etc. An entire generation is gone.

11. Based upon your experience, what would you tell a woman considering abortion?

I would say talk to every woman you can about an abortion. Find out what real women who have been through it have to say. Research the development stages. When you see your child has a heart beating at 4 weeks you will be hard pressed to see that child as a "clump of tissue".. Think about being selfless and giving that child life if even for another couple who , like me, can not have children. Its a child if you want to see it or not.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would challenge them to really look at the big business side of abortion clinics. Why do we pay for over seas abortions? Why are big research companies holding the hands of planned parenthood? How does a "non-profit" organization have billions? How can a life that has a heart beating in a womb be killed but if the child was one minute old outside the womb and were killed that is murder? THINK about the truths they know in their hearts. America has major blood money dripping from their hands. We must face that we have been committing genocide for profit. Why have many come forward from abortion clinics and stated that they had a "goal" of 12 or more abortions a week? Its greed and women , men too, are suffering ...

HOW MY ABORTION AFFECTED ME

The State of CA

County of Shasta

My name is Diana I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Redding CA

//1999

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I Knew the receptionist who was my midwife with my 4th child, years earlier. I trusted her and don't remember any questions on my part or information on her's.

5. Were you adequately informed of the consequences of abortion?

Yes No

I did not know there were any and I didn't ask.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I feel so sad and hurt that I killed my baby. I have finally accepted God's forgiveness and trying to forgive myself.

10. How has your abortion affected others in your life?

Only a few know but it would make anyone else I know in my family feel so sad if they knew.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it, you may not ever forgive yourself. That baby was made by God and He has a purpose for he or she to be born. You can give your baby up for adoption and make another family so thankful for your baby. Your baby will grow up in a loving home from people who want to give them their whole heart. You will feel good. Otherwise you will live with shame, guilt and sorrow for ending your baby's life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

This is a terrible, sad act that causes pain for the woman who does it her whole life. After she learns

that the baby was a life and not just a mass, she may never forgive herself. She may have injury's from that abortion which could make it impossible to ever have another child.

11. Based upon your experience, what would you tell a woman considering abortion?

the most important think I want to tell women is that you will blame yourself for killing your child, you will regret it as I have for 36 years. You need to get counselling for this because you need to grieve. To give your baby the dignity they deserve.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That from an emotional and moral standpoint abortion is wrong and it effects women, it hurts women emotionally, because they hide their shame,

QUESTIONS

1. Where and when did your abortion occur?

Littleton CO

12/04/1987

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No, I was encouraged to get the abortion as the solution to my problems of being 15 and pregnant. I was told it was a blob and not a baby. I was never told about the increased risk of breast cancer, prematurity with future children or any other risk with a medical procedure. Questions were discouraged.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never told of increase breast cancer risk, depression, suicidal ideation (which I had both of those) and increase in risky behaviors. I continued to be promiscuous and was reckless.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend

9. How has abortion affected you?

It destroyed a marriage I had to another man, not this one. We of course did not stay together as I resented him more and more as time went on. I also struggled with severe depression (that destroyed my marriage) and suicidal ideation.

10. How has your abortion affected others in your life?

My first husband left me. I never could trust him as I was so depressed and insecure. My children are missing a brother or sister. I may end up with cancer and they may lose me. This divorce was very hard on my kids and I wish it would not have happened. Who knows what their future holds because of this. I have had to tell my children about the abortion and how to not get in this situation by being abstinent.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that it is killing a child. She will be a mother of a baby, dead or alive. I would tell her of the consequences that may come with this so called "choice."

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

No court, no governmental authority or subdivision of government has the right to murder innocent citizens or people. The government does have the authority to punish the guilty which may mean death. I also do not agree that any governmental authority (or parents or the mother) has the right to regulate murder (aka child killing regulations). Your group does not have my permission to use this for those types of regulations that would keep abortion legal if Roe were to be overturned. Please discuss with Charles Rice, Notre Dame Law professor for further explanation. Exampels would be ultrasound first then it is ok to kill the baby or parental consent and then kill the baby.

My name is Donna Koch. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Boulder CO

02/14/1976

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

They said it was like a DNC but, I was only 15 and scared and am not sure seemed like a vacuume.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I went to the clinic in Boulder with my sister and they told me it was like a DNC scraping of the uterus, we had not been informed it was a fetus or baby. They just said DNC and in fear I had them do the abortion and they took cash and it seemed like a vacuum was inside my vagina and it was done. No follow up apointment nothing. No parental consent.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea that I just had a fetus vacuumed out of me and they did not tell me about the emotional and phycological aftermath of abortion. I have had post Abortion Stress Syndrome since that experience and at 50 years old I have finally found some anti depressants that will help me calm down but, I never sleep well and I had nightmares about the abortion 20 years later when I finally addressed the issue in a project Rachel support group with the Archdiocese of Denver. I am finally able to deal with the fact that I aborted my baby and it took a lot of work and counseling and spiritual direction.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Yes and no I can

9. How has abortion affected you?

It has caused me deep depression and anxiety that is very much like the pain that some people have told me they went through in incest situations. It caused me to make addictive choices in relationships and they were all abusive. I quit highschool immediately after the abortion not being able to withstand the deep pain or hole in within me. It was the most horrible, abusive thing that ever happened to me and I lost my dignity for a long time.

10. How has your abortion affected others in your life?

My whole family has been affected by it in a negative way. My sister that took me to the clinic has anxiety and depression as well as my other siblings.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to have an abortion unless she is ready to go through a life of hell and torment. I would give her my story and when I have told my story to a woman considering abortion she does not have it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That they are damaging the woman and man and families involved for life: psychologically, spiritually, emotionally, and physically. Most women become suicidal if they do not receive both psychological and spiritual healing.

1. Where and when did your abortion occur?

Houston TX

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

I cannot ever get over the fact that I took the life of one of my children for the sake of my own benefit. I was a teenage girl and so I wouldn't have to face my parents or family with the truth that I was pregnant, I went through with this terrible act. Not a year goes by when I don't think of the child whose life I ended, wondering if they were a girl or a boy and counting how old they would have been today. I grieve always to think that I deprived this child of life and that I deprived my born children from their older sibling. It is a MOST heart breaking event of my past life. I can't help but ask myself why I allowed myself to be so selfish as to protect my own self from the consequences by instead killing my first baby in the womb. I can only hope to one day see my child in heaven and be able to hug him or her and ask for his or her forgiveness. Oh, how I wish I could go back and change that moment in time!!! I am so ashamed and regretful over it all and don't know how I can ever tell the truth to my children that I do have now. But I know that one day I must. I am so, so sorry and sad about it.

10. How has your abortion affected others in your life?

My husband has also missed out being a dad to his first child; since it was his baby too. We were not married at the time. My children have never known one of their siblings and will never know them.

11. Based upon your experience, what would you tell a woman considering abortion?

Oh dear one, do not go through with this terrible thing. It may SEEM like the best thing to do right now, but I promise that you will NEVER stop regretting the moment. If you cannot care for this baby, there are SO many people in this world that are waiting and longing to be parents and would love to adopt. Please give this child LIFE instead of death. There is NO good reason to pass the death sentence to this dear baby growing inside your womb. There are so many other better options!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Oh, this is NOT a privilege to have the "legal" right to take the life of our unborn children. It is a CURSE. A curse of terrible shame and grieving regret for the rest of a woman's life. We are deceived by thinking that because it is "legal", it is a worthwhile option or choice. But a GREAT deception is all it is. There are WAY BETTER options for a mother who cannot keep or care for her child. There are too many other willing people that will adopt these children. Why must we kill them out of our own selfish convenience??

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

not sure exactly, regular

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The people at the clinic explained the procedure so fast and I was embarrassed to ask any questions.

5. Were you adequately informed of the consequences of abortion?

Yes No

Not one time did they ask me or tell me how I would feel or if I wanted a baby or if I would regret this decision.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend and mother

9. How has abortion affected you?

I went through a depression right after the procedure. I was only 16 years old and it was very difficult to understand my emotions. I have had regret every day since I made that wrong choice and I'm now 32 years old. I feel ashamed and guilty of murder. I've prayed every day for forgiveness. I often wonder what my child would have looked like or even if it was male or female and if my life would have been different if I kept my child. I hate the situation.

10. How has your abortion affected others in your life?

My mother has deep regret. She has a lot of guilt because she is my parent and made the final

decision. She has asked God for forgiveness for her action in this. I really wish my Mom would have told me to have the baby. I looked to her for guidance.

11. Based upon your experience, what would you tell a woman considering abortion?

I would say that you need to really think about this life changing decision. It will haunt you the rest of your life and you will have deep regret. It eats you up inside forever and you will need Gods forgiveness. Think about the life inside of you and how you will give it a chance to survive. It's up to you. I strongly recommend that you have your baby, life is beautiful.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The courts are wrong to allow women to kill their own flesh and blood. If you kill your child after birth isn't it the same thing. It's murder.

2. How many weeks pregnant were you?

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Because it looks and feels nothing like the explanation given. no matter how much informed, nothing can prepare you for it.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told of the risk factors of taking RU486.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I went into a severe depression shortly after and ended up taking a leave from work and seeking psychiatric counsel. I had a complete breakdown. In '05 I received post abortive counseling from a Christian based association that was extremely helpful with my recovery

10. How has your abortion affected others in your life?

I would never go through that again or encourage anyone else to no matter the circumstances. God will see you through whatever the circumstances are. My husband still breaks down at the mention of it. My grown children don't know and I am waiting until I think they will understand. What terrible news to give to your child that they would have had a brother or sister. I am now 100% pro life and teach my

children the same.

11. Based upon your experience, what would you tell a woman considering abortion?

There is enormous pro life help out there. I had the opportunity to counsel a close friend who found herself single and pregnant with two older children to support and no career. Now, three years later, Noah is a beautiful little blond-headed boy who has been a joy to his family. Imagine life without him is what we often tell each other. She put her faith in God and just believed He would provide. She and her children are just moving along and she's in school to become a registered nurse. More importantly, she is in a closer walk with Him.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It's plain and simple. We don't have the right to end someone's life at any stage of that persons life. I miscarried last year and the actual miscarriage birthed in whole. We could see the BABY floating in the intact sac. I was approximately 9 weeks along. The eyes and arms and legs were perfectly visible to the naked eye and I guarantee you that was no blob of tissue. That was the tiniest human being I'd ever seen. Woman who are seeking an abortion are not allowed to see any resemblance of a human. The ultrasound picture is out of view and there is no talk of babies. I was told that I was making the right decision and for a few hundred bucks, I ended my baby's life. Then life was never the same. Women need to know the reality of it.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CO

County of El Paso

My name is Scot I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Pueblo CO

//1977

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They told only of the "procedure" and approximate physical healing time. No one asked me if I realized that I was about to murder my baby.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nothing was said about the consequences; that for the rest of your life, you may wake up in the middle of the night and be overwhelmed by the grief of knowing that YOU chose to have your child killed....you wonder who they would have been, what color hair and eyes....how tall or short, athletic or intellectual, poet or warrior...questions without answers; pain upon grief without.....relief.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It's hard to put to words how such a monumental cloud has affected my life.... I can't escape from this knowledge or its dark shadow. Every time I go to stand tall, I see this monumental failure saying "Yeah, right. YOU?!?"

10. How has your abortion affected others in your life?

Who can even venture a guess ? A member of my family was denied the life that God us.....this

affected EVERY facet of every thing since.

11. Based upon your experience, what would you tell a woman considering abortion?

You will never fully recover from murdering your child. With the healing and forgiveness of The Lord , you can find peace & healing, but YOU WILL live with this for the rest of your life. Without His healing, you will kill a part of your heart, spirit and soul in order to survive, and you will be less of the wonderful person that you were created to be. This child is a BLESSING, not a curse. Accept the responsibility for your actions, seek forgiveness & restoration (if necessary), and walk UPRIGHT from here to see the blessings God has in store for you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You have no idea what you are talking about, and YOU WILL be held accountable for each of the 50,000,000 + murders preformed under your judgement.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CO

County of Boulder

My name is Leah Vandersluis. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Boulder CO

02/03/1981

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only told that the baby was tissue and that the doctor would remove (suction) the tissue from my uterus.

5. Were you adequately informed of the consequences of abortion?

Yes No

As far as the Boulder Clinic was concerned, I was told I might have some bleeding and some cramping afterward. I was not told how it might affect me emotionally.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My current boyfriend.

9. How has abortion affected you?

I went through almost ten years of guilt and depression. I felt I had murdered the child even though no one had said anything to me about murder.

10. How has your abortion affected others in your life?

It totally ended my relationship with my partner. I felt I had been forced to do something against my will. It caused me to ostracize myself from friends and family who didn't know about it. ON a positive note, going through an abortion has helped me to encourage others who have been through one as well as

counsel those considering on having one.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that it is not a simple matter of getting rid of "tissue," but that it is a child that has everything it needs to be a baby--it just needs time to grow. I would also share the emotional devastation that I experienced.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We are all fearfully and wonderfully made and every life is precious. Just because a baby is not fully developed doesn't mean that we can play God and take his life. No one should take away life and we all will be judged on this one day.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CO

County of Boulder

My name is Diane Sillstrop. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Denver CO

08/11/1976

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

D&E (Dilation & Evacuation)

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Absolutely nothing was explained to me prior to the abortion procedure they would use on me. It was very frightening and painful.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was given no information on the possible risks of physical or emotional side effects, both of which I suffered afterwards.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Immediately after my abortion, I experienced infection with fever. For four year after my abortion, I struggled greatly with the emotional effects until I was help by a Christian counselor.

10. How has your abortion affected others in your life?

It took the lives of my aborted twins. It damaged my new marriage a few years after my abortion. Now because of forgiveness and healing through Jesus Christ and ministry in pregnancy resource centers, it has affected many for the good, as I can share the truth and risks of abortion, but also the possibility of hope and healing after abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

It may seem to fix a problem, but will most likely create many more.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Preborn babies (fetuses) are live human beings with the right to live as anyone has. The taking of their lives is not a fix and devalues all human life with devastating consequences to our society. Their tiny bodies are not a part of their mothers...they are within, but not a part. No human being should be given the right to kill any other human being, no matter how old, sick, destitute, etc. There is always hope where life prevails.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CO

County of Boulder

My name is Regina Cook. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Boulder CO

09/08/1987

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that my child at 12 weeks was still microscopic and not yet human, to look at it, it did not look human, and did not feel pain. I was not allowed to look at the monitor when they did the ultrasound. They did not properly inform me of fetal development. They did not go into details as to what would happen to my child.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told that the abortion was the best choice for me, that I wasn't doing anything wrong and there was nothing to be sorry for or sad about. I would live my life normally as though nothing happened, and would not experience any emotional or physical problems in the future.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Both of my parents and boyfriend.

9. How has abortion affected you?

I feel a deep sense of regret and emotional pain. A yearning to know my aborted child. Feelings of failure as a mother to protect my child. I have a hard time making decisions on my own. I have sexual dysfunction and a poor view of sex. I have nightmares regarding abortion. The relationship between my parents and I is strained because of their lack of support for my desire at the time to place my baby for adoption. I also have flash backs of the abortion procedure, especially the jar that they wrap in a cute

quilt-like cover that contained my broken and torn baby. How they took it around the corner to see if "it was all there." And the insensitivity of the staff at the clinic and my parents.

10. How has your abortion affected others in your life?

My mom feels bad that her coercion has hurt me so deeply in so many ways. My living daughter feels a tremendous loss, and grief that her sibling died that way. She writes letters to them, and even she has had nightmares.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it, you may not regret it or experience any problems immediately after or even a few years after, but when you get older and look back, you will see it differently than you do now. You will think about it everyday of your life whether you want to or not. Give your child life and you will never regret that. Abortion is a terrible memory that you cannot take back or erase. There is nothing positive or good about it, it is death, stinking rotting death, embodied in lies and fear.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I have suffered tremendously because of my abortion. I was a naive young girl and I was coerced and lied too. Important information was withheld from me, information that I wish I would have known. I did not want an abortion. I wanted help and support, but no one would give that to me. I got threatened and was made to feel stupid for wanting to place my baby for adoption. I will never forget my abortion, the horrible ugliness of it all, it has caused great pain in my life. Instead of feeling helped and loved, let's not forget "liberated", I feel used, deceived, abused, manipulated, robbed, violated, and wounded, just to name a few. I am very angry about it. We need to get real about it, quit hiding the truth and offer women better options, better help than crappy abortions.

My name is Rachel Tagliente. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

CO

//

2. How many weeks pregnant were you?

3. What type of abortion was performed?

I'm not sure what this question means.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

The emotional aspect was never addressed. Only the medical procedure and after care. It was actually very cold in the emotional aspect.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend

9. How has abortion affected you?

I have had 3 abortions and I had to go to a post-abortion counseling group to finally address and deal with it. I was in deep depression for almost 15 years and could not figure out why. I hated myself, my self image was a mess. I had one failed relationship after another. It took away most of my teenage years and my 20's. It has been very painful.

10. How has your abortion affected others in your life?

My moods ruined relationships with others. I had one boyfriend after another. I have been married several times. I didn't feel that I deserved to have a baby when I was ready for the sin I committed of killing a baby.

11. Based upon your experience, what would you tell a woman considering abortion?

It's not worth the pain and guilt and shame that you will have to carry for the rest of your life. I thought that I could just shut this out and go on but it never would go out of my mind, even when I didn't know what it was at times. Give the baby to someone who can't have a child because they will treasure the baby so much. Reach out to a center that deals with this and get help before you decide to do something like this. It is not the baby's fault either and it isn't right to take it's life. It is life, from the moment of conception and that is a scientific fact, no matter what the media or Planned Parenthood says.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It's murder of an innocent child. The baby feels pain and they have proven that. The emotional aspects of guilt on the woman are the same as what a soldier goes through in war. Post traumatic stress disorder has been found to have the same affects on a woman who has an abortion. It is scarring that takes its toll. I know because I was in a group of women who went through it. They have groups every year filled with women of all ages who needed to find healing and be able to talk about this. If it doesn't affect people, why would they need to have actual counseling to deal with it?

My mother

9. How has abortion affected you?

In the years following the abortion I suffered from severe depression. I have been delivered from that through the saving grace of Jesus and have been through an abortion recovery program.

10. How has your abortion affected others in your life?

I was married and had two children while I was suffering from depression, so it affected my husband and two small children.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to have one, that it would ruin her life and that it is murder.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That they are allowing the murder of children, and emotional and spiritual damage to the women and girls that have them.

QUESTIONS

1. Where and when did your abortion occur?

San Diego CA

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I wasn't told much of anything! I was given a pregnancy test and told I could have an abortion. I was given a time to return if I so choose. There was a waiting period,

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

The worst part was a day or so after the procedure I evacuated something into the toilet. I knew it was my unborn baby. It had an eye and I recognized the shape. I immediately called my clinic and spoke to a nurse. I was hysterical. Her response to me was, "What do you expect? You just had an abortion." That was followed up by a request for me to retrieve it from the toilet bring it into them so they could do testing on it. They said it was not a fetus but I know it was. It has been 25 years and my husband and I have never talked about it. Everyone at work knew I was pregnant. So my husband called in and said I had a miscarriage. He was crying as he did so. I don't think he wanted me to have the abortion but I was SO not ready for a second child he honored my feelings. It is only in hind sight that I see he might have rather had the baby. This is all very painful and it has been difficult to admit to my children that I did this awful thing. I did NOT fully understand the consequences of my actions. I did not realize the effect it was going to have on me for the rest of my life. The emotions come flooding back. If I could

take it back I would but then how do I decide between my aborted baby and the child God gave me in it's place? I wish I had truly been informed of how I might feel emtionally after making such a decision. I may have thought twice before doing it. I beleive I may not have gone through with it.

10. How has your abortion affected others in your life?

My husband and I after 25 years still have never spoken about it. My children think I am a hypocrite for speaking out against abortion. My daughter that came after the abortion believes that abortion is a good form of birth control. I think she says that just to hurt me!

11. Based upon your experience, what would you tell a woman considering abortion?

I would talk to her candidly. I would let all the emotion and pain be plain on my face. I wouldn't hide a thing. I would want her to know that it would be a decision she would have to live with the rest of her life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Why do we get excited when at two weeks we can find out wheter we are pregnant or not and consider it a baby? But, if we don't want that baby at two weeks pregnant it is just a fetus and has no signifigance? Why can we consider it a baby in one circumstance and not murder when it is not what we want?!

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't remember ever been given pamphlets, or any reading material. I was upset, had a lot on my mind. They doctor spoke with me and the father, everything was a blur, I don't remember what he said. I can just remember being in his office for a consultation before the abortion.

5. Were you adequately informed of the consequences of abortion?

the father

9. How has abortion affected you?

I still carry a lot of guilt. Knowing what I have done. I cry once in awhile, not as much. I have gone through the confession process through my church, but still feel like I haven't done enough to make up for taking that innocent life. Feel ashamed, like some kind of inhuman monster, for taking a defenseless life.

10. How has your abortion affected others in your life?

no one else knows about it.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to, there are other avenues. No matter what they tell you...you are not free from it. It haunts you for years to come. You may not feel it now, but as the years go by, and you get older, you will realize what has been done. Too much heartache, depression, suffering. Have faith.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

To try living a day with something like this constantly on your mind. Look at the pictures, let them stay with you. See the heartbeat, look at the features, how can you not say this is not a living thing? Your heart is beating, you are living. What makes your heart different from this baby's heart? Think of your life without your children, if you have any. Think of the mix of joys and sorrows with them, think of what you taught them, and what they taught you. What would your grandparents think if you had an abortion, or convinced someone to have one, would they approve. That is not the way you were raised, if I'm correct, you were raised to respect life, just as your ancestors did.

2. How many weeks pregnant were you?

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one really explained the nature of the operation. I did know that if you were pregnant that it was a baby. I know that the abortion clinic did not use the word baby. There was not any counsel about how it would affect me; only that I should get on the pill.

5. Were you adequately informed of the consequences of abortion?

Yes No

There may have been some medical information shared but the only thing that I remember was the counselor telling me how lucky I was that my father brought me to the clinic. She shared with me that her father kicked her out when she found out she was pregnant.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

mom

9. How has abortion affected you?

depression; self-medicated for years with alcohol and drugs; low self-worth; relationship issues until I received healing; anger and self-hatred

10. How has your abortion affected others in your life?

It hurt my whole family.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that no matter what choice she makes she will always be a mother. The bond between mother and baby is immediate and if she chooses abortion she will live with it for the rest of her life. I would also help her see her strengths and share with her other options like adoption and what services there are in the area that are available to those who need financial help.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That the majority of American people believe that abortion should only be performed for medical reasons or for rape. In all actuality, those cases only represent 1%. If abortion were illegal, I would not have had an abortion because my parents would not have asked me to do something illegal.

HOW MY ABORTION AFFECTED ME

The State of CO

County of Elbert

My name is Holly I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Minneapolis MN

07/08/1987

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

Standard I guess

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Looking back, no. I knew what it was, but I don't recall getting much information from the clinic. Since I wasn't completely positive of the date of conception and they weren't sure if it was first or second trimester (price difference I gathered), they performed an ultrasound. I saw my baby move and I think I was in shock, but nobody talked to me about it. Even back then I remember seeing arms and legs moving. Afterward I was left in a room alone for a really long time (I was wondering if they forgot about me) and I almost walked out. I still remember feeling that tug at my heart to walk out, but I was 15 years old and alone and I really think I was in some sort of shock. They finally came to take me and I remember that after I was having trouble breathing. Maybe they told me what to expect, but if they did, I don't remember it...or maybe I was just too young to take it all in...

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't remember any information on consequences

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Besides a lifetime of regret, I will never forget the events of that day and I will never forget the date. It took me years (actually almost decades) to forgive myself and realize that I was just a child (15 years old). For at least a decade following I was overcome with guilt and sorrow many, many times.

10. How has your abortion affected others in your life?

The few that knew had to deal with my guilt.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it!!!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

In only EXTREME circumstances and honestly even then it's questionable. I actually had an experience where it was suggested that it may be good to have one for health reasons. My fourth child was diagnosed with a CCAM when I was 5 months pregnant which could have been potentially deadly not only for her, but for me. She is now 18 months old and beautiful and HEALTHY. Abortion was NOT an option for me.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CO

County of Larimer

My name is Veronica Kerbs. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Denver CO

09//1992

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never informed of the emotional wreck that I would be immediately following the procedure and for every day since then.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I never trusted anyone after that time. I was very insecure and neurotic after that and started compulsive behaviors. I drank alot and had many thoughts of suicide.

10. How has your abortion affected others in your life?

My oldest daughter suffered because I was afraid to really love her.

11. Based upon your experience, what would you tell a woman considering abortion?

Please do not consider this course of action. It is far too devastating to your whole life and every moment after you do it, you regret having made that decision. There really is/are people and places that can help you. You are not alone.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that abortion destroys more than just the life of the baby (fetus), it destroys the life of the mother too.

My name is Cindy Schneider. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Denver CO

06/20/1972

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

cant remeber also I am only sure of the year of my abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They explained the medical part, but did not explain the damage to my life that would follow from this choice

5. Were you adequately informed of the consequences of abortion?

Yes No

As I stated above after my abortion I became lost in myself and spiraled for the next 20 years into self destruction.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

family and friends

9. How has abortion affected you?

I was 18 and I already had a baby girl, everyone was telling me it would be okay and that I just could not have two babies. After my abortion I got heavily involved in drug which took me on a twenty year addition during that time I did have two more babies and thank God for that. I stayed on this downhill path until 10 years ago when Jesus came into my life and help me to forgive myself and start a new life.

10. How has your abortion affected others in your life?

I never shared it with anyone until my life was restroed, since that time I have become very vocal on how it affected me and also shared it with my grown children which was so hard but also very healing.

11. Based upon your experience, what would you tell a woman considering abortion?

Please listen to the voice inside that tells you to keep your baby and if you are not able to care for it give it up for adoption, don't make your self pay for the rest of your life with the guilt and shame in

knowing you took your own child's life there are so many other options that lead to life and happiness

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say in all truth with love that a woman's choice is abstinence not murder, please don't be a part in destroying a woman's life, close the door and let us all be accountable for our own actions, a baby does not choose death.

HOW MY ABORTION AFFECTED ME

The State of CO

County of Teller

My name is Judy Fosburgh. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Colorado Springs CO

08//1969

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Dilation and Curretage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The obstetrician/gynecologist didn't explain anything except that he would "take care of it" for me. There was no anesthetic, emotional, spiritual or physical support given to me.

5. Were you adequately informed of the consequences of abortion?

Yes No

As mentioned above, there were no explanations of any kind given to me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My father

9. How has abortion affected you?

I suffered many years of shame, guilt, sadness and infertility. I was sexually "shut down" from the experience.

10. How has your abortion affected others in your life?

My marriage was difficult because of the shame, guilt, mistrust and inability to engage in intimacy with my husband. There was anger toward my father for pressure he exerted over me to obtain an abortion

11. Based upon your experience, what would you tell a woman considering abortion?

I would encourage her to look at the facts about abortion and know the full implications of her decision, including future possible infertility, breast cancer and the emotional devastation that often follows an abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

If our legal system is designed to be for the good of the people it serves, then please protect the unborn as well as their parents from the devastation abortion brings!!!!

QUESTIONS

1. Where and when did your abortion occur?

East Los Angeles CA

//1981

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Not certain

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had no clue what was happening to me. I was young and scared and nobody presented me with any other options.... I wish they had. There were complications and I've never conceived again!!!!

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told very little and because I was scared I trusted them (medical personnel).

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I am a total Pro-lifer!!! I believe woman are being lied to and mistreated in giving them the ability to abort a child! The ramifications are way too severe!

10. How has your abortion affected others in your life?

I was not able to conceive a child for my husband

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. Not only is it wrong (murder)... it leaves a woman feeling vulnerable and emotionally traumatized. Plus the physical complications or risks are not worth it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That God is the only one who should be the giver and taker of life! Putting that power in the hands of a woman is unfair, to her and the father and the baby. She not only decides for everyone she has the

burden of having death on her hands! Not fair. Murder is always wrong! Same on the Government... for allowing this law... plus such a double standard, because if some kills a pregnant woman they can be held accountable for two deaths!!! I don't see a difference except the mother is LEGALLY allowed to murder her own baby... that is just sick and wrong!

My name is Abby Corrigan. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Denver CO

10/31/1973

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

They sucked my baby out of me

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told in detail the procedure. I could see the clear tube with the parts, and blood of my baby coming out.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had such sorrow in my soul, so much guilt and shame. During the procedure they had to stop because I was turning green. They seemed annoyed at having to slow down. I was then told to go lay on a cot in a room where other women were recovering. I then left when I felt I could. No one checked on me at all.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

I was 16 the young man who got me pregnant

9. How has abortion affected you?

It brought great sorrow to my soul I had to go through a lot of ministry and deliverance to be free, but thank God for mercy!! The blood of Jesus is more powerful than death.

10. How has your abortion affected others in your life?

I didn't know this at the time, but when you have an abortion you invite death into your womb. Consequently when you get pregnant and want your baby those spirits are then free to attach to your children. When my son was in college his girlfriend had an abortion. Both of my children have now given their lives to Jesus, and they have been through deliverance and prayers that took them back to conception to cleanse them of death, and rejection that I was carrying in my womb because of abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

God wants you to stand for LIFE!! There are those who will help you through this. Alot of people desire to adopt babies. Turn to God with all of your heart. He will help you in your time of need. He loves you, and your baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder. It brings devastation to a woman's soul, mind, and, body. It took years of counseling and prayer to come through the shame of doing this.

The State of CO

County of El Paso

My name is Kathleen I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Minneapolis MN

03//1977

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

I honestly don't remember

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I would go on to have 3 more abortions. The fourth time they suggested it could affect future fertility.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told everything would be quick and painless. It seemed like just another form of birth control.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The first time, the father.

9. How has abortion affected you?

I was in a relationship at age 15. The first time my boyfriend manipulated me into having an abortion. The 3 that followed, I never told him about because he was physically abusing me and I thought he would be angry and I would be even more stuck in the relationship and never get out. Strangely, having the abortions caused tremendous guilt and I felt I deserved the abuse I received from him. I felt unworthy of ever dating or marrying someone else.

10. How has your abortion affected others in your life?

I kept it a secret for 24 years. I told no one; not my best friend or my new husband. After marrying a good guy I felt guilty being happy and after the birth of our first daughter, I suffered from depression and panic disorder. I lived a lie. I felt like a fake. My husband did not know my inner struggles and why I was so distraught at times. Our marriage nearly failed.

11. Based upon your experience, what would you tell a woman considering abortion?

Get an ultrasound, see that it is a baby. Talk to the people closest to you whom you trust. Consider

adoption. Life doesn't go on as usual after an abortion. It stays with you forever.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I was 15 years old. I thought that if something was legal that it must be moral. I didn't understand then that the government doesn't really care about moral values.

HOW MY ABORTION AFFECTED ME

The State of CO

County of Mesa

My name is R S I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Grand Junction CO

//1990

2. How many weeks pregnant were you?

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

When I had the abortion I thought it was ok. I didn't see it as killing 'someone'. I was having problems with the pregnancy and the doctor told me that I would lose it anyway. I wasn't a Christian and didn't know that God could change it. But then, after I was informed, I have lived with much guilt and shame. I've suffered from depression and suicidal thoughts.

10. How has your abortion affected others in your life?

My son is an only child and I think if I would have had another baby, he would have had a better life. A brother or sister to share his life with. He has been very lonely in his life.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. Let God have His way. He could turn everything in your life around if you will call on Him and ask Him.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder. When I think of justice, freedom and liberty. I think of life, peace, joy, happiness, promise, hope, love. I think of people helping people. Abortion kills human beings and leaves the women in depression, their families in disarray. How can we think that all the current problems of this nation were by accident. It's time to wake up! We need to clean up our country. Abortion doesn't help

anybody.

Medical personnel and one of my relatives.

9. How has abortion affected you?

I was in a psychiatric facility when I learned I was pregnant. The staff said it would be better for my mental health to have an abortion; I was unable to be a good mother due to my mental state and realities like finances, having a home. Having an abortion didn't help my depression or my financial situation. I would have chosen differently had I known there were other options than abortion. At the abortion clinic I cried out during the abortion (I was awake with only local anesthesia), the nurse threatened to stop the procedure and leave the remains inside of me if I didn't stop. A nurse did this during a medical procedure. At that moment the nature of this act made itself known, the callousness and violence inflicted on me, my spirit, my womb, and another. I had already begun to miscarry by the time I reached the clinic. Had I known that, I would have gone through with the miscarriage. As a result of that abortion I became a callous, angry, wounded person. I lashed out at others for many years and engaged in abusive relationships, drugs, alcohol. I was told I had no choice by doctors and nurses responsible for helping me, and then threatened by other medical personnel. After my abortion, the staff would not talk to me even though I was in pain over it. Are there words to describe the kind of callousness that I experienced by those whose careers were about healing the sick and wounded? I have yet to find such words.

10. How has your abortion affected others in your life?

I never told most people in my life. My mother, I am told, knew in her heart that something profoundly wounded me while I was in the facility, but I never told her what happened to me. She died in 2002, and this secret was always there, one more barrier between me and her. My sister lives with the fact that she urged me to choose abortion. She suffered mental health issues afterwards that persist to this day. She now tells others to choose life and was thrilled that a baby was saved due to her counsel.

11. Based upon your experience, what would you tell a woman considering abortion?

I would say that abortion hurt me and this wound may never be healed in this lifetime. I would say that ending the life of your child solves nothing but will give a lifetime of pain, no matter how early in the pregnancy the abortion occurs. I would say that there are resources, places to go that will help her choose life. I would tell her that once she gives birth to her baby she would never believe that abortion had ever crossed her mind.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say that abortion takes a life and that we have laws against taking the life of another. I would say that the right to life, as stated in our founding documents, extends to even the smallest of those among us. I would say that without the state respecting a person's right to life, that no other right can be guaranteed. I would say that it is in the best interest of the state to protect the weak and vulnerable and who is more vulnerable and weak than a baby in the womb, or a mother who is homeless, poor, and sick, like I was? I would say that there is no justice in turning women against their children, and that a nation that allows the wholesale slaughter of its children is a nation without justice.

QUESTIONS

1. Where and when did your abortion occur?

Great Falls CO

04/30/1989

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

My baby was simply labeled a "fetus" never clearly explaining at any point to me the reality of a living human being... "baby"

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never informed of after effects emotionally and physically of the abortion. Counseling was not offered to me as a follow up, it was treated just as any other procedure that took place in the doctor's office.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Sad, empty hole that never is replaced even by having other children. I often contemplate meeting them in heaven as they were actual human beings with a soul who entered into eternity when I took their life.

10. How has your abortion affected others in your life?

My children I have now know and it was one of the hardest things to explain to them that I murdered 2 other children.

11. Based upon your experience, what would you tell a woman considering abortion?

I heard it said that "after an abortion you are not unpregnant, you are simply now a mother of a dead child" I truly wish I would of heard that before I had my abortion. I reasoned my way into being unpregnant and at no point considered that I was still a mother after the abortion, just the mother of a dead child. All life counts, even if it is a realization yet. Please, please reconsider.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Absolutely not. Life starts at conception and murder is murder no matter at what stage of life we commit it.

QUESTIONS

1. Where and when did your abortion occur?

Fort Collins CO

11//1986

2. How many weeks pregnant were you?

3. What type of abortion was performed?

Dilation and Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

There was never any discussion regarding the emotional consequences of abortion. Only a disclaimer by the doctor regarding damages that could result or risk of infection.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend

9. How has abortion affected you?

I have spent 23 years living with the emotional devastation of this action. For several years after the abortion I had nightmares, heard babies crying, had thoughts of suicide, feelings that I did not deserve to have other children. When I had a child many years later, I initially was fearful that something would happen to him because I didn't deserve to be a mother. I didn't feel like my life was normal after the abortion until thirteen years later when I finally went to an abortion recovery group and received some healing. Still to this day I mourn for my dead child. I am constantly looking for people that are the age he would be to see what he would be doing. He would be 22 years old in March of 09.

10. How has your abortion affected others in your life?

It has affected so many people without their knowledge. People who do not understand my reactions to some things. My parents also mourn the loss of their first grandchild. If I knew at the time how accepting they would have been of my situation, I would have told them before I did it. Knowing it now only makes the situation more painful.

11. Based upon your experience, what would you tell a woman considering abortion?

That she will NEVER regret allowing her child to have life, even if it is through adoption. She will probably always have regrets from an abortion. Even the most pro-choice advocate who has had abortions, if they are being honest, will realize that there are times they wonder what could have been if they had allowed their child to live.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is so devastating to women. The emotional damage that is done to women after an abortion is so difficult to heal. At a minimum, there should be true choice. Women should be required to see an ultrasound of their child and then be given a 24 hour cooling off period before an abortion can be performed. Then if a woman does chose abortion, it is a true choice. The way it is now, the abortion INDUSTRY profits on lies. I asked to see the ultrasound of my baby before my abortion (they were doing it to confirm how far along I was) and I was told it was against the rules. The only reason I can imagine is that they would have lost the money for the death of my child. Today I would gladly give that person thousands of dollars to just have my child back.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

As far as the information they had at the time I was, but that was before ultrasound equipment. I knew in my heart of hearts that if the cells were left to divide and grow they would become a human being.

5. Were you adequately informed of the consequences of abortion?

Yes No

At the time abortion was so new I doubt the counselors even knew the ramifications to peoples lives.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I preferred to not think about it and just to push it aside. I later was raped and had a second early abortion in California. Promiscuity was what I really had a problem with. The pregnancies were only the result. . I take full responsibility for the poor choices I made and I can only thank God that I did not commit suicide. After the first abortion I didn't have any outward problems or any I was even aware of. After the second abortion I truly did not want to live any longer. I was devastated. I knew it was wrong, but again, I just didn't want to take responsibility for my decisions which lead to the pregnancy. Today, I have a son and a daughter. I have told both of them as well as my husband, hoping that my children will be wiser and not make the same mistakes. Sexual immorality is wrong and it has consequences.

10. How has your abortion affected others in your life?

It has helped others to see that bad choices lead to consequences they aren't prepared to deal with. Also, it has shown my children that we have a God of forgiveness when we are truly repentant, Jesus

died for all of our sins.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them that the price is way too high to pay. I would tell them that there are people who would love to adopt their baby or that would help them if they chose to keep their baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them the price for our country to pay is way too high. It is nothing short of the murder of the innocent.

HOW MY ABORTION AFFECTED ME

The State of CO

County of Jefferson

My name is J G . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Seattle WA

11/22/2006

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Nothing was explained to me about what exactly happens

5. Were you adequately informed of the consequences of abortion?

Yes No

I was only told that I would not be pregnant anymore, no consequences at all were explained.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I felt empty and lifeless. It was like I was watching my life go by, and not actually interacting in it myself. I started doing drugs and drinking heavily. Instead of feeling like the rest of the kids in my school, I felt completely different, like nobody was the same as me. 13 years later, my guilt is still enormous. I felt robbed of my happiness and personality. The vibrant and innocent girl I once was had left me. I just felt like I didn't deserve anything good in life. The shame I feel is undescrivable. I actually feel nautious when I think about it. I thought the problems I would have from a baby would go away if I had an abortion. Instead, I traded those problems for something so much worse. I feel like I killed a part of me when I had my abortion. It is not normal, it is weird and horrible, a nightmare that will haunt me forever. I know now that Jesus paid the price for me, and my baby is in heaven with God. I just don't understand how God can still love me after I have done this. I hate to think about what they actually did to the baby. I praise God for His love and the forgiveness that I have through Jesus. I could never forgive myself if unless I knew that God forgave me. I feel like I need to throw up when I talk about it.

10. How has your abortion affected others in your life?

After I had my abortion, I dropped out of school and started doing drugs. My parents had to send me to boarding school because I was so out of control. I spent the remainder of my teenage years away from my family, and didn't allow them into my life. They missed out on me growing up because I chose to alienate them. My husband thinks of me not as his perfect, pure wife, but as a dirty whore. Even though this happened 13 years ago, before I even met him, it still has changed the way he thinks of me. My husband almost left me when I told him that I had an abortion. I had it 5 years before I even met him, but he thought of me differently after. He thought of me as a whore, not his pure wife. This made me feel like I didn't deserve to be with him. I know that is not the truth because God gave me beautiful children with him, and we love each other, but it is just something that is so different and disgusting and shameful, that I really feel like part of me is missing and that I don't even deserve to have it back. Other than that, I can't bring myself to talk about it with anybody else. I judge myself harshly for it, that I just know others will too. This has made it unbelievably hard for me to allow anybody in to be a good friend to me. The whole thing has made me lonely, something I always feared. My children don't know about it, and I don't plan on telling them about it, unless the time is right when they get older, but I don't want them to judge me either.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. Either way, you will have to deal with this baby for the rest of your life. That's what it is - a baby. It is not just a clump of cells that can't feel anything. If you have an abortion, you are choosing to kill your baby. The guilt and shame you will feel will haunt you forever. You will have to live with this for the rest of your life. You might think that your life will just go back to normal after an abortion, but it won't. You will be forever changed. I truly feel as though no matter what, whether you keep the baby or not, it is a lifelong situation. The problems you think you will have are just so much worse when you choose abortion. The unbelievable joy that comes from a child will also be with you for the rest of your life. Now that I have experienced both - an abortion and childbirth - I know beyond a shadow of a doubt that abortion is so wrong. Either way you will always live with your decision. Please, choose to life. Nobody is ever "ready" to have a baby, even the married couples who have been planning on it. It is a whirlwind of fear, excitement and wonder, but when you actually give birth, and hold that tiny baby, who you made, that is part of you, it is like no other feeling in the world. I wish everybody could feel that unbelievable joy. Life is not easy, but the joy and fulfillment of having children helps along the way! I don't wish the pain of abortion on anybody.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is murder, plain and simple. It will haunt a woman for the rest of her life. It will ruin her future, emotionally, physically, in her relationships, in every area of her life. A baby can be hard, but rewarding. Abortion is beyond hard. You can't undo abortion.

HOW MY ABORTION AFFECTED ME

The State of CO

County of Douglas

My name is Tammy I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Denver CO

09/01/1992

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

suction - The date is approximate - I remember the date my baby would have been born

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that it would be a simple process and that they would insert something that would open my womb so that they could get the mass out. When they did an ultrasound I asked to see it and I was told that I could not. I became emotional and she said that it was not a big deal and that I would be fine. I would not even know anything happened when it was all over.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nobody talked with me about possible health issues. I signed forms that I was rushed through and anytime I was upset or concerned they just pushed me through.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend

9. How has abortion affected you?

I am so sad each year in March when I think about the baby that I killed. I look at my beautiful daughter and I am so sad that she does not have a sibling because of my decision. I think about the pain that my baby felt when he died and I have so much guilt. Only two people know about my abortion other than me because I am so ashamed of my choice. I remembered that when I had an ultrasound at 7 weeks when I was pregnant with my daughter that I cried because she was a beautiful baby. I could see her body and her heart. It was just one more reminder of the horrible thing that I did.

10. How has your abortion affected others in your life?

My daughter will never know her sibling and my parents will not know their grandchild.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. Inside you is a baby - no matter how small it is your baby and if you have an abortion it will follow you throughout your whole life. If you cannot raise the baby then allow someone else to have a gift from you. Your life will never be the same.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

12/10/1988

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

not sure.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I honestly don't remember being told much about procedure only about anesthesia and recovery room and what to do afterward.

5. Were you adequately informed of the consequences of abortion?

Yes No

NO one said I would be sad, empty, lonely, confused. Nothing was said about how I would feel about my future pregnancies or how my relationships would be affected or how I would feel about myself from then on out.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my current boyfriend (not the father) and his mom

9. How has abortion affected you?

From the moment I woke up I have felt like something important is missing in my life. I was in denial for years that this was a real person that I had destroyed. But the emptiness and the self-hatred went on and on. I became so unhappy that I tried to find peace in alcohol, sex, and drugs. I only became more unhappy and lonely. I thought if i can not even love myself who will ever love me. So suicide seemed the only way to escape the suffering. I was saved from that and have struggled with having true Joy in my life for a long time. When I had my 3 beautiful children I felt guilty for choosing to have them and not choosing the same for my first one. I now know this was a real life. Someone who I, for selfish reasons, threw away. I will always feel the pain of that decision even though I am on the road to healing. At least now I know why I hated myself for so long.

10. How has your abortion affected others in your life?

First, my mother who took me has suffered greatly. The guilt of the part she played in not protecting her daughter or her grandchild. The father, who i have had recent contact with after 18 years, has suffered horribly this whole time and I did not know the extent of the damage I had caused by making this decision. It has kept me from letting others get close to me because deep down I am afraid they will find out and not understand and look down on me. I have had a hard time learning to love with my whole heart because I have not had a whole heart since that day. Part of me was taken and I don't know if I will ever get it back. So, relationships have always been hard. I am sometimes angry and no one knows why. It makes me sad for them.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her my story and hope that she could see herself in it and realize this in not an answer to her untimely pregnancy. That this is a lie. You will not be able to just "go on with your life as before" it is not worth the trade off. No matter how difficult the timing is or the circumstances in your life, this is a life with a right to live and it is wrong for us to chose to throw it away. That if she does not want to live the rest of her life hating herself don't do it. I didn't think I would have this response but there is something unexplainable that is already taking place inside of you and it is going to change your life no matter what, but you can chose if that will be a good change or a devastating one.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

They must realize the full consequences of an abortion first. Courts look at pain and suffering from all other kinds of destructive and violent behavior yet, they do not even consider this when thinking of abortion. If abortion were legal when I was concieved I would not be here. Same goes for my husband. But only three years later it was legal and I chose a different path than my mother. I wish I had not had the choice because I would have my child just like my mother has me. Having me did not ruin my mothers life the course changed a little but she does not live every day hurting or wondering who I would have been. They do not have the right to make it legal to take a life that can not speak for it's self. Not only that but, the father of the child is not given a choice to protect his own child and this, i have found out from my own experience, is devestating and forever impacting on him. If only I had understood then what I do now.

HOW MY ABORTION AFFECTED ME

The State of CO

County of El Paso

My name is Susan Thayer. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Jose CA

07/08/1978

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

No one mentioned anything about the long term emotional affect that the abortion would have on me. (Post abortion stress), which is as real as post traumatic stress.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has affected me in many ways, most are emotional. I have struggled quite a bit in my marriage with trust and connection. I also deal with depression and I believe that has a lot to due with the abortion. There are many times I feel very alone even though I have a wonderful family and I can remember feeling that way after the abortion.

10. How has your abortion affected others in your life?

I believe I am not able to give myself completely physically or emotionally to my husband as a result of the abortion. It also has affected how deep I can go in my friendships, because somewhere inside of me feels I need to guard myself.

11. Based upon your experience, what would you tell a woman considering abortion?

Before you decide talk to someone about your options. Get informed and do not make your decision based on fear or pressure by someone else. It is a huge decision. A good place to get good info. and lots of loving support in a Crisis Pregnancy Center in your area. Either decision you make will have long term effects. Deciding to parent your baby is not easy but the rewards are great. There is a lot of help

and support in the community. Abortion may be a quick fix, but not a long term fix. As a woman it will leave many scars.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Not a good thing. It is destroying not only many precious lives of the unborn, but many precious hearts of our beautiful young ladies in this nation and all over the world. We should be focusing on educating our young people about the value of abstinence.

9. How has abortion affected you?

Until about 16 years ago I walked around with incredible guilt. Then I heard the story "Tilly" and was freed from the guilt. Had I known what I was really doing, I would never have gone forward with it. They said it was "just tissue" and that it was OK.

10. How has your abortion affected others in your life?

I was able to "save" my niece from being aborted. I stood in the gap when my sister came to me and told me she was pregnant. My niece is now 19 years old and absolutely beautiful!

11. Based upon your experience, what would you tell a woman considering abortion?

I would let her know, even do an ultrasound, showing her it was indeed a baby she was carrying, not a blob of tissue. I really believe that if women knew it was a living baby they would never commit this heinous crime.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Watch a procedure being done from the babies viewpoint. A nuber of years ago there was a video done showing the baby being ripped apart. Also, that because of their unwillingness to step in on behalf of the innocent life being formed, they would be held accountable in the next life. Even if they don't believe in an afterlife, after watching the video and still thinking it's OK, then they are heartless. It's not OK to kill someone like Dr Tiller, but it is OK to kill and innocent life. Neither is acceptable!

mom

9. How has abortion affected you?

I felt emotionally numb and full of rage all at the same time. I hated myself afterwards. I was depressed, guilt-ridden, ashamed, and felt that I deserved only men that treated me poorly. However, in my late 20's a surrendered my life to the Lord and several years after that went to a Bible study for post-abortion healing, PACE. For the past 7 years, I have ministered to women through the Bible study as well. It is now called Forgiven and Set Free; I have been on staff for the past three years as the coordinator of the post-abortion ministry at Life Choices Pregnancy Center in Longmont, CO.

10. How has your abortion affected others in your life?

I am sure that it hurt the father of our babies. For years, it put a strain on my relationship with my mom. In the last couple of years God has done a amazing job of restoring that part of our relationship. However, we still have trouble talking about what I do for my job or ministry.

11. Based upon your experience, what would you tell a woman considering abortion?

No matter what decision she makes she will always be a mother to this child. She can decide to be a

mother that parents the child, a mother who chooses another set of parents for her child, or the mother of a dead baby whom she chose to take its life. There is almost nothing harder in this life than living with the latter decision until you receive healing.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

While some make the argument that a woman has the right to decide what to do with her own body, that when a woman is pregnant it is not her body she is harming but the body of a baby. I would then take them through the stages of fetal development.

QUESTIONS

1. Where and when did your abortion occur?

Detroit MI

08/01/1980

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was numb. In shock. Afraid. Alone. Confused. My doctor sent me to the clinic and the clinic workers were friendly but no one explained anything about the abortion itself.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had overwhelming guilt, shame and depression that has lasted most of 28 years.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father.

9. How has abortion affected you?

I have been sorry I did it for 28 years. I KNOW it was wrong. My heart is broken and longs for my child. I think of my aborted child all the time. I am ashamed of what I did. I wish I could go back in time and have saved the life of my unborn child. No matter what the abortion industry tells us.....abortion IS MURDER.

10. How has your abortion affected others in your life?

It is hard raising my children to have morals and integrity when I feel I have committed the most heinous act against my own flesh and blood. It's not easy living and working and trying to do what's right every day while knowing that I have committed murder.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. The life created inside of you is a real child from the moment of conception. That baby will always be on your mind for the rest of your life. I imagine everyday how old my baby is and what he or she would be doing right now.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that God will not let them get away with participating in the destruction of innocent life. That their hands are stained with the blood of babies and that as they burn in hell for allowing this, they will hear the screams and cries of these beautiful little children created by God himself. I dare them and challenge them to participate in a few abortions themselves and view the little ripped off limbs and heads and torsos and tell themselves that's not a tiny human being. How dare Doctor Tiller hide under the false and fake notion that he is a bible and God believing, church going, man of God. That would be the same as if I was a Sunday school teacher but went around killing the children of all our political leaders. You may not like what I have said in this survey but it is the TRUTH. God SOON is going to put a stop to all the evil in this nation and the world and He is going to start with the highest court in the nation.

QUESTIONS

1. Where and when did your abortion occur?

Denver CO

//1977

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

sucks right out of my body.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have 4 children and I still feel like my family is not complete. My children are all adults.

10. How has your abortion affected others in your life?

No one knows!

11. Based upon your experience, what would you tell a woman considering abortion?

The absolute worst sound in the world when they sucked my child from my womb. I will never forget it and never will let the guilt go.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I do not believe in abortion. I was between a rock and a hard place. I'm sure that adoption is a much better option with lasting results for the mother, bay and adoptive parents.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CO

County of Larimer

My name is Tricia Toon. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Los Angeles CA

11//1983

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told that it could prevent future children from being carried full-term.

5. Were you adequately informed of the consequences of abortion?

Yes No

I wasn't told that twice a year for the next fifteen plus years I would suffer depression and not understand why. It wasn't until I sought counseling that we linked the dates of depression to the abortion and the date the child was due.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

the father and the counselors at the clinic

9. How has abortion affected you?

Everyone told me it wouldn't matter--it was just tissue. It was my decision---my right. Why then did it feel so wrong? And why have I have always wondered what might have been different if I hadn't ended my baby's life. I've felt guilt and grieved my choice--a choice I can never go back and undo or make right.

10. How has your abortion affected others in your life?

My children are amazing. They are changing the world. But they will never know their brother or sister. We will never hear them laugh or cry. We will never get to see them smile. We will never know what they might have accomplished to make this world a better place.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. You'll regret it every day of your life. Just give up 9 months and you can change the life of

someone who can't conceive and would take good care of your child. Your child could be the one who discovers the cure for a terrible disease. They could be an incredible scientist or a wonderful doctor or world class athlete. Only you can decide. Is your own life worth living? So is theirs.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Every baby deserves a chance at life--a chance to make a difference in this world. Other species will fight to the death to protect their own young--but not humans--We protect animals and the earth better than we protect our own young. Something just isn't right with that picture.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CO

County of USA

My name is Cheryl am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Denver CO

10//1985

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Vaccuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told that I would grieve for this unborn child. Or that it may cause depression.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Well I had not 1 but 2 abortions. I did not want to be around children. I felt a lot of shame. I had a lot of angry. And the angry was turned inward at myself. I learned years later that I was grieving and had been for 19 years. I became depressed and was up on medication. It was not until I took a post abortion class that I finally come to terms with what I had done. In the class we had a memorial service for our babies. For the most part I have close now.

10. How has your abortion affected others in your life?

I have not shared with most of my family that I have had 2 abortions. Mostly for fear of their reaction. I have shared with my church family and they are very forgiving. My aunt helped with one of the abortions and our relationship has never been the same! We were very close. Now we are very distant.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that there are a lot of other options. Have the baby and give it up of adoption. Be a single mom. I am now and I have never regretted the decision to keep my son! Talk to your loved ones or find someone that is willing to help you see the positive! Do kill an unborn child. It will cause a huge amount of pain and suffering in your life!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That they are legalizing murder! If they have never had an abortion, they can't understand all the effect that it has on a person that has aborted a child. There are wave that ripple from this act that will never go away fully. Do make it legal.

The State of CO

County of La Plata

My name is M H . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Houston TX

11/25/1992

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

vaccuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only given a medical release form to fill out. It didn't contain any information concerning what would happen. They performed an ultrasound and I asked if I could see it, but they refused.

5. Were you adequately informed of the consequences of abortion?

Yes No

At that time, I didn't know that there were any consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my mother

9. How has abortion affected you?

17 years of shame, guilt, and greif, severe emotional trauma, nightmares.

10. How has your abortion affected others in your life?

I haven't really shared this experience with anyone.

11. Based upon your experience, what would you tell a woman considering abortion?

I would get on my knees and beg her not to do it. The emotional consequences alone are too high.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

View an ultrasound. It is obvious that there is life in there. If the unborn aren't alive, why do doctors perform surgery in utero?

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CO

County of Maricopa

My name is Ronda I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Phoenix CO

09/05/1990

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that the precious life I was carrying was nothing more than "a blob, a little smaller than the size of a grape. At this stage it was nothing more than a clump of cells, not yet formed into anything." I will never forget those words. I heard them from a worker at Planned Parenthood in Phoenix. I was a 19 year old college student. As it turned out, I was too far along to have the abortion done at Planned Parenthood and they referred me to a private doctor who had to dialate my cervix 24 hours prior to the abortion. He did not explain anything. I went in thinking I was removing a "blob" from my body.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed about any consequences. Years later at a state fair I came upon a booth from a right to life organization, I viewed photos of a baby's devlopment at 13 weeks which was it's age when I aborted. I was absolutely devastated! I realized for the first time, it indeed had been a precious life with fingers and toes and a beating heart. It sent me into severe depression, I knew God would never forgive me for the murder of my child. Thankfully, the Lord used just that things to bring me to Him later in life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Th couselor at Planned Parenthood

9. How has abortion affected you?

It's remained a very painful part of my life. I catch myself constantly thinking about how old my child would have been. There's an ache that will never go away. I am angry that I was not told the truth as a young impressionable woman seeking the truth. I went to Planned Parenthood for a pregnancy test 29 years ago, I was naive and scared and I believed it when I was told it was only a blob of tissue.

10. How has your abortion affected others in your life?

I have shared this with my husband and my oldest son. I spoke to my son about it because I felt he needed to be educated about the long term effects of this. I told him when he was 16 and he had a surprisingly difficult time. He was very angry with me that I could have done such a thing and was upset that I "killed" a sibling of his. He has since forgiven me, I believe.

11. Based upon your experience, what would you tell a woman considering abortion?

There is a precious life growing inside of you. It's not a blob of tissue, there's a beating heart, there is a destiny created by God for that precious human being you are carrying. There are other options, there are people to help you, people who would give anything to adopt. Please please don't even consider this without FIRST getting an ultrasound. You need to know the truth by seeing what is growing inside of you. Never take anyone's word for it, they have hidden agendas. See for yourself. You will never overcome the grieving that you'll have to endure if you take this life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I understand the position that a woman has a right to choose what she does with her "own" body. This does not only involve her body, we're talking about taking the life of another. In this country once a child is born it is a crime to inflict harm or neglect. However, it is perfectly legal to murder a baby even just days prior to its natural birth date. If someone else inflicts harm to a pregnant mother resulting in the injury or death of her unborn baby, it's a punishable crime, why then do women, counselors and abortion doctors have the right to murder a child? If, you must see to it that murder is legal in these instances, I beg you to please make it mandatory that every woman seeking an abortion be able to have an ultrasound so they can make an informed decision before murdering their child. If I had been given the opportunity to see that the "blob" which I was carrying, as the Planned Parenthood counselor so graciously called it, was indeed a human life with fingers and toes and a beating heart, I would have never even considered killing my child. There would have been an incredible person here today who would have known how much they were loved and cherished. Now they are in heaven and I can only hope they will forgive me for not allowing them to live.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CO

County of El Paso

My name is Dwan Rager. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Boulder CO

05//1974

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

Dialation and suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Nothing was explained. I knew what I was doing but I had no idea it was such a major deal. I went to the clinic the day before the abortion where they inserted something to dialte my cervix. The next day the proceedure was performed. It was scary. The people there were quite callous. I figured they'd have to be to work in a place like that but there was no compassion anywhere. I felt like I was in one of those WWII movies where the Jews are processed through some line and then sent on to the concentration camp. I felt like a little child really wishing someone was there to hold my hand. I had to be brave but I was so afraid.

5. Were you adequately informed of the consequences of abortion?

Yes No

As far as I knew, I would have a little bleeding and cramping and feel fine in a few days. It was not that way at all. I had a lot of cramping, pain and bleeding and bled for several weeks following the abortion. I couldn't call my doctor because I was too ashamed to tell him what had happened. I tried taking an overdose of pain pills I had left over from some earliery surgery hoping I would die. I was sad when I didn't.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend.

9. How has abortion affected you?

It took 20 years to finally get to the place where I felt healed and forgiven. I hated Sanctity of life Sunday. I felt so guilty, as if everyone in church somehow knew I had had an abortion. I would cry through the years for no reason and would feel quite sad every year at the time the baby should have

been born. I always knew at any given moment how old that child would have been had I allowed him to live. The year that child should have graduated from high school was especially hard. For years I didn't feel worthy to be a mother to my 2 incredible daughters.

10. How has your abortion affected others in your life?

It caused a real conflict in our marriage for many years because I avoided sex as much as possible. It was horrible having to tell my high school/junior high daughters about it. I felt like I had really let them down - like I was a huge disappointment to them. I never told my parents for fear they couldn't deal with it.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't. You will always regret taking a life but you will never regret saving one, even if for a time it causes you great shame or humiliation. There is always good that will come out of saving your baby's life -it may take time for that to be recognized but any pain it initially causes you by not having an abortion will be worth it all someday - to so many people, not just yourself.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe it is the highest form of abuse. Caregivers (abortion providers i.e. doctors) who have taken an oath to "first do no harm" do the greatest harm possible to women by facilitating the death of their own child. Many women are not there by choice, they are vulnerable, afraid and would give anything to have that caregiver look them in the eye, tell them the truth about abortion and tell them why it is the absolute wrong thing to do. It is also child abuse in it's worse form - a helpless child is murdered. It's insane to put child killers behind bars but allow doctors to kill pre-born children and become wealthy as a result.

my fiance...I was only 19 years old

9. How has abortion affected you?

Emotional issues even 32 years later. Physical...had a difficult time in delivering my daughter 2 years later...Had a hysterectomy at 24 as a result of the irregular bleeding caused by the abortion... Guilt Shame Can't go back and change my decision. I never knew what kind of impact it would have on me and others I love in the future. You hide from the truth.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. With all the ways of contraception that are available...there should not be ANY unwanted pregnancies.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

These babies are God's creation from the very moment of conception. They deserve to live. They are gifts that God has a plan for. HE doesn't want this.

9. How has abortion affected you?

I went into depression, excessive drinking, anger, promiscuity, and a very dysfunctional life style.

10. How has your abortion affected others in your life?

None that I'm aware of.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to ever do it! There is a baby in your womb not a mass of tissue and it's called murder!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder according to God's law. A woman was made to give birth to children and the emotional consequences are far more devastating then to give birth and give the baby up for adoption. This is the unselfish way to go and much more beneficial to the mother.

Boyfriend at the time Andre Turner

9. How has abortion affected you?

I used to cry myself to sleep for about the 1st year. About 6-7 months after, I moved out of the house, quit my job and changed my cell number to get away from Andre Turner. I've forgiven myself but as I write this now I still have a hole in my heart and am crying this very moment.

10. How has your abortion affected others in your life?

I don't like to talk about it to others in my life unless they are faced with an unexpected pregnancy. Then I share my story and they can decide if they want to go through it or not. All I can do is pray they make the right decision.

11. Based upon your experience, what would you tell a woman considering abortion?

This isn't just an eraser to get rid of a mistake. This is something that will eat away at you for a lifetime. I had bad dreams of the sound that the machine made when it got stuck on larger pieces of my child that I consented to have destroyed!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I know that no woman ever wishes that she never had her child. But several that have had abortions regret their decisions because of the trauma it has caused. I believe in order to prevent unwanted pregnancies then maybe women should have to actually go through the entire process of one by having the child and/or giving it up for adoption to learn the consequences of her actions instead of abortion. Then women might be a little more careful the next time around if the abortion option is taken away.

9. How has abortion affected you?

Emotionally, relationally, physically

10. How has your abortion affected others in your life?

relationally, and the fact that family do not have the niece, aunt granddaughter, grandson in their lives. the loss, and grief over this.

11. Based upon your experience, what would you tell a woman considering abortion?

First that it is not the 'quick fix' to a situation she is facing, and that she will eventually be looking back at this as one of the worst decisions in her life. To look at the statistics on Abortion and to look 2-5 years ahead, not just today. that There are other parenting and othe options for her. There is Help for her.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I would have them look upon an aborted baby. I wish they could sit in on the counseling of a post abortive women, 2-25 years after her abortion to experience the grief and loss she eventually struggles with. I would want them to know and have the wisdom of seeing a baby person from the womb from conception to the first few months in development to see it not just a blob of tissue, that it is a human being. Just as when we are born we are continually growing a baby is a human being in it's mothers womb continually growing

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was clueless and the doctor told me it would be easy...just a little pain and then it would be over with.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was only told that it would be all over with and I could get back with my life!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend at the time.

9. How has abortion affected you?

I wasn't able to have children with the man I had the abortion with. We tried for years. I had severe endometriosis, punished myself for many years. Hid it from many for many years. Struggled with depression for many years. The emotional pain is a whole lot worse than any physical pain and the scars run deep!

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! I would show them love, I would educate them, I would tell them my testimony

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is wrong, it is absolutely horrific. There is no description of the emotional pain and struggle that you will go through. You will be scarred the rest of your life. It is all a lie what people say to their

patient...they do not know unless they have lived through it!

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed of the psychological affects of the abortion, and was not asked if I were making this decision for myself, regardless of what others thought, which may have swayed my decision.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

9. How has abortion affected you?

I have had a suicide attempt and been hospitalized for severe depression, I have have guilt every single day and thought about it every single day since. I am no Pro-Life...

10. How has your abortion affected others in your life?

I finally told my Mother only recently, and she was supportive surprisingly. It has greatly affected my relationship with friends and my boyfriend who had wanted me to have the baby.

11. Based upon your experience, what would you tell a woman considering abortion?

This is not a crisis. It is a gift, and if it is being given to you at the wrong time, please, reconsider adoption. You will live with the memory and pain of your abortion every day of your life for the rest of your life and it seems only after do you realize it was the biggest regret of your life. Your fear of having a baby is not as bad as the pain that having an abortion will cause you for the rest of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion has hurt me psychologically. Please don't allow women to hurt themselves or to believe that abortion is an easy option- it is an option that will haunt most women for the rest of their lives. Abortion truly destroys two lives.

QUESTIONS

1. Where and when did your abortion occur?

Atlanta GA

//1974

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

suction cuterage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not informed in any way other than being told it was a "simple proceeedure".

5. Were you adequately informed of the consequences of abortion?

Yes No

I assumed there were no consequences other than that I would no longer be pregnant - but nothing was said one way or another.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

All of this is really personal, of course - hard to write about. In the late 60s and early 70s, casual sex outside of marriage was the thing to do. Prior to my abortion, I endorsed and practiced this "norm". After my abortion, I realized that sex really wasn't for fun - it was serious. This realization took over my life and adversely affected all subsequent relationships. In plain language: I never enjoyed the sexual act again. Most notable, my 30 year marriage ended in divorce not long ago. Along with other factors, there was the fact that I would never initiate or enthusiastically participate in sex with my husband. I attribute this aversion to sex directly to my abortion. Before it, there was no aversion to sex whatsoever. After it, there was nothing BUT aversion. I would only participate as a duty - there was no way my husband could not know that. I have no thoughts of remarrying entirely because I believe I am unfit to be a wife.

10. How has your abortion affected others in your life?

Althought we never talked much about it - my husband of 30 years was miserable because I could not

participate with joy in the sex act. He eventually found another woman who could. Our marriage ended and he married his other woman as soon as it was legal to do so.

11. Based upon your experience, what would you tell a woman considering abortion?

It's very difficult to know what the repercussions of your abortion will be. There is no doubt that giving birth to and raising an unexpected child will be difficult - but the alternative affect on you is unknown and therefore greatly to be feared. Will you face the difficulties you know or live with the unknown difficulties which may be dire indeed?

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I am very much in favor of preventive birth control but very much against abortions on demand. I do believe, both ethically and from my own experience, that abortion is another word for infanticide. When a woman - usually a young woman - faces the trama of an unwanted pregnancy, I don't believe that she is in a state of mind where she is able to make such an important decision wisely. I am using my own experience as a guide when I say this. It would have taken very little "moral support" to have changed my mind and go ahead and have my child instead of killing "him". I wish, I wish, oh how I wish that I had not gone through with the abortion.

9. How has abortion affected you?

This abortion was 24 years ago, I still feel the regret. I now have 4 beautiful children but know there is something missing from my life. I have always felt like God had another son for me, and just the other day realized He probably already gave him to me, and I destroyed him. My only hope is that my bad choices will lead me to council my own kids or others toward better choices.

10. How has your abortion affected others in your life?

I have lived with depression for many years, I can only wonder if it's underlying cause is due to the abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that there are soooo many other options, ending a life comes with life long consequences.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Life is more powerful than death, and even in the case of horrific circumstances the blessing that a child could bring to another family through adoption would completely outway the pain a mother would endure having a child that was conceived through rape or other unbearable circumstances. The haunting of abortion outweighs the injury inflicted through violation on the mother. Do women a mental health favor, ban abortion. They will recover better through the power of life, than through the power of death.

9. How has abortion affected you?

Initially, I came back to Boulder, Colorado for a D/C. Through the years following I have felt sad, guilty and so very sorry we don't have a third son to enjoy.

10. How has your abortion affected others in your life?

I really can't say since at the time it was illegal.

11. Based upon your experience, what would you tell a woman considering abortion?

You have a legal choice to end this life growing within you but that is the most selfish choice. There are many families who would love to receive this life into their lives. You are committing a sin against God. I believe you will live to regret the decision to kill the live God has created within you for His glory.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

There are many things that are legal that are not healthy choices. We can smoke and drink alcohol, too. Should murder be legalized? Taking a life at it's youngest or oldest is against God's law.

9. How has abortion affected you?

I went through a time of such desperation and depression that I was talking suicide. I hated myself for what I'd done and would have left behind a husband and son had I succeeded. My sister got me in touch with a counselor that saved my life.

10. How has your abortion affected others in your life?

My boyfriend is now my husband of 28 years and it has caused many moments of grief, regret, and has even been used as ammo in arguments.

11. Based upon your experience, what would you tell a woman considering abortion?

Stop. Consider the life which is not a part of your body but only protected by it until birth. Pray hard for guidance from the Creator. He has every day of this child's life planned out. If you choose death you will deal with post abortion stress and its many ugly faces.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Abortion should never be legalized. It is a deadly, devastating procedure that causes mental, emotional and physical damage to the woman and can last a lifetime. No one can imagine a lifetime of this kind of pain except those of us who have been through it. Those who are pushing this have never been through abortion or are so hardened by it that they become emotional bereft.

9. How has abortion affected you?

I kept myself numb with drugs and alcohol for nearly twenty years.

10. How has your abortion affected others in your life?

During that time I married and divorced twice and had numerous failed relationships. I desperately needed someone to love me, but as soon as someone did, I would panic. I believed that I didn't deserve to be loved so I would either leave them or do something so awful that they would leave me.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT! There are many other choices and many groups that will help you. If you abort your baby you will regret it for the rest of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion kills babies and destroys mothers (and fathers) Don't let anyone tell you otherwise.

9. How has abortion affected you?

I grieve for my child. I hate sex. I feel like I have failed in the worst way.

10. How has your abortion affected others in your life?

My guilt, grief, and low self image gets in the way of me having the kind of emotional connection I desire to have with my husband and children. I easily feel like I can't trust and keep them at a distance at times. I fear the kids ever finding out I killed their oldest half sibling.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. It is not the easy alternative. Some people say they have moved on from it, but I don't believe any woman can be unscarred by their choice to kill their baby. Abortion kills the child and forever marks the woman.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

As far as I can tell the courts turn a blind eye to full impact of abortion on our society. They don't weigh

the cost of women walking around wounded for the rest of their lives, facing a greater risk of breast cancer, alcoholism, depression, anger, emotional isolation, fear, regret, sexual abuse, and the list goes on. Then there are the men who may have forced a woman to make that choice because the choice is available. How terrible it is that they would do that. The men who don't have a say in the matter are hurt as well. Siblings are affected, our society is affected. Abortion is an evil and I can't see any good that comes from it. It is a burden to our culture.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CO

County of Broomfield

My name is Cindy I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

AZ

03//1998

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction Curettage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The medical procedure was not explained in ANY way. I was not informed of any of the instruments being used, how they would be used, or what medications I was even being given during and after the procedure. An ultrasound was performed and that was not explained either. I heard what I NOW know to be my child's heartbeat and when I asked both what the sound was and if I could see what it was the employee was looking at on the screen turned towards him I was told it was simply the noise the machine made, and that no-I could not see what ws on the screen.

5. Were you adequately informed of the consequences of abortion?

Yes No

It was quickly explained that I might die or become injured during the procedure, or that in some cases the abortion is not effective and/or causes infertility. When I asked about this further I was told anything going wrong was unlikely but they simply had to inform me of the risks and then was told just to "sign it."

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend

9. How has abortion affected you?

My abortion has casued a tremendous amount of shame and guilt for me. After 12 years and four healthy children with my husband of ten years I still live with regret and wonder of what might have been had I not taken matters into my own hands. Immediately following my abortion I contemplated suicide, and for years afer I coul dnot look at, be near, or hear a chlid without becoming sick to my stomach or overcome with emotion. I live with grief every day over never getting to meet, hold, and raise my baby.

My baby deserved to live!

10. How has your abortion affected others in your life?

I believe that some people have judged me because of my decision...perhaps it has changed the way they see me and has made them unable to respect me. My husband often wonders if my baby would have been a little girl...the little girl I still long for now.

11. Based upon your experience, what would you tell a woman considering abortion?

I would say: You may not have planned on a baby, but a baby was in God's plans for YOU! Whatever the scenario, however much fear you have, your baby wants to live and be loved. The pain of abortion is both physical, emotional and spiritual. It is nothing you can understand the consequences of until it is too late...learn from the mistakes of so many others who live with the burden of regret every day. Your baby is pure and innocent and can feel and sense everything around them. Have faith through your fear!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Adults who commit horrendous crimes have their lives spared EVERY DAY by judges and juries. Why should an innocent baby be sentenced to death for simply being created??? Abortion is both painful and barbaric for both mother and baby. Rape, incest, laziness etc. are NOT grounds to stab, poke, tear, and vacuum a human into a metal canister to be discarded like trash. We must see abortion for what it is and put a stop to this disgusting practice and protect the lives of those who cannot protect themselves.

The State of CO

County of weld

My name is R H I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Lansing MI

04/15/1979

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

D&C suction not sedated

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Was given only minimal information on what to expect from the procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

Was told I could have bleeding, and if severe, to report to the ER. I was not aware of the emotional impact of the procedure, and the possibility of suicidal thoughts, which occurred soon after the procedure.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

A counselor with Planned Parenthood.

9. How has abortion affected you?

There is regrets. I wish I would of been counseled on all the options available. I was being told "Hurry before its too late" Counseling was very geared towards abortion, since I was getting ready to graduate from high school, wasn't married, and was unable to communicate with my parents about the situation. I was told a baby would ruin my life. I was too young and emotional over whelmed to deal with the situation. It has affected relationships, I have a hard time trusting anyone. I will never be a mother or a grandmother, since I could not have children. I still to this day, after 31 years, deeply regret and have guilt for what I have done.

10. How has your abortion affected others in your life?

I am unable to trust anyone. I was not able to have any children even though Doctor's, could not explain why, even after extensive medical testing, the reason for my infertility. The biggest one affected is the

child that was aborted, they should of had a chance at life.

11. Based upon your experience, what would you tell a woman considering abortion?

Make an informed decision. Get an ultrasound and know that a heart is beating. Don't let them tell you that it's just a clump of tissue and not alive. Get counseling with all options presented to you other than abortion like parenting, and adoption options. Don't believe that this is an easy fix. Don't think just about how you feel about abortion today, but think for the future, this may not have affected you presently, but could, even years down the road. This could be the only child you ever have.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We will all be judged someday for the decisions we make in life. You can sit there using your brain to make business decisions, but you need to see into the hearts of women who have been through abortions and the negative impact it has had on them. I will never live my life's full potential because of the lack of education, and information, for the abortion choice that I made, which would be the only child I would ever become pregnant with.

I had no idea of the emotional impact it would have on my life, not to mention the spiritual impact and guilt. I also got breast cancer at age 40.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my husband

9. How has abortion affected you?

I'm afraid I won't go to Heaven when I die. I'm afraid I've committed an unforgivable sin. I have no children and now never will as I am 43 and chemotherapy for breast cancer put me into menopause at a young age. Sex with my husband has never been a pleasurable experience since.

10. How has your abortion affected others in your life?

My husband has had a lot of guilt. We regret our decision to abort our child. He is affected greatly by my lack of sex drive and willingness to have sex since the abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't do it. I would beg her. I would ask her to talk to God about it and think about the potential spiritual consequences.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It should not be legal except for possibly cases of rape, incest, and risk to the life of the mother

I had no idea that I would spend so much of my life grieving my child and the choice that I made.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

From the outside, everything looked great, but inside, I felt worthless and evil. I couldn't believe that no one could see that I was a murderer.

10. How has your abortion affected others in your life?

When I chose to take the life of my baby, I robbed everyone in my family of a grandchild/niece/cousin/sibling.

11. Based upon your experience, what would you tell a woman considering abortion?

It's a baby -- your baby. Please, choose life for your baby. The consequences of abortion are life-long and so detrimental to you and your relationships. There are better choices (not easier, but better), and there are so many people who can help and support you. You are a mother, whether your baby is born or not, and mothers who abort their babies are weighed down with grief and guilt.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion hurts women and kills children. These babies are our most innocent citizens, and they

deserve our protection.

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Nobody told me anything. There was no counseling, no information, nothing. I signed some paperwork...waited my turn in a waiting room with a whole bunch of other girls and women...went for an ultrasound (which they refused to let me see)...was given some drugs to knock me out...woke up during the procedure and could see a sort of vaccuum thing and tried to get up but was held down...woke up later in recovery and was showed out the back door.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no counseling whatsoever.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mom.

9. How has abortion affected you?

Tormented for the past 19 years...nightmares, extreme depression, uncontrollable crying, feelings of severe regret and remorse, feelings of shame.

10. How has your abortion affected others in your life?

It has badly strained my relationship with my mom.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't do it. There are other options available. I will be happy to raise your baby for you.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

People do not understand what emotional effects this has on women. Isn't the law supposed to protect women from harm? It has been almost 20 years since I had an abortion ... and it is still causing me emotional distress.

9. How has abortion affected you?

For thirty six years I have grieved for this child. Several years ago, I finally gave him a name, and had a stone engraved with his initials. This has given me some peace, but the grieving emotions are still strong. ABORTIONS AFFECT YOUR ENTIRE LIFE.

10. How has your abortion affected others in your life?

I didn't marry the man of my dreams, my soul mate, my love. We split and didn't have contact for thirty years, married others and now realize how the abortion majorly changed both our lives. Instead of one happy family, there are now two unhappy families, and two people apart who shouldn't be apart.

11. Based upon your experience, what would you tell a woman considering abortion?

Stay pure until marriage. If you can't or didn't then struggle through the immediate pain and have the child. Every life is worth whatever imaginary or real struggles come into life. Killing/death is not an option for immediate pleasure. The choice WILL haunt you for life.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Abstinence should be taught, and so should the complete ramifications of an abortion. Lies from the abortion clinics should be outlawed. The greedy money-making agenda of abortion clinics should be stopped. Women are NOT being helped or cared about, and are being lied to. Abortion should be outlawed or greatly restricted. Many, many couples cannot have children and would love to adopt.

QUESTIONS

1. Where and when did your abortion occur?

03/08/1981

2. How many weeks pregnant were you?

3. What type of abortion was performed?

Vacuum aspiration after D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No Answer

5. Were you adequately informed of the consequences of abortion?

Yes No

I was given no post abortion info at all except to lie down and take it easy for the next 2 days - my mother sent me to school anyhow (I was a senior in high school)

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother

9. How has abortion affected you?

I've attempted suicide twice, have been struggling with depression and guilt for 27 years now. My next pregnancy after the abortion, when I was married to a different man, resulted in an ectopic pregnancy, which ruptured. I feel that I lost 2 babies from that one abortion. I had scarring and pain from the time of the abortion onwards, resulting in having to have a hysterectomy when I was only 25.

10. How has your abortion affected others in your life?

My mother and I no longer speak, my current husband feels helpless to ease the pain I still feel.

11. Based upon your experience, what would you tell a woman considering abortion?

This WILL affect you! Maybe not now, although it almost certainly is, but in years to come and in ways you wouldn't expect.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

That we cannot afford, with the world the way it is, to slaughter what could be our brightest and best hopes for the future. I also believe that the way we treat our weakest members in society reflects on us as a whole and killing babies in the womb only leads to indifference towards all life. Also, if we stop someone legally from killing themselves, which is also a crime, why can't we stop them from killing an innocent and helpless victim who can't form the intent for suicide?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I went to Planned Parenthood and remember someone just telling me it's okay, this procedure is done frequently and is safe and it will be over quickly. I was never told about any side effects, mentally or physically.

5. Were you adequately informed of the consequences of abortion?

8. Did anyone pressure you into having an abortion?

My boyfriend at the time

9. How has abortion affected you?

I thought, at the time, by having the abortion it would wipe this part of my life, and a mistake, away from my life. It didn't. It took me many years later to find out, through therapy and finding God, that the effects stayed with me. I felt impure, guilty, shame, loss. You can't take a life, whether you think it's life or not at the time, and think it will not effect the rest of every area of your life.

10. How has your abortion affected others in your life?

It's affected my whole life and everyone I've come in contact with since. I thank God that it's only been through my relationship with Hlm that I've come to forgive myself and others, and be able to have healthy relationships and get rid of the shame and guilt I've had, that I didn't realize I did have.

11. Based upon your experience, what would you tell a woman considering abortion?

Every scientific and medical form of information I've read proves that after conception, there is life inside

the womb. It is life from the beginning no matter what someone else tries to tell you. Your life is changed no matter what choice you make, abortion or not, your life is changed for the rest of your life. There are other options, they may be difficult, but so is having an abortion and taking your child's life. There are side effects whether someone tells you so or not. It is a lie to believe anything else. I can speak from experience.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We have a law in the U.S. that it is illegal to take a human life. A child in the womb, at any stage, is life and if I've had access to that scientific information, than I don't understand how the court doesn't. It is not our decision, no matter what circumstances, to make whether someone dies or lives - especially a child. We have all kinds of organizations and programs to save the trees, save the animals, etc., but we allow our children to be destroyed without given them a voice. And now, allowing children to make that decision without parental permission is something I don't understand. We don't allow our children under the age of 21 to drink legally, but we'll allow them to take a life of their unborn child. I was 18 when I had my abortion and was too afraid to tell my parents, and wasn't required and so, I made a poor decision that effected the rest of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

I felt I had no choice-no other support was given

9. How has abortion affected you?

I had a total of 3 abortions, 1973, 1977 and 1979. After the first one and being treated with contempt and filled with shame I did drugs, didn't care about myself-self destructive behavior. A priest at the time told me I committed a mortal sin, not accepted in church but had to go every week, couldn't tell my parents. I ended up with an incompetent cervix and had to undergo cervical stitching to try and have a child later on. I miscarried 3 unborn babies in my 5th month due to these problems. I am now 48 years old and the grief never leaves even after healing programs.

10. How has your abortion affected others in your life?

guilt, shame, dysfunctional relationships with my future children, family on and on the affect goes.

11. Based upon your experience, what would you tell a woman considering abortion?

Talk to those who have had one, look and discuss all the other choices, don't rush into a decision, look at the truth of the life in you, pictures, ultrasound, adoption

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

They are approving a death sentence on a real growing human being and on a father and mother's soul and all in whom they touch in their lives. It truly is a slow killing "cancer" of the family-just listen to those that have experienced abortion-our experiences are real and dead serious-how can society take our damaged lives so lightly.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CT

County of Fairfield

My name is Katherine Callaghan-Fenton. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Yonkers NY

08/09/1989

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

Not the doctor (Dr. Daniel Miller) nor any of the staff told me any of the risks to my physical, emotional or mental health at all.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Me, my fears, & my parents' judgmental attitudes.

9. How has abortion affected you?

Depression, self-destructive thoughts and actions, loss of relationships - with ex-boyfriend, with my friends, with my family. Withdrawal from life in general, lost a lot of weight, partied a lot more, became more promiscuous because I didn't care anymore, had a loss of interest in life, failure in the workplace. I kept attracting jerks for boyfriends, or rejected the good ones, because of how lousy I felt about myself.

10. How has your abortion affected others in your life?

It affected my friends, family, and coworkers; none of them knew what was wrong with me, I was depressed and withdrawn. My coworkers hated me b/c I wasn't doing my job. My ex-boyfriend and I broke up, and then he began partying and drinking more too.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It should be illegal, and unthinkable. Abortion is a human rights violation. It is violence against women (and their unborn baby!).

My name is Jennifer Bennett. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

New Haven CT

06/12/2002

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

I'm not sure?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't believe I was properly explained to what this horrific act entailed at all. If it was explained in detail I would have never done this!

5. Were you adequately informed of the consequences of abortion?

Yes No

No way was I told of the emotional distress I would go through! There isn't a day that goes by that I don't think of my child!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend at the time and my best friend!

9. How has abortion affected you?

I think about it all the time! I have been dealing with depression and anxiety. My sister ended up pregnant and my parents did nothing but stand by her. I constantly think they would have done that for me. I feel guilt!

10. How has your abortion affected others in your life?

It really hasn't. Only a few people know about it. Also I have not come across anyone thinking of doing that so that I may steer them in the other direction.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. There are other ways of handling this situation. Adoption. Millions of couples cannot have babies and want one. They can even choose the family they want. Turn to God! He has all the answers and will help you in this time. I promise!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It should be illegal. The minute conception happens the baby is alive. This child is growing. Abortion is MURDER!!! Abortion is killing a tiny helpless child! Your mother didnt abort you. And if she did you wouldnt be here! Women suffer traumatically from this procedure! They suffer for years! There are serious medical problems that can happen to a women for doing this. Including death to them!

Family

9. How has abortion affected you?

Besides the empty feeling and the haunting each year - that little voice saying "He would have been 2yrs old, 4 years old, 16 years old, 21 years old" Year after year - what I noticed most of all is the self hatred I had towards myself, the depression, the inability to have a lasting relationship with someone. The guilt and shame - the weight gain. Not feeling I am worthy of having a children because of what I did.

10. How has your abortion affected others in your life?

Relationships with men. The lack of trust. Not having confidence in myself.

11. Based upon your experience, what would you tell a woman considering abortion?

It's not an easy fix - go to the newborn section of a hospital and look at the infants - life is inside of you. Watch the series "Human Life - conception to birth" I would plead with them don't do it - I would lend them support, whatever I could do - I would share my story and also share the dangers involved.

the father

9. How has abortion affected you?

I had been baptized as a child and felt I was certainly going to hell and deserved nothing less. I was depressed and wanted to die. I was angry and bitter. It didn't seem to matter about me because I had no worth. I felt I was protecting the baby from a world that would persecute it and I was not going to bring the child into that kind of world. I had not yet met the living God although I was not ignorant of Him. If, I had, nothing would have caused me to have the abortion. It seemed until I was set free by the Holy Spirit, that everything, every hope, every job, every situation was aborted. I lost almost 30 years of my life feeling inward hate until Jesus set me free. I only blame myself for not trusting God.

10. How has your abortion affected others in your life?

I was furious with my husband, was a depressed mother and wife. Felt uncomfortable going to church and when I did preferred to sit in the back. Felt others in the church knew of my sin. Felt the "church ladies and leaders" would shun me. I had to tell my children and forgive the father, but only I had to live with the knowledge of my children not having a sibling and endure the horror of them possibly considering, "If mom could do that, did/does she really want me?" I was not safe anymore, I felt, in my children's eyes. I always protected the father's identity.

11. Based upon your experience, what would you tell a woman considering abortion?

I have been trained as a Birthright counselor, have a MA in counseling, but greater and more freeing is that 5 years ago I was filled with the Holy Spirit, became a Stephen Minister and have had several visions of Jesus speaking to me about this. In one, He was holding the baby on the cross, in another I saw the child playing in heaven. So, my experience has been very freeing after the years of condemnation and suffering. But, I know that God, Jesus' love is so beyond our love, that He hurts to see us hurt even if we caused it. His forgiveness is available. I would first ask for the Holy Spirit's presence and that Jesus' love would fill the atmosphere and that He would speak through me. I would expand on the love of Christ and His purpose still yet waiting for that woman, and practically tell her of the adoption options available as well as the rights of the mother to see the child that are in place. I would ask her if I could pray with her, and if she said no, I would intercess on her behalf later. If she would allow it after hearing the love, forgiveness, and other options message, I would speak to her about God's unique purpose for every person and His plans where there seems to be no plan. I would encourage her to trust Him, where others have not been able no matter how well meaning to be trustworthy. If practical help is available like sources to adopt cribs, layette clothes, a support group or family, I would offer those.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I beg of you, open the eyes of justice and see that abortion is an insidious and silent holocaust in which one victim cannot provide a testimony and the other becomes the walking dead. Mortally wounded, sometime after the event, the woman understands that she is now a mother of a dead child that she has killed. The grief experienced results in depression, inability to fulfilling one's potential, reduces a sense of value as self condemnation and a chronic sense of sorrow and guilt become crippling. It is a wound that only gets deeper and a sore that festers from our broken hearts. May the court hear the silent cry of the unborn and the sobs of their broken hearted mothers. We ask that the court hear us and protect the women of this nation. No one told us, the experience is heartache unbearable and pain, unshareable. We can be forgiven, but we will never forget. Since Roe v Wade, statistics are providing growing evidence of the endless pain and suffering that the abortion procedure has caused America's women. Across social boundaries, every abortion procedure choice has resulted in some form of physical, mental, and or emotional suffering in almost all cases, that is irreversible. The procedure causes a grave health risk to women that should be delegalized immediately. Abortion injures America's women. Remove Roe V Wade and make America's women healthier and safer.

QUESTIONS

1. Where and when did your abortion occur?

New York NY

01/23/1973

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

suction/2 other abortions afterwards another suction & D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Planned Parenthood in CT told me I was too young to have a baby and it was a blob of tissue.No support to keep the baby from any counselor or family even when made aware of situation.I was 13 years old when I had the first one.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nothing said, I had no idea what was going to happen to me and that it was a baby.When the abortion was happening I immediately knew it was a baby, a mother knows.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

I felt pressure from PP and boyfriend/family

9. How has abortion affected you?

I have had 2 more abortions after that one and I had 3 miscarriages because of one Dr. ruining my cervix. I had to lie down for 7 months to carry my son to term. It has caused me to suffer depression,Post Traumatic Stress symptoms, very low self-esteem, poor relationships and the inability to parent in a healthy way.

10. How has your abortion affected others in your life?

Has hurt everyone involved because of my suffering and its effects from me to them.I had a difficult time connecting with my son when young and my daughter was adversely affected by me suffering from depression and low self esteem. She is now a lesbian and has been since her teens years, which I attribute to my inability to connect with her also.

11. Based upon your experience, what would you tell a woman considering abortion?

To take her time to talk with women who have had abortions first. Know exactly what it is that they are going to do to her and what it is doing to her unborn child (ex)ultra-sound.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

To prove to me that it does not hurt women or men and that it does not kill the life of a growing human being.

9. How has abortion affected you?

Abortion has affected me spiritually. I was numb and distant. I was hurting and silently dying inside. I now have 3 children and my youngest is seven months. I sometimes think about the lives that I did not allow to live. I regret my choices and which I would have trusted and known the LORD. And now realizing that the world will pay for the body parts of these babies, we treat them as if they are nothing. I am so truly sorry for what I partaked in. Mentally I blocked the experiences out. I believe I had three abortions but I only gave two testimonies. The third will remain with the LORD. I pray that out of all this madness that exists in the world some sort of miracle will result out of all these testimonies. STOP the killing of innocent children. Stop the pain endured by all who partake in abortion. Listen to our crys. ENOUGH!

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

Trust in the LORD and receive the blessing of LIFE

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

9. How has abortion affected you?

I suffered from severe depression for 5 years. I was on wellbutrin for 2 years, which made me a zombie. When I was not on medication- I was crying everyday with suicidal thoughts. I started relying on alcohol and then combined them with my medication.

10. How has your abortion affected others in your life?

It affected everyone in my family. No one knew what was the cause of my severe depression - and they all wondered what or who was at fault. They all blamed themselves.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her about my 5 years of hell.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

There are so many women that suffer from post-abortion syndrome and I was one of them. The syndrome is real and serious. How I wish I could take back that day, when I was seated at the abortion clinic because I had a choice.

1. Where and when did your abortion occur?

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not shown a photo of what a baby looked like at that stage. A sign said "WANTED", what every child should be. In other words, if you don't want a baby, you don't have to have one!

5. Were you adequately informed of the consequences of abortion?

Yes No

It was just "pregnant" to "not pregnant". I didn't want to be pregnant so soon, and things were hectic in my life at that time. I had 4 healthy children and I was 40.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I had a dream of a handsome young man coming to me in heaven and asking me, "Why did you do this to me?". Although God gave me 10 grand children, and 1 great grand child, I wonder what blessing I missed by killing that child.

10. How has your abortion affected others in your life?

It was hard, but I have shared this with my 4 children. I have confessed it to God, and received forgiveness. But I always feel that I am keeping a secret. I think it will prevent others from taking that path.

11. Based upon your experience, what would you tell a woman considering abortion?

Absolutely do not do it. If you have the child, God will provide a way for either you or others to love and care for this child he has given you. Do not go to Planned Parenthood. They will encourage you to do this awful thing. It is how they make a living. Seek Christian counselling right away. Every child is a gift

from God. Don't refuse it. Psychological effects far outweigh any physical effects.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Stop this murder! Be sure mothers are informed and counselled. It should not be done at any stage, but definitely, definitely not in late stages. They show many things on TV, so why not film a late stage or partial birth abortion. Show just how sick and evil it is. No person should ever be forced to participate in abortion if it is against his or her conscience. Medical work should be to preserve all life.

2. How many weeks pregnant were you?

3. What type of abortion was performed?

vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Even though in my heart I knew better, I was told that it wasn't a real person, just a glob of tissue. I was NEVER told about the potential for infection, hemorrhage, puncture of my organs, suffering of the developing baby as the limbs were pulled apart...potential for being sterile, possibility of increased risk of breast cancer, possibility of hormone changes, increased risk for depression, guilt for rejecting and murdering my own offspring and the possible need for counseling.

5. Were you adequately informed of the consequences of abortion?

Yes No

see above. A group of people were circled around me while the doctor suctioned my baby apart; In retrospect I realized that in the "bucket" that the baby was extracted into - the body parts were "accounted for" and then they all left simultaneously to the next "patient" and left me alone for sometime. I could have bled to death! I am a nurse now and I know that it was a dastardly way to treat someone in a procedure! To leave someone alone? Wow. And then to check and make sure I was okay one person made rounds. When it was over...well, all in a days work and bye now. No scheduled check up. Nothing. Did I have support when I left? who cared? No one... It is an abortion mill alright! A real money maker!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The baby's biological father, clinic personnel

9. How has abortion affected you?

Many years of resolving my inner conflicts regarding the contradictory nature of the desire to love and welcome a child I was responsible for conceiving and rejecting that same child; being responsible for

murdering my own child. My sorrow to an Eternal Creator for the rejection of the progression of the power of Life and receiving forgiveness. A true compassion in my heart for girls who are sexually taken advantage of and/or rejected in maternity.

10. How has your abortion affected others in your life?

I had to come to terms with the reality that women in every nation are not honored for their involvement in the creation and nurturing of life because of the inconvenience it would be to men and women (especially men). Created much cynicism and mistrust and anger for several years. I realize now that women don't need "maternal health options like abortion" they need decent nutrition, freedom from sexual predators, education, job training, clean water, decent housing and fair wages. Women and men deserve freedom from abuse at the hands of evil men/employers, courts and bizarre laws or cultural traditions that disregard the beauty and power of Life that maternity offers.

11. Based upon your experience, what would you tell a woman considering abortion?

Do NOT make your decisions to discard the life of your child for the inconvenience it would bring to others who are protecting their own selfish interests; whether that is the president of the United States and others making money in the Abortion Industry, your own parents who are "embarrassed" or the father of the baby who doesn't want to be an adult and take responsibility for the biological results of sexual activities. You be the adult and do the right thing. There is help if you look for it! AND in the future do not make/have sexual behaviors that discounts your own dignity! You are a women of beauty and value; your body is a gift you share in a mutual arrangement with another adult who makes a LIFELONG COMMITMENT first before they make a child or attempt to take advantage of you. Don't settle for less; don't fall into the cultural trap that portrays women like used cars that can be swapped for another model at whim- The "Playboy Male or Female" is not beneficent to society.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Take your head out of the sand. Get a grip on reality. You could be in that womb; who would take a stand for the truth for you? If not someone on the court of law, then who?? Who stands for the mother in China when goons come after her and force her legs open and suction out a real person?? Hillary Clinton? Obama or his wife? Sebelius? Who? Where will your name be in the history books? Protect women from the lies taught about them as sexual playthings in casual sex. Protect society from depraved and lewd visual imaging in advertising and commercial cinema eith laws that elevate humanity. We are not ameobas.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CT

County of Litchfield

My name is Suzanne I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Danbury CT

02/17/1978

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

D&C/suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told that it was a living baby. I was told it was a "blob of tissue" and it was the best solution for me, a 16 year old girl.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told of the hurt or the sense of emptiness, guilt and shame that I would feel. I was not told of the lingering pain.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my Mother

9. How has abortion affected you?

I became even more promiscuous and soon started to use alcohol and drugs to dull the feelings of pain and emptiness that I felt. I ended up in many abusive relationships, and married and had a child at a very young age(19). This marriage did not last and my sense of self esteem plummeted even more. I had trouble trusting anyone, but most especially trusting or believing in myself.I struggled with depression on and off for years.

10. How has your abortion affected others in your life?

The Father of my aborted baby after many years of struggling, eventually committed suicide. My present husband has had to comfort me in the grief that I still feel for my lost child.My Mother and my relationship has been very strained, and she suffers terrible guilt and remorse for pressuring me to have the abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to do it. The taking of your child's life can never be justified. There are other options, and by choosing to abort, they would only be opening the door to more heartache and problems in their life. To trust that God will see them through and that if they absolutely cannot raise their child, that there is someone out there who would be so happy to offer a life of love and security to their baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That they are allowing a human person to be murdered for convenience sake and going against the Constitutional right of that Baby for life, liberty and the pursuit of happiness. That the taking of ANY life cannot be justified...especially one so innocent.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CT

County of Windham

My name is Pati Adams. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Milford CT

//1975

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Dilation and Curettage (D & C)

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No, my ob-gyn doctor told me that it was just a blood mass and in 10 minutes I would be good as new. He never explained to me the nature of the abortion and what he was going to do and what it does. I was wide awake the whole time with no local medicine was given.

5. Were you adequately informed of the consequences of abortion?

Yes No

No I was not. again, he told me I was going to be as good as new in 10 minutes. Never explained the procedure, he told me that just to lay down on the table and wait.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My doctor and my husband

9. How has abortion affected you?

From the moment I laid down on the table, my life took a turn that I thought would of never happened to me, for 28 years I lived a lie of death, shame, guilt. I have a web.site [www. patiadams.com](http://www.patiadams.com) This will better explain to you my life, at the end there is a program called "Unshackled" with Pacific Garden Missions.

10. How has your abortion affected others in your life?

I told my 2 sons. Our youngest son I told him first along with his wife Beth. The just got married and has a baby girl Emily. When my Michael asked me to pray one day for his dad(my husband) I told him "No I won't pray". Both very shocked, he asked me why, I just told him I would not pray. Then I told both of them to sit down, that I had something bad to tell them, they thought I was dying of cancer. I

explained to them that his father and I had 3 abortions back in the 70's. Both starting crying and my son Michael cried like he did when he was a little boy. He just held onto me so tight. We all cried for 2 hours. Then Michael asked me a question I was not prepared to answer, you see he was born after the first abortion and before the second one. He asked me this "Why not me?" I just cried and said "I did not know" His wonderful wife Beth said "I know why, he is my wonderful husband and Emily's daddy and some day he will be the daddy for our other children and he is going to make a great preacher, because he loves Jesus Christ". My other son Geoffrey Jr asked me "Did you cheat on Dad?" I told him that all those babies where his fathers. He cried a little, but the question he asked was because of his situation, he was going through a bad divorce. I still have a great relationship with both my sons.

11. Based upon your experience, what would you tell a woman considering abortion?

After we had our first son that we could not afford and had no insurance, that's when the next pregnancy turned into a crisis pregnancy, my husband told me that he did not want any more and we could no afford another baby. He told me to go to the doctor and fix it. I would tell them what happened and the last 2 abortions I had medical problems. I would tell them that I was scared,in a crisis, with no one to turn to. I would tell them about the hard core biker lifestyle that I was living and the drugs, drinking and that I was very self-destructive. My marriage took a dive into the toilet and 4 times I left my husband. And how Jesus Christ saved my life in 1991 and I found healing after that.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that, before they vote an anything that they need to see an abortion being done. To hear it, smell it and see what happens to those little ones and what they do after the abortion is done, like where do they through the little body's. And see the look on those women's faces after they walk out of that clinic. I know that is very radical, but it's babies life we are talking about and the life's of those precious women and men.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CT

County of New London

My name is Kathryn Geary. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Norwich CT

04/15/1976

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

dismemberment by vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was just a blob of tissue and the vacuum would suction it out.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told there could be complications but it was unlikely. There was no clear description of actual potential for perforation of uterus, consequential inability to carry a future pregnancy, hemorrhage, fetal body parts (tissue) left in the uterus, and most importantly the actual suffering of a little human being or that if I really wanted to have the baby that they could provide me with referrals for help.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The baby's father said he would not help.

9. How has abortion affected you?

I carried the burden of having murdered my first child. I was ashamed and guilty that the life of another was in my control and I had chosen to destroy it rather than deal with the consequences.

10. How has your abortion affected others in your life?

My children always knew they had an older sibling that I had chosen not to carry and birth. They knew of my sorrow and remorse that I would have loved that person like I love my living children.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that HER life has value and that the life she is co creating with a Loving Creator has infinite value - that there are people waiting for her to tell them she needs help and that the consequences are mostly joyful. I would tell her that men have been lied to, also; that Fathers have

been told not to be responsible and they will suffer the remorse of derelict actions and that she, the mother, can rise above that, too.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell that court that they were derelict in their responsibilities to hold the Laws of Life above perverted popular fads. I would tell them that there is a court higher than our earthly one and a desire to avoid the discomfort of human conflict here will not absolve them from being held accountable to that higher court.

The State of DC

County of WDC

My name is B J I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

New York NY

//1970

2. How many weeks pregnant were you?

22

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

All I knew was that the pregnancy would be terminated, arrangements all made by Planned Parenthood, whose help I sought. I had two abortions 2 years apart and had an extremely painful experience the second time, without concern, then an infection following. I had no awareness at that time that the baby was more than protoplasm and "a pregnancy." That had much to do with my own blindness, as our culture was already, as abortion was legal in select states at that time, fully accepting and I was associating with church folk who wanted to be open-minded and to be "relevant" to the culture. Again, NO information, as far as I remember, was given to me concerning what would occur.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told afterward that if I ran a fever or had complications, I ought to call a number ostensibly of the clinic in NYC. I did not know sterility could eventuate. I still am not sure, although much better exposed so I can help younger women make a better choice, as perhaps EVERY day of my life since that day I have regretted my decision, wanting and loving children very, very much now that I'm not numbed by life circumstances, brought to life by God's great grace!!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have been PROFOUNDLY affected, didn't expect any effect, as I was so numb to life at the time, abused as a child, deeply depressed and fighting my way through by my own efforts. I have LONGED for those two children almost every day since the second abortion. I was impregnated by a man who

was seeing multiple women. I wanted to dissociate from him altogether. But we had developed a soul tie, not to mention two pregnancies. My sense of putting the past behind was thoroughly thwarted, as an abortion is a permanent pregnancy without ANY of the joys Scripture speaks of in having, raising children. I was unable to be sexual with my husband, had no desire, due to his own sexual-relationship issues as well as my own. I married a basically very good man whose own issues were also huge. Our marriage, contrary to the many marriages in my family, save for one, did not survive past ten years. My guilt wove its way throughout every subsequent decision, my sense of unworthiness marking me for life. I led a double life through much of the subsequent years. Christian counselling helped a little. The journey out of the pit has been LONG!!

10. How has your abortion affected others in your life?

I told only one person, one of my 4 natural sisters, for most of my life. I have struggled with physical provisions as no other of my family, as well as related to settled relationships, even friendships. Feelings of unworthiness pervaded.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T EVEN THINK ABOUT IT!! NO GOOD WHATSOEVER CAME TO MY LIFE, premarital pregnancy notwithstanding. You have NO idea how you will be affected, and none of the effects, even those that seem to be apparent, doing XYZ for not having a child, will not eventuate, contaminated by that decision, affected in ways you have NO idea, no matter what your history still unhealed. Those are separate issues, adding insult to injury. I'm SO glad that today I do not have to decide on others adopting my child. I don't see how I could release the child, abortion MUCH preferable just emotionally. BUT ... IF the Church, the Body of Christ, would surround each who decides to keep the child they would have aborted, WHAT a difference in the lives of child and mother - and even father - would eventuate!!!! LET IT BE, GOD, that we no longer refer young women to agencies, then forget them. LET IT BE that we ADOPT that unit of mother and child so even the pain of adoption in the child who was "given away" can be resolved. Christians have not been even CLOSE to admitting that there is a mortal wound in the world and the country and the Church, as abortion was so abhorrent, then became acceptable, if kept secret.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I have said much of that above. Knowing the consequences in just my OWN experience, you are decreeing destruction for whole communities that ought to have been brought TOGETHER, not permanently torn apart by secrecy, grief, anger, loss of the blessing of God, which murder will ALWAYS bring. PLEASE, I BEG YOU, DON'T - DON't subject communities, families, individuals to destruction of the fabric that makes life worth living. Children are a BLESSING from the Lord. I SEE that even in the poorest "family units," among whom I have lived much of my life.

HOW MY ABORTION AFFECTED ME

The State of DE

County of Sussex

My name is Lisa Doak. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Springfield MA

07/18/1984

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

D and C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The information was very very brief and on the technical side. They avoided all difficult questions pertaining to anything unpleasant. The nurses were very supportive and reassuring. They called abortion a procedure. They held my hand and told me I was doing the right thing. They said it would be quick, a little uncomfortable and over before I knew it.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not prepared for the grief and regret I suffered. I did not expect to regret the decision. I learned many years later that there is a direct link to certain kinds of breast cancer, which develops after having a terminated pregnancy. I had this cancer which was diagnosed in 1989.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have had breast cancer. I have had several surgeries and chemotherapy. I was told that I may never be able to have children as a result of the chemo treatments. (I have one miracle child) I regret doing this and am often reminded of the poor decisions that I made. I blame myself, and wish that I had been encouraged to talk to my parents before doing this. I wish that I had been given more support to keep the baby. It is easy to get an abortion. Too easy. It is difficult to live with the consequences on many levels; emotional, physical and spiritual. I am ashamed. I am afraid that my secret will be revealed. I am

deeply remorseful and saddened. I think about who and what and where this person would be had he/she lived. I still feel a deep shame today as I write this-and remember.

10. How has your abortion affected others in your life?

There are very few people who know this about me. I have told two friends who were considering abortion about the emotional, physical and spiritual ramifications of abortion. I have pleaded with them not to have an abortion and offered unconditional support. I have lost the plea and a couple of friends. I know that my daughter will eventually learn about this subject. I know she will ask me about this. I will have to tell her the difficult truth. That is a moment I dread.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't do this for your sake, and the sake of an unborn PERSON. This person deserves a life, and has a purpose. The media and pro abortion activists want you to believe an evil lie. Even if you were offered a free abortion the "cost" would be great!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Murder is not legal. Abortion is murder.

3. What type of abortion was performed?

shot and vaginal pill to open cervix

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I knew there could be regrets and depression due to what i had heard for pro life rallies, but was not spoken to at the clinic about the severity of depression that could occur.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I regret the abortion greatly. My spouse and I are unable to have children due to infertility (not because of the abortion) I have dealt with depression over the past eight years especially knowing I had life inside me at one time and i wrecklessly threw it away.

10. How has your abortion affected others in your life?

I have benn to ashamed to admit the abortion to anyone.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not do it. Period. If you are unable to care for the child adoption is the only answer. Do not be ashamed of being pregnant because you are carrying a living being. One that deserves the chance to live!!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is evil. It causes suffering and there is a high risk for the procedure to go wrong. A woman who

is pregnant under circumstances of stress is seeking the easy way out and is incapable of making this sort of decision, and is unaware of the emotional side affects that come along with having an abortion. Life begins at the moment of conception. We are not God. We should not have the ability to end a life.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not informed about the development of my child and thought it was nothing but cells and not a child. I was not shown pictures of my developing child and was not told that there were agencies to help me make another choice.

5. Were you adequately informed of the consequences of abortion?

Yes No

Since I was unaware of the development of my child I did not understand that I was murdering a child not a bunch of cells.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my father

9. How has abortion affected you?

When I saw pictures of aborted babies at ten weeks I was horrified at what I had done. I still have times of great depression. I often think about my child and hear it crying out mom please don't kill me. I wonder what my child would have looked like and how that child could have changed my life. I ask God over and over again to forgive me. I cry out to My child and beg forgiveness. I wonder about the pain my child suffered as it was ripped apart in my womb and I hate myself for what I have done.

10. How has your abortion affected others in your life?

My abortion deeply hurt my mother who had to come and sign the consent I caused her to help me murder my child I remember seeing her cry just as if it happened yesterday. That member also causes me to weep.

11. Based upon your experience, what would you tell a woman considering abortion?

Please, Please, Please don't Kill your child it will hurt you all the days of your life. If you can't keep your child there are agencies to help you. If you want to keep your child there are many agencies to help you. You will never regret letting your child live no matter what the circumstances. I promise you this.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Please stop making abortion legal. It kills children and their mothers. The blood of the unborn will be on your hands and the broken hearts of mothers on your hands. Please provide more services to girls and women so they can choose life. Close all the abortion agencies and stop funding them TODAY.

not to do it

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

this has a life time affect on women, emotionally, at the time women don't know what to do but once its over the scars are there for life, also speaking from a spiritual standpoint. I became a Christian afterwards and what the bible teaching about life and conception I feel its murder.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of DE

County of sussex

My name is Teresa Bolden. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dover DE

03/09/1991

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They gave me some paperwork to sign... No body said anything like, " Are you aware of your risks, affects, and the actual procedure..."

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I suffered emotionally,spiritually, and physically when I had to bury 3 children due to the damage to my cervix... I have an incompetent cervix, which would only allow me to carry my children until they were about a pound. Then I would go into preterm labor.

10. How has your abortion affected others in your life?

My husband, who was the father of my baby, but had no idea that I was pregnant, has suffered the subsequent losses of our other 3 children.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion is NOT a quick fix. It is the beginning of an ocean of trauma, regrets, sorrow, and shame. Abortion kills one, and wounds MANY.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is a nothing short of a major money making industry! Many young scared women have turned

to abortion simply because it is "legal". And they have looked back with great distress and regret and said that they would have never considered abortion had it not been legal. We have been taught to trust our lawmakers, and we have been betrayed by the MIGHTY DOLLAR.

The State of DE

County of United States

My name is Jessica I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Wilmington DE

06/04/2010

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not aware of how developed my baby was already. I was not aware that it had feelings and would be able to feel the pain of the abortion. I didn't know exactly how they performed the abortion until i did my own research on it after it was too late. I only wish someone would have told me exactly what an abortion consists of because if I knew, I never would have gone through with it.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me of the psychological trauma I would suffer after my abortion. No one told me I would have nightmares and cry myself to sleep every night over the loss of my baby. I also wasn't informed on the increased risk of breast cancer and infertility after an abortion. I really wasn't told about any of the cons of abortion. It's as if the only goal of Planned Parenthood is to sell abortion as the end to all your problems when in reality, it's just the start to much more painful problems.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my boyfriend.

9. How has abortion affected you?

It has changed every aspect of my life. I cannot go through one day without thinking about the abortion and regretting it with all my heart. I have become so much more emotional and irritable since the abortion. I have fallen into a depression which leaves me unable to do things I used to love. I have a hard time keeping up with school because my thoughts are consumed by the fact that I killed my baby. I have so much more anger and resentment - especially towards my boyfriend and the clinic. I am not the same happy, carefree person I used to be prior to the abortion.

10. How has your abortion affected others in your life?

I have been pushing others away, blaming everything on everyone else. I have stopped making an effort to see friends and family. I have isolated myself and am losing everyone that used to be so close to me. I am no longer pleasant to be around, I make everyone unhappy with my depressing mood and negative comments.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to not go through with it at all. Its probably the worst decision you could ever make in your life because it's completely irreversible and it is definitely something you will regret forever. You're baby is very much alive and can feel pain. You're baby is relying on you to take care of it and love it. You need to protect your baby with everything you have. You can't kill a little life that you helped create. Your baby is a part of you and loves you so much, bring that life into this world and give it the privilege of experiencing all this world has to offer it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder. The child is alive from the moment of conception. The child is usually very well formed by the time a women decides to get abortion. It is completely unfair to murder a child who doesn't yet have a voice and has so much they could offer this world. In addition to abortion being murder, most people who get an abortion regret it very much afterwards. It ruins their lives and changes them forever. They will never be the same. It effects the women who get the abortion as well as their friends and family. Abortion overall is absolutely terrible for every single person involved, especially the child.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Manatee

My name is Emily . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Covington KY

//1973

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

It was the first day that this new clinic began performing abortions. They said I would be fine almost immediately and that I could go "play tennis" if i wished. Planned Parent referred me, as they did not yet perform abortions. I never at any time received counseling as to the consequences, either medically or psychologically.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have had 2 abortions. Some nights I wake up in a panic unable to deal with the horror that I inflicted on my children. Sometimes I look at people who have committed mass murder, that society believes to be monsters, and know that I am them and worse. I killed 2 innocent and defenseless babies-my own. What kind of mother does that?

10. How has your abortion affected others in your life?

I never told any one in my family, my parents would have been horrified, they believed that abortion is murder. I have no idea how the fathers feel, as I lost touch with them years ago, but I often wonder if they feel as I do.

11. Based upon your experience, what would you tell a woman considering abortion?

When I was young, I had no conscience, or so I thought. I did not want my parents or family to find out. So in my youthful ignorance, I did not care whether I was murdering my babies, of course I knew that I

was killing them, I did not care. I realize that you may feel the same way right now, but as time passes, you will come to regret this decision. You will see children on the street the age of your aborted child and be horrified of your choice. A choice you can NEVER change. You may be unable to forgive yourself and spend the rest of your life in unbearable pain over the choice of murdering your child. There are many pro-life resources and options for mothers today and loving homes available even if your child is handicapped. There is no reason to choose death ever!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Just as children must be protected from molesters, murderers, and sexual predators, defenseless unborn children must be protected from those without conscience - their parents, their doctors, the courts, whoever has it in their hearts to do them harm. If a woman gives birth to a premature 7 month gestation child who survives and kills it several days later because she does not want it, she will be convicted of murder. If a pregnant woman kills her child of the same age - NO PROBLEM it's her choice to kill it anytime she chooses, as long as it has not emerged through the birth canal. Only a sick society could condone such an unholy crime against humanity.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Orange

My name is Lynnsey I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Orlando FL

09/10/2006

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

The clinic only explained the potential physical effects. I was devastated by post traumatic stress disorder after the abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend

9. How has abortion affected you?

Before my abortion, I used to be a confident, generous joyful person with a sunny disposition. Now I've been dealing with depression, periods of intense anger, bouts of rage, elimination of self-confidence, sexual disfunctions, inability to make decisions, inability to be emotionally intimate, eating disorders of bulimia and anorexia and overwhelming intense, sorrow, guilt and regret over what I did. My self-hate after the abortion was exponential. I drank every day to the point where I blacked out and could not remember anything. I neglected everything in my life. I worked non-stop to fill the void and hate that was filling my soul. One of my friends even stated to me that they could feel the demons that surround me all of the time. I was lost. Part of me died that fateful day.

10. How has your abortion affected others in your life?

My relationship with the father became strained after the abortion because I refused to talk to him about anything and everything. I began to become deeply vengeful of my boyfriend because I believe that it is a man's duty to protect his family and I felt that he was not strong enough to do that. I understand his

reasoning for pressuring the abortion was based on fear and I forgive him for that now but at the time I needed him, he failed me entirely. We broke up soon after that. Now I have had trouble bonding with my niece and nephew and could not look at ultrasounds for years afterwards. My current boyfriend and I have had problems with emotional intimacy, physical intimacy, my now deep rooted fear of pregnancy, dealing with depression and post traumatic stress disorder.

11. Based upon your experience, what would you tell a woman considering abortion?

It is your right as a mother to continue your pregnancy of a wholly, unique and special person of the human race. That is your gift and your right under God. I deeply regret my abortions. Years later, my ex called me to apologize to me stating he regrets forcing me to lose our children. He stated he thinks about it every day and what would have happened if we would have kept those children. He also deeply regrets the abortions. No one deserves this pain. Abortion hurts. It hurts. It hurts mothers. It hurts fathers. It hurts brothers. It hurts sisters. It hurts cousins. It hurts aunts. It hurts uncles. It hurts grandmothers. It hurts grandfathers. It hurts great grandmothers. It hurts great grandfathers. It breaks up families. And it kills children. It is not a choice. It is murder. Children are the greatest joy of life. They are the continuation of our lives and of our souls. Children should be celebrated and allowed to live. Abortion hurts women. Abortion kills a child and it kills the mother right along with her child. Choose to love and honor the life you created. That is your right as a mother.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion hurts women the same way as if their child was murdered in their arms. The devastating effects of abortion last for years, decades and lifetimes and hurts all members of a family. "Definition Embryo Death: The death of an embryo before the 8th week following conception." By defining death, this is the conclusion that the embryo is alive meaning it should be protected under the declaration of independence. The child carried within is their own person with DNA and cells completely separate from the mother, who by law, should be protected at the moment of conception with the right to life, liberty and pursuit of happiness. Protect the child with the right to life and protect the mother with the liberty to have her child and pursue happiness as a mother. Abortion hurts women. Abortion kills a child and it kills the mother right along with her child. Abortion should have significant hurdles to overcome inclusion of a waiting period, significant counseling of post-abortion affects, mandatory viewing of post abortion testimonials both regretful and not, significant counseling of additional options and programs to help support a pregnancy and single parenthood, counseling and sign off of fathers approval of the abortion or acceptance of all parental right if the mother is unable or unwilling to care for the child and a mandatory crisis pregnancy appointment prior to being able to undergo an abortion until abortion can be ended entirely.

my partner at that moment

9. How has abortion affected you?

After the abortion I felt like I was empty (spiritually). For many years, I lived with the shame. Feeling unclean, and not worthy of God forgiveness. Operaion Outcry was the vessel that God used to see God's love for me.

10. How has your abortion affected others in your life?

I never talked about it, and continue with life not speaking about this issue. Thanks God for my husband, because I think that I suffered low selfesteem at the time He met me and he had to be very patience with me.

11. Based upon your experience, what would you tell a woman considering abortion?

I will never recomend abortions. There is another solution and is adoption. Find help, and be brave.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is a failure to our society. Disturb a woman life physically and mentally. Abortion should not be an option, create a plan where help is provide to pregnant woman. The values of society are thrown out because of sex being considered a walk in the park. Create programs that will make adoption easier.

2. How many weeks pregnant were you?

24

3. What type of abortion was performed?

Saline

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told I would go through labor and delivery. They never told me what the saline would do to the baby or the state of development of the baby.

5. Were you adequately informed of the consequences of abortion?

Yes No

All they said was that once the abortion was over, everything would be alright. Which was the furthest from the truth.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend, my mother.

9. How has abortion affected you?

After my first abortion I went down a spiral of drug and alcohol abuse, 3 subsequent abortions and a life of self hatred and depression. I sense of emptiness and every month I hoped and wished I was pregnant.

10. How has your abortion affected others in your life?

My children have been robbed of their siblings...they always wished that they had an older brother, which my first pregnancy was a boy. My oldest daughter, without knowing about my experience also aborted her first and now lives with depression and regret and many female problems.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't have an abortion. There are other options such as adoption and many people who would love to help. Abortion hurts people.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder. It is taking a human life. Abortion hurts the baby, the mother, the father and the siblings and all relatives. Abortion is dangerous and can cause life-long complications to the woman. Please stop this holocaust.

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

I believe dilation and suction, but not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not given any other options. When I asked about pre-natal care, they showed me forms of expensive figures and did not tell me about FL medicaid. They did not tell me about any possible risks, only that they were there to help with my problem.

5. Were you adequately informed of the consequences of abortion?

Yes No

Cancer runs in my family and there was no mention of a breast cancer link. Maybe at that time it wasn't well known. None of the other risks were mentioned.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Peers and fiancée.

9. How has abortion affected you?

It brought me into a dark hole, I suffered from an auto-immune disease for almost a decade until I went on to give birth to my son in '89. His birth freed me from the disease. Also right after I had to go back to the clinic for an infection that they called "ping-pong". They admitted that it was from their instruments. I went through decades of self loathing, sadness and regret.

10. How has your abortion affected others in your life?

I couldn't tell anyone about it till the last few years. My children and husband know now and it probably explained a lot to him especially.

11. Based upon your experience, what would you tell a woman considering abortion?

You will never forget that baby and his/her potential life. I think about my child every single day and now

I mourn potential grandchildren. Abortion is a trauma to a womans body in so many ways.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion has wreaked havoc on our society with the breakdown of families first. It is destroying our future and callousing our views of all sacred life. It has not cured the social problems that it promised. It has exasperated them. It reduces women to an object and a baby to a commodity. It hurts men and has contributed to the absentee father syndrome. As long as a woman or wife can abort his child, all other fatherly rights are undermined. We can not blame men for this as they do not even know what their place is suppose to be anymore.

10. How has your abortion affected others in your life?

No Answer

11. Based upon your experience, what would you tell a woman considering abortion?

I would beg her not to have an abortion; tell her my story, and several other peoples' stories that I know, and encourage her to have the baby and give it up for adoption if she could not raise the baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That if a woman were raped, she would not have the right to kill the person who was guilty of raping her, she also should not have the right to kill the child that is now in her womb.

The State of FL

County of volusia

My name is leanne kaplan. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

daytona beach FL

//

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

just knew it would stop me being pregnant, tried to ask questions, but there was not any care to inform, just get you in and out

5. Were you adequately informed of the consequences of abortion?

Yes No

did not know of any complications or how to take care of myself after, was alone, started hemmoring for a pretty long period, had to be in the medical center for treatment

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

No Answer

9. How has abortion affected you?

suicidal for many years, depression for 18 years, eating disorder, deep hate of myself, left with a deep desire for my baby

10. How has your abortion affected others in your life?

loosing relationship with everyone in my life

11. Based upon your experience, what would you tell a woman considering abortion?

to go and have an ultrasound, to realize that there is a life inside of you, innocent, and that abortion is never a wise, convenient choice, it is the most devastating choice you can make and most importantly, it is not your life to take

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

that it is so ignorant to think that a baby who is born is a life, and taking that life would be a horrible murder, but a few moments before, that the life was not worthy of life, has no rights. even the hypocrisy of a pregnant woman who is killed, now a double murder, and to look at the damage that abortion has caused millions of women.

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No, no one told me that it would kill my baby! No one ever told me that I could put my baby up for ADOPTION!

5. Were you adequately informed of the consequences of abortion?

Yes No

No there was NO counseling before or after the abortion. I was NOT told that I might be depressed or that I NEEDED to GREIVE the loss of my baby!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

boyfriend

9. How has abortion affected you?

I was crying and depressed the next day and did NOT know why I was feeling that way. I was in despair. I asked my boyfriend "what's the point of going on?" I was suicidal in thought but not in action. Over the past 34 years since my abortion, the depression was bad and I was driven to self-destructive behaviors. I had NO idea it was from the abortion!

10. How has your abortion affected others in your life?

My relationship with my husband [the boyfriend who pressured me to have the abortion] has been good on the SURFACE, but there is no real connection with each other. We were still blessed by God to have 3 beautiful sons, and our relationship with them is also surface, no real connection.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T PLEASE DON'T have the abortion! It will ruin your life! It ruined mine! I regret mine and you will

regret yours eventually! There is another option, adoption!! There are places that we can take you where they will help you thru your pregnancy and adopting out your child, if that is what you choose.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is the taking of life of an innocent and helpless baby. Abortion is MURDER! Is murder LEGAL? No, we put killers away in jail and hopefully give them the death penalty! My abortion ruined my life! I would have been MUCH better off having the baby and putting her up for ADOPTION! But, I was NOT given that option! Please reverse Roe vs Wade and save the lives of millions of babies AND their mothers!

father of child,

9. How has abortion affected you?

I regret the decision and now realize what I did. I have repented and looked forward to seeing her heaven someday. I am not sure the actual effects on my life, but I am sure there have been negative emotions I must deal with and have dealt with.

10. How has your abortion affected others in your life?

Not sure.

11. Based upon your experience, what would you tell a woman considering abortion?

There are options, that will allow the child to live and that abortion is taking life away from what is inside you. There are people who would adopt and love the baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that abortion should not be legal because it is the taking the life of a created being. A just court can not say it is ok to destroy a totally innocent and vulnerable human being.

HOW MY ABORTION AFFECTED ME

The State of FL

County of Duval

My name is Sara Flynn. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Jacksonville FL

04//1979

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told nothing much about the abortion procedure. I was given a brief "counseling" session with several other women prior to the abortion. During the counseling, I was offered birth control pills and valium.

5. Were you adequately informed of the consequences of abortion?

Yes No

No, no consequences were mentioned at all. I was told I might experience some mild discomfort over the day or two that followed the abortion. Nothing was mentioned about possible psychological effects.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

No Answer

9. How has abortion affected you?

I suffered from depression and anxiety symptoms immediately following each abortion (I had three abortions between 1979 and 1985). I experienced an increase in drug and alcohol use and a decline in self-esteem. I lived with a deep sense of shame, psychological disconnectedness and regret for many years.

10. How has your abortion affected others in your life?

Abortion has deprived my parents of grandchildren, and my children of siblings. As a result of the abortions, I married an abusive man (he was the father of two of the children I aborted) and he later abused our children and me. If I had never had the first abortion and given birth instead, my life would have been very different. Perhaps I would have been empowered by doing what I knew was right.

Instead I aborted because I was afraid to face the consequences of my actions. Little did I know that the abortions held their own sets of life altering consequences.

11. Based upon your experience, what would you tell a woman considering abortion?

I would inform her that abortion is not going to make her life better or easier. I would tell her parenthood starts at conception and that though abortion may end the life of her child and bring a false sense of immediate relief, it may compound her sorrows over many years. I would tell her about the possibility of experiencing symptoms of Post-Abortion Syndrome (PAS) - I experienced PAS symptoms for numerous years and came close to committing suicide. I would encourage her to seek God's grace and give birth to her child. If she is unable to parent her child, then I would encourage her to give the child up for adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that it is an undeniable fact that life starts at conception. We have vivid imagery of developing babies in their mother's wombs to verify this fact. I would tell the court that removing human life at any point is killing and should not be sanctioned by our courts. I would plead with the court to act on behalf of the preborn and make laws to protect the lives of developing babies.

HOW MY ABORTION AFFECTED ME

The State of FL

County of Dade

My name is Kathleen Weissinger. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Miami FL

10//1976

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Fetal development was never explained and I was never given any information on complications from the procedure (physical, emotional, mental).

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea there would be any consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Immediately after the abortion I felt there was something missing within me - an emptiness. I buried the feeling because I was convinced I did the right thing. I became distant with my husband and started using drugs much more than I used to. I didn't want anyone to know I had an abortion - especially my mother.

10. How has your abortion affected others in your life?

I divorced my husband. I was distant with my mother and kept our conversations short because I was always afraid she would find out about the abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

You have other options and abortion is not the quick fix to an unplanned pregnancy. That child will always be a part of you if you abort him/her, place him/her for adoption or parent the child yourself. Being pregnant is NOT a hopeless situation and there are many people out there who would love to help you and care about YOU. Please contact a Crisis Pregnancy Center or look for the hotline

numbers for these facilities before you go to an abortion clinic.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Go back and reexamine why abortion is legal. What was the reasoning? How many women actually died from illegal abortions and how many have died from legal abortions? How many illegal abortions were actually "back alley" abortions and how many were performed by doctors in their offices after working hours? Have we actually made abortion SAFE for women? Why don't we have regulations on the abortion business? Are we allowing women to make an educated decision or are we telling her this is what she needs to do right now? Who is really listening to this woman - her fears, concerns, confusion, pressure from others etc.

2. How many weeks pregnant were you?

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

This abortion left me sterile after the doctor went back in a 2nd time to scrape.

5. Were you adequately informed of the consequences of abortion?

Yes No

Absolutely not. Before the abortion, a case worker tried 'forcing me to take birth control' insisting that I would get pregnant again. I told her that another pregnancy is not likely...

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The case worker at clinic & campus ministry

9. How has abortion affected you?

I have never been able to bear children, as I am childless for the rest of my life. I have had bouts of depression, especially immediately after the abortion so dark and deep in remorse. I have not been able to hold down jobs for more than 5-years and the older I get employment has become even more difficult, because I never became the successful career woman that God wanted me to be, now living in POVERTY. From the age of 19-years old and the start of my career, I was always pitied, and have spent my whole life having others 'help me' no matter what my achievements. There are 35-years of life's failures, and no matter how hard I try, I cannot get ahead. Guilt still remains with me, as I pray every day for the loss of my son, whom I saw chopped up in tiny little pieces laying scattered in a stainless steel tray only to be discarded in the trash.

10. How has your abortion affected others in your life?

My bouts of depression and anger has caused numerous conflicts in my family as a whole (parents,

siblings and children included). Because of these problems, my family relations are not as loving and caring as they could be.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not do it! Stop and think of the life within you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Since 1973, we have slaughtered 49-million innocent babies in the mother's womb...we are a nation built on family, yet we have destroyed the core of our families. Abortion not only destroys the child, but destroys the family. The mother is forever wounded for the rest of her life. Women are killed by abortion, and left childless, like me. Please restore our family by giving life to the unborn.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Nothing was explained to me. Nor were any options given to me. I thought this was my only option to solve an untimely pregnancy.

5. Were you adequately informed of the consequences of abortion?

Yes No

I have experienced great bouts of depression, anxiety, mood swings and nightmares. Nothing was said to me about if I go through with the abortions that I could experience these emotional problems. I don't think even the counselors at the abortion clinic knew this part of abortion at that time.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Disconnected me from society. The emotional trauma has racked my body with constant pain.

10. How has your abortion affected others in your life?

No one knows how to help me, they feel just as hopeless as I do.

11. Based upon your experience, what would you tell a woman considering abortion?

That there are other options, abortion is only one answer and that there are emotional consequences for the rest of her life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it is MURDER!

HOW MY ABORTION AFFECTED ME

The State of FL

County of Osceola

My name is Carole Hayes. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Pittsburgh PA

01//1969

2. How many weeks pregnant were you?

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

My abortion took place when still illegal. No information was offered.

5. Were you adequately informed of the consequences of abortion?

Yes No

Again, no counseling was available.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I was severely depressed for many years and felt completely worthless. I got very sick as a result and did not expect to ever have children. I was able to conceive one son and had a difficult time bonding with him and kept expecting something awful to happen to him. I was unable to conceive again due to reoccurring infections stemming from the operation.

10. How has your abortion affected others in your life?

My husband has not had the opportunity to be a natural father due to my inability to conceive. He has had to deal with my mood swings and depression. My son and I try to be close, but there always seems to be something in the way. I now realize what I missed out on by killing my child and regret the pain I caused my baby.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not do it! there are other options. You are already a parent and need to consider the best interest of your child. There are people that can help you and care for you. You will regret killing your child for the rest of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The ramifications of abortion are, at the very least, emotionally devastating. At worst, a woman can be negatively effected physically, as well. Many women that I have spoken with that are post abortive and regret their decision have told me that if it was not legal, they would not have considered it.

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

After telling doctor, I was having difficulty with pregnancy at the time, she suggested an abortion, and I agreed.

5. Were you adequately informed of the consequences of abortion?

Yes No

Between doctor and myself, I assumed there was nothing wrong as she suggested it. For myself, I was quite confused.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Besides the after effects of breast cancer, there is also a deadening of conscience, what is right and wrong, and the deadly emotions of guilt and shame which has made it difficult for me to move forward grow and have happiness in my life.

10. How has your abortion affected others in your life?

My pain I would say causes me to be more self-centered and thus not so concerned for my husband and my children who deserve my concern and consideration.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion which seems harmless, is very harmful not only physically, but in your mind, your emotions and feelings and your spirit which will rob life off you and affects the lives of others around you.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Abortion is an evil thing that does harm to the person, to the family, and largely to society and the world at large.

Yes No

I was told the tissues from conception would be cleaned out of my uterus, that I would have heavy bleeding for about a week and that I could resume sexual intercourse in about a month.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me of the guilt of losing my only child would weigh on me for the rest of my life. No one told me there was a higher chance of never conceiving another child. I only recall being told about post-op care (which was self administered) There was no follow up exam by any medical person.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have lived a childless life, I think of the child I murdered all the time; she would be 29 years old this November, if she had been allowed to live.

10. How has your abortion affected others in your life?

My husband has also been denied the opportunity to have a child with me. My abortion is the only significant thing in my life that I did not confide with my mother. That left a hole in our relationship.

11. Based upon your experience, what would you tell a woman considering abortion?

Please consider all of your options, not just the easy one. Delivering a live, healthy baby that could be offered for adoption makes everyone's life happier: the mother's, the baby's and the adoptive parents.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Legalizing abortion flies in the face of thousands of year's of moral and natural law. Women were created to give life and nurture it. When we allow them to snuff out the life of their own offspring, we set that woman up for years of trying to balance the contradiction of their created purpose and a macabre reality. 1973 I didn't think there was a link between legalizing abortion and euthenasia. In 2008, I see that link. The courts have said that a life that is unplanned or unwanted can be terminated. That kind of thinking has led us to think of "quality of life" as an arbiter of wether a person shall continue to live or die. In 2006, a shocked nation watched as a defenseless woman was legally starved to death by a husband who gained nothing but bills while she lived, and a chance at a new life with another woman if she died. Sadly, a court in Florida agreed that he should be allowed to murder his wife. Ironically, if he had tied his dog up outside without food or water, he would have gone to jail. Roe v. Wade not only stripped women of their dignity by saying it's ok to kill their own children, but it stripped the dignity and value of all human life.

HOW MY ABORTION AFFECTED ME

The State of FL

County of Duval

My name is Sharon I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Charlotte NC

09/08/1976

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Myself and about 12 others were bascially in an assembly line. One by one we moved from one station (cubical) to another receiving medicications to help allievate our anxiety, fear, and physical pain that was about to take place. There was no "human" aspect involved. We were treated as though we were a number waiting our turn to murder our child. After years of suffering both physically and emotionally, I am now taking my first step to attend AA. I only pray other women will not choose the path I chose by taking my child's life.

5. Were you adequately informed of the consequences of abortion?

Yes No

No dialog whatsoever.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

After years of suffering both physically and emotionally, I am now taking my first step to attend AA. I only pray other women will give life and not take the path I chose. If they do not want their child, placement for adoption should be considered.

10. How has your abortion affected others in your life?

It has caused a divorce and problems in my current marriage due to my alcoholism trying to escape the pain and shame of taking my own child's life.

11. Based upon your experience, what would you tell a woman considering abortion?

Please...please....do not place yourself in my shoes. Life is a gift. If you abort your child, you will suffer

much and the void can not be filled with alcohol or anti-depressant medications or counsel. There is nothing can take away your pain of regret. WOMEN DO REGRET ABORTION.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them they care nothing about the human race.

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Do not know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

No one talked to me about it.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I was very depressed for many years. Today I am still missing my baby. I know that God forgave me but I regret every single day that decision that I made to kill my baby. I was diagnosed with carcinoma in situ of the breast.

10. How has your abortion affected others in your life?

It affected my whole family because of my depression.

11. Based upon your experience, what would you tell a woman considering abortion?

I will pour my heart out to her, trying to persuade her to having an abortion. Life is sacred, children are the most beautiful gift from God.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that abortion is not the right word, killing is the right world because when a baby is aborted is killed with violence and the mother who is having the abortion die spiritually, the doctor that is performing the abortion is also spiritually dead because abortion is a murder.

My name is D R . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No, they did not describe the procedure to me... I was told nothing, showed nothing

5. Were you adequately informed of the consequences of abortion?

Yes No

The procedure left me unable to have children. Within 14 months I had to have a complete hysterectomy

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My Boyfriend

9. How has abortion affected you?

My boyfriend and I did get married. I never actually got over being resentful that he had forced me to abort. Especially after we got married I found out within a year that I had to have a complete hysterectomy. Then, I grieved so much for the 'baby' I had killed. My one and only chance for a child. I became extremely depressed, had to go on meds. I couldn't resume normal relations with my husband, I gained a LOT of weight eating to shove down my emotions and pain. He ended up having an affair and divorcing me.

10. How has your abortion affected others in your life?

I never told anyone in my family or friends. I was so ashamed and felt so guilty and dirty.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT! There is open adoption now! You can be as involved with the child as you want. There are thousands of families in America who are going to China and Asia to adopt babies! Do a private adoption!!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

There should be more laws in place! An abortion should never be done just to make someone's life easier. It should only be done in extreme cases that the life of the fetus and/or the mother are in danger. You can't justify killing a baby because a young girl lost her head and did something stupid. It isn't the babies fault!

9. How has abortion affected you?

Depression and emotional emptiness.

10. How has your abortion affected others in your life?

I have 2 daughters that would have had a brother if I had not listened to others. The guilt will be forgiven by God but the it is very difficult to forgive yourself. The mirror will always look back at you each and every day.

11. Based upon your experience, what would you tell a woman considering abortion?

There are other choices without ending a life. Adoption is the most loving choice if parenting is not their option.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Who would be in thier seat if all mothers chose abortion? We, as mothers, could choose to end all.

The State of FL

County of Dade

My name is Denise Mixson. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Washington DC

03//1973

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction Curettage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told "it" was a bunch of cells and not a baby.

5. Were you adequately informed of the consequences of abortion?

Yes No

I received no info on any risks. In fact I was told it was a safe procedure. Months later I had to be hospitalized with an infection and receive IV for 3 days. I never knew if it was related to my abortion. No one talked about that.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It was the worst decision I ever made. I regretted my abortion and suffered depression, suicidal thoughts, anniversary grief, broken relationships with my family, anger, relationship abuse, alcohol and drug abuse.

10. How has your abortion affected others in your life?

I didn't give the father of my baby the choice, I only asked him for money after the abortion. I married him and we never dealt with our feelings. I also had guilt regarding my parents, family, friends and children I taught. I lived in shame and regret in all my relationships.

11. Based upon your experience, what would you tell a woman considering abortion?

Get all the facts before you make any decision about aborting your baby. Get an ultrasound to verify you have an intra-uterine pregnancy before you have any procedure performed. Ask questions. Don't think an abortion is the end of a problem, it is the beginning of a life-long regret of the loss of the life of

your baby. Ask your family for help.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is not a solution or a form of birth control for an unplanned or unwanted pregnancy. What it does is victimize women even further into believing that it is legal to kill your baby, so it must be okay. It isn't. It is something that will plague a woman because she has taken the life of her baby and she has bought into the lie that if it's legal it is acceptable. Women and men need to be informed of the truth about abortion: that it destroys the life of their baby and there are repercussions of it for the rest of their lives.

3. What type of abortion was performed?

Vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

My husband made all the arrangements. I never even met the doctor.

5. Were you adequately informed of the consequences of abortion?

Yes No

My guilt and anger overwhelmed me to the point that I had difficulty maintaining relationships and being a good parent to the one child I had.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend - husband to be.

9. How has abortion affected you?

It has robbed me of a life of joy. My life has been filled with anguish and guilt. I have been divorced 3 times and am on my 4th marriage. I find it difficult to maintain intimate relationships. I suffered years with nightmares and couldn't even look at a baby's picture without feeling that knot in my stomach.

10. How has your abortion affected others in your life?

I was not the mother my son deserved to have and my husbands had no idea why I was so angry and depressed and confused.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to do it. There are so many alternatives. I would tell her how it affected me.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That they are sentencing a woman to a life filled with pain and anguish. That they are deceiving women and the public at large that abortion is a moral and acceptable act when it is not. It is not a blob of tissue that I had removed from my womb. That the public relies on the integrity and moral standing of a Court to guide us and that they are doing just the opposite ... they are leading us down a path of destruction which reaches the very core of our society.

7. Have you had breast cancer?

9. How has abortion affected you?

It has been the most devastating thing that has ever happened to me. It has violated my body, soul and mind. It has nothing to do with women's rights at all and was sold as such. It has taken me years to forgive myself and stole some of my best years to become all that I could be because of lack of self-esteem issues that followed. There are simply no words adequately to describe what the loss of an unborn child can do to a woman or what it has done to me.

10. How has your abortion affected others in your life?

Because of the scars that I have from abortion, I am sure others don't quite know all the reasons of different troubles in my life. All my friends that have had abortions have also, shared their pain and regret over such a choice.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her how valuable she is and that she doesn't have to succumb to the pressure's of this crazy world. That she has options and many brave women and men who will walk her through her pregnancy.

That, they were wrong when they said it wasn't a life. It is and both are priceless. That no matter what, science is right and that life starts at conception. That all the reasons they say to have an abortion are lies and distorted. You can still go to school, probably won't if you have an abortion, people who love you, will still love you and your baby, people who don't support you , probably are not the one's you want to be around anyway.. Money is not a sufficient reason. In fact, most moms work, go to school, do everything and are more motivated because of an unconditional love that only a child may bring. Abortion does not motivate, and if fact, may cause a productive woman to stop dead in her tracks. That she is valuable and that all the pressures of an sad, ungodly world should not sway her in her greatest blessing, her child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That they have surely not checked into the facts and destruction of abortion. Just like slavery, they are wrong. It is time to give women back their rights to their children, it is time for the truth of abortion. It is time to give our unborn the right they deserve and restore our country to healing for all the affected women that have been violated because of this unjust law. It is time to speak for the unborn... maybe, just maybe, we would have that cure for cancer, an alternative to oil, so many maybes, wake up America, our most precious resource has been allowed to be destroyed for far too many years. Help me and all the other men and women and children who have been so negatively affected by ending the right to have abortion. The truth is this is no right at all, but a means to destroy life, both the unborn and woman. This wound has affected men, as well. Give them back their sacred right to fatherhood. Please let me know if you need any further testimony from me as I will stand before the Supreme Court to stop abortion and save OUR CHILDREN. I do not remember exact dates. I am sure with digging and research, I could get that information.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Miami-Dade

My name is Viviane I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Germany

//1981

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

Don't remember -- too long ago

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

Although I was relieved at first, no one told me that I may be depressed and feel terribly guilty about it years later. Abortion is something that can't ever be undone. Even though I had mine done "legally" at a doctor's office, I suffered terrible hemorrhaging and could have easily died, according to my regular gynecologist whom I saw a few days afterwards.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I couldn't stand the baby of the father after my abortion and broke up with him. I had very low self-esteem for many years, coupled with terrible guilt once I realized that I had truly made the choice to kill my baby. EVEN THOUGH I UNDERSTOOD BEFOREHAND THAT IT WAS A BABY THAT I WAS ABORTING, I THOUGHT THAT IT COULDN'T BE THAT BAD, SINCE IT WAS "LEGAL."

10. How has your abortion affected others in your life?

Father of baby felt bad about it (it had been only MY decision).

11. Based upon your experience, what would you tell a woman considering abortion?

If you make this VERY BAD choice, you will have to live with it FOR THE REST OF YOUR LIFE. Even though God will forgive you if you're repentant, you will have a harder time forgiving yourself, honestly. When you're pregnant, the baby is already in the world, inside your body. Please give it a chance. IF YOU CAN'T BE A MOTHER AT THE MOMENT, CONSIDER ADOPTION. Most of us are really good

people at heart. If someone were falling off a cliff and you could save him by lending him a hand, surely you would do it. Most everyone would. Why not allow your very own child to live? If you can't possibly be a mother to him or her, why not allow the baby to grow in your body until birth. It's only a few months of your life that you may be inconvenienced, but the baby will have his/her whole life thanks to you. Please make the right choice -- and by the way, there is only one!!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The legality of abortion was my main reason to go through with it. I did fully understand that it was the taking of a baby's life. As I stated above, my thought was that if it's legal, it can't be that bad. A priest once said in his sermon, "Why should anyone be able to take anyone's life? I can't take my neighbor's life if I don't like his face. Why then should I or anyone be allowed to take the life of a totally innocent child, a baby not yet born?" Why is it legal abortion when a mother is 9 months pregnant, and infanticide after it's born? I believe some women can't grasp that either, that's why there are newborn babies found in garbage dumps. They don't seem to understand that this is murder, when a doctor could have done it legally just prior to birth!?

Boyfriend (father of unborn)

9. How has abortion affected you?

Before and during the event I psychologically disconnected myself from what was really going on. I had overwhelming feelings of anxiety and being trapped, which put me into survival mode. I just wanted things to be the way they were before I got pregnant. Abortion provided a false answer to that need. False because once you get pregnant things are NEVER the same, no matter what happens to the baby. I experienced depression and deep regret following the abortion. I didn't tell anyone what I had done until 7 years later when I had found forgiveness through the Lord and was finally able to talk about it without feeling like I was condemning myself.

10. How has your abortion affected others in your life?

The depression I felt following the abortion led me to comfort myself with drugs and alcohol. I dropped out of college and could never tell my closest family and friends the true reason why I was so unhappy with my life.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell a woman considering abortion that the helplessness she feels is normal, but that there is help as well as alternatives for her and her baby. I would tell her that the regret that will most likely

follow the abortion is a far more helpless feeling than the anxiety before it. I would certainly ask her to seriously consider the spiritual consequences of her decision before taking such drastic action. I would encourage her to see her baby on an ultrasound machine, and also encourage her to seek the help of a crisis center or church.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion provides a false promise to young women, that it can erase the consequences of irresponsible actions. If abortion were illegal, the decision to be or not to be pregnant would have to be made in the bedroom where it should be made, rather than after the fact. Life, no matter how small, unseen, unheard, or unwanted deserves the same chance to experience this world as the rest of us.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of USA

My name is Patricia I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Queens NY

//

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

I really don't remember the date or the type, it was over 28 yrs ago

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It seemed like a big assembly line of women and rooms and I remember the doctor did not speak English well.

5. Were you adequately informed of the consequences of abortion?

Yes No

I'm sure they explained physical consequences of abortion, but there was no mention of the emotional toll it took on me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I am grateful for the forgiveness I found in Christ. Before Christ I was depressed quite frequently and unable to cope with everyday things.

10. How has your abortion affected others in your life?

I am able to witness to other women who have had abortions since I came to a relationship with Christ. I am able to share of Christ's amazing love for them and the hope of one day seeing their baby in heaven.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. It is murder.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

STOP legalized abortion NOW.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of volusia

My name is Heidi Messina. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

pittsburgh PA

12/12/1980

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

i have no idea no one ever informed me what was done to me

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

i was taken to the clinic where i was given a form to fill out. i filled it out and then was called to another room where the procedure took place. no one said a word other than " you might feel a little discomfort". After the "procedure" lwas given a pad to wear in case of spotting or bleeding... stayed a few minutes and was sent out. No follow up scheduled to check on my condition or anything .Just "you're done now."

5. Were you adequately informed of the consequences of abortion?

Yes No

Nothing was said or communicated to me in any way about what could happen during or after this abortion procedure. Just absolutely nothing. No follow up or consulting before or after>

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Ronald L. Berry my then boyfriend , later husband.

9. How has abortion affected you?

Abortion took my youth and trashed it . I have lived with the guilt and shame of this terrible act for 27 and a half years. I didn't want to do this abortion . I wanted to have this baby with Ron Berry and Have a great life together ,the 3 of us.I could tell NO ONE. I couldn't turn to anybody for help except Ron. So I sucked it up and lived in denial for all these years. If someone ,anyone, even someone with conciling at the clinic, could have said you don't have to do this, I know in my heart I would not have gone through with the murder of my innocent baby. Living with that kind of horrible shame and guilt has almost destroyed me. I wanted to take my life many times for taking my unborn babys' life. Everyday I must live with this unforgettable truth. Depression has tried to consume me for a long time now .I have

suffered from anxiety,depression,control issues,eating disorders,low self-esteem issues, and the list goes on.

10. How has your abortion affected others in your life?

I lost 27 years of life, love, and the involvement of my family.I lost relationships because of my shame and guilt. Family and friends became distant because I couldn't face these dear people for what I had done.

11. Based upon your experience, what would you tell a woman considering abortion?

Absolutely not,without a doubt , do NOT ever have an abortion . It will ruin your life with such a pain that you can't forget. You cannot escape it's clutches. There is always another way and you don't have to do this hidious thing. You will always regret it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that the idea that murder is murder. Wether it's a drug deal gone bad and a cop gets killed or a woman goes to an abortion clinic and has an abortion , both are murder. Tell the court to look at an aborted baby and then ask to do that to their teenage son or daughter... watch their eyes fill with tears if they really can imagine such a thing. I would tell them our court system is against murder already and this is a ridiculous conversation!

HOW MY ABORTION AFFECTED ME

The State of FL

County of Broward

My name is Karen Leone. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Vallejo CA

02/12/1981

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that it was a simple procedure that it wouldn't hurt and that I wouldn't remember it.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told of the emotional consequences. I wasn't told that I would have such guilt from what I had done that I would give my next child up for adoption instead of keeping they baby. I felt that I had no right to my son.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My Mother

9. How has abortion affected you?

It has affected me in two different ways. My birth mother had tried to abort me during her pregnancy. I have Cerebral Palsy due to that. Abortion has affected my life due to guilt, shame, and punishing myself for many years. I've had depression, suicidal thoughts, and it took many years to feel forgiven. My Mother forced me into an abortion due to my being 17. I had no choice.

10. How has your abortion affected others in your life?

My parents never understood why I slept around. I felt that I wasn't worth anything due to my guilt.

11. Based upon your experience, what would you tell a woman considering abortion?

I would say DON'T DO IT! Abortion clinics tell lies, that it is easy, that it is just a blob, that you will get over it. You never get over it. You can never get over seeing your baby parts in a container next to you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell a court who is to say that my life or my child's life isn't worth living? That abortion clinics are all about the money it isn't about a choice. It destroys life the child lost and the woman's life through guilt.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Holmes

My name is Lynne Davis. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Atlanta GA

11//1989

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

D & E

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told that my baby's heart was beating and had arms and legs and that his body would be torn apart. I was told and believed the baby was simply tissue and not alive or even a person yet.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told my life would go back to normal and the only consequence would be some mild cramping and bleeding. I was not told of the feelings of loss and guilt, or that depression would come on me and last almost 20 years, until I found healing in Jesus Christ's forgiveness.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The first time it was the father.

9. How has abortion affected you?

After the first one, I had three more. I had severe depression, it affected my ability to trust anyone, especially men. I had a hard time keeping jobs and I became very over protective of my first child. I have had a miscarriage and wonder what link there is to abortion for it is my only pregnancy since the last abortion. I kept my distance from my family members, and even was afraid to love my daughter, believing I did not deserve her.

10. How has your abortion affected others in your life?

For many years, my mom never knew if she would receive a call informing her of my death for I tried many times to kill myself. My daughter was denied my complete affection. I became a very depressed and fearful person. I had a hard time even after I accepted Christ. When I found out the truth about

abortion I had so much anger and found it impossible to forgive myself for being so blind. I wanted to sue the government because I trusted what they said about abortion. I lost almost 20 years with my family. I was no where to be found when my grandmother passed away, and didn't know for two years that she has died. My younger brothers spent their teen years not knowing when or if they would ever see me again.

11. Based upon your experience, what would you tell a woman considering abortion?

The truth. Life begins at conception. Tell her the biological proof, what God says also. Explain to her that her situation (finances, education, relationships) are all TEMPORARY but that the death of her child at her hand is PERMANENT and it WILL hurt her as well.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Ask if they believe a life is not taken, why are they unwilling to watch an abortion.. When I tried to kill my self, I was escorted by the police to a mental hospital. If it is my body and my choice, why can't I take my own life? The courts decisions are extremely inconsistent. Life begins at conception. A woman and man made their choice when they had decided to have sex knowing it just might produce another LIFE. That human cannot speak for themselves yet and the court is suppose to protect the lives of the innocent. Women and men are being decieved by an evil and greedy business. Killing ones child is illegal everywhere but inside the womb, the place God made that is suppose to be the safest for that child. Abortion ends the life of an actual person, not the potential of one. Abortion hurts women. We may be able to push it aside and deny it for a time, but the manifestation of that hurt begins immediatly. This nation would be better off if we would just stop telling the world that life is disposable.

County of Tallahassee

My name is S B I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Tallahassee FL

07/11/2007

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

Surgical

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

NO, I feel I should have had more explaining. ABSOLUTELY NO ONE MADE SURE OR DOUBLE CHECKED WITH ME TO CONFIRM THIS WHAT I ABSOLUTELY WANTED! No body sat down with me to show me what exactly was going to happen. I feel a video of the procedure should have been shown.

5. Were you adequately informed of the consequences of abortion?

Yes No

NO....it was rushed.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend

9. How has abortion affected you?

At first it was a very dark period in my life, however I've rebounded and one year later I'm still not able to talk openly about it without having VERY strong emotions.

10. How has your abortion affected others in your life?

Hopefully, I have helped the people around me to make a better informed choice.

11. Based upon your experience, what would you tell a woman considering abortion?

Talk to many of the women (the patients) at the clinic. See if any of them had an abortion before and get their full opinion. I did this too late when I spoke with a woman who was in the recovery room with me.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

There needs to be stricter laws on the information a patient is given. Also, I believe there should be a significant waiting period between registering for the procedure and actually getting it done. This may allow the person to fully comprehend the decision they are making.

QUESTIONS

1. Where and when did your abortion occur?

Tampa FL

06//1978

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I simply went to the clinic, paid the fee and the nurse took me in for the procedure. I was only given instructions to lie down and the doctor would take care of everything

5. Were you adequately informed of the consequences of abortion?

Yes No

No complications were explained. They told me it was a simple procedure and not to worry.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I believe the abortion has pushed me to be overactive to the detriment of my family at times in the move to stop this procedure. I experienced excessive anger toward my livig children,self concept is damaged causing difficulty in interpersonal relationships.

10. How has your abortion affected others in your life?

My children have suffered from my anger and my excessive work schedule. My husband has been affected by my mood swings/depression.

11. Based upon your experience, what would you tell a woman considering abortion?

It is a life time decision not something that will be over quickly. I would and do tell her that their

consequences physically, emotionally, and spiritually that will remain with her for years.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is a lie. Women are not given full disclosure of the risks of abortion. Abortion damages women for a life time which affects all future relationships. This can and has led women to abuse their children. Women suffer emotional damage from abortion which affects their ability to work and lead a healthy life.

9. How has abortion affected you?

I cried, I was depressed and devastated. When I woke up from the procedure - I was going under I was crying and the nurse said no no no when I woke up I was crying.

10. How has your abortion affected others in your life?

I never told anyone

11. Based upon your experience, what would you tell a woman considering abortion?

Please no, dont do it. i have seen pic (thanks to the advent of technology) and I have a little girl. that early stage of pregnancy is as important as the later stages when you are visibly pregnant. A child is

born at the time of conception, not at the time of delivery.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If killing your 2, 3, 4, 5,....19, 20 year old is NOT murder, than abortion should be legal. If its not ok to stab your 2,3,4,5,....19,20 year old with a scissor in the base of their neck what makes it ok to stab a new born in the neck just because its head is still in the mothers womb. Lets not pretend to be stupid. Just because you lie with a staight face doesnt mean you are telling the truth. Abortion is MURDER.

My name is Tamsyn Logan. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Jacksonville FL

07/09/1999

2. How many weeks pregnant were you?

3. What type of abortion was performed?

Vacuum?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

5. Were you adequately informed of the consequences of abortion?

I was not told that it could harm my chances of having more children.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Family and friends

9. How has abortion affected you?

Extreme guilt and shame, something I cannot talk openly with my daughters about because I feel like a hypocrite.

10. How has your abortion affected others in your life?

It haunted my husband and made him angry that I had gotten pregnant again, I had two abortions. As a result he asked me to have my tubes tied, which I did. That was a devastating decision for me also.

11. Based upon your experience, what would you tell a woman considering abortion?

No matter what, that child did not ask to be conceived, but nonetheless it is still a child, not only will you be killing a baby, you will cause yourself inconceivable pain, guilt, shame, and a feeling of loss that

will never go away. Women are the mothers of life, and the hardest, coldest woman feels real feelings, and an instant joy and connection to a baby in her womb. Our bodies instantly recognize the responsibility of that child and fight to protect and nourish it from the time of conception. That is more than just a physiological response, it is also emotional and phsycological. To fight it is like ripping out a piece of your soul. It has the same effect as a woman who experiences a miscarriage, the only difference is that a woman chooses to have an abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

This is still the killing of a baby, it is just condoned murder because you can't actually see the baby. It is murder and our courts hold the Ten Commandments as their cornerstone. What number is murder?

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Marion

My name is Dr. Sonja Lonadier. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Orlando FL

03/28/1986

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was led to believe it was no big deal with no lasting consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I suffered from Post Traumatic Stress Syndrome for 11 years and had 'morning sickness' almost every day of that time. I punished myself for the choice I made by throwing up almost every morning for 11 years. This process ceased when I had Post Abortion Counseling through the Crises Pregnancy Center in Gainesville, FL while attending the University of Florida. After 13 years of 'infertility' and trying to replace that child, I conceived and carried the child to term. I wanted to have a natural childbirth but was unable to because the scar tissue from the abortion sealed my cervix. More consequences of abortion. I labored for 3 days (my own choice) before I had an emergency cesarian. My child and I almost died. I had 2 more children and my cervix never opened, therefore I was robbed of the experience of birthing a child naturally.

10. How has your abortion affected others in your life?

It has caused emotional pain for my parents. It also has touched the life of my husband because he has had to watch me grieve for all these years.

11. Based upon your experience, what would you tell a woman considering abortion?

Please do not make this choice. It will haunt you every day of your life. Abortion is not birth control. I regret ever making such a choice - the choice to kill my first child. I married the month after my abortion and then tried to get pregnant because it was now OK to have a baby. I tried for 13 years to replace that child. I divorced the father of my first child, remarried and still could not get pregnant. After 13 years of 'infertility' I finally conceived. After 3 successful pregnancies I miscarried 4 children and the pain of their loss was exacerbated by my previous abortion. They were taken from me and I threw my first child away. Please don't live the rest of your life with regret - it's not worth it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I don't think the courts are going to make abortion illegal. My focus is on loving the mothers and helping them choose life for themselves and for their child. So many times through the years I would have adopted and even tried just to have the child taken from me. These girls need to know they do have a choice to choose life. The abortion industry lies to them by being vague about what is really happening. They did a 5-10 minute 'group counseling' session before the scheduled abortion where they asked 'is this what you want to do?'. It's not counseling it's recruiting.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Hernando

My name is Cherie I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Santa Ana CA

//1977

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

I do not know.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I went to the clinic thinking that I should obtain an abortion, because I was single. All I knew was that it would end my pregnancy, that I wouldn't be pregnant anymore. I didn't think about the fact that I was killing my baby. I was told that I was approximately 8 weeks pregnant. I was not told anything about the procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nothing was said about consequences, except that there would be some bleeding and some pain.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Willfully killing my baby allowed the spirit of death to come into my life. 2 weeks later I was driving and was nearly killed in a car accident. My back was broken in 5 places and left me a paraplegic.

10. How has your abortion affected others in your life?

Sadness.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. God will make a way for you to afford your baby, to live and have a good life. You will always regret having an abortion. It could kill you. You might never have the opportunity to have another child. The child has the right to live.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder. Abortion is not a choice, it is death and an invitation for more death in the persons life. I can never forget what I did. I think about my child, what age he would be now, how different my life would have been with the love of my child in it. The Bible says that the peoples who lived in Israel before the Israelites were spit out of the land because of the innocent blood shed in it. Our land is crying out on behalf of all the innocent children's blood spilled in America. Why is breast cancer, cervical cancer and prostate cancer running rampant? Because America kills its babies, that should be nurtured by the breasts; America kills its babies that men and women procreated and produced, thereby dispising the blessings of God.

My parents!

9. How has abortion affected you?

I have eight children now. But I shall always wonder of the baby I aborted when I was fifteen.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

Have your baby! It is a matter of months not a life time!!!If you cannot keep your baby place it for adoption!!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe we should have choice here. But women should also be made aware of other solutions.
Adoption!!!

HOW MY ABORTION AFFECTED ME

The State of FL

County of Alachua

My name is Teresa I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Indianapolis IN

06/10/1976

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Suction Abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told what to expect during the procedure; however, everything was minimized and there was nothing said about complications physically that I can remember. (I'm not sure about the date of the abortion. I do believe it was in 1976 but not sure as it was a long time ago.)

5. Were you adequately informed of the consequences of abortion?

Yes No

They minimized the consequences and only said that some people experience some emotional distress as a result.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My brother, who said it would be the best thing.

9. How has abortion affected you?

I was very guilty. As time passed, I was able to put the guilt in the back of my mind and function. However, years later guilt, shame, and remorse surfaced. I realized after learning the truth about abortion that I had "killed a human being." I know God has forgiven me, but it's hard to forgive myself even after all these years. I wish I had known the "real" truth back then.

10. How has your abortion affected others in your life?

Since my brother and I are the only ones that knew about it, no one else was affected.

11. Based upon your experience, what would you tell a woman considering abortion?

That there are other choices and that there are childless, loving couples out there that would gladly help and adopt a baby. It's morally wrong. It's simply infanticide!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion affects every emotional, spiritual, and physical level of the person going through it. And this never goes away. It's always with you. I would ask them to consider all the consequences. The alternative like adoption would help so many childless couples and give the baby a chance at life.

QUESTIONS

1. Where and when did your abortion occur?

Englewood NJ

//1974

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Don't really know.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I believe they told me as little as possible for the purpose of sparing me greater anxiety.

5. Were you adequately informed of the consequences of abortion?

Yes No

Of course not! Had they explained to me what the short and long term effects of the medical procedure was, I don't think I would have done that to my female organs. Mentally, anguish and remorse have been my companions ever since.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The man..

9. How has abortion affected you?

As I stated before anguish and remorse. Without the grace of God, and His forgiveness, I would not be okay today.

10. How has your abortion affected others in your life?

Well who knows with the exception that there is a vacancy in our family and you will never be as it should have. Its like a four letter word without the forth letter, you don't know what it could have been (ex. bea-bear-beat-beam-bead-etc.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't !!!!!!!!!!! You have other choices !!!!!!!!!!!!!!! Don't buy the original lie that there are no consequences.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Just look at the "moral train wreck" we as a nation have become since legalizing abortion. Don't be fooled, we are personally and as a nation accountable!!!!!!!!!!

HOW MY ABORTION AFFECTED ME

The State of FL

County of Volusia

My name is Jamie Williams. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Howell NJ

10//1994

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction ?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was given a class about STD's and how to prevent them and that was it. I wasn't told anything about what would occur during the abortion. How it was done or what type I was having.

5. Were you adequately informed of the consequences of abortion?

Yes No

I actually had second thoughts, and wanted to leave! They would not let me leave and brought my boyfriend in the back to talk me into going through with it. I was hysterical!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend, mom, clinic

9. How has abortion affected you?

I suffered from terrible depression. I also suffered a miscarriage after the abortion, and had difficult pregnancies with my other two children where I was placed on bed rest due to bleeding and pre-term contractions.

10. How has your abortion affected others in your life?

It took the life of my child! My mother suffered from guilt about her role. My other children have been affected because of the complications I had during my pregnancies with them.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. Children are a blessing from the Lord. I know you're scared and unsure and didn't plan this, but God will provide. If you are unable to care for your baby, please consider adoption. The gift of life is the most precious gift you can give someone. I know it is hard, and regardless of your decision, it is one you will live with for the rest of your life. But with abortion, your baby dies, and you can NEVER take that back! It is final. With adoption, there is no doubt you will miss your baby and wonder about him/her, but you will know this, he/she is alive and loved not only by her/his adoptive parents but also by you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It hurts women. It kills children. And it destroys lives. If it was merely a "medical procedure", why do so many women suffer from regret and depression afterwards. They suffer, because they know as mothers that the life of their baby was taken. I have NEVER heard a woman say that her abortion was the best decision of her life. I was not told about any other option when my baby was aborted. The clinic did not inform me of the MANY options available to me. I was not told what the "procedure" would be like, what to expect during or afterwards. I was just a number. Regardless if you have faith in Jesus or not, life is life! Women of all faiths have suffered from post abortion syndrome. That is because it IS the taking of an innocent life.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Pinellas

My name is Lilnda Van Wey. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Omaha NE

06/13/1978

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The doctor did not explain to me how the procedure was done. I was 18 and terrified and so I didn't ask. Only later did I find out. He did however tell me that it would be done by suction.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one ever told me the mental anquish it would cause later in life. The guilt, shame, low self esteem and regret. I was never told of the possible medical side effects either. Like, damage to your uterus, etc.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has been a long emotional road. Especially after you have children. You realize that you killed your children's sibling. I'm currently 48yrs old and I still think about my child that I killed. Also, I have a breast biopsy next week so I may have breast cancer--I don't know.

10. How has your abortion affected others in your life?

My low self esteem has played a big role in my life in general. With my husband having to "walk through" the emotional healing with me.

11. Based upon your experience, what would you tell a woman considering abortion?

DEFINATELY RECONSIDER. If I had to do it over again I would NEVER have had it done. There are other options, like adoption or even just keeping the baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Have they had an abortion? If not, then please consider the ramifications that it has on women. You say it's a woman's right to do what she wants to her body yet you allow her to have this emotional damage done to her for the rest of her life. What a double standard. Please reconsider.

9. How has abortion affected you?

I had an incredibly hard time after the fact dealing with the guilt-I spiraled out of control and became very promiscuous. Thank God that nothing deadly occurred with the decisions I made.

10. How has your abortion affected others in your life?

I killed my child--how else could it affect someone more.

11. Based upon your experience, what would you tell a woman considering abortion?

Please do not-no matter where you are there are other options. You can find help to raise your child or

allow the child to be raised by an adoptive loving family.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

By allowing people to choose who lives and who dies you are slowly but surly killing our nation.

2. How many weeks pregnant were you?

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No doctors told me anything. The first doctor just told me that she would be my doctor if I chose to have the baby, and at the same time handed me a card for an abortion clinic if I chose not to. I was told that the baby at this time was just tissue, and not yet a formed baby.

5. Were you adequately informed of the consequences of abortion?

Yes No

The counselor at the abortion clinic asked me questions, I answered - I do not remember what the questions were, and she said that she thought I might have a hard time after the abortion, but that was it. She did not tell me anything about an abortion or the consequences of an abortion, and I just turned 18 yrs old and knew nothing!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend

9. How has abortion affected you?

It has affected my whole life. For the first 10 yrs after the abortion, I could not forgive myself, and the shame of it went down to the core of my soul - I could not let go of the shame. I buried it, and never once spoke of it. I went on to college, became a data base analysis, became successful, did not go into addictions of any kind; I was into health and I was healthy. I lived a life style by the time I was 28, that few adults achieve in a life-time - by world standards I was successful; and it was this time in my

life, I prayed to die! I felt everything good inside of me was gone, and on the inside of me, I felt dead. The day my baby died, I died too, on the inside - and nobody told me that would happen. Everyone told me it was tissue, but I knew on the inside, that was my baby, no matter what any doctors said, I knew that was my baby. I prayed to die, but God's answer to me was life. After 10 yrs. I forgave myself, it would take another 10 yrs for me to let go of the shame, and yet another 10 yrs. for me to let go of the pain - and now after 30 yrs, I still live with the loss of my child - and I will live with that loss all the days of my life. So no-one can tell me, that abortion has no affect on the mother - to late for that. Abortion affected my child, it claimed my child's life, and it claimed the biggest part of my life too. Abortion was not ok for my baby, and abortion was not ok for the mother. It was not ok for either one of us.

10. How has your abortion affected others in your life?

I never told my family, they still do not know. I never went on to marry, and I never had another child. So my child who died as a result of an abortion, would be the only child I would ever have. But the way generational sin works is this way - sin is passed down from one generation to the third and fourth generations. I repented of my sin, and I believe because the repentance is from the heart, and I am in right-standing with my Father, Jesus and the Holy Spirit, and now living my life, according to God's Word, that this sin of mine, is forgiven, and I believe, will not be passed down to the next generations. However, for people who have not acknowledged abortion as sin, and as something they have to repent of - great damage will be done to their families for generations, and sadly, souls may be lost for all eternity. This will happen to many.

11. Based upon your experience, what would you tell a woman considering abortion?

I volunteer as a Client Educator at a Crisis Pregnancy Center, and I speak to clients about abortion; what it is, the procedures performed, the possible consequences on the physical level to their bodies, along with possible consequences on the emotional and spiritual levels - what in the end, they will live thru and live with. I talk to them about alternatives to abortions; parenting their baby; alternative of adoptions. Open adoptions allow the birth parents to interview, choose & pick, the parents they would like to raise their child. I do not make their choice for them, but I speak and give them the truth, more information than what I had, for them to make their decision. When I reflect back, I wonder why no-one did that for me - I seen doctors and counselors, but all they told me, was that it was tissue, and not yet a baby and would feel no pain. But a dead baby cannot tell anyone of pain. I just wish my baby and I would have had the opportunity, for someone, to have just spoken the truth to me - maybe it would have made a difference in my decision. For some of my clients, the truth has made a difference in their decision - and their babies have gone on to be born, and their mothers have gone on to raise and love their child, being spared great destruction & pain; spared living with a loss of their child, all the days of their life. So now, I speak the truth to other women considering abortion - what it can and will do.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is in violation of one of God's Ten Commandments: Thou Shall Not Kill. Abortion is the shedding of the most innocent and most defenseless blood - the killing of babies! Babies die, mothers lives become destroyed on so many levels, and sin is passed down to the 3rd & 4th generation of that family. For unrepented sin, people will loose their souls. When a country legalizes a procedure, that violates a Commandment of God, sin will work the same way for a country as an individual, because of a Spiritual Operation put in place, that Heaven, Earth, and Hell all operate under. If you have sin, you have destruction. With over 50 million lives of innocent blood shed, the enemy now has a legal right to do much destruction to our country - That is how abortion affects our country. For the individuals responsible for the actual decision to legalize abortion for a country - sin will operate the same way in their life, and the generations of their family - you will be responsible for the shedding of innocent blood, to the numbers of millions! When we leave this life, we will not be accountable to world ways or world rules - but each one of us will be accountable to God's Rules and God's Ways - and we will be judged. Salvation of many souls will be lost. God says in His Word, that my children perish, for lack of knowledge. Lack of knowledge, is lack of spiritual operations and how they work - and yes, his children are perishing.

My name is Traci Licht. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Boca Raton FL

//1986

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

unknown

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Of all of the mistakes and regrets I have had in my life, the murder of my innocent unborn child will be the only burden I will carry with me until I die. It haunts me always. If ever a problem arises in my life I know I deserve it. Whenever I have happiness in my life I know I don't deserve it. I know God has forgiven me but I cannot forgive myself.

10. How has your abortion affected others in your life?

I don't know.

11. Based upon your experience, what would you tell a woman considering abortion?

It is wrong and you know it in your heart. No matter what society tells us, no matter what our culture accepts we all have the instinctual ability to know right from wrong. Let your heart guide you and believe in yourself. Remember if it sounds too good to be true it is. It might sound hard to go through a

pregnancy but it's only 9 months of your very long life. Enduring that 9 months will free your heart and mind from a lifetime of guilt and give a loving family a child they have dreamed of, or could fill a void in your own life that you didn't realize you had.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Murder is wrong. It's only choice if the fetus has the choice. There are SO many ways to prevent pregnancy that our society should be encouraging that, NOT abortion. In this day there are very few excuses to have an unwanted pregnancy. At this point we are arguing between the convenience of a woman who didn't prevent her own pregnancy vs. the death of an innocent baby. How is that ok?

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Duval

My name is L T I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Jacksonville FL

01/04/1991

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Don't remember exactly

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't recall being informed of any, just what to do before and somewhat during.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend and his parents

9. How has abortion affected you?

Guilt of doing this to my own child, against God. 1 day after the abortion I actually had body parts of my baby come out of me that I could clearly see as a very small hand attached to the arm. I will never forget that and what an awful thing to remember of my baby for the rest of my. I know I allowed myself to be convinced this was the right thing at the time but had this not been legal I would not have been able to do this. I really would have liked it not to have been legal and know it must change now.

10. How has your abortion affected others in your life?

I am not certain very few knew and those that did know we have not talked about it since.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to do it even if it was conceived in the worst way. There is always adoption (so many people that would be blessed that can't have a child). I went on to have 3 children and can't begin to tell what a joy & blessing they are to me. Your baby is a human the moment it is conceived, don't fall yourself into murdering your own child. That baby deserves to live, not to die for whatever selfish reasons you may have.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The baby is human the moment it is conceived, therefore any type of abortion is murder. Please save the babies from abortion they are innocent and do not deserve to be killed.

HOW MY ABORTION AFFECTED ME

The State of FL

County of hillsborough

My name is Lupe I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

miami FL

04/10/1981

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

saline (burn baby with salt)

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

i was not a Christian, felt deceived on so many levels, it is not a blob. it is a human being. God showed me that after i became a Christian in 1990.

5. Were you adequately informed of the consequences of abortion?

Yes No

they made it sound like it was no big deal, but it was so devastating, almost bled to death on my 2nd abortion . I would have had two extra children now, but I will see them in heaven. Through A Women's Pregnancy Center in Miami, FL, i rec'd healing, peace, forgiveness from God though groups, etc.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

1st time my boyfriend whom i thought loved me, but

9. How has abortion affected you?

physically, emotionally, spiritually, i felt such a loss, depression, pain, regrets, shame, guilt, horrible nightmare all together and i did it twice, did not know any better. thought that was the only solution at the time. i wished i had kept my babies. 1981, 1988. they would be 27 years old and 20 by now . i know and believe i will see them in heaven thanks be to God for his love and forgiveness of what i did.

10. How has your abortion affected others in your life?

i kept it a secret all my life. only a couple of people knew about it. too embarassed and shameful to tell anyone, but i am ready now. i can even right a book about it to encourage women not to do it. i volunteered at the women's pregnancy centers. PTL!!!

11. Based upon your experience, what would you tell a woman considering abortion?

don't do it. it is not a blob. it is a human being. if can't afford to have a child. keep it to term and give it up for adoption, but don't murder it because that is what you are doing.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

just because you legalized something doesn't make it right. Abortion is murder!!! it stops a beating heart! what if your mother had aborted you?? society cares more for welfare/cruelty of animals than human beings... Life is a gift from God! you should be arresting women who have abortions because that is premeditated murder!!! If women were told the truth about abortion and what really happens and goes on in those abortion clinics and the intent of planned parenthood organizations, they would not have abortions. Life is precious and all humans should be protected especially those that can't speak yet...unborn babies. Life starts at conception...May God have no mercy on you if you believe and promote abortion.

my partner at that time

9. How has abortion affected you?

I have never forgotton that I was responsible for ending that life. I think of the joy that child would have brought to my life and the contribution he or she might have made to society.

10. How has your abortion affected others in your life?

My children suffer because they see me in a different light. My relationship with the man who got me pregnant disintegrated, especially when he turned and held me responsible for killing our child.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it!!!!!!!!!!!!!!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

To return to the God's law as the basic guidance our forefathers had when they drafted the laws that gave birth to our country.

9. How has abortion affected you?

I have not felt like I deserve to live and I deserve everything that I get because I took a life. I have already had one masectomy and am facing another one depending on the outcome of the biopsy I have to have on July 3rd.

10. How has your abortion affected others in your life?

I have two children who need a mother and I attempted suicide several times as a young adult.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT DO IT. It will haunt you the rest of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

An unborn child is still a child. It can feel pain and we as a society wonder why so many bad things are happening to babies and children? Maybe it is because we have made them less than human.

HOW MY ABORTION AFFECTED ME

The State of FL

County of Lake

My name is Janet Darrah. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Indianapolis IN

//1988

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

d & c

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

nobody mentioned the potential of any physical or emotional side effects

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have had severe depression, fear of punishment from God, fear of family and friends finding out my secret, eating disorders, difficulty bonding w/my living children, fear of intimacy with my husband, and severe guilt

10. How has your abortion affected others in your life?

Because of my struggles with depression it affected my family. I was angry a lot and it affected my children.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her not to do it. I would tell her that God created the baby inside her and that if she aborts the child she will have to deal with the grief of losing her child plus she will have to deal with the guilt

and shame that is associated with abortion. It may provide immediate relief, however, she will deal with the grief of abortion for the rest of her life. I would tell her that her arms will ache to hold her baby and that she will regret and grief the loss of her child. There are people who will help her in a crisis pregnancy situation. There are many wonderful people who are waiting for a baby to adopt. There are other options.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them at the moment of conception all the DNA is immediately present that determines skin tone, hair color, eye color, the shape of the baby's face, etc. I would bring many women that I have counseled that could give personal testimonies of what abortion did to them.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

The physician did not 'share' about the emotional "baggage", I've experienced over the years.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Emotionally; guilt feelings, etc., etc.

10. How has your abortion affected others in your life?

To this day I have not told my adult daughter of this 'act' I committed; oftentimes, I still feel less than a woman.

11. Based upon your experience, what would you tell a woman considering abortion?

To sit, & talk (indepth) with someone who has gone through this; speak with a Christian counselor.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

To not approve the actions; too many women are carrying this guilt into their elder years as senior citizens; it causes breakdowns in family communication. We cannot openly, & honestly dialogue with our grand daughters. It adds to mental stresses.

10. How has your abortion affected others in your life?

Not until the last few years. I did not tell anyone.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to get all the facts. I would tell her I made that decision and it is a mistake I will live with forever. I would tell her that the baby is a life not a blob as others tell us. I would tell her that her baby should have rights too. I would tell her that an abortion is more detrimental to her health than a baby could ever be. I would tell her God loves her and there is nothing they cannot face together.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it is wrong. It is taking the life of someone. It is about rights - human rights.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Duval

My name is Suzanne Edens. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Nashville TN

05//1969

2. How many weeks pregnant were you?

24

3. What type of abortion was performed?

I need to explain below - my case may be unique

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

My case is different because abortion wasn't legal yet. There were still many doctors who would do them in their offices, though. I was 15, and my mother took me to a doctor. He examined me, then told my mother I was too far along for him to try, that it would be dangerous, so she took me home. She then proceeded to have me sit in a sink of Lysol, then had me lay down on my bed. She had a pharmacist friend who sold her the thing that opens a girl up - a speculum? She used that, and then attempted an abortion with a really big knitting needle. It hurt. She failed at the abortion, but killed my soul. I am now 55 and still a wreck about it although I hide it well. My mother is still alive and has never even apologized. My daughter survived, is almost 39 years old and my best friend, but the abortion attempt did lasting physical harm to her.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was given no choice. I was completely afraid of my abusive mother so I did what she said. I knew very little about sex, having gotten pregnant the first time I had sex where I didn't even get to say yes, and knew even less about pregnancy and childbirth because I had no way to learn. My mother only talked about "getting rid of it".

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my mother did it herself and I had no vote

9. How has abortion affected you?

I am a broken person, now 55 years old. I can still barely look my mother or anyone else in the eyes. I have been self-destructive most of my life, and to this day I would like to die. The only good to come of

this is that if Roe V Wade had been in effect, I wouldn't have my daughter with me today. She is only here because my mother was unsuccessful after several attempts. I really feel even sorer for girls and women today. I got a second chance to be a mother from a botched abortion.

10. How has your abortion affected others in your life?

It has affected every relationship, whether they realize it or not. I don't feel comfortable anywhere. I have no self-esteem. I don't feel like I belong anywhere. Sexual intimacy is hard, even though I've been married to the same man for 19 years. The abortion experience creeps into our most intimate moments.

11. Based upon your experience, what would you tell a woman considering abortion?

Please, just don't. I was lucky enough to have my daughter survive my mother's abortion attempt. I was 16 when she was born, about to start my Junior year in High School. I didn't have my own place to live, or a job, but I was able to finish high school on time, and I've never been without a decent job. Best of all, my adult daughter lives next door to me and I can't imagine life without her. I have never once regretting her being born to me. To think my own mother, her grandmother, was ready and willing to kill her own granddaughter and injure me, is something I will never understand. My daughter was my daughter from conception. She was ever anything else.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

There's nothing I can say, probably, that hasn't been said before. This is the Holocaust of our time. It is politics, it is NOT health care by any stretch of the imagination. This is wrong, and we all know it on some level, no matter our politics or our religion.

9. How has abortion affected you?

The father of my baby left me, I was not able to have a normal relationship for about 5 to 6 years. I couldn't forgive myself until the Lord Jesus healed me in 2003.

10. How has your abortion affected others in your life?

It affected my son because of my low self steem he had to go through the pain of seeing me leading a disfunctional life. I was trying to cover up all the pain I had inside by frequently going out and driking which led for him to suffer many of my wrong decisions.

11. Based upon your experience, what would you tell a woman considering abortion?

I will most definitely tell them that it is the wrong decision. That no matter what the circumstance that's driving them to kill their baby is, it is jus temporary. I always tell them that they will for sure regret it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I will plead for a law to pass that every single abortion clinic MUST preform an ultrasound prior to the abortion or better yet,(attempt to murder.) I will tell them it causes tremendous trauma in a woman's life and that it is just plain Murder to an innocent human being without a voice.

8. Did anyone pressure you into having an abortion?

Yes No

The father of the child and my best friend.

9. How has abortion affected you?

For many years after the procedure I just wanted to forget it and did everything in my will to try. I used sex, alcohol and drugs as my scapegoat. It wasn't until I tried to take my own life in November of 2003 (my anniversary date). The memory came back tenfold and I could not run from it any longer. From this experience I excepted Jesus Christ as my personal savior. I realized the decision I made so long ago was the beginning of so many more that led me further into despair. I needed a Savior. I needed to be forgiven for what I had done to my baby. I received counseling and been through a post abortion counseling class at the Womens Pregnancy Center. I am now training to be a counselor at the Womens Pregnancy Center so I can inform other women about abortion and the affects it could have on them.

10. How has your abortion affected others in your life?

After the abortion I never heard from the farther. I often wonder how it affected him and if he thinks on what happened. My best friend at the time is no longer a close friend. We went down hill and once the

lease was up stayed in contact randomly. A few years ago I went to her and apologized to her for the anger I had inside my heart. I told her I felt betrayed by what happened. I had trusted her with my confidence and she knew I wanted to keep the baby. She told me she did what she thought was best. I also told my parents about the abortion in November 2003. I told them when they came to pick me up from the hospital. The subject is not much talked about so I'm not to sure how they feel.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that it is not as easy as it seems. Yes, the baby is gone and you may think that you can carry on and do as you may and not have any regret but it will come. Do as you will to cover it up. Keep as busy as you like. Something will trigger it sooner or later. It's been 12 years since I had an abortion and there is not a day that goes by that I wish I had not gone through with it. I miss my child so much that it hurts and I cant wait until the day I get to see him in heaven. It's only through the grace of God that I can keep going and do what I'm doing. Living and sharing this with others.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Until they each had an abortion themselves, they cant fully understand the depths of the matter. To let a women who is desperate and scared to make a decision that could change her life forever. To put that power in her hands when she feels like she has no other way. No support from anybody. People cant keep using abortion as a way out. It's not a way out. It's the beginning to a life of shame and regret. No one should have to live this way.

HOW MY ABORTION AFFECTED ME

The State of FL

County of Orange

My name is Bonnie I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Sarasota FL

//

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was never told the ramifications it would have on my mind... It was always... this would be the easier way, the smart way, the right way. HOW WRONG.

5. Were you adequately informed of the consequences of abortion?

Yes No

At that time I thought that it really was not a baby yet. How stupid of me, but I went along with the crowd in believing it was still not developed so that it did not constitute a life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my boyfriend & his mother

9. How has abortion affected you?

Mentally tormenting... Only God's forgiveness can heal the wounds.

10. How has your abortion affected others in your life?

Thank God I have a husband that knows my heart. I have yet to share it with the daughter that I do have.

11. Based upon your experience, what would you tell a woman considering abortion?

It is not the easier way. It IS murder. It is torment for you to deal with. God will equip you to take care of your baby or give you the resources to allow someone else to take care of it. Take the high road. Be responsible. Do what is right. It is a precious life you carry...

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Never should it be legalized. I only pray that it had been illegal when I had made that terrible choice many years ago. It is not what our founding fathers wanted. It is not a part of who we are as a nation. It should never be a part of what we represent. Only if we we believed that murder is the right thing to do would it ever be the right thing to do.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

There were no details,someone just asked me if I was sure this was what I wanted to do.

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't remember there being anything mentioned about the emotional consequences of an abortion which is the most severe.I don't remember anything about biological consequences either but if it was, it was definitely down played.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

father of baby

9. How has abortion affected you?

Dramtically. There is not a day I don't think about it. I felt guilt for many years until I finally came to a place of true repentance with God. Even so,since then I think about it every day with extreme regret. I currently have infertility issues which only makes that memory more painful as I feel it maybe be a cause of it.I also feel like I robbed myself of the wonderful experience of becoming a mother, no matter how young I was.

10. How has your abortion affected others in your life?

My husband feels bad knowing that I had that traumatic event take place, and dealing with that lifetime regret.The father of that baby also expressed regret that he had pressured me and has sought consolation through his faith.

11. Based upon your experience, what would you tell a woman considering abortion?

That she will regret it for the rest of her life no matter what her reasons may be. That even a woman who doesn't have a spiritual life feels guilt because it's human nature to know that life is precious. That there are other options that she can live with that won't affect her the way an abortion would. There are people like me who now live with infertility that pray for an infant. Many people who are so desperate in their search to adopt that they go to foreign countries. That having an abortion can haunt you many years later, and that every life deserves a chance.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That the consequences of abortion are not only emotional for a woman, but it affects how American society values all life. If a woman can so freely abort a fetus, then what's the difference in harming a baby or an adult? The value of a human life is greatly affected. It also has an affect on society in the behavior of young people in particular. Knowing they can freely have an abortion gives them the false security that if a "mistake" happens, they can easily erase it. If there are no consequences to pre-marital sex then promiscuity prevails. I can speak to that from experience. The value of the family unit is diminished as well and broken families produce adults with issues that in tern affect society. A woman has rights to her own body, but not rights over anothe life...even though it's growing inside her. It's still life.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No explanation of the actual procedure was given. No info of the after bleeding, etc. No knowledge that the sex was not typed.

5. Were you adequately informed of the consequences of abortion?

Yes No

It was mentioned that I might need counselling afterward. I suffered cervical cancer within 18 months.

father of baby and my mother

9. How has abortion affected you?

I started seeing dead dogs on the side of the road, something like dead people in black body bags and coiled up snakes in the house. panic attacks and chronic depression. cried uncontrollably. bled for 2 years, hated the word abortion; cervical cancer and a second abortion. went thru PACE recovery program 32 weeks, GriefCare 26 weeks with headphones 24 hours worship. I remember saying to my husband "Funny how a blob of tissue can seem so real and alive; how it can have such a big impact on me being gone." I constantly thought about death, especially my own treated for depression, disintegrated identity disorder, ongoing heaviness of disconnection from my other birth children. It used to be impossible for me to trim any plants in the yard; I had to be delivered of spirits of death, bitterness and unloving spirits, spirits of fear, envy, false burden-bearing, and spirits of divorce along with unforgiveness, unclean spirits, spirits of poverty, doubt, grief and intimidation.

10. How has your abortion affected others in your life?

My firstborn son walked out of the room when I told him I had an abortion and has believed about himself that he 'loves children, except his own'.. I was emotionally divorced most all this time from him without awarenesss. Took 2 Marriage Intensives along with multiple counselling.

11. Based upon your experience, what would you tell a woman considering abortion?

It will really hurt you for a long time; GOD's answer now is adoption as an alternative. the miracle of birth will totally fulfill your built-in GOD-given nature to reproduce. Pregnancy is healthy and children give you a sense of purpose and responsibility in life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

This is an unrighteous court; your responsibility is to protect the right to life, the lives of all citizens (born and unborn). GOD cannot bless such an unholy law. HE will require blood for the blood. Return to justice for all.

HOW MY ABORTION AFFECTED ME

The State of FL

County of Lake

My name is Marcia McNaney. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Marion IN

12/12/1974

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was not a life, it was but a procedure to restart my normal period again. It was out of sheer fear that this decision was made.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nobody explained to me the emotional side affects and the many years of grief I would know during my lifetime.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have many of the symptoms including a failed marriage with the partner who was the father of the baby we aborted. I have suffered guilt, anger, anxiety, relationship problems, sexual dysfunction, preoccupation with becoming pregnant again.

10. How has your abortion affected others in your life?

My parents and only sister were tragically killed and never knew of the abortion. My children 2 of whom are grown and married have felt the pain and one of them (son) also experienced lost fatherhood.

11. Based upon your experience, what would you tell a woman considering abortion?

I am currently the Executive Director of a Care Net Pregnancy Center in Florida. I use my own experience and many wonderful life affirming tools to tell women and men the truth about abortion. We are in the process of trying to add ultrasound to our center.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would use my own testimony of how my life was forever changed by abortion. Not one person ever called to check on me after. Abortion leaves one dead and one wounded. We must get them to understand that the baby is not a part of the body who is carrying it, but a completely separate person with its own blood, DNA, brain, sex etc.

HOW MY ABORTION AFFECTED ME

The State of FL

County of Nassau

My name is Angel Hill. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Louisville KY

11/14/1989

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Suction Curettage Induced Abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that I would be put under the procedure would be quick and easy and not to worry.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was briefly told that I would have some bleeding after the procedure but that was normal and it would be like my period. I wasn't informed about any other physical or mental issues that may occur.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

It was an unspoken pressure from my mom.

9. How has abortion affected you?

After the abortion I went into a tailspin of alcohol, cutting myself, depression, self hatred, destructive relationships, and behaviors. I tried to commit suicide several times. I became very insecure and felt like I deserved to be treated poorly and abused. I became anorexic and unable to see myself in a normal image.

10. How has your abortion affected others in your life?

It has caused me to be very insecure and untrusting. Unable to communicate and caused me to internalize my pain. Causing me to not have relationships with family or friends except on a surface level.

11. Based upon your experience, what would you tell a woman considering abortion?

I would share with them about the pain that I have suffered. The loss and mourning and shame. How I felt like no one would understand or that I would be judged if I spoke out so the isolation brought a lot of

hurt. I would tell them that it is not worth the pain and suffering.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them to not allow it to be legal. To make changes in places like Planned Parenthood to have them show the videos of what they are going to do. Give the statistics of how it will effect them mentally, physically, and socially. The best way to help eliminate this epidemic is to educate people. Give them information we have about what happens at conception and also what they really do during an abortion. Give the women and men alternatives to choose from, such as educating them about adoption and ways to bring up a child themselves. Where to get help.

QUESTIONS

1. Where and when did your abortion occur?

fort walton beach FL

2. How many weeks pregnant were you?

3. What type of abortion was performed?

saline; burned the baby to death

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told that the baby was already completely formed as a human; but rather that it was a mass of tissue; i was not told how inhumane the procedure was ; nor was i told how the procedure worked.

5. Were you adequately informed of the consequences of abortion?

Yes No

there was no counsel asking how i may in the future be able to deal with the fact that i murdered an innocent baby by choice, for convenience .

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

boyfriend;

9. How has abortion affected you?

I try not to think about it; it took me many years to realize it was murder. That realization was devastating but thankfully I have a very supportive husband. I have had three abortions , impregnated by three differnt men, first one at `17 (didnt want to tell my parents, didnt want to get fat, boyfriend couldnt handle it) early 20's next one (wasnt married , boyfriend didnt want it neither did i) next one mid 20's same father as my oldest son; he did not want it i did not think i could carry it and give it up for adoption , could not afford it if kept.

10. How has your abortion affected others in your life?

my oldest son hates me for doing it. I will not tell my other children due to his response.

11. Based upon your experience, what would you tell a woman considering abortion?

That adoption is the best alternative and to have sex responsibly by using birth control (not the morning after pill) or to stay abstinate. Murding a child out of convenience is wrong. Do they wish they would

have been murdered before birth or are they glad they got a chance to live. If they are mature enough to have sex then realize that getting pregnant can and does happen so use birth control ;dont use abortions as birth control. They will regret it one day.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That the majority of youth getting them are too young to make that sort of emotional decision, this is a decision that most young women make out of fear or convenience with no thought of how their actions will affect them when they are older. the older women getting them need to be seriously encouraged to use birth control if they cannot control their sexual appetites ; the baby is a human life.

my boyfriend

9. How has abortion affected you?

The abortion I had when I was 27 ruined the relationship with the father of my baby. When the doctor was physically finished with the procedure, as I tried to walk away, I passed out on the floor. When I came to, they had put me on a couch. My boyfriend, who was waiting downstairs, heard me fall. Because that relationship was destroyed by this abortion, I went in and out of relationships until I was 36. Then I met a man who I wanted to have a baby with - and we couldn't. I got pregnant and carried the baby almost 5 months and then I miscarried.....the man left me again. 4 years later, in 2007, I was diagnosed with multi-foci breast cancer. I did not know that there was a connection between abortions and breast cancer. Double mastectomy surgery was the doctors only answer. But the God who created me and those 2 babies healed me of the diagnosed cancer on July 22, 2008!! God can heal all.

10. How has your abortion affected others in your life?

It affected the babies father's, but I don't have any connection with them now. I haven't had a good relationship since my abortion and at age 50, I am still single.

11. Based upon your experience, what would you tell a woman considering abortion?

On my experience, I would explain the heartache and broken emotional ties that I suffered in my life from the 1 hour of surgery and try to help her understand the God has a better plan and if she could just carry that child for 9 months she would have a sense of satisfaction instead of one of defeat.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That I made a tremendous mistake and if it had been against the law I would not have gotten it and I would have 2 children on planet Earth today and I know I would've been more productive with my life. I am truly sorry that I made the choice I did, and sorry that no one really gave me any information. 9 months is a short time and adoption is the only answer for many couples.

Me and my thoughts.

9. How has abortion affected you?

I almost bleed to death. I needed medical care for many months afterwards. I still wonder what it would be like if I had the baby. It would be 25 years old by now. I cried for it for many years even after having more children. I became suicidal and deeply depressed. I did not get over it until 2003 with the help of another woman that had an abortion. She prayed for me and talked to me. I had to ask God to forgive me and forgive myself.

10. How has your abortion affected others in your life?

My now ex-husband and I were not married at the time. He made me promise that I would never have another no matter what. It affected my second daughter because when she became pregnant I decided that she needed to know what happened to me when I had an abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

First I would pray for her. Then ask her why she did not want the baby. I would tell her what happened to me. After telling her that she could die, I would suggest to her that she should have the baby. If she

does not want to raise it I would promise to help her find a family or an adoption agency. I would tell her to get a sonogram first so she could see that she has a life inside of her. It is much more than tissue like I was told.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that abortion is murder. I person that murders a pregnant female is often convicted of two murders. Killing a baby inside of the womb is still murder. I would also ask them to witness an abortion first. See a sonogram taking place to see the baby that would be killed.

HOW MY ABORTION AFFECTED ME

The State of FL

County of Orange County

My name is Daria Monroe. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Washington DC

//1974

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Nothing was said; no counsel. Someone made the appointment, dropped me off, I went in and paid the money, sat in a waiting room until my name was called, and taken in to put on a gown. No discussion.

5. Were you adequately informed of the consequences of abortion?

Yes No

Again, nothing was discussed.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

I was told there wasn't any other solution.

9. How has abortion affected you?

At eighteen I had the abortion. I walked out like a zombie, empty and dead. The following year I was placed on sedatives, because I had developed ulcers. I tried to end my life with the sedatives. I woke up in the ER surrounded by police and nurses. Depression and not caring about myself was how I lived for many years. I had no voice of my own any longer. My past aspirations seemed unreachable, and I didn't care to try. I found in myself in one abusive relationship after another. Death now looked better than life. I felt unworthy of anything, especially motherhood.

10. How has your abortion affected others in your life?

Those close to me didn't know how to console me.

11. Based upon your experience, what would you tell a woman considering abortion?

This is a decision that you will live with the rest of your life. Nothing is worth the death of your baby. It will not solve your problems or conveniently take of your situation. It makes everything worse. It is

opening a door to living hell. I've been there; I know many who have. Please do not make the decision that you will regret forever.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Please hear the voices of experience and end abortion. It is not safe for the babies nor the mothers. The death of our babies will weigh on our minds and hearts forever. It cannot be erased by any of the psycho-babble the pro-abortionists present. Talk to the women who have cried themselves to sleep night after night. Ask us if we could turn back time, to the first abortion, knowing what we know now, would we go through with it. I'm sure you will, and do, have a resounding "NO!". We are not women with unstable backgrounds or unstable minds, and many of us, by the grace of God, have reached of point of moving forward. However, nothing will remove the fact, that because of legalized abortion, there is an empty chair at the holiday table; there is a pair of arms that I will not feel around my neck; there is a sister that my children were robbed of knowing. The world was robbed of life, beauty, and joy. Where are the babies' rights? Where are the mothers' and fathers' rights? We must put an end to lining the pockets of murderers and liars. This is a money-making racket. The fact that abortion is legal is such a farce, a scandal at the risk of the people who trust laws to keep us and our families safe. Please stop this hideous act. Put an end to abortion. The end of abortion will not bring back our babies, however it will make the battle, both silently and vocally, for me personally over the last thirty-four years, seem to reach an end.

HOW MY ABORTION AFFECTED ME

The State of FL

County of Broward

My name is Pam I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Fort Lauderdale FL

03//1981

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

suction... I had 3 abortions...all 1 year apart. After the first abortion I was such a mess...

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I remember being told that is was JUST a blob of tissue and it was NOT a baby. I remember being a number, I remember feeling like cattle at slaughter. They never told me that it would not only destroy my babies life , but It would destroy my life also!

5. Were you adequately informed of the consequences of abortion?

Yes No

The only risk they said was that I may not be able to have more children

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

I pressured myself

9. How has abortion affected you?

It affected me in every area of my life... Physically, Mentally and Spiritually. I was depressed,full of guilt, emotionally numb, I had dreams and nightmares, all of my relationships were a mess, I had inferiority problems, I was sick alot, depressed, problems sleeping, Couldnt make friends or build relationships, preoccupied with the due date and date that I had the abortions, sexual problems, drugs and alcohol abuse, disfunctional in so many ways, sense of loss and emptyness, loneliness, sighing, crying, anger problems, regret,unable to make decissions, workaholic,tried to be the best to prove myself, from one extream to another, helplessness, eating disorders, panic and anxiety, marital stress, unable to bond with my other children, fear of failure,secretive, sad, relief at the time but so much denial, unforgiveness, unable to forgive myself, when I found out the truth about abortion and the FACT that they WERE babies, I was unable to deal with the fact that I ended the lives of 3 of my children by abortion. And no one told me it was murder! I trusted my government... because it is legal...I thought it

was ok...my government failed me. I suffered alon for18 years before I sought help. And I found help and healing at a Pregnancy center that help women in crisis pregnancy situations and they educate them on their options and if they have had an abortion they help you find healing. They do not encourage abortion they teach the facts and truth about abortion.

10. How has your abortion affected others in your life?

I didnt tell anyone.

11. Based upon your experience, what would you tell a woman considering abortion?

I will give them the TRUE FACTS about abortion... how the surgeries are done and the truth about fetal development. And the fasct that adoption is another option.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is not legal to kill anyone of any age, and it should not be legal to kill a defensless baby in the womb no matter what stage of life.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Leon

My name is Heather Chaddock. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Tallahassee FL

02/08/1991

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

Suction-aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I did meet with a counselor at the center before the abortion who told me about possible side effects bleeding, depression (baby blues) etc. Of course I signed papers stating I understood the risk involved. But no one told me it was a baby. I had been told by others it was just a bunch of cells at that stage. I don't remember the procedure being explained other than it would hurt a little and some tugging would be felt during the suction. I asked to see 'it' and the doctor said she had to clean 'it' up because of the blood. What she brought back was a clean white blob of tissue about the size of a quarter. I was 7 weeks pregnant from conception (9 weeks on the 40wk calendar). I have since seen pictures of ultra sounds and know that was not my aborted baby she showed me as a 7 week old fetus is much more developed than that blob of tissue.

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't believe the emotional/moral trauma side effects were fully explained. I started experiencing severe anxiety attacks within several months and thought I was dying until a doctor diagnosed my problem as anxiety attacks. The link was never made because I never told her about my abortion - I didn't even make the connection because it was months later.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

As I said earlier the anxiety attacks were miserable and I couldn't sleep for months. My way of dealing with the abortion was to stuff it and pretend it never happened. It was not until years later that I met with a counselor friend who was able to identify the cause of the anxiety attacks that had remained for years

as being from post abortion stress.

10. How has your abortion affected others in your life?

For many years I was afraid I wouldn't get pregnant again. It was 13 years later before I conceived again. My mother took me to get an abortion and she was very saddened by this. No one pressured me to get an abortion but I didn't talk with anyone that was on the baby's side. I was a graduate from college, my family would have helped me. I know you can not undo the past but if abortion was not legal I would not have had an abortion and could possibly have a 17 year old child now.

11. Based upon your experience, what would you tell a woman considering abortion?

DONT DO IT! There are other options. The possible trauma to your mind, emotions, soul, spirit is not worth it. If you are a woman who believes in God, then you may struggle morally as abortion is against God's law, even though it is not against man's law in the USA. Please seek a place where you will receive all the information needed to make an informed decision. I would recommend a local pregnancy center and not an abortion center who is more interested in your money than your welfare/health. The pregnancy centers give out detailed information about the abortion procedures, if requested, also info about adoption or how to seek help in parenting your child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is with deep regret that my country which was founded to bring freedom to its citizens has continued to allow the destruction of countless unborn children in the name of freedom of choice. I was given that legal choice, which I am deeply filled with sorrow that I took that choice and hence the life of my unborn baby. Honorable Justices please consider the welfare of women and take this horrible choice away from us. Overturn Roe vs Wade and any similar legislation within your judicial power. Amend the constitution to define the rights of each citizen beginning at conception. The preamble of the Constitution states to "promote the general welfare". This welfare meaning promote happiness and well-being. To truly promote the well being of women in the United States of America you need to take the decision of abortion out of our hands because we have been making a grave mistake for many years.

HOW MY ABORTION AFFECTED ME

The State of FL

County of Polk

My name is Mollie I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Tampa FL

12/18/1998

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Suction aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't remember receiving any details about what would happen during the procedure. Nor was I informed about the development of a baby in the womb.

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't remember being informed of any long-term consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It filled me at first with relief. Then I experienced denial about what I had done for many years. When I finally acknowledged what I had done, I experienced deep sorrow, grief, guilt, feelings of not thinking I deserved to live, sadness that I killed my first child, regret, depression and anger.

10. How has your abortion affected others in your life?

I realized I have been emotionally withdrawn from people for years. I had a deep rooted anger that affected others. Also, those in my family now know about my abortion and it has caused them pain and sorrow as well. My parents' never got to meet their first grandchild.

11. Based upon your experience, what would you tell a woman considering abortion?

You may think that having an abortion will fix a problem, but in reality, having one will unleash more problems than you could ever fathom. You will regret it. And there will be nothing you can do to take it back. Look at a picture of a fetus developing in the womb and you can clearly see that he/she is not a mass of tissue, but a tiny baby beginning his or her life. God gave women a natural inborn instinct to

love and protect our children and when you go against nature and actually kill your own child, you will find it extremely difficult to ever get over it. In fact without accepting God's forgiveness, I don't think it is possible.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is unfathomable to me that in a civilized society, we tolerate this procedure. It is not only murder, but the worst kind of murder -- to brutally take the life of an innocent, defenseless baby. Scientific fact proves that a fetus is a tiny human. Just as an acorn is a tiny oak. An acorn cannot grow into anything else, just as a fetus will only grow into a larger person. As soon as conception occurs, the baby has its own DNA. He/she is his/her own distinct person. He/she is not a part of the mother's body, but his/her own person. We should be protecting this person just as we protect every other citizen. By the time women realize they are pregnant, their baby has a heartbeat. We all have the legal right to LIFE, liberty and the pursuit of happiness. If some scientist claims we can't establish when exactly life begins, then shouldn't we err on the side of caution?

QUESTIONS

1. Where and when did your abortion occur?

Denver CO

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had no idea that it was a formed baby..I thought it was a blob of tissue and would later form in to a baby...very ignorant of the whole thing.

5. Were you adequately informed of the consequences of abortion?

Yes No

I cannot remember anyone talking with me about anything. they may have, but it has been so many years

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I am 67 now, this has been over 30 years ago. I think it may affect me more today than it did the first 20 years. I am heartbroken that I would do such a thing. If I had of known that it was a baby I have asked myself many times would I have done it. I don't think so. I see a child of this age and especially one that has a beautiful voice and I wonder if my child would have been singing for the Lord now, because the natural father had a wonderful voice. It breaks my heart and I have repented and I know I am forgiven, but it does not take the sorrow away.

10. How has your abortion affected others in your life?

I have pretty much kept it a secret all my life. Only told a few people...no one in my family

11. Based upon your experience, what would you tell a woman considering abortion?

That it is a real, living human being. That it is murder. That she will live the rest of her life regretting the decision. I would do everything I could to convince her to not do it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

When is murder legal? The court does not have a right to take the life of a child that cannot speak for itself. I see tiny babies go missing or abused and neglected and they make a big deal about that...and of course they should, but what is a few months.....0-9 months you are not important..the moment you are out of the womb..you become important...since when does where we "live" make a difference in how valuable our life is. The court has too much authority if they can decide on the value placed on a life. I wish I was better at expressing myself.

9. How has abortion affected you?

I have felt the shame of my decision for years. I have had trouble bonding with my female children, attempted suicide, drug abuse.

10. How has your abortion affected others in your life?

My children have suffered from not having a close relationship with their mother, my aborted child didn't get to live.

11. Based upon your experience, what would you tell a woman considering abortion?

It would be the beginning of a long, terrible road.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them to look into the eyes of the wounded men and women who have sacrificed their children and are not the same- will never be the same.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

Afterwards I was humiliated and was not able to have a healthy sexual relationship with my husband. To this day my husband is very patient with my inability to respond to him in a healthy way. So much regret and emotional pain for years afterward and even now filling out this information is not easy to do. Going back over the memories and the huge amount of regret can be overwhelming.

10. How has your abortion affected others in your life?

My husband has carried a lot of guilt for his part in the abortion. He does have to be patient regarding my emotional sensitivity regarding sex.

11. Based upon your experience, what would you tell a woman considering abortion?

It has the potential to ruin your future relationship with your husband. The guilt and regret can bring depression and emotional dysfunction. I would have only taken 9 months of my life to go through pregnancy and I could have given the baby up for adoption instead of realizing I killed my baby and never gave him a chance because of my fear of embarrassment.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

All the babies being aborted could be adopted by those who are unable to have children. Instead we kill the babies and the cost of adoption is astronomical. The waiting room was full the day I had my abortion, maybe as many as 10 girls all under 20 years of age. 10 babies that would be around 30 by now, 10 young men and women who could be contributing to society, paying taxes, supporting families and being part of lawyers, doctors, police or fire persons, sales clerk, dads and moms

Boyfriend

9. How has abortion affected you?

It hurt me so deeply that I clung even more emotionally to my boyfriend and went on to drinking a lot and got pregnant again and had another abortion in 1990. That boyfriend broke up with me and I continued to spiral down with drinking and promiscuity. A third boyfriend got me pregnant and I had a third abortion in 1991. I went on to struggle with years of depression and anxiety and phobias and severe remorse and guilt and sadness and suicidal thoughts. I was on anti-depressants for years. It has affected all of my relationships including my spouse and my children that I have now. It caused me to have trouble making decisions, trouble having any confidence in myself, and struggles with shame and ever feeling like a real woman ("real women don't kill their kids" would often go through my head). A woman's very nature is to give and nurture life. Taking the life of my three children went against my very nature as a woman and stripped me of the many life-giving qualities that are uniquely feminine. My heart has suffered being broken as I would experience the pregnancies of the children I have now and come to terms with the reality of what abortion did to my little ones that didn't make it. It has made

parenting more difficult as I have often felt I do not have a right to have the precious children I have been blessed with now.

10. How has your abortion affected others in your life?

I have been almost incapacitated in making decisions and taking good risks. My maturity and mental, social, and emotional growth have been stunted. My self-worth was severely affected.

11. Based upon your experience, what would you tell a woman considering abortion?

Life is precious and destroying it will in turn destroy you. Your heart will suffer, your mind will suffer, and in many cases your body may suffer, too. What may seem like the fixing of a "problem" will turn out to affect every area of your life and cause many problems and severely affect your relationships and your quality of life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is not only the taking of innocent human life, it destroys the life of those involved as well, particularly the mother and father. From my experience, the psychological and emotional damage that result to the mother after abortion make abortion dangerous for all people and all of society. It is a well-hidden mess that comes to the surface with far-reaching ramifications. Abortion teaches that human life is disposable. Abortion devalues every person and strips people of dignity and worth and therefore their rights. Abortion erodes the values that the constitution was created to protect and uphold.

2. How many weeks pregnant were you?

3

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I went to what I thought was a reputable ob-gyn clinic in West Palm Beach to learn about being pregnant and get a medical check up. My future husband brought me. After verification of my pregnancy, I was told I could have an abortion if I did not want to "continue the pregnancy". I was at a selfish age, so we opted for the abortion. I made an appointment and was given basic instructions. It was more painful than I could have ever imagined.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one counseled me about other options such as adoption or keeping the child. No one told me I could permanently hurt my body. No one told me about post abortion syndrome. No one told me I would cry all my life. No one told me I would miss my child. No one told me how much it would hurt. No one told me I was killing my child.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have grieved and cried all my life. It will never go away. My children found out (not from me), and they were very hurt. My oldest child was so angry and hurt that she ran away for a couple of days. It is a deep wound for which there is no healing. I cope with life because of the forgiveness of Jesus. I am looking forward to meeting my child in heaven.

10. How has your abortion affected others in your life?

As I said, my children were hurt badly. My husband and I were divorced after 20 years of marriage. He

used the abortion as a tool to further hurt me. We could not discuss the abortion - he would not talk about it, and I needed to talk to him about it. It hurt our marriage, though it was not the sole cause of the divorce.

11. Based upon your experience, what would you tell a woman considering abortion?

Consider all the facts. Consider the constitutional right to life we are all guaranteed. Consider the value of each life. Do not be selfish. Ask the child what his/her choice would be - to choose life or death. Consider the physical consequences. We do not have the right to do whatever we want with our own bodies if it directly affects the health and life of another person.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Look at the constitutional right to life that we are ALL guaranteed. What does a mother have to do to a zygote to turn it into a "life"? NOTHING. Just wait. So how can you say it is not a baby at conception? What if your mother had had an abortion? Are you a life? We are guaranteed the right to life and no court has the right to take it away.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Orange

My name is Spring Malone. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Orlando FL

04/29/2005

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction and curettage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed of the traumatic emotional, mental, and physical consequences of abortion. I was only told that I needed to take some medication for 3 weeks to make sure that I would be ok. I was not told that after my abortion I would experience such traumatic emotional problems that I dealt with for at least 2 years.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend at the time pressured me.

9. How has abortion affected you?

Abortion has affected me as a person for the rest of my life. I am not the same person I was before I had an abortion. There is a part of me that will always be missing. After my abortion, I became very depressed and suicidal. I was going through the motions of life, but not really living. I experienced a great deal of shame and guilt and constant sadness for 2 or 3 years. It caused me to have a hard time trusting in relationships. I became more distant towards some people for a while after the abortion. I hated myself and although I have since forgiven myself, there is a part of me that will always be missing.

10. How has your abortion affected others in your life?

Abortion caused my parents to lose the only real grandchild that they would have had so far. It caused much anger towards my ex-boyfriend and for not somehow stopping me from having the abortion even

though they knew nothing about it. It caused my family to experience the pain and grief that I experienced from losing a child...their grandchild and my brother's niece.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell a woman considering abortion to not have one. I would tell her that the effects of abortion are much deeper than she may realize and will last for the rest of her life. I would tell her that there is a beautiful child growing on the inside of her and that there are so many places to get help with unexpected pregnancies and people who can help with the adoption process if that is what she chooses. I would do anything I could to help her choose to NOT have an abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell a court that believes abortion should be legal that by allowing abortions to occur, they are legalizing the murder of thousands of un-born children each and every day in the United States alone. Abortion is wrong and needs to be stopped.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Escambia

My name is M P I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

El Paso TX

03/09/1976

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I knew that it would terminate my pregnancy - but back then it was very easy to rationalize that the baby was "only a blob of tissue." Wish there had been ultrasound then.

5. Were you adequately informed of the consequences of abortion?

Yes No

There were no consequences offered by Planned Parenthood. In fact, any other suggestion I made (i.e. adoption, raising the child myself, etc..) was greeted with scorn. Nope, no consequences of abortion, only of carrying the child to term and giving it life, which in their eyes would have been the real crime. Go figure.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has contributed to a host of emotional issues, instability/depression. I have a deep-seated anger at the system that allows people to profit financially from murder.

10. How has your abortion affected others in your life?

Aborting my first child set me up to be a less than consistent disciplinarian with my other children. Also think that I spoiled them in part to "make up" for the fact that I killed my first baby. I do not doubt that it has contributed to two failed marriages.

11. Based upon your experience, what would you tell a woman considering abortion?

First, I would tell her just what I have reported here, and pray with her in order to hear God's direction (which is never murder). Then, if she would allow me to, I would get her to a crisis pregnancy center so

that she could have the benefit of Godly counsel as well as an ultrasound.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder, and like the taking of any life, causes severe emotional trauma to the murderer. Also, having worked in surgery for 10 years I have personally seen perforated uteruses, incomplete evacuations, etc., all secondary to legal abortions performed by licensed abortionists, where the injured patients had to be brought to our local hospital to repair the damage done via supposedly "safe and legal" procedures. Abortion may be legal but it is neither risk-free nor healthy for the mother. It is my firm conviction that abortion is first and foremost an extremely lucrative industry, much like slavery. People may talk about the ethics of being "pro-choice," but when we are honest with ourselves, the right to choose is nothing more than legalized murder masquerading as "reproductive rights." The baby is still dead and its mother is left with lifelong emotional (and possibly physical) damage - if she survives the procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

I became more promiscuous, hated myself, started using more alcohol and drugs, contracted hiv virus, hated myself, hit my stomach to get a miscarriaged in a second pregnancy cause I didn't now who the father was and one of them was a heroin addict who abused me, my life was hell until I learn how to receive forgiveness from Jesuschrist, cause I accepted him in 1993 but lived in condemnation ignoring his forgiveness until 2005, when I had my beautiful girl and I learn the value of life, I would never hurt myself, my pets or anybody else cause life taught me a lesson in her beautiful face, now I decided to stay by myself and stop being in abusive relationships cause I don't want her to get hurt and I want to be mentally healthy for her. I love live and I just recorded my first christian album in 2009 this month, I feel free from guilt and pain and I can appreciate all the years that God put up with me cause he knew the cause of the mess and he knew how to ended it all. Your programs have helped me too, I used to watch you in CT and now I watch you from FL. God bless you all!!!!!!

My mother

9. How has abortion affected you?

Previously explained....

10. How has your abortion affected others in your life?

I didn't have the ability to love others, especially my mom and men.

11. Based upon your experience, what would you tell a woman considering abortion?

That they are about to make a great mistake and to consider what they have in their womb as a baby that will love them and be with them for life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That abortion is good for the economy, but bad for women's emotions and body.

HOW MY ABORTION AFFECTED ME

The State of FL

County of Hernando

My name is Sarah Eaton. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Clearwater FL

04/10/1981

2. How many weeks pregnant were you?

1

3. What type of abortion was performed?

1st trimester abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one explained to horror of the factory lineup of women, as the suctioning machine moves along from one table to the next, cutting and suctioning out your uterus and baby. The screams of over 30 others were drown out by my own. This was all done in a very modern professional looking abortion clinic.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not given any explanation about the physical or emotional consequences of an abortion. Physically my uterus was scared so severely that I am unable to conceive another child. I am 48 years old and have never been able to get pregnant, even with all the fertility treatments I have tried. Emotionally how does one ever get over killing their own baby.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

My abortion has caused great sorrow in my life. I often think about my child I murdered and wonder how old they would be now and what they would have done for the world.

10. How has your abortion affected others in your life?

I had my abortion to try and prevent myself and my family from shame and grief. I tried to hide the abortion, but after may years the horrible truth came out. That brought great sadness, and shame to my parents, especially my father. He was grief stricken to think that his little girl would kill her baby. This abortion hurt us so much more than if I would have had my baby. My husband and I have never been able to have a child.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT HAVE AN ABORTION IT IS MURDER. If you are unable to care for your child than give it a chance at life through adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

When the courts tell a young woman that something is legal it is telling them that it is alright. It is not alright. It hurts everyone involved, the mother, the father, their parents and most importantly the baby. Please give that child a right to life, make abortion illegal. I thank God that back in the early 60's when my sister, my brother and I were born that abortion was illegal, because we all 3 were adopted. Statistic say that today 1 out of every 3 babies from unplanned pregnancies are aborted. I wonder which one of us would have been aborted.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend

9. How has abortion affected you?

I wanted to take my life because I felt worthless and inadequate. What kind of person was I that I killed my own baby. I had constant nightmares for months.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them NOT to do it. The emotional scars are deep. I would tell them that God created that baby and who are we to take it away. Trust God because He will help you get through this unplanned pregnancy

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would ask them if they had an abortion and if anybody in their family has experienced it. Unless you have been there you cant understand. The pain is so deep, the shame is incredible plus you feel like the scum of the earth.

QUESTIONS

1. Where and when did your abortion occur?

manhattan NY

07/15/1998

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

I think vacuum under general anesthesia

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The medical staff did not informed me of the emotional, physical, psycological effects of abortion, I was given forms to sign with confusing information and the staff didnot explain the print;they just said sign on the bottom. No the actual procedure was not explain, neither the short or long term possible complications(physical), neither that I will go under general anesthesia,or that I have to take antibiotics post procedure. The information was superficial and general.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was just told it was a fast procedure, and that I just needed someone to take me home. They handed me antibiotics to take and directions and that I needed to come back for a Rhogam injection i belive it was within 2 weeks (I am Rh- my blood type is O-). I know understand that my blood can attack a baby if I get pregnat again. With my second abortion I took the next day pill which I was not explain what were side effects of taking this medication, I even lied and told them that I was within the time frame for the pill to be effective in order to be dispense to me. This time it took palce in Plan Parenthood in Yonkers, NY. I then believed an abortion took place after taking pill beause I bled perfuselly, I was in fear of bleeding to death. I was not informed of how the pill will work.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

a girlfriend who had a previous abortion

9. How has abortion affected you?

Physically, I know have three children, but every one of the births were high risk. I had bleeding after te births to the point that with the last abortion I was in intensive care for 7 days, (my hemoglobin level

was as low as 5.0, hypotensive, possible hysterectomy to remove uterus and stop bleeding) and had 4 blood transfusions. I was sent home anemic with a blood count of 7.5. Emotionally I wanted to have more children, but cannot because of high risk for bleeding I will probably die if become pregnant again. I can't never forget that I killed my own children and never gave them the right to live, unforgiveness, guilt, unbelief. I was depressed after the abortions and not until I was healed by God I was not at peace with what I had done.

10. How has your abortion affected others in your life?

My husband I would felt anger towards him for not stopping me from having abortions.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion was detrimental to me physically, psychological and emotional, and to those in my life (husband's guilt, lied to my mom). I wish I could take it all back and turn back the time I will have not done it. I will never forget for the rest of my life will ALWAYS remember the lives of my children I took away.

The State of FL

County of Broward

My name is Renee Pechonis. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

New York City NY

11//1971

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

I believe it was suction - it was a long time ago.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only 16 years old at the time. My mother took me to a clinic in NYC. We lived in Florida. I only remember someone speaking with me about whether or not I wanted to go ahead with the abortion, not the specific procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

Again, I don't remember the details of the conversation. I didn't receive adequate counseling about the consequences in years to come. I remember thinking that it was only a "blob of tissue" and not a baby yet. My parents were urging me to have the abortion and I was never given any other options (adoption, keeping the baby, etc.)

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother took me to NYC to have the procedure.

9. How has abortion affected you?

After that first abortion at the age of 16, I subsequently had 3 more after that. I was of the mind set that it wasn't actually a baby yet and felt like this was the only way out of the mess I had made of my life. I married the father of my first child (abortion) who was never responsible and had many problems. I'm not blaming him, but at the time, the abortions seemed like the "easy" way out of a bad situation. After giving my life to the Lord at the age of 30, I realized what a horrible mistake I had made and went through terrible episodes of depression. I went to Christian counseling and was able to accept the Lord's forgiveness for taking the lives of my precious babies, however, I will never stop regretting my decisions and missing the children I could have had.

10. How has your abortion affected others in your life?

I'm not aware that they have affected anyone else. I have 3 children and 4 grandchildren and none of my children know about the abortions. It's not that I wouldn't be honest with them and tell them, but I haven't felt the need to do so yet. My parents are deceased and we never spoke about the abortions.

11. Based upon your experience, what would you tell a woman considering abortion?

I would share with her the loss I have felt and that every situation, no matter how desperate it may seem, has another option. That the Lord will provide another way out - every child deserves a chance to live. Abortion is not an option - it is murder and the "blob" inside your womb is a precious baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I can see no reason to take the life of an unborn child. The world has fed us the lie that we are in charge of our lives and the lives of the unborn. God is the only one who should be able to decide whether or not we or our children deserve to live. The hurt we women have suffered is not necessary - it is the deceipt of Satan - he has blinded the eyes of the unbelievers!!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Hernando

My name is J M C I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

St Petersburg FL

//1983

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

All I remember is the sound of a vacuum...

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I only remember being told to "sign here" - Nothing was explained...

5. Were you adequately informed of the consequences of abortion?

Yes No

I truly don't remember what I was told 25 years ago...

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother

9. How has abortion affected you?

The pain is real ,but the healing is just as real. It has been 25 years since I was pregnant for one and only time in my life, and that pregnancy was ended by means of an abortion. I am unable to put into words the devastation it has caused in my life- The judgements passed about me - weighing on my already burdened heart -- But God! God has been so merciful, loving, and kind! Most of all forgiving and is showing me how to forgive others and myself.

10. How has your abortion affected others in your life?

Before my dad became a Catholic Christian - he was stone-walled and judgemental. His attitude toward me was hurtful and everything less of crucifixion. As years went on - my dad came to understand forgiveness and God's unconditional love that we are to portray as His children. For many years my mistake carried as a burden on my shoulders only to be weighted down by my dad's actions of cruel judgement. This banished my self-esteem and led to hopelessness. But time healed and God's grace came to my dad and to me. My dad and I are very close and are relationship is much better.

11. Based upon your experience, what would you tell a woman considering abortion?

Talk with the woman about the power of the Holy Spirit and that the birth of a baby is a Gift from God - Showing us God's unconditional love. I would tell her that God forgives her and that He loves her and then I would encourage her to get involved in a Bible study or somewhere that she can receive that healing. I let her know that it's nothing that she should be guilty or full of shame about. The birth of a child is God's (living) love. I heard of these books by R.T. Kendall called " Total Forgiveness" and " How to Forgive ourselves Totally". Maybe these resources will help others as well. I have learned that forgiveness is a lifestyle- a daily occurrence. Forgiveness also takes patience within yourself - sort of like self-discipline. I read and interact on web-blogs and recently read this - "Take up your cross-daily and follow Him! He is able to take what is in the dark and bring it into the light so healing and wholeness can take place. I encourage each one who reads this to know that God never gives up on us, even when feel like giving up. What we need to do is give it over to Him and He will make All Things new. He will take the brokenness in our lives and make us whole."

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Let them know how this is affecting our society as a whole - with hope that they are changed and are moved by the women's stories and to hear what it's really doing to our society. The moral risk of damaging the souls of our youth - who are the future of our country.

County of dade

My name is Jaime I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Chicago IL

09/27/2007

2. How many weeks pregnant were you?

15

3. What type of abortion was performed?

Vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never counseled before the abortion. I realized what I was doing but I never realized the effect that it would have on my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father

9. How has abortion affected you?

My abortion has affected me in many ways. After the abortion I got involved in having sex with numerous partners, drugs, alcohol to heal the pain. With the help of Pastor Ed Nichols from Our Saviours Lutheran Church in Plantation I was referred to Hope Woman's Center for the Forgive and Set Free Bible Study. Those three women saved my life. If I wouldn't have went to that study I probably wouldn't be here to share my testimony. I had several suicide attempts and was hospitalized for those. I knew I needed God back into my life but I was too ashamed of what I had done. The one thing that I had to really work on was that God just forgives us, we don't have to ask for his forgiveness. I only had my abortion a year and half ago and I feel like a new person. After my abortion I became a person that I am not proud of being. Many friendships got ruined and my relationship with the father has not been the same. I loved that man with all my heart and soul but killing our baby the relationship has died as well. From now on, I am focused on my abortion experience and I want to help other women that have been through this situation. I want women to realize that they are not alone. This is a serious disease and it needs to be heard.

10. How has your abortion affected others in your life?

I have lost several friends and have had horrible relationships since.

11. Based upon your experience, what would you tell a woman considering abortion?

To really think about it. If I knew what I knew now, I would have never had it done. Woman need to realize how much of an effect that something this traumatic could have on their lives.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe that if a woman is in a certain situation, such as rape then it is that woman's choice to be able to choose. I know people that have had numerous abortions and they probably will not stop having them.

husbands

9. How has abortion affected you?

I thought nothing of it until about 6 years ago after I became a Christian.....and the older I became, the more I felt that I was so selfish to do this. And, now I will be alone the rest of my life because I never had any children after my abortions.

10. How has your abortion affected others in your life?

n/a

11. Based upon your experience, what would you tell a woman considering abortion?

I would certainly tell them to really think twice about it. Even tho at the moment, it seems to be a impossible task to have a child given their particular situation, but, they will most likely regret it years from now.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It hurts everyone involved especially the helpless child.

The State of FL

County of Brevard

My name is Sharon May. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

New York NY

05//1972

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one counseled me to consider other options.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me that I might have regrets and emotional trauma later.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

That decision to have an abortion has affected me in diverse ways. For so long, it remained the one ugly skeleton that hid in my closet, my shameful secret. Always in the back of my mind, that fateful decision to end my own baby's life had haunted me in another way - it caused me to doubt myself with any critical decisions that I might face in the future. If I am ever faced with another personal dilemma, can I trust myself to take the high-road? To be selfless? To listen to God? Or would I again take the easy way out? Fear of collecting more skeletons always hung over my head.

10. How has your abortion affected others in your life?

My child lost its life. Besides that, my children were disappointed to discover what I had done. My mother only recently learned about it, she was shocked and hurt.

11. Based upon your experience, what would you tell a woman considering abortion?

Is there anything else you could do so you will have no regrets. Two wrongs do not make a right.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Just because you make something legal does not mean it is morally right -that is the reason the protest has never ended.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Miami-Dade

My name is Cheryl Carey. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Kendall FL

10/10/1985

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

Suction Curettage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told nothing, only to have \$300.00 when I come in. Even after being there, I was not told what to expect. This was something so invasive, I thought I should have been told the risk involved...something!

5. Were you adequately informed of the consequences of abortion?

Yes No

My best friend drove me and stayed with me to have the procedure. Several days before going, I told her I was pregnant and wanted to know what she thought. She said Cheryl, "the decision you make, no matter what it will be, you will have to live with for the rest of your life! No truer words were spoken. I had no idea that I would one day be on the verge of a nervous breakdown...suffering from PASS. If only I knew then what I know now. But hind sight is 20/20 isn't it!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

I did this to myself! Family disappointment

9. How has abortion affected you?

After that abortion, I had problems making decisions. Not knowing if the decision I made was the right one. It caused me to stop and evaluate before making my choice. No matter how minute it was. Not that that was a bad thing. My abortion turned me into a very angry and bitter person for a while. More angry with those whom we hold in high esteem, mainly doctors who vow to "First do no harm". My abortion has caused me great sorrow. After the abortion I later had a miscarriage. Today I am 52 and without a child(ren). Part of my email address is 6of11. I can only look at my siblings children and grandchildren and wonder what 'shoulda', 'woulda' or 'coulda' been. The abortion I had some twenty three years ago has produced a person within me I never knew existed. Today I stand and speak for

those who cannot speak for themselves. I participate in peaceful and sometimes not so peaceful demonstrations in front of abortion clinics. I've walked and marched for Life. I no longer live, but it is Christ Jesus who lives inside of me to speak out! And as long as He gives me breath in this body, I will help fight this fight!

10. How has your abortion affected others in your life?

I make it a point to share my abortion experience with my all my family members. I want them to know how it affected me, and I want them to know that they do have other choices. The time for generational secrets are over with! We must protect our families with the truth out loud!

11. Based upon your experience, what would you tell a woman considering abortion?

First I would ask her if indeed she was pregnant and to confirm it with an ultrasound. If she is pregnant and still wants an abortion, I'd then ask her what type of abortion would she be having. Because she really knows nothing about the different procedures, this opens the door for me to share with her what they are and to share what the Bible says (if she's a Christ Follower) or if she's not a Christ follower, I then make it very personal by sharing what could possibly happen to HER. I take the focus off of the baby and make it all about HER and the possible consequences of that one action for the rest of her life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would first tell them that abortion has nothing to do with a woman's "Reproductive Rights", so it should NOT be legal! It is my opinion that the reason abortions are solicited is for irresponsibility. No one wants to be responsible for their actions any longer. So who pays for this lack of responsibility...the "weak one", the one that can't speak for him or herself! What if we turned the table and punished the individual for having sex for being a minor or having sex outside of marriage. What would that punishment look like? I guess the majority of society would be in big trouble wouldn't they. I know this sounds asinine, but look how quick we are to punish an individual for hurting an innocent animal. Are animals elevated higher than humans? I would then ask the court, if we had not aborted over 45 million American citizens, would our country be in the shape it is in today. Our financial system is dying! The strong is getting more while the "weak-ones" fade. Would we have more than enough troops to send to foreign soil to help those countries that are weak and need our assistance? Will I be able to retire at a decent age and collect my social security? Probably not! I'm sure you the courts can go on and on with the condition we all live because of abortions. Abortion has destroyed the family and now we're seeing how it is destroying this country. One doesn't have to be a the sharpest pencil in the box to see why abortion should no longer be legal in this country!

3. What type of abortion was performed?

It was a D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Although I had mine done at the abortion center that my mother and boyfriend owned, I did not really know what was happening to my body nor did I know how my baby look at that time.

5. Were you adequately informed of the consequences of abortion?

Yes No

No, We did not focus on consequences, we just focused on the immidate resolve.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend did. Also the Doctor who was employed

9. How has abortion affected you?

It change my Life forever. I will never be the same. Because of the Forgiveness and set Free bible study. I am OK today to help other women. Today I provided a safe and caring place for women who are seeking abortion and I provided them with the oppertunity to make informed decisions and a real option, and the truth about abortion.

10. How has your abortion affected others in your life?

I am an example that you can get healed and be used by God after abortion. I was able to surrender my pain to the Lord, and I am now impacting hundreds of women and families by using my story and the pain of abortion to educated and help women at their time of need.

11. Based upon your experience, what would you tell a woman considering abortion?

I would let them that Abortion is NEVER the answer. I would tell them that they are mothers from the moment that they find out that they are pregnant and that they will have to live with there decision for

the rest of there life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that at one time in my life I thought that if it was leagal it was OK, but today, after experencing the effects of abortion I know that the consequences are forever and theses women will have to deal with that pain that maybe devistaing and unless she gets the right type of counseling, she maybe crippled with the emotional,physcial and spiritual pain for the rest of her life.

9. How has abortion affected you?

I have struggled with depression, anxiety, panic attacks, thoughts of suicide, mood swings, alcohol abuse. I have regretted my abortion and have experienced overwhelming grief and shame.

10. How has your abortion affected others in your life?

I have been overprotective of my living child. I have trouble trusting people in relationships.

11. Based upon your experience, what would you tell a woman considering abortion?

To consider all the options. I have never regretted being a mother but have always regretted my abortion. The other options give life and abortion is death. If you escape all the physical problems you will still more than likely suffer emotional problems.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Look at fetal development. It is without a doubt a baby. I am also yet to meet a women that did not regret her abortion or is suffering from the choice she made to have one. Additionally it promotes social irresponsibility.

When I realized that an emptiness was inside.It was a death but a death that has no end to grieving.Like I pulled out a piece of myself.My mind even wondered if it really happen-no body was shown.I have had major depression episodes.But, for jesus who forgave me I wouldn't want to live.

10. How has your abortion affected others in your life?

Yes, it hard for family and friends to swallow the reality of what I inflicted on my body and a life that was to bless all od us.

11. Based upon your experience, what would you tell a woman considering abortion?

Don,t do it. I have told a few women they would live to regret the abortion- not the birth of their baby. I have witness the joy of them embracing their pregnancy.It hurts me to this day that no one told me not to do it.My friends took me there.Said it would be alright.where are they now-when I cry myself to sleep.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I would tell them that God will judge our good deeds. That He loves life and the defender of life will prosper. I would tell them to repent for agreement to death laws because the world will be crazy and immoral and families suffer and money misused will attract severe consequences. Darkness or Light. 8. Did anyone pressure you into having an abortion?

Yes No

the boyfriend

9. How has abortion affected you?

The abortion was not mine but my daughters--i wasn't told until several years later she came to me in tears confessing what she had done. She seems to lead a rather promiscuous life and i think the abortion has something to do with this lifestyle.

10. How has your abortion affected others in your life?

I have lately truly begun to grieve the loss of this child i never was given the opportunity to know and love, On occasion I see the "father" of this lost child and know he has other children and would so like to ask him if he ever thought of killing his children--how does he think I feel?

11. Based upon your experience, what would you tell a woman considering abortion?

How can you possibly forget the life of a child? wanted by so many others? this is a human life--

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Pinellas

My name is E W I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Richmond VA

08//1976

2. How many weeks pregnant were you?

3

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was adamant in having it, but my doctor did not tell me the psychological ramifications that continue today, nearly 33 years later. I'm not even sure he knew, at least then.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I immediately was sorrowful after the procedure, and am still very ashamed of having had an abortion. No one in my family knows I had one, and this is the first time I've spoken of having had one.

10. How has your abortion affected others in your life?

I cannot tell my other children they would've had another sibling. I'm very much ashamed of what I did. They know during my first pregnancy the baby and I nearly died, which was my justification for the abortion. I was very frightened to have another child. I cannot say strongly enough that there is NO justification for having an abortion. I feel a sense of dishonesty not to be able to tell my children I had an abortion, but too much shame to be honest with them. I had two subsequent births.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't. If you have a conscience, you will never stop grieving for the child nor expunge the shame, even if you were afraid to have the birth...for any reason.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Children are a blessing to any family. When I was young, unmarried mothers gave the babies up for adoption. Now, families who can't have children find it extremely difficult to adopt children in this country. Murdering babies is immoral and weighs psychologically on the mother (and father) for years afterward. Even though I was only 3 weeks pregnant at the time, I still grieve for the baby that was never to be.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Orange

My name is Catherine I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Orlando FL

01/20/1979

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

dilation/suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Was told it was a blob of tissue; no mention of any form or beating heart.

5. Were you adequately informed of the consequences of abortion?

Yes No

Was not told anything about it good or bad.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I had 3 abortions and now have 3 beautiful children. I always remember those three babies would have been with me and even if I did not have any money, they would have been worth more than any amount of money. I feel like God only gave me 3 children because I took 3 from Him and it always reminds me of the 3 missing when I think of my 3 children.

10. How has your abortion affected others in your life?

I think it has negatively affected me mentally and that affected others around me negatively. Plus when my husband and I wanted more children, I could no longer get pregnant, reminding me of the babies I killed.

11. Based upon your experience, what would you tell a woman considering abortion?

Economics change, circumstances change - death is final. If you give that child life, someone will love it and you will not be taking the role reserved for God by sentencing an innocent soul to death for your convenience. I would NEVER do it if I could go back to my young life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is the murder of an innocent human life and it is impossible to rationalize that fact away. Every time I see a baby or small child, I know that we are killing millions of these worldwide every day and it is not just tissue that is being destroyed - it is humankind.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Martin

My name is Lucinda Fasig. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Flint MI

04//1982

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction of some sort?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I say "no" because at seventeen, being informed doesn't mean you understand. It's not as simple as if telling someone that if they touch fire they will get burnt, basic "cause and effect." It's far more complex in the procedure and the outcome. Either could vary from person to person. For example long story short, a motorcycle ride is not activity to a seventeen year old until you get off and everything cramps up, you start hemmoraging and a few days of rocking on your hands and knees from the pain with heavy bleeding then you're told you could have bled to death. The nature of that experience I began to understand.

5. Were you adequately informed of the consequences of abortion?

Yes No

To begin with, one must have the personal experience and even so, they don't have the ability to know how exactly each individual will psychologically process that experience. Not only that, but time and circumstances bring about change to the consequences of an experience. Therefore, it is not possible to "adequately inform of the consequences of abortion."

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my boyfriend, whom later became my husband

9. How has abortion affected you?

Looking at my children and their children is a constant reminder of a life that is missing from ours.

10. How has your abortion affected others in your life?

My parents did find out and were extemely hurt and disappointed. They had wished that I came to them

and allow them the option to raise the baby.

11. Based upon your experience, what would you tell a woman considering abortion?

I'm not the judge nor the jury for whatever it is they choose to do, and I'm certainly thankful that I am not. However, options are out there and even those you think don't exist are just a matter of believing in them.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Consider the word "abortion." It in itself makes light of the action in which it represents. Replace the medical term for a street term that calls it what it is i.e. "fetus flushing," "baby banishing" or something like that. Those are words that even a teenager could relate to the nature of.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Duval

My name is Lisa I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Miami FL

06//1981

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I never asked what the procedure was. I was 18 years old and just did not want to be there, but felt I had no choice. I was a Christian at the time of my abortion so I feel my choice of this sin was doubly traumatic. I knew I was taking a life.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told it was just tissue. "At this stage of the pregnancy there is no life." It was what I wanted to hear, but I knew differently.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

The child was mine and my husband's, we were not married at the time of the pregnancy. He joined the military shortly after and left the state. We stayed in touch but were not together. I became promiscuous and began to drink. So much so that it concerned my mother enough for her to tell me how destructive I was being to myself. I stopped the drinking but remained promiscuous. I lost touch with friends whom I had confided in about the abortion because I did not want to be around anyone who knew what I had done. I think about the abortion EVERY DAY. When I think long on it, I can still feel the suction in my abdomen after 29 years. We have two grown children and at times when I look at them, I wonder who this child would have been. What would he/she have looked like, chosen to do with their life. I know I will have to face this child in heaven and although I look forward to heaven I have a sense of dread at facing my child at that time.

10. How has your abortion affected others in your life?

My mother was devastated when she found out. She was hurt that I had not come to her for help. As far as my husband is concerned, it never happened. We do not discuss it.

11. Based upon your experience, what would you tell a woman considering abortion?

I would advise them not to have the abortion. I would let them know what affect it has had on my life...the physical and emotional pain. I would advise them to either keep the baby or put he/she up for adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is not a painless procedure. It leaves emotional and physical scars for the rest of that woman's life. I lost a part of life that I can never get back. I think about what I did to myself, family and unborn child EVERY DAY.

QUESTIONS

1. Where and when did your abortion occur?

Miami FL

//1985

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Don't understand this question, it was under anesthesia if that is the answer to this

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Did not know at the time of how a fetus is already fully formed at this time frame, did not know how my life, mind, spiritual self would suffer after this and how I would never have any children after it. Did not think about my future, was just concerned about the issues at hand at the time only, I was very immature about the whole thing.

5. Were you adequately informed of the consequences of abortion?

Yes No

The question put to me was did I want to do it or not. Period. Point blank, it was only my decision and did I have one.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Guilt, no children after that and now in seeing other family members with their kids, friends, and I am childless, facing old age with no grandchildren, no offspring to take care of me, and already ill and not too mobile, can only depend on my husband who also is getting into old age and he cannot move or be physically active as he used to be.

10. How has your abortion affected others in your life?

Don't know have no others who have had abortions or have confessed to me they have. So do not know.

11. Based upon your experience, what would you tell a woman considering abortion?

To think of her future, to think that there are other alternatives to save that life in her body from death, that although she does not feel that life is anything at the time, maybe after bearing that child her mind

would change.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

To consult the ultimate court-law-judge's word, the bible. God does not make any mistakes and He does not lie either.

HOW MY ABORTION AFFECTED ME

The State of FL

County of Dade

My name is Kathleen Weissinger. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Miami FL

10//1976

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The procedure was not explained to me. Fetal development was not explained to me. I was not told of physical or emotional consequences.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea that there could be immediate or long term physical complications from the procedure. No one mentioned emotional complications.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

After the abortion the relationship between my husband and myself began to fall apart. I remember feeling something was wrong immediately after the abortion - as if a part of me was missing and I felt empty inside. I buried those feelings immediately and acted as if everything was fine. I never wanted anyone to know that I had an abortion.

10. How has your abortion affected others in your life?

The abortion caused me to withdraw from my family because I was always afraid someone would find out I had an abortion. After I reconciled my abortion, I was able to eventually talk to my family about the abortion. We all know that abortion is taking the life of a child.

11. Based upon your experience, what would you tell a woman considering abortion?

Go to a Crisis Pregnancy Center where you will receive confidential counseling. People there actually care about YOU and your future. They will counsel you on fetal development, post abortion syndrome,

adoption, abortion procedures and complications and also provide you with emotional support and material assistance. Please DO NOT go to Planned Parenthood!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is the killing of an innocent human being. A mother is a mother from the moment of conception and from that moment a bond exists between mother and child (even if we do not acknowledge the child). Women have abortions because they are very emotional at the time, confused and scared. Many are pressured into abortion from their boyfriend, husband, family and sometimes well meaning friends. We live with the death of that child for the rest of our lives and it affects us physically, emotionally, spiritually, mentally and socially.

HOW MY ABORTION AFFECTED ME

The State of FL

County of Pinellas

My name is M A I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

St. Petersburg FL

//1995

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not informed of the pain it would inflict on me physically or on the fetus. After the procedure was performed I was told to get up even though I felt very weak and with pain. The attendant didn't want to help me even though I pleaded with her. She said it was a busy day and they had to rush everybody.

5. Were you adequately informed of the consequences of abortion?

Yes No

They never told me about the physical or psychological consequences of abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Very much. I regret it every day for having done it. I did it because I was having problems in my marriage and I thought it would be difficult to raise another child if my husband and I got a divorce. If only I had given more time to think about it, maybe a waiting time and had got past the anxiety I was feeling at that time, I believe I would have not done the abortion and my child would be here today. By the way, my husband and I are still married. We worked out our differences and are happy now. That child paid a high price for my senseless and hasty decision.

10. How has your abortion affected others in your life?

My only child was deprived of a sibling, my parents of another grandchild and my husband of another child and I have to live everyday with the guilt of having caused that.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T MAKE A HASTY DECISION!! Don't let your momentary emotions and situation dictate your

actions. Get all the information first about the consequences of abortion. Give yourself time before you make such a drastic decision. Seek help from your pastor, family and friends and mostly God!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

By legalizing abortion, the Courts are sending a message that is dangerous and misleading. Women perceive it as being a harmless thing. They think: "if it is legal, it must be OK!" So they don't consider carefully before doing the procedure because they believe the State and the Courts already did all the consideration on their behalf. They do not realize the physical, psychological and spiritual consequences and ramifications of their act, only to find out later when they cannot go back and undo it.

HOW MY ABORTION AFFECTED ME

The State of FL

County of Duval

My name is Kristi . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Jacksonville FL

02/04/2000

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

I am not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

There was no explanation of what happened inside of me. They explained how I would feel afterwards, how to care for myself afterwards, etc.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea the psychological impact and permanent regret I would have. I did not know the post-abortion depression rate.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I went through denial during which time I was doing everything I could to have a good time and find happiness, but the reality was my life was spiraling down quickly. I finally reached a point of depression where I did not want to do anything at all, but sleep. Even then, I did not realize the connection to the abortion. I guess I had just assumed the shame and guilt were permanent in my life, and there had to be something else wrong. I finally ended up finding a church, getting right with God, going through an awesome Bible study that walked me through healing from the abortion and helped me come to grips with taking the life of my unborn child. Looking back, 90% of the terribly wrong things I did in my life were in that 2 year period between having the abortion and getting right with the Lord. What's the consequence of an abortion? Other than it being murder....the devil gets a huge foothold into your life and will devour you. I will always wonder who my baby would have been.

10. How has your abortion affected others in your life?

Most people in my life aren't aware of what I did. When I was engaged a few years ago, I felt led to tell my now husband before we got married. His concern was how the emotional/psychological impact on me would affect him as my husband, and our future children. It is yet to be seen. Our son is 15 months old.

11. Based upon your experience, what would you tell a woman considering abortion?

God knits us together in our mother's womb. You were a person the moment your parents conceived you, and so is the baby in your stomach. It IS a big deal; don't kid yourself that it's not. You will regret it for the rest of your life. Jesus takes the shame for you, but it's a LONG process for you to release it to Him.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If a baby reacts when the poison reaches them in the uterus, how can scientists say that they do not feel? A woman that delivers a child and puts the baby in a dumpster is a criminal, but if a doctor helps to kill the child before birth they are exercising their right to choice. Does anyone have the "right" to choose to murder?

It affected me emotionally, I always wonder what the child would have looked like - what he/she might have done with their lives. Because of the abortion, I was no longer able to have children,

10. How has your abortion affected others in your life?

It has caused me to be angry. I believe that my emotional problems have stemmed from having the abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

Get all the information and be prepared to accept any consequences that you suffer.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That is a child inside of you - and a woman's health is affected if an abortion is performed. The best alternative is adoption.
