I had bad depression, guilt and shame for many years. I also experianced a huge sense of loss, and morning for the child that I had allowed to be killed.

10. How has your abortion affected others in your life?

I don't know

11. Based upon your experience, what would you tell a woman considering abortion?

To have a 3D sonogram and listen to her baby's heart beat. That it is something she may regret for the rest of her life. That if she can't care for the baby to give it up for adoption that there are so many couples that long for a baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion kills a beating heart of a human being. Who should have the same protection as other humans in the USA. The right of life, liberty and the pursuit of happiness. The only difference is that these Americans are temporarily housed in another's body, but should have the same protection under the constitution of the United States.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Brevard

My name is Robin Squillante. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

New York City NY

03//1973

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

vacumm..where they suck out the baby...yes, it was my baby

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 14 at the time and did not want this done.

5. Were you adequately informed of the consequences of abortion?

Yes No

Again, I was only 14 years old.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

parents

9. How has abortion affected you?

I remember everything. I never wanted to give up my baby but, I was underage and my parents took me from CT, by train, to have this done. I never felt so empty afterwards and I still think of my child to this day. I am now 51.

10. How has your abortion affected others in your life?

I never discussed it with anyone. I am still ashamed.

11. Based upon your experience, what would you tell a woman considering abortion?

If it is not a life or death pregnancy, please give your child life and let him/her live, if not with you, then with someone who will love them.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I am that child you want to destroy. Please let me live. I won't ask you for anything but life. Just carry

me for 9 months, give me away but, let me live. I know in my heart that my mom loves me. Maybe, if she had more choices, I could be here today. Just because I was underage, someone chose my child's destiny, please don't let another child be lost because of this.

father of the baby

9. How has abortion affected you?

I will never forget the horrible empty feeling of taking this child's life. I often think about what he or she would grow up to be and have one hope: to finally meet him or her in heaven.

10. How has your abortion affected others in your life?

My children are ashamed of this and hardly ever mention it. The relationship which produced this child ended with the father accusing me of agreeing too quickly to have the abortion and end the child's life. In other words: I was a cold-blooded murderer.

11. Based upon your experience, what would you tell a woman considering abortion?

I would pray with her first and then advise her to consider all other options especially adoption. I would tell her that if she chooses to end this child's life, she will live a life of regret and often cry for this child. And that no matter how much she try, she will never forget or forgive herself.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is a lie. It does not set you free to go on with your life. It is a temporary fix, like a band-aid on

a limb that has been severed. You then have to live the rest of your life with the consequences of your actions.

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

dnc?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No information was given at all!

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no one to talk to you about any aspect of the aborotion--except the price.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has been over 30 years since that horrible day and I still feel psychological pain and guilt. There were over 30 women waiting to get an abortion and we were hurded into rooms like cattle. The "doctor" would perform one abortion, wash his hands, and move to the next woman. There were at least 3 of us in one room with our legs in stirrups waiting for our turn. I have never felt so humiliated in my life. The thought of that dreadful deed still brings tears to my eyes and hurts my heart.

10. How has your abortion affected others in your life?

I now have 4 adult children and I have never spoken to them about it but I believe they know the hurt that is caused.

11. Based upon your experience, what would you tell a woman considering abortion?

I would ask her to seriously consider other alternatives.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Out and out, this is murder and it is wrong.

2. How many weeks pregnant were you?

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it would be removed but I don't remember anything else.

5. Were you adequately informed of the consequences of abortion?

Yes No

i really don't remember having anyone explain it, perhaps if I knew what I know now I wouldn't have done it.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have never stopped thinking of that day. I woke up crying from the procedure and the Dr. was trying to calm me, he told me I would be able to have more children in the future, which I do (by the grace of God) I pray everyday for my baby and I've asked him or her to forgive me for not giving them an opportunity to live the life they were meant to live. It leaves a scar that only the Lord can remove but you never forget.

10. How has your abortion affected others in your life?

This is the first time I have ever shared it, but I would think that it has affected every part of my life and my families, because this child was meant to be for a purpose and with a purpose and I took that away soooo I believe it has affected everyone in an unseen way.

11. Based upon your experience, what would you tell a woman considering abortion?

She would first have to understand God's love for her, then I would proceed to tell her my experience and I would embrace her.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I honestly wouldn't know what I would say, but I do know what ever I said would come from my heart. Perhaps I would begin with the question...Do you believe in God? and whether the answer would be yes or no the rest would flow.

great shame: Immediately I knew I had committed murder. And I had to then tell my fiancée, and then subsequently my children what I had done and how they were missing a brother.

10. How has your abortion affected others in your life?

Sadness, recognition that all life is precious, no matter how conceived. My children wanted this little one and would have loved him

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't abort your baby! You are loved and he/she is loved by the God Who orchestrated their conception. Circumstances don't matter! God has a plan for each one. He will help you through! Who knows how many Abraham Lincolns, , artists, Einsteins, senators, pianists, etc we have lost because it wasn't convenient or planned. Babies are unable to speak for themselves, that's why we must do so! Wouldn't you wanted to be born and given a chance at life too?

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I'm not a lawyer, but abortion is murder and should be stopped. It's not about a woman's right! She's the baby's nurture and nourishment system. How about the baby's right to life and the chance to live it! Shouldn't we all be concerned with that?

5. Were you adequately informed of the consequences of abortion?

Yes No

8. Did anyone pressure you into having an abortion?

my boyfriend

9. How has abortion affected you?

I know that I have asked God for forgiveness and I am forgiven but I always remember that I could have a child that would now be 33. I wish that abortion would have never become legal because it is so wrong to take a life. I have become very involved with the pro-life movement and I pray that more and more people realize that we do not have a choice to take any life. It took time to heal but I wished I would have never made that choice. I will always have a scar from it even after the healing. I wish I was told the truth that after I thought it was my secret it would become a secret that hurt until I dealt with it.

10. How has your abortion affected others in your life?

It has not really affected my family since I never told any one until years later in my life. I try not to dwell on it but I share my story when ever I feel lead to. I tell anyone in my family that I speak to that I regret it and it is not as easy to forget as people may think it is.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that she has other choices to make and abortion is not an option. I would tell her that she will never be able to run from the choice of having an abortion no matter how hard she tries. It will always be there. If I had to make that choice again I would never do it especially with what I know and feel about it now. More and more people are speaking out by sharing and supporting the women in unplanned pregnancies. I wish years ago I had someone to tell me what it would feel like after I had an abortion. No one ever really told me the truth about it back then and I feel like it was a big cover up.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell a court that they had no business getting involved with nature and especially saying it is ok to murder. They protect animals from cruelty but they do not protect unborn children. There is something really wrong with this picture. They are not protecting women by making it legal especially if it is so easy to get done these days and the facilities are not any safer than before it became legal and some women use it as birth control. I pray for the day to see the killing of unborn children to stop.

QUESTIONS

1. Where and when did your abortion occur?

Flint MI

//

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

i knew why i was there, because i was not ready for a family, but clinically, i was foggy as to how it would be done...

5. Were you adequately informed of the consequences of abortion?

Yes No

i had no idea as to how this would effect me emotionally for the rest of my life....

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

I was afraid of love after this. I realized one day that I had helped commit murder. The murder of my own child. I eventually had a wonderful baby boy, and I frequently found myself balled up on the floor in the fetal position, crying for the unborn baby I thought so little about...and "did away with". I don't know the words to explain to anyone...how the pain exists...still...after 30 years... but I'll try... My ears will hurt...anguishing pain, my throat gets tight and soar and it seems impossible to swallow..there is a hot pain that seems to fill my throat and gets stuck in my throat, lungs and belly. I have uncontrollable crying sometimes. I find myself imaging "what could have been" since my two living children are such incredible human beings....who deserved an older sibling. I turned to Christ to help heal me and sometimes I believe it has helped. In filling this out, I realize all over again the pain...as my throat is thickening and my eyes are streaming tears. I advocate life now. I have finally come to understand the importance of life and how each person can have an impact in this world, as my children have begun their ripples in the big pond. I can only hope now... to meet my lost child on another unearthly plain. This is the consolation I offer myself. I would continue to urge women to not go down my path of pain...

10. How has your abortion affected others in your life?

I felt for so many years...even now...that I didn't deserve the good things in life after my abortion. I knew I had committed a mortal sin...by asking for, following through with, the elimination/killing of my unborn child. It kept me from taking myself to higher levels of learning, promotions because I didn't believe I was worthy, and my relationships were not good with men. It is like I failed to be able to do so many things correctly after starting on the path to abortion. Now I know this was a SOLIDLY WRONG DECISION. It should NEVER have been allowed to a young woman such as myself. There are NOT ENOUGH classes, discussion boards, seminars, nurses, doctors, friends, emails, letters, books, commercials, groups....to explain the depths of this decision....and that is why the fight must go on....to prevent just one more woman like myself, from eliminating/killing her unborn child...

11. Based upon your experience, what would you tell a woman considering abortion?

I would attempt to talk through my agony. I guess I would have to relay some of the awful days I have lived because of my decision. I would talk about my existing children, and how proud they have made me and how they have filled my world with such fullness over the years. I would try to impress upon her the duration of her decision... and how it may impact her self esteem. I would ask her where she wants to take her life from the abortion table. I would ask her where her mind will be in 2 years when her baby would be walking...and ask what would be more important at that time of her life., that she couldn't be raising her child as she grows on her own path in life... I would hug her. I would hold the hug for a long time, praying, hoping, that she would receive a message in it. I would look her in the eyes and let know that this decision really will be the BIGGEST decision she will EVER make. It is bigger than college degrees, marriage, the correct career, friendship and material belongings. This is LIFE. This is her own present to unwrap and help develop to start it's own ripple in the big pond. And that she will be one day be able to visualize all of this greatness, if she just gives herself and the baby a chance.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

My first thought would be how many in the courtroom are men? Then I would respectfully ask to approach the women only. There is absolutely NO WAY a man can understand how a woman feels from such an experience as abortion. It wouldn't matter if he held the record for removing the most fetuses, or for counselling the most women through an abotion...he would NEVER KNOW. However, the women would know. Women have a bond between them. No matter how hard they may be on the job, or how dedicated and focused they will be in study, they have a bond. It is our maternal instincts. This is the mechanism that thrives on one of our purposes for even being !! We first have to realize we have it. But we all learn that very young. It goes against our very grain to cut out the product of this instinct... So, I would approach the court, but speak to the hearts of the women and ask them..."What is more important than the life you bear inside of you?" Religion is powerful and should be the only answer many will have to that question if they are spiritual at all... To any women who does not communicate to a Higher Being, I would ask them... "What is more important than the life you bear inside of you?"

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Hillsborough

My name is Barbara Randolph. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Tampa FL

02/27/1971

2. How many weeks pregnant were you?

41

3. What type of abortion was performed?

Child was killed just before birth -- I was not told this was being done

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I would never have chosen this

5. Were you adequately informed of the consequences of abortion?

Yes No

I knew I could not choose this. Life is precious - even if it will not be a perfect life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Dr. never asked. He decided. I was "out".

9. How has abortion affected you?

After 38 yrs I still deal with it sometimes. Dr. felt that because baby had hydrocepholys, he would be a burden and may not live long. I was only told his chances of survival were nill. I asked about C-section and was told Dr. did not feel he could get baby that way. Unfortunately, I trusted my Dr. I just assumed baby would be born naturally. -- I was put to sleep. when I woke up, I was told Baby did not make it. Quite some time later my sister spoke with a nurse we knew who was in the delivery room at the time. The nurse told her the Dr. drilled a hole in the baby's head, then crushed the skull so he could be born through the vaginal canal. I was devastated. I have had to resolve this within myself over the years but it never completely goes away. I am so sorry for the pain caused my baby by this proceedure and I am sorry for any baby who has to endure partial birth abortion as well.

10. How has your abortion affected others in your life?

I have shared with children and grandchildren. They understand there is pain - emotional as well as physical. If I know someone is considering abortion, I am happy to share with them also.

11. Based upon your experience, what would you tell a woman considering abortion?

You have a choice which will affect you one way or another for the rest of your life. Unfortunately, your baby does not have a choice. Life is precious and we are put here for a purpose. Your baby has a purpose to fulfill as well. Please think seriously about choosing life for your child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Life is all about choices. We speak so much of "a woman's right to choose". What about the unborn baby's rights. Do you really think a child would choose to endure the pain and agony of being ripped apart or burned with acid or killed during the process of being born? Of course there is pain. This is a live, functioning, feeling human being. There is proof that an unborn baby sees, hears and feels pain in the womb. -- To legalize abortion would be to legalize murder - but with NO consequences to the murderer. What kind of a society would do that? Of course there would always be consequences to the mother and the unborn child. Please think hard and long before considering this!!

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I knew only that the fetus would be removed and that it was not supposed to be a big deal.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea how scared I would be, how bad it would hurt, how cold and insensitive the doctor would be, or that the experience would haunt me for the rest of my life. It also destroyed my relationship with my then boyfriend and has caused problems with me being able to trust men and people in general.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend and his parents.

9. How has abortion affected you?

Lifelong regret, sadness and wonder what the child could have become if I had let him/her live.

10. How has your abortion affected others in your life?

Most of my friends and family don't know. I don't talk about it.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't do it. Give your baby up for adoption. There are so many people who would love to have your baby to raise as their own.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I think abortion should only be legal in cases of rape, incest, or severe life threatening physical

abnormalities, or to save the life of the mother, and then only in the first trimester. I think minor children should not be allowed to have abortions without their parents consent, as I did. I also think patients should be told the whole truth about abortion and be made to view a movie about it before they are able to have one. I also strongly believe that the federal government should not be in the abortion business, and should not use tax money to pay for them.

3. What type of abortion was performed?

I am a man, my girlfriend had the abortions

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I am a man not a woman speaking out on abortion. My girlfriend had 2 abortions due to not being convenient and our age. We later did have 2 daughters. I wouldn't give them up for anything in this world. Just knowing I had a hand in killing 2 children over 35 years ago haunts me to this day. I think about what if we never had those 2 daughters and did the abortion again. They would have never been. They are the most important people in my life and sincerely regret the 2 abortions we did do. My grandson, who wouldn't be on this planet had we done it again is the apple of my eye. I enjoy him so much. He is very therapeutic to me due to the bad things that happened to me when I was young. I grew up in a foster home, which had a lot to do with the decision to have the abortions done in the first place. I am a victim of the Catholic Church also, and didn't want to bring a child into this world only to be abused the way I was. I regret that now. Every day.

5. Were you adequately informed of the consequences of abortion?

Yes No

I wasn't told about the guilt I would feel for doing it.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My Mother

9. How has abortion affected you?

Explained above

10. How has your abortion affected others in your life?

Explained above

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it, you are killing a human being that will ever have the chance to live the life you will miss and not know that could be. The love you will have for that child cannot be replaced by any drug in the world.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It's nothing more than MURDER

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Dade

My name is C C . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Miami FL

09/01/1975

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

suction/vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I never had any explanation by the clinic and was too afraid to tell anyone.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no counseling involved at the clinic I went to.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I live with constant guilt and regret even after 30 years, and even though I aborted my child at 4 weeks gestation. I am always fighting my thoughts regarding this decision.

10. How has your abortion affected others in your life?

My then boyfriend, who did become my husband, never did forgive me. I never told anyone about it because of the shame I felt afterwards. The only reason I chose abortion was the fact that I was 17 yrs. old and could have one without my parents permission. I just felt at the time, that there was no way I could tell my parents I was pregnant.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that choosing to abort seems right, until you do it. I would tell her that the lifetime of guilt and regret that come with this choice are not worth the convenience of abortion. That out of seemingly bad situations, comes happiness, joy, and fulfillment. I know because I have 4 grandchildren all born out of wedlock to teenagers. I was not happy to hear of my daughter and son's girlfriend's pregnancies, but I knew from my experience that abortion is not a good choice. Abortion is a road to

sadness, sorrow, guilt, and shame. My grandchildren have brought us wonderful joy!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that growing inside me 30 yrs. ago was life. Not chicken, dog, cat, or reptilian life, but human life. It was human life deserving of living to it's full potential no matter how it got its start. I know that the life inside me 30 years ago was a tiny human who expected nothing more than to grow into what he or she was meant to be - a living, breathing person full of potential for greatness. This life never expected to be snuffed out. I know if my baby were given the choice to live or die, he or she would have chosen life! And this is truly where the choice begins!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Monroe

My name is D L I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Charlotte NC

03/17/1975

2. How many weeks pregnant were you?

3

3. What type of abortion was performed?

Dillitation and Currettage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Yes. It was clinically explained that they would just be "scraping out my uterus; "whatever" was attached would be removed. Very impersonal.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was given a survey afterwards that rated the service I received. At that time, I noted that I did not really talk with anyone and felt no support emotionally and that the process was impersonal and sort of mechanical. After the abortion, I was escorted into the clinic head's office, who essentially "scolded" me because I gave them low marks! No one told me of the depression and the long-term weight of taking your own child's life away.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My future husband.

9. How has abortion affected you?

I have had nightmares for years and carry such a huge burden of guilt. I thought this was "the answer" to my problem. It really was the beginning of much greater pain that has never subsided -- over 30 years later. I have suffered with depression and suicidal thoughts for years -- every time I think I what I did, I cry.

10. How has your abortion affected others in your life?

Never told anyone.

11. Based upon your experience, what would you tell a woman considering abortion?

There are other alternatives; adoption is primary. That there are organizations out there that will provide support and assistance, including financial. You are not making a "choice", you are ending a life. It was the worst mistake of my life -- one that will haunt me forever.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder. It is taking the life of an innocent child. What must be addressed by our society is what drives women to make this horrible choice? We can -- and do provide women with a real choice -- because if given the chance, I believe most women would not choose to end their child's life.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Duval

My name is Gina . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Atlanta GA

05//1991

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

outpatient clinic

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one treated my pregnancy as though I were having a baby. It was not talked about in that regard. It just seemed like a "condition" that could be stopped and I could get on with my life.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was so in shock. I did not have anyone who helped me to see past this moment of "shock" and who offered to help me through the months ahead. It seemed like it was the quickest way to "get out of the nightmare." I had no idea that the "real" nightmare would be aborting the baby.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Indirectly...Fear of my parents.

9. How has abortion affected you?

I have carried the guilt of what I did for 18 years. My due date was December 1991. I will never, ever forget. There is not a December that goes by that I don't think about my unborn child. I wonder "what if I'd just put my baby up for adoption? Then he/she would be somewhere for me to try and find him/her and explain." Anything would be better than knowing that I took my own baby's life. Abortion is murder. I wish someone would've helped me to understand what was really going on. God has blessed me with three beautiful children and a wonderful husband, but I still grieve that baby that I didn't have. The horror of abortion became more apparent when I was pregnant with my oldest daughter. The midwife took an ultrasound picture of her at 9 1/2 weeks. The same age of the baby that I had aborted. She had little nubs for arms and little nubs for legs, but SHE WAS MOVING ALL AROUND!! What if someone had taken an ultrasound of my unborn baby back in 1991? I'm sure I would've seen the same life growing,

moving, heart beating...truly a miracle. I have undergone counseling in the past two years for panic and depression, some of which was directly related to having an abortion. I am better now, but even though I know that Jesus has forgiven me once and for all, I still struggle with forgiving myself. If I were given a "do-over" in my life...hands down, no question, I would have had my baby.

10. How has your abortion affected others in your life?

I am no longer in contact with the father of my baby, but at that time, he was so upset with me for the choice I made. He was so angry and hurt. I never gave him a choice even seeing him obviously hurting. He wanted our baby and I took it away. I am usually a very, very loving and caring person, but I was so in shock that I went right into "fight or flight" mode. I saw the pregnancy as "my body, my problem, my decision." Now I live with the guilt of hurting the father, also.

11. Based upon your experience, what would you tell a woman considering abortion?

It is murder. You would be killing a living, growing teeny, tiny baby and you will NEVER, EVER FORGET what you've done. If you need help, counseling, resources, someone to talk to, I will help you, but PLEASE, PLEASE DO NOT ABORT THIS BABY!!!! I live with the guilt of the decision that I made every day. You can't change your mind once it's done.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If it were illegal to receive an abortion, I would NOT have done it. I would still have my baby. It might have been hard to raise my child by myself, but it would still be easier than living with the guilt, depression, and anxiety of knowing that I killed my own child. At what point did we, as a society, decide that it was "ok" to kill eachother? Abortion is no different than killing a person who is already outside the womb. Take the money spent to support abortions and spend it on educating women/girls about 'how special they are, how much they matter, how they need to respect themselves." There is a reason that these girls/women are finding themselves with an unwanted pregnancy. Most of the time, they are searching for someone to love them. Deal with the REAL PROBLEM. If girls/women learn to respect their life, then they will respect the lives of their unborn babies.

this happened at the age of 35 and had no immediate affect but later in life it greatly affected me. this event was life changing. to think that i could do this and walk away with no emotion (at the time) is absolutely astounding to me now.

10. How has your abortion affected others in your life?

when a young teen, I became pregnant not once but twice. I was offered abortion and told all involved NO. I went on to give up 2 baby girls (1969-1970)for adoption. By the grace of God, I reconciled to Him first 2005 then He brought these two young ladies back into my life. I remet my babies when they were 36+37 in 2006.

11. Based upon your experience, what would you tell a woman considering abortion?

PLEASE PLEASE CONSIDER ADOPTION !!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

PLEASE PLEASE CONSIDER ADOPTION. WHY SHOULD COUPLES GO TO FORIEGN COUNTRIES

TO ADOPT ????

HOW MY ABORTION AFFECTED ME

The State of FL

County of duval

My name is Carol Thomas. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

new york FL

06/05/1971

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was led to believe that 'a product of conception' described as a collection of cells would be removed from my body. I did not know there was a fetus present, with tiny hands and feet and a beating heart.

5. Were you adequately informed of the consequences of abortion?

Yes No

I experienced weeks of very heavy bleeding and passing of blood clots the size of my hand. And I descended into a deep, deep depression that robbed me of motivation to the degree that I almost dropped out of college. And in that terribly depressed state, I became pregnant a second time and aborted the 'product of conception' again. As it is, I managed to get a bachelor's degree (my goal was a Master's) but my grades had dropped and there was no financial incentive to go on because I was a poor country girl on academic scholarship. I have struggled with the depression, with the knowledge that I delivered two of my precious children to a killing clinic for more than 35 years now. I believe God has forgiven me. I have to work daily on forgiving myself. I later married the father of the aborted children and spent 26 years struggling to make the relationship work. We raised four children, but the ghost of those tragedies were always with us and I was emotionally abused and could not stand up for myself. I let my daughters know early that I would do anything to help them if they were to become pregnant. I shared my angst with them, and said you never, never want to have to live with this. It never goes away.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The man who fathered the babies.

9. How has abortion affected you?

My future was bright in 1971. I had graduated at the top of my class and financial aid was available and

there was much encouragement for women to succeed academically. Instead, the abortions destroyed my self-esteem, took away my joy and tarnished all hope for the future. I have underperformed my way through life and financially things have been much more difficult than they should have been. I struggle with depression, I have great difficulty making decisions, I am troubled by anxiety. Only my faith in God and knowledge that he has forgiven me and is always available to help me, enables me to continue to live.

10. How has your abortion affected others in your life?

My four children had less than the mother they should have had. They never saw the natural exuberance and self-confidence I had in my youth. They suffered from the bad marriage that resulted from my lack of self-esteem and diminished spirit.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not abort a baby. It would have been so logical for me to have given birth to my babies and to have given them up for adoption. How I wish I knew they were in the world, alive today. I know now how cherished they would have been by some childless couple.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Why should it be legal to kill a baby? What rationale can there be for killing a baby? Look at this world! What has abortion done for us? Child abuse was supposed to disappear. Relationships between men and women were supposed to improve. Poverty was supposed to disappear. But now we are in dire straits. We killed off the generation that would be there to pay taxes in order to provide us with social security in our old age. The survivors of abortion are for the most part, cynical and bitter. We have to fill our countries with aliens who hate us in order to have enough workers. We face horrible judgement for this nation's sin of murder of the unborn. We need to turn away from this abominable behavior now.

9. How has abortion affected you?

I have two permanent empty voids in my heart that can never be filled. I sometimes wonder what my young adults now would look like and who they would be.

10. How has your abortion affected others in your life?

I have a 15 yr. old son who has a scar that also can not be filled except supernaturally. He has always wanted siblings and wishes that mom had had them.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not do it under ANY condition. There are other answers always. It is not a woman's choice to take a life. Only God has this power.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

consider the holy bible that staes in psalms 139 how he knew us and formed us in our mothers womb's.And every day of our lifes were written before one breath is taken.There is no such thing as a mistake to God the creator and we as a nation should be protecting the unborn.We protect the extinct animals of this planet yet turn our eyes and ears to the unborn!!!!

9. How has abortion affected you?

I have felt nothing but guilt and suffered from depression since I had my abortion. Time helps but very little. I was unable to have children as a result of my abortion and almost hemorrhaged to death.

10. How has your abortion affected others in your life?

My guilt has been so overwhelming that I have at times been inconsolable. My mother felt guilty for encouraging me to abort my child and has felt responsible for me not being able to have children.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it!!! There are other alternatives such as adoption. I adopted 3 boys. I adopted the 1st one at the age of 38. He was 3 years old at the time. The other 2 I adopted when they were older. Babies are harder to get. I would tell the woman that her child should have a chance and that her child may become someone famous, a leader, the President. I think her child has a right to live as much as she or I do.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is wrong. I been there, done it, lived it. Once done, it can't be undone. It's a decision that once done, you have to live with it for the rest of your life. It can and will hurt you. It affects you emotionally, physically, it affects the relationships you enter in. You are taking a human life. You don't realize it at the time, especially when you're young, when you haven't lived life as an adult and had life experiences. There are too many options than abortion. Many people are going out of this country to adopt. That is ridiculous. Women are using abortion as a form of birth control. Tobacco and alcohol is legal, but it kills. Abortion is legal, but it kills or it is a killing of human life.

10. How has your abortion affected others in your life?

This is my sin & secret

11. Based upon your experience, what would you tell a woman considering abortion?

Do not take the life of an unborn human being, trust me although you might feel that your problem has been taken care of, you will never get over what you have done. This has been part of my life for the past 34 years. Believe me when I say you'll will never get over it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Although the mother has the choice to Choose there is no choice for the innocent unborn child. The only choice should be to keep the baby or give the baby to someone who has prayed for a child. The

choice to either let the child live or be killed is truly unacceptable.

3. What type of abortion was performed?

9. How has abortion affected you?

Self loathing, depression, alcoholism, and attempted suicide.

10. How has your abortion affected others in your life?

It caused flares ups throughout our marriage. It was the terrible secret I could not tell anyone until after my husband's death in 2005.

11. Based upon your experience, what would you tell a woman considering abortion?

That it will be the one thing they will never be able to justify fully to themselves or anyone else in their whole life. That many things will cause fresh pangs of pain and regret even though peace and forgiveness has occurred.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That my husband used the argument that "it can't be immoral or wrong if it is legal." That was only a few days after the law passed making it legal. When I was given the alternative of him or the baby, I chose wrongly. We already had children, and not having that one and the other child I was convinced to abort the following year are the biggest regrets of my life. At the age of 23, I had myself sterilized so that I would never murder another child again. And I know God has forgiven me, but it was still murder.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Hernando

My name is Tracy Robertson. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Fayetteville NC

05/12/1991

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

standard

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that my babies were placenta - in fact they told me they were just a blob. If I would have known what was happening, I never would have done it.

5. Were you adequately informed of the consequences of abortion?

Yes No

They never told me that I would spend many nights crying wondering what my twins would look like - wondering who they might be. It is sheer devastation!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have spent the last 18 years of my life mourning the death of my twins by abortion. I have felt like a murderer and the pain is such a deep pain that never goes away. I hate that there is even such a thing as abortion. How sad that I was not mature enough to realize that those babies were not just a blob. They had hearts and they were very much alive. Abortions are a legal way to murder little babies just because it might be inconvenient. Wonder what will happen next? They might suggest killing our older children because we don't have enough money or mabey because of a handicap?? Abortion doesn't just kill the babies, it kills a piece of those who have them too and nothing can bring them back. It is by far my greatest regret in my life!

10. How has your abortion affected others in your life?

My two living children are now without their two syblings which would have made our family complete. They ask about them and when I even mention it they are saddened. They are completely against

abortion because they have seen the devastation it has caused our family.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! Everyone I have ever talked to that has had an abortion has suffered terrible grief. We can't just kill someone because we chose to make a mistake! That baby is alive and growing, it is not just placenta or a blob like they told me. Killing the baby on the inside of your body is no different than killing the baby outside your body. The child deserves the opportunity to live and breathe and have their being the way they were created to be. What if someone would have done that to you?

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is great that you hold a position that can make such a difference in the United States. I can tell you by experience that abortion is devastating. The affects of it follow us for the rest of our lives. We are given many choices in our lives and just because we don't always choose what is right does not mean that we should do away with someone who is completely innocent. Babies can not make their own choices, so how can we snuff out their life before they even get a chance in the world? It is like we are playing God to say who should live and when they should die. What I don't understand is that once the baby is out of the womb, and we see how cute and precious they are, it is an outrage to murder someone so innocent but when they are in their mother's womb, growing to come into the world, that same precious child when murdered is considered ok and even legal! I plead with you, please do not just put this to the side. There are so many people who are affected by this tragedy and you have the power because of your position, to make a difference in the lives of these innocent babies and their mother's who have no idea of the suffering that is in store for them. Please, consider the lives of the unborn children and the painful lives of the mother's who never cease to mourn the lives of their children and live with the guilt that they played a part in killing them.

HOW MY ABORTION AFFECTED ME

The State of FL

County of Pasco

My name is M I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Clearwater FL

04/12/2006

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Removal of tissue

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

They did not explain the emotional factor involved when you think about the child which could have been born.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has scarred me emotionally. I always wonder of the the baby's life, how it could have been.

10. How has your abortion affected others in your life?

It has affected my mother, who never did agree with abortion but supported me until the end to get it done.

11. Based upon your experience, what would you tell a woman considering abortion?

It has to be your own personal opinion, but all of the emotional factors are never told after the abortion. The baby is gone, but the memory isn't, the justification of taking another one's life who does not have a voice.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion can be taken advantaged of, if not provided strict guidelines. Some women do not use prevention and get pregnant, and then want to abort the child, when they could have had safe sex. Any

woman who decides to have an abortion, should have a pertinent reason, for example, if she was raped, her health or her baby's.

HOW MY ABORTION AFFECTED ME

The State of FL

County of Hernando

My name is D P I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Charleston SC

12//1970

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

'a therapeutic abortion' via hysterctomy

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I unerwent extensive 'counselling' by a psychiatrist, who made me feel worse than I ever have in my life, and had me in tears. I've tried to put it out of my mind, so as not to have to relive it. I didn't even know the basic facts of what a baby is at 12 weeks gestation, or what the consequences would be other than freeing me from another child to care for when I already had 5 healthy children whom I love. At the time of surgery, I was baffled to see that the surgeon herself, was obviously pregnant! This seemed incongruous to me, even though I didn't even realize the physiological facts. No one explained any alternative to me; just the 'solution' to my 'problem' of an 'unwanted' (unexpected) pregnancy.

5. Were you adequately informed of the consequences of abortion?

Yes No

No negative explanation was offered. Just how to tend to my personal care at home. I never felt 'guilty' until I came to know true freedom in Jesus Christ, as my personal Savior and Lord. Then I realized what I had really done. Only by God's forgiveness and my maturing in life and new life in Christ, was I able to find release from the pains of knowing I had allowed my 6th child to be torn from my body, never to live a normal life on earth, or to know that child and love it. Such a loss can never be compensated for, only forgiven.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Making me realize the loss of the child I shall only meet by God's grace, in heaven.

10. How has your abortion affected others in your life?

I never knew how it might have affected anyone else. My late husband never mentioned it to me, and I don't recall anyone else offering comments.

11. Based upon your experience, what would you tell a woman considering abortion?

Offer the child the chance to be born into life with a family who wants to love that baby and provide a good home and Christian life. Go to a Crisis Pregnancy Center for advice and help. Give God a chance to bless you and the child. Maybe you will be that mother who will love the baby all its life. God bless you!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Who will be the advocates for the unborn, if not us? Everyone else seems to have 'rights'; but not the unborn. There groups who stand for the rights of every living thing except babies. God entrusted their conception and birth to parents for the purpose of loving and rearing them for the rest of their lives. God didn't change HIS mind; mankind did. One day, and perhaps even now, we shall all pay for the gross injustices that have been allowed to take place and called 'women's rights'. Better to 'give up our right to our own rights' to the Lord, and follow His instructions for living. He is never wrong. The holocaust of the 20th Century is dwarfed by the staggering numbers of lives taken in abortion, and it still goes on. We are all guilty, if we have not done anything to prevent or stop this killing of innocent voices who never had a chance. Would YOU want to have been one of the aborted babies? They should get a vote! So much for how we 'love our neighbor' when we are killing our own children. I was guilty as charged, but Jesus Christ forgave me of this sin when I cried out to Him. I didn't deserve mercy, but he gave me grace and forgiveness. He loves me, in spite of what I did. That doesn't make my actions right. Just forgiven.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Pinellas

My name is S T I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Phoenix AZ

05//1978

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It was approached as business as usual; I was given a clinic name and I called for an appointment....they told me it would be over within 10 minutes and was like getting a pelvic examination.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told how my hormones would react violently, I was not told to get a follow-up, I was not told to seek counseling, and I was not told I would become so very ill from bleeding and becoming anemic.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend at the time.

9. How has abortion affected you?

I still cannot think about it without crying...I'm 60 years old! I was not a Christian at the time, but I can tell you I later wanted children when I got married to a wonderful man and couldn't conceive. We were so blessed to adopt a wonderful baby, so I thank God for that. I was guilt ridden my entire life, until I became a Christian and asked for forgiveness. I know God loves me and forgives me, but the pain is still there...it never goes away. Women must be counseled before they go through anything like this. Our actions when we are young have lasting repercussions with other relationships, and for so long I didn't trust men. My boyfriend told me everything would be okay, we would get married and have children later. After I had the abortion, he left me.

10. How has your abortion affected others in your life?

For a very long time I could not trust a man. In fact, I have found it hard to trust anyone from this. Thankfully, I got back to God and have found forgiveness and love. But, it has always been a struggle, and I will go to my death with this painful memory. Please do not allow young girls to do this without their parent's knowledge...it's a devastating choice.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to talk with her parents or someone who truly loves her. If that's not possible, talk with someone at a pro-life clinic or a church pastor. Do not do this to your body or your psyche, because it's a choice you will always regret. I would tell her to have the child, and if her parents or family would help her to keep the baby. If that's not possible, consider giving her baby to a family who cannot have children through an adoption agency. What a blessing we were given with our adopted child after I chose to end my own child's life. I was 27 years old and should have known better.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say to very seriously consider the implications from everything they legislate and suggest overturning Roe vs. Wade. If that is not possible, make it very difficult for women to get an abortion; make them seek counseling, tell their parents (unless incest is involved), and inform them of the implications from this horrible act. Do everything in your judicial power to encourage saving a life.

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has made me feel very guilty and ashamed. However the LORD has helped me come to terms with the fact that HE has forgiven me. I have been washed clean by the blood of Jesus. To HIM be the glory forever and ever.

10. How has your abortion affected others in your life?

It upset my parents and boyfriend that I had gotten pregnant by I also can't remember the exact date I got one but I think it happened in 1998.

11. Based upon your experience, what would you tell a woman considering abortion?

Please consider the fact that if you really do not want this child there is adoption to consider.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it is sick and it is murder. Period.

The State of FL

County of Brevard

My name is Brenda I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Atlanta GA

05//1979

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

I can't remember

4. Were you adequately informed of the nature of abortion, what it is, what it does?

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

I didn't think I had any other choice.

9. How has abortion affected you?

It led me to drink frequently and too much. Also I went on birth control and had more casual sex than I would care to say. I think psychologically I was damaged and lost my self esteem and confidence. I hit bottom and my life was on a spiral downward until I met a family who led me to Christ. Only then did everything change.....

10. How has your abortion affected others in your life?

The father of my baby had a nervous breakdown several years later at the height of his career.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that having a baby is a gift and a miracle. There are other alternatives she has without harming her baby or herself. Two wrongs don't make a right. When confronted a second time, I chose life , and now I have a wonderful daughter and son-in-law who just gave me a beautiful grandson.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You are not only killing an innocent baby, you are killing the woman in many ways. So you are not

looking out for the benefit of the mother. And many more people are affected by this so-called choice. All you need to do is look at the increase in violence since abortion became legal in our country. More divorce, more domestic violence, less workers, increase rates of breast cancer, more substance abuse. Clearly this "choice" is not the right one. Also, look at an ultrasound image. Science can prove when life begins.

HOW MY ABORTION AFFECTED ME

The State of FL

County of Bay

My name is Kimberly Ellis-Koceja. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Having the abortion was a choice made by me and me alone. At the time I was already a single parent with an infant that was about 8 months old. I was unable to find a job to support the one child that I had. The unborn child's father was an "ex-boyfriend" who was as I had found out dependent on drugs. I knew I could not afford to take care of two children when I could barely take care of the one I already had so I decided to have the abortion. I chose this and I have lived with it, with little regret. I was wrong for allowing myself to get pregnant AGAIN, however it was a mistake and one that I was able to correct within the limits of the law. It was MY CHOICE!

10. How has your abortion affected others in your life?

How did the abortion affect others ????? No idea, and don't care. No one would help support them other than me so does that really matter?

11. Based upon your experience, what would you tell a woman considering abortion?

It's her choice and her's alone. Don't let anyone force you into it. It's a hard decision that you have to be prepared to live with and that you have to feel 100% that you are doing the right thing.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I am for abortion and I don't believe the court's should be able to choose for us whether we can end the life of an unborn. I feel the choice should lie with the parents of the unborn. They should be able to make that choice of thier own free will and not be forced into it by anyone. I am now 40 years old and I have 2 wonderful children one 18 years old and one 9 years old. I would not trade them for anything in the world. Yet, because the law allowed me, I had 2 abortions several years apart, BECAUSE, I was not able to care for them financially. Yes, I would have loved to have them and would have if I had been financially able to care for them. Hence, my son was born 9 years later after I was well employed and able to afford the joy of his life. I firmly believe the choice should be with the parents of these unborn children.

QUESTIONS

1. Where and when did your abortion occur?

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

Nobody told me how much I would grieve the death of my baby, even so early in pregnancy. Nobody told me how the grief, sadness & guilt would haunt me year after year, or that I would not be able to forgive myself until I came to Christ and received His forgiveness.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It led me down a path of self-destruction, including drugs, alcohol, and a very promiscuous lifestyle. I felt since I had taken my baby's life in order to do what I wanted to do, I would do anything and everything I wanted to. I dropped out of college and went into the dark nightlife of NYC. I lost my two best friends because I chose drugs and "fun" over them.

10. How has your abortion affected others in your life?

I alienated my family and friends who truly loved me, withdrawing into my own dark world. I hurt my two best friends and family probably more than I will ever know. I took my parents' first grandchild from them.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't make this decision based on your own convenience. You will regret it! I know! I've been there! Growing in your womb is a baby, not a "problem." I understand if you're not ready to be a parent, choose adoption! There are many wonderful couples out there longing to be parents who can't have their

own children and would love to adopt a precious baby. Don't make this child pay for your indiscretion with his or her life. Please!!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion not only takes the life of an innocent child, it changes the life of the woman who makes the "choice." There are emotional repercussions and in many cases, physical ones as well.

9. How has abortion affected you?

When I became pregnant with my "wanted" pregnancies I was terrified that I would be "paid back" by God for aborting my babies and He would make me loose my wanted pregnancies. After that I felt such oppresive guilt and shame...years of it, overwhelming guilt.

10. How has your abortion affected others in your life?

I don't think it did.

11. Based upon your experience, what would you tell a woman considering abortion?

If you have a heart, and especially if you are a religious person, you will eventually feel very guilty and feel so ashamed. At first, you feel relieved, but after a few years pass, the guilt sets in.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

There is a huge emotional price to pay for the woman who chooses to have an abortion...it is not as simple as just making an unwanted pregnancy "go away"...it affects her for the rest of her life. Women have enough self esteem issues to deal with, killing their unborn babies certainly compounds these low

self esteem issues, as well as the guilt and shame which she will most likely endure.

9. How has abortion affected you?

Physically, I had endometritis and had pain for several months. The worst part was, as I was wheeled from the room after it was over--I saw a jar from the suction machine. It was full of body parts, with little arms and legs clearly visible! I will never forget that sight.

10. How has your abortion affected others in your life?

My daughter was told by a third party and used it as a weapon against me.

11. Based upon your experience, what would you tell a woman considering abortion?

To try to find an alternative because you may not realize what a mistake it is for years, but sooner or later you will come to know that it is murder of a human being. And you will deal with the guilt the rest of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That that helpless human has as much right to life as any anyone. And I would quote from the Psalms

where it talks about God "knitting us together in our mothers' womb," and how he knew us before we were born.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of dade

My name is M H. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

dade city FL

//1979

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

i don't remember

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

i was just told that since i was a newlywed this was not a good time to start out with a baby. i was told that it was just a mass of tissue.

5. Were you adequately informed of the consequences of abortion?

Yes No

i did not know that even now, this many years later, i would still carry guilt, shame and regret. if i could go back, i would never do what i did. i only got to be pregnant once more and my child is the best thing that ever happened to me. i wish i had not killed the other one. in my old age i will miss the child that will never be here, the one i will never hold, the one that i took life away from.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

i would call it persuasion

9. How has abortion affected you?

i live with shame. i cry out to God to forgive me and i know he has. but i cannot forgive myself. i have become a bitter lonely person in so many ways. despite success, the wonderful child (now grown) that i have, the wonderful family that i have, i still cry almost everyday for the child i do not have. who would have known the unending pain that an abortion would cause. i tell no one and i live in fear of my surviving child finding out. i live in fear of friends and church members knowing my shame. i dream of the day i will go to heaven and get to meet the child that God wanted to bless me with and yet i killed the gift.

10. How has your abortion affected others in your life?

my childhood sweetheart - that became my husband - the father of the aborted baby - we ended up divorced.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT!!! YOU CANNOT GO OUTSIDE OF GOD'S WILL AND EVER BE HAPPY. YOU WILL LIVE WITH GUILT, PAIN, SADNESS AND REGRET FOR THE REST OF YOUR LIFE.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I WOULD TELL THE COURT THAT THIS COUNTRY WAS FOUNDED ON THE WORD OF GOD AND THAT WE NEED TO GET BACK TO THAT FOUNDATION. I WOULD TELL THEM THAT THEY ARE NOT GOD AND THIS MURDERING OF GOD'S INNOCENT CHILDREN CANNOT BE LEGISLATED. I WOULD TELL THEM THAT ONE DAY, THEY TOO, WILL PAY THE PRICE AS THEY WILL HAVE MURDER ON THEIR HANDS!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Collier

My name is Deborah Le Blanc. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Louisville KY

11/10/1979

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

I dont know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

There was counseling before the abortion. I was already steeled against it, worried they would try to talk me out of it. However, instead it was more like reassurance that it was the right thing to do.

5. Were you adequately informed of the consequences of abortion?

Yes No

No consequences were mentioned that I recall.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

I have to accept full responsibility

9. How has abortion affected you?

I spent the next 5 years in emotional torment over what I had done. Finally, I stopped trying to rationalize it, I faced it as murder, and interestingly enough? That is when I started to heal. I became a counselor for right to life of Owensboro Kentucky for a time. Later, in Ohio, I offered my home as a safe haven for a pregnant young woman who gave her child up for adoption.

10. How has your abortion affected others in your life?

I can only hope that I have served as an example that abortion is the worst possible answer for any pregnancy.

11. Based upon your experience, what would you tell a woman considering abortion?

That it is not her body, that she will find giving 9 months of nurture far easier a burden than a lifetime of regretting taking her own helpless child's life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it is NOT the woman's body at stake. That if law is to protect her citizenry, then abortion should be illegal because it puts the literal life of one citizen to an end...and the other to emotionally suffer for a lifetime.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Duval

My name is Simone Taylor. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Fort Bragg CA

07//1977

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

I don't remeber for sure but I think it was some kind of suction device

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I did not have any idea on how the decision would affect me emotionally.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my then boyfriend.

9. How has abortion affected you?

I was only 14 at the time and felt that I had no other choice. I thought that I was really all about Pro-choice. Shortly after I had the abortion, I had horrible dreams of dead babies in cages. That is when I realized I had done something terrible. But it wasn't until I was in my 30's and had a beautiful family and a wonderful husband that I felt the total emotional effects of the abortion. I could not understand why I felt no joy in my life. I went through depression and withdrew from everyone. I often went shopping and spent too much money which had an effect on my marriage. When I finally asked God to help me figure out what was wrong, the flood gates opened. Being a Christian, I knew God had forgiven me but what I discovered was that I hadn't forgiven myself. With help from my Pastor and my best friend (who worked for Crisis Pregnancy Center) I joined a Bible study for post-abortion women. It truly changed my life.

10. How has your abortion affected others in your life?

My mom was really hurt that I never went to her when I got pregnant. My sisters were shocked. My husband has always been there for me and understands all that I went through.

11. Based upon your experience, what would you tell a woman considering abortion?

I would try to talk them out of it. I would try to encourage them to give up the baby for adoption because the true repercussions of abortion don't always emerge right away and when they do they are very painful and difficult to live, with which truly has an affect on your relationships with friends and family.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that legalizing abortion would make it too easy for women to make a rash decision. The emotional affects of abortion last a long time. Killing unborn babies brings more problems to our society by emotionally crippling women. There are a lot of couples wanting children who can not have them on their own so an unwanted child can be a blessing to someone else.

My name is Elaine I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Queens county NY

09//1978

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

saline and was performed in a hospital

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I'm not clear on that but the planned parenthood person did actually try to talk me out of having the abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

I'm not sure but you are never prepared for what actually happens when you abort a child.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my husband, but he then changed his mind.

9. How has abortion affected you?

I was very depressed for a long time. My husband helped me get through this tragedy and of course God was with me too. Both my husband and I are so sorry we did what we did. I know God forgave us but I find it difficult to forgive myself.

10. How has your abortion affected others in your life?

I haven't told my family, for I am so ashamed. It's always on my mind and one day I probably will tell them.

11. Based upon your experience, what would you tell a woman considering abortion?

I'm sure I would tell her of my horrible experience and to reconsider and I would pray with her and ask her to seek out the help that is out there. If she would let me I would support her as much as I can so she would have someone with her.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion was illegal for a reason, we are not supposed to kill our babies. Unfortunately, people have gotten away from God and they need to get back to Him. Society fails when we try to do everything our way and not Gods way.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has affected me emotionally. If I didn't have God in my life, I know that I would still be grief stricken.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them that it was one of the hardest thing to go through, physically, emotionally, mentally. I don't know any woman who has had an abortion and not regretted it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them I was fifteen when I had an abortion. I didn't know what I was doing, and did not need my parent's permission. I put my life in danger, and my parents did not have to know!! I was clueless walking into that clinic. I didn't know anything about what they were going to do to me. I can't believe that it is legal to get an abortion if you are under age, without parent consent, yet no dentist would pull a tooth of a minor without it!!

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told not to worry as it was not yet a baby it was just some fetal matter.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no warning abortion would effect me for my entire life. The guilt, shame, pain, enormous regret for having taken the life of my own child.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Myself, I was so ashamed that my ugly secrets were

9. How has abortion affected you?

First, it has taken the life of one of my children. I can never have them back for a second chance. The regret is so painful.....always. Then the gult of my decision made me feel like I don't deserve to have 2 children. My relationship to both my other 2 children have been oddly strange . like they don't even seem like mine ,,like we are not really close at all...almost like I can't relate to them. Detached would be a good word. It has been damaging to say the least. I pray someday our lives can be healed completely from all the effects of abortion.

10. How has your abortion affected others in your life?

My husband is very non-emotional and won't really talk about with me. I don't think he recognizes the correlation between the abortion and our family dysfunction.

11. Based upon your experience, what would you tell a woman considering abortion?

Please consider placing the baby with men and women who will care and love for these children.

Please give your son or daughter a chance to live.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it is a lie to believe that. We cannot continue to willfully kill our children. We have lost our conscience as a nation. How can we possibly think knowing all that we know, still believe that lie. To make abortion illegal would mean saving hundreds of thousands of lives. How could that be wrong?

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was led to believe it was nothing, no big deal. Just "tissue", no pain, no feeling...not alive.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Pressure from others

9. How has abortion affected you?

I became indifferent, hard hearted and insensitive. I started drinking and had little regard for my own well-being or safety.

10. How has your abortion affected others in your life?

I was an angry person, mean and aggressive. I took this out on anyone close to me and lost the ability to be compassionate and caring about the feelings of others. I became impatient and indifferent when others were upset or hurting.

11. Based upon your experience, what would you tell a woman considering abortion?

NEVER, EVER DO IT. NO MATTER WHAT, it will ruin your life and you will live with deep regret and pain. It is the most selfish and inhumane thing you can ever do.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

They are willing to be deceived. They have the innocent blood of millions on their hands. They are as

guilty as Hitler and the death he caused. Allowing it to happen and remain legal makes them guilty of each and every death that takes place.

11//1982

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

vacuum aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I knew I was terminating a pregnancy, but did not realize that this was an actual living life.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was only told what to expect immediately afterwards concerning my body. I was not told of the emotional distress and physical trauma that I would face long term.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have one living child. I feel very blessed to have her because I almost miscarried her in my first trimester and I think the two abortions I had before her had a bad effect on my body. I have not been able to have a child since her birth. I have cried about these abortions and long to see my babies faces. I know that GOD is taking care of them but I wish they were here with me.

10. How has your abortion affected others in your life?

My husband sometimes mention a son. I know he wanted to have a son to carry on his name, to play sports with, to have father son time with. Yes he loves his daughter, but she is a girly girl and is just not interested in the same things as him. I feel as though I have deprived him of this joy and my daughter the joy of having siblings.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her not to do it. I would tell her the long tern ramification of her action. I would tell her that life is a gift from GOD and that she is blessed. I would tell her that this baby will bring joy to her life and

others in her life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell a court that abortion is wrong and that it hurts much longer than just the afterward physical pains it causes. It devastates and destroys people and their families. It should not be legal!!

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

The kind they sucked out

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was given no explanation. I didn't ask, I was young and didn't know really what to ask or expect. I was very scared and alone. I was instructed only to put the gown on and wait for the doctor.

5. Were you adequately informed of the consequences of abortion?

Yes No

Absolutely NOT. Very little conversation was traded. The nurse asked if I wanted to hold her hand. They said it wouldn't hurt and it did. Deeper than anything, it seemed to pierce through my very heart and soul. It was something I had never felt before. Like an emptying.....

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Just myself, that was bad enough.

9. How has abortion affected you?

Well, I was young and because the law permitted it I thought it was right. Surely, my nation would NOT want harm or inconvenience to touch me. I was soooooo tricked into thinking aborting the baby would solve all my obstacles. I felt more ashamed after the abortion than before. Because of my very poor decision to kill the unplanned child I lost my next child. I later married and we so wanted a child and were thrilled when I became pregnant. ATabout 10-12 weeks I miscarried the baby. We were devastated, really broken. I didn't know until years later that the abortion was most likely the cause of the miscarriage.

10. How has your abortion affected others in your life?

The abortion which the law said was "safe" and right, stole my husband and my first child a wanted and

hoped for addition to our family. I couldn't even go out to the grocery store after my miscarriage without seeing a pregnant woman and bursting out into tears and had to immediately run to my car and lock myself in my room at home. I was so messed up for a long time in an emotional nightmare that seemed to never end. I never got pregnant again. Thus 2 children were stolen from our family.

11. Based upon your experience, what would you tell a woman considering abortion?

To consider that the unborn child in her, is part of HER! It's not some piece of tissue or just "a" thing. It has a heart and is a living spirit. It wants to live and grow and LOVE and be loved. The best option is to carry the pregnancy to term and allow a family to adopt it. The greatest gift I have EVER received is the ability to sustain and give life to another. To watch it grow, laugh and give to society.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

With tears in my eyes, I would say you are not in a place to EVER judge. It should have never been legalized. NEVER... I was fooled to think I could live by someone else's poor decision. The courts decision almost destroyed myself and my small child from my first marriage. I am in no place to judge whether someone else has the right to live or die. You think you do? If I place myself in a position and get pregnant then it IS up to me to handle that pregnancy with RESPECT, CARE AND WISDOM. That, as a human being my responsibility to do that much. Where has this law ever been a good thing? We are a nation that kills unborn defenseless babies by the millions. And I don't know, NOR do I EVER want to know anyone that calls that wise OR compassionate. It's pride, arrogance and selfishness to the max. Every woman who aborts her child loses alot more than a fetus.... ALOT MORE.

Yes No

9. How has abortion affected you?

Abortion has kept me from having an intimate relationship

10. How has your abortion affected others in your life?

trust issues

11. Based upon your experience, what would you tell a woman considering abortion?

this is a poem I wrote She stands there alone and scared such a deep secret inside who can she count on, who can she trust who will stand by her side? They say it's quick and painless won't take but 5 minutes to end what they don't tell is the trauma you'll carry that you don't share not even with a friend You thought about giving it away but what kind of woman is she that gives birth to a precious baby then sends it away for the whole world to see We make you feel bad to give your baby away worse should you choose to end his life but no one is giving the answer to what society will say is right So you carry your sin and your pain hoping no one will ever find out then one day God reminds you His son died for you, yes you count So you offer your lost baby to Jesus and he heals your open wound and He hopes you'll help others to shut the door of abortions tomb.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them they were legalizing murder and causing the survivor to have life long injuries.

QUESTIONS

1. Where and when did your abortion occur?

Maitland FL

08/10/1989

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

vaccum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I remember being told that the procedure was "safer than childbirth."

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told I would feel relief and that it was a good choice for my future. I was told that my choice to have an abortion would give me confidence and a better chance at bettering myself and my future. I was told it was a good way to not have to put my family (mom and dad) through the stress and embarrassment of having an unwed pregnant daughter.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

boyfriend

9. How has abortion affected you?

The choice to abort went against my deepest convictions, but fear of disappointing and losing those closest to me drove my decision. I felt temporary relief at first because my "problem" of being unmarried and pregnant had gone away, but knowing I had killed the very life my body was designed to create, protect, and nurture haunted me and caused me great emotional distress and relational consequences. I sought ways to numb that pain through periodic drinking binges and sexual relations with boyfriends. I went on to become pregnant again from the same boyfriend and had another abortion, and then that boyfriend broke up with me. I went on to get pregnant in another relationship which ended with another pregnancy and another abortion. Abortion became an "easy" out for both myself and the boyfriends without any regard for the tiny human life we had created. This caused me great distress and guilt when I did carry and give birth to the children I have now because I was reminded of the choice I had

once made to kill the little lives growing inside me. I have had a hard time trusting myself to make decisions, and my own self worth and confidence in myself have been shattered. I have struggled with depression and fear of something happening to the children I have now. I have not had the confidence in myself to better myself or my quality of life. I have allowed guilt to paralyze me and my decision making.

10. How has your abortion affected others in your life?

Because I have been ashamed of my choice, I have been ashamed of myself as well. Giving and receiving love and forgiveness from others has been difficult for me. Being a mother now has reminded me of the life/lives I took through abortion. I have also suffered from episodes of severe depression and anxiety/phobias which have caused great difficulty in relationships and parenting. My inability to trust myself to make decisions has given me severely low self-esteem and made many of my relationships very difficult.

11. Based upon your experience, what would you tell a woman considering abortion?

You will never regret giving a child life, even if that means you give the child up for adoption so that the child can be cared for by those who long to have children and who have the resources and gifts to parent that child. Abortion will only bring you severe regret and pain and shame.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is detrimental to the health of children, men and women, families, communities, and society. It is a breakdown at the very foundation of life causing the social and moral fibers of society to be shredded. We live in a world that sets up laws to protect unborn sea turtles but that allows abortion on demand and for any reason, which only continues to sabotage the dignity and worth of human beings which has caused a total breakdown of family and therefore society continues to implode.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one explained anything to me. We were lined up and at each station we were given a type of medicine...perhaps valium..!m just not sure.

5. Were you adequately informed of the consequences of abortion?

Yes No

Again, no explanation. It was just a process, an assembly line so to speak. Totally inhumane.

6. Were you informed of any link between abortion and breast cancer?

10. How has your abortion affected others in your life?

My husband has watched me suffer for many years.

11. Based upon your experience, what would you tell a woman considering abortion?

PLEASE....if you don't want your unborn child consider adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

They are clueless. Thirty years of suppressed depression and alcohol abuse has been my end result. However, attending Rachel's Vineyard and knowing that Jesus has forgiven me has helped beyond measure. Sure, there is still a void, there always will be. Christmas and Mother's Day are still difficult even after all these years.

County of Palm Beach

My name is Claudia I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Miami FL

2. How many weeks pregnant were you?

3. What type of abortion was performed?

surgical abortion/ I was asleep. I don't recall how far along I was, between 5 and 8 wks

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

From what I recall, I was told I would not feel anything. I was told that afterwards it would be like a period with minor cramps.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told of any of the psychological consequences that abortion brings with it. The "counseling" provided to me was just telling me how I had a right to choose abortion and that it was my body.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Parents and older sister

9. How has abortion affected you?

It affected my life in a very negative aspect. At first I went into denial and it led me into a negative relationship that did lead to marriage. I suffered from Post Abortion Stress Syndrome. I experienced anger, rage, nightmares and severe depression. Apart from all that there was the guilt and shame as well.

10. How has your abortion affected others in your life?

It affected my relationship with my child at the time, while I experienced those symptoms from the abortion it was very difficult for my other 2 children. It has affected my child knowing that he would have had a younger brother. It did affect my marriage due to the symptoms of PAS and not knowing/realizing where all of that was coming from.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them that there are other options available to them and support for them and their child. I

would let them know that abortion hurts women, that abortion can never be undone. I would explain that abortion is terminating the life of their baby and because of that fact there are consequences that the women will experience and suffer from. It is a lie that a woman can have an abortion and continue to live their life just as they had prior to it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say that the woman who is pregnant is carrying a child that is alive and it should not be legal/ok to terminate the child in the womb just like it is not legal/not ok to terminate the life of your 2 year old. Many times a woman may feel, as I did that they have to choose between their child in their womb and the child they already have. The fact is that BOTH are your children. I would remind them that many women have died physically from LEGAL abortions and many more have died emotionally due to their abortions.

Boyfriend--"Family Planning Clinic"

9. How has abortion affected you?

Substance abuse. Lack of bonding with my current children. Shame. Unable to forgive and /or accept myself or others. Since a young life was squelched for none other than selfish "convenient" reasons, other lives lack significance.

10. How has your abortion affected others in your life?

They're unable to truly bond with me. In order to avoid delaing with my shame, I avoid them and the only wqay I can do that anymore is thru drinking. It's like trying to hold a balloon underwater--VERY DIFFICULT!

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT!!!!!!! Adoption is an option!

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

In some (rare) cases it may be an unavoidable necessity. Having the procedure be 'legal' allows for the procedure to be performed in a clean and (relatively) safe environment. It keeps women from locking themselves in a bathroom with a hopefully sterilized coat hanger. The way it is now, abortions are used as a means of 'birth control', and NOW the government even wants taxpayers to PAY for them!!

2. How many weeks pregnant were you?

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was informed that since I was under 12 weeks, the only thing inside me was a blob of tissue, so I should act quickly before it became a baby. The procedure was never fully explained to me

5. Were you adequately informed of the consequences of abortion?

Yes No

No, I was told it was OK because it wasn't yet a baby. I was not told that in fact the baby was formed and the suction used to extract him from me was ripping him apart. I knew once the vacuum started because I could just feel the tiny parts being ripped inside me, and I got the most sickening feeling ever in my life. I knew then I was killing my baby and I had gone too far to stop it. No one ever told me about the devastating emotional, mental, spiritual and psychological effects it would have on me. I went through years of "clinical depression", self-sabotage and other downward spirals that de-railed my career, a marriage and family life. I later learned that what I suffered from was post abortion syndrome. Because of the shame, hurt and humiliation, I had buried the abortion so deep inside, I blacked it out for years. In doing so, I also lost many great memories of my life because all of a sudden, I couldn't remember anything about past years. I went from promiscuity to frigidity and shame of my body, untrusting, and detached from my family. I ended up moving over 400 miles away from home, trying to hide the shame and keep it from my family.

10. How has your abortion affected others in your life?

see #5. I left home at a pivotal point in life, where family was really bonding and coming together to take care of a sick mom. I missed those years of bonding. Every member of my family back home is extremely close to each other, I feel like the outsider whenever I go back. I missed many of the last years of my mom's life, because I wasn't strong enough to go back home, not ready to face the baby's father again. I was angry at him and I hated myself. I didn't emotionally heal before getting married and so brought all this baggage into the marriage, which also ended up affecting my children's coping, critical thinking and relationship building skills

11. Based upon your experience, what would you tell a woman considering abortion?

That abortion is not the quick fix you may think it is. It really creates a bigger problem in life. I would encourage her to be very informed of the fact that she is indeed ending her child's life and that decision will have emotional, psychological and other effects she hasn't even thought of. I would advise her of the many other options available today, like open adoption and the support systems that would be available to her if she chose to keep her BABY

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That they are legitimizing murder, taking a life - life begins at conception so abortion is taking a life. Legitimizing it allows that fact to be distorted, misconstrued and many people misinformed. If I decided to kill my born child at 3wks, 3 mos or 3 yrs for what I may consider valid reasons at that time, I am going to jail for this. So why do I get to kill my unborn child without penalty? They are also violating the #1 constitutional rights of the unborn - the inalienable right to LIFE. We talk about choice - what about their choice? who stands up for them? everyone has a right to be represented in a court of law - who is representing them? They are not only taking a life, they are contributing to the high rate of depression, stress and other emotional disorders women become victim to once they come to a realization that they just murdered their own child. They are destroying families as fathers suffer from standing helplessly by in many cases where the woman exercises her "choice" and he disagrees, but has no say in the matter. Siblings suffer from the emotional detachment and confusing behaviors of mom as she deals with the trauma of abortion. The court is helping to cripple a society in many ways with this one act.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Hillsborough

My name is Karina Stong. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Hartford CT

06/08/1995

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

I was sedated due to how far along I was, I am not sure what was done

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

As mentioned I was only told that I was going to be sedated for the "procedure" because of how many weeks I was. That was all.

5. Were you adequately informed of the consequences of abortion?

Yes No

When I woke up I was offered some juice and cookies a bag of pads and told not to drive.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend at the time, 26 and I was 20

9. How has abortion affected you?

I spun into a deep depression because of it, began to drink heavily to try and forget it. My relationship with my boyfriend at the time was destroyed and became violent because of his own regret and anger toward me for having listened to him about getting an abortion. I was held hostage in a relationship i didn't want to be in because he threatened to tell my family if I wouldn't see him. This went on for 6 months after.

10. How has your abortion affected others in your life?

He ended up attacking me one night out at a club and because friends defended me he was hurt badly, he proceeded to call my parents and tell them about the abortion. The already rocky relationship I had with them went from bad to worse as we all began to process what I had gone through and what they had just been told. My parents and sibling were broken hearted, and we all mourned the loss of that little life together. I don't know if my ex boyfriend ever dealt with the pain and damage that this decision did

to him. I have spent many years praying that he has.

11. Based upon your experience, what would you tell a woman considering abortion?

That this is a life placed inside you by God himself and that although you may be scared or unsure God is not. He hand picked you to be this baby's mom. That at 13 weeks I could have heard a heartbeat and know the sex of the baby. You have options and there are people an organizations that will help you through the pregnancy and the decision to keep or give up the baby for adoption. That I live everyday knowing that I ended a life and that the years I spent self destructing were because of this. Only through forgiveness and truly mourning the loss was I able to heal and that I don't want anyone to have to go through that. I would tell her how I wished someone would have had this same conversation with me 15 yrs ago. I would then share the developmental stages of a baby so she is aware of the life inside her and that it isnt a mass of tissue but a baby. I would love her regardless of her decision but that I must stand and speak for the one who has no voice, the baby she is carrying.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Listen to the cries of the women of today and not those of 40 years ago. The women who have lived through these decision and what it has done to their lives. Women should be informed of all possible outcomes and complications. Women should be allowed to listen to heartbeat and see the baby inside her first and learn about all of her options prior to the abortion. That would be what full disclosure is. Not just the watered down medical description of the "procedure". These women should be asked of they truly understand what they are doing? If I had heard my baby's heartbeat the outcome would have been very different. That most women walk this process completely alone. The tobacco industry knowingly produces a product that is dangerous and deadly and the court makes sure that they spend millions of dollars every year educating and warning people against the dangers of smoking, yet we allow the media to promote abortion as a personal choice without any education or warnings attached to it. We allow minors to make these kinds of decisions without parental consent but we wont let them drive a car without it. I would tell the court that at 18 my life was not ruined but enriched by the life of my baby and I don't regret it for a single second, but what I do regret is not having her almost 15 year old sibling to raise along side her. I regret not getting all of the information ahead of time and allowing Planned Parenthood to play on my naivity, my immaturity and my fear.

HOW MY ABORTION AFFECTED ME

The State of FL

County of Manatee

My name is Heather Goldin. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Iowa City IA

08//1988

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

D&C, vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I did not receive any info of other options. I was only told of the risks of infection and post-op care.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was given post-op info and how to care for myself physically but nothing on the emotional or physical risks for my future.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

After almost 20 years of denial my abortion affected my life. I felt depressed, guilty and shameful. I felt like I had failed as a mom even though I had three wonderful children with the same man, who was now my husband, that I was pregnant with 20 years earlier. I could not stand that I had killed my kids sibling. I went through extensive therapy and healing and now counsel others in a crisis pregnancy and have led post abortive Bible studies to help other women find this freedom.

10. How has your abortion affected others in your life?

It affected my husband and I and the guilt and shame we felt. We have yet to tell our children but will be faced with that when they are a little older.

11. Based upon your experience, what would you tell a woman considering abortion?

Ido this each week since I volunteer at a crisis pregnancy center. I tell them the truth about the procedure, the risks and the emotional baggage she will have for the rest of her life. I also tell them that I can't judge them and if they need someone to talk to, I'll be there. Jesus is the only way to get

through this and come out forgiven on the other side.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say that legally, via our Constitution and Declaration of Independence we uphold human rights and one of those is life itself. New scientific discoveries prove that life begins at conception. NONE of the "history" provided in the Roe v. Wade decision is relevant. The 1973 decision is irrelevant and our laws should only be based on US history and NOT other countries and their abortion practices. Lastly, the decision also cited that abortion would be legal if any mental problems may occur if the mother has to remain pregnant. What the court may now add is the PROOF that mental anguish occurs after the abortion cannot be discounted. If the US would treat sex education like we do tobacco education and tell the TRUTH about the risks and diseases and pregnancies and abortions and all the trauma that can follow we would have much fewer problems with individual self esteem, unwanted pregnancies, STD's and STI's and post-abortive stress disorder in this country.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had no idea my baby would be ripped limb from limb.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one EVER mentioned to me that I could suffer emotionally for the rest of my life. They don't give you grief counseling before OR after you murder your child.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Ex boyfriend

9. How has abortion affected you?

Abortion has affected me in some ways I can't even put into words. ONLY tears can tell that kind of pain and suffering. I live everyday knowing now, that I have put my own flesh and blood, an innocent living being to death. For no good reason. This baby was living inside of me- heart beating. I let a monster tear my baby limb from limb right out of my belly. I had no idea of the brutality of abortion until I became overcome with guilt and grief and forced myself over and over to watch videos of abortions around the gestational age of the ones I had had. Yes, I had more than one. I had 3. For many years and still today I suffer and try to forgive myself for this. I still can't. I've had numerous pregnancies, aka "replacement babies". I thought I could make it better somehow if I went through another pregnancy and kept it. It didn't work. Over the years I've suffered with major depression, numerous suicide attempts and heavy drinking. I was almost sent to a state mental hospital due to the number of psychiatric hospitalizations which always followed after an abortion. No one ever just gets over this. It stays with you forever. I wish I could take it all back and let my babies live. It was their right to live and not mine or

anyone else's to take away. I hope they forgive me. I'm truly sorry and will forever grieve the loss of my children. Abortion IS murder in the 1st degree.

10. How has your abortion affected others in your life?

I don't know.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her exactly how it affected me and tell her her baby deserves and wants to live. It's not our right to decide who lives and who dies. These babies are created for a reason and each and every baby/person is a true miracle. No baby deserves to die.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would argue a few of the laws first of all. It's illegal for someone to harm a pregnant woman. It's double murder if you kill a pregnant woman. It's LEGAL for a woman to kill her own child before it's born no matter the gestational age. It's ILLEGAL for a mother to kill her child after it's born. How can anyone justify these laws! It's a total contradiction! Yes these babies need the mother to survive inside the womb but they are still SEPERATE beings. If a baby is born and left to die it will die and then it's murder. So that being said, how is it NOT illegal to abort or "murder" another human just because it's still in the mother's womb? The only difference is the location of the crime. Abortion is wrong and it IS murder no matter what way you look at it.

3. What type of abortion was performed?

suction curretage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told it was a baby. I was told it was a "blob of tissue"

5. Were you adequately informed of the consequences of abortion?

Yes No

No, I was not informed by how this decision would impact me for the rest of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I downward spiraled after my abortion. Drinking, drugs, sexual promiscuity, depression...

10. How has your abortion affected others in your life?

My parents and my boyfriend at the time. It has impacted their lives.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT!!! It hurts physically as well as emotionally. There are other choices, parenting or adoption, this is a child's life and we have NO RIGHT to end it!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The emotional side of abortion is tremendously negative. It hurts- post-abortion trauma is real. The lie of "it's a blob or tissue" and "your life will go back to normal as soon as it's over" is sold to women all of the world!! It's a LIE and It's a LIFE!! The baby is killed and the mother is NEVER THE SAME!!! NEVER!!

2. How many weeks pregnant were you?

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It was explained that it was termination of a pregnancy....not the killing of a living human being.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told the harmful effects of terminating an infant life such as: depression, nightmares, guilt, anger at myself and those who forced the abortion, fear, eating disorders, alcoholism, low-self esteem, anxiety (with regards to intimacy, sex, decision making), stress, endometriosis, lack of self worth, lack of motivation, dissatisfaction of life, emotional paralysis, post abortion numbness, sleep disturbances, self reproach, withdrawal, anniversary date and due date crises, self destructive behavior, chronic problems with relationships, dramatic personality changes, anxiety attacks, difficulty grieving, increased tendency towards violence, self-hatred, chronic crying, difficulty concentrating, loss of interest in previously enjoyed activities and people and difficulty bonding with children; all of which I have experienced.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend did not want 2nd child, 1st from another

9. How has abortion affected you?

See question 5...I would give everything I have to take back my decision. Almost 5 years later I realized the devastating effects abortion brings to a family. My parents lost a grandchild, my grandmother lost her great grandchild, my sisters lost their niece/nephew, my niece and nephew lost their cousin and I lost my child.

10. How has your abortion affected others in your life?

My boyfriend and I, went from discussing marriage to terminated our relationship. We both became severely withdrawn from each other and unable to connect emotionally. I'm still so filled with shame, I have not been able to tell my family about the murder of my child.

11. Based upon your experience, what would you tell a woman considering abortion?

I understand that it is a woman's choice but please, please, please fully understand what you are doing. Read about ALL of the consequences...physical and psychological, watch "Silent Scream," research open or closed adoption/government support/surrendering a child. Make a fully informed decision with regards to the life of your child. You only have one chance.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion will happen whether it is legal or illegal but at the end of the day it is the child that is growing who suffers. Five years after my abortion, I went to a support/recovery group called Rachels' Vineyard...out of 10 women, there were 27 children lost. The last day we all (including some of our loved ones) attending a funeral for the lost child. Under ANY other circumstance, if you told someone you attending a funeral for 27 children, they would be utterly and completely heartbroken, even if these children were not known. To say that they were murdered would skyrocket this story across the world. This was only ten women....and this is abortion.

My name is June Heitzman. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

West Palm Beach FL

06/01/1978

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The clinic presented itself as a legitimate obstetrics clinic. I thought I was going for a prenatal visit. They asked if I planned the pregnancy and offered me the "solution" of abortion. They explained nothing to me about the procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

The devastating emotional and potential physical consequences were never mentioned. The emotional pain I endured is beyond description.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Clinic personnel. They made it seem right.

9. How has abortion affected you?

My abortion has caused more tears and suffering than I can describe. The pain never goes away. It played a role in my divorce. It has caused me to try to help others considering abortion.

10. How has your abortion affected others in your life?

My children learned of the abortion, and my oldest daughter hated me for it. She ran away from home for a few days when she found out. She gave the baby a name.

11. Based upon your experience, what would you tell a woman considering abortion?

There are 2 choices we can make when it comes to pregnancy: we can choose life or we can choose death. There is no in between. I would try to teach her about the pain of abortion. I would offer help for her.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would have another child if abortion were not legal. The legality of abortion caused the death of my first child.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I WAS 17, I DO NOT REMEMBER THE DOCTOR SPEAKING TO ME. IT WAS A BLACK DOCTOR IN HIS OFFICE IN DOTHAN. LOOKING BACK I FIND IT ALMOST UNBELIEVABLE THAT A YOUNG BLACK GIRL ALONE TOOK A BUS FROM ORLANDO FL TO DOTHAN AL TO HAVE AN ABORTION. IT WAS A REGULAR DOCTORS OFFICE WITH OUR PATIENTS WAITING.

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

MY HEART IS SAD FOR MY ABORTED CHILDREN (3 ALL BEFORE 1973) AND FOR ALL THE OTHERS LIKE ME WHO DID NOT KNOW JUST HOW WE WERE DISHONORING GOD ALMIGHTY OUR CREATOR AND OUR CHILDREN. NOW I FULLY UNDERSTAND THE IMPACT OF MY FURURE GENERATION AS I A NOW THE GRANDMOTHER OF 4. I ALSO FEEL THE LOSS OF MY GRANDCHILDREN.

10. How has your abortion affected others in your life?

I HAD DIRECT INFLUENCE ON 2 OTHER WOMEN WHO HAD ABORTIONS AND I HAVE GONE TO THEM AND TOLD THEM HOW SORRY I AM FOR AIDING THEM IN THAT HORRIBLE DECISION AND HAVE ASKED THEM TO FORGIVE ME. I THINK THAT MY GROWN CHILDREN FILL A SENSE OF LOST TOO.

11. Based upon your experience, what would you tell a woman considering abortion?

I DO TELL THEM WOMEN NOT TO DO IT BECAUSE IT DOES CAUSE LIFELONG HURT
EVENTHOUGH OUR GOD FORGIVES , THE PAIN REMAINS.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I WOULD THEM TELL THAT IS UNWISE AND UNFAIR, HOW COULD WISE MEN BELIEVE SUCH A LIE?

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Jackson

My name is Denise Hansbury. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Peoria IL

10/23/1973

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

I think a suction type utensil was used

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I vaguely remember sitting in an orientation room with other girls who were there for abortions. We were all afraid and I remember we were all pale looking. A smartly dressed, confident nurse or assistant, I don't remember, talked with us very quickly. She proceeded to explain what would happen when we left the orientation room. None of us asked questions. I remember her saying only, don't worry, its a quick and harmless procedure, its just a blob of tissue, not a baby at this point in its development. We were all so afraid to ask anything else.

5. Were you adequately informed of the consequences of abortion?

Yes No

I remember someone saying that this will be over quick, and your life can continue as normal. You'll forget it ever happened.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend and current husband, but I agreed

9. How has abortion affected you?

Depression, guilt, unexplained sadness, shame, cannot discuss this with just anyone.

10. How has your abortion affected others in your life?

My brother and sister were shocked and disappointed. My brother said, it was my neice or nephew! My sister drew in her breath and looked at me wide eyed. It was devastating for me. I feel shame when I think of it.

11. Based upon your experience, what would you tell a woman considering abortion?

I am now 56 years old. I had my first abortion at 19. The pain and long term suffering and guilt that consumes me when I let my mind think about my children makes me so sad, hard to explain in words. Don't do it. Adopt that child to loving Christian parents. Please give this child life. You will never regret your decision. Abortion is so final and I guarantee you will suffer. If not right away, when you get older and start thinking about your abortion. You can never offer this child love. But if you adopt and the child lives, you will be able to possibly someday love that child. Just by giving the child life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Please hear the outcry of all of us women. We are a large percentage of hurting people. Overturn this atrocity. It's not only a women's choice to do what she wants with her body. You are making a life and death choice for another human being. You are here because your parents did not choose abortion. If a man murders his pregnant wife, he has committed two murders, legally. Abortion is murder. It must stop.

QUESTIONS

1. Where and when did your abortion occur?

New York NY

09/23/1983

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

docter office

4. Were you adequately informed of the nature of abortion, what it is, what it does?

No just paid and did it.

5. Were you adequately informed of the consequences of abortion?

Yes No

Not at all.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

co-worker friend

9. How has abortion affected you?

Severe depression, feeling inadaquate, disconnected from family, remorse,shame, confused, anxious. Also spiritually abandoned and finally many years later through prayer counseling and Jesus forgiveness am able to cope because I have repented and cried a valley of tears.

10. How has your abortion affected others in your life?

I don't know have not talked bout it.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. God will help you. I remember a high school friend had told me don't do it ever for she was very angry at herself and years later i did it and then I knew what she meant. You realize you actually killed your very own self=cut off from all that is precious. I felt damned to hell, tormented. I heard the cries of babies in my ears and the laughter of Lucifer and the fires of Hell. No one should ever have to experience this ever. it is beyond words.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I know that I have to face my judgement day with Almighty God who gave me life with this issue, but thank God that I have heartfully been sorry for fearing instead of trusting God that He would care for us. I plead the court to consider that if one abortion can make life a living nightmare then deciding to make abortion legal will mean for you torment in Hell. Repent and don't do it. May God have mercy on our souls! God bless you.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Sarasota

My name is Lois Angela Wood. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Boston MA

//1980

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Above date aprox year. I do not know, I was knocked out during the procedure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Yes and no... fetal tissue in my mind was not a baby yet. I was told it was fetal tissue. When I learned that at 8 weeks there is a well formed baby I was horrified. It was too late then, a few years later I saw it in a book.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no information provided about the aftermath that would come crashing down on me when I realized I had killed my baby.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Mother

9. How has abortion affected you?

I have had panic attacks for years after the abortion. Alcohol and drug abuse. Pattern of ending good loving relationships. I have been self hating for years and unable to feel deserving of happiness.

10. How has your abortion affected others in your life?

It has affected my daughter because she is an only child and has always wanted a brother or sister.

11. Based upon your experience, what would you tell a woman considering abortion?

Killing your own flesh and blood is something that is so against a woman's nature that it will haunt you forever. Killing your child will kill part of yourself... your very own flesh and blood. I have lived with the horror of knowing I killed my very own baby and don't want that for you. Please bring your child to term and if you can't keep the baby, make an adoption plan.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If abortion was not legal I would have had to think it was wrong. If abortion was not legal I would have a son.

9. How has abortion affected you?

I ended up with endometriosis and later a total hysterctomy. God has forgiven me and now I am pursuing prolife politically from Gods direction in my life.

10. How has your abortion affected others in your life?

my son is with out his sibilngs and my future husband and I are not able to bare children together.

11. Based upon your experience, what would you tell a woman considering abortion?

That they are loved and that God has a plan for each of us born and unborn. That in God says in the Message version of the Bible Jeremiah 1:5 " Before I shaped you in the womb, I knew all about you. Before you saw the light of day, I had holy plans for you: A prophet to the nations-that's what I had in mind for you." And that there are people out there that are not capable of having their own child would raise and love your child as their very own that God is using you as a vessel to help out another person have a family. I would also pray over that person.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

1) we are infringing on the unborn child's right. 2) it's murder 3) Roe vs Wade and Doe vs Bolton....committed perjury by saying they had an abortion when they didn't so the ruling should be reversed. 4) Not only is it murder the mental and health consequences to women have increased health care costs....cancer, endometriosis mental breakdowns, hysterectomies. 5) In auto accidents if a woman is pregnant and the unborn child dies that person is held liable and charged with manslaughter for something that wasn't intentional yet woman purposely aborts the unborn child and the courts deem it the woman's right and not murder to the unborn child's right to life. 6) that every woman has to have a sonogram and go through counseling.

QUESTIONS

1. Where and when did your abortion occur?

St. Petersburg FL

08//1987

2. How many weeks pregnant were you?

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only told it was a simple procedure. I was told that they were removing a blob of tissue that was not yet a baby. That I could get on with my life and no one had to know.

5. Were you adequately informed of the consequences of abortion?

Yes No

No. I was told I might experience a little cramping and some spotting for a day or two. But that's all.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

For 22 years, I suffered deep guilt, sorrow and shame in silence as only a couple people knew. I avoided stable relationships and avoided being around babies. I felt I was unworthy of marriage and having children. I abused drugs for many years in an attempt to forget my choice to end my babies life. I have deep regret.

10. How has your abortion affected others in your life?

Only recently have I been able to tell my family

11. Based upon your experience, what would you tell a woman considering abortion?

I would share with her the truth of the affects of abortion, physically and emotionally. That it is not a simple procedure, nor is it a blob of tissue. That it is something you will never fully recover from, though you may feel relief for a short period of time, regret lasts forever. If she was unable to parent her child for whatever reason, I would ask her to consider adoption, the loving option. It is a precious life that God created in his image and he has a plan and a purpose for him/her

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it is wrong. Life is a gift from God and we have no right to interfere with God's divine plan. It is wrong to deceive people into believing that this an acceptable option. It is wrong to withhold vital information that can impact the rest of your life. It is wrong to be able to make this decision in the heat of the moment when you are consumed by fear and not thinking clearly or logically. It is wrong to deceive people about the true nature of abortion and all...the potential side effects both physically and emotionally.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Escambia

My name is Mary Guthrie. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

El Paso TX

03/09/1976

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The procedure was explained to me as similar to a "vacuum cleaner" that would suck out the "products of conception."

5. Were you adequately informed of the consequences of abortion?

Yes No

What consequences? My problem would be solved. I can't quote their exact words, however, when I suggested that I try to raise my child, they laughed and ridiculed me. When I suggested adoption, they sneered and asked me who in the world would want YOUR baby? There were "millions of children" up for adoption, what made mine any more desirable? In other words, there was no other "reasonable" option for me beyond abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The clinic people - as mentioned above.

9. How has abortion affected you?

1) Chronic long-term depression requiring medication. 2) It has affected my relationships with my succeeding children. I was overly lenient with all, overindulgent at times. It was not until they had reached adulthood that I realized why I had been so accommodating with them. I was trying to make it up to the son whom I killed...and to "prove" that I could be a "good" mother.

10. How has your abortion affected others in your life?

My emotions, particularly with men, are not the most stable. Insecurity and poor self-image have helped me to put up with abusive behavior from the men in my life.

11. Based upon your experience, what would you tell a woman considering abortion?

Please give your child life, even if you want to give your child up for adoption. Please honor the life that God has begun inside you. I feel so strongly that I will help you in every way possible, and when I can't I'll find someone who can. Don't grow into your old age regretting the murder of your own baby and wondering what plans God would have had.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

How can you sleep at night knowing that you bless the murder of innocent lives? Abortion is a highly profitable industry all dressed up as a civil right. You call yourself "pro-choice?" Go ask the millions of women who have had abortions: 1) Was it your choice to have sex? 2) Was it your choice to abort? You will see that most abortive women themselves are offered no choice. All the choice rests in the hands of their significant others, their abusers, their pimps. When you see abortion through the eyes of those enslaved to the sex industry, you will see it for what it really is - a way to protect those who abuse children and women. Keeping abortion legal keeps pedophiles in business and fosters the growth of human trafficking. So, how DO you sleep at night?

QUESTIONS

1. Where and when did your abortion occur?

Jacksonville FL

05/14/1995

2. How many weeks pregnant were you?

15

3. What type of abortion was performed?

Vacuum Extraction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not aware of how far the development of my baby was. That the vacuum extraction meant to tear my child literally limb from limb

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not aware of how far the development of my baby was. I didn't know the risk of breast cancer. I did not know of the depression and guilt that would follow me. I did not know the flash back memories would haunt me. I didn't know it would effect my ability to have more children or the reproductive problems I would have later.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Mother

9. How has abortion affected you?

I have had a difficult time bonding with my subsequent children. I have flash backs of the procedure. Severe depression. Self image issues. Intimacy issues. Desire to "replace" the baby that was ripped from my womb. I struggle in any situation that I'm not in complete control over. I have anxiety issues

10. How has your abortion affected others in your life?

Same as above, my children & husband have suffered. I have a difficult time forming lasting friendships.

11. Based upon your experience, what would you tell a woman considering abortion?

I would give her ALL the facts so she can truly make an informed decision. See an ultrasound and see for yourself the developement of your baby. All the facts surrounding the link to breast cancer. The

depression, all the proven statistics relating to abortion such as suicidal tendencies. Recurring abortions. Promiscuity, drugs. The Post Abortive Stress Syndrome" This could effect the ability to have children in the future. That this is a living human being NOT a blob of tissue!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The same as above. I truly feel if more of us women who have "been there" came forward it would be highly unlikely the courts could believe it should be legal. To truly see that abortion not only murders a living being, but also effects so many more for generations to come.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Pinellas

My name is D P H I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Charleston SC

12//1970

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

It was called a 'therapeutic' abortion, for mental health, but that was not a real need.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was so ignorant, not even aware of the stage of a 3 month fetus. I had no spiritual understanding of conception, gestation, or consequences of an abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was sent alone to a psychiatrist for the sole purpose of getting him to say I needed the abortion as I already had 5 healthy children, and felt I didn't need any more. He dragged my mind through a tortuous series of conversation to insure that I was not 'stable', and he could say I needed to have the 'therapeutic' abortion. That was the only 'counseling' I got.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

More by not doing anything than forcing me to go.

9. How has abortion affected you?

Once I came to know Jesus Christ as Savior and Lord, and the truth of what I had done years before, gave me a reality check, I was overwhelmed by guilt and sorrow. I knew God forgives, but the loss of a child I would never know or nurture here on earth, cannot be 'undone'. After 40+ years, the thoughts of that child, still come to me, realizing how much must have been missed by not only that one life, but all the rest of us who never interacted with him or her. Ignorance is NOT BLISS!!!

10. How has your abortion affected others in your life?

There have been some unkind remarks made about my mother, who had more than one abortion, but I don't know if they included me in those. Otherwise people were understanding, not making an issue of

it. Not many people knew unless I chose to tell them.

11. Based upon your experience, what would you tell a woman considering abortion?

Dear Child, No matter what your reasons for wanting to be free from having a baby at this point in your life, I beg you to at least get proper counselling and offer that baby a chance for life whether or not you choose to be a part of it later on. Listen to the testimonies of those who Thank God for having been given the chance to SURVIVE and LIVE the life God had planned for them!!! As moms, we get a vote, but our babies, only get what we allow them to have. God says, "I place before you this day, life, and death; choose LIFE!" If you know of Tim Tebow, just ask him, or his mom; he is a survivor! We never know who or what our child is destined to be, if we never give them the birth and life to find out God's plans for them. Thank you for choosing LIFE! I wish I had.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

After much prayerful consideration, I would ask God to speak through me at the time. God is the giver of life and Eternal Life, and we have no right to choose to throw any life away. Ignorance is no excuse. Help and wise counselling is available for anyone who needs it. This was not known to me some 40 years ago. I NEVER would have chosen to end that pregnancy, if I had known what and WHO I know now. Laws should be in agreement with the Creator God, Who can't be 'removed' from existence no matter what a person believes or fails to believe. WE are the ones who need to speak out for the unborn, who otherwise have NO voice to choose LIFE. Life isn't always FAIR, but GOD IS!! If you don't know HIM, you will likely not find this important or necessary. I pray you find that WAY of TRUTH before it is too late. Thank You for listening.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of USA

My name is Michelle Geraci. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Shelton CT

06/10/1991

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

I don't know how many weeks pregnant I was. I was farther along than the over the phone calculation.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I called them over and over asking for a counseling appointment. I didn't want to have an abortion. I kept asking for a resource or for someone who could help me. I kept asking for a sonogram to find out how many weeks pregnant I was. They refused to make a counseling appointment. They refused to give me any outside resources. They told me I was abandoned by the father. They told me I was alone and on my own. As for the sonogram, they told me they didn't have that. They told me to wait and come in for the scheduled appointment and we could talk about it then. They practically sat on me to sign all these papers. I kept telling them I didn't want an abortion. They kept telling me this was my only option and the best thing for me. I was then told to put on a gown and go in to the exam room. I kept telling the doctor I didn't want to have an abortion. Then I saw what I knew must be the sonogram of my baby across the room. I asked what that was and everyone got in front of the screen and told me it was nothing. I started crying. The doctor finally said in a cold voice that I didn't have to do this. I told her again that I didn't want to, but I was scared and didn't know what else to do. She put the face mask on my face with me still protesting.

5. Were you adequately informed of the consequences of abortion?

Yes No

They told me I can always have children later when the time is right. They told me that this was the best thing for me and it would all be over and life would go back to normal and not to keep thinking this was a baby... it was just a little blob of tissue. They made me sign a paper that said there was a small chance I couldn't have children after, but she just waved that away, saying they just have to tell us that and not to worry... I'd have children later. She pressured me to just sign the paper. I was so demoralized and so hopeless and numb and scared at that point I just kept signing the papers they put in front of me. I really had no concept of what I was doing.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My roommate at the time and Planned Parenthood.

9. How has abortion affected you?

Anxiety, Depression, Sadness, Remorse, Memory loss (the dates of my abortion are to the best of my memory, it was such a traumatic event), Nightmares, Disconnection with myself and others, Worry over the lump in my armpit that it will become cancerous, Confusion, Daily grief and sadness about murdering my baby and not standing up for her (I believe she was a girl), always wondering about everything about her, Anger at being unsupported and lied to by Planned Parenthood just so they could make money for murdering my unborn, innocent, beautiful baby who deserved to live and not die because they (Planned Parenthood) were able to take advantage of a me, a young, unprepared, afraid, and vulnerable pregnant woman and manipulate me and lie to me when I was afraid and uncertain about how I could have a baby ... and take the life of my baby... and pay them to do it!!, having to constantly work so hard at being present with my children I have been blessed with; to enjoy them and not be constantly in mourning for the unborn baby I aborted, and deal with shutting down the constant little voice that lies and says that I don't deserve them and I deserve to lose them, too.

10. How has your abortion affected others in your life?

My children knew someone was missing before I ever told them. They deal with sadness and loss and anger over how they lost their older sibling., too. My husband has to deal with a wife who has sadness and who has that hole that never has mended. As much healing as I have had, it will never change the fact that I was used like a used car salesman uses a naive person, and the cost was the life of my child who it would have all worked out for had I had the opportunity. Planned Parenthood's idea of choice and options were that I had none but theirs - ending the life of my child.

11. Based upon your experience, what would you tell a woman considering abortion?

Killing your baby - and it is a baby, not a blob of tissue - will never go away. You will suffer intensely for the rest of your life. You will never fully enjoy another living day for the rest of your life. You will, every day think about your death when you will join your baby you, unrealizing in your distress, killed - and that's if you become un-numb enough at some point in your life to get help and forgiveness that only comes from The Lord. Otherwise, you will think about when you die and deserve to go to hell, praying that your baby is safe in heaven.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that they were wrong before when they thought African Americans, or Negroes as they were called at that time, were not people and they are wrong now. That human beings are human beings in the womb and out. Just like kittens are kittens before and after birth, and puppies are puppies before and after birth, and those ducklings were ducklings before and after they hatched that they used our tax dollars to have Secret Service guard at the White House in Washington D.C. back in 2007. Aren't the unborn lives of human beings as important as those ducklings? Where's our Secret Service guard to protect the unborn lives of human beings?

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TX

County of El Paso

My name is Mary Guthrie. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

El Paso TX

03/09/1976

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Few if any details were given to me regarding the procedure. Any option to abortion was dismissed. "You can't raise a child alone, you don't even have a job." "Adopt? Who would want YOUR child?"

5. Were you adequately informed of the consequences of abortion?

Yes No

There were no consequences discussed at any time. It was sold to me as simple procedure to solve a problem.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I've struggled with depression and anger management issues ever since age 18 (at time of depression), especially anger towards myself.

10. How has your abortion affected others in your life?

I believe that guilt from having the abortion negatively impacted my ability to discipline my other children. I was overprotective of my children, and was not as firm with discipline as I should have been. It was as though I was trying to compensate for the baby I aborted. Additionally, it set me up to tolerate a lot of physical and emotional abuse from both husbands. After all, I had murdered my own child - I did not deserve better.

11. Based upon your experience, what would you tell a woman considering abortion?

First, whatever your needs are, whatever it will take to help you to choose life, please tell me, I'll help,

I'll do anything to help you give life to your child. I would also share everything that I've mentioned on this page, about the damage it will do not only to you, but to any more children that you should have.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder, no matter what laws are passed to make it legal. Not only does it kill a child, it contributes to the death of the mother, maybe not immediately, but it kills a part of the mother's soul. The consequences will last the rest of the woman's life. I would also say that abortion is not about "choice," but is instead a multi-billion-dollar industry masquerading as a civil right.

HOW MY ABORTION AFFECTED ME

The State of FL

County of Alachua

My name is R M I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Gainesville FL

06/01/1987

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I wasn't told anything. I arrived, had sonogram, had the procedure with minor complications and went home.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told how to care for myself physically for a few weeks after the procedure.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Due to the loving graciousness of a loving God, I brought my guilt to Him and was forgiven. Knowing that and only because of that, I've had no remarkable negative effects from the procedure to date.

10. How has your abortion affected others in your life?

Very few know. My husband knows and has never mentioned the event again, neither have I.

11. Based upon your experience, what would you tell a woman considering abortion?

There is a better way. The option of abortion has only negative effects.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We all have a right to be born, a right to life. No one should be able to take an innocent life simply for convenience.

HOW MY ABORTION AFFECTED ME

The State of FL

County of Collier

My name is Loretta Judy. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Cleveland OH

//1979

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told I would be mildly sedated and that the "products of conception" would be suctioned out of my uterus. There was a group session where all the women were asked to describe how they got pregnant, failure of birth control, etc.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told I would have heavy bleeding for 2-3 days. There was no information that I recall about what would happen if there was more than that. They didn't tell me about the enormous pain and cramping that lasted at least a week.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have never stopped thinking about the daughter that was not allowed to live. I became very promiscuous and although I was very attentive to birth control, I still worried about what would happen if I became pregnant again. Following my marriage in 1986 and subsequent infertility, I went into a spiralling depression that almost wrecked our marriage.

10. How has your abortion affected others in your life?

I have always felt that I robbed my parents of knowledge of their grandchild and the fact that I never told them about the abortion contributed to another bout of depression following both of their deaths. My husband was a saint, and helped me tremendously throughout our marriage and the depressions. But I was never able to give him a child, another regret that will always haunt me.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion is only a short term solution, but it comes with a lifetime of hurt and regret. You are already a mother and you will always think of the child you have carried.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Legal abortion has become a joy ride for men, and men and family members demanding abortions have become rampant. The buzz-word is choice, but many pregnant women do not have a choice. And when they go through with their "safe, legal" abortion, they are often performed by doctors who can barely keep a license intact and perform in substandard environments. "Back alley" abortions were probably safer because the doctors were worried about detection and didn't risk infections which could lead to detection. Abortion has become a sacred cow, and any attempt to ensure they are safely performed are fought tooth and nail by the abortion industry by claiming these regulations hinder the "right" to an abortion.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of FL

County of Pasco

My name is Patti I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Memphis TN

03/07/1975

2. How many weeks pregnant were you?

15

3. What type of abortion was performed?

I don't know.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was briefly informed, not adequately informed.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed of the grief and shame that might follow abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I did not want to raise my other children near my family and chose to spend my life without my family being a part of it. I build barriers between myself and other people both emotionally and physically. I have bars on my windows and doors. I have tall privacy fences around my yard and multiple gates between my front yard and my back yard. I rarely invite people to my home. I am not interested in making friends. I am very protective of my children. I have had 3 divorces and have chosen to spend the last 14 years of my life without befriending a man on any level, other than maintaining a healthy relationship with my son. I have missed out on having the grandchildren that I would most-likely have, if I had not aborted my first child. I think about my aborted child everyday. I long to see him. I desperately miss knowing him.

10. How has your abortion affected others in your life?

My children grew up to be much like me: Not trusting other people, rarely opening their home and hearts to people. Very selective when making friends, and calling very few people "friend". My children hardly know their other family members.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. You will never stop regretting it. After having children and realizing how fast they grow up, I can honestly say that the hardships a new baby brings is very brief compared to the lifetime of regret after abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Imagine the faces of your own children. Imaging their hands, each child unique. Imagine their fingers, their fingernails. Imagine their legs, feet, toes. Could you recognize them just from their hands or toes? Maybe just from their shadow, by how they walk. Now imaging lying down, quietly while you watch someone sever each of their arms, legs, without anesthesia, nothing for pain. It doesn't happen quickly. They have to be CAUGHT, each limb severed one at a time. Lay still -watch. They are dying slowly, with indescribable, unbearable pain & agony. Would that be okay with you? Are you comfortable watching? Afterward, would you tell people that your children were murdered? Abortion is exactly what I have described. There's just one difference: There will never be a memory of how the child walked, ran. No memory of what their fingers, fingernails looked like. No laughter. Not even the eye or hair color. No face to recall. Oh, those things were there, alright. But they were cut apart. How long did you hold the image I described of YOUR child? Were you able to lay quietly watching through to the end? I bet you weren't brave enough to "go there" at all. I've spent 37 years knowing for a fact that the very thing I described actually happened to my child. And what's worse ... I live with the knowledge that I signed the paper authorizing the murder and I laid quietly while my unborn child was fighting for and loosing his life.

HOW MY ABORTION AFFECTED ME

The State of FL
County of Collier

My name is Loretta I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Cleveland FL

03//1979

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I really did not want to know. As part of the group of patients that day, we mainly discussed how to preventive another another pregnancy. A nurse asked me if I was sure I was pregnant because I had little or no morning sickness. In the last 35 plus years I have heard that nurse's comment over and over, like a drowning woman grabbing a life preserver; hoping that I really had not been pregnant.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never told that I would be killing my child. I was told I would be having some bleeding and some cramping from the suction machine.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Six years after the abortion I told my fiancee; I wanted to make sure he would still want to marry me. Despite his support and love, I still felt the abortion was going to become an issue, especially after our many years of infertility. Admitting that the baby I terminated was the only child I was ever going to have; that she would have no brothers or sisters and that I would never share those children with my husband almost derailed our marriage. I lived with, guilt, intense loss and depression from the emptiness I suffered.

10. How has your abortion affected others in your life?

My husband's love and compassion were a huge part of our marriage. God gave him a big job to help me into eternity. When my husband died 4 years ago, I know he was with my daughter and she also would know he was her Daddy, even though she was conceived many years before I met my husband. She would know that Bob helped me come terms with what I had done. In fact, he has been my best cheerleader to help bring my experiences to the light of day, bringing God's mercy and healing to other women.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them that an abortion is a short term solution for a long term problem. There is no way to reconsider your "choice". There is no way to get back what you have lost. When you remember your child, and you will, remember him or her being loved by parents who love your child as well as you do.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

In 1973, the Supreme Court stated that the courts did not have to say when a fetus becomes a person. That 1973 Court held that the entire issue falls apart when the issue of the unborn child is considered. In the 40 some years of solid science which has passed, the life of the fetus has been acknowledged over and over. We can no longer rely on shoddy terms like "blob of tissue" and "parasite" to describe very small but real lives which must be protected at all costs. As our society has given credence into this trash science, we have forgotten that Life and Liberty share billing on the Constitutional marquis. Liberty can't trump Life with bogus slogans and shoddy "rights" like privacy. Life is nothing if it is not shared with every one. We have come to believe that one life is more valuable than another. In those 40+ years we have sown the weeds of relativism that says this life is better than a different life. The men and women of the Supreme Court had better make sure they are on the side of life before the next generation makes people over 80 years old disposable, the way they have made 58 million children disposable through abortion.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of GA

County of Henry

My name is Colleen Walters. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Kingston, Jamaica

10/14/1999

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

I don't know, I was put out.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was only tissue and not a baby.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was assured it was easy and the best for me. A baby at 17 would ruin my life. They made it so easy and acted like there were no consequences at all.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father, his mom & my parents' rejection.

9. How has abortion affected you?

Immediately, I wept screaming for my baby as I awoke from the procedure to feel the doctor still scraping my uterus. He had to call the father's mom who had taken me and paid for it, to calm me down. I hated myself and felt lost. I became angry and bitter. It has taken nine years to finally feel peace after doing a post abortion bible study.

10. How has your abortion affected others in your life?

The father of the child immediately felt sad and wanted to have another baby. I started to hate him and left him for being such a coward and he went through major depression. He is still struggling. My mom was also very sad since she blamed herself for refusing to talk to me.

11. Based upon your experience, what would you tell a woman considering abortion?

Please, don't. You maybe scared but when you see the gift that you have been given nine months from now, you will never regret it. But for the rest of your life, that is if you do not die from the procedure, you

will be wounded.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Legalized abortion is similar to allowing people who own a car to drive on the wrong side of the road. Laws are meant to protect; not give humans free range to endanger themselves and others.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of GA

County of Cobb

My name is Karen Franzen. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

New York City NY

08/17/1972

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

I was under anesthesia

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I probably was told something, but I was in such a state of anxiety, that I don't remember. I didn't want to believe that this happened to me. I just wanted it to be over.

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't remember. After I started screaming in the clinic and they kicked me out, one person did suggest perhaps I shouldn't do it, but then they gave me the name of a hospital I could go to and be put under anesthesia.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

No Answer

9. How has abortion affected you?

It caused me to marry the father of my child, which caused both of us 13 years of pain and then a divorce. Before I became a Christian, I was always looking for a way to escape my pain. Even now, I struggle with feelings of depression. I don't believe I will ever get over the pain of separation from my daughter, and my subsequent infertility. My hope lies in the fact that God has forgiven me and I will be able to meet my daughter in heaven one day.

10. How has your abortion affected others in your life?

I deeply regret that my parents and my brothers were never allowed to know my daughter. I know that the father of my child experienced emotional pain from the abortion also, although he never admitted it.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! If you don't feel you can handle parenthood, give the child up for adoption. There is nothing more painful than knowing you made the decision to end someone's life. And you can't do anything to change it later. Even though you can be forgiven, you cannot change what you did, and it affects everyone involved.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

At what point is it right to decide who lives or dies? Shouldn't God be the one to make that decision? It is a fact that at conception, the child is alive. The evidence is clear. If we continue to encourage abortion by making it legal, we continue to give the message to young women that it is acceptable to take another person's life...and that it is a decision that they can live with - and that is a lie.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of GA

County of Bartow

My name is B W I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

NJ

//1977

2. How many weeks pregnant were you?

No Answer

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I believe I was informed of some things but I honestly don't remember what they said. And when you say, "What it does," I don't remember any emotional aspect being told to me.

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't believe I was told of any "consequences" --- regrets, emotions, spiritual aspects, physical things... like you say below about breast cancer.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

No Answer

9. How has abortion affected you?

For YEARS I had pain inside, counting how old the baby would be and whether or not it was a girl or a boy; however, I always felt and still do feel that the baby was a girl. I had regrets, sorrow and guilt. It wasn't until about 20 years later that the Lord spoke to me through a pastor and said that He had forgiven me and that I had to forgive myself.

10. How has your abortion affected others in your life?

In the sense that my husband has had to watch me go through pain, as well as healing (finally) over this; and that I had to tell my teenage daughter that I had an abortion years ago. That was pretty hard.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell the mom that abortion is murder. God's word says to not murder and although our government does not currently look at abortion as murder, it is! And there are consequences to our

actions --- in the physical and in the spiritual realm. When a person has an abortion there is a spirit of death than can attach itself to the womb and possibly cause that woman to have miscarriages after that. There is emotional pain to deal with of wondering what the baby would have looked like, what sex it would have been and wondering if you had just aborted the next Billy Graham or possibly the President of the United States. God knows us even BEFORE we are in our mother's womb so with that being the case, a baby/embryo IS human life even when it is first conceived. At that very second the egg and the sperm unite. I would tell her to think of the consequences to the action she is thinking about because there are consequences to all of our actions -- whether good or bad --- there are consequences. If the mother thinks she could not take care of the baby then I would tell her to pick adoption. There are a lot of people who WANT babies and can't have them for one reason or other. Find a good home for the baby and let them adopt the baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder! Murder is not legal in our country. What if your mother had decided to abort you at 12 weeks. A human life should not be taken just because we can't see it face to face and it is in the mother's womb. A human life has purpose, destiny. There are consequences to abortion/murder. Abortion must be stopped.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of GA

County of Fayette

My name is Katherine Adinolfe. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Cleveland OH

10//1977

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

It was the type that was done like a D&C. I don't know the specific Name

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I had already had a child, then 2 after. As I grew older I realized I should have trusted myself, but as a very young girl I had no one to help me or talk to about the entire situation. Now I miss the child who should have been with me and regret the opportunity to have experienced that life and person. My religion at the time even validated the pro choice movement of the time. I had not been molested, there was no reason other than fear of being left by my husband and alone at 18 with 2 small children to do this.

10. How has your abortion affected others in your life?

All three of my children know about this. I chose not to "hide" it from them. Letting them know the consequences of my choice and how it made me feel so they might be more aware and careful in their lives. Two of the three have expressed extreme feelings of loss of never having known their sibling and I know this is not something that is a way to make me feel any more "guilty" but a true honest loss. I suspect the other one may also have feelings, however he keeps things to himself.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her of the options that I have come to know of over my years of living. And encourage her to look at many other options. Also, if you step up, you actually better be prepared to perhaps be THE

ONE to help her personally as she may truly not have anyone. Had I even gone to my parents they would have helped me, I was just too ashamed that I got into the situation that I did, that has taught me to do my best to not judge others

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That if that is legal then it should be legal for any one of us to go and KILL and other human being without any consequence or recourse and empty out the prisons. On a final note, they made me be 12 weeks pregnant before they would do it to make sure I was carrying a child.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of GA

County of CATOOSA

My name is Kimberly Stark. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

PORTLAND OR

02/14/1996

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

Not completely sure.....

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told anything at all. My parents were told everything and did not allow me to decide what I wanted to do. I was not of sound mind at the time to make a decision of that nature.

5. Were you adequately informed of the consequences of abortion?

Yes No

Again.... I do not remember anything people were saying to me. I do not remember alot of what happened only to a certain point do I remember. I remember bits and pieces but I never had any idea of the consequences of abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My Parents, The man that raped me.

9. How has abortion affected you?

I have lived with a lot of guilt and shame. I have forced the issues I have had to deal with to the back of my head. Since I recently found God and asked Him back into my heart... he has started a awesome healing process in me. It has been amazing. In the past I have not been able to attend births, or baby showers, have not been able to be around babies. Any time the word abortion was mentioned I would run out of the room. Now I am healing and it doesn't hurt as bad. If I can help just one person by speaking out, my pain I feel is so worth it.

10. How has your abortion affected others in your life?

I have a hard time getting close to anyone so personal relationships have been hard. My friends sometimes don't know what to say when they are around me. When I start crying out of the blue for no

reason.... what do they do? They try the best they can to comfort me.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them, no matter how hard life seems, there IS a way out. I would tell them to seek God, and godly people and that they would be able to get through it. I would tell them that unlike most cases, you could die.... as I almost did. I would explain to them that they are not alone and someone out there has been exactly where they are today. I would tell them they are loved no matter the choice they made, however to seek counsel before it is too late and the pain is ten times worse.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell a court that based upon my own experience, Abortion is not the best choice for anyone to make. I would tell them that the one day of choice in a woman's life equals out to a lifetime of daily pain and guilt. The shame we feel and depression we go through is far not worth that one day of freedom we felt. I would say that at the moment of conception God knew that child's every move, and that God's will does not include death. I would beg for mercy on the unborn babies of this world... I would pray that they seek understanding of the harm it creates.

My name is Delia Cooper. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Houston TX

02/20/1983

2. How many weeks pregnant were you?

3

3. What type of abortion was performed?

suction/vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

My experience began with a parent of boyfriend advising us to get an abortion. It was so traumatic, but after going through post-abortion counseling last year a few memories came up. I don't remember anything they told me, I recalled the sound of a vacuum machine and that is it. I remember getting in the car, curled up in the backseat and in a lot of pain and numb to everything that had just occurred in the room. If only we were informed on the pro-life side and knew everything I know now. I lived with self-guilt, condemnation and a feeling of loss that I tried to replace with pets. I would pick up abandoned animals on the road and cry when I couldn't help one. My boyfriend, who is now my husband, has never opened up about his feelings or received counseling, but of course this was his mother who initiated everything and took control.

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Mother of boyfriend, who is now my mother-in-law

9. How has abortion affected you?

Struggled with the feeling of loss for years and self-condemnation, shame and guilt. Trying to replace the guilt of murdering a child by rescuing abandoned animals every chance I got and when I couldn't I would relive that moment of loss every time.

10. How has your abortion affected others in your life?

My teenage daughters who I know are hurt by the fact that their parents would do something so horrific

as to murder their sibling. They live wondering about the 25 yr old brother/sister they could of had and missing out on that. My oldest has become a voice and did a video contest in Mass Media on abortion. The 15 yr. old can't bear to see the photos of aborted babies. We have not told our 9 year old yet, and dread having to sit him down and tell him what we did at 19.

11. Based upon your experience, what would you tell a woman considering abortion?

Please do not make that decision because it will be one that you regret the rest of your life and unless you can come to the place where you forgive yourself, your life will be one of self-condemnation, shame, and underserving of anything good. A feeling of overwhelming loss will be felt for years.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You are not only giving innocent babies a death sentence but their mothers and those involved. The blood of murdered innocent lives are on your hands.

3. What type of abortion was performed?

Dilatation & evacuation

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea of the emotional impact it would have on my life even today some 30 years later.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My husband at the time.

9. How has abortion affected you?

There is hardly a day that goes by that I'm not saddened by what I did. I have prayed for forgiveness to a merciful God who has forgiven me, but the hardest part is forgiving myself for killing my baby. It destroyed my respect for my first husband and eventually our marriage ended. I have been married for 25 years to my current husband and he has helped me heal but it has been a long road. I'm crying even now as I relive this part of my life. It has made me a stronger Christian. I never want to do anything that would hurt my heavenly Father in this way again.

10. How has your abortion affected others in your life?

I've never shared this part of my life with anyone but my current husband. I know it would break my parent's heart and even my children would be disappointed in their mother. They are very pro-life. I have

instilled this in them since they were very young.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We need to stop abortion, yesterday. There is no good reason to take another life unless the mother's life is truly in jeopardy. 48 million lives have been sacrificed on the alter of self interest. God does not look lightly on the slaughter of innocent lives.

QUESTIONS

1. Where and when did your abortion occur?

Ft. Myers FL

08/05/2007

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

D and C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was never told what they would be doing. I was only asked what kind of anesthesia I would like and then was informed of the cost.

5. Were you adequately informed of the consequences of abortion?

Yes No

I signed paper after paper but no one talked to me. No one counseled me, gave me other options or asked me if this was really what I wanted. I didn't need an abortion, I needed the help of a counselor. I believe that if anyone would have just talked to me, I maybe would have made a better choice. I was scared and alone and needed help. Mental help.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I am horribly depressed. I have ruined my life with this abortion. What was I thinking? Why did I make such a poor choice? I will suffer the consequences forever. I feel no joy, ever.

10. How has your abortion affected others in your life?

I haven't told anyone. I carry this guilt alone.

11. Based upon your experience, what would you tell a woman considering abortion?

Tell someone you trust or talk to a counselor. Speak to someone about your options. There are options. I just feel that if someone would have talked to me and given me other options, I would have taken it. I think I was almost begging someone to give me an "out".

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe that if you are going to keep abortion legal then you need to enact MANDATORY counseling. Give women options and the means to use those options. I don't mean a five minute talk before an abortion. I mean a class or a series of counseling session before abortion can even be considered. Give as much attention and respect to ending a life that they give to someone getting a drivers license. I would also tell them about my extensive battle with deep depression. I need help and have no means to get it. I am a walking testimony to a ruined life due to an abortion.

9. How has abortion affected you?

Ruined my life. After I had the abortion, I went into a deep depression and thought of killing myself so many times. I pray to God but somehow think I will never forgive myself. It has been an emotional battle with scars the rest of my life.

10. How has your abortion affected others in your life?

I finally told my grown children. I know it hurt them deeply but I needed to finally explain why I had been like I had.

11. Based upon your experience, what would you tell a woman considering abortion?

NEVER do it! I will never be the same again..It is awful! Please don't!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it is wrong. Only incest and rape cases should be allowed if needed.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

we need to teach respect for human life from cradle to grave our unborn and our elderly .sometimes it is up to us to protect us from ourselves. these babies deserve to finish their life. set up adoption, give encouragement to singlemoms who go to college,not money so they try to get pregnant but so they can support their kids. educate our young people about the trauma these children born without a mom and dad may have. heartaches of the adopted or children have no dads, give em the stats on how many Dads leave. force paternity and support on those fathers make them face their responsibility and when their peers start to see the heartache perhaps they will think

9. How has abortion affected you?

Feelings of shame and remorse over having had an abortion never go away even though it is a crime only a few people know about. Two years after having had an abortion I was admitted to a psychiatric facility and received ongoing outpatient care for 10 years following. I believe that receiving an abortion was a contributing factor to my mental instability.

10. How has your abortion affected others in your life?

It has affected my ability to enjoy life. I dread sharing with my young children that one of their siblings is deceased at my choosing. It has affected my friendships with other women that are struggling to conceive or have had miscarriages. The memory is haunting.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not do it! It is murder.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell a court that believes abortion should be legal that it is harming to our women mentally, emotionally, and spiritually and should not be legal. I would also tell them that having abortion legal and available is an endangerment to women vs. a 'choice' because it does not bring peace, that it brings depression and shame which are contributors to drug and alcohol abuse and other self-destructive behaviors. I would tell them that the pain of having an abortion is continual and does not dull and that is because killing an innocent human being is a despicable act against nature.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of GA

County of Henry

My name is Marcia Gray. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Lansing MI

03/21/1978

2. How many weeks pregnant were you?

20

3. What type of abortion was performed?

I don't know, I was too young.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They told my mother and me it was just tissue, and that it would be gone when I awoke. They put me under because I was only 15 and because I was so far along in my pregnancy.

5. Were you adequately informed of the consequences of abortion?

Yes No

I did not know it would shape my life for many years, and cause me to become so destructive.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents!

9. How has abortion affected you?

I went into a spiral of bad decisions, self-destruction, and an attempted suicide. I became a drug addict a few years after the abortion. My parents to this day refuse to talk about it.

10. How has your abortion affected others in your life?

I had no personal relationships for many years. I destroyed those as well. And I never trusted anyone in authority!

11. Based upon your experience, what would you tell a woman considering abortion?

God will provide a way for the child, and the mother. Not to get one, for the destruction that it causes has years of repercussions. And now there is a link to breast cancer, which I have had. And plain and simple, it is hard to live with yourself after you commit murder, and that is what abortion is! It invalidates life, period!!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We as human beings cannot make the decision to end an innocent life! We are not made to do that, and that is the reason for the terrible destruction of abortion! I had heard that it was way of weeding out the "bad" from society. A form of control if you will, like China does to keep the poor at bay! No one can truly know the devastation of this decision until it is done. How do you undo murder of an innocent? Living with oneself after the fact is so unbearable! Self hatred and loathing are ones companions daily! No one should be subjected to that, especially not being fully informed! And it is NOT tissue! I took a trip to Museum of Science in Chicago, and looked at the stages of development for a baby, and it is NOT tissue but formed. I beleive all women comtemplating this horrendous decision should have an ultra sound, and see what it is they are doing! Please stop the murder of innocent babes!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of GA

County of Chatham

My name is L W I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Atlanta GA

//1975

2. How many weeks pregnant were you?

3. What type of abortion was performed?

suction/d&c

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only 16yrs old. I was able to get through the process without anyone questioning my age or telling me anything.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no counseling prior to the procedure.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

actually I have had 2. My mom.

9. How has abortion affected you?

Now that I am saved and have 5 children of my own and speak adamantly against abortion, I feel like a hypocrit. I could never bring myself to tell my children because I am afraid of what they would think of me or tell anyone. I'm so ashamed that I don't feel like I can talk about it.

10. How has your abortion affected others in your life?

I am too ashamed to tell anyone about the first one, but my mother had to live with the fact, after she was saved, that she probably encouraged an abortion for selfish reasons.

11. Based upon your experience, what would you tell a woman considering abortion?

That there are other alternatives and many support systems. I would try to tell her, after having my own children, that no matter what anyone says there is a life growing in you that deserves a chance. I would show her my sonogram pictures at 10wks where the only thing you see is that little heart beating.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would want to know why they consider abortion legal, but prosecute people for homicide that kill a child in the womb in a shooting or some other act of violence. I want to know why a child is only considered a child if it is born; would you kill a 36wk neonate born early? Then why is it ok to have an abortion at that time, it is still the same child. I get so sick of hearing "it's my body." You aren't doing something to just your body; you are ending the existence of a human being. The Bible is very clear when life begins. Life begins when that fertilized egg implants itself; it begins to GROW. Anything that grows is LIVING.

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I did not understand the implications of abortion - or that they were tiny babies.

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

I will never EVER be pro-choice again.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I worked in a lab that examined aborted "tissue" and I will never forget the first time I saw little tiny feet and tiny hands in the supposedly "tissue" that we had to examine to make sure the doctor "got all the parts". This is what I was told to do at this lab - make sure the doctor "got all the parts" and if they

didn't the woman/girl had to be "re-done". Some of these little feet were perfectly formed and about 1 to 1 1/2 inches long! I won't go into anymore detail about what I saw as it was too heartrending. I went home crying my eyes out for the poor little babies!! Never will I be pro-choice again!! NEVER!!! These little babies were anywhere from 12 to 26 weeks aborted. I don't know what kind of abortion was performed on these women/girls but it was disgusting and so SO heartbreaking. Needless to say - I never went back to lab to work and never gave an explanation of why I left...I just left.

QUESTIONS

1. Where and when did your abortion occur?

Columbus GA

03/10/1998

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They just asked a reason of why I wanted it with a group session of other girls. Most of them said Financial reasons so I stated the same, which was not the case. You see I got pregnant during a bipolar manic episode and wasnt on medication. My marriage ended in divorce and my life was changed forever.

5. Were you adequately informed of the consequences of abortion?

Yes No

I can't remember anyone stating any consequences or even telling me how many weeks I was. They just said sign here, and I signed.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I often wonder what would have happened if I didnt take that road. I wonder what the baby would have been like, boy girl, etc.. I cried myself to sleep many a nights asking God for forgiveness. I went from a manic episode to a deep depression episode for more than 6 months.

10. How has your abortion affected others in your life?

No one knows except my spouse and my mother.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. There is always someone waiting to adopt. The emotional scar will haunt you for life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Have you ever had an abortion yourself? If not, how can you legalize it? It is a horror of hell on earth for a woman to go through. I am tormented with the fact that I killed a living being who had a heartbeat inside of me. I will never forget that ultrasound or the experience thereafter. I only hope God will forgive me.

QUESTIONS

1. Where and when did your abortion occur?

Atlanta GA

05/09/1996

2. How many weeks pregnant were you?

20

3. What type of abortion was performed?

Unknown or Unsure, I am also unsure about the date.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only told that I was ending my pregnancy. I wasn't told of the medical problems that may occur.

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't remember being told that this would cause depression and loss of self esteem

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend at the time

9. How has abortion affected you?

In the beginning it was very difficult to walk around knowing that I ended a life. I was unable to function socially. I became disconnected and illusive. I took a long time to heal, actually I didn't do so until I gave my life to Christ. Even then and even know the guilt causes stress and depression. The feeling of loss of a life on occasion haunts me.

10. How has your abortion affected others in your life?

Actually, no one knows in my family what I did. I don't know if I could tell them.

11. Based upon your experience, what would you tell a woman considering abortion?

I would suggest and implore her to think again and reconsider. This is an act that they will never forget. It's space of time you don't remember what is being done. Afterwards the feeling of what used to be inside you is no longer there causes more pain. I would offer my assistance where applicable. Sometimes all they need is someone to tell them it's going to be okay.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Absolutely, with no hesitation.

10. How has your abortion affected others in your life?

N/A

11. Based upon your experience, what would you tell a woman considering abortion?

To think VERY CAREFULLY and be sure she can deal with the mental stress - it is more "real" than a woman realizes

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I think it should not be able to be used as a form of "birth control" - only under circumstances of life or death to the mother

The man I was living with. He was very abusive.

9. How has abortion affected you?

I suffer from severe clinical depression and am an alcoholic.

10. How has your abortion affected others in your life?

My (now grown) daughters know about it and I have used my experience to council them and many of their friends.

11. Based upon your experience, what would you tell a woman considering abortion?

Make sure that you can live the rest of your life with the decision that you are making. Please consider other alternatives.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The court has no right to make that decision, the court does not have to live with the constant pain of realizing that a human life has been selfishly ended.

He told me what HE would be doing with the instruments, but he did not tell me what this would do to the baby or me. They knock you out, but your still somewhat aware of what is going on (you can still hear the sounds of the instrument). Then you wake up and they just push you aside with some other girls to "recover". They make you leave while your still in great pain and suffering. They did not explain any of this part to me.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was basically informed of what the doctor would be doing, but not how it would affect me afterwards emotionally or physically.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father of the baby.

9. How has abortion affected you?

It caused traumatic depression for some time after the fact. It was not what I wanted to do, but I felt that I had no other choice. I don't feel my boyfriend at the time knew the depth of what I would go through either. Afterwards he too has had to suffer the consequences of his decision. He is my husband now and we have 4 wonderful children, but we will always wonder what life would've been like had we made the right decision to keep our first child. Even though I know God has forgiven him and

me for our decision, we still have to relive in our memories the terror of what we went through physically and emotionally. It is a decision we cannot take back. I just wish someone had stopped us!

10. How has your abortion affected others in your life?

My parents have to live with the guilt that they did not stop me from this decision. They did not want to see my life turned upside down from having a baby and not being married. I believe if they knew then what they know now (that my boyfriend and I would go on to get married anyway) they would've talked me into having the baby. Now they will never know their first grandchild. My children now will also never know their first sibling. My husband also has to deal with the guilt of talking me into it. He has to live with that for the rest of his life every time he looks at one of our children.

11. Based upon your experience, what would you tell a woman considering abortion?

If you have become pregnant even though you were not wanting to, take responsibility for your actions and do what is right. That child did not ask to be conceived. Give it a chance to ask to be born. God will take care of your tomorrows if you do what is right. If you do not want to keep it, give someone else the chance to give it a loving home. You will always have to live with whatever decision you make, so make the one that you will not have to regret. God does not honor killing, but he will be with you and honor your decision to do what he wants you to do. Believe me, you will suffer much more for a decision that involves the killing of your unborn child than one that involves giving your child hope for a future. I know that right now you may be wanting to do what seems like the fastest way out of your situation, but you will never have a way out. Whether you face it or not, that thing growing in you is your baby and whatever you decide, you will have to live with for the rest of your life. Wouldn't you rather give your child a chance at life and live with the fact that you did what is best for you and him/her. Listen to your conscience and do what is right! I would give anything if I could go back and listen to my conscience!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Until you've gone through one, you will never know the true devastation that these ladies go through. The pressure that is put on a woman from outside sources is incredible simply because it is legal and available. Women commit suicide and suffer from severe depression simply because they know that what once was alive in them is now dead because of their decision. They can't take it back. Do not give them this temptation to get rid of their mistake because what they don't know until it's too late is that they will never get rid of their mistake, they will now have to live with two mistakes instead of one. They've already made the first mistake of sleeping with someone and the result was getting pregnant. If they kill that baby, they have not gotten rid of the mistake, they've only created another one. When will this country make people responsible for their actions? This is where you can help. Please don't make the temptation any greater for a woman to ruin the rest of her life. Help them make the right decision for themselves in the long run by taking away the temptation for a temporary fix. It will have grave long term affects if the choice remains there for them! I know this because I still suffer for my mistake 15 years ago and I would give anything if I could take it back!

9. How has abortion affected you?

Life time of regret, guilt, sorrow.

10. How has your abortion affected others in your life?

I don't tell this to anybody

11. Based upon your experience, what would you tell a woman considering abortion?

NO NO NO ABSOLUTELY NOT!!! You have no idea of what you are doing and the life long effect it will have on you. Abortion is a permanent solution to a temporary problem.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I had my abortion in 1973 when it became legal. Had it NOT been a legal thing to do, I would have had my baby as I wanted to do in the first place and his name was John Todd Mullen.

1. Where and when did your abortion occur?

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only 15 years old and did not know anything about what a baby looks like in the womb or how it develops. None of this was explained to me. I also was not informed what the procedure would do to the baby...ie: tear off its limbs one by one. I was merely asked if I was sure I wanted an abortion. Of course a scared 15 year old girl is going to want to make an unplanned pregnancy "go away"! However, if they had informed me of what the baby looked like at that point of gestation and what it would actually do to the baby, I most definitely would not have had the abortion! I have had 3 children since then and regret taking part in the murder of my first child.

5. Were you adequately informed of the consequences of abortion?

Yes No

No, I was never told any of the possible medical ramifications, nor was I told of the massive depression that would result.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mom strongly encouraged it but now regrets it.

9. How has abortion affected you?

I have had many emotional issues ever since the abortion, and I often battle depression. To this day I cry whenever I think about the horrific way my child died. I've learned to go on with life, but it is a memory that will haunt me for the rest of my days.

10. How has your abortion affected others in your life?

My mom has had to overcome the guilt of taking part in having me get an abortion. My children were cheated out of knowing their older sibling. However, the one most affected is the child I aborted. That child endured a gruesome death.

11. Based upon your experience, what would you tell a woman considering abortion?

I would absolutely NEVER encourage anyone to get an abortion! There are alternatives! I would also be blunt in telling her the truth about abortion...the pain it causes the baby, the barbaric way the child will die, the depression that will result in her, and the possible medical complications that could occur.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If you believe abortion should be legal, then you should also legalize all forms of murder.

The State of GA

County of Fulton

My name is Shannon I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Tampa FL

11/06/1989

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Not sure of the name, it was the regular procedure that is done.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told of any of the medical, emotional, or physiological effects that abortion can have on a woman.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

My abortion has been the biggest regret of my life. For about 10 years following the abortion, I was a heavy drinker, had many promiscuous relationships, and was involved in many unhealthy relationships. I did not know that it was the abortion that was causing this until I committed my life to Christ, and through his love and healing, I realized that this was what it was. If I could do anything to change my decision to abort, I would. I feel that the abortion robbed me of many good years of my life.

10. How has your abortion affected others in your life?

I have not shared it with too many people, but most of them understand that I made a bad decision, and are sympathetic.

11. Based upon your experience, what would you tell a woman considering abortion?

Please take the time to truly consider what you are doing. Try not to think of only yourself. This may be your only chance at being a mother. Every life is a precious gift, and only God decides when life begins and when it should end. Try to see this life as a gift, and not a problem that needs to be taken care of. Please try to find support or help that would enable you to keep your baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is harmful in every way to women. It takes away a woman's self esteem and self worth. It causes many women to go into severe depression, drinking, drugs, careless sexual habits, eating disorders, suicidal thoughts and in some cases suicide. Abortion is also taking the lives of the next generation of children in this country. These unborn lives precious and need to be protected and not murdered!

9. How has abortion affected you?

In every aspect of my life..I am 52 yrs. old now..I think about my baby everyday..I have no self-esteem and do not care about things in my life..never have cared since the abortion..I was a terrible mom to my other 2 children and have so much guilt that I can hardly live with it each day...

10. How has your abortion affected others in your life?

My other 2 children have suffered thru my years of trying to forget the guilt but it hasn't worked..I love them desperately but don't really know how to show it..I have had SO much anger in my lifetime toward everyone and no one understands where it comes from.

11. Based upon your experience, what would you tell a woman considering abortion?

BY ALL MEANS< DO NOT HAVE AN ABORTION...There are many couples out there that would love your baby..think of adoption..that is the best way to go...

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Just to look at my life and all the others that have gone thru this..You NEVER get over it...mentally, emotionally and physically///it is ALWAYS there...I pray someday that i will see my baby in heaven if God forgives me and lets me in when my time comes...Until then, I will beg you to STOP ALL ABORTIONS!!!!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of GA

County of Coweta

My name is Lisa I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Philadelphia

11//1985

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

I can't recall but it required me to go to a hospital to have the procedure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

My father and I went to Planned Parenthood. I remember thinking that I was dying for someone to a counsel me about the decision I was making. I felt scared, alone, and felt pressured by my family and my boyfriend to take care of the "issue". If someone had sat down with me and asked me more than "Do you want to have an abortion? I felt like they were just there to perform the pregnancy test and schedule the appointments. The attitude toward abortion was nonchalant. Looking back, I realize that it was a common occurrence for the employees, but it wasn't for me. I wish that someone had said go home and really think hard about the choice you are about to make.

5. Were you adequately informed of the consequences of abortion?

Yes No

No. I had no idea about the long lasting emotional effects and pain that would remain after the abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend and my family

9. How has abortion affected you?

Emotionally, a part of me died that day with my baby. I hated myself for the decision I made. Nobody told me that I would spend the next 10+ years beating myself up emotionally and running from myself and God. How horrible was I? I made the decision to end the life of my own child. How could I not hate myself? What kind of a person does that. Although, I have been through a Christ-centered post-abortion

counseling, it is still something that never truly goes away completely. I healed but still carry the scar. I was a young girl when I made the decision, and if I had been given the a private moment with someone who looked at me and said "In your heart, what do you want to do? Don't look at your circumstances. You are carrying a child and as its mother, what is the best decision for you and your unborn child?"

10. How has your abortion affected others in your life?

For years I would have a deep set anger in me. It seemed to happen around the same time every year. I could never truly get close to anyone even my husband. I would take out this sort of "rage" that was going on inside my heart on him. I was never satisfied. I couldn't be the real me, because what if people around me knew my secret. It was extremely hard on my husband. We had trouble conceiving for years. While undergoing fertility treatment, I would beat myself up emotionally. I felt that it was God's punishment of me for having had the abortion years earlier. I ran from God. I couldn't accept love. I couldn't love myself so even though others in my life may not have felt affected by it, they were because they were getting an unhealthy version of me.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them of the long-term emotional affects of abortion that no one can tell you about unless they themselves have experienced one. I would tell them that although they may be scared because of all the worries in front of them, that abortion is not the solution to their problems. The pregnancy, is in fact, a blessing from God no matter what the circumstances. There are so many women who can't have children that would love to have yours. I have been on both sides of the fence on this one. First getting pregnant and having an abortion. Then, later marrying and trying desperately to have a child and would've adopted if I couldn't have one on my own.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that the moment a child is conceived God has set forth in his design that that embryo while become someone's daughter, son, niece, nephew, cousin, husband, wife, mother, father. I would then ask them to look into the eyes of their children, neices, nephews, or any family member or friend and consider that none of them would be alive if their moms had made the decision to abort. I would tell them when you're in the middle of the crisis of an unwanted pregnancy, you panic which can lead to making hasty decisions. I understand that the government doesn't want to govern what a person can do with their own body. However, their body is no longer completely their own when they are sharing it with another life. We have all kind of laws regarding the protection of lives. Why should this be any different. The government would be protecting the right of the unborn children. As a person who has gone through abortion, I would say that if I didn't have the choice, I wouldn't have made the choice. My rights or my choice would not be taken away. I would still have the right to choose whether I want to be a mother and raise my child or give up my child to another. My rights and my choice still intact.

The State of GA

County of Clayton

My name is Ruth I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Atlanta GA

//1987

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I have had 3 abortions one at age 19, 30, 38.

5. Were you adequately informed of the consequences of abortion?

Yes No

I just asked for an abortion and got it.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

husband

9. How has abortion affected you?

I deeply regret the abortions I had. The first one was due to ignorance, the second was due to selfishness and the third was due to pressure from my husband. As I am now 58 years old, I so wish all my children were around me. The help I need all falls on my son that I had at age 41. He is wonderful and I know the others would have been, too.

10. How has your abortion affected others in your life?

My son has the burden of taking care of me in my old age by himself. Had I had my other children, he likely would have help.

11. Based upon your experience, what would you tell a woman considering abortion?

Absolutely do not have an abortion. I you do not want the child, have it and give the life up for adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I murdered three human lives with the help of the medical profession. Though I am forgiven by God, it will always be my deepest regret in life. I can not really forgive myself though I know I am forgiven. It is only by God's forgiveness and grace that I can live knowing I have murdered.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of GA

County of Tift

My name is Theresa Hughes. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Atlanta GA

09/10/1978

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Yes, and no. Yes, they gave a clinical explanation of the procedure, but no they do not prepare you for what you face, a room full of young women sitting in chairs waiting for their name to be called. You literally feel like you are part of an assembly line. In waking you from the anesthetic, they try to rush you because they need the bed because there are so many women waiting their turn. Their turn for what? Their turn to seriously damage their lives. It doesn't matter what they do or become, their life is forever changed, once they lay down on that operating table.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told nothing about the consequences, just given a very clinical explanation of the procedure and asked if there were any questions. Of course, I had none because I was told by more than one person that this was absolutely the right thing for me to do. Not once was anything said about possible emotional problems. Not once were there any alternatives to abortion mentioned. At the very least, abortion clinics should be forced to share some of the horror stories from women who have been there done that!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

mom/not so much pressured but strongly suggested

9. How has abortion affected you?

I was 18 years old, so I was already drinking and experimenting with pot, but it immediately escalated into pretty much anything I could do to live in a fog. At the time, it wasn't something I was trying to forget, it was just something I chose not to think about. I became very promiscuous and my lifestyle

became very wild. I chose to not have anything to do with my family and lived this way for approximately 10 years. After 10 years of drugs, booze and one night stands, I moved back home, addicted to crack and knowing I was in trouble. I went back to church, turned my life back over to God, was completely delivered from every addiction, (drugs, alcohol, sex) and began a new life serving the Lord Jesus Christ. I got married, had a child, (not in that order) and everything seemed wonderful, for a season. For a few years, now, I have felt that something was wrong. My walk with the Lord was fine, but I knew there was more and I couldn't find it. My relationship with my husband was just ok, but I felt like there had to be more. I knew that I was a loving, caring mother, but could not seem to express it to my son. I really sought God to try to figure out what was wrong. It took me several months of this to realize that I had not forgiven myself for something I did years ago. I've tried many times to fill out this declaration and always stop because it just seems so painful and unbearable when I try to recall past feelings and emotions.

10. How has your abortion affected others in your life?

I have no idea because I've chosen to be completely silent about it. I've never discussed it with anyone. I have just today, shared with my sister who is 8 years younger because I know she also had an abortion when she was 18 but we've never talked about it. And I only shared with her in email because I cannot talk about it, yet.

11. Based upon your experience, what would you tell a woman considering abortion?

I hope, as I begin to heal, that I would share my own story with her and then pray with her, beg and plead with her if I had to. Up to this point, I've missed many opportunities, just because of the silence, I've chosen. I've gone so far as to act shocked that anyone could even consider abortion, just because of the deep shame I have felt all these years not even realizing that it was there.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that there are so many women out there suffering and they don't even realize why they're suffering. If the court absolutely cannot get ahold of the fact that abortion is murder, then they have to somehow be made to see the great harm that it does to women over their lifetime. There is no amount of pre-counseling that prepares a woman for what she faces later. Years of self-punishment without really even knowing or understanding what's behind it, except for the grace of God. I know that's the only way I'm able to begin facing this, today, July 18, 2008 and begin a healing process that I've so desperately needed for years! THANK YOU OPERATION OUTCRY!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of GA

County of Dougherty

My name is Cynthia Marvin-Richard. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Atlanta GA

09/01/1973

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

I'm not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No, I do not believe I was adequately informed at all regarding the nature of abortion, what it was, what it does. All I remember is that it was described in a "no big deal" manner. What was remembered the most is that they were having a "problem" with the fact that I was not 18yrs old yet. Just four days shy of my 18th birthday.

5. Were you adequately informed of the consequences of abortion?

Yes No

Consequences? No. Just that for a few hours I would be sick and to rest for a while. Then, everything would be back to "normal".

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother. "What would the neighbors think!"

9. How has abortion affected you?

For about twenty-five years I was "guilt ridden". Depressed with lower self-esteem than I'd already had. Loose morals, two divorces. My anger and "hate" was directed at only one person. Relationships - when married and not married - I would find myself very "detached" as soon as I had them "roped in". I knew God had forgiven me, but I could not forgive myself. - The abortion clinic did not perform the abortion correctly. As a result, I had a miscarriage, saw with my own eyes what would have been my child and then I started to hemorrhage.

10. How has your abortion affected others in your life?

Unstable relationships. My feelings of being detached to one degree or another regarding people.

Exceptions? My daughter and grandson.

11. Based upon your experience, what would you tell a woman considering abortion?

My whole story. From start to finish and then the outcome which does not end.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Think of all the beautiful things in your life. All the love in your life. Now erase them because your life has just been wiped out. If you have children, what would you feel if they were sentenced to die. We all know more now than then regarding what is life before being born. How could you end your future loved one's life before he/she even has it's first breath. -----I'm really not sure what I would say at this moment. However, I would pray about it and find the words God would want me to say if it was His will for me to.

10. How has your abortion affected others in your life?

No

11. Based upon your experience, what would you tell a woman considering abortion?

I first of all would talk to them about how it is a beautiful sweet life and not a mistake. They need to know how it affects them psychologically, physically and mentally. It is something that you never get over. With God's grace there is forgiveness but the memory is still there.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That we have been lied to when it comes when a fetus becomes a baby...lied to about how abortions don't hurt the baby...lied to about affectsnot being told how every part of your of your being is affected by abortion....and i believe it's all about money.

9. How has abortion affected you?

The knowledge that I had murdered my baby has tormented me my whole adult life. I took the life of a son or daughter! Then I've had to live with the lie that I had to tell family that I had miscarried because of the shame. I finally told my adult children two years ago and my younger sister. My older sister still does not know the truth to date. My mother and grandparents died without knowing the truth. It is only by the Grace of God and His forgiveness that I have been able to find peace.

10. How has your abortion affected others in your life?

My husband was there when we made the decision as young adults. He never wants to talk about it. It is a walled subject. My children were very forgiving when I told them as was my younger sister. I am still cautious about telling my older sister because of what I feel it may do to our relationship.

11. Based upon your experience, what would you tell a woman considering abortion?

An abortion is final. It ends the life of the child you are carrying. The pain and torment that haunt you for

the rest of your life is at times almost unbearable. There are other options. Whatever you do...don't make the same horrendous "choice" that we made. Choose to let your baby live.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

This is a human life that absolutely must be protected! The courts have to protect the innocent babies who have no voice and make the "choice" for them to be able to live!

my boyfriend

9. How has abortion affected you?

I was 21 when I did this. I'll never forgive myself for doing it. I'm now 34 and I think about it all the time. I wonder what my baby would have been. What it would have looked like... I feel like I murdered it.

10. How has your abortion affected others in your life?

I was too shamed to tell anyone else in my life

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. There are other ways. Let it live. There are too many people out there that want children and can't have them. Give it up for adoption if you can't be a mother. But give it life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

No, no matter what the circumstances. Well, only if its life or death for the Mother. But rape or whatever...no. It isn't the babys fault. Give it up for adoption. Don't kill it.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of GA

County of Cobb

My name is S Sparks. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Atlanta GA

02/15/1989

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

2 day abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told about the extraction process.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told there were no consequences or adverse effects from the abortion. It would be just like having a bad period afterward would be the worst side effect.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

The guilt I felt was quite extreme and I still deal with it sometimes. My periods became much worse (very heavy bleeding and cramping that I have had to have surgery for) My next pregnancy was not able to come to full term due to the placenta not staying attached to the uterus. If it were illegal I never would have done it.

10. How has your abortion affected others in your life?

It had an effect on my relationship with my husband and I have now had to explain to both of my daughters why I chose to abort a child of mine and a sibling of theirs.

11. Based upon your experience, what would you tell a woman considering abortion?

To weigh the consequences. That God loves them and loves that baby. That it is a baby!! I would tell them that for the rest of their lives they will think of this choice and it isn't a pleasant memory. It is not easy to recover from that it will affect your emotions not just the physical.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that if they could look back over ancient civilizations that the ones that did not survive were the ones who killed their innocent. I would also ask them which one of their own children they could look at and say that they did not deserve life. Look into a child's eyes and determine which one does not deserve to live? Essentially that is what we are doing. Everyone in our country being the free country it is deserves the right to life and to make their own choices.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of GA

County of Forsyth

My name is Regina Davidson. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Atlanta GA

//1990

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

???Standard for first trimester.....I was put to sleep during it and really don't know.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

There were no explanations at all I just remember being in the waiting room and then taken into the room for the abortion and put to sleep. I don't even know who the person was who did it!!

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed of any risks that could have occurred physically or otherwise.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I am left with great sorrow over the life that would have been but as a result of abortion is dead and the potential that was taken away.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

That God has a purpose for the child within her and it is not a choice to murder what God has ordained. That abortion never goes away, you never forget what you have done and it is a hurt that is infinitely deep. It seems like a simple and expedient solution to a problem but it is not a solution at all. It resolves nothing but makes it worse. I would tell her there are so many other alternatives to abortion. There are Christian ministries that specifically help women who are pregnant to either keep the child or adopt out and who go through all the logistics of either one and also assist her in her personal needs. I would tell her the Spiritual implications that go along with this decision. I would also tell her that abortion is totally irreversible and so it is so critically important she be completely and fully

informed.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That the states have the right through the votes of the people to decide this issue not the court. Put it back to the people of the United States to vote and decide as this was never given to the people to vote and decide in the first place and until then put out the truth!! That it is a baby and it will be removing a life from being born forever. Have mandatory ultrasounds with mandatory disclosure to the female and also what about the father, he has rights too, he should have to be informed also of everything that would effect the outcome!!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of GA

County of U.S.A

My name is D M I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Marietta GA

04/24/2008

2. How many weeks pregnant were you?

3. What type of abortion was performed?

Surgical

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

All I was told was that it would terminate my pregnancy. I was not allowed to speak to the doctor.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never informed of the severe emotional trauma this would cause me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father of my child

9. How has abortion affected you?

It has left me empty, hopeless, like I am not worthy of God's love. I have never been so heartbroken in all my life!!!

10. How has your abortion affected others in your life?

They have had to learn how to deal with the traumatic effects this abortion has had on my life.

11. Based upon your experience, what would you tell a woman considering abortion?

THAT THERE ARE OTHER OPTIONS!! I would inform her of everything!! Make her aware that although it seems she is fixing "her problem" it is only going to add MORE problems!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them to go into a room where they perform and ultrasound to be sure you are pregnant right before they murder that child. I would tell them that of you aren't aloud to kill a child once it is outside of the womb, what makes it any different when it is in the womb. It STILL has a heart beat, it still depends

on oxygen and nutrients to grow, how is that NOT living?

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of GA

County of Wilkinson

My name is Charlotte Smith. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Atlanta GA

07/13/1984

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

Surgical D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was asked a few health questions but I remembered no warning about any of the ramifications of abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nothing was ever mentioned about breast cancer, depression, suicidal thoughts, or etc.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother, but after much time and prayer we're ok

9. How has abortion affected you?

It has had so many far-reaching effects it is hard to name them all. Deep depression, marital troubles, trust issues, severe anxiety that caused health problems, relationship difficulties with my children and others, sexual difficulties, suicidal thoughts almost continually, cost for therapy, health problems.

10. How has your abortion affected others in your life?

Relationship difficulties with my children caused by difficulty bonding with them has been difficult for them. My husband and I have not trusted each other since the abortion. My mom and I have had a difficult time being close since the abortion. We are all continuing to heal and things are getting better but it has been very hard.

11. Based upon your experience, what would you tell a woman considering abortion?

For your own sake, and for the sake of any other relationship you will ever have do not have an abortion. Especially if you ever want to look favorably on yourself again.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

In this country we have made it too easy to have an abortion for convenience only. We have made it too easy for women to hurt themselves and to be taken advantage of. If you won't overturn this at least make it harder and have many more restrictions. Make sure that the woman has plenty of opportunities and time to change her mind. Make sure that there are more safeguards before these women are exposed to people that will benefit financially from their desperation.

HOW MY ABORTION AFFECTED ME

The State of GA

County of Newton

My name is Michele I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Ft. Lauderdale FL

03/16/1991

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

I'm not sure of the technical terminology.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told that the baby is a live human being developing into a child that has a right to life without interference by mother or doctor. At the time, I did not know the right questions to ask. I was just told that it would be a simple procedure and that it wouldn't take long with little recuperation time.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told that there were any consequences of my decision.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My fiance & my mother

9. How has abortion affected you?

Deep regrets of what I've done; emotional scars; I have found forgiveness through the Lord Jesus Christ.

10. How has your abortion affected others in your life?

I'm not sure of this.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell a woman that a life is at stake here; this baby has a right to life as given by his Creator and it is always best to do the right thing and leave the results of that decision to God. I would tell her that I found out that I had murdered my unborn child through reading the Scriptures and, subsequently, realizing that I had offended a holy God by my actions and I needed His forgiveness which He offered through the Lord Jesus Christ.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell a court who believes that abortion should be legal that the taking of a life whether within the womb or without is murder, plain and simple. Murder should not be legalized. A baby's life within the womb is only sustained by that mother's life support within the womb; we should not legalize abortion which is the altering of that baby's God given life support.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of GA

County of Lee

My name is Gema Bass. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Atlanta GA

02//1988

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told that the baby had a heartbeat - that this was an actual human life! I was too young to understand exactly what I was about to do. I was fully led by people in authority, who had no interest in me - as I remember, they seemed and acted as if they WANTED to perform this abortion, not wanting me to know in detail just how awful this action really would be!

5. Were you adequately informed of the consequences of abortion?

Yes No

There was NO information about "after the abortion". These people were not concerned about me and how this hideous act would affect me psychologically. I was now just another number. My aborted baby was now just another death.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The person in charge of the clinic

9. How has abortion affected you?

I wanted to die the day the abortion was performed. I actually was willing myself to die - not to wake up from the anesthesia. I was in SUCH misery, guilt and grief. I did not know Jesus Christ as my Savior at this time in my young life. I'll have you know that Jesus came to me in the form of my mother, comforting, reassuring me and telling me that "I had to wake up" that "I was going to be alright, but I had to wake up". Before I even knew Him, He came to me in the only form of my deceased mother who had been the only person on this earth who had ever truly loved me. He knew this was the only way I would accept comfort and love as I did not know Him yet. So, God would not let me die - - when I awoke from the anesthetic, I still could not accept what I had allow to happen. It was not until many

years later - after years of self punishment with an abusive 1st husband, much alcohol abuse, and extremely low self esteem, that I recognized the love that Jesus Christ had showed to me during this lowest time in my life. I finally saw how He gave me the courage to go on after the abortion, to give me a will to live - I was finally allowed the saving grace of my Lord and Savior to begin the healing process of this devastating act.

10. How has your abortion affected others in your life?

It affected my relationship with my children from my 1st marriage. I could not REALLY bond with them the way a mother should - yes, I loved them, but the intimacy was not there. I was afraid - I believed I didn't deserve children after I had been able to murder one - how could I have children???? I was so confused.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that abortion is NOT a choice. Although she may feel lost, alone, and frightened, that there are loving, caring people who REALLY CARE ABOUT HER - ABOUT HER UNBORN BABY- that she is NOT just another "number". That there IS help and hope and love for her and the situation she finds herself in at this most distressful time. I would give the testimony of my experience and if she would allow me to, if she is not already a believer of Jesus Christ, I would share the Gospel of Jesus Christ with her - introduce her to the Love that only He can offer.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would again, give my testimony of the abortion - I would vehemently, yet very comprehensibly, tell them that abortion not only kills a live, breathing human being, but it also kills the will of the mother, it kills her self-esteem - it also kills and destroys a part of the mother that no amount of counseling will EVER be able to restore.

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

???

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

All I was told was I would no longer be pregnant and my problem would be over

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told I was not expected to have any complications and life would be normal.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It affected me spiritually, in all my relationships, raising of my children, self-esteem, truly connecting with God's grace

10. How has your abortion affected others in your life?

It was used against me for my family to influence my daughter to have one

11. Based upon your experience, what would you tell a woman considering abortion?

It's murder and it is not the answer. That even forgiven it is always with you. Look in the mirror and think what would you think if you were an aborted baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That they might as well make all murder legal. It's the same thing.

8. Did anyone pressure you into having an abortion?

Yes No

dad, father of child (boyfriend)

9. How has abortion affected you?

I feel that having an abortion, and the grief associated with the knowledge of taking my own child's life, has had a significant impact on my decision-making. I have felt that I had done the most despicable thing a person could ever do, and that nothing could ever make it right. I began to drink excessively, became promiscuous, and used many different drugs to try to erase the memories and emotional pain.

10. How has your abortion affected others in your life?

It negatively affected my relationship with my dad, as I felt that I was not given a choice in whether to have an abortion or not. It also has caused great pain to my mother, as she was not in agreement with my dad to have an abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

The fear of having a unplanned child will dissapate. The broken heart of a mother won't.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The emotional and physical toll on a woman who has an abotion is irreparable. Abortion not only slays

a child, but hearts and relationships.

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They did not tell me I was killing my baby. They didn't tell me anything - except to take the valuum and do not go to the hospital if complications should arise. The doctor and the staff laughed and joked though the whole process as if they were mashing a pimple on my face to get the goo out.

5. Were you adequately informed of the consequences of abortion?

Yes No

The only consequences I was informed of was that I might bleed heavily, but not to go to the hospital or my gyn - only to come or call there.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

spouse

9. How has abortion affected you?

The suffering I've endured cannot be put into words. If the shame and guilt of killing my baby were not enough, I continually feel a loss in my life that can not be replaced. I've had recurring nightmares and flashbacks. I constantly live in fear of breast cancer because of the link to the abortion. The shame I feel forces me to suffer secretly because I feel as though I can't tell anyone what I did, which only adds to the loneliness, fear, and shame. I can say that God is in the process of sitting my free from the shame and I am recovering emotionally, but that doesn't bring my baby back, and I will always feel that loss.

10. How has your abortion affected others in your life?

My husband has suffered for the last 13 years because he believed the lie that the fetus was not a baby

and forced me to have the abortion. His suffering has been just as painful as my own. This has caused obvious marital problems in the past, which has its own heartache to add to the pain of the abortion. He has also felt the need for secrecy, but is learning that it is only another lie to keep him suffering longer and more intense.

11. Based upon your experience, what would you tell a woman considering abortion?

I would beg them on bended knee not to have the abortion, explain the consequences, and offer to help them to find a way to have the baby and keep it or place it for adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that abortion takes the life of a human being and it is murder in the first degree. It leaves the mother wounded for the rest of her life. And its negative effect on the U.S. is going to become greater and greater if it is not stopped.

QUESTIONS

1. Where and when did your abortion occur?

10/10/1979

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No, I had no idea what to expect or how the procedure was done.

5. Were you adequately informed of the consequences of abortion?

Yes No

My parents and I had no idea how it would affect me emotionally.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents

9. How has abortion affected you?

I absolutely did not believe that terminating the pregnancy was the right thing, or moral thing to do. My parents threatened to disown me if I did not have the abortion. I was extremely scared and had no where to go. Without their help I knew I couldn't make it. After the abortion, I became very depressed and full of anger toward myself for allowing them to pressure me into making such a terrible decision. All I wanted to do was lay down and die. As a result, I became self-destructive and began using drugs and drinking heavily. I just wanted the hurt to go away. For years, I allowed men to use me sexually because I hated myself and felt like that's just how I deserved to be treated. Before the abortion, I was a highschool cheerleader and had ambitions in life. Afterwards, I lost all self-esteem and began making very poor decisions. I became involved in relationships where I allowed myself to be mistreated, because that's what I thought I deserved. I've kept my abortion experience a secret for 30 years, never talking about it, not even with my parents. They have no idea the hell I've gone through emotionally as a result of it. It has affected every aspect of my life. There is not a day that goes by that I haven't thought about it.

10. How has your abortion affected others in your life?

The abortion affected the relationship between me and my parents for many years.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! If you don't want the child, seek out ways to put the baby up for adoption. The guilt and the shame of having an abortion are overwhelming.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder, plain and simple. A woman does not have the right to kill her baby for any reason.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of GA

County of Lee

My name is SUSAN BENNETT. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Clovis NM

02//1985

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

d&c

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told it was a living human being. I was told it was just a piece of tissue in my body.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told that I may experience any depression, horrible dreams about the experience, that I might have problems getting pregnant after the abortion, in fact I remember being told the exact opposite.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Actually before going through a Bible study(forgive and set free) I felt like i did not deserve the best of anything. I became addicted to drugs and alcohol, I had very little self esteem. I felt I deserved to fail at everything I tried to accomplish. I did not trust people.

10. How has your abortion affected others in your life?

My husband does not want to talk about it. My children forgive me however.

11. Based upon your experience, what would you tell a woman considering abortion?

I would always tell her it is HER decision, however I would make sure she knew about the long term effects of both the physical and mental it has on so many women. I would tell her we would be here with any decision she made.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If we DO NOT HAVE THE RIGHT to MURDER a human being or commit suicide, then what RIGHT do we have committing MURDER to an unborn human fetus. Not only are there devastating long term effects on the women, we are literally cutting up a human baby. How can that not be murder? I would ask that if they had children, to remember how excited they were from the moment they were told of the pregnancy. Knowing that that baby was just as much alive in the womb as at birth.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of GA

County of Walker

My name is Barbara Higgins. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Detroit MI

//1984

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

standard and partial (I had 4 abortions) One in London England

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I can't remember exactly since this was over 20 yrs ago and I was under the influence of drugs or alcohol during this time. I do remember that it was very quick like they wanted me in and out of there very quickly. Pretty much the same for all 4 abortions.... cold and impersonal. The partial was horrific!

5. Were you adequately informed of the consequences of abortion?

Yes No

No, and when I cried tears of anguish in the recovery room the 1st time the nurse just gave me a pill of some sort and said "you will be just fine" The same with the other 3, there were no explanations given...And everyone involved in the procedures seemed so empty and distant.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend

9. How has abortion affected you?

I had no idea how this would affect me years down the road and how it still does. It has haunted me so much of my life and has effected many desicions that I have made.

10. How has your abortion affected others in your life?

It has caused me to be extremely dysfunctional in any relationship and more noticable in my marriages (I have been married twice). I have had fear, guilt, promiscuity (before marriage), anger, control issues, alcohol and drug abuse, feelings of worthlessness, and depression. Doesn't make for a good family member, friend or co-worker. I have pulled through all that now, though it was NOT easy.

11. Based upon your experience, what would you tell a woman considering abortion?

I would give her every detail I thought would change her mind and help her to reconsider. I would practically beg her to stop and think and speak to others who have had the same experiences with abortion. But most important I would tell her of all the years I have suffered in anguish. Years that were wasted because of my stupidity and selfishness. You cant go back. Once the decision is made and carried out it will be right there to remind you of what you did and who you are for the rest of your life...

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Please consider all the reports of how negative this brutal procedure is! It is truely murder. Ask any murderer in jail who has changed his heart and is sorry for what he has done and you will surely have the same answers as the women who have aborted their babies. Shedding innocot blood comes with a price and one that we have not been warned of. It reverberates around the world affecting so many lives because we have many women who are and will never be "whole" How can a society function with so many people who are damaged and disfunctional because of this senseless killing under the guise of "choice"? Please stop this evil!

2. How many weeks pregnant were you?

20

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told nothing.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed in any way.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have had serious physical and emotional problems for thirty years. I had several miscarriages and one very difficult full term birth. I have been devastated because I did not have information about the overwhelming affects of abortion.

10. How has your abortion affected others in your life?

My mother and sisters were very sad and guilty for supporting my decision to abort my baby.

11. Based upon your experience, what would you tell a woman considering abortion?

Never, ever have an abortion, PLEASE!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would teel a court that not only is the baby killed but the spirit and health of the mother is destroyed. I would beg a court to have mercy on the unborn.

HOW MY ABORTION AFFECTED ME

The State of GA

County of Catoosa

My name is Teri Bradberry. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Knoxville TN

//1999

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

For 3 years after the abortion, I was self-destructive and tried to do anything to forget about the horrible thing that I had done, whether it was drinking, drugs, or men. I grew more and more depressed and thought more about death than about living. It wasn't until I gave my life to Christ that he took my shame and guilt from me and gave me a new life. Still, it would not change that fact that I had killed my first child and I could not bring her back. There are internal scars that will never go away because of the abortion.

10. How has your abortion affected others in your life?

My family suffered from what the abortion did to me. They sought to help me and I pushed away from everyone. I wish I had been open to them about it, and they would have stopped me from making the worst decision of my life.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that she won't be able to "just move on" with life. Even if she is doing okay for a while, there will be consequences for her actions, and one day she will stand before a holy God and answer for what she has done. Not only that, but it will destroy her soul. Don't let our liberal government set your moral standards. The word of God is still the same yesterday, today, and forever.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say to take the time to listen to the women that regret their abortion. Even though I was "legal age" to have an abortion, I was not in sound mind to make the decision. I should have been able to depend on someone wiser than me to protect me from myself.

HOW MY ABORTION AFFECTED ME

The State of GA

County of Cobb

My name is B P I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Atlanta GA

06/05/1998

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only informed of what I was going to experience, the type of medication, slight pressure, etc. I was 18 and had gone there for a free pregnancy test. When the results were positive they immediately began trying to schedule me for an abortion. There were no other options discussed and if I were intending to keep the child it was obvious that was not the right choice.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told of no consequences. It was a very matter of fact. Do this and everything will be all better.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my boyfriend

9. How has abortion affected you?

It is hard to convey what it does to you. To know I should have a ten year old child. That I took the life of my own baby. I had severe endometriosis and they removed one of my ovaries. I was told I may never have children and they don't know why. I know why. My reproductive organs turned on themselves and it is because I turned on my child and murdered him/her. There is a guilt and shame that is indescribable. I found the behavior continued in other areas of my life. Where the going gets tough abort mission.

10. How has your abortion affected others in your life?

I am almost 30 years old and have not had successful relationships because I was so wounded and harbored so much self hatred. For years I never knew why.

11. Based upon your experience, what would you tell a woman considering abortion?

I would plead with her to have mercy. I would ask her to listen to the heartbeat of her child. I would explain the scars and pain that never go away. I would cry out to God to change her heart.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We are no better than the nazis to believe we have the right to determine who should live or die. You say it is a woman's choice to carry a child or not. There are so many parents who ache for children. Nine months of discomfort is not comparable to a lifetime as a murderer. Abortion should not be legal.

HOW MY ABORTION AFFECTED ME

The State of GA

County of Cobb

My name is R C I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

New York City NY

04//1990

2. How many weeks pregnant were you?

15

3. What type of abortion was performed?

I would guess a regular one (It definitely was not partial birth)

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 19 at the time and the only thing Planned Parenthood discussed with was what to expect for the "procedure". It was never shared with me other alternatives to abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

I learned of the consequences after the abortion from other resources. It was so long ago but I can guarantee that no one took the time to give me understanding.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I was 19 years and scared. At this time i did not know Christ and being so filled with fear, I din't share i was pregnant with my parents. I turned to my boyfriend who pretty much left the decision up to me (a kid). He said whatever decision i make he will support (how noble). It seems to me that he didn't want the baby and I was so filled with fear that I could not provide for the baby the only option that made sense was to give the baby back to God because I know life would be better there than with me. I went through periods of depression and grief. I lived the life of masking the pain and feeling so lonely even when around people. The one thing I remember from that terrible day was when the Anesthesiologist was counting down for me to go out I looked at her with desperation and was able to mutter the words NO, but when I woke up I woke up crying uncontrollably knowing the unthinkable had been done.

10. How has your abortion affected others in your life?

I don't know how it has affected the baby's father since we never talked about it since that day. This is

the first time I am mentioning it since being a Christian and I intend to share this with my close relatives and friends after this. (the relationship between the baby's father and me was ruin after a 5 yr committal to each other)

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! Don't consent to the murder of your child. At the point of that conception that child is a living being. It will affect you emotionally and ruin your relationships. Seek to give the baby up for adoption if you don't have the means to care for the child or if you don't want to care for the baby. If you will keep the baby, trust me there are enough financial resources to help you to feed and cloth the child. Don't believe the lies that comes to your mind to try to make you commit murder.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

To make aborting legal is to legalized genocide. We are killing generations of Scientists, Lawyers, Presidents of US, Pastors, Educators and so on. Think about this, What if your mother had aborted you? Our Nation was built on the Bible and in our Bibles it states that it is illegal to take a life. Look at our very Declaration of Independence;this would include a life conceived. Life begins at conception, we know this for even in our judicial system we have tried those who murder a pregnant woman and charges the accuser with 2 counts of murder. It is so clear to me now and so many others that abortion should not be legal but illegal. I appeal to you to put an end legalized murder.

The State of GA

County of GA

My name is Sandra I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Atlanta GA

//1977

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

D&E

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I were counseled ina cursory fashion. No ultrasound was available. I donot remember the exact month.

5. Were you adequately informed of the consequences of abortion?

Yes No

It was legal. It would not be legal if it wasn't right to do, right? I was only 16.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Not really, but the expectation was to save face.

9. How has abortion affected you?

This space is too small to tell! It ruined my entire young adult life! I had more abortions, several divorces, and felt that I was going to hell anyway, so why not? It wasn't until I was 40 and expecting my first child that I confronted the reality of what I had done so many years ago. As I followed my pregnancy, I felt a growing emotional eruption as I approached the week of my pregnancy that I first aborted. As I looked at web sites devoted to living, loved children-to-be I dissolved into tears and begged God to forgive me for what I did. This process took months, therapy, medication, and salvation to finally resolve. I would need to write a book to capture the agony of regret I endured for having paid doctors to chop up my babies and suck them from my body. Suffice it to say, thank God Almighty He has forgiven me and given me a beautiful, healthy boy whom I will teach to honor and protect pre-born life.

10. How has your abortion affected others in your life?

I don't know. I have often wondered if I should attempt to look them up and apologize, as if that would

do any good.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT! AND BE VERY CAREFUL ABOUT SEX-THAT IS WHY YOU WAIT UNTIL YOU'RE MARRIED,SO YOU WON'T HAVE TO CONSIDER AN ABORTION!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

ONLY because God gave us free will do I hesitate to ban it entirely. HOWEVER, that is not a powerful enough argument to warrant the continued slaughter of complete innocents. Perhaps if we returned to the days when women, and to a lesser extent men, had to deal with the consequences of their actions they might think before jumping into bed with every pair of hot pants that comes along. Imagine the drop in STD's if that happened. And counseling. Gosh, today there would 30 million more tax-paying voters if they hadn't been killed in the womb.

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

It was a D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Although I had mine done at the abortion center that my mother and boyfriend owned, I did not really know what was happening to my body nor did I know how my baby look at that time.

5. Were you adequately informed of the consequences of abortion?

Yes No

No, We did not focus on consequences, we just focused on the immidate resolve.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend did. Also the Doctor who was employed

9. How has abortion affected you?

It change my Life forever. I will never be the same. Because of the Forgiven and set Free bible study. I am OK today to help other women. Today I provided a safe and caring place for women who are seeking abortion and I provided them with the oppertunity to make informed decisions and a real option, and the truth about abortion.

10. How has your abortion affected others in your life?

I am an example that you can get healed and be used by God after abortion. I was able to surrender my pain to the Lord, and I am now impacting hundreds of women and families by using my story and the pain of abortion to educated and help women at their time of need.

11. Based upon your experience, what would you tell a woman considering abortion?

I would let them that Abortion is NEVER the answer. I would tell them that they are mothers from the

moment that they find out that they are pregnant and that they will have to live with there decision for the rest of there life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would let them that at one time in my life I thought that if it was leagal it was OK, but today, after experening what abortion is and does to women that It does not matter if it is leagal or not, The effects are forever and this women now has to deal with that pain that maybe devistaing and unless she gets the right type of counseling, she maybe crippled with the pain for the rest of her life.

HOW MY ABORTION AFFECTED ME

The State of GA

County of Gwinnett

My name is Patricia Lea. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Rocky Mount or Raleigh NC

//1980

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I became pregnant when dating a boy who began to hit me soon after dating. I found out I was pregnant and didn't tell him because the thought of being linked to this abuser forever was too much at my young age. The clinic I went to assured me I was doing the right thing. There were no obvious consequences and it was easy. I ended up in that situation several more times over the next few years. I believe it was 4 times. Had I been informed of the "silent scream" or the long term effects that I am still experiencing at 44 yrs old, I know I would have gone another direction in my decision making.

5. Were you adequately informed of the consequences of abortion?

Yes No

The day I began to research and figure out why my heart and life was so damaged, it came down to the abortions, that time in my life when there were no "real" consequences to my actions. Over the years it has affected me in more ways than I can describe. I feel like a murderer who hasn't been caught yet.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Adults in my life then, friends, clinic staff

9. How has abortion affected you?

My life has not been right ever since. I have a huge issue forgiving myself for such a horrible act. It has affected my ability to love and have a successful relationship, resulting in 5 divorces. When you can not forgive yourself, you tend to let others walk all over you in life.

10. How has your abortion affected others in your life?

I now have two sons. One is 22, the other is 12. I have robbed them of their siblings, my parents of their

grandchildren, their trust and the way they look at me now, and most importantly; it has taken me many, many, years to work through the process of forgiveness, healing, and finally being able to kneel before God for all I have done.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT DO IT!! There are too many people out there who will love that baby and 9 mo. is nothing compared to a lifetime of regret and hurt. Abortion takes part of your heart and rips it out and you bleed a little bit a day forever....

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If you had to pick which one of you shouldn't be here right now, which one of you would it be? If you had to pick which one of your children or grandchildren shouldn't be in the world, which one would it be? Only God makes those decisions.

My name is Sherri Nelson. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Atlanta GA

10//1982

2. How many weeks pregnant were you?

27

3. What type of abortion was performed?

Saline

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

My personal physician generally went over the procedure. I was not fully aware of all that was going to happen. I was led to believe doctors and nurses would be on staff. When I went into labor to deliver my child there was no doctor on hand. I was sent into the restroom alone. I given a basin to place on the toilet and had to deliever my baby by myself.

5. Were you adequately informed of the consequences of abortion?

Yes No

No. A counselor told my parents to not talk about anything after the abortion. It was as if nothing ever happened. I was told to forget about it and move on. I was informed to never mentioned this subject again.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

doctors and parents

9. How has abortion affected you?

I have suffered many years with depressiion, rage, hatred, suicide. My life has not been the one I planned on. I have self destructed my plans many times because of not feeling I decerved to prosper or go forward. I never finished college or pursued other interest I had. I have gone from one addictive behavior to another, trying to fill a void that could not be filled.

10. How has your abortion affected others in your life?

I have not been the mother to my children I should have been. I have been over protective, prideful in the upbringing of my children. They had to live with my anger and rage. They have missed so much

because of my depression or the extreme of still trying to please my parents. I would put my parents needs above my children to hear my parents say how proud they were of me. My marriage suffered greatly and sadly ended in divorce.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not do it. The child is not the sin. The child is not the burden. Yes abortion is a sin and the world is void without this human life. Every child deserves a chance. Many try to justify that the baby will be in heaven, the baby would be better off. Though this is true the child would be with Christ and maybe the child is better off, you as a woman will live in bondage. You will suffer greatly at this choice. We are made to love and protect. Abortion goes against our nature. We place ourself in captivity when we go against the plans of God. There is no freedom in abortion. Place yourself and this child in the hands of God. He will provide for your needs. He will make a way to finish school, career, whatever your life plan is and you will have the joy of having someone who loves you unconditionally walk with you on this journey of life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is wrong. It is harmful to the woman who is having the abortion. Emotional hurt and abuse is so much worst than physical pain or abuse. Abortion is not a one time event or decision. It is a life altering decision for every person involved.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of GA

County of Greene

My name is Margaret I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Vidalia GA

06/10/1982

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only given a form to sign to release the doctor of any liability with the procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

No information was given. They only asked me to sign a form to keep them from being liable.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

My lifestyle changed drastically. I became very sexually active and very detached in my relationships to family. I became extremely promiscuous when previously I was much more modest and morally straight in my lifestyle. I could not bear to hear anything about abortion or think about the baby whose life I had ended.

10. How has your abortion affected others in your life?

My relationships with my family and friends suffered. I ended up having another abortion and my relationships with my partners never lasted. I blamed myself and them for what had happened.

11. Based upon your experience, what would you tell a woman considering abortion?

I would make sure that she has an ultrasound before going through with the procedure. It is important for her to realize that the life within her has all of the DNA in place that will determine all of her child's physical features and characteristics at conception. I would like to see more detailed explanations given of the procedure.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is too widely used to end pregnancy. It is not a form of birth control but has been used as such. Many of the women I know that have had abortions regret their decision at some point in their lives and many have been deeply emotionally or psychologically disturbed by their decision. Abortion does not "erase" the life, it ends it.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of TN

County of Hamilton

My name is Gina Hartley. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Chattanooga TN

08/26/1986

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was never counseled or shown an ultrasound. No one explained any details, except what was going to happen as they were dilating me.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told not to take baths, only showers. Also, that there might be some bleeding. No one prepared me for the emotional trauma during or afterward.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My "friend" at the Law Firm where I worked.

9. How has abortion affected you?

Because of that abortion, I began drinking heavily. I shut down from any intimacy with men and chose to have sex only with married men. I did not want to feel - anything. I had no idea of the grief, regret, anger, rage, denial, depression, loss of self-esteem, and so many more feelings that would haunt me 24/7. So, I medicated myself with alcohol and married men. There was no one in my realm of relatives, friends, church, acquaintances, etc., who I felt would support me. I was not counseled or instructed at the abortion clinic. I was 24, a virgin, a Christian. I came from a good home. My parents were Dean of Men and Dean of Women, (my dad also being a Bible Professor and a Pastor) at a local Christian University. I never received any education abortion and the consequences in the public schools I attended. I never heard it talked about or discussed; only that it was something bad. My abortion stayed a secret. In fact, everything I did in my life thereafter, was secretive. The closet drinker, the affairs with married men. The hidden anger, rage, and fury at our government (for not teaching me in the

public schools), the church for never talking about it, my parents for not making me feel like I could come to them with any crisis or trauma. I'm 47 and I have never married nor borne any other children. I still have great difficulty with intimacy. I've been engaged 3 times, but I just cannot get intimate with men beyond sex.

10. How has your abortion affected others in your life?

My parents did not find out until 1997 when my younger sister squealed on me. They were heartbroken. My younger sister was the one who loaned me the \$200 and drove me to the clinic, also, picking me up afterward. She's 41, married, and has never borne any children. I continue to feel heavy guilt for getting her involved. I was the older sister and supposed to be guiding her. I blame myself for her barren womb. Thinking God might be punishing her for my sin. I wish I had never involved her.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT! Please get an ultrasound. Please get counseling from a Christian pregnancy center. I would tell her there are people out here who can help and will support her and the baby throughout her pregnancy. That it is our Creator alone Who has the right to give life, or take it. I would tell her that the consequences will be with her the rest of her life. Even, having received healing through Forgiven and Set Free and finally, SaveOne, the consequences of killing my baby, are forever with me. They will be forever with her. God does forgive, but there are consequences.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that they are some of the most educated and intelligent people in the world and KNOW the MEDICAL AND MORAL TRUTHS concerning abortion. The evidence is overwhelming. Not just from the Christian perspective, but in our Medical Journals and the testimonies from medical doctors of all specialties. Abortion has hurt me and my family, and wiped out the chance for me to have anyone to carry on my name. Future generations. Abortion has shed so much blood, too, that this land is crying out. Deep down in their hearts, the people who represent our courts, know this, too.

depression, promiscuousness

10. How has your abortion affected others in your life?

it probably affected my boyfriend. i know it affected his mom who begged me to keep the baby

11. Based upon your experience, what would you tell a woman considering abortion?

it was a bad choice for me. i wish one of the women outside the clinic had approached me and told me the truth. i never stop thinking about my baby. it took a lot for me to come to God and ask for forgiveness so that i could move on with my life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

keeping the baby is not the worst thing that could happen to you. after the abortion is when the real problems occur. people need to know what the real consequences to abortion is.

boyfriend

9. How has abortion affected you?

I always wanted kids; in the end never had any. Mentally, I've never forgotten and it's impossible to forgive myself.

10. How has your abortion affected others in your life?

They only see the effects. Anger issues; mood swings.

11. Based upon your experience, what would you tell a woman considering abortion?

Think long and hard about the consequences. I thought my parents couldn't handle this. No way, I thought. Then 4 years later my younger sister got pregnant and my parents were great. Boy, did I underestimate them and miss out on a lot.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It shouldn't be so easy! It's so easy and you think, I'll do this now and never think about it again. BUT, then you do think about it.....always.

The father of my child

9. How has abortion affected you?

First of all I have had three abortions. The one listed above was the first one. I have lived with the guilt and shame for over 30 years. Only recently I have been able to bring closure to this painful part of my past by writing a book about my three abortions. It is called Letters To My Children in which I explain to my three babies the circumstances surrounding my decision to abort them. After 30 long years I have finally found some peace.

10. How has your abortion affected others in your life?

For years I didn't share with others that I had three abortions. Since writing the book, my family and friends who never experienced abortion have a better understanding of the long lasting affects.

11. Based upon your experience, what would you tell a woman considering abortion?

It's not worth the shame and guilt you have to live with afterwards. Don't use abortion as birth control. God is the giver of life and it is a precious gift that no one has the right to take. Have faith in God to provide for you and your child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If you make abortion legal, then all murders should be legal. Murder is murder. However, abortion is the worst kind of murder case because the victim is totally defenseless, and there is no prosecutor in that case. I guess that's God's job...

My name is Helanie Tresidder. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Middelburg

//1999

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

I am not sure, all I remember was that I went into a hospital and was under for the whole procedure.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

My procedure took place in Middelburg, Mpumalanga, South Africa. My doctor send me to a different town where I saw a doctor who showed me a ultrasound. I do remember seeing the heartbeat but all I could think about was that my life was over! I felt so cold and everything felt so unreal. They did let me see a counselor who asked me some questions regarding my decision. She asked me if I was ready and I said yes. No one explained that I am taking a life...Although a part of me knew I was doing something that was not right it was like I allowed the steps just to take place. They did tell me that I will probably bleed a little afterwards, but everything was so matter of factly, as if I was just going in to remove a mole or something. I went into the hospital with my mother and came out the same day.

5. Were you adequately informed of the consequences of abortion?

Yes No

There were no information about the emotional trauma involved after a abortion. This happened 10 years ago, but I still have days where I struggle with depression and a emptiness. I don't remember if they had information about the possibility of not having kids again, but at that stage I was not thinking straight.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother

9. How has abortion affected you?

My life was different from then onwards. I became extremely cold towards the idea of marriage, children or commitment in any way. I did not cry about that whole ordeal until 3 years later when my younger sister was pregnant and she refused to have a abortion. She had a little boy and I remember one day

looking after him while he was sleeping on the bed, all of a sudden it was like I realized what I did. I saw a baby and my heart knew I chose to destroy one to keep my reputation! I am married now and it took a lot of counseling and commitment from my husband to help me. I did try to commit suicide in 2004 but I can't say it was because of the abortion, but I do believe that it has affected me emotionally. I have had so much struggles with depression and just a lack of joy in life. The hardest thing to deal with is just the fact that you cannot change that choice, you cannot bring back a life. One other problem I had to deal with was when I was pregnant after I got married, I kept on worrying that I was going to loose the baby or that somehow something was going to go wrong, it is like that memmory of what you did all those years back just does not go away.

10. How has your abortion affected others in your life?

My mother I know is sorry for what she did. She has mention once before that we made a mistake. That was all she ever said about it. My husband has had to deal with a wife that struggles to love and totally commit. It is like I am dead inside and he tries to help me live again.

11. Based upon your experience, what would you tell a woman considering abortion?

I would love to be able to give her two weeks with no influence from those around her pressuring her into making a decision. I would love to tell her to not think about what other people would think about her if she has a baby! I remember that that was my biggest fear, "what are people going to say.." "my mom is going to kill me..." "my life is over.." I would love to say to her that she must consider how much better her life will be for making a choice to save a life rather that choosing to take one just to "have a future or education.." How does a education help you when you a so depressed that you can't even get out of bed! I would like to tell her that all her future plans can still be possible with a baby especially if she has friends and family that can help her.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would plead with them to take the time and watch a abortion being performed. I would ask them to consider the life being taken as more than just tissue... Don't be blind towards this issue, look at the facts, look at some pictures, look at videos of early stages of pregnancy, and look at the millions of lives affected by it. Thank you

4. Were you adequately informed of the nature of abortion, what it is, what it does?

lack of information/ education in 1976

5. Were you adequately informed of the consequences of abortion?

Yes No

My mother had an abortion back in 1976 and she was not informed of the emotional trauma she would face.

6. Were you informed of any link between abortion and breast cancer?

the father of the child, my father.

9. How has abortion affected you?

all my childhood I would watch my mother cry and withdraw. Going through depression she would lock herself in her room. Certain times of the year she was much worse and would breakdown at family reunions and gatherings with other children. She also faced irregular menstrual cycles and was admitted into the hospital for internal Hemorrhaging.

10. How has your abortion affected others in your life?

My mother would have emotional outbreaks and withdraw from the family making me, at an early age, feel that it was my fault and unaware of the reasons as I approached the age of 10 I started accusing my father of abuse. As a teenager I come to find out the truth and tried to comfort her. 32 years later she still deals with the emotional scars of abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

There are other alternatives. Adoption is a blessing to a child and a receiving family that desires to love a child. I too faced pressure to abort at the age of 18 but as I heard stories and testimonies of family members and friends I knew it wasn't humane. I have never regretted my decision not to abort.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should not be legal unless medically life threatening. It causes a chemical imbalance and guilt in a woman that would affect her for life. I believe that it would benefit the next generation if the process and effects of abortion and medical studies are taught in high school. Education is the key to prevention.

9. How has abortion affected you?

It scars you physically and spiritually. If I could go back and change everything I would. That emptiness inside, I was not able to have more children and that child you killed. It is with you 24/7. They need someone like Pro Life to sit down with these girls and explain the procedures and what it does to killing that child before they decide to do it.

10. How has your abortion affected others in your life?

N/A

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them to look at other options, like adoption if they cannot keep the child. It will haunt you the rest of your life and you will wonder if I had that child what kind of young adult they would be now and missing out on grand kids. Do not do it! seek other options.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

It needs to stop. Obama says the United States is a Secular society and let tax payers pay for overseas abortions. As Billy Graham said the people of the United States have turned there back on God and he is right and we will pay for this in the long run. Each one of us will have to stand in front of the Lord for our actions. God is still in control.

9. How has abortion affected you?

There has never a day gone by that I don't think of 'what might have been' had I kept this baby.

10. How has your abortion affected others in your life?

No, not really. In sharing with other women in the same situation, I am able to give them hope.

11. Based upon your experience, what would you tell a woman considering abortion?

That the 'choice' was already made; that it is wrong to take the life of her unborn child--not a fetus--because of the mistakes of the 'parents'; that every child deserves to live--be it with adoption or making a life with the baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

There is NO 'legal' sense to taking the life of an unborn child. The baby is a completely formed, separate human being, deserving of the dignity we all expect. It should NEVER be legal to take the life

of an unborn child because of a 'mistake' of pregnancy.

9. How has abortion affected you?

When I first had my abortion, I experienced all of the normal, painful physical side-effects of this procedure. They lasted a week to 10 days, and I was prepared for them. What I wasn't prepared for, however, was the emotional scars that will remain a part of me forever. Each December, I silently note another year of passing...another year when my son or daughter would have graduated kindergarten, played sports, etc. I will never forgive myself for being so selfish.

10. How has your abortion affected others in your life?

This remains a secret held only by myself and two others. My husband and children are not aware of my silent agony.

11. Based upon your experience, what would you tell a woman considering abortion?

I would convey to a young (or old) woman considering an abortion to meet with a young (or old) woman that was unable to have children. I would stress to her the emotional impact it will carry throughout her life...as she gets married and has more children of her own. And lastly, don't make a decision of this magnitude based on how you're feeling RIGHT NOW!! This too shall pass and regardless of how

trapped she feels, there is a better way!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Please consider emotional counseling as well as the medical side of things. As this procedure is completed, the doctors pat your arm and whisk you out the door, not realizing this woman has to go home and live with her decision day in and day out. Offer alternative methods and make those methods easy to obtain (financial help, etc.)!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of GA

County of Gwinnett

My name is Christine Maynard. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Augusta GA

08/25/2002

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They did not explain the full nature of the abortion...nor did they explain what type of care I would need after...meaning psychological care and other self destructive behaviors. She sweet talked me through my thoughts. She never once said I would even get an ultra sound. She never explained anything. She also did not explain that there would be a enormous room full of other girls doing the same thing I was...I thought it was private. This was private at all. I was humiliated. I never cried so hard.

5. Were you adequately informed of the consequences of abortion?

Yes No

They made me feel as if they cared about me...they understood my feelings and that is all they were worried about me. They were not worried about me, they just wanted my 400\$. According to her there were no consequences..she never spoke of consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has taken me over 5 years to come to grips with the awful choice I made. I never imagined myself to go through an abortion and sadly I felt like it was the only thing I could do. I became severely depressed. I no longer cared for myself. I could not sleep. I became a person I did not want to be...a drug induced numb young woman. I cried my heart out 2 years later in front of a priest. I could no longer take the pain I caused myself. This all changed when I met my future husband, who is the best man I ever met. He understood what I went through and has helped me deal with this issue. I still suffer from anxiety and depression, which I believe is caused by the abortion I had in 2002. After I had my first born son, I was severely depressed. Even as I held him, I could not think about the baby that was. I even had a name for the aborted baby. I have not seen a doctor for my problems, but I have worked very hard to

overcome this issue.

10. How has your abortion affected others in your life?

This abortion has caused others to feel my pain and suffering and cause their own pain from the result of killing a baby. That is exactly what it is...killing a baby.

11. Based upon your experience, what would you tell a woman considering abortion?

That you will never stop thinking about the baby you got rid of. That child will remain with you for the rest of your life...even when you think its gone...you start a new family, your OB/GYN asks if this is your first pregnancy, and they want to know about abortions too, which is considered a pregnancy, which they never told me at the Abortion Clinic. So it never ends...this will remain with you for the rest of your life. So why not keep the baby alive so that you can eventually see for yourself your child that can grow and become a person. Or better yet give it to someone that wants a child. Someone who has tried and tried to start a family only to fail due to complications. So many husbands and wives want a child and just cannot.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe that abortions are not for everyone. Abortions should not be legal and treated like a Woman's right. Its not a right. Its a terrible pain that will haunt a woman for the rest of her life...and this is not a "right". A right is living freely in the U.S.A with choices like...what college should I go to...what should my degree be...do I want to get married, etc...not should I have an abortion. If I don't go to school it will not ruin my life, but if a girl has an abortion, there will be years and years of psychological pains that have to be dealt with that could potentially hurt her life. She could fall into a path of drugs, self-destruction, self-loathing, hate, prostitution, illegal activity, etc. Are these choices the choices a woman should be given? Is that what we need in America today more hate and more girls having problems? I do not believe so. An abortion is not a right. Driving is a right. Owning a home is a right. Working is a right. Killing a baby is NOT a RIGHT!!!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of GA

County of Cherokee

My name is G L L I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Ogden UT

//1979

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Suction/Vacuum I think.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told anything except my appointment date, time, that there is some discomfort. That's about it.

5. Were you adequately informed of the consequences of abortion?

Yes No

Absolutely nothing about consequences was conveyed to me at any time.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

But I wanted to please the other person

9. How has abortion affected you?

I was a brand new Christian and had just gone through a divorce when I got pregnant. Because I wanted to 'please' the other party, I went through with it, but for 5 long years, even after marrying, I was full of guilt and anguish. I couldn't forgive myself even tho I knew God had by that time. I felt it was my fault that I had a premature baby, then a miscarriage and then another premature baby. I thought it was my punishment for what I had done by killing the gift God had given me years earlier. Only the past few years, and it's been over 30, do I not think about that child and how old "he" would be now. (I felt deep inside that it was a boy). The memory of that child is never ever gone!!!! I was so selfish and single minded that I blocked out the true consequences of what I had done for years. But, it has given me a voice now to reach others considering the same thing. Through my decision, I know of at least one mother who came close to aborting, but because of my speaking out when it was so very hard and humbling to do so through my daughter who never knew, that child was saved and is a healthy beautiful boy around the age of 4! Praise God. I have become much more vocal now, too.

10. How has your abortion affected others in your life?

My sisters, who didn't understand and were very judgmental at the time, realized how much I needed them to help me through what I had done that they have helped me and others overcome guilt and helped me to realize that this is my testimony to reach others to save other children. God has forgiven me and I have finally forgiven myself.

11. Based upon your experience, what would you tell a woman considering abortion?

Whatever the circumstance that caused you to get pregnant, God's timing and plan is never wrong. You have been given a blessing through something that happened outside of marriage and He wants to see how you handle this bump in your road. This child is innocent in all of it and if abortion is chosen, be prepared to never ever get it out of your mind. The memory, the guilt, the anguish, the selfish decision will never leave you unless you have no heart to begin with. The memory will pop up when you least expect it. It's a life that begins at conception. I would literally beg the woman not to go through with it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

How can you legalize abortion when you charge a person with murder when a pregnant woman is attacked and killed and the unborn CHILD also dies? There is no difference. Are you all so cold hearted and unfeeling and of a selfish bent that a life at any point is meaningless to you because it may be inconvenient to your life plans? What if your mother had aborted you? The child is the innocent party in this and yet the child is given a death sentence and the murderer goes free! What kind of justice is that? It isn't. Abortion is premeditated murder. Abortion is the taking of a life, the destruction of a life for selfish plans of another that doesn't want to be bothered. Let the child be blessed and be a blessing to someone who can't have children by choosing adoption instead.

HOW MY ABORTION AFFECTED ME

The State of GA

County of Franklin

My name is Monika Woods. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Bernarino CA

03//1989

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

I was under anesthesia for 10 minutes. I have no idea what happened.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that at 12 weeks that what was inside me was just a mass of tissues, that it was not actually a baby yet.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told that there were any side effects at all. I was not told about any psycholological impacts or anything.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

Planned Parenthood

9. How has abortion affected you?

Immediately after the abortion I was in a complete depression. I cried for 3 days and did not know why. I gained weight and began drinking more than I ever had in my life. The six months after the abortion were the worst six months of my life.

10. How has your abortion affected others in your life?

I was never able to tell most of my family because of their religious beliefs. My relationships after suffered. I was not able to stay in any type of personal relationship because of emotional trauma.

11. Based upon your experience, what would you tell a woman considering abortion?

Please, I beg you, do not get an abortion. You will cry even 20 years after it happened. Your heart will ache. You will never forget your child. You will be the mother of a baby that died. Abortion is the end of

the growth cycle of a human being. In all other aspects of development of a child during pregnancy, life and growth is measured from the date of conception. Medical treatment is administered to children while they are in the womb. Liars and greed want you to abort your baby. They want you to sacrifice your child so they can make money. Some are innocent, they are brainwashed into believing that what they are doing is right.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is against the constitution. The constitution states that we are all guaranteed life, liberty and the pursuit of happiness. The health of women is in danger. My sister in law died at the age of 40. She had breast cancer. The first time she had it she was 32. My children have siblings from my husbands previous marriage that were also killed by the surgeons hand. The right of a child to live begins at the moment of conception. A woman that carries that child becomes a care-giver, not a slave-holder.

County of Mitchell

My name is Patty I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Washington DC

09/01/1974

2. How many weeks pregnant were you?

15

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told the fetus was just a piece of tissue and not a future life. If they had shown me a picture of a newborn baby, I would have left the clinic immediately and carried my baby to term.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told how to deal with the guilt and depression I still feel all these years later. You can't undo an abortion and meet that person and ask their forgiveness for killing them before they ever had a chance to live and breathe and laugh and love.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I feel like a murderer. I thought at the time it would be best for the baby not to be born to a destitute unmarried mother. That was not my choice to make - to kill the child because of my inability to be able to predict or promise a good future for it.

10. How has your abortion affected others in your life?

No one knows.

11. Based upon your experience, what would you tell a woman considering abortion?

I would never ever counsel anyone to have an abortion for any reason. But I cannot walk in another's shoes. It was absolutely the worst wrongest thing I have ever done.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

The 'choice' should be NOT to have sex if you do NOT want children or are unprepared to raise them up properly. Make the RIGHT choice and choose to be responsible for your actions. The wrong choice is to take the easy way out at the cost of the life of an unborn human being.

QUESTIONS

1. Where and when did your abortion occur?

Columbus GA

06/10/2005

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

I'm not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was informed on how the procedure would be conducted. They gave me valium and told me that the doctor would insert some sort of suction tube into my uterus to "remove" the fetus. I was not told how it would feel or how cold and rigid the procedure would be.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was only given brochures with information about counseling services if I should need them afterwards. That's all that was said.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

My soul is haunted every minute of every hour of every day. I wake up with it, eat with it(when I can), walk with it, and sleep with it. I was so selfish, focused only on the bad timing of the pregnancy. I committed murder. The worst kind, I took the life of an innocent baby. I live with the blood of my baby on my hands. And I don't believe I deserve to live with clean hands. I did this. No one made me, I killed my baby. A baby that had a heart, he or she depended on me for protection and I took it's life. And yet I'm free to do what I please, I feel like I should never see the light of day again. I am frequently depressed, I find it very hard to keep a job and I isolate myself most of the time. I don't feel worthy of happiness.

10. How has your abortion affected others in your life?

All of my relationships have suffered in and out of my family. My relationship with the baby's father is barely breathing. Our guilt has smothered what we once had together. He did not want me to have an

abortion, he begged me not to. I wouldn't listen and he became very resentful. I don't blame him at all, I don't know how he can even stand to look at me now.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that no matter what situation you're in, things will somehow work themselves out. Seek comfort in the One that created you, turn to God your Father. I promise you once the baby is born everything falls into place you will look back wonder how you could have ever considered an abortion. Don't be like me and look back to realize that my situation wasn't nearly as bad as I thought it was at the time and the birth of my baby would have been worth any pain and sacrifice. There is not a word known to mankind adequate enough to describe the pain, the guilt, the regret and the emptiness that consumes you. If a woman is not capable of raising the baby there are so many couples that will be more than happy to do so. Getting pregnant at a bad by the wrong man is not you're baby's fault and it deserves a beautiful life - not a cold, painful, cruel death. Babies are glorious creations by God and they should be loved as such.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is as much murder as a one person killing another for no reason. When conception occurs, a baby is created, Whether or not the ability to live outside the mother's womb is present should dehumanize a baby. Deciding if a baby should live after conception is not our place. God is the one and only Creator, decisions concerning life and death are to be made by Him.

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

I was 14 years old when I had an abortion. It wasn't until later when I was married and was struggling to have children that this abortion was back at the forefront of my memories. I felt guilty because the abortion was for selfish reasons only. At 14 I convinced myself that a real life wasn't existing at 7 weeks.

10. How has your abortion affected others in your life?

Fortunately it has allowed me to give some advice for those who've considered and who've had abortions.

11. Based upon your experience, what would you tell a woman considering abortion?

Because of my relationship with God I would tell them that God is the giver of life and he doesn't make mistakes. I would also tell them to lean on God and good friends and family and decide not to abort. Giving a child up for adoption is a good alternative for those who don't want to raise a child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

When pregnancy is the result of stupid mistakes a person shouldn't be allowed to abort as their easy

way out. Too often we want to commit the crime but we don't want to do the time.

I called, they asked how far along I was, gave me an appointment and told me the cost.

5. Were you adequately informed of the consequences of abortion?

Yes No

They actually seemed to want to convince you it was O.K. While on the table I panicked and asked, what if something goes wrong because I was afraid that it may just hurt the baby. I started to get up but a needle was pushed into the top of my hand and I was out immediately. I have no idea what was in that needle. When I woke up, the abortion was over.

9. How has abortion affected you?

I cried for days. I have NEVER gotten over it. I think about it all the time wondering if it was a boy or a girl, what they would look like, what would they be doing today. What will I say to them when I see them in the hereafter, will they be able to forgive me? I've always felt it was a little girl and I will never be rid of the guilt.

10. How has your abortion affected others in your life?

No one else knows.

11. Based upon your experience, what would you tell a woman considering abortion?

Think about it, if you just can't raise a child. What about adoption?

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It should not be legal. It is a crime against another human being and yourself. It is also a spiritual sin against God. It effects your soul permanently.

10. How has your abortion affected others in your life?

I have a part of my life that I keep in reserve from my children. It might have even affected the relationship between myself and my husband.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not ever have an abortion. You will regret it for the rest of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It should not be legal, because it causes too much emotional pain afterwards. It ruins a person's life.

regular

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

There was a tv on at the time with info.; however, I was not in the right frame of mind then and did not process it all.

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my husband made the arrangements

9. How has abortion affected you?

Immediately afterwards I fell into a deep depression; I could not sleep or eat. My relationship with my husband spiraled downwards and in less than 1 year we were seperated. Eventually 2 years later, we divorced. My husband has never been able to deal with the guilt. Only through God's grace have I been able to forgive and share with others. It took a long time though, and the pain was alot to bear in those years.

10. How has your abortion affected others in your life?

My husband has never dealt with the guilt of it all b/c of how it affected me.

11. Based upon your experience, what would you tell a woman considering abortion?

Please do not do it! The temporal solution is not worth the long term affect. It is something that will live with you forever and affect you in many ways. Life begins immediately--do not be found guilty of this horrible option.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should not be legalized b/c life is so precious and begins immediately. In allowing abortion, we are allowing others to play God and are providing quick solutions that have lasting affects--devestating affects. I now have a child and when I look at her, I often wonder of the child I aborted. I wasted that life b/c it was easy to obtain and chose a temporal solution over being responsible.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of GA

County of Fulton

My name is L B I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Columbia SC

02/27/1977

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

vacuum suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I did not know how developed my baby would be at that stage of development. I did not know the physical pain I would suffer. I did not know how the baby was just flushed down a garbage disposal.

5. Were you adequately informed of the consequences of abortion?

Yes No

Again, I did not know how much pain I would endure, nor the risk of bleeding. I did not know it could affect my future pregnancies. I ended up with complications and had to have c-sections.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

parents

9. How has abortion affected you?

I have never recovered fully from it, even though it was over twenty-three years ago. Emotionally, I have suffered from depression, eating disorders and low self-esteem as a result of knowing I had my unborn baby murdered.

10. How has your abortion affected others in your life?

I broke off the relationship with the father of the child, even though I loved him more than anyone in the world. I was angry at him for not marrying me or encouraging me to keep the baby. I have never been able to really be close to others. I ended up marrying and divorcing four times, because I let others use me. I picked men who ended up being abusive in order to punish myself.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT. YOU WILL REGRET IT THE REST OF YOUR LIFE. No matter how tough it might be to

go through a pregnancy, there are always options and people to help. Adoption is the loving choice. It is the unselfish choice. It is the moral choice. Actions have consequences, and if someone gets pregnant, then the choice is made. It is not a punishment to give birth and put a baby up for adoption. It is not the baby's "fault" his parents had sexual relations.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is out and out murder. Our nation has allowed and perpetrated the murder of the unborn for profit, and in the long run it is part of the reason for our economic collapse. You can't destroy that many future taxpayers and not suffer the consequences. You cannot murder and continue to be a moral country. Our society cares more for the rights of terrorists and perverts and criminals and endangered animals than it does for human babies. Shame on them for allowing it.

Emotionally, and also has empowered me to inform others of the truth.

10. How has your abortion affected others in your life?

My family will never experience the joy of that one precious life

11. Based upon your experience, what would you tell a woman considering abortion?

That there are life long consequences, that there are real dangers to their physical and emotional self and that there are truths and facts and hope to rely on.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it is not part of a womans body, for if it is a male it has a penis, that it carries the blood of his/her father and that the physical and emotional evidence of having an abortion can not and must not be

denied.

Boyfriend, Mother and Father

9. How has abortion affected you?

It has been 9 years and I still battle depression over the event. I also have panic attacks thinking about that day. I am now married to the father of that baby and I am so angry with him still that our marriage is all but a joke. Every relationship I have was affected. It was the most horrific thing to ever go through.

10. How has your abortion affected others in your life?

I have children now and it is hard to look at them and know what I did. My relationship with my children is affected and it hurts me to think that it does affect them.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't. Please, please, please don't. You will thank yourself for having the child. I would give everything to go back to that moment and leave that clinic, to stand up for myself and say no.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

The only thing planned parenthood or any other organization cares about is the money. They don't worry about the devastation that abortion leaves. No one offered me any conseling or anything to help me through this. They took my money , killed my child and I am let with the pieces.

Memphis TN

08/10/1984

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

The least invasive

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No, I did not know that the babies could feel pain. I did not know any of the fetal development.

5. Were you adequately informed of the consequences of abortion?

Yes No

I did not know that 25 years later I will still be constantly remembering... constantly ashamed. It greatly affected my self esteem.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It did not really hit me until I was in my 30s of the enormity of what I had done. I did not realize how precious life was until I lost a child. I wish I had been told of the resources available so that I could have continued college.

10. How has your abortion affected others in your life?

I don't know I still keep silent.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't! It was the greatest mistake I have ever made.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The Roe Vs Wade slipped under the radar, however, true choice is not offered at centers. Adoption, Agencies that help in crisis pregnancies are not discussed. I feel that all the options should be

presented... just as they are on other surgeries.

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

1973- Planned Parenthood offered no information about what I was doing to the child. The abortion mill they referred me to did not either- they said nothing.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no information about the consequences other than the fact I would no longer be pregnant and "problem" would be resolved.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

The father of the child

9. How has abortion affected you?

I became anorexic, numb to feelings in general, filled with guilt and remorse, felt I had done an unforgivable thing. Found intimacy with husband almost impossible. I am twice divorced and still find intimacy and trust very difficult to achieve.

10. How has your abortion affected others in your life?

My guilt and regret put barriers between my living children and myself. I expected perfection from one child due to thinking she might have replaced my aborted child who never had the chance to experience human existence. The feelings of abandonment due to the father's lack of owning his part of the pregnancy, have been a major factor in failure of both marriages I believe.

11. Based upon your experience, what would you tell a woman considering abortion?

For goodness sakes do not do it. You will live a lifetime with regret that will be numbed in some form

possibly addictions, overprotecting living children, intimacy problems, just learning to live with a great big ugly secret and the aloneness that goes along with that. It may be very painful to give a child up for adoption, but you will have a clear conscience and the chances of good mental health and good interpersonal relationships will be so much greater!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is a choice no women in that vulnerable emotional state should have to make. She is having to choose between her survival and the survival of her child. Most women in that predicament do not feel they have a choice. If it was not a choice and one that benefits planned parenthood, the abortionist, and usually the father that does not want to take responsibility I know it is one a women would never make. Our bodies were designed to carry new life not to kill it.

HOW MY ABORTION AFFECTED ME

The State of GA

County of Cobb

My name is V W I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Atlanta GA

12//1978

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

unsure. I believe suction and D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I received NO counseling at all at the abortion clinic re: the "procedure," options other than abortion, etc. It was sign here, give me your money, get on the table.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had NO idea how my abortions would continue to affect me to this very day. I've hated myself, abused drugs, alcohol, sex, you name it, trying to punish myself. I thought I was unworthy of motherhood and do not have a child to this day. It was only after experiencing a Rachel's Vineyard weekend and receiving spiritual and emotional healing that I even considered trying to give birth and become the mother I was meant to be back in 1978. By then I was in my 40s and couldn't get pregnant.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

See above. I punished myself for years. I thought I was crazy. I always felt ashamed. Very few people know about my abortions to this day. I abused drugs, alcohol, had promiscuous sex, moved away from my home and family, left my church, did everything to separate me from the "good" people I didn't deserve to interact with. Thankfully Rachel's Vineyard offered a healing after abortion retreat that restored my faith in God and myself.

10. How has your abortion affected others in your life?

I'm very secretive, I still don't believe or understand why my husband loves me. I've lied to my parents forever about my desire for children. I keep people at a distance because I don't want them to find out

about the real me.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. Abortion will haunt you for the rest of your life. My favorite bumper sticker ever (though it was very difficult to read through my tears) said: Abortion stops one heart from beating and breaks another heart forever. That is so true. There is not one day that goes by that I don't wish I could go back and NOT have an abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If it's legal, people think it's okay. It's legal to drink and people drink and drive. That kills people too. Just because something is legal doesn't make it just, right, good for a human. Maybe if I'd had more time to think about what I was doing and maybe if abortion had been illegal in 1978, I would have wondered WHY it was illegal. And maybe I wouldn't have found anyone to kill my child at my request and maybe my children would be alive today and I would be whole today. Maybe....

QUESTIONS

1. Where and when did your abortion occur?

Tuscon AZ

07/26/1980

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

surgical suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No. I was only told that the fetus would be removed by suction. No more explanation that that was given.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was given no pre-op information about complications, physical or psychological

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I became withdrawn, unable to maintain relationships, lost all self-esteem, have suffered from depression, anxiety, and panic disorder and withdrew from God.

10. How has your abortion affected others in your life?

Affected my ability for intimacy with my spouse. Caused me to become overprotective with my children. Left me spiritually bankrupt.

11. Based upon your experience, what would you tell a woman considering abortion?

Explain all the consequences.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

All physical and psychological effects of abortion need to be looked at carefully in an unbiased manner. The statistics related to the number of suicides, drug and alcohol addictions, cases of depression, child

abuse and neglect, and other consequences of abortion speak for themselves. These are a reality.

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

Never told about the emotional or mental affects I would encounter afterwards. Not told how my physical body would recuperate just that I would heal in 4 to 6 weeks and have normal cycles. It was my understanding that it was a blob and not a baby and would feel nothing!!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

When I was 18, I couldn't function well @ college, After a year I joined the military to get away from the bad memory of what I had done.I had horrible nightmares of a baby screaming and I thought I would have deformed babies in the future. I became distant with others. Guilt consumed me, I had suicidal thoughts.

10. How has your abortion affected others in your life?

I don't think it did really, because I was young and not married. The foster family that raised me was a Christian family and they were against it but told me it was my decision and I would have to live with it.

11. Based upon your experience, what would you tell a woman considering abortion?

PLEASE seek another way...adoption or family member to adopt the baby. It takes years to overcome the terror and trauma an abortion brings!

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Never legal!!! Only when a mother's life is at stake because the healing process takes years and it can cause emotional and mental scars that carry over into future marital/family relationships.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of GA

County of Coweta

My name is Marcia I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Orlando FL

11/09/1983

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was taken to a Dr. that was a personal friend of my boyfriend at the time. I didn't know him at all. I was just sent there to have the abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nothing was discussed with how the procedure would go. I was put on a table , given N2O and was told I would hear a suction sound like a vacuum cleaner and feel pressure in my uterus. That's it!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend

9. How has abortion affected you?

It's been the most traumatic experience I have ever faced. I hide the secret and suffered the consequences. This incredible burden has been carried with a smile on my face. That was my protection so know one would see the pain I was feeling.

10. How has your abortion affected others in your life?

It's made me very sceptical of people. They were all out to hurt me. I struggle with seeing the good in people. I have had to learn to trust men again. My poor husband has taken the brunt. I can see where divorce comes in to play.

11. Based upon your experience, what would you tell a woman considering abortion?

It's not the end all to the situation. There will be consequences no matter what decision you make. I also gave a baby up for adoption after my 1st abortion. It doesn't compare to the pain of aborting my innocent baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

When does life begin? For me it's at conception. What is the moral issue?

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of GA

County of Cobb

My name is A G I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Winston-Salem NC

11/17/1993

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea what the repercussions would be like afterward and was not informed at all.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

For many years, I questioned my value and self-worth. My entire perception of my life and the world got distorted for many years. I've dealt with trust issues, because I cannot trust myself to do the right thing. I still struggle with intimacy issues at times. I lived in a black hole for a long time where I only recognized and accepted the bad things in my life-- I couldn't see the good stuff. There was fear after the fact of getting caught. I've since sought healing and now facilitate the healing of others who are post-abortive, but it's still a shameful, harmful experience. There are two victims in every abortion-- one who dies and one who wants to afterward.

10. How has your abortion affected others in your life?

Abortion impacted every area of my life whether I recognized it or not. I closed off from others and distanced myself from those I was once closest to. My relationships were and sometime still are strained. I hid the horrible experience from others and it's hard to live fully and freely when you're hiding the fact that you're a murderer. Just as I wouldn't want my parents, family, and friends to know that I killed a living person, it's the same with an abortion. People can sense the strain whether it's discussed or not.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT!!!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should not be legal. Just as murder should not, neither should abortion. It is the same. Let's focus on prevention and chastity, healthy views of sex and sexuality, not elimination of "mistakes". This is an economic decision as well as a moral one. I haven't reached my career potential or my personal potential because of abortion. If I reached my potential, presumably, I'd help drive the economy more through higher spending levels due to higher income. With all the people who've been impacted by abortion, our economy might look a lot different. The money gained by abortionists and others involved adds little to the economy by comparison.

Yes No

I believe I grew up almost "brainwashed" to believe that life had not really started. So far from the truth!

5. Were you adequately informed of the consequences of abortion?

Yes No

Not told of the extent of the spiritual and emotional toll this action would have on my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

crippling guilt extreme sadness loss of a child at my own decision separation from God

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her my experience. I would tell her my regrets. I would tell her about my now 13 year old son who is not with me, who I never held, kissed or told how much I love.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If a country is going to be pro-woman pro-human; it would be pro-life. Life is beautiful. It is to be respected. It is not to be eradicated in any unnatural way shape or form.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of GA

County of Fulton

My name is Kathryn Siegel. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Atlanta GA

//1973

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Doctor only informed me it was legal now, but not to wait too long making the decision. (my abortion was shortly after Roe vs Wade was legalized--I do not remember the month and day--also, I found out during my annual check-up, so I had it done at my doctor's office, not a clinic).

5. Were you adequately informed of the consequences of abortion?

Yes No

Not until after the procedure was I told to expect I might have some cramping. That was a huge understatement! I awoke during the night to such pain that I considered going to the hospital. That was the only thing I was told.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Although I had no formed idea of "it" being a baby yet; I was devastated at the guilt and loss I felt. The self-loathing and disgust at myself (not to mention the years of recurring nightmares) was so hurtful to my self-image and psyche. If I hadn't been able to go into denial (being able to forget about it until the topic came up in some shape or form - when someone at work, or a friend had a baby), I would have done anything to stop thinking about it, for when I did I felt so bad, I would have done drugs, or perhaps even suicide to stop the pain.

10. How has your abortion affected others in your life?

In so far as it affected my character in such a deep and secret way, it had ramifications in all my relationships.

11. Based upon your experience, what would you tell a woman considering abortion?

That whatever consequence, inconvenience, pain and suffering she feels she will avoid is nothing, absolutely nothing (underscore & bold this word) compared to how she will feel afterwards.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it shouldn't. It goes against our own nature. This is apart from any religious argument. The years of suffering I have endured, and how it has affected my life should not be sanctioned legally under any condition. I thought I had dealt with it, but now realize I had just gone into denial.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I do not feel that I was explained to that the baby was more than just a body, but too, a soul, that was even deaming at this stage in it's young life.

5. Were you adequately informed of the consequences of abortion?

Yes No

I believe that I was informed of the immediate effects of abortion but not the long term affects of the loss of a child, who will forever remain a member of my family.

6. Were you informed of any link between abortion and breast cancer?

9. How has abortion affected you?

I am deeply grieved of the loss of my children and have experienced many affects on my life including past and present relationships and mental health.

10. How has your abortion affected others in your life?

They are angered about abortion and that it is an option for women and have struggled with resentments and guilt.

11. Based upon your experience, what would you tell a woman considering abortion?

I am pro-life and will only advise against abortion for both the mother and child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe that abortion should become illegal because every citizen of the United States deserves the right to life through freedom and justice. Efforts should instead be funded for unplanned pregnancy and pre-natal education, care, and support.

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't remember all that they told me. They did not offer much in the way of psychological and emotional information or support.

5. Were you adequately informed of the consequences of abortion?

Yes No

No, no one told me that I would get an infection or that I would have trouble with this the rest of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I really miss my child. I never married or had any other children so for me it was a final decision that had a myriad of emotional and practical consequences. There is always a sadness in thinking about it and although I have received a great deal of healing for it, I know it will never be quite right until I die.

10. How has your abortion affected others in your life?

My family is missing a niece/nephew/grandson/grandaughter. The world is missing this child and what they could offer.

11. Based upon your experience, what would you tell a woman considering abortion?

No, absolutely not.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That we are truly killing a God created person with gifts and talents that the world needs and has a right to.

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

For 10 years I lived a life of pain and self-destructive behavior. The abortion haunted me.

10. How has your abortion affected others in your life?

It robbed my three children of a sibling.

11. Based upon your experience, what would you tell a woman considering abortion?

It's not the right choice. I would tell her that she will be negatively affected in every area. That the regret never goes away.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Same as above. That women are being lied to and that the court has an obligation to see that the truth is told.

3. What type of abortion was performed?

suction, vaccuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was never told that this was a baby, a life, with a heartbeat. I was not informed of how the procedure would be done.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never told that I would immediatly regret my decision, that there were ways to keep my baby. I was not told of the depression that would follow me for over 20 years. that I would always feel that loss, that although I have 4 children that I will always feel that one is missing.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

not a day goes by that I dont think of the mistake that I made in aborting my baby. I would give anything to have chosen life for my child, not to have the hole in my heart that was left that will never be filled. It is ALWAYS there.

10. How has your abortion affected others in your life?

it has caused some distance with my first child, thinking that I was "replacing" the child that I lost, it took me years to understand that there is no replacement and he has suffered because of my inability to understand that. along with the depression that I tried to hide from him.

11. Based upon your experience, what would you tell a woman considering abortion?

There are wounds that you will carry the rest of your life that are not visible from the outside. I would tell her that I would take her in and take care of her, anything she needed. Please don't do this to another

life!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

listen to the millions of women living with the regret and pain of abortion. IT IS A LIFE NOT A CHOICE!!!!

Anxiety attacks, depression, marriage issues, sexual issues

10. How has your abortion affected others in your life?

My husband since we have marriage issues. Children with my anxiety attacks.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to do it. It is not worth the emotional consequences, it is something that you live with the rest of your life. Adoption is a great alternative.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion hurts our society, men and women are suffering because of this. It is destroying our marriages and our children. If they have not had one they can not know what it is like to live with this decision. It should not be a choice the child should be born.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

they never really explained exactly what they would do, how the baby would be removed

5. Were you adequately informed of the consequences of abortion?

Yes No

they did the procedure and then did it again explaining that I was further along than they thought and didn't "get it all" the reality of what I had just done hit hard, I went home and tried to kill myself, I had complications and infections that according to my gyno latter, rendered me sterile.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my boyfriend at the time

9. How has abortion affected you?

I have deep regret for what I did, about six months after, I gave my life to Jesus, it took awhile to realize that He forgave me and then for me to forgive myself. I consequently became Very involved in the Pro-Life movement-even holding signs and praying in front of the very place where I had my abortion. I still go to the March For Life Walks in Atlanta.

10. How has your abortion affected others in your life?

God brought me a Godly husband 4 years later who knew my past and still married me knowing we probably wouldn't be able to have children. But God is AWESOME! He blessed us with not 1 but 2 fine sons! They are now 17 and 15 PS My husband's Mom was raped when she was 15, he is the result.

11. Based upon your experience, what would you tell a woman considering abortion?

You might think there is no way that you can handle a baby and you think taking its life will make

everything okay, but it doesn't. The memory will always be there, the regret WILL come eventually. Trust in God, he will make a way when there seems to be no way. Above all, God loves You, God Forgives You! and God can Heal You!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

EVERY baby deserves to live! Aborting a baby solves nothing! Our constitution applies to everybody whether they are in the womb or out of it. Killing an innocent child because of a mistake, bad judgement, rape, or if they are not "perfect" is just wrong!

QUESTIONS

1. Where and when did your abortion occur?

Atlanta GA

//1980

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told that it was a baby, but just a bunch of cells.

5. Were you adequately informed of the consequences of abortion?

Yes No

I never realized that I would suffer depression, pain, guilt, shame, regret, loneliness, resentment, etc. I was not told that it could have been detrimental to my health either.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My fiance - who I married a couple of months later

9. How has abortion affected you?

My life fell apart that day. For 27 years I lived with depression, anxiety, guilt, shame, debilitating illnesses, resentment, pain, low self-esteem, sadness, regret, and anger.

10. How has your abortion affected others in your life?

It has left my parents with no grandchildren and me with no children. My husband and I divorced after 2 1/2 years. He carried guilt around with him for many years also.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT!! Don't kill your child. Don't take away the miracle that God has given you. Even if you don't want the child, you can give it up for adoption. There are many people out there that could give your child a good home - all you have to do is give it "life".

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

It is wrong. It is the shedding of innocent blood. It tears your life apart and causes physical, emotional, spiritual and mental scars. Pro-choice is not an option - ever.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of GA

County of Dawson

My name is Kerri Parson. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

North Charleston SC

09/25/1984

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I knew it would end my pregnancy, no one ever told me what to expect before, during or after the abortion or how it would affect me physically or emotionally.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told nothing, absolutely nothing. I was told to change into a gown, get on the table, taken to the recovery cot afterwards, given prescriptions and that was it.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my grandmother

9. How has abortion affected you?

I was emotionally broken after the abortion. I was self destructive, abusing drugs and alcohol, living a very dangerous life and was deeply depressed.

10. How has your abortion affected others in your life?

My boyfriend at the time never offered any type of support or to help me keep my pregnancy. He didn't seem to really get what happened. My family watched me self destruct without helping me. I have a wonderful husband who helps me to deal with my feelings which still haunt me.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell any woman considering abortion to fully understand the growth and development of the baby she is carrying and NOT to have an abortion because it will ruin her life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I cannot understand how any court can deem this procedure legal and that a woman has the "right" to terminate her pregnancy. This is murder and I don't know where in the Constitution it says, "you have the right to end a life". Reverse Roe v. Wade, it is wrong.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of GA

County of Dekalb

My name is Julie Bugg. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dekalb GA

02//1991

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

vaccuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Noone talked to me about the procedure, except that it only took a few minutes.

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The abortionist

9. How has abortion affected you?

It was 20 long years of hiding, and being ashamed. It separated me from God, and the healing is ongoing....

10. How has your abortion affected others in your life?

We now have learned from my spiritual experience and pain. I continue to teach my children not to do what I did...My oldest daughter was 16 or so I told her about my abortion. She immediately began to cry very hard, like I had never seen her do before, When I asked her why she was crying, she said,"I could've had a brother or a sister mom!" We pray for my child "Candis", and we know that she is part of our family. Any mother that is seeking abortion, or even purchases a pregnancy test, gets questioned from me..."and what will you do if you are pregnant? You know it is a baby right? so if you are pregnant, then you tell everyone...I'm having a baby!"

11. Based upon your experience, what would you tell a woman considering abortion?

What is the problem that you feel is so big, and so unsolvable?...Let us help you with your problem....let us help you choose to be a mother...choose life for your baby and life for your soul...This

baby is not a recipe, it is already growing!!!. Our children are gifts from God, and we should accept this child as if it were Christ himself, because what we do to the least, we do to him. Abortion didn't solve my problem, but only made my problem much worse. As a mother, we are not the only one losing this child, perhaps we are taking the child away from it's father, brother,sister, or grandparents. For most sins, we can say we are sorry, and we can change things,but once you lose your baby, you can never get it back, never hold it, never see it grow.... until heaven....For me, it was 20 long years of hiding, and being ashamed. It separated me from God, and the healing is ongoing....We can help you carry your cross...to make your problem lighter...if you will choose life for yourself and your child...

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That God came to heal me, with the hand of Jesus above my head...from the terrible sin of abortion...We young mother's are afraid, we are blind, we don't see, we don't have anyone to turn to, we are desperate and we listen to the wrong people. We walk into the clinic, we need them to lead us...to love us...to help us...no matter what we say, it is only a cry for help.....blindly we take their hand...blindly they lead us, into a dark pit...they lead us into death...which we don't fully understand until it is too late...and can never be undone, until heaven... .. Then we spend the next decades of years trying to survive the hurt, the loss, the confusion, and the spiritual battle of our soul...Thank God that he is Merciful....for those of us that choose abortion, thank God that he is Merciful... Thank You Father, for loving me....

8. Did anyone pressure you into having an abortion?

Yes No

my ex husband

9. How has abortion affected you?

felt guilty for decades now, ashamed, wont talk about it to anyone. Not even my present husband, or family members.

10. How has your abortion affected others in your life?

Am very hard person to get close to. Never have told anyone my deepest secrets. Am afraid they will think I am a baby killer, an unfit mother. I dont trust others, therefore it is hard for people to get close to me, and has affected my relationships (relatives and friends)

11. Based upon your experience, what would you tell a woman considering abortion?

Not to do it. If you cant afford the child, then give the baby up for adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

We could have had over 51 million more tax paying citizens now. Millions of women wouldnt be going through being depressed, feeling guilty and shame all these years.(affecting their marriages) Nevermind the women who have died during and after the abortion.

HOW MY ABORTION AFFECTED ME

The State of GA

County of Cherokee

My name is Teresa Scarber. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Atlanta GA

04/01/1981

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Dont remember / the date I entered is incorrect, because I really have no idea of the date.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I do not remember anyone explaining that there could be complications.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has been used to inflict guilt and pain, because the person inflicting the pain understood that that was an area in my life they could stick the knife and make the wound big enough to cut my self esteem away.

10. How has your abortion affected others in your life?

Very few people know.

11. Based upon your experience, what would you tell a woman considering abortion?

That they are never going to get over the void they are going to create if they get one. That society now is more interested in the almighty dollar, over human life. That they should reconsider lining dumpsters with their own flesh and blood. That God says there is a sole at conception.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that women are not cattle for the slaughter. We were herded in a pen waiting for the butchers assistant to call whoever was next. Oh, they made it all seem like a natural doctor visit, but

when you are sitting around chatting with other women all dressed alike you realize this is simply money pit, and that you are the cash cow. You dont run out because by this time you are too invested and the guy sitting in the waiting room is not going to be very happy you didnt go through with it. The counselors do not refer to the life inside of you as being a baby, they call it tissues. After an individual session with the counselor we all get dressed in the same gowns, wearing the same slippers, with our cloths in the same kind of bags. Its that instance that you realize you mean nothing to these people that have herded you in there for the slaughter. If this so called choice had not been available I would know my child's name right now. I would tell the court that there will be allot of women carrying around quilt and having low self esteem and there might not be enough Christian around to let them know that they can be forgiven if they would ask God to forgive them.

QUESTIONS

1. Where and when did your abortion occur?

Oakland CA

10/12/1978

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No detail information was given other than it would terminate the pregnancy.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed of the symptoms related to post abortion distress. The emotion/psychological that was accompanied with guilt, sorrow, depression, anguish, regret, despair, bitterness, anxiety, anger, self-condemnation, unworthiness, frustration, fears of infertility, crying spell that I would have for 16 years following my abortion, hatred, preoccupation with anniversary date or due date, remorse, hopelessness, helplessness, grief, rage, shame, flashbacks and nightmares.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Father of the baby

9. How has abortion affected you?

I cringe at the thought of abortions, I am pro-life, there are times of flashback of the suction ripping my baby apart from my womb sickens me and I weep for hours to this day. Helpless, I hate the fact that I was not informed of the aftermath.

10. How has your abortion affected others in your life?

My Mother, a grandchild she never got to hold and cuddle. My sibling, and relatives says I cut our family short. Many were grieved of taking the life of an innocent and helpless baby in the womb.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. you will regret it for the rest of your life. you'll never know the plans God has for this unborn

child He created. You'll never know or have a mommy relationship. Children are a blessing. God hates hand that shed innocent blood. The community of faith is charged with defending life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

God created us in His image, God had plans for us before we were born Isaiah 49:1,5 David discusses the spiritual state he was in before he was born psalm 51:5, Jacob and Esau were distinct individuals before birth Gen. 25:22-28, Samson's mother is told to alter her diet while pregnant because Samson, the child in her womb, is to be consecrated unto the Lord, Here is a direct concern for the life of the preborn Judges 13:2-5, God the creator of all things gives identity to preborn human life. In psalm 139 says the spiritual relationship the psalmist has while in the womb. "The psalmist surveys his life in four states: past, present, future, and before birth, and in all four refers to himself as "I." He who is writing as full-grown man has the same personal identity as the fetus in his mother's womb." Human life is valuable Gen. 1:26-27; Psalm 8:4-5; Job 31:13-15, Taking the life of an preborn baby is an assault against human life and is considered by God and assault against Himself. To murder a person is to attack one who is the image-bearer of God. Homicide is regarded by God as an implicit attempt to murder God. Human life begins at conception.

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was a college student. I was told I that this was the smart thing to do since I was a self supporting student.... that this was only a blob of tissue,,,,,,a simple procedure, and there would be no bad after effects.

5. Were you adequately informed of the consequences of abortion?

Yes No

The "nurse" glossed over the whole thing....it's just a blob of tissue. The procedure is a simple one. You will be back to normal in no time. There are no after effects. Nothing was mentioned about what I would actually experience: the decades of depression, self-hatred, suicidal thoughts (very close to attempting), inability to have normal, loving relationships with others,....the panic that I would not be able to conceive. When pregnant with my subsequent children, I was in terror that they would not survive pregnancy ...that they would die either in the womb or later on because of the terrible thing I had done to their older sibling.....thousands spent on counseling, alcohol, drugs...the list goes on and on

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

mother's words years earlier (always protect her)

9. How has abortion affected you?

It has very negatively affected me. For years I had horrific nightmares, panic attacks, depression, nearly committed suicide a few times....very fearful, hyper sensitive. ...in and out of counseling, post-traumatic stress disorder etc. Before tons of counseling, healing experiences etc., I could not be around babies and small children - it was too difficult, too guilt provoking, too sad.

10. How has your abortion affected others in your life?

The man who took me to have the abortion and I married and had two children. We later divorced when I sought healing from the abortion experience. The family unit was broken.....we were all hurt in the process. My oldest son seems to suffer most from panic attacks etc., it seems he has a sense of the death that lurked in my womb.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. ...you will never be able to undo this act of desperation. You will regret it every moment of your life. Your life will change and none of those changes will be good. You will go in there as one person, and you will come out a totally different person.....your innocence will be lost.....your humanity will be lost.....you will come out like a robot that yes you will be living and breathing but without a soul, without a conscience, a shell of a being who has lost themselves to something evil.... you will be a being devoid of feeling emotions as before...you will be like a dead person walking around.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should never be legal. It destroys women. Women are biologically created to be mothers, nurturers, caregivers, nurses, teachers not murderers. It goes against what is innate in a woman. Killing one's child that is conceived and growing in one's womb is comparable to self annihilation..only worse. As toddlers and throughout our lives, girls carry baby dolls, play house etc. So there is nothing worse than finally waking up and realizing that you killed your own child ...that you were convinced by others that it was not a child, that the law said it was okay to do (back then you thought the laws protected people)....the very child you had prepared for and longed for all your life ...from your toddler years to your adulthood.....is dead because you trusted the words of others.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of GA

County of Henry

My name is Nancy Fabbri. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Atlanta Area GA

//1963

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

I am not sure. Cuttage, probably.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Back street abortions were performed upon request for a price. The doctor had helped my friend.

5. Were you adequately informed of the consequences of abortion?

Yes No

Young women had the choice of loss of reputation of self and family to carry the baby. (Florence Crittendon Home for Unwed Mothers. Or an abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Myself--I felt I had no choice.

9. How has abortion affected you?

I felt guilt. I was suicidal. I was afraid that I would pay for my sin.

10. How has your abortion affected others in your life?

I told my husband about my abortions expecting him to leave me. For years when I had my first two children, I expected them to die for my choice of murder.

11. Based upon your experience, what would you tell a woman considering abortion?

I do tell women that the child is a person who deserves to be safe in the mother's womb. There are consequences for killing that child regardless of what the court says.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is the murder of a United States citizen who has the right to the pursuit of life, liberty and

happiness as God given rights through our Constitution. That person is owed protection in the womb of the mother. Abortion is not contraception; it's murder.

HOW MY ABORTION AFFECTED ME

The State of GA

County of Cherokee

My name is Cindy I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Gainesville FL

08//1985

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

suction/curretage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was just tissue.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had to have an ultrasound. I saw my baby moving. This was my 4th and last abortion. I knew what I was doing and cried thruout the procedure. I had two young children. I was divorced and current boyfriend would not marry me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my boyfriend

9. How has abortion affected you?

I battle depression and anxiety, deep sense of loss, abandonment issues. After the abortions I numbed myself with marijuana, drugs and sex. I've always had a difficult relationship with my son. Overprotective of my daughter. Nightmares infrequently. I am saved now,since 1985, and have been thru several PA Bible Studies. When I became a grandmother, the reality of my choices to abort hit me all over again, especially as I held my newborn grandchildren after watching them being born. Abortion is the choice that never leaves you.

10. How has your abortion affected others in your life?

My very first pregnancy was in 1969-1970. Before Roe vs Wade. I went to a home for unwed mothers and placed my firstborn son for adoption without ever seeing him. After that, I went into a state of denial and addictions which led to a sinful lifestyle and 4 abortions. In 2006 I was re-united with my son. We have a growing, but not perfect relationship. His adoptive mom is alive but very ill. I keep a respectable distance.

11. Based upon your experience, what would you tell a woman considering abortion?

Please do not abort your baby. It is not the easy, safe way out. It will haunt you the rest of your life.
Get help at a CPC. Choose life for your baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The baby is a totally separate human being dependent for life upon it's mother. The baby has its own blood supply, it is not a "part of the woman's body" It is a separate human being. This saying is true:
Abortion equals one dead and one wounded.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not counseled before laying on that table. They took my money and that's it.

5. Were you adequately informed of the consequences of abortion?

Yes No

I naively thought I would be sent home because I was "too far along". I had no idea what was happening.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

boyfriend at that time

9. How has abortion affected you?

I became addicted to drugs and alcohol for some years. After getting clean I still had feelings of rage and depression.

10. How has your abortion affected others in your life?

I kept my distance from my family. Then I met my husband and started my own family. I still struggle with feelings of guilt and anger. I try very hard not to take it out on those who love me.

11. Based upon your experience, what would you tell a woman considering abortion?

I would say don't do it. Because it ruined my life for a very long time. And even after so many years I suffer the consequences of that decision. A decision that I regret every single day of my life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say, how can murder be legal? Who is protecting the baby?

HOW MY ABORTION AFFECTED ME

The State of GA

County of Candler

My name is Charlene I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Augusta GA

//1978

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

Suction Aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it would get rid of the "unformed blob of tissue"

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told that aside from the small risk of any medical procedure, there would be no consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I felt such a sense of self loathing that I entered a lifestyle of unrestrained sexual activity that led to drinking and drugs. I live with the knowledge daily that I killed a human being.

10. How has your abortion affected others in your life?

I never told my parents but I did tell my husband before I married him and have told my daughter and niece in the hope of making them understand the consequences of pre-marital sex.

11. Based upon your experience, what would you tell a woman considering abortion?

That it's something you will never forget or get over, even if there are no physical consequences. You will live with it daily whether or not you believe it's wrong or okay. My best friend "says" she believes it's okay and would do it again, while at the same time, she is ashamed to admit to anyone that she had one. I became a Christian in 1994 and know that I'm forgiven, and yet I still live with the knowledge of what I did, EVERY SINGLE DAY.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I understand that abortions occurred before it was legalized and that many women were physically harmed and even died as a result of a botched backroom abortion, but there are so many people who cannot have children that would love to take these babies. Also why not educate girls and boys with the truth to begin with? Look at all the rampant disease and crime that is a direct result of pre-marital sex. Don't allow the murder of children who cannot defend themselves. If I had been given true information on the baby's stage of development and been told that there was a heartbeat, if I had been offered the opportunity to hear the heartbeat, I don't think I would have gone through with it. Instead I was encouraged to think of it as a blob of tissue with no defining features.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of HI

County of Honolulu

My name is Rebecca Kikugawa. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Miami FL

05//1982

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I just remember them asking me to fill out a form and sign it. There may have been some instructions on that form, but I don't remember them. No one really seemed to care about me, just get me checked in, perform the procedure, and then to recovery. I remember being in recovery a long time, throwing up alot. And the nurses kept coming in telling me that I should have been out of there right away. I remember them telling me that I shouldn't have been throwing up as much as what I was, and that I needed to stop making myself throw up. (Right after the procedure I remember feeling such great guilt, and a depression that I had never experienced before.)

5. Were you adequately informed of the consequences of abortion?

Yes No

Again, I really don't remember what was on the forms that I signed (my abortion happened back in 1982), but I don't remember anyone personally telling me about the consequences of an abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

For many years I was quite depressed - especially whenever I heard the word "abortion". I was not prepared for the emotional devastation that I would feel after it was over. I just kept telling myself that I wasn't doing anything illegal. (I was very much into black vs white; illegal vs. legal; right vs. wrong.) So when my decision to have an abortion was based solely on the fact that it was legal, I had never even

taken into consideration how I would feel after it was done - nor did anyone at that abortion clinic prepare for that either.

10. How has your abortion affected others in your life?

It took me many years to forgive myself for having chosen and following through with that abortion. And during that time I would get depressed, especially during the month of May when I had looked at the month as the month that I had given permission for my baby to be killed. This greatly affected my husband! I did not tell my children (I had 4 children after my abortion) until they were older. Thankfully I have come to accept the Lord's forgiveness for my abortion, and I can't even begin to tell you how freeing it was the day that I finally allowed to accept His forgiveness. That was the day that I accepted the Lord into my life, and my life hasn't been the same since. I do still get sad every May for the choice that I had made, but it no longer punches all the air out of me when I do think about it, for I know that the Lord has given me His peace!

11. Based upon your experience, what would you tell a woman considering abortion?

I actually was able to share with a young woman who had considered an abortion - and I when I shared with her the consequences of depression and sadness that followed having an abortion (an abortion can be completed in a day - but the negative effects of an abortion can last a very long time, if even not for a lifetime). I also shared with her that I wished that I had had someone inform me of the emotional devastation that I would feel afterward, for I was not prepared for that at all.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Personally, if abortion had never been legal, I would have kept my baby and would have never had to experience the depression and sadness that came along with that decision. I thought that by making that decision, my life would be less complicated, but nothing could have been farther from the truth. The consequences from that one decision have affected me every day from the day that my abortion was done. That baby was a life within me and I gave permission for it to be killed! How can you say that that is legal?! To take someone's life has never been legal! Every embryo is the beginning of someone's life - changing the name from fetus to baby doesn't change that life at all.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Nothing technical was discussed. I was not required to know anything about what I was agreeing to.

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't recall anyone discussing this at all. Very little was discussed.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I suffered emotionally and psychologically for a long time. There were many nights of crying myself to sleep. Seeing pregnant women and babies were a constant reminder.

10. How has your abortion affected others in your life?

For a long time my family was confused as to why I had so many broken relationships, drank so much, etc. After I told them about it years later it made sense to them why I did those things.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! It is not worth it in the long run...

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We live in a civilized country. Killing of human beings should be illegal.

2. How many weeks pregnant were you?

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I went to a friend's gynecologist who would "take care of the problem." I never received any counseling or if I did, I don't remember it.

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't recall ever meeting the doctor prior to the operation.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It made it easy for me to have another one, two years later. I was already using alcohol and drugs to medicate myself so I had no feelings about being pregnant except inconvenience.

10. How has your abortion affected others in your life?

The boy who got me pregnant both times was greatly affected by the abortions because he didn't want me to have them. He was raised Catholic and believed it was wrong. He never had children and I believe he is still an alcoholic.

11. Based upon your experience, what would you tell a woman considering abortion?

For the last 4 years, I have worked in crisis pregnancy as a counselor and I tell women about the

physical, emotional and spiritual consequences of abortion. I offer them alternatives such as parenting, and adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that it is not our place to decide who lives and who doesn't live. If God creates a life, then there is a purpose for that person and a destiny to fulfill. Not only does abortion thwart God's plan for a human being, but it destroys a part of the woman who undergoes the abortion. It is unnatural for anyone to kill their own offspring and it goes against everything in our soul to do it.

I don't know what kind, all I know is they asked if I wanted to be awake or asleep, and I said asleep, and when I woke up it was over, or so I thought.

5. Were you adequately informed of the consequences of abortion?

6. Were you informed of any link between abortion and breast cancer?

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I became a cocaine addict and alcoholic, with a feeling of worthlessness that further led me into sexual immorality.

10. How has your abortion affected others in your life?

The man involved accused me of killing his child, and I did, furthering my depression. I still can barely admit it to anyone, I am very ashamed, but I know Jesus saves and forgives, and He loves me and does not condemn me. But I would have killed myself if not for Jesus.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion is the worst thing that ever happened to me, do not do it, it is an evil trick of the forces of darkness. It is murder and you many not know it now, but after you will.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You are stupid, and far from protecting your women. No one should be allowed to choose to commit murder legally. You are killing a generation, and mentally handicapping millions of women.

QUESTIONS

1. Where and when did your abortion occur?

Albany NY

08/15/1983

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

I don't know, nothing was explained to me.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that I was pregnant with a mass of cells. It will only help me to get an abortion and that they understand. They only gave me one choice. I was not aware that I will murder a human being. I was told that I might have some cramping and not to move. I was in shock, when a person is in shock clear decisions are not made. Right to life choice is not offered. Both abortion and life issues should be given equal weight. I believe that right to life group should have an office in Planned Parenthood, paid by Government grant.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one talked about the psychological effects. I was so emotionally hurt. The doctor at the planned parenthood told me that I only had a mass of cells. I remember bleeding with huge clots that came out for an entire night and day. I was young and did not know that something was wrong and that I should have went to the hospital. I had extreme cramping after the abortion. I was left with no information or guidance of what to do if something went wrong. They just took my money, mutilated me and my child.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I feel upset that I felt like Planned Parenthood just pushed their agenda on me. I feel so remorseful and I pray to God to forgive me. Not one day goes by when I do not think about that terrible decision I made under duress. It is unfathomable that the Government allows a doctor to squeeze a baby's head inside of a womans birth canal and kill the child and it's OK? This is murder! There should be no more than 10 weeks for abortion, no 4, 5, 6 ,7, 8, 9 month partial birth abortions.

10. How has your abortion affected others in your life?

Abortion hurts the fathers of the babies also. It creates an culture of irresponsible fathers.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them to view the NOVA series called IN THE WOMB. I would talk about God and that having a abortion is the elimination of life. I would talk about the complications that could occur and statistics after having an abortion. I would talk about other options. I would show her that she can make the right choice that will make her proud of herself.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would ask each one if they had an abortion themselves or involved in an abortion. I would show them the NOVA IN THE WOMB movie and ask them when they think life begins. I would ask at what age is the death penalty legal. Partial birth abortion is midevil wrong. No doctor should squeeze a baby's head to kill it before he or she is born. Does not the hippocratic oath include the preservation of life. When was the last time you had a baby? Were you not amazed at the process and the whole experience was a miracle of God. No one should have a right to murder innocent children. I can not believe that all of you have become so calloused that you can not see in your own hearts that it is wrong to kill a unborn baby. I want all of you to spend time getting to know the survivors of partial birth abortions. See what you think then. Search your own heart when you are alone with God. You are all so caught up in legal terms and jargon that you can't see the value in human beings. Just sit one of your grandchildren on your knee and tell them that you think it's OK to murder babies before they are born. I am positive that your grandchild will cry because they have an innate sence of what's right and wrong. Something that you need to learn again.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was given the impression that my baby was just a "clump of cells" sitting in the lining of my uterus - kind of like the normal ovarian egg but just a little more advanced --- what a false impression!

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no talk of feelings or regret. It was very matter of fact.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Years later, I was in graduate school and had to take an embryology class. I was floored as I saw for the first time what a real five week old fetus looked like. I had to leave the room and sit in the bathroom until I could get over the horror of what I had done. I still think of how old my child would have been and what kind of life we would have had together. I often think and wonder if I will meet him or her in heaven.

10. How has your abortion affected others in your life?

My father and mother both feel guilty that they did not push harder to talk me out of the abortion. They wanted to support me in my decision but regret not talking about the hard facts of what abortion truly is.

11. Based upon your experience, what would you tell a woman considering abortion?

I have never met a woman who did not regret going through an abortion. The shame that follows an abortion throughout your life is a constant battle. The child inside of you is not a mistake. God would not have given you one of His creative little dreams to carry into this world by accident. All things have

a purpose. Do not let fear or worry rob you of a meaningful miracle in your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

There is a big difference between what the doctors want you to think and what is actually reality. Doctors often see the growing fetus as a "specimen" or "clump of cells", however, when a mother can actually see the limbs, eyes and nose of a small fetus...it strikes a cord of reality that there is a true living being inside of you and it is now your job to protect it.

HOW MY ABORTION AFFECTED ME

The State of HI

County of hawaii

My name is marybeth I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

hilo HI

//1996

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

d & c

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was informed of the physical. I was not informed that I would suffer depression, low self esteem and sorrow when I see babies, even tho I made the decision to abort.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

father

9. How has abortion affected you?

I feel intense sorrow that I killed a child. I acted in fear of the moment and now suffer from depression and low self esteem. I wonder what my life would have been like if I chose differently. I since have had bad relationships with men.

10. How has your abortion affected others in your life?

I get very nervous around children, don't have patience for them and would rather avoid them. I don't want to be too close to people with children. I don't want to have children of my own now and so would affect any man I would potentially get involved with

11. Based upon your experience, what would you tell a woman considering abortion?

I would say don't do it. It seems like an easy way out of a difficult situation but it doesn't end with the abortion. It's something that will follow you the rest of your life in the form of emotional problems, possible health risks and regret. It's possible to get through the pregnancy and you may decide that having a child is the best thing.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It shouldn't be. Way too many women and girls are aborting their children and many more than once. It's too easy to do when you're scared and can't be taken back. Too many are influenced by friends, family members and doctor and the fathers. There's too much of a chance for emotional issues and spiritual for killing your child.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of HI

County of Kauai

My name is Alida White. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Honolulu HI

02//1975

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was never informed of the details of what the abortion entailed, nor was I warned of any possible negative consequences of abortion. I also had a D&C type abortion at Kauai Veterans Memorial Hospital in Waimea, Kauai, Hawaii, a couple of years previous to my 1975 abortion. In neither case was I warned verbally by a doctor, although I probably signed waivers and considered them routine for any medical procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

In april of 1977, when I gave birth at Wilcox Hospital to my first (and only) live baby, I suffered an inverted uterus, and nearly lost my life. I was told by my doctor that an investigation was done by the hospital as to why my uterus inverted, and that the reason I suffered this serious complication of childbirth was my previous abortions.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

When I saw a television special in which a live fetus at 7 weeks was filmed in its mother's womb, I realized that I had killed my first two children. They were not just blobs of tissue; they had fingers and toes. The baby in the documentary I watched was sheilding its eyes from the light of the camera! I entered into deep grief, which lasted many, many months, on top of the terrible physical consequences I suffered of major complications of child birth attributable to my abortions.

10. How has your abortion affected others in your life?

My husband was bereaved of his first child. This had profound consequences for our marriage, and has taken years of counselling and prayer for the damage to our relationship to be healed. My parents suffered the loss of their grandchildren, and great concern over the complications of childbirth I later suffered as a result of my abortions.

11. Based upon your experience, what would you tell a woman considering abortion?

It's murder. Don't do it!! We have an adopted son, and adoption is the best answer to an unplanned pregnancy! It's healthier for a Mom to give birth than to have an abortion. You'll only damage yourself, physically, emotionally, psychologically and spiritually if you kill your child!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion only benefits the doctors and clinics who are in this horrible business. Our constitution upholds the right to life, and scientists now agree without any doubt that human life begins at conception. That is no longer a question. Abortion harms women, men and of course, the babies who are murdered in cold blood by their mothers. "Choice" is a ridiculous euphemism. A woman has a choice before she chooses to have sex. Once a life is created, no one has the right to take someone else's life!

HOW MY ABORTION AFFECTED ME

The State of HI

County of Maui

My name is audrey I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Rochester NY

12/11/1999

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

All I was told was that it was my right to make the choice. I was told the contents of my uterus would be vacuumed out and discarded. I was told I would get a shot of anesthesia so I would not feel anything. That is all I was told.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea what to expect afterwards, physically or mentally.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My husband and the father of the child (2 people)

9. How has abortion affected you?

10 years of guilt, sadness, deep feeling of loss and regret, shame, terrifying fear that my children or my parents will find out.

10. How has your abortion affected others in your life?

I resented my husband for his part in the decision and it contributed to our ultimately ending the marriage. My children have no younger brother or sister. My guilt and shame and fear and depression have led me to self-destructive unhealthy behaviors and relationships, which have also had negative consequences for my children.

11. Based upon your experience, what would you tell a woman considering abortion?

Just don't do it. You will never regret bringing forth a life, even if you must give the baby up for adoption, but you very well will experience deep regret and self-hatred for ending the life of your own flesh and

blood. A pregnancy is a short period of time to sacrifice for peace of mind. The "pregnancy" is actually a separate being, a person created by God, no matter the circumstances of conception or how "unworthy" the father is.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Legalizing abortion condones it as a viable, acceptable option, whereas it actually is not only outright murder, but also an irreparable action which can haunt a woman for a very long time, perhaps the rest of her life, and can have widely reaching negative effects on the people in her life. Women and unborn children, their siblings and extended families should be protected from having abortion available to them as one "safe," acceptable choice of action.

8. Did anyone pressure you into having an abortion?

Yes No

it seemed like the only option I heard of in school

9. How has abortion affected you?

I am very sad 11 years later of my little life that I took away.

10. How has your abortion affected others in your life?

I hope to spread that abortion kills a life and takes away.

11. Based upon your experience, what would you tell a woman considering abortion?

to give the baby away to a deserving loving couple instead of murder.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The fact that life has already begun we do not have the right to end a life. While there is free will of man we need to have all the options available and educate those considering abortion.

QUESTIONS

1. Where and when did your abortion occur?

//

2. How many weeks pregnant were you?

3. What type of abortion was performed?

Local anesthetic/awake x 1, Under x 2

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told there might be feelings of sorrow or depression, but never was it mentioned the devastation I would feel the rest of my life. There was no discussion on how God would be so very hurt and disappointed by my actions. There was no talk of how my other children would feel never getting the chance to know their siblings.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I lost one child to SIDS and should have known better. Everyday I think of the three worst choices of my life, how I deprived those children of the right to know a mother and father and siblings. How those poor children would never get to know God's love for them on this earth! I wonder what would have become of them and how their lives would have turned out. I really fear seeing them in Heaven; I can only hope they will understand my thoughts and beliefs now, and grant me the forgiveness I do not feel I deserve.

10. How has your abortion affected others in your life?

I have three other children who have been deprived the right to know their brothers or sisters. They are aware of what I did and how I regret it now. They have seen me cry and try to come up with excuses for inexcusable actions. I believe none of them will allow this to happen with someone close in their own lives.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to stop listening to anyone and everyone, I would ask her to pray to the Lord Jesus Christ and ask for the wisdom and strength to do what is RIGHT! I would help her with all the alternatives in any way I could. I would be there as moral support and offer any assistance with adopting the child out or helping to raise him/her with her. I would be the best friend to that woman by helping her through it all the way to the BIRTH!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would let them know they are sadly mistaken and need to open their ears and eyes to God and his word. I would ask them how they would feel if someone had the right to take their life, at this time, for NO good reason at all. I would ask them to live one day in my shoes with the feelings of guilt, sadness, and depression knowing that I had ended the lives of innocent children who only needed love! I would ask them to justify their vote, with honesty, and remind them that their salaries are based on the fact that we thought they would be good leaders or representatives for us!

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

All I knew and wanted to know was how can I get rid of this blob.

5. Were you adequately informed of the consequences of abortion?

Yes No

I did not know of what this would do to me or the life inside of me. At the time I thought I just needed to end this and was not aware that the rest of my life was going to be destroyed along with others that I meet. I did not know that this few minutes to get rid of something so small and insignificant (at least I thought it so) that it could be so huge and hurt so bad for the rest of my life. Until I can forgive myself and let God heal me. 37 years ago and I am still suffering to this day. It's like it happened yesterday. Please Please don't let this happen to anyone else. It hurt's so bad. !!!!!!!!!!!!!!!!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

Yes No

I'd rather not say. God knows and thats all that m

9. How has abortion affected you?

I have had severe depression,anger issues, I have used drugs to suppress the hurt and anger that it has caused.

10. How has your abortion affected others in your life?

No one knows what I did but my boyfriend (which is now my husband and father of 4 of our other children), and my mom. We have never talked about it. It has just eaten me up alive. I have become depressed, used drugs, alcohol to try to stop the pain.

11. Based upon your experience, what would you tell a woman considering abortion?

Please Please do not make the biggest mistake of your life. There are people out there to help you get thru this time of your life and would do whatever it takes for you to choose life for your baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It truly angers me to think anyone could think an abortion should be legal and would let a young lady kill her baby! I have done this and have suffered every single day of my life knowing that I killed my baby. Please if that baby was standing in full life size in front of you would you choose for him/her to die or choose LIFE!!

2. How many weeks pregnant were you?

3

3. What type of abortion was performed?

?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was asked if I wanted an abortion. I was asked if anyone was forcing me to choose an abortion. No one spoke to me about the nature of the abortion other than side effects to watch for after the procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed of any consequences of abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Having an abortion has made me live my life in constant fear of judgment by others. This made me live my life in an incredibly guarded way. I erected a huge wall between myself and others. Refusing to accept love or give too much to anyone. I didn't trust anyone. Especially men.

10. How has your abortion affected others in your life?

Yes. As my husband was the father of the child I aborted, I stayed angry at him until I laid everything at the feet of Jesus and chose to forgive. For almost 12 years, I carried that unforgiveness, anger and bitterness toward him. That caused me to treat him unfairly and to withhold love from him. When I had children, I became angry at them for really small things. I realized this was the result of anger at myself for choosing the abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

Absolutely, positively don't go through with it. It is a decision that affects every day of the rest of your

life. It effects every relationship you have for the rest of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If abortion wasn't legal, I wouldn't have chosen it. My baby would be alive and I would have lived 12 years of my life totally differently.

2. How many weeks pregnant were you?

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

It was my belief that it was just some tissue and blood. I was never informed of the severe pain I experienced physically during the procedure, nor the emotional pain that I endured for the 18 years after until I accepted Jesus as my personal Savior and released my sin to him and received His forgiveness in return.

parents, due to lack of info about other options.

9. How has abortion affected you?

As I stated earlier, for 18 years I was in a down-ward spiral, out of control. Nothing could make me happy. I was promiscuous, I was quite the "social drinker", I craved male attention but would quickly find something wrong with them and move on to the next. I had one failed marriage at age 21 that lasted 2 years. I almost divorced my current husband until Jesus got a hold of my heart and opened my eyes to His truth and love. Now, I am sharing my story openly for the first time ever and have taken a PAS class at a local faith-based women's aid center. I feel God's leading to help other women who are hurting from a past abortion and also feel strongly about counseling pregnant "abortion vulnerable" women. I am currently in training to be a volunteer counselor and PAS facilitator at the local women's aid center called Aid to Women in Cedar Rapids, IA.

10. How has your abortion affected others in your life?

Obviously, my ex-husband had NO IDEA that that was really the reason for my divorcing him-nothing could make me happy. My relationship with my mother was strained beginning right after the abortion until just this March when I invited her to come to the memorial service that my PAS class held in honor of our babies. I also used to blame all of my bad behavior on my father for his lack of involvement in my teen years. I have since come to accept him for who he is in Christ and let go of my former expectations of him.

11. Based upon your experience, what would you tell a woman considering abortion?

I would let her know that although it may appear to be a quick remedy to her situation and she can initially resume her normal life as it was....there are severe long term consequences that our society does not talk about openly. I would inform her of the symptoms of PAS and the possibility of her falling victim to any number or all of them. I would let her know that this is not tissue at all, but a life formed by God's very own hands. I would ask that she let go of her fears and trust in Him to help her get through. He never fails. I would pray with her and listen to her and let her know that the ultimate decision is hers to make now.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would advise that God gives and God takes away. We are not to interfere with that process. Each life is a beautiful creation of God. It is a LIFE, not a choice!

I have trouble letting anyone close to me. Difficulty bonding with my children. My relationship with my husband has suffers. Trouble with intimacy. I have a hard time trusting people.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion is a decision that you will live with for the rest of your life. There is no taking it back. God never intended for life to end in abortion. You DO have a choice. You can raise your baby or make a couple happy that have been waiting to adopt a precious child. Don't buy into the half-truths or white lies, that Planned Parenthood fills your head with. A baby's life begins at conception. That is how we all got our start.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The issue of abortion is not "Too political" or "Too emotional" to talk about. The Lord has given you the green light. It is up to you to obey. "Be Not Afraid!" Simply put, what would Jesus do? He died for His enemies. "Open your mouth for those who cannot speak, and for the rights of those who are left without help." Prov. 31:8

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of IA

County of Jones

My name is Susan Heinle. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

New York NY

07/12/1986

2. How many weeks pregnant were you?

15

3. What type of abortion was performed?

the normal where the baby is sucked out of the womb into millions of peices into a canister.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

no one told me i was killing a baby just getting rid of a blob of tissue.

5. Were you adequately informed of the consequences of abortion?

Yes No

no one told me of the next 22 years of hell i would endure and face. they didnt tell me i would hear babies cry at night that weren't there. they didn't tell ne i would be plagued with depression for the rest of my life. they didn't tell me that it would traumatize me so much that i would be diagnosed later in life with bipolar disorder and severe moods swings. I couldn't cope so i became a meth user. when i was numb and high i think i was ok then.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my parents

9. How has abortion affected you?

well i am mentally disabled due to my mental state so now i live on ssi and social security. I has made me careless and cold hearted for so many years. Have went thru many bad relationships and abuse. I always felt i deserved to be hurt because i was a killer. I have been suicidal. I was an abusive parent to my other 2 children and they never did anything wrong. I can't go back but i should have fought for life not death of the innocent blood of an unborn baby.

10. How has your abortion affected others in your life?

not to many friends i was a loner and my moods were to scarey for some to deal with. I sometimes would attack physically not just verbally.

11. Based upon your experience, what would you tell a woman considering abortion?

Please DON'T kill your baby there are so many other options and help out there. If they need somewhere to go for help they can always go to a place like Aid to Women or a shelter to get advice. If it hadn't been for Aid to Women here i would not be going through this healing process i am now going through. But, God has helped me come a long way. I am far from ever being off medication but, i feel better knowing i am not alone. No woman has to ever be forced into an abortion or make that choice on her own there is help out there everywhere just please seek it. I truly wish i had.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

They need to get well informed that a baby is a baby at conception. Just because it can't live on its own outside the mothers womb does not mean its not alive. If you just knew how it really affects the women who have had abortions you would see the pain and anguish that we suffer. The women who are considering abortion may not believe us that have been there but, they will see in due time and be just like me and all the other women that suffer from post abortion syndrome...

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of IA

County of Plymouth

My name is Shawn Lohry. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Genoa City WI

09//1970

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

I took an OTC drug to abort myself.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Abortion was not really being talked about and I did know few if any facts about pregnancy.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told I would have a miscarriage and then not be pregnant any more.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The ones who raped me encouraged me to abort.

9. How has abortion affected you?

I spent the next 11-12 years in deep emotional pain and got involved in all sorts of self-destructive behaviors. After I met Jesus a measure of healing came into my life emotionally and socially. The pain of killing my son and the hole that was left by his death has never gone away. I cannot believe that I killed my own child to preserve my family reputation.

10. How has your abortion affected others in your life?

My younger sister, knowing that I had an abortion, also elected to kill her baby that way when she became pregnant out of wedlock. My parents and other siblings and my children now, all grieve with me for the face I will never see on this earth.

11. Based upon your experience, what would you tell a woman considering abortion?

Once you are pregnant you are a mommy. The choice is a living child or a dead one. Choose life. Pregnancy lasts only 9 months but the gift of life for your baby is one you will never regret. Abortion only makes you a killer and that blood cries out from your soul causing pain that lasts forever.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Most people look to the law as representative of what is moral and good because they respect America. Abortion may be legal but it has caused the death of 50,000,000 babies, and scarred the emotions of nearly that many women and men. Infanticide, euthanasia, and abortion all have come out of our desire to be in charge. There is a God and He will have the last say over life and death in America. The courts must reflect the nature and character of God so that those who do not know Him will understand what is right and wrong. It is never right to murder, deliberately take the innocent life of someone else, to make your own better.

The State of FL

County of Orange

My name is C K I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Orlando FL

03/10/1982

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Suction D/C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Was never told that the baby had a heartbeat or any details about the baby

5. Were you adequately informed of the consequences of abortion?

Yes No

Was never told that it was devastating emotionally for the mother

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

My husband of 25 years and I aborted our first child, had 2 boys, and later could not have any more children. Besides the guilt I live with longing for the children I should have had, but aborted. My husband and I never mention it but it is hurtful to him as well.

10. How has your abortion affected others in your life?

For many years it affected my emotional life, I think, and made me distant to others and so full of self-loathing that I often thought of suicide. I am sure this affected my family. I should have had my babies with me and skipped the guilt. I also learned that finances would NOT have been the factor that I'd imagined.

11. Based upon your experience, what would you tell a woman considering abortion?

Do NOT do it. Find another way. There are many who know the true worth of every child, no matter what the conception circumstances, and will love and nurture your child from birth. It is vital to your peace to never harm a living soul, not to mention an innocent baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is a horrible attempt to counteract or cover bad decisions, and it only exacerbates the burdens a young woman carries. If abortion is made illegal, there were NOT be hundreds of dead girls. It would save millions of lives and NGO's would help place these babies, so the government would not be burdened. There is room in our country for every one of these babies, as illustrated by the similar number of immigrants who have replaced those aborted in this country. Every baby is precious and of inestimable value and potential. Abortion is the spilling of innocent blood and bad for any nation. Respect for life behooves us as a nation based on Judeo-Christian ethics.

The baby's father

9. How has abortion affected you?

I felt guilty for several weeks afterward and I never told anyone. To this day only a few very close people in my life know about it. The real pain and guilt did not surface until after I had my planned son. The fierce love that I have for him made me realize what I had lost with the abortion. I found, and still find, myself wondering, was it a boy or girl? What age would they be now? Who would they look like? What could they have done for the world? However, my worst fear lies in my son. I feel that since I murdered my first child willingly that I don't deserve my child. I feel as if God has given me my son to show me what I lost...and that He will wrench him away from me in some horrible way. I live in constant fear that my precious little boy will be taken from me. I realize that God does not "get even" but my own guilt sometimes paralyzes me and I feel that I sometimes overdo it with my son. I thought that having an abortion would allow me to do more things with my life, but I ended up messing it up miserably until after my son was born. I am often left wondering if I would have chosen a better path had I kept my first child.

10. How has your abortion affected others in your life?

Almost no one knows but it is probably making life more challenging for my son. The relationship between the child's father and I also unraveled after my son was born. The guilt eats me alive some days. I also have a difficult time with my mother who is vehemently against abortion. I have never told her and never will but when she brings up the subject in relation to politics, I feel like a hypocrit and a failure.

11. Based upon your experience, what would you tell a woman considering abortion?

To really, really think about what YOU want to do. This is a decision that you need to make based on how you, and no one else feels. Don't let someone else make your life's decisions. Also, if you know that someday you do want to have children, seriously consider how that will affect how you feel when those children are born. That is my daily struggle.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe that it should be much more limited than it is. I believe a better choice is to have VERY easy and discrete programs to deal with women who have unwanted pregnancies. I cannot see how completely outlawing it would be a good choice though. There are simply some cases when there is no other choice and there will be many horrible stories of illegal activities. My feelings on this subject vary so widely from day to day that I am not a good person to ask this question too.

QUESTIONS

1. Where and when did your abortion occur?

Omaha NE

09/01/1995

2. How many weeks pregnant were you?

21

3. What type of abortion was performed?

vacuuming procedure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

All I was told was that it wouldnt hurt.Which was a lie because it hurt so bad !!! I was informed that it was a natural part of life and that all women did it.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told that it would not hurt me in the long run if I ever wanted to have children.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents and planned parent hood

9. How has abortion affected you?

I find myself depressed wondering about that child that I will never see. I have had numerous miscarriages and numerous medical conditions because of it. I had to ungo a dnc to remove the scar tissue that was still there. My 4 alive children were born premature due to the abortion and they suffer medical conditions because of it.

10. How has your abortion affected others in your life?

It embarasses them when they see posters and such on abortion as they realize the bad decision that they made me take.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them no !!! It might be an easy way out but they are hurting a unborn child. Their child. There are so many people that want kids and cant have one that they could place the child up for adoption with these families to give a loving and nurtuing home to. These abortion clinics dont care

about you or your unborn child. They see money signs and they dont care about the after effects that it does to a women in the long run.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

How can you allow a child to be killed just because it is unwanted. Why do doctors have the right to rip something out of you. What about how the unborn child feels as this happens to them. Once there is a heart beat that is a baby no matter how you see it.

My name is erin brandt. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

kansas city MO

//1994

2. How many weeks pregnant were you?

25

3. What type of abortion was performed?

I wasn't sure then. I am assuming partial birth now that I am grown and know so much more about it.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

obviously not. If, even at 18 I had known exactly what stage my baby was in and how it could potentially survive on its own in the icu and also heard HOW the procedure would take place I NEVER would have gone through with it. I was in such a daze the whole time and remember some lady sitting me down at the abortion clinic saying "are you sure about this?" and then having me sign a paper. the lady acted like she was giving me a choice but now that I look back on it she wasn't giving me a choice but a hazy, foggy "definition" of what abortion was so I just stayed in that mindset and went for it. it was so obviously her job to inform us very little so that we would feeling like we did have a choice and they were supportive of whatever we chose. when really, they wanted to keep us filing through there.

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't remember anyone (including my mom who had chosen to have an abortion in highschool) filling me in on anything emotional or physical that could happen. all I heard was "you will be okay." and "it will be like nothing ever happened."

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my parents.

9. How has abortion affected you?

I went into deep depression and lost all self worth. It caused me to make very poor decisions and accept very very poor treatment from any man who would give me the time of day. I didn't feel like I was worth anything or deserved anything more.

10. How has your abortion affected others in your life?

greatly. it devastated my family (maybe more the pregnancy than the abortion) and it was hard for myself and my husband to heal from.

11. Based upon your experience, what would you tell a woman considering abortion?

not to do it. it is so much more than they make it seem. there is so much more to it. not to mention that that baby has a heart beat within a few weeks of fertilization (about the time you realize you might be pregnant) AND the moment fertilization happens the baby is already a girl or boy.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

they are worried about women illegally going to get abortions and the safety of those women??? what about the safety of the millions of women who have abortions legally? what about the physical and mental issues it causes? what about us??? what about abortion equals freedom? there is no freedom in abortion. it is all a big show. women think they are being liberated when they have a choice. I know first hand. abortion does not bring liberation. abortion does not bring freedom. it brings darkness and paralization.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

no they just asked what my parents and the father of the child would do. I told them my parents would kill me-which I know now that would never have happened. And I didn't know where the father was. They set up the apointment and in less than a week I was in Iowa City. It was like a conveyor belt with no stop button. I remember cryiong and trying to sit up as the nurses held me down and the doctor told jokes as he AND I killed my daughter.

5. Were you adequately informed of the consequences of abortion?

Yes No

No, they never told me that i would bury my heart for over 12 years at the anortion mill in Iowa City.

9. How has abortion affected you?

Every day, my abortion has hurt me. I grieve a child who would now be an adult and probably a parent.

10. How has your abortion affected others in your life?

my children know they lost a sibling and my marriage was destroyed by the murder of our child before we were married. He became an alcoholic because of it and I had many mental problems.

11. Based upon your experience, what would you tell a woman considering abortion?

Definately not....adoption. At least every yr you can know someone is having a birthday because you gave them life instead of killing them.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is the cause of so many of this country's problems. There is no respect for ANY life in this country. We have become a greedy country who feels a baby is nothing more than a paperplate that can be tossed away. Women need to fight for the unborn women in this country. Abortion is the cause of suicides-(I tried 3 times), eating disorders, alcohol and drug abuse (I drank and did drugs to forget the pain), mental problems (not sleeping, over doing things), divorce (I'm a victim), abusive relationships (definitely me)

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

Suction procedure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told all of the facts concerning abortion and was not really given a choice as it was what my parent requested from the clinic. My parent left to go to work and I had no one to accompany me through the abortion procedure. I was 14 years of age and saw a Visa card paid the bill. I was 11 weeks gestation and told the abortion should be done in a hospital at that stage. My parent insisted it be done now through the abortion clinic. I bled and cramped severely for days. The doctor told me to shut the F... up when I cried. They told me I needed to leave a half hour after the procedure as other patients may see me bleed heavy and scare them.

5. Were you adequately informed of the consequences of abortion?

Yes No

No explanation of consequences of an abortion were provided to me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Parent

9. How has abortion affected you?

Shortly after the abortion I felt a deep sadness, grief, I felt worthless. I ran away from home, dropped out of high school. I have remembered the abortion and the child who was aborted for 28.5 years now.

10. How has your abortion affected others in your life?

I did volunteer work at a pregnancy center for sometime. I would never tell anyone that abortion is a healthy thing to do for a women's physical or emotional well being. My parent who requested the abortion later came to regret her choices and was very greived herself over the abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

Educate yourself extensively on what the facts are on abortion. What are the risks for now and the future? What is the procedure with pictures to help make it clear what the procedure is. Hear other women's stories to help you get realistic knowledge on abortion at any stage in pregnancy. Investigate the stages of pregnancy and fetal development, Do your research and think about long term consequences.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Roe v. Wade (1973) The legal right to have a abortion must make society accountable for the effects of the choices men and women have made since abortion has been legal. Health issues both physical and mental should be considered when looking at the issues concerning legal abortion as they were when considering the risks of illegal abortion before Roe v. Wade. The fact is abortion still carries risks for the women undergoing the procedure.

The consequences did not occur to me until 10 years later when I became a Christian.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

After my abortion I became a workaholic until I met my husband. As a little girl all I ever wanted to do and be was a wife and mother. At 24 I had everything.....but I was angry and unhappy much of the time and did know why.

10. How has your abortion affected others in your life?

My husband and my children have to deal with the consequences of my abortion. When I speak out at church or small conferences they are affected by what others think of my strong opinion that abortion is wrong no matter what the circumstances are. These babies are not ours to choose whether they live or die.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion is irreversible, you can't get the baby back. The least you can do is have an ultrasound and see what is actual growing inside of you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe that abortion is murder, plain and simple and because I trusted in our government to not steer me wrong I have to live without my child everyday. If only I were granted an ultrasound, if only somebody had told me it was already a child, she or he would be in our lives today.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of IA

County of usa

My name is C S I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Des Moines IA

//2000

2. How many weeks pregnant were you?

15

3. What type of abortion was performed?

vaginal

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

If I was adequately informed I would not have done it.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea the mental problems it would cause.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend at the time, Jason Collison.

9. How has abortion affected you?

I feel terrible. I sometimes become depressed about it. I am ashamed I did such a horrible thing. I have 3 children now and regret having an abortion every single day of my life!

10. How has your abortion affected others in your life?

Right after the abortion I was physically abusive. I would throw things and break things for no reason. This was not normal for me. I tried taking anti-depression pills but they did not help. The only thing that helped was counseling.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. You may be physically O.K. afterward but the emotional heartache is the worst part. You can't make the emotional pain go away with pills or drugs.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Planned Parenthood, and the like, are ruining our society. A woman is supposed to bear children. She may not consider "it" to be anything now but in the future she will be deeply saddened and get tear filled eyes over it. She will one day want to be a mother and can't. Or, she will have children and think about how beautiful and precious their baby is and wonder what they were thinking years ago. Then, she will cry even more (or get angry and need help). It will never go away. It's an invisible scar. It causes depression, eating disorders, violence/rages, insecurity, nightmares, may even cause cancer, infidelity and so much more. It's a destruction to the family. It's definitely not "family planning." What a lie! You are basically allowing someone the right to murder someone else. It is illegal and morally wrong to murder. Why is it O.K. to terminate a pregnancy? If you killed a midget would that be O.K.? No!! Well, a baby is like a midget.. just much smaller. If you are still going to keep abortion legal then you NEED to put a law in place that ensures every single woman has a chance to see their baby on the ultrasound. Make them see the baby 3D in color and then decide. Make sure the government gets a signed piece of paper acknowledging she saw the ultrasound. Also, no more lies! Start cracking down on abortion agencies that prey on pregnant woman just to make a buck!!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of NV

County of Washoe

My name is Deaun Zasadny. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Reno NV

02//1986

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

surgical

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't remember the staff explaining that this was a baby, a life. I do remember that the staff focused on talking with me about birth control around the same time I was having the abortion. This conversation seemed completely absurd at the time...I could not focus on this topic, I was having an abortion, not seeking information on birth control.

5. Were you adequately informed of the consequences of abortion?

Yes No

Definitely not the emotional or psychological consequences. The guilt, regret or especially the grief that I would feel at some level for this baby. So I had these emotions but no idea how to resolve any of this other than through the escape of drugs, alcohol and continued relationships outside of marriage.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend, the father of the baby.

9. How has abortion affected you?

The guilt was overwhelming, I could not get the memories to go away. I had completed college, had a job, functioned according to society's standards quite well. But, I continued to live a risky life; using drugs and alcohol to dull the feelings.

10. How has your abortion affected others in your life?

Most who were involved just didn't acknowledge the feelings I was having or connecting my life style with the unresolved guilt I carried around.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it!!! There is help out there and there are people out there right now waiting to help and to love you through this. You are planning to murder your own baby and the knowledge of this will never leave you for the rest of your life. The only real way to be free of this guilt is through a relationship with Jesus Christ as your Savior...He will pick you up as you sob uncontrollably after you finally accept what you have done, if you have the abortion. Jesus will cry with you, listen to you with compassion, love you through the grief & pain and finally heal you of the guilt. Jesus Christ is the only one who can do this. I know this because I tried to dull the pain in many ways(alcohol mostly) on my own before I knew Him. Now when the memories come up I pray, I write a song, I write a letter, I go out in front of abortion clinics to try to be there for these women and men just as Jesus has been there for me. To tell these women the truth and the reality of what abortion is and what the effects are on her too. To be there for these women as I wish someone had been out in front of that clinic in Reno for me.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That we think we are giving women 'a choice', but it is a choice to murder their own baby that we are allowing. They just don't have to go to prison for doing it....they will live in the prison of their own guilt every moment they think of the baby after the abortion. The year that little girl would have gone to kindergarten, the day she would have graduated from high school, the day she got married... I would tell the court if this was your daughter, your niece, your grand daughter or your own wife would you want her to carry this throughout her life? Is it worth ending a life to be able to go on and get a college degree? Just so you don't have to face life being visibly pregnant for a few months? Or having to face people telling them you are giving your baby up for adoption, or that you will be a single mom? If I could change only one thing in my life it would be having had that abortion....but you can't go back and change this, this is forever.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of IA

County of Plymouth

My name is Donna I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Wichita KS

09/01/1986

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

I'm not sure, but I was given valium and put in stirrups. Maybe it was called a D and C.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I went to Planned Parenthood to have a pregnancy test. I was told I was pregnant and asked what I wanted to do. I said I wanted an abortion. They did not explain the procedure, but referred me to the clinic in Wichita. I contacted the clinic and made an appointment. My boyfriend took me and was told what was going to happen to me. They gave me valium and did a sonogram to show where the fetus was and discovered that I was pregnant with twins. My heart sank, and I asked if it was too late to change my mind. I thought the valium did damage to the fetus. The response I got was something to the effect that I wouldn't be able to care for two babies, if I couldn't care for one.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one ever explained the long-term affects of an abortion and how it would effect my emotional well being. The guilt that I still carry never goes away. I have made peace with what I did, but will never forget it.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I was 16 when I had my abortion. I was pregnant with twins and carry the guilt of ending two lives. I am now 39 years old and do not have children. I feel that I am being punished by God for what I did. Having an abortion is the one true regret I have and wish I could go back and change.

10. How has your abortion affected others in your life?

Very few people know that I had an abortion because it is something I rarely talk about. I do not know

how it has affected the father, as we are no longer together and have no contact. I'm the only person that I know of that this has affected.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. There are other options that don't end with a baby dying. Abortion is a permanent solution that ends a human life and will leave permanent emotional scars.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion ends a human life. Our laws are supposed to protect human life. If the courts are going to keep abortion legal, they should require those performing abortions to give full disclosure to the patient about what an abortion is and that it ends a life. Patients should also be informed of all the alternatives to abortion. I was 16 years old when I had my abortion. In the state of Kansas I was able to have this without parental consent. All I had to write in the blank was that I didn't want my parents to know. If I would have had to tell my mother, I probably would never have had the abortion. I wish I had been required to tell my mother.

HOW MY ABORTION AFFECTED ME

The State of IA

County of Scitt

My name is Suzanne Hall. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Las Vegas NV

09/27/1979

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Tube Suction? There was a vacuum, that's all I remember.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend. We had very religious parents.

9. How has abortion affected you?

I regret it, I take responsibility for it, but I regret it. I had a child two years later and I feel that that those two years made no difference, I COULD have had a two year old by then. I took someone else's chance for a life away and I never forget that. I'm 48 years old and I still think of that child I lost! All because I was afraid of what others and my parents would think???? How stupid!

10. How has your abortion affected others in your life?

Fortunately, my experience has caused my daughters to keep their own children. I regretted it, my boyfriend/husband regrets it as it well. I know a woman who has 13 at last count...how do you live with yourself??

11. Based upon your experience, what would you tell a woman considering abortion?

I'm torn because I am adopted (and I don't believe in that EITHER) but also do not believe in abortion. I have recommended adoption as an alternative, but most choose abortion anyway as they cannot see themselves giving up their "child"...but CAN see themselves killing someone they have never seen or felt yet. Irony isn't it? I do tell people that they WILL regret it, and I am always right about that. If you have a conscience it WILL bother you, it will depress you and you will Never FORGET it...ever.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I don't think it should be legal, I think people should take responsibility for their actions and THEIR children. People should raise THEIR OWN children no matter what their circumstances are. I am anti-adoption as well, I AM an adopted person. Why do we think that PEOPLE are to be thrown away in this day and age? If you don't want children, don't HAVE SEX...where is our morality? Where is our regard for human life? You say that people will get back room abortions...so what? If their own life means that little to them, let them die for their own stupidity!! Some may die, but many more will live...it is Called CONSEQUENCES people!!!

I am very very sorry that I had an abortion and knowing that I really did allow someone to kill my child. It is something you never forget and it haunt you the rest of your life.

10. How has your abortion affected others in your life?

my children that I did have regret knowing their brother of sister they may have known.

11. Based upon your experience, what would you tell a woman considering abortion?

NEVER NEVER HAVE AN ABORTION. ADOPT IT OUT IF YOU DO NOT WANT IT. THERE ARE MANY FAMILIES WHO CANNOT HAVE CHILDREN WOULD LOVE TO GIVE THEM A LOVING HOME.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That you are killing a human person and it also effects the mental and physical person who is having the abortion. They will regret it the rest of their life and may cause mental and physical problems.

HOW MY ABORTION AFFECTED ME

The State of IA

County of Polk

My name is Jocelyn Fry. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Des Moines IA

07/11/2002

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

Suction Aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told next to nothing about the procedure, other than that I would feel mild cramping. The cramping was FAR from mild and was, in fact, excruciating. I was not prepared for the sound of the machine. I was not told the names or side effects for drugs given to me prior to the surgery. The abortionist did not introduce himself to me. He did not say a single word to me at all. There was only limited communication between clinic staff and myself. I was given only step by step instructions (take this, lie here, etc) without explanation.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told of ANY physical or emotional after-effects. I was not warned of any possible risks whatsoever.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

the father of the child I aborted.

9. How has abortion affected you?

I was not religious in any way and was very pro choice before my abortion. I had no adverse opinions at all. But while on the table I realized I had done something really wrong. I fell quickly into a debilitating depression. I quit my job without explanation. I distanced myself from family, including my 2 year old daughter. I began to drink and use marijuana heavily. I became pregnant again 2 months later and was in denial. I continued to use marijuana and refused to see an OBGYN until the 6th month of that pregnancy. I married the man that fathered my aborted child and we had two more children, in addition to my daughter I already had prior to the abortion. I was placed on various anti depressant medications

and continued to use drugs and alcohol. My marriage was awful, full of fighting, and distrust, isolation, and violence. I could not forgive him for making me have that abortion. Even after a messy divorce, I still hated him and hated myself. I have suffered anxiety, depression and suicidal thoughts and actions. I have had trouble getting and keeping employment due to such a low self image. Physically, I've experienced unexplainable Menorrhagia that I did not have before. My only options to help alleviate it are to consistently use a hormonal contraception pill, which is a group 1 carcinogen and possible abortifaciant, or D&C, a procedure very similar to an abortion, which causes extreme anxiety to the point of panic whenever I've tried to consider it.

10. How has your abortion affected others in your life?

I've been prone to violent outbursts and emotional negligence of my living children. I have had rocky relationships because of my distrust and fear and self depreciating behavior. I have isolated myself and have very few friends and am not close with them or my family.

11. Based upon your experience, what would you tell a woman considering abortion?

Having an abortion is absolutely the biggest mistake of my life. I regret it every single day. It's normal to be scared and confused when facing an unplanned pregnancy. In fact, it's normal to feel that way with a planned pregnancy, but abortion is forever. What it does to your mind, body, and spirit can not be undone. You're risking your mental stability, future reproductive health, and your very life, not to mention it steals the hope, possibilities, and life away from your own child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Based on the biological science we now have available, that we did not in 1973, we can clearly see a living, growing, human being is present at conception. There is no reason to deny this uniquely DNA-ed person the right to his life. Abortion is a plague on our society, leaving grieving women to suffer in silence. It's been shown that this isn't about women's choices at all. Most women, including myself, will say that they didn't make this choice. It was made for them and they felt that they had no choice at all. Support and love are what women need, not a risky surgery that kills their children and leaves them scarred for life. How can lying to women about an emotionally and physically risky surgery be good for them? What is pro woman about telling women they have a choice, but not an informed one? The abortion lobby is about money and eugenics, not the good of women. When we are being shown abortion clinics consistently cover up the statutory rape of young girls and give inaccurate information about human development, how can we say that's good for our society? A father that isn't forcing abortion has no rights to his own children, to choose or not choose abortion. He's at the mercy of a woman, who can make or break him in the instance of her choice. Abortion is a serious human rights violation, to mother, father, and child!

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I am guessing how far along I was, no one told me. The Dr. or Nurse never explained what was going to happen or during.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told nothing.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

parents, boyfriend, cousin friends

9. How has abortion affected you?

I suffered in silence, quilt shame had a hard time bonding with our first child. Mentally I would go over and over dates of the abortion so I wouldn't forget.

10. How has your abortion affected others in your life?

Well I wasn't close to my son. I took my emotions out on my husband, who wasn't part of my abortion. I didn't feel I could talk to anyone, that I was alone

11. Based upon your experience, what would you tell a woman considering abortion?

Seek advice from someone who is not part of the decision. Get all the facts for yourself, not information from people who don't know. Call a Pregnancy Center and meet with someone. Have an ultrasound.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would describe the way a babe is formed in the womb, how development of the child changes so quickly. I would ask that the life of the child be considered important, to be valued. That abortion is not about the right to choose, but the right of the child to live.

9. How has abortion affected you?

Severe depression and guilt. The same man made me have another one a year later, telling me if I didn't he would hit me in my stomach until I miscarried anyway. I had just turned 18 years old the 1st time and 19 the 2nd. After I had my son when I was 21, I would break down in tears randomly over the fact that I was the 1 person who was supposed to protect my children or die trying and I gave in to let someone kill them to save myself. I kept wondering what if I had killed the son I just had too, I wouldn't have this perfect being and realized that my other 2 would have been perfect beings as well and I thought I was the most horrible person in the world.

Most don't know.

11. Based upon your experience, what would you tell a woman considering abortion?

That the emotional pain never goes away and it is only by God's grace can you ever forgive yourself, and even then it is a constant decision to forgive because God did. If I never found God, I don't know where I would be because the guilt I felt was unbearable, whereas now, although still there, I can bear it. I would tell them every emotion I felt afterwards to this very day, and how it's so not worth it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is a form of sacrificing our children. They have beating hearts by the time they can perform an abortion and while most believe that the baby is not yet a person and can't feel, there is no way even a person who doesn't believe in God can say that without a shadow of a doubt, being that no one can ask the baby. People have a hard time fathoming a society that sacrifices the kids like they did in ancient times and cultures, but that is exactly what we are doing with abortion. There are so many families that want children and can't have them, and the waiting list for adoption is so long and it is so expensive, if all these girls would let one of these families have their baby, and if our system could make it more affordable to adopt a baby, everyone would be winning. No killing, no guilt or depression for the mother, and loving couples having children even if they are not rich.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of ID

County of CANYON

My name is Aishaq Mefford. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Eugene OR

08/13/1992

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

suction abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only 13 years old. Nobody ever explained to me what would be happening to me. They explained it my father however no one spoke directly to me.

5. Were you adequately informed of the consequences of abortion?

Yes No

like explained above, I was not in the conversation between the doctors, nurses, and my father. I was not given an option.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my parents made the decision

9. How has abortion affected you?

I was raped when I was 13 resulting in this pregnancy. My parents felt it in my best interest given my age and the nature of how the pregnancy occurred to be in my best interest. I will tell you that the vast opposite to be the truth. I hated my parents for making that decision for me. At 13 I knew a lot more than they gave me credit for. I would have rather had the baby and given that baby a chance at life. I hated myself for not speaking up and defying my parents decision. I felt as though I was a murderer. That having the abortion was far worse than being raped. I became horribly depressed, had suicidal thoughts, and felt a hole in my life. I used drugs and alcohol to forget about how I felt about myself. I was promiscuous throughout highschool. Eventually became pregnant at 17 with my daughter whom i

kept. As an adult I have never filled that void in my life. I have had 4 children, mentally trying to fill that void. I have NEVER stopped wondering what that child was, boy or girl. What would he/she have looked like. Would he/she have had my nose, or my toes. Would he/she have looked like my children. I still think how old he/she would have been today. I'm tortured by it. I am almost 30 years old. It has been 16 years and I am still affected by it. I felt guilty when I had my children. My post partum was horrible. I was terrified my children would die because of what I had done. I felt I would be pay for it someday.

10. How has your abortion affected others in your life?

It has affected my relationship with my husband in a lot of ways. He is pretty passive when it comes to pro life vs pro choice. Conversations like these are disastrous for us. It is usually a huge fight just simply because he doesn't understand. I hated my parents. I was very rebellious all through highschool. I had a strained relationship with my sister who tried to be there for me, but I just didn't want to be close to anyone who shared in that experience. I was so angry.

11. Based upon your experience, what would you tell a woman considering abortion?

I have begged women not to do it. I have told them what would happen to them. Emotionally, spiritually, and physically. I would beg them not to do it. I couldn't stand for someone to do this, not only to themselves, but the baby. The baby deserves to take it's first breath. Regardless of how conceived. God has a plan for these babies. Same as you and I. They have just as much right to life as we do.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them they obviously don't know the emotional turmoil that a woman goes through. They have no idea what physical complications could result in these women, and they obviously don't care about the welfare of millions of human beings, born and unborn. These woman need to be educated as to the truth. Most women just feel as though they don't have a choice and they need to be educated to the alternatives of abortion. They need support and love. Pro choice is a funny choice of words. These women have abortions because they feel they have no choice so perhaps this group needs to change their name to No choice. No choice other than to kill your child. Women need to know they have options to them, they have choices. They can choose to give their babies a good home and family. They can choose to get themselves together and be a good parent. They can choose to give their babies life, not only for the babies but for their mental health, physical health and spiritual health.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of ID

County of USA

My name is L B . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Spokane WA

03/10/2005

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

The kind where they remove the baby by vaccuum.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I simply don't recall ever being told about the consequences of abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother did some, thinking it was what to do.

9. How has abortion affected you?

I regret doing it. I took a life and I have to live with that. I will always wonder what that child would have looked like and been like, if it was a boy or girl. It makes me hold onto my girls, keep them close. It affects me that I think about it so much. It makes me want to speak out to make a difference to others, contemplating it. People think that you can easily forget about it but that's not true. Will God forgive me for what I have done, I now know that I am forgiven as I have accepted him as my lord and savior.

10. How has your abortion affected others in your life?

It's affected my now husband, he has to deal with knowing that he lost a child, what it would've been, what it would've been like, looked like. My mom now wonders the same things.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them not to do it. It's a huge mistake. I felt relief for two seconds. You may feel relief but it's short lived. You won't forget about it, it's such an empty feeling. It's painful for you and the baby. After those two seconds I realized I had made a mistake. Don't be scared thinking I can't afford it. There are

programs today to help. You aren't given anything you can't handle. A baby is and innocent being and deserves the right to live. Give life, don't take it. When you look into the eyes of your beautiful baby you'll know you made the right decision.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it shouldn't be legal, a baby has the right to live. The person who is pregnant, with the exception of someone who's raped, they didn't protect themselves and got pregnant, so they should have to atleast give birth to the baby, don't hurt the baby by killing it. They didn't ask to be created, so don't basically punish them for your mistake. As for women who are raped, I understand that it's hard to carry and unwanted baby because of the situation, but think that the baby didn't do this. Let them be born and give them to a loving family. Don't make them go through an abortion and feel that pain and take away the life that they could have.

QUESTIONS

1. Where and when did your abortion occur?

Santa Monica CA

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I am a nurse. I know the procedure. They at first informed me that I would be given anesthesia. Then they began performing the dilatation and I asked for the pain med and they said the person who had me fill out the paper work was misinformed. I knew I was killing this baby. I wanted to know the sex, to see it. I guess to realize what I was doing? I was 19. They would not let me view the results. I still wonder if it was a boy or girl...and regret it every day of my life.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one gave me options, though I vaguely knew. I was so stressed and desperate, it seemed like the only life line and they rushed you through. I had reservations because I really believed this was a life. There just weren't any voices supporting THAT viewpoint. I didn't need gorey pictures - I knew the procedure. I needed someone advocating for the other side that I could hold onto - who validated my feelings. No one talked about feelings and that is the enduring thing - every day.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

my boyfriend

9. How has abortion affected you?

Sorrow and regret. Shame that I wasn't stronger for my child. That I took the easy way out that ended up the hardest way out. I wanted to prevent the shame of my family. Now that I have grown children, I know the potential of that life and I grieve for that child I will never know.

10. How has your abortion affected others in your life?

My husband who was my boyfriend then feels shame and grief also. Regret. No one else knows - that is the depth of our shame. We have not been able to share it with another living soul - until this testimony. It is something I can do to maybe make a difference for other 19 year old girls who just want someone to advocate for doing what their heart tells them is the right thing.

11. Based upon your experience, what would you tell a woman considering abortion?

Look for another voice and listen to it. Don't make a snap decision when you are upset. Listen to your heart.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You must protect life. You must insure at least that those facing this decision are given options in an environment that is safe to make a decision. People need to know that this decision will be with them every day for the rest of their life. They acted like it was getting a mole removed.

The State of ID

County of Ada

My name is Danette I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Fresno CA

06//1979

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Dilation and Curratage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told about how long it would take and the recovery (I was put to sleep with a general anethesia). But I was never told how the procedure was done.

5. Were you adequately informed of the consequences of abortion?

Yes No

No I was never adequately informed of the consequences of abortion. I was never verbally informed. The consent form I signed only mentioned the risk of infection and excessive bleeding. I was not told about the risk of miscarriage, tubal pregnancy, or the inability to become prenant after having had an abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

One physical consequence and a barrage of emotional problems. I felt worthless. I began heavy drinking and I became even more promiscuess(I'm not sure I spelled this correctly). I got to a point where I wanted to committ suicide because I could not erase what I had done. I felt guilty.

10. How has your abortion affected others in your life?

I was 26 when I had my abortion. The only one it affected was my dad (he never knew why I wanted to kill myself) I never told him of the abortion but he saw how emotioally messed up I was.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to. I spent 10 years as a one on one coueslor in the Fresno CA Crisis Pregnancy Center, I think they called Pregnancy Care Centers now. I also Lead The CPC Hope Team, a group of young men and women who have experienced abortion or who chose remain virgins, that went into the poublic schools

and Church Youth Groups with the message of abstinence. I myself was privileged to speak to thousands of youth in schools and churches over a 10 year period. I shared statistics and my own personal testimony with the program/ministry we had.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

All of the above. Abortion is covering a mistake, with another mistake. A mistake you live with the rest of your life. Like murder! Your taking the life of an individual who cannot even speak for them self. The heart of the fetus (which is Latin for young one) is already beating at only 4 weeks of gestation. Most girls don't even realise they are pregnant until they miss a period, by that time they are about 6-8 weeks pregnant. You can tell the sex of the fetus at only 6 weeks. I'm sure there have been many doctors to give these facts. I guess people are choosing to ignore these facts. I could only tell the court what I personally experienced having had an abortion, and I could testify to what I saw when I assisted with abortions at the doctors office. I saw emotional consequences that occurred with the post abortion girls even before the girls left the recovery room. I have also seen some physical consequences, like the girl we had to send to the hospital via ambulance because the doctor thought he perforated her uterus.

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

unknown- standard?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It was called a "surgical procedure"; not murder or the killing of a fetus. They made it sound like it was less dangerous than actually going through with a pregnancy. They mentioned statistics that pointed toward how much more dangerous a complete delivery of a live baby is.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one talks about the guilt you can't overcome; even with all the downplaying of the "procedure"; the suffering of the loss of a child and the explanation of having to explain it to any of your living children and the pain and suffering they experience over not having an opportunity to know siblings; and the possible fears that maybe you would do the same to them if they aren't good enough.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

The father (s)

9. How has abortion affected you?

I is tremendously painful to my soul when I think about them. (I have had three); I used to blame the father's to try to comfort myself, it doesn't work very well. . . I still signed the papers and laid on the table, and allowed it. I had to fight my conscience really hard not to stop it. I hated myself and quit caring about others, including my own children. I have three living children and came to Christ 14 years ago; it is still sometimes a struggle to know that I am forgiven, even for murder. These babies did nothing wrong to me; it would be easier to cope with if I were to have killed an adult and yet I would have gone to prison for that; but it is legal to kill the ones who have never done any wrong to anyone. It makes no sense that we have better standards for the already hurtful people than we do for the actual

innocent. We think of ourselves as more important, than our children.

10. How has your abortion affected others in your life?

One of the father's; last I heard, is still grieving over our decision. My oldest son, suffered through my uncaring insanity and is really making unwise choices, and wants nothing to do with me; My second son, was born with special needs because of my self-negligence in my pregnancy with him and I wanted his father to talk me into aborting him also; and my daughter, who was born after all of the insanity, hurts because I have told her and even spoke of her fears that I would do the same to her. I even told her, how it was a blessing that I was 4 mos. before I found out I was expecting her and that her father's encouragement saved her life. She is a huge blessing, but we all suffer! Her father is now my husband and he struggles to trust me and my decisions, still; even after 15 years.

11. Based upon your experience, what would you tell a woman considering abortion?

It hurts everyone you will ever meet from that point on; even if you try to keep it a secret, it doesn't go away, it makes it worse. It is a decision that continues to hurt well beyond the physical pain and suffering. So far for me, this pain will never cease until I am with Jesus and meet the babies I never met. My daughter is now a strong advocate for pro-life through it and that is my only comfort!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would ask them why we have the death penalty for those who murder and take life away from families; and yet it is legal to take a life that has never had an opportunity to be these wonderful beings? Why do we place less value on people we haven't met, because they show up at an inconvenient time for us and yet we worry about people we have already learned to love or hate, being murdered? Where is the standard and why do we rate value on people? Is any person less valuable than another and if so; how is that really determined? Why is our country so hateful that they have decided that no more are allowed to experience or make a difference; these babies that are slaughtered are probably the ones that will teach us to love one another. . . it's killing our hope!

//

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

D& C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I received no information from Planned Parenthood, either way.

5. Were you adequately informed of the consequences of abortion?

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Now, many years later and under God's amazing grace and forgiveness, I can see how horrible this was. I have children in heaven that I stole their earthly lives from. I am full of sorrow for this. I wish I'd been taught somewhere, by anyone, that abortion was wrong. But, growing up, I knew abortion was free and easy to get- through Medi Cal- and at the time I was just 14. A friend at school even joked-wrote in my year book- don't be afraid to get pregnant, that is what abortion is for. I voted Democrat because of that issue. Now, I know it was wrong, terrible...and I would have acted very differently as a young person had abortion not been available. I would have been far better off- and not have killed the innocent.

10. How has your abortion affected others in your life?

I never told my family about this- rather, I've held it in for decades.

11. Based upon your experience, what would you tell a woman considering abortion?

I'm not sure....if I had God in my life, I would have known not to do this. But it's hard to get someone to listen when they are in the situation- they need to know before they are there. I think that is why it is important kids can have access to religious groups-on and off campus- and hear both sides. I would tell

her that years from now, she may be filled with guilt over taking a life that is not hers to take.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

What happened to the right of the human-to-be? It should be curtailed to only medically necessary instances. Just having it be so available-and free-makes youth less careful and leads to abortions! If I knew there was no abortion back then I would have been more careful or abstinent!

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

I do not know.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

My father was a DR. and did not want the embarressment of my pregnancy. So he and my mother [they were separated at the time} decided it was best for me to have an abortion. I knew nothing about what was going to happen. One day I was taken to a house in Collinsville and dropped off. There were several others girls there.

5. Were you adequately informed of the consequences of abortion?

Yes No

The man had me on a table covered with a sheet. He told me to get dressed. My father was told that I was too far along and that he was not able to take the baby. I juast remember going to my home and having cramping sooo bad that finally I had to go to the bath room. NOW I realize that I passed my baby. I am soo ashamed!!

9. How has abortion affected you?

I am so ashamed. But I am so thank-ful that I have a Savior in Christ Jesus. I never would have made it without His forgiveness!

10. How has your abortion affected others in your life?

I do not know. VERY few people know about this part of my life. I am to ashamed of it. I do speak out for the pro-life movement all the time and support it with my finances after missions. That is why I have decided to speak now.

11. Based upon your experience, what would you tell a woman considering abortion?

Please do not do this terrible thing. There are other alternatives that will not ruin your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

This is a terrible thing. A women has to live with this for the rest of her life. Just because this "little one" does not breath on its own does not make it NOT ALIVE. So if something is alive the opposite is dead. If a seed of corn is planted in the ground and starts to grow it does not look like an ear of corn. But if a hoe chops it up it dies. If a baby gets chopped up it dies to. God have MERCY.

My name is Heidi I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Peoria IL

//1995

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I think I was but I was so numb I don't remember anything that was said to me. This is one of the reasons this should not be allowed or VERY restricted.

5. Were you adequately informed of the consequences of abortion?

Yes No

Again I don't know. They spent time talking to me but I have no recollection of what was said.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Every way possible!! My relationship with my husband, my relationships with my daughters, my relationships period!

10. How has your abortion affected others in your life?

I don't know it is never talked about.

11. Based upon your experience, what would you tell a woman considering abortion?

PLEASE don't do it!!! It WILL scar you for life. Not so much physically but mentally, emotionally and in some cases spiritually. This is the worst thing you could do to yourself let alone your unborn child. It is MURDER!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

PLEASE don't allow it!!

No Answer

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Myself and a friend of mine.

9. How has abortion affected you?

Ever since the abortion, I have become depressed more and I keep isolating myself from my family and friends. I do not hang out with my friends and family and I just want to be left alone. I started to have low self-esteem and started to feel guilty all the time. I am also angry on myself for committing abortion.

10. How has your abortion affected others in your life?

No Answer

11. Based upon your experience, what would you tell a woman considering abortion?

Please go and seek help and someone to talk to. There are people there who are willing to listen and to help you. Most of you may have the same excuses like I did, I am still young, I want to finish school, I don't have the money to raise a child. Don't make these excuses stop you from it. There is help there available.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Please make abortion illegal. You have no clue about all the struggle and pain that a woman has to go through knowing that she gave permission to take a life away from her womb. The healing process is not easy and the pain never goes away. Instead of giving money to a abortion clinic, hand the money towards a pregnancy crisis clinic, support for those who are in need, and pro-life groups.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of IL

County of Madison

My name is Joy Martin. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Granite City IL

10/24/1981

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

first trimester, vacuum aspiration abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

i thought the baby was only still a "blob of tissue" & no one told me there might be physical, mental, emotional or spiritual consequences...

5. Were you adequately informed of the consequences of abortion?

Yes No

no one told me that i would deeply regret it someday & that i would suffer w/ depression, anxiety, shame, guilt & anger for years to come. that my children whom i chose to give life to would grieve the loss of their brother or sister!

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

No Answer

9. How has abortion affected you?

i have deeply regretted it for over 10 years now. i have suffered from depression, anxiety, shame, guilt, loss of worth & intense feelings of worthlessness & anger. i have lost all respect for myself & my husband, the father of my babies

10. How has your abortion affected others in your life?

my husband has been deeply wounded for his part in our abortioons. specifically, he did not stand up & protect these unborn children. he did not defend their right to live! we do not respect one another as i believe we would if we hadn't aborted our 2 little ones. my children, particularly our oldest daughter really grieves the loss of those 2 siblings!

11. Based upon your experience, what would you tell a woman considering abortion?

i would tell her not to do it b/c it can never be undone! there's no reversing this decision and this is a baby, a real baby, her baby. one which given some time & clear thinking, she'll realize is not the problem. the baby does not deserve to die! it is innocent. it is not like getting a tooth pulled! there are serious & real consequences to abortion & life for her will never be the same!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

that women should not be pitted against their very own offspring. in an age when it is illegal to kill or steal an eagle's egg, why is it that we can KILL our own babies? and why is the court so supportive of this? it makes no common sense for a people to kill its own offspring, esp human beings made in the image of God! Abortion is wrong on every level ie... morally, physically, spiritually, emotionally, (how can a woman kill her own child and not SUFFER?) and legally. all laws of nature point to the fact that abortion is going to harm not only the babies that it kills but also everyone else involved in this decision, especially the mother. once a mother always a mother. abortion never erases that fact!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of IL

County of effingham

My name is kelly shane. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

effingham IL

//1990

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

No Answer

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They took only the basic information from me. there was no counseling of any kind, about what to expect afterward, certainly no mention of the emotional aspect of the abortion, which to me far outweighs the physical.

5. Were you adequately informed of the consequences of abortion?

Yes No

Again the emotional aspect, i don't believe ANYONE would have an abortion if they had any idea of the devastating results. It took me 17 years to realize that i wasn't crazy and that i could actually have a life that was not full of self-loathing and humiliation.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

No Answer

9. How has abortion affected you?

It affected me on so many levels. I have no self-esteem, i suffice with an eating disorder, i had countless relationships that i could not commit to. i drank, did drugs, suffered from depression and debilitating anxiety attacks. there seemed to be no end to my pain. I am 40 now and 3 three years ago i got help. I am now the Post-Abortion counselor at out local pregnancy center and have been for three years. i have learned that what i had was post-abortion stress and yes it was real!

10. How has your abortion affected others in your life?

I am sure i affected many people over the years. Myself, my kids (i have 3), my family and friends. the main person i hurt was my ex-husband. My life was a mess when i met him and for 10 years we battled

it out, but it got the best of me and i left him, if i knew then what i know now maybe things would have been different.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not do it. It is not a quick fix, it will not fix anything. Explore your options and get the details. For me it was what followed that was the worst. 17 years of Hell!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Not only are you taking a human life, you are forever altering your own. No one tells you the horrid details about Post-Abortion Stress, it is not even recognized. I am here to tell you that it is a real thing, and should be seen as such. The experience changed who i was, who i am today. It forever crushed who i might have become if i had chosen differently. Abortion takes the life of your child and slowly kills you.

HOW MY ABORTION AFFECTED ME

The State of IL

County of Mercer

My name is M H . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

evacuation

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

There was a woman who spoke with me briefly to the affect of, "are you sure this is what you want to do?" My response was "yes" and that was about the size of her counsel.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

the father of the baby

9. How has abortion affected you?

I have thought about what I did many, many of the days of my life. What seemed like a solution at the time has had a profound affect on my life. It still makes me feel sick to think about that day and the little life I allowed someone, in fact paid someone, to snuff out. Of all the events of my life, that is the one I would absolutely change if I could.

10. How has your abortion affected others in your life?

My husband is the most significantly affected because he feels responsible for this event.

11. Based upon your experience, what would you tell a woman considering abortion?

It may seem to be a solution to your situation, but in fact you would be setting in motion the start of a lifetime of pain and regret that you can never change, some of which may take years to surface, some which will become apparent as soon as you leave the Doctor's table, by taking the life of your unborn child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Every woman who takes the life of her child will be scarred for life, emotionally and probably physically, and that pain will in some way or another resonate through her life in a negative way, more ways than one can imagine. There are so many people out there willing and ready to help, even if the child has a handicap or severe damage, there is always a better way out. Murder is the taking of an innocent life whether it is in the womb or out of the womb, and abortion is just another name for murder.

HOW MY ABORTION AFFECTED ME

The State of IL

County of USA

My name is Jacqueline Conrad. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Chicago IL

03/12/1982

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction Method

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had no fetal development knowledge, and did not know what an abortion was or what was going to happen to me.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told about the physical and emotional risks of an abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My family and my friends, no support

9. How has abortion affected you?

I had severe depression and was not able to bond well with my children. I have had guilt and shame over my abortion. I felt very inferior to other people because of the shame about the abortions.

10. How has your abortion affected others in your life?

My 3 children did not get the attention and love they deserved. I had depression and anger which affected my marriage.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion is killing of a baby and she will not be able to pretend it never happend. She will be negatively affected sooner or later. Abortion is not the easy way out. Find someone who will help you, at lease get all the information on abortion you can before you do it.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Abortion should not be legal because it hurts men,women family relationships and society. Abortion is being miss-used and women are being pressured by circumstances or forced by someone to abort aganist their will. Abortion did not improve my life at all, I have had to overcome many emotional problems. I now worry about developing breast cancer in the future.

1. Where and when did your abortion occur?

Jacksonville NC

10/18/1990

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

D&C or D&E

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was quick and relatively painless and a lot safer than childbirth and as safe as having a wisdom tooth removed.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was NEVER told or advised of the excruciating physical pain and definitely NEVER told or advised about the dreams and flashbacks I'd have YEARS later.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boyfriend

9. How has abortion affected you?

I'm totally against it because abortion is not only mercenary but extremely barbaric; on par physically with what the English have done to many of my Welsh and Scottish ancestors. Abortion has left me personally with the knowledge that abortion hurts like hell physically and emotionally and that there's little difference between a Civil War field surgeon's medical kit and that of a modern abortionist.

10. How has your abortion affected others in your life?

I now have nearly twenty years later an exboyfriend that still refuses to acknowledge that he raped me and that he emotionally and verbally forced me into choosing abortion. At least this is the way I still feel emotionally.

11. Based upon your experience, what would you tell a woman considering abortion?

There are literally THOUSANDS of private secular and religious persons and organizations that would

be honored to help both you and your unborn child, whether you choose to keep your baby or place him or her for adoption into a loving family.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

MY GOD WHAT ARE THESE JUDGES AND POLITICIANS AND SPECIAL INTEREST GROUPS THINKING - TO LEGALIZE THE BARBARIC KILLING OF PREBORN BABIES?!? W H A T ARE THEY THINKING?!?

My name is Julie Holland. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Chicago IL

04/04/1985

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

I can not remember the name

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I carry that scar with me daily. I am not 54 years of age and would not allow another pregnancy remembering how easily I chose abortion. At that time, it was a "thing" and I was so overwhelmed with personal problems, I could not see the pain this would inflict. I hid it from everyone and only of late have spoken out and that is because now I see how wrong I was and it is. It is life. Period. I suffer from depression, am a recovering alcoholic and addict and that all started after the abortion took place. If it had not been so easy to have completed, I may have thought twice. If it was not allowed I would have accepted that child and been rewarded with his/her life. Instead I look at other children and cry.

10. How has your abortion affected others in your life?

I had a close relative also choose abortion and she carries many of the same scars I do. To this day we can not talk about it without deep regret at our decision. The majority of women I have been open with and have also had abortions, feel the same way .

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to sit down, pick up the Bible and read on the Lord's word. I would tell her of the pain I felt then and now. I would tell her that no matter the circumstance of the pregnancy, that child is a gift that can not be replaced. I would tell her that being the murderer of your own flesh is something no human wants to carry.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would ask them why murder is against the law but not for an unborn. I would ask them to explain why pro-choice means pro-death. Women have choices, abstention, birth control, adoption. We live in a society where consequences are no more. Do what you want, when you want, and to whom you want. It's OK. That is not true. Perhaps if abortion was not legal women would take the necessary precautions. If we do not allow euthanasia, how can we allow abortion? If there is a heart bearing albeit in the woman's womb, how can we stop that heart and not call it murder?

HOW MY ABORTION AFFECTED ME

The State of IL

County of McLean

My name is B R I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Peoria IL

12//1987

2. How many weeks pregnant were you?

20

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I thought I was only a few weeks pregnant. They asked me repeatedly if I was sure I was only a few weeks along. But the baby fought very hard and I begged them to stop. But they wouldn't. And afterwards, they asked me whether I wanted to know whether it was a boy or a girl. And they had a hard time "getting everything". So, I was somewhere in my second trimester.

5. Were you adequately informed of the consequences of abortion?

Yes No

I have struggled with guilt, sorrow, loss, depression and anxiety these last 21 years because of the horrible thing that I have done to my baby.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend wanted me to.

9. How has abortion affected you?

I still cry about once per week about it. I relive the procedure over and over. I have nightmares and bouts of depression as I struggle to come to terms with my selfish and evil actions.

10. How has your abortion affected others in your life?

Many years later, when my parents found out, they were horrified and grieved. They still mourn the loss

of their grandchild.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. You know it is a baby, and you will never forget the moment your murdered your own child. It will haunt you to the moment you die.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder. And the mother is permanently scarred emotionally for the rest of her life. There is no forgetting. I could have chosen life for my baby. There were other options such as adoption or keeping the baby. Abortion kills the baby and hurts the mother forever.

9. How has abortion affected you?

After 11 years of denial the pain of my choice came crashing down on me. My abortion has caused me deep and perpetual emotional pain.

10. How has your abortion affected others in your life?

I do not know, it has been a very private thing.

11. Based upon your experience, what would you tell a woman considering abortion?

To be brave and have the child

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I don't know right now how to balance the moral wrong of abortion and it's very real and negative emotional effects on women and the legality of abortion. For a long time abortion seemed to me to be the "lesser of two evils", but I am no longer comfortable with this position. I honestly do not know what I would tell the courts.

HOW MY ABORTION AFFECTED ME

The State of IL

County of DuPage

My name is Narda Rothermel. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

New York NY

08//1971

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

Not sure of the term - used a vaccuum-type devise

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I went to a Planned Parenthood center - basically a large warehouse at the time. They asked if I wanted the "fetus". If I wanted to have a baby. I said, "No", not now. They said they could arrange for me to fly to New York City and have an aboprtn where it was legal. It was not legal in Illinois at the time. She said it was easy. It cost about \$500.

5. Were you adequately informed of the consequences of abortion?

Yes No

All the lady really told me was that I would get rid of the fetus. That "it" wasn't a life. There was no compassion - no explanation of the procedure, no explanation of the consequences. Just how to get the ticket to New York and who to meet at the airport. Then, after the abortion, I would fly home and it would all be over.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my Mother - She couldn't stand the shame.

9. How has abortion affected you?

A few months after the abortion I became very depressed. I started smoking pot, drinking alcohol, then tried every drug you can imagine. . . uppers, downers, and even heroin. I tried to commit suicide several times. I ended up in counseling, but nothing helped me to get rid of the guilt and pain. I think of my baby and how I could have raised it or I could have given it up for adoption. I think about how my

children would have another sibling. It has been a terrible thing to go through. You cannot go back and change it.

10. How has your abortion affected others in your life?

The Father of our unborn child also went through depression and my sister and brother-in-law were devastated. My Mother has remorse for helping me obtain an abortion. I hid it from the rest of my family. Some still do not know I went through an abortion. It is so shameful.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT DO IT! There are so many loving people who would adopt your child and give them a wonderful life. Do not destroy this precious child. Please let them live - and be proud that you made a difficult but righteous decision to go through the pregnancy and have the baby. Nothing is worth the pain of knowing you destroyed another human being - especially your own child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that it is unhuman, degrading, and devastating. It should be outlawed. It only brings unimaginable pain to the person having it and it is murder. It is only by the grace of my God and Savior, Jesus Christ that I am still alive. By His forgiveness I have been able to overcome the devastating depression I went through. To live my whole life knowing I killed my own child is about the worst thing I can imagine happening to me. Please stop allowing women to kill their unborn. They cannot understand the guilt and pain it causes and how it will affect their life forever. So many people would love to raise that precious child. Give it up for adoption - be proud you made that decision and did not destroy this precious gift from God!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of IL

County of LaSalle

My name is Rhonda Clark. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Peoria IL

10//1996

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

I'm not sure. I just remember being in a reclined doctor's chair and being so scared.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was informed, but not by anyone at the office.

5. Were you adequately informed of the consequences of abortion?

Yes No

No, I felt the entire time like I was a cow going to the slaughter house. I just remember how quiet it was. I remember sitting in a room after it was over with tons of other women. Nothing was private. The part that is the hardest for me is the father of the baby and I married a year after the abortion and now have two sons. I can't even begin to explain the guilt and sorrow we have. We do a great job surpressing our emotions though.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I usually surpress my feelings, but when they do surface I have such shame and guilt.

10. How has your abortion affected others in your life?

My husband is affected in the same ways I have been. I feel like the people who do know have less respect for me. It has been almost 12 years and it bothers me the older I get. I was only 20 years old. If it wasn't legal I would never have done it.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her it must be in God's plan for you to be blessed with this baby and to let the baby's voice be heard. Whatever God has planned for you is not more than you can endure.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would ask each member if they had any children. Then I would ask them if they were excited when they found out they were pregnant or when their wives were pregnant. Then I would ask them if they would dream of killing their baby. I would also ask them if they would be confident in going before God not doing something about this gruesome law.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of IL

County of Kankakee

My name is Anne Penney. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Chicago IL

04//1996

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I knew that I was terminating my pregnancy but I wasn't sure exactly how that would be done. I knew that I was having an abortion, but I wasn't sure of the specifics of how an abortion was done.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no clue. Nobody told me how I would feel afterwards or what may happen physically.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

a cousin who had one before

9. How has abortion affected you?

It has affected all aspects of my life. My trust in men, my self worth, my faith in God. I have felt guilt and shame for years. I will never forget what I did to my baby.

10. How has your abortion affected others in your life?

My mom has since found out and also feels extreme guilt because I didn't feel like I could go to her and tell her that I was pregnant again. The father of the baby doesn't say much but I know that it has affected him deeply as well.

11. Based upon your experience, what would you tell a woman considering abortion?

Please, please, please consider ALL other options first. This will affect you for the rest of your life. The pain never goes away. Give your baby a chance!

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

You are basically giving a woman a gun to hold to her head. She has no clue what's best for her or her child while she's in the state of mind of considering an abortion. If abortion were not legal, it wouldn't even be an option for most.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of IL

County of North Chicago

My name is JodiLynn Pautz. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Norwich CT

01/04/2007

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

i believe it was the vacuum extraction-- i can't remember the exact name.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

No one tells you about the nightmares you will have; about the guilt you feel, or about how everytime you hear a baby cry, you want to cry too. No one tells you about the emotional pain you feel (as opposed to joy) when you eventually DO decide to have another baby. I'm pregnant now, and I've never been more miserable, mostly because I'm due exactly (to the date) 2 years after my abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

myself, and my (at the time) boyfriend

9. How has abortion affected you?

As i stated before, i'm pregnant now, and i'm not happy. i should be overjoyed that my husband and i are having a baby, and i'm not. i constantly think about that other life that was growing-- what made that child so unlucky, that it had to die and this one gets to live? I still get nightmares, though they aren't as often as when i first chose the abortion. But they do still come.

10. How has your abortion affected others in your life?

I met my husband shortly after my abortion, and told him everything that had happened. I think he has had to take on a great deal of responsibility and trauma because i made a horrifying decision. it has been very hard on him emotionally also, especially when i'm not happy about our current pregnancy. my family was devastated-- that child would have been the first grandchild for my parents, and my mother had to try and explain to my autistic brother why on one day he was going to be an Uncle, and

the next day that he wasn't. it was extremely difficult, and i still don't think he know the truth. for that, i am always going to feel guilty.

11. Based upon your experience, what would you tell a woman considering abortion?

i would tell her that it may seem like a quick fix to a difficult situation, but there are alternatives. i would say that if you are going to rid yourself of a gift, at least give the gift away, and beg her not to destroy it. then, i would be honest about the emotional trauma she WILL have after she does it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say that if they want to keep horrifying choices legal, then why do they put away murderers and rapists? why not make that legal too? there's emotional trauma linked to each of those, and after all, it's all a matter of choice right? Then, after I'm finished being sarcastic, i would sincerely look at the court and tell them that no kind of murder should be legal, not even of a fetus. It's not our place to decide when a child is or is not "living"-- if it weren't living, it would not be growing.

boyfriend and my parents

9. How has abortion affected you?

No one told me how empty I would feel. How absolutely guilty and miserable I would feel afterwards. Deep down I knew I had helped kill my first born.

10. How has your abortion affected others in your life?

I've pretty much kept it to myself. Others know but no one talks about it.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. Adoption is a much better choice. I wish I would've given my child a chance. Instead of making my life easier, my abortion made my life miserable and full of depression.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Bottom line; abortion kills a baby, the soul of the mother and sometimes of the father. It's a no win decision.

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Planned Parenthood staff said it was good to have the abortion early because "it wasn't a baby yet - only a blob of tissue." Didn't inform me of any physical pain, consequences, or emotional ramifications.

5. Were you adequately informed of the consequences of abortion?

Yes No

Not given any information on amount of bleeding, physical pain or other consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Planned Parenthood Staff

9. How has abortion affected you?

grieve often for this lost child; had very difficult and long labors with subsequent pregnancies/deliveries. Doctor said this was most likely due to previous abortion.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! It is a precious, innocent baby - not a blob of tissue - in your womb. Give your baby life, and give a childless couple the opportunity to cherish and care for that baby if you cannot or do not want to keep him/her.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Absolutely not! Most of the time women are not informed of the emotional and physical consequences

of abortion; these consequences are real! It is not our decision to take an innocent life; Women should think about that before they have sex! Another word for abortion is murder! You are murdering a baby! a child!

9. How has abortion affected you?

It has destroyed me as an individual. I wake up unhappy and I go to sleep even more unhappy. I wish I could just find the old me again. I really miss her.

10. How has your abortion affected others in your life?

My husband has to cope with my pain and knowing that I resent him for this decision. I think my children have suffered because I am not the happy mom I once was.

11. Based upon your experience, what would you tell a woman considering abortion?

That depends on how certain she is about the choice she is making. If she had any doubt in her mind then No, but if she really feels that abortion is what she need to do then Yes.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I think it should most definitely be legal, however there should me at least a few sessions of counseling and education given to the pregnant woman prior to the procedure.

My name is Jody Aldridge. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Peoria IL

//1979

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I went to National Health Care Clinic and said I wanted an abortion and they gave me no counsel, only set the date for me to come in.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me about any consequences - only that in a few days I'd be fine.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I became very promiscuous and then got married two years later, and had a daughter two years after that. I struggled with being a workaholic until I found God's forgiveness at the age of 34. I have struggled with sexual dysfunction since the birth of my daughter and still have self-esteem issues at times.

10. How has your abortion affected others in your life?

My daughter knows that she has a brother or sister in heaven, and my husband has tried to be understanding, but the effects on my psyche and personality arise at times and bring the past to the present to be faced over and over again - all through the help of Jesus.

11. Based upon your experience, what would you tell a woman considering abortion?

God loves every woman as a precious daughter and that no situation they are in is reason enough to put their child to death - with God there is hope and life, with abortion there is nothing but death and heartache ahead - for the rest of their lives. Let your child live!!

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

There is never a reason for man to take matters of God-given life into their own hands - never a reason to choose death over life - life begins at conception!!

My name is Linda Neill. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Bloomington IL

10/23/1987

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was a college sophomore & had no concept of what the procedure was. Planned Parenthood made the suggestion and referral to the abortion clinic.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea that I would be forever changed. That, though the baby's life was terminated, I would carry the pain of my choice for the rest of my life. I cried throught the entire procedure and the nurse just rubbed my head...no one ever asked, "are you sure you want to do this?".

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I remember feeling when I was pregnant that I couldn't wait until I had the abortion so that my life would go back to "normal". I remember as clearly as if it were yesterday (and it was over 20 years ago) walking to class the Monday after the abortion, thinking, "I will never be 'normal' again". I have forgiven myself for my choice, but there is still probably not a single day that goes by that I do not think about that child and what that child could have become.

10. How has your abortion affected others in your life?

During my pregnancy with my son my husband spent hours listening to me cry and holding me as I learned the amazing ways my son developed every week and thought of how developed the baby I aborted was.

11. Based upon your experience, what would you tell a woman considering abortion?

That an abortion is not a solution. I know it is so overwhelming to have an unplanned pregnancy, but please consider having and keeping the baby or giving the baby up for adoption. You may think that these options would alter your life too much, but I assure you having an abortion will also alter your life permanently. There are people and places that can help you through this time. Please, please don't be deceived...you will regret your choice someday if you choose abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion scars women's hearts & minds & leads to depression. There are many, many childless couples who would greatly embrace a baby. There was a time in history that many white Americans actually believed that Africans were "sub-human" and could be bought & sold. The Natzis believed that the Jews were "sub-human". In America today, many believe that a baby of up to 24 weeks gestation is not truly a life. Please, please see the truth that these "cells" are a real life. Have you seen a mother mourn over a miscarried 6 week fetus? Why is it that baby is allowed to be killed and no one mourns?

10. How has your abortion affected others in your life?

My baby would have been the only grandchild my parents would have had and I denied them that heritage also

11. Based upon your experience, what would you tell a woman considering abortion?

THINK AND THEN THINK AGAIN. Birthing the baby and giving it up for adoption would be a better option than destroying a life and living with eternal regret.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

THEY ARE NOT GOD AND THEY ARE PRESUMPTUOUSLY FOOLISH TO THINK THEY CAN PLAY GOD WITH THEIR IMMORAL RELATIVISTIC DECISION MAKING. STOP TRYING TO JUSTIFY SIN FOR MANKIND.

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They didn't tell me how it was going to be done...what would happen to the unborn...what would happen to me. They treated my unborn baby like it wasn't a baby at all, but something foreign.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told of the pain, suffering, guilt, and sorrow that would follow me for the rest of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

the baby father

9. How has abortion affected you?

How has it affected me? the question is how has it not affected me. I think of it always. I have a void where a living child should be.

10. How has your abortion affected others in your life?

I've taken my frustration out on others. I am no longer with my unborn baby's father, it drove us apart. I am suspicious of others motives. i carry the burden with me and others see it.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT!!! Its not worth it. Its all based on lies and and suffering of others. Its something you will carry with you forever, like a scar. DON'T DO IT, DON'T DO IT, DON'T DO IT.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

abortion not only kills, it hurts and it drags its pain out for a lifetime. abortion takes away life and gives

nothing but death and sorrow. An unborn child is human, and deserves the rights that all humans of all race and creed deserve.

9. How has abortion affected you?

I am still sad when I think of the innocent child I allowed to be ripped from my body. I was 27 and I let feelings get in the way of good judgment and killed a precious life. I put the onus on no one but myself for making such a sad and terrible mistake. I live w/the regret of not knowing and growing w/my child. I still cry when I dwell on the loss of my child and it has been 30 years since.

10. How has your abortion affected others in your life?

I haven't revealed my choice to but to a very few, and I broke-up w/the father of my child w/in a year after the abortion and moved away.

11. Based upon your experience, what would you tell a woman considering abortion?

I would advise her to seek counsel at a pregnancy clinic (not an abortion clinic) and also to have an ultrasound of the baby. I wish I would been presented w/the opportunity to do the same; my decision might have been different.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

With respect to the abortion issue, I believe everyone has a right to life whether it is before we take our first breath, or once we take that breath.

2. How many weeks pregnant were you?

3. What type of abortion was performed?

D/C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It was a long time ago, that is why I don't recall all the information. I remember that the Dr. yelled at me and said that today was the last day I could have the procedure done due to how far along I was (and I had chickened out before)

5. Were you adequately informed of the consequences of abortion?

Yes No

They only told me what type of medical things to look out for (as far as bleeding, fever).

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

I feel my parents did and the Dr.s influence

9. How has abortion affected you?

Many tears, regret, guilt and fears (breast cancer, others finding out). Shame and ongoing issues that finally eased when I did a Bible Study on the topic. I cried many Mother's Days until I did this study and still wonder how and if I will tell my daughters of this issue.

10. How has your abortion affected others in your life?

My husband has been hurt greatly and has shame and regret, too. No one else talks of it ever.

11. Based upon your experience, what would you tell a woman considering abortion?

To help her to know that there options available and the pain and guilt that I have felt.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The procedure cannot be dealt with in the same a regular surgery can. People do not choose an

illness, but we make a choice when we have sex. At that point, there are 3 people involved, one of whom has no voice, no choice in the matter. Adults need to stand up and be responsible for the actions and the consequences.

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

NOT SURE! I HAVE BLOCKED THE WHOLE OCCURANCE DUE TO SHAME AND CONDEMNATION

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

IN MY FAMILY, IT WAS ALWAYS THE ONLY WAY OUT OF A BAD SITUATION. THE OPTION OF CARRYING A BABY TO FULL TERM AND GIVING IT UP FOR ADORTION WAS NEVER ADDRESSED. UNTIL I HAD MY FIRST CHILD THAT I UNDERSTOOD, THIS WAS A LIFE DID WAS NOT GIVEN A CHANCE TO LIVE BECAUSE IT WAS NOT CONVENIENT. THE HURT OF NOT KNOWING THE SEX OR THE PROBLEMS THOSE CHILDREN WOULD HAVE SOLVED IN THE EARTH STILL TODAY CONCERNS ME.

5. Were you adequately informed of the consequences of abortion?

Yes No

AFTER I HAD MADE THE DECISION NOT TO SUBMIT MYSELF TO SUCH AN ACT, I FOUND OUT THAT MY UTERUS COULD HAVE BEEN TAKEN OUT WITH THE BABY AND NOT HAD THE OPPORTUNITY TO HAVE CHILDREN AT ALL.

MY MOTHER AND THE FATHER OF THE CHILD

9. How has abortion affected you?

I WISH I HAD NOT DID IT. MY LIFE BEFORE CHRIST WAS MISERABLE BECAUSE OF IT. I HAD THOUGHTS OF COMMITTING SUICIDE MANY TIMES AND I DO MY BEST TO WARN OTHER YOUNG LADIES THE CONSEQUENCES THAT WE HAVE TO LIVE WITH FOR THE REST OF OUR LIVES. THE EMPTYNESS AND DISSPEAR OF NEVER BEING ABLE TO KNOW THE SEX OR FUTURE OF YOUR SEED. HOW MUCH BETTER COULD MY LIFE HAVE BEEN.

10. How has your abortion affected others in your life?

MY OTHER CHILDREN ASK IF THEY COULD HAVE HAD A BROTHER.

11. Based upon your experience, what would you tell a woman considering abortion?

THE CONSEQUENCES OF YOUR INNER SELF IS NOT WORTH LOOSING IT. YOU CAN NEVER GET THAT BACK. IT IS A SELFISH ACT THAT KNOW WOMEN SHOULD LIVE WITH. THE BABY HAS A CHANCE AT LIFE, SO WHY TAKE THAT AWAY JUST BECAUSE OF A MOMENT IN TIME THAT WAS NOT PLANNED OR EXPECTED. IF YOU VALUE YOUR LIFE, WHY NOT VALUE YOUR CHILDS AND GIVE THEM A CHANCE. THEY MAY HAVE A GREAT PLAN FOR THE FUTURE.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

IF ABORTION ARE LEGAL, THEN WHY IS THE MURDER OF PERSON ILLEGAL? THE CHILD HAS NOTHING TO DO WITH THE LAW, BUT IS NOW GIVEN THE CHANCE TO VOICE THEIR OPTION. THE COURT SHOULD PROTECT THE CHILDREN IN THE WOMB TOO.

the father of my baby and the only friend who knew

9. How has abortion affected you?

i had suicidal thoughts for a while soon after, then for years i would just cry and get really down about it. i didn't like to be around kids anywhere near the age my baby would've been. then when my husband and i had our first baby, i went through some hard times, because i had to relive part of it, and i had to talk about it some (because the doctors want to know if it's your first pregnancy or not).

10. How has your abortion affected others in your life?

i don't talk to the baby's father anymore, and not very many people know. no one close enough to be affected knows.

11. Based upon your experience, what would you tell a woman considering abortion?

don't do it under any circumstances. all that crap they try to convince you of is a lie. saying it's not a baby yet, it's just cells, no one has to know, you'll be back to "normal" in no time... not one bit of it is true. as soon as you have the abortion, you know without a doubt that you had life inside you, and the life is gone. as soon as it's all over, the lies lose their grip, and you are left with the realization that you just chose to kill your child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

keeping abortion legal makes women feel that maybe it's not awful, and that is absolutely untrue. at least if it were illegal, and women had to jump through some sort of hoops to do it, maybe they would be forced to think a little harder about what they're going to do. and it being illegal will give many women more strength and more ground to stand up to those who are pressuring them to do it.

QUESTIONS

1. Where and when did your abortion occur?

Fort Wayne IN

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I recall being told that I could change my mind and carry the baby to full term. However, being only 17 & not believing that I could handle having a baby, I went ahead & had the abortion. No one said anything about any physical or psychological consequences of having an abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents & the father of the baby.

9. How has abortion affected you?

Speaking for myself, if there were any physical or psychological problems after the abortion, they were already there well before it was done. I have never had any problems that could be linked to the abortion. God has forgiven me, & that's enough. Nothing is ever going to bring that baby back, so all I can do is just get on with my life.

10. How has your abortion affected others in your life?

I have no contact with the father, which is probably just as well. As for my parents, to this day they still believe I did the right thing in having the abortion- I did it to uphold "The Family Honor: 'Honor your father & your mother that it may be well with you & you will live long on the earth; this is the only Commandment that has a promise.'" A skewed interpretation of the 4th Commandment, to be sure, but that's how my parents are- Honor is everything! They think it's just my religious beliefs that determine my being Pro-Life now. I don't try talking to them about it anymore. In fact, very, very few people even

know I've had an abortion so long ago. My husband didn't even know it until my sister told him- she was very surprised I never said anything to him. And as I said, nothing can be changed, so I have to just move on.

11. Based upon your experience, what would you tell a woman considering abortion?

Do whatever you can to stand your ground in not having one. Honor, gaining love, those things just don't cut it in justifying having an abortion. It's a decision you'll have to live with for the rest of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Pity the court can't or won't understand that the unborn deserve a chance to live and do some good for our world in the future. There may not be a future, but just in case there is, it would be nice to have some people in it!

The State of IL

County of Madison

My name is V N I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Guam IL

//1982

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

Surgical/outpatient where I believe doctor tore the baby apart

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I suppose not because I didn't believe then that the baby was fully alive or would feel any pain.

5. Were you adequately informed of the consequences of abortion?

Yes No

What consequences? Aside from the memories. Don't know if I have had physical results of such although I do wonder.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Joint decision -- husband/wife

9. How has abortion affected you?

I regret the decision even though it was a joint decision between my husband (still is) and I. We both thought there was something "wrong" with the baby as in severe disabilities (ie vegetable) and felt this was the best choice. My husband still feels this way but I don't. I keep wondering about that choice.

10. How has your abortion affected others in your life?

Most others in my life don't know. If questioned at the doctor's office I say it was a miscarriage.

11. Based upon your experience, what would you tell a woman considering abortion?

In a word: DON'T as you will eventually and always regret the decision. It is better to give a baby up and find it later if that's what you want rather than kill it and always wonder WHAT IF.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it is basically and morally wrong. The baby is alive and does feel pain and it's been proven medically. So there is no real reason to have an abortion but that the courts should help the mom-to-be with support to give up the baby instead.

HOW MY ABORTION AFFECTED ME

The State of IL

County of Cook

My name is Judy Stott (Dasse). I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Mountain View CA

01/29/1973

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

D & E

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The counselor i was seeing (also happened to be a Protestant minister) said "You're in luck. Just last week the U.S. Supreme Court legalized abortion." and it went on from there. He said he knew a doctor that would do it and not too much thought given to this....just went with what he said to do...(Mercy, Lord Jesus)

5. Were you adequately informed of the consequences of abortion?

Yes No

Even tho i am in the medical field, i did not give too much thought to this actually being a baby or the consequences of this decision. I love children, always have, still do... Do not know why i actually made that choice....then.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

not this one (had two) God, have mercy..

9. How has abortion affected you?

My values totally changed...even before the abortion, we had stopped going to church and praying, started believing anything in life was ok as long as a man and woman agreed it was ok---much like in the movies and in the rest of California at the time...am so ashamed to tell you this now that i know how evil abortion is and was.

10. How has your abortion affected others in your life?

So much that happened was not related to the abortion (as we now know how this is related---i am very much involved with Pro-Life and have been for many years.) Many many people were affected --- and

the fruits are still manifesting --wish i could put it all in words...

11. Based upon your experience, what would you tell a woman considering abortion?

Not to do it. Consider the effects...i would tell them it destroys relationships, marriages (could be your own) and families and it will change you in ways that you won't even know what hit you--until later, perhaps years later. Also, there are known effects to this great sin and you will probably get into one of these "consequences" at least until you "come to" and realize the horrendous evil that abortion actually is.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

(Lord Jesus, please give me the words that will touch hearts and make a difference....) I would tell them to look at my own life and how it has been messed up ---relationships, etc...

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of IL

County of Dewitt

My name is V B I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Champaign IL

04/07/1997

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

I am not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was traumatized by what had happened to me. I got pregnant because of a rape and I was scared. I contacted a women's health clinic to get information. I was frantic when I called them. I did not tell any of my family members. To this day there are only a handful of people who know. I had no idea what was going to happen to me.

5. Were you adequately informed of the consequences of abortion?

Yes No

The only consequences they told me of was that I would not be pregnant any more.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has been a constant thought in my life. From the day it happened it changed everything about who I was. I was in college, my senior year, when it happened. I had a 3.6 GPA and the months after it happened were so traumatic that it dropped to a 2.8 and I almost failed the rest of my classes. I was distant from everyone around me. I thought I was going to be punished for what I had done. I became bulimic, sick, depressed, suicidal. I made horrible decisions in my life. Two years after it happened I met someone who listened to my story and loved me anyway. We were married in 2000 and decided to start a family. I was terrified of losing the baby. I cherish my kids, I have 3 now, but I live in constant fear of losing them because of what I did. I had a miscarriage in 2003, before the birth of my son. I knew it was my fault and it was only part of my punishment. I became withdrawn and depressed again. Then when my son was born - exactly 8 years to the day after my abortion. I adore my children and am completely obsessed with them, but I live in fear and confusion and pain and regret.

10. How has your abortion affected others in your life?

My husband doesn't understand why it is so hard for me to be intimate with him. He also doesn't understand my need to be in complete darkness when we are intimate. I hate myself and I hate what I have done. I am not a normal wife. My mom knows what happened...now. It is a struggle that I deal with occasionally because I know she was so hurt that I didn't tell her what happened and let her help me. It also makes my working relationships hard because I am vocal about my pro-life stance...not being able to explain why.

11. Based upon your experience, what would you tell a woman considering abortion?

I would beg her on my knees to reconsider. I would tell my story and cry with her. I would volunteer to help take care of the baby or find the baby a loving home. I would adamantly work with everything in my power to encourage adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I am not sure I could say the words outloud because no one can understand and there are no words to fully describe the torture you experience after an abortion. It would be like legalizing torture, which these courts seem to be adamantly against. I would ask how they can save the trees but kill a child, an innocent little being who is a gift from God. I would beg them to think of their daughters experiencing this kind of pain - pain that cannot be described fully and never goes away. Twelve years later, it is like it happened yesterday.

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

suction and curretage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was unaware of the amount of physical pain before and after.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed about the immediate and long term psychological suffering that would occur.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

boyfiend (father of the baby)

9. How has abortion affected you?

I suffer from depression, anxiety, anger, fear.

10. How has your abortion affected others in your life?

Regret, saddness. Plus, the pain I feel is sometimes put on them in unhealthy ways.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not have an abortion. It will effect you for the rest of your life. Everyday you will remember. Please see a CareNet Pregnancy center and they will help you for Free!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It shouls not be legal. Less babies would be killed. Had it been illegal, I wouldn't have even thought about having an abortion.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of IL

County of DuPage

My name is Judy I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Los Angeles CA

07//1974

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

not sure....evacuation?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

was told that it would be all over and I could go on with my life and not burdened by this mistake. I would have plenty of children when it was right for me. The "fetus" was not a baby and would feel no pain.

5. Were you adequately informed of the consequences of abortion?

Yes No

was told I would go home the same day and would need a ride as I would be a little groggy and not able to drive.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

boyfriend

9. How has abortion affected you?

Even though I now know that my Lord and Savior, Jesus Christ has forgiven me, I still consider that to be the biggest "mistake" of my life and wonder so often what that child would have grown up to be. I had no right to interfere with the plan for that person's life - it was NOT my choice. I wish that someone would have come up to me and told me that this was a baby with a future and would feel pain and that my life would be one of misery for the next 30+ years. I was ashamed and alone and afraid and no one was there to help me.

10. How has your abortion affected others in your life?

When my daughter went off to college, I shared my "secret" with her and asked that if she found herself in that condition that she would talk with me before she made any decision. I have also prayed at the

newest, biggest abortion clinic in our town and hope that God will break the hearts of those working there and open their eyes to the real fate of the women that they think they are helping. I also serve in a ministry at my church to help council women that have this same pain - and there are many of them.

11. Based upon your experience, what would you tell a woman considering abortion?

Trust that God has a plan for this child and that it has nothing to do with you. Your life will be blessed beyond anything that you can possibly imagine and you will never regret giving birth and life to that child. It is real, it is growing and does experience pain. The possibilities of getting breast cancer are a very real possibility.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Who are you to decide the fate of a human being that has yet to be lived? Murder is wrong regardless of the words that you use. Choice is DEATH. Women are not helped by this but wounded for life. There are so many couples out there waiting for that child and organizations that can help.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of IL

County of Cook

My name is Pam I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Chicago IL

08//1985

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

Suction Aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

It was explained to me that I would need follow-up, but not the extent of all the consequences

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I was devastated afterwards. IT did not happen right away, I think I was in a denial mode for a bit. After a month or so, I was truly devastated. I still had bad bleeding, and emotionally I was a wreck. I also started to piece together the things I saw in the room during the procedure. There was a nurse standing by my shoulder, and when she moved I saw the container that held the pieces of my baby. It kills me to this day to think of it. The depression was terrible come the time the baby was due. I never consciously thought about it, but it hit me one day, "I should be having a baby." It was a terrible feeling. I still think about it and have guilt that follows me to this day.

10. How has your abortion affected others in your life?

I did not stay in contact with the baby's father, we went our separate ways a few weeks after the abortion. I am sure he was guilt ridden also and just being with each other was just a reminder of the awful thing that we had done.

11. Based upon your experience, what would you tell a woman considering abortion?

I am not one to force my opinion on others. I would be very direct and to the point in relaying my experience and the fallout afterward. I would also let her know that I know things would be very hard but

if keeping the baby was not an option to find the strength to carry the child to term and give it to a family that would love it as their own.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder and besides the killing of a human life it continues to leave a trail of destruction on the mother afterwards. It has been 24 years since my abortion and I still cry and grieve for the baby. It took a lot for me to find self worth and to make a life for myself. Not to turn to drugs or alcohol to kill the pain was very hard.

QUESTIONS

1. Where and when did your abortion occur?

Chicago IL

//

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

I don't remember

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

They really didn't explain to me the devastating consequences it would leave behind. Not only emotional but spiritual.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have huge regrets and wish those babies (2) were here with me.

10. How has your abortion affected others in your life?

My children often wonder "what if" their siblings would have made it.

11. Based upon your experience, what would you tell a woman considering abortion?

No! Please don't do it! Consider yourself blessed for being able to have a child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Please think of the moral values left in this country. There isn't too many. I believe in choices in life but when it comes to life, that is not OUR choice. GOD is our creator and He decides on life, gives it and takes it away. It is ONLY HE who determines life. Please DO NOT legalize abortion.

2. How many weeks pregnant were you?

18

3. What type of abortion was performed?

dililation and curretage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The procedure was not explained. My counseling consisted of being told it was the right thing to do that this wasn't a good time for me to have a baby

5. Were you adequately informed of the consequences of abortion?

Yes No

No one ever explained that I might experience depression and infertility

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have experienced multiple pregnancy losses. I have undergone 6 years of counseling for depression at two different times in my life. My so called "secret" was leaked to my community and I was ostracized.

10. How has your abortion affected others in your life?

My husband and children have had to live with me during periods of extreme angst. Financially we have sacrificed so I could receive counseling.

11. Based upon your experience, what would you tell a woman considering abortion?

Pregnancy and adoption are a healthier, safer, and easier choice in the long run.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is a quick fix for an unwanted pregnancy. Abortion creates long term health problems for it's recipients and their family. It adds to the cost of healthcare in this country. The mental health costs far

outway the cost of a healthy pregnancy and delivery, which women in this country have an excellent chance of experiencing.

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

boyfriend

9. How has abortion affected you?

Guilt, shame and low self esteem have been a constant burden in my life along with depression and anger. My inability to love myself because of what I had done prevented me from loving someone else, leading to two failed marriages. Making love ended. I didn't believe I was worthy of loving, so sex just became meaningless sex. It lost its ability to be a good, healthy part of marriage. Abortion resulted in my inability to forgive myself for taking the life of my child; inability to forgive myself led to inability to forgive others when they did wrong.

10. How has your abortion affected others in your life?

My relationships with others, including siblings, are distant because I am unable to trust anyone. I have built a wall around myself to prevent anyone or anything from hurting me or causing me to hurt the way I've been hurting for 40 years.

11. Based upon your experience, what would you tell a woman considering abortion?

This is not a solution to your unwanted pregnancy, nor is it an event that will be over when you leave the clinic. If you have a heart capable of love, this is something that will stay with you for the rest of

your life. It's longterm effects will be evident in your emotional state and your relationships; they will both suffer.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Forget the issue of when does a fetus become a life. Abortion is a life altering decision. It terminates more than just the life of the baby. It will end the life that you thought you had planned. The long term mental and emotional effects are devastating. Would you want your daughter to shatter her life because it's more convenient to abort than carrying the child to term and giving it up for adoption?

HOW MY ABORTION AFFECTED ME

The State of IL

County of McHenry

My name is C F I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Niles IL

06/20/1992

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

I don't know.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

My experience happened a long time ago, I was in my twenties at the time. I truly don't recall if they went into all the "details". I am also, sadly, not sure of the exact location or date.

5. Were you adequately informed of the consequences of abortion?

Yes No

There are things that happened to me YEARS after my experience that I don't believe they even touched on when I was there.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Now that I'm older and hopefully smarter, the realization of what I did back then has affected me in the sense that.....the reason I made my decision so quickly back then was because "SOCIETY" made it seem OK. They made it easy for me to obtain the abortion.....it was probably 15 years later that the full impact of what I had done at a younger age hit me in the face like a ton of bricks. I am still coming to terms with my decision. I suppressed what I did so deeply, I can't remember the exact location or the date of my experience.

10. How has your abortion affected others in your life?

There are very few people I have ever told of my experience. But the one person whom it affected immediately was my boyfriend at the time (the father). Our relationship crumbled as a result of my decision. I did not let him have a say about what I did. I see now that my actions were selfish and unwise. I have a deep regret for my reaction to being pregnant.

11. Based upon your experience, what would you tell a woman considering abortion?

Depending on her age....if she was really young, I would take the time and the patience to explain that having an abortion now may seem like the right choice, but that's because it seems like the simplest, fastest way to "right" the problem. DON'T LET SOCIETY TELL YOU WHAT IS RIGHT. LET YOUR HEART TELL YOU WHAT IS RIGHT!!!!!!!!! Adoption is the wiser choice and later in life you'll have less regrets of doing that, than had you had an abortion. I'd also say that maybe this is the path that God wants you on. Why would you want to change THAT?

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is not the answer. RESPONSIBILITY is the answer. Women have a responsibility to their child. And being in your twenties or younger just doesn't afford you the knowledge of life that's needed to make this incredibly serious decision.

My name is Christie Duffy. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Chicago IL

01/13/1991

2. How many weeks pregnant were you?

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

5. Were you adequately informed of the consequences of abortion?

No one can adequately explain the consequences of an abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Boss and a "supportive" friend.

9. How has abortion affected you?

My first crisis pregnancy was from a one night stand in college that I was too drunk to remember. When I found out I was pregnant again, I was 22 years old and I was raising my daughter as a single mom. I was working two jobs, going to college and only making \$18,000 a year. At work, I was up for a promotion that I desperately needed but my boss said that she wouldn't recommend me for the position if I followed through with the pregnancy. She also pointed out that insurance paid for an abortion 100%. What seemed as the best solution to my situation, put me into a terrible state of depression. I was a believer and knew what was right in God's eyes needless to say, I was very hard on myself. I tried counseling through work but the secular counseling told me that my "inner child" was really innocent. I knew I needed forgiveness. I started praying and God changed my situation drastically like only he can do. I am 40 years old now, I know I am forgiven but I will never forget. The lie that this was the "right solution" to my situation is something I will have to deal with for the rest of my life. I am so grateful for God's healing and grace. Life would be miserable without it.

10. How has your abortion affected others in your life?

Some people have chosen to bury the shame and guilt. Once I had experienced God's forgiveness, I told my family about what I had done and have shared my story with others since. For my family, my story can and has brought on shame and embarrassment but...if it can be used to help even one person, it is worth it. The hardest part for me was telling my older daughter, who's now 20 years old. This is something I will have to go through again in a few years with my 11 year old.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't believe the lies. Abortion is not a simple solution. There will always be reminders of what you have done, it never fully goes away. The pain and fear of judgment, shame and guilt are very real and waiting for you if you take this path. Let this child be a blessing to someone else. Although it won't be easy, you'll have peace and joy about it. Please get in touch with a counselor to help you through. There is hope in the midst of this crisis.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion isn't the solution to a crisis pregnancy. The world is full of women with deep emotional scars from the guilt of having broken a commandment that was put in place as a guideline for our own protection. I believe that a baby is formed at conception and is a blessing. If not to the birth mom, to a family desperately wanting a child. Please give the babies a chance.

QUESTIONS

1. Where and when did your abortion occur?

Chicago IL

//1976

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Unknown

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

After calling the doctor, I was given an appointment. When I arrived at the doctor's office, I remember one other woman being in the waiting room also. No one said anything to either of us until we were called in and the abortion was performed in his office. I do remember buckets being in the room where the abortion took place.

5. Were you adequately informed of the consequences of abortion?

Yes No

The only conversation that took place was on the phone when I called to ask about the abortion. I was asked how far along my pregnancy was and given an appointment. That was all of it.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I am a mother of 4 children, grandmother of 9 and great grandmother of 6, yet never a day goes by that I don't have regrets over the one baby of mine that I chose to abort for the simple reason that the child would interfere with my lifestyle at the time. I am a counselor now at a Crisis Pregnancy Center and I can tell you that I have never met a woman that does not regret her abortion.

10. How has your abortion affected others in your life?

I have carried this burden in silence.

11. Based upon your experience, what would you tell a woman considering abortion?

I would share my own experience of lifelong remorse for taking the life of an innocent human being. I would ask her to see her baby in an ultrasound and give her as much honest information as possible. It

is impossible for a mother to ever forget that she terminated the life of a child she will never know because of abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If women were given the facts and shown an ultrasound they would not choose abortion.

9. How has abortion affected you?

I grew up on the streets and began stripping at age 16 to support myself. When I found out I was pregnant at age 19 I knew i could not keep my job and my baby. I did not know that adoption would have paid my rent while I couldn't work. I thought I would be homeless again. The father of the baby had 5 other chchildren by 5 other women and didnt support any of them at all. I had had a really tough life, abused until age 12 when I was kicked out of my home. I survived on my own since then. Having had such a tough life, and having faced many tough decisions, I did not think abortion would affect me. I thought it was the only answer to my problem. after my abortion, I was devastated. i thought abortion was going to be like getting my hair cut, but instead I felt like I had cut away a piece of my soul. I found myself pregnant agin five years ago, and knew i could not go thru another abortion. My daughter Serenity, or Alia, was placed with a childless couple that loves her and gives her the life I never had. Adoption was and is hard, every day. But I look at the pictures of my daughter and I have never felt the heart braking regret that came with my abortion. Before having one i was all "women's rights and blah blah blah" but after experiencing it for myself i firmly feel it should be illegal. I did not understand what I was agreeing to, and it was a long time before i healed from the experience.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

That abortion hurts and there are other options. Adoption is hard, but rewarding. Abortion made me feel TERRIBLE inside and i wasn't exactly a "moral" person. Dont do that to yourself or your baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

excluding rape and the health of the mother, I believe abortion should not be allowed. women hurt themselves and their baby when they choose aboretion, and i don't think a person understands the consequences of abortionb until they have one.

3. What type of abortion was performed?

surgical

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was only cells and tissue, not a baby yet. I was told it was a small procedure, in an office, and would remove the tissues present so that a baby would not be formed. I was told it would not interfere with getting pregnant when the time was right for me.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told I would be able to forget it and move on in my life. I have never forgotten, not one day in 34 years. I was told I would have a little pain and some bleeding. I had a lot of pain and bled for many days. I lost my next child and had severe complications with the 3rd pregnancy.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Shame and guilt ate at me once I found out it was a baby and not just cells and tissue. I lost my self worth, and I tried to sabotage my life for years. I made many mistakes, often on purpose because I wanted to pay for what I considered a crime but was legal and lawful.

10. How has your abortion affected others in your life?

I wasn't the mom I was suppose to be to my son because of the guilt and shame of my lost child. I couldn't be a wife, I couldn't go to my God because I was embarrassed and thought the sin of allowing my child be killed was more than God could forgive. I lived a shallow, selfish life because I couldn't let people know what was going on inside me and what I did to my innocent child.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT. Wait. Experience the LIFE that is inside you, and give him/her a chance with someone else if you can't take care of them. There is ALWAYS an option for someone to adopt or foster a newborn child. Family will surprise you with support if you let them in to help you. Keeping it a secret does NO one good. Talk to someone you trust. Realize THAT IT IS A LIVING BREATHING HUMAN BEING inside of you trusting you to bring them into the world. THEY ARE ANOTHER BLESSING FROM GOD JUST LIKE YOU ARE!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

NO NO NO! If it had not been legal when I was 17, I would have a 34 year old daughter to share my life with. Only because it was legal did I seek it, I thought I could trust someone called "Planned Parenthood" but they don't know what parenting is or they wouldn't put orphan embryos into dumpsters. Making it legal and then lying to me took my child from me and changed my life forever. Never can killing a human being at ANY STAGE be a right for another to choose. This country must wake up and KNOW it is already a LIFE at the time of conception. Our country is to protect and preserve LIFE and making Abortion legal does exactly the opposite. The totally innocent lives who trust and rely on the protective womb of their mother is violated by the laws of abortion being legal. Please stop this abomination TODAY.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of IL

County of Morgan

My name is Jean Nance. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Granite City IL

//1981

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't know...I was young. I think there was a quick explanation about where I would go and basically what what happen to ME...not to the baby. It seemed like it would be quick and easy to do. No problem. We even planned to go to Six Flags afterwards, kind of make it a day out. Those plans didn't happen because after the abortion, I was left in an unexpected state of shock and moarning which has haunted me ever since.

5. Were you adequately informed of the consequences of abortion?

Yes No

She only discussed birth control measures to prevent it from happening again...nothing about what it would do to me emotionally and spirually for the rest of my life. Also, I believe that because of this procedure, I was never able to get pregnant again...they had some kind a a problem during the abortion. They didn't let me in on what the problem was...only that they would get it done and they hit me an extra dose of drugs and went at it.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

but my older sister made me feel like I had to

9. How has abortion affected you?

It has caused overwhelming feelings of guilt, remorse, sorrow, hurt, and anger. I feel like I was used, lied to, assaulted, and manipulated by the abortion industry and the women's organizations. I thought I was alright with it all until the moment it actually happened. It's one of those things that I knew the minute it happened, that it was a mistake...a BIG mistake and I shouldn't have done it. I wished I could have run out of there, but it was too late. When I saw all the women, including myself, lying around in

the recovery room, my heart was sickened and I felt like an animal that had just been processed. It's like my eyes were opened to the truth.

10. How has your abortion affected others in your life?

My daughter grew up as an only child and longed for a sibling. My own family members, who support abortion, silence me and deny my right to have these feelings. They tell me to get over it and stop making such a big deal out of nothing. I feel alone in my grief. The man I am married to now is sympathetic. He hurts for me but feels powerless to help because it is such a deep and personal pain. I know God has forgiven me, but some days I still cry bitterly. The feeling of regret and guilt will never leave me. Now my granddaughter wishes she had an aunt or uncle and some cousins, but she is alone too.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. It might feel like the right thing to do at the time, but you will regret it for the rest of your life. Things will work out and your baby will be a blessing to you. All babies are from God and He will be with you...look to Him.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I don't even know where to start about how angry that makes me! Women are being lied to and abused! I can't even believe that this sick practice is still being done in our modern society. It's outrageous!!! And I'm tired of hearing it called "Women's Rights"! It's a HUGE crime AGAINST women and humanity!!! And the TRUTH is that it's all about \$\$\$\$

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of IL

County of Cook

My name is R T I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Chicago IL

02/18/1995

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I feel like I was lied to by the staff, and rushed into a decision. I asked if my baby would feel any pain, and was told no, I was too young and naive to research for myself, then satisfied with the answer, I scheduled the procedure. When I was at the clinic, I had a meeting with a counselor, and again asked the question. She was impatient with me and impatiently answered the few questions she allowed me to ask. She lied to me again regarding whether my baby would feel any pain. She rushed me through, and clearly didn't appreciate me asking any questions.

5. Were you adequately informed of the consequences of abortion?

Yes No

It was a long time ago, but I do remember them saying that it was harmless, and very minimal complications, if any. Also, it was my gynecologist that told me later when I was crying in his office about the breast cancer link.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

My job as a mother is to defend and protect my young. I am a failure as a mother. I chose to believe the lies that were told to me, and I thought I was making a good choice. This choice nearly ruined my life. It took me MANY years to go through all the stages of grief, then years more just to try to heal and forgive myself. But the first few years I tortured myself with pictures of aborted babies, and research of what I had done. I still to this day won't drive down the street where the facility was located, but for months after the procedure I drove down daily looking for my baby, thinking it was crying in a dumpster. I had nightmares, and still do sometimes. I feel so guilty as a mother it sometimes suffocates me. It is

only by the grace of God that I am still alive today, and able to heal. I WILL NEVER FORGET, even through the forgiveness. It is a secret pain I will carry to my grave. It has affected my sexlife with my husband, I have had sever boughts of depression, as well as eating disorders. Until I found the Lord, I dabbled in drugs. Those first few years, I tried almost anything just to numb the pain of what kind of suffering I inflicted on my innocent baby. The moment that baby was torn from my womb, I felt a HUGE hole in my heart. I was screaming "Noooooooooooooooooooo, STOOOOOOOOOP!!!!", but they ignored me. Today, it is Jesus that fills that hole, but I still WILL NEVER FORGET!!!!!!!!!

10. How has your abortion affected others in your life?

I am too ashamed to tell anyone in my family. I have other children now, and how on earth would I ever tell them that I chose to kill their brother, but kept them? It would devastate my parents, only because they think of my as such a great mother, but this definately taints that viewpoint in my eyes. It has created intimacy issues with my husband.

11. Based upon your experience, what would you tell a woman considering abortion?

That you think it is a quick fix, but it isn't. You really are ruining a human life, killing a real baby. You will NEVER get over it. Those facilities that try to make it so easy don't care for you or the life you carry inside of you, they only want the money.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

They need to know how much pain this will cause a woman in the longrun. It seems like a quick fix, but in actuality, it is only going to cause bigger problems. This is not only about a woman's body, but an innocent life that will suffer unimaginable pain being torn violently from the environment it was created in. We, as a society, need to stop being so selfish minded, and need to start valuing life in the end and the beginning. These women that have suffered the effects of abortion, need to cry out and let their voices be heard!

My name is Barbara I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Milwaukee WI

02/01/1981

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Vacuum (I don't know proper term)

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Although, the woman who consulted me was very aware that I didn't want to do it, she tried to talk me out of it and was quite compassionate. Because of my circumstances, however, I went ahead with it out of fear.

5. Were you adequately informed of the consequences of abortion?

Yes No

Only the physical recovery, not the emotional.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

An adult male who I was involved with.

9. How has abortion affected you?

I found healing from my abortion at 43 when I forgave the man who made me have the abortion. After the abortion, I fell into a deep depression & believe I had a nervous breakdown. I couldn't seek help because of the shame. I acted out promiscuously & was suicidal. I hit bottom after pursuing inappropriate relations with an ex-boyfriend who I never had sex with. As soon as it began, I had such a sense of the innocence that I had lost I began sobbing & we stopped. Then I met a man from another town who was an alcoholic & drug user & spent a year in darkness running away from what I did. I accepted a lifestyle that was unhealthy because I didn't feel I deserved better. I was in such a pit of despair. I tried going to church but would start to cry & would leave. I felt so far from God. In addition to the despair, I harbored great rage towards the older man for everything that happened. The shame & the anger consumed me for years. My sister brought me to Alanon which reintroduced me to God. I began to get healthy emotionally & spiritually & started making better choices. It took years to stop

envisioning my child sitting next to me in my car. I was afraid God was going to punish me & not allow me to ever have children. Through a series of events, I came face to face with God & received his forgiveness. Through a very slow process I began to forgive myself and after many years of trying, I finally forgave the man who forced me into the abortion.

10. How has your abortion affected others in your life?

The only other person that I can say was harmed directly by my abortion was my ex-boyfriend from high school. He thought he hurt me and has carried that with him for years. I've never been able to explain my behavior to him and don't know if I ever will.

11. Based upon your experience, what would you tell a woman considering abortion?

I would do my best to explain what it is that she is really doing. Show her pictures of that little "blob of flesh" and show her that it is truly a child. Share my experience. Give her hope that there are other options, such as adoption. Offer her as much help as I can if she chooses to keep her child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would ask them to stop telling lies that the embryo is not a living breathing human being. To recognize that that little baby deserves a chance at life, with or without it's biological parent. To stop lying that abortion helps woman and to listen to the testimonies that consistently say the opposite. I am a victim and my child was the victim of the mentality of others who were in control of my life that it was no big deal to just "get rid of it". That I'd get over it. That to believe most woman "want" the abortion and haven't been coerced is ludicrous.

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

the abortion pill

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only told about the pill because she said it was the "easier way"

5. Were you adequately informed of the consequences of abortion?

Yes No

I miss my child everyday. I never realized the emotion that would be harbored.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I feel guilty for the sibling my children have missed out on and even though I have confessed I fear what God will say to me when I pass, I fear facing my child knowing I was not woman enough to make the right decision.

10. How has your abortion affected others in your life?

My disabled child would have had a younger sibling to play with and learn from. My daughter would have had an older sibling to play with and look up to. I never gave a father a chance to be a father.

11. Based upon your experience, what would you tell a woman considering abortion?

I would take her child :) I would tell her how what you may think is the easier route or what you may not see as a child is the image of you and God.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I worry for their soul and how can they possibly give permission to kill. I worry about all the women who

don't realize what a curse they will be carrying around with no law upholding them with to treat life with dignity.

Father of aborted baby

9. How has abortion affected you?

I've had severe grief, stress, depression, for three years. I developed a problem with alcohol shortly after the abortion because of my depression. It's a social stigma to have done this, making my feelings worse.

10. How has your abortion affected others in your life?

No one knows how to respond to my sadness, because they haven't experienced it themselves. The father of aborted baby has been grieving nearly as much as I have and has said he wakes up every day hating himself for what we did.

11. Based upon your experience, what would you tell a woman considering abortion?

You may not think it's possible now, but you WILL grieve your child. Your heart will ache for what could have been. Your emotions will be exhausted. It isn't enough to just "think about it," you must know what consequences you face emotionally and psychologically BEFORE you make such a life-changing decision.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

For every suicide that occurs after abortion, it's on your hands. For every depressive disorder, it's on your bill. If such a thing is to be legal, then you need to provide the means necessary to prevent the worst consequences of this, such as suicide. No woman who grieves her abortion so much will seek help for her trauma--talking about it, bringing up more emotions and pain, fear of being judged, you name it--so YOU need to be the ones who step up and help her. Make your choice, be the preventative measure she needs BEFORE this decision, or accept that her death (even PTSD can feel like death) is on YOUR hands.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of IL

County of DuPage

My name is Carol Rybacki. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

New York City NY

07//1970

2. How many weeks pregnant were you?

22

3. What type of abortion was performed?

saline

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

During the abortion procedure, the doctor explained to me what he was doing, but did not explain the outcome of my abortion. I recall very vividly his callous & heartless explanation of the procedure by telling me he was removing the amniotic fluid & replacing it with saline, but did not explain what would happen to the baby as a result of the saline abortion. He said, "This is just a clump of tissue; it's absolutely nothing--it's no big deal". I also remember him saying, "Go home, or to a hotel as soon as possible."

5. Were you adequately informed of the consequences of abortion?

Yes No

On my way home, in mid-flight back to Chicago, my water bag broke. Went into labor (I had the abortion every in the early a.m. hours in New York, and I aborted my baby in a motel bathroom. I watched my dead baby come out, which was too much to bear. I got a glimpse of my baby, which I will never forget as long as I live. When I saw my dead baby burned, I came running out of the bathroom, hysterically screaming and couldn't stop thinking "I have just killed my baby."

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

A "choice" was made for me by my boyfriend.

9. How has abortion affected you?

I robbed my baby of a chance to live a life worth living, and as years went by, I felt my life became not worth living. I hated myself. After the abortion, I went straight down hill. I made very poor choices of an unhealthy lifestyle--from dating relationships; various forms of birth control contraceptives for my sexual lifestyle, and sterilization. I also had two failed marriages. Also, severe depression, which led to a

suicide attempt.

10. How has your abortion affected others in your life?

When my second child was born, the initial bonding of my baby was extremely difficult--the baby I aborted was my first. Difficulty throughout the decades trusting physicians; specifically, ob/gyn physicians, and thus not going for future prophylactic gynecological examinations; Unhealthy relationships with men. After decades of finding an adequate therapist who would help me as a post aborted women. Decades before, mental health professional did not offer any mental health treatment and/or discussion relating to my abortion--didn't want to touch the abortion subject and/or post-aborted women!

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion is not the choice. You will regret it the rest of your life. There are several women centers to help you resulting from an unplanned pregnancy. These centers understand young mothers and give compassion and support that you need. Abortion is not a quick fix.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Enough is enough! Reverse Roe v Wade! How many more millions of lives must be destroyed, which includes the women who have had abortions. If you truly care about women, why is the government not monitoring these abortions mills regarding regulations for the well being of the child and mother? Why do the courts not look at this as another holocaust in u.s. history?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was in a waiting room with several other women in a doctors office in downtown Chicago. We just waited our turn, went in and shortly thereafter left the office and went home. Few words were spoken by anyone.

5. Were you adequately informed of the consequences of abortion?

Yes No

No, if I had known I know I could have never done it. It was in the early 1970's. I don't really remember how I got the doctors name, but I just called and asked him if he did abortions. He said yes. I told him I was 12 weeks pregnant. I made an appointment. The baby was killed and I went home. I remember a deep emotional sobbing, a sudden outpouring of grief that lasted for a few minutes on the way home in the car. It was like it came from my innermost being. I honestly believe now that it was God grieving for me and for the sin I had committed against Him.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have since submitted my life to Christ, but before that I was filled with guilt and remorse. I know that I have been forgiven, but there is still an awful void in my life, an emptiness that cannot be filled with any of the children in my family. I have 6 great grandchildren, 9 grandchildren and 4 children, all of whom I love with the love of Christ, but there is rarely a day that I don't think of the child that I condemned to death.

10. How has your abortion affected others in your life?

I have only told my oldest daughter, which I regret burdening her with it.

11. Based upon your experience, what would you tell a woman considering abortion?

I believe that God allowed all this to happen to me only because he would want me to share my story in hopes that another woman would see how wrong it is, mostly that you will live with it as long as you live. It is not God's plan for us to end the life of an innocent child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would ask them to look at websites or videos showing the horrible atrocity of abortion. Anyone that can see what it is would have to see that it is wrong to kill that baby who has as much right to live as the mother.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of IN

County of Vigo

My name is Beth DaCosta. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Columbus OH

//1978

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not given any information about the development of my baby. I feel I was left in ignorance in regards to how alive my child really was. I was asked if I understood that the procedure would end the pregnancy. During the procedure when I wanted it to end and the pain to stop, the nurse commented that having the baby in labor is far worse.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed about any physical risks. I was not informed and had no idea, nor even imagined what emotional pain I would suffer following my abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I had deep regret. I seemed stuck in sorrowful frustration because there is no way to fix my mistake. It is final. I began to long for my baby. I had moments of time that I do not even remember my grief was so heavy and consuming

10. How has your abortion affected others in your life?

My husband and I both have grieved our loss. It was our child. We selfishly decided to abort before we were married.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not choose abortion. Choose life. There are no regrets in choosing life. Even if you release your child for adoption because you can't raise the child on your own, You will be making the most unselfish

and loving decision for your child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That making it legal does not make it right. I wish the choice was never made available to me. Every evidence of medicine agrees life begins at conception. The gift of sonograms declares the truth of life in the womb.

HOW MY ABORTION AFFECTED ME

The State of IN

County of lake

My name is eve johnson. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

chicago

12/31/1998

2. How many weeks pregnant were you?

22

3. What type of abortion was performed?

not quite sure some type of D and C ; it was a three day outpatient procedure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

After all the research I've currently done. I would say no. I really can't remember them telling me much of anything except for brief medical things. I know they didn't tell what was going to happen. I did not know how they performed abortions after 12 weeks had I have know I would have just given the baby up for adoption or something else. I had know idea it was even called a partial birth abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea 10 years later I would still be grieved by the decision I made to abort.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

lots of grief, resentment, anger towards self, deep yearning to be with my child. I feel like a murderer. I feel even more terrible because I had a partial birth abortion. I feel stupid because I had no idea I was having a partial birth abortion.

10. How has your abortion affected others in your life?

My husband whom I had not yet met when this occurred, has stated if he would have know I had done this he would not have married me and he does not like the fact that I aborted at such a late date.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT.....it's not worth the selfish reasons we chose to abort. However, I would not said this to women who do this for medical reasons or due to incest. I would try to discourage them also but in other way. besides, those aren't the typical women having abortions

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Choices to kill an innocent unborn child is nothing less than murder and how can that be justified. Why should law give women the "choice" to kill their unborn child. Life starts at conception. Here in American Murder is a crime punishable by law; how is abortion any different?

HOW MY ABORTION AFFECTED ME

The State of IN

County of Elkhart

My name is Amy Wantz. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

SouthBend IN

07//2001

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told anything. I just went into the abortion clinic, my husband at the time paid the money for the abortion. Then, I went in and had the abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told anything. I just went into the abortion clinic, my husband at the time paid the money for the abortion. Then, I went in and had the abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My husband at the time who is also the father.

9. How has abortion affected you?

The abortion has made me more pro-life than I ever was. It has emotionally wounded me. For instance, my first baby I had with my husband, now, only lived 47 minutes and then died. I feel like it was my punishment for the abortion. Also, I have been diagnosed with PTSD. I've previously had thoughts of committing suicide.

10. How has your abortion affected others in your life?

I don't know if it really had much of an affect on anyone else.

11. Based upon your experience, what would you tell a woman considering abortion?

I would sit down and talk with her. I would tell her to have an ultrasound first, because that is one thing I wish I was able to have. I'd also tell her that if she goes through with the abortion, to keep the baby/ tissue they take out of you and either make a grave site for the baby or atleast have the baby/ tissue turned into ashes and keep them, because in the long run she'll be glad she did.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them my story and all my regrets. I'd ask them, "Are the counselors and psychiatrists involved in this?" I'd tell them that they are murderers and that is illegal. Abortion is killing a human life, scientific facts are being made known that back this up, and killing is murder. Murder is illegal and therefore, abortion should be, too.

My name is P C I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Cincinnati OH

03/28/1986

2. How many weeks pregnant were you?

18

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I felt like I was rushed through the process, but there was a woman that talked to me about the procedure. I felt like I was in a mental fog and not really of the right mind to understand.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no talk of what could happen at all.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

two friends and my husband

9. How has abortion affected you?

The reasoning for having the abortion was that I had two children and could not seem to afford my living expenses month to month, therefore when I left the abortion clinic I was given a prescription to fill for an antibiotic that I did not have the money to fill nor did I even have the desire to get the prescription. I wanted to die. I realized what I had done. Anyway a week later I hemorrhaged and was so infected that I was put in the hospital for intravenous antibiotics and later had to have a hysterectomy. I suffered with anxiety and depression and was suicidal.

10. How has your abortion affected others in your life?

I raised two other children while extremely depressed. I am sure life would have been better had I chosen life.

11. Based upon your experience, what would you tell a woman considering abortion?

This decision is one that never goes away. It is a baby that you always think of and guilty verdict that

chases you. It causes secrecy and shame and affects your life. There is no going back to make it right.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe that if abortion would have been illegal and unable to get I would have a living child today. I believe that there is so much information today that shows that your baby is not tissue, but a living "formed" individual and that now that we can see inside the womb it is devastating to think of the loss.

HOW MY ABORTION AFFECTED ME

The State of IN

County of Marion

My name is Kim Barnett. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Indianapolis IN

//1984

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

I was given a shot and suction was used

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I remember being told I would be given a shot and then a lot of medical terminology that ended with suction. But in no way was I told of any emotional complications nor did I ever speak with a counselor or medical staff about alternatives.

5. Were you adequately informed of the consequences of abortion?

Yes No

They did tell me medically what to watch out for.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The boyfriend I had at the time. Brokeup 1 yr latr

9. How has abortion affected you?

There is not enough room on this page to tell you every way abortion has affected my life. I pushed away my feelings for years and drown them with alcohol and drugs. I cleaned up my act but never let anyone close to me because I felt I couldn't be loved because of my horrible secret. It is 24 years later and I have confessed my sin but there is still alot of emotional pain. People say that your a victim and even though I was 15 years old when I made this decision, it was still my decision. I felt like my very soul was crying out during the procedure. This was very powerful and the start of what was the most heartwrenching guilt I have ever and will ever experience. I pushed away from God because I could hide my secret from everyone else. Even after quitting drinking and drugs I still hid behind food. I did finally begin to come to terms with my abortion. I have come back to church and God (Praise the Lord). I know my sin has been forgiven and I am working on unraveling my emotions. I know this great evil will affect me for the rest of my life. I can only pray that someone will read this and it will change their mind

about abortion. No one can adequately prepare a woman for the emotional consequences of abortion.

10. How has your abortion affected others in your life?

I know that my mother feels guilt about my abortion. She signed to give me permission. She told me it was my decision. She drove me to the clinic and waited for me while I had the abortion. She watched my spiraling downfall and felt helpless to do anything about it. Now when I talk about it she says a lot of things like "Maybe if I would have...", or "I shouldn't have allowed it." I have told her it is Okay because I love her. I don't want her to feel guilty. But I will say for many years I thought the same thing. Maybe if she wouldn't have allowed me to have an abortion... I know now I was just trying to blame her to make it easier for me. It is not her fault.

11. Based upon your experience, what would you tell a woman considering abortion?

I have thought about this for a long time. This is what I always wondered. I wonder what my baby WOULD HAVE LOOKED like and BEEN like? How wonderful would it have been to say: I wonder what my baby LOOKS like and what he/she IS like? The first statement is bleak. The second statement has hope!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would ask if anyone making these decisions had ever had an abortion or witnessed an abortion? They can't possibly know the gravity of the decision they are making until they have experienced an abortion. Just the fact that at conception a baby is dependent on its mother for life should be enough to say it is alive and should be protected and have rights.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of IN

County of Monroe

My name is Bonita I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Kansas City KS

11//1979

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Regular (not partial birth)

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one explained the procedure to me, nor what was to be done to the baby during or after. It was as if it was just a matter of pulling a tooth. They didn't have a counselor available before or after to explain the emotional pain and guilt that would come from having an abortion. It wasn't until 5 years later that I saw a program on television that showed what had happened and then seeing it devastated me, and for the guilt was worse because if I had known what was to be done, I wouldn't have gone through with it.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told it was just an outpatient procedure, nothing to worry about, and afterwards just go home and rest, and the next day I would feel better. They didn't inform me the dangers if the doctor made a mistake, left tissue inside, perforated anything, or if I was bumped or jarred for 24 hours. I ended up hemorrhaging, because the doctor messed up, and was rushed by ambulance to the emergency room, close to death because of loss of blood. The doctor showed no remorse, calling it just an accident. I was the one left to carry all the guilt, pain, and consequences alone.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother, and others

9. How has abortion affected you?

For all these years I carried a great deal of guilt. Even after giving my life to Christ, the fact that I had

one is something Satan loves to use to make me feel worthless, and unworthy of Christ's love and forgiveness. If it were not for Christ, I wouldn't have had the strength to go on for all these years.

10. How has your abortion affected others in your life?

It set a terrible example for my daughters and others, who see it as a "well, you did it, why can't we" excuse for going through with it. I've had to share more than once what I went through, and the guilt that will dwell inside forever because of the choice. If I could go back and make the choice again, I'd answer all the pressure, and pushing me to do it, with a loud resounding, "NO WAY!" I had to tell my exhusband about it 25 years later, because my family wouldn't let me see him during that time, because he was an abuser. Even after 25 years, the pain and anguish, and the guilt made me ashamed to face him.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! Don't make the mistake of listening to those who think it is nothing, because it isn't that simple. I'd tell them before they make the decision, to find a video that tells about it, a Christian video that even shows the procedure, because one time of watching it, would keep them from doing it. I'd tell them about the guilt, the pain, and the heartache that goes along with it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That in making it legal they will be contributing to the rising rate of suicides, and also to the promotion of alcoholism and drug addiction, because that is where it leads many women sooner or later, if Christ's doesn't reach them with his love and forgiveness. I would tell them, if someone had not made the decision in the 70's to make it legal, I and multitudes of others would not have had to live with decades of guilt and pain, and many would not have chosen to ruin their lives, selfworth and even family relationships because it was so EASY to get an abortion. I would tell them that they have failed me and my generation, and all the generations since and to come, by opening the door to this evil operation. I would also tell them that the voices of millions of aborted infants, and women who have lost their lives because of the procedure, or the result of the guilt associated with it, are crying out to this day for it all to stop, and begging for the lives of the innocents to be lost if it continues. I would tell them that I hope that God would give them a vision of the outcome of their decision to legalize it, a vision of the souls lost past, present and future. Then I hope that they could live with their choice for eternity.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of IN

County of Lawrence

My name is cathy I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Los Angeles CA

//1970

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

unsure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

When I became pregnant, my mother took me to the MD and told him I was to have an abortion, I was taken to the hospital and the procedure was done. I was given no choice or educated on the matter, absolutely no teaching was done. My mother signed the surgery consent. I was 17 yrs. old.

5. Were you adequately informed of the consequences of abortion?

Yes No

See above.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother.

9. How has abortion affected you?

I was angry and then depressed for several years. I became more sexually active because, "who cares...there was no consequence...I'm not hurting anyone...it's my business". I made the wrong choice in husbands, to show my mother that I had choices and chose to get pregnant at 18, to have my child. I ended up as a single parent on welfare for several years. It took me quite a while to overcome the depression and self esteem issues. After my daughter was 6 yrs. old we started going to church and I became a Christian. I have since turned my life around and remarried, become a nurse. I am now a grandmother of 7 and doing well.

10. How has your abortion affected others in your life?

Once my daughter was told, she often wondered about what it would have been like to have a sibling. I never had any more children (except step children), because I never felt like I deserved any...If I couldn't protect one, I did not deserve to have more and had a tubal when my daughter was 5 yrs. My choices affected my new spouse and the step kids that wanted a brother or sister. My mother passed away in Mar, and I still had not developed a good relationship with her...we always struggled because of her part in it but she would not discuss it...I was told to "get over it...she did not want to raise another child".

11. Based upon your experience, what would you tell a woman considering abortion?

Not to do it. Having a child as a single person was the hardest thing I did BUT I did it. Yes, I had to have help from the state for a while, and from my parents, but I paid for my own education and am proud of it. Adoption is always an option, but it also has consequences if not done right. My 16 yr. old grandson is about to become a father in Dec., and I have given this advice to them and I will give them the support that they need to raise this new life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should not be an option for women. We are being trained to look for an easy out and it falls over into every aspect of our lives. Instead of worrying about being "inconvenienced", we need to learn to put ourselves out for others, esp. the new life we create. With abortion as an option, we have seen a rise in STD's, teen pregnancies, porn and several other sexually side effects. Our society wants to present a good front without doing the right thing. Raising a child is hard work BUT if you don't want any children, use good birth control or don't have sex. It is simple. Our children need to have parents that teach them the right way and schools that teach abstinence instead of passing out condoms and looking the other way. More parenting classes at an earlier age and less encouragement to have sex.

HOW MY ABORTION AFFECTED ME

The State of IN

County of Fulton

My name is B R I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Indianapolis IN

05/02/1982

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't think that much information was given - I was old enough to know what I should have done, but selfish enough to not do it.

5. Were you adequately informed of the consequences of abortion?

Yes No

I really don't remember much information being give about either the nature or the consequence.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Fortunately, God saw fit to forgive me and I do have one child now. She is 22 and a blessing from Him.

10. How has your abortion affected others in your life?

I am now married to the father of our aborted baby - again blessed by God to have been married for 25 years. But I feel a wall between us when it comes to the subject of abortion. Our daughter does not know about this matter. But she knows I am pro-life. Sometimes when I am adamantly being pro-life, I feel like my husband is looking at me as if I'm a hypocrite - could be my projecting that on myself as he is pro-life as well. To me the hypocrisy would be to keep doing it - keep promoting it.

11. Based upon your experience, what would you tell a woman considering abortion?

I had the opportunity to speak to a friend's daughter who was considering an abortion. I advised her not to - of course, I couldn't make the decision for her but told her that if she thought she could do it and not regret it, she was probably wrong. I also encouraged her

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that I don't see anywhere in the constitution that we are guaranteed a right to privacy, a right to choose and a right to kill an unborn child. We are guaranteed the right to life, liberty,....Who is protecting the right of the unborn child? It should be his/her mother and I will regret to the day that I die what I did.

1. Where and when did your abortion occur?

Gary IN

//1978

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

At that time the it was widely accepted that a fetus that young was nothing more than a clump of tissue and an the abortion procedure was as simple and harmless as a DNC

5. Were you adequately informed of the consequences of abortion?

Yes No

None of the medical professionals seemed to be concerned with the life of the baby, nor did they address my emotional state about the circumstances other than the standard doctor/patient issues concerning discomfort, etc.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

It was my idea because I used to be pro-abortion

9. How has abortion affected you?

I have since changed my position due to Biblical reasons. I was very saddened by my insensitivity to a life that I was responsible for creating, then, for my own selfish convenience, decided to end without ever having the opportunity to live and become the person that God intended.

10. How has your abortion affected others in your life?

My sons were told many years later. Initially, they were surprised and then sad because by that time I

was a Bible-believing, strong-in-the-faith woman of God who raised them with Christian values. They know that I have repented and been forgiven so none of us dwell on the past, but when the opportunity presents it self we all speak out against abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

That according to the current law of man, the decision is indeed hers to make; however, to consider aborting her own flesh and blood unborn child would eternally deprive her of witnessing the precious God-given life who deserves to live, and experience all the wonders that life brings.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That legalized abortions has come to be nothing more than a form of morbid birth control by the consent. Women have taken advantage of this law to rid themselves of what they consider to be "inconvenient mistakes" instead of being more responsible for their actions. I've known women who have had 5-6 abortions. Even though I don't agree with having one because of rape, at least it's understandable. I also understand having an abortion if one's life is at stake. But to use it as a method of birth control should not be lawful in the least.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of IN

County of St. Joseph

My name is Andrea I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

oklahoma city OK

01//1981

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

regular kind

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

All they did was set up an appointment time. I arrived and they took me to a room to get ready. Then when it was time they called my name and performed the horrific procedure. Then sent me home.

5. Were you adequately informed of the consequences of abortion?

Yes No

After the killing of my baby I had no idea of how devastated I would feel. I sat and sobbed for hours. I had nightmares and terrible visions. I cried out to God to help me because I thought I was losing my mind. God answered my cries, but even now 26 years later, I feel the loss deep in my soul.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my boyfriend

9. How has abortion affected you?

I don't feel like I have ever totally recovered from it. My self-esteem is shot and I have suffered from post traumatic stress disorder and anxiety. Thank God that I have been forgiven through Jesus Christ because without the forgiveness I know I would have ended up going crazy. I have been left with some female physical problems also.

10. How has your abortion affected others in your life?

I told my parents and they were deeply saddened. They felt cheated but never judged me. My husband knows about it and has been very supportive and loving. It took him and me fourteen years before we had our beautiful daughter.

11. Based upon your experience, what would you tell a woman considering abortion?

I have told women that abortion is NOT the answer. The baby inside of you is wonderful gift. I have even offered to adopt the child so that it would not be aborted. I've told them that this is something that you never fully recover from emotionally, spiritually, or physically. If they would hear the baby's heart beat--I think they would definitely reconsider and probably change their mind.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I DEEPLY REGRET that I had a choice 26 years ago. Abortion should NOT be used as birth control. It is murder. Now that I am a mommy and carried my baby to full term--I know it is MURDER. Abortion is not the answer. It should have never been legalized and the term "fetus" makes me very angry. The "fetus" is a baby whether it is 2 days old or 7 months old in the mother's womb.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of IN

County of Allen

My name is Aimee Gill. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Toledo OH

06/20/1994

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Literally, the only "counseling" I received was this: "Have you ever considered adoption?" and "Is all this information [on the intake] correct?". The abortion was only referred to as "the procedure" from the second I first contacted Planned Parenthood where my abortion was ultimately performed.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me that I'd possibly suffer any of the emotional, spiritual or physical side effects either short term or long term. I personally experienced all 3 for the duration of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

boyfriend directly and parents indirectly

9. How has abortion affected you?

Spiritual: Could not ever forgive myself or convince myself that I'd made the "right choice" for my life. Was not spiritual at the time of my abortion, but later in life, I found difficulty becoming spiritual because of the abortion impact on my soul. Physical: damaged uterus which caused severe problems during 2 subsequent pregnancies. Emotional: Difficultly forgiving parents & father of my aborted baby for over 14 years. Difficulty trusting in other intimate relationships, including my marriage. Experience emptiness often for the place in my life meant for my murdered child. Extreme episodes of severe depression for over 14 years, the longest duration being 2 concurrent years. Devalued self-worth.

Suicidal tendencies for at least one year after my abortion. At the time of my abortion, I was unable to appropriately parent my previously born son & now 14 years later, I still feel inadequate and worthy to parent any of my 4 children.

10. How has your abortion affected others in your life?

1. Affected my relationship with my husband. 2. Cheated my each of my living children out of a rightful relationship with their aborted sibling. 3. Caused relationship issues with my sisters (neither is or ever has been "religious", by the way) who have verbally and nonverbally deemed me unworthy to parent based solely on my abortion choice.

11. Based upon your experience, what would you tell a woman considering abortion?

The largest abortion business in the U.S., Planned Parenthood's current slogan is "take care of yourself" and "yourself only" seems to be implied. However, you must "take care of yourself" by being fully informed on every possible abortion-alternative option AND the long term consequences you are about to voluntarily impose on yourself for a life time. Also, PLEASE, PLEASE, PLEASE know that your abortion experience WILL NOT end the moment you walk out of the abortion factory. Pregnancy is survivable. There really is loving & non-judgemental help available if only you diligently seek it out from a local pregnancy care center.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion DOES NOT help women. It hurts when it happens, and it continues to negatively impact a woman's life permanently every day afterward. It hurts surviving fathers who had no choice in the mother's abortion decision. It hurts every member of the family. It hurts America. Period.

HOW MY ABORTION AFFECTED ME

The State of IN

County of Whitley

My name is Shanna I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Madison WI

08/03/1972

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

Scraping

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

As a teenager I relied on the adults in my life to walk me through this horrific event in my life. Everyone from the nurse we asked "Isn't this Murder?" Who answered "No" to the people at the University of Wisconsin Abortion Clinic who told me that in 1972 it wasn't legal so they used the route of leading me to admit that I had had suicidal thoughts. My experience with abortion has haunted me from that day in 1972 to the present. The most vivid memory I had referring to the procedure was that I squeezed my legs together during the procedure to the horror of all in the procedure room. I didn't want what was happening but I felt I had no power to stop it.

5. Were you adequately informed of the consequences of abortion?

Yes No

That can mean so many things to each individual. There was no one who ever said let me give you some options.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

A day doesn't go by that I don't recall the experience of abortion. The only saving grace for me was my beliefs in a God that forgives. For many years I would actually wake up to a baby crying. Roe vs. Wade is the most tragic thing that has every happened to me and to my country.

10. How has your abortion affected others in your life?

No one has ever spoken of it so I wouldn't know.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't go through with it. There are so many options that would be better for the mother and the child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is a no win situation. Abortion is murder. We have laws against that why don't we with this matter.

9. How has abortion affected you?

it is/was an awful nightmare. a secret that none of my friends are aware of, for fear that they would think less of me for doing so. I started drinking heavily after wards to deal with all the pain that I had inside, the emptiness that I felt, the guilt, the shame.....it still haunts me at times. I now have 2 children of my own and have decided that if it ever happens to either of them, that I will do what it takes to keep them from going thru that...I will adopt their baby if that is what it takes.

10. How has your abortion affected others in your life?

n/a....nobody knows.

11. Based upon your experience, what would you tell a woman considering abortion?

it depends on their circumstance. I have also seen someone give away a baby in an adoption setting...

(this after her already having a previous abortion. And she took the adoption ALOT harder than the abortion. She decided 2 days later that she wanted her baby back, but it was too late....she was completely devastated. I am sure the baby is/was better off in the family that she chose, but years later she was still heart broke.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

i think early stage abortion should be an option...and this is why: if it is not available, people will end up doing the "back alley" thing which is very dangerous... I am Totally against the middle & late stage abortions no matter what.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only told that it would not hurt much...that I would only experience slight cramping.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one explained the emotional damage that would be caused by abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I carried around guilt and shame for over 20 years. I have never been able to have children.

10. How has your abortion affected others in your life?

It was partially responsible for the divorce from my first husband.

11. Based upon your experience, what would you tell a woman considering abortion?

Please, please reconsider and find out ALL the facts about abortion. Better to have the baby and adopt it out to a loving family than have an abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The emotional baggage goes far beyond the moment. It lingers in a woman's life for years and maybe even a life time. It causes great anger and hurt and paralyzes women to be good and productive citizens.

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

I am not sure but I know that it was not the suction one.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was never informed as to the nature of the abortion

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never told of the emotional effects that I would go through.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have had several affects from the abortion. Some of them include; emotional, drug abuse, and possibly infertility. I have to have counseling several times and I am now clean from the drugs.

10. How has your abortion affected others in your life?

I have had great anger that I have taken out on my husband. I have also had to learn to forgive my mother, grandmother, and the hardest one myself.

11. Based upon your experience, what would you tell a woman considering abortion?

I volunteer at my local Crisis Pregnancy Center and I tell them about the procedure and fetal development along with the risk of abortion including the link that it has with breast cancer. If it is

appropriate I tell them about my situation and what I have went through because of it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that abortion should be illegal. I would explain what I have been through and that there are thousands of couples that would love to have a child that cannot and would be willing to adopt these unwanted children.

QUESTIONS

1. Where and when did your abortion occur?

Indianapolis IN

04//1975

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Unsure, whichever was being done @ the Indianapolis Women's Surgery Center

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I did not need an explanation it was the end of a pregnancy, for everything I had been taught it would be the end of a life. But until I saw films like the "Silent Cry" or pictures of abortions I didn't realize how horrible and savage an abortion is. If God had not forgiven me I don't think I would have been able to cope through the years.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no organization at that time with women coming forward helpnig others and those giving the abortion didn't care. This is the largest regret of my life. It destroyed a beautiful little life and a part of me that can never be regained.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

It was expected an understanding it would be done

9. How has abortion affected you?

You constantly wonder about the child that never was. What they would have been like, how they would have contributed to society and the love all have missed because they were not here. I wonder if this was a baby a son?

10. How has your abortion affected others in your life?

My daughter has missed out on a sibling to share her life with. My grandson does not have a Aunt or Uncle to be a positive influence in his life. There is an empty space in the family tree that can never be filled. A sibling, grandchild, niece, nephew or cousin the family never met. My mother and sister never speak of it and they along with my husband (not the baby's father) and my daughter are the only ones in my family who know.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to have an abortion, to carry the child and give it up for adoption. Before making such a irreversible decision to get all the information on what it is, what the baby goes through and the struggle to live with the decision the rest of your life. There are many people who will tell you that you are doing the right thing but fail to tell you while you are going through the procedure you feel life ripped from you and that no one has to tell you it was death you know.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it is a lose, lose situation. You have one dead and one a walking wounded who is scarred for life. A woman who struggles with the fact she allowed the taking an innocent life,that she was a participant in legalized murder and sacrificed her unborn.

1. Where and when did your abortion occur?

fort wayne IN

09/06/1960

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was never told anything about what would happen. I didn't realize I was really aborting a child until I saw bloody stuff go out of me into a large jar. It was then I realized I had just killed a child. No one told me.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told that I could have massive bleeding, depression, suicidal tendencies or any promiscuity or drug increases after the abortion. Many of the women in the clinic I went to were there for a 2nd, 3rd or 4th abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother

9. How has abortion affected you?

It was the worst decision I ever made. I never was able to forgive myself. My promiscuity and drug activities were increased after the abortion and I became more suicidal. It wasn't until I found Jesus and then after 20 some years went through a post-abortion bible study that I found healing for this heinous crime.

10. How has your abortion affected others in your life?

My son, now 18 is missing an older sibling. I wonder everyday how my child would have impacted others' lives - maybe could have been a great Doctor...

11. Based upon your experience, what would you tell a woman considering abortion?

Parent or adopt. Parenting will teach you more about life, love and the consequences of instant gratification of sex. Abortion is a quick fix but leave life-long scars that will never go away. It is not an eraser. It kills an innocent life to save a selfish one that will later become more depressed. In many cases, women who abort try to have a 2nd baby as a "replacement" to ameliorate the shame and guilt for the 1st one. It never suffices.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is never a value of life that we should put on someone else to make decisions for one that is not able to on their own. No matter how small the voice or size, life - human life matters. Their life mattered enough for their mother's to carry them to full-term and see how influential they are today.

9. How has abortion affected you?

It has had a major affect on me emotionally and still does. It made me want to get more involved in the pro-life movement. It made me see that even if the woman could lose her life abortion should not be an option.

10. How has your abortion affected others in your life?

I didn't tell anyone for a long time. When I told my mom she was more concerned about comforting me.

11. Based upon your experience, what would you tell a woman considering abortion?

You don't want an abortion. Not even if your life depended on it. I was there I had the abortion and I

regret my decision to this day. I could go on and on with reasons why it is not a good idea to have an abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is wrong in so many ways. One abortion kills AT LEAST one baby and permanently wounds AT LEAST one one living person. Therefore, believing abortion should be legal is the same as believing MURDER should be legal. So, are you telling me you are OK with murder? I could go on and on.

I didn't tell anyone for a long time. When I told my mom she was more concerned about comforting me.

11. Based upon your experience, what would you tell a woman considering abortion?

You don't want an abortion. Not even if your life depended on it. I was there I had the abortion and I

regret my decision to this day. I could go on and on with reasons why it is not a good idea to have an abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is wrong in so many ways. One abortion kills AT LEAST one baby and permanently wounds AT LEAST one one living person. Therefore, believing abortion should be legal is the same as believing MURDER should be legal. So, are you telling me you are OK with murder? I could go on and on.

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I definitely was not talked to about the fact that the baby was alive and that it would experience pain.

5. Were you adequately informed of the consequences of abortion?

Yes No

NO one talked to me about any regrets/sadness/guilt I would have.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mom, the father, and the father's parent's

9. How has abortion affected you?

If it weren't for the blood of Christ and the forgiveness I have with God because of that, I would be very depressed about the life I have taken. I would feel guilty for killing an innocent child. I'm sad that I do not have that child now, and I'm sad for all the people that want to have children and can't.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

Look at the ultrasound! See that beautiful baby moving around in there:)) If you cannot care for that baby allow someone to adopt it. Don't do this to yourself - please

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

In what other situation do we say that it is legal to kill someone. Please do not make this easy for women and men to do.

I'm not sure the correct term, but what ever is typical for that term of pregnancy

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I just remember them giving me some pamphlets to read while I waited.

5. Were you adequately informed of the consequences of abortion?

Yes No

They said that having an abortion was safer for the mother than carrying the baby to term and delivering the baby.

My father

9. How has abortion affected you?

It sent me into a downward spiral of depression. Life had absolutely no meaning whatsoever. I felt completely dead inside. I was very self-destructive in my actions.

10. How has your abortion affected others in your life?

Right away it affected my dad, he knew that he had done something wrong. I think he realized he had helped kill his grandchild. Later he got involved with the pro-life movement, as did 2 of my sisters. I have another sister that also had an abortion when she was 19 and experienced much of the same self-destructing behavior. Our family has gone through alot, but thanks to The Church Jesus is helping us all heal.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't tell yourself that you are strong and that you can handle having an abortion. You may think that going in, but coming out you immediately realize that you just killed your baby. And when you come to

this realization you will sink into a depression that only Jesus can save you from. Today there are many people who can help. Wonderful, caring people who will be with you every step of the way if need be. Don't listen to the lies that society tells a woman. It will hurt you, it will affect every aspect of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is hurting so many women out there. I personally know of at least 5 other woman who have had abortions, one being my own sister and I can tell you that it damaged each one. By making abortion legal you are personally contributing to an evil that is worse than the Holocaust. You are no different than Hitler in that you are making it O.K. for millions of innocent lives to be taken. Their innocent blood is on your hands also. And if your Christian then you know what Jesus says about harming the most vulnerable. Millions of innocent lives will be saved when abortion becomes illegal and you no longer will have this burden on your conscience.

2. How many weeks pregnant were you?

3. What type of abortion was performed?

I have no idea

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I just knew that a friend had one and that I would not be able to go to college if I had a child to deal with.

5. Were you adequately informed of the consequences of abortion?

Yes No

No, it was a totally secretive thing. I told my parents that I was going to the reservoir for the day and that I would be home late.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I don't tell the truth about the number of pregnancies that I have had. I don't tell the truth about ever having been to New York.

10. How has your abortion affected others in your life?

I haven't even told my husband of 26 years because of the shame now that I am a Christian. God knows that I am devastatingly sorry for killing a human being and that I would never knowingly do it again.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it! Not unless you want to live with guilt for taking a human life the rest of your life!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Where does it stop? What conditions are good enough for taking a human life? You can kill because

you are sorry for "making a mistake"? How sickening is that!?

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I didn't fully recognize the incredible guilt and shame I would feel and was convinced it was just a glob of cells. I convinced myself that what I was doing was right and it wasn't a real baby. I also was told it was unable to feel anything.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

This has changed my life forever. I know that I literally murdered my child. I deprived myself and my husband grandchildren from this child as well. I ache in my heart everyday for my child and wonder if it was a boy or girl, if it felt the pain, what they would be today.

10. How has your abortion affected others in your life?

I robbed my other children from a sibling, and nieces and nephews. No one in my family knows what I have done.

11. Based upon your experience, what would you tell a woman considering abortion?

That God planted that child in her womb. That he is weaving it as we speak and has a purpose for that child. That there are other options that are healthy emotionally, physically, and spiritually.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That this has serious repercussions. You cause eternal pain to others as well as yourself. It is morally wrong, it is a child that whether at the stage of cells or not, is obviously a living (even before the heartbeat) being due to the multiplying of the cells and development.

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The information was breezed over and my mind was numb to any explanation

5. Were you adequately informed of the consequences of abortion?

Yes No

No one explained that it could affect getting pregnant in the future.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have damage to both of my fallopian tubes which has made natural pregnancy impossible. I chose to kill my baby and the consequence was that I wasn't able to have another naturally.

10. How has your abortion affected others in your life?

It has cost monetarily due to the fact I've had to use Invitro Fertilization to conceive a child.

11. Based upon your experience, what would you tell a woman considering abortion?

Life begins at conception. Having gone through IVF and seeing my child as 4-cells under a microscope and now as a healthy and vibrant three-year-old, I know beyond a doubt that abortion is wrong. The impact of not wanting a child now can prevent you from having others in the future.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Under no circumstances should abortion be legal. Those four cells under a microscope are a living being and where does the killing end?

They made it seem like it was a no big deal thing. They had videos of women claiming it was a great decision, one they didn't regret.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I suffered deep depression and still regret the decision I made. I was so hurt by the whole ordeal. I broke it off with my fiance. I felt angry toward him and all my friends for not talking me out of it.

10. How has your abortion affected others in your life?

I feel, eventhough some may not say so, that I was judged scilently. I only wish I had some positive feedback from someone, anyone, just telling me to reconsider. It affected Shane, my fiance. He was hurt by it. We both lived with regret and still do. We had nightmares, depression, and ultimately lonliness.

11. Based upon your experience, what would you tell a woman considering abortion?

I'd tell them they will regret it for the rest of their life. The clinics make it sound like a simple procedure, but I know from experience.....it is very painful. I am fortunate enough to have a healthy 5 yr old daughter, I have gone through childbirth, the abortion physically hurt worse. I've never felt such excruciating pain.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say ask any woman who has had one. I know I regret it, everyone I know who has ever had one regrets it. It should be limited to only special cases, if any. No innocent living child should be slaughtered.

QUESTIONS

1. Where and when did your abortion occur?

Granite City IL

01/15/1993

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The procedure itself was explained, but nothing about WHAT (or who) was actually being removed from the uterus.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told that most women feel relief after their abortion. There was no mention of any long-term consequences, either physical, emotional, or spiritual.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father of the baby.

9. How has abortion affected you?

I hated myself after having an abortion. I didn't think I would ever be able to forgive myself. I think about that child to this day and the abortion was 16 years ago. I wonder what he or she would have been like. I regret having to tell my other children about what I did, but I will when they are old enough. I know it will break their hearts, too. By the power of Jesus Christ, I have found forgiveness and hope. I want women to know that abortion is not for their good and the abortion clinics are clearly operation out of greed, not compassion for women.

10. How has your abortion affected others in your life?

My parents and siblings were affected because my child was related to them, as well. They were heartbroken to learn about my abortion. I don't know how it has affected the father. He hasn't been a part of my life since the abortion took place. I know my children will be very hurt to know they would

have had another sibling. They will be devastated that their mom could do something like that. I know they love me and will forgive me, but it will be painful for all of us.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion seems like a quick fix, but there are long-term ramifications. Taking the life of your child goes against our natural instinct as women. By nature, we protect our children fiercely. When you choose abortion, you go against that very nature, and the pain that follows will never go away.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We now know that life indeed begins at conception. Science has left no doubt about this. No one has the right to take the life of another. We are supposed to be the most civilized nation in the free world, and yet we slaughter millions of our own flesh and blood each year. Life is valuable at all stages and it is not ours to take. Abortion is about money for the abortion industry. It is absolutely NOT about helping women. I was never informed or counseled about my options at the abortion clinic. Even after I told the "counselor" that I believed abortion was wrong and said I would never have one, but I felt I had no choice. She quietly nodded and offered no alternatives. I assume they were just happy to have the money I paid them to kill my baby.

QUESTIONS

1. Where and when did your abortion occur?

Lansing MI

09//1978

2. How many weeks pregnant were you?

24

3. What type of abortion was performed?

saline

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that a needle would be inserted via my stomach into my womb and saline would be injected. I was not told about the slow painful death that would occur for my baby. I was not told that I would go into labor to actually deliver my aborted baby. I was not aware of the emotional scares I would carry for the rest of my life. I was not asked about my religious convictions about aborting my baby. I regret my past abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

I wasn't told about any health problems that could arise from the abortion. I wasn't asked if I had any spiritual qualms about abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I had pernicious anemia resulting from the abortion. I was very ill and lost alot of blood due to hemorrhaging and had to have a D and C also. The pain of deception, sin, and regret is always there. I didn't know anything about human development and regret my decision.

10. How has your abortion affected others in your life?

I'm not certain that it has affected others. It may have caused some disrespect from the one who took me there.

11. Based upon your experience, what would you tell a woman considering abortion?

There are unforeseeable risks to your emotional, spiritual, mental, physical and social wellbeing. Fear

should be faced not ran away from. For every action there is a reaction. Regret is an awful thing to live with for the rest of ones life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

No court should allow a human being to be legally murdered. It is not a woman's *right* to be allowed to take a life into her own hands and determine whether it lives or dies. An embryo is a person straight from the Creator above.

9. How has abortion affected you?

I don't even know where to begin. For at least 2 years after the abortion I could barely look at a baby without crying. Even after these many years, I think of the baby on a regular basis. I have named the unborn child and observe his birthday annually. I know that God has forgiven me, and I have forgiven myself, but I wonder often what his life would have been and his impact on me. He will be one of the first souls that I seek in heaven. I need to tell him how very sorry I am and ask him to forgive me as well.

10. How has your abortion affected others in your life?

I don't know.

11. Based upon your experience, what would you tell a woman considering abortion?

There has to be another solution. You may not realize it now and you may feel overwhelmed, but you

will regret this, and there's not a day that will pass that you won't think of that helpless child. Abortion is only an easy way out of a perceived mess, but it doesn't make the real problem go away. Please listen to me, I know the true impact. It's not a glob of tissue; it's a child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We have laws in every state against murder of the born. How can our courts consider the murder of the unborn legal? The constitution covers ALL, not just those living outside their mother's womb. I will gladly testify before Congress or any court of the nation.

My name is Christine Harrington. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Cincinnati OH

//1987

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

clinical

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was counseled by a woman who looked about 20 years old. She just asked basic questions about did I want to hear about other options.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nothing was explained to me about the emotional or physical impact of the abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father

9. How has abortion affected you?

It's been a mental and emotional torture everyday. It has caused me to spiral into a depression, low self esteem, and avoidance of living life to its fullest. It caused me to turn away from God and from developing healthy relationships.

10. How has your abortion affected others in your life?

My son has been affected because as I raised him, I was so overcome with guilt and depression, I was emotional unavailable to him many times.

11. Based upon your experience, what would you tell a woman considering abortion?

It has life long consequences because the abortion not only kills your child, it kills your soul as well. You are putting yourself into a life long death sentence and spiritual conflict.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

They would not be sitting there if their Mother aborted them. It's against our constitution....the fetus has a right to live. I wish I would have chosen differently...I wish I had someone who told me, yes, you can raise your child yourself. I wish I had the courage to seek help, seek education, and seek spiritual guidance before making a life altering decision of abortion. I wish I could reverse my decision. Women that are in a crisis pregnancy, only need someone to hold out their hand and tell them, they can do it and there is help. We should find ways to help women, not give the choice of a death sentence from themselves and their child.

My name is Leslie Kraus. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Louisville KY

06/13/1979

2. How many weeks pregnant were you?

17

3. What type of abortion was performed?

laminaria

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 17 and terrified. All I knew at the time was that if I didn't have it done, my mother would have left me there.

5. Were you adequately informed of the consequences of abortion?

Yes No

Unless they've been there, nobody can adequately explain what happens after an abortion. 30 years ago I don't think they had a full picture even then of the devastation I, and others like me have had to endure.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother and my sister.

9. How has abortion affected you?

I have actively tried to commit suicide 3 times. I have given birth 4 times and have not been an effective parent to any of them. I have been on 3 different anti-depressants. I purposely married a man who abused me because I deserve it. I am presently divorced.

10. How has your abortion affected others in your life?

I know that my children have suffered. Other than that, I've never asked how they felt.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion is a lie. You never get your life back. Suicide is easier.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I would ask them how much money they're making off of it. There really is no other reason for them to make abortion legal. It's destructive and serves nobody but the people making money on it.

QUESTIONS

1. Where and when did your abortion occur?

Toledo OH

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

D/C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The procedure was not explained in detail. The lady told me that the doctor would "remove the fetus to terminate the pregnancy."

5. Were you adequately informed of the consequences of abortion?

Yes No

Absolutely not. No aftercare was suggested. I was only held in observation until I appeared well enough to drive home (1 hour away.) No follow-up info was handed out to me. No one said there could be possibilities of complications of any sort, nor what I should do if any complications occurred.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

boyfriend; parents, indirectly

9. How has abortion affected you?

Physical: damaged uterus that led to serious complications in 2 subsequent pregnancies & deliveries
Emotional: resentment that I was reduced to "a number" in a series of production-line style procedures in an open room separated only by cloth dividers (I even recall the doctor discussing his happy family vacation as he tore part of my family from my belly.); immediate feelings of regret (NOT relief) that continue to present; suicidal tendencies directly related to abortion; immediate insomnia & night terrors during any periods of sleep (several year duration); further engaged in self-destructive behaviors (drinking, dangerous activities, etc.) for many years following abortion; ZERO self-worth associated w/ guilt & inadequacies as parent of previously born son; bouts of serious depression & anxiety directly associated w/ abortion
Spiritual: permanent hopeless feeling of NEVER EVER having a chance for forgiveness

10. How has your abortion affected others in your life?

My children have been cheated of their right to know & love their murdered sibling. My husband has been has missed his opportunity to lovingly co-parent a second adopted child. (He has fully accepted my 1st son as his own from the beginning.)

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion does not solve a woman's problems. It pours acid into an already gaping & wounded heart. It rips a part of her soul from her forever, right along with the living & growing baby that is ripped from her womb, most often by her own consent.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Science has LONG since proven that life begins at conception. Apart from religion of any denomination, it is immoral & inhumane to savagely destroy confirmed life. A woman is NOT pregnant UNLESS she meets the criteria of having at least one unique human baby (dependant on its mother) in her womb. Only human babies come from the wombs of pregnant women...NOT flowers, bunnies, or any other living thing. People concieve and produce more PEOPLE, therefore, every PERSON deserves the rights endowed to every American...LIFE, liberty and the pursuit of happiness. Babies who have become victims of abortion will never have the opportunity to accomplish the basic provisions of our founding Constitution.

HOW MY ABORTION AFFECTED ME

The State of IN

County of Vanderburgh

My name is Ronda Stratton. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Louisville KY

//1979

2. How many weeks pregnant were you?

3. What type of abortion was performed?

End of first trimester

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was not a baby, it was merely a fetus.

5. Were you adequately informed of the consequences of abortion?

Yes No

When I called Planned Parenthood to find out information about abortion, they told me on the phone it was a quick and safe procedure, and where the nearest clinic was at the time. The woman I talked to was so nice on the phone, she reassured me that at the early stage of pregnancy I was in, it was a fetus, not a baby yet.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother

9. How has abortion affected you?

My mother and I were never able to speak about it afterward. She took me and paid for it. She knew I became vocal against abortion, and I really believe she regreted it to. But neither of us ever worked up the courage to talk about mine. She passed away 5 years ago today in my home and were never able to undo the silent regret that hung between us.

10. How has your abortion affected others in your life?

I was told by a pastor not to share with my children because they would not understand or forgive me. So for many years I kept secrets about who I used to be and the mistakes I made. I knew God forgave me, but I could not forgive myself. My kids would walk into a room and see me crying over what someone on the radio or tv was sharing about abortion and I would cover up with being passionate about the subject. It had me emotionally unhealthy until recently, when I started attending Celebrate

recovery.

11. Based upon your experience, what would you tell a woman considering abortion?

That it is a perminate solution that you can never take back, that when that life is removed forcefully from your body you will have two options; mourn the loss of the life you once carried inside you and are responsible for ending that life, or stay in denial about what you have done, which could even lead to more abortions until the reality catches up with you and you have no choice but to face the pain of your actions.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That not every choice should be made a right. That abortion most often at the very least leaves women in shame, and the emotional repercussions can be devastating and lifelong lasting.

9. How has abortion affected you?

Every year as the day approaches to the date of the abortion I get depressed. I actually was sitting on the toilet at the hospital when my baby (fetus) came out and I will have that image in my mind for the rest of my life. I at times don't feel that I have the right to be here because of the overwhelming guilt that I have some times worse than others.

10. How has your abortion affected others in your life?

I know that my family understands that I truly didn't want to do it and if I had the choice over again I would not have had an abortion. They see how depressed I get and know that it is because of the abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to not have an abortion because it will effect you for the rest of your life. The baby is real and alive and you have to live with the fact that you ended your child's life no matter what you believe or

other's tell you. There is nothing that can bring that child back again. Atleast if you put it up for adoption you have given the baby a chance to live.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That just because you want to make it legal doesn't make it right. Have you been to a place where they do abortions and seen the fetuses? If your mother had an abortion you wouldn't be here.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that at this stage (8 weeks), "it" (the fetus) isn't a baby at all, "it doesn't even look like a baby," I was 18 years old at the time. They didn't show me a picture of the fetus at 8 weeks, so I could see for myself. Instead, I was told they were just going to "scrape down" my uterine walls which were "building up in preparation for a baby," but right now, it was just a bunch of cells dividing. And that once they scraped down the walls of the uterus, then the baby couldn't come, in essence, they would simply be preventing the possibility of the baby to happen at all. That it wouldn't be able to "implant." What a LIE!

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no counseling, afterward, I was sent into a room with other women to sit and whoever I had brought with me to the Planned Parenthood that day (my boyfriend at the time) met me in there, where I cried profusely for about a 1/2 an hour before leaving.

9. How has abortion affected you?

I will always carry around a deep sadness over what I did. It cannot be undone, I know I am forgiven through Christ, Praise God! But forgiving myself is going to be a lifelong process of healing.

10. How has your abortion affected others in your life?

It tore my now ex-boyfriend apart, he was against it from the beginning, but I didn't see him as having

any say over "my body." My mother also feels tremendous guilt, my current husband has had to witness and attempt to comfort me. For a long time he would have to deal with my depression every anniversary of the abortion; having a hard time understanding and relating.

11. Based upon your experience, what would you tell a woman considering abortion?

IT IS A LIFE! THAT CANNOT BE DENIED! And no matter how desperate your situation seems, you will never be able to take back what you are about to do, and you WILL regret it, maybe not immediately (but likely), but someday you will and the pain you will experience is not worth ANY temporary freedom that you think you're gaining by ridding yourself of this "inconvenience" that is a baby/a life/a love greater than anything else found in this world.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should be no more legal than any other type of murder should be legal. When we find someone to be of no value to us/to society does that justify their elimination? Of course it doesn't, but that is exactly what we are saying as long as abortion is legal.

9. How has abortion affected you?

deeply, agonizingly. I murdered my child, and I know it wasn't a "blob" like my parents said. It is one of the most difficult things I tried to forgive myself for. Wondered about what I would have named the baby, what it would be like, etc. I deeply resented my parents and probably still do.

10. How has your abortion affected others in your life?

Right afterwards my parents took me to Mc Donald's - like we were on vacation!

11. Based upon your experience, what would you tell a woman considering abortion?

Talk to people who have had one & listen to how it has affected her over time. You will NEVER recover from it psychologically.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Nobody takes into account, nor is a woman told, how abortion will affect her psychologically for many years, perhaps her whole life. All women considering abortion should be required to talk to a counselor to make sure she has considered these things.

The State of IN

County of monroe

My name is Shannon HOY. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

bloomington IN

//1984

2. How many weeks pregnant were you?

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

The questionnaire is very vague. First of all I have had three abortions. The first time I was 18 and divorcing my abusive husband, who was looking at 5 years in prison. When my attorney asked me if I was pregnant, I asked why? He said the judge would not grant my divorce if I was pregnant. I aborted my child. My second abortion was a few years later and my son was 7 months old then and I was about 10 weeks pregnant. My husband at the time had abandoned me and the baby, no job, no money, no car and rent and bills. I found out I was pregnant. I couldn't face the humiliation of adoption. If I couldn't raise my child no one would so again I chose abortion. Fifteen years later after the death of my husband and raising two children on my own I found myself in a new relationship, pregnant and about to lose my job because of the all time I was taking off because I was so violently sick. My doctor didn't have any idea what was wrong with me and no medications were working. Again, I chose abortion. I can tell you their names, exactly where I was at in my life at the time. I don't remember the details as I think that was my coping mechanism for dealing with it. I am the mother of six children 5 boys ages 25, 24, 23, 20 and 9, 1 girl age 11, 3 are living and 3 I murdered. That is how I am affected by abortion every birthday and mothers day.

10. How has your abortion affected others in your life?

I have trust issues, commitment issues. My living children and I have issues that they don't even know exist because these things have never been shared with them. Sometimes I am appalled at their attitude towards me and others in their life because they do not realize the sacrifice that I made by giving them life.

11. Based upon your experience, what would you tell a woman considering abortion?

I understand and identify with circumstances...I am 44 years old and if I found out I was pregnant today I would be faced with the very same decisions that I made 25 years ago. What would I do? Where would I go? How would I make it? but the reality is they don't tell you; IT HURTS; EMOTIONALLY, PHYSICALLY, SPIRITUALLY AND MENTALLY. You will live with the ramifications of your decision the rest of your life. You will think you are never good enough for the love of anyone, man, child or God. You will feel like a weak failure your whole life. I am a successful middle class woman who has attended college and made a very comfortable life for myself. If there was one thing I could tell her it would be this...COME LIVE WITH ME AND WE WILL GET THROUGH IT TOGETHER. YOU WON'T BE ALONE IN THIS.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

BASED ON MY EXPERIENCE; IT SHOULDN'T BE.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of IN

County of LaPorte

My name is R M I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Columbus OH

01/21/1986

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

They didn't tell me anything about emotional consequences of an abortion or any other consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I was 24 years old. My boyfriend/fiance' and I were (and are Christians) both raised in church all our lives and believed that abortion was wrong. However, due to some history in his life and some issues with his parents (i.e., they didn't really approve of me) I felt like if they knew I was pregnant, then they would disapprove of me all the more. Also my father was a preacher so I felt like my pregnancy would bring shame to them. Overall I felt like I was saving face and issues for other people - not thinking first about the effects an abortion would have on me or my fiance'. We did go ahead and get married as planned and have been married now for 23 years. It took me a very long time to forgive myself for having an abortion. I did eventually forgive myself and I know that God forgave me a long time ago. Some days I still have regrets but I know that when I get to Heaven I'll see my baby.

10. How has your abortion affected others in your life?

My husband ended up telling his parents about the abortion shortly afterwards. About five years ago or so my husband also told my parents. We have 3 children and about 7 years ago it was told to them. I had always wanted to keep this a secret from both sets of parents and my children. However, when this was told, it was told more in a tone of revenge/pointing finger, rather than explaining what happened.

We've had a rocky marriage for several years. I feel like the abortion had some contributing factor to some of the problems in our marriage. My husband only told me within the couple of years of the effects the abortion had on him. Now that our immediate family knows I feel such remorse because our parents lost a grandchild and my children never had a chance to know their sibling. The abortion not only cheated and effected me, but also our entire family.

11. Based upon your experience, what would you tell a woman considering abortion?

I would strongly encourage her not to do it! That even though the pregnancy may have happened under less than ideal circumstances, you will have a lot of emotional scars to deal with. You also take a risk that something could happen during the abortion that you may not be able to ever have children again.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

There are emotional affects an abortion has on not only the mother but also any family that is aware of the abortion. The unborn child is still a human life - there is a heartbeat. An abortion is murder!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of IN

County of Grant

My name is REbekah Carpenter. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Toledo OH

12/22/1976

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction curettage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that my baby was just a mass of cells, not that his heart had begun to beat or that his fingers and toes had started to appear.

5. Were you adequately informed of the consequences of abortion?

Yes No

I knew there was an immediate danger of bleeding, but I did not know that there could be consequences, such as an increased risk of breast cancer, later in my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my boyfriend at the time

9. How has abortion affected you?

At first, I don't think I dealt with it. Then, when I had my own children--I married the father of the aborted baby--I began to realize what I had lost. Initially, that made me really angry at my husband. He didn't want to talk about the abortion at all. We worked through it, although it took some years for me to realize that he grieved for the loss of that baby as well. It has been almost 33 years, but every summer, when my son celebrates his birthday, I remember that he had a sibling, who I believe to be a brother, that would have been 13 months older. I have two living children. All my siblings had three. There are often times, still, when I want to tell people that I had three babies,too.

10. How has your abortion affected others in your life?

My husband still doesn't talk about it, although now he will listen to me. I told my son about my abortion when I was worried about his conduct with a high school girlfriend. I thought he would hate me,

but he just put his arms around me and held me as we both cried. He has a great respect for life, I think, as a result of that talk. I didn't mean to tell my daughter, but one day in the kitchen we were talking, and she said, sarcastically, "What would you know about things, Mom? It's not like you ever had an abortion or anything." When I turned around, she saw my face and she knew. She also did not hate me. She just hugged me. I think both of my kids took their sexual behavior much more seriously because they saw that I was affected by my abortion long after it had happened.

11. Based upon your experience, what would you tell a woman considering abortion?

I would ask her to consider the long-term affects of her decision. Sometimes, a woman who has an abortion is like a wolf who chews its leg off to get out of a trap. It just doesn't know another way. I would take her to a crisis pregnancy center and try to get help for her, including an ultrasound. I would tell her that an abortion is never really gone from your mind. It's just something that you learn to live with.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I don't think, with the scientific advances our culture has made, that we can excuse abortions as things that rid women of an unwanted mass of cells, like a tumor. Pretty much everyone knows about fetal development now, so even junior high kids know that an abortion destroys a baby. There are long-term consequences, both emotional and physical, for women who have abortions and for their loved ones as well. How can a culture that is supposed to value life value the choices of a woman more than than her unborn child, one who cannot decide for himself? You either value life or you don't.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of IN

County of usa

My name is Linda Crawley. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Indianapolis IN

06/15/1987

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Nothing was explained to me

5. Were you adequately informed of the consequences of abortion?

Yes No

I have actually had two abortions. Once, I ended up in the hospital afterwards with complications (high fever indicating an internal infection). This was not explained as a risk. Nothing was said to me regarding my own emotional state for the rest of my life if I killed my children.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

My abortions happened in my early 30's. It is a rare day I don't think about it. It is so much in my heart and on my mind to stop abortion and it's consequences for both the fetus and the mother, that at age 55 I have just completed a book regarding my experiences. I plan to use my remaining years to fight to save lives (the unborn) and restore lives (women who have been damaged by this practice).

10. How has your abortion affected others in your life?

My sister and my mother and father found out about it. It hurt them deeply. When my father found out about the first one, he flew from California to be with me. He has passed away now, but my sister told me recently that my father lived for years feeling like "he had failed me". I said "Why?" My sister said "Because he was not able to stop you from having an abortion." This broke my heart. I had no idea he felt this way.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't do it! This is not something you can just do and forget. It will always be with you. It is NOT the solution to the problems you think you are facing. If you do not feel you can raise the baby yourself, be unselfish enough to look at adoption! Choose LIFE.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

This is the hard one, because I do not believe we can prevent abortion through laws. We must change hearts! At the same time, any country that turns to the barbarism of killing it's own children is doomed. Just check out history!

The State of IN

County of Vigo

My name is Rhonda Smith. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Louville KY

//1980

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one really explained anything to me at all.

5. Were you adequately informed of the consequences of abortion?

Yes No

The guilt and shame you feel is something you carry with you forever if you don't get healing. No one gave any warnings that you could face emotional damage and mental distress.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My doctor. I got measles.

9. How has abortion affected you?

I have never stopped thinking about it. I wanted to have the baby, but the doctor advised me to abort because I got measles in the first trimester and he said the baby would have multiple defects. He said he had never seen one born without some sort of defect when the mother got measles. It has caused me great shame. I can't and don't talk to anyone about it. I have been taking an antidepressant and I believe it is because of what I had done.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. Even if you think it won't be healthy or have a defect. God will give you the strength to take care of your child. Get as much information as you can and counseling before hand. Not just with the doctors but get some spiritual advice also. It's not worth the pain and shame you experience afterwards.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

No one has the right to take away something God has made. It is a life in side of you and when you destroy it it does do something to you no matter what your circumstance is. There is so many people you want a child and can't have one. Use the opportunity to give that gift of life to them and instead of despair you will be blessed by having helped someone else in need.

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Probably a D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Nothing that I recall was explained to me

5. Were you adequately informed of the consequences of abortion?

Yes No

The nurse was silent to me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It changed my life forever. I know the Lord has forgiven me but a lot of tears for many years. When you realized what you really did, it kicks you in the stomach and puts a hole in your heart. That's how I felt

10. How has your abortion affected others in your life?

I'm not sure. My husband then, we divorced and he went really down the tubes. He turned to drugs and never believed in taking them.

11. Based upon your experience, what would you tell a woman considering abortion?

It is something you can never ever take back. You may never be able to ever get pregnant again. The pain is forever.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Be in my shoes for one day. Let me tell you my story so you can feel for once in your life. Remember your mother did not abort you and if she did you wouldn't be where you are today.

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was a simple procedure, with a little discomfort. It wasn't simple & there was a lot of pain, & no compassion.

5. Were you adequately informed of the consequences of abortion?

Yes No

I experienced severe depression afterwards, I became suicidal. I had a hard time forgiving myself for what I had done, I wished I was stronger & better informed. I was told by many I did the right thing, because I was in a very abusive relationship.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

family members

9. How has abortion affected you?

Depression, suicidal, anger, unforgiveness of myself & those involved in my decision.

10. How has your abortion affected others in your life?

I would lash out at others & not know why. I would withdrawal, I gave myself to other men, I became addicted to sleeping pills.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them to not to do it, the consequences are to high. Life is precious & God has a plan for them & their baby. I would encourage her to have an ultrasound so she could see her baby & realize her baby is alive & real. I wish I had that opportunity all those years ago.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That the baby is a person, I would show them an ultrasound of my children. The abortion clinics lie to these women & men it isn't a simple procedure.....It doesn't just destroy the unborn baby, it destroys the women's soul. The pain she feels for years after is so great, & you can't go back to change it, it is too late.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My husband (at the time).

9. How has abortion affected you?

I have been through every type of abuse as well. So, I don't know what of this is from the abuse or what is from the abortion. After our divorce, I told my mom I was feeling suicidal. So, she took me to the hospital and I stayed there for a couple days. They said it's PTSD. There's other things, but that is the main thing.

10. How has your abortion affected others in your life?

I don't really think it has affected anyone else.

11. Based upon your experience, what would you tell a woman considering abortion?

You don't want to do it. You will regret it later in your life, if not now. If you don't want your baby you can give it up for adoption. I would say more, but what I would say to the woman would depend upon her individual situation.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If abortion wasn't legal I wouldn't have been forced into an abortion. Abortion doesn't give women a choice. It takes away the baby's choice. Science says human life begins at conception. Therefore, abortion is murder which is illegal. So, abortion is/ should be illegal.

9. How has abortion affected you?

I've had emotional and physical problems

10. How has your abortion affected others in your life?

negatively

11. Based upon your experience, what would you tell a woman considering abortion?

It was the most scariest thing that ever happened to me or my husband. I'm not exaggerating when I say I am lucky to be alive. I went in for the procedure which was a total of three visits to the clinic. On the third visit I was given an IV and I briefly remember waking up and going to another room with other women. Then I started to feel incredibly cold, my teeth were chattering, I said I don't feel right and they said your fine thats normal. I started to fall asleep and one of the nurses came over and gave me a shot of antibiotics after that I remember saying somethings very wrong and I passed out. When I woke up I was completely hallucinating. on the ambulance ride over I was hysterical, I kept asking them am I going to die. Believe me when I tell you that I had never in my live asked someone am I going to die, I was extremely aware that I really might die. To make a very long story short, my blood pressure was so low that I passed out, I had a fever of 106 and I was having organ failure, my body was in shock I

had severe sepsis. I was in the hospital for 6 days but the doctors couldn't believe that I was doing so well, in fact several of them told me that I was lucky to be alive, most people who are in that bad of shape are in the hospital for weeks even months, and that 6 out of 10 people with the same illness die.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I know for a fact that abortion clinics and actual doctors do not follow the law. The doctor that preformed my abortion actually falsified the date on my paperwork. In Ohio you have to wait 24 hours after receiving information from the doctor, he said you are an adult you know what you want to do and if we change the dates you can get started today. After only being in his office for less that 1 hour, he broke the law plain and simple. He said he was the best doctor in the area to preform the procedure and that I would be fine. He almost killed me by preforming the type of abortion that he did, that should not be legal.

3. What type of abortion was performed?

suction vaccum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was informed that it was only a blob of tissue,and it will be a simple procedure. And everything meaning my life will be normal.

5. Were you adequately informed of the consequences of abortion?

Yes No

They didn't tell me what type of harm it can do to a women's body. The bleeding that occurs after the abortion was referrd to as a normal menstrual cycle. No one tells you about the emotional,mental, physical pain that you feel afterwards. No one says this is human life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father of the baby, and other people

9. How has abortion affected you?

I was in a mental prison for years not knowing what was the cause. I didn't know how to love my children @ home I was always afraid that something bad was gong to happen to them. I didn't feel like i deserved to have children. I thought any day the Lord would punish me for what I done. I had panick attacks and dealt with alot of anxiety,guilt,shame thinking in my own mind that everyone knows this secret. I dedicated my life to Jesus Christ 7 yrs. ago. And after having a intamant relationship with the Lord He began the healing process in my life. I needed to be forgiven from my abortions,and also recieve healing that only the Lord could give me. And he's been doing just that. It's been a continual day by day process that only gets better and better. Praise God!

10. How has your abortion affected others in your life?

It was big disconnection from my family. And friends from society in general.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it I know it seems simple from the world's view, but it's not. You're carrying a human life not a blob of tissue. Don't make the same choices I made you can save yourself years, and years of guilt shame hurt and pain, destruction. Choose life not only for the child that you're considering aborting, but choose life for yourself.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder of a unborn child. And in the process of killing that child you also kill that women spiritually, mentally, emotionally, physically. It's time to call abortion for what it is murder. It's not a blob of tissue it's child with a identity and a name. It's time to tell the truth about abortion. (Psalms 139)13-16. You made all the delicate inner parts of my body and knit me together in my mother's womb. Thankyou for making me so wonderfully complex! Your workmanship is marvelous- how well I know it. You watched me as I was being formed in utter seclusion, as I was woven together in the dark of the womb. you saw me before I was born. Everyday of my life was recorded in your book.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of IN

County of marion

My name is christine bullock. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

indianapolis IN

09//1980

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I do not remember being told anything about the procedure

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told about any consequences

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It affected every part of my life. Unfortunatley I did not realize the depression, alcohol/drug abuse, abusive relationships, failed marriages, failure to bond with my living children, etc...were the consequences of my past abortions. I also had an illegal abortion in 1971....

10. How has your abortion affected others in your life?

They were collateral damage.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her she is aborting her baby, and that her baby's heart is beating at 21 days. An abortion it is something she will never get "over". It is not a simple solution but a complex problem.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion wounds women and kills our children. It is not the answer/solution to an unplanned pregnancy but rather a life of shame and drepression. Women do not "get over" an abortion. They can never "get

over" killing their children, that is a ludicrous, uneducated notion....

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of IN

County of Monroe

My name is Virginia Mahoney. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Nashville TN

03/17/1994

2. How many weeks pregnant were you?

20

3. What type of abortion was performed?

suction/D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was given very little information about abortion. Planned Parenthood told me I was pregnant and then said we can take care of it for you and set up an appointment with a hospital for indigents because I had very little money. They told me it was okay, it was just removing tissue, everyone does it and it doesn't even hurt. I was never given an ultrasound and I was calculated to be 12 weeks along, but the doctors found out during the abortion that I was actually 20 weeks along and I almost died along with my baby the day I had my abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never informed of anything. They told me there would be no consequences at all. It would just magically take care of my problem.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend, the father of the baby.

9. How has abortion affected you?

I lived for years feeling depressed and missing this child who I had killed. I wanted to kill myself. I didn't see the point of going on living when I missed my baby so much, but everyone said it wasn't a baby so it was hard to figure out why I was feeling so empty. I found myself in the same situation a year later, pregnant, with an abusive boyfriend, abusive father, no money, etc. This time I couldn't kill my child so I had her. Abortion has affected the way I raised my other children as well. I have always been afraid that I would lose my children because I had killed the first one I had. There were times it was hard to look into my the eyes of my children without missing the one I had killed. I didn't know where to begin to get

help.

10. How has your abortion affected others in your life?

My abortion took a sibling away from my other children. They have a brother or sister that they have never met and never will. It has taken away a part of my womanhood. Women were created to be nurturers and when you take the life of your own child it becomes difficult to embrace womanhood. It has affected the way I parent my other children. For years I lived in fear that I didn't deserve them and they would die.

11. Based upon your experience, what would you tell a woman considering abortion?

I would say (and do say all the time) never get an abortion. It doesn't fix anything. It will only give you more problems than you can imagine. You can't turn back time. Once you are pregnant you are a mother and having an abortion will only make you the mother of a dead child. This is the absolute truth!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is wrong. Abortion is murder and no one should have the "choice" to take the life of another human being no matter how inconvenient it may be to have that life. Abortion hurts women, children and men. It destroys lives.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of CO

County of Boulder

My name is T B I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Boulder CO

06//1975

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction & curettage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Only that the instrument would scrape and suction the blob of tissue out of my uterus, that I would experience some cramping and the procedure would soon be over and so would the pregnancy. Not that that there was a beating heart and that I was ending a person's life.

5. Were you adequately informed of the consequences of abortion?

Yes No

Only that I may experience some bleeding for several days and relief that pregnancy was over. Not deep sadness, emotional pain and regret that I had gone against what I'd been taught my whole life. That life was sacred and God is the only one to decide when it ends.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

A friend, she even gave Drs. name

9. How has abortion affected you?

I felt ashamed and depressed for along time not making the connection. I never felt valued or special in my own family so therefore I didn't value the life I aborted in 1975. I subsequently had two more abortions making matters worse emotionally, physically and spiritually. I had multiple partners, contracted STD's, lived recklessly and didn't care about my life anymore or how I might be hurting others.

10. How has your abortion affected others in your life?

It destroyed the relationship I had with my boyfriend who wanted to get married when he found out I was pregnant. I think it made others abandon me when they discovered what I wanted to do during other

pregnancies. Also, I think it made it difficult for me to bond with my living children and my husband because of depression, guilt and shame that I carried around with me all the time.

11. Based upon your experience, what would you tell a woman considering abortion?

That she should really think about what she's planning to do, she can't bring back the life she ends. Abortion is the easy way out of a pregnancy, but it doesn't take away the emotional and physical changes that have already begun at conception. Her body is preparing her for the birth of a child and those things don't just go away overnight after the abortion. It takes time for her body to heal, the hormones to go back to the way they were before, and her mind to accept what's she's done which may never happen. Just like after a woman gives birth there are many changes that take place in her body and emotional state with the adjustment of caring for a child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I don't think any court should justify or financially support abortion in any circumstance. Rather I wish the court would allow counseling or programs for these young people to think about the choices they are making for their lives before they even get into this situation. Abstinence solves a lot of problems.

My name is Rakisha Davis. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Ft Wayne IN

06/09/2001

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

suction/vaccum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They told me it would be alinning from my uterus the same as they told me before in my previous abortion. It's just a blob of tissue it would be as if you having a period after words.

5. Were you adequately informed of the consequences of abortion?

Yes No

No they didn't talk about the emotionl, physical or mental pain after.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Many years I dealt with fear, guilt And anxiety. It changed the way I loved my children. It was a secret I carried for many years. It seemed as if every where i went everyone knew what I had done. I thought who could love someone like me.

10. How has your abortion affected others in your life?

At that time in my life having an abortion just made my family look down on me even more. My boyfriend did not agree with it but in the end we both decided to do it.

11. Based upon your experience, what would you tell a woman considering abortion?

I would say choose life not just for your child, but also for yourself. In my experience I went through years of emotional and mental turmoil because of the guilt that I hid on the inside. Thank God he not only redeemed me but he also healed me. He walked through the healing process with me. It's a life growing on the inside of you a life of purpose and a life of promise. 10 years ago sitting in the abortion clinic no told me this. I thank my Lord and saviour Jesus Christ for the life that I now live. I pray that you

choose life because guilt is a death sentence all by itself. I pray that you know the Lord cares about your life also he has a purpose and plan for you. You might not know who Jesus is not even understand, but that's ok he knows and understands you. I'm praying for you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You have to realize your intentionally killing two lives the mother and the child. Abortion is not the way out it's not the solution. Your'e actually creating a prison for this women. Yes she might be able to exist everyday ,but mentally,and emotionally she won't live.

please don't do what I have done.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I was 17 when I had my abortion. Personally I believed abortion was very wrong ..then I found myself in a crisis pregnancy..I started thinking how could it be wrong if it is legal? If I would just start believing like those who think the baby is just "some tissue" I will no longer have a "problem". I regret my abortion deeply and pray that abortion will be wiped off the face of the earth and no other woman would have to go thru what I have been thru and that we would have greater love for our unborn children

HOW MY ABORTION AFFECTED ME

The State of KS

County of Allen

My name is Jean Anderson. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

El Dorado KS

10/21/1962

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

Don't know what to call it . . . the baby was essentially "electocuted".

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I knew, but also knew that having a baby at that time would end my chances of being able to ever support a child (I was in my last year of college). Also knew that, at that time, my child would be "unadoptable" . . . since it was of mixed parentage . . .

5. Were you adequately informed of the consequences of abortion?

Yes No

This wasn't a subject that was acknowledged, much less discussed, at that time . . . abortions were still illegal, then.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

the baby's father, and several friends

9. How has abortion affected you?

It caused me to marry someone out of guilt (not a good reason to marry someone!) in an attempt to "make up" for what I had done . . . However, it also caused me to persuade others not to have abortions . . . It took me 15 years of trying to "atone" in various ways, alternating with times of reckless sexual promiscuity (after finally having my "tubes tied") before I finally came to the end of myself and received forgiveness, absolution, and a new life in Christ!

10. How has your abortion affected others in your life?

Since the example of what you do is stronger than what you say, I am afraid it enabled some who knew I had had an abortion to imagine that it would be OK for them to do so, too. To my sorrow, that includes my daughters, who are now struggling (probably unknowingly, as did I) to deal with their own guilt.

11. Based upon your experience, what would you tell a woman considering abortion?

Please realize that today there ARE much better alternatives! And please realize that choosing to have an abortion is choosing to commit murder. And whether you want to believe it or not, down deep you will KNOW that it is wrong to kill an innocent human being, and you will suffer guilt feelings which will cause you to make further wrong choices so long as you fail to acknowledge what you did was wrong, and receive God's forgiveness.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Allowing the murder of the most truly innocent members of human society while allowing the truly guilty to continue to live without suffering any kind of meaningful warning or demand for restitution in the way of consequences turns the scales of justice "upside down"! Isn't it plain that this is what has been happening in our nation since elective abortion was made legal?

FATHER OF CHILD

9. How has abortion affected you?

I left the church for many years. I was in and out of pointless relationships. I was addicted to marijuana for 8 years. I abused alcohol, but thank God didn't become addicted to it.

10. How has your abortion affected others in your life?

My husband was deeply hurt to find out my past. My parents were hurt to learn they lost 3 grandchildren on top of losing the only child I saved because of a car accident.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them they shouldn't consider it. Their lives will change forever and they will always wonder what would have become of their child. I would tell them they will undergo depression and abuse drugs/alcohol/sex as a result of it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion does more harm than it does good. It is never good to kill your own children. People shouldn't be allowed to make a choice between killing their children or not. Abortion hurts our nation, it hurts those involved and people who are related to them in any way. This chain reaction causes a major problem in our society and pits men against women and those same people against their own children. The millions of children who have been killed because of abortion represent taxpayers. Their so-called "choice" has probably brought on this whole economic problem we face at this point.

9. How has abortion affected you?

How has abortion not affected me might be the easier question to answer. Every breath I take is a reminder that I stole the breath of another. I thought that having an abortion was the only out I had. . . the only choice for me. At the time I confided only in the father of the child (who would later become the father of my four other children), but that isolation from my family during such a stressful time created incredible anguish for me. Several hours prior to the procedure the technician was doing a sonogram and inadvertently had not turned the screen so that I could not see it. The image of my baby and her precious heart beating just hours before we would take her life are indelibly printed on my brain. The print out of the sonogram was attached to the clipboard I carried through the rest of the time in the office, and I glanced at it one more time. I can never erase those images. When we were pregnant with our first son, each sonogram appointment was a reminder of our decision, and brought home one more time how fully unworthy my husband and I are to have the blessing of life given to us again. I had my first dream of my unborn daughter four years ago. I could touch her hair and see her smile. Even as I type those words I cannot stop the tears from flowing. She was beautiful and I was reminded again of

how selfish and foolish I was. I do not know if I will ever forget. I am a changed person because of the abortion.

10. How has your abortion affected others in your life?

I left the next summer for what I now understand to be an atonement trip to China. When I returned my behavior was erratic and I was very much changed. My mother characterized me as "appearing to be drowning". Frightened, she sought ways to determine what was wrong. Finally, my fiancée and I were able to share with her and my father what we had done. The simple act of allowing others in to our secret world was amazingly freeing. Unfortunately, that disclosure came with a price. My parents had to grieve for the grandchild they will never know this side of heaven, and had to work through the forgiveness process to extend to my now husband and I grace. My mother has had to walk me through tearful phone calls, even as recently as two weeks ago, during which I grieve over the choice we made. My husband lives with the effects of our decision on my psyche and heart each and every day.

11. Based upon your experience, what would you tell a woman considering abortion?

It is not worth the cost. You cannot go on as if nothing happened. There is no return to life as before. When you do have children, each time you see them take a breath you will be reminded of the choice you made, and you will regret. Abortion seems like an easy "out" but in reality the consequences of that choice will haunt you for the rest of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You must believe that abortion is harmful to women. Each breath I take is laced with the decisions of my past. Every decision I have made since December 12, 1996 has been affected by that one choice. Had abortion not been an option for me I would have not taken a life, and would not live with the fear of various cancers. I would have sought other alternatives, which would not have been easy, but could not have been as harmful to me as the decision I made.

Yes No

I was only 15 and my mom took me there nothing was explained to me. I cried and and cried and wanted them to stop.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nobody told me anything. I was no linger preg. so it wasn't discussed it was over. I had no idea that it messed me up emotionally until later years 20 years later. I got into alchol and drug abuse, serious cring bouts, suicidal feeling, self hatred, hatred of my family and of God, feelings of dispair no self worth. It wasn't until my first born son died tragicy in a car wreck and I couldn't walk through the greiving process that I was able to understand that I had never had closure or been given the permission to grieve the loss of my first son Jermiah who was killed by my abortion. You know at least I finally received help so many never do and they don't understand what abortion can do to your mind and your heart to your person. It is a tragity. I believed the great lie its only a tissue. No damnit I killed my child. Let me tell you thats a hard realization to come to as a mother. Your either preg. or not and what are you preg. with a child or a blob. Its a child.....

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my parents

9. How has abortion affected you?

I already typed all that in above. It chaged my life, led me to self inflicted behaviors to punish myself forever (till I received help) for what I had done.

10. How has your abortion affected others in your life?

I don't know about the father. I never talked to him again after I told him what I had done. He couldn't believe I had done such a awful thing... How could you,,,why...ect...

11. Based upon your experience, what would you tell a woman considering abortion?

Don't Do ITIf you have to give your child up for adoption and then make sure and get some counseling...Under no circumstance have a abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That killing your own child should not be legal.....And that the law makers themselves will be held accountable some day for their part in this horrific act by lying to us women and young girls and making this legal. You know laws are made to protect us from harm and we believe this especially when you're young and nieave. I believe all will be held accountable.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of KS

County of pottawomnie

My name is A k I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Padroni CO

05//1973

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

forced abortion with bleach and tools from the tool shed on a farm, then abortion kit

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 11 yrs old and the people who adopted me performed it at night time in a tool shed. The man got me pregnant and at 9 weeks. First they used bleach, then antique tools, when that didn't work the man went into town and got abortion kit from a doctor and they performed it in the tool shed. I told them DON'T KILL MY BABY, the next thing I know my blood and my baby's blood and body parts were mingled and over my legs. A neo-nazis experimnet gone awry.

5. Were you adequately informed of the consequences of abortion?

Yes No

No it was a forced illegal abortion performed by neo-nazis extremists on a farm at night.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

it wasn't pressure, it was done against my will

9. How has abortion affected you?

It shattered my life when I was young. I had 3 forced abortions between ages of 11 and 16 yrs of age. The forced premeditated abortions affected every part of my life including marriage. As a child I was shattered and I laid in the battlefield wounded and bleeding including my heart. In 2006 I went to a post abortion bible study for help and healing.

10. How has your abortion affected others in your life?

Don't know

11. Based upon your experience, what would you tell a woman considering abortion?

Not to have one! First it is murder and It affects every aspect of your life in a negative way. It can

physically harm your reproductive organs and you can never have another child, it causes breast cancer and other physical problems along with emotional and sometimes addictions. You feel dirty, shameful, anger, rage, bitterness and unforgiveness. Only our loving Savior can help you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it should not be made legal! Abortion in the USA should be abolished. First it is murder and it affects every aspect of your life in a negative way. It can physically harm your reproductive organs and you can never have another child, it causes breast cancer and other physical problems along with emotional and sometimes addictions. You feel dirty, shameful, anger, rage, bitterness and unforgiveness. It sometimes takes a long time for people to recognize it causes PTSD in women and many other problems. It is usually misdiagnosed with just being depressed or stressed out. It causes one to have bad relationships with men and ruins marriages and other relationships and can affect your work and especially how you feel and treat yourself. All babies have the right to be born.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of KS

County of Cowley

My name is LaVeta Wheeler. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Atlanta GA

06/06/1987

2. How many weeks pregnant were you?

22

3. What type of abortion was performed?

Late-term saline & laminaria

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It was not explained in detail what to expect or the consequences. They made false allegations, such as "follow-up would be provided". I did not know that I would have to go through the procedure completely alone, without support, or even a nurse to assist me. I was denied pain medications because I was told "you can't have any because we want you to remember this so you won't ever go through this again." When I was caught talking to my mother on the phone they removed the phone from my room. I went through 23 hours of labor and delivered the infant without anyone in the room, then the nurse came in, cut the cord and laid the baby on the table where I could see it. She then threw it in a trash can beside the door and walked out of the room. I was not told about needing to deliver the placenta. The next day the doctor came into the room to check me and he reached inside me and pulled out the placenta. Again, no drugs, anesthesia, or nurse were present.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me that I would become extremely depressed, suicidal, or that I would contract a sexually transmitted disease from the dirty instruments used in my abortion. No one told me that I would feel alone, like I was going crazy and that no one could understand my pain. I was not told that I would mourn that baby the rest of my life or that my mother would mourn it as well. No one ever told me that I would develop a severe mastitis infection which nearly ended in surgery. No one told me that I would feel like I was being raped over and over again every time I had a pap smear. No one told me that I would suffer from symptoms of PTSD and Major Depressive Disorder after the abortion. No one ever told me that everytime I had sex after my abortion that I would become so fearful that I would have vivid, intense, flashbacks of the abortion procedure. I was not told what to expect, who to contact with my symptoms, or that what I was experiencing was normal for someone who had an abortion. I was never told that I would suffer in silence because no one would understand my pain or heartache that I would experience over the next 20 years. I was handed birth control and told to follow up with my doctor.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My church, my family, doctors, and abortionists.

9. How has abortion affected you?

It totally altered my life negatively. What was supposed to bring me life brought me despair, anguish, remorse, and grief. I became depressed to the point I attempted suicide for years. I have had severe flashbacks and anxiety over doctors, clinics, and hospitals. I have physically and mentally suffered since my abortion to the point I nearly died. I have been diagnosed with Major Depressive Disorder, Generalized Anxiety Disorder, and with PTSD. I have never become pregnant since my abortion.

10. How has your abortion affected others in your life?

My mother and grandmother mourn the loss of my baby. My father won't discuss it because he feels he is to blame. Now, that I need a hysterectomy he feels it is his fault that I will never have a living child outside of a miracle. My brother and sister never understood how I could have an abortion or the pressure I was under to abort. They could not understand that I was told by multiple doctors that my baby would be both mentally and physically handicapped and that the abortion was imperative. They could not understand why I kept hurting myself, needed therapy, and would no longer take interest in normal activities. They could not understand why I would go swimming fully clothed or why I went to bed fully clothed. My family could not understand the nightmares that I had at night. My parents could not understand why I withdrew from them and life and wondered why I wanted to die. My sister never understood the many nights that I cried myself to sleep over the anguish I felt. My abortion experience has affected other relationships, including my marriage. I have never become pregnant since my abortion experience.

11. Based upon your experience, what would you tell a woman considering abortion?

I tell them what happened to me, the consequences of abortion, and that there is hope. I tell them there are other options such as parenting and adoption. I tell them that they don't have to go through their pregnancy alone. I tell them what no one ever told me, the truth about abortion. I tell them that they can be informed fully about what to expect from the abortionist clinic or hospital.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the courts that I was raped by a family member, that I became pregnant and that I was told that my baby would have mental and physical handicaps. I would tell them that I saw my baby and it had all of its fingers and toes. It was not a blob or a tissue. I saw it and it was a baby that was killed by my abortion. They never did any tests to see if the baby would have any kind of genetic defects or mental defects. I would tell them that there are at least two victims from abortion. The baby and the mother. I would tell them that the family of the post-abortive person suffers too. I want them to know that the results of my abortion hurt me physically, mentally, and emotionally. I want them to know that I nearly died and that I have never become pregnant since my abortion. I want them to know that I have regretted that decision for 20 years. I want them to know that abortion clinics need to be regulated and that they need to meet the same standards that hospitals and doctor's offices are required to meet. I want them to know the devastation I went through so that perhaps one day, they will reverse their decision. The choice in abortion is not a choice. It is a death sentence, a devastating experience that leaves behind a person who is left with horrendous consequences that last a lifetime. I want them to know that in cases of rape and incest, abortion is not a choice. It only leads to more physical, mental, emotional and spiritual problems.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of KS

County of Sumner

My name is Q M I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Greenville KS

10/04/1989

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

D&E Dialation and Evacuation

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

This was medically preformed because my baby died weeks before and I didn't naturally abort.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The doctor's told me if I didn't I would die.

9. How has abortion affected you?

I know there was no heartbeat according to the doctors, but deep inside I still wonder. Then after the medical abortion, they were supposed to send the baby off for testing and I got a call that they lost the baby in transport. The baby was transported from Greenville, S.C. to Greenwood, S.C. and I will never know what happened now.

10. How has your abortion affected others in your life?

I feel guilty because I lost a baby due to birth defects a year before and then two more babies, one a year after. I have a friend that her mother made her have an abortion at 16. She has been pregnant 18 more times and every single baby has died right before birth or she would miscarry. Some were twins too. I had a baby born at 23 weeks in the pregnancy. She was beautiful, lived 8 days and died due to

being too premature. She responded to my voice and touch. I held her in my arms. How can anyone hurt an unborn child. It makes me sick.

11. Based upon your experience, what would you tell a woman considering abortion?

There are way too many people out there starving to have a child, give the child up for adoption. I even help girls who are pregnant find homes too. There are people willing to pay for all medical, living, compensate the biological parent. Why abort when you can do this and save a life. I live everyday wondering if the doctors were wrong. All I can say is God forgive me because I went on what my doctor said. I was bleeding and stuff though, but never did abort naturally. I made them show me the baby. All I saw was a bunch of tissue and blood in a test cup. They said the part to make the fetal pole didn't split and the baby really never grew past five weeks and it was a wonder I carried as long as I did without signs of something being wrong. They thought on my first appointment that it was too early to get a heartbeat and by my next appointment there was no heartbeat and should have been. I new I was further along than they said, but because of no heartbeat at first they thought I wasn't.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe that it should not be legal because there are way too many ways to prevent pregnancy, also there are too many health risk, it is unfair to the father, he should have just as much right at that point in the decision too. If a father has to pay child support, he should have the choice in fighting against abortion too. It is saying you have to pay for the child once a mother decides she wants to have the child, but can't decide to fight for it before it is born. So wrong. It is a sin too. I don't know why people don't understand that. Every person in the decision making process of the law should have to go to an abortion clinic, watch, see it all, then go to therapy with some of these mothers too. You can't make a decision before experiencing up close how a law should be made. You can't just say it is going to be this way because it is how you believe, you have to actually see it first. It is sad to say it that way, but I feel it is the only way it will change their minds.

9. How has abortion affected you?

See # 5

10. How has your abortion affected others in your life?

NO

11. Based upon your experience, what would you tell a woman considering abortion?

I am pro-Life now I tell her how soon her child feels pain, it's not a blob of tissue it IS a person. 12 week is bull ther is a heart beat before that.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

What, legal abortion to kill a child would be like, picking one off a playground and killing it at random. Then we could tell Mom and Dad it was just a blob of tissue it did not hurt a thing! It won't bother you at all-forget it. IT DOESN'T WORK THAT WAY. God did not make us that way, we are nuturing beings not killing machines.

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

DNC

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It was more described about the surgical procedure and not anything about the living baby inside me.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one counseled me about how I would feel afterwards or the thoughts of not being able to have any other children, especially not feeling worthy because I got rid of my baby.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I always wonder what the baby would have been and where they would be now. It took me almost 7 years to forgive myself and allow God to forgive me.

10. How has your abortion affected others in your life?

Only my husband and a few others know. We never talk about it.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it there are other alternatives. It won't make the problem go away, it makes it worse.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

No, it should not be legal to kill another human being for any reason. Abortion should not be used as a contraceptive. This is the main reason most women choose to have an abortion.

boyfriend

9. How has abortion affected you?

It comes on suddenly from out of no where, I feel a crushing sense of loss and pain. I long to hold my baby and tell them how sorry I am.

10. How has your abortion affected others in your life?

No one knows, I'm too ashamed, I knew it was wrong.

11. Based upon your experience, what would you tell a woman considering abortion?

It doesn't go away. You don't forget that you should have a child. I know how old my child should be and what grade in school they should be in. The shame and guilt is incredible.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You need to understand the social and emotional consequences. This is just another form of abuse. Anyone who says they have had an abortion and never thought about it again is lying. Not only have over 50 million babies died, over 50 million women are hurting beyond belief.

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

Salt poisoning (saline injection)

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was barely 16 years old and I asked for an abortion, at tax payers expense, and they gave it to me with no discussion about the procedure. I spent a couple of days in the hospital waiting for my dead baby to pass out of me.

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have been and remain extremely sad that I made such a choice! I used to feel terrible guilt and shame. God has forgiven me and helped me to forgive myself; however, I never forget.

10. How has your abortion affected others in your life?

Not sure. I never told the father. My mother did not want me to abort but she let me choose.

11. Based upon your experience, what would you tell a woman considering abortion?

It will stay with you for the rest of your life. Even if for a while you go on without thinking much about it. Later you won't be able to forget.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion means "to kill" (murder). How can a court sanction murder? The baby dies; the mother may never get over her choice and without God will not know how to get rid of the guilt.

9. How has abortion affected you?

I could not sleep or eat or deal with anything after it. I could not deal with my husband. I was so depressed. Still today my heart hurts when I think about that life I let someone take from me.

10. How has your abortion affected others in your life?

I got divorced after neither one of us could deal with the pain it left and the emptiness.

11. Based upon your experience, what would you tell a woman considering abortion?

To think long and hard about what you are doing it will effect you the rest of your life. And to watch videos and talk to someone that has gone through it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That is so wrong. It should never be legal. It is against God. Who are we to kill his children.

1. Where and when did your abortion occur?

Topeka KS

08/15/1972

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

D&C I believe, I don't really know.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The procedure itself was not described to me, what would happen to the baby. I was under general anesthetic, so I do not know anything about the procedure itself.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed of the possibility of infertility and the long-term psychological effects.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have suffered generalized anxiety for years which I did not link to the abortion until I was hospitalized for anxiety attacks and suicide ideation. In treatment I became aware of the foundational effect the abortion had in my emotional difficulties.

10. How has your abortion affected others in your life?

After the abortion, I shut down emotionally which led my first husband to leave me. During my breakdown and hospitalization, 35 years after the abortion, I lost custody of the son I was thrilled to have in a later marriage, which also ended in divorce, and involved my brother's family in helping me want to live again.

11. Based upon your experience, what would you tell a woman considering abortion?

I would strongly advise against it because your psychological injuries will far exceed any difficulties the pregnancy might create.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We know that abortion ends a life, which should not be legal. But what we might not have known in 1973 but do now is that it is devastating to the women who undergo it, even willingly. Those injuries are life-long.

8. Did anyone pressure you into having an abortion?

Yes No

baby's father

9. How has abortion affected you?

Out of guilt, and after a second abortion, I married this man, who subsequently got me pregnant again (he wouldn't use condoms and my doctor was Catholic). We had 4 children together before I had a tubal ligation. We divorced after 8 years of periodic abandonment (whenever it was time for the last three children to be born), and abuse. I actually worked on and off for 4 of those 8 years, so that we could have a place to live and food to eat. I remarried, in order to be a mother to my second husband's 2 children, and again found myself expected to be the breadwinner as well as the "sole parent". I'm sure guilt had everything to do with putting up with his abuse as well. It took getting actually "born again" of the Spirit of God and a third marriage - which was unsuccessful, but did give me opportunity to grow spiritually into a new person - before God was able to heal me enough so that I could become the joyful wife of a Godly man! Which I have been for almost a dozen years, now!

10. How has your abortion affected others in your life?

Hopefully, there are more than the two children that I am sure I was able to help save from abortion (one a nephew, one a granddaughter). However, I know that my poor choices, due to guilt and denial, adversely affected my children, who are now struggling with the aftereffects of my self-centeredness and neglect during their early years.

11. Based upon your experience, what would you tell a woman considering abortion?

Please, please consider other options! If you truly believe you cannot keep your child, please contact an organization which can help you make arrangements for the baby's prenatal and postnatal care and a suitable adoption!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I don't know that morality can be successfully legislated, however, I truly believe that to allow abortion in any instance except for the rarest of circumstances when the mother's life is truly at stake, is inexcusable. It just doesn't make sense to murder innocent and helpless babies without compunction, and at the same time, allow guilty and unrepentant adults who have been convicted of intentionally committing the most heinous of crimes (forcible rape, murder, life damaging abuse, for example) to live! And not only to live, but to be cared for at public expense for years on end! I realize that the cost of actually putting these people to death has become prohibitive, but this, too, is wrong! Retributive imprisonment, with no hope of restitution or rehabilitation, is far more inhumane than death (for those who repent, that is! And for the unrepentant? Hell is hell, whether in this life or the next!)

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of KS

County of Johnson

My name is V S . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Kansas City MO

08/13/1982

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

d&c

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was talked to in a room with one other woman and told that it was a quick and easy procedure with no ill effects. This was a Planned Parenthood facility.

5. Were you adequately informed of the consequences of abortion?

Yes No

At no time was I informed that what I considered to be an inconvenience was in fact a living being with a beating heart, and could be identified as a child if an ultra sound was done.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

For the first few years I would tell no one what had done. I was ashamed and regretful from the moment I walked into the clinic. I felt like we were a herd of cattle being moved through an assembly line with \$200 cash being our dues to this awful club.

10. How has your abortion affected others in your life?

I have hurt the father of the child beyond measure. In the early 80's I felt (and he did too) that it was MY body and MY decision. I robbed my children of a brother, I think of my dead child as a boy.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT DO IT. It is something that you will think about and regret every day of your life. My son would have been 26 this year. I spent years thinking I was the only woman that felt this way. We were the woman suffering in silence thinking that something was wrong with us. After all what we rid ourselves of was only tissue. It was not until I got pregnant for the second time and I wanted the baby that I asked myself why I called this MY BABY at 8 weeks and the baby I did not want was only a lump of unwanted tissue at 10 weeks old. When I gave birth to my baby girl I realized what I had actually done and that was to murder my first child. I have had years of therapy and am still on anti depression medication. This is a hurt and a memory that will never go away completely.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

More education is needed for the woman that think abortion is a way of birth control. If a woman could only hear her childs heartbeat, see her child in a sonogram, feel her child move, think through her decision that even if she can't and does not want to care for a child that someone-somewhere does want that child, then there would be much less murder of innocent children.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of KS

County of McPherson

My name is Anne I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Omaha KS

12//1990

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told of damage to the uterus lining, that future pregnancies would be difficult. I was not told I was committing murder.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never told about the severe depression, the affect on future relationships, the nightmares that would occur later in life. That the lining of my uterus would be scarred making future pregnancy difficult or impossible resulting in many many miscarriages.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father and I were in agreement.

9. How has abortion affected you?

It has devastated my life. I have had 2 failed marriages, one abortion led to a second, so I now have 2 murders on my conscience. I went through a cocaine addiction to deal with the pain. That was 11 years ago. Today, I know that I have been forgiven. I enjoy a healthy, Godly marriage. God has graciously given us the most wonderful daughter. But the consequences have been 2 dead children and my other children wounded from past bad relationships.

10. How has your abortion affected others in your life?

No one in my family knows except my husband and of course the fathers of the two children who were aborted. I know they would all be devastated beyond belief.

11. Based upon your experience, what would you tell a woman considering abortion?

Run Run Run from this heinous idea. It is murder. It is wrong. You will spend the rest of your life dealing with this. You will have nightmares, be depressed, possibly turn to alcohol or drugs to cope. No one wins. The cost is one dead child, and one wounded mother and father.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You are leading women to their death. Whether she is in the womb, or she is the mother - you are killing us. We are missing 50 million people in our country because of you. You have fed us the lie. The Bible has many verses speaking to the judgment of nations who have the "blood of the innocent upon their hands". The so-called leaders and judges have put this judgement upon our nation. Two of those 50 million dead babies are mine and I can never take that back. I would give anything to have those children now. If it had not been legal, I would have never ever ever considered this heinous, barbaric, murderous act. I am not a law breaker. We are neighborly people, business owners, do not drink, smoke or swear. We are homeschoolers, we are in church each sunday, we love children, we love the Lord. While my sin is paid for, the consequences go on and on. As leaders, you have the power to change this. You have the power to steer us back.

9. How has abortion affected you?

horribly, I have been depressed an on medications ever since. I had a 2nd abortion 30 yrs ago 1978, the father of child was against it but didn't do anything to prevent it either. I was only 16-17yrs old. It was a nightmare.

10. How has your abortion affected others in your life?

Lots of people don't even know, except the father and a girl friend.

11. Based upon your experience, what would you tell a woman considering abortion?

Look into everything it can do to you to effect you emotionally and physically, and get a sonagram.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Wrong!!!! Has caused nothing but heartache and depression, guilt.

11. Based upon your experience, what would you tell a woman considering abortion?

let God decide who lives and dies. thank Him that your mother chose life. be thankful you're alive, and own up to the consequences of your actions. unborn children are living beings who have a God-given right to life

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

where will it stop if we turn our backs on the most vulnerable among us. 9 out of 10 down syndrome

children are already being killed before they have a chance to take their first breath. the disabled are having to fight for their lives and somehow prove they still deserve to live, many do not have strong advocates to help them stay alive

QUESTIONS

1. Where and when did your abortion occur?

Wichita KS

04//1984

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

I am not for certian. I think it was suction.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I did not know what it would actually do to a fetus. I was told what I might physically feel and what to look for afterwards and that was pretty much it.

5. Were you adequately informed of the consequences of abortion?

Yes No

I just thought at the time that I was getting it, and there would be no consequences, no feelings of any sort. Just have it done and never a second thought about what I had done.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

That night after I had it, I got home and I cried. I could not explain why I was crying, I just felt so empty. I have thought over the years about this child that could have been, never got a chance to be. I have a son who is 27 and a daughter who will be 23 and this child that I aborted would be 25 now. I had such guilt and shame that I did this. I finally asked God to please forgive me and I was able to finally set down and talk to my husband and get my feelings out in the open. It was an inconvenience back then, I was young and self centered and felt that I could not possibly handle another small child at that time. My husband felt the same way, but never said yes you should have one or no you should not. He allowed me that decision on my own. I think if he had just said, we will figure this out and we will make it, I more than likely would not have had the abortion.

10. How has your abortion affected others in your life?

I don't think that it has, because my children don't know. My parents don't either. My husband and I are

the only two that do and we just don't say too much about it any more. If the subject comes up about abortion, I am against it and my husband still has the stance that it should be a woman's right to choose.

11. Based upon your experience, what would you tell a woman considering abortion?

That there is a child inside and that baby has the right to be born and protected and loved. I would tell of my feelings of guilt and shame and God's wonderful merciful forgiveness. I would tell them that God can make a way out of no way and the impossible is made possible by Him. They will always wonder who this little person might have been, could have been, what he or she would have looked like. There is always adoption if they feel that they can not look after a child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

As a grown woman at the time that this happened, I was married, I had a child, my husband and I were both employed, there was no reason not to have this baby. It was irresponsible on my part and I now feel that getting pregnant and then using abortion as a means of birth control is very wrong. If you choose to have sex, and you have unprotected sex and a pregnancy results, abortion should not be the answer. We know that almost within a matter of days of conception that a heart beat is there and even though a baby outside of its mother's womb could not live, it is alive at that point. If a pregnant woman is murdered, her unborn child in many courts has been seen as the second homicide. So how then can we justify the killing of unborn babies. I wish it were as simple as if you don't want to become pregnant, don't have unprotected sex, but we seem to have a lot of irresponsible people running around and making really dumb choices, then getting "rid" of the "inconvenience" that their irresponsible behavior produced. I don't have a strong argument but this is what I feel in my heart.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of KS

County of Montgomery

My name is Stephanie Thomas. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Wichita KS

04//1991

2. How many weeks pregnant were you?

21

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The clinic people were just enforcing the idea that if I went through with the abortion, that my stress and current problems would be lessened

5. Were you adequately informed of the consequences of abortion?

Yes No

In no way did anyone tell me what kind of hellish mental torture that I would endure for years to come.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

My mental and emotional life before the abortion was nothing compared to what it was afterwards. I had a bit of depression and apprehension thinking how it would affect my future, but this was just a grain of sand worth of worry compared to the vast deep black endless ocean of the extreme mental torture that I experienced after the death of my baby. I was in the abortion clinic waiting room, they called my name, took me back and gave me some kind of medication, and had me wait again for a while, during that time, the medicine made me feel very happy and carefree. The moment they said "ok, its all over", something that I cannot describe came over me, like a curtain in my mind went up, unveiling the truth, that I had just actually let them cut my baby to pieces, taking his tiny life away from him, and then discarded in the trash. Oh my God, I thought, what have I just done?? It was a desperate panicking scream that filled my mind and soul, and has haunted me ever since. They took me to the "recovery room" where other girls were on their cots laying crying and bleeding so much, just like me, I knew that they also must be going through the same thing. The few years following that I had so much hellish mental anguish, forgetfulness, anger, blame on myself, depression, and extreme emotional and mental

episodes that I had never experienced before. I started drinking and partying to make myself feel better, but always woke up with the nightmare still there.

10. How has your abortion affected others in your life?

It totally devastated the father of the baby, as well as his family. I was made a spectacle of, and called a baby killer, everyone was upset with me

11. Based upon your experience, what would you tell a woman considering abortion?

In absolutely no way should you have an abortion, if you are unable to care for the child, PLEASE GIVE THE BABY UP FOR ADOPTION!!!! You have no idea what will happen to you, mentally & emotionally if you let someone cut the baby that is growing and thriving in you into small pieces, just so that you can seemingly "relieve" your current situation. Your situation WILL NOT be relieved, it will be so much worse than you can possibly imagine. Go to a church, or a pro life center, THERE IS HELP!! There are so many people that are willing to help you have your baby, and either keep the baby to raise, or to let an family adopt them. You will only have peace and a chance at a good life if you let your baby live.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Please read my above statements, as well as: There should be NO PERSON on the face of this earth that has a "right" to let ANYONE go up into their womb with sharp deadly metal devices, or chemical solutions, or vacuums, or ANYTHING that will murder the little baby that is growing and thriving inside. The baby is NOT an "extension" of the mother, that she can just decide to get rid of. The baby is a SEPARATE HUMAN BEING, with a mind, soul, body, spirit. Why do some think that you can murder an innocent baby just because he at this stage cannot tell you that he would like to have the chance to be born, just like you were, he would like the chance to live and experience life? WE ARE NOT GOD. NO ONE HAS THE "right" TO TAKE AWAY THE LIFE OF ANOTHER HUMAN BEING. PLEASE I BEG YOU TO STOP THE ONGOING HOLOCAUST IN THE USA. (Land of the "free" for some, but not those who do not yet have a voice.) They are sentenced to death even before they have a chance to be born.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of KS

County of Leavenworth

My name is Theresa McCrackine. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Arlington VA

03/15/1995

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

surgical, vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The counseling was in a group format with 9 other women besides myself. We were told why we were there (to have an abortion) and that's it. We were asked why we wanted an abortion and the answers ranged from my husband/boyfriend doesn't want a child, can't afford it, not ready to have a baby. No one explained exactly what they'd do or even if at that time we wanted to change our minds.

5. Were you adequately informed of the consequences of abortion?

Yes No

We weren't told a thing about repercussions or how we might feel. We weren't even told of the medical consequences should something go wrong during the procedure.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

mother, father, boyfriend, brother, sister, friend

9. How has abortion affected you?

Negatively, I had another abortion because I knew no one would help me. I've had suicidal thoughts, I tried to ruin my marriage, I have little bondages with my children at birth, I have resentful feelings about the entire labor/birth process. The only thing pulling me through life is that I know Christ has my children and He's forgiven me.

10. How has your abortion affected others in your life?

My parents still insist "I" did the right thing and refuse to apologize even though I've tried to talk to them about the damage it's caused me. It's alienated me from my parents because I'm very pro-life now and refuse to even consider abortion a viable option to an unexpected pregnancy. My parents forced me to

have an abortion because it was an embarrassment to them.

11. Based upon your experience, what would you tell a woman considering abortion?

I would talk her out of it. I would show her pictures of an aborted baby, I would take her to the crisis pregnancy centers to get her the help she needs, I would walk her all the way to delivery if I had to. Women NEED SUPPORT, not someone telling them to just abort and everything will be fine. She needs ONE person to say "Hey, I'll be there with you all the way." I did NOT want my abortions, I wanted one person to tell me it's ok to feel the way I was feeling and my TRUE "choice" was to have the baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That if they cared for women at all then they'd reconsider their views on what abortion does to a woman. And look at it realistically, not just what Planned Parenthood shoves down people's throats because PP isn't the be all end all of women's reproductive health. They need to look at ALL the information, to include testimonies from those of us that speak out about abortion. They need to mandate that counselors NOT affiliated with the abortion center do the counseling and the one question of "Do you really want to do this abortion?" be asked of the woman after she sees ALL the information. They need to realize the psychological damage abortion does to a woman.

QUESTIONS

1. Where and when did your abortion occur?

Dodge City KS

04//1972

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had no sonogram, thought I was just getting rid of a "seed" - back then they did not educate us on things nor did they have the sonogram x-rays that now show that this fetus is a living growing baby inside the womb - not a seed that automatically pops open at 9 months gestation.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had physical scarring in side my uterus which caused miscarriages to happen, I have always regretted that I killed one of my children. I am so thankful for God's forgiveness and allowing me to finally succeed in delivering a healthy child years later. Affected self-esteem, relationships afterwards, horrible regrets I have to live with and many other negative emotions.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

boyfriend and mother, doctor in a hurry to do it.

9. How has abortion affected you?

Negative in many ways, went through great anguish and regrets all my life. seek counseling many times, divorced twice, low self-esteem, self-hatred, self-destruction - took me a long time to understand God forgives but forgiving myself was much more difficult.

10. How has your abortion affected others in your life?

It has made it hard for people/relatives to be close to me, and for me to open up and allow them to be close to me due to guilt and shame. 38 years later I am just sick that I did what I did and still shed tears. I love babies, children, and I love God, I will always miss not seeing what and who that baby

could have been.

11. Based upon your experience, what would you tell a woman considering abortion?

She will greatly regret it all her life, why not adopt the baby out - she will live knowing she gave that child a chance at life. Or trust in God to provide for her if she keeps the baby to raise herself-because he will do that when we make the right decisions in life. A baby is a blessing not a tragedy.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is murder, just because the "court" doesn't consider it a crime by jail, the punishment we suffer in our own heart and mind is much worse then a jail term. Our Country was based on Biblical Truths, the Bible says we shall not kill, God is the creator and we do not have a right to kill what he has created in HIS image - that being us Humans and a baby in the womb is a Human.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of KS

County of Thomas

My name is Nancy I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Kansas City KS

11//1971

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I just knew it would end my problem. I think they tried to explain something but I just felt I couldn't have a fourth child.

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't think they knew what the long term consequences would be. Nor did they advise any kind of religious counseling.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I wonder if my child will forgive me? I can't get through July without thinking what he would be like. I can't get through November without wishing I hadn't done it. I think it has put an unspeakable wall between my husband and myself and it has changed my three girls opinion of their mother. After 38 years I still cry for my child

10. How has your abortion affected others in your life?

My husband didn't have a chance for a boy. My parents were saddened to find out what I'd done. It has changed my relationships with family and the very few people I have told. My girls were deprived of a relationship with another sibling and wonder what life would have been like with a brother. I don't know for sure it would have been a boy but I'll never know until heaven.

11. Based upon your experience, what would you tell a woman considering abortion?

It's like suicide--a permanent solution to a temporary problem. Give your child life, you will never regret

it. Your decision isn't about just you. It's about life for you and your baby

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I had an abortion in 1971 and since abortion wasn't legalized until 1973, mine must have been illegal. I didn't realize that for years. There will probably always be ways to abort a baby but as a society it should not be approved or legal. If we kill any of our society who can't speak for themselves, what does that say about us?

The State of KS

County of Johnson

My name is Kathy I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Kansas City MO

08/19/1996

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

Regular Early

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Mainly, I remember being told that I would be "relieved" when it was over. Not so much about the procedure itself.

5. Were you adequately informed of the consequences of abortion?

Yes No

They said I would "be relieved, instead I felt extreme guilt" for years.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Father of the child

9. How has abortion affected you?

I felt extreme guilt and depression for years. I have finally come to terms with it and know that I am forgiven. I was a Christian when I had the abortion, so I knew it was sin at the time. I just felt like it was my only option at the time, plus, I had a lot of pressure from the Father of the baby to do the abortion.

10. How has your abortion affected others in your life?

My current husband has had to accept that I had guilt about it for years.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. It is not the answer. You will regret it for the rest of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

No, nobody has the right to decide life (or death) except God.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of KS

County of USA

My name is Linda . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Wichita KS

02//1974

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

In the hospital

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

This was my second abortion in two years. The baby was delivered and layed on my stomach - just like a live birth. It was too late to go back then. I can still feel the little body laying on my stomach after all these years.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me how guilty I would feel and the lose. I wish there had been someone who could have told me from their own experience but I might not have listened. I was more worried about my 'reputation'.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I tried to kill myself in 1985 because of the guilt. I couldn't hold or even look at a baby for years. I had a baby in 1984 and she had physical problems. I thought it was God's judgement. In 1990 I was saved and delivered of the guilt - sort of. I know that I am forgiven but it is harder to forgive yourself for taking a life. It is always there, especially when a baby is around. They are so helpless. We need to quit killing our future.

10. How has your abortion affected others in your life?

My oldest daughter got pregnant at 16. She refused to even think about an abortion. Her son is now 28 and a wonderful young man. It affected her positively but it was because she didn't want to go through what I was going through.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT DO IT! It will haunt you for the rest of your life. You can't change your mind later. It is final. It is the same as taking a gun, putting it to your child's head and pulling the trigger. Except that you don't go to jail. You spend the rest of your life in your own hell.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

To take a life is murder. There is not another word for it. Abortion is legalized murder. What if the judge's mother had opted for abortion? What if Salk, Einstein, or any of the other great men and women had been aborted? An embryo or fetus is a developing baby.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of KS

County of Butler

My name is Amanda I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Wichita KS

08/05/1997

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Not really sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't really remember the staff fully explaining to me what would take place. I do, however, remember them doing a sonogram and not allowing me to view the screen or to hear the heartbeat. I don't even know what kind of abortion was performed that's how little information I was given!

5. Were you adequately informed of the consequences of abortion?

Yes No

Absolutely not. I was not informed of the fact that my chances of getting ovarian and breast cancer would increase or how it would affect my reproductive organs. I had precancerous cells removed shortly after due to what I believe was aftermath of the abortion. They even went as far as telling me I wouldn't hear, feel, or remember anything that would take place that day. I accurately REMEMBER EVERYTHING!!! They did not tell me how this decision would affect my life forever or about the traumatic relapses of memories.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my mother, the father, and staff

9. How has abortion affected you?

It's not some "mistake" that can be erased and forgotten. Once you make the decision to have an abortion it haunts you for the rest of your life. The hauntings come in the form of dreams, pain sometimes self inflicted (drug and alcohol abuse), every time a baby cries or you experience newborn life. It's a very traumatic experience that will stay with you forever. I think that most women that have abortions suffer some form of long term effects but may not connect the two together. I believe this is true of men that have participated or aided a woman in an abortion as well. I watched a woman walk

into the abortion clinic fully pregnant, I would say at least six months along, and the next day walk out no longer pregnant and that really opened my eyes to the fact that these are human lives that are being taken! Just like a mustard seed grows into a beautiful tree so will the seed planted within a woman's womb if given the chance to grow.

10. How has your abortion affected others in your life?

There are certain connection type issues with the child I now have. My mother and I are unable to even talk about it on civil terms. I have become a Christian and accepted Christ's forgiveness for this horrendous act of violence that I didn't even realize was such until after the fact. The dreams come so suddenly sometimes. My mom is obviously tormented by the aid she has given women in her life concerning abortion. I hope to find an avenue in which to bring God glory and save countless lives because of the knowledge Christ has given me and the undeserved freedom He has allowed me to have.

11. Based upon your experience, what would you tell a woman considering abortion?

Please consider other options. This is not something that can just be erased. IT IS A HUMAN LIFE!!! They say you won't remember a thing. That is not true, I remember everything and no matter how hard I try I can't forget what was done when I made that decision. I can still hear the machine that was used to complete the abortion. Yes it is a choice but it's a choice that should never be given to a human being. It is God's creation and He alone has the authority to decide who should live and who should die. God has a purpose and a plan for each and every one of us and we should not try to play God and make that decision for Him.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The media and the world tries to paint the image of having everything your own way. Abortion may seem like something that fixes a mistake you've made, but a life has been taken after the fact and your life will never be the same. It causes severe psychological and emotional trauma to all those involved whether or not they are willing to admit it. I am speaking from my own personal experience and that of those I've witnessed myself. Abortion kills and is the root of so many other illegal and domestic acts that I believe could be significantly reduced if abortion was not legal.

QUESTIONS

1. Where and when did your abortion occur?

Overland Park KS

//

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

If it was explained I do not remember. I don't know the date because I have tried to block it all from my mind to help the quilt go away

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Yes. I am ashamed for what I have done. I have two sons and I fear that they might find out and think that I am a terrible mother for having it.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't do it. It really is killing a child. There are better ways of solving this situation.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I don't know the quilt that a person goes through unless you have went through it yourself. Many men are hurt by it the same as women. It is their child that is killed because of poor judgement. The child has the right to live.

QUESTIONS

1. Where and when did your abortion occur?

Highland Park IL

3. What type of abortion was performed?

not sure, just regular abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

This was quite some time ago. I don't remember the doctor explaining that much. He questioned me if i really wanted to do this and my mind was made up. Honestly, thats all i remember.

5. Were you adequately informed of the consequences of abortion?

Yes No

Absolutely not.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Ohhhhhh myyyyyy goshhhhhhhh, horrendously! My true regret. The one good thing is that it brought me to the Lord and I have an INCREDIBLE testimony from it that God brought me thru that I think needs to be heard and would benefit the Pro Life cause. When I did this it was because I was so ashamed to be pregnant. I was sooo messed up in my mind at the time and had a very bad self esteem. I came from a hard and painful childhood and felt I could not bring a child to more of it. Oh how I wish I hadnt done it! I shut down the emotions and put it away. But I had a horrendous experience with the movie "Silence of the Lambs", which is a type of movie I nevvverrrrr go to but I suffered at the hands of its cruelty as it showed me that I could be as cruel as I hate enough to kill an innocent baby. Just saying that hurts me greatly. I went thru years of panic attacks but God literally brought me thru it and now I speak out as much as I can for the reality of what it is.

10. How has your abortion affected others in your life?

Not much.

11. Based upon your experience, what would you tell a woman considering abortion?

DONT DO IT!!!! It is murder and it will affect you for the rest of your life. I know its hard to walk thru a pregnancy but it really does affect your spirit for life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That at the moment of conception that a spirit is attached no matter how small it is. Hard as it would be, I would tell them my story as it needs to be told. I feel that they need to do everything in their power to promote life. I don't know if its enough to change their mind but it needs to be told.

QUESTIONS

1. Where and when did your abortion occur?

Wichita KS

04/15/1973

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

a saline injection - & 12 hours later a birth

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was nothing. In fact I had tried to go a couple of weeks earlier and was told I had to wait. something about too far along for a D&C, and had to wait a couple more weeks.

5. Were you adequately informed of the consequences of abortion?

Yes No

Again, I was told it will soon be over, and you can resume a normal life. No big deal. it was not a real baby anyway.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my parents, and husband

9. How has abortion affected you?

It has been 36 years and I have NEVER gotten over "it". I have been haunted by what I had done every year when they bring up Roe-v-Wade because I had this done just mos. after abortions became legal. I was 17, and at the time I was heartbroken, but my husband, yes I was married, & my parents had insisted it was for the best. Best for who? certainly not the poor little baby, I was told over and over it was not a baby yet. HA every year, in my head he has grown from a ghost child into a ghost young man and he would be 36 years old now.

10. How has your abortion affected others in your life?

I don't think it has.

11. Based upon your experience, what would you tell a woman considering abortion?

It is a baby, if you don't want it, then give it to a loving family. Give the baby a chance at life. Killing a

baby will eat at you for the rest of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If you make abortions illegal, then people will not use it as a form of birth control. Safe sex would come to mean more. In the case of rape, give the child up for adoption.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of KS

County of Johnson

My name is Erin . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Wichita KS

01/07/2006

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

they used a vacuum and scraping tool

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was a mass of cells and that it technically was not a life yet. I was told it would not hurt me or the "blob" and it would be quick and painless. They told me it was the right choice if I wanted a successful future. I was made told it was a fast and easy solution to the "problem" of being pregnant and that many women choose to do it and that it is okay.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told of the depression, heartache, feelings of guilt and loss and suicidal thoughts that would occur afterwards. I was not allowed to see the baby on the ultrasound screen, they said it wasn't a good idea. I know that if I had I would have seen a baby and left the clinic, and they knew that as well. I feel I was completely deceived. I realized right after the procedure what I had done I realized it WAS a baby I cried because I wanted it back in me and they yelled at me to stop crying because the protesters outside would go crazy if they saw me crying. I could not stop crying though after I realized my baby was sucked out of me into a vacuum trash bag.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mom, a friend

9. How has abortion affected you?

The first abortion I had (I had a total of two) I wept and went crazy immediately after the procedure because I realized what had actually taken place. I was sent home with no sympathy and a prescription for birth control and told to take it easy the next 2 days. I became so depressed and started drinking a lot and became more permissuou which got me pregnant again and since i was

already down and worse than I was before, i felt the need to get the second abortion and it wasn't as bad since I had already done it before. I pretty much hated myself and saw myself as an evil person. I got fired from my job and I quit caring about everything. I would see pregnant women and babies and want to break out into tears and rage over my loss. I still think about my two babies all the time and wonder what they would have looked like and been like.

10. How has your abortion affected others in your life?

The first one I had the man loved me and was excited about having a baby. I was scared and listened to my mom and "friend" who were telling me I will be tied to him for the rest of my life and I can't even support and take care of myself how will I take care of a baby? I told the man I was with that I had miscarried and he was heartbroken. My "friend" later told him on Myspace after she and I had a falling out that I had aborted his baby. He called me and went crazy and was hysterical and crying. I hated myself even more for taking the life of his child too. I was selfish and very uninformed. I was angry as hell at my mom for telling me it was what I needed to do and for paying for both abortions.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not believe the lies. You might be promised a fresh start or told it will get rid of your problems like it never happened but you will remember for the rest of your life that it happened and your life will forever be impacted by that choice you made. I would tell them to go to a gyno or women's clinic and look at the ultrasound screen at the little arms and legs and heart beat. I would tell them having a child will not make their life harder, they will find that motherhood is amazing and fulfilling. I would tell them how much my 2 children have blessed my life in so many ways and that you instinctively fall in love with them -you have no choice- after you give birth to them. They become the most precious sight in your eyes. I would make them see the baby growing inside them as a blessing and not a problem or something that will get in the way of their future.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say first off HOW is this legal? Not only did I kill two innocent babies but I am scarred for life from it. Abortion being "legal" made it okay for me to do! Weed is illegal and I was scared to smoke it because of that. I figured since this is legal it is okay to do and acceptable. This "right" I have over my own body to end my pregnancy whenever I choose or however many times was a curse to me, and I will forever regret my choice that I was given the freedom to make. We all know it is wrong whether people admit it or not. We will only see what we want to see and believe what we want to believe, some people just shun the truth because it hurts or freaks them out. When are we going to stop seeing pregnancy as a curse and mistake and see it for the blessing and miracle it is? Motherhood is so beautiful and precious and I would give anything to get my two children back. The number of abortions is rising, getting out of hand, and becoming more commonly accepted and practiced ALL BECAUSE IT BECAME LEGAL.

HOW MY ABORTION AFFECTED ME

The State of KS

County of USA

My name is Lindsay I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Kansas City KS

12/02/2009

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My then boyfriend and coworker, as well as my mom.

9. How has abortion affected you?

I think about my decision everyday and how I regret what I did not because it is morally wrong, but because I feel pain in my heart that is indescrivable. I now feel that forever, a piece of me is gone forever. I try to find peace everyday. Even after confessing my abortion to a preist, I still hurt so much. I go to bed thinking about who my baby was, and who they could've been.

10. How has your abortion affected others in your life?

No one is affected like me. I guess that's why I got it in the first place. Everyone around me never thought about me or how I felt at all.

11. Based upon your experience, what would you tell a woman considering abortion?

It is by far, the most emotionally painful experience I have ever felt. I will always feel sadness about it. If you would like a void in your life and in your heart forever, then go ahead.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I understand that a woman has a right to her own body. However, she does not understand the aftermath until she gets there. It is a very dark, painful, and scary place. Please reconsider not only for

the child, but for your own good as well. As for the law, protect the women in the world from becoming self-destructive, suicidal, and depressed from this procedure.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of KS

County of Edwards

My name is Lori Williams. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Phx AZ

//1985

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

Menstral Extraction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was NEVER told of the emotional part and that as time goes by it will get harder and harder. I was not given ANY other options such as adoption. At that time it cost \$130.00. Thats the dollar amount I paid for a lifetime of pain and guilt. I am 49 years old now, I wonder EVERY SINGLE DAY how that child would have turned out, would the baby have been a girl or boy. I also think of the joy that child could have brought to a couple that couldn't have kids. I wish I could undo that choice.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I feel as if I committed murder, which I did. It has left a void in my life which can never be filled. My living children can't even fill that void. I carry shame and guilt with me all the time. I'm sure the feelings I have are comparable to that of a rape victim.

10. How has your abortion affected others in your life?

I have not spoken of this to anyone until now.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. It looks like the easy way out right now. You will carry the effects of this for years to come. There are lots of childless couples out there that want a baby. Please get spiritual counseling because you'll get no counseling at the clinic.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is just plain and simple wrong. The only way to put it is, it's murder. Nobody tells the women the emotional upheaval she will experience for the rest of her life. Go and kill a brand new just born baby and then come and tell me how you feel.

The State of MO

County of Davies

My name is Kristi I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Kansas City MO

03/16/2007

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Pill form

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They said I would receive counseling before I saw the doctor, but their idea of counseling was a cold natured woman sitting across a desk from me. She didnt say a kind word, she only pushed a stack of papers for me to sign toward me. Then she left the room. She came back about 5 minutes later and asked if I was done. She then sent me in to see the doctor.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea what I was going into. I didnt want to in the first place. But there was zero information provided that would tell me what would happen afterwards. The doctor didnt even explain it to me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend-he threatened his own life if I didnt

9. How has abortion affected you?

Where do I start? At first, I was in denial about the whole thing. I lied to my family, and to all of my friends. I couldnt face the truth. So I started partying to cover the pain. The drinking led to smoking, promiscuous sex, and eventually drugs. I was so depressed that I rarely got out of bed during the day, rarely showered, or even ate. I had alot of suicidal thoughts. I was painfully aware of every single breathe that I took, because in my mind, I didnt deserve to take it. I even dropped out of college. This went on for at least 2 years.

10. How has your abortion affected others in your life?

I lied about it for so long that when I told the truth, it really hurt my loved ones. I still havent told

everyone. Im working on it. Its been really hard for the people in my life to deal with. Not to mention, how emotional I still get sometimes. I affect everyone around me.

11. Based upon your experience, what would you tell a woman considering abortion?

I would ask her to listen to my testimony and consider what it did to me and my life before making a decision. I would tell her that it will hurt her tremendously- physically, mentally, emotionally, and spiritually. Its not worth it!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that theyre crazy. That its murder. A fetus has a heartbeat. That means its ALIVE!! God knows us in our mothers womb, that means we have a soul. Whether you are a believe or not, its murder. Not to mention, its a damaging and tramatic experience. Had I known all of these things at the time, I never would have done it.

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Vacuum suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I wasn't given any information the day of my appointment. I remember the ultrasound monitor being turned away from me so I couldn't see what was on the screen.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told I would have minor cramping and bleeding, but nothing else.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

No Answer

9. How has abortion affected you?

I'm closed off to my family, it has affected my marriage (sexual relationship, depression, panic attacks, anxiety, etc.

10. How has your abortion affected others in your life?

My parents and in-laws have a grandchild that they have mourned for years; my husband doesn't discuss the abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

Really think and pray about what you're doing. You may think it's a "quick fix", but it will impact you in a negative way the rest of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them of the guilt, regret and self-condemnation that I've lived with for the past 19 years, and will probably feel that way until I take my last breath.

HOW MY ABORTION AFFECTED ME

The State of KY

County of Clark

My name is Kaitlyn MacMillan. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Houston TX

02//1983

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

a vacuum-type machine was used

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The abortion was treated like any other medical procedure. Brief explanations were given as to the risks of the procedure, etc. but the baby was NEVER addressed. I was 16 and had never had a gynecological exam. The terms and my fear and embarrassment made it impossible for me to grasp even the limited information that they offered.

5. Were you adequately informed of the consequences of abortion?

Yes No

The brief explanations of the risks of the procedure were couched in statistics. Now I know that statistics in regard to abortion are sketchy at best. There was no concrete data, nor pictures of aborted children that would have made me realize what I was doing.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my parents

9. How has abortion affected you?

After my abortion, I was suicidal. I tried several times to commit suicide afterward and was placed in an institution for five months. After returning home, I attended a meeting where abortion was being discussed. I didn't go there knowing that would be the subject. They explained with pictures and video what I had not known previously. I saw pictures of babies that had been aborted. It crushed my heart. I couldn't believe what I had done. My emotions were overwhelming. The ladies that put the meeting together were not prepared to attend to a girl like me. They thought they were speaking to girls who had not been victims of abortion. I suffered alone. After that time, my life was a mess. I did drugs and was promiscuous. Even after high school, I continued to engage in dangerous behavior. Because I sing, I

had a full scholarship to college, but I was kicked out of school. Although academics are easy for me, I could not carry any of my plans for higher education to completion. There has been a prevailing sense of uselessness and helplessness that I still fight daily, even at age 41.

10. How has your abortion affected others in your life?

My sister was aware that I had aborted a child. She too became pregnant and had an abortion. She has wanted children, but has never had any. My relationships with others are difficult. I am a great public speaker, but am nervous and shy with people in social settings. It has alienated me from friendships and I am lonely, but don't seem to know how to figure out how to overcome that barrier.

11. Based upon your experience, what would you tell a woman considering abortion?

Women deserve more than a clean knife. They deserve the truth. An abortion is a temporary fix for a deeper problem. Selfishness taken to the extent of killing another person out of convenience cannot lead to anything except pain and alienation. The long term consequences of abortion much outweigh the alternatives that are available for women with an unexpected pregnancy.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I am strongly against legalized abortion. It is not properly regulated. Because it is disguised as a simple medical procedure, women are not able to make an informed choice. There are many physical problems that can occur after abortion, but the emotional strain after abortion is a scar that is much more difficult to heal. Abortion defrauds everyone of life, not only the child in the womb. We cannot run from our mistakes. They will certainly catch up to us. If we perpetuate a problem like promiscuity and unplanned pregnancy by adding the burden of abortion, we miss the opportunity to correct our behavior by being responsible for actions that absolutely affect others. Abortion creates long-term difficulties that are almost insurmountable. Doctors are using abortion inappropriately because it is available to them. After my marriage, I had three children. My pregnancies were difficult because I had hyper-emesis - I threw up constantly and lost 16-25 lbs with each child. With my first son, the doctor was tired of dealing with me. He told me I should get an abortion because my child had a high chance of being malformed or otherwise abnormal. Fortunately, I found another doctor. My son is now in his first year of college with a full tuition academic scholarship. When I see him today, I wonder how many other bright young adults are now lost because of the counsel of this doctor and others like him.

9. How has abortion affected you?

It has caused me to suffer depression.

10. How has your abortion affected others in your life?

My mother shared with me this past summer that she feels like she killed her grandchild.

11. Based upon your experience, what would you tell a woman considering abortion?

That it is bad for women. It is a lifelong decision that will haunt her forever.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That women need more information about their choices, fetal development, community agencies that can assist them in raising their children, and the long term emotional affects of abortion.

Yes No

No counsel whatsoever. Lied to and treated as herd in a line of cattle.

5. Were you adequately informed of the consequences of abortion?

Yes No

Told that it wasn't a baby, just a blob of tissue. Told it was the best and only decision to be made.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has caused years of low self-esteem, shame, intense guilt and has affected every relationship I have ever been in.

10. How has your abortion affected others in your life?

They have witnessed the consequences of my depression firsthand. Lack of energy/ lack of joy

11. Based upon your experience, what would you tell a woman considering abortion?

I volunteer at A Woman's Choice Crisis pregnancy center. I tell them NOT to do it. I educate them on the consequences, share my experience with them, and provide a free ultrasound which shows them the truth. That it is a living human being that deserves the chance to live. I have seen so many women change their mind once given the opportunity to see the truth-their baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that at the time when I chose to rely on the law and the legalities when abortion was legal, I killed two of my babies and I have regretted it every since. We now know through education that it really is a baby that feels pain and is not a blob of tissue. We owe it to women and the babies to allow them to see their babies on ultrasound and be educated so they do not have to live with the consequences emotionally and physically of abortion.

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't remember what they told me about the actual procedure. They was more concern that I may have a tubal pregnancy.

5. Were you adequately informed of the consequences of abortion?

Yes No

I sat through a counseling session and disagreed with what I was being told. The counselor invited me back for a second session, I still would not agree that I was not taking a life, but I did agree that I would be OK. I was not OK.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

No Answer

9. How has abortion affected you?

I died the day I decided to take the life of my unborn child. Under circumstances that I could see no way out of, no hope, I would never be the same. Unworthy, hopeless, useless, one bad decision after another. Hated myself, hated what I had done.

10. How has your abortion affected others in your life?

I could not give my 5 year old son the mother he deserved because of my unworthiness. He was one of my many reasons to make the decision to abort, how could I raise 2 children. He lost his mother and his sibling that day.

11. Based upon your experience, what would you tell a woman considering abortion?

They told me that I would forget, that I never had to remember it again. THAT'S IMPOSSIBLE. You

cannot terminate the life of YOUR CHILD and forget. Please talk to someone that can give you hope and alternatives.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe, based on my personal experience that you have made it legal to kill babies and mothers. Please spend the money to help women with other alternatives allowing them to give birth, helping them to keep their babies or give them up for adoption. I beg you, please outlaw abortion.

HOW MY ABORTION AFFECTED ME

The State of KY

County of Fayette

My name is Pamela Brown. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dortmund, Germany

07/15/2003

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Pill

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I have always known what an abortion causes but I cannot honestly recall the doctor or representative telling me then what it consisted of. I was on a study abroad program so I was immersed in a different language and was not fluent so they very well may have described in German the nature.

5. Were you adequately informed of the consequences of abortion?

Yes No

Once again I cannot recall them telling me what would happen. However, I have always been educated about abortion so I knew I would lose my baby but no one told me how hard and painful it would be to live the remainder of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend at the time

9. How has abortion affected you?

I thought when I had the abortion that my life would be better because I could live my life without the responsibility of raising a child. I was in college at the time and was pressured into getting one. I never knew how painful it would be. I hated myself for a long time and it has been hard forgiving myself. People make abortion seem to be the answer when all it truly does is destroy lives.

10. How has your abortion affected others in your life?

I have always had a deep shame on what I have done. Only a very few people even know I had done it. However, those people were affected because they did not realize how hurtful abortion truly is. They, like I was before I got an abortion, pro life but never really did anything or realize just how horrible

abortion is. It is killing a baby no matter who tries to say it isn't.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to pray. I would tell her to talk to women who have had an abortion. I would tell her how precious that baby is and that God has a purpose for the baby's life. I would give her a dose of reality and make her sense the horrible consequences. I would tell her to view pictures of aborted babies so she can see the actual evidence of what abortion does. Women cannot really comprehend abortion until they can visually see what it does.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should not be legal. It hurts women's lives. Abortion is supposed to bring peace from their eyes but it actually hurts us!! We begin to hate ourselves as women for killing our babies. We are the ones who have to live everyday with the reminder of what we did. we are the ones who have to live in shame, we are the ones who cry everyday, and we are the ones it affects! If someone had truly informed me of how I would truly feel after an abortion I know I would have never done it.

1. Where and when did your abortion occur?

Lexington KY

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

Not sure...DNC?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was in and out quickly. I don't remember the doctor saying anything to me. It was a disgusting experience all the way around and it was the worst decision of my entire life.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed of any consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

For years, I felt hypocritical....like I was living a double life. I was ashamed, depressed and began having panic attacks. I now know I was experiencing post-traumatic stress syndrome. I will never forget it. I always remember the anniversary of the abortion and am saddened every year at my child's birthdate. I wish with all my heart that I could have him with me now.

10. How has your abortion affected others in your life?

My now husband has been affected emotionally as well. Surprisingly, we ended up marrying because most couples who experience abortion do not stay together.

11. Based upon your experience, what would you tell a woman considering abortion?

You will regret it for the rest of your life. Get help from pro-life agencies so that you can at least hear another side. If you cannot raise your child, at least give him/her up for adoption. Do not believe the lie that you are disposing of tissue and that this will not affect your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should be illegal. It destroys the lives of the unborn and of the mothers who are too scared to make the right choice. It is destructive and affects the women who live with the regret of this choice for the rest of their lives.

9. How has abortion affected you?

I developed a severe infection. I was treated for this and developed scar tissue. I suffered for five years with pain 3 weeks of the month in pain. I had two exploratory surgeries to remove the scar tissue. By this time I was married and now trying to have another baby. It took a while but I became pregnant again and delivered a beautiful baby girl. But immediately after the delivery the scar tissue got more prevelant and ultimately I ended up needing a hysterectomy.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not do this. It is emotionally defasting and hard to overcome the horrible thing you have done to your own baby. Only the mercy of God has delivered me through this.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Take off your blindfolds. Science has come a long way and there is no way they can say that the fetus is just a blob of tissue. It's a life living inside of the woman's body and if you have eyes to see and a heart to love, then you will surely know that abotion is so wrong.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of KY

County of Jefferson

My name is J J . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

New York City NY

06//1971

2. How many weeks pregnant were you?

15

3. What type of abortion was performed?

hysterotomy

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't recall any discussion of abortion that went beyond a means of dealing with an awkward situation. "You're pregnant; is this good news or bad news?" The doctor at the health clinic of the college I attended in Ohio told me that abortions were legal in New York and would soon be legal everywhere. He would make arrangements for me, since I had discovered I was pregnant and didn't really want to marry the guy I was dating. (My parents didn't like him, and I was on my way to graduate school.) I thought that legislators had decided to legalize abortion and that they, in addition to being older and wiser than I, had resources beyond my own to verify when life began. My best friend had said that she would have an abortion if she ever became pregnant, and I was loathe to change the plans my professor had helped me make for graduate school.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no discussion of the consequences, other than death due to complications. By then, what difference did it make? I had already driven across country and borrowed money from the guy's brother for this. I thought I had had an abortion and was shocked to receive a phone call that next week informing me that they had been unable to use the suction machine on me. I had left the clinic before they could explain what had (not) happened. The doctor at my college said that NOW I would be eligible for a local abortion due to emotional trauma from my experience in New York - which I thought was ridiculous. After graduation I returned to New York, only to be told that because hysterotomy was major surgery, the doctor required my parents' consent - in spite of the fact that I was 21 years old. The whole point had been to avoid telling my parents I was pregnant! This was the only consequence I was aware of. We drove back to Ohio to tell my parents in person, and then returned to New York for the "procedure." Dad was against it, Mom was for it. I later came to admire my father's stance against my having an abortion: "She's already made her choice." I ignored his input, but I was wounded by and resented my mother's reaction of "what would the neighbors think" and "she needs to get rid of this guy and get on with her life."

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

those who made abortion legal

9. How has abortion affected you?

I never birthed a child of my own. My "career" has been a patchwork, my graduate education never used. Perhaps I felt on some level that it had cost me too much. Despite his claim that the abortion had changed me, I married the only one who had been focused on ME. On the pill for several years, I secretly feared that a JUST God would give me a "defective" child in exchange for my having destroyed the first one. My husband carried the guilt of the innocent blood we had shed. At the time I avoided the issue by viewing abortion as a "medical procedure." My friend who had championed abortion confided that when she once thought she was pregnant, she realized that she could never go through with an abortion. My roommate became pregnant later finished her degree surrounded by a loving family. My cousin's girlfriend became pregnant; they married and graced the family with a precious baby girl. At their 50th wedding anniversary, my mentor's mother-in-law disclosed that his fiancé was pregnant when they wed. I finally understood that "plan your work, and work your plan" does not always work in real life. No one laid a "guilt trip" on me, but several years later God spoke to me clearly as I lay on my bed one night, unable to sleep. He finally convicted me of the murder of my only child - and redeemed me by the sacrifice of His only Son. His shed blood was not in vain; my child's was sadly unnecessary.

10. How has your abortion affected others in your life?

After 7 years my husband, lost in despair, felt that God was giving him another chance to be a father. We divorced, and he went on to raise the family we never had. A support group called Beyond Choice facilitated healing for those duped by the lie of choice. Feeling that ours was the only credible voice in the conversation on abortion, I appeared on TV with a woman who had had multiple abortions. Her demeanor spoke volumes. Although used to represent those in favor of a woman's choice, she was obviously being exploited once again. I myself was shocked to see my name on the broadcast followed by the words...had an abortion. There it was in black and white for all to see. Those of us confronting own denial often face a society in even more denial! When my neighbor saw my TV interview, she was furious, insisting it was a lie. A seminary professor, dismissing the gravity of abortion, insisted that I MIGHT have had a child had the pregnancy continued - or perhaps a pumpkin?? No, the choice I made resulted in the destruction of a human life. Working on legislation to ensure that abortions would be medically SAFE as well as legal, an attorney opposed to that protection tried to undermine my credibility by insinuating that I had had an illegal abortion in 1971. Why did he try to shame me, unless he too realizes that abortion is inherently shameful? As I approach retirement, I see us depleted of those untold thousands needed to sustain our society.

11. Based upon your experience, what would you tell a woman considering abortion?

No one sets abortion as one of their life goals; this is not a freely made "choice." The situation that looks so impossible to you can work out in ways you cannot now imagine. Neither can you now imagine the ramifications of this one decision; but it WILL make all the difference.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

A single COURT decision betrayed our nation's citizens and ideals by legalizing abortion. In counseling others whose lives have been ravaged by abortion, I have come to recognize the lies that have worked their way into the fabric of our society. It's not that we want OUR daughters to be subjected to abortion, but rather "those people" who are not "equipped" financially, relationally, and every-other wise prepared to birth children "responsibly." Young women often feel compelled to spare their family the embarrassment and trauma of an unplanned pregnancy, then suffer the aftermath alone - without the supportive care of their loved ones. Our defense of abortion has resulted in hostile enmity between the very ones who should be the protectors and defenders of their families. Now men are mere sperm donors destined by DNA evidence to 18 years of financial blackmail - and disdainful irrelevance to their spawn. Abortion strips us of our humanity and the protections women and children deserve. It undermines families, destroying relationships on every level. It allows incest and sexual exploitation to continue without consequence for the perpetrators. The fallout of abortion is the untold story of a generation that aborted its destiny as well as its heritage. Now "victims" of our self-centered ways, we

still attempt to defend the lie of choice. YOU are accountable for turning this travesty into justice for all.

The State of KY

County of Scott

My name is Brenda Fogle. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

new york city NY

//1970

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

Saline and distraction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only 15 years old at the time and it all seemed to be very secretive between my parents and the Doctors.

5. Were you adequately informed of the consequences of abortion?

Yes No

People who did talk to me did not ever explain that it was a real baby and that I would be killing my baby. It was just a "problem" that needed to be taken care of.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my parents

9. How has abortion affected you?

When it comes to mind, I always wonder about my baby, wheater is was a boy or a girl and what it might be doing today if he/she was alive. I miss her/him. I feel very ashamed that I killed my own child even though I know that God has forgiven me. It makes me very sad.

10. How has your abortion affected others in your life?

I'm not sure if my younger brothers ever understood what happened. No one in my family ever talks about it. We have this big ugly secret that we all keep inside us. It hurts.

11. Based upon your experience, what would you tell a woman considering abortion?

Never, never, never have an abortion. Babies are so wonderful and they have the right to live just like we do.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I don't believe that abortion should be legal but I know that if it is made illegal, women who demand an abortion will find some way to get one, which may be harmful to them. The courts should order every woman who is considering abortion go through an extensive educational program that informs them of every aspect of abortion and then there should be a waiting period. I also believe that the father of the baby should be consulted and that he should have the right to keep the baby if the mother does not want it.

QUESTIONS

1. Where and when did your abortion occur?

Charlotte NC

06//1975

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only 14 years old. I didn't really understand what it was I was doing.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me about the physical and mental problems that could occur after the abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The baby's father and his family.

9. How has abortion affected you?

Not many days go by that I don't think about it. I follow the life of my niece who was born right around the time my baby would have been born. I cry at the mention of abortion and what it is. I fight vigorously against abortion now. It also affected several situations in my life that are too lengthy to write here, but they were things that changed the course of my life for the worse.

10. How has your abortion affected others in your life?

I don't know. I didn't tell people about it. The baby's father joined the army right after that so that we wouldn't create another baby.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT!!! It's kind of like divorce; you think it will be a better option than sticking it out and working through the problems. It's not, though.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I wish that you could experience an abortion first hand. And this is only looking at it from my perspective. What about the poor child whose little body was ripped apart as it was sucked from my womb.

My name is Angela I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Lexington KY

01//1985

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I really don't remember, it's been so long ago.

5. Were you adequately informed of the consequences of abortion?

Yes No

I really don't remember, it's been so long ago.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It completely changed my life. I was never able to get pregnant again. I suffered from endometriosis, which I believe was a result of the abortion. I think about it and regret it almost every day.

10. How has your abortion affected others in your life?

Even though my parents don't know, it affected them because they longed for a grandchild.

11. Based upon your experience, what would you tell a woman considering abortion?

Under no circumstance consider this as an option.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Aborting a baby kills a life and destroys another because it's something the mother and father never get over. I don't understand how anyone can defend this. They've obviously never been affected by it.

HOW MY ABORTION AFFECTED ME

The State of KY

County of Lawrence

My name is Anna I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Hahn AFB Germany

04//1971

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

The Dr removed my IUD and then gave me a injection

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I sought medical attention for continued bleeding. The Dr. removed the IUD, knowing that I did not want to interrupt my pregnancy. He did not ask for my consent nor did he inform me of what he intended to do. My abortion was performed by a military doctor in a military hospital. I remained silent for fear of jeopardizing my husbands career. I was 25 years old and thought I had no other choice but to accept what the doctor had done.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told after the fact, that it had to be done and that if I was not pregnant the injection would stop the bleeding. I was not told what would happen if I was pregnant. Approximately 30 minutes after leaving the Dr's office I began to hemorrhage. I returned to the Dr realizing I was aborting my child. The Dr did not examine me or advise that I needed a D&C. He sent me home with no further advice. Within two or three weeks I had to return for a D&C because fetal tissue was still inside my uterus and I was continuing to bleed.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The Doctor made the decision without informing me

9. How has abortion affected you?

I have suffered for 37 years from a long list of medical mental, and emotional problems directly related to the abortion. I have suffered severely from every symptom of PAS including nightmares and flashbacks. I have been treated for everything from depression to bipolar disorder. I have been told on two different occasions that I had a brain tumor. For two years following the abortion I experienced

regular infections that I was told were bladder infections. I nearly died from one of the treatments for these infections. My life has in jeopardy many times over the years as a direct result of complications directly related to my abortion. I have had a hysterectomy, breast cancer, perforated uterus and colon, irritable bowel syndrome. At the age of 30 I began having chronic joint and muscle pain that has spread to every part of my body. Within six years of my abortion I divorced my husband and repeatedly became involved in abusive relationships. I exposed my children to abuse as a result of my involvement of abusive relationships.

10. How has your abortion affected others in your life?

It destroyed my first marriage, caused me to become self-destructive, damaged my ability to parent my two children. They will carry the emotional scars from those years for the rest of their lives. Every aspect of my life and every relationship in my life has been adversely effected by my abortion. At this point in my life I am disconnected from every person that I ever loved. My ability to bond in a healthy relationship has been permanently damaged because of abusive relationships that followed my abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

That she is making a decision to end the life of another human being and a part of her own life. I would tell her that it is a decision that she can never take back. I would tell her to make sure she gets all the facts of what the long term effects on her health and the possibility that she may never be able to have other children. I would tell her to seek help from the pregnancy care centers before she made a decision that could never be changed. I would tell her that there are much better choices for her child and herself than killing her baby, and many caring people are willing to help her.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would ask them to read the preamble to our constitution and based on the six purposes of our constitution and I would ask them to explain how abortion helps us 1. form a more perfect union 2. establish justice 3. insure domestic tranquility 4. provide for the common defense 5. promote the general welfare 6. and last but not least, how does abortion secure blessings for ourselves and our future generations. I would ask them why an unborn person, though not a citizen, is denied the right to become a citizen and is not entitled to protection under the law, yet any citizen of another country living in our country is provided protection under our laws and given the right to become a naturalized citizen. I would tell them that if only one woman in 100,000,000 has suffered as much as I have from abortion, it is one woman too many. If one family in 100,000,000 has experienced the devastation that my family has suffered it is one family too many. As long as our nation continues to legalize the destruction of a human being it contributes to destruction of the family and threatens the very fabric and foundation of our society. If one person in our nation is not protected under the laws of our constitution then all of us are at risk.

My name is Deirdre Edwards. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Atlanta GA

//1978

2. How many weeks pregnant were you?

18

3. What type of abortion was performed?

can't remember/don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Can't remember all of the details

5. Were you adequately informed of the consequences of abortion?

Yes No

i don't believe i was, but can't remember alot of details

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have felt shame, guilt, bouts of depression, many years ago I cut my wrists, have had a hard time connecting in relationships, and I have felt alone and unloveable, I have felt lied to about the facts about abortion, I have been angry at the government for allowing this...so many many things...

10. How has your abortion affected others in your life?

It has affected my mother, the shame and the guilt she carries for helping me to make the decision to do this

11. Based upon your experience, what would you tell a woman considering abortion?

That it is something you will carry the rest of your life, that you can try so hard to forget and shove it under the rug, but that it is a pain that is totally undeniable and will affect the rest of your life, that you will feel like a prisoner all the days of your life until you find freedom and the love of Jesus Christ.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

My story and how it has affected me...I would ask them if their child was visibly/physically in front of them about to die and there was a way to save them or lay down their own life for their child, what would their choice be?? It's the same thing...just because the child is not visible does not mean the child does not exist, you can not shove it under the rug and act like it never existed. It has to stop, the suffering HAS to stop!

It took me 8 years to find emotional healing from the abortion. If I had not given my life to Jesus, I would never have found healing.

10. How has your abortion affected others in your life?

I married my boyfriend and he has had to deal with the same issues as I did. Again, if not for Jesus, we would both be reeling from the pain to this day.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't Do It!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it is not an easy solution to being pregnant. It is much easier to give a baby away than kill it!

2. How many weeks pregnant were you?

3. What type of abortion was performed?

I was never informed of the consequences of abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

boyfriend

9. How has abortion affected you?

I have thought about my abortion and regretted my decision for 32 years. Being raised as a Catholic, I feel that I have broken one of the Ten Commandments: Thou shalt not kill. I remember the day that I had my abortion that one girl left crying and couldn't go through with the procedure. I wish I had done the same. Another girl was using abortion as birth control meaning she had already had several abortions. I regret my decision and wish that I was celebrating a birthday with my 32 year old child instead of wondering who and what they would have been like today.

10. How has your abortion affected others in your life?

There are only a few people who even know about my abortion. One being my boyfriend at the time (who I haven't seen or spoken with for years), a girlfriend of mine who I found out had an abortion also (who I don't see or speak with very often), my husband of 20 years, and my ob/gyn doctor. I have suffered in silence, therefore, my abortion has affected me more than others in my life.

11. Based upon your experience, what would you tell a woman considering abortion?

To think hard about what she is considering doing. That I had an abortion 32 years ago and it still affects me today. That I have regretted my decision from the moment I walked into and out of that

doctor's office. That I regret letting my boyfriend talk me into having the abortion when I felt that this was wrong. I would tell her that she, and only she, should make that decision for herself. I would tell her that I didn't tell my parents about the pregnancy because I was scared and that I wish that I had talked to someone that I trusted and that she should try and do the same thing.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that having an abortion is not something that happens in a matter of an hour or so and is over. That in my experience and for many others, abortion never goes away. That even after 32 years, I still think about my abortion and wished it had never happened. That abortion is killing a fetus that has the right to be born just as we were. That my abortion is an emotional scar that will stay with me until the day I die.

9. How has abortion affected you?

While I know that God has forgiven me, I haven't forgiven myself. I don't know that I ever will. I still cry for my unborn child, who had no chance because of my decision. I find it hard to listen to anything regarding abortion, and at times feel like a hypocrite

10. How has your abortion affected others in your life?

I became emotionally detached from many in my life, but especially the daughter I had the following year. Its not her fault, but I just can't let myself get truly close to her the way she needs

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to get ALL of the facts, and to really consider adoption as an alternative because of the long term emotional affects. There are so many good families who want to adopt, and there are way too many women who use abortion as a means of birth control

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Personally I feel that abortion should be used for rape cases, or in a situation where the mothers life is truly in danger. This is why I feel like a hypocrite, but had I known then what I do now, I would have made a whole different decision

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of KY

County of Adair

My name is J D I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Tampa FL

//1983

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

There is no way that anyone could have explained to me the consequences of having an abortion. If I had known the emotional pain that I would carry for 26 years and counting, I would NEVER have had that abortion. Only my faith in God keeps me from taking my own life when I think about how the loss of that baby has affected me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Society pressured me into aborting an inconvenienc

9. How has abortion affected you?

I pushed the memory of that abortion aside for many years. Then, in 1988 I gave birth to a daughter who I dearly love. Unfortunately, the joy of that birth is marred by the reality that I killed her sibling. I have never told her this truth. How could she believe that her loving and dedicated mother is a baby killer? Space does not permit me to tell the tears and regret ... not to mention the counseling.

10. How has your abortion affected others in your life?

Yes, the aborted baby's father.

11. Based upon your experience, what would you tell a woman considering abortion?

No matter how difficult your pregnancy is and the circumstances surrounding it, choose life. There are people and agencies who want to help you have your baby. Find them. If you can't keep your baby, then give it up for adoption. Again, whatever the difficulty, choose life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

No. Perhaps when the mother's health is threatened, but not because the baby is inconvenient.

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

Suction-aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea of the irreversible damages done to my psychological and physical well-being.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My husband

9. How has abortion affected you?

Drug abuse, alcohol abuse, depression, hyper sexuality, constant crying, flashbacks, being able to connect with my own children, being able to love others the same way as before, thoughts of suicide.

10. How has your abortion affected others in your life?

I was not able to connect with my family like I was before the abortion. I had to move away from where I lived at that time and I am in the process of getting a divorce.

11. Based upon your experience, what would you tell a woman considering abortion?

It is not worth the emotional and physical pain. Life is never the same. Forgiveness may take years or for the rest of your lives. I can no longer have children due to the abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The after effects of having an abortion are ongoing. Life is never the same. The pain that continues on a day to day basis is far worse than actually having a child. Abortion is a temporary solution to

something you still have to live with long after it is over. Family time, work, time with friends...being able to function is never the same.

9. How has abortion affected you?

It has been over 25 years, and I still think about who that child would have been, how old it would have been and how my life might be different because of that child's presence in the world.

10. How has your abortion affected others in your life?

my relationship with the father did not survive.

11. Based upon your experience, what would you tell a woman considering abortion?

It is a heavy burden to bear for the rest of your life. There are too many people willing to adopt.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If a woman were required to have an ultrasound prior to an abortion, it would drastically reduce the number of abortions being performed. In addition, relax the requirements on doption within this country and give these women a viable option to aborting.

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was sick all the time and the only thing I knew was that these people were going to end my pregnancy. They didn't tell me about the procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

I didn't know that I would regret when I realized that I had killed my baby.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I felt very guilty and sad that I had chosen to kill my baby until God brought me to a place of repentance. At That time the first sin I confessed was that abortion. I had just turned 18. It was 38 years ago. Now every year in the month my baby was due, I am sad and I think about what could have been.

10. How has your abortion affected others in your life?

Only my sister knew.

11. Based upon your experience, what would you tell a woman considering abortion?

If you are normal and have a conscience you will regret it for a lifetime.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Who will stand up for the rights of these babies to live. And there are so many couples who want

babies and can't have them.

The State of KY

County of Fayette

My name is Heidi Reihing. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Lexington KY

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

5. Were you adequately informed of the consequences of abortion?

Yes No

I was only told how the procedure would work. It was very painful physically and emotionally.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It's something you NEVER forget even if you try. I think about what I did to a little helpless baby all the time. It stays so real in my mind that I can still remember the sound of the machine sucking the fetus out. I can remember how painful the procedure was and how alone I felt. I can remember feeling that I had no choice, that I couldn't be a disgrace to my family. I look at my two kids now and I love them very much. I thank God for giving them to me, but one is missing and I made that choice.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

It's not worth it, don't do it. At the time you will think I can move on I will get over this. But I am here to tell you that you WILL NEVER get over it. You will NEVER forget. There are other options. I wish someone would have told me those options. The heartbeat begins on the 21st day after conception. Get informed before you make a decision that will haunt you FOREVER.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Women are not informed on what they are doing. I had no clue. Not one single person said to me "are

you sure this is what you want to do?" Not too long ago a good friend of mine lost a baby. She past the fetus and had to fish it out of the toliet. I carried that fetus to the hospital. She found out that day that it was a boy. She was only 12 weeks. It's little fingers and toes. It was a fragile life but it was a LIFE! Women who are considering an abortion need to see things like this. Abortion needs to be stopped, if not stopped then women need to be WELL informed. I tell a woman any day. It sucked, it hurt like hell and my heart hurts forever.

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

NOT SURE - WASN'T INFORMED.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No they just said I will feel some pain in the following days and bleed for about a week. Ha. I bled for quite sometime and cramped for weeks.

5. Were you adequately informed of the consequences of abortion?

Yes No

They didn't explain anything much to me. I know I had to watch a video but they said I didn't have to just had to sign a form. It is sort of a blur to me. Girls were every where. It was so humiliating. We were all so young - know one there to talk you out of it. So sad.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

A couple of friends - i thought they were

9. How has abortion affected you?

I cry alot and feel like I will never be forgiven for this. I know God forgives all sins but I haven't forgave myself. No one knows except for one of my sister's and my husband that I did this shameful act. It will be forever in my heart.

10. How has your abortion affected others in your life?

No one knows except for my husband and my sister. My husband never talks about it - and doesn't want to, even though it was our child. We were dating and he was in the army and wasn't ready for a child. My sister knows I ache and will not talk about it either.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to even think about it. I was afraid to tell my parents because I wanted to be the perfect child. It is

wrong. We do not have the right to take a life. This will weigh on you mentally and physically. I have had nothing but problems (female) My doctors do not even know that I had this done. I am too ashamed to tell.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

This should be banned. It leaves scars mentally and physically. I was young and didn't have anyone (or I thought) to turn to. I was thought of as the perfect child and I wanted my parents to continue to think this of me so I got rid of the problem. Not really - for them but not for me. They do not know about this to this day. My dad might now for he is in heaven and I am sure he has met up with my child.

QUESTIONS

1. Where and when did your abortion occur?

NJ

06//1977

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

don't remember - vaccum/suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

If I recall correctly they emphasized that it wasn't a living being. However, after taking Biology/Genetics and attending church I knew better. They did tell me to not have sex for several months after abortion or I would get pregnant again. Sept 77 I had another one. They occurred either in NJ or Philadelphia. I really don't remember where.

5. Were you adequately informed of the consequences of abortion?

Yes No

I did not understand how devastating it would be emotionally and mentally.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend and FEAR of the unknown

9. How has abortion affected you?

I have rarely shared it with anyone and for years I felt that God was EXTREMELY mad at me and I hated myself for it. I felt unworthy to be loved and had the fear that if I had children one day, God would take them away to make up for what I did. Depressed and SORRY!

10. How has your abortion affected others in your life?

Since not many know, I am not sure.

11. Based upon your experience, what would you tell a woman considering abortion?

Get all the facts, weigh all the options, find a STRONG Christian mentor. Realize you are not alone. Others have been there and done that. There are other options. Life is too precious to throw away like a piece of trash!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That we must get back to the basics of life and realize that all organisms no matter how big or small have an important role in the grand scheme of things. That a human, even at its earliest stages, is still a human and deserves the right to life! We "play" God too much in this day and age. The focus should be on education and building up our girls and women so that they love and respect themselves enough to say "no" or take the necessary precautions to avoid an untimely pregnancy. We should not be given the "easy" way out because of our selfishness, insecurities and fears. Help each woman and man to see their God given value and purpose in life. Every unborn child is a "present" to the world, adding great gifts and talents for all to enjoy. Don't allow us to continue disposing of the unborn just because we choose to be uncaring and careless in regards to our sexual pleasures.

3. What type of abortion was performed?

Suction?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I don't remember much, but there were some brief instructions and maybe a brief explanation.

5. Were you adequately informed of the consequences of abortion?

Yes No

People who are performing these procedures are not interested in what takes place following the abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It is very insidious, like a slow growing cancer. I believe that it deceives you into believing that you are fine, while slowly eroding your self worth and producing a self loathing that infiltrates every part of your life.

10. How has your abortion affected others in your life?

I'm not sure, because not many people knew.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't do it, for so many reasons that can't even be articulated. It will rob you of a part of your soul. It will spiritually affect you in ways that can't be identified. At the time, it feels like the path of least resistance but turns out to be the up hill climb of a lifetime.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Not only is it a sin, but it harms everyone involved for a lifetime. Every life that is conceived is a gift and a God given miracle. The damage that is done is devastating. Make no mistake; the penalty far outweighs the inconvenience.

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I suffered from clinical depression for years which usually became unbearable around the date of the abortion. It caused me from having sound relationship with others and with my God.

10. How has your abortion affected others in your life?

The depression nearly destroyed my family, husband, parents, children. You feel so alone and know that no one could ever love or forgive you.

11. Based upon your experience, what would you tell a woman considering abortion?

Choose life...even if you think you can't, you can. There is someone wanting that child, even if it's not you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The long term effects of an abortion are many and devastating. Some women never even connect symptoms with what they have done. It may be years since the abortion when they appear, but they will appear. Women need to know about this aspect of an abortion as well as the horrific specifics of

ending a life.

9. How has abortion affected you?

My abortion was the best decision I could have made. Four years later, yes it was hard but had I not had my abortion my child would not have been adequately taken care of. I was 14 years old and addicted to meth. Had I chosen adoption I know in my heart that after the nine months of sharing a body, I would not have been able to give the child up. MY BODY, MY CHOICE!

10. How has your abortion affected others in your life?

My child's father, now my husband, feels the same as I about our decision. We plan on having children later in life and are proud and stand by our decision.

11. Based upon your experience, what would you tell a woman considering abortion?

If you have the means to care for your child, or are strong enough to do adoption then that is what you should do. However, if you can't do adoption and would have a hungry/cold child if brought into this world, then choose abortion. It will be difficult but you will always have the satisfaction of knowing your child is in a place where it will never be cold or hungry.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should always be legal, if only for medical abortions. Some women if it weren't for abortion

would lose their life and possibly the baby's as well. Much better to lose one life than two.

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend

9. How has abortion affected you?

I felted guilty and depressed, I should have been the one to protect my child. Instead I killed it.

10. How has your abortion affected others in your life?

My boyfriend became my husband of twenty-three years and we had two children, and miscarried twins. My husband died from cancer at the age of 41 years. One of the last things he said was that he regretted pressuring me into having the abortion. He discovered that he loved children and wanted more during our marriage and hoped that God would forgive him for what he had done. I never knew that he felt that way until right before he died. I am still living with it, and continue praying for forgiveness. Problem is that I can't forgive myself.

11. Based upon your experience, what would you tell a woman considering abortion?

Good will come from it, just give it time and it will be a blessing.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

No, the child is not an inconvenience, it is murder. The child can be given to a loving family.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of LA

County of Jefferson

My name is Kathleen O'Donnell. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Metairie LA

08//1974

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that this was just a blob of tissue at this point.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was given one pain pill and one antibiotic pill and told if there were any complications, I should go to the Emergency Room and tell them what I had done. There was no mention of any emotional trauma that would follow the removal of my "child" from my body in such a violent manner.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

the baby's father

9. How has abortion affected you?

I had a difficult road early in my life but after this abortion, I lost faith in myself. I had trouble taking on major tasks and seeing them through to completion. I never completed my degree. I felt that I wasn't worthy of love. My life became one struggle after another to "prove" myself never quite reaching the mark.

10. How has your abortion affected others in your life?

I cannot say this definitively, because no one knows the future, but although I longed to marry and have a family of my own, it never happened. I believe this result to have occurred because I subconsciously did not believe that I was deserving of such a future. I made poor choices in future relationships. The men I chose did not share my values but typically had hard roads to travel themselves. I was comfortable helping them carry their load. I have not yet reached my full potential.

11. Based upon your experience, what would you tell a woman considering abortion?

To conceive a child is a miracle from God and He places a soul in each child the moment they are conceived, thus, life begins at the moment of conception. I understand your situation and how impossible you feel it to be at this moment but I beg you to consider that if you are faithful to see this through, God will make a way for you. If you don't feel that you can give this child a good home, place it up for adoption. This would require an unselfish decision on your part to give up some time in your life to carry this child but you can live with knowing that you have done the right thing in God's eyes. It is a privilege to give life. I can share some testimonies of others that have made this decision...I wish I had heard them and chosen differently myself. You see, I can speak from experience and tell you now how my life was after I decided to have an abortion...

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If murder is illegal, how is this any different? We now have scientific proof that life begins at the moment of conception. An abortion is kin to shooting someone in the back, an act of cowardice, because we don't have to see the whites of their eyes. The Supreme Court has condoned murder and now that this LIE HAS BEEN EXPOSED, you have no choice but to admit your mistake, reverse the decision, and provide resources for the millions of women that will need counseling to overcome this. As I was told by the father, "if it wasn't right, it wouldn't be legal"

HOW MY ABORTION AFFECTED ME

The State of LA

County of New Orleans

My name is S K I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Houston TX

08/21/1986

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

i was told the lie that *it* was a blob of cells. i was not told that there were a million couples waiting to adopt or told of any services to help me have the baby. i was only given a choice between 1 of 3 abortion clinics. i was not told of the dangers of abortion or the mental or emotional effects.

5. Were you adequately informed of the consequences of abortion?

Yes No

No, i was told of no consequences. I went into depression, drugs and alcohol to cope and I repressed most memories about my abortion. In fact, i don't know the day, month, or exact year, or where in Houston i had the abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

planned parenthood put pressure on me.

9. How has abortion affected you?

horribly. i still have, after 20+ years, grief, regret and remorse for the baby i aborted. i tried to deny that i had the abortion and used alcohol and drugs to do so. this has touched every aspect of my life.

10. How has your abortion affected others in your life?

most of my family and friends are sad for me and my grief.

11. Based upon your experience, what would you tell a woman considering abortion?

I would beg them to consider other options -- adoption or keeping the baby. abortion will kill your baby and leave you with a lifetime to regret your decision. it's harmful to your mind and your soul. you will be in shame or defiance b/c of your abortion. you will pay a consequence for doing it. i would implore them

to choose life and not have any regrets.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is like slavery only it is worse -- we have killed far more of our babies through abortion than we have during the slave trade. No one should be allowed to make the decision to end the life of an innocent person. like the slave owners, you will be come enslaved yourself and the *slave/baby* will be the free one. abortion should not be legal in any circumstances. if a mother's life is in danger, both the mother and doctor try to save the baby -- this is not abortion. abortion goes with intent. if the baby dies while trying to save the mother, it was not directly intended. for example, a pregnant mother whose life is in danger never goes to an abortion clinic. she goes to her ob/gyn. abortion is so destructive that it should not be an option even for a rape victim or incest survivor. why would we, as a society, cause further harm on the victim of rape/incest by offering a worse evil? besides, most rape and incest survivors don't have abortions unless they are pressured. for the incest survivor it is usually demanded by their abuser to hide his crime.

The father

9. How has abortion affected you?

I have had two miscarriages as a result of the killing procedure. The gurgling sounds coming from the suction machine are never far from my mind. Severe hormonal imbalance set in after the abortion and I began to have migraine headaches for which I am still in treatment to this day.

10. How has your abortion affected others in your life?

It has been very difficult for me to trust men. After all, homicide is the leading cause of death during pregnancy and HE had threatened me with a gun during a previous quarrel.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion is a life long decision; it does not end with the procedure. The procedure frequently damages the cervix which can make it difficult to maintain a pregnancy. I only had one abortion, but I have three dead children because of it. Grief is my daily companion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is a life long decision and the healing process is ongoing. It affects the psychological and physical health of women on a daily basis. The secrecy and shame associated with abortion has enabled the abortion industry to get away with many injuries because they go unreported. These clinics are not operated like surgical suites in hospitals. Regulations intended to control conditions at abortion clinics are not properly enforced. Men would never allow these conditions to continue if they were undergoing the procedure. Until men begin to realize the damage that abortion causes, nothing will ever change. Homicide is the leading cause of death during pregnancy. WHAT DOES THAT SAY?

HOW MY ABORTION AFFECTED ME

The State of LA

County of Jefferson

My name is Shannon Murdock. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Jackson MS

05//1999

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

first trimester Aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not informed of the development of the baby. I was not informed that the skull had to be crushed in order to have it removed. I was not allowed to see the Ultrasound. The counseling consisted on 8 women sitting in a room while the abortionist rapidly read through a brief description of the procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

The abortionist did not cover any of the emotional effects that abortion causes. He briefly listed the possible side-effects. This counseling was in a group setting, and very rapidly conducted. The entire session lasted 5-8 minutes and there were 8 women in the group.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I chose abortion as a response to panic and ignorance and fear. Society does not have a source for women to go for help with the pain of abortion. They are left to suffer in shame for taking the life of their child. I experienced severe depression, addiction, and self-destruction as a result of this choice. Of course, I could not or would not attribute my decline to the abortion. I had to convince myself that I made the right "choice". This wall of denial could only stand for so long before it crumbled before my eyes, and I was left with the stark reality of what I had done and what I had become. Nothing can replace my child or the part of myself that was destroyed by abortion.

10. How has your abortion affected others in your life?

The father of the child that I aborted was devastated by my decision. His life delined as well. Everyone

was ultimately affected. The changes in me personally trickled over to all relationships both personal and professional. My ability to love and relate to others was altered as I spiraled out of control.

11. Based upon your experience, what would you tell a woman considering abortion?

Get out of the chaos of the circumstances in your life. They are temporary and forever changing. Tomorrow will have it's own set of issues to conquer. Please, get in tough with what is in your heart. That is what is real, and what you are left with. Do you feel that it is right or wrong to stop a beating heart? Get honest with yourself. You will have a lifetime to think about it, after you leave the abortion clinic. You leave a part of yourself on that abortion table. Not just your baby, but a part of yourself as a woman. Women were not created to kill their own children. Our natural instinct is to protect our children at all cost. You are not protecting yourself or your child by killing it. Abortion is physically painful, but emotionally excruciating. And there are no second chances, only a lifetime of regret. Seek God's heart for you and your child, that is what really matters.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion not only destroys the life of a child, but also the life of the mother. It is not a solution. It is the beginning of much devastation and heartache. Please protect the lives and hearts of women and babies. Abortion affects society in more ways than the public realizes. The number of women having abortions represent a sizable portion of our population. If the lives of these women are adversely affected by the after effects of abortion then society is adversely affected by the after effects of abortion.

QUESTIONS

1. Where and when did your abortion occur?

baker LA

//1984

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

self induced

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

At the time, there had never been a moment in my life when anyone, by any means ever spoke of, or referred to 'abortion', in any respect, good or bad. I hardly knew the term and it never crossed my mind that, that was what I was doing to myself and my baby. My baby was born in the hallway of the house in which I lived and I was later rushed to the charity hospital in Baton Rouge, where I had a D.N.C. operation.

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Many, many, many times have I cried and regretted the choice I made. I cannot over emphasize the regret and unending guilt that is attached to the life of a woman who has to bear the pain and knowledge of what she has done.

10. How has your abortion affected others in your life?

My youngest daughter suffered noticeably. She has, in the past, verbally attacked me for killing a baby. My eldest daughter was obviously hardened by the situation and has never spoken of it. To this day,

both of my daughters maintain a certain distance from me. I long to hold them and often tell them I love them. I freely give of any possession, time and energy that I have to them, yet there is still that wall between us. For me personally, I still break down and drop to my knees, crying out in anguish, even inconsolably begging for another chance. I was 24 then and am now 47 years old. Though I am forgiven, the forgetting never comes, but the Lord Jesus carries me through.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT, I REPEAT, DO NOT, DO NOT DO IT! I implore you. This is not like smoking, drinking, doing drugs, etc... where you can be healed and glorify in some powerful testimony that will help others. This is a living nightmare, or should I put it more clearly, living a nightmare. This is not the topic of trauma and drama that is so popular today. This is for real, a precious, tiny little flower that has yet to blossom. Don't kill your baby. It's YOUR baby, no matter who the daddy or the circumstances. Don't murder the little blessing inside of you. Take the easiest and best route. Get help. Call every church, every friend, every family member, until you get the help and support that you and your baby need.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Here is a 2 year old. The court can see the baby play and laugh and see how cute the baby is. I ask the court, will you murder this baby? Of course your reply is 'NO'. What if he were only a year old, would you kill him then? How about four weeks? A week? A few days? How about a week prior to delivery? Would you then kill this baby? Two months prior to delivery? What about one day before that, or the day before that one? Well then, what about a few hours prior to that? Ultimately if I back-track in one minute increments, at what point do you say 'Yes', now kill the baby. Then for the sake of one moment you would kill the tiny, fledgling life; but just one moment later you would spare it? And now I ask you, where is the logic, the justice, the intelligence behind such hypocrisy? What if what you do is good, just and right in your 'own' eyes? What service have you done the people? What be your legacy? Search your heart and life, what thing has brought you to such a lowly state? You, even you, exalted to the position you hold, can step up to what is good and right. Choose to choose life. Be the one who is willing to stand up and admit to the truth and the will of the people. You will find a mass of support and friendships unimaginable! You could be 'the' most powerful voice of all!

My name is Carol I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Beaumont TX

//1983

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

Full

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

There were tapes placed on a table to view by choice but no one person talked with me about what the procedure actually does to a child when you abort them. No one talked with me about what an abortion could do to my body. This is a female problem my GYN brought to my attention later. My PAP Smears starting coming back abnormal. My doctor asked if I had ever had an abortion because he found abnormal tissue on my cervix and said that this can be a common occurrence after having an abortion. A LEEP procedure was required to correct this and afterwhich, I found I could no longer have children.

5. Were you adequately informed of the consequences of abortion?

Yes No

I could not get an abortion in the state of Louisiana, my home state, so I had to go to a clinic in Beaumont, Texas. I was not talked to in regards to the emotional or physical effects of an abortion. I was not talked with about still having a choice to change my mind. No one in the clinic gave sound words of counseling. No one discussed what the procedure would feel like until I was in the chair. After arriving at this clinic, I felt then that I had no choice and needed to go through with it. They herded us in and then let us go when they were done.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My ex-husband, prior to our marriage in 1983.

9. How has abortion affected you?

I cried during the procedure and afterwards, I felt dirty and hated myself. Over twenty years later, I am still ashamed of the life I took by having that abortion. Although I know God has forgiven me, I still struggle with forgiving myself.

10. How has your abortion affected others in your life?

No one but my ex-husband knew to the best of my knowledge. He didn't care then. He just didn't want a child.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell women considering an abortion, "You do have a choice and choice is a gift from God. No matter what you are feeling, pressure or despair, there is someone you can speak with, someone who will listen and give you good counsel before you make this life changing decision." I found after it was too late that no man, no job, no status on this earth is worth giving up a child for and I know in my heart and soul that there is rarely a sound reason to even think of abortion as an option. Life is a gift and we have to fight for it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is no more than another means of killing. I had life in my body until the moment in time that I threw that life away through the process of Abortion. There is no going back after that. It is final. Abortion is killing a life and not just your child's life but your own. A piece of you dies in that cold clinic chair. Pro-Life is a battle we should all fight for. I struggle trying to understand this, "When did this country become so uncaring toward our children? This country, the United States of American, has quickly become a country that I don't know any more."

9. How has abortion affected you?

A 17 yr old high school student had the abortion. She was a classmate of my daughter's. My daughter and others went to the local health unit and witnessed the baby through a sonogram. They were all very excited. The pregnant girl was an athlete and was hoping to go to college on scholarship. She was not going to tell her parents about the pregnancy until she turned 18, which was just a few weeks away at the time. I thought it was right to tell her parents and told my daughter to tell her about a local place that offered counseling. The baby's father was of another race and the girl knew this would cause conflict at home. She ended up telling her dad. The next thing we knew, she was absent a few days due to her father (parents??) forcing her to have the abortion. She went back to school and continued with her sporting events. She then denied to her friends that she was ever pregnant and laughed it off. This caused my daughter to think very little of her and even less of her parents. They are no longer friends. It hurt my daughter a lot. Every time she thinks about the girl, she gets angry. I know that the girl was forced into the abortion. I'm sure she felt like there was no other way. Her laughing about it is maybe her way of coping with it. I pray for her and her family. This is something they will have to live

with forever.

10. How has your abortion affected others in your life?

See above.

11. Based upon your experience, what would you tell a woman considering abortion?

Reconsider and pray about it. There are many agencies that can help. There are many couples who would love to adopt. When I clipped the skin at the end of my child's finger when trying to trim his nails, it sickened me. I cannot begin to know how I would feel knowing that I intentionally killed a child, my own child. I love babies. I love children, young and old. We, as a nation, need to show more love; not violence.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them to pause and pray about this and be open to what God is telling them. They would find peace and would then know that preserving the human race, as opposed to destroying it via abortion, is the ONLY right choice to make. No matter how or why a pregnancy will occur, the best choice is to allow the child to be born. Children must be allowed to live and prosper. Children are gifts, not trash. We cannot dispose of them like trash through abortion. Please reconsider. Don't place the death of another child on the hands of another parent, on the court, and on the whole nation because we did not try to save a child. Thank you and may God bless you.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of LA

County of Natchitoches

My name is Cathy I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

//1975

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

All I know is they "sucked" the fetus out.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Father.

9. How has abortion affected you?

When I married and wanted to start a family I thought about the child I had killed and I cried so many times. The guilt and grief were overwhelming and lasted for many years. My only comfort came when I realized the Lord didn't hold that charge against me after I turned my life over to Him. I also know that when I die I will actually get to meet my child for the first time because God keeps all the lost babies and they are raised in heaven in his presence.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

Do Not Do It! If you kill that baby you will be held accountable by God. You can be forgiven by Him but forgiving oneself is so much harder. Just because we make stupid decisions and end up pregnant doesn't mean that the baby deserves a death sentence. Being responsible and giving birth are much greater callings. There are thousands of good couples waiting to give your baby a good home and all the love they have stored up inside.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I would tell them that they need to spend time with women who have had abortions so they can experience the pain, grief and guilt and a normal woman with a conscience feels for years afterwards. If the court has a child that can't speak and that child is viciously mutilated and murdered, then just because you can't hear their cries doesn't mean they aren't in horrendous pain. Same principal applies to an unborn baby that no one actually hears. An abortion literally mutilates and murders the baby and they feel every bit of it. A judge has been given authority to rule and to help protect the innocent. How much more innocent can a baby be?

3. What type of abortion was performed?

vaccum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It was explained that a procedure would be done where the fetus would be taken out and there would be very little discomfort. That I would be numb and little sedated.

5. Were you adequately informed of the consequences of abortion?

Yes No

I did not realize till after how guilty i felt and how empty. I knew i would never do that act again..

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my parents, and i felt that i had to at the time..

9. How has abortion affected you?

There is a loss the wil never be regained. Even though now i have three beautiful children, there is still someone missing. i still pray for forgiveness..

10. How has your abortion affected others in your life?

I there is regret to all that were invovled.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT DO IT!! it is the worst experience i have ever had to face and that I am able to remember everything clearly. There are Other options and that it is a gift from God!! We Do not have the right to take innocent life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would ask the court if they have ever laid on a table and actually felt the life being sucked from them and then hearing the machine in the back ground. i would also ask the the court have they ever lost anyone close to them, Being an expecting mother, when the baby is in the womb that is the closest time they are together. Then to have them taken from you and not be able to feel it again. I would also say that in other situations where justice is deserved, it is in the hands of the court but where is the justice in taking innocent life. Are we any better than a serial killer or murder to take that which doesnot belong to us.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

There was no adequate counseling or info given prior though I knew what I was doing

5. Were you adequately informed of the consequences of abortion?

Yes No

Not by the facility though I had prior knowledge of abortion being actively involved in the Pro-Life movement since 92

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

myself and others

9. How has abortion affected you?

emotionally, physically, relationally etc

10. How has your abortion affected others in your life?

It's had a negative affect on others and they've turned their backs on me for the most part, even Christians

11. Based upon your experience, what would you tell a woman considering abortion?

I would share my story and encourage them to seek out the other options available and offer help and support in anyway I could. I've actually had a few people choose life as a result of my story and me reaching out, even a girl in NJ I met via MySpace. Her baby boy is due 11-20-08 and has had 2 close calls with abortion since June.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Abortion IS perfectly 'Legal' Murder of an unborn baby yet killing a pregnant woman, newborn, infant, and or young child is AGAINST the law? Go figure!!! An unborn BABY is NOT a "formless mass of cells", a "blob of flesh or tissue" etc., the unborn CHILD growing inside a PREGNANT woman IS a BABY. If the unborn CHILD is NOT a BABY, the woman is NOT pregnant and therefore ABORTION is NO option, you CAN'T kill anything that DOESN'T exist! Abortion is the ultimate form of child abuse and a serious health hazard both emotionally and physically therefore it should be outlawed. BABIES deserve the same rights as adults, a person is a person no matter how small! I survived a saline abortion so when you look @ me, you look @ the face of "choice" though by the sentence imposed on me in the womb of my birth mom, I was told I had NO rights and NO "choice" which IS wrong! I am 24 going on 25 and an abortion survivor, I was burned alive in my mom's womb @ 4 and a half months gestation by saline abortion but I survived to be a voice for those who will NEVER have one and like myself were told they have NO "rights" or "choice" which is WRONG! You are talking to the face of "choice" I am alive and therefore the REALity of abortion can be ignored and "justified" but NOT be denied. Hate me if you may but truth is hate to those who hate the truth and the truth that abortion IS murder is talking to you!

3. What type of abortion was performed?

vacuum aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

no explanation of nature, just required to fill out form of consent and do a pregnancy test there.

5. Were you adequately informed of the consequences of abortion?

Yes No

they said i may bleed and possibly get an infection after

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

husband, friends, nurse, doctor who performed it

9. How has abortion affected you?

it changed my life forever. severe depression, suicidal thoughts, unable to cope with small things, felt undeserving to be a mother to my son at the time and later my daughter.

10. How has your abortion affected others in your life?

well, my husband and i separated this year because he said i could never "let go" of the past. so it has affected my children and my relationship with my husband, who pressured me into having it.

11. Based upon your experience, what would you tell a woman considering abortion?

abortion does not "fix" a problem. the problem is not the abortion, you really need to consider what the problem really is before you lay on that table. abortion will cause more problems in your heart and soul, in your life, in your future relationships with your children and husband than you will ever be prepared for. It is a nightmare you will never awake from until you are touched by God's grace and mercy.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

One thing that i would tell a court is that, though it may be a "choice" outside that abortion clinic door. Once inside, in my experience, anyway, your "choice" is a lie. You see, i changed my mind, i tried to get up, i said no, i don't want to do it. The doctor told me to be quiet or they would sedate me. I started to cry. He told the nurse to hold down my arm and give me a shot. Which she did, while looking at me with a look of "so sorry". Machine started, i couldn't move, i could only cry. And what's sadder than that, what is more inhumane than that, is that i found out later that others had been "forced" also all around this country. Something is being hidden, and when they argue and debate over "the choice," they really need to make informed decisions based on facts and not opinions, for the sake of all American women and unborn children.

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It has been so long ago, I can't remember exactly what was said. I just know I was scared and in my heart I knew I was doing something my mom would have been very upset about.

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has been very hard for me to forgive myself. I wasn't a Christian then and I am now. But even though I know God has forgiven me(because His word says He does), it is still hard to deal with. It is before you all the time. It is something you never escape, because you hear about it on the news, in church etc. It is like Paul's thorn. It has been hard for me to share with anyone because it is very embarrassing.

10. How has your abortion affected others in your life?

I haven't told but one close friend and both my sisters know. They still love me but I still wonder what they really think.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't. There are a lot of people who can't have children, and would love to adopt. It is murder! It is the most horrible thing I have ever done in my life. I believe it is the reason I don't have children now.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is murder. I fully believe at conception, life begins. I am thankful my mother didn't abort me. What if

they had been aborted? I believe they will stand accountable before God for voting to allow babies to be murdered. IT IS MURDER!! We get sent to jail when we murder someone with a gun or knife etc.

HOW MY ABORTION AFFECTED ME

The State of LA

County of Caddo

My name is Susan I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Shreveport LA

07//1981

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Not at all. At the time of my abortion, there was no informed consent in my state so I was given no information about the procedure or fetal development. They took my cash, gave me some birth control pills for later and told me to wait for my name to be called.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me there was even the possibility that I might have physical or emotional consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

For 7 years following the abortion, I abused alcohol and drugs. I carried an enormous load of guilt and shame and wanted to grieve for my lost child but felt I had no right to grieve because abortion was my "choice." I married a man who was verbally abusive because my self-esteem was so low following the abortion. I did not seek any kind of counseling or help until my life was so out of control that I was suicidal.

10. How has your abortion affected others in your life?

I had a lot of anger that affected my personal relationships in a negative way. I was engaged to the father of the baby at the time of the abortion and we broke up because we didn't know how to deal with the death of our child at our own hands.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that it is a choice that will change her forever. I would tell her how much I regret the

choice I made and how the loss of that child left an empty spot in me. I would tell her that abortion will affect her spiritually (if she has a relationship with God) and that God will forgive her and love her still, but that the journey can be long and painful between an abortion and forgiveness.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If abortion had not been legal in 1981, I never would have made that choice. I would not have broken the law to obtain an abortion. Since there was no parental consent required at the time, my parents did not know. As a parent of teenagers now, I am horrified at the thought that I had surgery without my parents' knowledge in 1981. If there had been a waiting period then, I probably would have changed my mind.

For a long time I was angry with a society that told me that this was a "good choice" for me. I now see that abortion as the worst thing I ever did "for" myself.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea how it would effect the rest of my life---emotionally and physically.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Abortion took away the joy of being pregant with my three children. I have experience guilt, saddness and depression a good part of my life. I feel like I missed out on mothering my baby I never had. It sickens me that I had an abortion. That I murdered one of my children better yet God's beloved child. I had to have a hestorectomy at the age of 32 or 33. They didn't say it was because of an abortion--- though I wonder. I am more proen to breast cancer. I have osteopennia and IBS. I don't know if this is all results of an abortion.

10. How has your abortion affected others in your life?

It has cause struggles in my marriage. My husband has also had to put up with my depression. I try to turn my bad decision around by supporting our local pregnancy center.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't have an abortion. If you can't take care of the baby give it up for adoption. I regret ever having an abotion. It will effect you for the rest of your life. Jesus has forgiven me, Praise God!, but I think it will always be the worst decision I ever made.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

When girls/women are dealing with an unwanted pregnancy that are not of sound mind and may want to take the easy way out. An abortion will affect them for the rest of their life---emotional health and physical health. Abortion is the murder of an innocent baby. It is murder!

Mother and the doctor

9. How has abortion affected you?

Every day since, I felt negligent, unworthy of the love of God, shameful, like a murderer and sad. When I became pregnant with my only child, I was adamant there was no other decision but to have him.....could not go through abortion again, could not and would not!

10. How has your abortion affected others in your life?

My son now was shocked

11. Based upon your experience, what would you tell a woman considering abortion?

The sound of it will be in your mind forever, you will never forget and it is against God's will and very wrong-no matter what the reason. I would encourage her NOT TO DO THIS!! I would help her be strong in God's wisdom and lead her to the fact that there are millions of people who want children and cannot bear any-give that life to someone else to be blessed

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Life is a blessing, death is not ours to give, unless you have experienced it in your own body you

cannot know how it feels or the terror that reliving it will cause the woman for her entire life! A better option would be to support adoption-release the red tape on adoption. Give funds to support unwed mother support homes.

my mother

9. How has abortion affected you?

I believed the lies that my mother and the doctors told me. I believed that abortion was an easy and convenient way to end unwanted pregnancies. I went on to have many more abortions. Now that I know the truth and I watch my children and grandchildren grow up, I agonize over what I have done. I know that I am forgiven, but some decisions never leave you.

10. How has your abortion affected others in your life?

Well, my oldest daughter grieves because she knows that I aborted at least one of her full siblings.

11. Based upon your experience, what would you tell a woman considering abortion?

That the memories and feelings will be with her for the rest of her life. That 9 months is a short inconvenience in the big picture of life. She should carry the baby to term and either keep it or give it up for adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

It is murder plain and simple. If it has a heart beat, it is alive. Abortion is not in the long term best interest of anybody, especially not the mother. She will suffer unquenchable emotional trauma for the rest of her life.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of LA

County of Beauregard

My name is Catherine Husband. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dallas TX

08/15/1985

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I made my appointment and was brought into a waiting room. A nurse took my vital signs, signed consent forms and she gave me a red pill that she said would cause dilation. An hour or two later I was brought into another room where the abortion was performed. They explained what I would feel as a result of what they were doing as they did it. The experience was cold and it felt "dirty." When the procedure was done I signed some paperwork regarding things to look for and things to expect and I left.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was young and trusting. I trusted my mother who took me to the clinic that morning. She trusted that the government would not pass laws into effect that would be harmful to women. We know different now. I also had horrible bleeding the next morning. I turned bath water bright red and had large clots and tissues floating in the water. I had to return to the clinic to have another D&C done to stop the bleeding. They did not get everything the first time. I still wonder if the baby lived and suffered overnight. I'll never know.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother

9. How has abortion affected you?

I have nightmares and I worried about my salvation. I don't care what the law says, I know for a fact that there was life inside me. The difference between my life and the babies life is that I had legal rights and my baby didn't. If abortion was illegal, I would have never questioned whether it had a right to live. I

would have adopted it out. Before I was saved, I had low self-esteem as a result of feeling "dirty". I was afraid that people would find out that I had a horrible secret and judge me worse for the abortion than for my unwed pregnancy. I cried when I saw mothers my age holding their babies. I wanted to be punished for my deed. I felt unclean. It took me a decade to come to terms. Nobody told me at the clinic how they disposed of the bodies but I now know that they are treated like tissue waste. My baby was incinerated like a gall bladder or something. I was never asked if I wanted to bury my baby because it was always referred to as "tissue".

10. How has your abortion affected others in your life?

My mother was with me on that day and she was the ne who wanted me to get the abortion the most. She has since expressed an overwhelming remorse to me. She also has nightmares and no longer believes that a fetus is tissue. She feels lied to and betrayed by the clinic staff.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her how it made me feel to have the procedure done to me. I would use the correct terminology and call it a baby (not a fetus and not "tissue"). I would offer to take her to the clinic myself so I could be a strong supporter of her if she decided to back out at the last minute. If she did, I would do the talking and explaining for her and quickly take her home. I would encourage her to seek alternatives like adoption. I would be there for her immediately thereafter and I would cry with her for the years to come. I would help her through her struggle with God and salvation as best I could. I would also support her when her esteem drops and show her love. Nobody I knew had an abortion and certainly no one taks about it if they did. She would feel alone but I would be there.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

What can you say to someone who thumbs their nose at God? What can you say to someone who calls this a "political" issue and not a "human" issue? I wish they would listen to women like me who know this issue involves two human beings who feel real pain.

QUESTIONS

1. Where and when did your abortion occur?

Shreveport LA

//2004

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

don't know or remember

4. Were you adequately informed of the nature of abortion, what it is, what it does?

5. Were you adequately informed of the consequences of abortion?

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It is hard to deal with, especially since the birth of my 8 month old daughter. Sometimes I feel so hypocritical, like how can enjoy being a mother to her so much when I chose to end the life of another child. It leaves me conflicted at times. The first year after the abortion, I completely withdrew emotionally from people. I couldn't even think the word "abortion" in my mind, much less say it out loud. I didn't talk to anyone about it. I thought I didn't deserve to ever have a family of my own, since I had wasted the life of a precious human being. I was very depressed. I have learned to deal with it due to the love, grace, and mercy of God.

10. How has your abortion affected others in your life?

I told my future husband about it maybe 2 or 3 months into our relationship. He was very understanding and did not hold it against me. When I finally told my parents a little over a year ago, it was very hard. I never wanted to tell them but since I felt the need to start sharing my testimony, I felt they needed to know that way it could never come back to them from some other source. We didn't talk about too much, still don't. They asked only a couple of questions, but not much else. Every now and then my mom will ask a question about it. My in-laws pretty much quit talking to me for a couple months. Our relationship is still not back to what it was before they knew. Overall, it has been a hard thing to go

through. When I told my family, it brought the depression and emotional turmoil, just like I experienced when I went through the abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell a woman considering abortion not to do it. It is not worth the emotional turmoil. Through Christ, I have accepted forgiveness for what I've done. It is always there, though. I don't know how I can explain to my daughter one day that I did not want her brother or sister.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should not be legal. You are allowing the abortion of a human life. The United States is promoting equality for all, whether it is based on sexual preference or religion. The very document that is the foundation of our country states that "all men are created equal, that they are endowed by their Creator with certain unalienable rights, that among these are LIFE, liberty and the pursuit of happiness." The unborn children being aborted deserve the same right to life that the citizens of this great country enjoy daily. The unborn children deserve the right to choose their destiny, not to have it taken from them by someone making decisions based on their own wants and desires. The children deserve the chance to live.

HOW MY ABORTION AFFECTED ME

The State of LA

County of USA

My name is Sharon I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Baton Rouge LA

06/14/1994

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

saline

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I went to the clinic on Acadian Thruway and paid the money for the abortion. I was told that I had to wait 24 hours for the procedure to be done. I came back the next day and it was done.

5. Were you adequately informed of the consequences of abortion?

Yes No

The only thing they told me was that I would probably bleed for a few days, kinda like a period.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I bled profusely on my first cycle after the abortion. I went through a pad every 15 minutes. I bled right through my pants within the first half hour. I cramped up so bad I had to stay in bed through the next day. I had nightmares. A few years later (1997) I lost a baby girl due to anencephaly. I was so far in depression that I wanted to commit suicide. The only thing that saved me was Jesus Christ.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

You never get over the fact that you killed an unborn baby. Despite what the doctors tell you, it is painful. I did not have, nor was I offered, anesthesia for the abortion. I felt everything. When they hooked up the monitor to the baby and injected the saline, I felt my baby moving. I could see the wires from the monitor moving around. By then, I realized it was too late. I laid there for about 45 minutes to an hour. The doctor and a nurse came in and started taking the baby out. It hurt so bad. When I cried out in pain, the nurse covered up my mouth. The doctor told me to quit yelling or I would scare the other patients.

The next thing I remembered, I was laying there waiting for the doctor to release me. He gave me birth control pills and a prescription for pain medicine. I was really weak for the next few days. I would also tell a woman considering abortion that it is not worth it, the memories will haunt you the rest of your life, and that it is very painful.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would like for the judge to experience how it feels before making a ruling. I would also recommend the movie "Silent Screams" (maybe a 24 hour continuous viewing of it without a break or commercials).

My name is Mandi Ponce. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Houston TX

03//1995

2. How many weeks pregnant were you?

2

3. What type of abortion was performed?

not even quite sure, but I was put to sleep and they removed the "fluid sac" with a vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told by my parents that it would be a relief. I got pregnant at the age of 15 and was very much against abortion and everything it represented and I wanted to give the baby up for adoption. They didn't let me have the choice and explained it was for the best.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents

9. How has abortion affected you?

It has just been a weight I have always dragged behind me. I was told not to tell anyone, my parents were ashamed and we all acted like it never happened. It wasn't until I was about 19 or 20 that I really felt the affects. I took part in a murder. Thanks to the Grace of God I am now married with two beautiful children of my own and 2 years ago I accepted Jesus as my Lord and Savior which has healed much of the pain that lingered over 10 years later. He died so that my sins may be forgiven and I believe that, now it is up to me to forgive as I have been forgiven. I have forgiven the Doctor and the nurses and my parents, I just don't think I have quite forgiven myself. My careless actions outside of a life with Christ brought me to that abortion clinic and that is what I have to live with every day.

10. How has your abortion affected others in your life?

The poor father of the baby. He had even less say in the matter than I did. Our relationship ended and years later we sat one night together and cried about it. Our baby was killed, destroyed, a life taken.

Only God has the right to give and to take away.

11. Based upon your experience, what would you tell a woman considering abortion?

Absolutely forget it. It is the worst option. The blessing of giving up a child for adoption is that there are so many women who cannot have babies in this world and I truly believe the balance God provides for this manifests itself through adoption. You still aren't going to have the "inconvenience" of a baby, you still don't have to take on the responsibility, but you will rest knowing two parents have been given a life they could not produce on their own and that child has a chance. And by some miracle of God, perhaps He would even change a few women's hearts by allowing them to see the beauty and wonder of a baby throughout the pregnancy and spare them from having to go through any sacrifice and they can keep their child. God will bless and provide for a decision like that.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say that this country was founded by Christian men who did not intend for our nation to be turned away from God to fit our own desires and conveniences. It is absolutely absurd to convince anyone that killing life that we know God knitted in the womb Himself is okay. It is scary to think how many will be judged for that alone.

9. How has abortion affected you?

Caused me to hate men

10. How has your abortion affected others in your life?

The blood is on his hands And the LORD said unto Cain, Where is Abel thy brother? And he said, I know not: Am I my brother's keeper? 4:10 And he said, What hast thou done? the voice of thy brother's blood crieth unto me from the ground. 4:11 And now art thou cursed from the earth, which hath opened her mouth to receive thy brother's blood from thy hand; 4:12 When thou tillest the ground, it shall not henceforth yield unto thee her strength; a fugitive and a vagabond shalt thou be in the earth. 4:13 And Cain said unto the LORD, My punishment is greater than I can bear. 4:14 Behold, thou hast driven me out this day from the face of the earth; and from thy face shall I be hid; and I shall be a fugitive and a vagabond in the earth; and it shall come to pass, that every one that findeth me shall slay me. (King James Bible, Genesis)

11. Based upon your experience, what would you tell a woman considering abortion?

The blood of the innocent is on the hands of the man who gave her a child against her will. God never

forces people to become parents against their will. When the earth has become worse than in the time of Sodom and Gomorrah were even the women are raped and molested. At least Sodom and Gomorrah spared the women from rape, incest and child molestation.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Make the men stop forcing women to have babies against their will. Even God the creator of this universe asked Mary if she was willing to have a child for Him.

I will have to live with the decision I made for the rest of my life. A decision that I made when I was a child of 19. A decision I so wish I would have told my parents about because they could have helped me make a choice that would not be so devastating to myself.

10. How has your abortion affected others in your life?

Others do not know, there is a silence that is forever unspeakable..

11. Based upon your experience, what would you tell a woman considering abortion?

1. Abortion isn't a momentary action. It stays with you the rest of your life. 2. It is a baby at the moment it is conceived. 3. You will wonder why you did it for the rest of your life. 4. There is a sadness and a shame that goes beyond what you can ever tell others.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is devastating! Girls that are in that situation are usually too young and scared to make a decision based on correct knowledge. They are very susceptible to opinions of the father of the baby and the abortion clinics. Girls in that situation could never understand till years down the road and they are older that the abortion clinic kills 2 souls on the day you allow the unspeakable to happen. I say unspeakable because it truly is. It is the one subject you will hide from anyone and everyone out of shame and you will always wonder what if....

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of LA

County of USA

My name is Brittany Guillory. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Baton Rouge

11/03/2004

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Surgical

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had no idea what it did to the actual baby! They never explained that part to us. Just that it would be vacuummed out.

5. Were you adequately informed of the consequences of abortion?

Yes No

Did not go over the grief you feel for years afterward. Was told grief could last a month, or that we would feel relief.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend, but I did not stand up to him when!

9. How has abortion affected you?

I cannot forgive myself. I feel worthless and wrong.

10. How has your abortion affected others in your life?

My husband (who was the boyfriend) is now totally against it. We both realized what a terrible choice we made.

11. Based upon your experience, what would you tell a woman considering abortion?

That the pain you live with after is not worth it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You will ruin millions of lives. Not just innocent babies, but the ones who have to live with their

decisions. Thank God your mother was Pro-Life!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of LA

County of tangiphoa

My name is Jeanine Mcandrew Holmes. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

baton rouge LA

01/27/1991

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

My baby was called a blob of tissue & i was told that the procedure would be a little uncomfortable. It was the most excruciating pain that to date i have ever felt. I literally felt the life being sucked out of me.

5. Were you adequately informed of the consequences of abortion?

Yes No

There were no details of the immediate shock & grief that you go through or no data on the number of alcohol abusers & drug abusers and just depressed people that were associated with abortion. i literally almost ended my life drinking so heavily just trying to block out the sound & feelings that are associated with suction abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

an older friend

9. How has abortion affected you?

It has affected every relationship that i ever had or have had since then; including with my parents, siblings, husband & surviving children. Until i fully accepted Christ forgiveness i was a miserable, guilt laden human being walking around in a sea of numbness.

10. How has your abortion affected others in your life?

It has affected my oldest son who knows now about the abortion and he is left with a bit of guilt wondering why he was chosen to live but not his sibling. He is a strong advocate for life & heads up a group at his high school. he would give anything to know his older sibling.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion does not make you not a mother...it makes you a mother who killed her baby & that never goes away....give the beautiful gift of life & be rewarded immensely by the Lord for your unselfish act. There are so many out there willing to take your baby & love it as there own. You may even have it and leave it an emergency room.....there is NO good reason to have an abortion. It will haunt you forever.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I made a decision to abort based on inaccurate information & was not allowed to view my baby via ultrasound. I have had pre-term labor with my 3 sub-sequent pregnancies caused by scar tissue on the uterus. I have suffered from depression, alcoholism & have been screened repeatedly for questionable lumps in my breast. if abortion is so good & convenient & easy then why do woman only get led out the back door of the clinics...never through the front where incoming girls can witness the true reaction to the murder of innocence that just occurred?

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one informed me of the emotional or physical pain it would cause

5. Were you adequately informed of the consequences of abortion?

Yes No

Not of the emotional consequences

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Parents, father of the child

9. How has abortion affected you?

I was hospitalized for months for PTSD and Major Depressive Disorder due to my abortion. I almost lost my job and quit graduate school because I was not able to keep up. It has also negatively affected all of my relationships.

10. How has your abortion affected others in your life?

Many people were extremely worried about my mental health for a very long time. I was diagnosed with PTSD and MDD and was very suicidal for many long onths. I have my good days and bad days now but all of my relationships have been affected by my abortion in some way.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't do it! There are other options! You cannot possibly imagine the devastation you will feel after it is over. There are no words to describe the way you feel afterwards. There's no way I would have gone through with it had I known it would nearly kill me...

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder and it causes immeasurable hurt to so many people. Please research post-abortion syndrome and abortion's effects. The pain and devastation are so very real.

HOW MY ABORTION AFFECTED ME

The State of LA

County of jefferson

My name is c k I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

metairie LA

04/21/1989

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

d&c

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not informed of the psychological aftereffects and the risk of mental illness.

5. Were you adequately informed of the consequences of abortion?

Yes No

Not the psychological effects.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have had OCD, depression, anxiety and post traumatic stress disorder for the past 20 years. Weekly and bi weekly counseling has helped, but I will always have some lingering depression. My relationship with my two born sons has been irreparably damaged from the abortion. I was not even able to say the word baby for 15 years.

10. How has your abortion affected others in your life?

It has alienated me from others. I separated from my family, friends, and husband in the 20 years since my abortion. I wanted a new life and wanted nothing to do with anyone in my old life. Obviously, this is not easy to do, so I still see people from my old life, but I do not get along with any of them and none of them acknowledge what I went through.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her it will affect her psychologically in profound ways, although it is an somewhat 'easy surgical procedure.' I would tell her that all the reasons she wants to get the abortion, such as keeping

a relationship with a boyfriend, family member, etc, will disappear anyway after she gets the abortion which makes the abortion even more painful in the aftermath.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion exploits women's natural sense of insecurity when it comes to being a mother. Women need help to become mothers, and re-education on their own self-worth; they do not need to be re-exploited by abortion. Women are desperate when they seek abortion. They feel alone, abandoned, used, in a panic, and they seek abortion to end this discomfort and only receive guilt, deep shame, and heartache, and the abortionist gets rich. It is pure exploitation and the worst kind of degradation.

QUESTIONS

1. Where and when did your abortion occur?

Metairie LA

02/01/1994

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

At the time I didn't think of it as killing someone. Just that it would remove something I wasn't ready for.

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

A tremendous amount. I had 3 abortions Many times I wondered what they would have looked like, what type of person they would have become.

10. How has your abortion affected others in your life?

It made me an angry person and at times selfish. I was always and again am now, a very giving person once I got saved and know that Jesus forgives me for what I did.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to, that it is killing a human being. Give that child a chance. Adopt the child out or let someone help you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Is pointing a gun and pulling the trigger at your son or daughter and killing them legal?

I had no idea the pain you would careing for the rest of your life. I know God has forgiven me, but i can't. Its had to come to terms knowing you killed your child. It is something I will never get over

10. How has your abortion affected others in your life?

only my husband at the time knows and he could care less

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't. If you do not want you baby then put the child up for adoption. If you do this you will never forgive yourself. You will always have a empty spot in your heart.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them everyday I think about my child and wonder if she was my little girk i never had. they don't tell you of the pain you have to live with everyday. I would beg them to please put a stop to this killing. Its hard getting up each morning knowing that you are going to deal with this again just like yesterday. It never ends. I have 2 grown boys now and i am so ashamed i would never want them to

know what i did.

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

unsure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Went through Planned Parenthood and was encouraged to move forward with the abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

If I would have known how this has impacted my life, I would have put the baby up for adoption.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

my "friend" and Planned Parenthood

9. How has abortion affected you?

Recurring nightmares for YEARS and ongoing counseling. Also waited to have children until I was in my early 40s and was told I was not able to have children. Unsure if this was due to the abortion or just something in my reproductive system. I also had very early menopause which I am also unsure about that relation to the abortion.

10. How has your abortion affected others in your life?

My husband and I adopted a baby who is now almost two. She is the love of my life but I miss my baby in heaven. I still cry about it and wonder how God could have forgiven me AND given me a second chance at being a mom.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that it's not what people make it out to be. There is no "quick fix" to terminating a pregnancy.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would ask if they are prepared to pay for the counseling that women (and some men) need after a woman has an abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

My life has changed a lot since my abortion and I am much closer to God ; but I still carry the burden that I killed my child. I feel that it could hurt my relationship with my future family.

10. How has your abortion affected others in your life?

Now that I am married to a wonderful man and we are looking to have a child next year I can't help but think about what I have done. My mom was a good Christian woman but when I told her about my decision she didn't fight me. She went into a severe depression after my father left and turned into a shadow of her former self. I know my decision would have been different if I had someone there to support me.

11. Based upon your experience, what would you tell a woman considering abortion?

It is permanent and you can never take it back. There are healthier options for you and your baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

People do things they regret all the time. Women who are emotional and scared are not thinking everything through. The attitude and frame of mind are always changing. I have never spoken to a

woman that was glad she had an abortion.

filled out forms and waited in a waiting room. Noone spoke to me.

5. Were you adequately informed of the consequences of abortion?

Yes No

They could never have explained to me the devastating consequences of my abortion and how it would effect my life even 25 years later.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

mentally and physically I was a mess. I developed scarring and bleeding. I spent the following two years after my abortion visiting the emergency room of hospitals without definitive diagnoses. I was coughing up blood, chest pain etc. ON top of that I developed agoraphobia and for almost 2 years I struggled to even leave my home or drive a car or grocery shop. I struggled with extreme guilt and anxiety. I often think about the child I killed and wonder, would it have been a boy or girl ? What what he/she have become. Maybe that child would have discovered a cure for cancer. I will never know that.

10. How has your abortion affected others in your life?

It affected my other children because they saw their mother go from a vibrant healthy person to a physically sick and emotionally scarred mess. I also went from 125 pounds to 94 pounds.

11. Based upon your experience, what would you tell a woman considering abortion?

NEVER NEVER NEVER DO IT!!!! People want to say that the guilt comes from the moral issues religion attaches to it but I was not even involved in religion at the time but deep down in my innermost

being, it ate me up. You will never be the same if you abort your child. I would tell them to carry the child and give he/she up to someone who would love and care for them if they really don't want the child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that the blood of innocent children will be on their hands. I pray that they will listen with their hearts to the depth of pain that lives in a post abortive woman. That child could be a son or daughter, a grandson or granddaughter they will never know. I don't wish this but if they could experience an abortion and live with it for 25 years as I did, I don't believe any of those judges could vote for legalizing abortion. I pray that these men and women will listen hard to what they hear and listen to that small still voice within and choose "Life" not "Death"!!!

No Answer

9. How has abortion affected you?

For years I carried around the guilt and shame of what I had done. I turned to all kinds of unhealthy behaviors in order to numb my pain and shame.

10. How has your abortion affected others in your life?

I believe the abortion affected my relationship with my future children. It affected my husband and father of the baby as well.

11. Based upon your experience, what would you tell a woman considering abortion?

That abortion is not the answer. It is an assault on your own body. It is an injustice and a violent act to oneself and the unborn child.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I would tell them to listen to the people who have gone through the experience. They should do an in-depth study as to abortion and its effects on society.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was informed of only subjective matter of the procedure such as "you may feel some pressure" they offered me valium to alleviate the increased anxiety I was feeling . there was no further information that I can recall that they would have suggested serious medical risks of damages: future sterility breast CA etc. and absolutely no indication of social, psychological or spiritual effects that this could have on my personhood . They were mainly giving information on the pill and various methods of birth control in the future. this seemed to take precedence over everything else but no mention of negative effects this procedure would or could incur upon me. They maintained an attitude that this was a simple medical procedure only . no inference to the humanity of the "tissue" to be removed. I was sedated with valium . As procedure began i cried out in that moment of consciousness that I was killing my baby . I sensed they were bothered by my sudden overwhelming emotion appropriate to the situation. In those few moments, I suddenly felt to intercede and arrest the situation but the time was so fleeting in the midst... i feared too many seconds had passed and it was too late to turn back . It was over. I had spontaneous grief and no one was able to respond or help. So without any emotional/psychological/spiritual support for the damages I withdrew inside myself, dressed and left with their only offered help to these irreparable damages . a script for the "pill"

5. Were you adequately informed of the consequences of abortion?

the father of the child

9. How has abortion affected you?

It has had life long ramifications . I have suffered immeasurable in relationships with others Post Abortive trauma left me in isolation to my closest relationships . I began to develop addictive drinking to alcohol just to control the anxiety attacks and fears that were overwhelming ,I had an inability to concentrate and to focus on my college ed . and within a short time was dropping out . I never completed my college course and had numerous attempted failures (I literally gave up my scholarship at B.C.) .I lived in a state of continuous depression, thoughts of suicide often leading to feelings of shame and despair that there was no help for me .

10. How has your abortion affected others in your life?

Primarily the life of my unborn child who by my own ignorant, uninformed decision was robbed of the gift of life an opportunity that every person deserves and is promised in our constitution: A God given unalienable right. . life always precedes choice.I am sure all those who cared deepest about me could have not but suffer seeing my own life going down the tubes. For my inabilities to stay connected . My excessive drinking earlier in my life . Failure to attach or be committed in lasting relationship/Inability to have truely intimate supportive relationships . Lot's of time alone and in emotional isolation . botched my education, career, dreams and most of all my dream of marriage and family and most importunately the loss of an irretrievable life;my unborn deceased child .

11. Based upon your experience, what would you tell a woman considering abortion?

I would inform her of the dire life long consequences , the dehumanizing effects upon her own psyche.. and the finality of such a decision on her child . recovery is possible but there are irreversible consequences one must live with .

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should never be legal because it opposes all that it is to be Human . In it's simplistic terms it tears the soul of all that it means to be human, to be a woman .It is only in caring and nurturing the weakest most vulnerable do we then recognize and embrace all that it is to be human. Contrary to this leads to the death of a soul, a woman , a nation.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MA

County of Essex

My name is M F I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Boston MA

07/03/1981

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

Dilation and Extraction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Bill Baird clinic apparently offered a pre-abortion film - mentioned as an aside on my way into the room. No one actually spoke to me in detail about the procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told an abortion was much safer than childbirth, and that the pain associated with it was significantly less than birthing a child. No mention whatsoever was made of the traumatic emotional response that could be expected. I was told to take the antibiotics and watch for bleeding.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Myself and the father

9. How has abortion affected you?

As an adopted person I felt an immediate post-abortion despair. I experienced recurring bouts of anxiety, depression, regret, shame and guilt. I instinctively knew I had murdered a child, and that knowledge manifested itself in drug use, promiscuity, and an inability to form healthy relationships over the next 2 decades.

10. How has your abortion affected others in your life?

My erratic and depressed behavior affected my friends and my family as they witnessed me trying to outrun my conscience by acting out and abusing my body.

11. Based upon your experience, what would you tell a woman considering abortion?

What is inside is so much more than a lump of tissue. I have 4 children, (5, actually, one I will meet in heaven) and I cannot express how beautiful the growth of those fetuses were. They were fully human from conception. People everywhere would love and care for both she and her child, ensure their medical well-being, and adopt that child with unconditional love if she would bring him/her to term.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is inexplicable to me how any woman who has borne a child could support abortion. In cases of rape or incest, I'm not sure what should be done. If we can get the word out that there are parents willing to give any child a good home, and they could surrender the child without penalties in a hospital safety zone or through adoption, hopefully women would follow through with birth.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MA

County of Middlesex

My name is Sharon Lynch. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Boston MA

05/01/1979

2. How many weeks pregnant were you?

22

3. What type of abortion was performed?

Not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I cannot honestly remember the details

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I attempted suicide 6 months after the abortion and spent 2 weeks in a mental health ward. I spent many many years afterwards trying to forgive myself and have just recently (32 years later) been able to let go of the intense pain it causes me when I think about it. I did have 2 beautiful girls after the abortion but my aborted baby was a son. He is with the Lord and I know I will see him someday.

10. How has your abortion affected others in your life?

It created great stress between my husband and I. He originally didn't want the abortion, but later (when I was 22 weeks pregnant) he felt it would be the best for us. We were drinking alcohol frequently and fighting terribly.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That's it's not a matter of choice. It's a matter of life and death. The baby has no voice and should be protected like children who are born and then are abused.

HOW MY ABORTION AFFECTED ME

The State of MA

County of Essex

My name is Lori Tanner. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Boston MA

05/14/1992

2. How many weeks pregnant were you?

22

3. What type of abortion was performed?

D & E

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Did not know that the baby would not be "delivered" in one piece until the day of the procedure.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one tells you of the suffering and pain or the disgust you will feel knowing that you have ripped an innocent child to pieces. Even knowing that my son's chance of living was not possible due to renal agenesis, it did not justify having him shredded apart. This I cannot forgive myself for doing. Doctors just say it is better than, if not safer than, carrying the pregnancy to full term.(Baby was under stress and could die at any moment)

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Disgust. Can't believe that a hospital as reputable as Brigham and Women's Hospital in Boston could take a couple who is losing a child to renal agenesis and put them in the same facility with women who don't care about life, who just want to "get rid of it". Made me feel dirty and cheap. My husband and I have been pregnant six times. We have lost two boys to renal agenesis and had a miscarriage. We have three daughters. To top it all off, when the funeral home went to pick up the remains for burial, the funeral director had to make the disturbing call to us to let us know that the hospital had misplaced the remains. I have been on an antidepressant since 1994.

10. How has your abortion affected others in your life?

My husband tries to tell me that we did the right thing. I try to convince myself the same thing. My kids

know that it was not a pleasant experience.

11. Based upon your experience, what would you tell a woman considering abortion?

I tell anyone who is thinking about abortion all the disturbing details and how insensitive the people seem to be. Maybe it was my own experience because this is not what I wanted for my son.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I can't believe that this is even an option. Women who want to have an abortion should have to watch a video of the procedure first. They should be required to seek counselling and be given time to truly think it through. Maybe even have them sit down with some women who have been there and done that. My son was not compatible with life regardless of what I did, and I still feel sorrow and pain for the torture that I put his innocent little body through. My first son who was diagnosed with renal agenesis died a peaceful death in 1987. As painful as losing a child is, at least I feel my own peace of mind that we did not chose to rip him apart.

father of the baby & people in clinice

9. How has abortion affected you?

It has been 12 years since my abortion and I still think about it everyday. I still cry when I talk to people about it. This is something that stays with you for the rest of your life.

10. How has your abortion affected others in your life?

My husband is very supportive of my emotional needs. However, I still wonder if he completely understands how I feel.

11. Based upon your experience, what would you tell a woman considering abortion?

I have spoken to women considering abortion. I believe it's best to focus on her needs and not focus so much on the baby. Most women are scared and feel trapped, like there is no other option. Helping them come up with a plan... getting them in touch with a pro-life clinic and counselors.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Only God has the right to give and take away life. Abortion isn't a decision you make in one day and then it's gone. It's an emotional hurt that stays with a woman for a lifetime.

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one spoke to me. They gave me a paper to sign and that was it.

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't remember anyone speaking to me other than my filling out the form required and sitting in the waiting room until it was my turn.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

I suffered from Post Abortion Stress. Had severe anxiety. Went down to 94 pounds. Guilt. Depression. Until I came to know the Lord I was a mess. But now God has used the ugliness in my life to glorify him and I now counsel young woman and I teach post abortion classes.

10. How has your abortion affected others in your life?

My boyfriend who is now my husband suffered from it also but has asked God's forgiveness and God has forgiven him for his part in it.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT ABORT YOUR CHILD. From the moment you conceive, it is a child. If you do, you will suffer greatly from it whether you are a Christian or not. There isn't a day go by that I don't think about my child and wonder what he/she would have looked like or what great things they may have done.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I wish for one day they could feel the pain such a decision causes in a woman's life. It is murder and the repercussions are devastating for every woman who goes through it. They may not experience the impact right away but down the road it will come back to haunt their every waking moment.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MA

County of hampshire

My name is gwendolyn d'aguair. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

amherst MA

05//1986

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

I don't know- it was a suction vacuum type

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told by Planned Parenthood that if I had the abortion at 10-12 weeks, it would not be a baby yet- just a small amount of tissues. I had just turned 18. I thought in my mind that it was not a fetus yet, just a little bit of pink tissue, like when a person has a sunburn that begins to peel- a little bit of pink tissue. I was told it would be sucked out and I would get my period. They would have to give me novacaine they said. I thought it would be like a dental visit. I was supposed to go to the circus later that night and never thought to cancel because I didn't realize how the procedure really was.

5. Were you adequately informed of the consequences of abortion?

Yes No

The procedure was very painful. I developed a fever and terrible cramping. I have had gyn problems ever since. I was afraid to see a dr because I was so ashamed. I realized it was final and I would never hold my baby. I couldn't bear that. I became very depressed and tried to cut my wrists. I couldn't do it properly so I decided to use drugs. I just couldn't handle knowing I was a murderer. Even though I thought it was tissues, I knew it would have become a fetus eventually (now I know the real gruesome truth of what I have done). I clung to the babies father because I thought no-one would ever love me now- a murderer. I kept it a secret all these years and had no-one to talk with about it. I didn't think I was lovable after the abortion- I was damaged goods, and a horrible person. I stayed in an abusive relationship, battled with depression, and anxiety.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Please see above. That was short term- the first 7 years. Long term- it's been 22 years now. I just

participated in the 40 Days For Life this November 2008. I still can't tell anyone about the abortion. I still grieve over my child. I cannot listen to abortion procedure talk, or view photos, or read about it. It just sickens me and causes me to have nightmares about what I have done. I am catholic now and have confessed. I know God forgives me but I can't forgive myself. What kind of mother kills her child? If I think about it I start to cry- even after 22 years. I picked a birthday, sex, and name for my baby. The date is November 29- roughly when Gabriel would have been born. Every November and December I constantly think to myself about how old Gabriel would be, how my life would be different, how I miss holding that baby still, how we would be having a birthday party, christmas presents, college, marriage, grandbabies. I worry if he is in heaven. I want to make up for what I have done but nothing can make up for it. I get depressed these 2 months and grieve all over again. It makes the holidays very hard on me. I am constantly tearful and remorseful and can't seem to have closure. I want to do more- like have a service or gravestone made. I want to mourn for Gabriel as others do for loved ones who have died but I can't because it is a dark secret no-one knows because that would mean me telling them I aborted my own child which I can still not handle.

10. How has your abortion affected others in your life?

My son always asked for a brother. All his life he would say I wish I had an older brother to play with, to help me thru this or that, to teach me to drive. He did- I aborted him! It tears my heart in two!

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her my story. Then I would ask her why she didn't feel ready to have a baby. I would help her get what she needed to have that baby. Women do not want to kill their babies- they just do not know their options and suddenly they are pregnant and don't have much time to figure it all out- just where Planned Parenthood probably likes to step in. Why do they abort? For fear of housing, food, finances, being a single mom, being emotionally and physically unsupported, not knowing how to care for a child, not having finished their education- so many reasons. I would not have aborted if I had someone to sit with me while I told my parents. I was afraid to tell them about my pregnancy just like I would be afraid to tell them I got a bad report card. I wasn't sure what the punishment would be. Looking back I see how innocent I was. I was not a bad person. I was just a young girl afraid to disappoint her parents. I wish someone had come with me to tell them. I did disappoint them terribly with the fallout life I made from the aftermath of abortion. And they still don't even know my terrible shameful secret. It is very sad. I wish someone had helped me back then to figure things out- instead I found Planned Parenthood and to this day feel betrayed by their dishonesty and lack of true care and true support for women.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

No, it should not. Abortion is murder. It is a mother murdering her own child. A baby is a person. Help the mother get what she needs so she won't have to murder her child. I think our government should be ashamed. How are we helping mothers? How are we finding ways to give woman an alternative choice to abortion? Do we tell the single mother who goes to her food stamp office because she can't feed her children to just murder them instead? Do we tell the homeless women with children to just leave them to die? Of course not! We educate them about the resources our wonderful citizens of this government provide. We show the mother we care about women and their babies.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never told I would lose my respect for myself after this horrible act. Nor was I told that my baby already had visible fingers & toes, and could feel pain.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have suffered many bouts of depression ,anxiety , social anxiety, feeling worthless. Flashbacks of that day & suffered a ruptured uterus with my 3rd son that the doctor thought may have happened because of my abortion .

10. How has your abortion affected others in your life?

The father was devastated. His mother too. My first son was an innocent victim of my depression.

11. Based upon your experience, what would you tell a woman considering abortion?

Think long & hard. This is a real baby -not a piece of tissue that is disposable. See for yourself an ultrasound or pic. of what that little human looks like before you decide. MOST OF ALL DONT PANIC! There are so many christian help centers that have many loving people ready to go to the ends of the earth to help you not abort your baby. There ARE Resources to help you ! Call any Catholic church & speak to a priest. God himself will honor your descision & send help your way. Take ONE day at a time & remember w/ God all things ARE possible!!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is not right to give no rights to the unborn & treat a womans baby (which is a seperate individual) like a piece of property she can dispose of if not needed or wanted. It is illegal to kill an animal but not a baby? That just makes no sense to me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I had depression for many years because of the guilt I felt of having an abortion. I didn't attribute it to the abortion at first but once I started talking to someone about my depression it came out that that was the main cause of depression. I also feel it damaged my relationship with my husband for many years. He was the father of the aborted child but we were not married at the time. It is a devastating event in a girl or woman's life and more needs to be said about the emotional effects.

10. How has your abortion affected others in your life?

see above

11. Based upon your experience, what would you tell a woman considering abortion?

Have your baby and give it a chance for life. Giving your child up for adoption is a far better alternative than ending his or her life. You will never be the same after an abortion. I have forgiven myself now but it took so many years to get to that point and I am still haunted by what I did and very sad when I think about it.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I understand this is a complicated issue but unfortunately the emotional side of abortion has not been taken into consideration. We are dealing with the life of a child and all that could have been. The loss that is felt is tremendous and does so much harm to the woman. We need better education about this as well as more emphasis on adoption. If we could stop the amount of underage/pre-marital sex out there that would be wonderful yet I know it will still go on. More abstinence education is a good thing but it won't stop the problem. Adoption choice is a good alternative. There are so many people out there that can't have children. If there were better adoption emphasis placed on unwanted pregnancies it would help solve two major problems. Just think of the money saved in health care both from the abortion side and the infertility aspect. Of course I am sure doctors would lobby against this as it will cut into their pocketbooks but money doesn't always have to have the final word. What would you do if it were your daughter who was pregnant? Would you want her to suffer in silence with depression over guilt and loss from an aborted child or would you want her to do the hard but better thing for herself and her baby?

husband, doctors, to save my life

9. How has abortion affected you?

severly depressed, medication did not work. made life altering decisions when i was in no shape to, for example.. sterilization so that i would never have to do that to another child. My self is destroyed. I still hold a lot a guilt. I do not function as effictivly as i once did. I tried to return to work following but was unable to preform my nursing duties. I have not returned nursing since. It has been over 3 years.

10. How has your abortion affected others in your life?

everyone was saddened, especially my husband and 3 other children. they understand procedure was to save my life and accept that. Every day is a struggle.

11. Based upon your experience, what would you tell a woman considering abortion?

there are no words to express the sadness, only tears. May God have mercy on my soul.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I have always been pro-life. When this happened to me, i was destroyed. It is against every thing i believe in. I can not understand how any woman would choose to go through such a procedure. My situation may be different, but the procedure is the same. I allowed my child to be murdered. i signed the concent form. I wish it was illegal so that the procedure could not be done on other children. Abortion should NOT be legal. I DO understand that it may be necessary to save the mothers life. But it should never be used because the child is simply unwanted, inconvenient, or because the child will be born with a deffect. That is just plain selfish.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MA

County of Worcester

My name is Janet . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Boston MA

12/30/1978

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Vaccuum aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told nothing about the procedure or any possible affects other than bleeding.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was only told I might experience heavy bleeding

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

the father of my child didn't offer alternatives

9. How has abortion affected you?

For 27 years it was my deep dark secret. I lived in self condemnation and sighed all the time. Additionally, it has affected my ability to have an intimate relationship with a man. There have been no men in my life since the father. I cry whenever I hear that someone I know is pregnant.

10. How has your abortion affected others in your life?

It is difficult for me to quantify that. Certainly, the father of the child was affected. I became angry with him on the table and never forgave him for 27 years.

11. Based upon your experience, what would you tell a woman considering abortion?

Please consider ALL your options. This is a decision you will have to live with for the REST of your life. Abortion can't be undone and will leave an empty place in your heart that never goes away.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion hurts women. I can still hear the sound of the vaccuum and it has been 30 years. My child was fully formed and felt the pain. Abortion is not pro women - it is anti women

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MA

County of Essex

My name is LINDA STANLEY. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Boston MA

06/08/1979

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

I was dilated, a tool inserted which ground up my baby and sucked it out

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They told me they were taking a "blob of tissue" out of me. A mass of tissue.

5. Were you adequately informed of the consequences of abortion?

Yes No

They didn't tell me there was a fully formed baby inside me, with fingers and toes and a heartbeat. If I had known there was a fully formed baby inside me, I would not have had an abortion. I thought it was a blob of tissue, like they told me. I wasn't counseled regarding how I would feel afterwards.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My fiancée

9. How has abortion affected you?

I found out that I murdered my child. When I decided to start a family years after the abortion, I went through years of infertility. I constantly thought that I could have had a baby already, but I killed the one that was growing inside me. If I had only known it wasn't just a blob of tissue. I was depressed for many years.

10. How has your abortion affected others in your life?

My children are saddened that they could have had another sibling but the child is dead and in heaven now.

11. Based upon your experience, what would you tell a woman considering abortion?

GET AN ULTRASOUND IMMEDIATELY. Look at that precious little life inside you and THEN make an informed decision whether or not to keep it or give it up for adoption, or abort it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe it is unconstitutional because the baby is not receiving the right to "life, liberty, and the pursuit of happiness". Babies in utero ARE PEOPLE. People have rights. No one should have the right to KILL anyone, whether it is inside your body or outside of your body.

9. How has abortion affected you?

sadness, sexuality, intimacy problems,lack of self respect,depression,walked away from God and Faith,broke up relationships, shame, isolation, denial, alchohol and drug abuse

10. How has your abortion affected others in your life?

it was devastating to men

11. Based upon your experience, what would you tell a woman considering abortion?

It is not a good solution. God will provide and, if I can raise kids alone anyone can. It is not a quick, nor is it a healthy option. There are risks physically and mentally

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That if it is legal and readily available there will be more pregnant young couples and many more innocent lives ended. It is a holocaust and very damaging to the relationship. Also, if it is legal, then it must be regulated closely. Private clinics are not up to standard. Statistics should list abortions as

deaths. The # should be included in the state count. Also, you cannot allow public tax dollars to be used at abortion providers without permission from individual tax payers. That should be illegal.

County of Middlesex

My name is Patricia Quintin. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Cleveland OH

//1975

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It allowed me to live my life without having to give birth to a child that I did not want and was not prepared to raise. I was able to finish my education, and went on to eventually marry and have two wonderful children - when I was ready for them and able to care for them and provide for them.

10. How has your abortion affected others in your life?

It has had no effect on anyone else.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion is physically safer for you than carrying an infant to term. Your chances of complications or even death are greatly reduced. Beyond your own personal needs, the world is horribly overpopulated and does not need another child - especially one who is not deeply wanted by his or her parents.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Please don't ever take away a woman's right to choose abortion. Instead, make abortion unnecessary by making sex education and birth control universally available. Women and girls who know how to prevent conception and are able to obtain reliable birth control don't need to face this difficult decision

except in the rare case of birth-control failure.

HOW MY ABORTION AFFECTED ME

The State of ME

County of Baltimore

My name is Denise Douglas. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Baltimore MD

02/05/1985

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had just completed chemo&radiation tx for Hodgkins disease. The radiation doctor scared me by presenting the information as a scary consideration to have the pregnancy because she could not guarantee adequate diagnostic medical coverage during the pregnancy. She did not advise me to consider counseling or clergy support for me. She did not present the option as in looking for possible other choices or directions and did not prepare me for the psychological aftermath. It has now been 24 years since and I had to find mental health support on my own.

5. Were you adequately informed of the consequences of abortion?

Yes No

No psychological followup, my milk came in and I passed what appeared to be cartilage. There was no support network out there and "I thought I was going crazy" after years. Triger situations would bring the situation back. I even told the doctor doing the abortion that I thought I was going to have a "heart attack", but no one stopped to get me adequate psychological counseling.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Physicians, husband.

9. How has abortion affected you?

Depression, insecurity. Unresolved grief, shame.

10. How has your abortion affected others in your life?

Husband depressed, confused. Lack of intimacy

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion is a poor choice and there are other healthier choices available. I recommend professional counseling and speaking to others who may have had abortion. Read the documented research on abortion's harm so you can make an informed consent.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Educate yourselves and read the data and testimonies out there. Insist on funding for further studies that are showing mounting evidence that abortion is not safe emotionally, physically. I'm an RN L&D nurse and see a lot of preterm pregnancies, incompetent cervixes related to history of abortions and hear OB doctors share that abortion history causes these increased risk problems.

8. Did anyone pressure you into having an abortion?

my boy friend and my parents

9. How has abortion affected you?

I know I could have a grown child with grandchildren now. no one tried to talk me into keeping the baby. not even my parents. Everyone, even the clinic, gave me the impression i was doing the right thing. No one said it was a baby inside me, just a fetus. I feel robbed, hurt, cheated out of a lifetime relationship. I murdered my unborn baby. I wish someone would have talked to me about adoption or keeping the baby. I had no ideal it would still haunt me but it does. I know God has forgiven me but I still wonder what it would be like to have had that baby or given it up for adoption and being able to see it today and have a realtationship with it. I wasn't a christian then but i am now and understand how wrong it was.

10. How has your abortion affected others in your life?

I was only able to have one child. my daughter could have a half brother or sister if i had kept my baby. My husband knows how much i still regret it.

11. Based upon your experience, what would you tell a woman considering abortion?

It would be the biggest mistake of your life. It may seem like the right thing to do but your choice will effect you for the rest of your life. I would talk her into having the baby and put it up for adoption if she wasn't able to keep it. There are so may couples who want a child and can't have one and so many abortions. It doesnt make any sence. It's crazy.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

the abortion clinics do not give options or advise on keeping your baby. They are just in it for the money.

2. How many weeks pregnant were you?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

There was a "counselor" who I am not even sure had a license. She just talked to me about the abortion she had had, and said that I would be fine,not painful, just something similar to PMS cramps later... she saw me crying and said not to worry--and said she would make sure they gave me birth control afterward...there wasn't any medical side affect info given, there were no "cons" given...I think about it to this day--it was so awful,very little one one one talks..

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend, who was 22 years older than me

9. How has abortion affected you?

Wow.. How has it NOT affected me would be a better question. it has affected EVERY aspect of my life. I actually had 2 abortions in ONE year (the same man...) I was given birth control, and I probably missed a pill and got pregnant again! I was devastated. I think in my heart I was mourning the first loss, and wanted to replace it (I had just turned 18)I thought my boyfriend would change his mind, I was a fool, so young and naive. I was NUMB. I began to drink very heavily in the years following the double abortion. I hated my boyfriend for carrying me into the first clinic, I hated the nurses for not protecting me the first time,I was crying so loud!! I was so obviously distressed...no one cared. I wish now that I

could have thought to lie to him, and tell him I had had it done, part of me was scared of him, he had abused me verbally, physically, and emotionally before...It was all subtle, he loved me, or so I thought..I left him 6 years later and began my personal journey with the Lord, my Savior. I have struggled for 12 years with thoughts of suicide over this, and just extreme grief, I still imagine their birthdays. I know if I didn't have the first abortion, there would not have been a second, and she or he would've been born in December, which is also my birthday month! I would have a teenager this year! Oh it sickens me.

10. How has your abortion affected others in your life?

I have not, at this time even told my husband,because I worry it will change how he feels about me (I know In Jesus, that my husband is also a man of God, and he would accept and forgive me, but I am ashamed still) I hide it from him, I keep giving myself dates that I will break the news, they come and go, and now its been over two years married... I worry EVERY DAY that I won't be able to carry his children, I am scarred by the risky sexual behavior I fell into after the abortions. I actually went to the ER after my 2nd abortion, and "left out" that I had had the abortion, I had extreme pain in my side, I was bent over with pain... My then-boyfriend told the DR, and he was so angry with me...I knew he was personally against it by the tome he took with me. I was against it, and I was crying out for him to know I didn't want this! I called the abortion clinic I had been to, and told them my symptoms, they sounded worried (about a lawsuit) and told me to go to a dr and take OT pain meds.... SO AWFUL

11. Based upon your experience, what would you tell a woman considering abortion?

I would say this, if he "forces you" call the police. If it's your own thoughts and worries about what you will do, how you will survive as a single mother, don't worry. I know you may not understand this at the time, but years later I discovered through the Grace and redemption of Christ, that He will protect us and provide, there will be a man who loves your child one day, even if he isn't the one who made him/her. There are parents who are desperate to have children of their own. I would have rather carried my child for 9 months and given her away to loving family than had her ripped out of my body...I live everyday with the fear that I won't/can't carry a child... I am 30, I cry every day about the abortions I had in 1996! Almost 13 years ago! Nine months goes by fast, adoption is an option!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would ask the Judges if they ever had an abortion, or dated/married a person who had an abortion. Even when I wasn't Saved by the blood of Jesus, I knew this was wrong..deep down I knew it. I laid there in the abortion clinic, while they did an ultrasound on me, they purposely faced the baby monitor AWAY from me. When the nurse was called out of my room, I got up and tiptoed around the monitor, I SAW MY BABY! I wish I had had the courage to RUN!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MD

County of Charles

My name is Cindy Riley. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Des Moines IA

//1978

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't really remember much about being informed in regard to any of it: the procedure or the aftermath. I seem to remember doing my own research afterwards, and that only making the guilt and shame more severe.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Mother. More like misguided advice.

9. How has abortion affected you?

Until my complete healing through "inner healing/counseling" in prayer and by the Holy Spirit, I lived in fear of ever getting pregnant again. I was living a life of homosexuality when this happened and the enemy used it to keep me there even longer. There was the initial and ongoing shame, guilt and depression for what I had done, that had to be suppressed on a daily basis.

10. How has your abortion affected others in your life?

I think my Mother also felt remorse or even guilt for encouraging me to get that abortion, until she also received the Lord and was healed of many things. I think it also brought back memories of her own illegal abortion my Grandparents forced her to have back in the mid 50s.

11. Based upon your experience, what would you tell a woman considering abortion?

Please, think again! My Grandmother tried to force my Mother to abort me (back in 1958), but my great Aunt Hope (great name Lord!) stepped in and made a way. :o) We have been so deceived, taught &

trained to believe that the little lives (sons & daughters) being formed within us aren't really people. That they're just blobs of unorganized cells/flesh, something to discard when it's not convenient or will "change OUR plans". I always think, "What makes us any less us (you & me) in our Mother's wombs than we are now? Consider the love to give and receive.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

In 1973 we opened the flood (blood) gates in this nation. We WILL be held accountable, one way or the other. Where will it stop? Abortion used to be ONLY in the case of rape (and I even question that now) or if the life of the mother was in immediate danger. From that to fully legal within the first 3 months (12 wk)(based on state laws), then it kept moving up and up to trying to "partial birth abortion". Partial birth? Dear God, why not just let it be born and shoot it? What's the difference? We legalize on level and people start pushing for the next, higher level. Please, we must stop this madness before we have no "next generation" to leave this great country to. We've killed over 1/3 of the generation that is now 20 to 35 years old. What a loss of creativity, of intellect, of ingenuity!!! Govern your people!!! We're like spoiled children who only cry for more. We must be disciplined! We need rules, regulations, laws that give us structure, direction, a standard that will lead us into good deeds and righteous and profitable ways!

HOW MY ABORTION AFFECTED ME

The State of MD

County of Calvert County

My name is Nina I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Norfolk VA

//1981

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Nothing was explained to me. A nurse sat with me for a few minutes and basically asked why I wanted to do this.

5. Were you adequately informed of the consequences of abortion?

Yes No

No information. No explanations. No counseling. No alternatives discussed.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

No pressure, it was strongly encouraged

9. How has abortion affected you?

Years of guilt. Wondering why no one tried to talk me out of it. Always wondering what would have been, what he or she would have been like. Now that I'm older and wiser, I know what I have done and the gift of a baby I got rid of. Why didn't someone wiser and more faithful than me (as a young and scared girl) try to stop me or help me see another way. This is the biggest regret of my life and probably the biggest sin that I am most ashamed of. I pray that millions of other young girls do not have to experience this and have someone to turn to for good advice, better yet I pray they are in good homes who will teach them how to have a Christian heart which will help them live more righteously and won't have a heart breaking decision like this to make.

10. How has your abortion affected others in your life?

Not many know. My kids would probably be shocked. I raise my children in a way that they are always supervised, they love God, and we do not believe in premarital sex.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't make this decision quickly. Think of all your alternatives. Talk to people who care and know how to help you go through this without doing an abortion. Talk to someone outside of the "Planned Parenthood centers". No matter what anyone says, it IS a life, and it is a part of YOU. That little baby may be the best thing that ever happens to you. Those little eyes and smiles will be looking up at you for many years. If you choose abortion you could be killing your best friend or the very thing that could make you happy. What if you find out later you can't have kids? Don't let that talk -pro choice people- fool you, they won't be there with you when you are crying in the middle of the night. Babies are a gift from God. You can work it out, there is always a way. Watch the movie "Bella". It will move your heart in the right direction. Pray and God will move you in the right direction too.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You are not the creator of life nor should you be the judge of death in the abortion issue. Evidence everywhere to tell you the affects of abortion on a woman, her future, on our society, the spiritual standing of our country. Millions of babies have died on our soil and other nations' soil because of our influence. It's become a butchering money making industry. Today women are able to stand on their own feet and support themselves even with a baby or at least get help. So there is no excuse. This reflects the general selfish irresponsible attitude and poor morality in our culture and is a shame considering we are supposed to be a loving, Christian world leading country. Here we kill what means the most to us...our babies. Are we any different than the pagens in the bible who would sacrifice they children to their idol gods? We're worse. We sacrifice our babies for selfish convenience. Innocent blood has spilled all over our land. I pray with millions in this country that God has mercy on us and that things will change. This kind of change will not happen under the Obama administration in fact the partial birth abortion will probably be wide open again based on what his wife has said about the P/b abortion being a constitution right of a woman. This is disappointing. We as Americans regardless of your party should stand firmly against this, you can't be a Christian or Godly person if you do nothing about this. Don't believe me, Just ask God.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MD

County of Washington

My name is Jessica I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Germantown MD

03//1998

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

vaccuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was taken into the "procedure" room and told to change and the Dr would be right with me.

5. Were you adequately informed of the consequences of abortion?

Yes No

They said I would have some craming but that was is for the Physical pain, no one ever told me the emotional toll it would take on me

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

For years I sat in silence and shame and thought that the Lord could not forgive me. I did marry the man with whom I had both abortions with, but it did take a toll on us for a few years. I recently came to know Christ and went through a forgiven and set free Bible study but up until then I could not get over what I had done, the killing of my unborn children

10. How has your abortion affected others in your life?

I had a hard time dealing with the abortions and I know it took a toll on my marriage

11. Based upon your experience, what would you tell a woman considering abortion?

Please let me talk to you first and tell you first hand how awful it is, not only the procedure but afterwards. There are other options so many people out there want to have children...why not help others instead of hurting yourself, your child and others involved

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

This is a child and it disgusts me to think that the court system gives more rights to an animal than it does to an unborn child. We need to be a voice for these children!! This is a child...NOT A CHOICE

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MD

County of Talbot

My name is Melissa Garman. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Charleston WV

04//1988

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

saline

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I checked in, filled out forms, paid the fee and waited for the nurse to call me back. When she did, they did an ultrasound, of which they would not let me see. I did ask to see it, but the nurse stated she could not as it was against their procedure. After the ultrasound, I was escorted to an exam room, where the doctor explained that they needed needed to inject a solution into my uterus and insert suppositories into my cervix, which needed to stay in place for 24 hours so my uterus would open enough for them to perform the procedure. The effects of the saline solution were not explained in any fashion to me. The next day, after the abortion, I was awakened from the anesthesia by a nurse shaking me saying that I needed to get up, it was time to leave. I was still extremely groggy and very nauseous from the anesthesia and procedure, but I was escorted out the door regardless.

5. Were you adequately informed of the consequences of abortion?

Yes No

The physical and emotional ramifications and or complications of an abortion were not discussed at any point. There were many women there that day. It was like an assembly line.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father, but I gave in without much persuasion.

9. How has abortion affected you?

I have often wondered what my baby looks like, if my baby were a boy or a girl, their personality, what his/her laugh sounds like. I have had much guilt, shame and condemnation over my selfish choice. I was terrified that someone would find out what I had done. My already low self esteem sank even lower. What kind of a person was I? I could not forget or put it behind me. My so called CHOICE has haunted

me over the years, 20 years to be exact. Since then I have tried to go on with my life, but that choice has gone with me everywhere that I have gone, into every relationship, maybe not in an overt way, but in the shadows of my heart. I have longed to hold my baby in my arms, laugh with my baby. I had tried to stuff my feelings over the years and one day it just overcame me. The grief and sense of loss that I was feeling was overwhelming. I cried and sobbed, mourning my loss, even though it had been over 15 years at that point. God's grace and forgiveness is the only thing that has helped me through this ordeal. My husband and I have desired to have more children but I have not been able to conceive since my so called choice 20 years ago. I have often wondered if the abortion has had physical implications impairing my ability to conceive. This choice has affected every aspect of my life, emotionally, physically, relationally.

10. How has your abortion affected others in your life?

I have robbed my family of knowing a part of our family, their grandchild, brother/sister, niece/nephew, etc. Could it be that I have robbed my husband of having a baby of our own. Who knows what this child could have accomplished in their life, if only given the chance and opportunity. Only God knows...

11. Based upon your experience, what would you tell a woman considering abortion?

If I could, I would change my choice, to LIFE. You cant put this behind you and forget about it. It is with you for the rest of your life like carrying a huge heavy bag with you everywhere into every relationship. There is life from the moment of conception, a beating heart, growing little hands and feet, arms and legs, hair and fingernails. Your baby already has a personality. Even though you may not feel it early on, the baby moves around of their own free will, jumping in your womb, sucking their thumb. God states that He knows us before we were in the womb. Wow, that is before conception!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is a life changing catastrophe that affects every aspect of woman's life. It is a haunting experience. The cost of an abortion is much greater than the fee that they charge to perform the procedure. It takes a toll in the long run, in families and in our nation. We, as a nation would not tolerate another holocaust, as we know it, on our own land. Yet we are! We are killing little people for the sake of convenience. Most abortions are sought out for birth control, convenience, not for medical reasons, rape or incest, as some would have you believe. The embryo is not a clump of tissue or something that we have removed, like a malignant mole. It is a person, a human being full of life and potential to accomplish great things, if only given the chance. We should offer other options over abortion. Why not regulate abortion, like we do adoption. There are alot of families that want to adopt. Why is it easier and less expensive to have an abortion than to adopt?

HOW MY ABORTION AFFECTED ME

The State of MD

County of Harford

My name is C P I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Baltimore MD

02/14/1986

2. How many weeks pregnant were you?

3. What type of abortion was performed?

First Trimester - Out patient vacuum aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The procedure was never explained. I was taken to the hospital and put to sleep. After I was placed in an OB recovery room.

5. Were you adequately informed of the consequences of abortion?

Yes No

Other than the side affects of the procedure that would last a few days or weeks, I was never informed of the emotional turmoil I would encounter.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Immediately after the abortion I was so depressed, I didn't talk for weeks. After more then 20 years the mere thought of that day brings me to tears. I've suffered years of sever depression, with guilt so intense I can hardly function. I have an emptiness that will never be filled. My heart tells me I would have had a girl, and very time I see a 20ish year old girl I wonder what my child would look like today. When I delivered each of my sons, I went through an extreme desire to get pregnant again. I desired to have a baby girl. I thought if only I could have a baby girl I wouldn't feel so lonely. I would have a second chance. I also had extreme anxiety that one of my children might die. 20 years later I still encounter the intense grief/sadness, and I remember that day like it was yesterday. I have suffered alcohol abuse to numb the pain, and have used relationships with men to comfort my grief and to feel worthy. I feel damaged. The secrecy and the social stigma that comes with abortion is unbearable.

10. How has your abortion affected others in your life?

Aborting my child has affected my ability to connect emotionally with my husband and my sons. I am

emotionally numb, and I feel unworthy to have been given a second chance to be their mother. At times the guilt and depression are so strong, I have trouble coping. My children don't understand. They just see that Mommy is sad.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that I understand, and I have been in her shoes and made the wrong decision. I would give her a detailed description of my experience, and would encourage her to have a sonogram because seeing that would have changed my mind and connected me to the miracle of life. I would say that a life really does live inside her, a life she will miss forever. No matter how many children she has she will always long for the one she doesn't have. I would tell her that there are no easy decisions and that abortion is not the miracle cure the medical profession makes it out to be.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Standing in front of a court I would say the health and welfare of millions of women is at stake. Each state should provide programs to provide proper health care, i.e. sonograms during the first trimester, and subsidized child care so women don't feel over burdened with the decision to keep their children. And instead of focusing on the right to terminate life, we should make adoption a more affordable and a more viable option. I would ask the court to look around at who was in the room, because if abortion were legal in their mother's day and age, more then half wouldn't be seated on the bench today. I express that the right to life, the right to take your first breath, should be more important then the any woman's right to choose. And that abortion hurts women, and by the time some of us figured that out it, it's too late! A life time of damage has been done and generations affected!

The State of MD

County of Prince Georges

My name is Tammy Hickman. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Washington DC

06/18/1981

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

Not sure of the exact type

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was ushered into a room where the anatomy and physiology of the procedure was explained to me using an anatomical model of the female reproductive system. I was asked if I had any questions, and explained that by tomorrow, I would be fine and where to call if there were any complications, END OF DISCUSSION. Nothing else occurred.

5. Were you adequately informed of the consequences of abortion?

Yes No

The only consequences that I was informed of were all related to the physical complications that MAY occur. Nothing else was discussed. They did not ask if I really wanted this abortion, or any of my other options was discussed.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend/the father of my child

9. How has abortion affected you?

It would take a week to tell the devastating effects that it has had on my life. It changed the entire direction of my life.

10. How has your abortion affected others in your life?

It has affected many others directly and indirectly. It is the dirty little secret that you carry with you forever. The shame is suffocating.

11. Based upon your experience, what would you tell a woman considering abortion?

The effects of having the child on your life is nothing compared to what you experience by choosing to

have an abortion. The effect is bottomless

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would explain to them, that the theory that a child is not viable would have to reconsider all of the millions of dollars in education, healthcare, and other services provided to women should be reviewed, why? because you want the child it is a baby, and when you dont it becomes a fetus. If we spend all the time and money in the world for prenatal care (on something they say hypothetically is only a fetus and not viable) why do we promote so much energy and education on prenatal care and research about the effects of alcohol, smoking, drugs etc, if the FETUS is NOT viable. To those who may read this, I am telling you I am the right person to speak before the committee.

My name is Maria Grace. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Baltimore MD

02/05/1974

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

D&C in the hospital

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No consent forms, or explanation was given. I didn't ask for an abortion the Dr. made the appointment and told me I needed to hurry it was almost to late. I was in shock that I was pregnant and within a week it was done.

5. Were you adequately informed of the consequences of abortion?

Yes No

Did not know it would risk my getting pregnant or increase my risk of cancer. My mother had breast cancer at this time. Also if I had been counseled to options such as adoption I would never have done this if not rushed and acting out of fear.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

the doctor

9. How has abortion affected you?

I changed fear, anxiety, and worry plagued me. When I did have children my first I was overprotective, my second I did not bond well I feared God would take them. 27yrs. I was in bondage to this secret and in fear. I hide my feelings and numb them with food.

10. How has your abortion affected others in your life?

My relationships lacked true intimacy. My childrens lives would have been much better had not a part of their mother died that day. As a mom I was always fearful anxious and worried. Never was I fully present in the moment. Till I was forgiven and set free by Jesus Christ.

11. Based upon your experience, what would you tell a woman considering abortion?

Children are always a blessing from God they are never a punishment. Wait seek wise counsel don't let anyone push you seek those willing to help you. All my reasons to abort were dead in 5 yrs. my parents and grandmother. I could have still had my baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If it was illegal I never would of submitted to it. Abortion is murder. Babies are always a blessing from God no matter what the circumstances of the conception, don't add a second trauma to a rape. I was not even asked by the dr. what I thought. He just saw an opportunity to make money. Abortion is traumatic and solves nothing. Many seek to become pregnant right away to replace the lost child and find that does not help. Im a nurse who has also cared for the abortive woman in a Labor and Delivery setting and held those dead babies. I was numb from my own pain is how I got through.

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

My parents and I were only told that the saline would induce labor. We weren't told that the hypertonic solution would result in chemical burns to the fetus which would be painful.

5. Were you adequately informed of the consequences of abortion?

Yes No

We were not told of any consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

parents

9. How has abortion affected you?

I have had two miscarriages. I later suffered from infertility and never had another child. I was depressed and contemplated suicide after the abortion. I battled clinical depression later in life. I've had cervical cancer, fibrocystic breast disease, substance abuse. I've had deep shame which remains.

10. How has your abortion affected others in your life?

My relationship with my mother was never the same. My abortion was a secret not even my brother knew about. My husband has had to deal with all the after effects.

11. Based upon your experience, what would you tell a woman considering abortion?

I would fully inform her of the process (I'm a registered nurse) and the long term consequences, including health risks. I would stress the absolute irreversibility of the decision. I would remind her of the baby's innocence. I'd ask her to consider the question: what if you never get pregnant again? I'd direct her to community resources. I'd ask her not to rush to a decision.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

As a health care professional, I'm appalled by the fact that FULLY informed consent is not required. First, we need to define life as beginning at conception. We need to stress individual responsibility to prevent pregnancy. I believe that abortion should not be legal. The cases where the mother's life is threatened account for a minute percentage of abortions and should be decided on a state by state basis. NO late term abortions should be legal. Women should be FULLY informed of ALL of the risks involved.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I became severely depressed. I was a murderer of my own child. There's nothing to describe this horrible pain and regret I feel.

10. How has your abortion affected others in your life?

I cannot say how they were affected. As I was not able to talk about it.

11. Based upon your experience, what would you tell a woman considering abortion?

I would express my experience and point her in a direction where she could be fully informed about the consequence of considering an abortion and that there are other options available to her and her baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That they should also investigate the true effects of abortion on those who have experienced it. Look at research, be informed.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MD

County of Frederick

My name is Jill I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Washington, DC

07//1977

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

I'm not sure - maybe a "D and C". I was only 14 years old and don't remember.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Once again, I was too young to understand. I was given an abortion kind of illegally because I was under age and was supposed to bring a notarized letter from a legal guardian and I didn't know what that was so my big sister wrote the note and signed it with my mother's name and they accepted it and my money even though it (the note) wasn't really official.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea at the time that I would suffer well into my middle age with depression, guilt and a sick feeling in the pit of stomach. I just thought once it was done - it would be over, but the truth is that the pain is never over.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Society in general.

9. How has abortion affected you?

After my abortion in 1977, I suffered from severe depression for years. I attempted to drown my pain and suffering over the guilt of killing my unborn child. I became addicted to marijuana and other recreational drugs during my teen years followed by an alcohol addiction into my twenties. I carried around a burden of guilt even while raising my four daughters that I couldn't get rid of until I went into professional therapy. It took years of antidepressants, prayer and counseling to help me finally release the burden, shame, pain and guilt that I carried for 30 years. The grace of God has set me free.

10. How has your abortion affected others in your life?

My whole family (parents and siblings) suffered from having to live with an unhappy, depressed teenager for years. My parents still to this day have no idea about the abortion. I have raised 4 very pro-life daughters and speak out against abortion whenever possible. I also have a younger sister who suffered similarly when she aborted a baby in her college years. Nothing good comes from killing the unborn.

11. Based upon your experience, what would you tell a woman considering abortion?

Please let me or someone else help you through this pregnancy and give that baby a chance at life. Only God should have the power to create and end a life. I would be happy to share my personal testimony and to help a woman find another way to deal with an unwanted or unexpected pregnancy. Having an abortion may seem like the "easy" way out right now, but trust me it is not easy to live with this decision. Please don't "get rid" of this baby that is growing and living inside of you. There is a better way to deal with it that will not ruin both of your lives. (yours and the baby's).

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Aside from the physical risks to the woman during and after an abortion (bleeding, infection, infertility, scarring, etc.)and the fact that a human life has been ended, I believe that the psychological trauma and the deep emotional wounds that occur from abortion can not be ignored. I am but one example and I have met many women over my life that have suffered so much. I also know men who have consented to and taken part in the abortion process who regret thier decision. It is our responsibility to protect the lives of the unborn AND to protect the emotional and psychological well being of our nation by not allowing such massive amounts of abortions to take place. There are so many people walking around who need anti-depressants to cope with life. I believe there is a link. Please reconsider the long term effects of what seems like a short term solution or procedure. You will not only be saving the baby's life, but you will also be allowing women to live guilt-free, productive, healthy lives.

The State of MD

County of Howard

My name is Jennifer I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Columbia MD

02/14/1988

2. How many weeks pregnant were you?

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father and his family

9. How has abortion affected you?

Unfortunately once you have one abortion it makes it easier to have more because you convince yourself that it is not a baby it is just a medical procedure. I now have two children and I can not get over the guilt that I aborted the first two. The sound of the machine sucking out the baby and the jar they keep covered so you don't see the tissues and small bones weighs heavily on me. I suffered a deep depression and was medicated for several years. I used abortion as a means of birth control. No one can tell me that a woman does not suffer over that decision later on.

10. How has your abortion affected others in your life?

Depression affects everyone around you.

11. Based upon your experience, what would you tell a woman considering abortion?

To seek alternative means ...have the baby and give him or her a chance at life, do the right thing and give the baby up for adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You are legalizing another form of birth control which these young girls will use. I had an abortion in Greenbelt Md and a 15 year old girl was in the clinic for the 2nd abortion..Her mother was there and I was sickened at he attitude of both her mother and her attitude towards it. That was when I realized what I had truly just done and I fell apart. This pro-choice needs to be reversed. The consequences to the mother emotionally and physically are too severe and dangerous.

HOW MY ABORTION AFFECTED ME

The State of VA

County of Fairfax

My name is Meredith I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Gaithersburg MD

07/14/2007

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

RU486

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told about the pills and what they do, but there was nothing to prepare me for the pain. The pain killers they gave were useless and quite frankly only served to keep me awake during the entire experience.

5. Were you adequately informed of the consequences of abortion?

Yes No

I think that when they saw how conflicted I was and the tears streaming, they should have not allowed such an ambivalent person to undergo an abortion. I was in a hormonally fragile place and being pushed by my then boyfriend and my mom to get the abortion. I am pro life, period. I should never have been allowed to walk out of there with those pills, period.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend and my mom.

9. How has abortion affected you?

I hate myself. I always wanted a third child and that unplanned pregnancy was God's gift to me. I chose, under pressure, to kill it. I had a feeling that it would be my last chance to have a child, and with 4 miscarriages since, I think that intuition was right. Each subsequent pregnancy loss is met with more and more self hatred, each loss is punishment for what I did.

10. How has your abortion affected others in your life?

Nobody else that knew seems to care either way.

11. Based upon your experience, what would you tell a woman considering abortion?

If you have any doubt, or anyone is pressuring you... DONT DO IT.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I dont believe any good comes out of an abortion. I believe it is a loophole found to get away with something instead of responsibly handling consequences of behavior. If you are going to have sex, then you need to be able to handle the potential outcomes of that encounter and pregnancy is one of them, even if you use protection. What human beings see as mistakes, are God's will for us. We need to instead focus on actions and outcomes and only acting if we can handle those outcomes... abortion is a cop out. Its a way of saying "I want to live my life the way I want" its selfish and unGodly. OUt of insecurity and confusion I allowed my selfish boyfriend that luxury, I should have said no way and dealt with the consequences of him breaking up with me... at least I wouldnt have killed a life. If it is to be legal, clinic workers NEED to be more selective who they give the pills to. They should not give them to anyone who is ambivalent about it, period. It has ruined my life. Not a day goes by when I dont think about how old that child would be right now, about 2, I love babies, children and grieve each milestone I dont get to experience with that child. Im not a kid, Im a 38 year old mother of 2 (wanting more children). Clinic workers need to be much more careful.

HOW MY ABORTION AFFECTED ME

The State of MD

County of Anne Arundel

My name is Karen King. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

San Jose CA

09//1975

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

vaccum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that the baby was a blob of tissue, not a baby yet. Of course the abortionists knew better because they were putting the pieces together to make sure they had all of the baby out. Since we did not have ultrasounds available I believed what they said. When I was married and pregnant in 1983 and saw my daughter on the crude ultrasound available, I knew they had lied.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told the problem would go away and I could get on with my life. This was going to help me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

I was embarrassed to be pregnant.

9. How has abortion affected you?

I did not trust my judgement after that day. As soon as the procedure was done I knew in my heart that my baby was dead and I had killed him. I cried in the recovery room and was shuttled out of the facility and cried on the 1 hour ride home. My boyfriend was no help and I felt like I wanted to die. I was 16.

10. How has your abortion affected others in your life?

My relationship with parents was undermined and they did not know how to deal with the knowledge that I had an abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

If you can't raise the baby, make an adoption plan. The baby should not have to die. I told my 2

daughters that they should have an older brother or sister by the time they were 13. My most fervent prayer was that they would never be in that situation and feel pressure to make the same decision.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is nothing but death. It is not a solution no matter the circumstance. My child that was not allowed by me to live has been with me every day of my life. He died but I have had to live with his death. No mother or father should have to bear this. It is not natural and is not healthy for anyone. I found healing and restoration through a Post Abortion Bible Study and am so grateful for the crisis pregnancy center who is working so hard to help women and men dealing with unplanned pregnancies. They should be getting the federal money, not Planned Parenthood. Lies cannot be condoned and Planned Parenthood lies.

After a brief "counseling" session, I was told only that I may have a hard time dealing with it, but did not realize how devastating it would be.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

I have been depressed and full of guilt and shame. I could not forgive myself for most of the years since. It is only upon becoming a born again Christian 4 years ago that I did, because i know He forgives me. It is the worst thing I have ever done. Sometimes I think about how old the child would be and what they would be like, if it was a boy or girl. I love my 2 kids so much, that it is such a deep, deep regret that I do not have that 3rd child to love and have in my life. And I can't ever re-do it. I can only hope to see in Heaven one day. One day many years I drove past some pro life advocates, and got really upset because it brought back all the upset over it.

10. How has your abortion affected others in your life?

I did not tell too many people, my husband and sisters only. My husband told me once years late that he did not want me to do it, but did not tell me that at the time. That really upset me, because I thought he was for it, because neither one of us wanted the baby.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it!!! Get a sonogram and see that the baby is alive, it moves and breathes. You will severely regret it, because you are killing your child. If you really, really can't deal with a baby in your life, give it up for adoption. There are lots of families wanting a baby. I did not think I could handle another baby in my life at that time. I had a 1 & a 3 yr old, and it would have been very hard because I worked too, but in hindsight I wish I had dealt with it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That it is murder, because those are living babies. What is the difference between a baby who is born and a baby who will one day be born? Nothing, both have life.

11. Based upon your experience, what would you tell a woman considering abortion?

I WOULD HEAR HER STORY FIRST, LISTEN TO HER, SHARE MINE WITH HER, THE FEAR, SHAME AND GUILT AND THE ISOLATION THAT YOU EXPERIENCE,she may feel that having the abortion would be resolution or end her problems, on the contrary, it only be the begining of lifetime regerts and agony she would not even wish on her enemy.Abortion kills a baby and that is the truth she won't hear from those practice it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is not a medical procedure. a medical procedure is suppose to make you feel better and give you hope to recover from. But abortion is a gruesome practice that leaves you lifeless. and is not only intended to kill, end a life of a child, but also if not physically kill the mother, send her on her way to slowly but surely died by these multiple unsettled emotions she's left to struggle and deal for the rest of her life. Abortion Abrutely disrupts those God-given martenal instincts between mother and baby, and that leaves the mother with feelings of emptiness, worthlessness, insecurities, low selfesteem, like "a dead woman walking.

QUESTIONS

1. Where and when did your abortion occur?

Portland ME

08/31/1984

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

Suction aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that the baby was not a baby, but just a blob of tissue. I was led to believe that the baby could feel no pain and that I would be alright after the abortion was over. The doctor said it was like performing a D & C and I would most likely have bleeding afterward like having my period.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed of the regret I would have, or of depressing or suicidal thoughts, the possibility of one day maybe facing breast cancer, or the shame that I would feel. I was also not informed that I would mourn the loss of my baby or have a hard time bonding with any future children I may have.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The doctor.

9. How has abortion affected you?

I have suffered from severe depression, suicidal thoughts, and self-esteem issues.

10. How has your abortion affected others in your life?

Until recently, I was not able to bond with my son, my husband had to put up with my anger and depression, and I have had a hard time building relationships with other people.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her my story of abortion and what it did to me and tell her to seek guidance from a crisis pregnancy center. I would also tell her to get an ultrasound and see that her baby is truly a baby and not a blob of flesh. That abortion centers are out to make money by abortions and not do what is best

for her and her unborn child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would also tell a court of my abortion experience and tell them that I found out that at 12 weeks my baby had the features of a baby and not a blob of flesh. My child was a boy (I know that because the doctor told me it was). My baby could feel pain and that this abortion destroyed me as mother and wife. Abortion hurts the woman, others around her, and sometimes the father of the baby that was aborted. Please stop it!

My name is Angel Murchison. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Bangor ME

06/01/1978

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

surgical

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

no my sister told me it was just tissue and it would be over in just a few minutes. A lot of girls have this procedure done and it's safe, fast and legal.

5. Were you adequately informed of the consequences of abortion?

Yes No

No I cannot remember anyone explaining any options to me. Doctors or family,

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

family

9. How has abortion affected you?

It has changed my life forever. I have a son that had no voice. Repressed Anger- hard to trust even the closest people to me. Unexplained depression on Mother's day etc.

10. How has your abortion affected others in your life?

It has caused me to have trust issues even with the people that are the closest to me. My sister took me for this procedure. I was told it was just tissue.

11. Based upon your experience, what would you tell a woman considering abortion?

Please re-consider. Everyone has a destiny. Allow the child to have life and consider an alternative.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion hurts women. I had a lot of buried pain from the abortion. Shame, guilt, remorse and a pain

that is hard to put into words.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of ME

County of York

My name is Suzanne I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Seattle WA

07//1975

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

vacuum (I think)

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was informed about what the procedure would entail and what physical discomforts I might experience during and after. But that was all.

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't think I received any info about consequences. I probably wouldn't have listened. I was desperate to not be pregnant.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I am ashamed of and guilty about what I did. I was a Christian and I was too proud to face the consequences of my sexual promiscuity. Now, 30 + years later, I still have a hard time being emotionally intimate with others because of my guilt.

10. How has your abortion affected others in your life?

My marriage has suffered due to my low self-esteem and self-confidence. As I mentioned, I have difficulty with emotional intimacy and honesty in all of my relationships. I am struggling with this and working to heal it.

11. Based upon your experience, what would you tell a woman considering abortion?

I would say don't do it! Carry that child and either raise it or give him or her up to a caring adoptive couple. You won't have a death on your conscience.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the Court that unborn babies are just as human as the rest of us and that, based on that fact, they deserve the same protection under the law as the rest of us. As Scott Klusendorf observes, the unborn differ from "born" people in four NONESSENTIAL ways: size, level of development, environment, and degree of dependency. None of these factors disqualifies the born from protection under the law. Neither should they disqualify the unborn.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of ME

County of York

My name is D P I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Montclair CA

09//1992

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

D and C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I went to a planned parenthood facility to set up my abortion. I hate to say it but it was my third abortion. My first abortion was at 18 yrs. old, my second was at 19, and my third was at 21-22 yrs old. They told me "it" was just tissues. The lady was not empathetic at all, I was crying and she did not show any remorse at all. I did believe her in my head, but my heart felt different. I did not tell my parents, they had their own lives and did not get involved with their kids lives. Had they been more involved and caring and told us not to engage in premarital sex, I probably would have listened. Since I did not have a close relationship with my stepdad, I found what I thought was love in boyfriends. These guys showed me attention and made me feel pretty and wanted. Now that I am an adult and a born again believer in Jesus do I see what I did years ago . It pains me deeply to realize that I took the lives of my babies. It took the help of my cousin, who is also a christian who counseled me and reminded me that once I asked for forgiveness from Jesus, that He has forgiven me and to remember that. My pastor also knows and says that I will see my babies in heaven one day. It is still so hard emotionally to this day, and it's hard to believe that after what I have done the Lord has blessed me with two beautiful and wonderful children. PRAISE GOD!!!! HE IS WONDERFUL!! HE IS THE FATHER I NEEDED !!!

5. Were you adequately informed of the consequences of abortion?

Yes No

No one went over the possibility of never being able to bear children in the future.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

my mom and boyfriend

9. How has abortion affected you?

I can get depressed if I dwell on it. I feel what saves me is trying to remember that I'll see them in heaven. I do cry about it from time to time and take an antidepressant, which I have for years. I try to remember that the Lord has forgiven me, even if I have a hard time forgiving myself.

10. How has your abortion affected others in your life?

This is something only a very few know of in my life. Only people who I trust and can confide in know. I have not told everyone in my life, because I am ashamed and horrified of what I have done. It will forever scar me.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to seek godly counsel and advice, to look into putting her child up for adoption. That she is carrying a baby not tissues, she is carrying a human life. That that life within her deserves to live. I would recommend she get an ultrasound to actually hear her baby's heart beating too as proof that the baby is alive and again not just some tissues or cells.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say that the Lord has the right to take and give life only. This has become a money hungry business which does not care for human life!! All women trying to conceive and have not been able to should be able to be set up with women who have found themselves pregnant and alone in the hopes of adopting those babies. This seems proof that we are in the last days when the all mighty dollar has become more important than human life!!! Money cannot fill your heart and life and soul like the precious gift of a wonderful, beautiful and innocent little baby!!!!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of ME

County of Kennebec

My name is Laurie I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

providence RI

06//1981

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

suction of some sort

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The procedure, the results, the after-effects were NEVER told to me. I was just told that I would lay on a table and that a device would be placed in my vagina. This abortion was performed at a Planned Parenthood agency - I was never told about options other than abortion

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea what to expect after the procedure - especially in the days to follow. I didn't even get an explanation of how to look for possible side effects.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

After the abortion, I was brought into a sort of resting room to recover. Minutes later, I was told that they had to bring me back in because they hadn't gotten "all of it". I was devastated thinking that they had ripped me apart and at that point I didn't realized that they had ripped apart my unborn baby. When I was given information by this agency, my pregnancy was never referred to as a pregnancy and NEVER was the fact that I was carrying a baby brought up. In the days following my abortion, I bled quite a bit and told no one. I was so afraid! In the months following, I had quite a bit of cramping - more than the usual - but was still afraid to tell anyone or to see a doctor. Unbeknown to me, my fallopian tubes were scarring and then they sealed themselves closed. 15 years later my husband and I tried to conceive. We tried for several years and then I sought infertility treatments. Little did I know my fallopian tubes were closed. I had three operations to open them, but each surgery failed. I was unable to conceive a child because of the scarring that had occurred from the abortion! I have since adopted 4

beautiful children - God has blessed me and forgiven me through this process of adoption.

10. How has your abortion affected others in your life?

My husband was unable to have biological children. I know that this affected him deeply, yet he stood by me and supported me and made me feel like it was a couple's infertility problem rather than it being all my fault. He was and is still wonderful.

11. Based upon your experience, what would you tell a woman considering abortion?

PLEASE consider ALL of your options - especially adoption. I have a beautiful family that was formed from the unconditional love of 4 birth mothers that chose not to abort their babies. Please make a different choice - abortion will affect you for the rest of your life and will never, ever go away from your mind and your memory.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is the killing of innocent babies. It's not about an unfeeling/undeveloped "fetus". It's about a child that has no rights.

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

saline

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

At 18 years old you are not prepared to have your baby die in your womb by burning. Until I had my first live baby at age 26 - I didn't even know that was labor I went through.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents, the doctor who first examined me

9. How has abortion affected you?

I knew it was wrong even before I went through it but I was young enough to believe that adults & science knew better than I did concerning what was best for me - after all I had gotten myself into this situation through my own decision making. I have spent the years following my abortion horrified by what humans can do to one another & trying to make my life better.

10. How has your abortion affected others in your life?

My mother soon became an alcoholic after my abortion - I believe she was also uninformed - she died from the complications of alcoholism 15yrs later. I have a Very difficult trusting anyone - especially men - my husband of 28 years has been very supportive

11. Based upon your experience, what would you tell a woman considering abortion?

This seems like the easiest answer right now because you are scared, embarrassed & confused. But some day you will wonder who that person that you chose to kill was, would have, could have been if you had been a little more courageous and had the support you needed.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Killing of human beings should be unthinkable at any stage. The choice comes BEFORE conception. You would be mortified if I suggested that we abort puppies or kittens because their owner had allowed them to become pregnant, why are humans any different.

QUESTIONS

1. Where and when did your abortion occur?

Honolulu, Aspen, Ft. Walton FL

01/20/1979

2. How many weeks pregnant were you?

15

3. What type of abortion was performed?

3 Suction, and 1 D & E

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I have had four (4) abortions. I was informed on the physical aspects of two of my abortions. It was through a 4min video that was played in the waiting room. It was brief and no one asked if we had any questions.

5. Were you adequately informed of the consequences of abortion?

Yes No

The only thing that was explained was the typical, pressure, bleeding, only lasting for a couple of minutes, resume work after a day-vague and brief.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

boyfriend's mother; mother; future husband

9. How has abortion affected you?

Frequent thoughts of losing my current children. Guilt for not being stronger to resist. Screwed up emotionally with Mom/Sister who encouraged me to abort. Can't wait to get to heaven so I can see my children. Rage, insecurity with mothering well w/my current children. Incompleteness feeling...

10. How has your abortion affected others in your life?

My husband who was not apart of any of my abortions is reaping the wounds of my decisions. Frustration at my Mom for encouraging me to abort her grandchildren. Bitterness and resentment at my sister who encouraged me to abort and despises the fact I have turned my life over to the Lord and have been forgiven-My sister had four abortions too and I encouraged her to abort! So there's all that wounding!!

11. Based upon your experience, what would you tell a woman considering abortion?

I understand what you are going thru-it looks really scary right now-but the pain will come back to haunt you! You can make it through this -someone wants a baby even if you don't right now-I would also tell her my experience-but if she goes for the abortion-I would tell her I will help her find some help after and that God will not abandon her!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

This is not really a solution for women. This is a quick fix that will reap abundant problems which no law can remedy! If you are really believe that you are helping women than you are deceiving yourself and the nation. Abortion is not what women want-deep down inside they, we, don't need this!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MI

County of Calhoun

My name is Barbara Lee. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Grand Rapids MI

//1979

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

I don't remember

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I believed the lie I had heard - that I was not killing an actual baby - just some cells - everyone, including the doctor referred to it as a fetus. I had never read God's Word that: He created that child in it's mother's womb; He knew the number of hairs on that child's head; He had a plan to prosper that child and never to harm that child. Since I have learned these truths and more, I have come to realize what a horrible mistake I've made.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea that one day I would learn that God actually had a plan for that child in this world. I had no idea how sick I'd feel whenever the subject of abortion comes up. I had no idea that while sitting in a physician's office with my 16-year old son for an orthopedic consultation for him that one of the questions in the forms he was filling out was, "has your mother ever had an abortion"...I will never forget my son's face when I had to admit I had. Even though my son is a very compassionate, loving person, he has always seen me differently since that jarring day in the doctor's office waiting room. After having 2 amazing children, ages 21 and 17, now I ache for the person I murdered - for the good they could have accomplished in this world. I wasn't told.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

No Answer

9. How has abortion affected you?

Every time I see a person with the birthdate of 1979 or 1980, I am brought back to what I've done and how many gifts that person could have given to the world. Because I really didn't consider it a big deal

until I read God's Word in 1998, I hardly ever thought about it all those years and consequently, I don't even know the actual date of conception, date of abortion, or the exact location of that little brick building up in Grand Rapids. I'm grieving and extremely frustrated and angry with myself because I didn't even consider it important enough to keep all the information I now need. I tried to track down my medical records from back then and the doctor has long since retired - his records have all been destroyed. I've made attempts to find the building in Grand Rapids, to no avail. This all just leaves a huge hole in me - I feel like I should have a day each year - really 2 (the death date and the due date) - to remember this person. I can't even do that, so I have no sense of closure, if that's even possible.

10. How has your abortion affected others in your life?

My 21-year old son will never see me the same. My 17-year old daughter doesn't know and I am praying for the right opportunity to tell her. By not telling her, I've been lying to her by omission all these years. My husband, a non-Christian, has used it against me, for ammunition when he feels I'm being any type of a hypocrit.

11. Based upon your experience, what would you tell a woman considering abortion?

All of the above.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Absolutely not, based on all the above.

The State of MI

County of Montcalm

My name is Ellen Beshada. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Canton, Akron, Columbus OH

//

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I just signed papers, paid the money, waited in a room with others, had the procedure, waited, told I would hurt and bleed, told I needed to have a ride home

5. Were you adequately informed of the consequences of abortion?

Yes No

the clinicians were all business - no one told me the truth and I didn't know the truth - I was there because thought I had no choice and they provided a service for me -

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents made me have the first AB when I was 17

9. How has abortion affected you?

during and after all 3 AB's I physically hurt and was very lonely, but I was spiritually aware of what had taken place, I was 17, 21, 23 yrs old - I got saved at 25 thank God - God guarded my heart from condemnation, that now I feel I deserve, it is His mercy that forgives me, and blessed me with a husband a 5 children - I am humbled beyond comprehension of His mercy - I WANT TO BE A VOICE FOR THE UNBORN - because I have the Holy Spirit now inside of me, I KNOW one of my abortions was twins so I have 5 children on the other side of eternity, including 1 miscarriage - I ti more than sobering for me as I raise my children in this life knowing what I have done to other children in my care - having the Holy Spirit is what stopped me from choosing the deceptive "convenient", murderous way out of abortion - I i will always be sad with aholy fear before God who chose me to bear Godly offspring for His glory in this life - I WANT TO BE A VOICE FOR THE UNBORN - I AM AN INTERCESSOR IN HIS HOUSE OF PRAYER AND BELEIVE OUR VOICES MOVE HIM

10. How has your abortion affected others in your life?

I SUFFERED 45 YEARS OF DEPRESSION FIRST FROM INCEST, THEN FROM PROMISCUITY, THE ACTING OUT OF MY PAIN OF THE INCEST WHICH LED TO 3 OUT OF MARRIAGE PREGNANCIES AND ABORTIONS - SO DEEP DEPRESSION, SUICIDAL THOUGHTS TORMENTED BY FEAR, PANIC ATTACKS, FEAR OF INTIMACY, HOE DEFERRED MADE MY HEART SICK MOST OF THE TIME, FINALLY SET FREE AT ONETHING 07 IN KANSAS CITY - NOW THERE IS JOY IN THE HOUSE OF THE LORD - THERE IS HEALING FOR THOSE EXPLOITED BY ABORTION

11. Based upon your experience, what would you tell a woman considering abortion?

TURN YOUR FACE TO THE CREATOR, THE FATHER, JESUS, THE KING OF KINGS, THERE IS HOPE FOR YOU WITH THIS CHILD INSIDE OF YOU - I WOULD GET HER AN ULTRASOUND - LET HER HEAR THE HEART BEAT - I WOULD HELP HER FIND A HOME FOR THIS BABY,IF SHE CANNOT RAISE IT, I WOULD PROVIDE A HOME FOR AN UNWED MOTHER AND MANY DID FOR ME - I WOULD TELL HER SHE WILL BE BLESSED FOR NOT ABORTING HER BABY - BUT SHE WILL SUFFER TERRIBLY IF SHE KILLS HER BABY -

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

GOD CREATED US IN OUR MOTHER'S WOMB - WE ARE FEARFULLY AND WONDERFULLY MADE, WE WERE IN GOD'S THOUGHTS AND HEART BEFORE THE FOUNDATIONS OF THE UNIVERSE - I WOULD TELL THE COURT MEMBERS THAT THEY ARE GOD'S PRECIOUS CHILDREN - IT HIS MERCY THAT THEY ARE IN THE LAND OF HT ELIVING - HOW FORTUNATE THEY ARE THAT THEIR MOTHERS LET THEM LIVE AND DOD NOT MURDER THEM IN THIER MOTHER'S WOMB - I WOULD TELL THEM THAT BLOOD WILL FOLLOW THOSE WHO SHED BLOOD -

County of Iron

My name is LuAnn Phillips. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Milwaukee WI

//1974

2. How many weeks pregnant were you?

No Answer

3. What type of abortion was performed?

Regular...I was 18

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was like a D&C, no mention of a live fetus, no real counseling. Clinic was in the basement of a Karate studio.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was just told to go to a hospital if I experienced heavy bleeding. There was no follow up or counseling back then. You were supposed to forget it and keep your mouth shut.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My parents threatened and harrassed me into it.

9. How has abortion affected you?

I felt horrible and unworthy afterward. Suffered from nightmares and low self-esteem. My parents ordered the abortion because I was supposed to succeed in college and life. I dropped out of college and was real messed up for a long time, believing I committed murder and felt unforgivable.

10. How has your abortion affected others in your life?

When my standards for living lowered due to my feeling like such a failure, I didn't strive to better myself for a long time, and I believe that affected the children I did have, because I was not very confident in their early years, and grieved & regretted my abortion after seeing how great kids were.

11. Based upon your experience, what would you tell a woman considering abortion?

I would advise her not to do it. That is it killing.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that it is killing a live human being and we have no right to murder them.

QUESTIONS

1. Where and when did your abortion occur?

Sterling Heights MI

09/04/1987

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

Suction Abortion

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not informed that the fetus had a heartbeat, that he was not a blob of meaningless cells, but a perfectly formed baby, just tiny; that could feel anguish upon abandonment, that in his humanity, (even at 7 weeks) became afraid and tried to kick away when the killing tools came after him to destroy him.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed that I would suffer pain, miscarriages, low-self esteem, feeling of being exploited, loss of dignity, angry, ashamed, sorry, and no where to put all these feelings because I was told when you have an abortion, you're supposed to feel happy because you exercised your freedom to choose.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Best Friend, Would-be Father

9. How has abortion affected you?

It made me realize how cold and selfish the world is. When faced with a difficult situation, I was able to kill someone to get them out of way. This abortion made me realize I did not put forth my best self. The freedom to abort does not build strength nor character, it diminished me to a tyrant.

10. How has your abortion affected others in your life?

My son, who was 2, had to deal with me when I became emotionally distraught and distant, whereas I was not like that before the abortion. I hobbled out of that clinic a different woman, and it was not for the better. I became a "man hater" so if you were a man, watch out!!!!

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them "You may feel like you have no choice, and because abortion is legal, you might think its RIGHT and GOOD for us. Don't be afraid of unconditional love, which is what the baby stands for. Others may tell you this is the best thing for you, but in reality, they are saying it's the best thing for THEM, because now they don't have to take on the responsibility of loving and taking care of you BOTH." Please seek the help of any pregnancy center who knows and understands what you are going through. There has never been nor will there ever will be any women who regretted their choice to allow their baby to live.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Legal abortion exploits women. It pits mothers (and fathers) against children. This is against the law of nature. Legal abortion is a seduction to do a cruel thing to get out of a responsibility we are all called to have by our own nature, to protect and defend our own. Legal abortion doesn't hold motherhood in high esteem, instead the children inside of us are seen as poison, destined to "ruin our lives." If we don't see this, others will constantly remind us of this until we relent and abort. It's nothing short of heroic for a woman to decide to keep her baby "at all odds" against others wishes. Why do you think the largest cause of death among pregnant women is homicide????

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

No one there at the clinic seemed to care or acknowledge that I had deep misgivings or sadness at the prospect of killing my baby.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My then boyfriend and another relative.

9. How has abortion affected you?

I struggled with deep depression for many years. I could not maintain a relationship after that. I never had any children. I have had uterine cancer and a total abdominal hysterectomy at 48 years of age though I am otherwise in excellent health.

10. How has your abortion affected others in your life?

I had a subsequent abortion the following year.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that the experience of having an abortion is far emptier an experience and far more devastating than having a child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell a court plainly that since all scientists agree that life begins at conception therefore abortion

is murder of a vulnerable human being, one who deserves protection.

QUESTIONS

1. Where and when did your abortion occur?

Detroit MI

03/28/1980

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

There was no one that cared at the clinic what was being done to me.

5. Were you adequately informed of the consequences of abortion?

Yes No

I never knew it would be something I would carry with me the rest of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

After I walked out of the clinic the day I had my abortion. I never cared about anything after that.

10. How has your abortion affected others in your life?

It has taken away a lot from my family. I had anger that I would not have had if I would not have chosen abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

Life is the only choice. Abortion should not even be a choice out there for anyone to think about.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that all life starts from conception until death. No one has the authority ever to take a life no matter the circumstance.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MI

County of Midland

My name is Amy I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

East Lansing MI

01/06/1993

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The workers never said the word fetus or baby. They used words like "egg sac" to describe what was going to be removed.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told that it would hurt. Which it did. I was never explained there could be any negative consequences physically or otherwise.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have regretted it ever since the moment it happened. At the time I convinced myself it was the right thing to do even though I knew it was wrong. I felt it was my only option and never sought out council that might have told me otherwise. If I had seen the ultrasound and saw that it was truly a baby and not just an "egg sac" like they described it, I'm sure I would not have gone through with the abortion.

10. How has your abortion affected others in your life?

It is a big secret. Only 2-3 other people know about it.

11. Based upon your experience, what would you tell a woman considering abortion?

It does not fix the "problem". You can have lasting problems with reproduction and guilt all of your life when you realize you have murdered your child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Killing a human being is never the right answer. Being "responsible" enough to create a child should make you "responsible" enough to bring that child to term and choose adoption if that is the best choice for you. Not having an easy "cover-up" such as abortion would make men and women think twice about going ahead with actions that would create a human life.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of WA

County of King

My name is Tami Fioranelli. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Bellevue WA

07/27/1979

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The doctor just stated what a relief it will be to terminate the pregnancy.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea the devastation that comes along with the abortion. I was sure the vacuum sucked out my heart along with the baby. I became very emotionally numb.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother and my boyfriend "recommended" it.

9. How has abortion affected you?

I have to constantly remind myself how God has forgiven me and that I will see my baby later in heaven. I am just so so so sorry. I didn't have to do that. I wish I didn't. If I didn't receive God's forgiveness, I'm sure I would be dead by now.

10. How has your abortion affected others in your life?

They have had to see the regret and the tears. But they are also aware of how forgiving God is.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT KILL YOUR BABY! IT WILL RIP YOUR HEART OUT AND YOU WILL EXPERIENCE A HELL LIKE NO ONE SHOULD EVERY EXPERIENCE! If you really do not want a baby at this time, adoption is truly a wonderful option. KILLING YOUR BABY IS NOT THE ANSWER. Why didn't someone tell me this?

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder, and this is a hell that no woman should ever experience. The selfish act of abortion for not wanting your child is not the answer. If a child is really not wanted, other options can be considered. Stop having unprotected sex or adoption. Abortion is MURDER!

QUESTIONS

1. Where and when did your abortion occur?

Inkster MI

07/27/1995

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

suction??

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never informed that I was not of mental competence to handle an abortion. I was not given the option of seeking help to handle informing my parents of my wrongdoing. It was a rushed procedure to make sure I would not change my mind. And I have not been the same since.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My then boyfriend and planned parenthood.

9. How has abortion affected you?

I has been seared on my brain. And I believe that the empty feeling of not seeing my child will forever live with me. I ask God frequently, "am I forgiven for this awful crime against the child I was carrying and me". I would like to ask people who are pro-choice, how would you have like to been aborted. What about aborting you off the face of the earth right now? When I was in that room laying all by myself when the abortion was complete...I cried uncontrollably and one nurse came over and asked me, "what's wrong?" I didn't understand the emotional disconnect the workers had at that place. They offered no consolation except milk and cookies to replenish my strength. I pray continuously that God forgives me because this pain never leaves. It resonates with me daily. God has blessed me with three beautiful children now that I have come back to Him. And He blessed me with them in the correct

way...through my husband. When I look at them I think about the life(s) that I took. It's hard for me to believe that God has forgiven me of this sin...but I am consoled that He is a forgiving God. But it is hard.

10. How has your abortion affected others in your life?

Because of my situation, I had informed my sister of what I did and she went and had an abortion too. I actually went with her. It was a horrible experience because I was then an advocate for doing this secret sin. No one had to know. I encouraged another person to kill their baby. And I feel awful. AWFUL. And now she is in the same boat as I am, due to my unwise decision. I think it's beyond unwise. It's AWFUL, absolutely awful to think that I could've been an accomplice to murder.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO A TEMPORAL THING THAT WILL COST YOU YOUR SANITY AND THE LIFE OF A PRECIOUS HUMAN BEING. The one thing one must consider is that as the Bible states, "before you were formed in the belly I knew thee." It's not only a sin against God, but it's a detriment to your mind, body and spirit. Consult God and find an accountability partner that can walk you through reputable options like adoption or foster care. You will thank yourself for making a "right choice" of not being "pro-choice" years down the line. Hindsight is always 20/20.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You are disobeying the orders given by the forefathers of this beloved country. The further away America gets from the ground laid by Thomas Jefferson, George Washington and those who've declared our freedoms according to the Word of God, then the further away we get from the phrase God bless America. We can't allow the legal system to over step the boundaries set for considering who gets life. It's not ethical and it's not logical. You put a man in prison for killing a human being that's 1 year old and above; but this same principle won't apply to those who choose to abolish life within the womb. It doesn't compute. And this makes for a backwards society with backwards thinking. Be consistent with the foundation laid in the Declaration of Independence. Be consistent with the acclamation of One Nation Under God. Killing is not the commandment of our God.

HOW MY ABORTION AFFECTED ME

The State of MI

County of Ingham

My name is Tammy I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Lansing MI

07/20/1994

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had no idea how awful this would be to me physically, psychologically and emotionally. When I had the abortion I already had 1 child and if not for this child I would have committed suicide from the effects of the abortion. It is truly only through the love and forgiveness of Christ that I have been able to preserve my life. Armed with the knowledge through my local church that I am forgiven this truly unforgivable sin, through Christ, and with the knowledge that my child that I aborted will be waiting for me in heaven, and who also forgives me, I have been able to go on with my life and to have peace. The Lord has blessed me with an unbelievably loving christian husband and 2 more wonderful children. I can never say the right words to communicate how grateful I am for Christs love and forgiveness.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea the lifetime of pain and suffering I would have. I thought once it was done it would be over. That is the farthest thing from the truth. And I was not a kid, I was 32 years old and newly divorced.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

REad above

10. How has your abortion affected others in your life?

My immediate family has a lot of anger and judgement towards me. They can't understand how I could have ever chosen such a thing.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T! Even though I have forgiveness through Christ I still carry the scars of the abortion. I struggle with a lifetime of depression, it never goes away. You can also have consequences with any other pregnancies, both of my other children were premature.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that they have no idea the consequences to an individual who chooses abortion. That that aborted child is NOT forgotten, that it is always and forever on that mothers heart and mind. That many women choose suicide because they can find NO peace with their chose. That their families are affected and society as a whole because that individual WILL struggle with depression, suicide, alcoholism, drug addictions because of their chose. It NEVER goes away!! It is a pain, that is NOT forgotten. The pain is so great that the mother is always looking for that child, to replace that child, to try and relieve that pain but, nothing will take it away.

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

Yes No

Professors, indirect pressure from father

9. How has abortion affected you?

I was so happy when I found out. I was concerned about shame, from not being married, even though I married the father a year later. And I was graduating from college. It was a completely stupid and wrong choice that I made. I can't think about it without crying. I was not born-again until 2005, so before, after I had the procedure, I prayed and prayed for God to forgive me. I didn't know much about the Bible, Jesus, or praying, so I tried to forget about what happened. I only told 5 people. I lived in fear about what would happen if people close to me knew. I couldn't tell strangers, either. I was 21 years old and so afraid of my dad, even though I was living my own life on my own, supporting myself. I think of how God is raising my child in Heaven, and the emotions are welling up right now, so I really can't finish.

10. How has your abortion affected others in your life?

My husband, the father & my fiance at the time of the abortion, was deeply hurt. He was against it and

almost left me. He was in the military and deployed at the time, and I think he just pushed himself further into a pornography addiction to avoid thinking about it. He and I were unable to speak about it. He said hurtful things for years after. Now that we are both born-again Christians, we forgave each other for it and haven't brought it up again since. It seems like he is either denying it or helping me out. I don't speak with the people who encouraged and supported me to do it. We obviously have seriously conflicting interests now.

11. Based upon your experience, what would you tell a woman considering abortion?

Now that I have two beautiful, talented, awesome daughters, I cannot fathom why I ever did such a horrible thing like having an abortion. There is forgiveness in Jesus if you have had an abortion. But if you haven't and are considering it, please think about the life inside of you, think about the future of this world and the legacy you will leave for your family by choosing life. You will be provided for, there is so much help out there, even if you feel hopeless, there is more than enough hope for you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The more availability and acceptance of abortion, the less people in the world. No more future to be concerned about. Do the right thing, not what a few radical groups think is right. Value life no matter what.

My name is Terena Lawson. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Dearborn MI

08/14/1983

2. How many weeks pregnant were you?

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I lived in fear for many years that someone would find out my secret; I was fearful that my friends & family would cast me out and walk away from me if they know; I was afraid if the parents of the kids I taught in Sunday school found out, I would not be allowed to teach Sunday School; I believed I did not deserve to have children; I kept them at a distance; I believed I didn't deserve to be in a relationship with a man who would treat me well; my marriage failed; I spent 19 years trying to make up for what I had done; I was down on myself, made bad choices, held on to the guilt/shame for 19 years. It was not a procedure that was done and over with, it haunted me for many years. I didn't think I could be forgiven and loved.

10. How has your abortion affected others in your life?

Caused resentment, bitterness and distance with those I love.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. I would be them to listen to me because I've been there and can tell them what the consequences are.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Just because it's legal doesn't make it ok and doesn't mean there is no pain involved in the decision to abort. I would not have had an abortion had it been illegal.

HOW MY ABORTION AFFECTED ME

The State of MI

County of Washtenaw

My name is Judy Hill. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Grand Rapids MI

05/29/1977

2. How many weeks pregnant were you?

3. What type of abortion was performed?

not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Not the impact it would have regarding my walk with Christ

5. Were you adequately informed of the consequences of abortion?

Yes No

The staff are not performing the work of God therefore I was not informed of Godly principals

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

society pressure

9. How has abortion affected you?

I periodically think about the baby and what impact it would have made on my life. I probably would not have been a recovering alcoholic and drug addict if I would have chosen to save a life rather than take a life. I'm sure that God would have made a way to provide for us..

10. How has your abortion affected others in your life?

not sure if it does no one talks about it

11. Based upon your experience, what would you tell a woman considering abortion?

I would testify of what God's word says about abortion

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Do you believe that God sent His only begotten son to that we may have life everlasting and that one of the ten commandments is "thou shalt not kill"

HOW MY ABORTION AFFECTED ME

The State of MI

County of wayne

My name is Christin Rutkey. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Southgate MI

05//1984

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They said it was fast and painless. It was not fast and it was loud and it hurt very much. It literally felt like something was being surgically removed from my body without anesthesia.

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It was the biggest mistake of my life. I was 17. I was scared and wanted a quick fix to a big problem. Instead I got a lifelong mistake to live with. I still think about what that child would have been like and I calculate the age occasionally as well. I'd give anything to go back and make a different decision.

10. How has your abortion affected others in your life?

I married the father and we are still together and now have 2 children. We have had several talks about the abortion and what a mistake it was. We thought it was the easy way out but it was the opposite.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. You already made one error in judgement don't make another. This is permanent, you

cannot go back and change this. It is very graphic in nature, loud and painful. To the young girls I say... the father of this baby may not always be with you, but this decision and its consequences will ALWAYS be with you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I do not believe it is our human right to terminate life period. Once there is life or fertilization then it is now a human being with its own right to life and protection. Women are victimized by a society that says there is no life and lead to believe they have the right to choose after the choice is already made. Abortion is the worst and biggest mass murder the US government has ever supported. Because to allow it to be legal is supporting the action as acceptable. We are all now guilty of murder by association. I don't want this on me or my family. I have already made my mistake. Please help prevent others from doing the same and stop abortion now.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MI

County of Macomb

My name is A D I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Troy MI

04//1993

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told anything, I was ushered back to a room, they checked me, and then performed it.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one seemed to care, like it was an OK and routine thing to do. There wasn't any discussion about how this would effect me mentally or emotionally. I was only told about the after effects, as far as how long to rest ect. There was no counseling whatsoever.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend at the time, I was only 17.

9. How has abortion affected you?

For a long time, I drank heavily, was promisquous(sp), was in denial, and made reasons in my head as to why it was OK. I have never told anyone, and have been dealing with this demon in my past for a very long time. I had low self esteem, didn't believe I deserved anything. I went to a psychologist, who said what I did was OK, alot of girls had done this, That definately did not help me top deal with it because deep down I knew it was wrong. I came from a very Catholic background of guilt already, and from people who would rather not know. I wish someone would have made me tell my parents, then I would have not had more than 1. I was on such a wrong road with bad decisions, and everyone in the media telling me it's my body I can do what I want. I was ashamed. I am only where I am today

because I found a business with a personal growth program, and christian principles, am I able to ask God for forgiveness. I still am crying over those children I never had, and I pray everyday for all the women who are still suffering and do not have the support system I found through God.

10. How has your abortion affected others in your life?

I have never told anyone, and those who were around when they happened, I no longer speak to for the reason of them not telling me what I did was wrong.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her my story and how it is only a temporary solution, it will affect you negatively the rest of your life with low self esteem and always wondering what would have happened if I would have given those babies to a couple who cannot have kids. I see so many now who are trying and can't, I feel horrible I could have been so selfish. Having the baby and giving it to a loving home is the most unselfish thing they will ever do, and how thankful they will be that they made that choice instead of an abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them that it is a horrible thing to go through, maybe not on that day, but definately in the future. I was so naive to think it was something I would just forget about, everyday I look into my 2 beautiful childrens eyes, I think about what I did. I would tell the court most women who are making this decision do not know the consequences of their actions. I had noone to talk to. They didn't care at the clinic, it was just another procedure. I wish someone would have told me what I am telling you about the aftermath and that I had choices and what the pro's and con's were to all my options. I felt I only had one option, I remember when I left the clinic that day after "the procedure" and the people in the parking lot with picket signs about how bad abortion was, maybe if they would have been there when I arrived..... I would have made a different decision and not used it as a form of birth control. I have felt absolutely horrible over the years for the choices I made, I take full responsibility, and hope this will help the courts understand IT IS NOT OK!!! If you want to make a law, make a law to teach abstinence in school, do not give kids the tools to encourage sexual activity, place laws on what is on TV before 10pm. Our society has become so numb to what is on TV and other outlets many do not know the difference between right and wrong. Abortion should not be legal, I am glad my mom didn't have one with me.

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I do not remember anyone telling me about the nature of abortion. Only what I would feel, and how to take care of myself afterwards

5. Were you adequately informed of the consequences of abortion?

Yes No

The only "consequences I was informed of was the fact that I would probably bleed afterwards and then I'd be "fine"

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

For years I battled with eating disorders and became extremely promiscuous.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

That there are severe and life long consequences to killing your child. You deserve better and your baby deserves better

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We protect our citizens everyday from their own stupidity....riding with out a seatbelt, signs stating that McDonalds coffee is hot....no drinkig and driving.....why do we stop and run the other direction when it comes to stopping the horrendous and dangerous act of abortion.

Livonia MI

2. How many weeks pregnant were you?

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I actually ended up having 3 abortions. I thought it was the best thing for ME, at the time. Now, after I was married 17 years later when I was READY to have children, I found out I was not able. It may not have been due to the previous abortions, as my tubes were both blocked due to health issues I developed.

10. How has your abortion affected others in your life?

It hurt my parents.

11. Based upon your experience, what would you tell a woman considering abortion?

If I had to do it over again, knowing what I know now, I would have the baby and put him/her up for adoption. I may not have been ready to raise a child or offer them the best life that they deserved, but somebody out there could. Death to the unborn child is so unfair.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder and will create lifelong crises in a woman's life (and men's too). It's wrong to play GOD with a human life. Freedom of CHOICE is different than freedom to murder. Please, see the difference.

My name is Kimberly I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Detroit MI

11/01/1998

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Not sure it was a machine inserted cervically and sucked out

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I am diabetic. My sugar was dropping very low consistently. My doctor recommended me to have an abortion. At the time I thought that it was a good idea pertaining to my health. I regret it to this day. I became pregnant again in 2001. It was suggested also to do the same thing. I refused my child is now 8 years old. The feeling that I had did something very wrong hit me as soon as the abortion was over. That is why I was so determined to carry my daughter now. I was grateful to God for allowing me another opportunity to conceive.

5. Were you adequately informed of the consequences of abortion?

Yes No

That was never discussed about the murder or the feelings that may occur when it happens.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My doctor did she said it was in my best interest.

9. How has abortion affected you?

Tremendously I now know that life happens as soon as you conceive.

10. How has your abortion affected others in your life?

The baby father regrets it till this day.

11. Based upon your experience, what would you tell a woman considering abortion?

Yes I would. I would explain that this is a living soul inside of you. That God makes no mistakes. If he felt that you could not handle it he would not allow it. That we dont know the future of this child but this could be the next president, doctor, or whomever God would allow him/or her to be.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That they are really playing with some dangerous stuff when you are deciding on who should live and who should not. They are a system that should deal directly with what they were created to do. That is to give justice to the people that are alive. These babies cannot speak for themselves. We are the people that can. The very ones you are allowing to kill may be the one that may sit where they are.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They only tell you that it is just a blob of tissue. They didn't tell me how much the baby was formed.

5. Were you adequately informed of the consequences of abortion?

Yes No

They don't tell you about the risks or how you may become depressed over this decision

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

The Father of the Child

9. How has abortion affected you?

I have lived with this horrible Guilt for over 30 years. You never get over what you have done. You have a hard time forgiving yourself and feel like you need to punish yourself. You deal with depression regarding your abortion. It has affected my marriage and how I deal with Intimacy.

10. How has your abortion affected others in your life?

It has affected my husband.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them to absolutely NOT to even consider having an abortion. That you are killing a precious unborn baby. That you will have to live with what you have done all the days you are alive. You can adopt the baby out if you are unable to raise this unborn child. That a baby shouldn't have to die because the parents have made the wrong choices.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

That killing an unborn precious baby cannot EVER be legal. Life is precious and only should be in the Hands of God to decide how long each human should live. We are killing Future Doctors, Nurses, Scientists, Presidents and so on. We are going to have to answer and are answering for all the precious lives we have killed through abortions. That the women who have them change their lives forever because of the abortion and what it does to their psyches!

8. Did anyone pressure you into having an abortion?

Yes No

My ex-husband

9. How has abortion affected you?

They didn't tell me I would hear babies crying in the night, nor that I would continually wonder what my baby was and would have grown to be. They didn't warn me how my other children would feel about me murdering their siblings. They didn't tell me how hard it would be to forgive myself.

10. How has your abortion affected others in your life?

see above

11. Based upon your experience, what would you tell a woman considering abortion?

I would do everything in my power, with God to share my experience and help her find another alternative. The first thing is to realize that GOD CHOSE you to be that baby's parent and that is a wonderful thing.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them my story and ask them to be a voice for these children who God predestined to be born. I would tell them how thankful I am that someone intervened in my life to help me find my self-worth after living a life of defeat for so long. I would remind them that my 2 babies were not blobs of tissue--they were a child chosen by God to be conceived and I in my selfishness had no right to take their lives.

father of the child

9. How has abortion affected you?

I feel ashamed of the abortion. The only ones that know I had an abortion was the father and my therapist. It was the only time I became pregnant since I had my tubes tied shortly there after since I was not going to have another abortion and the father refused to have a vastectomy. I should never have had the abortion.

10. How has your abortion affected others in your life?

The only person that knows is the father and now he is sorry that he convinced me to have the abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

I would discourage all women contemplating an abortion from having an abortion. Regardless of the circumstances you can never reverse the agony in your heart. Time DOES NOT lesson the pain.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Dear Judges: Had abortion been illegal I would NOT have gotten an abortion. I would not be plagued by guilt, would not cry at every mention of abortion and would not long for a child of my own. I had this done 20+ years ago and the memory is as fresh as it had just happened yesterday. Please do NOT continue with leagalized abortion. There is nothing redeeming in abortion and only heartache for all people, men & women alike.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MI

County of Montcalm

My name is K U I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Mt Clemans MI

01//1985

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

Vaccuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not informed that what was inside of me was a living, breathing, growing baby. I was told about the abortion process but nothing was said about the life that was growing inside.

5. Were you adequately informed of the consequences of abortion?

Yes No

Nothing was ever suggested about guilt or the mental issues that is inevitable. No follow-up appointments that would watch my health were offered. I was never told that the procedure and its effect on my body could have caused me to never have children.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

It wasn't really pressure, but my mother led me.

9. How has abortion affected you?

It has devastated my life! I cried for over twenty years about the decision I made and the loss that has always remained. I have received counseling but I continue still to cry. It has been so destructive on my marriage even though this happened three years before I ever met my husband. It touches my living child's life and distrust in relationships has occurred. Not only did I silently cry through the years about mourning a child I would never hold or comfort, I had to deal in my brokenness of who I've become. Today, I have accepted forgiveness but I have not been able to lose the grip that this ugliness has. I was raised with a diseased idea of who a woman was but now I have to fight for who I want to be. Life is to be enjoyed and how could anyone who takes a life ever overcome taking from another. This is MURDER and I have committed it. I struggle with low self-esteem and worry about what everyone thinks of me. This dirty little secret remains one with nearly everyone I know. How can I ever

comfortably let people know everything about me when I do not want to accept it all myself? I cannot even look for a better job because I do not feel I am worth much to anyone. There needs to be a healing that I cannot seem to accept. And if I do not accept this healing I cannot live the productive life that I, like most everyone else, want. How can anyone who feels so down about themselves be productive enough to contribute to society's health? There is so much more to say.

10. How has your abortion affected others in your life?

My husband is the one person who, and he hasn't said it only in words, has not let me forget the affect of what this has done to him and his thoughts toward me. It has hurt our marriage, fed unresolved disrespect and grew to act as ammunition for further anger. There is lack of openness with my mother, father and brothers. I could never have the level of closeness that I want if I am afraid to talk with them about something that has affected my life so deeply and on so many levels. It even plays part in my living child's relationship with me because now there is something she knows and there are many lies that she has been told. How does she know which ones to believe? With the unspoken words from the individuals who do know I do not have much to say about what they have not said. I can only imagine the questions that must still remain until they speak up and share what has happened to them in regards to what they know about my choice.

11. Based upon your experience, what would you tell a woman considering abortion?

Talk! Talk to someone who lives with the memories of this one choice and the decision made to do this. Talk to someone who has lived the horror over and over for the rest of days lived. Seek out an educated and scientific proof documenting what is going on inside of your body. Listen to what someone says that has experienced this choice that brought an answer to lesson momentary "problems" but has added a lifetime of heartache and regret. The degree of hurt it will cause afterwards is greater than the fix it sustains.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I'd say with all conscious respect towards their authority that they are not performing their responsibility to each individual. They are to protect and inform. My mother could not protect me and so I would have wished that my country had acted responsibly where her lack of knowledge and my maturity failed. I am a proud citizen of the country I live in. I hope to live my life as best as I can and to assist those around me in happiness and secured freedom from the effects of ill education. I live to love my neighbor and I hope for their safety. I would instruct anyone about a painful road they are on, but I could not count on my country that is bigger and more equipped than I to have done the same.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was my right and that it was a health issue.

5. Were you adequately informed of the consequences of abortion?

Yes No

Of course I was not told that I would have such tremendous emotional and psychological pain for years afterward.

family

9. How has abortion affected you?

I still grieve over what might have been if I had not done it. I feel guilty and afraid that I did something that God might not forgive me for.

10. How has your abortion affected others in your life?

I had two abortions and the first father wanted to keep the baby and I am sure he was deeply affected by it. I am not sure about the second father.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to consider other options such as adoption or to keep the baby and plan her life to not be irresponsible with her sexuality.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

To make abortion legal gives people the freedom to act out sexually without any real consequences for their behavior. It is too easy to get pregnant and then decide to have an abortion. Teaching girls, women how to be responsible and use Birth Control or to abstain all together is a better

1. Where and when did your abortion occur?

Detroit MI

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

vaccum at a clinic

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They told me it isn't a child. They told me it would not hurt.

5. Were you adequately informed of the consequences of abortion?

Yes No

They told me I would bleed for a while but that would be it. They did not tell me the pain would last for days, the bleeding would last for days, or that I would become depressed and feel empty.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I became depressed. I felt bad but I was told to get over it by friends and by society. Society was telling me that it is no big deal, that it is the right thing to do and I should not feel bad about it. I started drinking more and adopted an 'I don't care' attitude. I decided I never wanted children.

10. How has your abortion affected others in your life?

I was nasty to people. I had a bad attitude. I was not like that before. I was always positive and encouraging. I acted like nothing mattered. I talked other women into getting abortions.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them not to get one. If they didn't want to care for a child there are plenty of women who can't have children that would love yours. That abortion stills your joy, makes you feel empty, your heart becomes hardened, you become depressed. It isn't worth it!

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I would tell them to look into a/their child's eyes and see if they could tell them that they should die. I would tell them to be thankful their mother didn't abort them. I would tell them that the father also has a right to that child. I would tell them that adoption is less painful. I would tell them and their families to watch an abortion and look at the fetus and then search their soul.

Again the emotional impact was not covered.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father of the baby.

9. How has abortion affected you?

I still cry every time I think about it, even 30 years later.

10. How has your abortion affected others in your life?

I have kept it a secret. I actually had two abortions.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it - there are other options that won't make you feel like you murdered your child for your own convenience.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Maybe they should talk to those of us who were so naive way back when - it was just a blob of tissue - we know better now with ultrasound!

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The Planned Parenthood counselor told me my baby was only the size of the head of a pin. Later research showed that my baby was developed enough to suck its thumb.

5. Were you adequately informed of the consequences of abortion?

Yes No

They did mention a concern for how I would handle the abortion after it was over--not before it or during. I wish now, upon reflection, that I was given scripture or something to educate me more and that what I was condoning was murder.

family on the babys father's side, and mine

9. How has abortion affected you?

My guilt and crying has not ceased. The horror of the reality of it is too much to bare sometimes, but my deep religious convictions help me get through. I know that I still feel shame and guilt and I never forget how old my baby would be today.

10. How has your abortion affected others in your life?

I'm not really sure.

11. Based upon your experience, what would you tell a woman considering abortion?

To please examine the development of the baby within her and that it is a pain she will never get over no matter what the circumstances are of how she got pregnant. It is a quick procedure that can't be undone and her pain and guilt and shame will last forever. Plus she is murdering her child with the help

of the abortionist and it is a child she will never forget.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That human life has a right to live no matter what stage of development. For the most part, I believe that most pregnancies occur from a moment of lust and to allow women to kill their children because of their poor choices is a disgrace. I would urge the court to mandate that a woman who wants to kill her child should be made to give the baby up for adoption--her pain can be the joy of someone else.

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never told of the risks that abortion had. I was never told that I would mourn for a child decades after. I was never told that I would have to learn to forgive myself for murdering my child.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I am ashamed about my decision. I know I lived in the world and wanted to not have a baby screw up what I wanted out of life. Now after having 2 children I have mourned the death at my hands of the child I never got to know. After seeing the wonderful children I have, I am so saddened by what I could have had. I will forever speak out about abortion. We are NEVER told the truth. You never forget you had an abortion and they said it would go away. IT NEVER DID!!!

10. How has your abortion affected others in your life?

My husband, we were together when we made this decision. He does not have all the second guessing I have or the mourning but he has said several times since that he wishes we hadn't done it.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her to give it up and not have the abortion. There are millions of people out there that want babies and that her baby would be a gift to that family. She would NEVER want to mourn for a child she killed. Mourning for a child she gave up for adoption would have been different.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

If abortion is legal than any murder should be legal. Why are we putting mothers who kill their children in jail but we let women murder their unborn children everyday. We charge criminals with an extra count if a woman is killed while pregnant. That criminal is charged twice because there was a baby in there. Then it is not a fetus, it is a baby. The woman going for an abortion should be charged with killing a baby if a criminal who kills a pregnant woman is charged with her death and the death of her unborn child.

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

It was not explained to me until after the abortion was performed that I could get an infection, become ill or that I could have complications having children later.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

For about six months after the abortion, I cried myself to sleep every night. There is not a week that goes by that I do not think of this child and what could have been. I have a deep and lasting regret. It was a very damaging experience in every way possible. The shame is overwhelming and extremely painful.

10. How has your abortion affected others in your life?

Only three people know of my abortion. I have been too ashamed to tell anyone.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT!!!! Abortion is a painful experience, and the emotional and psychological effects are devastating and they are everlasting. The precious life you carry is a miracle. There are people and places that can help you if you want to keep your baby and if you don't, then there are people out there who's hearts are breaking because they want a child so badly but can't have one of their own. Don't have an abortion, you will regret it everyday for the rest of your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Have you ever witnessed an abortion? Maybe you should. Have you ever known a woman who had an abortion? When women say they have not been affected by the abortion they had, then they are deceiving themselves. Abortion should be illegal for many reasons. There is no "safe" abortion, there have been over 40 million deaths from abortion. The trauma a woman experiences is very deeply rooted and she carries it for the rest of her life. Before you make any decisions about the legality of abortion, you need to go deeper than the surface. Abortion is not just about ending an unwanted pregnancy, if that's all it were then there would not be such overwhelming emotions from both sides. It entails much, much more than the ending of one life.

My name is Deanna Wood. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Flint MI

10//1977

2. How many weeks pregnant were you?

1

3. What type of abortion was performed?

I believe they lied to me about being pregnant

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not a Christian and believed when I walked through the doors that I would be treated with truth. I now believe I was lied to. I have watched a video of an abortion, seen girls come out after an abortion being sick, in pain, bleeding and none of that happened to me. I believed I wasn't pregnant since I never tested myself. They told me I was and performed as they called it "a clean out". No pain, no anything. But to this day it haunts me because I am in a state of limbo. However, when I try to talk parents out of doing an abortion I tell them that I walked through this very door 30 years ago. I could have had a child close to 30 but I chose to kill my baby instead. The guilt of knowing you got up on the table but not knowing the truth haunts me everyday.

5. Were you adequately informed of the consequences of abortion?

Yes No

They just said a clean out.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has left me with guilt, haunting thoughts of was I pregnant or not. Why didn't I test myself with a pregnancy test.

10. How has your abortion affected others in your life?

My friends are that I have shared this with are forgiving and understanding. So many of us have been duped. Satan the greatest liar of all but what hurts the most is my mother was told of this by my ex-husband and my mother likes to tell people what a terrible person I was. Needless to say I have no

relationship with her. What she doesn't know is that my ex has forced many women to have abortions. He is very controlling, dominating. If I was pregnant the baby was not his.

11. Based upon your experience, what would you tell a woman considering abortion?

I always try to tell them that this may seem like a quick fix right now but like me you will never forget or get over it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If they would notice that the pro abortion society NEVER ever says baby, human. They just say her body, her choice. I have told mothers who say that to me that yes, it is your choice but it is not your body that is being ripped apart. I would ask the court would they want anesthesia if they were having a limb amputated. If they respond yes, I would then tell them that the unborn baby has all their senses by the time they are aborted. They are given nothing to remove the pain of being torn apart. This is only the mother's choice but watching parents go in for abortions I would have to say 90% of the mothers are being forced by boyfriend, husband or parent.

The State of MI

County of Oakland

My name is Barbara Yagley. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Detroit MI

07/31/1977

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

I don't know - I assume suction & curettage

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The only thing I recall is that the gynecologist advised me to "get rid of this parasite". I don't recall the abortionist saying anything to me, except that he smiled at me and I smiled back.

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't recall much about the events just prior to the abortion. I did know that I was ending the life of my unborn child but I felt it was necessary at the time.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father did not want me to have this child.

9. How has abortion affected you?

I have become very involved in the pro-life movement because I would not wish abortion on anyone and hope my witness against it will convince them to make a better choice for life. Abortion is the worse thing that I have ever done.

10. How has your abortion affected others in your life?

My daughter thinks I'm a psycho. And she used to question whether or not I really loved her. My sons do not speak of their feelings. My husband believes that the pro-life movement is more important to me than him and we are working on keeping our marriage intact. The shame of my abortion put a barrier between my parents and I - I was never able to tell them I had done this. Now that they are deceased, I no longer keep this secret but tell everyone who will listen that Abortion is Regrettable.

11. Based upon your experience, what would you tell a woman considering abortion?

If she will listen, I tell her that Abortion is not the quick fix that it is made out to be; don't make the mistake that I did. Abortion replaces one problem with a host of other ones. We cannot have our children killed without it affecting us in the long run. Abortion is the most unnatural act that a woman can commit. It makes our children into our enemies; for our children, we become a threat. Future children will question whether or not we love them. It destroys relationships between men and women, between parents and children. You will be alone in your grief because no one else will be interested in hearing about it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell that court that they are sadly mistaken. The law should provide the guide for our social relationships and make us a civilized people. Legalized abortion has harmed families and couples. Instead of accepting children unconditionally, many couples and families get into power struggles over whether the child gets to live. I see this going on daily outside of the local abortion center. Not to mention the lack of civility on the part of the passers-by who rage against me for praying there. A law that allows the strong to victimize the weak is bad law.

No medical consequences were explained at all. No Psychological pain either.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

the father

9. How has abortion affected you?

men, drugs, booze, depression..extreme pain and loss, indescribable pain, loss, fear of death...

10. How has your abortion affected others in your life?

cant sustain relationship with men? My parents lost a grandchild, my children a sibling.

11. Based upon your experience, what would you tell a woman considering abortion?

I will help you I will take your baby. You will never be able to hug your baby, have her/him grow up and become your best friend...you will be in pain forever on this earth..

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

How can you approve of killing a baby whom a mother is able to make room for, within herself/her being

who will reside under her heart (literally for several months). Look at the Photos of a murdered baby from abortion and ask yourself would you make that choice or encourage a loved one to make that choice???

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MI

County of Wayne

My name is Laura LeBlanc. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Wichita Falls TX

01//1987

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

I'm not sure of the exact date, weeks pregnant or what type of abortion.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The facts concerning the physical procedure were explained, but the emotional and spiritual aspects were not even mentioned.

5. Were you adequately informed of the consequences of abortion?

Yes No

Abortion was presented as the responsible solution for my irresponsibility of getting pregnant.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My baby's father directly, family indirectly.

9. How has abortion affected you?

Healthy outlook subtly replaced with self-loathing. Pervasive feeling of inferiority. Abortion guilt got heavier, not lighter as I matured and realized what I did and what I lost. I felt fear and anxiety with subsequent pregnancies. I felt tremendous guilt over not protecting my baby. I allowed abuse in my life because I felt I deserved it. I viewed myself as both murderer and victim. I lost my voice to stand up for what's right in life because my heart condemned and accused me over killing my child. Choosing to take my child's life rather than accept the natural consequences was spiritually devastating.

10. How has your abortion affected others in your life?

Feelings of inferiority impacted every life choice, clouded my marriage, affected my living children. I was over-protective of them. Learning about my abortion later in life was painful for my family. Now, as I'm beginning to speak the truth regarding my experience, I hope that lives will be saved, both mother and child.

11. Based upon your experience, what would you tell a woman considering abortion?

The time spent undergoing the actual abortion is short, but the procedure is like introducing a cancer into one's mind and spirit. The human heart reminds, condemns and mourns.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion destroys from the inside out. First, the fetus is killed, from inside the mother's body. Next, the parents lives are reduced because of the complex, internal workings of body, mind and spirit. Third, our society is destroyed because our birth rate is no longer sufficient to sustain our culture. There are better solutions for our society. This should be the message expressed.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MI

County of Grand Traverse

My name is Denise I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Kalamazoo MI

05//1979

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The counselor began our discussion with basic anatomy and physiology. I was a nursing student and understood the procedure very well. I cut her off in the middle of the session and told her I could simply not give birth and had to have an abortion. I refused to listen to any other options.

5. Were you adequately informed of the consequences of abortion?

Yes No

See above. I thought I was so "educated" about it that I didn't need any counseling. I had already made up my mind.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I feel like I have a dirty secret that I can never share with anyone. I understand that because I have repented and my sin is covered by Christ's blood, I am forgiven, but I feel I don't deserve the good marriage and four beautiful children that I have now.

10. How has your abortion affected others in your life?

It was my husband's child that I killed. He knew about it and didn't try to stop me because I insisted it had to be done. I do not blame him- it was my decision. We were both in our first year of college and I could not see beyond the fact that our "plans" would be forever changed by this unplanned pregnancy. However, it is like a wedge between us because we do not view it in the same way and we never discuss it.

11. Based upon your experience, what would you tell a woman considering abortion?

There are compelling reasons for a woman to consider abortion-- such as pregnancy outside of marriage, a bad relationship, or emotional/financial strain. However, God can handle all these "problems" and will be there with her through the entire pregnancy and child-raising; I would urge her to lean on Him! It is never right to "fix" the problem of unplanned/unwanted pregnancy with another sin heaped on top of it. (Recall David and Bathsheba.)

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The bottom line is that Almighty God is the only one with authority to give and take life. Making abortion legal is contrary to the way He wants us to live. If we abandon His principles, our country will be in deep trouble. Also, see #11 above.

The State of MI

County of St. Clair

My name is JudeAnn I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Detroit MI

//1973

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

I don't know, was never told. It was scraped out of me.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was very young, my mother forced me to get an abortion. She was told, I was not.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told nothing.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My mother.

9. How has abortion affected you?

I was devastated and had no help. My mother thought all babies were a burden. We didn't talk about it, she knew what was best for me (and her).

10. How has your abortion affected others in your life?

I don't talk about it. I am married to a wonderful man that I would love to have children with but because of my mother and ex-husband I was coerced into having my tubes tied.

11. Based upon your experience, what would you tell a woman considering abortion?

As I tell my daughters, you are murdering a child and you will think about that child for the rest of your life. I look at children and wonder if my child would be like that one?

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

How can murder be legal? I was too young to say no, but I live every day with the pain of killing my

baby! Now children are able to have abortions without telling their parents?! I ask the Lord everyday to forgive me, and someday I hope to forgive myself. I am 51 years old and still hurt from the experience.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MI

County of Macomb

My name is Shelia Sibilsky. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Ocala or around there FL

//1997

2. How many weeks pregnant were you?

24

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was put in a room with an ultrasound machine. The nurse used it to get a picture on it. Then she said she would be right back. I was left alone for several minutes. Before this I was talked to privately by a woman who looked as though she was in charge. I was taken into her office and she told me how they normally don't do abortions this late in the pregnancy because it is illegal & because I kept calling & asking questions they would do me a favor. I had to never speak of it though. After the ultrasound thing I was taken to a room & laid on a table. I did not look around. I was just going through the motions. I did not see what they were doing, I just looked up & when the procedure started I started to scream. I felt horrible & immediately I felt the ripping & tearing of my child. I wanted to die & even now I can feel the ripping & tearing. They never told me what was going to happen & never explained if they were going to do this or that. It was come in here, talk to me, look at this, sit by yourself & think, Give us the credit card number, lay here & good luck & good bye.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one said a word. I was asked about what I like to do & other small talk but never talk about, Are you sure you know what you are going to do?

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend at the time & his mother

9. How has abortion affected you?

I wanted to die.

10. How has your abortion affected others in your life?

I didn't talk about it to many people. I didn't have any family by me either. They really didn't care I don't think.

11. Based upon your experience, what would you tell a woman considering abortion?

You may be scared of the problems of having a child or even afraid of the pain that you would feel after giving up your baby for adoption but I tell you, You better have MORE fear of what you will feel after the abortion. You will still wonder of what your child would've looked like or what their first word would've been. You'll still think about them & count the birthdays. Abortion does not take it away. You will not only think about those things but as your thinking about them, if you have any conscience the day of your abortion will play over & over in your mind until you'd rather just be a drunken, high, sexed up, workaholic so you are to busy & numb to care.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I implore you the court to reconsider the decision of abortion being legal. I ask that you please listen to the pleading of someone who has felt the sting of this procedure. The judicial system is supposed to be a system that speaks justice. A system that speaks truth. What about those who can not speak? Is there no justice for them? The truth is , these abortions are killing potential human beings. Potential scientists, biologists, Presidents & Teachers, Doctors & many more personalities lie in the genes & DNA that make up the tiny life that lives inside the woman. If a mother kills her 3 month old she is put in jail, How is it any different for those not born yet? There is no denying that the life in the womb of a mother is going to one day be a three month old baby. So, Why is it still legal to kill it? If you are making a decision on abortion then I ask you to consider witnessing one first. Maybe you need to see what the procedure actually pulls out of the womb & then decide if that life in the mothers womb has a right to live. Observe some of the things that the doctors do to kill the so called "fetus" then make a decision.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MI

County of Macomb

My name is Patricia I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Detroit MI

02/19/1980

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told that my baby was just a bunch of "cells" - no one told me that he/she had a beating heart.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was rushed through like a factory - so many of us young girls sitting in the waiting room...so very sad, scared and confused.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

After my abortion, I punished myself by getting into drugs, more promiscuous sex and I finally ended up in a 6-year battle to get out of an abusive relationship. I was called names, thrown chairs at me, beaten, screamed at...and felt I deserved it all. I was very depressed and alone. I didn't know what was wrong with me - or when I went off the deep end. In the end, I found God..His forgiveness and His mercy. He forgave me, but I will never forgive myself. I have two beautiful daughters...by the grace of God, I didn't contract any sexually transmitted disease, although, I think that I did because I had a blocked tube from an infection. Had I not had an abortion - or better yet - an unplanned pregnancy (meaning not been sexually active, not practicing safe sex) - my life would have been so much better and I'm sure that I would have made so many better choices afterwards. Whoever says that abortion doesn't hurt women and is helping women is a complete idiot and a mindless fool. I have been damaged for life. I am now pro-life but feel like a hypocrite when praying at abortion clinics. I cry every time I see a woman going into one - not only because I know that she will eventually realize that she killed her baby - and because I know first hand that what she thought was a solution isn't and that

when she figures that out - she will never be able to bring the life that she took back. I killed my BABY...not a blob of cells.

10. How has your abortion affected others in your life?

I don't know how I could ever tell that to my daughters...so I'm dishonest when I try to teach my daughters to be honest. I just can't bear to tell them how horrible their mom really was/is for killing her baby.

11. Based upon your experience, what would you tell a woman considering abortion?

Never, under any circumstance - or for any reason have one. It will be a decision that will affect you for your entire life, one you will never stop regretting, one you can never take back, one you can never change. It is your baby...not a choice. Love that child enough to give him/her his/her own life. They didn't do anything to come into being - you made that choice when you had sex. It isn't their fault that you weren't prepared to be a mom. They weren't asked to be a baby - but he/she is yours. If you can't take care of him/her yourself...love them enough to give them to a family that will be able to. Never abort your baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That you are sitting in your chairs, passing laws that you think are "helping society". How can helping your citizens live without consequences every be good for society? You give women and men the "green light" to take their bodies and the lives of "unborn children" callously. You pass laws that do not protect the most innocent and vulnerable of our society. How does anyone justify killing a baby that even looks like a baby? I was told my pregnancy wasn't that far along. If I was this messed up only two months pregnant - how about the woman who actually aborts a full-term or near term baby? How can any doctor suck the brains out of a baby who is full-term, or any president/judge say that is okay? When did we become so demented in our own logic and have no regard for how our personal decision affects the life of someone who has no choice? You give us the permission to kill our babies and the judges of this country are leading us to destruction and we have an immoral and evil president who can't wait to put every perversion and evil into place. God help us. If you want to do something right...make abortion illegal. Women have the right to choose..what they want for dinner,etc. But no one, especially a mother - should ever have the right to kill her own flesh and blood. It seems like the solution at the time...but it never is. And it will negatively affect her for the rest of her life. 1500 words is never enough to say all that needs to be said.

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

D&C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

NO, I had just turned 19 yrs old. I was told by Planned Parenthood that I would ruin my life. It was just a blob, not a baby and no one would ever find out. It was a secret I could keep quiet about. I could go to college.

5. Were you adequately informed of the consequences of abortion?

Yes No

The word was NEVER mentioned. It was as if I was having an enema.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Planned parenthood and boyfriend

9. How has abortion affected you?

Every day of my entire life has been affected. I killed my first child. I should be in prison for life for 1st degree murder.

10. How has your abortion affected others in your life?

No words to describe the pain and suffering of my parents, siblings, and children. My ex-husband told my parents I aborted their first grandchild. They were devastated being belief.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. Don't even let the word enter your vocabulary. It deprives you of the best life has to offer.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Murder is illegal. There is no difference between that and abortion, a life is "killed" not just ended or terminated. Man is NOT the giver of life and he certainly should not be the taker of life either.

My name is M C I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Lathrup Village MI

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

vacuum was used

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told there would be minor cramping, it would be very fast, there would minor pain, the fetus would not feel anything, it was not developed enough to feel pain yet. I can say that was the worst pain I have ever felt in my life, I asked them to stop almost as soon as it started and I was told they couldn't stop it was dangerous and I needed to be quiet I was scaring the other patients with my yelling and crying. Two other staff members can in to hold me still and quiet me.

5. Were you adequately informed of the consequences of abortion?

Yes No

It was the worst experience ever and I have been through four surgeries, two major. I felt horrible, I cried for a long time. I still occasionally get emotional just driving down the road and start to cry. The emotional pain was just as bad and the physical pain. I had no idea it would effect me that way. I felt lost for a year and a half, until I met other post-abortion woman who offered resources and healing.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The abortion clinic

9. How has abortion affected you?

I have been angry with myself, I had a tubal ligation because I thought I didn't deserve anymore children for what I did. I felt completely alone. I felt like I couldn't talk to anyone without being judged. Everyday I wonder what my unborn baby felt as she/he was ripped/torn out of me. I wonder how much pain I put her/him through. I called her Carly and I wonder every day where she is now? Is she safe, does she forgive me, does she know how sorry I am, that I do love her. I regret my choices every single day. After the procedure almost every single night I woke up crying after dreaming of her. I still dream

about her and cry, not as much as I did, but it still happens.

10. How has your abortion affected others in your life?

I chose to have an abortion because I was a full-time nursing student, in the middle of a divorce and I also had a boyfriend at the time. I was scared that the pregnancy could get my children taken from me or something to that extent. I was afraid and didn't know what to do. I didn't think that I could handle another child. I also was raised without my biological mother and I could not see myself giving a baby up for adoption, I didn't want a baby to feel the way I did for so many years with so many unanswered questions in life. I felt at that time abortion was the only option. My boyfriend at the time did not believe in abortion, I left him and went back to my husband who paid for my abortion, I got the abortion and my "ex-boyfriend was crushed crying and telling the unborn baby sorry", my husband didn't want to talk about the abortion when I needed to talk because it brought back memories of me gone with someone else. It hurt everyone, when I was struggling with what I had done I felt like I couldn't even express my feelings with anyone cause I was so ashamed. I was an angry person for a while.

11. Based upon your experience, what would you tell a woman considering abortion?

Abortion is not the answer, it takes more from you than you could ever imagine. There is help out there and you can make it through. I know sometimes adoption feels like it would hurt, let me tell you abortion hurts worse, and if you decided to keep the baby when time came you could. ABORTION KILLS THE BABY, THE FAMILY AND YOURSELF. I could never describe the mental and physical pain abortions cause, the only thing I can say is please learn from my mistakes, not your own. YOU DON'T HAVE TO HURT, YOU DON'T HAVE TO CRY EVERY NIGHT, YOU DON'T HAVE TO FEEL GUILT.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

ABORTION KILLS MORE THAN AN UNBORN CHILD/EMBRYO/FETUS IT DESTROYS THE LIFE OF EVERYONE INVOLVED. IT CAUSES ETERNAL HURT AND PAIN. ABORTION IS NOT JUST A PROCEDURE THAT TAKES A MINUTE, ITS NOT JUST A QUICK FIX AND YOU GET ON WITH YOUR LIFE. IT IS A DECISION THAT HURTS AND DESTROYS EVERYTHING. I LIVE WITH IT EVERYDAY AND IT EATS AT ME EVERYDAY.

The State of MI

County of Oakland

My name is Jenny I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Detroit MI

01/31/1973

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

D & C suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Had no idea - I was 18 and abortion had just been legalized. I flew from Detroit to New York by myself.

5. Were you adequately informed of the consequences of abortion?

Yes No

Not at all. Had no idea how it would affect me. Didn't even think about it.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I became very promiscuous, and did drugs and alcohol, and devalued myself. I had flashbacks, regret, sadness, depression. It was a turning point in my life. It is the defining mark. Like the end of the old life, and the start of the new life with all of the above symptoms.

10. How has your abortion affected others in your life?

All the things that affected me, have still been with me. The results of treating myself so badly have left me with many scars, physical and mental. I went on to marry years later and have two children, but I think I am not the person I would have been. I still struggle with depression.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not do it! There are thousands of people waiting to adopt a newborn baby. Your child will have a good life and you can always know your child or know about them, if you want, because adoptions have become open. If you choose to keep your child, you will cherish that child all the more when you realize that you would have missed on a life that was precious to you.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Killing an unborn child is murder. Just because the child can't defend itself or talk for itself, does not give you the right to say it should be allowed to be killed. At what point weren't you, you. Just as a little child is not the person he will be when he grows up, a little unborn child is just a smaller version of the he that he will be. It does not take a rocket scientist to know this. Margaret Sanger who started Planned Parenthood had a plan to kill off the black race. Abortion rights are promoted by progressives who want to limit the population. We can't let them keep lying to the masses. Let the women be heard. Abortion killed our children, and we miss them every day of our lives. It is wrong!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MI

County of USA

My name is Nancy Zook. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Mt. Clemens MI

//1975

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

I had 2 D and C type and 1 trimester

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was just scared, more of my parents than anything else, so my friend found a place and I went. They told me what I would feel and it would be over. They gave me a prescription and that was it. The second one was the same place and the last was in a hospital in Detroit.

5. Were you adequately informed of the consequences of abortion?

Yes No

For me, as I explained above, I was more afraid of what my parents would think and I was initially relieved that it was over and I must not have thought I was doing anything really wrong. I now wish I would have told them. Unfortunately I had 2 more abortions and 1 live birth who was adopted. I regret all of them.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I did not realize how selfish I was. I can't believe I could do such a thing. Everything has been affected. If only I would have had that first child.... I killed people. War veterans, police officers, anyone that knows they have taken a life, ,justified or not, knows they have done something irrevocable.

10. How has your abortion affected others in your life?

No one really talks to me about it and I never told the first guy I was having one. The other two paid for the procedures.

11. Based upon your experience, what would you tell a woman considering abortion?

If I know I say whatever I can to prevent it. I tell them how terribly sad you will be later on. Because I

know how it feels when you realize you have killed a person, and in my case 3 people.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

There is no difference between killing life in the womb than shooting my neighbor. Murder is murder.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MI

County of Oakland

My name is Rochelle Beckemeyer. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Pontiac MI

12/05/1988

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was informed of possible complications, including post abortion stress, but I was not informed of a link between abortion and breast cancer.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

The abortion deepened my conviction of the meaninglessness of life and (wrongly) elevated my sense of empowerment. Along with drug-use and high school stress, the abortion very likely contributed to the bi-polar episode I experienced several months later.

10. How has your abortion affected others in your life?

It ended the life of my first child. The relationship with the father was already over by the time of the abortion, but I believe it has had a lasting impact of regret. It provided a poor example for others.

11. Based upon your experience, what would you tell a woman considering abortion?

There are other options that involve everyone "winning" including especially the innocent child. If speaking with a young woman, I would also point out that it is not evidence of maturity to get pregnant and to make decisions like this; the grown-up thing is to admit any error and to do your best to make amends WITHOUT causing further harm.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Abortion--the murder of a child--is an act for which there is NO justification.

My name is sandy I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

2. How many weeks pregnant were you?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have been sad and guilty for not having the courage to trust that the Lord knew what was going to happen. I was so selfish I only was thinking of how the baby was going to affect my life.

10. How has your abortion affected others in your life?

It has left my daughter being without anyone to grow up with to have a sibling to share the joys of life with.

11. Based upon your experience, what would you tell a woman considering abortion?

That things are scary right now, but look at the big picture don't get caught in tunnel vision. I know that that there will be days you are so full of regret. Ending this life will have so many different effects on you. Even if you have the baby you have the ability to give the baby up for adoption, trust that God knows what he is doing by giving you this pregnancy.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I know that as women we should have the right to do what we want with our bodies, and I agree with that. But, God gives us children not for us but for Him, and every baby should have the right to be born.

If the mother cannot or does not want to keep and raise the child than she can use the adoption process. We do not have the right I did not have the right to be selfish and self centered, I feel as though I murdered my child, We never know how an action like ending a life will affect us and others in our lives until years later. I believe with all my heart that all women have made this decision on emotion and selfishness.

The State of MI

County of Wayne

My name is Eileen Craig. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Detroit MI

10/09/1975

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told my baby was a clump of cells, and I was sexually assaulted by the abortion doctor, who laughed out loud and said "that's the way I like to get them"

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never told of the pain and shame and denial I was going to experience.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend

9. How has abortion affected you?

It was the beginning of a downward spiral in my life. I began to use drugs and drink to numb the pain. I pretended everything was okay on the outside, but I was in so much pain that I kept my self numb and went on to have two more abortions. I decided I was a piece of Sh-t and that my life didn't matter, therefore neither did the lives of my subsequent children. I was pressured with the guise of you have to finish school etc, I never finished college and am just now able to finish after age 50 because I have received healing.

10. How has your abortion affected others in your life?

The children I gave birth to have had to deal with my depression. They are currently attending retreats that have helped them deal with the loss of their siblings.

11. Based upon your experience, what would you tell a woman considering abortion?

To give her child up for adoption and to stop having sex if she is not ready to give birth to a child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That the children in the womb have rights too. They are not clumps of cells, they are real people that need to be protected under the law. Abortion was a horrible choice for me. I would tell the courts that they need to pass laws that would make our society a place where a woman should not have to become an oppressor to get out of oppression.

HOW MY ABORTION AFFECTED ME

The State of MN

County of Sherburne

My name is Becky Boyer. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

St Louis Park MN

03/01/1985

2. How many weeks pregnant were you?

16

3. What type of abortion was performed?

D & C

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not told about the trauma to my reproductive system that would not be discovered until years later. I had an ectopic pregnancy years later and found out I had massive scarring over my fallopian tubes.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had not idea the emotional and spiritual trauma it would cause. I became alcoholic, emotionally unstable, and lived in constant grief for years. I had many failed marriages after and exhibited symptoms of post traumatic stress disorder.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend

9. How has abortion affected you?

I now know I am forgiven and can go on with my life, but abortion brought me to the brink of depression and almost suicide. I will always miss my baby and never forget what I allowed to happen to my body and my baby.

10. How has your abortion affected others in your life?

I had a series of failed relationships after the abortion. I ironically lost the man who pressured me into the abortion. I parent differently with the one child I do have. I am very protective of her and tend to spoil her like she is my atonement child.

11. Based upon your experience, what would you tell a woman considering abortion?

I would greatly urge and plead with her to continue the pregnancy with lots of support and consider adoption or keeping the baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

There is truth in disclosure for most medical procedures, but in abortion, they don't tell you the trauma it will cause. It should NOT be legal because it destroys two lives: the innocent baby, and the life of the mother.

No Answer

9. How has abortion affected you?

After my abortion, I plunged heavily into drinking, that was the short term reaction. I also internalized a lot of anger that came out in sarcasm to others. The long-term reaction was that when I had my next child, 4 years later, I was unable to bond with him because of the guilt and shame I carried from killing my own child. My husband was a better mother to my son, than I was able to be for the first 10 years of his life. It also took me 14 years, after my abortion to realize that I needed to get help in grieving the loss of my child.

10. How has your abortion affected others in your life?

Both of my living children, have had the loss of not bonding with their mother, early in life. After my abortion, I helped 2 others get them. The child I aborted, died, not fulfilling it's God-given destiny.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that, I thought abortion was the easy way out of a hard situation, but I was wrong. It's the hardest way out. Killing your child is never the answer to a pregnancy. You have to live with that

decision for the rest of your life and it affects you, even if you don't know it. Pregnancy is not a disease to be cured or a problem to be gotten rid of. It's bringing a new life into the world. That child has a purpose. He or she could be the next person to develop a cure for cancer or AIDS. Don't destroy the gift, that God has given you, because you want to live your life, the way you wish, or you want to hide your sin, as I did. (My child was conceived on a one night stand, while I was married to another man.) If she didn't want to parent the child, I would encourage her to let other's parent, through her adopting her child out. There are countless people waiting for children to adopt! That choice brings life, not death, to both the mother and the baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe the court to be wrong, from personal experience. You have seen the bumper sticker; Abortion, 1 dead, 1 wounded. That is the truth!! 50,000,000 babies dead to abortion. 50,000,000 would be Moms, running around in today's society, trying to numb their pain from it with prescription drugs, illegal drugs, alcohol, sexual or lots of other varieties of addictions. Ask them if they have had an abortion. Most of the time, they have. The pain from abortion stays with you, until you face it. Having an abortion, doesn't just make you un-pregnant, it makes you the mother of a dead child. At some point in your life, you have to go through the steps of grieving that loss. Medication alone, in the form of anti-depressants, isn't enough. Post-Traumatic Stress Disorder is the diagnosis. That's what abortion does to women. It's not a choice, it's a curse.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MN

County of Pennington

My name is Shelly Stone. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Minneapolis MN

06/22/1976

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

2 day procedure, laminaria with suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had no idea of the pain, they had me stay in a hotel by myself the night that they put the laminaria in. I still feel that I could have died alone in that hotel room. I had a second abortion while in the Army at the military Hospital at Ft. Gordon Georgia. I would like to report about this also.

5. Were you adequately informed of the consequences of abortion?

Yes No

there was no explanation of either physical or emotional side effects. A social worker came to my room after my second abortion in the hospital. I felt that this was a little too late to ask how I felt.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

I would of had to leave the military otherwise

9. How has abortion affected you?

Physically, I was finally able to get pregnant after years of trying. I believe that the abortion was the cause of this. Emotionally, it was devastating. It has taken me many years to even say the word abortion. I have found healing by talking about my experiences

10. How has your abortion affected others in your life?

I do not believe that I bonded well with my first child. Our relationship is good now but after many years of healing.

11. Based upon your experience, what would you tell a woman considering abortion?

To go to a crisis pregnancy center. They will help you make positive choices such as adoption or parenting. They will help you through the pregnancy and after. I would tell her that it (the abortion) will

stay with her forever.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Had abortion been illegal in 1976, I would not have had an abortion, I am a law abiding citizen and I would not risk my health or breaking the law. My children would be living today and would be contributing members of our society. Millions of children who are missing could be the ones who cured cancer, who could fill the jobs in our country, contribute to social security, and fill the lives and families of our country with hope and joy. Instead, they are all gone. Abortion is not a matter of privacy, but a matter of life. I would ask them to look at the video by National Geographic showing the 3 and 4D images of life in the womb.

boyfriend

9. How has abortion affected you?

I spend 13 yrs hiding it while trying to go on with life. I felt extreme guilt and shame. I felt worried about bonding with my children after marriage. I had terrible nightmares and day terrors. I felt small, inadequate, and very guilty for doing this to my first child.

10. How has your abortion affected others in your life?

My husband suffered greatly because of my choices the first 10 years of our marriage. I treated him terribly because of how I felt about myself. I know my healing helped save our marriage.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that the ramifications of living with that choice for the rest of her life are far worse than any thing she might experience bringing the child into the world. Living with yourself is very difficult, no matter what your belief system. If you believe it is okay, I really think women who have had abortions must have a hard heart emotionally to live with themselves. It is something they will regret the rest of their lives.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that our founding fathers believed that human life should be preserved. It isn't right that someone should be charged with murder two times when murdering a pregnant woman, but a woman can legally take the life of her own child, and be okay. Actually she isn't okay, for the rest of her life she must live with this and unless she is healed, goes through a healing process, it will torment her and affect her life forever. For the good of our society, we should not 'help' women by allowing it. Women do not need that kind of help. Help them by letting the baby live by supporting her and loving her through it.

County of Yellow Medicine

My name is Joyce Olson-Baer. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Seattle WA

//1974

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

vaginal...not sure what to call it...

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I say no because I'm not sure I fully understood. I wasn't suppose to have my proceedure done the day I did...my girlfriend was, but they found that she was to far along so they took me instead and I had not be prepped properly. Before the abortion one was suppose to be NPO,,,I had just finished eating a big lunch not even a full hour previsouly.

5. Were you adequately informed of the consequences of abortion?

Yes No

Again, no, because I never dreamt I'd become as ill as I did. It was worst than the flu...Not positive how many days we stayed in Washington before we flew back to Montana, but when we got on the plane I prayed for it to crash so I could die...I ended up in the hospital at home (Wolf Point, MT) shortly after getting home. I couldn't get pregnant for many years after that experience.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

For several months following the abortion I was physically ill. The mental pain and misery will never totally go away. With the help of Jesus I have been forgiven, but I have not forgotten. I killed my child and I will have to live with that torment forever.

10. How has your abortion affected others in your life?

The people who knew about my abortion always treated me differently afterwards. My boyfriend left me, and several of my best friends turned away from me and still today won't have anything to do with me.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to have one! To have the baby and give it up for adoption instead. Everyone has a right to be born and we are created for a purpose.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

ABSOLUTELY NOT!!!! It is MURDER....

3. What type of abortion was performed?

I don't know. I think they just vacuumed my baby out.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was just a little clump of cells, very very small and they would basically just remove it.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one ever discussed emotional consequences of abortion. No one asked much of anything.

society

9. How has abortion affected you?

I was raised Catholic so I knew it was wrong. I bought the lies that it was just tissue, not a baby. I never had children. I had a subsequent abortion because I was terrified due to all the drugs I was doing. I did not feel worthy to have a child. I left the church, religion and God. I smoked pot every day of my life until I was 51 years old. I gained and lost tons of weight. I was so afraid of being sexually attractive, even to my husband. I became aggressive, angry, anxious and started having anxiety attacks. I repressed all that I could and became very vocally pro-choice. It was the only way I could live with myself.

10. How has your abortion affected others in your life?

My parents do not know that I had two abortions. They missed out on grandchildren as did my spouses parents. My marriage ended in divorce after 28 years, the father of both of the children was my husband. He had no belief in God and never wanted to discuss the abortions. I am sure he has repressed it all himself. I have kept a distance from many in my family because this is always in the

back of my mind. I have stayed away from people with children because I could not deal with having thoughts of my abortions come back to me. Luckily, the Lord brought me back to the church. I was able to open that door and try to start dealing with the abortions. I never got to grieve! I never got to name my children or even talk about them. The emotional pain is so great all these years later.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not do this. Do not kill your child. Life will not end because you have a child. Give the child up for adoption or find an agency to help you support yourself and the child. Do not do this. You will wake up some day and your soul will be screaming because you will realize that you were lied to. A fetus has a heartbeat at 18 days. It is a living gift from God regardless of how it came to be. Do not kill your baby. Do not become a murderer. You will have to live with that. Please, do not do that.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You have taken it upon yourself to play God. You have taken it upon yourself to allow the genocide of those who cannot speak for themselves. You have no clue how much damage is done to the woman, the man, anyone who is a part of her life from that moment forward. Legalizing the murder of the unborn has desensitized all of us to all human rights. When someone wants a child and they miscarry after two months, she and all those she know, mourns the loss of her baby. When you purposely kill a two month old, it somehow just turns into a fetus with no rights. If a fetus has a heart beat at 18 days, it is a human being. When a persons selfish motives is all it takes to end a life, we have reached a point of total loss of our humanity and reason. I was 18 years old when I had my abortion. If it had not been legal. I would have two grown children. My life would have been different and I believe so much better. I have to live with that. Thank the Lord there are people out there in my community and my church who are helping me do that. Here, after 34 years, I have finally been able to grieve, acknowledge and name my children. Now I can pray for James Michael and Jon Paul. How can we even say we are one nation under God when we have so effectively removed him from even the act of creation? God have mercy on us.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MN

County of Wright

My name is Stephanie I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

St Louis Park MN

07//1994

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It happened so long ago, I have blocked most of the details from memory.

5. Were you adequately informed of the consequences of abortion?

Yes No

I could never have predicted the extreme emotional pain and regret that would continue for so many years.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Severe regret and shame, emotional scarring and continued emotional pain.

10. How has your abortion affected others in your life?

I now have a husband and two children who will never know their lost brother or sister.

11. Based upon your experience, what would you tell a woman considering abortion?

It seems like an easy out but the effects are life-long. Life is a gift and should not be a "choice".

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We should not be given the power of choosing life or death. By denying a child life, we are herein declaring human judgement greater than divine judgement and that is a dangerous egotistical error. Abortion is murder.

QUESTIONS

1. Where and when did your abortion occur?

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Well I didn't realize that the "scraping" and vacuum actually break the being up into pieces before it is sucked out. It's just extremely mutilating, and is not morally correct (I was aware of how part of the procedure was is done, but not to the extent of what truly happens).

5. Were you adequately informed of the consequences of abortion?

Yes No

The pamphlet basically states that most women feel a feeling of relief post-procedure, and that the post abortion syndrome is a hoax and that it is all based upon previous mental issues if you do feel depressed, sad, feelings of loss, etc.

6. Were you informed of any link between abortion and breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

the father

9. How has abortion affected you?

extreme sadness, huge sense of loss, now have a fear of being unable to bear children in the future, inability to forgive myself and has caused me to regret other things that I've done in the past which led up to the abortion. Makes me jealous of other new or pregnant mothers, and have the tendencies to avoid situations where pregnancy is discussed.

10. How has your abortion affected others in your life?

Has made my parents very sad - causing them to grieve as they are very strong pro-life believers. My parents have created a memorial - who knew it would be like this?

11. Based upon your experience, what would you tell a woman considering abortion?

That killing your own child by letting someone else shove a couple of instruments up you to mutilate your baby and then suck it out with a vacuum is not a way to rid yourself of a being that you wished had never arrived in your womb. If you are not willing to give up for adoption (if either abortion vs. keeping the baby - like my situational thoughts), there are so many resources out there through pro-life organizations, churches, etc. Abortion seems to be promoted and appears to be the easy way out, however, the long-term effects are hazardous. I've now seen at least a dozen of women who SEEMED to deal with it ok afterwards, until it ate & ate away at them until finally they realized that they needed to heal from the internal torment, sadness, anger, regret & guilt. The opportunity to have a little child look at you and tell you they love you by far outweighs the long-term psychological effects that could well affect you should you go through with the abortion. All you have to do is ask for help. It will be tough, no doubt about it, especially if you're a single mother, but you will have gained a miracle and left behind undeserved & unwanted feelings of PAIN.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them how it has mentally affected me, how different my life has been post-abortion. Life should remain sanctified because from conception the "cells" are ALIVE. Eyes begin to form at 20 days. Many women don't even know they're pregnant until this time & surgical abortions typically aren't even performed until at least week 6 - that's 42 days - brain waves can be recorded at this point. There is a holocaust going on right before our eyes, what has our society come to? We just take the easy way out now? The media portrays sex like it's not a big deal, Planned Parenthood is prepared to hand out birth control methods left and right, but honestly...where do you think this is all stemming from? I would probably say the "free to do what feels right" era, as I'm sure you're very well aware. Why is it that sexual abstinence is rarely even taught anymore? Our societal views have changed dramatically and it's spun out of control. If people realized that sex should be appreciated, valued & kept for marriage, we wouldn't even have half the problems that we do now. Abortion is not morally correct and is becoming a killing ground. Our country needs to look at the root of this problem and begin fixing there. These children do not deserve to die - abortion doesn't only hurt the child, it hurts the mother, the father, the grandparents, aunts & uncles. It's very unfortunate and something needs to be done. I am more than willing to do my part.

HOW MY ABORTION AFFECTED ME

The State of MN

County of Anoka

My name is Joy I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Duluth MN

05/13/1995

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

Suction aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I received "counseling" but was never told the other side of the story, only basically that abortion was the only choice that would make my life better.

5. Were you adequately informed of the consequences of abortion?

Yes No

There was no talk of a risk of not being able to conceive again, and no one mentioned that I would have mental issues after the abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The counselor at the clinic.

9. How has abortion affected you?

For many years, I suffered deep mental anguish over the loss of my baby. I relived the abortion procedure over and over and was traumatized by it. I hated myself for killing my baby and worried constantly that I would never be able to have another child. I had flashbacks to the procedure for years afterward. I also suffered much anxiety during my recent pregnancy with my daughter, worrying about losing her because of effects of the abortion. I had a hard pregnancy and was constantly equating it with the procedure I had over 10 years ago, hence causing me more mental anguish.

10. How has your abortion affected others in your life?

The father of my unborn baby suffered mentally over the death of the baby for years after the procedure. My current partner, my husband, also felt much anxiety during my last pregnancy which resulted in the birth of our daughter, due to worry about the effects that the abortion could possibly have on her in the womb.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell, and have told women considering abortion that it definitely is a bad choice, and that I regret my decision to abort my baby every day of my life. I could not emphasize to women enough that it is not just a simple procedure with no consequences, but that it has the potential to ruin their lives.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder. After my second pregnancy which resulted in the birth of my beautiful daughter, and felt her life within me, I can definitely say that she was a person from the time she was conceived. What I saw on those ultrasounds was a person, not tissue with no rights. Pregnant women do not have the right to kill another person, whether that person is living outside of their womb or within it. During my abortion I physically felt the life of my baby being literally sucked out of me, and if I could have stopped it right then I would have, but I knew it was too late for her. Please don't make it too late for these other beautiful babies.

QUESTIONS

1. Where and when did your abortion occur?

Minneapolis MN

04//1977

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

I don't know. It was at a clinic and they used some kind of vacuum.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I knew the life growing in me would end, but I did not know the long-term consequences such as depression, dwelling on guilt, etc.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I spent over 10 years of my life on depression medication. The guilt I felt was unbearable and I often cried. I beat myself up for what I had done. I murdered my child. I have been married now for 27 years and have 2 daughters. I just told my grown daughters about this a few weeks ago. I have been ashamed, embarrassed, and devastated by what I have done. After about 10 years of living in extreme self-hatred over this, I found forgiveness in Christ Jesus. Until that time, I seriously considered suicide every day and only kept myself from it by thinking of what it would do to my family. I was no good to anyone until that time. I don't know how anyone stood being around me. Even after I felt forgiven, it was a long process before I healed.

10. How has your abortion affected others in your life?

The only people who know about the still are my husband, my daughters, and a few close friends. I have never told my parents, brother, or sister. I hope telling my daughters the pain this has caused me will keep them from making the same error. When I told my husband, we had been dating a couple years. He almost left me because of it.

11. Based upon your experience, what would you tell a woman considering abortion?

You just can't know what this will do to your self-image and the pain it will cause you and may cause others. I have thought so many times about what my child would have been like and what the world is missing because I took that child out of it before it had a chance to be. Don't murder your child. You will be sorry.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Don't condone murder. It's just so wrong to kill your child no matter what age it is. The child begins on the day of conception and it cannot be said that it is not alive until it is out in the world. Don't deceive yourself. If you keep abortion legal, you will be adding ruin to so many lives. I know I would not have had an abortion if it were not legal.

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I only remember being told my child was just a piece of tissue.

5. Were you adequately informed of the consequences of abortion?

Yes No

More than 20 years later, still suffering from the thought that I had taken my own child's life, I entered "Conquerors" a group for post-abortive women. No one ever told me I would carry the guilt for what I had done throughout my life. I was not told that I was have to wait on the abortion table while the doctor made sure that all of the baby's parts had been removed. Now, it was no longer just "tissue" as they had said, the baby had a body.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Only by the grace of Jesus Christ, have I been able to begin to forgive myself. I still wonder what my child would have become and the joy I missed by not raising this child.

10. How has your abortion affected others in your life?

I haven't been able to tell anyone, still carrying some shame. My husband of 5 years knows - he just loves me.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to do it! There are other options. I wish someone would have stood by me and offered help.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

An unborn child is just that - a child. It should not a 'woman's (or anyone else's) choice' to take that life. A life in the womb has the same value as one out of the womb.

the father of the baby

9. How has abortion affected you?

I was terribly depressed after my abortion. I hated myself for doing what I had done. I started having pain all over my body and was diagnosed with fibromyalgia. I thought I deserved to suffer because my baby suffered. I was in a bad relationship, my boyfriend was constantly cheating on me. I didn't leave him for almost four years because I thought I couldn't find anyone better. No decent man would want a woman like me who had her own child killed. I finally realized my repentance was worth something, and I left my boyfriend.

10. How has your abortion affected others in your life?

I don't share it with others. I did share it with my husband after we were married and started talking about having children. He accepted that I was sorry for doing it and would never want to do it again. Some day I will have to tell my children that I had an abortion, and I hope they will be understanding. I

dread that day, though. It will be tough and painful for them and for me.

11. Based upon your experience, what would you tell a woman considering abortion?

DO NOT DO IT!!! You will regret it. You need to know the facts. What is in your body is not a blob of tissue. It is a separate human being with its own unique DNA to prove it. This baby is a gift, whether it was meant for you or for another couple who desparately wants to adopt it. If you go through with the abortion, there are consequences, both physically and mentally. The abortion clinics are businesses, they are not there to help you find the best solution to help you. They exist soley for their own benefit and will not tell you the truth, nor are they required in most states to tell you the truth. Research all your options. So many who are willing to help you, you need to take advantage of their assistance. God loves you and your baby, too.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

In the preamble to the Constitution of the United States, our forefathers declare that one purpose of our country was to "secure the Blessings of Liberty to ourselves and our Posterity." The posterity of our nation are those who have not yet been born. Being ripped apart in your mother's womb is not a blessing of liberty, but a denial of the liberty of life. An child in a mother's womb is a separate human with the DNA to prove it. No one has the right to shed that baby's innocent blood. No one! It is time to undo the injustice and return to our fore fathers intention of securing the blessings of liberty to our posterity.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

It took many years to forgive myself. I also had a mis-carriage

10. How has your abortion affected others in your life?

It was very difficult to tell my husband before we got married that I had had an abortion. I was ashamed, and disgusted with myself.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not do this under ANY circumstances. Even if you have been raped, getting an abortion will make matters worse. You will then have 2 trauma's to deal with.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Listen to the people who have had abortions. 90% plus will tell you they have had problems with depression, alcohol, drugs, suicide, or physical problems. It's just plain ignorant in this age of medical knowledge to think or say that abortion is not only deadly for the child, but also the mother and father.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not informed about how guilty and depressed and deeply grieved I feel for years and years.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have been very negatively affected emotionally, and physically.

10. How has your abortion affected others in your life?

My husband held it against me and our relationship never recovered from it.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. No matter what the new age philosophy says, or the government life starts at conception, and we will be held morally accountable.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We don't have the right to take the life of the unborn child.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MN

County of Pine

My name is Patricia Moncrief. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Rural-RR town WV

08//1954

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

????

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was 19, my boyfriend did the arrangements and I blindly followed. It was a small town in W.Va and the prostitution outfit there had a doctor on duty for abortions. I laid on a table and 10 min. later I was out.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was in a hotel shortly after and I aborted the baby in the bathroom. The next day I was in Virginia and started becoming very sick and running a fever, my co-worker call and ambulance and I was rushed to a hospital with a life-threatening infection and spent 10 days there, recuperating and since the abortion wasn't preformed in VA they did not call in the police but treated me very badly because of what I did and was told that I should die instead of the innocent patients who were close to death.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My boyfriend

9. How has abortion affected you?

I was not able to have children as my uterus was badly damaged, and I ended up having cancer at age 33 and had to have a hysterectomy. We did adopt three beautiful children and I have finally forgiven myself and the man who insisted I get rid of my pregnancy.

10. How has your abortion affected others in your life?

Of course, my husband (of 53 years) was badly disappointed by my inability to conceive, but was very understanding.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't, it will haunt you the rest of your life, I know it will be hard if you decide to give your child up for adoption, but it will certainly relieve your guilt, and maybe you will decide to keep your baby, who knows.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

It is very hard for me to do so, as my abortion was done many years before Roe vs. Wade, yet I was condemned then and I do not want to see the criminal doctors become active again, yet I believe abortion is a sin and all babies have a right not to be murdered.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MN

County of Washington

My name is L W I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Minneapolis MN

05/18/1990

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I did not understand the emotional consequences to my choice. I did not understand the increased chances of infertility or higher chance of miscarriage. I could never have imagined the long-term negative side effects that this freedom of "choice" has brought upon my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I went through about 10 years of infertility following my abortion, followed by 2 miscarriages. I have been hospitalized 3 times for depression and there is no family history. I have had many years of therapy and support group recovery for this "choice" in trying to heal.

10. How has your abortion affected others in your life?

Yes, it had negative effects on my relationships with family and friends. It negatively affected my ex-husband who was the father of my child and was a definite factor in the demise of our marriage.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that emotional and physical scars that abortion leave are far greater than any other choice available, being raising the child or giving up for adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

NO! The costs of abortion on our society will probably never be fully comprehended but it goes against our humanity. I am a woman who never would have had an abortion if it were illegal. I feel betrayed by my country that something this harmful to me could possibly be that readily available and in so many more damaging forms than it was when I was in that position. I gave birth to a 26 week old premie that lived and is thriving today because of modern medicine and to know that this same beautiful child could have been killed at my hand is unthinkable. Also to think that it is legal at any given time prior to a child's birth to kill that baby but if the mother chooses to kill that baby even one day after their birth, they can spend their lives in prison is ludicrous. The difference being 24 hours and because the baby was killed by a medical professional that takes an oath to save lives? Please stop this craziness and stop the scarring of women and the killing of innocent children.

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had NO IDEA my baby would be ripped limb from limb and torn apart as it was removed from my body.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea that I would spend years regretting my decision. I did not realize what I was doing to the baby. I was told it was a blob of cells.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Planned Parenthood

9. How has abortion affected you?

Aborting my child has caused me grief and depression that lasted over 30 years. It was the year abortion became illegal, 1973, and I became pregnant on my 18th birthday. Planned Parenthood told me abortion was my only option and that at 12 weeks, there was no baby, just a blob of cells. That is such a LIE! They did not discuss any other options with me, such as adoption. I was too afraid to tell my parents and Planned Parenthood told me they would never need to know. I took the easy way out. I have hated myself and regretted my decision ever since. I murdered my child. That is a horrible thing to live with. When I finally married, I was unable to conceive a child. I spent years going through infertility testing, while my husband blamed the problem on my abortion. We eventually divorced.

10. How has your abortion affected others in your life?

It caused much discomfort during intercourse. It caused my husband to blame me for our infertility

problems. He eventually divorced me.

11. Based upon your experience, what would you tell a woman considering abortion?

You will regret it! Please consider adoption. It is very difficult to live with the knowledge that you murdered your own child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

People are using abortion as a method of birth control. We have aborted an entire generation of people. The majority of people that have an abortion end up regretting it and live with years of depression. Many women become suicidal. In this day and age, with free birth control available nationwide, there is no reason to abort a child. Abortion destroys lives... the life of the unborn and the woman who has the abortion.

2. How many weeks pregnant were you?

5

3. What type of abortion was performed?

1st trimester

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it was a blob of tissue and not a real fetus.

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea the pain, guilt and shame that would come years later.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

At first I was in denial. But then I went through the anger and guilt, shame and regret that comes after killing your baby.

10. How has your abortion affected others in your life?

So much so....my kids could have had more siblings, my parents could have had more grandchildren, etc.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't do it. Take it from me that you will regret it...even if it is not for several years down the road. There are so many other better options available to you!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That they have never experienced what you go through once you've made the decision to kill your own child. We need to stand up for the innocent that have no voice of their own. Please consider choosing

LIFE and making abortion illegal.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was rushed through a line of girls waiting to see the doctor. I believe the Doctor only asked me general questions and stated that at 12 weeks it was not a baby.

5. Were you adequately informed of the consequences of abortion?

Yes No

All I was told is that it was a quick and painless procedure and would be over quickly

6. Were you informed of any link between abortion and breast cancer?

My Significant Other

9. How has abortion affected you?

Because of my experience, I left there feeling like I had just murdered my own flesh and blood because of the memory of what I saw. I became depressed and suicidal and drank excessively to try to forget.

10. How has your abortion affected others in your life?

My Boyfriend also became depressed and we broke up after that because I blamed him for pressuring me into doing it. 26 years later we are both still affected by this trauma

11. Based upon your experience, what would you tell a woman considering abortion?

Get an ultra sound before going through with it. I wish they would have showed me one as I would have never gone through with it. Since then I have had 7 children and I know for a fact woman would never abort if they had an untrasound first before deciding

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

I would tell them to close their eyes and imagine laying on a table and watching as pieces of your child are sucked right out of the womb and end up in a large jar next to you were you can watch as the tiny peices of arms legs and recogizable items are deposited (but it's too late)

2. How many weeks pregnant were you?

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

No one explained to me the physical consequences that come along with having an abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one explained the physical, mental and emotional pain / consequences that are so extremely devastating and haunt me til this day.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Negatively in so many ways. It is a choice that I made with the help of other so called 'health professionals'. I am unable to conceive and my inability to have a family after an abortion causes great pain, grief and guilt every day of my life. I was decieved into believing that abortion would solve my immediate problem and fear of others finding out about my being promiscuous. The truth is that abortion was an easy way out for my lack of better judgement at that moment in my life. The truth is that abortion does take a life away, one that I can only dream of having gotten to know and raise - a child. If a 'fetus' no more that just a fetus - than let it be... what becomes of that fetus - it develops into baby. We have been lied to.

10. How has your abortion affected others in your life?

Greatly, my siblings would love to have loved my child that was aborted, and now they have no opportunity to do so.

11. Based upon your experience, what would you tell a woman considering abortion?

Recommend further investigation into the reasoning why they believe they want an abortion. Every

woman should have the opportunity to have an ultrasound and discuss abortion in the fullest extent before making such a life changing decision.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is murder. The courts today have given too many women the ability to kill their own child and those women today suffer greatly because of our own choices, but the legal system should be there to protect it's citizens from causing injury or harm to themselves and abortion does neither, it actually causes destruction and is purely evil.

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

I do not know, only that it was horrible The date could be wrong also, I do not remember that

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was only told to bring a brown paper bag with sanitary pads for after the fact

5. Were you adequately informed of the consequences of abortion?

Yes No

When I got to Medobrook, I was shocked to see so many women there with all brown paper bags. Only until yrs later, did I realize that this was only an abortion clinic. I was led to the room, I heard the sucking noise and felt the pain, I was led to another room for a half hr recovery before driving. I went back to St. Cloud, and got severe infection. To this day, I often wonder, perhaps I could never have kids due to this. I married a man who had 6 kids as I knew I never wanted any of my own and experience that pain again. Now after an unwanted divorce, and at the age of 55, I regret, I have no children, no grandchildren, only the Lord and I. Henceforth, I remain his Bondservant for His Kingdom.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father of my baby

9. How has abortion affected you?

I never had children because of the pain and guilt. Only after I listened to Focus on the Families, "Tilly" was I healed in 1986. I vowed to the Lord that I would share my story with any woman that was pregnant and considering the word ABORTION. I have kept that vow to this day and prayfully have been used for His Kingdom on this horrible act called ABORTION. I recommend the Supreme Court watch the movie THE "SILENT SCREAM". If that does not convict them on this issue, then NOTHING WILL.

10. How has your abortion affected others in your life?

I have made the choice to become better and not bitter, henceforth, my story has impacted several girls/women that have not gone through this horrible procedure and instead put their child up for adoption or have kept their child.

11. Based upon your experience, what would you tell a woman considering abortion?

NUMBER 1, What part of thou shalt not murder, do you not understand? Number 2, you will never be able to say you have never murdered. Number 3, The guilt and shame and pain is only healed with the help of Jesus and the Holy Spirit. Number 4, The pain is so horrible that it does affect your choice on having children in the future. Number 5, Remember HALT. When you are hungry, angry lonely or tired, do not make any decisions until you have heard from the LORD.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

A Nation that does not honor the Lord's Ten Commandments, is under God's wrath. As per the Bible, a divided Nation will not stand. We are a nation that is declining rapidly because of the Supreme Courts rulings. And I would state boldly as I looked into their eyes, Oh what tangled webs we weave, when ourselves we first deceive. God will not be mocked in this issue. His wrath is already coming down on the US of A and we still do not get it. Repent now for His coming is soon. God is a just God, you have ears, yet you do not hear, you have eyes, yet you do not see. I plead with you in the Name of Jesus, watch the movie, THE SILENT SCREAM. And listen to Tilly, or read the book. I know I have a little daughter up in Heaven waiting for me. A daughter I could have loved and nurtured had abortions not been legal or an option. The Bible states you reap what you sow. OH the regrets, and yet I praise and thank the Lord for his forgiveness and healing.

QUESTIONS

1. Where and when did your abortion occur?

2. How many weeks pregnant were you?

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

9. How has abortion affected you?

Until 3 years ago I live in silence and shame and fear of anyone every knowing. I never told or talked about it until I shared with a friend because i knew it was an area in my life that i needed healing from. I hid myself from others and felt like I carried 40 pounds of extra weight with the secret i kept. I feared being exposed all the time and literally a part of me was ripped out. The abortion forever changed who I am.

10. How has your abortion affected others in your life?

I could never really be myself. I felt like I had a huge trust issue with friends and even making friends. I hid part of myself from family because of fear. I was angry and disconnected emotionally from others.

11. Based upon your experience, what would you tell a woman considering abortion?

You may think that you are hiding a secret and that no one will ever find out. The pain, shame, fear that you carry with you for the rest of your life is not worth it. There is no freedom in keeping the secret not to mention the fear of what will happen when you come face to face with the baby someday and God. He sees it all and if it wasn't for His unconditional love, I would not be healed.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I wish it was never made legal. That's the only reason I had one. I feared my family finding out, so it was a deceitful way for me to hide my mistake. The consequences to taking a life are much worse than facing my family and having a child out of wedlock. Especially now when there seems to be so much grace for single moms.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

5. Were you adequately informed of the consequences of abortion?

I asked to see an ultrasound and they said there was nothing to see. I felt coached towards going through with it like they were making a sale. I came in not sure if I wanted to go through with it and left without my child.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

9. How has abortion affected you?

I now have three children of my own and feel like someone's missing. Me and my husband talk about it every week and I cry about it all the time. I did not know the weight of my decision until I had my first child. I looked at him and sobbed for an hour, I knew when I saw him that the decision that I had made for his older sibling was murder. I felt like people had lied to me. They said it's just a fertilized egg. They lied, it was my baby.

10. How has your abortion affected others in your life?

My husband feels an extreme amount of guilt because it was his child. We had just started dating a month before I became pregnant and were not in love. Later we did fall in love, get married and have three beautiful children. We both would take it back in a heart beat if we could.

11. Based upon your experience, what would you tell a woman considering abortion?

That it is murder plain and simple. Conception is a miracle and ending it is a mistake. You can never understand the consequences of abortion until you have a child of your own. Every day that I am

blessed with my children I am always thinking of the one I tossed aside. I have enormous guilt.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That an abortion at ANY time is the same as walking into a delivery room grabbing a baby from their mother arms and killing it. A child has arrived in this world the second they are conceived,we just don't get the gift of seeing them until they are born.

My Husband

9. How has abortion affected you?

In so many ways. I became addicted to drugs to mask the pain. Couldn't be faithful to my husband, afterall I listened to him & murdered two of our children. So we ended up divorcing. The children I had living (four) I tried to but had trouble having a real relationship. Never felt like I was good enough, not even adequate. I was on so many street drugs, I thought that was the only way I had to cope. I could never be the "real" Heidi with anyone. in 1987, my husband beat me so bad that I hemorrhaged in my left hemisphere (it was a basal ganglia cell bleed). I wanted to die so I was glad he was trying to help with that. :) I'm currently hemiplegic on my right side. Lotsa health problems!! In 2006 I ended up with up with Stage 3C Breast Cancer.I have very bad trust issues. I don't let many others in. Now, because of the physical (and emotional to some degree) issues in my life- I am more or less home bound, so I don't have a lot of interaction. If it wasn't for Jesus making Himself VERY real to me in Jan. 1994...I know I'd be still in dire straits.

10. How has your abortion affected others in your life?

Lost brotherhood for the brothers. But my youngest child Anthony, wouldn't be here if I had gone through with either pregnancy. So that has affected him positively. That helps me a little. I have just told my ex-husband, he needs to get forgiveness from Jesus and himself, for the murders (abortions), lost fatherhood, and the beating that killed my right side.

11. Based upon your experience, what would you tell a woman considering abortion?

YOU HAVE OTHER CHOICES!!!!!! The BABY has you...let her or him have a say if she or he wants to be born. You'll regret it maybe right after maybe five years down time, but, I promise you will regret it. Sit here, listen to what I've been through... Let's go to a crisis pregnancy center and see your baby move...

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If the unborn Babies could agree with it, then I could. But we aren't even asking them if they want to be aborted or not. All kidding aside, Life is a gift that you can't regift. we have to speak for the ones with no voice. What would you or I choose our mother to do when she was pregnant with each of us? I am pretty disabled, but I'm glad that my mom chose life, aren't you?

9. How has abortion affected you?

It hurts sometimes when I think about it and then I remember why I did it and what was instore if I didn't do it and the hurt goes away. Do I regret it? Yes sometimes and then again NO I made the right choice!!!!

10. How has your abortion affected others in your life?

My business no one knows!!

11. Based upon your experience, what would you tell a woman considering abortion?

Are you doing it for the right reasons? Is adoption a better choice?

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should be legal always!!! It's the womens choice and no one elses! But I do think that abortion should be OUTLAWED after the the 12th week of pregnancy unless medical reasons apply!!! There is no reason for abortions to be done on women that are 5 months pregnant!! Really 5 MONTHS!!! 3 months or less you have a choice after that NO CHOICE have it and give it up or keep it PERIOD!!!

My name is Laura Anderson. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

St pAUL MN

//1980

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

there was a quick short speach about what to expect from the procedure. I have received better information when I had a root canal.

5. Were you adequately informed of the consequences of abortion?

Yes No

just a blob of cells flushed away, tomorrow you will forget all of this

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has been over 30 yrs, and now I am just starting to come to terms with what I have done. I condemed myself for committing the worse sin I could think of. The relationship with mt living children was/is hugely impacted, because I struggle to believe I can be/should be loved. My marriages have been tainted by my internal hatred. My abortion changed who I preceived myself to be, I hated myself for a long, long time. It affected my entire future!

10. How has your abortion affected others in your life?

It pushed my baby father & I apart. 25 years later I finally married my baby's father - but only after 2 failed marriages. We should have never been apart. My mother was devastated when she learned that I murdered her grandchild. We have forgiven each other and are good friends now.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them that their life changed forever when they became pregnant, it will never be same again. Now you must choose the new path you want to follow. I would share my experience & offer to answer

any questions they may have & to help them with whatever they decide to do. I would tell them not to have an abortion, and show them sites like operationoutcry.org, where so many women share the sad stories of how their lives were changed. I would also show them pictures of fetus the same age as their unborn child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

The women already had already made the decision about her own body, that is how she got pregnant. How can killing an innocent child correct a bad decision already made. Life has natural consequences, we need to face them.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MN

County of Washington

My name is LeNae Williamson. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Minneapolis MN

05//1990

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

not sure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told that it was no different than killing a bug or a worm at my stage of pregnancy

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has greatly affected my self-esteem feeling that if people really know what I had done they wouldn't accept me. I've had a history of mental health and depression issues where I had no problems before my abortion - I've been in the psych ward 3 times for multiple days - been on and off medication most of my adult life - several bouts of counseling - had a strong part to play in why I married the father of that child - marriage started without a strong foundation and ended up to be abusive - ending in divorce

10. How has your abortion affected others in your life?

The abortion negatively affected my relationship with my parents for many years as I felt the need to keep it a secret. They knew there was something between us but couldn't figure out what it was. They felt the loss of a grandchild along with the pain they say in my eyes. The guilt of wondering what they could have done.

11. Based upon your experience, what would you tell a woman considering abortion?

The relief that you think you'll feel after it's over is a lie. Your life will never be the same either way abortion or having the baby but you will never regret having the baby. You will always regret having the

abortion and the whatifs of the child you lost. You can't explain to someone the power of missing someone that you never knew and how that will haunt you throughout your life. It wounds you beyond what you would ever imagine when you are in that place of decision and looking for the easy way out. There is no easy way out but the best way and the healthiest way for you is to go through with the pregnancy and pray long and hard from that point as to whether to keep your baby or give it up for adoption. You can live with your head held high knowing that you gave the gift of life to what may be deemed as "your mistake." Please don't do this to yourself. The pain of abortion is so much bigger than you can realize at this moment. Listen to those of us who have gone before you and learn from our poor decisions. We are offering you a life life. Please take it!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I believe that legalized abortion set out to help women but it is the greatest deception of a law that has ever been allowed in any country. Nothing could be further from the truth. This law has cost our country so very much not only in lives of American babies but just as much for the women that have utilized their "right" to abortion. The permiscuity, the damage to self-esteem, the mental illness, the divorces, suicide rate, abuse, torment, lack of joy among women who have had abortions is extremely high. The cost to America is extreme and it needs to stop. We just haven't understood the cost. Now that we do, I implore you to stop the pain, the seemingly self-afflicting pain that this law has brought upon women for too long. The government is supposed to be there to protect life. Please end this incredible sin against women and stop legalized abortion.

The State of MN

County of Hennipen

My name is Charlene Sirmon-hunt. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Memphis TN

05//1975

2. How many weeks pregnant were you?

13

3. What type of abortion was performed?

D and C type

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was not aware that a 13 week unborn baby was developed. At know time was I given developmental information. I was told that the tissue would be removed. Cutting and scraping was not understood/

5. Were you adequately informed of the consequences of abortion?

Yes No

I was never given data regarding the mental and emotional stress that could be involved. I was not given information on the dangers of a failed abortion.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

baby's father and my mother.

9. How has abortion affected you?

Once I acquired correct information on what abortion is and baby development I went into a state of depression. I used drugs to numb myself. I attempted suicide at 22. I was 17 went I aborted my child. This at the time was the best way of coping for me. It was a 20 years journey for me to gain healing and to forgive myself.

10. How has your abortion affected others in your life?

My children had to work through the grieving process of having a missing sibling. Struggling with forgiveness. Anger and also realizing that they were lucky to have been alive. How someone could decide that a life was not important.

11. Based upon your experience, what would you tell a woman considering abortion?

Even though it seems to be a easy answer to the problem, a much larger problem is birthed. The trade off is not worth what you will have to carry for life. You give birth to a child in 9 months- find a home for

it. There are people that are prepared to help with all of that. That is really the easy way to go. The mental and emotional care afterwards is not so easily fixed. Some do not survive it. As far as my faith-things have changed since 1975 abortion. I am now convinced that God expects us to value and protect life. So you will also have spiritual struggles.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

you do not know what you are allowing. Families suffer for years. please protect life.

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I recall watching a video on the procedure or some type of informed consent - I felt I was in a fog and just going through the motions not fully understanding the impact of my actions although at the time I was an adult and did make the choice to have the abortion.

5. Were you adequately informed of the consequences of abortion?

Yes No

If i would have known of the long term psychological effects of the abortion I don't see how I would have agreed to this procedure.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

at the time, a friend

9. How has abortion affected you?

I do not have children of my own, I felt I never deserved to be given such a gift after I went through with the abortion although I didn't consciously think about the impact of the choice until much later in my life.

10. How has your abortion affected others in your life?

I think it has had an impact on all my relationships and certainly has impacted my marriage although I am finally seeing a wonderful Christian based counselor and it's been 26 years since my abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

The long term impact is damaging and while I know that God has forgiven me, it has taken me years to forgive myself and the others involved in the procedure.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I think it's fairly simple - abortion is killing. I wish I had the magic words that could convey the deep impact that abortion has on women and the that they have no idea of the tens of millions of women who feel the same but are afraid to come forward for fear of damaging family relationships. I am at a point in my life where I finally can talk about it and hopefully convey effectively the long term effects of what abortion does to women. It is my prayer, hope and dream to see Roe v Wade reversed in my lifetime.

The Boyfriend/Father

9. How has abortion affected you?

I regret it every single day. I have had many emotional issues since then and been on medication for depression.

10. How has your abortion affected others in your life?

It made them feel sad and regret for me. They wished that there was something that they could've done to stop me. I since then have healed from the emotional scars and have been able to minister to those who, like me, are also post-abortive.

11. Based upon your experience, what would you tell a woman considering abortion?

Not to do it. There are so many more options out there. They do not realize the impact that it will have on their life. There are things that they will experience and maybe never relate it to the abortion.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

A person does not have the power or authority to determine when human life starts. Despite that point, we should not legalize something that will leave the "crisis state" mother in a more troubled state than she started out in. There are more lives being affected through the abortion than just the child and mother's.

QUESTIONS

1. Where and when did your abortion occur?

Kansas City MO

09/16/1979

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

dilation and suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

They did not explain that it was a real baby, they said it was just fetal tissue at this stage. They told me that once it was over I would feel better and my life would return to normal. THSES WERE LIES!

5. Were you adequately informed of the consequences of abortion?

Yes No

No one explained the grief that would follow, sometimes many years later (mine was 27 years). Nor did they discuss the guilt and anguish that I would have to live with for the rest of my life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I have always been over-dependant on my husband who was the father of the baby (boyfriend at that time). And I also struggled with intimacy. Through classes I have taken with "If not for grace ministries", I am finding healing and forgiveness.

10. How has your abortion affected others in your life?

My 3 children do not have an older brother to look up to. My husband now feels very guilty. I have not even told my parents yet. I feel it has effected our relationship in our marriage. Abortion pain is a ripple-effect.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't do it!! I know it looks like the easy way out. At first, you do feel relief but when you realize that you chose to kill your own baby who counted on you for the smallest of deeds, which was protection in your womb. You go against your own morals and values and it will scar you. Regret will

come, you just don't know when.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would say, let's stop calling it an abortion or a procedure. It is not a tonsillectomy!! It is CHOOSING TO END THE LIFE OF YOUR BABY, THE VERY LIFE GOD CREATED IN YOU. I might as well pick up a gun and shoot one of my living children! Can I do that??? NO. It is not Pro-Life or Pro-Choice. Its Pro-Life or PRO-DEATH. Which one are you???? This is worse than the Holacaust, women, killing their own!!

QUESTIONS

1. Where and when did your abortion occur?

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was explained about the process, but not that it was an ending of a life.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was not told about the emotional and psychological impact it would have on me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I went through many years of drug and alcohol abuse. Broke off the relationship with the man involved in the pregnancy, because I lost love and respect for him. I had two pregnancies and two abortions with him.

10. How has your abortion affected others in your life?

I went through a lot a depression after the abortions and tried to destroy myself with drugs and alcohol. I had no respect for myself. Very few people know about the abortions. Those that do have seen the emotional impact it had on my life.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them that their problems will not be erased by the abortion. It will only magnify them and make life even more miserable. The abortion doesn't solve the problem that put them in the situation they are in now. There is help that can be found to support her through the pregnancies. I wish someone had directed me in that direction. My children would be alive today.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion doesn't help women. In fact it just compounds the situation that got the woman pregnant in the first place and doesn't resolve anything. Adding on more emotional problems. With the emotional and physical strain on a woman it causes an increase in psychological care. Women react in varying ways: drug abuse, alcohol abuse, physical abuse, self-mutilation, psychological problems, violent outburts (prison population in women is up).

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MO

County of Cass

My name is Kathy Pittman. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Strasburg MO

06//1968

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Did not Physically have abortion--see explanation below

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Abortion was not legal in 1968. However, if it had been I am sure I would have taken this avenue as my way out. I was on my way to college, but when I became pregnant I married and became a mother instead. I tried to self inflict an abortion, but thankfully God had other plans for me and my baby.

5. Were you adequately informed of the consequences of abortion?

Yes No

I did not know what an abortion was. I had never even heard the terminology. As an 18 year old however I believed that if I hit my stomach hard enough I would miscarry and I could go on with my life as planned. I tried that, but to no avail. I knew no other way to eliminate the problem. In 1968 we had wiser judges and lawmakers than we do today. That saved my baby's life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Years later, I would pressure my daughter to abort

9. How has abortion affected you?

Though I did not physically have an abortion, emotionally I did because I still suffer the overwhelming guilt of what I would have done (and tried to do) if that option would have been available to me then. Realizing that I would have single-handedly wiped out 4/5 of my current family sends me to the border of dual personalities. In the process of killing my son, I would have also wiped out his wife and child from my life. And had my daughter followed my ill-conceived advise and aborted my grandson, I would have had only one daughter and no grandchildren today. When I celebrate their birthdays it is always bitter sweet: joyful because they are alive, and a deep regret and shame thinking how close I came to not having them in my life. Thankfully God intervened and saved not only my children, but my life as

well.

10. How has your abortion affected others in your life?

Just knowing what I would have done and how I tried to do it with my own hands has made me not filled me with guilty and shame, but has put fear in my heart that something will happen to my children and take them from me. After all, that is what I deserve. I feel guilty that I was allowed to have the child I did not want and so many women want children and can't have them. All this guilt led me to be over-protective and controlling in my children's adolescence and teen years. Depression has been a major struggle for me, too, and my family suffered because of it.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT. I have suffered so much and I did not even physically have an abortion. I don't know how the women who undergo this procedure survive it! This has got to be the worst decision a woman can ever make. Please, Please, don't even consider this and option. It is a death sentence not just for your child, but for you as well.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Legalized abortion is a death sentence inflicted on the innocent: the woman and the child. Our constitution promotes life, liberty and the pursuit of happiness. To legalize this horrible procedure is to take away all these things our constitution guarantees as rights. How can we as a nation kill our most helpless and irrevocably injure the mothers who carry them?

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MO

County of Cass

My name is Cheryl DeLany. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Denver CO

04/26/1976

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

At the time they did not give me much information or options. They only said it would not take to much time and that I would not feel a thing.

5. Were you adequately informed of the consequences of abortion?

Yes No

NO One told me the consequences I would have when all was said and done. I just know that deep within me there laid a sense of guilt and condemnation. That's when my drug and acohol habit became more out of control for me to cover up the shame I felt.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

At the time it affected me deeply, especially being raised at the time a Catholic.

10. How has your abortion affected others in your life?

Not at the time. But it did effect me down the road when I had my first live bith. I felt such remorse that I felt inadequate to raise my own daughter and son. It was hard for me to connect emotionally with them.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell them the consequences of termating a life, what a impact it has on your psyche and your heart that will impact you for the rest of your life. But also I know that we serve a loving God who will forgive us and will use our testimonies for good to help others as He has done in my own daughters life, to choose life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

That they do not see the long term damage it causes woman. They do not see what goes on behind close doors and the suffering they endure until it is brought to our Savior and for him to cleanse us for taking a human life.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MO

County of United States

My name is Joyce Cowan. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Kansas City MO

09/14/1992

2. How many weeks pregnant were you?

6

3. What type of abortion was performed?

I do Not Know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I had no counselor talk to me about any of it. I had no idea the pain I would go thru.

5. Were you adequately informed of the consequences of abortion?

Yes No

As I stated above, no one talked to me about any of it. My husband at the time had 3 kids of his own from another marriage and did not want another, and I had one from another marriage too. He made the appt. and took me.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My husband

9. How has abortion affected you?

I have had 16 years of horrible regret and heartache. The thought of killing my own baby haunts me. God did bless me 2 years ago with a wonderful son who has helped in healing some of the pain. And I have a husband of 7 years who would never have asked me to aboard our child. God can and will restore us if we ask and let him.

10. How has your abortion affected others in your life?

I had trust issues and a drug addition following the abortion. My husband left me the same day for another woman on top of making me kill our child. The addition affected everyone in my life, my family, my Mom passed away due to a heart attack from stress.

11. Based upon your experience, what would you tell a woman considering abortion?

God doesn't want us to kill an unborn child who is pure and innocent. I would tell her to have the baby

and I would raise it as my own. Lots of people have great homes awaiting a child. Adoption NOT Abortion. A baby is a gift that can change your life. And GOD is giving you lifes greatest gift. Please have faith and accept this wonderful child into your life.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Life should be cherished, not aboared. We all deserve the right to live. What if your Mom had not wanted you? How would you like to be aboarded and denied the gift of eternal life? The bible says that god prepares a place for us, who are we to Rob another of that. This country was founded on the belief of In God We Trust, Right? Who are you to mess with GOD? He doesn't want us, in fact he commands us NOT to KILL!!!!!!

QUESTIONS

1. Where and when did your abortion occur?

Lubbock TX

//1983

2. How many weeks pregnant were you?

15

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Procedurally, maybe, but not the condition of the fetus at that point.

5. Were you adequately informed of the consequences of abortion?

Yes No

bouts of depression & self-hate

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

In the sense that it was made extremely accessible

9. How has abortion affected you?

The guilt & depression were sometimes overwhelming. I believe it contributed also to my marriage falling apart.

10. How has your abortion affected others in your life?

I put up a wall- that's never good in relationships.

11. Based upon your experience, what would you tell a woman considering abortion?

See a film showing the fetus at that point. Talk to your clergy.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Scientific evidence no longer supports all the rhetoric about the fetus that we were told many years ago. I would say that it is a CHILD, not a "choice". They can always give the child up for adoption. Anyone considering abortion, should be shown films of fetuses at various stages.

my boyfriend

9. How has abortion affected you?

I lost a lot of confidence in myself. I had terrible nightmares for years. When I got married, I miscarried my first pregnancy. I have lost my interest in being intimate.

10. How has your abortion affected others in your life?

My father was furious with me when it initially happened, then he went through stages of guilt that he must have done something wrong in my upbringing. After marriage, my first child died, which affected us all. Now, my husband suffers because I don't have a desire to be intimate with him. I have talked with my son about what happened to me. I still have two daughters that are getting to the age that I need to tell them. They will be ashamed of me.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT!!!! Please, PLEASE consider adoption instead! Don't kill that baby!!! You will only live to regret it!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If this were your daughter considering this ... doing this horrible action to your grandchild ... what would YOU choose? The freedom of choice should be the choice of whether or not to have sex. What choice are you giving that baby? What if your mother chose an abortion when she was pregnant with YOU???

Worst mistake of my life.

10. How has your abortion affected others in your life?

I'm sure my parents live in remorse. We don't talk about it.

11. Based upon your experience, what would you tell a woman considering abortion?

It WILL affect you for the rest of your life. You will never be able to go back and make things right.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Being pregnant is a very emotional time and not a time that you think clearly of the years ahead. There is no way to know how sorry you will be until it is too late. I have had 7 more children and now know that it WAS a baby that I killed - a baby that never had a chance. That is because our country has made it legal to kill a baby that has no voice to be heard.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

But I had no idea the effects it would have on my entire life. It has been 16 years and I am just now getting my femininity back.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

I feel the pressure was knowing it was available.

9. How has abortion affected you?

I feel like I should have been treated like a murderer. I feel like had there not been the option of abortion, I would have acted more responsibly, or at least had to take responsibility for my own actions. I still enter bathroom stalls and have a feeling there is my baby in the toilet.

10. How has your abortion affected others in your life?

I don't know how the father is doing, but I realize it probably hurt him immensely too.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her she will regret it and she will wonder about that child for the rest of her life. Consider

adoption.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I think that the court should know that it is morally wrong, because of the effect it has on women, men and society. Every surgical procedure is meant to save or help a person, this is opposite and directly involves three people, the woman, the man and the baby.

9. How has abortion affected you?

As I have grown in wisdom and maturity, I deeply regret ending a life because of my own selfishness. It has left scars that cause guilt in my current parenting.

10. How has your abortion affected others in your life?

My abortion has affected my family by placing stress in our relationships due to the guilt that I live with.

11. Based upon your experience, what would you tell a woman considering abortion?

I would tell her that there are other alternatives and that abortion causes pain, guilt and grief. Abortion sounds like an easy "fix" in the beginning until you reap the emotional damage that comes after the

procedure.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is not only wrong in God's eyes, but there are many beneficial reasons for not utilizing this method of dealing with unplanned pregnancies. It places a strain with the national healthcare system in that it drains resources due to depression, mental illness, and illness related to depression. It also places a strain on law enforcement and child welfare systems due to child abuse/neglect that can happen when parents are dealing inappropriately with emotional damage and scarring. Abortion carries far reaching consequences that affect everyone in one way or another. Not to mention the fact that there are MANY people who are seeking desparately to adopt a baby and are even going to other countries to adopt them. The legal system alone in the United Stes would financially benefit greatly if adoptions were utilized instead of abortions.

3. What type of abortion was performed?

I'm not sure what it's called - they vacuumed the contents of my uterus

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was pretty young (19) and was told it would be over in a matter of a couple of hours. I wouldn't have to think about it again. It was "fixing the problem."

5. Were you adequately informed of the consequences of abortion?

Yes No

I never heard anything about the possibilities of emotional problems, self-blame, depression, doubt.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

8. Did anyone pressure you into having an abortion?

my parents - they were disappointed I was pregnant

9. How has abortion affected you?

I've had the depression, self-loathing, guilt, tears, and all of the other emotional problems that come from making a snap decision. I've had problems connecting to others. I don't share that part of my past for fear that others will judge me negatively. Even though I know that God has forgiven me, it is still in the back of my mind almost constantly.

10. How has your abortion affected others in your life?

Very few people know that it ever happened. My parents are both deceased. Only a couple of past friends know and we NEVER discuss it.

11. Based upon your experience, what would you tell a woman considering abortion?

Absolutely, do not do it! Seek whatever counseling, medical attention you need, but do not terminate that life. You wouldn't think about hurting/harming a newborn, child or anyone else, why would you do this? You will spend many, many years regretting your decision. If you aren't capable of raising a child on your own, there are many great people out there who would be grateful for the opportunity to raise your child for you, loving every minute of it.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Even though my abortion was more than half my life ago, there isn't a day that goes by that I don't wonder what that child would be like, who they would be. As I listened to the broadcast and as I type this message there are still tears in my eyes, and deep regret. I have been on anti-depressants for many years and sometimes the pain is still so great. Abortion should absolutely be illegalized. It has affected my whole life and I've never been the same since.

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Just state that they were terminating my pregnancy. That I would feel a pinch and that I needed to rest after the procedure was done due to possible bleeding problems.

5. Were you adequately informed of the consequences of abortion?

Yes No

Just that there would be some bleeding. Nothing about the future or if I would have any physical problems. There was nothing said about how the abortion would affect me emotionally or physically in the future.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Ex boyfriends

9. How has abortion affected you?

Regret that I will carry with me for the rest of my life. Scared when I did have children later in life. This is a part of my life that I can never change, sure which I could. I have tried to stop one of my son's now ex-girlfriend from having one. Told her more than once that she would regret it later in life. I even told her that I would adopt the child that she was carrying if she would let me. Unfortunately, she did not choose life.

10. How has your abortion affected others in your life?

My son's regrets the decision that his ex-girlfriend made. He still talks about it today. She made the decision without his consent. He still talks about how old the child would be. I still feel the way that my son does. The child would be a grown up and maybe having children of there own. I have affected my own life besides my parents. They would had grandchildren now.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not do it. It will be a decision that you will regret for the rest of your life. When you do have children of your own, you will wonder about what they children that were aborted would be like. The color of their eyes, hair, what would their likes and dislikes be, what would their personality be. You will never know and not knowing will haunt you forever.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If your mother had an abortion when you were conceived then you would not be here! Just think of all of the people in your own life that would be affected by her decision. Ask yourself what would the world be like if I were not born. Remember the movie, "It's a Wonderful Life" with the actor James Stewart. There are so many people that have made a difference in the world. Just think what would it be like if they were not born.

3. What type of abortion was performed?

menstral extraction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

I had no idea the emotional and spiritual dynamics of the abortion. Also the physical pain of post abortion for the days that followed. For the total diconnect with feelings and the post traumatic stress that caused MANY unhealthy choices in the years that followed my abortion. Also I had no idea how it would affect the father of the baby that was aborted....or how our relationship would crumble. And how other relationships would be handicapped from the beginning because of my "choice" to end my babys life.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

the Dr & boyfriend

9. How has abortion affected you?

For MANY years I made very unhealthy life choices. I was engaged and that fell apart. Had MANY boyfriends drank alot used drugs and wanted to stay away from the reality of my "choice" to end my babys life. I got married out of the pain and went through MANY years of stress, struggle and confusion both personally and in my marriage. I went through years of counseling to try to be free from the guilt and pain. I tried to blame everyone else for the ending of my childs life.... I thought it would make it easier to "cope" with. I was wrong.

10. How has your abortion affected others in your life?

I have spoken about my abortion to my kids and the two oldest have both expressed heart ache over missing their oldest sibling. When my 1st born daughter was 5 or 6 she asked me why I killed my baby and we cried together. My boyfriend at that time went in to the appointment with me and he also had severe post traumatic stress over killing his baby. He paid for it drove me there and came in with me. ALSO when I married my husband we went through LOTS of marriage problems for many years. We were separated for a time.... My mother figured out what happened and was devastated over the loss of her first grandchild. There was not one relationship that was not effected by my "choice" to kill my baby.

11. Based upon your experience, what would you tell a woman considering abortion?

I have told women considering abortion that the healing process for killing your child is a lifetime battle. Choose LIFE. Your baby is a person right now. I tell them that adoption is a beautiful decision and that I could help direct them in finding an organization to help with that process. Also if they decided to keep the baby that there are many people and groups that are there for her and her boyfriend (if he is still around). Also I explain the spiritual, physical and emotional trauma that happens.... even when it feels like we are doing 'ok'. Mostly I tell her that she is loved and that there is HOPE for her and her baby. Let your baby live.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

We live in a culture of death.... it MUST stop.... since the beginning of legalizing abortion there has been far too many children killed and the decline in America has been so destructive in our nation. The slogan every child a wanted child.....well, I want my child... can you pass a law to bring her back.

HOW MY ABORTION AFFECTED ME

The State of MO

County of LINCOLN

My name is SHELLIE LIGON. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

ST LOUIS MO

//1995

2. How many weeks pregnant were you?

4

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I JUST SIMPLY MADE AN APPOINTMENT WHEN I CALLED NOT INFORMED OF HOW THE PROCEDURE WAS OR HOW IT WAS PERFORMED.

5. Were you adequately informed of the consequences of abortion?

Yes No

I KNEW THAT ABORTION WAS PERMANENT, BUT I FEEL LIKE SOMEONE SHOULD HAVE REALLY COUNSELED ME IF NOTHING MORE THAN AT LEAST FOR A FEW MOMENTS. THIS CLINIC HAD THE "GET THEM IN GET THEM OUT " MENTALITY.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

TO BE HONEST UNTIL I GOT SAVED IT REALLY DIDNT. I OFTEN THOUGHT OF THE CHILD, REALLY OFTEN BUT WAS NEVER CONVICTED FROM IT UNTIL NOW. ONCE I ACCEPTED JESUS CHRIST AS MY SAVIOR, IT INSTANTLY HIT ME WHAT I HAD DONE. I HAVE NOT YET ASKED CHRIST TO FORGIVE ME BECAUSE FRANKLY I AM UN ABLE TO FORGIVE MYSELF. I DO KNOW THAT I ONLY NEED TO ASK, BUT IM JUST STILL HANGING ONTO IT, AND CHASTISING MYSELF.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

DEFINTIELY DO NOT DO IT!!! THERE ARE SO MANY PEOPLE UNABLE TO CONCIEVE. ABORTION HURTS EVERYONE INVOLVED

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

THAT THEY NEED TO GET TO KNOW JESUS CHRIST

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MO

County of Christian

My name is Nicole Trujillo. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Springfield MO

04/21/2001

2. How many weeks pregnant were you?

14

3. What type of abortion was performed?

they sucked the baby out of my body

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

they did not tell me what they were going to do exactly and we were not given any other options.

5. Were you adequately informed of the consequences of abortion?

Yes No

they never said anything about the lasting emotional consequences of killing our own child. they took our answer of not having enough money as enough and there was nothing further to discuss.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

It has been an over-comer issue in my life and my husbands (we were later married but were not at the time of the abortion) It has been huge in my life, and only because of G~d have I been abel to allow good works to come from it, my willingness to help STOP it!

10. How has your abortion affected others in your life?

My mom has one less grandchild, she herself had an abortion, my son doesn't have an older sibling, my husband has one less child. There is a void in the famliy, realized or not.

11. Based upon your experience, what would you tell a woman considering abortion?

DON'T DO IT! There are so many helping people that can give assistance in education, material goods, and emotional support, or there is adoption where many loving families who cannot have children of their own could raise your child as a gift from you! You can give gift of life, not the curse of death!

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

There is substantial proof that abortion affects millions of lives each year, not only the emotional havoc it causes on women (shame, guilt, anxiety, fear) but on the man and the family who either does or doesn't know.... Lives are FOREVER changed by the killing of a life! If someone in your family were to die, it would affect you (whether you knew them or not, your family's life would be changed) . Please please remember that NOTHING happens without consequences, "for every action there is an equal and opposite reaction" what will be the consequence for millions of babies being killed? Do you want their innocent blood on your hands?

The State of MO

County of Greene

My name is Tabatha I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Springfield MO

10/01/1998

2. How many weeks pregnant were you?

3. What type of abortion was performed?

Unsure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

Note: I'm unsure of the exact day of the month - I saved the receipt and can't find where I stored it. If I remember correctly, the people at the clinic asked me if I wanted to talk to a counselor and I said no.

5. Were you adequately informed of the consequences of abortion?

Yes No

My family tried to stop me by telling me everything they knew but the person who performed the abortion didn't really talk to me about any of the consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

I still get depressed to this day and cry occasionally thinking of the child that I could have had and how old he would have been and what he would have looked like.

10. How has your abortion affected others in your life?

My family act like they have to be cautious to avoid talking about the topic of abortion. It took them a long time to forgive me.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not be selfish and do something because of your own feelings. God may forgive you but you will NEVER forgive yourself and will feel a BIG loss for the rest of your life. You may not think you'll regret it until after it is too late.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Girls or women are not thinking clearly when they make a decision to end a pregnancy and do not think of it as ending a life.

HOW MY ABORTION AFFECTED ME

The State of MO

County of City

My name is Marisol Pfaff. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

St. Louis MO

//1979

2. How many weeks pregnant were you?

3

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was never told the emotional, psychological or physical damages that can occur with an abortion. I was never told that there are agencies, parents, wanting babies. I was never told it was a life.

5. Were you adequately informed of the consequences of abortion?

Yes No

Never was I once told of the consequences of an abortion by the staff or doctors in Planned Parenthood in St. Louis.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Doctors, company I worked for, friends.

9. How has abortion affected you?

Abortion damaged by youth, with the physical, emotional and psyschological consequences like I only had one child but wanted more, I could not be around children for a long time, I was angry at everyone around me especially those whom I had gone to about my pregnancies but yet they fail to give me adequate support or information about the life I was carrying.

10. How has your abortion affected others in your life?

Abortion affected others because they were not allowed to mourn their brothers. To mourn is important in our lives and when we hold it silently, the healing cannot begin. So many have held the tears silently yet healing cannot and would not have been able to come forth unless I began my healing by speaking out against the evils of this world.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't abort the child, I will raise your child and when you can than understand the life that was inside of you is truly a human being, and you want to bring that life back in your life, she or he will be waiting for you. Give me your baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Where have you been the last 20 years? Have you not heard the cries of the unborn child through their mothers? Have you not witnessed the mothers pain and suffering because they have no child no more? What will you tell God, on your judgement day, when he ask you, why did you not give me that life, "Give to Ceasar what belongs to Ceasar and to God what belongs to God?" Life is from God from the moment of conception until natural death, laws that take away from the love of Christ takes away from our true identity. To love, To forgive, To Give! When life comes forth, love begins to form in a deeper understanding of the love that Christ gives us. For it is than that we can see how we can give up our life for one whom we love. To love is divine! To give Life is to form that love within our own identity so that we can come to a fuller understanding of Gods great love for us!

HOW MY ABORTION AFFECTED ME

The State of MO

County of Jackson

My name is Erika I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Mountain View CA

//2001

2. How many weeks pregnant were you?

3. What type of abortion was performed?

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

My little brother's girlfriend had an abortion. Before she had an abortion, my brother was joyful, popular, a social butterfly, everybody loved him. After his girlfriend had an abortion during his senior year in high school, he went into depression, started doing and dealing marijuana, and became an alcoholic. He became anti-social and hopeless. He had a death wish and did not care if he died. He is JUST starting to get free from drugs and alcohol, and FINALLY started getting freedom from the guilt of the abortion. I think that all the junk he has gone through can be traced back to the day that he took his girlfriend to go get an abortion.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

That it will affect your mind. That it's not something you just "get over"; it's something that can affect you for years.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion is playing God. I am SO mad that I had a coworker who (wrongly) went to prison for murdering his wife and his unborn daughter. He got convicted with two counts of murder; in other words, the court counted his unborn child as life. If his wife had gone and gotten an abortion the day before, it would

have been legal. Where is the consistency? A wanted child is a child; an unwanted child is a fetus? Abortion gives women the option to be promiscuous. There is no consequence to promiscuity. Abortion becomes a form of birth control. Abortion is wrong. Please make it illegal again.

The State of MO

County of Miller

My name is Georgia I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

New York NY

//1971

2. How many weeks pregnant were you?

32

3. What type of abortion was performed?

Saline

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

It is a blur at this point. I was scared and yet I felt I had no other option as my Mother was ready to kill the father of the baby. I was ashamed and felt my life was over.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one told me how this would not make it go away (my problem)- that I was exchanging one problem (pregnancy) for others (depression, inner pain, loss, guilt). No one discribed this pregnancy as a person- who was created in the image of God.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

For many years I felt that God could not forgive me as I could not forgive myself. I had a 2 year bout of depression. I had years of infertility and felt this was a punishment from God due to this abortion. I have continued to feel shame and loss in my life. I have often sat and wondered how much different my life would have been if I had not done this. I would have had a 37 year old daughter. No doubt I would have had grandchildren to this lost child. I wouldn't have had to feel I need to hide this ugly scar from my children.

10. How has your abortion affected others in your life?

My children don't know. My husband thinks I shouldn't tell them as it would ruin what they think of me. My 84 year old Mother thinks that she may be responsible for the abortion.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it!! If you are sure you aren't ready to be a parent give it to a couple who want to adopt. I will give your child a home if you need me to.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

You can not make murder legal and expect God to bless and protect this country. There is no more legality for abortion than there should be to legalized murder of the elderly.

2. How many weeks pregnant were you?

28

3. What type of abortion was performed?

Two Day Procedure

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was Fifteen at the time, yes i was given brochures but no I had no idea at the time what I was actually doing and the understanding of how far long the baby was.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was to immature to think about the emotional or physical consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

For years I had carried shame and guilt from killing my children. I look at my children today and cannot imagine life without them and I think about the two that I never will have the chance to know, to hold, to touch or to love and it shakes me on the inside.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

That this life inside her has been created with a purpose and a plan with a future and a hope. I would remind her that she once dwelt helpless in her mothers womb unknowing that her mother had been given a right to allow creation to manifest or to destroy this human and her Mom chose LIFE!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would state truth, that we as humans here in the United states are created equal, that one life should

never be raised above another especially when is in the decision of life or death. That we have found more wealth in fighting against the extinction of animals than the wealth in our own human existence. How about we,"Save the Humans." Also, How we treat our own is showing other countries how we expect to be treated. Why wouldn't other countries look at us and see that we find no value in ourselves, so why should they?

2. How many weeks pregnant were you?

3. What type of abortion was performed?

vacuum

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

i was not informed of what state the baby was in (what was formed already). i also was not given any options such as adoption or any information about carrying the baby full term.

5. Were you adequately informed of the consequences of abortion?

Yes No

definitely not the emotional side effects that are long lasting, nor the complications that could occur.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

i have suffered much shame and guilt the years following the decision to abort. the further away from the date of the abortion the more it is obvious that it was the wrong choice. my relationship with my mother has suffered severly. she knew about the abortion and has not emotionally recovered. if i hadnt received Jesus' sacrifice for my sin following the abortion i dont want to imagine where i would be right now. but because of His healing power i have been forgiven. i still deal with guilt and shame in small doses when the subject and abortion arises. i have a feeling i will not be able to have children, i havent been told by medical personell but i sense this may be the case. my menstrual cycle has been affected since the abortion. my outlook on men has been affected. i carry around the thought that i forsook my own child for my own selfish desires.

10. How has your abortion affected others in your life?

my mother and i's relationship is deeply effected, there is giant gap in our communication. i will eventually need to tell my younger sister when she is old enough. my brother and father were involved

in the abortion as well and i'm sure there is thoughts that are unsaid.

11. Based upon your experience, what would you tell a woman considering abortion?

take your time to decide what is the best choice. there is no rush when you are considering your own child. no matter the circumstances, God has not given you the responsibility of a child accidentally. a baby is gift that only comes when the Creator of life wants you to have one. you can get through pain or pressure because the serious effects of abortion FAR outweigh the pain or pressure and joy that comes from having your baby.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

until you have experienced an abortion or know someone that has and have heard the depths of thier pain, you cannot deem abortion as a choice, it is not a choice, it is not a solution, it is the ending of the beginning of a life. we are always so worried in America about preserving life and living to the fullest, we have to start with allowing life to begin before we can preserve our own.

2. How many weeks pregnant were you?

11

3. What type of abortion was performed?

I don't know

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

My abortion was illegal. I knew it would kill my baby, but I did not know how wrong it was at the time. It was supposedly an easy solution.

5. Were you adequately informed of the consequences of abortion?

Yes No

I contracted Pelvic Inflammatory Disease from unsterilized instruments and underwent three subsequent medical operations, rendering me infertile for life. No one warned me of these consequences.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

The father of the child

9. How has abortion affected you?

I have suffered from extreme guilt and depression for over 30 years since the abortion.

10. How has your abortion affected others in your life?

I have not told anyone else of my abortion. I did tell my husband two years ago because I wanted to go to a Rachael's Vineyard counseling weekend for post abortive parents. He was wonderful and caring about it.

11. Based upon your experience, what would you tell a woman considering abortion?

Please don't murder your baby! That's exactly what it is, the murdering of your own flesh and blood. Carry you baby to term and then find someone who will adopt him or her and give your baby a chance for life. The courts are not in charge, God is and He loves your child because "He knit it in your womb."

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I don't believe it is a decision for the Courts. Abortion is an act of extreme depravity that hurts the woman, the father and even the abortionist. These parties will suffer extreme emotional problems because of the crime they have committed against all of mankind.

9. How has abortion affected you?

when i became a christian it was the hardest thing to let myself be forgiven of. i felt shame and was terrified to let anyone know that i had taken a life. it has caused depression, guilt, i think of it daily and of the life that could of been.

10. How has your abortion affected others in your life?

it has caused problems in my marraige.

11. Based upon your experience, what would you tell a woman considering abortion?

That it is not our place to choose. Life is a precious gift, wonderfully and fearfully made. It is haunting, it is a choice that stays with you, my heart breaks daily for that child.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

That is is not our right to choose. We were created by God Himself and that not one man has the right to take what God has made and destroy it, God is in control. Abraham Lincoln "When we no longer our a country under God, thats when we are a country gone under." that sums it up

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MO

County of ST LOUIS

My name is FAY GILSON. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

NEW YORK NY

06/15/1974

2. How many weeks pregnant were you?

10

3. What type of abortion was performed?

VACUM I THINK - I FLEW TO NEW YORK FROM ST LOUIS.

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I WAS NOT INFORMED THAT THIS PROCEDURE TORE AND SEPARATED THE BODY PARTS OF THE BABY - I REALLY DON'T REMEMBER ASKING WHAT HAPPENED OR HOW IT HAPPENED.

5. Were you adequately informed of the consequences of abortion?

Yes No

NO ONE TOLD ME ABOUT THE CONSEQUENCES TO ME SPIRITUALLY, EMOTIONALLY, OR PHYSICALLY

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

MENTALLY AND EMOTIONALLY THERE WAS A SENSE OF SHAME AND GUILT - I KNEW WHAT I HAD DONE WAS WRONG. PHYSICALLY I DID NOT REALLY SUFFER -- BUT I TRANSFERRED THE SPIRIT OF DEATH TO MY CHILDREN BORN AFTER THE ABORTION - I HAVE SUFFERED GREATLY FROM THE SPIRIT OF ABORTION - ABORTING MY MARRIAGES, JOBS, FINANCES, AND RELATIONSHIPS.. STOPPING AND STARTING ALL MY LIFE.

10. How has your abortion affected others in your life?

MY THREE DAUGHTERS WERE AFFECTED AS THEY ALL THREE HAD TO HAVE C SECTIONS. AND MY ONE DAUGHTER MISCARRIED 2 BABIES AND THE THIRD ONE WAS A PREMMIE.

11. Based upon your experience, what would you tell a woman considering abortion?

NOT TO DO IT. I WOULD EXPLAIN HOW GOD HIMSELF WOULD SEND THE CURSE FOR SHEDDING OF INNOCENT BLOOD. IT DOES NOT GET MORE INNOCENT THAN THAT OF AN

UNBORN CHILD.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I WOULD SAY THAT THE CURSE THAT IS OVER AMERICA NOW BECAUSE OF THE SHEDDING OF INNOCENT BLOOD IS BRINGING JUDGEMENT ON AMERICA BIG TIME. THESE BABIES ARE FRIENDS OF GOD AND HE DOES NOT TAKE KINDLY TO THE KILLING OF THEM. WE HAVE GOT TO BECOME ACCOUNTABLE FOR THESE LIVES.. THEY ARE A BABY AT THE TIME OF CONCEPTION - A CREATED SOUL BY THE LIVING GOD - WE DO NOT HAVE THE RIGHT TO PLAY GOD AND SAY THEY CAN'T LIVE.

8. Did anyone pressure you into having an abortion?

Yes No

Husband. After I became pregnant after an affair.

9. How has abortion affected you?

I have tended to push my feelings away and try to avoid them. I will never share this information with my family, especially my wonderful daughter who would have had a sibling had I not made the terrible abortion choice. I always was against abortion until a situation arose where it was not the best time or circumstances in my life to have a child. If abortion was not legal, I would have a beautiful daughter or son. It is hard to live with such a terrible decision.

10. How has your abortion affected others in your life?

My husband, who was also a factor in the decision to have an abortion has increased his depression and alcohol consumption...after 18 years marriage and not dealing with the underlying issues, we are going through a divorce.

11. Based upon your experience, what would you tell a woman considering abortion?

Do not even consider it! It is a selfish decision that will haunt you your whole life. Your situation at the time you are faced with an unplanned pregnancy may seem impossible to get through, but it is only compounded with the choice of abortion. The guilt is stifling and unbearable.

12. Based on your own experience, what would you tell a court that believes abortion should be

legal?

Had abortion not been legal, I would not be dealing with the amazing guilt that will haunt me my whole life. Making abortion illegal would stop women from making the selfish and devastating decision of putting an end to their own child's life. It really is a form of murder, yet we the mothers, who have made the abortion choice, are living in our own type of prison sentence...a life of guilt, loss and self worth issues.

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

D/E

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

At this time there was very little talk before hand about the actual procedure and only information as what actually was occurring.

5. Were you adequately informed of the consequences of abortion?

Yes No

I don't recall being told any consequences of abortion

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

Not directly but indirectly

9. How has abortion affected you?

I have had grave psychological issues with regard to my abortion(s), I have had substance abuse(now in recovery) and have a fear now of hearing the noise even at a dental office.

10. How has your abortion affected others in your life?

Because of the psychological damage and substance abuse that followed my family suffered greatly

11. Based upon your experience, what would you tell a woman considering abortion?

I would give her all of the details of afterwards and not sugar coat it and give ALL information regarding.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that full disclosure to the person is told about abortion beforehand and the providers are not doing this, because I also worked for planned parenthood in the past and know that

this is not done fully and a lot of young girls are being misled and will have problems down the road and at least should know before hand. I would tell a court the truth has to be told abortion is killing your baby.

my boyfriend at the time.

9. How has abortion affected you?

My body spontaneously aborts all eggs before they can implant.

10. How has your abortion affected others in your life?

My husband and I want kids and can't have them. Now we must adopt to be parents.

11. Based upon your experience, what would you tell a woman considering abortion?

Don't do it. You will regret the decision for the rest of your life. Adoption is a much better choice.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should not be made legal. I think you need to quit listening to women who have never had abortions and listen to the ones who have and regret it every day.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MO

County of St Louis

My name is Sarah Krieg. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

St Louis MO

11//1996

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

suction-aspiration

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

I was told it would feel similar to a speculum used doing GYN exams, not what felt like the sword they used.

5. Were you adequately informed of the consequences of abortion?

Yes No

I was told I would experience SOME pain and discomfort, but that it would dissipate. I was told of NO actual "CONSEQUENCES".

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My ex-boyfriend, his mother, and his siblings.

9. How has abortion affected you?

I encountered DEEP depression and had to drop out of school because of it. Then, self-hatred and CONSTANT thoughts of suicide. Several months after the procedure I began to have severe menstrual cramps and hemorrhaging. I could scarcely stand, then I began running a constant fever. I got sicker and sicker and the pain and the loss of blood only seemed to increase. I finally was rushed to the ER. My WBC count indicated my body was fighting a MAJOR infection. My doctor did a laparoscopy. What he found was DEVASTATING. The abortion was incomplete. Something was left inside to decay inside me. He took pictures and the damage was extensive. My left ovary and fallopian tube were destroyed, AND most of my uterus. There was even talk of a hysterectomy because I was going to have severe lower abdominal pain, WHEN I even HAD a cycle, along with hemorrhaging for the rest of my life and I would never be able to have children. I was not looking forward to dealing with this pain, but I skipped the hysterectomy. I opted for Depo Provera. For the pain they gave me meds that made me seem

drunk. I couldn't drive if I took them. This hindered my ability to hold a job, and I STILL had to go to the ER because of the pain.

10. How has your abortion affected others in your life?

It made some of them cold-hearted and miserably depressed- especially my ex-boyfriend. For a while my father and my sister would not even speak to me.

11. Based upon your experience, what would you tell a woman considering abortion?

You may not know this or believe it, but YOU are BEAUTIFUL, EVERYTHING about you. YOU are VERY SPECIAL and were created in the image of our GLORIOUS God for a very specific and irreplaceable role. NO ONE ELSE can do it but YOU. From the foundations of time YOU WERE CHOSEN BY GOD to do it. And it doesn't matter what you've done, for He has seen your whole life. He knew everything you were going to do before you did it. He sees your strength and your BEAUTIFUL heart, and for that He has chosen you, no matter what you've done, for this most important task. He believes in you SO MUCH and is SO PROUD of you, that to prove it He has ALREADY entrusted you with it. Your mission: To GUARD and PROTECT the life forming inside your womb right now, and bring it into the world. What happens after that is between He and you, but RIGHT NOW that is your mission. "How could I afford it?" To that I say, "The One who calls you is faithful and He will do it." 1 Thess 5:24 "What will they say?" I'll tell you what your heavenly Father thinks: "Look at my beautiful daughter! Isn't she lovely? She's such an AMAZING woman of FAITH and STRENGTH. She just GLOWS. SHE is gonna change the world." Maybe others don't believe in you. Maybe even YOU don't, but HE DOES. Think about it. HE believes and trusts in YOU.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

If you're legalizing it because you believe it's for the betterment of women's lives you are SORELY MISTAKEN. How can brutal pain, having to tell a man you can never bear his children, hair loss, severe depression, suicidal thoughts, relational abandonment, and isolation be GOOD for ANY woman? They're not even being given a real CHOICE, because they're not fully informed of what they're getting themselves into. If they're not able to seriously and COMPREHENSIVELY weigh the entirety of their options its nothing less than false advertising and MANIPULATION to get them to pay a pretty penny for an UGLY and potentially DISASTROUS outcome.

My name is Sheri I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Las Angeles CA

//1974

2. How many weeks pregnant were you?

7

3. What type of abortion was performed?

Suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

After arriving at the clinic, they took my money, called my name, and told me how far along I was, and put me under.

5. Were you adequately informed of the consequences of abortion?

Yes No

No one ever mentioned anything at all. Just buy a box of pads, you will bleed for a while.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My Mother, her husband, my brother, and one Uncle

9. How has abortion affected you?

The abortion took place many years ago. I am now 53, then 18. For the first 20 years, to even hear the word abortion struck fear in my heart, and sent the memory through my mind yet another time. I could not forget, I could not stop thinking every year, how old the baby would be. I knew it was wrong, and did not choose abortion initially, however, under alot of pressure, I caved. It was my choice ultimately, I was the one who went through with it. I felt cattle being led to a slaughter, and was treated as such. I did not know if my husband would accept me, or if I would be able to have children. Through God's forgiveness I finally found freedom from the pain. I was able to forgive myself, as well as all of those who were involved, including the nurses, and the receptionist that checked me in.

10. How has your abortion affected others in your life?

Now, after experiencing forgiveness, I want to help others, I volunteer at a Pregnancy Care Center where we educate people on abortion, most choose life. I have encouraged young women I know, to

choose life. I have shared with them, my pain, and shame. They chose life.

11. Based upon your experience, what would you tell a woman considering abortion?

This will affect your entire life in some way. You will not forget, you are intentionally taking the life of your child. It is murder, no other way to describe it. Please, consider adoption, if not being responsible to keep the child and learn how to be a parent.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

When a mother conceives, she knows that life is growing within her. God knew that baby before he was ever formed in the Mother's womb. That is how important that child is, he is already a person, not just tissue. The God of the universe knowing that child before He even created the world will not tolerate the non respect for every life. They are playing God if they think that they can make the decision to destroy a life, any life, because someone was simply living a loose, and careless lifestyle that brought this about. There are no excuses. Sarah Palan was an excellent example, that the life that was growing within her, did not change, because the baby was born with a handicap. That baby, as every baby is a gift. Even if that baby was conceived out of passion, and lack of caution. No child is a mistake! The baby I aborted, could have been the president of the United States, or another Billy Graham. Or the loving parent of their own children. We will never know.

The State of MO

County of St. Louis

My name is Carolyn I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

St. Louis MO

05//1966

2. How many weeks pregnant were you?

8

3. What type of abortion was performed?

Illegal

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

My abortion took place in a motel room on Lindbergh Avenue in St. Louis, MO by someone who had learned this "trick" in the military

5. Were you adequately informed of the consequences of abortion?

Yes No

Please see above

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

My husband of 3 months.

9. How has abortion affected you?

I became a very angry person - and one without the ability to form lasting relationships. I struggled with depression for years and often felt suicidal. I was full of self-hatred which spilled into everything and everyone with whom I came in contact. Hundreds of projects were "aborted" and it was very difficult to finish anything from crafts at home to jobs in the workplace.

10. How has your abortion affected others in your life?

Many felt the frustration of my anger. 4 marriages were destroyed. My children paid the biggest price. I loved my 2 boys but the guilt and shame I lived with (from the abortion)made it impossible to be a good mother. I trusted no one, and I could be close to no one.

11. Based upon your experience, what would you tell a woman considering abortion?

Please, do not do this to yourself because it will affect you for the rest of your life. Life is a precious commodity and there are other options. You are much stronger than you think you are. You will never

get over the shedding of this innocent blood and you carry within you a "life", a gift of God. It is NOT just a piece of tissue, it is a child.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion should NOT be legal. This is about respect for life and a true culture of responsibility. Abortion kills the innocent and as a result it gives birth to angry, critical, depressed, dysfunctional women everywhere.

My name is Judi . I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

St. Louis MO

04//1984

2. How many weeks pregnant were you?

9

3. What type of abortion was performed?

Some kind of a suction or scraping thing

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

The representative at Planned Parenthood had me watch a movie before the abortion. I asked if it was a baby, and the told me no, that it was just a bunch of disjointed cells at 9 weeks.

5. Were you adequately informed of the consequences of abortion?

Yes No

I wasn't informed that I would bleed for so long or that I would one day find out that those "disjointed cells" were really a baby and that I would feel its loss every day of my life. If ultrasound had been a requirement for abortion at that time, I definitely wouldn't have chosen abortion. I cried uncontrollably in the recovery room after my abortion, and the nurse asked me to please stop so that I wouldn't upset the other women recovering, and so I wouldn't scare those women away who were in the waiting room and hadn't had their abortions yet.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

the baby's father, Dean

9. How has abortion affected you?

Since my abortion, I have had two live births. I love my children dearly and realize that they are gifts from God. I was an alcoholic for years and was institutionalized for slashing my wrists on at least a dozen occasions. I have since found Christ, have repented of the abortion, have accepted Jesus' unconditional forgiveness and love and am at peace with my eternal destination and that I will meet my baby in heaven someday. After 20 years, I no longer hate myself and have even recovered enough to author two books, including "The Twenty People You Meet In Hell," which condemns abortion as murder.

10. How has your abortion affected others in your life?

For a long time, it was a deep, dark secret that no one knew except my mother and sister. I always felt that they lost respect for me because I murdered my preborn baby.

11. Based upon your experience, what would you tell a woman considering abortion?

My advise to someone considering abortion is "Don't go down that dark road of death and devastation. Abortion will change your life. You will never be the same again. Let your child live!

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Abortion reduces humans to savages and beasts. It leads women into alcoholism, prostitution, drugs, and suicide.

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MO

County of Douglas

My name is Christine Puetz. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Indianapolis IN

01//1979

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

From what I remember, someone asked me if I was OK with my decision (at 17 years old). I said I was and that was it.

5. Were you adequately informed of the consequences of abortion?

Yes No

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

9. How has abortion affected you?

Deep regret!!! Sadness of the child I have missed in my life.

10. How has your abortion affected others in your life?

11. Based upon your experience, what would you tell a woman considering abortion?

It was the worse mistake I have made in my life. You can never make it right.

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

There is a child that never got a chance, a life that I will never know, because our court system has made it legal to kill an innocent child. Unborn children have the right to life!!!

DECLARATION

HOW MY ABORTION AFFECTED ME

The State of MO

County of usa

My name is Rebecca Hipkins. I am over the age of eighteen years, and I am of sound mind and competent to make this declaration. I have personal knowledge of the facts stated in this declaration, and I declare under penalty of perjury the following:

QUESTIONS

1. Where and when did your abortion occur?

Denver CO

04/05/1976

2. How many weeks pregnant were you?

12

3. What type of abortion was performed?

suction

4. Were you adequately informed of the nature of abortion, what it is, what it does?

Yes No

5. Were you adequately informed of the consequences of abortion?

Yes No

Because the clinic believed that it was only a physical procedure. They couldnt inform me of the emotional consequences which would then bring physical consequences which I would suffer for many years.

6. Were you informed of any link between abortion and breast cancer?

Yes No

7. Have you had breast cancer?

Yes No

8. Did anyone pressure you into having an abortion?

Yes No

friends

9. How has abortion affected you?

I became excessively, sexually active, trying to get pregnant again. I contracted a sexual disease, which ended up making me sterl. I wanted a baby so bad, I was an emotional wreck.

10. How has your abortion affected others in your life?

It was a main force in making a decision to get married, so I wouldnt be active with every one who came along. the marriage ended, being based on the wrong things, and finding out I couldnt have children.

11. Based upon your experience, what would you tell a woman considering abortion?

It dose not solve the problem, it only creates more problems with devistating consesquences

12. Based on your own experience, what would you tell a court that believes abortion should be legal?

Making an abortion legal has about the same affect on the woman and society as handing car keys to a 5 year old and telling them its ok for them to drive to school everyday. Some may make it there ok, most wont, even if they live through the accident, their lives, and those they crash into will be affected for possibly their lifetime.
