Please don't! That baby is a beautiful life created by God and I know it seems impossible but you can do it. There are many couples who can not have children that would love and take care of your baby. Give this child a chance to live and to have life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is wrong, the fetus is alive. Her heart is beating, she has her own unique set of fingerprints, she is alive. The Abortion industry is fueled not by women's rights but by the mighty dollar. You can not put a price on the life of a child.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OR

County of Multnomah

My name is Barbara I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Portland OR

//1978

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only asked if I was sure I wanted to go through with the abortion. Once I confirmed that I was sure, the procedures began.

5. Were you adequately informed of the consequences of abortion?

Yes No

as far as I knew at the time, there were no consequences. no consequences were ever told to me by anyone at the abortion clinic.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Regret, depression, self hatred. I was not raised in a Christian environment. Coming to Christ as an adult, I have gone through Celebrate Recovery to examine why I chose abortion. Through that I understand that my ignorance and the abortion clinic's lack of concern for the unborn babies (I've had 3 abortions) made my choice acceptable, at the time.

10. How has your abortion affected others in your life?

Until recently, nobody else knew about all 3 abortions. Those I've told are Christian and have shown me nothing but compassion. Most of them have taken part in at least 1 abortion also. Those who have never had or participated in an abortion decision can't imagine the pain we go through.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them that as a teenager I made the decision to abort 3 babies. I would explain the development their baby is in at that time, information that may have changed my decisions. Most importantly, I'd listen to them, hear what's taken them to this point and then do my best, with Christ's

guidance, to change their mind about aborting their baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe that using common sense and science is what packs the most punch in a court room. We have a long way to go before pro-lifers, can change pro-choicer minds. We haven't been effective in convincing them that a fetus is alive. Get that on the books as a fact, a point to argue, or pro-choice and liberal judges will win. When words like unborn and fetus are used instead of baby and infant life, the battle is lost. Use graphic video, SHOW a partial birth abortion! Don't hide the ugly truths. If I had seen an abortion, my decisions wouldn't have been hard, I would have had that first baby and if I couldn't support it I would have given it up for adoption, an option that wasn't impressed upon me! If I'd had to have the first baby and give it up for adoption, I guarantee that I wouldn't have done that twice. Instead of killing the baby, why don't we make the parents responsible for their actions? Roe vs Wade was passed because we were deep into the "me" generation, and I'm a product of that. I wasn't held responsible for having sex. There are so many loving couples who can't have their own babies, and so many women who think nothing of getting pregnant, because they know they can "get rid of it". Until America can turn around and go back to being ethical, responsible human beings, we will continue being stuck in the "if it feels good, do it" mentality. Let's pass laws that make people responsible, then there won't be anything to argue over.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TN

County of Washington

My name is Peggy English. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Denver TN

09/25/1977

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction curetage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was just told that it would terminate the preganancy.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was only told that it would terminate the pregnancy.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

husband..and it was his baby.

9. How has abortion affected you?

Because of the damage done to my uterus, I had to have a hysterectomy 3 months later. I was unable to trust my husband anymore. We divorced later. Because of the shame and guilt of the abortion I suffered with depression and became a drug abuser to "self-medicate". I also became sexually promiscuous. Morals no longer mattered...after all, I'd allowed my child to be killed. A truly good parent will defend her children, not kill them. Thoughts of drug overdosed suicide were frequent.

10. How has your abortion affected others in your life?

Fortunately I had had 2 sons prior to the abortion. But, at only 22 I lost my uterus because of the abortion, and was,therefore, unable to bear any more children. I lied about it, rationalized and justified it for years. My sons were raised with those lies and are consequently very selfish, self-serving extremely liberal aetheists...much to my regret. I think that their ability to trust anyone was affected also. After all, their mom allowed their sibling to be killed, and then lied about it. I regret my abortion with all of my heart, and I'll regret it forever.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion not only kills your baby, it will hurt you forever. YOU will grieve the loss of that new life growing in you for the rest of your life. The consequences of an abortion will hurt you physically, mentally and spiritually. It will not solve your "problems", it will create new ones. Ask to see an ultrasound of your baby. You will see that it isn't just a blob of tissue, but a completely separate human life that is growing within you. No matter the circumstances of conception, there is nothing that justifies the killing of the most innocent and defenceless of human beings.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is the ultimate child abuse. If the separate human life growing within a woman is not held to be sacred, then no other defense of human life matters. Why object to war, social injustice, racism, etc. if the most precious, innocent and sacred of human lives can be legally killed and disposed of? Children used to be thought of as our most precious natural resource. Our leaders are supposed to serve the people, not kill us off by their court rulings and legislation.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TN

County of Madison

My name is Julie Shockley. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Las Vegas NV

05/23/1979

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

Vacuum aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I entered the clinic not wanting the abortion, thinking I was too far along for a successful abortion to be performed, and this would give me an excuse to get out of it (mother pushed it on me)

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea that my history of physical trauma (motor vehicle accident), childhood sexual abuse, etc., would combine with this forced abortion and result in PTSD. I was also exposed to the remains of my child after the procedure, resulting in severe acute trauma, followed by symptoms of chronic PTSD that have worsened with each passing day.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother, the baby's father, our family physician

9. How has abortion affected you?

It has defined me - I spent my adult life simultaneously trying to repress the memory of having killed my own child and punishing myself for the act: cutting, alcohol abuse, failed marriages, irresponsible sexual behavior, anger, financial failure, failure to thrive as expected (I was a gifted child expected to be highly successful), and a childless life because I could not face having children.

10. How has your abortion affected others in your life?

I was emotionally unavailable to my mother when she was diagnosed with lung cancer, and could not spend the last three weeks of her life with her as a result; this stemmed from the abortion she forced on me - I had helped her kill, and could not help her die/kill again. My husband has had to deal with my

immaturity, repressed rage, and alcoholism.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion is medical malpractice; research into its negative effects has been poor at best; if she has a history of trauma, I would tell her of the PTSD risk, and that she should not choose to traumatize herself; all women abort live children, because they are psychologically killing the end result: deciding later that the unborn child was not a viable, living creature for any reason is just rationalization, and a lie that will fall apart the moment she thinks about having a wanted child. And, finally, that the negative consequences of abortion may not show for years, even decades, and no one else will tell them about these risks. We are being told this is a health issue - well, then, research it, because there are a lot of us who are made unhealthy by it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Listen to the arguments for abortion, as the truth is there in the inconsistencies: "I wouldn't personally abort, but some women should not be mothers," a denial of the freedom of anyone to reproduce at will. "Women who are too poor, or addicted to drugs, or [whatever] should have abortions," a discriminatory practice that has echos in forced abortions in China and other nations where oppression is the rule. Listen to the implied coercion which defies freedom. Define when human life begins: the only logical medical conclusion is at conception (the unborn child can demonstrate learning in the womb, and isn't that a quality ascribed to independent living beings?)

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TN

County of Sevier

My name is Becky Wehrle. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Cookeville TN

10/23/1974

2. How many weeks pregnant were you?

18

3. What type of abortion was performed?

saline abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I knew an abortion would terminate my pregnancy. It was what I "wanted" to do. No one ever ever spoke to me about alternatives, or to my mother who also became involved. My mother was all for it, but I still needed information to make a more informed choice. I would never have gone through with it, if I had only known then the emotional scars that I would carry with me to my grave. Too many women like me sit silent in our shame and guilt and dont speak out to help others who are now facing what we faced. I do not rejoice in promiscuity, but I am so thankful every time I see a young woman have the courage to have her child now days and covet her good decision as opposed to the road I took. I cannot imagine the number of women now who have not accepted the forgiveness and grace of Jesus (not that they do not know Jesus, but because their shame is so great for killing their own child) that live in the throws of depression, alcoholism and drug addiction over that single decision years ago. If only someone had told me ...

5. Were you adequately informed of the consequences of abortion?

Yes No

As above. The only information I received was what a positive and simple thing abortion is. I got to watch a nice little film, and speak with a very polite pro abortion counselor.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Mother, on how bad this would look for family

9. How has abortion affected you?

I dont think about it every day any more, but I did for years. It has forced me into keeping secrets from my own grown children who have no knowledge of my abortion. I know they would love me anyway, but there is always that nagging doubt that they may not look at me the same. I have not problem admitting any other mistakes or sins I have made, but keep this one neatly tucked away. I fear one day if I have dementia, I will let the secret out. I have grown children. I believe children are the most precious gift from God. I have denied myself this gift and will always grieve for my child. Even now, I think about trying to get my medical records to see (due to mid term abortion) if my child was a boy or girl. The ONLY consolation at all that I have is that my baby is with Jesus. I will always be affected. I will never "get over" this. It is not something counseling will "fix". Ironically, I am a mental health professional. I am very well adjusted, thanks to the love of Jesus, but this is not something you just forget.

10. How has your abortion affected others in your life?

I met and married my spouse of 31 years, two years after my abortion. I kept it secret until after we were married over a year. I could not keep it inside any longer. He felt very deceived about the withholding of information which affected trust in the marriage. It is a subject I try to keep quiet. Other than my best girlfriend who know at the time that I was pregnant, and my husband, no one else knows.

11. Based upon your experience, what would you tell a woman considering abortion?

Dear friend, there are many options which you cannot see right now while your physical eyes, and the eyes of your heart are blinded with fear. You will hear much propaganda. There are so many resources available to you for you to know exactly what you are considering. Also, if you are a christian, there are so many directives that God has given about life that you need to consider. You must pray, and I can help you seek out any help or assistance and information you may need. Please let me help you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I am a nurse. First of all, there is no medical reason whatsoever for Partial birth abortion. Life starts at conception. Abortion clinics should be shut down. Women should know what alternatives are available as much as they know that abortion is available. Abortion is equal to murder. You are crippling women who have abortions to mental anguish and illness. Please make all abortion illegal.

Husband, mother, sister

9. How has abortion affected you?

Divorced. My mother and I do not have a real relationship.

10. How has your abortion affected others in your life?

Ex husband regrets the choice that was made. Mother still believes in abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

You will live with the choice the rest of your life. Death is not the solution to the problems you are having.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Choose life not Death.

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was mis-informed. I was lead to believe that at that point in the pregnancy, my baby was not formed. I learned later what stage I was actually at. I do believe that life begins at conception.

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't think that the emotional pain for years to come can be explained.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Having to live with the fact that I took my own child's life and knowing what I missed out on has been horrible.

10. How has your abortion affected others in your life?

My husband and I both have blamed ourselves, wishing we could change what happened.

11. Based upon your experience, what would you tell a woman considering abortion?

Give the child up for adoption. We said that we couldn't afford a child; we were already struggling. We were being very selfish. A child is a gift from God that adds so much to a life. If you can't keep it, give it

to someone else to love. Someone who can't have children.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is not anyone's RIGHT to take another life. If it is, then murder would be legal. If the baby were left in the womb untouched, it would form and grow into a full size baby. Any drastic measure to destroy that seed is murder.

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

I still think of that child 20 years later. I have a cousin about the same age that my child would be. I constantly think of how my child would be going through the same stages of life as this cousin. I really went into a tail spin after the abortion (I was 18). I started drinking heavily and became very permissious trying to shove the pain deeper inside so I didn't have to deal with it. I couldn't share with anyone for a very long time about the incident. I built a huge wall of around me so no one would know how bad I was hurting. I was always around someone, never alone by myself and became dependant on others to keep me company yet I still felt so lonely. I thank God for His grace and forgiveness. Now I know I don't have to tormented by that awful decision but I can use it to help others through this pain or prevent them from it from what I experienced.

10. How has your abortion affected others in your life?

The only ones close to me that know are a couple family members but I do share with others to try to prevent them from making the same mistake.

11. Based upon your experience, what would you tell a woman considering abortion?

Please do not go through with it. It is a miserable experience from the time you get on the table until the end of time. It isn't a quick fix, it is a lifetime decision. I would recommend giving your child up for adoption to a couple who so desperately are wanting a child to love. That is TRUE LOVE!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say to them to make a woman/girl sit through a series of videos showing stages of development of pregnancy and they must have an ultrasound before going through with it. They need a visual aid to see that this is a real life that they are dealing with and it is a part of them too. Maybe they should listen to different sides of story too - pro-life & pro-choice. The ones who gave me counsel were only the ones for abortion, I didn't get to hear the stories of how miserable this makes people in the long run.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TN

County of Rutherford

My name is M R I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Nashville TN

04/01/1992

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No, the physician was not interested in educating me on the nature, or the after effects of abortion and what it does. So he did not give me adequate information.

5. Were you adequately informed of the consequences of abortion?

Yes No

NO. I was not adequately informed of the consequences. I learned of the consequences years later.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

There are no words to describe the intense rapture of emotional, mental and physical suffering that would consume me. For me the residuals of abortion is overwhelming , irreversible, and unpredictable. An empty hurt that affected me for many years of my life.

10. How has your abortion affected others in your life?

My experience with abortion deleted many dynamics of my relationship with my husband.

11. Based upon your experience, what would you tell a woman considering abortion?

Based on my experience with the "Legalized form of Suicide", the courts define as "Abortion" instantaneously left me mentally & physically devastated. As the "Post Abortion Stress Syndrome" took over my life, it was common for me to feel miserable, despondent, gloomy and hopeless. Morbid thoughts and vile nightmares plagued my psyche which triggered anxiety and high blood pressure. I felt unworthy , invalid, and undeserving with disturbing thoughts of demolition to myself. Coming to terms with the annihilation of my baby and my families future is a healing that takes place in your soul. A

massacre of ME, a very important part of my life. A participant to a holocaust; a slaughter of my grandchildren; an extermination of my great grandchildren; genocide of my great great great great great great great grandchildren. Years after the abortion, I had a hunger for healing and self preservation. I learned of Rachel's Vineyard and Post Abortion Stress Syndrome and it changed my life . No woman deserves being left unsound and burdened with the anguish and dispair that abortion brings. Based on my experience with the "Legalized form of Suicide", the courts define as "Abortion" instantaneously left me mentally & physically devastated.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Any court that believe abortion should be legal should guarantee insurance companies will be held liable for the damage it does to the HUMANS who SURVIVE. State disability and rehabilitation programs should be available to women , like myself, who suffer from post abortion stress syndrome and other medical issues brought on by the experience of abortion. Health education should be top priority for all ages in our society in order to maintain human preservation. The court is made up of Adults, who were once children, who were once infants, who were once embryo's who were protected before they grew into children, who grew into upstanding citizens of the judicial system which is a vivid description of evolution and maintaining the opportunity to exist.If the parents of all of the Humans that collectively make up the court system were aborted, the court system would not exist today. Abortion does not allow the future to evolve.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TN

County of Sumner

My name is Patricia A Thomas. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Scotia NY

09//1971

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed of short term or long term effects. I was left to hemorrhage in my dorm room without help.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend, directly, my father, indirectly

9. How has abortion affected you?

I had 3 abortions. I can't begin to tell you how much my heart grieves for these babies. I've lost 3 branches of my family tree, 3 children, and who knows how many grandchildren. I am ashamed before God, as none of exist without Him. The memories are still painful. The loss is irreplaceable. I've spent years in depression. You can't erase something this bad. I love little babies, and felt forced to do something that today, would be abhorrent to me. And, now I have to live with what I've done. I've carried a lifelong depression and sense of being outside of society, for what I've done. Most people who've had an abortion had one, I had three.

10. How has your abortion affected others in your life?

I've deprived my children of siblings, and nieces and nephews. My children were profoundly affected when they found out.

11. Based upon your experience, what would you tell a woman considering abortion?

That before they were formed in THEIR mother's womb, God knew them and had a plan for their life.

That God owns the universe, and today I know, HE WILL PROVIDE. That there's nothing that you and He together can't handle. That life begins at conception. Once they hold that precious little baby, their hearts will be forever changed. That God will make a way where there is none.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Man uses 6% of their brain, God keeps 7 billion of us alive. That's what free will gets you, known as "choice" or woman's right to choose - they still only use 6% of their brain to make a selfish, self-centered, immature and wrongful decision. The US has killed enough babies to form a whole nation, and IS BEING HELD ACCOUNTABLE BY GOD. We need to repent of our sins individually and as a nation. No man is above God. We ALL have to answer one day. Life is a privilege that should not be taken away by another. No man should second-guess God. What scientist or md can explain the mysteries of the human body with complete accuracy and certainty? Therefore, make NO decision to take life. The effects are irreparable, they stand for all time. There is no such thing as "mercy killing." God gives life -only He should take it away. The doctors who have performed abortions should have their licenses permanently revoked. That no judge is higher than God. That they should learn to make Godly decisions, taking into account that the decisions they make supremely affect the lives of many others, and for this they will be held accountable. Today, I am in ministry. And the greatest joy of my life, is to hold a little baby. Who would they have grown up to be? That even former abortionists have repented and turned their lives over to God. That, if God lifts His Hand off this nation....and He has every right to.....America is in a downslide. Abortion is the reason.

HOW MY ABORTION AFFECTED ME

The State of TN

County of Montgomery

My name is Janet Radford. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Knoxville TN

09//1982

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

vacuum extraction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told of the procedure was a medical one which was legal, but was not told what to expect in terms of the sound of it or the after effects. I became very nauseous afterwards.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one speaks about how it affects you psychologically or that the healing has to go beyond the physical.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I later had two living children and found that with other children, I distanced myself. I went for years, not allowing myself to feel it. And though Jesus forgave me, I could not seem to forgive myself, even having bouts of missing and thinking about the child not with me. It has only been in the last year, 25 years later, that I have been able to receive God's forgiveness and forgive myself. The freedom has returned for now I can and do tell others that this is a great deception perpetrated upon women.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

Tell them my own story and that this is not what they have been told. Tell them that this child has a voice. I would also look to how I could help them avoid this and see that they do have a choice and that the choice of life isn't always easy, but the reward is great.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

To hear the voice of all parties. To remember that for those who are parents that when they realize they have conceived, they gladly announce to all that a baby comes. Shouldn't that baby be given the promise of life that every parent wants for their child?

babies dad

9. How has abortion affected you?

After having the abortion, i later was married to the dad and we lost 5 babies to miscarriages. it was devastating. The guilt was almost too much to bear. I daily have to remind myself of God's forgiveness or i could not live.

10. How has your abortion affected others in your life?

I had 3 children before the abortion, now that they are grown and married having children of their own and it's very difficult to tell them about what i did. I know it's hard for them, i have not told two of them. Then there are the grand children. It will never stop.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. The problems you fear you will face because of the pregnancy are far less than the ones you will encounter if you do it. Don't do it! The effects of an abortion never end. Even though God has forgiven me, and i know he has, you don't know how hard it is to tell your daughters or have them find out after

they are already grown up and have children of their own that they love and cherish.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Please don't allow this to continue. It is destroying Life. Not just the babies but the moms the dads the brothers and sisters. Those families without God to counsel them through the guilt and pain you will have moms losing their minds and ending up with all kinds of mental issues from the effects of the abortion not to count the physical effects.

HOW MY ABORTION AFFECTED ME

The State of TN

County of Hickman

My name is Barbara Wilkins. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Daytona Beach FL

//1979

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

We were just told that we would be given something to take the edge off. I was not prepared for the horror that I felt and the pain I would endure, let alone the baby. It was made out to be there would be some discomfort, but nothing prepared me for the shock.

5. Were you adequately informed of the consequences of abortion?

Yes No

I really had no idea what they were going to do. I was very uninformed. They gave us a valium and took us in a room, preformed the abortion, put us in a recovery room and sent us home.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My husband and his Doctor friend.

9. How has abortion affected you?

I went through years of guilt and emptiness until I ask God's forgiveness for murdering my unborn baby. I felt resentment toward the ones who forced me into it and preformed it.

10. How has your abortion affected others in your life?

I was so ashamed I never told anyone for most of my life. My children weren't old enough to know and my family never knew.

11. Based upon your experience, what would you tell a woman considering abortion?

That it is murder and sin against God who is the giver of life. That it's something you never get over mentally even when you know you are forgiven. That life at conception is a precious gift from God and only He has the right to choose if someone lives or dies.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That the very laws our legal system are based on, are violated by allowing people to excuse their selfish behavior, to justify murder.

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

Saline Injection

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No - I labored as though I were giving birth to a full-term baby.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no concept of what torture my baby would suffer, nor did I have any clue what psychological damage I would suffer for over 30 years.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Family members

9. How has abortion affected you?

In a tremendous way. I was broken and wounded for 35 years until I went through a healing program through my church.

10. How has your abortion affected others in your life?

Yes - my children and also affected a decision for divorcing their father.

11. Based upon your experience, what would you tell a woman considering abortion?

Please, please look at your options. This is not a quick fix to a "problem". This is a God-given life growing in your body, not just a bunch of cells. Please prayerfully consider what you are doing.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Absolutely not. No one has the right to take away life, no one. The fetus has as much of a right to life

(after conception) as any other human being. Abortion is wrong and has been since its inception. Only God can give and take away life.

HOW MY ABORTION AFFECTED ME

The State of TN

County of Shelby

My name is Mitzi Turpin. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Bristol TN

09/05/1980

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only given a form to sign stating that I agreed to not hold them responsible for injury, etc. There was no counseling whatsoever. I was not told that my child already had a beating heart, brain waves, and all major body systems already operating.

5. Were you adequately informed of the consequences of abortion?

Yes No

The only consequences I was informed about were a few possible physical consequences to me (bleeding, infection, etc.). There was no mention of the horrible emotional and psychological consequences that accompany having your child killed.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Immediately following my abortion, I spiraled down into a very promiscuous lifestyle accompanied by heavy use of alcohol. Looking back, I can see that this was an attempt to numb myself of the knowledge of what I had done. For over 20 years I tried not to think about my abortion and failed miserably in that attempt. I finally came to realize what I had done; I confessed my abortion to God and asked for (and received) His forgiveness; I took part in a Post-Abortion Bible study that really helped with my healing; and now I am a volunteer at a local pregnancy help center, counseling young women the way I wish I had been counseled when I had an unplanned pregnancy.

10. How has your abortion affected others in your life?

I think that my abortion damaged my ability to bond with the two children I later gave birth to. It's hard

to describe, but treating my first child as a worthless inconvenience made it difficult to treat my later children as the precious gifts they were. My husband (not the father of my aborted child) has had to cope with an emotional basket case (me) from time to time.

11. Based upon your experience, what would you tell a woman considering abortion?

I often get to speak with women considering abortion in my volunteer work at a local pregnancy help center. I always tell them it was the worst thing I ever did. I tell them they think that abortion is the easy, quick "solution" to their unplanned pregnancy, but the after effects will last for the rest of their life. I tell them it really is a baby, even though it is very small, and he or she already has their own unique DNA, heartbeat, brain waves, and I describe the physical development of the baby at the stage of pregnancy she is in. I urge her to consider adoption if she feels she is not ready to parent her child, telling her that being inconvenienced by a pregnancy for 9 months is a small price to pay in comparison to living the rest of your life with the awful knowledge that you've killed your own child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell a court that abortion should not be legal, any more than killing a born child should be legal. The location and size of the child should be irrelevant when looking at the central issue--is a person being killed? The obvious answer is yes, and the obvious response should be the outlawing of abortion. I believe the day will come when Americans will look back at the years 1973-???? and wonder how in the world abortion could have ever been legal, much the same as we now know that slavery, legal from the founding of the nation until 1864, should never have been legal either. The Court has been wrong in the past, and it is wrong now in allowing legal abortion.

My name is K S I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Knoxville TN

02//1998

2. How many weeks pregnant were you?

3

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I verbally expressed to my "counselor" that I was not really sure about going through with the abortion. I was and am a pro-life person of faith. She made a joke about the Pope would not carry the baby, so why should I have to???? When she did my scans, she turned the screen away so that I could not see.

5. Were you adequately informed of the consequences of abortion?

Yes No

I do not remember any conversation about mental or physical consequences. I remember they gave me an antibiotic as I was leaving.... no real explanations.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Various - My husband whom I was divorcing/ friends

9. How has abortion affected you?

I became a very different person after the abortion. I changed my appearance completely. I had long blonde hair before... I have had my hair short since then. I stay pretty depressed. I have another wonderful child now, but I sometimes have difficulty relating to him and I am way overprotective of him.

10. How has your abortion affected others in your life?

Not sure - My new husband knows but we rarely talk about it.

11. Based upon your experience, what would you tell a woman considering abortion?

Give birth- Make a way for life to happen. You may think you have no options, but you can find ways to have this child. Do not live with the mourning and regret of abortion's aftermath.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Look at the realities of what this has done to our culture and to women who have undergone these traumas. We need to start valuing life and helping women who find themselves with unplanned pregnancies.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TN

County of Davidson

My name is L P I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

North Hollywood CA

//1987

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

D&C - suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had a general idea, but no in-depth information was given and certainly no follow-up physical or emotional care was given. It was a Planned Parenthood type facility, which only seemed interested in making money... lots of money... and to let a person know too much would cause them to 'lose the sale.'

5. Were you adequately informed of the consequences of abortion?

Yes No

Again, there wasn't much information given at all... a brief information sheet was given to me after the fact that outlined symptoms to watch for in case of infection, excessive bleeding, etc.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Not directly just afraid parents would kick me out

9. How has abortion affected you?

Physically, it was much more painful than they said it would be and the staff was unsympathetic... told me it was my own fault for not making a different choice for anesthetic. Borderlined on anemia for a period of time and suffered with P.I.D. afterwards that made it very difficult to get pregnant when I was ready to. But that pain went away after a while. Emotionally it has never really healed - the first was a terrible sense of alone-ness in a hostile environment, second was fear and the sense of being violated... torn apart. Finally the tremendous sense of guilt and shame for allowing someone to do something like that, especially once I learned more about the procedure and what it does to the fetus. I went through a long stretch of time where I felt worthless and hopeless - suicidal - particularly since it was something that I couldn't talk to anyone about. Even now, I know it was a terrible thing to do and can never really,

fully forgive myself. Psychologically, I believe I now suffer from depersonalization/anhedonia which is a defense mechanism triggered from the trauma of the experience, doubled in intensity by the cold and unaffected demeanor of the staff performing the procedure. Occasionally I experience a breakthrough moment when am able to connect... while it is breathtaking at the moment, it only makes it more depressing when that moment has passed as the stark contrast of my life quality is made. I regularly take antidepressant/anti-anxiety medication.

10. How has your abortion affected others in your life?

I told no one... but it has affected my relationships in that I constantly feel that deep dark secret looming in the background. It keeps me from feeling like I can have a true relationship - like maybe I don't deserve it? - which often drives a wedge between us when I actually do manage a relationship. As a result of this, my son has been affected in that he has grown up in a single-parent home and all that it implies. Many sacrifices, many limitations, etc.

11. Based upon your experience, what would you tell a woman considering abortion?

My first inclination would be to discuss the moral aspect, but understanding that not everyone is affected by this approach I would share some of my experiences and some of the more drastic effects that other women have experienced, up to and including death. I'd beg her to reconsider... to love her baby and herself enough to seek any other option.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Again, moral issues aside, I would respectfully admonish the court for feeling that allowing such a barbaric and dehumanizing procedure to continue should be allowable, and to question the integrity of those making the decision for the fact that these procedures could reasonably be expected to result in the death of the woman receiving the procedure. I'd also challenge the court to understand that there are other natures of death that occur even when physical death does not - emotional, psychological, spiritual death... at best a deformation of the quality of one's life. Morally speaking... Knowing what I know now, including the continued medical evidences of the beginning of human life, I do not find abortion anything less than first degree murder: the premeditated taking of another human's life. I find it a double standard to prosecute someone for animal cruelty for acts far less heinous than those committed by the procedures that abortionists perform, but to make it legal and acceptable to do these things to a child.

My name is Nancy I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Santa Ana CA

06/12/1970

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told that once it was done, it would be over and life would go back to being normal. The emotional consequences are much longer lasting than the physical ones. They wrote on my chest, "I'm in no position to complain."

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

The date of my abortion is a difficult one. I come face to face with the fact that one day I will see my child in Heaven, where I will need to apologize for killing him/her.

10. How has your abortion affected others in your life?

I'm not sure.

11. Based upon your experience, what would you tell a woman considering abortion?

I thought giving a child up for adoption would be something I could not live with. I now realize that adoption would have been a positive outcome for my unplanned teenage pregnancy -- some parents unable to conceive would have been given a gift of a child, and my child would have been in a loving home. Instead, there are no positives. My child is dead, and I have had to live with the guilt for the rest of my life. There is no chance in this life for me to ever see or know that child.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

You cannot see the scars of abortion, but the scars on the heart of a woman who has chosen to have it done are forever. You have to live with the reality that not only have you committed murder -- you have murdered your very own child. You don't realize the lifelong pain you are going to endure until it is too late.

My name is Ramona Stricklin. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Memphis TN

02//1980

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

When I was 19 I walked in the clinic all that wanted was my money. Nothing was explained to me.

5. Were you adequately informed of the consequences of abortion?

Yes No

I wish someone had talked to me about my choices and how abortion could effect my physical and emotional health for the rest of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I am 48 years old now I have been in treatment for depression, eating disorders and I wanted to end my life. Finding forgiveness seemed impossible and certainly I thought that God would forgive me for such a thing. My marriage almost came an end. You see I have had 2 abortions by which my husband was the father. Pray that God will continue to restore our marriage. It is only through Christ will we be restored.

10. How has your abortion affected others in your life?

It have in one way or another affected everyone I have come in contact with. Long Story.

11. Based upon your experience, what would you tell a woman considering abortion?

I now work at a Crisis Pregnancy Center and I am able through Jesus Christ to tell my story of pain and heart ache but let them know there is healing.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It harms women in ways that no is stepping up and saying. I see women come to our center and their life is so tormented from their past abortion that there is no way they are able to live a normal, happy and healthy life.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TN

County of Shelby

My name is Janet I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Memphis TN

//1979

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

I don't remember.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't remember much about it, except that I know the doctor did not offer to do an ultrasound or talk about the baby or it's growth and development at that point. He didn't say anything about adoption or encourage me to keep the baby. I believed I just had a blob of tissue that would develop into a baby, but it wasn't a baby yet. I didn't know my baby was fully formed, had a beating heart, had all his little fingers and toes. I didn't think things through at all.

5. Were you adequately informed of the consequences of abortion?

Yes No

I wasn't told of any potential risks from abortion, physical or mental health risks.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

None of my friends encouraged me to keep the baby.

9. How has abortion affected you?

I chose to have an abortion because I was not married and didn't know who the father was. I didn't want my parents to know, I didn't want to disappoint them. About 2 years later I was married and had a baby, and that's when I realized what I had done. I have felt so sorry and sad about it, and have suffered from depression. I have confessed this sin to my Savior Jesus, and I know He has forgiven me. I have a deep passion to tell others not to do what I did, and I want to help protect unborn babies from the same fate my baby had.

10. How has your abortion affected others in your life?

My sister is sorry she didn't try to help me by encouraging me to keep the baby. Once the father of the

baby and I realized he was the father, he was sad. We fell out of contact with each other soon after that. My sister now helps to provide support to a Christian pregnancy resource center. My husband has had to deal with the depression I've had.

11. Based upon your experience, what would you tell a woman considering abortion?

I would encourage her to not rush into having an abortion. I would tell her that I regret mine and wish I could do it over, because I didn't realize that was a child, not just a glob of tissue. I would refer her to a Christian pregnancy resource center, and I would offer to go with her if she wanted me to. I would tell her that although it seems like an abortion would solve all her problems, like I thought it would mine, it only is the beginning of more problems, like how I felt when I realized what I did, having to live with it the rest of my life, the depression and anger that I have lived with for years. I would tell her I will be praying for her, and that I know the Lord will help her and I will too.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them to look at a 3-D ultrasound of some unborn children. We have proof from science regarding the growth and development of babies in the womb. Life begins at conception, and we should not only outlaw abortion, but we should protect the unborn however we can in our laws and in our communities. That abortion helps women is a lie. It hurts women and it kills babies. It is never right to punish the innocent child because of the sins of the adults involved. We should reach out to women in unwanted pregnancies and give them real help, not the deadly help of abortion. Abortion is a lucrative business, and it's all about money, not helping women. We don't need that kind of help. Furthermore, there is absolutely no such thing as a constitutional "right" to an abortion. We are supposed to guaranteed "LIFE, liberty, and the pursuit of happiness." Life has to come first.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TN

County of Sevier

My name is Debra I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Pittsburgh PA

09//1987

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that I would be numbed for the procedure; I felt everything, to the point where I wanted it to stop, and was told angrily, by the doctor (no nurse present) to stop crying, and be still so she could finish. I had changed my mind.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told to take a pill (antibiotic), given a pack of birth control pills (given a 30 second lesson on taking them, with no education on side effects, etc), and was sent home. Never told I needed follow up care. I wound up passing pieces of the baby at home later that day. It's my understanding that a vacuum procedure is called for at 8 plus weeks; I was 9 1/2 weeks along. I was not told about the effects now known as Post Abortion Syndrome, which I suffered almost all of them, including immediate deep depression, anxiety, and a whole range of other symptoms that I did not connect to the abortion until years later.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Depression, anxiety, flash back nightmares, difficulty bonding, overparenting living children, excessive fears about getting pregnant again, relationship issues (dysfunctional), excessive cyclical grief (around baby's due date and abortion anniversary).

10. How has your abortion affected others in your life?

mentioned above

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. After having had other living children, choosing life is so much better than living with the never ending regret that I took another human's life, one which I could have given up for adoption. Seek out help from crisis pregnancy centers. Ask to see pictures of aborted babies. Be fully informed before you even consider this. Your life will never be the same and an abortion will affect you, no matter how much you think it will not.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I think that every woman (girl) considering abortion should listen to stories of other post abortive women, including the ones that regret it. As years go by, the effects of abortion become more apparent, especially after the birth of subsequent children. I like to say that women don't really connect the dots of Post Abortion Syndrome, unless it's pointed out to them, as a very keen psychologist asked me after the birth of my first son, when I was suffering post partum depression bad enough they wanted to hospitalize me. This psychologist asked me, I did not disclose that I had abortion, but by my symptoms, she was keen enough to put the dots together for me. Women (girls) should not only view a sonogram of their child, but also view photos of aborted fetuses, so they can be fully informed about what is exactly going to happen to their child. I believe most would run out of the clinic screaming--it's very hard to look at, nonetheless go through with killing their child. More effort should be made to make adoption of American babies easier. It is my understanding that there are approximately the same amount of children aborted every year as there are Americans seeking to adopt a child. So there are enough people seeking babies to make abortion not necessary. Let the people decide! Return the vote to the states on this issue.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TN

County of Sumner

My name is Beverly Sims. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Cape Girardeau MO

07/08/1986

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

To the best of my remembrance it was a D&C procedure.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

At the time I was 16 years of age and had no comprehension of anything regarding the nature of the abortion procedure other than it would "get rid of the problem", as the father of my child continually emphasized to me.

5. Were you adequately informed of the consequences of abortion?

Yes No

The only consequences I remember being informed of were possible cramping and heavy bleeding.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father of my child

9. How has abortion affected you?

Perhaps the better question is how HASN'T abortion affected me. Intense: shame, guilt, loss, constant grieving and mourning over a child I won't see until Heaven, depression, unable to forgive myself, low self esteem, blocked memories. Years and years and years of avoiding anything to do with babies and children, including friends. It has affected my ability to trust, to love and to be in a healthy relationship. Denied myself the honor, privilege and blessing of ever becoming pregnant again and having a family of my own. This "right" to have an abortion robbed me of ever being able to have more children and to someday be a grandmother. Even after all these years I am still recovering memories of the abortion and it is horrific to me. I could go on, but frankly it is still very upsetting to go into detail with anyone I do not feel completely safe with.

10. How has your abortion affected others in your life?

It robbed my parents of a grandchild, robbed my sisters of a nephew, robbed my nieces and nephew of a cousin, robbed his father's side of the family of a son, grandchild, nephew and cousin. After 25 years I have still not been able to share this devastating trauma with my nieces and nephew for fear that they may never want anything to do with me again and possibly keep me from being in the life of my great-nephew and future children.

11. Based upon your experience, what would you tell a woman considering abortion?

First and foremost, G-d loves you and He knows your pain. G-d knew before you were knit in your mother's womb, that this day and this decision would come for you. He loves you. I can't make this decision for you, but I can tell you my decision to have an abortion FOREVER changed my life and I never realized it until almost 20 years after the fact. ANY child is a gift of G-d and no matter what the circumstance surrounding the conception of your baby, G-d has a purpose for your child. If I (or you) truly could not or would not keep a child in my life, ADOPTION is the next best option. Just because I've had an abortion doesn't mean I am not a mother, it simply means I am the mother of a dead baby...a baby I chose to kill through means of legalized abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

In my own experience and in my own belief, abortion should NEVER be legal under any circumstance. Abortion is murder, plain and simple, no matter what, why, when or where.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

After having the abortion i had alot of complications. I became pregnant again 4-6 months after i had the abortion. During my pregnancy i had to be bedridden due to alot of bleeding. Even years after the abortion i had problems. Still i can hear the sound of the abortion itself and it gives me chills.

10. How has your abortion affected others in your life?

My abortion i never talked about. I kept it secret until this past 5 years or so. I just did not want to even talk about it or acknowledge it even happened.

11. Based upon your experience, what would you tell a woman considering abortion?

That the people lie to you they tell you things to get you in there to get the money i believe. They do not tell you of the complications after words both physical and emotional. The abortion will never leave you it will weigh heavily for years.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Have you not talked to the women who actually have gone through this? How do you justify killing a baby. When you become pregnant regardless of what stage in your pregnancy it is a baby. Its growing

and developing and alive. Why not teach these women how to keep this from happening again. Why not help these women to raise their children in the admonition of the Lord, Why not support them and guide them and love them instead of telling them lies and these women live for years and years with the haunting sounds or images of the abortion, with the physical bodily complications that happen after the abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend, the father of the child

9. How has abortion affected you?

My life feels over, I have had almost constant abdominal pain and a severe infection. I can't pray, go to church, I never want to leave the house. Michael, the baby's father has repeatedly tried to console me by reminding me that I was not mentally stable and that he made the decision. I feel robbed, He knew I would never kill my baby and he DID keep me on benzodiazepams until the procedure was complete. He told me what to say, when I was crying that I changed my mind and asking him to make them stopped he muffled my voice as though he was hugging me so the nurse would not see. He constantly reminded me that if I cried they would not give me the abortion, this is why he fed me the sedatives. TO make matters worse, he no longer wants to pay for the growing cost, due to the complications, and he has repeatedly called the police with falsified statements that I am suicidal and crazy. None of which has worked, but he assaulted me after coaxing me to a house. The assault has worsened both the physical and emotional pain. The police are no use because this man is an attorney and he knows exactly how to turn the tables. He knows how to control situations and he has threatened both legal and illegal actions against me. I am frightened and angry and violated. How can he get away with doing all of this to me? WHO is there to help me? NO matter what anyone does it does not bring my baby back, and that is all I really want.

10. How has your abortion affected others in your life?

My children have suffered my depression and because of my being bedridden. I can hardly move from pain some days, even though I am under the treatment of a doctor.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them about watching my first baby, that was accident, grow inside me and how much he and his father love him even though at the time it seemed like it would be impossible. I would tell her that even though she does not realize it, the pain that comes after an abortion. This man murdered a part of me, my baby and I will never get him back. I would give him to a loving couple if I couldn't afford it and know that I made a family complete. When you became pregnant you are a mother, and a mother should always protect her child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Scientifically speaking, from the moment of conception, the bundle of cells that forms is a developing bundle of HUMAN cells. If taking a human life is illegal under every other circumstance, then destroying that bundle of cells is essentially destroying a LIVING, developing human. Therefore, abortion is the taking of human life. Except in states which allow the death penalty, the taking of a life is illegal. We believe that we are all equal, that we all have the right to life, liberty and the pursuit of happiness. How can we possibly deny another human of that privilege simply because they are unable to speak for themselves.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Montgomery

My name is Cari Harris. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Houston TX

07/08/1988

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No Answer

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me that years of depression, anxiety, drug and alcohol abuse, eating disorders, marital issues, and attachment issues for later "wanted" children could be in my future. Or that grief over the killing of my children (second abortion took place on 7/10/90) may take many, many years to manifest and be nearly unbearable.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

parents and boyfriend

9. How has abortion affected you?

It would take a whole book to describe how abortion has affected me. Part of me died, literally in my children, when I allowed that doctor to go inside my body and suck my children out from me. Those memories will never go away and the effects will never go away. In the 20 years since my abortions, I have battled depression, drug and alcohol abuse to numb and escape from the pain, anxiety, unbearable grief when the reality of what I did began to surface just 5 years ago, and deep issues of mistrust and unforgiveness between me and my husband that have yet to be resolved (he being the father of the second child I aborted - somehow we are still together). Those abortions have affected me as a mother now to three children. They robbed me of being a complete mother. I don't even know what it must be like to be a whole mother, one who doesn't bear the shame of having killed two of her own children.

10. How has your abortion affected others in your life?

My mother and stepfather have had to live with the guilt of influencing me to have my first abortion at age 16. They would have been ashamed to have their "good girl" be pregnant and have a child so young. They thought my future would be ruined if I had that child. I believed them. My mother still regrets that as she now understands the effects it has had on me. My husband, while he says he put that behind him and has moved on, has suffered from depression over the years though he hides it better than I have. The scar on our relationship from the abortion will never go away or fully heal. He, too, was robbed of the full experience of fatherhood to our "wanted" children. Our children have been unknowingly affected by my abortions. They have been robbed of having complete, whole, unbroken parents by my husband and me. While we love them dearly and wouldn't trade them for the world, they will never know what it is like to have unbroken parents. And how in the world am I supposed to ever tell them that I killed two of their older siblings? If those children had been born, they wouldn't even be here. It's absurd!

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. You will regret it for the rest of your life. It may be the biggest sacrifice of your life to give your child life, but at least you will be able to live with yourself. Because if you decide to kill your child, you will have to live with that shame and guilt all the days of your life and it will affect you in ways you cannot even imagine now. No one will tell you the truth about abortion except someone who has been there and is still struggling to forgive herself. It is a lie to believe that you have the right to take the life of your own child. Everything in you tells you how special and precious that life growing within you is. Don't go against your own instincts as a mother to believe that you have a "choice" as to whether or not your child should live or die. Don't give in to pressures of those around you who try to convince you that you cannot or should not be a mother now. If that is truly the case, then give your child life and allow a couple who wants that child more than anything to adopt him or her. We do not have to be so selfish to avoid the sacrifices of pregnancy and childbirth that would bring such joy to others. Nine months of your life to bring joy to someone else is something you can live with and take pride in. Killing your child is not.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is the biggest lie perpetrated on all of us in the history of mankind. It is a bigger lie than Hitler saying that Jews are subhuman and killing them is justified or that blacks are subhuman and enslaving and killing them is justified. To tell a woman that it is okay to take the life of the child she carries within her is a far greater lie than anything I can think of. While situations do occur that put women in the position of facing an unplanned pregnancy, being told it is okay to take the life of that child is unbelievable and barbaric. History will look back on this time with great disgrace and shame and all of us who bear the deep wounds that will never fully heal have to carry that burden of shame until the day we die.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Lubbock

My name is Esmeralda Garza. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Lubbock TX

//1987

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Suction-aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I truly had no idea I was aborting a living baby. I believed it was "tissue". I didn't know what the abortion procedure involved nor did I know what it would do to my baby's body. Had I seen a heart beat, had I seen what abortion looks like after early trimester abortions, I know I would not have had an abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea I would suffer emotionally. It wasn't until after I had my children that the impact of what I had done hit me. Although my abortion occurred 20 years ago, I am still dealing with the after effects of abortion. I am seeing a psychiatrist and therapist to help me deal with my depression and anxiety.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My fiancée at the time.

9. How has abortion affected you?

I struggle with depression and anxiety. I am seeing a therapist and a psychiatrist. I was suicidal and felt like a monster for killing my baby.

10. How has your abortion affected others in your life?

It jeopardized my job. I almost lost my job because I missed so much work during a deep episode of depression. My husband and children struggled seeing me go through depression and anxiety.

11. Based upon your experience, what would you tell a woman considering abortion?

That there is support available, so she doesn't have to choose abortion. I would tell her how much I regret my abortion, and how it has hurt me and my family. How I struggled with depression and anxiety

even though it's been several years since my abortion. I'd show her pictures of what her baby looks like at her stage of gestation. I'd be very frank about what the abortion procedure involves. I would do everything in my power to prevent any woman from having an abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder. What has happened to our country's fundamental principals of "Life, liberty and the pursuit of happiness." This is an inalienable right (human right) stated in our Declaration of Independence. Look at the beating heart of the baby within a woman's womb. That beating heart does not belong to a blob of tissue. A beating heart is part of living, breathing human beings. Human beings also have souls. What right do we have to decide who gets to live and who doesn't? Our country has on all currency, "In God we Trust". Do we not believe that anymore? Isn't He the One who created each of us? How is it that we feel we have the right to decide who lives or dies.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Bexar

My name is Gail Grisell. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San antonio TX

//1980

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was never told my baby was a baby. I was never informed of the level of development of my baby, which would have immediately made me realize that this was no blob of tissue or simple "fetal tissue." This was a viable life with both heartbeat and brainwaves, criteria used, at cessation, to determine the point of death legally in our country. I in no way am denying my responsibility for the death of my child. I made the decision. I should have never have had the legal right to determine whether a viable life would be spared or taken simply on the grounds that it happened to reside, temporarily, in my body.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea of the gravity of what I was doing and therefore had no idea of what would be the devastation of the consequences once the reality of what i had done was revealed to me, over 10 years later.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My doctor and my mother

9. How has abortion affected you?

I do have a lump in my right breast at this time. It is believed to be a benign adenoma. I am praying that it is. Worse, however, was the shock horror, 10 years later, of seeing a model of a baby the size of mine when I allowed it to be, and participated in it's being killed. It was fully formed with heartbeat, brainwaves, and the ability to respond to sensation - and pain. The realization of what I had allowed to be done to my baby, as documented in the video "The Silent Scream" and how he or she had suffered was a horror no one should have to realize. Bad enough if you do something that horrific to someone

knowingly. Add to that the horror of realizing you did that to your own baby, and then add impotent rage to the mix, that you did it ignorantly and there was someone who could have told you the gravity and horror of what you were going to do, and didn't tell you, and worse yet, a government and legal system that supported it.

10. How has your abortion affected others in your life?

My children lost a brother or sister and have to live with the fact that their mother murdered him or her

11. Based upon your experience, what would you tell a woman considering abortion?

Please have a sonogram. It's all you'll ever need. Any woman who can have an abortion after seeing her living moving baby is seriously psychologically impaired. I think a sonogram can even overcome fear - of ANYTHING - parents, boyfriend, husband, health threats, poverty and lack - Nothing is as powerful as seeing your baby alive and moving in your body and realizing it's total trust and dependence on you to PROTECT it, love it, and even FIGHT to secure it's life and safe passage into the world to fulfill it's own God Given destiny in the world.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is absolutely against the consistency of the law to allow the killing of a human being with heartbeat and brainwaves, whether inside or outside of another body at the time, if you do not allow the killing of any human being with heartbeat and brainwaves; having determined as law in our country that the presence of heartbeat and/OR brainwaves determines that a human being is alive and the cessation of heartbeat and/OR brainwaves determines the death of a human being.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Dallas

My name is Jorea mcnamee blount. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

06/27/2007

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

standard abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They don't tell you exactly what it does. Recently I research on the iNternet about how the crush the baby skull, etc. This is why I am no longer pro-choice.

5. Were you adequately informed of the consequences of abortion?

Yes No

when you go to the abortion clinic they don't tell you about side effects like breast cancer and mental health issues.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have had four abortions since the age of 18 years old. I am now 28 years old. I have been carrying triplets but loss two of them within 1 month. I am now carrying the remaining baby. I truly believe that the reason why I lost the first two is my body can't carry them due to the previous four abortions (1998, March 2001, July 2001 and June 2007) I had.

10. How has your abortion affected others in your life?

My mom, sisters and grandmother are sick of the fact that I am killing innocent babies

11. Based upon your experience, what would you tell a woman considering abortion?

Educate yourself on all the consequences of having an abortion. Your mental health will be affected. Go on the internet and view real pictures of aborted babies. This alone will change your mind.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

The law should be based on the principle of God. It does matter what religion you are. No one from any religion can say that their GOD or higher being believes in killing innocent lives.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Kaufman

My name is Ketra Hancock. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

03//1984

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Unknown; performed in hospital

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The abortion was scheduled by an RN (family friend). Nothing was explained to me by her or the Abortionist.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nothing was explained to me: the procedure, recovery, risks, etc. The only thing I remember is being in the operating room strapped to the table before the Abortion and then waking up in recovery hearing the doctor telling my parents that she needed to take me back into the operating room again.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I got involved in a very abusive relationship after my abortion; my boyfriend held a loaded gun to my head as well as tried to drown me in a pool. After I married, it took me 10 years to be willing to have children. I felt I couldn't be a good mother. After having my children, I feared something was going to be wrong with them or they would die after they were born. I knew for sure God was going to do something to my children to punish me for having an Abortion. I kept the secret of Abortion quite for 20 years; fearing what people would think of me.

10. How has your abortion affected others in your life?

It affected my immediate family as well as close family friends who knew about it.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T! It is not a blob of tissue.... it's life!!! A real baby with a real heartbeat!!! Also, Satan feeds you

many lies about why aborting the child is OK. Once you abort, he turns on you & starts messing with your mind. You are held in bondage by him for years!!!!!!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The baby is a human being!!!!!!! As long as they are voting for Abortion to be legal in the US, they will have the blood of EVERY aborted baby on their hands.

My name is Vickie Adams. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

2. How many weeks pregnant were you?

3. What type of abortion was performed?

Dilation & Extraction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had absolutely no clue as to what I was doing.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not aware of any of the consequences other than the obvious-that I was doing something wrong.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend

9. How has abortion affected you?

It affected every aspect of my life. It affected my relationship with my boyfriend. I was pregnant 6 months later and still blamed my boyfriend for talking me into it the first time. I told him that we should get married or leave because I was going to have this baby with or without him. We married but the damage was already done. We struggled for nearly 13 years. I was lost and felt shameful, hurt and lonely. I never told a single person about the abortion. Not even my doctor. I separated myself from God because I did not believe that He would forgive me for taking the life of my baby. I had a hard time relating to other women because I felt like they would judge me for what I had done. I had very low self esteem. I threw myself into work so that I did not have to deal with the emotional pain that seemed to never go away. When I started having the dreams about my aborted baby I knew I was in serious trouble for stuffing it so deep inside. I finally sought counseling. So much of my negative behavior was revealed and I finally understood that I needed to talk about the abortion in order to heal from the pain.

10. How has your abortion affected others in your life?

My boyfriend and now my husband was affected greatly. I felt that if he really loved me he would have never asked me to have the abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

Never, never, never make a long term irreversible decision based on a short term experience. Get all the facts before making a decision. There is no such thing as a quick fix. Choose parenting, adoption, or foster care as an option and walk away from the situation whole instead of broken and bleeding.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

There is no other crime in which the innocent pays for the crime of the guilty. Why should an innocent baby be put to death for the indiscretion of the parents. Where is the justice in that?

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Tarrant

My name is Maria I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Granite City IL

//1991

2. How many weeks pregnant were you?

3. What type of abortion was performed?

Suction I guess. At least that is the sound I remember hearing.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Honestly, I remember sitting one on one with a "counselor" at the clinic but I couldn't tell you one thing that the woman said to me. According to "them" it was a "procedure", not a little life.

5. Were you adequately informed of the consequences of abortion?

Yes No

I do not remember anything being said about the emotional and psychological hell I would go through afterwards and was not given any referrals on where to go for counseling or who to talk to about it. I was only told what I should physically expect afterwards, not emotionally or psychologically.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I considered myself a "monster" for years after my abortion. Immediately after my abortion, I had such hateful feelings toward the baby's daddy, even though I was the one who had insisted on having the abortion. I had suicidal thoughts many times thereafter because I did not know how to handle the emotions I felt. It wasn't until I came to know Jesus and allowed Him to heal me in the depths of my heart that I was able to forgive myself, but it was a long process. But today, I thank my God that I am free of the years of shame and guilt.

10. How has your abortion affected others in your life?

It destroyed the relationship I had with the baby's daddy. It has probably in some way effected all my relationships with men in my life, as well as it gave me a hardness in my heart that made me a very calloused person for many years. So, I believe it is safe to say everyone around me was effected, both at the time of my abortion and for many years. Also, my family never had the opportunity to love my

little baby or to watch her grow up.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! God has knitted that child together in her womb and he or she is God's masterpiece; and has a very special purpose for his or her little life that is designed by God Himself.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that abortion is a very selfish decision that does not take into account the little life that yet has no voice. No amount of "freedom" will help the mother cope with the years of shame and guilt that her abortion will bring. Medically, doctors usually do everything in their power to SAVE the lives of babies in the womb. Abortion, in my opinion, does not make good sense for doctors to be a part of. It goes against their life-saving training.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Travis

My name is Andrea Christopher. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Jose CA

07/25/1985

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

Laminaria

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told I would experience mild cramping and to take a pain reliever for comfort. I was not informed what was happening internally, only that the procedure was safe.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was informed this was "best for you and your future since you're not ready to have children." And "It's a good thing women have the right to choose what's best for them."

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Parents, friends and other family relations

9. How has abortion affected you?

When I'm asked about abortion I immediately say a quick prayer and let the truth be heard for those who have ears to hear.

10. How has your abortion affected others in your life?

I was requested by, my first husband, to abort my child in 1994, after we had been married for about 5 years. He decided he was not ready for the responsibility of children. He assured me he "loved me" and we'd remain married and have children later when we were more financially secure. Since, I had an abortion in 1985, and survived, he reasoned there was no excuse to not have another abortion. Essentially, the option was to abort, or be abandoned. This difference, now, was I had turned over my life and heart to Jesus Christ in December 1993, with the encouragement of my husband who was raised in the Baptist church. The Truth was revealed and abortion was NOT an option. Therefore, I

chose life for my daughter and a divorce from my husband. Thirteen years later we are blessed with a God-fearing young woman who is a voice for the sanctity of life for the unborn and two more daughters! Our 13 year-old volunteers at a pregnancy center and is presently writing a book entitled, "What Does God Say About Abortion?" My husband and I serve on the board of a local pregnancy center where she volunteers, and through our business, supports other sanctity of life ministries.

11. Based upon your experience, what would you tell a woman considering abortion?

Find out the truth about abortion. Do not plan to get the "truth" from an abortion clinic.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should not be legal.

3. What type of abortion was performed?

suction (not sure how many kinds there are)

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea of the impact it would have on me emotionally. That pain has never ended.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have had frequent depression. The thoughts of what I did haunt me.

10. How has your abortion affected others in your life?

Although they say they forgive me, my parents and sisters have not forgotten about what I've done.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion is not a solution, it is just the beginning of many years of suffering and pain.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

A woman's right to choose, denies the right of the unborn child. A child who has no decision making power what-so-ever. Young women often do not realize the impact the decision to terminate a pregnancy will have her emotionally. That emotional impact often manifests itself in physical ways. Abortion is wrong and should not be legal.

6. Were you informed of any link between abortion and breast cancer?

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has been one of the most difficult consequences I have ever had to face in my life. this realization became very apparent after giving birth to my daughters and then when my daughter gave birth to her son.

10. How has your abortion affected others in your life?

Not really sure. the father I am sure feels terrible but it is too late to try and save that life. My children still do not know as well as many of my friends and most of my immediate family.

11. Based upon your experience, what would you tell a woman considering abortion?

I would do all in my power to dissuade her and try and convince her that there is a better say. I would share my testimony with her and how difficult it is to face what you have done. Nothing can ever erase this fact. I am forgiven only by God's grace. I praise him for that and know one day I will meet my precious child in Heaven! How much better it would have been to know them personally and be able to be the kind of mother he or she deserved on this side of eternity.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That just because something is legal in the eyes of the law does not make it morally and ethically right. Legislation cannot and never will be able to justify the killing of innocent babies. Prevalence in society does not mean God will or ever has given his permission to commit this horrible act. How horrendous is a society that says the most vulnerable being should be ripped from its own Mother's womb and discarded like trash? Yet that is exactly what abortion does. We are giving the right to choose to end a life by the child's own MOther! How terribly sad is that and how have we fallen to such an awful practice? That is so accepted by our pro-choice individuals? I would say ask someone who knows and has experienced this devastating and heart wrenching act. Babies deserve protection in the very least by those who have conceived their life and should be fierce in protecting and saving that life no matter what it takes on the part of the Mother. All life is God ordained and it is not for man to decide when to end life no matter the age. Young and old are precious in His site!

5. Were you adequately informed of the consequences of abortion?

Yes No

No one ever talks of the emotional pain. The counselors at the clinic are very good at their job, they coach you through the procedure then leave you to figure out the mess.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Babie's father

9. How has abortion affected you?

It's been a long road, thankfully I now have a baby girl that is helping to heal the past- but it also brings to light the significance of what I've done to her sibling. There's no way to let it go...staring at her beautiful face every day, I wonder about the other child.

10. How has your abortion affected others in your life?

it's been a train wreck with my relationships...especially with my mother

11. Based upon your experience, what would you tell a woman considering abortion?

Most of the woman I know that are pro-choice..ARE NOT BY CHOICE

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

There has GOT to be a better way.....

the father of the baby

9. How has abortion affected you?

it took 20 years for me to ever tell ANYONE about this happening to me, no one knew, but my self the father and the LORD, and my baby.

10. How has your abortion affected others in your life?

I hid it for 20 years, it affected all persons in my life, both knowingly and unknowingly. I have robbed my birthed children of a sibling, and a baby from the life that God intended.

11. Based upon your experience, what would you tell a woman considering abortion?

PLEASE PLEASE DON'T DO THIS! You will never ever forget- though you may forgive and be forgiven - you will never FORGET- the pain, the ache- the emptiness that you will always have.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

why would you ever pass a law that takes the innocent life of an infant that didn't choose to be given to you - but that the LORD Himself gave life to.

Dr. and some respected friends

9. How has abortion affected you?

I was a military dependent in Germany. The baby I was carrying had a severe birth defect and would not have survived after delivery. The doctor said it was best to terminate right away so we did. The depression was horrible! I grew up in a family where abortion was considered wrong in any circumstance. By the end of a week I had my suicide all planned out. Only my husband knowing me so well stopped me because he realized how depressed I was and refused to leave me alone in the house. It has been 15 years and I still cry. Every time I go to a new doctor and have to fill out those history forms I get another reminder. I think going full term and then having a funeral would have been better for me. I think grief is easier to work through than guilt.

10. How has your abortion affected others in your life?

My husband still worries every time I get depressed or when we get in a situation where the subject of abortion comes up.

11. Based upon your experience, what would you tell a woman considering abortion?

THINK! THINK! THINK! this is something that will come up over and over can you handle being reminded every time you turn around.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Don't do it.

My name is S F I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

MCALLEN TX

09//1976

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I told the doctor what I wanted and he agreed to do it. It was done legally in a doctor's office.

5. Were you adequately informed of the consequences of abortion?

Yes No

As I explained above. The doctor just did what I asked. Told me there would probably be some cramping and for me to take it easy for a day or two.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Although I have asked and received God's unfailing forgiveness, there are very few days go by that I don't think of that child and what he or she would have become and how different my life would have been

10. How has your abortion affected others in your life?

Only my husband & I knew of the abortion. We chose not to involve of other 5 children or any of our family members. At the time we could see no way we could handle another child. I was 26 years old. We were raising my husband's 4 children and he and I had a child together. Everything just seemed overwhelming at the time.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! There is always another option. I wish someone had counseled me against it. I was so on the edge, just one comment against it would have prevented me from going on.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

When you're facing what seems to be an impossible situation, you're prone to do almost anything to make it better. What you don't realize at that moment is that taking a life NEVER makes anything BETTER. It is no more right to take a life in the womb than it is to take a life out of the womb. A life is a life!!

HOW MY ABORTION AFFECTED ME

The State of TX

County of Randall

My name is M H . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Lubbock TX

11/20/1986

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not adequately informed of possible emotional consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have felt so much guilt in the past but God has forgiven me. I don't feel so much guilt as I used to but there is extreme sadness, regret, and shame that will never go away.

10. How has your abortion affected others in your life?

No one in my family knows except my husband. I am so ashamed and regretful and I do not want anyone to know. I am doing this to help prevent future abortions.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that the baby inside of her is a life and that God knows her baby even before it is born. I would quote scripture to help her realize that that tiny embryo is a human being and she needs to pray about her decision before she kills a child. I would tell her that the act of abortion will haunt her the rest of her life. It's not what God wants her to do.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would try to explain to them that the embryo is a human life and that it is able to feel pain. It has no voice so we have to be the unborn children's voices. It should not be a choice to kill a human being. If it would not have been legal, I would have had the baby. My child would have been 21 this month. Abortion is just horrible and wrong for everyone concerned.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of El Paso

My name is Mary I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

El Paso TX

//1987

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Vacuum aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I went to a Planned Parenthood and at the desk, I was asked how pregnant I was. They said you are almost to late. I was taken into an exam room and was quickly examined. I was asked a few questions and I was told that I would need to wait a few minutes before I could go home. I remember the doctor was very unfriendly, cold and irritated as well as the staff. I was then moved to the treatment room and did not know what to expect. I had no sedation that I remember because I was in horrible pain. I remember beginning to cry out in pain and I was held down forcefully told to shut up. It was cruel and ugly!!! I then was put in a room with multiple other women who sat around on chairs. We all had the look of death on our faces. No one spoke. We just tried not to look at each other. I remember being in horrible pain and was told I could go. All I did that night was cry. The whole experience was degrading and cruel.

5. Were you adequately informed of the consequences of abortion?

Yes No

No! The appointment I had did not explain anything about the honest repercussions or the procedure itself. You should have to sit through a film of the procedure as you do in birth classes. Then, it should never be performed on that day. You should be given other options and time and help to explore them. Abortion should be the last option because it is permanent. No way to go back if you later feel you have made a mistake. Of course I NOW believe that for many reasons there should be NO abortion. There are many other solutions that maintain the dignity and rights of all human beings.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It ruined my life. I became further depressed, not realizing where the depression was coming from. I was put on different anti-depressants. None of them worked, I sank deeper and deeper. I sobbed uncontrollably, was unable to work at one point and could not find an anti-depressant that worked for me. I wanted to die and was so depressed and unhappy and did not understand how much it was affecting me. It was a silent killer that ate away at my soul. More than a child died on that day! I finally had a break down. No drug would suppress the pain and guilt that I had buried away. Only dealing with what had happened and the terrible truth of what I did could only begin the healing. Abortion is not a neat quick and painless way to fix a problem, as people would like you to believe. It is violent, cruel and cold. If people have trouble living with an amputation and mourn the loss of a body part then abortion is a deeper mourning of an entire human life. The experience will kill you slowly and painfully like a cancer. I am very lucky to be alive and that I found a counselor/Priest who understood, because I would have completely self destructed or killed myself. Years later I had to have a hysterectomy from scar tissue and bleeding. I do not know if this was attributed to the abortion.

10. How has your abortion affected others in your life?

I will never be able to face any of my family with the disgrace I feel. So, I do not have the close honest relationships that I would have had, if only I had made a different choice. My daughter is an only child and now that she is an adult, I hear and feel her sadness that she does not have a brother or a sister. I look into her eyes and say nothing, knowing that when I am gone, she will be all alone and I realize that I robbed her of having a family. I have to hear discussions about abortion with in my family knowing how they feel about it and relive the experience trying to hide the look on my face. It is painful and humiliating. It has stolen my self-esteem. My husband and I have nearly been divorced over it and continue to have problems that will probably never be resolved. On Mother's Day and Father's Day we are miserable. If the right to have an abortion was good for women and families, it would not ruin lives and come with all of these horrible consequences and side-effects.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell women to consider not making an impulsive decision. Just because someone allows you to do something, does not make it right or easy for you. Many reasons are based on wanting to hide something that you have done. Are they prepared to hide and create dark secrets for the rest of their lives? Because, if they can't tell anyone that they are having a baby, then they are sure not going to tell anyone that they killed a baby. I would say, please don't fall for what people expect you to believe. This is the farthest from the truth. It is a commercial for an industry that makes more money than they are willing to lose, at a woman's expense. I would ask themselves, if they could look into the eyes of child, ask their name first, then be responsible for having it killed? It is easy when we can't see or hear it. It tends to make the fact that it is a baby less real, but if we knew the baby first, could we then make the same decision. If they say no, then someday their conscience will drive them into despair. When they are alone with only themselves to be honest with, they will relive what they have done and know that they were responsible for the death of a baby. I think that is harder to live with, than an unplanned birth.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

My only daughter was pre-mature and was born at 6 months. She survived on her own and began speaking before the next 3 months. So you could say that she was able to speak before she was meant to be out of the womb. What would they say to us if we could hear them? This is why I beg you to reconsider your consciences the way I had to. Abortion is not a simple choice or ultimately good for a woman. I know because I have to live with my choice the rest of my life. It is final in every way. It was a cruel, cold, violent, procedure with all the blessings of our legal system. I remember beginning to cry out in pain and I was held down forcefully told to shut up. I left in physical and emotional pain, which grew out of control. It hurts the woman and families. My daughter is an only child and now that she is an adult, I hear and feel her sadness that she does not have a brother or a sister. I look into her eyes and say nothing, knowing that when I am gone, she will be all alone and I realize that I robbed her of having a family. We need to stand up and be honest. It is cruel and inhumane. We know babies/fetuses respond in the womb and feel pain. Yet we cut them up and suck them out, just because we cannot hear them scream. They are cruelly dismembered with out painkiller or anesthesia. All I have left to think about is the pain that I caused the child I killed. Please keep unsuspecting women from suffering and ruining their lives. Make abortion illegal.

QUESTIONS

1. Where and when did your abortion occur?

Houston TX

06/15/1974

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

Suction - if I remember correctly

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I went on my lunch hr - no in depth explanation of what was done

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told it was a simple procedure that would solve my problem.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

This was my second abortion - the first one was an illegal abortion - I delivered a 7 month old baby in my dorm room. Shame, guilt were my constant companions. No one told me the consequences of murdering my children - the breaking of the strong mother/child bond.

10. How has your abortion affected others in your life?

Because of the abortions and keeping the shameful secret, I was angry, depressed, over protective of my living children just to name a few destructive behaviors.

11. Based upon your experience, what would you tell a woman considering abortion?

Do everything in your power not to have an abortion - adoption for instance.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That if the court really wanted to empower women they would demand that the whole truth about the devastating effects of abortion be told. They would demand that the voice of the unborn would be heard through the mother's womb via ultrasound. That's what I would tell them.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it would not be painful and that it was not a baby only a glob of tissue.

5. Were you adequately informed of the consequences of abortion?

Yes No

The emotional scars run deep and after 27 years, I finally faced my abortions and sought counseling. I went through Beyond Choice via Focus on the Family and Synda Massey and have become an advocate for post abortion syndrome in trying to help others through this horrific atrocity.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Planned Parenthood

9. How has abortion affected you?

10. How has your abortion affected others in your life?

Very emotional, almost wrecked my marriage. I have been obsessive compulsive and have gone through much counseling to find peace - stemmed from the abortions and the shame and the shunning of not being able to grieve my babies. This is an epidemic for women and men.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them that they are killing a live baby and that the emotional and psychological scars are forever - God's grace and mercy can help you get on with life, but it is a very grave choice.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that they need to hear stories of those of us 25, 30 and 40 years later who have lived through this grief and the lies that were told us. There are no quick and easy fixes in life and especially through abortion.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told that I was killing a live baby, it was treated as a medical procedure in which I was the only one to experience anything. I did not consider that I was causing catastrophic harm to another living human. I saw it as an issue of convenience as I was a newly wed and did not yet want children.

5. Were you adequately informed of the consequences of abortion?

Yes No

I did not know that I would have guilt and depression or that there was a deeper understanding of the abortion issue that I was too immature to grasp at the time.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Depression, guilt, sorrow at my taking od another person's life

10. How has your abortion affected others in your life?

It compounded other problems.

11. Based upon your experience, what would you tell a woman considering abortion?

Deal with the inconvenience, or guilt, or shame but do not destroy that person you helped to create.

Rather, carry him/her to term and surrender the child for adoption to a family who wants a baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it is murder and that many people suffer-not just the mother and the baby.

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had no counseling. I believe it was before the state required counseling. My doctor just gave me a referral to an abortion clinic. I set up appointment and showed up on date of abortion. I checked in, signed some paperwork but had no idea what the procedure was or any of the risks involved.

5. Were you adequately informed of the consequences of abortion?

Yes No

As stated above, I did not meet with anyone prior to abortion to discuss the procedure or consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Initially, it was traumatizing. I had alot of guilt. I would drink and cry alot. My depression worsened and I became suicidal.

10. How has your abortion affected others in your life?

Not sure. I never really asked my family who knows about the abortion. I wasn't married then. I am now and husband is supportive of me.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. It's not the easy out that you think it is. Everything in life has a price. You think that this won't have an effect on your life but it will.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You think that you are doing the right thing by allowing women to make their own choices about their life and whether they will parent when they get pregnant BUT what about the child (and it is a child no matter how you try to rationalize that it is not). You put anyone else in jail or put them to death if they kill someone. You will even try and convict someone for killing an unborn child, when they kill the mother, BUT you don't consider it a crime when a mother chooses to kill her unborn baby. That makes no sense at all.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The receptionist collected the fee before any counseling was even suggested. I was not given any counseling about the abortion. All that was discussed was birth control methods. I was told I was 4 weeks pregnant, and it was only tissue. I was called in & asked to get on the table. The doctor came in, told me it would hurt some. He was right it did hurt. He suctioned my baby out, and they sent me to a room to lay down where there were several beds. I laid there for awhile then they let me go. There was not follow-up of any kind.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was NOTHING said about there being any emotional fallout from the choice I was making. There was nothing given me about the doctor's name, credentials, which (if any) hospitals accepted his credentials to practice in their facility. There was nothing said about how any complications would be dealt with should there be excessive bleeding, perforation, etc. I was given no information concerning whether emergency personnel would be called if needed or if I would be taken by personal vehicle. There were no discussions of any physical problems that could result from this "procedure."

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Abortion left me with almost immediate regret. I recognized quickly that what I had done was murder in

the most hideous manner. I understood that I had chosen to punish my child for my behavior. I felt only the worst possible mother could do such a thing. It was 5 years before I could return to church attendance. "Thou shalt not kill." was always rolling in my thoughts. I relied on tranquilizers, other relationships and even a tubal ligation to handle the pain of what I had done. It was 7 years before I ever could bring myself to seek help to deal with the option I had chosen.

10. How has your abortion affected others in your life?

At the time of my abortion, I had a 10 year old son. He always wanted a sibling. I denied him that opportunity by having the abortion and later with the tubal ligation. My parents were denied another grandchild. How do I know what God had planned for that child? My child could have had the cure for Cancer, Parkinson's, been a great jurist, etc. The world has been denied a beautiful human being with all the special traits and abilities each of us have.

11. Based upon your experience, what would you tell a woman considering abortion?

Having gotten the help I needed for the choice I made, I would & have expressed to women considering this option to think long and hard if they are ready to accept the consequences for that choice. Life begins at conception. By the time you realize you are pregnant the child is already a person. He/she feels pain, has brain waves, etc. There is a purpose for that child. It may seem hard now, but the price of abortion is much more than what you feel now. You can't take it back. Should this be her first child, she's setting herself up for a higher risk of breast cancer. Regardless of the number of live children, she's setting herself up for another "unwanted" pregnancy, depression, drug use, alcohol abuse, bad relationships, etc. Taking a life is never free.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Based on my experience, I can't believe abortion is still legal in this country. Let me share that my son was also an "inconvenient" pregnancy in 1968. He is now 40 years old, and I wouldn't give up these years for all the "convenience" in this world. Notice I found a way to "handle" his birth, but in 1977 (after Roe v Wade), I threw his sibling in the trash. The "easy way" has been the hardest to live with. I've heard people say women will get abortions legally or illegally. Most women are not going to disobey the law to abort a pregnancy. I've even heard the argument that they will use coat hangers, and perform their own abortions. Having lived in an era without Roe v Wade, that attitude seems to be terribly demeaning to women. The truth is that Roe v Wade has caused much more pain for women than it has relieved, and the pain of abortion lasts much longer than 9 months. Part of the consequences of abortion can be child abuse because of the pain mom is not dealing with. The very thing that abortion was to stop. This is not about winning. This is about protecting those yet to face the consequences of this option. I don't have the ability to stop this from happening to others, but you do. Please step up, and ban abortion from the laws of our country. Don't let another woman and child suffer the pain!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CA

County of san diego

My name is Jeri Hawkins. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Diego CA

06//1991

2. How many weeks pregnant were you?

3. What type of abortion was performed?

I was a part of a research project where I was put to sleep, I am not sure what kind of abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I only knew that I was pregnant and that at the time my mother had made all the arrangements. I couldn't have done it myself.

5. Were you adequately informed of the consequences of abortion?

Yes No

For years after I was depressed and when I finally had children I had a very hard time loving them, for the guilt I had after killing a baby. When I had the abortion immediately after I knew I had done something wrong. I found no escape from the guilt of what I had done until just two years ago. It was a sad time in my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my mother

9. How has abortion affected you?

It made me sick inside for a lot of years, every Mother's Day when I would go out to brunch with the children I have now, I would just cry and cry. Knowing I didn't deserve any children because I had killed an unborn one. There were other times that I just wept and wept and wept over what I had done.

10. How has your abortion affected others in your life?

I don't know my husband doesn't talk about it. My children now don't know. My siblings were sad I had

done it.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that abortion is murder, I know from experience. I would try my best to persuade her not to do it even if it meant raising the baby myself. Whatever hardships we endure raising a child will never compare to the guilt and shame of killing an innocent baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would ask them to help save women and children from women's own "Choices". We don't even know what we are doing in that moment, we are pregnant, emotional, scared, not thinking straight, we can't conceive the consequences of our actions. I would tell them I wish abortion wasn't legal. It almost ruined me, my husband and my children now. Children are a blessing, why are we throwing them away. I heard someone say that the mother's womb is the most dangerous place in America to be. Isn't that sad.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Dallas

My name is Teresa Carrow. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

East St. Louis IL

03/16/1978

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

I think a DNC .. too long ago, not sure about the date but regret it to this day

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

We just lined up like a cattle call. There are no happy faces and caring physicians, nurses or technicians in an abortion clinic. I was in a fog when I went in there. My sisters (2 older) told my parents (Catholic) they were pregnant (also teenagers). My sister Pat was six months, they had to fly her to NYC. My other sister I do not recall how far along she was, only the pain my parents (and certainly they as well) endured. I did not tell anyone.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me I would never have children. No one told me of the emotional damages in addition to the physical damages it caused me. I am crying now as I type this, I lost my boyfriend, he wanted to marry me and "do the RIGHT thing". But, I didn't want to put my mom and dad through anymore sorrow and truly I felt after I graduated Jerry and I would marry and have a family. He was devastated, I regret it to this day. It was painful, they scraped my insides out and the cramping was awful. The mental anguish and the fact I bore the weight of my decision on my own caused me to self medicate with drugs and alcohol, trying to forget what I had done.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

See above... I asked and know God has forgiven me. I know I will see my child in Heaven but the

feelings still haunt me on occasion. I have to grab ahold of the Word and God does provide strength. I am 47 now, single and childless. Do I attribute it to the abortion? Perhaps, that and other choices I made throughout my life.

10. How has your abortion affected others in your life?

My sister Pat who had her partial birth abortion died at age 47 (2005) from cancer. Initially breast, then after the poison of chemo and radiation and her weakened immune system it swept throughout her body. My sister Anne struggles with insecurities and feelings of inadequacy, as do I. No one tells you this...

11. Based upon your experience, what would you tell a woman considering abortion?

STOP! Don't do it, consider the consequences, weigh the facts and if you are unable to care for the child, consider adoption. So many are unable to bear children. My friend just adopted a teen mother's baby last year and to see that child in a good home. Alive and well. Nine months is a short period in our lifespan and children are a gift from God.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Look at the facts, look at the fractured lives, look at the bible and what the Word says. How anyone could think this is a viable option is beyond me but young people can be easily impressed and coerced into doing something against their being. Even if you are young, you know deep inside it is wrong.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Johnson

My name is Rebecca I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Harbor City CA

06/15/1979

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

the procedure itself was explained but nothing more.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no counseling whatsoever.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

intimacy/sexual issues, feelings of inadequacy, depression, self-hatred

10. How has your abortion affected others in your life?

Took the life of my son's would be siblings. He is an only child.

11. Based upon your experience, what would you tell a woman considering abortion?

You may think that you are taking care of a problem by having an abortion, but the reality is you are creating more emotional and spiritual problems for yourself if you have an abortion. You do not know NOW how you are going to feel LATER about having an abortion. This isn't a "choice" it's your baby. You might be in a situation where you didn't plan to get pregnant and now you find yourself pregnant

by some guy that you never intended to have a long-term relationship with... but never lose sight that this is also YOUR baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Would you support someone who wants to kill you? No? Well why not? What makes your life more precious than the unborn? Why do you have a right to live? You once started out in the womb, so therefore you know that this is where life begins. This isn't a "choice" it's a life. Abortion not only goes against the grain of a Holy God, but it goes against the fiber of your being. There isn't anything that feels 'right' about abortion. I know I've been there. Abortion is a sin that keeps on giving. It causes more grief and pain than you could ever imagine. To legislate this is a choice is to devalue human life. If you believe that abortion should be made legal, when above of all things the safest place for a child should be the mother's womb, then there isn't anything wrong with drive by shootings, or school shootings, or random murders because it's just life. That's all ... just somebody's innocent life. READ THE BIBLE about innocent blood shed and then tell me it's ok to perform in-utero murder.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Dallas

My name is Mary Guzman. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

04/18/1998

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They did explain the procedure to me but latter I found out that it leaves scare tissue and many women have difficulty getting pregnant later.

5. Were you adequately informed of the consequences of abortion?

Yes No

They you to talk to someone and fill out a paper stating why you want the abortion but no asks how you really feel nor do they care. They just want to make sure all their bases are covered.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Unfortunately, my mom

9. How has abortion affected you?

I was seventeen and depression hit me hard at the time I didn't know why it was so strong but now I know the consequences of taking a life. Not to mention the drugs and many more sexual partners that followed.

10. How has your abortion affected others in your life?

I don't think I've given my self to my family 100%. I know have three children but still struggle to come to turns with what I've done. Sometime when I look at their faces I think of the babies I should have had. As for me and my mother we argue about the smallest things.

11. Based upon your experience, what would you tell a woman considering abortion?

Never. I would not and I actually tried to prevent my co-worker from having one. I gave her scripture, prayed for her but she still went through with it. I was so sadden and angry at the same time but not for her but her baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say how can murder be legal. Who in their right mind legalizes murder because thats what they've done. Please reconsider looking at the law these babies can't speak for themselves but they have the right to be born. Abortion causes pain and is wounding the women and men the participate in it. Is that what America is coming to a nation that looks the other way? It is no wonder where our nation is going, its broken and a start to fixing it is over turning Roe vs. Wade.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Travis

My name is Donna I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Houst TX

03/05/1984

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Vaccuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told the baby's hands and feet were already formed and nor was I told the baby would feel the pain of the abortion. I was not told of the possible damage to my body or mind. I was not informed that the baby would be ripped out of my body and destroyed in the process.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told of the possible damage to my body and the definite damage to my mind. I was not given told who to contact for support and counseling. I was not told of the hurt and guilt I would carry for years after the abortion. I was not told that I may not have a child as a result of the potential damage done to my body.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend and the abortion "counselor."

9. How has abortion affected you?

I still carry the guilt over having killed my child. I hold a grudge against my then boyfriend, now husband, knowing he was the one who encouraged the abortion at the time. He regrets his actions yet the pain is still there. God blessed me with a son since my abortion but I have miscarried another child and have not been able to get pregnant again though I desire more children; I question if this is my punishment for killing my first child 24 years ago. My son or daughter would be 24 this coming

December - what a life he/she may have had, had I let him/her live. What miracles could work through him/her.

10. How has your abortion affected others in your life?

I hold my parents and my now husband responsible for some of my actions. Yes, I made the final choice and it was something I live with every day and regret. I don't know if would have made that choice if my relationship with my parents had been more trusting and open and if could have been more confident to stand up to my now husband and said, "No. This baby deserves a life with a loving family." I hold them to be as guilty as I am and that causes me to not trust them are be open with them now.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them the abortion may be over in minutes but the effects on them are permanent. They cannot bring back the life they allow an abortionist to take. I would ask them to read "The Scarlet Lady" and see what really happens in abortion clinics. I would share the life story of "Jane Roe" and let them know how she was used by abortionist to promote the legal killing of children.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is the legal and systematic killing of our future. By keeping abortion legal, we allow men and women to choose who has the right to live or die; we allow our country to become a land full of women hurting and lashing out for the murders committed against them and their unborn. Abortion limits the future by killing those children who may cure cancer or lead our country to peace. America cannot afford to keep abortion legal.

The State of TX

County of Travis

My name is D F I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Austin TX

10//1995

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one presented the pros/cons of each side. All I knew is that I could terminate the pregnancy with no real affects.

5. Were you adequately informed of the consequences of abortion?

Yes No

Definitely not the emotional side. I struggled with guilt for at least 10 years at what I had done. I take responsibility for not searching out other alternatives. But I do think this culture of abortion preys upon women when they are really vulnerable and scared with an unplanned pregnancy.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

boyfriend/father

9. How has abortion affected you?

As I mentioned before, I struggled with loads of guilt for 10 years. I was ashamed of what I had done and mad at myself for not seeking out other alternatives. By the grace of God have I found forgiveness and can only pray that somehow I can bring Him glory through my past.

10. How has your abortion affected others in your life?

I was able to tell my husband until 2 years ago. My husband was very understanding and comforting, but it certainly saddened him that I didn't feel worthy or that he could be trusted not to judge me.

11. Based upon your experience, what would you tell a woman considering abortion?

Please please consider other options. No one tells you about the emotion scars that you will bear. Seek out help at centers that will help with prenatal care, baby supplies, or adoption connections. The long-term affects are indescribable. We must protect those who cannot protect themselves.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I do believe that abortion should be available as an option to women who have severe health risks involved. But that women should be given every bit of advice as to the pros/cons to the decision she is potentially making. Using abortion as a form of birth control is a different story. It's equivalent to genocide or infanticide. Why is an unborn child deemed to have no rights? Because they have not been separated from their mother's womb? As a society we must protect those who cannot protect themselves.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Harris

My name is B B I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

New Orleans

04//1971

2. How many weeks pregnant were you?

3

3. What type of abortion was performed?

Don't know the medical term, but a suction device was used.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had no idea what was about to occur. I simply made an appointment, walked in, and the abortion was performed. No one explained anything, or really even talked to me. A nurse simply told me to lie down, and the doctor came in quietly. No one said anything after the procedure either. I just walked out.

5. Were you adequately informed of the consequences of abortion?

Yes No

If I had any idea what the consequences would be, if someone had even given me a hint at the mental anguish, sorrow, guilt, and despair I would experience, they would never have given me enough information to come close to the torment I lived through after the abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend and I was afraid to tell my parents.

9. How has abortion affected you?

There are not enough words to express the guilt and shame I lived through after the abortion. Every decision I made after that was distorted by the pain I carried as a result. I walked into the clinic oblivious to the truth, in complete denial that an abortion would take the life of my child. I walked out of the office, and within minutes, the weight of the world was on my shoulders. No one had to tell me that my decision was wrong. The veil covering my eyes before the procedure had been removed. I lived in a state of depression and shame for years. The mental anguish I have suffered is beyond words adequate

to convey my feelings. It is a decision I have regretted every day. If I could change one thing in my life, it would be to face my greatest fears at that time, own up to my indiscretion, and if necessary, be a single mom.

10. How has your abortion affected others in your life?

It is very easy to see that my "secret" has shaped me as a person and the choices I made to hide this decision from my family and friends, thus hurting the people in my life. My relationship with my parents suffered, as I could never really let my guard down and freely be myself again, for fear they would find out what I had done. Whenever I dated someone, I worked very hard to try to be as perfect as possible, so they would love me. My trusting someone with my secret, led me to keep my husband(s) at arms length for fear that it would be used as a reason to not love me. My three children have suffered as I was so afraid that they would make the same choices, and I would have to watch them suffer, so I was a difficult mom when it came to their boyfriends. I was never free to talk to them openly out of fear I would have to tell them what I did. It was too risky. I also kept my friends at arms length. Whenever the topic came up about abortion, their comments about what kind of person could do such a thing haunted me, and thus I would keep my friendships very casual. People would invite me to join them for social gatherings and have fun, but I couldn't. I have been a spectator and not a participant in life. It is a self imposed punishment, even though I know I am forgiven. Mentally, the scars are still there.

11. Based upon your experience, what would you tell a woman considering abortion?

First, I would tell her EXACTLY what is going to happen to her child and herself. I would ask her to tell me the reasons she believes this would be the best choice to make. I would ask her permission to share a part of my story with her, to prepare her for the emotional rollercoaster she will ride after an abortion. A ride that has as many twists and turns as the emotions play out in her life. I would not criticize her for her choice. I would simply want her to know she had another choice. A very hard choice, but having an abortion is the most difficult choice because the effects last a lifetime. I would talk to her about the joy of knowing that she would give life instead of taking it. As with any tough decision, a sacrifice is always made, but the sacrifice to give life instead of taking a life, was worth it. Choosing to be the vessel of love would be a choice she would never regret. If she was not able to care for her child, then she would have a second blessing of giving her child a chance to be adopted. I would also tell her that although it will be very hard, and not an easy decision, it is the right one, to choose life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would ask the court and its members to visit any hospital in any city and spend time holding a newborn baby. I would pray upon the court to talk to the parents, grandparents, and family members of this little child, and how it feels to know that they did not miss out on loving this child. I would also ask the members of the court to allow us, as those who have survived the "concentration camp of abortion" to hear what we have experienced. It cost my child it's life and although I didn't die physically, I have lived a life of one who died emotionally. They say you never really recover from losing a child, and I can attest to this as being true. I would also like them to ask themselves the hard question of what would they do if it was their granddaughter or grandson they would never get to hold, or have them run into their arms and tell them they loved them. I would ask them to try to imagine the hell their daughters would go through so someone would not be inconvenienced or because the law says it is legal. Laws are meant to protect us, not destroy us. I would also like the court to consider that life is a gift that abortions take away. It violates the very heart of God, the Creator of life.

2. How many weeks pregnant were you?

20

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Honestly, I didn't fully understand the procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

No idea of the physical, emotional, and spiritual battle that would follow the abortion

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has taken me 9 years to fully heal from this decision. I was depressed for years, and until I attended a Rachael's Vineyard retreat, i could finally let go & forgive myself knowing that god has.

10. How has your abortion affected others in your life?

My husband & I made the decision together, so he has dealt also with the pain, anger, and depression surrounding this issue.

11. Based upon your experience, what would you tell a woman considering abortion?

I think women feel they can't live with the choice of having the baby for whatever reasons they might be. But, it's far worse living with the choice to end your childs life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Lets make murder legal too then.

9. How has abortion affected you?

It really left emotional pain in my life. I had spouts of crying , depression, and no self worth. I felt guilty and horrible about the choice I made. Then after I got married, my husband and I found out that he was infertile so the pain worsened as I missed my only chance in life to give birth. I now have adopted 3 beautiful children in which I admire the choice that their birthmothers have made. I wish I would of been told that there were options like adoption.

10. How has your abortion affected others in your life?

I didn't tell anyone, none of my family members because I was so ashamed.

11. Based upon your experience, what would you tell a woman considering abortion?

I would caution them about the emotional effects it has in your life. The depression that will follow, the regrets and thoughts of what if.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

They need to know that the effects are far more hurtful and harmful than anyone who has not

experienced it first hand knows.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that it was not a fetus but a blob of tissue.

5. Were you adequately informed of the consequences of abortion?

Yes No

I wasn't aware of the physical, emotional pain I would experience.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my mother and 19 year old boyfriend

9. How has abortion affected you?

As soon as it was over, it affected me. I knew I had made a mistake. I was depressed, full of regret, angry, attempted suicide, drinking, tried to get pregnant again soon after. I was out of mind for fourteen years until I allowed the Lord to set me free from the shame, and pain I had felt.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! I wouldn't wish the experience I had on anyone. You won't leave the abortion clinic feeling good about what you have done.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Women are being misled to thinking once the abortion is done that they will suffer no more. When in truth not only is their baby gone, but they will suffer physical and emotional scarring.

2. How many weeks pregnant were you?

3. What type of abortion was performed?

suction: they just ripped the baby to pieces and suctioned it out of me

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I only saw a brief film that vagly described the procedure only. It never went into detail about what they were going to do to me or about the fetus.

5. Were you adequately informed of the consequences of abortion?

Yes No

They never spoke about what stage the fetus was in, if it would feel anything, or how I might feel if I went ahead with it.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

my family

9. How has abortion affected you?

At the time I was very depressed, angry and had no where to turn. I was confused about what I had done and unsure of everything surrounding the procedure. Because of my lack of understanding at the time, I went on to have two more abortions. It was not until years later, after I had become a Christian, that I saw a movie called Silent Scream. It was about abortion. I saw this on a Christian program. I watched in horror as I saw with great detail, what the different procedures did to children. I fell to my knees and screamed at the top of my lungs, God please forgive me I did not know what I was doing, God forgive me!! I cried for hours, lying on the floor, rolling around like I had just lost those children all over again, only this time I KNEW WHAT I DID!!! Although that was one of the most horrific times of my life it was also the most healing. I asked Jesus to forgive me and I asked my aborted children to forgive me. And then I asked Jesus to heal me, to heal my heart and soul.

10. How has your abortion affected others in your life?

I am now an advocate against abortion. And when asked am not shy about giving my testimony.

11. Based upon your experience, what would you tell a woman considering abortion?

It is my hope that because of what I and many like me have gone through, that one of the main things is that if you have already had an abortion, there is forgiveness. Jesus loves you, he forgives you and can and will heal you. Also, that you should never let anyone pressure you into having an abortion. It is your body. There are many people out there who would love to adopt children. There is another way. I would ask them to search their hearts very carefully, and seek Jesus for help. Don't close yourself off.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That life begins at conception. That abortion is MURDER anyway you slice it!! There is NO law given by men that makes MURDER BECAUSE OF LIFESTYLE OR CHOICE LEGAL!! LET THEM BE MADE TO WATCH ACTUAL FILM OF THE PROCEDURE OF PARTIAL BIRTH ABORTION/ OR ABORTION. MAKE THEM WATCH EVERY DETAIL UP CLOSE...THEN YOU TELL ME TO MY FACE THAT IT IS NOT A LIVING BABY!!!

My family physician

9. How has abortion affected you?

I didn't realize the burden of shame and guilt I was carrying around. After my abortion while I was preparing to leave the building I realised that I was in the pit of hell and I asked God how did I get here. He said take my hand and I will help you out. I had a feeling for years of shame and inadequacy that I didn't understand. In 1995 I went through a post abortion counseling class and realized what I had been through and how it had been affecting my life. I went through a healing and forgiveness ceremony and dealt with the pain I had hidden so deeply away for many years. I have been forgiven by God and have forgiven myself. I will one day see my child in heaven and I have already asked his forgiveness.

10. How has your abortion affected others in your life?

Know one else knew but my mother she never really wanted to hear about it. I never told the father who I was married to but he had already left me alone to have the baby by myself. I tried to tell him years later but he wasn't receptive. I believe there have been affects that I will never know in this life time on

earth.

11. Based upon your experience, what would you tell a woman considering abortion?

It is painful and a lie. It is murder and you will be murdering your child, a God given life. It is a life and a beautiful life to be cherished. Don't carry the shame, guilt and pain of believing a lie. It may seem like a quick easy solution, but the cost is so great.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That we are killing the innocent who have no say in what is happening to them. We are devaluing life, God's creation. He is the author of Life and Death. These children are vulnerable and need the protection of the law, they are humans and deserve to be protected from being killed. Once I had been through this seemingly harmful experience, I realised that I had legally participated in the murder of an innocent life. I had bought the lie and my child died because of it.

1. Where and when did your abortion occur?

06/18/2008

2. How many weeks pregnant were you?

3. What type of abortion was performed?

Surgical

4. Were you adequately informed of the nature of abortion, what it is, what it does?

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I feel amazing, that I still have the right to decide how I should live my life. Let me tell you why I had an abortion. I was 18, and still am. No college, low paying job. Yet, I had a whole support team of people. Adoption? So many children are in the state foster care system, even newborns, because there just aren't enough people willing to take a child in. Motherhood? I'm sorry, but I find it a whole lot more irresponsible for me to bring a child into this world, live off of the government, for the rest of mylife, and not be able to make sure that my child has the best. Abortion? Quick, easy. So many people kept telling me, over and over again; you can get help. But, none of those people were willing to help; no one was, and no one could. In these types of situations; it's NOT just the thought that counts.

10. How has your abortion affected others in your life?

Amazingly well. No one is hurt over it, no one is depressed, and i'm happy as hell.

11. Based upon your experience, what would you tell a woman considering abortion?

If it's your best option; DO IT. Don't let anyone tell you what you can or cannot do to your body!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it should be legal. On very rare occasion do women actually have problems post-abortion. The reason why this is hard to believe is because you never hear a woman who is healthy afterwards coming out saying "Do it, you'll still be healthy". No, all you get are ignorant people who shouldn't have done it in the first place telling you that it will ruin your life. Would you rather a choice you made affect you negatively, or allow a child to be born that will feel as though they were a mistake?

3. What type of abortion was performed?

suction aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not given specifics about the abortion. Only that at this stage it was not considered a baby and that based on my circumstances this would be best for all involved

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told of any consequences of abortion

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

father of baby

9. How has abortion affected you?

after my abortion I wanted to die, no really, I wanted to die. The only way that I could live with the decision that I had made was to harden my heart to shut down emotionally. I became a walking dead person, I felt that I had no value and I became VERY sexually active, nothing mattered anymore until I had an encounter with God and He walked me through healing.

10. How has your abortion affected others in your life?

my mom specifically felt the loss of her first grandbaby The world has suffered a loss because my baby's name was Tiffany which means "revelation of God" and came from the word Epiphany commemorating the visit of the Magi and their ability to interpret dreams. She would have been a prophetic voice in this hour which we live.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it!!!! In this country we do now have the right to choose an abortion but in so choosing we

become so "chained" to the hurt and pain that the right to choose is no longer possible. I could not "choose" happiness, I could not "choose" sleep at night, I could not "choose" peace, and I could not "choose" to forget that I had given someone permission to murder my own child and in so doing my own daughter's blood was on my head and in my hands. Thank God for His redeeming work or I would not have survived the pain of my abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

From my own experience--I was only 17 years old and got pregnant by a guy that was only using me for a summer fling (along with several other young girls) I was scared and alone. I didn't feel that I could go to my parents, when Planned Parenthood reassured me that this was the right choice and that I wasn't prepared to have a baby, I believed them. I believe that everyone going into an abortion clinic should be required to watch their baby on 3 or 4-D sonogram. I think if that happened abortion would become so rare and the reality of each child being a unique individual created by God would be so obvious that it would only make sense to outlaw abortion just as we have outlawed murder under any other circumstances.

The State of TX

County of Brazoria

My name is Kay Archer. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Houston TX

10//1983

2. How many weeks pregnant were you?

20

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I told them I was farther along than what could normally be performed for a suction abortion, but they didn't care. They told me it could be done. I had NO idea that because I was so far along that the suction abortion would be so devastating to my life, my baby, and to my body, physically, mentally, emotionally and spiritually. I was led to believe that it didn't matter how far along you were that you just had a normal abortion. NO ONE told me any different. I was never so ravaged with pain in my life afterwards. I laid on my apartment floor for two months with a heating pad for so long and so tight that I had blisters on my stomach. I hardly ate or slept, only when it would stop for brief moments. I cried constantly suffering so badly with emotional and physical pain. I didn't realize that what I was feeling was actually labor pains. I did this for two months. I was too ashamed to go to the doctor and even if I could, I had no money and no one to take me..I was for lack of a better word - alone.

5. Were you adequately informed of the consequences of abortion?

Yes No

Consequences were NEVER discussed.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend

9. How has abortion affected you?

After two months of incredible pain, I had an incredible urge to push one day. I went into my bathroom and I ended up having what was left of my child, in my toilet. At that moment, my world stopped. I see that picture in my mind almost every day. Right after, I developed Pelvic Inflammatory Disease, Endometriosis and eventually had to have a complete hysterectomy at the age of 24. I LOST my

womanhood and any possibility of having any more children. I also tried to commit suicide twice and was hospitalized in a mental institution three times over an eight year period because of it. Because of scarring and surgery, I now have Gastroparesis and IBS and suffer immensely with stomach problems. I suffered with Dissociative Disorder for eight years and only through my Lord Jesus did I get through it.

10. How has your abortion affected others in your life?

My husband has suffered through this with me and I thank God that he is a Godly man. We wanted children, but I could not have any because of my abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her my own personal story first. I would also tell her about a loving God that has other plans and that if she really cannot have her child, then there are other options she can look in to.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would again tell them my own personal story first. I would stress that if they are going to use our tax dollars, to use it for good. It could go towards adoption plans or homes for unwed mothers. I would ask them how can it be that the FDA can pull medication or food from the shelves for damaging the health of others, but abortion can be legal?

HOW MY ABORTION AFFECTED ME

The State of TX

County of HARRIS

My name is M E I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Houston TX

11/20/1999

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The dr. assumed I was old enough to understand what the procedure was designed to do.

5. Were you adequately informed of the consequences of abortion?

Yes No

No warnings regarding mental or physical health consequences were ever provided. I learned years later about the mental health problem of depression after the live birth of my second child when I began to have flashbacks about the abortion and was consumed by guilt and sadness.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

A family member

9. How has abortion affected you?

It cost me several years of joy with my other children because the depression and guilt about the "missing" child has been so profound. Having my other children has made me understand quite clearly what it was I gave up and I will always mourn that missing child.

10. How has your abortion affected others in your life?

My children have been cheated of the full joy of a mother towards them because I have never been able to fully shake the guilt or the anger at myself.

11. Based upon your experience, what would you tell a woman considering abortion?

Better to risk the stigma of an unplanned pregnancy than to live your whole life with regret, wondering who the aborted child might have been, how they might have enriched your life. Abortion is permanent and the scars it leaves on your heart and mind never really quite disappear.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Have it done and then wait a few years to see how the sadness resurfaces. Millions of women are not told the full truth about the physical and mental risks associated with this procedure, so if abortion is to be kept legal there should be a federal law in place requiring FULL disclosure.

9. How has abortion affected you?

Physically: I miscarried one child because of a weakened cervix and was barely able to carry the other two babies long enough. Emotionally: I spent lots of time crying over the fact that I had killed my baby and felt that I was being punished for that by my physical problems. I also struggled with wondering if anyone would love me ever again.

10. How has your abortion affected others in your life?

My husband has had to watch me cry and feel guilty and struggle with intimacy problems. My sons sometimes feel like I hover over them.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT!! IT WILL RUIN YOUR LIFE!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You are allowing the killing of babies for the convenience of the mother and that mother will suffer the rest of her life physically and emotionally.

The State of TX

County of Erath

My name is Crystal Derrick. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Fort Worth TX

//1994

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Not sure exactly, but it was a surgical procedure, in an abortion clinic.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The abortion clinic did not provide any information, regarding the procedure. I did have to sign papers, and I received information regarding possible side effects to watch for following the procedure; the usual information following a medical procedure, but nothing regarding emotional well being or alternatives.

5. Were you adequately informed of the consequences of abortion?

Yes No

There were no counselors on site to help you with your decision. I guess the clinics just assume the clients are well informed and have already made their decision prior to the abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Parents

9. How has abortion affected you?

I immediately felt remorse, followed by years of depression, shame, and self loathing. I have since come to forgiveness and recovery in my life but I will always have regret.

10. How has your abortion affected others in your life?

My family did not speak of the abortion for 12 years. There is guilt and regret, but also forgiveness after years of pain.

11. Based upon your experience, what would you tell a woman considering abortion?

I would say, there's not a day that goes by that I don't think about my baby and how I wish I could have given the gift a life to a family that could not have children. I was very young when I became pregnant but I now see the true sacrifice of adoption and how wonderful it would have been if I would have been

educated with alternatives to abortion. Once you are past the initial shock from family and those involved with your pregnancy they will welcome a baby with open arms into this world. I never met a woman that has chosen life that says they wished they would have had an abortion. I have since met numerous women that regret their abortions.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The devastating, long lasting effects on the woman, following the abortion are insufferable. It is not a choice when women are deceived and coerced into abortions every day, due to lack of education and alternatives. I do not believe that it was my choice to have the abortion and had it not been legal, I would not have felt victimized by abortion. I believe that there are alternatives to abortion that should be utilized at all cost, for the health and well being of women. My youth and self-respect were robbed from me at a young age. Many women spend years and even a life-time in denial, even arguing for the very thing that destroyed their lives to justify the outcome of their unhappiness. But I will not remain silent any longer. I must speak for my child who never had a chance to live.

1. Where and when did your abortion occur?

Houston TX

2. How many weeks pregnant were you?

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Father, Mother, and boyfriend.

9. How has abortion affected you?

Abortion caused me to go into severe depression. I would get horrible nightmares and continually relive the moment in my mind. I was unable to concentrate. I would begin to cry out of no where. I wanted to kill myself after my abortion, I regreted it so bad. I began to use drugs and alcohol to numb the pain. I still feel the heartache of abortion everytime I see a child around the age of what my baby would be.

10. How has your abortion affected others in your life?

Abortion has hurt family members and the babies father. He wanted me to abort but at the same time he didnt. He went through depression and still to this day has not forgiven me.

11. Based upon your experience, what would you tell a woman considering abortion?

Dont kill your baby. Murder is wrong and that baby deserves a chance to live. Your going to regret it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

How can murder be legal? If someone kills a mother thats pregnant they are tried for two cases of murder. It is not a persons right to take a life. There is no difference between killing a one week old

baby then killing a one month unborn baby. An unjust law is not a law at all. The unborn baby has its own body and should have the right to choose between life or death. If your mother aborted you when you were a month or even two days in the womb would you be alive or dead? Dead. Then why are you supporting the greatest genocide in all human history?

My boyfriend and the clinic

9. How has abortion affected you?

Seven years ago, I was pressured into having the abortion by my current boyfriend at the time and by the clinic when I asked to go home and think about it. It is something that tears me up inside, at least once a day. It happened on my birthday in 2001. That same year, I had drifted deep into depression and grief. I literally could not stop crying, ever. It debilitated me and I was utterly alone. I knew I was a horrible person. I suffered for almost a year, alone and afraid. My daughter was born with several disabilities in 2004. When she was first born (I did not know beforehand), it was quite a shock. My first thought was that God was punishing me for what I did, and the depression set in again. I still cry for the baby I chose to send to heaven in April 2001. My heart still aches for him/her.

10. How has your abortion affected others in your life?

Probably my husband, while he had to witness the love of his life feeling despair and unending grief. That can be hard on anyone. Then when our daughter was born, the disability issue created extreme guilt for me which really affected the joy we should have been feeling at the birth of our child.

11. Based upon your experience, what would you tell a woman considering abortion?

The best I could offer is my personal story. I would not want to appear judgemental because that does not work. I would also offer my unconditional support whether she had the abortion or not. I felt alone with no where to turn after mine, and I think it is an important time to reach out to these women. Honestly, as weird as it sounds, I would rather speak to the women who've had an abortion to give them a safe place to land. I think that would be more effective to make a permanent change in reducing abortions because I believe the majority of women who go through an abortion change their positions. This could increase the number on the prolife side, which increases votes. Just a thought!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Again, my story stands as my testimony.

9. How has abortion affected you?

Infertility, depression, PTSD, suicidal thoughts

10. How has your abortion affected others in your life?

Husband and children dealing with me through all these difficulties.

11. Based upon your experience, what would you tell a woman considering abortion?

That there are other options and that not having an abortion is a brave thing to do for her baby. It seems like many women have abortions because they do not believe that they can provide an adequate environment but that the experience of having a child and giving this child to a welcoming home is rewarding in and of itself despite the consequences it brings.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is a quick way out of a situation that women find themselves in. If they were not given the

opportunity to abort the baby, they could find healing through the process of childbearing and birth and have some closure on the situation that they were put in. The quick fix robs them of the experience to learn and heal from the situation. There is no closure in abortion. Something is taken away and there is no chance to grieve and move through the experiences.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Wichita

My name is Carol Castro. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Warren MI

04//1980

2. How many weeks pregnant were you?

3. What type of abortion was performed?

Dilatation and Cutterage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

This abortion was conducted at a hospital. I was anestitized. I remember an operating room setting. I was 19 years old. While I viewed abortion as birth control, and knew this would "un-pregnant" me, no one adequately informed me of the spiritual and emotional consequences which would follow.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

My a second abortion was at a Grand Rapids, MI clinic in spring, 1982 by vacumm machine. Two children God meant for me are not here. Only Jesus knows the blessings he wanted to give me through those children. I didn't know the father of my first baby. I lived with the father of my second. Relationship problems began after the abortion. Since we weren't getting married and I had killed his baby, I questioned what I was doing with him. I remember fights and screaming, "It's because of the abortion, right?" We broke up a year later. Convicted of my selfishness, I tried church. In 1984, broken by economic trials, my guilt was overwhelming. The Christian message I heard growing up became real. I understood and accepted Jesus as my Savior. I remember lots of anger during that period. I realized how bad I had hurt God, and His plan, and I was real angry at the lies I had believed, especially angry at the U.S. government. Abortion, legalized while I was a teenager, is so wrong and destructive. Even though Christ forgave me, I remember periods of depression to the point of suicide. I married my husband in 1991, pregnant. We are still married with three girls. Only after becoming a mother can I say, with truth and knowledge, that abortion robs women of their God-given purpose and mission in life. Depression, anger, and suicide attempts have stopped since marriage and giving birth.

10. How has your abortion affected others in your life?

I'm sure it has. I believe the father of my second aborted baby probably suffers grief knowing he took me to the abortion facility and did nothing to stop the killing of a child. My parents' insurance paid for the hospital abortion, and I'm sure my mother, also a Christian, suffered guilt for her actions. My oldest sister had married a man that was sterile because of working with chemicals. Somewhere during that period of great anger, I realized that I could have had the baby and given it to my sister to raise. She remains childless to this day. Of course, there are so many other families like that, waiting to adopt a baby. By choosing abortion, I hurt them.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. God has uniquely designed us for childbearing. We are healthiest when we bear our precious little gifts and live according to God's will. The abortions did not damage my ability to have children, but that is a real possibility.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Our constitution guarantees life, liberty, and the pursuit of happiness. Abortion takes away a U.S. citizen's life, the mother's emotional freedom and liberty, and causes many immense unhappiness. Please, make it illegal today.

9. How has abortion affected you?

I have such regret and shame and pain. The Lord has healed me of unforgiveness toward myself, but it is something that you can ever forget. I still feel sorrow at 49 years old. I have four children, and I have never told them.

10. How has your abortion affected others in your life?

I never told anyone, except counselors. It probably affected my marriage.

11. Based upon your experience, what would you tell a woman considering abortion?

That it would be a big mistake. That it is taking an innocent life. I wish I had been informed about abortion, and not had been so ignorant. I miss and regret that I did not get to have the two beautiful children that I could have had.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I do not agree that abortion should be legal. Children have a right to be born. They are precious and there is always adoption. Abortion can have severe consequences; such as, death, health problems, emotional and psychological, etc.; not to mention, it is murdering a live human being.

9. How has abortion affected you?

After realizing that I aloud the abortionist to kill my baby, and I saw how far developed my baby was I was devastated! I became very depressed used drugs to self medicate, alcohol, tried to kill myself. I did not want to live.

10. How has your abortion affected others in your life?

After people are educated on what the abortionist does and the developement of the baby, they realize abortion is killing children. It hurts everyone involved.

11. Based upon your experience, what would you tell a woman considering abortion?

There are other options such as adoption. When I found out I was pregnant, I had a 3 yr. old daughter and I thought I couldn't do it (have another kid) but really I could have still taken care of this child and would have IF I had only known. You can't change this choice you make. DON'T DO IT!!

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Killing innocent children is murder. The heart starts beating on the 21 day. That is a baby. We have already killed millions of children and hurt those involved. Now is the time to stop this insanity!

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

There was no counseling. It was information on where I go to get an abortion and would I like to donate the specimen for science.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told only of what I would experience right after the abortion and if I had signs of hemorrhage, to go to the emergency room.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my husband (who regretted and repented to God)

9. How has abortion affected you?

Relationally, I became stunted, I drank, I smoked (at the time), w/drawn, SEVERLY depressed which I ended up having to go on medications for (was delivered of having to be on medications 2yrs later), was promiscuous, almost lost my marriage, hated myself, loathed myself, so much guilt until I gave myself to the Lord.

10. How has your abortion affected others in your life?

We had terrible marital problems for several years after the abortions-yes, I had multiple ones. I was a wreck and so was my family.

11. Based upon your experience, what would you tell a woman considering abortion?

Please, don't have one. They don't tell you what happens to you emotionally and relationally after you have had one. It was the MOST devastating experience after I had them. So much darkness and

sadness and guilt. If it wasn't for the Lord, I would have been suicidal and even contemplated that several times.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We, as a nation, that condones abortion, condone murder of innocents, and we will suffer devastating consequences as a nation, for it (and already have and will continue to do so as our society delves deeper into lawlessness, injustice, murder, and all other depravations that are 'protected' by our mostly corrupt/misguided judicial system).

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Midland

My name is K B I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

07/15/1973

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

suction D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was asked if I was sure I wanted to go through with "this" and told that once I signed the form, the "doctor" would remove the fetus through a vacuum, I would be given some orange juice and left to rest for about 30 minutes before leaving. I was not told it was a baby or that I would have lasting depression, thoughts of death, etc.

5. Were you adequately informed of the consequences of abortion?

Yes No

I specifically remember asking the abortionist before he performed the abortion whether "it" looked like a baby yet, and he mundanely replied, "No, it's just a blob of tissue." and continued with the D & C. All the while, a "nice" nurse who seemed sympathetic to my plight, held my hand and let me squeeze hers when the pain got too bad....

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

At first, it only made me sad, but I was not sure why since the abortionist had said it was only a "blob of tissue". , I can remember being totally in denial. As I waited in the lobby prior to the abortion, I witnessed another "victim" crying her heart out, waiting to have her abortion. I remember that making me sad, but wondering why she sobbed so, since I did not at that time feel like sobbing. After all, my boyfriend supported me and was there with me. Later, after I had time to recover, I had horrible dreams, the same dream over and over again. I often dreamed that I had killed a person, and the police were chasing me. Then, after about a year, I went into depression, thoughts of suicide, though not knowing it was directly linked to the abortion. You see, I had no knowledge of the anatomy of a pre-born, so I did

not connect what I did with "death"! After all, the abortionist had cleared my conscience on that matter by saying it was a blob....

10. How has your abortion affected others in your life?

My children know about it and are saddened that I killed a brother or sister prior to their own births. My husband is also sad, but he did not know me then, so he did not go through the abortion with me. He only sees my pain and wishes he had been there for me then.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT DO IT!!!! Regardless of your own feelings or if you ever do connect the dots and see what you have done, abortion is murder. Murder. You have killed a precious being. KILLED him or her. Why? There are other choices besides infanticide, murder, torture.....etc. of another TOTALLY INNOCENT HUMAN BEING!!! A BABY, for goodness sakes!!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I know all the rhetoric about pre-borns not having any inalienable rights guaranteed by the Constitution, etc. etc. They are not considered "human" until they are viable. Well, that is now almost a moot issue as babies are viable much sooner than earlier believed possible. A baby becomes a human the moment it is conceived, all it needs to grow into you and me is a safe, warm invironment and time. Abortion is a money-making industry which MUST NOT GO ON!!! Promiscuity is not an excuse to kill the product of the act of fornication, the baby! Please stop this insanity that has permiated our society. If the life of the mother is in danger, such as through the rare ectopic pregnancy, then the fetus, which is already dead or will die, should be removed in a humane manner. Rape and/or incest is no reason to kill the unwanted child! NO REASON. That child is the innocent here and deserves a chance to live and grow and experience life!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Harris

My name is Lisa Anderson. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Chicago IL

//1992

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

vaccum suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I did not know I was really killing a baby I was told the tissues doesnot actually form into a baby until after 8 weeks of pregnancy and that is why they suggest tohave the abortion before then.

5. Were you adequately informed of the consequences of abortion?

Yes No

I didnot know the consequences included depression, hatred of self, denial of love....These are all the feelings I have experienced in my life after having the abortions. I have actually had three.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I was not able to talk about them for at least 5 years. I felt less than a woman,and at this time I had other children. So it was even hard to relate with them and sometimes I still feel as though I am unworthy of TRUE love.

10. How has your abortion affected others in your life?

My family and I donot discuss this issue because I shared it with my soon to be ex-husband and he would use this issue every chance he could to belittle me and tell me that I was nothing more than a whore. So I chose not to discuss it any longer.

11. Based upon your experience, what would you tell a woman considering abortion?

To pray and seek the Lords counsel. I am truly fortunate that I have a relationship with the Lord Jesus Christ with whom I can share all of my burdens , problems and fears with. Or shall I say he has Barred them all for me. I have received peace about my mistakes but I would encourage someone else facing

the fears of having a child they may not be ready for to put the child up for adoption and to please take time for herself and learn who she really is in GOD's eyes. Not in a man's no matter if it is her husband's or a boyfriend, God has made us fearfully and wonderfully in HIS image.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

First experience one for yourself and not just go on the basis of assumptions...Experience is a teacher that cannot be ignored.

My name is Marian I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Houston TX

06/15/1990

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

I guess suction.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't remember any discussion about what I was going to do.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no discussion about it that I remember.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has caused many regrets in my life and possibly caused future miscarriages that I had.

10. How has your abortion affected others in your life?

My husband is very comforting about it. I haven't told many others

11. Based upon your experience, what would you tell a woman considering abortion?

That it is evil and they are being lied to and that they must not pretend to know that abortion is o.k. They should truly seek biblical pregnancy counseling centers and remember daily that they are growing a life in them.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

My question is why? Why should it be legal to kill an innocent unborn child when it's illegal to kill a child that is already born? Why should they look at the life that is growing in the womb and think that it has no right to live? Why can't they instead provide help for those who will carry their children under

difficult circumstances? Why don't they want us to continue populating the earth as God intended? Do they want our society to shrink? Are they glad that 50 million people have not had to burden our society? These are people that could have done so many things and basically had the right to live!!

The State of TX

County of Morris

My name is Stacey I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

06//1991

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Not sure...I was only 16

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only 16. I did not have a clue what they were saying to me and frankly, I didn't care at the time.

5. Were you adequately informed of the consequences of abortion?

Yes No

They sat me down for about 3-5 minutes to tell me in the end that if I needed counseling, they could make that available to me. They knew I was there without parental consent, so yeah, let's call home and tell mom and dad that I need counseling.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I, for years, was depressed and felt like I didn't deserve children. Praise God, I got saved and found forgiveness through Christ. I do remember laying there after the procedure feeling a hugh weight of guilt and depression sweep over me. I thought I would feel relieved, but I didn't. I knew in that moment I had murdered my own child. I tried to go on with my life like nothing ever happened, but it always came bubbling back to the top when I least expected it. I also had problems getting pregnant later in life when I wanted to have children, and I'm convinced this is why.

10. How has your abortion affected others in your life?

It really killed my parents, esp. my mom. I remember her saying, "You killed my grandchild!" It was torture for her and for me. She was right. I didn't have the right to steal that from her.

11. Based upon your experience, what would you tell a woman considering abortion?

That it wrecks you emotionally and it's not worth the price you pay emotionally, physically, or

spiritually. They (the abortion clinic staff) will make it sound like it's not a big deal..."just rest for the next week, nothing too strenuous", but they don't tell you that you will spend the rest of your life thinking about your child, wondering how your life would have been different, wondering what they would have looked like or acted like. It's not over when you leave that clinic. The worst part is just beginning. They don't tell you that you are risking never being able to have children again.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

No matter what they or anyone else say, life begins at conception. My heart told me that as soon as I aborted my child. I went to that abortion clinic to find relief, peace, but all I came away with was sadness, depression, and loads and loads of guilt.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Dallas

My name is Anne I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

01/29/1974

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was a senior in college and had been raped by a policeman that I was acquainted with and knew I couldn't tell anyone. I was in shock when I found out I was really pregnant and just went to a clinic. They were the ones who recommended I go to Dallas to "take care of things". A friend went with me a couple of days later - I just remember being in a daze the whole time not believing I was really going through what I was going through. I was a full time college Senior, working at McDonald's to pay rent, utilities, and food and had no idea where I would get \$450 to pay for the procedure. A friend finally did help me and I'm glad the girl went with me because she had to drive the 2 hours back to Waco because I was still out of it. When I stood up out of the car when we arrived back in Waco, blood came rushing out and I thought I was dying and my friend was scared as well. She helped me get upstairs and clean up and to bed and I finally was better after several days. I had missed some classes and work but eventually got back to my normal routine even though I wasn't "normal" again for years.

5. Were you adequately informed of the consequences of abortion?

Yes No

I think I remember them giving me a few pamphlets to read and a lady talked to me a short time. They then gave me directions as to where to go in Dallas. Like I said, I think I was really in shock. I knew my parents would "kill" me and to this day, 34 years later, they still don't know.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

No "force", I just wasn't thinking straight!

9. How has abortion affected you?

I began feeling guilty almost immediately and realized I had made a hasty decision out of shock and

fear and some ignorance. Even though the pain has lessened through the years, things happen occasionally that trigger those memories and they never really disappear!! I have prayed with my husband and know God has forgiven me but the much more difficult thing is forgiving myself!

10. How has your abortion affected others in your life?

I know the experience has through the years kept me from having close relationships and that it affected my sex life with my first husband and my second husband, a very Godly man, has been very loving and patient with me even though the sexual abuse and abortion has never really left me.

11. Based upon your experience, what would you tell a woman considering abortion?

I would share that there are so many other options. I have a sister that has been trying to adopt for many years. Given a chance, many women would probably change their minds and raise their babies with help from friends and family. I do believe that life begins at conception and it isn't worth the guilt and pain for the rest of your life when you finally realize what you have done and know you can't take it back!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Pretty much the same as above.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Tarrant

My name is Linda Austin. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Fort Worth TX

05/15/1984

2. How many weeks pregnant were you?

20

3. What type of abortion was performed?

Induced labor on a live baby

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

We were attempting to save our daughter, Linda Grace. She was our fourth child. The cervix was opening at 20 weeks. He could see the placenta. No bleeding, no contractions. Still a healthy baby. For days Dr. Keen pushed for us to terminate the pregnancy. We refused. On May 13th Dr. Jack Keen lied to my husband and stated that our Linda Grace was dead. He had with held fluids from me(written in the medical records we now have) that caused a fever. He stated that I might die and that the baby was already dead. My husband agreed to start inducing labor early on the morning of the 14th. We were told there was not a heart beat. No heart beat was monitored after that.

5. Were you adequately informed of the consequences of abortion?

Yes No

After lunch, the nurses changed shifts. To me shock, the new nurse listened for a heart beat before she read the chart which told not to. She smiled and said, "150 strong heart beat". I screamed! Dale began to ask questions. We found out that there would be no care for Linda Grace as a premature baby at the hospital where I was. The nurse arranged (at the loss of her job)an emergency ambulance to transfer me to a hospital that could care for Linda Grace. Labor was too advanced to stop. Linda Grace was alive until they cut the cord, but she never breathed on her own. Another nurse, against doctors orders, brought her to us wrapped in a pink blanket and helped us arrange for her funeral. She left us alone with her until the funeral home came for her.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Dr. Jack Keen of Fort Worth Texas

9. How has abortion affected you?

Abortion has left me longing for my daughter. I pray for the reversal of leagl abortion constantly. I never escape the burden. I share with as many as will listen.

10. How has your abortion affected others in your life?

The loss on earth of Linda Grace - a granddaughter, a sister, and our daughter.

11. Based upon your experience, what would you tell a woman considering abortion?

When abortion became legal, it changed how a Christian Deacon (Travis Avenue Baptist Church, Fort Worth) Doctor viewed his responsibility to protect life. After Linda Grace's funeral we were referred to Dr. Jack Turner (830 8th Ave Fort Worth)who was an anti-abortion activist in Fort Worth. Dr. Turner stated that he was sure that what we said was not true, but he would research it for us. We signed for the medical records to be released to him. Dr. Keen was a friend of Dr. Turner's and even filled in in Dr. Turner's practice. When we met with him 2 weeks later he cried. He said it was true and gave us the records from the hospital. He said that he would pray for us as we went to confront Dr. Keen. When my husband and I went to confront Dr. Keen (Jack Keen, Ob/Gyn Clinic Healthfirst Grp,5701 Bryant Irvin Rd Ste 103 Fort Worth, TX 76132. Phone: (817) 346-4100. Fax: (817) 346-4105), he stated that we could not do anything to him but that if he had continued to allow us to take a risk and something had happened to me then we would have taken everything he had. He showed no remorse. We left defeated.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Legal abortion changed the way our Linda Grace was treated. We would have never chosen abortion for any of our children. We advised others against abortion as a choice and shared of the dangers and sorrows. We did not know that we needed to fight what legal abortion would do to one of our own children with in the medical practice in a hospital. We lost our Linda Grace. We lost the next baby from a miscarriage. We lost our next son, Jesse Thomas, even though Dr. Turner tried so hard to help me carry him long enough. Abortion changed our family forever. Before abortion was legal, everything that could have been done to save Linda Grace would have been done with out question. We would not have had to fight for it. We learned a sober lesson. Legal abortion was not just in an abortion clinic among those who might choose it, but was now and always will be a part of our family. I have shard our Linda Grace on several occasions, but have waited and prayed for more opportunities for Linda Grace's short life to impact as many as God wants to reach. Thank you for this opportunity.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Parker

My name is Lisa Fallis. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

New York City NY

04/09/1971

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

There was only a very brief explanation, most of which I can't remember, delivered to a group of about 6 of us. Most of us had flown in to New York the night before, taken to a motel, picked up before dawn the next morning and taken to the clinic. After the "information" was given, I was immediately anesthetized, which is one reason I can't remember much right before or after.

5. Were you adequately informed of the consequences of abortion?

Yes No

The only information concerning consequences was of a physical nature, bleeding, cramping, etc. I was 19 at the time (now 57) and have blocked out much of the entire experience in order to cope with the fact that I had taken my child's life, against the wishes of my husband, whom I divorced shortly afterwards.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother, but more support than pressure.

9. How has abortion affected you?

I have felt great shame and guilt. I know I've been forgiven by God, as I became a Christian 8 years later and asked for forgiveness. Initially, I only felt relief. I had no idea what a fetus consisted of. I was told it was merely a small glob of cells with no definition as to its humanity. Much later I found out that was not true, that even at just 8 weeks it has a very person like appearance. I can remember the flight home, thinking that all the other passengers on the plane "knew" what I'd done. Flying to NY for an abortion was not uncommon as it was only legal in California and New York at that time.

10. How has your abortion affected others in your life?

Very few people know. My husband has never judged me for it and the only other people who know have been very supportive. Of course, my husband at that time (I remarried 9 years later) was devastated. He begged me to have the baby and let him raise it (we were about to divorce). He was raised Catholic and of course to him I was a murderer, which was true. But he eventually forgave me and we remained friends of a sort for a few years.

11. Based upon your experience, what would you tell a woman considering abortion?

I would strongly suggest that they do a thorough search on the physical aspects of abortion, especially the stage of development of their baby. And I would tell them to think of the future, not just the moment that they are presently in. Nine months of your entire life is very brief. But that's all it takes to give life to another person. Adoption should be considered. I'm always amazed when I hear of girls/women who say they could NEVER give up their child to someone else after carrying it to term but would not hesitate to snuff out it's life to prevent themselves any inconvenience. I would also tell them that I now have 2 grown children who would not exist if I'd aborted them but that I have a third child in Heaven that I chose to not let live.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That's easy. Why can't a woman kill her 2 year old child because she has decided not to be a mother? Because that child is a human being. Just because a baby hasn't made it out of the womb yet, does not make it any less a person than that 2 year old. Human life is human life once conceived and deserves to be protected by our society and laws at all stages of development.

9. How has abortion affected you?

For years, I mourned for my child and I still do. I had to face the fact that I had murdered the child. God has forgiven me but I don't know how I can forgive myself.

10. How has your abortion affected others in your life?

It has mostly been my own hell. Not others.

11. Based upon your experience, what would you tell a woman considering abortion?

That abortion is based on death, on murder. And you will have to deal with that for the rest of your life. You will never get over it. Having a child is wonderful, if you can't keep it then give it up for adoption. There may be problems but nothing that could compare to the problems you will have with abortion. (and that is for starters)

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That young women have no idea what they are getting into in getting an abortion. No one explained abortion to me, no one tried to talk me out of it or give me other options. You should make laws that

make it very difficult for young women to get an abortion...that there should be extensive research and counseling before it should be allowed. There are very few situations that should be accepted for abortion. Only if a persons life is at risk should it be considered. Please protect our unborn children. Protect them from mothers who make wrong decisions because they are young and scared. Not only are you saving the children, you are also saving the women who think abortion is the only way out. Please do not make this legal!!!! Protect us all!!!

8. Did anyone pressure you into having an abortion?

Yes No

the father, my life was even threatened.

9. How has abortion affected you?

I had to have someone come stay with me for 2 weeks because I was suicidal. Abortion continues to affect me, it's not something that you deal with wrap it up with a bow, and thats it. As you change, so do your thoughts and ideas and emotions towards it change.

10. How has your abortion affected others in your life?

It was a total devestation to my family.

11. Based upon your experience, what would you tell a woman considering abortion?

That even if she is reaching for this in desperation, there are better answers for herself, her family and the child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would explain to them that what happens behind closed doors is anything but legal. I chose to be sedated for my abortion because I wanted no memory. What happened behind that door is imprinted

into my mind to never go away. While on the table I was strapped down, the medicine had not started yet. I asked if I could see the baby while they were using the ultrasound. The Dr. said no and everyone got very stiff. I told them that I changed my mind and did not want to go through with it. Two assistants came and held me down while the other injected me with something that made me very weak but did not knock me out nor dull the pain, I continued to tell them I did not want to do it and to please let me go. They HELD me down and did it anyway. This invasion of my body, was the worst kind of rape. I was quickly and roughly escorted to a room, told to change clothes and leave immediately. They wanted me out of there and fast. People need to know that there are things that go on behind these doors that can be unbelievable and unimaginable. Abortion in total should be stopped. Use the money that is going to the funding of this to help a woman when she finds herself pregnant and not wanting to be. She can let herself be open for untold wounds and horrors by letting her life be in the hands of such people as were at the clinic that day.

9. How has abortion affected you?

Destruction of my life. Pushed me away from God. Relationship issues, destroyed marriage, Anger issues, Terrible choices (ungodly in every way), struggle with eating disorders, low self-esteem, though I struggled to redeem myself somehow.

10. How has your abortion affected others in your life?

Fewer relationships with others. Only can get so personal. Destroyed marriage. Very Private.

11. Based upon your experience, what would you tell a woman considering abortion?

I would share my testimony in hopes of altering her decision.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Women are so misled at the time they choose abortion. Noone can even fathom the pain, shame and guilt that it brings. No woman EVER goes out the next day talking about her abortion like it was O.K. to do. We all are ashamed after we go through with it.

9. How has abortion affected you?

It has affected me in so many ways, I was having dreams about the babies and that I ended up parenting them then having to wake up and them not be there. I am going to abortion recovery classes to try and help me. But this pain will NEVER go away. I hear it gets harder later in life. I would NEVER do it again!

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

To never do it that baby is a BLESSING God created that baby for a reason. There is a reason why you are pregnant and you should cherish every moment of your pregnancy.

They just told me I would be asleep and they would remove the fetus with an instrument.

5. Were you adequately informed of the consequences of abortion?

Yes No

I did not know that my baby's heart was already beating or how far along the baby had developed. I didn't know the emotional effects I would have after educating myself as to what I had done.

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I started using drugs and alcohol to "self medicate" which turned into an addiction that controlled my life. I wanted to die and was very depressed. I cried for the 2 children I had part in killing.

10. How has your abortion affected others in your life?

Due to my problems, my family has been affected because they didn't know what to do.

11. Based upon your experience, what would you tell a woman considering abortion?

This is not the answer to your pregnancy. Adoption is another option and it would be an open adoption where you could see your child if you choose to. Or if you keep your baby there are many agencies that will help you with the things you need plus emotional support. And you will save the life of a precious little boy or girl that you will treasure forever!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is wrong and is usually used as birth control. There have been 46 million abortions since 1972. In all of our wars, there have been 2 million men and women killed total. We are not a nation that supports life and we are killing babies every hour that have no voice in the matter. That's why we speak for them.

3. What type of abortion was performed?

DNC

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not informed of the fact that the baby would be torn to pieces. I was not informed of the fact that my menstrual periods could change forever.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed that there could be psychological/emotional consequences for making this choice.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

It took 7-8 years and two children later to understand that I had killed a human life - my baby. Out of nowhere I broke, I fell to my knees, sobbed uncontrollably, and begged for my Heavenly Father's forgiveness. I knew immediately that my Heavenly Father had forgiven me. What I did not understand until two weeks ago (28 years after my abortion) was that I had not forgiven myself. "How has abortion affected me?" Who knows what this secret shame and grief have begotten in my life and how it has affected my self-esteem and the decisions that I have made. Who knows what my life may have been like had I made a choice to face my fears. The one thing I absolutely know is that had abortion not been legal - not been my choice - I would not have had an abortion. That little baby would have had a chance at life and I would have had no choice but to face my fears and take responsibility for my actions.

10. How has your abortion affected others in your life?

I had a girlfriend who became pregnant without even having actual intercourse. She was effectively a

virgin. She asked me to give her a ride to the clinic to have her abortion. I respectfully told her that I could not participate in her abortion in any way, but I promised her that I would be there for her when she needed help dealing with the emotional effects/scars that such a decision would leave upon her life. She chose not to have an abortion and I helped her deliver her baby. That was one of the most thrilling days of my life seeing her son born who is now 15-years-old.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her the truth. I would tell her that abortion is legalized murder and that having an abortion has the potential to cause extreme psychological harm. I would tell her my story and ask her to consider what she would do if abortion were not legal. Then we could discuss those options and I would encourage her to choose life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If abortion had not been legal when I became pregnant from a date rape at the age of 18, I would not have considered an illegal abortion and the child would be alive today. I would also tell them that no matter what their beliefs are on the topic of abortion, that if they believe in the Bible as the inspired word of God and care what God thinks, that they must consider the seriousness with which God commanded punishment for those who caused the death of an unborn child. That punishment was death itself. I believe that we will all be held accountable for our allowance of such an abomination in this land that portends to be a country of believers. I also believe that anyone who promoted the legalization of abortion will pay a dear consequence if they do not repent.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Randall

My name is Kay Doran. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Lubbock TX

07//1975

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

I don't even know. It involved suction after a dilation pack was inserted.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

All I can remember was that the doctor performing the "procedure" told me they would insert something to dilate my cervix for about 2 to 3 hours. Then I went back and they did some type of suction procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

I wasn't counseled at all. Also my husband at the time literally forced me into it. He was very physically and verbally abusive.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My husband at the time.

9. How has abortion affected you?

It has left a permanent scar in my heart. I am a Christian woman, now 55 years old. The abortion was 34 years ago. It still makes me physically ill to talk about it. I have confessed this fact that I had the abortion to only a few people whom I trust. I feel horrible about it & have asked for forgiveness of my sins, but somehow I don't feel forgiven for the abortion...probably because I haven't forgiven myself. I was forced into it by my very physically abusive x-husband. I remember walking out of the room after it happened, seeing quite a few women sitting there waiting their turn. My x-husband walked over to me, and I just lost it. I started bawling & saying, "I've lost my baby." All I can remember is that I felt totally numb and him holding me firmly by the elbow and told me that I was embarrassing him and he told me to s*** out of me right there. I had to lie to my family & told them that I miscarried. You have no idea the guilt and pain it has caused me. People just don't realize how traumatic an abortion can be. I wasn't

much of a Christian at that time, and it still had a very profound effect on my life. I just filed it that memory in the back of my mind & sometimes (like now) it jumps out & hits me hard!!

10. How has your abortion affected others in your life?

My son (who is a product of the x-husband) and my current husband of 21 years are just about the only ones who know. It's just something that women don't want to admit to.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them to do research on abortion and see the pictures of the aborted babies and take a long, hard look at how they are. It is WORSE than the Nazi death camp scenes. I would also advise them to have a sonogram to see that precious little life inside them & visualize what they would be 10, 20, and 30 years later. Then I would beg them to talk to someone who's had that experience and hear their story. Then I would tell them to pray and ask the Holy Spirit to give them an answer. I know what He'd say.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That only in extreme cases should an abortion be performed, but in no way would I condone a partial birth abortion. What happened to adoption??? And how do those doctors who perform abortions sleep at night? I am well informed on the new Obama abortion agenda & my church has written letters to our representatives begging them to vote against abortion.

I still morn the lost of my child. I think of him often. There is someone missing in my life, my child I killed, I gave up his life. I do not think I will ever forget or forgive myself until I am in heaven with him someday. That is what gets me through, knowing I will one day see him.

10. How has your abortion affected others in your life?

I have not shared it with my family. My ex-husband is the only one that knew.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. If you do not feel you can raise the child, give it up for adoption for another family to love it. The emotional bondage is far too great to bare, especially alone. I have carried the bondage around for over twenty years and it is still as fresh today as it was then.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You are putting the women in a prison they do not even realize exist. The prison of loneliness and loss. As a mother, we have a natural instint to morn the loss of our child even if we have not given birth to them. Look at the women that miscarry, this is no difference, the pain is the same. The pain is the same.

2. How many weeks pregnant were you?

3. What type of abortion was performed?

Vacumn

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told about how the machine would dismember and suck out the "uterine contents" I was told the fetus was just tissue, not a real baby. I was told the movement I felt in my womb were muscle spasms.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me about the shame, guilt, or unending sorrow I would feel for the rest of my life. No one told me that it could damage my womb so that I could never again be able to bare children. No one told me that when I see someone else's baby I would think of who and what I threw away, or that when I see other people who would have been my baby's age I'd think to myself, "My son/daughter would have been their age maybe even look like me." No one told me that I might be killing the one person who would love and care for me when I was old. No one ever told me that I would risk never being a grandparent. No one ever told me, they just helped justify the killing of my baby.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The man I was in love with.

9. How has abortion affected you?

I have an emotional ache that never goes away. I am distant from relatives who have children because I have killed my own child and it is painful to get close. I do not hold babies. The emotional pain has become a wall I will never scale in this life. Being childless is a hole that will never fill in on this side of eternity. Forgive me Father for I have sinned.

10. How has your abortion affected others in your life?

No one but my present husband knows. Few friends know. I seldom mention it.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. If you don't want your baby give it up for adoption. Physical side effects can be personally catastrophic, even life threatening to you. Don't kill your baby. It has God given life and great potential. Put away the embarrassment you feel and let your baby live. Even if you were raped killing your baby will not remove the emotional effect of that rape, rather it only deepens the pain you feel.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is nothing but a money making deal. Our country needs the babies to grow up and help support our economy and older generations. The mental health of those who abort suffers. Women are abused emotionally. Abortionists are often cold, caulous individuals who care nothing for the woman. Abortion is godless and our country is being judged for it. Abortion is MURDER.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It made me feel not worthy. I have not been able to conceive and wonder if the abortion caused this. I was angry at myself for so long.

10. How has your abortion affected others in your life?

I kept it a secret so long - now that more people know they have been very supportive and encouraging.

11. Based upon your experience, what would you tell a woman considering abortion?

To please talk with others who have gone through it and to be knowledgeable about all the side effects and emotional heartache that stays with you for a lifetime. To understand that abortion is killing a human life and I would ask them if they have considered adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them abortion not only kills an innocent child but it kills a part of the mother for the rest of her life. She lives with feelings of guilt, shame and regret and it lasts forever contrary to what Planned Parenthood believes.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Dallas

My name is Janet Conway. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

//1985

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

unk

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It was a convenience ... for a selfish person, who didn't want to deal with it.

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend, kinda, but he left it up to me

9. How has abortion affected you?

Regrets, sorrow.

10. How has your abortion affected others in your life?

The don't know about mine, but they are sorry for theirs

11. Based upon your experience, what would you tell a woman considering abortion?

It is wrong. You will regret it. I know now, it's not a matter of convenience for the mom or dad, It's a Murder in God's eyes. Shedding of Innocent blood, the worst kind of murder. Comparable to women of history who ate their babies to stay alive. God have Mercy on our Nation.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is wrong. It ruins not only the baby's life. but the life of the mother to be. God will judge our entire nation for the number of murders being committed every day. It's only a matter of time. We must make laws based on God's laws. His consequences are worse that anything a court could ever think of. But

His mercy endures forever. That's why I am able to hold my head up now.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Dallas

My name is C D. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

02//1980

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Physically, there were no after-affects. Emotionally, spiritually, and mentally, the affects have been horrendous. Not a day goes by that I don't think about what I did and the child that I murdered. It is so hard to express and causes me such shame that no one other than my husband knows what I did.

10. How has your abortion affected others in your life?

My husband and I didn't speak of it for many years. I thought that I had no choice since our daughter was just a little over 1 year old and money was so very tight. I couldn't see a solution. My husband was bitter for many years and blamed me, which he was right in doing. When we confronted what had happened, there were many tears of regret and many searching hours before we were able to come to terms with what I had done.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't even consider it. Abortion is murder, pure and simple. There are so many people that would like to have a child and cannot. Don't rob them of the opportunity to provide for the life you may have made so carelessly.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

It may be that man's law allows it, but God's law could never condone abortion. From the moment of conception, this is a living, breathing human being with a soul. Don't make the mistake of trying to play God. He will bring you low, just as He has done to our entire country for this and other abominations.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Harris

My name is K D I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Louisville KY

05//1979

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

D and C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The fetus was constantly referred to as tissue. But I also have to say that I was in no frame of mind to listen, I just wanted it over with.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one explained the emotional and physical dangers of abortion. That I was ending a life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

For 14 years after having an abortion I shut down emotionally. The only emotion that I felt was anger. I hated certain times of the year like Mother's Day, the month my child would have been born, the month the abortion occurred, etc... I believed that I was an unfit mother. I cried a lot and didn't know why. I suffered from depression and took anti-depression medicine for years. I spent 15 years trying to be the perfect wife and mother to make restitution for the abortion. Finally starting in 1994, I began a journey to start receiving emotional and spiritual healing from the abortion. And am now living in peace and acceptance.

10. How has your abortion affected others in your life?

I raised my children with anger and anxiety instead of love and acceptance. I lashed out at my husband for many years. I never felt close to others and protected myself.

11. Based upon your experience, what would you tell a woman considering abortion?

In the past 15 years I have had the opportunity to work with over 50 women that have had an abortion

(s). I have personally experienced the trauma that they have indured. I have cried with them, watched them physically become ill as they relive the experience. I have watched as they release the unforgiveness and anger that they have held onto for many years. I have listened to the regret and watched as they painfully memorialized that loss of life. I would tell a women that plain and simple, abortion is a loss of life. It is a choice to end the life of your child. i would also ask them this question, " If abortion is so great, why aren't women that have had an abortion out their promoting it. Saying it is the best decision they have ever made." Watch someone who talks about abortion. Is there head held high or do they look down with shame? I would tell them to know all the facts. To research all angles and then make a decision. To take the time and not rush their decision. If they have any misgivings, there is a reason for that. And that this decision is going to affect them the rest of their life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Think about when life begins. It has to begin at conception. What other criteria can you use? Does a fetus at 2 weeks, 3 weeks, 4 weeks suddenly become a living being. How can abortion be legal yet when a pregnant woman is murdered, the courts want to try the murderer on 2 counts of murder. I would ask the court to listen to the experience of the majority of the women that have had abortions. Are they rejoicing with their decision or are they plagued with shame and regret. When an abortion happens, especially late term, ask the doctors what they are looking for when they do an abortion. View the Body World exhibition of the fetuses on display. Real fetuses. How can you possibly look at that and not realize that abortion is taking a life. How can you take the "tissue" of "something" that has a heartbeat and say it is not a life. I would ask the court to interview counselors and how often present day problems are linked to a previous abortion. I would ask then to interview doctors that have had to perform abortions in med school. And why there are support groups for these doctors.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Tarrant

My name is Celinda Frost. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

02/28/

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

In 1979, it never occurred to me to ask..

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I knew what an abortion was, I didn't know how it was completed nor was told

5. Were you adequately informed of the consequences of abortion?

Yes No

In 1979 I don't think anyone knew what magnitude an abortation would cause to a woman phyciaccally or how the effect would be so devastating emotionally.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

No, only by circumstance..

9. How has abortion affected you?

Guilt, I eventually had a tubaligation because I determined that I didn't deserve to have children. I did have a 6 yr old son, so he was affected by my sorrow & depression for many years. I've gone through many years of healing, & know the forgiveness & love from God. But, I will Always Regret my allowing my daughter to be killed.

10. How has your abortion affected others in your life?

The loss of a sister to my son, a neice to my sister & a cousin to my nephews. Not sure how emotionally these have suffered but I can only imagine how they would have loved her & made our family whole.

11. Based upon your experience, what would you tell a woman considering abortion?

My story, how no matter what you think now it will never totally go away, it may find a dark, quiet place in your soul but it will someday resurface & you will have to work through it. Save your baby, either

keep it and love it, take care of it or offer a family a child that can't have one of their own. The guilt is horrendous and when that is healed the loss is sad.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Aside from it is MURDER, the truth is, you can not get around it, you can not call it names other than human, a life, you can not sugar coat it, its MURDER. You also can not experience the guilt, pain & life long regret that goes with this decision. If a woman has a choice than she should choose to be celibat, education by parents & spiritual leaders what pregnancy & sex outside the marriage is. Each person that has a accepted, voted for or had an abortion will have to answer to God for that decision, if you don't believe in God, it doesn't mean He doesn't exist, so each one must think about that trial you'll be present at one day.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Kaufman

My name is R D I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

//1975

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

My baby was taken in pieces, but by what method I don't know.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was so nervous and afraid that someone might find out I was pregnant I don't remember much of what was said in the clinic.

5. Were you adequately informed of the consequences of abortion?

Yes No

Again, I don't remember much about that day other than wanting it to be over with.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father.

9. How has abortion affected you?

It's something I have been forgiven for but never ever forgotten. I've always thought I should have given the baby up for adoption but instead I choose death.

10. How has your abortion affected others in your life?

No one knows except the father, and that marriage didn't last 2 years, and also my wonderful husband of 30+ years.

11. Based upon your experience, what would you tell a woman considering abortion?

If you're considering abortion you must think it's a mistake to be pregnant. So based on that assumption, there are better ways for both the baby and you to move on. For the baby....obviously life, and for you...your health both physically and mentally. It's hard admitting your mistakes and knowing everyone will know soon enough what that mistake was....knowing the father never has to carry the stigma, real or perceived. But to kill a life in order to ease your temporary pain is not worth it.

Stop....give someone else a chance to raise a child that they would not otherwise have had. Life is a gift from God, no matter if you think it accidental or not.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would not have had an abortion if having an abortion had been illegal in Texas. What right has the court got making killing legal? The baby has rights, it just has no voice. Those groups screaming for animal rights have more protection than our unborn children. Try killing a whale fetus, or an eagle's nest full of eggs, or any protected species or unprotected for that matter...there would be hell to pay for killing their unborn young just because someone deems those babies a mistake or just unwanted. We give animals protection why are we so reluctant to do the same for our human unborn?

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Travis

My name is J D. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

10/19/1977

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

I do not know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not informed at all as to what it was or what it did. I was not informed about the pain, or what would happen or even that there would be long term consequences. In fact all I did was sign on the dotted line, pay the money and come at this appt time.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had an incomplete abortion that required a D & C later. I was too young and scared to know better to ask why. Thank God I was still able to have children later.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend.

9. How has abortion affected you?

This abortion has had negative effects which by the the grace of God has had positive effects. For years, I have struggled with killing my own child and frankly see this as the greatest foremost regret I have in my life. It was through this regret though that I found my Lord and Savior Jesus. It was through Him that helped me to heal, and give a name to my beautiful child waiting for me to see her in heaven some day. If you do not know Jesus, you cannot heal.

10. How has your abortion affected others in your life?

My husband and our intimacy is not complete nor will it ever be. My daughters became sexually active before marriage even though I warned them of the consequences. I resented my parents for a long time that they believed abortion was okay.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT DO IT. DO NOT DO IT. DO NOT DO IT. There is help for people with unplanned pregnancies. You will never regret completing the pregnancy.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The blood of my child is not only on me but on the Justices who allowed abortion to be legalized in this country. May God bring justice to them who voted for abortion.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Tarrant

My name is Lisa Collett. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Hyattsville MD

06/07/1980

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

Dilation and cutterage (D&C)

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 16 and scared. I was told halfway through the procedure that I was further along than they suspected and they had to switch the larger diameter instruments. I realized then it had to be a baby and that it was already too late to save it. I layed in bed and endured the worst psychological and physical pain I have ever felt. I passed large clots of tissue and bled so terribly, I thought I was dying. I realized 5 yrs. later when I was married and pregnant with my first daughter that I had murdered my first child. I learned about the development of the fetus in the womb and was horrified to know how developed my first child was when her little limbs were cut and torn from her body. I was never told. How could I know? I was a dumb 16 year old kid. After that I fell into a 15 yr. drug addiction and contemplated suicide more than once. Had I not found the forgiveness that is offered through the redemptive blood of Jesus Christ I probably would not be here today. The guilt that comes sometimes years after the abortion can be devastating. My surviving daughter deserved to have a normal childhood, not one that was scarred so badly because of my past regrets. I survived because of much counseling and a very kind pastor who told me I was forgiven because someone greater than I had shed his precious blood for me. Thank You Jesus! Yes, I have become a voice in the night for all the little ones who deserve a chance to live. We must stop abortion! At all cost.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told it was a safe procedure. I was not informed of any details or any options

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

all my friends

9. How has abortion affected you?

It has made me an advocate of the pro-life movement after the devastating affects of my abortion

10. How has your abortion affected others in your life?

Helped them to understand that death is not the answer. It is not the only solution!

11. Based upon your experience, what would you tell a woman considering abortion?

Do not kill your baby. There is a wonderful thing called adoption. Your baby deserves at least that. You will have to live with your decision for the rest of your life. If you can even live with yourself. Abortion is a terrible ugly thing.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I think they too should have to make an informed decision. They should have to witness a real abortion at every trimester. They need to see the consequences of there decisions. Then and only then will they trully know where they stand on such a life and death issue. If they support it they should be able to watch it!

HOW MY ABORTION AFFECTED ME

The State of TX

County of Wise

My name is Karen I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Ft Worth TX

02/19/1980

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Not sure. I was under anesthesia

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that my baby was not really a live baby, but that it was only a blob of flesh, and since it really wasn't alive, I wouldn't be killing anything. Later, when I saw the sonogram of my second living child, I saw that he was VERY ALIVE... and the guilt overwhelmed me.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea how desperately guilty and depressed I would become with no way to obtain peace. I sought peace in alcohol, men and bars and ended up on a self destruction path that led me to a second unwanted pregnancy and another abortion clinic for the second time. I went from being a straight A student and cheerleader at a Christian school to a divorced bar-junkie.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend, friends, family

9. How has abortion affected you?

It has affected my mind and my heart. Because of the depression and guilt, I never finished college, went through 2 divorces, and nearly became an alcoholic. The 2nd abortion affected me most. I was on a suicidal mission for several months afterward. Now, several years later, it has affected my passion against abortion.

10. How has your abortion affected others in your life?

It affected my sister the most. She followed after me in seeking abortion. The guilt and depression led her down the Crystal Meth road. It affected her much worse than it did me. My choice to abort has also

robbed my sons of brothers or sisters that may have made a huge difference in their lives.

11. Based upon your experience, what would you tell a woman considering abortion?

It is so NOT worth it. Every life is worth living. Every life has something to contribute to humanity. Life is full of hope, but the death of your baby at your own hands will haunt you and those who love you for the rest of your life. Even after 30 years, lots of counseling and Bible study, peace is still difficult to obtain.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I wish I had not have had the choice. So much evidence proves that life begins at conception. Babies deserve to be cared for and protected. Innocent blood shed for the sake of convenience, position or "choices" will never go unanswered. They did not choose to be conceived, but they would choose to live if they could. God's choice is to give them life and to form them in their Mother's wombs. All life is a gift that should be cherished and honored and appreciated.

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

d and c

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only 14 and there was no info on what really happens or that the baby had a beating heart could feel pain.

5. Were you adequately informed of the consequences of abortion?

Yes No

I think too young to understand!!!!!!!!!!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Shame did want to remember what happened. Great sadness, I didn't want anyone to know!

10. How has your abortion affected others in your life?

Only my husband knows and they were the products of date rape!

11. Based upon your experience, what would you tell a woman considering abortion?

To not go on your emotions to really think about what your doing!! If you feel you can't raise a child the greatest gift you could give yourself, child and another couple is to give the child up for adoption, I wish I had done one of those but most important examine how you got in that circumstances and learn from it!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That too many young girls and women alike use abortion for birth control and an escape from being

responseable for their actions. If I had been shown the what the baby really looked like I would not have had and abortion. If I had heard the heartbeat I would not have had an abortion!! It does affect the rest of your life you always wonder what would that child have been what would it have looked like and how much I miss those babies!!

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Just thought it would be a simple procedure that would quickly kill the fetus. Was told that it really wasn't a baby yet...just a blob. Not long after that they came out with that commercial showing a 3 month old fetus...

5. Were you adequately informed of the consequences of abortion?

Yes No

I was really so lost and confused at the time that I am not sure what they told me. But, I was never able to get pregnant again. I want to say they didn't tell me much because I followed thru with it but at the same time I remember getting EXTREMELY depressed and nearly having a nervous breakdown at the time so maybe they did. Seems like I put it off until the last day that the dr would do it..term wise. I was very emotionally lost and confused.n My parents should have been notified...they were never told...nor was the father.

6. Were you informed of any link between abortion and breast cancer?

9. How has abortion affected you?

That was 29 years ago and it still haunts me. I have asked God to forgive me and I know he has, but I don't think I have ever been able to forgive myself. I was never able to get pregnant again. And when I see somebody that age I freak out and wonder what could have been. Have gone thru major bouts of depression. Actually have only started talking about the last 4-5 years. My mother and daddy went to their grave not knowing about it. At the time of the abortion I was only 19 and didn't really think it was murder...Now I am 48 and know differently. It just should not ever be an option...God should be in control!!!

10. How has your abortion affected others in your life?

I have had 4 husbands so it has obviously affected my mental and psychological health...which has in turn affected anybody associated with me. Even if they didn't know about the abortion...For several years I was very emotionally messed up.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

THAT IS CRAZY...IT SHOULD NEVER BE LEGAL...IT IS MURDER...IT HARMS THE WOMEN WHO HAVE THEM EMOTIONALLY AND MAYBE PHYSICALLY.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of United States

My name is Betsy DiGiacinto. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Baltimore MD

02/21/1981

2. How many weeks pregnant were you?

15

3. What type of abortion was performed?

Regular

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was given options other than abortion which I declined. I was given detailed info as to the procedure of the abortion. And I was given information of the physical risks of the abortion. But I was not told anything about the emotional, mental, or spiritual consequences of abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I'd say it affected me the most the first couple of years. I loved that baby and looked forward to having it. But after my fiance was in a car accident and there were signs that he might be brain damaged for life from it, I chose to wait until a later time for us to have children. I was 16 and he just turned 18. I felt so ashamed of myself for 2 years. Like a puppy walking around with my head and tail between my legs. My self esteem plummeted. I couldn't talk about it. I think the worst thing was when I woke up and sat up and saw my baby in a jar sitting on the counter. That will always haunt my mind. I haven't been able to tell my son who is not 16 years old about it because I'm afraid of how he will see me after he learns I killed his only sibling, his older brother. Although my current husband has been accepting of it, I am still unable to talk about it publicly. I think about my baby-how he would have looked, acted, how old he would be, how my life would have been different if I'd just had some faith. My son would have a brother and I'd have a wonderful child. But instead, I took that child's life because of fear and pure selfishness. I've learned alot from it but I would advise others to learn from other's mistakes, not their own.

10. How has your abortion affected others in your life?

The pregnancy devastated my parents. And my dad did not fight against the abortion. He felt the guilt of my getting pregnant to begin with. Thinking that I wouldn't have gotten pregnant if he hadn't been sexually molesting me in my earlier years. So he let me make the decision. However, he discovered that two wrongs don't make a right. He felt even more guilty afterwards and carried that guilt to his grave. On his death bed at 86 he apologized to me again. It was sad to see he'd never forgiven himself for those things although I'd forgiven him years ago. My mother was ashamed of me. Wanted to keep it all hush hush. Was disappointed, hurt, angry because I got pregnant. Lost all trust in me. I suppose to her the abortion was a quick fix to repair all the damage. But it didn't repair anything. It only put one more skeleton in the closet and it has never been spoken of since then. Nobody else knew about it. I lived in a world of darkness and shame for years. And now I just wish I had my child.

11. Based upon your experience, what would you tell a woman considering abortion?

There are other options. I didn't want to put the child up for adoption for two reasons. One is because I was adopted and because of being separated from my birth parents, I was never able to connect with anyone. However, years later, God allowed me to find my birth parent and I was able to connect with then entire family. But I didn't act in faith that God would help me. I could only see myself as a 16 year old nursing an invalid husband and taking care of a baby for the rest of my life. I acted selfishly and without any faith at all that God or people would be there to help me. There are other options. There are so many people out there waiting, dying, to adopt a beautiful baby. The shame was the worst. Not because of what people actually did to me, but because of what I feared, what I did. Nobody could talk me out of my fear or what I did. I had to deal with it. Never would I have believed the depression, the dread, the fear, the shame and guilt that consumed my body. It took years for it to go away. My soul was consumed by it. A dark hole. It isn't worth it. There are open adoptions now. There are even more options. I made a hasty decision because I felt rushed to make it-time was running out. In fact, by the time the accident happened with my fiance, several months had gone by so I had to go to a big hospital in Baltimore MD to have it done. Don't make a rushed decision. This is a human being's life at stake.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

All I can say is that by having abortion legal, it is doing more harm than good. It kills a child and it brings emotional and mental and spiritual damage to all those involved. For the money the government wants to pour into helping people get abortions, use that money to help support struggling mother-to-be and young mothers get on their feet or help fund adoptions or encourage more foster care. Find other options. And by holding people responsible for their choices rather than bailing them out the easy way, they will become more responsible. Unwanted pregnancies won't stop happening either way, but expecting and teaching responsibility will strengthen our nation, not weaken it. And overall, we'd all be better for it.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Coryell

My name is JULIE ENRIQUEZ. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Orange CA

11//1985

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

suction curettage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

When I went to Planned Parenthood for the free pregnancy test, the counselor came back in the room with the news that I was indeed pregnant. I was in shock and heartbroken. I was 16. I had no support and no help. She never explained the procedure. She never told me options. It was presented as the only option but the procedure wasn't explained. After giving me a minute to let it sink in she asked me when I wanted to come in for my abortion. As far as I can remember, I received NO information whatsoever about the actual procedure, only about the general anesthetic and the recovery room. I did not receive an ultrasound to ensure it was a viable pregnancy, only a urine test.

5. Were you adequately informed of the consequences of abortion?

Yes No

I recall being told of the risk of infection and the risk of general anesthesia. I do not recall being given any information on the physical risks of abortion. And I know I was not given ANY information about the possible emotional or psychological consequences of abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I felt worthless. I became depressed, self-destructive, attempted suicide, drank too much, didn't care if I lived or died, was very promiscuous but had a difficult time letting anyone get too close to me emotionally, was often very angry, made poor personal choices driven by the desire to make up for what I had done.

10. How has your abortion affected others in your life?

I have had a difficult time connecting emotionally with loved ones. They are hurt that I keep them at a distance.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that abortion is not the "quick fix" that some make it out to be. I would encourage her to explore ALL the options available to her. I would tell her that any choice she chooses (parent, adoption, abortion) will have its difficulties, but the choice to abort will haunt her and will affect her so deep down that she will never be the same. But I would tell her that I would be there for her no matter what she chose because she will need a friend and she will need healing after an abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If I could, I would tell the court that abortion hurts women. Yes, it is taking the life of a baby. But the mother suffers incredibly, too! I don't want to see innocent life taken, but just as important if not moreso is the life of the mother. It is forever altered after having an abortion, mentally, emotionally, and spiritually if not physically as well. I don't want any more women to suffer what I did due to having an abortion.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Harris

My name is Dayna deBin. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

03/02/1978

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that it would all be over soon and then I could go home.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was only told that I would experience bleeding for about 7 days - that it would be like a long period.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I experienced depression for a year after my abortions (I had 2 in 8 months). Then, at the age of 30, I experienced depression so severe that I wanted to die. This lasted for several years. I finally went to counseling. I am still suffering the emotional effects of abortion even 31 years later. I know that I will never get over killing 2 of my children.

10. How has your abortion affected others in your life?

It took a toll on my marriage. My husband and I struggled for years. We have finally worked through it and, praise God, we are still married - we celebrate our 30th anniversary this summer. The abortions nearly destroyed us and our family. We were high school sweethearts and we bought into the lie that we were making the right decision in terminating my pregnancies.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that having an abortion is not going to solve her problems. Abortion will only add misery and heartache to her life. I would tell her that she will regret it for the rest of her life and that emotionally she will never get over it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder. We should never, ever had legalized the killing of innocent babies. Abortion doesn't end with the death of the baby. The long-term effects that abortion has on the mother and father of the aborted babies are devastating and lasts a lifetime.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Fort Bend

My name is K H I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Houston TX

05/08/2008

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

I do not know.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They didn't tell me that there were different types of abortions or what was done in the different types. I don't even know which type of abortion I had.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no talk of the emotional side effects or possible physical side effects. It felt like being herded through like cattle. They lined us all up, handed us pills, and then herded us through a door one after the other. Then when they started the procedure and I told them to stop they said it was too late and continued anyway while I passed out. I was placed in a chair, unconscious and left there to wake up alone. They would not allow my husband to come into the back to sit with me while I waited or be with me when I woke up. It was an absolutely horrible experience that left me shaken, hurt, and emotionally damaged.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It severely hurt my marriage and almost caused us to divorce. I am emotionally scarred forever and live with daily guilt and regret. I dream about my baby and cry regularly, even now, over a year later. I wish constantly for another baby and beg my husband on a regular basis despite the fact that we cannot financially support another child at this time. It has made me obsess over wanting another baby to the point of driving a wedge between my husband and I.

10. How has your abortion affected others in your life?

It has seriously hurt my marriage and made me into a guilt ridden person who wishes for my baby every day. My family was hurt, dissappointed, and severely depressed over my abortion. I still hide it from several individuals and I am ashamed of my actions.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that the best thing to do would be to give the baby up for adoption. The emotions related to adoption are nothing compared to the guilt of killing an innocent child and feeling like you lost your chance to have a beautiful, sweet baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that abortion needs to be restricted to medically necessary situations and instances of rape or incest. Having an abortion is a life changing, emotionally scarring, hurtful, evil thing. It is something you can never forget about and you can never take it back. It was the absolute worst decision and biggest mistake I ever made in my whole life.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of McLennan

My name is Adrienne I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Waco TX

07//1975

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

vacuum suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told by a counselor at the local Planned Parenthood when I was 17 years old that "it's not a baby, only tissue" I was so naive, I wanted to believe it. Now I know the truth. The emotional impact once you know the truth is huge.

5. Were you adequately informed of the consequences of abortion?

Yes No

It was 34 years ago but there was never any talk of consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Now that I know the truth I know that God has forgiven me and I have been through post Abortion counseling and that has helped me through the grieving process but there will always be a hole in my heart that can never be filled until I see my child in heaven. Abortion is devastating to the unborn child as well as the mother.

10. How has your abortion affected others in your life?

Although we weren't married then my current husband was the father of our aborted child . He grieves with me and feels guilty for any role he had in planning the abortion, aside from the obvious role in fathering the child. Our parents rarely talk about the abortion, yet we are sure there was and is anger and also some grief on their part.

11. Based upon your experience, what would you tell a woman considering abortion?

Get an ultrasound. We have a non profit in Waco called Care Net, which provides counseling and free

ultrasounds to offset the Planned Parenthood argument that it "is only tissue". The first time they see the arms and head of the fetus, most parents lose the will to kill the baby. If Care Net were available in 1975, I would not have aborted our child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them if abortion is legal, then why isn't murder, because abortion is premeditated murder in it's grossest form, because the victim cannot protect or defend itself.

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Nobody talked to me at all about the abortion procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was hardly any conversation at the facility before or after.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Leaving with the shame and guilt of killing my unborn child caused years of emotional pain and depression.

10. How has your abortion affected others in your life?

Obviously my children never got to know their brother and neither did their grandparents, cousins, etc.

11. Based upon your experience, what would you tell a woman considering abortion?

That it will be one of the worst decisions they will ever make! It is not an option.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is murder! The people involved in abortion feel like murderers. There is a definite sense that even though the law may say that it is legal, there is a higher law and taking a life is never right, no matter at what age that life is!

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has caused pain and sorrow every day of my adult life knowing that I took an innocent child's life, given by God. It was a very selfish and misleading decision. I did not have good counsel or guidance.

10. How has your abortion affected others in your life?

It has caused a division between me and my mother. The father of my unborn child has never been able to experience being a parent.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT DO IT. There are other options. It would be better to put the baby up for adoption then to end it's life and have to live with that regret forever. God gives life and He should be the one to take it away, not man.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If they have never had one or experienced the pain it brings they should not legalize it. Would they

choose to murder their own child or grandchild?

9. How has abortion affected you?

Not knowing the truth medically. At that time they were speaking about abortion as tissue...I believe that.

10. How has your abortion affected others in your life?

I have had difficulty in relationships.

11. Based upon your experience, what would you tell a woman considering abortion?

Do lots of research and be very well informed.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The court allow women to have abortions base on the facts that women should have reproductive rights. They believe they are helping women; the women are being fully informed of the after affects of abortion. Women choose abortion more for social reasons than medically.

Never talked to me about anything. This was a Dr. who molested me after the procedure

5. Were you adequately informed of the consequences of abortion?

Yes No

Never discussed anything

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend- who I married 1 yr later&(2 child)

9. How has abortion affected you?

Never leaves me. I still cry about taking the life of my son(whom the Dr said it was) I had 2 children with this childs father. I became a Born Again Christian in 1984 after years of abusive behavior. It's as if I needed to punish myself for taking this innocent life. I still deal with such deep regret and sadness about this horrible selfish act.

10. How has your abortion affected others in your life?

My children suffered from my self descructive behavior. I blamed my husband for pushing me to abort and not offering to marry me at the time(we divorced in 1981)

11. Based upon your experience, what would you tell a woman considering abortion?

The greatest gift of life is thru giving to others. By making this decision to take the life of this innocent baby, because it is not convenient for you, will be with you always. Deep down God has given us all the gift of "right and wrong" and even though we believe the lie, that it is not a "Life",we will always know it was wrong.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believed a lie, that this is not really a human being, only a glob of tissue. I now know I was wrong. I believed that it was O.K. because others did it. I now know my selfishness of not wanting to be burdened by this inconvenience robbed my son of his precious life on this earth. I long for a chance to reverse that horrible decision. I am reminded of Mother Teresa speaking in DC in the 1990's to President Clinton and others, "Abortion is a curse on the United States". I firmly believe that, it is the root of our decaying society. Our increase lack of concern for all life (violence, abuse) is rooted in our allowing 3,000 innocent babies a day to be murdered for money. Those who condone it have become hardened, by justifying their acceptance of abortion, and our society is reaping the consequences. This has separated us from the true blessings of God for ourselves and our country because we are denying He has anything to say on the subject of abortion.

My name is J D I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Laredo TX

//

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was never told, or I least I tend to try to forget how the abortion was going to be performed through suction. It was as if I did not want to know how I was destroying a life by my decision. As far as what an abortion does, I was just told the doctor would have my womb cleaned after that. I remember every now and then when they were doing the abortion that I saw someone (don't recall who) throwing down 'things' on a bucket. I somehow knew it was a baby boy though I don't recall seeing any parts. I was already traumatized when I went to the clinic. At first I had an appointment already at an abortion clinic in Houston but was so pressured by my husband that I was afraid to die and then my first child would be raised by him and his homosexual friend. At the time, my husband did not care enough for my well being. I did not want another child of mine to suffer in this world. I already had one that I loved so dearly. So, I decided to move back to my hometown and perform the abortion there so that in case something happened to me, my first child would be in the hands of my family. My mother and little sister were with me though were not very pleased with the idea but respected mine.

5. Were you adequately informed of the consequences of abortion?

Yes No

I did not know of any. The only thing was that I should have to take care of myself afterwards as if I had had the baby.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My husband.

9. How has abortion affected you?

Always with the longing of a boy child and a cry here and there. Letting it out with different trustworthy

people along my life has helped relieve the pain and suffering but most of all having asked forgiveness from God and I knew in my heart He had forgiven me but it took a long....long time for me to forgive myself...i still regret it....I think it is a never ending situation....forgiveness is always there but so are consequences.... I would try to fill the void i felt all along by trying to help young people and even considering one particular girl as my child when in reality i knew she was not but I thought I could please God and ease my soul by doing that as a substitute for what I was missing and had horribly decided on.

10. How has your abortion affected others in your life?

My daughter was affected, having always wanted to have brothers and sisters. Whenever she would mention that she was feeling lonely, without yet knowing what i had done, and that she wanted to have had a brother or sister, that would crush my heart. The day came when I had to tell her and we both cried our hearts out.

11. Based upon your experience, what would you tell a woman considering abortion?

Seek God first and everything will fall into place. Get support. Don't make any decisions that you will later regret. Children are the joy of parents.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

To review all the hurt and pain of each of the women/girls who have had abortion. Court should evaluate the emotional melt down of girls and women considering what situation they are in at present and perform a psychological study of consequences which, without a doubt, will show to society the short and long term consequences that any decision for abortion, whether legal and further more illegal, will have upon self, those around the woman/girl, and family and society as well.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Taylor

My name is Sarah Allen. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Wood Dale IL

05/11/2001

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The councilor asked me if I wanted an abortion & I said yes. I was not told what would happen during the procedure. He asked if anyone was forcing me to get the abortion & I said no. He told me where to sign. Even when I was in the little room to get the ultrasound so they could see how far along I was, the girl didn't speak to me. She was talking to a girl, training her I guess, and I looked at the monitor & asked "Where's the heartbeat?" All she said was "There isn't one." And she turned the monitor so I couldn't see and ignored me the rest of the time.

5. Were you adequately informed of the consequences of abortion?

Yes No

They didn't tell me I might cry all the time. They didn't tell me I might want to see the baby or hold her. I didn't know it was a small baby, I really thought it was a blob of tissue with a mush of heart pushing blood. I didn't know she had little arms and head and legs.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Mom & boyfriend

9. How has abortion affected you?

I can't even express in this box how much this abortion has affected me. I was 16, yes. But I could have given the baby up for adoption and no one even mentioned that option to me. Everyone thought this was the easy way. The 'soon to be baby' wouldn't be able to tell the difference because it was just a clump of cells anyway. Still, somehow, that 'tissue' caused me to wake up afterward & cry & scream that I killed my baby. I guess whatever feelings I suppressed came out. It was all heartache. I took my baby's future away.. I stole her chance at life. I don't know how I could think it was my right to rip her

little body to shreds just because she happened to be unlucky enough to be inside my body.

10. How has your abortion affected others in your life?

My mom wont talk to me about it. My boyfriend & I broke up almost immediately afterward. My husband has had to hear me cry & has to hold me over the years when I become engulfed in the pain & sorrow.

11. Based upon your experience, what would you tell a woman considering abortion?

First I would tell her to look at how far her baby is developed in a prenatal chart. I would urge her to get an ultrasound.. 3D if she can. I would ask her to Google what a D&C means & take a look at the picture drawings. Or if she's further along, look at what the procedure actually does. I'd tell her it's not the easy way. If you let your child be adopted (the waiting list for babies is sooo long) you can live with yourself. Watch the 'silent scream' on youtube. I'd also say 'Please don't. What's growing inside you IS a baby.'

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them this hurts women so much more than you might think. You want to help women get out of a hard situation, I'm sure. But so many of us end up feeling like murderers. We do cry. We feel loss. We are under pressure and feel we have no better choice. But if abortion is not an option, this world will be forced to offer something better. Women deserve better.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Dallas

My name is Gail Hargrove. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

04/29/1984

2. How many weeks pregnant were you?

3

3. What type of abortion was performed?

DNC

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was under the belief and impression that the baby was only a couple of cells. Big lie. That the baby was not alive. Big lie. That I would not feel a thing. Big lie. That I could go back to living as always without looking back as tho nothing had happened. Big lie.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea that 26 years later I would still be affected by such a heinous and cruel cold act. God has forgiven me, I have forgiven myself, and I have been given peace. But when I think about how I was deceived, it makes me want to "act" and do something to prevent this from happening again to other women.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I came to realize that my perfectionist behavior and attitude had everything to do with my act of abortion. Perfect marriage, perfect home, perfect child, perfect career - everything looked really good to everybody else. But my heart, soul, core was hurting and very sick.

10. How has your abortion affected others in your life?

Not particularly. My husband died and I never told him. I told my daughter, but she and I came to a God-given closeness because of my testimony. He worked it all out for the good. My second husband knows, but because of his Godly heart, has no judgment or condemnation toward me.

11. Based upon your experience, what would you tell a woman considering abortion?

That she will suffer and the consequences are not worth it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That killing babies in this country under the disguise of "a woman's right to choose" is a deceptive lie. That the truth is a woman goes to get an abortion in order to kill her child because she did not control her impulses and as a result of that, she has not got that right to take the life of her unborn child. God is the One who makes decisions concerning life and death. Not us.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Bexar

My name is Mary Cochran. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Lubbock TX

10/22/1986

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

DNC

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Not really, Just brought into a room and told to lay on the table and put my feet in the stirrups. This is the first time I had had any female type of exam. They told me there would be some pain after a shot was given to me and I would feel some tugging. A Nurse held me down by my right shoulder.

5. Were you adequately informed of the consequences of abortion?

Yes No

I went to a recover area for a short period of time. They told me to take it easy for 2 days and everything would be fine. What they did not tell me was that the abortion could be "incomplete" which it was, and I got an infection and the DNC had to be repeated.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father, he said "It's either me or the baby"

9. How has abortion affected you?

I have never been the same again. I lost myself that day. I became a shell of a person. First, I developed severe depression and used "cutting" as a coping mechanism to deal with the grief. I had three other children and had much difficulty bonding with them when they were infants. I always felt God was going to punish me for what I had done. I am not diagnosed as Bi-polar and take medication and go to weekly therapy appointments. I have attempted to take my life 3 times due to the guilt of this decision, which wasn't even my decision in the first place. There was coercion.

10. How has your abortion affected others in your life?

My family has difficulty dealing with me being bi-polar and all of the symptoms that go along with that. I

grieve the death of the aborted child each year by hanging out in cemeteries and my family thinks this is weird. It is difficult for me to hold down a job.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell a woman facing an unwanted pregnancy that adoption and abortion are both emotional and painful decisions but with very different outcomes. With abortion, there is grief and the loss of life. There is no way to mend that loss and nowhere to place that grief. It destroys a mother's hopes and dreams of what a child should be. With adoption there is the pain of giving of the child, and living life wondering how they are doing but no grief that you robbed that child of life itself. You can actually congratulate yourself that you had the guts (painful as it may be) to give that child the greatest gift of all...life and with a family that chose them. You can also know that when that child becomes an adult, they may seek you out and you can have a relationship. With abortion, you cannot meet again until you have passed from this world.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I think abortion should not be legal. It is being used as a form of birth control and the thought of it's aftermath is not being taken into consideration. I have suffered for 22 years and attempted suicide 3 times over the grief and guilt of my abortion. I still am troubled by it on a daily basis. I take 3 medications to stabilize me mentally. I wish I could turn back time, and change that day.....I would be a different person now.

9. How has abortion affected you?

My abortion has cause other abortion in my life easily. It has cause drugs and drinking problems in my life, and a not a true life purpose in this world in my 20's.

10. How has your abortion affected others in your life?

I have loved freely with lot's of men, no respect for myself and aborted the babies that were those men and they never knew about them. And how would i know who was the fathers. It effects the whole world my children could have fought wars and giving other life to sustain life for want it is.

11. Based upon your experience, what would you tell a woman considering abortion?

You have one abortion and it makes it easier to have another. The pain never goes away your children are always with you no matter if you did not want them, their spirit's and their soul's was your responsibility. The pain i well discribe is like your heart being stab over and over again when your tears far over your face they feel has thick has blood, when you die of thirst your eyes bleed blood. the pain is never ending.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I regret my abortions, and for my selfishness and to be free from children in my early teens because i could do it! and it was so easy to do and no regrets at the time when i was 15,16,17,18,. For living a lie in my 20's, 30's and 40's. In my late 40's i put them to rest and named them. their spirit's and soul's are free and they are now my army of Angel's who are by my side every day of my living life. A women gives life she is the fruit of the earth please let her produce the sweets of this earth.

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

DNC

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They told me what they were going to do. But I do not remember them telling me or warning me of any side effects other than bleeding.

5. Were you adequately informed of the consequences of abortion?

Yes No

At the time all were telling me that it was not a baby. The subject of life was not talked about. I did not know that my baby's heart was beating.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Abortion was the only option ever talked about.

9. How has abortion affected you?

I was eighteen. I'm now forty-six. For twenty-five years I hid from this. My friends, my church, my children did not know or could I ever tell them. I killed my baby. How do you tell that to your children? I did not realize how this truly affected me as I did not bring it up. When I was forty-three I wanted to volunteer at the Pregnancy Help Center. However, I could not until I was healed. I was able to go through Forgiveness and Set Free with some wonderful ladies. Today I have been Set Free but it was at a great price.

10. How has your abortion affected others in your life?

My husband has loved me through all of this. My grown children now know and support me as well.

11. Based upon your experience, what would you tell a woman considering abortion?

That it is truly a baby. Its heart is beating. It is a life. The decision will affect the rest of your life. The

pain you feel you may not even know where it comes from. The shame, the hiding, the keeping it all inside is paralyzing.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If a woman can have an abortion and take her child's life and that be legal. How can someone else kill a pregnant woman and be charged with two murders? Is it life or not? Abortion is taking a life.

My name is Cindy Arbaugh. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Houston TX

03//1981

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

vaccuum thing

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was given a paper to read and just held it in my hand and never really looked at it. I was asked if I had any questions and I answered no.

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't remember being informed of any consequences, I was numb and just wanted to get it over with.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I was never able to bond completely with the one daughter that I delivered. We have had a rocky relationship from the very beginning. I did not understand why when she was born that I didn't want to hold her at first. I now understand that I didn't think I deserved to have children afer murdering the two that I had previously had abortions with. I went for about twenty-five years before I realized why I could not hold babies. My daughter was going to have a baby and I received healing just in the nick of time to be able to hold my beautifuly grand-girl when she arrived.

10. How has your abortion affected others in your life?

My relationships with others has been negatively affected over the years through uncontrolled anger that would manifest itself in ways that I could not understand. It drove a wedge between me and my daughter for years. Also, I have suffered depression over the years at in the spring which is when both of my abortions occurred and in the fall which would be the birthdays of my murdered children. The depression affected my family and also my jobs. I didn't understand where the depression was coming

from until my daughter was pregnant and I discovered the Pregnancy Help Center. I knew that I wanted to help others who were pregnant not go through what I was going through and to help those who were suffering from the pain, shame, and guilt of murdering their very own gift from GOD, but I never realized that I needed help for it until I went through the training and received healing for myself.

11. Based upon your experience, what would you tell a woman considering abortion?

If she were open to hear what I have to say, I would tell her what I went through and how I have had to live with it for the past twenty-nine years of my life. How I wonder who they would have grown up to be. How I wonder what kind of difference they would have made in the Kingdom of God Almighty. I have plenty to say to someone who is considering abortion, if they are open to hear what I have to say.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If it were not legal I would not have even thought about it. I would never have crossed my mind as an option. With it being legal it appears to be harmless, but it is not. It is by far the most life altering decision that I ever made and I have always regretted it!

9. How has abortion affected you?

I have had 2 abortions both when I was under age 25. Now I have 2 beautiful children. I often think about the 2 that I killed it gives me great pain. I didn't think of it as killing them, until I allowed my 3rd child to live. When I felt him moving inside of me I realized that I had actually killed my children!! That is something I can never undo!!

10. How has your abortion affected others in your life?

It hasn't that I know of. I guess my parents might have been hurt by it, but they never said.

11. Based upon your experience, what would you tell a woman considering abortion?

You can never undo the murder of your own child. No matter how much you forgive yourself and pray for forgiveness from God - which DOES happen - you can never forget! NEVER! If you must get rid of the child, please consider adoption! You can rest assured that at least the child has a chance at life!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The courts should consider the long term emotional and psychological effect abortion has on a woman. Pregnancy is a wonderful experience. A child grows inside of a woman and is actually a part of her. I have never met a woman yet who has come back later and said that abortion was a wonderful experience. Most women don't even admit they had one.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Houston

My name is Rachel I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Tulsa OK

01/17/2002

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

In utero suction with sedation.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed of the higher incidence of breast cancer, miscarriages, and suicide prior to my abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Both my mother and father.

9. How has abortion affected you?

I have had serious symptoms of depression including spontaneous outbursts of crying and anger, inability to accurately judge reality, suicidal thoughts, alcohol and drug abuse and promiscuous sexual relationships. The desire for a replacement baby, fear of having committed an unforgivable sin, and self-hate.

10. How has your abortion affected others in your life?

The hate I have for myself affects every relationship in my life. I don't respect myself and therefore have difficulty respecting others with my words and actions. The symptoms I struggle with keep me from having good relationships because I feel unlovable, unclean, and worthless. My alcohol and drug abuse hurt my parents and my good friends.

11. Based upon your experience, what would you tell a woman considering abortion?

Your baby is not an accident, problem, or mass of cells. It is a living human being who deserves love, compassion- and most importantly- life. Abortion will not save you or preserve your lifestyle. Abortion

kills your baby and part of you. Your broken heart will lead you to depression and self-destructive behavior. Abortion places you at a greater risk for miscarriages, breast, cancer, drug and alcohol addiction, and suicide. Nothing will heal your broken heart and nothing fills the void of your murdered child. Reach out and speak with someone who can help you keep yourself from becoming the next victim of abortion, the "un-choice." You and your baby deserve life- don't throw that right away with an abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion kills an innocent child. My abortion killed a part of me, too, and I would give anything to change my decision. I did not save my own life with my abortion, but killed that of my innocent, unborn child, Avery Elaine. My life will never be the same and my abortion continues to make me a hateful, careless woman who struggles with depression, a violent temper, and self-destructive habits. I was not informed of the higher incidence of breast cancer, miscarriages, and suicide prior to my abortion. I stole my baby's right to life. Stop the cycle of women having the option to legally kill another human being. There is no rationale- lies, excuses, "special circumstances", or otherwise - that justifies this form of murder.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of USA

My name is Cami Hill. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Lubbock TX

04//1982

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

suction or vacuum type of abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

As I remember the day, it was like going for the procedure and the procedure was completed and I left after sitting in a room for some time.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one ever told me about the emotional side effects that I would deal with for many years after the abortion. Also, I was not told anything about the developmental stages of an unborn child.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I kept this secret from 1982 until 2007 thinking that I would go to my grave without letting anyone know. I did not realize that my lack of self esteem, unworthiness, anger, depression, protectiveness of my children all were symptoms of this secret. Through the grace of God and a Post Abortion group session was I able to come to grips with all of the side effects that had crippled my life.

10. How has your abortion affected others in your life?

My relationship with my husband was affected by my secretiveness. I felt unworthy to have two wonderful daughters and felt that I would be punished for my choice by their lives being taken from me. I lived a life of fear which kept me from being the wife and mother that I could have been. I had a hard time building relationships with people.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion seems like an easy way out and a relief but the choice will stay with you the rest of your life in

some form. You may be able to bury the choice for awhile but the effects will surface.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

When I chose to have an abortion my baby was forming. It was a little human being and if more people realized the growth development of unborn babies it would shock them. Abortion is an easy fix that produces emotional side effects that will hamper a person from being the person they can be. Women need to be told both the development stages of an unborn baby and about the emotional side effects that will occur from having an abortion.

Depression, guilt, and pain

10. How has your abortion affected others in your life?

I have only told a few people and they are hurting also.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. There is ALWAYS another option, and before you say "no there isn't always" stop. THERE IS ALWAYS ANOTHER OPTION.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should never be legal. All children are created for a purpose. Having done it and knowing the depression I have, I would not recommend it to anyone for any reason.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Harris

My name is Rosa I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Houston TX

09/15/1997

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Suction Aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

It has been 14 years since my abortion and I do not remember receiving any type of counseling on consequences of abortion. They made it seem that it was a simple procedure and my life would go back to normal once it was over.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend at the time.

9. How has abortion affected you?

My abortion affected me in ways that I would have never thought of. Immediately after my abortion I felt regret and cried for days. I went through periods of depression afterwards. I vowed that I would never tell a soul what I did. Six years later I got married and immediately told my husband that I did not want children, I never told him about my abortion. The truth was I felt I didn't deserve children. I was a murderer, I only deserved misery. These feelings affected my marriage and my ability to truly love because I felt unloved and not worthy of true love.

10. How has your abortion affected others in your life?

My abortion affected my now ex-husband. Because of all the emotions I was dealing with it changed the type of person I was. Once loving and compassionate, I became controlling, angry, and I desquised myself as a "perfect" person. I played the part of a very well put together person. No one knew I was completely broken inside.

11. Based upon your experience, what would you tell a woman considering abortion?

I would first tell her to do all the research she can on the physical effects of having an abortion. No one explained the medical procedure that was done to me and any of the possible physical affects like hemmoraging, breast cancer, and infertility. This is not just a "simple" procedure. Then I would tell her my experience of my life NOT going back to normal after the abortion. Abortionists do such a great job of reassuring us that having an abortion is like ereasing the fact that we were ever pregnant. An abortion doesn't make a woman "un"pregnant, but the mother of a dead child. I would also tell her of the long term effects it has on her relationship with God and with her family. Having an abortion doesn't just affect the woman.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Having abortions legal is like allowing someone to brutally mutilate their own body and then send them away with a band-aid. With my abortion, I allowed someone mutilate my body by removing my child and possibly allowing the doctor to forever take away my chances of ever being a mother.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Orange

My name is Lisa Chisholm. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Odessa TX

02/22/1981

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

I'm not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I wasn't told anything....I was simply asked my name and asked to wait in the waiting room until they called my name. Nothing more was said.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no conversation about anything from the receptionist or the nurses or the doctor performing the abortion. It was a silent, agonizing experience.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend and my parents.

9. How has abortion affected you?

For 20 plus years, I have cried every time I think of what I did. I have experienced so much depression and fear of intimacy due to my "choice" of killing my baby. (It still makes me cry to have to admit that)

10. How has your abortion affected others in your life?

My parents have suffered much regret for pressuring me to have an abortion. It has affected every relationship I've ever had, especially with men, ultimately ending because of my fear of intimacy due to the loss of my baby and the psychological damage that loss has caused.

11. Based upon your experience, what would you tell a woman considering abortion?

I would give anything to share my experience with any girl/woman, pregnant or not, how horrific that decision is. It's something that rips your soul and darkens your outlook not only on life but people as well. It is so detrimental to your psychological make up that it can destroy you as well as every

relationship.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The damage reaches much further than just eliminating an unplanned pregnancy. Not only does it eliminate the life of a child, but it jeopardizes the life of a woman and all those who love her and wish to love her. It is far better to face an "unplanned pregnancy" than to face a life-time, which affects everyone around you, of psychological and physical torment.

9. How has abortion affected you?

For 38 years I have kept my abortion a secret. It has affected my physical and mental health, as well as my relationships within and outside my family.

10. How has your abortion affected others in your life?

My parents and my son have been affected due to the dysfunctional relationships that were continued.

11. Based upon your experience, what would you tell a woman considering abortion?

Life begins at conception; the abortion procedure doesn't clean out a mass of cells, but erases future life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Laws allowing abortion are wrong; if a society doesn't value the very core of its citizenship, it will

eventually crumble.

County of Bexar

My name is A G I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Marcos CA

3. What type of abortion was performed?

Unsure, suction?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I just went in, the doctors gave me a medication to numb my cervix, they did an ultrasound to make sure I was pregnant, and I had to lay on the table while they left the ultrasound going and then they performed the abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

I filled out a form of consent but they never went over it with me so that I understood completely.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mom

9. How has abortion affected you?

I felt guilty for a long time. It also was a source of shame, guilt, and awkwardness between my husband and I when I was pregnant whith out child. Every time I went to the doctor I had to say how many times I had been pregnant, how many I carried to term and those I didn't why I didn't. However, I no longer feel shame or guilt because of God's love and forgiveness.

10. How has your abortion affected others in your life?

It caused tension between my husband and me for a long time. It also is an unspoken event between my mom and I because I see it as murder, I didn't want it, and if she sees it the way I do then she has to admit to the murder as well. Therefore I cannot even talk to her about my participation and call from God in the Pro Life movement.

11. Based upon your experience, what would you tell a woman considering abortion?

I was adopted and my mom chose life for me. There are many people who are desperate for children who cannot have them who would love your baby. There are also organizations to help you financially and with housing if you do decide to keep you baby. All children are God's children. If you turn to Him, He will guide you, direct you, and assist you in your motherhood. There is no shame in your situation. There is love, help, and hope from other women who have been there. You are not alone.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Using the same logic that many of these babies would be born into poverty, abused, and would eventually be part of the foster system, would you then suggest that the humane thing to do for people who are poor, homeless, unloved, have no family, have been abused, etc. is to euthanize them? Of course not. However, that is essentially the exact same logic used in the abortion debate. Double standard. Second, babies feel pain in the womb. Ultrasounds of babies aborted with saline are shown to try to get away from the saline. It is obvious that they can feel it. Murder is murder no matter how you look at it.

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was just a blob of tissue and that no life was formed. I later after taking anatomy and physiology in college realized what I had done and was devastated.

5. Were you adequately informed of the consequences of abortion?

Yes No

Never was I told of the emotional distress it would cause me for the rest of my life. I was a murderer. I took an innocent, helpless life out of the safest place life should be protected in "the womb."

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my boyfriend at the time was not ready for a child

9. How has abortion affected you?

I value life more. I am living a life of regret, guilt and shame. I constantly wonder what if. I thank God every day for His forgiveness and try to make the very best out of what I have. But, I continue to grieve over my loss.

10. How has your abortion affected others in your life?

I have three beautiful girls and one boy who will never know their siblings until the day of Jesus Christ.

11. Based upon your experience, what would you tell a woman considering abortion?

Your choice is life or death for another human being. What if someone had the power to choose that for you, what would you do? Do that very thing for the life growing inside of you...choose life!

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

YOU ARE TAKING LIFE INTO YOUR HANDS AND GIVING CONFUSED, SCARED AND OFTEN POOR YOUNG WOMEN THE HORRIBLE CHOICE TO MURDER A HUMAN BEING. YOU WILL BE HELD ACCOUNTABLE FOR EVERY LIFE YOU HAVE GIVEN THE LIBERTY TO KILL. ABORTION IS MURDER!

9. How has abortion affected you?

Not a day has passed that I have not thought about my baby. I still pray for the baby. I still long for this child. I married the father and we both regret this loss. We were told not to talk about this and we have four more children. The oldest three know and we have expressed our sorrow to them. The loss for us is as if the child had been born to us.

10. How has your abortion affected others in your life?

My mother and father regret the choice they made for me. My mother who is alive is so sorry for the choice because our marriage is so amazing. Our children are so close and those that know feel our pain deeply.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't!!!! Please, I have so much guilt and worry about my father's fate since he has passed away. We have all asked for forgiveness from God but forgiving myself is the most painfull thing to do! If I forgive

myself, will I forget? Will this beautiful life ever forgive me?

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I have been taking classes towards a nursing degree and all of the books say that life begins at conception!!!!!! Why does the court say different!??? It angers me to think that I took a life at 16 yrs old without knowing what an incredible sense of loss I would feel. Please stop the shame and give life a chance! This is the first time for me to publicly face this, understand how hard this is!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Harris

My name is Nona Ellington. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Houston TX

10/20/1983

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not given the option of seeing a sonogram, I was not informed that my pregnancy was a baby. I was told that my baby was a blob of tissue. I was not given the option of hearing my baby's heartbeat.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told of the emotional side effects of the abortion or the fact that I was at a high risk for many damaging physical effects at my age of 15.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Planned Parenthood and my peers at school

9. How has abortion affected you?

It ruined any chance of giving birth. As a result, I had 5 miscarriages, 3 of them tubal pregnancies, requiring emergency surgery and were very near death experiences. I have suffered from several bouts of depression and attempted suicide, self mutilation and an 18 year long abusive marriage as an aftermath of the abortion.

10. How has your abortion affected others in your life?

It devastated my father to find out that his grandchild was killed. He said to me when I told him many years later, "if I had known that I had a grandchild, I would have raised him myself". Everyone in my life was emotionally affected, because of the effects it had on me.

11. Based upon your experience, what would you tell a woman considering abortion?

Please, please ask to see a sonogram and to hear the heartbeat of your baby and have the doctor

explain to you what you are seeing on the sonogram. If I had seen a sonogram of my baby, I would have chosen life, instead of death for all of my babies and my womb. My experience of emotional trauma after abortion is the same as millions of other women and their families. Your choice does not only affect you, it will affect the grandparents and siblings of your child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It should not be legal for a woman to choose the death of her child, her womb, the future children that she may or may not have. Every woman should have every bit of information and facts about the affects of abortion to herself, her baby and those in her life. The truth of what abortion is and does has been revealed to those of us who have suffered the consequences and our country has suffered as well. How can anyone believe that abortion should be legal after seeing a baby living in the womb of it's mother on a sonogram and hearing the heartbeat of that baby???

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Bexar

My name is Sandra Hernandez. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Antonio TX

01/05/

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I just refused to think about it. I have given my life to Christ and asked for forgiveness and I just don't think about my past experience. I not only had one abortion but three.

10. How has your abortion affected others in your life?

Other people don't know except for the people that took me to the clinic.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not please do not have an abortion. I would tell them that if they pray and ask the Lord to help them support their unborn child then the Lord will help them. I encourage any lady or young lady never to have to go that route.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion hurts physically, emotionally and that it is against God's will for abortion. God says he gives us life and life in abundance. I would tell the court to rally for more programs to help these women or young ladies with programs to help them not abort.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Tarrant

My name is Jennifer I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Fort Worth TX

10/25/2006

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

Dilatation and cutterage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I woke up in the middle of the procedure-literally feeling life being taken from my body. I became severely depressed, suicidal, I have had one preterm delivery because of a weakend cervix, numerous nightmares, fears, unhealthy relationships and shame for killing my child. I was told the baby was "tissue" that was the biggest lie.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Ex husband

9. How has abortion affected you?

listed above-shame,anger, guilt, fears, physical reprocussions including preterm delivery, severe depression, unhealthy relationships with men and my child. Nightmares.

10. How has your abortion affected others in your life?

The people that loved me at the time were devastated, I'm sure my overprotectiveness of my son now is affecting him and my postpartum depression affected my bonding with him as an infant.

11. Based upon your experience, what would you tell a woman considering abortion?

Please dont. Dont listen to the world and what they tell you is right. Yes, it is your choice, but remember that someone chose for you to live-for a reason-the baby inside you has a purpose beyond what you can see right now. Reach out. You are not alone.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

This isnt a battle of womens "healthcare" since when did killing an unborn child become a matter of health? This is the societal way of accepting murder. What else will we let human beings get away with? All the things you look at in disgust, your decision making creates them. I challenge the people of the court to watch a live abortion-the tearing of human parts from a womans body-dont look away, dont close your eyes-because the life you are saying it is okay to take cannot look away or close his/her eyes. I have personally met hundreds of women from all walks of life, beliefs, backgrounds, etc. and when you ask them all what they wish they knew before they aborted-it would be the TRUTH. THE TRUTH IS THAT ABORTION IS MURDER. You essentially lose two lives on the table in a cold, hostile room each day an abortion is performed. The mother and the child.

2. How many weeks pregnant were you?

18

3. What type of abortion was performed?

D&E

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I do not remember any education at all about the actual abortion procedure or what it was actually doing to me or the fetus

5. Were you adequately informed of the consequences of abortion?

Yes No

I had NO education on the possible physical or emotional consequences of abortion, short term or long term

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend - later became my husband

9. How has abortion affected you?

I was in complete denial for 12 yrs, remained in a physical/emotionally abusive relationship for 11 yrs because I felt worthless. Depression, eating disorders, no hope for the future, trouble bonding with first living child. Incompetent cervix due to the abortion and first child born at 23 wks, almost did not survive. Anger, resentment, problems in other relationships with parents for example.

10. How has your abortion affected others in your life?

Bonding issues with first living child, relationship issues with parents and friends, divorce from husband.

11. Based upon your experience, what would you tell a woman considering abortion?

I would share my testimony with her and give her the straight facts about what abortion is, does to women and everyone involved and possible consequences such as Post abortion syndrome.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that it is not about women's rights, it is about the right of the child living inside of her. She is no longer just her own self and body. That abortion does nothing but destroy and mutilate the God given maternal instinct to women. It causes pain, hurt, grief, sadness and broken people and relationships. There are other options such as adoption or learning how one could parent a child they may think at first they can not when considering abortion. Nothing, absolutely nothing good comes of abortion and is an injustice to all individuals involved.

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

My boyfriend

9. How has abortion affected you?

It created a ongoing cycle in my life that led to multiple abortions from high school to my adult years. It became a medical procedure that was not harmful to my body (so I thought). It also led to mental anguish, low self esteem, depression, fear, and failed relationships.

10. How has your abortion affected others in your life?

For one, it hurt the person I was in the relationship with because he wanted the child. For another, it caused mental anguish and guilt and also caused a deep wound in the relationship that never healed.

11. Based upon your experience, what would you tell a woman considering abortion?

That it is not worth the pain, guilt, shame, fear, and depression that it causes. Also, that children are a gift from God and that God loves you no matter what mistakes we make. If they are too young or unable to care for the child, there are several families that want to have children and they can give the

child up for adoption to a loving and caring family. Lastly, that having an abortion creates bondage. It created a cycle in my life of multiple abortions by trying to cover up getting pregnant. I thought I was free, but I have been in bondage for years. Having the child may seem like bondage, but it will actually set you free.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is a form of legal murder. There is no difference between a mother physically killing her child after the child is born and terminating the birth (killing) the child in the mother's womb. No one ever explained the intricate details of child birth to me so I always thought it was okay to terminate a pregnancy. However, it now pains me knowing that I killed a child(ren). It also pains me to know that I have terminated several pregnancies and at the same time having a friend who has had multiple miscarriages trying to have children. We take life for granted and this is why society feels it is okay to take a life due to "free will." I think about the life I could have given my child or the blessing I could have given to another family (particularly my friend). I have to live with that pain everyday. Despite knowing that people make a decision everyday to have an abortion doesn't negate the fact that there will be no after effects of that decision. There are consequences to every decision that we make, but legalizing abortion just makes that decision easier. Murder is murder. All murder should be illegal.

9. How has abortion affected you?

for many years it cause me to be depress, I will often think about how old the child would be, I use to have nightmares about the aborted child. I would hear the baby cry for me and I could not get to the baby. I became very depress and ashamed. I knew that what I did was wrong and still I did it. This decision cause me great pain through the years. I have been on antidpressen medicine on an off.

10. How has your abortion affected others in your life?

My husband is very much affected by this he often thinks about it and regrets that decision he feels just as bad as me maybe worse.

11. Based upon your experience, what would you tell a woman considering abortion?

Choose life, the pain will never go away. My Lord and Savior has forgiven me, and I can continue on living but the pain is still there.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

He needs to know how it feels before he can judge, the pain never goes away. Remember you once

was a tissue.

My name is Charlotte Hartzell. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Houston TX

//1978

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was under the impression the tissue was still a blob, not a live baby in my womb. My husband said he was not ready to become a father, so I went to have an abortion, for his convenience. I don't remember anyone explaining it to me to make me consider what I was about to do.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me I was killing my child. I was young and dumb. I have regretted this decision for 29 years, when I realized I had killed my child. I actually had another abortion 6 months after the first abortion- my husband wasn't ready to become a father- convenience. I am not blaming him, but that is why I did it. After the second abortion, I divorced him, because I knew he didn't love me or our baby.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My husband at the time.

9. How has abortion affected you?

I have been grief stricken since I realized that I murdered my 2 children. I regret being so selfish that I committed murder of the children in my womb, for our convenience.

10. How has your abortion affected others in your life?

My son is an only child. He always wanted a brother or sister. I wouldn't abort him, even though his father wanted me to.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. Children are a gift from God, a blessing. If you can't provide for the child, consider adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

When you become pregnant, there are two lives to be considered, the mother and the baby. The baby is a human being and should have the same rights as the mother. If a person has been raped and become pregnant, let them give up their baby to someone who wants to adopt. Many people are available to help. Do not abort a baby(murder a baby) for the sake of convenience or selfishness. You will always regret it.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Brazoria

My name is Amanda Ford. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Houston TX

10/15/1995

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

Vacuum Aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told how the abortion would take place.

5. Were you adequately informed of the consequences of abortion?

Yes No

No, I do not remember being informed of the consequences of the abortion. I do remember being told about aftercare, but never the actual consequences that would occur as a result of having an abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

It was a decision between my husband and I.

9. How has abortion affected you?

Depression and guilt plagued my 20's and 30's. For years, I begged to God for forgiveness and continued to feel alone and depressed. It pulled me away from God and made me feel completely unworthy of His love and forgiveness.

10. How has your abortion affected others in your life?

My husband was the only one that knew about the abortion. But, when my oldest daughter became pregnant as a teen, my husband and I told her she needed to have an abortion. It was at that point that I tried to convince her to have an abortion by sharing the fact that I had also had an abortion. Shocked and hurt, my daughter did not have the abortion. My second daughter became pregnant and I shared my story with her as well and she did abort her baby. This has riddled me of guilt and shame for years. I have been tormented by the affects that abortion has had on my youngest daughter. She suffered tremendously emotionally and physically.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her of how incredibly regretful she would be and depression would sure to follow. No matter what she has heard, she has a gift from God growing in her. I would let her know my story and how the cycle of untruths can continue on to hurt others. And know matter what she may think, it will never go away.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Please listen to the affects of abortion. . . Listen to the women that have endured the life long effects of aborting a baby. . . Please listen to our plea for human life. . . For every abortion NOT performed, two lives are literally SAVED. . . Please, save our young women from the most detrimental experience of their lives. . . Please fund alternatives to abortion. . . Fund homes for young women to live while pregnant, fund adoptions, fund education, fund a renewal for life instead of death. . . Please hear our plea for life. Please hear the plea of life from GOD. The very God that made You possible. Please!

the baby's father/my boy friend

9. How has abortion affected you?

The guilt, shame, loss, grief, and deep sadness is difficult to describe. One is not to experience or express grief and loss over an aborted child...who do you tell? what do you say? All this emotional pain remains buried, and just under the surface of what appears to others as a controlled balanced life. A lie...we live a lie. Anger simmers just below the surface waiting to explode. I have a very strong family history of breast cancer. Now I anticipate and dread the diagnosis for myself. I had two abortions a year apart. I had infertility issues carrying out three children after these abortions.

10. How has your abortion affected others in your life?

I had to tell my husband...very painful. Then I experienced several miscarriages which also caused him much pain. He also has been affected by my emotional state...my anger and sadness. I also had to tell our children. And it now is part of my testimony of all God has brought me through. His forgiveness and redemption.

11. Based upon your experience, what would you tell a woman considering abortion?

I would explain exactly what they will experience during the abortion...the sound of your child being sucked out of your body. The searing pain during the dilatation of your cervix and scrapping of the uterine wall. And that there is a chance of perforation of the uterus that can result in a hysterectomy, and sterility. The emotional consequences are tremendous, life long lasting and very difficult. You will go through the grieving process...however you will most likely be stuck in the process until you admit you have killed your child. You will remember for the rest of your life the day of your abortion and the day your baby is due. This will never leave you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Every mother knows that they have just killed their child. Killing is wrong. A mother is held accountable the moment she delivers a child for it's welfare. 36 weeks earlier this should be no different. At the time of my abortions 1 out of 4 women experienced abortion. Now it is 1 out of three. This is a silent epidemic we could end by doing the right and moral thing. Please hear our hearts and honor our experiences with a redeeming act of justice.

QUESTIONS

1. Where and when did your abortion occur?

Austin TX

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Curettage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I went to Austin Women's Health Center in south Austin. The girls laughed amongst one another while trying to get a vein to draw blood after the fourth attempt. I was given 3 pills and asked what they were and the girl said, "I don't know." I was taken to the exam room where nitrus oxide was administered by a nurse. The doctor came in shortly thereafter and performed the procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no counseling. This was 12 years ago so I don't know if they had it at the time, but their website www.austindowenshealth.com claims to they provide counseling on the procedure and its effects.

6. Were you informed of any link between abortion and breast cancer?

boyfriend

9. How has abortion affected you?

My life was a disaster. I self-medicated to hide the pain. I hated myself and wanted to die for three years afterward. It was awful!

10. How has your abortion affected others in your life?

I don't feel like it has affected others because it has been so long ago. I don't know that it affected anyone because no one really knew and I was living 3 hours away from family. I only told a small circle of friends and a few cousins.

11. Based upon your experience, what would you tell a woman considering abortion?

Thankfully I have healing and forgiveness from the Pregnancy Help Center in San Angelo, TX and

volunteer as a peer counselor. I would urge them not to do it, share my story and let them know that abortion is not a quick fix. That it is an open door to pain and torment. Adoption is always an option.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them to pretend that someone had repeatedly ripped their heart out and to be silent while it happened. That the very being of their existence was taken from them (even if by choice out of fear) and there is nothing they could do to get it back. You are not only taking the life of the unborn child but the life of the mother as well even if it doesn't kill her physically.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Brown

My name is Debra I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Lubbock TX

08/18/1977

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

dilation and aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

During this time in American history (1977), abortion was talked about very little and abortion had been legal for only a few years. The abortion clinics were "pro-abortion" and worked primarily to convince a pregnant woman (in my case an unmarried pregnant teenager) that for my own good abortion was my only appropriate choice. They never mentioned or acknowledged that there was an alternative choice.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was talked to only about my need to have the abortion for my own good. The consequences emotionally, physically, or morally were never mentioned in any way. The physical consequences of profuse bleeding that happened few days after were also never mentioned. I had no warning about what I would be experiencing and that more bleeding than I had ever experienced could be expected. I did call the clinic and they said, "Oh don't worry about that; it is normal. See you next week for your check-up." Prior to the abortion, the clinic workers spent all their time telling me why I should have an abortion and no time explaining things I needed to know about the frightening experience. I survived this horrible experience, physically normal and intact. But there was no communication about the bad side of the experience, only their opinion of the positive aspects. Needless to say, the emotional damage was never even spoken of at all.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

mainly My ObGyn & the abortion clinic

9. How has abortion affected you?

My husband and I miss our baby everyday. I went on to marry my aborted baby's daddy and we have

been happily married for over 34 years. But neither of us has ever forgotten this one decision we would never make again. This abortion experience has come with a lifetime of regret and emptiness. It added to the emotional damage that I had accumulated throughout my childhood by living in a dysfunctional home. The abortion was a damaging life experience that ONLY God was able to heal and help me through. Today, my husband and I have 3 adult children, all functional and all positively contributing to society. My husband and I are blessed by, proud of, and thankful to God for our children. Our children, like my husband and I, are all born-again followers of Jesus Christ.

10. How has your abortion affected others in your life?

The abortion has had many negative effects. My mother who signed for me since I was only 17 at the time, gave permission for the abortion. She has had a hard time with her decision throughout the years and has dealt with it many times through denial and acting as though the nightmare of the abortion was something that never happened at all. The story of my mother and dad, in general, is an entirely other aspect of this situation. All of the damage in my life is explained in my book I wrote that has been recently published called, "A Wounded Daughter's Survival--A Damaged Life Healed by Hope and Truth" by Deborah Leigh Alexander (I published under a pen name.) My book is available on amazon.com and barnes and noble websites plus many other websites worldwide. Information about my book can also be found by googleing the book title and/or my pen name. I wrote this book to heal from my childhood pain which culminated with the abortion. And I want to help others damaged by emotional pain and abortion. My story of survival gives honor and glory to God my heavenly Father, and brings hope to a hopeless situation. It is the hope I found and chose to share and a way to make something positive out of a damaging, negative childhood. Reading Chapter 27 of my book would hopefully help most people considering abortion to re-think, avoid the damage, and choose a better way.

11. Based upon your experience, what would you tell a woman considering abortion?

I would say to any woman considering abortion, do not make a decision that you will ultimately regret. It is inevitable that you WILL regret that decision, whether it be here on earth or after you die and meet God. It is a decision that comes with a lifetime of baggage, regret, and irreplaceable loss. No human is so strong that they will never be touched emotionally in some way by choosing to allow their own child, their own flesh and blood, be murdered. And murder is exactly what abortion is. The problem is that, altering the truth has caused many to believe the lie that abortion is only a choice when, in fact, it is violently murdering an innocent life that God created. For born-again Christians, our bodies are the temple of God and not ours to do with as we choose. I believe that when a woman is pregnant, the choice has already been made. Have the baby you chose to conceive. I pray that no one would make such a choice as abortion which is one you can never undo or make right but only regret for a lifetime.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

God says in His word, "Thou shalt not kill". It makes no sense to me that man and his court system thinks they have the power and the ability to override our creator's righteous commandment that is in place for our own good. How can a moral wrong become a civil right? I would never again consider abortion as an option. Abortion is wrong and should never be offered as a choice to legally kill your baby. Life begins at conception and a baby just conceived is just as much a person as a two year old child. Abortion damages lives, comes with a lifetime of regret, dishonors God (the One who created us all), is NOT a decision for humans to make, and is a destructive black-mark on society which will lead to the demise of us all. And unfortunately I speak from experience. Abortion is a current day holocaust that must be ended. Every human is valuable.

09/12/1997

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I did not know that my baby was fully formed, breathing and had a heart beat.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea that I would be forever traumatized by my experience.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have had 3 abortions and the last one was in my second trimester and I will never forget hearing the doctor say, "He is not all out yet, hold on, wait..." I began to scream, "O My God...my Baby!" the nurse tried to console me, but, I just was not able to ever get over the fact that I murdered my own child.

10. How has your abortion affected others in your life?

I cry a lot, if I hear a story, see a movie, poster, billboard anything that has to do with abortion I cry and I am always asking God, Jesus, my children in heaven to forgive me. I have tried to overcome my sorrow, but, I don't think I ever will.

11. Based upon your experience, what would you tell a woman considering abortion?

Please know that Abortion is Murder, you are choosing to kill, whether you want to hear that or not. If I had been told that when I first got pregnant, I would have at least thought twice before going through with it. Planned Parenthood made it sound like a simple procedure taking care of an honest mistake. They never once told me the heart beats and fingers and toes form almost within days of conception.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Abortion is Murder. If it is legal than you are giving women the right to kill. That is the bottom line. Life begins at conception that is the truth, there is no way around it.

HOW MY ABORTION AFFECTED ME

The State of TX
County of Harris

My name is Karen. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

2. How many weeks pregnant were you?

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

I was told by Planned Parenthood it was "just tissue."

5. Were you adequately informed of the consequences of abortion?

Yes No

Nothing at all was spoken of the consequences of abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

No, I didn't want a child with that husband.

9. How has abortion affected you?

I went on to have a child two years later, but was unable to have any more children after that. More than anything in the world I wanted to have a lot of children. I don't know whether or not the abortion physically caused me to be unable to have more children, but there definitely seems to be a correlation. Regardless, I deeply mourn the child whose life I destroyed.

10. How has your abortion affected others in your life?

It caused me to encourage my niece not to have an abortion when she was considering it after getting pregnant while unwed. Her mother was encouraging her to have it. In the end she had the child, who is now a beautiful, beloved 11 year old daughter and granddaughter.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not have an abortion. You are not "saving" a child by killing it. You are not "loving" your child more by killing it. Look online at photos of children who have been born at 16 weeks, 12 weeks, 10 weeks, you will be astounded to see that the child in your womb is truly a child. Put your faith in God, not in your own intellectual calculations about how you are going to manage in the future. You will be fine. Take one day at a time. God will provide.

baby's father and society

9. How has abortion affected you?

At the time I did not realize just how deeply devastating the abortion would impact myself or my other children. During the abortion procedure the grief hit but only after the abortion had started. I became extremely guilt stricken and deep depression smothered me to the point that I eventually had a tubal ligation to prevent any possibility of future pregnancies. I regret that decision now as well. After 15 years, this is the first I have shared this information with anyone. In the despair, I gave up on life, gave up total control over my life to the father of the baby which in turn caused even more trauma in my family. After extensive therapy, I can pin point the abortion as the turning point from a single mom to a defeated woman turned criminal having given up on the value of life itself. Because of the strength of my daughter, who saved my life by reporting the trauma done to her, I am thankful to have a new perspective on the value of life through Jesus Christ.

10. How has your abortion affected others in your life?

The abortion became the start of tragic events that continued to manifest years later. During that time (abortion) in which I became depressed and gave up on life, my other children suffered with my depression. Having given up on life myself and the value of life, rather than turning to Jesus Christ for restoration and hope, I turned to a man to surrender my life and my child to. Years after, my daughter bravely reported the crimes committed against her. It saved my life however in the process, my actions caused abuse to my daughter and I am sure has

only caused devastation to my son as the events began to unfold. While I am still responsible for my actions, I can only imagine how my strength to stand alone, to NOT have the abortion and for what, it isn't worth it. Second, what is the real reason for the abortion? If it is for a running point worth it. Third, there are alternatives and Jesus Christ will be with you through no matter what situation you face. Having an abortion will lead you down an emotional pit, no matter what "they" tell you, what you hear, what you research. The "little bit" of sorrow you think you may have, will consume your life for years to come. The justifications you find to have an abortion is what you are telling yourself to talk yourself into having the abortion. There is no justification that is worthy, no matter what you tell yourself. I came up with every single scenario you could think of and had every possible reason to have one. It wasn't worth it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

1. The emotional trauma is more devastating than statistics say. 2. Those telling you they are fine with having had an abortion are lying to themselves. 3. Abortions deteriorate the value of life. There are consequences. It gives us a society where life is not valued (abortion ok, then euthanasia must be ok, then murder must be ok, violence must be ok, and so on....) 4. It is murder! 5. We are not God to decide who should or should not live. 6. If abortion was not legal at the time, it would not have been an option for me to go down that path. 7. Just think of the talent, input to social security funds, the amazing things our babies would have grown up to contribute to our world. That is lost forever.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Kaufman

My name is Bonnie Horn. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Stockton CA

06//1990

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

There was no explanation for the abortion, only the insert I was sent home with to enlarge my cervix

5. Were you adequately informed of the consequences of abortion?

Yes No

There were no explanations of consequences, not even bleeding.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend who is now my husband

9. How has abortion affected you?

Every symptom I read about.

10. How has your abortion affected others in your life?

The effects of my depression on my family have been the most damaging.

11. Based upon your experience, what would you tell a woman considering abortion?

Get all the information about the procedure, the risks, and consequences. Talk to a counselor if you are a moral person who believes life begins at conception. Because that is what will do the most damage: knowing that you killed a true human being. You must understand what that will do to you if you believe life begins at conception. Also, if someone you love is pressuring you to get an abortion, do everything you can to get some space from them and sort things out for yourself. Don't let someone else make that choice for you.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

You have done me no favors and you failed to protect the rights of my unborn child. Had you made this procedure more difficult to obtain that child would be living today in a home where he was wanted, by me, and we would love him and he would grow to be a positive part of our society. I married his father and we are still together contributing to our community as business owners and responsible consumers. We named him Travis. Travis would have been a fine man.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Polk

My name is Lynn Hoyt. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Orlando FL

03//1979

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

it was a suction type abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was merely told the procedure would be a suctioning of tissue vs the truth of the great pain the fetus would feel.

5. Were you adequately informed of the consequences of abortion?

Yes No

No counseling re: the emotions I would live with for the rest of my life was given.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It's made me wear my crime of murder publically as I am a minister's wife. It is a sorrow that goes deep in my soul. No words of comfort can heal the devastating consequences I caused to another human being.

10. How has your abortion affected others in your life?

It's grieved them that I had no thought for my firstborn to live. My selfishness at that time in my life is a sad lesson that they can hopefully learn from.

11. Based upon your experience, what would you tell a woman considering abortion?

There's no rational thinking when you are in the throes of pregnancy. Therefore providing life for a child that someone can adopt is the most just way to work through an unwanted pregnancy. 9 months of inconvenience is easier to live with than an entire adulthood of regret that you killed your own offspring.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

A woman in the throes of an unwanted pregnancy is unable to think rationally and it doesn't help that our government approves of killing it's unborn. Legislation that not only gave permission to kill my baby silenced my true heartbeat for children; my first degree was in Early Childhood!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Comal

My name is Jessica Hughes. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Harrisburg PA

11/15/2002

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I wasn't giving any literature on Abortion. I feel today that if only I were shown pictures of what an abortion does, there is no way I could have done it.

5. Were you adequately informed of the consequences of abortion?

Yes No

No. I met with a counselor a few minutes before I saw the doctor. She asked me a few simple questions and then sent me on for the procedure.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents were not very supportive.

9. How has abortion affected you?

Instantly, I felt the loss. I have always loved children and looked forward to the day when I was blessed with one of my own. When that day came I was overjoyed to be expecting. I went from telling everybody and shopping for maternity clothes and buying baby announcements to looking for a clinic that performs an abortion. So quickly I went from being so excited to very depressed. To this day I don't feel like I was in the right frame of mind when I had the abortion. I think I was depressed and thought this was my way out. I try to find positive things that I took from this difficult that I made. One important thing that God has shown me is to cherish every life and everyday with your loved ones.

10. How has your abortion affected others in your life?

Everyone knew I was pregnant. I was 21 and my boyfriend was about to turn 30. He had wanted me to keep the baby and so did his family. About 8 weeks into the pregnancy I had decided that I didn't want

to be with him anymore. We had only been dating a couple of months and i wasnt happy with his lifestyle so i decided i would raise this child on my own. As i got more depressed, around week 10, i just wanted out of the situation. Little did i know, the depression would get worse and to this day i am still effected by it daily. . I kept in contact with the father and together talking about it, we found comfort in eachother. For me, it really helped hearing him say that he had forgiven me and that he knew he could have done more to help me avoid the abortion. It would help take some of the quilt away. Three years after the abortion, he was killed in a car wreck. Just when i thought i was starting to cope a little bit more, i became depressed again. Asking myself "Why am i still the one that is alive?" He didnt want the abortion and i did. Why is he the one who was taken so soon and i am the only one of the three still alive? Now i know why..... God gave me another chance to make the right choice. Three months ago my husband and i welcomed a son. He is just my world. I look at him often and tell him how i will try to never let him down and protect him in everyway i can.

11. Based upon your experience, what would you tell a woman considering abortion?

Seek counsiling and find a good support system right away if you are considering abortion. Your body is going through so many hormonal changes and depression is very common among pregnant women. I truely believe that if my depression had been recognized, i wouldnt have made the choice that i did.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

How can an act that hurts so many people (emotionally, physically, ect) be legal.....? A baby shouldnt have to suffer because of an irresponsible choice that the woman made.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of BEXAR

My name is M H I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

El Paso TX

03/14/1998

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction (I think)

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was informed that it wasn't going to hurt and it was the most painful thing I ever experience to date. I remember the nurses telling me to be quiet so that I don't scare the other patients. I had no clue what type of abortion I was having, I am still not completely sure. I am only guessing based on what I have recently read. I was told that this was the best option for my situation and it was the worst choice I ever made.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never informed that I would become depressed, self destructive, suicidal, the list goes on. For years I thought I was alone and I couldn't forgive myself. It held me back in life because I felt like I didn't deserve to accomplish anything.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I isolated myself for years, then later turned to alcohol and drugs to forget. I became promiscuous because I didn't care or respect myself. I hoped and tried for years to have a baby to try and replace the one that I killed. I lucky and blessed to not have an STD. I didn't graduate high school, I didn't complete college, I have dated all the wrong men. I have dated men that treated me badly emotionally and physically.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. It may seem to be the easier thing to do, but it's not. It hurts more than you can imagine. It's a pain that you will live with for the rest of your life. Even once you have asked for forgiveness and accepted it for yourself, the guilt of what you have done will continue to haunt you. I don't know what was worse, the physical or the emotional pain. I guess if I had to weigh it, I would say emotional. I the physical pain was over, but the emotional pain goes on for years to come. It reminds of the woman in the Bible who bled for 12 years until she touched Jesus' garment and was healed. She may not have been bleeding anymore, but something tells me that to society she was still a dirty and unclean person. We are only human, to forget that someone was unclean for 12 years isn't likely. The joy she felt when she was healed must have been overwhelming, but the struggle with society to follow must be a lot like that of a post abortive woman. Even though people may not know about your abortion, you still act towards them as if they did. You still treat yourself as if they did. Every time you hear or see something about pro-life or pro-choice you feel a sting. When people are talking about it you just want to close your ears and leave the room. It is a very difficult thing to live with. If you can't have your baby, then let someone else who can't have children care for you baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I just don't understand how you can allow something so immoral and so hurtful to be permitted. There is no regulation to abortion clinics. The entire industry is based on lies and death, how can we support such a thing. How can you turn your cheek and not see what is really happening? Spend one day, just one day in a clinic and then come back and tell me that you think it should be legal. Abortionist themselves have come to hate woman for what they do, but their greed and love for money keeps them coming back.

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

A friend

9. How has abortion affected you?

I will never get over it. It is like a death in the family from which you will never heal. Your yearn to go back and change your mind but there is no going back. It is always in the back of my mind.

10. How has your abortion affected others in your life?

No. They do not know. I suffer alone.

11. Based upon your experience, what would you tell a woman considering abortion?

Never do it....give your child a chance at life. Give it up for adoption. Even if I were raped I would have

the child. If I knew I would die in childbirth I would still have the child. Nothing is worse than living with the guilt of killing your own baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Please put an end to this genocide. Young women just don't know the consequences and they can't know until they are mature. I am 50 now and I know....

my mother

9. How has abortion affected you?

It has ripped me apart on the inside, I started having mood swings and anger issues, but after 25 years, I recently had a bout with depression november 2008, I couldn't function with my duties as a mother or a wife, I am a childcare provider and my husband was doing my job after he would come home from work, I just laid in my bed having thoughts of suicide and crying, I couldn't even get up to comb my hair, I stop going to church faithfully, I became angry at my church family, I was already angry with my mother for 25 years now so anything she said to me was a constant reminder of her betrayal, I thought

how could my own mother sacrifice my life to protect her reputation? that really hurt me down in my soul, see I'm responsible for getting pregnant and my husband now was my boyfriend then and we were making plans to get married but my mom thought I was ruining my life, so I wanted to please her more than I wanted to have my baby, and I have to live with that stupid decision the rest of my life and I have to look in the face of my husband and remember that I killed his 1st born child, I carry pain and guilt for myself and hurting him. My marriage has suffered greatly, we have went from drugs to drinking, fighting and infidelity. I suffered 2 miscarriages also.

10. How has your abortion affected others in your life?

my husband is going through a healing process now, my children all three of them, know about the abortion and 2 miscarriages, I have been unable to have the compassion that I desire for my husband and children, this affected our intimacy very much for me, I was never able to really enjoy sex without feeling guilty or shameful and why I can't understand, even now I suffer with feelings of inadequacy, sometimes I don't want to be touched, that has affected my husband but now he knows and understands what I'm going through so he's very patient with me. My children seem to be very sensitive, easy to anger or be offended and I blame myself for that, because I use to fuss a lot and I didn't show much compassion, I was just like my mom, she thought buyin me things showed me her love but I wanted her to say it but she couldn't because she herself had 1 or 2 abortions and was always angry and talked down to me because of what my dad did to her.

11. Based upon your experience, what would you tell a woman considering abortion?

THIS IS WHAT I TOLD MY DAUGHTER IN LAW WHEN HER PARENTS WANTED HER TO HAVE AN ABORTION: PLEASE DON'T KILL YOUR BABY, GOD WILL HELP YOU TO TAKE CARE OF THE BABY. IF YOU GET ON THAT ABORTION TABLE YOU MAY NOT GET UP ANYMORE AND CONDEMN YOUR SOUL TO HELL FOR ETERNITY, YOU CAN MAKE IT, I DON'T CARE WHAT THE PEOPLE IN YOUR LIFE WHO'S OPINION YOU VALUE SAY, GOD IS THE ONLY ONE WHO GIVES LIFE AND HE IS THE ONLY ONE WHO HAS THE RIGHT TO TAKE LIFE, DON'T ALLOW THE ENEMY TO SEPARATE YOU FROM THE ONE WHO CREATED YOU AND HAS A PLAN FOR YOUR LIFE. NOBODY WILL STAND BY YOU LIKE GOD WILL AND NOW I'M LOOKING AT MY GRANDSON WHO IS 1 YRS OLD AND HE AND MY CHILDREN ARE A CONSTANT REMINDER OF WHAT I LOST. BUT I THANK GOD FOR NOT LETTING ME KILL MYSELF AND FOR FORGIVING ME, BUT IT IS HARDER TRYING TO CONVINCING MYSELF THAT IT'S OKAY FOR ME TO FORGIVE MYSELF AND OTHERS.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

WE ARE SUPPOSE TO BE A COUNTRY STANDING ON THE LAWS OF GOD, BUT WE ARE WILLING TO BE CONFORMED IN SOME THINGS, THIS IS NOT THE WILL OF GOD AND WE NEED TO STAND FOR WHAT GOD SAYS AND STOP TRYING TO PLEASE PEOPLE. WE'RE CALLING THE PEOPLE IN IRAQ TERRORIST, THEIR KEEPING THEIR CHILDREN AND RAISING THEM TO KILL, WE'RE KILLING OURS BEFORE THEY CAN EVEN BE BORN, THAT MAKES US TERRORIST IN OUR OWN COUNTRY AND THEN WE HAVE THE NERVE TO SAY GOD BLESS OUR COUNTRY??? BLESS US FOR OUR DISOBEDIENCE?, COURTS ARE SUPPOSE TO DO WHAT IS IN THE BEST INTEREST OF THE PEOPLE BASED ON BIBLICAL PRINCIPLES, HAS SATAN ENTERED INTO YOUR THOUGHTS AND BLINDED YOUR JUDGEMENT OF RIGHT AND WRONG?, ASK GOD FOR WISDOM AND HE WILL PROVIDE YOU WITH WHAT IS BEST FOR HIS PEOPLE, PLEASE DON'T LET ANOTHER WOMAN SUFFER LIKE THIS, HELP US BY CHOOSING LIFE, THIS WILL STOP A LOT OF DYSFUNCTION, ROBBING, STEALING, KILLING, THIS IS ALL TIED IN TOGETHER, OUR CHILDREN ARE UNDER ATTACK! THEY'RE CHANCE TO BE SUCCESSFUL IN LIFE IS BEING TAKEN AWAY BECAUSE OF IGNORANCE, SELFISHNESS AND GREED. WE ARE JUST A BAD AS THE TERRORIST WHEN WE ALLOW OUR CHILDREN TO BE KILLED, THEY ARE OUR FUTURE! OUR FUTURE LEADERS, SOLDIERS, PRESIDENTS, PREACHERS AND TEACHERS, OUR FUTURE MENTORS, OUR FUTURE MOUTH PIECE FOR WHAT WE AS AMERICANS STAND FOR, MOST OF ALL THEIR GOD'S CHILDREN, HIS MOUTH PIECE AND HE'S NOT PLEASED AT ALL, OUR BLOOD WILL BE REQUIRED IF WE DON'T STOP AND REPENT AND TURN FROM THIS RIGHT TO HAVE ABORTIONS.

03/29/1982

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Vaccum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea that abortion could cause infertility or miscarriages.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It's the thing in my life that I wish I could go back and do over. It's a quick fix, that lives with you forever. I had secondary infertility and many miscarriages. I had feelings of shame, guilt and sadness until I gave it to Jesus.

10. How has your abortion affected others in your life?

My son was upset because he realized he could of had a big brother.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to do it, it may seem like any easy way out but its not. I would tell her that this baby is a gift from God and if she is not able to care for it there are hundreds of couples who would love to adopt her child. I would also tell her about the consequences that abortion can have(depression, breast cancer, infertility, miscarriages, etc.)

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should not be legal, it is murder. I feel like I was decieved by the court because abortion was

legal and I thought it was ok. But, it's not and we need to stop killing innocent babies.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I only remember that this was going to take care of the problem. I had 3 abortions.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one informed me of any physical, emotional or psychological consequences-short or long term. I recall someone stating that it was safer than having a baby full term.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Husband

9. How has abortion affected you?

I never focused on the 3 abortions for years (about 25 years) and then after a marital separation these memories started to come back. I accepted Jesus as my savior in 1995 and was introduced to a group of women who do the Forgiven and set free classes. I am forgiven for the 3 abortions, and using the iud's, and the consequences are that I am divorced, I have to constantly work thru depression, I feel very inadequate and empty with no real purpose in life or as a women. I know Jesus still has plans for me and I am grateful that He cont to keep me going forward in a beautiful life with Him.

10. How has your abortion affected others in your life?

My ex-husband will not talk about it at all. I have spoken personally with younger women but they don't seem to really believe or care. I continually tell them this is a baby, a real life with full dna at conception. The word for conception in Hebrew is God willed it...every pregnancy is God Willed.

11. Based upon your experience, what would you tell a woman considering abortion?

Your life will completely go down hill and you won't have a choice. You are cursing yourself and damaging yourself for your entire life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You are killing babies, you are killing the mother, the father and our society.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Smith

My name is Katherine Keeney. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Brooklyn NY

10//1983

2. How many weeks pregnant were you?

20

3. What type of abortion was performed?

by inserting sticks into the vagina to open the cervix and have the baby pulled out of the womb.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I did not know that at 20 weeks, the procedure involved the horror the baby would have to experience while being pulled from my womb, piece by piece. I didnt know that my son would feel pain. I had no idea what the baby even looked like until years later when I picked up a magazine and could see a baby at 20 weeks. Not to mention the effect on me when I woke up in the clinic to have the nurse tell me, "It was a boy, this long...(she held her hands about 8 inches apart from each other). I was shocked that she could tell. Wasnt it supposed to be a clump of unrecognizable tissue??? No one ever told me any of these truths before the abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

The clinic in NY was very careful to keep me in the dark regarding the procedure and what it involved. There was no one there to explain to me that at 20 weeks, a baby is fully developed and in some cases, can survive outside the womb! I was not prepared for the after effects of the abortion that would follow me for years and has effected my ability to develop healthy relationships. Namely, with my teenage son.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My fiance, the father of my aborted son.

9. How has abortion affected you?

SHAME....crippling SHAME. Have struggled to hold a steady job, am unsure of myself, feel I dont fit in anywhere, feelings of "I am unfit for life", am unlovable, struggle to develop intimate relationships with people, feel I hold a horrible secret that no one can know about, prone to having fits of rage, mood

swings, after the abortion, suicidal, in and out of depression clinics, prone to drink, Overall, just struggle as a Christian.

10. How has your abortion affected others in your life?

My son, 18, has trouble trusting me and God. Our relationship is strained. I have been through two divorces.

11. Based upon your experience, what would you tell a woman considering abortion?

DONT DO IT. I would go to the Bible where God makes promises that if we obey Him He will take care of us and make our paths straight. Obortion is murder. Not just murder, but the death of our own flesh and blood. I would explain that abortion will effect the mothers relationship with her future children and all other future relationships.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The the system is not grasping the scope of such a law. It may appear to be a quick fix to a large social problem, but the after effects on a womans life and her future family will forever be effected, thus creating a larger more complex social problem.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Lubbock

My name is Jessica Kelly. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Lubbock TX

03/20/2008

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

I did not go through with the abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I went to Planned Parenthood for a pregnancy test. It came back positive. I started crying and said "I can't have this baby right now." The girl who worked there left the room, then came back and handed me a flier with a list of abortion doctors in Texas on it. She didn't tell me anything, didn't give me options, just handed me an abortion doctor flier. It was sick. Made me feel sick... like a sick, sick person. A run-off copy of abortion doctors in a cold room at Planned Parenthood...

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

NA

10. How has your abortion affected others in your life?

I told my parents I was pregnant, and that I was considering abortion. They are VERY pro-life (as I always was before I was, and still am). I told them so that I would not have it to consider any more. I knew they'd be strong for me and never let me go through it. I opted for ADOPTION. It has touched more lives than I could count. It was a life-affirming and beautiful alternative, and I am so proud of my

decision.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that there are options. I'd tell her to sleep on it. I'd tell her that I know people who cannot have children, that she may be carrying their child. I'd tell her about my experience with the adoption journey. I'd tell her that I may not have my son... but at least I know what he looks like when he smiles. I'll never REALLY know my son. But I WILL know who he resembles... what he'll grow up to be... how he laughs...

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is degrading. Its violation of a woman's body. It is hurtful to women. Genocidal. There are alternatives. There have to be.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Tarrant

My name is Penny . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Sparks NV

03/20/1986

2. How many weeks pregnant were you?

15

3. What type of abortion was performed?

don't know, they didn't explain anything

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was talked to about my blood type, whether or not I was anemic, and asked whether or not I wanted to be able to have kids after.

5. Were you adequately informed of the consequences of abortion?

Yes No

They did not explain anything. I was led to a room, put in a gown, placed on a table but nothing was ever said about my baby.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Women at the center

9. How has abortion affected you?

I cannot and have not been able to have kids at all even though I have always wanted them. I've lost that which makes me a woman and a mother. For the first 2 years, I was so depressed all I wanted to do was die. I tried to commit suicide twice.

10. How has your abortion affected others in your life?

My mother is mentally ill from the depression of blaming herself. My father became a constant drunk. My brothers have never married. One is depressed and cries all the time. The other is addicted to drugs. My sister had unprotected sex with several men, had 6 kids and no fathers.

11. Based upon your experience, what would you tell a woman considering abortion?

To take a look at my life and see if she wants hers to turn out like mine. This is what abortion does to women. We are not capable of making a sound decision when our hormones are out of whack and with

peer pressure and the worries of everything that comes with a baby, no one can be in their right mind to make that decision. Look at who you were as a child, did you want children? If you did, you better keep what you got!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You haven't experienced it, what gives you the right to say whether or not it should be legal? Find one person you truly love and adore and think about what your life would be like if they had been aborted... Who are you now?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was just ushered into a surgical room, procedure performed and that was it.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no counseling of any kind.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

PTSD, depression, battered self esteem.

10. How has your abortion affected others in your life?

It had caused those close to me to be robbed of knowing that child, especially the kids I now have.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it, it is not the answer and you will regret it later on.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It should not be legal, that is it a terribly painful experience -both physically and emotionally. Damage that is done is difficult to undo and takes professional intervention.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was a group of cells that "early" when even a photo would have shown differently.

5. Were you adequately informed of the consequences of abortion?

Yes No

It was presented as safe, like a tooth extraction & I would be relieved.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

parent

9. How has abortion affected you?

Spiritual death that lasted for many years, self-sabotage & emotional turmoil, self hatred, thoughts of suicide & so much more.

10. How has your abortion affected others in your life?

Greatly, especially the loss of the child & my lack of love for them because of the loss, besides their own feelings.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion is not an answer, even for rape. That type of murder destroys the baby & the mother committing this action & creates many more problems than we can understand because they are spiritual, emotional, mental & just sometimes physical. You will not be unscathed. It is life altering.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The most basic right is the right to life. The baby which is created at conception (hence the term!) has an inalienable right to life as an individual, here but hidden.

My name is X K I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

11/01/1997

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I did not know that there might be negative consequences, both physical and mental. I did not know that it might negatively impact a future decision to bear children or that it might increase my risk of breast cancer.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

There is an underlying sadness to every day. I can only beg forgiveness of God and hope that my sin will be cleansed. I cry every year on the anniversary of the death of the infant I murdered. I imagine what my life might be like had I chosen differently. I would be willing to give up anything to take it back. I live with grief and the knowledge that it is my fault.

10. How has your abortion affected others in your life?

I have only told one person that I murdered my child. It is a secret I will keep to the grave.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that it is something that she can never take back. I would tell her that, if she knows that there is a child growing inside of her, then to do anything less than to treat that child with love, is murder. I would try to convince her that murder is not something that she wants in her past or her future. I would tell her that everything that looks bleak today will look like triumph from the eyes of the future, provided she chooses the good over the evil; but it will look like failure and sickening filth if she chooses the evil over the good. I would tell her that nothing cannot be overcome with prayer and a pure heart.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that abortion negatively affects women. It has the result of increased rates of depression and therefore a higher financial price paid in terms of health care. I would tell the court that it is entrusted by the people to uphold the rights of ALL people, including and especially those who are unable to fight for their own rights. I would remind the court of what the Planned Parenthood Federation of America said in 1963, as quoted in Catalyst, January - February 2008: "An abortion kills the life of the baby after it has begun. It is dangerous to your life and health."

2. How many weeks pregnant were you?

3. What type of abortion was performed?

Vaccuum procedure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that I would have counseling before the procedure, the counseling consisted of an explanation of the payment for the procedure, I was a scared teenager that didn't want to have an abortion in the first place, my parents were forcing me to do it, I thought through the counseling I would be able to talk to an adult about what I was going through and that they would help me personally. They did not.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was informed about anything other than the cost of the abortion, there was no concern about my well being at all.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

My parents

9. How has abortion affected you?

I have suffered guilt and shame throughout my adult life, I have cried endless tears for the baby that I wasn't allowed to have.

10. How has your abortion affected others in your life?

It changed my life in such a way that I will never know the full impact, all I know is the pain and suffering this has caused me and my relationship with my Mother.

11. Based upon your experience, what would you tell a woman considering abortion?

Know the truth and the facts that Planned Parenthood and organizations like them will not give you. Talk with someone that is impartial and who will care about you as an individual.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe that abortion should not be legal, it is senseless and barbaric, especially when there are so many couples who would love to adopt a child.

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

DNC

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was young and scared and my mom arranged it for me and it just happened so very, very fast. I went in, the put me to sleep, I woke up on a bed in a room lined with beds and other girls and women that had just had abortions too...we were just lined up bed to bed in a room...there was no privacy and I vividly remember waking up and crying uncontrollably and a nurse came to me and gave me something to console me. I got dressed, they gave me medicine and I went home and everything in my life changed forever.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was not any explanation of what the severe emotional consequences would be post abortion and I had NO support after it was done and have not had any throughout the years except for my relationship with Christ.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my mom

9. How has abortion affected you?

completely has effected my emotional well being and has effected so many decisions in my life

10. How has your abortion affected others in your life?

it has made it very difficult for my husband as he has been the one to deal with the "fallout" of my post abortion life. I was and have been and am still severely emotionally handicapped and he has been so patient and kind. I am getting better as I get older but it is still there.

11. Based upon your experience, what would you tell a woman considering abortion?

NOT to do it EVER! It will change your life and the pain, the guilt and the burden you will carry the rest of your life is always there.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

This is a TRAGIC operation and the belief that people can be so callous to think that "life" can just be wiped out and that a woman can go on as "business as usual" in her life is not only completely FALSE, but is a LIE straight from the pit of Hell. Without LIFE our society will continue to deteriorate and the youth in this world will become more callous, complacent and void of moral and thence we will continue to have more drug, violence, hate, etc. in this world. For one to think that this is okay is a sign that their heart is void of moral and conscience and without these things, these basic moral and conscience needs we have, if we as a society continue to tear apart at this heart of a society, we will continue to pay the price.

My name is Kristin I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Austin TX

06/01/1998

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

Unsure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was informed of the physical consequences of abortion and some of the emotional, but was not prepared for the amount of guilt that I have carried over the past 10 years. It is only through my relationship with Jesus Christ that I have finally begun to heal.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have carried a tremendous amount of guilt. Looking back, after the abortion, there was a distinctive difference in the way that I valued myself, my body. I became increasingly adventurous - experimenting with drugs, alcohol and sex. I do not think that the abortion was the sole catalyst for these behaviors, but did provide a pathway for self destructive behavior.

10. How has your abortion affected others in your life?

Absolutely. I am certain that my parents carry the pain of the abortion with them everyday as they were involved in scheduling it and funding it. I am so sorry that because of my actions, they were involved in this horrible decision.

11. Based upon your experience, what would you tell a woman considering abortion?

I plead with any woman facing an unexpected pregnancy to pursue other options. I was 17, pregnant and just looking to make it all go away. It did, for awhile, but 10 years later, I am forced to face my decision.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It sounds good on paper that any individual should have the right to choose what they can do to their own body. However, we as a country have laws in place that often state just the opposite due to the effects those choices will have on our fellow man. Citizens are not allowed to drink and drive, smoke marijuana, or even drive an uninspected car. I am shocked that our country is so quick to be in an uproar regarding the mistreatment of those who are able to help themselves, that when it comes to the helpless we sit back and do nothing. It is my sincerest wish that future generations of women will not have the option to put themselves in the position of dealing with the grief of taking their own child's life. Please, hear our voices. Hear our pleas. Please don't dismiss our grief for some ideology that sounds politically correct on paper but carries no benefit to the women in our country.

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

5. Were you adequately informed of the consequences of abortion?

Yes No

I had an abortion for medical reasons, I had just had nuclear radiation done on my thyroid, was told to not get pregnant and almost as soon as I conceived, I started feeling horrible. This was different from my other two pregnancies it felt awful. I was scared because I was told not to get pregnant, and accidentally did. With what medical information was available to me (from the internet and phone calls) I went ahead and had the abortion because I beleived that I had a greater than 50% chance of dying if I carried out the pregnancy, and felt more harm would come to my existing children if I killed their mother. I did not know and not one person told me that I would still feel the anguish and guilt about my decision years later. I would not do it again for any reason. I would trust God's will for me and be better off for it.

9. How has abortion affected you?

I wonder every day was it a boy or a girl, does her soul live on in heaven? Adequate access to birth control (I did not have the \$28 needed to pay for my pills that month because of other medical bills..I am not insured) would have prevented this pregnancy. I know there is a stain on my soul even though I also know God forgives every sin, I just can't forgive myself for murder, especially when I look at a baby, I know I killed one to protect myself. Now if I feel this way after having done this for medical reasons, with the best excuse for abortion that there is, how would a young woman (or even a teenage girl) feel? This is a decision that women make when they are hormonal and scared, two of the ABSOLUTE WORST times for a person to make life altering decisions. And it does not matter what you think before

hand, when you are actually in the situation, it is very different. Please put an end to this.

10. How has your abortion affected others in your life?

My husband feels very sad about the loss of our baby and he wishes that I did not feel so much guilt about it. It is definitely an area in our marriage that he really does not like to talk about, so I am emotionally alone in this, and he is hurt by the silences and sometimes the depression I feel about this too. I know my kids have noticed the depression and I try to get better for them. I pray that they never know the reason.

11. Based upon your experience, what would you tell a woman considering abortion?

DONT DO IT! If you have a doctor tell you you need to that is different, but don't make that decision yourself. Abortion kills a real person, just go to the park and look at a few toddlers running around and know God blessed you enough to give you the baby inside you. You do not have to raise a baby, someone who can't have children would love your baby. And you could feel good knowing you gave a family a child to love instead of murdering your own baby. And if you choose to keep the baby, they start small, and teach you along the way how to be a mom. You can do it. God put this challenge in your life for a reason, and please do not kill a child because it is not convenient for you. You will regret an abortion for a lifetime, but will be blessed for a lifetime if you choose to trust God's plan for your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion harms women, their future families & society. If they are hard to get, people will be more responsible. Teen pregnancy and the STD rate would drop dramatically. A doctor should be able to tell a woman that she needs to terminate a pregnancy for life threatening conditions of course, but it is murder to abort for birth control. Under U.S. law, if you kill a pregnant woman & her baby dies, you killed two people. We already protect unborn babies by law. In the declaration of independence, our founding fathers said we have the right to "LIFE liberty & the pursuit of happiness". They would roll over in their graves if they knew the U.S. allows mothers to remove the right of LIFE from their own children. God put you where you are today. I'll pray for all courts & judges who have to make this decision. If the above arguments don't work, try this...How are we going to keep social security afloat if a third of our generation was killed in the womb? Things like social security and spending Trillions of dollars of future taxpayer's earnings can only work if there are lots of future taxpayers. We will bankrupt social security because baby boomers aborted too many children and now there is no way to make this program work with only 15% of the working generation's income. So from an economic standpoint, you need more people to pay for all of this & abortion doesn't make sense.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Tarrant

My name is Maureen I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

06/04/1983

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told that my child would feel pain. I was not shown a sonogram of my unborn child.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not advised that I would suffer severe emotional pain, anxiety, shame, guilt and depression for twenty five or more years after my abortion. I was not advised that I would mourn the loss of my baby for the rest of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

by boyfriend, his sister, my sister, my friend

9. How has abortion affected you?

My abortion destroyed my spirit, my soul, my emotions, my self-esteem and it separated me from my unborn baby Elizabeth for the rest of my life. I thank Jesus Christ for healing, restoration and for redeeming my life.

10. How has your abortion affected others in your life?

My abortion has affected the intimacy in my marriage and it has affected my marriage to my husband, and my relationship to our three children. I am just now learning to be confident in my parenting with our three children

11. Based upon your experience, what would you tell a woman considering abortion?

Please talk to a close friend or family member before making the worst decision of your life to abort your baby. The consequences of abortion will scar you for life. Please pray with a family member or find

a friend to pray with you regarding your baby. The Lord Jesus will lead you to a safe harbor.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If abortion had not been legal I would not have considered it. My abortion scarred me spiritually, emotionally, relationally and physically in ways that were detrimental to my health. I felt like I was dead emotionally and that there was a huge void in my heart that only the blood of my Lord and Savior Jesus has been able to heal. It has taken twenty six years for my soul, spirit, emotions and relationships to be healed. Jesus has redeemed my soul and my life. There are no words to describe the horror of abortion and how it completely depleted my spirit of life.

3. What type of abortion was performed?

Suction Curettage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't really remember much. I was never told what would happen.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea that it would affect me the way it did. No idea that it would be something I would carry with me for the rest of my life. We created a video for our local pregnancy center about the affects. <http://www.youtube.com/watch?v=seiQRjsQNHw>

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I know work at a Pregnancy Help Center. I spent many years, in depression, never understanding why. One day a friend had a baby and I went to the hospital. After I left, I cried non stop for two weeks. I didn't understand why until I found a pamphlet on Post Abortion Syndrome. I hadn't realized what I had done until that day. I didn't know that I was grieving for a child that I had never known. While I did not have breast cancer, I did have benign tumors removed from both of my breasts at a very young age. I was diligent in examining my breasts because my mother died of breast cancer and it wasn't until later that I found out that she had had an abortion as a young girl.

10. How has your abortion affected others in your life?

I don't keep in touch with the father of the baby that I aborted. I don't know how it affects his life but I do now that I spoke with him, at a reunion, and one of the first things he said to me was "do you ever think about it?" Sharing with my children was one of the hardest things I've ever done.

11. Based upon your experience, what would you tell a woman considering abortion?

That it won't be an easy fix. That it won't make her problems go away.. it will just create new ones. New ones that may take her years to overcome. That she will spend the rest of her life wondering what her child would have been. That she will regret her decision for the rest of her life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would ask that it be required that every judge on the court, every lawmaker voting for abortion be required to observe the procedures... each of them. Especially, late term abortion. To see the "by products" that are thrown away, into the trash. I would ask that each woman receive detailed information about her surgery. What happens, what the side affects are, what the risks are.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Harris

My name is Paula Lafleur. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

New Orleans LA

09//1982

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No details until I laid on the table in the procedure room. The nurse inform me that it would not take long, I would feel some pressure and then it would be all over with and sit in the recovery room for 30minutes to 1 hour, then I could go about my way. Well, I thought I was desperate to get back to my regular self, little did I know my life would change so drastically. No idea how close to death I was.

5. Were you adequately informed of the consequences of abortion?

Yes No

I call the abortion clinic and schedule the appointment along with directions and told my boyfriend at the time what needed to happen. He was dealing out of fear also, but he agreed and I guess was attentive to me prior to the abortion and after the abortion. I had no idea what I was in for emotionally, mentally, spiritually and socially. Went to the clinic and sensed a cloud of distress in the atmosphere, but our minds were made up.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Well I got away with the first abortion without my family finding out so I felt I could do whatever I wanted to do. I had several other abortions, I thought sex was the way to show love and keep a relationship with a man. Then whenever I got pregnant again, it was never a problem for me to think abort and move on. How selfish and sick I was. Bad relationship after relationship, looked for love in all the wrong places, for matter I did not know what love was, finally stop having the abortions and had three kids with three different fathers. I wanted a family but did not know how and what to do so it could be a family.

10. How has your abortion affected others in your life?

I was not a loving person, I had a lot of anger, but I did not identify it as anger. Wanted to do the right thing, maybe did it for awhile then went right back. It was a never ending cycle with bad relationships, bad thought, made decisions with my emotions, my finances never stable, my distorted belief system, unstable domicile - living area (always moving), willing to lay in the bed I made regardless of the consequences and basically played god in my life.

11. Based upon your experience, what would you tell a woman considering abortion?

The landscape of life will change when you are pregnant but the HOPE is there and whenever you abort one has made a covenant with death, not life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Why have they decided to be the God in men and women lives.

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

dilation and curettage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I didn't realize, years later, how guilty I would feel. I was a young kid at the time (didn't require parental consent). It was an easy way to get rid of a problem. I really didn't realize that it was nothing short of murder.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Planned Parenthood and boyfriend.

9. How has abortion affected you?

Major guilt now that I am an adult, realize what I did, and have two healthy children.

10. How has your abortion affected others in your life?

They don't know. I have never told anyone.

11. Based upon your experience, what would you tell a woman considering abortion?

Think twice. That is a little baby and there are so many people wanting to adopt. Additionally, with the availability of contraception, there is really NO EXCUSE for an unplanned pregnancy.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That our constitution is based on LIFE, liberty, and pursuit of happiness. It protects all forms of life. I believe life starts at conception. My money nor my country should legalize murder.

QUESTIONS

1. Where and when did your abortion occur?

San Antonio TX

10//1975

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

Not sure.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was very upset and scared at the time the nurse was explaining the procedure. I remember seeing a diagram with an explanation of 2 probes and I believe, saline. The explanation was right before the procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't remember the nurse stating anything except that I would need to wear sanitary pads instead of tampons.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

My boyfriend and I decided to keep the abortion a secret. I kept the secret for 35 years. I lived in constant fear of someone finding out about my abortion. I was very shameful and very emotional. I could hear a baby cry and become very emotional myself. When my story of abortion came into the light I realized the bondage Satan had me in for so many years.

10. How has your abortion affected others in your life?

My mother blames herself. My husband said he always knew I was keeping something from him. My children missed having a loving attentive mother. My children now grown have missed knowing their aborted half brother.

11. Based upon your experience, what would you tell a woman considering abortion?

She should get all of the facts of abortion and not make a hasty decision. Get an ultrasound to see

what pregnancy is. The decision of abortion will stay in your mind the rest of your life because one day you will realize you really were carrying a child. A child that could have lived and would have been such a blessing from God.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion for me was a quick way to cover up having premarital sexual relations. I wanted freedom from this bondage of pregnancy. I was very emotional and scared. If I would have known that my child's heart was beating when I chose to abort I know I would have kept my child. My life became a life of bondage not freedom when I left the clinic that day. For the next 35 years I was so fearful that someone would find out. I was so shameful and empty. I knew I had committed murder of my own child. A child given to me by God, a true blessing. Why would anyone want to be a part of murdering innocent children? There will be a judgment day before God Almighty for those who call abortion "A Woman's Right".

QUESTIONS

1. Where and when did your abortion occur?

Bentonville TX

//

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The whole procedure was minimised to mask the murder of the baby. It was only tissue mass and we were only scraping my uterus

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea of the pain I would endure after both physically and mentally.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I buried it deep inside me and never told a soul. It grew like a cancer. I did strange things ex- on the anniversary date that my baby would have been born I would unconsciously buy teddy bears and also Christmas gifts and did not let anyone get close to me. I have always wondered what kind of person my son would have been had he been allowed to live his life. When I saw other children I put the face of my child on them. It was a night mare for 20 years.

10. How has your abortion affected others in your life?

They felt like I held them at bay. My children were overprotected. I had control issues with them and my husband because I subconsciously didn't want to lose them. I thought I would be punished by losing them for what I had done. I still keep it a secret from my three living children.

11. Based upon your experience, what would you tell a woman considering abortion?

I have volunteered at the Pregnancy Crisis Center and have explained to them that I would give all my worldly possessions if I could hold that baby that I killed. I do all I can to help any woman know that

you cannot kill your child and it will just go away.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If murder is considered legal then so be it. You and I know that it is not. That child's heart is beating when it is ripped out of his Mother's body, or it is beating when the saline solution burns him to death, or his body parts are torn away from his body to extract from the womb. May God have mercy on our Soul for even considering making abortion legal.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told by my Mother and my doctor that the child was not a child, only tissue like my appendix that had been removed earlier.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea of the mental and emotional suffering that would follow the procedure.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Mother

9. How has abortion affected you?

I lost all contact with my true emotions, went into a lifestyle of drugs, alcohol, and more relationships to dull the pain I did not understand.

10. How has your abortion affected others in your life?

It was hard to form any true relationships, because I had lost who I was. It affected the father of the child later when he was told of the abortion. He became a drug addict.

11. Based upon your experience, what would you tell a woman considering abortion?

To learn the TRUTH of abortion, if you think you have a right to choose, you have a right to make an INFORMED decision about what you are doing to yourself and your unborn child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe the judge, jury, and people attending the session should be shown the video of what aborted children look like. I would tell them that I was a life that was dramatically affected by that choice, and only the mercy and unconditional love of Jesus Christ saved my life.

boyfriend

9. How has abortion affected you?

I never forgave myself. It led to an easier choice for a second abortion. It led to high risk behavior depression suicide attempts. I was unable to carry a child to full term when I did get married. I did attend a Rachel's Vineyard Retreat where I honored my two children and they are with me. In the past they did not exist until I began attending healing services. My sin came forward during those prayer times and I knew it was time to meet them and to allow God to bring Healing to me.

10. How has your abortion affected others in your life?

I became emotionally distant and tried to keep people away as I was so ashamed. I abandoned my faith as I felt so unworthy. It has affected my ability to get close emotionally even now .

11. Based upon your experience, what would you tell a woman considering abortion?

Please step back from this choice. It affects you forever. How may I help you in making another choice? It isn't God's plan .

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I have anesthetics to women who wer having abortions only when I could not find another practitioner to provide the anesthetic. This led me to leave my career. So I have experienced this persoanlly and professionally. I know what happens during these procedures. IT IS INFANTICIDE. I had to abandon my career as I felt so ethically compromised. It i So wrong!!!!!! We must find another way

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

By the man who got me pregnant

9. How has abortion affected you?

It took years to forgive myself for not having my child. I wonder what that child could have become if given the chance in life. It left an emptiness that only someone that has been there can understand. It is something that I will carry to my grave.

10. How has your abortion affected others in your life?

No one else knew for along time

11. Based upon your experience, what would you tell a woman considering abortion?

I had the chance to talk to someone close to me that was in a bad position and was thinking about having one. I told her not to because she would regret it the rest of her life. She took my advise and did NOT have the abortion and her son is grown, married and has two beautiful children of his own. I would tell to anyone thinking about having an abortion. DON'T DO IT THERE ARE OTHER ANSWERS NO MATTER HOW BAD IT LOOKS AT THE TIME.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say killing a baby inside the womb or outside the womb is the same. It is still killing a human being. If that baby is a day old in the womb or 100 years old outside the womb it is the same person. A person that was at the mercy of someone who was suppose to love and take care of them until they could take care of themselves. Abortion may seem like the easy way out at the time but it leaves an empty hole in you for the rest of your life. Abortion is not an answer it should not be a option unless it is a life or death health situation for the mother.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Bexar

My name is Berlinda Llanes. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Antonio TX

08//1992

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

I don't know. I was confused & in a daze about the procedure.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Lately, I've had to pass the site where the abortion took place & I feel I need to lay flowers for my child that I killed and the other babies who have lost their lives there and ask a priest to give a blessing at the site for my baby. The clinic has closed down. I wanted to find out what day so I could remember my child but it is closed. I have crying bouts some times just at the memory of what I did. I have just now started to talk about it with my current husband and children. One of my son's got a young girl pregnant both were 15 at the time. The young girls Mom had mentioned at one point about having her get an abortion. This was 2yrs ago. That's when I started to talk about what I did because I didn't want her to feel what I do know. Plus I couldn't bear that happening to my grandchild. Today I have a beautiful Granddaughter whom I love sooo much. It is a different kind of Love you feel for a grandchild.

5. Were you adequately informed of the consequences of abortion?

Yes No

At one point I remember talking to the dr. & told I would probable miscarriage anyways due to certain concerns about past pregnancies & the life style my ex husband and I had at the time. I had been drinking but didn't know I was pregnant and my ex husband had been doing hard drugs. We were seperated & I already had 3 children from our marriage. The 4th pregnancy happened when we were trying to reconcile.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The dr.

9. How has abortion affected you?

I didn't know that there were different procedures. I was only asked about my age. I was torn about

doing the procedure. I was torn about having to raise another baby because I had no job & dropped out of school and was going back for my GED. No car or \$. I believe the dr. told me I wouldn't be able to carry the baby to relieve my confusion but as I laid on the table I didn't feel right. I still did not know about the procedure. Now not only do I realize I killed another human being I also damaged my spiritual life to GOD. . I rejected the beautiful gift of a BABY from GOD. They should be cherished. I finally heard of the ways they do abortions and I've had to go to confession, pray that GOD gives me the strength to forgive myself.

10. How has your abortion affected others in your life?

I deprived my children of a brother or sister. A playmate for my youngest son. A grandchild for my Mom.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to do it. I already mentioned about my son & his girlfriend being 15yrs old and having a baby even though the Mom tried to force her to have one because she was afraid of what her husband would do.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

To think about the young defenseless babies who have no one to fight for them. I thought the law was suppose to protect the innocent & defenseless. Some how people today have forgotten about them.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Fort Bend

My name is Penne Logan. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

//

2. How many weeks pregnant were you?

21

3. What type of abortion was performed?

A D&X (dilation and extraction)

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No I was not told that my baby was almost fully developed living baby, but a fetus. I was told there would be no pain involved for the fetus. I had no idea that this was a live almost fully developed baby, and that the baby felt a tremendous amount of pain. And I was stunned and devastated as I saw them walk out with my dead baby wrapped up in a rag. I was shocked to see how big my baby was in a rag. You can only imagine not expecting to see them walking off with your dead baby, but that is exactly what they did and what I endured seeing. I had 2 other abortions besides this one.

5. Were you adequately informed of the consequences of abortion?

Yes No

Absolutely not! I had no idea that these abortions would bring such torment and destruction into my life. It wrecked me spiritually, mentally, emotionally. My life has never been the same since the abortions. I could not forgive myself and did not think God could ever forgive me either. I have been thru alot in my life but nothing like the aftermath of the abortions. Abortions were the worst thing I ever have done in my life and it affected almost every aspect of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend at the time/

9. How has abortion affected you?

After my abortions, there was something that broke inside of me. After the abortion I stayed drunk. Then drugs became a large part of my life. My relationship broke up soon this particular abortion. I became very promiscuous. I felt very rejected unloved. I would go into deep depressions and just weep all the time. I felt like God could never forgive me. I was tormented. It affected all my relationships with

me. I have never had a good relationship with a man since. I never married and eventually stopped dating period. I did not find life even worth living at one point. Until the Lord showed me he could forgive me and He did and has been restoring me every since I received His Forgiveness.

10. How has your abortion affected others in your life?

Yes. After having my last abortion even though I did not know the Lord then I promised God I would never have another abortion. I had a one night stand and got pregnant with my now 20 year old daughter. I love my daughter, and it saddens me that I had not felt a bonding like a mother should as she was growing up. I could not understand why I could not bond with her, but now I know that is very common with post abortive women. It also has affected my relationships with my family. They have had to see me go on a downward dive that always affected them.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't. What looks like a easy way out now, will be the worst decision you have ever made.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It should absolutely not be legal. That was a huge reason why I thought it was ok to have an abortion, and there must not be anything wrong with it if it is legal. I trusted the laws would protect me and never harm me. That is what the laws are suppose to do, and considering as a child I did not have guidance in my life due to my mother being ill. So I really thought the laws were a guideline from right and wrong. I would have never had an abortion if it were against the law. And oh how I wish it would have been there to protect me and my baby. But it wasn't and the law failed both me and my baby. It was a law that said murder was o.k. and murder is never ok. I have lived with the trauma of those choices. The law are suppose to be in place that protect life, never take life. It is the only law in place that allows Mother to be harmed in such a way and allows her childs life to be taken. That is just crazy that a law would allow either. The Law is suppose to protect, never destroy.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Bexar

My name is Lisa I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Antonio TX

//1992

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

dont know what they call it but it was a vacuum like experience

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I didn't know how it would happen and I wasn't convinced not to have it or the after affects of it.

5. Were you adequately informed of the consequences of abortion?

Yes No

I didn't know i would suffer from anxiety, extreme guilt, depression, regre,crying spells, inability to bond with the children i did have after that. I just remember, there would be a high risk of breast cancer. That stood out the most.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have had a bad marriage and i felt like something was wrong me because i was always mad and didnt really bond with my living children. It made me angry with myself, my husband, i have had anxiety,depression, uncontrollable crying, extreme guilt and regret and the inability to forgive my husband or myself.I wish I had been told of the pain and suffering i would endure in my life. I would have never taken that road of agony.

10. How has your abortion affected others in your life?

I lost a dear friend because of what i had done. So,no one in my family knew, just my husband. Even though my children don't know of my abortions, they were affected by it because i felt like i couldn't bond. I tried but i was moody and irritated.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't, it will hurt you and cause you great pain in the years to come. You can make it, youre

strong, brave, and God will be your source, strength and provider. You will have extreme grief if you do and suffer a great deal. Who is speaking up for your unborn baby, he/she does not have a voice.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them, who do they think they are they to make such a decision to keep abortion legal. We have rights, are we not valuable, our our unborn children unworthy to be born. This insanity hurts women and enough is enough!!!!!!!!!!!!!!

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was never informed of the emotional toll it would immediately take on me or the physical pain.

5. Were you adequately informed of the consequences of abortion?

Yes No

again i was never told it would change me and make me attempt suicide.

6. Were you informed of any link between abortion and breast cancer?

the father of the child

9. How has abortion affected you?

i immediately sought counseling for months on end. i thought i would never be forgiven and felt the burden of killing my child. i felt empty, and have mourned the loss of my child since. i felt i was so empty, nothing, not even another pregnancy could make that feeling go away.

10. How has your abortion affected others in your life?

my son i already had was almost an orphan by my suicide attempt, already having lost his father in war.

11. Based upon your experience, what would you tell a woman considering abortion?

you make decisions not knowing you can't live with the outcome at the end of the day, you will be able to look at yourself and get up every morning if you give your baby up for adoption or raise it yourself. abortion is not an option if you want to go on with your life. you adjust to having a child, people will help, even the government will support you but you will never feel right about killing your baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

then i guess having assistance at suicide should be legal too because not only is it the same thing but that's what you want to do after you have an abortion. people don't know the finality of that decision and its affects, and those who don't care will find a way to do it anyway, just like those who murder. people are trying to end it for a reason, and most of those people are ones who have experienced what it does to you. the ones who make it legal are mostly ones who have never been through it. we know what a zygote turns into after a few months, who should be the one to tell us when it becomes human and when it feels pain? you don't take those risks. we all know sex makes a baby and there are preventive measures to prevent pregnancy.

mother in law

9. How has abortion affected you?

Up until now just a few weeks ago I has the courage to tell my daughters that I had committed a crime that i had killed a baby inside me, all this time I've had to carry this guilt, shame, pain, loneliness, emptiness all by myself I see my 14 year old daughter and I want to see that baby I killed in her they ere only 17 month apart he would be 13 now. I look at her and need to see a that maybe they look alike same super long thick lashes, maybe same beautiful dark green eyes, God has blessed me with 6 adorable kids and I know he's forgiven me for that, that some day I'll see him (to me he was a boy)but until then a piece of of my heart will be missing.

10. How has your abortion affected others in your life?

not much since this was my secret, well mine and my husband's what really bothered me most was that he never asked what actually happened in that "clinic" sometimes I catch myself dreaming that I kick that murderer AKA Dr. and run out and have my baby. My husband never knew how hurt I was

until now, how my life was torn into pieces.

11. Based upon your experience, what would you tell a woman considering abortion?

To not do it, never consider abortion regardless of the situation, there is always a way , Jesus is the way with Christ all things are possible. Abortion is legal crime that needs to stopped. The life of that woman or man will never be the same. A piece of you will always be missing.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That if abortion is legal then they might as well legalize rape, child abuse, domestic violence, and I will also ask if they have children and if they do, that if they would punish any one who hurt or killed their child? or if they will also make killing children legal, because that is what abortion is, a murder of defend less babies that can not be heard , that can not run o yell for help, or say that ripping and tearing of my little arms and legs hurts so bad, please stop it hurts and it will also hurt mommy too.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Potter

My name is Cindy Maggiulli. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Thousand Oaks or Agoura CA

//1976

2. How many weeks pregnant were you?

3. What type of abortion was performed?

performed during the end of the first trimester, however, I don't know what procedure was used

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was completely unaware of the procedures involving abortion. Neither was I informed of the details regarding fetal development. Rather, my abortion occurred when the concept of the fetus as a mass of tissue was promoted.

5. Were you adequately informed of the consequences of abortion?

Yes No

Other than the termination of a pregnancy, I never knew there were consequences to abortion. Instead, the emphasis was upon the dangers of using "the Pill."

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My college boyfriend coerced me.

9. How has abortion affected you?

Although I did not feel guilt for having the abortion, I have always felt a profound loss for the child I did not have. Even though I don't get depressed, I carry a certain private sadness.

10. How has your abortion affected others in your life?

unknown

11. Based upon your experience, what would you tell a woman considering abortion?

If a woman considering an abortion asked my advice, I would strongly recommend that she not do so. I would tell her the truth about my own experience. Also, I would tell her the details of the abortion process, the impact upon the preborn, and the potential impact on her own health. I would encourage her to instead choose life for her child. I would inform her of the resources available to keep her child, or if she could not raise the child herself then the option for adoption. I have personally known two women

who were adopted themselves who have led productive and happy lives.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Given the opportunity, I would urge the court to stop abortion. At the very least, they should restrict easy access that circumvents informed consent. The court should require that the viable fetus lives, regardless of the reasons the mother cites to abort. In my personal case, abortion was an infringement of my rights. The coercion would not have been effective had it not been so readily available. If I had even received proper informed consent, I would have refused the abortion. Even if I had known one aspect of the details of the procedures, the reality of fetal development, the potential for fetal pain, the possibility for fetal experimentation, or that there were realistic options to raise my child, I would have refused the abortion. As regards the popular concept of allowing abortion "to protect the patient-doctor relationship," I never even met the physician who performed my abortion.

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

//1986

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

suction/ d & c

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It was explained as ending a pregnancy, that the fetus was just a blob of cells, it was minimized for sure. There was never any counseling or mention of the emotional or possible physical harm it could cause.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was never any counseling or mention of the emotional or possible physical harm it could cause. I was rushed and it was obvious they weren't interested in me but in getting as many abortions done as fast as possible. I ended up hemorrhaging after the abortion and they told me they "thought" the dr. gave me a blood thinning rather than a blood clotting medication, I have no idea the cause it was very frightening that is for sure.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

boyfriend, father of the baby

9. How has abortion affected you?

It has left me with a profound sense of loss and shame. My belief is that I committed an abortion, not had an abortion. Although I have been through what was to be a healing retreat called Rachel's vineyard for people who committed abortion my grief remains. My child would be 23, an adult who I am sure would enhance my life greatly as my other children do.

10. How has your abortion affected others in your life?

I have told my entire family about the abortion. My children all know and suffer to varying degree

because of the loss of a brother or sister by my actions. My oldest son is involved with an organization where they go to abortion clinics and put a red tape over their mouths as silent witness for the victims, the babies that don't have a voice. My family doesn't tell me of the pain this has caused them; I think they don't want to hurt me, so we don't talk about it. They know I regret it but that doesn't bring their sibling back.

11. Based upon your experience, what would you tell a woman considering abortion?

I would like to tell them of my experience. Tell them that the people at the abortion clinics do not care for them and will lie to them. I would tell them they have choices and there are people who will help them that actually do care, that they are not alone. I would like to educate them on the ugliness of abortion and the truth of abortion. I would tell them of the consequences of the abortion in my life and the rest of my family.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would like to tell the court that abortion should be illegal, that it is murder and that over the years it has shown to harm countless numbers of women and their families. With current medical knowledge with sonograms, televisions virtually in the womb it has taught us that what we were told was a "blob" was a human being, worthy of a chance at life. If I had it to over again I would never make that decision and I regret that the state made it so easy for me to think I could discard another human being like trash, literally. I have a stone in my garden representing my child that is his/her tombstone. By my own hands, you understand? I would tell them that I believe this act of abortion will be known as one of the greatest crimes against humanity. That a woman or girl in the position of an unplanned pregnancy is especially vulnerable to anyone offering them what seems to be an easier way out. I would like to see studies done of how abortions have affected women, the long-term consequences to their mental, physical and spiritual health. That knowledge is important. The other thing is that if abortion is a "choice" and a woman's right why are they not televised? Why is it a taboo subject? We talk about women's personal and private issues all the time, why not this? Why not shine the light on it? I know why. If the light was shone on it and it was revealed for the ugly act that it is that it couldn't continue.

The State of TX

County of Denton

My name is Debra Marrinan. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Houston TX

08/01/1971

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

My Aunt ran a tube up inside of my Uterus which caused me to go into pre-mature labor.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 17 yrs. old, my mother came into my room and said that I was flying to Houston and my Aunt Helen was going to give me an abortion. She was the family abortionist I know now. I delivered a fetus into the toilet and then she brought it into me and showed it to me. It scarred me for life.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was a very immature teenager and I had no idea what was happening to me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Parents

9. How has abortion affected you?

I feel like a murderer of the worst kind, a killer of children, nothing worse.

10. How has your abortion affected others in your life?

I'm not sure.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it, you never get over it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You are taking a life, it has a heartbeat, it is a creation of the Most High God. My abortion caused me to see life as unimportant and especially see my own life as nothing. I did go on and have 2 more

abortions thinking that it was alright since no one seemed to care in my family what had happened before. But now I am older and wiser and I realize what I did and it's hard to live with. It has definitely affected me quality of life and how I view myself.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Bexar

My name is JENNIFER MARTINEZ. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Antonio TX

10/17/1998

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Suction-aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told by the employees of planned parenthood that most women live normal happy lives and emotionally 'get over it' soon. I was told I would just remember this experience as a bad dream and that I would never have to think about it again. I was not given a chance to see how far along I was, I was told my baby was a blob of tissue, not a baby. I dont think I ever heard a word about a baby-the workers only refer to abortion as 'the procedure' or 'pregnancy termination'. I was never told of any other alternative like adoption or given the opportunity for objective counsel.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

by employees at planned parenthood

9. How has abortion affected you?

Abortion has been the most destructive and hurtful thing in my life. I wasn't told about the many emotional consequences, I was expected to just move on. After my abortion, I felt hollow on the inside. A part of me died that day, physically and emotionally in addition to the killing of my own baby. Looking back I wish this 'right' I had was never given in the first place. Abortion destroyed my life for 12 years. I had issues with severe depression, I had suicidal thoughts shortly after, I hated myself for choosing the abortion. It boggles my mind how people call abortion healthcare - the truth is: abortion kills babies and hurts men and women deeply. I have walked with this secret for so long and felt such shame and anguish over it. I believed that I deserved to be treated badly and entered into dangerous physically abusive relationships. I had no regard for my own life because of the abortion.

10. How has your abortion affected others in your life?

Abortion destroyed my relationship with my then boyfriend. I kept myself away from people, letting them see the real me because I was so scared some one would find out and judge me for the abortion. I pushed love away from my family and friends because I felt I did not deserve love. It's very hard for me to make decisions as the decision I made to abort was so destructive.

11. Based upon your experience, what would you tell a woman considering abortion?

I would plead with her to consider the dire consequences of abortion. It's not pregnancy termination, it's killing your baby-who is a gift from God. I would encourage that woman to seek help from a pregnancy center instead of choosing death. I would warn her and tell her of the destruction abortion causes and how most women DON'T get over it. I would tell her that God loves her and her baby and He will provide for her. I would do everything in my power to save a woman from the heartbreak of abortion. It's not natural to kill your own baby. It's a sick business, this business of abortion, truly the devil's work. It seems like the only option when you are scared and don't know what to do when a pregnancy is unplanned--but the truth is two wrongs don't make a right. Abortion will not give you freedom, it puts a person in an emotional prison. Abortion does not make things easier, it makes EVERYTHING harder-living a lie, bearing the weight of guilt and shame for years.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Those who believe in destroying an innocent life need to rethink the entire justice system then. What is the difference between killing a life outside the womb than inside it? Why are the unborn left with no voice, no advocate and no protection? A mother's womb should be the safest place for a baby as God designed women to bare children. Abortion destroys that safe place. Women are brainwashed in these clinics like planned parenthood, they are told that they will get over it, and 'it's not a big deal'. Nothing could be further from the truth. As far as any person who is reading this declaration in the justice system: Abortion is man's/women's attempt to play God. It is not a right that any man or woman should have-to kill innocent life. When a pregnant women is killed, there are 2 counts of murder, yet when it's done under the facade of a 'pregnancy termination' it's legal. Abortion is the ultimate act of selfishness and deception. Millions of men and women are walking wounded by abortion. Millions of innocent children have been killed by this horrific form of birth control. There is nothing good in abortion, not one thing. I pray that your hearts will see the very gift of life that allows you to read this declaration is because of God the Father giving you life and your own mother choosing life - instead of abortion.

The State of TX

County of Dallas

My name is Judy I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

05//1983

2. How many weeks pregnant were you?

20

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was young and didn't understand that this was actually killing a life. All I knew was that I didn't want to be pregnant, if I had seen that this was a life inside me I think it would have been different and I would have made another decision but I didn't know I had other options.

5. Were you adequately informed of the consequences of abortion?

Yes No

I didn't know that by having an abortion I would make other choices that weren't good for me and no one every explained this to me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have had alot of guilt that has built for all those years. And even more once I realized that I killed my baby whom was alive inside me.

10. How has your abortion affected others in your life?

I haven't been able to have a healthy relationship with anyone.

11. Based upon your experience, what would you tell a woman considering abortion?

I would let her know that she didn't have to have the abortion because there are other choice for her, adoption for one. I might let her know that I know what she is going thru because I was there myself.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that they are wrong and they are killing babies that don't have a voice yet so that is

why we have to speak for them.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Montgomery

My name is Linda I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Huntington Beach CA

04/27/1982

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was fetal tissue and that this was a very common procedure. It never occurred to me that it was murder, particularly the murder of my own child. They wouldn't dare tell you that "Your about to murder your own child." During my 20s and in total ignorance, I had three abortions.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nothing was ever mentioned about the deep sadness and despair I would experience. Nor was any counselling offered. It was all very clinical!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

The pain and sadness I live with, especially when I look at the 5 beautiful children I now have, is overwhelming at times. I feel betrayed by my fellow man, society, and in my own blindness at the time of the abortions. I looked for doctors to counsel me and I ended up being a party to murder. I am so thankful to my God that he has forgiven me and given me the ability to see the truth, no thanks to this depraved western culture. The church has been very healing in this regard.

10. How has your abortion affected others in your life?

I have a very difficult time trusting people and believing what they say. In a very real sense, I tend to be cynical, even though I am blessed with a wonderful husband and 5 beautiful adult children.

11. Based upon your experience, what would you tell a woman considering abortion?

The truth should be told that abortion is murder. But even more importantly, the message of abstinence should be shouted from the rooftops, which is what I've taught all my children. Unwanted teenage pregnancy is only the manifestation of a deeper problem, premarital sex. What kind of country would this be if premarital sex were frowned upon instead of exhaulted.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Since Roe v Wade, science has provided proof that this "fetal tissue" is indeed a person. More than any other time in history, this is indisputable. Please outlaw this horrible practice of infantacide that has caused millions of us pain. It's usually not expedient or convenient to do what is right.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Harris

My name is Mary Lee Mason. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Roanoke VA

12/10/1980

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Dilatation and Curettage with the Vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No, they said it was a simple procedure to take care of my problem.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told it was a blob of tissue and not a baby. They told me it was like getting a tooth pulled and that I would walk out the door the same way that I was before I got pregnant. I was told there were no side affects.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

The moment I walked out the door of the abortion clinic I was different. Not only the physical pain I had but the emotional pain was so deep I didn't understand. I started drinking heavily to deaden the pain. I kept it a secret for 20 years and it ate a huge hole in my heart. Every time I saw or heard the word abortion I would cry and go into a dark depression period. Every year around the anniversary of my abortion I would sob uncontrollably and would be depressed for weeks.

10. How has your abortion affected others in your life?

The father of my aborted baby refused to ever date another woman who could get pregnant. He knew he didn't deserved to be a father since he allowed me to kill his first and only child. To this day he has never fathered another child. During the years it affected my relationships with my spouse and other children.

11. Based upon your experience, what would you tell a woman considering abortion?

Never, ever have an abortion! Abortion will affect you for the rest of your life. It's a baby from the time of conception. If you can't raise this baby choose to make an adoption plan. There are so many other options besides abortion. Abortion doesn't end your problems its the beginning of many more problems.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion HURTS! Just because it's legal I thought it was OK and believed what the abortion clinic told me. It was all a lie. I've been scarred for life! How can something "legal" hurt SO much!!!!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Baby's father and baby's grandfather

9. How has abortion affected you?

Shame,guilt,fear of rejection,promiscuity,remorse, grief- stricken,unworthy of love & trust,wrecked my self esteem,estranged from my God,unable to forgive myself. Silent for 38 yrs.Hypocrite,liar."Replacement Baby Syndrome". Incompetent cervix caused 6 week premature delivery of my twin sons.One twin died & felt God may have taken him as due punishment for abortion. Had to have cervical cerclage on third pregnancy to avoid premature delivery of next child.It changed who I am and who my child was to be. Thoughts of suicide. Left a hollowness in my soul. Believed I was a bad person. Crying episodes. Anger invaded me when I least expected it. Anger affected how I disciplined my sons while at the same time I was over-protective. Bitterness. Loneliness in crowd.

10. How has your abortion affected others in your life?

The abortion affected my relationship with my husband. We divorced and have remarried each other. He never knew of my abortion prior to ever meeting him. After I told him and read part of the book I am writing he had two comments. "I never knew you had this turmoil in you. It explains a lot." I feel the

anger episodes caused me to take things out on our sons to an undeserved degree, not always, but at times. After being disowned by my dad I preferred to avoid him and felt hurt that he could enjoy and become so animated around my nieces, yet ignore me, his own daughter. I needed him. Avoidance and non-committal to relationships with my friends and my two sisters.

11. Based upon your experience, what would you tell a woman considering abortion?

It was the worst thing I ever did in my life. How it haunts me still and has changed me forever. At conception God planted a soul in your child. She is already a mother. Adrian Rogers once told an abortion-minded young woman, "Young woman, you will have your baby. You will either have a live baby or a dead baby, but you will have your baby." Her womb should be a safe place not a tomb. Children are a blessing, a gift from God. We get things out of order as a consequence of our sins, but this child is not a mistake. No matter how this child was conceived; whether rape, incest, drugged or permissiveness this child has as much of a right to its life as they have. If parenting is not for her then adoption is a gift of life to both her child and adoptive parents who would love to love this child. I also stress that this child is not now and never was a blob of tissue. It is premeditated murder to take a life. This life is a human life with a soul and rights. It can't speak for itself yet, but if it could this son or daughter would ask, "What have I done that was so awful that you want to kill me?"

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them of the scars on my soul and of the vacancy in my heart and life till this very day. The ache and regrets never fade. Abortion is believing a lie straight out of hell. At least on the battlefields our countrymen have died upon they were given weapons to defend themselves with before they fell. What weapon does this child have? Too young to vote so he has no weapon, no voice and no defense. You never get over having had an abortion. Abortion lowers the value of human life. Spreads corruption in the hearts of those who choose death for their child. Although you "get away with murder" as far as society views it, your heart died along with your child. Their memory of what they have done is its own prison. God made mothers to be nurturers not murderers. I was speaking to a woman inmate in prison once and I told her my group and I were there to help women like me who have had an abortion(s) and to find healing from this heinous crime we have committed against our children and our sin against God. She told me she was in for forgery. She reasoned, "So I'm in here because I passed some hot checks, yet you murdered a baby and you are free!" She was 100% right and just in her opinion. I ask you...whose crime was worse? Her forgery or my act of murder? Who had done more harm?

10. How has your abortion affected others in your life?

They were devastated

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it - God will help you in everything that you do or go through!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

- People need to be informed of the circumstances involving this - it kills the child and the adult both in and out - will never be the same again - the planned parenthood abortion clinics only care about the money and not the person or child - they treat you like a cattle getting ready for slaughter - they don't even have the decency to put the fetus up when you are threw with the abortion - they leave the fetus there for you to see the great big mistake you just did - and it will dramatize you for the rest of your life - if I only had someone to explain the circumstances involving the abortion - I would never had it - I pray all people understand the hurt and the horrible experience you will go through - Please don't let be legal!!!

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Not informed that my baby was a baby. Not informed of the psychological damage.

5. Were you adequately informed of the consequences of abortion?

Yes No

Post traumatic stress is a consequence of abortion and I was not informed of it.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has negatively affected every relationship in my life. Anger, irritable, guilt, shame, crying, suicidal thoughts, depression, regret, nightmares, flashbacks, alcohol, drugs.

10. How has your abortion affected others in your life?

Having to do deal with the negative effects listed above.

11. Based upon your experience, what would you tell a woman considering abortion?

They tell you it is an easy fix that will be over soon. It is not an easy fix that is over soon. It does not fix anything. It breaks your heart for the rest of your life. It's a life long ache that never goes away. You will always miss your child. You will remember your due date every year for the rest of your life. Your child's birthday that didn't happen. Please do not do this to your unborn child or to yourself. This baby is wanted by thousands of families who can't have children on their own. This baby was chosen to come into this world by our loving Father in heaven. This baby has a purpose here on earth. You will regret not having this baby for the rest of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

How can it be legal to cause so much pain on a woman? How can it be legal to allow a mother to murder her own child? How can it be legal to put this trauma on a woman for the rest of her life? Abortion does not fix anything. It makes things worse. It's not an easy fix. It's a life long regret. You don't see that because you aren't seeking us out 10-20 years after the abortion when the post traumatic stress has set in and our lives are in dissary. Our families are suffering because of the choice we made. We are suffering because of the choice we made...that we were allowed to make. We believed the lies we were told at the clinics about abortion. It's all a lie. LIE.

QUESTIONS

1. Where and when did your abortion occur?

Ft. Collins CO

//1976

2. How many weeks pregnant were you?

24

3. What type of abortion was performed?

I don't know. I was in a hospital and they injected something in my stomach

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was so young and just said I wanted it to go away. The doctor just scheduled it. I remember being in the elevator coming out of the procedure, when the nurse wheeled me back to my hospital room and the look of condemnation. I remember mumbling something justifying and trying to excuse my situation but I knew in my heart I had just had my child murdered.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told nothing.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have had 2 abortions. I was deceived. I thought I could just ask for forgiveness from God and go on. I see now how the guilt and shame affected my self esteem. This caused me to accept an abusive marriage. I felt unworthy.

10. How has your abortion affected others in your life?

I have never told anyone about it but my mother and family suffered greatly when they knew I was in an abusive marriage. I see now how as a direct result of the guilt and shame from the abortion it propelled me in the situation of marrying a controlling person.

11. Based upon your experience, what would you tell a woman considering abortion?

As hard as it is, go to a parent or caring adult to help you through the situation. You have a child inside of you and you cannot kill the child and think that it wont affect you. It will--avoid the future hurt and

pain and bring your situation into the light and don't hide it. Be of courage, ask God for help and He will see you through. There are options available to you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Killing is wrong. Killing a child is especially wrong and will have a consequence. There will be incredible heartache and pain at some point in the woman's life, those involved in performing the abortion, and our nation.

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Not being very sure of how far along I was, less than a month for sure, I did not know how well formed my baby was. Having been indoctrinated in the pro-choice movement and thinking it was all ok, I didn't realize I was actually killing my child. I thought it was just a blob.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told it was a simple procedure, that it would only take a few minutes. I was not informed of possible consequences of injury. I had no anesthesia, I was awake the whole painful time. I was very lucky that I was not injured.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My husband forced me into a second abortion.

9. How has abortion affected you?

I tried to block it out of my mind for a long time. I would try not to look at babies and pregnant women. When I saw a small child I would think, "my child would be x years old...". It was painful for me to celebrate other people's children. I thought about it nearly everyday, that I could have had a child growing up and doing something with his/her life - even if it was with another family. I've suffered loss of self, and esteem, guilt, depression, weight gain. These may not seem like much, but it has been debilitating and has affected what I've been able to do for a career. I became a dis-functioning adult. Now, many years later, I am finally getting the grief counseling I need and am working on self forgiveness. It is a very painful process.

10. How has your abortion affected others in your life?

My second abortion, which took place in Scotland, in 1998, destroyed my marriage, as my husband forced me to kill our child. My self worth was terminated that same day. I have not told many people about it. My parents were sad to learn of it, but we haven't talked much about it. My children don't know yet that their father and I killed their sibling.

11. Based upon your experience, what would you tell a woman considering abortion?

There are so many couples "out there" who are not able to have children of their own, and are desperate for wanting a family. Why throw away something that someone else can and would love? It would be much easier to live with yourself knowing that instead of destroying someone, you allowed them to live with a family who wants them, loves them and can help them to be a wonderful member of society. I would much rather live my life knowing that my child was happy with another family, than to know I killed them.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Usually, by the time a woman thinks she is pregnant, the child she is carrying already has a beating heart and developing organs. Even at this early stage, abortion is taking a life. A woman has a right to choose what to do with her body, but once she is pregnant, there is another life involved. It is no longer just her body. The aborted baby is not her life, it is the child's life. If someone who kills a pregnant woman can be charged with double homicide, then the woman who aborts should be charged too - after all, women who kill their children after birth would go to jail. The abortion industry is about one thing, making money. It has nothing to do with the welfare of mother or child. Many women each year are killed, severely wounded, and/or made infertile because of the lack of regulation for the abortion procedure. Women are not told of the depression and self hatred that comes after an abortion. They are not told of the PTSD that follows and is ignored by the abortion clinics. They are not told that if something goes wrong, they could die. Legalizing abortion has only made it easier for women to get them, it has NOT made it safer.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Fort Bend

My name is Carla I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Houston TX

09//1979

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 16 years old and my mother forced me to have an abortion. They explained everything to her not me.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was 16 years old, they explained everything to my mother, not me. All I knew was that I was pregnant and after they did whatever they were going to do I wouldnt be anymore.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

mother

9. How has abortion affected you?

Horrible unending guilt mostly. When it happened I was 16 and I made up a story in my mind where I had the baby and gave it up for adoption. It was quite detailed. It was the only way I could live with myself. Even though it wasnt my choice, I always felt that I could have stopped it somehow, that I should have had the power to stop it. I attempted suicide several times after that, it was all just too hard to live with. To this day I think about my baby and what they might have become or done, what they would have looked like, what thier personality might have been like. I should have a 30 year old son or daughter, but I dont. I am truly thankful for my 11 year old daughter, I didnt deserve her.

10. How has your abortion affected others in your life?

I am sure it has, only they had no idea why, I kept it a secret out of shame. I considered myself less than others and unworthy after that. I did not deserve anything good in my life after what I had done, and I chased away most of the good things that did come my way. I had many miscarriages during my

20's and 30's trying to have a baby. The doctors always used the term spontaneous abortion which was a cruel term to me. I wanted my babies. I am sure my husband had a lot of pain watching me lose baby after baby, and dealing with the massive depression that always followed.

11. Based upon your experience, what would you tell a woman considering abortion?

It may seem like it is a choice of this moment in your life, an easy choice, an end to the problem. Unfortunately, it will follow them every single day for the rest of thier lives in one way or another. It has so many unexpected consequences. Times and places you would never imagine.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Every pregnancy is a human being with potential. It is not our place to end that potential. In the beginning, it seemed like there were good reasons, that it somehow protected women and thier rights, but it has moved to such a dark place with late term abortions and women using abortion as a form of birth control. Whatever good this country thought they were doing in making abortion legal, they must see at this point that it has moved so far beyond anything good straight to pure evil. We have now seen they effects of legal abortion for almost 40 years, and it is so much more horrifying than the worst back alley abortion story ever told before abortion was legal. Making it legal does not make it right.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Tarrant

My name is Laura I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Not sure of name CA

02/04/1973

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Nobody explained a thing. They just said they would suck the products of conception out and it would be all over. Nobody said it was a real baby. I thought of it as a "blob" at this point in its growth.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nobody talked about the guilt associated with realizing you have killed your own child. Nobody talked about the possibility of never having another baby. (I have had 6, however, thanks be to God)

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has always been a sad shadow on my heart. When I hear about the fight against abortion, I am reminded. When I see the hardened faces of those advocating for abortion, I am reminded. When Feb. 4th comes around, I am reminded...

10. How has your abortion affected others in your life?

People don't know about it. I don't know about others' experiences.

11. Based upon your experience, what would you tell a woman considering abortion?

It is NOT worth it. It is NOT freeing. Nine months is a VERY short time to give your baby & let him LIVE.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that it is murder & they are failing to protect the innocent. I would tell them they are harming the women involved, rather than helping them.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Dallas

My name is M M I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

06/15/1984

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had no clue about anything. All I knew was that I was terrified and I was never given any type of information on any alternative.

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't know if there were any consequences physically because I never had the opportunity to become pregnant again or to even try to become pregnant.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

People at the clinic, boyfriend

9. How has abortion affected you?

I was only 18 at the time and at that time I had no idea that would be my only opportunity to have a child. I did have a few minor gynecological problems and I am not sure if they are directly related to my abortion. A few months ago at 43 I had a hysterectomy and that is what made me realize that I would never have a child of my own and ruined and destroyed any chance of ever becoming a mother. If only I had known....

10. How has your abortion affected others in your life?

My parents know about my abortion now and even though it is so hard for me to forgive myself, they have completely forgiven me and my dad asked me to forgive him for not being there for me and for being the type of father that I felt I could not go to at the time. I know he wonders what his first grandchild would have been like and grieves for that baby.

11. Based upon your experience, what would you tell a woman considering abortion?

PLEASE do not put yourself through the trauma of an abortion. Everyone I know who has ever had one suffers emotional pain and regret. Every child, no matter how it was conceived, no matter what the physical condition of that child may be, deserves a chance at life. Many times, physical tests and conclusions can be wrong. Once that baby is born, you will NEVER regret going through with the pregnancy.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Why don't we carry out the pregnancy, deliver the baby and then decide if you would still like to murder that baby. Life begins at conception! That is a solid fact that can not be challenged!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Dallas

My name is Aimee McGinnis. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

05//1989

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Suction/Vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I didn't even know how they did them. I was in a fog and for more than 8 years could not even bring the event to mind. I still cannot remember the exact events of that day, only a few blurry details.

5. Were you adequately informed of the consequences of abortion?

Yes No

I do not remember any counseling at all after it was over. Very little "counseling" just prior, but none at all after.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

friends mainly

9. How has abortion affected you?

Has brought a lifelong sorrow over that life. Guilt was very prevalent at first, and even though I know I am forgiven, I still have to live with pain, sorrow and questions surrounding it all even to this day.

10. How has your abortion affected others in your life?

I am certain that it has affected them in the way of a reduced respect for who I am or at least who I was then. I was a married mother of two children when this happened in my life, so I am sure that some probably wonder how I could have even considered that option.

11. Based upon your experience, what would you tell a woman considering abortion?

I would "show" her the truth. I would share with her the everlasting scar that this particular sin has on her life as well as the lives around her.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

First and foremost, in regards to legal matters, there is NOT nearly enough education and information available to pregnant women. They need to see what it is inside of them before making that decision. I KNOW that would have made a difference for me, and personal counseling with true information about other alternatives. Last, and probably most important is that I think it says a lot, like Star Parker says, about a society that feels comfortable getting rid of its offspring. It speaks to the very base of who we are and that value of what we are.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

There was no preparation of any kind. I had no counseling nor was I told what to expect physically or emotionally.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me I would feel worthless for what I'd done or told me I would be an emotional wreck for the rest of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Circumstances and society told me what was best

9. How has abortion affected you?

I live with the reality that I killed my own child and all the ramifications that entails. I am continually wondering how different my life could have been and what the child would be like and what he could have contributed to others. My self worth is shot. I had 3 more children just trying to replace the lost child. I have grieved that loss for 38 years now.

10. How has your abortion affected others in your life?

My new husband has had to put up with all my emotional trauma for many years. My other children

suffer with survivors guilt. I have had trouble bonding with my other children and grandchildren. It has effected all my other relationships. I can't have a close relationship with anyone.

11. Based upon your experience, what would you tell a woman considering abortion?

You'll never get over it. It is not worth it. There is a way out of your situation.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You're only making it easy for people to ruin their lives.

9. How has abortion affected you?

it changed who I was for 40 years and prevented me from completely bonding with the child I later did have.

10. How has your abortion affected others in your life?

i emotionally battered my husband because he could not understand why I was so angry all the time.. Nothing he did was ever right.

11. Based upon your experience, what would you tell a woman considering abortion?

nothing is worth the loss of yourself not even having to completely change your life plans in order to have and raise your child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

"legal" is a pretty cold way to live with what an abortion does to a woman as a person and as a woman.

9. How has abortion affected you?

Depression, anger, grief. Got "stuck" in life-- dreamed of baby.

10. How has your abortion affected others in your life?

The nation's economy lost the salaries of 50 million babies--. In my life in particular, my mom didn't get to be a grandmother. Anger was spewed out on others

11. Based upon your experience, what would you tell a woman considering abortion?

Don't have one-- there are other options. Please consider adoption or parenting. Let others walk the road with you-- I didn't, and it cost me everything.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

PLEASE don't legislate this issue to be legal. A baby dies, and as the mother, I struggled with incomprehensible darkness.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Williamson

My name is Toni McKinley. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Phoenix TX

10//1990

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

IDK, drugged and held against my will

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was held down in a chair as I screamed to leave yelling I do not want an abortion. The nurse injected my arm with a drug and I was out as in not awake or able to move at all.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one talked to me. I was held against my will and drugged against my will.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

boyfriend coerced/ nurse drugged me

9. How has abortion affected you?

For years I have struggled with shame and guilt and blame for waling into the clinic and for not being stronger and more forceful to try to get away. I coped with alcohol, self-harm, and suicidal tendencies for years.

10. How has your abortion affected others in your life?

My husband has a difficult time talking about it and doesn't want the subject brought up if he can avoid it. He was my boyfriend before this incident happened with a different boyfriend. My daughter has always had the feeling that she has an older sibling. When she was mature enough to handle the situation I told her what happened. She was devastated that her, what she likes to imagine as her brother, was killed and never given a chance at life. She yearns for an older brother.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to not walk in unless she has been fully informed and has 100% decided to have an abortion. I would share my experience and how it affected my whole life and my family.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would share my experiences of self destruction and guilt and how it has kept me from being a productive citizen in my community. It wasn't until I faced the reality that it wasn't my fault that I began to have healing and was able to focus and workout the goals I have for my life. I would stress the importance of at least passing legislation to ensure that girls go into the clinic having a choice to walk out. There should be screening done to ask girls who come in if anyone is coercing them to be there. If I was asked why I was there I could of told the nurse I was there for more information. I wanted to know more about what an abortion was. I was not there to get an abortion.

QUESTIONS

1. Where and when did your abortion occur?

Giessen , Germany

//1982

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

In the hospital, in the operatin room

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They told me it was nothing, just a small procedure. A little scraping inside the uterus, that was it.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nobody told me that my life would never be the same, that the pain,the shame and guilt would tear me apart. I felt like i had no soul for a long time.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

i became very promiscuous,addicted to drugs and alcohol, i basicly tryed everyting to kill the memory, the thoughts and the way i felt. So dirty and ugly.

10. How has your abortion affected others in your life?

My Mom and Dad where very devastated but thought it was the best.

11. Based upon your experience, what would you tell a woman considering abortion?

No matter what there are different solutions, "DO NOT ABORT".Don't believe when they tell you that you will be just fine. It's a lie from the pits of hell.I would tell her to seek Jesus and he WILL take care of her and her Baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Making abortion legal is one of the biggest wrong doing of our Government.Either they don't care or have

no interest in truly researching what it will do to a person/woman/man anybody involved. Oh by the way, the Fetus no matter how small or new "Is a person". With a heart beat, feeling and the baby will feel the pain. It's not just a blood clot.

My fiancée who was pressured by his friends.

9. How has abortion affected you?

I became reckless with drugs, alcohol and relationships. I lost my mind, hearing a baby crying all the time even when none was around. I became depressed and suicidal. I felt I deserved to die. I lived with guilt and regret and unforgiveness. I felt I was forced to make a choice against my own conscience. I lived with anger for many years.

10. How has your abortion affected others in your life?

My anger overflowed and hurt those closest to me. I broke off my relationship with baby's father. My fiancée's mother was really hurt that the life of her grandchild was taken. She said if she had only known, she would have done whatever she could to help me.

11. Based upon your experience, what would you tell a woman considering abortion?

Be informed first. Yes, you may be in a crisis, but this will pass. Do not make a hasty decision that

you may regret down the road. Consider adoption if parenting is not an option.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

This atrocity has gone on in our nation far too long. The war on women is being waged in the hearts of many who have violated their own consciences and bodies by succumbing to the pressures of this society that say abortion is the easy way out. In our nation alone, 54 million lives have been taken, the equivalent of New York's, Florida's and Illinois' population combined. You have only listened to one side of the issue all these years. It is your responsibility to hear the other side of the story. Many women's rights are being denied because abortion is legal. Life, liberty and the pursuit of happiness has been denied some 54,000,000 of America's pre-born citizens. I say no more. The voices of the unborn ring out from heaven and say "No more!"

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Wharton

My name is Rhonda Meek. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Austin TX

09//1987

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

I'm not sure - no one ever told me.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I just went in and told them I wanted an abortion. A price was quoted to me, after it was paid, the procedure was performed without any explanation of what would happen.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was only informed about physical consequences, nothing more (such as complications to look for once discharged).

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

At that time in my life I had an ongoing problem with drugs. After the abortion, my drug use escalated, I became depressed and out of control. I felt very guilty about the abortion even though I told myself it was the right think to do. I eventually ended up in long term rehabilitation

10. How has your abortion affected others in your life?

Since I didn't know who the father of my baby was, it made no effect on him. But I never told anyone in my family - not for many years.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to get all the information she can about abortion. I would tell her to view an ultrasound of her baby before choosing to terminate it. I would tell her to think of the many options there are available to unmarried pregnant women now besides abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that in my experience, it was obvious to me (in retrospect) that the "respected" physician performing my abortion was in his surgical garb (gown, mask, scrubs, gloves) and going room to room performing abortions. I would tell them I never saw the abortionist's face. I would tell them that the nurse who assisted the doctor was taking turns inhaling nitrous oxide with me, laughed and asked me not to tell. I would tell them what it was like being in a recovery room full of weeping women. I would ask them to reconsider allowing abortion as a form of contraception and for it to be used in only the most extremem cases when the mother's life is in danger or in the event of a rape.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Harris

My name is Diana Miller. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Houston TX

05/10/1979

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Full

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was only 16 years old and had no real understanding of the capacity of what was about to take place. I remember a nurse did tell me that some day I would struggle deeply with my decision. I thought there was no way I would struggle once the "problem" was gone. Boy was she right. I have just now been set free of that very wrong decision. I am now 45 years old.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother

9. How has abortion affected you?

I led a very promiscuous life wanting to be loved so badly. I have had a wrong view of sex my whole adult life. I didn't really want children, but God chose to give me two beautiful outstanding boys anyway. It moved me to tears more than once to know that my creator found me trustworthy to raise two of his children.

10. How has your abortion affected others in your life?

It has not been voiced by others but I know that it has affected my marriage and my parenting. It has

taken me years to overcome and heal from the affects of my teenage decisions.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't do it. have the baby and either love it and recieve what God has for you in that decision or allow someone else the privedge to love that child through adoption. The suffering of abotion is not worth it. Find out what makes you want to hace sex outside of marriage and change. There is no human being on this earth that can fill the spot in your heart that desries to be loved like God can. We were designed that way on purpose.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

it is not just ending a pregnancy, which is horrible within itself. It goes so much deeper than that. Abortion should not be legal because it is crippling our society and making us sick. Physically and mentally. Cancer is on the extreme rise as well as mental illness. LOOK and LISTEN. There is a direct correlation to emotions and these illnesses. We have stored up the emotions of our decision and we now suffer the affects of it. You cannot get rid of a problem by simply treating the symptom. Our country is severly screwed up and we should be ashamed!!! We were founded on Godly principles and there isn't any of those principles evident in todays leadership. Wake up and let go of control. ABORTION IS WRONG.

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I knew I was destroying a life, killing a child, but this was simply knowledge. I was not told anything about the development of the fetus.

5. Were you adequately informed of the consequences of abortion?

Yes No

Emotional/pshchological consequences were never mentioned.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

guilt for many years afterward. I drank a lot to shut it out.

10. How has your abortion affected others in your life?

I believe it affected my relationship with my mother. I always wondered if she knew.

11. Based upon your experience, what would you tell a woman considering abortion?

don't do it. carry the baby nine months and give it up for adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Stop making a distinction between killing a child in the womb from killing one outside the womb. Killing is killing. We are lying to ourselves when we justify a wrong. Most women know in their core it is wrong. That is why it is so incredibly painfull afterwards.

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

standard

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was unaware that my baby already had a heart beat.

5. Were you adequately informed of the consequences of abortion?

Yes No

The psychological ramifications were not adequately discussed.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Initially I seem unaffected, though I spiraled into drug abuse and promiscuity. Years later when I was married and expecting my first child, the realization that I had taken the life of my first born (would have been) child overwhelmed me.

10. How has your abortion affected others in your life?

I robbed my family of a beautiful life

11. Based upon your experience, what would you tell a woman considering abortion?

Please, please let your baby have life. Even if you feel inadequate to care for her, someone else is longing for a child. We make decisions based upon a moment in our lives often without considering how we will feel about them years later. Though I now have a beautiful family, I still long for my first conceived child who would now be 20 years of age.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

No woman, or man should ever be given the legal right to take life. The decision to give or take life is God's alone. Women have so many choices--they make a ton of them before they become pregnant. Please, please don't allow women to continue making this choice, one that will impact their lives negatively for many years!

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Do not know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had no idea how the abortion would be performed. Medical staff did not give any information.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed of the emotional tramau I may experience after the abortition for the rest of my life. No counseling was offered.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I was 26 when I had the abortition today at 57 I think of what could have been. I will always live with the guilt,and regret. For a long time after the abortition I had wierd nightmares. Once the procedure is done, thiers no going back.

10. How has your abortion affected others in your life?

The regret and saddnes, effects everyone involved.

11. Based upon your experience, what would you tell a woman considering abortion?

Only a cold hearted murder could say an abortition has no or little consequences in your life. Take a good look at what your about to do. Is this really your only choice, or have you researched other alternative. I have forgiving myself, but I will die with a terrbile void in my life based on a decison I made over 30 years ago.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

It is not the job of the courts to permit the murder of millions innocent victims, whose only crime is to have been conceived. For those sitting in the courts today I ask you, how much do you value your life ? If someone took your life should thier not be justice?. Based on my experience My life may have been different if my abortion had not been so easily available.

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

don't know the name

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I knew it killed my unborn child but how it did it I found out later.

5. Were you adequately informed of the consequences of abortion?

Yes No

Everyone informed me that it was the best for everyone involved. But they forgot about the baby and my soul.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

No one gave me other options.

9. How has abortion affected you?

I had 2 abortions at age 18 and 19. I'm currently 51 and the past 30 years have been full of grief and pain of the loss of my 2 children. My relationships with other have been unhealthy. Words really cannot express the regret and pain of those choices.

10. How has your abortion affected others in your life?

I'm not sure. Other than my husband is missing out on a "happy" wife and it affects our intimacy.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T!!!!!! There are other choices for life for the child. Adoption. You will deal with this choice one way or the other. It doesn't go away no matter what choice you make. So choose LIFE.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

When you kill the children of the future, you are negatively effecting that future. In the past civiliazations kill there children for gods approval. And in our time we are killing children for the god of "choose". It is wrong! We must take care of the children!!!

3. What type of abortion was performed?

I really am not sure. I was 17 at the time.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It was not explained to me the procedure and how they would dispose of the baby.

5. Were you adequately informed of the consequences of abortion?

Yes No

Not the emotional pain and the mental torment and guilt that would take place afterwards.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My father. He said I had to, so my brother took me

9. How has abortion affected you?

I carried the pain and the guilt and mental torment for years, until I attended the Fall Creek Falls Women Retreat in Fall Creek Falls, Ok. I used to cry everyday. It was a dirty little secret that, ate at me on the inside. I could not scrub it off and could never get rid of it until Jesus set me free. Until that day all I could do was grieve. I feel like the Lord wants me to take a stand and speak out so other women will not be affected by the devils deception.

10. How has your abortion affected others in your life?

I know my mom was so grieved by it, because she did not stand up to my father. I do not have a relationship with my father. I have not talked to him in years.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not do it. The emotional and mental torment and the guilt will eat you up on the inside, until Jesus sets you free. And you will always have the what ifs.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Based on my experience, no it should not ever be legal.

HUSBAND

9. How has abortion affected you?

I HAVE HAD 2 ABORTIONS BETWEEN 1981 & 1985 THIS WAS ONE OF THE BIGGEST MISTAKES I HAVE MADE IN MY LIFE -- I HAVE WONDERED CONSTANTLY WHAT THOSE 2 PRECIOUS CHILDREN WOULD HAVE LOOKED LIKE, WHAT THEIR PERSONALITIES ARE LIKE AND WHAT GOD CREATED THEM TO BE & TO DO - I HAVE BEEN BURDENED BY GRIEF, REMORSE AND HATING MY SELF. GOD HAS SET ME FREE OF THESE FEELINGS, AND I KNOW I WILL SEE THOSE 2 PRECIOUS BABIES IN HEAVEN - IMAGING THE SURPRISE FOR MY OTHER 3 KIDS, WHEN THEY MEET SISTERS OR BROTHERS THEY DIDN'T EVEN KNOW THEY HAD.

10. How has your abortion affected others in your life?

NO ONE KNOWS EXCEPT MY PASTOR AND MY NEW HUSBAND - ANY TIME THE SUBJECT COMES UP MY HUSBAND IS VERY PROTECTIVE OF ME AND MY FEELINGS AS HE KNOWS WHAT A PAINFUL SUBJECT THIS IS.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T WALK, RUN AS FAST AS YOU CAN IN THE OPPOSITE DIRECTION, WHAT MAY SEEM AN EASY OPTION OR SOLUTION IS A LIE OF THE DEVIL, IF YOU CAN'T CARE FOR YOUR CHILD THERE ARE MILLIONS OF PEOPLE THAT ARE WAITING FOR IT. THIS IS SOMETHING YOU NEVER, EVER FORGET & WILL REGRET FOR THE REST OF YOUR LIFE.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

FORGET IT -- LIFE BEGINS AT CONCEPTION -- GOD CREATED THAT CHILD FOR A PLAN & A PURPOSE - ABORTION WILL RIP OUT THE HEART OF EVERY WOMAN & MAN THAT HAS EVER BEEN A PART IN IT. THE SELF HATRED, THE GUILT AND ANGUISH ARE NOT WORTH IT - IT IS ONE OF AMERICA'S LARGEST PROBLEMS.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Collin

My name is Kim Moss. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

06/15/1991

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

Vacuum aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

To my knowledge no details were provided how it would be performed nor were any risks discussed.

5. Were you adequately informed of the consequences of abortion?

Yes No

As previously stated no side effects or risks were mentioned prior to my abortion

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It brought much guilt, shame and despair. Because of the depression I failed in relationships with friends and boyfriends. I did not feel I could trust anyone. I also felt I was damaged goods that could never be repaired and chose to live my life that way for a couple of years. Giving way to drinking alcohol and getting so drunk sometimes I could not remember what happened the night before. I lived in secret for 18 years in fear of being rejected and shamed for "my choice". There has been a great void in my life.

10. How has your abortion affected others in your life?

My choice not only affected me but it has affected my husband, friends, parents, and my brother and my children one day when they are told the truth. They hurt because they see the hurt it has caused me. My parents felt helpless because I chose not to involve them in my and my boyfriend's choice. They feel guilt for not being there. Some friends have chosen to look down on me and treat me differently for my choice.

11. Based upon your experience, what would you tell a woman considering abortion?

You may think it is a quick fix to a problem. But it is NOT. There is a baby growing inside of you. One that has a purpose and a plan whether it involves you being the mother or not. There are big ramifications for choosing an abortion, lots of emotional side effects-pain, hurt, loneliness, shame, depression just to name a few.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is not a woman's choice. It affects not only her life but her family and friends. Why doesn't the family have a say in what happens to their grandchild, neice or nephew. It is not a fetus. It is a baby. A baby ordained by God with a plan and a purpose. God is the giver of life and death and the choice should remain His.

In 72.. there wasn't much information

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

"friends"

9. How has abortion affected you?

Even though I have forgiven myself and have repented to God for what I did...and have received forgiveness.. it's never easy knowing I interfered with a human beings life process.. I can only imagine what most women go through when they don't know how to release the guilt and longing for that child..

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

Thre is always another option and one that won't forever change your future!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I'd expect I'd have the right words to speak at that moment..

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Montgomery

My name is Diana Nash. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Houston TX

09//1990

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't remember a lot about the procedure, but no one told me that what was inside of me was a baby. No one told me I had other options and there was no period to think about what I was going to do.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one explained what the risks were to me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I still think about how old my child would be and what he/she would be like. I feel like it is the worst thing I have ever done.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them that no matter what the reason is that they feel they are unable to take care of a child, that abortion should not be an options. There are many other things they can do.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Some people believe that abortion is wrong except in the case of rape or incest. Well, my pregnancy was the result of a rape. At the time, I was a single mother with 3 small boys struggling to make my life better. I had a good job and was attacked at gun point in the parking garage where I worked. It was not a case of date rape, but a brutal assault by a violent stranger who was never caught. The only people in my family who knew I was pregnant were my aunt and uncle who were both employed at the same bank where I worked and my mother. I tried to think of carrying a baby to term that was conceived in such an awful way. I knew I would never be able to keep it. I did not think it would be fair to me or to the child. I also tried to imagine giving it up for adoption, but I could never think how I would explain that to my sons and I worried that they would fear I would give them away if they did something wrong. In my mind, which I admit was not at its emotional best, I had no other choice, but to abort the baby. As traumatic as the assault was, and I have had many sleepless nights over the years, the knowledge of what I did to an innocent child has been much more traumatic than the rape ever was.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of bandera

My name is tammy I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

san antonio TX

05//2006

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

I took a pill

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

the Dr. told me I would just take this pill and I would lose my baby. Which is exactly what happened. No details, but then again I didn't ask or want to know.

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Tremendous guilt. Fear of God that I did such a horrific thing and went against my beliefs. Feelings of I'm a horrible person. Self persecution. I'm a baby killer, would my friends and church family still love me if they knew the truth. Feel like I have to keep a deep secret. I have been branded and having other children (before my abortion) I can't help but feel like my family has been shortchanged and I lost an opportunity to feel love and give love to another beautiful, gift from God. I rejected Gods love and gift to me and live knowing someday when I see God face to face I will have to talk to him about it. I know I'm forgiven but someday I still fear that.

10. How has your abortion affected others in your life?

Dealing with my mood swings and not knowing why, because not everyone knew. My husband dealing with my regret. My children eventually knowing and realizing they could of had a sibling, and explaining to them what I did...

11. Based upon your experience, what would you tell a woman considering abortion?

Spiritual guilt, fear, regret and a lot of what ifs..... I was given a pill, not a procedure done in an office. A

small pill there, and some to take home. A pill fixes everything right? We always turn to medicine... for me if a Dr. did it I wouldn't be okay with it but I could blame it on him/her. I was in control of this. I took the pills. Its a long drawn out procedure, hours and hours of filling your stomach cramp and knowing you are killing your baby. It is AWFUL!! and I chose it. I will never forget the feeling of knowing that pain and then flushing it down the toilet....it was a human life I killed and discarded like nothing. If i had known the full details I wouldn't of done it. The Dr. said the baby was the size of a pin top. a small dot was all. They don't want to save the baby, the don't tell the truth. They tell you what will make it easier for you to not think of it as a human. IT is not something you can take back, forgiving yourself for committing this act is almost impossible. For me it was impossible until I finally, years later forgave myself through the grace of God.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is preying on the individuals who are lost and scared and don't know what else to do. Abortion is thought of as a short, quick solution but has long term effects. It convicts not only the girls physical health, but mental and spiritual conditions. Stress from carrying the guilt can alter every aspect of her life. When you go to talk to someone about an abortion in an abortion clinic, you are entering into a place of work. Its just a job to them. You are just another girl who got herself in a mess and they have the answer you want to hear. At the time. I don't think anyone can be prepared to kill a baby. Any info. they give you can not ever be enough to prepare you for this life changing and killing event. I chose to stop my babies heart from beating and in doing so a part of my heart is broken forever.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OK

County of Cleveland

My name is Anisa Neely. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Houston TX

07/11/1995

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

I am not sure what they called it but it was a suction noise is what I remember.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The pamphlet that I received was like you would get if you were going in to have a regular surgery at a Hospital. It had nothing to do with what I would suffer days and years after the abortion. They did an ultra sound to find that there were twins and had me get off of the table to swipe my card again before they could abort the babies. They said they needed 250.00 more dollars. So they ONLY did the ultrasound to see if they needed more money to charge me by how many weeks I was and THEN how many in the womb!

5. Were you adequately informed of the consequences of abortion?

Yes No

No! A lie told long enough becomes truth and since Roe vs Wade or before it was said "IT IS JUST TISSUE" AND "LIFE DOES NOT BEGIN IN THE WOMB". So as a 24 year old this is what I knew and never did I ever see this as murder, because AMERICA'S GOVERNMENT ALLOWED THIS LIE AND ALLOWED MURDER(ABORTION)! I WAS A YOUNG WOMEN WHO HAD FAITH IN AMERICA AND THE GOVERNMENT WHO RAN IT AND I WAS BETRAYED BY AMERICA'S GOVERNMENT ALLOWING ABORTION(MURDER)TO BECOME LEGAL!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Shame,self hatred,no self-esteem,depression,insecurity,I take medicine for a chemical imbalance that this abortion triggered and fear had griped me for years after my son was born two years after my second abortion...that something might happen to him. The abortion left me with trauma that has taken years to forgive myself and heal and overcome.

10. How has your abortion affected others in your life?

I do not know shortly after the abortions, I had two; both men in my life...the abortions were about 4 years apart...never came back around.

11. Based upon your experience, what would you tell a woman considering abortion?

That it will cause or more pain and trauma for years to come. It is not the answer we think when we say aborting (murdering) this baby will take care of the problem. NO! YOUR GREATEST NIGHTMARE BEGINS ONLY HOURS AFTER YOU HAVE AN ABORTION!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

MY FRIEND TOLD ME OF A LIVE ABORTION BEING PERFORMED THE BABY WAS 20 WEEKS IN THE WOMB. THE ULTRASOUND WAS PLACED ON THE WOMEN'S STOMACH AS THE ABORTION WAS BEING PERFORMED THE BABY WAS MOVING AWAY FROM THE INSTRUMENT AND THE BABIES MOUTH WAS OPEN. THE INSTRUMENT THEN ATTACHED ITSELF TO THE BABY AND HIS HEAD WAS TO BIG TO GO THROUGH THE INSTRUMENT SO THEY STUCK FORCEPS IN THE WOMB AND CRUSHED THE BABIES HEAD SO THAT IT COULD BE SUCKED THROUGH! MY GOD AMERICA WHAT ARE YOU DOING? AND I THOUGHT HITLER WAS THE BAD GUY!

County of Midland

My name is Thelma I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Odessa TX

01/06/1986

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

They hooked up like a vacume cleaner to mu uterus and turned it on.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

The nurse never told me of the complications I would suffer later in years due to the abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

After the abortion I was never able to get pregnant again. So I have never had any natural children. I wish I could have had at least one child.

10. How has your abortion affected others in your life?

Don't know. The daddy to the baby ended up committing suicide a few weeks later. He couldn't bear knowing he was the cause of the abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

I would plead for her to rethink it. I would tell her that the life she carries inside her body is a gift from God and that she should take special care of it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If they believe killing a baby just because the mother decides she doesn't want it, then we should legalize all the other killing methods people use. Killing is killing no matter which way you present it and it goes against My Heavenly God's will.

QUESTIONS

1. Where and when did your abortion occur?

New York City NY

04//1972

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that it was just a "blob of tissue". About a month afterwards, I saw a front page story in the newspaper with a photo of a 10-week old fetus's perfectly formed foot, and realized that my baby was fully formed - a real baby, that I had let be destroyed by being pulled apart.

5. Were you adequately informed of the consequences of abortion?

Yes No

They do not tell you of the psychological or emotional problems you WILL have, after you realize that you took part in murdering your own flesh and blood. Or that it would be better for you developmentally to give your baby life and responsibly give your baby up for adoption if you felt you could not support him or her, or decide to keep him or her...that it was worth everything.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

a university chaplain told me who to call

9. How has abortion affected you?

Guilt, sadness, depression, self-destruction, self-hatrid. If I had not given my life to the Lord the following year, receiving forgiveness, I would not have been able to live with myself. But even after that life-changing experience of becoming a christian, there is never a time that goes by that I do not remember what I've done or what happened, and that I actually had 4 children in my life, not just 3. And that I'm hiding some terrible thing about myself from those who think I am so good and kind.

10. How has your abortion affected others in your life?

Most do not know, and those who do never talk about it.

11. Based upon your experience, what would you tell a woman considering abortion?

What is inside of you is NOT a "blob of tissue", it is a real live baby. "Choice" "pro abortion" is choosing to have your baby killed. It is an event that will haunt you all the days of your life with regret and guilt. It is better for you to give birth to your child, and if you decide afterwards it's impossible to keep him or her, let your baby be adopted by parents yearning for a child to love.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is the murder of a tiny human being....It is the choice to kill someone, someone innocent and defenseless. If someone doesn't want their child, they should give birth to the baby and give it to someone who does. It makes the birth mother take responsibility to do something good with the situation they find themselves in. I believe majority of the time, the mother will have a change of heart and find a way to keep and care for that child, if abortion wasn't so easy and available. I believe our country is in a downward spiral because of this great tragedy.

1. Where and when did your abortion occur?

White Plains NY

09/20/1979

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that this was just "tissue", and it would be removed.

5. Were you adequately informed of the consequences of abortion?

Yes No

I've had two abortions, which I deeply regret. At the time I bought into the lie that these were not babies.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Just myself

9. How has abortion affected you?

My life has been an unhappy one since I found out the truth, and I believe my hysterectomy was due to these abortions. I led an immoral life, which was contrary to my nature prior to the abortions, and there is not a day that goes by that I don't think about the children I killed. My depression got very bad until I received post-abortive counseling.

10. How has your abortion affected others in your life?

I've broken 4 engagements because I could not face committing to a marriage and children, even though I felt I loved these men.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT. You have no idea how much or how long you will suffer the consequence of the abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Killing of an unborn child is not a legal action, anymore than killing someone already born. This baby can feel pain, and the research on the child in the womb has determined that this is a viable, human being. The numbers of babies killed in the womb over the last 40 years is an abomination. Please put an end to it. This is not a "woman's choice" She made her choice before she got pregnant. Taking the life of her unborn child is not her perogative. There is no "choice"; there is only pro life or pro murder.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Bexar

My name is Kimberly I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Antonio TX

10//1982

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

some sort of vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not given any counseling or alternatives.

5. Were you adequately informed of the consequences of abortion?

Yes No

No counseling. Just told to sign on the dotted line. I was 19.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My nineteen year old husband.

9. How has abortion affected you?

Horribly. The guilt and depression that followed has been ongoing for years. I know God forgives me, but it's very hard to forgive myself. My marriage failed for obvious reasons. I cried through the whole procedure. The doctor told me to "shut up" or he wouldn't finish. I was terrified of him. And I even more terrified of my first husband. I was not given any type of anesthetic. I was in excruciating pain for days.

10. How has your abortion affected others in your life?

My second child, Nicole grew up in a divorced home due to the abortion. I became pregnant with her three years later and divorced her father after he asked me "what was I going to do about it (pregnancy with her)?" I told him I was having a baby with or without him. My husband of an 18 year marriage is aware. I told him before we were married. He's lived through the pain of this with me. I've taken anti-depressants, abused alcohol because of it.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to have the child and give it up for adoption or to seriously consider keeping it. So many

people can't have children on their own. Then at least good would come out of it and she would know she gave a child life and a chance. I would tell them about my hurt and depression. And I have shared my experience with a few others on a very personal level.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I know because I've done the research and it's a subject very close to my heart. Less than 3-5% of all pregnancies are due to rape and incest. I believe ONLY in those cases should it be legal...BUT at the very least...clinics should give women the facts and alternatives and treat them with kindness. I was so afraid. I know that many women treat abortion as birth control which is so very wrong. I also know I've never met a women who didn't regret or wasn't saddened by having gone through with one.

My name is Shelley I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Pomona CA

10/19/1987

2. How many weeks pregnant were you?

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not given any information about the procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told it was "no big deal".

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

The abortion affected many areas of my life. I went through periods of depression. After many years, I realized that the times I was depressed were around the time of year I had the abortion or when my baby would have been born. It affected my relationship with my husband. I met him after the abortion, and had a lot of anger, guilt and shame for what I did. It affected how I mothered my children. I was EXTREAMLY over-protective. I felt like I did not do my job protecting my first child, I was not going to let anything happen to my other children. I feared God would allow something to happen to my children to punish me for what I did. Thankfully, I finally realized that is not Who God is. He is a loving and forgiving God who wants me to walk in His love and forgiveness, not fear.

10. How has your abortion affected others in your life?

It affected my husband and my children

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT! The emotional pain is life-long. Giving your child life is a selfless gift. Abortion is not a quick fix. It is a way of trying to cover one "problem" that only leads to other problems.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

We, as women, have been told for so long it is our body we have the right to choose. However, we are not told everything that goes along with that choice. We are not told the emotional trauma that we will deal with. I have friends that had complications from their abortions and have not been able to have children. They were never told the child they were aborting might be their only chance at being a mom. I have cried with them and seen their deep suffering as a result of abortion. Those that believe abortion is good thing for women have not sat down and talked to post-abortive women over a long period of time. I don't mean right after the abortion. I mean 2 years, 5 years, 10-20 years later. We have hurting women all over this county that believed the lie that abortion was a good choice.

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not informed of much. I was under the impression that the baby was not really formed at this point. Just still a bunch of cells.

5. Were you adequately informed of the consequences of abortion?

Yes No

Only made aware that I would no longer be pregnant

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I had a fear that I would not be able to become pregnant. Once I did become pregnant and saw an ultrasound of what a fetus looked like at 14 weeks I was devastated to know what I had actually done all those years ago. Now I live with the knowledge that I am responsible for taking a life.

10. How has your abortion affected others in your life?

No one knows

11. Based upon your experience, what would you tell a woman considering abortion?

There are so many people who want to adopt children I can't see abortion as an option. It will haunt you for the rest of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Even in the most extreme cases of rape I believe a woman will live with regret and heartache over taking the life of an innocent child.

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

No Answer

9. How has abortion affected you?

I spent years with severe depression, unable to contact emotionally with anyone, was withdrawn and emotionally isolated from family and friends. Went into therapy

10. How has your abortion affected others in your life?

Unable to have quality relationships with me.

11. Based upon your experience, what would you tell a woman considering abortion?

That it is not a "simple" procedure but a life-changing operation and that the ramifications linger on years, decades beyond it, impacting many facets of life--the physical, mental, emotional and spiritual.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Try it first!

HOW MY ABORTION AFFECTED ME

The State of TX

County of Tarrant

My name is Gale Payne. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Fort Worth TX

02/14/1983

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

???

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I just remember it being very cold, mechanical. The doctor seemed to be devoid of feeling. He spent maybe 2 minutes speaking to me before the procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

Consequences? NO ONE mentioned consequences. I personally found them out after the fact.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Our family physician

9. How has abortion affected you?

From the moment the doctor inserted whatever it was into me, something inside of me died. REALITY hit me! I had just allowed someone to murder my baby. There was no turning back. It was years before February could roll around that I wasn't a basket case. Crying for no reason, just the loss of my baby.

10. How has your abortion affected others in your life?

My children never had the relationship with this sibling. My son was hurt the most, he so longed for a brother. He to this day feels cheated.

11. Based upon your experience, what would you tell a woman considering abortion?

Think again. Even if you've been told the baby will most likely be born with MAJOR defect, THINK AGAIN. Abortion is murder and it kills more than just the child within you.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

There are so many people that long for a child, why must you take this opportunity away from them. Children today are abusing their babies because they've been taught by well meaning people that it is not a life. PLEASE, Stop and think about our children. You are sending them the wrong message. LIFE BEGINS AT CONCEPTION.

The State of TX

County of Williamson

My name is A P I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Leander TX

07/10/2007

2. How many weeks pregnant were you?

3

3. What type of abortion was performed?

Suction-aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has affected me a lot, I think about whether or not if I made a good choice every day, but for me it was something I had to do for myself, I was very young and had a lot going for me. I was with a guy who controlled me and made me feel like nothing. I know that my baby is in heaven with God and I know that I did not kill a human being.

10. How has your abortion affected others in your life?

When it first happened it affected my family and I but we have grown and have gotten through it and are now closer as a family.

11. Based upon your experience, what would you tell a woman considering abortion?

I don't know honestly. I had my abortion because there was no life, it was tissue. If there was an eye or a heartbeat I would have backed out.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe that an abortion is a woman's choice. I could not have a second or third trimester abortion, it was very difficult for me to have a first trimester abortion, but it was a choice I had to make. I don't

believe you should take a decision from a women.

My name is Lelar Phoenix. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Lubbock TX

12/18/1977

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was just told that I would not be pregnant anymore and could finish my education. Was not given any type of advise or counseling.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told that there might be reproductive problems in the future or I could have psychological problems.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I never married so therefore had only one child, the one I killed through abortion, he is in heaven with God.

10. How has your abortion affected others in your life?

Well I can't say as I never revealed I was pregnant to anyone but at the pregnancy clinic and the abortion clinic.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion is never an option when one is carrying a human life within their body. If one does not want to be a single mother, give the baby up for adoption to a loving home. Please, please don't kill this precious human life that God loves.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

It is as wrong to kill a human life growing inside a woman's body as it is to kill a human person that is outside the body. It is wrong to kill a person whether unborn or born. Human life is created by God not man and God is the one to decide who lives or dies. When man decides to be god himself and kills innocent life, the God of creation will have the last say ultimately.

8. Did anyone pressure you into having an abortion?

Yes No

my boy"friend"

9. How has abortion affected you?

oh gosh. I went through the worst depression in my life: I stopped eating; I walked at night around the campus singing and crying; I separated from all friends and family. If Wanting to die could kill you - I would have died. I felt as though my insides were completely empty of all life and love. I lost the most weight I have ever lost in the next month. I really don't know how I came out of this state.

10. How has your abortion affected others in your life?

I became a sidewalk counselor in Houston Texas for 2 yrs - once a week. I would tell other women, "Please don't do this thing." I am thankful that some turned around. I met one little baby later with her momma and it really helped me to heal. My kids know about it and I believe they are pro-life.

11. Based upon your experience, what would you tell a woman considering abortion?

Dont Do It. You will Not be better off. This will not make you happier - it will cause more problems instead of helping your life. I HATED my boyfriend after having an abortion. in my heart - all I could think

was "how could he want our baby to be killed?" So I say: Love yourself more than that; Have respect for your ability to bring new life into the world!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Do What Is Right... not What is expedient. Only God gives life and takes it." When you think you can make God's decisions, You will be judged by God in this life. Fear God from whom all laws proceed.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Randall

My name is L P. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Lubbock TX

04/11/1974

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

vaccuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I know that I was going to terminate a pregnancy. I had no knowledge of the nature until experiencing it. I was led to believe that it would be a simple procedure and over in a short length of time.

5. Were you adequately informed of the consequences of abortion?

Yes No

Abortion had only been "approved" by the federal government a year earlier, so, "No, no consequences were discussed, and probably none were known then."

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I know that I killed my little baby. I believe that "it" was my son. I have cried several times of the horrible thing that I done! Even 35 years later, I still cannot share with anyone what I've done. I, too, feel like I am a horrible individual. As soon as I left the abortion clinic in Lubbock I had to throw-up a huge flow. Two weeks later, I was dropping blood-clots as large as a softball. For two days it was constant. I went to the hospital. I had lost so much blood that I had to have a blood transfusion. I was allergic to something in the blood. I broke out in itching. The hospital gave me a shot to counteract the allergic reaction. Therefore, from the actual abortion (where the nurse had to continually stroke my hand, coax me with her words that "it will be alright," all the while I am crying -- not only because of the pain of pulling my baby loose from me, but futhermore the philosophical aspects of terminating my baby's life -- a lady cannot go through with that and not know that it is immoral; she knows!, plus, the doctor was cold, aloof, and it was only and all just a medical procedure to him), through all my adult years it has been nothing but BAD.

10. How has your abortion affected others in your life?

My two girls and husband know that it is extremely heart- wrenching to me that I had an abortion performed on me. They are sorry for me; they don't want me to be so hard on myself; they have compassion for me because they know that the way I look at it is that I took the life of one that I could've loved.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't. Even if you cannot raise the little one yourself, let some man and woman adopt your little one. It wouldn't be easy to give up the little one, but the baby will have life and your conscientious will be clean.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Unless you have been through an abortion yourself and unless, too, you've lived a long life after an abortion, you have no idea the implications that you have to sustain and carry. That is, of course, that you have a conscientious.

9. How has abortion affected you?

I have never "put it behind me". I now have other children and there is never a birthday or Christmas that passes that I don't wonder about my first child. I have a dark secret.

10. How has your abortion affected others in your life?

Very few people know about it.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT!!! YOU WILL REGRET IT!!! IT IS MURDER!!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is an abomination to God. It is never an option, regardless of the circumstances.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Collin

My name is Debra I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

St. Louis MO

//1992

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

I have no idea

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I took a home pregnancy test and then followed up at Planned Parenthood to confirm my pregnancy. My bouyfreind and I rented a 2 family flat in a not so great area of St. Louis. We didn't have much furniture, we had no bed. When I found out I was pregnant, they asked what I wanted to do. When I asked what options I had, abortion was the only one they mentioned. It sounded reasonable considering I was broke. I thought it would be "easier" than putting up for adoption.

5. Were you adequately informed of the consequences of abortion?

Yes No

The only consequence discussed was that after the procedure that I would have cramps for a couple of days and some bleeding. Nothing was ever mentioned about the sense of loss that would be ongoing to my entire life. Or the guilt.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

There was a sense of urgency.

9. How has abortion affected you?

I have felt guilt and a huge sense of loss of what my son or daughter may have been. And the secret that I have kept from my family. After 10 years of marriage I finally told my husband.

10. How has your abortion affected others in your life?

Depression!

11. Based upon your experience, what would you tell a woman considering abortion?

DON" T DO IT. pregnancy is forever, whether you abort, give up the baby for adoption, or keep it to raise

yourself. There are so many women who can't have children and by putting the child up for adoption, you are giving the gift of life to the new family and honoring God's gift as well. The psychological ramifications of aborting are so long lived, it's not worth even considering.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

No, it should not be legal. I recently received a planned parenthood propaganda literature in my mailbox. What was interesting is that it spoke out against laws in other countries that are against women, and how they are not allowed to abort legally so they have to go to shady places to abort. If they have complications that results in their death, lives are lost. Interesting, aren't more lives being lost by allowing abortion? Also, we pronounce someone as being dead if they have no heartbeat. If you can hear the heartbeat of your unborn child, doesn't that prove life? and by aborting, isn't that murder?

HOW MY ABORTION AFFECTED ME

The State of TX

County of Ellis

My name is Sharra Poteet. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

//1981

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction Aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Even though I had other children, I was young and uneducated about the actual child or procedure or that there would be lingering effects long after the abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

Not counseled, no sonogram, etc.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I thought I was healed because I was a Christian. Even though I was a Christian at the time of the abortion. I knew that God forgave me but I did not realize for these almost 30 years that my character had been shaped by the experience.

10. How has your abortion affected others in your life?

I do not know directly, but I suspect that my relationship with my next two husbands after the abortion were not pleasant for them. I have been married to my husband now for 22 years. Rocky at times. God has taken that mistake and turned it to His glory. I am now Director of a Pregnancy Center in Ennis, Texas. I use every day the gift of forgiveness that was extended me on the cross. I am preparing to facilitate Post Abortion Recovery Ministry wherever God leads.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not think that it is a good plan for your personal survival. It is any thing but survival. You can choke it back but you can not digest it. It effects everything you do, good and bad.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is not legal in heaven. Making it legal on earth gives some sort of validity to it. The courts seem to believe that it does not become a matter of murder then, it becomes a matter of "choice". We DO NOT have a choice to murder. The blood of the innocent are on our hands and more personally I am a murderer. If it would have been difficult for me to get an abortion I would not have gotten it. If I would have been educated on abortion, I would not have gotten it.

01//1979

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that it was a blob of tissue. I was told that everything would be fine as soon as I had the abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had NO idea that there would be any consequences. After all, it was not a baby yet, right? It was also legal, so that would not be a consequence. And since my country made it legal, it must be a good medical option.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I had a nervous break down the following year after my abortion. I was suicidal and had developed the inability to bond with my other children. I had been adopted as an infant and was so thankful for that blessing so I could not understand why I was in this deep depression. Wouldn't I only be depressed if I had had a horrible life? Just before my abortion I had gone through a divorce, so I blamed the divorce for my feelings. I blamed the married man that I had an affair with and had become pregnant with. I was very soon hospitalized for 1 month and during that stay, the doctors suggested shock therapy. I went up to the hour of the first shock treatment but could not go on with it. I was determined to get out of the hospital and get on with my life as a single mother of 3 girls. But I would become even more sexually promiscuous than I was before. I had done something that I had not even thought of when I found myself pregnant at 15 years old, or even at 17 or 19 or 21. Why had I done this now? I had been raised by loving, christian adoptive parents. I had everything. I had been raised an only child with so much love

poured out on me. I loved God and accepted him as Lord of my life at 9 years old. What was going on now?

10. How has your abortion affected others in your life?

My little girls became collateral damage. I did not have the courage to ever tell my father before he died, although when I told my mom about 1 year ago, she said that she and daddy already knew. That they knew when I was hospitalized those so many years ago. I am sure now that they were praying in the gap for me. I married for a second time and had another little girl. That delivery was difficult. The others had been easy deliveries before the abortion. That marriage ended after a brief period of time. I am now married for the third time and have shared with my husband and children about the abortion. We have been married for 24 years but it has been difficult. I used sex for many years as a bar for how much he loved me. Everything always went back to sex for me. After all, I had murdered, why not just go ahead and do whatever. I thought that God had left me on that abortion day and would never use me as I had hoped He would when I was a young child and gave my life to Him.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion hurts women. Abortion hurts families. Abortion hurts communities. Abortion hurts the world. Abortion is not the answer to a crisis pregnancy for the crisis will not end after the pregnancy does. Pro-life is not a political tag-line, it is a Biblical truth! Don't spend the rest of your life devastated by the emotional, physical, spiritual and psychological fall-out of an abortion. You have within your body a unique, priceless, baby designed by God for a divine purpose. Jeremiah 29:11 tells us that God has a plan for our lives. For hope and a future. Don't end the future of your God-planned baby in a quest to just "move on" because you will do anything but "move on". God, the great physician, knows what you are facing and promises to never leave you alone. So He will not.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Our government was formed on Judeo-Christian values. We cannot ignore that murder is wrong, for we find it over and over in the Word. We know that our constitution was written based on the Word and no one has the right to change that. Just because something is legal on earth, does not mean that it is legal in heaven. Abortion hurts women. Abortion hurt me. It hurts families. It divides communities as post-abortion women try to be whole citizens. It has and will continue to devastate our nation and it ultimately affects our world. Why would you intentionally bring about devastation ?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I visited Planned Parenthood, explained what I was there for & was told I would be called. I went with the nurse when called, told to remove my pants & underwear, lay on the table & wait for the doctor.

5. Were you adequately informed of the consequences of abortion?

Yes No

Going to the abortion clinic was like going to a doctor for a cold. Very cold, matter of fact, and no -- no one told me of any health or emotional consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

I pressured myself.

9. How has abortion affected you?

It's been 36 years & feels like it happened yesterday. I have never been able to discuss what I did & never feel as though I will ever be able to forgive myself for what I did. It's a weight that never leaves my soul.

10. How has your abortion affected others in your life?

I am always ashamed of what I did. This affects others in my life by their wife, mother, and daughter not being the person who doesn't live with the weight of killing her child.

11. Based upon your experience, what would you tell a woman considering abortion?

I would beg her not to do this. She will live the horror story that will become her life forever. The guilt & shame NEVER leaves.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

The judges may not know what a woman who has done this feels. Please know that the guilt & shame is horrendous. It is a sentence worse than can be comprehended.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Bexar

My name is S P I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Pittsburgh PA

11//1977

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

Vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I went to Planned Parenthood and was counseled that abortion was safe and I would recover quickly. I was told that the fetus was not a living being but a cluster of cells that did not yet mean anything. I wasn't given a chance to ask questions and was quickly whisked away to the room for the procedure to be performed.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told that there would be ANY consequences ... physical or emotional.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend and the Planned Parenthood staff

9. How has abortion affected you?

It ruined my relationship with the father of my baby and we called off our wedding. I have had trouble with subsequent pregnancies and have had 2 live births and at least 8 miscarriages (I was told by a dr that the abortion messed up the inside of my womb making it hard for a fertilized egg to attach). I became very depressed and withdrawn, got caught up in a life of promiscuity (thinking that all men wanted sex because when I arrived home after the abortion and wouldn't allow my boyfriend to touch me, he raped me while I was still bleeding and sore). I have not been able to sustain a meaningful, loving relationship and have had commitment and intimacy issues. I have grieved the loss of my child and label myself (and anyone else who aborts a child WHO IS A LIVING BEING ... no matter what Planned Parenthood or any other agency/individual says) a murderer. There's no way to sugar-coat it. ABORTION IS MURDER and the victim is as innocent as they come.

10. How has your abortion affected others in your life?

2 marriages have failed because I am no longer able to be intimate. My 2 daughters have had to deal with my depression and anxiety issues caused by my abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

Do NOT let anyone talk you into it. It is NOT a woman's right to "Play God" and decide whether or not a life is worthy of being brought into this world. If God created that life (no matter the circumstances), it IS worthwhile. If you can't or choose not to raise the child, then give it up for adoption. How would you feel if your parent had decided to murder you????? Abortion is a selfish, temporary "fix" that will only lead to a lifetime of hatred towards yourself and misery.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Courts do NOT have the right to decide that something God ordained and created does not have the right to existence. A fetus IS a living being ... life begins at the point of conception. Don't let the loud voices of the "bullies" push you into making abortion legal. Listen to the women who have been there ... not the ones who think they know better without any personal experience.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Harris

My name is Mary I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Katy TX

//1983

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

2 day procedure / 1st day was overnight dilation and then I don't know what they did the next day

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They don't go into specific detail, I think that would scare you and you would back out. I also was not allowed to see the screen during the ultrasound and they did not share the results with me. The pain I endured from the time the dilation began and then through the actual procedure was alarming and VERY unexpected

5. Were you adequately informed of the consequences of abortion?

Yes No

I knew I was taking some kind of medical risks, but there is no info about the emotional consequences / no counseling offered. I was young and ill equipped to really know what I was doing

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Nurses don't give info that would change your mind

9. How has abortion affected you?

I have relived my decision and what I remember about that day constantly. I can't seem to forgive myself for murdering my baby.

10. How has your abortion affected others in your life?

My family that found out were devastated. It has also caused us to keep life-long secrets because of shame.

11. Based upon your experience, what would you tell a woman considering abortion?

1. Don't do it 2. Get an ultrasound (and see the baby) 3. Receive counseling up front / talk to someone who has made that decision that she must live with forever 4. Know all of the information and options

available

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Why is that we can be fined or jailed for destroying specific wildlife, yet we can freely murder human beings. If a destroyed eagle egg represents inhibited life and requires a steep consequence, why is it not an outrage to take human life in its beginning forms? People in crisis situations, do not generally make good decisions based on research, logic and/or counsel. Women, young and old must receive proper advice and knowledge regarding abortion. This is not just a physical situation that can be detrimental, but also one of social, emotional and spiritual issues that last a lifetime. Murder "is not legal" This is murder.

my mother

9. How has abortion affected you?

I am a mother of two now. It is awful knowing that I should have four children, but I chose to murder my first two. I have carried emotional baggage with me for years. Thankfully, I attended a recovery program and have been able to let it all go.

10. How has your abortion affected others in your life?

It has been a source of stress in my marriage. Also, my mom feels horrible for making me have my abortions. (I had two abortions one year apart -- Jan 2001 and Jan 2002)

11. Based upon your experience, what would you tell a woman considering abortion?

Get all of the information you can. Do not let ANYONE force you into having one. Know that this is something you can't take back. Abortion is murder.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Well, I am a Christian, so I believe that life begins at conception. As someone who has been through it, I think they ought to know about the emotional and physical consequences.

QUESTIONS

1. Where and when did your abortion occur?

//1980

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I went in and they told me how long the abortion would take and what to expect afterwards. No information was given other than those items geared towards the abortion. No post-abortion effects, no ultrasound,

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

For many years, I felt pretty worthless. I felt like I was always hiding a 'secret' and didn't want anyone to know what I had done. I felt dirty and ugly. I don't think life really mattered much anymore.

10. How has your abortion affected others in your life?

The father was distraught - he wanted the baby, but I didn't tell him until after I had the abortion. We ended our relationship.

11. Based upon your experience, what would you tell a woman considering abortion?

Please talk to someone about it that has been through one already. Talk to them and listen to what will happen to you in the future if you do this. Know that God is the only Creator of Life. He created this baby for a special reason although we think it would be better to 'kill it', God will use him/her for a very special purpose.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Talk to someone who has had an abortion and then you will see that it is not the right solution to make it legal. The life of the child and the life of the mother are at 'stake' here. It is not the 'choice' of the mother only....the child cannot speak yet, but if they could, they would say, "I didn't do anything wrong. Why do you want to kill me." The man and the woman had sex, not the child.

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

suction aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was lead to believe that the baby was not a living creature. There was no life in the child. I was only told how simple, quick and easy the procedure was.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was only given forms to fill out of my medical history and legal forms to sign so I could not sue the hospital if there was any complications. I still have no clue today.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

After my abortion, I told myself that I was better off without a child to raise at my young age. I'd rather of had the abortion than half to tell my parents that I wasn't a virgin anymore and that I was pregnant. Now that I am older, I know how abortion is and I mourn for that baby that I never had and I get angry at myself and I can't even believe that I did such a thing. I regret not being stronger.

10. How has your abortion affected others in your life?

My husband now was the father of that baby and he truly regrets it also.

11. Based upon your experience, what would you tell a woman considering abortion?

I would never encourage another woman to have any abortion. There is always help around if you really need it. Just have to believe the Lord will provide and that there is a reason for every child in this world.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I would tell them they are murdering innocent children that cannot defend themselves. Even though they are not performing the act, they are still responsible for all the lives lost because of their decision.

QUESTIONS

1. Where and when did your abortion occur?

Providence RI

//1986

2. How many weeks pregnant were you?

20

3. What type of abortion was performed?

Don't remember.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Because I was so far along in my pregnancy I had to have some sort of clamp attached to my uterus approximately 24-48 hours before the abortion. I know now what type of abortion it must have been, but at the time no details were given to me.

5. Were you adequately informed of the consequences of abortion?

Yes No

No explanation was given in reference to the physical pain I would be in, the possible inability to have children later in life, or the development of the baby at that point.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Whenever I think of the life that I extinguished so callously I cry because I realize that that baby had no one to protect him/her but me and I was the reason for his/her death. I also feel ashamed of what God must have thought of me at that time.

10. How has your abortion affected others in your life?

I have a son who is now 20 years old, and I was too ashamed to tell him that I had aborted 2 children previously before he was born. That secret, I feel, kept me from being close to my son.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that that baby she is carrying has no one in the world to defend him/her but you and even if she is not ready to be a mother she can give that gift of life to a family that wants to love a child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That a pre-born child is not less of a person because he cannot defend him/herself. All people at different times in their lives and for various reasons need for others to defend them; to ensure that they are protected from those that would do them harm.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Bexar

My name is Margaret Rice. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Kansas City MO

01/15/1970

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was in college - young and very uninformed. The ObGyn I went to explained nothing about the procedure. He said only that he knew a Board certified, practicing ObGyn in Kansas City who would "take care" of me. Even on meeting the ObGyn in Kansas City, I was told nothing except that I would be given "something to relax" me first before the doctor administered the anesthesia. I was told the whole procedure would be quick. I was also told that as soon as I recovered, that a taxi would be called to take me back to the KC airport so I could return to Colorado. That was my first abortion. I didn't receive any more information when I went to abort my second child. By the second abortion, I was very clear that I was killing a living person.

5. Were you adequately informed of the consequences of abortion?

Yes No

When I aborted my first child, I had no idea that I would experience the level of guilt I experienced. I didn't understand why I began to drink more nor did I understand why I became more promiscuous. Only in retrospect can I understand that my destructive behaviors were tied to an attempt to obliterate my guilt. The reaction to the second abortion was very different. I was a professing Christian (accepted Christ 6 years before the second abortion). I confessed the abortion for what it was - a sin. I did not experience the forgiveness I knew God could extend. Within 3 months of the second abortion, I had decided to kill myself. I met someone about the same time who told me about Post-Abortion Counseling and Education (PACE). That person loved me into, prayed me into, and hassled me into PACE. That person and the PACE Bible Study are the reasons I am alive today.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father of each child.

9. How has abortion affected you?

I have lost a part of me. It is harder for me to trust people in general and men in particular. I find it hard to establish and maintain relationships at an emotional level. After the second abortion, I would burst into tears when I saw a baby. I remember when each child would have been born and sometimes experience a "down" around the date each baby would have been born.

10. How has your abortion affected others in your life?

I think it impacted my marriage and was a contributing factor to my divorce. The second abortion damaged the relationship with my sister and we didn't talk for 7 years.

11. Based upon your experience, what would you tell a woman considering abortion?

Carry. Trust God. Go to a Pregnancy Care Center (Crisis Pregnancy Center). There is help. There is encouragement. There are people there who care about YOU and care about your baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Roe v Wade and Doe v Bolton are an abomination. That law has broken hearts, psyches, and families. Legal does not equal either moral or right. I wish the law could be overturned. I wish for an informed consent law - a law that would require a sonogram before an abortion would be performed, that would require a 24-hour waiting period, and would require the woman contemplating abortion to talk to someone like me about my experience. I have made many bad choices in my life. My abortions were two of my worst decisions.

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed of the hemorrhaging that pursued. I bled for a solid month after this procedure. The abdominal pains was horrendous.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Desperation Shame Unable to trust my own decisions I have only recently repented for the murder of my unborn children. I have had 2 abortions. The horrific details of murder of innocent babies is never anything that is acceptable-- under any circumstance. I am a pro life woman who is radical to save the unborn.

10. How has your abortion affected others in your life?

Unconfessed sin always affects us negatively whether we can put words to it or not. I am not able to verbalize effectively the answer to this question.

11. Based upon your experience, what would you tell a woman considering abortion?

I would encourage her to come live with me and I would mentor her through her pregnancy and help her care for the baby. Pregnancy is not a lethal life threatening disease.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is so deceptive -- while it seems to "get rid of a problem ". The problem is really in taking responsibility for one's actions. While I agree innocence should not have to suffer for the "mistakes". Yet no "One" is a mistake. Instead of killing the baby and funding sin --Put the funds toward rearing the child... LOVE of a child is still the reward. The only answer.

I was an OR nurse and I scrubbed on many abortions. Being told that I was not to blame for the fact these women aborted their babies..and Was not even remotely connected..Until one day a doctor I scrubbed with was not truthful about the age of the "fetus" and we suctioned arms and legs into the suction..I had the most reality check a christian woman could ever have..The "evidence" went to the lab..I knew at that moment I could not be part of that any longer..My only wish was ..Why does no one tell the girls just what they will feel years later..as I know they do..because i feel very sad over my actions of just being a participant..How can it not affect them? I ask God to forgive me..everyday..And thank Him for making me understand..How I wish someone was strong enough to explain to each young lady just what they are doing to their soul..

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Smith

My name is Karen I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

11//1978

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

curettage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told that a baby was being aborted. I was told that it was not yet a baby.

5. Were you adequately informed of the consequences of abortion?

Yes No

I signed a consent form that listed hemorrhaging as the only consequence. I was not told about potential future infertility, link to breast cancer, link to ectopic pregnancies. I was not told about any psychological trauma consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I had a ruptured ectopic pregnancy in 1986 and almost bled to death. My OB/GYN said that the tubal was most likely caused by the scar tissue that had developed as a result of the abortion 8 years earlier. I have experienced rage, guilt, fear and shame.

10. How has your abortion affected others in your life?

My parents, siblings, and husband have been at a loss as to how to help me get over the rage, guilt, fear and shame.

11. Based upon your experience, what would you tell a woman considering abortion?

It is a 15-30 minute procedure that she will spend the rest of her lifetime recovering from. You can 'cover up' your pregnancy with an abortion but you will spend the rest of your life covering up the 'cover up'.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

The physical and psychological damage to women by abortion is far worse than the physical and psychological damage that might occur due to the pregnancy.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Bexar

My name is Betty Martinez Rivera. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Antonio TX

07/20/1978

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

vaginal extraction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I remember distinctly, the nurse told me "don't worry honey at this point it is just tissue"

5. Were you adequately informed of the consequences of abortion?

Yes No

The process was just that, like an assembly line in and out, no counseling no form of consultation as to what I would be going thru during the abortion or what the abortion consisted of. If I knew then what I know now, I wish they would have offered a sonogram so I would have seen for myself my pregnancy was a living child with a heart was beating, a child that could move with tiny arms legs and a body with a face and a brain. If I had been properly enlightened and educated, I would not have killed my child. I will never ever be complete again. Now I know what I have done.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The people at reproductive services

9. How has abortion affected you?

Depression, Sexual Dysfunction, Eating disorder, Thoughts of suicide, Nightmares, problems with relationships and intimacy, lack of trust, rheumatoid arthritis.

10. How has your abortion affected others in your life?

I was an overbearing and protective mother, I was terrified something would happen to my children as a punishment for what I had done years ago. I always felt very inadequate as a mother and wife in general as a person, I never forgave myself. My children suffered because of my depression. Neither my husband or I knew or understood the root of my problem.

11. Based upon your experience, what would you tell a woman considering abortion?

You are carrying a life inside you, don't end your child's life. If you think you are erasing a problem you are wrong. You are not only taking a child's life you are also taking yours, you will never ever be the same, your wound will never be healed. If I knew then what I know now I know my life would be complete and instead of 2 children I would have 5 children, you see I suffered 2 abortions and one miscarriage and I blame my miscarriage on my previous abortions I am not complete without all my children and neither will you be if you destroy the heart that beats within your child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Our country was based on a person's inalienable right to Life liberty and the pursuit of happiness. Through deception and lack of responsibility not only was my right of Life and happiness destroyed but also the right for my children to have the opportunity to live and grow to their potential was robbed. Robbed by a judicial system which was created to stand for justice. There is no justice at how my country failed to protect my children's rights as living breathing human beings and my rights as a woman. Each and everyday our judicial system fails to act in Truth betrays a beating heart and the Mother who bears the child in her womb. As a U.S. citizen my judicial system has failed us when they fail to uphold and defend the Truth of Life at the moment of conception and allow doctors and nurses to continue to deceive and destroy women's lives. Unless there is a stop to this daily termination of sacred lives this judicial system will have to some day be accountable to a higher power and only then will this judicial system know the ramifications from the core of their being the essence of TRUTH and the reality of the root of their deception and lack of responsibility. If you are not a believer, you will be when you face your final judgement. May God have mercy on each and every one of you who has willingly promoted the destruction of countless of lives like that of my children and mine.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Harris

My name is J R I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Ann Arbor MI

//1988

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Called it just "tissue," not baby, though when I asked to see the ultrasound they did, so they could find "it" in order to do the procedure, they told me NO, that seeing "it" would upset me. If it was just a blob of tissue at 8 weeks then why would seeing an ultrasound of it be upsetting?!?

5. Were you adequately informed of the consequences of abortion?

Yes No

Didn't say there could be lifelong results, just said to come back if I bled past a certain number of days. They also warned me to be careful who I told in the future, that not everyone would understand about my "decision." What other people thought was the LAST worry I had so I didn't know why they even mentioned it. It seemed like they were saying that only the negative comments from OTHERS about aborting my child would hurt me, not having to live with MYSELF and what I thought about it for the rest of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Physically, have had problems as a result. Emotionally, I've never forgotten that I could have had a child born at that time, wondering if I'll see he/she in Heaven, wondering what I'll tell my children now if they find out or if I should just tell them anyway. Wishing I'd had the courage to place the child for adoption, being adopted myself, etc.

10. How has your abortion affected others in your life?

Kept it a secret from my parents, and had to tell them later. Hurt them deeply that I went through it

alone, that I felt that I couldn't tell them, that I needed them so much at that time and I didn't let them help me through it. And they grieve that I have to live with my decision forever, knowing how much I love and value the children I have now.

11. Based upon your experience, what would you tell a woman considering abortion?

That abortion is the taking of a human life, and that the industry is well aware of that and choose to disregard that fact. That a woman's right to choose means parenting themselves or placing for adoption, not just the choice to have the pregnancy aborted artificially. The fact that the life of the unborn child DID exist and that the woman WAS a mother doesn't go away when the pregnancy is terminated. Neither do the memories, and they aren't pleasant.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Life is life. Abortion likely wouldn't be legal if everyone admitted that it is the taking of a life, however young or yet undeveloped it may be. When you plan to become pregnant and WANT to be a parent you don't see the young, rapidly developing fetus as any less your child, or love it any less than you do when it's full term or nearly so. You just love it as your growing, maturing child. These maternal instincts exist even when you DON'T want the child or to be a mother at that time. Suppressing them, and the fact that your unborn child is a living human with a heartbeat, is difficult if not impossible. I'd ask them if they'd legalize abortion if THEY themselves were the developing fetus who's life hung in the balance! If they WEREN't a human life then then they couldn't really be making that decision now, and they'd have never existed outside of the womb.

QUESTIONS

1. Where and when did your abortion occur?

Houston TX

12/23/1963

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

Vaginal

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I didn't know that depression, and my inability to ever have children again was going to be the consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents

9. How has abortion affected you?

I was 16 at the time. I remember telling the nurse that I had changed my mind and I didn't want to go through with it and they sedated me anyway. I remember crying and telling them I don't want to do this and they kept telling me the medicine is going to kick in soon. I was given more meds and than strapped down to the table. I felt everything and I screamed through the entire procedure I don't want to do this, I don't want to do this. I felt every aspect of the procedure the medication never worked. From 16 to 20 I had to have multiple surgeries to repair the damage caused by that decision. I had a miscarriage at eighteen and I was told at 20 that I would never be able to carry a child and that I would have to have a hysterectomy. I have tried to commit suicide several times. I have been depressed and unable to function as a whole person since. I have never recovered and you would think that at the age of 45 that I would have gotten over this experience and moved on by now, but I carry my loss with me. It has wrecked my life and almost wrecked my marriage. Something that wasn't my decision or choice was thrust upon me and I have to continue to suffer the consequences for it. All I ever wanted to be in my life was a mother and that was stolen from me by my parents and the doctor that decided that this

was best for me..

10. How has your abortion affected others in your life?

My parents feel great remorse for what they forced me to do and the ultimate consequences after it. My husband has had to endure my constant crying when I am around new babies, my nightmares of the abortion itself. He has had to sit by me in the hospitals, the suicide attempts. My siblings feel guilt because they have children and I don't. The worst is when people come over with kids and they say that I would be a great mother, and than I am lost all over again.

11. Based upon your experience, what would you tell a woman considering abortion?

There are too many people out there that would love to give your child a home with lots of love, they do not tell you that the possibility of never being able to have children isn't ever mentioned. That a convenient decision can and will haunt you for the rest of your life, and that God created that child and that child reserves to be born.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them to listen to what women who have been through the abortion and their consequences since, now imagine your family member scared and alone making this decision, do you want that family member (wife, daughter, granddaughter, niece, sister) to have to live with the consequences like the rest of us (unable to ever bear children, depression, suicide, etc.) because a panel of people think that they know what is best. People even your families make mistakes and there are better solutions than murder to resolve an unwanted pregnancy. If I would have had the baby my life would have been different, I would have either raised it myself or given it up for adoption, but I wouldn't have had to have surgery every few months and ultimately had to have a hysterectomy. I would now be raising my own children. Please think of this decision as if you were dealing with it on a personal level, watch a video of the abortion itself and see how invasive it is. Think about you or your family member laying there scared to death young and alone in there, and now think about that person destroyed by that decision. There are a lot more of us out there than you know about....

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that it was a procedure that would not take long and it was painless.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told that i would cause long lasting effects. I had no idea that i would hurt so bad emotionally from it.

parents

9. How has abortion affected you?

I have have been suffering with chronic pelvic pain every since i had the procedure done. I am no longer able to have children and emotionally I suffer everytime that date comes around knowing what i did.

10. How has your abortion affected others in your life?

My parents act like it never happend they have no idea how I suffer. I have never told anyone about what I did.

11. Based upon your experience, what would you tell a woman considering abortion?

They need to know that it causes life long problems and is a very painful procedure even though they tell its not. It will be a decision they will have to live with for the rest of there life. The physical and emotional pain may never go away. There are other options besides abortion a baby should not have to die because of what the mother has done. Even if women think they can have children later in life they might not be able to a side effect of aboriton is becoming sterile it happened to me.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I don't think it should be legal it hurts women in so many ways that noone will ever know. They can't feel our pain and there not the ones that have to lay on a table and know that there baby is bein taken out of them. The Dr. does not fully put you to sleep I can remember everything that the Dr. did to me i will never forget. God never makes mistakes so why should the baby have to suffer for what the mother did. There are other options besides abortion. The physical and emotional stess may never go away and people need to know that.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Guadalupe

My name is Irene I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Sacramento CA

//1971

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

not sure...suction curettage, D & C? They called it a "therapeutic" abortion.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They called it a blob of tissue; I didn't realize I was killing a baby, my baby.

5. Were you adequately informed of the consequences of abortion?

Yes No

They didn't tell me it could possibly mean I would never get pregnant again. Nor was I informed of the emotional pain I would experience...pain lasting 38 years.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I stuffed the emotional pain for many years, which resulted in deep depression, rage, nightmares, and shame of what I had done. It was a dirty secret I stuffed deep down inside. When I reached a point of accepting God's forgiveness, I still had a hard time forgiving myself. Once I could forgive myself, it took much spiritual work and Bible study to receive complete healing and restoration.

10. How has your abortion affected others in your life?

I took away a baby brother to my only birth child and a grandchild for my parents.

11. Based upon your experience, what would you tell a woman considering abortion?

That she understand that the act of abortion is really taking the life of her child, a child who will never experience the joy of life and be able to contribute to this world. I would encourage her to give life to this child and consider an adoption plan so that parents who so desperately desire a child can adopt hers. I would tell her about open and semi-open adoptions where she can have a choice in the adoptive parents and even some contact with her child. I would tell her that she will experience emotional pain if

she goes through with the abortion; it may not happen in the weeks or months following the abortion; it may even take years but it will happen. I didn't know where my depression and rage came from until I went through a healing process.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is a lie that abortion is safe for the mother and it certainly is not safe for the life in the mother's womb. Over 51 million lives snuffed out in the womb since Roe v. Wade passed--lives that could have been contributing to our country--some of those would have been in their 30s now and many in their 20s. Even the "Roe" in Roe v Wade was deceived by Planned Parenthood and she is now pro-life. I would ask the justices to consider the eternal consequences of their decisions.

QUESTIONS

1. Where and when did your abortion occur?

Philadelphia PA

10/21/1977

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

saline

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had the abortion in a hospital. They just checked me in and when they were ready for me, they came to the lounge and took me to one of the exams room. The Dr. or nurse may hae told me what was going to happen, I cannot remember now. All I remember is putting on the gown, and getting preped for the procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no counseling, about the consequences of abortion. The whole the nurses and Dr. seemed to be cold and uncaring. I felt really wierd. Seemed like it was just another abortion procedure to them. They neer told me of the chances of hemorrhaging, of mabe becomeing sterile, the pain, both mentally or phsically.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have great remorse. I am terribly, terribly sorry I took my own child's life. I,ve asked God to forgive me. And I know He has, but when I started after years of ignoring what I had done, realizing that I done this horrible thing to my innocent baby, it took a while to forgive myself. I still cry at times and wonder was the baby a girl or boy. Then I remind myself that only satan condemns us. God sets us free.

10. How has your abortion affected others in your life?

I never told anyone for almost 30 years. I mentioned it to my sisters when we were discussing the pro and cons of abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't by no means do such a thing. At the time it seems like a great out, but it's not. You see, in the 70's, the Womens Libbers, said be free, get your careers going, don't let anythin or anyone stand in your way. YOU ARE WOMAN, LET THEM HEAR YOU ROAR!!! What a lie, what a lie. I fell for it. And, Oh, let's not forget the medicalprofession, phycoanyalist, telling women "Oh what's in your womb is just a blob of cells, nothing more. It's disposable just like a pamper, or trash. What a bald face lie. Tha's what Hitler believed and practiced, and we concider him to be a monster. Which is was. So, what are we as a civilized society, to practice such a hellish thing. I now have 3 children, which when I look at them, I am so blessed to have had them. I did not have their father around, but, I still had them. and I do not regret it. Was it hard raising them without their dad,yes, but I had a family that helped me, and most of all I had God. And even if you don't have family, you and your baby and God almighty makes you a majority, and a great family. You can make it. Thousands of women have all alone you can too. If you really want to. There are so many other alternitives to having abortion. NEVER ABORT A LIFE. THIS LIFE IS SO PRECIOUS.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

ABORTION SHOULD HAVE NEVER BEEN LEGALIZED, because it is the taking of a life. The unborn has a right to LIFE. IT IS NOT JUST A BLOB OF NOTHING, IT IS A HUMAN BEING. And, all the problems it brings the woman, mentally, emotionally, and physically. All these horrible side affects that latch on to women are not addressed. And that's a shame.

My name is Dion Ross. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

11/15/1997

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

not really sure , my boyfriends mom took me there,payed for it. sometype of vacume?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

i was barely talked to. i signed some papers,sat in the waiting room. was taken to the back where i was told it would be fairly quick was given some pretty intense pain medication, so strong i had to be guided and helped to the car later.the doctor told me i would feel a lot of pressure during the process. iwass very out of it, ireally dont even remember the rest of the day. he asked me later if i wanted to know the sex of the baby. i wanted to know but i said no. i didnt even know i was that far along that my baby had a sex yet. 1 was 17.

5. Were you adequately informed of the consequences of abortion?

Yes No

later i learned the stats of post abortive women when i was researching why not get an abotion for my little sister. i found that i was definately among those stats of depression,drug abuse, suicidel thoughts, high rate of car accidents(3 for me by age 24, my nickname was crash)

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

i dont want talk about it.

9. How has abortion affected you?

if it wasnt the deliverence Jesus provided for me from drug addiction, i would have done committed suicide already. i know this because i was consumed by suicidel thoughts, if i hadnt submitted to the Lord at that time i would have succumbed to the destroyer.it breaks my heart to know of all the women in bondage right now, and i pray for their chains to be broken and to be healed by our Lord Jesus.

10. How has your abortion affected others in your life?

my boyfriend at the time and i actually married the following year. we had 2 more children who know of their little brother who is in heaven waiting to reunite with us. yes, him. my husband was told that day long ago that it was a boy. my eldest, David was supposed to have an older brother to love & guide him. his personality reflects one of a middle child more so even though he never had his older brother. we have been married for nearly 14 years happily, but only because of the forgiveness of our sins by the blood Jesus shed & by the grace of God. i think of our forsaken child often with much sadness, then a short while later with joy knowing i will embrace him at the gates of heaven.

11. Based upon your experience, what would you tell a woman considering abortion?

please dont do this, you will wish for the rest of your life it hadnt happened. it will mess you up in more ways than you would ever like to know. this is a precious life, a gift from God who is weaving this child together in your womb. a child he has chosen for you, who is apart of you. if anything else at least allow the baby to be born and adopted for someone else to love. abortion is murder.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

abortion is murder. face to face counseling should be mandatory prior to abortion. 2 sessions, the 1st 1 week or so prior and the 2nd 2 days before the procedure. also 3 d sonograms telling details of the baby's growth and development. this should be viewed possibly at the 2nd counseling session and discussed. the counselor should ask questions to the patient to clarify her understanding of the sonogram, procedure, risks, psychological effects, etc.. the counselor should be compassionate and present the facts equally and not taking away from pro-life and not endorsing abortion either. the ultimate goal is dramatic decrease in abortion. consider properly trained volunteers as counsellors. maybe have one facility per county or tri-county area that is manned with capable volunteer counsellors. this facility's expenses should be paid for by a fee per client by the abortion clinic, and by private donations and grants. this could work if we are all really serious about this problem. most women are in such a state of distress when they go into a clinic they aren't thinking clearly. counselling will bring them face to face with both sides of their situation.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Brazoria

My name is Jennifer Samora. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Houston TX

11/09/1996

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

I don't know.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I tried very hard not to think about what I was doing. Nobody told me it was already a baby, or that they would take the baby out in pieces.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was informed of my choices, but I was never informed of the long lasting psychological effects. Nor was I informed of the pain I was inflicting on my baby.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I regret my decision. I pray that God forgives me for taking my little baby's life. I so wish I'd been made to wait and consider my choice longer.

10. How has your abortion affected others in your life?

My husband and I don't talk about it....not even after 13 years. Everyone that knows just tries to pretend that it never happened.

11. Based upon your experience, what would you tell a woman considering abortion?

I would definitely advise her to wait and use the time to research the true consequences and also the stories of other women that have undergone the procedure.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I can't advise that abortion should be legal. There are lasting psychological consequences to the mother and a baby that already has a soul is killed. At the very, very least, there should be some sort of enforced waiting period before a woman that seeks abortion is able to receive one.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Dallas

My name is Jill I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

09//1987

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

d and c, I was awake and given valium

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was given a sonogram. I reached out for the picture and the nurse pulled it away. I had no idea that the pregnancy was a fully formed baby. I thought it was a ball of cells.

5. Were you adequately informed of the consequences of abortion?

Yes No

I did not know that I was far along enough to have a fully developed baby. I thought it was a ball of cells. The nurse would not let me see the sonogram. The emotional consequences of finding out later, that a baby was scraped apart inside of me, fill me (and my husband) with rage and sorrow to this day.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The doctor. I asked him to stop.

9. How has abortion affected you?

I cry about it over and over again. For years I didn't understand the connection between my abortion and my depression. Now I realize I was suffering from post-traumatic stress syndrome. I continue to have deep depression every year at the due date of that terminated pregnancy.

10. How has your abortion affected others in your life?

I married the father of the aborted child. We suffer together. My parents found out years later and it hurts them tremendously, that I had to go through that alone. I think how my children are missing an older sibling, the cousins the same age are missing a cousin, So much is lost. All of this pain and loss is on my shoulders, since it was my choice.

11. Based upon your experience, what would you tell a woman considering abortion?

Please. Please. Please. DON'T any solution is better than abortion. Please read everything you can about abortion first. Look at pictures of the procedure. Learn exactly what is going to happen to the child inside you and you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

To many people, legal means ok. Abortion is NOT at all OK. It's a full of long-lasting emotional devastation for the family and society.

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

vaccuum scrape

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

part of question 9 and its hard for me to get close to her without seeing that my other babie could have been enjoying this wondering life as she does. i felt like it wasnt fair. its not fair that she went out the way she did and here i am having another babie. why couldnt she have this chance. i was afraid in heaven she was hating me for letting my babie girl jaslene live and not her.god please let me know she is ok. she is taken care of and that she doesnt hate me but forgives me. i brought live into my living daughter because i felt like her soul was givin a second chance by god and brought back down to me which is now the babie girl that i have now. i love her and miss her everyday and every part of me wish i can have some way i could have properly burried her. let her soul to rest with the earth instead of sitiin in a lab then thrown in a bio hazard bag. i jus wish on god i can have a way to put her soul to rest.

5. Were you adequately informed of the consequences of abortion?

Yes No

part of question 9 and it was the clinic they said the dr examined the specimens. thats what they called my babie. just a specimen. so the dr told me that they wanted me to come back from another ultrasound to check. i cried the whole way brassing myself for whats to come next. the pain. soon as i was told to undress and get back on the table. they put the ultrasound in me and all didnt know what to think or what to do. so then they told me the inevitable. we are going to do the procedure again. my heart sank and i was just bout to walk out. i couldnt take the pain this time. there was no time for i.v no time for pain meds. nothing. i was left in the dark. this time the pain was beyond i can ever explain all i can imagine to tell you is if you would be standing out in the hall you would hear screaming. even wanna guess who?. me. after that i knew it was god basically jus punishing me for what i done. my babie wasnt gonna leave without me feeling its pain that she has endured. see question 5 for rest of story. after that it killed me everyday of my life. till one day i decided i wanted her back but how? i got pregnant three months later after the abortion. and today my beautiful baby girl is 6 weeks old. see question 4 for rest of story

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

it affected me in a real bad way. till this day even tho it hasnt been too long ago. i cry myself to sleep and i cry every thought of the word abortion and any thought of just what happened and what could have been. i thought i was just supposed to go in. then it would be done and over with. i didnt think i would be in much pain by the offered i.v and pain meds they gave me. i kept telling myself that i wouldnt regret it and i really really believed that i wouldnt regret it. soon as i found myself on that table. i realized what was bout to happen. they would rip my babies arms legs and her head apart into pieces. with that every thought i didnt stop myself i kept telling myself. i wont regret it i wont regret it. its for the best. wrong. soon as it started the pain was overwhelming i cried thru the whole procedure. after it was over. i thought it was all over and done with. after the recovery room i went right on home thinking ok now this never has to happen again and go on with my life as safe and best as possible. wrong again. i got a phone call soon as i was on the about to pull up to the drive way.

10. How has your abortion affected others in your life?

it affected my husband because he lives with the guilt of putting me thru the pain as well as our baby in heaven. and for what that pain worth 500 dollars and a life time of regret and remorse for what i have done and not let her see this beautiful earth. he cries every time i try and talk about how lucky we are to see and have a chance to be blessed by my living daughter.

11. Based upon your experience, what would you tell a woman considering abortion?

please don't do it and dont put ypurself thru this pain and you might feel absolutley sure and no looks back until you see yourself in the recovery room of the plainest white wall clinic you set foot in. and then you just realized that the pain you feel will last a lifetime with no escape. all for the price of 500 dollars. no matter what those people say to you in the clinic there is a great deal of pain not only that your baby is dead but she was alive she felt the same pain you did

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

should never be legal. no woman should ever be able to pay for a world of pain and lifetime of remorse. my point no body not even my or your worst enemy should go thru the pain i had to go thru. and live with freel ending a life of one of gods children.

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

it broke my heart and left me depressed and suicidal. If God had not healed my heart and given me a ministry to help other women, I would have ended my life.

10. How has your abortion affected others in your life?

It affected every relationship until I was healed. It ended many relationships and ended one marriage in divorce.

11. Based upon your experience, what would you tell a woman considering abortion?

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Do not do this to your baby or yourself for any reason! You will never be the same. Give life, there are life options.

My name is Jennifer I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Houston TX

//1981

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction (I do not know what kind it was, they did not say, I just assume it was suction.)

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It was as if I were having an unwanted mole removed. There was no explanation of any sort. Just a procedure to be completed. It was all very clinical. There was no discussion of any of it, just, "Do you want to be pregnant? No, okay, go here and they will take care of it." Once there, it was matter of routine.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nothing was explained. Just routine, matter of fact, taking care of an unwanted condition.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Alcohol, drugs, promiscuity, need I go on? It was the greatest lie ever told to me!!!

10. How has your abortion affected others in your life?

Certainly, I am sure.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT BE DECEIVED!!!! It is the GREATEST LIE ever told!!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You have got to be kidding!!! Abortion IS MURDER!!! The last time I checked, MURDER IS ILLEGAL! Not only is it illegal, it is dangerous for our society!

My mother and my doctor

9. How has abortion affected you?

Depression, withdrawn, disconnection with my living children esp. my first born, self-hatred, nightmares, self-esteem, confidence in being a good mother, I lived in secrecy for 17 years.

10. How has your abortion affected others in your life?

We never spoke of it again.

11. Based upon your experience, what would you tell a woman considering abortion?

This will be the biggest regret of your live. It may seem to be the easy solution to your problems but its not. You will suffer the rest of your live with it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion kills! All that are involved will suffer. Women will suffer the rest of their lives. It will not be over

quickly and things will not get back to normal. Abortion effects everyone it touches. God created life and created it for a purpose, every single life has a purpose. Life is precious and it starts at conception. These babies are not just a blob of tissue, and that lie needs to be stopped.

THE FATHER, AND FRIENDS AROUND ME AT THE TIME

9. How has abortion affected you?

I can say it has impacted every part of my life since it took place 5 1/2 years ago, I grew up in a christian home and was raised in the things of God, but the moment I walked away for just a 6 month period to do what I wanted to do my whole life turned upside down, I went from working at a very well known world-wide media ministry to singing in night clubs and in a wrong relationship that led to a pregnancy out of wedlock and anyone that has known me all my life knows if I would have had the right people around me at the time I would have never in a million years made that kind of decision because it was based on fear, discouragement, the father was threatening to walk away and I really loved him and had no job the enemy really put my back to a wall with all the influences at the time telling me that it was ok, God would forgive me, I would be ok it just was not the right time and I am sure many women have heard the same thing , but instead of running to God I ran from God and the devil knew exactly what he was doing so I tell most people Never say Never ,,because you do not know what your capable of doing when you take your eyes for just a moment off of Jesus.

10. How has your abortion affected others in your life?

I married 6wks after it took place, not to the father of the child to a man that most would say in the

beginning was rebound marriage and it is my first and only marriage, regardless the fact God has kept us together he takes even our dumb choices and some how turns our choices into blessings, it affected our marriage in a unimaginable way in the beginning the first 2 yrs i lived in a state of major depression, to the point i could not get out of bed and during this time, I attempted suicide I was on antidepressant medication, gained over 50 lbs , and even in that time I was and still am very involved in ministry i just shut down to everyone around me even my church.

11. Based upon your experience, what would you tell a woman considering abortion?

That with GOD all things are possible, There is nothing that we face that he is not big enough to get us through even when we are faced with a situation as being pregnet , because GOD is the author of all LIFE and it is not up to a man and woman whether a life is concieved it is the Heavenly Father's choice he is the one that decides and which that means GOD has a purpose for that LIFE whether you are the one that is going to be apart of that purpose or that GOD is going to place that life in the hands of someone who it suppose to be apart of the childs purpose and be a blessing also. That what the enemy and the world make seem such a quick fix solution leads to a lifetime of guilt and shame and emotional problems that will effect you for the rest of your life, it hard enough with GOD , its even harder without him , but when You do have HIM, his grace is sufficient for you. That life begans at conception and that human being has every right to walk this earth and have the chance to know Jesus and live just as you do, and if GOD decided to speak that child into existance than he has a plan for them and whether you choose to be apart of it is up to you but if not then atleast allow that child the right to be with a family or someone that wants to help see it grow into its potential and purpose.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

there is a higher power than the supreme court it is God who sees all and knows all and is watching very carefully and holding those accountable that by his sovereignty he put in that position to make the right choice that will effect generations to come one day they will stand before GOD whether Man chooses to believe the day is coming that every knee will bow and every tounge will confess HE is Lord AND THEY WILL GIVE ACCOUNT FOR THOSE LAWS THEY AGREED ON THAT UNLESS YOU ARE A WOMAN THAT HAS EVER EXPERIENCED THE LOSS OF A CHILD IN THIS HORRIFIC MANOR MOST WOMEN DO NOT REALIZE HOW TRUAMATIZED THEY WILL BE TILL AFTER AND MOST OF THEM EITHER SPEND YEARS WITH SUBSTANCE ABUSE PROMISCUOUS OR MAJOR DEPRESSION PROBLEMS THAT REQUIRE PSHYCOTIC DRUGS POSSIBILITY OF MEDICAL PROBLEMS HOW CAN A LAW LIKE THIS BE GOOD OR EVEN CONSIDERED A CHOICE FOR WOMEN IT's A HUMAN SLAUGHTER THAT HAS TO STOP YOU HAVE THE RIGHT TO MAKE LAWS AND LIVE IN FREEDOM YOU DENY THE RIGHT OF AN UN-BORN CHILD TO HAVE THAT CHOICE BECAUSE THOSE WHO USE IT AS A CONVIENT WAY TO GET RID OF SOMETHING WHAT HAS THIS COUNTRY COME TO WHEN THE LIFE OF TREE IS MORE SACRED than a beating HEART OF a UNBORN BABY they deserve a CHANCE TO LIVE BREATHE SEE LAUGH CRY and be loved as you are THERE ARE OTHER CHOICES YOU HAVE JUST GIVEN THIS COUNTRY THE WRONG choice NOW GOD LEAVES IT IN YOUR HANDS WHAT ARE YOU GOING TO DO WITH IT

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Comal

My name is P S I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Norfolk VA

//

2. How many weeks pregnant were you?

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I did not have an abortion. My oldest daughter had an abortion. She was over 21 years old. She said that she did not love the father of her child. She asked me if I would still love her if she had an abortion. I told her that I would raise her baby as if it were my own. She said that it wasn't fair for me to raise her baby. We were denied the opportunity to raise our grandchild. The father of her baby wanted his child. He was willing to raise their baby on his own. His family wanted to raise the baby. He and his family were denied the opportunity.

5. Were you adequately informed of the consequences of abortion?

Yes No

A close friend of mine called my daughter and tried to talk her out of having the abortion. She told her that women who have abortions have low self-esteem and often suffer from depression. She told her that sometimes the abortion is botched and causes bad infections that prevent future pregnancies. My daughter rejected my friend and still won't talk to her to this day. They had been very close before the abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

We had a family portrait made shortly before our daughter had her abortion. An Olan Mills oil portrait hangs in our living room. Every time I look at that picture I know it contains my aborted first grandchild. It hurts to know that my first grandchild was murdered by my oldest daughter.

10. How has your abortion affected others in your life?

Our daughter was raped twice when she was 15 years old (before she had her abortion). She got an STD from being raped. Her pediatrician put her on birth control pills so she wouldn't get pregnant. She

had to have surgery for genital warts. After her abortion she lived with a man for years. He gave her an engagement ring made from her grandmother's diamond stud earrings. She went on a trip to Europe as part of her college curriculum. When she came back home, her fiance told her that he didn't want to marry her because she had gained too much weight. She felt rejected. She met her current husband on the internet. She didn't want to have any children, but her husband would not marry her unless she promised to have at least one child within 5 years of their marriage. They have one son that is the center of their world. After our daughter gave birth, she did not care about having sexual relations with her husband for over 18 months. They have finally worked through that physical roadblock in their relationship. Our daughter is a wonderful mother.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her a child is a gift from God. I would tell her if she has casual sex she must be responsible for the consequences. I would encourage her to have her baby and raise it herself. I would tell her there are many families that want to adopt her baby and will pay for the expenses.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that they can't change ancient boundaries that God has set for us. Thou shalt not kill is not a suggestion. This nation will be judged for all the innocent blood that has been shed on the altar of convenience and women's rights. Each person who makes a Pro Choice decision will be judged by God. Each doctor who has performed an abortion will be judged by God. Each legislator, politician, and judge who backs abortion will be judged by God. They will have to answer to Him.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of USA

My name is Amy Shipton. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

//

2. How many weeks pregnant were you?

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I am emailing on behalf of my mother who had several abortions. I am her firstborn, now 31 years of age. My 3 brothers and I had to live with a mother who suffered from multiple nervous breakdowns and was in several psychiatric hospitals for extended periods. We believe this is because of all the guilt and trauma related to her abortions. She was raised in a stable home with faithful parents.

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

the fathers of the babies pressured her.

9. How has abortion affected you?

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

Please for your sake, the unborn babies sake and your future childrens sake, do not have an abortion. You will only suffer heartache and guilt. Please make adoption the alternative to women seeking abortions. Please stop sending our tax payer dollars to fund abortion to Planned Parenthood! Instead, please channel this money into adoption programs and into making adoption the best alternative for every woman. Offer the women that will adopt funding to help them with giving their precious babies up for adoption and for helping them with the finances they have sacrificed to save their babies alive. Provide the funding for the crisis pregnancy centers to continue to help women who wanting to keep their babies. Please do whatever you can to make adoption much more affordable. We want to adopt these abandoned and unwanted children.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Please review the testimonies and data collected from the lives of all the women who have had abortions and see how dangerous this is to the mothers and to the culture of our nation.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Bexar

My name is Rolanda Shrader. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Albuquerque NM

//1971

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was a simple procedure as an in & out patient. It was only tissue and not to worry, little or no pain involved. I could go back to work on Monday.

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't even think at that time the Dr. had any idea of the scares that comes with abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

For years I went in and out of being depressed and just hating myself. I hated to hear the word abortion and I would tell myself over and over again it was not a life but just tissue. I so wanted to believe that. I was tormented with thoughts of failure, guilt and anger toward myself. I found myself crying all the time when alone. Sometimes I thought I was going crazy.

10. How has your abortion affected others in your life?

My husband and i are missing one child and our children are missing their sibling.

11. Based upon your experience, what would you tell a woman considering abortion?

God loves you and he loves the life you are carrying in your womb. God has a plan and a purpose for this precious life. Please do not make the mistake I did. It's a memory that won't go away, leaving a whole in my heart. Let me take you to a place where people will love you, help you and give you the Godly guidance you need at this time. You do not have to go through it alone.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

In your ignorance you have taken a innocent life and killed a baby calling it a woman's choice yet disregard the after effect it leaves on women; the scares and pain you won't touch. Shame on you!

9. How has abortion affected you?

It has haunted me for 30 years and if I had known then what I know now, I would never have had one.

10. How has your abortion affected others in your life?

Not to my knowledge, perhaps my exhusband

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. The mental repercussions, guilt and heartache lasts for years. There are Catholic and Christian agencies out there who will help you through the pregnancy. Life begins at conception and even the week old fetus has human characteristics and a heart beat is just a few weeks away.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I think only when a mother's life is in immediate danger should an abortion be performed. There are several agencies out there who will help pregnant women, either through adoption or counseling and monetary/material help.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Dallas

My name is Lisa Skowron. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

12/19/1984

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No. I did not know that it was a fully formed baby with arms, legs and hands. I heard the term "products of conception" and that as long as I "terminated" (I recall that term being used over abortion) before 12 weeks it wasn't a big deal. It was just tissue. It wasn't until two years later that I saw pictures of fetal development at 11 weeks...and I was so mortified and grief-stricken all over again.

5. Were you adequately informed of the consequences of abortion?

Yes No

At the time of my abortion, Roe V. Wade had only been in affect for 11 years. I was told that new evidence was just being discovered that "some" women have reported some type of psychological affects from having had an abortion but that it was too soon to really know for sure. I was led to believe that it was most likely the women who "terminated" in the second and third trimesters that were having problems and not women who terminated early. Though I was told this information, I was not "informed" of what those psychological affects were other than regret. And I already knew that I would probably regret my decision...but didn't feel like I had a choice. I felt I would just have to live with the consequences. I was told it was a simple procedure and that the complications and risks were minimal.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend and his mother.

9. How has abortion affected you?

Dysfunctional relationships (I continued the relationship with my baby's father off and on for another 4 years, despite the emotionally and sexually abusive nature of the relationship) because I felt connected

to him because of the abortion and didn't want my abortion to "be for nothing", unhealthy attachments with others, eating disorder and other self-destructive behaviors, I had an inability to form healthy relationships with others because of distrust and withdrawal, sexual dysfunction in my relationship with my spouse, lack of self-esteem and feelings of unworthiness, destruction of my spiritual life (separation from God for the next 24 years before I went through the Forgiven and Set Free bible study), anger and resentment toward the baby's father and his mother (and other adults involved) that were repressed and misdirected at my future spouse and children and others in my life, depression, anxiety (inability to even look people in the eye for fear they would "see right through me and discover my deep dark secret"), loss of the true me...a part of me died in 1984, especially the passionate and emotional side of me.

10. How has your abortion affected others in your life?

It affected my parents (we didn't speak of it for 24 years) and it separated us emotionally. I have always felt I was a disappointment and that they were ashamed of me. My spouse and our marriage...it took me 17 years to realize that I didn't trust him and that I was having difficulty opening myself up to him emotionally. I never felt like I was good enough sexually (sexual dysfunction) and I felt taken advantage of sexually. I was defensive, angry and resentful of him in a very unrealistic way throughout our marriage. I never knew how much my abortion affected us until God healed me and took the shame and guilt away. Our marriage was literally falling apart a few months ago. Now, after my healing, it is 10X stronger than it has ever been. The most devastating reality for me was that my abortion affected my future children. I was overprotective yet distant with my first child. I have had anger management problems and an inability to parent successfully due to my feelings of inadequacy and feeling undeserving, never "good enough" (which meant being the perfect Mom) and withdrawal when conflicts occur. I have lacked confidence to "stand up for my children" in public situations or with conflicts with other children just like I failed to stand up for my aborted baby. All four of my children have suffered emotionally because of my anger and inability to parent them in a patient way.

11. Based upon your experience, what would you tell a woman considering abortion?

My abortion hurt me and I deeply regret making that choice. The pain, guilt, shame and damage to my self-esteem were exponentially worse than any circumstance I might have faced with my unplanned pregnancy. It damaged my relationships, and it hurt my marriage and my future children. I have lived 24 years of pain and regret that eventually turned me into a person I hardly recognized. It hurt me deep down in my soul and I have NEVER FORGOTTEN!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Women who have very early miscarriages (even as early as 4 weeks) will feel an incredible sense of loss. They know instinctively deep in their soul that they have lost a baby and they grieve like they've been pregnant for weeks/months. I have had four miscarriages so I know that pain first hand. So there's definitely a natural instinct for women to want to nurture and protect their children, even when they are just beginning to form within the womb. So how do you live with the knowledge that YOU were responsible for that loss of your child after having an abortion? You don't! You can't. You tuck it back in your mind or stuff it way down and try to forget about it. But you never will! The anger, guilt, shame, fear, self-hatred will eat you alive inside for years and will be misdirected in hurtful ways toward everyone around you. It doesn't end until the woman faces the truth about what abortion is and does and how it has affected them. Only then can they finally heal from the pain. Abortion is such a heartbreaking tragedy. It takes the lives of two people...the physical life of the child and the emotional and spiritual life of the mother.

My name is Dian I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Houston TX

//1974

2. How many weeks pregnant were you?

3. What type of abortion was performed?

Saline

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only 16 and my parents took me so, they really were who the professionals spoke with about that , not me.

5. Were you adequately informed of the consequences of abortion?

Yes No

I wasn't told anything

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my parents

9. How has abortion affected you?

It is demoralizing in more ways than one. The memory never goes away and...the medical issues that could have occurred are frightening ! If not for God, I would be a total wreck emotionally and could be ill with no telling what kind of disease.

10. How has your abortion affected others in your life?

No one knows but my parents and I

11. Based upon your experience, what would you tell a woman considering abortion?

I would appeal to her nurturing side and explain the gift of life inside of her. I would tell her about organizations that would help here through if she decided to keep her baby or explain adoption to her through a church or adoption agency of some kind. I would want her to know that there is an "out" and she doesn't have to take her baby's life.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Abortion is an act of selfishness that defies reason. Life begins at conception.

The State of TX

County of Hopkins

My name is Victoria Smith. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

12/08/1999

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Though pain information was conveniently left out.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never told about the pain and emotional effects that affect so many women after their abortions.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mom

9. How has abortion affected you?

Abortion left an emptiness and uncertainty in my life forever. I have one child and another child due to be born in 10 weeks. But no matter how much joy they bring into my life. I will never forget the what-ifs about my first child. I will never forget that I could have had another child. I will never let the first week of August go by without thinking that I could be celebrating a birthday. I will never forget the love that that unborn child brought between myself and someone I don't even see anymore. I have suffered with depression and guilt since shortly after the abortion. I know longer suffer with depression from it but still I suffer with guilt, especially now that I am a Christian. I do know that God forgives me and I find peace in that, BUT I will never forget.

10. How has your abortion affected others in your life?

It has caused guilt in all the family members that knew about it.

11. Based upon your experience, what would you tell a woman considering abortion?

That she needs to carefully consider how God will feel about it now and how she will feel about it later. She will never get that opportunity back. And no matter how much she tries to forget about it she

won't.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that they have obviously NEVER experienced it themselves. They need to think about the joy that they would be missing in their lives had they or their wives decided to terminate the pregnancy of one of their children.

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that the fetus was merely a blob of tussie and not really a baby yet.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no warning of the emptiness I would feel afterward. mor of the pain I would feel during the procedure.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father of the baby & a mental health counselor

9. How has abortion affected you?

It made me feel like less of a valuable human being myself. I became promiscuous due to a severely lowered self esteem and was borderline suicidal for years.

10. How has your abortion affected others in your life?

I know it lowered my son's opinion of me for a long time and made him doubt his value to me as a result. He had a lot of confusion and emotional pain after he found out about it. I'd gotten pregnant by a man I'd been seeing while separated from his own Dad, and that man insisted I have the abortion and got a mental health counselor to back him up. My son had to go through a lot of counseling after he found out about it when he was twelve.

11. Based upon your experience, what would you tell a woman considering abortion?

To please think about the life God has placed in her womb, and to either consider keeping the baby and if that's really not an option, to put it up for adoption, but murder is never the way to go.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That this is legalised murder -- the intentional taking of a human life. It is the most heinous kind of murder, which is infanticide -- the killing of tiny, innocent babies and just because they may not be viable outside the womb does not justify murder for any reason.

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my parents

9. How has abortion affected you?

I was depressed and responded by intentionally getting pregnant again, just months later, to have a baby to replace the one I had killed. As a teen, I talked to my baby in heaven and told her I was sorry. I have felt guilty and regretted my abortion for the majority of my life. Somehow my abortion made me feel unloved, and displaced. Only in the last 5 years have I forgiven myself.

10. How has your abortion affected others in your life?

My children have a sibling, that they were denied knowing. My parents have felt guilty, and I lost trust in them.

11. Based upon your experience, what would you tell a woman considering abortion?

That abortion is a permanent solution to a temporary problem. That abortion is murder, that their child needs them, their mother, to protect and nurture them.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder, it kills a baby, and the heart of a mother.

it caused me to have difficulty bonding with my first born (1989) leading to post partum depression

10. How has your abortion affected others in your life?

The guilt that I carried and the inability to forgive myself has been an emotional baggage that has caused relational difficulties

11. Based upon your experience, what would you tell a woman considering abortion?

Be well informed and consider the consequences; physical as well as emotional. These consequences can last a lifetime, a pregnancy only nine months.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Contrary to popular opinion our conscious tells us that we are ending the life of a human being

HOW MY ABORTION AFFECTED ME

The State of TX

County of Williamson

My name is Lisa I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Antonio TX

//1980

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

unsure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The information was only clinical, describing the actual procedure, and how to care for myself afterwards. It did not address the fetus, that it was alive and that there was a beating heart that would be stopped by this procedure. I had the impression that it was a simple medical procedure that would prevent me from having a baby...I did not realize that there already was a life and a beating heart.

5. Were you adequately informed of the consequences of abortion?

Yes No

The only consequences I was told about were the possible physical risks of infection and/or injury to my womb. I did not know that I would feel guilty about killing a baby. I did not know how terrible I would feel about carrying this secret with me for life. I did not know that I would dream about my aborted child throughout my lifetime.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have terrible guilt and shame about killing my baby. I have dreams about my aborted child and wonder what he/shee would have been like. I feel grief as though I have lost a child (the same way I feel about the child I lost by miscarriage decades later.)

10. How has your abortion affected others in your life?

No-one knows my secret.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! You will be killing your baby. There is a beating heart in that fetus. It is alive. Don't do it. It is not worth it. The shame and guilt of abortion is terrible, irreversible, and will last forever. Any reproach or embarrassment of an unwanted pregnancy will pail in comparison to the life-long guilt and shame of abortion. Pregnancy is only 9 months. There are alternatives to abortion that are perfectly acceptable and will not have the lasting, irreversible impact that abortion has. Don't do it. Please, don't do it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder and it cannot be justified. If we allow women to kill their unborn children, we are sanctioning murder. These women will become guilt-ridden murderers. They will never be able to right the wrong and will forever feel flawed, ashamed and have poor self esteem.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Ellis

My name is C S I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

//1983

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Was only given paperwork about the procedure; I was too upset and scared to read it. Written in big letters were the words "POSSIBLE DEATH" and I was frozen with fear, fear to have the abortion and fear not too.

5. Were you adequately informed of the consequences of abortion?

Yes No

No mention was ever made about the physical or psychological consequences of abortion, like post-abortion trauma. They focused only on what to do after the abortion, like not to take a bath for one week, do not have sex right away and to think about taking birth control.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Since my first abortion at age 18, as the result of date rape, I have faced depression, anger, low self esteem, promiscuity, preoccupation with getting pregnant to "undo" the abortion leading to multiple abortions and a nervous breakdown. I have lost hopes and dreams. I have lost children. Abortion was a devastating force in my life that I could not conquer for many years.

10. How has your abortion affected others in your life?

My abortions confused, angered and saddened my family once they were told. I have been married and divorced twice and the breakdown of the marriages was directly related to the abortions in both subtle and tangible ways.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion will NOT solve your "problem," it will only take the life of one - your child - and take the life of your very soul. Fear is temporary, but regret is permanent. You WILL regret your abortion, a regret that will take many unhappy, unhealthy and unsafe forms in the future, like depression, loss of control, overwhelming sadness, failed relationships, eating disorders, drug and/or alcohol abuse . . . even suicidal thoughts or acts. You will NEVER have these consequences after choosing life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is not a woman's right of choice . . . it's the "un-choice," as quoted by Dr. David Reardon, a leading abortion researcher. Not only is it severely harmful to the woman - not to mention fatal to the baby, abortion can be used a weapon against women, used as a method to hide abuse or used as blackmail. Many women are not fully "informed" about the actual procedure, about their complete "choices," or the ill consequences suffered after an abortion. Abortion clinics are NOT safe places for the physical or psychological health of women. Abortion is not the answer to an unplanned pregnancy . . . it is simply a poor choice and a lousy solution that has been sold to women under the pretext of "women's liberation." Abortion does not liberate, it enslaves, and women and babies deserve better.

Family

9. How has abortion affected you?

It has made me realize that the life of a child was lost & that I made the choice to end it. My child would be 7 years old this year. I am now a Christian, who lives to tell others about my experience, I am forgiven & set free!

10. How has your abortion affected others in your life?

It was devastating and painful to realize that there could have been a set of little feet running around.

11. Based upon your experience, what would you tell a woman considering abortion?

She has other choices for the life with in her. The child she is carrying is not an egg or a cell it, is a life with in you. A life that lives because God created the child & has given it life. And you are the childs only hope for surviving in a world that wants to kill your child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

So many of you men & women have moaned the loss of a misscariage, the loss of a child & have been the product of a woman who considered an abortion. The pain that you allow in peoples lives is sick &

has no excuse. You are alive because God choose to give you life, just as he as chosen to give life to the child in their mothers womb.

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I feel that I was not adequately informed in what was going to happen and what happens during this procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

It was a hurry up process that left me feeling that I should have been told something.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

male companion

9. How has abortion affected you?

It has left me with a whole in my heart , to know that I have terminated what God made. I have wished everyday that I had been stronger mentally and had more info about maybe other options. I feel that if they had shown a video of the procedure to me and my male companion , then I would not have gone through this and carry this guilt and shame with me.

10. How has your abortion affected others in your life?

My ex was hurt, because the baby was probably his.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to, to give the baby up after wards, but not to go through with the abortion. It stays with you a lifetime. You can't take it back.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

It is not a quick fix for accidents. We need to be better educated and given better options when mistakes do happen. This scars you for the rest of your life. Legalizing abortions only will promote that is ok to kill the baby. It is not. They did not deserve to be killed for others mistakes . We don't allow people to kill the baby after it is here, so why is it ok to do so before when the fetus is alive. It is not just alive after 9 months of being in the womb.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Orange

My name is Deanna Suarez. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Fort Worth TX

//1976

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

Suction I do not know the medical term

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was going thru a seperation, and was hurried thru the abortion, I had no idea I was 14 wks. along. The Dr. told me after,(for what reason I do not know.)

5. Were you adequately informed of the consequences of abortion?

Yes No

Somewhat, I was in such an emotional state.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Profoundly! I made the decision, but had I been offered counseling, I would have not have made such a harsh decision to take the life of my own child. Abortion is a permanent solution that has no positive effect on lives. This is something that I will live with for the rest of my life.

10. How has your abortion affected others in your life?

Depression over an abortion effects every family memmber, not just the person dealing with it. A loss is a loss no matter how it comes, especially if you have a hand in it.

11. Based upon your experience, what would you tell a woman considering abortion?

Please, think seriously over your options, and get counsel, from all sources. This is a decision that will have a profound effect on the rest of your life, nothing positive can come out of a negative solution.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Please, consider the countless lives you will effect, you not only are taking the life of the unborn child, but the life of everyone involved. The negative solution you propose will not have a positive solution. The blood of the unborn is on everyone's hands that are involved, no matter what you proclaim, we can turn our backs, close our minds to it, but the responsibility is still there.

My name is Norma Jean Tanton. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Beaumont TX

07/15/1982

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I remember them taking my money, having me fill out my personal information and signing something but no one showed me or told me what was going to happen. I was put into a room with 15 other women with a tv and magazines and told to wait my turn.

5. Were you adequately informed of the consequences of abortion?

Yes No

I'm not sure of this question. I did not know abortion could make you sterile..i was told it was a lump of tissue not a baby.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

husband and mother in law

9. How has abortion affected you?

I have to forever live with the fact that the only healthy pregnancy I would ever have died at the hand of an abortionist, I was never able to have children of my own. I spent 24 years in a silent lonely prison of pain with suicidal thoughts, depression, shame and guilt. Until Someone took me to a post abortion bible study and Jesus healed me and set me free when I was able to grieve my baby, now I share my testimony with others,

10. How has your abortion affected others in your life?

My husband and I divorced two years ago after 29 years of marriage. He took his own life last April and in the suicide note, he expressed how he hoped God would forgive him and let him go to heaven with our aborted baby. He also said he hoped we both would be able to see our baby together one day. Men

hurt from abortion too. My husband was never the same after my abortion and carried alot of guilt no matter how much I told him he was forgiven, he even wrote a note to our baby the night he killed himself on our babies memorial service bulletin.

11. Based upon your experience, what would you tell a woman considering abortion?

That it is murder, It is an agreement with death and the death covenant, it is sin, Christ came that we may have life and life more abundantly. The baby is a life and that it effects not only her life but the life of others. Abortion hurts women and those they love.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The effects of legalized abortion continue to destroy the lives of women, men and their families. It has created confusion in our future generations about the worth of human life. No country should invite the devastating effects of abortion on their nation by legalizing it. I believe that we all have a duty to attempt to right the "wrongs" in our world. The words of Edward Everett Hale say it best: "I am only one, but I am one. I cannot do everything, but I can do something..."

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No-not at all. No, I don't remember anyone telling me much of anything there.

5. Were you adequately informed of the consequences of abortion?

Yes No

Not at all-nothing.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

All of these at some point: Denial, Depression, weight loss, suicidal thoughts, panic attacks, thoughts of dying, thoughts of losing my other God-given children, fear, knowing the truth and wanting others to know, advocating abstinence and truth found in Scripture, holiness of God and forgiveness through Christ's blood alone is my only hope

10. How has your abortion affected others in your life?

thoughts of losing my other God-given children, fear, knowing the truth and wanting others to know, advocating abstinence and truth found in Scripture, holiness of God and forgiveness through Christ's blood alone is my only hope, urging others to not have abortions, but repenting of the thought of murder, and turning to Christ, power of God through Christ to salvation, power of saving grace my only

hope

11. Based upon your experience, what would you tell a woman considering abortion?

My testimony is at: www.MyChristianTestimony.mypodcast.com Abortion is murder, breaking GOD's 7th commandments, it grieves the heart of God, satan is a liar, a murderer from the beginning. Stand for truth and proclaim it to the nations!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

They should acknowledge that morality comes from a Moral Creator God, which our court system was established on, and believe God that abortion is murder and therefore should not be sanctified by government, and government will also give an account to God. Government is by the people and for the people, and too many people's testimonies are identical. Murder is murder whether in or outside of the womb. The judges will also give an account to God. www.needGod.com

9. How has abortion affected you?

I have regreted it. I have lived in shame and sorrow ever since. I know God has forgiven me but looking at it now. I took a life and I will have to live with that the rest of my life.

10. How has your abortion affected others in your life?

No one knows that I had an abortion. I have a son and if he found out he would be devastated!

11. Based upon your experience, what would you tell a woman considering abortion?

DO not have an abortion.. there are so many people in this world that want children that can't have children. A baby is a gift from God and the fetus has a soul the very moment it is conceived. Please seek adoption if you can't take care of the child yourself.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We are killing millions of babies every year and it is murder. You must stop this injustice. We have to speak out for the unborn child.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Harris

My name is Joanne . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Oklahoma City OK

02/11/1991

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't feel that the people running the clinic explained that the pain would last a long time. I almost died from my abortion. The doctor left part of the baby and placenta attached and on 2-14-91 I was rushed in to emergency surgery to stop hemorrhaging. I am blessed to still be alive.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no one there to inform me of the feelings and regret that I might feel and to tell me the truth about abortion. I was told that it would be quick and painless. But, I was hurt very deeply and it wasn't painless physically either.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother and the father.

9. How has abortion affected you?

At first I felt overwhelming guilt and confusion. But I know now that God has forgiven me because I have asked Him to. I felt so guilty that I became pregnant 3 months later.

10. How has your abortion affected others in your life?

My self-esteem was very low. I felt like I was a murderer, which I was! I drank a lot to become numb

from the pain I felt in my heart.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that God has given her this wonderful child that she is carrying. If she doesn't feel that she can take care of it then place it up for adoption, because there are caring and wonderful people out there who would love to have a child. The pain from abortion goes way deeper than just the physical pain, it affects all parts of your life. And the doctors and nurses in the clinics don't tell you that you could be risking your life to have an abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That abortion not only kills innocent babies, but that it destroys women! From the inside out, women are destroyed by guilt, low self-esteem, and depression. I was one of those women. I almost lost my own life due to abortion and the doctor who performed it. I will never forget what happened to me in that room. I cried during the procedure and was told by the doctor and nurse that if I didn't stop crying the doctor would stop in the middle of the procedure and I feel that is what happened and that is why the doctor left part of the baby and placenta attached, which caused me to bleed badly and had to have emergency surgery on the 2-14-91. Please help stop the killing of innocent babies and their mothers.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

only my own shame and guilt

9. How has abortion affected you?

For years living in that same shame and guilt. Unable to have children [tho I never married]. Even having received the forgiveness of The Almighty in His infinite mercy still the knowledge of being a party to murder and seeing where our country has gone with no respect nor care for the unborn remains unsettling.

10. How has your abortion affected others in your life?

Hopefully my testimony concerning God's forgiveness has helped and/or guided other women not to make this dreadful mistake.

11. Based upon your experience, what would you tell a woman considering abortion?

Under no circumstances. The unborn child is innocent of the act that brought his or her conception. We have no right at all to take life. Adoption is the best alternative rather than abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

This is both a moral and consitutional issue. Abortion removes the constitutionally protected "right to life, liberty and the pursuit of happiness..." That we ARE a Christian nation as evidenced by clear historic information and that as such, abortion is murder and a sin against God and against our own humanity. Women were given the right and privilege to bring life and were NOT given the right to choose death over life. That always has been and is only the perogative of Almighty God.

QUESTIONS

1. Where and when did your abortion occur?

Fort Worth TX

01/30/1983

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

vaginal suction type

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only given pills to take and asked if I knew I was going to have an abortion and if I was the person listed on the file. No information or techniques were explained at all. I was one of many in a room, treated much like cattle waiting to be worked.

5. Were you adequately informed of the consequences of abortion?

Yes No

No mention of consequences whatsoever. Only that you might bleed for a few weeks afterwards, then I should be fine.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I developed a poor self esteem, was depressed alot and always viewed "sex" as a bad thing because it had resulted in a "bad thing" for me. It affected my marriage even 10 years after the fact, even to the point of a near divorce. Sexual activity with my husband was mostly viewed as a chore or a duty, not something ordained by a Holy God. Seeing children that would've been the age of my child is still hard to deal with. It is a wound that will never heal. Somewhat like a scab, it comes off and oozes occasionally but never goes away. God's grace is sufficient and does sustain me but the thought of me murdering a child without full knowledge of what was going on or would result is unbelievable sometimes.

10. How has your abortion affected others in your life?

It has been difficult for my husband, though he was the boyfriend, he has dealt with this for many years as well. He always felt like he pressured me into it but it was a mutual decision for fear of disappointing Godly parents. He also felt thru the years like I just married him to try to "right the wrong" which created conflict throughout life. Mine and my parents relationship was strained and remains that way today, even after 25 years. I hid it from them and to this day, they still do not know. That has created some distance that will never be regained.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not do it! It is murder. There are other options. God is the giver of life, yes, even in the case of rape or incest. There are plenty of loving parents waiting to adopt and the bumper sticker that read "Abortion- One dead; one wounded" is the most accurate statement anyone has ever made! It is a spur of the moment decision that will affect you for the rest of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Never! It should never be legal! Why would it ever be legal to murder a defenseless baby when it is illegal to murder a person? Unbelievable!! The fetus is a person; living, breathing, and created in God's own image. My question to each of them would be..what if your mother had terminated your life because you were not a "living" person. Would you be here to make decisions like this for Americans today? The affects on the mother are part of what's wrong with the world today. Low self esteem and depression are major causes of other serious downfalls in America today. Think about your own life and your own daughter. Vote NO!!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of USA

My name is Keri I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Antonio TX

12/15/2000

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had no idea what I was about to embark on. 2 nurses did take us into a counseling room, 6 at a time, but we just talked about the weather, nothing concrete, it was about 5 minutes that we were in there.

5. Were you adequately informed of the consequences of abortion?

Yes No

Not one person mentioned anything about any consequences. They just said be sure to take the meds (pain pills) if I had any pain afterward.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

In the most horrific way. To know that I actually murdered my own child, it's the ultimate worst thing ever. I am no different than the murderers in prison right now, but I just paid someone \$250.00 to keep it quiet and make it legal (by calling it a medical procedure). I was in denial as soon as I found out I was pregnant and after the abortion I was even more in denial. I COMPLETELY blocked it out. Until 6 months later when it hit me like a ton of rocks! I cried everyday for 6 months, I was in a depression and scared and had no one to turn to. My family didn't know. It was the worst time of my life. It was only God who helped me.

10. How has your abortion affected others in your life?

It destroyed the dad. He wanted the child, I was scared and did not want a baby. If I had only known than what I know now. After the abortion, he immediately went into the stages of death (denial anger bargaining and depression) very quickly. it took me longer to begin the stages of death. But when they

hit, they hit hard!

11. Based upon your experience, what would you tell a woman considering abortion?

I would never ever never tell anyone to have an abortion. I would offer to help her for 9 months and then let me adopt the baby. Beause of my experience, I want to adopt 6 kids. And I will, my husband wants lots of kids too. I just don't feel the need to have my own. I guess because I had the opportunity and blew it. The pain in my heart is not anywhere near nor comparable to any physical pain. And it is a lingering pain that just stays there.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You are terribly wrong and let me tell you my story because you probably have not been through it, but I have. And you will never be more wrong on any issue than this one.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of el paso

My name is R T I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

El Paso TX

09//1989

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Basically I knew what I had "heard". I was asked if I was sure I wanted the procedure, since I was crying at the time. I stated yes and he proceeded

5. Were you adequately informed of the consequences of abortion?

Yes No

I wasn't given any information other than "post" care, watch for excessive bleeding etc.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It was the last straw in an emotion crisis that had began years prior. By October of that same year, I had a suicide plan that was discovered and interrupted. I was admitted into a "behavioral care" hospital to deal with my depression. At age twenty two and two years later, I attempted suicide by overdosing on my antidepressants and antianxiety meds. I was by then married and my husband found me unconscious, I was taken by ambulance to the hospital and my stomach pumped. I had a child in 1993 that is the joy of my life. Through her the Lord has brought me back to Him and I have been able to overcome the depression, guilt and self hate. It took until the year 2000, after my husband suddenly passed away, to begin the long process of forgiveness. It would still be a few more years before I was able to talk about it .

10. How has your abortion affected others in your life?

I believe that although I already suffered from depression, the abortion kept me bound to unforgiveness and guilt for many years. At the end of 2001 and through 2002, I was in crisis again. Still grieving from my husbands death, depression set in really hard. I considered suicide again as well as "taking" my then eight year old child. It must have been very difficult for her to see me as depressed as I was and having her own grief to deal with (loss of her father). I praise the Lord that He never let go of me during this time and He held me until I was able to see Him and trust in Him again.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to consider her options very, very carefully. Abortion has a tremendous impact on your life over and beyond what one can imagine prior to it. You cannot undo the damage, I was very fortunate to survive it but it was still very painful and difficult. I will never forget that error. There are better positive ways to deal with an unwanted or unexpected pregnancy

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

When something is legal, it gives the false sense that it is safe or good. The problem is that many women are left with baggage and scars that we don't know how to deal with. They will be dealt with, through self medication, rage, suicide, depression, etc. The consequences are very real and they affect our family, our work environment, our impact on society. These things should be weighed against the right to choose because many women, including myself, have no idea what we are really choosing.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Harris

My name is Carrie Toering. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Grand Rapids MI

01/05/1997

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

suction aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one explained to me what was about to happen. They gave me some kind of medication that made me woozy. They gave me an ultrasound and would not let me see what they were looking at, let alone tell me what an ultrasound did. I had no idea how an abortion was done. I was quickly led to a room where I was told to remove my clothes from the waist down. The doctor came in with two nurses and told me to lay back. He said there would be some pressure. I was then immediately held down by the nurses and it felt like I had a knife shoved through my body. I screamed out in pain. I couldn't move while this was happening due to the nurses and the pain. As soon as he was done he said I could get dressed and go to the recovery room. I quickly sat up when the nurses released me and I threw-up all over myself. They gave me some paper towel to clean up, put a pad in my under garments, led me to a room filled with other women, and gave me some kind of paper to sign. They then told me to call my doctor if I had any problems or go to the emergency room if my pain persisted. They said when I felt better I could leave. I drove home barely able to see because of whatever they gave me and my own tears.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not ready for what I would feel. The depression, the despair. The fact that even after 11 years the wound is still fresh as if it happened today. No one told me that in an instant my life would never be the same and I would be left by myself to deal with all the heart wrenching pain that comes with an abortion. My thoughts are never far from my child, whose life was cut way too short.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother and older sister.

9. How has abortion affected you?

It has left me with a broken heart and empty arms. It has left me with an emptiness I will never get over. The tears I cry for this child will never cease.

10. How has your abortion affected others in your life?

My husband sees the pain I deal with and it hurts him that there is nothing he can do to comfort me. I have to explain this to my living children someday. I can't even begin to imagine how I'm going to get them, let alone me, through this tough time I am certain to face.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them not to do it. I would tell them to please let their child live. Nothing good will ever come to them by doing the most unnatural thing, a mother murdering her own child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I wonder what my life would be like today if I never walked into that Planned Parenthood Clinic, if abortion would have never been an option. One thing I know for sure, I would be a happy mother of 4 children instead of 3. My heart would not be forever broken. I have to someday explain to my living children they have a brother or sister in heaven because of an abortion I had. Where's Planned Parenthood, all the doctors and nurses, judges, lawyers, family, so called friends, and everyone else who believes in keeping abortion legal, when I cry myself to sleep at night because my arms long to hold a child I will never be able to lay eyes on this side of heaven. Abortion destroys everyone involved not just the unborn child.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Collin

My name is Becki I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Gainesville TX

02/16/1974

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

I don't recall

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 17years old and I was told that they would be removing a blob of tissue.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me there would be consequences of any kind.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father and my close friends

9. How has abortion affected you?

I have experienced significant depression which has been severe enough over the years to affect my health, ability to work,and parent my children.

10. How has your abortion affected others in your life?

My children have been victims of my depression and unresolved anger/guilt. I believe it was a factor in my marriage failing.

11. Based upon your experience, what would you tell a woman considering abortion?

If you find yourself pregnant,alone, and scared please don't believe that abortion is the only way to respond to your circumstances. there are many people and organizations who would love to support you and guide you toward a solution that will bring life and hope to everyone involved. Abortion is NOT a simple, quick fix to a problem. There ARE long term consequences that you will live with every day.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

In addition to ending the life of the baby, abortion damages our community in many ways. Broken lives and families result in poor mental, physical, and emotional health that limit the potential of our citizens and have a long term impact on the economic health of our nation. Why would we support this when there are options such as support for young mothers, adoption, and abstinence education that work for everyone involved.

QUESTIONS

1. Where and when did your abortion occur?

San Antonio TX

//1975

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

do not know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I honestly can not remember what information I was given, I remember that very little time was spent talking to me. no counseling whatsoever was given to me, that I can recall.

5. Were you adequately informed of the consequences of abortion?

Yes No

I received no counseling.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

To this very day, I cannot forgive myself. I know that God, through my Lord Jesus Christ has forgiven me, but I cannot forgive myself. To this very day, I am ashamed of what I did. To this very day my very spirit aches with hurt, longing to hold my baby in my arms, as I did my other two children. Longing for that conversation that I will never have with my daughter or son. Longing to hear the voice of that child call out to me and say Mommy I love you. Words cannot express the turmoil that lives inside of me always. The very word "abortion" makes me cringe and I feel so very ashamed of myself. The years do not heal the pain nor take away the shame. My heart aches for my baby and all those millions of babies that never had a chance in life and for all those that will be aborted as I write this. God help us all. May He have enough Grace to forgive us all.

10. How has your abortion affected others in your life?

My husband never talks about it, but I know that he also shares the same hurt and shame that I do. No one else knows about our abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not do it. It will affect you for the rest of your life. Years will not help you forget, years will not heal the pain nor take away the shame. A child is God's gift to the entire universe, do not hurt The Giver of Life nor refuse His precious gift to you. This precious child deserves a chance in life, just as you yourself had.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Do not hurt this nation any further. Stop this march into madness. Let us be a nation of Love and Godliness, not a nation of selfishness and self-importance. Let us show the rest of the world, that our Giver of Life reigns, that all that He gives us is a precious Blessing.

QUESTIONS

1. Where and when did your abortion occur?

Poughkeepsie NY

05/17/1976

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

Unsure of what it was called, but it was done by suction machine.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had nothing explained to me and to this day am not even sure what was done.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no explanation of any physical or mental consequences of abortion. Nor were there any information about what would be done.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Baby's Father, the baby's "grandmother" and "aunt"

9. How has abortion affected you?

I have spent the last 30 years feeling guilty, getting emotional, feeling that by only being able to have had one more child I was being "punished" for my actions.

10. How has your abortion affected others in your life?

I have been to embarrassed about this to have ever spoken to anyone about it.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that it was the biggest mistake I had ever made, that there are many other options that don't involve the murder of your own child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That this is an experience that has lasting detrimental effects to not only the mother, but the father and

all other family members involved. It should not be so easy to take a life. Unfortunately in many cases it takes years before the actual anguish that an abortion causes to surface.

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It changed my life forever. It completely destroyed my spirit. I went through severe depression, alcoholism, suicidal thoughts, etc. I had to move from Austin because I was on a road to destruction. It is something that I will REGRET for the rest of my life!

10. How has your abortion affected others in your life?

My ex-fiance and I ended our relationship due to the abortion. My mother also suffered severe depression. I was so ashamed of what I had done that I did not want anybody to know.

11. Based upon your experience, what would you tell a woman considering abortion?

I would say that LIFE is a gift from God, something that we can not and should not interfere with. Abortion is wrong and it will affect you for the rest of your life. It completely demoralizes you, it will lead to depression and severe anxiety.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that Abortion is Murder, not only to the baby, but to the woman. Abortion killed me. It ruined my life.

9. How has abortion affected you?

Horrible regret, shame, guilt still can't really talk about it to this day.

10. How has your abortion affected others in your life?

The shame and pain is still so great after 17 yrs

11. Based upon your experience, what would you tell a woman considering abortion?

Please dont, it's a life. Adoption is a noble and loving thing for your child which has a right to live. 10 months of carrying that baby if your young and scared is nothing compared to a lifetime of heartache, sadness, guilt, regret and shame that comes with an abortion. All babies are God's created beings and have a right to life just as we do.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Murder should never be a legel option. I wish at 15 I would not have had the option of killing my baby. I wasn't in the frame of mind to make that type of desicion morally being scared, underage, confused. If that option would have not been there, my baby would be alive today and I would not be paying this price for my actions. Please stop it.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Dallas

My name is Nikki Waltrowski. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Craig CO

02//1979

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

it was like a d and c

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not even told what kind of abortion, but was told that I would have cramps like a period during and afterwards. As it was the doctor poked a hole in my uterus and all kinds of things went wrong and I had to have emergency surgery. I almost died. When the doctor made the mistake, he panicked and left me laying on the table with two nurses standing over me looking horrified and I'm laying there listening to this doctor hollering and panicking in the background. Next thing I know, another doctor has been called to come and do emergency surgery on me. When I woke up, I had all kinds of things hooked up to me. I almost died. Then I found out later that the doctor who did the surgery on me wasn't even licensed to do that kind of surgery. Then I had to be on a special diet for awhile. It took along time to recover.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no explanation!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

After the abortion and having to have emergency surgery I had quite some time to recover from it all. About a year later, I started having anxiety attacks and they got worse as time went on. I was on the verge of a nervous breakdown, when I discovered that it was all from guilt over the abortion. Then I asked the Lord into my life and He delivered me from the guilt and over time I could receive His forgiveness and forgive myself.

10. How has your abortion affected others in your life?

Fortunately, years later I volunteered at a pregnancy center and was able to talk to girls coming in to get a pregnancy test. I always asked them if I could share my testimony with them and if they said yes, then I told them exactly what happened to me and I have to say that 100% of the ones I talked to decided NOT to get an abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

I would share my own experience with them and tell them that there is a better option. There are so many people out there that want to adopt and it is a much better option for one's health and for their emotional welfare. Women are not told how it will effect them emotionally.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell a court that if they want to keep abortion legal, then they need to make it mandatory that Planned Parenthood and ALL doctors have to explain in detail to their patients what kind of abortion they are going to do and what the consequences could be on that patient physically and emotionally. I would also tell them that it amazes me that men make these laws for women and have NO idea what a woman goes through or even how their bodies work and they make the law on abortion so non-chalantly.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Angelina

My name is J W I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Hagerstown MD

08/26/2001

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

I'm not sure what it was called, but the cervix was dilated and suction was used.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I remember talking to the counselor, who informed me that she had an abortion when she was younger and it was the best thing she ever did. The counseling and informing session was only 5 minutes long. The family planning office in my home town simply offered the option of abortion and gave the information on where I could have one, but did not truly inform me that I was ever carrying a "baby". They never offered an ultrasound or suggested that I talk to my parents. I was 17. I told only my boyfriend. We were scared and in denial, and thought there was no other way. When they took me into the procedure, they were supposed to use a local anesthetic. I did not feel any kind of anesthesia. It was the most painful experience in the world! Then they took me into a room with other women to sit, drink a small cup of soda, eat a cookie, check my pad, and send me on my way. We lived in Pennsylvania at the time, which requires parental consent if you are under the age of 18. I was 17, so we drove across the border to Maryland one day. We told my parents we were going hiking, left early in the morning, and returned that night. No one ever knew. I bled heavily for a month afterwards. I didn't know that was not normal. I had excruciatingly painful cramps. During the month following the abortion, I went straight back to playing field hockey, and then started my senior year of high school. My friends said, "man your periods can be bad sometimes, huh?" I had to carry on the charade.

5. Were you adequately informed of the consequences of abortion?

Yes No

They briefly listed possible side effects, but did not prepare you for the actual procedure, or the post operative and recovery phases. The only thing they prepared you for was being free from the responsibility of being pregnant.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Fear, shame, guilt, selfish desires and dreams.

9. How has abortion affected you?

I used to be a very outgoing and positive person. I was happy, loved life, and loved to lift up others. I was going to accomplish great things. When I had the abortion, I was 17, just about to start my senior year of high school. I was a field hockey and softball star and I thought there was no way I could miss out on my senior year of sports because I was pregnant. Also, my parents had great expectations out of me. I was a straight A student, going to college, I was going to make a lot of money one day. After the abortion, I continued to act out the part of my old self, all the while I was dying on the inside. I became introverted, I hated myself, I hated what I had done, I was alone. I knew my secret could never get out because of the effects it would have on my parents. I knew they would be so sad and hurt that they could never know. They still do not know and that will always bother me, but how can I tell them? I wanted to have a baby from that point on. My boyfriend and I did get pregnant again later, we had the baby, and are now married~but it was a long road. I still have very low self-esteem, and suffer from sexual dysfunction. I don't really enjoy sex most of the time. It reminds me of what I've done and who I used to be. I hate that person.

10. How has your abortion affected others in your life?

After the abortion, my boyfriend dove deeper into drugs and alcohol. He eventually got to the point of using cocaine. He was covered in shame, guilt, and remorse. We somehow stayed together~probably because we were the only ones who knew what we had done together. God kept us together. God saved us. If it wasn't for God we would still be fighting a losing battle against the evil of our sin. Also, both of our parents do not know the truth. If they ever find out I know they will be so hurt. That is a burden we will both carry forever. My son is missing out on an older sibling.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't do it. Read my story, talk to God. Don't be scared, you can have a baby, go to school, and fulfill your dreams! You don't have to choose one or the other.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Women who chose abortions are not in the right mind. They are in shock and denial. Give them two weeks, and they will change their minds. Give them an ultrasound, and they will change their minds. Give them proper counseling, and they will change their minds. Why are we making it possible for our generation to not have to face the consequences of their actions? We must be held accountable for our actions. That is a baby! There is no way to deny the fact and the truth that women are committing murder daily, and our society is encouraging it. Would you make your wives or daughters have an abortion? How would you have even been here if your mothers had made that choice? Are you just a lump of tissue? Then why do you call them that? Scientifically, that is a baby!

HOW MY ABORTION AFFECTED ME

The State of KS

County of Sedgwick

My name is Mary I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Wichita KS

10//1983

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

unsure as I was heavily sedated by the nurse at doc's request when I protested having the abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I went to George Tiller's clinic where they showed a video, but you weren't required to sit and watch it. Honestly, I was have serious doubts about an abortion especially seeing the young girls who were heavy with child.

5. Were you adequately informed of the consequences of abortion?

Yes No

We were put in a room as a "group" and were not encouraged to ask questions.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

friends and family

9. How has abortion affected you?

For several years I struggled with depression and guilt that I killed my baby even though I told the doctor I had changed my mind. Then when I married a few years later I had a miscarriage and difficulty getting pregnant, which added to the guilt as I knew the abortion had caused damage to my uterus. I had a hysterectomy when I was thirty years old.

10. How has your abortion affected others in your life?

My husband saw my difficulty accepting myself and the results of the decision I made.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! The emotional pain you suffer is so hard to overcome. Also, the physical complications are evident. I haven't met one person who didn't have difficult pregnancies after having an abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That the courts have made it too easy to kill an unborn child. I would rather see something done to prevent pregnancy rather than use abortion as a form of birth control. When a woman has an abortion something is stolen from them that can never be regained emotionally and physically. We need to teach young people about self-control and responsibility instead of instant gratification and removal of the outcome of irresponsible behavior.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of Bexar

My name is R W I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Santa Ana CA

10/15/1976

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

DNC

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I didn't realize until years later that I became pregnant because I had been raped. I was so ashamed and so frightened. I knew the child's father, who later proclaimed to be gay, and said that "I would lose everything if I had the baby." All I remember was being unbelievably frightened. I remember wanting that baby, no matter what. I knew my parents would not understand, so they didn't know (at least my father didn't) know until 5 years later before my son was born. My mother figured it out.

5. Were you adequately informed of the consequences of abortion?

Yes No

All I knew was that the baby would be taken from me, that it didn't have a heartbeat, that it was just a blob of tissue, as so many people have been told. I was not told about the physical pain -- and, believe me, it DOES hurt!! My child was ripped from my womb, and it was the worst pain I have ever experienced in my entire life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The baby's father

9. How has abortion affected you?

Unbelievable depression. All I wanted to do was die. That experience left me with the worst pain I had ever felt in my entire life. Physical pain. As the doctor was doing the procedure (taking my baby's life) I couldn't stop crying, and all he could do was scream at me that "if you don't shut up, I'm going to knock you out." I cried and cried and cried. For years, on the anniversary of my baby's death, I cried and remembered. I finally went to a memorial service for him about 5 years ago. That was the first time I was able to, as I was being anointed, utter his name in public.

10. How has your abortion affected others in your life?

When I became pregnant with my son, again unmarried, my baby's father asked me if I would abort this child. I told him in no uncertain terms, NO, NO, NO. My son's father has refused to have anything to do with my son, because he didn't want to "hurt his family." I nearly lost my military career because I chose to have and keep my son. It was the BEST decision I could have ever made in my life. I am now a grandmother of three beautiful little girls.

11. Based upon your experience, what would you tell a woman considering abortion?

To HAVE her baby. I have done that to many women who were considering abortion. I would tell her to go have a sonogram, even if she had to pay for it, to look at her baby and see that it HAS a heartbeat, that it begins moving almost immediately after it's heartbeat begins at 18 to 23 days. I would tell her that being pregnant is a gift from God, even if she decides not to keep that child. I HEARD MY SON'S HEARTBEAT AT THE AGE OF 28 DAYS, AND IT WAS STRONG AND STEADY. TWENTY-EIGHT DAYS!!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That they are wrong. My baby was a result of an act of violence -- an act of rape. For many years afterward, I refused to acknowledge that my child's father was a murderer - and he was. I wouldn't have had the abortion had I not been forced into it. I don't want women to die because they have illegal abortions either, but taking the life of a child, any child is something that has very serious consequences on everyone involved. I believe the state can and should set up volunteer organizations to help these mothers get through their pregnancies, and I believe there are many, many women who would like to help with that. My son, Brian, would be 35 years old in June. I still remember him. I still pray for him. People ask me, "how do you know it was a boy?" Well, I KNOW!! Mothers know what gender their children are. Mothers shepard those children into the world. Mothers LOVE their children, no matter what, even if they refuse to acknowledge it. I believe that partial birth abortion, and late term abortion, especially, are acts of murder. There are plenty of parents out there to adopt those children, to shepherd them into the world, to give them a home.

1. Where and when did your abortion occur?

2. How many weeks pregnant were you?

3. What type of abortion was performed?

Dilation & Curattage - I think (I have blocked some of the memory of it)

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea that I would be depressed & that having an abortion would affect my emotional state

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Mom

9. How has abortion affected you?

depression; difficulty in "attachment" relationships with my husband & children; difficulty in relationship with my Mom; difficulty in concentrating or staying focused on a task because of daydreaming & feeling regret & sadness; inability to trust people - men & women & also trusting my personal judgment

10. How has your abortion affected others in your life?

My Mom - I lost trust in her & had an undercurrent of anger towards her, she also died as an alcoholic, chain smoker & was diagnosed with "psychosocial disorders"; because of my fear that my children might one day become pregnant out of wedlock, I became very "over protective" or paranoid about their relationships which I believed caused them to have difficulty developing healthy relationships

11. Based upon your experience, what would you tell a woman considering abortion?

Just because it is "legal" doesn't mean that it is an instant solution. You may think that it will be a quick fix, but the reality is that now we know for sure that from the moment of conception that science shows LIFE begins when DNA is present, it responds to touch & metabolism occurs. The father of your baby will be affected also. It affected me physically, emotionally & spiritually.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I had my abortion (1968) before it was legal & my Mother did also. She encouraged me to have one because she told me (when I told her that I was pregnant)that she'd "had an abortion, had been able to deal with it just fine & believed that I would also". This was all news to me! In her later years she told me that her beliefs about abortion had changed & I assume that was her way of asking for forgiveness. She'd become an alcoholic, chain smoker, & had what was diagnosed as psychosocial relationship problems. I truly believe that her low self-esteem, promiscuity, & relationship problems stemmed from her abortion. It became a snowball of dysfunction. Since legalization our nation has aborted millions of babies, created a nation of promiscuity unhealthy women, men because we ascribe abortion as birth control! A sad nation indeed where we don't hold ALL life in high esteem!

HOW MY ABORTION AFFECTED ME

The State of TX

County of Hunt

My name is Jolean I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

11/02/2002

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Suction Aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

Nobody at the clinic offered me any information that might change my decision. No referrals to adoption agencies or other "Pro-Life" organization. The possibility of post-abortion depression was also not explained to me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother, I wasn't 18 & she gave the consent.

9. How has abortion affected you?

Immediately following the abortion I spiraled into severe depression, it was almost as if as soon as I came out from the anesthesia I was gravely aware of the horror I had just committed. I was also haunted by the memory of the beginning steps of the procedure. When I 1st started to go under I began to question the practitioner about what was going on, I became very uneasy and felt distressed. When I actually tried to sit up on the table and confront the practitioner another woman (who was a student doing clinical training) held my shoulders and told me to relax. The last thing I remembered was being guided to lay back down, staring up at the ceiling tile (which was painted with a portrait of sunflowers) and crying. This is a memory I have lived with ever since. To this day I cry if I see sunflowers, I avoid gynecological exams, and every November 2nd I struggle with overwhelming depression, darkness and

despair. Of course it's worse in November, but not one month goes by when I don't think about this horrible, life changing, life ending, mistake.

10. How has your abortion affected others in your life?

A secret as deep and dark as having had an abortion is not an easy thing to share with anyone, so I never did - not until I was about to marry, I felt my husband had to know the truth. It was as difficult for him to hear as it was for me to share. The look of disappointment on his face cut to the bone. To this day I have harbored resentment toward my mother who consented and paid for the abortion. Our relationship has never been the same, and on multiple occasions she held the abortion over my head, making the guilt almost unbearable. This experience is like a never-ending grief, not the kind where eventually you can let someone go, but instead you grieve over and over. My husband and I are now experiencing fertility problems, which leads me to ask.... did I murder my one and only chance of having a child?

11. Based upon your experience, what would you tell a woman considering abortion?

On November 2nd 2002, when I had my abortion, not only did my innocent child die, but so did my innocence. I would never be the same. Nobody told me the risks, the consequences, the options. This is a decision you can never undo, you can never erase, you can never fix.... and the consequences will last the rest of your life in the form of regret, depression, despair, anger, and haunting memories. Just don't do it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe that the negative impact of abortion on society, the women, the families and relationships, is irreversible and a abomination to everything this country stands for. People try to say that women should have the right to choose, the truth is, the unborn child has as much right to live as we do. And what about the Fathers? Do they not have a right to decide what happens to their unborn babies? What kind of justice system wont stand up for the most innocent life, the life that is unable to defend itself. Abortion doesn't just destroy one life, it is a far reaching cancer that slowly erodes the family "from the inside out".

HOW MY ABORTION AFFECTED ME

The State of TX

County of Bell

My name is Molly White. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Austin TX

04//1981

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

DNC

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I asked about fetal development of my baby at 8 weeks gestation and was told "it" was just a tiny dot of cells. The receptionist put a dot with a pen on a piece of paper to illustrate the size.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told there was absolutely no risk. I was also told the procedure would only last about 20 minutes all together. I asked about pain and was told it would feel like I was starting my period and that I may also feel some tugging and pulling but it would not be very painful. What a joke! The pain was excruciating and I bleed profusely.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The abortion clinic staff.

9. How has abortion affected you?

Guilt, shame, grief, anger, rage, suicidal ideation, panic attacks, anxiety, fear, sexual dysfunction, drug and alcohol abuse, bonding issues with living children, relationship disorders, trust issues, difficulty in making decisions, emotional trauma, nightmares, flashbacks, anniversary syndrome, difficult pregnancies and deliveries, debilitating depression during holidays and family gatherings, break in trust of the medical profession...

10. How has your abortion affected others in your life?

Two divorces, intimacy and trust issues in marriage, anger and resentment with family members, my children suffering from the effects of an emotionally traumatized mother, anger towards men...guilt

of those involved in the decision, break down of family closeness and trust.

11. Based upon your experience, what would you tell a woman considering abortion?

The trauma of abortion will effect you forever! Your life will never be the same. You will regret aborting your child and nothing will replace your child lost through abortion. You will never regret being a mother. Don't Do It!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Legal abortion is the greatest form of injustice to mankind and the greatest form of exploitation of pregnant women. By allowing abortion to remain legal you are condoning the killing of children and violence against pregnant women.

Parents pressured, doctor forced me.

9. How has abortion affected you?

Completely emotionally shut down. I became a walking dead woman for 10 years afterwards. Dead to my feelings, dead to emotions, except anger, completely blocked the memory out of my mind just so I could cope with living.

10. How has your abortion affected others in your life?

Separated from parents for over 13 years. Two divorces, bonding and intimate issues with children and husband I have been married to for 20 years. Relationship problems with husband and children and extended family members. Unhealthy bonding to my nephew who was born just a few days after my first abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! The trauma of abortion will change you forever.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I would say that the Supreme Court Justices are responsible for the slaughter of millions of innocent children and the exploitation of millions of women. Legal abortion has led to the total breakdown of our society and the remedy lies with you.

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

d&c

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Specifics were not given about how the baby was removed.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nothing was said about the psychological problems it may cause.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my boyfriend

9. How has abortion affected you?

It has caused me extreme guilt and sadness, even after having had children of my own. I think about my baby at least every other day and how old he/she would be and how he/she would fit into our family. I rehearse in my head over and over what I will say to her/him one day in heaven when asked, "Why did you do that to me?"

10. How has your abortion affected others in your life?

My boyfriend at the time and now husband, is overridden with guilt even though he knows he has been forgiven by God. He takes so much blame because of the pressure he put on me, even though I have reassured him that it was my choice.

11. Based upon your experience, what would you tell a woman considering abortion?

Please consider adoption. Even though that would be difficult, at least you will know that you didn't kill an innocent baby and won't feel the guilt you will feel for the rest of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion ONLY ruins lives. It will not make any situation better.

baby's father

9. How has abortion affected you?

I have tremendous guilt and deep sorrow for what I've done. Think about my baby all the time. Constantly worried about getting breast cancer. Had lots of female problems following the abortion.

10. How has your abortion affected others in your life?

Didn't tell too many people at the time. Have since told my children. They were shocked and very hurt.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion is never the solution to your problem and never a good answer for you or your baby. It is a decision you can never take back. All you gain by an abortion is more problems.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion hurts women, children, and families. A society that kills innocent pre-borns for convenience

will ultimately fail its citizens.

9. How has abortion affected you?

extreme mental anguish & spiritual turmoil over my choice to kill my baby. It has been more than a decade and I still think of it almost daily.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't do it; there is a baby in your womb and you would be murdering it. Look at the sonogram, see the heartbeat, know that it is a living person. No one's perspective of you is worth killing a child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It's not, there is no reason to kill a child. Rape, incest, etc is still no reason.

9. How has abortion affected you?

It has affected my relationship with people around me. It has affected the way I perform in school. I am a wreck and always turn to the wrong things to cope with my abortion.

10. How has your abortion affected others in your life?

It has affected mine and my boyfriends relationship to where we are on an off all the time, and always arguing and fighting.

11. Based upon your experience, what would you tell a woman considering abortion?

That I regret my abortion everyday, and I cry all the time wanting my baby back. It completely changes your life in a way that you would not ever want. There are so many other options that you can choose besides abortion. You will think about your baby the rest of your life wondering what they would look like or be like.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The abortion clinics NEVER tell you the emotional side effects of having an abortion.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Harris

My name is Januari Works. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Houston TX

06//1965

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Saline

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The first abortion I had was illegal at the time, done by a 'nurse' in a private residence. The second abortion came in 1975 at an abortion clinic.

5. Were you adequately informed of the consequences of abortion?

Yes No

The first abortionist said nothing to me except that I would be sick for a few days. At the clinic, they hardly spoke to me. It was "pay now", "put on this gown", "okay, your done; get up"; "wanna see the fetus?"

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It wasn't until years later when I became a Christian that I realized that I had murdered my own children. I was devastated emotionally, overcome with guilt and remorse realizing what I had done and that part of my self destructive attitude stemmed from these two experiences.

10. How has your abortion affected others in your life?

No one ever knew about them until I came to Christ. My husband has been very supportive and careful in helping me to work through my 'issues'.

11. Based upon your experience, what would you tell a woman considering abortion?

I wonder about all the children that we have robbed of their chance to live. I would ask someone considering an abortion what they would have thought had their parents decided to murder them? I would ask them who will fill their child's shoes when they are missing from this earth? I would ask if their unborn child has as much right to live as they do?

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I know first hand what it feels like to think only of myself, my rights, my life, my body. I also know first hand what it is like to be 62 years old and have no legacy at all, no child to care for me in my old age, no grandchildren to love, no memories to cherish. I watch my nieces and nephews and have no child that they would call cousin. I know first hand how the awkward seconds slip by when people ask me if I have children and I have to answer "no" when everything in my heart and mind is screaming out "I have 2 children, but I killed them both!" Was the "convenience" of the moment really worth the irreplaceable void in my life now?

9. How has abortion affected you?

Guilt, Depression. Each year at the same time, I think of my unborn child and the age they would be now.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

It will affect your life more than you know. Right now, you think it's the easy way out but it will cause

you pain for years to come. It's not worth it and you will miss years of joy that your sweet child will bring you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is a choice made by man. The only choice their really is, is to either not have sex or use birth control. If you choose sex then you should live with the consequences of those choices. That's the way the rest of our choices in life work. It is not a God-given choice to abort.

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

complete abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was never told that my child was fully developed and that my child had a heart beat. I had no idea what abortion was and what it does. I now know that abortion is cold blooded murder and it is against God will.

5. Were you adequately informed of the consequences of abortion?

Yes No

No I was not informed of the consequences of abortion. Nobody told me the aftermath of aborting a child.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I've been tormented day after day and year after year. At times I became depressed and had thoughts of suicide. I experience mental and physical stress. I have heavy bleeding when I'm on my period. Yes aborting my babies has affected me.

10. How has your abortion affected others in your life?

Yes my children that I had after each abortion I can see the aftermath in them and how it causes them to have sudden outbursts like anger, slow movement and mental distress. Both children experience drugs and one had thoughts of suicide.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not have an abortion that it is what it is murder and it will torment you mentally and physically. If you are planning on having children later on it will affect them. Abortion causes more harm than you could

ever know. Even thou I had an bortion when I was 20 years old years it still hunt me tell this day and I am now 44 years old.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That abortion is murder and it cause more harm than ever. Nobody has the right to murder their unborn child. We were given a chance to live so lets give our unborn children a chance they can be our next generation of people that will make a great possitive impact in our world.

9. How has abortion affected you?

physically my monthly period is very heavy an over flow of blood. It causes me to have anxiety attacks, thoughts of suicide. Depressed not knowing why I'm depressed. Out burts of anger. toremented in my mind thinking about what I have done. Are my children in heaven or was they a girl or a boy, how would they look and their age.

10. How has your abortion affected others in your life?

I can see the aftermath of abortion in the two children after the abortion. And my husband that has no children wonders what if. because I aborted his child and I know that child could have made a defference in our lives.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do abortion is what it is cold blooded murder and it will cause you harm I had my abortion at a young age and now I am 44 and still suffer the pain of a bortion mentily.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

A bortion should be an criminal offence. It is cold blooded murder. No body has the right to take a life. Consider this; you have a seed of a certian plant ,you plant it in the ground.You water and the seed began to grow.You are waiting paciencely espected to see how beautiful it will be at the appointed time. But all of A sudden someone comes and uproot your plant destroying the seed. and noe your plant nolonger exist. A life taken without any reason or just because someone felt that it wasn't the right time for that plant taht they can always plant another one later. Life starts with a seed and when you uproot that life (abort) you are destroying God creation just like plants they bring oxgen to the earth in order for us to live. Uborn children can bring a possitive change if we only let them live.

HOW MY ABORTION AFFECTED ME

The State of TX

County of Upshur

My name is Megan I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Norman OK

04/27/1993

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

unknown

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was only informed of the Health risks to my body not to my mind.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have a constant feeling that someone is missing in my current family. I am unable to forgive myself even though I know that I have asked the Lord to forgive me and he has. I feel obligated to make restitution for my acts in the taking of my child's life. I am undeserving of letting go of my emotional scars and therefore, I am unable to let go of the pain that I know I inflicted upon my own flesh and blood. There is not a day that goes by that I do not wish I had not taken my child's life. Maybe it is true that my child would have been born with FAS and that I would never have achieved the goals I have, but I know that I would not have the sin or guilt of murdering my own child on my thoughts and in my heart all the time. I know now that no accomplishment meant more than my own child.

10. How has your abortion affected others in your life?

It has placed a wall between individuals that I love and that love me. I feel that I am a constant hypocrite in the eyes of my elders and loved ones. (And if they ever knew what I had done they would be ashamed of me)

11. Based upon your experience, what would you tell a woman considering abortion?

Exactly how the experience has left my mind, body and soul. I would then ask if she would be willing to

let me serve my Lord by allowing me to adopt the wonderful gift that he created his own image.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

What is the difference between the heartbeat of the life inside of you and the heartbeat of the life that snuggles up to you for a goodnight hug and sugar. Now that I have carried a child to term I know that the bond and LOVE between a mother and child starts at the moment of conception.

Cheerleading Coach

9. How has abortion affected you?

I am very ashamed and wish I could take it back. I was only 17 and wish I would have had a better understanding of how serious my decision was. It was only when I started going to church that I realized what a sad and disheartening thing I did at such a young age. Although I feel I have been forgiven for my mistake I still think about it and it brings me sadness especially since I know how much joy my 2 children bring me... the greatest joy imaginable. That same joy could have been mine or someone else's had I made a different decision.

10. How has your abortion affected others in your life?

I married my high school sweetheart and he tried to stop it so it has definitely affected him. I think my mom feels ashamed as well, but I have never talked to her about it since.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not do it! No matter what there are always other options that are way better! I had the most horrible feeling afterward and still do when I think about it. I know now it was plain wrong for me to do and that it

should not have been an option.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If abortion wasn't legal then a child of God could be alive today! I should have taken accountability for my actions and went through with the pregnancy and face the challenge of being a teenage mom or giving the baby away to another deserving family. I ended up marrying the father and have 2 children with him and I know it would have worked out no matter what I decided, just not the abortion! It is not a freedom of choice issue when you are jeopardizing the well-being of another human being.

My boyfriend at the time

9. How has abortion affected you?

It lowered my self confidence for a while, and that is the reason that I stayed in my last relationship, that became physically and sexually abusive.

10. How has your abortion affected others in your life?

My parents saw how my moods were changing, and how the relationship changed because of the abortion. I ended up telling them that I had a miscarriage. During the time that I was bleeding, I was also taking care of my child because the guy wasn't there.

11. Based upon your experience, what would you tell a woman considering abortion?

No Answer

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I only made the "choice" to have an abortion because I already had a child and I was depending on help from my family. My boyfriend at the time pressured me into having an abortion and I was extremely depressed at the time. I wanted more comfort, not stress so I gave in to what he thought was "best." My son's father wasn't involved at all financially, so I didn't want to be put in the same situation. I wish there were more people to understand these types of situations and to realize that people make decisions that they would typically view as violent, only because they are being pressured. I had been pro-life and I was going to have this second baby, but I went to clinics because I didn't want my parents to know right away that I was pregnant. I didn't have insurance, so Planned Parenthood kept referring me to abortion clinics. It felt like a passive choice. I am well informed on embryonic development because of my major, and I realized post-abortion that they did not inform me on how far along I was in an accurate measure. I also learned that when something that should be about individual choice is made legal, they are coercive techniques to make others support the "issue."

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

The pain goes deeper than I know how to say. It was my "choice" and I will live with it and die with it. I am so very sorry. If I could die so that my child, the child I aborted, could have life, I would make that trade in an instant.

10. How has your abortion affected others in your life?

I don't know.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion is the wrong choice. It is not life giving, it is life taking. Be a mother, it is beyond a shadow of a doubt, the greatest thing you'll ever be.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Who made you God? Who are you to choose between life and death. Abortion is death, nothing else. It was a very dark day in America the day that abortion became legal.

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed that I would experience any form of depression nor was I told that I would have physical problems as a result. I went through depression and tried to hide why, which only made it worse! I struggled with "secondary Infertility". My first pregnancy after the abortion I experienced bleeding and placenta previa due to the scar tissue on my uteran wall. I had a very difficult time getting pregnant. It took 4 years to have my second live birth. I have had 2 failed pregnancies after my two live births. No one told me the effects it would have on my ability to conceive again. The abortion was tramatic, half way through the procedure the doctor said we would be done in normal cases but it seems that you were carrying twins!! I would NOT have aborted them had I known!!!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My step-dad & the clinic rushed me through it

9. How has abortion affected you?

I will never forget the day it happened, I will never forget their birthday. I have gone through many years of depression, guilt, anger, physical ailments from the stress of it. I have had a VERY difficult time conceiving, and have been diagnosed with secondary infertility. One pregnancy i had bleeding with placenta previa because of the placenta's attachment. Second pregnancy took 4 years. Fourth

pregnancy was miscarried. I have always wanted a large family. I am almost 40 and have two children.

10. How has your abortion affected others in your life?

I dont know the effects it had on the babies father we didn't stay together after it. It effected my previos husband because we couldn't have kids. We were married and tried for 5 years. My current husband & father of our two kids has been effected by it because he always wanted a large family too. And he mourns when I mourn, He hurts when I hurt.

11. Based upon your experience, what would you tell a woman considering abortion?

Stupidous thing you could ever do! I has the potential to kill you. And if it doesn't kill your body it could severly ruin it for any future child bearing. It messes with your emotional mind and your spiritual being as well.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

NO human being has the authority to kill another human being! A mom cannot kill her infant, child, or teenager. And yet we allow them to kill the baby that they carry. The whole purpose of carrying a child is to protect it from the outside world, because it wont survive on it's own. Abotion is killing people! And it's one of the worst forms of murder because it kills the innocent and unprotected!! And the killing parties go scot free. Killing parties are... Mother, Father, clinic, doctor, law makers/judges basically anyone who condones this gruesome assault & battery that turns into 1st degree Murder!! And you condone this?

2. How many weeks pregnant were you?

3. What type of abortion was performed?

scraping

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It wasn't legal in Salt Lake City, so I went to California, at a Catholic hospital. I think they frowned on it so were quite harsh and only offered a light tranquilizer. The pain was intense and we were released about an hour later. I think they wanted us to suffer and to remember. I have. It wasn't until I accepted Jesus as my Savior that I realized that I had murdered my child. I am forgiven but it doesn't change the fact that I deprived a soul of its chance to live.

5. Were you adequately informed of the consequences of abortion?

Yes No

After coming to the Lord I was active in abortion counselling. That was when I learned just how devastating it can be to a woman.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

my husband - it wasn't his.

9. How has abortion affected you?

I got off lightly, praise God.

10. How has your abortion affected others in your life?

My sons were very hurt when I confessed, knowing they might have had a sister or brother.

11. Based upon your experience, what would you tell a woman considering abortion?

I would encourage her to bring the child to term and get a lot of counselling, whether to keep it or to give it up for adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I don't believe a woman should be punished or that it should be illegal. It is murder in my mind but I can't force my beliefs on others.

6. Were you informed of any link between abortion and breast cancer?

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

The regret is a huge weight that I carry around. I am thankful for the forgiving mercy and grace of my Lord and Savior Jesus Christ who washes me clean. I still drift to the questions of "Who" and "What Purpose" this child had within God's plan. Oh, to be able to go back, but left in regret, because I chose "death" instead of "life", because of selfishness. I look within my children's eyes, who God has blessed me with, and I love them more than I could ever imagine. How and why did I not see this love in the midst of my situation. I was blind, deceived and bought the lie, that it was a choice and an option. Little did I know I chose the option to die over and over and over every Valentines Day as I remember the life that had no voice, that was lost, because of my choice.

10. How has your abortion affected others in your life?

When my mind drifts to the regret, I have to believe and stand on the forgiveness of my Lord and Savior. It does not change the decision I made when I was 20, but it does help me to forgive others and see others thru the lens of compassion when they fall short in life.

11. Based upon your experience, what would you tell a woman considering abortion?

Choose Life and Live and let Live...< For that is True Love.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That they are deceived and deceiving many and will be held accountable for the innocent blood being shed.

1. Where and when did your abortion occur?

VA

//1970

2. How many weeks pregnant were you?

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't recall being told what the actual procedure was like.

5. Were you adequately informed of the consequences of abortion?

Yes No

I wasn't informed about any consequences of abortion, physical, mental or emotional.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I had no idea that throughout my life I would regret my choice. I was not advised that the cells that I had removed from my body were really a living being. I wasn't told that there would be very few holidays that I would not think about what my unborn child would have been like and what he or she would be doing. Once I had children my decision impacted me even more that before. I am missing a child of God in my life.

10. How has your abortion affected others in your life?

My parents, myself and my boyfriend were the only ones who knew. We never talked about it. I told each of my 2 husbands after my marriages and they both were surprised and disappointed.

11. Based upon your experience, what would you tell a woman considering abortion?

I would give the same advise that I gave my foster daughter who was pregnant when she came to us.

No matter what decision you make, you will have regrets. If you deliver your baby and keep it, there will be days that you will wonder what possessed you to think that you could raise a child. If you choose to give your child up for adoption, certain days will create a hurting in your heart beyond belief. If you abort your baby, even if you don't think now that it is murder, you will probably discover later in life that it is morally wrong.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I had to tell a psychiatrist that I had "thought about jumping off a cliff" in order to be able to have a "legal abortion". I didn't know the impact this would have on my entire life. How can a person who kills a fetus when he/she kills a pregnant woman can be charged with a homicide, but the mother who kills her fetus is exercising control of her body. When people choose to mutilate their bodies (by cutting, suicide, etc) they are considered mentally or unstable. But you are stable when you choose to end an innocent life in your body? Ultimately, I believe that a life is a life from the time of conception. There is talk about ending the live of a baby in utero when it is "defective". I have a severely retarded "defective" son who was a full term baby. He has people who love and care for him, he is not tempted by all the evil that is facing our youth today, he is happy and loves everyone. He brings so much joy to all who meet him. I would like for you to tell me that he had no right to life because his quality of life doesn't meet someone else's standard.

10. How has your abortion affected others in your life?

Hard to fully extend myself to my surviving son.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT! PLEASE DON'T. YOUR BABY DESERVES TO LIVE. IT IS NOT A CHOICE, IT'S A BABY.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion affects women in ways the doctors and advocates of abortion have failed to state. Abortion leaves women and men hopeless, depressed, physically ill, amongst other issues. This is tearing apart

the very fabric of our nation: the family.

My other children have been affected by the depression and anger. I blamed my husband he blamed me. our children were greatly affected by this.

11. Based upon your experience, what would you tell a woman considering abortion?

don,t wait to find out about the life inside you. if you realise the baby is more than a piece of tissue

before they rip it out of you with a vaccum cleaner you won,t do it. the baby deserves to live and be loved . if you can,t do it there are many couples waiting to love and care for this precious gift.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

i feel like i got away with murder on the outside. inside i have punished myself and others around me who were not even involved in the uninformed emotional decision i made to take a life. God has forgiven me but it is much harder to forgive oneself.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of VA

County of Roanoke

My name is Stephanie I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Roanoke VA

//1996

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

?vacuum?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I did not know what is done to the baby. The procedure was explained as to what would happen to me, not what happens to the baby.

5. Were you adequately informed of the consequences of abortion?

Yes No

The counselor made it sound positive - like my decision was okay and not to feel bad. But I have felt bad ever since.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

The emotional pain never goes away - the guilt, shame and horror of what I did. I know I have been forgiven by the Lord, but that doesn't take away the consequences of what I did.

10. How has your abortion affected others in your life?

I haven't even told my husband or my family because I know it would cause them pain as well. My relationship with my husband has been affected by my past because what I did is always there in the back of my mind.

11. Based upon your experience, what would you tell a woman considering abortion?

Get as much information as possible about the procedure and about other alternatives. Watch an abortion video and see what is done to the baby. Think about 10 years from now and what the child would be like. Find someone to confide in that can be trusted - who values human life - to talk to and support you. I think it's all about support. If the woman had alot of support and felt she could raise the child and depend on support from family and friends, it would make all the difference.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe most cases of abortion are women who made the decision to have sex - and for those cases, that was the decision we need to focus on. We know the consequences of sex and if we chose to do that, it's not right to kill other human beings just because "it's not a good time". Everyone supporting abortion lived. They weren't aborted. What would the aborted say?

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of VA

County of Albemarle

My name is Pat Becker. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Baltimore MD

10//1975

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told my cervix would be opened and the mass of tissue would be suctioned out. No one mentioned the word 'baby' and no one told me how badly it would hurt. No one told me the doctor would be cold and rude. I was only told this was the best thing and my life could go on as normal. It didn't.

5. Were you adequately informed of the consequences of abortion?

Yes No

The only consequences I was informed about was somewhat heavy bleeding and some cramping.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents.

9. How has abortion affected you?

I immediately became pregnant again and realized several months later I could not care for a child and knew of no help available to me to help me care for a child. I aborted that one too at around 22 weeks. My baby was born whole and dead. I spend the next 25 years drinking heavily, taking speed, smoking pot, sleeping with almost anyone who asked, and going through 2 divorces I still sometimes suffer from depression, anxiety, low self-esteem. I have completed an 8 week bible study for post abortive women that has brought healing into my life. I now reach out to other women to help them be released from the bondage and pain of abortion.

10. How has your abortion affected others in your life?

I have not had a relationship with my Dad since the abortion and my mother and I never spoke about it again.

11. Based upon your experience, what would you tell a woman considering abortion?

I try to tell them the truth about abortion with out the grisly details. I tell them about the physical pain during the abortion and the emotional pain afterwards. I try to get them to see that their life will never be the same again...their 'quick fix' now will forever haunt them.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would want them to view a video of an actual abortion and also the video, 'The Silent Scream' so that they would see the pain involved to the mother and the child. I would tell the about the pain I hear from other women so they would know we all end up suffering very much the same way. Legal abortion helped me to kill my 2 babies when I was in no position to make that decision. Then I would ask the court how many of them were post-abortive. I feel the ones pushing the legal abortions have no idea what they are doing.

My name is E B I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Fairfax VA

08/29/1990

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

a D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I just went to an abortion clinic they made me an appointment and I kept it, there was no discussion as we all knew it would be killing a potential baby

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed of the mental trauma of abortion and I suspect if I had been I might have changed my mind because I think about it every March when the baby would have been born

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My father in law

9. How has abortion affected you?

I had hated myself for so long for committing murder and not allowing a baby to come into this world and enjoying the life it should have had with my 2 sons I had drug and alcohol problems to try to not feel the pain which I have just recently in the last 4 years began dealing with

10. How has your abortion affected others in your life?

because of the drug and alcohol problems it made me not present for many years in my son's lives and I was extremely abusive to my husband blaming him and his family but we have all become better through counseling and AA to finally allow ourselves to move on

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them it will never be forgotten that from the moment you make that decision you will never be at peace with yourself that it is a death and you will mourn just as if you lost a baby outside the

womb

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say that that if women are given the chance to see the baby on sonogram that they will choose life because the fact of the matter is that sonograms show that the babies are babies and not just a non descript "fetus" and that those babies should have the law protect them not kill them

Guilt and wonder for decades.

10. How has your abortion affected others in your life?

No one knows except for my mother and my husband.

11. Based upon your experience, what would you tell a woman considering abortion?

The consequences of having an abortion are life altering and for the rest of your life you will always wonder....what have I done?

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

This is infantile genocide. I will fight you, with every thing that is in me, to stop this propaganda that abortion is "Nothing and no big deal". Talk to the women that have walked in my shoes and you will hear a far different story.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I felt ashamed for having had two abortions around the years of college education. I have had to repeatedly ask God for forgiveness because I could not forgive myself for being so selfish.

10. How has your abortion affected others in your life?

I believe that I had a shield around myself which prevented me from trusting others, especially men. Over time I have grown to love people more and myself. I am a better witness and have the capacity to honestly share the love of God without reservation.

11. Based upon your experience, what would you tell a woman considering abortion?

No, I am a committed Christian and no longer believe that abortion is a personal choice.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is killing a life that has the potential to impact the world according to God's devine plan not man's paln.

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Suction curettage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

There was not any type of formal counseling before the "procedure". No one informed me of any possible physical, mental or health risks. There was no explanation of how the procedure was to be done and what I would experience, physically, afterward. No one asked me if I was being coerced into this decision or if I had a support network to turn to.

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My husband

9. How has abortion affected you?

Marriage ended in a divorce, now I realize that the abortion had a significant affect on our relationship. I deal with depression, anxiety and relationship issues.

10. How has your abortion affected others in your life?

My children have one less sibling, my parents have one less grandchild, my siblings have one less nephew/niece. I use my story to positively impact the lives that I come into contact with when they are considering an abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to consider all her options. Consider the short and long term consequences. Consider the physical, emotional and health risks. Make sure that she is fully informed before making that

decision and before she walks into the abortion clinic look herself in the mirror and tell herself what she is about to do.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

After 50 million abortions, the thousands of women who deal with breast cancer, the thousands of women and men who deal with depression that affects their jobs, children and way of life, the thousands of couples who come up infertile...how can we continue, as a nation, to condone the idea of abortion? Abortion doesn't just hurt women, it hurts men, children, families and eventually will be the downfall of America.

Friends and a close relative

9. How has abortion affected you?

Initially I rationalized how this was the best thing, because I was 18 years old at the time and already had an 11 month old baby. It made me feel worthless and numb. I was ashamed of what I had done and lied to the father of the baby and told him that I had lost the baby (acted like I had a miscarriage). For a long time I wondered if it was a boy or a girl and what they would have looked like and what they would have become. When I got married and had more children I realized how much it actually had affected me mentally. I accepted alcohol as a way to cope with the battle in my mind. I went through a terrible period of depression and even suicidal thoughts before giving my life to Christ and experiencing his restoration, forgiveness and redemption.

10. How has your abortion affected others in your life?

My husband now was the father of the baby I aborted, and he was emotionally distraught that I had lied to him. We fought for the first three years of our marriage through the destruction that broken trust causes.

11. Based upon your experience, what would you tell a woman considering abortion?

That if they don't think they can handle having a baby that there are millions of couples who cannot

have children that would love the opportunity to raise that child. That emotionally they have no idea how much this decision will affect them, and without Christ, it will affect them for the rest of their lives. It will haunt the dreams and their future. It could keep them from being able to have children when they do decide they are ready. I personally was herded into an overpacked waiting room and was basically convinced by the staff that I was doing the right thing. I was processed: stripped to a paper gown with my clothes in a basket, taken into a room with the doctor I had never met, with no one to hold my hand, and the procedure was painful, I bled and felt dizzy until the coke and cookies kicked in, then I was sent home with a brochure and a handful of prescriptions to prevent infection, hemorrhage and birthcontrol. All I wanted to do was put it as far from my mind as possible, but it kept flashing through my mind like a scene from a movie. If she could not see herself giving the baby up for adoption, then check local resources for help on bringing this baby into the world and preparing to be a mother.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If I wanted to be pregnant, we would never call the baby a fetus or an embryo, and hearing or seeing the heart beat would be a reassuring sign that a baby would be born and that the pregnancy is viable. We would send out announcements and begin planning the bed room, parties, and making arrangements for the birth. But with abortion, since the pregnancy is not desired or planned for, we use terms to separate us from the human attachment that comes from calling the pregnancy a baby and recognizing it as a living human being. If I decide 1 hour after the baby is born that I don't want it and I kill it or let it die, I will be charged with murder and seen as a baby killer. The only difference between this situation and abortion is time. In both instances, a life was snuffed out undeservingly by my own selfish desires, and not on a scientific principle. When even science proves that the neural tube of the developing baby is already formed by the time a woman can even know she is pregnant, and by 8 to 9 weeks the heart is formed and beating. The damage that is caused emotionally by abortion can account for divorces, failed relationships, alcoholism, drug abuse, child abuse and neglect which are problems which plague our nation even now.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I wasn't told anything about the effects other than I would no longer be pregnant.

5. Were you adequately informed of the consequences of abortion?

Yes No

I wasnt told anything - see above.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

I have felt extremely guilty about it my ENTIRE life. It is the worse decision I have ever made. I still regret it and if there was one thing in life I'd change that would be it. I went years without even talking to anyone about it. My family still does not know about it. Its a hideous secret.

10. How has your abortion affected others in your life?

My boyfriend at the time (my future husband) had no idea how to console me or how to deal w/me. It put a strain on our relationship.

11. Based upon your experience, what would you tell a woman considering abortion?

The inconvenience of carrying a child to term and letting it live - even if it means giving it up for adoption - is SO MUCH LESS than living a LIFETIME of guilt and regret...it cannot be compared. It makes me feel dirty and ruthless to think of it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The same thing I would tell the woman considering it. (above)

2. How many weeks pregnant were you?

20

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I specifically asked about the stage of development. I was told "it" was a "blob" of tissue. I was lied to. If I had been properly informed about the miracle of conception, my baby's heart beat, it's little arms and legs already formed, etc, I NEVER would have had an abortion!

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me about the deep and desperate depression I would experience. I drowned it out with drugs and other risky behavior from my self loathing. Years after finding healing through Jesus I married and during my first pregnancy grieved unrelentingly as I understood my baby's early development. I was inconsolable as I realized that I had done to my first child.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I took me many years to find peace through Jesus Christ and to forgive myself that profoundly selfish act. I still have not been able to tell my children. I still fel shame when remembering.

10. How has your abortion affected others in your life?

I am not certain.

11. Based upon your experience, what would you tell a woman considering abortion?

You will regret it the rest of your life!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that their refusal to hear truth, speak truth, and stand for truth has cost millions of innocent lives and the despair of millions of uninformed woman. I would tell them to repent or be prepared for the terror of judgement day when they stand naked before the Lord.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of VA

County of Prince William

My name is B C I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Johnson City NY

10/30/1981

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

I believe it is called D&C; performed in the hospital after being admitted

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The pregnancy test performed in the primary Dr.'s office came out falsely as negative. I was hospitalized due to the symptoms I was having. Evidently, they were looking for a cyst or tumor and x-rayed my womb. The primary doctor called me in my hospital room and told me they found out I was pregnant. He had already contacted a Gyn to perform a termination of the pregnancy the next day. I was overwhelmed and felt ashamed before my parents who now knew. A girl, probably a social worker of some nature spoke with me at a table outside my room. I do not recall anything she said; I just recall feeling that this life was in jeopardy of being deformed or something due to the radiation. I do not know what the doctors told my mom with regard to the radiation and the health of my child -- If they scheduled the termination because of that or because they felt that was our choice. My mom was planning to talk to me more before the procedure the next day. The next morning I was awakened and told they were scheduling me early. I remember taking a shower and feeling completely overwhelmed and a feeling of everything being completely out of control. They took me in and performed the procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

As explained earlier, The Doctors radiated my womb with a procedure and scheduled the procedure before even notifying me that they discovered I was pregnant. Nothing regarding this procedure was explained to me. Nothing at all.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

I suppose not directly

9. How has abortion affected you?

I awakened as the anesthesia was wearing off with uncontrollable wrenching cries. I could not control this. My spirit was crying out in anguishing emotional pain. Then, someone in the recovery room yelled out very sternly, "NO CRYING IN THE RECOVERY ROOM!!!!!!" I stopped. My life from that day forward changed drastically. I was home from school the next day and it seemed all I saw on TV was diaper or baby food commercials and I can not even begin to describe the impact. I took on an identity of a murderer. My psyche could not handle the stress of being responsible for such a decision of permanent consequence. There is no doubt that I have lived with post traumatic stress disorder and other psychological and physical conditions as a result.

10. How has your abortion affected others in your life?

The trauma has left undeniable physical and psychological effects which have impacted every relationship in my life and how I live every day.

11. Based upon your experience, what would you tell a woman considering abortion?

God will provide. Look for people to support you and adoption is a beautiful option.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Your stance is damaging the lives of so many people. I would just hope these declarations are given serious attention and you come to understand the full impact of your decision. Please realize that all of you in authority who have allowed this procedure to be perpetrated on women and their families owe a great debt to society for the irreparable damage to so many lives. If you are a Christian or believe in eternal life I would hope the fear of God and His guidance would lead you to understand the judgement of God for individuals or a nation that chooses death of the innocent and defenseless ones. Every life counts! Every life matters! Please, Choose to see God's perspective and do not be guided by lies and greed.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of VA

County of Richmond

My name is K D I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Richmond VA

09/24/1985

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had no idea that my baby was so big. I was made to wait until I was at least 8 weeks and now I totally regret my decision. I invisioned a tiny blob with no real features. I feel that I was lied to.

5. Were you adequately informed of the consequences of abortion?

Yes No

I didn't realize that I would have so much emotional pain and regret. I started having vivid nightmares and my life went south from there. It has taken me years to truly forgive myself.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

I was only 17- my boyfriend guilted me

9. How has abortion affected you?

YES! I became empty and could care less about my body. I began drinking and partying heavily trying to run from my emotions. I would have a child 23 years old now and that will always haunt me. I wasn't given any alternative.

10. How has your abortion affected others in your life?

Yes! My ex-boyfriend. I didn't realize just how hurt he was either. We both were hurt and scared. I grew to resent him and soon afterwards left him and broke his heart. We had planned on getting married after high school.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to do it. There are other alternatives to abortion and I wished that I would have been given the facts especially about the stages of pregnancy.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

YES! Because society says something is right does not always make it so. There are things deeper to consider when it comes to taking a life of an innocent baby. My baby had a heart beat and should have had rights. If abortion had been illegal I would not have done it.

My name is Lori I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Chantilly VA

03//1987

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

? dont know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Was given papers to sign to have it done and told I would stay for about 30 minutes to make sure ok afterwards

5. Were you adequately informed of the consequences of abortion?

Yes No

Only given papers to sign and the procedure was done

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Mother

9. How has abortion affected you?

I still think about it today that I wish I could go back and it never happened. I wish I knew what it really was to have an abortion, what it really does to not only myself but a unborn living being. I am sickened to think about because of lack of information and not having a relationship with God to know that it was just ignorance I was young and had no one to tell me dont do it and what it was. Im very sad when I think about it I killed my baby there isnt another word it is murder and I have to live with that

10. How has your abortion affected others in your life?

Nobody knew except my parents and the guy I was with it was kept a secret.

11. Based upon your experience, what would you tell a woman considering abortion?

DONT DO IT !! It will affect the rest of your life what it really is to have an abortion and explain to them if they feel they cant have a child to take care of that there are many who desire to have a child to do this option for the child to give the baby a chance of life just as God intended.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Ask them do they want to be judged by God for making the decision legal for people to kill another human and do they want to be held responsible for someone committing suicide because they couldnt deal with the after affects of that decision do they want to be held accountable for a person having a abortion that they turn to drugs, alcohol , and sex because they are trying to get rid of the pain because they feel so empty and worthless. Do they want to be responsible for the lives being tormented because of this decision when all could be fixed correctly against the law for abortion because its murder. The ones that get pregnant have to deal with it or give baby up for adoption so someone who cant have a baby can be blessed with having what God created

HOW MY ABORTION AFFECTED ME

The State of VA

County of Fairfax

My name is Michelle Dominguez. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Providence RI

06/06/2001

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

I was too immature and clueless to even ask.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I knew nothing and the people at the clinic didn't speak to me at all.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no clue what was headed my way.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

I had no support from my boyfriend.

9. How has abortion affected you?

I had nightmares for years to the point where I was afraid to fall asleep. I was depressed. I tried to commit suicide. This is my most creative sin and it has been an awful experience for me. I wish that I knew then what I know now.

10. How has your abortion affected others in your life?

The abortion ended my relationship with then boyfriend.

11. Based upon your experience, what would you tell a woman considering abortion?

I would explain to her what an abortion really is and the consequences, the pain, and the hurt that will follow after an abortion. I would beg her to request an ultrasound and to ask beforehand how far along she is. I would talk to her about her child's development and options and resources available. I wish that I had received an ultrasound .. to actually see my baby .. and I wish that I were told how far along I was. Those things would've made a huge difference in my decision to abort my baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The court system has the power to save the lives of babies that have no voice and that need the court's help in a time of major desperation. The court system can save women from the pain and the hurt that WILL come to them after an abortion.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of VA

County of Fairfax

My name is E E I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Fairfax VA

06/30/2008

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Not sure. I was I guess but I didn't pay attention to it. I was confused.

5. Were you adequately informed of the consequences of abortion?

Yes No

They kept saying it was surgery. The papers only said that I had a choice of either abortion, parenthood, adoption, etc. But they never talked to you personally about what you were doing and about the baby.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My husband and myself.

9. How has abortion affected you?

I knew it was wrong and I never ever thought it was something I would do in my life. But I got pressured into it and the sad part is I listened to someone else without listening to my own conscience. When I got to the clinic I was already dying inside but I tried to be strong. But the doctor gave me the pills before I could ask any questions and I took them. After I took them, I asked if I could think about it, but it was already too late. This experience has killed me inside. I am afraid to open my eyes in the morning and whenever night comes I am terrified. I hate myself, I hate the act I did, I feel sorry for kids and most importantly for the life I threw away. If not for my other kids, I would be a lifeless shell hiding in my bed in pain and agony. My body aches all over. I am living in shame, remorse, agony, and pain that I wish on no one, not even my worse enemy. I know that I will never be the same again, my family will never be the same. I know it was my fault and I wish to God I could take things back. I wish I waited or talked to someone, but I didn't. It happened so fast and now my baby's gone.

10. How has your abortion affected others in your life?

Yes. My husband, my children, work, etc. It has ruined me inside and the bad part is, I live in pain and agony and I have to keep it inside all my life.

11. Based upon your experience, what would you tell a woman considering abortion?

If you are faced with an unplanned pregnancy, please never ever think of abortion. It is the worse thing you can do in your life. What you have in you is a living human being who needs a chance to live, even if faced with uncertainty. Your baby is a gift from God and should be cherished and not be blamed for any mistakes or misfortunes you have experienced in life. Your baby is a blessing. If you accept this blessing, God will provide for you and take away all you troubles. If you have an abortion, you will live in shame, pain, guilt, remorse, agony, and darkness for the rest of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The court who believes that abortion is legal is a court of made up of non-human beings. I can't believe that a court of people would fight for a woman's right to live in pain and suffering if she chooses to. We are human beings who feel and are connected to our Creator. A court who tells a woman who feels a baby thrive, and grow, and move and hears its heartbeat that it is just a blob or a tissue is not a court of people. As far as I'm concerned, abortion should not even be a choice.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of VA

County of USA

My name is Renae Erskine. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Buffalo NY

07/14/1988

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never told how it would affect me phycologically.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I used abortion as a means of birth control because I was a lost child. I wasn't saved I didn't know I was taking a human life. I've killed 4 of God's children in 3 separate abortions. It has affected me deeply, it gets worse as time goes by, the more I realize what I have done.

10. How has your abortion affected others in your life?

I've barely shared my experience with anyone. I've tried to talk to my husband about it but he's still pro-choice, I don't think he wants to deal with the reality of the situations.

11. Based upon your experience, what would you tell a woman considering abortion?

I would want to pray with her and to ask God to open her eyes and soften her heart to the consequences of the action. I'd plead with her not to do it, I'd let her know how each and every life given to us is a gift from God and that we need to cherish every aspect, every moment of their creation and life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That they should open up the jails and prisons and let the murders go because thats how I feel, I feel like a free murderer walking around living life, a life that my children never had a chnace to experience because of my poor choices.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 15 years old, the decision was my parents and very little information was shared with me.

5. Were you adequately informed of the consequences of abortion?

Yes No

No consequences were shared with me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

At that time, my parents

9. How has abortion affected you?

For many years it had me question the sanctity of life, including my own. After having my first abortion at 15, I had two more. Having three abortions gave me a false impression on relationships with men and with others. I thought my life wasn't worth anything and for the most part neither was anyone else's life. If life has not value then why bother with anything. It led to a web of depression and sadness in my life.

10. How has your abortion affected others in your life?

My children have less siblings because of my multiple abortions, my willingness for intimacy is challenged with my husband - and much of that I attribute to the pains of not understanding the value of my body and the value of my children's lives

11. Based upon your experience, what would you tell a woman considering abortion?

I would probably start by asking her several questions and then respond by trying to share with her the sanctity of life - hers and her child's life. I would also pose the same question to a court to the woman, if we don't consider a person dead until their heart stops, how can we not consider a person alive when

we clearly can hear at heart beat?

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If a person is not legally considered dead until their heart stops how can we state that life does not begin when we can hear a heartbeat?

My name is M F I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Was told that it was a blob and not a life.

5. Were you adequately informed of the consequences of abortion?

Yes No

Was told about medical consequences that could happen but not usually. Not told of any kind of emotional consequences...that after the abortion, my life would go on as if it hadn't happened.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The first time, family. The next two, my fiance.

9. How has abortion affected you?

Learned that they were a life not a blob. Emotionally, everytime see or hear a baby. Feel that I ended lives that God had created and had a purpose for.

10. How has your abortion affected others in your life?

Fiance' was upset about the initial one, but then was part of making decision to abort next two without regret. Don't know how it has affected him over the years because he has not been in my life.

11. Based upon your experience, what would you tell a woman considering abortion?

That this is a life growing inside her...it feels everything. It is not a mistake..God knew about it before it was ever conceived and He has a purpose and plan for her to be it's mommy and for its life. Don't have an abortion...it will have an impact on you for the rest of your life emotionally, spiritually, mentally and physically.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murdering a life that just hasn't come outside of the womb yet. It is not any different than someone killing someone else. It emotionally and mentally scars all who are a part of it whether ever realize it or not and can come out in many ways. It changes people and the consequences are not worth doing. Please don't make it legal...we have no right to choose whether a baby lives or dies...that is in the hands of our Almighty God whom this country trusts and keeps us safe. Let's keep these precious ones safe too by putting an end to killing them before they even have a chance to experience life and grow up to be a part of our wonderful country. We are not God, how can we dare choose to end an unborn baby's life? It is something a woman never really gets over...she may not ever come to terms with it and deal with it as alot of us have but it is a devastating experience that no woman should go through. We need to educate women to choose life to keep their babies no matter how difficult it is, not abortion.

HOW MY ABORTION AFFECTED ME

The State of VA

County of Fairfax

My name is Wendy I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Akron OH

//1988

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

Suction Curettage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not informed about how developed a baby was by 10 weeks and what an abortion would do. I was not clear on how invasive the procedure would be. I informed the clinic that I have a complex congenital heart defect, yet they did not consult my cardiologist or physician or suggest I consult them. They simply gave me an antibiotic IV for several hours after the procedure. I was young and too scared to tell my doctors.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told of any potential harm, physical or emotional. Although they knew of my heart defect, they did not express any concern physically for me. I was never informed of the possibility of Post Abortion Syndrome (PAS).

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Society pushes abortion as the "best" option

9. How has abortion affected you?

The hours of antibiotics "numbed" me as I watched others go in and out of the procedure room. I went into serious denial at first, very deep. I buried my secret, never talked about it. But I became increasingly promiscuous, partied a lot, and fueled a lust addiction. I held onto bitter resentment against my boyfriend (later husband). I was irritable, emotional and would snap in anger at my boyfriend/husband and others. I was bitter in general, and grew weary with guilt, sadness and shame for what I had done. I couldn't bear to hear about the abortion topic, or see childbirth films (required in college). When I learned the truth about fetal development, I cried for hours, angry with myself and

everyone else for what happened.

10. How has your abortion affected others in your life?

I had relationship issues with several people: my husband, my friend who accompanied me to the clinic, my in-laws and family (due to guilt). My husband has also been affected with grief from the abortion, as this was his child, too.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! There are other alternatives for a woman and her baby. Abortion doesn't solve the problem, it creates a new one that the soul struggles to bear. Crisis Pregnancy Centers can help a woman if she chooses to keep her baby, and adoption is a wonderful alternative I wish I had considered.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion ends more than the life of the baby, it can also end the productive life of the woman as well. PAS robbed me of much of my life. Abortion is not a woman's healthcare medical procedure, it is a deathcare procedure- it doesn't improve her health, it destroys her mental, emotional and spiritual health, in addition to killing her baby.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one explained anything to me at the abortion clinic in Wichita, Kansas. However, the woman at Planned Parenthood in Hays, KS advised me ONLY of abortion, and stated that my "fetus was probably deformed or retarded." I was given no literature, either.

5. Were you adequately informed of the consequences of abortion?

Yes No

As I said, I was given no literature or counseling.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The Planned Parenthood representative in Hays, KS.

9. How has abortion affected you?

It has affected me deeply and profounding. I stand here today, nearly 31 years later, knowing beyond knowing, that I made the BIGGEST MISTAKE of my life. Yet, even as of this morning, I sat on my bed crying uncontrollably – my chest heaving with heavy sobs, the clenching spasms of my vacant, empty abdomen aching a near-torrent flood of unrelenting sorrow for the one I let go. I know now, that I have missed out. And my husband missed out. And our other three adult children missed out. But more importantly, my child, who would now be a grown man if I had allowed him to live, would have, in all likelihood, been married with children of his own.

10. How has your abortion affected others in your life?

The only other person who knows is my husband and father of my child. He, like me, has great remorse, pain and sorrow.

11. Based upon your experience, what would you tell a woman considering abortion?

The reality is is that when a woman becomes pregnant and whether she decides to keep the baby or not, in that instant, her life changes, and changes forever. Because no matter what a woman's decision, she will forever know that she IS a MOTHER. Nothing will ever change that, or erase that fact. Not even death.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that abortion is about an altogether other person: the one who is forming and growing within her womb. I can bet that if my baby had been given a vote about whether he would have liked to have lived or died, I can assure you that he would have voted for life, and the right to live. Because, I know now, that it wasn't my right to make that decision...about whether he lived or died. No more than it was my mother's right to make that decision about me. For we shouldn't have that kind of power. No one should. Because the gift of life is a gift from God.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of VA

County of Henry

My name is Michelle Haley. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Roanoke VA

05/19/1991

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Unknown

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I later learned that the suction machine literally tore the baby apart. I also of course later learned that the baby felt pain, and that it was NOT just a piece of tissue.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me that every time a saw a child the same age, as my child would have been, that I would feel so much loss and regret, and shame about it.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has caused me to be very vocal with others considering this procedure. I always tell them about the psychological effects, that no one else bothers to tell them about. I am now a counselor.

10. How has your abortion affected others in your life?

I have been able to educate others so they do not make this same mistake. Others have seen and heard the hurt and pain I still fill over this terrible decision, and have chosen to give life to their child. The father, he never got a say in it. And in hindsight, it was not right that he did not have a say in the decision about HIS CHILD as well.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not do it. It is a life long sentence of regret and sorrow. You will ALWAYS think about what the child might have been. It was the single WORST DECISION of my life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Wrong. That so called piece of tissue, is far from that, it is a life. A life that I killed. No judge should allow others to make this kind of "choice". Other women should not have to realize too late that they murdered their own child.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of VA

County of Hanover

My name is A H I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Baltimore MD

//1978

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

When I was 29 years old, I had a one year old and twins who were several months old at the time. I had just put them down for a nap when I suddenly had a severe anxiety attack. My husband and I had recently had a conversation about not having any more children, yet I had always wanted four. Suddenly, in the hallway, I had a flashback of the abortion and realized that I DID have four children, but I had killed one of them. I felt like I couldn't breath and like I was having a heart attack. After this I began having horrible anxiety attacks, and I felt angry all the time. I went into therapy for six months, and was able to work through the abortion and the situation surrounding it. I was also given anti-anxiety medication. I have since forgiven myself and everything surrounding that situation.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

But I feared my parent's reaction.

9. How has abortion affected you?

I was drugged and raped at a party, and had no recollection of what happened to me until I realized I was pregnant. I made a decision that I felt was the best decision at the time. However, years later I am sad that I ever even had to make that decision. I am sad for the child I chose to abort, and for the life my baby never had. I have repented sincerely and I know that God has forgiven me.

10. How has your abortion affected others in your life?

Not many people know about the abortion. However, when I began having the anxiety attacks I told my

husband what happened. He was also very sad for me.

11. Based upon your experience, what would you tell a woman considering abortion?

I tell EVERY woman considering abortion NOT TO DO IT!!!! I am now a healing and deliverance minister and I have ministered to MANY women who have had abortions. In EVERY CASE, these women have similar and varying degrees of lack of self esteem, feelings of unworthiness, guilt, shame, depression, and most commonly, thoughts and/or attempts of suicide. We also tend to find demonic spirits of depression, murder, suicide and death which further perpetuate these conditions. From a spiritual aspect, abortion is the equivalent to the Old Testament practice of sacrificing children to the gods, and it opens all kinds of doors to demonic oppression. Most people don't understand deliverance, and many times by the time a woman is referred to me, she is in complete despair! However, in every case, God is faithful to deliver them, and they are completely set free!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is not a quick fix to an inconvenient situation! Abortion not only carries lifelong physical risks, but it almost always results in serious and damaging emotional and spiritual consequences which many women suffer. Because many women hide the fact that they have had an abortion and move on, often suppressing their feelings, many suffer from depression and even suicide without ever connecting their oppression back to the abortion. Through ministry I have seen countless women released from the strongholds of abortion and completely set free of the guilt, shame and sadness that lingers long afterwards. Our country is paying a heavy toll for the millions of babies we have murdered; Financially, physically, emotionally and spiritually!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of VA

County of new kent

My name is g h I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Virginia Beach VA

10/31/1991

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

saline flush/D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

No talk whatsoever about possible psychological and emotional problems resulting from abortion. No counseling was offered - just a quick before talk basically supporting one's decision to have one, treating it like a 'regular' medical procedure.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I've had/have significant grief, at times depression and despair. In particular since becoming born again Christian, and because I did not have any children. It is particularly hard leading up to mother's day. I dread mothers day, though I always do something for my mother and send people cards, etc. My husband gave me a mothers day card tho, it was so sweet, he picked just the right one. One thing I do know is that God forgave me before I even asked. When I replay it in my head I see where I could've stopped the whole thing - what -was -the -matter- with- me, how could I do this?

10. How has your abortion affected others in your life?

I feel that there is a person missing, in fact so many have had abortions whom I know that many people are missing should've been here. It hits me v hard sometimes as my child would be 17 this year.

11. Based upon your experience, what would you tell a woman considering abortion?

Really think and pray hard, take some time alone, talk to a pastor or priest, talk to women who have had them and consider possible consequences. Have an ultrasound. Feel that new life inside you. You

cannot replace the one you abort. Name and deal with your fears. I did not have the right to decide against having my child. I know that now, I really know it. Do not believe the propoganda that the "choice" crowd spreads. Recognize that Planned Parenthood is pro abortion not prochoice and not prowoman. This is a political, leftist group. Know that and know them for who they are. This is about your child, a unique created being. You are being given tremendous grace in having a child. Know that you have to live with the consequences if you have an abortion. Abortion is wrong, wrong, wrong. In this society there is much more outpouring of sorrow for abandoned starving horses and dogs than for unborn babies that do not have a chance to live the lives God intended. No matter what someone tells you, only trust in God, not in man, no matter how well-meaning.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

An unborn fetus/baby is a unique being, genetically, physically, emotionally and in every other imaginable sense of the word unique. It is a preborn human being, not a parasite or 'bunch of cells' in a woman's body, if that were the case then it would be completely acceptable to kill a 2 year old or an 85 year old as either is completely dependent on a caretaker. There is no God, no logic, no objective science and no humanity in abortion. It is a horror. Ask enough women who have had them.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of VA

County of Hanover

My name is Emily James. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Richmond VA

12/15/2000

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that my baby was a "mass of tissue". He/She was also called "pregnancy tissue". I was not told about how formed my baby was, nor was I allowed to see the ultrasound screen, despite asking to see it.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never counseled about my abortion. I was never asked if I was being pressured into it (which I was). I was never asked about my feelings, or even if I knew anything about abortion. I wasn't counseled on the alternatives to abortion, nor was I told about the emotional/mental complications of abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend at the time and my family

9. How has abortion affected you?

I have nightmares about the abortion. I feel nauseated when I pass the clinic (I try to avoid it at all costs). I cry all the time... especially when thinking about my child. I have struggled with suicidal ideations and severe depression since my abortion. I feel complete guilt and remorse for paying someone to murder my child.

10. How has your abortion affected others in your life?

I can be very overprotective of my children and I have extreme hatred towards my ex-boyfriend. I have a lot of anger towards my family for pressuring me into the abortion, and at myself for not learning more

and walking out of the clinic.

11. Based upon your experience, what would you tell a woman considering abortion?

This is a life-changing decision, regardless of how informed you are, but try to be as informed as possible. I would NEVER recommend an abortion... no matter the circumstances. If I could have my child back, even for a second, I would give my life. There IS hope, you don't have to abort!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

ABORTION DOES NOT LIBERATE WOMEN, IT OPRESSES THEM! We should all strive to be more supportive of women by educating them on the alternatives to abortion. Killing another human being is NOT the answer to ANYTHING! Abortion only kills one and wound another. We are left to deal with the emotional aftermath of abortion and it's not something I would wish on ANYONE.

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

I guess a normal abortion where they removed the baby

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No, i was just told to undress, given some pill and rushed into a room with other very scared women and then rushed into a wide open room where the procedure was preformed.

5. Were you adequately informed of the consequences of abortion?

Yes No

No, there was no pamphlets given and no one discussed the consequences

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend

9. How has abortion affected you?

It was devastating emotionally and physically. To this day I still struggle with guilt and shame.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

I would share my experience and tell her of the grand mistake it is to have an abortion and inform her of the precious life that is in her body. Killing is not a choice it is murder.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

How can we say that we protect the rights of the innocent when as a country we mass murder the most innocent of beings who cannot speak out or stand up for themselves. This is a grave injustice to the most innocent of life.

9. How has abortion affected you?

I was deeply grieved for year over it. I regretted my actions very deeply. I eventually got counseling to deal with my pain. I remember one time waking up in the middle of the night to what I thought was a baby crying. I got up out of bed and searched my apartment, only to realize the baby crying was in my head! I was haunted for years with guilt over it. I will always regret having an abortion!

10. How has your abortion affected others in your life?

My husband and mother know. A few close friends. My kids do not know and most people I know do not know. I still feel ashamed of what I did, so it is not something I will share.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not ever ever do it. It is not worth it!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Not enough research has been done to determine the effects of abortion on a women. I think it is very very damaging.

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

unsure- maybe a DNC

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told to initial and sign a bunch of papers that were termed "legalities" then I was given medication that made me totally out of sorts while the abortion was performed.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea of the feeling of loss that would come years later.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Immediately after, I threw all my self-worth out the window. I delved into the underworld of drugs and alcohol. I did not tell my parents, and was only 19- and I worried them immensely with the way I was living. These were my own decisions, but things could have been different. Now I experience guilt, and a feeling of loss. I know that God forgave me when I accepted Jesus, it is just sometimes harder to forgive myself.

10. How has your abortion affected others in your life?

As stated above, this affected my parents negatively because of my lost self-esteem. My future husband would also have a hard time getting past my "past." I'm too ashamed to tell my story to many

others.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to give the baby a chance at life. If she does that, she will not have the shame and guilt that I have experienced for the past 14 years.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that I would have loved that baby once it was here, but I did not give it the same chance my parents gave me. I would tell the courts that I am ashamed that our judicial system offers more protection to animals than it does to unborn human beings.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of VA

County of Chesterfield

My name is Linda Lee Jones. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Baltimore MD

08/07/1974

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

Saline

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that they would inject a fluid and that the fetus would deliver in about 24 hours. But it actually took about 48 hours and I saw my little girl's body covered in blood. It was a life changing event. They actually had me on the maternity floor listening to mother's and families with their new little children during the "waiting period".

5. Were you adequately informed of the consequences of abortion?

Yes No

As stated, I don't remember anyone saying that I would actually be awake to see anything or to experience the mental and physical pain of abortion. No one explained that I was actually carrying a little child. Instead they always referred to her as a fetus.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

I really can't blame anyone for that decision.

9. How has abortion affected you?

Proper education and an option to place my child for adoption should have been presented to me. I was an uneducated 17 year old looking for a solution of not having to deal with the father of my child for the rest of my life. After the abortion, I became a person who had no value for life and turned to drugs, alcohol and promiscuity to try and cover the pain. After becoming a believer in 1981, our Precious Heavenly Father took me and molded me into a person who feels that she does have value and that she is completely forgiven. But it is a daily battle to remember that.

10. How has your abortion affected others in your life?

That question would have to be presented to the other individuals in my life, but I do believe that it continues to have an affect on my marriage, currently. I still battle with not feeling worthy of respect.

11. Based upon your experience, what would you tell a woman considering abortion?

To really get educated about the status of the child they are carrying in their body. To understand that the little life within is a gift from God and that if they are unable or unwilling to provide for the child, that they should at least consider giving someone else the opportunity to do it. I try to tell them of the experience that I had and that their decision will change their life forever. Abortion is NOT a quick fix to their dilemma.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would ask them to truly consider the testimonies of real women who have truly experienced the affects of having an abortion. To actually get ALL the facts prior to any decision they consider.

I was taken into a room with another woman (who was married and already had 2 other children). We were asked if we were sure of our decision. We were told we would need a follow up exam. I don't recall much else prior to the procedure. I thought it was odd that I was asked to step into the room with a stranger.

5. Were you adequately informed of the consequences of abortion?

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

FOB who was not supportive of pregnancy

9. How has abortion affected you?

I am currently the mom of 2 young adult girls and have worked as a high risk neonatal nurse for 24 years. I love my girls, and watch what mothers will go through for their fragile infants, some not even weighing 1 pound. I think about that child that God blessed me with 32 years ago that I casually allowed someone to convince me was not a human being yet. I suffer with migraines, insomnia, and low self esteem. To the world, I am a beautiful woman. I have an amazing husband and fantastic children, but everyday I feel unworthy because I choose to terminate a life that I was entrusted with.

10. How has your abortion affected others in your life?

My husband does not understand my mood swings and physical pain (lack of sleep and headaches). He does not see the connection. I told him several years ago about the abortion, but not in great detail.

He is of the mind set to "move forward". When you make a mistake, you move on. One you ak God for forgiveness, you are forgiven.

11. Based upon your experience, what would you tell a woman considering abortion?

To listen to HER OWN HEART. Do not make a decision in haste. There are any resources out there for HELP-more than ever now. Every baby deserves to be born.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Each individual has to live with their own belief system and decision. At the moment, abortion may seem the most logical and "quick fix" for an unplanned pregnancy, but I believe every baby deserves a right to be born. Many families long for a child to adopt. I feel if abortion is to remain legal, at least place a holding period from the time a woman visits a clinic to the time the procedure is preformed, as well as "TRUE" counseling for every mother so that she understands the long term consequences she MAY experience if she follows through.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of VA

County of Hanover

My name is Connie I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Roanoke VA

08/08/1978

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

saline

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told anything about the procedure until a large needle was being inserted through my stomach wall into my uterus. I had already been asked if I wanted 'twilight sleep' and I did choose that sedation which had taken effect when they started doing while explaining the procedure. It wasn't until that time that I was told that if the saline were injected incorrectly that I would die from the saline. Never was I told that the saline would burn my baby to death since I wasn't ever told it was a baby but only a mass of cells.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one ever told me that I would be devastated emotionally once I learned the truth about conception and pregnancy. I was so ignorant of the truth and no one ever offered the truth to me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my parents because of their own plans for my life

9. How has abortion affected you?

I am 25 years + past this abortion and I have just found forgiveness for myself and faced the abortion head on. Abortion has created so much of who I am and I have lived under its 'cloak of darkness'. Everytime I would see a picture of a fetus or anytime that the word was mentioned, I would have to figure ways to calm myself to avoid anxiety attacks. I have suffered more with the after effects of abortion than anyone would ever know - mainly because it is the forbidden grief and you tell NO ONE. No one knows why I was always down or bitter or angry or disappointed in myself. This is something that you don't ever talk about. I was paralyzed when it came to making even minor decisions in my

life... realizing that I had made such a terrible choice, I couldn't function properly with decision-making. Now, I see that I wasn't told the truth. A big portion of the truth was kept from me. I trusted my parents and my doctors that since this was a legal procedure, it must be ok. How many mothers do you think would actually choose to kill their child if they knew the truth that it was a baby and NOT a bunch of cells? It wasn't a tumor that was removed.... it was an identifiable baby!

10. How has your abortion affected others in your life?

My marriage has faltered at my own hands. I don't form close relationships. Now, I realize it is because I have always lived in a lie since my abortion because no one can actually know who I am. That story and its pain is not something that you can share with anyone.

11. Based upon your experience, what would you tell a woman considering abortion?

'There is nothing that you can't face head on with having your child. Everything is hard to face if you choose to give that life up because you live life in the 'what-if' and you are always aware of someone who should be in your life but isn't because you caused their death. Unreal to live that way!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion kills 2 people. I killed my child and living with that has killed me. There isn't anyway that a mother can kill her child and not bear some consequence of that killing. I had my abortion not too long after it became 'legal' to do so.... and I know of others who are just now waking up to the truth of what they went through. There is going to be huge fallout once we all start realizing what we gave up at our own hands.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of VA

County of Hanover

My name is Julie Keenan. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Richmond VA

06/05/1992

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told everything in very "medical" terms so that it was hard to understand what they were saying. I was told that I would feel some pressure and that the tissue would be easily extracated and "taken care of". I was told how easy it was and that in a couple of hours I would be "on my way".

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told that this was a good thing that I was doing and that everything would be fine in a couple of hours. I was told to expect some mild pain just after and a few days of bleeding.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My teacher and my boyfriend.

9. How has abortion affected you?

My first child was murdered in 1992. The doctor did not complete the process and left half of my child in my uterus. My body tried desperately to hold onto the baby. I went back to the clinic because I was still bleeding 2 weeks later and they told me that it was normal. Two weeks later I was still bleeding and set up an appointment with a gynocologist who also said it was normal. Three months later, my body finally let go of my baby. I almost died on the way to the hospital, had I waited any longer to get to the emergency room, I would not be here today. Awash in grief, I continued a promiscuous lifestyle and got pregnant again and because I didn't care about myself, I had another abortion in Alexandria, VA. This abortion they put me under so I didn't remember what happened. Later on I had a pre-cancerous lump from my breast removed, filed suit against Richmond Women's Clinic for the 1st abortion mistake and settled out of court for my hospital bills. I went on for many years battling

depression and suicidal tendencies. When I had my living children, I suffered severe post-partem depression and many times thought of killing myself and my children. Praise God, I never did. About 1 1/2 years ago, I finally gave Jesus all of my pain so that I didn't have to carry it around anymore! I have finally forgiven myself for murdering David Matthew and Melody Rose (my children in heaven), only through the forgiving grace of Jesus Christ.

10. How has your abortion affected others in your life?

My parents found out many years later and still grieve the loss of their grandchildren. They go to light a candle for them now and then. I think it hurt them a lot more than they will ever show. The father of David never really showed much emotion, just wanted me to stop crying all the time. He drank his way into oblivion and eventually I left him after he put a gun to my head, pulled the trigger and then started laughing realizing he had forgotten to put the bullets in.

11. Based upon your experience, what would you tell a woman considering abortion?

It is murder, no matter how early on you do it. Abortion is the murder of you baby, your own flesh and blood in whom God has entrusted your care. Don't Do It! No matter what, there are so many options available to you that no one ever told me about. If I had wanted to keep my child, people were there ready to give me clothes, diapers, support, etc. All I had to do was ask! I could have put my child up for adoption. Now after finding my birth-mom, I know for sure that would have been the better option for me. I always thought she must have been a person in a lot of trouble or just a wretched person to give up her child. But she was just unmarried and afraid. She gave me to loving parents that took great care of me and raised me in the love of the Lord! If only I had the wisdom then that I have now....

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion not only kills babies, it kills the souls of the mothers that kill their babies. It is unnatural, therefore causing many side-effects such as great hormone imbalances, depression, suicidal tendencies, later birthing problems, breast cancer. With so many other options available and so many mothers with aching arms just waiting for a child to love, STOP ABORTION NOW! No matter how you look at it, it is MURDER!

HOW MY ABORTION AFFECTED ME

The State of VA

County of city of Richmond

My name is V L I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Richmond VA

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't remember any explanation, maybe I've blocked the experience

5. Were you adequately informed of the consequences of abortion?

Yes No

no-one told me the long term consequences like depression and profound regret, nor did they inform me that there was a crisis pregnancy center in town

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Profound regret

10. How has your abortion affected others in your life?

same

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her she has other support options like pregnancy centers that can help her through it and also to consider adoption

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would ask them at what stage of gestation did their own children become human. I would ask them what is the difference between a late term abortion and a premature baby? Why is it a baby on one side of the womb and a fetus on the other? I would ask them to, at the very least, consider the viability of the unborn, and have mercy on the poor little ones. People can go to jail for drowning newborn puppies, yet human babies, on the verge of birth, can have their skulls smashed with scissors and their brains sucked out. We were lied to 35 years ago when abortion was legalized, we were told it was just a "blob of tissue". Everyone in this country under the age of 35 is a survivor of "choice".

HOW MY ABORTION AFFECTED ME

The State of VA

County of City of Lynchburg

My name is Jennifer I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Portland OR

07//1993

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

dilation and suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Nothing was explained to me.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nothing was explained to me regarding consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my husband at that time (former husband)

9. How has abortion affected you?

It was my 3rd one, and it really pushed me over the edge. I was already depressed for years from the first 2 abortions. I felt suicidal before, but after the 3rd one, I actually attempted suicide. I felt so hopeless until I surrendered to God Almighty. I deeply regret all 3 abortions, and deeply regret not having kids and being a mother. Now, I can never have children because I had to have a hysterectomy.

10. How has your abortion affected others in your life?

My parents were deprived of 3 grandchildren. My siblings were deprived of 2 nephews and a niece. My former husband must've had regret after I finally left him (he had said if I came back we could have kids).

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't do it. It will ruin your life! There are organizations & people that can help you through this, and give you the help you need. Please choose LIFE! If you're not ready to be a mother, you can choose adoption. There are plenty of good couples waiting to adopt.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should not be legal because it is murder. Abortion should not be legal because it ruins the health (physical, mental, emotional, & spiritual health) of the mother. Providing abortions to minors without parental consent only aids/enables the rapist. Also, forcing taxpayers to pay for murdering babies should be against the law.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of VA

County of Fairfax

My name is Nancy Marston Gabriel. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Fairfax VA

03/22/1982

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was studying Biology in school, and I was taught that the embryo was just a bunch of cells, but not that the heart cells were beating from conception and that the baby had a soul, body and spirit.

5. Were you adequately informed of the consequences of abortion?

Yes No

Abortion is murder and it carries all the guilt and remorse of a murderer. I had scars that were emotion and physical. I remember the horrific injection prick of the needle to dilate the cervix and bled much with my live births later on. My doctor had to scrape scar tissue - very painfully.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend.

9. How has abortion affected you?

I traded a baby for a college degree I never used. Being pregnant during college was horrifying. Drinking alcohol affected my decisions concerning sex before marriage. I really wanted to be married before I had sex. I never forgave my high school friend who instructed me how to get an abortion.

10. How has your abortion affected others in your life?

I pressured my roommate to get an abortion before 6 weeks because then it would be a 'real' baby. All

my friends who have had abortions have been divorced or separated or never married. Abortion made me feel guilty of murder and an outcast and unloving!

11. Based upon your experience, what would you tell a woman considering abortion?

Don't ever have an abortion. Ceasarian sections can be performed quite easily with complicated pregnancies. There is never an excuse to have an abortion. Get good counsel and Godly women in your life who love you enough to tell you the truth. Adoption is an option.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell a court that 'abortion is murder'; therefore, they are saying 'murder is legal'. The court system is liable for their negligence. They know the truth and are usurping power in a very wrong direction and being paid off by their own selfish means.

My name is Natalee McRoberts. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I didn't know that it raised my risk for breast cancer. I didn't know that the abortion would devastate me to my very core. I didn't know for sure what the statistics were regarding the medication I was on and the true chance of any harm to the baby.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My Neurologist and my then boyfriend

9. How has abortion affected you?

During the time after the abortion I gained more than 60 lbs and became unhealthy and obese. I have struggled with intimacy and trust in my marriage. (My husband is the aborted baby's father.) I struggle with guilt and shame every day. I miss my son. (God revealed to me before the abortion that it was a son.)

10. How has your abortion affected others in your life?

My husband struggles with dealing with the emotional toll the abortion has had on me. I think that he also struggles with his guilt and his own pain.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that you never forget the moment your child feels as it is sucked from your womb. The loss of your baby will be felt with every fiber of your being in that single moment and you will carry it with you all the days of your life. At every holiday, every family event, you will long for your child to be

there. Today there are Christian Centers that will help you find a way to make it through the pregnancy, don't let finances set your decision. Your child's life is worth more than \$500.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

During my most recent pregnancy I went in for an ultrasound at 8 weeks and saw a baby on the screen. Visibly, the image looked like a baby. You could see its head, its body, its arms and legs. I had an abortion of my first child when it was 12 weeks old. Seeing that ultrasound brought home the stark reality of abortion - I aborted a real baby and not a mass of tissue.

QUESTIONS

1. Where and when did your abortion occur?

Virginia Beach VA

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was under the impression it was tissue and not given any other information about the development of my baby. Wasn't given an ultrasound. Was only told of the physical complications that could arise, including death.

5. Were you adequately informed of the consequences of abortion?

Yes No

Not of the mental or emotional consequences that I experienced or of the trauma done to my uterus which caused complications in my next pregnancy and which prevents some women from having children again.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I had depression, anxiety, panic attacks. Extreme anger towards others involved. Also had nightmares and severe emotional pain and regret for many years. Felt I could never forgive myself. Separation from God.

10. How has your abortion affected others in your life?

They have been impacted by my depression, anxiety and anger. I was very distraught and worried during subsequent pregnancies and was very overprotective of my children.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not do it under any circumstance. There is financial and emotional help available to cope and carry their child. Adoption is a very loving option.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should not be legal because if it were legal for my mother, she confessed that I would have been aborted. But if it were not legal, my child would be here. The majority of women will need go outside the law to obtain abortions. Many think because it's legal, it's safe, but it is not safe, mentally, emotionally, spiritually or physically for the woman and definitely not for the unborn child.

County of New Kent

My name is V M . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Newport News VA

01//1991

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

vaccum abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only seventeen and so emotional I did not really know what was going on. They told me a lot of stuff but you are in a room all day and I had my mom telling me I had to do it. It was very stressful. I just remember a cold room and pain thinking I was going to die.

5. Were you adequately informed of the consequences of abortion?

Yes No

I did not know how horrible I would feel inside they never explained the amazing sense of lose you feel. I cried for weeks and my school grades suffered. My grades went downhill afterward and nothing really mattered anymore. I just went through the motions.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My family

9. How has abortion affected you?

For a long time I stopped liking myself and did things I wouldnt even consider. I felt my life was out of control. When I eventually married and had three girls I kept feeling like there was my one boy I would never have because I had killed him. It always made me feel less of a person like I should not even be alive. Since I became a Christian God has forgiven me and eventually I have learned to forgive myself.

10. How has your abortion affected others in your life?

My husband who was my boyfriend at the time was depressed over the loss. He finally forgave me and we ended up with three beautiful girls but he sometimes sees a teenager and says we would have had one that age you know. So you can see it is hard at times for him too.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them to never make a life altering decision like that when they are so emotional. There are so many other options I wish I had chosen. Maybe the most convenient isnt the right answer. Taking an innocent life is never the answer. Thats the thing you have to do this abortion stuff right away before you even have time to absorb what is really going on. I guess that is how they get you because you are so emotional or numb.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

What is wrong with actually taking responsibility for our actions. Yes it would have been tough but sometimes things that are tough only make us stronger. The pain and sadness I felt would never have happened if abortion was illegal.

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

To the best of my knowledge I was not informed adequately. I was not told what medically could go wrong. I was not told my chances of Breast Cancer would increase. I was not told that I could become infertile. I was not told that I could become very ill due to the abortionist performing the abortion improperly. I was also not told the emotional effects this would have on me. I was not told the details of the abortion and exactly what they did. I even asked them to see the ultrasound and was DENIED! They turned the screen from me right before they performed the ultrasound. They told me only what they wanted me to hear.

5. Were you adequately informed of the consequences of abortion?

Yes No

No. Explained above

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has made me depressed, ashamed, fearful, guilty, hateful, hurtful, angry, all of the above. Any feeling possible you can have, I have felt it. There hasn't been one emotion I haven't felt.

10. How has your abortion affected others in your life?

My family and friends have been affected because they have lost a loved one. They have cried, been hurt, scared, ashamed, and all of the above as well.

11. Based upon your experience, what would you tell a woman considering abortion?

The risk health wise, physically, emotionally, it isn't worth it. There is nothing in the world worth putting your life intentionally on the line for. No one knowingly would put themselves at higher risk for breast cancer.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If me killing my baby should be legal, then me killing my neighbor because I feel they have no purpose here on earth should be legal too. Hey, did you heard, they found a cure for Aids, well they would have but the baby was aborted! When you think about abortion, think about the next baby being murdered is your grandson, granddaughter, daughter, son, etc. Maybe it could have been your wife or husband. DECLARATION

HOW MY ABORTION AFFECTED ME

The State of VA

County of Henrico

My name is K M I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Tulsa OK

06/08/1980

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that it was a "blob" of cells, not a baby at the time. I was given no information and do not recall signing an informed consent. This was done at a well known Tulsa OB-GYN who performed them on his lunch hour for extra money.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one, not the doctor or the nurse gave me any sort of counseling. Just took my name, walked me down a hall, performed a painful abortion by suction and sent me out the door. I suffered from guilt and shame for years. I still wonder what the baby would have been (boy or girl) and count the years old it would be now. I only recently recovered by knowing God forgives me. It has been difficult to forgive myself, knowing I killed another person for my convenience.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Planned Parenthood of Tulsa.

9. How has abortion affected you?

Felt shame for many years (still hard to admit it. This is the first time I have written anything about it). Never told my family but did tell my husband when I married later. I became very predatory sexually toward men afterwards (I became pregnant after my first sexual encounter). I didn't care what happened to me if I had unprotected sex, who it was with, that kind of thing. It was a way to punish myself for doing what I did. I knew it wasn't right, but Planned Parenthood provided all the info at my pregnancy test and knew I was afraid. For every reason I would argue not to do it, the Planned Parenthood "counselor" had an excellent argument to overcome it. I was so scared, didn't want to tell anyone and

the counselor became the only person who was giving me advice. And the advice was slanted, no adoption was mentioned, only abortion. I am still very remorseful about it. I would never do it again and haven't. It was something I will never forget and hopefully one day in heaven I can meet the person that I so quickly put there and ask them to forgive me. I would never advise any woman to do this.

10. How has your abortion affected others in your life?

I don't know

11. Based upon your experience, what would you tell a woman considering abortion?

Learn from my mistake. The fear you have about being pregnant does not compare to the fear you will experience after having an abortion. You just don't understand how negatively it will affect you. It took away a piece of my femininity that I think will never be replaced. A piece of kindness, softness, and tenderness was ripped from my psyche and replaced with a harshness more easily found in men.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

They are wrong. It is murder and any woman who has had an abortion knows it deep down inside. If we live in a culture which allows mothers to kill their children, mothers who are to be the protectors of their children, then we live in a culture which truly doesn't value human life. And who makes the decision who lives and dies in that culture? The most precious gift God gave women is the ability to bring life (not death) into this world. Men have the awful job of providing safety and security and that may mean bringing death. We are allowing women to throw the gift away and become like men. I want women to be the life givers, not the life takers.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of VA

County of Princess Anne

My name is L N I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Henrico VA

05/18/1977

2. How many weeks pregnant were you?

28

3. What type of abortion was performed?

Saline

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No real explanation of any kind was given other than the fact that this would terminate my pregnancy.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me that I could have fertility problems or have increased health risks of any kind.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have lived with the guilt of murdering my own child every day of every year. I never chose to get pregnant again as I felt I didn't deserve the opportunity to be a mother after killing my own baby. I believe it is the worst mistake I ever made in my life.

10. How has your abortion affected others in your life?

My husband has lived with the same regret - he didn't want me to abort but didn't stop me from carrying out my choice. He wishes he could have helped me accept my unplanned pregnancy as this was His child too - he felt powerless to stop me and also feels like it was the worse mistake we ever made in life. This has also affected our extended families as there were no grandchildren on my husbands side which left quite a void for my in-laws. I have never told either my parents or my husbands parents that I did this.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to do it. Be more responsible in your contraception, that's where your ACTUAL CHOICE lies. After conception, no amount of LEGALITY of abortion makes MURDER right. Inconvenience or hardship is

not sufficient reason to end a human life. Many other women I have shared my story with have agreed that they have had the same realization too late.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That they are mistaken. There are at minimum three people involved in this situation. It takes two people to make a baby, and the law is only considering the so called "rights" of the woman in the option to abort. What happened to the rights of the father?? Where are HIS "rights" to his child?? What if he wanted his baby???? After all the child in question is 50% his. Why doesn't the child have the right to life even though it's parents shirk their responsibilities? According to our constitution, we have the RIGHT to LIFE, AS GIVEN US BY GOD - What court thinks they can over rule this principle and be civilized? How can we charge someone with manslaughter in the accidental killing of a pregnant woman's fetus on the one hand but claim it's just tissue when a woman Decides she doesn't "want" her baby. We are a terrible society that can't see beyond our momentary wants.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of VA

County of Chesterfield

My name is Tracy Nudelman. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Lakeland FL

10//1977

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that "it" was just a blob of tissue

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no mention of any consequences

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

At age 47 now with 3 adult children, it remains the biggest mistake of my life. I went through years of grief recovery.

10. How has your abortion affected others in your life?

I had to forgive family members for their "helpful assistance." It affected my relationship with my country; I trusted that the country of my citizenship would have laws in place that would be for my good and not for harm, and certainly that they would not legislate that it was ok for me to take the life of my unborn child.

11. Based upon your experience, what would you tell a woman considering abortion?

Please be fully informed about the life inside of you and before you make this decision, consider that it is final and you will never be able to undo this decision, regardless of how much you may later regret it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion not only tears down the moral fiber of our nation, and takes the life of an unborn child, but the whole process wounds women physically, mentally, emotionally and spiritually. Abortion is the shedding of innocent blood and has no pros, only very large and looming cons.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of VA

County of Nelson

My name is Robin I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Richmond VA

04/01/1982

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

Vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The experience was very cold, informal, and the counselor took me in a room to "counsel" me, but she did not get around to talking to me. She got a phone call, stayed on the phone for what seemed like at least 30 minutes talking to a friend. I will never forget the conversation, she was laughing and talking about restaurants they were going to try in the Richmond area, and while she was talking, out the window below her office were protesters and news cameras. I could look down and see them. Her only counseling words to me were about how behind the clinic was because of protesters that day. It was like I was casually buying a pair of shoes, no concern, no explaining, no care, no compassion at all. No words about a baby or life.

5. Were you adequately informed of the consequences of abortion?

Yes No

What I was told affected me for years, and made a difference on how many children I would have in the future. I was told that I could have some bleeding, cramping, but I should be fine, but future pregnancies could be altered/affected by this procedure. I was terrified to have a child, which led to more abortions.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Severe depression, mood swings, unwarranted aggression to people I love, trouble bonding with my daughter 7 years later. I am still on medication. I went from handling life to a life drop-out at times.

10. How has your abortion affected others in your life?

Yes, I isolated myself from family, friends, from my husband to the point of divorce. I affected my

decision to have more children. I have one daughter, I was afraid to have anymore, afraid I caused damage to myself that would result in damage to a baby. It was only a miracle that I carried my daughter to term. I did have a miscarriage before my daughter.

11. Based upon your experience, what would you tell a woman considering abortion?

Run, run as far away as you can from anyone even suggesting abortion. Have that wonderful life no matter the situation, there will be someone to help you. Don't do what you will regret the rest of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would beg them to give every woman, girl, everyone seeking an abortion an ultrasound first as a requirement by law before anyone could perform that procedure. But due to my own suffering I would recommend to any court to please outlaw this horrible horrible act. Only those who have had an abortion can explain the feeling of total emptiness, numbness that comes into your soul from abortion.

My name is Elaine I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Kailue-Kona HI

08//1976

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

I do not remember

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

All the doctor said was it must be done quickly, as after 8 weeks it was..... (not as safe?) (legally Sticky?)

5. Were you adequately informed of the consequences of abortion?

Yes No

He only said it would not hurt, and there would be no suffering to the fetus.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My Dad had said that one mistake was ok

9. How has abortion affected you?

When I unsuccessfully sought a child through an attorney (the mother bolted)I cried uncontolably most of that night. Several years later I went to a stillborn funeral and then realized I was mourning for the child I destroyed both times. I have finally received the forgiveness God has offered all along for what I now know as an inconceivably prideful and self-centered act, and have forgiven both myself, and my Dad for his influence on the matter.

10. How has your abortion affected others in your life?

My now-divorced husband could not understand my over-protectiveness toward my other children....

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT! There are wonderful parents just WAITING to adopt your child, and nowadays you can often keep in touch, so life is not over between you and your biological child!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Legal is not the issue - we are talking about human rights here....however young, you cannot be pregnant without a baby, and a baby is a person! This is a simple issue....

Boyfirend, friends and planned parenthood

9. How has abortion affected you?

After my abortion I fell into deep depression. I ended up drinking usning drugs and immoral realtionships. I had two other abortions after that. It has been a long hard journey out of my darkness. I am a survivor.

10. How has your abortion affected others in your life?

It was really hard for my family to watch me as I suffered and went out of control.

11. Based upon your experience, what would you tell a woman considering abortion?

To take time to think about what she is doing. To pray to God for guidance and strength he is there and will not abandon you. There are people who really care about you and want to help.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them my story. It says it all.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of GA

County of Fulton

My name is Marla Peterson. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Atlanta GA

04/25/1973

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one informed me that the fetus would be torn apart as the suction catheter sucked my child's body into the apparatus. No one told me that he/she already had measurable EEG brain waves, that his/her heart had been beating for weeks. I discovered all this when I entered nursing school at Emory University in 1975, and then later when I became pregnant again out of wedlock in 1978, and received counseling from a pro-life pastor at 4th Presbyterian church in Philadelphia. I was given a book by C. Everett Koop at that time, which described a suction/D&C abortion, and I chose life for that child, Matthew. He is now 32 yrs old and a joy to my life. I married his dad and had 2 more sons. One of them, who was 28, died very unexpectedly on April 19, 2011. The sorrow over losing my precious son has been made more bearable by my remaining 2 sons. I cannot imagine coping with my loss without them...

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me that I was highly likely to become depressed afterwards.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My then-boyfriend

9. How has abortion affected you?

I repressed it for years, until I had my son. I then became very active in the pro-life movement in the 80's, doing sidewalk counseling. I sat in at an abortion clinic in 1986 in GA, wearing my nursing scrubs. This was the first sit-in in the state. We closed the clinic that day and saved a child day from death. I witnessed about why I was committing civil disobedience to the police who arrested us. I hope it made them think...

10. How has your abortion affected others in your life?

I never told my 3 sons about my abortion, as I was too ashamed. They found out through their cousins, who'd been told by my sister.

11. Based upon your experience, what would you tell a woman considering abortion?

All the facts about fetal development and the ability to perceive pain early on. That there is a better solution, which will bring them healing rather than pain, sorrow and immense guilt. That I never once have regretted having Matthew.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The most fundamental civil right of an innocent HUMAN life, the right to life, is completely obliterated via Roe v Wade. This basic right is revoked without any due process of law whatsoever, which violates the precepts of our constitution, as did the infamous Dred Scott Supreme Court decision long ago. That is a travesty. I work as a Legal Nurse Consultant now in medical malpractice law, and one of my cases involves a young woman who experienced a fetal demise at 20 weeks. Her OB sent her to an abortion clini in DC for a D&E. She and her husband were never informed about what a D&E involved, by either their OB nor the abortionist, who does D&E's through 26 weeks and has NO malpractice insurance at all. The couple was Catholic, and were horrified to see that they'd been sent to an abortion clinic, yet their OB had told them they had no other options other than this DC clinic. DC clinics are not regulated in any way, which the couple also did not know. [This abortionist has badly botched other abortions as well.] The woman died, leaving a husband and 2 small children. Yet because the abortionist has no malpractice coverage, he will likely walk away with no consequences at all. That is also a travesty. The information above re: the medical malpractice case is confidential.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of VA

County of Newport News

My name is Linda I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Norfolk VA

//1982

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

saline

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The common myth told by the doctors was that it was just a collection of tissue -- NOT a living embryo -- they were just removing tissue.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one prepared me for the extreme sadness I would experience or even that there was any danger of possibly jeopardizing later fertility.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has been a lifelong grave error and one that I will live with until I die. I have no children and as I age, the seriousness of this horrible mistake comes home to me everyday because of the very reality of not having a child (or children) to care for me in my old age.

10. How has your abortion affected others in your life?

Since this mistake was made prior to marrying my husband, it almost split us up when he found out. He is very anti-abortion and his stand on any woman doing that was crystal clear and I felt I couldn't share it early on in our relationship. It took us quite awhile to work through it.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT!!! There are entirely too many couples that are not able to conceive and desparately want a child. Carry the baby to term and allow it to be adopted into a loving home.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Because you have the authority to govern the land, a critical component should be for the safety and good of the people you represent. Liberal ideas such as legal abortion will only bring a curse upon the land and is not for the betterment of the people -- it only benefits those who are financially prospering on the emotional death of the women who will sometime during their lifetime come to reckon with their grave mistake. Also, not to mention that abortion is nothing more than legal murder since the embryo within the women is a living human being.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It nearly destroyed my life, emotionally because of the guilt of killing my child. Physically because from that time for over 20 years I suffered from environmental illness. Spiritually it nearly killed me when I realized what I had done.

10. How has your abortion affected others in your life?

MY husband also shared my guilt because he had allowed me to do it. If he had objected I wouldn't have gone through it. I didn't tell my other three children for over 30 years, they just felt very sad for me and what I had suffered. They knew I had suffered for years.

11. Based upon your experience, what would you tell a woman considering abortion?

I would counsel any one against an abortion for ANY reason.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it not only destroys the life of the baby but it destroys the mother too.

a female friend!! the father played mind games

9. How has abortion affected you?

I cannot think of a way in which it hasn't affected me. The way I look at the world and society has turned automatically to my questions of what the future would hold for my children, if I am given that blessing in the future. I have been at such deep low points that I couldn't bring myself to get out of bed for days. I've been taking everything one day at a time and can actually envision something that had escaped me for over 3 years, my future and purpose.

10. How has your abortion affected others in your life?

One by one, I lost every link in my support system. The only people that have stood by me are my parents and brother. My parents do not know I had an abortion, but my mother thinks I suffered a miscarriage. My moments of honesty that I derived strength from were private moments between the Lord and I which has also deepened my faith.

11. Based upon your experience, what would you tell a woman considering abortion?

I would explain to them why the truth is that they have a baby growing inside their belly and challenge

them to think of how they felt physically and how drastically that had changed over the weeks. That is when a woman being honest with herself would have to admit that they feel the life inside them, depending on them for survival. Most of the information that I would make sure they had would be the seldom talked about post abortion effects and I would share with her some of my pain and that those struggles within yourself can consume you, if you let them, or if you are lucky, you may be able to maintain yourself in public but the only way to describe where you are emotionally is inside of your own personal hell. I have had a friend and cousin give their babies up for adoption and they are at such peace with their decisions and remain very much pro-life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I originally had an appointment for February 14 for my abortion. I was so overcome with emotion while attempting to fill out the paperwork that I burst into tears before I could even make it through the first page. I don't think I really had intentions on going through with it and I asked for an ultrasound. I saw my child. At 9 weeks, he was obviously pointed out to me, but I just knew it was a boy in my gut. I returned 5 days later, this time high on pot and xanax, and passed their psych evaluation with no problems (that would be why I used the drugs). All I know about that day is what I have been told because I have blocked things out over time. That episode with their counselor showed me that I was never a priority to them because a true professional would easily see that a person doesn't have such a complete change of heart in 4 days. I think that a part of me honestly expected to be told that I could not go through with it. However, the clinic would not make the money they wanted to off of me if I decided to keep my baby. What exactly has our society turned into that has caused so many people to put a price tag on the life, future and dreams of the truly defenseless?? How do we view Human life if you are given time in jail for knocking an eagle's egg (a.k.a. unborn baby!!) to the ground but the law protects you from killing your own flesh and blood?!?!?

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of VA

County of Appomattox

My name is Marinda Reeves. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Norfolk VA

09/04/1980

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction d and c

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was a procedure to remove a fetus, nothing more.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told only to see a doctor after a few days to make sure there was no further bleeding or infection.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my fiance whom I married nearly 2 years later

9. How has abortion affected you?

I was unable to get pregnant for several years of trying. I experienced guilt, anger, anxiety, headaches, depression, sleeplessness, drinking binges, and divorce. The pain of missing a child I never got to hold in my arms has not gone away.

10. How has your abortion affected others in your life?

A close relative came to me when she got pregnant 2 years later for me to help her get an abortion. My mother has cried over losing a grandchild. My son feels cheated because he lost a full sibling, not a half-sibling. My other son has cried over losing a half-sibling he never got to meet.

11. Based upon your experience, what would you tell a woman considering abortion?

The child you carry is the answer to some problem in the world. The child has gifts and talents and a destiny waiting to be fulfilled. If you choose abortion, the world will miss out on the life of this child which no other child can replace.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is not the solution. I thought abortion would solve a problem and that would be the end of it. No one would ever know. That is not the case. I pushed the pain down, but eventually it surfaced. I have experienced tremendous healing by asking God for forgiveness and by emotionally embracing the child I aborted. Now I want to make a difference so that no one else has to experience this kind of loss to find out the truth that an unborn child is a person, destined by God before the foundation of the world to be born in the earth. The child is planned by God, having the DNA of both parents, even taking into account the circumstances of conception which may not have been godly.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of VA

County of Halifax

My name is Sherri I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

South Boston VA

12/15/1989

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

Not sure of the technical name - they injected the baby with something and suctioned it out

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They really didn't explain anything. I just went in and said I wanted an abortion, and after paying the \$300 or so in cash, they scheduled it.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed how it would affect me psychologically.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have felt so guilty since I had it performed. I would have had a child graduating from high school this year. I have been saved since I had it done, and I have prayed for forgiveness for I know that I murdered that child.

10. How has your abortion affected others in your life?

My children didn't get to have the joy of knowing their big brother or sister. I never had the joy of raising that child and loving it.

11. Based upon your experience, what would you tell a woman considering abortion?

Please do not kill your unborn child. Life happens at conception. It is not just an embryo that you have the choice of killing. It is a child of God. God gave you that child for a reason, and that child had a purpose to fulfill on this earth. Killing that child will profoundly affect the rest of your life. You will receive psychological damage from which you may not fully recover. Nothing is more important than that child. I thought I had the right to do what I wanted to do with my baby. I wanted to finish my degree and not

be burdened with a baby. Please do not kill your baby. There are so many childless people who are waiting to love your baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Life begins at the moment of conception. No one should have the right to take a life. It is murder, plain and simple. My baby was further along than I suspected. It may have even been able to live outside of the womb. I took a life, and forever, I will regret it, and I pray to God for forgiveness.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of VA

County of Fauquier

My name is Dawn Riffe. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Columbus OH

06//1985

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction method

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I never estimated even closely the psychological effects it would cause me. I was so naive and wish more had been done to dissuade me. I had no one suggesting or helping me decide otherwise and I did not feel I could talk openly with my family about it.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my boyfriend

9. How has abortion affected you?

Not a day goes by, and it has been 23 years, that I do not think of the baby that should have been born. I lament that decision more than anyone could ever know or understand unless they have made the decision also.

10. How has your abortion affected others in your life?

It has taken me 23 years to tell my mother. I just told her and she is in complete denial and will not talk to me about it. My relationships have suffered a lot because of the shame I felt. I feel it has also affected my mothering of the children I do have. I even had an ex-spouse who used to call me a murderer when he felt like hurting me--how could I argue with such a statement? It was only the truth. :(

11. Based upon your experience, what would you tell a woman considering abortion?

There is no more awful conclusion that one could come to than having an abortion. There is no greater honor in existence than being a mother. Even with the possible trials and tribulations, thoughts of what

may happen, and the hopelessness that is felt at that moment, I would love to help her make a different decision and stand by her, befriend her, help her throughout whatever decision she makes, and throughout the aftermath of her choice of giving life to that child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

There is no more awful conclusion that one could come to than having an abortion. There is no greater honor in existence than being a mother. During a seemingly hopeless moment, it is unfair and even cruel to offer such a choice (to a young person, especially) that is so psychologically damaging that no one can predict the awful after-effects caused. Our country will not issue sentencing for criminals that is cruel or unusual--yet we offer the option of such action to mothers-to-be? What hypocrisy!

1. Where and when did your abortion occur?

3. What type of abortion was performed?

I have no idea.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't recall being told anything about what to expect or anything about the baby. All I remember them saying was to rest afterwards and that I would most likely be passing "chunks" of blood and tissue afterwards which I did. :-(

5. Were you adequately informed of the consequences of abortion?

Yes No

See above.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Boyfriend and friends

9. How has abortion affected you?

It took me a LONG time to forgive myself and it's still something I'm not proud of and am embarrassed to admit to. After I began having children and realized the severity of what I've done, I grieve over the loss of my baby still to this day.

10. How has your abortion affected others in your life?

I have only told my sisters and my daughters in hopes that they won't make the same mistake I made. I'm not sure how that knowledge has affected them. My daughters are all against abortion though.

11. Based upon your experience, what would you tell a woman considering abortion?

To please not do it. That it's a baby from the time of conception and not just a "fetus". That children are a gift from God even if we can't see that at the time. That all things happen for a reason and are planned by God to mold and shape us into the person that He wants us to be.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Then why not make murder legal because that's what abortion is!

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told that the age of the bay was too old to perform this destruction. I should have been turned down for this abortion, but they didn't tell me until after the abortion was finished.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea that I would regret it. I have a niece who is about the same age as my unborn child and there are many times that I watch her interaction with peopole and realize that she could be my baby. There have been many times that I am saddened, when I see all of these unwed mothers and only wish I had their courage.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend at the time.

9. How has abortion affected you?

I will forever be a murderer. I have this terrible sin against me, that I can tell no one. It is such a terrible sin, that I suffer in silence.

10. How has your abortion affected others in your life?

I am not sure that I can answer this question...except that it made me not trust men. After that I would

not have sex with a man until we were within the bonds of marriage. I am in my third marriage.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT! I will be your friend. I will be there for you. It is not worth the pain that you will experience as you get older and begin to recognize the consequences of your actions, when you begin to understand the value of life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

No, I would not tell a court that abortion should be legal.

QUESTIONS

1. Where and when did your abortion occur?

Winston Salem NC

04/22/1986

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

Suction Aspiration: a surgical abortion procedure used to terminate pregnancy between 6 to 12 weeks.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

My dad took me to Planned Parenthood 3000 Maplewood Ave (#112) in Winston Salem, NC (336-768-2980). I'm pretty sure we were in and out of there in less than an hour. Just enough time for me to fill out the paperwork, get the procedure, throw up and 'rest' after the procedure. They told me that it was just a blob of cells and that it would be easy to get rid of it. Same thing that they've been saying forever. Don't worry, it's not a baby and we'll take care of it.

5. Were you adequately informed of the consequences of abortion?

Yes No

No, Planned Parenthood only tells you that you just need to rest some and you may experience a few cramps. They don't tell you much now and they told you even less 20 years ago.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

Parents

9. How has abortion affected you?

It was the single most devastating experience of my life. In my life I have been raped, gang raped, sexually abused, stalked and beaten, but nothing hurt me as much as the abortion. I was a fool to believe that this was not murder.

10. How has your abortion affected others in your life?

There is a cloud of shame over the issue in my family and we avoid discussing it because my parents still think they did the right thing. There is a wall between us because of it. They can't stand to discuss the subject and become angry or shame me for wanting to deal with it.

11. Based upon your experience, what would you tell a woman considering abortion?

While you may think you currently have problems due to being pregnant, nothing can prepare you for the pain and devastating loss of abortion. You will dream of your child, you will ache and long to have them with you, you will wake up in the middle of the night weeping uncontrollably all along being told that it's no big deal. The pain is gut-wrenching. Beyond what you could imagine. Do not ignore that little voice inside you that knows this is a baby. I knew the moment it happened that I was pregnant. You KNOW it's a baby and you KNOW that you're choosing to kill a child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I was born after Roe v Wade; therefore half of my generation is missing. I miss my friends, siblings, peers and lovers who were never born. I miss them terribly. We are Generation X and we're lost because we know that you considered us to not be worth fighting for. I really miss the ones who didn't make it through. I also regret terribly that I killed my daughter. I've seen her in dreams and she was beautiful. Missing her is an ache that will not be fulfilled in this lifetime. Ask any parent who has a sick child and they will tell you that they'd do anything, ANYTHING, to save that child. Why is it any different than when there in the womb? Why don't we fight for them then? Go home, look into the eyes of your children and tell me if it's ok to cut them up into little pieces and suck them into a waste disposal. I don't think it is ok and I don't think it should be legal. Abortion is murder. Period.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of VA

County of USA

My name is Debra Skeens. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

//1976

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

suction??

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

NO ONE spoke with me beforehand. I walked in and asked for an abortion, told them I was about 4 months pregnant, waited alone and they took me in when it was my "turn". Afterwards, I drove home alone.

5. Were you adequately informed of the consequences of abortion?

Yes No

No discussion took place at the abortion clinic. I was registered, waited alone, and then led into the room.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I was young, and at the time just considered it my "right" to undo a mistake (as Mr. Obama puts it). As a Christian, had a Christian counselor explained not only the psychological effects it would have on me later in life, I might have made a different choice. I should have been informed about the spiritual harm I was doing to myself and OTHERS. The repercussions never stop just with us!

10. How has your abortion affected others in your life?

The outward signs: It has affected me and my interactions with people. I have become a very angry, judgemental, self-righteous person. Anyone breaking even the smallest law or rule of order (littering or being disruptive in public) irritates me and I speak out. Inwardly: my heart is broken. When I repented the first time God forgave me. But I have not forgiven myself and find the need (for me) to continue to repent, even though God does not require it. I will continue to repent for my crime until abortion is once

again illegal in this country. Until churches speak boldly to their congregations about murder. Until. My abortion has changed history in this country. So has the other woman's, and the one after her and so on. My one action degraded society in this country that I love. I hold myself fully accountable for the crime of murder.

11. Based upon your experience, what would you tell a woman considering abortion?

I know exactly how you feel. I was scared too because no matter who I told, really I was pregnant all alone. I was upset with myself for getting into that situation. I knew better and yet here I was, pregnant. I got pregnant on purpose to trap my boyfriend. When he found out I was pregnant he accused me of cheating on him and broke up with me. I killed his baby to get back at him. I broke God's heart the day I killed the baby he entrusted to me. No matter your beliefs, abortion lives with you for the rest of your life. You think you can kill "it" and just walk away. It's not that easy if you have a heart. You may not care now, but you will, and it will affect you forever. I am angry all the time at everyone around me. But really, knowing now what no one bothered to tell me then, I am angry with myself. I am angry that the clinic did not tell me what was truly happening. I'm angry that the government perpetrates this lie against women. Abortion doesn't empower you as a woman, it takes away your power more and more over time. You may not regret it now, but you will in time and this is not a tattoo you can erase. This is YOUR BABY that you are KILLING, now and forever.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder. Life begins with conception. I did not kill a "thing". I killed a person with MOVING fingers and toes and a beating heart. I did not have that right. What if Mr. Obama's young unmarried mother had aborted him? Was he the mistake he wants to protect his daughters from??

boyfriend and his mother

9. How has abortion affected you?

it didn't really affect me until a couple of years later. After i had realized what had happened, what abortion really was, there were many nights that I cried and felt tremendous sorrow over my baby that i would never know. I remember a few years ago i was driving in my car and started crying and i told the person i was with, "I never knew you could miss somebody that you didn't even know". I believe in my heart that the baby was a girl, i've named her Valerie. I know she is with God now. One day i will be reunited with her. I often imagine what she looks like. I think about how my son now would have an older sister. No one in my family knows about the abortion, and that was almost 10 years ago. Aborting my child did not benefit me at all, it actually hurt me.

10. How has your abortion affected others in your life?

Not many people know about it.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her what abortion really is and how it can emotionally damage her and the risk of physical damage. There are other options, the child has a right to life, there is help.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should not be legal. People are not adequately informed of the effects of abortion at the present and later in the woman's life. Destroying a baby's life does not solve any problems, it creates them. God is the only one who can give life, who are we to kill that life. Yes, I have a right to choose what I do with my body but when I became pregnant, there is another life inside of my body that I am responsible for. And that responsibility is not to destroy it, it's to protect and nurture it. If abortion continues to be legal, what will become of our nation? If we keep killing our children, our very own, the women become calloused and many turn to drugs and alcohol or sexual promiscuity to cover up their pain. It affects the whole family circle. If a mother is leading that lifestyle that is what she is teaching to her other children or future children if she has them. If abortion continues God's judgement will come on our nation and we will have to give an account of the many lives that were taken in the name of abortion. Abortion is a lie. It does no good. It should not be legal. Laws are meant to protect people and edify the nation as a whole, allowing abortion does the opposite. If you really want to make a difference and protect the American people and our families, you would make abortion illegal. It would be well worth it.

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Family members who deeply regret it

9. How has abortion affected you?

For years I carried around a burden of shame and anger. I daily regretted my decision, one that I was pressured into doing because of my age. I felt embarrassed around my family anytime the word abortion came up and cried very often.

10. How has your abortion affected others in your life?

It made my family feel very guilty and upset that they would have considered pushing me into doing something so tragic.

11. Based upon your experience, what would you tell a woman considering abortion?

Children are a blessing no matter the circumstance. God can get you through any trial in your life, you just have to trust in him to help you. If you are struggling with having a child, ask him to put people in your life who can help, ask him to give you courage and strength, ask him to fill you with his Holy Spirit

so you can do what's right. Find help. There are people everywhere who would help you from making one of the worst decisions in your life!! I now have three beautiful children, and often look at them and think how sad it is that I could have been so selfish to have taken the life of another. It's murder. No matter how you look at it, it's murder. There are millions of people wanting a child to love and hold and call their own. So when you think of killing an unborn child who has had no chance, just think about the hundreds of couples who can't get pregnant and see how blessed you are!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell every person in that court they would not be here if there mom had an abortion.

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed of the psychological trauma that often accompanies the procedure.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father of the baby, my parents

9. How has abortion affected you?

Extreme depression, suicidal thoughts, ongoing feeling of being a murderer, guilt, sadness, self hatred, mourning for the loss of a person who had a right to life

10. How has your abortion affected others in your life?

The relationship with the father of the child was destroyed.

11. Based upon your experience, what would you tell a woman considering abortion?

If you cannot raise this child, place it for adoption. Do not kill your own baby, this will only exacerbate the problem. You are a mother, you will always be a mother. If you murder this child, you will be a mother who chose to kill her own child. You will be the mother of a dead child forever.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should be illegal because it is murder. It is shameful. Let the overwhelming silence of all the women who had abortions who cry tears alone, who are filled with guilt and shame, who will not talk

about it or admit to it, because they know it is a crime against humanity, and they are too ashamed to speak of it, speak to you. That silence is very loud.

HOW MY ABORTION AFFECTED ME

The State of VA

County of Henrico

My name is Melody I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Redding CA

05/01/1978

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

I really don't know. I was very young.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Nothing at all was explained to me. I was only asked if I wanted an abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one explained anything at all to me. I was a baby myself. I was only 16 years old.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I live with the pain every day of my life knowing that I killed the only child I would ever be able to have.

10. How has your abortion affected others in your life?

Not very many people know about it. I have only told one or two people in the 34 years since it happened. It is too painful and I feel ashamed to tell others.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her of my own personal experience and how she will be affected the rest of her life knowing that she killed her own child and how you NEVER get over wondering what it might have been; a boy or a girl and what it would have looked like and how much it would have loved her and how old it would be every year of her life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That they have no idea what they are taking about and how the consequences affect every female (and

male partner) who has had or will have an abortion. It is NOT for the best interest of a woman's health either physical or especially mentally and emotionally!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of VA

County of Glen Allen

My name is A W. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Tampa FL

//1988

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

Not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I just went into a clinic after calling ahead for appointment. I was told of horror stories of videos they make you sit and watch, but I never saw anything nor talked to anyone about it. I was ushered in, where the abortion was performed and then told I could leave.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea of repercussions or depression or anything really other than I just wouldn't be pregnant anymore.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have both aborted a child and given one for adoption. Adoption is a much more rewarding experience knowing that you gave this life a chance. It's very difficult watching your baby go away, but looking back and realizing you just murdered an innocent life has painful and depressive lifelong consequences. When you are young and shallow, you are not equipped to make these adult decisions, especially when you have no clue what actually happens in an abortion. I think if folks were more informed of the TRUTH, abortion statistics would be drastically reduced.

10. How has your abortion affected others in your life?

Other than the fact that my children now could have had a brother or sister, it hasn't affected anyone else in my life as it is not a very well known fact with those I'm around.

11. Based upon your experience, what would you tell a woman considering abortion?

Consider what God says about murder and meditate on reasons to either keep the baby or give it up for adoption rather than reasons to murder it. Look at it for what it is, MURDER and listen to the Spirit of the Lord that ministers truth to our spirit. Ask for Jesus guidance and He will give you the strength to overcome without murder. We always have a way out of trouble without doing evil in the process.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say that Satan is the one who comes to steal, kill and destroy, but Jesus came to give life and give it more abundantly. If a man lacks wisdom, let him ask Jesus for direction. He will guide you into all truth. You have to choose to serve a Holy and pure and just Master and not a master who would steal, kill and destroy and have you do that to others. WHOSE VOICE WILL YOU LET DICTATE WHAT'S RIGHT AND WRONG.

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They didn't really tell me that the suction was ripping the baby apart.

5. Were you adequately informed of the consequences of abortion?

Yes No

Some but not all. The emotional backlash was the worst and it still bothers me to this day.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

As hard as this is to believe, I was a Christian then and had an affair with a co-worker and got pregnant. I felt I had no choice but I have lived with this decision for many years. I have felt shame, guilt, betrayal, like a murderer, worthless, etc.

10. How has your abortion affected others in your life?

No one in my family knows about it. Only one person I knew in 1983 (a female) knew and then my OB/GYN.

11. Based upon your experience, what would you tell a woman considering abortion?

Please, please reconsider your decision. I can't take it back but I wish I could. It is truly murder. There has to be another way. The guilt and shame are not worth it. Although I have asked God to forgive me and I'm sure he has, I cannot forgive myself. Please don't place yourself in that situation again. Birth control is available and abortion should not be a form of birth control.

3. What type of abortion was performed?

Im not sure. It was forced and I blocked some of it out. I know I had laminaria x 24hrs

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

the abortion was not my choice. Nothing was explained well to me. They told me it was tissue that needed to be removed. They did not allow me to look at my u/s picture.

5. Were you adequately informed of the consequences of abortion?

Yes No

They told me i would be able to move on with my life after the abortion. They did NOT tell me that 20 years later i would still grieve over the loss of my first child OR thast when i finally figured out how developed my 13-14 week fetus truly was that i would be devistated all over again!!! My issue is this...JUST STOP LYING TO WOMEN ABOUT WHAT ABORTION IS!!! If the TRUTH would be told, abortion would probably be cut more than half!!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

mother, step dad, boyfriend and his parents

9. How has abortion affected you?

Years of SHAME...depression, panick attacks, anxiety, drug abuse for 4 years that put me in rehab. over protective of my live son due to thinking i will be punished for aborting my first child. up untill 6 months ago it was called the "A" word to me. I couldnt even say it. it was a very vulgar word in my dictionary and hated to hear it!

10. How has your abortion affected others in your life?

my son has got the brunt of my depression for the past 6 months because this scab opened up and got infected AGAIN! It has been 20 years and I will never forget what happened to me! I feel as though my mom and I don't have the best relationship due to her forcing me to endure such pain. Same with my step dad.

11. Based upon your experience, what would you tell a woman considering abortion?

PLEASE make a better choice. If its not your choice, you better listen to your own heart because YOU will be the only one left to deal with years of pain while everyone else goes on! There are people to help you get through your pregnancy and there are people that would be honored to adopt your child and give him or her the best in life! PLEASE PLEASE PLEASE PLEASE dont abort!!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

When "something" has a beating heart and YOU stop that heart from the ability to beat...you have KILLED it!! I want to know why in the case of abortion that is not called murder!?? If a tiny baby frog was in front of you and you pulled it apart with you fingers and the heart ceased to beat any longer, dont you condider that "killing" the frog? I mean, if you didnt kill it, what did you do to it? I just dont undersatand if America is so intelligent, why is abortion not "killing" a human??????

HOW MY ABORTION AFFECTED ME

The State of VA

County of Loudoun

My name is Amy Young. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Silver Spring MD

06//1984

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They lied to me telling me it was tissue, not a baby, and did not counsel me on any other options.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no explanation of the fact that a mother mourns the death of a child, and that I would suffer emotionally so traumatically.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It was the worst thing that ever happened in my life. I suffered from Post Abortive Syndrome for 18 years - irritability, anxiousness, avoidance, depression, and obsessive-compulsive disorder with an obsession for a daughter that almost ruined my marriage.

10. How has your abortion affected others in your life?

I was emotionally distant and insecure and dependent for the 18 years after the abortion until I realized that I needed help and sought counseling through Project Rachel. I was obsessed for a daughter because of missing the one that I had killed, and it negatively affected my relationships with my husband and 3 sons. They were never enough for me because of the hole she left in my heart. I was

never satisfied with my husband's love, and always complained and was often angry, frustrated, and depressed, and anxious.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. No matter how bad it seems to have a baby, having an abortion is worse, no matter how bad. The guilt, remorse, anxiety, and feelings of deserving horrible pain can follow you the rest of your life. A baby who is born can be adopted and there are other options. You are not alone and you can get help.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You have no idea. The emotional trauma is as devastating as Post-Traumatic Stress Disorder from having killed someone in war or something. But worse, because it feels to the mother as if there is NOTHING as heinous as killing your own child, and wondering the rest of your life what she would have been like and how dare I kill someone? And how dare the state or the county tell me that it's okay to kill someone when it's not? How dare you?

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I was ok with it for about 12 years. Didn't think much about it. Then the magnitude of what my husband and I had done (this was to be our third child) hit us. We had had the abortion because it was inconvenient to be pregnant again. No health issues, etc. I went through a period of remorse and grief, but eventually dealt with the guilt.

10. How has your abortion affected others in your life?

Very few folks know about it. My husband also grieved but he has dealt with it as well.

11. Based upon your experience, what would you tell a woman considering abortion?

The possible emotional and psychological repercussions are not worth it. You may go along for years and think nothing of it, then boom--you realize what you have done to your baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

This would be difficult, knowing the agenda of the court system at this time in our history. Realistically, abortion will be around for a long time, in my opinion. I guess I would urge the court to review the

growing body of information that is available documenting the negative impact of abortion, especially late term abortions. There has to be some reasonable way of discussing the issue, but I am not aware of what that is at this point.

9. How has abortion affected you?

I left him. It has affected my life, which is unsuccessful

10. How has your abortion affected others in your life?

my son and I are estranged. I do not care if I ever have sex again. I struggle to have cofidence. I do not drive. I never plan to retire, because there is not enough money

11. Based upon your experience, what would you tell a woman considering abortion?

The baby will feelit and so will you, before, during and after. That is a citizen in that womb with the same basic rights you have to life, liberty and the pursuit of happiness. It will want to love you more than you have ever been loved. It will need ypu more than you have ever been needed,

9. How has abortion affected you?

Guilt, shame and a lot of grief locked inside for years.

10. How has your abortion affected others in your life?

It has kept me from being close to my children who I did not kill. I have trouble thinking I killed my own babies.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her all the "hidden" ways abortion will bind her life for the remainder of her years; how it dulls her joy and her entire life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them the evils of murdering our children and the progression. We used to abort "tissue" now we abort full babies in "partial birth" abortion and what next? Since when did the lives of citizens

become worth nothing. We would not have a social security crisis if those 50 million people were alive today. I am ashamed of my nation in this regard.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never told I would feel sadness and longing for that child and have any problem emotionally, I had problems before and I had more to deal with after having these two abortions. Never told about any complications ever any risk to my health.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my grand pa yelled at me

9. How has abortion affected you?

great sorrow, painful memories and a want to have more children even today I want to have more children at the age of 45.

10. How has your abortion affected others in your life?

my children are survivors, i was somewhat abusive because of the loss of this child and it's method. It has cause problems in their lives because of my emotional state as a result of having abortions

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it, it will harm your life in ways you can not consider without first talking to a woman who has been harmed by abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is the murder of an innocent life, one without a voice, we need to stand up for the one without a voice, that abortion is the greatest evil in the world. Those are human beings who have done no wrong, they are not responsible for the way they were conceived and we need to support women to carry these babies and not kill during manic part of mental illness. There needs to be a diagnose in the Diagnostic and Statical Manuel for mental Disorders that includes women who kill their children. It is part of a mental disorder she needs to be protected when she wants to kill her child and hospitalized instead of providing her a means to carry out what is a step in the process of murder. Abortion is murder, part of mental illness, an act of mental illness on the part of person who needs to be considered needing treatment because of homicidal ideology.

HOW MY ABORTION AFFECTED ME

The State of VT

County of Chittenden

My name is Sharon I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Philadelphia PA

11/15/1973

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Not much was said. Just that there would be anesthesia given. I would have to be there about 2 hours.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no information about the consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have thought about it everyday of my life thereafter. It really didn't hit home until I realized the fullness of what I had done. I had killed another human being. Could I go to jail for it? Should I? I have confessed it and have been given absolution.

10. How has your abortion affected others in your life?

I have kept it a secret for most of my life. There are a handful of people that know.

11. Based upon your experience, what would you tell a woman considering abortion?

The hardest thing to do was to face what I was feeling inside afterward. It was a nagging conscience that kept reappearing and I couldn't do anything about it, except ask God for forgiveness. After admitting to myself that I had done something terribly wrong, the hardest thing was to forgive myself. I have done that but, that doesn't mean I don't think of it everyday of my life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

So much pain and suffering occurs after the abortion. It is a lifetime worth of silent suffering.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of VT

County of United States

My name is Michelle Ziter. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Portsmouth NH

03//1982

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told that the saline injection would burn my baby to death. I was not told of the incredible pain and suffering my baby would endure. I was not told that my baby's body would be sucked apart in pieces alive.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told that I would suffer incredible guilt over my choice. I was not told that I would experience depression. I was not told that abortion was murder (sin) and that the result of sin is death.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Before I came to know the Lord Jesus as my Savior, my abortion affected me by making me withdrawn from others (I was always very outgoing and social) and quite negative about life in general. I was angry and bitter about things, and didn't know why. SINCE my salvation experience, where I received forgiveness from God and the power to forgive myself, I have used my experience to save two other babies from the same horrible fate. Bonnie and Heather both have beautiful daughters today because I shared with them the TRUTH about abortion. Those girls are the joy of their moms' lives!

10. How has your abortion affected others in your life?

The man who got me pregnant at age 16 became abusive, and it pained my parents to watch me be treated this way. My mom's heart was broken as she held me for hours as the reality of what I had done set in. I killed her first grandchild. It was also a big "secret" that I was afraid to share with my husband until after our wedding. He was disappointed that I hadn't chosen to share something so major with him before we were married. However, my husband is an amazing man of God and he forgave me and supported me.

11. Based upon your experience, what would you tell a woman considering abortion?

I have already done it more than once. I tell them the truth. I tell them what it really is... killing a baby. Killing a human being created in God's image for a GODLY purpose. I tell them there are options, like adoption. I tell them the consequences of abortion are lifelong, and even eternal. You can't just "have an abortion" and move on with life. It doesn't work. Abortion and its guilt and horror stay with you for a lifetime! But the consequences of giving life to the baby are blessing! God blesses those who uphold life as being from God the Creator.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that it doesn't matter what they think... it only matters what GOD thinks, and that is THOU SHALT NOT KILL. Just because you think abortion is okay does NOT validate it and make it okay in God's eyes. It does not change the fact that killing is sin. It does not change the fact that those who allow it and those who perform it will be held accountable before God.... like it or not.... believe it or not. Those who think they are in charge, with higher authority than God the Creator, are deceived, and in for a rude awakening one day.... God Almighty has the final say.... THOU SHALT NOT KILL. Pretty final.

HOW MY ABORTION AFFECTED ME

The State of WA

County of BENTON

My name is SARAH AHUMADA. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Kennewick WA

04/08/2002

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

I think a suction abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

the lady that assisted me told me that it wasn't yet a baby, but tissue and that an abortion was safe and simple.

5. Were you adequately informed of the consequences of abortion?

Yes No

Personally I knew in my heart abortion was wrong, but in the state of mind i was in (after a black out from the date rape drug), i asked the questions and didn't question the blanket answers they gave me. I somehow justified to myself that the tissue was just that, "tissue". When the procedure was being performed, they gave me an ultrasound, but would not let me see the monitor.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I cry so much, knowing that my baby was not given the chance of life because of my actions. i allowed my fear to make selfish decisions - i love my baby, but i feel like such a hypocrite for saying so.

10. How has your abortion affected others in your life?

i have four children, and they know about baby Joseph. My son Angel, the only boy of my four, resents me for taking the only chance he had at having a brother. my children are confused as to why i felt i had to kill - even scared.

11. Based upon your experience, what would you tell a woman considering abortion?

Pro life is not anti choice, but rather prolife sheds light on the beauty of options - to life. God is life, not death. Move with love.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

murder is so wrong and the horrifying thing that stands, is it doesn't matter the platform. Tell me why a criminal that murders a pregnant woman would face charges of "double homicide"? Contradicting i should say. The mother may selfishly mistreat themselves and live with the consequences of those actions - however the baby inside the womb is NOT the woman but rather a separate individual. let live.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WA

County of Chelan

My name is Catherine I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Sacramento CA

11/23/1978

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had very little in the way of specifics. As a matter of fact I was talked into the abortion by a planned parenthood worker who told me that at my age it was safer to have an abortion than have a baby.

5. Were you adequately informed of the consequences of abortion?

Yes No

everything was explained very quickly and matter of fact as if I was going through a quick, easy wart removal or something simple.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

planned parenthood

9. How has abortion affected you?

It has been the most negative thing in my life. For 15 years not a day went by that I didn't not have to try to push the truth of my dead baby out of my mind. I have 4 wonderful boys and they are the most important thing in my life. Knowing that I had another child, maybe a little girl, makes me physically and emotionally sick when I think about it. The only thing that got me through was turning to God for forgiveness. After all He is the only one who should say when it is our time to die. I am now 52 years old and I still weep over my choice to end my baby's life. It should have been the safest place my baby could have been. In my womb. But instead it was the most dangerous. I will never be completely free from the pain and sadness. I know that I will see my baby again. That is what keeps me going. Many times I even thought of ending my life.

10. How has your abortion affected others in your life?

It played a part in my marriage falling apart. I lived with so much guilt and hatred for myself that I sabotaged any good relationship I've had. I didn't feel deserving to be loved or even to be alive.

11. Based upon your experience, what would you tell a woman considering abortion?

Please understand that just because you can't see your baby doesn't mean he or she is not there. Watch a video of a baby in the womb before you make your decision. It is the most important decision you will ever make because it will effect you in a very negative way for the rest of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We have the right as human beings to live. It is a proven fact that a fetus is an unborn baby. If I had a newborn in a box and couldn't see it or hear it, would I have the right to take a knife and stab into the box and kill the baby? No. What makes this any different?

3. What type of abortion was performed?

don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I did not understand the anguish, shame, regret, depression, loss, deep sadness that would follow. I did not understand it was a living human.

5. Were you adequately informed of the consequences of abortion?

Yes No

Depression, shame, alcoholism, pain killer addiction.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

But, I felt I had no choice.

9. How has abortion affected you?

I used alcohol to bury my sadness. Years of counseling, divorce, regret, dread, hopelessness, isolation.

10. How has your abortion affected others in your life?

The result of abortion has killed my relationship with my first husband. My dependence on alcohol grew exponentially over the years due to my abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

It is a lie that you will have a better life. It is a lie that it will solve your problems. It will haunt you for the rest of your life. It will make you sick. More sick than you could ever imagine.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is not a solution. Actually, abortion is the number one most threatening act of violence towards women that exists in the world. It kills more than babies. It kills the woman, her dignity, her hope for a normal life. I think we need to consider the hurt men. They have deep hurt also even though it is unexpressed.

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Depression with suicidal thoughts. Problems conceiving. Multiple miscarriages.

10. How has your abortion affected others in your life?

I recently told my 12 year old daughter of my abortion, it was unplanned. I know she looks at me differently now.

11. Based upon your experience, what would you tell a woman considering abortion?

I would strongly suggest she have an ultrasound done. If she was a woman of faith, I would ask her to pray and seek God's direction, if she was not, I would offer her any assistance I could.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion hurts women physically, emotionally, mentally, AND it ends the life of a human being. The child is denied the right to life, and women are denied the truth about the consequences of abortion.

I know what was going to happen but nobody put into words, they just used "abortion". It made it easier to get through. Nobody had to think about what was happening. I felt like I was put on a train and after it got started there was no way off - even if I wanted off.

5. Were you adequately informed of the consequences of abortion?

Yes No

The Dr. and nurses told me the physical healing process of the abortion but nothing was mentioned about the emotional recovery or potential disasters awaiting me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

My boy Friend

9. How has abortion affected you?

It is the single most horrible event of my life by far. I have had a difficult life since, including three life threatening situations (situations out of my control). My emotional regret has been non stop for years. I have gone to retreats to help the process but nothing can take away the fact that I killed an innocent child because of ignorance and inconvenience.

10. How has your abortion affected others in your life?

I am a single mother of four children and the oldest (17yrs) knows about the abortion and what it has done to me and I only hope it will make her come to me first to talk about it. I don't tell people about the abortion so they are not directly affected. My depression of 20 years certainly affects my family and the father of my children is the father of my aborted baby - we are no longer married.

11. Based upon your experience, what would you tell a woman considering abortion?

I would plead with her to reconsider. 9 months of her life and adoption is nothing compared to the torment she will go through for the rest of her life. Not to mention the wonderful families out there despartately waiting for children to be adapted out.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Please be fair to the woman and make sure she has been offered a fair representation of both options. Let her see the child in her womb, let her know what she is doing. The system scoops woman up and sends them down the road of abortion without making COMPLETELY sure that this is what the woman really wants. If I had had a pro-life advisor at the time of my abortion I would not have had one and my life would have been so much fuller and so much healthier. Abortion tears woman apart - they need to know that. We need to make sure that minors going in for an abortion have their parental approval. Majority of partents are going to be reasonably supportive of their daughters (althought they probably won't be happy) and that is to be worked out between the family. Please don't take that right from them too. If the child thinks that the partents will he hostile then protect her with advisors but don't take the right of the parents away just because she is scared of them. I was 22 when I had mine and I was afraid of my parents thoughts too so a 16 year old would only naturally be afraid. And please help us get the message out through the media of what an abortion is and does to women. The general public is sooo very nieve to the realities of it.

QUESTIONS

1. Where and when did your abortion occur?

Portland OR

04/18/1979

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Everyday I am reminded of the consequences of listening to women in that day say it was my right as a woman, everyday it is more real knowing that it was not my right. It has been over 36 years that I had not only one but two. I will be silent no more. Everyday I think of the wonderful sons and daughter that I have now and what two more would have brought me. Grandchildren.

10. How has your abortion affected others in your life?

I know it has affected my marriage because for a while I also blamed him for thinking the same way I did, but finally realized there's no one to blame but myself but I didnot know any better.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell any woman or man to read every painful the affects of a million voices to see how wrong they were.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I am not God and there fore had no right to take the lives He had blessed me with. We all grow up to learn from our mistakes but this one was to late.

HOW MY ABORTION AFFECTED ME

The State of WA

County of King

My name is Cherie Crettol. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Orange CA

10/02/1982

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

D&E

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 21, and never even saw the doctor. I had a D&E with no laminaria, and wound up passing my baby off at home. I was bleeding heavily, going through three pads an hour, and cramping also. I had no idea what was happening. Looking back, I was delivering my dead baby at home.

5. Were you adequately informed of the consequences of abortion?

Yes No

I didn't know about the consequences of abortion until almost ten years later in nursing school. I didn't know what laminaria was for almost ten years later, when I was in nursing school. When I called up the clinic to tell them what I found, they said that I didn't go there "we don't do things like that." They also told me that teaching about birth control "wasn't their responsibility, it's the schools job (!)".

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

I didn't know of alternatives, where to go.

9. How has abortion affected you?

I passed off my baby at home, I was 13 weeks pregnant. It was perfectly formed, but the legs were missing. I had nightmares, withdrawal, you name it. It was beyond horrible.

10. How has your abortion affected others in your life?

It took years to heal, and I tried numerous ways to heal, but only through knowing Christ and God's word have I found healing. I still get angry when I hear "a woman's right to choose".

11. Based upon your experience, what would you tell a woman considering abortion?

Run! Run away quickly! It's not regulated, and no way of knowing if you'll come out alive. It's not "safe"

look at what happened to me. I was told not to go to an emergency room, to wait until Monday when I began to bleed through three pads an hour.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is not regulated, they play by their own rules. I found out later of the women who died from this "doctor." It's no safer than before Roe. According to Dr. Mary Calderone of PP, who in 1960 wrote "Illegal Abortion as a Public Health Issue" states that 90% of abortions were done by doctors and done well, that in 1957 only 260 women died from abortion, a far cry from what they say now.

HOW MY ABORTION AFFECTED ME

The State of WA

County of Benton

My name is Kristi Davenport. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Spokane WA

//1995

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was explained about the medical concept of abortion. Not that I was killing a life.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told that I would feel relieved and everything would get better after the abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Mother, boyfriend and Doctor

9. How has abortion affected you?

I am unable to conceive children. I went through several years of pain, depression, lost hope, no self worth, anger, bitterness and hatred. I pushed my family and friends away. I experimented with drugs and drank alcohol excessively and had several sexual relationships without caring about the consequences.

10. How has your abortion affected others in your life?

My family and friends have also felt guilt and anger toward me. They have been depressed over the decision and loss of the child missing in our lives.

11. Based upon your experience, what would you tell a woman considering abortion?

The sacrifice and hard times will be minimal compared to a lifetime of regret. What you have been told about abortion just being a phase of your life is a lie. The impact lasts forever.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Choose a family member in your lives that you want to disappear forever. Can you imagine life without

them? Murder is illegal. How are we making abortion legal? It just doesn't make sense. Our society doesn't believe in a right to choose the lives of others or taking the law into your own hands as a citizen. Why is this ok?

HOW MY ABORTION AFFECTED ME

The State of WA

County of Douglas

My name is Lois Ellen Edwards. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Seattle WA

04/10/1972

2. How many weeks pregnant were you?

20

3. What type of abortion was performed?

It was a new experimental procedure using sea weed to enlarge the uterus

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea the physical pain it would cause, nor the inability to have children later on. I also was not informed at how it would affect my life throughout the rest of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my boyfriend

9. How has abortion affected you?

It changed me from a happy confident person to a wreck emotionally, mentally, spiritually, physically. All aspects of my life crashed from the day of the abortion to the present. I had a mental/nervous brake down, which continues, although somewhat improved after becoming a Christian, I am still very much affected by the act to the point where I still hold my ears shut, close my eyes whenever abortion talk gets graphic (explaining what the fetus goes through). This condition is improved over anytime I heard the word "abortion" I'd literally run screaming from the room with my hands over my ears, then break down and cry uncontrollably! This is not an exaggeration. Later on I would shout loudly so I couldn't hear what was being said then run and turn off the radio or tv program that was being aired. This went on for years. I begged my parents to send me somewhere to get mental help because I was not able to make the simplest decisions, for example if I should take a shower, what towel to use, what to wear . . . I cried all the time. At this time I was living alone. My parents refused to talk to me or allow me to stay with them. My boyfriend said if I got the abortion he'd marry me, but instead he asked me to move our a week after the abortion. I was completely devastated.

10. How has your abortion affected others in your life?

My parents didn't want to have anything to do with me and refused to help me in anyway, even allowing me to stay with them while I was able to get an apartment in town. My boyfriend ended our engagement, my brothers and wives did not speak to me . . . I was completely alone. All my friends were conveniently busy. I felt as though I was going insane.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it, it'll ruin your life, you'll never ever be the same again. The guilt is overwhelming. Your self esteem is nonexistent. People who were your friend will abandon you. It's a deep dark secret you'll hid inside from that time on.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is quite literally murder. Unborn babies have no voice so, we must be their voice to speak out against the barbaric practice. The unborn baby feels pain, shades his or her eyes from bright light and jumps at louds sounds. The baby may not be born, but it is a person, a real live person awaiting birth for their chance at life; this right of the unborn baby should NEVER be taken away. And the right to have an abortion should be stopped! Is it ok to kill a month old baby? NO! It is murder; so is abortion.

HOW MY ABORTION AFFECTED ME

The State of WA

County of Clark

My name is S E I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Helena MT

01/07/1977

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was given no information about either the procedure itself or the emotional or physical consequences. Nor was the fact that I was taking a life explained.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea that the psychological affects would be so painful during the procedure and would be with me forever. I also developed an infection in my uterus.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have finally forgiven myself after years of guilt, but I still find myself reflecting each year on the anniversary and on the would be birthday about how old he would be, what he would be doing, and what role he would have played in the family's life. I still cry every January.

10. How has your abortion affected others in your life?

My husband (the father and boyfriend at the time) is the only one who knows what I did. He shares my shame and pain. He holds me while I cry each year and silently goes through his own emotional struggles.

11. Based upon your experience, what would you tell a woman considering abortion?

I know that an unplanned pregnancy is very, very difficult in many ways-financially, psychologically, and physically, however, that is why God gives us 9 months to prepare. Abortion should never be considered, as it is not conveniently ending a pregnancy, but taking a life-that of your own child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Although I believe that humans have a free will and should in most instances be able to exercise it, abortion is not a choice anyone should have. It is taking a life plain and simple; there can be no getting around that fact. It affects the very future of us all. It also takes away the choice of others involved-the father, woman's parents and other relatives, and first and foremost, that of the child forever.

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Saline /suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not informed my baby might feel pain,that my baby would be torn apart .

5. Were you adequately informed of the consequences of abortion?

Yes No

I didn't know I would feel guilt after some time had passed I was told it was a tissue I didn't know it was a baby .

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My friend insisted I have an abortion.

9. How has abortion affected you?

I'm so sad .I think about the loss ,how old my baby would be , what sex it would be, possible grandkids I could have .I grieve over not having a grave to go to .How could any one do this to a baby.There is so much more but I'm tired right now.This occupies a lot of my time

10. How has your abortion affected others in your life?

When my daughter heard I had an abortion she cried and cried.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her she would regret it for the rest of her life.she will feel guilt .Depression, anger . I would tell her It is a baby with a beating heart not just a tissue.Abortion is murder.She can get financial help ,emational support.she has options ,adoption ,family and friends can help .Churches will give support

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

No!! .A woman under stressful circumstances makes rash judgements that she will regret later.If a woman has one abortion she will likely have more .she needs counseling to deal with why she is having unprotected sex.Killing a baby is not solving the problem.There are health risk involved .She is likely to have Depression after abortion.she will have guilt associated with the murder of her baby .She must be informed about the facts, it is murder, her baby may go through horrible pain during abortion ,she may regret it,she may have a lot anger ,she may not be able to have a baby again just to name a few. I regret my abortion every time I think about it and I think about it a lot .I say ban abortion 100%.There is no reason to have an abortion !!

1. Where and when did your abortion occur?

Seattle WA

02//1983

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

no one talked to me about the affects of an abortion. It was a no questions asked kind of thing. I had no idea the pain I would have to deal with after the abortion. Not physical, but emotional

5. Were you adequately informed of the consequences of abortion?

Yes No

only the physical consequences, never once the emotional side

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It took me years to get over it. especially after the birth of my first child. I had no idea what I was doing. That is was a life and that I was making the choice to take that life. I finally came to terms with the whole ordeal about 10 years ago. I'm 44 years old. I so sadden that I never got to see my child grow up. That boy or girl would be 27 years old. There truely is not a day that goes by, that I don't think about that baby. I've forgiven myself, but I certainly have not forgotten. I wish someone would have talked with me about my baby like it was a baby rather than a procedure. Its a baby, no one ever used that term. Not even fetus, it was a procedure. I was very removed from the whole thing. I can honestly say I didn't get what I was doing. I was sixteen years old. I have talked to my teenager daughter about the whole ordeal, when she was 17.

10. How has your abortion affected others in your life?

It had a terrible affect on my boyfriend at the time. He never said anything throughout the entire process, but couldn't live with the guilt. My mom still feels guilty to this day. Wishes we would have

made a different decision.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it - if you are too young to have a child, consider adoption. Never abortion. The guilt and sadness are too much to bare. It makes me very angry that most of the people making these laws and decisions are men. You will never know what its like to carry a child. To bring another human being into this world. It is certainly not our choice to take a life. It is a life, at conception.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

This decision does affect you. Its a lie from anyone who says it doesn't. Even if you don't believe its a living child, this decision still affects you. At the time, no one talked to me about the baby, nor did they discuss any other options. The process was quick and painless, but the emotional pain afterwards was very difficult.

1. Where and when did your abortion occur?

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 17, my parents made the decision for me. I knew I would not be pregnant, but not what was done to the baby. I did know it did not live.

5. Were you adequately informed of the consequences of abortion?

Yes No

Did they even know the consequences back then?

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents made the decision, I was underage.

9. How has abortion affected you?

Sadness, regrets. For several years following my abortion, I saw it as a method of Birth control, if you made a mistake. I later found a personal relationship with God and saw I had allowed babies to be murdered. Why? To make it easy on me. I had treated life callously, as if I had the right to make life and death decisions.

10. How has your abortion affected others in your life?

I don't tell people. I am ashamed.

11. Based upon your experience, what would you tell a woman considering abortion?

Dont do it. Give the baby up for adoption. Let the child be raised by a mother and father (One Man, One Woman) who want to love and nurture the child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The courts do not have to live with the consequences of the abortion, the pain, anguish, sorrow, regret, shame-I could go on. Who cares what the Liberal Courts believe. Their beliefs are subject to change with the wind.

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

My boyfriend

9. How has abortion affected you?

It's made my life a lot more sad. I chose not to have any children after that. I decided that if I knowingly got pregnant with another child it would be in some very strange way "disloyal" to the baby I aborted. As if having a baby would be a statement that this pregnancy was somehow "better" than the one I terminated. I didn't feel I deserved a child.

10. How has your abortion affected others in your life?

The father, my ex-fiance apologized later. He was feeling some guilt at that point. I broke off our engagement shortly after the abortion. I didn't want to be with a man who would reject his own child.

11. Based upon your experience, what would you tell a woman considering abortion?

That the baby is as much a person worthy of life and love as you are. That it isn't just "a clump of cells" or a bit of tissue. It's a brain, a heart, hands, eyes, personality, gifts, everything. You are giving up potentially your best friend and maybe your best chance to learn how to love and give. And you are disappointing your Father in heaven, who created that little, trusting being that is within your womb.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It should only be allowed if the mother's life will be lost otherwise.

9. How has abortion affected you?

I've never forgotten it, but I have the grace to know some day I'll be able to meet my child in Heaven.

10. How has your abortion affected others in your life?

I have not told others in my life.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. You'll regret it the rest of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I believe a woman has the right to choose to not have sex or to take birth control, but not to kill her unborn child and no court has the right to give her that choice. They should be protecting the child as much as the mother.

Don't do it! Come and live with me and I'll help you have and care for your baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It shouldn't be. It was far too easy. I kept wishing someone would stop me and I couldn't believe there were no roadblocks, the road was wide open to do it and it was over and done with before I really knew what I was doing. I wish there had at least been a waiting time!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WA

County of Spokane

My name is Nanette Harder. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Spokane WA

01/06/1985

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Suction Aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

My baby's life was never mentioned. He or she was only referred to as a mass of unwanted tissue, like a tumor.

5. Were you adequately informed of the consequences of abortion?

Yes No

Absolutely not! I made this decision based upon faulty medical information given me by a learned EWU university professor of microbiology whom I admired very much, who said that my unborn baby only had a 1% chance of being born live, normal, and healthy. (My adulterous ex-husband had given me genital herpes after the birth of our two kids but before our divorce and I had gotten pregnant by another man thereafter). I found my baby's translucent intact right leg from hip to toes on my Kotex. I stared at for a time in disbelief and then I wrapped it up and asked my young daughter to take it out to the garbage. I went out shortly thereafter to check on it again and after lifting the lid and seeing it was perfectly formed began to scream and cry in agony over what I had done.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My EWU microbiology professor and my boyfriend

9. How has abortion affected you?

Life was never the same but it continued on for the sake of my two living children--a girl and a boy whom I love very much, now grown with families of their own. I had a second abortion that same year 1985 and got my tubes tied. I had become a promiscuous, self-destructive, walking dead person of no real value to anyone. so I was numb to the impact of the second baby's death for ten years. I was depressed, suicidal, and dropped out of college to only recently complete my degree after my kids

were raised 2000. Except for my obligation to raise my daughter and son to know how wrong abortion is, I never lived up to my intellectual and earning potential. I now have congestive heart failure and hope that if my kid's have kid's I will live long enough to hold them. Then I want to go home to the Lord, so that I may get to know my aborted children in heaven.

10. How has your abortion affected others in your life?

I remarried out of guilt, shame, remorse, worthlessness, and a need to fill my life with another child--my step-daughter. That marriage ended in divorce, too, because my husband was addicted to pornography. He did not love me and I found I loved his daughter but not him. My third husband is the man God designed for me and for whom I should have waited. However, he and I will never have all the many children we were meant to have because of my own actions. He is a very good dad but until just recently the kid's did not call him that because of the fear that he would leave.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not do it. You will not only be killing your innocent child, you will be killing your soul, too, and you will never ever be the same. In the cold recovery room where we awoke my peers and I cried and/or sought self-justification of our actions in order to avoid guilt, shame, and self-loathing that never goes away until you confess your sins to God and are forgiven. Yet, forgiven or not, you will live with the consequences of your actions here on earth.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

When I was in high school, we had a mock trial of Roe v. Wade. Being raised Roman Catholic, I of course voted pro life for myself but was pressured by my female teachers into the qualification that in cases of rape and incest it should be the mother's decision even though I knew that the rapist or incestuous family member should pay the price for the crime, not the innocent child. Children are gifts from God that make us mature by making us less selfish and more selfless. In fact, Norma Leah McCorvey (Jane Roe) admits she lied and gave false testimony about the circumstances of her pregnancy. As a prior lesbian in a long-term same sex relationship, she has stated she was not raped by a man but talked into manipulating the sympathies of the court as a purported victim. Why should such an erroneous decision stand when it was ultimately based upon lies? Those two deceptions are: 1) that of the plaintiff and her ambitious lawyers and 2) that the lives of unborn children (in our society of citizens with God-given, innate, inalienable rights to life, liberty, and the pursuit of happiness but never at the expense of another's right to the same) are not worth protecting because of some misguided attempt at over-population control in a nation promoting wanton promiscuity.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WA

County of Spokane

My name is Mary I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Peoria IL

02/26/1979

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

surgical

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I probably was, but at the time, I didn't want to know. I was just on a mission to "take care of the problem"

5. Were you adequately informed of the consequences of abortion?

Yes No

My girlfriend, who was an RN set up the appointment for me. I had no counseling, only went to PP for a pregnancy test. I had no idea I would have years of turmoil, regret, depression, etc.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

As soon as it was over, I layed in bed for days crying & depressed. Then, I kept the secret for 20 plus years, never telling my parents. I have had relationship problems, after being promiscuous many years after. Much guilt, shame & regret.

10. How has your abortion affected others in your life?

I moved 3000 miles away from my family and have never moved back. My parents died and I was never able to tell them, I'm 55 years old now. My husband, whom I didn't tell when we got married, was confused about our relationship, until I finally told him when my Dad died & I went into a deep depression once again.

11. Based upon your experience, what would you tell a woman considering abortion?

That baby will give you so much joy. Please don't rob the baby of life & you of your whole life! This is not the end of the world and there are options. There will be consequences for your decision to abort. In

" taking care of the problem", you will only create many, more serious problems.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Just because something is legal does not make it right. This is giving women a false justification for self destruction! And most importantly, for taking a life that is not our decision to make - it is God's. That baby's life is just as valuable as yours and mine.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WA

County of Grays Harbor

My name is Tori B. Helberg. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Seattle WA

05//1978

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

I think it was called a D&C (suction)

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 13 yrs old and my mom and step-dad and her friend took me to seattle and we went into a clinic and they just had me undress and get in a gown on the table with stirrups and hooked an IV up, the doc came and went and they sent me back out to my mom. My mom gave me no choice and noone ever told me before, during or after what to expect.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not able to talk with anyone concerning any physical, mental or spiritual consequences. If I only knew then what I know now I would have probably ran away.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents and my boyfriend who is my husband now.

9. How has abortion affected you?

Afterwards my life has never been the same. Thru the years and I am 43 now I have been devastated emotionally, I never forget I never get thru one day without some thought and the hope that someday we will meet again and although I now have raised 3 beautiful children and have a granddaughter I always know that 3 shouldv'e been 4

10. How has your abortion affected others in your life?

I was unable to forgive my boyfriend for giving my mom the \$100.00,my husband now and my parents for many, many years because I was unable to truly forgive myself. I think you cannot give yourself wholly to your family when a peice of you is missing.

11. Based upon your experience, what would you tell a woman considering abortion?

The guilt, the shame, the emotional turmoil, making choices for the rest of your life will all be clouded by this devastating experience!!, noone is "tuff enough" to go thru this unscathed in some way or another. Your mind knows and your body knows that you have destroyed a life. What you think now is not what you will think afterwards, please, please I am begging you get any and all sides of the issue before you make that life-altering decision.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is not right to give girls and women the right to their own bodies in this way, that human life is precious, and you have to be the voice for the voiceless and realize that women cannot be fully prepared for the affect on them for the rest of their life, you must make this a very very hard thing to do! We have to educate these women on the short term and long term effects on them and their families, we must eradicate this self-imposed hell and stop acting like these babies are just a bunch of cells like so much skin we slough off daily when everything in them ,their mind and body is telling them otherwise if they would just listen.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WA

County of Clark

My name is Kathleen I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Seattle WA

01//1975

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

One can never adequately prepare for the guilt of the murder of her own fetus.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

From 1974 until 2003 I lived a life of hopelessness, with guilt of killing my first child, all for the sake of not admitting failure to my parents. I lived with various men without marriage and was doing drugs most of the time prior to 1989. I felt as if I'd committed the ultimate sin and could never be forgiven. I was in despair, hated myself, and could not pull out of depression that lasted for years.

10. How has your abortion affected others in your life?

It propelled me to push forward with the birth of my next 3 children out of wedlock. I raised my 2 of my 3 children with minimal contact with their father, since unknown to me at the time, I chose a meth addict to be involved with and got pregnant by him twice.

11. Based upon your experience, what would you tell a woman considering abortion?

I would advise her to get an ultrasound so she can actually see and hear the life inside of her. I would advise her to value life, realize that all life is created with the hand of God, and it is not to be destroyed by her or anyone else. That life is precious, and that there are plenty of people out there willing to raise a child born from another.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell a court that my abortion hurt me, and that abortion kills people.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WA

County of Snohomish

My name is B H . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Pomona CA

//1976

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

As far as I remember it was a D & C type

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Yes, except that I was only 17 and I wasn't in any state, emotionally or in my maturing, to make that decision by myself.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told about the physical effects, but not the emotional, on-going, lifelong effects.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Friends who had had an abortion

9. How has abortion affected you?

I just find it so incredibly sad that I didn't have enough faith in my parents to go to them. I was so afraid of telling them how I had let them down, that it was easier in my mind to go through the abortion than to hurt them. Any pregnancy counselor should have been easily able to see that it was purely fear that was driving my decision. Nothing else. I had great parents who would have surrounded me with nothing but love.

10. How has your abortion affected others in your life?

My daughter found out about my abortion in something she read when she was only in jr. high. Her attitude became that if her mom did something that awful, then what she was doing wasn't so bad. She even wrote a paper at school and said how shocked she was that her mom had done something like that. This thing I thought was such a secret was written about to a jr. high teacher I didn't even know!

11. Based upon your experience, what would you tell a woman considering abortion?

It all comes down to relying on the Lord for your strength and your joy. He will guide you, protect you, care for you, and love you. Even if you are walking thru it alone, with no spouse or boyfriend, no parental support, God will be your mate and Father. I would also talk about the wonders of adoption. What an amazing thing to go thru with that pregnancy and then provide some loving parents with the child that they already love but couldn't bear themselves.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I truly believe that there are so many, many options. Abortion should only be legal in the case of risk of the mother's life - truly based on medical need and not based on inconvenience or immaturity. Girls who have abortions in their teens have no idea how they will be impacted. They lack the maturity and the decision making skills necessary to make a decision of this magnitude and truly understand what the repercussions will be. If anything, we should be beefing up our adoption agencies, assisting with the costs associated with adoption, and providing more counseling.

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I remember it being scary. I don't remember anyone telling me that I could become terribly depressed for the rest of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I am in my fifty's with depression, guilt and remorse since the abortion in 1975.

10. How has your abortion affected others in your life?

The abortion is part of me. I can never, nor most women, forget the abortion as it will haunt one forever as it has me. I raised my children knowing that this is what I did to their sibling. They were all affected throughout their growing years.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion is an evil way of dealing with a an unplanned pregnancy. Talk to your mother, sister, aunt, grandmother ask them for help. My baby is on my mind daily since the day he was aborted.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe as most believe that conception leads to life. Life is sacred and it is the governments responsibility to protect all life. Allowing death to be a way of governing society shows how evil we as

loving people are becoming.

QUESTIONS

1. Where and when did your abortion occur?

Portland OR

03/08/1973

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

Not certian

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I went to Planned Parenthood and was assured that I did not have an actual "baby" inside, but a prototype, a blob that had some life but was in the same evolutionary state as a horse or pig, not human yet.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had tremendous depression for months even years. I became obsessed with it and even hallucinated a few times. I "saw" the shape of fetuses in oil stains and smoke. I also felt worthless and ashamed and allowed myself to be raped and mistreated by men.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I think it caused great mental and emotional unbalance that even now has not totally healed.

10. How has your abortion affected others in your life?

When I had my first child I had to enter a mental hospital. I think it is impossible to kill your child one year and the next, be a perfect, devoted mother. It causes a inner controversy and confusion that can last an entire life.

11. Based upon your experience, what would you tell a woman considering abortion?

Absolutely not to do it. If necessary, give up the child to adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I believe abortion is murder and it should be illegal in every circumstance unless the mother is certain to die from either pregnancy or delivery. In that case, I feel the woman involved must make that decision.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Mother

9. How has abortion affected you?

I have experienced the guilt of something covered up & never talked about again. Over the years it has affected me with recurring thoughts of suicide and self-hatred. It has only been about two years since I was set free from those thoughts after a time of counseling and the realization that my thoughts of death were a spirit of death linked to my abortion and the fact that I caused the death of another. The setting free was immediate but a long time coming after 37 years!

10. How has your abortion affected others in your life?

It has affected my husband the most in that he has had to deal with my sadness and extreme bouts of despair with no real idea what this was linked to. I'm sure it affected my two daughters as well but, just as the abortion was hidden, my outward feelings have been pretty well hidden from the outside world with a smiling face and "niceness".

11. Based upon your experience, what would you tell a woman considering abortion?

It is NOT just a quick fix to a problem. There are physical side-affects, such as the link to breast

cancer, infertility, etc. An abortion can also result in long-term emotional and spiritual difficulties. In my case, those were far more devastating than the physical. They have the potential to take away so much of who you were meant to be. There are other options, good options, and many people who will support you along the way.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

There is no freedom of choice for the child whose life is stripped away by someone else's decisions. I chose the quick fix which then turned into 37 years of difficulty. I believe that God our Creator is the one who gives life and we have no right to take that life away from another human being. Abortion has become a convenient method of birth more than anything else as women have multiple abortions to take care of their problems. It is a matter of when life begins and I believe that life begins at conception.

QUESTIONS

1. Where and when did your abortion occur?

San Diego CA

//1987

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Physically, yes.Emotionally, no.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told of the emotional aftermath of guilt, and need for forgiveness that would follow.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It is something that has affected me so profoundly words can not express.I had more than one, the guilt is overwhelming.Its something I can not talk about.I know in Jesus I have forgiveness, but I have had a very hard time forgiving myself. At the time I was young, and dumb.Caught up in expressing my independence as a youth, and the liberal "right to do what I want with my body", and the "right to choose".Dont buy into that. What I have got to say about that now is- Women do have a right to choose, its called abstinence.Making the right "choices" from the very beginning.

10. How has your abortion affected others in your life?

It is something that I keep secret.Very few people in my life know about it, with those that do know, I dont talk about it.I cant.However it is something that I have cried about,20 years after the fact.

11. Based upon your experience, what would you tell a woman considering abortion?

Dont do it, dont get caught up in the brainwashing of liberalism. You may think the circumstances in your life are not ideal to bring a baby into.There is never a "right time" in life. Life is a gift from God, do not throw that away.The bottom line abortion is murder.Do not kill your child.You will live with the regret,pain and quilt for the remainder of your life that will be almost too much to bear.If your facing this

decision, whether you believe in God or not. What I can tell you, there is a God. One God, one and only God. Seek him with all your heart and find him. Put your trust in him. Have faith. Have courage and may God bless you for making the right decision, to let your baby live.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should not be legal, it is murder. It is killing babies. It is wiping out a generation. White people are becoming a minority in this country. Abortion is why.

3. What type of abortion was performed?

Medical -- methotrexate

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I am very happy I was able to have that abortion. Since the abortion, I have been more conscientious about using birth control. I am continually grateful that I did not have a child with my boyfriend at the time, who was an abusive alcoholic.

10. How has your abortion affected others in your life?

I had one child already, and she was able to get more of my attention and resources as an only child. I am also glad that she has not had to deal with my ex-boyfriend, which would have been the case if we had had a child together.

11. Based upon your experience, what would you tell a woman considering abortion?

Make the decision that's right for you. Be aware that there are plenty of women who do not feel guilty or depressed after having an abortion. I never felt a moment's regret. Also, I would recommend an early abortion, as I had.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Thank you!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WA

County of Australia

My name is K M I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Midland WA

//1992

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

No idea

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that all that was inside me was a blob of cells smaller than the fingernail on my pinky finger.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me of the risks to my physical health, mental health, or that I was ending the life of my child and once done, there was no way to go back and change this...I must live with this forever.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The Dr, the boyfriend and the person I house share

9. How has abortion affected you?

I have now had 4 children with 4 fathers. I have been a sole parent most of my life...2 failed marriages and do not trust men. I suffer anxiety, phobias and get terrible anxiety that my children will die...I worry all the time that something terrible will happen to them. I have also suffered 4 miscarriages after the abortion. I believe this was due to the abortion. I was lucky to have my other children and did suffer bleeding and complications with them. I also had 4 sons - always wanted to have a daughter too...and often wonder if i aborted my only daughter. I cried after the abortion...and threw up...in the recovery room...I suddenly realised that I had just let someone kill my baby.

10. How has your abortion affected others in your life?

I don't know

11. Based upon your experience, what would you tell a woman considering abortion?

I am PRO LIFE and I am hoping that abortions will become illegal. I tell women that abortion hurts

women, abortion stops a beating heart and that there are places they can go for support.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell a court that abortion hurts women. It impacts the lives of everyone involved...the mother, her partner, her future children. Abortion is not over when you leave the clinic...abortion lasts FOREVER in your heart, mind, soul. Abortion is murder...we know this because of the technology. Abortion is ENDING a life, therefore it is MURDER.

My name is Vashti I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Seattle WA

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

D & C, i think

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I think i was given vague information about what was going to happen procedural wise.

5. Were you adequately informed of the consequences of abortion?

Yes No

Not once was there a mention of the consequences physically or emotionally. They informed me from a procedural stand point of what was going to happen.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Father of the baby

9. How has abortion affected you?

My life has been an emotional mess. After my abortion I made several poor decisions and never really understood why until I began to truly deal with my abortion. It was the biggest mistake of my life.

10. How has your abortion affected others in your life?

I had an emotional wall of protection built around me and wouldn't let anyone in so needless to say that it affected relationships.

11. Based upon your experience, what would you tell a woman considering abortion?

Consider the cost. There are many other options than taking an innocent life and for a moment you may think your solving a difficult situation but in reality what your doing is opening a can of worms and a life of hurt, distrust.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Why is it that people push free choice?? What about the choice of the unborn baby, when do they get heard. Would you still be pro choice if your mother decided to abort you? Someone gave you a chance at life so who are we to say that an unborn child doesn't get the same chance that was given to you. When did God give us the reigns to determine who lives and who dies. It's so much more than just ending a pregnancy, it's killing a life. There's justice for toddlers, babies that are murdered but what about the murders that occur everyday with the taking of a life. These babies have a heart beat just like me and just like you we shouldn't be able to play God.w

The State of WA

County of USA

My name is Roxanne . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Seattle WA

01/05/1979

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

some machine was used - it was a long time ago and i'd tried to forget it

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

not how it would affect me mentally later on when i realized it was killing my child - i was told it wasn't a child but as the years have gone by & more is known about the development of a fetus - it was a child not just a blob of cells

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

alot of guilt - i had a premature baby Michelle in the hospital fighting for her life when i found out i was pregnant & got an abortion. our premature baby Michelle died later that month. It was an extremely selfish decision. I believed all the lies that were told about abortion - not a baby, women would be hurting themselves to get an illegal abortion. If abortion wasn't available fewer women would make that selfish choice.

10. How has your abortion affected others in your life?

even though my husband supported me i know that he did not agree with my decision to have the abortion. we don't really talk about it & it was especially painful after losing our child Michelle

11. Based upon your experience, what would you tell a woman considering abortion?

This is a baby not just a clump of cells. You think that you are making a choice that will be better for you but what about that baby? You must realize that you are in fact killing your child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is killing your child so it should not be legal. If it would not have been legal at the time I had mine and all the lies about abortion would not have been told, I would have never gotten an abortion.

The State of WA

County of Kitsap

My name is Veronica Maruda. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Diego CA

04//1987

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

saline &/or suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

Didn't realized the immediate depression I experienced, perhaps because of the sudden hormone changes. 8 weeks of pregnancy...maybe 8 minutes to become unpregnant, must do a significant chemical imbalance.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

friend who had 9 abortions as her 'birth control'

9. How has abortion affected you?

I REGRET IT! I HAVE YET TO TELL MY OTHER 3 CHILDREN. IT IS ALWAYS ON MY MIND, IN MY HEART. I AM SORRY I TOOK A PERMANENT SOLUTION TO ADDRESS A TEMPORARY SITUATION THAT RESULTED IN THE DEATH OF WHO I NOW UNDERSTAND SCIENTIFICALLY WAS A SEPARATE INDIVIDUAL & NOT "MY" BODY!!!

10. How has your abortion affected others in your life?

I manifested my regret through anger at others. Until I finally realized through technology what I had done, and took post-abortion healing measures, I was irrational and self-destructive resulting in alcohol abuse and promiscuous behaviors (which perpetuate the low esteem cycle).

11. Based upon your experience, what would you tell a woman considering abortion?

PLEASE consider that of the 1.5 million abortions each year, there are about 1.6 million adoptive hopeful families who are still waiting to adopt. PLEASE consider LIFE for your child, that if you can't

raise him/her, there are adoption options. Abortion is uncivilized torturous murder and in the 21st century we should opt for peaceful solutions.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I do not break the Law. I respect the Law. I expected that those who make the Laws, study and seek the BEST for ALL before doing so. I trusted the makers of the Roe vs.Wade Law and assumed the Legislators knew what they were doing. They failed me: it is not a glob of cells, but a separate human being requiring my body as the host BECAUSE of a choice I made to have intercourse which is the only way to become pregnant. Murder is not a choice a woman gets to make. Otherwise, why not make Homocide a 'choice'? It is the same difference. If Abortion were not legal, I would not have killed my offspring 22 years ago. Homocide is illegal, yet there are still people who 'choose' to commit it:they are dealt with accordingly. Abortion should be no different. If a woman 'chooses' to commit abortion even if it were illegal, then she should reap the consequences of that 'choice'...NOT the innocent, vulnerable human being she carries temporarily. Period.

QUESTIONS

1. Where and when did your abortion occur?

Lakewood WA

07/16/1981

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was only a mass of tissue, and just a simple surgical procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was only told of possible minor physical complications.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I struggled with self-loathing, alcohol abuse, depression, regret, sexual dysfunction, feelings of inferiority.

10. How has your abortion affected others in your life?

My two living children were deeply saddened to know of their missing sibling. My husband has suffered through my emotional and sexual dysfunction, from a decision that he had nothing to do with.

11. Based upon your experience, what would you tell a woman considering abortion?

That an abortion is the destruction of two lives. That she should research what is really taking place in her womb, and take time to really consider what she is doing. That abortion is not a "quick fix" to a crisis situation, and that a crisis will pass.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I lead a bible study-recovery group for post-abortive women. I have seen the debilitating destruction in women from teens to seventies. It's effects are long lasting and far reaching, invading all aspects of a

woman's life. Yes, women have a choice, BEFORE they engage in sexual behavior. Sex causes babies, it is a fact of life, and we are not animals driven by uncontrollable urges.

9. How has abortion affected you?

Since I have had other children, I often wonder whether it was a boy or girl and what kind of person it would have been if I had let it live.

10. How has your abortion affected others in your life?

Only my sisters know, and one recently died. We never discussed it.

11. Based upon your experience, what would you tell a woman considering abortion?

That while an unwanted pregnancy is difficult, at least let the baby live and give it up for adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

God says "Do not murder." Abortion is murder of defenseless humans, so why is it legal to kill a defenseless, unborn human and illegal to kill someone who has been born?

The State of TX

County of Harris

My name is M P I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Houston TX

//1976

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

don't know what it's called - something to do with saline into the naval cord, I think.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

My mother actually set the procedure up because I was young and very naive, had already had one baby, and my mother was the primary caretaker. She had just lost her husband (my father) and now she would have had 2 babies to take care of while I was out running around, being stupid. At the time, I didn't have a problem with it, but years later, I discovered I had other emotional problems that weren't related to anything I could put my finger on. There was a piece of me gone that I just couldn't find! A couple of women from my church set up an abortion related seminar where I discovered that the symptoms I was having were caused by the abortion and the loss of my child! Oh, what an eye opener! I was able to put a name to my problem and finally ask for forgiveness. I will never forget the feeling of regret I felt at that time. I have asked (and received!) forgiveness from my Heavenly Father, but I will never forget what I have done to my beautiful child.

9. How has abortion affected you?

CONSTANT feeling of shame that I could kill my own child!

10. How has your abortion affected others in your life?

Not too many people know about it, but I'm sure my attitude, at times, causes people to wonder what in the world is the matter with me.

11. Based upon your experience, what would you tell a woman considering abortion?

It's not worth it. There are other alternatives. Don't risk the consequences based on convenience.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

PLEASE don't put women's lives at risk solely for the sake of convenience. What other reason is there for abortion?

HOW MY ABORTION AFFECTED ME

The State of WA

County of Chelan

My name is Nancy Roa. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Reno NV

09//1973

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Suction aspiration/Vacuum Curettage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The Planned Parenthood counselors lied and told me that the fetus was just a blob of tissue, not a baby. They didn't talk about the stage of development, a heartbeat, just that it was tissue.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one talked about the depression, insomnia, anxiety attacks, the guilt and anger, or the likelihood of future miscarriages. No one discussed the possibility of injury or death, except in a broad statement, just to get my signature on the release form.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend, the father of our child.

9. How has abortion affected you?

For many years I lived in denial and tried to forget it ever happened, but it changes you forever. I suffered from insomnia, depression, guilt, anxiety for many years, not realizing what the root cause was, until I became a Christian in 1985. I knew that what I had done was wrong and even though I knew the Lord had forgiven me, it was many more years before I was able to forgive myself. I married a man who didn't want children and when we later divorced, I was devastated--the feelings of worthlessness were overwhelming, at least in part, because I knew I would never bear a child and the only children I would ever have, I aborted--murdered. I regret my decision to abort my babies, there is so much sadness that never goes away. Only after I received total healing from the Lord, have I been able to enjoy friends babies and truly connect emotionally.

10. How has your abortion affected others in your life?

When my step-daughter and daughter-in-law were pregnant, I was unable to share the normal things a mother shares with them--I felt I'd let them down and it was heartbreaking. My friends probably don't know why I seemed distant around their babies, but they surely felt it. Some of my family relationships are strained. I have hope that those relationships will be healed by the Lord, but I wonder what my life would have been like if things had been different. One of my sisters tried to talk me out of the abortion--she was the only one who fought hard for life--I know it hurt her that I didn't listen and she would have been a good Aunt, as she is to our other nieces and nephews. Someone is missing at the table--that's the sad realization that we come to and it will never be healed until we get to heaven and are reunited.

11. Based upon your experience, what would you tell a woman considering abortion?

I regret my abortion--there is so much sadness that never goes away. The reality of your loss increases with time, not decreases. You'll wonder what you're child would look like, be like. If you are ever fortunate enough later in life to have grandchildren, you'll wonder what your other grandchildren would be like. One life touches another, every life matters. There is always a way to do what we think we can't do and you are not alone. There is loving, compassionate help for you and your baby. You CAN do it, your really can have a baby and it will be alright. With God, all things are possible.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Legal abortion hurts women, it hurt me--emotionally, physically, and spiritually. It torments, and sometimes maimes and kills women. To deny a child life because it's inconvenient for the mother, or because of the circumstances of conception, or disability of the child, is wrong because it lacks true compassion for either the mother or the baby. My abortion may have been legal, but it caused me great harm and killed my child who had a right to live. There are two lives to be considered, not just one. That is the heart of the matter--why do we think we have the right to murder a human life? Abortion should not only be illegal, it should be unthinkable.

The State of WA

County of Pierce

My name is Dayle Robbs. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Los Angeles CA

06/26/1971

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

All they told me was that I would have some heavy bleeding, heavier than my normal period.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was nothing said about consequences only that I'd be relieved.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Emotional scarring. Knowing that abortion is murder brought guilt, loathing of self, and an overly insecure personality. I wasn't like that before. When other children were born there were increased fears of something happening to them. I experienced trauma when anything about child abuse was mentioned and every year of it's anniversary brought a lot of mental anguish.

10. How has your abortion affected others in your life?

It plagued my marriage for many years in regards to how I viewed my husband...there was a lot of mistrust and so much loss of relationship between the two of us.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that there is a "better way". There are many services available to you and I will personally "walk" with you to save your life and the life of this child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

In any society murder has never been nor should it ever be "legal". Abortion is murder. This is a "holocaust" like no other. It is the duty of our government to protect the rights of "life, liberty and the pursuit of happiness", stated in the Declaration of Independence. Please, choose life!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WA

County of Skagit

My name is Eileen Robinson. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Burlington WA

//1977

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I did not know that the abortion would pull the baby apart in pieces. I did not know that the heart was beating. I did not know that once the laminaria was placed in my cervix that I could still stop the abortion. I did not know it would be physically painful to have an abortion. I did not know that I would feel loss and grief. Nobody bothered to tell me these things.

5. Were you adequately informed of the consequences of abortion?

Yes No

In all fairness at this late date I can't say exactly what was taught to me prior to the procedure. I can't say whether or not I was informed, or I was just so distraught at the time that I wasn't able to listen and fully understand what they were telling me. However, I was very surprised by what I found out after the abortion. I had no idea that it would hurt, and that there was a possibility that I would have pain after the procedure. I definitely didn't know that I would be severely depressed and guilt ridden. Nobody approached the subject of how I would feel about it. Nobody told me that I would have problems bonding with my other children, and that I would have problems trusting my mothering abilities. Nobody told me that I would have problems with relationships in general after that, or that I would seek to replace the "lost" child.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has caused me to be insecure in my decision making, especially where relationships with people I care about are concerned. I spent many years being promiscuous and using drugs and alcohol trying to hide from the pain.

10. How has your abortion affected others in your life?

I had trouble bonding with my daughter who was born the next year, and eventually she ended up being raised by my parents for the most part. Once I married I tried to repair the relationship, but it was too late. I've caused others in my life the same pain of abortion by being afraid to tell my "secret". Subsequently my step-daughter experienced a horrible abortion where she screamed through the whole procedure (she was un-medicated) and cried for her Daddy! It destroyed her relationship with her Dad and her own self esteem. She also sought to replace the "lost" child, and became pregnant and married at a very early age after this. I felt like I was not worthy of love, and therefore it took my husband years and years of patiently loving and caring for me to convince me that he really did love me and that I was loveable. It caused a lot of stress in our marriage.

11. Based upon your experience, what would you tell a woman considering abortion?

I have told them the truth about what abortion really does physically to them and the child. I make sure they know that the child's heart is most likely already beating and that the nervous system is developing. I've told them how abortion affects so many aspects of their lives especially their relationships with others, and most importantly their relationships subsequent children. I've told them that adoption is a great alternative and that I wish I had opted for that instead of abortion. Although I didn't think I could do it at the time, I've since been witness to several adoptions and see it as such a beautiful gift to all concerned. I also tell them of the resources offered at Crisis Pregnancy Centers to help them along while they are deciding what to do. I also tell them that they are there to help them learn to parent through parenting classes, and help provide them with needed supplies and resources for their new child if they should decide to parent.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

First of all I would tell them all of what I have previously stated. Then I would tell them that instead of legalized abortion providing a safe way for women to end their unwanted pregnancies, they have in fact contributed to far more deaths, inadvertent sterilizations, and abortion caused mutilations that ever would have happened if abortion would have been kept illegal, simply because of the increased numbers due to the greater social acceptance. Abortion has most likely increased the numbers of women who are heavy drug and alcohol users, promiscuous, depressed and even mentally ill. Post Abortion Syndrome, very closely related to PTSD, is a newer more prevalent mental disorder caused by abortion. Abortion has also devalued human life to the extent that people don't see their children as valuable as they did in the past. Subsequent children of post abortive Mothers have an increased risk of abuse, because PAS women don't bond well with later children, they doubt themselves as parents and ultimately don't discipline in healthy ways. Legalized abortion lead me make the biggest mistake I've ever made in my life.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WA

County of Snohomish

My name is Patricia I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Grand Rapids MI

01/07/1985

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They asked me if I understood what was going to happen and I told them yes.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one mentioned any side effects besides infection or bleeding. No one talked about emotional effects afterwards, but did ask if I had someone to talk to.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my parents reaction to my first pregnancy

9. How has abortion affected you?

After the abortion I left my hometown and continued to seek relationships with men who did not care for me... I placed a second child for adoption 1 1/2 years after the abortion. I have had difficulty bonding with my daughter and am divorced. I cannot seem to loose weight and have spent long periods clinically depressed. I only recently stopped smoking.

10. How has your abortion affected others in your life?

My boyfriend of the time tried to commit suicide after the abortion, and he went from being a very nice "boy scout" type of young man to a man who just might start sleeping around without concern for his partners. I haven't heard from him since 1985. The daughter I placed for adoption asked me why I had chosen adoption for her, and was sticken by guilt when she heard of the second child's demise... We have not been able to establish a comfortable relationship because it just hangs in the air between us....

11. Based upon your experience, what would you tell a woman considering abortion?

No matter how difficult the pregnancy will be, the shame, the trials, you can live with yourself so much easier if the child is at least alive! there are people willing to help, and your parents will forgive you...

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It should not be legal. It makes it too easy to do something that curdles the rest of your life.... some things cannot be smoothed over.... When I look at the beautiful child I have, and the ones I placed, and all the children I help birth as part of my work... each one is so very individual, so very special and so very necessary for this world to be the best it can be. Killing someone does not make you a better person. It is very, very hard to live with yourself afterwards...

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WA

County of Grant

My name is Wendi I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Oakland CA

02//1978

2. How many weeks pregnant were you?

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It was called a TAB, theraputic abortion, in those days. It was positioned as a simple proceedure that removed some tissue. I really didn't understand nor was told what choice I was really making.

5. Were you adequately informed of the consequences of abortion?

Yes No

I did not expect the physical, emotional or spiritual consequences that followed.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My husband strongly encouraged me to terminate

9. How has abortion affected you?

I physically hemorrhaged, emotionally collapsed, and later was tramitized by the fact that I voluntarily killed my first child. I did it for completely selfish reasons which makes it all that much worse.

10. How has your abortion affected others in your life?

First of all it took the life of my baby. It was the worst for my baby. My first husband and I ended up in a divorce after the abortion. I don't know how directly connected those events were but a major connection was lost with the death of our first child due to abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

Please slow down and study the facts of abortion. Consider all of your options. Pregnancy is not terminal but taking the life of your baby can haunt you for a life time. It is not the quick fix that is promised. Visit a crisis pregnancy resource center and get some support.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

No, I believe that it is murder and it is offered as a quick fix. It harms babies and women. The results of post abortion syndrome are awful and the physical and spiritual effects are just as devastating. Stop encouraging, allowing and paying for abortions!

The State of WA

My name is Carol Schuette. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

spokane WA

//1974

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

d and c

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 19. My college room mate got the information and drove me to the place. I can't remember being told much of anything, and certainly not any pictures of a developing baby.

5. Were you adequately informed of the consequences of abortion?

Yes No

It was early after the passing of Roe vs. Wade. I was not informed of all the changes that would take place in my body, of the intense guilt and depression that followed.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents didn't know .

9. How has abortion affected you?

I still fight feelings of shame and mostly regret. I know now my parents would have been disappointed, but they would have helped. Like so many things I wish I could go back in time. I know an ultrasound, support and counseling would have helped me through. I still have only told one doctor I had an abortion and I've seen many. That is how the shame hangs on even when you believe God has forgiven you.

10. How has your abortion affected others in your life?

I am married to the father of all my children including the child I aborted. For him, it was a bad decision that happened when we were very young, but it brought a great deal of friction into our marriage for many years. I felt if he had been more involved we might have been stronger together. We both were so afraid and afraid of disappointing our parents.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to have an ultrasound and find a supportive team to help her through a live birth and to consider adoption if she cannot be a parent. I would tell her there are no unwanted children, only unwanting parents, and whether it is fear, or inconvenience, or a host of other 'good' reasons she will never regret giving a 9 month give of life. I believe as well that there is a connection to abortion and breast cancer for those that are predisposed, not everyone who smokes dies of lung cancer and not everyone who has an abortion will get breast cancer, but there is a link.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

No abortion should not be legal. Women should be well informed including ultra sounds which, incidently, I would rather have my taxpayer dollars going to than aborting a beautiful child that someone would delight in raising. Mother Teresa at the National Prayer Breakfast under President Clintons term offered to take all the children we aborted, and although illogical to us, we must realize what a self - driven nation we are to not consider all the options that would support life.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea of the emotional pain I would go through after having that abortion. I went through counseling about a year later. I am now healed from it thank you to my Jesus and I know I will one day see my babies:)

6. Were you informed of any link between abortion and breast cancer?

boyfriend

9. How has abortion affected you?

After it was all said and done I had to go to counseling. I wouldn't believe what I had done and was blinded to the fact that it was a human being inside of me and not just a small mass at the beginning. I will never forget what I did and will never get to see my babies grow up, but I know I will be with them in heaven one day. We have a forgiving Jesus, thank you Jesus!

10. How has your abortion affected others in your life?

After counseling I was able to tell my parents and they were deeply hurt and grieved that grandbaby that they never got to meet:(My siblings were sad too that I had to have gone through all that.

11. Based upon your experience, what would you tell a woman considering abortion?

If anyone is considering abortion please please don't do it. The pain is so hard to go through and this life is LIFE from the point of conception. If its too hard for you to be able to support this child there is so many people that aren't even able to have a child of their own, and just think you could bless them and

change their lives forever.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

First I would start crying and tell them to take a look at all the photos of this little life starting at an ultrasound at 5 weeks or earlier. I would bring my ultrasounds in from my twins that were almost weekly and ask them how they could possible take this little life. God has a plan and a purpose for this child and had it long before this child was conceived. These little ones can't speak, so we better do it for them and save their lives.

9. How has abortion affected you?

I have lived for almost 30 years with this dirty secret, and now I live as the murderer of my unborn child. God has forgiven me, I trust in His strength to help me carry my burden of shameful murder.

10. How has your abortion affected others in your life?

I keep it tucked away from them. How can I explain what I have done?

11. Based upon your experience, what would you tell a woman considering abortion?

Do not have an abortion! This is an innocent life. Don't become a murderer. It tears an important piece of your life out, that you'll never get back.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

They are sanctioning murder, and may well be accomplices in the murder of every child should they legalize abortion.

Scott Vogel, ex-boyfriend

9. How has abortion affected you?

I have had a total of 3 abortions. After the first one, I felt that my eternal life was damned. The second one I figured that I was going to hell anyway, so why even try. The third one I really wanted to keep the baby, but the father insisted I abort or he would leave. He left anyway less than a year later. In those days my life centered around looks, drugs and alcohol. I was so one dimensional. Outside beauty was my only identity. For the outside beauty was ALL I had. Inside I felt ugly and ruined. When I was pregnant with my first child, I was convinced that God was going to use the opportunity to punish me. It was the hardest and most frightening experience. When my child was born, he was perfect. I knew then the power of forgiveness God has for each one of us.

10. How has your abortion affected others in your life?

My mother was so disappointed and saddened.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them that just like any other major sin, it is their choice. But the consequences are lasting

and disguised. We know not WHY we are convinced of that we are the scourge of society, we do not understand that we feel completely lost because of the inner turmoil going on inside us. The pain is so deep that many of us don't realize that our choice to kill our baby is the source. Without God in the aftermath-we are and will always be completely lost.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder, the baby is a being, not a bunch of cells. The baby is a separate individual from the moment of conception. Abortion is the cause for many other problematic situations of Society. Abortion erases HOPE. Without HOPE, we have no reason to live a life with morals and values.

QUESTIONS

1. Where and when did your abortion occur?

//1981

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

Dand C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No options or information was given. The gal just told me when to come back for the abortion. It was a very quick meeting she just took the urine test and told me how far along I was.

5. Were you adequately informed of the consequences of abortion?

Yes No

It was horrible. I was not told anything. I was not given any pain meds and it was so painful. The doctor didn't talk to me at all and the nurse held me down as I cried and screamed. I was not told anything about the affects of the abortion to me or the baby.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend was not supportive.

9. How has abortion affected you?

I died along with my child. I became caulous and thought men only cared about my body. I distanced myself from my parents and family because of the guilt. I tried to kill myself several times in the car. I got pregnant again and had another abortion, but changed my mind but the nurse held me down and gave me the general in my hand as I fought.

10. How has your abortion affected others in your life?

My relationship with my husband has been harder because I am so guarded. I was very angry with my first four children when they were growing up. I struggle with my relationship with my daughter and doubt my ability to mother.

11. Based upon your experience, what would you tell a woman considering abortion?

Nothing is worse. You will always remember your child and it will not get rid of the problem but begin a living hell. Adoption is the loving thing for yourself and the child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is the most unregulated medical industry. I cannot believe our tax money goes to Planned Parenthood so they can make billions off innocent women. It is destroying our families. Men suffer too. Our youth are preyed upon right across from their schools. The truth is denied young women about breast cancer and depression.

1. Where and when did your abortion occur?

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

I didn't ask

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I really didn't pay much attention. I was very scared and just wanted it over.

5. Were you adequately informed of the consequences of abortion?

Yes No

Noone told me about the mental issues and the moral ones I was to face the rest of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I think about the baby every day. I wish I would have made a different choice. The guilt and the horror of what I did is very hard to deal with. I am fortunate that I now have a great relationship with God and I know He forgives me, since I have begged for that. I am waiting for me to forgive me.

10. How has your abortion affected others in your life?

It is hard to talk about and the people I have told have been understanding. But, again, forgiving myself for the choice I made so long ago is quite another thing. Guilt and deep remorse follow me around always.

11. Based upon your experience, what would you tell a woman considering abortion?

DONT DO IT!!!! You will regret it at some point in your life and the regret will NEVER go away.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Only in those cases of rape or incest, where the sex was forced. That was not the case for me. I was

lied to by the man; told he could not have children, so I didn't take precautions. It was a very costly lesson and one I have never and will never forget. Then, when he found out I was pregnant, he ran out and left me. As far as I know, he never looked back. I pray that he never did that to anyone else.

QUESTIONS

1. Where and when did your abortion occur?

Missoula MT

2. How many weeks pregnant were you?

18

3. What type of abortion was performed?

Hysterotomy

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed of the breast cancer link. And that was my last conception. I was never able to conceive again after the abortion - I am unsure if that was related, but I suspect it was.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

My abortion was a true, 'life of the mother' abortion. My baby was anencephalic (which is fatal to the baby after delivery and produces extra amniotic fluid during the pregnancy). Since I had previously had one baby by c-section and I lived a long way from a hospital they were concerned that the old scar would rupture and I would die before I could reach a hospital. Even though my baby was going to die no matter what I chose, the act of choosing to end my baby's life prematurely was heart rending. I second guessed the decision for years, and to this day (25 years later) I wish I could do things differently. I would choose to carry the baby longer, to the point that had he been normal he could have survived outside the womb, yet still take him early enough to save my life. Taking your own child's life is heart rending. No matter what the circumstances, it is a pain that always lingers.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

Don't have tests you don't NEED to have. Unless your health makes testing necessary just let nature take it's course. If you choose to end your baby's life you will NEVER forget it. It will be a pain that will

never go away. It will influence the rest of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

There are true 'life of the mother' situations, but they are not emotional - abortion will only add to the painful emotions going on. An abortion will not heal the hurt of a pregnancy caused by rape or incest, it will only add to the emotional trauma. Abortions are not for convenience - the trauma of abortion will be far more inconvenient than what you are trying to avoid. Abortion kills a human baby and injures the mother.

My name is Bonnie I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Tacoma WA

03/10/1993

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

I don't know what it is called...they used some type of machine...God forgive me please

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They didn't explain anything to me!

5. Were you adequately informed of the consequences of abortion?

Yes No

I was very knieve

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

John C. Hayes the babies dad!

9. How has abortion affected you?

Terribly. i have cried many times for the loss of my baby. It is hard to forgive myself and I am not sure that I have. I have never regretted anything more. I would do anything to have my baby back. I have 2 daughters now...14 and 18...praise the lord as they are gifts from God!

10. How has your abortion affected others in your life?

My dad funded it. He still hurts about it too. I don't think the babies dad even cared. It is the worst thing I've ever done by far!

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! I guarantee you will regret it! The pain and the guilt is too overwhelming. I would also say, it is life from the moment of Conception. Take my word for it! nothing is as painful...too many women don't understand until it's too late! Just choose life...

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I would tell the court to BUT OUT! Anyone in their right mind would say no to MURDER! Because thats what it is...please, don't allow anymore innocent lives to be stripped away!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of VA

County of Norfolk

My name is Linda Wallace. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Norfolk VA

08/15/1977

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Suction Dilation and Curettage.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I do not remember if I was adequately informed of the nature of abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

I do not remember if I was adequately informed of the consequences of abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

The abortion affected my life in so many ways. I lived almost thirty years not wanting anyone to know what I had done. The enemy wanted me to keep silent, because I was afraid of what people would think of me. I believe the abortion was one of the reasons that prevented me from having children. I do know that what the enemy thought was for evil, God made good. I no longer hide behind the guilt and shame of having an abortion. God restored my life in a mighty way and now I want to do all I can to defend the lives of the unborn, because they can not speak for themselves. Also, I want to share how God set me free from the guilt and condemnation of the abortion.

10. How has your abortion affected others in your life?

My abortion prevented my family from being able to know my son Caleb.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell a woman that she was a mother from the moment of conception and that God knew her child before he/or she was formed in her womb. I would tell her that abortion is not the answer and that there are other alternatives, if she was not ready to be a mother.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell a court that abortion is murder and it should not be legalized. There has already been enough innocent blood shed in this nation.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WA

County of Pierce

My name is Tina Wilson. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Martinez CA

03/05/1996

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

I believe it was a D/C procedure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I distinctly remember after confirming my pregnancy, being given a list of doctors who performed abortions rather than being counseled regarding alternatives and options! I don't remember anyone giving me any verbal counsel. I looked up what D/C meant in a medical dictionary!

5. Were you adequately informed of the consequences of abortion?

Yes No

I may have been given some pamphlet; but again, I was given no counsel.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

emotionally, physically, spiritually and mentally; it was a cause of depression, shame and isolation (it was an unwanted sexual advance); I have endometriosis and likely will have no children; it was a stumbling block to my faith and values; I left the church for a time; it was a cause of repressed memories which contributed to my depression and denial of the incident.

10. How has your abortion affected others in your life?

My parents and siblings will not be able to enjoy grandchildren or nieces and nephews (two of my brothers died last year, leaving two girls and one boy remaining); it is uncertain that my remaining

siblings will have children.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T EVEN THINK ABOUT IT! If you feel you are not ready to raise a child, there are alternatives, especially adoption. Seek counsel! if you don't feel you can go to your family, go to a crisis pregnancy center, pastor or trusted friend. If your child has been the result of a rape/unsolicited encounter, remember he/she is still a child of God and a gift. You MUST get sound help for yourself. I chose a christian based post-abortion Christian education program 8 years after my abortion (in addition to earlier employment and MFT follow up). It enabled me to be restored.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If abortion should be legalized, then why not be honest and open about this "right" women are supposed to have? Let's see what the reasons are for our government funding Planned Parenthood? It certainly isn't as a deterrent for safe sex! Let's see an abortion procedure on primetime news and let the people decide whether abortion should be legal! My experience is evidence that those who are having abortions are not being educated regarding healthy alternatives and making life valuing choices. Freedom of choice is having options to choose from, not being pigeon-holed into one.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WA

County of Clark

My name is Barbara Wolfe. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Portland OR

10/19/1984

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Unsure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The appointment was called a "counseling" appointment through my medical insurance (an HMO). They started the procedure without explaining things.

5. Were you adequately informed of the consequences of abortion?

Yes No

I only remember being told it "the pregnancy" didn't count. I wasn't to list it on any medical information.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my parents

9. How has abortion affected you?

It cost me my first marriage (to the father of the baby). I have suffered anxieties, depressions, fears, unable to make major decisions in life, loss of self-worth, lack of self-esteem, feelings of unworthiness if others found out.

10. How has your abortion affected others in your life?

A sense of loss in my ex-husband, him not wanting any other children, a sense of self-righteousness in my current husband when he was told, a sense of loss to my other children over a sister or brother they will never know, shock for my older son about his mother.

11. Based upon your experience, what would you tell a woman considering abortion?

I would share my testimony with her. I would share the truth and how it refutes the lies the industry provides women with.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That the lies the industry provided them with are lies. Every woman IS affected emotionally and mentally over an abortion. That women who have had an abortion do not feel they have a choice, they are pressured and/or threatened if they do not have one. They truly are risking their physical health and their mental health when they have one. It destroys the woman from the inside.

HOW MY ABORTION AFFECTED ME

The State of WI

County of Outagamie

My name is Theresa I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Milwaukee WI

//1977

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

We never discussed that this was a baby I was told by Planned Parenthood it was just tissue I had no idea what the procedure was or how painful it would be.

5. Were you adequately informed of the consequences of abortion?

Yes No

Absolutely not. As a result I had 2 bouts with cervical cancer the two years following it. At that time they also put me on the birth control pill, knowing my mother had breast cancer and never explaining that this was an aborta-facia.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The boy who date raped me

9. How has abortion affected you?

It took me years to forgive my self and return to the Catholic Church. Once I found out all the things it effected I have been dealing with the pain and guilt for yrs. Not to mention the cervical cancer and the trouble I had becoming pregnant later on once I was married.

10. How has your abortion affected others in your life?

Well for one it cost me my fist mariage, among the other things I was mentally, verbally and physically abused for he blamed me for not being able to become pregnant and for those eight years I could not.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't consider it.....there are 2 victims, the baby and the mother. It is truly a life, don't let anyone tell you differently. There are so many couples in the US willing to adopt and you can by pass all the red

tape if you find a good lawyer who can do the paperwork for you.....the mental pain not to mention the health risks later on will haunt you your entire life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Unless the Mother's life is in danger the mental anguish and physical medical problems it increase do not make it a viable, healthy option. It is especially dangerous for these teenagers who have no idea how it will effect their bodies later on, some damage is irreparable.....it is the ending of life pure and simple. We exclaim Life, Liberty and the Pursuit of Happiness in this country, but without LIFE nothing else matters. We need to protect the smallest and most vulnerable among our citizens.....

3. What type of abortion was performed?

vaccuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

no one explained in detail the procedure. They said I would have some cramping and bleeding after and some cramping during procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

I dont believe anyone can really explain the deep scars having an abortion can do to a person. No they didnt even explain any "effects" of having an abortion

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has affected me in a way of having to deal with constant in the beginning fear, shame and guilt. Now years later its a constant walk of grace from God and a walk of forgiveness in myself.

10. How has your abortion affected others in your life?

It has affected by intimacy with my husband-sexually. Memories of the abortion cant be errased and they are horrific.

11. Based upon your experience, what would you tell a woman considering abortion?

Never have an abortion. In your mind you think its the answer to your problems you justify saying its just tissue but deep down you know better its a life.The deep scars of abortion are there forever they never go away-what seems like a way out-is not it only is a way to put you in chains. Emotional chains that only with Gods grace can ever get you out.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is murder. All in the name of a womans choice, what about the choice of that unborn child doesnt he/she have a voice! This silent holocaust has got to stop. Please do not make this legal.

lots from the father of the child and my mother

9. How has abortion affected you?

i am living with the fact that i murdered my own baby, child ,precious son or daughter that now would be 25 years old now if i had not laid down on that doctors table and let a doctor cut my baby apart to pieces and suck her out of my tummy. dear God i am so sorry. i am so broken i am so crushed .i am blessed to have the gift of Jesus who died on the cross for my sins . because i could not bear the punishment i deserve.

10. How has your abortion affected others in your life?

no body knows my shame. the father was murdered a year or 2 after. my mother has died. my 2 best friends knew but they really didn't know my pain or shame. i have not kept contact with them. i have

been told i don't look anyone in the eye.

11. Based upon your experience, what would you tell a woman considering abortion?

i would beg her not to have an abortion.women are being used and exploited by men to have sex without marriage . then they are coerced to murder their own children,in a painful horrible death. its easy for the fathers. the USA gov.even says its OK ,if a woman doesn't have a knowledge of the bible and a personal relationship with God she will have not have a clue how wrong it is.the world needs see its a child not a choice. its a baby .who will care ????

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

every one tells her about her rights . doesn't she have a right to have her child live.unbelievably married men are just as evil, my very own husband told me if i was pregnant with my 2cnd child i would have to have an abortion. this legal abortion law is telling people it is OK to murder.it is a child not a choice. please give these babies a right to life.protect woman from being used by men and now from science. may God hear my prayer

9. How has abortion affected you?

Began a downward spiral of drinking and drug use. Did not care about myself or others.

10. How has your abortion affected others in your life?

The pain and memory has remained with me. My husband and family have experienced loss over a child they will never know.

11. Based upon your experience, what would you tell a woman considering abortion?

You need to speak with someone who does not profit from your abortion, an outside party who cares about your physical and emotional well being. The best person would be someone who has experienced abortion. So many women have said that no one ever told them all of the facts.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

So many women have been hurt by abortion. Look at all of the healing programs around the United States and the hundreds of women who seek help every year for emotional pain directly related to an abortion. Abortion hurts women and the babies who have never had a voice, it is time to listen to the stories.

The State of WI

County of Racine

My name is MARY I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Iowa City IA

07/15/1979

2. How many weeks pregnant were you?

20

3. What type of abortion was performed?

saline

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I knew physically what was supposed to happen, but I had no clue about depression, feelings of guilt, shame and drug / alcohol abuse tendencies. My body became incapable of carrying a pregnancy to full term.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I was clinically depressed for several years, not knowing why. When I finally realized my guilt, I was able to seek forgiveness through Jesus Christ, but even with God's grace and forgiveness, I still struggle with many ramifications from my decision. I have used alcohol and drugs for almost the entire period since then and still have not conquered alcohol even though I am a committed Christian and very involved with my church and the family of believers. Since the abortion prevented me from being able to carry a pregnancy to term, I had 5? miscarriages during my married years and so have no children now. Each Mother's Day is a vivid reminder of the whole thing.

10. How has your abortion affected others in your life?

I have never told my parents, being unsure if it would be the right thing to do. Bottom line is they won't ever know the grandchild I had killed, nor the subsequent siblings who died in the womb. Same for my siblings and their children...

11. Based upon your experience, what would you tell a woman considering abortion?

PLEASE DON'T!!!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is one of the most striking kinds of human atrocity and abuse I can imagine. (not to mention the many couples who long to adopt babies)

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WI

County of Racine

My name is Sanon Harrell. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Milwaukee WI

//1991

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

I'm not sure but I know I saw a full size baby on the ultrasound and they suctioned it out

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

In fairness, they sent me in a room to talk to a lady that wanted to inform me of my options - I told her I knew what I was doing and I'd be fine. She said, if that's how you feel - sign here that I told you.

5. Were you adequately informed of the consequences of abortion?

Yes No

same as above - I never gave her a chance. I knew what ever she had to say would make me feel guilty about what I was doing and I didn't want to know.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I had no idea at the time, but I went through a phase of life where I dated a guy that was super controlling and jealous - he eventually hit me. I became a clutz, constantly hurting myself. Started listening to country music and went through a depression I did not relate to the decision I made to selfishly end a life. (I was scared of what I would lose/give up if I had a child at a young age and on my own) Then when I eventually got married I went 5.5 yrs not getting pregnant. Fought about it often - thought I was being punished for messing up the chance I had. Finally got divorced. Then I got saved and eventually married again. Again wanting children. I heard a radio advertisement for CPC wanting volunteers. I called and they told me to be a counselor I had to go through their postabortion biblestudy first. A month after I completed the study I got pregnant.

10. How has your abortion affected others in your life?

I learned through that bible study that the clutziness was me unconsciously hurting myself, that the

sudden interest in country music was my depression finding an outlet etc. My poor choices in boyfriends there after and some drug use etc. I had never known the source was my pain from my decision. I also remember seeing picketers and being so mad at them. (I would be fine if they didn't rub it in my face - I could pretend it had never happened and go on w/my life if they wouldn't put bumper stickers on their cars and carry signs - why would they want to hurt me like that?) Now I am a counselor for LifeChoices and teach parenting classes to the girls that choose to keep their children.

11. Based upon your experience, what would you tell a woman considering abortion?

Just because it is legal to have an abortion, does not mean it should be. If you would take a few minutes to read about the stages of development you would be amazed how much is already going on in your body and with that baby. If you end that life, the guilt and shame can be overwhelming. Please don't allow yourself to make a decision out of panic and fear. God does not make mistakes.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

please if you do nothing else - watch the videos on the silentscream.com You will not be able to tell yourself anymore that it is just a blob of tissue.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WI

County of Waukesha

My name is T J I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Milwaukee WI

11//1992

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

vacuum aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I asked if the baby would be in any pain when it happened. I was told that the baby just had the beginning of it's brain stem and would feel little to no pain. I found out many years later that this answer was a lie.

5. Were you adequately informed of the consequences of abortion?

Yes No

All the person asked was if I had any questions. I asked the question as noted above. I was not given any additional information beyond what I asked.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I had three miscarriages before having my son, and doctors don't know why. I get depressed when I think about what I did. I feel like crying whenever I pass an abortion clinic, because I know that someone inside the clinic is being lied to and I know the pain they will eventually feel as a result of their decision to have an abortion.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

#1: DO NOT TALK TO PLANNED PARENTHOOD! They will lie to you and will not offer you any resources regarding the option of adoption. #2. Consider adoption, because it's easier to look yourself in the mirror and say you chose life over the easy road of abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

When I was pregnant with my son, I found it odd that he wasn't considered a person, with a right to live, until he was separate from my body. He was just as much of a person to me before birth, as after. That's when I understood the tragedy that is abortion.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WI

County of Washington

My name is Mary Kidney. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Milwaukee WI

03//1974

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not counseled on the developmental stage of the baby and what was being done to the baby to end it's life - or given counsel as to an adoption alternative. I was not warned about the physical or emotional consequences of this procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told that abortion carried the risk for the success of further pregnancies. I had a pregnancy complication with a subsequent pregnancy that was directly related to my former abortion. I was also not told of the possible emotional aftermath.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend

9. How has abortion affected you?

I became emotionally numb and suffered depression for many years after the abortion. I resented my then boyfriend, now husband, for not standing up for me and my baby - which effected our marriage. I have grieved and regretted my decision when I finally was ready to come to terms with what I did to my first child.

10. How has your abortion affected others in your life?

I have resented my husband for not standing up for me and for his baby.

11. Based upon your experience, what would you tell a woman considering abortion?

In the crisis state you are in, abortion seems like a quick fix - like it will make all your problems go

away. But you will have to live with the fact that you killed your own baby and you're not even thinking of that now. That baby is yours and is a blessing no matter how impossible things seem in your current vulnerable state of mind. You need support to do the right thing. Look for that.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If it is a choice between the life of the mother and the life of the baby, of course abortion should be legal. But the harm of a mother ending the life of her own child has physical and emotional repercussions to the mother that outweigh everything. Support for the mother, not for the abortion is what should be offered instead of murdering a human being in the very place it should be safest - in the womb of his or her own mother.

QUESTIONS

1. Where and when did your abortion occur?

Eugene OR

11/16/1997

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only 16. It was treated as a "medical procedure", very clinical. I was given no brochures, saw no videos, had no adult with me.,

5. Were you adequately informed of the consequences of abortion?

Yes No

See above.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I had a miscarriage that may or may not have been an affect of the abortion. I also had problems with pre cancerous cells that I have sense read are more prominent after an abortion. Emotionally it took me six years to seek counseling and accept what I did. I will never completely forgive myself for my decision.

10. How has your abortion affected others in your life?

My husband now feels a loss as well. We have three adopted children and he would have gladly accepted my baby as his own and adopted her as well.

11. Based upon your experience, what would you tell a woman considering abortion?

There is a sense of "my life will be over" if they don't abort but the truth is that their life will never be the same no matter what decision they make. If they abort, they will attach that decision to every relationship they have both with men and with their future children. If they don't abort they have can take control of the situation and give that baby a life that they will always look back on and feel strong about.

Adoption would give them the ability to continue the path they wanted their life to take while fulfilling the dream of two parents who will love and cherish the child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The ramifications of legal abortion affect our society in countless ways. It removes the sanctity of life...I don't even know where I would begin.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WI

County of Dodge

My name is Paula Langhoff. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Phoenix AZ

01/08/1981

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

so-called therapeutic, dilatation and currettage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was "counseled" which consisted of a lady telling my boyfriend that the baby I had was a blob of tissue that wasn't alive and had no feelings. I wasn't even given a pamphlet. The woman pointed to a plastic model of a uterus. The session lasted all of 3 minutes with a comment of "any questions?" It was overwhelming. I was only 19. By the way the day of the procedure, I BEGGED the nurse and the doctor NOT to perform the process, to remove the "seaweed" tampon thing that was dilating my cervix and let me go. They refused, I was yelled at by the doctor and told I was "wasting" everyone in the clinic's "time" and that I would "lose the baby anyway" if he did that...so I should just "be quiet" and submit to the procedure. After it was over I was kicked out of the room because a nurse said I had to leave because they had other girls and they "needed the room". I passed out on the elevator and my boyfriend had to physically carry me to the car. I lost my job for an abortion I didn't even want or expect. I lost my life for 30 years afterwards.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no discussion other than "some discomfort" but that was minimized by telling me I would receive "an anesthetic". No discussion of risks, not even death, it was underscored how the baby was not alive, because if "it" was born right then it wouldn't survive. That was their justification for the fetus not being alive. I was told it didn't even have fingers or toes at 11 weeks which I later found out to my horror was completely untrue.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The doctor actually, on the day of the procedure

9. How has abortion affected you?

It took me 30 years before I could begin to forgive myself, I still struggle with this. The process ripped apart my relationship with the man I loved at the time, which was devastating. I carried a huge hole of pain, grief, loss, shame, self-hatred, and depression because of this. I would give anything to replay the events and make a different choice. There was absolutely no one supporting me, not even the "planned" parenthood which was a code name for killing children for those who didn't plan on being parents. The day of the procedure I begged the doctor not to make me go through with it and he yelled at me for wasting his time and pressured me into having it anyway even when I didn't want it.

10. How has your abortion affected others in your life?

My family was devastated, my parents and I never had a relationship after that; my boyfriend and I separated although we were engaged, and both married people we did not love out of guilt, which has ended in divorce and torn apart our families, and affected our subsequent children. We both struggle with forgiveness issues. This haunts us daily. This is a horrible, life-altering mistake on every level, especially on a soul level. There is no taking it back. It is the worst thing you can do to yourself and to others. When I finally had children, they meant so much but the one I lost haunts me still. What does one say, I have 2 children? 3? There is no way to make this right, and abortions should be outlawed. These "doctors" are murdering not only unborn children, but the futures of the victimized women.

11. Based upon your experience, what would you tell a woman considering abortion?

For God's sake don't do it, you will regret it for the rest of your life. All life is sacred, all life has meaning, and I now drive past Planned parenthood places in this state and feel nauseous and sad.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is the most ruinous event that will ever effect a woman, her family, her future, and society....because it creates GHOSTS; people who are walking the earth alive, but in a constant state of depression, shame, pain, anxiety, hopelessness, and God-lessness. It teaches a culture of death, destroys the spirit of the would-be parents, and embraces the destruction of family, societies, and generations of people. It is infanticide, even if that child is not old enough to survive the process of being born. The gift of parenthood is sacred, and all life should be honored and protected at all cost. Otherwise there is no point being here. LIFE SHOULD BE DEFENDED, AND NOT DISMISSED.

QUESTIONS

1. Where and when did your abortion occur?

Milwaukee WI

06//1993

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

I am not sure what kind of abortion, I did not know there were certain kinds.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no mention of emotional consequences, only physical

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

My abortion did not affect me until I had started having children. I realized my role as a mother, which was to protect my children. I now feel remorse for my selfish actions. I feel ashamed for not protecting those babies the way I would protect my living children. I feel the need to ask for forgiveness from those children that I aborted for not being the mother that they deserved.

10. How has your abortion affected others in your life?

My mother had a hard time with my decision. It was something that she was against, and had a brick in a remembrance wall made for the baby I aborted when I was in high school.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them that it may seem easy and quick. It may be something that you are okay with after

the abortion. But eventually you will feel the consequences of your actions, and you will regret the decision to take the life of your own child. That is what you are doing. You can try to hide it buy saying that you are just "taking care of it". Instead of being honest and saying what it truly is, which is, killing your own child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Everything that I said above.

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told I could have children later in life and that my life would be as if this had never happened. No one would ever need to know and your life will be just as it was before the abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nothing was said about depression, low-self esteem, rage and anger and lack of care for my life that followed

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I went deep into drinking and sex. I stayed away from my family, because of the deep shame!

10. How has your abortion affected others in your life?

My husband and children were victims of my anger and drinking bouts as life went on 18 years after the 1st abortion. I had 2 more in a 4 year span after the 1st one.

11. Based upon your experience, what would you tell a woman considering abortion?

Never go through with it!!!! It will haunt you the rest of your life! The relief you will feel is very short-lived!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We are complex creatures and killing our off spring is inately going to make you do things you don't realize you are doing. There are so many ways it will effect women. We can be in denial for years and

have no clue why we are so sad inside or have compulsivities that stem from the abortion. Overeating is something that I still am working on after 20 some years after my 1st abortion. Repeat abortions also can happen due to seeking a better outcome(reenactment). Depression is still there on anniversary dates! Was it worth all that???? Heck NO!!!! I wish I had given them up to a great couple!!!

My name is T M I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Minneapolis MN

12//1980

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that the "tissue" would be removed through suction. I was told about the discomfort I could expect. There were a group of us in the room who were all having abortions and they asked us each why we were choosing to have the procedure done. Details were not shared. When the abortion was performed, I saw the doctor lift the bag up and was squeezing it to examine it closely. I asked what he was doing and he said he wanted to make sure he got everything. I wondered how you could "know" you got all the tissue. It struck me that he was looking for the body parts of my baby. It was 30 years ago and I still remember it vividly. When I realized the surgical nature of what just occurred the emotional pain started for me.

5. Were you adequately informed of the consequences of abortion?

Yes No

The aspect of regret and emotional pain were not discussed (nor can I remember any discussion of physical consequences.. but I did not experience any of those besides severe cramping for a week). After realizing that the doctor had looked for body parts, every time I saw a baby I had emotional pain. That lasted intensely for 7 years. I have experienced a level of healing but tears fall every now and then over having killed my own child.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The fathers mother.

9. How has abortion affected you?

Shame and emotional pain for many years. It also caused me to feel like people really didn't know me because there was a hidden part of my life. Others who chose to have their babies were able to live openly and I envied them.

10. How has your abortion affected others in your life?

I have tried (with God's help) to live a good life and to raise good kids. I had to tell them at one point that they would have had a half-sibling but that I had taken that child's life. That was a painful thing to admit to my kids, but I try to live as transparent a life as possible.

11. Based upon your experience, what would you tell a woman considering abortion?

The choice to have an abortion "seems" like a way to fix a previous bad choice or circumstance, but it does not, it adds on to it. The best way to recover is to face your reality and find a positive solution.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It should never be legal. It is a false doctor. It does not fix problems, it transforms them into something uglier.

9. How has abortion affected you?

I didn't believe nor want to have the abortion. My mother did everything to convince me, which failed. Therefore, she resorted to threatening me with committing suicide if I didn't have the abortion. It affects me everyday of my life. I regret what happened. I am angry with Planned Parenthood for not explaining more or asking if I was pressured or threatened. It's also EXTREMELY important that it is known when I was taken back to the room, prepared, and when the machine turned on I told the dr. don't, stop, and he jammed the tube up me and said too late.

10. How has your abortion affected others in your life?

It's affected my husband by having difficulty conceiving and starting testing for fertility issues. It has affected my pregnancy when I did become pregnant. It has caused me emotional trauma which ultimately affects my husband and children.

11. Based upon your experience, what would you tell a woman considering abortion?

There is so much I would say. I would for sure make sure she knew what the procedure is in detail, the development of the baby, the effects emotionally and physically of having an abortion, ensuring she is doing it of her free will free from fear of harm or threats. I would advise my situation what happened being raped and still wanting to have the child, my mother threatening to kill herself, and ultimately the heartache and pain it's caused me since the abortion. I regret the abortion everyday of my life to the extent I cry almost everyday over it and think even 10 years later about the child I should have had and how she would have been apart of my family, what my son's would think of her, and on and on.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I think that some women should be allowed to have an abortion if the pregnancy occurred due to rape or incest and the mother's life is in danger. With that said, I was raped, and yet I wanted this baby. My mother forced me to do it but threatening to kill herself if I didn't do it. If an abortion is going to occur based on the criteria I indicated or any for that matter, more than one prior visit of a few mins. needs to occur. It should be a decision made over the course of a least a week with the mother being advised in depth about the procedure, long term emotional and physical effects, ensuring it's of her free will free from threats or force, being advised of other alternatives and their outcomes, and speaking with both a psychologist and a mother who aborted her baby and those consequences.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WI

County of Green

My name is Erin Menzel. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Madison WI

10/03/2000

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

D & C type

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

No, I wasn't informed of the emotional consequences. I was not told of the overwhelming grief, guilt and depression that occurs. It took me over three years to get out of the depression that occurred because of the abortion, through therapy, faith and love I finally came out of it. I still think about that little baby I could have had, I still think about what a huge, terrible mistake I made. I have two children now and I am not sure what I will tell them, or if I will. All I know is that it was the worst thing I have ever done in my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My father and his girlfriend

9. How has abortion affected you?

Well it has affected me in many ways that have altered my life. I had severe depression for over three years, I finally came through it by placing my faith in God, that God forgave me. If I hadn't of done that I would be dead right now, I was very close to suicide. I for a long time could not look at a baby without looking away with guilt and pain. When my husband and I decided to have kids I didn't think I would be able to because I thought it would be my punishment for killing my first baby. But I do have to beautiful daughters now, so I know that I'm forgiven. But somedays I still can't forgive myself. I still feel like if

anyone knew that I had an abortion they would look down on me and think I am a terrible person. In a lot of ways it stole my self-esteem and my sense of worth. I'm slowly recovering, but now that I think about it I'm still struggling.

10. How has your abortion affected others in your life?

Well, I married the father of the baby I aborted because of guilt. So that has affected him, as he still harbors bitterness towards me because of it. My Mom lost a grandchild, lost me in a way because I'm not the same person I was before and I lost a bit of myself. I don't trust friends enough to tell them about the abortion, so I don't truly trust people. I didn't talk to my father or his now wife for over 5 years because of the abortion. I was so angry at them for convincing me it was the right thing to do, so angry at myself for letting them convince me I would be a terrible mother. It definitely ruined my relationship with my father.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them do not get an abortion no matter what. I would tell them the emotional consequences to getting one, that it doesn't make anything better. I would tell them that there are so many good people out there that would love to adopt.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

How can killing a baby be legal? The court system charges a person that murders a pregnant woman with 2 murders, why is it okay to abort a baby? Please save these babies lives and save the souls of the mothers, there is no good reason to abort!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

there isn't a day since that I don't regret my choice. I am thankful I have a forgiving, loving God.

10. How has your abortion affected others in your life?

I voice a strong anti-abortion support... I have helped others see the wrongness in the choice of abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

Make sure she is informed...that this is a life just as her and I were that stage at one time...make sure she knows the TRUTHS.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The 'license' given to me to have an abortion probably encouraged me to go through with it...if it was not a 'legal' action, I probably would have thought it through more and hopefully would have met someone who could tell me the true issues involved.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WI

County of Dane

My name is Mary Olson. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Madison WI

07/19/1973

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction ?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that it was just tissue at that stage.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no counseling. I called a number on a billboard and it was planned parenthood. They made all the arrangements for it. I went, had it done and was sent on my way. I started bleeding and the cramping was so bad after I left that I thought I would die. I had left town right after the procedure so I called them and they said to lay down and keep my legs elevated. The bleeding finally subsided later that day but it was very frightening.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

It was my decision.

9. How has abortion affected you?

It is something you never forget. If it wasn't for knowing the Lord and having asked for his forgiveness and grace I know I wouldn't be able to live with myself. Even though I have been forgiven, I still struggle with being able to forgive myself. My first (wanted) pregnancy ended with a miscarriage and I thought I was being punished. I have been blessed with two wonderful Son's and one Stepson. I am 54 years old now and like I said above, my past is really always present even to this day. YOU NEVER FORGET.

10. How has your abortion affected others in your life?

This election year is when I told my family because of how important it was to vote for a prolife president. That was extremely hard but they all understood. My Stepson and his wife one year ago had

an abortion because she has CML(leukemia) and had been on a very strong drug so she wasn't suppose to even get pregnant. She did and the Dr's told her that she had to have an abortion immediately because of the deformities that the baby would have. I tried talking to them first of all for the fact that it is wrong and that they shouldn't only want a perfect baby. I later did some research on it and the deformities that were possible were fixable. I read about women on the same medication who went through the pregnancy and the babies all had minor problems. I informed them of that but my Stepson said that she already had her mind made up and that was that. I felt so inadaquate for not being able to talk them out of it. This was our grandchild and I wasn't able to do anything about it. She was given a pill(s)and it took a couple of days for it to occur. During the hardest time when my stepson should have been there for her, went to a bar, got drunk and drove off a country road totalling his car and getting hurt himself. They are separated at this time and he is on depression medication. She is having a hard time also. No matter what the reason's for the abortion it effects those involved forever.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion changes your life forever. People don't realize that the so called problem of being pregnant doesn't just stop with an abortion. It remains with you for the rest of your life. You always wonder if the baby (not blob of tissue) would have been a boy or girl, what would they have looked like, what they would have done with their lives and how they would have contributed to this world. I have read so many times about the lives of women that choose to have a baby that wasn't going to be perfect and they were so blessed in so many ways that one couldn't imagine. People are so afraid of imperfection or of having a baby interfere with their lives. If a pregnancy happens let the Lord make that decision, then all the burden is off of you otherwise you will live with unrest for all of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is morally wrong and no matter what your beliefs are, it has consequences that no one can imagine that effects you for the rest of your life. You may be able to tuck it away and not think about it for awhile but it really is always there. ONE DIES AND ONE SUFFERS.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WI

County of Milwaukee

My name is Michelle Piotter. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Chicago IL

//1984

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The only discussion I recall was at the teen center that referred me to the abortion clinic. At that teen center my baby was referred to as "tissue" or as a "problem" that could be fixed.

5. Were you adequately informed of the consequences of abortion?

Yes No

I guess there was some talk about risks of the procedure to my body, but never discussed risks to my emotional wellbeing.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I had two abortions. I was unconscious for the first. I was awake for the second, and I have clear memories of the emotional horror I experienced as I heard the sounds and saw the sights of abortion. It was then that I began to consider what I truly was doing. In the years immediately following the abortions, I (subconsciously) turned to alcohol and drugs for treatment of shame and depression. In the midst of this new lifestyle I became pregnant a third time and chose life for this baby because of the experience of the second abortion. My pregnancy and the birth of that baby caused me to realize even more so what I had done. I lived under a cloud of depression until I went through spiritual and emotional recovery over 15 years later. I no longer hate myself, and I hope to allow my pain to be turned into help for other women who are considering abortion or recovering the wounds of post-abortion.

10. How has your abortion affected others in your life?

My parents experienced devastation upon learning the truth. PAIN!

11. Based upon your experience, what would you tell a woman considering abortion?

I would try to help her understand that she is carrying a life. I would tell her that I ended my first two pregnancies through abortion because I thought an early term pregnancy was not a life yet. I would encourage her to see life as the only option AND the best for her AND her baby. I would want her to know that abortion does not solve the "problem", but in fact it only brings on a LIFETIME of problems (including shame and regret) which are more difficult and enduring problems than carrying the child to term would ever bring on!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Too often people, especially young people, use our legal system as their moral guide. If the law says it is legal, they assume it is also moral. Women NEED to KNOW what is in their womb (education and ultrasound perhaps). Abortion IS murder! It is the taking of LIFE...so where do we then draw the line to say murder is wrong? When abortion is illegal...some women will still proceed with the illegal abortion and therefore some of those will be hurt or even die. I deserved to die when I was in the process of committing murder. Why should we protect murderers. ALSO, MORE LIFE IS LOST when abortion is legal because it is easy...so, more women are having more abortions! I KNOW that if abortion were illegal when I had either of the two, it would have been a GREAT deterrent causing me to pause and consider other options.

9. How has abortion affected you?

Several years of alcohol and drug abuse. Years of being on death row, waiting for the punishment for my crime

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

Consider the thought that she will have to live with the knowledge that she took an innocent life. That she will never have that child to hold. That child was created to be loved and to love and that love is lost.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is 1st degree murder. 1st Degree murder is punishable not legal. Abortion should be punished not legalized.

9. How has abortion affected you?

I've had trouble with depression and relationships with the loved ones in my life.

10. How has your abortion affected others in your life?

It's been hard for me to get close to my children or for them to get close to me.

11. Based upon your experience, what would you tell a woman considering abortion?

It affects every aspect of your future. When you realize that you murdered your own child, it is devastating. Don't listen when someone tells you that your life would be better not having to deal with raising a child. You will never forget that you have ended the life of someone who might have done something great and that you are a murderer.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is NOT a woman's right to do whatever she wants with her body...that baby is a separate individual

NOT a "blob of tissue" as Planned Parenthood would say...if we take a baby from its mother's body, it's MURDER...plain and simple. Murder has always been against the law; this is NO different

3. What type of abortion was performed?

I believe a type of vacuum was used

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't recall anyone telling me exactly what was going to happen. Although, I was very scared and may not have been able to understand everything that was said to me clearly.

5. Were you adequately informed of the consequences of abortion?

Yes No

I only remember the doctor telling me about physical things like bleeding and having some discomfort.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I suffered from EXTREME guilt and shame for years. Even after asking God's forgiveness, I still struggled.

10. How has your abortion affected others in your life?

My older sons (18 & 17) are aware of what I've done. They know some of what I've experienced. They now are BOTH taking a stand against abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

I'd share my experience; that the price is too great. I'd tell her the truth - that she's carrying a living being that's a part of her and once that's gone she'll experience a loss that's she's never felt before. A part of her will be missing. She doesn't have to be ruled by fear. I'd tell her about other options and that there are people who will stand with her and support her through it all.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Anyone who has had a child sees the future in them. A child brings hope and joy. We are destroying not only our future by killing our babies, but we are also devastating the lives of those who have had an abortion! Lives are being destroyed not just through the abortion procedure itself, but also from the effects of it on those who experienced it! You can't just take a life and not have consequences. And we are talking about a "life".

10. How has your abortion affected others in your life?

i can't answer for them, although i know it has affected them.

11. Based upon your experience, what would you tell a woman considering abortion?

you will carry the pain of this the rest of your life, even with the passage of 30 years, it's still there for me; it will always be in your memory until the day you die. the only relief is the restoration of the blood of Jesus Christ that eased the pain of my soul and spirit. nothing else could take that pain away.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

you're simply wrong, without question.

The State of WI

County of Jefferson

My name is Dawn Truelsen. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Little Rock AR

01//1981

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was a 'blob of cells'. I was also told it would not hurt the baby or 'cells' at all, and that I could go on with my life as if I had never been pregnant. They were wrong on all counts. My life was never the same after that.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea of the guilt and agony I would experience afterward. I went through years and years and years of depression and self-hating behavior afterward.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

the baby's father

9. How has abortion affected you?

I had been called a murderer by people picketing the abortion clinic at the time, and those voices rang in my head day and night, dreaming and awake. 2 years later, I had another abortion. When I first saw and heard my living daughter's heartbeat on the monitor, I started crying. 3 years later, I had a son. I vacillated between being loving and hateful to my children. My guilt ate at me day and night. Then, in 2005, I spoke with a crisis counselor who told me about a bible study for post-abortion women. That bible study and those women saved my life, my sanity, and also that of both my children. I had no where to turn, no one who understood. Everyone said I should just get on with my life and let it go. But I

couldn't. They were my children, too. Those women understood. They had been there. Our stories were different, but our pain was the same. The longer we had gone without being able to talk about it openly, the deeper the pain went into who we were. Naming our children, and openly grieving them at the memorial service, changed my life. The first 3 months of every year are still very hard for me (my 2nd abortion was on 3/2/83). My daughter bought for me a CD by 3 women who had abortions titled "Unseen Hands". I could NEVER have another abortion, under any circumstances. Not rape, not for my own health, not if they would only be a vegetable. They have life at conception, and it is not my place to take it from them.

10. How has your abortion affected others in your life?

My ex-husband is haunted by our dead child. He was afraid to love our living children for fear of retribution. My daughter prays for her siblings every day. My son will not discuss it at all. But they have both expressed a wonder if I would have killed them.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT!!! Go through the pregnancy and give it up for adoption if you cannot raise the child on your own. But if you kill it, you will be haunted every moment of the rest of your life. Do not take your child's life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I cannot tell you what choices to make for yourself. All I can do is tell you what my "choices" have done to me. It is not worth it. Please do not make it easy for women and girls to set themselves up for a life of guilt and depression, or to be harassed into killing their own child in order that the birth father can avoid having to support the result of their fun. That 'blob of cells' will become a child. It will not become a banana or an orangutan. It will be born as a human child. Do not take the chance of depriving our world of another Mozart or Michaelangelo. Abortion is not a choice, it is physical murder for the child, and emotional murder for the woman.

QUESTIONS

1. Where and when did your abortion occur?

Pleasanton CA

2. How many weeks pregnant were you?

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They explained the procedure, but did not inform me of what was going on with the baby, that it had a heart beat, brain activity, movement...

5. Were you adequately informed of the consequences of abortion?

Yes No

They did not explain the emotional trauma that can come from making this life altering decision, that it can haunt you for the rest of your life. They made it very clinical and did not provide me with information to give me all the other options before making this decision.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

mom

9. How has abortion affected you?

I have had numerous dreams about the procedure and what I did as if I relive it over and over again. I carry guilt that cannot be relieved. I still think about my baby and how old he/she would be, what they would be like. I regret me decision greatly.

10. How has your abortion affected others in your life?

It has blocked my emotional connection with my husband since I have become more emotionally numb and I fail to connect with him on an intimate way. I protect myself from gettign hurt by building walls to

keep people out.

11. Based upon your experience, what would you tell a woman considering abortion?

I wouldn't wish it on my worst enemy. There are too many other options to consider. We don't know the future, what God has planned for our lives. God can provide, God has a plan and this really isn't a choice. It will hold you captive for the rest of your life and you are making a decision for someone that you have been charged to care for. Don't be so selfish that you fail to consider the true consequences of your actions. You will be held accountable for this.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is harmful to the baby, to the parents and to those closest to us. It is life altering and we are not capable of considering all the consequences of our actions. WE do not know what the future holds, so by allowing people to make this decision we are allowing them to make uninformed choices that will negatively impact them and those around them for years to come. Who are we to make the decision to end another persons life at our own whim. This is the same as terminating the life of an invalid because of our own selfishness. People know in their own hearts that this is wrong. Unfortunately most are too self serving to consider their actions and then they are stuck with the consequences. It is truly tragic. Stop playing GOD.

My name is Marilyn Vandekieft. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Milwaukee WI

09//1979

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

I'm not sure...it was 30 years ago

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't remember anyone saying much of anything...they were just willing to help me get rid of my "problem"

5. Were you adequately informed of the consequences of abortion?

Yes No

I did not hear anything about consequences...I didn't have any ideas there would ever be any consequences

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

husband - not so much pressure but suggestion

9. How has abortion affected you?

I have dealt with depression for the past 30 years, as well as anxiety; I have trouble sleeping, have many fears; I'm borderline hypertensive and diabetic. I've been on and off of all kinds of medication. Was divorced 20 years ago. My life is very emotionally unsettled, unstable, I've had all kinds of counseling, but no one ever helps with the abortion issue...no counselor knows how to deal with it.

10. How has your abortion affected others in your life?

It hasn't because no one knows about it. I've kept it quiet except for a few rare exceptions...a few friends, and counselors.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT. You'll regret it for the rest of your life. And your life will be miserable. You'll suffer emotionally as well as physically.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

How can murder ever be legal? There are two victims in an abortion...the baby who is killed, and the mother who has to live with the title "killer" or "murderer," haunted forever by a selfish act, living a life that is scarred by depression, anxiety, guilt and stress which result in health issues such as hypertension, diabetes and digestive disorders.

QUESTIONS

1. Where and when did your abortion occur?

Milwaukee WI

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

All i remember I was put into a "twilight" and was told it would be "suctioned" out.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

all i knew, was that i didn't have to "give up my life" to take care of a baby.

5. Were you adequately informed of the consequences of abortion?

Yes No

i was unaware of the emotional toil it would take on my life. what it could do to my body...could i ever bear children again? i was not warned of this.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

the teen father thought it to be best.

9. How has abortion affected you?

I have dealt with such guilt for 19 years. i am saddened to finally realize that i "murdered". i took a life.

10. How has your abortion affected others in your life?

friends who know have been so encouraging. the hardest thing was to tell my husband, before i married him, that i had an abortion and i didn't know if we would be able to have children together.

11. Based upon your experience, what would you tell a woman considering abortion?

I have decided to glorify God through my experience and help educate teens as to how their decision WILL affect them for the rest of their lives. That the CHILD they are carrying is ALIVE, does FEEL, does BREATH, does have a BEATING HEARTBEAT, and most importantly is a child of God. The child and quote on quote responsibilities will "go away" with this procedure, but the heartache of knowing you were RESPONSIBLE for taking a precious little life and ending it...will haunt you FOREVER!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

In this country we declare one is alive or dead by the activity in their brain or the beating of ones heart. 18 days from conception that little heart starts beating. 5 weeks from conception the brain is active. There is LIFE in the womb. People who have committed heinous crimes, are given food, water and comforts in this life until it is their time to pay for the crime they committed. What have these unborn LIVING babies done to deserve a death sentence? According to the medical community...if your heart is beating and your brain is active - YOU ARE ALIVE.

My name is Annette I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Harrisburg PA

03/25/1989

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

uncertain, suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't remember being told that it was a baby, just tissue, non viable tissue.

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't remember anyone telling me how much it would hurt and haunt me forever afterward. It is the most agonizing pain in the soul that nothing can numb. You cannot erase a human life. You cannot press 'undo' and have it 'undone'. God creates life, and it is the most painful regret of my life that i destroyed a life that God created.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has haunted me ever since...knowing that i have taken a life that God made and left a hole in this world that this child was meant to fulfill, a child for whom God had plans for good and not for evil, to give that child a future and a hope. There has been a hole in my heart and in my life ever since.

10. How has your abortion affected others in your life?

My daughter is an only child - and knows of what i did - and that there should have been a brother or sister to fill the lonely void in her life too. My parents and family also suffered because they knew what i did and my sin stained their lives too. Only through the forgiveness of Jesus Christ, who paid for my wretched sin on the cross, who washed away the stain of my sin and made me a new creation in Christ, forgiven, with a new heart, am i able to go forward, but still knowing that i have destroyed a life God created, but thanks to Jesus, my precious LORD and Savior, i am forgiven. All can be saved the

same way, no matter who they are or what they have done, Jesus will forgive and heal those who come to Him, who turn from their sins and ask Him to be their LORD and Savior.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't do it. Please don't. You will regret it forever, and you cannot undo it. Please give your child up for adoption if you cannot keep it. So many loving families want children, please give your child a chance for a happy life. Please choose life!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder. There is no other way to say it. It is killing a life that God created for a purpose. We do not have that right. It is not a matter of privacy. Even in cases of rape and incest, that child is still alive and innocent and though it is so hard i do have compassion,love and understand, but please, consider this little life - that does feel pain- terrible pain - and let this little child live. Give them up for adoption. So many cannot have children and will love that child - no matter what disabilities it has - for who it is - a child of God - created in His image and likeness and for His great and loving purpose. Abortion is staining our nation with the blood of innocents. God is loving, but He is also righteous and He is the ultimate Judge to Whom we must all give account - whether people believe or not, He exists. This sin of murder is staining our nation and God will have to judge this sin, as He did in the days of Lot, and Noah, and Jonah (see in the Bible in Genesis 5-9, 18-19, and the book of Jonah). God judges nations for their sin. He can send famines, disaster, war, disease and economic woes. We as a nation must turn from this sin and stop labeling murder as 'choice'. Jesus Christ is the Savior of the World- He is the bridge between our sin and God's holiness. He laid down His life for us on the cross so that we could be forgiven and be restored to a loving and obedient relationship with our Heavenly Father, Who created the world.

The State of WI

County of outagamie

My name is Virginia I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Green Bay WI

07//1973

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Do not know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It was after it became legal. I called a number I found in the ads in the newspaper and they referred me to this clinic. I made an appointment and that was it.

5. Were you adequately informed of the consequences of abortion?

Yes No

I wasn't told anything that I can remember

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

I wasn't pressured, but my boyfriend suggested it.

9. How has abortion affected you?

I think about it all the time, especially when the topic is brought up. It was the worst thing I ever did in my life. Had I been better informed, I would like to believe I would not have done it.

10. How has your abortion affected others in your life?

Nobody really knows. My husband was my boyfriend at the time and I know he has thought about it too. My youngest son also knows.

11. Based upon your experience, what would you tell a woman considering abortion?

I guess I would tell her not to do it. That it took me a long time to realize that God forgave me and that I needed to forgive myself.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That this procedure took away my only daughter (for I believe that the baby was a girl). I never got the chance to know her. I was only 18 at the time and was scared and this seemed like a way out. Little did I know, it would haunt me for the rest of my life.

HOW MY ABORTION AFFECTED ME

The State of WI

County of Milwaukee

My name is Linda I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Madison WI

01//1975

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

Surgical-suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I received more information regarding the procedure than what I was actually doing.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was only briefly told it was not to be taken lightly, but I was not given specific consequential information.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I did become depressed over the years to come which I finally have dealt with by trusting in my Lord, Jesus Christ and knowing I am forgiven. He blessed me with a daughter 7 years after the abortion.

10. How has your abortion affected others in your life?

I'm sure it has affected my husband who was at the time my boyfriend and financee. We've not really discussed it since and I feel it's had an inward affect on him.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that any reason she is having for wanting to end the life of this child will not be justified when she considers her life is changed with negative consequences involving her own health and life and then the life which will not happen for this newest of creation and she will regret it. This will never have a peaceful ending without the grace of almighty God.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I would tell a court who believes they are helping a woman, that they are not. They are not because they are allowing her to harm herself in many ways and kill a human being. It may be a woman's own body but she is separate from the child growing inside her - they are two people. One person should never have the legal right to take the life of another person unless in self defense. The child is not threatening the physical life of the mother in most all cases but should it ever be the case, then and only then, a doctor would make the obvious but hard decision. Therefore, our legal system should not encourage women to kill for no reason and put themselves in a very harmful place. Laws are made for people's good and not their demise.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was shown a short movie, that showed the baby looking like a fish of sorts. I remember signing a paper giving up \$400.00 and having the abortion done. When the Dr.? walked pass me he had in his hand a stainless steel tray with a napkin draped over it, and that's when it hit me, my baby was dead, and I was a murderer.

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't recall anyone talking to me at all.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boss, and my RN girlfriend. Who had 2-abortion

9. How has abortion affected you?

I have been able to give it all over to Christ Jesus, but before Him, I was carrying it around like a ton of bricks, I felt worthless, I wanted the pain of guilt to stop, and I choose to be with many men just to be loved and wanted.

10. How has your abortion affected others in your life?

I'm not sure, certainly my sister, and mother both told me they would have helped raise the child. I

think my Daddy died not knowing, and I'm not sure the man I got pregnant by knew, although I told his sister.

11. Based upon your experience, what would you tell a woman considering abortion?

That the lie of it making everything alright, is only the beginning of everything going all wrong. You will suffer, in some capacity. Life is for living, not for giving over to death. Please re-think your decision, seek help. Get the truth.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If abortion should be legal, so should the killing of anyone, for any reason, and we all know where we would be if that became legal. Your not just taking a life that has no opportunity to live, your taking two lives and robbing them both of life.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WV

County of martinsburg

My name is Sarah I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Hagerstown MD

12/03/2006

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

I took a pill and then went home and put three pills inside me.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have not told anyone and i think almost everyday about having an abortion and how i killed an innocent life. Im ashamed that i murdered my own baby. For the rest of my life i will live with the pain of what i did.

10. How has your abortion affected others in your life?

It has hurt my husband he was my boyfriend at the time i got an abortion and he believes that i had a miscarriage.

11. Based upon your experience, what would you tell a woman considering abortion?

To not have one because she will regret it for the rest of her life and she will never be able to forget about what she did just as i can not forget it. She will wish that she never had an abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it should not be legal because it is murder and as a woman that has had an abortion it is not in the best interest for women. Women only end up ashamed and regretting what they did. Abortion should not even be an option. Give the innocent babies the option if they want to live or die.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WV

County of Marshall

My name is Donna Ferrell. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

? NJ

05//1979

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction Aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one said anything much. After leaving the main waiting room, the woman led me to a smaller waiting room. I asked, "Is it a baby?" The nurse said, "No, it's just a blob of tissue."

5. Were you adequately informed of the consequences of abortion?

Yes No

I wasn't told about any negative consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

At first, I didn't think about it. I felt relief that the "problem" was gone. It wasn't until about 5 years later, when I was married and had my first child, that I realized I had murdered my first-born.

10. How has your abortion affected others in your life?

?

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that abortion is murder and that the best decision would be to deal with the situation. We only make things worse when we try to avoid consequences. The baby dies a horrendous death and we are never the same again. Ever.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If a person is a person at conception, as all medical books state...They have everything needed to be

who they will be, they just need time to grow, as with newborns, toddlers, teens...and it is illegal and wrong to kill a child in the protection of their own home, wrapped up in their own blankets in their own bed (though acquired by parents)....then, how in the world is it alright to kill that same child in their specially prepared womb, when they are the SAME child, just in different places. Yet, both places are maintained by their parent.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WV

County of Ohio

My name is Roe I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Pittsburgh PA

//1976

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

I am not sure, only that later I had to also have a D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not given an explanation of the nature of abortion, only told that it would take care of an unwanted pregnancy; there was no counseling involved at all.

5. Were you adequately informed of the consequences of abortion?

Yes No

If by consequences, you mean was I told that it would stop the pregnancy from coming to term, yes I was told that. I was not informed, however of the possibility of infection, or other complications, including emotional ones.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Although it has been thirty years since my abortion, I have never forgotten the child that was lost by my decision to have an abortion. He would have been my second son, and I am haunted by the question of who he would have become if he had been allowed to live;that murder is something I have had to live with all my life.

10. How has your abortion affected others in your life?

The backlash of abortion affects your entire family in so many ways; for example, my mother was devastated when she found out, and blamed me for the loss of a precious grandchild;I still remember the accusing letter she wrote, I cried about it for days.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell any woman facing an unwanted or unexpected pregnancy to find another option, because

the abortion option carries such heavy costs it is not really a reasonable decision. Killing another person because of your own careless behavior or mischance will not improve your life, it may destroy it. Sometimes the consequences are not visible for years, and the aftermath can be seriously unpleasant. I would ask her if she is really willing to pay the price for the rest of her life. I would ask her if she knows the loss of a child is a grieving that never ends, especially when that loss is by your own hand.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that the act of murder is illegal, even if it is done 'in utero', and the murder of innocents carries with it consequences are far-reaching, even to the extinguishing of our so-called humanity. I would say that it is time people were held accountable for their actions; and if they are going to have sex, they might get pregnant, and that dealing with a child is part of that. Society does not benefit when the courts remove accountability, and in the process, legalize infanticide.

2. How many weeks pregnant were you?

3

3. What type of abortion was performed?

vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I passed out at the interview with the doctor. He decided to go forward with it. I don't know what he said to me.

5. Were you adequately informed of the consequences of abortion?

Yes No

Having killed my own child, or allowing that to happen devastated my ability to be the mother that I was called to be. I could have been a great mother, but I was not. I felt so bad about what I had done that I have had trouble living with myself. I felt unworthy to raise my next child.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

family members

9. How has abortion affected you?

It has had a terrible affect on my life. I allowed others to run my life after my abortion and couldn't stand up for myself.

10. How has your abortion affected others in your life?

I have been unable to have a positive relationship with other family members in my role as a wife and mother. I was able to work like an automoton at the computer, blocking out all my emotions.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion will have life long consequences on you and wound you deeply. It will ruin your life with your spouse, and it will harm any other children that you have.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion takes away the consequence of sexual relations and thus takes away life and life purpose. It increases suicide rates, domestic violence and indulgences in pornography.

9. How has abortion affected you?

Went through many years of anxiety, depression starting within a few years of the abortion. It was thereafter I learned of post abortion syndrome and I had multiple symptoms of this.

10. How has your abortion affected others in your life?

Telling my daughter has caused her pain knowing she would have had a sister/brother. Then the pain my husband has experienced seeing my pain and helping me through.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT DO IT. IT WILL BE THE WORST DECISION YOU WILL EVER MAKE IN YOUR LIFE. That child is alive from the beginning. You will always remember that child and what you did and only God can heal the pain that occurs in your heart after the abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It should never be legal to kill a human being. A child is alive from the moment of conception.

The State of WV

County of Harrison

My name is Linda Muto. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Pittsburg PA

06/20/1978

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

All I knew at the time is that an appt. was made, the money was paid and then you had the procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

No. Nobody told me that this would affect the rest of my life in a negative way.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My signifigant other at the time.

9. How has abortion affected you?

For along time I couldn't be around babies and did not want to look at the pictures of embryo's. I have felt guilty and used alcohol in the past to numb me.I have been too ashamed to tell anyone what I did, and still nobody knows.I have not dealt with what I did. I have tried to hide it away and it has affected me mentally, spiritually and emotionally.

10. How has your abortion affected others in your life?

I feel I have become joyless, with little emotion except for pain, guilt and shame. I am not the person I was before the abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT DO IT. Find someone to take your baby. There are thousands of couples who want children and can't have them. It is only nine months out of your life. Don't end uplike me, forever feeling like you will never be forgiven or going through life not feeling anything only shame and guilt. Believe me you think you will forget it but you don't.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

it's murder anyway you look at it. I don't think you realize the long term consequences of womwn who choose to do this. It is the same as Hitler did to the jews. Tried to " get rid of them" the same way women try " to get rid of thier babies". Millions of babies have died at the hand of abortionist physicians. Our country was founded On God, and unless we stop this senseless killing of babies, everyone will reap the consequences.

QUESTIONS

1. Where and when did your abortion occur?

PA

//1973

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

? all I remember it was at a hospital

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not talked to about it.

5. Were you adequately informed of the consequences of abortion?

Yes No

The doctor did not explain anything to me. I just asked him if he performed abortions and he said yes and I told him I wanted one.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Yes and No. The man I was with paid for it.

9. How has abortion affected you?

I have hide my feelings about it for years. I wish a million times I wouldn't have done it. At the time I thought it was for the best and now I see how selfish I was. I thought once it was over it was over but that is not the case at all. That is if you have any kind of heart.

10. How has your abortion affected others in your life?

It hasn't to my knowledge. I am remarried and my husband now knows about it. He never talks about it to me. I hate when the word abortion is mentioned in any conversation because of my secret that i am holding inside. Only a few people know that I have had one.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them do not do it. There's other options. People will help you if you will only let them know. There is a better solution. Your life will be tormented if you go through with it. It may not affect you at first but down through the years the guilt will torment you if you let it. Find someone to talk to. Call a Pastor. Call Me!!!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is taking a life. An innocent life. Have the women have an ultra Sound. Have the procedure explained to them. Tell the women organizations that will help them. Abortion should not be legal it hurts women and all those involved. (Please note: You may contact me via US mail or e-mail)

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

My life was turned into a downward spiral of disaster. I was a walking time bomb full of anger, for three years, I kept my secret inside. I finally realized one day, what I done, but that was the start of years of torment. I struggled with alcohol, drugs, criminal charges, and numerous relationships trying to mend my brokenness.

10. How has your abortion affected others in your life?

My family never had a chance to know my child.

11. Based upon your experience, what would you tell a woman considering abortion?

That it is not the answer. Please think of your child, it is a child, not just tissue. Your child has a plan and a purpose for his/her life and you do as well. Consider all options and do not make a rash decision out of fear. Also, I would tell in details how abortions are performed.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder. It is not the solution to women's unplanned pregnancy. This country was founded upon Christianity, therefore, abortion is wrong and immoral.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has left an emptiness and a sense of guilt and self loathing. I wish there had been more help to make me realize that no matter how things looked, it would be alright to have the baby.

10. How has your abortion affected others in your life?

besides the fact that it ended the life of my unborn child, I robbed everyone in my life of the relationship with that unborn child

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that she doesn't have to go through her pregnancy feeling alone. There are people willing to help and to help her understand that although the abortion procedure lasts just a short time, the repercussions last a lifetime. A part of herself dies with that child. I would help her understand the value of the life that is inside her and the potential in her and her unborn child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Had abortion not be legalized, I would have searched for other alternatives-life giving alternatives-and

carried this child to full term. I was young and made a rash decision based on the lack of maturity I had at the time. It was an irresponsible act born of another irresponsible act. An Unborn child should not have to pay the ultimate price for it's parent irresponsibility.

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

uterus (vacuum)

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

For me it was the best thing that could have ever happened. I had mixed feelings, but in the end I feel I did the right thing for me.

10. How has your abortion affected others in your life?

It has made it better

11. Based upon your experience, what would you tell a woman considering abortion?

Do what your own heart tells you, don't listen to others. They don't know you deep inside.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I also feel it should be legal. This is an individual decision make by each of us as women. NO ONE else has the right to tell us how we feel or what is right or wrong. You DO NOT know our circumstances. I disapprove of others making decisions for me. People like you need to mind your own busy!!!!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WY

County of Fremont

My name is Robynn Gabel. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Phoenix AZ

08/13/1982

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

Vacumn

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me of the depression or the guilt that would follow.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I should have known when they gave me the Valium right before the procedure it was to calm my reaction to what was about to happen. Immediately afterwards they took me to a room where other women lay on couches and not one of us was not crying. For over 10 years I suffered bouts of depression and guilt for what I had done. It took counseling from both my pastor and therapist to finally accept I had killed my own child all for a moment of thinking it would be an inconvenience. I still struggle at times in April, the babies due date, with wondering what that child would have looked like, or been like.

10. How has your abortion affected others in your life?

I had two previous children. When they became teenagers and faced decisions of their own I shared my story in an attempt to cleanse my soul. They were shocked, angry they had been denied a sister or brother. Eventually they came to accept it and forgive me. My second husband told me he would have still loved me even if I had been pregnant and he would have raised that child also. He felt deeply saddened at my choice and not including him in it.

11. Based upon your experience, what would you tell a woman considering abortion?

It is going to affect you. Sometime, somewhere you are going to wonder. What would the child have looked like? What would they have done with their lives? You can have dreams, depression and not even know that it is because of what you have done. It is an un-natural act, it is murder and eventually no matter what you tell yourself like it is just a lump of cells, or it isn't really a child, or it's my body, it still haunts you in some way.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Just because this human being isn't fully developed, it is still a human being that has rights. We don't euthanize Granny because she has become senile and doesn't remember anyone and she is a burden on society. Why? Because she has rights. But so does that fetus. It affects everyone around you, like a pebble in the pool and is a burden eventually on society because of the health issues and mental health issues it creates. Like smoking, there are bad side effects to both mind, soul, and body.

HOW MY ABORTION AFFECTED ME

The State of WY

County of united states

My name is Lana Horton. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Springfield MO

07/27/1979

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

The only standard abortion that was offered at that time.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I have had 2. The other one was in 1981 in COlorado Springs, Colorado. I do not recall being given any information as to the fact that the child was any more than a blob of tissue. Or that abortion would devastate every area of my life.

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents

9. How has abortion affected you?

This is rather a lengthy story but the short of it is that it effected every emotion I felt and every decision I made. I was a self destructive drug addict for almost 25 years, which is a testimony in itself. I was filled with hate and anger and did every thing I could to cover up my pain including several suicide attempts. I never felt I was deserving of anything good. I felt worthy of nothing but punishment.

10. How has your abortion affected others in your life?

I know now that it effected my parents almost as much as it did me as well as every person who tried to care about me. I would let no one really care for me. I would purposely drive people away. I lashed out at everyone. And more.

11. Based upon your experience, what would you tell a woman considering abortion?

Please, Please reconsider. Not only are you taking a live but the decision to abort your child will have repercussions that you could never imagine. Not mention the fact that it does damage to your body.

Your emotions, your mind and every other area of your life will be negatively effect every area of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Not only does life begin at conception but the effects that abortion has on the woman can be devistating. There are serious depression issues, suicide attempst, substance abuse, the inability to bond with other children. Which is in fact with the assumption that a woman is even able to concieve a child after an abortion and then if she does concieve if she is able to carry a child to term because of the damage that can accure to the uturis.

The State of WY

County of Park

My name is Pam I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Los Angeles CA

//1974

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was very sick and very scared and I just went to a doctors office and the arrangements were made.

5. Were you adequately informed of the consequences of abortion?

Yes No

No, everyone was very "supportive" and did not tell me any of the consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I live with the regret every day.

10. How has your abortion affected others in your life?

I have not had the courage to tell many people. I did go through a post abortion counseling program. That was very helpful.

11. Based upon your experience, what would you tell a woman considering abortion?

Never

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You may think that allowing women to kill thier babies is a good thing, but until you have killed someone yourself, you will never know the consequences. We were not created to kill other human beings. And it does not matter if the doctor is actually doing the killing or if I did with my own two hands, killing is killing, no matter how you look at it.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WY

County of Fremont

My name is Kelly Murray. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Billings MT

06//1999

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Although I have answered yes here, I still believe there is need for explanation. When a young girl who is scared to death about everything that's going on around her is explained medical terms, it doesn't sink in right away. Plus, I was told that not many women feel bad after an abortion--WRONG! I don't personally know any women who've had one, but from reading these declarations, I see that the majority of women suffer greatly for years.

5. Were you adequately informed of the consequences of abortion?

Yes No

I did not know that ten years after the abortion I would still feel guilty. That I'd have problems in my marriage to a man whom I didn't even know at the time of the abortion. That I'd feel like wrapping barbed wire around my neck or jumping into the creek by my house in sub-zero temperatures. Or that when I look into my baby's eyes and ache for those eyes I never saw.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother suggested it.

9. How has abortion affected you?

I've had marital problems, suicidal thoughts, depression, guilty feelings. Today I'm crying about it as though it were the day it happened. I don't recall much from my childhood or even recent events as a result of blocking my memory to protect myself from that horrible memory that I made that day. I still see my little baby on the green and black ultrasound image, sucking her thumb. Part of me died with her that day.

10. How has your abortion affected others in your life?

There are family members who don't know, maybe never will. My depression has made me somewhat psychotic, putting a strain on my loving husband who is having a hard time trying to understand where I'm coming from. I still haven't forgiven myself for going through with it, or my mother for suggesting it.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her absolutely do NOT do it. Put the baby up for adoption or raise the baby yourself. I would show her the 3-D ultrasound images of fetal development that I got the second time I became pregnant. I would tell her how I saw my daughter's heartbeat on ultrasound when I was only 5 weeks pregnant. I would tell her that even though it may be hard to go through with the pregnancy now, an abortion will haunt her for the rest of her life, but she will never regret giving life. Being pregnant made me feel like such a woman and giving life made me feel like God's creation more than I have ever felt like I was made for a reason. If I could go back to that abortion clinic on that day, instead of thinking "no, stop! Don't do this, this isn't what I want!" I would SAY it-no, I would SCREAM it!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Something that makes a person torture themselves this way should not be legal. I have been depressed, psychotic, suicidal, and have cried more over this one isolated incident than I have ever cried over anything in my life. I would hope that if I were captured by an enemy and they were putting me through this torture that my government would step in, rescue me and put my captors on trial. But, in this case, my captors have been given free reign to continue doing this type of torture to millions of other women legally. It's an atrocity what our government is letting the enemy get away with these days.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WY

County of Natrona

My name is M J. O I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Rapid City SD

06//1976

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I wasn't given any information at all. I was told I was pregnant and how much an abortion would cost and when to show up for it. (At night, in the dr.'s office) Other than that, I have no recollection of being informed of anything else. Nothing was said about fetal development. I did not think of it as killing a child in any sense at the time. I did not know that a baby had started to form already and was developing. I had 2 abortions in 1976, 3 mos. apart, & a 3rd one in 1992. I was unable to take birth control pills due to juvenile diabetes, and was not informed of alternate birth control methods, until after the 2nd abortion when an IUD was suggested which I got until I could no longer have one for medical safety reasons.

5. Were you adequately informed of the consequences of abortion?

Yes No

I have no recollection of being told that there could be any possibility of consequences, medical or psychological or any other. I believed it was safe, since it was legal, and I knew someone else who had one. (Although she never talked about it)

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My sister, kind of.

9. How has abortion affected you?

I had a serious alcohol problem. I had bulimia and when that ended, still a long-term addiction to sugar, and no self worth at all. I had several very abusive (physically, emotionally, & sexually) relationships with men. I have had serious, clinical depression and have been very suicidal at times. I have been on & off (mostly on) anti-depressants, (large doses) for 24 years.

10. How has your abortion affected others in your life?

I began to withdraw from family and became very secretive. I allowed abusive treatment from men, my sisters, friends (?), acquaintances, co-workers and bosses. I felt beneath everyone and like I deserved nothing in life. I am 58 yrs. old and have never been legally married. I have always felt undeserving of a kind, supportive, loving husband. I was too ashamed to attend church for years, & when I occasionally did, I sat in the back & didn't feel worthy of receiving communion or interacting with any church members. It has interfered with all my relationships with men, family, friends. I have feared rejection from all of them if they knew, especially because I had more than one.

11. Based upon your experience, what would you tell a woman considering abortion?

You will regret this for the rest of your life. It will become a wound in your heart & soul that will never, ever heal completely. I know this from experience. Having a child will never, ever be more difficult than living with the consequences to yourself of having an abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If abortion is not harmful, why is there such a huge movement in the "Abortion Recovery" field? Why is it necessary to have "Abortion Recovery" classes, bible studies, and retreats? Why are thousands of women getting 'abortion healing' help? Why won't women admit to it, even to their doctors? Why is there such a huge stigma and shame for post-abortive women? Why have the numbers of women who take antidepressants surged to the millions since abortion became legal? Why do millions of women have breast cancer despite their healthy living & lifestyle? Abortion violates the strongest natural instinct women have. Why do pro-abortion people exhibit such hostility? They know it's unnatural and against women's own moral values to destroy their own young. They know a woman's strongest natural instinct is to protect her young.

HOW MY ABORTION AFFECTED ME

The State of WY

County of Converse

My name is Jennifer I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Seattle WA

01/18/1990

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They told me that it wasn't even human @ that time of pregnancy. They didn't inform me of the procedure they were doing. They gave me some pills and told me they would call my name to go back.

5. Were you adequately informed of the consequences of abortion?

Yes No

All they did was told me to go home and rest. I had no idea the pain I would go through and that I could have bled to death.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My Mother and myself

9. How has abortion affected you?

It was hard to look at babies. It hit me hard when I went through my next pregnancy and began to know the truth that it is a human when the sperm & egg join. I went through depression, guilt & shame!

10. How has your abortion affected others in your life?

Affected the father of the baby (whom I am married to now) and my mother. They felt guilt & shame.

11. Based upon your experience, what would you tell a woman considering abortion?

Really understand the biblical & medical truth about abortion. The procedure they use for each trimester or stages (as they would call it). Testimonies of real women to share the emotional consequence that you go through afterward. This is not just about the woman. It's about a real child to whom you are about to murder!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The court needs to understand that this is breaking a commandment. It is murder!! No matter how you try to look at it. It is taking an innocent life!!! There is other alternatives. Adoption and family members!
