No thought was given to advise me that this one act might damage me emotionally for the rest of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I was emotionally devastated for many years. To this day I cannot talk about it without crying. I wish I could have been stronger...I wish I had of had the backbone to stand up and face the consequences of my pregnancy. And I feel allowing abortions contributes to generations of young people not having to stand up and be responsible for their actions....a real problem in this day and age.

10. How has your abortion affected others in your life?

When my daughter reached the age where there were questions about what if....???? I reinforced that if she ever were to get pregnant without being married, I would be horribly disappointed; but I would love and support her and encourage her to have the baby. Thus, I felt, I had to share my experience with her. It broke her heart...and I think, that day, I slipped off that pedestal she had me on...she is now grown...and loves me very much...but I don't know that I ever really regained that coveted spot on the pedestal....

11. Based upon your experience, what would you tell a woman considering abortion?

To think long and hard about it first....pray...and if she doesn't think she can afford to have the baby, think of all the many people who would love to adopt a baby. Then I would offer her any support I could give...

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that pro-choicers say it's all about a woman's choice... Well, I personally think the choice should have started the day that baby was conceived. What about the choice not to have sex??? And if you choose to have sex...what about the choice to use protection??? And if you choose not to wear or use protection....well,...what's the babies' choice???? No one seems to speak up for them, and they are the total innocents in all this. We want to play around with fire and when we get burnt, we get upset because it happens to burn!!! We as a country need to grow up and be responsible for our actions. Not only regarding abortions, but in all aspects of our life!!!

my husband

9. How has abortion affected you?

Afterwards I basically stopped eating and went to about 84 pounds at 5'7". I just wanted to hurt myself to make myself pay for what I had done. All these years later, almost three decades and it still hurts. I have prayed to God for forgiveness. It's much harder to forgive myself. I didn't want to be there at the abortion clinic. I still remember the horrible doctor was eating salami while I was being on the table and that awful smell. There can never be enough tears to make the memory go away.

10. How has your abortion affected others in your life?

I got a divorce.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not do this terrible thing. It will haunt you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

How can murder of an innocent person be legal?

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MO

County of Saint Charles

My name is Janice Post. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Lake Saint Louis MO

04/01/1971

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I knew it caused the baby to detach from the womb. I wasn't told how or anything else.

5. Were you adequately informed of the consequences of abortion?

Yes No

I wasn't told I would bleed out over 1/2 of my blood count, that I would pass out, and end up in the hospital. I wasn't told how depressed I would get, or how guilty I would feel every day for the rest of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I prayed every night for forgiveness for 8 years. Many nights I cried myself to sleep. The last night I prayed for forgiveness, God reminded me of a verse that says He is able to forgive and forget. I realized at that moment I was asking God to do something He already did. After that night I felt so much more free. Now, forgiveness and consequences are two different things. I live with the consequences every day. I can't turn on the news, Christian radio or pick up a paper where I am free from hearing about it. I am reminded constantly of my poor choice.

10. How has your abortion affected others in your life?

I wasn't able to get pregnant for a long time. We were afraid I might have become sterile. I went on to have 2 live children after that. There has been a level of miss-trust between myself and my husband. (we weren't married at the time). It took 25 years for us to discover that we both did what neither of us wanted. It was a subtle, underlying disappointment in each other.

11. Based upon your experience, what would you tell a woman considering abortion?

Think again!!! Watch the movies, see what you will be doing to another human. Just because it is legal doesn't make it right. This is the tip of your downhill slide of irresponsibility. If you're willing to kill a baby, what next? What will you do next to get out of a difficult situation Lie? Cheat? Steal? Kill? Blame Someone Else? or will you learn that everything you do is a choice with consequences. I would tell her to make a choice that she can live with...Life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Not everything that is legal is good for you either emotionally, physically or spiritually. It is a coward's way out of a situation that could turn out to be the best thing in your life. The consequences of a unplanned pregnancy are not the fault of the baby. We already have laws that protect the innocent, it's called don't murder. If a mother is shown the movie of what happens to the baby, she should also be shown a movie of what it's like to go to prison for murder.

The State of MO

County of st. louis

My name is Tracy Lustick. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Hackensack NJ

10/13/1985

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Standard?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was very very scared, I knew I was there to terminate an un- wanted pregnancy, but as strange as it may sound.. I had not really understood , There was a baby about to die in me.So I would say "No" no one gave adequate information.

5. Were you adequately informed of the consequences of abortion?

Yes No

They had very little conversation with me, it really was about getting the proper papers signed. It was a very im-personal thing.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My Mother and Sister encouraged to abort

9. How has abortion affected you?

I have had two abortions about three years apart, both for completely selfish reasons. I did not understand the severity of what I had done, until I became born again. When that day came I realized I was a two time murderer of my own children. To this very moment my eyes fill with tears when I think of the horrible sins I have committed against my babies and my Lord. I am haunted by the image of what they would have looked like, what color eyes they would have had, were they boys, girls, would they have sang like I now sing in church. Often I think of them if they had been allowed to be born..who would they have been? The shame and depression will chase me all the days of my life. It has devastating to this once 15 year old child. I was 15 years old, how could I have really understood what I was doing, I was a baby.

10. How has your abortion affected others in your life?

I have been completely honest with my children and spouse about my abortions and they are very sad I went through that. I am humble and open to all discussion they may want to have concerning the abortions...but it hurts me everytime I recount the day.

11. Based upon your experience, what would you tell a woman considering abortion?

"Please wait!" "The fear and shock will pass, solutions for all the problems will come, the hopeless feeling you have will subside, those you may have disappointed will get over it, Please wait you'll see... it will work itself out. Your child is worth the wait!"

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The depression and regret I feel is a life sentence I will never be set free from. There was no relief when my baby was aborted, only the deepest darkest shame. If we would only love the women in these circumstances and listen to their fears, I'm sure we could calm them and find a better way. So now I live my life knowing I killed my own children. That is a truth I will forever bare. That doctor did me no service, he sealed my guilt.

My name is Lori I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Springfield IL

06/10/1993

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Was not partial birth

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It was not explained to me that it would hurt the day of the abortion or days later. It was not explained to me that 16 years later it would still haunt me that I murdered my child.

5. Were you adequately informed of the consequences of abortion?

Yes No

It was not explained to me that 16 years later it would still haunt me that I murdered my child. It was not explained to me that I would hear my unborn child crying.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My ex-husband

9. How has abortion affected you?

I have been traumatized for 16 years at the thought that I murdered my unborn child. I have had nightmares over it and have heard him crying out to me. I have since been born again and forgiven by the Lord but it was not until last month that I was able to forgive myself. I had to have a hysterectomy after the abortion and have not been able to have any more children.

10. How has your abortion affected others in your life?

I was unable to forgive my ex for many many years after forcing me to have the abortion. I have been unable to give my new husband a child.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them first that children are a give from God, there are no mistakes when a woman gets pregnant. Unborn babies are very much alive and are not accidents. I would also remind them that there

are other alternatives such as adoption. I would tell them of the pain that I have suffered for many years following my abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would ask them where would they be if their mother had decided to have an abortion? They would not be here being able to make this decision. I would also tell them they have no right to take an innocent life. It is not their choice. Unborn babies are living human beings!

QUESTIONS

1. Where and when did your abortion occur?

albuquerque NM

03/18/2000

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

have no idea-

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

they did not tell me exactly what they were going to do to the baby or with it afterwards- and I didnt' ask.

5. Were you adequately informed of the consequences of abortion?

Yes No

the only thing they said was that there could be complications....

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my stepmother

9. How has abortion affected you?

in many ways! it physically took a toll on me and my body had a hard time recovering from it. emotionally I went around depressed for many years and still, even though I know God has forgiven me, I haven't forgiven myself and I feel like a murderer- well, I am a murderer:(I look at my other four children and wonder what beautiful child I killed- I cant' wait to meet him/her in heaven.

10. How has your abortion affected others in your life?

shock, disbelief, sadness- the man whom I was pregnant with did not want me to have an abortion- but I did it anyway, out of fear. he has never spoken to me since and we were good friends for 11 years before that. I killed his baby;(

11. Based upon your experience, what would you tell a woman considering abortion?

do not do it. you are killing a baby. there are many people who can help you raise the baby or adopt the baby from you- you dont' have to do this.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

you know, when I woman gets pregnant after trying for so long (in vitro etc...) everyone is so excited and they tell everyone they are having a baby!! but, when you want to kill the baby because it's inconvenient- then you rationalize it so you can do it without thinking about it as murder. from the second that egg is fertilized it is a growing, living, human being and to kill it is no different than committing murder- how in the world could our government think killing is okay?

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

I do not know.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I knew it was a termination of pregnancy. Other than that I do not remember.

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My doctor and my husband

9. How has abortion affected you?

I feel I have part of me that is missing. It was a part of my decision to divorce my husband. I had a huge resentment because at the time I was pregnant he was having an affair and he didn't want the baby.

10. How has your abortion affected others in your life?

I never told anyone in my family. I have never talked to anyone about it.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT DO IT!!!! It is an experience that will influence you in a negative way for the rest of your life. You will regret it always. You will grieve for that baby just as if you had given birth to it. People talk about abortion like its putting a bandaid on a scraped knee. It is killing your baby. I knew it was something I should not do but I did it anyway at the recommendation of a doctor(whom I never saw again).

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It should never have been a decision made by the court system. The world has been brainwashed to think killing a unborn baby is not murder. As a person that would not ever have thought of hurting another person I did because the laws say it is legal to do so. If abortion had been illegal I would never considered agreeing to kill my child.

my boyfriend at the time

9. How has abortion affected you?

Oh my God? There is nothing EVER in my life that I have regretted more than to have been an accomplice to murder. I am ashamed beyond belief, and I wish to God I could take it back. Even now I can't sit here and write about it without crying my eyes out. I would beg of you to consider these declarations as testimony to absolutely refuse to include abortions as part of the new healthcare package President Obama is trying to get passed, it can only destroy countless more lives. And I'm not just speaking of the millions of babies' murdered. I only pray that God will forgive me for what I've done.

10. How has your abortion affected others in your life?

I would say that it has, there is a child that is not in my life now. My children that I do have are absent an older sibling. My parents lacking a grandchild...I would say it effects everyone directly or indirectly.

11. Based upon your experience, what would you tell a woman considering abortion?

I would explain to them that I know that perhaps they feel as if they have no choice, but to remember that the choice they do have is a life or death one. I would also encourage them to seek counseling, and to seriously consider adoption, if they cannot take care of the child themselves. I would speak strongly

to them, because you CANNOT take it back, EVER! You live with the guilt and shame for the rest of your life, that you were responsible for the taking of life, and there is nothing so precious as life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I understand why they want it to be legal. I would not want to see women dying from a botched back alley abortion either, but why is there not more help for women to put their children up for adoption with families who want children? Why promote abortion, as if it no big deal? It is taking of life, not pulling a bad tooth?!! There are so many people who wait year after year, in hopes of adopting a child, why not make it less expensive to adopt, and actually have the government promote adoption? What kind of government do we have that is promoting genocide of it's future citizens?

9. How has abortion affected you?

There isnt a day that goes by that I dont think about it. It hurts very much and I am sorry and ashamed.

10. How has your abortion affected others in your life?

I broke up with the boyfriend at the time and he was very sorry. He then wanted to marry me. Years later he became a minister and has six kids. It totally affected his life also.

11. Based upon your experience, what would you tell a woman considering abortion?

Dont do it no matter what. It is the worst decision you could ever make in your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It should not be legal. It affects womens lives deeper than you can even imagine. These are human beings that God created and we should not kill them!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MO

County of McDonald

My name is Kayla McDaniel. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Wichita KS

09/28/2000

2. How many weeks pregnant were you?

24

3. What type of abortion was performed?

late term

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

they explained the procedure before they inserted the first day of laminaria but did not lead us to fully understand that on the first day at the time of inserting the laminaria they also inserted a needle into my baby's heart and euthenized him that day also. I carried him dead for three days before delivering him.

5. Were you adequately informed of the consequences of abortion?

Yes No

None whatsoever! Only the physical part....bleeding etc. My milk actually came in a couple hours after the procedure. To which they did not even mention. It was totally devastating.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Immediately my milk came in and the deepest darkest depression took ahold of me along with guilt, shame and emptiness/my arms felt so empty with milk but no one to hold and feed. I was diagnosed with major depression and had suicidal thoughts for over five years after my abortion

10. How has your abortion affected others in your life?

It affected my husband of course. This was the only child we were able to conceive together and his one and only chance of having a son. It has been a tremendous loss for him and a great disappointment.

11. Based upon your experience, what would you tell a woman considering abortion?

That abortion is literally murder and you will never ever be the same again if you go through with it. That

there is other alternatives for your baby like adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Study God's Word and let Him reveal Himself to you and you will find that abortion really is murder.
Abortion not only kills a child it forever affects the mother.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MO

County of Jackson

My name is Brenda Redman. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Kansas City MO

03/27/1973

2. How many weeks pregnant were you?

26

3. What type of abortion was performed?

Vaccuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one took the time to talk to me, or explain how the procedure was going to be done and what exactly it did to the baby or me.

5. Were you adequately informed of the consequences of abortion?

Yes No

At no time did a nurse or a Dr. explain PAS to me or how it would effect me in the future either physically, emotionally, or spiritually.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My aunt

9. How has abortion affected you?

It caused me to become self destructive, by me becoming promiscuous, I tried suicide 3 times, looked for the the wrong type of man to fall in love with, very low self esteem, stayed in a very abusive relationship for 8 years. And the list goes on and on.

10. How has your abortion affected others in your life?

They have seen the damage it caused me, by watching me slef destruct

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT DO IT, learn the facts about abortion first, the procedures they use, what it does to the innocent life of the baby, the pain they DO suffer, what it will do to you for the rest of your life, the connection between abortion and breast cancer, and the fact that it is simply murder. The Bible and God's word tells us to not take the life of another and this is just what an abortion does.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If we can put a man or woman into prison for the murder of a person, this is what should be done to a woman who has an abortion. Abortion is murder, in no uncertain terms. This tiny life has a heartbeat at just 21 days after conception, so how can it not be considered murder if the heart is beating and it can feel pain? Abortion should be banned around the world. Read God's word and listen to the facts.

HOW MY ABORTION AFFECTED ME

The State of MO

County of Jackson

My name is Elena I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Englewood NJ

10/20/1999

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The procedure was not explained to me at all. I had no idea what it entailed.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not given any information- I had no idea about the development of babies in the womb. It seems like it should be common sense but I had no idea that I was taking a life because the abortion was treated as a medical procedure and no regard was shown for the child. I was not given any information regarding the physical or emotional effects abortion would have on me either.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

boyfriend

9. How has abortion affected you?

Emotionally- I'm saddened that I took my own child's life. I think about it almost every day. It's a horrible choice I made that I will have to live with for the rest of my life. Physically- I had frequent urinary tract infections afterwards and I've experienced pain in that area ever since.

10. How has your abortion affected others in your life?

Not very many people in my life know including my immediate family.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her not to do it under any circumstances. I would tell her she will regret it for the rest of her life. I would suggest giving the child up for adoption if she is unable to take care of her.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say that abortion is murder, that it is a bad decision some women make because of fear, selfishness, or miseducation and I'd be willing to bet most regret it. It should be totally illegal under any and all circumstances.

HOW MY ABORTION AFFECTED ME

The State of MO

County of St. Louis

My name is Marilyn Cox. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

St. Louis MO

08/11/1980

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Not sure the name of it. It was the "standard" I suppose.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

In 1980 things like that were not explained. Honestly, it was such a horric experience that I have blocked out much of that day.

5. Were you adequately informed of the consequences of abortion?

Yes No

Again, it just wasn't explained back in those days.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

A close "Catholic" friend

9. How has abortion affected you?

It was the worst day of my entire life. I was depressed for 23 years after I did it. I hated myself, withdrew from life outside of working for several months after I did it. I still mourn the child i missed out on and mourn that i aborted a "generation".

10. How has your abortion affected others in your life?

I had to tell my future husband and later iin life, my son who cried so hard when I told him. He is an only child and he kept crying and saying you mean I would have had a brother or sister??? It was the second worst day of my life.

11. Based upon your experience, what would you tell a woman considering abortion?

NOT to do it. It is a baby and a mother is not created to take her child's life. It is foreign to our very nature to commit an act like abortion. It is permanent and never leaves your conscios. That aborting their baby would take away that child having a child and future generations would be lost!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that they are very, very mistaken! It is a temporary fix to a "problem". But actually created a lifetime of problems for me emotionally. I still cry sometimes and it has been 30 years. I mourn for the relationship I could have had with that precious boy or girl and the grandchildren I would have had with that them. My entire family lost out on a niece or nephew and my son on a brother or sister. It is a tragedy!

HOW MY ABORTION AFFECTED ME

The State of MO

County of St.Louis County

My name is Lisa Mahiger. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

St. Louis MO

//1986

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was so afraid that I don't even remember the information received that would have constituted an informed consent.

5. Were you adequately informed of the consequences of abortion?

Yes No

No, I had no idea of the guilt, the sadness, the depression, the sense of loss for my missing child, the grieving that I would continue to experience for the rest of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My sister.

9. How has abortion affected you?

It has been the worst decision of my life... I continue to grieve for that little lost life... for my daughter... Somehow, they told me it was a girl... I suppose, although I don't remember having one, they must have done an ultrasound on me... It was at that time they told me the estimated weeks of gestation and the sex of my unborn child. I feel that I took another human being's life for my own "convenience"...foolishly without considering the magnitude of this very wrong decision.

10. How has your abortion affected others in your life?

I feel that we are without a person in our family... It is a loss that we grieve... My children have lost a sibling... The rest of my family are deprived of her life as well.

11. Based upon your experience, what would you tell a woman considering abortion?

Please reconsider. Have your child and make the decision to either raise him or her yourself or bless

another family with that little child through adoption. You will regret that decision for the rest of your life. I have. You will miss that child, because it is your child that you will never know...

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should not ever be legalized... I have spent the past ten years of my life writing to legislators against this , about reversing the Roe vs. Wade decision and most recently against the funding of abortion in Obama's "Healthcare Reform" bill. I will continue to do so for the rest of my life... If any of my daughters or granddaughters are faced with an unplanned pregnancy, I will do everything that I can to help them reach the only right decision... and that is to not abort that baby... I strongly feel that abortion is the taking of another human being's life... and that child is most definitely a "human life" regardless of how many weeks or days the mother has been pregnant.

I did not receive any type of pre-abortion counseling

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no one for me to talk with regarding abortion

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

self-destructive habits, severe depression, weight gain, insomnia, problems bonding with children, not even wanting to be around children at all, self-doubt/worth

10. How has your abortion affected others in your life?

deep sense of loss, depression

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT HAVE AN ABORTION - you will regret it the rest of your life!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I think it is preposterous that a court should be allowed to further deceive women that it would be in her best interest to abort her child.

My name is Jane I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Memphis TN

06/15/1980

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was removing a mass of tissue. No baby formed yet.

5. Were you adequately informed of the consequences of abortion?

Yes No

I wasn't told there were any consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I feel so guilty and so horrible. I know it is the worst thing anyone could do, I never had any children. I am a Christian now and I know God has forgiven me, but I don't know that I will ever forgive myself. I can't look at a baby without thinking about mine.

10. How has your abortion affected others in your life?

My husband had 2 women have abortions with children of his, I also had a 2nd abortion in 1986. We have talked about what we have missed. He went on to have two children, but I haven't given birth, and now at age 55, I realize what I have given away and killed.

11. Based upon your experience, what would you tell a woman considering abortion?

That it will solve no situation, the only thing it stops is a life, and that life is your unborn child, already alive, already with a beating heart, already being nurtured by your body. If you cannot raise this child, let someone who desperately wants a child have your baby.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

That it should never have been allowed, that we have become a nation that disregards life because of it, and that it should be stopped. If I could have heard a heartbeat on an ultrasound I sure wouldn't have done it. And I went thru it with no anesthesia, just tylenol in the recovery room. There were about 6 of us crying in pain. It was a nightmare.

9. How has abortion affected you?

Left a void and a very deep sense of loss and depression concerning that lost little life, my child, that I failed to protect as a mother should. I have guilt and regret to this day and will for the remainder of my life.

10. How has your abortion affected others in your life?

The four children that I do have suffer the loss of their sibling.

11. Based upon your experience, what would you tell a woman considering abortion?

Never do it... find an alternative... at the very least, let the child be adopted by a loving family... better yet, what I would now have done... keep that child and be blessed with that beautiful mother-child relationship that God originally intended from that pregnancy.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It has lasting lifelong after-effects on the mother's mental health

My name is Dorothy Jubinville. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

St. Louis MO

10/29/2010

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

not sure, they used a long plastic tube that had suction, but I don't know what it is called

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They just told me my baby was a blood clot, I specifically asked if there were any arms or legs yet and they told me 'no.' They said they would use a tool to open my cervix, insert this tube and my uterus would be empty and I wouldn't be pregnant anymore. They also warned me that I couldn't look at the ultrasound of my baby or else my '24-hours of waiting' would start all over again. If they are going to warn women about this then what is the point of having this new law in effect? I wanted to look, I wanted to hear my baby's heartbeat! The lady doing the ultrasound knew I did. I just don't get it. If pro-choice people think they are doing no wrong, then why do they feel they have the need to lie or even lie by omission? If I had known that my baby was fully formed at 10 weeks and not just a blood clot like they claimed, I never would have fathomed! I specifically asked and they still lied! So again, why lie if there is nothing wrong with what they are doing?

5. Were you adequately informed of the consequences of abortion?

Yes No

They told me it was safer than child birth! That was it!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

the father of my aborted baby

9. How has abortion affected you?

I have to live everyday with the shame, only a few of my friends and family know about it. I have to live with the guilt of knowing that I killed my child, the precious gift God gave me, because I thought of everyone else but that child. I didn't allow myself to stop and think about that child's rights at all. I my daughter of a sibling she will never get to know now because of me. I robbed the entire world of ever

being able to know my baby because I made a permanent choice that was not mine to make. My baby was meant to be here on earth, I just didn't allow it. I honestly can't wait for my life here on earth to be over so I can finally meet my baby for the first time and hold him/her in my arms for the first time. I wanted to kill myself two days after my abortion but my daughter was the one reason (and a very important one at that!) I couldn't. The reason I had to stay. I miss my baby so much! I know it sounds stupid, missing someone you've never met and gotten attached to, but I do. I hate the total finality of the choice I made. I did not abort my baby because I did not want it. I did it because I felt trapped, like I had no choice. Finances were a big factor. Unlike most, I could have afforded to raise another child, but I knew I couldn't afford to miss work during my pregnancy like I did with my daughter. I just didn't have enough options available to me at the time to make an informed decision and I definitely did not know all the facts. Had I only known!

10. How has your abortion affected others in your life?

Very few people know about it because it's been hard for me to admit to others. I'm afraid of being judged, even though I deserve it. I told my mother 3 days after I had done it. I hadn't even told her I was pregnant prior to that. She is disappointed that I didn't feel I could come to her about it. She feels sad that she will never know that grandchild. My best friend's mother aborted her first child then got pregnant with her a few months later, so she understands abortion and its effects better than some. She is disappointed in me as well, but is forgiving and feels sad for me and my aborted child. My unborn baby's father puts all of the blame on me, even though he paid for it, suggested it countless times, even did ALL of the legwork on finding out where to go for an abortion. I think he is just in denial and is mad that I regret the abortion. I don't have anything to do with him anymore.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT!!! You will be plagued with doubt, guilt, sadness, grief, sorrow, an overwhelming sense of loss, shame and a lifetime of regret. Your empty arms will long to hold that child, but they never will. Every time you look in the mirror you will drive yourself crazy with thoughts of what features your child would have inherited from you, but you will never know. You will have an endless list of questions that you will never know the answer to. As a mother, it is our job to protect our child from harm. I failed at being a good mother to my baby. Please don't allow the abortion industry to rob you of the precious gift God gave you. They do it for the money. They don't care about you or your baby. Don't let them win. Don't become a murderer like me. I made a choice that was not mine to make. If you absolutely don't want your baby there are SO MANY people who would give anything to have your child. You could give a great blessing to someone else. And a great gift to your child, the gift of life! I would give ANYTHING to make my decision again! I want my baby back so bad. I would choose life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It wouldn't matter what I told anyone. Deep down we all know that abortion is wrong. Some just won't admit it, even to themselves. Instead they try to justify it by attaching equal rights causes to it- "a woman's right to choose!" what about that innocent child's rights to life? Or by lying to themselves and anyone who will listen by dehumanizing that child with such terms as 'fetus,' 'blood clot,' 'sample.' or even 'product of conception.' Whatever helps them to sleep at night, right? But aren't we all products of conception? What's the difference between my aborted child and myself? Just the simple fact that my parents wanted me? The fact is I was given a CHANCE to live. My child, and all aborted children are not. Instead they have been deduced to CHOICES.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MO

County of Jackson

My name is B B I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Kansas City MO

07/20/1982

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

Wasn't told.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Told this will stop pregnancy and you might experience post traumatic syndrome.....as if words can adequately compare to the experience.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one said I would feel anguish, broken spirit, devastation, traumatization, used, profited by, lied to, and most certainly demoralized, a criminal in your own eyes, a lot of pain, sorrow, suffering, anger, hate, shame, guilt, evil felt as you acknowledge you are to blame for the atrocity as a mom, inhumanity as a person, sin as a sinner.....your blood shedding is a part of Christ's suffering on the cross to pay for your penalty of sins and the world's to reconcile us back to God to free us from our sin. That I would feel lost, until found-loved-and forgiven by my Lord and Savior Jesus Christ. It took "If Not For Grace" study class to let go of my murder and live in Christ's saving grace of forgiveness. I am grateful to God Almighty for His love and mercy.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I had a lot of hate at first...for the doctor who referred me with no other options (and said to refer his name to the abortion clinic), to the clinic (who asked for my referral--kickback \$?), for the judge who legalized abortion, for my boyfriend's passiveness. Then the shame, torment, broken spirit, broken heart, many a tearful night as I wept crying unto God for His forgiveness as I acknowledge I was to blame for my choice. Psalm 51

10. How has your abortion affected others in your life?

My boyfriend married me and it was hard on our marriage till we reconciled with God. It was hard on my relationship with girlfriend/sister to think if they only knew would they still love me. God says to confess your sins and I have great Christian friend and sister who forgave me. My sister feels regret. My treasures/children suffered from trama mom. From the day they were born I new I didn't deserve them (who really does, these gifts from God). I cried tears of joy each sickness they would recover from. I would think I deserve them being taken from me for the abortion and would really study, pray, and try and be the best mom ever just to thank God for the priviledge to have born children. Tramitized....I remember a car wreck, a little head trama and the doctor said I have never seen anyone so tramitized. He didn't know I feared accounting for my shame to my Lord in person after death. "If Not For Grace" study class showed God's love for me, a sinner. and that He already died for my penalty of sin to set me free and free indeed.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. The memory and disgrace will come back to you. Don't give up on God. God can see you through this. The yoke of this is too heavy for any mother to bear. Only Christ can lift you up out of your circumstance and set your feet on solid ground. THis is a moral issue!! Abortion is a sin.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

No amount of head knowledge can prepare a woman for carrying around the weight of the guilt of murdering her own child. No woman should have to. Say no to abortion and yes to a clear conscious in this life and the next. Abortion is a lie, the child lives in their mother's heart, her mind, her soul, and in heaven. Abortion is wrong because God says it is. Abortion is a sin. (moral issue) God creates, Christ forgives, Holy Spirit endwells. Who are we to destroy what God has created. I pray God please help us. I felt pride escaping promiscuity which led to shame in pregnancy before marriage. I felt arrogant in my covered up righteousness which led to evil to abort. I felt deceived and deceived others as I corrupted my charactor pretending that I wasn't a sinner. Man cannot carry our yoke. Psalm 8:11-13 Only God can forgive our sins and set us free. Come unto Jesus all who are heavy ladden and He will give you rest. It is Amazing Grace that saves a wretch like me. I once was lost, but now I am found. Was blind but now I see. I pray you will see too and stop the blood stains on our hands.

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

suction aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was rushed through the procedure fairly quickly. And because i was so afraid of anyone learning that I was pregnant I did not think to ask them to explain to me what was going to happen. Today, 32 years later, Mother of 3, my heart so agonizes over my actions of killing one of my own children.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one said anything to me about how it would effect me mentally or emotionally or physically. It was just offered as an immediate solution to the "oops" my position was referred to as.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

the father of the baby

9. How has abortion affected you?

with sorrow and remorse that cannot be fully explained.

10. How has your abortion affected others in your life?

My children were so sad when they learned of my actions. They are excited to meet their sibling in heaven someday. My father was very hurt when he learned about it 25 years later. The Father of the aborted child has lived with regrets ever since we aborted the baby.

11. Based upon your experience, what would you tell a woman considering abortion?

ADOPTION is a wonderful solution. Your baby can LIVE and fulfill the destiny in which God has created for it. It has a name given by God. Let your baby live and be loved by someone who CAN take care of it. PLEASE consider adoption if keeping it is not an option. There is a wonderful support system out

there.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

DECEIVED! YOU ARE ALL DECEIVED! A fetus is a LIFE. Abortion is such a lie! It is never ok to kill another human being! A fetus is a human being with a heart beat just waiting to be born.

My Mom

9. How has abortion affected you?

I went 26 years believing that I had been healed and never having one emotion over murdering my son and thinking I was OK. When in reality I was really believing a lie. It was buried deep with me. I was living in agreement with the spirit of death for 26 years. I had allowed a spirit of death over me and my family by a lie I believed was truth. I have stood wearing my red life band and prayed the prayer against abortion. When in reality it was no reality of what the act of abortion was or the reality of my own abortion. When I repented and then renounced agreement with this spirit of death it was broken off me and my family's life and I literally could see myself standing and a demon pushing me foreword and know what he was thinking. Just take her he knew he had no right and had to let me go. I was freed from my prison at that very moment. I was being held captive. I was a prisoner within myself being held by the enemy. I am now free, forgiven and in the process of healing.

10. How has your abortion affected others in your life?

My Children have the loss of a big brother

11. Based upon your experience, what would you tell a woman considering abortion?

Do not do it it is murder and you will regret it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I had a baby in my womb that was known before the foundations of the world. God formed and fashioned this precious son and knit him together. He knew the hairs on his head and created the fingerprints on his hands. God had a plan for Michael and His plans were good. I made a choice that day and I willingly offered this baby as a sacrifice to the god of this world. I willingly made a blood covenant of death with the enemy by offering my baby, my son Michael as a sacrifice to him. When I offered my son to him he took him and treated him like mere garbage, put him in a trash bag and threw him in the dumpster as common garbage not treated with any dignity or honor at his death.

8. Did anyone pressure you into having an abortion?

Yes No

It was unsaid but my family was prejudice.

9. How has abortion affected you?

It has cause emotional trauma. I feel that it placed in a rut, where I didn't continue to mature as a person. It affected all of my relationships. I fell it caused a disorder for me to not be able to have healthy relationships.

10. How has your abortion affected others in your life?

See above. Not able to get close to people.

11. Based upon your experience, what would you tell a woman considering abortion?

That she would regret it for the rest of her life. I would gladly take & raise her child for her if she would give it up for adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it is the biggest mistake I have ever made.If the courts would give the money used for abortions to adoption agencies instead, I would be adopting as we speak! Abortion is murder & if we don't repent, the blood is on our hands.

9. How has abortion affected you?

Depression, eating disorders, suicidal thoughts, miscarriages, flashbacks, physical pain.

10. How has your abortion affected others in your life?

Destroyed relationship with my mother, caused me to pass information to a friend who ended up having an abortion too

11. Based upon your experience, what would you tell a woman considering abortion?

That no matter how things look or feel the regret, anxiety, longin, memories will never go away that the torture of having killed your child is never ending, even when you have found comfort in God you still recall what you have done and not a day goes by that you do not remember your child knowing that he or she is not there because you accepted what was offered or pushed as to the solution to an inconvenient pregnancy

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Why does the legal system allow for the child to be a comodity to be destroyed by people who benefit

from his demise, why if the legal system is there to protect the most vulnerable it allows those that cannot speak for themselves to be killed and why if women are being hurt physically, emotionally and spiritually everyday, sometimes rendering them unable to care for themselves (emotionally above all) they do not recall a bad law which causes so much pain, so much suffering. A law that has brought a total disregard for life and which desensitizes people to the intrinsic value of a human being.

9. How has abortion affected you?

I grieve the child that I had murdered. I have a tremendous amount of guilt. It is permanent. I will never forget that horrid day and the horrible decision that I made. I was not married at the time. Now I am and have not been able to conceive.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

Seek help to deal with your pregnancy. It is a life that you carry and it deserves to live. If you are not willing to financially support a child, consider giving it up for adoption to a loving home. That is a

decision, if made you should be proud of.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion kills innocent babies. They deserve the right to live. If this option were not available many lives would be saved. It would also prevent the grieving and suffering of would-have-been parents. Please take a stand against this horrible thing.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was only told of the bleeding and what to do if bleeding didn't stop.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Deep guilt, lack of self esteem, fear of punishment from God. Not a day doesn't go by that I don't think about what I went through and feel the guilt and shame.

10. How has your abortion affected others in your life?

I've kept it pretty secret.

11. Based upon your experience, what would you tell a woman considering abortion?

Look at the options.....all are better than the lifetime of emotional stress that came with the abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

3. What type of abortion was performed?

i was given some sort of seeweed on a tampon on the 1st day, then the 2nd day my water was busted an

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

i was only 13 at the time and was strongly encouraged to just have the abortion. i was given abx and birth controls before leaving clinic

5. Were you adequately informed of the consequences of abortion?

Yes No

i never knew that i would be mentally tormented for many yrs after the abortion and suffer from depression for yrs

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my mom sort of did.

9. How has abortion affected you?

it took me approx 15 yrs to get over the mental torment and ability to forgive myself and the baby's father. i was married 6 yrs, before i was ever able to become pregnant at the age of 26. i thought that since i committed the horrible sin of murder at 13 years old, that god would never bless me with another child

10. How has your abortion affected others in your life?

well, they had to deal w/ my anger that i took out on them.my episodes of severe depression and anxiety. it is hard for family to understand your emotional distress.

11. Based upon your experience, what would you tell a woman considering abortion?

no matter how old you are, give birth to the baby. there are several families desiring a child that will gladly take it if they are unable to provide for the child. it is something you decide to do at the moment that affects every aspect of your life for several yrs. even after surrendering your life to god, it is a long process of healing and extremely difficult to forgive self. especially when you see other children that would be close to that babys age or even your other children playing. you will always wonder what life would be like had you given birth to the blessing that god gave you and you chose not to have.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

i think it should never be legalized related to the emotional torment the aborter faces and the fact that a baby is a living being at conception. it is committing murder

QUESTIONS

1. Where and when did your abortion occur?

Tuscalusa AL

03/06/2007

2. How many weeks pregnant were you?

18

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I wasn't told that they do what they did.

5. Were you adequately informed of the consequences of abortion?

Yes No

I wasn't told that you would be emotionally and mentally sad..... Hurt.... Guilt...

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have not been able to get pregnant since. I was very suicidal... I had night mares. I heard a baby crying in my head always... It is just so miserable.. To know that you did what you did... Giving one chance..... And then its gone.... Because for some people... It is only ONE chance.. It has pulled me away from every one I loved.

10. How has your abortion affected others in your life?

Me and my family are not as close.... The dad and I were together for years.. We were so in love... He hates me now... No friends

11. Based upon your experience, what would you tell a woman considering abortion?

No..... It will ruin your life.... Make your own decisions.. Just know that that baby is yours.... Its you... There are alot of opitions out there... Give yourself and your baby a chance... You might not think or know it now, but you will live with the choices you made for the REST of your life...

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Haha... Tell their daughter, mother, sister, aunt, whoever to go have one... Ask them what if it were their baby???? People are out here killing themselves.... and little babies.. that doesnt deserve it.. They have several adoption programs, BIRTH COntral, and so much more.... That is a life that is being took away from an innocent child... What if our mother would have done that to us???? We wouldn't be here..... You wouldnt have what you have..... It is evil..... It ruins lives... I know because mine is... Do they even know that..... Put women on the stands that know and have experienced it... The courts have heart..

HOW MY ABORTION AFFECTED ME

The State of MS

My name is C N I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Kosciusko MS

02/07/1986

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

D & C Evacuation

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I simply found the name of the doctor, walked in and said I would like an abortion. No information was ever given as to what was involved. It was truly abortion on demand.

5. Were you adequately informed of the consequences of abortion?

Yes No

All they told me was how much it would cost, and after surgery care.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has been over 22 years and I am still not over it. I still deal with extreme feelings of guilt and disgust over what I did. My daughter is getting married this month and I can't help but think about what that child would be like at this point. I have had nightmares throughout the years, I have had depression and sadness and an emptiness that nothing on earth can fill. I am eternally grateful for the child that I have, because I know I don't deserve to have a child.

10. How has your abortion affected others in your life?

My mother and father were extremely disappointed in me. My father called me a murderer and he was right. My husband now does not know, I can not bring myself to tell him what I did, and my daughter does not know, I can't bear the disappointment she would have in me if she found out.

11. Based upon your experience, what would you tell a woman considering abortion?

Please, don't! The pain never goes away. The knowledge that you killed your own child will follow you all of your life. It will go with you forever. It doesn't go away, you will always wonder what that child

would have been like and you will always regret it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say that I wish with all of my heart that it had not been so easy as walking into a dr's office and asking for an abortion. I had no idea what I was getting in to or the effect it would have on the rest of my life. You are not getting rid of a clump of cells, you are getting rid of a CHILD, a human being, your own flesh and blood. It is devastating.

The State of MS

County of Alcorn

My name is Susanne I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Jackson MS

05/15/1980

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

unsure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was given general information but not details. That part of my life was so painful that I can not even be sure of the exact year but it occurred after high school and during college.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea the devastating effects I would have after the procedure was done and I was given no alternatives.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It was expedient and selfish on my part. I had to deal with years and years of grief over what I had done until I finally let God forgive me and then I was finally able to forgive myself. There were alternatives but I did what I thought was the easy way out and it was the single worst decision that I ever made. I wish I had been able to talk to someone who would have given me all of the details and information so that I would have known there were other choices that I could have made.

10. How has your abortion affected others in your life?

I only have 1 son. Had the abortion not occurred, I would have probably been able to have more children.

11. Based upon your experience, what would you tell a woman considering abortion?

If you go through with it, it will be the single most devastating thing you will ever and could ever do. You will live with regret the remainder of your days.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That the real statistics would show that 99% of abortions are done for "expediency" and only the remainder would be medically necessary. The psychological effects will last a lifetime.

HOW MY ABORTION AFFECTED ME

The State of MS

2. How many weeks pregnant were you?

3. What type of abortion was performed?

They described my baby as a "glob of cells." They said the procedure would be "uncomfortable." They said recovery would be quick.

5. Were you adequately informed of the consequences of abortion?

Yes No

They never said there might be sadness, grief, mourning, depression, guilt, detachment from my future children, difficulty with future pregnancies (such as pre-term labor).

8. Did anyone pressure you into having an abortion?

my boyfriend (17)

9. How has abortion affected you?

At first, I was very sad and full of self-pity. Later, I felt relieved. My boyfriend left me, which was devastating. I became promiscuous and abused alcohol and other substances. After I married, I'd have episodes where the abortions would overwhelm me with guilt, sorrow, and regret: Seeing a picture of an 8 week old fetus to find a baby, and not a "glob of cells" was devastating. During our first pregnancy I worried my baby would die shortly after birth, or be severely deformed. In 1991, we moved to Memphis. Before the move, I became depressed. After we moved I had a panic attack once when we passed the abortion clinic. Next, I had strange health issues and almost constant sickness for months. I felt guilty around my son. I sought help at Life Choices, where I joined a post-abortion Bible study. I learned to forgive myself and found peace.

10. How has your abortion affected others in your life?

My husband, of course, has had to deal with all my issues just as I have. I was blessed that he is totally supportive in this, as he originally promised he would be. Two of my children - the older teens - know, and partly because of my story they have chosen to defer dating until they are older. They are both passionately pro-life. I have helped many women with their post-abortion pain. Some have gone on to minister, others just resumed their lives at peace with their abortions. I have counseled girls who are facing an unplanned pregnancy, and at least one I know of chose to give her baby life because of my influence, even though it meant being a single mom for awhile. I have counseled other teens to embrace a celebrate lifestyle until they are married. I have testified in church about God's forgiveness for every sin, no matter how terrible we believe it is, and encouraged people to accept his forgiveness and stop punishing themselves.

11. Based upon your experience, what would you tell a woman considering abortion?

There's more to an abortion than just having a growth removed and getting on with your life. When considering abortion as an option, she needs to understand the risks involved to her health and emotional well-being. I would tell her about the abortion procedure in a matter-of-fact manner, and explain the possible risks without emotion. I would tell her about my own story and the similar stories of other women I've counseled who have found that abortion is a hard choice to live with. I would tell her that when faced with an unplanned pregnancy, there are no easy choices. All are difficult. I would ask her to consider which choice she feels she can live with the rest of her life: raising her baby - either alone or with help from family, placing her baby for adoption, or aborting her baby. I would show her a picture of a baby at the stage of development of her own pregnancy. If possible I would get her an ultrasound.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If they would please just look at the statistical data! Most abortions are elective; the baby is just not convenient at the time! The percentage of abortions performed due to rape, or endangerment to the life of the mother is very low. Abortion doesn't help women - it hurts them! Black women abort at a statistically higher rate than whites percentage-wise. Abortion is still not "safe" even though it is legal. If it must remain legal, could we not at least protect women by having the same standards for abortion clinics as we would for any other outpatient surgery facility? Lord knows they have the money! Every Baby dies during an abortion, unless something goes wrong. That's a person. dead. There are laws to provide penalties for harming an unborn child *IF* the child is wanted. So please conder the hypocrisy in our judicial system. On one hand, we say unborn babies have value; on the other hand, we say unborn babies aren't "persons." The only difference is whether the baby is wanted. Barren women all over the USA are seeking foreign adoptions because it is actually easier to adopt in the Ukraine or China than to adopt an American baby! Please! Make adoptions easier for everyone involved!

HOW MY ABORTION AFFECTED ME

The State of MS

County of Leflore

My name is Tammy Gaede. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Chicago IL

//

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

Dilation and evacuation both times

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

They did not tell me I would be guilt ridden the rest of my life. I had two abortions. First one was when I was 22 years of age. One in which the pregnancy had attached to the ligament of my uterus/tube and yet they still did a D&E through the vagina into the uterus! I ended up with toxic shock syndrome getting extremely sick, and my doctor would not put me in the hospital in spite of my 104 temperatures because I had had an abortion for it. The other abortion was when I was 32.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have had a history of breast tumors, but no breast cancer. I have been guilt ridden for all these years since having both abortions. The reason I had the second one was the same as the first, I couldn't afford having children, I was not married at the time and I felt it was actually in the best interest of the unborn fetus not to be born. It went against all my Christian beliefs though and in spite of it all, even at nearly 52 years of age now, I still have this horrible guilt and realized I should have never done it.

10. How has your abortion affected others in your life?

My one and only child was very upset when I finally confessed to her about the abortions because she was an only child and she hated being an only child. She said because I did not have these babies, that she could have had a brother or a sister and that really hurt her.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to have the baby because the guilt will never EVER go away EVER!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

JUST SAY NO TO ABORTION. The guilt is overwhelming and it stole my joy from my life. It affected my daughter stealing a brother or sister from her. The man who got me pregnant it bothered him as it was a child that he would have wanted in his life, but because the decision was allowed to be mine, I kept him from having joy in his life. The serious nature of how much joy this steals from a person and the overwhelming guilt that you are left with for the rest of your life with no peace from it is just mind-boggling. It is murder and what is happening with the fetus parts on the market is just as much of a crime. You must say no to allowing abortions to continue. Far too many women live with guilt the rest of their lives. Please I plead to you, don't make others live with the guilt the rest of their lives. No one is happy with the decisions after the fact going through abortion - not one!

My name is Dianna Wolfe. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Galesburg IL

12/31/1973

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Planned Parenthood informed my parents and I that there was not an actual baby, it was just a blob of tissue, no bigger than a pencil eraser. We were not given any information on alternatives and told that we would need to make a decision fairly soon.

5. Were you adequately informed of the consequences of abortion?

Yes No

We were told it was a simple procedure, I would only feel mild cramping and it will all be over. I was never told of any options or consequences, only that abortion was a good choice. There was never any mention of mental or physical side effects.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents, as I was only 16 yrs old.

9. How has abortion affected you?

My abortion was the worst decision I have ever made in my life, and I deeply regret having made this choice. It caused me to have suicidal thoughts, depression, promiscuity, anxiety issues and female health issues. At age 18 I got pregnant again with the same person. We ended up getting married this pregnancy as neither of us would go through an abortion again. I had female health problems shortly after my son was born, and at age 18, I had a cyst on my ovary that ruptured, causing them to have to remove my left ovary. I also was told I may never have any other children. We did end up having 2 more children. At age 33 I had to have a hysterectomy. I think about this child that I have terminated almost daily for the past 36 years. Although I know God has forgiven me, and I have also forgiven myself, it is still something that you cannot erase from your mind that you took the life of your own child. I have

been on medication for anxiety for 24 years. I have become an overachiever and perfectionist, trying to make up for my past mistake.

10. How has your abortion affected others in your life?

After 30+ years, I have finally confessed to my children that they would have had a sibling. They are deeply saddened to know this, as my 3 children are very close to one another. The father of the baby and I did end up getting married 2 yrs later and we are still married after 34 years. It makes it that much harder since we have 3 beautiful children to know that we could have had 4. It has deprived my adult children of a sibling that they never got to know. It has haunted my parents and caused them deep regrets that they pushed me to make this decision and that they had a hand in terminating their grandchild. My father went to his grave without ever discussing this with my mother or me. It also caused them both to live with horrible guilt over this. This past year, 2008, my siblings finally found out. It has deprived them of a niece or nephew that they would have loved as deeply as they love my living children. My husband and I have 5 grandchildren now. It has deprived us of additional grandchildren. It has deprived our grandchildren of cousins that they would have enjoyed tremendously. My mother has 19 great grandchildren. It has deprived her of possibly more. She loves her great-grands! When you add up all the people it has affected, one abortion touches many lives.

11. Based upon your experience, what would you tell a woman considering abortion?

This will be the worst decision you will ever make in your life. You will either live with the consequences of a living child or live with the consequences of an aborted child. Either way, you will live with consequences. Abortion does not erase the problem, it only compounds the problem and multiplies it. You have already made one mistake, don't make another.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Legalized abortion makes no medical sense whatsoever! We allow women to have the contents of the inside of their uterus ripped out of them by suction, and tell them it is a "minor procedure". Physicians administer sedatives, monitor blood pressure and heart rate for even simple outpatient procedures. Hospitals and clinics have to follow strict health guidelines and procedures. They are audited constantly to make sure all guidelines are followed to the strictest letter of the law, and live in constant fear of lawsuits. Yet abortion clinics are filthy, botched abortions are not documented correctly and the legalities are ignored. They are not held to the same requirements as other health clinics or hospitals. There needs to be a much stricter regulation on abortion clinics than there is. Partial birth abortion is the most horrific procedure known to mankind. In reality, the mother is birthing the child, so how can this procedure be legal and called necessary to protect "the life of the mother"? With modern technology, no mother's life should be in danger, but is in more danger with this manipulation and mutilation. It is nothing more than legalized murder.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MS

County of Lee

My name is Ann Reed. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Ashville NC

12/01/1987

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No. There was no explanation as to what was involved. I was not given any literature spelling out or illustrating what I was about to do. I was a lot later in the pregnancy than I thought I was simply because I was so young and ignorant and didn't know how to properly calculate the weeks of pregnancy. They initially said that they thought I was to far along, but did a pelvic exam and then decided they would go ahead and do it.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was given a piece of paper to sign informing me of the potential short-term health risks. To my recollection, there was nothing informing me of the long-term emotional consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I hid the abortion in shame for eighteen years. I was a terrible and dark place that I so wanted to forget but I never could. I remember the doctor saying "I think that's the biggest one we've ever done." Those words haunted me. I was a very angry person in so much personal bondage. I couldn't be honest with myself about much of anything. I couldn't really love. Even though my life may have looked okay on the outside, I was a complete wreck on the inside. I stayed that way, until Jesus Christ awakened me, healed, restored, and s e t m e f r e e !

10. How has your abortion affected others in your life?

I believe it played a large part in the breaking down of my marriage and an inability to fully express love

to my children.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT. What seems like "freedom" of choice to you right now is in essence the opposite. This choice will put you in a form of bondage you can't begin to imagine. It is a choice you can never take back. A child is a beautiful and wonderful gift from God.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is cruel war against life in every way. It is war against the life of our children, our mothers, fathers. There are so many women, and men too, walking around like dead women inside. They've killed their child(ren) and a part of themselves as well. It is not good for our society in any way. The women who angrily fight for abortion are either ignorant or have had abortions themselves and living in denial, as I did for years. They do not want to face up to the horrific act they took part in because it far to painful to do so.

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told of any emotional or health consequences. Never was the child referred to as a 'child'.

5. Were you adequately informed of the consequences of abortion?

Yes No

It was considered an outpatient procedure at the abortion clinic. The staff was very concerned that the patient was cared for and comfortable at all times - never acknowledging what was really taking place.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

the dad, the doctor, a friend all encouraged me

9. How has abortion affected you?

It took a solid 10 years to finally believe I was forgiven but even now I will have times of overwhelming sadness of knowing what I did. I never got to hug him or kiss him. The guilt is heavy - never does the day pass that I don't remember the horror I felt as I walked out of the clinic and drove to a friend's home to stay the night. Even now I feel nauseous.

10. How has your abortion affected others in your life?

A very understanding husband allows my tears and sadness. I have been open and honest about sex and marriage with my children. I have made sure it was understood with no doubts that if an unplanned pregnancy happens - we will work it out with a baby to hold in the end.

11. Based upon your experience, what would you tell a woman considering abortion?

It is a life changing experience and not for the good. The grief and guilt you carry never gets lighter - it never goes away. Every year for the rest of your life you will dread the day you had it done. When you

see a person that was born that year you wonder...

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is wrong to encourage irresponsibility and what appears as an easy way out. Accountability is lacking in every area of our government and is trickling down. To allow abortion/murder to be legal is wrong morally and spiritually.

my mother

9. How has abortion affected you?

I have always been a Christian, so it has psychologically scarred me. I have begged God for forgiveness for many years. I didn't think I would ever be able to forgive myself. Sometimes I think that I still have not forgiven myself. I still pray for my child to be taken care of. I was 15 years old when I became pregnant and 16 when I was forced to have the abortion (a child that I desperately wanted to keep), but my mother did not want me to bring shame to the family. I married when I was 19 and it took my husband and I almost 5 years before we could have a child of our own. An abortion is not just physical, but very traumatic to a woman's emotional well-being and mental health. It is basically murdering your own child that God has given you to be responsible for. I think about my "child" on every birthday. There is so much pain that will never go away. My children that I have now have brought me so much joy! I just wish I would have been allowed to raise my first child!

10. How has your abortion affected others in your life?

Very few people know about it, so it isn't discussed. My husband does know and we have talked about it. My mother acts as though nothing ever happened.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT DO IT! I would never allow any of my children to even consider abortion. We are Christians! I would describe the mental anguish and grief that I have felt even though it has been over 25 years; the pain and guilt never leaves.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should be illegal. Until they have experienced it for themselves, they have no idea how traumatic an abortion is.

QUESTIONS

1. Where and when did your abortion occur?

Newport News VA

02//1981

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The "counseling" that I received prior to the abortion consisted of this: A woman sat with me and told me it is perfectly safe. Its actually safer than carrying a baby to full term. Its not really a baby. Its just a mass of cells. You will feel so much better after its over. And - This one was my favorite! You would probably have a spontaneous abortion anyway, which is a lot more dangerous than an induced abortion. That was because I had some mild spotting - which, as I now know, is perfectly normal. So I was told I was better off getting an abortion. I asked - does it have a heartbeat. For some reason it made me feel better knowing it was really alive yet. The counselor assured me it did not have a heart beat. I was in the "counselors" office for exactly 2 minutes. That was it. I was 17. I was alone, living in an apartment 60 miles away from home. I was alone, except for a boyfriend who threatened to leave me if I didn't get it. I learned years later that the baby's heart starts beating at between 8 and 10 weeks, so YES, in fact it did have a heart beat.

5. Were you adequately informed of the consequences of abortion?

Boyfriend

9. How has abortion affected you?

Until I was pregnant at 17 I would never have dreamt of terminating a pregnancy. My abortion was the worst time in my life. It is the only thing I would do different if I had a do-over. Even though I didn't carry that baby to term I have to live with the guilt every day of ending her life. After the abortion, I dreamt I was driving in a car with my boyfriend, the father. In the dream I saw a little girl playing in the street. I

screamed to stop. He looked at me then looked at the baby girl & hit her. He killed her. The dream was graphic and bloody. I was out of the car in horror, tried to help, but there was nothing recognizable. I stood with blood over my face & hands. The dream ended. I dreamt that dream in various forms for the next 10 yrs. Always a little girl, always looking straight into my eyes before she was smashed. After the abortion, I believed I would never have children-God would punish me. The dreams stopped after I gave birth to my son. On the night before he was born, I had an intimate experience with God. I know it was God, don't ask me how. He breathed very warm air into my face and mouth- it was scary but healing. He said everything will be OK. I believed I was forgiven. I don't expect you to understand the ways I deal with my grief -telling others, buying flowers on the day she died, silent prayers. It is my grief, and my way of dealing with it. The abortion was Feb 81. She was Emma Leslie.

10. How has your abortion affected others in your life?

My husband, now of 7 years, threw up my abotion in my face last night becasue he was angry at me because I told him he drinks too much and he drives. I said, "God forbid you kill a child in your drunken state." He said, "so what, You killed a child". He's right. My life changed from 1981 forever. Nearly 30 years ago I aborted a child. I made the mistake of trusting my husband with that secret. I had the dream again last night, after my husband so calously made that hateful, mean and thoughtless statement to me. And after nearly 30 years, it physically felt like a punch in my gut.

11. Based upon your experience, what would you tell a woman considering abortion?

Short term, it may seem like the end of a problem. Long term, you will never forget it. You can suppress it, and when you are young, that seems a small price to pay. But when you are older, and if you still have feelings and a heart that hasn't turned to stone, you will regret it. You will never have a normal relation with the father. You will likely never have a normal happy relationship with any man, unless he is totally understanding, trustworthy and truly loves you for who you are, all faults included. That is a rare man! You may not even be able to have good relationships with your children should you have any before or after. If you tell people, you risk them using the information against you, to hurt you, or for whatever other sick gains they may see.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Its alot more complicated than a legal decision. Its alot more complicated than a medical procedure. How do murderers live with their crimes - even if they are not caught, they still pay a price, unless they are complete sociopaths. Many women live with that shame and guilt, and most of the world has NO clue.

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never informed of the haunting consequences my abortion would cause me for the rest of my life. The pain, the regret, the emptiness, the lost hope of a life that God had a plan for taunted me for 22 years.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I know that I am forgiven by God, but I have had much trouble forgiving myself. I refused to allow myself the joy of having other children. Now at the age of 41, it is too late for that. I deeply regret the great joy I have denied my parents of having a grandchild. To this day, I live with the pain that I killed my child, their grandchild. I have never confessed this to them for fear that they will not be able to forgive me. I live with this torment daily at this point in my life. There is no one for me to share this with but God. I praise Him that He still loves me despite my past horrible decisions.

10. How has your abortion affected others in your life?

No one else knows. I endure this pain alone. My parents will never have grandchildren and they don't know why!!!

11. Based upon your experience, what would you tell a woman considering abortion?

Your situation may seem hopeless right now. You may be afraid of hurting or disappointing your family, but they love you and will help you through. Choosing to have an abortion will cause regret beyond what you are able to comprehend right now. Within five years, maybe less, the shame of unwed pregnancy

will most likely be gone. The shame of abortion will always shadow you and torment you, getting worse as time passes. God will forgive your sin, but living with the consequences of abortion are very difficult.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

There are so many options other than abortion. Abortion has far lasting effects on women that will follow them for the rest of their lives. Nothing good comes from aborting a baby. Regret, depression, self-hatred, infertility, increased health problems are some of the effects abortion has on women who have had them.

My name is Cheryl Hourguettes. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Jackson MS

08/23/1989

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was a safe surgical procedure, I would be ok...but what they didn't tell me was the after affects of abortion. I thought my life would go on as normal... I had nightmares, low-self esteem, now having a painful, shamefilled secret, guilt ridden. I knew the truth! I aborted a baby, not a blob of tissue.

5. Were you adequately informed of the consequences of abortion?

Yes No

See above

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I experience guilt, shame, low-self esteem, became involved in unhealthy relationships, experienced nightmares and had problems in sexual intimacy.

10. How has your abortion affected others in your life?

I'm married now and my sweet husband has lived with a post abortive wife for several years. Its hard to love others when you don't love yourself because you have selfishly murdered your baby.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't believe the lie that abortion is a good choice for you. You know down deep that life begins at conception...I believe every woman does. If the baby is not a living being why is it continuing to grow in your womb. Why is it that when you want to get pregnant you will be having a baby, but when you don't want to get pregnant you are aborting a blob of tissue!!!! You will feel shame and guilt and more. Your future will be altered, you will be altering God's plan for your life and the life of the baby...I have

known women who have become involved in drugs, alcohol and even wanted to commit suicide. Some women become so depressed that they can't relate to others in a healthy manner any more without antidepressants and counseling.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

There are better options for women than the brutal murder of their children. The women will be affected, if not physically, which still happens, they will be affected emotionally, relationally and spiritually. They will hate themselves but act like nothing has changed! They will live a facade of happiness and be living a lie. Life does begin at conception. The baby grows in the womb, every second..it grows. The baby is a human being from the beginning until it is born. We would like to believe otherwise for our convenience and immoral behavior and also the "business" of abortion. Lots of money to be made in abortions. Not to mention for the spiritual women and men...abortion is a sin! The sin of abortion is a heavy miserable burden to carry. Its a selfish decision that ends in murder. There is no getting around truth.

QUESTIONS

1. Where and when did your abortion occur?

Whittier CA

04//1972

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

I am not sure. I am assuming it was saline.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The big issue for the "counselor" I was speaking to was how this procedure was going to be funded. When I went to the clinic for the abortion I was not informed about the procedure or what to expect. I waited until my turn and then followed the nurse in. It was all very quiet.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was given no information about any of the consequences. I had a negative reaction to the anesthesia so it took me quiet a few hours of resting before I could go home.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I miscarried 5 times before I was able to have a child. I needed progesterone shots throughout both pregnancies in order to secure strong attachment to the uterus. Both pregnancies were high risk because of the possibility of early labor. I also have lived in fear of rejection if someone found out I had an abortion. The fear has had me in bondage and affected relationships.

10. How has your abortion affected others in your life?

It actually has sensitized my husband to the need for pastors to reach out to and offer mercy and grace to those who are post abortive.

11. Based upon your experience, what would you tell a woman considering abortion?

Please, PLEASE do not kill your baby!!! I would tell her that I will go with her to the clinic for an

ultrasound so she can see her precious child. I would even offer her a place to live while she is pregnant so that she has continual support.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is imperative that this be reversed. Abortion has caused immeasurable pain, suffering and loss to millions of women AND men over the years. It has also robbed our families and the nation of rich and invaluable resources.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MT

County of Cascade

My name is N K I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Great Falls MT

02//1972

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

Don't know -- official name was TIP

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No counseling was included.

5. Were you adequately informed of the consequences of abortion?

Yes No

No counseling was included.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Father of the child -- by boyfriend

9. How has abortion affected you?

Back then abortion was a social stigma so I never talked about it. I was unable to continue the relationship with my boyfriend -- could not even look at him. I denied I had even pregnant. I was not able to have children after the abortion and always blamed my infertility on this. I became self-loathing. But I hid everything very well. It wasn't until I became a Christian and realized the freedom of forgiveness that I began to overcome the emotional trauma of the abortion.

10. How has your abortion affected others in your life?

I was not able to be intimate with any man. Part of my hatred of men was linked to the abortion. I was distant and cold-hearted.

11. Based upon your experience, what would you tell a woman considering abortion?

There are so many other choices available. Look at the pictures of aborted children and know the life inside you is human from conception. Denial only works so long and then the realization of what you do will haunt you. Physical as well as emotional problems will plague you. Please, consider other options. Help is available. Choice life!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Our culture has convinced the majority of people that abortion is an option, but it is always a selfish choice. Abortion kills an innocent child; like it or not, that is a real truth. Protect the rights of the unborn. Options are available to the mother that will ensure her unborn child has a chance to live.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The only thing that was explained to me was the procedure of inserting something into my uterus, going home for the night and going back for the D & C type procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nothing was said to me about any consequences....not physical nor mental.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Female friend that knew I wanted to retrain to LE

9. How has abortion affected you?

It didn't seem to affect me for quite a few years. However, with counselling, I have come to realize that my "cold-heart feelings" toward others, promiscuity, deep depression, anger towards men and my friend was caused by my abortion.

10. How has your abortion affected others in your life?

While my son, who is the only boy I ever had, has forgiven me....he wonders about the brother he never got meet. My daughter wonders at my selfishness of depriving her of another brother. She also felt my cold-heartedness towards family and friends and resented me for many years. :(Only in the last year or so has she opened up more to me.

11. Based upon your experience, what would you tell a woman considering abortion?

NOT to have an abortion! While my friend says she has never regretted having her abortion, I know from personal experience that it is morally wrong and can affect one's life, in many negative ways. I was a

bitter, angry, mistrusting, depressed person for many years. Raising a daughter, I gave her reasons not to have sex before marriage. Finding out that she was already having sex with older men, I told her that if she became pregnant, there was NOT going to be an abortion, but the baby would be placed up for adoption, like my first child. Fortunately, it never became an issue. I would tell women that there are many wonderful people wanting to give a baby a good home. Plus, placing a child up for adoption doesn't have the negative consequences that abortion does.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should NOT legal in any way, shape or form! Planned Parenthood and other abortion-rights groups have done no indepth studies to see the effect of abortion. In fact, they deny that there are any problems. With the internet, it is easy to find MANY websites to help women with post-abortion problems (mental and physical). Each of these websites have thousands of women who are crying out for help with the trauma that abortion has brought into their lives. It will take several generations to undo what Roe v Wade wrought on the American people and it starts with the SCOTUS.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MT

County of Flathead

My name is Dawn I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Las Vegas NV

//1991

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

All terminology used during counseling was generic such as how many weeks fetal, fetal tissue, etc. The word baby and child were never used. There was no talk of long lasting health or emotional effects and there was no talk of other alternatives.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed of health or emotional consequences. The procedure was explained as routine and no concerns or advisories were expressed.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I still don't remember for sure the month it happened. I tried to suppress it for so long out of regret that I struggle to remember the year. I carry around a burden so great that I wouldn't wish it on anyone. I know God has forgiven me, but I struggle to forgive myself. I have children now and fear that if they ever found out what I did, they would wrestle with the reality that I could have killed them, too. The emotional turmoil, guilt, feelings of worthlessness and isolation have been suppressing me ever since having the abortion. I had no idea I would endure such long lasting effects. I suffered less when I had a tubal pregnancy rupture and almost died.

10. How has your abortion affected others in your life?

It's affected everyone I encounter without their knowledge because I'm not fully myself anymore. A part of me died that day by my own doing. How can that not affect others?

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it under any circumstances! There are so many other options that you can live with instead of the lie of abortion that destroys and haunts.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

By allowing a woman to have an abortion, in essence, she is killing part of herself, too. Think of how many people are shells of their former selves because of this practice. Think of all the babies punished for no reason. Nothing good comes from legalized abortion.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MT

County of Flathead

My name is Megan Petty. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Seattle WA

01/30/1974

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The Open Door Clinic I went to told me it was a blob of flesh and that it was no big deal to get an abortion. They told they thought that I should have an abortion after they had spoken to my boyfriend and myself separately.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told that there would be no consequences of abortion. That is was a safe procedure and that there would be no complications.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My Mother, my boyfriend at first, and the Clinic.

9. How has abortion affected you?

It ruined my life. I have not been able to have children since. I became addicted to Marijuana. I did not care what happened to me. I thought I was damaged goods after that. I wanted to die. I became promiscuous. I was extremely depressed. I became angry and bitter. I hated my Mother. I hated men. I hated life. Then I met Jesus and he started to heal me and am still in that process.

10. How has your abortion affected others in your life?

I have a hard time getting close to people. I am afraid to love. I do not like being touched very much and really have a hard time giving myself to my husband. I do not trust people at all. I feel betrayed. Seeing babies hurts my heart and I am jealous of pregnant women.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not do it no matter what. You will regret it for the rest of your life. It will cause so many problems and so much grief.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is a violation of my womanhood and my motherhood. It is criminal since they lied to me and did not inform me of the consequences of abortion. When you step into an abortion facility you lose all your rights. I told them to stop and they did not, they instead put me out with drugs, when I woke up it was over. I was violated and robbed of my future.

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I knew I wanted an abortion and the doctor agreed as long as I said I was suicidal, but he did not explain anything to me about the procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no explanation of anything. As a matter of fact, I got an infection when he left a piece of the baby inside. The pain was so horrific I could not walk. He did not warn me of this and seemed surprised it happened.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has now been almost 40 years since the abortion. The older I get, the more I regret the abortion. I wonder about the baby...if it was a boy or girl, who he or she would have been. I feel I sinned against God. It has been hard to forgive myself.

10. How has your abortion affected others in your life?

There is a man out there who would have been a father and I never told him I was pregnant.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to get all the information she can first. She needs to be able to see her baby via ultrasound. She needs to know all the consequences, including medial and emotional and psychological, before she makes a decision.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That they need to decide that after reviewing all the evidence to the contrary.

My name is Joni Lineberry. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Iowa City IA

09/10/1975

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Saline injection

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was informed that i needed to be sure of my decision..I was not informed of the horror and the pain my baby would feel because of the saline injection -- the burns my baby would experience...I was not told that i was carrying a baby... with hands and feet and organs.... I was not informed that the consequences of my abortion would continue for decades...that i would fall to the lowest depths of despair and sorrow.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was a stupid child and just wanted to not be pregnant, and I thought if the pregnancy was ended, my problems would end. As impossible as it sounds, I never really thought about the emotional consequences...I thought if it was legal it must be okay...i thought I could never tell my parents...the negative effects began immediately after my abortion and went on for many, many years...I still cry...I went thru extreme alcohol and some drug use and much pain.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Abortion has affected my whole life...for 25 yearss i walked in shame and felt I could never be forgiven by God...i could never forgive myself. My whole vision of God was skewed by my abortion. I have been forgiven and do have an awesome relationship with Jesus, but I will never not cry about my abortion...I murdered my child for convenience and as i matured and realized how precious life is and how precious each of my children are...well, it is a heavy weight to bear. I have met so many women who have not come to terms with their abortions....I have been blessed with three awesome and healthy children, but

I will always regret my decision to terminate the life of my child. How many times have i wished that i had been braver and have this child in my life, but that will not happen on this earth. My abortion has given me a desire to help other women understand how big God is and how forgiving He is and how precious life is.

10. How has your abortion affected others in your life?

My friends and family know of my abortion and how devastating it has been to me...I think it has helped them to be pro-life and sympathetic to young women in the position i was in. My kids know they have a sibling that they will meet someday in heaven.

11. Based upon your experience, what would you tell a woman considering abortion?

I would explain to her that she is a precious child of God and she carries a precious life in her womb and that abortion is not a good choice...that this abortion will not solve her problems, but will bring a host of other problems and issues, heartbreak...i would tell her how special she is and we would pray together... I would pray she could be brave and promise her that the life inside of her, if she will let it grow, will be a blessing to her beyond what she can imagine..that she can choose to keep her child and be blessed or bless another family wanting a child and be blessed in another special way. I would explain to her the years of sorrow that she would experience in regret and pain.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Life is a gift and the right of each person whether born or unborn and that right should be protected....Life begins at conception and any nation who chooses to endorse the killing of the unborn is a nation violating this right...and a nation violating the God on whom our nation has been established. Abortion hurts women long after it occurs and the negative affects are so far-reaching that it is wrong for a court to allow a woman to be hurt in this way when she cannot understand fully the consequences of her decision...no one can understand the consequences of this except a woman who has been thru this herself. NO ONE.

QUESTIONS

1. Where and when did your abortion occur?

Burlington NC

03/15/1973

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

To this day I don't know, I was put to sleep, and told it was like a DNC

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

At the time I was only 17 and the Dr. told me it was just a procedure to remove the " lump of flesh".

5. Were you adequately informed of the consequences of abortion?

Yes No

I really wasn't informed at all, this was all arranged by my Father, and my Aunt. I just went along to not disappoint them.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My Father

9. How has abortion affected you?

I wasn't told nor did I "really know" what was to take place, but in my heart, regardless of what the Dr. said, I KNEW I was killing a baby. I called my boyfriend 3 days before the abortion,(it was his birthday), I begged him to just marry me, then he could divorce me, I just didn't want to kill our baby, He just said no and hung up. I cried for the next 3 days off and on, and still do today... and I am now 53 years old. I didn't know exactly what happened to me until years later when I saw a video on abortion, my heart was rebroken, and if not for the Lord in my life, I would still be in a self destructive life style.

10. How has your abortion affected others in your life?

This was something like you might have seen in a movie.....a subject NO ONE EVER talked about again. I was left to handel the terrible side effects silently on my own. I became very rebellious and permiscuous, soon I was pregnant again, this time I told NO ONE, until I was 2 weeks from having my child. You see I was always battling loosing weight when I finally succeeded and made my Father

proud, I became pregnant, and totally destroyed my relationship with my Father, or at least I thought I did. After the abortion, (when I became pregnant again), I just started eating to gain, and although I still lived at home my Father didn't know I was pregnant until I told him. Looking back, I think unconsciously I did that trying to have the baby I killed, my life kept going down hill for many years. I tried to block the pain with alcohol, and smoking pot. Thank goodness I had enough sense to stop all that when I got pregnant, at least until she was born, after her birth, I still was haunted with what I had done. I did love my daughter and kept her, but I wasn't really mature enough to be the best mother I should have been. I am sorry, the question was how did this affect others in my life, I have never told any of my children, or their father, in fact only a very few people know today what I did. There is so much more involved with my story, but just too much to write here.

11. Based upon your experience, what would you tell a woman considering abortion?

I would advise a woman to have the child, and if she is unable to raise the child, give it to a family that is wanting to adopt. Abortion is very destructive, physically to the fetus, both physically and emotionally to the woman. Having an abortion is a selfish act, and will slowly destroy the one who decides to have one. I know first hand, every March 15 I remember the emotional pain that with the Lord's help I have finally dealt with. Although I know I have been forgiven by my heavenly Father, there are still days I cry over what I did, that pain never goes completely away. I have prayed that if the Lord would have me ever share my story, I would be able to tell my children in a way they would understand, and just pray they would not stop loving me.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them if it had never been legalized, I would have had a completely different life. SO many choices I made that was destructive, was only because I had such low self-esteem. Abortion kills a fetus quickly and painfully, but it slowly kills the woman emotionally. I pray that someone will see by what I have said that Abortion is just wrong!!!!!!! I could have written much much more, because there has been 38 years I have dealt with the memory and the pain of what I did. Even if a woman somehow could stand up and say they had one and it didn't hurt them, I would say they are just in denial, and one day it will hit them and more than likely destroy them in some way.

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only asked to sign a paper, nothing was told to me about what would happen. I have had 2 abortions and was not informed with either abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

As above, I was told nothing. The thing that was most important was getting the cash.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend, doctor, Mother

9. How has abortion affected you?

I was depressed, have tried to kill myself 3x's, drug and alcohol abuse.

10. How has your abortion affected others in your life?

Was very angry at all men, was hard on my husband. Was overprotective with my living children

11. Based upon your experience, what would you tell a woman considering abortion?

Not to do it. You have other "choices" I often say if I would have given my children up for adoption I could find them now or they could find me. I and they don't have that "choice". Abortion changes who you are. You think you couldn't give your child up for adoption, but abortion is taking the life of an unborn baby, be a true mom and if you can't take care of the baby right now let someone else. I would help them if they wanted to keep the baby somehow. Just don't do this to yourself and your child.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

The courts are to help protect people, the abortions are not protecting the unborn and not help and protecting women. Abortion is not the answer to an unplanned pregnancy, we have to help in other ways. Abortions are causing harm, emotional, spiritual and physical to women and families.

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that my child was nothing more than a mass of tissue (basically that it wasn't a life yet), that the abortion would not hurt the baby, and that I would experience nothing more than a bee sting and some menstrual cramps. The actual procedure was not explained to me, the REAL development of my child was not explained to me. It was way more than some stinging and cramps!

5. Were you adequately informed of the consequences of abortion?

Yes No

I was warned of how abortion might affect me emotionally or physically. I was pretty much lead to believe that it was my right as a woman and it would be a simple way to solve a problem.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Parent (who now regrets it greatly)

9. How has abortion affected you?

? It did not solve a problem, it caused more. I entered into depression. I didn't care about myself. I was self-destructive. To cover the pain and disappointment in myself, I became involved in drugs and alcohol. I was very sexually permiscuous. I lived wrecklessly. I had suicidal thoughts. To hear a baby cry really hurt, as well as walking through the mall and seeing a pregnant woman, or a woman pushing a stroller. I ended up pregnant again a year later. I went to a pregnancy care center. They told me the truth about abortion. I decided I couldn't do it again. I chose life for my son. I have NEVER regretted that decision. I have ALWAYS regretted my abortion. My son now serves this country in the US Navy.

10. How has your abortion affected others in your life?

It has had to be dealt with in my marriage, with my relationship with my parents, grandparents, aunts, uncles, cousins. . . All of them had to be told because I decided to share what happened to me publically in an effort to save another woman from heartache, and another life from being snuffed out. When I told my son at age 7, he looked at me and asked "Mommy, were you going to abort ME?" I had to answer "Yes, but when I learned more about you, I just couldn't do it".

11. Based upon your experience, what would you tell a woman considering abortion?

Being pregnant may seem like "the end of the world", and the timing may not be right, but YOU CAN DO THIS- there is hope, there is help. Take advantage of it. It is much easier to live with the decision of life than to carry the decision of ending that life for the rest of YOUR life! It hurts, not only you, but many around you, and most of all that little one inside of you who has his or her own DNA, a heartbeat, all organs intact and growing . . . it is a life already, and you are a Mom already, no matter the choice you make! Give your child the best . . . a chance to live.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Before you make a decision, you need to KNOW THE FACTS about abortion, which means you need to know step by step what happens during the procedure. You need to see the results shown in pictures, as hard as they are to look at (imagine what the baby goes through). You may need to witness an abortion procedure first hand. You need to hear the testimonies of women who have been hurt by abortion (if only 10% of women experience symptoms of postabortion trauma, then you still have over 5 million suffering . . . anything else would be considered an epidemic). You need to hear the testimonies of doctors who have stopped doing abortions due to convictions. You need to be completely informed before you can make an informed "choice", just like the women who are doing this need to be. After all that and you can't make a decision, then you need to err on the side of life.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It was very matter of fact.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told to leave and never think of it again. I was told I was young enough to have more children in the future and that it wasn't really a baby anyway.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Boyfriend, Abortion Clinic

9. How has abortion affected you?

Depression, numbness. For a long time, I didn't feel I deserved any happiness in life. I sabotaged relationships that were healthy and happy. Smothered my living children for fear something could happen to them.

10. How has your abortion affected others in your life?

Kept them at a distance. Wouldn't let others get too close for fear I could hurt them or they would find out and reject me.

11. Based upon your experience, what would you tell a woman considering abortion?

No matter what the circumstance, including rape, abortion is not the answer. There are so many other alternatives.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I would say that cigarette packages come with warning labels, yet women are not informed of the ramifications that abortion brings. Animals and whales have more dignity in this country than the unborn. This should not be.

My name is Nina Hocutt. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Edwards Air Force Base CA

07//1977

2. How many weeks pregnant were you?

3. What type of abortion was performed?

Dialation & Curretage (D&C)

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No Answer

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never told of the possibility of future health or pregnancy issues. I was especially never told of the overwhelming guilt & psychological pain that would come from it. In fact, when I expressed my deep sense of guilt BEFORE my abortion, the doctor just brushed my concerns aside saying it was "just tissue anyway".

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

No Answer

9. How has abortion affected you?

Immediately after I was overcome w/such a sense of loss & guilt that I cried for days, slipping into a deep depression. Eventually, I buried my 'apparent' feelings but felt I had "done the worst already" so I became reckless, permissive and very self destructive, to the point that I turned my back on my faith and most things I knew to be wrong. My pain would not be denied though, so I slipped deeper & deeper into depression & negative thinking till I finally became deeply suicidal, totally without hope. As I look back upon it now, I can honestly say that when I opened my legs up to that abortion, I opened them up to death and when I destroyed the life within me, I destroyed my own life as well.

10. How has your abortion affected others in your life?

First, because I felt so overwhelmed w/guilt & self condemnation for so long, I subconsciously pushed

good men away from me, getting drawn more to those who treated me poorly. This led to me eventually becoming very bitter toward those who tried to stick around long enough to get close to me. In turn, I rejected them before they could reject me....which led to the destruction of my first 2 marriages and almost destroyed my 3rd marriage. Even after my 3rd (& final) husband & I eventually worked through this, for years & years prior he told me he felt "he was also paying for the sins of my past". Second, after nearly 20 years I finally had the courage to tell my mother, who I had always been close to. Though we eventually worked it out, she too (for a long time) lived w/a deep sense of condemnation, feeling beside herself w/grief that she had somehow failed me. Third, when I became pregnant again 5 years later, (also out of wedlock), I was so fearful of losing that child (as some sort of payback) that I started having complications w/that pregnancy early on. Though I did wind up successfully giving birth to a healthy baby girl, I stayed paranoid (w/guilt) over losing her for many many years, making me a very nervous possessive mother and her a fearful child. Eventually, returning to my faith brought us both healing in this area, but it took a very very long to work through it.time

11. Based upon your experience, what would you tell a woman considering abortion?

Though it is natural to look for the "quick, seemingly easy solution" to the problem of an unwanted pregnancy, abortion is NOT the answer, for it will cost you far, far, FAR more than you can ever imagine. Abortion is an act of destruction...you are destroying the life within you. And you cannot open your body up to such an act of destruction without destructive consequences. Abortion causes something inside of you to die. The lie we fall for is that we think we can control the depth & extent of that death, even though NO MAN has ever been able to ever really conquer death!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

With abortion, everyone focuses on either the mom or the baby. Who has the greater 'right to their life'? I believe both have the equal right. This may seem condradictory, but if you truly look at the life of a woman who has had an abortion...days, weeks, years and even decades later, you can see that abortion caused a negative destructive consequence in her life. Unfortunately, many many women facing this decision have no real knowledge of that or what they are truly choosing for if they did...very very few would make such a choice. Life or death...that's the choice. Choose death for your baby and you've chosen some sort of death for yourself. It's that simple. Lord, how I wish I knew that 31 years ago when I was faced w/the choice. Such knowledge would have saved me and my loved ones 20 years of misery. How I wish I knew. Now, isn't it time to protect others from such deception & ignorance? Isn't it time to tell them the truth. Life or death; which one do you think they'd choose IF THEY THEMSELVES KNEW THE TRUTH???!!!

QUESTIONS

1. Where and when did your abortion occur?

Tacoma WA

10//1966

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

I was given an injection in a doctor's office

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that I was going to have a shot "just in case I am pregnant".

5. Were you adequately informed of the consequences of abortion?

Yes No

My mother was determined that I was not going to be pregnant. She said it was "just a blob" of tissue. I believed differently, but I had no one to turn to.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother and the doctor

9. How has abortion affected you?

33 years of PTSD, I was in denial for 33 years. a suicide attempt at the first anniversary of what would have been my baby's birth, seven miscarriages, low self esteem, hospitalization for Post Partum Psychosis after our third child was born, years and years of counseling. I am in counseling now.

10. How has your abortion affected others in your life?

Inability to bond with my children, fear of something happening to them, thinking I was a "bad mom". Failed to set proper boundaries in my relationship with my husband, too much anger, bitterness, guilt, strife; the list goes on and on.

11. Based upon your experience, what would you tell a woman considering abortion?

I would beg her to not do this to herself or her baby.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Abortion is a horrific form of insanity. There is no justice in abortion. There is no truth in abortion. There is no dignity in abortion. There is no love in abortion. There is nothing good about abortion.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Never given any information, just filled out forms and asked to pay cash

5. Were you adequately informed of the consequences of abortion?

Yes No

They never mentioned one word about how I would feel afterwards! How cruel to us, where do you turn once the reality set in; you have just killed your baby. It is something very hard to forgive yourself, if you ever can.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has altered my whole life. Depression, anger feelings of worthlessness.

10. How has your abortion affected others in your life?

My husband and children have had to deal with my pain through angry moods and ill feelings. My marriage was almost gone, till I found help at Rachels Vineyard.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT HAVE ONE. It will change the rest of your life. You will never forget the baby you never knew.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that thinks it should be legal that they have never suffered through an abortion. Babies are being slaughtered in their Mothers womb, in the secret hiding place that is to be so safe

and sound. Mothers are still Mothers even if they have an abortion. You are now just a Mother of a dead baby and it will haunt you forever. Mothers are the heart of the family we are meant to give life not to kill that which God has given us. Life is precious and has dignity from conception, look at any ultrasound. Abortion is induced termination of a pregnancy

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

It is the worst decision I have ever made in my life. It has haunted me and caused me great shame, guilt, and emotional pain. What seemed to be a great "answer" to a "problem" became the lowest moment of my life. I will forever regret my decision. I had no right to kill my baby.

10. How has your abortion affected others in your life?

My husband and friends have shared in the grief.

11. Based upon your experience, what would you tell a woman considering abortion?

To respect the life that is growing in her body, and to allow her baby a chance to live. I would urge her

to give birth...whether she keeps the child or places her up for adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is an emotional prison for most of the women that I know that have walked that road...just as it was for me. My heart, soul, and mind were damaged by my abortion...it was not a harmless medical procedure.

The State of NC

County of Iredell

My name is Selena I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

NC

//1984

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

It was a type of vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that it would suction out the cells and tissues. I was never told that it was an actual baby. I was not a Christian at that time but even as I laid there I knew that I was doing something wrong. I laid there and cried. But I thought that it was the only thing to do. I didn't know I had options. I was only 17 years old and my parents didn't even know about it. Under 18 I walked in and literally shredded my baby apart. I didn't know it then but I do now. I have asked God for forgiveness and I know that he has forgiven me. But forgiving myself is the hard part. I now have 5 beautiful children and as I look at them I wonder what my other baby would have been and what he/she would have looked like.

5. Were you adequately informed of the consequences of abortion?

Yes No

At no time did anyone tell me exactly what I was doing.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I am totally against it. My sister had an abortion too. Before I did. She was only 16 when she had hers.

10. How has your abortion affected others in your life?

My mom and dad knows about my sisters abortion and it tore them apart. I couldn't tell them about

mine or let them find out. I have lived with this all my life and nobody else knows. It has been very hard having to deal with this totally on my own.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not have one. There are too many people who can't have a baby and would love to have one. Most of all, all babies are created in God's image. It is a living person from day one. So when you have an abortion you are killing a human being. You are no different from the murderer on the street holding a gun or knife. The only difference between you and the murderer is normally they kill someone they don't know, you are killing your baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That is shouldn't be. Especially for girls under 18. A parent should know about a girl under 18 having an abortion. That is not something you should be able to make a decision on at 15. It shouldn't be allowed at all. I truly believe that those who make the decisions to make it legal will have to answer to God for each abortion that takes place. Once again there are too many couples who would love to adopt a baby. Babies are a blessing from God not a burden.

Yes No

9. How has abortion affected you?

I don't think I have ever felt deserving of an abundant life even though I know who I am in Christ, I still have trouble believing it is attainable.

10. How has your abortion affected others in your life?

It has affected each relationship I have ever had; withholding affection; rage; self denial; inadequate love; withdrawal at times.

11. Based upon your experience, what would you tell a woman considering abortion?

Face the pain of being pregnant now. Do the right thing even if abortion seems like the best solution; it is a LIE. That baby deserves to be brought into this world and God gave YOU the privilege of offering life to this child. You will never regret the choice to give life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

This "choice" should never have been made so easy or simple for us....50M babies have been disposed of because it was the convenient thing to do. No one ever probed our hearts of the lifetime of pain it would cause to know we had made such a hasty, selfish decision so we wouldn't have to "gain the weight", change our lifestyles, confront our sin, make public our mistakes, disappoint our families, and become responsible for another human being.

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I just didn't realize the emotional damage that would occur after the procedure.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my husband

9. How has abortion affected you?

I think about that child I could have had every day. I just was too young to realize what a fool I was being. No life deserves to be ended. I don't think that emotional scares will ever heal and pray everyday for God's forgiveness of my mistake.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them that the child they are carrying is a gift from God and he would not have allowed that child to be created if it wasn't a part of his master plan.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that we are misleading our nation. Abortion appeals largely to the younger population that does not have the insight to understand the full effects of this action. The scars are deep and the wounds never heal.

boyfriend - father of baby

9. How has abortion affected you?

It would have destroyed my life if I hadn't had found forgiveness through Christ. For years I could hear the sound of the vacuum and the feeling of loneliness. I was 18, scared to death and felt like I was in a herd of cattle being taken to be branded for life. I really did not take time to think about the baby as having life. The abortion clinic sure did not tell me. But for years pictures of what I had done to my baby haunted me. Age added to my realization of what I had done especially after I had children of my own one being born prematurely at 3 lb 5 oz. Nightmares of the pain that my baby must of felt followed me. The father was abusive so by the time I got married at 33 I had so many emotional scars from the abortion and the abuse that I was a wreck. I was so bad off that I couldn't even remember who I was before the abuse and the abortions. I kept it a secret for many years and only grieved in privacy. But

the feeling and the sound of the vacuum was always with me. I lost my laughter and eventually my tears. Finally God brought me healing through his salvation and through a tape called Tilly. My guilt I gave over to Christ and my baby I could visualize in Heaven. I have been able to share my story with others so that they can find the same healing through Christ. The nightmares will not go away and it will destroy lives. Guilt alone almost destroyed me until I got saved and God allowed me to hear the program Tilly on Focus on the Family.

10. How has your abortion affected others in your life?

I have volunteered in a shelter for abused women and have been able to share my testimony with them. I have found that by talking about it - there is actually some healing that takes place. It is like you are not alone in this but the shame alone will keep you from telling others. There have also been several times where God has had me share this nightmare with someone else that went through the same thing so that they may find healing also through Christ. But I also brought so much junk and guilt into my marriage that it took years for God and I to sort through. Even though I am saved now - I still think about what I did every year when the anniversary comes around. God has definitely used it in my life but not without leaving scars that have effected not only me but my husband and my children. It nearly destroyed me as I destroyed my baby.

11. Based upon your experience, what would you tell a woman considering abortion?

To think about it - have an ultrasound done - consider adoption - give the baby a chance at life. Do not take this life - for it is not yours to take. It is only God's to take. If you have already had an abortion and are dealing with the guilt left behind - you have to turn it over to Christ - there is no way that you can do it on your own. Also, go to www.family.org and order the resource "Tilly". It will help with the healing and forgiveness process.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Don't do it - don't send these women into a life of horror and guilt. It might seem like the easier and fastest way to take care of the "problem" which is really a baby. Abortions have long lasting effects that make these women basically useless in life and in marriage because of the guilt that they carry around. These are babies. When my son was born premature at 32 weeks there was a baby boy - Daniel - who weighed 1 lb 10 oz. He survived and is the same age as my son - 14 now. He was probably the same size as many of the babies that have been aborted. We are scarring these young teens that are having abortions. Not only do they have to carry around the guilt of getting pregnant but also the guilt and horror and shame of having the baby. The boy that was the father of my aborted baby - to this day will tell me that he regrets making me go through the abortion and that he would change the fact that I had the abortion if he could. So it is not just the girls that carry the guilt but also the boys. These are babies that feel pain that we are killing. The blood of these babies are on our hands and the hands of the courts who still allow this. Babies are destroyed, girls are destroyed and the fathers lives are also destroyed. The courts carry the responsibility of these lives on their hands - babies, moms and dads. It is not the easy way out - the nightmares remain.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I just remember that they talked to me about me to see if I was prepared, but an explanation of the procedure never took place.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea that 20 years later I would still be thinking of this and thinking about what the child might be like or be doing with their life today, how old the child would be now.

6. Were you informed of any link between abortion and breast cancer?

my mother

9. How has abortion affected you?

I am always asking for God's forgiveness. Especially when I look at my children now. I wonder how I could have ever taken another person's life. What right did I have. I was so young and now that I look back on it selfish. When your young and have a parent pressuring you, you feel like you don't have a choice.

10. How has your abortion affected others in your life?

The father of the baby was also devastated.

11. Based upon your experience, what would you tell a woman considering abortion?

Do some research and see that life begins @ conception. And who are we to decide who lives and who dies. This child could grow up to be a great leader or healer. If you don't want a child there are plenty of couples who would love to adopt a baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

God said, I knew you before you were placed in your mother's womb. Who is going to stand up for the rights of that baby, No woman can have an abortion and then think it was the right decision. there are always regrets. A child's life is precious and we should nurture it no disgard them. Aren't you glad that your mother decided to have you and how many potential great judges and doctor's and preachers have been murdered. If they don't want to have a baby abstane or use birth control. Simple.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NC

County of Burke

My name is Nicole Churchill-Lowman. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Winston-Salem NC

07//1993

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

Early term?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I think that they informed me... I went through some kind of counseling, but I was still in shock from being pregnant and I don't remember the details. I don't remember being discouraged at all though.

5. Were you adequately informed of the consequences of abortion?

Yes No

I believe they informed me of the physical risks to me, but not how I would feel about afterwards and for the rest of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have been plagued with guilt and shame since I did it. I think about my child almost everyday. Wonder what he or she would have been like and how I never gave him or her a chance. I was selfish and scared about what my dad would do and how I would ever accomplish the things I wanted to do (go to college and finish, etc.) I get really really depressed every year when he would have been born. I often think about how big he or she would have been by now.

10. How has your abortion affected others in your life?

It has made me to feel that I am not worthy of friendship and most of all, marriage. I've felt like less of a

woman and a mother, because I murdered my own child, who would want me? So I withdraw a lot in my relationships which I'm sure puzzles and confuses them. I feel inadequate with the children I have now, and I know that affects them as well.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them that it will haunt them for the rest of their life. Not just them but others in their life as well, because it's like literally a piece of you dies along with that child and you never get it back, therefore everyone suffers in some way. Even your future children. You will never completely heal from such a decision.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that everyone deserves the right to live and our forefathers believed that as well or it wouldn't have been included in the constitution. (guaranteed certain inalienable rights...the rights to life, liberty, and the pursuit of happiness) The rights of these children are being violated, and it is the courts at this point that have the power and authority to protect them. When I had my abortion I was under the mentality that they weren't truly alive yet because it was so early in the pregnancy, but I believe that mentality is definitely used to perpetuate the business of abortion. It is flat wrong, both morally and scientifically. I wish that I had never been given the right to choose, and it would have saved an innocent life and mine as well. I wish that someone had stepped up to protect my own child from me (how terrible is that?) I have heard this said as well, "How many presidents, doctors, scientists (with cures for disease), lawyers, judges, volunteers, nurses, school teachers, etc.....have we aborted?" Our society is missing out on all these lives that have been lost and continue to lose.

Low self-esteem, guilt, unforgiveness for what I had done.

10. How has your abortion affected others in your life?

No one knew but me. I did not share with anyone. Too ashamed to tell.

11. Based upon your experience, what would you tell a woman considering abortion?

God is able to help you in ways you don't even know. God is the giver of life and if you will just trust him he will see you through season of your life. There is hope if you will let him in. He will forgive you of your sins.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Proverbs 127:3 says, Children are a gift from the Lord, they are a reward from him. It doesn't matter how that child was conceived they were in the mind of God first. It's not up to us to decide who lives or dies, the Lord gives and the Lord takes away.

11. Based upon your experience, what would you tell a woman considering abortion?

Seek other alternatives.Prevent unwanted pregnancies

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

PREVENTION PREVENTION PREVENTION Encourage abstinence, show children the consequences of unplanned pregnancies, make birth control available Stop promoting and condoning promiscuity I would tell them "prevention" is much better than "treatment". Abstain #1 Educate at home preferably OR use birth control. Remind these children that they may be conceiving a "never dying soul". Have resources available for the troubled girls "left holding the bag" My indiscretions that have resulted in an illegitimate child and an abortion have resulted in tremendous scars to my heart.

It has not been shared with them but my husband was told prior to our marriage and he came to forgive and understand the circumstances to a certain degree.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell a woman to reconsider. Find a loving home for the child. Raise it herself. But do not make a hasty decision that she will live with for the rest of her life. Shame is not easily ignored.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should not be legal. If we are to prosecute criminals for cruelty to animals how can we not protect unborn children, the least of these? We have a responsibility to undo this terrible mistake of allowing the murder of millions of babies and turning our heads away from shame.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NC

County of Cabarrus

My name is Jennifer Felts. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Charleston SC

06/05/1984

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

First trimester abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No, they did not tell me that I would hear the baby being sucked out of my uterus. They did not tell me that it could run a risk of me not getting pregnant again in the future. All they were interested in was receiving the cash, paid in full at the window.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed of all the emotional trauma it would cause and carrying the burden of the abortion for the rest of my life. I've learned that abortions can be linked to possible breast cancer and other complications.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My fiance

9. How has abortion affected you?

Years of depression, eating disorder, lack of respect for myself and allowing other sexual abuse in my life, difficult in forgiving myself with my actions, finally divorcing the man that pressured me to have the abortion.

10. How has your abortion affected others in your life?

All my kids are emotionally unbalanced in their life. My fiance that pressured me to have the abortion in 1984 had no respect for me nor did he truly love me for who I was. It took me years to finally see the truth with my own eyes. My children were in shock when they found out about the abortion I had years before they were borned. I now have a rebellious 19 year old daughter that throws it in my face. She is going down the wrong road, as she has already been raped and I believe she's had an abortion herself. I tried to educate her so she would not make the same mistake, but I failed.

11. Based upon your experience, what would you tell a woman considering abortion?

STOP!! As the mother of your unborn child, you are responsible to protect your child's innocent and helpless life. If you don't want the baby, that's fine. There are hundreds of couples in America that long for the chance to care and tend for your child's needs. Don't abort your child. It will dramatically affect you for years to come. You will feel guilty of murdering your child for the rest of your life. Abortion is not the right answer. For the sake of your helpless child and your conscience...choose LIFE!!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is wrong! We've already killed over 50 million future adults in America that could have been assisting the tax base, social security and future leaders of this great land. We have no right to worry about animal rights, when we don't even care about human rights! The damage that has been done to women, as well as some men, mentally, emotionally, and physically has added to the burden of our society and these victims as well. We can save millions of dollars in the cost of the trama to the ones that choose abortions. There are many couples in America who are willing to adopt these children who can't have children due to numerous problems. We need to do away with all the red tape it takes for people who are willing to adopt. What do you think your feelings would be if your mother decided to abort you? Do you think your life is significate? Most of us would say "yes" and I believe the aborted children would feel the same....if they were given a chance.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NC

County of Cumberland

My name is Regina Priester. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Durham NC

//1985

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Suction Aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

All I was told was I would not be pregnant anymore.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my mother

9. How has abortion affected you?

nightmares, hateing going to the dentist because of the sound of the suction, have wondered for years what my other 2 children would. Afraid of many men, hated going to the doctor because of shame. years of hateing myself and my mother for taking me. I was also told I would never have children because of the scareing left from the last one. But by the grace of God I have three beautiful healthy children.

10. How has your abortion affected others in your life?

I'm not sure. My mother doesn't seem effected. Her first response to anyone being pregnant is abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it, this is a child, you will regret it in the long run. Nightmares of hearing a child crying "mommy why did you do this?" "mommy why are you doing this?" "mommy where are you?" or the crying child you can't find in the dark, you hear the child but cannot find him or her because it is pitch black.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Hell No! It is murder no matter how you look at it. The baby is just that a baby not some foreign object in you body like a tumor. It is a baby created by the Lord (and the two who have sex). Don't punish an unborn child with death because of it's parents. You could be killing the future president or the person that cures cancer

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NC

County of Mecklenburg

My name is Mary Froneberger. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Chapel Hill NC

10/25/1996

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

suction/vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not given any information about what they were going to do to my body. This is VERY unlike medical offices that are upheld by laws and medical boards.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not offered a follow-up visit nor was I told about any potential risks.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has impacted my life emotionally (depression), and has impacted my marriage.

10. How has your abortion affected others in your life?

It has significantly impacted my husband. He was not the father of the child, but he has a hard time with it.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to inform herself thoroughly about all her options. Make sure she knows the risks and the lasting affects. I always tell women considering an abortion that whatever decision they make it will

impact the rest of their lives.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

There is medically sound and researched evidence that supports that life begins at conception.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NC

County of Forsyth

My name is Debbie Weaver. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Johnson City TN

//1980

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

I don't know the medical term, it was an out-patient procedure. a "vacuum" type

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it will be quick, painless and would "solve my problem" The Doctor was very light hearted and even sang, "Put your sweet lips a little closer to the phone", as he began the procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told that I would suffer physical consequences, that might not show up for years. Not told that the tremendous emotional weight of this would follow me through-out my life. Not told that the procedure was VERY painful. Never was any reference made to "a baby"

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my boyfriend (now husband) and I made the decision

9. How has abortion affected you?

I have a prolapsed uterus, the Dr. says it is not uncommon in women who have had an abortion. It was several years after the abortion before I realized the reality of killing my child and the flood of guilt and remorse overwhelmed me for a long time and may well have contributed to my use of drugs/alcohol. Not a day goes by that I don't regret my action, think about what that child would be like today, and how our lives would have been different if we had not paid someone to kill our child.

10. How has your abortion affected others in your life?

The day that I explained to my 2 sons that they have a sister that was not allowed to be born because of my ignorance and selfishness, was one of the hardest moments in my life. My husband and I have found forgiveness through Christ for what we did, but all future generations of our family have been altered because of this.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't let anyone, even yourself, deceive you into thinking that this decision has anything to do with YOUR right to do what you want with your own body. The baby you carry has it's OWN body that is NOT yours. Separate DNA and organs. Don't let anyone, even yourself, deceive you into thinking that it will "solve" anything. It will NOT. This act will follow you throughout your entire life, and you WILL regret it, no matter how you feel now. Consider adoption, consider raising your baby, NOT killing your baby, like I did.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

An unborn human being is simply a small, unseen human being. He or she has all the characteristics of a bigger, visible human being. Just as we face different degrees of maturity, dependence and development AFTER birth, we have different degrees of maturity, dependence and development BEFORE birth. That in no way alters the essence of being a WHO, and not a WHAT. My daughter might have grown up to be the one who taught the next President, or even been the next President. There has been untold damage done to our country and civilization by the wholesale slaughter of approximately 2 entire generations of citizens. The loss to work force, tax base, entrepreneurship, the arts and sciences, not to mention the potential for great ideas, inventions and philanthropy are immeasurable. A nation that does not defend it's most defenseless will not long survive, nor should it. Continuing to deny or ignore the scientifically proven fact that an unborn child is just that, is ludicrous and, I believe, a result of the tremendously well financed abortion industry itself.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NC

County of Buncombe

My name is Jill I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Springfield MO

02//1993

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told the abortion would remove the mass of cells from my uterus. I had no idea what to expect.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one ever mentioned any physical, psychological or emotional consequences of abortion. I experienced these without any understanding of why.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I went "numb" emotionally afterwards--unable to feel deeply, love myself or others. I began having anxiety/panic attacks before group social occasions(I was a senior in Highschool). During these I would claw at my eyes, scream and have fits of rage/sobbing. I called this an allergy attack. I became sexually promiscuous and out of control, began abusing drugs/alcohol. Gained weight--developed an eating disorder, had trouble making friends, bonding, became depressed. Was chronically sick for years. Joined a cult--changed my name and broke all ties with my family. Got married within the cult. Divorced. Shame, emotional breakdowns, inability to make decisions. Felt trapped. Could not figure out what was wrong with me or where my life had train wrecked. Thought I was going crazy. Felt desperate and afraid.

10. How has your abortion affected others in your life?

I am not really sure other than I have a path of broken relationships behind me. Only by God's grace have certain ones begun to be restored. I had broken all connection with my family. I was caught in a

rage/shame/control cycle in my former marriage. I have had emotional outbursts of irrational anger then incredible guilt afterward.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion destroys life. It is a heart/spirit breaking process for the mother and father. You will never be the same afterward. Even after forgiveness and healing you will still have to live with the process of recovering from the pain.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Please reconsider. Abortion hurts women. Women are the emotional foundation of families and society and by supporting legal abortions you are destroying your own society. Abortion as freedom is the biggest lie in existence in our culture. Abortion is bondage--a prison of the heart, mind and soul. The journey to release from that guilt-cage through forgiveness is long and painful and is the ONLY way to sanity. The wasted years and broken lives can never be regained only restored. By choosing to support legal abortions you are taking the side of the greatest tragedy in our nations human history. The death toll exceeds any other genocide or war and to continue allowing it is a shameful mockery of our nation's founding principles. As appointed judges, assigned to uphold and protect this country's spirit, people and future, I beg you to search your hearts and reconsider your belief that abortion should be legal or that it provides any benefit at all to women, men, children or our society.

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told about the procedure but nothing else. I was not talked to about any other options that I had.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told that it could bring such anxiety and stress to my life and the guilt I would feel when I really knew just what I had done. I was 19 and didn't really understand that there was more than a blob of tissue inside my body. This is why it is important for young girls that are thinking about this to have to talk to their parents and not be able to have an abortion without their parents knowledge.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I went through a lot of depression and not being able to forgive myself for what I did. I have two beautiful children now and I know that the Lord has forgiven me and I feel like HE is telling me to join the fight to end abortion through prayer and bound4life.

10. How has your abortion affected others in your life?

It hurt my parents deeply. I took the life of their first grandchild and I also hurt my boyfriends father who did not know about it before it happened.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her my story and make sure she knew what she is doing and try my best to help her make a better decision for her and her baby. I would tell her that God loves her and He would be there to help her through it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We live in a free country, we can choose where we want to live, we can choose our religion, we can choose who we marry. But it should never be a choice of whether or not to kill our babies. God gave us free will but He did not give us the right to take a life, and we all know deep down in our hearts that it is a life we are taking. God please have mercy on us for what we have already done and help us to change what we do next...

HOW MY ABORTION AFFECTED ME

The State of NC

County of Mecklenburg

My name is Cindy Garner. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Bridgeport CT

08//1976

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Planned Parenthood suggested this would be a good option for me. At the clinic where the procedure was performed I was put in a room with a small TV and told to watch the video. I was so scared I barely remember there being a TV, let alone what was 'playing'. That was it.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told of no consequences other than a few days of bleeding and to make sure I didn't have a fever as that would indicate infection.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I am 48 and still suffer repercussions of this event with on going panic attack disorder. This disorder is directly linked to that traumatic event. I also have suffered the shame and guilt that cause you to hide the truth from even those closest to you, creating immediate barriers to the intimacy required for any deep relationship romantic or otherwise.

10. How has your abortion affected others in your life?

They have watched me suffer with panic attacks and have suffered as well when I was not able to do some routinely normal things...like travel. It has caused me to miss out on alot of things in life. My mother was devastated when I told her seven years later. It took me years to even be able to say out loud that I had done this.

11. Based upon your experience, what would you tell a woman considering abortion?

That the consequences never end. That the guilt is unbearable and becomes more so as time goes on without the merciful intervention of a loving Savior. That our children indeed live on but it is not our place to eject them into heaven. That forgiving yourself is the hardest thing to do. That there IS NO FREEDOM in this choice. That is the irony. It is an emotional prison.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

To stop listening to rhetoric that sounds pleasing..right to choose, control of my body, etc. Look what happened to me at age 16 when three years earlier this country in her infinite wisdom passed roe vs wade. I needed permission from home to take an aspirin at school but not to end the life of my child. No matter how you dress it up it's still the same thing..ending a life, with forever consequences. Please don't let this keep happening.

3. What type of abortion was performed?

Forced and against my will, vaginal

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was drugged, threatened by family and sent off to a family member who took me to an MD who lied to me and said this was only a cell. Now I know that it was an illegal abortion and that even when I begged the hospital to not kill my child they said it was the best thing for me and I was drugged so I could not move. I was in a coma state until it was finished.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told nothing but to obey. I have spent 38 years hateing myself for not running away and having more faith to live on the streets.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NC

County of Wake

My name is Deanna Falchook. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Orlando FL

05/09/1981

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

not sure...I heard a vacuum sound and the dr. used sharp instrument

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

My counseling session in the office created by planned parenthood took 5 minutes.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was taken totally by surprise when I fell into an intense depression and became suicidal for several months/years after the abortion. It is only by the grace of God that I made it through that intensely dark time. I was a happy well adjusted teen prior to that.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Intense grief for years requiring counseling and support from my faith. It affected my relationships and I hated myself for years.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

A woman should be allowed to choose many things but we have no rights to inflict death on a human being regardless of the fact that they are residing within us. Make a positive choice and express yourself fully as a woman and embrace life then you will be empowered. If you walk down the path of 'choice' and abort your baby not only will you be taking an anti woman action by destroying a life you will also be hurting yourself in the process. Abortion is anti woman because it is anti life. As women we are created to sustain and nurture life regardless of whether we choose to be mothers or not. Go to a pregnancy crisis center and receive support and make an informed life affirming decision and you will

then be truly empowered and liberated.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Acknowledge the rights of the child from conception number one. And overturn roe vs wade. AND if that can't happen at least respect women enough to insist that they are told that life begins at conception and that they could potentially be headed toward intense depression. Then insist that Planned parenthood or abortion providers follow up and are held responsible for the counseling that will occur for women post abortion that are now faced with serious mental illnesses.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NC

County of USA

My name is Marsha I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Charlotte NC

09/18/1992

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

Partial birth

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I didn't know what type of procedure would be done or what happened to the fetus upon removal, or the emotional devastation and loss I would feel afterward.

5. Were you adequately informed of the consequences of abortion?

Yes No

I never knew how sad and depressed I would feel after the procedure was over.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has created a huge loss and void in my life and I have had severe emotional stress as a result.

10. How has your abortion affected others in your life?

It has also affected my son and husband, as I have now have issues with being intimate with my husband and I have retreated on several occasions to just weep over the loss and the decision, if I had it to make again, would do differently.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it!!!! There are other alternatives and options available.....to destroy your child like this, actually results in 2 deaths- yours too. You can never replace the feelings of loss over the child you chose to destroy.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That this is a serious emotional destroyer to all involved-the mother, the father and the family and friends. This changes the woman and steals her ability to function as a normal person in society. Women really do go through the 5 phases of grief over this loss. Please please please, BAN ABORTION and STOP the killing!!!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NC

County of Cabarrus

My name is Julie Ann Cobb. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Charlotte NC

02/24/1994

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

D&E

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

This was my 4th abortion and I felt I had no other alternative, as I was not in the best of financial circumstances and was a single mom, who had a loving yet very immature boyfriend (who is now my husband). Satan had me so deceived once again, that this was the best way to solve my problems. But in reality and now being the spirit filled woman that I am I knew then it was a wrong and very bad choice right up until the very moment of the actual beginning of the procedure itself. The doctor that did the procedure treated me as if it were just another day at the office. No compassion, caring or any kind of bedside manners at all. I suffered tremendous depression and oppression for many months after that and got very sick, developed an infection that resulted in me having to have a tubal ligation about 6 weeks later. Even now in my walk with the Lord, I still recall each one and have awful remorse about doing it at all. Each one had serious circumstances behind the decisions to go forward with having an abortion, as my first husband was very physically abusive to me and I had drug problems at the time. Obviously not to excuse my choices at all, it was the darkest period in my entire life.

10. How has your abortion affected others in your life?

It has affected my husband terrifically as he always wanted to have a child with me, but now that is impossible as I am older now and incapable of having one. We have thought of adopting if the Lord

required this of us, and would do it with a glad heart and a second chance to give the gift of life and love to another human being. I do have one daughter from my previous marriage and two grandchildren now. But I feel that our relationship would have been so different if I had just gone on with the pregnancy even though my physician said it would be extremely risky for me and the baby back in 1994. So I did feel I was trying to do the right thing, but I was so wrong.

11. Based upon your experience, what would you tell a woman considering abortion?

I would have to say NO! It is an abomination to the Lord and to all the Word says. Purely and simply it is murder of unborn innocent children. There are too many alternatives out there now and we as the body of Christ need to stand up and take our rightful place, authority and responsibility for these unborn babies. We MUST be willing to take this on!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

All I would be able to do is stand up and quote the word of God and the commandment that says "thou shall not commit murder" and reference back to Genesis where God tells Cain that his brother's blood cries out from the ground. And just be fully led by the best attorney, the Lord Jesus Himself to have the appropriate words come forth as needed.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NC

County of Wake

My name is Stacey Pinkham. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Raleigh NC

03/18/2003

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was lied to, which is commonplace with this line of 'work'. I had to fill out the paperwork that included a brief explanation of the procedure, which included calling the baby they were about to kill 'the contents of your uterus'. I was not informed well of what was going to happen, I was told to put on a gown and sat in a room with at least 12 other women, one visibly pregnant. We waited and were called into the room one by one to have the 'procedure' performed. One girl was yelling NONO my baby!! The staffs reaction to her was anger and you could here loud STOPS!

5. Were you adequately informed of the consequences of abortion?

Yes No

NONONONONONONO! The nurses greeted you into the recovery room with smiles and maxi pads to soak up the blood of which your baby currently resided. When you got up I continued to here them repeat 'it felt like there was a lot more blood, didn't it?'. I had no idea that 5 years and 2 children later that I would be an emotional basket case.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

After the birth of my daughter in Dec of 2004 all I could do was cry. I had no reason why and just chalked it up to hormones. I would think about it periodically and cry but it did not seem to affect me on the surface. After the birth of my son in December of 2007, the day of his birth was traumatizing to me. Emotions I could not understand. The delivery was easy and he was perfect and healthy in everyway. Why did I feel this way? I always knew that the child I had aborted in 2003 was a boy. Maybe, I thought, that had something to do with it. He is now 10 months old and at this point I am an emotional

basketcase. I am seeking help through Project Rachel and attended the March for Life in Jan. I have a long way to go, but I want to put out the message in anyway possible, that abortion is never the answer. When you have an abortion, it puts a wound on your soul that grows bigger and bigger. You feel almost like a monster...how could I murder my own child. Why did congress decide that my unborn child had no rights and protection, some very rightly stating that abortion is modern day slavery..this unborn child, my son, was a human being, not the contents of my uterus, he was not my property to dispose of if I 'choose' to. Choose is a word I cringe at now. How could this be legal, why is this legal?? If it continues to be legal with an every broadening view of abortion at any stage of pregnancy, where will it end?

10. How has your abortion affected others in your life?

Oh, where to begin. It has crippled my marriage. How could he let me do this? Why did he support this. It has caused emotional detachment to my living children. How could they love me if they knew I had their unborn brother ripped limb from limb because he just happened to be conceived at the 'wrong' time.

11. Based upon your experience, what would you tell a woman considering abortion?

It is not the answer. It will take your unborn baby and your heart and tear it to shreds. She needs to research and find the facts first. Abortion is never the answer, it is a legal antiwoman law that will reek devastation in your life not now, not the day of or after, not even a couple of years down the road. But one day you will be left crippled with unbearable sadness and when you realize why, you will be a shell of your former self who walked into that abortion clinic. It simply is NEVER answer.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That abortion is antiwoman and antilife. How could a court that believes in the destruction of our most weakest, our unborn, has NO rights and therefore deserves NO protection. They need to start focusing their efforts on tougher child support laws in every state so a man cannot threaten no support of the woman or baby, leaving her helpless and alone. Daycares and housing on every college campus for pregnant and parenting students. There are really SO MANY things I would like to tell them, but mainly that abortion IS NOT AND NEVER WILL BE THE ANSWER. It is highly destructive and violent force in our society and it needs to END NOW!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NC

County of Mecklenburg

My name is Lisa I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Charlotte NC

09/03/1986

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told they would remove the contents of the uterus and I could return to 'normal life' shortly. There was no other information or explanation given. I didn't even know the doctor's name, and I don't think I ever even saw his face.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was only told that some bleeding- like a heavy period - might occur, but that within a week to 10 days, it would stop and I'd be back to normal.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The baby's father, and my parents.

9. How has abortion affected you?

There isn't really enough room here to write all the ways it has affected me. I see my life in two parts: BEFORE the abortion, and AFTER the abortion. I have never been the same since- there is no more carefree, innocent joy inside me. I am free in Christ, but I know I'm not the same and never will be, as the person I was before this experience. Depression is a close and constant companion, and despite my knowledge of Christ's forgiveness, I still harbor deep resentments toward myself for my own role in allowing the death of my own child.

10. How has your abortion affected others in your life?

Up until my abortion, I had been the 'good one' out of all my siblings- excellent grades, great behavior, you name it. Now, even twenty years later, I still hear about this from my family as a reminder that I'm

not "perfect," either, when I try to help them through some sinful act or another. Apparently they mostly felt victorious in knowing that I am fallible, too. Actually, I didn't need to hear that from them -- I have always been painfully aware of my imperfection! On another note, I am pleased to say that, although the baby's father and I split up shortly after the abortion, I recently located his description on classmates.com, and found that he is an Army chaplain and is studying to become a minister! I am sooo pleased, almost to tears, that he has also found the Lord. Now he, the baby, and I will all be in Heaven one day!

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! Don't listen to the lies and the pressure; there's an unholy motive behind it all. The abortionist wants his money, and the feminists want their justifications for their own abortions and sinful lifestyles. Family and friends just don't want the responsibility (or, sadly, the embarrassment) of dealing with your pregnancy, and -- also sadly -- many church members also shy away from single, pregnant women. However, there ARE loving, Christian women who have their arms open to you, and are ready to do anything and everything that they can to help you carry your child to term and also to help you make the hard decision of whether to raise your baby or place him or her up for adoption. You will NEVER regret carrying to term, but you will ALWAYS regret your abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The abortion industry is a powerful lobby, backed by literally billions of dollars. They are deceitful and only give, at best, half-truths when testifying. They will say whatever is necessary to keep their unregulated, --yet exceedingly-fruitful, financially-- industry alive and well. Those who lobby against abortion 'rights' do so out of love and concern and, all too often, first-hand knowledge of the abortion business and its victims. These pro-life people do not have a financial stake in the outcome at all; again, their only motivation is love. This, I believe, is very telling in and of itself. In addition, even those who are 'pro-choice' don't seem to realize that abortionists do not condone 'choice;' they only condone death-- that is, abortion. Pro-life agencies have lobbied for complete disclosure about the abortion method itself, fetal development (including ultrasounds), and a frank discussion about the risks and results of the procedures; however, their efforts to include this honesty in the 'choice' have been defeated at every turn by the abortionists. There is no 'choice' in the abortionists' view; there's only their own bread-and-butter option: abortion. For Pro-Lifers, the only option is life... life, and LOVE.

2. How many weeks pregnant were you?

27

3. What type of abortion was performed?

Saline

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only 13. I was told a needle would be injected into my uterus and that I would go into labor and deliver a dead fetus.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told of no consequences at all.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Mother

9. How has abortion affected you?

In ways so deep I can hardly say. Dissociation, deep shame, hemorrhaging, inability to connect on a deep level with my son. For years I was in a state of self-loathing.

10. How has your abortion affected others in your life?

see above.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. There are other options that are healthy both for mother and child that will not leave the deep scars that an abortion will.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

My story of my abortion and its horrors. Of my fully developed baby being born into a toilet. The deep

pain of learning that my baby was burned to death in my womb and died a violent, tortuous death. That abortion not only cruel to the unborn but does great harm to the mother as well.

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

Abortion has affected my whole life. I often think of the child I'll never know...the child I had killed. I read "The Purpose Driven Life" and realized that this experience in my life would have to be turned around to God's glory somehow...but how? With a heavy heart, I spoke to my pastor to get some insight on what God may want to do with me... He suggested that I contact our local Pregnancy Support Center. That was several years ago, and after serving on the board for 2 years, I remain a volunteer and help with fundraising. I yearn to do more... to counsel, and help young women who have experienced the same or are facing the choice of abortion in their lives. However, I work full time and the Center is closed when I'm off work.. I'm not sure if I want to do more because of the guilt that won't go away...or if it's the Lord urging me to a calling. I realize the guilt is a problem that is my own. I know that my sin is forgiven and forgotten. But this is the after-effect of abortion....

10. How has your abortion affected others in your life?

I'm not sure... No one really wants to talk about abortion..My husband is very supportive of me, though.

11. Based upon your experience, what would you tell a woman considering abortion?

Simply put..Don't do it. Then I would tell her my own testimony.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would educate them on what that baby looks like at 14 weeks. A court room wants facts not feelings. I doubt they would want to hear what happened to me in college years ago.. But this country's moral compass is way off and has been for a long time, and I believe it is our responsibility to do what we can while we're here to change that.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

I had no idea what I was doing. I had absolutely no council by any one at all.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no council at all. Just went to the abortion clinic and had an abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

I had quilt feelings for years. Over the years whenever I would hear about what abortion I would have pangs of quilt. When I became pregnant I then came to a knowledge of when life begins etc. I could no longer deny what I had done when I was 19. Then I began drinking to cover my sin. When I was 42 I rec'd forgiveness in the form of Jesus Christ.

10. How has your abortion affected others in your life?

Not good.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her not to kill her baby. I tell young people whenever I have a chance about when life begins. About DNA etc. They are always amazed and wonder why no one ever tells them about life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is damaging to women, children and our society. It should not be legal. The State should not

be in the business of destroying it's most vulnerable citizens. Because I am a Christian I also would have to say God is even now judging our country for this atrocity. There is blood on our hands and on our land because blood of innocents pollutes the land.

It has left my husband (then my fiance) with tremendous emotional pain and guilt as well.

11. Based upon your experience, what would you tell a woman considering abortion?

Please, please do not have an abortion. You will never be able to overcome the emotional pain and guilt that you will experience for the rest of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should not be legalized because abortion snuffs out innocent lives and brings psychological trauma to women who experience abortion. Abortion is murder, and I believe if our nation legalizes abortion, God will allow this nation to suffer, even to the point of destruction.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was a blob of tissue that could easily be removed by having a D&C. A D&C was a common, safe, easy, and fast procedure. At no time was I told that I was carrying a baby and that the D&C would not only scrape the uterus clean, it would also cut the baby up so that it could be thrown away later.

5. Were you adequately informed of the consequences of abortion?

Yes No

Other than being told to expect some light cramping and minimal bleeding, I was not told of any other possible side effects.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Myself - fear of rejection

9. How has abortion affected you?

It has caused me great grief, hurt, and shame. It fed my poor self-esteem, led to depression, and even engendered thoughts of suicide. I am ashamed to tell my doctor and feel like a hypocrite. I grieve over the child I have never known.

10. How has your abortion affected others in your life?

It harmed my relationship with my husband. It cheated our daughters of a sibling and our parents of another grandchild. Who knows what impact this child would have made on our world for Christ?

11. Based upon your experience, what would you tell a woman considering abortion?

Please, no! Even if you don't experience the negatives (increased risk of health and fertility problems,

depression, suicide, divorce, breast cancer, etc) that are linked to having an abortion, your decision will haunt you for the rest of your life. You will grieve and wonder, "What if I had given this baby a chance to live?"

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Legalized abortion harms our nation as well as the babies it kills;how we treat the helpless defines who we are. By not legalizing abortion,we not only protect children, we protect our nation and its people.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NC

County of Wake

My name is Gloria Hegarty. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Jose CA

//1981

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told nothing. Just that they would perform a procedure and "it" would go away. The woman was cold and lifeless.

5. Were you adequately informed of the consequences of abortion?

Yes No

Again, I was told nothing. I ended up with a terrible infection. In such pain I couldn't even sit down; also a raging fever. I went back and was treated like a "non-entity". Basically, be quiet, here's some medicine and get out of here.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It is the deepest grief and regret of my life. I know I am forgiven, completely and fully, but nothing will change the choice I made. But, I remember and I am glad, for His grace abounds, more and more than any/all of my sin. Yet, even as I write this I weep over the fact that I murdered my child. Yet in the lavish grace of God, He blessed us with a son.

10. How has your abortion affected others in your life?

My husband and I were unable to have children. God, in His Sovereignty, had a son for us. We adopted him at two days old; he is presently 12, almost 13. He is "God's gracious gift". And yet I know the day is coming that I will need to share this with him and it so saddens me that this is a part of my past I will need to share rather than the blessing of a (former) lifestyle of purity.

11. Based upon your experience, what would you tell a woman considering abortion?

Absolutely nothing good has come from this experience. There hasn't been a single benefit nor fruit borne from this tragic "choice". My experience was probably worst case because I was left sterile from the post abortion infection. It never struck me that I was sterile until after years of trying to conceive. My husband, too, shared in this with a poor sperm count. God was good. Rather than seeing my infertility as "penance" it caused me to further seek out Who God is and His character and nature and understand that once God forgives, He remembers it no more. But I do--again, not with condemnation but the memory. But grace is poured out upon this memory, lavish, abundant grace that sees me through each time I reflect upon this "choice".

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The emotional trauma and distress that is felt later as we reflect upon the decision made. At the time, it is a fast, emotionally charged solution; temporary at best for the emotional and physical ramifications last a lifetime.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NC

County of Craven

My name is Dale A Perrine. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Boston MA

02/06/1976

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Suction of some type (I did not have the procedure explained to me)

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told only what the procedure would feel like and that it would remove the tissue.

5. Were you adequately informed of the consequences of abortion?

Yes No

That I would have some bleeding, possibly some cramping.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has been a really difficult life especially after I had our first live birth. I have had difficulty with the following: Depression, Self-Esteem, and Difficulty bonding with our children, overwhelming grief, anger with not having been told about any options at all. Nothing was discussed in the process from the time my OBGYN told me I was pregnant; it was just assumed that an abortion was the direction to head because I was not married. No one asked what I wanted to do; and since I was in shock about being pregnant I didn't really understand what was going on at the time. I never had any counseling from anyone. Lonely and alone I was told "the nurse would make you an appointment" noone even explained that the appointment was for an abortion. The nurse called the abortion clinic on Beacon St in Boston, then told me when it was and that was all.

10. How has your abortion affected others in your life?

My children; especially our daughter has been affected with low self-esteem and behavior associated with low self-esteem. My husband has had to help me through this emotional difficulty; especially with the expense of and attending counseling. It has never been resolved. It is a pain that will never go away;

after all how do you live with the fact that you have killed your child through abortion; there is no excuse.

11. Based upon your experience, what would you tell a woman considering abortion?

Get all the facts from both sides of the issue before even considering an abortion. Be sure to think it through and seek help from Project Rachael, a counselor, friend, pastor or multiple people. Life is Sacred and until you have gone through an abortion you have no idea what the feelings will be afterward. Just like when a woman has a baby; noone can really explain the emotion change she will go through. The change is incredible. Having a baby is beautiful, aborting a baby is inhumane to all.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion changes a person forever and cannot be undone. Life is Sacred and we must look at the life of the women along with all those around her especially the baby she carries. If abortion is allowed to continue the result will be that more and more women are emotionally scared in a way no one can anticipate. We must seriously grasp that the result of abortion is far too damaging to allow it to continue. Hundreds of thousands of woman and their families who live in shame and serious emotional hardship due to abortion have paid too high a price and there has to be a stop to this. The scares don't always show up until a woman actually delivers her first, second or even other babies if she actually gets to conceive again. Abortion "has" devastated several generations. It is imperative that abortion be stopped; for a woman should never have to endure such emotional trauma. The cost is too high and we can not pay enough to secure all generations. We must support women who find themselves in a situation of being pregnant. The money spend on funding abortion should be spent on assisting women and providing options of delivering healthy babies to join their family or have that child put up for adoption. Life is too short to let this continue. Thank you for your attention to this situation our country is in.

//

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

suction?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I just felt like I needed to take care of the "problem", and feel like I listened to what I was told just to get it over with.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed of how the procedure would become a permanent part of my medical history, or the increased risk for breast cancer.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

depression, shame, substance abuse, eating disorder

10. How has your abortion affected others in your life?

I have not told my family. The father of my second aborted baby is a severely depressed alcoholic.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT ABORT YOUR BABY! Yes it is a baby - no matter how many weeks pregnant you are - you will be killing a baby if you have the abortion, and you will suffer tremendous emotional pain in one form or another for many, many years.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them to use their brains and their hearts and really look at all the medical evidence available

that shows and embryo is a baby - not a mass of matter.

not sure i just know it felt like a sharp jab and then it was like they used a vaccum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

i didnt realize that afterwords i would be soooo depressed even too this day.as soon as they took the baby out ,i ask too look at it.i had too say good bye and all remember thinkin is that baby has all its fingers.it was at that point i wanted my baby back,i wonderd what are you going to with it.i imediatly started crying and have been since then.ever since i know when its birthday comes up and i think of how old she would be.my husband is also greatly depressed and angry about it. i done this without his consent and thats not right.a man should have a say in what happens too his also unborn child.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

i think of it all the time...i get depressed about it,it has put a tear in my merriage that will never be repaired.i think of her on her birthday and how old she would be,and i wander where she is what happend to her.if i could take it back i would,if someone would of told me of the side affects that would of been easier to say no.they just line you up like a bunch of animals and just one by one kill the baby,so many women befor me left crying as i did.life will never be the same.this murder and a child not yet born needs a voice too stop this hanus and shameful murder of a baby too be born.

10. How has your abortion affected others in your life?

my marriage will never be the same,my husband cries daily over the loss of his baby.he would of taken great care of her if i would of given him a chance.my husband had no say so in what i did to OUR

BABY,HE SHOULD OF HAD ONE.SHE WAS JUST AS MUCH HIS AS MINE.this happend while we were dating and had just broke up....but he should have had too give consent for me too do this,which he would not have done.in other words not only do babies need a voice soo do fathers.

11. Based upon your experience, what would you tell a woman considering abortion?

please , please dont do it. it will be the worse mistake of your life.it will haunt you for the rest of your life and and you will never forget,and that baby deserves a chance at life just as you did.this is one of the most hanus crimes or should i say murder that you could ever commit.i say this to whom ever seeks an abortion one question,would you kill one of your own children that you have now, or if you have none would you walk up and kill someone elses baby as it looked at you. if you say no to this then say no to abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

they do not find other murders legal ,why this one. Just because it cant fight back for its self its ok? Yes its the womans body but that doesnt make it her right too kill.Its that babies body also that its home.You are invading a home and killing a baby.I the woman doesnt want the child come up with a program that will help her through the pregnancy till she has it to let someone addopt it.Or let the father have it , there are loving fathers out there , im married too one.No murder is right in the court of law but killing a baby is? I dont think so!The things i feel are awfull and if i could take it back i would in a heart beat even at 12 weeks its a baby , i know i saw my babies fingers and arms,it was the most horrible experiance i have ever had.God will judge me and i have ask for forgiveness,but i can only say to the courts if you are a christian have you ask?you are just as guilty , isnt that how it goes if someone helps someone else kill another person outside of the womb!

2. How many weeks pregnant were you?

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told I should tell my parents and I had only two days to make a decision. They said I could have an abortion or keep it.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told I would be fine and could go on with my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I took me several years to get over the reality of what I did. I suffered in silence because after that, my parents never spoke of it again. I was too ashamed to speak with anyone else.

10. How has your abortion affected others in your life?

I don't know if it has affected anyone else.

11. Based upon your experience, what would you tell a woman considering abortion?

I would ask her to consider weather that is a live baby and that there are people who could help her if she wanted to keep the baby or she could bless someone else through adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I am a mother of three and a baby is never a burden no matter what your life circumstances are. In our country, if parents feel overwhelmed they are even allowed to drop off their children at hospitals without being charged with neglect or abandonment. If teens feel threatened by their parents, they can call a

number and be protected. We have no excuse for allowing so many children to be killed for the sake of convenience, yes, I mean convenience! When Roe vs. Wade originally went into affect, society shunned women for having a baby out of wedlock and that caused the pressure to pass that law. Today, that is not the case! If a woman chooses abortion, she is not told that she will carry that decision with her the rest of her life. I still think about the life I ended so many years ago and wonder what life would be like with that child. That is the real burden these women face.

QUESTIONS

1. Where and when did your abortion occur?

orlando FL

10//1996

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

d&c

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It was explained to me about my pain control and how I(key word) would feel. It was NOT explained to me what my "fetus" would feel or that parts of its body would be expelled at a time or that it showed signes of stress and discomfort.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed about the developmental stage of my "fetus" the dangerous complications-unable to have chidren later in life and MOST importantly the pyschological complications of my decision. Much less my options to keep the baby or WHY I was getting an abortion and what alternatives had been given to me before making this decision

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have been through numerous therapists to help me through it. I have to look at my children EVER day and realize that I KILLED their brother or sister. I regret my decision EVER day that I made an UNIFORMED "choice". I search daily to find a way to forgive myself. I hope for people to give a voice to those that have none! I have payed the ULTIMATE price- my life, to live with what I have done.

10. How has your abortion affected others in your life?

My family has asked the age old question "WHY" why did their daughter- with all the information and support she had "choose" to do this. HOW could we have stopped it. And with the partner I have chosen - I hear what a horrible person I am. It is used against me in arguments and consisently brought

up to "tell" those who don't know.

11. Based upon your experience, what would you tell a woman considering abortion?

PLEASE PLEASE PLEASE make an INFORMED consent. think of ALL your options. How can you possible deal with this to allow your child a chance at life. What were your choices that you can change to make this child able to enter the world and can you give the child what it needs? Don't fool yourself into thinking that only YOU can give this baby what it needs. Other loving caring people can. Also this decision to KEEP this child might change your life in ways you can't imagine right now. Also if all else fails... don't be afraid to educate yourself on development of a "fetus" that its heart literally is beating and if you see an ultrasound its body is there. Realize that this is something that is NOT BIRTHCONTROL and is a medical procedure with all the complications and psychological complications that accompany it. (Some that may not be apparent for years to come).

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I (as a medical professional) believe that abortion should have a "waiting" period as with all cosmetic procedures. I believe you should have to have a psychological eval to show you are mental ready for this medically cosmetic procedure as with all other elective procedures. I also firmly believe you should have a mandatory ultrasound and Mandatory followup 1 month, 6 months and 1 year post op by a licensed psychologist to deal with any psychological issues that might occur and other issues that might need to be dealt with to prevent this from happening again. In case of ectopic and life threatening procedures the waiting period should be waved but the psychological counseling should still be available. Since this is a very difficult issue to accept.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told nothing personally. A nurse stood up in front of the room full of women and quickly pointed some things out on a diagram. That was it.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told nothing about any potential consequences by anyone before the abortion. The "counselor" just asked why I was doing it and then gave me sample packs of birth control pills (without a prescription) when I said I didn't have any.

6. Were you informed of any link between abortion and breast cancer?

boyfriend

9. How has abortion affected you?

I want to commit suicide every moment of every day because I know that I deserve it. Only my husband and kids keep me alive. I dread having to tell my kids the truth about what a monster I really am to have killed their sibling - and I am a psychiatrist treating women every day who are racked with guilt about a past abortion. I have admitted women to the psychiatric inpatient unit because they could not deal with post abortion guilt or attempted suicide after an abortion.

10. How has your abortion affected others in your life?

I am going to have to tell my two young daughters that I killed their sibling and my ex-boyfriend is still a drug addict. He might have had motivation to change if I hadn't killed his child. Only now can I recognize the beautiful plan God had for me, him and the child.

11. Based upon your experience, what would you tell a woman considering abortion?

I will adopt your baby! Please do not do it! You will regret it every moment for the rest of your life and all eternity.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion kills the mother even more than the child. Abortion is just another form of discrimination against women, and the strength of a country is measured by how it treats its most helpless members. If abortion should not be illegal then nothing should be illegal.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NC

County of Moore

My name is Sandra I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Chicago IL

//1979

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

I do not know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Noone explained anything to me.

5. Were you adequately informed of the consequences of abortion?

Yes No

Noone took me in a room and explained anything as far as I can remember.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Thirty years later I still cry when I hear the subject being discussed. I still am very sorry I had it done even though it was 30 years ago. I am still very ashamed of having done it. I have repented and grieved and asked God to forgive me for murdering this little baby and to forgive me as I have disappointed Him and hurt Him when I did this. I believe God has healed me and helped me to handle this and be able not to experience depression about this horrible thing I did 30 years ago. I have named the baby and given her a name (April) and written a letter to her (as I believe in my heart it was a girl) and asked her to forgive me for being so selfish & I imagine she is able to climb into the arms of Jesus at any time and He is taking good care of her.

10. How has your abortion affected others in your life?

My current husband (not the biological father of my aborted baby) wishes I had gone ahead and had it as we do not have any children of our own and we are now 59, 60 years old. I don't keep in contact with the biological father, but he does not know God and I wonder if he doesn't experience a lot of unforgiveness & shame. He & I both went to the abortion clinic together. I didn't even use my real name

when I checked in and we paid cash. They did not ask for any ID's.

11. Based upon your experience, what would you tell a woman considering abortion?

I would seriously consider going full term and putting the baby up for adoption if she does not think she can handle it. There are a lot of couples in the U.S. who cannot have children and would love to have her baby. I think she could even get them to pay all of her hospital expenses. There are many churches and/or ministries that will help her thru her pregnancy even if her parents forsake her. She will regret aborting it and realize later she was guilty of murder and have a very hard time forgiving herself and have a hard time with self respect & shame & depression even years later. She also may come to realize she has disappointed God and hurt Him as well as the aborted baby and realize that is a human being in her womb & it is not a painless procedure -- it will hurt her baby who has feelings even at a young age if she goes thru with the abortion and she could experience a lot of pain that they don't tell you about -- she may not be able to have any more children and this may cause her to have breast cancer or live with the fear that she could someday develop breast cancer, She could have problems with depression, low self-esteem, guilt, miscarriages, mental problems, etc.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It really is harmful in a lot of aspects for the woman who is making this choice. She is now susceptible to breast cancer and infertility which these abortionists do not warn women of; these women will experience shame, low self esteem, guilt and depression for the rest of their life. Even 30 years later after the fact, I still regret the decision I made to abort my baby and wish I had kept the baby even tho I did not want to marry the father. I now am happily married and my husband & I wish we had a child of our own to love. I live with the fear that I could develop breast cancer even tho it is not in my family genealogy but now is possible because of the abortion I had. If they had showed us a sonogram of the baby back then I believe we would have changed our minds even back then. They make you think she was only a blob of tissue and I now know too late that she was not. She was a living, breathing human being whose life I had murdered and she could not voice her own opinion. Her father and I and were very selfish and thinking only of ourselves. If we didn't want to raise her we could have given her to a couple who weren't able to have a baby -- there are thousands of couples in that predicament today and I am sure there were thousands of them 30 years ago.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NC

County of Mecklenburg

My name is M K . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Charlotte NC

//1968

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

All I know is the baby was scraped out

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

All I knew was they told me it was not a human yet and had not even been formed. They never said anything concerning killing someone or exactly how it was preformed. They never said I would have emotional problems due to this. They never told me I would never forget it, or that I would always wonder what the baby may have turned out like. All I can remember is I ask and they did it.

5. Were you adequately informed of the consequences of abortion?

Yes No

If there were consequences, I had no idea. Your mental health and physical well being could be harmed. I know this now.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It emotionally affected me. After the abortion was done, I would have crying spells, and hate myself for it. My emotional stamina was a mess. It bothered me off on on for years. You never stop thinking about it. You feel like you committed murder. You feel very low. At the time, I thought I was doing the right thing as I had RH negative blood and the doctors told me the chances of my baby being normal was very slim. I had twins already with handicaps and I felt I did not want to bring another into this world. That was my excuse back then.

10. How has your abortion affected others in your life?

Not really any, due to not many people know about it. Some say it was o.k. to do it and others say nothing. I know it was wrong now. I met a lady in church later in my years and she had been a child

where the mother tried to abort. She told her story and I literally cried. She felt like she wasn't wanted and her parents had tried to kill her. It was horrible. Can you imagine someone who knew their parents had tried to kill them??

11. Based upon your experience, what would you tell a woman considering abortion?

1. It is against God's will. 2. Don't do it as you WILL not forget it. 3. It is wrong to take a life. 4. Have the baby and let someone adopt it as there are other women who would love to have your child. 4. It just isn't right. I would tell them my experience and about the lady I met and her story also.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them it is wrong and we should not be giving women the right to take a life. There are so many emotional problems after something like this is done and it DOES affect you. Mostly, I would let them know we are not GOD and we should not take an unborn baby's life. It is wrong.

The State of NC

County of Iredell

My name is T C . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Statesville NC

12/15/1974

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 16 years old. I was told that I had to do it and that it would make my life easier and wouldn't bring shame and hardship to my family. I wasn't informed of what type of procedure would be used, only that there would be bleeding afterwards.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one referred to the fetus as a child on as "it".

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Mother

9. How has abortion affected you?

As I have gotten older, married and had a child, when someone asks me how many children do you have there is a hesitation in my heart. As a Christian, I have prayed many times for my child to forgive me. It is something that I will live with until the day I die.

10. How has your abortion affected others in your life?

It hasn't. I carry it inside myself.

11. Based upon your experience, what would you tell a woman considering abortion?

To consider other options. To realize that this is not a group of cells, but a living child and that someday this decision may haunt them as it has me.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I would say that abortion should be legal only in the most extreme cases, not as a form of both control.
If you believe in choice, then what about the baby's choice?

HOW MY ABORTION AFFECTED ME

The State of NC

County of BUNCOMBE

My name is Mary Sue Glazier. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

PONTIAC MI

05//1981

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

d & c suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

very painful, no meds, held me down and covered my mouth

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told that I might bleed for weeks afterward, or that my periods would get worse and more painful. I also was not told that it could affect my fertility in the future.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I had major fertility problems,(13 miscarriages) could not carry a baby to full term and in fact only made it as far as 22 weeks. did not realize how bad it would affect me psychologically, especially after I was never able to carry a baby to full term ever. More than one doctor told me that my fertility problems were related to the hack abortion I had, that left me bleeding for weeks. The mental damage is by far the worse, especially when you can never have children. I cry almost everyday now that I am older (45) and childless.Feel like this is the punishment I get for committing murder on my unborn child.

10. How has your abortion affected others in your life?

My now ex husband wanted to have children really bad, and I kept having miscarriages, the doctors told him it was more than likely do to the abortion I had at 18. He finally left me after 2 failed adoptions and married a much younger woman who could and did have 3 children with him so far. My parents always wanted grandchildren and I could give them none.

11. Based upon your experience, what would you tell a woman considering abortion?

Please do not do it, you will suffer the rest of your life. Give the child a life, give the child up for adoption to couples who want children but can not have them. the emotional toll has by far been the worst,you may and most likely will regret it further down the line.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them how much pain, emotionally and physically that is has created in my life. the emotional suffering far out weighs the physical. the child is a living being and has a heart beat very soon after conception. If people can go to jail for causing the death of an unborn child, then why is it that you can murder your own child at the hands of a doctor and it is called legal.

Raleigh NC

//

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

pills

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 17 years old and only knew that I would be disgraced if I had a baby. I felt I had no choice.

5. Were you adequately informed of the consequences of abortion?

Yes No

Did not know the extent to which I would be emotionally scarred for life. The quality of my own life has been severely affected.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

A male relative, who also raped me.

9. How has abortion affected you?

Inability to have close relationship with men. I feel insecure and distrustful of all men, even my husband. As a Christian I spent many years blaming myself and wondering if God could ever forgive me. I still have trouble with it but now believe that God is good and has indeed forgiven me.

10. How has your abortion affected others in your life?

I have been married three times. Although my present husband and I have been married 36 years, we have never had a healthy sex life. I have always considered sex a marital duty only and have never allowed myself to become emotionally involved with the act itself. He knows about my abortion and has been more than understanding. However, I feel guilty that he has had to endure such an inadequate sex life all of these years. My former marriages were also deeply affected by my abortion experience.

11. Based upon your experience, what would you tell a woman considering abortion?

I would strongly advise against it. However, I would like to see more resources and choices offered to

women facing this dilemma, ie, homes for unwed mothers, education, adoption info., etc.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Life is precious, both mother's and child's. Give life a chance by giving the resources necessary to choose it; not abort it. If we can spend billions on war which takes life, surely we can spend an equal amount on giving life.

5. Were you adequately informed of the consequences of abortion?

For me, the resulting calamity that could not be foretold was how my choice would change the trajectory of my life. Instead of continuing on with my story book romance and living happily ever after, I had broken a commandment and was propelled from the Garden of Eden..once outside of God's umbrella of protection (when obeying His laws). I experienced what Eve had...death of God's favor on my life. For the next 20 years I endured all kinds of psychological abuse because I had entered Satan's domain. I was carried away (so to speak) by someone stronger than I. I now can say that had I not aborted my baby...I may have had shame for a period of time, but I would have had a strength to protect myself and child that I was robbed of.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

It is not a matter of your physical choice, it is a matter of a spiritual life or death that is linked directly to our choices. There is a destiny granted to each child God breathes into existence. If we abort God's destiny for any child, we WILL pay for that choice. We will be hindered in ways that only Satan can devise. There are definite consequences to breaking God's laws and the fear of the Lord in this regard is

the beginning of Wisdom.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Giving a mother the right to abort her baby = putting a bullet to his head and killing him/her. Killing = Killing. Whether the child is 12 weeks invetro or 12 years old. Every child is God's child and has a purpose in the earth. Aborting a child is no different than placing a live baby on a cutting board and pulling it apart limb by limb. We just don't have to look at it scream when it is done by a vacuum with it's screams suppressed by his own mother's flesh.

HOW MY ABORTION AFFECTED ME

The State of NC

County of Davidson

My name is Kimberly Smith. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Winston-Salem NC

04//1983

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

Not Sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only 18 and I was really stupid back then. All I cared about then was partying with my boyfriend and I didnt want the embarrassment of having a baby out of wedlock. I basically didnt want anything to get in my way of having fun.

5. Were you adequately informed of the consequences of abortion?

Yes No

After I got married and had my first son in 1985. I was sickened with regret and angered at myself all at the same time. I would look at my son and think "Oh My God, I killed his older brother or sister" Im a murderer. Im sitting here crying as I write this. Im 45 years old now and it's still effecting me now.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend

9. How has abortion affected you?

I am angry at myself for having done this. I regret it everyday of my life. Anytime I get the chance around my son's friends and girlfriends. I try to tell them how terrible abortion is and about how there are so many other options. I wish that someone would have helped me see the other options back then.

10. How has your abortion affected others in your life?

Hasnt really effected others because I have kept it a secret from others

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that there are many other options that she should consider.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that they dont realize the emotional effects it has on a woman and it should not be legal. I know 18 year old girls are alot more knowledgable now then when I was coming of age but I look back now and know that I was not old enough at 18 to make that kind of decision.

HOW MY ABORTION AFFECTED ME

The State of NC

County of Pender

My name is Mary Jane I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Washington DC

//1973

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

don't remember

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I lived in Ohio but my doctor gave me the clinic number in DC as there were few available in 1973.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told nothing...just taken in and the procedure was done.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My husband said he wasn't ready to be a father.

9. How has abortion affected you?

I have never had a child. My husband and I divorced. I have cried my entire adult life...35 years. I will never get over killing a child I really did want...but was raised to obey my husband. It has left me sad and feeling alone.

10. How has your abortion affected others in your life?

My parents and siblings look down on me. I am a high school teacher and have had several opportunities to counsel young girls who have abortions. None of the ones I talk to want it done...they listen to others as I did and they are all getting bad advice. At the teen years, you don't have enough experience with life to know what you want and how to get it. Why are we not protecting these young girls instead of leading them to a lifetime of mental depression????!!!!!!!!!!!!!!!!!!!!!!

11. Based upon your experience, what would you tell a woman considering abortion?

Never do it!!!! If you don't want the child, have it, give it up for adoption. But never get an abortion! twenty years in the future, it might come back to be a wonderful miracle in your life. Do Not kill your child. You

will never get over it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion IS Murder of a life!!!!and that life deserves life. A couple who has sex and creates a baby can suffer inconvenience for 9 months to rectify that situation. They do not have a right to take the life. They will realize that far too late if they have the abortion but they will come to realize it. Just ask the lady who started Roe v. Wade. She now protests against abortion.

3. What type of abortion was performed?

in doctors office - suction - sorry don't remember the exact date

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

i never truly understood what was involved and that the child is a living being. For some reason i always thought it was just a cell or something:(

5. Were you adequately informed of the consequences of abortion?

Yes No

no one explained the emotional effects of loss, guilt, trauma

6. Were you informed of any link between abortion and breast cancer?

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

for over 20 years i have had nightmares about the children i aborted and the loss of life. I did not get any relief until i went on a pilgrimage and received the grace of forgiveness and the naming and baptism of my children. The Lord has healed me.

10. How has your abortion affected others in your life?

my mother has felt a loss and has said that had she of know what an abortion actually was that she would have never brought me to get one. My husband also feels a loss for the baby and it still hurts him.

11. Based upon your experience, what would you tell a woman considering abortion?

Life should be protected and is a gift from God. The negative aspects are far greater than one could imagine.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

If you legalize abortion you are legalizing the right to kill someone. What makes this any different than someone killing another person. It doesn't. We should not legalize murder...period....

QUESTIONS

1. Where and when did your abortion occur?

AL

11/14/2003

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that my baby was nothing but tissue at this stage and had no body formed at this point. It was not until later I found out that this baby did have a body at this time. That was really hard to swallow.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never informed of the difficulty after abortion mentally. I have carried this legal murder on my shoulders for so long. I saw it as a way out when I was afraid, but all it did was chain me in a new way, one even more permanent than if I had the baby and gave him up for adoption. Just because it was and is legal does not mean it was not murder. It was the most horrible thing I have ever done.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend at the time

9. How has abortion affected you?

Nightmares, depression, loss of self esteem, anger issues, difficulty in future pregnancies.

10. How has your abortion affected others in your life?

I am not sure that it has. I know my father is disappointed.

11. Based upon your experience, what would you tell a woman considering abortion?

Please, have the baby and opt for adoption. I would not wish this type of regret and mental damage on my worst enemy. The post abortion feelings and weight that goes with it are a heavy burden to carry throughout life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe a court needs to look at how the conception occurred and why the person wants an abortion. People need to consider the consequences of having sex before and not after the act. Courts needs to take this in to consideration before totally legalizing abortion. I think t needs to be regulated more. No abortion for people who just decided not to be responsible. Abortion should only be legal to save the mother's life. I AM pro-choice; I believe people really make the choice about having a baby WHEN THEY HAVE SEX. It s not as if they have no idea that sex can lead to a baby. Stop giving people the easy way out. In the end it is not easy anyway. It causes mental damage and depression.

1. Where and when did your abortion occur?

Detroit MI

09/01/1984

2. How many weeks pregnant were you?

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never warned of the emotional pain and unending thoughts of regret that may exist. Devastating does not even begin to describe the ongoing agony of this decision.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I am past child bearing years and when I see babies and actually children of any age I very often have a deep regret in my heart and numerous times have cried for long periods of time over the decision of abortion.

10. How has your abortion affected others in your life?

I can't answer that since I didn't marry the father and no one else in the family has ever asked about it. Only friends at times have asked about it. I am so glad to say I feel I was instrumental in talking one girl into keeping her child and she is so grateful today for that.

11. Based upon your experience, what would you tell a woman considering abortion?

I would be infatic about all the negatives. The regret. The health issues, including breast cancer, scar tissue, etc. The agonizing mental pain and the break in your heart which is like nothing else you will experience. I would also share the forgiveness and love of Christ who is the only reason I can even live with myself after this choice.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

A child does not have a say in his or her conception. It is a murderous act to take that life. A child may dwell in a womans body but that baby is a separate being. Every step from conception on is necessary for the full developement of a child so there can be no point during a pregnancy when it is just tissue. I was told at my abortion, "At this stage it's just tissue anyway". That is a lie from the pit of hell. It's a crime that women are not informed of not only the pysical consequences that may arise but also of the emotional and heart renching agony that is sure to be with them the rest of their lives.

HOW MY ABORTION AFFECTED ME

The State of NC

County of New Hanover

My name is Laura Box. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Wilmington NC

10//1991

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

I don't know the name. They used a vacuum type device.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only told that the procedure would be quick and only create a little pinch of pain. Afterwards, they said I would have excess bleeding (like a heavy period) for 5-7 days and they gave me pills to control the bleeding for 5 days. After I ran out of pills the bleeding increased again and I became very anemic. I had blood clots coming out of me that looked like chunks of liver. I thought I was going to die and I almost did.

5. Were you adequately informed of the consequences of abortion?

Yes No

They didn't explain anything more than the procedure would pinch a little and that I would have excess bleeding afterwards.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I had this done almost 18 years ago. When I went to my gynecologist to find out for sure if I was pregnant he couldn't find a fetal heartbeat and asked if I planned to keep the baby. I told him I didn't know. He suggested that I go ahead and get a DNC done because he didn't believe the baby was alive. Even though he told me the baby may be dead I still feel guilt to this day for not giving the baby a chance to survive. I still wonder what life would be like if I had not made that decision.

10. How has your abortion affected others in your life?

My husband was the father of that child that was aborted. He told me that he thanks God that I gave him his children that we have now. Although he was in agreement with me when I had it done, he says

that fathers of these babies that are being aborted should be able to have a say in it as well. They may in some cases want to keep the baby.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT! If you aren't ready to raise a child then please give it up for adoption! It's only 9 months out of your life to do what's right and a lifetime of heartache if you don't! The child you have inside you deserves the same chance you were given. Children are a gift from God and I don't know what I will say to God about the decision I made with his precious gift.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I don't believe that abortion should be legal at all! I was an adult when I had mine and still didn't understand the consequences of my actions--not because things weren't explained to me, but because some things cannot be explained! The feelings of depression and anxiety that overcome you can be crippling. To know that you have taken away a life that you cannot bring back makes you hate yourself for doing something so hateful. Looking back, I would much rather have faced the consequences of having a child out of wedlock than what I still face 18 years after that horrible decision. As for cases of rape, the morning after pill would bring on a woman's period before she ever had a chance to get pregnant. ABORTIONS NEED TO STOP!

QUESTIONS

1. Where and when did your abortion occur?

Knoxville TN

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

D & C I believe

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

My parents were not permitted in the room with me after I was registered. The only people being addressed by the abortion center's staff were the women who would be having the abortion. The clinic was located very near the campus of The University of Tennessee. I was with about five other women. There was no discussion about the baby's development at 11 weeks or how the procedure would actually destroy it. Since I was an out-of-state student, the center provided referrals to local clergy who would act on the behalf of minors so their parents would not need to be called.

5. Were you adequately informed of the consequences of abortion?

Yes No

The only consequences I was informed of was the bleeding I should expect after the procedure. No information was provided that having an abortion might effect me emotionally or my ability to conceive children when I wanted to get pregnant again.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents

9. How has abortion affected you?

During the procedure, I recall hearing the sounds of the equipment, and feeling a deep sense of regret and sorrow for what was happening. I wanted it to stop, but it was too late. I was a 17-year old college student. I humiliated my family by becoming pregnant, and set into motion a division in my relationships for the rest of my life. I continued to seek attention from boys, and remained estranged from my father until my 30's. After I had children of my own I saw for the first time and image of the life that grew inside me. I came to understand that I had ended a human life. It haunts me now, as if I had

lost a child after it was born. I often consider what kind of person that child would be, I see adults and think, "my child would be 33 now".

10. How has your abortion affected others in your life?

My abortion has definately harmed my family. My sisters were in high school, and they knew what happened. One went on to have an abortion herself, a secret she has carried with her in shame for over 25 years. My father and mother bear the guilt for their role. It has taken nearly two decades to heal our family. I saw the dad only two more times after the abortion. I never gave him a say, and I know that he was deeply saddened by the loss. He wanted to marry me and have a family. I worry about him even now, some 30 years later.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT!! There are other options.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe that no matter how "viable" the life is outside of the womb, within a woman's womb, it IS a human life. I would tell a court that their obligation in making laws is to protect life, especially those that are not able to protect themselves. The human life carried by his or her mother is the most vulnerable and deserve our protection. Abortion should not be legal.

9. How has abortion affected you?

I have been rid with guilt and shame, some of the depression I have suffered I believe comes from that.

10. How has your abortion affected others in your life?

My daughter has missed out on a sibling (she doesn't know. She was 1 year old when I did this). My husband and I have missed raising another child. Our family and church family (who don't know) have missed knowing our child.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. Nothing good will come from it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is wrong. We are not humans having other species, we are having human babies. This is murder. It has physical, emotional, and psychological consequences.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NC

County of Chatham

My name is Luana I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Mateo CA

12/01/1970

2. How many weeks pregnant were you?

21

3. What type of abortion was performed?

Saline

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told that the fetus was well developed and had to convulse and die before I passed it out

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea that I would feel so guilty and empty so many years later.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My husband at the time

9. How has abortion affected you?

After I found out what the baby had to go through I felt sorry that I murdered my baby and I think I always will.

10. How has your abortion affected others in your life?

I had 2 children years later and they will never know the sibling that was lost to abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

I would explain to her that their baby deserves to live and that God has a purpose for it that will never be realized if she goes through with it. I would urge her to have the baby and give it up for adoption so it can live out that purpose.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe that no woman has the right to take the life of an unborn child because she can't possibly

know why that baby is growing inside of her. God alone has the right to give and take life.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NC

County of Scotland

My name is Mary Snead. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Fayetteville NC

//1977

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told about the procedure but not the true nature of this procedure. Abortion is the termination of life, not just the removal of tissue that will "eventually" "become" a life. It is a life at the time of the abortion, and the removal of this "potential life" is a false premise since the fetus is alive at the time of the procedure. The only time it is NOT life is before it is present.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was informed of the possibility of physical discomfort and possible short term effects such as bleeding. No mention of any long term physical effects.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I was not told of the lasting mental and emotional impact of abortion. I was not counseled concerning the horrible and haunting feelings of guilt and shame that would be a long battle, even to this day, 30 years later. I cringe when admitting that I have killed two of my own children. I was not informed that abortion is the death of a living human being. I did not know I would not want to live as a result of the constant reminder of a guilt-ridden conscience, recalling the heinousness of the abortion, and thinking of releasing myself from the pain by killing myself. These thoughts were prevalent for the next 20 years. Today I am still very conscious of what took place as I consider the push for abortion rights today.

10. How has your abortion affected others in your life?

I do not discuss this in depth with anyone. I am too ashamed.

11. Based upon your experience, what would you tell a woman considering abortion?

My name is Cheryl I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Philadelphia PA

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never told how much emotional suffering I was going to experience as a result of this, or how sorry I was going to feel and to carry this with me for the rest of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

From the moment I woke up from the anesthesia I felt empty and ashamed of what I did. I was raised in a Christian home and believe in God and the Bible and knew it was wrong. I felt like I have been suffering in silence for all these years. I deeply regret the decision I made and wish I could go back to change it. I have 2 beautiful children but I still grieve for the child I aborted and probably always will.

10. How has your abortion affected others in your life?

I believe it affects the way I interact with my children. Being affectionate with them is something that doesn't come naturally to me. I love them with all my heart but I have to be deliberate about hugging and kissing them. I find that with other children this is not a problem.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to do it. She will feel a deep loss and be remorseful and sad. She may never recover and may never be able to have another child if something goes wrong. She will always wonder what that child would have grown up to be what he or she would have looked like or how much joy that child would have given her. I would ask her if this decision is something she could live with the rest of her life. God created all life and is so very precious and we have no right to take that life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That abortion destroys women. It affects the rest of her life and not for the better. Life begins at conception. God knew us before we were in the womb and He fashioned us. We have no right to play God.

HOW MY ABORTION AFFECTED ME

The State of NC

County of Madison

My name is April Elkins. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Asheville NC

05/23/2007

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

surgical

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was informed of the medical consequences but I was not informed of the turmoil and psychological damage that having an abortion causes.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My husband and the baby's father

9. How has abortion affected you?

It has affected me tremendously negative way. I struggle with it almost everyday of my life. It has caused nightmares, depression, and spiritual problems.

10. How has your abortion affected others in your life?

I wouldn't know. No one that was involved in the situation has wanted to talk about it.

11. Based upon your experience, what would you tell a woman considering abortion?

I would first tell her my story. Then I would tell her how scary it is to find out you are pregnant but it's not wise to make such a big decision in a hurry. I would also tell her how God never makes mistakes. You become pregnant for a reason and God wouldn't let you become pregnant if he didn't have big plans for that life growing inside you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that abortion shouldn't be a question. You may feel okay with your decision before the procedure but what about years down the road? The psychological damage is horrific. If it were made illegal, women would not have the option to abort therefore, they would have time to make a sound decision on whether or not they could keep the baby and raise it or give it up for adoption.

My name is Suzanne Lawrence. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Fort Lauderdale FL

10/17/1973

2. How many weeks pregnant were you?

22

3. What type of abortion was performed?

Second Trimester Saline Abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it would be like a miscarriage!

5. Were you adequately informed of the consequences of abortion?

Yes No

They didn't have pregnancy crisis centers then. They had one in 1974. I missed it by one year.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My dad, he didn't understand the effects of it all

9. How has abortion affected you?

I wanted to die when I found out the details of what happened that day in the hospital; I read about it in a pamphlet I saw after I had 2 children, 6 years later. I cried everyday for 23 years till I went to a Pregnancy Crisis Center for counseling for 4 years. I thought God hated me.

10. How has your abortion affected others in your life?

Until I got help I would scream at my poor mama, asking her how could she let me do that. I also fought with my sister, cause she said I needed to get past it and get on with my life.

11. Based upon your experience, what would you tell a woman considering abortion?

To please put the baby up for adoption. Abortion is murder and you will never forget it as long as you live. I still cry for my baby now. And I think about him everyday of my life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Yes I sure would!!! My baby deserved to live!!!

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

surgical w/anesthesia

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't remember being told too much of anything. I was 19, naive and afraid. In fact, so afraid that we paid extra money so I could be put to sleep during the abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

The only thing I remember is afterwards being told I might bleed a little and to wear a pad.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my boyfriend encouraged it

9. How has abortion affected you?

It caused me to change completely, yet I did not realize it until after I confessed and repented of it-19 years after I did it. It has caused grave emotional and psychological harm because I suppressed it for so long. My first child after the abortion was 4 weeks premature with complications and all 3 of my children since were by c-section. I have been married and divorced twice and I have had a problem finishing anything I start, including finishing school.

10. How has your abortion affected others in your life?

Since I have been divorced twice it has affected my children negatively.

11. Based upon your experience, what would you tell a woman considering abortion?

That you will have a lifetime of regret and the longer you go before receiving forgiveness and healing from it, the more psychological and emotional damage will be done.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That they will be responsible for the deaths of innocent children and the maiming of their mothers. That they are imposing not only a moral evil on society, but an overall increase in the need for mental and physical healthcare on society in general and that their decision to keep abortion legal is not in the interest of the common good of the entire nation when they legalize the killing and maiming of so many of its citizens.

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction Aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was shown a model of a empty uterus and told that the fetus was only a "blob of tissue". I was not informed as to the development stage at which my baby was at. The counselor also told me my life would "go back to normal" after the abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

The counselor told me my life would "go back to normal". I was not counseled on any potential emotional, mental or physical side effects.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend, who was the father of the baby

9. How has abortion affected you?

I experienced bouts of severe depression and suicidal ideations. Abused alcohol and experimented with illegal drugs.

10. How has your abortion affected others in your life?

At the beginning of my marriage to my husband and before I sought counseling at a local CPC, I had relational, both emotional and physical, difficulties with my husband. I also had trouble bonding with my oldest living son who was my first live birth.

11. Based upon your experience, what would you tell a woman considering abortion?

I would share the potential side effects of abortion, the option of carrying to term and parenting and adoption. I would also share my personal experience with abortion and how it affected my life in a

negative way.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It destroys two lives at the same time - the woman's life and the baby's life.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NC

County of Onslow

My name is Tammy Litchfield. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

MI

04//1976

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

surgical

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was seventeen years old and at that time there were very few requirements of the amount of information the woman was to be given before her procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nothing was explained to me other than if I continued to bleed after the procedure to follow up with my Doctor and do not use the stairs for a couple of weeks. Nothing was ever stated to me of the emotional, mental despair that would occur with this decession. Nothing was given that would inform nor prepare me for the future torment, shame, grief, that would descend upon me and alter my life forever and also those in my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I lived in a prison from the age of 17 until the age of 31 when Jesus Christ entered my life and so began my process of healing. I shut down and carved a very private secrate place for myself, a place of torment, isolation that no one could see. I was in continual emotional pain.I became bent on being perfect but at the same time an overly emotional and angry person. A person who's outbursts were horrifying and cruel to those closet to me. I let no one in and I would not let myself out of the self-loathing that I had for myself. I hated myself. After the abortion I have had reproduction issue's and at a very early age (29) a partial hysterectomy. I have no medical statement to support that these issue's were enduced by the abortion but within myself, I know that they were spawned there.The trauma of the abortion did not present itself instantly. I evntually was unable to even look a babies, be involved with

baby showers or anything that pertained to a birth of any kind. I died. I barely functioned with daily tasks. Depression owned me. Suicidal thoughts engulfed me.

10. How has your abortion affected others in your life?

Years later when I did become a mother, I was very controlling and unloving. I held myself back from my children. I wanted them perfect so that I would not feel so bad about the abortion. Perfection drove me and I did not understand why. I made myself unlovable to those around me because I did not love myself. I was unforgiving to others because I could not forgive myself. All of my relationships were dysfunctional. Special events in my life I would sabotage because I knew that I did not deserve them so I made sure that they were ruined. I had no joy in my life. I could not even enjoy the birth of my children. I went through the motions numb. I worked hard at punishing myself and at helping others by my behavior to hate me because that is exactly what I felt for myself, hatred. I have severely hurt others of no fault of their own. I deliberately drove people away from me. I was ugly. I was a murderer and I was the only one who knew that truth. The people in my life were confused, hurt, and unable to understand why I was evolving into this thing that they did not know or even care to know. I did not want to know her either but I did not know how to exit from my skin and soul.

11. Based upon your experience, what would you tell a woman considering abortion?

It has been a process of healing for me and I am very open to women of the horrors of abortion. I will be as descriptive as I have to be to get their attention. I am the expert on this subject not the deceiver who stands before them in the midst of their fear and selfishness enticing them to an appearance of a "quick fix" for the solution to their situation. I give the long term (life) truth and the results of their so called "quick fix". They are informed of the private hell that awaits them.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That they have no concept of what the law or freedom of choice is truly about. I have yet to meet any woman who has made this same choice as I did years ago, ever state that she would do it again and that it had no effect upon her positive or negative that there is no harm in it. Women do not discuss this decision openly because of the shame that is associated with it. If she is going through the process of healing she will share but if she is not, she will suffer silently without the knowledge that she has been severely damaged by the abortion. Abortion is a silent killer for the woman. I feel that anyone who supports abortion in the legal or political arena do not deserve to serve the public. They have no value for the public when they are in agreement with the act of abortion because they grant permission to terminate the unseen public. Murder is illegal in the country. We have technology that clearly shows a human being in the mother's womb. We have no excuse! Are laws and our leaders should stop the hypocrisy and allow people to be held accountable for their actions not pave a legal way for their selfish behavior. I speak from experience. Fear and selfishness were my motivator to make the decision that I made years ago.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NC

County of Wake

My name is Jessica Faber. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Southfield MI

04/15/2004

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Medical Abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not informed of what the term "Medical Abortion" was, they did not even use the word "Abortion". It was called a "procedure". I was not informed of what the development of my baby was, was not shown an ultra sound image even though they did a trans-vaginal ultra sound. None of the employees really spoke, they did not interact with the patients very much.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told the "procedure" would be over soon, I was given medication afterwards which they assured me would not effect my 7 month old daughter, whom I was breast feeding, she ended up having a severe diaper rash and needed medical treatment. I was not informed of the emotional ramifications nor how bad the physical pain would be.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father of the baby.

9. How has abortion affected you?

I suffered from PAS. I drank alcohol for the first time afterwards, I was promiscuous, I was depressed, I was suicidal, I felt ashamed. The regret is an enormous weight on my heart even after getting counseling and coming to grips with what I have done. I have had nightmares and for months after the abortion I would hear a baby cry that wasn't there. I miss my middle child.

10. How has your abortion affected others in your life?

My two daughters are without a sibling. My mother is missing a grand child, my brothers are missing a

niece/nephew. The father of the child has never received counseling and has lost his way, he drinks heavily, was arrested for drug possession, he is depressed and on medication, He has pretty much given up on life. He blames himself for the abortion and has deep regret. My husband wishes he would have met my child, even he is deeply effected because I am in pain from the abortion, I have regret and experience anniversary issues- crying, irritability, bad dreams. Our lives have completely changed because of the abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

I tell them to listen to the experiences of women who regret abortion. To think about who their baby is, what they can be in life, how much this world needs her/him. I tell them not to have an abortion. It is a heart breaking, life devastating decision. The regret does not leave even with counseling. The regret is so severe it can't be explained adequately, it is gut wrenching and grips you to your core. I would give just about anything to go back and change what happened April 15th, 2004.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion ruins lives, the life of the unborn baby, the lives of the parents, the lives of the siblings and extended family. It robs this world of genius ideas, the cure for disease, money from our economy, voters from the polls. It causes cancer, suicide, depression, ended relationships and gut wrenching regret. If abortion were illegal more teens would use pregnancy control methods and STD protection or stay abstinent. Infertile couples would have a greater option for adoption and more women would learn that they have more love and patience then they previously thought, more women would learn how strong and capable they are. More men would stand up and actually be fathers instead of taking the cowards way out by saying "It's your body, do what you want." We would save women from emotional and physical pain, from depression, flashbacks, promiscuity which leads to additional abortions or STDs, alcoholism, drug use, dropping out of school and hating themselves for life. I would never have had an abortion if it were illegal and not having an abortion would have saved my life. I would love to have my baby, here now, in my arms and in my family's life.

9. How has abortion affected you?

I live a life of shame and remorse and regret. I have kept the 3 abortions (yes, 3) a secret, for the reflection they cast of my sinful promiscuity and selfish choices I made throughout that period of my life. Those family members who know do not speak of it, so there is the horrible underlying shame. I am married with a beautiful son and am horrified that he does not know, as I raise him to be a Christian and to abhor abortion. I was raised as an upper-middle class church-going member of an intake family but was never, never told any of this. I was never told it was wrong to kill an unborn baby. I was never taught God's ways and His truth. Church was not a meaningful part of my upbringing. Things are different now as I have experienced the grace and mercy of God through the blood of my Savior, Jesus Christ.

10. How has your abortion affected others in your life?

My first 2 abortions were during a time of promiscuity and I have done my best to forget the boys and the babies involved, although the memories haunt me. My husband and I were responsible for the 3rd abortion as we learned that I was carrying a child diagnosed with Downs Syndrome. Our faith was weak at the time, and we were ill-equipped to handle this decision; our marriage will forever show the stain of

this sin, although we have turned it over to Christ and accept His cleansing. It just takes lots of time. Lots of time. Lots of healing. Lots of searching for why this is, and why it has to be. Our nation is drowning in its own depravity.

11. Based upon your experience, what would you tell a woman considering abortion?

Oh dear beloved mother-to-be, yes, abortion is an option, but it is the absolute worst choice you can possibly even consider. It is not God's plan for you. We may not understand what He has planned, other than the fact that He created that precious little baby inside of you with a purpose and a plan. Trust Him, trust Him.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is destroying our culture and our women are suffering at the hands of a misled society that does not understand that God's judgement will reign down for the massive killing of babies that has gone on.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NC

County of Onslow

My name is Shana Gordy. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Raleigh NC

//1989

2. How many weeks pregnant were you?

3. What type of abortion was performed?

some type that used suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The situation was a difficult situation for my mother, I guess because she informed me that I would be getting an abortion. I was never asked if I wanted the abortion. I was informed this would be the best thing for me because it would not bring shame to my great-grandmother and I would be able to finish school without worrying how to take care of a baby. I did not argue with my mother simply because she was right, I did not want to bring shame to my great-grandmother, because I loved my great-grandmother more than my mother, which gives you a glimpse of the terrible, dysfunctional relationship between me and my mother at that time.

5. Were you adequately informed of the consequences of abortion?

Yes No

I remember going to the abortion clinic filling out some paperwork, then me and my mother going into a room with the doctor and the only thing he asked was, "do you know why you are here?" I stated, "yes, to have an abortion," and he said "right." Then out of no where I blurted out, can I hold my baby, and I remember the terrible look him and my mother gave me with their alarming "no" once the procedure is over you will go into another room for a specified time then will go home. I think I just laid down on the table numb, because although I could not effectively communicate all my emotions and the pulling going on inside of me, I knew this was wrong, but hey God's word tells us to honor our parents so our days may be long, so this is what I did, closed my mouth and held in my feelings. This became my life which wrecked havoc on my soul in the years to follow. I never knew bitterness, anger, un-forgiveness, self-worthlessness, and suicidal ideations would have such a hold on me that every area of my life would soon spiral out of control and eventually rear its ugly head when I did give birth to my daughter, 6 years later.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Mother, but she told me I would, not pressured.

9. How has abortion affected you?

I've suffered from years of bitterness, anger, resentment, pride, unforgiveness, sexual promiscuity, low self-esteem, not being able to make hard decisions because I did not stand for my unborn child. I would not say the abortion in and of itself brought about all these emotions, but it definitely began to aggressively allow these emotions to take control over my life to a point I did not want to live. The hardest has been hiding it and not really being able to share because of feelings of being condemned or judged for what I did. However, a month ago God miraculously healed me of all bitterness, anger, resentment, pride, unforgiveness, low-self esteem, and sexual promiscuity by His cleansing word and continues to purify my heart daily.

10. How has your abortion affected others in your life?

The biggest thing would be the relationships in my life, they could never last and I think a lot of failed relationships where due to the fact I was punishing myself inwardly because of what I had done [abortion] and felt I did not deserve any good thing or people in my life. I was the one who often set out to destroy the relationships.

11. Based upon your experience, what would you tell a woman considering abortion?

I believe God is equipping me with more knowledge and having other women who are courageously coming forward and telling the truth about abortion that I think I would be able to shed more knowledge of the lie to the woman considering abortion, and continue to persuade through tears, prayers, and love. These were tools that were definitely lacking before God began my healing process a month ago.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is not a solution for anything, it creates a bigger problem that no medical degree, law degree, or any higher education could prepare a woman for. I brought into the lie because I was a coward, simply because I did not advocate for my unborn child. My circumstance did not dictate whether I should become judge and jury over my child taking away their rights as if they were a piece of property. My actions toward my unborn baby was the same evil, devilish acts that was performed on me when I was molested at an early age. I repaid evil for evil instead of allowing God to be me and my unborn child's DEFENDER.

HOW MY ABORTION AFFECTED ME

The State of NC

County of Cumberland

My name is Carol I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Diego CA

05/11/1984

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Very minimal counseling, no sonogram, no reading material.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told to expect pain and bleeding for a few days, and if it got worse to go to the emergency room. That was about it.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my mother

9. How has abortion affected you?

There is not enough space here to explain. Physically, mentally, emotionally, spiritually, relationally, in every aspect of my life.

10. How has your abortion affected others in your life?

It has negatively affected all of my family relationships.

11. Based upon your experience, what would you tell a woman considering abortion?

Stop. Think. Pray. There are several options. Abortion is not the solution that people think it is. It has life long consequences and allows satan to come into your life. Get help from those who care about the unborn. Don't destroy a life. Believe me. I know. I have been where you are.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Legalizing abortion is not the solution that people think it is. It is destroying the life of all of those

concerned, not just the baby. Read what the Bible says about how God designed us before we were born. It is a life. We are accountable to protect that life.

9. How has abortion affected you?

It's something I will never forget. Even though I know God has forgiven me, it's extremely hard to forgive myself!! I became depressed and used drugs and alcohol to try to cover the pain. It's been over 25 since my abortion and it's still very difficult to talk about. It's still very difficult to even think about.

10. How has your abortion affected others in your life?

It hurt my family tremendously.

11. Based upon your experience, what would you tell a woman considering abortion?

I still believe it's a woman's choice. However, I would tell the person(s) that it is a life changing experience that you will never be able to put behind you completely. It's more than just a physical experience!! It's emotional as well!!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NC

County of Wake

My name is Becky Jorgenson. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Raleigh NC

09/16/1998

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I knew what abortion was going into the procedure. I did not know how painful it would be or that I would feel like life was being sucked out of my body.

5. Were you adequately informed of the consequences of abortion?

Yes No

I did not know that there was a risk for infertility. I didn't know there would be so much bleeding afterward or that I would be so emotional that I could not stop crying. I was not informed that it might be difficult for me to be around children later or that the anniversary date would be difficult or that I would wonder about my baby for the rest of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Nobody knew. I was completely alone.

9. How has abortion affected you?

Following my abortion, the battle over my self-esteem spiraled downward. I felt lost, and for ten years I kept trying to convince myself that she wasn't a baby. To this day, I am convinced she was a girl, and even though I have worked so hard to move forward, I still wonder what my baby would be like if she were alive. In another year, she'd be a teenager. Would she have been an athlete like both her parents? Have an angry temper like her dad? Been an artistic musician like her mom? I will never know, and I still cry.

10. How has your abortion affected others in your life?

When I told my family, they were heartbroken... My parents were devastated that I was afraid to come to them with such weighty stuff, and my brother and sister were hurt because they would never know

their niece. My family was angry too. I wasn't the only one who got hurt. My boyfriend never knew. I was too scared to tell him because I truly feared for my life. I think if he knew, my baby not have been the only one killed.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell every woman that she has CHOICES. Abortion is not the only choice; parenting is not the only choice, and adoption is not the only choice. I'd encourage her to have an ultrasound and to explore ALL options, including the difficulties and benefits of them ALL. Though I cannot force her to make any particular decision, I'd like to share with her my story if she'd be open to it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would share that abortion had a dramatic impact on my life, and how it's not "just tissue" being removed from the body. Even if it were, there is still "trauma" when a woman loses a breast or her uterus. Both are "just tissue", yet there are still profound emotional ramifications.

HOW MY ABORTION AFFECTED ME

The State of ND

County of Walsh

My name is Jody Clemens. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Can't remember the city WI

04//1972

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

There was absolutely no counseling prior to my abortion. I arrived at the facility and sat on some benches. They called my name and asked for the payment. I then waited for my name to be called. Wehn I heard my name I was taken back to the procedure room and it was horrible. The entire process and procedure was cold and awful.

5. Were you adequately informed of the consequences of abortion?

Yes No

No, there was no counseling at all prior to or after the procedure. I was terrified and was treated with little respect. I do remember that while in the recovery room I started crying. A staff person approached me and stated "why are you crying? This is what you wanted". She then handed me some juice and a cookie. There was no counseling prior to or after the abortion. My soul and spirt shut done at this time as I could not grasp what had just happened - but I knew my baby was dead.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

boyfriend.

9. How has abortion affected you?

Prior to my healing - abortion nearly destroyed my life. I was a single school teacher at the time of my unplanned pregnancy. I had the abortion to save my job, not dissappoint my parents, and please my boyfriend. How ironic that after the abortion I was emotionally so distraught that I quit my teaching job, told my parents and broke off the realtionship with the birthfather. I was depressed, thought of death, my self esteem was gone, my goals and aspirations disappeared, I felt I could never be forgiven by God and certainly could never forgive myself. My life spiraled out of control and if it had not been for Jesus

intervening to save me I believe I would be dead today.

10. How has your abortion affected others in your life?

Prior to my healing it affected my relationship with my husband and my relationship with my children. I am quite sure it affect nearly all relationships in my life - how could it not?!

11. Based upon your experience, what would you tell a woman considering abortion?

I sidewalk counsel women and men entering our local abortion facility on a weekly basis. I try tell the women entering the facility that abortion will affect their life in ways negative ways - ways they can never imagine. Abortion may seem like an easy and fast answer to an unplanned pregnancy but the result is long lasting negataive effects and can lead to death. I have stood beside the coffin of a women who had an abortion. I spoke with her once as she lamented over her abortion. She spoke of wanting to die and being with her child. She was crying out for help. Unfortunatley the next time I saw this young women she was dead. Her self destructive life style had destroyed her. This young person's life told the real story of abortion. In every abortion a baby dies and a women cries - but in some abortions both die.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Taking the life of another human being should never be legal under any circumstance. When a women enters an abortion facility and particaptes in the taking of the life of her own child she will suffer a very negative consequence. Abortion is wrong for the baby and the women. There is no winner in an abortion - it kills the baby and it destroys the women. I would tell a court to act justly and to administer justice on behalf of the baby and the women.

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I went in to my appt. and they escorted me into a room. No anesthesia, no counseling before or after. It was physically painful and I was unable to walk out or function for the next few hours.

5. Were you adequately informed of the consequences of abortion?

Yes No

No counseling was offered nor that the child within me was a baby. Also no option for adoption was offered or explained.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Boyfriend, his parents, my parents.

9. How has abortion affected you?

There is not a day that goes by that I don't think about the child and what effect he might have had on our world. Maybe he would have done something spectacular. How different would my life have been? A child should not have to die for the mistake I made to have unprotected sex....

10. How has your abortion affected others in your life?

No one has ever brought it up.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her exactly what an abortion is and how it is done. I would also tell her she could give it to someone else to parent it. I would ask her and the dad why a baby has to die because they chose to have sex and irresponsibly as well. I would tell them they will never be able to undo it and will never forget...

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would ask them how they would feel if someone were to tell them, your child has to die because you made a bad decision, or your grandchild has to die because of decisions your daughter/son made. What is the difference between killing a child when they are 2,3,4,5 years of age versus killing a child that is only a few weeks or months conceived. Just because it could be made a law does not change the fact that it is murder and anyone who has an abortion should be tried for murder, whether it was a sane decision or not, myself included. If the child were born, it would be murder. There is no difference. Also one judge should not be able to make a decision such as this. It should never have been a question as to the definition or the act. It is an atrocity and we will have to answer to a higher power. What goes around comes around.

2. How many weeks pregnant were you?

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not informed what was going to happen to me at all. I was just told that I would be put under anesthesia so I wouldn't feel anything or remember anything.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no preparation for the intense guilt, anguish, and loss I would feel immediately afterward and for years to come.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

the father of the baby

9. How has abortion affected you?

I was suicidal. I was depressed. I struggle daily with feelings of shame and guilt, even thirteen years later. It was the single biggest mistake I have ever made, and I wish someone could have tried to stop me.

10. How has your abortion affected others in your life?

I am still judged negatively by those who know about my abortion, including family members. My husband is struggling to help me deal with this pain in my life that occurred long before we met.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that any decision other than aborting the baby will be far easier to deal with. Giving the child up for adoption or raising the child herself, although both difficult decisions to make, are the only choices she can live with. Abortion not only kills a baby, it kills a large part of the woman as well. I

would beg her to allow the child to live.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that abortion is wrong for so many reasons. Abortion is not only killing innocent people, it is destroying the lives of woman and families also. Women are being lied to by society, friends, and practitioners that abortion is a good choice to solve the problem of unwanted pregnancy. That is not the truth. Abortion creates more problems. It is wrong to kill, and that is just what abortion is. And the agony that a woman will endure following an abortion is nearly unbearable. If the courts care at all about people, families, women, and children, abortion would end.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NE

County of Otoe

My name is Karen I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Lincoln NE

11/18/1977

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was raised in a Christian home where I was told that it is a baby no matter how far along the pregnancy is. But when I was told by Family Planning that it was still just "tissue" - not yet a fetus - I felt relieved because I didn't want to face unwed pregnancy.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told that once the abortion was over, the whole problem would be over. The fact that I had killed my own child haunted me for years. I quit college and dove headlong into drugs and promiscuity. It wasn't until some 5 years later that I asked for and received forgiveness from God and some 20 years later that I was able to forgive myself.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

A friend and Fam.Plan. encouraged it, though.

9. How has abortion affected you?

I have suffered as a mourning mother and as a murderer - all in one. I still think of the bag of blood the nurse carried out of the abortion room and wonder what was done with my baby's "tissue". I blame myself the most, though, because I knew better. But I also blame the chauvinistic upbringing I had that told me that as a woman, I was a second-class citizen. I wanted to prove that I could do as much as a man and having a child would definitely stop me from doing that. I came from the middle-class and would have had to quit college (which I did anyway), move in with my parents, and get a waitressing job to be a single mom. I was taught that it was shameful to be pregnant out of wedlock.

10. How has your abortion affected others in your life?

My two children find it hard to believe that I did this to one of my own. My parents - who are deceased now and with my child - mourned the death of their grandchild and the choices that I made. My siblings were shocked and mournful. My husband, I am sure, sees me differently than if I had not had an abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

This will not go away...it will stay with you forever. You think that this baby will be a detriment to your life or that of your loved ones, but it is a gift from God. He will care for you and your baby. You don't need a whole lot to take care of a baby and the rewards are insurmountable. But aborting this baby will throw you into a life filled with regret, pain, guilt, self-condemnation, and MISERY. This baby inside of you is a human being and it has a soul. Abortion is murder.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Because abortion was legal at the time of my unwed, unwanted pregnancy, it was more accessible than if it was illegal. If the obstacles would've been greater for me to get an abortion, I don't think I would've gotten one. I believe that I was deceived by Family Planning and that at the time it was "the thing to do". But abortion is murder - nothing less. We need to establish help for the woman with the unwanted pregnancy instead of sentencing her to a lifetime of torment by leading her to the abortionist.

2. How many weeks pregnant were you?

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

i went to a Planned Parenthood Clinic. They did not explain to me that the unborn child had a brain,organs,spinal cord, and would feel pain. they did not explain that it would be pulled apart by the vacuum. If I understood properly and been given loving choices for alternative like adoption or directions to go for support, I would have NEVER had it done. I regret it everyday of my life.

5. Were you adequately informed of the consequences of abortion?

Yes No

It was not explained that it could depression. My mother just died and I was grieving. the abortion made it worse. My mother and her sister and their father died of cancer in midlife. It was not explained that my risk of geting cancer would increase. The risk factor of cancer would definitely been a deterrent to having an abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The child's father

9. How has abortion affected you?

I am disabled with Chronic Fatigue Syndrome and Fibromyalgi that I am convinced are linked to the traumatic interruption of the pregnancy causing a permanent hormonal problem that led to these disorders.

10. How has your abortion affected others in your life?

It is difficult for me to have a relationship without distrust and anger toward my partner and now husband. Bonding with my child was very difficult. I had severe post-partum depression and avoidance

of babies.

11. Based upon your experience, what would you tell a woman considering abortion?

Absolutely not!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That women should be shown an ultrasound of their unborn babies and what will happen exactly. The women should be counseled on all side-effects. Options for relationship counseling, adoption and/or financial assistance should be given. Abortion is not an option. It is a horror.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NE

County of U.S.A.

My name is Lisa Schultis. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Omaha NE

07/25/1994

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

A routine abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I knew that an abortion was basically the sucking of the fetus from my womb. I didn't realize fully that the fetus was living and not really just "tissue" as I had led myself to believe. This may have been part of my denial however.

5. Were you adequately informed of the consequences of abortion?

Yes No

I have had depression and emotional pain that will last a lifetime. Please see #9 below. I feel like a victim in a lot of ways.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I didn't know that I would feel so devastated. I felt immediate remorse and I felt like I felt such a sense of loss. I grieved over my dead child, but I felt too guilty to have anyone console me. I became depressed after my abortion and considered suicide. No one tells you before you have an abortion what the consequences might be. I will forever regret my decision to have an abortion. Even 13 years later, I am filled with sadness when I think of that day. I wish someone had spoken with me about the sense of loss and depression that can follow abortion. I have friends that have had abortions and they cry and tell me that they try to block the experience out of their minds because it is so painful to recall. I understand their pain. Even though having an abortion was my decision, I feel that I was a victim in a

lot of ways. I told myself at the time, that an abortion was okay because it was legal. If abortion had not been legal, I would of had my child and I would have loved her. I was scared when I became pregnant and abortion seemed the easy answer. Believe me it is not easy. I have emotional pain that will last a lifetime due to this decision. Please stop abortion and stop victimizing women and children in the name of choice. By supposedly empowering women with a choice, you are sending us to a painful life of regret and sadness.

10. How has your abortion affected others in your life?

The depression/anger issues that I have suffered due to my abortion have affected my husband, children and other loved ones in my life. For many years, I was not able to be the kind of wife/mother to my family that I should have been. The pain/guilt of my past overwhelmed me to the point to where I could not love them or care for them as they desired me to.

11. Based upon your experience, what would you tell a woman considering abortion?

It seems like such an easy option. I thought that I could just go and have an abortion and forget that I was ever pregnant. Instead, after the abortion I was depressed/angry and hardly able to function for awhile. I kept wondering why no one told me that I would feel such a sense of loss and pain. I grieved for the child that I had made a choice to kill. Please don't let fear lead you to do something that you will regret for the rest of your life. I felt dead inside after my abortion. In a way my abortion killed 2 people- my child died and I felt dead emotionally. I pray that this doesn't happen to you. There are other options- raising the baby yourself or adoption. I didn't want anyone to know that I had become pregnant and I didn't feel that the timing was right for me to raise a child. I was alone and afraid. However, any pain I would have experienced from others knowing that I was pregnant would have been so minor compared to the pain I have experienced from having an abortion. I miss the child that I never got to know. It is an awful awful feeling.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Under the false pretense of empowering womwn with a choice, abortion is victimizing numerous women such as myself. I have lived with depression, grief and suicidal thoughts since my abortion 14 years ago. Please stop allowing the killing of children and the victimizing of women.

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

I don't quite remember

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has caused me to grieve over the last 18 years for the loss of my child. It has also made me have a greater love for my children. I take a strong stand against abortion now!!

10. How has your abortion affected others in your life?

It was devastating to my parents when they found out. I have talked to my children about this and although they do not completely comprehend it they know it is wrong and that I regret my decision.

11. Based upon your experience, what would you tell a woman considering abortion?

I would share with them my experience and tell them all the emotional things that you go through. I would let them also know that God allows us to conceive for a reason and that God does have a plan for that baby and the woman/ young lady carrying the child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

How can you legalize killing an innocent human being. Modern technology clearly can show us how all the organs are developed by 10 weeks and the heart beat is detected as early as 8 weeks!! How can

you live daily knowing the choices you make affect such innocent lives who have no voice??!!??

3. What type of abortion was performed?

Dilation & Evacuation

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was a mass of tissue being removed, and would be quick & easy. The nurse took my arm & ran the edge of her finger along my arm and let me know it would be a removing of tissue like "scraping" across my arm.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nobody said anything about consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father & the nurse - it was the "path" to go

9. How has abortion affected you?

I often grieve over the loss of the child. In learning what post abortion syndrome is, I believe this is a lot of what has happened to me. Depression, Chronic fatigue, fibromyalgia, lessened chance of having children, mood swings, etc...

10. How has your abortion affected others in your life?

My husband has been through absolute hell with me - trying to understand & work through what has gone on in my life.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NE

County of Douglas

My name is K M I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Omaha NE

06/19/1978

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not prepared for the physical pain that followed nor the emotional pain and emptiness.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told about the statistically significant problems that could occur in future pregnancies following abortion, that do not affect women who have not had an abortion i.e. increased risk for ectopic pregnancy. In my next pregnancy, I nearly died from a ruptured ectopic pregnancy; a wanted, intended child. My future ability to have children was compromised by the loss of a fallopian tube.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Following the abortion, I began drinking heavily, and having reckless, promiscuous sexual encounters to try to kill the emotional pain from the abortion. Kill the shame that I felt. I still have flashbacks years later of the abortion, the hideous encounters that I had with men that followed the abortion...awful flashbacks. I lost one marriage following the ectopic pregnancy that nearly killed me...I had so much pain in those days. I live daily with the reminder that I can never change what I did, I look at young adults who would be the age of my aborted child, wondering what he/she would have looked like, how much I would love to know him/her; how good a parent I would be now that I have dealt with the pain, knowing that will never happen; telling my children about the choice I made to deny them a sibling that they will never know. The ramifications continue, even though my life is healthy overall. I wish I had known that that one choice would alter the course of my life forever, it was not just one simple act.

10. How has your abortion affected others in your life?

I broke the hearts of my parents by all of the behaviors that had not existed prior to the abortion. I have never been able to tell my parents about the abortion, it would kill them.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her not to have an abortion. I would tell her that there are REAL physical and emotional and life altering consequences that will alter the course of her life. That every child is special and that the baby is human. I would also tell her that if she is unable to care for the child, that others would welcome a baby. And finally, I would tell her, that there is a price to be paid with either decision, and that at the end of your life, when you look back at your life, you will be glad that you did not have an abortion, and rather worked through the temporary crisis of an unplanned pregnancy.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Women having unplanned pregnancies are under great stress at the time they learn of an unplanned pregnancy, and they do not get all of the facts, regardless of what you intend to happen by insisting that women get information. AND, that women under this stress forget that the life that they carry is life from the moment of conception, and that if they were shown sonograms of the children that they carry, and if we supported moms and children better, they would have the support that they need to have the child and raise the child, or to allow the child to be adopted. And, that the child in the womb has rights too, that are never considered at the time of abortion. Finally, that a culture that aborts cares less all the time, because the women in it have become numb by the pain of abortion, and the men in the culture as well. Abortion is a destructive act in every respect.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I felt losted and lonely. I have always felt that no one hears me. I still feel that men do not value me as a human. I gave my heart to Jesus 17 years ago. And God has healed alot of hurt. But, there are things you just never forget.

10. How has your abortion affected others in your life?

Not sure. It's not something that you can just talk to anyone about. Most people don't want to hear anything about that subject. These days most people are into themselves.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't go down that road. I would stand by them every step of the way to keep the baby or put the baby up for adoption. After effects last for a life time.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If they haven't experienced it they have no idea what they are doing!!!! It's not the right answer. Dig deeper. Talk to women. Lots of women. Dofferent women. All races .

My name is Jill Lamson Gran. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

2. How many weeks pregnant were you?

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The doctor that told me I was pregnant and gave me the information on where to get the abortion. He laughed and said the clinics were popping up like francises just like McDonalds.

5. Were you adequately informed of the consequences of abortion?

Yes No

In later years I had a miscarriage and shared with the doctor who has delivered my son that I had an abortion before I was married. I tried to explain to him how I was struggling emotionally but he dismissed my feelings and said for most women it was just like falling off a log.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

A greatness sadness, a death that will always be with me. I knew something was wrong, there was this emptiness/depression I could not explain. The day I had the abortion I went home and cried myself to sleep not knowing exactly why I was crying because it was suppose to be no big deal. I began drinking heavily after my abortion blaming it on job pressures but I had never had a problem before that time - I was 29 when I had the abortion. After the abortion I was basically sexually cold and this played a major role in the break up of my marriage. The day my husband left me I went down to an abortion clinic trying to talk other women from going in - I felt emotionally crazy and am sure I probably acted that way but I didn't care. It was so good just to get it out. I never married again, I have major trust issues even today. I felt so used and violated regardless of the fact that it was my decision. It would not be fair to blame the abortion for all the issues and problems in my life but abortion is not natural for a woman and it does something to us that is very difficult to explain even to ourselves. I have had professional therapy

which has helped so much. I have two wonderful sons and many joys in my life but the scar is long and deep and takes many years to heal and even then it is so tender to the touch.

10. How has your abortion affected others in your life?

Again, it played a major role in the break up of my marriage. I tried to share what I was feeling with my husband but my marriage was already in trouble and neither of us could handle it.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that life is always the best choice and a decision that she will never regret. That even though you are feeling scared and confused right now, there will come a day when you will know that by giving your child life you acted with courage and dignity. Sadly, abortion is simply the path of least resistance and a selfish decision based upon things like money, opinions of other people, fear and pride.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is your job to give us laws that protect us against harm. Abortion kills the baby and does terrible damage to the mother in many different ways yet it is so easy to obtain. I made an appointment, I gave them \$250.00 cash and I was back to work the next day but I was never never the same.

9. How has abortion affected you?

I continue to mourn the loss of my child, I feel I am carrying a deep, dark secret. I get emotional and feel personally harmed when others refuse to recognize the humanity of the child in the womb.

10. How has your abortion affected others in your life?

They wonder what is wrong with me as I continue to deny it.

11. Based upon your experience, what would you tell a woman considering abortion?

You must never allow this to happen to yourself. It will be a sentence you will carry with you until the day you die.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

First of all, I would ask them to read an embryology text book. Then, I would like to remind them of the wisdom of the Holy Bible. We have a creator. Finally, I would like them to consider society's maxims,

for instance, "No death is as difficult as the death of one's child". And, "A mother can never forsake her child."

3. What type of abortion was performed?

I don't remember

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

My mom and grandmother took me in to have the aboration. They didn't talk to me about it, they just told me I had to have one.

5. Were you adequately informed of the consequences of abortion?

Yes No

We never talked about it again. When I was at the clinic, no one ever said a word to me, I was only 16 years old.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my mom, my grandmother

9. How has abortion affected you?

For years I believed abortion was no big deal, and because of this attitude, I went on to have two more abortions. I believed the lie that the baby was just a bunch of cells and because of this, it didn't matter if you had them removed. I had no respect for human life because of the lies I was told by all the woman libs groups. Of course I believed this because if I believed anything else, I wouldn't be able to live with myself. I was a fun party girl and I didn't want anything to stand in my way of having fun. I was also a young woman who no one would have every thought I would have an abortion, because on the outside I looked good. On the inside I was a mess, and though I didn't become depressed immediately, I covered up my feeling for years. When I became pregant for the 4th time, I'm thankful that I was with a man who was willing to take responsibility and wanted to marry me. We were actually on our way to have an abortion, and he stopped the car and said I love you and want to marry you. We did get married and it wasn't until I actually carried my first child that I finally understood that there was a baby

in my womb...life and I was going to carry this child. After I had my baby, I was never the same. I have carried so much regret, self hatred, depression etc. that I still haven't come to terms with.

10. How has your abortion affected others in your life?

I'm sure it has affected others in my life, but I can't really tell you how. I know I'm very closed off emotionally because of the abortions, and since I have never really taken a recovery class, I'm sure I still suffer from depression and the over powering fear someone will find out.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her not to have one. When you are going through it, you are not thinking straight, and years after you finally understand and it is to late to do anything about it. The most important thing is to talk to someone who regrets their abortion, when you go to have one, all you talk to are people who believe in abortion, and they are not going to tell you the truth. I would also tell her that God has a great plan for her baby and though she might not see it now, she will one day. Even if the woman is not a believer, she can have hope by that truth. God has a plan for every baby, no matter where the woman is in this world. Abortion is never the answer.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I don't believe that the government can make it legal for women to kill a child. Until the court reconizes that there is life in the womb, the court does not take responsibility for killing the baby. The woman does, and how can they allow that. If it were a baby outside the womb the woman would go to jail for killing the child. I will never understand the courts rational for allowing women to kill their child.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NH

County of Sullivan

My name is J M B I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Lewiston ME

02//1989

2. How many weeks pregnant were you?

3. What type of abortion was performed?

first trimester

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I knew it would end the pregnancy. I knew, I would no longer be pregnant.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told that I may feel some discomfort for a day or two, that was about 19 years ago and I am still feeling an enormous amount of pain and suffering. My heart aches every time I think of what a horrible thing I ignorantly chose to do. Over the years I have spent thousands of dollars trying to get pregnant however that has not happened for me. I have been unable to become pregnant since the abortion and I tell myself that it is GOD's judgement on me for what I have done. It hurts to think about What I have done and I only have the hope that, now that I am saved and trust Jesus completely for my salvation that I will some day be reunited with my child that I morn everyday and that God might help the memmory of what I did to weaken and the guilt to subside even if at little.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father of the child.

9. How has abortion affected you?

I still have the reciept from the procedure and I grieve over it often. It's all I have besides my guilt nothing possitive not one good memory. The moment the procedure started I wanted to stop it. I have NOT, nor do I expect to heal from that abortion. The overwhelming loss of my innocent baby carried into my marrage (with the father). I have been barren since the abortion scartissue, stress, depression and

such. Suffering daily, that marriage ended with great remorse of the past. Thousand of dollars and many hours used to recapture motherhood. I just hate what I did. Nearly two decades later I am finally able to adopt a little girl. I will never forget about my unknown child and it haunts me and probably will for the rest of my life. I constantly wonder who my child would of been, was my baby a girl or a boy, the guilt I will carry for the rest of my life. Yes, suicide did come to my mind a time or two.

10. How has your abortion affected others in your life?

I was NOT able to forgive myself or the father of the baby, and our marriage suffered greatly and ended in a divorce (we were married about six months after the abortion). I hate what I agreed to and I only wish that someone would have talked to me about my options and had taken me AWAY from the pressure of having an abortion and showed me another.

11. Based upon your experience, what would you tell a woman considering abortion?

I think it is important for women to know that A child is a part of you. It is like another heart, and I would never willing give my heart, my life source away. If I had to do it over I would want to know ALL THE SIDE EFFECTS of this medical procedure. If is because you are afraid you wont be able to support the child, you can't stand the father, your parents will dis-own you, the doctors told you the baby will be deformed--what ever the case may be..Please Please Please consider placing the child up for adoption. If you are planning on having a family someday but this wasn't the right time--Please hear my words Don't Do It. You may never get a second chance.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

In our nation we have had laws protecting Animals from abuse long before we have had laws protecting children from abuse. It is illegal to take your own life if you are terminally ill (insurance wont pay) or even to refuse to un-medicate your dying child (doctors want the insurance money or your home). I still wonder why it is TWO COUNTS of murder/manslaughter if one were to murder/kill a women that is pregnant; however it is lawful for that same women to decide she wants to terminate the pregnancy of her own free will (whether counseled or not). I am asking the courts to stop this procedure, make abortion illegal. Abortions are not only murdering inicent lives but harms the mother in ways that she would not understand or expect. We have laws that protect THINGS, PLACES, ANIMALS, FISH, PLANTS, ETC... because of looking ahead and seeing what we think may happen to our future way of life if we don't protect those things, places, animals, fish, plants,etc. Well consider this Protect the mind set of the women that maybe at risk of constant depression for murdering their child and thinking that they will get over it because society says it is lawful to do so. It may be lawful but it is not shamless. It is a very poor way of dealing with an unwanted being.

The State of NH

County of Hillsboro

My name is Irene Lagios. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Muncie NY

//1971

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

vacume

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was living in Ma. but abortion was not legal there yet. My boyfriend drove me to NY for the abortion. I didn't know anything. I was afraid and all I knew was after it was done I would not be pregnant anymore. The next year I was pregnant again and I refused to have another abortion. I promised to go away and not bother him but he threatened to find us and kill me and the baby so I consented.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nothing was said. After I was alone in my apartment in pain feeling like dirt.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

boyfriend

9. How has abortion affected you?

Physically - I had a very difficult time giving birth and required c-section Emotionally - lived in shame and immorality and descended to a life of drugs and alcohol Spiritually - destroyed me until I was born again and received forgiveness

10. How has your abortion affected others in your life?

I shared this with my daughter when she was young and we prayed. We had a birthday party for the brother and sister she would never know. My daughter is an only child and has few relatives. No cousins, no aunts or uncles.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not do it! Do whatever you have to to find an alternative. I would do anything to help her. I know

people who would love to adopt.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

For a long time I resented my country for not protecting me. I was raped, abused and forced to abort my child. Where were those who are supposed to protect a frightened and ignorant 17 yr girl? Please protect the women of this country. Abortion is not a right nor a personal medical procedure. Abortion is a travesty against women. Abortion is screaming to the youth of this country that they are not valuable. Life does not depend on a law established by a court of men to validate it.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told how to try not to get pregnant again, I was told that this was a surgical procedure and that it could have complications like any other surgical procedure, but that it shouldn't hurt much.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told that I could hemmorage after the procedure.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I became very depressed, I couldn't even look at the boyfriend anymore without feeling something was amiss. Then months later when I found out what abortion truly was. I could think only of what I had done and felt suicidal, I felt I needed to die myself. I became very involved in the pro-life movement soon after and found some healing through God. It has been over 10 years now and not a day goes by that I don't think of the child's life I allowed to get snuffed out through my lack of knowledge.

10. How has your abortion affected others in your life?

I had a miscarriage at 10 weeks and saw the child myself and saw all of that child, At only 10 weeks we knew beyond a shadow of a doubt that he was a boy, he had all his fingers and toes and you could see his toenails. My family that was involved in my decision also saw him and have been deeply grieved knowing that was the same size as my child that was aborted

11. Based upon your experience, what would you tell a woman considering abortion?

that she has other choices, I give her info on what the harm is to her own body mind and spirit, and I let

her know that her child has a heart beat, is alive. I would let her know that there is support for her as a mother and I would help her in any way I can

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion kills a living human being!!! Abortion hurts women!!! Abortion hurts our nation as a whole!!!

9. How has abortion affected you?

I was devastated for many years Even seeing or being around a baby caused extreme grief. I suffered from depression and thoughts of suicide and abused drugs and alcohol for years also. It took me many years, after becoming a Christian, to finally forgive myself and grieve the loss of my child.

10. How has your abortion affected others in your life?

My extreme grief, that I could not talk about for many, many years, impacted all of my relationships.

11. Based upon your experience, what would you tell a woman considering abortion?

Ending a child's life is not the solution to your problems.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

A fetus is a living child... advances in science have shown that to be true. When the courts legalized abortion they did so on the grounds that it could not be determined when life began. Our society needs to protect the lives of all of its members... even those who can not speak for themselves. Each one of

us, alive today, would have been killed before birth had our mothers made that "choice." I don't wish for anyone to have had that power to take away my life.

9. How has abortion affected you?

It ruined me. I became a different person, hanging out with a crowd that got into a lot more trouble, doing things I never would have done before it. For 27 years I was unable to ever really let anyone get to know me because I could not forgive myself.

10. How has your abortion affected others in your life?

My son found out last year and he was very upset.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. You are trading a huge problem for a mountain of a problem that will never go away. It will cost you everything. Find a way to get through it. Find a church. Keep looking until you find the right people to help you have the baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is terrible for women and it takes a human life. It should not be legal and government money

should go to pay for them.

boyfriend, mother

9. How has abortion affected you?

Had a second abortion. Serial monogomy. First marriage was to an abusive man. Inconsolable grief and loss issues. Overprotective of my first baby. Grief over my choice and never having been educated about life in the womb and the sanctity and gift of life. Fear of loss manifests in all relationships.

10. How has your abortion affected others in your life?

Two other men were fathers of the aborted babies. Serial monogamy affected other partners. Fear of loss effected other partners, my own child, and my present husband, and still does. Unknown effects of the absence of two people who would have been in the world.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion is a violent crime against your own body, your emotions and your spirit. You will regret the choice to kill your own child in the womb. It is a choice you can never change, you won't be able to go back in time and change your mind to save them. There are other options, there is help for you and your baby, please, for your sake and the sake of your child, choose life!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Science has irrefutably proven that life begins at conception. Babies in the womb have a right to life just as every other living person does. Abortion is a crime not only against the unborn babies, but also against the mothers and fathers whose children are killed. The effects on mothers and fathers who have aborted their babies is devastating. Abortion is an act of violence against women, unborn children, the siblings of the unborn, the parents and grandparents of the unborn. Killing a developing child in the womb is a crime, not a right.

There was little or no discussion about the negative emotional effects of abortion. I also feel as though I wasn't counseled adequately on physical aftercare issues.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

I have felt a great sadness ever since. I wish that I had been brave enough to keep the baby, and to know that things would have worked out OK in my life. I was terrified that I wouldn't be able to go to college and that I was way too young emotionally to have a child. I wasn't prepared for how old having an abortion would make me feel - old, sad, and devalued. It seems as though it is so easy and commonplace to have an abortion, as if society is ok with it. "Sure," our culture tells us, "it is your choice! There is nothing wrong with you having a choice!". However, society isn't ok with accepting and loving the women who have had them, so we have to keep it a secret and it becomes a shameful black mark on our souls that never goes away. If it isn't ok to talk about, then how can it be ok to let it happen to so many women? Every year on the anniversary date, I think about how old my child would be, what my life would have been like, what my child would have been like. All the time I wonder what it would be like to live without a terrible secret. How I would feel about myself if I knew I took the harder but better road. I may be able to forgive myself for my cowardly choice, but the sadness will never leave me.

10. How has your abortion affected others in your life?

I eventually married the father of that baby, but he was never able to deal with what choice we had made. He would not engage in conversation about it, and therefore I wasn't able to get any healing or closure. I resented him for not being able to help me through my feelings, and this black stain on our relationship never went away. The shame of having an abortion causes us to feel as though we have a huge secret we can't share, and thus we put up walls between us and others. I have done this myself, and I have also isolated myself from people I knew back then, because I didn't want the secret to find me. I live in fear that my ex-husband will tell our daughter, and that I won't be able to tell her on my own terms, should I ever decide she needs to know. I want to tell my daughter and I know she would understand, but something always prevents me. I've kept the secret for so long, I don't know how to tell myself that if people knew, they wouldn't judge me.

11. Based upon your experience, what would you tell a woman considering abortion?

I am personally frustrated that the only people talking these days about how abortion is harmful to women are the Christian groups, and it is therefore seen by pro-choice groups as part of the Christian agenda. This is not true! Abortion does hurt women, and you don't have to be pro-life to feel that way. I would tell a woman considering abortion that no matter how easy the choice is now, it is NOT going to be easy after it is over. There will be few people to talk to, you will feel isolated and alone, you will feel sad and guilty, and you will always wonder what would have been. My experience was easier than most, but I know many people who have been truly ruined by their abortion, and whose lives have been tragically altered. Most decisions to have an abortion are made from a position of fear, and I would tell these women that making any decision from a position of fear is a bad idea. I would tell them to rationally consider all of their options, and to most of all, consider the life-long emotional implications of abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I don't know what I would say. I'm not sure we should remove all choice, but I know that any argument predicated on the "slippery slope" theory is a bad one. Both sides of the abortion debate are unwilling to budge because both are afraid that one right taken away will mean all rights will eventually be sacrificed. I think the pro-choice groups should acknowledge that abortion is harmful without feeling as though it undermines their opinion that having a choice is important. I think that our culture needs to be ok with more sex education, abstinence training but ALSO sex ed and birth control training, better access to birth control and the morning after pill, and easier and more supportive avenues by which people can give up children for adoption.

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

my baby was referred to as "products of conception" , not a living baby (albeit tiny) that would be brutally torn apart

5. Were you adequately informed of the consequences of abortion?

Yes No

i was told "a few cramps and you'll be out on the beach in no time"

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

sort of. one of my roommates

9. How has abortion affected you?

the immediate reaction was that i felt old (at 21), that no one would want me. i "blocked" the whole experience for 10 years. then when i began to deal with the enormity of it, i grieved for months and months. i felt guilty of the "unpardonable sin". i lived in fear that no one would understand or love me if they knew.

10. How has your abortion affected others in your life?

it deprived my family of a grandchild, sibling, niece or nephew. i deprived the father of his fatherhood. almost ruined my marraige because my husband couldn't understand my grieving for so long

11. Based upon your experience, what would you tell a woman considering abortion?

you WILL regret it someday. may not be today, this week or even this year, but you will regret it some day. turn to God for strength to continue with the pregnancy and for wisdom to decide to either keep your baby or place for adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

God's word as well as science say life begins at conception. a mother (and a woman becomes a mother the moment she becomes pregnant) instinctively knows and wants to protect that life. its not her body, its her baby's body. no one has the right to take that life. we need more alternatives, such as pregnancy resource centers. *i would never have even considered abortion if it hadn't been legal.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NJ

County of Mercer

My name is Rev. Vanessa McCauley. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

AUstin TX

06//1979

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

through vagina

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was young and had no one there for me in college. I went to the clinic that day and heard girls crying terribly in the back away from the waiting room. I was terrified and scared. As I was taken back for this procedure. Little did I know I was a "sheep" going to slaughter. I was crying terribly and did not want to do this. I was told to shut-up by the doctor's assistant and that I would scare other women. I left dead inside. When they took my child. They took the soul of me. The Lord later got hold of me in my 30's after I had played out my pain of that time. I went to therapy and I know I am healed and set free. It's easy for those who have never experienced abortion to be for it. They do not know the truth of it. I do if you truly loved someone. You would never want them to experience such a cruel act being done to them and their unborn child. It was a barbaric act that day. I shall never forget.

5. Were you adequately informed of the consequences of abortion?

Yes No

No explanation was given..just sign here..pay and off you were sent.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend in college and his mother

9. How has abortion affected you?

Years I grieved. I had female problems..issues. I lost an ovary and had many female problems. And of course the psych part of it. I went against everything I believed and still believe today. I know the truth about this and I have carried the scars of it.

10. How has your abortion affected others in your life?

I have spoken some to those who were to have an abortion. I have tried to stop them from such pain and loss and future problems health wise. I made a decision to "come out of the closet" about this and help save babies lives!!! I will never forget that day. Ever!!! When Bill Clinton ran for President and Hillary was pro-abortion. I wrote a long letter to the editor of the Ft. Worth Star Telegram. I told all the facts of my experience and what it did to me..they printed this huge testimony in the paper.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her she is but a sheep going to slaughter. That when they say its almost over..the procedure. Hell has just began for her life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them all the above. And for men..they will never know..understand the truth of the barbaric act. I will be glad to stand before the courts. I am the plaintiff in the largest religious liberty case in our country represented by The Alliance Defense fund..Rutherford Institute..The Becket Fund for Religious Liberty.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NJ

County of ocean

My name is Anita Bagnall. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Don't Recall NH

12/06/1991

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

vaccum suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told what type of abortion I would be getting that day. I don't recall if they told me if it would kill our baby or not. I was given an intake form at this abortion office that I do not want to remember the city it was in because my sister drove me to it - she made the appointment for me and she took me there and back. They asked basic details like name (my maiden name at time was Davies), address and phone number, etc. I think they read something off of their "fine print" which said something to the effect that I would not hold them responsible for any damage, illness, harm or similar to my body should these occur during or after the abortion. (hmmmm, I wonder why they would have to make clear this statement of legal defense?) I think they also told me what kind of procedure they were doing in that it was a vacuum suction, instructions for getting undressed, and which room it would be performed in, etc. They never told me about the risks of breast cancer, scarring, infertility, depression, suicidal thoughts or attempts, Post Abortion Syndrome, emotional scarring or eternal damnation.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was informed of my pregnancy by a nurse/nurse practitioner at the University of New Hampshire's Health Services clinic (I attended UNH at the time). She never informed me of the nature of abortion, what it is, what it does, or the consequences of abortion. She informed me I was pregnant, left the room, came back with a pamphlet and told me to take my time before leaving then she left the room and never came back. I don't even recall reading the pamphlet very closely, I was stunned and panicked about the fact that I could never tell my parents that I was pregnant. I didn't need a pamphlet - I needed a human being to talk to, about what I should do & what ALL my options were. I called my older sister who lived in NH & she suggested abortion as my best option because she had one. She encouraged me to do this because I was a college student & suggested that if I had the baby, that I would never finish college. She asked me if I could give the baby up for adoption and I said I didn't think so. She said that abortion was really my only choice and that she would make the appointment for me. I somehow got a hold of the Dad of this baby, Dan, and he apologized to me over and over again. He asked me what I was going to do about it and when I told him I decided to have an abortion he let out a big breath and said to me that he was so glad that I decided this because he had all these years of college ahead of him and that he thought abortion was the best thing to do.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

devil,self,sister,baby's Dad,Roe V Wade,US culture

9. How has abortion affected you?

Where do I begin; and how much time do you have? With the exception of 1 or 2 symptoms listed, I have experienced (and have to fight against continuing to experience with the Lord God's help every day) all of the symptoms of Post Abortion Syndrome. This definition can be found as described by Ramah International by logging onto the Ramah Website at: <http://www.ramahinternational.org/post-abortion-syndrome.html> An abbreviated list: -Guilt -Anxiety -Depression and thoughts of suicide -Other self-punishing or self-degrading behaviors -Preoccupation with, in my case, getting married as soon as possible to any man who might have me -Psychological "numbing" -Survival guilt -Anniversary syndrome -Re-experiencing the abortion -Anxiety over fertility and childbearing issues -Increased use of alcohol

10. How has your abortion affected others in your life?

-It hurt God -It hurt the baby the most by taking from him/her the most precious gift that God could give have given him/her: Life. -It hurt and probably still haunts Dan, the baby's Dad -I cut myself off from other people believing that all people were out to hurt me or use me -I was angry, resentful and bitter with people, including myself -I was paranoid and this paranoia affected all of my relationships -My Mom and Dad had to watch me, unbeknownst to them why, suffer from depression, suicidal talk, deterioration of self, no motivation for life...They suffered too -I made other people feel guilty whenever I could so that I wouldn't have to -I had a preoccupation with getting married as soon as possible to any man who might have me. This resulted in further loss of self respect, damaged relationships, emotional, spiritual and physical scarring as well as a host of sexually transmitted diseases. I destroyed potentially great relationships with some nice men in order to hurt myself further, even though marriage was what I wanted. They too were the innocent victims of the abortion, they too got hurt and didn't even know why. -Even though now that I am married and a forgiven Christian, I hurt my husband at the beginning of our courtship with emotional struggles over the conception date and anniversary of the abortion. When I finally told him about my past abortion, he was hurt at the thought.

11. Based upon your experience, what would you tell a woman considering abortion?

No matter how your circumstances appear to you presently...no matter if it seems as if there is no way that you can tell your family members, etc., ...no matter what your reasoning is or thinking for having an abortion, there are glorious ways in which you can have your baby and still have the time, energy, money, ways & means to live your life. You CAN still have a fulfilling life even if you bring this new life into the world through the birth of this child. What exactly have you taken into consideration at this point; or what are you factoring into the reasons that you believe your only option is to have an abortion? Have you considered contacting a Crisis Pregnancy Center local to this area? I would be more than happy to make the call for you or go with you to meet with someone at the Center in person. There are all kinds of financial and support programs out there that will totally support you when have the baby and raise the baby, should you choose to raise the baby on your own. The rewards and benefits of having your child FAR outweigh the cons. Do not be afraid – there is nothing to fear. Please know that I don't judge you, Jesus doesn't judge you and that God adores you and adores the life of this child. I love you, too, and this precious life soon to come into this world! Do you know that God's Word, the Bible, tells us that "we are fearfully and wonderfully made"? He wants the both of you to have an opportunity to live and have a great life - you both deserve it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Which came first...the United States Government's stamp of approval for people to have as much (seemingly) pregnancy-proof sex via approval of the pill on May 11, 1960? Or the United States Government's stamp of approval to then flush down the toilet new life, souls, spirits and bodies of human beings who are conceived when the pill doesn't work and then thus these precious lives can be legally aborted via approval of abortion in 1973? Additional questions for you...To quote Lou Engle of TheCall ministry on 4/5/08 "How is it that we can charge \$350 for the abortion but \$17,000 for an adoption?" How is that? Is that fair? Woe unto you a nation that sells its own for a penny but purchases swine and varmint for gold. Woe unto you, nation, who answer no to its own people but yes in the dark, secret, dangy rooms or backwater lodgings to liars and thieves. Woe unto your kings, princes and

princesses who give lipservice to God and charge double to those who want to help, to those who want to rescue, to those who want to aid the poor, the fatherless, the orphan, the widow, the sick, the lonely, the hungry and the needy. Woe unto you who give appearance to God once a week yet never lift a hand to help the other six. God would rather you never show your face again in the congregations if it means you offer the homeless person the ride to the grocery store, correspond with the widow, and provide the home to the orphan, the fatherless and the infant.

The State of NJ

County of bergen

My name is Gloria . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

NYC NY

08//1970

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was a simple procedure, that my baby was just tissue and would feel nothing. I was not told my only child was being ripped apart.

5. Were you adequately informed of the consequences of abortion?

Yes No

The only consequence presented was a positive one....that since I didn't feel I could care for this baby it was best for me to end the pregnancy.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I had the abortion when I was young, umarried and we had thought it was the best thing to do. But, it has turned out that what I did was to kill the only child I was ever going to have. I think that should explain how I feel. I long for that child that I will never see or touch, or laugh with....nothing.

10. How has your abortion affected others in your life?

I am so ashamed and regretful by what I did, it is something that I have told only a very few people.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to have it done, it may seem right at the time but the truth about it will not stay hidden

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Killing a life should NEVER be an option in this country of ours.

3. What type of abortion was performed?

vacuum aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one ever told me that it was a baby. I thought it was just a blood clot.

5. Were you adequately informed of the consequences of abortion?

Yes No

No way. I remember reading a pamphlet in the waiting room saying there was only a 2% chance i would experience any mental affects.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my boyfriend

9. How has abortion affected you?

extreme regret, guilt, depression, suicidal thoughts, years of tears

10. How has your abortion affected others in your life?

i left high school so no education, my family deals with my depression.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. Its a tiny little baby in there. You can chose life. There is support out there. Abortion will destroy you and your baby forever. I would tell them how i feel since having it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That a woman may think she is doing the right thing but its highly likely that she will regret it and suffer emotionally. Especially teens. They get so scared that they can't make a sound decision. I would tell

them my story.

QUESTIONS

1. Where and when did your abortion occur?

Philadelphia PA

04/18/1976

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

D&C, or C&C I forget what is called, was scraped out under anesthesia

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I didn't think of it as a child then because I was afraid of how I would be able to care for it, as I was 19 at the time.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me of the guilt, the depression, the feeling of loss. I felt so sad, and even dreamed about the baby. Eventually, I named the baby and hoped to see it in heaven and prayed for it and God to forgive me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

The guilt never stops. I am ashamed and think about what the child would be today and how it would look and be like. Although it would have been difficult for me to keep the child, I still think that I 'killed' it.

10. How has your abortion affected others in your life?

My marriage did not last partly due to the abotion. The father had no responsibility toward me or the unborn child, he blamed me nevertheless. It gave me a new respect for life and

11. Based upon your experience, what would you tell a woman considering abortion?

I would recommend to her to not do it. No matter how hard it would be, somehow she and her child would survive and get through it together. There is nothing like the bond of a mother and child. It is wrong morally, unhealthy mentally and emotionally, and it is murder of the worst kind. Of your own flesh and blood.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That abortion should only be allowed in the case of rape and incest when force was used. The unborn should have the same rights as you and I....to be born after being conceived. Who are we to end a life??

HOW MY ABORTION AFFECTED ME

The State of NJ

County of Atlantic

My name is Laurie I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Atlantic City NJ

04/30/1977

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not informed in any detail about the procedure or any possible side effects, emotional or physical. But even if I was I was only just 15 years old.

5. Were you adequately informed of the consequences of abortion?

Yes No

No, I do not remember being counseled on the consequences. I was left to think that their were none. I felt like it was not different than going to have a tooth pulled. However, if I had my tooth pulled, the doctor would have to, by law, inform my parents. Unlike the abortion, I entered the clinic alone and they let me leave alone, never even checking if I had ride home.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It took many years to truly feels the emotional affects of killing my children. The clinic took me back 2 more times without blinking an eye or counseling me to see why I was not practicing safe sex. The abortion clinic made it so easy for me, a 15 year old girl, to walk in ALONE and get rid of the immediate problem that I was facing. I left feeling relieved because I did not have to worry about dealing with telling family, friends or anyone at school. I ache in my heart to the point of nausea thinking how easy it is for girls to kill their babies. People say, "oh, get over it, it was a long time ago. Forgive yourself. It is no big deal, everyone does it." Oh how wrong they are. It is a womans deep, dark secret

that we keep buried deep down, eating away at us. I have been in counseling and it has helped so much to talk about it, but most woman never get help because they want to believe the lie that "it is no big deal" so they bury the pain and it then manifests itself in other areas of life. If the wound is not dealt with it festers and becomes an infection in our hearts.

10. How has your abortion affected others in your life?

I am not sure about others, except that I now try to counsel young girls to abstain from any sexual activity before marriage.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT! YOU WILL LIVE TO REGRET IT.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Please listen to the cry of my soul. We all know that abortion kills babies. But do we all know how much it injures the soul of the girl/woman that made the choice to have it. It shouldn't be a legal choice to kill your baby. In a court of law the family members of victims get a chance to speak about the hurt they feel, the aborted babies have no voice; we choose to silence them. Do you want your grandchild killed; silenced in the womb? Maybe your own child has been aborted, your brother or sister. I guarantee we will all see dozens of family members in heaven that never had a chance to speak for themselves because they were silenced in the womb. Do you want your family silenced. I don't think so. We all think that this only happens in "other" families. Well it happens in all our families. How will you answer God for your vote? God help us all. A vote in 1973 gave me "the right" to have 3 abortions as a teenager without my parents permission. They would have wanted to know. They would have loved those grandchildren. It was so easy at the time to just "get rid of the problem". I never knew how my heart would ache for life. I deserve jail like any other murderer.

QUESTIONS

1. Where and when did your abortion occur?

Lakewood NJ

09/13/1995

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

they put me to sleep and i woke up not pregnant

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

i had no idea when i had an abortion that my child had a heartbeat. it was not until the following semester in college while studying child development that i found that out. it was as if someone had just kicked me in the stomach. they referred to the fetus as "conception matter" in all the paperwork at the abortion clinic. i guess it is their way to keep you psychologically separated from what is really going on. i was on academic probation that following semester. while i cannot blame anyone but myself for my decision, the aftermath was just all consuming. i couldn't believe what i had done and there is no going back. and there was no one to blame but myself. the following year i progressively grew emotionally stable and i just hated myself. i ended up battling panic attacks for two years. even now, almost thirteen years later, it just stays with you. i have a dual bachelor's degree and a master's degree and i look at all of my accomplishments as something i traded for the life of my child. it makes it very hard to truly enjoy everything i have accomplished because it is just forever bittersweet. my child would have been 13 years old this april. i have embraced God's forgiveness, but it is an active process to continue to forgive myself.

10. How has your abortion affected others in your life?

my husband and i are just now starting a family. i'm 33 and he is 35. we've been married for almost 10 years. (he was not the father of the child i aborted) for the longest time i just never even let myself think of having kids or me being a mother. i felt like i did not deserve to be a mother. afterall, look at what i did the last time i had the chance to carry life. even now, at 9 months pregnant, i feel like a secret hypocrit. i have struggled with a lot of personal emotions during this pregnancy because of what i did.

11. Based upon your experience, what would you tell a woman considering abortion?

simply put, "don't". the emotional haze that surrounds you during pregnancy makes it SO hard to think clearly even under the best of circumstances. when that is compounded by the emotional weight of an unexpected pregnancy it is profoundly overwhelming. the regret is lifelong and irreversible.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

we have a life full of choices. i think those choices are precious and should be protected. we can choose whether or not to be sexually active. we can choose whether or not to use protection. i do not think we are allowed to choose to end a life that has a heartbeat. i believe that is where our choices run out because they are no longer "our" choice. just because someone has a heartbeat but not a voice does not make it ok to end their life. if that were the case, then a living will would be an irrelevant document because once the patient was no longer able to voice their preference we could just pull the plug.

3. What type of abortion was performed?

It is too painful for me to remember...wripped apart and taken out in pieces I think.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told to take these pills and I would not remember anything and it would be all over.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nothing was said about any consequences. Not a year goes by I don't think about how old this person would have been, and not a day goes by that my heart doesn't ache over what I had done.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mom and the fear of loosing my job.

9. How has abortion affected you?

It hurts me to even think about that horrible time in my life. If I could take one thing back, it would be that horrific time I killed another human being. I am starting to cry, just thinking about what I had done many years ago.

10. How has your abortion affected others in your life?

The abortion haunts me frequently...I tried to commit suicide after it was all over...I suffer from depression to this day and if I could only turn back the hands of time in 1973, I would do so in a heartbeat. Oh how I cry, as I am typing this to you. I turned to alcohol and became a drunk, turned

shrinks who could not make the mental pain go away, and the beat goes on.

11. Based upon your experience, what would you tell a woman considering abortion?

Adoption...not abortion. It is something awful that you will live with forever. I also understand, there are over 500,000 married couples waiting for a white baby and only 50,000 available in the United States.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would ask them, "What if your mother had aborted you?". And, "How can you make a moral wrong (murder) a legal right?"

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NJ

County of Warren

My name is Cindy Giaquinto. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

New Paltz NY

02/18/1983

2. How many weeks pregnant were you?

24

3. What type of abortion was performed?

Suction without anesthesia

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

This was my first abortion of five. I was 23 years old. I entered a clinic on a day when there was a blizzard, and the two nurses took me in the room without giving me any help or advice. The doctor was an old man who stuck some suction device inside me and in the total agony I felt a powerful suction taking place inside me. Both the nurses stood on either side of me holding my hands. The procedure took about 20 minutes I think. I was in so much pain. Afterward, I was taken to a recovery room where I was told to get dressed quickly after five minutes of rest, because they had to close because of the storm. I had to travel 45 miles in a blizzard back home with my two sisters trying to comfort me.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one gave me any information about abortion. There was never any people picketing or trying to stop women from entering a clinic. I wish there had been in any of my abortions. I never had a single person try to stop me from my abortions.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

family/myself. I had no job

9. How has abortion affected you?

I always feel that I am a serial killer. I feel as though my life is not worth living anymore and often times thought of suicide. However, I converted to the Catholic faith and from the Sacrament of Penance and

forgiveness from God, am able to get up in the morning and try to continue living my life just one day at a time. I am now 50 years old. My abortions were between the years of 1983 and 1990, from the age of 23 on to 30. I've had five abortions. Never did anyone try to educate me about a real person inside me. From the t.v. I believed it was a blob of blood and nothing more.

10. How has your abortion affected others in your life?

All my friends have advised me to go for help because often times, I have had breakdowns in front of them. I had pland to go to Rachel's Vineyard, but never had the money to do so. My friends believe all the abortions I have had had made me strange and odd, and have turned me into a true hater of myself as well as an introvert and hermit, never enjoying life anymore, and staying away from people and gatherings. I do not believe I am worthy of friendship and now always keep to myself. I also never want a man in my life again. Not one of my boyfriends at the time ever contributed the financial means to help with the expense of my abortions, yet they all did not want to be "stuck" with a baby from me.

11. Based upon your experience, what would you tell a woman considering abortion?

"Don't do it honey. Keep you child and grow with her/him and become the best of friends. Don't let anyone ever tell you that by having a baby makes you less of a person/woman, or that you're a loser. Keep the baby and live life to the fullest!"

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That they are advocates for the devil who hates human life and that abortion is innocent beautiful children who have their whole lives ahead of them - possibly becoming great scientist, musician, doctors; and that all women who have had abortions deserve to be sentenced to serve prison time, just as any murderer is sentenced to years in prison! I would also tell the courts that because of their inhumane rulings, they have ruined this great country, bringing gross promiscuity and immoral conduct to our young people. They are the cause of the state this country is in, and they themselves, being the authority of allowing infanticide, should have class action law suits brought against them both personally and professionally, and that they should be brought on trial for the murders of millions of innocent children and ultimately serve prison sentences without parole.

I cannot talk about it very much or even remember . It is too painful It is a tremendous loss

10. How has your abortion affected others in your life?

We could have had another beautiful baby to love

11. Based upon your experience, what would you tell a woman considering abortion?

find another way never let anyone shame you or convince you it is the only way to survive

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

They will find out someday the horror of what they are supporting . I guarantee they are on the wrong side of history. Abortion is a heinous crime. It is sad that we have sunk so low that even so called

educated politicians and lawmakers have no values , morality and I am certain greed is a part of this equation too. God will punish our country for this abomination.

HOW MY ABORTION AFFECTED ME

The State of NJ

County of Sussex

My name is Michelle I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Englewood NJ

//1982

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It was only explained as a remedy to my "problem". Nobody explained that the life inside of me had a heart that was beating. Everything was so medical and "sterile". Like having a wart removed.

5. Were you adequately informed of the consequences of abortion?

Yes No

Again, only medically that it would be a quick procedure that I would awaken from the anesthesia and be able to be driven home.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

the father

9. How has abortion affected you?

I was immediately detached emotionally. I cried alot when I was alone. I didn't completely understand all that was happening in my mind. I felt dark, lonely and ashamed. I was also hurt and angry at the lack of understanding from my family. Alcohol use and drug use increased immensely. I also had physical pain after the abortion also.

10. How has your abortion affected others in your life?

I can't say.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that I understand her fears but abortion isn't the answer. After having had one, I would NEVER have another, no matter the circumstances. Abortion doesn't end a crisis it ends a life. Abortion is actually the BEGINNING of turmoil and crisis in a woman's life. There ARE other options

that can be wonderful for the mother and the baby. I would offer to help her seek help and explore any option other than abortion. I would also recommend her to a crisis pregnancy center NOT PLANNED PARENTHOOD!!!!!!!!!!!!!!!!!!!!!! Ultrasound, especially 3-D, is proof enough to a pregnant woman that there is a living, developing baby inside her and not just some blob of tissue.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

There is no court on this earth that should have the power to approve and uphold the murdering of a child in his mother's womb. Abortion is murder, there is no other way around it. When the courts approve it, the woman doesn't consider it murder at all UNTIL abortion. After abortion, the woman awakens to the reality of a life having been ended that she was responsible for. Then she has to deal with having given a Dr. permission to kill her precious baby. Abortion is death for a baby and a life-sentence for the mother. Abortion should not be legal; it is death for child and mother - period.

The State of NJ

County of Cumberland

My name is ann I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

cherry hill NJ

06//1975

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 25, these were days of birth control pills, legal abortion, already had 2 children, and was working while husband was going to college. Had no knowledge of early formation of baby. there were no sonograms then.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never told of any consequences. I only knew of easy quick procedure. At that time in my life, I was quite liberal in my thinking. Womens liberation, 60's generation, birth control pill, sexual freedom.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I think it contributed to my negative image that I had of myself since childhood. Only reinforced my feeling that I and my life was one of only failure. Self-hatred, self-destructive behavior, total despair and hopelessness. Even in those early years of being a Christian, I felt that I could never really fit in; or ever be like the other Christians in the church, because I had done such terrible things, been divorced, abortion, drugs, abusive situations in the marriage.

10. How has your abortion affected others in your life?

no one knew except ex husband & his parents. At the time they all agree that it would be for the best. After the divorce, there was never any discussion of it.

11. Based upon your experience, what would you tell a woman considering abortion?

Knowing what I know now, it is a tragic mistake. You are killing a human being that is made in the

image of God. It is blood on your hands, it is murder. He knows you since the time of conception.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The legalization of immorality & turning against the God of the Bible and his laws of right & wrong has brought this once great land to the brink of destruction & judgment. Our only hope would be for a complete return to the Ten Commandments & repentance as a nation.

QUESTIONS

1. Where and when did your abortion occur?

Ridgewood NJ

//1977

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

I am not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was given no information at all.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was given no information at all.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

I was told I had to have an abortion.

9. How has abortion affected you?

It has affected me throughout my whole lifetime. I was only 15 years old at the time and I was never educated or informed about my pregnancy. I was never educated or informed about abortion either. I was told I had to have an abortion. I was never given a choice. Consequently, I have never married or had children because I suffered for years with major depression and a whole host of other mental and physical problems. I deeply regret this decision because I have such a love for family and children. However, I feel if I had been better educated I am sure there would have been a different outcome. I have suffered mentally and physically for over 30 years as a result of abortion. In fact, I will never be able to have a child or family, of my own, now that I am past child-bearing years. I can't express strongly enough the devastation that abortion causes.

10. How has your abortion affected others in your life?

My abortion affected others in my life in that they suffered watching me suffer. It's almost too much to try and put into words.

11. Based upon your experience, what would you tell a woman considering abortion?

I would never recommend abortion under any circumstance. Adoption is always a viable solution if someone is unable to raise the child themselves.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that no one sitting in, or on, the court would be there if they had been aborted. Abortion advocates death. One of the basic premises of our country, is Life, Liberty and the pursuit of happiness. How can that happen if you don't even get a chance to be born?

QUESTIONS

1. Where and when did your abortion occur?

Princeton NJ

09/20/1998

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Honestly I don't know. I was put under though.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I guess so. However, they did not perform the kind of ultra sound where the image appears on the screen.

5. Were you adequately informed of the consequences of abortion?

Yes No

They did not inform me of the emotional damage it would do.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend at the time.

9. How has abortion affected you?

It was devastating emotionally. Immediately after, I purposely detached myself from friends and coworkers. I did not want anyone to find out what I did. Something within me also changed; I became very angry. It felt as if I was in a nightmare I could not wake up from. Prior to the abortion, I was always able to right a wrong. But abortion was permanent.

10. How has your abortion affected others in your life?

My relationship with the man who was the father ended. I stayed with him for years after the abortion, even accepting his marriage proposal. But at some point I realized that I could not trust him with my well-being, since he was the one who lead me to have an abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that despite what the media portrays, there are very serious consequences for having an abortion. There is regret, later on, at the thought that you once carried an innocent human life. There is

also an emotional toll and psychological toll, and it creates a barrier between you and God [until you go to Him for forgiveness].

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that abortion should not be legal because it is murder. You are destroying something that is alive. And that anything that takes away life is murder; therefore, so is abortion. I would tell them that by making it legal they are creating the opportunity for women to make a terrible decision, based on fear, shame, and coercion.

9. How has abortion affected you?

It is the worst hurt of all. Out of all the mistakes you make in your life, this is the one mistake you can never forgive yourself for. Eventhough I have asked God for forgiveness over and over, I can't seem to get out how horrible of a person I am for taking my own childrens' lives. How could I have been so cruel and heartless. But, I believe by doing something about it, it can help the healing.

10. How has your abortion affected others in your life?

This is for Answer #12 and it continues: I would tell them that when did our Country forget about the helpless and the meak that have no voice. The unborn can't talk to them but many women are crying out to tell them that they do have a voice and it is instilled in everyone of our hearts each and every day. We know the pain of the loss of this child and it is Murder and as such should be treated the highest type of murder.

11. Based upon your experience, what would you tell a woman considering abortion?

First of all I would ask her to wait until I could get her more information and talk to her somemore. Most

women, are scarred and are afraid of what everyone will think of them and the fact they can't afford the baby, or it isn't the right time and so on and so forth. All those fears can be aborted with knowing that the greatest unconditional love they will ever know in their lifetime will be the love of their child and their child will always love them more than anything. Also, they need to know the pain they will live with for the rest of their lives. Everytime they look at another child or finally have children it will always be like something cutting at their hearts.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

And, if the mothers have been taught through our own Government that life does not matter, then when do they really weigh the effects of aborting their own child. Unfortunately, the concious of most women kicks in after the abortion and continues on for the rest of their life. How do the courts propose to handle the million and billions of women that have such horrible stress and depression due to the effect of an abortion. When will the Government of our Nation America the Greatest Nation that ever was take a stand for Life of their own children. What kind of a subhuman have we become that we will not defend our children? What will be next if this is allowed to stand. Our nation is crumbling all around us due to the demoralization of this Country. We forgot what our nation was built on and that was the laws of our God. Just in case you not sure, the God of Abraham, Issac and Jacob. We still have time to save children and we should not go another day knowing that approximately 4,400 babies a day are being killed in our nation. Their blood is on our hands, Can you live with that? I Can not and will not.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NJ

County of Mercer

My name is Gail Scandell. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Beaver PA

06/21/1977

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

vacum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They did not tell me that it would be sucked out of me and that I would see this going on. The doctor documented it verbally in front of me so I knew it was a boy.

5. Were you adequately informed of the consequences of abortion?

Yes No

They treated it like it was just another procedure that I would be fine in a couple of days. It seemed to be done like this was just a regular happening that went on in the hospital.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Yes, soon after I had it I started to have nightmares about the doctor and the little boy that I aborted. I would see the boy older in my dream and he would ask why I murdered him. He would tell me that he wanted to live and become a mill worker like his daddy. The doctor would be in the background laughing at me and the boy telling me it wasn't real. And then I would wake up and not be able to go back to sleep. I started getting into drugs pretty heavy after that.

10. How has your abortion affected others in your life?

When my in-laws found out because of a bill that went to their house she started to call me horrible names. I was very self conscious about what I had done.

11. Based upon your experience, what would you tell a woman considering abortion?

ABSOLUTELY NOT!!!! With God all things are possible and He can help you get through anything even an unwanted pregnancy.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Maybe we should take them to a lab and let them see a new egg that has been fertilized and then see what they say. I would say then if they still say it is ok we will take all their rights away and put them in a small area with no light no toilet, nothing of even bare essentials and let them think about the life they say is alright to discard.

No one told me about the nightmares, loss, grief even all these years later. I haven't been able to carry any pregnancy to term since and remain childless...many miscarriages since the abortion. No one explained the breast cancer risk..I have had biopsies over the years....so far OK.

9. How has abortion affected you?

I live with a deep sense of loss. I have had counselling for depression and anxiety as a result of the abortion...it lasted years. Jesus has healed much of heart, but the sadness at what I have done...I murdered my child. My child is now safe with Jesus and I look forward to the day I will see him.

10. How has your abortion affected others in your life?

My mom lost her grandchild...

11. Based upon your experience, what would you tell a woman considering abortion?

Don't! I would provide help to allow the pregnancy and inform her of consequences. She needs to be fully informed.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The harm done to a woman by abortion (who is in crisis to begin with) is wrong. It is morally wrong that a child is murdered and the consequences the woman faces physically, emotionally and spiritually are so hurtful. Physically, I bled severely at the clinic. Emergency personnel were not called. Another client in the room, after I regained consciousness, said she thought I was going to die and was glad I woke up....this is wrong. Too many instances of people covering up botched abortions.

The State of NJ

County of Warren

My name is Jennifer I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Rutland VT

01//1991

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

vacuum aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I am now discovering that abortion can cause breast cancer. I never knew the guilt and emotional consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Tremendous guilt for years - debilitating guilt that hurt my later marriage. Once I had children as an adult and witnessed the miracle of life, I was overwhelmed by the enormity of what I had done, destroying a precious life within my own body.

10. How has your abortion affected others in your life?

It has hurt my relationship with my husband, parents, and friends from the time I had it.

11. Based upon your experience, what would you tell a woman considering abortion?

A life is a precious gift, no matter how you got pregnant, what your financial or social circumstances are, that life growing inside you is a precious gift, and not a punishment or hindrance to a full life. It is your child, and you will love that child with your whole heart if you allow it to be born. If you choose to abort, there will come a day when you will mourn for that child with your whole heart. You will be left wondering what he or she would look like, what personality he or she would have, when the baby would learn to walk, talk, ride a bike, learn to read, and agonize over the decision to end that tiny life, never allowing that person to enjoy all that life has to offer.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

A life is a life. Whether it is inside a woman's body or outside, whether it is 5 weeks of gestation or 35 weeks, it is a human life, and allowing, even encouraging a woman to destroy that life is simply evil. You think that you are doing women a favor, allowing them "control", but those women will suffer emotional and physical consequences years later, and those who are honest with themselves and not in denial will regret their decision, as I do. At 19, I murdered my own child, and the state allowed me to do so - unbelievable! You do women no favors by supporting abortion 'rights'.

11. Based upon your experience, what would you tell a woman considering abortion?

I have been in the business of counseling for over 25 years, and in that time I have met many many women who have had abortions, and none, noone, ever is not haunted by the experience. Noone ever ends up thinking, even 25 years later--"oh--- it was just a blob of cells". No, everyone knows it was their child they killed. Everyone. The same can be said for people I meet in my own personal life, and the many stories I hear from other people's lives. NOONE is not affected adversely.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Easy--- it is murder. First degree. What more is there to say?--- oh yes, Murder is illegal, right? One can repress that information just so long. No question it is ultimately tremendously harmful information

to have to carry around. The unbearable burden.

HOW MY ABORTION AFFECTED ME

The State of NJ

County of Monmouth

My name is Sandra Buchanan. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Asbury Park (not sure) NJ

//1974

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

All I knew was the baby was going to be aborted and I didn't have to worry about a thing. I asked my doctor as to where I can get one, he gave me a number, I called and set the date and that was it. I don't even remember his name or location.

5. Were you adequately informed of the consequences of abortion?

Yes No

No, I received no counseling. Just had it done, paid for it and left.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I knew I killed my baby. I didn't want to do it but it was hard to tell my young children and I was divorced from their father - baby was with someone else. I was scared. I remembered lying on a table. I saw a big object, like a pot. I heard them use something to suction the baby out and then I heard it go into that object on the floor. Everyone left the room and while I was alone, I turned my head in 'shame' and cried. The doctor never spoke to me. That was it! I put it behind me (actually shut it down). Later on in years, when abortion got "socially acceptable", I even boasted on how I had one (a real women's libber) and it isn't a big deal! Women should have the right to have an abortion because it was their body! **My story doesn't end there.... will now just say that it wasn't until I lost my 34 year old son six years ago, that I was able to also mourn the loss of my "two month old" fetus, who I believe was a 'girl' and I named her Ruth. I confessed my sin and repented; My Dear Lord and Savior, Jesus Christ, has forgiven me and I now have forgiven myself. But, when I think about it or talk about it, a bit of me feels sad and bad.

10. How has your abortion affected others in your life?

No one knew.

11. Based upon your experience, what would you tell a woman considering abortion?

I would sit down with any woman that is considering abortion and tell them the truth -- God loves them and He loves the child inside of them. Abortion will take their baby's life away in a horrific way and it is called "murder" because the baby fetus is "alive" and if an older fetus, they (the fetus) will feel it! I would talk to them about other avenues to take and for them to do the "right thing". I'd share with them "my story" and direct them to a place where they can go to be totally informed and taken care of.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That we shouldn't have a "choice", the child should have the right to live and be able to grow up so he/she will also have choices and be glad he/she's alive. We should be a Godly country, the way it was in the beginning. We should honor and celebrate life, not destroy it, and that way bring honor and glory to God. Millions of women end up being emotionally, mentally and physically effected by this procedure. There are many other ways to handle their pregnancy along with allot of love.

QUESTIONS

1. Where and when did your abortion occur?

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I went into a room and spoke with a "counselor" who basically asked me if I was doing this on my own will or forced. And what to expect after with in a couple of weeks.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me anything long term, only short term with in two weeks after.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I've had been effected physicologically and emotionally. When I finally came to terms with what I had done, I went through a week in a psychiatric ward and a year long battle with depression.

10. How has your abortion affected others in your life?

No one else was effected because they don't know.

11. Based upon your experience, what would you tell a woman considering abortion?

It may seem like the best decision at that time because it's a temporary relief, but there are long term effects. You will struggle emotionally if not physically for the rest of your life. When you are ready to have children, you are reminded, when you see a baby, you are reminded, when you see the children you do have grow, you are reminded. The pain you feel can be healed by the power of Christ, but never gotten.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Abortion is crippling to a woman. It is something that she has to carry with her for the rest of her life. Some have physical effects from an abortion that they have to live with, others with the emotional aspect. You never feel whole again. Ask any woman who has had an abortion, and she will tell you the emptiness she feels years after. What should be done instead is teaching young teens and young women about sex. About the effects of having unprotected sex and have woman, who have gone through abortions or had children when they were teens, speak to these girls in high school or junior high. Teens today are so uneducated about the TRUTH, because so many adults are afraid to "offend" someone. There are 11 and 12 year old girls having ALOT of sex today, and we are afraid of "offending" someone, rather than teach them what happens when they have unprotected sex, or even sex for that matter at that age or at an age of irresponsibility. If parents will not take a stand for their daughters, than someone has to. Even if its a government run program for all schools.

My name is Ella Blair Newcomb Redshirt. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Francisco CA

01//1974

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I received no counseling whatsoever. I was given no information on choices other than abortion. I was given no support to consider my decision or an offer to dialog with how to inform my parents or the babys father.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told of the risk of depression in later years and the immense grief that would follow. I was not told that I may never be able to conceive again, not related to the abortion. This was true for me, I was subsequently infertile and never concieved again. Proceeding with the pregnancy at that time might have delayed my other physical condition that was integral to my infertility in the years to come.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My friend who had one 6 months earlier.

9. How has abortion affected you?

As I said, this was my only conception. I have been childless despite lengthy attempts to conceive, although we could not afford invitro. The grief for that unborn child has been tremendous. I would have been a good mother. It is the biggest regret of my life. I was 19 and scared. I was afraid that my parents would not love me anymore. The abortion clinic was not skilled in addressing an unplanned pregnancy, and their manner was "You want an abortion, we will get the funding, Be at this place for it." 25 years later I did go through grief counseling specific to abortion loss by a crisis pregnancy group "Choices of the Heart" here in Southern New Jersey, it was healing. I plan to volunteer there, to help other young women who are frightened, as I was.

10. How has your abortion affected others in your life?

It has caused grief for the babys father. My parents suspect I had an abortion. They have not asked me but have mentioned it to my sisters. What they do not know is they lost their 3 first granchildren to abortion (that I know of).

11. Based upon your experience, what would you tell a woman considering abortion?

To consider all the alternatives and to be absolutely sure beyond a doubt in their decision. It is one that they will live with forever. And, it costs an irreplaceable human life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That there needs to be skilled counselors, that all options are explored and that these are fully accomplished before the apptointment is made to have the abortion. I was rushed. No one cared. being in medicine, there is a financial benefit to the abortion industry. I was a casualty of that process and so was my unborn child.

fiance

9. How has abortion affected you?

I wound up in a psychiatric hospital from the guilt

10. How has your abortion affected others in your life?

I never had a child I am past the childbearing age now .. My family knows the immense pain I went through from the consequences they rarely speak about it but I am sure my mom would have loved to see her grandchild

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that she has no idea what the after affects are even if I tell her . that it goes beyond words and once you make that choice you can never go back. I would tell her the list of effects with the realization that she may not experience all and not right away but that she will always be a mother to this baby will it be one she can name and hold or love or one that will only bring her pain sorrow and

regret.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say this: one of the reasons and the main reason why I do not have my baby was that it was very convenient for my fiance to bring me to an abortion clinic and even have a doctor refer him like it was just a normal part of life. Having abortion legal brings a lack of shame to this nation and legal to most people (young especially) means we are as a nation saying its quite okay to do so. I was angry so angry at the government after my abortion.. legal does not mean its right and its a right that is wrong.

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Nightmares and not be able to trust people. Low self esteem,problems with showing affection to others.Many sexual partners. Anger towards those who didnt help me.

10. How has your abortion affected others in your life?

My whole family has suffered problems with anger.Being silent about abortion only suppress the deep sadness and pain a person feels after having an abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

Please dont do it. Having an abortion will only bring you pain and suffering for the rest of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That the killing of an innocent human being is evil. And everyone deserves a right to LIFE the born and unborn.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NJ

County of Middlesex

My name is Kerri I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Princeton NJ

09/10/1998

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

I honestly don't know. I was put under and they did it.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I can't remember being informed about what exactly would occur. There was no talk about how big or far along the baby was at that time. It was a quick in and a quick out.

5. Were you adequately informed of the consequences of abortion?

Yes No

Definitely not. And this is especially true in terms of the emotional consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend pressured me into having an abortion.

9. How has abortion affected you?

It turned my world upside down. First of all, I was pressured into it. I was told by my "loving" boyfriend there was no other choice. Mind you, he was a 28-year-old man with a full-time job and condo of his own. By having an abortion, for the first time in my life I did something I couldn't reverse, I couldn't change, I couldn't make better. And it killed me for years. My personality changed, I felt like I had to be perfect to make up for it, I lost my self-confidence, my self-esteem suffered and still does to this day. Learning to trust myself again has been a long journey, and having an abortion was the biggest mistake of my life.

10. How has your abortion affected others in your life?

I've only told one person about it: my best friend. She is a great source of comfort and encourages me to write about the experience so that I can shed more light on the other side of abortion television and movies don't show. They make it seem like it's so easy and something that doesn't affect you for the

rest of your life. They don't tell you the truth.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell a woman considering abortion to heed my warning and not choose the same path that I was lead down. It is not worth it. As with everything, there are consequences for your actions. And with abortion there is a big price to pay besides the life of your child for taking the "easy" way out.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Everything today comes with a warning, and if the U.S. Supreme Court refuses to make abortion illegal so that the option to kill your child doesn't exist, then they need to start providing unsuspecting girls and women with ALL the facts about abortion: that it hurts many, many women emotionally and psychologically. That many women regret it years later. That when women come to terms with the fact that they killed their own innocent baby it becomes the tragedy of their lives. Like I said, EVERYTHING today comes with a warning and abortion should not be the exception because we're talking about human lives.

HOW MY ABORTION AFFECTED ME

The State of NM

County of Eddy

My name is T F I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Roswell NM

11//1988

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The doctor who performed the abortion was extremely mean and didn't feel that he had to explain anything to me. Also, my mother was present and I was too ashamed and scared to go against her will.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was 16, confused, under pressure. Everything happened so fast...

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

mother

9. How has abortion affected you?

Always wonder what might have been. Guilt. If my children ever ask - will I tell them the truth? I haven't yet. I don't even discuss with my husband of 17 years.

10. How has your abortion affected others in your life?

yes

11. Based upon your experience, what would you tell a woman considering abortion?

It's life. Think carefully. You cannot go back.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NM

County of Curry

My name is Karen I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Portales NM

12/24/1980

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

I don't know the technical term for it. Like a gynecological exam.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was actually told by the doctor that at 12 weeks along it is a "blob of tissue". Not a baby yet. I was only 17 years old and very naive. It was 1980, way before people were protesting at abortion clinics, or at least not where I was at. I had no idea what actually happens during an abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

I just thought it would be a quick way to take care of the "problem" before anyone in my family or my friends found out I was pregnant. I was scared, and this seemed to be the only solution.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend and me to an extent.

9. How has abortion affected you?

Once I realized what I had done, and found out the truth about the "blob of tissue" that was actually a baby, I completely shut down emotionally. My emotion chip was turned off. I functioned through life with no feeling whatsoever. I suffered horribly from NO self-esteem, depression, and sadness. I had what I call "daymares". Out of the blue, I would have a vision, in my head, of a white bassinet that had a baby cut into pieces and bloody inside. Whatever I was doing I would just stop dead in my tracks until the vision went away, and then I would have to sit down because I would be out of breath and having a panic attack. I was doing all of this suffering, but trying to keep it hidden from everyone else. Even 28

years later, I have a hollow spot inside of me that can never be filled. I have been forgiven by Jesus, and he has healed me from the sharp edges of abortion. I still have some dull pains every once in awhile though. Abortion is intertwined into my very soul. It is not just something I did, it is something I am.

10. How has your abortion affected others in your life?

Not much. They don't know. I tend to fake my emotions alot, so they have no idea.

11. Based upon your experience, what would you tell a woman considering abortion?

Be completely informed about what an abortion is, what it does to the baby, and what it will do to you emotionally and mentally for the rest of your life. It is not a quick fix that is over when the abortion is over. That is truly when it begins. Do not do it alone. Have someone who you can truly trust to talk with. Have a support system.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

When a woman has an abortion, it is not over when the doctor leaves the room and tells her to get dressed. That is when the abortion experience actually starts for the woman. It may take days, months, even years, but the reality of what she has done will hit her one day and hit her hard. When that moment comes, she will realize that she cannot go back and change what she has done. Depression, no self-esteem, sadness, hatred, guilt, sickness and suicidal thoughts will invade her being. These women need a support system already in place when this happens. At this moment she will not care to ask for help and the real consequences of the abortion will occur. She will begin the process of slowly destroying her life, her potential, her very being. Support, Support, Support! There must be help for these women.

My name is A W . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Antonio TX

03//1986

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

A vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was a mass. Having children now and having seen ultrasounds..... the "mass" had a heartbeat.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told my "problem" would be over. Problem solved

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend

9. How has abortion affected you?

There is no way I could ever put the pain into words. So severe it causes mental breakdown. There are years missing from my memory. I could not deal with myself and the choice I made. I have hated myself ever since. I tried committing suicide twice. I had annorexia for 20 years after the abortion and still struggle with it. I was diagnosed with Post Traumatic Stress Disorder. I've gone to psychiatrists, psychologists, nutritionists, etc..... I don't deserve anything nice or pleasurable. I do deserve pain. I opted for no pain medication during the abortion and told the doctor and the nurse I deserved the pain that went with the horrible decision I was making. I started drinking and doing drugs to ease the pain and guilt. Guilt that I am the worst kind of murderer and one that got away with it. A mother pays someone to kill her own child and then goes home to bake cookies..... not to jail like the other

murderers?????

10. How has your abortion affected others in your life?

Severe emotional stress and depression. With my children now, I am very over-protective and anxiety ridden if they are out of my sight.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that this is something she will regret til the day she dies. There is no way she could comprehend the consequences until it is too late. She will suffer mental anguish the rest of her life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Wow. I could only tell them that when I was 16 I had to have my parents permission to do anything. I was too young to drink, too young to smoke, too young to make those "huge" decisions. Yet, old enough to make my own detrimental decision of killing my first child. I didn't have to have my parents permission for that. All they required was cash.

QUESTIONS

1. Where and when did your abortion occur?

Des Moines IA

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

Physically it was excruciating even though I took pain meds. I was asked if I wanted to talk to a counselor but I said no because my boyfriend was there forcing me to have the abortion. Staff knew this. When it was over I was asked how I felt. The question felt to me like it was in passing. Emotional pain is not addressed.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my boyfriend

9. How has abortion affected you?

It was excruciatingly painfully physically even though I had taken some medicine to dull the pain. After it was over I was ashamed my boyfriend left me my life fell apart. I then lived a life filled with self hatred. In and out of bad relationships that I would not leave. Self mutilation was justified by "I don't have a reason not to", and some drug abuse and drinking. I hit bottom when I dated a man that treated me more hatefully than I did. My current husband helped forgive myself and rebuild my life. I am certain Jesus was working through him.

10. How has your abortion affected others in your life?

I have had an abortion since. Which made me sink so far I hit bottom. It was about 8 yrs between the abortions and only a few months after the second when my life bottomed out and I met my husband. I found my current husband who helped me find Jesus. Who forgave me and helped me learn to love

myself.

11. Based upon your experience, what would you tell a woman considering abortion?

I am not sure what I would say but I think I would cry for her maybe with her.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

One of the Ten Commandments which our country's laws are based on says Thou Shalt Not Kill to allow women this avenue gives them a way out of their irresponsibility. They are not being held accountable for their actions for their life choices.

3. What type of abortion was performed?

I am not sure D&C I think

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not given any information at all. The Dr. told me at the first appointment that it was just "tissue"

5. Were you adequately informed of the consequences of abortion?

Yes No

Again, no information - they just did it without informing me of anything.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

my family

9. How has abortion affected you?

I have had problems with drugs and depression. The emotional toll has been very difficult. I found healing at a Care Net pregnancy center through the Mourning to Joy program. I am now a director at a Care Net Pregnancy Center, helping women make the choice for Life :)

10. How has your abortion affected others in your life?

I told my husband before we were married, he has been very supportive. I told each of my children when I felt the Lord was leading me to share my story with them. They are all supportive and very pro-life. My kids are now 27, 26 & 16

11. Based upon your experience, what would you tell a woman considering abortion?

Well, since I have been trained to work with women facing an unplanned pregnancy, I tell them my story and what abortion has done in my life. I give them the options that help them choose life.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I would tell them, that abortion hurts women. It causes years of depression and emotional pain.
Abortion my end an unplanned pregnancy but it begins a lifetime of physical and emotional problems.

My name is Meagan . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Seattle WA

07/15/2003

2. How many weeks pregnant were you?

3. What type of abortion was performed?

Suction Aspiration.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

The nurse just went on and on about the 'positives' that abortion could offer my life. She never mentioned any negatives.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My family.

9. How has abortion affected you?

Emotionally, wow, I don't even know where to start. In every infant, toddler, and child that crosses my path, I see the face of the child I aborted. It's something that kills me inside to this day. If I had been better informed, I would have had the child, and made it work. I've had years of severe depression, regret, anger, and sorrow over the choice I made.

10. How has your abortion affected others in your life?

I've been in a very solid, loving, supportive relationship for the last three years, and yet, the depression, and fear I have over the possibility of becoming pregnant (on purpose) creates some hardships. I hold a lot of resent towards my family for not supporting me, and guiding me towards a better solution.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her not to do it. There are so many options, that won't leave you broken in the end. You can put your child up for adoption, God knows there are so many good people out there who are unable to have children that want to adopt one. There are a lot of (social) services out there to help you with the

necessities of raising a healthy child. There are options that don't have a negative impact on your body, soul, and mind.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Murder is illegal, I don't see how abortion isn't. I guarantee that majority of women who have had abortions regret it, and have suffered greatly as a result. When I had mine, I was young, broke, alone, and very scared. I made the mistake of asking my family what to do, and due to them (and me) being grossly uninformed, I made a decision that will hurt me until the end of my days. There are so many choices for girls and women who are pregnant, why would you allow something so harmful to be one of those choices?

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was simply and D & C and that all would be fine. No one gave me any counselling, other options, ultrasound. They just had me come into the room and they did the procedure and then sent me on my way.

5. Were you adequately informed of the consequences of abortion?

Yes No

I have been treated for depression since I was 32 years old after going into treatment for drugs and alcohol abuse. I used drugs and alcohol for 14 years after my abortion. I KNOW the depression is related to the abortion/killing of my child. No one told me I might suffer psychologically.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Drug and alcohol abuse; depression; precancerous tissue removed from my breast. I never married nor have I ever had children. I recently went through an intensive weekend to heal from the abortion which helped me a lot. I have been forgiven by God and I do my best to forgive myself. I have the Lord Jesus to get me through the times I struggle. The abortion changed my life drastically. I will regret it until the day I die.

10. How has your abortion affected others in your life?

I have a difficult time letting down my guard and getting real close to people, so I suppose this affects my relationships with others. Before I was Born Again, I had a very difficult time in relationships. As I mentioned above, I sedated myself with drugs and alcohol and know I made many loved-ones

miserable. On the redeeming side, I teach preschoolers and gradeschoolers the Bible because I have a strong love for children now -- I believe that comes from the Lord.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her my story and how the abortion almost destroyed my life. I would tell her I got so depressed that I attempted suicide 3 times, being hospitalized twice. I would tell her that I will regret that decision until the day I die. I would tell her about my depression and drug and alcohol abuse, which I know is related to the abortion and I would offer to help her get help to raise the child or to put the child up for adoption. I would be her friend through and after the pregnancy and I would beg her not to get the abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them how the abortion almost destroyed my life and that it's only by the grace of God I am alive today (surviving 3 suicide attempts); and that it's destroying women, destroying generations (from what I understand, the population of Canada has been destroyed since 1973), it's immoral and it's a huge health care expense because if women are affected like I was, lots of healthcare dollars go toward hospitalizations, counselling, medications, etc. I would tell them anything I could to try to get them to see how destructive and evil it is, not to mention how it hurts the heart of God!

9. How has abortion affected you?

My freshman year in college I would awaken night after night to the sound of my roommate searching the dorm room in a panic, she would say "help me find the baby" "can't your hear the crying". After we became close friends she confided in my about being forced by her boyfriends parents to have an abortion when she was in high school. Her boyfriend's parents came to her school and checked her out, she didn't even know they were coming. In fact she very much wanted her baby. They drove her to a clinic about 2 hours drive, never once asking her what she wanted. At the clinic they committed fraud by claiming she was their daughter. She said once she was taken back, not one healthcare worker asked her what she wanted. They would not stop even when she was sobbing loudly. Years later the cry of her unborn child haunted my friend's dreams night after night. I was barely more than a child myself at the time and was completely unequipped to help my friend through this time. I witnessed the psychological torture that was unrelenting. I saw devistation and depression that I cannot describe in her life.

10. How has your abortion affected others in your life?

The college where I attended in the early 1990's had a fair share of middle to upper socio-economical class students. This was in no way a poor, minority area. I witnessed abortion running rampant among the young women in my dorm. There were girls who had repeated abortions, month after month. One girl said "it is cheeper than birth control because you can get the guy to pay for it". To some of these girls abortion was no more than an inconveniece that they would have to miss class for. What I did see

was the young women who had an abortion seemed to be the ones who tried to get pregnant on purpose the next month. I think many felt like they had to have a child to make up for what they did, or maybe there were other reasons. From my observation nothing good or liberating came from abortion, instead it seemed to take prisoners.

11. Based upon your experience, what would you tell a woman considering abortion?

After witnessing the truth about abortion first hand through the devastation in the lives of some of my friends, when faced with an unwanted pregnancy myself I chose life. In the weakest moments of my fear and uncertainty I knew one thing, no matter how hard the road of motherhood or the stigma of being pregnant was, nothing was as bad as the torturous guilt I saw my peers go through from abortion. My beautiful son is 11 years old and I thank God everyday for His grace, forgiveness, restoration and the gift of motherhood.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The spirit of the law should always be to protect it's citizens even from things that hurt no one but themselves. We have laws against drug use, we have laws that people wear seatbelts, and age limitations on when a person is old enough to drive a car or drink alcohol. Abortion hurts lives of women, of potential fathers, of parents and erodes the fabric of our society. Nothing good can become of giving people the ability to do something that goes against our nature as human beings, the nature to protect our offspring. The very act has health and psychological risks that more than out weigh any benefit that may be gained. This is a practice that takes advantage of women in their most weak and fearful moments and takes the life of a human being. One that is infact a human being from the moment of conception. We now have the ability to study the DNA make up of a cell. Science can prove that fetus is infact a human by it's DNA makeup. We should always have laws to protect the life of every human being of our great country.

I was only told of the physical risks and dangers. I was not told of the psychological repercussions.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I still think about it all the time. I wish I could go back and undo it. I think over and over about how I could've changed things and how my life would be affected today. I understand the Lord has forgiven me of this sin. And yet, I am still struggling to forgive myself. I have no one else to blame and this is my burden to carry. I am not the person I was before my abortion. It's been 11 years, and I still haven't told my family or anyone else. I don't want to hurt anyone else.

10. How has your abortion affected others in your life?

My husband gets very sad when we talk about it. But we never talk in depth. I can see he's still hurting and so we avoid the subject all together. We've tried to talk about telling our families. But we never agree on when or where.

11. Based upon your experience, what would you tell a woman considering abortion?

I would explain to her that she has a purpose in this life and that's why she was born. That's why God granted her life. And that God has a purpose for her baby as well. The fear and uncertainty last only for a short while. If she has the abortion she may not give birth to a beautiful baby 9 months later, but she will give birth to a shadow of grief, regret, and despair that will never leave. But with a baby, she will be

first witness to an amazing miracle, the miracle of life. A life full of joy, happiness, love and peace. And I will pray for her.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is not up to the court to determine who should live. Only God can determine that. Abortion should NOT be an option for anybody!

HOW MY ABORTION AFFECTED ME

The State of NM

County of Eddy

My name is Debora Wilbourn. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Albuquerque NM

12//1973

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The only thing I remember was filling out a long form with multiple choice question. The only question I specifically remember is, "If you did not have an abortion, what other choice would you make?" It has several options, such as keep the baby, give the baby up for adoption, etc. I remember writing underneath the other choices, "I would not choose anything but abortion." When the "counselor" read that, she told me that I was a perfect candidate for an abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't remember them telling me anything about consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Most deadening of emotions, poor self-esteem and eating issues.

10. How has your abortion affected others in your life?

I'm not sure.

11. Based upon your experience, what would you tell a woman considering abortion?

I actually teach post-abortion healing groups, so of course, I would tell any woman that it not only will be the death of their child, but also one of the most destructive things they could ever do in their life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I think the best thing we could do would be to help them understand the reality of who abortion effects and how it effects them. The child, of course, is prevented from fulfilling their human potential and the effects on the woman are hopefully evident. But understanding the far reaching effects upon dads, siblings, aunts, uncles, cousins and grandparents is just beginning to be talked about and understood.

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't remember their exact words but I do know that they did not tell me the whole truth. They never mentioned it was a baby.

5. Were you adequately informed of the consequences of abortion?

Yes No

No, they did not explain the emotional and psychological damage that it would do to me. Or the connection to Breast Cancer.

6. Were you informed of any link between abortion and breast cancer?

9. How has abortion affected you?

In the past, I've had emotional problems, i.e. committing to a relationship, drinking alot and alot of anger problems. I am still dealing with anger problems.

10. How has your abortion affected others in your life?

I never told anyone until now, so people never knew.

11. Based upon your experience, what would you tell a woman considering abortion?

To NOT do it. That it is a baby. That the 'choice' damages ever fiber of you body and soul. That there are people out there that love you and want to help you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it hurts women not helps. That you nor no one can make a decision to kill a baby and think that it

helps her. This is murder!

8. Did anyone pressure you into having an abortion?

My mother

9. How has abortion affected you?

At first, I tried to put it out of my mind. I never spoke about it again with my mother or father. It felt like a "dirty family secret", like something I read about in teen novels such as "Flowers in the Attic." I was very ashamed at work because a few of my co-workers knew that i was pregnant and then all of a sudden, I wasnt anymore. I knew that it was a terrible sin and that I had offended God. I was not strong in my Catholic faith at that time so I was convinced that God would never forgive me so I started to live my life very dangerously with drugs, alcohol, etc.

10. How has your abortion affected others in your life?

The father of the baby (who is now my husband of 9 ye+++++rs)experienced abortions in his previous relationship and because of that, he was very unhappy with my mom's decision to make us abort our baby. He begged me to reconsider. I was living at home with my parents at the time so I felt

like I had to fulfill my mom's demands. My husband and I have had a very strained relationship since then. I am fortunate that we have stayed together. We rarely talk about the abortion. My husband says that he is pro-choice now, I believe that this is his coping mechanism for the pain he has experienced. I am very afraid to tell my 9 year old son about the abortion. He is an only child and I believe that I decided to have a tubal ligation shortly after his birth because I consciously or subconsciously believed that I was not worthy to have any more children. I believe that the medical complications that I had throughout my pregnancy and during the birth were caused by the abortion procedure. I then experienced such a feeling of disconnect from my son at first. I could not believe that he was mine and that I was his mother. I felt like God would take him from me. I had nightmares about him constantly when he was an infant. I dreamed that he was choking or that I had left him alone somewhere.

11. Based upon your experience, what would you tell a woman considering abortion?

I would share my testimony of pain and anguish. I would want any abortion-minded woman to know that I have regretted my abortion for 17 years. I would want her to know that she does not have to rush into her decision. I would want to tell her that there are many other options she can choose that will make her happy and not regretful. I would want her to know that there are many people and organizations that would be truly blessed to be able to help her throughout her pregnancy.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would want the courts to know that I have struggled silently with my abortion especially because I know that I am the mother of a beautiful 17 year old child that I killed. I have a hard time facing my 9 year old son when he begs me for a brother or sister and asks why he is an only child. I was not informed about how this abortion would affect my future. I was not given any other options. I was not given the opportunity to see the ultrasound images or make a true informed decision. I know I would have run out of the operating room kicking and screaming had I know what was really happening to my baby and what would happen to me, physically, emotionally and spiritually, as a result.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NM

County of Bernalillo

My name is Tracy Gorenz. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Albuquerque NM

12//1980

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Suction Aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

At first I answered "No," but then looking back, I thought that I was informed of the procedure and what would happen. Days prior to the appointment, I was given a prescription to take in advance, in order to dilate my cervix and that I might have some cramping. However, that was about it. I had no other counseling, and this was all done over the phone. I guess I just wanted it to be done and over with.

5. Were you adequately informed of the consequences of abortion?

Yes No

No, as stated above, I had no counseling. This abortion was performed at a regular family health care facility and not even at Planned Parenthood. It was just like any other day and any other procedure when I went in and the way I was treated. I just wanted my problem to be gone.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Over the first dozen or so years, I was really glad about When my current husband and I tried to conceive, nothing happened. We both got worked up for infertility, but everything was negative. At the age of 13, I was sexual molested. I was sleeping, and awakened by this creep to have him do his "dirty work." (My older sister was molested that night in the same way, too.) My parents were having a party, and he was a guest. I was petrified and terrified to have this creep do this to me. My sister and I told my parents the next day because we were too scared to do anything that night. They didn't want to prosecute or call the cops, because they didn't want to put us girls on the stand and retell our "story. Over the course of time, this molestation affected me and I needed to talk about it, but to whom? It is, still to this day, not only one of the worst things that has ever happened to me in my life, but one of the

most damaging, just like my abortion. It took a while for the molestation, and what actually happened and what it meant to sink in to have its full affect on me. My abortion did, too.

10. How has your abortion affected others in your life?

I can't say that it has.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! It'll haunt you the rest of your life! It is an easy out, but only temporarily. That is a baby in there. Be a hero to him or her. Give him or her life. I am pro-adoption. That's how my husband and I got our little girl who is now six-and-a-half. We could never conceive on our own. The Catholic Church say no on a lot of ways to help conceive, such as IVF, surrogates, etc. We were basically limited to fertility drugs, which we tried for a few months with no success. It's funny. Ever since I was a very woman, I always did want to adopt. Well, that's where God led us to our child. So at the age of forty-one, I finally became a mom!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I regret my abortion because at the selfish, immature age of nineteen, I took the life of my child that could not speak for himself because current federal law allowed it. It is not an "easy out" or a convenient case of birth control, such as I used it. It's a life decision that will haunt you and shame you all the days of your life. How many women sit around and talk about their abortion, or abortions? It's not a badge of honor to display. It is a disgrace! Unfortunately, it's our "dirty little secret." I have concluded that there are two bodies involved: the mother's and the child's. However, there is only one voice able to be heard. Let's not discriminate against the mute.

it hardened me. I have 2 grown children now and it was hard when they were babies, considering that I had 2 still births before they were born in the 80's

10. How has your abortion affected others in your life?

They have regrets and have asked God for forgiveness.

11. Based upon your experience, what would you tell a woman considering abortion?

It is not the way to go and there are families out there that can't have children and killing a living being is not acceptable. In the event of rape, incest and a life threatening disease or incident I can see but not just to be child free and to cover up a mistake.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

3. What type of abortion was performed?

suction- abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was just asked if the father knew bout my pregnancy. Never was informed about what took place or the outcomes to most people.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never told that some people would not be able to have children again, because of the abortion. I was never informed about what it can do to the lining of the Uterus. I was never informed about the long term risks or what it can do to your physical body or your mind.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Planned Parenthood

9. How has abortion affected you?

While the abortion was being performed it felt like my insides were being ripped out of me. After the abortion was performed I went into SHOCK! I was then put onto a chair type of transporter and taken to recovery. I woke up feeling like I had just died. I did in away...I just took another's life and it has made me think about what a terrible thing that I had done. It made me think that I have killed a baby. I would never know what that child would become in later years or what they would look like. I live with the Shame and the long term effects of physical problems. I have lived with the crying at night and the depression of doing that to myself and my unborn child.

10. How has your abortion affected others in your life?

My daughter and others around me now think of me as a person who has taken an innocent life that

should have had a chance to live, even if I would have given that child up for adoption it would have been better than what I had done. People have asked me, "why did I do that?", "How could I have done that?", "Didn't you know that there were other things that you could have done?" I live with the Shame of it and the remorse, for the rest of my life.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to have it done and give the baby a chance to live. Put the child up for adoption than to have that done. That child has a RIGHT TO LIVE and BE LOVED by someone who can't have a child. I would also ask them to seek help and get more information on abortion and what are the long term effects that it has on you and your body.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe now more than ever that abortion is WRONG. That there are other ways of dealing with a not wanted pregnancy. I also believe that the last semester termination of a pregnancy is very WRONG to be done. The last term pregnancy abortion is when the child is ready to be born or is being born and then the child is killed by a doctor. How in the world can someone live with themselves having that done to such a Beautiful child? What in the World are you thinking about when you end a life? I know I have been there and never would ever do that again to another child of mine. NEVER, EVER, AGAIN!!!! And I never have. I talked to my single daughter about my experience and told her that we would work through this and never go through what I have been through. I would help her and so I plead with you from a woman who has experienced this first hand. Please end abortion! It harms us more than you could ever know, by long lasting effects, that we carry with us for the rest of our lives.

My name is Susan Swafford. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Albuquerque NM

//1987

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told any facts relating to the specifics of the development of my baby or the manner in which my baby would be destroyed.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed of any physical complications that could happen nor was I informed of the emotional trauma I would experience after the abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Indirectly by the rejection of the father

9. How has abortion affected you?

It put me in a fast downward spiral of self-destructive behavior for ten years. There was a period of time that my mind pondered suicide.

10. How has your abortion affected others in your life?

I was silent, therefore condoning abortion for anyone who was for it. It affected ALL my relationships in a negative way.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to have one. I would explain the emotional impact and regret she would have. I would show her a video that shows an abortion so that she would see what would happen to her baby. I would tell her the options she has instead of abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

They have no right to make such a decision. The original Rove vs. Wade was based on a lie and everything that has been allowed since has been based off of that same lie. People do not have the right to determine if life in the womb should die. That is a decision that belongs to God alone.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NM

County of Dona Ana

My name is Dianne I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Granite City IL

09//1978

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It has been so long ago, I only know that if they had adequately explained the process I would not have had. Even though I was having doubts about having the abortion, I was greatly pressured since to continue since I was there.

5. Were you adequately informed of the consequences of abortion?

Yes No

I do not recall being told of any consequences

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

circumstances of fear rejection & guilt did

9. How has abortion affected you?

I stuffed feelings down acting as if nothing happened. I denied how I felt about myself as a person. Pregnant women and babies were a constant reminder. Grieving was not an option since I caused it and society only saw it as "just tissue". After marriage I became pregnant and learned about the baby's fetal development. It was then I began to fully understand and was left with the ultimate truth that I took my baby's life. After accepting Christ as savior, I wanted to help at a Crisis Pregnancy Center, but was soon evident I needed counseling. At home thinking about sessions, I saw myself as two people, one who politely listened and other against the wall hands covering my ears not wanting to accept & face the truth. Weeks later, I literally drove to the center on the verge of a complete breakdown, truly running for my life. After this harrowing event I became one person in the remaining sessions. Healing had begun as I faced and accepted the truth about my abortion, my role in my child's death and anger that I had suppressed for those who could have stopped me and at myself for not asking. The consequences

of my sin, having sex outside of marriage, could have resulted in many outcomes. Outcomes that I had no choice in could last weeks, months, years, or a lifetime. The result of my becoming pregnant was not one I would have chosen, yet it did happen and I choose not to let my child live. This I will live with for the rest of my life, the choice I made to end an innocent life.

10. How has your abortion affected others in your life?

Family wise, I don't know. But recently I was reunited with a friend and she reminded me that I had written her niece who was considering abortion over 20 yrs ago. I didn't even remember it. Her niece did not have the abortion and child is in their 20's.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell a women not to have the abortion. Yes a child is a life long responsibility, but what a joy they can be. Living with the knowledge of ending a life is painful beyond belief. I would much rather know that my child was alive, perhaps adopted living somewhere than to know it never took a breath. I would also tell her that abortion is a lie. The child's heart is beating even before she probably knew she was pregnant and the consequences of having an abortion are horrific. We are lied to because women do die, women do become infertile, women do get infections, women do become depressed, and women do commit suicide. I would tell her and direct her to help, to people who would stand beside her, who would care about her and her unborn baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If a woman wants choice over her own body, let it before she gets into bed. That is where the choice is made. Birth control is abundant, even free for many. Once she is pregnant, it is not longer about just her, she has an innocent life growing inside of her, dependent upon her, who did not asked to be brought into the world nor deserves to die for whatever her reasons are. I would tell them my story and how my child did not deserve to die.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NM

County of Bernalillo

My name is Laura LeFevre. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Albuquerque NM

05/26/1989

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed of the health risks. Other than a small chance of infection, I was not told there could be any long term effects or illness due to having an abortion. I was not informed of the outrageous increase in my chances of getting things like breast or cervical cancer. I was not informed of the increase in my chances of miscarriage in future pregnancies. I was not counselled about the emotional effects that are sure to occur after such a life shattering choice.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

the father

9. How has abortion affected you?

It has been 20 years since my abortion. For the longest time I felt such shame that I could be so selfish. That my current circumstances were worth killing a child in order to keep the status quo. There is no escaping that shame. There is no way to predict how you will feel after having an abortion. I have felt intense anger at people who fight so hard to keep abortion legal. By putting this government stamp of approval on it, you are saying this is an okay thing to do. It's not that big of a deal. But what these law makers are not realizing is the result of devaluation of women. We are made to believe life is important. But this procedure contradicts that. It says that the only thing that is important is right here, right now. Circumstances change from day to day. A woman can decide on any day of her pregnancy that this is it, I'm done, and go out and end that child's life. Where is the wisdom in that? How is it that our lawmakers can worry more about the treatment of terrorist prisoners than they worry about the

unborn citizens of our own country?

10. How has your abortion affected others in your life?

My children are missing a relationship with their oldest sibling. Someday they will be faced with the shame of knowing their mom wasn't strong enough to fight for his/her life. So how might that translate to how I feel about their lives? The same goes for my extended family as well. They are living without their grandchild, niece or nephew, cousin...friend.

11. Based upon your experience, what would you tell a woman considering abortion?

Consider tomorrow. Things look bad right now, but God promises to be there for you, to provide for you and this child. God takes special care of the fatherless. Abortion will only break your heart forever. There is no hope in abortion. It is final. There is no taking it back.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Look at the rate of suicide, pedophilia, addiction to pornography, promiscuity among adolescents, divorce, school killings, murder among family members. These have all jumped exponentially since making abortion legal. It may be difficult for one to see the connection, but having had an abortion and realizing what that "choice" meant, I can see it clearly. The courts are telling the citizens of the United States that life is unimportant. When you are in a bad situation, murder is completely within your rights. According to this law the physical, emotional, and spiritual health of a woman is not important. The lives of the unplanned, unborn are worthless and easily discarded. If you want to get to the root of the moral decline of the U.S. then take a look at what abortion is doing to this nation.

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Not certain

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was sixteen. On drugs not married afraid and already stuggling on my own. My boyfreind who later became my husband and I deecided that the termination of the pregnancy would be best. I didn't know what was to happen, risks, long term complications or short term either. All I knew is I would walk out not pregnant

5. Were you adequately informed of the consequences of abortion?

Yes No

Not medical, emotional or spiritual consequences. Nor the long term health risk I was opening myself up to.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

For years I stuggled with self esteem, intimicity issues, drugs, alcohol, my first husband committed suicide, abandonment, PTSD, matial prombles, problems bonding with my children, the list is endless. It has been the darkest night of my soul.

10. How has your abortion affected others in your life?

My behavior has hurt them and caused them to feel lacking.

11. Based upon your experience, what would you tell a woman considering abortion?

Nothing and I mean nothing will cause you more hurt, pain and struggling. It is never the answer to the questions and causes 10x the issues it purposes to solve. You will never completely forgive yourself. You hopefully will one day feel God's love and mercy and start to heal but a piece of your will forever be

broken and you will never be able to undo it or make it right.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It doesn't help women. It hurts women physically, medically, emotionally, and spiritually. It is not the answer ever to any question. It should not be legal and as an RN I am appauled that informed consent is not adhered to and that the clinics are less regualted than most vet offices. Planned parenthood should be held accountable fiancially for the vast number of complications a women edures after the abortion especillay since her fundamantal and HIPPA right of informed consent is violated.

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told this was my only choice, that I was a good young lady and having a child would ruin my educational opportunities and my future career. I was told that my parents would hate me and never be able to love a child that I shouldn't be having. I was told that I would not likely find a husband in the future if I had a child and that having a child would cause anger in me to the point that I would be an abusive mother. So it would be better not to have a child at this young age (18) because I was a nice girl and didn't want to become a child abuser.

5. Were you adequately informed of the consequences of abortion?

Yes No

No, I was only told that it was so important to get a 6 week check up at a hospital or doctor's office after the procedure because if I didn't get a check up it cause future problems. But no future problems were mentioned.

6. Were you informed of any link between abortion and breast cancer?

8. Did anyone pressure you into having an abortion?

The father of the baby, planned parenthood staff a

9. How has abortion affected you?

WOW,I began to hate myself.I grieved for my dead child as I realized too late what I had done. I built walls and became a hard person.I couldn't let people know the truth who I was or else they would also find out what I had done.I ran from my family and friends, ultimately running from myself and God. This is always a no win situation. You still have to face yourself.God already knows and is waiting for us to stop and surrender to Him. It had ruined many relationships in my life. I had sickness afterwards to the point that at 19-20 years old I had a medicine cabinet full of prescription drugs for all my sicknesses. I

was miserable and hurting, physically, mentally and emotionally. It was something I could not go back and fix. The thoughts and the memories don't ever fully go away but without Jesus the guilt wouldn't have ever gone away either.

10. How has your abortion affected others in your life?

It has caused me to close out people in my life. I am an honest and transparent person, but I have this one secret that keeps me from some people. It has deprived the world that would have been grand-parents, friends & family from loving this child.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't! It's not an easy fix. It is a life long suffering that no one needs to experience. It has physical and mental and emotional scars that could last forever I would say, "I'll raise your baby, just don't kill him or her." Don't be deceived.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I wouldn't vomit daily, gain weight or feel movement inside of me if there wasn't someone living inside of me. A baby is alive, planned or not. Why do we kill based on our lack of responsible behavior? Why not make premarital sex illegal? Is that too hard to monitor? Most abortions are done in secret. Let America be a land of the free and the home of the brave. NOT free to kill and be irresponsible. But brave enough to stand up for what is right, LIFE is right. Cowards kill the weak. God created each one of us for a purpose. Let it be God's decision as to who lives. Let us decide to love one another. Be merciful & prayerful. Don't let USA be a place of murder. We want to satisfy ourselves. But the pain of having had an abortion far outweighs any inconvenience in raising a child. Abortion causes physical, mental, sexual & emotional problems. The grief, sorrow, guilt, shame & anger can not compare to the easy fix that women think they get in having an abortion. The inner pain the mother, (mother infers a female who has given birth to a child) of the aborted baby has pain from the abortion that lasts forever. America, fear God and depart from evil. I'm glad your mom didn't murder you, so pass that on to every wanted or unwanted child. They are wanted by someone, even if it isn't the mother who conceived them. Please cry out to God for answers. These precious people can't cry out for themselves & their parents are overwhelmed & confused right now. I know, I was.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

None at all, I never was explained exactly what an abortion was. I was told that it was a cyst like tissue that they would remove and I could return to work the next day. I was never informed that there was a chance that I could never get pregnant.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told it was a simple operation. They never told me there was a chance I would not get pregnant again EVER.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

school nurse

9. How has abortion affected you?

I am devastated and have not been able to forgive myself for hurting my one and only child. It has been the biggest regret of my life. I will be 40 years old next year and have not been able to conceive. I feel that I am being punished. No one told me that I would spend the rest of my life in tears. Missing, thinking, wishing I could hold my child. I thought that everything would be okay, that's what they told me. No one has the right to take a life, yet I was allowed to kill an innocent being. Life is a precious gift and no one should have the right to end it. It is the worst crime that can ever be committed and LEGALLY!

10. How has your abortion affected others in your life?

It has not let me get close to any one. I feel that I am not worthy of such love. This choice has killed

my heart and so many aspects of my life. Therefor it has affected every one in my life.

11. Based upon your experience, what would you tell a woman considering abortion?

I would ask her not to do it. I would tell her that the tears and confusion she feels now, are nothing compare to what she will feel in the future. To trust in the Lord and to pray about what she is contemplating. I would help her understand the consciences. This is a human life not a cyst that can be easily removed and forgotten. This is a life, your flesh and blood. Your baby deserves a right to life and if your not sure you can provide there's so many people who are trying to adopt. And the guilt, well there is no way around it, sooner or later it will get you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

This is a human life, not a cyst that can be easily removed and forgotten. What could possibly be worst than killing your own child? Every time they allow some one to take an innocent life, they are breaking the law in the cruelest way possible. It breaks my heart to think of the pain both mother and child will go through. I can't even begin to explain the hurt and disgust I feel when I think of what I've done. It has got to stop. Please put an end to this inhumane crime.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that it was just a clump of tissue and cells.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told how abortion would impact my life. I was told that I could just go on living my life as though it had never happened.

The father.

9. How has abortion affected you?

For many years it was my deep dark secret. I drank heavily and used many different drugs to suppress my thoughts and feelings about my abortion experience. I had difficulty with relationships. Loss of self esteem. For several years the nightmares haunted me.

10. How has your abortion affected others in your life?

Bearing the loss of a child. The what ifs. The silent resentment of my/our choice. My friend chose abortion, but it was easy because she knew someone who had done it.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her about the different forms of abortion. The risks involved with abortion(the risk of not ever being able to have a child, breast cancer, and other physical and emotional effects of abortion). The benefits of carrying to term and adoption. And I would offer her a chance to accept Jesus Christ as her Lord and Savior.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I pray for the day where there is no longer a choice for life, but rather a life to live and love.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NM

County of Otero

My name is Lauren Dumale. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

El Paso TX

09/09/1981

2. How many weeks pregnant were you?

17

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that I was 17 weeks pregnant, and that it was only legal to abort up to 16 weeks, but that they would go ahead and perform it anyway since I'd paid in cash and since I'd driven so far (90 miles, from New Mexico). I was told that the doctor would do a short procedure to open 'the cervix' & simply remove the 'mass', & then I could go home. Afterward, the nurse casually remarked that it was a girl, about the size of a grapefruit. Understanding I'd just murdered my daughter, I was devastated.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no post-care information, & no information about possible physical or psychological consequences. I was simply released after it was finished. I bled profusely for three days, & began the grieving process of the loss of my child that continues to this day, because I murdered her.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My then-boyfriend.

9. How has abortion affected you?

Severe chronic depression, self-hatred, suicidal thoughts, inability to hold a job, failed first marriage (to the boyfriend who pushed me to abort), severe dismenhorrea to the point of having to have my uterus removed when I was only 35. The grief, remorse, regret have been unbearable. I had a promising life ahead of me, intelligent, straight-A student, plans & dreams to be a productive member of society. Instead I drank myself out of college after the abortion, and have never been able to fulfill my potentials. I wonder what my daughter would be like if I'd allowed her to live & fulfill HER potentials...I miss her. Its been 29 years, & I still grieve my actions & the loss of my child. I murdered my daughter.

10. How has your abortion affected others in your life?

It was a contributing factor in the failure of my first marriage. Other than that, I have kept it mostly secret. But the lingering depression has impacted my second marriage & my husband can't relate. He doesn't understand & is resentful that I am not "better".

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT! It destroys the life of an innocent child, who has no voice-no choice in the matter; it destroys the one who does it. Abortion is murder. I would show her the Science proving that the BABY is a REAL HUMAN BEING & fully dependent on its mother for survival, not a formless, soulless 'blob of tissue'. I would show her Psalm 139:14-16 "You knit ME [a real person] together IN MY MOTHER'S WOMB", "I was made in the secret place", "Your eyes saw my UNFORMED BODY", "all my days ordained...written...BEFORE one of them came to be." (that is, my life was filled with purpose & potential BEFORE I was BORN). I would say "CHOOSE LIFE!" as in Deuteronomy 30:19b "Now choose life, so that you AND YOUR CHILDREN may LIVE" [emphasis mine]. I would tell her about all the ill effects, physical, psychological & relational, of my abortion. I would show her websites filled with testimonies from other women, & men, who have suffered grievously because of their abortions. I would tell her that if she is unable to take care of a baby, there are tens of thousands of people who cannot have babies who would adopt & love her baby. I would tell her there are agencies & people who will help her through her unplanned pregnancy. I would tell her that her baby should not have to pay the ultimate price of death for either her, or a rapist's, bad decisions concerning unprotected sex. And I would tell her about the love of God that would make a way for her & bless her if she would allow the child to live.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell a court all the same things I would tell a woman considering abortion. I would also tell the court that Science has already proven that an embryo & a fetus are real human beings, and as such they are guaranteed under the United States Constitution the RIGHT TO LIFE... I would tell the court that by promoting abortion they are breaking the highest law of the land, the first law of the land, & undermining the basis for all other laws in the land. History has already shown us that the legitimization of infanticide in America (as well as other countries, both ancient & modern) has resulted in a domino effect of national destructions & societal ills, because when you abolish the right of life to the truly innocent who cannot defend themselves you strip away any respect for the lives of all others. Life, in general, becomes a matter of relativity, dependent on the whim of anyone who holds the power to take it away (be it the common criminal or the governing authorities). I would tell the court that they have the blood of the innocents on their hands, have brought a curse upon the land, & will be held accountable...if not in this life, then in the next.

2. How many weeks pregnant were you?

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No explanation was given of what would happen to the pre-born child.

5. Were you adequately informed of the consequences of abortion?

Yes No

The only thing they were concerned about was that I leave that day with some form of birth control, so an IUD was implanted.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Increased sexual promiscuity, mild depression, self-esteem issues, unhealthy marital relationship

10. How has your abortion affected others in your life?

I'm not sure

11. Based upon your experience, what would you tell a woman considering abortion?

It is not a solution to the problem. Two wrongs do not make it right - it only complicates the first wrong. She will have a lifetime of regrets and mourn the loss of that child forever.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

First of all, I do not think that a woman should be charged with a crime for seeking an abortion. I DO believe that abortion should be outlawed and that abortion providers should be the ones charged and prosecuted. I believe that it is morally wrong to take the life of any person, including the personhood of

a pre-born baby. God is the giver of life and death - no man or woman has that right. The aftermath of abortion, however, is the broken women and men that are left to suffer the consequences of their actions. Many, if not all, suffer from some form of Post Traumatic Stress Disorder (Post-abortion syndrome) and that creates disfunction in families that is generational.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NV

County of Clark

My name is M S I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Los Angeles

07//1982

2. How many weeks pregnant were you?

30

3. What type of abortion was performed?

Saline was injected into my uterus and pitocin was prescribed to induce preterm labor.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was informed that the pregnancy would end but I was not informed regarding the emotional/physical problems I would endure for the rest of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents.

9. How has abortion affected you?

First, the battle with the hospital staff terrified me. They knew I was there against my will and still restrained me and imposed my parents' sentence (abortion) upon me. Then overwhelming grief paralyzed me. After time, I anesthetized my grief and pain with promiscuity. I allowed promising relationships to dissolve because of my belief that I didn't deserve happiness for having failed to defend my child. I allowed harmful people to abuse me for the same reason. Now that I have found forgiveness in Christ, I still have an underlying sorrow and a part of me that longs to see the child again and ask forgiveness for my weakness.

10. How has your abortion affected others in your life?

My little sister lived in horror during the months I fought to keep the child. She was terrified by the desperation of my parents to kill the child in order to hide my shame upon the family. She resented me for years. My parents and I have reconciled to a point but there is the unspoken that remains between us. I harmed many good men with my unpredictable emotions and ultimate desertions. My husband is wonderful but has never been equipped to deal with my sadness. I can tell it frightens him. My children are unaware of what happened but I'm terrified of the day I have to tell them.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion is NOT an option and is not beneficial EVER. Whomever suggests or recommends it is your worst enemy. If you think you can eliminate an "inconvenience" or hide a sin or a shame with abortion, you won't be successful PLUS you can also expect it to kill the joy in your heart for the rest of your life. Either way, you'll end up telling a story: How you and your child survived against all odds or how you panicked and destroyed the wonderful person who depended on you. You're the primary person responsible for the protection of your child...don't fail them.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder. Beyond that, abortion hurts so many beyond the one with the death sentence: the mother, the father, families, future families... As a legislator, I'd refuse to do anything to promote the legalization of a practice that has such a destructive legacy. As a human, I'd refuse to soil my hands and conscience with the guilt and shame of helping to perpetuate this wrong. Benjamin Franklin petitioned the Senate and the House of Representatives to abolish slavery in 1790. His cry went unheeded and thousands of blacks were tortured, families were destroyed and potentials wasted for almost 100 more years. THEN slavery was abolished and we consider it ridiculous that anyone would ever argue to support it. The SHAME of this country in its failure to promptly correct an injustice remains upon us to this day. And now, how is abortion different? Many have refused to acknowledge the evil, inhumane practice that it is. Many have lacked the courage of a Benjamin Franklin. YOU can be instrumental in ending our country's history of violence against its citizens and turn us from barbarians to a civilized nation for the FIRST time in our history.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NV

County of Washoe

My name is Angel Nugent. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Westmont IL

05/25/1990

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I knew what abortion was, but the clinic just kept reassuring me that it would be okay, that the tube was small, about the size of a ballpoint pen and that's how the tissue would be removed. They trivialized it as just another medical procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told that there would be some cramping and nausea afterwards, but that's all I was told. There was absolutely no mention of the emotional/mental consequences, or the physical complications that could occur later.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father of my child (a son, I think)

9. How has abortion affected you?

I have suffered from depression, sexual dysfunction, relationship problems, guilt, shame, fear of going to hell, and regret.

10. How has your abortion affected others in your life?

My parents feel guilt because they didn't try to prevent me from having the abortion. My husband has

been affected because I have had a lack of desire for sexual intimacy with him as a result of the abortion. He was not the father of the aborted child, but I carry that burden with me and feel guilt during intimacy with him.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not do it! You cannot ever change that decision, and you will eventually regret it. I initially felt relieved because the "situation" was over, but I knew right away what I had done after it was over, and I couldn't change it. Oh how I wish I could go back and make a different decision! I had no idea what I was getting into. I will live with this for the rest of my life. Don't make the same mistake I did. Things may seem hopeless or tough now, but it's only temporary. Abortion is a permanent decision. Looking back, I could have worked out my situation and had my child, but I believed all the lies and saw no other options. There are options!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

My legal "choice" deprived me of a child and left me with years of shame, guilt, and sadness. I have learned that just because something is "legal" does not mean that it is okay, good or healthy. I was misled by the legality of abortion into thinking that it was a viable option to a crisis pregnancy. I learned the hard way that it is not an option because it goes against human nature to terminate life. I knew I had terminated a life after the abortion was over--it was not a "blob of tissue" as my abortion provider told me. It was my son that I will never be able to hold.

My name is Stephanie I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Columbia SC

04/01/1985

2. How many weeks pregnant were you?

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that it was not a baby, but just a mass of tissue that was not alive.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea of what this would do to me physically, emotionally, and spiritually. I believed the doctor when he told me that it was not a baby.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Emotionally coerced.

9. How has abortion affected you?

It traumatized my life. It took me years to be able to even walk through the baby department at a store, to go into a church, to feel like I was deserving of "ever" having a child.

10. How has your abortion affected others in your life?

I don't know.

11. Based upon your experience, what would you tell a woman considering abortion?

To be sure they know the real truth about their baby "before" they go through with it. Inevitably, the truth will come into the light. You want that to happen before you make this kind of choice, not after. The

affects can be unbearable. There is a pain that is always there, an emptiness that can never be filled, And even if you did not know all the facts ahead of time...a guilt lingers because it was your child, and you should've known better and done everything in your power to protect him or her.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

They, nor I, initiated this life. Only God can do that. It was not our place to end it. Unborn babies deserve to have a voice.

my parents

9. How has abortion affected you?

at the age of 15 I became dependent on achole to try and drown the pain. I stopped eating for 3 months and since than have suffered from aneroxia. I began sleeping with any guy I could find. I pulled away from everyone around me and would not show emottion too anyone. I have felt worthless and wondered what is the point of living. And as a mother now I wonder if I am even fit to be a mom.

10. How has your abortion affected others in your life?

My husband has seen the effects starting 5 years after.

11. Based upon your experience, what would you tell a woman considering abortion?

My oldest daughter who is 14 knows she is not the oldest child which hurts her too know that. My parents and I almost lost any form of relationship we had. My youngest nephew and I have a very tentetive relationship since he is the same age as the baby that was aborted. I couldn't hold him as a baby since it hurt to much.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

due to the emotionalll distress after the procedure is preformed there are too many chances of suicide and drug or achole dependency too allow this procedure too continue. Also the increase in breast cancer posses this procedure as a health risk other than when the mothers life is in danger. Also in the cases involving teenagers there is an increased chance of the decision being forced on them by there parents as was my case.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NV

County of Clark

My name is Paige I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Las Vegas NV

03//2000

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction Aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no discussion of the psychological effects.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I got married, (then divorced) to someone I shouldn't have because I didn't want to end up in the same situation again. I became self destructive. I got involved in abusive relationships because I didn't feel I was worth more or deserved better.

10. How has your abortion affected others in your life?

My family doesn't know. My doctors don't know because they're friends with my father, who is also a ob/gyn. My parents would be devastated if they found out. My children don't know. My boyfriend doesn't know because I'm afraid how he'd think of me. I've told 2 people in 8 years.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't do it. It's not something you ever get over. You might think you do, for a time, but you're lying to yourself. No matter how much alcohol you drink, or how many drugs you take. No matter how many days you sleep away, or how full you fill your life with activities, you don't forget. You will never be the same.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Please read these declarations. You are signing a death warrant. Not only for those babies, but for the women left to deal with the consequences of their decisions. Because something dies inside you when you make that choice. Something is destroyed and you can never go back and change that.

HOW MY ABORTION AFFECTED ME

The State of NV

My name is Theresa Cobb. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

2 in Escondido, 1 in Reno CA

//1984

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told at the age of 14 by Planned Parenthood that the baby was a blob of tissue.

5. Were you adequately informed of the consequences of abortion?

Yes No

The clinic during my second abortion (I was 22) had me sign a waiver stating that abortion rarely but can cause infertility. Other than that, nothing.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Although I do not suffer physically from my three abortions. They had (until recently) been so suppressed that it is indescribable how much havoc they reaped in my life. Drugs, alcohol, self loathing, anxiety, promiscuity, porn addiction, anger; even as a follower of Christ for the last seven years I had fits of rage. God has really taken me on a journey and since I've been speaking out have found tremendous healing. I am giving my testimony at church in a few weeks and am going to be teaching a class there about abortion using curriculum from the Bethlehem Institute. Also, my husband and I are in a rock band together with the mission of bringing about awareness of abortion and healing thru the gospel of Jesus Christ.

10. How has your abortion affected others in your life?

Both my late husband (who was the father of one of the babies I aborted) and my current husband have had to deal with my emotional and angry outbursts. My three living children see the sadness in my eyes at times when I look at them, and know why it is there.

11. Based upon your experience, what would you tell a woman considering abortion?

Here is what I have told them... One woman only needed me to point out that she regretted her previous four. Sometimes its just showing the pictures of a 8-10 week old preborn baby to a girl who doesn't know. Maybe simply sharing my pain and regret. Offer help and a home for her or her baby. God's Word. So much can be said.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I'm not sure where to begin on that. Hmm... a beating heart... God is soveriegn over all life... thats a loaded question!

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was just asked to sign a paper stating if anything were to go wrong, that the clinic will not be liable.

5. Were you adequately informed of the consequences of abortion?

Yes No

See above.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mom.

9. How has abortion affected you?

I wished I had NEVER done it. I feel like I betrayed myself, knowing what I did was completely wrong, but I didn't have anyone there to inform me or let me know the consequences of that procedure. I was only 16 years old & I didn't even need parental consent or notification, which I don't understand, because, legally you have to be 18 to buy cigarettes & I didn't need to be 18 to have an abortion. It literally ruined my life & relationships with everyone involved & I was suicidal & used drugs to "numb" the pain & guilt. I just wanted to die.

10. How has your abortion affected others in your life?

I have no good relationships with the people involved in the decision-making part of it (my mom & ex-boyfriend, mostly). I don't trust my mom's judgement anymore & my boyfriend became abusive towards me, subconsciously, I felt I "deserved" it & put up with it for years (the abuse).

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them my experience, the consequences, the love of GOD & forgiveness & at the least, pray

for them & give them hope & resources (which I didn't have) to help them make an INFORMED decision, like I was unable to.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them my experience & not agree with them & explain my reasoning.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

5. Were you adequately informed of the consequences of abortion?

I was told that it would be a quick and easy solution to my problem. Nothing was said about the lasting emotional pain.

6. Were you informed of any link between abortion and breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

my boyfriend

9. How has abortion affected you?

I used alcohol, drugs and promiscuity to cover my shame and try to fill the emptiness. I have had problems with intimacy with my husband. I struggled with depression and self-loathing for nearly 20 years and am only now beginning to completely forgive myself after walking with Jesus for over 15 years.

10. How has your abortion affected others in your life?

It has hurt my husband and my children because they have suffered as a result of my depression.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! It will haunt you for the rest of your life. The so called "immediate solution" will cost you far more than carrying your baby to term and adjusting your life for a short time to make sure he/she is taken care of in a loving and humane way. Nine months of embarrassment or discomfort is nothing compared to a lifetime of shame and regret. Jesus died to pay for our sins and forgives us when we

confess what we've done but we still carry the scars from the consequences of our choices.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It should not be legal to lie to girls and women about what is going to happen to them as a result of a medical procedure. I know that abortion should be illegal, just as the taking of any human life should be illegal, because I have experienced first-hand the lasting pain that occurs when a human being chooses to take control of what does not belong to her. I did not create myself or any other person on this earth and I have no right to decide when my or anyone else's life should end. When we sieze control that belongs only to our Creator, we suffer painful consequences. When we choose to turn our backs on God, we get into messes like Roe v. Wade and the legalization of abortion that have enabled millions of innocent human lives to be snuffed out and thrown away for the sake of convenience and pride in our own ability to control ourselves. I also know that had abortion not been legal and so easily obtained when I was a frightened, selfish teenager with a problem too big for me to handle on my own, I would have been forced to turn to my parents or at least explore other less expedient options such as adoption before I allowed myself to make the worst choice of my life.

2. How many weeks pregnant were you?

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

Again, I was told absolutely nothing

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I feel deep guilt and regret especially now that I have two children and know how wonderful the gift of life really is. A day doesn't go by that I don't think about my aborted child.

10. How has your abortion affected others in your life?

I have only told one or two people because I am so ashamed. I don't want people to know that I did such an atrocious thing.

11. Based upon your experience, what would you tell a woman considering abortion?

She should receive counseling from a caring person who can help her with love to consider her decision carefully before going through with it. I think if I had someone to counsel me, I would have made a different decision.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Every person is important and has a right to live. It is not man's right to determine who should live and

who shouldn't. If abortion were illegal women would not be so complacent about getting pregnant. Besides, these days STD's are also a part of the scene.

3. What type of abortion was performed?

vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

It was treated as a solution to a problem not a life changing experience. There was no discussion about the depression, guilt and shame that would follow.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

For many years, I denied it and avoided the topic completely. I have recently found healing from the murder I allowed to happen to a helpless child of God. Before my healing I was very angry and carried around a huge amount of guilt and shame thinking that I would never be forgiven.

10. How has your abortion affected others in your life?

Until recently, I had pushed people away. I became a different person. Now, with the healing I found in Christ, I have been able to forgive myself and truly embrace my husband and children.

11. Based upon your experience, what would you tell a woman considering abortion?

I would explain to her that the baby inside of her is a gift from God. I would also inform her that abortion is murder and she will have blood on her hands. One day she will have to answer to the Ancient of Days for her actions. Abortion is not a solution or quick fix, its the head of the iceberg of turmoil and grief (whether or not you believe in God). I would also inform her that abortion could/would have catastrophic effects on future relationships with any future children and spouse. Abortion is the wrong decision no matter how she ended up pregnant (ie. rape, incest, premarital sex).

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that it is a horrendous, evil thing has been allowed to take place. The effects of abortion are numerous and no one should dictate the life or death of human child, not a mass of tissue, but a defenseless human child. The court is not God and eventually each and every person associated with the abortion pro-choice issue will have to answer to the Ancient of Days with blood on their hands.

My name is C K I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Las Vegas NV

04//1998

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

complete

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I didn't realize the life long emotional scars it would leave on my heart or the pain when I think about the 2 babies who I didn't let develop and be born.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I think about it all the time. Physically you heal, mentally and emotionally last FOREVER! I have since asked the Lord's forgiveness but somehow still fail to completely forgive myself. With my first marriage and first pregnancy, the idea was brought up to me, I refused. I had baby # 2 and shortly after ended our marriage. I became involved in a serious relationship and ended it, prior to finding I was pregnant again with # 3. I was scared how I would take care of another child as I was a single mom then, not sure what to do, I opted looking into an abortion. Went for the consult, they did an ultrasound, discovered I was carrying twins. In a panic of taking care of 3, let alone 4 children and without consulting family or the Lord or even counseling, I went ahead with the abortion. I knew it was wrong, cried from the moment they started as I was awake while the procedure took place, but by then it was too late. I have lived with the guilt and emotional scars that I inflicted on my own. I later remarried, told my then husband about my past and or a while thought I couldn't get pregnant anymore after, my belief, as a punishment from the Lord for my sin. 5 years after the abortion and 7 years after the birth of my second child we conceived. A surprise pregnancy, unwanted by my then husband as our relationship became strained, he made the comment about having another abortion, I told him ABSOLUTELY NOT!

I am now 110% PRO-LIFE. Trust in the Lord, there are ways, HE will provide.

10. How has your abortion affected others in your life?

Only a few know that I even had an abortion, I was so in shame of it, I do not talk freely about it still to this day, even my older children are not aware that I had one. I never told my mom, who at the time was my confidant (has since past away-due to breast cancer)...I know she now knows. I just recently told my fiance' about it and can empathize with me, but never will truly understand what I went through or how I feel. I truly felt that my last daughter was my angel baby, the Lord's way of letting me know I had his forgiveness, but every time I think about it or hear other stories on the subject, it pulls at my heart and the 2 joys and blessings that I missed out on.

11. Based upon your experience, what would you tell a woman considering abortion?

I believe that everything happens for a reason and prior to my own abortion experience I was Pro-Choice and since then I am so anti abortion (PRO-LIFE) that I would counsel woman or young girl, even my own young daughters (14 and 12) to not have one-there are other means and ways. I teach my daughter through the Lord and why Abstinence is the answer until married, but should it ever happen I am here for them. If I could help even just one woman, not have to experience what I did, it will be worth so much.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It changes you mentally and emotionally FOREVER.....if you live your life outside of a worldly life, the impact it has on you is tremendous. I am a Christian woman and have a strong tied relationship with the Lord and ABORTION IS WRONG!!

Cried for two years. Refused to get another abortion when I got pregnant again. Divorced husband.

10. How has your abortion affected others in your life?

Daughter was born 5-6 weeks early (first pregnancy after abortion). Had some birth defects.

11. Based upon your experience, what would you tell a woman considering abortion?

It is killing your baby and it will haunt you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is actually murder and seriously harms the mother emotionally. It is not a simple procedure that solves a problem. It affects the whole family.

My name is k p I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Denver CO

02/24/1986

2. How many weeks pregnant were you?

18

3. What type of abortion was performed?

Uncertain

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Was unaware that's right wasn't contemplating it feeling like "a real" baby was coming out when felt the warm sack come out and heard the "Dr" toss it in trash can.

5. Were you adequately informed of the consequences of abortion?

Yes No

Explained nothing to me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Myself, felt 2 young/therefor ashamed 2 be pregnan

9. How has abortion affected you?

GUILT, period, guilt has played a terribly negative role, in my life I had other children to try and make up for the GUILT and probably shouldn't have had them but I did from GUILT!!!!!!

10. How has your abortion affected others in your life?

Having other children (out of guilt) that wasn't 100% ready to take care of but the guilt drove me too so they didn't have the greatest mother.

11. Based upon your experience, what would you tell a woman considering abortion?

Please do not do it, you will feel much better if you "let this life" go on, murder is "very hard" to forgive by God His word tells us, and the bible is not an old rusty book it's the living word- feel better abstaining from sex cause feels bad giving up for adoption too but better then abortion/Murder.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I say no. Period to abortion; and instead teach that "marriage" is a sacred unit meant to glorify God and things such as sex; and pregnancy should be taught, and reserved "for" marriage. Immoral sex bad "and" leads to Pain, hello!?

9. How has abortion affected you?

I always have that ache for having murdered my child.

10. How has your abortion affected others in your life?

Husband didn't leave, and he also knows that we missed having a precious child.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't. Have an ultrasound. Find out it's a baby, not a "choice." You are dealing with a baby in there who deserves a chance to have some choice.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder against the most feeble of small voices. Abortion is a terrible thing to be a party to. Abortion hurts everyone it touches. Abortion hurts everyone who touches it.

sister of boyfriend at the time

9. How has abortion affected you?

I have had to deal with years of trauma and emotional pain. It was not until I began a relationship with Jesus Christ that I finally began to heal from the trauma of the abortion. Unforgiveness that I had towards myself and the choice I had made was eating me up and even stealing the relationship I had with my husband and my children that I had after the abortion.

10. How has your abortion affected others in your life?

It had affected closeness with my husband sexually, until again I had healing from that through Christ Jesus.

11. Based upon your experience, what would you tell a woman considering abortion?

That this decision is not a quickie decision. This decision can have lifelong impact on your life and the

lives of others that are in close contact with you. I can't go back and change my decision but you have an opportunity to learn from someone else's mistake and have a chance know to not go through with this painful process and to make a better choice. To not be afraid to make the right choice.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We all talk about the rights the woman has to make a choice about her body. Without even taking into consideration the right to the life within her body. Life is nurtured inside our body. When another life has begun at conception it is no longer just the rights of the carrier of that life but both. That life that is contained within the womans body did not determine when, how or why it began it simply began and now is a life carried within. To say to this new life it has no options nor opportunities is devastating to the woman who had carried that life and then chose to end that life. After all is said and done this death holds all the same impact upon those people that made this choice of death for that baby of guilt and shame as a killing of any innocent life could hold. All I am asking is what about the rights of the brand new life that has no voice but is crying out for life?

QUESTIONS

1. Where and when did your abortion occur?

Orange County CA

12/03/1982

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

SURGICAL/SUCTION

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I RECEIVED NO COUNSELING OTHER THAN IT WAS JUST A CLUSTER OF CELLS. THE ONLY DETAILED INFORMATION I GOT WAS HOW MUCH WHAT TO DO BEFORE I CAM TO BE SURE I HAD A RIDE AND CASH WAS REQUIRED

5. Were you adequately informed of the consequences of abortion?

Yes No

I ENDED UP BACK IN THE HOSPITAL IN JANUARY 1983 BLEEDING OUT BECAUSE THE PROCEDURE WAS NO COMPLETE, PARTS OF THE BABY AND PLACENTA WERE LEFT INSIDE. I ENDED UP HAVING A BLOOD TRANSFUSSION BECAUSE OF THE AMOUNT OF BLOOD LOSS I HAD EXPERIENCED. I NEARLY DIED AND I CONTINUE TO HAVE ISSUES WITH MY REPRODUCTIVE OGRANS.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

IT NEGATIVELY IMPACTED ME IN MANY WAYS. EMOTIONALLY, WITHOUT A DOUBT PHYSICALLY EVEN HAVING A MISSCARIAGE. IT TOOK MANY YEARS BEFORE I COULD COME TO A PLACE TO SEEK OUT HELP AND HEALING. ONCE COMING TO THAT POINT I KNEW I NEEDED SPIRITUAL HEALING AS WELL, GOT HELP AND HAVE DEVOTED THE REST OF MY LIFE TO THE CAUSE.

10. How has your abortion affected others in your life?

MY HUSBAND HASN'T DEALT WITH IT, IT AFFECTS THE WAY YOU RAISE YOUR CHILDREN

ESPECIALLY YOUR FIRST BORN. WE HAVE ALL SUFFERED A LOSS THAT CAN'T BE REGAINED AND THAT HAS IMPLICATIONS EVEN BEYOND WHAT WE KNOW

11. Based upon your experience, what would you tell a woman considering abortion?

IT HURTS MORE THAN YOU CAN EVER IMAGINE, IT IS NOT WORTH IT FOR ANY REASON AND IF YOU CAN FACE THE FEAR NOT LET IT TAKE YOU OVER GOD WILL BLESS YOUR DECISION.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

FIRST OF ALL I WOULD ASK THEM TO UNDO THE BAD DECISION OF ROE VS WADE. THERE WAS THE CASE OF MCARTHUR VS SCOTT THAT ESTABLISHED AN UNBORN HAS RIGHTS, THERE FOR THEY ARE BOUND BY THE DUTY THEY HAVE SWORN TO UP HOLD AND REVERSE THE DECISION. WE SHOULD OWN UP TO THE WRONGS WE HAVE DONE AS WE DID IN REGONIZING THAT SLAVERY WAS WRONG. I WOULD ASK THEM TO SERIOUSLY REVIEW ALL EVIDENCE OF THE MEDICAL TECHNOLOGY WE HAVE THAT PROVES A SEPERATE INDIVIDUAL LIVING IN THE WOMB. I WOULD ASK THEM TO REALLY CONSIDER HOW SOCIETY HAS BEEN NEGATIVELY EFFECTED BY ABORTION BEING LEGAL; HEALTH OF THE WOMEN, EMOTIONAL ISSUES FOR MEN AND WOMEN, THE ECONOMY AND SPIRITUALLY. IF THAT ISN'T ENOUGH THEN THEY NEED TO CALL IT WHAT IT IS THE LEGAL MURDER OF ANOTHER HUMAN BEING AND STOP SANCTIONING IT BY CALLING IT A WOMEN'S RIGHT TO REPRODUCTIVE HEALTH

HOW MY ABORTION AFFECTED ME

The State of NV

County of Clark

My name is Doria Zeiter. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Las Vegas NV

04/01/2000

2. How many weeks pregnant were you?

17

3. What type of abortion was performed?

I don't know.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I really wasn't explained anything. I was told what was wrong with my baby (Turner Syndrome) some of which was incorrect information or personal assumptions. This was confirmed by an Obsetric specialist and then I was refered to a counselor (all in the same day) who, when I walked in her office, handed me a book on parental loss. They asked me if I wanted an abortion and I needed to hurry and make a decision. I was given paperwork to sign before I even read it. I didn't read it even after I signed it. I didn't know what I was getting myself into. I knew it was wrong and did it anyway. No one told me I had another choice, no one gave me "options" and I went into the procedure without having "informed consent".

5. Were you adequately informed of the consequences of abortion?

Yes No

I didn't know there were risks to my life or my ability to have children. I didn't know anything. I was very confused and walking in a haze. I was in shock by the whole thing.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend, family members and society!

9. How has abortion affected you?

There isn't a day that goes by that I don't think about my daughter. I still have nightmares. I feel inadequate as a parent, unworthy, because I feel I don't deserve my children because of what I did. I feel loss everyday and part of me will always feel dead inside because of it.

10. How has your abortion affected others in your life?

I don't have a relationship with my family because of the pressure they put on me to have the abortion. I resent them. I lost friends who were back then, pro-life.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT! Don't ever have an abortion! It is the worst thing you could ever do, if not to the baby, then to yourself. They don't tell you they can feel, that they can suck their thumb in the womb, that they can hear you. No one tells you that you will feel loss and remorse and despair and depression. No one tells you till after, that you will have breast milk as if you had a child to feed, that people will look at you differently; like a murderer, that the physical pain, which is HORRIBLE, only pales in comparison to the emotional and mental anguish! For the love of God, for the love of your child, DO NOT ABORT!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Have you had an abortion? Have you President Obama gone to an abortion clinic? Have any of you spoken to a woman who has had an abortion and regretted it? Have any of you seen the photos of an aborted baby? Better yet, why don't all of you in favor of abortion assist in one and then tell me you are still pro-choice!

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The procedure was explained. No one explained what the baby would feel or what I would be left to deal with afterwards. As a 17 yr old girl I really didn't understand what I was doing.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was left deeply shamed, hurt, wounded in a way that led me into years of self-destructive behavior and guilt.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Mom, sister and boyfriend

9. How has abortion affected you?

It caused deep emotional scars and wounds and has taken me years and years to work through. It made me a very angry and made it very difficult for me to receive love from others especially my husband.

10. How has your abortion affected others in your life?

The anger I struggled with spilled over into everyone's lives around me; my children, kids and family.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it!. Don't let the world, your family and anyone else lie to you. There is a better way out and there are answers for the situation you face. Please don't do it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

They are fooling themselves and everyone else. How can taking a life be good for our society. Abortion diminishes the value of human life and has robbed us of a whole generation of people as well as it has left a trail of devastated and wounded women and men who live their lives in regret, shame and fear.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NY

County of Suffolk

My name is M S . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Brooklyn NY

08//1966

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

coat hanger, back alley

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had no clue as to what was going to happen. I have suffered with depression, as a result of this atrocity. I was more devastated at the fact that I killed my baby than at this horrendous procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

I knew that what I was doing was totally against my beliefs. I had no idea about the effect it would have on my life or the guilt that would follow me, always.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

the father

9. How has abortion affected you?

As stated previously, I have been afflicted with major depressions. I ask, when is someone going to protect the innocents? We need to always choose life for the child. I know God will honor our decision. It is better for all concerned to have a baby adopted than aborted

10. How has your abortion affected others in your life?

My husband and family have had to deal with taking care of my during these debilitating times. I am fortunate to have had good psychiatrists. They were able to get me on the right medication to get me back on track. My husband has kept me out of the hospital during every episode, even when the doctor's suggested that I be hospitalized

11. Based upon your experience, what would you tell a woman considering abortion?

The hole that you spiral into is very difficult to lift yourself from. Save your baby and you will safe

yourself. If you feel you cannot handle the pregnancy. Turn to The Sisters of Life in NY or the Life Center located in Massapequa, or Deep Park. They will help you make decisions that both you and your child will be able to live with.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would suggest, strongly, that each person in a position to make abortion legal put themselves, totally and completely, in the shoes of the infant (fetus) that they are choosing to kill. Would they be so willing to kill themselves?

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NY

County of Kings

My name is Katherine Clyde. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Berkeley CA

01/01/1973

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

D and C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was given only the place, that I would be under unknown kind of anesthesia for a couple of hours, the exact nature of the abortion was not discussed with me, or the after effects, the human nature of the child, the mental consequences or social consequences, the name of the doctor was withheld or his qualifications, or the possible danger to myself, their nature or extent.

5. Were you adequately informed of the consequences of abortion?

Yes No

No mention was made of the possibility of permanent physical disability due to accident or psychological disturbance or availability of recourse to adoption and help with welfare. I was not informed that the nature of the child's destruction would be a lasting psychological problem or told that I was destroying true human life and warned that my decision was either a moral or physical danger to either my child or myself. Or that the permanent separation between myself and the child would cause a mental and emotional disorder.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

I was pressured by my family and someone else

9. How has abortion affected you?

Psychological, mental, emotional, spiritual disturbance; social rejection, adjustment problems. I have a permanent disability to which abortion was a primary contributor, I have never been able to get counseling by anyone who believes in life for the child or the damage to myself, people often regard me as dysfunctional or maladjusted in ways that have been resolved regarding both the physical and spiritual aspects of the abortion

10. How has your abortion affected others in your life?

Most of them refuse to discuss it. I have met some ProLife people who have been helpful.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. Give them help about alternatives, be ready with information of people who can assist them, stay in touch with people who are actively helping women concerning abortion

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion causes the death, terrible suffering of a child, a human person. It harms women, and creates a lack of respect for every human life.

3. What type of abortion was performed?

curettage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

WE were given no counselling a that time and they had taught me in school that it was a mass of cells, just tissue in the early stages and at this time I did not have faith to guide me in a moral decision making process

5. Were you adequately informed of the consequences of abortion?

Yes No

nothing was counselled at all in the early years, who carfed, just provide the service

6. Were you informed of any link between abortion and breast cancer?

the unwilling father

9. How has abortion affected you?

It made me a very depressed person, I removed myself fro the world became introverted, we married but I ended up hating him and never forgot what he made me do. I never really wanted to do this.We divorced because he never eanted any of his children, if children are expendible why have any? If a man does not want children he should not marry. He should not live a lie.Better yet sex should not take place unless married.

10. How has your abortion affected others in your life?

My family who know about it never spoke with me for years and so my children were also ostracised.

11. Based upon your experience, what would you tell a woman considering abortion?

Never do it under any circumstance. You will pay later when you wake up and realise what you have done, you will never be the same mentally again, you will be burdened with your sin of murder for the

rest of your life and you will never forget, the memory will resurface and haunt you someday.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It destroys worse than the reality of having a child and adopting it out. At least you know the child is loved and cared for and can possibly reunite someday.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

The Lord has healed me of any pain. I pushed it down emotionally for 9 years.

10. How has your abortion affected others in your life?

It was a dirty little secret. I could only tell the person who took me, and the person who paid for it.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! There is so much guilt, knowing you killed your own baby. It totally ruins yourself worth. I knew God forgave me, but I had a hard time forgiving myself. One of God's commandments is do not murder.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

They will have to answer to God! It doesn't matter how small the baby is, it is a life, and God has a plan for that baby. It's a lie, that it's just a glob of tissue.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NY

County of Manhattan

My name is Di D I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

New York NY

07/07/1983

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had multiple abortions. At that time, doctors didn't explain.. only until one doctor said he wanted my husband (at the time) to see a hospital psychiatrist to discuss. He did and the result was a phone call to me from the doctor telling me there was nothing wrong with my husband feeling the way he did in not wanting children at that time.

5. Were you adequately informed of the consequences of abortion?

Yes No

Medical consequences, yes. Issues related to having future children and blood type, yes. But, I was too much in denial with myself and my situation to see the emotional, spiritual and mental long-term effects that such a decision results in.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My husband at the time pressured me everyday

9. How has abortion affected you?

I never had children and it was the only personal wish I had hoped for since a child. Not procreating and being given an opportunity to give unconditional love as well as be part of what is natural to the universe and life itself has left a huge void which, despite how much I do to fill and how much I have forgiven the person I was then, doesn't take away the fact that I didn't bring a life into this world. When I look at 'unwanted' children or orphans who have contributed so much to the world, I can't help but think what my children could have done. Additionally, as one gets older, the only legacy you have is what you teach and pass on to others. What perpetuates a family is family and without one stories die... then what meaning does a grandma or father or aunt have?

10. How has your abortion affected others in your life?

To me, the biggest disappointment was to not have children so my parents could enjoy me as a Mother and enjoy grandchildren. My exhusband went on to remarry and have two children.

11. Based upon your experience, what would you tell a woman considering abortion?

That despite how confused she feels experiencing such emotional turmoil and 'what she wants' or 'what she thinks is best' to not be afraid. I was raped in my first abortion by a black man as a very young girl and more petrified of my father's reaction than my own feelings of what I wanted. Knowing friends who had courage and faith to have the baby changed their lives and those around them. Now that I am grown and learned so much, have studied yoga, have done soul searching, there isn't anything in the world that would make me more happy than to go back in time and face the dragon. Seems the more good one can bring in the world, the more the challenges from the bad side. And, because a child is life and hope, there is a fight. At the end of it all, it's life from a Higher Power, from God. And, if He chooses to let the pregnancy happen, there must be a way out of what appears to be a closed door situation for the woman. My faith is stronger now but the pain in learning that could have been spent in joy of sharing a new life. Conceiving is a gift and when you want it it doesn't always come... learn to love yourself enough to accept the gift.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I'd ask them who had sisters and brothers, sons and daughters, mothers and fathers. I'd tell them that it is not a choice to have. Understanding the higher metaphysical reasons, destroying spirits that have taken a human form, confuses the nature of things. I'd tell them they wouldn't be here if life wasn't held precious by the courts. And, who are the courts to decide choice. There is always the exceptional story, but now I wish wholeheartedly that in the time I was a young girl there were stricter laws. Not only for me, but for the young men. Some men suffer from abortion, others write a check. Having abortion illegal would have helped me NOT to make an abortion choice but to choose how to handle my situation. It is the most basic moral and ethical topic and no man or woman on earth should have the right to choose... rather the right to accept. God made life simple.. love and be loved and share and grow and joy will come. That's what makes it so difficult when too many man made choices are made.

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I consistently feel guilty, I can't forget and I know God says our sins are forgiven through the blood shed on the cross but it's difficult to accept the fact that a innocent human being was murdered. There's no other way of putting it. I committed murder (Thou shalt not kill).

10. How has your abortion affected others in your life?

It's affected my husband in many ways by not being able to fully forgive certain individuals that were a part of the reason I made my decision, even though deep down it was my decision, my mistake, my error.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! The consequences behind the action are life long.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That no man has a right to make a decision with life of what God has made an created.

9. How has abortion affected you?

For years I mourned the loss of my child, I felt guilty and made so many excuses as to why it would be better to have an abortion. Too young, still in college trying to better myself, my husband threatened to leave me. He already had a son and didn't feel ready to have another child. After the abortion I developed an eating disorder because I felt if I were not eating to nourish a life within me, why should I eat at all? I became depressed, I couldn't shake the presence of this pregnancy. I didn't keep count of how many months I would be if I hadn't terminated the pregnancy, but I felt the emptiness. When I became a christian and realized that the abortion wasn't a LOSS, it was murder and against God's commandments to us, I repented and asked God's forgiveness. That's when healing took place. I furthered this healing process by becoming educated. I still think about the abortion, but it's not painful anymore.

10. How has your abortion affected others in your life?

The only one that I can say it had affected is my daughter. She is now 19 years old and often wonders

how it would have been to have a brother or sister. She understands why abortion is a sin and the healing process it has been for us. I shared my experience with her when she was much younger and so now she has chosen to wait until marriage to engage in sex.

11. Based upon your experience, what would you tell a woman considering abortion?

Although not an easy decision, I believe I would tell any woman to put that child up for adoption. There are so many couples who can not have children and want a baby of their own. I don't know of all the resources out there, but I believe there are better options other than an abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that they are in fact legalizing murder, that it's ok to KILL. Once a law legalizing murder is implemented, life is really considered unimportant for that society and other life issues will arise considering life. Look at our present situation with men making babies and leaving them to be raised by other family members. There is no sense of responsibility over making a baby and seeing that child grow up.

9. How has abortion affected you?

I have felt extreme guilt my whole life, especially since having a child who survived at 27 weeks. I feel like a murderer and have suffered from depression all my life and I am now 52

10. How has your abortion affected others in your life?

I kept it a secret out of shame for the most part. I always feel that those I have told look at me negatively. They see my shame.

11. Based upon your experience, what would you tell a woman considering abortion?

That it is considered life from the moment of conception and that all life is equal from conception until death. No one should be able to decide to end a life that they have created.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Every human being should be thankful that they were given a chance to be born and know that they could have easily have been one one the millions who were not given that chance.

9. How has abortion affected you?

Yes, I carried guilt for almost 30 years until the Lord healed me.

10. How has your abortion affected others in your life?

Yes, I ended up marrying the father of the baby I aborted and it was like a silent wedge between us.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT!!! IT WILL RUIN YOUR LIFE..MAYBE NOT AT FIRST BUT THE GUILT AND

DEPRESSION WILL CATCH UP WITH YOU.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe every women should have to have a sonogram of her unborn baby ans see that it is a person. A helpless child that needs protection. Unless you've had an abortion you can never even begin to imagine the pain that follows you everyday of your life. We are killing our future, children, are our future. Abortion goes against the very nature of God which is love, abortion is an act of violence against the most innocent form of life, the unborn. Make adoption easier and less costly so that unwed mothers have more options and more people could adopt.

QUESTIONS

1. Where and when did your abortion occur?

Brooklyn NY

03//2000

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

Not told about any complications that could have occurred.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has been 18 years and I still am filled with shame, remorse, and get depressed and cry often over it.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

You will regret it the rest of your life. Do not do it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The harmful effects will continue to show up long after the actual act. It is a horrible option that was

made available to women and has detrimental effects on women both physically and emotionally. If the court really cares about women and their freedom, they would make abortion illegal.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They talked to me like it was normal, like I was doing a good thing for myself and society. In other words they manipulate and lie to everyone.

5. Were you adequately informed of the consequences of abortion?

Yes No

they told me it was a simple procedured with no side effects at such a young age

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

before I became born again and knew Gods love for me, I think it filled my life with depression on and off. I have had 4 abortions in the past. It was basically a normal thing and people are constantly fed the lie.

10. How has your abortion affected others in your life?

Not sure. I was very secretive about it.

11. Based upon your experience, what would you tell a woman considering abortion?

It is a no brainer, I am an advicate in my city now for pro-life. I want people to know the truth

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Our nation was founded on the truth of God and Gods word, he spoke and the foundations of the earth where created. The bible is very clear on God's heart for life and the children and the devistation it can

have on our country when innocent blood is shed.

My name is L P I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Brooklyn NY

01/27/2006

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

surgical

4. Were you adequately informed of the nature of abortion, what it is, what it does?

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I made a selfish decision to accomodate myself from an act of sex, that I should have never committed to begin with. I had just come to know the Lord during that time, and was battling between what I knew deep down I should have done, which was to keep it, versus the many reasons why I felt that I shouldn't have kept it. I interfered with the ooppurtunity for me to trust in God. Today I try to overcome shame and guilt that tries to arise. There have been many times where I feel shameful to even come before the Lord, because I feel like I disappointed Him. I even ask God to help me forgive myself, because an abortion is an act of murder. It's killing an innocent life, based on acts that should have never occurred in the firt place, if terminating pregnancy is considered a solution. The feeling of unforgiveness, shame, guilt, hurt, disapointment is great. You can't help but wonder what the child would have been, could have been, and now isn't because of the abortion. No has the right to take away the life of another. From the time of conception to birth, growth occurs becuae of the very fact that conception is the beginning of life in the mother who is carrying it.

10. How has your abortion affected others in your life?

Some are going through unforgiveness with themselves, others are forever curious to know what the possibilities could have been and regret going through it. Today abortion is treated like brith control,

when the only practice of "safe sex" is until marriage.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell a woman considering an abortion that this is an opportunity for her to see that God is real, and that life is a gift from Him. I will tell her that abortion is not an option in the eyes of the Lord or the child. That the only right choice to make is the decision to be responsible for the act and to choose life over death.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Based on my experience, I would tell the court that they are to interpret laws and not create them. That our responsibility is to carry out the laws that God has made instead of overriding them. That the blood of the innocent are as on the hands of those legalizing abortion, as much as the doctor performing the act and the person receiving it.

County of Onondaga

My name is Annette I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Utica NY

//1982

2. How many weeks pregnant were you?

3. What type of abortion was performed?

I don't remember - I was about 16 years old - I don't remember how many weeks I was.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was a kid, victim of different type of abuses in my home. Very religious family, afraid. . . .scared.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea of the guilt I would experience when i became educated later on, and the painful talks I would have to have with my children now who are adults, explaining to them why I wanted them, etc.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It's a decision I have to live with for the rest of my life that cannot be fixed. I struggled with anxiety for many years. There are countless ways and thoughts through my life, when I see a baby or when I watch my children and wonder about the child I never met.

10. How has your abortion affected others in your life?

Yes

11. Based upon your experience, what would you tell a woman considering abortion?

I would do my best to share the consequences in love, the health consequences, the emotional consequences, I would tell her she is loved and encourage her go full term regardless of if she was to allow the baby to be adopted or to raise the child herself.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I don't know - they don't seem to care. It's such a bureaucracy, I feel I would be just a number & they

wouldn't listen to me anyway. I'm focusing my efforts on prayer that God would move their hearts, give them visions and dreams. I'm praying for a day when abortion clinics would be closed down. I have a dream! Even filling out this form now . . . I feel the tears welling up inside.

The State of NY

County of Nassau

My name is Bonnie DiGeronimo. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Garden City and Roslyn NY

//1972

2. How many weeks pregnant were you?

3. What type of abortion was performed?

1st @8wks-D&C; 2nd @22wks-Saline Instillation

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

With the D&C, I was one of a group of women. Everything was done as a group. I felt like I was being herded like cattle. We were all told together the technical aspects of what the abortionist would be doing. We would have an IV inserted, that medication would be given to put us out and then the procedure would be done and we would wake up in recovery. Unfortunately for me, 4mos later I was still pregnant. I wanted to have the baby, but my family doctor said it would be grotesquely formed. He called the facility that did the 1st abortion to tell them his findings and then made the arrangements for the second. I would have to stay at a medical facility overnight and have the Saline Instillation.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was only told that if I had prolonged or increased bleeding or incapacitating pain after I was discharged home, that I should go to a hospital ER and have them check me for infection.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My sister, who was pregnant when she married.

9. How has abortion affected you?

I have had chronic depression from 1972, I became addicted to drugs and alcohol. I was in and out of bad relationships with men...abusive and battered at times, once raped. I have a personal relationship with Christ since 1981, but I know I still have not totally forgiven myself. I still cry.

10. How has your abortion affected others in your life?

My sister has also come to Christ and has asked forgiveness for pressuring me to abort my child. I had a child in 1978 and had problems bonding with her.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her exactly what the different stages of abortion are and what they do to her psychologically and physically. Also what her child will go through. She has the right to know.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That abortion is a debilitating procedure, that disables and scars a woman for life. It is not a constitutional right to privacy, since there is nothing in the Constitution that states that. That abortion is the murder of an unseen American citizen, that has no civil rights and that is unconstitutional.

9. How has abortion affected you?

Was suicidal for a while, and even though I got forgiven by God, I am still feeling the emotional pain of what I did.

10. How has your abortion affected others in your life?

Has not

11. Based upon your experience, what would you tell a woman considering abortion?

Not to do it, because it's murder of our own babies and it is something you cannot reverse, or take back. If I have a hard time forgiving myself and I have a relationship with God, imagine how they would feel.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would ask them if they would ever had had one, or anyone in their family. They can't make a judgement of something they don't know about. They should also educate themselves and see the sonograms of the aborted babies. Making abortion legal will be innocent blood on their hands, and they will feel God's wrath. They will be murderers of babies! It doesn't matter how big or small a baby is a

baby! They will reap what they sow! God is a just God, he defends the innocent! Thow shall not murder!!!

3. What type of abortion was performed?

I don't know the name of it

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not explained how the procedure would go, what would be involved, or given any type of support or information afterwards. I complained about my severe morning sickness, and I was only told that I would feel better soon.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not aware of, or informed of any after effects of abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend, mother

9. How has abortion affected you?

I had one child before the abortion. He is my only child. I have never been able to get pregnant since. I have been married for 10 years and we have not used birth control for nine of those years. We are unable to have children. My son has also grown up lonely because he has no brothers or sisters.

10. How has your abortion affected others in your life?

The only people who know are my mother and my husband. My husband is sad because we cannot have children. He has no children of his own. He adopted my only son. I am ashamed to tell anyone else.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell the woman to not have the abortion because she is taking the life of a completely unique person. I would tell her to find other resources for giving up her child if she does not want to take care of

it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that many people are being hurt by abortion. Many women are naive to the long term consequences. Many women are ashamed to speak out for fear of judgement from their peers. I wish the courts would offer abortion education and hear testimonies of women and their families who have been hurt by abortion.

9. How has abortion affected you?

In ways that cannot be verbally explained...emotionally and physically.

10. How has your abortion affected others in your life?

???

11. Based upon your experience, what would you tell a woman considering abortion?

To research the effects of abortion... Abortion will be the biggest mistake of your life.. For the unexpected crisis of unintended pregnancy is only a moment in time where we will choose to deal with this life choice... the decision of abortion however is altering in ways that will impact your life in such a negative way that can never be changed.... The aftermath burns a hole through the soul...

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

From experience I feel the system and society have failed the well being of women... The effects of abortion impact women in such ways that it truly alters who we are, how we parent, and how we are as women, abortion makes us callous to emotional needs and desires to ourselves and others...Aside

from the aftermath physically and emotionally, it eliminates responsibility for the desire of sexual integrity... Which is what puts most of us in abortive situations to begin with.....

The State of NY

County of Queens

My name is Rebecca Lee, MD. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

NY NY

09/15/1970

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I knew I would be ending an unwanted pregnancy but I tried to perceive the child as an intruder. I think if someone had said "are you aware then you will be killing your own child?" I might not have done it. Nobody said to me I would be ending the life of a human being.

5. Were you adequately informed of the consequences of abortion?

Yes No

After the abortion I began to have abdominal pain related to subconscious guilt. My mother asked me "how do you really feel about this abortion" I realized my wrongdoing and promised God if I ever became pregnant again I would never kill my baby. The pain, which I believe was gastritis or an ulcer, went away.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I missed out on having my child which I deeply regret. I call him/her Brett. I hope one day to see her/him in eternity. I believe it contributed to depression. I felt angry that my mother did not stop me and I feel angry with society for allowing this murder.

10. How has your abortion affected others in your life?

Two of my cousins had abortions 1 and 2, as well as my sister who had 2. This is a total of 6 less people in my family that I know of. I also found out that two of my Aunts had abortions bringing the total to 8 plus their descendants that were cut off. We are a family of mostly well behaved, educated, intelligent, giving and caring people who have been assets to society. We have no idea just WHO was

lost in this carnage. My sister became an alcoholic and died of breast cancer recently. My cousin never found herself or her place in life, became obese and died of a pulmonary embolism. One of my aunts never had children. Abortion = genocide

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it!!!!!!! Besides killing your own child, which you will regret, you can lose your own life, diminish your family, become depressed, get breast cancer, use drugs,

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

A person in a crisis pregnancy is panicking. She should be helped and loved to keep and raise her child. This is not the time to be allowed to make a life and death choice. In any event in no way should a child be murdered in the place it should be the safest, in his/her own mother's womb. If the person really can't raise her own child there are plenty willing to adopt the baby. Society should never permit abortions. It should be illegal.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NY

County of new york

My name is Maria DiTommaso. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

staten island NY

06//1980

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

I don't know. It was legal and I had anesthesia.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had a woman counsel me in the clinic. I only remember talking about how poor I was.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea how it would destroy my life. I only saw it as a quick and easy answer and the only answer. I remember crying over the decision beforehand and thinking what kind of society is this that I am able to make this kind of a decision.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

It wasn't pressure but my mother was for it.

9. How has abortion affected you?

I hated myself and sobbed for 10 yrs. Then my father died and I had to deal with the issue of death. I became bi-polar. I thought someone should be sending me to prison, so instead I kept going to cloistered monasteries as I was very Catholic my whole life. For the last 15 yrs. I am a born-again Christian and still struggled. However, Jesus is healing me.

10. How has your abortion affected others in your life?

To this day my mother would know how old my child would be. She kept reminding me every year until I became bi-polar. Since then she eased up on me.

11. Based upon your experience, what would you tell a woman considering abortion?

I don't think I could tell her what to do because I know I would become too emotional. I would want to grab her and shake her and tell her the nightmare it is. When you have an unexpected pregnancy you

fail to remember that God will take care of you and the child. You lose sight of hope. and believe the lies that abortion is your only option.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The fact that legalized abortion has done away with the old-fashioned orphanage in USA and has left many childless worthy heterosexual married couples barren as well as destroying victims of abortion; both mother and child; this is an outcry. Within my family and friends thousands of dollars have been spent abroad adopting children.

I was depressed and had a lot of guilt.

10. How has your abortion affected others in your life?

My husband always wondered what the kids would have looked like. He also has a lot of guilt.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion only gets rid of the baby and brings on a lot of heart ache and regrets.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the courts that they are not only killing the babies but they are killing the person having the abortion emotionally.

10. How has your abortion affected others in your life?

I see the lasting pain being born so many friends & loved ones who have had abortions.

11. Based upon your experience, what would you tell a woman considering abortion?

God has a plan for her & her unborn baby. God knew that this pregnancy would happen, and has a plan for it. What seems inconvenient or frightening now will be seen later as the most precious gift that there is.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is the murder of a person who hasn't yet been given the opportunity to speak for themselves. The unborn "fetus" is a life, it is a person, and just because you can't see it with your eyes, makes that no less true. Life should be protected.

HOW MY ABORTION AFFECTED ME

The State of NY

County of Broome

My name is Patricia Young. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Binghamton NY

01//1983

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was given half answers. When I asked about the procedure, I was just told that it was simple, that the baby wouldn't feel anything, and that I would feel lighter, and better than I did when I went in. When I asked if I could see the baby or know what it was, boy or girl, I was told that I really shouldn't bother to think about that. I was better off if I didn't know.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was given the belief that there wouldn't be any consequences other than that I would no longer be preg.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Planned Parenthood

9. How has abortion affected you?

I have hated myself ever since. About 3 years later, I saw a baby that had been aborted. I was sick, I couldn't talk, I was in shock. I REALLY didn't know what abortion was, I am not even sure what I thought it was, but I KNOW I had NO IDEA what it would have done to my BABY. I vomited, had nightmares for months, couldn't talk to anyone to this day about what I had done. I feel sick to my stomach right now.

10. How has your abortion affected others in your life?

I never told anyone.

11. Based upon your experience, what would you tell a woman considering abortion?

THINK IT OVER VERY WELL. FIND OUT WHAT IT IS YOU ARE REALLY DOING. KNOW WHAT IT DOES TO YOUR BABY, AND IT IS A BABY. I would tell them they are likely to be sorry for the rest of their life. They may never get over it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

THEY ARE WRONG, IT IS A BABY, AND IT DOES HURT EVERYONE INVOLVED. STOP IT, PLEASE. AND FOR EVERYONES SAKE, CLEAN UP PLANNED PARENTHOOD, THEY DON'T COME CLOSE TO TELLING YOU THE TRUTH.

My name is Dorina Hayes. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Rochester NY

//1991

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was raped when I was 15, and taken for an abortion by my mom, wasn't explained AT ALL what was going on, except a little discomfort.

5. Were you adequately informed of the consequences of abortion?

Yes No

Again, only explained discomfort afterwards, nothing else.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother, a boyfriend

9. How has abortion affected you?

I became promiscuous, had low self esteem and depression.

10. How has your abortion affected others in your life?

It was hard to trust anyone, and became jealous, not sure why I was depressed, and of course became very hard to be around.

11. Based upon your experience, what would you tell a woman considering abortion?

It helps nothing, it solves nothing, it leaves you wounded, and depressed. I never ran across a mom who says, "She wishes she never had her baby." BUT I do run across mothers who say, "I wish I had more."

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Not only are you killing a baby, even if you think it's not a baby, there is someone in that mothers belly trying to survive, to grow, once you play God and stop it from growing, you killed it, THE BABY! You leave the mother wounded, thinking she's ok, and she'll move on with her life happily, but one day, she feels like there is something, SOMEONE missing. And that's when depression sets in.

My name is D W I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Queens NY

04/12/1997

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

vaginal

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not given any information. I felt very alone at the time and didn't know what questions to ask. It was almost like an unspoken procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea that this was going to effect me for the rest of my life. I think of that child every day.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have felt a hole in my heart, an emptiness, something missing in my life. My self esteem is very low. I worry if my decision-making is correct. It hurts to see others enjoy the experience of motherhood, something I missed out on because I wasa too afraid.

10. How has your abortion affected others in your life?

Not many people in my life are aware that I was pregnant and went through with an abortion. Perhaps I wouldn't have had the abortion if I wasn't so afraid of what my family would think. I wasn't willing to fight. I took, what I thought, was the easy way out.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. You will regret it for the rest of your life. God has blessed you with a beautiful child and he will give you the strength you need to fight for the child and the hardshhips you will go through. Don't let fear take over what could be the best experience a woman could have, motherhood.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

How can anyone say it's ok to take the life of an innocent child. Every creation is a blessing by God. Where would I be if my own mother decided not to have me. Where would the president be or doctors and nurses, teachers, etc. We are all created for a reason and have no right to take that away.

3. What type of abortion was performed?

not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was given no information at all about the abortion procedure, what to expect, any possible side effects or complications. I was told this was not a real baby and they would take care of my problem and I could live my life. I actually wanted to leave and said I can't do this. Right before the doctor started the abortion but they just pushed me back and told me to calm down and they started the procedure with me crying and saying I wanted to leave.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was given no medical information re any physical , medical or psychological consequences and no psychological counseling before during or after the abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

the baby's father and staff at abortion facility

9. How has abortion affected you?

I felt profound grief, sadness, loss of self esteem and extreme self loathing and anger that never went away all these years until I went to Rachel Vineyard Retreat. I murdered my own child and felt there was no forgiveness for such a horrible action. I suffered from depression and required treatment.

10. How has your abortion affected others in your life?

I married the father of the baby but our relationship was destroyed as a result of the abortion and we divorced. He drank and used drugs after the abortion because he felt so guilty.

11. Based upon your experience, what would you tell a woman considering abortion?

To seek out alternatives , that there is help out there and people who do care that she probably is not aware of. There are pro life organizations that are there to help free of charge. That even though this might seem like a solution to a problem, it will become the biggest and worst problem of your entire existence that will haunt you and hurt you forever. You will never be the same again, you will emotionally and psychologically die and be ripped apart right along with the baby that is being killed. No matter what anyone tries to tell you or force you into , this IS A BABY! This is a human baby , not a clump of cells, not a problem to be gotten rid of; THIS IS YOUR BABY, YOUR CHILD! Educate yourself exactly what abortion is and does to that baby inside you and what the effects will be on you. Talk to a person who has had an abortion and get the truth about what the effects are. If I described the abortion procedure and told you it was being done to little puppies or kittens , you would be horrified and against it; think about it. I would tell thm that I had an abortion and regretted it terribly and how it effected me. I would tell them that I will be there to help them n any way I could.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is infanticide. People would be outraged if this was being done to baby animals, people would be horrified to think someone could do this to puppies, baby seals, kittens, but no one blinks at little baby humans being brutally murdered. The effect on the parents who participate in abortion is devastating and far reaching. No matter what Planned Parenthood or other big money organizations claim, there is irreparable damage done to the women and men who participate in abortions. I know this for a fact; they told me the same lie. I am here to tell you that abortion is murder, it kills the baby and psychologically kills the parents of that child as well. Please be our voice, the voice of all the defenseless babies who can not speak for themselves or defend themselves and the voice of all the silent men and women who have spent every day of their lives after the abortion haunted and broken. Please be the voice of my unborn child murdered in abortion and my voice begging for this tragic horror to stop .Look at the pictures of actual abortions, speak to the people who have had abortions, speak to the health care workers who can not particiapte in abortions anymore. Please make abortion illegal.

10. How has your abortion affected others in your life?

Most people did not like me because of the abortion and other excuses and reasons.

11. Based upon your experience, what would you tell a woman considering abortion?

NO, do not have an abortion. There are other alternatives such as adoption. At least you are giving your child life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

No, abortion is illegal. The first law was written in the Bible when Jehovah God gave Moses the ten Commandments, "Thou Shall not Kill" The United States Supreme Court made a "GROSS ERROR" when they legalized abortion on January 22, 1973. In my research, I have learned the Department of Health Vital Statistics gives issues Fetal Death certificates after the abortion. List on this Fetal Death certificate states cause of death "ABORTION or INDUCED PREGNANCY"

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

There was no preabortion counseling. I did not know what abortion was actually all about. All I knew was I was pregnant boyfriend did not want to marry me. And, a former boyfriend told me if the father of the baby was not going to marry me. Then, I should have an abortion. The former boyfriend took me to Dr. Jack Yoffa to have the abortion.

5. Were you adequately informed of the consequences of abortion?

9. How has abortion affected you?

Suffer from Post Abortion Stress Syndrome Post Traumatic Stress Disorder with Anxiety Isolated from others Every year my Aborted Child get older and older. I believe he was a male child and he would have been 30 years old this year.

10. How has your abortion affected others in your life?

Now, I protest Planned Parenthood and other abortion providers and counsel others not to have an abortion. I have researched what abortion is, the aftermath, and the negative effects, and will be defending my research this June 2009. "POST Abortion Stress Syndrome, Coping with the after effects of abortion"

11. Based upon your experience, what would you tell a woman considering abortion?

NO, "do not have an abortion" You will never forget the abortion or the child aborted. There are other alternatives, such adoption. at least you are giving your child life. I was not told this in 1972 and 1979. There was not preabortion counseling available.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I am working on telling the United States Supreme Court that they made a "GROSS ERROR" when they legalized abortion on January 22, 1973. The Department of Health Vital Statistics have recorded "FETAL DEATH CERTIFICATE" for the aborted children. On the Fetal Death Certificate states cause of death "ABORTION or Induced Pregnancy". I am trying to collect as many as possible and resubmit this new findings to the United States Supreme Court. This is the proof that abortion is illegal.

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

I don't remember what type, suction maybe - it was done at planned parenthood

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was too young to really understand what they told me. I just remember them saying how much it would cost and how quick & painless it would be and that at my age it was my best option.

5. Were you adequately informed of the consequences of abortion?

Yes No

They did not explain the emotional and psychological effects that would quickly come and would send me down a very dangerous, lonely road of destructive living!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriends parents and my mom

9. How has abortion affected you?

Thank the Lord I know I am forgiven but the road to recovery was hard - it took 15 years to forgive myself and accept God's forgiveness. I spent all those years lost in drugs, drinking, sex - just wanting to ease my pain. When I found a good man and wanted to have kids the docs told me due to damage of my fallopian tubes i would not have children - thankfully I have 3 beautiful teen daughters now, but had to have a hystorectomy after the 3rd due to excessive bleeding -the bleeding was the same after the second child as well. I have precancerous growths in both breasts and am being watched carefully, something i have recently learned is linked to abortion. I still weep and ache over the decision I made long ago and wish there had never been an option.

10. How has your abortion affected others in your life?

The outpouring of my pain was rendered in the form of yelling, bitterness, anger, depression -- so much

so that my marriage could have ended - it took much therapy from a Godly psychiatrist and the support of a loving husband to bring about healing in my life. I thank God every day that my daughters are still pure and I believe that if they were ever faced with an unexpected pregnancy they would choose life because they understand when life begins and the value of every life.

11. Based upon your experience, what would you tell a woman considering abortion?

Do your own research before taking the word of counselors and clinic personnel. If everyone around you tells you you should have an abortion don't listen to them, listen to your heart and to God if you believe in Him and I hope you do! Read the book *The Atonement Child* by Francine Rivers - it speaks beautifully to the longterm effects of abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Life begins at conception (there's so much evidence to prove it!) which means abortion is murder. Pro-Choice is just a nice way to say don't let this little unwanted pregnancy interrupt your life. It may seem convenient but only for a second - once you leave the table your life is changed forever in a very lonely and sad way - no one can carry that burden for you. Choosing life or death for an unborn child should never be a choice -- life is valuable/precious and we should never take that power into our own hands to determine which life is more valuable than the next!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NY

County of Albany

My name is Kathy I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Albany NY

03/17/1976

2. How many weeks pregnant were you?

20

3. What type of abortion was performed?

saline

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The doctor spoke only to my mother, as if I wasn't there. My mother didn't want any details so none were given.

5. Were you adequately informed of the consequences of abortion?

Yes No

The doctor injected the saline without ever speaking a word to me. I was put in a room, all alone (I was 16 years old). The only time anyone came in, was to tell me to stop crying because I was disturbing other patients.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my and my boyfriend's parents

9. How has abortion affected you?

I became deeply depressed. I drank heavily to suppress the pain and attempted suicide a few months later by cutting my wrist. Thirty three years have passed and I still mourn the loss.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

There are so many other alternatives. The emotional pain of taking your own baby's life, lasts a lifetime. While you may not have intended to get pregnant, no child is a mistake. Each and every one is a precious gift from God if not for you at this time, then for someone else who will love and cherish your baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

A fetus is not a clump of cells; it can only grow into one thing, a baby. Cutting off a their arms, legs, and head is barbaric. Sucking it brains out moments before it could take it's first breath is unconscionable.

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't really remember them telling me anything. Just that it wouldn't hurt.

5. Were you adequately informed of the consequences of abortion?

Yes No

They didn't explain anything about the procedure or what it actually did, Nor did they warn me of the psychological consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My husband

9. How has abortion affected you?

for a few years I buried the fact that I had an abortion.I had it and then never spoke of it again,but I remember that day feeling empty. Then I started drinking heavily and doing drugs and I know now that it was how I coped with the fact that I murdered my baby. After I had my 2nd son(I had a daughter prior to my abortion) it was very hard for me to relate to him and I felt really guilty and hated myself because I felt so bad that I was so distant from him until I realized it was because of my abortion and because of that for years he struggled with self esteem issues. About 10 years after my abortion I became very depressed, angry,and wanted to die because I could no longer live with the pain of what I had done. If it wasn't for my other children and my savior I would have probably killed myself if I could have worked up the courage. I just wanted the pain to end . I remember curling into to a ball and just begging God to take the pain and emptiness away. Finally through some post abortion counseling I was able to find forgiveness in Jesus but there still isn't a dat that goes by that I don't miss and want my baby back. I have yet to tell my children who are 27 25 24.I fear they will hate me so I guess in some ways it is still

a deep dark secret. I will be telling them in the near future though.

10. How has your abortion affected others in your life?

The only person who knows who is close family is my husband. I will be telling my kids and my parents soon though because my desire is to counsel other women so they can find forgiveness and healing,

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to think long and hard and make sure she has all of the information, and try to convince her through love that there are other options. I would share with her I had 2 unplanned pregnancies. When I was 17 I had my daughter when I was 18 I had my abortion. I don't regret one single day of making the decision to have my daughter I have 3 beautiful grandchildren because of it . I regret every day that I had an abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion has more than one victim . The longterm consequences are unrealized and I know if abortion had not been legal I would have had 4 children instead of three. It is the killing of an innocent human being and the consequences are far reaching even beyond my personal experience.

5. Were you adequately informed of the consequences of abortion?

Yes No

Not in the spiritual sense.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It made me carry unnecessary guilt for a very long time. It made me believe that it was okay to keep having sex while I wasn't married. It made me carry a belief for too long that man's laws and the world's outlook were an acceptable and healthy way of living.

10. How has your abortion affected others in your life?

How could it not?

11. Based upon your experience, what would you tell a woman considering abortion?

Council with a priest and a trianed psychologist.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Keep God in the schools.

The State of NJ

County of Ocean

My name is Denise I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Garden City NY

2. How many weeks pregnant were you?

3. What type of abortion was performed?

DNC type

4. Were you adequately informed of the nature of abortion, what it is, what it does?

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never told about the link to breast cancer.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I was depressed when I had it. I suppressed it, hoping to forget it ever happened. The thought of my unborn child popped up throughout my life. Two years ago I went to counseling at the Open Door to work through my feelings of guilt that were effecting me physically and emotionally.

10. How has your abortion affected others in your life?

My husband couldn't understand my depression brought on by the guilt of the abortion I had as a teen.

11. Based upon your experience, what would you tell a woman considering abortion?

It is a lie. It sounds like a solution that will be handled quickly and discreetly. But the abortion will be with you for the rest of your life. It will haunt you. It cannot be forgotten. The life inside you deserves a chance. Adoption is a better answer.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It seems the easy answer to those who are not personally involved. Little girls can't buy a pack of cigarettes but they can get an abortion? There is a pandoras box of issues that come along with abortion. Emotional, physical and mental side effects that no one is talking about. Why? Because the

government wants to take the cheap way out? I have never regretted anything more than that abortion. If I could take it back I would. But that is not an option. My only course of action is to persuade others to know that abortion should not even be an option.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

I get very depressed at times and my family is unaware of WHY. I have gone on antidepressants to hide my depression. Now that my life is "in order" I have had 2 miscarriages.. and we don't know "why". I can NEVER forget what I did. I wish I NEVER DID IT. I was soo stupid and Its now something I have to live with for the rest of my life and I cant even tell anyone.. I am soo ashamed.

10. How has your abortion affected others in your life?

MY WHOLE familY.. Yet they dont know it.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT.. It is something that you will never forget and you will most likely never forgive yourself. there are options.. like adoption.. or just have it and it will work out.. yeah my life would have been different but i relize now that I would have lived and adjusted my goals and life accordingly.. its what people do everyday when faced with life threatening/serious desions.. like fatal illnesses and cancer and even someone that you completely depend on passing away in a tragic accident. we adapt.. not to mention that i NOW KNOW & believe that I killed a BABY.. An innocent baby that had not a chance.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

First of all.. I think its crazy that the governement should have any say in what a person does to their body. BUT..In a sense I am releived to know that babys will be saved from such laws. The court needs to recognize that a fetus is a HUMAN BEING. It has a HEART BEAT. that in itself proves it HUMAN.. we have laws stating that murder is MURDER and violaters will be punished. How is abortion any different? If a woman makes a CHOICE to have sexual intercourse.. she has to deal with the consequences. Maybe we should promote abstinece. If abortions are illegal, I guarantee woman will think more carefully about having sex. just think of the dominoo effect.. Most likely less STD's AND Aids/HIV. Doing the RIGHT thing is HARD.. it's soo easy to do the wrong thing.. WE as HUMAN BEINGS need to take responsibility for our actions and stop looking for an easy way out. Which in this case Kills other HUMAN BEINGS.

QUESTIONS

1. Where and when did your abortion occur?

Philadelphia PA

04/12/1975

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Very little, if anything, was said to me about the procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nothing was said to me except when it was over, I asked if it had been a boy or a girl and the nurse said it was too soon to tell. So that proves that she knew it was a real baby, that it was a boy or girl, and cemented my devastation as to the fact that I had just hired someone to kill my baby boy or girl.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend

9. How has abortion affected you?

I have been forgiven by the Lord Jesus Christ, myself and my husband (who is not the father of the baby I aborted) but have always regretted the decision. I didn't know my baby would be ripped apart and put in the garbage. My son or daughter would be 34 now but I will not know him or her til I'm in heaven. Also, I have had 6 early miscarriages and an ectopic pregnancy and I will always wonder if the abortion caused them....

10. How has your abortion affected others in your life?

My husband had a hard time with it at first but has forgiven me. I still have not told my kids, who are now teenagers, about it but plan on it sometime in the future when I feel they're ready to hear about it.

11. Based upon your experience, what would you tell a woman considering abortion?

PLEASE DON'T! Find a Crisis Pregnancy Center and they will help you every step of the way. Just

please don't have your baby murdered by a so-called "doctor".

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It's not much different than innocent people being killed in heinous ways by Nazi Germany, Mengele, etc. I would show the court a video of just one abortion, maybe "The Silent Scream". Then I would ask them how they can make something like that legal....if they'd be okay with that happening to their child or grandchild.

2. How many weeks pregnant were you?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told anything

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no counsel at all.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have a tremendous amount of guilt shame. I also regret not having a child that would have been a brother or sister to my only child I have now. I am disgusted with myself and will never get over it. I have prayed to God for forgiveness a multitude of times.

10. How has your abortion affected others in your life?

I have not told many people, but my only child does not have a sibling because of it, and I live with that regret, not only the complete wrongness of what I did, but not to have the child has deprived my only child from having a sibling and from me having a sibling for my child to have for life. That decision haunts me and will always haunt me.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her not to and to go to a pregnancy crisis center or find someone who will take her in. I would even take a woman in and help financially. I would explain that there are permanent adverse consequences and that the decision will not fix anything, it will only make things worse. a

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that it is murder and that we know murder is wrong, so why should this be any different. In addition, it damages a woman's psych forever which in turn affects others the woman has to take care of including herself. It should not be legal to kill any living human being. It is a baby if it is wanted, but somehow it is only considered tissue, and it is just fine to kill the baby if it is not wanted for reasons such as inconvenience, reason, or embarrassment , which are sadly the reasons why women kill their children. The fact that the child is not called a child is completely wrong also because that is not the case. Just because a child is not outside the womb and is 1 to 40 weeks old should not make it right to kill it. Just as killing elderly people is not right. Why should the age of a human life make it right to kill it. It is not up to another human being to end a life. It definitely should not be legal. Murder is not legal.

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

When my father died I was faced with the reality of death and believed I would go to hell for committing murder. I then became bi-polar

10. How has your abortion affected others in your life?

To this day my mother, who is 76, can't say the word abortion

11. Based upon your experience, what would you tell a woman considering abortion?

No one tells you the emotional and mental torture you experience afterwards for years. You just think it is a quick fix and everything will be back to normal. I think raising a baby is a beautiful and scary experience. I raised my nephew but never had a second chance of my own.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

This choice should not exist in a humane society.

10/15/1987

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was probably adequately informed on the technical level however I don't feel I actually listened, because I was so scared...of everything

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no way they could have explained the pain I still feel today. The depression I went into the drugs the alcohol just trying to cover it up. Needless to say it didn't work. I am still trying to forgive myself for this and it is a work in progress.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

In so many ways. I have a great deal of guilt that I live with although I am healing at times I feel I slip right back to the start and relive it. I relive it daily.

10. How has your abortion affected others in your life?

I can't be honest with my children if they knew I took the life of one of their siblings, I just don't know. Its awful even though I was only 18 horrible, horrible state I was in. I truly feel it has affected my ability to be honest.

11. Based upon your experience, what would you tell a woman considering abortion?

Oh my there are so many things worse than being pregnant. Even if it doesn't seem like the right time, there is always something that will make it not seem like the right time. No that I have had children I breaks my heart that I could have terminated a child that was just as beautiful as these are. No greater

gift than life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That you can not legalize something that is already recognized by the legal system to be illegal.
Murder is illegal and this is murder in the saddest saddest sense.

QUESTIONS

1. Where and when did your abortion occur?

Vestal NY

//1992

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Not sure, I sort of blocked the whole thing. It was a vaccuem of some type.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I have no memory of anyone explaining to me the after affects of it. I fell into a deep depression for years and stopped taking care of myself. Before it, i was healthy and fit.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

Yes No

the father

9. How has abortion affected you?

I fell into a deep depression and stopped taking care of myself. I have two children now, and realize that having the abortion was the worst thing I have ever done in my life. I wish someone would have talked to me about remaining pure. The whole world made me feel like I should have been having sex with my boyfriend. when I became pregnant by him, he inssited in abortion. I After it was over, I remember feeling like I had no worth. I am not over giving up my baby, even to this day I think about it and regret it. It is very painful to make a mistake that will impact your life forever.

10. How has your abortion affected others in your life?

I no longer know the man who would have been the father. My husband knows about it, however, we never discuss it. I never told anyone in my family about it, nor my friends.

11. Based upon your experience, what would you tell a woman considering abortion?

Please reconsider and do not have an abortion. There are so many good families who would adopt a baby and give it a loving home.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion has been the root cause for my depression. It has brought a dark cloud over every day of my life, even thou I have gone on to marry and have children. I wish I would have been taught to keep my body pure instead of being encouraged to use birth control (that didn't work) and have abortion to fall on incase of an accident. when I went in for the abortion, I never thought it would affect me the way it has. Every day I think of that baby that I allowed to be killed. It hurts and doesn't heal.

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I went in for the consultation appointment the week before and they said they could perform the abortion that day so we skipped the consult and I was informed of nothing.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was given no information.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Everyone except my dad.

9. How has abortion affected you?

I have judged myself harshly my whole life and never felt adequate as a mother raising my children. Low self esteem and hard time forgiving myself.

10. How has your abortion affected others in your life?

I'm not so sure it affected anyone else except maybe my children in the way I raised them.

11. Based upon your experience, what would you tell a woman considering abortion?

I would advise the woman not to abort. That they are carrying a real baby and not just tissues. When they abort the baby they are aborting a human life and not just a pregnancy.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say that life begins at conception. But I know how the law is and it would do no good. The world

is backwards and people are taught to believe that a pregnancy is not a baby. People are taught that they have a choice. In my opinion we already made our choice having sex knowing we could get pregnant. If you ask me society killed my baby along with me.

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

They did take me inside a small room and as it was obvious that I was in turmoil over my/our decision, the woman said, "You are going to have problems with this aren't you?" I said, "Of course I am!" They still did the procedure.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father of the child.

9. How has abortion affected you?

I have suffered deep regret and a longing to die myself to be over the pain.

10. How has your abortion affected others in your life?

I have only told two people and three priests.

11. Based upon your experience, what would you tell a woman considering abortion?

Find another way. You will come to love your child as much when they are born as you also will come to love them when they are dead to you. Just don't do it. Your conscience and all that is within you will be saying "No." Listen to that prompting.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We were founded as "One nation under God." God would not and will not bless a nation who allows abortion. Mighty powers fall when they act according to the norms of society instead of the laws of

God. Women are suffering severely from the affects of aborting their own children. Why would we want to be part of all this human suffering? Legal? We can make anything legal. I don't know of one person who wants abortion to be legal other than for a woman's right to choose. Please help us to make better choices and give us options for life! You can do a good thing for humankind. We are co-creators with God and we who have aborted children are weeping right along with Him.

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

My doctor just scheduled an abortion. I was told it was a few cells.

5. Were you adequately informed of the consequences of abortion?

Yes No

I do not remember being told I may miscarry in the future and may not be able to have children.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Everyone. There was no other this was what to do?

9. How has abortion affected you?

My whole life from the moment. Everything inside of me told me to leave once I put on the hospital gown. Now, I know it was God telling me not to do it? Because I did not want my dad and boyfriend to suffer in giving up their lives to raise this child, because I loved them so much, I did it. No one told me no have your baby you love and want so much. At that time, I said Jesus, now I must really do something with my life because I killed this child! It has been my driving force ever since. Worse, I had five abortions more as a born again Christian after I did have a child and she was kidnapped by my born again husband and inlaws at the time. She was only nine months old. The Blessed Mother has since called me to her son in the sacracments. And because of priests for life, EWTN/Mother Angelica, Our Lord, Holy Father Hashem and Our Lady, Saints, and the Holy hosts of Angels of God, I now know the truth. I have found through the Legion Of Mary/sister, The Sisters of Life and support Silent No More with great happiness.

10. How has your abortion affected others in your life?

It effected everyone because it set the course of my life.

11. Based upon your experience, what would you tell a woman considering abortion?

No, it will kill your life, your friends your family, our country. No do not do it. Keep your child, be happy and prosper.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You are killing all involved including yourselves. Show them the pictures of the developing children in the womb. It is not a few cells. Tell them God says he knew us before we were born so we are surely there alive with a soul and seen in the pictures of babies in the womb.

3. What type of abortion was performed?

DNC

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

No effects were explained other than mild cramping and to call if fever developed.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Am now a recovering addict/alcoholic. Was promiscuous. Emotionally unstable. Depression. Guilt ridden.

10. How has your abortion affected others in your life?

My husband (was not his child aborted) feels the effects of our own lack of children and the remorse over the aborted baby as well. My grief and depression of course affect him.

11. Based upon your experience, what would you tell a woman considering abortion?

That it is the greatest regret in my life. That not a day goes by that I don't regret choosing to abort my child, what turned out to be much to my surprise, the only child I ever conceived. That I've never once heard a woman regret having a baby. That I would do everything in my power to help save her from the pain I have had to go through and help her give life. That I can promise her one thing with no doubt: she will not regret giving life to her baby but will regret choosing death - if not now one day for sure.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

All of above (#11) plus this: I never imagined at 19 or 20 that the only child I ever conceived I had aborted. Abortion is NOT good for women. They who have sold it as such are so gravely mistaken. I was one who bought what they were peddling - that it was the only "solution." I spent decades in grief and depression and will forever miss my child; my only child whose life I took away. Abortion is the worst possible punishment ever inflicted on women.

3. What type of abortion was performed?

not sure what type it was

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The abortion was arranged by the nurse practitioner at the local health clinic in my town...I didn't make the appointment. I just knew that I wouldn't be pregnant anymore after the abortion was over.

5. Were you adequately informed of the consequences of abortion?

Yes No

No - no one told me that I would suffer emotionally with the loss of the pregnancy and the subsequent loss of motherhood.

6. Were you informed of any link between abortion and breast cancer?

9. How has abortion affected you?

I have suffered emotionally over the years and now that I can't have children biologically, feel even more remorseful over my decision. I regret it everyday of my life.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them not to do it because of the consequences - the emotional trauma is not worth it. I would tell them about the yearly pain of another year going by and thinking about how old your child would be, what they would look like, what kind of personality they would have. I would tell them to overlook their current circumstances and look to the future without their baby.

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

My life was leading to death. There was nothing valuable to me. I felt as if my soul had no hope, there was no gaining the love I had for my self, for my body, and for my life. I allowed men to use me, and used men, which isn't normal in any sense but done endlessly. My life was dragging me to the ground. There was nothing good, beautiful, pure, or precious left of me. I felt robbed, as if someone stole something from me.

10. How has your abortion affected others in your life?

It's opened an awareness to the effects. Even more, the healing process, how to be supportive and not bashful. Contrary, they are deeply hurt that there's a being in there life that could of been loved dearly. Others do feel resentment towards my decision, and are learning to accept it unfortunately.

11. Based upon your experience, what would you tell a woman considering abortion?

Everything seems dark when trying to make a decision on keeping a baby. But it's always darker walking out from the clinic. Nothin positive comes out. Having an abortion is literally snatching a part of you that can never be given back. It's always a regret and never a blessing.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I can never be denied of the pain it drove into my heart. It's monstrous but yet done in such a light manner. No court should ever be above human law and the right to life. We're so caught up in trying to please people that want to have a choice, but in the end making abortions illegal will be protecting them from a place as dark as lost hope. No words can explain the journey of walking in the shoes of a woman that has experienced having an abortion. Abortion is made a vague term mainly because of the heaviness of the matter. And it should remain so because life is too precious to be denied that it's not. Big-minded people that want to appoint the law should never consider trying to debate what is life. No one has the right to make the choice that it's not. God is who determined when conception takes place. We are no one to say otherwise.

HOW MY ABORTION AFFECTED ME

The State of NY

County of Queens

My name is Mary Beth Miller. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

New York NY

02/15/1980

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

My abortion took place many years ago. I don't recall what detail I was given - I was too emotionally distraught.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father of the child

9. How has abortion affected you?

I regret the decision to abort my child. I was 24 yrs old at the time and embarked on my career. I thought that having a child with a man that didn't want it would ruin my life. I didn't think I could go through with the birth and raising the child without the support of a husband/partner and that my ambitions would be stifled. What I now know is that bringing that child into my life would have been a blessing -- I feel an emptiness and pain deep within my soul.

10. How has your abortion affected others in your life?

I kept my abortion a secret for almost 30 years. I don't know how it affected others in my life. I believe my life would have been enriched by the child.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to be brave and not let others influence her decision. There are many people who will help her cope with the difficulties she may face. The life she nurtures and brings into this world is a sacred gift from God. The life she carries within is a human being - not a lump of tissue. There are many

couples who will care for the child if she cannot. Most importantly, do not let the fear of the attitudes and judgments of others around you push you to make the wrong decision.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The freedom to so easily "choose" abortion did not affect my life in a positive way. I live with guilt and regret 30 years later. In fact, I believe that my life would have taken a better course and been more enriched had I allowed the life within me the right to live. We are taking on the role of God in deciding if an human life will live or die. We have allowed a culture of death to take hold and the right to life is viewed as a our choice. We have disconnected from God. The sanctity of life has been destroyed, reduced to a clinical determination - suctioned down a tube as medical waste. Listen to those of us who've had years to reflect on our decisions. Let's teach the value of human life and change the way we treat one another once we are conceived and brought into this world. Women would be better served by a loving and accepting culture of life willing to partner with her and her child as needed.

HOW MY ABORTION AFFECTED ME

The State of NY

County of Suffolk

My name is Veronica D'Angelo. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Rockaway Bch NY

10/29/1985

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

After the doctor told me I was pregnant, she said, she does abortions. I was never counseled about nothing. She knew I was so scared and this was her answer to me. All I knew was abortion ended pregnancy.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told nothing about any kind of consequences, just to have the abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The doctor and my sister.

9. How has abortion affected you?

After the abortions (I had 2) I lived with such guilt, shame and fear of what I had done. I would get depressed and very angry towards my boyfriend at the time who later became my husband. I had a unhealthy fear of getting pregnant and when I did I suffered with severe panic attacks and depression through my pregnancy. After the birth of my other children I was extremely over protective of them and had a very unhealthy fear of God. I never trusted my husband because I felt he didn't protect me and I was very bitter toward him and blamed him for everything that went wrong in our marriage. I would be angry or depressed and unforgiving towards myself and my husband for having the abortions. There's not a day that goes by that I don't regret what I did.

10. How has your abortion affected others in your life?

I could not allow myself to get close to my husband and I started to hate him because he allowed the

abortions and our marriage slowly deteriorated. I lived in constant fear and battled on and off with depression and I was extremely over protective of my other children and would not allow them to do anything or go anywhere without me, because I was always so afraid something bad would happen to them because of what I have done.

11. Based upon your experience, what would you tell a woman considering abortion?

I would encourage her with all my heart not to do it!!!! That it's not the answer to her situation and not to be controlled by her fear and believe the lie that abortion is no big deal. I would tell her what it did to me and how much I have suffered because of an abortion and I would try to help her in any way that I could.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That abortion is one of Americas biggest downfalls and it will continue to destroy our nation because it's destroying our women. When we believe the lie that killing off our next generation is the answer because of our own selfishness, pride and perversion we've become monsters. Any woman who says abortion is ok is already dead in her mind, body and spirit. She no longer feels with her heart, but lives in darkness. Abortion will affect you for the rest of your life there's nothing good about it. And I haven't met one woman yet who said that she was so glad and thankful that she had an abortion and that it makes her a better person for having one.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NY

County of Queens

My name is E M I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Brooklyn NY

05/07/2011

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

manual aspiration vacuum abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Doctor understated the procedure stating it was "natural" and all she would do is stimulate the uterus to contract on its own. She said it would feel like period cramps for a few minutes and then I may have slight bleeding for up to two weeks. She watched me like a hawk to make sure I took the painkillers when I really wasn't even committed to having the abortion. She made me feel like I was "infiltrating" the clinic if I did anything "suspicious" - meaning give any indication that this wasn't what I wanted or change my mind.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was only told that there was a slight possibility the bleeding would be too heavy and I might have to come back in or take something to stop the bleeding if I soaked through more than 1 pad per hr. I wasn't told of any other consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Not pressured, but boyfriend wanted abortion

9. How has abortion affected you?

I can't even explain how devastated I am. My whole life feels like it's over & wrong & I know I was supposed to have that baby. I feel like I can't live with the regret & I wish that abortion hadn't been a readily available option. It never crossed my mind until my boyfriend mentioned it and then I felt like I had to honor his wish because a baby would change his life too. Now I would do anything and take any consequences to go back and undo what I've done. I just feel sick to my stomach every day and feel like I'm getting closer to hysteria every day. I used to be such a happy person & now everyone

asks me daily if I'm ok or what's wrong. I just can't accept that I'm NOT going to hold a baby in a few months. I can't imagine ever getting over this loss.

10. How has your abortion affected others in your life?

My boyfriend, who was the one who suggested abortion as he is joining the air force & will be moving around for the next year or so - I see how this has affected him as well. He stated that he wished the timing was better before we went in for the abortion. If he was more stable, we both would have wanted and had the baby and made it work. This is devastated both of us. Neither of us has told anyone, but everyone around me is affected as my whole demeanor has changed - I can't stop being sad and I am in constant grieving.

11. Based upon your experience, what would you tell a woman considering abortion?

I can't even find the words. Please, please give yourself time and think it over and don't be swayed by anyone or anything else around you. There are ways to make it work, there are organizations that will support you and help you to have this baby. There are always options and a way out. This is a loss that will haunt you forever and taint your life from this moment on if you go ahead with an abortion you were never 100% for in the first place. This isn't just a pregnancy, it's YOUR baby, and when it's all done and the dust settles, you're going to think about how you could ever decide that YOUR baby didn't deserve to live & be born & held & loved as much as someone else's baby who they get to hold and take care of and fall in love with and watch grow and play. Wasn't my baby worth it? Didn't he deserve it 1,000 times more than other living thing on this earth?

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I have no idea of the scars on my soul where the admiration for my baby should be. I wanted my baby, but because of ease & availability of abortions I never got time to think things through or stand up & protect my child. My whole life is ruined. It's a man's natural response to panic & woman's natural response to rely on the man in her life. When abortion is so readily available, even good men who'd make amazing, outstanding fathers if put in that position, grasp onto the only relief they see in their panicked state. Women, hungover w/ hormones, desperate for support/assurance, feel they should "do what's best for everyone" & go along w/ their partner's 1st instinct. Every1 tells selves they'll accept it once it's done. But the truth is, no1 should have to convince selves of anything. If an escape route wasn't so readily available, almost marketed, then we as human beings responsible enough to engage in sexual activity, would have to take responsibility for the situation they find selves in & even excel. 1 day their grown children'll look back & appreciate all their parents did & who they became because of their child & out of these situations come the brightest of our future. My baby would've been the most loved, happiest, healthiest child on planet if I hadn't walked into that clinic, which I fully intended to walk out of still pregnant. I failed my child & I truly wish I could be w/ him right now 1 way or another.

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was mis-informed by Planned Parenthood - and too ignorant about life to know any better

5. Were you adequately informed of the consequences of abortion?

Yes No

Did not understand the lasting impact. Did not understand sin.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

lingering guilt - questioning what should have been

10. How has your abortion affected others in your life?

unsure

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them to take a lot of time, alot of prayer. I would also send them somewhere like Care-Net - and strongly suggest an ultrasound - I would explain that life starts at conception. I would explain that sin is disobedience to God and that abortion is murder. One day they will face God and without the blood of Jesus - they are guilty - but even believers will have their life shown out before them. Every word and every action counts.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

when it is legal - it makes it easier - the world says it is ok, but it is not ok with God.

Father of the baby at Gun-point

9. How has abortion affected you?

Emotionally empty, as I've lost many family and friends, my house, living children, a career, and so much more due to mental instability. Post-traumatic stress disorder and many other mental disorders that need to be watched closely. Been suicidal many times over the anniversary. Feelings of Unworthyness - Guilt and shame. Overcome by knowing the forgiveness of the Lord and knowing HE will pull me through gives me the strength I need to carry on. Work in post-abortive ministry has helped a great deal in knowing that I'm not alone.

10. How has your abortion affected others in your life?

After the abortion, the life literally came out of me - I became a living zombie. Many friends and family simply Lost faith in me...and lost a wife, mother, friends and family - due to judgement of the forced choice. It's made many of them think that I'm evil or bad and should be punished for the life I took...

11. Based upon your experience, what would you tell a woman considering abortion?

It will not only kill your baby, but also a part of yourself as well. The baby is just as precious as you

are, giving it a chance to live, even if placed in a loving home is still better than MURDER, and you won't live with the guilt. Do you even know what they do to your baby?! It's not a blob of tissue, it has a heartbeat and fingerprints unique in every way, just like you. It's a blessing, not a burden - embrace your gift! Here's how I can help...

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Allowing the Killing of Babies is wrong, ethically and morally. It shouldn't be a choice, because many times-it's NOT a choice, instead it's FORCED upon many women. Your mother gave YOU a chance- and far too many are not (over 50 million)! Be grateful for the life that you Have, because too many are murdered because of YOUR laws allowing the mass genocide to happen. It doesn't help me sleep at night and it shouldn't help you knowing what YOU allow to happen in this state or country. Stop the violence starts from within the womb. I plead with you to stop funding Planned Parenthood and Abortion Clinics, and instead give the funding to Pregnancy Care Centers where mothers to be are educated on what "could be" for their babies. Many loving couples await the call to be parents and adopt a baby. Nothing is wrong with LIFE, we live it each day - but Everything is wrong with MURDER and Nothing is being done about it. I'm a voice for those who have no voice-stop the lies that are being told and start making the reality be exposed. The stats are in, and Abortion kills more than guns! THIS IS THE WORLD WE LIVE IN.... WAKE UP AMERICA!

QUESTIONS

1. Where and when did your abortion occur?

Hartford CT

08//1990

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

I am not sure, I think Vaccum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They probably explained it to my mother who did not explain to me, as I was 14 years old. All I knew was that when I wake up I would not be pregnant anymore.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told anything about how I might feel or side effects . Perhaps they did tell my mom, but I was totally ignorant.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I was in a deep depression about it for from about the age of 14-17. I had to be hospitalized, cut myself. No matter how much I got counseling I could not get over it. I never knew that I would feel sad. Even now, after the depression, I have to talk about it almost as if it was another person so I do not get to attached,, I am still weeping over the loss.

10. How has your abortion affected others in your life?

I don't know my mom has never talked to me about it and it is pretty much a secret to everyone else.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't do it!! Please...Please. Even Rape is not a reason. I was raped that was the reason for my abortion and I still suffer the consequences. It is hard for me. This is not a quick fix as people say, it is something of which the consequences will last a life time. You will try to do good t hings even to make up for it, but it is not something you can ever become at peace over. You will wonder about the child and it will be worse when you decide to have children.. The scars will be fresh again and you will say to your self " Oh my.. I am a wicked mother... I murdered my child" I thought it waa just nothing but cells I got rid of. In counseling they try to convince but you know deep in your womb it was your child.. PLEASEE.. I beg you DO NOT DO IT.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Some of what I said above and also.. how is it America has become so double-minded. How do we convict Scott Peterson of murder for the life of his child in utero, but yet we sanction other types of murder. Abortion is not what it is advertised to be. It is an emotional and physical health hazard and should be banned. All of us started in utero.. would we even like to take a moment to imagine...What if our moms... I think not.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NY

County of Westchester

My name is Saabira Ali. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Tuscaloosa AL

05//1976

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It's been a very long time and I don't clearly remember all of the details, but I was told that it would be painless and quick, and that I would hear a "sucking" sound like a vacuum cleaner.

5. Were you adequately informed of the consequences of abortion?

Yes No

I remember them being surprised because when I was asked how I felt about abortion I said that I believed it was morally and spiritually wrong but that I wanted it anyway. I was speaking to a counselor who wanted to determine how "fit" or "sound" I was to have an abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Over the years I have made my peace with it because I truly believe in the power of God to heal. I have never denied that it is murder and I asked God to forgive me and to help me forgive myself. On occasions I think of whether or not it was a girl or boy, and how old that child would be now. I also think about what type of person he/she might have grown up to be and what he/she would have contributed to the world.

10. How has your abortion affected others in your life?

My daughter at age 16 had an abortion without my consent and I was horrified for a number of reasons, particularly that they performed a major medical procedure without parental consent or knowledge. They won't give an aspirin to a child in school for a headache but this they do. I did tell her at that time about my abortion and that I understand the fear and anxiety that makes a woman make that choice. I also spoke about owning what you have done, repenting, and forgiving yourself.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that abortion is murder and that is a very permanent solution to a temporary anxiety or fear. I would tell her that God has a purpose for every life and we don't have the right to take that away.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that if abortion should be legal, then so should all murders. I know that this is a fast changing world that does not care about what the Bible says, but thou shall not kill is a real commandment from God and there is a consequence to breaking the commandment. There is a higher standard and we should strive to uphold that standard. Government needs to lose its "almight attitude" and seek to I would tell the court that if abortion should be legal, then we should legalize murder in general because abortion is murder. When does life occur? It's always life because the seed is alive and has all the potential to grow into human life, which no one has the right to take because of the commandment from God, "thou shall not kill."

QUESTIONS

1. Where and when did your abortion occur?

Queens NY

09/14/1987

2. How many weeks pregnant were you?

3

3. What type of abortion was performed?

I do not know, and I had two abortions. Another one in 1995.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The first one I was just told to change and lay down. No briefing before or afterwards. The second just went over the application, and asked if I needed to speak with someone.

5. Were you adequately informed of the consequences of abortion?

Yes No

The first one I was told to get dressed and that was it. The second one, once I was able to move I was told I could leave and gave me a paper of signs if I got sick.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

First one, ex-husband, 2nd one I had no choice.

9. How has abortion affected you?

I don't trust anyone. I don't feel worthy or can ever be the same to love or have a chance in life. I constantly have problems with my ovaries and cervix, and have been operated numerous times, and it is all my fault for allowing it to happen.

10. How has your abortion affected others in your life?

It is hard for my fiance at times for him to get close to me emotionally or intimately. My daughter I can close myself out at times with her at self.

11. Based upon your experience, what would you tell a woman considering abortion?

There are many people out there that can help and support you in having and saving the life of your child. You will not regret in saving the life of your child, but if you decide not to you will regret it for the rest of your life. You will never be the same.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion kills not only the life of the innocent unborn child, but the life of the mother and the family left behind suffering on the unmistakable unforgivable decision one made.

My name is Mary Ellen Hancock. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

New York NY

06/29/1973

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

I believe D&C, but I was pregnant with twins and the early abortion did not take both babies

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I got my abortion right after the law took effect, and everyone felt it was like going to the dentist, no big deal. I went to a clinic at first and there were many women there, in fact it was packed. When I came back a few weeks later still pregnant, I saw my doctor and he was very upset, he told me because of the earlier procedure, I had to abort the other baby and it would be a difficult procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

As I wrote above, people in the early days acted like to was nothing, that I should expect no consequences, that I would feel fine after almost immediately.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I am 60 years old. I just began recovery for the effects of abortion last year. But, after my abortion(s), I drank heavily, and when I drank I would sob about my abortion. I used to make sad paintings about it and suffered severe depression. I finally got help through Alcoholics Anonymous and therapists, and have lived a sober life. I have experienced some success in my life and work, but I have never married.

10. How has your abortion affected others in your life?

It has definitely impacted my family. They knew I was suffering a great deal, but they did not know the cause.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her absolutely not to have an abortion. That she will be haunted by the experience for the

rest of her life. That the abortion doctors are not telling the truth and they do not have her best interests in mind. That if she wants to live a free and sane life she should have the baby and give it to a good home through an adoption placement organization.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell a court that legal abortions kill children and sometimes irrevocably wound the parents. I listen to the the supporters of legal abortion and they act like they have not done their homework on the truth of this heinous procedure -- especially after sonograms were invented, and doctors could see the infants scream and fight the process because they want to live. Unbelievably, the lawmakers act as though they really believe that abortion is in place primarily to serve women who come from poor backgrounds. I believe these lawmakers know the truth, that abortion exists primarily to serve the hook-up culture of our day and the sexually addicted. It is not coincidence that this law was installed upon the ascension of the "sexual revolution." We are living at a truly insane time. Animals have more rights than infant children preparing to be born. Save the whales, save the polar bears, but kill 50 million infant children? I can only imagine the writers of history in the future who will look back on this narcissistic culture and judge us as monsters. A truly civilized and enlightened people would be building centers to celebrate and facilitate births, adoptions and the support of loving family environments. Clearly our current state reflects a terrible dark time in history, a decline.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NY

County of Suffolk

My name is V C I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Hicksville NY

11/10/1985

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

YES!!! Being of Christian faith, realizing what I did was wrong--- and having to push down the shame and guilt. I have an eating disorder now, even though God has blessed me with a child, I still feel I am not worthy of being a mother. I killed one of God's children. Each fetus that is aborted has the potential to be an Einstein, Michaelangelo, Lincoln, Martin Luther King, or to save the world from all of pollution..... What are we doing to ourselves???? Nature will find a way to correct itself.

10. How has your abortion affected others in your life?

Of course- a direct impact of my depression, eating disorder, anger, guilt and all the other issues I suppress, has a direct impact on those around me!!! How can it not?

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT DO IT, there are so many consequences that effect you psychologically, physically, and emotionally, that the medical community has NO CLUE how this will impact you in the future!!!! Each and every person has their own life experiencesm, and the impact will vary with each different personality. Therefore, how can the medical community predict which box you will fall into, unless they do a complete history of you PAST PRESENT and FUTURE?????

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

NO ABORTION SHOULD NOT BE LEGAL. Just as lawyers argue cases, many cases test the validity of the "spirit of the law" as it was created by our forefathers. Many situations are presented where the "bottom-line" must be determined as either RIGHT or WRONG! ABORTION's bottom-line is just WRONG! To have killed 15million lives, and be so ignorant to think that has no impact on the future is simply WRONG.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NY

County of Herkimer

My name is Mary I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Englewood NJ

05/18/2000

2. How many weeks pregnant were you?

20

3. What type of abortion was performed?

NOT an abortion as I had already miscarried...was a D and E performed there as per doctor's orders.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had already miscarried at around 5 months pregnancy. My doctor had told me that my body might not expel my deceased baby because I had trouble delivering my child previously. I was told by the nurse at the hospital clinic I had gone to for prenatal that I had to go to Englewood, NJ to have the fetus removed...but she NEVER SAID IT WAS AN ABORTION CLINIC (they used ANOTHER "term" for the abortion clinic (which I never heard of) but I assumed it was a hospital they were sending me to! When I got there I KNEW it was an abortion clinic by the "looks" from the outside, I immediately called that prenatal hospital clinic very upset...they said, "Sorry, we thought you understood it was an abortion clinic. The State of New Jersey does NOT allow 'regular doctors' to perform this procedure...the abortion doctors are EXPERTS at it!" I was so frightened and upset over the miscarriage that I stayed anyway and had the TWO DAY procedure done so I wouldn't die.

5. Were you adequately informed of the consequences of abortion?

Yes No

AGAIN...I had already miscarried which is why I was there in the first place. They DID make me sign "consent forms" acknowledging the "danger" of abortion and also acknowledging that they could do "whatever" they wanted to the fetus' body after the abortion, i.e., laboratory testing, etc. To be totally honest, I can't recall whether they told me of the consequences between abortion and breast cancer. I think I would remember that if they had.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

The procedure was HORRIFIC. That night I suffered UNBELIEVABLE pain and agony! I couldn't eat, I

couldn't sleep. The next morning I returned to the clinic to continue the rest of the procedure. I had to wait all morning in an uncomfortable waiting room chair in AGONY from the pain! When I woke up after the procedure, I was in the next room where there were "cots" filled with other women. Also, I woke up in a POOL of BLOOD...the nurse rushed over to help me (she DID look concerned). The nurse helped by cleaning my sheets (and whatever else, I don't remember). I heard a young woman in the corner of the room screaming, "Oh my God, what have done? What have I done?! I'm SO SORRY!!" A couple hours later I was sent home. At home I couldn't sleep, and by 10 pm I was "crying uncontrollably." I went to an emergency room at 1 am. ER doctor gave me a sedative and a prescription for sleeping pills, and I was sent home. At LEAST I heard the nurses at the clinic tell the women, "We do NOT want to see you here EVER again. You did it this time, and it's over with, but it is NOT the answer, and you WILL regret it." Now, if abortions were "okay" for a woman, then WHY did the nurses tell these women NOT to come back?

10. How has your abortion affected others in your life?

My mother, who was VERY concerned for me, was UNDULY stressed by the abortion clinic's policy of NOT letting my own mother see me. She was also the one who I called for advice when I could NOT stop crying once I returned home. My fiance' at the time, who brought me to the abortion clinic, was also affected, of course. He waited with me those TWO days at the clinic and spent the night with me in the motel while I was in complete "agony" from pain. He felt helpless. Not only had we lost our only child due to miscarriage, but he had to see me in complete misery as well. He also had to take me to the ER at 1 am due to my emotional distress.

11. Based upon your experience, what would you tell a woman considering abortion?

I'd tell her, "DON'T DO IT!" (I'd also tell her my WHOLE experience in an abortion clinic.) "Not only are you KILLING your OWN CHILD, and you WILL regret it afterward or sometime down the road, abortion HURTS YOU emotionally AND physically...it's just NOT worth it! Either keep the baby (where there's a will, there IS a way) or put it up for adoption...but DON'T HAVE AN ABORTION!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them MY COMPLETE EXPERIENCE in an abortion clinic and the aftermath due to it...leaving NO DETAILS OUT! Abortion KILLS babies in the womb and also causes severe detriment to the woman (i.e, severe pain, emotional distress and profound regret following directly after the abortion.) (As you can see, I feel VERY strongly about this.) I would ALSO tell them that if I EVER had another miscarriage, I would rather wait home for my body to expel the baby OR DIE then EVER step foot in an abortion clinic again!! Thank you SO MUCH for letting me speak up about this; the TRUTH MUST BE TOLD.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NY

County of Nassau

My name is Christine Bridges. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

New York NY

09/15/1972

2. How many weeks pregnant were you?

24

3. What type of abortion was performed?

Saline injection

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was too late to leave the clinic before the injection. I did not want to burn my baby to death with salt. The girl next to me had a second baby left in her and they had to come back to kill that one too. I was crying and hated that doctor for injecting me despite my protest.

5. Were you adequately informed of the consequences of abortion?

Yes No

After the abortion, I developed a full body infection and almost died of infection. I could not talk for a year and a half after wards without crying. I went to therapy and was never consoled. If only I had ripped that IV out of my arm and left the clinic as I have done many times afterwards whenever I am hospitalized I have to prove to myself that no one can get me in a compromising situation like that again. But no matter what I do I cannot bring that baby back to life. Also three of my subsequent children were born premature after that and I lost one of them too

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boss told one of the employees to drive me there

9. How has abortion affected you?

Healthwise it caused the death of another child. Mental anguish is indescribable I regret it with all my fiber of all my being.

10. How has your abortion affected others in your life?

It has cheated my children out of two of their brothers and sister.

11. Based upon your experience, what would you tell a woman considering abortion?

I would beg her not to do it. I would tell her first of all that if she does not trust in God's providence, life does not make any sense. But most of all I would tell her Here is your choice the joy and laughter and love of your child and your relationship with him alive or the misery of your dead baby on your head and mind if you allow someone to kill him for you. And guilt that can paralyze you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The horror of legalizing abortion kills the future of our country in so many ways. It destroys the fiber of our moral respect and love of commitment and the basis of so many other laws that protect and honor humanity. It is the worst inconceivable attack on humanity that there is and the supreme insult that anyone can declare that anyone is not worth the child that they can conceive. It is the destruction of the integral fiber of the very moral existence of man.

friends, boyfriend

9. How has abortion affected you?

depression, disconnect with my living children, guilt, loss of relationship with my family, alcohol, drugs, low self-esteem, thoughts of suicide, lack of social acceptance.

10. How has your abortion affected others in your life?

disconnected, guilt, anger

11. Based upon your experience, what would you tell a woman considering abortion?

don't lose hope, there are people out here to help you through your pregnancy. you won't be pregnant forever and if you decide to abort, that is forever. there is no turning back once the child is aborted it is the end. give your child a chance at life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

the courts have no right to decide on the life and death decisions. our constitution stands for the rights

of all people, that is born & unborn.

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

A lifetime of regret and bits of depression and anxiety have been the effects of my abortion.

10. How has your abortion affected others in your life?

Do not know for this was never discussed with anyone. The day I told my mom I was pregnant she cried and threw herself on the floor yelling why I did that to her. Then she asked me what I was going to do! And that was the end of my conversations about this.

11. Based upon your experience, what would you tell a woman considering abortion?

Do Not Do IT PERIOD!!!!Although it may seem like a simple solution to a problem it will be with you forever!!!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Please consider that if a mother were to make this choice nine months later it will be considered

murder in the first degree.

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that the abortion was just the removal of tissue mass.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told I would feel nothing. First, I felt the ripping of the suction going through me. There after, I was no longer emotionally stable. I had nightmares, chronic depression, and reoccurring of bacterial infections, which could only be explained by the two abortions I had.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The first..30 yr old man..I was 17 and 2nd.my aunt

9. How has abortion affected you?

Having an abortion has changed my life forever. I was seventeen when I had my first abortion and 19 when I had my second... I now have three children, my oldest 16. When I look at the blessed children that God has created, and see what an amazing plan He has created for my children. I think of what could have been for my other two children. So when I look at my children I am always reminded of the two babies, I had aborted. You one day realize you aborted a child that God created for greatness. I know that God has forgiven me and I can say that I am healed. The truth never leaves you. Frankly I really don't want to forget. It's the passion that grips my heart, to keep standing for the justice of these unborn children. What I remember the most quite frequently; is the ripping. I know that I will be completely healed when Jesus takes us home and I see my children in heaven waiting for me. I thank God for forgiving me. I have come to realize, God has now made it clear what the cause is... Abortion is murder and it must stop. It not only takes a life but it can even destroy those involved.

10. How has your abortion affected others in your life?

In a negative aspect my aunt is still affected by her part in talking me into it. She is Catholic, so after 10 years, she has asked for my forgiveness but, I she holds the hurt and choice deeply. By the grace of God, my children have been so compassionate and merciful. They believe also they will see their siblings in heaven. As a family our passion is to stand in truth and in love. My daughter and I have become involved in whatever way possible to stand for Pro-life and minister to mothers and young daughters. Voices...

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell other women, young girls, and boys of my own personal experience. I would minister to them in love and truth. Pray and tell them what God says about abortion. Most importantly, let them know this is a child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Please overturn Roe vs Wade. This heinous crime has taken the lives of so many. Whether lack of knowledge, or truth. The bottom line is when a woman says she can do whatever she wants with her body with no regard to the child, it's selfish. Though the child may be carried in our womb, we don't have the right to take this child's. I am always reminded of how simple a woman can be charged for doing drugs and carrying this child; what makes this crime any different.

2. How many weeks pregnant were you?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No Answer

5. Were you adequately informed of the consequences of abortion?

Yes No

No information was provided regarding the increased risks of breast cancer. I was also not informed of the long-term emotional damage.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend - father of the child.

9. How has abortion affected you?

I still carry a tremendous amount of guilt and remorse regarding the decision to kill my child. The years following my abortion were filled with periods of depression, marriage - and soon thereafter divorce from the father of the child, a four year battle with bulimia, alcohol abuse, and promiscuous behavior. The promiscuous behavior led to another pregnancy which was not terminated and another marriage and eventually another divorce. Is my "choice" the reason for this long list of woes in my life? Only God knows.

10. How has your abortion affected others in your life?

My parents are missing a grandchild. My children are missing a sibling.

11. Based upon your experience, what would you tell a woman considering abortion?

The decision to have an abortion is the worst decision I have ever made in my life. I thought I'd be free if I didn't have to "worry" about raising a child - however, I am constantly reminded of my decision by the

guilt that I bear. There are so many other, loving options for your child. Now that I have children, I see that they are a blessing - not a curse. They are to be loved and cherished - not disposed of. Please don't make a rash decision based on your circumstances.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

My child did nothing deserving of the death penalty. I know that if abortion were legal, I would not have had one. I miss my child. I wonder if it was a boy or girl. He/she would have turned 21 this year. I made my decision based on the false perception that everything would be fine once I "took care of this situation". If I had only known...

9. How has abortion affected you?

I couldn't stand to even look at myself in the mirror or in other peoples eyes for years. I still hate the decision that I made and regret it with every fiber of my being. I still cry every time I think about it. It hurts everyday to know that I will never know the my child that I murdered.

10. How has your abortion affected others in your life?

No one knows. I have never told my family out of fear of what they would think or say. I secluded them out of my life for a long time so I guess you could say they lost a daughter without never really knowing why.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't do it. You will regret it forever. Give the baby up for adoption. IT'S ALIVE AND YOUR BABY!! What if you were aborted? It's going to feel it. It's murder. Love someone more than you love yourself. It's defenseless please have mercy.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Maybe you should have been aborted and the pro-lifers could have taken your place to make things right because life starts at birth not conception right? If you don't agree with my statement then you should realize the truth, that life begins at conception and abortion is murder.

9. How has abortion affected you?

I was in denial for 5 years and then developed PASS once I gave birth to my daughter in January 2008. I am currently seeking counseling. There were days I was just depressed and crying. I had shame, guilt, and regret towards my abortion.

10. How has your abortion affected others in your life?

It was hard on my husband and I. We kept it a secret from a lot of people for a long time. The stress of the secret can be very hard.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT DO IT!!!!!! It would be the biggest mistake of your life and you'd never be able to take it back! The baby is very well developed early on and you'll never hear a clinic tell you that.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Have you ever seen pictures of a baby in the womb? That is not just a mass of tissue like many of us

women were led to believe. That is a real human baby! Did you know a baby at a gestational age of 8 weeks can feel pain? Imagine that poor baby getting aborted and the pain he or she has to endure. It's unthinkable. Have you heard the stories of the children who have lived after trying to be aborted by their mothers? They all have the will to live! They want to live!!! Every baby deserves that right. There should be more alternatives available to women who are pregnant, scared, and alone.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OH

County of Franklin

My name is Ashley I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Columbus OH

03/05/2004

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

surgical

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

All I was told that I was doing the right thing. The clinic told me nothing about how the procedure what done, the development of my baby.

5. Were you adequately informed of the consequences of abortion?

Yes No

Once again I was just told I was doing the right thing because I was young. This was by the clinic. They told me that I would feel like a weight was lifted off my shoulders and no problems would arise from my abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my mom and the father of the baby

9. How has abortion affected you?

It ripped a hole in my heart. I still cry about it. I will always long for that baby. I will go through my whole life feeling like there's something missing. My baby.

10. How has your abortion affected others in your life?

I think some were saddened by it. But no one really knows the extent of my pain.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to not make the same mistake I did. Tell her about the pain I endure every single day. I would have her look at the fetal development. I had mine at 7 weeks and at the time I had no idea that my baby had little fingers and toes. That my baby's heart was indeed beating. It ripped me apart and I wouldn't wish it upon my worst enemy to have to live with this kind of pain and guilt. I would tell her that

she CAN in fact have this baby or give the baby up for adoption. All I kept hearing was I CAN'T. No one let me have a voice and I went against something I believe in. I went against what I felt in my heart.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Nobody knows how much it hurts until you go through it. The abortion clinics don't give women all the facts. They don't tell you truly how the procedure is done. They don't tell you the other options you do have. They make post abortive women who regret their abortions feel like we don't have a voice. Circumstances change, abortion is forever. I would really like one of them to sit down and watch how an abortion procedure is done. It's a heartwrenching thing to go through. Most women who choose to abort are not in a clear state of mind. They are in a state of confusion. They are overly emotional and it doesn't help to have people not give you all the options. It's a baby, a beating heart, it's a life.

10. How has your abortion affected others in your life?

My boyfriend regrets that we did it

11. Based upon your experience, what would you tell a woman considering abortion?

That it is not the only option, and babies are a gift from God - no matter how you became pregnant.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

In the end, abortion only hurts women. The court should promote pregnancy prevention such as abstinence and birth control to prevent unwanted pregnancies.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OH

County of Summit

My name is Karen I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Atlanta GA

10/22/1975

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told anything about the nature of abortion, only that I would have local anesthesia and it would be over quickly.

5. Were you adequately informed of the consequences of abortion?

Yes No

All the ladies were in a waiting area until their turn. No one ever came in to explain medical or psychological consequences from abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father of the baby.

9. How has abortion affected you?

I have always regretted giving in to the pressure that this was the only solution. I wonder what my son or daughter would be like and know he or she would have enriched my life or the lives of an adoptive family. I think of him or her every year on what I think would have been their birthday and mourn him or her every year at the time of death.

10. How has your abortion affected others in your life?

My husband has been the most affected as he has had to comfort me during times of mourning. The

scars from being made to do something I didn't understand by someone I trusted has also affected our relationship.

11. Based upon your experience, what would you tell a woman considering abortion?

You are carrying a precious gift, if not for your life then someone else's. Right now you feel pressure to do something quick. Don't give in to that. In a few months you can have the immense satisfaction of knowing you have protected and nurtured a new human life. You alone can give this gift of life. You alone can take it. Be a heroine. Be courageous. Please give life a chance. You'll be glad you did.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is the duty of the court to protect the innocent. Human life must be respected and protected even and especially at life's most vulnerable time, the season in the womb. Our society is based upon defending those who are unable to defend themselves, yet has allowed the wholesale killing of our future population without regard for the consequences on the woman's physical or emotional longterm well being. This so called easy solution to a woman's dilemma has only made it easier for men to convince women to give in to their advances and cheapened even further the foundation of marriage and parenthood which holds any society together. The majority of abortions are performed for convenience sake, not true life threatening situations. Do your duty and protect the innocent unborn. Protect them from casual, careless killing. Protect them from gender selection killing. Protect them from "they're not perfect" killing. We need the youth. They are our future. Protect them and you protect us.

My name is M M I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Detroit MI

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

not sure, D & C I think

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I simply signed a form that stated that I was aware of possible physical complications.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not shown an ultrasound. I was not told what would happen to the fetus. I was not told that I could have emotional or physical effects later in life. I was not informed of services available to help me if I decided to give birth to the baby.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I put the abortion totally out of my mind and went on with my life. I graduated from college, got married, and gave birth to two wonderful sons. But the older I got, the more I thought about my child that could have been. My family was always missing one member. As I watched my sons grow up, I wondered if I had killed the sister they would never know. I had always wanted a girl, so I imagined my lost child was a girl. I missed her terribly. She would never know the beauty of the world. She would never know love. She would never have children of her own. I selfishly took all that from her - I took it simply because I did not want to interrupt my plans or face the consequences of my actions. The sadness became guilt and the guilt grew into shame. After I became Christian, I learned that I could forgive myself as Christ had already forgiven me. But even now, thirty five years after my abortion, I still find it hard to put down

the burden of my abortion and I fight back tears as I type these words.

10. How has your abortion affected others in your life?

I never told my family and have lost touch with the very few friends that knew. The abortion was a shameful burden that I carried alone.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! Give birth to that child. If you can't provide a good home, allow someone else to adopt and love your baby in your place.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

No murder should be legal: abortion is murder. "Choice" to murder another human being should never be a legal option, whether the human is 6 weeks gestation, 6 years, or 60 years old! Once conception has occurred, the "choice" is to raise the child or give it up for adoption.

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told almost nothing, no counsling, just how long the procedure would take and how much it would cost

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never told that I could have trouble getting pregnant again, and noone offered ANY alternatives

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have thought about that child ever since and especially after my son was born. I pray for him or her all the time. It totally changed the way I talk to my patients in Labor and Delivery, especially those having D&C's after a partial loss. I KNOW what they will go through. At least they won't have the guilt.

10. How has your abortion affected others in your life?

My husband (the father of the aborted child, though not my husband at the time) and I talk about the baby sometimes. He gets sad too. We never forget that experience.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't, you will ALWAYS regret it...Always

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

In my life, I would be MUCH better off if I had not had easy access, there was no alternatives offered and I was a dumb kid. I did not know how it would affect my life.

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Ashamed of my immorality, I flew overnight to New York to seek an abortion. It was quasi-legal so I had to go there.

5. Were you adequately informed of the consequences of abortion?

Yes No

They were just eager to get my money. They even miscounted in order to cheat me of \$20.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It took me 17 years to forgive the baby's father who died of cancer and childless. I was full of hatred to ANYONE who would cross me in any way. It took me 15 more years to forgive myself and accept God's forgiveness as well.

10. How has your abortion affected others in your life?

My present husband and children have endured much. I was filled with self-loathing. I considered myself to be a Christian but could never seem to forgive myself. It took a long time.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't get an abortion as you will only regret it and hate yourself.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

All medical procedures have accepted basic safe instructions and the safety of a hospital ensures this safety, however, abortuaries are not inspected or regulated in any way. Calling a facility a "clinic" implies some safety for the woman but there really is not any such safety.

clinic, media

9. How has abortion affected you?

I have suffered from depression, extreme guilt, infertility, not to mention have been divorced and have intimacy issues

10. How has your abortion affected others in your life?

It took the life of my child most importantly. Also, it caused much distress in my family as well as my former husband and his family.

11. Based upon your experience, what would you tell a woman considering abortion?

RECONDISER. It may seem like the only option, but so many women have suffered from its effects,

both physically, mentally, and spiritually. Take a look at the 3 and 4D images of babies in the womb, and see your baby! Also, there are MANY people who would love to adopt.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Consider the human beings who are affected the most--the baby and the mother. Stop looking at whose "rights" are being violated, consider whose life is being taken away. What would you say to your mother if you knew she were considering aborting you?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I became extremely promiscuous and obsessed with my weight. I felt pressured by the USAF to have an abortion because we were taught that as officers if you cannot control yourself you can't lead other troops.

10. How has your abortion affected others in your life?

Everyone in my life knows I have had an abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

I was a Christian when I made this choice. I felt like I could hide my "mystake". I feel satan convinced me that no one would have to know my past. You think you can hide it. That somehow quietly no one will have to know, but the truth is that everyone who knows you needs to know where you have been

and the forgiveness you have been given through Jesus Christ.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

All women and men must be told about the post traumatic feelings and emotional pain and devastation that abortion causes. Many women become self destructive and have feelings of shame. Because no matter where a woman's faith lies, she knows her body was made to have children and there is nothing "right" about voluntarily having your child taken from you body and killed.

My name is M S I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Columbus

08/03/1977

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

D & C, suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I remember distinctly that the "counselor" told me that at the stage of development of my pregnancy, "we're talking about a lump of tissue." I imagined it as being like a piece of uncooked chicken fat, and that is pretty much how it was described. To my horror, much later, I came to see actual photographs of children at eight weeks gestation. They are quite distinctly human! Little arms, little legs, little heads and faces! I can't tell you how difficult it has been at times to view pictures of ultrasounds of friends, knowing that I killed my own child who looked just like that.

5. Were you adequately informed of the consequences of abortion?

Yes No

I only knew that it would terminate the pregnancy. I had no idea it would change my life forever.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend, the baby's father

9. How has abortion affected you?

For years afterward, I had obsessively intrusive thoughts of self-destruction. I wanted to hang myself or burn myself alive. I saw myself as absolutely evil. I always tended toward depression, but the abortion made life unbearable. It is a miracle I survived. It was over twenty years later that I came to know Jesus Christ as my Savior and Lord. Only by the grace of God and His forgiveness have I begun to heal. I still never talk about the abortion with anyone. I know that there is no condemnation for those who are in

Christ Jesus (Romans 8:1), but I am not yet sure I could handle talking about it with anyone. The pain is too deep.

10. How has your abortion affected others in your life?

I have never been able to maintain a long-term relationship, no matter how hard I've tried. I have been married four times, although my first husband died. The only people I have told about the abortion were two of my husbands, who betrayed me by telling my father. He was devastated. I pretended like I had no idea what he was talking about. There was no way I could handle the emotional consequences of it all.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that no amount of pain or inconvenience in carrying a baby full term and giving birth could possibly compare to the life-long pain and agony that follows abortion. I would tell her that human life is precious, and that a child, even conceived in unfortunate circumstances, is a gift. I would tell her that those who advocate for abortion are trying to sell a pack of lies. No one can take another life, particularly one in her own womb, and not be affected by it for the rest of her life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder, not only to the child, but also to the woman receiving the abortion. Death is not just losing breath and heartbeat. Death is separation from life and vitality. The abortion which takes the child's life also takes from the soul of the mother a portion that will never be replaced. I wish abortion had not been legal in 1977. I know that I would never engaged in premarital sex if it had not been legal! Abortion was always in the back of our minds as a contraceptive "safety net," so to speak, and I think that the same mentality is still prevalent today. This is an evil mindset because it causes very much harm.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OH

County of Warren

My name is Christi Hall. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Cincinnati OH

//1987

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Because I have emotionally blocked out the whole event I don't remember too many specifics. I was told "it" the baby was a bunch of tissue which at the time I believed.

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't recall any emotional discussion or medical consequences being discussed

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have three beautiful children, one of whom I gave up for adoption. But the guilt of the one child who I allowed to be killed, because it was an inconvenience for me and my life still breaks my heart. That child could have been given to a loving family and since I now have a relationship with the child I did give up for adoption I know it is the best option for an unplanned pregnancy. I also have taught my daughters abstinence. My oldest (just graduated HS) has spoken nationally on abstinence and self esteem. Where I failed she has the courage to succeed. I try to turn my story of abortion and adoption into a vehicle of serving young girls. I mentor and create purity programs. Out of hurt and pain hopefully comes life and new beginnings.

10. How has your abortion affected others in your life?

No one else knows. The shame is too great. I only speak about my adopted child and that took years to get to that point. maybe someday.

11. Based upon your experience, what would you tell a woman considering abortion?

She is loved. Her child was created as a gift from God even it was rape, or abuse. That the child has a right to live a full life just as she does. But mostly that I would be there, emotionally, physically, and financially to help through the pregnancy and beyond. I have done this with a young mother(19) who got pregnant and now three years later I watch her beautiful daughter everyday in the summer so that she can work to save money. Her story is my story but with a happy ending.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion affects everyone an emotionally, physically, and financially negative way. From a non religious point of view it is wrong. From the moment of conception it is a child. Clinics who preform abortion treat the procedure as a one time "service" They don't console their "client" for the rest of her life as she tries to emotionally grip what has happened, or help them through a bout of breast cancer, or infertility due to an abortion. They provide the service and shove them out the door. They also don't treat the unborn child with respect. Putting aside the murder of the child(which I don't do lightly) they don't even respect the child's (usually dismembered) body. It is thrown in the trash. In any court of law this would be considered abuse of a corpse and harshly dealt with. I want my three girls to grow up in a judicial system that treats ALL living human beings born and unborn equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.

My name is Annna Jacobs. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

FL

04//1980

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

they didn't tell me.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They took my money and called my name and that was it. No explaining no nothing.

5. Were you adequately informed of the consequences of abortion?

Yes No

They never said anything about anything

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

A family member

9. How has abortion affected you?

I killed my child.I'm depressed, no self worth,Its always in my heart and thoughts.And some day I have to face my child and answer why I killed her.If I knew the whole story behind the abortion I NEVER EVER would of done it.The only thing I was told is that it was only a blob not a baby, they LIED.The guilt I have eats me alive !!!!!!! How could I have killed my child.

10. How has your abortion affected others in your life?

I have three other children and I have told them what I did and they have a sister they never got the chance to grow up with and they can't even meet her until they die and go to heaven.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't ever even consider it, it will haunt you the rest of your life. That it really is a baby from time of conception. There are other ways, like adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Why and how could you KILL a CHILD. How could you let a mother live with what I have to live with the rest of my life. I can't look at a baby without being reminded of what I've done. I was robbed of my baby, my life, my grandchildren, my children having their sister, my sanity.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OH

County of Columbiana

My name is M A . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

NYC NY

06//1971

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Suction...complete

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

No counseling was given about dealing with your feelings of loss or self esteem following the procedure that I recall. Physically, I seem to have less sensation when intimate with my husband and am convinced that is related to my experience in 1971.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The young man I was dating highly encouraged it.

9. How has abortion affected you?

Low self esteem, rages and rages of anger that the only way to manage them(Meaning not take it out on my 1st child) was to go to sleep, finally realizing I was depressed and seeking medical help and abortion counseling.

10. How has your abortion affected others in your life?

It has caused some problems in my marriage to the place where I had been distant from my spouse emotionally physically. Never feeling good enough because of my sin of taking another life. I sometimes wonder why women who have abortions are not placed in prisons.....the procedure is the same or

similar degree of violence as the, woman who microwaved her child or drowned her child or other violences committed to a child. The Lord Has been very gracious and merciful to me and healing has come through Christ and the body of Christ I am a member of.

11. Based upon your experience, what would you tell a woman considering abortion?

NO, NO and NO!! Place your child for adoption or get support from a church family and raise that child, love that child....The Lord knows all about you, your hurts, your needs and loves you BOTH. This conception was/is no surprise to Him and He can take what seems not so good and turn it around for good. There will be difficult times, the Lord and a supportive Christian family can see you through to healing.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I suppose there are rare circumstances where it might be best but because I am not The Creator, that is not mine to judge. I think He does already take care of those situations where it is not best, called miscarriages. As our country (Its People) becomes more and more callous to the Truth of God's word (That we were founded on), continuing to blatantly flaunt wrong behaviors and legalize them, our country will continue to decline and receive the consequences of His wrath. The systems that have allowed this to be legal did not take into account the number of lives that have been emotionally hurt/damaged and eventually calloused to the preservation of life. Today we are more concerned about the protection of animals and trees than we are the protection of children. Yes, When a woman becomes pregnant, a life of a child is begun...IT IS NOT A BLOB IT, IS A CHILD!! We, as a country are allowing and encouraging the murder of our children by continuing to keep abortion legal.(and yes I was one of the guilty who participated in it. Today and even then, REGRETFULLY!) Following the experience of having an abortion, I knew I would NEVER choose that again, nor place myself in the situation where one might choose to consider that

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OH

County of Franklin

My name is Melissa Leibold. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Antonio TX

//1975

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was informed that the problem would just go away. I was not informed that I would live with guilt, depression, and separation from God for the next fifteen years. It would have been forever had I not discovered the forgiving, life-affirming grace of my Lord Jesus.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Husband, his family, friends

9. How has abortion affected you?

As I said above, I suffered from a related depression for the next 15 years. The guilt was unbelievable. Never has a time come when I quit wondering what that child would have been like and how I could have murdered it.

10. How has your abortion affected others in your life?

I don't know that it has. I can only attest to how it has affected me.

11. Based upon your experience, what would you tell a woman considering abortion?

There is no reason--ever--good enough to excuse an abortion, the only possible exception being to save the life of the mother. Abortion is murder, and it harms women physically, emotionally, mentally and spiritually.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

We may never be able to overturn Roe v Wade, but this country must begin to count the cost of abortions in lost lives, ruined dreams, emotional problems, and the quickly-fading sanctity of human life. If the court refuses to see to the protection of the most vulnerable of this society, other atrocities are soon to follow. People are becoming callous, cruel and unfeeling. This is already becoming obvious in the ever-growing disregard for strong traditional values and goodness of moral character.

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that it wasn't a living human being. I didn't know what exactly was being done. When I started to cry and didn't want to go through with it, I was put under anesthetic.

5. Were you adequately informed of the consequences of abortion?

Yes No

Know one explained how depressed you would be. Or that you would be a murderer. They left you feeling empty, dirty, no good.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My so called boyfriend!

9. How has abortion affected you?

As I have already explained, I also had a definite desire to have another baby, right away. The feeling of loss is so great. Emptiness.

10. How has your abortion affected others in your life?

Yes, my family, had a lot of trouble excepting it. When they found out. My husband knew before I married him. Then my children after that don't understand.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them that, GOD has a plan for them that, he will help her get through this and that there is adoption. That I would help in anyway I could also. There are a lot of agencies out there now that will help you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That there is a pentalty for murder in the USA,this is NO different.Abortion is killing!!!! A life is one that has a heart beating. and this heart beats.STOP ABORTION!!!!!!!!!!!!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OH

County of Summit

My name is Margot Fuller. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

KY

05/22/1982

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was given no information as to the nature of the procedure either before or after the abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one informed me that I could get an infection and end up dying in a hospital. No one talked about the depression, miscarriages, and suicidal thoughts that would torment me for decades.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend and Planned Parenthood

9. How has abortion affected you?

I have had 4 miscarriages, struggles with depression and suicide. I have been fortunate to have a Christian church that has created a safe place for me to heal in my heart and for that healing to transcend through my body.

10. How has your abortion affected others in your life?

Just this summer I have told my children (ages 16, 14, 10) of what I choose for their half brother. It has validated the longing that they have expressed about wishing for an older brother. My husband and I are in marriage counseling to bring repair and unity in that place that abortion destroyed.

11. Based upon your experience, what would you tell a woman considering abortion?

I would say to a woman to truly see herself. Abortion will not end a problem. Abortion will create more problems, it does not absorb the issue. The outcome of abortion is death, possible drug use, more pregnancies that will not end in life, mental torment, disease and infection, disconnectedness from

family and friends. I have never met someone that has claimed that their abortion was the best thing that they have ever done. There are more choices than abortion - don't be like me and live a life of regret.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It seems to me that a court that would choose death for generations of potential people with dreams and ideas to move a nation into innovative and creative thinking is a court that can not be trusted. I choose to tell my story in hopes that the courts would listen and examine the facts and no longer make it legal for a woman to choose death for her children. No one ever informed me of the infection I would get. No one ever informed me of the reoccurring trauma I would face as my body would experience something that would trigger the abortion. No one ever informed me of the stress and grief that I would cause my future husband and children. No one ever informed me of the medical problems I would inherit from abortion. No one listened to me and my concerns before the abortion. Abortionist and Planned Parenthood are not interested in counseling, they are interested in pressing their agenda which the courts have given them the right to. It is time for the courts to fight for the future of this county. I am a voice for the 50 million babies who have not had a chance.

I was completely unaware of the emotional, psychological and spiritual impact.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

the baby's father

9. How has abortion affected you?

For years I was emotionally and spiritually crippled. I was very uncomfortable in the presence of a baby and refused to even hold a baby for years. I immersed myself in my work so I wouldn't have to face the guilt, shame and grief. I moved 1,200 miles away thinking I could escape my past only to discover that was simply not possible. I sank into depression. I turned to food and shopping for comfort. I became very ill requiring me to live a life in isolation for months. I had a huge hole inside of me. I kept my dirty little secret locked away for years. I couldn't bear further rejection. I aborted what would be my only child. I have never known what it is to carry a baby past the first trimester, to feel it growing inside, to bring it into the world. I don't know what it is to be a mom to a child of my own. My dreams were stolen from me - they were sucked right out of me. The sense of loss is tremendous. By God's mercy, grace and love I am now healed, and work to help other women find hope.

10. How has your abortion affected others in your life?

It has had a tremendous impact on my husband. I met him years after the abortion, but he was left to pick up the pieces. I was difficult to live with because of my emotional state - depression, moodiness,

shame, guilt and unresolved grief. I put us deeply in debt due to my shopping addiction, to the extent we eventually had to declare bankruptsy.

11. Based upon your experience, what would you tell a woman considering abortion?

I would share my experience as well as share the potential psychological, spiritual, and physical effects. I would encourage her to not allow others to pressure her into making a decision that may adversely effect her for the rest of her life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is lifechanging. The psychological, physical, and spiritual impact is tremendous - research has proven it. Allowing something so devastating to individuals and society as a whole is tantamount to encouraging a pandemic. If there was a disease, toxin, virus, or bacteria that took as many lives as abortion, billions of dollars would go toward irradicating it. It is time for the truth to be told! How many more millions of lives have to be lost? Abortion will continue to rock our society for generations even if it is halted today. Millions of lives have been snuffed out, robbing our society of their gifts and talents, as well as financial contributions. It is beyond irresponsible to allow abortion to continue. To use the verbage "freedom of choice" is perpetrating a lie! A child is not a mistake or an inconvenience. It is a life, a miracle. Abortion is destruction of life - the baby's, the mother's, and our society's. Abortion steals the life of a child. The very foundations of our society are eroding due to this atrocity. It must stop!

My name is Fern Buzinski. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Pittsburgh PA

//1974

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

Vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only told that abortion was now legal and my health insurance may cover the cost. I was told that I simply had a late period and only tissue would be expelled.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not given any information in regard to physical or emotional risk associated with abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Father of the child and a friend

9. How has abortion affected you?

I lived for 24 years wondering why I suffered from depression, sadness and grief. In 1996 I became extremely out of control angry. It was then that I realized I needed professional help, but still did not connect it with the abortion. I never connected my emotions to the abortion until I went through a post-abortion healing program at the local Pregnancy Support Center.

10. How has your abortion affected others in your life?

I became disconnected from my living children after the abortion, they certainly lost their mother. I fell in and out of immoral relationships which certainly affected many men in my life. After I married in 1989, my husband was often the victim of my anger and rage.

11. Based upon your experience, what would you tell a woman considering abortion?

I would simply state the facts to her about all the risks involved in abortion. I would talk to her about my own experience and how abortion affected me for so many years. I would be armed with stats such as

Elliott Institute and Operation Outcry provide on post-abortion trauma.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

When a woman conceives, deep in her heart of hearts, she knows it's a baby, even at conception. When she violates her mother's conscience at any stage of fetal development and aborts her unborn child, she violates her own sense of motherhood and personhood. All of her life will change from that moment on. God created women to be the protector of her unborn. Any violation of that privilege devalues all of life. Only God can create life, only God has the divine right to take a life. When we play God with life, we upset the delicate balance of God's plans and purposes for all of mankind.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OH

County of trumbull

My name is nicole I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

bedford OH

05/09/2008

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

i took a pill

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never informed of the medical risk with taking the medication. Nor was i ever informed of the mental and emotional damage that it could have on my life as well as the life of others around me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

The abortion affected my life in a way I never thought was possible. I was depressed, angry, hurt, betrayed. I didnt trust anyone. I shut people out of my life I turned my back to God. I felt lost and alone. I felt trapped like there was no way out. I felt ashamed, embarrassed.

10. How has your abortion affected others in your life?

It has only been a couple months since i had my abortion. It has been hard to make friends and be social I feel like i will be rejected. It ruined my relationship with my than boyfriend. I still have not told my parents and i currently live at home. I feel like i let them down. I pray everyday to God to let me know when the timing is right to tell them..

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell a woman considering abortion that she has prolife options. That there are other alternatives if she was not able to keep the baby and raise it herself. That she could give it up to adoption. That no matter how hard it is GOD is there for you. I would tell her the affects of abortion and how it affected my life. I would share my testimony about how God changed my life and opened up doors for me and that

there is light at the end. I would most importantly tell her she is not alone, that it is ok to be scared and that there are people to help her get through this. and whatever the circumstance maybe that lead to her getting pregnant there is help available

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would ask the court to compare pro-life to petta. Isnt a humans life so much more valuable than the animals?. Isnt the fight to protect babies so much more than animals life. In fact it is priceless. You can not put a price on humanlife. How can you devalue a human, by putting it in your own hands and deciding whether or not to let it live or let it die. I would ask them this question... If I had a dog and I let the dog live outside along with a dog house. and while i am sleeping along comes a male dog and my female dog gets pregnant as a result. I dont have time to take care of the puppies. So i calculate her due date. And i kill her puppies. I would be charged with animal cruelty as well as fined with possible time in jail. So why can i go and kill my unborn child and be charged with nothing?

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OH

County of Butler

My name is christina stout. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Cincinnati OH

08/13/2005

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I wasn't told of the mental and emotional affect that this decision would have on me for the rest of my life. I wasn't told that, yes having a baby changes your life forever, but so does an abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I was depressed for a very long time afterward. I taught pre school at the time and when I went back to work, I cried everyday for a week, over whelmed by the realization of what I had just done. I now have a 10 month old, and there are nights when I cry while I rock her to sleep because it hurts so badly to have done what I did and know what I know now about what amazing blessings children are and it is hard to be a parent, but it has made me a better person.

10. How has your abortion affected others in your life?

The father of the child I aborted (who is now my husband) breaks down and cries sometimes remembering the choice I made and he let me make. It has caused real heart ache in our lives. Not just that we regret a decision we made, but an over whelming since of killing a life. Of having a greater picture now of what that choice really meant to our lives, the life of the child, and the world that will never know that glory and joy of that child.

11. Based upon your experience, what would you tell a woman considering abortion?

I would and have counseled single women who have become pregnant and know my story to keep their baby. When they ask me if I regret what I did or wish I would have kept my baby, I always answer yes

and tell them that I will help them through thier pregnancy and first year with thier child. Having a baby alone is scary, but there are resources out there to help, and babies are pure joy and they make us better people.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should be illegal. That instead of abortion, maybe we could use our government funds / "power" to open and advertise other avenues, like adoption, education on what it measn to be a parent. We should give these women another option. Its not just keep or kill your baby, people can and will help you. We as Americans alongside our government should be pouring financial resources and time and energy to adoption agencies and making it easier and less expensive for people to adopt and be foster parents. Lets educate women (not just children) on birth control, parenting skills, how to keep a job, lets take away the shame of unwed mothers and lift them up so they don't have to go and "hide" a mistake with murder.

HOW MY ABORTION AFFECTED ME

The State of OH

County of Cuyahoga

My name is Janet Williams. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Pittsburgh PA

07//1985

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Vaccum/Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I may have been given a written explanation statement to sign before the procedure. All I remember is that I was told to lay very still. The nurse told me I could squeeze her hand if it hurt too much. I don't believe I was even given any kind of cervical numbing agent. I had been in the office for several hours and I was obviously unsure, teetering on changing my mind. I was told I was the last procedure for that day and that I had to make a decision or leave and come back the next day. I had come from out of town and I couldn't come back the next day. I don't remember any real verbal explanation.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told to see a doctor at 6 weeks post abortion. I was not told about any emotional or physical consequences. I was not offered any post abortion counseling. Given my state of mind that day, it should have taken place.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

I pressured myself.

9. How has abortion affected you?

In so many ways I didn't realize. The abortion procedure was humiliating and confusing, even though I felt at the time that I was making a knowledgeable and mature decision. I was emotionally abused by the father of my child post abortion. I remained in the relationship where I was emotionally manipulated for 5 1/2 yrs following. He told me I owed him this life and I believed him because ultimately I had made this decision, regardless of his support. Because of my secret, I was distrusting, depressed and I had trouble developing healthy male relationships in the future. I felt tremendous shame for many years,

hiding my abortion from friends and family. I never realized that I had a right to mourn my baby. My baby was considered a "non-person" until my healing came.

10. How has your abortion affected others in your life?

I believe my abortion affected the father of the child quite negatively. He was a drug user who was only moderately involved in illegal drugs until after the abortion. He ultimately became an addict and dealer. He'd been involved in a forced abortion as a teen and my abortion opened his old wounds. He inflicted the pain of his own guilt on me immediately following the abortion and for years following through his emotional manipulation of me. I owed him a child and even after I moved on to another relationship, I suffered the guilt of not paying him back. Even though I'd moved on and developed a loving relationship with my husband, when I became pregnant in that relationship, I hid myself and my pregnancy when I saw my exboyfriend at a store one day. Out of the shame I felt for not giving him a child he'd told me I owed him. It was brief, but it robbed me of some of the joy and pride I should have felt in my pregnancy. I was unable to share with my parents. I hid my abortion so that they would not see that I failed. They never had the chance to meet their grand child.

11. Based upon your experience, what would you tell a woman considering abortion?

You never realize what you will experience physically, emotionally or mentally before you make this decision to have an abortion. You have no control how it will affect you. It is final and can not be reversed or changed. When you give life to your child, you have control over your choices...to parent or to choose the adoption choice. Every step of the way and there are plenty of resources to support the life choice. There is no shame in choosing life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I had my abortion at 20. I was legally able to make my choice. Had I been required a 24 hour wait, I probably would have changed my mind and perhaps the father and I would have had time to agree on our decision. Abortion doesn't free men and women, it binds us and robs us of our esteem, our dignity and the joy of giving life to someone, either by choosing to parent or choosing adoption options. My life would have been dramatically different had I given birth to my child. I regret my choice and feel that most women will feel the humiliation, shame and guilt that I felt after my abortion. I felt I'd made an intelligent decision, and despite that, I had no idea what it would do to me in my future.

my mother

9. How has abortion affected you?

It has effected our relationship. She still says it was the right thing to do.

10. How has your abortion affected others in your life?

I married the father. We are still married (31 years) and agree that it was the worst thing we ever did. I ended up in a hospital for depression and he has dealt with alcoholism. I miss my child I never got to meet. I went through a Christian Bible study that helped me to heal but... it is still there just not as bad. I have an essay that was published once. It told of all I went through. Would it help your cause? The election this year was hard. I did not want him to win. God bless us all.

11. Based upon your experience, what would you tell a woman considering abortion?

I would say to pray and ask God to guide you. I would tell them of my experience and of the risks. I would ask them if they are being forced to do it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That they are allowing people who are forced to live with the fact that they have killed their own child. I was young with no money and was told to do it or I would have no roof or room to come home to. My

mom's social image came first. Protect the innocents. It is the babies but others as well.

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

DNC

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I did not know what was going to happen to me when I went into the clinic and when I was in the operation room. It wasn't until later that I learn it was a DNC procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one said anything to me other than "minor side affects" like bleeding and cramping.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend at the time

9. How has abortion affected you?

I have deep regret and pain. When I think about it, I cry. I was extremely depressed for years after my abortion. I felt guilt and terrible shame. I felt dirty and a wreck. I not only committed this sin before God, but also felt so much shame and had this hidden deep secret from the world of what I had chosen to do. I felt alone and isolated. No one could know or I would be rejected. I hid it for many years. It was a deep dark secret hidden in the deepest parts of my heart that only God saw. For six years after, I battled severe sadness, depression, nightmares, panic and anxiety, extreme bouts of anger. After the procedure, I had graphic nightmares for three years. I would wake up in a cold sweat. In my dreams I would see the procedure. I would see infant body parts in jars mixed with blood and other tissue. I had dreams like this over and over, for about three years or more.

10. How has your abortion affected others in your life?

My father an my mother found out years later. They experienced deep hurt and sadness for the loss of

these two children. It was very difficult for me to talk with them about what happened. It is a skeleton in the closet we still do not discuss. It put a gap between me and my mother for a while.

11. Based upon your experience, what would you tell a woman considering abortion?

I would go with her to have an ultrasound done. If I had seen what my babies looked like, I would not have been able to have them terminated. I would tell her everything that happened to me. How I hated myself for so long and punished myself for what I had done. I would tell her about the nightmares and the only way I found relief was through forgiven and salvation from Jesus Christ. I would go with her to a place that would help her get counseling to deal with the feelings of sadness and guilt of getting pregnant. I would tell her that she has other alternatives to abortion. I would go with her if she needed me to tell her parents.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them who I am and my story. I would tell them that it has been thirteen years since I had an abortion and the pain is still there. I still weep over what happen. I still cry over the loss of my two children. The only two children I would have had. It has been thirteen years later and I still do not have any children. I would tell them that life starts at conception, and no one can decided when to end a life save for God himself. The pain and suffering of abortion far out weighs the temporary pain of pregnancy. There are other options in this country, and abortion should be one that is forbidden. Abortion is not a freedom of choice for the woman. It should not be a choice. When a woman makes the choice to terminate her pregnancy, she is removing and voiding and right or rights the infant has to live. Abortion makes infants "fetus" and object or property not human. Abortion is comparable to slavery and segregation. Abortion give the woman a right to own a "fetus" and do with it what ever she wants. If slavery was abolished in this country, why isn't abortion? Every human in the united states has a right to freedom and freedom of choice, and the infants freedom of choice is to live. So we should grand them their rights.

2. How many weeks pregnant were you?

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I feel that there wasn't enough counseling provided to prepare me for the loss and grief that I feel now that I am much older.

5. Were you adequately informed of the consequences of abortion?

Yes No

It was treated as though it was an "issue" rather than a baby to be.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Baby's father

9. How has abortion affected you?

I am sad and I regret what I have done. I always think about the soul of the child, that I never had.

10. How has your abortion affected others in your life?

I have three children and they all know now that I had an abortion. It was not easy to tell them. I come from a family of 8. Abortion took the lives of 4 family members on my side and 5 on my husband's side. I was a young(18) white female and was taken advantage of.

11. Based upon your experience, what would you tell a woman considering abortion?

I have 9 grandchildren now. I have already talked to girls who were pregnant and didn't want to be. I tell them how no one told me how the abortion would affect me at the age I am now. And to consider adoption if they can't keep the baby. If the father is the one who doesn't want them to have the baby, I strongly encourage them to get rid of the father and NOT the baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Making abortion legal does not keep you from feeling the loss. If the "fetus" was left to grow it would turn into a person. There isn't anyone who ever lived that did not start off as a fetus. If it has a heartbeat - it is alive. A pregnant person should not be given a choice, once they become pregnant they share their body and it is no longer their own. It is keeping another human being alive. Making it illegal will make it harder for people to make money from it.

3. What type of abortion was performed?

Vacume Extraction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They told me it would just be cramps as they cleaned out all of the blood left from not having a period, and all the pregnancy cells and clots.

5. Were you adequately informed of the consequences of abortion?

Yes No

Everyone said it would be fine, and I wouldn't feel any guilt. They were wrong. They told me that there was nothing to see on the ultrasound, so need no to show me...they knew I would see the little heart beating and change my mind. I knew it in my head that it was wrong, but they refused to give me any other options. I found out later that having an abortion can cause infertility and other problems

6. Were you informed of any link between abortion and breast cancer?

8. Did anyone pressure you into having an abortion?

Society in general

9. How has abortion affected you?

Praise the Lord, I have had 5 beautiful children since then. We want many more. But there isn't a day that passes that I don't think of "the clump of cells" that I killed. My BABY. Every time I look at my children, or conceive another, I am reminded of the person that was so easily disposed of, and the millions that are every day.

10. How has your abortion affected others in your life?

No one but my husband knows, since it was his child before we were married..and I did it without telling him. He did not find out until a few years ago, which wasn't fair to him. He never got to grieve his child. I want to tell people now...that more people that you ever imagined have had abortions, and are

traumatized.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. It will haunt you the rest of your life, even if you aren't a Christian. You will find healing in Christ, but otherwise, you can deny it all you want, but the scar will never go away. There are so many people who want children, but can't have them. Find someone who will help you. If the ones you love shun you for our pregnancy, then they really don't love you. But there are people who love you. Someone who cares about everything in your life...all your hardships and trials and hurts

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is a child. It is not the mother's body. It is a person, and if it's "not a person until such and such a date" then answer this. Is it ok to kill a baby 5 months before birth? What about 5 weeks? What about 5 days..5 hours? What about 5 minutes AFTER it is born? 5 days after? Why not? Maybe the mother JUST understood the reality of the situation now...maybe she knows now she can't handle it. Why does this baby now have rights just because it is outside the womb? Be consistent. A person is a person. A life is a life

9. How has abortion affected you?

I was in complete denial for many years. 20 years. I went through many of the symptoms of post abortion like I started drinking, I had trust issues, anger, rage, shame, no hope, I got pregnant within 1 year of my abortion, I had my son at 18 vowing that I would never ever go through that again I am in utter regret and will be for the rest of my life how can abortion be a choice when it is the murdering of your own child. It is a baby I wish I would have known I never would have had an abortion.

10. How has your abortion affected others in your life?

my family was the resounding board of my rage and self destructive behavior

11. Based upon your experience, what would you tell a woman considering abortion?

I would pray for her, tell her the truth, share my own experience with her, show her the ultrasound, and let her know the heart is beating at 18 - 21 days, the baby feels pain, educate her about the procedure...anyone getting surgery KNOWS what the procedure would be, and tell her there are other options. Positive ones.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I regret my abortion, I was 16 years old my mom never knew, you can't even go on a field trip without permission yet you can have an abortion, I didn't know what the future would hold nobody told me about the emotional damage I live with the rest of my life. and how come if some one murders someone who's pregnant they get charged with double homicide, abortion is murder!! Norma McCorvey lied, she also placed her baby for adoption!!!!!!!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OH

County of Miami

My name is Cynthia Caillouet. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Jose CA

09/13/1974

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told how the abortion would be done or of any complications or side-effects that could occur.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told that there was a possibility of not being able to get pregnant in the future or of any of the psychological effects.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The baby's father.

9. How has abortion affected you?

I was 19 when I had my abortion and I was pressured into it by my fiance. Once I had the abortion he broke up with me which caused me a lot of emotional pain. In 1976 I married my husband and we have three grown children. In 1978 I was contacted by the sister of my ex-fiance and told that he had committed suicide. I had never told my parents or any friends about the abortion. In 1989 I started to experience flashbacks of the abortion and was no longer able to stuff my feelings and pain. I went through almost 20 years of chronic clinical and treatment resistant depression with 7 hospitalizations and 2 years of Electroconvulsive Treatments. My marriage did survive due to our Christian faith, but I know that my 3 children who were 7, 9, & 11 when I first became depressed were affected by all that I went through. I felt such shame and self-hatred for so long and struggled with suicidal ideations. I knew that God had forgiven me, but I was not able to forgive myself. The abortion procedure itself was traumatic because I was not given any type of anesthesia at all, and there was one point in the middle of the abortion that I have either blocked out or I passed out and don't have a memory of all of it. I

believe that the father of my aborted baby killed himself because of his feelings of guilt and regret.

10. How has your abortion affected others in your life?

It affected my husband and my children because our whole family life was disrupted and everyone was emotionally affected for years. My daughter who is 29 will not even talk about how she felt during my years of severe depression. It also affected my parents who had to be told when I became sick. I had several friends who walked through the healing process with me who had not had abortions and it was very emotionally debilitating for them and also affected their families. Abortion is nothing but destruction in every possible way.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell a woman that abortion is never the right decision to make and that not only do you destroy a living baby, but you also will reap horrible consequences later in your life. I would say to either have the baby and keep it or have it and give it up for adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should never be made legal. All it does is give people a false sense of security and the idea that there "problem" will be easily fixed for them with absolutely no consequences. It is purely a money-making business for groups like Planned Parenthood. There are absolutely no benefits to abortions at all. I feel that women who have had abortions are also the victims in addition to the babies. I have forgiven myself and I know God has forgiven me, but I will always carry the scars of my abortion with me until the day I see Jesus and my child in Heaven.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OH

County of Trumbull

My name is W L. B I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Pittsburgh PA

06//1982

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

I wasn't told

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I knew it meant I wouldn't be pregnant but I had no idea of what the procedure would entail. Noone explained the intense pain of the procedure, I remember it like it was yesterday.

5. Were you adequately informed of the consequences of abortion?

Yes No

They informed me that I would bleed some. Nothing about how emotionally and physically damaging an abortion is. They also neglected to tell me that it could be an incomplete abortion. I found that out 3 months later when a surgical sponge with fetal tissue on it came out of me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The Family Planning facility

9. How has abortion affected you?

I felt a myriad of emotions over the last 27 years; guilt, shame, dirty, unworthy, depressed, confused, sad, a murderer, undeserving of the title "Mom", broken relationships, divorce, the list goes on. It caused a domino affect in my life that is still being played out.

10. How has your abortion affected others in your life?

Because I felt bad about what I did, it affected my relationships with other women/mothers, especially pregnant women. I don't think they knew why I would withdraw from them. I believe my younger sister had bittersweet feelings when she would tell me she was pregnant again, she has 7. My mom felt guilt & shame because she took me, so it became a burden in her life. I'm not altogether sure I know how it affected them.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't do this. Do you know what they will be doing to your & your baby's body. Ask for more information before you make this decision. There is a life growing inside you that you need to defend. That little boy/girl didn't ask to be planted in your womb, you did (in most cases). There are other options for you to choose and alot of people out there that can help & that care for you & your baby. I have been where you are & I can share my story with you, just say when.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You don't know what a miracle conception is. How a woman's body reacts to sperm when it enters her. It's a foreign body & needs to be destroyed. So, our body goes into defense mode to kill off the invader. The fact that 1 sperm makes long journey & enters in to the egg is a miracle in itself. Viola! a life has been created. Not this politically correct term fetal tissue, a fetus, a.k.a. a baby. When was the last time you asked a pregnant woman when her "fetus" was due? How about, is August 10 the date you chose to murder your "baby". You're sending out a smoke screen to confuse the real issue of "PERSONAL RESPONSIBILITY." Now that would be a real fire.

My name is Nicole I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

columbus OH

02/19/2002

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

? do not know, was not told. Went in with vaccum is all I know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I told my doctor that I didn't want to know anything about what he was doing and that I didn't agree with what I was doing so please do not talk about it and just get it done.

5. Were you adequately informed of the consequences of abortion?

Yes No

Again, as in my previous answer, I was impulsive, my doctor knew it and did not inform me of anything per my request. HE should have sent me home to think about it further with more information. I had to sign more and listen to more information about getting my tubes tied than about an abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Emotional deadening, hatred for my body (murder was committed inside of my body), distrust of everyone, depression, irregular sleep cycles, preoccupation of possible death with my living children.

10. How has your abortion affected others in your life?

They have had to deal with the things I have discussed in question 9 in their dealings with me. It has made relationships harder all around.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. Even if you do not believe it is a baby, you will soon know because you will feel DEAD and EMPTY immediately following. You will change immediately, and not for the better. You will regret it the remainder of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is murder. It kills an innocent baby. It severely wounds the mother and father for life.

HOW MY ABORTION AFFECTED ME

The State of OH

County of Trumbull

My name is Pamela I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Akron OH

03/22/2003

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

RU-486

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Not Sure, I was told how to take the drug but not much else.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one said that if the drugs didn't work I would need surgery.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have been in emotional turmoil since I had the abortion, although I didn't realize the abortion was the cause of the abortion. I have destroyed relationships with family and friends because I could not control nor understand my emotional state.

10. How has your abortion affected others in your life?

My parents were confused and upset by my emotional outburst on a daily basis. Not knowing why they were happening and why I was so terribly mean to them. My brother wants not much to do with me because I was so mean and nasty during this time.

11. Based upon your experience, what would you tell a woman considering abortion?

Any woman who would consider abortion at this point in time is completely uneducated on the other options like I was. I would tell her that she has options. I feel that I could educate them about their options and connect them to resources in the community that would provide great support through this difficult time. I would also tell this woman that there is no one who will know the right answer to her problem besides God and that she needs to take her struggle to the Lord. God is what brought me to

my healing place and what will carry her through this struggle.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion Clinics LIE! They do not follow the rules nor do they educate women on their options. WOMEN NEED OPTIONS. Abortion is not the only way, yet people believe that it is. I have suffered for 6 years since my abortion and my family was hurt in the process. I have lost family ties, friends, and relationships because of my emotional instability caused by my abortion. Had I been correctly informed about the physical and emotional pain I would feel for YEARS after the abortion I NEVER would have went through with it. I would have chose adoption. I was 18 and scared, my mom was 44 and scared. They took advantage of two scared women and misinformed us! They are liars and are only out for one thing, MONEY! They kill innocent children all day long and it means nothing to them. How could that be a legal act? If you killed a puppy today, you'd go to jail tomorrow. If it's not okay to kill a puppy then it sure is NOT okay to KILL AN INNOCENT CHILD!

My name is Melody I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dayton OH

04/22/1985

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

the cut up my baby and suction out the parts of it's body

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I knew abortion and procedure/s. While in high school I did a speech against abortion and research the information very thouroughly

5. Were you adequately informed of the consequences of abortion?

Yes No

NO!!!! I was NOT told that I could hear a piercing cry of a baby when there wasn't around. I went straight to work after the abortion and I was so sick and bled so much. They didn't tell me I wasn't allowed to go to work. I worked on my feet at the time. I wasn't told I would have night terrors about my child I killed. I had terrors of a small child crying in fear, I tried to get to "her" down a black tunnel and out hands never touched. I still hurt emotionally. I was diagnosed with PTSD two years ago my therapist. She told me this diagnose could be directly related to my abortion. I also female medical problems. I had endrametriosis, adnomyosis and extreme, unexplained scar tissue. These medical conditions forced me to have a hysterectomy or I would die.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My family

9. How has abortion affected you?

Yes since 1985. I have not been able to forgive myself for playing God and taking a life of my unborn child. Maybe this sounds sick, but I want/deserve for God to allow me to feel the physical pain I forced my child to endure

10. How has your abortion affected others in your life?

In my family, most have never felt the same about me. They look and believe that I am and always will be "tainted" Which they are right.

11. Based upon your experience, what would you tell a woman considering abortion?

Under NO circumstances have an abortion!! That baby that was conceived didn't not ask to be and has a right to life just like the two people who allow the baby to be conceived. No one has a right to take a life, that is God's decision. Having an abortion is a nightmare that you will carry with you for the rest of you life. Until God chooses to end your life. The female WILL have physical, emotional, and mental problems.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Why does the court have the right to give society to choose to murder another human? If they give society the right to end a baby's life, then why not give them the right to murder any human. The right to see someone on the street and decide they didn't like the way they look then they can shoot them and take their lives. Give the society the right to kill someone not matter the reason: if they were angry with them, stopped loving another, have envy towards or for not reason at all. Keeping abortion legal is absolutely NO different!!

QUESTIONS

1. Where and when did your abortion occur?

Columbus OH

2. How many weeks pregnant were you?

3. What type of abortion was performed?

Not sure, I guess it was the typical suction type.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

see below

5. Were you adequately informed of the consequences of abortion?

Yes No

I was 17, scarred, and didn't know what to expect, what the consequences would be, how I would feel. They did it so often, that they didn't even bother to explain anything to me. I just followed the instructions.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The guy who was the father of the unborn child.

9. How has abortion affected you?

It took me a long time before I could even begin to stop thinking about it every day. It haunted me dailey. I knew God had forgiven me but I could not forgive myself. It took me over 10 years before I could forgive myself. But I still think about it 30 years later. I didn't feel worthy to even have any kids in the future. Once I did, it helped me understand what a blessing kids can be in your life.

10. How has your abortion affected others in your life?

I feel that it took a toll on my sister. She stood by me the whole time. I know my kids, and my husband were disappointed in me. But, Thank God, they still loved me through it.

11. Based upon your experience, what would you tell a woman considering abortion?

Be sure you are totally informed of all the consequences before making the decision. Don't make a rush decision. Consider adoption before abortion. Pray or have someone pray for you to give you

strength to make the right decision.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that they need to consider all the affects of an abortion on the mental, physical, and spiritual aspects a woman, or girl, will go through after having an abortion. I think they must insist on counseling. I believe that woman have no idea what to expect when they make that quick decision to have an abortion. There should be options available to those who are even considering abortion. Use the funds set aside to fund abortions, and use it instead to set up counseling, adoption options, etc. I understand that there may be a health issue involved to make it necessary to have an abortion. I truly believe they are wrong and that they should be restricted.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OH

County of Scioto

My name is Anita Manninen. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Antonio TX

06/01/1971

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

I am not sure. I was put under and it was surgical

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was a kid and the only thing the doctor talked to me about (my dad was there) was having my tubes tied. I begged my dad not to let them do that. I was under the impression, as most were then, that the baby was just a blob of tissue and wasn't really a baby yet.

5. Were you adequately informed of the consequences of abortion?

Yes No

I didn't really want the abortion and in my heart I knew it was a baby and that I was killing that child. It broke my heart, but at the time I thought that was the only option I had. My parents were absolutely no help; they didn't encourage the abortion (my mom did some, but not strongly) but they also didn't discourage it. They never told me that I may have problems getting pregnant later in life, or that I could develop cancer or anything related to the abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Myself and my parents some. See above statement.

9. How has abortion affected you?

After having the abortion, I was depressed. My relationship with my boyfriend (later my husband) changed dramatically. We never fought before and after, that is all we did. We did get married, but we still fought (physically and verbally), with him committing adultery all the time. We did drugs, drank and after our divorce, I became promiscuous. I had problems getting pregnant and had to go through a fertility doctor with my present husband of 25 years (this year). Thankfully, I became a Christian and was finally able to forgive myself and stop the destructive behavior that resulted in having an abortion.

10. How has your abortion affected others in your life?

My husband, the father of our aborted baby, drank, drugs, committed adultery, had problems with relationship (ours and later others). He had other children by women that he never married. He drank himself into liver disease. He used to tell his mother over the years that our baby would have been such and such an age. This I am sure without any doubt caused most of his problems throughout his life.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell a women considering abortion to NOT have one as they will suffer the rest of their lives with regret. The fetus is a live human being whose life is snuffed out through abortion. The child has a right to life just as she does. Having an abortion will affect her life in relationship with others, her future children, and possibly cause her to not being able to have children. And the most important thing to me about not having an abortion is that God loves life and doesn't want a child to be aborted. Just as the Israelites threw their children in the fire to Molech, we are doing the same thing today through abortion. Just a different method of sacrificial death.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Life is not just outside of the womb. If we can allow a woman to murder her child inside of her body (she is the care taker of this life until birth), then what is the difference if she decides she doesn't want the baby after birth? How is this child different inside instead of outside of the body? A child conceived is a human being at the time of conception. It is isn't an animal, or a microbe, or anything other than a human being. Also, after a woman has an abortion, she suffers the rest of her life, she will have health problems, possible infertility and will be a drain on society as she will become dependent on alcohol, and possible drug usage.

1. Where and when did your abortion occur?

Columbus OH

11/20/1993

2. How many weeks pregnant were you?

3. What type of abortion was performed?

I do not remember

4. Were you adequately informed of the nature of abortion, what it is, what it does?

5. Were you adequately informed of the consequences of abortion?

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

Shortly after having my abortion I slipped into a deep depression and was later diagnosed with Post traumatic Stress disorder. There isn't a day that goes by that I don't think about my baby boy. I know it was a boy because the center did an ultrasound. I celebrate what would have been his birthday every year.

10. How has your abortion affected others in your life?

There are only a couple of people that know and I haven't spoken to them in a long time. They were very upset at the time.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that there are too many other options available. And the effects are too long lasting to even consider abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the male members that unless you are in a womans shoes they have no idea the effects. The feelings of regret and heartbreak never go away. To the women of the court I would remind them

how fragile a persons psyche can be when faced with an unwelcomed pregnancy or forced abortion by a mate. I met many women that day and at least half were there because their husbands or boyfriends raped them and then threatened bodily harm if they did not abort. There are other options that will not scar someone for life as abortion has and will do every time.

9. How has abortion affected you?

Right after the abortion, I could not do anything but cry. I felt empty inside. I knew a part of me was missing. Later, when my husband (who was the father of the aborted baby) & I tried to get pregnant, I could not. I tried for 2 years then I went to a fertility specialist. I felt incredible guilt that I was having such trouble because I killed my first child. After I had my 3 daughters, I still look @ them & wonder what their sister or brother would have looked like. I was only 17 when I had my abortion & felt like I had no other choice. I wish I had known about pregnancy centers that would have helped me see other alternatives like adoption. At least my child would have lived & given some other parents joy.

10. How has your abortion affected others in your life?

My husband suffers quietly with his guilt. My older daughters sense that there is something that I have not told them.

11. Based upon your experience, what would you tell a woman considering abortion?

That it is not just an easy way out. You will live with the memories of that baby for the rest of your life. Also, there can be complications from the surgical procedure itself & most abortion clinics are not

going to help you after you go home. Look into your future & see what you hope for. If it is a family one day, the shadow of this child will always loom over you & your family.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I now know that what I felt after the procedure was a natural feeling of a mother losing her child. That is because it is a child. If I could have seen my child on an ultrasound & learned of the development of the fetus, I would have not gone thru with it. The abortion clinic did not care about me. In the recovery room, they were irritated that I was crying & told me that I needed to get up & leave. Not once did I feel cared for or love in that place. The emotional pain that I have endured in the years after my abortion has been far worse than any pain I would have had from keeping my child.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents and the child's father

9. How has abortion affected you?

It has been 18 years since I had this abortion and the psychological effects are still with me. I never wanted to have the abortion but my parents told me I had to. I don't blame them anymore, I know that they were trying to protect me and help me to have a good life. However, I long for this child that never was given a chance at life and weep for my Lord.

10. How has your abortion affected others in your life?

I know that my parents have suffered with their decision.

11. Based upon your experience, what would you tell a woman considering abortion?

I know that a woman that is considering abortion is in a place that is scary and uncertain. There are a number of reasons why pregnancies become unwanted. I would lovingly encourage women to know that there are other options and loving people that are willing to help in these situations. I do believe that life begins at conception and to take this life is a burden that will live with you forever. It is my burden and I wouldn't wish it upon anyone else.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I do believe in abortion in rare cases such as rape, incest, and harm to the mother. Abortion as a means of birth control for me has done more harm than good.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OH

County of Stark

My name is Shelly I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Akron OH

07//1982

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

surgical

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Do not remember much conversation about the actual procedure and what it would entail.

5. Were you adequately informed of the consequences of abortion?

Yes No

Was not informed of spiritual or emotional issues pertaining to abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Am high risk and have had a lump removed.

9. How has abortion affected you?

Several years after my abortion, I began to use drugs & alcohol. I became very promiscuous and had an affair. I did not know why I was doing these things and could not seem to stop it. I lived under the heavy weight of guilt and shame for 20 years. I stuffed and buried my emotions and became numb. I had another abortion due to an affair and fell further into despair. I lied to Drs. and would not disclose that I was post abortive. When I could run no longer, God began the healing and connected me with our local Pregnancy Resource center.

10. How has your abortion affected others in your life?

I hurt several people deeply due to my past choices and abortions. My ex-husband was the target of my anger and I was not able to bond well with my oldest son due to guilt over my second abortion. I lived in lies and deception to the point that it became my reality. All those around me were wounded by the way I shut them out to preserve my reality as it was.

11. Based upon your experience, what would you tell a woman considering abortion?

Her life will never be the same. Abortion is not an eraser and she will live with the fact that she was pregnant and nothing takes that away. It is a really tough journey that will affect every aspect of her life from her view of herself to her view of God and others. There is healing available but you will never feel good about the choice of ending your child's life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If it were not legal, I believe we would see many more adoptions. I work at a pregnancy resource center and most abortions are performed due to inconvenience. Even in rape and incest (which is less than 1% of abortions performed), studies show women are able to heal better and more fully if they carry their child and either parent or place for adoption. The health of the mother is rarely if ever the reason for abortion. The unborn is a human being according to Embryology textbooks and is therefore, entitled to the same rights of Life, Liberty and the Pursuit of Happiness that you and I are entitled to.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OH

County of Fulton

My name is Colleen I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Toledo OH

08/15/1980

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

I believe it was a D & C, since I don't recall any vacuum sound as many women do.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They did explain what would take place, but they didn't tell how extremely painful it would be. A pain that would take your breath...I do have to say I was more fortunate than many women I know of--I wasn't rushed through it nor did I have to endure uncaring people only interested in money. I even know of women who changed their minds and were kept on the table by force. I didn't experience those terrible things; just unbearable pain.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was treated kindly, but it was never mentioned that there could be any negative consequences afterward. It was as if, "Problem solved, bye-bye now".

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It was my decision and I take the responsibility. However, the dr. immed. began to steer me toward abortion b/c I was afraid about the pregnancy. My husband told me it was wrong, but he drove me to the clinic and left me there, then came back later and picked me up. My closest friend who was pro-life was merely trying to be sympathetic and be my friend instead of questioning did I really want to do this. I buried the whole experience until 2 yrs. ago, but at that time I went through a post-ab. Bible study and through it I was able to finally grieve for my lost son and know he was real. I will forever regret my decision and would gladly trade places with my child if it would bring him back. I miss him and always will.

10. How has your abortion affected others in your life?

It has affected my children I have now and my husband, my mother-in-law..there is a member of our family missing. My parents--I never told them--they are both gone now, as is my father-in-law. I took away from them the chance to know and love this grandchild.

11. Based upon your experience, what would you tell a woman considering abortion?

I would do everything in my power to try to convince her to wait; that there are other options. That after the shock of an unplanned pregnancy fades, you can think, pray and plan. That the greatest gift she could give her child is the gift of life. That she will forever regret her decision and will more than likely experience great grief and sorrow, and anger at herself and others. That she may turn to alcohol or drugs to dull the pain. That she may have a hard time being the mother her living children need, if she has others. Those are just a few of the things I would tell her if I could.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That abortion being legal causes more abortions--obviously women wouldn't abort if it was illegal, or very few would. I know of women who were so angry afterward--"why didn't anyone tell me? How can this be legal?" That the privacy law keeps women from being told the truth and then they are angry--that the law says abortion is ok, but then when you have one, you can't talk to anyone about it. We know in our hearts it isn't right, I don't care what the law is. We are nurturers of life. It goes against our moral code to take our children's lives, no matter how we try to rationalize it to ourselves at the time. We can rationalize that it isn't a baby yet, but our hearts know the truth, and so then we have to try to pick up the pieces and keep going as if nothing is wrong. But it is wrong. Ultimately most of the anger post-abortive women feel is directed toward themselves. Millions of women keeping anger below the surface--can this be a good thing for our families, our nation?

HOW MY ABORTION AFFECTED ME

The State of OH

County of Union

My name is Susan Pfarr. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Columbus OH

05/26/1980

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Of course I was told that the baby wasn't even a baby yet, it was just a thing. They did not explain what would happen to the baby during the abortion. They also did not explain the horrible sounds that you hear during the abortion and that what you hear when the machine makes a high pitched sound is actually the baby being sucked up and sometimes getting stuck.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed of the mental trip this would play. Guilt, depression, the body changes, the chance of becoming sterile after wards.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I struggled with sadness and guilt for many years and I used alcohol for a while to numb it. I can still feel the pain and the horrible sounds of the abortion. The abortion caused me not to be able to have children for many years, which God in his grace turned around. I would have a 28 year old child walking this earth if I wouldn't of had this done. God has healed my guilt and shame, but I think of my child frequently and often feel sadness of the loss.

10. How has your abortion affected others in your life?

I married the father of my child and through God's grace and mercy He has healed the broken hearts and has blessed us with other children. Our children today mourn the loss of an older sibling and have questioned why.

11. Based upon your experience, what would you tell a woman considering abortion?

While at the time it was a convenient solution to a situation, it ended up being a life long struggle. Struggle with physical problems, extreme emotional issues, co-dependency, and if not healed and dealt with could lead to severe depression. When you think of a person being ripped apart limb by limb not having the ability to fight back. You have taken the life of a person (or as the court would say a fetus soon to be a person).

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If this child was outside the womb and I torn it apart limb by limb causing death, I would have committed murder and would be charged as such. What is the difference between killing a child inside the womb and outside the womb. It still is breathing, being nourished, and growing inside the womb just as a child does after it is born. Also by allowing abortion, you ultimately run the risk of more depression, suicide, medical issues, and in some cases more crime (abortion leading to depression, depression leading to dependency on drugs to keep it under control, drugs leading to addiction, addiction leading to crime). Why would you allow this kind of decline in any persons life.

3. What type of abortion was performed?

suction-aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They didn't describe in detail everything about the procedure & told me it was "no big deal" & "it would all be over soon"

5. Were you adequately informed of the consequences of abortion?

Yes No

I was unaware of the mental & emotional aftermath & they made the health risks sound very minimal.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I've been depressed for years since, I've had extreme mental & emotional problems, little to no self-esteem, self destructive behaviors, extreme anxiety, shame, feelings of worthlessness, unable to have healthy relationships with my boyfriends, abusive relationships, obsession over having kids... I could go on & on

10. How has your abortion affected others in your life?

I've always felt the need to hide it from people. I've had guys break up with me once I told them about it. It's affected every relationship I've been in.

11. Based upon your experience, what would you tell a woman considering abortion?

It's the worst thing anyone could ever do... not just for your baby, but for your own mental state. It's just not worth it. No matter what is going on in your life at the time, an abortion will make it worse. There are thousands of people in our country that are unable to conceive & would love to have a child of their own, if you're unable to parent your child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

How can you legalize killing an innocent human being? It's been proven across the board that life begins at conception. I find it sad that we can destroy such a precious miracle, right up until the moment before birth & worse yet, that our society thinks it's ok. I think people need to be fully aware of what abortion is & how poorly it affects not only the mothers & fathers of these babies, but our society. Occasionally you hear people talk of the health risks involved; but I tell you from experience, that those risks are nothing compared to mental & emotional turmoil that result after an abortion.

9. How has abortion affected you?

The pain I suffered was the worst physical and psychological pain I have ever experienced in my life, even over and above hearing the words "your son has cancer" in 2007. I felt deceived and violated. I had no idea what abortion would do to me.

10. How has your abortion affected others in your life?

created great pain and sadness for my parents as well as myself and the father

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

until you have walked in the shoes of a woman who has had an abortion, you cannot possibly know the effects of what you would be doing if you legalize this barbaric act. If you want to know the truth, as a woman who has suffered this tramatic event in her life.

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

I feel great shame and guilt and a sense of total loss. I am so unhappy and wish someone had counseled me as to what my decision would mean to me morally. I am a Christian and this is devastating to me that I did this.

10. How has your abortion affected others in your life?

My husband took me and although he has not told me what he is feeling. I know he is hurting.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to seek out a counselor who is experienced in pre abortion counseling. The worst part of this is the fear and the utter feeling of having to make a decision quickly when you are so distraught over an unplanned pregnancy. Get help to think clearly about what you are doing.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say that anyone considering an abortion should be required to seek counseling from a trained

counselor who can help them sort through their issues and fears. So many women are not given this opportunity and dont know where to turn. Both sides of this issue should spend less time arguing and more time helping women in these situations. The results would be less abortions and better outcomes for everyone involved.

The State of OH

County of Huron

My name is Shelly Holt. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Cleveland OH

12/15/2001

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Suction & Curretage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told of if or what pain the child might endure by being sucked from my womb.

5. Were you adequately informed of the consequences of abortion?

Yes No

It was all very cold and informal...many girls were there at the same time. I felt like, and WAS, only a number. And so was my unborn child.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My ex-husband.

9. How has abortion affected you?

I have had many episodes throughout the years of extreme shame and sorrow, sobbing relentlessly and apologizing to my child whom I never got to meet.

10. How has your abortion affected others in your life?

My (now) husband feels the loss of his child. It has (thankfully) affected my other children, in that they've seen the pain and sorrow I've long endured, and know it is very wrong and immoral.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that what she doesn't realize at this point is that it will affect the REST OF HER LIFE. It is something that can never, EVER be reversed, and that the child is a little person just waiting to breathe in her/his first breath of life, like she has had the opportunity to do. What makes her unborn child any less deserving of being born and LIVING.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would first say exactly what the above paragraph says, then I would add that just because the fetus is not fully formed, and may not even be able to survive outside a womb, the fetus is ultimately a HUMAN BEING. He/she will not grow into a dog, or a cat, or a frog. He/she is a human being in the making, and when born into this world, is and always will be, a HUMAN BEING...a PERSON, with a personality and a LIFE. How can one support or justify the killing of that human being when only God should make that decision? There are so many who are outraged when an animal is being abused, neglected, or put to sleep...but some of those same people don't bat an eye at a tiny, living person being ripped or sucked from the womb of his/her mother.

QUESTIONS

1. Where and when did your abortion occur?

Charlotte NC

11//1996

2. How many weeks pregnant were you?

3

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Absolutely not.....I was informed it would soon be over. Not that my whole life would be turned upside down into a deep dark pit of shame, despair, addictions and Hell on earth.

5. Were you adequately informed of the consequences of abortion?

Yes No

Absolutely not...I was not informed that my whole life would be turned upside down into a deep dark pit of shame, despair, addictions and depression. I was informed this would soon go away, but it will never go away, it will never be over. You can not kill your baby inside of you, and not feel the loss of that life, it kills a part of your soul FOREVER, never to be the same....Never.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

After the abortion I sank into a numbness, a denial to even be able to deal with what I had actually done. I began to drink heavily and smoke pot to deal with it, I had never smoked before and only drank occasionally prior to the abortion. I became a workaholic to just stay busy, so I never had to think about the choice I had made. I withdrew from family and friends, but mostly I withdrew from God.... I turned my back on Him unable to face Him with my shame, guilt and despair. I sank into a deep pit...the only way I can truly express it....is a deep pit of living HELL on earth!! I never had joy, no happiness, I just existed day to day....I had the same continuing nightmare on....and on....and on....it was evil...I did whatever it took to get me through, until I started my healing process.

10. How has your abortion affected others in your life?

I withdrew some from my daughter I had at the time not knowing it, but now I know that I did. When she found out she cried and cried...asking me if I really want her!!!!? It just makes my heart break to even think how she must have felt and how my decision hurt her....this was her brother!!! My own brother withdrew from me, after finding out I had Killed my baby....called me a baby killer etc..... As I am. My mother & father felt the loss of a grandchild. How can you measure or even state how an abortion affected others. There is no way to measure the loss of a Life.

11. Based upon your experience, what would you tell a woman considering abortion?

You are in a crisis, but trust me choose anything, but abortion. You cannot kill a life inside of you and just make it go away. This is not a choice, but a God Given Gift of Life. If you abort your baby a part of you will die also, you will be haunted with this decision the rest of your life. Choose adoption or Birth....God will help you raise your baby or find you someone else who will. Life and Birth of a child bring joy, happiness, pleasure it is a gift!!! Abortions brings death, evil, sadness, shame, guilt.....There is no choice, it is a lie.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is not a choice that we should have a legal right to make. How can I as a mother kill a life inside of me, and not be in prison....The whole thing does not even make sense. Am I any better than the man who kills another man, or the mother who kills her two year old?? No, I am the same....yet this society allows me to walk around as if I have not killed and taken a life. A heartbeat, is a Life period.I never would have made the decision to abort my baby had it not been legal. The fact that it was legal, allowed me buy into the lie. Abortion is killing a life inside of you,It is death, it is evil. Abortion changes the soul of the Mother as nothing else ever could. It brings about a darkness, a veil of shame, guilt and remorse, of which only One can heal. Abortion goes against the very nature of God, which is Life and Love. The effects of legal abortion do not end with the mother in a room aborting a baby.....the effects of legal abortion are far reaching from person to person, generation to generation. We are not aborting babies, we are killing changing the human spirit, and it is so far reaching that we cannot even fathom the depth of the pain that will be passed from generation to generation....as long as Abortion is legal in this country....We are killing the American Spirit and America and all that God Blessed us with as Americans.I wish I never had made such a choice, I wish I had never had the "Choice" to make.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OH

County of Ashland

My name is Susan I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Buffalo NY

11/11/1979

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I received my "counselling" at a crisis pregnancy office in Toronto where I was given information about birth control.

5. Were you adequately informed of the consequences of abortion?

Yes No

At the clinic I went to in Buffalo I only completed paperwork and then paid my fee. I don't remember any counseling.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has caused an ache in my heart and arms that still exists. I started binge eating after the abortion, and it has only been the last few years that I have accepted forgiveness.

10. How has your abortion affected others in your life?

It destroyed my marriage and my respect for my husband (he was the one that got me pregnant about 2 years before we actually got married, and took me to have the abortion). We later had two sons, who know about the abortion. It is my prayer that they can forgive us.

11. Based upon your experience, what would you tell a woman considering abortion?

Trust God! Do not take matters into your own hands. He will provide a way to care for this baby if you will place your life and your child's life in His hands. The joy of being obedient can far outweigh the fear you have about your circumstances.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Courts should be protecting its citizens, and that includes the unborn. Abortion kills a baby.

9. How has abortion affected you?

I think of my baby EVERY SINGLE DAY.

10. How has your abortion affected others in your life?

I hold it in. No one knows the suffering.

11. Based upon your experience, what would you tell a woman considering abortion?

To please PLEASE don't do it. Adopt, adapt, but don't kill.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it's murder, plain and simple. The court can't possibly comprehend the emotional and physical damage and changes that happen to a woman's body when this barbaric act is performed.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OH

County of Cuyahoga

My name is Kathryn Bretz. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Cleveland OH

08//1981

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I specifically asked if this was a baby and was told "No, it's a formless blob of tissue." No one told me that this was a tiny baby who would be ripped apart.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed of potential negative physical, psychological and spiritual consequences. The brochure stated that many women experience relief, without any consequences and that also stated: "There may be a BRIEF period of sadness."

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Sister, friend and counselor at the clinic.

9. How has abortion affected you?

Do you have 5 Hours? It has impacted my life negatively the day it happened and every day since for almost 30 years--with unmanageable and powerful emotions of guilt, sorrow and raw pain. I developed a migraine disorder that has consumed my life, destroyed my career and finances. My inconsolable crying over the loss of my child, and knowing I was complicit in his death has caused deep, traumatic and overwhelming pain that can trigger a migraine. I've ended up at the ER with runaway migraine pain, with no pain-killing drug that exists in medical science to assuage my misery. The actual abortion itself may have caused sterility, due to an incomplete abortion. My parents asked me at the time if I needed to go to the ER and I couldn't face them, the doctors and nurses with the truth--so I just suffered. For a month after, my body was wracked in pain, and it seemed like I was in continuous labor. I expelled large chunks of endometrium and what looked like fetal tissue. I've not been the same since.

10. How has your abortion affected others in your life?

My family sees my sadness and pain over this and does not know how to deal with me, now that they know. In 1995, I lost my job due to continuous migraine pain and its power to take away my functioning. My Dad had to come to my rescue, take me to a migraine specialist and deal with my daily migraine episodes.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't do this--We can help you. I did this and later learned that this was really a baby with a beating heart. And that knowledge broke mine. Here in Cleveland, there are mobile ultrasound units that will show you your baby, who is alive, depending on you to live. Abortion hurt my life so badly. No one told me that 30 years later that I would be at a mall, see a mother with a baby in a carriage, laughing and giggling at each other--and the pain over my abortion is still so much alive, that I would have to go to sit in my car, cry and compose myself.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

How can this be legal? You are taking a unique human being, just like you once were in your mother's womb, and subjecting that person to a grisly and brutal death! Roe v. Wade was decided before the advent of ultrasound technology. Even Dr. Bernard Nathanson, one of the founding members if NARAL, the group that was influential in legalizing abortion, changed his views completely with the advent of ultrasound technology. Abortion doesn't free the parents, it imprisons them. Please protect our unborn children and their parents from this brutal practice.

My boyfriend turned his back on me and did not wan

9. How has abortion affected you?

I was in my twenties. Just out of college and on my own. I saw a child as an emcumbrance, an obstacle, to be gotten out of the way. I wanted my life to live it as I saw fit, not to put it on hold in order to raise a child. What I didn't realize was that on that day I wounded myself, too. There is a permanent scar on my heart. Instead of freedom, I found incurable bondage to guilt. For years I would cry every time I saw a baby. Now I am older, in my sixties. How many times have I looked at children, then young adults, and thought My child would be about that age now! But he isn't. And I can never change that.

10. How has your abortion affected others in your life?

It was 20 years before I would open myself up to a man again. I lost years of companionship and love.

11. Based upon your experience, what would you tell a woman considering abortion?

The world tells you that it is your life and you can decide. I can tell you that your life and that little life are now forever bound together, for better or worse. You want freedom. You want your own life to live as you want to live it. But nothing you will have or accomplish with you life will ever out-weigh the grief you carry with you day after day.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

This is a hard question for me. Because I was so fearful of what a child would mean to me, I might have sought an illegal abortion, and who knows how that might have turned out. However, by legalizing abortion we, as a society, put a stamp of approval on it and make the decision much easier. As one friend of mine said to me at the time Its just a blob of tissue. There was no one there to tell me that my child was much more than a blob of tissue. I have since learned, by faith, that my child is loved of God and I had no right over that life. I am forgiven, but I will never forgive myself. If we ban abortion again, it must be in the context of compassion for girls and women who feel themselves in an impossible situation. If 54 million babies have died since it was made legal, there have to be 54 million people willing to walk with these women through their darkest hour.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OH

County of Lucas

My name is Deborah . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Toledo OH

01//1974

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

some kind of suction/aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

We were told what would happen procedure-wise. Never was the term "child" or "potential child" used. We were told: this is a blob of tissue. They offered to show me what they'd removed, but I was in so much pain, I could not sit up or dress myself. The nurse had to do this for me. Thankfully, I was never shown the aftermath of my abortion. I believe God spared me.

5. Were you adequately informed of the consequences of abortion?

Yes No

Never were the emotional ramifications mentioned. No warnings given that we would face depression, shame, guilt, grieving, or thoughts of suicide. No one informed of pain in next cycle. I had cramp in my uterus for 24 straight hours. Already experiencing deep shame about what I had done, I endured the pain alone & without meds. I developed intense endometriosis, resulting in several laparoscopy surgeries and a total hysterectomy at age 49. All of these surgeries and medications cost us thousands of dollars.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my husband

9. How has abortion affected you?

Overwhelming grief, guilt, shame and depression. A tormenting "secret." An always wondering: what our daughter would have looked like?...would have become?...what would she be doing with her life?

10. How has your abortion affected others in your life?

No one, but those few trusted individuals, really knew. I supposed indirectly my relationships were

affected because I became more of a "held back" person and was prone to depression. Perhaps I held ones "at arm's length" because I was afraid of closeness. It has deeply affected my relationship with my husband. There is a lack of connection and true intimacy. I have to believe it greatly affected our son. How different of person would he be today if he'd had his sibling? How might they have helped to "form" each other by their relationship? Instead, our son was an only child. Our true joy as a family, is that our Lydia Renee (Noble One Born Again) is alive in heaven and awaiting a reunion with all of us.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that God doesn't consider any of us "an accident or a mistake." Because He gives mankind free choice, some people make unwise choices that result in the kind of intimacy that results in life being formed--because that's how He designed our ability to reproduce ourselves--through that physical act. But the conditions of our conception are not what determines our value in His eyes; they are not as important as the fact that life has been formed. I've told ones: God doesn't care about the conditions of your conception; He's just delighted that you are here--made in His image and imbued with passions and gifts and purpose especially by His hand." I would share these scriptures: Ps 139:13-18; Eph 2:10; Jer 29:11; Jer 1:4-5; Job 10:8,11,12; 31:15; 33:4; Eccl 11:5; Is 44:24; 49:1a,5,6; Ps 119:73 and Gal 1:13-15. I would encourage her to seek Godly wisdom on what is best for this child: keep him/her or bravely release this child into an adoptive home. And I would pray for her. I would encourage her to go to a pregnancy crisis center and have an ultrasound and see for herself.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Most of what I've already shared above: my own experience is all I can really tell and the Truth of what the scriptures say. We all have a Plumb Line, a Standard, by which we form our values, and those values are reflected in our attitudes, words and actions. The courts may not agree with me, but the Truth of Scripture, as I've shared above, is my Plumb Line, my Foundation of Values by which I now live my life. They reveal to me the validity of life at conception; and that purpose, individual worth, and destiny is woven into each person, only awaiting the fullness of time to develop. Matthew speaks of the mercy and life- preservation attitude of Jesus when he said about Him: "A bruised reed He will not crush, and a flickering wick He will not snuff out." For us to cut off the fragility of a beginning life, for "convenience," is contrary to the nature of a life-creating God. I wish I had known of these truths before I'd made the dreadful choice to murder my own child. The repercussions will never fully go away.

My name is Krista Willertz. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Kalamazoo MI

07/15/1990

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

D & C/vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had a previous abortion in 1988, so I think the staff at the Kalamazoo PP thought I didn't need any information. My consultation consisted of a young woman asking me if I had any questions or concerns. When I said that I didn't, she told me I needed to make up my mind quickly as they only did the procedure there through the 13th week and I was almost 13 weeks at the time.

5. Were you adequately informed of the consequences of abortion?

Yes No

As stated, I had already had an abortion two years previously, but I was ill-informed when making that decision also. Not one person every spoke of the emotional consequences of killing my babies.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother pressured me into my first abortion.

9. How has abortion affected you?

From the moment I lay on the table for my first abortion, I started to die inside. None of the staff were mean, but all were very matter of fact. No one asked me how I felt. I wanted to scream : "I don't want this! Someone help me!" No one asked. My mother dropped me off at the apartment I was living in at the time and I cried myself to sleep. For almost 20 years after that day, I have been emotionally disconnected to people, particularly those who tried to get close to me. My relationship with our oldest daughter (now 13 - I married my husband in 1993) was strained for many years. I had no idea how to relate to her, or how to love her. I was distant emotionally and physically with my husband. After many years of seeking love in the arms of other men (before I was married), I had no idea how to be in a truly loving relationship. It has taken many years and much pain to learn how to trust my husband and

children. I have few close friends as I learned in my past never to trust anyone. I felt for many years that everyone was judging me harshly so I just never got close to anyone. Those abortions nearly ruined my life.

10. How has your abortion affected others in your life?

As stated above, my relationships with my family and friends has been distant. My husband didn't know what to do with me for the first 13 years of our marriage. I didn't know how to be a loving wife but I didn't know why. He tried to understand me, but I just pushed him away. It has also taken several years to build a loving relationship with our oldest daughter and to revel in the joy of our other two children (8 and 1 years old). I feel that so many years have been wasted with my family because I couldn't let anyone get close to me.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to ask herself if she really knows what she is getting into and that friends who have had abortions (less than 10 years ago) are NOT the best sources because much of the trauma related to abortions is buried for many years. I would also tell her to give herself time to really think everything through and to pray (if she feels comfortable doing that). God has a way of working everything out and He would never give anyone a baby unless He thought they could handle it. I would ask her what her dreams are in life and how she thinks a baby could possibly ruin any of them. Delay them, maybe, but never ruin them. Every moment I have spent with our children has been a gift, whether I understand it at the time or not. Children help us become the best version of ourselves. They teach us humility and love; patience and kindness. Children make joy in our hectic world possible!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Life begins at conception. I believe one of our Founding Fathers said it best: "The care of human life and happiness, and not their destruction, is the first and only object of good government."

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OH

County of medina

My name is Bianca I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Cleveland OH

10/27/1999

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

I am not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

No. I was not. All I remember is that I did not want to do it, but my Mother and my boyfriend told me it was the best thing at the time. I had no idea that when time passed how much guilt and anger that I would feel, I want to take it back so bad, I now have three children and still cry to this day about what I did, I think about that baby all the time and well it is just awful the pain I go through everyday thinking about my choice. I hate what I did.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend and my mother.

9. How has abortion affected you?

I have three kids now and I look at them and just cry about what I did. I want to try to replace that loss in every and anyway. It effects me all the time just it hurts and upsets me all the time.

10. How has your abortion affected others in your life?

It does affect my marriage as I always bring it up and what I did was horrible and I just always feel guilty and want to take it back i want that baby.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to do it, that there is a real beating heart and that it is a baby right away. And that you will always remember that choice and you will cry alot afterwards. When the abortion is done u wake up feeling like empty like it was just ripped out of you and then u want to puke. Do not make this choice, it lives with

you forever maybe not right away but it will come back.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

A abortion should not be legal, adoption should only be available, what if someone aborted u, u would not be here right now. There is a baby the minute the baby is conceived. I think abortion causes alot of women to be in counseling and I think women/teens would be more cautious about unprotected sex, since they are using abortion like a birthcontrol. Abortion needs not to be available to anyone. It is killing and murdering if u ask me, if you dont think so then what is? And when you make that choice to be close with God, it really hurts, knowing what u did and then the tears really come out trying to heal from not only what happened but the choice that I made, how could I do that and I have three children that makes it harder, looking at them.

3. What type of abortion was performed?

They sucked the baby out of me.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

The dr. only cared that the ultrasound was performed to prove I was pregnant. He never cared about my mental state.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I think about my baby often. Wonder what he/she would have been. It hurts to think I gave in to the fear of having a baby.

10. How has your abortion affected others in your life?

No one knows I had one.

11. Based upon your experience, what would you tell a woman considering abortion?

Absolutely not! Give the baby up for adoption. You will never, ever be the same once you have one. It will leave a whole in your heart forever.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

They are crazy! It would give too many teenagers and/or women the right to be immature at any cost. It would increase depression in women ten fold.

9. How has abortion affected you?

I always wonder what my child would have looked like, where they would be, what they would be doing and so on. There is no peace...

10. How has your abortion affected others in your life?

I don't know. I have never told anyone.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't do it. Every child that comes into this world has a purpose and a plan. We have no right to take that baby and put an end to its life. When we abort a child we are ending the life of a child that will go on to bless us or others in ways we can never imagine.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You can't deny the empirical data linking abortion to other physical and psychological issues. Also, Roe v Wade was decided more than 30 years ago. In that time there have been astronomical advances

in medicine. We know when life begins, the court is just choosing to look the other way for cultural reasons.

The State of OH

County of warren

My name is Theresa I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Broken Arrow OK

//1984

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I wasn't given details of the procedure, just generalities.

5. Were you adequately informed of the consequences of abortion?

Yes No

I wasn't informed about the psychological implications.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I was severally depressed for the first year after the abortion. After that I drank alcohol excessively and did drugs to block out the pain of the experience. I cried a lot and thought about what the life of my aborted child might of been like. I felt like a murderer who could not be forgiven and was surely condemned to hell.

10. How has your abortion affected others in your life?

My husband (the father of my child) suffered and hurt for me and our unborn child. We both believed we had made a terrible mistake. We both believed we had allowed the life of our unborn child to be destroyed. We had allowed ourselves to believe that abortion was OK because it was legal.

11. Based upon your experience, what would you tell a woman considering abortion?

I would recommend that the woman look at an ultrasound image of her child and get all the facts of the procedure before considering an abortion. I would tell her to think about the many qualified couples that are desperate to adopt a baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Taking an innocent life should never be legal. Why, at times, is a woman who is pregnant and then murdered considered a double homicide? I would like to require that every judge, lawmaker, and politician who advocates abortion be made to watch a documentary exposing the entire abortion process and the psychological, medical, and emotional results it has on women. This seems the least they could do if they are going to allow the law to protect murder of the unborn and legalized trauma to millions of women.

Parent

9. How has abortion affected you?

I have been punishing myself in one way or another since this took place. I struggle even saying the word. I had nightmares, I began using drugs and drinking heavily and I struggled getting pregnant when I was married and ready. It has colored EVERY decision I've made since then. My self esteem is almost unrecoverable and I suffer from PSOC which could be a result of the decision I made. My faith has faltered and I have anxiety and depression. You don't understand how it effects you until you go through it. I allowed my child to be murdered. I allowed someone to stop it's little heartbeat and I will forever be haunted by that. I will never forget my child who paid for the mistakes I made at such an early age.

10. How has your abortion affected others in your life?

It was the "elephant" in the room with my family, my sisters were traumatized, my mother died an early death and my husband has heard my cries.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't! Adoption is a valuable option. There are THOUSANDs of family waiting for children. And a child is a blessing from God, a miracle, scientifically or morally, and it could be the best thing you have allowed yourself to experience.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Things that are negative and hurtful or impair our ability to act in the best interest of society are regulated or completely outlawed. Abortion fits this definition, it impairs women and men who are affected by it and should be SEVERLY LIMITED or outlawed altogether!!

My name is Christine Monteith. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

New York City NY

08/12/1991

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

No sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No, there was no real explanation that I could recall. Although, at that point, I may have been in a daze. My birth mother was with me and she was handling things.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me that it might make it difficult for me to conceive a child later. No one told me that was a life at that moment and I was choosing to end it. I made a horrible decision that day.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My friends and birth mother at the time.

9. How has abortion affected you?

Directly afterward, I woke up in the waiting room while coming out of the anesthetic, screaming! I was screaming for my baby. After that, I had nightmares, until I prayed for forgiveness from my child. I was restless and lost and looking for someone to take care of me. I married someone I shouldn't have, but divorced a year later. I had bad judgment in relationships and have spent years dealing with depression. I couldn't even say the word. I couldn't listen to their people's stories because it was too difficult. My self worth was never the same. Ultimately, I didn't feel that I deserved any real happiness, love, etc. I didn't think I should be able to receive those things and deep down, it was because of what I KNEW I had done to my child. When people would tell me how great I am, I would only think to myself, "Yeah, but you don't know the monster that lives inside of me who is capable of a horrific act." It was a terrible sense of loss that I would experience day-after-day. (Please note, that the actual date of the abortion above is my guess. I know it was in August of that year, but I do not know the actual day.)

10. How has your abortion affected others in your life?

I believe that through my depression, it has negatively affected many. I couldn't hear a woman's presentation about her own abortion without bursting into tears. It weighed on my heart so heavily and caused me to have a negative outlook on many things, including my own self worth. I finally went to Rachel's Vineyard one weekend after 17 years of doing this to myself at the urging of my husband to get some help. I received the miracle and gift of healing there and now, I want to help other women out there who have either had an abortion or are considering it.

11. Based upon your experience, what would you tell a woman considering abortion?

I would plead with her to reconsider. I would try to approach it from a standpoint of that being a life within her from that moment and also, I would speak to the effects of it afterwards. The things they don't mention to you. Offering you counseling, as I know some places do, is not enough. You will never be able to get way from that memory and never be able to get that, specific child back. There are so many things they don't tell you. An abortion is NOT an easy fix. It's something you'll carry for the rest of your life in one way or another.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I understand they want to think of it as "a woman's body, a woman's choice," but that is not even close to what we are discussing here. From the very moment that child is conceived inside the womb, it is a life. The cells are reproducing at an exceptional rate and life is being formed. It is not a choice, it is, simply put, murder. They won't allow you to do certain drugs because of their extreme harmful nature, yet they will allow you to do whatever you want with your body under the guise of "choice" - things that are just as harmful if not more. The risks, aside from the moral implications, far out-weigh any "choice" that is being made. Extinguishing a life after conception is not different than extinguishing that life outside the womb. There is a story I heard at mass one day from our priest. When asked about his thoughts on abortion in cases where the mother's life is in danger, he told the following story: There is a woman and young child a drift at sea in a life raft. Their ship went down and they are in the middle of the ocean. There is only enough food and water for one person to survive. So then, is the women just in throwing the child overboard in order to save her own life? That story was powerful beyond words and sums abortion up in exactly the right way.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OK

County of Creek

My name is Cindy King. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Oklahoma City OK

05/09/2008

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Medical with an injection and then followed by pills.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I hide in my bathroom or my office and I cry, I'm driving down the street and I cry, I see mothers with their babies and know they chose life when I didn't and I cry, I cry tears that have no end for an innocent baby that had no choice. My heart breaks over and over everyday. I feel like trash!!! I hate myself! I'm extremely angry, I wish I could take back what I did. How do I justify "getting on with life" when I just took one? I don't want to do anything, I don't want to be around other people. Do they know? Can they see through me and know what a horrible murderer I am? I don't know if I ever will be able to forgive myself for what I have done.

10. How has your abortion affected others in your life?

My family (children) don't understand why mom is angry and sad. They don't know.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't! Don't! Don't! This life given to you is truly a gift from God. If you are not ready for motherhood there are many who are and cannot have their own. As you feel this little life grow in you your feelings may change. There is nothing like the first cry of your baby. Nothing like the first smile, hug, kiss and mama. The anger, hurt, fear, loss and depression are far too great of a weight to bear. It might not happen right away, but they will come and they will push you down in a way that is hard to get up from, if you are even able. Please think about the life inside you and put yourself in that place. Would you want someone to take your life?

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is far greater of a weight to bear for any lady, regardless of age. Abortion is murder!! The same as what the "Son of Sam" or any other murderer did or does. It should be illegal. In the state I live it is legal for a 15 year old to have sex. In many other states it is the same and even younger. It is legal for our daughters to receive birth control and even abortions without parental consent. These are the laws that need to be addressed. Education needs to improve, both inside and outside the home. Abstinence needs to be promoted. TV, music and other form of entertainment needs to be promoting abstinence not teen pregnancy and abortion. Please as a woman that has suffered through the after affects of an abortion and as a mother of a teenager daughter, I ask the court to reverse the legalization of abortion. Help protect those that have no voice.

10. How has your abortion affected others in your life?

Denied them ability to know the person I killed. Made lots of bad decisions due to no feeling of worthlessness that ended up hurting others close to me.

11. Based upon your experience, what would you tell a woman considering abortion?

Find out facts. Realize more positive options available regardless of how dismal your situation may seem. All other options healthier spirit, soul & body for both mother and baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Murder or ending a life is not legal in any other situation, why this? Even seatbelts required by law as matter of protection, much greater responsibility to protect a baby.

family

9. How has abortion affected you?

severe depression, i will have a lifetime of regret, I think about it all the time. There was a lady outside the abortion clinic and she was trying to stop women from going in. I talked with her before and still did it anyway. My family pressuring me and insurance would not cover he pregnancy. They would not pay anything. I made to much money for DHS assistance. I wish I would have depended on God to provide for me. Because of my choice I will pay for this for a lifetime.

10. How has your abortion affected others in your life?

My family was not affected. My boyfriend is hurt about it to.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT DO IT. There are other options out there. Many people want babies and cannot have them.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is murder. This particular clinic will do abortions up to 20 weeks. It is Murder. The women suffer emotional problems and there are so many risks to having one.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OK

County of Creek

My name is K J I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Wichita KS

02/12/1989

2. How many weeks pregnant were you?

29

3. What type of abortion was performed?

It was a four day procedure, I was not given many details.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was put in a room with a screen tv. They played a video by the Doctor. I remember him saying that a live birth here would be devastating. Their goal was "Not to have a live birth". However they never gave me details about the procedure or instructions.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me what a living hell life was going to be the day after the abortion was done. The guilt, shame, nightmares, flashbacks were never mentioned. In fact none of these or any other after effects were ever mentioned. They sent me home with a bag full of medications saying, all my troubles where gone now.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

At the time, I thought it was the answer to my problem. But from that day forward, my life has never been the same. Although, I came home without being pregnant anymore, I now had the perfect complete knowledge of the murder of my baby boy to live with. The hardest part is living with myself and what I have done to my baby boy. It's be 19 years, but it still feels like yesterday. I have been though depression, flashbacks, suicide, nightmares, ongoing sleep trouble, difficulty allowing myself to become emotionally attached to my family, and feelings of worthlessness to name a few.

10. How has your abortion affected others in your life?

My abortion has affected my current children by depriving them of, what would have been, their older brother. My personal problems, listed above, have affected my husband and children by the type of wife and mother I have become. I have not been able to be the wife and mother I could be without the guilt and shame I must carry with me. The abortion has effected every area of my life, as well, as my family's.

11. Based upon your experience, what would you tell a woman considering abortion?

There is an innocent child living and growing inside you. That baby only has you to depend on. If you chose to abort this baby, you will live with that decision for the rest of your life. No matter what you do, you will never be able to forget. No matter how you got pregnant, it is not this baby's fault. Your baby deserves the right to live. There are so many families trying to have children that can't. Adoption is always an alternative that bennifits both parties. God created you and your baby. He loves you both. He has a plan, hope and future for you and your baby. Give your baby a future, even if it has to be with another loving family.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I had an abortion when I was 17 yrs. old. The abortion procedure took four day to perform. So I know what I am talking about when it comes to abortion. And I say, abortion is the systematic murder of innocent babies. And the ongoing torture of the women who have abortion. Because even though they may come away not being pregnant anymore; they must live with the knowledge, not only of their decision, but the memory of the abortion procedure itself. And eventually THEY WILL realize that they murdered their own baby, the very person they were suppose to love and protect. This truth with slowly destroy them from the inside out; meaning emotional and mental problems that will lead to physcial problems. There will be an emptiness within them, where the life of a child should have been; meaning, an emptiness in their life and family, where their baby's life and experiences should have been. As one who has had an abortion, I can never forget what I have done, I must live with it all the days of my life. I would not wish this on anyone.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OK

County of Washington

My name is Karen Linton. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Greensboro NC

06/11/1979

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I knew what they were doing, but they assured us over and over again that this was not a real baby. Just a glob of tissue. I was young and scared and didn't know how (or even if I could) to tell my parents NO.

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents told me I had to have it.

9. How has abortion affected you?

I've had two abortions, that June in 1979 and the next summer, 7/1980. I probably "knew" that in reality it was a baby, but everyone, the health teacher in jr high, the nurses, the doctor, everyone said it wasn't really a baby. I was told that it was okay. My sons would be about 28 and 29 years old now. I've never had kids. I was pregnant once, but had a miscarriage in the 2nd month. It really is devastating. The guilt could eat you up. Praise God, He has forgiven me...now, if I could only forgive myself.

10. How has your abortion affected others in your life?

It has made me think less of myself. I'm not worth anything. Since an abortion is okay, I thought for years, it must not matter if I sleep around or get pregnant again. I never did, but I always had that in the back of my mind...if you can kill your own babies, then you are absolutely worthless. It makes me not trust others.

11. Based upon your experience, what would you tell a woman considering abortion?

Never. Don't do it. The "convenience" is not worth the pain later. God may never again give you the opportunity to have children.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Why is it legal to kill this baby now, when it is so tiny and helpless, but illegal to kill it just a few short months down the road? At 2 months of life (still in the womb), we call it "choice." At 11 months of life (2 months out of the womb), we call it murder. Go figure. It's hypocritical. It destroys women.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OK

County of Oklahoma

My name is Linda Caswell. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

New Orleans LA

06//1984

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The staff who "counseled" me just told me that I would not be able to support this child if it was born and that it would just be a "burden" to me.

5. Were you adequately informed of the consequences of abortion?

Yes No

Same as above.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Even though I did not feel guilty at first, after I became a Christian I realized that I had murdered my baby and after some Godly counseling I knew that God had forgiven me. However, it was not until three years ago that I was able to forgive myself.

10. How has your abortion affected others in your life?

My children cannot understand how I was able to go through with the abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

I tell women not to have the abortion because it is God who created the life within them and it is murder to end the life of the baby that is in the womb. I also let them know that if they do have the abortion, at some time in their life they WILL be affected by their decision.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that the vast majority of women who consider having an abortion feel helpless and if they were given support to have the baby and if they were told that it is indeed a baby and not a "blob of tissue" the mothers would choose life. Also, if the mother is required to view an ultrasound they would see there a is life inside of them and the baby would live.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OK

County of Oklahoma

My name is Melissa I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Oklahoma City OK

07/18/1989

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The procedure was not explained to me at all. I was given a sedative and a gown to put on. No one really talked to me much before or after. They just told me when I could go.

5. Were you adequately informed of the consequences of abortion?

Yes No

I knew that it would mean I wasn't pregnant anymore. That was all I was worried about at the time.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have lived with the guilt of knowing I have caused an innocent victim to die for my temporary convenience. I thought it would remove my shame, but I have lived with it for many years now. I think about how old my baby would be now and realize how selfish I was at that time.

10. How has your abortion affected others in your life?

I didn't even give the baby's father a voice in the decision. I was so immature that I blamed him. I lost touch with him and wonder how he is doing now.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to consider either keeping the baby or finding a family to adopt. The baby is the most innocent of all three people involved and should not be the one to pay the price.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

This country was founded on the belief in the pursuit of Life, Liberty, and the Pursuit of happiness.

Abortion denies the rights of American citizens that are yet to be born. Where is their advocate? This should be more than just "a choice" because it's truly a life or death decision.

my sister,clinic that did pregnancy test

9. How has abortion affected you?

extreme regret,shame,self-loathing,anxiety and panic disorder,post abortion stress disorder, hard to forgive myself,but since I recieved Jesus Christ as my Lord and Saviour,He has been loving me and helping me to recieve forgiveness. It is a process.

10. How has your abortion affected others in your life?

it has hurt my relationship with my husband and some family members, I think my children are hurt by it too although we haven't spent time talking about it since I told them about it.

11. Based upon your experience, what would you tell a woman considering abortion?

My that my abortion has hurt me , please don't do it.You are carrying a baby not a blob of tissue.Abortion is killing your own child. We now have many wonderful pregnancy centers that offer help to women to deliver their baby and that will provide for the needs they have.I would give them all the factual info I could.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that my abortion has hurt me in many ways, including emotionally, spiritually, phycologically and I have extreme regret that has lasted since 1971.

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

I am not quite sure of this part.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It was performed at a private physicians office and I was drugged. I woke up at home afterwards.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was not any information given to me at the time.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

My husband at the time

9. How has abortion affected you?

I was depressed for the longest time. I have such an emptiness that seems to be unfillable with the idea that I killed my baby. I try to find comfort in the fact that I have four wonderful and beautiful children. However, there is a sense of incompleteness. At the time, my husband beat me and jumped on my stomach telling me that I better have an abortion or he was going to leave me and our 2 year old son. One of his comments left me with no choice, so I thought at the time. That comment was how was I supposed to raise two kids alone with only a high school degree. So, I conceded. A month after my abortion, I was pregnant again and the same thing happened and I relented into a second abortion within a couple of months of each other. I felt trapped and not in control of my body. I wish that I tried harder to protect my babies. I find sadness that I was not the mother they needed. Tears come to my eyes because I failed them. I find hope that maybe, people in my situation could find strength to be that mother. I am ashamed that I allowed myself to be weak.

10. How has your abortion affected others in your life?

I ended the lives of my two babies and that is an adverse reaction to my choice.

11. Based upon your experience, what would you tell a woman considering abortion?

I would want to tell those women that those little lives depend on them for nourishment, for warmth, for love, and mostly for protection. Give them a chance at life. Give them a chance to say, "I love you, mommy," or "Thank you, mommy." You will not regret that choice but you will regret the abortion every day of your life. No matter how hard you try to ignore it or try to forget it, it is always there in the back of your mind.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would like to tell the courts that I understand that you are protecting the rights of the women who are the carriers of the child for nine months. However, I think that it has come time for those unborn children to have a voice. I think that it is time for those children to have their own choice.

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It was very vague and almost glamorized rather than a graphic description of the ripping apart of a human child's body.

5. Were you adequately informed of the consequences of abortion?

Yes No

Maybe slightly informed of the danger of heavy bleeding but absolutely not the devastating emotional damage or any serious physical risks.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

overtly by my husband at the time

9. How has abortion affected you?

the marriage ended in divorce after the birth of a female child two years later, my ex-husband had always wanted a boy, never forgave himself for the abortion, I still feel guilt (healthy because it is deserved) everyday

10. How has your abortion affected others in your life?

my mother in her 80's now, is still in denial, my ex-husband didn't live to be 40 as he didn't value life and took risks with his and lost it, his daughter was raised by a stepdad who I am still married to but has she has never really adjusted or become confident

11. Based upon your experience, what would you tell a woman considering abortion?

In life, there actually is a right and a wrong. It can not possibly be the right thing to do to a defenseless, innocent child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Allowing abortion, making it available and acceptable, harms the woman just as much as it harms the child. The gift of adoption will never cause the kind of scars she will carry the rest of her life because she chose the available option. Take away the option to commit murder.

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

Every year, in September, I pause to remember that I would have a daughter/son who is (this year would be 33). Every day I think about my unborn child and wonder what he or she would have been. I live with the fact that because I was under age, I had to go to court to have my unborn child declared an "individual" so that my unborn child could collect the welfare payment that would be paid to the abortion doctor to end the life of that child.

10. How has your abortion affected others in your life?

It was a dark secret I carried for many years and it affected every relationship I had until I met Richard. The week before we met, the woman he had been in love with terminated the life of the only child he will ever have. That has caused us to grow closer but it took a very long time...

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. The long term heartache is much more than you can possibly imagine.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If someone came into your yard and killed the unborn puppies in the womb of your purebred dog, that

person would have to stand trial for cruelty to animals and probably a number of other crimes. Yet taking the life of an unborn human being is not a crime - it is legal. It doesn't make sense because isn't a human being far more valuable than a litter of puppies?

9. How has abortion affected you?

Destroyed my life for a time. I was infertile for many years, and became a hopeless drug addict for many yrs due to my feelings of regret and remorse.

10. How has your abortion affected others in your life?

I'm not sure. I never told the father of the baby. He was abusive and would have hurt me.

11. Based upon your experience, what would you tell a woman considering abortion?

reconsider, research rethink, run you'll never regret partaking in the creation of a life, but will likely always regret destroying one

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Think long and hard, if you want the blood of innocent life on your own hands. How you vote, will be

your responsibility. If you are even slightly unsure if it's a life, don't be the reason that life will be snubbed out. Just what if your opinion is wrong? think about that!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OK

County of Oklahoma

My name is Karen I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Del City OK

02/14/1974

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was forced to have this done by my mother and she did not care what it did or what it did to me.

5. Were you adequately informed of the consequences of abortion?

Yes No

I did not want this

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother

9. How has abortion affected you?

I wanted this child as it was my first and I was just 17 and my mother forced to have this because of "what the neighbors would say" and she did not want me to have the child and not be married. Since having this abortion, I have never been able to carry a child full term and as a result of this I have never had any children of my own. I feel that the abortion caused this and that is the reason I could not have any other children. I am now 53 years old and I have never felt the same about Valentine's Day as that was the day she picked for me to go to Tulsa.

10. How has your abortion affected others in your life?

I have never been able to have any other children and I feel that I would have been a wonderful mother.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT DO IT!!!!!!!!!!!!!! The results are the worse and if you don't want the child, there are others out there like me that will and the child can be adopted if you can not take care of it the way you want to.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

NEVER. This is the worse think for any woman to go through. If the life of the mother is at stake then yes but that is the only reason for an abortion.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OK

County of Pottawatomie

My name is Evelyn I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Oklahoma City OK

10//1977

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

The emotional wounds do not heal. They are not scars that leave a mark on your soul. It is a wound that haunts my mind and echos through the chambers of my heart every day, even though it has been almost 31 years and 8 months.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Only a select few know I have had an abortion. Every time the issue is discussed in any situation, I have a stabbing feeling of guilt. I am silent during the discussion and emotionally stressed. I don't want anyone to know for fear of judgemental reactions.

10. How has your abortion affected others in your life?

I don't know. It is not discussed.

11. Based upon your experience, what would you tell a woman considering abortion?

No one can explain the trauma each one may experience. Even though you may feel like it is just a medical procedure, and it's no big deal, it's NOT! The long term side effects are crippling.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The actual thought of being in a court frightens me. Words tend to get twisted. Situations develop into half truths and lies. However, the bottom line for me is, the emotional wounds (and sometimes physical

scars) cannot be dictated by judicial law. Unwanted pregnancy is not a cut and dried process. Abortion only brings sorrow. The temporary convenience to avoid an uncomfortable situation is a weak platform compared to the treatment needed to heal post-abortion side effects; as you can see from the controversy we are facing now.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OK

County of Washington

My name is C M . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Tulsa OK

06/15/1984

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no discussion about the mental and emotional consequences of ending the pregnancy.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend and Sister

9. How has abortion affected you?

It left me tormented and depressed. I suffered 3 miscarriages years later when I tried to have a baby. Self condemnation over killing my baby still surfaces even after all this time. I had to learn to forgive myself. I was very young and stupid about my body but find that of no comfort. It is a guilt that haunts me.

10. How has your abortion affected others in your life?

It's one of those things you don't want anyone to know about. Society seems to keep trying to convince us that it's a woman's right but it's a horrible secret to live with.

11. Based upon your experience, what would you tell a woman considering abortion?

I know you are scared. I know you think your life is ruined. The thing to consider is that the mistake is in the past and now you need to make a choice to do the next right thing. Is the next right thing ending the life of an innocent child? There are so many options available to give this child that you never had. Please take a week, get an ultrasound and talk to a counselor before you make the final decision.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

This country has condoned the murder of too many children already. Murder is murder no whether the person is 1 day conceived or 100.

9. How has abortion affected you?

I have never forgot and always think about how old the child would be today. Afterwards, I just laid there and cried and kept saying I'm sorry, I'm so sorry. God please forgive me. I take comfort in knowing my child is in heaven and I will get to see him or her someday.

10. How has your abortion affected others in your life?

I never want my parents to know. It will always be my shameful, dirty little secret.

11. Based upon your experience, what would you tell a woman considering abortion?

It's not worth the pain and trauma it will cause you for the rest of your life. They don't tell you all the lifelong ramifications.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is propagated as a simple procedure the likes of having your appendix removed. It's misleading, deceitful and ruining lives. The psychological implications are downplayed but lifelong.

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

d n c,

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 15 years old. It all happend too fast. I remember laying on the table watching the second hand on the clock. When I woke up I felt SO EMPTY!

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me the guilt, the pain, the remorse, i would carry the rest of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

My baby I killed 35 years ago still causes me great pain.Did it hurt? Was this child a boy or girl? I cried myself to sleep every night until I became with child again 2 years later.I am one of the lucky ones I gave birth to 3 children who all know about their sibling

10. How has your abortion affected others in your life?

My husband of 34 years was also my first babys father he too has guilt, remorse my grown children have known since very young we were missing some one. My baby would have been the first grandchild on sides

11. Based upon your experience, what would you tell a woman considering abortion?

PLEASE dont do this. abortion is never the answer.abortion kills your baby and large pieces of you. If you cant raise a baby please allow your baby to be born and adopted. My friend could not have any kids after her abortion. My sister gave her baby up for adoption, she chose life. this is a hard thing to do you miss and mourn that baby it is very unselfish loving thing to do.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

This is a child. Inside the mothers body should be safest place in the world. A minor needs a parent consent aspirin, tylenol, stiches. Even to go on school field trip. But is allowed this life threatening [for baby and mom] without any knowlage or consent.

HOW MY ABORTION AFFECTED ME

The State of OK

County of Cleveland

My name is Linda Stocker. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

02/01/1972

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

I am unsure.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 18. I bought into the fact that it was a pregnancy not a baby. I took what seemed at the time the easy way out.

5. Were you adequately informed of the consequences of abortion?

Yes No

I did not really understand the lifetime and eternal consequences of my actions but I knew deep down that it was wrong. It was just easier to go along with my finaces wishes and not to have to tell my family that I had had sex outside of marriage.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My fiance wanted the abortion.

9. How has abortion affected you?

I now know that I have committed murder. I have children who are very dear to me and I realize the miracle that each one is. I will never know the person that I killed.

10. How has your abortion affected others in your life?

Before realizing the real nature of my crime, I influence a friend to do the same as I.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not do it. It is murder. There are many other options. Someone wants this baby even if you do not.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is not okay. Abortion is Murder. Abortion ends a life. If it is not okay to go home and kill one of our children in order to make life easier for ourselves then it is not okay to kill a child in the womb because that is our choice.

HOW MY ABORTION AFFECTED ME

The State of MD

County of Wicomico

My name is S W I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Rockville MD

05/11/1979

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was a simple procedure that would take care of the "blob of cells" in my body. At the abortion clinic, I sat in a circle with four other women and a counselor, and we each stated why we wanted the procedure. That was it.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was given little to no information of the consequences, and I have suffered three miscarriages since and almost lost four of the other five children I have today through hemorrhaging during pregnancy. I was not told how painful the procedure would be or about the blood loss that would be involved or about the emotional trauma that I would experience after that.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

decided it with counselor's help at Salisbury Clin

9. How has abortion affected you?

It traumatized me for years. For the first four years after the procedure, I became suicidal and drank often. It was fighting depression to some degree for several years off and on. I felt like I had done a horrible thing. It was only when I came to Jesus Christ and He forgave my sins that I truly started on the road to healing.

10. How has your abortion affected others in your life?

My children and my husband know how terrible what I went through was. It was so bad that I vowed that day that I would NEVER go through it again, and thank GOD, I never have.

11. Based upon your experience, what would you tell a woman considering abortion?

Please do not do this. Don't allow the doctor to take the tiny life in your womb just because it inconveniences you or you are scared. There are many programs and people that will help you, and God will honor you if you honor the life that is within you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that they are hurting everyone that they encourage to have an abortion by making abortion so easily accessible. I have always regretted my decision, and I have missed that child many times that I never had the chance to hold in my arms because I believed the lie that it was not a baby.

HOW MY ABORTION AFFECTED ME

The State of OK

County of oklahoma

My name is Jana Journeay. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Oklahoma city OK

10/30/2004

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

i don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

i still do not know of differing methods of surgical abortion. i was put to sleep and when i woke i was told it was done and i cried. When i cried i was told to be quiet and heard someone say, "what is it with all the crying today".

5. Were you adequately informed of the consequences of abortion?

Yes No

I expressed to the staff that i was tortured by this decision but at no time did they suggest that abortion could have lasting dramatic emotional or physical negative consequences. it was described as a simple procedure like that of removing a mole or other unwanted tissue.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

i became preoccupied with guilt, shame and low self esteem. i desperately tried block it out of my mind and to just get pregnant again in hopes of recapturing my loss but have been unsuccessful even now after 4 years. i always remember the days and number of years my child would be and still cry to this day. Thoughts of suicide to make the extreme pain go away consumed me. The emotional pain was more intense than i could begin to express. It is by far the most painful consequence i have suffered in my life. While tearfully expressing my deep pain to a family member, on the day the child would have been born, i was told by this person in no uncertain terms that i was a horrible mother and that i murdered my child. This silenced me from expressing the abortion to others as i so needed to address my situation in honesty and love and to heal.

10. How has your abortion affected others in your life?

Yes! The father was extremely hurt and like me will NEVER forget the pain and loss. He did not want the abortion and was not a part of the decision. In retrospect it is obvious to that he should have had a say in this decision. I commanded the decision to eliminate his only child and he is still fatherless and deeply wounded by this loss.

11. Based upon your experience, what would you tell a woman considering abortion?

Face all truths no matter how painful before walking in the doors of a clinic or even calling. See and hear the child at it's stage. Know that the "problem" does not end with a procedure it only transforms into a different one.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I am famously outspoken on women's rights but it is clear to me now that abortion is misunderstood as an expression of freedom and empowerment to us. It is to the contrary very disabling to our psyche and insulting to our abilities. I think the problem is not the "blob of tissue" but other aspects of our life that brought us to consider abortion. Terminating a symptom of our problems never solves them. i can't say exactly where i would be now if i had not had an abortion but i do know that i would be raising a precious child and that i would have made it work!

3. What type of abortion was performed?

Vacuum D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it would remove the baby, but wasn't told it would kill my baby or cause the baby pain when it happened. My daughter was three at the time that it happened, so without them telling me, I knew full well what was going to happen.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told the abortion would not cause me any mental problems, which is far from the truth!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My ex-husband and my boyfriend at that time.

9. How has abortion affected you?

It has my PTSD worse and made me think I wouldn't be able to have any more children. By the grace of God, He has blessed my husband and me with two beautiful boys.

10. How has your abortion affected others in your life?

It upset my daughter and she says she misses the sibling who was lost.

11. Based upon your experience, what would you tell a woman considering abortion?

I would share my testimony with them and gently and strongly advise against it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that abortion should be made illegal because life begins at conception.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 16 and my mother took me. I was scared and just wanted it all to be over.

5. Were you adequately informed of the consequences of abortion?

Yes No

Again, I was only 16.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Mother, but I don't blame her.

9. How has abortion affected you?

Depression, suicidal thoughts, a feeling of deadness, numbness. Anger issues and lots of fears.

10. How has your abortion affected others in your life?

I know my marriage is affected significantly. I had another abortion at 21 with my husband of 17 years. My children also suffer, I know sometimes I'm not even present enough emotionally. It is only by the grace of God that all 3 children are amazing. God has healed so much of my pain, but it's still always there.

11. Based upon your experience, what would you tell a woman considering abortion?

No way, it will haunt you for the rest of your life!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Study the emotional effects of abortion. Don't only study the physical effects. I've spent a large part of

my life shut away from others emotionally. I believe countless women suffer the consequences of abortion without knowing that the abortion is the root cause.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told that I would never forget about it and that it would change my life forever. How I didn't end up in prison is a mystery to me, I started abusing drugs and alcohol following my abortion trying to numb the pain, even though I didn't really understand until years later what I had actually done.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Following my abortion I tried desperately to be in complete control of every aspect of my life. This resulted in very destructive relationships, sleeping with multiple partners until I found myself pregnant again about the time my first child would have been born, Dec 1973. I married the father of my first pregnancy not knowing for certain who the actual father of my second pregnancy was. I was married for 18 mos before getting divorced. I spent the next 7 or 8 years mostly drinking and sleeping with multiple partners while raising my first born child. Little did I know that abortion had become legal just a few months before I discovered I was pregnant the first time and 19 years later it would come back to haunt me as the media relentlessly covered the story about the 20th anniversary of Roe vs Wade. Thankfully not long after this event I found an Abortion Recovery Group that helped me deal with the effects of abortion, sadly it was about 18 years too late for my first child to have had a chance of a normal upbringing.

10. How has your abortion affected others in your life?

My husband had to deal with a wife that was severely depressed and suicidal for many years. My oldest son had to deal with a mother that was very overprotective yet took him with me often when I would go to a bar, and would wake up many mornings with a stranger in the house that I decided to bring home with me. My youngest son had to deal with a mother that was afraid to get too close to him. And people I worked with hated working with me as I would do anything to hurt them and treat them terrible, now realizing that I wanted others to hurt like I hurt. This is no longer an issue in my life as since receiving help dealing the after effects of my abortion. I now work with other women who desperately need help by facilitating small groups of women who come broken and needing help dealing with the aftermath of their abortion experience.

11. Based upon your experience, what would you tell a woman considering abortion?

I would make sure she understands exactly what she would be doing if she chose abortion, she would be ending the life of her unborn child. I would help her understand that she will never forget that she is the mother of this child. I would help her understand that choosing abortion does not fix her problem like it never happened, instead she will never forget it happened no matter how hard she tries to deny it. I would make sure this is done in a loving and compassionate way and understand she may still choose abortion and offer to be available to her to help her when she can't figure out why her life is spiraling downward and becoming unbearable.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I was completely convinced abortions was my best choice until my life came crashing down. I was suicidal and planning my own death when I figured out the things that were going wrong were directly related to my abortion, 19 years earlier. Now I work with other women who have come to the place where they must deal with their past abortion. I would encourage anyone thinking abortion is just a women's right to sit with me when I first meet the women. The pain, the tears, the stories of how destructive their lives have been. To hear them tell of all the ways they've tried to justify why abortion was their best choice, the heartache they've caused others. Time to consider the destruction that comes from abortion, how many lives it really effects. Not just the baby that was ripped out of it's mothers womb, but the woman who has to try and deal with her CHOICE, her choice to murder her own baby. Not just the baby, and the mother, but also effects it has on all the other people that she comes into contact with. This being every person she comes into contact with, husbands, living children, friend, family, co-workers, etc. Abortion has far reaching effects, sadly our society is seeing all too much the effects it is having on generations of people. Now would people stop having abortions if it was illegal, probably not, but instead of about 4,000 abortions a day, millions a year, we would be dealing with much fewer abortions. Fewer women dealing with the after effects of abortion.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OK

County of Texas

My name is Kalye . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Colorado Springs CO

05/14/1992

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

All that was discussed with me was how it would be performed and how the vacuum works.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

depression, condemnation, and problems with relationships

10. How has your abortion affected others in your life?

My husband (not the father of baby), my mother, and my friends had a hard time dealing with it.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that we are talking about a human life. There are other alternatives and help. Life doesn't have to end with children and there are many good people who can't have babies that would be blessed with adopting hers.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

After experiencing an abortion, there were many things that came with it that I was not informed about. Many think that after an abortion, the pregnancy will just go away. No one tells you that you will think about that baby every day for the rest of your life. No one tells you that you will grieve, mourn, and have a very serious chance of falling into depression. No one tells you that you have a higher chance of getting breast cancer or other health risks. No one tells you that when you are ready to have kids that you have a higher risk of having complications. Today, abortion is an everyday common occurrence. It should not be! Murder should not be an everyday common occurrence.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OK

County of Tulsa

My name is Patti I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Bristow OK

06/21/1947

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

I'm unsure, perhaps saline.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told NOTHING. I was a very sweet and innocent girl. I was taken to a motel, picked up in a car and driven quite a ways to a 'doctor's' home. In a back room, set up like an operating room, I was given a shot. I awakened crying ... telling him about Jesus. I hurt so badly, burning incredibly, packed with alcohol type packs to stop the bleeding. Maybe a week or two, I passed my son. I looked at him for the longest time. This will never be erased from my mind.

5. Were you adequately informed of the consequences of abortion?

Yes No

ABOSOLUTELY NOT! The doctor never mentioned anything their being a little life within me, about an alternative to an abortion, about the procedure, what would happen, what to expect, how I would feel physically immediately following, how I would feel later physically, emotionally, mentally... NOTHING! He just got his money, did a bad job, and, were it not for the love, forgiveness, & healing of my Savior, ruined my life and the lives of my future family. I talked to no one about it. I grieved silently... all alone.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The man who fathered my son.

9. How has abortion affected you?

After all these years, I still grieve emotionally. His name is Jeremy. I still miss Jeremy terribly. I took his life. When I passed his little, lifeless body, his gender was obvious. He was red as though burned. When this happened I was at my precious grandmother's. All alone I cried.

10. How has your abortion affected others in your life?

At some point I told my oldest living daughter of her brother; she responded, "Oh mama, all my life I wished for a big brother. I longed for him. Maybe somehow I knew I had one, just never got to know him? But missed him, needed him... my big brother. It hurt my marriage. Though a happy person, that experience kept me from being so completely free inside to just live and be happy. I've never been able to forget Jeremy, nor do I want to. His four brothers and sisters are so beautiful, smart, loving, and intelligent.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T ABORT YOUR BABY! My sweet friend there are those who will love you and help you. Your baby is life, being fearfully and wonderfully made by God. You will carry with you always an emptiness from abortion. Love your baby and give your baby life. If you can't raise your baby, there are those who would love to have the opportunity. May God give you the strength and courage to make the right choice for LIFE.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I respectfully appeal to you in saying you have been placed in your position for such a time as this by God Almighty. You have NO right to push your opinion on women... on society. You are responsible to God for every court decision you make regarding abortion. You WILL stand before God one day for your decisions, and the voices of millions of aborted babies will plead the case 'against' you if you continue to move to make abortion legal. If I were to lay a premature baby or baby of any age on your desk in front of you and gave you a knife, could you/would you murder this little one. There is no difference in what you are ruling to do in abortion! There is no difference between mothers-to-be and a mothers of born babies... each has become bonded to the life within them. The pain, the grieving, the destruction in the woman's life due to an abortion never entirely goes away, even with time.

My name is Gail Holmes. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

PORTLAND OR

01/31/1980

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I went to a planned parenthood...live birth was not even mentioned...looking back on this, I feel I was pushed into my abortion...no other options were even presented to me. I am now 48 years old, and to this day I still remember every detail of my abortion. After leaving the clinic, I drove myself home from Portland to Salem. On the way, I stopped at a local Fred Meyer, and bought a full bag of Brocks candy, a box of ding dongs and a box of bon bon ice cream...in the 45 miles home, I ate all of this. For years I thought I was ok, as I refused to remember what I had done, but, as with all horrible events, the memories come back. I am now forgiven, but God has allowed me to remember this horrible day so that I could let others know what I had to go through...something no young woman should ever have to face!

5. Were you adequately informed of the consequences of abortion?

Yes No

I was given no information on what the negative physical, mental and emotional problems could and would occur.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

planned parenthood

9. How has abortion affected you?

It took me 3 1/2 years to get pregnant when my husband and I decided to have kids....I was only able to have 1 child. I had so much scar tissue in my uterus, I had horrible pain for years...at 31 I had a hysterectomy. My abortions ended my dreams for a large family.

10. How has your abortion affected others in your life?

My husband and daughter are determined to see no others face what I went through!

11. Based upon your experience, what would you tell a woman considering abortion?

1. God loves her and her baby...the baby is not a mistake and has been created by God himself! 2. There are many ways to deal with an unplanned pregnancy...abortion is not one of them. 3. We love her, allow us to help her meet her needs.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is believed to be a fix to a bad situation...it isn't, and it stays with a woman forever...in her physical body and her memories and in her very heart...as a woman its easy to think that abortion will take care of the problem at hand, but there are so many other problems that come through the years...abortion is not a fix, it is not a cure! It solves nothing, it makes nothing better! Abortion must be stopped! It is the killing of our future! We must stop that which is evil!!!

9. How has abortion affected you?

Left a lot of emotional scars and pain. I turned to drugs and alcohol and promiscuous sex afterwards. That was my lifestyle until I was 27 years old.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to not do it. To give the child up for adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it leaves lasting scars that take years to heal and that for a lot of women they numb the pain, which causes them and their families more grief and pain.

QUESTIONS

1. Where and when did your abortion occur?

Tacoma WA

//1970

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

I don't remember what it was called...but it scraped the uterus...I think..sorry it has been so long

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I never comprehended the after emotional pain. This emotional struggle has been with for years. How I could choose to do this to my own child has haunted me for decades. I was in a situation that I just wanted to get rid of "it". How could I do this to my own child ?

5. Were you adequately informed of the consequences of abortion?

Yes No

The Dr. explained the physical consequences. Again the emotional and the knowing now I had other options...at the time I felt I had no other options. If I had counseling or knew where to go for help I would of gone I think...but at the time I thought the only choice was abortion. I had no family to turn to and only friends who promoted abortion. I chose this for my child though. It was me and no one else that made the decision for me. I have wished that I had enough fortitude to choose a different path. One that would of put my child out there to have a chance in life. A choice that I had no right to take upon myself. I had no right to take an innocent life and snuff it out..just because I didn't want "it".

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Yes...dramatically. It has touched my life with sadness each time I think of that little baby and the pain it must of suffered at my "choice".

10. How has your abortion affected others in your life?

I have taught my living children to honor life and hold it dear. That abortion is a crime against only the innocent but those who have it done. Its a crime that can never be erased from my mind. My living children have no idea that I have had an abortion...it is a dark secret that I harbor in my mind..but they are adematly against abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT.DON'T take another's choice ..which a woman is doing..she is taking that choice that belongs to another (the baby). The woman's choice it to not have sexual relations outside of marriage and to use birth control in marriage if she doesn't desire a child. Once that baby is conceived...her choices should be to make sure that child is protected , loved , and cared for.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

With a court system that promotes killing of innocent children..the country won't survive long. When we have no value for life , what do we value? Promote good values and virtues to make the country the best that it can be. By having an abortion it causes much pain to so many. Pain that in this life I can again, never erase.

None of the emotional consequences were explained.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I knew what I was doing at the time was wrong, but my pride stood in the way, and I went thru with it. It has haunted me ever since, knowing that a perfectly innocent human being was eliminated for my convenience. It has been a daily source of sadness, though I know Jesus has forgiven me, it is still painful.

10. How has your abortion affected others in your life?

No one knew for many years. My parents are extremely sad about it. My children are more curious, but also sad.

11. Based upon your experience, what would you tell a woman considering abortion?

That it is never a free ride. There is an emotional cost, and the time that it takes to nurture that baby

and give it life is well worth the investment. There are alternatives to abortion, such as adoption, or even keeping the child even though it would seem inconvenient at the time. Having had the blessing of three children, even though they were not always planned or convenient at the time, has been my greatest source of joy and opportunity to grow.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If abortion was not legal, I think more people would take their responsibility for birth control (abstinence, birth control methods) more seriously. I believe the entire issue stems from a lack of up front responsibility for the choices we make in regards to sex. If we do not want to have a child, then we need to be responsible (both men and women). When people understand that an embryo/fetus is a human being from conception, they cannot possibly justify abortion because it is murder.

Vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

The guilt, emotional pain, and sorrow stayed with me for 20 years. I asked GOD to forgive me for what I had done and knew that he did but it took another 5 or so years for me to forgive myself. I now have two grown sons with children of their own. I think about the child I don't have because of the abortion and wonder what it was and what it would have looked like. I am looking forward to heaven and seeing my unborn child. I did share with my sons, when they were in high school, about the abortion , how emotionally painful it was and the guilt I had for so many years. That was very hard to do. I have been able to share with teenage girls in our church's youth group my story hoping to encourage them to wait till marriage to have sex.

10. How has your abortion affected others in your life?

I think I answered this in part in question 9. I did not share how it affected my baby's father (my

husband for 31 yrs). He was with me the day of the abortion. We both cried afterwards. I had a hard time during the procedure because I really didn't want to have the abortion but didn't know what else to do. We weren't married and both only 18 years old. For about 30years my husband could not come to Christ because of his guilt over the abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

I would share my story and encourage them to keep the baby, they are a precious gift if not for the birth mother for another couple that can't have children.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that abortion should not be an option for an inconvenient pregnancy. Funding should go toward advocates and counselors for the birth mother and birth father. The birth parents should be encouraged to adopt the baby out and be provided with agencies that can help them with that if they choose not to keep the baby.

9. How has abortion affected you?

do you have time for a book? much depression for many, many years; when subsequent children were born, i was haunted by such guilt, that i never felt like a good mother. that affected all my children. if i think about it now, almost 40 years later, it is like it was yesterday, and my heart is crushed, knowing that i was responsible for killing my very own little baby!!!!!!!!!!!!!! i can one ever get over such an awful thing. and am i even supposed to? i am a believer in the total forgiveness of Jesus Christ and His finished work....but when you can recall something like it was yesterday, just like all the births of your children, how does that stop. NOONE can help that. Thank God He love me.

10. How has your abortion affected others in your life?

it has affected all my other children, even though they did not know about it. my depression and guilt as

a mother and ability to mother WAS A SEVERE CONSEQUENCE, THAT STILL AFFECTS ALL OUR RELATIONSHIPS! and who was this wonderful one meant to be and do....never to be known.

11. Based upon your experience, what would you tell a woman considering abortion?

A MILLION CHILDREN BORN TO YOU IS better than one abortion. You can never ever forget it or even if by some miracle you can forgive yourself, it is still there.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

IT IS UNQUESTIONABLY THE MURDER OF THE MOST VULNERABLE THAT DESERVES THE MOST PROTECTION. AND IN THAT THE DEVASTATION TO ALLLLLL INVOLVED IS INESTIMABLE AND ALL PERMEATING IN THE DEEPEST AND MOST NEGATIVE WAYS.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OR

County of Washington

My name is Tracy I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Santa Ana CA

07/15/1985

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

Discussing it as "tissue" did not prepare me for the horrible emotional consequences of what I had done, and had become--a murderer.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Depression, guilt, self-hate. Alienation from my husband.

10. How has your abortion affected others in your life?

Wounded my husband to learn of this years later. Also, I will have to tell my children one day in the future. What a horrible thing to know about your mother.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't deceive yourself. You are already a mother--you decide if your child lives or dies. Do not do this vile thing. It doesn't solve any problem, it compounds the problem. There are plenty of couples waiting to adopt. There is help to raise your own child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It kills one, and ruins many more. It is evil. It is murder.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OR

County of Columbia

My name is Vivian Ward. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Portland OR

08//1976

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

suction curettage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The procedure itself, either what would happen to my body or the baby's, was not fully explained by the clinic - only what needed to be done prior to it, and only enough to obtain my cooperation in the steps involved. It was the most physically painful event I have ever gone through. My outcries of pain were met with impatience, hostility, and anger on the part of the attending staff. A written complaint afterward was never acknowledged.

5. Were you adequately informed of the consequences of abortion?

Yes No

No, there was no consultation about anything - my reasons, my state of mind, any alternatives, if it was wise or medically advisable for me, or if there were any potential risks. I was hurried to sign the paperwork and they WERE very intent to receive full payment before putting me on the docket for that day.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I had to have 3 C-sections with my living children rather than normal births, perhaps related to the abortions. I have struggled greatly with anxiety, including panic attacks and depression in almost every area of life. I was transformed from a person of hope and confidence to one with low self worth and fears of failure. I often feel worthless and rejected. I am rarely happy. I have had problems with compulsive

perfectionism and control, probably trying to make up for the murders of my children. All these long years later I continue to mourn the absence of the children whose lives I had destroyed. I violated my own conscience to nurture and protect children. My regret and guilt has often lead me to thoughts of suicide.

10. How has your abortion affected others in your life?

My mother was so very sad about the loss of her first grandchildren and probably never got over it. My husband, who was the father of the aborted children has been unable to emotionally bond or become close to either me or our other children. He failed to protect the lives of his unborn babies, so I believe he feels incapable of protecting me or his other children or of being a leader. He is distant relationally. Many, if not most relationships and marriages do not survive an abortion. He will not talk about the abortions so as to comfort or help me heal and responds with disgust if I ever express sorrow. Our marriage has been very troubled and is a lonely one for me. I concentrated on relationships with my children and have been attached to them, sometimes in an unhealthy way, both for them and for me. I never stopped longing for more children. My frantic attempts at closeness in the family has created more distance and anger in my husband.

11. Based upon your experience, what would you tell a woman considering abortion?

Please, if even just for your own sake, please don't. The difficulty now is nothing compared to the mental suffering you will probably endure for a lifetime. You will never regret giving your child life. But if you take his or her life, you may live with emotional wounds that never heal, as I have. Many women also have irreversable physical scars and consequences. I would do anything to go back and change my decision. Please don't put yourself through this hell.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It was wrong to legalize such a destructive practice without evidence of fetal development and the humanity of the unborn. Now we know, that it is unmistakably a human life being destroyed. And now we also know that the health of many women has been irrevocably harmed - sometimes physically, and more often psychologically by this unregulated practice. The very ones the Justices claimed to help are being hurt. I am one of those women. The majority of existing clinics are not operating in a medically responsible way. Both my own experience and the testimonies of others I have visited with about recent abortions make me sure that this is true. The decision sent a false message to the public - that abortion is healthy and good, encouraging people to do themselves great harm. The very ones it was designed to help are being damaged in a multitude of ways. Permitting a practice that violates the Constitution's promise to uphold LIFE and has caused so much agony in the lives of so many should not be the decision of any court of the United States. Now that there is so much evidence, you should admit the 1973 Court was wrong and be willing to reverse the decision.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OR

County of marion

My name is Jeanne Berry. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Ashland OR

10//1987

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

not sure. some kind of suction machine

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one looked at me or talked to me. They gave me a form to fill out, and took me to a back room. No one said anything to me. I was told to lay down and the people moved a machine around, I heard a whooshing sound and they had me get up and leave.

5. Were you adequately informed of the consequences of abortion?

Yes No

Planned Parenthood gave me no information other than to ask "do you want this baby?" When I said, "No," they gave me the number for the clinic in Ashland and told me to call them and they would take care of it. No mention was made of any alternative, no one talked to me about my baby.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My family and boyfriend.

9. How has abortion affected you?

Crushing grief that I murdered my own offspring. Daily realization of what I have done mars my ability to live the right way. Drug use, promiscuity, financial disability. It took 10 years for me to overcome what I had done to my own child, to be able to gather together the shreds of my life and start again.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

CHOOSE LIFE! There is no grief so deep and permanent as knowing that you made a choice to kill your helpless baby. That there are alternatives and giving life is the greatest thing a woman can do.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

To consider the millions of lives that are damaged beyond repair due to the never-goes-away horror that we, who are the only ones who can bring forth life, have been suckered into believing that it is not a baby. EVERY EVIDENCE PROVES THAT IT IS A BABY! We killed our babies and have to live with that evidence every day.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OR

County of Lane

My name is Nancy Bailey. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Medford OR

10/14/1978

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I went to Planned Parenthood and was given a free pregnancy test. They told me that the results were positive. I was stunned. They asked me if I would keep the baby or would I like to set up an appointment for an abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no explanation of any side effects. There was no encouragement to think about this decision carefully. No one mentioned that I would feel guilt and depression. No one told me that I would carry the silent shame for 30 years.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have been depressed, suicidal, and unable to have healthy relationships.

10. How has your abortion affected others in your life?

When I had an abortion, it cut to the very core of my identity as a woman and a mother. It affects how I see myself and ultimately everyone around me. The guilt and shame that I buried manifested in unhealthy addiction and in physical and psychological illness.

11. Based upon your experience, what would you tell a woman considering abortion?

I would explain to her that she needs to take time to make this decision. I would tell her that it is wrong to take the life of a child. I would tell her that although it seems like a quick easy fix to an unplanned pregnancy, that she should consider how it will affect her later in life. I would tell her to consider the fact

that she is choosing death for one of her children. I would tell her that it is a lie from this country that abortion is a safe, harmless way to deal with her situation. I would tell her that the 9 months it would take out of her life now would be worth it not to suffer the shame and guilt of knowing she took the life of her own child. And not only that, but if she chose adoption, she would make a couple who couldn't have children very happy.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

A baby will always be the result of a pregnancy. Pregnancy can sometimes be the result of sexual intercourse. Abortion should not be a legal form of birth control because the pregnancy was unplanned. We have to encourage people to be accountable for their actions. We don't allow child abuse. Abortion is the ultimate form of child abuse. I don't believe it is socially acceptable, even now. Women don't talk about it. Abortion causes women to have problems and does not consider the rights of the child.

QUESTIONS

1. Where and when did your abortion occur?

Ashland OR

09/15/1982

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

a simple procedure, popular at the time, I don't know what type it was.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I suffered extreme emotional distress, depression, guilt for several years afterward.

10. How has your abortion affected others in your life?

It caused me to carry around a lot of guilt and shame for a long time, making it hard to have close friendships and to trust others until I forgave myself and received emotional healing.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her she has no idea how it could affect her emotionally for years to come in a very negative way, and would urge her not to go ahead with it if she were to ask me. Not only would it affect her adversely, emotionally, but morally, it is wrong as well.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Based on the extreme emotional turmoil and guilt I struggled with after having an abortion, I now believe that life begins at conception and that our creator deserves to be honored by enforcing laws which protect his creation from the day of conception. He is the ultimate law giver and judge, in my opinion, and his creation, even in its formative stages, needs to be respected and have its rights to life upheld.

I had no idea that I would suffer for over 30 years from the shame and loss, unable to speak of it.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has made it hard for me to love and to receive love. I have felt guilt and shame. After 30 years of bearing this guilt alone, I am finally able to speak about it and receive forgiveness. I have suffered with outbursts of anger and depression.

10. How has your abortion affected others in your life?

I have pushed them away partially, so they suffer from not receiving my full love.

11. Based upon your experience, what would you tell a woman considering abortion?

It is not "free", if a woman thinks she has a "right" to choose she needs to know that she doesn't have the right to take another's life. It's not worth the cost, it is NOT free, but a way worse choice than adoption. Life is more important than lifestyle.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Their are huge consequences, depression, anger and guilt. I believe post-abortion symptoms are one of the causes of divorce in our country. I know my sufferings affected my marriage, but by the grace of

God did not destroy it.

QUESTIONS

1. Where and when did your abortion occur?

Ashland OR

Not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

5. Were you adequately informed of the consequences of abortion?

I was under the impression it was my choice and unhuman. I, at 16, was completely unprepared to deal with the emotional and psychological issues that went along with it. I so not put any blame on anyone else, but firmly believe that parents should be aware of any medical procedure ie tattoos, piercings-all these you need approval, but not a major internal thing like that?

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I was anorexic at 13, got pregnant at 16, knew very quickly because my body had nothing for the baby to live on, so I very quickly became ill. Afterwards, I started doing drugs and alcohol which I had already quit before. I constantly tried to fight off feelings of wrong and murder and loneliness, basically depression since the abortion and at 19 I met a guy who did all the drugs, listened to all the hateful music, did all the self destroying I did, but he said he loved me and at the same time would tell me I was trash and treat me accordingly. The thing is is that I wanted love but felt I didn't deserve it and he was the perfect picture. My abortion at 16 then developed into an abusive marriage at 20. It was what I thought I deserved and I didn't know otherwise until I met Jesus.

10. How has your abortion affected others in your life?

I carried that lie from 16 to 25. My parents didn't know and I finally told my mom who was very sad that she couldn't have been there to help me and work through it and talk to me about the repercussions. I

don't think that any grandparent likes to hear their grandchild died. Whether born or not. My boyfriend at the time has to carry that now and I wonder if it has affected his fathering. His family knew and has to carry that. My now, ex husband, constantly used it as a point of reference for how terrible of a person I was. I think he even was haunted by it.

11. Based upon your experience, what would you tell a woman considering abortion?

To try to imagine that four years from now you will think to yourself that your child would be four. My husband is the oldest of three and his mother had an abortion before him, when she told him, he completely broke down and still wonders about his older sibling. You think that it won't affect any body but you. You couldn't be so wrong.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

No. A baby is a baby. At what point does living tissue not constitute a body? A living body... inside another body? How can that not be protected? The point where you getting a choice is appropriate is in the bedroom. When you decided to have sex, not use a condom, or whatever the choices were that you made.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OR

County of Marion

My name is Yvonne Mutch. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Diego CA

07/06/1980

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

1st trimester abortion, and I was put to sleep

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was just repeatedly told that this was the best thing to do--especially since I had plans to go to college. When I asked about being under the age of 18 they said that was O.K. since I was so close to turning 18 anyway. They said it was safe, easy and quick.

5. Were you adequately informed of the consequences of abortion?

Yes No

The main explanation I was given was in regard to the procedures of being given general anesthesia--the importance of not having anything to eat or drink so many hours prior to my abortion--this was the major focus/

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My 22 year old boyfriend (I was 17)

9. How has abortion affected you?

I cried immediately after leaving the clinic, as the reality of what I had done fully hit me--that I was walking out without my baby. I started using drugs excessively--more and more so as the years went on. I broke up with this boyfriend after he impregnated me a second time (I had sex against my will) Then I just went into a downward spiral after getting pregnant again by another young man. We wanted to get married, but my parents said "No" and pressured me to have another abortion--then things got even worse with the drugs and my life choices. I also had a mini-nervous breakdown when I was about 19 or 20. Having abortion is the biggest regret of my life. Although I did successfully come out of a life of drugs, I was affected in the following ways: I didn't ever want to hold newborn babies--I always had excuses such as "germs" or "they're too fragile," etc. And I carried emotional wounds for many years--

until I went to an abortion healing worship that was life-transforming.

10. How has your abortion affected others in your life?

I honestly don't know how abortion has affected my husband. I do know that the issue--to this day--creates a lot of tension between my mother and myself (as she is still pro-abortion). I had to forgive her for choosing abortion for me. I have been blessed with a husband of 20 years who has been understanding about my past.

11. Based upon your experience, what would you tell a woman considering abortion?

I would ask her to at least consider adoption, as there are so many couple who are waiting to adopt a baby. I would share my experience of considering adoption (which is what brought me out of the cycle of abortion) I would connect her to as many resources as possible and extend whatever help I could. Things are different now--there are so many people and agencies who are willing to extend a helping hand. Even the attitude is the Church is more understanding and forgiving. I would tell her there is hope and that having an abortion does not solve any problems--it only creates more.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that it is a "myth" created and perpetuated by the pro-abortion lobby that abortion is a "choice" between a woman and her private doctor. Ha! My "private doctor" had nothing to do with my abortions. Abortion was a "solution" foisted upon me first by my boyfriend (who I shouldn't have been having sex with in the first place) and then by my parents. I think it is ironic that I didn't seem to have much a a "choice." I consider that not only were my unborn babies victims of abortions, but I was as well.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OR

County of Lane

My name is Teresa Ortiz. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Pomona CA

//1983

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told tissue would be removed from the lining of my uterus, but not told how.

5. Were you adequately informed of the consequences of abortion?

Yes No

The only thing I was told is that there could be minor cramping and spotting for a week or two. I was never told about emotional consequences or the possibility of not being able to have children later on in life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The b/f of my first. It was expected, not discusse

9. How has abortion affected you?

At first, it was easy to bury. I cried for a week or two and then went on the continue partying and putting on a strong front. Pretty soon my heart was so hard, it didn't matter. Until, I became pregnant after I was married . When I heard my babies heartbeat, I crashed and carried a waive of guilt and pain and felt as lf I had no right to be happy about my current pregancy. 24 years later, I still mourn for those children. In fact it gets harder and harder, not easier.

10. How has your abortion affected others in your life?

My husband and I have never fully discussed it. It remains a silent burier in our relationship. I told my oldest child recently and she is crushed and confused, but has not been able to discuss it with me.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them it is not "tissue" and that they will have life long pain and remorse and it only gets

worse when they have children. Even though there is forgiveness from a loving God, you can never get over the fact that you purposely ended your child's life. I would encourage them to seek assistance and keep the child or offer their child to a couple who cannot have children. If I had the opportunity to speak to young girls before they decide to have sex, I would tell them to wait because even if you love the guy and end up marrying him like I did, it will put a life long strain on the relationship that will breed heartache. I can guarantee it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them to spend time with the young girl who is having one and listen to the suction of the vacuum, I would tell them to spend time in the recovery room, and I would tell them to sit in a room with women and listen to the emotional and in many cases physical torment of women who had an abortion 10-25 years prior. I would also say how disgusting it is that my husband had to watch a video and have one counseling session before he was approved for a vasectomy because it is a relatively permanent procedure, and yet abortion needs nothing.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OR

County of Josephine

My name is Lavonne Pennington. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Medford OR

04//1992

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was given no information about the development of the baby. I was given an ultrasound and never permitted to see the screen.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no information given about the emotional aftermath of abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It broke me in ways that I wasn't even aware of. I already had a two year old daughter. And I hardened emotionally after having an abortion, and it changed my relationship with my daughter, and others. I felt very isolated afterwards. I had a history of migraine headaches, they increased after abortion. I experienced stomach problems and was tested for stomach ulcers in the years after my abortion. My use of alcohol increased. I contemplated suicide. All after abortion.

10. How has your abortion affected others in your life?

It took my daughter's siblings, my parents grandchildren, my sisters nephews. It stold life from us.

11. Based upon your experience, what would you tell a woman considering abortion?

It seems like the easiest way out of a unplanned pregnancy. It just creates more problems.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Laws are meant to protect citizens, Roe vs Wade, and Doe vs Bolton, do not accomplish this.

8. Did anyone pressure you into having an abortion?

Yes No

the father of the baby

9. How has abortion affected you?

Isolation. Grief, anger. Increased health problems. Relational problems. All after abortion.

10. How has your abortion affected others in your life?

Emotionally I was hardened after abortion, and difficult to get along with. I was emotionally unavailable for my 3 year old living daughter.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion seems to be a easy way out of an unintended pregnancy. It isn't. It just creates new problems.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Roe vs Wade, and Doe vs Bolton, do not protect the citizens of the United States.

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No information about the development of the baby was given.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told about the risk factors of abortion. I was also not given information about the emotional aftermath of abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

This was my third abortion. I had been very hardened emotionally by the abortions in my past. I was very angry at myself and others involved in my abortions. I put so much energy into keeping up a front that I was fine. I was very isolated emotionally. And I lived in constant fear of someone finding out about my abortions.

10. How has your abortion affected others in your life?

Abortion placed a wall between me and others, that created relational problems. It stold my daughter's siblings, my parents grandchildren, and on and on.

11. Based upon your experience, what would you tell a woman considering abortion?

It is not the easy way out of an unitended pregnancy. It just creates more problems.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I'm highly disappointed that abortion, through the decisions of our courts, has been allowed to have it's way with the people of America, leaving victims through out our country.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of AZ

County of Mohave

My name is Sandy Loftus. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Portland OR

02//1992

2. How many weeks pregnant were you?

04

3. What type of abortion was performed?

general

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They made it seem like just a common procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

As a young adult, and in the state I was in at the time, I felt I had no other choices. I wish to God I'd been informed of alternatives - forced to think things through. The "easy way out" is not always the best.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

The older I get, the more clarity I get. I get to live with the "what if's?" What if he/she were alive", "what did I miss out on?", etc... I've had to learn to live with myself knowing I'm a murderer - the worst kind. I killed my own baby...in a gross way. I'm a mother and have the natural instinct to protect my child. It is a horrible conflict. One NEVER completely gets over the loss of their child. I will never stop shedding tears for our loss. There is NOTHING in life I regret more.

10. How has your abortion affected others in your life?

It affects how I look at myself, therefore, it affects every relationship I have. Directly it has affected my relationship with my husband because I feel like used goods, ugly, and disgusting. It affects my relationship with my living children because I became an approval addict, trying to over-achieve and get balance. I could go on and on.

11. Based upon your experience, what would you tell a woman considering abortion?

It may seem like a good idea right now, but later I GUARANTEE you will regret it. You will always wonder... You will always feel a sense of loss, grief, and shame. Once you hold your child you will know you made the right choice if you keep him or her. There is no price of a life, especially your own child. Listen to your conscience, or it will haunt you later. There is always adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Listen to the professionals. Any psychiatrist will tell you their hours are spent listening to our cries. Put yourself in the womb. 3,000 lives a day to abortion is not necessary.

9. How has abortion affected you?

I'm severely pro-life

10. How has your abortion affected others in your life?

my children are pro-choice and I don't know why...

11. Based upon your experience, what would you tell a woman considering abortion?

Since I am a believer in Jesus and a follower of the way, I would begin with love ...

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I'm a living experience of what it does to mentally cripple a person without the saving forgiveness of Jesus's atoning blood on the cross.

boyfriend

9. How has abortion affected you?

Years of guilt and anxiety, cut off from emotions. Worry that my subsequent pregnancies would be affected. Finally found healing in God.

10. How has your abortion affected others in your life?

Because of my emotional problems, all who know me were affected....husband and children especially.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not do it! You have to live with it for the rest of your life! It is murder.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The killing of a human being should never be "legal", no matter his or her age.

My name is Rachel Ann Kingston. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Ft. Worth TX

06/20/1980

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Possibly a D and C, I was under sedation, I'm not sure of any special name for the procedure.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one talked to me at all about what would happen to me or to my baby. All they said is that I would not have to worry about anything.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me that I could bleed for several days, have horrible cramping and especially the emotional terror and anguish that would follow such a procedure. Also I have had to have a hysterectomy afterwards, and I will never be able to have children again.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my mom and dad

9. How has abortion affected you?

There is NOT a DAY that goes by that I do NOT regret allowing a stranger to take my child away from me! I have suffered long term depression and mental anguish because of this event. Also the damage to my uterus, ended up causing me to have to have a hysterectomy.

10. How has your abortion affected others in your life?

My relationship to my parents has been a love hate relationship, I love them but I hate that because of them I had to kill my own child.

11. Based upon your experience, what would you tell a woman considering abortion?

I would say to her, I understand what you are going through, I have been there myself. I regret every day that I killed my own child, don't do it! If you want I will care for your child and for you. Have your baby,

there are many people, myself included that would love to raise your child and later on down the road you may change your mind and want to have a relationship with your own child, even if the circumstances right now you may feel that you don't. Time changes your perspective, what if after your abortion you can't have any more children? Do you want the continual emotional upheaval? It is better for both of you to have the baby, I will help you. Then after your precious child is born, then you can decide what you want to do.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I disagree, abortion kills not only the child, but part of the woman dies with that child. The damage by far outlasts the momentary procedure, and it's cost to the human emotions and soul is a bottomless pit, not to mention the financial costs, for the procedure, and for the follow up counseling, and any physical damage that has to be repaired when the procedure damages the body! Please PLEASE DO NOT force that kind of agony on anyone!

9. How has abortion affected you?

its very difficult to forgive yourself after making such a selfish decision.

10. How has your abortion affected others in your life?

my children are sad that they didnt get the opportunity to have their sibling in thier life

11. Based upon your experience, what would you tell a woman considering abortion?

Dont even consider it. Its horrible, leave you with a emptiness you cant explain. You can never bring that baby back or give it a chance to have a life or an opportunity to live, like the opportunity somebody gave you. Give it to somebody that wants it if you dont or get fixed, dont be selfish and kill somebody because your too lazy to prevent it from happening if you dont want a baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We are not the creator of life the decision should not be our to decide if it doesnt get a chance. Everybody deserves a chance. If these woman dont want babies take the right away from them. Fix them in of letting them go around sleeping with men and just having an abortion as a form of birth control.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was counseled by a clergyman who sympathized with my dilemma and told me it was a good thing to get it done. I cried thru the whole session.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told nothing concerning the damage to me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

The day that I realized that I had murdered 2 of my children without so much of a thought to who they were, because of my own desperation, I grieved bitterly. The sense of shame and guilt was devastating. The fact that I was promiscuous, unprotected, used and unloved and that my children paid with their lives is the stark reality. Forty years later there are still tears, even though I know I am forgiven by Christ and have had much love and counsel since that time.

10. How has your abortion affected others in your life?

My children have been stunned to know that they have siblings in heaven.

11. Based upon your experience, what would you tell a woman considering abortion?

Have your baby and do the best thing you can for your child's well being.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is a devastatingly harmful blow to most women, who suffer for many years from intense guilt, shame, and grief.

2. How many weeks pregnant were you?

20

3. What type of abortion was performed?

D & C procedure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

This abortion was set up between my mother and the doctor because of my young age, I was only 13. I was told that there was something wrong with my baby, that it actually did not develop into a baby so they needed to remove this mass from me. This was not true, I was only told this so they could do the abortion. There was complications during the abortion and I almost died, I lost a lot of blood. I never would have agreed to an abortion. I am now 32 years, the mother of 3 beautiful girls and this experience still leaves me wondering about my first pregnancy.

The doctor and my mother.

9. How has abortion affected you?

Yes

10. How has your abortion affected others in your life?

I am sure it has made my husband sad at times, the baby was his child also.

11. Based upon your experience, what would you tell a woman considering abortion?

Nope

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We don't have the right to take some ones life and that is exactly what we are doing when an abortion is performed.

I was told it was just tissue at this stage. It was two weeks later I saw a pamphlet that actually showed me the size of my baby's hand. I just lost it when I found out it wasn't just tissue that it was a baby!!!

5. Were you adequately informed of the consequences of abortion?

Yes No

NONE at all. I had no idea the hurt, guilt, emptiness, shame that was with me for 20 years until I was able to forgive myself. My 2 kids I did have, always wanted another sibling...I finally had to tell them when they were teenagers,they should have had one. I have spoken to our youth group telling them my story in hopes that it could keep them from making the same selfish, for the moment decision.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OR

County of Clackamas

My name is Jean I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Portland OR

09//1979

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Late-term, also had 2 others earlier in pregnancy

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They may have explained the procedure but I don't remember. Later, I realized what they had to do to kill my baby and I was devastated. It still makes me cry to think about how incredibly painful it must have been for my child.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not aware of the complete emotional shut-down I would experience. The depression, the guilt, the shame, and believing that I would never be forgiven of this ultimate sin.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

I just couldn't tell my parents

9. How has abortion affected you?

I lost all self-esteem and began drinking, experimenting with drugs and seeking unhealthy sexual relationships. The guilt and shame overwhelmed me at times and I became very depressed. I stuffed most of my feelings and masked my pain with alcohol and drugs.

10. How has your abortion affected others in your life?

This affected my husband, my kids and my entire family as the effects of my own lack of self-worth continued to cause problems in my relationships.

11. Based upon your experience, what would you tell a woman considering abortion?

I work with teen girls at my church now and make myself available to talk openly with them about the effects of abortion. I worked at PRC for 2 years to help counsel about the choices available and

introduce them to Jesus.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

This is not a legal choice to make. Ending an innocent life is illegal. The effects are devastating to the child, the woman and eventually her family.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OR

County of Washington

My name is Anne I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

NY NY

11//1972

2. How many weeks pregnant were you?

15

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No questions were asked. I made an appt at the clinic. I arrived and was given a shot to relax me. I remember feeling as though I wanted to walk out and not go thru with it, but I was escorted into the procedure room and let it happen. No one question was asked or any information given. my sister had driven me there from out of town and I didn't know what to do. I was confused and nervous and didn't know what else to do.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was 19 and naive. I had believed the lie that my baby was just tissue, with no feelings or form. I had no clue about the reality of the life within me. There was no information given by anyone.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

With all sincerity I can declare to the world that no amount of persuasion or rationalization can ever take away the years of emotional suffering and depression I have experienced over having my own child destroyed. That one act has impacted every area of my being. I look at my 2 daughters, whom I love with all my heart, and think about their brother or sister whom they will never know this side of eternity. No one shook their finger at me and said "bad person". The guilt and shame came from within me - not from anyone else's judgment of me.

10. How has your abortion affected others in your life?

No one talks about it.

11. Based upon your experience, what would you tell a woman considering abortion?

I would share with her the sufferings I have experienced and encourage her to let the life within her live. I have 2 daughters now. Their father died when they were very small. I raised them as a single mother and I can tell you we made it and have had a joyful life together. What blessings they have been. I am so incredibly thankful to have been given a second chance at being a mother. I would tell her that there are many, many resources and people who care for her and will be overjoyed to help her care for herself and her baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say abortion destroys more than the baby - as if that isn't enough. Abortion is not the answer for anyone's distress - it will absolutely compound whatever distress a woman is in - no exceptions. I believe no woman (and I base this on my experience and that of many others who have shared with me their experience after abortion) can say they have not experienced emotional torment and depression over the action they have taken to end their pregnancy.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OR

County of Marion

My name is Linda Bishop. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Lorenzo CA

03//1985

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not given any sort of consultation. I called, was scheduled for the next day, did not talk with nurse or doctor. Checked in, waited a short while and was shown to an exam room. The nurse and doctor entered, made me comfortable and began the procedure. They were kind but very detached.

5. Were you adequately informed of the consequences of abortion?

Yes No

I knew nothing of consequences until I began to suffer emotional difficulties days after the abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The man I was marrying two months later.

9. How has abortion affected you?

I will never forgive myself. I believe it drove a wedge between my future husband and myself. I looked to him to be the head of our Christian home, and he failed himself and me. I had nightmares for more than ten years of a tiny baby down in the catch for the after birth, crying for mommy. Every time the son we had four years later asked for a brother my heart broke. My marriage suffered the effects of overwhelming guilt on my part and we ended in divorce for that and, I suppose, other reasons. I hate myself. I am a loving mother of one son and the murderer of another. God has forgiven me I know, but I can't seem to forgive myself. I will one day see that baby in heaven. What will I say?

10. How has your abortion affected others in your life?

It is a huge secret, known only to my husband and me.

11. Based upon your experience, what would you tell a woman considering abortion?

It is the killing of a human being. A baby that may be inconvenient at this time, but whom you will come to love the moment he is born. Give life a chance, there are thousands of couples that will take and raise your baby if you find you are not able to cope. Don't listen to the radicals who would have you believe it is only tissue or a fetus; both terms used to de-humanize the fact that a living baby is inside you. In a place that should be the ultimate place of sanctuary. Think not of yourself first.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion takes two lives, maybe more. You kill your baby and you die a little yourself. Your relationship with the father who participated in the decision to end that precious little life dies by degrees too. There is no difference between taking a knife to a new-born infant or to one in the womb. It is killing!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OR

County of Multnomah

My name is Janice Carleton. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Renton WA

09//1971

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

We went to Planned Parenthood in Portland, OR and were told that it was just a blob of cells that could be taken out and no one would ever have to know. There would be "No" problems by doing this. I was so naive and scared, I believed them. Since abortion was not legal, we had to go to WA to a clinic that someone else had heard of.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me of the emotional pain I would suffer, no one told me that I would have to live with the memory of the experience for the rest of my life. I also nearly bled to death afterwards - we drove back to Portland, and I had to be taken to emergency that night. I'm lucky I survived.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend, the father of our child.

9. How has abortion affected you?

A few days after the abortion, I was shown pictures of an aborted baby at 10 weeks. I nearly fainted. When the reality of what we had done sunk in, I seriously wanted to kill myself. I came very close one day - I was driving on the freeway, and I almost drove across the median into oncoming traffic. For 8 years I suffered terribly with guilt and the horror of ripping my own baby into pieces.

10. How has your abortion affected others in your life?

Fortunately, because I have found forgiveness and healing, I have used the experience to help others. God has brought good out of a horrible wrong. I speak to high school students and the day I told my 4

children, was a really important day for our family. We had raised our children to know what abortion was, and we are a very pro-life family. When I told them what I had gone through, we all cried together and they are now able to share my story with others too.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her the truth of what an abortion is, and encourage her to choose life. I would tell her it's not a good solution at all to her problem. I would tell her it causes more problems and that she has a great opportunity to give a baby to someone who can't have their own. I would tell her there really are people who will love her and help her through this time in her life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that a baby should have rights too. Abortion is not a solution, it only causes more problems. It is a huge industry that hurts women and kills babies. Adoption is a wonderful alternative to abortion and all involved can keep their peace and self-respect and health.

The State of OR

County of Deschutes

My name is Debbie I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Wichita KS

10/14/1988

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told only that it was in my best interest because I was young, unmarried and still had "my whole life ahead of me". I was told it was just a blob of tissue, no actual development had taken place as yet.

5. Were you adequately informed of the consequences of abortion?

Yes No

See above. That is all I was told. And anytime I brought up a counter-argument, they would keep bringing it back to me not having any support and that I "didn't want to hinder my life goals, did I?"

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The "counselors" at Planned Parenthood

9. How has abortion affected you?

Ten years after my abortion, I was married by then and expecting my first child, I began to look through all the baby books at the development of each day. When I got to the pictures of a 7-week old baby, I could not believe how formed it was already. It was not a blob of tissue, like I'd been told. It had fingers, toes, beating heart, head. It tore me up and from that point on, I cried constantly at the realization of what I had done to my truly first child. I became terrified that something was going to happen to this baby and was miserable much of my pregnancy just from fear that he would die. Even after he was born, I was terrified about everything...there was constant fear that I would lose him....it was miserable.

10. How has your abortion affected others in your life?

My husband had to deal with my constant fear about something happening to our son. We were either going to or calling our pediatrician or my husband's father (who is a doctor) all the time because I

always thought something might be wrong. My parents still grieve the loss of their first grandchild. When my daughter was 4 (she is now 8), she told me that she had a sister somewhere. I laughed because I thought she meant her brother, so I corrected her and said, "No, you have a brother." She said, "No, I have a sister." I asked her where this sister was. She was thoughtful for a moment and then said, "I don't know but I know I have one somewhere." This is astounding because I believe the baby I aborted was a girl. Somehow, my daughter knew something. And now, as an 8 year old, she asks all the time for a big sister and it breaks my heart. My son and daughter were deprived of a big sister because of my selfishness and abortion. It truly breaks my heart.

11. Based upon your experience, what would you tell a woman considering abortion?

It feels like the easy way out...for a season. And maybe there will be relief for a time. But it is so brief compared to the heartbreak that lasts a lifetime. There is no do-over. Also, I would beg her to get an ultrasound...when you can actually see that there is a living, breathing, little human growing in there, it changes everything. Women are supposed to nurture and protect life, not destroy it. Finally, I would help her figure out what her support options are....there are far more than we realize if someone will just sit down and help us think through it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Why, if there is not viable life inside the womb, do we prosecute for a double murder the murder of a pregnant woman then? There is unbelievable hypocrisy here. Life can not come from non-living material. If we continue to make it legal, even normalize it, to kill life just because it's inside the womb, we should not be surprised when anyone kills anyone or anything then. Because if you devalue life at any level, you will devalue it at all levels. We are producing a generation of people who are neutralized to the value of life. And, because of that, we lose the right to condemn anyone who takes life. It is unthinkable how that line of thought will play out eventually.

HOW MY ABORTION AFFECTED ME

The State of OR

County of Columbia

My name is T M I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Los Angeles County CA

//1978

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told "it" was NOT a baby; that it was like my period!

5. Were you adequately informed of the consequences of abortion?

Yes No

No consequences were explained!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend

9. How has abortion affected you?

Now that I know "it" was a preborn baby and "it" had a heart beat I feel I am a murderer! If I had been informed of "it's" heartbeat, I would have known the truth and I would have let "it" live!

10. How has your abortion affected others in your life?

Any one close to you must also deal with the depression, anger, mourning, shame you yourself feel after going through abortion. You never actually "go through it" and get to the other side of these feelings! They are forever part of you!

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! "It" is a child! Killing "it" will not kill your shame or the emotional pain you will have forever! Abortion is not the answer! It solves nothing! "It" (the child) is not the problem, your behavior is! Your behavior demonstrates how you feel about yourself, your self-worth! If you believe you are worth more then you will believe "it" (the child) is worth more as well!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Who made you God? Any one who chooses to have an abortion should be punished just like any one else who kills another human being! Honestly, if someone could not defend themselves by speaking out or fighting back, would they not have the same "right" as anyone who could against their own death?

QUESTIONS

1. Where and when did your abortion occur?

Rosemead CA

01/01/1996

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

suction, I had three and don't remember the exact dates or how far along except one

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The paperwork said I would feel "relief". They did not tell me ANYTHING about the development of the baby and when I asked about it they showed me a fuzzy ultrasound where I couldn't see anything and told me it was "a worm with a head".

5. Were you adequately informed of the consequences of abortion?

Yes No

I have scar tissue on my cervix and have been testing positive for pre-cancer cells and I believe that abnormality is the cause. I was never told abortion could affect my chances of having a healthy pregnancy later. I was never told I might not be able to get pregnant later. This didn't happen to me but I know several other women who can't have children because they had earlier abortions.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my friends and boyfriend

9. How has abortion affected you?

I cannot begin to describe the grief that my abortions have caused me. Instead of helping they pushed me deeper into self-destructive substance abuse and suicidal depression. I have over come that but every day I regret those abortions and have emotional hurt because I believed that abortion was my only choice. I go through periodic bouts with grief because of those lost children and my abortions were all over 13 years ago.

10. How has your abortion affected others in your life?

Yes, I believe my living children, the father of the children, my mother and my current husband have had

to endure grief because I chose abortion without being fully informed. I have met so many men and women who are broken hearted over an abortion(s) that they have had.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. You will regret it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them they are wrong and that abortion hurts women. The majority of those who support abortion have a financial stake in what's going on. Abortion is the taking of a human life and human life is sacred and should be protected. Just like we protect animals and the environment we should be protecting the lives and rights of unborn humans.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

It was not explained that it was a baby just a blob of tissue

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no explanation of the emotional consequences of an abortion. There was no explanation of the fact that you could get an infection that would cause scarring and prevent you from having any other children.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My Mother

9. How has abortion affected you?

It has prevented my from having the family that I wanted. It has left emotional scars that will never be erased or relieved. It has left me with tremendous guilt and agony over the realization that I killed my own child.

10. How has your abortion affected others in your life?

It has prevented my husband from having the family that he wanted.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not under any circumstances have an abortion. The life long regret and guilt are not worth it. There are so many alternatives to abortion. God has a plan and a purpose for that baby. It is a baby!!!

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I believe that by abortion remaining legal it promotes the fantasy that there are no consequences to sexual promiscuity. It promotes irresponsibility and the devaluing of women and lessens the respectfulness of men. I understand that there will always be those that will be willing to break the law and continue to do abortions in secret, however, I believe that more lives can be saved and the moral fiber of our great country can be restored through the act of making abortions illegal. People, especially women, must be made aware that there are long lasting emotional effects from abortion as well as serious physical consequences. I believe that every man and woman involved in the decision of abortion should be required to see an ultra sound of the baby they are about to destroy so that they understand that it is not any different than killing a newborn or a toddler. The consequences to murdering your own child would put you in jail for a very long time. It should not make any difference if that child is inside your body still developing or outside of it fully developed. The child is a child from the moment of conception and should have every right that the rest of us do. Our courts are pulling out every stop for very perverse lifestyle choices. Why not protect those that are unable to protect themselves!!! That is what we all are supposed to be doing.

HOW MY ABORTION AFFECTED ME

The State of OR

County of Lane

My name is Lynda I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Eugene OR

05/29/1986

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They only referred to it as an abortion and mentioned D & C without clearly telling me what was happening to me or the baby. My baby was not a blob of tissue.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one mentioned the regret, the shame, the depression, the endless sadness, risk of breast cancer, that there were other options. They didn't even ask why I was having an abortion. No one even mentioned that I was aborting a BABY they kept calling it tissue.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

The list of how it hasn't affected me is shorter. I wish everyday for a time machine that I could travel back to May of 1986 and keep my precious baby. I am sad, 1986 is always a year I remember. I wonder what and who my baby would look like. I regret my decision everyday. I figure how old my baby would be every year. If I hear the song "Take my Breath Away" by Berlin I cry. I saw Top Gun the week of my abortion. I will forever be sad about my loss. I can never undo what I did. My life has never been the same. I recently found a quarter from 1986 and tucked it in my jewelry box. It is a year I will never forget. I feel empty. I have lost a huge part of me and nothing anybody does will ever change that. I hear the words, "This will terminate your pregnancy" run through my mind almost daily. I also hear, "the products of conception" echo in my mind. What horrible things to remember your entire life.

10. How has your abortion affected others in your life?

My children (5 and 18 months) see me cry a lot. My husband, not the father of aborted baby, has to deal with my depression and my sadness. I feel empty. I have lost a huge part of me and nothing anybody does will ever change that. My mom was sad to hear about her lost grandchild. I sure don't know how my two boys will handle knowing they have a brother in heaven. The father of the baby is still sad.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT!!!! Call a crisis pregnancy center of two or three. Find one that she is comfortable with. Go to a real doctor, NOT PLANNED PARENTHOOD. See what they have to offer. Check all options! Get on line and check for pregnancy resources. Go to "Standupgirl.com" If she is still wavering get on line and look at fetal development or pictures of aborted babies. Go to "Silent No more" and read the testimonies of women who have had abortions and see how they feel now.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Change the laws! Protect the children and women of our Country. There is no choice for the babies who are killed. Where is their choice? I wish abortion would have been illegal when I was pregnant. I would have been scared, but I would have had to make room for my baby. I would not have sought out an illegal procedure. My baby would be alive today if it hadn't been so easy to walk in to a doctor and say, "I want an abortion" and pay for it with a Visa card. It is too easy to turn our back on life, and our responsibility, given that we can kill at will those who cannot speak for themselves. Making abortion illegal will save not only the lives of the unborn, but the marriages and relationships of the future. Women are being emotionally and spiritually raped by abortion. They are being lied to by the industry and not given enough counsel to make an informed decision.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OR

County of Crook

My name is L N I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Prineville OR

07/02/1991

2. How many weeks pregnant were you?

18

3. What type of abortion was performed?

D&C (three times on same baby)

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The first "abortion" was on June 7, 1991. The doctor lied, and told us the baby was dead. He sedated me so heavily I could not be woke up. He lied again to my husband and said if he waited until I woke up from the sedation to do the surgery (2 hours) it would jeopardize my life. We later learned that the baby was not dead, and somehow survived the D&c, but extensive damage was done. On several occasions between 6/7/1991 and 7/2/1991 the doctor assured us that "everything is okay, and you can have more children." Everything was not okay (and he knew it was not). I returned to the doctor on July 2, 1991 seriously ill. That's when an ultrasound showed the baby was still alive. We were informed that my life was in danger (which was later confirmed). He insisted surgery needed to be done that day, not giving us a chance to get a second opinion. He also lied about why we were not informed before about the problems in between surgeries.

5. Were you adequately informed of the consequences of abortion?

Yes No

They simply told me to "get my support together." There was no help getting the support needed and no warning or help dealing with the constant nightmares and flashbacks I had from that day on.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The doctor

9. How has abortion affected you?

For five years afterwards, I had horrific nightmares and flashbacks, along with the intense grief. Although we made the choice because my life was in jeopardy, the horror I felt later is indescribable. A mother's instinct is to protect her child, not kill him/her. Violating that (no matter how necessary) did

something to me. I questioned whether I had a right to live. The emotional turmoil made it impossible to be the kind of mother I wanted to be to the two children we had, adding to my guilt. One night, the flashbacks were so intense I pounded my head against the wall in an effort to make them stop. I feared I truly was going insane. On June 4, 1996 the State Medical Board of Oregon did find the doctor (license #MD15601) who did those awful surgeries guilty of multiple acts of negligence. He was never charged with wrongful death. The surgeries damaged the lining of my uterus and left scar tissue. We have not been able to have more children. My monthly cycles lasted 9-14 days each month after the surgeries. Eighteen years have passed. God has done a lot of healing, but tears still come at times. I wrote in my journal a few months after the abortions, "Sometimes living is harder than dying."

10. How has your abortion affected others in your life?

Our whole family suffered. My youngest son admitted years later that he struggled with nightmares afterwards. Even though we did our best to protect both of our kids from the horrible truth, and hide my extreme emotions, we could not completely. My husband has had a hard time forgiving himself (though he has done nothing wrong) for believing the doctor and consenting to the first surgery.

11. Based upon your experience, what would you tell a woman considering abortion?

DONT!!! If, as ultimately in our case, it is necessary to save the mother's life, I pray she will get help we did not receive.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Saying that a women should "have the right" to choose abortion, is worse than saying she should have the right to gouge out her own eyes with a hot poker. I would not want ANY woman to experience the agony and grief we have lived through. Women already have a choice whether or not to get pregnant! Abortion should never be used as birth control. For those who have been raped.... carrying the baby would be painful, but an abortion would only add to the horror. Adoption is a viable option. Only in the case of the mother's life being in jeopardy, should abortion be legal. But I hope nobody else ever has to make that decision!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OR

County of Deschutes

My name is Becky I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Portland OR

07//1984

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I thought I understood what abortion was. I did not seek counsel, and I was not given any information about the nature of abortion or the procedure from the abortion clinic.

5. Were you adequately informed of the consequences of abortion?

Yes No

To my knowledge, there was no information provided regarding the consequences of abortion, (physical or emotional).

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I remember a lady standing next to me during the abortion procedure. As I lay there crying, she leaned over and said, "Don't worry, it will all be over very soon." It took twenty years for me to finally find healing and forgiveness, and to let God's light shine on this deep dark hidden place. Twenty years in not very soon; but praise God, He continued to pursue my heart, and provided me a safe place to share my experience and heal. His grace was finally sufficient for me.

10. How has your abortion affected others in your life?

My hidden sin prevented me from being effective for Christ. I was unable to have deep relationships, because I felt like people wouldn't like me if they knew what I had done. Intimacy with my husband was difficult until I was finally able to receive God's unconditional forgiveness and forgive myself.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion does not solve a "problem". Living with the emotional and physical consequences of having an

abortion can be life-long. There are other choices -- Choose life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Although I have no outward physical scars from abortion, the emotional scars and wounds run very deep. Abortion goes against a woman's natural God-given instinct to nurture and give life. Science proves that life begins at conception - abortion is murder, and should not be legal.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of OR

County of Multnomah

My name is Patricia LaRue. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Los Angeles CA

07/18/1971

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

As a 17 yr old victim of rape I was told nothing, in fact I was made to feel as if the rape was deserved because I knew the person. I was treated as if I had been asking for it. I was treated as if there were no other choices but abortion. I was told that no one would believe I was raped so there was no reason to report it either.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told nothing except that if I didn't have the abortion then I was choosing to destroy my own life. This was Planned Parenthood who were giving abortions before Roe vs Wade decision.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My doctor, friends, the one who raped me.

9. How has abortion affected you?

Depression, hatred towards the one who raped me. I became promiscuous, drank a lot, left the Church. Carried the feelings of grief with me all my young adulthood, was in an unhappy marriage for 20 years. There was self loathing, lack of self respect for many years.

10. How has your abortion affected others in your life?

It was not until nearly 30 years later and after my mother died did I have the courage to tell my father and it tore his heart out.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that there is hope beyond abortion, there are people like myself that know the pain and

torment we endured for years and years and that it is not the type of pain that any person should have to endure. There truly are people that can help you save not only your baby but you. They are there all around you who will not judge you but will help you decide if adoption or keeping the child will work for you and where you can get support for yourself and your child. By saving your child's life you will be saving your own.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I personally know that I was lied to and every woman after me has been lied to about abortion. Women are led to believe that the pre-born child is not truly human, they feel nothing, they are not developed enough to be even considered human. They are lied to when it comes to having other choices, they are led to believe that abortion hurts no one, when in reality it hurts everyone involved. It is a scientific fact that we are human the moment we are conceived. Every bit of DNA that is needed to create who we are at birth is present at the moment of conception. Even though it has been well over thirty years since I experienced the loss of my child through abortion, I still think of her, her name still burns in my heart (Darcy Marie), even though through the help of my Church, priest and my renewed faith in God, I've been healed, I still know that my life is missing something and always will. And every woman after me will always be missing something as well. We cannot continue to allow our country to insist upon making life in the womb worthless! We cannot continue to live with double standards....our laws recognize that if someone murders a pregnant woman that they kill two people! Why is it then legal to abort that same child?!

HOW MY ABORTION AFFECTED ME

The State of OR

County of Linn

My name is Patricia I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Portland OR

//1989

2. How many weeks pregnant were you?

3. What type of abortion was performed?

D and C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The clinic said it was just a bit of tissue!

5. Were you adequately informed of the consequences of abortion?

Yes No

That I was killing a Live Human Baby>>>>>>

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Yes, my sister Shirley Ann Fosdick

9. How has abortion affected you?

I feel hated by my children--I just told them not too long ago about it. I thought they were old enough to understand and to make better judgements for themselves. As for me, I've had Very Deep Depression over it and I thought I was worthless. My Dad called me a murderer (of course my sister told him I had one but she didn't say she talked me out of having it and that she drove me up there!). My Dad and the rest of my family hasn't talked to me since. When I found out I was pregnant I just broke up with my boyfriend but was going to have it anyway and I told co-workers--Everybody--and they were happy about it except my sister she talked me out of having it and then when I had the abortion I had to lie about it over and over and over-(I told everybody that I had a miscarriage).

10. How has your abortion affected others in your life?

They have to keep listening to my story over and over and over and over and some of them Don't even agree with me that it is Wrong>>VERY Wrong to have one. I think some of them don't want to think of it because if they do they'll have to have some kind of feelings about what THEY DID.

11. Based upon your experience, what would you tell a woman considering abortion?

The baby is not a bit of tissue- The Baby Has a Heartbeat, sucks it's thumb, has brainwaves almost at the time of conception (sex-1st trimester). Let God lead your way, let GOD happen even if you drank, did drugs-it doesn't matter the baby will still come out right. She will still be fine After she has The Baby---it's not a question of What are you going to do about the rest of YOUR life (that's selfish)but the Child you are carrying!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that a Baby Does Feel EVERYTHING that goes on even in the 1st trimester and that a Baby is a Human therefore He/She has rights as any Human being does. The Baby doesn't have a choice--that takes away a right--doesn't it?!! We have Greenpeace to save the whales -----NOT Save a HUMAN?!

QUESTIONS

1. Where and when did your abortion occur?

Los Angeles area CA

//1970

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

saline

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It wasn't until around 6 years later that I went to the movie, "Silent Scream", that I found out what I did. It was all I could do to hold myself together while the group I was with stopped to have dinner. I went the bathroom and cried and cried.

5. Were you adequately informed of the consequences of abortion?

Yes No

From what I can remember my mom took me to a chapel on a college campus near us and my mom was given the information and consequences were not a part of it. Only where I could go and what we were told was Los Angeles area in CA or London. I was so stupid I was excited about the possibility of going to London with my sister. Its been so long all I can remember about CA in coming in at LA International and driving past the huge HOLLYWOOD sign.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Until my mid forties, if ever abortion was discussed I would have to fight getting hysterical. I went through counseling at that time and it made it a little easier to live with. I still can cry when i think at all about the fact of a little baby....NOT TISSUE going through what he did.

10. How has your abortion affected others in your life?

I didn't find out until later just simply because it wasn't talked about. My mom cried so much through this time that my dad finally wanted to know what was going on.. My sister who went with me still can cry about it. My mom grieved through the years and when I went through counseling together we

named him Joshua Samuel Martin. Both believing it was a boy.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to even consider it and I actually have shared with women through the years.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Just my experience and more detail than I am sharing now. This last weekend was The Esther Call and I wept and wept. Then I went to October Baby with a friend it was like it happened yesterday. Still so sad, there is no way you ever forget your abortion, instead of carrying my baby at birth I believe I will always carry the knowledge of what I did. Thank you for letting me do this.

QUESTIONS

1. Where and when did your abortion occur?

Boise ID

//1978

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

I honestly don't know. I remember there being suction and pain.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I wasn't told to lie still, there would be some cramping, and I was to take it easy for a week.

5. Were you adequately informed of the consequences of abortion?

Yes No

They told me if the bleeding didn't stop in 5 to 7 days to see my doctor. That is all.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The 1st one a friend, the 2nd my husband.

9. How has abortion affected you?

It affected how I saw myself, my relationships, there was a continual ache in my heart, depression, the use of alcohol and drugs to hide and numb the pain. I lived in shame for your years.

10. How has your abortion affected others in your life?

It has been a secret for years, secrets like this play havoc on any relationship. How could any good man love someone like me. My second marriage was destroyed due to him forcing me into the abortion. When you have such shame and secrets you don't trust anyone, and you certainly don't allow anyone to get close.

11. Based upon your experience, what would you tell a woman considering abortion?

I would share my personal experience. And how this precious little one is a child, a gift. Other may try to tell you different, but, they are not telling you everything. What I know with all my heart is I allowed three of my babies to be killed. Before you make your final decision make sure you have all the facts

(truths) from both sides, have an ultra sound, so you can see your baby. Please don't make the same mistakes I did. It is a life time of shame, guilt and heartache.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

An innocent life is being taken, a little one who can't speak for themself, who deserves the right to live just as you or I; who deserves the chance to enjoy this world and be a part of our society. Each child killed by abortion is one less life to grow and give of themselves and become who they were created to be.

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

DNC

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

At that time there were no ultra-sounds and I was told it is just tissue and cells inside of me at 8 weeks. Little did I know the fetus looks just like a small little baby at that point.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I just buried it deep down inside of me and was in denial for many years. It was not until several years later when I accepted the Lord into my life did I understand that it was God's creation that I destroyed. He gives life and it is only Him that should take away life.

10. How has your abortion affected others in your life?

I know other woman that feel the shame and guilt that I felt. But God has helped us through it.

11. Based upon your experience, what would you tell a woman considering abortion?

Get an ultra-sound and actually see your baby inside of you. I know if I had seen that there was a baby inside of me and not just tissue and cells I would not have been able to do it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe that life begins at the point of conception. It is murder when a woman gets an abortion at any point in her pregnancy. It has left emotional scars that do not heal and it is something you never forget

the rest of your life.

QUESTIONS

1. Where and when did your abortion occur?

San Rafael CA

06/01/1977

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one explained the nature of the procedure. I knew it would terminate my pregnancy.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told that I might have emotional side effects or that the procedure itself might pose a risk to my health.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend.

9. How has abortion affected you?

Psychologically it has affected me profoundly. I have a great sense of remorse and loss. I see now that my choice was the wrong one. But there is no way to bring about the lives(I had multiple abortions) that were lost.

10. How has your abortion affected others in your life?

I realize now that my abortions caused me to become emotionally detached to the children I eventually decided to keep and give birth to. I believe the abortion experiences desensitized me so that I could not experience the true joy of child bearing.

11. Based upon your experience, what would you tell a woman considering abortion?

I would ask her to consider the emotional consequences which no one discusses and are the hidden scars. I would also warn that there is a physical risk. I know women who have been made sterile, and some who hemorrhaged after their procedures.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them, that many women including myself have used and are using abortion as contraception because it is legal. Abortions have been promoted as easy, readily available and risk free. Good laws are made to protect its citizens. Abortion puts women at risk and makes them vulnerable to emotional and physical harm.

2. How many weeks pregnant were you?

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I did not know the physical or emotional risks involved. I was not given an ultrasound and was not given information on fetal development.

5. Were you adequately informed of the consequences of abortion?

Yes No

I went through years of insomnia and depression afterwards.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

boyfriend, mother

9. How has abortion affected you?

I was stripped of all self esteem and began making poor choices in many areas of my life. I was riddled with guilt and felt I deserved all hardships and could not enjoy any positive aspects of my life. The past abortion brought issues to my marriage. Upon giving birth for the first time I was overly protective and consumed with being the "perfect mother" in trying to "make up" for killing my first child.

10. How has your abortion affected others in your life?

The relationship with the father of the baby dissolved shortly after. Last I heard he turned to drugs. It has put a strain on my relationship with my parents. I know someday I need to tell my living children.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them that even though it is hard, one must look into the future and decide how she will feel about her decision not just next week, but next month, next year, ten years from now, twenty years from now. An unplanned pregnancy seems hopeless but there ARE other ways through it besides

taking someone's life. There are so many great agencies that can help you work out the logistics and walk you through the experience day by day whether you decide to single parent, marry and parent, or place for adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Modern day medicine and technology make it clear that a fetus is a person. So the real question is whether or not a human being ever has the right to take the life of another innocent human being. The answer is simple. Killing an innocent person is wrong, no matter what their age, gender, or physical capability. Dear court members ... does anyone have the right to take YOUR life should they see you as an inconvenience? The government's role is to protect us. Unborn babies need protection. Vulnerable women in crisis pregnancies need protection. Help them by reminding them that killing someone will not solve their problem.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of PA

County of northampton

My name is Susan Dule. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Harrisburg PA

//

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

I forget.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

After we paid the money, from what I remember, I was placed in the killing room and the so called doctor spoke with the so called nurse and stated he may have to do an ultrasound because he thought I was greater than 12 weeks pregnant. Then the butcher decided against the ultrasound. If an ultrasound was performed, I would not have had an abortion. I also asked if the baby can have the last rites before the abortion occurred and the people in the room smugly responded no.

5. Were you adequately informed of the consequences of abortion?

Yes No

See above.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

No Answer

9. How has abortion affected you?

First of all, I can not remember what year this occurred. I began drinking after. I was told by a counselor shortly after the abortion not to tell my parents because we are practicing Roman Catholics and I would upset my family. I did go to confession about a few months after the abortion. About 1 year later, I met my future husband who I was open with when we began dating (I always say the Lord and The Blessed Mother sent him to me) and he helped me tell my mother. I did tell my mother and this was the saddest day in my life although my mother was accepting of me. In 1997, we got married and then in 1998 we had our first child. I experienced mild post partum depression with lack of sleep and anxiety for about 1 week or so. I truly believe this was partially caused by the abortion. We had a daughter in 2001 and after many prayers from many people, I did not suffer post partum depression or anxiety. I

thank God everyday for my family and that The Lord accepts me in Mass every Sunday and I am able to receive The Eucharist.

10. How has your abortion affected others in your life?

For many years, I was very rude and unfriendly towards new people due to anxiety and I was ashamed. Through much prayer I have changed. Thank God.

11. Based upon your experience, what would you tell a woman considering abortion?

Obviously to not have an abortion. I would then go into detail about the abortion and the after effects. I would also try to counsel her on the Catholic Religion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would ask the court how would you respond if your mother, wife, daughter, sister, cousin, aunt, grandmother or friend stated they had an abortion or are considering abortion? Would you go to the killing field with them? Just think, by saying yes to abortion, you are going to the killing field with all the women who have had and are going to have an abortion. Please pray, go to church and attend Eucharistic Adoration to get out of your job if you are still supporting abortion. I will pray for you. Please pray for me. Susan

The State of PA

County of lancaster

My name is Angela Gray. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Doylestown PA

//1984

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

D & E Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No Answer

5. Were you adequately informed of the consequences of abortion?

Yes No

I was explained only the physical complications. Nothing at all was mentioned about the emotional consequence that may come after an abortion that will last a lifetime.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

No Answer

9. How has abortion affected you?

I suffered for many years (approx. 20 yrs.) with Panic Attacks. I was medicated for about 15 of those years to control the attacks. I decided to go to counseling for help and through that counseling I discovered the link between the attacks and the abortion. The emotional effects are devastating! Through counseling I have found complete healing! I was able to come off of the meds because the attacks stopped! I had to deal with the mental anguish caused by the abortion before I was able to be free from the medication.

10. How has your abortion affected others in your life?

No one knew. I kept it a secret for all those years.

11. Based upon your experience, what would you tell a woman considering abortion?

Please think real hard before making a decision like this! It will effect your life forever. The emotional side effects are not worth it. It may seem like you have no other choice but you do and you will get

through it. Please choose life for you and your unborn child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is impossible to even suggest that what is growing inside a pregnant women is not a person! We all deserve the consequence of our actions. Everyone knows if you have sex you may become pregnant!!! Abortion just can't be justified. The emotional side effects are not worth! The mind can not handle it because it's just not natural.

No Answer

9. How has abortion affected you?

Intensified a relational disconnectedness between my husband and I. We eventually divorced.

10. How has your abortion affected others in your life?

My daughter has felt guilty that her sibling was aborted instead of her. My mother and father felt grieved that they lost their second grandchild.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion doesn't solve anything, and it actually creates more problems. I have never regretted giving birth to my daughter, but have always regretted that I aborted my second child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Keeping abortion legal is like saying that a person can choose to permanently maim herself without anyone caring that she's done it. Abortion is much more than a medical procedure, and the emotional,

relational, and other consequences cannot be adequately explained or understood by someone considering abortion. Because of this, and for many other reasons, abortion should not remain legal.

emotional disturbances,depression,isolation. I always felt like I couldn't talk about it because no one would understand or forgive me. It has affected my relationship to my husband, children, parents,in-laws,and friends. I will always carry with me the fact that I murdered my child.

10. How has your abortion affected others in your life?

My family has had to deal with me being depressed, moody, angry, sometimes crying for no obvious reason. It has affected my sexual relationship with my husband as well.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not hurry in this decision..get all the facts such as how far along the pregnancy is and how developed the baby is..the baby can feel pain at 8 weeks. The decision you make will affect you emotionally,spiritually, and possibly physically. It is final. I no longer support a woman's right to choose, I support a baby's right to life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The baby in the womb has a right to life, a right to be born. The court should do everything in its power to support the unborn. Partial birth abortion is a horrible death! Abortion is a horrible death! These children are innocent and do not deserve this!

10. How has your abortion affected others in your life?

I would not allow anyone to really get close to me.

11. Based upon your experience, what would you tell a woman considering abortion?

To make sure you get educated on the procedure, physical and especially the emotional side effects that follow so that you can make an informed decision.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

This is a human being with potential. Who are we decide that our lives are more valuable then theirs. Our lives involve choices everyday so if we chose to have sex then we should face the consequence of

that choice. Because we don't think a child fits into our plan does not mean their life is less valuable and they are created by God with a plan and purpose just like the rest of us.

HOW MY ABORTION AFFECTED ME

The State of PA

County of Lancaster

My name is Jaime Hilton. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Harrisburg PA

02//2001

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

I'm not sure ?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No Answer

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told of the emotional consequences of abortion. I knew I was making the wrong choice at the time, but I had no idea about the thoughts and emotions that follow. I had no idea of the harm that comes to your body, soul, and mind.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

We both decided on the abortion.

9. How has abortion affected you?

It affected every single aspect of my life. I went through a major depression. I lost my self esteem. I did not care about myself in any sense. It changed how I parented my daughter that was two at the time. I physically and emotionally detached myself from everything and everyone around me. I drank heavily and abused drugs.

10. How has your abortion affected others in your life?

My daughter was too young to know what was going on at the time. She does know that she has a baby brother now but he is not with us. I know it has affected their father but he will not talk about it. When I told my mother she just cried. For what it did to me and for the loss of her grandchild. Basically in our family pictures I just know that my son is missing.

11. Based upon your experience, what would you tell a woman considering abortion?

Please look at every other option that you have. When you are in a situation it is hard to step back and look at it from the outside. I beg every woman, or young girl that is considering this option to talk to someone who has had an abortion before they go ahead and do it. There are other options. Life is way to precious and fragile and that is often not realized until it is to late.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Until they have lived through the experience themselves they have no idea what it does to a person. It should not be legal.

QUESTIONS

1. Where and when did your abortion occur?

Indianapolis IN

02//1977

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Suction 1st and 2cd time.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was just told I would end the pregnancy. That is all, the first one I was asleep. The second one I was at the Women's Clinic in Indianapolis and I was awake. They just told me they would give me some pain meds, and it was only when I got there the day of the abortion they told me it would be suction.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told I would be sick for weeks afterward, that I would have emotional problems, physical problems. I tried to commit suicide twice. I was not just in therapy, I was on the Psych unit twice. I wanted to die, I had panic attacks, nightmares, depression and anxiety.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

A family member, 2cd time baby's father.

9. How has abortion affected you?

It has left my life a mess for many years. In and out of therapy, the medicines I became hooked on, to help stop the emtional pain. I tried to kill myself twice. I wanted to die at all times for about 6 years. I could not stay in any healthy relationship. I had guilt, sorrow, depression, and horror. I hated being around children and babies at one time.

10. How has your abortion affected others in your life?

Yes, many people told me I was different, people either walked away from me once they knew I had an abortion, or they just ignored me, some were ok with me. My sister didn't want me to have an abortion. It affected us for years. My grandmother was affected by my attitude change, she raised me, and she

didn't know how to reach me or help me.

11. Based upon your experience, what would you tell a woman considering abortion?

Please do not do it. If you love being around children at all, do not have one. I did not like babies after that for years, it was hard to look at other children, be around them. I didn't have a stable relationship for another 8 years after the abortions. I was a mess. You will have regrets, sorrow, pain, guilt. Not all women become psychotic like I did, but many have mental health issues. You will never forget the abortion, you learn to live in forgiveness, but it is always with you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

One aspect of the law is that the innocent and disabled should be protected. Women should be protected too. No counseling is done, no prescreening of women to see if they would do ok with an abortion. If laws were in effect that the whole procedure, fetal development charts, other options, this could help would protect women and babies. The abortion option destroyed my life for many years. It affected me very adversely both mentally and physically, Why are you trying to destroy women? Why do you want to destroy our lives and our babies? Abortion destroys us.

QUESTIONS

1. Where and when did your abortion occur?

Allentown PA

01//1988

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Suction aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one explained the procedure to me.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was given no information on possible side effects or complications.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Until recently I was not able to forgive myself for killing my baby, this resulted in me having difficulty with my personal relationships including my relationship with the children I have now. I have suffered from depression almost constantly since having the abortion, I have felt unworthy to be a mother to my children because I killed this baby.

10. How has your abortion affected others in your life?

My children have been the brunt of fits of rage that I believe is from the guilt I felt from having the abortion. My husband has suffered from the bouts of depression I have gone through over the course of our marriage.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that an abortion is not an easy way to get rid of a problem pregnancy. An abortion will bring on a host of other problems that she does not have now, she will suffer emotionally, physically, and spiritually. I would tell her that there are alternatives and many people who are willing to help her cope with an unwanted pregnancy.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that if abortion is going to be legal then the doctors and clinics that perform them must be held to a high standard of care, just like any other entity in the medical community. I would tell the court that abortion hurts innocent babies, the women carrying them and the men who fathered them, as well as the doctors, nurses and clinic staff who are involved in performing the abortions. I would tell the court that abortion ends a human life and that our country was based on the right to LIFE, liberty and the pursuit of happiness--abortion denies the unborn of this right.

3. What type of abortion was performed?

dilation and suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

nothing was explained, no pictures or sonograms offered to show the baby, just ok no problem take a seat and wait to be called. It was like a chop shop. So many people waiting around for the same horrible thing.

5. Were you adequately informed of the consequences of abortion?

Yes No

nothing was explained except that there would be cramping after the procedure.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

fiance, have since been divorced

9. How has abortion affected you?

I will NEVER forget the pain I felt and the overwhelming sadness I had prior to the procedure. I was crying just before they began and the doctor just said, "put her to sleep I can't work like this". I was asking God to forgive me for what I was about to have done. I was not told I had a choice, was not given a second opportunity to talk to anyone. Just put to sleep and woke up in pain with someone in the next bed telling me to stop crying, it was her 6th and it would be ok. I was thinking how sick is this! This is America why is this happening!

10. How has your abortion affected others in your life?

I do not talk about it, only terrible memories I have. My baby would have been 19. I had a miscarriage after I was married. That was six months after the abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

PLEASE do not do it, there are other options and nothing can keep you from the pain you will feel after, for years!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

PLEASE stop this terrible practice. It effects so many women and men. It is wrong and no child should have to suffer for the mistakes of the parents.

The State of PA

My name is Barbara Ratliff. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Harrisburg PA

02//1980

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The nurse explained the procedure to me in general, but didn't get into the particulars of what was actually going to happen. She even told me that what I was carrying at that point was not a baby, but rather a cluster of cells.

5. Were you adequately informed of the consequences of abortion?

Yes No

Again, general explanation about how long I could expect to bleed, but nothing about any dangers related to the procedure. They made it seem like a routine procedure ... like having a tooth extracted.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I regret everyday the decision I made back then. At least once each year I think about how old my child would be if I had not had the abortion. I robbed a person of his/her life -- I didn't have that right.

10. How has your abortion affected others in your life?

I have two daughters who will never know their younger brother or sister, and family members who will never know their grandchild, niece or nephew, or cousin. My older daughter became pregnant in her teens and opted, without my knowing it, to abort. I've always felt somewhat responsible for her

decision, although I realize that it was her decision. But, I believe, that my choice to have an abortion influenced her to choose one as well.

11. Based upon your experience, what would you tell a woman considering abortion?

No matter what the circumstances surrounding your pregnancy, killing your baby won't make things better. In fact, it will make things (your life) worse. Don't listen to those who would tell you that it's a safe procedure and that in time you'll be back to living your life as you were before the abortion. I cried for days following my abortion and was so horribly broken by the experience that I thought I would die from the inside out. It took Jesus' forgiveness to put me back together and release me from the guilt and emotional pain. There are many people who would love to welcome your baby into their family and give it a wonderful life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would ask them to take an honest look at what the abortion procedure entails ... the physical tearing apart of another human being, who, by the way, have no say in what is happening. They're not organs, like a kidney, or a gallbladder, they're the beginnings of separate, distinct persons being formed in their mothers' bodies, and they deserve to live. How did a great nation such as ours become so cold in our approach to human life.

1. Where and when did your abortion occur?

Boston MA

10/09/1991

2. How many weeks pregnant were you?

3. What type of abortion was performed?

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

I'm glad I had an abortion. The father had been drinking and may have been using other substances. The baby would have been at significant risks because of this. Also, I was only 19 and would not have been fit as a mother. My current children have been able to thrive as a result of my readiness for them.

10. How has your abortion affected others in your life?

my current children have benefited

11. Based upon your experience, what would you tell a woman considering abortion?

I believe it is up to them and they should consider all options before deciding. They need to consider what type of life the child will have if born.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would agree it should be legal and up to the woman to decide. It is no one else's right to force a woman to go through a pregnancy.

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Never told all the options available for me. Never told gestation development. Never told how invasive the procedure was.

5. Were you adequately informed of the consequences of abortion?

Yes No

NEVER told that I could suffer post traumatic stress from the abortion!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Parents and boyfriend

9. How has abortion affected you?

Had to have 6 years of counseling to fix damaged emotions.

10. How has your abortion affected others in your life?

Caused pain and upheaval.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. If you feel you have no other choices, talk to a crisis pregnancy center for all options and all information.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Legal doesn't make it moral. A woman cannot deny herself the right of motherhood. When she violates that right through voluntary abortion, she goes against what God has put in her soul. She will NEVER be the same. Abortion isn't an eraser. You will NEVER be able to go back and be un-pregnant. There will always be questions that haunt you. You will never be the same. Legal doesn't make it right.

The State of PA

County of York

My name is Candace Pavese. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Albuquerque NM

09/26/1981

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one explained anything that I recall.

5. Were you adequately informed of the consequences of abortion?

Yes No

No consequences whatsoever were explained.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Very mild pressure from male friend. Mostly fear.

9. How has abortion affected you?

Tremendous, long-term sadness. Have not been able to have children (though might not be from abortion.) I did, however become a Christian through it which is more than wonderful and the Lord has healed me overall.

10. How has your abortion affected others in your life?

They haven't told me, but believe some are sad for me and that it happened, others have encouraged and prayed for me. At least one woman chose NOT to have an abortion after I talked with her. (It's hard to know unless people tell you.)

11. Based upon your experience, what would you tell a woman considering abortion?

Please consider the consequences of life-long regret and wondering about your child - plus potential negative physical effects. I will help you in any way I can. Please let me pray for you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Please review the facts of fetal development (heart beat, brain waves, fingers and toes, etc. etc.) There is no excuse for denying the evidence.

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that I had to get an abortion before I was past 10 weeks because it would just be tissue up to that point not a baby yet. I was not told how they would do it but that I would have cramping.

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

somewhat, the father had given me the money

9. How has abortion affected you?

Everytime I see a child I am reminded that I killed my child. I now have 2 children and 11 grandchildren and I see how my kids struggle to make ends meet and to take care of their families but I also am so very proud of my kids because they could have aborted their children but they didn't. MY daughter was ok with 2 children but had gotten pregnant another 3 times while using 3 different birth control methods again she could have chosed to abort because she wasn't looking to have anymore but today those kids are so wonderful and you look at them and wonder how could anyone abort one of these little children.

10. How has your abortion affected others in your life?

I think that my abortion has kept my daughter from ever wanting to have one. It was so hard to tell my family but I am quite fortunate that I have a forgiving family.

11. Based upon your experience, what would you tell a woman considering abortion?

I would say please don't do it because you will probably regret it the rest of your life and you can never go back and fix what you did. NEVER!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The courts should not be allowed to allow this to go on. This should never have been an issue in the first place. We have people all over this planet saving the whales and polar bears but allowing the children to die. It makes no sense, what has happened to our Courts anyway.

My name is Mary I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Baltimore MD

//1971

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Uncertain

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never told about the long-term emotional effects that occur after an abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Myself - I pressured me.

9. How has abortion affected you?

It caused low self-esteem and self-hatred. I came to realize and admit to the fact that what I had actually done was kill another human being, and did so legally.

10. How has your abortion affected others in your life?

It resulted in other family members having abortions. They thought that if it was right for me, then it must be right for them.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! You will live with life long consequences. Simply take the time to first educate yourself about this act. Also take the time to know the baby you are terminating, by looking at sonograms and by communicating with them...they have proven that the baby hears you in the womb.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We cannot place a value on another human life...no matter when we consider it to be life..it's life none

the less and needs to be loved, nurtured and cared for. We need to stop this senseless spilling of innocent blood upon our nation. If we do not stop...God will stop it for us. Thank you for listening.

I don't remember totally but there didn't seem to be a down side presented to us. They were there to perform a service in a friendly manner - most of us in my group were about the same age of 19-20

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

My innocence and self-esteem dissolved. It played a major part in my coming to the Lord for forgiveness of murder.

10. How has your abortion affected others in your life?

Very few know about it. A wonderful man I later met and married almost couldn't deal with it but I felt I had to be honest.

11. Based upon your experience, what would you tell a woman considering abortion?

Never.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Its murder as if the person were outside the womb.

3. What type of abortion was performed?

I don't remember

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

What it is yes, but as far as the effects on my body, and my mental and emotional anguish no

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Regret and remorse over who the children could have become.

10. How has your abortion affected others in your life?

Two men who never knew they could have been fathers. One that I know still doesn't have any children.

11. Based upon your experience, what would you tell a woman considering abortion?

Just to know and understand the consequences, mentally, emotionally and spiritually. I consider myself very fortunate that God saved me and later gave me twins replacing the two children that I aborted. God is so merciful.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it is murder. And this country that fights for the rights of dolphins, seals, dogs, cats but would condone abortion are hypocrites.

The State of PA

My name is Karmen Kennedy. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Chicago IL

//1979

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Aspiration, vaccuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Unfortunately, I am unable to remember many details. I just remember feeling like I was being ushered through the process, in an uncaring atmosphere - a number in a waiting room.

5. Were you adequately informed of the consequences of abortion?

Yes No

Remember a paper I signed and didn't really read. I remember putting my parents down as contacts in case something should happen to me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend and a friends mother

9. How has abortion affected you?

At my follow-up check up I discovered I had an infection. Later my emotions were raging. I couldn't concentrate and didn't care about college. I dropped out of my 2nd semester freshman year of school. I was depressed. I turned to drugs, alcohol and a promiscuous life style to deaden the pain I didn't understand. I was filled with guilt and begged God for forgiveness for years. It was 7 years of living in hell, before I was able to begin the healing and mourning process. I suffered from endometriosis after my abortion that I never had prior. After I married and wanted to have children I wasn't able to conceive. It took years and infertility medication to have my three children. When I was pregnant with my twins I was unable to carry them full- term, I believe due to the scarring on the lining on my uterus. They were born at 28 weeks.

10. How has your abortion affected others in your life?

It has affected my husband as he walked through the healing process with me and watched me have nightmare after nightmare. He suffered when I was unable to get pregnant and through the premature birth of our twins. When I finally told my parents they grieved horribly - especially knowing that I walked through it alone and without their consent.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell any woman to absolutely not consider having an abortion unless she was willing to endure some very real side affects, most of which are emotional and mental. I would also tell her she will have to grieve this child as she would any other death and until she does she will be in denial and stuck emotionally until she comes to term with what she has chosen. I would plead with her to consider adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That life begins at conception and that no one should be allowed to make a decision on whether that life is important or not important, whether it deserves to be born or not born - including it's mother and father. I would ask them to seriously study what damage is done to the woman that suffers an abortion, physically and emotionally. I would also question the double-mindedness of the courts when it comes to the murder of a pregnant woman and her unborn baby or the murder verdict of a young girl who gives birth and leaves her baby in a trash can. We must be consistent in our language of when a baby is a baby or a piece of tissue.

HOW MY ABORTION AFFECTED ME

The State of PA

County of Dauphin

My name is Sharon I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Harrisburg PA

12/06/1975

2. How many weeks pregnant were you?

18

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was a simple procedure similar to having a cyst removed. That it would take just a few minutes and it would all be over. That was a lie from the pit of hell.

5. Were you adequately informed of the consequences of abortion?

Yes No

My counseling consisted of less than five minutes in a room off of the procedure room. When asked if I was sure I wanted to do this I said no and the woman said but what else will you do? I didn't know, I was fourteen. She then told me I was making the right decision and really the only decision. That was it, counseling complete.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

I wouldn't call it pressure so much as persuasion.

9. How has abortion affected you?

It has been a weight that has never fully gone away. It is a sorrow that crops up when I hold a new born baby to this day, 33 years later. I often decline when young women offer for me to hold their babies. I was thankfully able to have other children and I had two a son and a daughter. My son was killed in a car wreck when he was 18, 22 years after the abortion and I felt that it was punishment from God for killing my first child. Who's to say maybe it was maybe it wasn't but the fact that in the midst of my overwhelming grief at the loss of my child that I even had to have that thought is just wrong. If someone would have just tried to explain to me that there is an invisible cord between a mother and child and that not even death breaks that cord. And that I would live with the emotional consequences of this abortion for the rest of my life, I know I would have chosen not to do it. I just needed someone besides

me to acknowledge that, that baby was a baby and not a piece of tissue to be removed. I was made to feel silly when I referred to the child in me as my baby, as though I was playing make believe.

10. How has your abortion affected others in your life?

My sister's who took me for the abortion have suffered the same guilt and sorrow that I have. My Mom & Dad were against it from the start but... they were mad at me and embarrassed by me. It has been a burden to all of us.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her there is far more to this world than meets the eye and that killing her baby has consequences that she can't even phathom. I would ask her if she is prepared to live with those consequences for the rest of her life? I would ask her to put her hand on her belly and explain to her child why she needs to do this. And I would ask her to say her goodbye's to her child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say that all murder should therefore be legal. I would tell them to look at the preamble to the Constitution of the United States of America and I would ask them to explain to me who our founding fathers were referring to when they used the words "and our Posterity". I would ask them why a man can be charged with the murder of two people when he kills his pregnant wife but yet that wife can kill that same baby and there is no murder. I would ask them if they would like to walk in my shoes, living out my life knowing that I murdered my own child.

9. How has abortion affected you?

Although I have had the Sacrament of confession, I will never forget what I have done, and the secrets I hold..from my family. I wish it were NEVER legalized..I would not have done it I am sure..

10. How has your abortion affected others in your life?

Well, I can go on to tell other young women how I feel about the Right to Life of the Waiting to beBorn!

11. Based upon your experience, what would you tell a woman considering abortion?

That they can never turn back, that it is forever, and it is very painful... you will never forgive yourself, even though God the Father does.. You must forgive yourself, however, and trust in God's loving mercy.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

...Abortion kills the Child Waiting to be Born. You were once Waiting to be Born..please have respect for a tiny child like you. Terminating a baby's life scars a women's earthly life. Please....wait for these children to be born?

boyfriend

9. How has abortion affected you?

The expected "relief" of not having a baby was not there. I felt I had failed. I felt like if someone had said "stop" I would have stopped. I felt like I had a deep secret that was eating me alive. My boyfriend left me less than two months after the abortion. I dealt with depression, but couldn't explain to anyone why and what I had done. I spent the next years with the experience, the loss still very close to my heart. Even now, so many years later, I still think of that little baby whose life I chose to end. I have been blessed to have four additional children, but the pregnancies also brought up old wounds and feelings. I think of the child whose eyes never saw. I think of the child whose birthday should be in January, but was never born. I believe that abortion is wrong. I wish there was a way to tell men and women the truth. I worry about the physical risk factors that I now possess because of my abortion experience. Even though it has been many years, I still reap the consequences of that choice, and I don't even know how many more consequences I will experience in the future.

10. How has your abortion affected others in your life?

Before I married my husband, I shared with him that I had an abortion. He lovingly and mercifully accepted me with my past. This pain that I feel he can not fully understand and how it affects our relationship we will never completely comprehend. A few years back, we named the child, and he "adopted" her. My abortion will impact my children. It already does because it is part of who I am and where I have been. As they grow older, I dread the thought of how or if or when, I will have to admit my shameful act of choice. I have taught them that life is precious. Now I know.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell a woman that abortion is wrong. I would tell her that what seems like an easy fix to her problem will only lead to more problems. Replacing one set of problems for another is never a good idea. I would tell her that a baby's heart beat begins even before an abortion can be performed. It is a life. It is precious. I would tell her that my heart still breaks when I consider the loss. That there is nothing I can do to right the wrong I did, but that she still has a chance to choose life for her unborn child. I would encourage her to have an ultrasound. I would encourage her with the options that are available. I would encourage her to stay away from an abortion clinic because they are trying to "sell" abortions not provide loving care for hurting, confused women. I would tell her my experiences in hopes that my mistakes might save her and her unborn child from this misery of abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

With all the medical technology today, we are able to see life in a mother's womb. When a heart stops beating we consider that clinical death. At the least, shouldn't we consider that there is life when the heart is beating? It seems that common sense would dictate a different view on abortion; but common sense isn't so common. When a woman chooses life, it is life. When a woman chooses death, it is okay? Who are we that we can choose that? And at what point does that theory end. Infanticide? Genocide? It is a dangerous precedent to set. Life is precious. Our nation and its laws should uphold the sanctity of human life from the beginning until the end.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of PA

County of Mercer

My name is R M I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Ft. Myers PA

07/01/1990

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was assured by my doctor that the fetus was not a complete child yet, it would feel no pain, an that I was not killing a baby but terminating a fetus that had not become a baby yet.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one ever talked about that

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boy friend

9. How has abortion affected you?

I have never forgiven myself. No matter how many times I confess this, I never feel absolved or forgiven. I don't know how I can be forgiven. I feel shame & have never told anyone except my mom.

10. How has your abortion affected others in your life?

I never went on to have other children. Never felt worthy or deserving of children

11. Based upon your experience, what would you tell a woman considering abortion?

That it may seem like an easy way out, but in the end there is no happy ending. There is no way out. You will live with the shame the rest of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Pro-abortion belives its the right for a woman to choose what to do with her body. But in the end, she

may do more damage to herself with this choice than if she chose adoption. What valid reason, other than the life of a mother, can anyone justify abortion over adoption. Adoption is a win - win for everyone.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of PA

County of Franklin

My name is Tiffany Wissinger. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Hagerstown MD

//1981

2. How many weeks pregnant were you?

3. What type of abortion was performed?

I don't know. It was actually My mom who had the abortion before I was born.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I am a 24 year old Registered Nurse about to graduate in May 2009 as a family nurse practitioner and will graduate May 2011 as a mental health nurse practitioner. I am submitting this declaration because my whole family has been negatively affected by my Mom's and brother's abortions. My Mom said she wasn't informed about anything about the abortion, they said they just did it, this was nearly 28 years ago. She was only 16 or 17 years old and very scared.

5. Were you adequately informed of the consequences of abortion?

Yes No

My Mom said there was no education at all. She had no idea of the life long consequences of depression, guilt, suicidal thoughts, feelings of hopeless, helpless and worthlessness.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Mother

9. How has abortion affected you?

The next year my Mother was pregnant again and refused to kill this one. She has been emotionally and physically affected and she is now 45 years old and still lives with severe depression. She has had multiple other issues in life, she has struggled with low self esteem, obesity and she is in an unhappy 2nd marriage.

10. How has your abortion affected others in your life?

Abortion affects everyone somehow. We are all connected. Everyone knows someone who has had an abortion. Most people are so ashamed they hide the truth and eventually it eats away at them until they address the issue. The healthcare system is flooded with post-abortive families. There are numerous

women who have aborted a child and are never able to conceive again. They live with that guilt and always wonder what if. A lot of post-abortive Moms develop mental illness and too many commit suicide.

11. Based upon your experience, what would you tell a woman considering abortion?

If a woman or a couple is considering an abortion I would tell them DON'T DO IT!!! Nothing positive comes from abortion, sure life might seem harder with a child but it is worth it. Think about the life long consequences. Think about the guilt, shame, depression and feelings you will have post-abortion. Will you be proud of this decision? Will you brag about this choice? Will you stand up in a crowd and say I had an abortion and I am so very happy I did. Or would you rather stand up in a crowd and cheer for your child at a football game or clap for them when they graduate high school. Do you want to live constantly wondering what if or live in the blessings that a child brings? God doesn't make mistakes, he creates life. Make the right choice chose life you won't regret it. I have never met a woman who had a child and wished she would have aborted them but I have met hundreds of families who regret the decision of abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Based on my own experience I would beg the court that believes abortion should be legal to change their mind. I would ask these individuals to open their eyes and open their hearts. If everyone would be real and admit that they have had an abortion and tell the truth of how it has negatively affected their life they could save millions but instead people live with guilt, shame, depression and are scared to tell anyone what they have done. Pro-lifers aren't just thinking about the child who deserves the chance to life. We are especially thinking about the mothers, fathers, families and friends who have to live with that choice. Children are a blessing no matter when they come. We can never be fully prepared for a child and aborting a child because it may have a disability isn't justifiable either. We wouldn't even treat an animal that had an abnormality that way. People with disabilities are great living examples to healthy individuals. They should make us all count our own blessings. We all can't be so called normal or perfect. We shouldn't be able to abort children just because they aren't so called normal or are conceived at an unwanted time.

The State of PA

County of LANCASTER

My name is CHRISTINE MCCAULEY. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

YORK PA

04/06/1988

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Very little was said. It was a long time ago.

5. Were you adequately informed of the consequences of abortion?

Yes No

Medically speaking, yes, but emotionally, no.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Knowing that I have a void in my life hurts. I know God has forgiven me but I feel as what I did is unforgiveable.

10. How has your abortion affected others in your life?

I don't know if it affected my husband or not because I didn't want to talk about it after it was done.

11. Based upon your experience, what would you tell a woman considering abortion?

Try to tell her that I understand how she is feeling but abortion is not the answer. The baby she is carrying is made in the image of God and precious in his sight. Try to steer her in the right direction so her baby can be born.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I honestly don't know but it does hurt at times emotionally even though it was a long time ago.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of PA

County of USA

My name is Catherine I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Tulsa OK

03//1983

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

There was NO pre-op counseling or information provided. The only post-op info was what signs would indicate that additional medical care was necessary.

5. Were you adequately informed of the consequences of abortion?

Yes No

NO information was offered, about the emotional, psychological & spiritual ramifications of the procedure

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

the father of the baby.

9. How has abortion affected you?

I suppressed the memory for a long period and after being negatively affected by anger, promiscuity, insecurity, depression and the guilt and fear that this was too much to ask God to forgive, I finally gave it over to God. I accepted His forgiveness, and through a recovery Bible study, learned to forgive myself.

10. How has your abortion affected others in your life?

In addition to the above, it has negatively impacted my marriage relationship. It is also my belief that because I am so grateful to God for entrusting me with children, even after I so cavalierly disregarded my 1st child (John Robert), I have a tendency to give them a position in my heart that my husband deserves.

11. Based upon your experience, what would you tell a woman considering abortion?

Your other options and they are all better. Abortion should be a last resort - not your 1st choice. Abortion will not only take the life of your unborn child, but it will also kill a part of yours! The scars that

it will leave on your life will ALWAYS be with you, and a part from the gracious forgiveness offered through Jesus death, you will never be able to rise above this decision.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion hurts everyone except those who profit monetarily - and I can't believe that they sleep well at night. I believe in the right to choose but that choice should be made prior to careless conception. If a woman chooses to expose herself to the physical dangers of STDs and emotional erosion of sex outside of marriage, she should be responsible enough to protect an innocent life from being conceived, if she will only terminate it in abortion. Abortion is the poorest excuse for birth control that I can imagine, and is the most emotionally and financially costly - both short & longterm.

my father

9. How has abortion affected you?

I live with the guilt and shame of it. I went through a 7 year depression. I have had low self esteem all my life. I am in menopause at 43. The last child I had was premature and I believe it was from the abortion. It is a very selfish act and should be illegal.

10. How has your abortion affected others in your life?

?

11. Based upon your experience, what would you tell a woman considering abortion?

Not to do it that there are other options such as adoption and taking responsibility for our actions. Any one who has a abortion will regret it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should be illegal it has serious effects on the woman for her whole life. It is murder and everyone has a right to live. People need to take responsibility for their actions. It is also painful. Living with it is hard.

Pittsburgh PA

//

2. How many weeks pregnant were you?

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 17 years old and honestly don't remember any of the details. I tried to block all that out of my memory, because of all the guilt I have about even doing this. I was embarrassed about it and my mom never knew about it, but my sisters knew and I told my husband when I got married.

5. Were you adequately informed of the consequences of abortion?

Yes No

I say no because I honestly don't remember, even if I was. The only thing I remember is fainting.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

No, I did because I was scared and embarrassed.

9. How has abortion affected you?

It has affected me emotionally. I go through bouts of depression and feel guilty about it still. I feel like this is the worst sin you could ever do and I really regret it.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them not to do it, because it is something you can't take back and you will regret it for the rest of your life. It is not a sin that just involves you, it involves another innocent human being.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that it should not be legal because it is definitely murder. You are killing an innocent human being and not giving them a chance at life.

QUESTIONS

1. Where and when did your abortion occur?

Pottstown PA

2. How many weeks pregnant were you?

3

3. What type of abortion was performed?

I think it was a D & E

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The doctor never explained how far the baby was formed or what the procedure actually was and what would occur. He didn't show me the instruments that he would use and how he would use them either.

5. Were you adequately informed of the consequences of abortion?

Yes No

Only possible spotting for a couple of days..never told about the risks of infection, or risk of breast cancer, or the risk of long term depression.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

In a covert sort of way my husband did!

9. How has abortion affected you?

I have never been the same. Even though I already was a mother of three young daughters at the time...they were 4 and 1/2 years old, 2 years old and 3 months old and then found out I was pregnant. I had them all by C-section and couldn't see myself having another surgery again so soon! I still can't believe that I had the abortion...my husband did not stop me...he just said whatever you decide I will support you in....I have experienced great anger at myself, my husband and my doctor over the years....but especially my husband....I have felt so wretched.....so undeserving of God's forgiveness....I did however seek Post Abortion Grief Counseling several years after the abortion after being present at a pro-life presentation one evening at church.

10. How has your abortion affected others in your life?

My relationship with my husband has really never been the same. I have told my children.....one of my

4 daughters also had an abortion without my knowing it at the age of about 15.....I found the planned parenthood paper in her room one Christmas Eve. I moaned and groaned in agony knowing that she also made the same awful decision I had made..only she was only a young teen!!! I cried for hours and didn't confront her until after the Holidaya....I made her get counseling as well with our local Crisis Pregnancy Center...I couldn't believe it had occurred again within my family. I dealt with the pain and guilt and shame all over again. I couldn't believe that she had the abortion after my telling the girls what I had experienced. I feel so bad that she couldn't come to us. I accepted Christ as my Savior less than one year after my own abortion and got pregnant again very soon after that. My children cried when I told them that they had another sibling, which I believed in my heart was a boy...that they would meet one day in Heaven!!!

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her she has choices not involving abortion....I would tell her of my own pain, shame, grief...that stays with you forever!!!! You never really get over it.....babies are a gift from God...no matter what the situation in which they are conceived! He will never leave you or forsake you....He will help you with everything.....you will suffer the consequences for such a decision for the rest of your days.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell a judge and lawyers that women are never the same after an abortion. The shame and guilt and sorrow that follows all the days of your life are unbelievable. I would tell the courts that the doctors do not fully explain exactly what is going to happen...the procedure step by stepthey don't tell you that it is a living human being. If it were explained in detail I know women would change their minds. I know I would have...I know it! They minimize that it is a living human being.....I agonized over my decision for many years.....I still cry and can feel the pain and shame at any given time.....29 years have passed and the feelings are as fresh as they were 29 years ago. I would ask them if they have children.....and how they would feel if someone slayed them to death with a knife. How do they think they would feel.....only difference is that the unborn child has no voice to scream and cry. Can they deal that picture in their mind?

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of PA

County of Pike

My name is Lisa Williams. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Toledo OH

05/16/1986

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No details about the actual procedure were explained to me beyond feeling "discomfort." The pros and cons were never discussed during my visit to Planned Parenthood, or at the clinic before the abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was never any guidance or conversation about the possible ramifications of the abortion: physical, mental or spiritual. When I made the choice to have an abortion (not that any other were presented to me), no further counseling occurred. Despite my very young age (16), no discussion about the father of this baby occurred, nor did any counsel regarding future choices regarding sexual activity.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I am convinced that during my teen and early adulthood, I used the guilt over killing my unborn baby to self anesthetize with drugs, alcohol, food, promiscuity, and godlessness. This has been a horrible secret that has weighed upon my soul which I have carried through to my adulthood. I have had a difficult time establishing close friendships, as this is an area of my life that I have always kept hidden. I often feel that I am a fraud in my current life as a wife and mother, and have to fight feelings of guilt and inertia. I pray for the baby often that would be a man by now.

10. How has your abortion affected others in your life?

I have had to seek forgiveness from my husband, who has only known me as a Christian, and has had a difficult time understanding how I could have made such an awful decision.

11. Based upon your experience, what would you tell a woman considering abortion?

While the physical pain of an abortion may subside, your conscience will not. God has given us each a clear understanding of right and wrong, and regardless of circumstances, killing innocents is wrong. The world will tell you that you have a "choice" inside of you. I tell you that "choice" will haunt you for a lifetime.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

A society that refuses or even fails to protect the innocent and vulnerable is selfish at best, genocidal at worst. Allowing anyone to kill another because they find them to be inconvenient or imperfect is murder by definition. If those in power will not step up to protect our children, who will?

I believed the baby was a blob of tissue, and it wasn't a living human being. I was alone when my baby came out, and I saw my eight week old child with eyes, hand, feet, head, and body. I can still see him.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend. He didn't want to marry me,

9. How has abortion affected you?

I stayed drunk for twenty years. I had four children out of wedlock.

10. How has your abortion affected others in your life?

My sons watched me enter into an abusive relationship, and they witnessed me drinking myself to death. Thank God I received Jesus Christ as my Lord and Savior. My life drastically changed to the best decision I could have ever made!

11. Based upon your experience, what would you tell a woman considering abortion?

Look deep within herself. She knows the life within her is a living soul and think of the pain of the lost of a child because of a selfish decision. And it is selfish. Be sure to tell someone reliable you can confide in.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Roe vs Wade was made a law because of lies admitted as truth. How can they, as jugdes, continue upholding a lie.

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Mostly myself.

9. How has abortion affected you?

I felt like I had made the wrong decision and it depressed me especially since I didn't feel I could confide in anyone because it was just supposed to be this normal thing that a lot of women do and no big thing to go through and no one else ever talked about it so I thought it was just me over reacting. A few years later when I got pregnant again and had the baby then it really hit me as to what I had done and then I knew for sure that it was not just a blob the first time and I had terrible post-partum depression. I was emotionally distant, turned to alcohol and drugs to numb the emotional pain. Then when I got ofF drugs and alcohol I developed an eating disorder of compulsive overeating which I have been battling for at least the last twenty years and cannot overcome it. I have also been diagnosed with post traumatic stress disorder. At one point in my life I just wanted to die but was too chicken to kill myself. I finally got counseling and am able to better cope but I have to go back to counseling every couple years to deal with it again. It is too expensive to keep going all the time. Deep down I feel I am a terrible person, I am a murderer, of the worst kind because I killed an innocent. I deserve to be locked

up in prison for life because I have blood on my hands.

10. How has your abortion affected others in your life?

It has affected my husband because I am emotionally distant and it has ruined my whole view of sex. It has affected my children because it made me very over-protective when they were growing up but at the same time even though I arranged my work life around them to be able to be there for them growing up, I was really only there physically but I wasn't really there for them emotionally. I feel uneasy around friends who know and I can't look them in the eye or be comfortable around them.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her, don't believe it is only a blob of tissue because it's not. Don't believe it is a minor procedure and you can go back to your old way of life because it doesn't work that way. I would tell her to please reconsider very carefully. Maybe she thinks it is an inconvenience and her life will be forever changed if she has this baby but I am saying that her life will never be the same again regardless and if she doesn't have this baby she will regret it emotionally. She will never be able to forget about it and if she ever has another baby she will at that time realize the full impact of what she didn't do the first time around. She may end up into drugs and alcohol so she can forget about what she did. She may end up with post traumatic stress disorder from the guilt of it. I would tell her that child has the potential to bring her or someone else so much joy. Please reconsider.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Based upon my own experience I would like to tell the court that if I would have left that blob of tissue grow and not interrupted it, it would have grown into a full fledged baby, a separate entity that has a right to all the same rights that I have. And I am just the carrier at that point. Once it becomes a blob of tissue and at any point since the joining of the egg and the sperm, it is a living growing person.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of PA

County of Chester

My name is Janis I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

???????????? NJ

04/28/1927

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

It was sixty years ago.. I only remember the word scraping was used.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

There were just actions---no conversation. It was in the late 1940's. They knew you came for an abortion and you knew. It was just performed. My current name was not my name at the time of the two abortions. I was unmarried at the time

5. Were you adequately informed of the consequences of abortion?

Yes No

In those years, you went to get the abortion, it was performed and you had about an hour then you were sent home. Nothing else. No warnings. You survived and everyone was relieved.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Actually, it was just a convenient decision.

9. How has abortion affected you?

I am now 82 years old and still suffer Post Abortion Stress Syndrome. I still weep and have such a profound guilt that I never saw my two children. I know that I murdered my two children. Even then in the late 1940's, I knew from that moment of conception it was a baby and soon I would murder my baby.

10. How has your abortion affected others in your life?

My mother and family were heart-broken and I deprived every family member from being a grandmother, a father, an aunt, an uncle a sister, a brother, a cousin and I would never be a mother and I would never be a grandmother. It cheated everyone and broke my heart forever.

11. Based upon your experience, what would you tell a woman considering abortion?

NEVER---NEVER---NEVER---NEVER HAVE AN ABORTION. YOU WILL COME TO A DAY WHEN

YOU WILL SUFFER WITH POST ABORTION STRESS SYNDROME EVEN IF YOU DO NOT KNOW WHAT THAT MEANS. YOU WILL HAVE DIFFICULTY TO EVER FORGIVE YOURSELF AND DESIRE YOU TO HOLD THAT BABY IN YOUR ARMS. WHEN I WAS FORTY NINE YEARS OLD I WAS GIVEN THE FAITH AND GRACE TO RECEIVE JESUS CHRIST AS MY LORD AND SAVIOUR, WHO BLESSED ME WITH HIS ETERNAL FORGIVENESS.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

IF YOU, THE COURT BELIEVES ABORTION IS LEGAL, YOU BELIEVE THAT ALL MURDER(S) IS/ARE LEGAL. AN ABORTION MURDERS A LIVING HUMAN BEING AT THE VERY BEGINNING OF LIFE. IT IS MURDER. THE SUPREME COURT WILL ANSWER TO THE HIGHEST JUDGE OF ALL FOR ITS APPROVAL OF ABORTION, GIVING ANYONE WHO WISHES TO ABORT/KILL A BABY IN THEIR WOMB. CONCEPTION IN THE LOVE ACT IS THE BEGINNING OF THE LIFE OF A HUMAN BEING AND IT WILL BEGIN ITS LIFE IN THE WOMB UNTIL IT IS READY TO COME FORTH AND BE BORN INTO THE WORLD AS A BABY. EVERYONE, WITH FEW EXCEPTIONS, KNOW IF YOU HAVE SEX YOU MAY CONCEIVE, GET IT, CONCEIVE A BABY!!!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of PA

County of Dauphin

My name is H r K I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Harrisburg PA

07/21/2003

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

Twilight with Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They never sat down with me and told me that my son or daughter was alive, that there was a heart beating, or that it already had hands, feet, arms, and legs. They never explained to me that they would open my cervix and take out my baby. They told me that it was just cells, that it was just a blob. They are such liars and deceivers. They should be forced to speak the truth. The truth of what fetal development really is and that by the time you go to have an abortion your baby's heartbeat is already there, that the brain is working. That it acutally looks like a little baby.

5. Were you adequately informed of the consequences of abortion?

Yes No

i was told that it would do no damage, I was rushed in and rushed out. The office was cold, there wasn't anyone to talk too. I cried and they looked at you like you were nuts. they are so far removed from the truth.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

i think about it a lot, I think about the child that I could be holding and loving. I think about the fact that I can't seem to get pregnant and wonder if that has something to do with the abortion that I had many years earlier.

10. How has your abortion affected others in your life?

The depression that occurs effects everyone who is in and around your life.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them the truth. I would show them that it is their child. I would show them pictures and facts about fetal development. The fact that it is their child, I would tell them that they may not realize it now, but someday they will look back and realize what they have done. Fear is what drives woman to have abortions. the fear and the shame that society puts upon these woman for having a child out of wedlock or too different fathers, when the truth of the matter is...if we as a society weren't out promoting sex in everything, there would be far less pregnancies. And, what I see and know is that the shame, the fear falls upon the woman, while the man for the most part walks away unaware, undaunted by the entire experience. Or, if these men would actually like to have a say, society tells them that it is a woman's choice. A woman's choice to take the life of a child that clearly took the two of them to conceive.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would strongly suggest to the courts that woman need to know the truth. The truth of what they are doing to themselves and to their unborn child. The deception is soo strong that woman tell themselves that they can live with the fact that they killed their child, but can't live with the fact that they chose a new home for their child. I wish someone said to me many years ago the truth. i wish someone went out on a limb and was bold enough to tell me what I was doing. Not in a judging manner, but in a manner of concern and love. I would not have made the same choice. The truth of any situation will set you free.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of PA

County of Lehigh

My name is T T I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Allentown PA

04//1974

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I knew it was killing my baby, but I had no support and no where to turn. I told my boyfriend but he wasn't supportive, and I did not have any friends or family in the area, and no way of supporting myself or any institutional or government help.

5. Were you adequately informed of the consequences of abortion?

Yes No

My doctor would not perform the abortion so I went to another doctor.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

I pressured myself.

9. How has abortion affected you?

I was diagnosed manic depressive for 25 years. I went in and out of the psychiatric hospital. My oldest daughter and I never bonded. I never connected with people. I had no self esteem. I always felt less than others. I was filled with guilt and shame.

10. How has your abortion affected others in your life?

My husband did not talk to me during this time of hospitalizations. I had no family life with him as he worked day and night, not wanting to be involved with his children or myself. My oldest daughter had shown no respect for me or my husband. There was no family unity.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion is murder. It is killing your own flesh and blood, and it is killing your heart because your children carry your heart in their living, and in their dying. You will have to live with this decision for the

rest of your life. Once it is done, it cannot be undone. But, there is forgiveness in Jesus Christ if you have committed this horrific sin. But the best thing is not to abort your baby in the first place.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We are all human beings, and the only difference is the baby is conceived later than the mother. The mother had a mother too, who did not kill her in the womb. It is murder whether a person is killed inside the womb or outside of it. And once we decide being inside the womb is criteria enough to kill a person, it is a small step to take toward deciding there is criteria for killing someone outside of the womb.

03/17/1979

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They kept saying it was just a blob. Not a human being which I know now is a lie.

5. Were you adequately informed of the consequences of abortion?

Yes No

There has been a constant heartache in my life over this. I now have two beautiful children and I feel I have cheated both myself and my aborted children of this special relationship. Praise God that He has forgiven me and I will see my children in heaven someday.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend at the time who is now my husband.

9. How has abortion affected you?

I didn't marry who I really wanted to because of what I done. I felt that I had to stay with this man because of what we had done.

10. How has your abortion affected others in your life?

We have kept this a secret so my children do not know that there were others.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! It is not worth the heartache and guilt.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Thou Shalt Not Kill. Abortion is killing any way you look at it. Even today, I know that I am a murderer

because of this.

1. Where and when did your abortion occur?

New York NY

02/28/1971

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Don't really know, maybe a D&C type

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

All I knew was I could get an abortion in NY because it was illegal in my home state of PA. No questions were asked and little was explained to me.

5. Were you adequately informed of the consequences of abortion?

Yes No

It was 38 years ago. If anyone did inform me I probably didn't listen. I thought I could get out of this "jam" and put it behind me like it never happened. I was wrong.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My finance at the time, the father of my child.

9. How has abortion affected you?

It's the one sin in my life that still haunts me even though I know God has forgiven me. It is the only event from my past that I don't share in a public Christian testimony. For many, many years I was sad and depressed every September, which is when my child would have been born. Once in awhile in September, I will pause and think about how old my child would have been if I had let him live.

10. How has your abortion affected others in your life?

There were people who knew because I needed them to help me make the arrangements, but I have never discussed it with them.

11. Based upon your experience, what would you tell a woman considering abortion?

PLEASE DON'T DO IT!!!! You can NEVER forget it and you can NEVER undo it!! PLEASE, PLEASE, PLEASE look at the alternatives and think about your decision a L-O-N-G time and talk to as many

professional people as you can to be the best informed you can.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is like a silent disease that can never be cured. It FOREVER affects the lives of the women young or older, who think, like I did, that it's like returning a dress to the store that you changed your mind about. It is a LIFE ALTERING DECISION!! I regret it to this day - 38 years later.

The State of PA

County of Northampton

My name is Louise Gialanella. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Passaic NJ

06/17/1979

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I really do not recall as nearly 3 decades have passed since, but I can remember distinctly how wrong I felt afterward. Never, ever being able to forget the heinousness it. Prior to the procedure, however, I was staunchly in favor of being in control. It changes everything, so much so that I actually needed to harden myself to be able to handle this reality.

5. Were you adequately informed of the consequences of abortion?

Yes No

Consequences?

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

My first child was born five years after the procedure and I didn't even want to hold him initially. I could not figure out why I couldn't bond with him. I took research to find out why I was experiencing this unnatural response.

10. How has your abortion affected others in your life?

I know had I confronted my parents about this, they would have had to intervene in some way and help me take responsibility for my actions and I wouldn't not have been so quick to devalue myself with any and every empty way to fill this void. I even feel some remorse for the person who performed this abortion not that write this as his initial reaction was horror when he realized how far along I was.

11. Based upon your experience, what would you tell a woman considering abortion?

A baby is not disposable. Someone will want your baby. There are so many couples that would probably welcome their baby. If she decided to keep the baby, it would bring the dawn of a whole new

day. Responsibility is sometimes a very effective teacher. It won't be easy but once the years have passed I can promise that you will look back at every smile and milestone and know that the One who created life is smiling on you too.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It absolutely has been a bane to society. I think it has caused an entire generation to think of life as disposable and that make us very different than the nation that we started as. Life, liberty and the pursuit of happiness is severely if not altogether assaulted by thinking this microwave procedure. Freedom should not include certain things like: irresponsible sex and murder...hello there are places like Thailand for that. Pursuit of happiness turns into a hyperdrive search to deaden the reality of your own choice. That is virtually an impossibility without the grace of God and one can't even go there because of the inability to face the reality. The only choice at this point is to harden your heart to even be able to deal.

QUESTIONS

1. Where and when did your abortion occur?

Harrisburg PA

05/20/1978

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

?? They inserted a tube through cervix and suctioned baby out

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

They only asked me if I was sure I wanted to do this. No info on the emotional after-effects of abortion, nor any council that I could give the baby away, or that there was a beating heart inside of me and this was my child!!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have thought of my child many times over the past 30 years. I know when the child would have been born and how old he/she would have been. I have another child 1.5 years younger than this child would have been. I still miss him/her.

10. How has your abortion affected others in your life?

I felt shame, so I told very few people. My husband told his mother and she was, let's say, not very kind in her remarks. I never meant for her to know. I only told my sister, who also had an abortion. I didn't tell my mother until nearly 30 years later, not told my other siblings as of this date. Only told my other children recently.

11. Based upon your experience, what would you tell a woman considering abortion?

RECONSIDER!! There are so many other options out there. I would tell her to carry the child full term if she could in any way do that. There is less shame/guilt of carrying an unwanted child than regretting or feeling the shame/quilt later of KILLING your unborn child. It is murder!! Simply murder of the innocent,

a very serious sin in God's eyes. I wish I had a do-over on that one, I would have had the child and raised him/her...

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court I believe that abortion is MURDER OF THE INNOCENT. What is the difference of a doctor killing your child at 6, 8, 10, 12 weeks and throwing it in the trash, than a young girl having a child and throwing it in the trash? I will tell you, the first is legal and that doctor gets to murder lots of babies. The second, the girl would go to jail for the rest of her life for murder. And don't tell me it's not living or some other legal jargon about not viable outside the womb. Of course it isn't, babies must be incubated then nursed for months after birth. Both are helpless humans.

9. How has abortion affected you?

I have lived my life with an incediable amount of guilt. I wonder what my child would have been and I wish that I had given my child to right to life!

10. How has your abortion affected others in your life?

It was kept very quiet so just myself, my parents and my boyfriend knew.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that it is definitely NOT a wise decision and that she should really reconsider and now since ultrasounds are available, I think that every women who is considering an abortion should view an ultrasound of the child that she is carrying. There are alot of options our there for women if they carrying the baby full term.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I do not feel that abortion should be an option yet alone be legal! Abortion destroys lives, not on the life of the baby that is killed, but the lives of those that the abortion touches are NEVER the same and become totally full of guilt and pain for the rest of their lives. Abortion should NOT be legal; it takes a human life and kills a baby.

HOW MY ABORTION AFFECTED ME

The State of PA

County of Lancaster

My name is Robin I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

NY

//

2. How many weeks pregnant were you?

3. What type of abortion was performed?

took a pill

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It is hard to say for certain that I was informed of anything much less adequately. I was under the misconception that this was my life only that was being affected. And that after the abortion I would just go on with my life like nothing happened.

5. Were you adequately informed of the consequences of abortion?

Yes No

Looking back I can see that the affect of my state of being was beginning to change but I had no choice but to hide everything inside. I had no one to confide in or with. Today, I am still dealing with the consequences emotionally.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

myself-it was very important to me to look perfect

9. How has abortion affected you?

Emotionaly - although I know that I am forgiven I struggle with how it has changed my life.

10. How has your abortion affected others in your life?

My decision changed the life of my fiance at the time, the one he married and their three children. And also the life of the one I married and our two children.

11. Based upon your experience, what would you tell a woman considering abortion?

Choice life! Love life! There is a God in heaven that loves not only you but also the one conscieved. I would want to sit down with them and share my story. I would want to tell them of all hurt one lie can cause. I would want to tell them of the forgiveness found it Christ. I would want to love them.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I love living in the United States of American where we are free to choose between right and wrong. Being able to choose should not give us the right to set up laws that hurt others. There is nothing good that comes from legalizing abortion.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of PA

County of Westmoreland

My name is Denise Tierney. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Pittsburgh PA

07//1972

2. How many weeks pregnant were you?

17

3. What type of abortion was performed?

saline injection

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was a young girl (16) experiencing bleeding and the doctor said I had an ulcerated cervix and most likely would lose the baby. With family encouragement, I endured the saline injection and labored for a very long time. I delivered the baby in my bed and couldn't believe how tiny the baby was. He looked like a little baby doll. I was not aware that when the saline was injected into the uterus that the baby went into convulsions. I found that out several months later and went into a high depression. I didn't value my body for years after the abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was just told that I would most likely not carry the baby to term and this was the best thing to do. At the time, abortions of this type were not legal in Pennsylvania, and I had to meet with a team of doctors for the abortion to be approved. I have no idea how they came to the conclusion that it would be better for me to have the abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my parents

9. How has abortion affected you?

For years I had a terrible time with it. My life went into a self destruction period. Although I did end up marrying the father a year later and having a son, I only wanted to marry him to make the wrong right. We divorced a couple years later. My life did a downward spiral after that and I ended up pregnant again and having another abortion. It wasn't until Jesus came into my life in my 30's that I turned my life around and came to know He had forgiven me. I look forward to seeing them both when I get to heaven.

10. How has your abortion affected others in your life?

No one ever talked about the first one and no one knew about the second one except the father.

11. Based upon your experience, what would you tell a woman considering abortion?

To PLEASE never do it.....

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is murder and there is no other way to explain it.

QUESTIONS

1. Where and when did your abortion occur?

Tbilisi

//1987

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

surgical

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was living in Tbilisi (Republic of Georgia -Former Soviet Union), it was a common practice there and nobody explained the procedure or the consequences of it.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nobody told me anything about consequences, I did not even think of consequences at that time.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Somehow I put that episode of my life in the back of my mind not wanting to remember not even giving ever a thought about it for almost 17 years, until 5 years ago when it suddenly came into my memory so clearly that it knock me out with depression and sadness and regret. Finally I realized the magnitude of my action.

10. How has your abortion affected others in your life?

The depression almost destroyed my marriage.

11. Based upon your experience, what would you tell a woman considering abortion?

To realize that it is a murder, it is you killing your own child, I see now that there is no difference between killing an unborn child or a pretty well grown person. Consider adoption before abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder. It cannot be my right to kill my own child.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of PA

County of Philadelphia

My name is Kathy Raudabaugh. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Philadelphia PA

//1976

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 16 and I thought I was going to the drs for a check up. When they gave me a date for the abortion I asked what that was. I didn't want to do that, but my mother said I had to or I couldn't come back home. So I did what I was told to do.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was in shock and don't remember anything they told me. I only knew that I was pregnant and wanted to have the baby but I was not allowed.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

I was young and nobody gave me any other options.

9. How has abortion affected you?

I had to clear this box of its contents because the form would not allow it for too many words. I can't write it simply. It has greatly affected every fiber of my being!

10. How has your abortion affected others in your life?

It has taken the life of 2 of my children because my body was not capable of carrying full term. It has caused grief to my living children (3 sons) to know that they should have 2 sisters but don't.

11. Based upon your experience, what would you tell a woman considering abortion?

There are other options available. There are consequences that you might regret. When you are ready to give birth to a child, you understand that life begins at the moment of conception and that it is a very precious thing and it should not be taken away because ANYONE decides it should be.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say that life begins at the moment of conception and to take away life is murder. I know that murder is a strong word, but the consequences of abortion bear proof of the seriousness of the crime. I would say that my life would be far different had it not been for Roe v. Wade.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of PA

County of Allegheny

My name is Melanie Fleming. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Silver Spring MD

03/19/1992

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Vaccuum D/C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never told of the chances that I may become unable to have my own children later, nor was I told the depths of despair and hatred I might feel for myself afterward. I was not warned how my abortion would affect me physically, socially, or emotionally.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents

9. How has abortion affected you?

Not only do I suffer from secondary infertility, I have had surgery for endometriosis. I also have difficulty trusting others. I suffer from depression and self-loathing. I am fearful of losing the children I do have (one biologically related and two from adoption after infertility). Even nearly 18 years after, I still suffer from intense memories of the day I allowed my child to be ripped from my womb.

10. How has your abortion affected others in your life?

Since I do not feel deeply bonded to my children and husband, I'm sure they suffer feeling distanced from me. I am unable to bear children with my husband, so he suffers the loss of additional children.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell any one considering an abortion that their life will never be the same. Even if they never regret the decision of their abortion, they will undoubtedly feel loss and grief from the destruction of their child as well as a true sense of guilt. Even if this doesn't happen immediately, as it did for me, I do not

know of anyone who has not suffered deep guilt and pain for this decision. Nor do I know anyone who has not wondered what their child would now be like.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Even though people disagree on whether life begins at conception or some time after, no one can dispute the fact that the mother of the aborted fetus is alive. Abortion kills her too, sometimes slowly, sometimes quickly, but always painfully. For me, it's a life sentence without parole regardless of what the law says. It's something I'm never without. It is my "Scarlet letter". That the courts allow women to hurt themselves like this is obscene, because in all honesty, regardless of legality, it is my prison.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of PA

County of Bucks

My name is Shay I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Philadelphia PA

03/04/1995

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I honestly have no idea half of what they told me that day, it's all a blur. They asked me if I wanted birth control, they asked me if I was sure I wanted to do it. I don't remember what all they told me.

5. Were you adequately informed of the consequences of abortion?

Yes No

They sure didn't tell me that it could damage my fallopian tubes, which it did. This caused me to later have an ectopic pregnancy that nearly killed me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I was absolutely devastated afterwards. I spiraled into a depression that neither alcohol nor food could console. I suffered for many many years with post abortion syndrome, wanting to have another baby that I could keep.

10. How has your abortion affected others in your life?

My husband, who was the father, has suffered because of the loss of our babies. (I was pregnant with twins.)

11. Based upon your experience, what would you tell a woman considering abortion?

It may seem scary, it may seem like there is no other way, but there is. Don't be afraid to tell your parents, they may get angry but they can still help you. If you can't keep the baby, you can live with yourself knowing that you gave the baby up for adoption. Living with knowing that you killed your child is a pain you can't imagine.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Every day we obey laws that restrict our 'freedoms', in order that we would be protected. We have to wear seatbelts, bike helmets, and not smoke in restaurants. Even trans fats are banned in many places now. Abortion is devastating to the mother and fatal to the baby, and yet it's legal to have this 'freedom'? Laws can be made to protect people from themselves, and this is no exception.

10. How has your abortion affected others in your life?

Now that I know the truth it has set me free. But before knowing lots of medical problems always sick, looking for why I was so empty inside, suffered mental anguish.

11. Based upon your experience, what would you tell a woman considering abortion?

The truth,it will only bring you suffering Physical, mental and emotional. No matter what the circumstance!!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We can't keep it legal no civilization has survived who has killed it's children. Back when I had my abortion it was the only thing I did that was legal. That is why I did it because it was LEGAL. It was the

worst thing I ever did, and regret it every day.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of PA

County of Lancaster

My name is S N I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Harrisburg PA

07/16/1976

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

not sure, I blocked that out

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I received no counseling at the clinic. I was asked whether I wanted to have an abortion and I could not answer because I was crying so hard. The woman (counselor) said, "Poor baby." and then led me back to the procedure room.

5. Were you adequately informed of the consequences of abortion?

Yes No

No, I did not know that I would become depressed or that I would have a connection to my baby.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Mostly guilt and shame and promiscuity, not caring what happened to me. I eventually cried out to God for help and within a few years I began with his help to get my life back together. I rededicated my life to him. Finally after twenty-five years of silence, I spoke up and then I was led to volunteer at the local crisis pregnancy center and from there went to an abortion recovery Bible study, which helped me forgive myself and find freedom. It is an ongoing journey.

10. How has your abortion affected others in your life?

It hurt the father of the child, who I was dating at the time. I did not tell him about it until afterward. He was very hurt by it. My mother knew but never spoke of it the rest of her life. She was ashamed. I could not bring myself to tell my sister until after I went through the abortion recovery classes, and even then it took a year to have the courage.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to talk to someone who is a real counselor, one who is trained to ask questions to help her decide the path she wants to go. If I had had a counselor, I might have decided to place for adoption instead. I would tell her that often what she thinks will be true may not necessarily be true. For example, she thinks she may have to go it alone, but there are people, churches, friends and family who care about her and would help.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that abortion should not be legal, that women would greatly benefit from counseling in a crisis pregnancy and that an abortion has many consequences including depression, lack of trust, anger, bitterness, alcoholism, involvement with drugs and risky behaviors, heartbreak, and that you miss the child you would have had. In your heart of hearts, if you had not aborted the child, it would have developed to full term and been born as a baby. It was not a lump of tissue, he or she felt pain. I would tell them that it changed my life and I deeply regret having the abortion. It was my only pregnancy, so I now regret that I did not get to experience motherhood or even being a grandmother, as my child would be 33 this year. Every woman who has an abortion does the math and figures out a potential birthday, and often that can be a hard time of the year.

boyfriend

9. How has abortion affected you?

I had the abortion in 1980 when I was 20...I went on to have children beginning in 1991, and in my first pregnancy carried to term, I stressed out that I would lose my son...I was unable to bond with him until after he was born, I feared God would take him from me before birth as a punishment for the abortion, which is strange considering I was not a religious person at the time, but a secular Jew.

10. How has your abortion affected others in your life?

Not sure.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that if she decides to let her baby live she may have some regrets, but at least she will know she did not cause the death of her own child

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion legalization did not really make abortion safe; all it did was move illegal abortionists into legality. There are many cases today where butchers with MDs after their names do abortions, and women die. I am old enough to remember the days before abortion was legal, and in some parts of the country, things are not much different. We had a situation in Philadelphia where a butcher was doing abortions and killing women...same thing happened in Maryland.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of PA

County of Allegheny

My name is Barbara I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Phildelphia PA

04/15/1974

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had 2. The D&C procedure was not explained adequately. Suction was explained.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had severe scarring from the abortion. Both physically and emotionally.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

boyfriend and also fear of my parents reaction.

9. How has abortion affected you?

I was severely depressed, wanted to die myself, and ashamed and guilty for murdering my babies. And I remember the day I did give birth to my beautiful daughter, and held her in my arms, so thankful for this beautiful child that I was blessed to have, and at the same time so full of regret when all that I had stuffed down finally hit home as I looked at her, that I had killed her brother and sister, and they did not have the chance at life. This isn't a piece of tissue, this is a life, a wonderful child, a gift. And I took those gifts and literally slaughtered what was in my own womb, the little lives that could have been such blessings to the world.

10. How has your abortion affected others in your life?

It actually has left my daughter with feelings of abandonment and rejection.

11. Based upon your experience, what would you tell a woman considering abortion?

I would encourage her not to do it. IF there would be one decision that I could possibly go back in time and change in my entire life, it would be not to have had those abortions. What tragic consequences it

has reaped. The abortion industry has fed us such lies...it's convenient, it's your choice..to do what you want, the "problem" will go away, disappear. It, however, does not go away...this is a decision that will never leave you. Although there is forgiveness through Christ, you cannot change what you have done. There are many options for help out there, and people that would love to have a child in their lives, if you are not ready or capable of taking care of the baby. There is also help for you if you choose to keep the baby. I would inform her of the organizations that are in place, like the local Women's Choice Network that could help come along side of her for emotional and practical support.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Please, Please reverse the decision to continue to legalize abortion. I so regret what I did. If the legislation had not been in place at the time, I would not have taken that course of action. I am 56 years old and regret with all my heart the decision to have 2 abortions. I stuffed what I had done for years and couldn't even speak of it, it was so painful. Look.. we all know by this time the abortion industry is an enormous money maker. All you have to do it to start to research the roots of Planned Parenthood. There's so much information out there about the foundation, funding and agenda of the organization. Please, I beg you, put a stop to this, you have the ability to stop this slaughter. How many more women are going to have their lives and the lives of their children destroyed. This is just not something that goes away after it is "taken care of", we have left a legacy of blood and destruction in the name of so called choice. Why is the abortion industry so afraid of being required to have a woman have a sonogram? Could it be a beating heart?

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of PA

County of Columbia

My name is Cheryl I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Williamsport PA

05/16/1975

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

seaweed then curatage??

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I went to a doctors office in Williamsport--he said that the abortion would not hurt--he put this seaweed in to cause contractions & it really did hurt--many long & painful contractions.

5. Were you adequately informed of the consequences of abortion?

Yes No

Not one time did the doctor give me any problems that could occur post abortion & not one time was there any explanation of the sadness that would occur post abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It took me about 29 years to finally turn to God--before that I was committing suicide slowly by smoking and drinking alcohol.

10. How has your abortion affected others in your life?

I think I had two personalities--one with my family, friends, and church people & the one by myself.

11. Based upon your experience, what would you tell a woman considering abortion?

Please think it through--there are other options--please talk with me and let me tell you all I have been through post abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I was a bubbly outgoing individual until my abortion--then I became this person that didn't like crowds,

felt inferior to everyone, & lacked self-esteem.

HOW MY ABORTION AFFECTED ME

The State of PA

County of Allegheny

My name is Karen I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Pittsburgh PA

02/03/1982

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

suction aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

As I am now working through severe depression and ptsd from my abortion, I can remember what it was like. These are my reflections...when a patient goes for a medical procedure today,in 2008, they are well informed. Pre-surgery DVD's are often viewed so the patient knows just what to expect. Even my dentist gives me a "play by play" of what he is about to do for every procedure. Not so for my abortion. There were pictures of "fetuses" on the wall in one room, but sir, they did not look like babies. We all know with ultra sound and modern equipment what a fetus looks like. We know it is a baby. The "Bodies" exhibit here in Pittsburgh shows the developmental stages of a baby in week by week increments. Think about that, we can go to an exhibit and view the life...No, I was not informed.

5. Were you adequately informed of the consequences of abortion?

Yes No

In 1982, I signed papers in case of infection or death following my abortion, but no one told me of the other physical, psychological, emotional, and marital problems I would be living with for the rest of my life with.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend, now husband.

9. How has abortion affected you?

I stuffed my pain for 25 years. I worked very hard as a teacher until I could no longer concentrate to do my job, I had to quit and finally seek professional help for my depression, panic attacks, and marital problems. I am on anti anxiety meds as well as anti-depressants. My husband and I have major dysfunctions in our marriage which we are trying to get help for. And let me tell you... Help is difficult to

find. There is very little understanding in the professional realm regarding the post abortive population. It is a lonely walk.

10. How has your abortion affected others in your life?

No one knows about my abortion. So I will say that this secret keeps me from having close relationships with anyone.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to not make a decision that will eventually affect every area of her life. It may seem right at the time, but time doesn't heal and eventually you must come to terms with the life that was ended. Having endured an abortion and the trauma it has caused, I can honestly say it is equivalent to living a life sentence of hell or prison on earth. I would do everything in my power to help her make an informed choice for life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them to please listen to my story. Talk to me. Read my case history. A decision that destroys a life such as it destroyed my unborn child and my own should not be legal- EVER.

HOW MY ABORTION AFFECTED ME

The State of PA

County of Schuylkill

My name is Janice . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Chicago IL

//1981

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

From what I can remember, I was told they would dilate my cervix and remove the TISSUE that was inside me. Not much other information was given.

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't remember being told the risks of the procedure. No one told me about the pain and anguish I would feel during and after the abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother made the information very available

9. How has abortion affected you?

God has forgiven me.

10. How has your abortion affected others in your life?

Not many know about it. I don't think my mother has forgiven herself for encouraging me to have an abortion. She was the one who told me about abortion. She was trying to help cover the shame and guilt of my promiscuity. I never would have sought it out on my own. The strange thing is, I had been pregnant at sixteen and didn't want to have an abortion. I got married and had two children. Now at 21 I couldn't see any other way out. My mother and my husband who I am married to now are the only people who know about this.

11. Based upon your experience, what would you tell a woman considering abortion?

No mistake you have made is going to be made better by abortion. Taking away the life living inside

you will lead to more hurt and pain. If the Lord Jesus Christ can forgive me for killing my baby and cleans me from my filthy sin He will surely forgive you yours. Given with much compassion and a very large hug. Then I would ask her if I could pray with her.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder! If I would have had the information I know now and had seen my baby on a ultrasound and had known that this was a living, growing child with a beating heart and not just a blob of tissue. If I could have known the pain, the filthy shame and guilt that I was going to feel afterwards. If someone would have been there to show me an alternative to abortion I don't think would have gone through with it. It never goes away.

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I thought it was tissue....I did not know the surgery was going to kill my child, I thought it was going to remove tissue, my "potential" child.

5. Were you adequately informed of the consequences of abortion?

Yes No

I did not know there were physical and psychological risks involved. I suffered psychologically for years.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Drinking, drug use. I wanted to be high all the time to escape the emotional pain I was feeling. This did not end until I experienced the forgiveness and grace of Christ.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

It is murder, you absolutely must not do it. There are many harmful aspects to abortion. There are plenty of people and facilities to help you with a decision to allow your baby to live.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Murder should never be legal.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of RI

County of Providence

My name is Wilma Sanchez. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Boston MA

07/17/1982

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

don't know - I have had three abortions

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Was told it was a blob of tissue and it would be sucked out with some sort of vacuum. It was a long time ago and I don't remember everything that was said. For the subsequent abortions, I was not given any information because I had already gone through it before. I didn't have to have a good reason for the abortion other than I didn't want the kid. It was used as a form of birth control. And the government paid for two of them.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told it would haunt me for the rest of my life. I was not told that I would feel an emptiness in my being and a longing for that child. I was not told that I would think about it almost every day for the rest of my life. I was not told that I would wonder whether it was a boy or girl or what it would look like. I have a total of five children, but none of them take the place of the three I lost.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother and my ex-husband

9. How has abortion affected you?

I have a hurt in my heart, a constant ache for those children. I think about them and hope they forgive me.

10. How has your abortion affected others in your life?

I don't know about my mother or ex-husband, but my live children have asked me about it, wondering why. It could have been them. I almost had abortions for two of them and am so glad I changed my mind before going through with it.

11. Based upon your experience, what would you tell a woman considering abortion?

Having the baby is not as bad as it may seem at the moment they are considering the abortion. Life has a way of accomodating change. Raising a kid is a very doable thing, especially now there are programs out there to help you if you start to feel overwhelmed. The feeling you have when you see and hold your baby for the first time is the most love-filled experience you will ever feel. If you really feel you can't raise a child, then give it to someone who will raise the child as their own. The hurt and pain you will feel for the rest of your life if you have an abortion is not worth it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should not be legal. There will be women/girls who will have one illegally if it is not legal, just like there are people out there doing other illegal things anyway. But most women/girls, if not given the option, will not have an abortion. That's my experience. There was an eposide on the T.V. show "Intervention" where the girl (Jessica) was sixteen years old and six months pregnant. She had a two day partial birth abortion and it so devastated her life that she started using herion and she would rather be a herion addict because it numbs the pain of the emptiness caused by the abortion. Abortion is a profit making business and the abortionists don't care what damage they cause. If abortion was made illegal, women/girls would not think it is normal to have one. The truth about the abortion, the damage it potentially could cause to your body, the emotional, mental and spiritual damage it will cause you should be made known to the woman/girl before the abortion is performed. The truth about the fetus, what it looks like and what it is doing in the womb at the time the abortion is considered should be made known to the woman/girl having the abortion. Also the father of the baby should be notified of all the above.

QUESTIONS

1. Where and when did your abortion occur?

Roanoke VA

05/14/1980

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

The physical consequences were explained, but not so much the emotional and spiritual.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Now that I am a christian and see it as it is: murder, I have experienced guilt that I sometimes have a hard time getting rid of even after confessing again. Also, now that I have children, I long to know the one I aborted. It is emotionally hard.

10. How has your abortion affected others in your life?

The only other one that knew was the father with whom I didn't have contact with after the abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it!! Have the baby and if you don't have the means to care for it, give it up for adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder and the consequences of it totally outweigh the "convenience" of it. It is sin and we will be judged severely for it. These are living human beings no matter how you look at it. Just because you can't see and hold them yet. We would see it differently if they were a couple days old...

QUESTIONS

1. Where and when did your abortion occur?

Providence RI

01/28/1986

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

I don't know. I was only a child myself.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I wish I would have been allowed to see the sonogram pictures so that I could see with my own eyes what I was destroying. It would have put an irremovable imprint on my heart and mind that I was killing a child-my child and I would have changed my mind. I know it now, since I am a mother.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea how it would affect me physically. Now I hear about how so many women have suffered from depression and regret for the rest of their lives. I know that now from experience. Also, there are increased risks of breast cancer that we are aware of now.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have lived with the regret of my decision since. I suffer from depression that could be linked to that choice.

10. How has your abortion affected others in your life?

They have to live with the effects of my depression.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. A baby is such a blessing. If you cannot raise the child yourself, please consider adopting out that child so that he or she can have the life our Creator gave to them and to bless a childless couple.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We become fiercely angry when confronted by the crimes that killed thousands of people on 9/11,yet millions of babies have been murdered legally in this country.I was a child in a society with loose morals,watching the adults around me,the ones I was told to obey & respect,live carelessly,making sexual promiscuity a normal expected behavior.But I do know that I am ultimately to blame for this choice.The pregnancy,I was told,would ruin my life,since I was a senior in high school.I regret this action deeply & hope that I do a better job than my parents in teaching my children the value of life & of sexual purity.I ended up marrying that boyfriend of mine.We just celebrated our 20th anniversary.We have four beautiful,amazing & loving children.They have no idea.It is difficult to think of this at times.The only comfort I have lies in my spiritual beliefs.I have been forgiven by my God.I will see that child when I die & I have a feeling that child has forgiven me,though I hardly deserve it.When I do see that child again I will be at peace with what I have done.25 years have transpired since then,yet the sting of that choice has the same effect today as it did the moment I awoke from sedation.Some people can tell you exactly where they were when they found out about 9/11.I can tell you exactly where I was the day the space shuttle Challenger blew up.I was waiting in a room at a hospital in Providence RI for my appointment to kill my own child.That makes me weep even today.

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

This was 1 of 3 abortions. I was young, frightened, uninformed and misguided. The effects of these abortions have played an important part of my emotional and physical well being. The pain, shame, and guilt are unbearable. I will be Silen No More. America needs to see the real truth about abortion and the innocent lives it takes. Thanks be to God I am recently attending a post-abortion recovery program that is bible-based. I look forward to begin my healing process and to help others in the future make the right choice!

5. Were you adequately informed of the consequences of abortion?

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

mother and family

9. How has abortion affected you?

Yes, as stated above.

10. How has your abortion affected others in your life?

Through my anxiety, depression, and guilt in my life.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. There are other choices...adoption. Look at the pictures of abortion and how it is performed and the gruesome images of it's procedure...it will change your mind....it would have changed mine the first time.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It's not their decision. God created life and he is the only one that can take it away. It's his plan, not ours!

QUESTIONS

1. Where and when did your abortion occur?

Providence RI

//

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

in an old apartment by 2 unknown women.....very scarey.....

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It was something that I only did due to the fact that the man was found to be a homosexual. That in itself scared me greatly as I already had a daughter and a son. I feared for them as well as myself.

10. How has your abortion affected others in your life?

They don't know.

11. Based upon your experience, what would you tell a woman considering abortion?

Please RE-CONSIDER. I have a 45 year old daughter who also had an abortion during her college years. As a single mom with NO help from their father, money was very hard to come by even then. I told her she'd have to quit school, get a job and take care of her child. She chose the abortion. I feel that I've missed out on an important part of my life. I wish we could do it all over again and make the right choices. Lord, please forgive us both.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

NO, it shouldn't !!!!! Only the person experiencing the abortion can explain the emptiness inside. My daughter gets upset with me when I bring it up. She obviously hasn't dealt with it yet. It scars you for life.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of RI

County of Providence

My name is Kristin Caproni. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Brookline MA

04//1989

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

Two day procedure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was never told of the development of my child, that the heart was beating, that there were fingers and toes, and body parts formed, and I wasn't told that my living child would be chopped up, and suctioned out of my body.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never asked to consider that I was the mother of a child and that an abortion being ending the life of my own flesh and blood could cause psychological problems. I was not informed of any medical risks such as the risk of breast cancer, fertility, cervical cancer, etc.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It caused me emotional problems in my young adult life and made me have to heal from wounds related to my sense of sexuality.

10. How has your abortion affected others in your life?

I don't think it really has, I usually try not to let my problems affect othre people

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that she is a mother right now, with a life living inside her, that I was where she is and would have made a different decision if I could do it again, that 5 years from now this won't seem like such a crisis, the physical emotional and psychological risks.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That abortion has nothing to do with empowering women and nothing to do with empowering the choices and rights of women, that the presence of abortion is an act of despair that makes a woman feel she has no choice other than to kill her baby in her womb. Just as when a person who feels there is no way out from the problems in their lives we wouldn't help them jump off a bridge or pass a law to help a person jump off a bridge, based on rights and choices, passing a law that allows a person who feels alone and lost because of a pregnancy and offering by law the solution of killing her baby has created a society that has lost it's moral compass. Just as the suicidal should be helped to feel their life can be made better with life giving choices, a pregnant woman can be helped to deal with a pregnancy by being offered love, support and resources. The money that goes to abortion could help solve the crisis of unplanned pregnancy, if abortion was not in one's mind as a solution, adoption or figuring out how to have the child would be, and also there would be many less abortions because people would think a little harder before engaging in sexual intercourse.

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The procedure itself was not explained. The pain during, and after was not explained. The emptiness you experience afterward was not told.

5. Were you adequately informed of the consequences of abortion?

Yes No

the anniversary of the killing of your child that kept coming back. The anger you feel towards others because you feel someone should have known something.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

No Answer

9. How has abortion affected you?

for years I carried sadness, not knowing why. I would often cry, longing for this baby that I no longer had.

10. How has your abortion affected others in your life?

My husband, it made me distant towards him for a long while.

11. Based upon your experience, what would you tell a woman considering abortion?

It's a devil's lie, it's not a quick fix to your problems. And it is most certainly a sin against God.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Would they want their daughter to go through what I did? Would they want their wife to go behind their

back and have a abortion without his permission?

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of SC

County of Greenville

My name is Carolyn Rice. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Washington DC

04/25/1983

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I remember only being explained about anesthesia. I was not given any information about what actually happens during abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told that some women feel sad a day or two and no other consequences. When I was more than sad -- depressed, suicidal, begin drinking heavily, and more -- I thought I was something very unnatural. I was afraid to tell anyone, fearing that I would be put in a mental institution or something since I was experiencing such an "abnormal" reaction.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

No Answer

9. How has abortion affected you?

I became very depressed, began to work much overtime, and when I wasn't working, I drank heavily, so I wouldn't have to think. Then I had a very poor relationship with my husband and didn't have deep relationships with anyone. I didn't want anyone to know me because I hated myself and assumed others would hate me too. I thought often about my baby, but tried to stuff any feelings down or drown them in drink. I became isolated from others while walking around with a fake smile when in public. I spent many years in a downward spiral until 12 years later I found help through a Bible study. I have been freed from guilt, but I still see the empty space in family pictures where my baby should be, the empty place at holiday meals when my child should be there with all her cousins, and the emptiness of never holding my own baby. I could not get pregnant after abortion even though I desperately wanted a

child.

10. How has your abortion affected others in your life?

It caused my husband much pain as well, mistrust, anger. He became physically abusive to me and then we divorced. My parents are missing a granddaughter, my precious nieces and nephews are missing a cousin. I was estranged from my family for some time because I felt so much self hatred.

11. Based upon your experience, what would you tell a woman considering abortion?

To please reconsider. It may seem like the only choice or solution now, but there are people willing to help you keep your baby. If you think you can just have the abortion, and then try to forget it, you are lying to yourself, or maybe just deceived because so few women have stood up to tell the truth that abortion is a deeply scarring and damaging experience. You may suppress your feelings for years, but there will come a time when you will profoundly regret the decision to abort and deeply grieve the loss of your child. Please call for help! Your child is in a safe place in your womb. He or she is precious and depends on you for life and for protection. You, too, are precious and loved by God. Choose life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Justice Blackmon wrote in his majority opinion (Roe vs. Wade) that abortion is a necessary step toward the full emancipation of women. I want to say that there is nothing freeing about abortion. Abortion is a form of bondage. Though I was not forced or coerced, I was not given any information about the nature of abortion, the risks or potential consequences (except as stated above). The vast majority of women I have talked with about abortion WERE coerced or pressured in some way. Abortion hurts women. That hurt goes deep and lasts a long time. It is something very very difficult to ever recover from. Abortion is NOT emancipating!

My name is Linda Wentz. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

NY NY

//1970

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

sucksion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't remember

5. Were you adequately informed of the consequences of abortion?

Yes No

Nobody explained the quilt or sence of loss that I would feel years later.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

No Answer

9. How has abortion affected you?

I HAD THREE ABORTIONS AND I AM NOW 57 I do not have any children of my own. I do have three step children. But I was very affected by the abortions and it took years for me to get healed from the trama. Thank God for Rachel's Vinyard!

10. How has your abortion affected others in your life?

Three lives have been removed from this earth through selffish desires,mine! My parents never got to hold their Grandchild my brothers never got to known their neice and nephews, their fathers never got to have their children.

11. Based upon your experience, what would you tell a woman considering abortion?

Consider adoption rather than abortion. You have no idea the impact your child will have on the world. and you have no idea the loss you will experience in your life. Be brave and choose life you will not regret it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder and it is absolutely crazy to think other wise. It is not an option.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of SC

County of Anderson

My name is Cheryl Robinson. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Fresno CA

03/01/1975

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

suction and curettage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The only explanation I was given was that I was 7 weeks (1st abortion) and 9 weeks (second abortion on or about Sept. 1977) pregnant and my babies were only 'blobs of tissue'. The only consequences I was informed about was that if I had more than 2 or 3 abortions my chances of getting pregnant and/or carrying a baby to full term was less than 100%.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea how the emotional and psychological consequences of my 2 abortions would affect the rest of my life. The overwhelming sense of guilt and shame in respect to my choosing to murder 2 of my children have been, at times, unbearable. Also, I did not know, nor was I told of the possible physical consequences that could result.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

boyfriend at the time, and then husband

9. How has abortion affected you?

I've spent the last 30+ years feeling ashamed and guilty for ending the lives of 2 precious children. After my 2 living children were born I began to feel that I had really missed out on these lives that God had created and had planned for this earth.

10. How has your abortion affected others in your life?

When my 2 living children were teenagers a family friend informed them of my abortions and. The degree of anger and pain that my living children felt at that time added another degree of pain that I

can't begin to describe! The were incredibly angry with me.

11. Based upon your experience, what would you tell a woman considering abortion?

I know the feelings of fear and anxiety over an unwanted pregnancy. God has created the life within your body for a purpose and He would not approve of you thinking you have a 'right' to end this life. Seek help and accept help wherever it is offered and give this precious child a chance to live and to become an invaluable asset to your life. You will be so blessed. If you choose abortion, your life and your conscience will be full of regret until you die.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Stop the LIE! Stop allowing these lives to be taken by the lies that abortion is the answer to an unwanted pregnancy. The women that make this choice are doomed to years of pain and regret. These lives are not just 'blobs of tissue'. Science has proven they are REAL human beings with a heartbeat and feelings.

QUESTIONS

1. Where and when did your abortion occur?

Middletown CT

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Not sure but most likely D&C or D&E

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

At the time I was only 15 years old and had no idea what I was getting involved in.

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't remember being told of any consequences. They may have been discussed with my mother at the time.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

In the long run it cost me my marriage. I married the man and we did have a long marriage but our sex life was never the same and we had some communication issues that directly related to my feelings about having the abortion.

10. How has your abortion affected others in your life?

I know at the time my parents were devastated but supported me in this.

11. Based upon your experience, what would you tell a woman considering abortion?

That, while it may seem the best thing to do at the time, you will have life long consequences and you

will never be the same again.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is hard to believe that in the relatively few years since this procedure was approved there have been millions of babies killed this way. There does not appear to be any reason why this should be legal. If women do not want to become pregnant that are numerous ways to avoid it. So much of society does not want to take responsibility for their actions.

QUESTIONS

1. Where and when did your abortion occur?

Savannah GA

10/25/1980

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I do not remember anyone saying anything to me that described the procedure before it was performed.

5. Were you adequately informed of the consequences of abortion?

Yes No

When I was in the recovery room I said something about being in pain and how much the abortion had hurt. The attendant in the recovery room made a nasty comment saying to me that I should expect it to be painful since what I had done was horrible and I deserved to hurt.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

society in general makes it seem so acceptable

9. How has abortion affected you?

I am not dysfunctional because of it, but it is a very painful memory because I know that I murdered an innocent unborn baby - and, that it was my own child makes it even worse. I'm grateful for God's forgiveness. I wonder about meeting my child one day in heaven.

10. How has your abortion affected others in your life?

When my daughter became pregnant at 16, she did not have an abortion. That was the first time I ever told anyone about my abortion. I was very proud of her decision and her life hasn't been easy, but my

grandson is now 7 and he is the love of my life!

11. Based upon your experience, what would you tell a woman considering abortion?

I would compare what happened to me with my daughter's experiences. I would tell her that doing the right thing is hard, but very well worth it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell a court that abortion is legalized murder and we should not be allowed to do it. I would say that it is still murder in cases of rape and incest and for deformed unborn children. A liberal judge would never agree with me on most of that, but it is still my firm opinion. My Christian belief does make me sound radical, but I wish that everyone realized from the depths of their hearts and minds that we only live for a short time compared to eternity and that God is very interested in the choices we make and that many right decisions require sacrifice. It is not our birthright to live in pleasure and indulgence and our excuses for abortion may seem logical and reasonable, but I wonder if a decision to have an abortion would change if we could literally see God Himself and hear Him ask us personally whether or not it is our right to remove and destroy an unborn child. The court's decision should be based on whether or not it is murder. The court should be able to logically decide, outside of religion, that we humans are simply not even capable of knowing with certainty that the unborn child is or is not a living human with the right to life. We must err on the side of caution in all cases of law. I would assert that an atheist and a theist should be able to agree that if you can't be sure that it is not murder, it cannot be permitted by law.

QUESTIONS

1. Where and when did your abortion occur?

Charlotte NC

02//1981

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

regular abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Not detailed information - just about what would be taking place during the abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nothing besides I would probably continue to bleed for a while like a regular period.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Everytime I hear of someone thinking about having an abortion, I try to talk them out of it. Knowing what I know now, I would not have had one. It is a feeling noone can understand unless you have experienced it, and know that a life inside you was killed before it had the chance to live. There are no words. You just try to push the thoughts away as best you can, and put it in the past.

10. How has your abortion affected others in your life?

People in my life now do not know.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't entertain the thought another minute! Let someone else adopt or care for the baby if you're in a

circumstance where you cannot. The mental anguish and the guilt and shame you feel for the rest of your life is not worth what you think you gain by having it. As a matter of fact, what do you gain?

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should never have been an option to start with. I do not believe in my heart of hearts that abortion is of God. We were not created to have to go through this, and making abortion legal is telling the world that it's okay to kill another human being. You might as well make murder legal. There is no difference. A doctor that performs an abortion will have the blood of each and every life he takes on his hands - to give an account one day before his Maker.

QUESTIONS

1. Where and when did your abortion occur?

San Francisco CA

02/01/2003

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

I was put to sleep for a short time (I'm not sure of the exact term)

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Yes, I was very depressed for about two years after. My self esteem was at the lowest I have ever known. I had no desire to make friends or to seek a healthy relationship. In my mind, I was the lowest of all and I felt that I did not deserve to feel good. Fortunately, approximately two years after I realized the amazing grace of God. If it was not for that salvation, I am scared to think of where my sad, low feelings would have led me. I realized that it did not matter the amount of my sin, Christ died for it, and paid my debt a long time ago. That is the reason I am okay today, and the only reason. I wish I had not gone through such a traumatic time, but at least I don't carry the weight of that decision and regret around with me anymore. I will always regret my decision, but it doesn't control my life anymore, thanks to the saving grace of Jesus.

10. How has your abortion affected others in your life?

I chose not to tell others in my life, I was too ashamed. I did not want to hurt my family with the

knowledge of what I had done, the mistake I made.

11. Based upon your experience, what would you tell a woman considering abortion?

That it is not the answer. It may seem that it is the easy way out, that it is "the answer" to the problem, but it most certainly is not. I remember I felt I was going into that clinic to solve a problem in my life, and it would be over that day, but I was very wrong. I left with more problems, and they lasted 2 years. I thought I was taking an easier route by choosing abortion, and I ended up walking down a much harder road. No matter what the circumstance is, I do not feel anything at all justifies an abortion. There are other ways, adoption is one of them. Abortion only causes severe pain, regret, and depression. I would plead with any woman to rule this out, it is absolutely not the way to go.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should not be legal. There is no justification for it. Even in a tragic situation such as rape, and abortion will only add to the woman's distress and trauma, it will not alleviate it. It seems like a solution, but it is only opening a box full of hurtful, depressive problems and feelings. Nothing justifies the killing of a life, nothing. The weight of the pain and disgust that comes on a woman after having an abortion is much worse.

I CONSTANTLY THINK ABOUT IT. WHEN I LOOK AT MY CHILDREN NOW, I FEEL SHAME AND SAD FOR WHAT I DID.

10. How has your abortion affected others in your life?

I FEEL THAT I ANGER EASILY BECAUSE I'M ANGRY WITH MYSELF FOR MY DECISION.

11. Based upon your experience, what would you tell a woman considering abortion?

TO REALLY THINK ABOUT WHAT SHE IS ABOUT TO DO. ALSO, TO THINK ABOUT HOW SHE WILL PROBABLY FEEL IN THE FUTURE ABOUT HER DECISION. I WOULD REMIND HER THAT IT WILL STAY WITH HER FOR THE REST OF HER LIFE.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

THAT THEY DO NOT HAVE THE RIGHT TO DETERMINE IF AN UNBORN CHILD SHOULD LIVE OR DIE. ALSO, UNLESS THEY HAVE BEEN THROUGH IT, THEY HAVE NO IDEA WHAT IT DOES TO A WOMAN OR MAN EMOTIONALLY. ABORTION SHOULD DEFINITELY BE ILLEGAL WITH THE EXCEPTION OF CERTAIN CIRCUMSTANCES SUCH AS A PREGNANCY PUTTING A MOTHERS LIFE IN DANGER(IN WHICH CASE IT SHOULDE BE LEFT UP TO THE MOTHER AND FATHER.).

10

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me of the guilt and shame I would feel afterwards. No one told me I would never be able to forget I had an abortion. No one told me of the damage abortion does to ones mental stability. No one told I would think about this everyday. No one told me I would feel so bad that I would feel the need to put up grave markers in my back yard in remembrance of them thinking that would help me get over missing them and the guilt I felt!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Depression for years, guilt to the point of despair,

10. How has your abortion affected others in your life?

My husband couldn't understand why I just didn't move on and forget about it, but I couldn't! He said just forgive myself, but I tried! He thought I was lunny how I couldn't just get over it, but I couldn't!

11. Based upon your experience, what would you tell a woman considering abortion?

You think having the child will just be too hard, but that is nothing compared to having to live with the

aftermath of an abortion, the guilt, the shame, even though no one knows but you and your boyfriend!
The guilt alone felt as though it could kill me at times!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You believe in giving women freedom of choice, but you are deceived, you will be giving them freedom to self destruction. Guilt that last for years!

parent

9. How has abortion affected you?

My abortion did not go right. I was awake during it and I cried from the pain. I cried also because I know I was killing my baby. I went home and the next day my fever hit 101 degrees and I had severe stabbing pain in belly. I called the clinic and they scheduled me to see them right away. They told me it was just some tissue left over. The did a D & C procedure. I was put under. I wonder what tissue was left inside. The emotional side of having the abortion in 1982 led me almost to the point of suicide. I tried to choke myself to death. Something inside told me to stop. I had a 6 year son I was suppose to be taking care of. I was getting more depress each day and just ignored him. I fed him and those things but I didn't hear him when he needed me.

10. How has your abortion affected others in your life?

My oldest son was effected the most by it as I stated earlier. It cause a deep depression and I ignore my 6 year old son when he really needed me. Only he can tell how much that affected him. I am sure it was very hard on him at 6 years to deal with a mom that was depressed and suicidal.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them that abortion is murder. That they are murdering their baby and there are other alternates like adoption. That if they go through with it, the abortion could hurt them. This is surgery and not just a simple procedure and that they could die or have other complications. If that did go through with it there is also the emotional pain to live with and it go lead to depression and possible suicide. I would plead with them not to have it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is nothing but murdering an innocent baby. It is hogwash that this is my body and I can do what I want with it. That baby is not part of your body like an arm. That baby feels pain. No one has a right to rip that baby out of its safe place, the womb. I know what it is like to have a child and what it is like to have an abortion. I am very fortunate that I am still here as the toll of having the abortion almost cost me my life. Abortion should not be legal. Women use abortion just to get rid of a baby because it is inconvenient is just wrong. Abortion are not safe as they say. It isn't just a simple procedure. It can cause physical pain when not done right. There is no one to monitor you when you are home and that is scary. It also causes emotional damage to the women and for family members, like other children. It did to me as it lead to my depression and possible suicide. Killing your own child is not something you get over.

HOW MY ABORTION AFFECTED ME

The State of SC

County of Anderson

My name is Wendy I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Greenville SC

//1994

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

surgical

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was very confused. My parents were telling me it was the only option. I am not sure what I was told at the clinic. I don't think I was in any state to comprehend what was about to happen.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea of the guilt and devastation that the abortion would cause later on.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

my parents

9. How has abortion affected you?

I have lived with the pain, sorry and guilt for years. All of these emotions were intensified with the birth of my son. Children are such a precious gift. I have to live with the knowledge that I killed my own baby. If it were not for the love and forgiveness that I have found in Jesus Christ I don't believe I could live with what I have done.

10. How has your abortion affected others in your life?

I am certain that my parents carry much anguish over the abortion as well. It is never mentioned, but I know that they hurt over it too. They thought they were doing the best thing to protect their child. Again, I don't think they were aware of the consequences either.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! Find another option. It is not the easy way out. You can't begin to imagine the consequences. You will have to live with the knowledge that you committed the murder of your own child,

the child you as a mother should protect! It is a tremendously heavy burden to carry for the rest of your life. Instead consider adoption. It may seem more difficult now, but I promise later it will be much better to know you gave life rather than destroyed it!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Protection of our children should start early in the womb! It is sad that children in so many cases (not just abortion) need protection from their own mothers. Abortion is murder. If anyone else is found guilty of killing an unborn child they are sentenced to prison, yet the mother can do it by her own hand?! I murdered my own child and the consequences are beyond devastating. The law failed me and my unborn child. Abortion should have never been an option. Please stop the tragedy!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of SC

County of Spartanburg

My name is Janet I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Peekskill NY

04/20/1967

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Dilation & curetage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

There were no explanations in 1967. There was no counseling. Nothing. Just a hospital stay and it was over. I was only 17.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It took more than 40 years for me to forgive myself and get over the shame. I couldn't stand the guilt and the thought that i had taken my own child's life. I still battle depression and anxiety.

10. How has your abortion affected others in your life?

It was devastating to my family. The depression and anxiety have affected my marriage for 40 years and very nearly caused us to divorce. For the last 10 years we have been in marriage counseling and are now beginning to put the pieces back together.

11. Based upon your experience, what would you tell a woman considering abortion?

I WOULD NEVER RECOMMEND ABORTION TO ANYONE FOR ANY REASON. Whatever the circumstances of the conception were, there is a way out - adoption or another family member who would welcome the child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder - shedding innocent blood - why else would a mother feel such grief and pain? Abortion is devastating to both biological parents of the child. Abortion is a Pandora's Box that has released death into our nation - death in the medical profession - death in our schools (children killing children) - death in the homes (abused, neglected children). When we don't value life in its most primary form, we devalue ALL life. We must begin at an early age to teach our children that ALL life is sacred and valued - from the embryo to frail senior citizens. Each life should be regarded with dignity. Of the 50 million babies that have been aborted since Roe vs. Wade, I wonder how many potential presidents, how many Nobel prize winning scientists, how many greatly gifted human beings that could have added value to life today by helping to solve our complex problems have been thrown in the trash disposal? How many more babies will be thrown in the trash before we realize what a tragedy we have brought on the USA and the world with Roe vs. Wade?

HOW MY ABORTION AFFECTED ME

The State of SC

County of York

My name is Maureen I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Bellflower CA

11//1971

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

D&C is what I was told

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The doctor just wanted to help me get rid of my "problem". I was young, ignorant and uninformed.

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It made it easier to do it a second time and finally my cousin helped me connect the dots to realize that my depression, guilt and the burden I was carrying were due to the murder of my babies. I have had nightmares - mutilated babies coming after me. It also led to the desire to kill myself.

10. How has your abortion affected others in your life?

I don't really know. But my daughter wanted a child and couldn't get pregnant for 2 1/2 years. She finally got pregnant then lost the baby when she was 8 months along, April 2008. I've seen the devastation & grief that she & her husband are going through. It's tragic. What a precious child she would have been, had she lived. It broke my heart all over again that I was so deceived as to allow the murder of two very precious lives. I also felt the shame & realized all over again the selfishness of my decision. Abortion is the biggest regret of my life and it happened about 37 years ago!

11. Based upon your experience, what would you tell a woman considering abortion?

You may feel like you are between a rock and hard place, that you have no choice but to get an abortion. You may not have the means to care for a child, you may not be married, you may be in a bad marriage. Whatever the situation you are in, there is help available. There are many clinics that will

help with the decision making process, who will help support you through your decision. don't believe the lies that it's not a child. Do some research on the different kinds of abortions, most of which mutilate babies ripping them apart. It's horrible, but don't hide your head in the sand. Face the reality. Also, abortion can be harmful to you physically and it most definitely is harmful to you emotionally and spiritually. You have a choice! and there are many people who strongly desire a child to adopt. There are also many different kinds of adoptions - if you have no desire to know your child or if you have a strong desire to be a part of your child's life - that choice is available also. Abortion had only been legal in Calif for 2 years when I had my mine and we knew nothing about all these choices. I was ignorant but you don't have to be. It's been 37 years ago and I still feel the pain!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Read the testimonies! Talk to the women who's lives have been ruined by the worst decision of their lives. Listen to their pain. I know that many women want to have a choice, but abortion is the murder of a precious child, it's selfish, it opens the door to much darkness and robs thousands of couples out there who strongly desire children from adoption. Abortion is not and should not be a birth control method. Stop the problem where it starts - at sexual immorality.

3. What type of abortion was performed?

suction aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was given a simplified version of what would happen during the surgery.

5. Were you adequately informed of the consequences of abortion?

Yes No

Was not educated on the emotional effects that abortion would have on my life and physical future risks.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I was first in denial about what I had done and did not tell anyone, in which time I began to be promiscuous. I could not say the word abortion for over 10 years without breaking down into tears. I have felt undeserving, much hurt and shame in my life, but thanks to the mercy and forgiveness of our Lord Jesus Christ I have began the healing process.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

I would share my testimony and offer them hope in other alternatives and would lovingly and strongly persuade them otherwise

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Again I would share my experience and urge them to end abortion but would also ask them to begin to

give support to places that are offering help and alternatives to those in crisis and unwanted pregnancies.

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend at the time

9. How has abortion affected you?

I remember going to the bathroom later that night after inserting the pills into myself - I remember feeling as if a blood clot had passed, I was so scared to look but I forced myself to look and it almost looked like a hand. It was horrible! That image still haunts me today! I began to drink a lot and I was in depression. It was so traumatic that I remember little about the experience.

10. How has your abortion affected others in your life?

My whole life changed. I hurt my parents so much.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't do it! It will only prompt self destruction.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I was so dumb... At the age of 20 I still did not fully understand what abortion really was.. If I would have known and understood exactly what would happen upon inserting the pills - I would not have done it!

They did not tell me what could happen if I was not totally cleaned out and what I was going through when pain started.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Friends.

9. How has abortion affected you?

I almost died. They left something like after birth in me and for 3 days I was in hard labor. After the abortion. They sent me home that day. For 3 days I was taken to 3 seperate hospitals. Finally my mother got me to her doctor and he did a DNC and said I was close to having Gang Green set up. Later I had severe problems with my period and in 1986 I had to have a Partial Hysterectomy, and I am not married. I therefore have no children. I lost a lot of blood because of the scars in my uterus.

10. How has your abortion affected others in your life?

The man in my life at that time later comitted suicide.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't, you don't know what could happen to later on and this could be the only child you might ever have like me. The pain can be to overwhelming.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

You don't understand that we as women do have rights of choice but that choice is whether are not to have sex, as soon as a child is involved we are no longer alone in this and we must protect those who can not protect themselves.

3. What type of abortion was performed?

D&X

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told how I would feel after the abortion. No one told me about possible nightmares, sadness, depression and grief.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents and boyfriend

9. How has abortion affected you?

I have suffered long periods of depression, suicidal thoughts, sadness, prolonged grief, anger, eating disorders, the feeling or need to replace my aborted child and insecurity. The overwhelming grief I have had since the abortion has put me in a survival mentality. I have been in a heightened state of awareness since that time; very paranoid, suspicious and untrusting of others, especially medical professionals.

10. How has your abortion affected others in your life?

My husband and children have suffered the greatest. They do not understand, nor did I for some time, the reason for Mommy's sadness.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion does not end when you climb off of the table, it begins at that moment. Abortion's price is far greater than you will ever want to pay. Forever you will be the mother of a dead child. A child who died because you signed your name to end his life. When your baby is dead, the life within you is dead. You will walk away from the clinic, but inside you will feel as if you too died. You will feel empty and no one

and nothing will be able to fill the void. You will be forever changed and you will no longer recognize yourself in the mirror. You will not be able to relate to others and nothing will seem real. It will be as if you are separated by an invisible wall from everyone and everything.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is a legal form of enslavement, barbaric torture and brutality to women that causes the death of the innocent. Abortion hurts women, families and our entire nation. Women don't choose abortion, it is chosen for them. Abortion does not bring new rights, freedom and hope to women, it enslaves them and makes them ineffective, broken vessels.

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No staff member ever talked with me about my decision. I sat in a waiting room after payment was made. Then was escorted into a room where the abortion was performed. No one at any time approached me to be sure that I was sure about the decision that I had made.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one ever talked with me about the emotional pain that I would experience. The staff at the abortion center did not even tell me that I needed to see a doctor for a follow up visit.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have felt unworthy of love since that day in July. I've thought of myself as a murderer of babies for years.

10. How has your abortion affected others in your life?

I became secretive as a result of the abortion and my family and friends have been kept at arms length due to my need to keep my feelings a secret. I get very emotional when I even hear talk of abortion on the radio.

11. Based upon your experience, what would you tell a woman considering abortion?

I would beg any woman not to have an abortion. I would tell her of the internal suffering that I've endured since 1982.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

1. Women should not have the right to choose to end the life of another. 2. Abortion has a ripple effect. Everyone in our society pays a price because of women who suffer emotionally because of a past abortion. 3. Any law that encourages the death of innocent Americans should be repealed.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of SC

County of Darlington

My name is Cynthia Blackwell. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Chattanooga TN

01//1980

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The physical part was not explained to me, nor did I understand the spiritual side. I believed that doing something legal, paid for by the government must be okay with God, too.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed about the serious depression that came afterwards or about the spirit of death that came over me. Not long after, I was in a serious car accident. I often spoke of taking my life. When I planned to have children, I had one miscarriage after another - a total of three miscarriages - until I sought forgiveness and asked God to forgive me for my abortions. He gave me three beautiful children after I repented.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I believe the spirit of death and murder came as a result of my abortions (I had two). I believe I had three miscarriages because of my abortions, because when I repented, God opened my womb and I had three children afterwards seeking forgiveness for my abortions.

10. How has your abortion affected others in your life?

I'm sure it affected the fathers involved. I know it affected my husband when I had three miscarriages. I know it affected my parents because they never wanted me to have one.

11. Based upon your experience, what would you tell a woman considering abortion?

I would say the baby is no accident. It is being fearfully and wonderfully knit in her womb and a book

has been written about his/her destiny already. The baby was knit in the womb with a purpose and destiny. I would tell her that there are so many loving people who desperately want babies and to please consider carrying the baby to full term, at least for others to have the opportunity to love the baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say that spiritual, mental, and physical repercussions to abortions are so detrimental, and no one is ever told these things at the abortion clinics. The enormous feelings of depression and loss and pain afterwards leaves such an emptiness and truly, without God, it is difficult to recover from what is considered a simple procedure.

3. What type of abortion was performed?

vacum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed of the terrible aftermath such as depression, and mental torment.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

mother and father

9. How has abortion affected you?

It has been a long road to my recovery but in the beginning I suffered deep depression. I would not forgive myself for a long time and I thought I would never be able to have children. I suffered the loss of my child and was left wondering would it have been, a boy or girl and what it would have looked like.

10. How has your abortion affected others in your life?

My siblings to this day feel guilt because they felt that there was something they could have done to help me.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it!! There are devastating consequences.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is murder! YOU ARE TAKING THE LIFE OF AN INNOCENT CHILD! A child that does not yet have a voice. Also the devastation that women experience after having an abortion "words cannot describe"!

HOW MY ABORTION AFFECTED ME

The State of SC

County of Charleston

My name is Nancy Borrett. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

El Paso TX

//1980

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I am a labor and delivery nurse, and so my doctor assumed I knew all about what was going on. I was at a private doctors office, and not an abortion clinic.

5. Were you adequately informed of the consequences of abortion?

Yes No

My doctor didn't ever tell me anything, except that it would be better if I wasn't "attached" to the baby's father for the rest of my life since we were getting divorced. He never told me anything about how the abortion would affect me. I don't believe he really knew anything about the emotional effects at all.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother and the doctor who did it

9. How has abortion affected you?

I was completely frozen in all emotional areas of my life for over ten years. This experience led me to the Lord Jesus Christ, and I received His complete forgiveness. However, I was unable to truly forgive myself for 10 years. I believe that God is now using me to help others. The details of what I went through would be too long to document here.

10. How has your abortion affected others in your life?

I believe my mother still needs to find forgiveness for her part in persuading me. I still haven't told the father, and I believe that someday, I will need to do this. My children know and have completely forgiven me. As I said, I believe that God is using me to help others now.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion is a deception of the devil. I believe the world says this is a viable option until you do it. And then they look at you as if you have committed the worse crime on earth. Same people. It will ruin your life. I believe God can heal anything, but since you don't have to do this, don't. God will make a way where there seems to be no way.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Exactly what I said above. The world and the legal system is deceived by the devil, and they need to have there eyes opened. What if the judge had been aborted? Would millions of us "survivors" be making this all up just to cause trouble? We have all suffered, and we want to prevent the needless suffering of others, not to mention the saving of our children.

My name is pam caymol badger. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

charleston SC

12/18/1982

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

d and c

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

i was so distraught that they made me leave the "counselling" room, I did not want to have the abortion. There were also r.n.'s there that saw where I had tried to cut my armpit with a razor , when they took my blood , I will never forget it because one said ' did you do this"? And she hugged me . I tried to cut myself because I was in an immoral relationship, and I felt so guilty about that.

5. Were you adequately informed of the consequences of abortion?

Yes No

abortion mills NEVER inform women; they are money - makers , they did not explain any 'consequences' to me .

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

mother

9. How has abortion affected you?

It had a profound effect on my life - I was severly depressed, put in psychiatric wards--many stays, and also state mental institutions. Many dr.'s and drug useage- pot. drinking, promiscuity- to name a few . I had nightmares of giving a child up for adoption,ect.

10. How has your abortion affected others in your life?

I was unable to keep and sustain a relationship with a man who loved me very much. Later I was raped by my former husband and his brother (his brother later died from AIDS).I had a second one , because my ex wanted me to 'prove' the baby was not his. I cried all the way through. I later found out the dr (formerly on a rivers ave clinic) who preformed it was killed when he ran his car off the road.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that no matter what situation she has been through, eg she is married and does not want her husband to find out, a teen with the same issue, but parents, or a rape- whatever the situation I would tell her please listen to me and I can tell you what the spiritual, emotional and social ramifications are to not giving birth to that baby. Since God healed me with a a vision , showing me my two children-- I have never been the same. He had to - I was boderline psychotic ! Yes He DOES forgive us , only the choices that we make have consequences, I would also say that.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

yes indeed I would tell them my story .Please note >I am not ashamed you may publish my whole name and city, and state - it does not have to be confidential, on your website

HOW MY ABORTION AFFECTED ME

The State of SC

County of Dorchester

My name is J K I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Atlanta GA

//1994

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I knew about what abortion was; there wasn't much discussion though at the clinic about it.

5. Were you adequately informed of the consequences of abortion?

Yes No

Again, there was an aura of vagueness at the clinic

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I still feel like that time of my life is in denial; it rears it's ugly head now and then and brings me to tears. I have asked for forgiveness from Our Father in Heaven, but the sadness of the "what ifs" still lives on.

10. How has your abortion affected others in your life?

No one knows, other than the friend who took me to the clinic

11. Based upon your experience, what would you tell a woman considering abortion?

Choose life, no matter what. There is always a way out; at the time, we don't see it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder, to both the child and the personality of the mother. The child is no longer, but the effects of the choice remains at the tip of consciousness. It leaves the mother with deep seated regrets, and shame.

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was scared being only 18 and getting ready for college. I didn't really want to know anything just that it would be done.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told that the "tissue" that would be removed would do no harm to me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Parents

9. How has abortion affected you?

I have been ashamed of it for many years. I do know that I have been forgiven by God and by the child that I threw away. I know one day I will be united with that child. I have over the years suffered from depression.

10. How has your abortion affected others in your life?

There are very few people who know of my abortion. I have never told my husband or my children.

11. Based upon your experience, what would you tell a woman considering abortion?

There are so many choices that you can make and life is the best. You have so many options open to you. So many couples want children that can't have them.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder. It is the taking of a life where that life has no choice. Who knows what

accomplishments would have been made by those children that were thrown away.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It was in the doctor's home. We ate fried chicken and had several drinks. We did not discuss what was going to happen.

5. Were you adequately informed of the consequences of abortion?

Yes No

This was never mentioned.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

fiance

9. How has abortion affected you?

It caused an emotional withdrawal from my living children. I spent a lot of time getting drunk, ruining my reputation--professional and personal-- and became addicted to prescription drugs trying to dull the pain. I also became promiscuous, which led to all kinds of shame, and emotional pain, including several admissions to mental hospitals and suicide attempts. It seems like I hurt all the time unless I was on some kind of drug. All of this eventually led to my taking 300 strong,hard pills. I was in a coma for a week, they brought in my family, gave up on me. It was only the Lord Jesus who saved me.

10. How has your abortion affected others in your life?

My son has always wanted a brother and has felt a real loss. My daughter felt abortion must be okay.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't do it. Let's find some alternatives to this, please! Let's sort through this--there is another way, another answer. You will always regret it, that is a promise.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Please let's not make it easy for a woman to do this. I don't want any woman to have to go through what I've gone through!

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Don't know what it was called but it was like a D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told of the technical aspects (the actual medical procedure) but not of what I would physically, psychologically and spiritually suffer afterwards.

5. Were you adequately informed of the consequences of abortion?

Yes No

I wasn't told I would suffer psychologically and spiritually for the rest of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my husband

9. How has abortion affected you?

I will never get over the fact that I took the life of an innocent human being.

10. How has your abortion affected others in your life?

Not many others know about it, but my husband suffered psychologically, too before he died in 1999.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT, UNDER ANY CIRCUMSTANCES!!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell that court that abortion is plain and simply murder, no matter what stage of pregnancy one is in. I would tell them that a woman never ever gets over the pain of taking the life of her own child. It is a traumatic experience from the moment it occurs and only gets worse as the years pass.

9. How has abortion affected you?

It changed who I was. I became depressed right after and stayed depressed for many years. I never talked about my abortion. I think I may have been in denial because it was too painful to deal with. The shame and sadness that you feel is too great for words. It's 18 years later and I think about what I have done everyday. I have recently joined a group for post-abortive women and hope it will help me to heal and let go of the guilt I feel. I find myself telling the baby that I aborted how very sorry I am and how much I love him/her. It's just not natural for a woman to kill her baby, no matter what the circumstances are it will only bring pain. There are no do-overs!!! You just have to live with it. Only someone who has had an abortion can know this pain.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT DO IT!!! YOU WILL REGRET IT FOR THE REST OF YOUR LIFE!!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that a woman murdering her child is not natural and not what our Creator intended for us and can only lead to pain and dysfunction later in a woman's life.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of SC

County of Horry

My name is C B I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Arlington VA

09/22/1965

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

In the doctor's office the doctor stretched my cervix to cause me to miscarry

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I am so saddened by what I did to a living, human being I killed my own child in a panic that my parent's would find out I was pregnant. I ended up carrying the baby to 5 months and delivering him in the hospital where he died a few hours later. It is a very heartbreaking memory that I must live with for the rest of my life. I wish I had not done it but I did.

10. How has your abortion affected others in your life?

I have one son now and he wishes I had had the baby so he would have a sibling. Due to the abortion technique it weakened my cervix and I almost miscarried my son and had to go on bedrest for 2 months to carry him to full term. It has affected my relationship with my husband because I carry the sadness of missing that aborted baby.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it - no, no, no - don't do it. Have the baby and give it up for adoption to a good family if you cannot keep it; but never, never kill the baby. You will be sad and regret it the rest of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Murder is never legal and that is just what abortion is. It stops the life of a baby; it ends a life. There are other ways of coping with a pregnancy that you didn't expect; don't make abortion legal. It is a heartbreaking experience.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of SC

County of Kershaw

My name is G T I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Kent WA

04/01/1995

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

DNC

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

There was literally nothing mentioned about possible consequences of my abortion physical or mentally or emotionally. They gave me my options, referred me to a doctor and when the procedure was completed, I paid for it and was sent home.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother

9. How has abortion affected you?

For a long time I felt like a 'throw away' person just as I had 'thrown away' my baby as a result of the procedure I had little or no self-worth. I remember riding the bus home from the procedure with the most hollow feeling within me. For years after I felt the grief from the loss of this child. It effected my emotions as well as my relationship with my spouse. I was broken inside and had no way to forgive myself for what was done. Only through support of my husband and my faith have I been able to forgive myself. I have no doubt if it were not for those things I would have not ever been able to live with the mistake I made.

10. How has your abortion affected others in your life?

It put a strain on our relation due to the emotional roller coaster that I was on as I tried to deal with the guilt.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her not to do it, that the life inside of her is just that and there are other options and people out there who would want her child if she couldn't care for it. I would tell her that having an abortion is not natural and that the body, mind and soul are forever effected.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That I expect that a court of law is designed to do what is right and just for it's people and allowing abortion to be legal is not beneficial in anyway to humans, not only for the child that is murdered but the broken lives of the women and men who have to live with their choices.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of SC

County of Horry

My name is Kelly Parr. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Kansas City MO

//1983

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

again...not for sure of this question ..but I definately remember the "sound" of suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

hard to remember but perhaps briefly at the front desk of the clinic and/or right before the abortion took place

5. Were you adequately informed of the consequences of abortion?

Yes No

The Dr.'s last words were "It's finished".... little did I know..

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

myself....and shame

9. How has abortion affected you?

caused me to live in "numb-numb-ville" pushing the pain as far away from my heart as possible manifested in anger and unable to bond with children

10. How has your abortion affected others in your life?

I thought it affected no-one because I kept it a secret and believed the words of the Dr. "it's finished"! In 2001, Jesus came to me in a vision and asked me "do you want to meet her?" That was the beginning of a vision which lasted for approx. 40 minutes! I know that is not long and realize that it takes some, years before healing comes. But for me,this is MY story and no one can abort it! :) The vision was very detailed, as Jesus introduced me to my little girl. She came bouncing around Jesus and stood about his shoulder height...she looked up at him and pointing at me said "Daddy is that her?" The pain that I burried so deep, didnt even know was there, was released and healing flooded my heart that day. As the vision came to an end... I saw my little girl then on her knees wiping up her very own blood,

bounced up, looking to Jesus and said "Daddy, it's finished!" The very words that the Dr. had lied to me about years ago "it's finished", were the very words being spoken to me bringing truth, healing, and real freedom! Now who does my abortion story affect? Many all over the world as this is MY story I tell. When I take others to that place in my own heart where pain and shame once lived...it enables them to visit that place of pain in their own hearts allowing healing to begin.....

11. Based upon your experience, what would you tell a woman considering abortion?

of course give her hope and educate her with the options she has. As for me I didnt feel I had an option. I was a single mom, two children and alot of shame. But mere words sometimes just aren't enough...so I would give her what I wished I would have had. A hug. Someone to hold me...allowing me to get intouch with my pain. Pain that was there way long before I got pregnant.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That the words of that Dr. "It's finishe" is nothing but a lie!

9. How has abortion affected you?

Years later, I can think about it without tears. I've had to work through so much shame and unforgiveness and have to face telling my other children someday.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. There are other options. There is no turning back for me now. I now know I am forgiven but the pain will always be there.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That is a child, no matter how small, people are killing. We have no right to murder these innocent children.

QUESTIONS

1. Where and when did your abortion occur?

Charlotte NC

05/22/2010

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction Aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never told about how it could change my life after the abortion. ie Mental health

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents and my boyfriend's brother's

9. How has abortion affected you?

After the abortion I had began to feel worthless and I cried all the time day and night. I am now taking a medication for depression and will have to take it perminantly. My diet had decreased from eating 3 times a day to only eating 1 time a day and sometimes not at all. I stay in my room all day long and try not think about what I was forced to do and when I do I just start to cry and it dosent stop till I fall asleep at night. I am never happy anymore and I feel like a murderer.

10. How has your abortion affected others in your life?

At first I didn't want anything to do with my family, friends and even my boyfriend but my boyfriend forced me to be a social person all the time hoping it would make me happy again and it still hasn't

11. Based upon your experience, what would you tell a woman considering abortion?

Never do it because it will haunt you for the rest of your life. This is something that you will never forget and it will cause health issues such as depression.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Think about the mental and physical harm this does to a Female. This is something that they will never be able to forget. It leaves an empty space in a woman's heart it makes her feel like she is worth nothing, thus that is why some female's do harm to themselves after having an abortion. It is the same thing as murder, and the murder of a baby leads to the death of the mother in most cases!

HOW MY ABORTION AFFECTED ME

The State of SC

County of Colleton

My name is C S I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Jacksonville FL

08/30/2000

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

Medical

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It may have been in a pamphlet laying around I don't know but no one talked to me. I was so out of my mind and distraught about being there I think they didn't want to rock the boat. My mentally controlling and abusive boyfriend made me go, and I felt like I had no other choice.

5. Were you adequately informed of the consequences of abortion?

Yes No

It has been several years and I'm just finding out why I've been so bitter and unhappy. Yes you know you'll be sad but you think something this horrific could never be legal. When you let your mind actually open up to what happens you can't believe something like this could ever be permitted. I'm disgusted with what I did. I wish it wasn't legal and there were more obstacles. They should have professional counselors there to get to the bottom of why you are doing what you are doing. I was so beaten up, abused, and desperate and they took advantage of that and made it worse. Not to mention I left 2 times before actually going through with it, so they cannot say that I thought this was the best choice for me. I wish I would have known that there was financial help for women when they are pregnant. I found that out too late.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend

9. How has abortion affected you?

I have had a hardened heart for years until I recently have had time and got on the internet to look at the websites and read stories. I felt very alone until now and sometimes I still do. The future is scary to me because I know this is with me for life and maybe the next!

10. How has your abortion affected others in your life?

I try to hide it so I don't know. I definitely think I seem cold to people and being they don't know why the are insecure being around me. My husband now knows everything and is so supportive but I lash out at him too. He knows why and I think that's the reason he is still here. We have two children and I am pretty overprotective of them and I probably don't discipline them the way i should. I definitely know what a miracle they are.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT!! DON'T DO IT! It helps no situation. Listen to your head and heart they will both tell you to keep your baby. I know it seems like you're in an impossible situation but it will be nothing compared to the way you will feel if your baby is gone and you cannot bring them back. That is a truely impossible situation.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I know this is not everyone's situation but it can happen so fast your head will spin. I never knew how cruel people were until I met my former boyfriend. He was good looking, smart, decieving, controlling, manipulative and abusive. Unfortunately he didn't show me all of this at first so I had no idea until it was too late what i was getting into. I met him at a time in my life when i was lonely and depressed although I didn't know anything about depression at the time. I didn't have a computer or any info. I thought he was my cure because he came on so strong I thought i will never be lonely. This is how it happens and it could happen to anyone at anytime. Abusive manipulative people love to use abortion as a way to control women. That's How he kept me isolated from everyone. I deserved better than this if not from him then from the clinic he took me to. I deserved options when clearly I was an emotional wreck. I wish it were illegal but at the very least there should be mandatory sufficient screening by a non biased counselor so that they can determine whether or not a women is being pressured into this deadly decision. It was clearly not the right decision me or my Baby. Would you want this for Your daughter, wife, girlfriend, or anyone you love. I think not!

QUESTIONS

1. Where and when did your abortion occur?

Savannah GA

02/25/2011

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

Dilation and Evacuation

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I wasn't informed of what exactly went on when the procedure was done, what they had to do or anything.

5. Were you adequately informed of the consequences of abortion?

Yes No

No, all they said was "everything will be just fine, it wont affect you in any way".

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has affected me emotionally, it caused me a great depression and almost lead me to suicide. It was a great challenge to deal with such pain because I didn't expect this to end like this it was supposed to be something easily done and forgotten but it wasn't that way.

10. How has your abortion affected others in your life?

IT has affected my family in a great way, because when I cried they would too when I suffered they would too.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it, there's hope and a baby is a blessing not a choice.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it shouldn't, that it hurts us, and all women should know about the truth of abortion and the after

effects.

HOW MY ABORTION AFFECTED ME

The State of SC

County of Greenville

My name is Stacey Sparks-Lazurek. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Greenville SC

//

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

vacuum aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not given any information about the actual procedure, about what to expect from it. I did not know until afterwards, long afterwards, what the true nature of abortion is.

5. Were you adequately informed of the consequences of abortion?

Yes No

I did not receive any counseling at the clinic about what the consequences could be -- physical, emotional, or spiritual. It was a very sterile, factory-like atmosphere. They were a business, had a job to do. The only thing they gave me was a sheet of paper after the "procedure" that said to seek medical attention if I had excessive bleeding, fever, chills, etc. There was nothing about long-term side-effects, physical or emotional.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother and some friends

9. How has abortion affected you?

I have suffered from depression, anxiety, and emotional withdrawal at times. There were times when I felt suicidal. I almost failed out of college soon afterwards because I did not care about my life anymore. I have suffered from nightmares on and off over the years. And at times, I simply suffer from a deep and profound sadness that almost overwhelms me. At these times, it's hard to even concentrate on my work, at home and at work.

10. How has your abortion affected others in your life?

I will withdraw into myself and become emotionally unavailable to the people around me, to the people

who are closest to me, whom I love the most and who love me, such as my husband and children.

11. Based upon your experience, what would you tell a woman considering abortion?

I would beg her to reconsider, and I would share my story with her and pray that she does not make the same mistake. Abortion has two victims -- the unborn child and the mother.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say that abortion affects our society beyond just the child and the mother. There are thousands of us out there, and society pays the cost for our damage -- the physical damage, the emotional damage. Medical costs related to the physical damage that many women suffer post-abortion, and the costs related to seeking psychiatric and psychological treatment. Lost wages when we miss work. It is not just a "religious" issue.

HOW MY ABORTION AFFECTED ME

The State of WA

County of Spokane

My name is Golda Dunn. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Spokane WA

02/15/1975

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Vacuum with D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not informed about possible health risks. That was before sonograms and I was told nothing about fetal development. The procedure was not explained to me beforehand.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed about the physical pain of the procedure, possible on-going health risks, including infertility and the risk of tubal pregnancies. I was not informed of the subsequent trauma and emotional aftermath of the abortion procedure. I subsequently experienced a tubal pregnancy and a miscarriage and had numerous reproductive health issues, resulting in a hysterectomy at age 36.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My husband, my child's father.

9. How has abortion affected you?

I had subsequent reproductive/female health issues - including a tubal pregnancy, a miscarriage, and a Stage 1 cervical cancer resulting in a hysterectomy at age 36. I had intense feelings of guilt and shame and stayed in an abusive marriage for years. I struggled with depression and self-confidence and self-worth. I had a secret that I did not tell others.

10. How has your abortion affected others in your life?

I believe that my abortion contributed to me staying in an abusive relationship; the person that abused me also abused my children. As adults, my children have also been in demeaning relationships.

11. Based upon your experience, what would you tell a woman considering abortion?

Please, consider the life long consequences. Abortion is choosing the murder/suicide of another person. Part of your soul will die. This child, regardless of the circumstances, can bring joy into your life. There are resources to assist you at this time. Do not make this decision to please others, or out of desperation. Any "relief" that you might feel is short-lived, and the regret is forever a part of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion has far-reaching ramifications for society as a whole and the individual mother as a person. For society, health care costs stemming from abortion - treatment of mental health issues, reproductive/infertility issues, links to various forms of cancer especially breast and cervical cancer - are very high. Abortion should be restricted to the very few cases where the physical life of the mother is at stake. Legalized abortion has become a huge money-making industry. Abortion is legalized murder, premeditated and often with deception and coercion - of a child and also, in a real sense, of the parents that choose to end the life of their child. As a society, we cannot bear the costs to our social service programs, including funding retirement programs of seniors and health care costs.

The State of SC

County of Richland

My name is Monica I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Columbia & Greenville SC

10/15/1984

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

Vacuum suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

On these two occasions, no one informed me of the nature of having an abortion. The only matter that was discussed was the method of payment for the service. I was also informed that it was an additional seventy-five dollars if I wanted to be asleep during the procedure. In 1984, at age 15, a staff member in the clinic stated "we help women out." In 2001, a staff member asked: "How does it feel to get rid of a baby?" Dr. Campbell performed the procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

On neither occasion, no one said a word pertaining to any consequences of an abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

The abortions have affected me emotionally and spiritually. For years I have lived my life full of shame, secrecy, guilt, misery, distrust, and relentless pain. The aftermath of these abortions has left me wounded and depressed. The healing process has finally begun. I am slowly putting the pieces of my life back together, again.

10. How has your abortion affected others in your life?

Due to the shame, pain, guilt, and secrecy which come along with abortions, I have not shared the experience with others to affect others in my life.

11. Based upon your experience, what would you tell a woman considering abortion?

Women, please, please, Madam, take my advice: I sincerely beg you to reject abortions. The

psychological and spiritual consequences of an abortion will cause your heart to bleed. Your life will never be the same after an abortion. A life after an abortion includes, but is not limited to heavy depression, anxiety, rage, bitterness, and grieving the loss of your baby, one day. You will become angrier than you have ever been before. If you do give birth to a child, days after your baby is born, you will think of the child that you aborted. The reality that you ended the life of your unborn child will cause a mental shock in your mind. This may prevent you from properly caring for the child that you did give birth to. The grieving and sorrow is enough to overtake you. The heavy burden caused by the guilt that is felt, but are unable to express will haunt you for decades. Your baby deserves to feel safe in your womb. Please give him or her fair chance in life. If you do not want to keep your baby, please carry the baby full term and then place your baby with an adoptive family. If you place your baby with another family, in years to come, when you get your mind together, you can search for the child and build a relationship. Choosing this option is best rather than aborting the child. Take it from me, please, say NO to abortions.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

In the courtroom litigates place their right hand on the Holy Bible and they swear to tell the truth so help them God. The truth is God hates abortions. Therefore, banning abortions is the right choice to make. Banning abortions would be saving women from emotional pains in the future. Each year, there are more than 47,000 babies aborted. Banning abortions would strengthen the political sector, domestic sector, educational sector, religious sector, as well as protect the environment.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of SC
County of United States

My name is Macie Walls. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Charlotte NC
02/15/2010

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was seventeen at the time of my first abortion and understanding what being pregnant really meant was no all clear. I was unaware of how the reproductive system worked and that a fetus is a baby and not a blob of tissue.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told that it was 'okay' and that it'll all be over with in no time. I was never told of how it could mentally and physically effect you. Everyone tells you it's okay but once you leave, your world is turned upside down and that's what they don't prepare you for.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Family

9. How has abortion affected you?

It took almost seven years for me to finally face what I had done. The grief and shame that abortion caused me was something I wasn't prepared for. Once I finally faced my abortions head on, is when I started to heal.

10. How has your abortion affected others in your life?

It is a topic we don't discuss. After my abortion happened it was slid under the rug. It has caused me to question the trust within those family members.

11. Based upon your experience, what would you tell a woman considering abortion?

To think it through. It may seem like the best choice at the time, but things will get better. There are resources out there for you to raise your baby and to have a happy life. I would much rather have my baby then the feelings that come along after an abortion. It is not a quick decision to get rid of your problem, it's the opposite. It causes life long problems of grief and shame.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court to put themselves in the position of women who have abortions. Whether or not it be a partner having an abortion, a daughter or a sister. Whether you believe that there is a life or a blob of tissue, there is no denying that it is growing and when you have an abortion, you are stopping that growth and destroying it. Abortion should not be considered a form of birth control yet a way of life by stopping it. As a society and as humans we must put that first and protect one another.

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had no idea that the baby would be ripped apart by the vacuum. I did not think of the baby as a living person.

5. Were you adequately informed of the consequences of abortion?

Yes No

I wasn't told it could affect my future ability to have children or the daily shame and guilt I would feel.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

boyfriend

9. How has abortion affected you?

I think about the child I aborted almost everyday. I feel guilt and shame for the decision I made to end her life.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that adoption is an option. I became pregnant again after my abortion, but I chose to give her life. She is a beautiful 16 year old girl today. We had an open adoption, so I see her once in

awhile. It was the most unselfish thing I have ever done in my life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If abortion wasn't legal at the time I had mine, I would have had her and given her up for adoption. The guilt and shame I feel would not be there as a daily reminder of my sin.

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

solution was injected into my womb that killed my baby and caused my to go into labor and delivery

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I wish they hadn't tried to white wash it, and make it sound like an ok option.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nobody told me how much it would hurt. No one gave me the confidence I needed to keep my baby or at least let someone else be her mom.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

I suffered from eating disorders. I started using drugs and alcohol and being promiscuous. I am just now after 37 years beginning to deal with it.

10. How has your abortion affected others in your life?

Yes - I broke up with my boyfriend. I don't really know, because it affected me and that affected others in my life.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! Your baby is precious, beautiful, and loved by God.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That they are violating the sanctity of human life. And they are destroying precious life. That they don't know what they are doing.

My name is Dianne Heynen. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Minneapolis MN

02/03/1979

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was a "clump of tissue" being removed.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never told of any of the emotional or physical consequences of abortion. I had no idea it would still be haunting me now after twenty-nine years and much healing through the grace of the Lord Jesus. Even last night I had an abortion related nightmare.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I did it thinking it would be the easy way out. By choosing abortion, I thought could run away from my problem. It would all be behind me. In reality, the guilt, shame, depression, suicidality, anxiety, nightmares, drinking, drugging, etc. were all devastating.

10. How has your abortion affected others in your life?

It has brought deep sadness and regret for the baby's father, grandparents, aunts and uncles.

11. Based upon your experience, what would you tell a woman considering abortion?

Please, please, please don't do it, for your sake as well as your baby's.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Life begins at conception. Our constitution declares that our government must protect life not legalize

the killing of life.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of SD

County of Union

My name is Patty Miller. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Mason City IA

08//1976

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Absolutely no one explained anything about abortion to me. It was presented as a solution to my "problem", how much it would cost, where it would take place, that it would be quick, painless (as they would use a sedative), and it would all be over. WHAT A PACK OF LIES!!!! IT WAS EXACTLY THE OPPOSITE OF ALL OF THAT.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one thought there were any consequences; therefore, no information was presented.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The doctor told me it was the best solution.

9. How has abortion affected you?

I was so ashamed that I never talked about it with anyone, including the father, whom I later married (which ended in divorce 11 years later. He went along with the first one and wouldn't have anything to do with the second one). 30 years later I have finally gone through the entire counseling program and have finally had the burdens of the "wrong choice" lifted off me emotionally, spiritually and soulfully. The list of lifestyle problems of drugs, alcohol, sex, NO self-esteem, rebellion, anger, resentment, no self-respect (and the list goes on) have been resolved through great counseling; however, these negative thoughts and behaviors absorbed more than half of my lifetime. I am currently 55 at this writing. The price has been too high.

10. How has your abortion affected others in your life?

It destroyed my marriage to the father of my living children. Too much resentment, too much alcohol. The anger I had carried for years would not go away, so I didn't have many friends. I became an isolationist, so the people that did love me couldn't get near the way they should be able to as a family.

11. Based upon your experience, what would you tell a woman considering abortion?

If you do this to your baby(God's baby), you will experience negative emotional, spiritual and social consequences beyond your imagination. There is no escape from these consequences without professional help. No woman (or man) can get through the devastation caused by an abortion without professional help, which shows how utterly destructive this "choice" is. Women that have had abortions and say they felt no different are still in the stage of denial, which we have all gone through; however, there is NO ESCAPE from what you will experience after the stage of denial. The day I had my first child and held him in my arms was the day I realized I had truly killed 2 other babies with my poor "choice". The pain of realizing what I had done nearly killed the joy of receiving this new baby in my arms. I had to carry all of this inside my head and my heart as I was too ashamed to talk to anyone about it. There is no resolve in abortion. If having a baby seems too difficult , then LET US HELP YOU through it all. There are so many people waiting to adopt an American baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Obviously anyone that believes abortion should be legal either believes in genocide, hasn't had an abortion, or is just bucking for a political edge to their position. Our Founding Fathers would be appalled. and in fact wrote into the constitution the rights of the unborn. Only God, the Creator of all life, can determine life or death. Setting yourself in His position is quite dangerous and highly unrecommended, if you want any kind of a fruitful life for yourself. Please reread the Constitution of the United States of America, then you as a judge will not have to struggle so much with a decision that was already made.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I have no recollection of being told that I would be taking a life or how the procedure would be done.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no counseling on post abortive symptoms.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

father's mother

9. How has abortion affected you?

I have extreme anxiety, depression. Was a heavy drinker for about 4 years after. Immediately following the procedure I was suicidal. Caused terrible distance between my parents and I for 11 years.

10. How has your abortion affected others in your life?

My parents have both suffered from the role they played in my abortion. My father now speaks out against abortion and mother volunteers in a pregnancy crisis center.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. Adoption is a great choice!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

no one has the right to choose death. If I killed my 2 hour old baby I would be imprisoned and abortion is no different. At eight weeks (actually early) my baby had a heart beat, finger prints and brain waves

all defining factors of human life. Abortion is nothing short of murder. Their decision to make abortion legal has and is making murderers out of millions of us. Thanks a lot!

2. How many weeks pregnant were you?

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not informed that I was carrying a baby. They told me it was a blob of tissue, that it was nothing. I was told it would be a quick procedure and that they would get me in and out and no one would have to know about it.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was given some literature, but don't remember what it said. None of the staff informed me of any risks or consequences of abortion - physically or emotionally.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I deal with depression and anxiety. My relationships are strained. I have a hard time making friends and keeping friends. A lot of people have judged me because of my abortion, but I do share my testimony. There are some people, who have supported me, and I appreciate that. As a result of my abortion, the Lord drew me to Him, and I got saved four months after my abortion. Hallelujah! God has been faithful in walking me through my healing process.

10. How has your abortion affected others in your life?

As I shared my testimony, many people opened up and talked about their abortions, too. My own mother told me that she had an abortion in 1973, and it was a secret that she kept locked away for 25 years. By telling her about my abortion, she had the confidence to tell me about hers and in return, she has been able to work through her own healing.

11. Based upon your experience, what would you tell a woman considering abortion?

That is will be the worse choice that she could ever make. God loves her and God loves the child that she is carrying. I will tell the woman that I will support her and listen to her, praying and reaching out to her.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion does hurt women - emotionally and physically. It prematurely ends life and in reality, two people die in abortion, the baby and the woman, who has the abortion, dies inside. She is left emotionally and physically wounded. Planned Parenthood is deceptive, they lie, they are cold and do not care about the welfare of women and children. Their womens' health care campaign is a hoax. It's destructive, damaging, and causes physical and emotional damage to women and families. Babies are precious and should not be considered something that can easily be disposed of, tested for medical experiments, or brutally killed through the horror of abortion. We must end the holocaust of abortion. We must end the killing. Life is a gift, not a choice. Babies are a blessing, not a burden.

HOW MY ABORTION AFFECTED ME

The State of SD

County of Pennington

My name is Kim Houchens. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Bernardino CA

//1985

2. How many weeks pregnant were you?

15

3. What type of abortion was performed?

Two day procedure. First day - seaweed inserted to cause dilating, 2nd day abortion performed.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

That is all I knew. A week or so afterward I ended up with an infection in my cervix and uterus area and went to the emergency room where I was given medicine for it. I had a tubal pregnancy later that I believed that infection caused by leaving scar tissue in my left fallopian tube (which had to be removed). I was 25 at the time.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed of consequences other than minor bleeding could occur. I was very surprised to develop an infection. The day I went to the Family Planning clinic to have the seaweed inserted in my cervix, to begin the abortion process, they did an ultrasound to confirm the gestation age, and when I asked to see the baby I was shown a "blur" on the screen. Now, with two kids, I know at 15 wks. the baby is not a "blur". I have pics of my boys at 10 wks. in the uterus and I have plainly seen the outline of their bodies and little hearts beating. My Mom also called the clinic wanting to stop me from having the abortion and I was never informed by the workers there. I found out afterward.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I will have to live with the knowledge of what I did for the rest of my life. It is a decision that I regret but cannot change at this point. If I had to do it all over again, I would not have made the choice to have an abortion.

10. How has your abortion affected others in your life?

I was ashamed when I told my two teenage boys what I had done. I have also had to have a hysterectomy (two years ago) and who knows that the abortion didn't contribute to my physical problems that led to this surgery?

11. Based upon your experience, what would you tell a woman considering abortion?

I would talk to her about how special she is and the baby inside of her. How God can take a seemingly bad circumstance and turn it around for His glory and her benefit. This is something I did not know and no one told me at the time I was in the situation.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is murder and wrong. It is an immoral practice and a shame

HOW MY ABORTION AFFECTED ME

The State of SD

County of Minnehaha

My name is Beth Douglas. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Houston TX

06//1982

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I received No information other than I should have someone drive me home. Nothing stating it was a human life that I was choosing to abort.

5. Were you adequately informed of the consequences of abortion?

Yes No

My memory of everything is vague, but as for any detailed information on the consequences, I dont remember any.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I was a horrible choice. My only thoughts at the time, was that it was not a good time in my life to have a baby, and the father and I were not together, we had split because he was becoming more and more abusive. Every year that passes I think of the baby I aborted, wondering if it was a boy or girl, thinking of what a wonderful life they could have had with an adoptive family. Today I have a personal relationship with Jesus Christ. I know I have been forgiven for what I did, but there is still a void in my life for the choice I made.

10. How has your abortion affected others in your life?

Others in my family dont understand why this bothers me. They claim they are pro-choice. They dont agree with abortion but that the person should choose. Obviously they dont understand what having an abortion does to the mother. I have tried to help them understand, but they are firm in there beliefs. All I can do is keep them in my prayers, and pray that if there son or daughters ever have to make the "choice" they will follow what God wants them to do. Every life has a purpose.

11. Based upon your experience, what would you tell a woman considering abortion?

I would strongly encourage her not to. Adoption is a worthy choice. It is a human being from conception. I would share my experience as well as thousands of other women who share the same feelings. How many women do we see that have had abortions that are standing up and saying they are so glad for the choice that they made???? Few and far between! I would also encourage her to have an ultra sound. She would be able to actually see the Life inside of her!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

How incredibly wrong they are. Again stating there are very few women saying how glad they are they did this. Most are living with the shame, and guilt that come with having an abortion. Especially as they mature and cross different points in life. The age of the child that should be is always with you. Adoption is an alternative!!!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TN

County of Knox

My name is Sandi Nanette Gray. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Chattanooga TN

04/05/1975

2. How many weeks pregnant were you?

15

3. What type of abortion was performed?

Vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was given a pamphlet to read. No one talked to me beforehand except the nurse who told me to put on the gown and lay down on the table.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told there might be some cramping and bleeding. I hemorrhaged afterwards and had to be hospitalized twice and have d & c's both times. No one told me that would/could happen.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My father

9. How has abortion affected you?

I have had DEEP depression around the time of year that my baby would have been born, in the fall, and have suffered from serious low self esteem. I was married but separated at the time and we were working on reconciliation but my husband pursued the divorce after the abortion.

10. How has your abortion affected others in your life?

I have other children and they have watched me go through the regret, remorse and sadness. They too wonder about the child who would have been their sibling.

11. Based upon your experience, what would you tell a woman considering abortion?

NO, under no circumstances would I tell a woman to have an abortion. There are other ways, and they are the right ones.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder. It has devastating and long-lasting effects on the mother and the father. Would it bother us more if they used guns?

The State of TN

County of coffee

My name is Eugenia Appleman-Black. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Beaumont TX

10//1987

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was forced by my husband (ex-Husband now) into going to the clinic and was trying to tell the nurses and the doctor in the back of the clinic I didnt want the abortion but no one was willing to listen to me. He was standing in the front of the clinic with me when the paper work was done but I was too upset and scared to tell anyone while he was there so I waited until I got to the back and they wouldnt take the time to here what I had to say.

5. Were you adequately informed of the consequences of abortion?

Yes No

Same as above

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My Husband (now ex-Husband)

9. How has abortion affected you?

I suffered from severe depreesion, anger and guilt as well as had a prolapsed uterus occur and my bladder fell. I had to have surgery to repair this and still suffer from a bladder defect. I was hospitalized for severe depression twice and had to undergo outpatient therapy as well. I have since remarried and have been unable to have children and have even miscarried.

10. How has your abortion affected others in your life?

It affected my entire family because of my depression and anger.

11. Based upon your experience, what would you tell a woman considering abortion?

There are other alternatives and it is not worth the guilt and depression plus it could and does cause

poor effects to your body such as prolapsed uterus and you may never have another opportunity to have children.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

No, abortion should not be legal. It gives a man power to force the woman into doing something she does not want. It has long term affects on the women such as depression, anger, fear, guilt and even thoughts of suicide. It has physical affects on her body such as prolapsed uterus and bladder, unable to have any children beyond that abortion. Abortion should only be used in hospitals where it is medically necessary to save a womans life and even then it should be soley the womans decision to do so. God created man and woman for the propose of procreation. Thou shall not kill. Abortion kills not only the unborn child but the mind soul and spirit of the one having the abortion. I know I was one of those persons and I was forced into it not once but twice by the same man.

QUESTIONS

1. Where and when did your abortion occur?

Nashville TN

04/02/2003

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

Not exactly sure... D & C I think

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

All the information lasted about 15 minutes in the basement of a building. I was not very informative, more rushed to get you through. There were about 6 of us, ages ranged from teenagers to middle aged women. You could tell the teens were scared to death and very confused.

5. Were you adequately informed of the consequences of abortion?

Yes No

They just told us the basics and then "shipped" us to the next stage.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Baby's Father

9. How has abortion affected you?

I was not living the greatest lifestyle before hand, but after it was a severe downward spiral. I turned to drugs and alcohol more and more to dull the pain. I felt that I was a terrible person and lived with the regret and guilt everyday. I pushed away anyone that wanted to help me and almost lost everything I had. When I got pregnant again in 2004, I had a very difficult pregnancy. My doctor said that it was likely a result of the abortion the year before. I had bleeding several times and had to have numerous ultrasounds during my pregnancy. My placenta did not nourish the baby like it should due to damage from the abortion. My new husband and I feared for our unborn baby's life. I finally had to be induced early for fear that the baby would eventually starve to death. The baby was born healthy (by the grace of

God) but very small. Still to this day she is very small for her age and has a hard time gaining weight. This experience was a very hard one to deal with but I know now that I have a voice to help others not make the same horrible mistake.

10. How has your abortion affected others in your life?

Not many know. I did eventually affect my later pregnancy as stated above.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her my story. That she has many other options and those are far more rewarding than dealing with the pain and suffering that she will deal with for the rest of her life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That they need to walk a mile in someone else's shoes. They are quick to judge what they think is right, there is only one true judge. That is God and we will all be judged one day by Him. I think before they are quick to open more clinics, start opening more choice life places. Start teaching the importance of abstinence to our youth. Educate others about what CAN HAPPEN!!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It almost destroyed be. I drank too much, experimented with drugs. I was going through a terrible divorce when I got pregnant. Until the divorce I didn't believe in divorce OR abortion. It was the most traumatizing thing I've ever been through.

10. How has your abortion affected others in your life?

It hasn't because I didn't tell anyone. Only recently have I begun to tell people.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT! Think about adoption, anything but abortion. It will be the biggest mistake of your life. You won't think so at the time but trust me it will haunt you forever.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should not be legal under any circumstances. If I did not have the option of abortion not only would I have a beautiful child but I would not have been so traumatized. Having an abortion is something I will never get over. It was the worst thing I've ever done.

my mother

9. How has abortion affected you?

felt like I was unworthy to ever have a child after what I did...or a good decent relationship...or forgiveness from God. I now have a wonderful child and forgiveness..Thank to God!

10. How has your abortion affected others in your life?

Not many close to me know...when/if they find out I don't know what the affect will be.

11. Based upon your experience, what would you tell a woman considering abortion?

That when you find out you are pregnant ...especially unexpectaly..it is NO time to make difficult decisions. Aborthion does stop a beating heart. There are resources out there to help you to give away

or keep your baby. Don't call an abortion clinic for advice...they are in the "business" of giving abortions. It is NOT an easy way out of your problem....it WILL affect you and you WILL regret it the rest of your life. Your child has the "right" to live...your mother chose to have you....do the same for your child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

NOONE..including the mother has the "right" to kill an innocent human being...created by God and in His image It is murder..plan and simple. By legalizing it and making these mothers believe it is "ok" if it is legal..the blood of millions of babies is on your hands. And the mother almost always regrets her decision...and realizes later she committed murder. Would you have liked your life to be put in the hands of a stressed out..hormonal..young ...unmarried pregnant girl...like most abortions have been performed on?? You cannot make a "wise" decision when others are telling you it is ok..especially when the highest court in the land condones it.

My name is P M I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Salt Lake City UT

//

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Vaginal is all I know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 14 and I cannot remember many details about the abortion. The decision was not mine because options were never discussed. My father made all the arrangements. It was never discussed again afterwards. Unfortunatley, I had already set a precedence and had a second abortion at the age of 18.

5. Were you adequately informed of the consequences of abortion?

Yes No

See above. I cannot remember anything from the 1st abortion at 14. At 18, I only remember them describing that I would have some mild cramping.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My father made the decision at 14

9. How has abortion affected you?

Absolutely Loss of self esteem and devalued as a woman. Gained weight. Depressed my sophomore year so much so I stayed in my room alone most of that year. I then stuffed the event for so long that I decided later, when I became fairly sexually promiscuous that abortion was fine. I really believed it wasn't a life until birth. But, I'm not stupid, I realize we can rationalize anything.

10. How has your abortion affected others in your life?

Yes. I have never shared this with my spouse. It's been stuffed. In later years, 18 - 23, I became very permiscuous. And ironically now, I have had no sex drive/libido since having my son at the age of 30. So my wonderful husband is dealing with a dead or sexually paralyzed wife. He didn't choose that.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't. No matter how embarrassed, ashamed, inconvenient, etc... The emotional, spiritual and physical scars NEVER go away. I am now 45 years old and still have unbelievable guilt. I have had depression a lot of my life since that time. I gained a lot of weight. Then I lost weight. I finally had to take anti-depressants at the age of 35. The guilt is unbearable. I've also had a lot of female problems. There is not a day that doesn't go by that I fear my teenage child now won't be punished for my mistakes. I also have lost ALL interest in sex. I, too, believe that is a result of emotional scars.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I don't think it should be legal. But in all honesty, I don't know if I would not have made the same decision based on what little understanding I had at the time. My only concern is in the matter of rape. But, the scars will remain and most likely will be worse than the rape. At least you wouldn't feel like a murderer of innocent life forever.

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was offer a hand held video to watch if I wanted to but that was basically all. I was offered an, I thought aspirin type pill, I suppose it was a calming type of medication, I do not really know what it was, I just took it like a robot.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told of any consequences of abortion at all!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The man I was married to,

9. How has abortion affected you?

I suffered greatly from my abortion. I went into a deep depression, considered suicide. My marriage ended within a year. I slept around after that, which was not acceptable to me in the past. I had nightmares. I felt I would never be able to be around children. I could not even watch children on tv. I had trouble being around my parents, I had allowed their first grandchild to be killed. I felt I did not deserve to have any children now. My self esteem diminished. I hated myself. I began drinking to escape the emotional pain I was suffering as a result of my abortion. A part of me died that day along with my baby! When I got help some 7 years later from a Christian post abortion counseling center, I was able to experienced the anger and hatred towards the father of my baby that had been stuffed down, that I literally planned how to kill him. I did not care what would happen to me I just wanted him to know how much he had done to me. Thankfully I was remarried by then and actualy had 2 children. They are the only reason I did not carry out my plans. I had trouble enjoying my babies as babies because they

reminded me of my abortion. If not for the grace of God, and the forgiveness I experienced when I accepted Jesus I honestly do not know if I would be here today. The forgiveness of Christ and the restoration through that is the only way I found to function and finally forgive myself as well as the father of my baby who died that day.

10. How has your abortion affected others in your life?

It affected my relationship with my second husband. I was not able to be as loving as I should because I could not really feel. My children do not know about the abortion but there are ways it has negatively affected my parenting. I think about how much my daughter would like to have an older sister and knowing that she does, a half sister, only she was killed before she was born. It affected every relationship I have because it affected me so devastatingly.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her the truth about the development of her baby. I would tell her the truth about the abortion procedure, suction and D&C. I would tell her the truth about post abortion syndrome. I would tell her don't do it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That abortion is murder. I have never met a woman who is glad she had an abortion but I have met many who are beyond regretful. There is no way to adequately measure the damage abortion does and has done to this country, to the countless women who have attempted suicide, become drug addicts, alcoholics, divorced, bad mothers, overprotective mothers, or the women not able to have children as a direct result of an abortion. How is that and the many aspects of the harm of abortion justified in being legal? Cigarettes are banned in public buildings because second hand smoke is harmful to those who breath it, yet something so much more damaging is legal in the name of free choice. Please make abortion illegal period. Protect the lives in this country that you are suppose to be protecting with your decisions.

HOW MY ABORTION AFFECTED ME

The State of TN

County of Rutherford

My name is Cynthia I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Atlanta GA

08/12/1998

2. How many weeks pregnant were you?

23

3. What type of abortion was performed?

They didn't tell me what type of procedure, but I believe it was partial birth.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They just said that I was past time for the "normal procedure" whatever that was. The only thing I was told was that they would have to open my cervix to do the abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

They just told me that I would need to obtain birth control from my doctor and that I couldn't have sex for six weeks.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

No one told me that I would regret what I had done for the rest of my life. The depression was awful. My self-esteem was low before the abortion, after that it just got worse. My emotional pain only got worse when I got pregnant again. Every day I held my newborn child I was wracked with guilt over what I had allowed myself to do. I never thought that I would suffer though all of this alone. No one ever talks about having an abortion or the effects it had on you. If someone would have told me the pain I would experience or the guilt and regret I would feel I never would have done it.

10. How has your abortion affected others in your life?

They couldn't figure out why I hated myself so much, why I was so bent on self-destruction. They knew I had something bothering me but I would never tell them. I left people out. My abortion made it hard for me to get close to people. They might discover my "secret".

11. Based upon your experience, what would you tell a woman considering abortion?

Please, please don't do this. Get on the internet and find out what the different types of abortions really do. Don't think that you won't look back on your abortion and not regret it. You are lying to yourself. If you don't think you can give your baby a good life please consider adoption instead. Abortion follows you around for the rest of your life, like a scarlet letter on your chest.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe with my whole heart that this should not be allowed. The effects aren't just physical, the emotional ones last for longer and are more devastating. Just consider the links to cancer and depression.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TN

County of davidson

My name is Donna Morton. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Long Island NY

01//1973

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

currage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No, the abortion law was just passed and not to much information was given me. I was told about the precEDURE done to me and it would be over shortly and would be able to return to Massachusetts soon after it was done and to return to my gyn doctor in 6 weeks for a check up. Nothing said to me about the emotional, physical and spiritual impact it was going to have on me afterwards.

5. Were you adequately informed of the consequences of abortion?

Yes No

No, none at all. Not a word was said to me . Not about the guilt , shame and condemnation I experienced and the loss of the child who I murdered with the abortion procedure. Nothing, Nothing!!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

myself

9. How has abortion affected you?

If I had someone to inform me as to the damaging effects it left on me afterwards, that it was murder of a baby. to STOP and really consider what I was about to do. I would not have done it. I could not have any more children after the abortion. I have forgiven myself for the murder of my child. I often think of the baby and wonder wheter it was a girl or boy. The doctor who performed the abortion and the nurse who was there know the sex but I NEVER will know. I know NOW how wrong it was and that this murder of babies needs to be stopped. I will often talk to women of any age about it openly today and will talk them out of the abortion and encourage them to place the baby up for adoption to spare them from the horrible and diverstating effects it has on everyone in the family, all the way down to the grandparents. The baby is life right from the beginning of conception to the birth of the child. Not a thing to be

deposed of because the sexual act, or it is inconvenient for us at that time in our lives. God is looking down on our country to set an example for the rest of the world to make it right before Him {GOD ALMIGHTY} to END ABORTION NOW. Our forefathers founded this wonderful country based on Godly Principles and we must as a Nation Get Back to these principles and save these innocent lives. There LIVING BEINGS.

10. How has your abortion affected others in your life?

My daughter is and only child. She was my first child. I urge her to encourage her friends or anyone she meets considering abortion to reconsider giving the baby life , place the baby for adoption or keep and raise the baby . My daughter has lost two of her babies in utero and recently has adopted one of the babies that the birth mother had considered to abort but gave him life to bring much joy to my daughters whole family. Adoption is the answer not death of the baby. What has this country come to when it allows killing of babies and our government pays for it . These babies were to be citizens of this country.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it!!!! Choose to give the baby life. If you cannot raise the child yourself place it up for adoption. There are many families waiting for these babies to bring them the joy and family completeness as the baby my daughter adopted. The emotional , spiritual and physical effects are tremendous. That there is help for her , just ask and it will be given to you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

NO DON'T DO IT!!!!!! Bring our country BACK to the GODLY PRINCIPLES it was FOUNDED ON . Search your conscious. Do what is right before God and not what is convenient for this horrible immoral, inhumane , selfish, society we have allowed ourselves to become. REMEMBER every nation is watching us to set the EXAMPLE , to make things RIGHT BEFORE GOD . Make OUR COUNTRY HONORABLE and BLESSED BY GOD AGAIN. DO WHAT IS RIGHT NOW, NOT WHAT IS WRONG ANY LONGER. BEGIN WITH OUR COUNTRY, SET THE EXAMPLE. Let us be the GREAT NATION UNDER GOD AGAIN. LET this Nation be the first to DECLARE THE END TO ABORTION

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TN

County of Sullivan

My name is Jennifer Miller. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Knoxville TN

04/21/1981

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it would be quick, easy, and that I would "get over it" very quickly.

5. Were you adequately informed of the consequences of abortion?

Yes No

No mention was made of the mental, emotional, and spiritual damage.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Sort of-father of child didn't want it

9. How has abortion affected you?

I abused drugs and alcohol for years afterwards. I married the father of that baby. He was physically, mentally, emotionally, and verbally abusive to me and to the three children we ultimately had. I suffered from chronic depression. I stayed married to him for almost 26 years, believing that I didn't deserve better because of what I had done.

10. How has your abortion affected others in your life?

Mt choice to remain in a very dysfunctional relationship has had many consequences for my three sons. They have all suffered.

11. Based upon your experience, what would you tell a woman considering abortion?

That she has other choices; that abortion will not solve what she believes to be a problem. That it is not a quick fix and that it will haunt her for the rest of her life. That the baby she is carrying was created by God and no matter what the circumstances of the conception, she can find a way to give her child the gift of life even if she chooses not to parent.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That abortion is harmful to women; it does not offer the 'freedom' that it claims to offer. Women need to be offered other alternatives. The abortion industry cares about profits, not what happens to the women that are it's victims.

HOW MY ABORTION AFFECTED ME

The State of TN

County of Hardiman

My name is Karen Follis. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Memphis TN

06/20/1975

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was young and scared so did not ask a lot of questions. To my best recollection I was not told the details of the procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

Again I may have been and signed the consent form I'm sure. However, no details except the actual process itself, how I felt after, and how it is with me 33 yrs later.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

parents

9. How has abortion affected you?

I had two, fairly back to back. I regret what I did deeply and think of the children often. I have five children and brought them up fighting against abortion. They have been picketing clinics and one made a trip to Nashville to challenge lawmakers. One of my daughters became pregnant unexpectedly. She had a solid bass as to what the right move was for her. I shared the pain that never leaves from abortion. I took the lid off my garbage can when needed.

10. How has your abortion affected others in your life?

My children were shocked when I shared with them about my 2 abortions. I home-schooled my 5 children and raised them in the Christian faith. So, this post conversion act of murder was very shameful to own.

11. Based upon your experience, what would you tell a woman considering abortion?

I can only tell her how 33 years post abortion my 2 children are never far from my heart and mind. Yes, they are covered by Christ's blood and buried in the depths of the darkest sea. However forgiving I am by my Heavenly Father I find it impossible to fully forgive myself and will take these feelings to the grave. I am a murderer of 2 precious children! Dance around it all you want. It is what it is!!! You will never fully recover!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Have you personally experienced the many physical, emotional, long-term mental ramifications of abortion in your life. As we advance in defining life from a technical and biological stand-put they are and will continue to come to the ultimate conclusion that life does in fact begin when the egg is fertilized. Call it a blob, glitch on a screen, whatever. They will ultimately prove themselves wrong as we advance is this science. Look at the latest ultrasounds compared to 15 yrs ago. Science WILL catch up to creationism and the undeniable fact that all life begins at conception! Christians were complacent during the Roe vs Wade law and are reaping what we've sown in my opinion. We need a revival on a huge, national level to stand up, stomp out, refuse to budge approach on these murders. It's not a choice! It's either death or life!!!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TN

County of Hamilton

My name is Karen Eustice. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Chicago IL

02/14/1986

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Just a termination - i didn't know there were types

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It was explained as a medical procedure where a suction device is inserted into the uterus and terminates the pregnancy.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told there may be some slight bleeding or spotting. But I had no idea of the devastating depression and all of the other emotional side effects.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I'm just now learning how the abortion has affected me but I have suffered the depression and the infertility. It's been devastating and it's been over 20 years and I still think of it daily.

10. How has your abortion affected others in your life?

I don't know how it affected others because I am just now understanding how it affected me. But I'm sure hiding the abortion has caused problems for others around me.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT - RUN AS FAST AS YOU CAN TO GET OTHER HELP BUT JUST DON'T HAVE AN ABORTION. What if this is your only chance to ever have a baby? As soon as I found out I was pregnant I purposefully did not think of it as a baby but just a condition because if I thought about it then it would become a person. I had always been against abortion because I knew there were so many couples wanting to adopt. But when I found myself pregnant I panicked. I had no idea of the life

time of suffering that would follow. And, I also had no idea that was going to be my only opportunity to ever have a baby. So here I sit almost 23 years later still suffering the trauma of the abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

As I sit here writing this declaration the television is showing a commercial for erectile dysfunction and the commercials are full of disclaimers...so where were the disclaimers when I went to have my abortion? Are we really a society that places more value on making sure a man can have an erection than to fully inform women of the devastating lifetime side effects of abortion. Don't women deserve better treatment? If you are pro-abortion then why don't you make sure women fully understand? I am pro-life so I disagree with the pro abortion position but at the minimum why are pro abortion advocates scared to fully inform? Why don't you give every woman an ultra sound to prove to them that their pregnancy is just a mass of tissue? Then after they see that mass they can go ahead and have their abortion. No this can't be done because women will see that it's a child and not a mass. If pro abortion people state their case based on womens rights then they are truly missing the definition as women have the right to be informed. If they later choose an abortion then that cannot be controlled or legislated.

My name is cindy hammontree. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

chattanooga TN

09//1979

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I remember only being told it was not dangerous. That I would go home that day.

5. Were you adequately informed of the consequences of abortion?

Yes No

The nurse said she had had 3 abortions and she did not have any consequences. I had two abortions. If understand right, she died a few years later of cancer. Please check this info. with AAA Womans Clinic Chattanooga, TN

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Emotionally it was immediate. The shame and guilt was horrible. Even though I have had Post Abortion counseling, it is still hard for me to talk to some people about it. I had a tubal pregnancy and that was the last time I was pregnant. I have never told any of my doctors. I am currently taking treatment for Hep C. And have often wondered if through abortion is where I contacted this. I have probably had this for 30 years +. I was a drug and alcohol user due partially to the emotional issues of abortion.

10. How has your abortion affected others in your life?

I have no children and was married once briefly to the father of my second child. My relationships have all been rocky and I have a trust issue. I am now 51 and not married. My own health issues have affected my parents and my siblings emotionally and financialy. I have been a sturgelling business owner for 26 years. I have seen friends who did not give up their children go on to have productive lives.

11. Based upon your experience, what would you tell a woman considering abortion?

Trust Jesus first with your own life. Let God have control of you and the life He has placed with you. Death is not the answer. You will never accomplish what you are out to do, which is to erase the problem. That little spirit will always live. And your own spirit will always mourn for your child. Money, career, relationships are not worth it. The consequences will go on for the rest of your life. It doesn't matter how unattached you may think you are. Give your life a chance and your child's. God promises to supply and protect.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would ask them to look at the medical studies. I have looked at my own personal friends who have had abortions. 1 and 3 of my 4 friends, 15, from the 1970's alone had abortions. 4 abortions, health, drug, alcohol, emotional issues. #5 friend who became pregnant at 16, married the father, went on to have 2 more children, are still married and looking forward to becoming grandparents. They are all leading healthy productive lives. By the way they had been drug and alcohol users. But because of the need to supply for their children pulled themselves together. The sister is 1 of the 4. I feel our nation is paying through the nose in medical problems due to this one issue. This affects all of us, the whole nation. It's a disease which spreads into innocent lives. Scientifically life begins at conception. I beg you to not make this a political issue any longer. It is a life issue. Too many politicians say they do not believe in abortion themselves but think it should be legal. Why would you tell someone it's ok by making it legal? If you believe it's wrong, vote it wrong. Stop the politics. Make a stand! Stop putting such a decision in the hands of young unknowing people. If it had not been legal for me, I really believe I would be healthier and a more productive citizen. God is a healer. I pray He will cause you to look at your own lives and those around you. I am sure you can see the consequences of abortion. Please stop killing the nation.

QUESTIONS

1. Where and when did your abortion occur?

Columbia SC

09/07/1989

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

suction aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I only remember being handed a pamphlet to read and then asked if I understood it all. I didn't, but said yes. I just wanted to quickly get through my abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was only told about the immediate physical consequences such as bleeding and cramping. I was never informed about any long-term physical or psychological consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I lived in shame for 19 years after my abortion. It was my dark secret. I abused alcohol, faced infertility, lost friendships, nearly lost my marriage, faced depression after not being able to conceive another child (I did have 2 beautiful children eventually).

10. How has your abortion affected others in your life?

My roommate at the time took me to the abortion clinic. She has hurt for years for her part in it.

11. Based upon your experience, what would you tell a woman considering abortion?

Your baby is alive. Its heart beats at 5 weeks. There are other options. You can still have a full and happy life. The long-term affects are not worth it. There are so many wonderful people who will support your decision to keep your baby or to give your baby to another family. I would also share my faith in God, the one who gives life and forgives and protects.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion hurts. The hurt may not come right away, but it comes. Many women are uninformed and rush into abortion without really knowing what they are doing, just as I did. I wish that someone had counseled me and not simply given me a pamphlet and a pregnancy test and sucked my baby from me.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TN

County of Knox

My name is Susan Molitor. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Champaign IL

07/11/1993

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

I don't remember the name

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one explained to me what would be happening. I remember being very upset and nervous and they gave me a valium to calm me.

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't remember anyone telling me the possible physical consequences or any possible psychological consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

I felt pressure from my boyfriend.

9. How has abortion affected you?

I remember it being the most painful experience I feel anyone could go through. I felt like a part of me was ripped from the inside of me. I remember screaming during it and crying uncontrollably afterwards. The next year of my life, there wasn't a day that went by that it wasn't the first thought when I woke up in the morning. I battled depression. I felt so horrible about myself that I lost any self respect or esteem. I was involved in self-destructive behaviors because I felt unworthy of love, and I tried to dull the pain through alcohol. I finally realized I needed God to rescue me after I had sunk pretty low. I accepted Jesus as my Savior in 1998 and He has forgiven me and has worked on healing me from the pain of my abortion.

10. How has your abortion affected others in your life?

My parents lost a grandchild. My children have a sibling in Heaven, which I will tell them about at some

point when they are older. My husband was affected by it because I had many issues to deal with as a result of it.

11. Based upon your experience, what would you tell a woman considering abortion?

It is a lie. They tell you it is a choice. What they don't tell you and what no one seems to want to talk about is what happens after that choice. What are the consequences of that choice? It is medically proven and Biblically proven that life does begin at conception. If you chose abortion, there are emotional and spiritual consequences of that choice. I made the wrong choice. There are days I think about my baby even today, 15 years later, and wonder what she looks like. If I would have made the right choice and chose life, yes, it would have been hard at times. However, I would have known I made the right choice, and I wouldn't have had to wonder what my baby might have looked like. Now that I have three beautiful children of my own, I know I missed out on the pleasure and joy of her laugh, her loving eyes, of playing with her. Thankfully, I will get to do these things in heaven with her someday. However, it doesn't make up for what I did and I wish with every fiber of my being that I could go back and make a different choice. Don't make that mistake. Don't be typing a declaration 15 years from now wishing you would have chosen life and could have seen what your baby looked like. You have an opportunity to make the right choice, the loving choice. It is one you will never regret.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

First, I would tell them to review medical facts. I would tell them that the baby's heart beat starts at 19 days. I would ask them to look at an ultrasound and see that you can see the baby's perfectly formed hands and feet at 10 weeks (around the time when many abortions are performed). I would ask them to listen to ultrasounds that have recorded a baby screaming inside the womb during an abortion. I would ask them to go back and review Roe V Wade and recognize that it was all based on lies. I would ask them to talk to Jane Roe and get her story about what really happened. I would ask them whose right it is to decide if someone lives or dies. The baby is a life even though it is inside of the mother. A baby is not part of the mother's body, it is another human being. If a pregnant mom and baby are killed, it is a double homicide. It is interesting that if a baby is deemed "wanted" than it is human and if he is "unwanted" that it isn't considered a life. It is murder, plain and simple.

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

vacuum (not sure of exact name)

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I feel I was informed enough about the "medical procedure" part, however, I was not fully informed about the level of development occurring in the so called "tissue" being removed. My 12 week old fetus had developed hands and feet, though very small, that looked just like my own. I was told it was a mass of tissue the size of a pea. Science was advanced enough to know better when I had my abortion. I felt very deceived when I learned the truth.

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't feel I was adequately informed of the emotional effects would last so long. The nurse was nice and comforting, but she was wrong. She said "it will all be over soon". "Soon" was nearly 15 years ago, and I know now the pain was just beginning not almost over!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I am currently in a post-abortion study trying to heal from the guilt and grief caused by what I did.

10. How has your abortion affected others in your life?

I have felt secretive and ashamed, causing me to feel I can't tell anyone what I've gone through for fear of what they will think of me. I have difficulty with emotional intimacy because I always feel I have to be on guard.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. I was scared and alone, but if I had reached out to people who could help me (e.g.

pregnancy crisis centers), I know now that I would've been fine. Instead I made a hasty decision out of fear that I would do anything to take back.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Because it is legal, I thought it was ok. I never thought something legal could effect me so negatively. Regardless of when you think life begins, a mother knows when life begins...for the mother, that child's life begins the moment she finds out she pregnant. And if being legal makes it right, then why is there so much shame and grief involved? Why don't we feel we can tell everyone if it's just a "procedure"? Why do we not want anyone to find out? Because, inherently, we know it is wrong.

3. What type of abortion was performed?

vacumn I think

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was just told they were going to put me asleep and take away my pregnancy

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told nothing but that I might bleed for a few days and if it went on for a very long time to see a doctor.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents

9. How has abortion affected you?

At first I am not sure it affected me much, but as the years have gone by and abortion was in the media so much I began to think more about the decision I made. I resorted to drugs to help me forget. I even declared I was pro-choice because I never realized the extent to what I had done. The more I became educated about medical things, as I became a medical assistant I realized more and more about the horrible thing I had done. I lived in a state of condemnation and was ashamed. I shared with each of my sons as they became old enough about how they would have had another sibling. They did not judge me, they loved me the same. I was afraid to tell others as I knew in my heart they would judge me. Not until I lost my oldest son in 2005 did I think about getting help. I knew I had to face this so I went to a Women's resource center and took the study on PAS. I learned so much about when life begins and the growth of an unborn baby. I wept for the loss of the life of my child, but found compassion from the ladies in the clinic. I also realized that God still loved me and forgave me.

10. How has your abortion affected others in your life?

I do not think it has affected anyone in my life adversely. All of my sons are pro-life. My husband is still pro-choice though.

11. Based upon your experience, what would you tell a woman considering abortion?

i would tell a woman that you might think this is an easy fix at the time but with time it will haunt you. You will begin to think about what you actually did and there is no way you will be able to make it better. If you do not want the baby, give it up for adoption. There are a lot of couples out there that would love to give an infant a home and tons of love.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion not only affects the life of an unborn child but after time it affects the woman that makes the decision to abort her child. Some turn to drugs, others have emotional problems and others live in shame for the rest of their lives. Not only is it wrong to take the life of the unborn, but it is wrong to sentence a woman to a life of condemnation by so many others. Women should be educated before they make a choice that will change her life forever.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TN

County of Hamilton

My name is Lynn Jefferson. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Chattanooga TN

08/16/1981

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

D&E

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They did not tell me any of the after affects of abortion, in fact the nurse told me I had nothing to worry about, it was no big deal!

5. Were you adequately informed of the consequences of abortion?

Yes No

No! I was told nothing about how an abortion could possibly leave me infertile, nor did they tell me cancer is linked to abortion. Years later I was diagnosed with colon cancer, along with infertility after marrying the man of my dreams who because of my choice was unable to have a son or daughter from his loins.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My daughters father.

9. How has abortion affected you?

Although I have been blessed by my God in receiving his unlimited forgiveness for the sin of murder, there is not a day that goes by that I do not think of my children, Patrick Allen, Saraphina Anna' and Benjamin who died from a miscarriage due to abortion. It would take a life time to describe the devastating affect abortion has imprinted in my life and the lives of my loved ones. One major issue at this poin is the enormous loss my son Byron has and is experiencing in not having his siblings in his life, not only did it affect me, but his life was forever changed as well.

10. How has your abortion affected others in your life?

Our world is without the lives of three important person's who was to make a major impact in the lives of

our family and our world! I now understand that every life is precious no matter how they are conceived, God has a master plan and every time we allow life to be destroyed we destroy a part of us all.

11. Based upon your experience, what would you tell a woman considering abortion?

My friend life is full of uncertainties, but one thing is a surety our choices will follow us! Looking back the crises of pregnancy was never as big or complicated as I thought or allowed others to persuade me into thinking. SLOW down, THINK, obtain factual information ask yourself do I want live with the reality of Abortion? For abortion has never solved anything it only destroys. You are STRONG, you are WISE, and you have a FUTURE make a choice you can look back a year from now and say it wasnt easy, but I made a choice of a life time one that I can live with with honor and pride and most of all peace within your soul.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Murder is never an answer to a problem. you are empowered to protect, yet you grant men, women, young boys and young girls the right too commit an unthinkable crime. You pass laws to convict those who take the lives of others, yet you yourselves pass laws to legally destroy an innocent souls right to their God given future. Be courageous, be the wise men and women your are called to be choose life! for a country that shed the blood of the innocent can and will never prosper. Just as the men and women that choose abortion must face their consequences so shall it be unto you, for if we are either part of the solution or part of the problem.

QUESTIONS

1. Where and when did your abortion occur?

Memphis TN

02/15/1975

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that it wasn't a baby yet. That I was stopping the pregnancy before it 'turned' into a baby. I was 18.

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend

9. How has abortion affected you?

Anger, drugs, alcohol, wanting to run away from who I was and life, in general.

10. How has your abortion affected others in your life?

I shut down, closed them out of my life. Couldn't receive their love or really give them love. A big part of me died that day.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion is criminal. It's murderous. It is grievous. Emptiness and torment to your own conscience because it violates ALL that you know is right.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Legalizing abortion is equal to legalizing MURDER. Don't want someone in your life? Go ahead and kill them. Walk away and see if YOU can live with yourself.

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

D and C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

i thought it was nothing more than a bunch of cells - had no idea it was a baby at that point

5. Were you adequately informed of the consequences of abortion?

Yes No

had no idea that i would wake up screaming i didn't want to do it...and suffered for years with eating disorders, addictions, failed relationships and suicidal thoughts and regret that deepens with time

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

There is not a day that goes by that i don't regret that decision. See answer 5.

10. How has your abortion affected others in your life?

absolutely

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT DO IT. You will regret it and your life will never be the same. It will haunt you and it doesn't solve the problem it creates ones that are devastating. God is giving you a gift in this baby and don't kill it. God will give you what you need to be ok if you accept the gift of the baby and let it live. You will live too as a result. When you have an abortion, the baby dies and so do you inside.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If it had not been legal i never would have considered abortion. I thought that since it must be legal it

must be ok. I couldn't have been more wrong. I was a rule follower and would never have considered breaking the law. I would have had my baby and she would be 29 years old now. She would have been a blessing to me and the world. I wish with all my heart that abortion had been illegal and my life and so many others with be so different without the constant heartache. I wil do whatever i can peacefully as long as God has me here to see that abortion is ended so that nobody else goes through the horror of abortion.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The doctor told me it was like cutting off the end of my little finger.....that was all.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told anything. This was something that took 2 days. I remember there was something placed to withdraw fluid and then the next went back for the scraping out? (as I remember)

6. Were you informed of any link between abortion and breast cancer?

8. Did anyone pressure you into having an abortion?

Yes No

a boss who didn't want to lose the office! He paid

9. How has abortion affected you?

for sometime after, at night when I'd try to go to sleep, I heard the baby saying to me, "why did you kill me - why did you do this to me?" All I could do was cry and I by NO MEANS am a withdrawn, wimpy person. I am (an was then) a single parent of 2 children (then 3 & 5). This was a date rape. I am a strong independent tough individual except when it came to this. For a LONG time after, I could NOT look at a pregnant woman without losing it. I would break down in uncontrollable tears. I said I did what I did for everybody but me and God. Even my mother looked down on me for even being in the position in the first place.

10. How has your abortion affected others in your life?

It took a sibling from my other 2 children, a grandchild from my parents and the responsibility from the individual who put me in the position in the first place. It also put my children through undo stress at the time because I could not deal with the situation and my stress was reflected onto them for a good

while.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT EVEN CONSIDER IT!!! YOU WILL PAY FOR IT THE REST OF YOUR LIFE! YOU CANNOT SHUT OFF THE FEELINGS AND ONCE IT'S DONE IT'S DONE!!!! GOD IS THE ONLY ONE WITH THE ABILITY TO CREATE LIFE, HE IS THE ONLY ONE WITH THE RIGHT TO TAKE IT!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You have no right to usurp yourselves over that of Almighty God. Though not prepared at this moment, I would adequate prepare and arm myself with the overwhelming PROOF that abortion IS WRONG, physically damaging and emotionally devastating!!! IT IS MURDER WHETHER INSIDE THE WOMB OR OUT! We put people in prison and on death row for doing the same thing, why then does the age of the victim matter? You call yourselves civilized human beings but how barbaric is it to kill someone who cannot speak for or defend him/herself? In any other case you would be outraged but in the next breath you are making it legal? Explain that to any mature, educated free thinking civilized person...explain that to ME! YOU CANNOT!!!!!!!!!! We jail people for animal CRUELTY but yet endorse even applaude HUMAN DESTRUCTION??? What have we come to? and we call ourselves the most advanced nation on the planet? ..."He that siteth in the heavens shall laugh....."

My name is Laurie I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Jacksonville FL

01/20/1987

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

unknown

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not given any explanation as to how an abortion is performed, only that I would no longer be pregnant. (I was 18 years old at the time and really didn't know how it was done).

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

According to my fertility specialist, it is a possible reason for my diagnosis of "unexplained infertility". My husband and I were never able to conceive, although all fertility testing came back normal. Also, a lifetime of shame and regret. Also, a lifetime of shame and regret.

10. How has your abortion affected others in your life?

My mom also has guilt she still lives with, as she encouraged me to get the abortion. She also resented the fact that she had to keep the abortion and planning from my father, the only secret she ever kept from him. It also affects my husband, as he was not able to have biological children.

11. Based upon your experience, what would you tell a woman considering abortion?

Under no circumstances, not even rape or incest, should you have the abortion. Forget about yourself and what people will think about you for the next 9 months, have the baby, and then pick a loving mom and dad to be the parents (there are thousands that will jump at the chance). Adoption is a beautiful option for all involved.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

As a nurse practitioner, and as someone who has had an abortion, I feel that every judge needs to watch a clear video of an abortion and what is actually happening to the baby. Judges should not be allowed to judge without the factual information.

9. How has abortion affected you?

I never knew that having the abortion would affect my mental and spiritual life, as well as my self confidence. It shamed me to the fullest. I never wanted to leave my apartment. I hated my self and I came close to wanting to kill myself. Thank God I never did. I was so ashamed. I had horrible nightmares about it. I woke up in sweats for years. I will never ever forget the day it happend. It is etched in my mind forever. It hurt so much. It felt like someone was holding on to my insides so tight and not wanting to let go. It hurt so much I was crying. I now wish I had never gone through with it. The child I had given up to abortion would now be abt. 12 years old. Just thinking of it makes me sad. I would never want my worst enemy to go through what I had gone through.

10. How has your abortion affected others in your life?

I had to lie to my parents so that they wouldn't get mad at me. When I did tell them they were hurt that I had killed their grandbaby. They were sad. But they forgave me. My cousins were ashamed of me and yet they forgave me. But they wished that they were able to hold that baby and see the baby and love on the baby. Finally realized I had hurt everyone I knew. I even had hurt the father. Even though he knew I was pregnant I never told him till years later and he cried. I wish I never had never of gone through with the decision. I wish I could have taken it all back and started over fresh and had the baby.

11. Based upon your experience, what would you tell a woman considering abortion?

Never go through with it. It is the worst decision you could make. If you don't like pain, than don't go through with it. If you don't like feeling guilty, than don't go through with it. If you don't like killing people than don't go through with it. I did and I regret the day I ever did. If you love to hold babies and smell that sweet smell. and hear their coos than please don't kill this wonderful little life you have inside. If you feel like you have to because you can't bear to see it because you feel like you can't love this little one or take care of this little one or you just can't stand the thought of what may have happened to you to get you pregnant that please think about the life you have and think about the people out their who can't get pregnant and want a child of thier own. Please reconsider and give this baby a life of it's own. Let this child grow up and be the person God has created for this little baby. Let the parents who adopt this baby be happy and love this baby like their own. Don't let a bad experience make you do something that you know isn't right in the first place. Please do yourself a favor and give this baby a life. Don't be another statistic. This baby may not beable to tell you what it wants now but this baby has the right to live. Remember, if your mother had you aborted you wouldn't be here and be the person you are today if she had aborted you before you were born. So please reconsider.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Please don't do this. It is so wrong. We don't need to be killing helpless little lives who have never done any thing wrong. They deserve a life as much as you do. I wish I had never gon through with my decision of having an aborion. It was the worst thing I have ever done. I felt like I Should Have gone to prison for killing a life. I mean think about it, you put people away for killing a mother who is pregnant with a baby. You put people away for harming a woman who has been beat up while pregnant. How contraversial is that. I mean give me a break. You all are not thinking right. Please, don't make it legal. I would never want this for my worst enemy. It was the worst experience I had ever had. If I could go back and do it all over again I would never have made that decision. I mean the baby was 12 weeks old when I had made the decision. Imagine if you had aborted your child at 12 weeks. You would never had experienced the joys of that beautiful child growing up in front of you. Imagine if a mother had an abortion instead of gining the baby up for adoption you would never of had the opotuinity to see that baby grow up to be the person it is today. Imagine if your mother had aborted you. You wouldn't be here right now to be ther person who you are today. Obviously you were born for a reason and your parents had a reason to give you life. Please reconsider your decision to make this unethical judgement legal. Thank you.

My name is V N I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Tyler TX

04/01/1980

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Curatagge?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They did not say how much it would hurt, how much it would hurt later, and how incapacitated I would be.

5. Were you adequately informed of the consequences of abortion?

Yes No

They did not even hint at any negative emotional impact, much less the mourn-every-year and regret-it-forever impact

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

I conceived on pill, doctors said to abort

9. How has abortion affected you?

30 years of tears,regret and the deepest sorrow imaginable.I know God has forgiven me, and my baby is with Jesus, but I cannot forgive myself. I am a pediatric critical-care nurse, but it still has not gotten easier to bear.

10. How has your abortion affected others in your life?

Nobody I know or am related to has ever had an abortion. I have been quick to share, and since I cannot tell the story without crying, the enormity of the pain I still carry is expressed, I think,better than words.

11. Based upon your experience, what would you tell a woman considering abortion?

We are not God. The weight of terminating a pregnancy is too enormous make by we mere mortals.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I have never met a woman that chose to terminate a pregnancy that did not regret it. It may seem right at the time, for whatever reason, but as years pass, and especially if the woman cannot conceive again, the pain grows with time, not lessens.

1. Where and when did your abortion occur?

Elizabethton TN

11/07/2000

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The nurse told me that it was just a missed period. That the baby was in fact not alive. There was a video but it just went over the possible side effects post abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my boyfriend at the time

9. How has abortion affected you?

I was heartbroken for eight years, went through spurts of deep depression. Turned to alcohol and drugs. Went through phases of emotional misery, I lost weight, my hair began to fall out from the stress of my experience. I really can't put it into words. My heart has been healed by Jesus Christ!

10. How has your abortion affected others in your life?

My boyfriend had emotional issues with it. He was never open about them because of his guilt. My mother has had issues dealing with her decision to allow me to do it.

11. Based upon your experience, what would you tell a woman considering abortion?
