To be filled out by women who have had an abortion.

The State of Alaska

County of N/A

BEFORE ME, the undersigned authority, on this day personally appeared Laurie Kari (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: March 1985 Milwaukee WI
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?
No. A young woman simply asked me if I was sure.
- 3) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 4) Did anyone pressure you into having an abortion? no If so, who? _____
- 5) How has your abortion affected you? I became emotionally and spiritually devastated. I was diagnosed bipolar within two years of the abortion. Physically, I was unable to go into labor with subsequent babies, and nearly died hemorrhaging after my second c-section (had DIC) my uterus had adhered to the placenta. My husband and I have unresolved feelings regarding our abortion.
- 6) How has your abortion affected others in your life? My husband blames the abortion for lack of intimacy in our marriage. I dread the day when I see how this affects our daughters.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Even if you think this won't affect you, you are wrong. This will haunt you forever, you will remember every "birthday" your baby would've had, & it is devastating.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal?
These little lives need protection by law.

Handwritten note: I am not a doctor, I am a nurse. I am not a doctor, I am a nurse.

"I have read the above and foregoing statement and the same is true and correct."

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: 1992; Anchorage, Alaska
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? no If not, explain: I was given no information, including what the procedure involved, what (who) I was aborting, and how it would react to it physically and emotionally.
- 3) Were you adequately informed of the consequences of abortion? no Several weeks after the abortion I began to bleed heavily. I had not been warned that this might happen when I called the clinic to ask about it the receptionist said to call back in a few days.
- 4) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 5) Did anyone pressure you into having an abortion? no If so, who? _____
- 6) How has your abortion affected you? A part of me died when my baby died, not physically but emotionally and spiritually. It was a long, slow road which took many years to emotional and spiritual healing. The healing came only through forgiveness from Jesus Christ.
- 7) How has your abortion affected others in your life? The abortion hurt the father of the baby emotionally and spiritually as it hurt me. And someday I will need to tell my children that I killed their big brother.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Don't do it. Initially it will solve your "problem" but in the days and years to come it will hurt you and haunt you like nothing else in your life.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is murder and murder has never been legal, nor should it be. The rights of all should be upheld, including the rights of the unborn. A woman's rights should not supersede the rights of mother, male, or female.

BEFORE ME, the undersigned authority, on this day personally appeared JUDITH R. BECKER (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: April 1972 New York City
 - 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: I WAS ONLY told by Planned Parenthood, that I was only having some tissue out with a D+C. I was then sent to a minister who called the hospital to make the apppt. ROEN was a law at that time.
 - 3) Were you adequately informed of the consequences of abortion? I had no counseling on anything other than it was my only option.
 - 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No/No
 - 5) Did anyone pressure you into having an abortion? If so, who? I felt Planned Parenthood with the help of the minister did, leading me to believe it wasn't a baby. They gave me no information regarding the facts.
 - 6) How has your abortion affected you? I was in counseling for years + years. I have never completely forgiven myself. I have seen pictures of a fetus who was the same size and it was fully developed.
 - 7) How has your abortion affected others in your life? My family because they have seen me suffer + my parents went along with it because they had no more information than I did.
 - 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? I would tell her to look at a picture of a fetus developed to the stage she was at. I believe the fetus is a baby at conception. Also to get information on how dangerous the procedures are.
 - 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I believe abortion is murder. The fetus is a baby. The abortion procedures are dangerous to the woman. Post abortion syndrome is real. Despite what Planned Parenthood states. Women have the right to make a choice before getting pregnant. If they get pregnant + can't care for the child adoption is the correct option.

I HAVE HAD AN UNSTABLE STATE OF MIND EVER SINCE. OVER TIME IT IS IMPROVING WITH SPIRITUAL COUNSELING. AT TIMES I STILL FEEL LIKE A FAILURE BECAUSE OF MY EXPERIENCES. "I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 1. Haleiwa, Hawaii 1971; 2. Santa Barbara Ca 1974
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? not at all
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? yes
- 5) Did anyone pressure you into having an abortion? yes If so, who? the father - both times
- 6) How has your abortion affected you? 1st abortion: I suffered heavy bleeding + very painful uterine cramping with no medical attention even tho I contacted the doctor for help. 2nd abortion: doctor didn't remove the whole baby during procedure so I was called back in a few days for a subsequent DnC to remove the pieces. After I gave birth to my daughter in 1975 I realized with extreme horror what I had done having abortions. I had been robbed of the joy of motherhood for these two babies whose lives I ended. I still weep for those precious lives lost. I sought forgiveness thru salvation in Jesus Christ + God removed the weight of guilt from my heart.
- 7) How has your abortion affected others in your life? Because I've suffered from breast cancer (which is now linked to abortion by med. studies) my whole family has suffered emotionally + financially. In fact my husband left me because I was sick + my children have
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Life is too precious. Don't do it. It is murder + will bring guilt. Either keep the baby or put the baby up for adoption. The price is too high. There is help available. Suffered as a result
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I wish Roe vs Wade had never been passed then I never would have suffered from abortion, I was young + didn't realize what I was doing and I believe it is the duty of the courts to pass laws that will help protect its citizens

- 1) Tell approximately when and where your abortion occurred: February 24 1984 in Chicago IL.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I had no information about fetal development, what the abortion procedure did to the fetus or what the potential emotional or physical consequences might be.
- 3) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 4) Did anyone pressure you into having an abortion? yes If so, who? the father of my baby threatened to kill himself if I didn't have an abortion. I felt trapped and alone. I was only 18 years old.
- 5) How has your abortion affected you? It was 20 years later that I began to deal with it, I have had a binge eating disorder for 19 years (gained over 100 pounds). I drank heavily for 7 years. I was depressed most of my adult life and clinically depressed for at least 5 years - suicidal 3 different times. I felt guilty and ashamed - this severely damaged my self identity as a woman. I was in a bad marriage for 18 years that ended in divorce. I have no other children because I believed I didn't deserve to be a mother.
- 6) How has your abortion affected others in your life? I withdrew from friends and family. I completely isolated myself from everyone. I never developed a close relationship with my nephews because it was too hard to be around children.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Don't do it. It may seem to be an easy way out but the emotional after-effects will cause many more problems than an unplanned pregnancy will.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is portrayed as being necessary for a woman's well-being. That if a woman did not have this "choice" available it would be harmful to her. But it's becoming more obvious that scores of women have in fact been harmed by this "choice" that is covered in deception about what actually happens and what it may do. Abortion takes the life of a baby and damages, sometimes irreparably, the woman who makes that choice.

The State of Arizona

County of Maricopa

BEFORE ME, the undersigned authority, on this day personally appeared A R (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: about 1970 at Good Samaritan Hospital
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No!
- 4) Were you informed of any link between abortion and breast cancer? No! Have you had breast cancer? No!
- 5) Did anyone pressure you into having an abortion? Yes If so, who? Dr. Tamis
- 6) How has your abortion affected you? Despite the circumstances, I now realize that what I did was wrong and that an innocent life was taken. My first instinct was to have the baby. I smothered that instinct by coming in to the doctor's prognosis of severe damage to the baby who would be severely harmed and in a vegetable state of existence. I expressed my belief to the doctor that according to Thomas Aquinas' teaching, the fetus was a person. He assured me that it certainly wasn't. I was sent to Dr. Tamis by my so-called "Christian" doctor who was a woman and whose husband was a minister.
- 7) How has your abortion affected others in your life? The abortion has affected the innocent life that was taken in a very merciless way.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? I would tell a woman to visit one of the Crisis Pregnancy Centers such as Life Choices Women's Clinic or 1st Way of Maricopa County, Inc. Both are located in Phoenix. Both places are Pro-life but provide unconditional love and a non-judgmental ear.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would say that we all bear the imprint of God's love, that we are all created in His image and likeness, and that we need to be vigilant in protecting life from conception to natural death, our common heritage.

If so, who? _____

8. Based on your experiences, what would you tell a woman considering an abortion? That it is a child your child. And if you choose to abort you will never know if it was a boy or girl. Whenever you hold another baby you can never forget. Even if you do receive emotional healing you can never forget.

9. Based on your own experience, what would you tell a court that believes abortion should be legal? To actually be in the room when one is performed. - 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I was not informed about or encouraged to consider the life I was taking, or the long-term psychological and emotional harm it could, and did cause me.
- 3) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 4) Did anyone pressure you into having an abortion? no If so, who? _____
- 5) How has your abortion affected you? My abortion immediately led to hopelessness, promiscuity, and drinking binges. I could not escape the pain and guilt. I've been through 19 years of intermittent counseling. I had trouble bonding with my baby after he was born. I've dealt with anxiety, depression, anger and insomnia, and have been prescribed as many as ten different psychotropic medications.
- 6) How has your abortion affected others in your life? My husband and my son have had to live with a depressed, angry person. The father of the baby also went into a deep depression and began drinking a lot.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I've had an abortion, and I don't recommend it. It will harm future relationships in your life. That baby should be given the opportunity to enjoy life too. There are more noble ways of dealing with an unplanned pregnancy.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? such as adoption "If abortion were not legal, I would not have had one. I was not desperate, I just thought that abortion was a quick fix to an inconvenient timing of having a baby. Abortion is not in the best interest of the mother, the father, or the baby.

1. Tell approximately when and where your abortion occurred: 2/73 Planned Parenthood, New York City
2. Were you adequately informed of the nature and consequences of abortion, what it is, what it does? no - after giving the receptionist my \$350.00, I was taken to another desk where a woman asked me a few questions about my last menstrual period, etc.
3. Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
4. Did anyone pressure you into having an abortion? my mother-yes If so, who? mother
5. How has your abortion affected you? I developed a severe pelvic infection and was hospitalized for one week after returning to my home state. I became depressed and full of self-hatred and feelings of unworthiness.
6. How has your abortion affected others in your life? my then boyfriend and I married the following year, but because of my anger at him for supporting the abortion decision, the relationship was doomed and soon ended in divorce.
7. Based on your experiences, what would you tell a woman considering an abortion? I would consider either parenting or adoption based on my relationship with the birth father and our ages. Abortion ruins ones life, causes low self esteem and years of pain and regret, as well as potential health risks.
8. Based on your own experience, what would you tell a court that believes abortion should be legal? The health risks (immediate and future) alone should be enough to criminalize abortion. The emotional, mental and spiritual effects are devastating and can derail a woman's future success in life.

- 1) Tell approximately when and where your abortion occurred: Good Samaritan Hosp; Oct. 1970
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Absolutely Not. I was required to see a psychologist or psychiatrist by law in the 70's and STILL NO information was given.
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? No If so, who? _____
- 5) How has your abortion affected you? I had very low self-esteem after my abortion and began drinking & using drugs. I eventually married 3 times and had depression on an annual basis around the time of my abortion. My eventual ability to bond with my mother, my daughter, was drastically reduced w/c I had never healed from the aborting of my first child.
- 6) How has your abortion affected others in your life? My daughter grew up as an only child versus having a sibling; my parents were deprived of their grandchild.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? No amount of rationalizing now will be worth the irreversible consequences of knowing forever that you took your baby's life. You will regret it for the rest of your life. No reason is good enough for the pain mentally.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? You have the power over life & death. ~~Some times~~ WRONG is wrong no matter the cost. Please look @ the results of the legalization of abortion & what it has become - including late-term abortions. Why do we prosecute a criminal who kills a fetus in the process of a crime - but we don't consider it illegal

- 1) Tell approximately when and where your abortion occurred: Denver, Colo., approx. 1967
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Not at all. Went to psychiatrist who stated it would be harmful to me to carry pregnancy to term. This was before Roe v. Wade. This law doesn't stop abortion - we have to be educated about it.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? Not to date
- 5) Did anyone pressure you into having an abortion? No If so, who? No pressure - it was presented as the only option - it was called a "therapeutic abortion" - healing words for a violent act.
- 6) How has your abortion affected you? I have never been able to have children (now age 33). It was a shameful secret I carried for years - until about age 43 or 46. I believe it affected my sense of self and every relationship in my life. A woman can never forget the consequences of killing her child. I will never forget. There is not even one good outcome. All is despair, shame, guilt, loneliness, emotional & physical scars.
- 7) How has your abortion affected others in your life? No one knows - family - except mother. My mother has blocked memories of it.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? DON'T DO IT!! Parent or make an adoption plan. Nothing will ever be the same again if you choose abortion.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? It is an act of national and individual self-deception to believe abortion is not the taking of a life. Abortion is wrong, yes, because it takes the life of a child. But it also takes the life of the woman who has an abortion.

- 8) Based on your own experiences, what would you tell a woman considering abortion? DO NOT do it. It is murder and it will haunt you later in life. It is a little baby growing in time and it seems scary but there are places out there + people who will help you. A baby is a blessing and a life.
- 9) Based on your own experiences, what would you tell a court that believes abortion should be legal? NO. It is illegal to shed blood - we do not kill human beings (unless they are criminals who kill + hurt others). Little babies are as human as big babies and it is murder. Yes, women will still desire it as we desire chugs + other ills - but there should be a penalty for it. Protect the lives

I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

When I learned I was pregnant with my 3rd child, my husband told me to have an abortion or he would leave me. I tried to persuade him but he just didn't want any more children. It was the hardest decision I have ever made and the most emotional one. The worst day of my life. 2 years afterwards I fell into a deep depression, couldn't get out of bed - my mind couldn't seem to focus on the smallest of tasks. I attempted suicide - antidepressant pills which I had saved up. I was revived & hospitalized - attempted over marriage lasted 10 more years then ended in divorce. I have since remarried and have had 15 yrs of a happy Christian marriage. I still have trouble with depression in winter months & am on an antidepressant.

My name is Joan Ellen Stoner. [REDACTED]

I am over the age of 18 years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

I became pregnant out of wedlock at the age of 17 by my then current boyfriend. My boyfriend wanted to marry me, but I was not willing to marry him. He and his family then began to "talk me into" having an abortion. I have always been against abortion and at first refused to do so. I did not talk over the subject with my mother because I was frightened to tell her that I was pregnant and of her reaction. Then a good friend of my boyfriend's began to talk to me. She told me about her history of being pregnant and not married and how it had ruined her life to be a single parent and, after much persuasion, I reluctantly agreed to have the abortion. Planned Parenthood also made their fervent case to me about abortion being the only answer.

I was three months and probably a week or so into my pregnancy. Because I was at least three months pregnant, I was sedated. However, I don't think I was fully sedated. I remember having dark "dreams" during the abortion process. I remember being awakened afterwards and feelings of complete emptiness afterwards.

I don't think I thought about it much immediately afterwards. I just felt "numb" and "empty." However, in the years since that time guilt, regret, and sorrow have filled by soul regarding the abortion. I now know in my soul's heart that I killed my own child. I have asked God for forgiveness and, at this point in my life, I believe I have received God's forgiveness. However, it was a long road towards that realization. I could not even look at a model of an unborn fetus at three months age without crying. I couldn't believe what my baby had looked like when I killed it. I will never forget my child. I know he or she is in heaven with God and that some day I will be able to see my child.

It is my firm conviction that young girls who are pregnant and desperate are not given full and complete information or told what their choices really are. The emotional and spiritual impact an abortion has on many women is never, ever conveyed to the young and desperate. The so-called

~~My~~ Sacrifice

I had a dream that seemed so true,
About a monster—I didn't know what to do.
First he ate my arms, then went for my feet,
Don't you remember on your tummy I beat?
He hurt me bad; I screamed in fear.
O Mommy, why weren't you near?
I don't understand; what have I done?
I thought that together we'd have lots of fun.
Why didn't you help me? Why weren't you there?
Don't you love me? Don't you care?
I cried for help, but there was no motion.
The monster said his name was Abortion.
I just want to be normal, don't you see?
I wonder what would have become of me?
Then Jesus picked me up and gave me a kiss.
He said I'd live with Him, while you I would miss.
So I love you, Mommy, and always know
I'll be in your heart, wherever you go.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: NOV. 12, 1988 - York, PA.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? NO If not, explain:
The term abortion was not used. It was called a termination. They kept repeating they were there to help me. No one suggested that I should think about it or not go through with it.
- 3) Were you adequately informed of the consequences of abortion? During a brief counseling session, I was sobbing so hard, I cannot remember what the young girl told me. I signed a paper I was unable to read due to my tears releasing the center of liability.
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO.
There was no information on that at that time.
- 5) Did anyone pressure you into having an abortion? YES. If so, who? Indirectly, yes, my husband was devastated by the news due to our ages -40's- he wanted an early retirement, we had two children to put through college. I felt obligated to abort to help our family.
- 6) How has your abortion affected you? First, I experienced relief, that deep grief, guilty night-mares, anger, sadness, a feeling of worthlessness, depression, crying. I felt alone and lonely, for I could tell no one. I was silent, but wanted to speak out, but who would listen after all it was my choice, who would understand. Only through God's love did I find relief.
- 7) How has your abortion affected others in your life? My husband would not discuss it, read about it or listen to it on T.V. Our oldest daughter cried and had night-mares. When our second daughter found out she was angry at us, she tried to commit suicide.
- 8) Based on your own experiences, what would you tell a woman considering abortion? I would inform her about the 'TRUTH' of Abortion. The emotional consequences & the physical. Plus that the life within her is a baby, aborting kills that life, nothing will bring that life back if abortion is chosen.
- 9) Based on your own experiences, what would you tell a court that believes abortion should be legal? I chose abortion not because I wanted to end a life, rather in my mind during this crisis I kept thinking 'It's legal, it must be okay.' If it was illegal, I would not have considered it nor would that option been considered by myself or my husband.

Before me, the undersigned authority, on this day personally appeared J [REDACTED] G [REDACTED], (Print Name) who, being by me duly sworn, upon oath, stated the following facts:

My name is J [REDACTED] G [REDACTED]

I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

I am caused profound regret by the desperate actions I took when I was 16 years old. At that time I believed I was pregnant, although I had not yet taken a pregnancy test. It had been 33 days since the beginning of my last period. That length of time was very alarming because I kept track of my unusual cycle and knew that it was four weeks long; 14 days on my period, then a two-week break before it started again. I was not sure how I was going to tell anyone about my pregnancy, except my boyfriend.

I had hope as a friend drove me to see him. My boyfriend was the only person I thought I could count on despite the fact that we had a constantly on again, off again relationship. Because he and I had been intimate, he knew I was no longer a virgin, and that was my big secret. When I did see him that day he broke up with me before I could tell him anything. All my hope was gone.

I lived twenty minutes outside of town and had no car or license. I had heard of Planned Parenthood through school but did not have the means to pay for an abortion even if I wanted to have one. I had thought of talking to my assigned school counselor but I did not want to confide in a man about this and certainly not one I had heard was mean. I, otherwise, did not know where or how to seek council. I was alone and desperate. I was thinking about keeping my baby, but fear prevailed. Although I did not want anyone to know I was no longer a virgin, I was most troubled at my mother finding out. I dreaded how she would react to any news because we did not have a good relationship and she already had too many financial demands in caring for my two sisters and I. I was also afraid to bear the stigma of a teen mother. At that point, full of fear and believing I had no alternative, I decided to end my pregnancy.

I took a large amount of aspirin in one dose. I did not think this amount would kill me since I had on two previous occasions taken 2500 mg's less while seeking a kind of high. About 15 minutes after taking the pills I worried that I had taken too many, so I tried to make myself vomit. I gulped down scoops of mayonnaise, and then swallowed raw eggs. I had believed the aspirin would be enough to effectively end my troubles and keep my secrets hidden. I was extremely wrong! It only took me 15 minutes to realize I had just caused many other problems and possibly a future of suffering. And yet, I still did not understand just how far this suffering of pain, sorrow, and remorse would go.

For the next three days I was in a half-conscious state. I went to school with clammy hands and my body was sweating. I could hear my own rapid, deep, breaths, there was a loud constant ringing in my ears, and I could feel my heart pounding in my chest. I could not concentrate at all. I was a little afraid of what I had done to myself, and what effect the pills would have on my baby if it survived all of this. Sadly, during those three days only one person, a teacher, noticed my unusual behavior. She asked if everything was okay or if I was all right. I don't know what my answer was, but I thought I would feel better when I got my period. Finally my period started on the third day after I took the aspirin.

When I was at home I had several blood clots that were larger than normal. Then to my horror and curiosity

came out a blood-mass the size of my fist that reminded me of a heart. I was very afraid of what I might see if I looked thoroughly through this mass. With hesitation I carefully looked into only a small area and was relieved that I could not see anything I could identify as a little baby. This had given me some consolation that maybe I hadn't done something so horrible after all, but still I was holding proof of all my wrong doings in my hand. I felt sorrow and wanted to bury my little one. Even then I was afraid my secret pregnancy and abortion would be exposed because someone might see me burying my little baby; and I was also afraid that an animal would dig up the gravesite. Regretfully, I decided to take no chances of getting caught and with a heavy heart I hid my little baby in the trash.

Over the years there were times I thought of that child. I was sad if I observed a young mother and her child, both appearing to be the same age as my child and I would have been. Sometimes I only noticed if a child's age matched the age of the child I would have had. I was especially sad when I developed a close relationship with such a child. Even though I would get sad and grieve occasionally, it really took about ten years for me to finally remember and think deeply about what I had done. My memory came back about two years ago with the birth of my daughter.

The last two years of my life have been filled with intense repeating anguish because I often remember the child I destroyed. I have cried so long and so many nights about this. At times my tears fall for at least three hours, and I spend the rest of the day grieving. Other times while looking into my toddler's eyes or just watching her and thinking of how much love I have for her, I am painfully reminded of my other child, whom I denied of life and also denied myself of. It hurts me that think that if my two-year old were the little baby conceived ten years ago, I would have killed her. In a way I did, because I killed her sibling, a child I would have known and loved just as much.

Those women I know who have had children at a young age and weren't prepared for them at that time, have amended their lives and their babies gave them the hope and motivation they needed to do it. Because of their little ones, they began to care more about themselves and the world. They are now out of trouble and work to give their children and themselves a better life. Had I not destroyed my baby when I was 16, it's very likely my life would have been influenced the same as theirs, with the same good results. Because I have been raising my daughter, I know what joy I could have had in my joyless teenage life and think I could have been a decent parent even though I was young. I know that having children is a great cause for caring more about the world, keeping out of trouble, as well as the hope and motivation they bring to a home. To raise a child is very rewarding and life enhancing even though it can be difficult at times.

I do have a good life, except for my deep longing for my first child and a recurring sadness over what I have done. Now when there is mention of abortion, I must act. If, in acting, it is necessary to reveal my secret, I will. I do not want anyone to make the same huge mistake. I am still young and will most likely have another 50 to 60 years to think about what I have done to my child. I now know God, have a great, wonderful husband, a beautiful, wonderful daughter and another special baby on the way, all of whom I love so much; yet, I wish I could give my first child life again.

Thirty-eight days from the first day of my last period I did finally take a pregnancy test, which came out negative. After all I have seen and done, I believe the test came out negative because I aborted my baby so early and then intentionally waited until three days after to take the test. Early 2004 was the first time I talked of this tragic event to anyone in detail, but even then it wasn't until August of 2004 that I finally told my doctor what I did when I was 16 years old. She said it is now too late to tell if I had been pregnant. I suppose there is the slightest hope for me that I was not actually pregnant; but even so, my sad intent was there and I still feel a tremendous loss, sadness and continue to grieve.

Since no resolution has been obtained in speaking with my doctor, and I continue believing I was pregnant and ended my pregnancy as I have believed for over a decade, I conclude by stating that which I often think and feel: I can never go back in time and undo the horrible thing I have done. I have taken the life of my unborn child and that haunts me. I have to live with a great guilt and suffer so much over my dead little one. Right now I get to live as does my two-year old and my newly expected baby, but I took that right away from my other child who would be almost twelve now.

AFFIDAVIT

COMES NOW Patricia A. Goltz to affirm and say:

That at the end of September, 1977, I had a hemorrhage, and went to the hospital emergency room at Tucson General Hospital, Tucson, Arizona, where they kept me overnight. By the time I arrived at the hospital, my bleeding was under control on its own. I was kept overnight for observation. In the morning, Dr. Till, a local abortionist, was called in as a consultant. At the time, I didn't know he was an abortionist. I had told Dr. Goedicke, my family doctor, some time before, that I would never work with a doctor who believed abortion was acceptable. When Dr. Till examined me, he told me I had had a miscarriage, but he needed to do a D&C because there was still something in my uterus. I was very intimidated by his manner; he did not show me respect. I did ask the doctor his opinion on abortion, and he gave me a very nebulous answer. I told him that I did not think I would have him do it. Immediately, he became very angry with me and said, "That's your privilege," and went out, slamming the door. The overall impression he gave me was that my life was in danger and I HAD to do this. Because of his decision, the hospital staff refused to give me anything to eat or drink. The doctor never discussed the risks or alternatives with me. An hour later, they did a pregnancy test on me, but although the results were supposed to be back within an hour, I did not learn the results until two days later. I was still pregnant. Later the day of the doctor examination, my family doctor's partner came in and told me that they couldn't help me. I needed to be discharged, and go to St. Joseph's, and I would be met there by a doctor who would do a D&C on me. He was unaware that I had already spoken with the doctor who was named. That doctor had told me to go home, so I agreed to go to St. Joseph's, but instead, I went home.

Subsequent to this, my pregnancy continued, and a month later, I experienced slight bleeding. The following month, I experienced no bleeding at all, and I began to feel my baby move. The movement was very faint, compared to my previous pregnancies. On December 4, I felt strong movement, and then all the movement stopped. However, I did not have a miscarriage. Instead, I remained pregnant. After a few months, it became obvious that I had actually conceived a second child in mid-November, and it was this child who sustained the pregnancy. One year after I first became pregnant, this child was born. He is now a healthy 22 year old who has a third degree black belt in taekwondo, is working, and is engaged to be married. At his birth, there was no sign of the other child, but it is a matter of record that I did carry the first one. There is a medical name for this occurrence, but I do not remember what it is. I am personally acquainted with one other case like mine, resulting in the life birth of two babies conceived two months apart, both of whom reached at least middle age.

That after I was discharged from the hospital at the end of September, as soon as I found out I was still pregnant, I began to experience horrible nightmares every few nights. Two of them I still remember vividly. In one of them, I was being chased through the streets of town at night. It was dark and raining. There were street lights. The man chasing me had a huge butcher knife. I was very pregnant. At the last minute, I got away. In the second one, I was outside, and I was trying to climb an interminable set of stairs. I was very tired, and a gang of men was trying to rape me. I was very pregnant. At the last minute, I got away. These nightmares continued until my baby actually died. But the lingering fear that the refusal of the hospital personnel to feed me or give me anything to drink contributed to the death of my child still haunts me to this day.

That I was never informed of anything whatsoever by the abortionist. He never mentioned abortion at all, and he did not tell me that I might still be pregnant. He never informed me of the risks of what he proposed to do, and never gave me any information on the risks of not doing what he wanted me to do. That because of the hospital setting, I never dreamed anyone would

try to perform an abortion on me. It was quite clear that he was prepared to take the life of my child without my knowledge or permission, and that he was unconcerned about whether my baby was still alive or not, nor was he concerned about what I might want. It is also patently clear that abortion was NOT needed to preserve either my life or health. I was not disabled in any way from the situation, not at that time, and not at any subsequent time.

That subsequent to this, I attempted to find a way to sue the abortionist for the emotional harm he had caused me, and learned that because he had not actually performed an abortion on me, I had no cause of action. I believe that Roe v. Wade also contributed to my inability to seek redress of grievance. I was never compensated in any way for this emotional harm.

That based on my experience, I would never encourage any woman to have an abortion, but would do everything in my power to discourage her. I would tell her that abortionists will not tell her anything of the dangers, or use care in determining her medical condition or the risks of performing an abortion on her, or the risks of allowing her to carry to term. I would tell her that an assault on her body to solve a social or financial problem is ludicrous. I would tell her not to make such a decision without a lot of thought and investigation, and to make sure she knows all the medical risks, and take her time, and look for alternatives and if at all possible to choose a different alternative. I would tell her that she could be risking her life, and her health. In fact, I often do speak to women who are considering abortion, and I always try to talk them out of it. Prior to my experience, I was willing to allow it to be legal to perform an abortion on a woman to save her life. After that experience, I think it should not be spelled out in the law that it is legal to do an abortion in that circumstance, because that was the circumstance I was allegedly in, and the law provides that a person may use deadly force in self-defense, provided the force is not excessive, and that is sufficient legal provision for the situation where a woman's life is in immediate danger from a pregnancy. In talking to many women, I have seen the terrible suffering that abortion has caused them, and I have become aware that some of my closest friends were seriously damaged by legal abortion. One had a baby who was born prematurely and had apnea so bad that he had to be hospitalized for three weeks. Another almost died after her abortion from an undiagnosed ectopic pregnancy. I also tell women sometimes that once I was able to talk a woman out of having an abortion, and that she subsequently learned she had a placenta previa, and that I checked with a medical doctor about my suspicion that an abortion would have killed her under the circumstances, and he confirmed the likelihood of it. She has since had her baby and both are in good health.

That I would tell any court that believes that abortion should be a woman's choice that as a practical matter, few women if any really freely choose abortion, but that they are being coerced either by the people in their lives or by circumstances or both, and that abortion has proven to be an easy way out for people who don't want to give women real and meaningful rights. That the idea that a woman can freely choose abortion is a lie and a myth, and that the law abandons the woman as well as the baby when abortion is legal. That we need a law to protect women from unscrupulous abortionists, and that the only way we can have such a law is to make abortion illegal and prosecute abortionists.

That the element of coercion, pressure, and fraud were painfully and blatantly apparent in my case after the fact, and that I was extremely lucky that I refused to accept the doctor's strong pressure, but that even though I was able to escape abortion, I was not able to escape the emotional consequences of what he had done to me, and in that sense, my right to choose to be free of that kind of emotional trauma was taken from me.

That every time I try to talk a woman out of an abortion, and she has one, and subsequently suffers, I feel guilty that I didn't try harder to talk her out of it. That the burden of trying to protect women from unscrupulous abortionists borders on being emotionally debilitating, and that this has been an ongoing source of stress for me nearly all of my adult life. That I feel physically ill any time I think of what abortion does to women and children. That the need to protect women from abortion has been a major factor in my life, and has caused me to expend time and energy

that I would much prefer to use to help people with other problems, in which I could make a difference. That I have a lot of company among other women who have never had abortions, and that the emotional consequences of having abortion available has wreaked havoc in their lives just as much as it has in mine. That I no longer trust the medical profession to protect my life or that of my children, and this lack of trust has proven to be a serious burden, and generated fear that if I am ever incapacitated, doctors will not give me ethical care, and I cannot count on them to make ethical and wise decisions in my case no matter what I do. That I will never be able to relax when I cannot defend myself because of my medical condition, and that I have totally lost respect for the medical profession for allowing abortion to go on.

That I blame abortion on demand as a major factor in the hatred and violence that has developed in society since I was a child, and has warped our attitudes toward each other and made us into a totally self-centered society, where everyone is effectively your enemy and you cannot really trust any stranger.

That abortion has driven a wedge between women in our society and caused alienation among us, and caused us to fight each other instead of sexism and discrimination, and that many women who have had abortions are emotionally incapable of seeking rights for themselves. That I always try to warn women of the medical dangers I am aware of, and that I have received a great deal of criticism for doing this.

I have written and read the above and foregoing statement and the same is true and correct.

Please use my full name. I am not afraid of anybody on account of my stands.

My signature evidences my authorization to use this affidavit for all purposes.

who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your abortion occurred: AUGUST 1974 San Diego, CA

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? NO

4) Did anyone pressure you into having an abortion? If so, who? yes, My parents, my boyfriends parents, the pastor of my church, my aunt who worked for planned Parenthood.

5) How has your abortion affected you?
I have lived with regrets and feelings of guilt since 1974. Every day is thoughts of what I experienced. Depression is within reach I have to fight it every day. When I think I have dealt with it all, I am frequently overwhelmed with emotions and have to start over.

6) How has your abortion affected others in your life? I have learned to live to where my pain is private, internalized. But I knew that my children & husband were affected and confused by anger outbursts or when I would allow myself to "fall" into depression.

7) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her, that abortion is Not a quick fix or a reasonable solution, it is something that she will have to live with the rest of her life. There are alternatives, Choose Life!

8) Based on your own experience, what would you tell a court that believes abortion should be legal? I would tell the court that abortion isn't about ending a pregnancy, its about killing a child and affecting women in ways they would never under stand! 2 lives destroyed.

"I have read the above and foregoing statement and the same is true and correct."

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: 1978-79 1985 Northeast Women's Center Phila Pa
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: its been so long ago I'm sure they told me about being sedated the sounds I would hear & the time in recovery & what to look for after in the way of spotting & etc & the follow up exam.
- 3) Were you adequately informed of the consequences of abortion? but no one mentioned the depression that certain sounds would trigger panic & shame & I guess this is where the numbness & hardness comes in for survivors sake.
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
I am 41 & as of 8/02
- 5) Did anyone pressure you into having an abortion? NO If so, who? the center they never counseled on an alternative to abortion
But the father of the child came to the medical center to try & talk me out of it they wouldn't let him make contact w/me.
- 6) How has your abortion affected you? For many years I was numb I had a stillborn first I became harder than nails, didn't even want into a self-destructive path of drugs, alcohol & more promiscuity in my escape so I did slow down & found myself pregnant again during the 2nd procedure I wanted them to stop (they did) now that I cried out God help me it took many years to face & acknowledge my crime against child, myself
- 7) How has your abortion affected others in your life? And he has helped me but that very moment till now to love. my lack of trusting my family & friends to help me raise a child must have put a fear & despair in them, the father of the child was depressed & had a very hard time
- 8) Based on your own experiences, what would you tell a woman considering an abortion? These are other options you may not see them now your life at this time may be a living hell or your career seems at this time to be more important than this child. But nothing compares to the desolation that comes after the choice of abortion not only the child dies, but so do you. it's terrible.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Since when is murder legal? Are not the courts set up to preserve order & justice moral ethics, dignity & human rights born & unborn the right to life, liberty, the pursuit of happiness & justice for all. Also the effect on humanity when one life means so little we tend to look at all living things with no value & therefore moral decay abounds respect for life is gone no one cares, nothing matters

I made the wrong choice & I wish I didn't have one

The State of Arkansas

BEFORE ME, the undersigned authority, on this day personally appeared Brandie M. Atwood (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 1987 (I was 14), Little Rock, AR
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No. No one told me at any time that I would suffer MAJOR Depression, Suicidal thoughts that lead to an attempted suicide, and that it would carry over to other pregnancies (crying, guilt, etc.).
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? _____ If so, who? I wasn't given a choice other than abortion. My mother simply took me to an abortion clinic and they spoke mainly to my mother. No one sat me down and told me I had other choices.
- 5) How has your abortion affected you? Abortion turned a fourteen year old school girl into a suicidal pre-teenager that lived with feelings of guilt, rejection and helplessness. When I got married and became pregnant, I cried constantly over the baby I killed. I was an emotional wreck throughout that pregnancy. Everyday that I was pregnant I kept thinking of the baby I aborted; how old would it be, was it a boy or girl? The abortion I had in 1987 affected me negatively and came out (or manifested itself) as lots of bad decisions throughout my teenage years. I never forgave myself until Jesus forgave me.
- 6) How has your abortion affected others in your life? Yes, dramatically! My mother lives with guilt over taking me to have an abortion. She hasn't forgiven herself to this day. My real father found out I had it and hasn't spoken to me since 1987.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? You will have feelings of shame, regret, guilt and pain for years to come. That baby is your flesh and blood - a true gift straight from heaven. ~~It~~ If you have this baby, yes, you will have pain and hurt feelings for many years to come, but in between you will have many, many moments of laughter & love.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion destroyed my life when I was 14 years old! Abortion leaves more emotional scars than physical. I felt alone, isolated from my friends and family. When I was pregnant and married, 10 yrs. later, everyday I cried over the baby I killed, I cried everyday! After my abortion, I started doing drugs, sleeping around, and tried to commit suicide. There isn't enough room here to tell you the full extent that abortion has had on my life. In many states, a pregnant woman cannot get a divorce -- why, then can she make the decision to take her baby's life? I have read the above and foregoing statement and the same is true and correct."

- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No I was not told anything except I was spotting blood and would probably lose my baby anyway.
- 3) Were you adequately informed of the consequences of abortion? No. (See above) *I was not informed of the link*
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? NO. I developed Breast Cancer in December 1989. I had a mastectomy in March 1990 and 6 months of chemotherapy.
- 5) Did anyone pressure you into having an abortion? If so, who? No. I was 25 years old with a mind of my own.
- 6) How has your abortion affected you? In 1983 and 1985 I gave birth to ~~two~~ healthy girls after spotting blood during the first trimester with both pregnancies. I wonder often, still today if my first pregnancy would of resulted in a healthy birth.
- 7) How has your abortion affected others in your life? I married the father of my aborted baby and although we don't talk much about it, it still hangs over our head like a dark cloud.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? Don't do thru with it, you will regret in later. Talk to women at least 2 years after their abortions about how they feel. Get all the information you can on the procedure.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? God wrote on each of our hearts what is morally right and no court can legalize that away. It will come back to haunt you later and that is a good thing because then we have a chance to ask forgiveness for the terrible thing we did.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: January 30, 1982 in Little Rock, AR
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I was not informed of any physical problems associated with abortion. I did not know that it could, and did, maim me for life.
- 3) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 4) Did anyone pressure you into having an abortion? yes If so, who? The father of the baby.
- 5) How has your abortion affected you? I was 19 yrs old and it was my first and only pregnancy. I had to have a hysterectomy 3 yrs later at the age of 22. I began a lifestyle of drinking heavily and became very promiscuous. I sank into a 10 yr depression with thoughts of suicide and began cutting on myself. I was hospitalized 5 times for depression and suicidal thoughts. I was riddled with shame and guilt. My life was a walking hell and I was bound by torment. I withdrew into myself emotionally and eventually quit going out, except to go to work. I also gained a lot of weight, at that time, to keep men away.
- 6) How has your abortion affected others in your life? It hurt my mother deeply. She loved her grandkids and took great joy in them. She was never able to meet my child. My brothers and sisters lost a niece or nephew. The person it affects most is my husband. I cannot give him children.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Abortion hurts women both mentally and physically. The physical damage can't be undone. It is a dangerous procedure with many health risks involved. Please don't do it. The emotions and pain that you may be feeling now are nothing compared to a lifetime of suffering the aftermath of abortion.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion physically damages women, as well as emotionally. If a woman tries to hurt herself, she would be taken to a psychiatric hospital. Yet, by making abortion legal, you are giving doctors a free license to do it. Abortion should not be legal. It should not be a choice that women have. When a woman becomes pregnant unexpectedly, she is not in the right state of mind to make a life altering decision such as abortion.

- 1) Tell approximately when and where your abortion occurred: Oklahoma City, Oklahoma about July in a clinic 1979 ~~cost \$260.00~~ cost \$260.00
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No. I was told about the procedure and how they were going to do it. Never did I know they were going to show me my small fetus in a tube with its life sucked out of it.
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? yes If so, who? My father & mother. I had to choose family or child born and totally banned from my family forever was the ultimatum
- 5) How has your abortion affected you? It made me FEEL ashamed ^{and} no better than a murder in prison. I dreamed for a long time about my wrong decision. I would look at other children wondering what my child would have been like. Abortion is not a quick fix. It is a BIG emptiness that no one or thing can ever fill that void. Tremendous anguish. If it wasn't for God's unconditional love and forgiveness to wash away the guilt and pain I would be a vegetable, insane or dead from killing myself. It only for Jesus. I can help expose this wrong to innocent children.
- 6) How has your abortion affected others in your life? It is a secret I have kept for almost 21 years. My children 18 and 20 don't understand how or why I could kill a child. No matter the reason.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Don't do it. There is an alternative whether adoption or the family raising the child. It would still be a difficult decision but the ache in your soul would not be as great. Reconciliation would always be possible, hope of understanding in the future.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is not a necessary medical condition. If a mother has complications that jeopardizes the child life, it may be necessary to choose mother or child to be saved. Only then the child might not be able to survive but that is not an abortion. Abortion doesn't give a chance to life that God gave the child when the sex act was performed. Not a convenient escape to excuse a free irresponsible sex lifestyle. Children are not like notices on a gunslinger belt when he kills a person. Children are a blessing from the Lord God to be cherished and loved.

- 3) Were you adequately informed of the consequences of abortion? No There was not any kind of counsel at all. I had no idea that I might have difficulty getting pregnant in the future.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No No health risks were mentioned, or discussed.
- 5) Did anyone pressure you into having an abortion? No If so, who? I thought it best because I was not married and I felt my chances of meeting and marrying a "nice" boy would be reduced. My decision was selfish, and I've paid dearly for it.
- 6) How has your abortion affected you? I am 47 years old. I have only been pregnant once since my abortion and I miscarried. Had a miscarriage. How sad. I would have been a great mom. I often think of how old my child would be. I believe my baby was a boy. I wonder what he would have become. I think of how close we could have been. It is a profound loss.
- 7) How has your abortion affected others in your life? My husband & I are childless. My dream was to marry, have children and a home. Stability, a family. With a careless choice, my dream has been robbed - for life.
- 8) Based on your own experiences, what would you tell a woman considering abortion? There are other options. Better options. Ones that leave you healthy physically & emotionally. Options that do not leave you searching for a means of redemption.
- 9) Based on your own experiences, what would you tell a court that believes abortion should be legal? Killing is a crime and we need to get our heads out of the sand. A fetus is an unborn child at any stage. To believe different is to believe al lies. All human life is created in the image of God. No court has the authority to say different and not suffer the consequences as a Nation.

- 1) Tell when and where your abortion occurred: Little Rock, Arkansas, 1978; age 19.
2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No. In fact the only information I was provided was about the medical procedure itself. No information whatsoever was given to me re. the complications, risks, emotional, physical, spiritual complications. I did ask for this information.
3) Were you adequately informed of the consequences of abortion? Not at all.
4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? Not at all. Maternal history of breast Ca. I needed that information.
5) Did anyone pressure you into having an abortion? If so, who? I did want this - but I was also pressured by boyfriend (later became my husband).
6) How has your abortion affected you? I dealt well with all other complications - it was the spiritual after-effects I could not reconcile in my relationship with God that came later. The most difficult aspect for me was forgiveness of self.
7) How has your abortion affected others in your life? No one knew from 1978-2000. "Deep, dark secret." Since January, 2000, I've begun using it as a catharsis to help the pro-life political arena and other female post-abortion.
8) Based on your own experiences, what would you tell a woman considering an abortion? Get all the facts. It is a profit-based medical field. The provider doesn't have to live with consequences of your abortion. No, it may very well take you years to emerge from denial - but when you do, it will be devastating. Abortion is forever. You can't go back and change it.
9) Based on your own experience, what would you tell a court that believes abortion should be legal? # 8. In addition, this is an issue of conscience - society deciding who lives & who dies based upon convenience. A woman's right over her own body does not extend to the body and life of any other human being - born or unborn. In 1973, upon Roe v. Wade's decision, it was highly debatable (so-called) that human life existed upon conception. That is no longer the case. Also, reference "I have read the above and foregoing statement and the same is true and correct." "Jane Roe's" own decision to not abort after all.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: November 1985, Knoxville, TN
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No, I was only told it was a medical procedure that I would recover from
- 3) Were you adequately informed of the consequences of abortion? No
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? If so, who? No
- 6) How has your abortion affected you? I have lived with the guilt and shame for 19 years. I have experienced anger and low self-esteem as a result. I have condemned myself for years for my decision and what people would think if they only knew.
- 7) How has your abortion affected others in your life? My mom and I don't talk about it because its an uncomfortable subject for her.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? Consider the alternatives and the consequences of this decision because it not only affects you but it affects every one in your life, especially your unborn child. You can't take it back once its gone and you may not regret it today but you will regret it at some point in your life.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? The pain, regret, and emotional baggage that follows this decision is enough to tell you it shouldn't be legal. The fact that its immoral and against God's law should be enough but when you jeopardize a woman's life and doctors can't be honest about the possible consequences then that should be enough.

BEFORE ME, the undersigned authority, on this day personally appeared Sandra Mauldin (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: June 1991; Planned Parenthood; Little Rock, AR
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? Yes If so, who? My mother and father.
- 5) How has your abortion affected you? It has shattered my life beyond what I could ever sufficiently put into words. After the abortion, I became an alcoholic and ended up in the psychiatric ward of a mental hospital. I lived a promiscuous lifestyle and did not care if I lived or died. My life changed when God spared me from dying from a drug and alcohol overdose. Since then I have been living as a born-again Christian. Even so, I still suffered from what I later found out was Post-Abortion Stress Syndrome. The only reason I have chosen to live and fight through this is the hope that God will use me to expose the atrocity of abortion and prevent another person from choosing the awful "choice" of abortion.
- 6) How has your abortion affected others in your life? The abortion and the effects of it were the cause of my divorce.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Do not do it. Do not believe the lie that it will solve your problem and you can just move on like you just got an abscess tooth pulled. You will not only be killing your child, but you will be murdering your own heart and soul as well.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? In order for evil to gain acceptance among otherwise well-intentioned people it must gain acceptance as something else - something more palatable - something that can deflect the truth. Abortion is murder, and we as a society can and should do better than this.

Even becoming a messianic Christian (A Jewish ~~some~~ person who accepted Jesus Christ as God & savior) didn't take care of this overwhelming emptiness. I could not understand how anyone could love me especially God! BEFORE ME, the undersigned authority, on this day personally appeared Courtney Mitchell (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: December 28, 1997 at Potomac Family Planning center
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? NO If not, explain: I was not informed of the procedure & how depressed that I would feel afterwards
- 3) Were you adequately informed of the consequences of abortion? No After I had the abortion I felt so ashamed and dirty & lonely.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? Yes If so, who? His name was Richard Eshelman and he was my boss. I was only 17 and he and I was having an affair. He was 40 and he told the people at the clinic that he was my dad.
- 6) How has your abortion affected you? There has never been a day since the abortion that I don't think about how I murdered a helpless child, not just a child, my child. I could never forgive myself, but Jesus Christ forgave me and is healing my pain.
- 7) How has your abortion affected others in your life? I was so ashamed to tell anyone.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? If you are not ready to be a parent then that's fine. She can give the child up for adoption. But don't be blinded by the "Quick Fix" that she will spend the rest of her life regretting.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? The United States motto is "In God We Trust". Anyone who is "pro-choice" does not trust or believe in God. They will be judged someday. I wish that could take a glimpse in my heart at all the pain and suffering this has caused.

To be filled out by women who have had an abortion.

The State of Arkansas

BEFORE ME, the undersigned authority, on this day personally appeared H. A. M. (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: June 1985; Wichita, KS
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No, I was not.
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? No If so, who? Although, my step-mom gave me lots of reasons why I should abort, and she encouraged me to abort - even paying for it, and making the appointment & taking me.
- 5) How has your abortion affected you? My abortion has affected me emotionally to the point of extreme depression, suicidal thoughts, night terrors, insomnia; lack of self-worth; anniversary reactions; countless hours of mental health therapy; thousands of dollars for prescription medication to off-set panic attacks, which I still face today - over 18 years later.
- 6) How has your abortion affected others in your life? My baby's dad and my husband has been deeply saddened at our loss, as are my parents and in-laws. Unfortunately, my step-mom continues to "help" others obtain abortions with similar empathy/trauma that I have mentioned above.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would tell - and have told - women considering abortion to not do it! I have counselled many women to choose life for their unborn baby and to save themselves from a lifetime of regret and pain.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I would tell a court that believes abortion should be legal that they are catering to the abortion business. Abortions must be illegal! Women have been lied to for over 30 years. Countless women suffer psychologically - many have committed suicide. Women are being exploited for the sake of money and it must be stopped. If I had more room, I'd tell them a lot of other reasons why abortion must be stopped!

- 1) When and where did your abortion occur? Dec. 2003, Little Rock, AR (Family Planning Facility)
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: No one explained exactly what the procedure was. She told me I felt a stick in my cervix & that's about it. No counseling!
- 3) Were you adequately informed of the consequences of abortion? NOT at all!!!
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? The father of the baby & my sister.
- 6) How has abortion affected you? I can't put into words the mental anguish, guilt, grief, such deep pain as I physically feel the hurt in my heart. Right after the abortion I felt numb & then sank into a depression & was suicidal. 4 months after the procedure, I sought medical help before I killed myself & left 3 daughters with no mother. I went to counseling and now, a little over 2 years after the abortion, can say without a doubt, had I known about post abortion syndrome, the agony I would experience over the loss of my child, I would NEVER have had the procedure. Why was it treated like a tooth being pulled? I'll never hold my child Earth.
- 7) How has your abortion affected others in your life? My mother grieves for her grandchild. Others sympathize with me & help me through my grief.
- 8) Based upon your experience, what would you tell a woman considering abortion? Please, please think about the long term effect the choice could have on your emotional & mental wellbeing. Pray, pray about it. Don't do it!
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? It should be illegal except in extreme cases and if nothing else, counseling on effects of abortion on mental health should be mandatory so an informed decision can be made!! (I am now enrolled in a bible study for healing after an abortion & intend to reach out to other hurting women.)

You may feel a sense of relief for a very short period of time, but it quickly turns into guilt, remorse and worthlessness. After 20 years I'm finally seeing how this has affected my life & I am getting help. I thought I was okay + I could deal with it - but I was wrong.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? A young woman (or any woman) should not be allowed to make such a decision because it is murder - it is a baby.

- 1) Tell when and where your abortion occurred: February 5, 1991 at Maxwell Baldwin, MD's office at medical tower building at Baptist Hospital
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No. I told the nurse a book I had said that fetuses of humans were almost indistinguishable from other mammals in early pregnancy. She said this was right. I was terrified when I had an ultrasound and my oldest son when I was 13 weeks pregnant.
- 3) Were you adequately informed of the consequences of abortion? The only thing they asked me if I wanted birth control pills and they told me about my follow up visit even though I was crying and upset.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? I didn't know there was a link
- 5) Did anyone pressure you into having an abortion? If so, who? My boyfriend told me that my job would fire me since I was 6 months pregnant. I had just started my job. I thought that was true.
- 6) How has your abortion affected you? I was really depressed for a long time after it. When my oldest child was in total distress during labor, I felt like God was punishing me for what I had done.
- 7) How has your abortion affected others in your life? I feel like I'm not good enough as a mother. No matter how good I do, my children are growing up thinking mother who feels bad about herself is stupid. Someone who is self confident is a real shamp.

I was don't want my child, there is somebody who would love to take them. And you can change your mind and abort before the baby takes your pregnancy.

- 1) When and where did your abortion occur? 1978 in California
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: I was told about the procedure, but not what it could do to me physically or mentally.
- 3) Were you adequately informed of the consequences of abortion? no
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? _____
- 6) How has abortion affected you? I regret allowing a doctor to kill my 1st child. I know that I cheated myself and family out of a blessing. It is hard to forgive yourself for such a thing! But God is faithful to do just that. Our family is not complete, there is one missing. Because I was scared I decided to make a very selfish decision, and there were those that were happy to oblige me.
- 7) How has your abortion affected others in your life? cheated them of another son or daughter; brother or sister, and grandchild.
- 8) Based upon your experience, what would you tell a woman considering abortion? It will not end with this abortion; take time to think about all your options; get information about how abortion can affect you.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? abortion kills another human, the weakest of all humans. It is already not legal to kill, but because of our selfishness and blindness we are blinded by the truth, abortion is murder!

"I have read the above and foregoing statement and the same is true and correct."

1) Tell when and where your abortion occurred September 23rd, 1965, in a private home in London
2) Were you adequately informed of the nature of the procedure, what it is, what it does? No If no, by whom, _____

3) Were you adequately informed of the consequences of abortion? No

4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No

5) Did you feel any pressure or coercion in having an abortion? No If so, who? My Mother & (2) friends
* 1st abortion "No"
* 2nd "Yes"

6) How did you feel about the abortion? It created a deep sense of unworthiness. I thought - on my own I had little to offer so material things became my crutch. I thought it the best of alternatives made someone else loveable & lovable.

7) How did you feel about the consequences of the abortion? Others were confined to 4 people (those I had confided in). Others were subjected to my critical nature - a result of lack of work.

8) Based on your own experience, what would you tell a woman considering an abortion? Don't do it. What seems to be the easy way out is the hardest road you will travel because you will soon realize that you have committed 1st degree murder and violated a commandment of our creator God.

9) Based on your own experience, what would you tell a court that believes in the sanctity of life? When you consider making abortion legal, ask yourself, is it legal for a woman to take a given child? Is that not murder in the first degree?

In the beginning I thought I was doing the right thing. Only afterwards did I realize the TRUTH!

* My conscience was seared, my heart broken. I lived in a state of depression looking at drugs as the answer to my problem. And the problem - I had killed my ~~child~~ child! See you don't realize what happens to yourself until it's too late, you've already done it and there's no turning back. I can't turn back time - if I could - I WOULDN'T HAVE AN ABORTION!!

* I was emotionally torn apart. I didn't know what happiness was, confusion, my best friend! I built a wall around myself with bricks of denial. Shutting EVERYONE out!! I hated myself. Thinking of suicide MANY MANY times, I could not live with myself.

(6)

My parents are in total denial. It has affected my father the worst. If anybody even brings

it up, he has to walk away.
He's just full of sorrow and
regret. He says he lives with
the "should haves".

Should have done this or
should have done that.

I ~~didn't~~ told anybody else
for something you believe is
right and are ashamed of and
won't ~~say~~ anybody - is a contrary
thing.

If you stand behind something -
you'll speak up for it.

~~Oh~~ Apparently, I didn't
stand behind it before or after!

He would tell her that an unborn
baby is life. If she (under all
circumstances) couldn't keep that
child - give it up for adoption.

There is too many Great Parents
out there that can't have the
opportunity to be blessed with
a child. Give them that opportunity.

Don't murder an innocent, helpless
child. We don't have the right
to decide whether they should
have life or death, that right
is NOT ours.

If we were talking about LEGAL

is it legal to murder any human?

Being Baby, Adult, black, white?

No! It's illegal and sometimes punishable with life in prison.

These unborn Babies with heartbeats, nervous system. Heart starts beating at 21 Days, is it not medically

correct that if the heart beats, it's alive?

So, we would say abortion is taking someone that is alive and killing them.

Murder! We are not by no means the one who decides if this person or this child should live or die. They're already alive!

WHAT DO YOU EXPECT?

Recently a friend called me and asked if I would check out a web site she heard about on the radio. This friend knew my story. I had shared briefly with her the pain in my heart from the abortion I had many years ago. After viewing the web site, I wondered if I would ever be able to revisit in detail those painful memories. I wondered if I wanted to. I had tried for over 30 years to bury those memories, to file them far away. But now, with God's help I am determined to open those hidden files, and to write down what I have gone through as a result of this one horrible decision and to share it with others. I am willing now to place this mistake in God's hands for him to use. I have tried to help others who were going to make the same mistake, but I never shared with them just how well I knew the awful pain they would be bringing into their lives. No one tells you about the aftermath that comes when they suggest abortion as a remedy for your situation.

I have just completed a Bible study about your mission in life. I realize now that sharing this event and it's fallout may be part of my life's mission. The aftermath that comes, the horrible burden of pain, guilt, and regret that floods over you when you have destroyed a precious child that God created is something people need to hear.

LET ME SHARE THIS TESTIMONY WITH YOU A HARD LIFE LESSON

By age 27 I was married and had three children. The youngest was eight weeks old. My husband and I were separated during that pregnancy for a period of weeks. This was nothing unusual for us. At that time I was a stay-at-home mom and we were totally dependent on my husband for financial support. We had married at age 17 and during our marriage my husband continued to play out his youth with drugs, alcohol and women. Though I tried hard to make the marriage work, I knew it was not going to last.

The doctor set up an appointment with another doctor two hours away from our small town. At that time it was not legal to have an abortion, but this hospital performed them anyway. The first appointment was to meet the doctor and be told how to prepare for the abortion. This preparation information included what time to arrive at the hospital and how long to abstain from food before I came. That was it. Nothing was said about how to prepare mentally or emotionally, or how to prepare for what would come in the aftermath.

The day came and my husband decided he was too busy to take me so I called my father. I will never forget that early morning two hour trip to the hospital. Dad and I had very few words to say to each other. As I look back, as a grandmother myself now, I am sure this was very painful for him and I am sure he must have wondered what this grandchild was like that wouldn't be making the trip back home. He loved his grandchildren they were special to him and he was special to them. Again, I can't believe the choice I made.

When we checked into the hospital I felt clothed in shame. I knew the nurses were talking about the young woman who was there to get rid of her unwanted child. I wanted to run out of that hospital, but I was frozen with fear and shame as I laid there waiting for them to come after me. Now that I am at this place in this story, I can hardly write this. How I wish this was something I was just making up. I wish this was fiction. Why? Why? Why? I have never forgiven myself for not bolting from that table. It was a relief to be put to sleep.

After waking and being dismissed, there was another quiet ride home. My Mom had kept my children that day and night, and I was going to pick them up in the morning. I just wanted to go home and crawl in bed and pray that sleep would come. Deep sleep.

The next morning I awoke to another nightmare. I could not raise my head off the pillow. My arms and legs wouldn't move without terrible

pain. I couldn't sit up or turn over in bed without assistance from my husband. Now he was ready to help. He called the doctor to see what was wrong. The doctor said that I was so scared that all my muscles had constricted. I would regain my mobility in time. It took days to return to normal. The frozen feeling of fear I had at the hospital now consumed my body literally. I laid there in bed unable to move believing that I was getting just what I deserved. I reasoned that I had taken a child's life, so if I stayed paralyzed forever it would be what I deserved.

It wasn't long until the expected divorce came to my little family. Life went on and even though I had asked God to forgive me, I could not forgive myself. The way I coped with the shame and self loathing was to push the memories to the deepest places in my mind. This had become pretty manageable until one afternoon I came home from the grocery store to find my brother waiting for me with tears running down his face. He was there to tell me that my fourteen year old son had been accidentally shot and killed by one of his playmates. He was playing at his dad's and the boys found the gun cabinet unlocked. The boy had no idea that the gun was loaded when he pointed it at my son and fired. The shot killed him instantly. As soon as I heard the words that my son was dead, all the horrible feelings that I had repressed for so long came gushing out from the depths of my heart mind and soul and solidified into one thought. *My son was taken from me because of what I had done.* This was anguish beyond bearing. Now, my understanding of scripture would contradict that line of reasoning because when God forgives the Bible says He forgets. If it is forgotten then God wouldn't cause an incident that relates to something He no longer remembers. But, even still there are times that I question if there is a connection.

My son, my only son Craig knew the Lord as his Savior. We had even talked about his salvation three nights before he was killed. I know that Craig has met his little brother or sister, and I know that I too will meet this child. What will I say to him or her? God has forgiven me for the abortion because I asked to be forgiven, and He promises forgiveness. His grace even covers the killing of an innocent child. Forgiveness for myself

has not come easy. It has helped to write down my story. Since making the decision to write this all down, I have also talked to my pastor and shared my story with him. I told him I am willing if he ever needs me to tell my life experience to another young women contemplating abortion. I would try my hardest to save that baby's life and save that mother from years of shame and regret. The abortion may remove your child from your body, but it will not remove your choice from your mind. You will suffer silent torment for years. For 33 years this has been an ugly life secret that has colored every page of my life with darkness.

If you can use my story or myself in anyway to get the message out that abortion kills a child and wounds the mother, I will push my shame aside and do all that I can do.

- 1) Tell when and where your abortion occurred: May, 1999, Planned Parenthood, Little Rock, ARK.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? No If not, explain: I was told it would be a quick procedure, "little sting" + "hear some noise like a vacuum." They said I should have no side effects + be able to return to work after couple of days.
- 3) Were you adequately informed of the consequences of abortion? None whatsoever!
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? Yes (advised) Family + If so, who? Doctors - I was being treated with experimental drug for a tumor on my bladder when I became pregnant. Doctors said I could die or my baby might be a monster and I would blame myself for not living to raise my 3 yr old son.
- 6) How has your abortion affected you? For twelve years I couldn't even say the word "Not only emotionally trying to deal with it, but immediately afterwards I bled extensively from parts left inside of me."
- 7) How has your abortion affected others in your life? My husband + father of our baby has suffered emotional pain also. My family members who knew about the doctors recommendation and supported the decision have all had to deal with various emotional aspects
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Abortion kills a human being. Even if the mother's life is in danger and she chooses abortion, someone dies. When a mother takes the life of her own child, there is no escaping the psychological trauma that occurs. of their support
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Making abortion legal ^{allows} easier access to abortifacents; whereas some women would not break the law if it were illegal.

Dear Mr. Parker,

I write this today with great admiration of your leadership in the Operation Outcry Project representing Norma McCorvey and Sandra Cano. I first heard you speak at the rally in Memphis, Tenn. in August. Your spirit that night was one of an obedient servant of the Lord. My heart was blessed!

Enclosed, please find my notarized affidavit. There are other post-abortive women who will turn in one this week at our center. We will bring them to the rally at West Memphis. I have been prompted in my spirit to overnight this to you along with my offering. "Why Lord?", I am tempted to ask. And then I think "I can just hand this to them Friday night. This is silly." But then as I obey and type this, I weep; and I am reminded of the verse written by the Apostle Paul in I Cor. 1:27,28...."But God chose the foolish things of the world to shame the wise; God chose the weak things of the world to shame the strong. He chose the lowly things of this world and the despised things - and the things that are not - to nullify the things that are." God just wants our obedience and then He will do the rest!

So may you be encouraged today that God's spirit is moving on people's hearts; and keep up the good work that you have begun! May you and your family be blessed today and in the days ahead as you give to such a worthy, timely, and much needed project. Thank you for your obedience to God in this work.

Looking forward to Friday!

Please return to: Texas Justice Foundation, 8122 Datapoint, Suite 812, San Antonio, TX 78229

Please feel free to use my full name.

I have a testimony, one that I believe God wants everyone to hear. He spoke to me during a morning service by way of the phrase in one particular song – “Where would I be without You (Jesus)? And I had to answer the question – I would be dead.

My testimony is about how Forgiveness works.

Back in 1975, I was 18 when I sent my “Gift” back to the Lord unwanted. Like everybody else – I believe a lie.

I was a senior about to graduate when I found out I was pregnant by my boyfriend. Confronted by my mother we decided to go ahead and get married but still have the abortion. I should have know then that a guy that wouldn't defend his unborn child – wouldn't make a good father to future children. His parents knew also and didn't express any regret about our decision to go ahead with the abortion – fine grandparents they turned out to be! So we had a quick wedding, just his family because mine had gone out of town for a vacation. The day we went to the “clinic” was my 19th birthday. We went to a very professional doctors office which aided in the illusion that I was doing the “right” thing. My only concern at the time was getting this done before the tissue turned into a baby. Don't know what I was thinking, guess I slept through Biology and apparently hadn't listened to God's word very well either.

II Timothy 3: 6-7 warns of weak-willed women being swayed by all kinds of evil.

When you are 18 and scared, you are more willing to listen to the person that is offering the easiest and fastest way out than to a gentle, kind soul that is trying to give you alternatives. But we don't realize that the trauma we are so willing to put our bodies through will have deep and lasting consequences and lived with years of regret and anger, not knowing where it was coming

It may be a woman's right to choose – but it's a gift from God that you are basing that chose on.

I spent more than 25 years re-living my nightmare over and over again. I didn't really want forgiveness, I just wanted to forget, and you can't do that. God won't allow it because He requires repentance. Forgiveness would have been to much of a soothing comfort for the pain I was in and what I really deserved was to die a horrible death for the brutal sacrifice that I had allowed to be committed. Satan delighted in reminding every day of what I had done.

I spent years wondering: was it a boy or girl, what would he have looked like, what would he have accomplished in this world? Would I still feel all this regret that I do today?

We had 5 very troubled years before I was able to conceive and give birth to a baby girl. Miscarriages, very problematic pregnancy and he had an alcohol and drug problem. We divorced when she was 3 years old.

07

Our marriage lasted 8 years and then I found myself a single mother with a 3 year old to raise. I spent 8 years as a very troubled single mother not doing a very good job raising a little girl. God blessed me with parents that stood firm in their love for me and their granddaughter. If it hadn't been for their moral and financial support, I probably would have ended upon the streets or worse. And then God intervened and I have been married to a wonderful man for the past 13 years.

Now this is where God really starts working. I have always been able to relate to the Prodigal Son – Luke 15 and my favorite has to be verses 17 and 24. The son came to his senses and The Father graciously welcomes him back.

In 1975 a lie was being told and millions were believing it. Then a few years ago, God “hit me over the head” and forced me to confront this horrendous sin that I had committed.

It was a nice summer evening when my Father called me to the back fence to have a long talk about the consequences of that action. It was one of those “Sacred Moments” that is really hard to describe unless you've been through one yourself. There is no way to describe it because it wasn't tangible, I just know that I was in the presence of the Lord and we had a talk about what I did. You see, I had a problem also with seeing God as my Father and that night He showed His love for me.

I met my son and received forgiveness for what I had done. It was at that moment that my life took a turn – I'll never forget what I did, it is a part of who I am, but I no longer live with the guilt and regret and fear of the past. Satan no longer has a reign on my life. And someday I will be with my son in heaven. I have received the spiritual healing that I needed for God to work his will through me.

Four years ago, I was struggling with deep conviction and didn't want to see where it was coming from. The abortion kept haunting me. Every time I tried to convince myself that it was in the past, over with, forgotten – God reminded me that what I did was sin, I had participated in the act of murder. God can use a lot of things to get your attention – it was on the radio, in the newspaper, popping up in a chapter of every book I was reading. No matter how much I tried to justify what I had done was “in the past”, “I didn't know any better” – God kept reminding me that it was still a part of my life today and would continue to haunt me until I confessed “it” as sin. (Now confessing an abortion as sin is very key in this).

John 9:15 is the story of the blind man. A man that could only testify about what God had done in his life. “I was blind, but now I see”

My repentance with the Lord has brought me immeasurable peace and someday I will meet not one but two of my children in heaven. My second child ended in a miscarriage, but I believe that this child is no less than the other because I do believe that life begins a conception.

D7

I finally came to understand God as a Father, in every sense of the term. I knew (head knowledge) that God was our Heavenly Father – but I didn't know him on that personal Father/Daughter relationship level. Because I didn't have the relationship with Him I didn't understand His Forgiveness.

Romans 8:6 tells us that the Spirit is Life and Peace. I understand what that means now.

I never really understood how upset I should have been at the father of the child either. He was not only supposed to protect his child but he was supposed to protect his child even from me. You want to know the really stupid part of the whole situation? I still married him. I did a LOT OF STUPID THINGS when I was younger. Bro. Jerry, our pastor, said one time, "When I was younger I WAS stupid, now that I'm older I ACT stupid."

It's only been recently that I've realized that I don't need to fit into anyone's mold, I just need to be moldable for God's use. And I only became pliable in God's hands 4 years ago. Although I've been a Christian most of my life, I never really knew Him as my Father on a personal level, then God called me out to the fence in my backyard that night and I've been a healing and growth process ever since that moment.

Colossians 3:1-2 tells us to set our heart and minds on the things above.

I truly believe God is calling for a healing of unrepented sin – problem is, there are a lot of women that don't realize that the "thing of the past" like an abortion is unrepented sin. I believe God is calling for a spiritual healing of past sin among Christians and we just don't want to recognize those sins because they hurt so bad to remember and we want to believe that "it's in the past" so therefore why dredge it back up. Satan has dupped some into believing that what's buried doesn't need to be uncovered. But God wants it out in the open so He can wash it clean.

1 Peter 2:1-2 tell us to rid ourselves of evil and crave the pure spiritual milk.

I murdered the most precious gift on earth – that child would have been the light of my life and now I have a daughter who is my worst nightmare. – Connection? You bet! Do our sins filter down to our children? Some might say no and give scripture to support it but I say yes, our sins do filter down to our children. Our unrepented sins affect us and that in turn affects how we influence our children and our children suffer because we keep making mistakes because we were running from our past. The proverbial "Oh what a wicked web we weave when we practice to deceive" fits this perfectly. It's hard to admit to having a lost child and I'm heartbroken. But my comfort comes from the Lord and she is in His hands.

Now for what has been laid on my heart by God – I believe that God is calling His women to a repentance of sin, especially in the church. Until we confess this sin and allow God to clean us there can never be a revival in this country. This revival may be the catalyst to changing the abortion laws. There are a lot of women out there who just

DJ

want their abortion to be in the past and they don't realize that they are having the problems that they are having because they refuse to bring this sin to the Lord.

I believe this applies to men also. Men just don't deal with their guilt like women do. This may be why so many men have dropped out of the church, why churches are having trouble with male leadership. Men that have participated in abortion are men that didn't protect an unborn child – why would they be protectors of children later on? Hello, do we not see the connection here?

For the 1st time in 2003 – I marched in the “Right to Life” parade in our town because I wasn't under the guilt anymore. I was able to do this only because of God's forgiveness. You see, every time I heard the word “abortion” – I cringed and wanted to crawl into the nearest hole. But something did bother me about the march – As a “past aborter” I felt that there was almost a mob mentality from the marchers, that if they found out I was “one of those people” that they would stone me on the spot – mind you, nobody said anything and only a few people knew my story at this time – but there was just something there. Also, when we got to the capital – I felt such an urge to get down on my knees in prayer – but the crowd's attitude was one of “festivity”. Why weren't we in more of a “mourning” attitude for all those lost children? Where were the others like me? Why weren't we grouped together in a prayer of repentance? Wouldn't that have a greater affect on those that are for abortion? How could pro-choicers heckle the actual participants that are on their knees in prayer to a Forgiving God?

There are so many people affected by an abortion than just the baby. If the father doesn't know, he has been denied a son or daughter. Grandparents have been denied a grandchild. Future children have been denied a sibling. Aunt, Uncles, Cousins and other family members have been denied a relative. A child at school has been denied a playmate. Your neighbors children have been denied a friend. A teacher has been denied a prodigal student. The workforce has been denied a valuable employee. And the church has been denied a member of the body of Christ.

What the world has been denied, Heaven has received and been blessed.

If only one woman is convinced not to get rid of her child – then Heaven will rejoice. Shouting in front of an abortion clinic is not the way to reach these women. We have allowed too many fanatics to get involved in a negative way and the ones that need to be doing the reaching out are the ones that have been there. “What if” a group kneeled in prayer within range of the clinics and sang songs of worship to God – is it possible that this showing of God's spirit would do better in reaching someone than scaring them?

I believe there are 2 kinds people who promote abortion:

- 1) Those who **have never** had nor experienced with a friend the trauma of an abortion, they do not understand the immense regret associated with this decision. Women who have experienced abortion just "want it to go away" - they **do not** promote it.
- 2) A women who **has** had an abortion and wants other women to do it so they don't feel so **alone**. They want others to do what they did so it will look like "everybody's doing it, so you might as well do it too". I believe this is probably the smaller of the 2 groups.

- o That is what they said but what really happened to me is/the truth is....
- o The most important thing about abortion that I think people/women need to know is....
- Make sure it is no longer than two minutes.
- Try and use short impact statements, because they are good for media sound bites
- Try and bring a friend (preferably a post-abortive friend) who can pray for you while you prepare and give testimony.
- Read your statement out loud several times before the event then read it to a friend.

1) Tell approximately when and where your abortion occurred: Sometime in the first week of January 1982
The Womens Clinic Dallas, Texas

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO I was not told about the procedure, just that the mass would be removed and I would have some bleeding afterwards

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? NO, At the age of 27 I had pre cervical cancer

4) Did anyone pressure you into having an abortion? If so, who? NO The nurse at the family planning health unit gave me one option - Abortion

5) How has your abortion affected you?
I have suffered emotionally wanting to commit suicide because of my choice to have my baby terminated. I have felt shame, guilt, anger, regret, remorse, and I have lived most of my adult life with a sense of secrecy

6) How has your abortion affected others in your life? my abortion has effected my marriage I have had anger towards my husband for not talking me out of it. my children have suffered from my stifling over protection I was always in fear my children would die because of my past abortion. my parents, I had never told them. I did not want them to know my past secret. Therefore I tried to avoid forming a close and healthy relationship with them. I felt if I let my family and friends get close to me. They would find out and reject me for having

an abortion.

7) Based on your own experiences, what would you tell a woman considering an abortion? To please consider the other options of adoption or raising the child. That she will regret the abortion and she will long to hold her baby one day and that part of her will die with the baby.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is not an attribute or a benefit to an unborn baby or the mother. Abortion prematurely terminates a life. And it destroys a woman's confidence in being able to function emotionally in society.

AFFIDAVIT

THE STATE OF Arkansas

COUNTY OF Conway

Before me, the undersigned authority, on this day personally appeared Paula R Deckard, (Print Name) who, being by me duly sworn, upon oath, stated the following facts:

My name is Paula R Deckard

I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

I would like to start by telling about the time that I started even thinking about the term of abortion. When my little sister, was 15, she became pregnant with this guys baby. They were never even boyfriend and girlfriend, she just liked him and he wanted some sex. My parents were upset but my mother was more upset with me because I was dating someone and using birth control pills, so she thought it should have been me that was pregnant not my little sister. My father on the other hand of things was just beside himself that his little angel was pregnant and not even dating anyone. (she was the baby of the girls in my family) I can remember his words to her like they were told to me today. "I think you need to abort the baby and not have to go through your teenage life being a mother". Every time someone even mentioned about her having this baby, abortion would come out of his mouth. Now, 15 years later, my little sister has a wonderful teenage daughter and my father wouldn't let anyone harm her. Why then even think about abortion, because it is legal.

So, now to my abortion, I was in my first year of college, spring semester of 1990. I had moved to Conway to live by myself and ended up living with my boyfriend at the time, Edward Morrissey. It was sometime in the early part of the year and I knew I was pregnant. I told Ed and he asked me what we should do. Well of course we were working and in college so the only thing we thought we could do was abort. That is really what Ed wanted to do and thinking back to my little sister I knew that would be what my father wanted me to do. How could two college students working all the time raise or be responsible enough to raise a baby. So, we called the first listing in the yellow pages for abortion services and it was at Little Rock, Baptist Medical Center in the Medical Towers.

We setup a date and time and they requested I bring photo ID, and \$300 cash. Never once did they ask my age or what the health problem was, they just wanted to make sure I could pay for the procedure. They did not take insurance or check, it must be cash. I had money saved up from working all the time and went to the bank to withdraw \$300; the whole time I was waiting in line it was like everyone knew what I was doing with this \$300. We arrived at the doctors office, and it was terrible, ladies there that were 8 & 9 months pregnant. I am figuring that this office also delivered babies along with killing babies. I was getting very sick to my stomach.

Paula R Deckard

Paula R Deckard

Paula R Deckard

Then they called my name, and my stomach was in knots. I went back and asked if Ed could come with me and they said later. I went back and undressed from my waist down. They took an ultrasound but NEVER showed me the screen. I don't even recall them telling me what they were doing other than preparing me for the procedure. I do remember them wanting to make sure that I was under 8 weeks, they said that if I was over they couldn't do the procedure but I never knew if I was 6, 7, 8 or 9 weeks, I just knew that I was pregnant and didn't know what to do. They gave me some medicine to help with the pain and then they let Ed come in and hold my hand.

The doctor came in and started, all I can remember was the terrible sucking sound and it really felt like they were ripping my insides out. Now I know that they were!!! They would not let me see anything they were doing or where it was all going. I remember several pieces of equipment in the room but I also remember them being covered up with blue sheet. Knowing now that they didn't want you seeing the baby parts of what the equipment looked like that they were going to use on you. Shortly after the abortion, they escorted me out to the lobby, which was still full of very pregnant women. I realized what I had done and will sick to my stomach. We left the office and were waiting to get on the elevator when I got sick to my stomach, and raced back into the office to go to the restroom. I stayed for a while throwing up every thing that wasn't on my stomach, which was very little. I remember finally driving back to Conway and not saying a word. After that we partied all the time and I see now that I was drinking my pain away trying to forget what I had done.

Then about 4 years later, I meet Jeff Deckard married but still living the fast paced party life. I told Jeff what I had done back in 1990 but have never told my family or really anyone other than him. But I had really tried to forget about everything related to the time period of my life, until in 2000 we was pregnant with my second daughter and it ended in a stillbirth, which was due to my uterus rupturing. Now I really see what I had done those 10 years ago, and still think that if the procedure weren't legal I would have never had that CHOICE, and would have a wonderful teenager today that calls me mom. Several times I look at my 15-year-old niece and think that was a terrible person I must be for not standing up and having my sweet baby, like my little sister did.

So, I do NOT understand when people say that it will not affect the mother in any way, they are flat out lying. It will haunt you the rest of your life. Never will I know if I was pregnant with a little boy or little girl. That will always be something I have to remember, I have two babies in heaven waiting for me to reach the other side. I know now that my Savior so Graciously forgives, and helps me walk through my daily life with such a terrible past. You have to turn it over to the Great Physician above or you will never be able to truly live with yourself. He is the healer of ALL broken hearts.

Thank you so much for letting me tell my story. My prayer is that some young lady will hear my story and know that it is not worth aborting that baby now, but worth dealing with those smiles, hugs, and love that those precious babies bring. If you have the desire to ever want to be a mother later then don't have an abortion now. Let your motherhood start now. The most important part of this all is if you don't want a baby DON'T have sex with anyone until you are ready to have a baby.

1) Tell approximately when and where your abortion occurred: Sometime in early 1990 - it was performed @ Little Rock, AR at the Baptist Medical Towers

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No, they took my name & money then ~~escorted~~ escorted me to a room & told me to undress from my waist down.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No - they told me nothing about any risk. I have found a knot but they say it is just a small cyst & for me to watch.

4) Did anyone pressure you into having an abortion? If so, who? Yes, my live in boyfriend at the time. (Edward Morrissey)
Plus I remember hearing my father tell my little sister at the age of 15 & pregnant. "You can always choose to abort it."

5) How has your abortion affected you?
In several ways - I feel terrible as a mother due to I choose to kill one of my precious babies. I have had a stillborn & you have to wonder if they are connected. Also at that point in my life it made me reach out for more sex & alcohol resulting in a very sinful life that was full of guilt & shame.

6) How has your abortion affected others in your life? My husband now, Jeff Deckard, says he understands but I wonder does he really know how much my heart hurts for my two babies in Heaven.

7) Based on your own experiences, what would you tell a woman considering an abortion? It's not worth the money, ~~the~~ time or pain that will haunt you the rest of your life. Plenty of women in this world would die to be in your shoes. Please, do not do this one thing that will kill you later in life.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? If ~~it~~ it wasn't so easy to have an abortion I wouldn't be telling you this. Something so earth shattering should not be allowed in this world. If you are old enough to have sex you are old enough to be made a mother.

So of course that told me that in my father's eyes abortion was a good thing not bad.

- 4) Did anyone pressure you into having an abortion? If so, who? I don't believe so - I have blocked a lot out of my mind.
- 5) How has your abortion affected you? I deeply regretted killing my baby. It would take 13 years for a very moving spiritual experience with Jesus before I could forgive myself. I am now a big defender of Pro-Life. I have bumper stickers on my vehicle against abortion and participate in the yearly "walk for life" in Little Rock, AR. I also donate to our local pregnancy center to help other women decide not to have an abortion.
- 6) How has your abortion affected others in your life? My family; sisters, mom, daughter the father of the baby, of course it deeply affected them all.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? DON'T! That there are so many other options; adoption for one. There are so many agencies now that help a woman through financial as well as emotional aid.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I would explain the brutality of the procedures; the dismemberment of the child, the burning alive, poison, the "scraping out" method, or the most horrendous - partial birth abortion in which the child is pulled partially out, stabbed in the back of the head with scissors then a suction tube inserted to suck & flatten the skull. How painful this is to the unborn child. →

I believe that any woman in an unplanned pregnancy is not in the right frame of mind to make such a major decision. Medical doctors give their post-surgery patients or ER patients a written order NOT to make any major decisions for a certain amount of time. This is because of their impaired judgment. This is the same situation a woman finds herself in when deciding whether to abort or not. Her best judgment is impaired due to her emotional state of mind. Amy Burns, Arkansas

In August of 1991, I chose to have an abortion without any pressure from anyone except for the circumstances of my situation. I was divorced with two young children and felt that I did not want nor could I have another baby. Now, more than 12 years later, I regret that choice.

I was 12 weeks pregnant when I had the abortion. When I called about getting one many weeks before that, they told me I had to be at least 11 weeks along. I realize now that was because they can charge more for a second-trimester termination. I had an ultrasound performed that day, but I did not see the screen. They also listened for a fetal heartbeat, but not with a Doppler so I did not get to hear the baby's heartbeat either.

Last year I testified before a State Senate committee and a House committee at our state capitol on behalf of an ultrasound bill. This bill was signed into law in April of last year and it requires physicians who use ultrasound equipment when they do abortions to inform the woman that she has the right to see the ultrasound image. I was not told that I had that right, nor did I ask -- probably because of intimidation, fear -- or it could have been the pill they gave me ahead of time to relax me. I am convinced that I would not have gone through with the abortion had I seen my baby on that screen that day.

I had several difficulties following the abortion which put my life in danger, not to mention the depression that followed later. I have since found healing and peace only through the grace and forgiveness of my Lord and Savior, Jesus Christ. I want women to know that they, too, can find this same peace.

My baby would have been born in February of 1992, had I chosen to give life. I believed I was making the best decision at the time, but now I know my 'right to choose' was a lie. I know that my "right" to choose was NOT the right choice. I chose a life of wondering whether my baby was a boy or a girl, what my child would look like and be like, and many more questions I will never know the answer to. I also have the vivid memory of the abortion and the guilt of knowing I never gave my baby a chance at life or the opportunity of fulfilling the plans God had especially for him or her.

Because of my decision, my doctor agreed to tie my tubes as a form of birth control. I have since remarried, but I am unable to have a baby with my husband who has, and now never will have any children of his own. My abortion has affected me and others in my life in ways I never thought of, ways no one ever told me about.

My prayer today is that the lie of abortion will be overcome by the power of the testimonies of many post-abortive women and that other women who bought into that lie like I did will hear or see this and will reach out for the hope that we, through Christ, are able to offer. We can be Silent No More about the real truth of the effects of abortion.

that you will always regret.

Come in contact with that are unwanted or a ~~cesses~~ nuisance but we are not allowed to kill them. Upon conception that is life not a "blob of tissue". We must recognize life at its conception. We'll get to also realize that we are often times not just destroying a baby's life but we often destroy the mother's life. Maybe not so dramatically but slowly just the same.

1-25-02

When my parents found out about my pregnancy they insisted right away that I have an abortion. I was told "Babies don't need to have babies." I had gotten raped, and I felt that I couldn't talk to my parents about it, or my pregnancy. I knew they ~~would~~ would just treat me bad. At first I just kept running away because I was so scared to tell my parents I was pregnant. When my mother found out she told me I was a whore and she slapped me in my face. When my dad found out about the rape he spit in my face, he was jealous that another man got to put those hands on me no one comforted me. I was punished for getting pregnant even though I had gotten raped they were angry with me just for being pregnant at fourteen. I guess they were too worried about what everyone would think about our family and me. It got around school and I told my teachers and my counselor that my mom and dad were going to force me to get an abortion they were very upset but I guess they felt that they couldn't stop it.

Church people started praying for me and a couple of them told me to run away and they would take care of me, but I was so scared because I feared they would find me and beat me. My parents found out that the word was out about my pregnancy. I guess she got scared because she didn't want anyone to know. ^(my mom) My mom took me out of school one day and took me to Tulsa Oklahoma to get my abortion. My sister begged her prior to her taking me that she ~~could~~ would do anything to help me raise my baby, she begged my mom not to make me get the abortion. She would not even let my sister go with us, I had no one to comfort me.

We got to Tulsa, Oklahoma and I think we went to the clinic to talk to them about getting my abortion to make an appointment they told us I couldnt eat or drink anything for a matter of hours and I was to come back in the morning. I dont think I said more than two words the ~~the~~ whole time, I was so scared.

(2)

I thought about jumping out of the car on the way back to our hotel, I was already telling myself that I should have ran, I should have found a way to save my baby, But I knew that was impossible because in the world I was just ~~a~~ another little girl that nobody wanted to hear, ~~that~~ how I felt. When I got to the clinic the next morning I saw at least twenty women it kinda scared me because I never thought that, that many women wouldn't want their babies. My mom and I went in and did some paperwork I wasn't sure what I was signing but my mom told me that if I didn't sign the papers that she would take me somewhere where it was legal to perform an abortion without my consent. They asked me some health questions and then I got my blood drawn and I watched a video I don't ~~remember~~ remember of what though. I went in a room where they did an ~~an~~ ultrasound of the baby, they told me not to look at the screen but I couldn't not look at it, I saw my baby and I felt a deep sadness ~~and~~

come over me. I went and tried to talk to my mom, I told her that I couldn't do it and I didn't want to, the women that worked there were sitting at their computers they heard me pleading with my mom. The one who had us sign the papers told me "you can't go home pregnant!"

The doctor called my name and I wasn't aloud to even have my mom in there with me. I went in and he started to touch my private area I started crying and kicking him away. He stopped and told me I would have to cooperate or I would have to go home pregnant, I tried to relax but when he touched me again I jumped off the table and screamed "No, I can't do this, please don't make me do this." He got angry with me and walked out. The nurse took me to my mom and told her what I did, I told my mom I couldn't do it I was hysterical several of the women that worked there sat down beside me and my mom

(3)

and told me "You can do this" I kept crying and shaking my head I knew I had no choice, my mother told me she was going to send me away and I would never see my sister ever again, she told me she would buy me anything and I told her all I wanted was to keep my baby, my mom asked the ~~nurse~~ nurse if the doctor would try again and she told him she didn't know if he would because I was being so difficult but she would ask him, I had went to the clinic at 8:00 AM that morning and I didn't know what I ~~was~~ I think around 5:00 PM I fought them for as long as I could, they kept me away from the other women for some reason, they gave me some pill and told me to put it underneath my tongue they said it would make me relax I didn't seem to notice any change until the nurse came and called my name I tried to stand up and I fell to the ground I'm pretty sure the nurse had to pretty much carry me in the room to get my abortion next thing I knew I was up on the table naked from the waist down →

The nurse had I guess taken my clothes off, I remember ~~to~~ two other nurses coming in one of them gave me the laughing gas to put over my nose and the other held my hand. I couldn't see anything I saw a bunch of colors but I couldn't see faces anymore. I could hear for a little while but then it sounded like when your batteries run out on your tape player. I heard the machine or the vacuum I guess you could say, and then I felt the most horrible pain I have ever felt in my life. I felt like I was in the room for hours and when I came to, it was all over, the nurse was cleaning the blood of my vagina. After that I went and sat in another room in a recliner for a little while and the people told me they were proud of me they said "You did it" my mom said "we can finally go home now." I cried all the way home and when I got there I cried for hours with my sister. my mom didn't shed one tear or tell me she was sorry not one time.

the clinic told me and my mom
that we were supposed to come back
for a checkup to make sure ~~if~~ everything
was okay but my mom didn't take me
back to any other doctor.

Even while I was married I had

- 1) Tell when and where your abortion occurred: the first in Los Angeles in 1970; the second in Long Beach 1973
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? No If not, explain: For both I was under the belief that they were only a parasitic blob of tissue, causing inconvenience, even though I already had 2 children. I didn't think that God cared about embryos at that time in my life.
- 3) Were you adequately informed of the consequences of abortion? No. Not at all. I was encouraged by the abortion clinic doctors that it was painless and without consequence.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? Not yet.
- 5) Did anyone pressure you into having an abortion? yes If so, who? My gynecologist, because I had been "spotting".
- 6) How has your abortion affected you? Great Sorrow and shock when I realized what I had done out of sheer ignorance. I miss deeply the child that I lost by spontaneous abortion and the 2 children whom I murdered. I love my living 3 children with all my heart and wish I knew the other 3 that I don't have. I have so much time for them all now.
- 7) How has your abortion affected others in your life? I am pro-life, an activist; I educate against abortion AND ITS CONSEQUENCE - EUTHANASIA. My children are pro-life. Praise God, as well as my present husband.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Do not murder to solve an "inconvenience". Children - all children are a GIFT from the Lord. He will provide for them. Many childless couples are on waiting lists, longing to adopt a child. Your child is NEVER unwanted.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Human life which is sacred begins at conception and any act to end that life constitutes murder of the 1st DEGREE. All pregnant women should be protected from all harm due to two lives (at least) together, both most vulnerable.

- 1) Tell when and where your abortion occurred: OCTOBER 1975 & MARCH 1976 in CANOGA PARK, CALIF.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? NO If not, explain: I was merely told that it was a simple medical procedure and when it was over I would not be pregnant any longer.
- 3) Were you adequately informed of the consequences of abortion? NO - I WAS NOT INFORMED OF THE POSSIBLE PHYSICAL RISKS & DEFINITELY NOT ABOUT THE EMOTIONAL RISKS. IN FACT I WAS TOLD I WOULD FEEL RELIEVED & COULD GO BACK TO A NORMAL LIFE.
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? I HAVE HAD 2 BENIGN LUMPS REMOVED.
- 5) Did anyone pressure you into having an abortion? YES If so, who? Boyfriend - He absolutely did not want to marry me & was very worried about his very prominent family finding out.
- 6) How has your abortion affected you? I started to hate myself and became depressed, ashamed & guilt-ridden. I began drinking, smoking & dabbling with drugs, which I had never done before. THE emotional pain became so overwhelming I thought suicide might be the answer, but then I changed my mind at the thought of facing God with what I had done. I've regretted not knowing those children.
- 7) How has your abortion affected others in your life? It has interfered with intimacy with my husband, which is much better now after attending a post-abortion counseling support group.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Abortion is not the right solution & it is a choice that is irreversible. That the abortion industry really doesn't care about them as a person - they only want their money. Don't make a decision under pressure because they will have to live with it.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion has come to a birth control method, rather than for the health of the woman. Only 1% of abortions are because of rape, incest or fetal abnormality and less than 1% are a life threatening situation. Abortion has become a life-threatening issue with the Abortion/Breast Cancer link.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your abortion occurred: Aug 30th (or 31st) 1985 - Fairfield, California
2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No. I was given no information prior as to how it was performed, consequences, etc.

Planned Parenthood

4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? So far no.
5) Did anyone pressure you into having an abortion? NO If so, who?

6) How has your abortion affected you? The abortion affected every segment of my life. It's been almost 20 years, and very rarely do I feel self confident as my role of wife - and grown woman. The most difficult side effect is infertility. I never became pregnant. Grief, anger, regret, and depression have been at the forefront of my emotions at one time or another since the abortion. My husband (not father of aborted baby) has had to deal with me & my feelings of fear & depression. We went to counseling.

7) How has your abortion affected others in your life? My husband has inherited a lot of my problems - he has to live with me when I go through bad emotional times. My mother grieves for her lost grand baby and the pain I go through.

8) Based on your own experiences, what would you tell a woman considering an abortion? Adoption is the best option if your overwhelmed by fear. Talk to a local pregnancy crisis center - but not Planned Parenthood - which is really "Planned Death".

9) Based on your own experience, what would you tell a court that believes abortion should be legal? Unborn children should have a right to life - should be protected by the US Constitution. Look at all the post abortive men & women - walking wounded - who become stagnant emotionally, mentally - become addicted to drugs or alcohol - all around not a good scenario for our countries' future.

- 1) Tell when and where your abortion occurred: June 1976, Eugene, Oregon approximately 1980 Eugene, Oregon (2 abortions)
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: At the time of my first abortion I did not consider the fetus as a human being or potential human being because I had been told it was not in the media. Planned Parenthood did not prepare me for the regret, remorse and guilt I would feel for the rest of my life.
- 3) Were you adequately informed of the consequences of abortion? No, not the mental or emotional ones only the physical ones, like cramping and possibility of punctured uterus, not breast or cervical cancer increase.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No but it runs in my family
- 5) Did anyone pressure you into having an abortion? If so, who? Not my first one but my second one was due to the pressure of the father.
- 6) How has your abortion affected you? If I imagine what hell is then I say that is how my life was before I found counseling and healing. I became an alcoholic, lost my will to live, hated life in general.
- 7) How has your abortion affected others in your life? My poor family and friends have borne the brunt of my anger and aggression for having terminated my pregnancies for many years.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? Please do not do it. When you have an abortion something inside of you dies with the baby. It will be very difficult for you to love subsequent children until you heal. You will regret it for the rest of your life because you will never know who could have been and your responsibility is great.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? When you die and you stand in judgement before God how will you justify that ending anyone's chance for life is a God given right?

BEFORE ME, the undersigned authority, on this day personally appeared Terrie Boegner (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: Sept 1981 - FAMILY Planning - Flint MI
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? NO If not, explain: They took each one of us into counseling before the abortion. He asked why I was getting the abortion and how the father felt about it. Then I was back in the waiting room.
- 3) Were you adequately informed of the consequences of abortion? They said the counseling session was to see if we could emotionally handle it. Nothing was said about the physiological effects after.
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? YES If so, who? The State of Michigan paid for it and recommended it for anyone on welfare. If it had not been available to me financially, I would not have done it.
- 6) How has your abortion affected you? - I never drank or did any kind of drugs before that time - I had considered suicide and subconsciously I was trying to kill myself in other ways. - There were times I almost took my life and later found out that it's common for post-abortive women - I knew the things I did were abnormal.
- 7) How has your abortion affected others in your life? It affected my mothering the most - I had a 2yr old son at the time and I emotionally detached myself from him. - It affected the father as well.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her it doesn't solve the problem - that it only makes bigger problems - and I'd tell her that it's proven that it changes the relationship between her and the father and the relationship isn't lost.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I believe that if Family Planning would have showed me pictures of the unborn fetus and given me facts about the heart beat and brainwaves my precious Jeremy would be here today - and it was a baby I left behind that day in 1981.

- 1) Tell when and where your abortion occurred: Pomona, CA 1979
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? No If not, explain: It was not explained that my baby's heart was beating prior to the abortion. It was not explained to me that there were long term effects on my emotional well being.
- 3) Were you adequately informed of the consequences of abortion? I do not remember the nurse telling me about any consequences.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No.
- 5) Did anyone pressure you into having an abortion? Yes If so, who? The father. I only discussed the pregnancy with him and it was the only option I thought I had.
- 6) How has your abortion affected you? I have lived with guilt and fear. When my daughter was born prematurely at 2.5 lbs, I believed that I had caused her health struggles because I had had the abortion. I felt like if I told anyone what I had done, they would reject me. I held it as a horrible secret in my life.
- 7) How has your abortion affected others in your life? It caused problems in my marriage with the father. He blames me for killing our baby. We are now divorced. It caused my parents great pain. Abortion trivializes life.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? I do tell women considering abortion the miracle of life growing in her womb. I know she is scared, and thinks she can't give birth but with help she can overcome the obstacles. Abortion is final, permanent and forever. If I could go back, I would not have aborted my baby.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? After now carrying 2 children to term and raising them. I know that a mother bonds with the child growing inside her. To kill that life brings guilt + shame. And I would ask, "why it a man beats a pregnant woman? Killing her unborn baby is it murder, and illegal; and if she has an abortion (same end result) "I have read the above and foregoing statement and the same is true and correct." it is legal?

- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO!! I was told that were safe, easy & that even some women use it as a form of Birth Control.
- 4) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 5) Did anyone pressure you into having an abortion? yes If so, who? boyfriends, parents, sister
- 6) How has your abortion affected you? I suffered from depression, migraine headaches - low self esteem - no self worth - was in an emotionally abusive relationship for 11 years until my divorce. I have a very difficult time trusting people and make very few friends. Overweight = thin = abortions. Over protective parent to the point of smothering my children.
- 7) How has your abortion affected others in your life? my children, my friendships, my relationships w/ parents & sister
- 8) Based on your own experiences, what would you tell a woman considering an abortion? not to do it!! The ramifications of the "quick fix" will last with you a lifetime!! The guilt, grief, sorrow, to deal with, will be tougher to deal with than continuing w/ a pregnancy & going through adoption.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? This is a very devastating experience and one that the federal system should not continue to keep legalized - too much damage is happening to women with the "legalized procedure."

- 1) Tell approximately when and where your abortion occurred: Vallejo California, (1) Kaiser (2) Planned Parenthood
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? not at all
- 3) only bleeding after abortion.
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? yes If so, who? Family - Parents, Grandparents.
- 6) How has your abortion affected you? TORMENT - I could not foresee the horrible consequences in my life, my heart, my emotions, and my child's life. I feel like I assisted in murder of someone innocent and was never held responsible. I was treated as if this was a simple tooth extraction. As if I had no fear or did my unborn child. The guilt and depth of the loss I have experienced is unexpressable. I have reached some healing but I'm never able to totally receive rest inside. My daughter asks "Why don't I have any brothers or sisters and when will I?" These things stir up my pain. The loss is great and undeniable.
- 7) How has your abortion affected others in your life? My daughter wants siblings and how can I tell her she is supposed to have 3? This is irreconcilable.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? The truth - maybe you can't see or imagine what will happen if an abortion - But you can literally feel your child form into death from your heart. If you deny these feelings in the beginning this will be an emotional burden heavier than raising a child.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? murder is illegal so why if a woman births a premature child at 24 weeks gestation - why do we fight to save the baby's life and call it a child - if at the same time we can dismember a baby in the womb of the same gestation? Women are ill informed of the emotional consequences of abortion.

- 7) How has your abortion affected others in your life? MY FAMILY HAS SUFFERED WATCHING ME SUFFER. I ROBBED MY PARENTS OF A GRANDCHILD.

ABORTION CLINIC CANNOT BE TRUSTED TO BE TRUTHFUL TO WOMEN, THEY REFUSE TO CALL IT WHAT IT IS - MURDER. A CHILD DIES, BEFORE IT IS EVEN BORN. - 1) Tell approximately when and where your abortion occurred: 1969 San Francisco 1978 San Rafael, CA
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Absolutely not!
My first abortion was at 6 months. I had no concept of what happened to my poor baby until years later. I saw a photo of a saline aborted baby at a county fair. It had been burned and I will always see that baby's body.
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? No If so, who? _____
- 5) How has your abortion affected you? The guilt at taking my own children's life/ves is Always there. I can't forgive myself for being selfish enough to go that far. I've often wondered what those children would be like as people. I used to look at children who would be the age of my children and feel that great empty place, knowing I'd never know. Now I look at people my age, finding a joy in their grand children I'll never know. I stopped life. I created the end when there should have been a beginning.
- 6) How has your abortion affected others in your life? 20 years after the fact, one of the potential fathers expressed regret.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Don't Do IT!
15 years ago I took a friend who was actually going to have an abortion to see the movie "The Silent Scream". She chose to have her baby after seeing the truth of abortion.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Making it legal makes it too easy for desperate, ignorant people (like I was) to make an informed decision. Legal and being told the truth are two entirely different concepts.

I had low self esteem because I couldn't forgive myself. I've had a weight problem for 20 years. I'm very protective of my only child because I don't want to have another. It hurts so bad to think of the child I could have had. To think of the baby that was sucked out of me like a vacuum cleaner.

- 2. Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No
- 3. Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4. Did anyone pressure you into having an abortion? Yes If so, who? Boy friend- baby's father
- 5. How has your abortion affected you? Severe depression for years, I attempted suicide several times and once almost succeeded in taking my own life. Since becoming a Christian there has been a long process of dealing with it and accepting God's forgiveness.
- 6. How has your abortion affected others in your life? Five years after the abortion, I married a wonderful man who has supported me through everything. I think the abortion has affected my ability to trust, as well as some physical relationships.
- 7. Based on your experiences, what would you tell a woman considering an abortion? Nothing could be worse than this. It will harm you physically, spiritually, emotionally and mentally. It will be a lifelong regret. There has to be a better way. The fact that abortion is so widely available doesn't mean it's good or safe.
- 8. Based on your own experience, what would you tell a court that believes abortion should be legal? You are promoting a system that murders innocents and cheapens life. Abortion and euthanasia are two sides of the same coin, so study the Netherlands well and remember this warning as you age.

- 1) Tell approximately when and where your abortion occurred: April 25, 1994 / Dr. Ryan Anderson's Office in Danville
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? no
- 3) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 4) Did anyone pressure you into having an abortion? yes If so, who? my parents, my doctor, "a b/d/b" and my counselor.
- 5) How has your abortion affected you? It was almost nine years ago and there is not a day that goes by that I don't think about it. About a month after I started having severe panic attacks because I felt like something bad would happen to me because I did something so horrible with the birth of each of my three children, I suffer from extreme guilt and sadness about the babies that I didn't give a chance at life.
- 6) How has your abortion affected others in your life? It affects my husband because I always talk about it and he doesn't know how to help me, it affects my children because I feel it has taken some of me from them. I can't give them the full life I would like to.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would tell them that life begins at conception. If they are young like I was, there are options like adoption or people that will help you take care of their baby. Most of all I would stress that it is a baby, not a blob, of cells, or product of conception like I was told.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Something that involves taking the life of a child to be legal is absolutely wrong. God gives his own children, it is not up to us which ones stay and which ones go. It is up to him. Now God it is for all of the babies that God wanted to give life to and they are destroyed. Secondly, the mother can suffer for the rest of their life.

- 1) Tell approximately when and where your abortion occurred: 1982 San Diego County
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Absolutely not. I was not informed of the procedure, of how far along I was, nor was I counseled in any way about other options.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? Yes If so, who? Husband requested that I 'terminate' the pregnancy for reasons of financial pressure. My Parents agreed w him. Doctor recommended termination.
- 5) How has your abortion affected you? Resulted in depression, insomnia, nightmares, inability to make decisions regarding our 2 living children. It almost destroyed our marriage. I experienced extreme anger towards my spouse, myself and my mother who had exerted a great amount of 'guilt' on me. She felt I should abort as not to place an undue amount of stress on my husband.
- 6) How has your abortion affected others in your life? It deeply affected my husband. He has experienced great remorse & guilt especially with the subsequent birth of our daughters. Recognizing through fetal development the reality.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? That to make a decision she can live with she must know ALL the facts. And that the long term emotional, relational, and psychological fall out is painful and far reaching.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? That abortion is killing a child not terminating a pregnancy. That it is not a quick and easy fix to a complex crisis. That women deserve to be presented with the whole truth. Including the overwhelming psychological pain abortion preempts.

- 1) Tell when and where your abortion occurred: 1977, 1978. in Long Beach, CA
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? NO If not, explain: I WAS told it wasn't a life - it was a blob - that it would be just a missed menstrual cycle. I was told it would quickly be over and I wouldn't even look back.
- 3) Were you adequately informed of the consequences of abortion? NO In fact at one point, I panicked and told the nurse I really was not sure about going forward with the abortion she put her hand on my shoulder and said "Honey, there's nothing to it, it's nothing!"
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO

5) Did anyone pressure you into having an abortion? yes If so, who? friends, a woman I looked up to as a role model, she was the one that told me it was just a blob it wasn't a life.

How has your abortion affected you? I had post abortion trauma, I had night terrors, suicidal thoughts, depression, severe anxiety, fear that lasted 10 years. It handicapped my life. It nearly destroyed my life. I was in the fetal position for approx 6mo, immediately following the abortion. It was as if they took part of my soul.

7) How has your abortion affected others in your life? Yes, my children I have now were so sad to learn I had done this, sad for me and sad for their brothers and or sisters that were denied life.

Based on your own experiences, what would you tell a woman considering an abortion? Don't even consider it as an option. Give it life and give it to someone who is incapable of having children who desperately want to raise a child.

Based on your own experience, what would you tell a court that believes abortion should be legal? The first abortion I had was a pregnancy from a rape. I would give everything I own to have been able to give that child life. Abortion nearly destroyed my entire life but by the grace of God!

BEFORE ME, the undersigned authority, on this day personally appeared DEBBIE HUGHES (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: 1978 in Riverside, CA
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? no If not, explain: I do not recall any counseling or much of anything after walking through the clinic door. I was in total denial of what I was doing. As I was leaving the abortionist told me I was the coldest person he had ever met.
- 3) Were you adequately informed of the consequences of abortion? I just can't remember, but it has been the worst thing I have ever been through. I completely blocked it out of my mind for many years.
- 4) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 5) Did anyone pressure you into having an abortion? yes If so, who? The father of my 2nd son. My "choice" was to have an abortion or have "it" beat out of me.
- 6) How has your abortion affected you? For many years I blocked it out until my oldest son (about 18) called and asked me if I had ever had an abortion. Our relationship was already on shaky ground and I knew I had better be honest with him. Now he is 28 and our relationship is much stronger. I have remembered my abortion every day since and will always regret it.
- 7) How has your abortion affected others in your life? My kids were 5 and 2 at the time and I believe that it had a direct effect on the really bad choices I made immediately after and have affected their lives ever since.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? That it has been 23 years for me and I will never, ever forget about it. I should have another kid and I don't, and it breaks my heart. At one time I did talk someone out of aborting because she had been told her baby might have Down Syndrome. He was born perfectly normal.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? One week after my abortion I had my tubestied. I was 23 years old. I would never have another abortion and feel women would be better off without the right to choose. There are too many other options and I wish someone at that clinic would have tried to lead me in one of those directions instead.

BEFORE ME, the undersigned authority, on this day personally appeared Mary B. Hunt (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:"

1. Tell when and where your abortion occurred: Good Samaritan Hospital in San Jose CA. in 1969.
2. Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No. I was under 16 yrs of age and was not told anything. Parents made me go through against my choice. It has taken me 30 yrs. to deal with pain, emotionally affected my life. Suffered depression, guilt, alcohol, drugs, suicide, lack of trust, grief.
3. Were you adequately informed of the consequences of abortion? No. Saw a counselor who asked me one question. If I wanted to do this. I said yes as threats from parents to do so. Never counseled other wards. I went through a grieving process at forced murder of my child.
4. Were you informed of any link between abortion and breast cancer? No.
Have you had breast cancer? No.
5. Did anyone pressure you into having an abortion? Yes. Parents.
If so, who? Parents
6. How has your abortion affected you? I am now a counselor for others. After 30 yrs of emotional mental healing. The damage was overwhelming and I did not understand why depression, drug & alcohol overwhelmed my life. I do now, and I tell others of the consequences of an abortion.
7. How has your abortion affected others in your life? Because of my circumstances I do not trust people especially those close to me. I had an unsuccessful suicide attempt at age 24 from depression. Had many years of substance abuse.
8. Based on your experiences, what would you tell a woman considering an abortion? That the consequences are life long regret and emotional damage. That undealt with lead to depression, alcohol, drugs and guilt. You can never forget. That life is precious and that our "choice" comes before not after sex. That it is not our place, but God's to give or take life & that every woman knows in her conscience that life is leaving inside her.
9. Based on your own experience, what would you tell a court that believes abortion should be legal? That is not our right to play God. That God knows us even before we are born and conceived. That women must choose to believe that taking the life of an unborn child is murder of an innocent victim of circumstances chosen by the mother.

To be filled out by women who have had an abortion.

The State of California

County of Kern

BEFORE ME, the undersigned authority, on this day personally appeared J. S. I. (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Planned Parenthood Clinic, Jan. 1985 L.A. County.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No. I read and signed papers regarding (removal of) "pregnancy tissue." I said "Is that a baby?" The employee said "It's just tissue." Things they said and did did not make sense.
- 3) Were you informed of any link between abortion and breast cancer? Don't recall. Have you had breast cancer? No.
- 4) Did anyone pressure you into having an abortion? → If so, who? Not directly, but there was definitely an air of deception at the clinic. My questions were not answered. I was trained from room to room. A diagram was used to make sure I was really pregnant. I learned to look at the picture and the employee hid the screen from me. I started to cry and they proceeded anyway. No counseling was given.
- 5) How has your abortion affected you? How has it affected me? It's made a physical, mental, emotional and spiritual challenge present in my life & my marriage. What marriage needs that? Years ago I became so remorseful I contemplated suicide. The personal hell - is proof that abortion is not right. Not how we are designed to live.
- 6) How has your abortion affected others in your life? Deprived my husband of watching God bring us through the hard situation we could all have lived through - deprived our parents of their first grandchild. They were more than hurt. Deprived our subsequent children of an older sibling.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Don't do it. It may look like the easiest way, but it is the hardest. Don't hurry to "fix this problem." Wait one month. (It won't make any difference if you still abort.) During that month TALK to people. As a variety of people. Doctors, clergy, real friends. Get a new perspective on it. It is your baby. You are not alone.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? That it is actually a crime against the yet-to-be born, the society (because of the adverse effects on the mother and father and siblings) and the family of the unborn. It is killing an innocent life - a person. If the court must let this remain legal, then why won't the court require honesty from the organizations that do abortions - like honesty is expected in other businesses? Even cigarettes have to have a health warning!

- I want to tell my story.
- I understand that someone will contact me.
- Do not contact me.
- You may use my full name.

7) How has your abortion affected others in your life? Yes!

8) Based on your own experiences, what would you tell a woman considering an abortion? That 9 months of pregnancy is alot easier to deal with, then a lifetime of guilt + sorrow. That no matter how hard or scared things look or seem that there will always be a better answer than "ABORTION"

That LIFE, LIBERTY, + The Pursuit of Happiness belongs to "all" from the time of conception until God chooses our last breath. 5. Did anyone pressure you into having an abortion? Yes.

7. How has your abortion affected others in your life? I was unable to have healthy relationships with men. After marrying, I was crippled in my ability to enjoy sex.
8. Based on your experiences, what would you tell a woman considering an abortion? It is wrong, it is murder. The guilt will eat you up. The shame will weigh you down. God will get you through the pregnancy.

I got clean for a while after getting married, and made Jesus my Lord & Saviour but yrs later I couldn't shake the depression so I started drinking heavy again and I made more suicide attempts. I felt so worthless and I hated what I had become, I would tell myself that I was an accident and that I should have never been born. I am sober now & living for Christ. AFFIDAVIT

To be filled out by women who have had an abortion.

The State of California
County of Los Angeles

BEFORE ME, the undersigned authority, on this day personally appeared A [redacted] L [redacted] (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: Parkwood Community hospital, Canoga Park CA.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? NO If not, explain: I only knew that it would terminate the pregnancy - I did not know they would pick apart the fetus, piece by piece, limb by limb. I was only told it would be easy.
- 3) Were you adequately informed of the consequences of abortion? NO WAY! I had absolutely no clue of what lay ahead. I was counicled only of the problem that would go away.
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? Yes If so, who? 2 of my friends.
- 6) How has your abortion affected you? well I suffered greatly with depression at first, then years later after I had my first born did I realize what I could have had in my arms - that I gave the o.k. to kill - to make the fetus stop growing inside me. I stopped a beating heart. After 20 years, I still think about it.
- 7) How has your abortion affected others in your life? I think the few I've told just felt very badly for me. I have had the opportunity to talk to young girls and tell them not to have sex - to wait for marriage.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? That there is other options in life - that you can grow more in character and in spirituality by having a baby. The guilt, the suffering doesn't have to be.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? How would you like it if your mom decided to abort you? Many unwanted people are born, and make it in this world - why not give everyone a chance? What happened to the 6 commandment? Is God going to bless this country when you continue to allow murder?

AFFIDAVIT

To be filled out by women who have had an abortion.

The State of California

County of Los Angeles

BEFORE ME, the undersigned authority, on this day personally appeared [Redacted] (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: Feb 2, 1999
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? NO If not, explain: I was in enormous emotional turmoil at the clinic. I was sobbing non-stop when filling out paperwork. I had to be told to "calm down" in order to take blood pressure etc. That office did anyone take me aside and suggest that I was too emotionally distraught to continue?
- 3) Were you adequately informed of the consequences of abortion? NO, and now I can not become pregnant
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? YES If so, who? the "father"
- 6) How has your abortion affected you? I was severely depressed, clinically suicidal immediately after and for periods over past 3 yrs. I have lived with regret and remorse every day of my life. I attempted to become pregnant w/ help of fertility drugs etc for over 1 1/2 yrs, w/out success. It may be because of abortion. I am HAUNTED by the fact that it was TEMPORARY insurance that led me to that clinic, and had they made me wait one day because of my emotional state, I'd be a mom.
- 7) How has your abortion affected others in your life? I have lost friends of loved "before" since I have become a sullen and depressed woman. The 3 years since the horrific "procedure" was 3 yrs of misery, and people don't know me now.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Please don't do this to yourself. The pain and regret may haunt you forever. And though having a baby will change your life and may be difficult - it will bring joy after adjustment. Abortion is irrevocable. You cannot undo death, and there may be an adjustment to that maligation.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? that it is the most abusive industry. Equal to the tobacco industry in making a profit off of couples death and misery. The abortion industry must (at the least) be legally prohibited to make a woman have a waiting period because of her emotional/hormonal state. And they must inform women of the true nature of the procedure, as must any facility performing any other surgical procedure.

must have "inform" of consequences

- 1) Tell approximately when and where your abortion occurred: April 16, 2002; Modesto, CA
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I was told the procedure, and given a pamphlet on the possible side effects.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? yes If so, who? The father of the baby.
- 5) How has your abortion affected you? I went into depression for 7 months. For a while I couldn't even hear a vacuum without crying. Newborn babies were so hard to look at for about a year after the abortion. I became another person, trying to "erase" what I had done. There are still many days where I start to cry remembering what I did!
- 6) How has your abortion affected others in your life? The "father" pretends it never happened. My family has been hurt but recovered. Somehow my mom blames herself.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Even though it seems like a quick solution to a "problem" the emotional trauma it causes is so much worse than living life with a child. Plus, there's always adoption.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I've never had any physical damage, but the emotional and mental is so much more than anyone could think. My life will never be the same, and I don't believe I will ever fully recover from this event in my life.

- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No. I was told that it was a blob of tissue inside of me and that it was safe. They didn't tell me that my children had arms, legs, fingers & toes, and that their hearts were beating. They didn't
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? No If so, who? Not pressured, but maybe encouraged. Mom, abortion providers
- 5) How has your abortion affected you? I have suffered many years from depression, anxiety, panic attacks, and obsessive thoughts, which I now believe are largely due to my abortions. I am suffering from anxiety and panic now and a ~~bit~~ with some agoraphobia. I just recently completed post-abortion counseling and expect to join a post-abortion support group. I am afraid to have children because I'm afraid
- 6) How has your abortion affected others in your life? I will hurt them. It's terribly distressing. It has affected my husband because I'm afraid to have children. It has caused some sorrow and regret in my Mom & some sorrow
- 7) Based on your own experiences, what would you tell a woman considering an abortion? for my Dad. Please do not have one. There are alternatives. You can give it up for adoption or you can get some assistance in raising it. If you choose to have an abortion, you will later regret it. It will cause much grief
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? in your life. Life begins at the time of conception. We do not have the right to take the life of our children. It is immoral and completely takes away the right of that child. It is plain and simple murder. Our family values are decaying, largely due to the fact that we are killing our own children. Children are a blessing, not a burden.

- 1) Tell when and where your abortion occurred: September 1983 in Montclair, California
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? No If not, explain: _____

- 3) Were you adequately informed of the consequences of abortion? No. There was absolutely NO counseling provided (or even offered) by the doctor or associates at the abortion clinic.

- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? Not that I am aware, but, maternal grandmother died of brain cancer.
- 5) Did anyone pressure you into having an abortion? No If so, who? _____

- 6) How has your abortion affected you? I went into severe depression, with massive increase in drug + alcohol use + "casual" sexual activity. I have a very difficult time "connecting" with people, especially long-term. Difficulty w/emotions - desensitized / supersensitized. Caused a weakening in the ligament attaching my uterus + holding it up.

- 7) How has your abortion affected others in your life? Every relationship in my life has been negatively affected by my abortion. Even 17 years down the road, my relationship w/husband + 2 kids is damaged by desensitization.

- 8) Based on your own experiences, what would you tell a woman considering an abortion? Closely examine. All your options + seek counseling + education. Any decision will affect you for life -- don't let fear + panic drive you. Don't be pressured. You are the one who will be profoundly, deeply scarred for life.

- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion at any stage is a violation of women's bodies, emotions, relationships, and future. It is irreparable, irrevocable, and undeniably the most destructive thing we have allowed to perpetuate in our country, in our families, in our history. Abortion is domestic terrorism at its most intimate level.

- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? NO If so, who? _____
- 5) How has your abortion affected you? It has caused me much emotional pain resulting in extreme guilt/shame. It has affected my personal relationships causing a fear of intimate relationships. I have abused alcohol as a way of easing the pain and have had insomnia and anxiety. I have had all the symptoms of post traumatic stress.
- 6) How has your abortion affected others in your life? Yes. I have a fear of intimate relationships and have wanted to distance myself from others because of the shame and guilt.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her to get all the facts regarding the physical, emotional, and spiritual consequences of having an abortion before making any hasty decisions.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I would say it is not in the best interests of women or babies that abortion should be legal. For a woman to kill the baby in her womb has long term harmful effects even animals cannot perform this act. Any nation that destroys its own children is destined for destruction.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: May 3, 1993 Everett, Washington
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? no. I was told what it would feel like and what they were going to do but not how it would feel afterwards. I'm not talking about physical pain but emotional agony and a hole in my heart that cannot be filled.
- 4) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 5) Did anyone pressure you into having an abortion? yes If so, who? boyfriend (who is now my husband)
- 6) How has your abortion affected you? It has been nine years since the abortion and honestly not one day has gone by when I haven't thought about what I did. I've suffered from depression, crying constantly, extreme agony, wishing I could have those moments back so that I could choose life - to choose my child over my selfishness. Absolutely no good has come of the choice I made. Killing my first child, struggling with fertility issues, longing for the one I had but then let go... God has been my strength and comfort. He has forgiven me and I have forgiven myself but that doesn't mean I'll ever forget what I did or that the emotions are back in place. It truly is a struggle. Some days.
- 7) How has your abortion affected others in your life? I took away my parents first grandchild. They have grieved over their loss. my daughter, 7 yrs old knows she had a "sister" that was never born. She has cried for her and talked to her through her prayers.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Something so permeant for a temporary "problem" is not the answer. There ARE other alternatives. If you're afraid of getting caught doing something that you weren't "supposed" to (sex) or letting people down because of your pregnancy - just think of your baby. It's a life!
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? id tell them the same thing id tell a woman considering an abortion. Ask them to talk to women who've had abortions - she was it causes emotionally as well as physically. it isn't safe. It is a life. The heart beat begins only (I believe) 8 days after conception - before a woman even knows she's pregnant. If that doesn't seem important, id like to ask them to live w/out their hearts. It is important. It is life!!!

- 8) Based on your own experiences, what would you tell a woman considering an abortion? Understand, you are actually killing a child - your child. It's permanent - the grief in some ways is forever. There is no greater pain. Consider adoption, if you must. God will provide for you + does have a plan for your child's life. Don't do it.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? It is unconstitutional, in just for a child to be killed at any age or stage of development and we can't trust the court with the lives of our children - how can we trust the court to protect us in any way. It should be a crime to present abortion as an option to any woman as it violates her body, puts her at risk for death + is emotionally + spiritually devastating. Abortion by no means protects women + the damage of ending her life with her child, even if you christ, is almost unfixable.

- 5) How has your abortion affected you? I have felt much guilt, sorrow I really didn't want to do it. But I felt I had no choice. I have been forgiven by the Lord. But I live with the regret everyday. I will never stop regretting my decision.
- 6) How has your abortion affected others in your life? I feel it affected my marriage affected how I interacted with friends with children.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? That this isn't a blob of tissue - show them the stages of fetal development - Explain exactly what abortion is - tell them the RISKS. The heartache that will come
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? That this horrid act not only kills babies. It hurts innocent women who have a right to know all the facts. Health risks & mental risks.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 1980 Ventura, CA 1981 San Francisco, CA
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO, I WAS NOT. My counseling consisted of "are you sure this is what you want?" I wish I would have had counseling - in depth as to all my choices.
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? NO If so, who? -

6) How has your abortion affected you? Emotionally - experienced extreme guilt, sadness, shame, depression, anger, low self-esteem, hiding a secret from others was hard; because I was hurting, but I couldn't tell anyone to help me. Physically - have had a difficult time conceiving, & have wondered if there was a relation to my abortions. Spiritually - a separate feeling from God. My religion / upbringing sees the taking of innocent life as sin, murder, and until I asked God's forgiveness I felt that I had to turn off my feelings, not to feel.

7) How has your abortion affected others in your life? something I had to hide from my husband for a long time because I was so ashamed. Felt hurt the trust in our relationship - Also bonding with my present children like it was negatively affected. Each pregnancy since the abortions brought up negative memories of the abortion.

8) Based on your own experiences, what would you tell a woman considering an abortion? Please, take some time to think about all your options, & then make a decision that you think you can live with for the rest of your life. Don't let others pressure you. Talk to a neutral party, not someone who stands to make money off of your decision.

9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is the taking of an innocent human life. It is not my body, my life - but a life inside of me. Might does not make right - just because I can end its life doesn't mean that it is right to do. I believe our country has erred greatly in allowing the practice of abortion.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: (3) 1974, 1977, & 1979 Fairfield & Vallejo CA
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No, it never felt at the time it was a life. It was as if it was going in to get my teeth cleaned it was just a procedure
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? No If so, who? _____
- 6) How has your abortion affected you? It took me years to fully realize what I had done. I probably knew all along but did not want to accept it. The truth was very painful so I swallowed it in slices. When I got the full picture, I wondered what the difference was between me and the people sitting on death row for murder. If you kill a baby before birth, it's still murder. It's illegal. What's the difference? Nothing. I have found the Lord and the Lord has forgiven me. Not all are that blessed!
- 7) How has your abortion affected others in your life? I did not know until recently how much it hurt my husband, but the Lord allowed us to have a wonderful healing conversation.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? I would witness to her about what God says life is life from day one. No life is a mistake. Every life is created in His image. We can do all things through Him who gives us strength.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I will thank Him it has affected my life (everything in question: sad and more). It took me almost 30 years to find forgiveness and only by the grace of God to the Lord gave me 3 beautiful children. There is no doubt He forgives me!

BEFORE ME, the undersigned authority, on this day personally appeared Ar'ella Rose Wilber (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 1979 Bozeman, MT
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Absolutely not. I was not in any way shape or form told that my baby would be torn to pieces. And I was certainly not told that this was a living baby that was being killed.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer?
- 4) Did anyone pressure you into having an abortion? No If so, who? But, on the day of the abortion I was very upset, & the doctor got very rude with me for being upset & made me feel like I was a "bad girl" for crying. He said something to the effect "If you don't get your act together I'm not going to do this" Unintentionally, I got my act together.
- 5) How has your abortion affected you? I absolutely hated myself for years. I couldn't be around small children without feeling a crushing guilt. It took a lot of therapy to even begin to forgive myself, but it was over 20 years before I was able to accept fully God's forgiveness & then ultimately fully forgive myself. But to this day, if I could I would give my own life to undo what I did. I wanted to take it back from the moment it was done, but abortion doesn't work that way. Once you kill your baby, it stays dead, no matter how much you wish it were otherwise.
- 6) How has your abortion affected others in your life? My husband has been very understanding, but I dread the day I have to explain this to my two daughters.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Don't do it. It kills an innocent child - which she will also have to live with the rest of her life. Choose adoption if you really don't want a child at this time. Abortion is murder, plain & simple.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? That the taking of innocent lives should never be legal, for any reason. It's not just the mother's body. It is two bodies, one of whom should have the right to not be murdered by anyone. That it's time we as a country go back to making responsible decisions. If a person does not want to be pregnant, then take action to make sure that does not happen in the first place. But if somehow it still does, do the responsible thing. Either keep the child, or give it up for adoption. But either way, do not murder it.

- 1) Tell when and where your abortion occurred: Chicken Pox so they sent me to a private DR. in Montclair CA. or Ontario? DR. Rosenthal
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: NO only that it would best for me and solve my problem. They also believed the baby would probably be deformed from being exposed to Chicken Pox during the first trimester
- 3) Were you adequately informed of the consequences of abortion? NO, nothing on health or emotional consequences. After the abortion the DR. said to his nurse that this abortion should not have been done, she was farther along than we thought.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? If so, who? I had to wait to see a private DR. because my daughter had Chicken Pox. At the last moments the DR. got upset with me because I wasn't sure I should go through with it. His wife would have been pregnant before and you know your best friend is not a doctor.
- 6) How has your abortion affected you? 22 yrs later I still grieve over the child I didn't want, and the life I took. I also have periods that keep me home about 2 days every month. (Excessive bleeding)
- 7) How has your abortion affected others in your life? Some things I can remember like yesterday! And though I pray I remember I can't do it. I kept it a secret for many years so it wasn't talked about. Also I have never asked anyone so I really don't know.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Please reconsider, that at three weeks after conception her baby's heart beats and every woman I know truly regrets it. Adoption is a painful option but a lot easier than knowing you took the life of your child.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? It is a life and no one has the right to destroy it. It is a caterpillar not a life because it is not yet a butterfly. How much more a child in the (protection) of the womb.

AFFIDAVIT

The State of California
County of Mendocino

**BEFORE ME, the undersigned authority, on this day personally appeared,
Jackie L. Wilson, who being my me duly sworn, upon oath, states the following:**

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) **Tell approximately when and where your abortion occurred:**

I had three abortions, in 1983-84, at the age of 36-37 years. The first one was in Modesto, CA; the next one in Stockton, CA; the last one was in Sacramento, CA, at which time I also had a tubal ligation, in order not to have to endure the mental agony of another abortion.

2) **Were you adequately informed of the nature and consequences of abortion, what it is, what it does?**

I don't think so. I knew that a vacuum device would be used to remove "the fetal tissue". I was told there was some risk with the anesthesia, as with any surgical procedure.

3) **Were you informed of any link between abortion and breast cancer? Have you had breast cancer?**

No, I don't think I was informed about the link to breast cancer. I have not had breast cancer.

4) **Did anyone pressure you into having an abortion? If so, who?**

Yes, very definitely. My pastor at the time, Lewis E. Frayer, from Redwood Gospel Assembly, in Tracy, CA (now Fremont Gospel Assembly, Fremont, CA, Pastor Jon Wright) told me that I should have an abortion because my husband was called to the ministry and how could we do the job that God had for us to do if we were tied down with a child. My husband, Marvin, and I had only been married less than a year, and I did not trust him as much as I did the man who had been my pastor for 15 years. My husband did not want me to have the abortion, but I felt coerced and intimidated by the "man of God". I felt that the pastor had personal knowledge from God concerning me and that if I did not do what he said, I would be out of the will of God.

5) **How has your abortion affected you?**

For the first few years, I was able, for the most part, to suppress any doubts by telling myself that my pastor knew better than me or my husband. I was brainwashed, obviously. Almost ten years after the abortions, I was finally able to admit that I had "murdered" my and Marvin's children, and asked for God's forgiveness and for Marvin's forgiveness. It took being away from the church where I had been for so long, and educating myself about the facts of when life begins in the womb, and a lot of scripture searching, to come to the place where I could think for myself and not just follow blindly what another person told me. Almost daily, I think about what might have been with those children, who now would be 18-20 years old. I did go through a post-abortion course "Forgiven and Set Free" with a counselor at the local Pregnancy Counseling Center, here in Ukiah, CA. That was a big help. I thank the Lord Jesus, that my husband loved me enough to stay with me and be merciful to me through all these years.

6) **How has your abortion affected others in your life?**

It has devastated my husband. He suffers from anxiety and depression, which I believe are directly related to the abortions and the continued grief over the loss of those children. Also, he felt helpless and powerless in the situation, because I would not let him be the protector of me or our unborn children. We were newlyweds and I already had two teenagers and he had a four-year-old daughter, who he has not had in his life, because she has been with a hostile ex-wife. I did not know how much not having those three aborted children would cause him and me pain and sorrow. I repented and regret the abortions more year by year.

7) **Based on your own experiences, what would you tell a woman considering an abortion?**

Don't do it. Abortion is not an easy solution to a "problem". It only creates a lifetime of regret and sorrowful longing for those lost babies, children, grandchildren. I was blessed that my husband did not leave me. He is truly a treasure. Abortion does not save relationships. It creates a great wedge and more often than not, the relationship ends shortly after the abortion.

8) **Based on your own experience, what would you tell a court that believes abortion should be legal?**

Abortion is killing a child- it is murder and should not be legal. Is the question "At what age is it legal to kill your child?" I think the obvious answer should be that it is never alright to kill your child. Abortion hurts women and men and destroys the natural bond that should be there between one another as a couple, and robs the parent of the natural bond between them and their offspring. Abortion has many victims, the most obvious being 1) the innocent baby, 2) the confused and scared mother, and 3) the confused, scared, and angry father. We need to stop the lie that abortion is a good solution to unplanned pregnancy. Everyone deserves better. We need to teach respect for life and not demean it any longer. **Choose Life.**

Dear Friends,

Thank you for letting me tell my story. Along with the affidavit, I have enclosed three pieces of pro-life literature that I have created. One is my story "The Climb to Joy". Another is a brochure, and the third one is a one-page informational handout.

My husband and I have been guests twice on a local radio program, *A Christian Perspective*, (KPFZ), speaking of our personal experience and the trauma and anger of living without the children that were aborted.

We would love to be on the *Faces of Abortion* TV show. We want to get the message out. I was older and married when I had my abortions, against my husband's will. So, it's not just the young, ignorant ones who have abortions. Older ignorant ones do too! I was ignorant of God's word, and ignorant of the development of the child in the womb.

Use my information any way you like. God bless you and keep up the good work.

Choose Life

In the past 31 years, since January 22, 1973, when the Roe v. Wade Supreme Court decision made abortion-on-demand legal through all nine months of pregnancy, over 44 million babies have been killed before birth. Before 1973, only 17 states had legalized abortion. This law that was imposed upon all 50 states has divided the country like no other issue since slavery. In fact, the pro-abortion mind-set has some real similarities to slavery.

For example—

- slaves were considered non-persons, just as the unborn are.
- slaves were considered the property of the owner, just as the unborn are considered the property of the mother
- slave owners did not want others imposing their morality on them, just the same as those who promote abortion.
- slavery was legal, just as abortion is.

Over 4,000 babies every day are denied life through legal abortions in America, but the tide is turning and through education people are beginning to realize the truth of this horrendous practice. It was once thought that the fetus did not have life, feeling, heartbeat, developed organs, etc. until being many months in the womb. Now we know and can see firsthand, through the miracle of real-time sonography, that life begins at conception with fertilization of the egg and the heart can be seen beating at just 21 days in the womb. That little life in there is not just a "glob of fetal tissue" or "product of conception", but a tiny human being.

By day 35, five fingers can be discerned on the hand. By day 40, brain waves can be detected and recorded. By eight weeks in the womb, the little one is a just more than an inch long. Everything is now present that will be found in a fully developed adult. The fetus' body responds to touch, although the mother will not be able to feel the movement until the fourth or fifth month.

So, you see, those are real little people that are being destroyed and we need to take it to heart and stop the holocaust of abortion in our nation. Take a stand for what is right. Abraham Lincoln once said regarding slavery, "We do not have the right to do what is wrong." The same holds true today with the issue of abortion. Do the right thing. Choose life.

What is the #1 enemy of American children?

AMERICA'S CHILDREN ARE MISSING

CHOOSE LIFE.

Abortion-

Since 1973
One out of four
American children
are missing
due to abortion

In the past 31 years, since January 22, 1973, when the Roe v. Wade Supreme Court decision made abortion-on-demand legal through all nine months of pregnancy, over 44 million babies have been killed before birth. Before 1973, only 17 states had legalized abortion.

This law that was imposed upon all 50 states has divided the country like no other issue since slavery. In fact, the pro-abortion mindset has some very real similarities to slavery.

Generations of chefs, doctors, carpenters, scientists, industry workers, mechanics, teachers, musicians, lawyers, ministers, politicians, waitresses, and parents of our grandchildren are missing from society because we aborted them before birth.

Right or Wrong?

Consider these similarities between slavery and the pro-abortion mind-set--

- Slaves were considered non-persons
- Slaves were considered the property of the owner, just as the unborn are considered the property of the mother
- Slave owners did not want others imposing their morality on them, just the same as those who promote abortion
- Slavery was legal, just as abortion is

Have we become SLAVES to PLANNED PARENTHOOD and the ABORTION INDUSTRY?

"We do not have the right to do what is wrong."

Over 4,000 babies

Abraham Lincoln

every day are denied life through legal abortions in America, but the tide is turning and, through education, people are beginning to realize the truth of this horrendous practice. It was once thought that the fetus did not have life, feeling, heartbeat, developed organs, etc, until being many months in the womb. Now we know, and can see firsthand through the miracle of real-time sonography, that life begins at conception with fertilization of the egg and the heart can be seen beating at just 21 days in the womb. That little life in there is not just a "glob of fetal tissue" or "product of conception", but a tiny human being.

Jackie has experienced first-hand the trauma of abortion. Her goal is to educate those who may believe that abortion does not kill a child, and she wants to comfort those women and men who have lost children through abortion. God's forgiveness is available to all. Accept it. Call today to talk to a friend who understands.

The Climb to Joy

by Jackie Lucille Wilson

The Climb to Joy

by Jackie Lucille Wilson

A few years back my husband, Marvin, and I were at a church meeting in Lucerne, California, where an evangelist from Africa was preaching. (Interesting, isn't it, that God is sending evangelists from Africa to preach to us Americans). At the end of the meeting, I went forward for prayer. That minister didn't say much to me but what I remember is that he prayed for me and said, "Woman, you need to laugh". That touched me deeply and I thought, "Boy, do I ever need to laugh!" That moment started my climb from despair because it let me know that Jesus knew about my situation and was concerned for me.

The despair in my life began several years before when I made some VERY wrong choices.

God is faithful. In this life we often make wrong decisions and bad choices that result in pain, turmoil and confusion. But God listens when we come to him, admit our mistakes and ask for forgiveness. He picks us up in his strong arms and carries us to a safe place. He loves us until we can love ourselves again and helps us learn to forgive ourselves and forgive the people who have caused us pain either intentionally or unintentionally.

As Jesus said to Simon in Luke 7:47, regarding the woman weeping at Jesus' feet, when much is forgiven, much is loved. The woman, who was weeping at Jesus' feet and wiping the tears from his feet with her hair, was a sinful woman and she knew it. Those around about knew it. Jesus knew it. And she knew that only Jesus could help her. That's why she worshiped him with such abandon. And he did forgive her, telling her to "Go in Peace". What joy that must have brought to her tormented soul!

That's where I begin my story-- with Jesus picking me up in his arms and Him carrying me on the climb from despair and defeat to joy and freedom, just as he did with that woman in Israel so long ago.

About 18 years ago I read a book, "Another Wave Rolls In" by Frank Bartleman about the Azusa Street revival of the early 1900s. It tells about that miraculous outpouring of God's Holy Spirit upon thousands and thousands around the world. When I finished reading the book, the Spirit of God was stirred up within me and I told the Lord, "When the next wave of revival rolls in, please let me be a part of it."

God is faithful, as I said in the beginning, and he has done just as I asked. In the current wave of revival that is sweeping the world, the Lord has touched my spirit in a most marvelous way and filled me with a passion to worship him and overflowing joy in that worship.

In 1999, my husband, Marvin, and I visited the revival known as the Smithton Outpouring in the small rural town of Smithton, Missouri. We wanted to go see if it was "for real". What we saw and felt impacted our lives in a great way. The words of the songs that have come out of that revival have been like a healing balm to our wounded souls. Marvin and I will never be the same again. Revival fire is in us!

But there was a time a few years ago when I was not full of joy. I was deep in despair. I was a prisoner of my false beliefs.

When that evangelist from Africa prayed for me and said "Woman, you need to laugh", I was at a place in life where I wished that I could just get out of here and go home to Jesus. My life was at a standstill. I was overloaded with despair from rejection by those who I had believed would always be there for me spiritually, by isolation, by guilt and by hopelessness. I just wanted to go rest in Jesus' arms.

I knew that I couldn't kill myself. That was a sin. But I did think that it would be nice if my vehicle went out of control and I crashed and died. That wouldn't be my fault, just the mercy of God ending my mental pain and taking me home. Right? Sounded good to me.

If you knew me back then, you might have thought that my life was going good. Well, you didn't really know me. You only knew what I wanted you to know. I had a secret. A dark secret from the past was plaguing me.

In 1979, my first husband left me and the church we were in (for another woman in the church). My two children and I had survived that with the help of the Lord and the love and support of the church family.

Marvin and his former wife were members of that same church. I observed that when his wife left him, he didn't back up from God as often happens, but he kept testifying and singing the praises of God. I was impressed. Eventually, we noticed each other and the rest is history!

Twenty years ago, in 1983, Marvin and I got married with great expectations and plans for a wonderful future together. We had been married a few months when I became pregnant. Marvin was thrilled. As the mother of two teenagers, I was not so thrilled, but I began to like the idea as I saw how excited Marvin was.

I was worried, however, because in that church children were not looked upon as blessings so much as they were looked upon as burdens or problems. I was afraid of what was probably coming to me- a reprimand from the ministry for becoming pregnant. But I thought that maybe they would let this one slide.

Bizarre? Yes, I would say so now, but then, I was also caught up in that philosophy. They even had a couple of scriptures to "prove" that people were not "living souls" until they breathed the first breath of

life at birth. I believed it, and therefore did not believe that abortion was actually killing a child.

After Marvin and I had gone to the doctor to have the pregnancy confirmed, we started telling people the "happy news". People's reactions were usually less than enthusiastic— "At your age?" (I was 36), "Oh my", etc.

A couple of weeks later, during a church service, the senior pastor took me outside. He told me that I should have an abortion because Marvin was called to preach and how could he do that if we had a baby to raise? He also told me that I had had "so much trouble" with raising my son and that this one would be even worse. (Let me make it clear here that my son was not a lot of trouble to raise. Yes, he had some difficult times, most likely because of the divorce of his father and me, but he was a good kid- not perfect, but good, and I was proud of him). Then the pastor said to me as he walked away, "And we never had this conversation". Thus, the silent pain began.

I was devastated. I'd known it was coming, this "talking to", but I didn't want to have to disappoint my husband. I'd hoped that I could go ahead with the pregnancy, but after that "talking to" I felt that I had to do what this "man of God" told me to do. I felt like he knew the will of God for me and I had to do what God wanted. I was absolutely convinced that I must obey the "word of the Lord" from this man or I would be out of the will of God and would not be saved. Now I know that I was absolutely deceived.

I sat there on the parking lot curb, crying. After awhile a young man came out the side door of the church and I asked him to go get my friend, Betty. She came out and I told her what had happened and we cried together.

Then I got up, dried my tears, and hardened my heart.

After church I saw Marvin coming toward me in the parking lot. He

could see that I was downcast and asked what was wrong. I told him that I had been "talked to" about ending the pregnancy. He told me that we didn't have to do it. I said "Yes, I do have to do it." He let me know then that he had also been talked to after church. and told to "take care of the problem". Marvin was approached a little differently than I was. He was told that I was too old to have a baby and it might kill me (I was in perfect health). Marvin was also told that he was called to the ministry and that he wouldn't be able to do that if we had a baby. Marvin responded that if he couldn't be in the ministry if we had a baby, that was just the way it would have to be, then he wouldn't be in the ministry.

Anyway, as I said, I had hardened my heart and I would not listen to my husband's pleadings and attempts to convince me that I should not get an abortion. I felt that I had to do it because to me that man speaking to me was the same as the Lord speaking to me directly. That is what I had been trained for 15 years to believe. I was completely "sold out".

So Marvin, loving me, and not wanting to divorce me, went along with my stubborn insistence and drove me to the abortion clinic where our "problem" was ended. Only that was not the end at all. It was the beginning of nearly 20 years of regret, mental torment, pain, guilt and anger.

I truly thought that Marvin would get over it. I thought he was overreacting. After all, he had a four-year-old daughter who lived with her mom, but who could be a part of his life. And I had two children. Wasn't that enough of a family?

But the loss followed him and the grief overwhelmed him at times and the anger would spill over onto me and others. Marvin never accused me or tried to make me feel bad, for which I am grateful. He started having anxiety attacks. He lived with the anguish, trying to make sense of it.

At times, I would hear a pro-life song on the Christian radio while driving in my car and I would have doubts as to whether I had done the right thing. I remember hearing a song one day about an aborted baby in heaven looking down on his mommy here on earth and waiting and wanting to see her in heaven. I actually let myself feel something sad. I prayed to God that if my baby really was in heaven that I wanted to see it someday and for God to please tell it that I was sorry for not letting it live.

Amazingly, we stayed in that church there in the San Joaquin Valley for about four more years as Marvin lived with the agony and I denied it. Then, when Marvin could stand it no longer, the Lord in His mercy led us to move to Ukiah. God had to give me a dream to get me to leave where I was because of the strong bond (bondage?) that I had with that church and its teachings. We stayed connected with that church, starting a church here and taking people there for meetings and fellowship.

In time, as I realized that many years after the fact Marvin was still plagued by the loss due to the abortion, I began to read pro-life literature and listen to people speak on the subject (which I had refused to do previously). As I opened my mind and my heart I saw from the scriptures that God wants us to have children; they are a blessing, not a "problem". Lo, children are an heritage of the Lord: and the fruit of the womb is his reward. Psalm 127: 3

I finally realized that I had been lied to and I apologized to my husband for murdering our children (I had three abortions). We wept together- I mean we wailed together and mourned the loss of those children.

That began our journey toward sanity. Now we were together at last in the grief, and it was a good thing for me to be able to understand and be in agreement with Marvin on this.

We wanted to confront the leadership in that church where we had been, but didn't know how to approach them in a way that would be received.

We were in a quandary as to what to do with the church here in Ukiah. Should we continue fellowship with that other church as we had been doing, or what? We had built our people solidly into that fellowship. The confusion increased as we tried to sort it all out.

Through circumstances, over a couple of years, we did separate from that "mother church and her sister churches" and the Lord gently dismantled the church here. We helped those who we could to get settled into other "safe" churches and Marvin and I began a time of spiritual healing, rehabilitating, rethinking, and redefining our place in God's kingdom.

A couple of years after that we wrote letters to and talked to several of those in the leadership in that fellowship of churches, but they refused to change on their teachings.

I fell into a time of great sadness in which I felt no hope that things would get better. It was during that time that I became fully aware of my guilt and felt that I was responsible for my husband's misery. I felt abandoned and rejected by the leadership in the church where I had been for so many years and which I had believed had all the answers to lead me to heaven. I was empty of any joy. I went through the motions of serving God. I still loved Him and wanted to serve Him, but I was confused as to how I was supposed to do that.

It was at that low time, when I cried out to the Lord, asking whether he had forgotten me, that He let that young evangelist from Africa remind me that Jesus did indeed know my plight. That moment began my climb up. I knew that the Lord loved me and that the stand that Marvin and I were taking for righteousness and the sanctity of human life was the right decision.

Marvin and I have come to a place where we have forgiven those who imposed their will on our lives. The way that I personally was able to forgive was in realizing that it was not my former pastor or friends who betrayed me, but that it was Satan who was the deceiver. Satan caused them and me to be blinded to the truth, purpose, and love of our Heavenly Father. I find peace and rest in forgiving those who were deceived into hurting me and by accepting the forgiveness of the Lord Jesus Christ for my own sin.

The Lord has been so gracious and merciful to us and has led us into the current wave of Revival that is sweeping around the globe. Remember, I told the Lord that I wanted to be a part of the next wave? He didn't forget me. Hallelujah! Revival has begun in churches around the world with a powerful outpouring of the Holy Spirit. Millions of people are being blessed with God's glory, holy laughter, weeping, emotional healing, and just soaking in God's presence. The Word of God says that the joy of the Lord is our strength. That is what I see coming out of this current move of God's Spirit- JOY! And we surely need more real joy in this troublesome time in which we live.

Marvin and I have the desire to reach out to others who are suffering emotionally and spiritually. As a result of the pain in our own lives we have pursued avenues to offer healing to others.

Marvin obtained a Master of Arts degree in Christian Counseling and founded Healing Waters Christian Counseling. He is a Licensed Clinical Pastoral Counselor and Certified Temperament Counselor and is Board Certified in Integrated Marriage and Family Therapy, with an office in Ukiah. I am also a trained biblical counselor and help him in the counseling ministry. The counseling ministry website address www.wonderfulcounselor.net.

My goal is to encourage sexual purity in today's generation of young people and adults and to show the sanctity of life- that every life is important. We should not be the ones who decide who is born and

who is not. That is God's decision. He is the giver of life. In our liberal society, abortion has come to be an accepted way of ending an unwanted pregnancy for single as well as married women. Today's men and women have been inundated with the "pro-choice" propaganda to the point that they often do not even think of the moral issues, just the legal ones. It is legal. However, through education and the proof of life in the womb that is offered with amazing ultrasound images, abortion may soon be illegal.

Abortion is not the end of a "crisis pregnancy", but the beginning of a lifetime of regret, guilt, anger at anyone who suggested or pressured them to get the abortion, and profound lingering sadness. These emotions are nearly always the case for the mother of the aborted baby and for the father as well. But there is hope, forgiveness, and healing in Jesus Christ.

Helping those women and men who are suffering the emptiness and pain of lost children and post-abortion trauma has been in my heart for quite some time. It is my desire to share with others what I have learned through my wrong decisions and bad choices and to let them know that there is hope and a bright future ahead if we begin now to make the *right* choices in life.

The Lord Jesus Christ has blessed me so much. He has given me a gift- the gift of joy. When I worship Him, I just have such an intense connection with the heavenly realm. I have such a great appreciation for His forgiveness and love. I worship God with my whole being. He is worthy of all praise. He's put a song in my heart and a dance in my step. He kept me and loved me. He helped me climb from despair to joy.

- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I did not know any details. Only that it would kill the baby.
- 3) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 4) Did anyone pressure you into having an abortion? If so, who? My boyfriend didn't tell me to have an abortion, but was planning suicide if it became known that we were having sex.
- 5) How has your abortion affected you? It has made me very, very sorry, broken hearted and angry. Abortion is a lie. It does not make a bad situation better or eliminate a "problem". It compounds fear with a permanent guilt, regret and sorrow. Knowing that you are responsible for allowing the death of your child is an incredible weight. No matter how someone else pressures you, you are the one who signs the consent and climbs on the table. The responsibility is yours. I have a longing to kiss my child and tell him that I love him. I ask Jesus to kiss him for me and tell my child that his mommy loves him and is so sorry. Nothing is more innocent or precious than a baby growing in his mommy's womb or less deserving of harm. I wish I had never allowed my child to be killed.
- 6) How has your abortion affected others in your life? I have told very few people. My boyfriend knows, of course, and he wishes we had the child. I told a few women friends and they hurt for and with me.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? There is no situation in which abortion is the answer. It only brings heartbreak, sorrow and death. You will miss this baby. This baby will never be again. No matter how many times you get pregnant, you will never have this baby again. You will regret that. And someday you will learn that your baby's heart was beating, his brainwaves were functioning and he felt the pain of the abortion. You will learn that he

experienced the ultimate child abuse.

8) Based on your own experience, what would you tell a court that believes abortion should be legal?
Abortion is not in a women's best interest. It allows her to do something that she will regret. Someday she will know that she allowed her baby to be killed. And it will eat her up. She will come to hate the abortion and those who allowed it.

- 4) Did anyone pressure you into having an abortion? NO If so, who? _____

5) How has your abortion affected you? about 7 years later it hit me like a ton of bricks that I had killed my child + I considered taking my own life because of it. If it hadn't been for a friend who led me to forgiveness of God + forgiveness from my child + to forgive myself I would not be at peace today. I now encourage expecting moms + dads to not make the same mistake + to love + receive the gift of life irregardless of the circumstances.

6) How has your abortion affected others in your life? I help others to keep their baby. I help them before + after the baby is born.

7) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her that abortion is never the answer to a problem. To ask for help if she needs it, and if she really doesn't want the baby to give the baby to a family via adoption.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? That an unborn human being should have the same protection as people already born. There was a time when black people were not considered human + the United States gave protection under the constitution to blacks and ALL living beings, and an unborn child is LIVING. Also the Jews were treated as non-humans in the holocaust + the unborn children are being treated the same way.

Testimony of Frances E. Stewart

AFFIDAVIT

The State of California

County of Los Angeles

Before me, the undersigned authority, on this day personally appeared _____
Frances Stewart, who, being by me duly
sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

It was February 18, 1988. I was a 33-year-old single mother living in Chicago, Illinois working as a Registered Dietitian at Michael Reese Hospital. That was a day that I will not soon forget. Seated in Dr. Ressetar's office, I learned that I was once again pregnant. Overwhelmed, I argued I could not deal with this my fourth pregnancy. I already had 2 small children at home to care for and an unemployed boyfriend. Furthermore, I was not happy with this live-in relationship and wanted out. Dr. Ressetar advised me that she did not perform abortions but that I could locate those services in the telephone book. Now, 15 years later, I wonder why she didn't mention the crisis pregnancy services available in the area. So, I left the office in deep despair, feeling that there was no other recourse for me than abortion, despite other choices I had made with 3 previous pregnancies.

Subsequently, I found Albany Medical-Surgical Center and made an appointment. Although I don't remember the details of the visit on February 27, 1988, the records in my possession indicate that I had a routine exam, an ultrasound and simple labwork. The abortion procedure was explained and I viewed some videos but never saw the results of the ultrasound that I paid for. I signed consent forms. The mid-trimester abortion was scheduled for 3-5-88. Thinking back now, I don't believe the emotional consequences of the abortion were ever discussed with me but they have, nonetheless, had a profound impact on my life.

James, my boyfriend just looked at me without obvious emotion and I told him I was planning on ending my pregnancy. He scarcely uttered a word of protest. I guess he was preoccupied with his own problems.

It was a frigid, gray winter morning the day I walked towards the door of the clinic accompanied by another male friend. I vaguely remember the Pro-life protesters demonstrating outside of the black metal fence surrounding the property. I remember this short matronly woman bundled up in a fur coat who accompanied us from the parking lot

to make sure I made it through the front door and didn't have a change of heart! Funny, as I look back, I did hesitate for a fleeting moment as I stared at them wishing that I could escape what I was about to do. If only I had escaped!

Some of the rest of the details of what occurred that day I only have a vague recollection of. Although I have strained many times to remember, to relive the terror so that I could be released from the pain in my soul, my memory continues to hide much of it from me. I do remember the cold, professional demeanor of the employees and especially the busy abortionist. He quickly set about his work. There was intense pain, a deafening vacuuming noise and then finally it was over. I was assisted to another room and lay down on a gurney. Vaguely, I recall others in the room recovering from their procedures. As I lay there, emotionally numb and quiet, I was aware of the staff occasionally checking up on me and I complained of dizziness. Apparently, they were less than pleased with my low blood pressure. I refused to get up for fear of falling. There was the mindless chatter of the women in the room that reinforced the emptiness and aching I felt. The staff soon grew impatient at the fact that my blood pressure had not recovered. From their reaction, I presumed that they were anxious to shove me back out the door! My friend Terry inquired about me and they reported that I had taken a long time to recover. He gently escorted me out the door. That is all I remember.

With no one to turn to and no time to mourn, I decided that I would push the whole thing out of my mind and just get on with life or so I thought.

Seven months later my relationship with James came to an end. In deep anger and frustration, he came at me with a knife, threatened me and left. That day, I changed the locks on the doors of our apartment. About this time, I faced an overwhelming sense of dread. A sinister vision preoccupied my waking thoughts playing over and over again in my mind as I fell into a period of despair and depression. A vague shadow, taking no particular form, would raise a club to strike me over and over again about the head. When I raised my head up the club would come down again. I tried to shake it off, to blot out this incessant vision from my mind but it would continue to reoccur. I remember going to see a counselor and later joining a single mother's support group but I doubt that I ever mentioned the abortion because it was my dark secret. Due to denial and deep emotional anguish, I never quite connected up all the pieces.

The months and years ensued taking many self-degrading twists and turns. I became involved in numerous hurtful and toxic relationships and sexual addiction. I moved locally several times, and finally moved across country to Southern California. But, I could never escape from myself. It was then that I stopped running and surrendered my life to the Lordship of Jesus Christ.

Some of the patterns of self-destructive behavior I now recognize as post abortion syndrome: depression, isolation, emotional numbness, low self worth, sexual promiscuity, alienation, intense anger, rage and suicidal ideation. In the spring of 1999, I attended a presentation by Norma McCorvey of Roe vs. Wade at my church and realized that I had some unfinished business. Shortly thereafter, I had an opportunity to learn more about post-abortion syndrome at a lecture giving locally by the Pregnancy Care Center.

On February 27, 1999 in a torrent of tears, I stopped running from the pain and guilt of my abortion and confessed my fault. I acknowledged my sin and shame at long last and sought God's healing and restorative Hand through the help of a gracious beautiful woman of God, Carol Jovenat. I discovered that Christ died, even for my sin of abortion and I could forgive all those involved, including myself.

Emotional healing from post-abortion trauma was a long, difficult and painful journey but one I had to traverse to see cleansing and wholeness that only Christ can offer. Then, I could truly mourn and rightly grieve the loss of my dear preborn son, Michael.

Since then, I have been able to share my abortion experience with other women hurting from abortion and, thanks be to Almighty God, have been instrumental in helping save the life of an unborn baby destined for slaughter. Frankly, I would not wish the guilt, shame and pain of this experience on my worst enemy! It was an infection that poisoned my whole life for 15 years. My relationships with my children, my family, my friends and my God were seriously impacted. By no means is this a reasonable solution to a crisis pregnancy!

I would stand before you today and tell you that at age 47, I would give anything to have my child here with me now. I can not be with him or he with me. There is no gravesite, no memorial stone. I can only write his name in the sand at the beach and hope that he sees the love I have for him in my heart. I declare this testimony to you on the memorial of his death.

Freedom-loving Americans can no longer be callous and turn a deaf ear to the psychological, emotional and spiritual suffering of women and men in this country and the world. Legally permitting abortion only fosters bondage, self-degradation and self hatred in womankind and alienates us further from the generations of humanity to come, those who are lucky enough to survive this horrendous holocaust. Protect our country's future, protect preborn humanity by giving to them the unalienable right to life and liberty.

"I have read the above and foregoing statement and the same is true and correct".

AFFIDAVIT ATTACHMENT

2. I had just moved to Los Angeles and was staying with a "friend of a friend" until I could find a place to stay. The first night I stayed with her, I told her that I was 10 weeks pregnant and was planning to have the baby and keep it. She spent the entire evening trying to convince me that I should not have the baby and that I should go and counsel with the folks at Planned Parenthood. I made the appointment and went in to check it out. After 3 hours of "counseling" and many tears, I decided that maybe this was the right decision. The counselor focused on my future and how this child would hamper my desires to pursue a career in show business. She also told me how difficult it would be to raise a child by myself, especially in Los Angeles, and that my life would no longer be my own. She put such a positive spin on the whole thing that I felt that it truly was the right thing to do. She also made the procedure sound quite simple, very quick and I would be back on my feet in no time. I was not shown pictures of a fetus to inform me of the child's development nor was I given any information regarding post abortion syndrome and the difficulties I would face. Once again, it was "sugar coated" and made to sound like this was indeed the right and only choice that I should make. I was 24 years old at the time and had already given one child up for adoption at the age of 19.

5. After the abortion, I fell immediately into another relationship with a man I had just met who accompanied me to the clinic and took me home after the abortion. He moved in with me and took care of me for the 2-week recovery period and listened to me cry over the father of the baby, who had abandoned me. I ended up marrying this man (my second marriage – the first occurred 8 months after I gave my first child up for adoption). This husband was controlling and abusive and the marriage ended after 3 years. Many more men passed through my life and alcohol and drugs became the "pain reliever." Depression became a way of life and I found myself under the care of several psychiatrists and psychotherapists over a period of 10 years. The diagnoses were as follows: chronically depressed, bipolar, borderline manic-depressive and hypo manic. I spent 10 years of my life fighting this depression and was told I would be on anti-depressants for the rest of my life. My third marriage was riddled with emotional problems, drinking, outbursts of rage and numerous threats of divorce. I lost our first child (my third) to a miscarriage. I was convinced that it was a punishment for the abortion. I gave birth to our first son, David, when I was 35 and could not connect with the pregnancy because I was just waiting for something to happen to him – I would either lose him or he would die. After he was born, I struggled with bonding and on many occasions had to take him to a neighbor to watch him because I couldn't cope. The birth of our second son, Scott, sent me over the edge. I ended up in a treatment center for I was suicidal and tried to slash my wrists. Scott was 5 months old and David was 3.

6. The abortion affected my third husband and children the most. I was unable to connect emotionally with my husband or my children and there was so much self-

hatred, guilt and shame inside of me that I was unable and incapable of truly loving them. There was no trust and so much anger inside of me that I couldn't love anyone. My fits of rage would be spewed out on my husband and my children and the depression had taken me to the brink of suicide on several occasions. Also, financially, it cost us thousands of dollars in psychotherapy and hospitalization.

7. I would explain to her that there was a life growing in her and that to end that life would also kill a part of her. The abortion may bring a sense of relief for the moment, however, the experience will always be with her and will come back to haunt her in ways that are very subtle at first, but eventually will eat away at her like a cancer. I would share my experience with her and also remind her that this life was created by God for a reason and if she looks to Him for the strength and guidance to see the pregnancy through, then He would bless her and this child beyond anything she could imagine. I would also ask her what if some of our greatest leaders had been aborted by their mothers. After all, the greatest birth that ever came from an unexpected pregnancy was Jesus Christ! And because of Jesus Christ in my life, He has brought victory to me over it all and I am now living free of depression and anti-depressants. I am very active in ministry sharing what God has done for me through Christ with music, testimony and teaching. And He has a wonderful plan for her also, but abortion is not part of that plan. He gives life and He takes life away. Only He has the authority to do that, not us. And He will honor and bless her if she honors the life she is carrying.
8. Murder is a crime and is against the law. Our police work diligently against deterring it and our judicial system vigorously works toward bringing murderers to justice. Our nation is consumed with court television, police dramas, etc., because we have a hunger and a thirst for justice. So, where is the justice in giving the legal rights to a mother to kill an unborn child – an innocent victim who cannot speak for him or herself? They have no lawyer to defend them and they are at the mercy of the mother's situation and decision. In most cases, the mother is very young, very distraught, and frightened. In most instances, she has not informed her parents who could possibly guide her. She usually does not get all of the facts in order to make an informed decision. All she can think about is how to get herself out of the situation she is in and to do it quickly and secretly. This does not make for a "just" situation. Abortion was initially put into law allow a woman to choose abortion when the either the mother or the fetus was in a life or death situation. It was also a solution for the parents to terminate a pregnancy where severe cases of genetic disorders were involved. However, the truth is our society -- in most cases -- uses it as a form of birth control. Based upon my own experience, I used abortion as a form of birth control and was able to have an abortion for it was legal for me to do so. However, it was the biggest mistake of my life and I have paid dearly for that mistake. Laws are made and enforced in order to protect us. Therefore, abortion should be made illegal not only to protect the unborn child, but also to protect the mother from the psychological and emotional devastation it causes as a result of the procedure.

We have not yet proven, without a doubt, that a fetus is a human being. However, photographs taken at very early stages of the fetus and his/her development are revealing more than ever before the truth -- a fetus is a human being. Until we can decide whether it is a human being or not, we should error on the side of caution and assume that it is so as not to potentially take a life. Many babies would be saved and, believe, the unwanted pregnancy rate would diminish significantly. People would have to be more cautious and responsible in their behavior for there would no longer be "an easy way out." Two wrongs have never made a right and this is one wrong that needs to be made right. Abortion is murder and should be illegal.

I swear under the penalty of perjury that the above written answers are true and correct.

When I went to the abortion clinic I was told that sometimes, but not very often, women had emotional problems after an abortion. The main emphasis was on possible physical complications + the necessity of going on birth control pills. No one explained the embryonic process, or even suggested that "it" was a baby. A human life. No one ever mentioned a possible link between breast cancer and abortions.

less than 2 1/2 years later at the age of 24 I got breast cancer. How does a 24 year old with no family history of breast cancer, non-smoker, non-drinker, get breast cancer? I could never understand, why me? Because no one talks about it! No research (and when there is research, its covered-up)

Because people are making a lot of money off of this & don't want women to know the truth.

It seems to me that if we have to take classes & have a training period to drive a car because of its deadly consequences if not used properly, should it women have to have some sort of "training" / education before not only taking another's life but also possibly ruining the rest of their own life?

In my own experience, however, the physical loss can in no way compare to the emotional damage that was done. Physical scars heal over time. But the emotional scars will never go away. The physical pain doesn't last that long. But the psychological pain is a lot harder to identify & heal. I am convinced that if women received adequate education & counseling BEFORE - most would never go through with an abortion.

I have read the above and foregoing statement and the same is true and correct.

- 6) How has your abortion affected you? Post Abortion Stress Syndrome, Depression with resulting impact on my marriage. Created intense anger and my marriage, as well as deep wounds by rejecting and alienating my husband. The subsequent guilt was life changing.
- 7) How has your abortion affected others in your life? my husband - it directly caused the dissolution of our marriage.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? never do it. The pain & today ~~is~~ as not as great as the pain, later, after an abortion. I did not see an abortion, I was kicking a baby, but I still suffered from depression & guilt.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? The damage to a woman's psyche is tremendous. I should not have the anti-Christian backlash to her and me. Guidance and advice had, guilt, depression, and strong feelings of rejection toward the people who led me towards abortion. Before me, the undersigned authority, on this day personally appeared CONSTANCE RICE, (Print Name) who, being by me duly sworn, upon oath, stated the following facts:

My name is CONSTANCE RICE (Print Name). My address is

I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

I HAVE TRIED TO REMEMBER THE DATE, THE TOWN, & THE NAME OF THE CLINIC WHERE MY ABORTION WAS PERFORMED. IT WAS SUCH AN UPSETTING TIME FOR ME THAT ONLY A GENERAL REFERENCE IS CLEAR TO ME. I KNOW IT WAS JUNE OR JULY 1980. I KNOW THE WOMEN'S CLINIC WAS EITHER IN W. LOS ANGELES OR SANTA MONICA. I TRAVELED FROM TORRANCE, WAS UN-FAMILIAR WITH THE AREA, & DID NOT DRIVE MYSELF. ON THE WAY THERE, I JUST KEPT HOPING MY HUSBAND WOULD CHANGE HIS MIND. ON THE WAY HOME, I LAY IN THE BACK ~~OF~~ SEAT CRAMPING AND CRYING. WE HAD BEEN MARRIED FOR 7 YEARS. IT SEEMS IRONIC TO ME NOW THAT I FACED A CRISIS PREGNANCY EVEN THOUGH I WAS A VIRGIN WHEN I GOT MARRIED. MY HUSBAND TOLD ME THAT HE DECIDED HE DID NOT WANT CHILDREN AT ALL AND IF I DECIDED TO HAVE OUR BABY THAT HE WOULD LEAVE & GO BACK TO TEXAS IMMEDIATELY FOLLOWING THAT DECISION. HE OFFERED TO PAY FOR HALF OF THE ABORTION. I WAS DEVASTATED BECAUSE I THOUGHT MARRIAGE WAS FOREVER. THE ONLY ADVICE I GOT FROM FRIENDS WAS TO SAVE MY MARRIAGE AND A "FRIEND" MADE THE APPOINTMENT AT THE CLINIC. MY HUSBAND DROVE ME THERE AND GAVE ME CASH. HE WOULDN'T GO INSIDE WITH ME, BUT DID PAY THE WHOLE FEE.

THE CLINIC WORKER GAVE ME A PIECE OF PAPER TO READ ABOUT POSSIBLE CONSEQUENCES AND I REMEMBER THEY SAID THEY WERE RARE, THERE WAS NO MENTION OF BREAST CANCER. WHEN THEY CALLED MY NAME, I ASKED THE LADY IF IT WAS A BABY BECAUSE I DIDN'T WANT AN ABORTION IF IT WAS. SHE SAID IT WAS ONLY TISSUE & BLOOD, NOT TO WORRY, AND THAT IT WOULD ALL BE OVER SOON. WHEN I WENT INTO THE ROOM, THE DOCTOR WAS SLOWLING & NOT NICE.

Please return to: Texas Justice Foundation, 8122 Datapoint, Suite 812, San Antonio, TX 78229

I DON'T THINK HE WANTED TO BE THERE. THE PROCEDURE WAS MORE PAINFUL THAN I EXPECTED. THE LADY IN THE ROOM HELD MY HAND, SAYING IT WOULD BE OVER SOON. WHEN I DIDN'T THINK I COULD STAND IT ANY MORE, THE DOCTOR SAID HE HAD TO GO BACK IN BECAUSE HE DIDN'T GET EVERYTHING. WHEN I GOT HOME, I STAYED DOWNSTAIRS WITH SEVERE CRAMPING AND BLEEDING (THE BLEEDING WAS NOT SEVERE). I WAS SO UPSET EMOTIONALLY, I FELT AS THOUGH MY INSIDES HAD BEEN PULLED OUT, BOTH PHYSICALLY AND EMOTIONALLY.

WITHIN A YEAR, MY HUSBAND DECIDED TO LEAVE ANYWAY. HE WENT BACK TO TEXAS, LEAVING ME WITH NO PLACE TO LIVE AND NO MONEY. HE EVEN LEFT ME WITH A LIST OF CHARGES TO PAY HIM (RETAIL VALUE OF EVERYTHING HE LEFT BEHIND AND CREDIT CARD CHARGES MADE BY HIM - DIVIDED BY 2). I FINISHED PAYING HIM FOR MY CAR AFTER HE LEFT, BUT DID NOT PAY THE OTHER LISTED ITEMS. I WAS AN EMOTIONAL AND FINANCIAL WRECK. MY EMOTIONAL CONDITION CAUSED ME TO LOSE MY JOB. HAD MY SISTER NOT COME TO MY RESCUE, I DON'T KNOW WHAT I WOULD HAVE DONE. SHE SHARED AN APARTMENT WITH ME AND HELPED ME GET BACK ON MY FEET.

I MADE A DECISION TO GET ON WITH MY LIFE AND PUT THE WHOLE EPISODE IN A DARK CORNER OF MY MIND, LEAVING IT THERE. AS I BEGAN TO HEAL, I MET MY PRESENT HUSBAND. I MADE SURE HE WANTED A FAMILY BEFORE WE MARRIED. WHEN I BECAME PREGNANT ABOUT 1 1/2 YEARS LATER, I READ "A CHILD IS BORN". I COULD NO LONGER DENY THAT I HAD TAKEN THE LIFE OF MY OWN BABY, EVEN THOUGH I RATIONALIZED THAT I DIDN'T REALLY HAVE A CHOICE. WHEN MY DAUGHTER WAS BORN, IT WAS SO HARD FOR ME TO BOND WITH HER. I FELT SO INADEQUATE AND UNWORTHY OF BEING A MOTHER. I SUFFERED FROM DEPRESSION AND EMOTIONAL OUTBURSTS FOR ALMOST 6 MONTHS. THIS WAS HARD ON MY HUSBAND AND I KNOW HAD A NEGATIVE IMPACT ON MY DAUGHTER, EVEN ONCE I WORKED THROUGH THE DEPRESSION, OUR MARRIAGE WAS TAXED BECAUSE OF THE STUFFED EMOTIONS I HAD.

WHEN I BECAME A CHRISTIAN, GOD SLOWLY BEGAN TO REVEAL TO ME HOW HE LOOKED AT ABORTION. AS HARD AS IT WAS, I CAME TO FULL REPENTANCE ON MY KNEES WHILE CRYING UNCONTROLLABLY. AN INSTANT LATER, I FELT GOD LIFT THE GUILT AND SHAME AWAY FROM ME. I KNEW (C)

CONSTANCE RICE

THEN THAT GOD HAD FORGIVEN ME. NOT WANTING ANY OTHER WOMAN TO GO THROUGH WHAT I HAD, I VOLUNTEERED TO HELP IN A LOCAL PREGNANCY CENTER, I WENT THROUGH A POST-ABORTION STUDY THAT HELPED ME CONSIDERABLY. I AM NOW ABLE TO SHARE WITH OTHERS SO THOSE CAN FIND HEALING AS WELL. PREGNANCY CENTERS OFFER FULL INFORMATION - FETAL DEVELOPMENT, ABORTION PROCEDURES, AND PHYSICAL AND/OR EMOTIONAL CONSEQUENCES. THE PRO-ABORTION FORCES CALL THEMSELVES "PRO-CHOICE", BUT OFFER ONLY ONE CHOICE - DEATH, THEY DECEIVE WOMEN INTO THINKING ABORTION IS A WOMAN'S "RIGHT" SOMEHOW BENEFICIAL TO US. BY FAR, ABORTION WAS THE MOST DEVASTATING AND PAINFUL EXPERIENCE OF MY ENTIRE LIFE. EVEN IF CIRCUMSTANCES ARE DIFFICULT, THE EXPERIENCE OF THE MIRACLE OF A BABY'S BIRTH IS SUCH A BLESSING. IF I COULD REDO ANY PART OF MY LIFE, IT WOULD BE TO ALLOW MY CHILD NUTRITION, SHELTER, AND TIME TO DEVELOP -

I have read the above and foregoing statement and the same is true and correct. THE SAME THINGS NEEDED FOR AN INFANT TO SURVIVE. I WAS LIED TO AND PRESSED INTO AN ABORTION. IT HAS BEEN A PRIVATE NIGHTMARE FOR ME.

SIGNED this 10th day of JANUARY, 2001.

- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? NO If so, who? _____
- 5) How has your abortion affected you? I EXPERIENCED GREAT EMOTIONAL, psychological + physical + spiritual PAIN. Emotional pain of NOT rocking them in my arms, hearing their cries + laughter. I will NEVER know if they looked like me or see my grand children or great grand children. I've cried many tears for many years - 15-20 years. THAT BEEN AS A MOTHER HAS become incomplete. My last pregnancy ended in a RABO miscarriage - I have been told by doctors THAT I have scar tissue - I have NOT been able to conceive a child since THE miscarriage. I walked w/ unforgiveness for many years.
- 6) How has your abortion affected others in your life? Yes, my husband - we have NO children together. Our parents have no grandchildren by us. My Nieces + nephews have no cousins from me.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? NOT TO do it, THERE ARE LONG TERM CONSEQUENCES THAT ARE UNFORESEEN. THERE IS A POSITIVE way out of EVERY NEGATIVE situation. THERE IS LOVE + HELP FOR you. God Loves your unborn child. He knows your unborn child before HE put your child in your womb.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? CHILDREN ARE A GIFT FROM God + A heritage. THE SEED IS ALIVE, THE EGG HAS LIFE + at conception - THE OBLIVIOUS IS ALIVE - God CREATED LIFE - NOT MAN. WHAT WE THINK WE HAVE A SELF RIGHT TO do IS A LIE. THE COURT IS gIVING A LICENSE TO MURDER THE UNBORN - but THE BORN MURDERED IS A CRIME - BOTH THE MURDEROUS ACTS ARE BOTH CRIMES unto mankind + God.

CHAPTER 6 THE DARKNESS

As a young girl, I was attracted to the light but soon the light dimmed and there was only darkness. My original roots called me to the sins of my ancestors. I was a burnt-out party girl. I looked into the mirror only to see the sparkle gone from my eyes. The light was gone. Too many pubs, too many bars, too many late night piano bar renditions. A brave smile remained on my lips for the world to see but my fast life had taken it's toll.

I could invent and reinvent myself over and over again. A new, improved look. A makeover. A new-image. A new "me" to present to the world, for whistles, applause and approval.

A man pulled up to a stoplight at the same time I did, looked over at me and remarked: "You're very beautiful." I doubted whether I was beautiful while growing up, and into my young adult years.

I was insecure and riddled with self- doubt. Sometimes I believed it and sometimes I didn't. I believed it at the Apple Blossom Fair and I believed it on stage in a piano bar

I feared I was losing my ticket to the fair, my pass to all the rides. My looks, my charm, my charisma had thrust me into a jet-set world. Gained me entrance into mansions, into lavish, sophisticated, glittering parties.

The darkness masquerading as the light was losing its appeal. The darkness had engulfed me from my youth. The parties. The feel-good atmosphere. The fake smiles. The suppression of feelings. The chase after money and material goods. The country club lifestyle.

I was born into this. My father and his forefathers had taken the Masonic oaths, pledged their fidelity to false gods of money and power. I had done the same, subconsciously, by reflex...

Now I felt trapped by the darkness. A glimmer of light barely burned within me as I uttered short prayers to God without expecting an answer. I went into churches from time to time in my despair. Sometimes I felt an overwhelming desire to get to a church after the bars closed.

But I didn't know how to leave the darkness. I had no road map, no guidelines, no teacher, and no mentor. I wanted entrance into the all American life of happiness, but I lacked the secret code, the right words, the right way. I walked by a Bible institute in Chicago, in a haze, thinking they could take care of me. But I felt I wasn't worthy to enter their world.

Sin dulled my conscience, darkened my intellect and weakened my will. I was building a house of cards on the

foundation of original sin and the sins of my forefathers. Each sin made it easier to commit the next one. I needed to repent, to travel back to the core of my first sin and unravel the web of sin in my life...

I had lost my innocence with Ronnie, my first love. Now I rationalized my free lifestyle. I knew it was wrong but sexual sin had become a habit. A way of life. I was on a train that wouldn't or couldn't change tracks.

I didn't know what real love was. My parents had shown me drunken love, a poor imitation of genuine love. I was in a fog and believed it was real. A family member sends me a birthday card each year with the words "I love you" underlined. The alcoholic says "I love you" at the drop of a hat. Never really meaning it, fearing they might be left alone.

Drinking was a slow suicide for me. I was unhappy. Life was a mess. All of my mistakes had piled up. I lacked confidence on the job. I messed up files. I'd quit a job before I was fired. I had been a quitter most of my life.

I wanted to die but couldn't see taking a razor blade to my wrists. At a party I dove from a rigged-up high dive into a plastic pool five feet deep, over and over again. I was reckless. I could have broken my neck. I dove off the back of a yacht into

Lake Michigan, fully clothed because my date dared me. I swam to shore and almost drowned.

I left a bar after 2 a.m. and walked into traffic. A car swerved, barely missing me. My life could have ended in a flash. And I would have been relieved.

The darkness only grew darker. I landed a secretarial job with an international union and was transferred to Southern California. I was alone but hesitant to date much. I went out a few times the next couple of years and became pregnant.

"This has got to be a mistake," I told the doctor. "Doctors who examined me in the past always told me I had an infantile uterus and was infertile. I'm sterile!" I had never used contraceptives, believing this to be true.

I was always completely opposed to abortion and recognized it as the deliberate taking of a human life. Now I believed there was no way out. I drove myself to the abortion clinic in a state of confusion.

I sat in the waiting room alone, thinking about all the years I longed for a child. But I couldn't take care of myself now. How could I take care of a baby? I rationalized away my decision to kill my baby.

An African-American girl sat down next to me and we talked for a few minutes. Then a nurse told us to get on the gurneys and we were wheeled into a large room. A dozen or so other women were already there. We were given an injection. I felt drowsy.

"Why are you doing this?" I blurted out to the girl, my head groggy from the effects of the injection.

"I'm in my fourth year of college and plan to go on to get my master's".

Did I hear her right? She was going to kill her baby for such a lame reason. Oh my God! The tragic reality of it all hit me. How can I get out of here? It's too late. The drugs were immobilizing me and making me feel sleepy. I couldn't keep my eyes open.

My God, my excuse is as lame as hers. Hopes of escape vanished. My mind was tortured with the twisted logic of my decision.

They wheeled me out of the operating room a couple of hours later and told me not to drive my self home. It was over. I ignored their advice. I got into my car, drove home and went back to work a few days later.

I put the abortion out of my mind for the next 5 years. Denial would be my best defense. I had conceived a child only twice in my life. The decision was not mine to abort the first pregnancy, if there was indeed a first pregnancy. This decision was my own. The insanity of my decision would later haunt me...

I had known the darkness of the Culture of Death, the web of lies spun by Satan in the minds of vulnerable, hurting women with child. The lie reverberates within the pregnant woman's heart: You're worthless. You can't care for yourself, much less another human being. You have the easy, least troublesome way out with abortion.

Many years later I would find redemption and use my experience to touch other women considering abortion, to help release them from the darkness. If only someone would have been there for me in my own lonely moment of torment, when I walked into that hellhole of an abortion clinic 25 years ago. I never conceived again, never gave birth to a child. Never knew the feeling of being a mother.

I was enveloped by another darkness: the occult. Mother had always dabbled in this dark science and loved to read the palms of guests she entertained at home. After a few

BORN WITH A VEIL
250 pages

Dear Editor:

My name is Father Alvaro Delgado, associate pastor at St. Bernard's Church in Tracy California. Before entering seminary, I worked as a newspaper journalist for 17 years. I've just completed editing a manuscript by Suzanne Reynolds entitled: "Born with a Veil." The story recounts Suzanne's dramatic conversion to the Roman Catholic faith. It's a story of spousal abuse, alcoholism, disease, a near-fatal car accident, the occult, miracles and intense spiritual experiences.

A climatic point in Suzanne's life was a miraculous healing from Multiple Sclerosis after searching and praying for a cure. A priest and a lay-woman laid hands on Suzanne and weeks later she received a complete healing.

Suzanne wrote her story to give others the strength and the hope to lift themselves from the hardship and despair of their own suffering through the saving grace of Jesus Christ. She found that with God all things are possible.

Sincerely,

Fr. Alvaro Delgado

Dear Suzanne,

I loaned the book to someone abused in her childhood who would benefit. It is in the part at the very end with advice for those who need healing toward the very, very end.

Okay, so then here's the endorsement, assuming any manuscripts going to the publishers will delete that part.

"How many people do you know who have been abused or wounded in childhood, who regret the decisions they have made and who think that God cannot love and save them? Get them or you to read Suzanne Reynold's book right away. Written in a warm but gutsy style, Born with a Veil, brings you down to the depths of this woman's pain, and up with her to the joy of finding salvation in the Catholic Church. It's sensational and inspirational as well. I highly recommend it.

[REDACTED] I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

In my early twenties I found myself single and pregnant. Because of many different circumstances, I felt I had no choice but to have an abortion.

I called a Family Planning facility and made an appointment. The pregnancy test was positive and the clinic scheduled me for an abortion. I was scared and alone and really didn't know what to expect.

On the day of the abortion, I woke up after the procedure screaming. The nurses slapped me, told me to be quiet, and to get dressed. I was in a bit of a daze from the medication they had given me, but they rushed me out the back door.

When I came back for a follow-up visit, I was told I was fine, and that was all. But I was not fine. It wasn't until years later that I found out about Post Abortion Syndrome. I eventually joined a support group that helped me through some of the trauma of abortion.

I have read the above and foregoing statement and the same is true and correct.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:"

1. Tell when and where your abortion occurred: December 22, 1977, Pregnancy confirmed at a Planned Parenthood in Bloomington, Illinois; performed at National Health Care Services, Peoria, IL
2. Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: Not at all. No one in the Planned Parenthood Clinic nor in the Abortion Clinic said anything about what was inside me. I was just asked what I wanted to do about the pregnancy, and they (PP) gave me a referral to a clinic that did the abortion. Case # 7717
3. Were you adequately informed of the consequences of abortion? Of course not. I was told there might be some pain (I was told to be quiet when I screamed in pain during the abortion - no painkiller given) & I might frighten others waiting for their abortions.
4. Were you informed of any link between abortion and breast cancer? No
Have you had breast cancer? No
5. Did anyone pressure you into having an abortion? Boyfriend was insistant that abortion was the only acceptable solution. I was so afraid of losing the relationship I went ahead and aborted. The abusive relationship ended 4 months later.
If so, who? Boyfriend (Farmer)
6. How has your abortion affected you? Words can in no way describe the deep, profound loss, guilt, - horror of knowing that I killed my baby, my very own child, and it is legal! I was at an extremely vulnerable time in my life in a crisis situation and it wasn't given all the information I needed to make an informed decision. (Such as fetal development & emotional repercussions)
7. How has your abortion affected others in your life? My sister-in-law and I have cried over the death of my child her niece/nephew. We both look forward to holding/hugging "Baby Christian" in heaven, though our loss on earth is great.
8. Based on your experiences, what would you tell a woman considering an abortion? Don't do it - please! I would give her information - details about the child growing inside her. There isn't a day that goes by that I don't think of the person I let the abortionist kill. This will haunt me the rest of my life. I now have 2 biological children living & 1 dead to abortion.
9. Based on your own experience, what would you tell a court that believes abortion should be legal? The laws must protect the women and children in these crisis situations - the courts, the clinics, the doctors all let me down when I most needed true compassion and support. It is the antithesis of compassion to allow and assist a woman in killing her child. It's a person, no matter how large or small, or how young or old!

6) How has your abortion affected you? I've lost memory of timing of them. The events are difficult to differentiate. I didn't want another child. I suffer returning bouts of depression. There is always an unexplained emptiness for me. I struggled with addictive behavior. I feel emptiness & total worthlessness & often anger that I don't know what to do with. I expect I'm much sicker than others. I feel victimized. Was very pedantic & didn't open up. Lowered self worth. Question my existence - part of me feels numb - dead.

7) How has your abortion affected others in your life? can't fulfil my "need". Exhausted frustrated.

8) Based on your own experiences, what would you tell a woman considering an abortion? There is always a better alternative - killing is never worth the consequences. The regrets make you not want to live sometimes. The end never justifies the means. The quality of your remaining life is at stake.

9) Based on your own experience, what would you tell a court that believes abortion should be legal? we will potentially destroy at least two human beings & often more.

Story form Affidavit regarding Roe vs. Wade and Doe vs. Bolton

I can't tell you the exact date of my abortion, because it's something that I try not to think about. I believe I was 21 years of age; it was 1971, and I was 5 months pregnant when I went to Carson General Hospital, in Carson, California. Abortions had just become legal and because I had been taking a lot of drugs, I decided to have one.

I was assured that this was confidential and was a completely safe procedure. I entered the hospital and they stuck a needle into my stomach, just below my belly button, which hurt a lot. Then I was put into a room with 3 other women. I found out later that I was waiting to miscarry the baby. It took several hours, then something the size of a melon started to come out, but because I didn't know what was happening and no one came to check, I sat there for at least an hour. A doctor came in finally and finished pulling it out. It looked like a very small baby, curled up in a ball; it was all red and black with little fingers and toes. The doctors immediately took it and had a nurse clean me up. I laid there for several more hours listening to the women around me cry, one screaming, "It has fingers, It has fingers, what did I do"?

Then I remember being very sick with a high fever, and being wheeled into a room, where a doctor examined me and said I might need to have a DNC. I didn't know what that was, but they didn't do it. I recovered within a few days and was released, not knowing what had happened or what to expect.

Within the next two weeks, I would take a bath and by the time I was done the water would be blood red, I thought I was bleeding to death, I called the hospital and they said that was normal, not to worry. After a few weeks it stopped.

I got married in 1973 and two years later we started trying to have children. We tried for two years with no success. After many tests, the doctors said that I had previously had some type of infection that caused severe scar tissue in my tubes, and without surgery, I would never get pregnant. They attributed the excessive scar tissue to my abortion, since I had had no other problems to cause it. I had the surgery, but it was not successful.

We were able to adopt a baby girl on April 16, 1979 and another baby girl on April 18, 1982.

I have had a blessed life because Jesus has healed and forgiven me. But I will never forget the burned baby with little toes and little fingers.

All abortions may not turn out like mine, but all women will; when they, for the first time hold their own children, or grandchildren, weep for the baby they killed.

I pray that the lies, deceit and pain will be stopped.

FOR MICAH ISAIAH: I LOVE YOU, MOM

NEVER

I NEVER GOT TO FEEL YOUR KICKS AS YOU GREW INSIDE OF ME,
ALTHOUGH YOU WERE THE ONE THAT WAS TO MAKE OUR FAMILY THREE.

I NEVER GOT TO TOUCH YOU OR HOLD YOUR TINY FRAME.
I NEVER GOT TO SEE YOUR FACE OR CALL YOU BY YOUR NAME.

I NEVER GOT TO NURSE YOU OR KISS YOUR TENDER, OPEN LIPS.
I NEVER GOT TO TAKE YOU ON ALL OUR FAMILY TRIPS.

I NEVER GOT TO HOLD YOU AND ROCK YOU TO SLEEP.
I NEVER KNEW MY LOVE FOR YOU WOULD BE SO VERY DEEP.

I NEVER GOT TO SHARE IN ALL THE JOYS YOU WOULD HAVE BROUGHT TO ME.
I NEVER GOT TO HEAR YOU GIGGLE IF I'D BOUNCED YOU ON MY KNEE.

I NEVER GOT TO LISTEN TO THE MUSIC OF YOUR LAUGHTER,
OR HEAR YOUR LITTLE INFANT CRIES THAT LEFT ME TIRED THE DAY AFTER.

I NEVER GOT TO WATCH YOU AS YOU SLEPT SO PEACEFULLY,
OR HEAR YOU SQUEAL WITH SHEER DELIGHT AS CHILDREN DO SO GLEEFULLY.

I NEVER GOT TO READ TO YOU AS YOU SAT UPON MY LAP.
I NEVER GOT TO CUDDLE YOU WHEN WE BOTH LAID DOWN TO NAP.

I NEVER GOT TO SEE YOU TAKE THOSE FIRST LITTLE CLUMSY, BUT OH, SO
THRILLING STEPS.
I NEVER GOT TO TREASURE THEM WITHIN MY HEART WHERE ALL MY MEMORIES
ARE KEPT.

I NEVER GOT TO TEACH YOU ABOUT THE JESUS THAT I LOVE SO MUCH,
OR HEAR YOUR PRECIOUS LITTLE VOICE EXPRESS FAITH AND PRAISE AND PRAY
WITH SUCH A TENDER TOUCH.

I NEVER GOT TO HEAR YOU DECLARE ALL THOSE CUTE THINGS LITTLE ONES SAY,
THAT ARE GUARANTEED TO BRIGHTEN EVEN THE DARKEST OF MY DAYS.

I NEVER GOT TO TAKE YOU TO YOUR VERY FIRST DAY OF SCHOOL,
OR SHOW YOU THE VICTORY OF WHAT YOU COULD DO, BY LEARNING TO SWIM IN
OUR POOL.

I NEVER GOT TO COMFORT YOU AS I KISSED AWAY YOUR TEARS.
I NEVER GOT TO WATCH YOU GROW WITH EVERY PASSING YEAR.

I WON'T GET TO WATCH WITH PRIDE, AS YOU WOULD GRADUATE ON JUNE 10TH, THIS YEAR,
IT **HURTS SO** BECAUSE I KNOW HOW MUCH I CHEATED MYSELF AND THAT'S THE REASON FOR THESE TEARS.

I KNOW NOW THAT YOU FORGIVE ME, AS YOU ARE IN THE VERY PRESENCE OF CHRIST'S MERCY AND GRACE, LOVE AND LIGHT.
AND I THANK YOU FOR THAT FORGIVENESS; NOW I KNOW PEACE AND JOY AND FREEDOM FROM THE GUILT OF MY SIN, WHICH IS EVERY CHRISTIANS' RIGHT.

BUT I HAD LET THE ENEMY STEAL MY JOY AWAY,
I HAD NO PEACE NEITHER NIGHT NOR DAY.

NOW GOD HAS BROKEN EVERY CHAIN,
AND FREED ME FROM MY **DAILY** PAIN.

I NOW CAN BE LEFT ALONE WITH MY THOUGHTS AND NOT GO INSANE ANYMORE.
ON ALL THOSE UGLY, PAINFUL THINGS, GOD HAS SHOWED ME HOW TO CLOSE THE DOOR,

YOU HAVE PEACE AND NOW **FINALLY**, PRAISE JESUS, SO DO I, BUT I WILL **ALWAYS LOVE AND MISS YOU** HERE AND MANY TIMES **I WILL CRY**.

BUT EVEN THOUGH THE TEARS OF **SADNESS AND REGRET** WILL FLOW, THEY'RE NOW NOT OUT OF SELF-CONDEMNING GUILT ANYMORE, IT'S JUST THAT WE "REAP WHAT WE SOW",

BUT GOD IS **SO GOOD**, YOU ALREADY KNOW ALL FOR ME HE HAS DONE,
YOU KNOW I'M YOUR MOM AND YOU KNOW YOU'RE MY SON.

YOU KNOW THE LORD'S GOODNESS SO MUCH BETTER THAN I,
BUT I DO KNOW **I WILL SEE YOU** SOMEDAY WHEN I DIE.

BUT FOR NOW LIFE GOES ON, GOD HAS THINGS FOR ME HERE TO DO,
BUT WHEN LIFE IS OVER I SHALL BE **THRILLED** TO COME TO SEE YOU.

WE'LL HUG, WE'LL LAUGH, WE'LL TALK, WE'LL PLAY. WE'LL SHOUT FOR JOY AND SING!

THEN WILL I SAY, "**WHERE O DEATH, IS YOUR VICTORY? WHERE, O DEATH, IS YOUR STING?**"

ONLY OUR GREAT AND GOOD GOD COULD KNOW THAT HE'D USE YOUR BRIEF LITTLE LIFE,
TO HELP OTHER WOMEN LIKE ME FIND PEACE AND END THEIR GUILT AND PAIN, THEIR SUFFERING AND THEIR STRIFE.

- 8) Based on your own experiences, what would you tell a woman considering an abortion? No matter what difficulties you may be facing, to bring this baby to birth, they are not as compared to what you will suffer for the rest of your life.

who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: I had a "menstrual extraction" about 4/75 in Rochester, NY - I was most likely pregnant but never tested. I had a real abortion about Feb/March 1988 in Oakland, CA.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I was only informed that if I had no regrets before the abortion (to have it done), I would have no regrets afterward. I don't believe they described the procedure itself in any detail, only the risk of infection.
- 3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? I was not informed of this link. I had breast cancer - I was diagnosed in Jan. 1996.
- 4) Did anyone pressure you into having an abortion? If so, who? I was not pressured into having abortion(s).
- 5) How has your abortion affected you? It has given me low esteem for myself, making me believe I cannot be a good mother to my living children. It has given me great guilt and shame, and led me to depression especially when I got cancer and found out about the link. It has made me pro-life.
- 6) How has your abortion affected others in your life? It has affected my husband, as he was the father both times. He knows now it was wrong, but we were not believers at the time. He is now ardently pro-life, I'm sure in part because of these abortion(s). My 3 children do not know, at least not yet.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would tell such a woman not to do it - that the link with breast cancer is real (as per my own experience). I would point out that it is against God's will if she is a believer, and if she is not, I would tell her she will have real regrets later if she does it. She can always give the baby up.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I would tell that court that abortion is the taking of a real life, not just a blob of tissue, and that there must be protections if abortion remains legal - informed consent of the parents, information on physical and emotional consequences such as post-abortive depression and breast cancer, and a waiting period.

BEFORE ME, the undersigned authority, on this day personally appeared Melody L. Haak, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your abortion occurred:

I was 16 years old in 1978 when I had my first abortion at Planned Parenthood in San Diego California; my second abortion occurred when I was 26 years old in 1988, at Sharp Rees Steely, in San Diego, California.

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?

I was never informed or given any paperwork advising me that there could be any future problems or consequences as a result of the abortion. I was told that it was just a "medical procedure."

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer?

I was never informed of any link between abortion and breast cancer. I have never had breast cancer, however, I have found lumps in my breast. I had a lumpectomy in 1993, but it was benign.

4) Did anyone pressure you into having an abortion? If so, who?

No one pressured me into having an abortion, however, the first abortion occurred when I was only 16 years old, without parental consent. The second abortion was performed well into my first trimester when I was approximately three months pregnant. The doctor at the Rees Steely scheduled the abortion three weeks out, even though when I tested positive I was in my second month of pregnancy. The doctor brought me into his office because I was scared and really unsure if I wanted to have an abortion. He asked me to sit down and showed me pictures of his family that he had on his desk. He said, "My children were planned pregnancies and they have a good life. You would not want to bring an unplanned pregnancy into the world. You can always have more children when you are ready." He performed the abortion. I bled for several weeks after the abortion, but never returned for a follow-up visit.

5) How has your abortion affected you?

I got married a year after my second abortion. Within a year after I got married, we decided to have children. I had a hard time getting pregnant and my first pregnancy ended in miscarriage. I was able to get pregnant again within 4 months after that miscarriage. I had a very difficult pregnancy. At the end of my 26th week of pregnancy, my water broke. My son Elisha was born by emergency c-section on the 1st day of my 27th week of pregnancy. He was extremely premature, was blue at birth and had underdeveloped lungs. Unbeknownst to me, the doctor who performed the abortion in 1988 had scraped excessively on the uterine wall and caused damage to my uterus, which in turn caused the placenta to adhere to the uterine wall. The placenta had grown into and through the uterus, requiring me to have emergency surgery. The medical term for this problem is called a placenta accreta. The parentologist who attended to me performed a surgery that had never been done in the United States before. He had read about the surgery which had been done in Korea. The surgery involved cutting the placenta away from the uterus and then sewing the uterus back like a baseball. As a result of the placenta problems and the premature birth, my son has brain damage (neuronal migration damage), he has cerebral palsy, he is mentally challenged and he has five different types of seizures. I followed up with the parentologist who informed me that my uterus was damaged as a result of the excess scraping that occurred to the uterine wall performed by my prior abortion. My OBGYN also confirmed this fact as well. Having a child that is disabled because of an abortion caused me to feel guilty and ashamed. It rocked my faith and devastated my self-worth. I went through a post-abortion syndrome workshop here in San Diego through Silent Voices when my son was a year old. I was able to grieve over the loss of my unborn children and receive the healing I needed. I have been assisting in teaching these workshops for the last 9 years.

6) How has your abortion affected others in your life?

I cannot have anymore children as a result of these medical problems. My husband and I attempted to get pregnant again, but I had another miscarriage and then a tubule pregnancy, requiring me to be hospitalized again to have my tube removed. Two doctors have told me that I am too high risk to carry a pregnancy to term, and that if I attempted to do so, I could die. I was informed that there was a 90% chance that a placenta accreta would occur again. These issues took its toll on my marriage. We adopted a second child, but my husband never really came to terms with having a son with a disability. He left me and my children after nine years of marriage, when my kids were 2 and 7 years old. My abortion decision has affected every person who is a part of my life and it has affected every area of my life.

7) Based on your own experiences, what would you tell a woman considering an abortion?

To think about the long term effects of what you are doing. This multi-million dollar industry does not care you. It is not possible to remove a baby from a woman's womb without having long term effects, not only physically, but emotionally. You have a living person inside of you and if you decide to kill that little child, you are going to have to live with that decision for the rest of your life. You might not be able to have anymore children as a result of this decision. Are you willing to risk that?

8) Based on your own experience, what would you tell a court that believes abortion should be legal?

The courts maintain that abortion should be legal because it protects the rights of a woman to choose. However, the courts were not thinking about me when I made an ignorant and uninformed decision to kill my baby. The courts were not thinking about me when I was not informed of the long term effects that abortion would have on me and any potential future children. There was no social outlet or grieving process for me after I killed my baby. It certainly wasn't socially acceptable to talk about it and it's not something I was proud of. As a result of my decision, I experienced depression, guilt, shame, despair, and low self-esteem. I developed self-destructive behaviors like drug and alcohol abuse, unhealthy relationships and a dysfunctional lifestyle. I believe that the clinic should have been required to show me the sonogram of the child I was about to abort. I believe that the clinic should have been required to give me not only written, but verbal warnings about the physical dangers that may occur as a result of my abortion decision, which included sterility and prematurity of future children. I made an ignorant and uninformed choice that has deeply affected my life and the lives of my family. There are millions of lonely, deeply wounded women like me, who have been severely affected by the decision to abort their unborn children. If you care about the women, then you will make it mandatory for the clinics to give women the truth about abortion.

- 2) Were you adequately informed of the nature of abortion, what it is, what it does? No If not, explain: I was never told how the procedure was performed, what risks there were to me to have a "blind" procedure.
- 3) Were you adequately informed of the consequences of abortion? No - I was never told any of the risks - either physically or emotional/psychological. I also asked specifically if it would possibly affect my later chances for children
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO - but have had biopsy
- 5) Did anyone pressure you into having an abortion? NO If so, who? _____
- 6) How has your abortion affected you? emotionally I've had difficulty in relationships with men - specifically trust issues. I was in denial about the experience for years - unable to talk about it. I have deep regrets in having terminated my child's life. Spiritually I was a from God.
- 7) How has your abortion affected others in your life? deterioration of friendships & the relationship with my parents as I had a child a lie for more than 11 years. My 2nd child was placed for adoption
- 8) Based on your own experiences, what would you tell a woman considering an abortion? The whole truth about the procedure and about the development of the baby. About her other options and of course, my own story - all this to encourage her to choose against abortion
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? that in all circumstances for murder of a child to be legal - that it isn't immoral or painful and that they, the courts who allow this to continue, have the blood of millions of babies on their hands. Don't continue to support infanticide!

Hi Susan

We met last year at the Heartbeat Conference here in Southern California. I helped you w/ doing investigations for you.

At the time you provided me with a new form to fill out as your office didn't have a record on me. I finally finished the form in early April - then left it sitting while I was married on April 20th!

So now my form is complete but the name outdated - I hope you can still use the form -

as I don't want to have to fill it out

1) Tell approximately when and where your abortion occurred: Nov 1978 ; Feb 1979

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? When my pregnancy test came back positive from planned parenthood clinic in Ann Arbor, Michigan, I was asked if I wanted what I wanted to do. I said I wanted an abortion. I was young and ignorant of consequences. I received a referral

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? I was not informed of any health risks whatsoever, by planned parenthood or abortionist.

4) Did anyone pressure you into having an abortion? If so, who? I felt I needed to have an abortion so my boyfriend would not be hindered in pursuing law school and law career.

5) How has your abortion affected you?
There is not space on this form to describe how abortion had shattered my life. Last year, over 20 years later, I was still going through the grieving process as I wept with my teenage daughter over things she would never know. Because no one acknowledged my grief or grieving reaction, No one talked to me about it for many years. No one could help me as I set about destroying myself.

6) How has your abortion affected others in your life? I don't know if my boyfriend was affected or not. The abortions ruined our relationship and it disintegrated. I was left to sort my pain out alone. No one acknowledged abortion as source of grief, so I blamed myself and took drugs.

7) Based on your own experiences, what would you tell a woman considering an abortion? abortion is not a solution, but rather the choice to have one could be a decision that will haunt you for the rest of your life. It is not natural for a mother to consent to the murder of her own child. The "option" of abortion is a very slick lie. The heinous act of abortion is not simply an "option" such as

8) Based on your own experience, what would you tell a court that believes abortion should be legal? That court is morally perverted and humanly bankrupt. That court does not possess sound insight and reasoning and should no longer serve in such capacity as to adjudicate human affairs.

no further disclosure from either planned parenthood or abortionist. I was not mature enough to make that decision without counsel.

In addition to this statement, I would like to share the recollection of my best friend's boyfriend blowing his head off after she had an abortion. She is not willing to discuss this memory.

"would you prefer pink or green"? It is Not an option - It is wrong - It is murder.

Subject: Abortion Affidavit

Dear Brethren,

The affidavit I sent to you on February 24, 2001 had two errors. The first error was the year stated as the year of my abortion, when I recounted the events and time frame, I am now sure that it was done in 1971. My original document said 1969, and also, I am a notary and notarized my own statement in error. I am filing out the new affidavit that you have sent to me and correcting these two errors. My first affidavit was filed through the Thomas More Center. So sorry for the confusion, when I first joined the battle I guess I was just a little rattled. Please forgive me. A new affidavit is on its way.

- 1) Tell approximately when and where your abortion occurred: An abortion clinic associated with Planned Parenthood, San Bernadino County, 1980.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No, but my mother has.
- 4) Did anyone pressure you into having an abortion? If so, who? Not really, I just wasn't given complete information, nor was I encouraged to get advise from others.
- 5) How has your abortion affected you? I immediately had suicidal thoughts and depression, because I felt unworthy to live considering that I had taken a life. I have had symptoms Of chronic depression, flashbacks, nightmares, unexplained mood swings and angry outbursts, feelings of low self-esteem.
- 6) How has your abortion affected others in your life? It has created an area that I do not feel comfortable discussing with certain family members. It has caused misunderstanding from family members who do not understand the source of mood swings or anger or depression.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? It is important to search out and listen to all the options (pro and con). Talk to women who have had abortions and have dealt with the long-term effects. Research the health consequences of abortion.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? We should never have legalized the taking of human life through abortion. Our tax dollars should not be spent on funding a procedure which ends a life. Abortion is being used to propagatate a genocidal fascist ideology and for a profit. Rather than a woman's "right", it is murder of pre-born citizens who have no voices.

Before me, the undersigned authority, on this day personally appeared Laura M. Brown, (Print Name) who, being by me duly sworn, upon oath, stated the following facts:

My name is Laura M. Brown (Print Name). My address is

 ^{San Antonio, TX}
I am

over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

In 1988 I was a single mother of a 2 year old. I found myself being pregnant again by the father of my 2 year old. Not knowing what to do, I called my brother and his wife. My brother was talking to me, comforting me and suggesting not "having" the baby. Then his wife got on the phone and told me how "unfair" it would be to my child (the 2 year old - not the baby within me) and it (the unborn) would take away from the relationship I have with my living child. She gave me other arguments and finally convinced me to abort my baby. - Have an abortion, have it aborted, stop the pregnancy, have a DNC - She also volunteered to go with me, conveniently my health insurance covered the cost, and so we went. Entering the clinic was frightening to me, I wanted to be ignorant of what it was doing, she told me it was a simple procedure, a lady (in the assembly line of women) who sat next to me told me it was nothing "it's my 8th time" she said, I can still see her face. They did a sonogram I remembered the one I have from my 1st child, At that time I realized, plainly, that what I was about to do was wrong. But all were encouraging me to procedure, I couldn't stop now and I went through with it. The mercy is that I was put under, so that when I awoke I had no memory of it. I have heard of those who don't get knocked out - they have that memory also. There was some pain, some antibiotics, some instructions, and out the door. I was over. Six months later, not learning from that experience, I was pregnant again, same man. I didn't call my brother, I was too ashamed. I called the father, he said he would go with me, he never showed up. I drove myself, parked one block away, walked in, went through it again. This time when they did the sonogram there was something wrong. There was a consultation, not with me but outside the room. When the nurse came back I asked what was going on, she said it would be alright, they could procedure. They don't let you look at the sonogram I was passed 13 weeks, I don't know all of what that means, but I know that the baby suffered. I awoke, this time there was more pain than before, some

Please return to: Texas Justice Foundation, 8122 Datapoint, Suite 812, San Antonio, TX 78229
anti-biotics, some instruction and out the door. I walked to my car, no one asked if I had a ride home (that is hospital procedure after someone has anasthesia - someone must drive you home). I was depressed and in that depression cause me to go to a motel alone, sleep and not take the antibiotics

as I should, this caused more pain. I finished the antibiotics but not as prescribed, the pain continued. I went back to the clinic, there was no compassion, I was an interruption to their process, an inconvenience. I was reprimanded given more medication and stringently directed to take them, I finished the prescription and the pain was gone. No one told me how depressed I would feel, no one was there to talk to about what happened, and how guilty I felt, how lost, how empty I felt. Later I learned that women who miscarry go through depression, loss emptiness, that is when I related my experience, my choices, my wrong choices, to that of losing a babies. I wasn't told of any options of carrying the baby and giving it to a loving couple so I would know it was alive and loved. I wasn't given compassion in my depressant, self destructive phase after my second abortion. I see now that I was suicidal in not taking the medicine that would help me. I was thinking "how could I chose to not allow a lives to live." I was selfish and willingly ignorant. Those who support abortion don't see the results - the mangled bodies of tiny, perfect people. I have read the above and foregoing statement and the same is true and correct.

MY TESTAMONY

First, some of my background information:

I was born in Southern California. I was the oldest of four, and was raised in Northern California near my grandparents. I grew up living 5 miles from the nearest school and friends, and 25 miles from the nearest real town for shopping. My mom worked in town and my step-dad and grandparents worked the ranch. At 7, I started helping to raise my sister and brothers. I grew up going to church every Sunday and knew there was a God. I even liked to take long walks alone just so I could just talk with Him.

Now, my story:

As a lot of you know, sometimes, bad things happen to little children. From the time I was 8 through the age of 14, I was sexually abused by two men. One, a family-friend, the other – a relative. I was told over and over again, that, this happened to me, because I deserved it and wanted it, so it was my fault. When I threatened to tell, I was told go ahead and tell, they each said that no one would believe me. I believed the lie and I started to die inside.

I wanted the hurt to stop and I felt so guilty, unloved and dirty. So, at 10 years of age I tried to kill myself. I cut my wrist, but it hurt so much, and scared me so much that I stopped. I survived, but I felt like a failure. I thought that if I could just be good enough or perfect enough the bad would stop. So I worked hard, got good grades, and I tried to do everything that I was told to do. I really tried to be a good child, and good sister. I tried to be perfect. But, the bad continued. I couldn't run fast enough or hide well enough. I just couldn't understand what I was doing that was so wrong that someone would want to hurt me the way they were. I just wanted to be loved, but, instead, I died a little more inside.

When I turned 14, the friend of the family died and the family member, well I was finally able to run faster than he could, so – life was good for awhile. I wanted to tell someone what had happened to me, but those ingrained thoughts came back to haunt me. And I really didn't want to hurt anyone. I survived, but I was empty inside. I no longer felt close to God and I no longer talked to Him. Oh, I prayed, but I knew God must not like me anymore.

I graduated from high school and went on to college. There I met the man of my dreams. All the girls wanted to be with him. He was older – 25, from Southern California, handsome, popular and convincing. I was young – 17, still living at home and very much alone in a house full of people. He chose me. And for the first time in my life I thought I was loved.

A very short time later, I found myself in Planned Parenthood. No Crisis Pregnancy Centers were around at that time. There I found out that I was pregnant. They calmly explained that I could have an abortion since it was still only a blob of tissue. I said no. I went to tell my boyfriend. I just knew that he would be happy. Instead he was angry. He told me that I would have an abortion, of course. He would help financially, but I

would have to pay for it first, then he would pay me back. He shared with me, that I really didn't want to disappoint my very religious family. So arrangements were made. I died a little more.

Deep inside I knew it was wrong, but I didn't want to lose my man. The day of the abortion came. My boyfriend drove me there. I had already taken the pill they had given me to relax. I was getting ready to get out of his car when I stopped long enough to ask him if we could keep the baby. He started speaking – not looking at me, but looking straight ahead, holding on to the steering wheel. "I'm not going to be here when you're done with the abortion. You see, I'm making arrangements to leave town, because I'm going back to Southern California and pick up my wife." (Funny, he never mentioned a wife to me or any of our mutual friends.) He went on to say, that he wasn't going to pay for any of the abortion, I shouldn't have gotten pregnant in the first place. I had better have the abortion, if I knew what was good for me and that he didn't want any little "bastards" running around. Oh, by the way, since he couldn't sit around and wait for me, I was going to have to find my own way home. Stunned, I got out of the car and he drove off.

Numb, empty and in shock, I walked into the clinic. Before the doctor started, I asked him, that, if I changed my mind, could they not do the procedure. The doctor said it was too late because of the sedative, and not knowing any different, I continued with it. I allowed myself to be strapped down. I was given only a local. Then I allowed myself to be yelled at by the doctor. You see, every time I moved or jumped from the pain during the procedure, the doctor yelled at me to not move. It was the most painful experience of my life. I died a little more.

Years later, I did marry, and after having a child, I experienced severe post-partum depression, then there was my failed marriage, next were several failed relationships, I really felt like a failure now. I was in counseling for depression. I had stopped going to church faithfully, but was still really searching and hurting. I knew that God could never forgive me or love me. I had been through too much and had done too much. I was again at the end of my rope.

I planned it so well. I had saved two bottles of anti-depressants. I made sure my son was at his grandparent's home. I went into my kitchen opened the bottles and prayed. "God, I'm so sorry I've failed you, but I can't do this anymore. I am so tired of making mistakes". I then took all of the pills and went to the living room, unlocked the front door, sat on the couch and waited to die.

I woke up two days later in the hospital attached to a machine that did my breathing for me. I had been in a coma. My parents had been told by my physician, when I first came in, that I was not going to make it. I did. At first, I thought that I was still a failure. But, what I didn't know was that God had some very special plans for me.

Over the next five years, and after much, very hard work. I did become a new person, a real survivor. I asked the Lord for forgiveness and I repented of my sins and found out that a wonderful Savior loved me and had a plan for my life.

Years later, I married a man with his own history that God had plans for. We both continued to study the Word. I studied Biblical Counseling and volunteering at the new Crisis Pregnancy Center in town. He went on to become an Associate Minister at our church. I found PACE (post abortion counseling and education) and found complete healing, joy and peace. God had us move to a new community where we became very active with our new church family. My husband is a Senior Pastor and I am an Executive Director of the crisis pregnancy center in our town.

Together we share the great love, forgiveness, and grace by repentance from a mighty God, a God who loves us when we are not loveable. We both know that God can take all of the ugliness of life and make it beautiful. God gave us a purpose – To share and use what we know for God's glory. My purpose is to share the truth, to share options with abstinence and unplanned pregnancies, to bring healing to the hurting, to restore those who feel they have reached the end of their rope. God can make a survivor, like me, become an over-comer.

Thank you.

BEFORE ME, the undersigned authority, on this day personally appeared Kimberley Berry (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:"

1. Tell when and where your abortion occurred: ALL four occurred in ORANGE County, CALIFORNIA over a time period 77, 78, 79, 82
2. Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: Somewhat, I was told it WAS just a blob of tissue, NOT a baby, I was told of a chance of discomfort after the abortions.
3. Were you adequately informed of the consequences of abortion? NO
4. Were you informed of any link between abortion and breast cancer? NO
Have you had breast cancer? NO
5. Did anyone pressure you into having an abortion? Yes - the babies fathers. 2 abortions per father
If so, who? My Boyfriend of 3 yrs My ex-husband.
6. How has your abortion affected you? I didn't think I had a problem. I was always trying to be "perfect" in all aspects of my life. I developed an eating disorder - Bulimia. When I did remain and had two miracle children, I was short tempered. I had to have a hysterectomy in '95.
7. How has your abortion affected others in your life? My attitude of wanting everything "perfect" because of my shame of having 4 abortions, I hid this info from my current husband. After I went to Post Abortion Counseling Education - I was able to open up.
8. Based on your experiences, what would you tell a woman considering an abortion? I'd tell her my own experiences. How I was told by the best abortionist that I probably wouldn't have another child. Now that there is a link to breast cancer - I would warn them about that, but most importantly IS that the child is a creation of God made in His image and that abortion is murder.
9. Based on your own experience, what would you tell a court that believes abortion should be legal? The same Abortion is murder, it murders a creation made in the image of God. It is also murder of the woman's integrity & self worth.

Re: Affidavit

To whom it may concern,

Enclosed please find an affidavit that I had downloaded from your web-site.

I completed it to the best of my ability. Two of my abortions were done through Planned Parenthood in the City of Santa Ana. My Third one was done in a Planned Parenthood in Cerritos, California. My fourth one was done by Dr. Waddell in Westminster, California. None of these facilities gave me any information as to what the consequences would be from having an abortion. It was only after the post op for my fourth abortion that I was told it would be highly unlikely I would become pregnant again.

I struggled with many emotional issues after the abortions. I really couldn't understand what I was going through. I had re-married and with my second husband I became pregnant. It was truly a miracle. God was so gracious. Four and a half years later I had another child. Sadly though, because of the damage done to my uterus, I had to have a hysterectomy.

I went through a Post-Abortion Counseling Education program. Through this program I learned why I had become bulimic, strived for complete perfection, and literally drove my loved ones nuts.

I've learned that life is precious. I've also learned that I will see my unborn babies in heaven. What I would like to ask the Supreme Court, Do you have any grandchildren? How precious are those little ones to you? How you would you have felt if your son or daughter killed your grandchild? Or better yet, How would you have liked it if Roe vs. Wade was legal at the time you were conceived, and your mother may have been struggling?

I'm not proud of my past, but I know that all things work for the glory of God. I pray that my story will open the eyes of those who have been blinded by the lies of Planned Parenthood and the like.

Sincerely,

Kimberley Berry

My Story
Lisa L. Bernardo

Dear Family,

Family to me begins with my immediate family, includes my extended family, my friends and finally every other human being that God ever created or will create. I am writing to speak to you about something that has happened to me that is too wonderful to express in words, but I must try.

In October of 1998 I flew to Wichita, Kansas to attend a retreat. At the time, Wichita was the nearest location. The name of the retreat is "Rachel's Vineyard". It is for post abortion healing.

I am now forty-two years old. When I was seventeen, just a week before my eighteenth birthday, I discovered, through Planned Parenthood, that I was pregnant. Anyone who knows me knows that I am much too stubborn and selfish to let anything get in the way of anything and besides that I was petrified; in a state of sheer panic. I felt I could not talk to my parents. Planned Parenthood told me I had the option to abort and I jumped at the chance. I was moving out of my parent's house the following week. The timing seemed perfect. I had my whole life ahead of me, I thought. Abortion was legal, therefore moral in my mind. Somewhere I had misplaced God. I did not consider the father's opinion. We had just broken our relationship off. He was seeing others. It was my body and I was on my own.

When I had the abortion I didn't think about it. The doctor and nurse were very nice and did a great job of making me feel like it was just another gynecological "procedure". I left thinking "My problem is solved." I do remember feeling depressed afterward. I didn't know it then, but my problems had just escalated.

I used to wonder why my self-esteem was so low. I now understand that most of my life I have tried to replace God with other humans. First it was my family. When they failed to live up to my expectations it was friends. When they didn't work for me it was men, then drugs and alcohol.

After my abortion I felt I was "free" again. I began to date. But every man I dated I would tell about my abortion. I thought they would look at me in disgust and flee, but they didn't. They just treated my like, "so what?"

I met my first husband. We dated and lived together for four years. During that time I became pregnant again. He was not supportive of me. Although I wanted the baby he told me he would leave if I had it.

I had a second abortion. I cried during the death of my second baby. I remember the nurse trying to console me, but I could see in her eyes, she knew. My heart screamed stop but my mind told me it was too late.

LLB 5/4/01

I hated myself and my soon to be husband. I told myself as long as we got married and had a baby everything would be OK.

We were married, I got pregnant again but everything was not OK. At about three months, the same age as my other children, I had a miscarriage. I felt God was punishing me for my previous sins. I really had no idea of what sin was, only that the abortions were wrong. Jesus came to earth to destroy sin but I had sinned so long and so much that my spirit was deathly ill and I could not discern what was right and what was wrong. I was trying to get through life without God and failing at every step. When I told my husband I was having a miscarriage, he let out a sigh of relief and said, "You know, I really don't want to have any children." OOPS, in my mind, I thought, he knew full well that I intended on having children. Our marriage ended six months later.

By that time my goal for a meaningful relationship with a man was low as my desire for motherhood ranked high on my list of "things to accomplish" before I die. I felt that I could replace the children I rejected if I was given another chance. The desire in my heart to love was strong. Whenever I saw a baby my heart leapt and I felt great love. I wanted to reach out and hold that child and love it but I also felt great sorrow and guilt and a heavy feeling of unworthiness to be a mother. In our society there are millions of men and women who have participated in abortion before having children. Can you begin to see the difficulty in loving your living children when you know, inside, you killed your other babies? I believe it is a principal reason for the violence and detachment from our children that we suffer from today in our society.

I stopped using birth control and for three years was successful at being unsuccessful at getting pregnant. I moved out of state running away from one man and into the arms of another. We lived together for two years. I remember one day praying to God to please let me get pregnant. Within a month I was. It didn't take long before I knew the relationship wasn't going to work. We weren't married and I asked him to leave. He elbowed me in the stomach and said, "I wish you would get and abortion". I thought, "NO WAY".

Maurisa was born.

When Maurisa was born I felt God's presence in my life in a way I had not known before. As my pelvic bones rattled to allow her passage I realized that for the first time in my life, I wasn't in control of what was happening to me. I acknowledged that God existed and had allowed this miracle in my life. I started looking for ways to heal myself so she would have an easier way.

When she was about four I fell into depression and hit bottom. I had been unsuccessful at finding a good father for her. I was drinking and I felt unworthy and a failure. Sitting in bed one night alone and crying I called out, "Jesus, help me." He did. He placed me in the arms of His Loving Mother. I didn't know it then but she had been suffering with and for me for most of my life.

LLB 5/4/01

I started going back to church. I wanted to receive Jesus in communion but knew inside I couldn't. I went to confession. I confessed my two abortions. When I did this I immediately felt a physical lifting from my back. I knew at that moment I was forgiven. But, God's forgiveness wasn't enough. I needed to forgive myself. When we refuse to forgive ourselves we are not trusting in God's Mercy and Grace and we place ourselves as "superior" to God. I also had to forgive all who I felt had harmed me and, I needed to ask forgiveness from those I had harmed. Within a short period of time Jesus walked me through the twelve-step program offered by Alcoholics Anonymous, and I did not know it.

Satan had a long reign over me. I figure twenty years but in the instant I reached out to God, He ran...no He flew back to me. He began healing me and has been so kind and gentle in guiding me with patience back to Himself.

This journey back to God started nine years ago when I was confirmed on May 13th at St. Jude's parish. At the time I didn't know much about Our Lady or her feast day and I certainly had no clue who St. Jude is. A lot has happened. Most significantly was my trip to Medjugorje, Bosnia-Herzegovina where I felt I was being asked, "Are you willing and ready to go to the cross with Jesus?"

Since I said, "yes", I feel Jesus has handed me my cross, although each day it seems to change. I share my experience with you and hope you will see the need for healing and conversion of all who suffer from the sin of abortion. Those who are in sin truly do not know the Love of God because sin blinds the sinner and God will not approach an unrepentant heart. I owe a large debt to God and all my faithful brothers and sisters who have prayed and suffered for the salvation of my poor soul. I pray God will heal abortion and end it His Perfect Will and Peace.

You may not have had an abortion but you probably know someone who is suffering because of his or her experience. Not only the mothers suffer but also the fathers, sisters, brothers, aunts, uncles, grandparents, doctors, and nurses even those who support abortion suffer because they can't see the evil in it. Everybody in our world is suffering from abortion and it is time for us to stop the insanity. Not through violence but through prayer, fasting and learning to love again from programs like Rachel's Vineyard and Project Rachel. The retreat focuses on the decision to abort, the residual guilt, self-hatred and resentment towards others and the grief of the loss of a child in a safe and confidential setting. The working of the Holy Spirit is profound as the lost babies are honored and given names and a memorial service, the mothers, fathers and families are united in grief and joy. The results yield healing and hope as you work through the issues that block your peace and advancement toward heaven.

Daniel I knew you from conception, no doubt you were meant to be
I'll love you from a distance
one day I hope to see

Your smiling face
You precious soul
You are my first unborn

Daniel please forgive me
I want to be your "mom"

Alex little spirit girl
What color are your eyes
Your hair your face, your warm embrace
I hope to someday know

Beyond my fears my sad regrets
I know you exist still
With God in all eternity
Please wait for me atop the hill

Dear God please let me make amends
a child I hope to have
replace the void my sins have made
fill my empty hands

Gloria my Gloria
God took you from my womb
was it a punishment for my sin
am I destined to be doomed

So many years I believed you offered no intercession
until Rachel whispered in my ear
she offers your salvation

Maurisa dear words cannot express the love I hold inside
afraid sometimes to let it out
and so I run and hide

You are the one gift God gave me
to heal my every sin

Help me Dear God to rise above
that she and I might win

Ms. Patricia Ireland

Dear Ms. Ireland,

I want to thank you and the National Organization of Women for bringing awareness to God's creation, that He intended us to be equal in His and each others eyes, in regards to our spirituality and eternal soul.

Please help women by helping them realize how their womanhood is a genuine gift that no man will ever truly posses. The gift of women to the human race is held in her ability to conceive, bare children and in her motherhood.

Abortion has touched my life. Three years after Roe V Wade, in 1976 I had my first abortion. I was just 18 years old and the "choice" was easy for me because abortion was legal. I felt my whole life was ahead of me and I wasn't about to let that fetal tissue get in the way. The sad truth is, it did get in the way. After that abortion, something inside of me died along with that baby.

I went on to have a second abortion, then a miscarriage, two failed marriages, alcoholism, and drug abuse. My life had no meaning. How could it? I had taken the lives of my first two children and God had taken my third.

On a lonely day, in pain, I asked God to please let me have a child. He did. One month later I conceived. That was in 1986. In the moments my daughter was born, I realized what a miracle and gift life is.

She will soon turn fourteen years old. I love her very much but there will always be a lesser bond between us because of my inability to fully believe in my ability to be a "good" mother. On that day in June of 1976, part of my motherhood died.

Please help our young women find alternatives to abortion. Please help them to realize that abstaining from sex, before marriage is more important than sexual gratification. Please change the focus of NOW from abortion to life and help women to celebrate their power in being good mothers.

I pray you will consider your contribution to God's creation now and for all eternity.

Sincerely,

Lisa

Dear Reality Check,

Thank you all who contributed to focusing on the very real and sensitive issues of abortion and premarital sex.

In 1976, three years after Roe V Wade, I had my first abortion. I had just turned 18. I identify with the young ladies telling their stories, who feel it was the only and best thing for them to do. I thought that too, at first. I had just graduated from high school and my future was ahead of me. Then the years of regret, remorse, guilt and shame began to catch up with me. My future wasn't, because I was stuck in the past and the "what if I hadn't had an abortion." I wanted to have a child more than anything, became pregnant again but like so many, was not ready for a relationship let alone a child. The father of my second child said he would leave me if I didn't have an abortion. I chickened out feeling I had no "choice" a second time. I cried when my baby lost her life but felt helpless to do anything about it.

It becomes easy to understand how we can go mad if we dwell on these things and many try to tell us to let go of "it" and move on. But we can't just move on because after an abortion something inside of us dies. We need to find a way to deal with our emotions that society says we are not allowed to have. We need to grieve our loss, find forgiveness and find ways to make better choices like abstaining from sex until after marriage.

I'm writing to tell you there is hope for healing. It is a life long process and well worth the struggle. Please continue to seek healing both spiritually and psychologically.

I found my only relief from suffering when I asked God for help. When I learned that He had forgiven me, there was such relief and a desire to amend my life. Then I learned I needed to forgive myself and all who I felt had hurt me.

There is so much healing to be done. You will make a big difference, each one of you. As you are healed you will help others heal. Eventually abortion will end by "choice" as more courageous teens like yourself, speak out about your pain.

I pray your road to healing will bear great fruit and I commend your efforts to God's love and care.

Enclosed are two poems I have been able to write. Please visit my website, listed below.

Shalom,

Lisa

Dear babies bound for earth that fled,
when in their mothers' womb they bled.
Who would not suckle, school, tread.
No earthly bed to lay their head.
When in sheer terror their mother said,
"I need this baby to be dead"

You live in all eternity,
despite our lost maternity.
Why should you care?
Look what we've done.
Were you a daughter or a son?
What color hair, what kind of eyes?
How we've missed your births surprise

What can we do? Where can we go?
We stay here lost, afraid to show,
our hearts deep pain, regret and grief.
We want to blame, expose the thief.
We want to hide and to deny,
you could have been,
we are confused and so we cry.

The anguish grows,
day by day.
Until we trust,
and learn to pray.

Where is the hope for us to live?
How can we cope, learn to forgive?
There is but One from up above.
He heals our wounds with His great love.
His name is Christ. He came to show,
to teach us how to live and grow.
His mercy reaches to our depths,
of bitterness and distress.

Reach out to Him, He's always there.
He'll heal your wounds and dry your tear.
You'll find new life, in His great love,
you'll find your children, up above.
And come to know they love you still,
they wait and pray for you until,
that day when you will meet in heaven,
where all is found and all forgiven.

Upon the earth our hearts rejoice.
We've found the answer, and the voice.
To cry for peace within the womb.
To trust in God and to resume,
to live as He taught us how.
Obey His law, He'll teach you now.

Then babies bound for earth will tread.
From bees and cars alone they fled.
They'll find a home, they'll find a bed.
They'll go to school, they'll live instead.
They'll live their lives with mom's and dad's,
with grandma's grandpa's, uncles, aunts.
Our land will heal when we find Him,
and learn to trust, let us begin...

5) How has your abortion affected you?

It has affected me emotionally over the years. I've experienced incessant regret, guilt, shame & deep depression. I attempted suicide about 4 months after my abortion. I cut myself & wrote in my blood on the bathroom wall these words: "I killed my baby."

6) How has your abortion affected others in your life?

This has been painful to my husband as well. Initially, he agreed to the abortion (it was his baby). But later he told me he wished he had told me to keep our baby. He let me know that he too experienced regret & sorrow, & grieved the loss of our baby throughout the years.

7) Based on your own experiences, what would you tell a woman considering an abortion?

You will never get over the fact that you aborted your baby. You will be haunted by remorse, guilt & shame after the abortion, for deep down you will know that it was a baby you lost & not a glob of tissue. You'll never be able to undo what had happened.

8) Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell the court that although abortion is legal, it doesn't mean it is right or safe for women - either emotionally or physically. Also, the baby growing within the mother's womb is a distinct human being whose right to life should be upheld, rather than destroyed!

Before me, the undersigned authority, on this day personally appeared Lorraine C. Baker, who, being by me duly sworn, upon oath, stated the following facts:

My name is Lorraine C. Baker, [redacted]

I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1. When I was 16 years old, in 1976, I became pregnant by my boyfriend who was 23. I was afraid to tell anyone because I did not want to get him in trouble and because I feared what my parents would do if they found out.

2. I went to the clinic located next to my school. They confirmed I was three months pregnant. They asked when I wanted my abortion and stated that I should have it right away. They said "no one has to know about this, just fill out this paperwork and everything will be taken care of at no cost." That's all they told me. They did not offer counseling. They did not tell me about potential complications, physical or mental. They did not discuss adoption or any alternatives with me. I felt I did not even have to make a decision, it was all made for me. I did what they said, filled out the paperwork and was told when and where to go for the abortion.

3. When I went in for the abortion, the doctor talked down to me and said terrible things to me about me as a person. He did not counsel me not to have the abortion. He did not counsel me about any possible side effects. After the abortion, I was left all alone, crying in pain with severe cramps and vomiting in a room for what seemed like several hours, although I honestly don't know how long I was there. A nurse came in and told me to be quiet and then left. I felt terrible, the pain was terrible.

4. A couple of weeks after the abortion, I started having severe cramps and a lot of blood came out of me. My parents rushed me to emergency, (I had to tell them everything on the way of course) where I found that I was miscarrying the dead fetus

Affidavit of Lorraine C. Baker

that had been left inside of me and that I needed an emergency D&C. I have since been told I was probably pregnant with twins and the abortionist only took one of them out, leaving the other to rot for two weeks inside of me.

5. Again, I was left alone in a room cramping and bleeding and crying while I awaited my emergency D&C. This was a terrible experience for me and I would not wish my worst enemy to go through anything like it. Of course, it was also hard on my parents and I have since learned that fetuses can feel the pain. This has left me with much guilt and anxiety for which I have had to have counseling that needless to say was not free.

6. As time passed I would reflect on how old my child/children would be, I would imagine watching them play and celebrate birthdays and the like.

7. I coped okay, until I married at age 30 and after several years of trying to conceive I discovered that because of the trauma my body experienced when I was 16, I was sterile. We would only be able to have kids if we adopted them. This sent me into a deep depression. My husband will never know his own children because of a decision I made when I was too young to be making the decision on my own. He had done nothing wrong but now had to bear the consequence of my abortion. If I had known sterility was even a remote possibility, I would have seriously reconsidered my decision to abort the pregnancy.

8. I strongly believe that women, and especially teens, have the right to learn everything they can about what an abortion is, what it does to the fetus, and what emotional problems will arise in the future. They should be allowed and encouraged to learn as much as possible, to see pictures of their developing baby, to get counseling before they make any decision.

9. Adoption is a wonderful option for an unwanted pregnancy. The state makes money, the child gets to live, and the adoptive parents have to go through a pretty rigorous process to prove they are competent to raise the child, and the birth mother gets to choose what kind of contact she wants as the child grows up. If the mother wants to abort the baby, it costs the state money, the child dies and there is not much in the way of quality counseling available to the mother. We need to start recognizing the alternatives to abortion as valid and even preferable. We need to recognize the amount of hurt that is out there for the women who chose abortion. We need to realistically look at how much pain abortion really is causing people, women and men.

10. I am sharing my story with you because no one shared theirs with me. It is important for everyone to hear these stories. I am certain there are many thousands more of them just like this one.

11. Women who choose to carry their child to term have many more choices than those who choose abortion. They will have the choice of raising your baby themselves, with a strong support groups to help, or the choice of allowing him or her to be adopted with much, some, little or no future contact, again, their own choice. These are all choices that give the baby a chance to live a good life, while not putting women at risk for the complications of abortion; as in my case of never being able to have a child, which now increases my risk for breast and ovarian cancers. With abortion, there is nothing, only the death of a baby and the possibility that there will never be another for her.

12. If I had have given my babies up for adoption, even though I would not have raised them myself, I would have watched them graduate from high school and start college. I would have been at the weddings and I would be able to share in the joy of their own children. Instead, there is nothing there, just a pair of twins who died 25 years ago before they had a chance to be born.

I have read the above and foregoing statement and the same is true and correct.

AFFIDAVIT

To be filled out by women who have had an abortion.

The State of California

County of Sutter

BEFORE ME, the undersigned authority, on this day personally appeared Damaris L. Baral (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: July 20, 1973 - Los Angeles, CA
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No, I was told that I had a blob of tissue, not a baby, that the "procedure was simple and was returning my body back to its normal cycle. Post procedure, I would have a menstrual type discharge.
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? Yes If so, who? My boyfriend and Planned Parenthood
- 6) How has your abortion affected you? Physically, I had post abortive hemorrhaging, it caused severe bacterial infection (Chlamydia). I had extreme scar tissue build up which led to intense female reproductive organ problems which resulted in a total hysterectomy. Emotionally, I began to drink heavily, lost all respect for myself, I did not think I should have other children because I killed this one. It took 15 years to heal all the emotional and mental wounds of shame, guilt, anger, bitterness and depression caused by me aborting my first child.
- 7) How has your abortion affected others in your life? It caused breaches in blinding positive relationships with males. My parents were deprived the precious gift of their first grandchild.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Please carry your baby to term. You can get help and support to provide for you and your baby. Adoption is an option. There are many awesome couples just waiting to provide a loving home. Abortion is not the end to your problem, it will be the beginning of physical, mental, and emotional trauma & pain.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Life begins at conception. No human has the right to end to term. You can get help and support an innocent life, whether it be 6 weeks old. Abort in utero to 6 weeks past birth. The right to choose is when you choose to have sex or not. The right to life is a God given inalienable right. Every woman in her heart knows that a fetus (Latin for baby) is a live human being.

Please use my: full name.

- 3) Were you adequately informed of the consequences of abortion? No information was given to me with regards to possible risks, complications or emotional consequences as a result of an abortion
- 4) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 5) Did anyone pressure you into having an abortion? yes If so, who? planned Parenthood and in all honesty, myself
- 6) How has your abortion affected you? Following the abortion I became severely depressed, self destructive and suicidal. The guilt from my decision over whelmed me. I now have an educated opinion of abortion and have a heart for women facing unplanned pregnancies.
- 7) How has your abortion affected others in your life? Yes, my husband has seen me through rough times but has also been there to witness the healing and forgiveness as a result of Biblical counseling
- 8) Based on your own experiences, what would you tell a woman considering abortion? I would share my own experience with abortion, tell her that I know she is scared & at a major turning point in her life but that an abortion is not in her's or her child's best interest.
- 9) Based on your own experiences, what would you tell a court that believes abortion should be legal? That abortion is not just a word, this is a living human being at risk of being surgically removed from the womb limb by limb. This person has a right to life like any others. "I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: July, 1975 Memphis, TN
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No - I didn't know I would become not be able to conceive again, I didn't know I would get breast cancer I surely didn't know about post abortion syndrome & its consequences in my life
- 4) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? yes
- 5) Did anyone pressure you into having an abortion? yes If so, who? the physician I worked for at the time.
- 6) How has your abortion affected you? The realization that I killed my only biological child was devastating. I suffered psychological stress for a very long time until I sought help in a post abortion healing group. I thought the reason I couldn't conceive was that I was being punished. Then when I got breast cancer I was sure of that punishment. I didn't know there was any link between abortion and infertility or breast cancer. The facts were masked & a abortion portrayed very simplistically.
- 7) How has your abortion affected others in your life? It affected my marriage because of the psychological trauma and because of my illness & infertility. It has affected my adopted children.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? You are killing your child. It may seem to be an easy answer to a hard situation now, but there can be deep & lasting consequences. There are other positive options.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is killing a child. That is murder and murder is illegal. The facts about the harm it can do to a woman & her family are never given. How can it be that a minor child can have an abortion (surgical procedure) without parental consent when she can't even have a splinter surgically removed without consent.

- 6) How has your abortion affected you? I had an allergic reaction during the abortion. I have had severe depression & angst. I have after 28 years finally regained the personality I had prior to the abortion.
- 7) How has your abortion affected others in your life? My husband and children suffered from my mood, temper and controlling behavior.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? It may seem like an easy out but you will pay for this with your heart & soul. Last children can never be replaced.

BEFORE ME, the undersigned authority, on this day appeared ARLENE B LEHMAN, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true: (BOTH)

- 1) When and where did your abortion occur? (2) Approximately 1979 or 80, and 1987 - Denver, CO.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: I know it would terminate the pregnancy, but I did not know especially with one just one, that this was a baby with a heartbeat and brain waves - not a blob of tissue. I also was not informed
- 3) Were you adequately informed of the consequences of abortion? No - The only thing I [of the physical damage to my] was told was that some women may experience some depression.
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? My partner at that time.
- 6) How has abortion affected you? It has changed my life, and because my second one resulted in a miscarriage, I believe that these complications were because of my first abortion. The babies of such miscarriages are always after a while, they tend to die. I have never had a second one, and I have no idea if I would have survived. I obviously would not have been able to bear any more children. The issue of my "choice" are abandonment. Not only do I not have any children, I have lost out on a second pregnancy.

- 7) How has your abortion affected others in your life? Abortion was the spark that broke the couple's bond. For the relationship I was in at the time. It also changed my parents out of a grandchild.
- 8) Based upon your experience, what would you tell a woman considering abortion? and my babies and siblings out of existence.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is an unnatural act: it causes physical, emotional, and psychological damage. It is not healthy for the woman, and takes the life of the baby. Moral issues aside, just because it is legal does not make it safe.

BEFORE ME, the undersigned authority, on this day personally appeared Alison Phillips (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true: January 31, 2002

- 1) Tell when and where your abortion occurred: Planned Parenthood, Fort Collins CO
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? NO If not, explain: I was not told when how the procedure would be performed, nor how much it hurt. Also not informed of Post Abortion Stress I am still so afraid that I may never have another baby or a child.
- 3) Were you adequately informed of the consequences of abortion? NO, I was not told how I would feel. Or how much bleeding I would have. I also was not told how this would never leave, this feeling of regret.
- 4) Were you informed of any link between abortion and breast cancer? YES Have you had breast cancer? NO But they told me that this was very rare and not yet proven!
- 5) Did anyone pressure you into having an abortion? YES If so, who? My boyfriend, family and friends almost everyone. No one was standing beside me. They all wanted the quick fix or to be spared the shame of having me.
- 6) How has your abortion affected you? I miss my baby. I have separated emotionally from almost everyone who told me to have an abortion. I still have depression some nightmares and overwhelming regret my life has forever changed they told me once it was over I would do back to the same life as before, but I never have. I have the baby
- 7) How has your abortion affected others in your life? Yes they have a hard time relating to me. They don't understand my loss and find it hard to listen to me when I need to talk about it. They don't see I am not the same.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Not to have one. To have an adoption instead of an abortion. The effects and pain could follow her for a lifetime. There is no quick fix and you will never be the same. It changes who you are.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? That they are not looking at the affects abortion has on these women. Legal abortions are wrong and if it stays legal the courts are allowing the suffering of thousands to millions of women. And yet they still think it's the women's right. Makes my heart ache to think of all the women who are suffering or will suffer because it's legal.

To Whom It May Concern:

Enclosed is my affidavit for the abortion I had. I now work with high school students and do everything I can to let them know the truth, teach them abstinence so they won't end up where I did, and should they become pregnant I have helped them to make a better decision than I did. I want to do all I can to protect others from suffering what I have. I marked that I would tell my story if you need me to. I can be reached at the address on the form or by phone at [REDACTED] I have also enclosed Friend of the Court forms from my parents, my boyfriend and his mother who wanted to show their support for me in this. Please let me know if there's any other way I might be able to help.

Sincerely,

Shelby Otoupalik

BEFORE ME, the undersigned authority, on this day personally appeared
H. E. C. (Print Name),
who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: June, 1990 in Dallas, Texas (I cannot remember the clinic. I received a section of a newspaper advertisement at 8 weeks gestation. I found the clinic in the yellow pages)
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Absolutely not! When I asked about the size of the fetus, I was told it was a "microscopic cell cluster." I was told nothing about the procedure. I was about to undergo. When I asked about pain, I was told it would "feel like bad menstrual cramps." Pain was far worse.
- 3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? Not at all, no information regarding any link to breast cancer were given or told to me. I do not even recall discussing possible problems with the abortion procedure. I have not had breast cancer but have had positive pap-smears.
- 4) Did anyone pressure you into having an abortion? If so, who? No, but I was only seventeen. In the eyes of the law I could not buy cigarettes, but I could and did, legally receive an abortion. I couldn't vote, but I could abort a fetus. I was afraid to tell my dad because I would disappoint him!
- 5) How has your abortion affected you? For over 10 years I have tried to suppress my bitter emotions that ensued after my abortion. I was motivated to discover that at 8 weeks, the baby I aborted was virtually formed, even to unique fingerprints and was an inch in length. Subsequently, within a bonding process I felt I had to acknowledge what was NOT microscopic.
- 6) How has your abortion affected others in your life? My husband must endure watching his wife suffer in guilt and loss. He's the one who's left to be alone in the middle of the night. I have four children who do not know that they lost a brother/sister. What would come from the months of labor if I said that I exercised my freedom of choice? They'd all be devastated.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Get the facts first. Before you undergo a serious med. procedure, to view a diagram and completely understand the abortion. To look at the development and size (length) of a fetus, per her gestation and sex. I would tell her to look at the diagram (pull the monitor) towards you, see the heartbeat, then choose No.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? That the legality of abortion without any guidelines or limits is totally incomprehensible. How can we have guidelines for fetal pain management in utero surgery and not abortion? How can we have codes for animal euthanasia and livestock slaughter and not for the unborn human? Limits!

"I have read the above and foregoing statement and the same is true and correct."

I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your Abortion occurred:

1970 Torrance California (I was 15)
1972 Long Beach California (I was 17)

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?

No when I was 15 my mother set up my abortion.
No when I was 17 I went to a Doctor (Free Clinic) in Long Beach.
I was not informed either time. That it was a growing baby they were aborting. The nature of what my growing baby looked like. Or the consequences I would have.
Like remembering what my dead babies looked like.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer?

No on both questions.

4) Did anyone pressure you into having an abortion? If so, who?

Yes when I was 15 my mother took me in for my abortion.
Yes when I was 17 The father of my baby wanted me to abort our baby.

5) How has abortion affected you?

I want to let other girls and women know that there is a real baby growing inside her. And not just a blob of tissue like so many of us are told. After seeing my dead baby, from a saline abortion when I was 17 I screamed I did not know my baby would be fully formed. I wish I would of had the strength to carry my baby on my own.

6) How has your abortion affected other in your life?

My mother is sorry she made me have an abortion when I was 15.

7) Based on your own experiences, what would you tell a women considering an abortion?

To think about what she is about to do. To be fully informed of what her growing baby looks

3/15/03

like at the stage of pregnancy she is in. DON'T ABORT your baby. ABORTION HURTS. If not now it will come back to you. Abortion is not the end of your problems, it is the beginning. Give a couple the joy of having your baby by putting him or her up for adoption There are so many couples unable to have a baby on their own.

8) Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them to go watch abortions being performed at the different stages that these abortions are being done. And I pray that this would change their minds and soften hearts about abortion. That abortions should be outlawed (banned) for good. And that abortions should not be done for any reason whatsoever. That there is a real growing HUMAN BEING and not a blob of tissue. ABORTION HURTS EVERYONE.

" I have read the above and foregoing statement and the same is true and correct."

AFFIDAVIT
(Questions For WOMEN who Have Undergone Abortion)

The State of Colorado

County of Douglas

BEFORE ME, the undersigned authority, on this day personally appeared Susan L Babcock, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: March 1977 in Fort Worth, Texas. I do not know the name of the clinic.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No. I don't recall any information being given to me. I remember being told it would be a simple procedure and that I would be in recovery quickly and able to go home afterwards. I don't remember being told how the procedure would be done or what it exactly did.
- 3) Were you adequately informed of the consequences of abortion? I was not informed of any consequences related to the abortion, except to expect bleeding and cramping afterward.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No. I was not told of any link between abortion and breast cancer. I have not had breast cancer.
- 5) Did anyone pressure you into having an abortion? If so, who? No. My then boyfriend (now husband) and mother were both against me having the abortion. They felt it was wrong and I shouldn't have it. I felt it wasn't really anything to worry about or that nothing was wrong with having one.
- 6) How has your abortion affected you? My abortion has affected me in numerous ways. I felt tremendous guilt and confusion in the recovery room. I felt I had done something terribly wrong but didn't understand why I felt that way. I was very depressed and withdrawn afterward and could not talk about what I was feeling. I was unable to discuss the abortion for many years, despite my husband trying to discuss it with me. I never revealed my abortion as part of my medical history. It affected my relationship with my husband for over 20 years. I worried about being punished for killing my baby and feared I would lose my children after they were born. I have had many medical problems that I attribute to having the abortion including pre-term pregnancies, abnormal paps, and abnormal periods.
- 7) How has your abortion affected others in your life? My husband has had anger issues throughout our marriage because of the blame and guilt associated with being a part of my decision. We have separated multiple times. My mother has shared the guilt she has felt over the years for not stepping in and stopping me when she felt it was wrong for me.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? I would tell her to reconsider and to not have an abortion. I would tell her of the many long-term effects of the abortion. I would tell her of the physical, emotional and spiritual consequences of having an abortion. I have shared my personal experience many times with women considering an abortion and the pain associated with having the abortion, as well as the affects of those that have trusted me with their abortion experience. I would tell her that I think it is murder.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would first say I believe it is murder to kill an unborn child. I would say that if woman knew what they later learned from their mistake, they would understand that it was murder. I would tell them of the hidden statistics of the many long-term effects women suffer in relation to having an abortion such as miscarriage, reproductive problems, and the mental anguish of taking a life. I would say to the courts that if a woman saw pictures of what a fetus was like developmentally, how brutal the abortion procedure is, how a baby suffers during the procedure, and the possible long term effects, they would never choose to end their babies life. I would tell the courts of the many women I have met who are still suffering because of their abortions and they don't know why. I would say I have not met anyone who has had an abortion who has not expressed regret in having it. I would tell the courts they should be protecting women from this harmful procedure and to not be influenced by the those profiting from

- 1) Tell approximately when and where your abortion occurred: Friday - 1999, second, 1991.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Absolutely not; I was exercising your right "to terminate an untimely, possibly dangerous pregnancy which was just a blob of tissue" which will be a temporarily uncomfortable procedure.
- 3) Were you informed of any link between abortion and breast cancer? NO/NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? Yes If so, who? 1979 - husband (attorney Richard Heim), 1991 - Planned Parenthood staff members ... "Think ahead what would be best for the child."
- 5) How has your abortion affected you? In spite of repeated religious and spiritual assurances with forgiveness, I am to this date unable to completely forgive myself. I also will not expose myself to gynecological exams, which bring up bad emotions of shame, guilt, fear and pain. I will never stop grieving for the two babies I killed. Also, it was a physically agonizing experience. And I have suffered with mental, hormonal problems and depression ever since.
- 6) How has your abortion affected others in your life? N/A
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would inform her of the true facts of a fetus - it is not a blob of tissue, but is a feeling, living person in the womb. It becomes a baby, therefore it is a baby. A fetus is a baby in the womb - therefore, it is a child. I would also show photographs of equally
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is inhumane. Abortion is legally sanctioned murder of a human being simply for the convenience or misguided desires of another. As effects on the woman's physical and mental health are so far-reaching and grievous, it cannot be accurately estimated. Abortion is not a necessary medical procedure or even a "right." It is a crime.

7. what an aborted child looks like at any early stage of pregnancy. Fingers are formed, the heart beats ... it is a child. BEFORE ME, the undersigned authority, on this day appeared Deborah A Diasio, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

- 1) When and where did your abortion occur? AUGUST, 1975 at Planned Parenthood in New York City.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: At 12 1/2 wks, I was told that it wasn't a baby inside me, but a mass of cells without any shape or signs of life.
- 3) Were you adequately informed of the consequences of abortion? No; only that I would have bleeding from 1-6 wks - nothing else.
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? Planned Parenthood would not let me change my mind
- 6) How has abortion affected you? right before they began the abortion.
→ Not only did the abortion staff show their lack of compassion and medical care, but I carried all this guilt and shame for years. If abortion is a "good" choice, why aren't women allowed to change their mind right before hand, if it's what they really want? Why are they treated so poorly by the abortion staff and left to themselves once it's over? Why is there so much guilt and shame afterwards, if this is a good choice? Thousands of abortions could have been prevented if proper birth control was recommended, instead. The right to abortion is nothing more than birth control for the liberal whore, which is what I was made to feel like.
- 7) How has your abortion affected others in your life? Being lied to and having my right to a final choice taken from me has made it extremely difficult to have a trusting relationship with people.
- 8) Based upon your experience, what would you tell a woman considering abortion? The baby inside is a living, breathing person, capable of feeling pain. Planned Parenthood doesn't care at all about the woman, physically, or emotionally, as long as they get to kill the baby and increase their numbers.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? That freedom of choice means not only the right to an abortion, but the right to change one's mind about it without being forced into it, along with the right to know the truth about the baby in the womb, and all physical and emotional aspects prior to an abortion. Anything less is a violation of the right to freedom of choice.

- 1) Tell approximately when and where your abortion occurred: July of 1997 in a Hartford clinic
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No consequences were ever mentioned to me. We were told just before we were about to go in about the procedure. There was a small group of us getting this information at once, not one on one.
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? Myself. If so, who? I did because I thought it was my only option. I regretted it the moment I did it.
- 6) How has your abortion affected you? The moment it was over I started a downward spiral into depression. I cried constantly. I felt ashamed and so guilty, I knew I had just killed a life. Eventually my attitude toward sin became "I just don't care" because how could I do anything worse than this. My life suffered more consequences just because of that fact, as well as the life of my husband. It was only meeting Jesus that made me forgive myself and have a brand new life in Him. All glory must go to Him, because I would not be here now if it weren't for Jesus.
- 7) How has your abortion affected others in your life? My husband now was my boyfriend at the time and the father. He made the decision with me, but we were both crushed, depressed and distant from each other after.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? That all is not lost, poor, unmarried, raped whatever the situation is, because that is a real life in there that God who knew us before we were born purposed.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would simply tell them my story. When you feel guilt that literally makes you want to die you can't get much worse. I saw people including myself callous to sin, meaning you forget your conscience and think nothing could be worse, so you keep going deeper and deeper and this "I have read the above and foregoing statement and the same is true and correct." is the reality of our society.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your abortion occurred: May 1975 at Bar Harbor Maine

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No

3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No

4) Did anyone pressure you into having an abortion? If so, who? Yes, My Mother

5) How has your abortion affected you? I tried to cover up the pain with Alcohol and drugs, it got so bad with the alcohol that I would drink until I had black outs. When I was got married my husband and I tried for years to have a baby, it took a while to conceive. When I finally got pregnant, it was an Ectopic pregnancy. I was in my 4th month of pregnancy when my tube ruptured. I almost died from this. With just one tube left, I was able to get pregnant again. My next two pregnancies turn out to be miscarriages. Finally I got pregnant with my daughter and she was 3 weeks early. With my last pregnancy, he was 4 weeks early and I had Gestational Diabetes with him. With all my pregnancies I spotted for the first 3 months. It was like waiting for the next shoe to drop. Due to the abortion I had 4 abdominal surgeries. My first one was for the tubal pregnancy, and the five births I had c-sections. The last surgery was a hysterectomy. Now I have abdominal pains from the scar tissue.

6) How has your abortion affected others in your life? It has destroyed the relationship with the father of the baby and my self. The relationship with my mom as well. And in some aspects with my husband now.

7) Based on your own experiences, what would you tell a woman considering an abortion? PLEASE DON'T DO IT. The consequences are to great.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? Your Honor, the public wants you to believe that abortions is getting rid of tissue. That this is not a real life. I beg to differ. The moment the procedure was completed on me I knew that beyond a shadow of a doubt, I had just killed my baby!! At this point I began to cry. The nurse told me I shouldn't be crying, because my problem had just been taken care of. If she only knew that was just the beginning. "I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Spring of 1963
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? absolutely NOT - I was told I was having a wart removed (analogy) 4 months pregnant.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? yes If so, who? My father premeditated it - but ACTUALLY my fiancée upon hearing of my pregnancy - STATED he wanted nothing to do with me - and he would say the whole Hectory Team slept with me, I never saw him again.
- 5) How has your abortion affected you? when I found out I was very happy - I was sure my fiancée would be happy. This was NOT the case (as above) my dad did. I never and so did my depression. No support - nowhere to turn. I was told I needed 3 psychiatrists to combat my depression. How I wish all that is available now was in 1963. I borrowed \$100. - got on a Bus to Ashland Pennsylvania - (5 hours) pretty sure I would die there and really praying for that.
- 6) How has your abortion affected others in your life? I was engaged to a midshipman at the Naval Academy after my abortion - I felt the need to tell him about it - He then broke up our relationship -
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her that she must stop & think clearly about what she is doing - that it is a child - living & growing in her womb - I would share my experience (Briefly) & then offer her alternatives -
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I would tell them that a baby has rights as does the mother - we need to legally protect the helpless child in the womb. I would share all the negative aspects - of my abortion - the great need to give mother alternate choices. (e.g. adoption) etc. this message must get out to women esp. those who are pressured by family. / No Boyfriend.

When I arrived there I was surprised to see approximately 10 other women - mostly with husbands / Boyfriends. The md was older - very kind - told me it was like a wart being removed - He then inserted podofolium into my cervix to start the abortion. I had to stay overnight in a nearby hotel where I spent the night - praying to die - in active labor - alone - NOT even SCARED ^{or} frightened I was so depressed. This was so alien to my normal personality. My child was about 4 months - I didn't know all the information that we now have about the heartbeat - the baby's pain - this was almost a viable baby. In the morning I went back to the md - He put me on the table with stirrups - Someone gave me anesthesia - & I awoke in a small room - alone. They gave me 2 packets - one antibiotic - the other to continue uterine contractions. I was on a bus VERY shortly after the procedure - & vomited on the way home. As I was coming back I knew in my heart this was NOT A WART - I had removed - that I had killed my child. (this is very difficult to write)

My life continued to spiral downward - I was so guilty and ashamed - I began to take pills to help the depression - pills to help me sleep - wound up in a drug program - I remember not caring what happened to me - I then married one of the clients in the program - He started using IV Heroin - I then got pregnant with my daughter - 4 yrs later my son. For 10 years we lived "on the edge" - of poverty - of fear - of depression. I never regained my pre abortion personality. I must have confessed it at least 20 times - but could not forgive myself. It was not until I went on the 1st Rachael's Vineyard weekend in Connecticut. That I was able to deal honestly with my feelings - & received the support & the love of God. We shared such an incredible roller coaster of feelings - but we all left on a high of acceptance, & forgiveness - For me - I finally after 40 yrs - forgive myself, F.V. But a piece of my heart was forever gone.

Before me, the undersigned authority, on this day personally appeared Annie Banno, (Print Name) who, being by me duly sworn, upon oath, stated the following facts:

My name is Annie Banno (Print Name). My address is [REDACTED]
My telephone number and e-mail address is [REDACTED]. I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

I had my abortion on April 9, 1979, at the Summit "Women's Center," Bridgeport, CT, at the age of 20. I had been referred to this center by Planned Parenthood (PPA) in Bridgeport also, where I had my pregnancy test and learned that I was pregnant as a junior in college. I don't recall exactly how many weeks I was pregnant, but it was more than 8 weeks and less than 12.

At PPA, I remember getting the referral to Summit, but no other information about other alternatives. I was given literature about abortion, but do not remember even looking at it. If I did, I have subconsciously blocked out any recall of what I saw or read. I knew nothing of the consequences of abortion, other than that "my parents will never know I was pregnant." I did not know anything of the physical characteristics of my unborn baby, and no one at PPA told me this information. I barely knew anything about sex and nothing about abstinence. When I signed the abortion center's consent form, I do not think I even read the document. If I did, I do not recall if there were any warnings of risks associated with the abortion procedure. No one said anything about the link between abortion and breast cancer, or about not being able to have babies someday, or getting endometriosis. I did not receive any referrals to any agencies that would handle adoption, such as Catholic Charities. I knew that Catholic Charities helps with babies being adopted because, when I was born, that was the agency which handled my being adopted by my parents. Even though I myself was an "illegitimate child," I was in such shock and terror that I was actually pregnant, that I could not think of any option that would allow my parents to find out about my pregnancy. You would think that being adopted myself, I would have at least thought of that option for my baby.

But I was paralyzed with fear of my parents' reaction. I was a twenty-year-old college student. Finding out I was pregnant, abortion seemed to be my only answer. I knew it was a baby, that it was wrong, but all I could feel was abject fear: "My parents will toss me out. I'll have to quit school." My boyfriend said he would "support my decision" but in the next breath, he said, "But I can get you the \$500 to have the abortion." I thought, "If I don't, he won't stay with me, and I'll be homeless, no job, no education, nothing. Boyfriends never stay with the girls if they keep their babies. And he won't marry me without a job himself." I was convinced my life was over, and I

felt that he was suggesting I have the abortion by offering me the money. I bought into the promise that abortion would solve my problem and I would go back to being exactly the same person I was before. But that did not happen. I had become a Mom, and that truth was just too painful to bear.

I numbed myself completely, refusing to think, look at or listen to even those with the scary signs in that parking lot. I withdrew into myself to pretend that this just was not happening to me. I was scared for myself only. Certainly nothing the abortion clinic people said or did, helped me see the truth of what I was doing. I was never shown an ultrasound. I was never made to listen to my baby's heartbeat. I was never told all the things that my baby had already, all the organs, fingers, toes, brainwaves, heartbeat. No one told me ANY of that. The PPA people were giving me "credit" for being so decisive about my "reproductive rights." They made it all too easy to deny what I was really doing.

If someone had shown me they cared about ME or offered to pray with or help ME, I wouldn't have done what I did. But no one did, then. Outside the center, there was only a man yelling condemnation and closing my spirit. I was too afraid to look at the pictures he and his group showed. Nothing the protesters said or showed me, in the final few minutes of my baby's life, stopped me. My boyfriend had driven me there and tried to protect me from the protesters, but once I was in the abortion room all by myself, I pretended it wasn't me. I was in such fear that I went into total denial, as though it was happening to someone else.

I have blocked out every memory of the actual procedure except one. I remember the droning, loud, horrible sound of the suction machine. I do not even remember if I cried, or if I was awake, but I only remember the sound of that machine and feeling like I was in someone else's nightmare. Afterwards, I went back to my dorm room and just curled up in a fetal position for two days, only getting up occasionally to eat a little, although I was not hungry. The research I since have read says that this is one of the symptoms of Post-Traumatic Stress Disorder: some PTSD victims are unable to recall their trauma experience. It is called "Constriction" when the person numbs emotions and avoids anything associated with the traumatic event. Even the American Psychiatric Association's Diagnostic and Statistical Manual of Mental Disorders (DSM III-R)[25] officially lists abortion as a life event which can produce PTSD.

I recall clinging to the boyfriend, believing that no one else would ever want or love me, so if I didn't hang onto him, I would have no marriage or future children in my life. I did not think I was worthy of anyone, not even the boyfriend, and despite my own clear knowledge then that he was the wrong marriage partner for me, I continued the relationship and we married a year and a half later. This is another aspect of "constriction:" a sense of a foreshortened future (e.g., does not expect a career, marriage, children, or a long life).

Twenty-four years later, I still cry. I still feel overwhelming guilt and raw grief when I allow myself to relive the event or think about the daughter I will never hold in my arms.

For two decades, I blindly chose to have relationships with men who took advantage of me, used me and/or abused me verbally and emotionally. After 11 rocky, unhappy years of marriage, I divorced the father of both my aborted baby and my son. When my mother died 7 years after my abortion, I went to Confession with an immature child's belief that it would "erase my mistake" so that when my mother died, she would not learn of what I'd done. It took a total of 20 years for my grief and shame to really begin to break through my denial, and another 3 years before I was able to seek healing and an outlet for my grief and pain through Rachel's Vineyard retreat. Every day, for all of my life, I live with the sorrow of that "choice" that I can never undo.

In 1983, at the age of 25, four and one-half years after my abortion, I developed unexplained endometriosis. This disease claimed one of my ovaries and has caused me considerable pain including one laparoscopy. I am convinced that this was caused by my abortion. Of course, there is only one pro-life OBGYN doctor in the state of Connecticut, so it is useless to ask the great majority of OGBYNS if this can be proven. It is not in their best interest to even begin to get involved with such a proof. I am blessed by God to have been able to have my son. By rights, I should not have been able to conceive, considering how glued to my abdominal organs the endometriosis really is.

I had been prescribed "the Pill" to attempt to "control" the endometriosis for all but 3 of the last 20 years. I took the Pill in the 5 years before becoming pregnant with my son. An analysis in 1990 of the research up to that year showed that women who used the Pill for 4 or more years before their first full-term pregnancy had a 72% increased risk of developing breast cancer. That means that if I had a 10% risk of developing breast cancer, then a 72% increase would bring my risk up to 17.2%. As a direct result of recently learning THAT, I chose to stop taking the Pill for good. Knowing my past history, the endometriosis will multiply and enlarge in my intestinal cavity for about one year to the point where I will probably require a total hysterectomy, at age 45.

I do not have breast cancer, although I have doubled my risk of getting it by having an abortion, *on top of* the extra increased risk I have incurred from long-term Pill usage.

I knew none of this, and in 1979, after only 6 years of legalized abortion, I daresay NO ONE knew this. And this is exactly why it should never have been made legal, and should now be made illegal, because of the massive damage to women that abortion has inflicted.

My abortion has affected my early-teenage son, whom I told one year ago. I've always been honest with my son in admitting my mistakes. I want him to feel safe coming to me with his own mistakes, no matter how intimidating this may be. When the feeling of "Mom, how would you know what I'm going through?" arises, he'll know that I'm human too. Moreover, he'll be equipped with concrete proof as to why he should always avoid the tempting, sinful path in life.

He was shocked when I revealed my secret to him last year. I had written a letter to the editor of a local newspaper describing my pro-life story and expressing compassion for others in my shoes. It was designed to counteract the violent, hate-filled stereotypes so often used to characterize pro-life. When I was told it would be printed, I decided to prepare my son, rather than risk having him learn of it from classmates in school.

At first he was very upset, and had to get out of the parked car and walk off his agitation and pain. I got out too and followed him. As I cried telling him how sorry I was, he hugged me, and consoled me with words I used with him when he was little: "It's OK to cry, Mom. Just let it out." Then he said, "It's not your fault." I replied, "Yes, it really was. But I believe God forgives me now, because I am so sorry. I hope you will too." He said, "Of course, I forgive you. You're my Mom."

The next day, he remarked incredulously, "So...I have a big sister in heaven?" Then he wanted to name her!

My son accompanied me to a recent Rachel's Vineyard memorial service, where we Moms read the letters we had written to our children in heaven. I realized there at the event how much I

wanted him there. I had called his father, whom I had to beg to drive him from an hour away, after first borrowing a car from someone else who had to change her plans.

It was truly a miracle and a prayer answered. I didn't know until an hour before if my son would be there. I wanted him to be present to acknowledge his sister and to know how much he had helped me by his compassion. He came up with me and stood by me while I read my letter to my daughter, Erin Madeline, unable to stop the tears. As he comforted me and began crying himself, I was beyond moved. He put his hand on my shoulder, rubbing my back as I tried to read. Everyone was crying. Then my son was named in front of the whole group as "the brother of Erin Madeline."

He wasn't scheduled to stay after the service for the Mass, but after listening to the others' letters, he said he didn't want to go to sports practice after all. So we stayed, and he even altar-served Mass.

Several women on the retreat were deeply awed by his composure and greeted him with huge hugs. They'd been afraid to tell their own children and family members, but wanted to. Seeing the great love with which my son responded to my confession gave them the courage and hope to pray for the right way, words and moment to tell their kids and seek forgiveness from them.

I finally realized that God had blessed me with two wonderful children, both of whom have been given the gift of compassion for me, their Mom.

Still, my son had said to me when I first told him, "Mom, you know I'm never going to be able to look at you the same way again." That hurt terribly to hear, although I knew it was true. He sorely misses having a big sister. Being an only child, this pains him greatly to know he *could* have had one. He is a kind person though, and does not take it out on me or hold it against me, and for that, I am grateful.

As for others in my life who have been affected, I have written a letter to my father, sharing with him the entire truth as well as what I am doing now to help others avoid this same trauma. That letter remains unanswered. My father has not contacted me and will probably never contact me again. I presume, from his silence, that he has effectively written me out of his life. My uncle and aunt on my father's side have also disavowed any relationship with me.

My mother is long since deceased. She never knew about my abortion.

Based on my own experience, I would (and do) tell women considering an abortion this: I know just what you are going through. You think your life will be over if you have this baby, or that it's just the wrong time and it will get in the way of your dreams. It may not hit you for over 20 years, like it didn't hit me, but someday, your dreams will all be haunted like mine, and you will cry or experience a different outlet for your pain and regret. You might suffer unexplainable depression, or become alcoholic or use drugs. You might try suicide. You may get breast cancer or endometriosis, like my friends and me. You might never be able to have more kids at ALL. You will feel so sad, but you won't realize why. You may choose men who hurt you. You may even harm yourself physically. Please don't do this to YOURSELF, never mind the life that is growing inside you. There are tens of thousands of women wanting to adopt, if you can't take care of this son or daughter inside you. You will be blessed more than you can imagine, right now, if you let your son or daughter live. Make the abortion clinic show you the ultrasound screen, and turn up the volume so you can hear your baby's heartbeat. It sounds just like yours. I

know so many women who are grieving the loss of their babies. If you don't think you'll regret it, I can tell you that someday if you are pregnant again and that time you DO want the baby, when you go for your ultrasound at 8 weeks, THEN it will hit you what you did when you aborted. If your boyfriend says he will "support your decision," realize that he is not helping you, he is only taking the coward's way out.

What I want to tell any court that believes abortion should be legal, is this:

I have never cried so much in my entire life than I have over what I have done to my "first child." I cannot compare the remorse and anguish I have had, every day of my life, to anything else I know. Twenty years of burying this utter pain has taken its toll on me.

I wasted so much of those 20 years of my life in numbness and denial. Once I began facing the truth of what I did, about 4 years ago, I began crying regularly at the horror of what I did to my own baby. I cry still, each time with such despair it is as though I will never stop crying. I feel overwhelming guilt for having been so selfish and desperate as to put my own education, life and career goals ahead of my responsibility to my baby. I lost whatever self-esteem I had had before the abortion. For most of my adult life, I no longer thought myself worthy enough of a satisfying, mutually beneficial relationship with a man. And because of my abortion, I suffer painful endometriosis, which was only partially treated by major surgery to remove one entire ovary and an endometrioma the size of a large grapefruit. I also live in fear that I will develop breast cancer as a result of my abortion.

For all that I have -- life, education, house, car, career, vacations, possessions-- I'd throw it all away if I could go back and change my "choice" then. But I can't. *Had it been illegal then, I would not be living with this undying, incredible regret.*

I knew nothing about life and proper decisions when I was twenty years old. I was not capable nor mature enough at that age to make proper, correct, moral decisions. I was a 13-year-old girl in a woman's body. I believed the lies that it was "my body" and I could do with it whatever I chose. I was "independent" and "thinking for myself." I thought I knew everything and was "an adult."

I knew nothing. And I believe there are precious few 18, 19, and 20-year-olds, today especially, who truly act and make choices based on anything other than pure selfishness and/or hedonism.

I risk my reputation and perhaps even my physical safety today for three reasons:

- 1) So that other women like me will know that the message of Operation Outcry: Silent No More is: "Millions of us regret our abortions. AND: it is safe to find the healing that you deserve, now."
- 2) So that my story will help even one woman decide she CAN keep her baby or give the child to a couple aching to adopt. Whatever is needed to avoid abortion, is available through 3,400 life-affirming confidential pregnancy centers. All a woman has to do is ask.
- 3) And to begin the wheels in motion to overturn all laws at every level of government that permit abortion in any of its forms, surgical or chemical, and at any stage from the moment of conception to birth, so that no woman and no baby ever has to suffer the consequences again.

On the March for Life in January 2003, many women and even some men, total strangers, seeing my sign, came up to me in tears to thank and hug me. In December 2002, I began "compassionate counseling" and offering help to expectant Moms as they come for abortions at a clinic in

Fairfield County, CT. On my *second* day there, as I stood at the curb for drivers stopped at the red light to read my sign, I made eye contact with a woman after she'd read it. My sign says, "24 YEARS LATER, MY 'CHOICE' HURTS ME STILL." She looked down, pointed sadly at herself, and I could *see* her say the words, "Me too." She looked about to cry. I dashed through traffic to the middle of the street, fumbling to get my gloves off in the frigid cold, to reach in my pocket to get the "Rachel's Vineyard" Abortion Recovery Retreat leaflet before she drove away. I grabbed some other literature accidentally first, threw it down on the grass with my sign and gloves, and by now the light had turned green, but she rolled down her window, waiting, sensing something important was happening, and not one single car honked at her impatiently to go. This took a good 5-10 seconds of the light being green and her waiting. I finally found the leaflet, gave it to her and said breathlessly, "I went on this retreat! It's wonderful!" She took it, thanked me and then drove on.

THIS is why I now am speaking to the court in my affidavit. I know that God, through me, helped these women feel less alone in their struggle of post-abortive grief and guilt. I so deeply regret choosing abortion. I will never be able to escape or undo what I've done, for my entire life. These stories and many like them *prove* that the incidence of other women who feel the same way is astronomically higher than is publicized. The Allan Guttmacher Institute says that 43% of American women will have had at least one abortion by the age of 45. That's 25 million women. Based on other current research, at least 69% of these post-abortive women, or 17.25 million, suffer many or all diagnosable symptoms of Post-Traumatic Stress Disorder.

Having experienced abortion, I can say it traumatized me psychologically and physically. I suffered from some of the symptoms of abortion-induced Post-Traumatic Stress Disorder (most notably, constriction or avoidance behavior) for 20 years. I suffer today from painful endometriosis because of my abortion, and a deepest emotional loss I will never stop suffering, until the day I die.

Research shows, and I believe, that many women suffer in silence out of fear or shame, like I did. I don't want any of them to suffer like I did. Not one day longer. And I want to help other women avoid the emotional pain and physical harm caused by abortion, any way they can. If those of us who have experienced this tragedy remain silent, then the lie and pain that abortion brings will continue to destroy the lives of millions of women and babies.

I have read the above and foregoing statement and the same is true and correct.

BEFORE ME, the undersigned authority, on this day personally appeared JANET M. LARUE (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: 1956 in Rock Island, Ill. It was performed by a licensed physician even though it was illegal.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No. I was not given any information about abortion. I asked the nurse if there was anything there than a blob of tissue. She said, "No. It is just a blob of tissue." I learned later that she said "it was a baby."
- 3) Were you adequately informed of the consequences of abortion? No. I was told nothing about the consequences of abortion or potential risks. I was only asked if I was sure that I wanted it done.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No. No.
- 5) Did anyone pressure you into having an abortion? If so, who? No. It was my own uninformed, selfish, unnecessary choice.
- 6) How has your abortion affected you? It has left me with the deepest regret over the loss of my child even though it happened 44 years ago. I have suffered physical and psychological effects as a result.
- 7) How has your abortion affected others in your life? My first marriage ended in divorce. Some of my family have felt shame and embarrassment.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? I would share my experience. I would provide information on fetal development, the potential risks of abortion, the potential physical and psychological consequences, adoption agency referrals and offer personal assistance.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? The unborn were protected in law prior to Roe v. Wade and should be again. Abortion should be illegal unless two physicians believe that there is a substantial risk to the life of the mother.

Testimony

If anyone had been able to convey to me the suffering I would later know, I would never have killed my baby.

I am here to day because I regret my abortion, miss my unborn daughter, Maggie, and I want the world to know that she was a real live human being who suffered pain when the doctor savagely pulled her apart from my womb at 12 weeks of pregnancy. But the worst pain is the sorrow of regret I will have for the rest of my life, because she is not here with me now and I will never know her on this earth.

I went to a Planned Parenthood Clinic abortion provider. I received no real counseling and there was no discussion regarding other options to deal with my pregnancy, such as adoption or how to get help raising a child as a single parent. Today, Baby Moses laws give woman an alternative choice. Since my "choice", I have suffered 6 miscarriages and 1 stillbirth at 31 weeks of pregnancy. I believe my physical problems in carrying to term are a direct result of the abortion in 1984. But mostly, I suffered psychologically and emotionally in silence for 17 years with an unexplained anger, irritability, and anxiety until I decided to seek help. With my counseling through Project Rachel, I was finally able to acknowledge the wrongness of what I had done, (which I had denied for so long), face the pain and experience the grief of Post-Abortive Syndrome, and feel the spiritual power, grace, and healing of forgiveness, and reconciliation with God .

If you have had an abortion I want you to know that the best way to heal and feel joy again is to acknowledge that your baby was real, give him or her an identity, and come to terms with your loss by coming to know your child spiritually through counseling. You can receive forgiveness, forgive yourself, and respond to God's call to give witness to the gift of life. Your testimony will help others avoid the pain you have known, and enable others who are still suffering in silence to break through the guilt and shame, and know peace again. Call Project Rachel 1-888-456-HOPE to get started on the grieving and healing process.

The most important thing about abortion that I believe people, especially, women, need to know is that abortion hurts women. All women who have had one will inevitably, ultimately, one day, regret that choice, after what may become many years of denial, living a lie of rationalizing that you had no other choice, and that it somehow is a legal "right". The legal right you claim to kill does not exist. Abortion is murder. An 8 week old fetus is a fully formed person with the beginnings of eyes, ears, nose, heart, lungs, and arms and legs that feel pain and want to be hugged and loved and nurtured. The "choice" that the judges gave us from Roe v. Wade puts practicality above morality and they did not have a right to make that judgment. The case must be overturned because we as a moral society cannot put the truth aside for personal convenience. Pro-choice activists have bought into the lie, but they are ill-informed. Abortion hurts women, it doesn't help us. Those of us who know are finally speaking out, and you must hear us!

"I have read the above and foregoing statement and the same is true and correct."

- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? no -
no. I was not informed about the nature or consequences
of abortion, what it is or what it does
- 3) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 4) Did anyone pressure you into having an abortion? yes If so, who? Father of my child.
- 5) How has your abortion affected you? I had had depression and low
self worth. I have mourned the death of my
boy for 33 yrs. It is my greatest regret.
- 6) How has your abortion affected others in your life? All my family members feel
the pain of this bad choice.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? not to do it.
I killed my baby and hurt myself. I had no
idea what I was doing. I believed the
doctors who said it wasn't a baby but it is!
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? that abortion
is an abomination. The abortion industry is all
about money and greed not about the woman or her
child. It's all a lie! It is not an authentic law. It is
against God's law.

To be filled out by women who have had an abortion.

The State of Delaware

BEFORE ME, the undersigned authority, on this day personally appeared Kylie D Betts (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: April 1997 Granite City IL.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?
NO, any consequences were played down as if they were not really concerns.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? YES If so, who? My boyfriend at the time
- 5) How has your abortion affected you? For the longest time I blocked the abortion out of my mind. I tried not to think about it ever. It has caused a lack of desire for intimacy in my marriage and sadness in my heart. I have gone through post abortion counseling and been forgiven by God. It also played a part in continuous promiscuity, getting pregnant again 9mo after the abortion which resulted in a miscarriage.
- 6) How has your abortion affected others in your life? It has deeply hurt them and caused much distrust. My husband now suffers from my not wanting intimacy with him
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her that she must weigh the pros and cons first & that the pain is not worth the first Ab. Abortion is forever and you can never take it back. When the baby is gone - it's gone forever leaving her with regret.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal?
That human life begins the very moment the sperm & egg meet. It is the start of something beautiful & life. Abortion does not help women or promote what being a woman is about. It hurts women, tears them apart on the inside leaving them with shame, guilt & pain - many times unbearable hurt. It is hard to forgive oneself and leaves regret that is difficult to heal.

"I have read the above and foregoing statement and the same is true and correct." Abortion is not worth the consequences. It is not our right to take life God created.

To be filled out by women who have had an abortion.

The State of DE

BEFORE ME, the undersigned authority, on this day personally appeared Pamela Combs (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 1979 - Wilmington, DE - referred by Planned Parenthood
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No, I had an idea that they would be removing a mass of tissue. That is how planned parenthood put it. They took the bloody mass in a glass jar past my face like it was nothing.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? Yes If so, who? Planned Parenthood
They made it seem like no big deal. I was # 17 that day. It was horrible!!
- 6) How has your abortion affected you? I have given it over to God, but I know that deep inside I have pain that is very well hidden and guarded. I had several miscarriages throughout my life. God finally blessed me with my 4yr old daughter. She was a twin and I lost her sibling in my 4th month. I have had female problems since I had the abortion when I was 16. I have been to so many gynecologist since then that I stopped going. My husband still does not know and I know that I have to tell him. I wish that someone would have showed me an embryo, how it is alive!! It's not just a mass of tissue, it's precious life!!
- 7) How has your abortion affected others in your life? They regret it and wish they could get over the pain. As far as my family, we don't discuss it.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Even if you are strong minded and independent and think you know what you want, you don't. My parents were weak and let me take charge! I wish they or someone would have knocked me down and told me they loved me and that there was help. Life is precious!!
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Walk a mile in my shoes! It's hard to explain unless you have had an abortion, but imagine every time you heard a baby cry, your insides ached, or when something reminds you of that abortion you know that that baby was alive when it was being sucked out of you. I am 38 now and truly believe that I should seek counseling as well as pray to God

BEFORE ME, the undersigned authority, on this day personally appeared A [redacted] M. F. [redacted] (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Feb. 14, 1986, Arlington, Virginia
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No, I was given no information at all
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? yes If so, who? The "nurses" or technicians at the abortion clinic pressured me. I left the first time. Was confused didn't think I had any choices and went back. I was confused + they harassed me to do an abortion
- 5) How has your abortion affected you? For many years I knew in my soul I had done wrong but I lied to myself and convinced myself it was OK. Only gradually did I realize how wrong I had been and how the lack of information and the pushing and harassing of the women at the clinic had forced me to do something my conscience was against. I have cried many times over my lost son. A hole is in my heart. When I see boys who would be my son's age I am upset.
- 6) How has your abortion affected others in your life? It has made me want to inform others about abortion. Kills children will harm our mother and is never a good option.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Not to do it! To seek help and support and to know that no child will be unwanted.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? That women's choice should be before they conceive a new life not after. To kill defenseless babies is a crime against nature. Abortion is a child and a unique human being not tissue only.

BEFORE ME, the undersigned authority, on this day personally appeared **WILMA BOEHMER**, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: 1970 in Baltimore, Maryland and 1975 in Baltimore, Maryland
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No, I don't think so. Nobody ever impressed me it was a child but that it was only the beginning and there was nothing wrong in doing it.
- 3) Were you adequately informed of the consequences of abortion? I don't believe so. The only thing I was told was that I would have excessive bleeding but they did not tell me of the emotional consequences.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No. No.
- 5) Did anyone pressure you into having an abortion? If so, who? The first time my doctor and my boyfriend pressured me because the baby possibly had birth defects because of radioactive dye that I had go through mv blood due to a brain scan that they did. The second time was for convenience.
- 6) How has your abortion affected you? It is a pain that goes directly to the soul. It never lets go. You might think its gone but it is always there. Anything can trigger it. I had to have a bysterectomy at the age of 28. I had pre-cancer tumors on my ovaries, and I was bleeding all the time. I also had a severe case of endometriosis. Due to the abortion, I have built a wall around me where even if people tell me that they love me, I cannot feel it. I know God loves me, but I can't feel it.
- 7) How has your abortion affected others in your life? I married at 28 and my husband and I have never able to have a child together.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? I couldn't tell her strong enough not to do it. Hind sight is always 20/20. I would do whatever possible to prevent it from happening. I really feel that carrying all this pain (and I have not told anyone except my husband) has affected me mentally, emotionally, and physically all of my life and I am to the point where I am disabled.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? It is definitely not OK with God. No matter what age or weeks the child is, it is murder and you feel like you have committed murder. I have gone over the ten commandments and have broken everyone of them.

BEFORE ME, the undersigned authority, on this day appeared ARLEEN ELIAS, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

- 1) When and where did your abortion occur? New York City - 1965, 1966 and 1984
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no explain: The first two abortions were conducted by a woman in her apartment because it was illegal in New York. The third abortion was conducted by a doctor who predated certain documents. There was no counseling.
- 3) Were you adequately informed of the consequences of abortion? No. Never.
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? The fathers of the children.
- 6) How has abortion affected you? I have been married four times and I believe that my inability to remain in a relationship is directly related with my abortions. I have carried a burden of guilt throughout my entire life since my first abortion was at the age of 14. I had nightmares. I was a pathological liar. I distanced myself from God and led a promiscuous lifestyle. I could not bond with children and avoided relationships with them at all costs. I dreaded the nine months that I carried my son. I suppressed an underlying anger but there were times when I simply did not have the strength. My son was oftentimes the target of this venomous anger. I felt deceived by society and abandoned by those in authority (both in my family and my government). I was raised with the belief that this country would protect me
- 7) How has your abortion affected others in your life? I am only aware of one person. Husband #2 has not been able to remain in a longterm relationship and suffers from chronic depression.
- 8) Based upon your experience, what would you tell a woman considering abortion? That there are other alternatives and that she should seek counseling first in order to learn about them. Give her options.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would say that they must be ignorant to the degree of harm this procedure has had on our society. They must not realize that it was a law like Roe v Wade that began the total breakdown of the family nucleus. That the generation that we are raising to be our future leaders lack character and moral values because of attitudes such as this.

BEFORE ME, the undersigned authority, on this day appeared NANCY JANE ELLIS, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

- 1) When and where did your abortion occur? July 11, 1975 New England Women's Ct. Boston, Mass.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain:
The procedure was explained to me but not explained that it was a baby. It was very clinical & cold.
- 3) Were you adequately informed of the consequences of abortion? NO WAY
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who?
- 6) How has abortion affected you? I had nightmares for years and was emotionally bothered & troubled. I couldn't even talk about it for nineteen years. I was in bondage to it until I came to terms with what I did. God was my only rescuer and healer in the whole process of whatever. I lived in denial until I faced what I had done as a young woman.
- 7) How has your abortion affected others in your life? My husband was effected because I was troubled in my sleep and in all manner of ways.
- 8) Based upon your experience, what would you tell a woman considering abortion? Don't do it. It will bother you and you will regret it. It is totally unnatural to kill your own baby. Don't listen to lies.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would say that all babies are meant to be and never aborted. Life is from God and every life has a purpose & plan. Abortion affects so many people it isn't the answer at all.

AFFIDAVIT

To be filled out by women who have had an abortion.

The State of Florida

County of Collier

BEFORE ME, the undersigned authority, on this day personally appeared Stacy Ender's (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: February - 1988 - doctor McGree's office, Naples, Florida.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?
I was so young at the time and extremely scared! If anything was said, I was still in shock about being pregnant and severely depressed so I probably wasn't paying attention.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? Yes If so, who? my mother - that morning I was crying and didn't want to go through with it but she pushed me along The nurses also kind of pushed me through
- 5) How has your abortion affected you? It is a horrible memory. For start, it was extremely painful physically - I remember being severely sad - out of it yet very much there... I was screaming and the nurse put her hand over my mouth - I asked for more pain medication and was told "No - he's almost done" - as I looked over and saw blood in a glass vacuum like thing I said "What's that" and I was distracted by another nurse and my head was redirected. When it was over, they all left me in the room alone - I was horrified, shaking - depressed and in excruciating pain. I was then escorted out the "back door" it quickly as well.
- 6) How has your abortion affected others in your life?
My mom feels terrible - regrets her advice - My sister grieves with me - because she had one too.
- 7) Based on your own experiences, what would you tell a woman considering an abortion?
That an abortion is never the answer. There are so many reasons to give birth - to her baby and that there are other options like adoption. - Also that the trauma never goes away.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal?
That they need to leave life and death in God's hands! That a woman cannot think clearly when she's pregnant. The pregnancy itself causes a woman to go through extreme emotions and one simply cannot make a conscious, clear decision, that is in her best interest.

BEFORE ME, the undersigned authority, on this day appeared Katrina Evans, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

- 1) When and where did your abortion occur? Tampa, FL
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: They never told me specific information about the procedure or the risks involved. All they said was that I would hear a noise like a vacuum and then there might be some slight discomfort or pressure.
- 3) Were you adequately informed of the consequences of abortion? No. No one said there would be any consequences - just a means to an end.
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? _____
- 6) How has abortion affected you? For sixteen years I didn't even think about my abortion, but after it I had a very hard time bonding with my next child. I didn't feel worthy of having a child or loving a child. I was overcome with feelings of remorse and guilt, ~~and I was~~ ~~overcome~~ ~~with~~ ~~feelings~~ ~~of~~ ~~remorse~~ ~~and~~ ~~guilt~~ ~~and~~ ~~I~~ ~~was~~ ~~diagnosed~~ ~~with~~ ~~depression~~ ~~and~~ ~~was~~ ~~on~~ ~~anti-depressants~~ ~~for~~ ~~many~~ ~~years~~. After almost sixteen years I began to think of the baby I had aborted, I was overcome with feelings of remorse and guilt. I felt powerless because all I wanted to do was turn back the clock and choose to give my baby life.
- 7) How has your abortion affected others in your life? I was married at the time of the abortion but shortly afterward my marriage fell apart and we divorced.
- 8) Based upon your experience, what would you tell a woman considering abortion? Please don't do this. You may think this will solve all your problems today, but the truth is - tomorrow your problems will have multiplied. You might not think about this tomorrow, next month or even next year but one day you will and it will haunt you the rest of your life.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? The deaths of literally millions of babies cry out to you to stand up for them. They cry out for justice. Please don't let another baby have to join with their voice. Choose to allow them to live.

BEFORE ME, the undersigned authority, on this day personally appeared [Redacted] D.F. [Redacted] (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your abortion occurred: April 1969 Mexico City, Mexico
2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? no

3) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
4) Did anyone pressure you into having an abortion? no If so, who?

5) How has your abortion affected you? Having an abortion changed my life. I should have decided to have an abortion when I was 19 years old. Because I wanted to finish school, have a big wedding, I wanted to have a career. Each of these reasons has shown me my SELFISHNESS, GREED and PRIDE. A human life is more valuable than any of these reasons. I have great sorrow and regret for our families loss.

6) How has your abortion affected others in your life? The family of the aborted child... the father, brothers and sisters, who've grieved over the fact that this loved one was not allowed in their lives.

7) Based on your own experiences, what would you tell a woman considering an abortion? I would exhort her to examine the reasons why she is considering abortion. If they are self-centered reasons I would share her that she one day will have great sorrow + grief.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is dangerous for women, the courts do not realize that women are not being told all the risks they are upon. Breast Cancer is now a risk. The physicians + clinics are in the business for financial gain.

- 2) Were you adequately informed of the nature of abortion, what it is, what it does? No If not, explain: I knew (was told) it would hurt & be over in less than 3 minutes. I was counselled with 4 other girls, in a group setting, just before the abortion. A woman ran out of the exam room, crying that she didn't want to kill her baby. The nurse looked at me and said, "She's already
- 3) Were you adequately informed of the consequences of abortion? No, I don't know if I would've listened, though, as I had a hard heart. dilated; she's going to abort anyway. I went in next. The nurse held my hand the whole time, and I talked about my 11 siblings.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? No If so, who? I made the decision, with my boyfriend, because I was selfish. A couple of days before the appointment, he walked away. I've not seen him since.
- 6) How has your abortion affected you? Yes. I've never had a child and am very sad I took God's most precious gift and threw it away, due to my selfishness. I know God has forgiven me for this sin but I still struggle with this emotionally and psychologically. I've shared it with others (limited basis) in hopes they will make right choices. I also spent almost 7 years (afterwards) drinking/drugs to hide the pain.
- 7) How has your abortion affected others in your life? Yes. I have two sisters who knew I was going to have the abortion. Today, 25 yrs later, they both carry some guilt for "not trying to talk me out of it."
- 8) Based on your own experiences, what would you tell a woman considering abortion? Please don't do it! God has entrusted you with this miracle. Look to Him, instead of yourself, for answers. If you aren't prepared to raise a child, please put the baby up for adoption.
- 9) Based on your own experiences, what would you tell a court that believes abortion should be legal? It is wrong. God did not design us to kill our children. The mental, spiritual, physical and emotional repercussions are unbearable. Please reverse the laws and make it illegal. Please!

- Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: I was counseled re-birth control but not to the biology of the fetus, and the emotional repercussions (psychological impacts)
- Were you adequately informed of the consequences of abortion? no

- Did anyone pressure you into having an abortion? Yes No If yes, who? Boyfriend & family
- How has abortion affected you? I struggled with anxiety and depression as well as substance abuse. I became suicidal. I was an honor student but struggled to graduate from high school in 1980. I dropped out of college. I was filled with shame. My life careened out of control. I was restored to life in a dream about Jesus and became a Christian in 1986. My life since then has been very graciously healed. I am an M.S.W. and have devoted the last nine years to working with men and women accused of murder and/or sentenced to death. I also have three wonderful children.
- How has your abortion affected others in your life? Yes, though they don't know it yet, my living children lost their siblings.
- Based upon your experience, what would you tell a woman considering abortion? Choose life and we will help you. You are not alone. You can be a mother to a living child. You are already a mother. Don't kill your child. Everything is worse.
- Based on your own experience, what would you tell a court that believes abortion should be legal? following a abortion. Abortion ends the lives of real human beings and is therefore a murderous act. Abortion is an industry which, though lucrative for some, is devastating to women and their families.

My Catholic father for death two years later I became pregnant with my 3rd child and almost lost her due to pre-cancer issues on my cervix. I was told I may have to abort this child and have a complete hysterectomy to save my own life. By God's grace I was able to have this little girl and was blessed with another little girl as well. I am also a recovering alcoholic which I attribute to this horrific decision.

- 1) Tell approximately when and where your abortion occurred: Summer 1982 Dr.'s office Orange Park FL
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO, NOT AT ALL I WAS TOLD I WAS PREGNANT AND 3 DAYS LATER I HAD THE ABORTION. IT HAPPENED SO FAST I DIDN'T HAVE TIME TO THINK ABOUT WHAT I WAS DOING.
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? _____ If so, who? My Mother did not tell me to have the abortion, but she did not try to talk me out of it, my oldest sister had just had a baby out of wedlock the year before
- 6) How has your abortion affected you? The moment my abortion was finished I knew I had just killed my unborn baby. I actually saw him or her in a glass jar. I was twenty years later after I was married I had a son. It was hard because I should have been feeling joy I felt more guilt. Now that I am forty it hurts knowing he or she would be 21. Sometimes I want to talk about the one I never knew, but there is no one to talk to.
- 7) How has your abortion affected others in your life? My Mother + Father probably still feel some guilt, I dont know because we dont discuss it.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? I would like to tell her of my experience, tell her to have a sonogram, she doesnt have to keep the baby there are plenty of couples who wish to adopt
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? A woman's right is to have sex or not have sex it is her body. But once she has conceived a new life inside her, the baby has a right to live. There is no difference between having a baby surgically removed in the womb or throwing it in a trash can an hour after it has been born - ~~that~~ Both acts are MURDER!

BEFORE ME, the undersigned authority, on this day personally appeared [Redacted] (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Summer 1980 Orlando FL
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO I WAS NOT.

- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? YES If so, who? MY HUSBAND AT THAT TIME. HE IS MY EX-HUSBAND NOW.

- 5) How has your abortion affected you? I'VE HAD PROBLEMS WITH DEPRESSION, ANGER TOWARDS MYSELF, MY EX-HUSBAND, AND THE PEOPLE AT THE CLINIC. I WAS AFRAID OF GOING TO HELL & DIDN'T FEEL THAT I WAS GOOD ENOUGH TO GO TO CHURCH. I DIDN'T THINK GOD WOULD FORGIVE ME & I COULDN'T FORGIVE MYSELF OR EVEN ACCEPT GOD'S FORGIVENESS. WHEN I FINALLY HEARD the good news of GOD'S FORGIVENESS through Jesus Christ on the television.

- 6) How has your abortion affected others in your life? I believe it broke-up my first marriage. I've had a problem with anger, bitterness, and depression and feelings of low self-worth + low self-esteem.

- 7) Based on your own experiences, what would you tell a woman considering an abortion? NOT TO DO IT. IT WOULD NOT ONLY KILL HER BABY (WHOM SHE'LL NEVER SEE, HOLD OR HEAR) BUT SHE WILL DESTROY A PIECE OF HER OWN SOUL THAT SHE'LL HAVE TO LIVE WITH AFTER THE ABORTION, (a sadness that won't go away this side of HEAVEN). THE REST OF HER LIFE.

- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? The laws are made to protect the people. - Abortion DOESN'T PROTECT ANYONE. Certainly IT DOES MORE to perpetuate mental illness than they realize! IT CAUSES RELATIONSHIPS (MARRIAGE INCLUDED) TO DISINTEGRATE. The fetus (LATIN FOR BABY) HAS THE DNA of a human being. JUST BECAUSE IT'S SMALL AND CAN'T DEFEND ITSELF DOESN'T GIVE ME THE RIGHT TO KILL HIM OR HER. ABORTION JUSTIFIES BEING A MURDERER & IT JUSTIFIES ABUSE IF IT'S ALLOWED TO REMAIN LEGAL. FURTHERMORE, THIS IS THE AGE OF DNA WHICH IS USED TO IDENTIFY VICTIMS IN THIS CASE WHOSE NAMES ARE BUT HUMAN UNBORN BABIES.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:"

1. Tell when and where your abortion occurred: (1) Newark, DE - A Clinic on Orange Street - 1986
(2) Dover (Center Planned Parenthood), 605 S. Governor's Ave, Dover, DE 19901 - 1988
2. Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No. I was told it was a simple procedure - the word "abortion" was never mentioned - they said it was removing a "blob" of tissue. There was no explanation - only of what was to be expected of me - time to arrive, use an enema the night before, & paid extra for "hospital".
3. Were you adequately informed of the consequences of abortion?
NO - I didn't know there were any consequences. Everyone acted like it was nothing - no big deal.
4. Were you informed of any link between abortion and breast cancer? No
 Have you had breast cancer? No - but according to statistics, I am at risk.
5. Did anyone pressure you into having an abortion? Mother, father, sisters father of the babies, But I am responsible for the decision. Also the nurse dismised alternatives.
 If so, who? Society frowns on unwed mothers - everyone gave me excuses to have a.
6. How has your abortion affected you? I have panic disorder low self esteem which led to promiscuity, I drank & got involved with snorting cocaine, I got HPV which damaged my cervix had surgery to remove pre-cancerous cells, I have colon problems and at risk for breast cancer.
7. How has your abortion affected others in your life? Both sisters who took me & my parents carried quite, it also made for bitterness. My husband has to deal with my anxiety & crying spells at times. I don't trust men. I fear having to have hysterectomy.
8. Based on your experiences, what would you tell a woman considering an abortion? Choose life. Abortion is a lie - it is not a blob of tissue - it is a baby with a soul. Abortion will affect you for the rest of your life. You can never forget it - that you have murdered God's creation.
9. Based on your own experience, what would you tell a court that believes abortion should be legal? It shouldn't be legal. Information on risks needs to be provided. Counseling provided. Records maintained - Law mandates my dentist keep all my records (2) shredded my records - the killing of a life scraped from my womb. The Abortion Industry is full of liberal, money grabbing sick people who lie and hurt women and children.

AFFIDAVIT

To be filled out by women who have had an abortion.

The State of FLORIDA

County of PINELLAS

BEFORE ME, the undersigned authority, on this day personally appeared LINDA P. DANIELS (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: December
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I WAS ADEQUATELY INFORMED OF THE PHYSICAL NATURE & CONSEQUENCES BUT NONE OF THE EMOTIONAL CONSEQUENCES WERE ADDRESSED.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? NO If so, who? _____

5) How has your abortion affected you? I HAD NO PHYSICAL COMPLICATIONS BUT HAD TREMENDOUS EMOTIONAL AND SPIRITUAL IMPACT. MY "SILENT" DECISION TO ABORT CAUSED ME TO BURY AND CLOSE OFF PART OF MY HEART. I WOULD NOT ALLOW MYSELF TO EXPERIENCE GRIEF, REGRET, REMORSE OR CONCERN OVER MY DECISION AND ACTIONS. IN REPRESSING THESE EMOTIONS I BLOCKED OTHER EMOTIONS AND ALLOWED MYSELF TO BECOME MARGINAL. MY SELF-ESTEEM ALSO SUFFERED TREMENDOUSLY.

6) How has your abortion affected others in your life? MY HUSBAND HAD A DIFFICULT TIME WITH MY PAIN AND ULTIMATE HEALING BUT WE FORTUNATELY HAVE COME TO A BETTER PLACE.

7) Based on your own experiences, what would you tell a woman considering an abortion? TO BE OPEN AND HONEST WITH THOSE WHO LOVE AND CARE FOR HER. TO SEEK ALL INFORMATION AND ALLOW YOURSELF TO BE OPEN TO THE TRUTH OF THE INFORMATION. UNDERSTAND THAT IT IMPACTS PHYSICALLY, EMOTIONALLY & SPIRITUALLY.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? LOOK AT THE TRUTH ... LIFE BEGINS AT CONCEPTION AND TRYING TO IDENTIFY AN "OK" PLACE TO END LIFE IS POINTLESS. THE LAW SHOULD PROVIDE ALL WOMEN WITH TRUTHFUL INFORMATION, HAVING NOTHING AND ALLOWING AN UNDERSTANDING OF THE "TOTAL" IMPACT AN ABORTION WILL HAVE ON A WOMAN, THE FATHER AND THE BABY.

"I have read the above and foregoing statement and the same is true and correct."

BEFORE ME, the undersigned authority, on this day personally appeared [Redacted] (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: July 1972 & January 1973 in New York City, NY
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? NO If not, explain: I had asked many times what my baby looked like and they told me it was just tissue and that my child would not experience any pain.
- 3) Were you adequately informed of the consequences of abortion? Absolutely not.
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? No, but my own mother did at age 35 and died at age 46.
- 5) Did anyone pressure you into having an abortion? Yes If so, who? Both of the fathers of my children.
- 6) How has your abortion affected you? When I found out the truth in about 1985 I went into volunteer work at a crisis pregnancy center near me. I have been there ever since and have counseled hundreds of girls and young men not to make the same mistake I did.
- 7) How has your abortion affected others in your life? I regret very much not telling my father the truth when I was pregnant. I couldn't live with myself and when I finally did tell him, he just wept because he would have helped me.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Never to destroy the precious miracle of life that God has blessed her womb with. Someday in the future she will long to hold that child and love that child and would be too late if she killed him or her.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? The courts should view in person or on film one real abortion... Abortion is murder and it is against the most defenseless of all of God's creations.

"I have read the above and foregoing statement and the same is true and correct."

I didn't understand why I was feeling this way. We lost a baby at 31 1/2 weeks due to an incompetent cervix. That is a complication that no one wants to acknowledge. I have had a few doctors say yes it is a result and to it isn't a result of the abortion, I never had a doctor explain fully & I should have.
- 7) How has your abortion affected others in your life? Caused great sadness & regret
- 8) Based upon your experience, what would you tell a woman considering abortion? Not to do it - It's a life there are risks & complications. We still don't have children

This procedure is cruel & inhumane. We saw turtle eggs, the spotted ovals & every other living creature and yet 6 members of our society want to kill the life of the unborn child.

BEFORE ME, the undersigned authority, on this day personally appeared Karen D. Burdeshaw (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: June 1973 / December 1985 Atlanta, Georgia
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? absolutely not - the only counseling I received was pertaining to birth control.
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? No If so, who? _____
- 5) How has your abortion affected you? I have an incompetent cervix because of my multiple abortions. Therefore every pregnancy I have is considered high-risk and I have to undergo a risky surgery (cerclage) to maintain the pregnancy. The emotional scars led me down a path of darkness into drinking and drug-use trying to escape the pain of shame, guilt, unending grief and sorrow. I found healing through God's word at a post-abortion Bible study and now have the privilege of leading this class and watching God restore life.
- 6) How has your abortion affected others in your life? The pain and consequences of abortion ooze out onto all those who are in our life: my parents, my husband, my 3 living children, my sisters, my grandmother are all affected in some way.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? In an abortion, there are 2 deaths: the mother and the child. She may think an abortion is a quick fix to a temporary problem but it will only compound problems in her life. Every child is a gift from God - even if it means blessing someone else through adoption. Sacrifice 9 months
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? of your life to save it and the life of your child. You'll be glad you did.

For many years, I believed the lie that I had aborted a blob of tissue and not my child. When God revealed the truth to me, I humbled myself and sought repentance. The truth has been revealed to our nation through ultrasound and testimonies such as mine. I pray our nation will be humbled and try to right their wrong.

I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true: I had an abortion Feb. 1991 I was 26 years old I was told that my baby was just tissue. Since that day I have never been the same. I feel a big empty space. I cannot fill. I mourn for my baby every day. I cry when I see baby girls. I always wanted a baby girl, but have not had another since my abortion. I do have a son who I love so much. I feel I was given one baby girl and I killed her. When I see on the news how parents kill their children. I say I could never do that. But than the reminder of my abortion comes back to me and I start to cry again. It's been hard for any one to get close to me. If I had it to do over again I would of kept my baby girl. I have been yearn for a baby girl since. Through prayer and God's forgiveness I can smile again. But the memory of my baby is always there to remind me of what I did.

BEFORE ME, the undersigned authority, on this day personally appeared JULIE R. WESLEY, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: On or about March 1980, College Park, Maryland
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No. definitely not. I was lied to along with six to eight other young girls in the same room. We were taken into a small room and shown pictures of the outside of a fetal sack and told they would be removing a "small amount of tissue much like a tumor."
- 3) Were you adequately informed of the consequences of abortion? Not one word was said about any consequences besides cramping and bleeding.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No. No.
- 5) Did anyone pressure you into having an abortion? If so, who? Yes. All my friends and my boyfriend who is my husband of 18 years and he is now deeply regretful of his part in our child's death.
- 6) How has your abortion affected you? Right after my abortion a deep feeling of hate and anger towards all who were involved including myself came over me. Then a feeling of separation from my body. One month later I had a nervous breakdown and I had a drug and alcohol abuse which I almost died from and to this day a deep feeling of loss and regret.
- 7) How has your abortion affected others in your life? My husband when asked how many children he has, counts our first child and tells them we have ten children. My children frequently ask about their oldest sibling. There is a void in all of our lives, even my mother.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? I would tell any woman considering abortion to please not do it. I would tell her my emotional torment. I would also tell her I know women who have never been able to have children because of the damage done because of abortion.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would say abortionists know they are taking the life of a baby. In the middle of my abortion the doctor yelled at the nurses these exact words: "How far along is she? This baby is fighting me." I had an abortion because of peer pressure but the consequences for me, the pain and loss I feel, will never go away.

No If not, explain: I was 19 yrs old I was confused, I was in college, the person I was with stated there was no choice, but to take care of this situation this way. He'll pay, and it will be over. No, conference with anyone particular, just arrived, went in, it was over. I was devastated.
- 3) Were you adequately informed of the consequences of abortion? Never. I was doing the right thing, I was told. Never told me I would regret this someday, or I might have emotional problems, or abnormal pap smears etc. essentially having the top of my cervix scraped off.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No, thank God.
- 5) Did anyone pressure you into having an abortion? _____ If so, who? I can not answer that family - as it appeared at the time, it was the only answer at hand. - The second someone did try to discourage my decision, I was still confused, unsure, didn't know God!
- 6) How has your abortion affected you? Over time, I surprised it. Guilty, depression, lonely, I try to block it out, although the adversary had dominion over my mind as well as my body, in those days. I am free from its bondage and affliction. Do not murder your child - I feel the real truth - should be spoken - even tho it may hurt, the hurt of the abortion lasts so much longer - especially when you don't know God - and His LAWS! Not to mention the emotional trauma over the years - which effects ones everyday life
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? That if they keep supporting it they will see Hell eternal. I am a sinner of the Father's heart - and that I stated is the spiritual truth. As far as - Man - earthly / fleshy. Speaking they are supporting murder, conspiracy, each woman that aborts their child, they might as well carry the knife themselves! - Amen

AFFIDAVIT

To be filled out by women who have had an abortion.

The State of FLORIDA

County of DUVAL

BEFORE ME, the undersigned authority, on this day personally appeared [Redacted] (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: April 1977, Pensacola, Florida
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? No If not, explain: I was a teenager. I was told it was not a big deal. After it was over I was showed the glass jar with the remains & asked if that looked like a baby.
- 3) Were you adequately informed of the consequences of abortion? No, I was told at my age of 15, I was better off to have the abortion than a baby.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? Yes If so, who? My parents. My father told me either do it, or be put on the street. The doctor that did it really pressured me to sign even though I was protesting.
- 6) How has your abortion affected you? I really wanted & begged to have my baby & give it up for abortion. I have felt like a murderer for 25 yrs. I am bipolar & when I get depressed I remember & feel guilty. I feel like aphanic knowing my oldest child is not really my 1st like he thinks.
- 7) How has your abortion affected others in your life? When I get upset it affects my family. My parents have never mentioned it as if it never happened. I lost contact w/ the father but he was upset too.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Please do not do it. You are carrying a child; a part of you. Psychologically you will be hurt. Physically you can damage your cervix, something could happen later & this might be your last chance for a child. This is permanent.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion should not be legal. Killing a person for convenience is not or never will be okay. Going against nature always causes negative consequences. Abortionists abuse their knowledge & women can make very serious irreversible decisions under duress.

"I have read the above and foregoing statement and the same is true and correct."

AFFIDAVIT

To be completed by women who have had abortions

The State of Florida
County of Volusia DOTS - Uccie

BEFORE ME, the undersigned authority, on this day appeared [Redacted] who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

- 1) When and where did your abortion occur? 1977 Key West
- 2) Were you adequately informed, of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: Through general information I knew it ended pregnancy, but no one - not my college advisor, not the doctor - ever addressed anything about the abortion. It was just another procedure.
- 3) Were you adequately informed of the consequences of abortion? No. no information was ever given to me.
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? the baby's father
- 6) How has abortion affected you? I took nearly 30 years for me to come to terms with aborting my baby. Only God knows how grateful I am to Him for putting me in a place - emotional and geographically - where I could finally receive His forgiveness, and be able to forgive myself. For most of those many years, shame and sadness were my hidden companions. When my children got older, I was fearful they would somehow find out. As of this writing they still don't know but the Lord is directing me to tell them this year.
- 7) How has your abortion affected others in your life? They don't know, except my husband. At the time of the abortion, he wasn't saved, but a couple of yrs later came to faith in Christ.
- 8) Based upon your experience, what would you tell a woman considering abortion? Learn from other people's experiences! Listen to those who have aborted and believe them. There are viable options.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Believing themselves to be wise, they became fools. Pride comes before a fall. Be not deceived for God is not mocked - you'll reap what you sow. Be afraid - there is Someone bigger than you and He will require an accounting from you.

- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: They do not explain the psychological problems after. They didn't also explain that it breaks the child into pieces which they reconstruct after to make sure all the child was extracted.
- 3) Were you adequately informed of the consequences of abortion? No, They did not explain that I may become heavily depressed.
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? My parents
- 6) How has abortion affected you? low self-esteem, dep clinical depression, withdrawal from children, guilt, anger towards parents, problems with men, and inward punishment. I treat myself as I don't deserve anything good/positive because of killing 2 of my children. I had a lot of negative thoughts including suicidal thoughts.
- 7) How has your abortion affected others in your life? My younger sister hates me for killing her niece(s) or nephew(s). The father regrets allowing it.
- 8) Based upon your experience, what would you tell a woman considering abortion? Consider that the child is innocent no matter the circumstances. The physical pain is temporary and the emotional pain is permanent.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I understand that the courts are trying to please the majority, but there is a moral obligation to preserve the innocence of all-born & unborn. Abortion is a form of murder - it ceases the life that has already started. Murder is already illegal and abortion should be punished as such.

The State of Florida

AFFIDAVIT

County of Broward

BEFORE ME, the undersigned authority, on this day personally appeared M. R. S. (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:"

1. Tell when and where your abortion occurred: Newark, New Jersey Spring 1975
2. Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No - I asked about the baby and was told it was just a clump of blood vessels + that I should act quickly before there was any baby. They told me it was a simple procedure w/ a little cramping + tugging - It was excruciating + I screamed for them to stop - No one ever told me the little baby was already perfectly formed.
3. Were you adequately informed of the consequences of abortion? - NOT AT ALL - They said my life would go on as before. / Everything changed - I changed / No one warned me about the depression, regret, shame, anger, change in relationships + abandonment of goals that followed
4. Were you informed of any link between abortion and breast cancer? NO
Have you had breast cancer? No - but am having tests right now
5. Did anyone pressure you into having an abortion? The planned parenthood counselor reinforced all my fears - even added to them - she said pregnancy was riskier than abortion - No one else pressured
If so, who? me - I was afraid to tell my mom who probably would have opposed abortion - my boyfriend seemed neutral but years later let me know that he didn't want the abortion either
6. How has your abortion affected you? my life spiraled downward - I was very depressed - considered ~~suicide~~ suicide - Sharp drop in grades, lost sight of my goals, tried drugs + alcohol to forget later. Difficulty w/ relationships, trust in marriage, trouble handling w/ my children - Anger towards ~~at least 2 med drs~~ ^{them for no reason}
7. How has your abortion affected others in your life? The relationship w/ the father turned abusive and unhealthy - I am not the same person I was before the abortion so every relationship has suffered
8. Based on your experiences, what would you tell a woman considering an abortion? Don't do it. All of the reasons I chose abortion seem so insignificant now - But the sorrow and regret never diminish. Every woman (and man w/ her) should be shown a picture of their unborn baby - + encouraged to ~~long~~ consider all the available options -
9. Based on your own experience, what would you tell a court that believes abortion should be legal? I think abortion should be illegal, just like suicide is illegal. Our laws should protect us from self-destructive acts. The law should protect all people - especially the very young + unborn. No one should be allowed to profit by preying on the fears of others who are in vulnerable situations and need help. I needed encouragement + guidance. I did not need an abortion.

- 1) Tell approximately when and where your abortion occurred: N.F.L. Women's Health + Counseling 1990, 1992 + 1993.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I was told it would take 20 minutes and we'd be done and it would be all over. They asked me if I wanted counseling - of course I refused because I didn't want anyone in my business"
- 3) Were you informed of any link between abortion and breast cancer? don't know Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? somewhat If so, who? Boyfriend wanted it. More than being pressured into it, I was not discouraged by anyone. It was acceptable by everyone and easily available.
- 5) How has your abortion affected you? I regret the loss of my children. I wish I could have experienced the joy of my children when I was first blessed with them. I learned to value life when it became necessary to instill values in my growing children that I did not abort.
It is much like not knowing I could rise to the occasion until there was not another choice. A person cannot adequately grow in character without challenges to overcome.
- 6) How has your abortion affected others in your life? I do not know - as it is the secret I live with and it is not a topic that is ever brought up with others who do know.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? The regret of killing your unborn children will remain with you always, much like the challenges of rearing your living children will face you every day - only regret is empty and dark and challenges inspire to grow and change for better.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? If the desired outcome of ~~whether to keep abortion legal~~ is to increase the value of human life, to reduce child abuse, to support family unity and to educate (young) adults to practice abstinence for better physical, emotional AND spiritual health, abortion should not be legal + therefore an unavailable option.

- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her that her decision to have an abortion will affect her the rest of her life. She will, until the day she dies, wonder what her child would have been like. Abortion is NOT just a quick fix!
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? The Bible condemns all forms of murder. Thou shalt not kill, including the life of an unborn innocent child. God will certainly judge all doctors and anyone else involved in the practice of abortion. They will be cast into the Lake of Fire, to burn forever!

- How has abortion affected you? For twenty-eight years, I have mourned, gone thru threatened depression around Victoria's birthdate, became angry as the years passed, my sleep pattern changed, in up & down all night I became promiscuous, in & out of relationships, choosing men beneath my standards to make myself feel better, tho I love people over the years I became more anti-social, as I ~~was~~ felt like I wasn't good enough to be around others, I would start educating classes & never complete them, felt like people were trying to get to close to my personal life, I've given my life to Christ, and I'm now in counseling.
- How has your abortion affected others in your life? My only friends that knew about it, told me I had quit trips so I'dn't have time for me.
- Based upon your experience, what would you tell a woman considering abortion? There are other alternatives. Adoption for one. God has a purpose for us all. He created life, we do not have the right to murder. It is a piece of tissue as you may have been told.
- Based on your own experience, what would you tell a court that believes abortion should be legal? For those of you that have children, have you ever seen the ultra sound pictures, felt that excitement when you first felt it move. As early as 5 wks, I've seen heartbeats of "babies" growing in their mother's womb. Could you let someone kill your child or grandchild? It's a live baby - created by God. Get them live!!!

- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: No one explained fetal development.

- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? _____
- 6) How has abortion affected you? It is the single greatest regret of my life. I married the father 5 years later and we had 3 more children. We have been married for 27 years and we should have had 4 children. Our child should not have paid with its life for the choice we made to have sex.
I think about my oldest child and what he/she might be like. I have had to live with the guilt that I chose to allow my own child to be killed while in my own womb! ~~It is believed~~ It is believed she lie that abortin would help me. It did not.
- 7) How has your abortion affected others in your life? my children know about it and think of it as a loss.
- 8) Based upon your experience, what would you tell a woman considering abortion? Abortion is not an answer to an unwanted pregnancy. If you can't parent, you should think of adoption as a parenting option. Your child should not die because of your poor choices.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? A child is not a part of a woman's body. It has a different blood type, may be a different sex. Abortion is death to a human being. It is illegal to bring death to a human being. We should not be allowed to kill a human being just because it is inside our body.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 1994, Miami, Florida
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No - not anything about any emotional harm; just minor cramps and I was given birth control pills when I left, so I let it rest and call it I had severe cramps or bleeding.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? Yes If so, who? Parents, sister.
My father gave me an ultimatum.
- 5) How has your abortion affected you? I was in denial for about 6 years. In those 6 years I suffered a deep depression, had fits of rage for reasons that I thought were due to a crisis I had w/ my child. After that was dealt with, the pain, anger + depression continued. I had nightmares, and could not deal with any emotions. When I finally acknowledged that the abortion was wrong, the guilt came and it was horrible. For years I lived with the guilt, anger + sadness that I destroyed my baby's life.
- 6) How has your abortion affected others in your life? It affected my marriage, and my son because of all the emotion that I had misplaced + it lashed out at them.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? That it may seem to be the only way but listen to your own heart, if you feel like or think that it will be over after the procedure that is inaccurate. The pain (emotional) is going to be much worse than any other feeling you could even imagine and it will haunt you until you realize that you killed your baby and even after that.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? If the concern is of a woman's right then be informed a woman should be told of the horrible consequences of an abortion, and it shouldn't be a woman's right to kill her child, it is her child, right? Well, does that same woman have a right to kill her baby when it's not in the womb? It's her body? Well, the baby is a separate life, therefore it is not the woman's right. We need to stop lying to women/the world and tell of the after effects of abortion. A woman is hurting herself when having an abortion. Suicide is illegal and why? Doesn't the person have a "Choose" with abortion? Your ending a life and destroying another. The woman's!

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: Sept. 1990 in Atlanta, Georgia
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? NO If not, explain: I did not see the doctor until the actual procedure. He explained / said nothing to me before or after. I was not informed of any risks physical / emotional. I definitely was uninformed, re: the process of conception - life.
- 3) Were you adequately informed of the consequences of abortion? NO. Especially not of the devastating emotional effects that would rob me of my self-esteem, happiness, and ability to cope.
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? NO If so, who? _____
- 6) How has your abortion affected you? Since that day, I have felt as if a heavy black cloud has haunted my thoughts, my dreams, my life. I could not forgive myself and have always regretted my decision
- 7) How has your abortion affected others in your life? They have been affected by my attitudes towards them and the distance. I've imparted etc of my abortion
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Resist the urge, no matter how strong, to make a hasty decision. Your life will NOT be "better" or "easier" after an abortion. Stop, think, and get informed. There are risks and definite consequences that will be lifelong.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Realize that the legality of abortion allows ~~the~~ life or death decisions to be made, by emotionally distraught women in very fragile state of minds. We have women everywhere in unstable, uninformed conditions taking the lives of their own children on a daily basis. How can we allow anyone to make such a decision? Abortion should not be an option.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 1st Abortion - my parents put me on a plane by myself and sent me to a Women's Clinic in New York
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? not really, only that I would be put to sleep, because of being 16 weeks - and that it wouldn't feel anything but maybe cramps, like a period.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? yes If so, who? My parents made me - they were so mad about what people would think, they had said by Rosalind it was back (I am white), they said I could give it up for adoption, but couldn't stay
- 6) How has your abortion affected you? If it weren't for the blood of Christ pouring out what I have done... I would be insane with sorrow & regret. "The world" "puts you to sleep" by saying the baby isn't real that "the life in you" is just tissue - THIS IS SUCH A LIE

- 7) How has your abortion affected others in your life? It made me almost hate my Mother. She was the one who was so adamant about me getting rid of the evidence. Saying... I was a whore & slut
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Life IS A GIFT, not everyone can get pregnant - THANK GOD, my Mary didn't think about aborting Jesus - or we would all be lost - I thank God Joseph believed in God through out to worry what people thought.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? We must have reverence for life. It is God breathed. I am reminded when King Herod decreed all children under the age of 2 be killed for he was in fear of "the King" who was to be born - Now... we are trying to destroy the prophets before they are born!!!

AFFIDAVIT

To be filled out by women who have had an abortion.

The State of Florida *was removed*
County of Lake Sumter

P.S. On a positive note, "what man intended for evil, God used for good." Since 1989, I've volunteered at the Pregnancy Care Center in Leesburg, FL. This past November, I became the Director. I also do post-abortion counseling.

BEFORE ME, the undersigned authority, on this day personally appeared Wanda Kahn (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: Family Planning Clinic, Clearwater FL *(Not exact name)*
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? Not sure, not, explain:
(1977) I was 17 then I'm 42 now, don't remember a whole lot. I don't think I had much explanation, except for the "suction" part & they explained about the shot it would get in my pelvic.
- 3) Were you adequately informed of the consequences of abortion? No *-Not of my baby's development or of possible emotional problems and physical risks (that I can remember)*
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? No If so, who? _____
- 6) How has your abortion affected you? Promiscuity, low self esteem. I never did have any other children, not directly because of my abortion but indirectly (eventual marriage, etc). It "hardened" me.
- 7) How has your abortion affected others in your life? My husband (my marriage) because of the wrong I had done in my life it drove me away from my 1st husband (father of my aborted baby) so there was a wall between us soon (I present husband) - affected (adversely) our sex life. *(first & second)*
- 8) Based on your own experiences, what would you tell a woman considering an abortion? it's not a "quick fix". It won't ever be "right" b/c it's totally against God's will. God can't forgive if you repent but there are still some severe consequences to pay. Even though it may seem harder, make a life giving decision for your baby, whether that be to protect or release your abortion. It will be worth it.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Courts should not have legalized abortion (the taking of a life). It goes against all that a court should represent... protection for the innocent. They have become wise in their own eyes (proverbs) That is a very scary position for them to be in. We made the mistake once & the very, how could we make the same mistake a second time.

- 1) When and where did your abortion occur? In 1997 at a clinic in Tampa, Florida
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: It was never explained to me that at 21 days my child's heart had begun to beat or that I may have an increased chance of breast cancer due to my choice.

- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? _____
- 6) How has abortion affected you? For years my abortion decision led me down a self-destructive path even until the point of wanting to die. I went from an honor roll student in high school to a drug addict I suffered from depression, anger, guilt, regret, and denial just to name a few. It was not until I admitted that the abortion was murder that I was actually able to begin the healing process. I had to be able to grieve the loss of my unborn child in a society that had convinced me that he/she was just a piece of tissue.
- 7) How has your abortion affected others in your life? It brings sadness to those around me. Sadness for the pain I have suffered. Sadness for a grandchild, niece or nephew, that they will never know.
- 8) Based upon your experience, what would you tell a woman considering abortion? I would tell her that she will regret the decision to abort for the rest of her life. I would also tell her of the physical, emotional, spiritual, and mental anguish that would result of her abortion. I would also warn her of the physical complications she may encounter as a result: breast cancer, infertility, etc.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would tell the court that abortion is murder and that it hurts women. I would tell them that a woman's choice comes when she decides to be sexually active. The child is only the consequence of her choice. I would tell them that a child becomes more than a piece of tissue from the moment of conception.

7) How has your abortion affected others in your life? There are times when I withdraw from them and is hurtful to them, I robbed my parents of a grand child.

8) Based upon your experience, what would you tell a woman considering abortion? Don't do it. Don't take that child's right to a life away. It will effect you in ways you can never imagine.

- 1) Tell approximately when and where your abortion occurred: January 1974 - Washington D.C.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Absolutely NOT. All they said was that I'd experience "discomfort & cramping". I was told that it was "not yet a baby" and that it would "be over" in just a few minutes.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? NO If so, who? _____

5) How has your abortion affected you? I have experienced extraordinary guilt, shame, emotional pain, low self esteem, depression, sudden crying outbursts when I was reminded of the abortion, have remembered minute details about abortion, followed my aborted child's birthdays (age), suffered from extreme sorrow and sadness, regret, low self esteem, caused me to choose abusive men to have relationships with - 2 failed marriages - both abusive. Sexually withdrawn from both husbands. In my mind; sex = trouble.

6) How has your abortion affected others in your life? My husbands didn't appreciate my apathy toward sex. Oldest daughter & her husband are very active in pro-life movement. She was devastated when I told her. I haven't worked up the nerve to tell my 10-year-old yet.

7) Based on your own experiences, what would you tell a woman considering an abortion? Do anything else, but DON'T HAVE AN ABORTION! Any life choice will be a better choice. You'll regret it all your life. You don't know if you'll have any other children. Abortion has killed women physically, emotionally, mentally, & spiritually!

8) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is murder. Abortion should not be legal any more than slavery should be legal. The mother does not "own" the child she's carrying. They have different DNA. Unplanned pregnancy is not the child's fault. Parents need to take responsibility for their actions - their choices. Life begins the moment of conception & every mother knows it in her heart which is why abortion has such a devastating effect on women.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

- 1) When and where did your abortion occur? Miami Florida, 1980
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: I was given some papers to sign, but no one discussed with me the nature of the procedure, any attendant risks, or provided fetal development information
- 3) Were you adequately informed of the consequences of abortion? no - I was not told there were any potential consequences (may have been in the papers, but I was too rushed + distracted to read them)
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? _____
- 6) How has abortion affected you? In a myriad of far-reaching, unanticipated, + negative ways. My abortion led to substance abuse, depression, sexual promiscuity paradoxically accompanied by an inability to really enjoy sex or relate to others on an intimate level, unresolved anger, guilt, shame, regret, low self-esteem. I also had placenta previa in a subsequent pregnancy; the incidence of this is much higher among post-abortive women.
- 7) How has your abortion affected others in your life? my marriage in my inability to be intimate; my children by unresolved anger; my parents - their grandchild was aborted
- 8) Based upon your experience, what would you tell a woman considering abortion? that abortion is never the only choice (which I thought it was), that there are many other viable (though not easy) options, and that in the long run abortion is never the best choice for mother or baby.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? An unborn child (or fetus if you prefer) is scientifically, undeniably, both human + alive. It is simply wrong to take that life, even in very difficult circumstances. Not only is abortion not good for unborn children, it has far-reaching negative consequences for women as well. Abortion is not good for women. Some choices are wrong.

BEFORE ME, the undersigned authority, on this day appeared Toni Marzella, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

- 1) When and where did your abortion occur? 1985 - Ft. Myers, FL ; 1989 - Ft. Walton Beach, FL
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: I did not understand that the baby I was aborting already had a heartbeat.
- 3) Were you adequately informed of the consequences of abortion? No, I had no idea of the degree of psychological effects I would experience.
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? _____
- 6) How has abortion affected you? My abortions affected me by making me live for years in self-condemnation which led to me caring so little about myself that I reeled out more sexually, I abused alcohol and other drugs. I didn't believe for a long time that I deserved anything good in life. I have had numerous failed relationships with men, I believed for so long that my two abortions were my best choice but I was never explained thoroughly any other options. I feared infertility and then the first time I tried to get pregnant with my husband, I had a miscarriage - thus continued the psychological damage of the abortions.
- 7) How has your abortion affected others in your life? I kept them a secret from my husband until after we were married. Depression and sexual issues in my marriage.
- 8) Based upon your experience, what would you tell a woman considering abortion? An abortion may terminate your pregnancy but you will deal with the consequences for the rest of your life. Your baby will have a heartbeat by the time you have an abortion, you are not aborting a blob of tissue.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Most women choose to have an abortion because they are afraid and confused, out of fear and confusion I took the easy way out - thinking I was just making it all go away. If abortion wasn't such an easy option, I might have gotten support for my pregnancy and answers to my fears that would have allowed me to see other options.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: 1-30-97 Orlando Women's Center Orlando, FL
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: I knew I was killing my child. I was not, however, prepared for the physical & emotional effects that happened to me.
- 3) Were you adequately informed of the consequences of abortion? No. I would have needed to see a scale representation or photo of my child to know exactly what the consequences would be.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? I was informed. As of yet, I have not had breast cancer.
- 5) Did anyone pressure you into having an abortion? If so, who? Yes. Friends, co-workers & Dad.
- 6) How has your abortion affected you? I suffer from severe post traumatic stress disorder and can not work. I think about it daily & grieve for my lost child who was loved & wanted but aborted due to maternal illness.
- 7) How has your abortion affected others in your life? My husband is now pro-life. He is also very sad & angry. He feels that he has to make decisions for me & feels burdened by my sadness & dysfunction. My living child's mother is sad & negative.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? I would advise her to get the facts, and the truth would set her free. I would explain her emotions & demystify the crummy semantics that had been spooned to her for so long. I would tell her NOT TO DO IT. I would show her a picture of a gestating baby.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would tell them that I walked into a place with a child in my womb and came out empty & destroyed. I would say I heard my child's heartbeat, saw his/her arms & legs move, ^{in the hospital} knew she was alive & legally had her/him killed. I would tell them there are no safe abortions & that it cost one life & one lifetime of happiness. The abortionist lied to me & on my medical records & left me with an incompetent cervix.

- 1) Tell approximately when and where your abortion occurred: Colorado in 1976 & 78

- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? NO If so, who? _____

6) How has your abortion affected you? Mentally I was struggling with thoughts that I had killed my baby when I realized what I had done. Emotionally I struggled with depression for several years. Socially I struggled with personal relationships feeling that I wasn't worthy of healthy, happy friendships. For years I abused alcohol & drugs to dull the pain in my heart and mind.
I finally found complete healing in a spiritually based bible study specifically for post-abortive women.

7) How has your abortion affected others in your life? My daughter has grown up without her siblings and so every member of my family feels the loss of these children in their lives. My decision affects generations.

8) Based on your own experiences, what would you tell a woman considering an abortion? Please know that it is a life growing inside you - with a heart beat and fingers and toes - not just a clump of tissue. Nothing can change the fact that if you are pregnant you are a mommy - right now.

9) Based on your own experience, what would you tell a court that believes abortion should be legal? A child has rights from the moment of conception and we should not take those rights away. Life is so valuable and precious. How can we deny anyone life. Didn't your mother(s) choose life for you?

BEFORE ME, the undersigned authority, on this day personally appeared R [REDACTED] G [REDACTED] (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Delaware County, PA 1987 + 1989
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?
Only given basic information on the procedure. Told me to sign that I watched a video, but I didn't. I was not told of any consequences, especially emotional.
- 4) Were you informed of any link between abortion and breast cancer? No. Have you had breast cancer? _____
- 5) Did anyone pressure you into having an abortion? Yes If so, who? Director of school + peers.
- 6) How has your abortion affected you? For years afterward I suffered from unexplained guilt + shame. I could not except what I had done + I wished I could have the opportunity to change my decision. I would cry over the loss. And it is so difficult to heal because even though "Choice" is accepted, to have had an abortion is tabu. How can that be? Thankfully I finally found peace thru God's love + forgiveness.
- 7) How has your abortion affected others in your life? The father's also felt shame + guilt.
- 8) Based on your own experiences, what would you tell a woman considering an abortion?
Even though it seems like an easy out, the pain will be with you for the rest of your life.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal?
It is murder plain + simple. Without the fetus there would not be human life. No one should be allowed to murder anyone, especially out of convenience of choice. Life is valuable.

"I have read the above and foregoing statement and the same is true and correct."

BEFORE ME, the undersigned authority, on this day personally appeared Lila J. Hancock (Print Name) who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: It occurred in June, 1982 in Charlotte, N.C.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? No If not, explain: It was presented in terms of terminating the pregnancy as a form of birth control. I do not feel it was adequately presented as what it really was - ending a life. It was presented as a convenient, simple procedure - Nothing was presented about the effects of it.
- 3) Were you adequately informed of the consequences of abortion? No. There was no information given on the consequences of the abortion. No alternatives were discussed to the best of my memory.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? No If so, who? _____
- 6) How has your abortion affected you? I believe that my abortion has affected me on a daily basis for 20 yrs. in many different ways. It is the root of much sorrow, regret and depression. It is hard to adequately describe the full impact that taking an innocent life has had on my life. If it were not for the forgiveness of the Lord, I would be down a destructive road but God's grace has carried me. It is a burden that has been the most difficult to bear.
- 7) How has your abortion affected others in your life? Needless to say, we affect those closest to us. My abortion was affecting me and consequently it also affected my husband. We had only one hope - to seek the Lord and the Lord was faithful.
- 8) Based on your own experiences, what would you tell a woman considering abortion? Abortion is not a simple form of birth control. Abortion is the taking of an innocent life. It is not a decision that affects one day of your life - The decision to have an abortion will affect every day of your life in one form or another. If I had to do it over again, I would choose Life!
- 9) Based on your own experiences, what would you tell a court that believes abortion should be legal? Please, consider the truth about what abortion really is and the full impact that it has on women emotionally & physically. Also, it affects those close to women who have had abortions. For the sake of our country and future generations, please listen to the women who have experienced the pain of abortion to save greater sorrow. Abortion hurts women!

To Whom It My Concern,

My name is Cynthia A. Williamson and I Pray that you will take my Testimony and pause for a moment and consider a women in your life it may be your mother, wife, daughter, family member or friend. I had an abortion in the spring of 1988 at the Lakeland Women Clinic in Lakeland, Florida. I felt that I as women was misled and lied to as a 19 year old women. I was going thought a divorce and became pregnant and was told I would fix the problem with an abortion. I already had a 2-½ year old daughter and didn't know how I would be able to care for another child. My mother and friends reassured me along with the Lakeland Women Clinic told me my problem would be fixed with abortion. I don't feel my mother or friend misled me but I truly feel the abortion clinic knew how abortion affected other women lives. It did not know the truth about abortion. I went in and signed a release form and not sure what else at the abortion clinic and as I was signing papers I ask the lady behind the desk if the fetus was a baby and was told no it's not developed and wouldn't feel anything. I went back with her to room where I undressed from the waist down. The doctor came in ask how my day was and began the abortion. I felt some pain but I didn't hurt compared to the pain when I felt my baby soul leave my body not 1 person told me about that pain. I cried and wanted to stop but knew it was to late. I begged God to forgive me and prayed I would die. I got up and walked out trying to say everything was aright and would be back to normal. Not even one day went by and my self-destruction began. I went out and tried to drink myself to death. In weeks to come I lost what I was trying to keep the most and that was my daughter that was 2 ½ at the time to my ex-husband. I couldn't stop trying to party my hurt away. I couldn't keep a job due to depression. I was in a lot of relationships and one nightstand because I had no self-esteem after my abortion. It took me 2 year to get my daughter back from her father. But I truly have never got over taking my baby life. I feel abortion is not the answer for any women no matter how the child was conceived. It does far more harm then it could ever do good. Only by the grace of God I have came this far to sure with why I feel Abortion should not be Legal and the Row V Wade should be over turned and Abortions stopped.

Thank You, Cynthia A. Williamson

- 1) Tell when and where your abortion occurred: Approx May '80 in Knoxville, Tennessee
 - 2) Were you adequately informed of the nature of abortion, what it is, what it does? No If not, explain: I remember very little of any sort of explanation except why I was in so much pain during the procedure.
 - 3) Were you adequately informed of the consequences of abortion? No.
 - 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
 - 5) Did anyone pressure you into having an abortion? Yes If so, who? my boyfriend (now my husband)
 - 6) How has your abortion affected you? I believe that it has affected every facet of my life. I suffer w/ chronic depression + OCD. I've lived w/ a constant void in my life. I have 5 children, yet I am always longing for just one more baby. I have been in therapy - ongoing - for almost 14 years and I foresee no end to that. I know that God has forgiven my sin, but I'm not certain I've forgiven myself.
 - 7) How has your abortion affected others in your life? My abortion very much affects my husband + children. I have not forgiven my husband even though I've been through therapy + the Rachel Weekend. I am not loving, giving + affectionate w/ him. It is a strained + angry over
 - 8) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her that abortion is a very short term solution and is a selfish choice lacking in courage + virtue. I would advise her to turn to God because the life within her belongs to Him, not to her. I would direct her to the ministry offering alternative solutions to abortion + ID over
 - 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would tell them that abortion is slaughter + that only God can give life and take life. I'd explain that the focus on a woman's "choice" is irrelevant because in most cases the woman has no real concept of what she's in for emotionally, psychologically + spiritually. I'd beg them to save other women from the ongoing pain I've endured as a result of my abortion.

- ⑦ relationship. I pray for forgiveness but have been unable to come to that point. My children suffer because of my depression, OCD + the constant busyness I fill my life with. I am not there for them as I know I could / should be. I cannot have fun + be a child; I don't know how to be intimate.
- ⑧ recommend a sonogram so that she could see the life growing within her. I'd warn her of the lies of the abortion industry and I would warn her that choosing an abortion would haunt her for the rest of her life. Instead of "making the problem go away", the abortion creates a bigger problem than any woman could ever imagine. As I've written here, I'd share w/ her all of the complications, sadness + grief it has caused in my own life.

BEFORE ME, the undersigned authority, on this day personally appeared
Pamela Ann Staerker who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your abortion occurred:

January 1979, Jacksonville, Florida

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?

No, I was not informed of the emotional and spiritual consequences, or that I could possibly regret such an action.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer?

No, I was not informed about a link between abortion and breast cancer. I have not had breast cancer, but it does run in my family.

4) Did anyone pressure you into having an abortion? If so, who?

There was emotional pressure from my boyfriend. I did not tell my parents (I was barely 17 years old). Abortion without parental consent was then and still is legal in Florida.

5) How has your abortion affected you?

I was initially distraught over the abortion. I immediately wanted my baby back. My arms physically ached to hold it. I cried for a while, then I went numb. I even became fiercely pro-choice. It took twenty-four years for the pain of the abortion come back and hit me with full force. I have been deep mourning for over a year now.

I look back and see a life filled with self-hatred, self-destruction and alienation from God. I think that I have wanted to die all of my adult life. Even now with some healing I suffer from depression, grief, anxiety and physical illness. And I still miss my baby!!

6) How has your abortion affected others in your life?

My emotional state has affected every aspect of my life, but the biggest impact has been to my daughter. She had to suffer neglect and instability during my years of drug addiction and abusive relationships. Even now (she is 20 years old) she has the pain of knowing that she has a full-blooded brother that is 'no more' in this life.

Also, my Catholic mother was crushed to learn, that her daughter killed her first grandchild. There has been much pain and grief for her also.

7) Based on your own experiences, what would you tell a woman considering an abortion?

Abortion is not an easy solution to a difficult problem, it is a lie from the pit of hell. You cannot kill your own baby without killing your soul.

8) Based on your own experience, what would you tell a court that believes abortion should be legal?

Because abortion is legal, accessible and socially acceptable it fools women into believing it's a sane or even a good solution to a crisis pregnancy. This hurts women. Women were made to love and nurture their children not kill them. If a woman kills her born child, you think something is wrong with her and you put her in a mental institution or in jail. There is no difference between born and unborn to a mother's heart. Please stop this insanity in our society.

① Tell when and where your abortion occurred:

ANSWER- October 11-12, 1999. TOP GYN Ladies Center and ALBA Medical Center. I went to TOP GYN Ladies Center first, on Oct. 11, 1999. According to what they told me, they couldn't see how the baby was positioned in my uterus so they sent me on the same day (Oct. 11, 1999) to ALBA Medical Center, a center affiliated with TOP GYN Medical Center. However the abortion procedure itself was not done until October 12, 1999. The procedure itself took place at ALBA Medical Center.

Surviving Abortion

"Thou shalt not kill" was the one thing standing in my way of having an abortion. I swiftly remedied that with "If we confess our sins, He is faithful and just to forgive us our sins and to cleanse us from all unrighteousness." I could kill my unborn child, and afterward ask forgiveness. In one day my life would be back to normal. I chose abortion. Immediately afterward I asked God's forgiveness, and said that I was sorry for what I'd done, but I was only fifteen and I couldn't have done it if my mother hadn't paid for it, and I would never do it again.

The prayer became a part of my daily life, through marriage and the birth of my children, a ritual I performed without question or reason. It was with me through the years that demanded perfection, an obsession that forced me to crawl on hands and knees searching for lint that the sweeper might have missed just moments earlier. It was there during the sleepless years, when a force within myself kept me up at night while everyone slept, to make certain my perfect house remained undisturbed. It was there during the day, when the voices warned I would kill, and again at night when nightmares forced me to commit what the voices had foretold. I shunned people and blamed my husband for the voices and the nightmares. I believed I was the only sane person in the world, and I wanted to die. Twelve years after my abortion, when I was six months pregnant with our third child, I was committed to a psychiatric ward in a nearby city. I was isolated from visitors, drugged with pills and interrogated during long talking sessions. One day, my doctor brought a small doll to our session. He shoved it across the table toward me, and introduced me to my aborted child. He ordered me to yank off its arms and legs and head, because that was what I'd ordered for my unborn child. I was instantly repulsed to nausea and self hate, sobbing at the very thought that I had allowed my baby to be ripped apart alive. The ugliness and self-disgust was too horrid for words, and I wanted to fade from life itself. It was there, sitting at that table, that I was forced to claim sole responsibility for the killing of my unborn child, without the excuse of youth or my mother's involvement. The sin was mine alone, without excuse. God demanded repentance, not justification for my sin.

When I was released, the prayer didn't come with me. The voices were gone, along with the nightmares. It took two years to unlearn my fanatic drive for perfection and be totally free of pills. Many years have passed and the sight of lint on my floor can still bring instant recall to a time when I couldn't pass by it.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your abortion occurred: April 1976 at a "women's services" office in Ft. Lauderdale, Florida.

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Absolutely not, I was told the baby was a "blob" of tissue, and at 15 years old - believed it.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No, No

4) Did anyone pressure you into having an abortion? If so, who? yes, my mother

5) How has your abortion affected you?
It made me feel like a murderer so I acted out with very low self esteem. I became promiscuous and got heavily involved in drugs and alcohol.

6) How has your abortion affected others in your life? I had a very bad marriage for 4 years then divorced. My husband was the father of the baby and our relationship just blew up after the abortion - both blaming each other and hating each other for the loss.

7) Based on your own experiences, what would you tell a woman considering an abortion? Please, consider your options. God does not make mistakes. For every unwanted pregnancy there are dozens who would love to adopt your baby. Please don't make a permanent solution for just a temporary problem.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? They need to take off their blinders and see abortion as it really is - an end to a perfect life. A life that has no voice for itself and needs protection from harm - that the courts can produce.

Before me, the undersigned authority, on this day personally appeared Ashli E. McCall, (Print Name) who, being by me duly sworn, upon oath, stated the following facts:

My name is Ashli E. McCall (Print Name). My address is [REDACTED]. My telephone number and e-mail address is [REDACTED]. I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

Please return to: Texas Justice Foundation, 8122 Datapoint, Suite 812, San Antonio, TX 78229

1. How did you come to have the abortion(s) and who was involved?

I had a severe and debilitating pregnancy-related maternal illness that I thought I might just die from. Who wasn't involved?

2. Do you believe you were adequately informed about the nature of abortion, the risks, and alternatives?

yes and no. the "counselor" lied to me, and I didn't know at all about the development of my baby. but everybody knows abortion kills a baby. what I didn't know was how much pain my baby would feel. I knew how much pain and fear I was feeling. I didn't want to be sick anymore or die. it was, I thought, unbearable.

3. How would you describe your abortion(s).

I'm not really sure how to answer this question. how would I describe the loss of my child or the act of killing my child? these are two different questions.

It wasn't something I wanted to do. I tried everything my crummy OB suggested, but none of it worked and there were big complications due to medical malpractice and negligence. I killed my child at 15 weeks, so we were in the second trimester. it was surreal. what follows is an account of the actual abortion experience:

We arrived at the "clinic" at 4 pm on January 30, 1997. the protesters were there, still energized by the Roe v. Wade anniversary. I had to walk through them with my husband who didn't want me to do it but was afraid I was going to die too. they were shouting, "don't kill your baby," as if the resolve not to would make the illness go away. I was so sick it took a long time to walk to the door, so I had to endure their impassioned cries. they assumed incorrectly that our child was unwanted, that it was physically as easy for me to carry a child as the other 97% of women. we signed in and they said my husband had to take my purse back to the car. I realized they were afraid of incendiary devices or weapons or something. that made some sort of an impression on me. still, I didn't think I could do it, so I wasn't completely receiving any of it at that point. I just had to go through the motions... I think to prove to God that I would really kill my child if He wouldn't help me. at that point I really believed I was still bluffing. I relied on the highly trained counselor with the college degree in psychology to determine that I was an unfit candidate for abortion and I would waltz out the door with "oh well. at least I tried to stop the illness." but there is always the possibility that you will do the unthinkable when your arms are being twisted and you can hear it breaking into shards. this is what terrified me. as we sat there in the waiting room I noticed no one was crying but me. no one was talking at all except for one young girl who was there with her own mother. this girl chatted away on the phone with her friends citing what she was about to undertake as a minor inconvenience, already making plans for a party that weekend. a security guard of some sort decided very inappropriately to practice his stand-up act for all of us waiting to kill our children. I was horrified. I wanted to punch him in the mouth. mallock was playing on cable t.v. (which was one thing the ad in the yellow pages quoted as an asset of the abortion experience - yes, cable t.v. in the waiting room). it was an episode where a crying mother was on trial for murdering her own baby. by that time I was in a surreal dream from which I couldn't seem to wake. the irony was not lost on me. here we all were doing the very same thing but legally. again, my illness was my excuse. I was not "like" them. I wanted my baby, therefore no one could touch me.

they called my name for counseling. thank God. they would send me away and I would leave this horrible place. my heart fell to the bottom of my hollow soul when I opened the door and a girl of 17 or 18 identified herself as my counselor. all she wanted to know was what type of birth control I would be using after it was over. I was trapped. she had not saved me from myself. more importantly, she had not saved my child.

the nurse asked for a urine sample to test for pregnancy. sobbing, I believed this would be the last time the life of my child would have a chance to register. she attempted to comfort me with, "it's ok, sweetie. I got an abortion too, and I just want you to know you can always have another baby." I couldn't fathom what I was hearing. just another idiot assuming that I didn't want THIS baby, that pregnancy was physically bearable for me, that I deemed my child an inconvenience like the rest of the cruel and dim-witted women who awaited release from the responsibility that arose from their unevolved lack of sexual restraint. I wanted to tell the nurse, "but I want THIS one!" but I knew she would have no answer, so what was the point? I let her think what she wanted to think, that I was capable, that these babies she was helping to kill weren't babies. my illness was a towering throne that set me apart from everyone else.

she led me to the room, told me to get undressed, and closed the door behind her. the only thing I could see was a large absorbent pad on the table. it struck me like a baseball bat; my child's life would soon be spilled all over that pad. I could see our future soaking into the synthetic fibers. I wanted to run, but I was riveted to the spot. the pad was a magnet and I was iron filament. I couldn't move. I couldn't undress. I heard wheels squeaking outside of the room. the nurse entered with a cart that had a sonogram machine on it. when she closed the door I noticed the belfer for the first time. "sweetie, you're still dressed. I'm going to go get your husband." I couldn't talk. I could only sob saying, "I don't want to do this, I don't want to do this!" they broke policy and sent my husband back. he didn't see anything but me. he said, "please just say the word and I will take you home RIGHT NOW. please just say it." I didn't say anything. I couldn't talk at all. I could only cry, and I knew the illness would be waiting for me at home. I couldn't say I didn't want to be sick anymore. I couldn't say, "take me back to the illness," I couldn't say anything at all. and when the abortionist entered the room my husband practically ran from him.

these people are scary. they kill babies all day long. how can you not be terrified of them? you can feel it when they enter a room. what they do trails behind them like a long, slithering tail. their legacy fills the space with a black and permeating mist that chills you to the bone. but you sit there like a possum in the lights offering up your child whom you have perverted into a twisted currency with which you will buy your freedom from whatever it is that ails you.

abortionist pendergraft performed a sonogram and jerked the screen away from me as i craned my neck to see the wonder of my baby, a sight that always instilled new found energy in me to fight the disease. he made sure the image was unavailable to me. "oh!" pendergraft said pleasantly, "it's bigger than i thought. i'm going to have to charge your credit card again." it was in the pocket of my jeans. he took it again, so i paid him not once but twice to kill my child. he left taking the cart and the jar, leaving myself and the baby and the illness alone together again.

as i tried to sort out the impossible trinity (myself, the baby, the illness), the reality finally sat on me. this was going to be it. i finally knew. no more delays. no more chances. the governor's stay would not ring through. if i didn't put my clothes on and leave now, it was curtains. i sat up on the edge of the table and willed myself to leave. i imagined sending my baby's picture to pendergraft 5 months later with a nasty little written comment like, "this is who you almost killed. thank God i didn't let your murdering hands butcher us," but the illness was whispering in my ear at the same time, and i was struggling against the "five minute freedom". getting an illness like THAT is a rebirth into a life you never knew existed and never imagine you can escape. they said that what the doctors hadn't been able to do in 4 horrible months, they could do in 5 minutes. i was crying uncle and i didn't know how not to. i wanted to be well, and i tried to keep my mind's eye on the picture frame i had gotten as a gift for the baby. i kept trying to imagine myself filling it up with the image of that beautiful child. i sat there trying to come out of the dense mist, trying to follow the picture frame out of there, but i was driven to distraction with the terrible and familiar squeak of an approaching wheel.

abortionist pendergraft entered the room with the cart and a bigger belljar. i blanched. went more numb than ever. he asked, "are you ready?" in a final attempt i confided, "i don't want to do this. i love my baby and want my baby so much, but i'm sick and the doctors haven't been able to help me. i'm getting sicker, losing a pound a day, having mild hallucinations now i've lost so much weight. i'm turning yellow and my skin is coming off and i don't see how i can go on. no one is telling me anything. i don't want to kill my baby, but i don't want to be sick anymore." to his credit (or not), he said, "why don't you go home and think about it and come back on saturday?" i argued, "we drove 5 hours! if i leave i'm not getting well, and if i go i'm not coming back!" he asked me the final question as he fumbled with the syringe and the tubing that would deliver me the knock-out valium solution, "are you ready?" i was crying so hard i couldn't speak. all i could do was offer my arm and bid the illness and my child farewell.

and then i was completely out. there remains only a glimmer of my body shaking, of someone tugging on something somewhere so deep inside of me and tugging SO HARD that my whole body shook like a wet sturgeon hitting the bleeding deck of a fishing boat. just a glimmer of that like it happened or not, clouded by the permeating mist of drugs and malevolence. and then out of the pitch, a cry.

the wailing was terrible. it was enough to wake me from my deep sleep. where was the sound coming from? i opened my eyes to search it out, and only when the nurse yelled at me to "STOP IT!" did i realize the cry was coming from me. i was surprised at the autonomic nature of such a response not known for autonomy. like breathing, like the thoughtless beating of a heart, escapes the cry of a mother who has lost her child. i had never known this, and couldn't know before that anything could be like this.

the nurse was so offended by my reaction. my tears and crying disgusted and annoyed her. God forbid the people in the waiting room hear me, God doubly forbid she did. "stop crying, STOP CRYING!" she ordered roughly. she grabbed my arm and jerked me up from the table and the absorbent pad. i felt a tremendous puddle of blood and gore splash from deep inside of me onto the tile floor of that white room, and i lost consciousness in it. i woke up on the table again and pendergraft was running in to jab me with a needle full of methergine to stop the tremendous amount of bleeding. the nurse shoved a pad in my underwear and all but pushed me out the door and into the recovery room.

broken, i fell into a big white leather chair, the expensive kind that are usually so comforting. these huge puffy chairs engulf you like a mother's arms and nothing is supposed to matter there where they feed you cheese nips and hot herbal tea... and once you have graduated to one of those chairs, nothing *does* matter anymore.

another woman was moaning in one and i got mad and told the nurse she needed to get medication for this woman. i wondered how it was that i defended this woman but not my own child, and it hit me: i wasn't in pain anymore, i wasn't sick anymore. the illness left with the last shred of my child's body, just as my ob said it would. physically, i felt no pain whatsoever and never needed any pain medication at all. let me say it again, they literally ripped my 15 week old child from my womb and i felt no physical pain whatsoever. all i felt was better. the massive stone of physical illness had been lifted away from me. now i could be an advocate, a maternal caretaker once again... but oh! the person i was made to love and care for was a twisted ruined mess at the bottom of a belljar a hundred feet away.

all i had cared about in the final stages of that illness was my health. i just wanted to be well; i would deal with the rest later when i was capable of dealing with anything other than the constant torrent of extreme, respiteless physical symptoms. well that time came after "the five minute freedom" which was newly dubbed "the lifetime of sorrow". the terrible illness i suffered was as a walk in the park, a piece of cake with fluffy pink marshmallow bunnies on top compared to the lifetime of sorrow.

i walked out of the "clinic" and was acutely aware of the loud squishing sound of my blood-soaked socks. they told me not to leave town, because i was bleeding so much. i had to call them every hour from the hotel until it became apparent i was going to survive without emergency medical intervention.

on the way home the oranges hung heavy and ripe on the pregnant trees. the fields were full of a million orange teardrops i would cry for the rest of my life. they became the pregnant women who would constantly plague me with their equally ripe bellies, capable and natural like i never had the chance to be. i was the lucky 0.3%, the good girl who lived a clean life and would never ever abort her baby no matter how financially insecure or emotionally diminished, the girl with an achilles' heel that would cost someone their life.

when we arrived at the house after our bloody trip, i sat in the "hearse" for a long time. (4 years later i still despise that car and fantasize of totalling it and going along for the ride.) i was afraid that the illness was waiting for me inside of the house. i was afraid that it would reclaim me and drag me

back to the bed that i had been wired to for 9 weeks. 9 weeks of health is nothing. 9 weeks of going to work, going to the grocery store, eating, drinking, sleeping, waking and starting over each day is a mere blip on the map of time. 9 weeks being stretched on a rack is eternity. it's everlasting; there IS no light at the end of the tunnel. in 9 weeks of extreme, devastating illness, nations could rise and fall, worlds could come into creation, evolve, and pass away. when it is over, you are surprised to see familiar faces, that any of these people are still alive after so much chronic time has spun away. i was terrified of going back: the illness was such a real presence for so long that it had become a tangible entity.

finally i entered the house, and lo, the illness wasn't there at all. but i looked in all the closets (figuratively) and i wasn't there either. in fact, nothing was there in that house. everything was quiet. my insides were still. and even though i felt it immediately after the death, this was the first time i acknowledged the eerie stillness of my womb where nothing grew, my body where nothing hurt, my life where nothing lived, the Black Hole.

when a star dies it explodes into a supernova. the remains are condensed into a neutron star which is an extremely dense object. if the neutron star is just too heavy it evolves into collapse and becomes a black hole from which nothing, not even light, can escape. this is a perfect analogy for my personal experience. my shining star died, and death was so heavy as to carry with it the summation of all light in my life.

4. How did your abortion(s) affect you and others?

firstly, i had a complete nervous breakdown after it happened. this is pretty funny considering i never believed in nervous breakdowns, and thought they were for emotionally underdeveloped people who made it all up to get attention. like those swooning, collapsing nutjobs at southern baptist tent revivals on the roadside. but i had a breakdown, and it was real.

i lost my job because i couldn't function at all. i couldn't eat or sleep and i had to see a psychiatrist daily. it was on an emergency basis where i could see her more if i needed to. they medicated me with antidepressants, gave me sedatives, but they didn't even work. my grief was so vigilant that nothing could touch it. i was very close to being baker-acted (admitted into the funny farm against my will), but, comically, the hmo that kept me from getting good medical care during my pregnancy also kept me from being forcibly admitted. i couldn't pay for it, and they didn't press the issue.

4 years later i'm still not working. i think about my child daily. since then i endured two more pregnancies, because of course, i wanted my baby back and i thought maybe i would die trying anyway. the next year i miscarried on Christmas day, because i'm so lucky. "how do i live without you?" was playing on the interoffice intercom when my new ob told me the baby was dead. any little dramatic spice never fails to be added to develop the full-bodied flavor of these tragedies. there's a point where you just have to laugh. the next year i was delivered of a healthy baby boy after 7 months in bed on STRICTLY adhered to bedrest and several dashes of dramatic spice including the incompetent cervix i sustained in the second trimester abortion procedure and the distinct possibility that my son had down syndrome. (he didn't.)

i love him dearly, but i must admit that sometimes, in my darkest secret places, i do resent him for not being my first child. sometimes in those places, he seems odd to me because he was not fated, and evidently, i believe in fate. the worst thing i feel regarding our relationship is the contradiction of my extreme love for him and my emotional apathy. i.e., when he needs me the most i abandon him. i detach. when he is sick or hurt i shut off. i refuse to help him. i can't deal with him. i even become angry at him for being sick or for hurting. it is absolutely dreadful, because i know that it is senseless and cruel and i do not have the desire to be this way. i absolutely know better, but i continue to persist nonetheless. sometimes i can comfort him, but it's not a consistent thing. i think i could abuse him in a blind rage if i wasn't so mindfully aware of it. i think that's why i shut off. because i know that abuse is less acceptable than even shutting off. my anger at the injustice of what has happened has reached substantial proportions. and to live in a society that sanctifies and promotes it perpetuates my madness. a hairy woman waves a flag and another baby dies as i type this sentence. it doesn't help to heal me.

i'm nasty to my husband. i can't tolerate him. i actually hate him for his involvement or lack thereof. i hate him for not dragging me out of there before i could slaughter our child. i hate him for not threatening divorce if i went through with it. i know that he was scared i was going to die, i (underlined) was scared i was going to die, but it doesn't matter after the fact. i hate him, and if you knew me you would know that that will not go away because i want it to or because "Jesus can heal it." give me a break already.

i am not the weepy little girl who doesn't want to have a baby. i am the woman, the wife, who wants nothing more THAN a baby and who gets hit with a devastating illness that causes me to kill my own child to escape. though the weepy little girl and i have one thing in common, commissioning the deaths of our children, we are different animals. her process of grief is one thing. she is tied to her child by guilt. i am tied to my child by love. she wanted to lose her child and she wants to lose her guilt. she craves an end to that terrible relationship. she'll see them in heaven and that's consolation. i wanted my child and i want to keep my love. like any grieving mother who loses her child, i grieve on and on. a picture of heaven means nothing to me now. Jesus isn't going to heal it for me anymore than He is going to heal it for the mother down the street whose 16 year old son got shot and killed when someone was trying to break into his car. our children are dead and they died horrible deaths and it is all-consuming. that i commissioned the death is just a significant complication.

i could go on and on. yes, i've been seeing a counselor for a while now. i've got ptsd and we're supposedly working on that if there is such a thing (as being able to work on it). i'm emotionally crippled, and i could care less about my life. i have little motivation and my son is being cheated of the intelligent, happy, funny, healthy mommy that he deserves, that i could have been. i regret not dying in the puddle of blood that soaked my socks, and this is not good for any of my relationships or anyone involved in a relationship with me. abandoning my family is something i think about often but, like suicide, will never do because i know better.

i have become obsessed with educating myself and others on the topic of abortion in an effort to expose it and stop it. i'm a grassroots activist and i always have been. it's hard for me not to throw myself into an effort fully and passionately. this has caused a rift between friends and family who

believe that abortion is just a positive, feminist, personal right and of course have never lost a child in one. and by rift, I mean, i have cut them completely off for the most part. i do so and never look back. i can't stand their ignorance or cruelty or stupidity in refusing to hear my case objectively. i can't stand their contradictory convictions, i.e., they say they can't stand partial birth abortion and then go and vote for gore, for God's sake. it is not my job to inflict myself with friends like these, when this is such a delicate issue for me. so, they have received an injustice because they have no opportunity to learn from me. but as we've seen in the past, one of us will suffer either way, and it's not going to be me, now is it?

believe me, i'm not proud of any of this. ANY of it. but you deserve to know because you cared to ask. will a popular, powerful group care about us ever? will our voices ever be louder than the pseudo-feminist pro-abortion groups full of inconceivable women... and men? or will we always remain the ashamed women who hide what we have done from a society who advocates "choice" but hates us when we've actually made one? or are we doomed to be the cliché of the woman who aborts her baby, regrets it and is ever after deemed a tragic nutbag if she dares to speak out? that's the niche i seem to have fallen in. talk about being damned.

5. Please describe what you have done to deal with your abortion(s), and did it help?

i'm doing one thing now. also, i read literature, educate myself, others, i worked with the republican campaign to promote bush, left flyers on windshields, spoke to strangers/friends/family on the subject, put out road signs, etc., i have spoken at anti-abortion functions and have volunteered for the local crisis pregnancy center, i make donations to anti-abortion groups, i am helping to start a right to life chapter in my county, i have posted my story where i can on the net, have a website and am writing a book. i had my baby's sonogram interred with my parents in their mausoleum, i keep a diary to my child, did the project rachel thing and some other religiously based post-abortion healing effort endeavor, had memorial jewelry made that i could wear at all times, made a "grave site" in the woods where i buried my baby's belongings only to dig them up in the middle of a rainstorm 6 months later, made donations to charity in his/her name, sent a bootie to the tree of life effort, and i offer phone and research support to other women with the illness. also, i helped a woman cancel her abortion appointment and manage the illness with research and ob support which resulted in my being present for her daughter's birth 6 months later. these are the things i do. the only thing that has really helped is actively helping that woman (and her husband) avoid the unbelievable pain and sorrow that we suffered, and helping her child live and not die in an abortion like my child did. that accomplishment is tinged with sadness however, because the mother supports abortion and voted for partial birth abortion this past election with her child in her arms. of course, i withdrew from the relationship. but the sad, disgusting truth is, if my child had survived i would have probably advocated and voted for the same thing. if it doesn't happen to you, you don't know and you don't have to deal with it. you eat up the bill of goods they are selling because it sounds good and doesn't really concern you. you get to keep your wild misconceptions and promote them misguidedly. you get to help other people completely destroy their lives, and you never have to feel any of it yourself. they die and cry and you are at a department store picking out new drapes with your N.O.W. button pinned to your lapel. apparently, this is the human condition and why abortion is so insidious and seemingly unstoppable. if everyone has to kill their own baby to understand that killing any baby is a terrible, terrible poverty, then God help us all by steering a sizable comet this way.

6. How do you think your abortion(s) changed your life?

in every conceivable way, as i'm sure you've come to know. i am worse for wear quite obviously. not only did the abortion harm me physically (incompetent cervix), it annihilated me emotionally; maternally, i'm a greasy spot on the asphalt. spiritually, which i have purposefully neglected to really touch upon... God is a black hole. *i am paranoid, angry & distrustful.* After I received my "medical" records from Pendergraft I was shocked to learn he lied right there in paper, in black & white with his speedy signature attached. He said I didn't bleed more than a scant amount & that it lasted for less than 20 minutes (when in fact it lasted for MONTHS). He lied on my records, lied to my face (when he said my child wouldn't feel being ripped apart by D&E), his counselor lied to me when she said my baby weighed less than an ounce & so wasn't developed, & his nurse, India, lied to me about the "procedure" when she said a D&C is the same as a D&E at 15 weeks. The entire ordeal was a tapestry of lies. They're not the only liars in the abortion experience. Society lies when they portray abortion as an acceptable alternative & the government lies when they say killing innocent children is legal lawful. Our forefathers made provisions for unborn children when they stated all human beings have certain unalienable rights and that among those rights is Life. Abortion is a lie & in the words of Abraham Lincoln "No one has the right to choose to do what is wrong." As I write, ~~as~~ a gestating child writhes in agony & a mother's heart is broken forever. My child & I were not the last. The legion of death & sorrow grows. Sheer madness.

I have read the above and foregoing statement and the same is true and correct.

LOW SELF ESTEEM FELT REJECTION (THEN & INTO THE FUTURE)

8) Based on your own experience, what would you tell a court that believes abortion should be legal? That there should be no discussion on if abortion should be legal or not. They should first look at what it is they are saying we should abort. We should be able to show them in a caring way that these are babies not yet grown up, that we are killing. Then of course I would share my painful experience of my abortion and tell of how I thought it was OK to abort, then tell the truth of how I took my own child's life and how I live w/ that all the rest of my days.

TESTIMONY OF VICKI HUDSON:

AFFIDAVIT

The State of Florida §
 §
County of Martin §

Before me, the undersigned authority on this day personally appeared VICKI HUDSON, who, being by me duly sworn, upon oath stated the following facts:

My name is VICKI HUDSON. [REDACTED] I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

It was the fall of 1971, I was sixteen and one-half and in my junior year of high school. I attended high school in Louisville, Kentucky. I was on the honor roll and in the National Beta Club. I was co-captain of our track team. I was and always have been an over-achiever, in school and in my career. My parents were hardworking, honest people. They strived to obtain all the material possessions the world had to offer.

I had been dating this guy for about a year. We had sex one or two times when I found that I was getting morning sickness. I was not really sure what was happening to me, but I suspected I might be pregnant because I missed my period. My mother caught me throwing up one morning and insisted that I go to the doctor. As the doctor was examining me, he asked if there was a possibility that I was pregnant. I lied at first, but he kept on pressing me and finally I admitted that it was a possibility. My mother was in the room and I remember her face to this day. It was a look of hurt and disappointment. I was devastated. All my life I had sought the approval of people, especially my parents. Now, I had disappointed the two people who meant the most to me in life.

Now at this time (1971), abortions were illegal in Kentucky, but not in New York. I really don't remember anyone talking about any other options. The doctor immediately started talking about abortions, as if this was the only option. The only thing I remember him telling us is that we needed to make a decision quick, because in two weeks another, more complicated procedure would need to be done. My understanding was that anything less than six weeks pregnant, they would use a suction procedure and would not have to scrape the uterus. The doctor provided my mother with a phone number to arrange an abortion in New York.

My mother told my father when he got home from work and his reaction was the same as my mother's – hurt and disappointed with an added dimension of anger. The guilt of not being the "perfect" daughter anymore was unbearable – little did I know at the time that this guilt was nothing compared to the guilt I would soon be feeling. I never told my boyfriend. I called him the night I got home from the doctor and told him I never wanted to see him again.

There never was a doubt what was to be done. At the time, this seemed an easy decision. But why would such a decision be so easy? I pondered this question many times after my abortion. After close self-exploration, I found that there were three main reasons that contributed to this "wrong" decision. The first reason revolves around the foundation of my family's morals and values. My family had no real religious foundation to speak of; at best we were agnostic. The only time we really attended church was at Easter and that was when I was very young. I don't really remember much about this experience except that it was a time I got new clothes and it meant a trip out to the country to attend my grandmother's church. So, although we were a "good" family, there were no real consequences for immoral or unethical decisions. If you make a bad decision, you just chalk it up to a learning experience and go on – little did I know at the time that this decision would not let go of my conscience and would haunt me for the next thirty years.

The second reason stems from our public educational system. I don't think we realize as a nation, the influence that educational system has on young minds and how it develops our views on life. We were taught sex education, but it was a "cold" course about the reproduction organs and never really talked about the human life that began at conception. I figured I was about four weeks pregnant and really didn't think of this organism inside of me as a human life. Little did I know at the time that at 18 days after conception my baby had a heart beat and at 5 ½ weeks my baby would have brain activity – what else would be needed to make this organism inside of me a living being? Also, we were taught evolution. Evolution was taught in science class as fact – I had no doubt that this was true because my science teacher taught it as if it were true. Teachers never mention that this is purely theory and not based on any scientific proof and no other option such as creationism is even mentioned. In my mind, if evolution was true, human life had no real purpose – we were just here to please others and ourselves. At this time in my life, I had a life to live and a baby would just get in the way – little did I know at the time that not having my baby would get in the way of living my life.

The third reason was purely selfish and self-centered. If I chose to have this baby it would have caused much shame and embarrassment to my family and me. Little did I know at the time that the decision to abort my baby was the cowardly way out of the situation I got myself in and that it would have a permanent effect on my emotional stability.

The next thing I remember was being on a plane to Manhattan, New York, with my mother. We were met by a limousine and driven to a tall office building. We went to the doctor's office. I remember thinking that this was not what I expected at all. I guess I was expecting a dumpier place in some back street alley. My mother completed the paperwork and I was taken back, asked to undress and put on a table with stirrups (the first time I had experienced this type of table) and put to sleep. No one ever talked about options or asked if I was comfortable with the decision I had made. I was scared to death and there was something telling me not to do this, but I wouldn't give in to this little voice and no one else seemed to care – everyone was so nonchalant about the whole thing. I don't remember how long it took, but as soon as the abortion was over, we got right back on the plane. I got home, went to bed and woke up the next day to go to school. Everything seemed so easy, but the guilt and shame started as soon as I got back on the plane.

My mother and father never talked to me about the decision I made, matter-of-fact, we never talked about the abortion at all, before or after. After the abortion, I went on with my life. Still trying to please my parents and everyone else I came into contact with. It wasn't that I was real promiscuous, I had steady boyfriends, but my behavior, such as drinking and partying didn't reflect what I wanted to be and I knew it was wrong – which added to my guilt. My baby was gone, but not forgotten.

Every year, in June, I would think about how old my baby would be, what he/she would have looked like, what he/she would be like. As the years rolled on, I found myself thinking about my baby more and more. The more I thought about my baby the more I got depressed. The feelings of guilt were overwhelming at times. Especially when life wasn't going well, I just wanted to go to bed and not wake up. This world would be much better without me in it.

Sometime after I graduated, I began to research evolution, I'm not exactly sure why, but after looking at the universe and all its wonder, I began doubting this theory – it just didn't seem logical. The more I researched, the more the scientific evidence pointed to creationism. Remember, at this time I still had no religious foundation and my research was purely an intellectual endeavor. Once I came to the conclusion that evolution was bogus and was just a bad theory that had absolutely no scientific basis, I began researching God, which ultimately lead me to Jesus Christ. I believe God's moral law is written on our hearts from the beginning and I think this is the reason my decision to have an abortion weighed heavy on my heart and soul from the moment I got back on that plane. C.S. Lewis says it best when he said "there is a higher being which is directing the universe, and which appears in me as a law urging me to do right and making me feel responsible and uncomfortable when I do wrong." God makes us aware of the sin in our lives and He gives us the choice of repenting or letting sin eat at us until we can no longer bear it.

I lived in torment. It was not something anyone could tell on the outside, but my sadness was contained within myself. Even though my career was going well, I had low self-esteem and tried hard to impress people. At age thirty-three, I confessed my sin and thought I had given my sin to God. This provided a lot of relief because I knew that He had forgiven me. But, what I didn't know is that I had not forgiven my parents or myself. I never told anyone about killing my baby, never was able to discuss it with anyone. I blamed my parents for not trying to convince me to keep my baby and for financing my baby's murder. I can't stand the word abortion, at the time, it was comforting because it hid what it really is – murder and now I know it stands in the way of making an informed and "right" decision.

Thirty years after killing my baby, I went to a Christian Women's Retreat. It was emotionally and physically exhausting, but I was finally able to say the words "I killed my baby" and tell people about my sin. Through this experience I was able to forgive my parents and myself. After the retreat, I went home and told my husband, who was wonderfully forgiving and compassionate. Unfortunately, both my parents died in 1998 and I did not have an opportunity to talk to them about the experience and the part they played in my horrible decision and if they ever regretted not helping me decide to have their grandchild.

The consequence of abortion is permanent – emotionally, physically, and spiritually. The pain of giving up my baby for adoption could never be as bad as the guilt of killing my baby. Yes, I would have had to go through the shame and embarrassment and so would my family, but at some point we all have to be accountable for our behaviors and actions.

Through my relationship with Christ, I have been able to accept forgiveness for murdering my child, and forgiven my parents as well as myself. What was a very poor decision can be used for good if it will keep some other young girl from making the same mistake. I went through "hell" for thirty years and if I could take it all back, I would. I never had children; I didn't feel like I deserved to have children. I still think about my baby, but now I picture him/her in the arms of God, just waiting for my arrival – I can hardly wait!

A F F I D A V I T

1. I have had 3 abortions. The dates are approximate as I truly cannot remember exact dates partly due to wanting so badly to forget and secondly the last one was nearly 20 years ago. The first one was in the Spring of 1981. The second one as hard as it may be to believe was the fall of the same year 1981. Both "D&C's for termination" were performed at Nathan Littauer Hospital 199 E. State St. Gloversville, N.y. 12078 paid for by the tax payers of N.Y. (medicaid) The third one was in April 1985 paid for by my private insurance. That one took place at the Saratoga Hospital in Saratoga Spgs, N.Y. 12866. All three were performed in an operating room in the hospital.
2. There were no conversations of any kind other than I told the physicians that I wanted an abortion and when, where it would take place.
4. NO. I am concerned at this very moment due to in the last 6 mos having excruciating breast pain before and during my menstrual cycle that I have never experienced before and now recently learning I would be a good candidate due to my past. I just recently got my medical insurance back and need to be seen. I have not been able to go to an OB GYN since April '99
5. The first 2 I had alot of pressure from my live in boyfriend whom I did not marry... The third one I did have some pressure from my fiance whom I did marry in 1987 and also from my manager at work because of the thoughts and plans they had for my career and if I had the child that dream would end abruptly because my freedom to travel would be done.
6. Before this whole nightmare was to end I would want to have a child and found myself to be infertile. I had a diagnosis of endometriosis attached to me. Three surgeries to try and help the physical pain I was going through and also 4 years of trying to concieve and did not. Then I had a beleiver and my mom lay hands on me praying in the holy ghost which at the time totally frieghtened me... The next month I was found to be with child. Glory to God he is still in the MIRACLE BUSINESS!!!!!!!!!!!!!!!
7. The 4 years we were waiting on God for a miracle were hard on my mom, Gramma she never stopped praying for God to open my womb. In a 6 hour surgery to remove cysts and scar tissue and all of my left ovary and a 1/4 segment of my right things didnt look to promising not to mention all the lost time from work and needing physical help while my body tried to recover it was nearly a year before I started to feel back up to par.

7. I have a copy of the surgical report that also indicated the scar tissue was so bad they had to cut my intestines from my ovaries they were adhered. I would be happy to give you a copy of that report upon request.(its pretty gross)

8. I would simply share evverything I have been through and pray that her eyes would be opened to see it is not a quick fix to a temporary problem . Like everything in life there will be consequences for wrong choices. Physically and emotionally I agonized & trevailed for 4 years when I finally wanted to be a mother and could not . God was gracious enough to grant me this priviledge but still once in a while for no apparent reason a real heavy depression tries to come on me , a deep regret and remorse, shame and on and on and the only solitude I have is that God does forgive me but not only the visible physical scars that I have briefly mentioned the emotional ones are unreal. I still wonder what sex the children would have been I somtimes realize their approximate age if they would have been allowed to live... Its all too much to try and put in writting. I just praise God that he saved me and my husband and is still healing the wounds daily.

9.I am going to be bold here..... First of all I truly believe that there is a hidden agenda in our government as to why they not only allow abortion to be legal but also allow tax payers dollars to pay for these slaughters...Its called population control which ultimately comes down to money. Example: I have an acquaintance who works for Social Services and her opinion is well if we dont pay for the abortion 98% of the time we end up supporting the illegitimate child to age 18 . What a horrible way of looking at a precious life. We absolutely need to educate our young women about how life begins at conception. I later on in years saw a presentation at a county fair by a right to life group that showed those tiny little feet at just 6 weeks etc.. If I had only been given that kind of information before being allowed to have an abortion I honestly dont think I could have done it . Kind of like showing the drunk driver movies about fatalaties as a result of drunk driving after he had a crash and killed some one. For such an intelligent nation we are very ignorant. I could never express everything in this short letter but I certainly hope I have been of some help. May God continue to Bless you and protect you and your families as you step out and do his will and set the captives free!!!!!!!!!!!!!!!!!!!!!!

In his service....for his glory

AFFIDAVIT

To whom it may concern:

This is my story. The year was 1986 and I was 15 years old. After practicing "safe" sex, I found myself pregnant and scared. My parents were both shocked and disappointed. They saw no other alternative at that time then to end the pregnancy so I could continue with my schooling. My junior year of high school began in three weeks, so there was no time to wait. When the family Doctor examined me and confirmed my pregnancy, he simply asked my mother what we wanted to do. He went on to recommend an abortion clinic that could "take care of the problem" very quickly.

The very next day, we sat at that abortion clinic across from a "counselor". She was asking if this was what we wanted to do. I told her I only had one question, "Is this a baby, are there any living parts inside of me?" She looked at my mother and I and said, "No, all that is inside of you is a mass of tissue that has not formed yet. There is nothing living, yet". The abortion was scheduled for the next morning.

After sitting in the holding room and listening to other women explain how this was their third and fourth abortion, that you get used to it after awhile, I was stunned. Up until this point I still thought there was an error, that I was not really pregnant and they would find that out. When the procedure began, I realized for the first time that I must be really pregnant and I screamed for them to stop. The nurse covered my mouth with her hand and told me to be quiet so that I would not scare other patients.

Following the abortion, I tried to commit suicide and when I was too chicken to go through with it, thank goodness, I drowned my depression in alcohol. Four years later I married. Two years following my marriage we were told by four Doctors that I was infertile. Instead of using fertility drugs and trying various procedures, we elected to leave our fate in the loving hands of God. My nightmares continued until I found myself in Post Abortion Counseling at the age of 24. Through the counseling I discovered that I had been suffering from Post Abortion Stress Syndrome. It was then that I was finally able to forgive my parents and myself. Up until that point, my parents and I did not have a very good relationship. Deep down I blamed them for the abortion, and they had a hard time justifying the death of their grandchild.

After a miraculous touch from God, I did conceive five times. Twice I miscarried and three times I gave birth to beautiful babies following very difficult pregnancies. The abortion had weakened my uterus and cervix, and I suffered with preterm labor with each child.

In October of 2002, I was diagnosed with cervical cancer and had to have a hysterectomy. Because of the type of cancer cell that was found in my cervix coupled with the abortion, I am now at a higher risk for breast cancer.

BEFORE ME, the undersigned authority, on this day personally appeared THERESA C. CHAPMAN, who, being duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1. I have had two abortions. The first in New York City in approximately August 1978, the other in Wayne, NJ in approximately February 1979.

2. I was not adequately informed of the consequences of abortion. I was told "it is nothing more than a blob of tissue" at both places. I was not told the long term physical and psychological consequences. I was reassured that my "problem" would be over shortly.

3. I was never informed of any possible link between abortion and breast cancer. To date, I have not had breast cancer.

4. The father of my babies insisted that I have the abortions or raise them without any help from him. I was stupid, not thinking straight and did not realize there were laws against not supporting your child/children.

5. These abortions have affected me in the following ways:

a. I have had an underlying feeling of anger all these years. I was angry at the father but mostly, at that time, I was angry at myself for getting myself into that fix.

b. I grew angrier after I saw the pictures in *Life Magazine*, I saw for myself that these were babies, not merely "blobs of tissue." I had been lied to by the abortion "clinic's" personnel.

c. I have had long term psychological difficulties and undergone therapy.

d. I have had long term depression over the abortions.

e. I had difficulty becoming pregnant with my husband.

f. At the second "clinic," I went into shock with blood pressure 60/30 and pulse 35. I was sitting in a chair when they finally looked at me, then they had me walk to a recliner to sit with my feet up. They had not done a complete job and I was then passing large clumps of tissue and blood clots. I came close to dying and the clinic was not adequately prepared for such an emergency. Initially, they did a blood test and came up with the wrong blood type and they asked me "Are you *sure* of your blood type?"

6. The abortions have affected others in my life in the following ways:

- a. My daughter who was 10 years old saw the depression and was a target of some of my anger over the years she lived with me (until she was 19).
- b. My then husband and I split up for many reasons, part of which was the anger and depression from the abortions.
- c. My mother and siblings did not know how to help me with the depression, suicide attempts and anger. My mother was beside herself with worry.
- d. One of my younger sisters had two abortions also. She has never recovered from them, smokes marijuana daily since the first one. She is very self-destructive.

7. Based on my own experiences, I would tell someone who was considering having an abortion NOT TO DO IT. I would explain all of the above to her. I would take myself back to that time and relate what I was going through. I would show her the pictures from *Life* magazine which I have kept all these years. I would tell her it is murder and there are psychological consequences to murder. I would tell her about the years of depression and the hurt I felt for years and did not know where it was coming from until I underwent therapy.

8. Based on my own experiences, I would tell a court that I believe abortion should not be legal. We have killed over 35 million children in this country alone. How many presidents have we killed or doctors or scientists? Why have we killed them? Because *I* made mistakes and got *myself* into a social bind, I can use this as justification to kill a baby inside me? I think not. The baby has a different DNA than me! If it was merely "a blob of tissue" it would have *my* DNA but it doesn't! How can we tell people not to kill but *legally* make it *okay to kill a baby*, the most vulnerable humans there are?

BEFORE ME, the undersigned authority, on this day personally appeared Demetrie Ackerman (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Abortion clinics in St. Petersburg, FL. 1978 and 1979.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No written or verbal information was given to me. I was only told the charge was \$200 cash (approx) and the times of my appointments. Nothing else was said to me about abortion.
- 3) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? No Ovarian Cancer in 1985 with total hysterectomy.
- 4) Did anyone pressure you into having an abortion? yes If so, who? My boyfriend told me both times that he needed to complete his college program and he would give me money for the abortions; nothing else.
- 5) How has your abortion affected you? I kept it a secret because of shame and guilt. Sorrow and regret torment me and I keep telling myself to forget about what I did. I am uncomfortable around babies, children + pregnant women - I feel a vague sort of emptiness and deep sense of loss. The past, present, and future are painful because my children are not alive to develop and mature. This is because of my foolish misguided decision that was ignorant. Low self-esteem has resulted after both abortions. I never expected or was prepared to suffer for so many years.
- 6) How has your abortion affected others in your life? Lack of grandchildren for my parents. No nephew or niece for my siblings. No future generation. No step-siblings for my step-daughter. No step-children for my husband. No citizens USA.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Abortion is not a solution to an unwanted pregnancy. There is help available for bringing your baby to full term. It is better to give life and not death to your unborn baby. There are other people that can help you + your baby to survive. Adoption is worth considering if you can't accept your baby.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I repeated harmful patterns + had a 2nd unwanted pregnancy + abortion because I didn't understand fully the truth about abortion and its consequences. I thought legal choices were good solutions. I trusted the USA Supreme Court to protect its citizens. Abortion should not have been a legal option. I incorrectly chose when I was pregnant and afraid and immature + poor.
"I have read the above and foregoing statement and the same is true and correct." Abortion is legal murder, a lie.

AFFIDAVIT

The State of Florida
County of Flagler

BEFORE ME, the undersigned authority, on this day personally appeared [REDACTED] B [REDACTED] (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your abortion occurred:

I went to a women's clinic in Gainesville, FL in April or May, 1987.

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?

I knew I wouldn't be pregnant anymore; I was told they would remove the "product of conception." I wasn't told about the risks involved or side effects, such as psychological problems. I wasn't presented with alternatives, such as adoption.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer?

No, No, I have not.

4) Did anyone pressure you into having an abortion? If so, who?

No, I didn't feel pressure from anyone in particular. I just felt that it was a solution - the only solution - in light of my circumstances. I wish I had known about alternatives - especially maternity homes.

5) How has your abortion affected you?

I was initially relieved but over time my self-worth deteriorated. Years later I began to have terrible nightmares about dismembered babies. I deeply regret my decision. If I had it to do over, I would have chosen adoption.

6) How has your abortion affected others in your life?

My relationship with my boyfriend ended; my friends lost respect for me - those who I thought would be supportive. I deprived my mother of her first grand-child. My children wish they had an older brother or sister. My husband was grieved to know I had taken the life of one of his children, even though it was before I met him.

7) Based on your own experiences, what would you tell a woman considering an abortion?

It's not the simple solution that it appears to be. It opens the door to a whole new set of problems. There are loving alternatives - maternity homes where schooling is available; adoption allows a loving family to have a child they couldn't have had otherwise.

8) Based on your own experience, what would you tell a court that believes abortion should be legal?

A child in the womb is no different than a child outside of the womb. Life begins at conception. The child's DNA shows it to be a separate entity from the mother. It's not about the right she has over her own body. It's about the right to take the life of an innocent human being. Abortion is murder.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:"

1. Tell approximately when and where your abortion occurred: AUGUST 13, 1983 - APPROX. 2PM - HAGERSTOWN, MD.
2. Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO. I WAS NOT GIVEN THE COMPLETE INFORMATION SO I COULD MAKE AN INFORMED DECISION. I WAS NOT INFORMED OF THE TRAUMA TO THE CHILD, I WAS NOT INFORMED OF THE LIFE LONG TRAUMA TO ME.
3. Were you informed of any link between abortion and breast cancer? NO. Have you had breast cancer? NO.
4. Did anyone pressure you into having an abortion? NO. If so, who? N/A
5. How has your abortion affected you? I HAVE LIVED WITH THE GUILT OF KILLING MY BABY FOR TWENTY YEARS. THE KNOWLEDGE OF THE SUFFERING I PUT MY CHILD THROUGH DURING THE ABORTION PROCEDURE HAS LEFT AN EMOTIONAL SCAR THAT WILL NEVER BE ERASED.
6. How has your abortion affected others in your life? BASICALLY, THEY TEND TO STAY AWAY FROM THE SUBJECT BECAUSE THEY KNOW IT IS PAINFUL FOR ME. MY HUSBAND TRIES TO COMFORT ME DURING EXTREMELY EMOTIONAL TIMES, BUT SAYS HE FEELS HELPLESS.
7. Based on your experiences, what would you tell a woman considering an abortion? I WOULD SHARE MY EXPERIENCE WITH ANY WOMAN CONSIDERING AN ABORTION.
8. Based on your own experience, what would you tell a court that believes abortion should be legal? I WOULD TELL THE COURT THEY ARE LEGALIZING MASS MURDER. I WOULD TRY TO CONVINCE THE COURT THAT CONCEPTION IS THE BEGINNING OF LIFE. ABORTION DOES NOT GET RID OF TISSUE - IT KILLS A LIVING BABY IN A VERY BRUTAL WAY. I WOULD ASK THEM TO READ THE LETTER I WROTE TO MY BABY TWENTY YEARS AFTER MY ABORTION. A WOMAN NEVER FORGETS WHAT SHE HAS DONE TO HER CHILD. (LETTER ATTACHED)

August 13, 2003

Dearest Sarah,

Twenty years ago on August 13, 2003, I made the worst decision of my life.

At twenty-eight years of age, I was divorced, had two beautiful daughters, was planning to marry your father - and discovered I was pregnant with his child. I didn't know what to do because the circumstances of my relationship with your father were already unusual - and I honestly didn't want another child.

Sarah, I ended your life twenty years ago on this date. I knew I had made the wrong decision from the moment I walked into the abortion clinic, but, God forgive me, I went through with the abortion.

I consented to having my baby, sucked from my womb tearing you into shreds during the process. Your precious, innocent, little body was attacked, torn apart, and sucked through a tube into a clear canister. I don't know what happened to the contents of the canister.

Precious Sarah, forgive me! Abortion is the most unnatural act of mankind! It separates the child from its mother in such a grotesque manner that is nothing less than the savage act of the devil himself. I fell into the devil's trap, but you, sweet Sarah, by the grace of God, showed me the way to the Light.

I believe in God's divine plan, Sarah. I don't understand all of the time, but I know everything happens according to God's will. He may allow bad things to happen but the ultimate outcome will be good. He gave you to me for a reason. I can now say I am so very grateful for my daughter, Sarah Ann! I look forward to the moment our eyes meet in Heaven and, in the loving presence of Jesus, we embrace for the first time!

Until that time, keep on dancing and laughing with Jesus, Sarah. Your mother will be home soon to join you in celebrating the glory of the Lord. I love you with all my heart!

My daughter was born in February of 1998. One-week prior, my husband and I got married after two years of dating. The summer of 1998, I got pregnant again. I was definitely not ready for another baby and felt overwhelmed having just gone back to work with a three month old baby. My husband was very adamant about terminating the pregnancy and after much coaxing; I decided to go ahead with it.

In October, my husband and I went to the clinic to kill my 2nd child. I already had my mind made up, so when they offered counseling, I declined to accept. I was called back into the room and told by the nurse to undress from the waist down. Then I waited in silence. I knew then that it was not right and felt like I wanted to just run away.

When the doctor came in, he seemed very hurried. He told me to lie back. He gave me some terribly painful shots in my cervix to start dilation. He then inserted 3 metal rods into my cervix. Each rod felt like a knife slicing inside of me. Once the rods were in place he turned on the machine and began to rip my baby from me. I cried there on the table, in as much emotional pain as physical pain. I could literally feel this living spirit being pulled away from me. By that time there was nothing I could do about it.

When the doctor was done, I was put in a recovery room with several other women who had just killed their babies. There was complete silence. After I got home, the pain was excruciating and I soon fell into a deep depression. My husband left for college, and I was left with a baby, anti-depression medication, and a lot of deep emotional wounds.

Things went down hill from there. We went on with life, but the thought of my unborn child was forever haunting me. My husband did not understand, and every year on October 6th I would just sit and cry. I became addicted to drugs and alcohol in attempt to dull my pain, while still trying to raise my daughter, and hold a job. I became suicidal and attempted to kill myself twice. I was taking three types of psychotropic medications three times a day just to keep myself emotionally numb. My life was going nowhere.

About two years later, my husband completed his degree and moved back home. We were trying to make things work and then it happened. I became pregnant for a third time. I desperately wanted to keep this child. I knew it was the right thing to do and could not bear the thought of killing another child. My husband had not found a job yet and our relationship was very rocky. I was doing anything I could to try to make it work. Then my husband told me that if I did not have an abortion, he would leave me. The thought of raising two toddlers by myself weighed on my mind heavily. At the time, I was so depressed, insecure, and suicidal that I thought I could not possibly go on with life without my husband's help.

I had no idea as to how pregnant I was, so my husband and I went to the clinic. The doctor did a sonogram to see if it was still in the time range. It was not time yet, so I waited. All the time waiting made it even harder because I could feel this life growing inside of me, but could not be joyful. When I went to the clinic to kill my third child I was completely numb. I did not allow myself to feel any emotion. The physical pain was ten times worse than the first time. Again, I could do nothing but lie there and cry.

For the last few years I have actually thought of these babies and the decision that I made at least daily. I always feel as if something is missing. I have never felt "whole." I have always held a little resentment toward my husband for not "feeling" the same as me. I excuse it by thinking that maybe men just do not have the same "motherly instincts." I have also seen pictures of babies in the womb that are in the time range to

abort. This makes me feel awful every time, because I had no idea how developed the baby was. I was told that it was just a little piece of tissue. To make matters worse I feel guilt due to the fact that my older sister and her husband cannot conceive. I feel now that I had an option to adopt the child out to a couple that desperately want a child and cannot have one. How selfish of me.

Not until recently have I felt any better. About 6 months ago I began going to church, reading the bible, and reading several other books on forgiveness and self-esteem. I had been having a somewhat easy time forgiving others, but I still struggle to forgive myself. I keep telling myself that God forgives me, but I wonder how he could most of the time. I saw a show on T.V. about Operation Outcry and heard the end of one woman's story. How wonderful it was to know that I am not the only one with these feelings. I have been trying to find good out of something so terrible, so I truly hope that this story can help someone.

In conclusion, I had always been pro-choice. Now I definitely think that abortion should be illegal. While I had the choice to make, and it was not entirely my husband's fault, if abortion had been illegal I would not have gone through what I went through. We would not have had a choice. Either we would have worked things out as a family, or I could have looked into adoption. I was even more shocked to know that a minor does not have to have their parent's permission to have an abortion. One of the girls that was at my second abortion was only 14! She was there with her boyfriend and she made sure that they would not call her mom. This really is a sick and twisted way of dealing with an unwanted pregnancy.

- 1) When and where did your abortion occur? 1985, 1986, 1987, 1988, Miami, Planned Parenthood 1st
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No. If no, explain: It was not explained to me that there was a baby in there, not just a clump of cells, nor the emotional effects I would feel
- 3) Were you adequately informed of the consequences of abortion? no, especially not how long the emotional pain would last & how many breasts it would affect
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? 2nd time, my boyfriend
- 6) How has abortion affected you? At first I stuffed it in a box & vehemently denying they had ever happened. I became addicted to drugs, especially cocaine, and alcohol, and got myself in some very dangerous/sexual situations. I became extremely promiscuous and very self-destructive. I drove dangerously, as if daring myself to crash and sabotaging jobs and school. It took me 9 yrs. to earn a Bachelor's degree. Later, when I got married, I still struggled with alcoholism, rage and depression. After 2 miscarriages, I lived in fear for my daughter's pregnancy, and sank into crushing despair after viewing the Black & Howard.
- 7) How has your abortion affected others in your life? It affected my relationships w/ husband, stepchildren, daughter & parents. I still struggle with intergenerational.
- 8) Based upon your experience, what would you tell a woman considering abortion? I would tell her that it is not the "easy fix" that it appears to be, that she will always be that child's mother, and she will grieve that child for the rest of her life.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would say that ~~exercizing~~ exercising this "woman's right" hurt me immeasurably. When I went on to have a child, the evidence was right in front of me on the ultrasound that this was a child, & the knowledge of that nearly broke me. I am angry that the other person involved, my child, was not protected by my government when I was too young & ignorant to know better.

"I have read the above and foregoing statement and the same is true and correct."
We have ~~got~~ got but laws to protect our kids yet our government condones this travesty.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 1st abortion Jan 81 in Perazola, Fla clinic / 2nd in 06/86 in Glen Burnie, MD
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? First abortion I don't remember any counseling. Second abortion, it was explained there would be cramping similar to menstrual cycle, no mention of any emotional side affects.
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? If so, who? I felt pressured. The 1st abortion I was in the Navy & did not want to be discharged. The father denied any responsibility. The second was a result of an adulterous affair. I was in the process of a separation from husband (abusive husband).
- 5) How has your abortion affected you? I don't believe there is an area of my life that wasn't affected by these abortions. Mentally, emotionally, spiritually, physically, relationally my life was changed. I ceased to experience any emotion one way or the other - I flat-lined emotionally. I made bad life decisions while trying to numb the pain of the horror of what I did. I turned to sex, alcohol, drugs and even suicide ideation. I saw many counselors. I believe now, I had a hard time living with my choices "and set out on a road of self-destruction." After all, if the children's lives I aborted had no value, mine didn't either." I also had 2 subsequent miscarriages. Scar tissue is still visible on an ultrasound.
- 6) How has your abortion affected others in your life? It has affected (had) the manner in which I related to people. Relationally, I kept everyone at arms reach. I had a difficult time bonding with my son. I shared my story with him since I speak publicly about this - he regrets not having older siblings.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her it's not hopeless. She has more than 1 option. I would share Psalm 139 and explain God doesn't make mistakes. I would inform her of the consequences spiritually, emotionally, mentally, physically. I would refer her for help to a local Pregnancy Center. I would pray for her and ask her to give her decision some time.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? If asked, I would share how it affected me personally. I would share the heartbreak of the women I counsel in post-abortion studies. The sadness my son feels to be robbed of relationship with an older brother & sister. The desensitization that has taken place in our culture leading to infanticide, euthanasia and general disrespect for life. Abortion is not new, it began in the Old Testament when babies & children were sacrificed to Molech and other gods. Today, our children are still being sacrificed to the gods of convenience, selfishness & narcissism. And God still weeps. "Have we come a long way, baby? I honestly can't say we have. Abortion is a slippery slope where & when will it end?" I have read the above and foregoing statement and the same is true and correct.

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO

4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
5) Did anyone pressure you into having an abortion? NO If so, who? _____

6) How has your abortion affected you? YES, I feel emotionally scared. Years went by of hiding it. Then something started triggering flash backs. Children's birthday's bring on extreme sadness. Christmas time brings on times of depression, regret & wondering what would my children have been like. Could they have made a difference in the world. Why couldn't I have given them a chance at life like my mother gave me! NO ONE ever showed me the stages of pregnancy. If someone had I wouldn't have went through it. If I would have known the emotional effects that was years later, I would have reconsidered.

7) How has your abortion affected others in your life? yes! It's hard to get close to my husband & family with such a secret & guilt.

8) Based on your own experiences, what would you tell a woman considering an abortion? DO YOU / have you seen the different stages of pregnancy? Did you know there is help if you need help or support during & after your baby is born. Did you know that it may take years or maybe not that long, but it will effect you emotionally at least. When you think it behind you suddenly it all comes back.

9) Based on your own experience, what would you tell a court that believes abortion should be legal? How can you say this isn't a life. It has a heart beat! It is A baby. Have you ever seen an abortion through the whole process? Have you ever talked to the women that went east on an abortion & days so week later the baby falls out in the toilet? I imagine the horror & reality. IT WAS A BABY! I held it in my hands!

- 1) Tell approximately when and where your abortion occurred: Feb. 1986 in Shreveport, LA
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No
I was not informed of alternatives, or of the risks to my mental & physical health. I was told the child was only a clump of tissue. No one told me of his actual development.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? Yes If so, who? Kelly McGraw - whom I was working for @ the time & Suzie - a co worker
- 6) How has your abortion affected you? At different points in my life it has affected me in different ways. - My immediate reaction was regret. Then, my self worth began slipping away. I killed my own child, how unworthy am I? It had terrible nightmares, blood, & hearing a baby's cry. I kept ending up in abusive relationships, I married into a controlling relationship that became verbally & physically abusive. I felt too unworthy to stand up for myself. After having 2 children I finally got out. Now I miss my unborn child.
- 7) How has your abortion affected others in your life? Yes - My children feel I am too overprotective, they are also missing a sibling. My mom is missing a grandchild.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? To not have one, give the child up for adoption if she doesn't want it. Any other option is better than living the rest of your life trying to cope with what you've done - KILLING YOUR CHILD.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? They should consider "the Rights" of the unborn individual. Courts recognize fingerprints as a type of ID that makes it possible to set apart a person as an individual. An unborn child should be recognized, he also has fingerprints (very early)

- 1) Tell approximately when and where your abortion occurred: 1987, 1991 both in Denver Colorado.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? The first time I was given a very vague, sterile sheet to read. The second time nothing.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? no
- 4) Did anyone pressure you into having an abortion? yes If so, who? My mother, who didn't make any indication there was any other option. My sister had had one, and said yes its painful, but its the right thing.
- 5) How has your abortion affected you? There is not enough room to explain all the ways my abortions have affected me. My heart became hardened. I was and still am to some extent numb to any emotional feelings. Relationships are very difficult. I suffer depression, denial, anger, guilt, shame and more. All from those 2 decisions.
- 6) How has your abortion affected others in your life? Nobody is allowed into my heart. My kids and my husband are kept at a distance. They are wondering what is wrong with them.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? That she has already become a mother, just because that baby is only a centimeter big doesn't mean she's not a mother. Despite her circumstances God has placed that baby there for a reason. Whatever she has heard about abortion
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Show me a woman who has had an abortion that is emotionally stable, that has a good relationship with those closest to her. You won't find it. Therefore that one decision a woman makes will affect generations to come. That is positive is a lie.

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No.

3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO

4) Did anyone pressure you into having an abortion? NO If so, who? _____

5) How has your abortion affected you? The abortions caused me to feel worthless, ashamed, angry, profound sadness. I was driven to per-keshionism to try and make myself feel worthy of the air I breathed and space I occupied. I turned to 11 years of alcohol and drug addiction to cope with the regret. In my need to punish myself I had a tubal ligation (sterilization). So I am childless. After killing my children I did not deserve to be a mother.

6) How has your abortion affected others in your life? Divorce from husband. Separation from family for years.

7) Based on your own experiences, what would you tell a woman considering an abortion? It is a huge loss, irreversible. You have other choices. There are people that will help you and your baby.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion hurts women. Abortion destroys life. Abortion opens the door to depression. You are stuck in grief, but you are told it is a choice - not a child & it is tragic.

- 7) How has your abortion affected others in your life? my Mother regrets it and is saddened. My husband won't even talk about it.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? I would tell her that she is pregnant with a baby, not "a product of conception or a blob of tissue". That it hurts physically. It hurts emotionally for the rest of her life. There are other alternatives than to kill her baby and deny it life.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Legal does not mean it is right. BEFORE ME, the undersigned authority, on this day personally appeared Mary R. Hutto (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: Emanuel County, Swainsboro, GA, May 1976
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: no, I was told that my baby was dead & that my Dr. James (Jimmy) Ray said to go straight from his office to Emanuel County Hospital as he could remove the remains of my dead baby before I got gonorrhea or peritonitis, I was not allowed time to even get 2nd opinion.
- 3) Were you adequately informed of the consequences of abortion? no, I was not told the procedure of a salt saline, & vacuum
- 4) (a) We you informed of any link between abortion and breast cancer? Have you had breast cancer? (b) no (b) I've had 3 benign lumps removed from left breast
- 5) Did anyone pressure you into having an abortion? If so, who? yes, husband Joe Thomas Reese pressured me to abort that baby.
- 6) How has your abortion affected you? I've lived in grief, sorrow & denial mentally & emotionally for 25 years, this has affected my children, in-law child, & I shaved two of my grandsons.
- 7) How has your abortion affected others in your life? Dr. Ray's R.N. nurse, Caroline Steadley, told me what the Dr. (for her husband) had done & she had assisted him
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? Don't do it, don't murder your child so you won't have to live with guilt, shame & unforgiveness for yourself, Dr. medical staff, boyfriend, sister or husband that abandons you & hurts you! Every child. I had the right to
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? God's law is a higher law than man's laws. Our founding Fathers based our constitution & Preamble on God's laws which say in one of the Ten Commandments "Thou shalt not murder!" We have degrees of manslaughter & murder for all the human ages except for the unborn. Why don't unborn babies have the right to life if I have read the above and foregoing statement and the same is true and correct. If the right to not be murdered?

BEFORE ME, the undersigned authority, on this day personally appeared [Redacted] (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell when and where your abortion occurred: March, 1975; Pittsburgh, Pa

2) Were you adequately informed of the nature of abortion: what it is, what it does? If not, explain: No. There was very little counseling. No information about fetal development or what was actually happening.

3) Were you adequately informed of the consequences of abortion? No. No one told me of the devastation that this would have on my life - the grief, the trauma, the emotional turmoil that I would regret.

4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No. I was not informed. No I've not had breast cancer.

5) Did anyone pressure you into having an abortion? If so, who? No, I made the decision alone.

6) How has your abortion affected you? I've thought about my child nearly every day for the last 7 years. I've never had a child due to physical illness. We resolved spiritual anger resulting in a work-a-holic lifestyle and now physical disability due to auto immune disease.

7) How has your abortion affected others in your life? It affects all areas of your life - it is a secret you fear others know because you have this horrible secret that you can't discuss or share.

8) Based on your own experiences, what would you tell a woman thinking of having an abortion? I would tell her that abortion is definitely NOT the answer to her dilemma. Abortion will only make her life worse and put her at risk of very serious physical & emotional problems.

9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is harmful to women - physically (possible infertility, breast cancer, complications from "the procedure") - & so harmful emotionally and it separates us from God. Abortion is a big lie. It hurts women. Please make abortion illegal, so that the destruction and suffering can stop.

- 1) Tell approximately when and where your abortion occurred: October 1979 Orlando, Florida
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? no - I was simply asked if I knew what I was doing. In those words exactly. I received no pre-treatment or post TX counseling
- 3) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 4) Did anyone pressure you into having an abortion? no If so, who? The decision between my fiance and myself was mutual, although he was not opposed and he offered another alternative!
- 5) How has your abortion affected you? It has affected me profoundly, for over twenty years. Following my abortion I suffered profound depression, I abused alcohol, and was sexually promiscuous. I still suffer after effects in the form of inability to relate to children, especially babies. I suffer from a barrier to intimacy with my husband as well as other relationships in my life. I have never conceived again, possibly being physically damaged from the abortion. I experienced guilt, shame & remorse
- 6) How has your abortion affected others in your life? I am unable to experience deep intimate relationships with kids of women. I have a lack of maternal feeling towards small children in my family and am uncomfortable around them.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? The it will profoundly alter your life. It is a decision you will always regret and be unable to challenge. It is the decision to murder your baby. You will suffer. It is a innumerable consequences following your abortion. It is not worth it. It is a mistake to avoid the feeling that you are trapped and have no choice.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? That abortion hurts women. It robs them of their right to life, causing a deadness inside, liberty by robbing them of their freedom to live free from guilt, and robs them of happiness by limiting their emotional response to other's dangers, their future health (i.e. the breast cancer link) and most of all robs them of the experience of loving & raising that child.

- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: barely adequately - yes
- 3) Were you adequately informed of the consequences of abortion? No, I was informed of what, physically, would happen. The emotional consequences cannot be explained unless it is by someone who has been through it - even then it cannot be understood fully.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No, No, but it does run on both sides of the family
- 5) Did anyone pressure you into having an abortion? If so, who? No. The woman at the abortion clinic said it wasn't really a baby & it seemed like the best option for me.
- 6) How has your abortion affected you? I believe I have been forgiven & haven't really suffered emotional problems but then again, I haven't had children yet. I've worried it hits at that time. If I went through the procedure it really took an emotional toll on me. I saw the baby sucked into a jar through a tube.

- 1) Tell when and where your abortion occurred: 05/01 in Atlanta, GA
 - 2) Were you adequately informed of the nature of abortion, what it is, what it does? no If not, explain: I guess the nurses and doctors assumed I knew exactly what happens an abortion. I was never told that my baby was sucked out of me with a vacuum type substance, and that this vacuum literally tore my baby to shreds
 - 3) Were you adequately informed of the consequences of abortion? no I was not told that it would emotionally destroy me, or that I could have complications with pregnancy in the future. All that I was told is that I would have bleeding and cramping after the procedure.
 - 4) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
 - 5) Did anyone pressure you into having an abortion? yes If so, who? my mother
 - 6) How has your abortion affected you? I am pregnant now, and it scares me that I might miscarry or give birth to a dead baby all because I had an abortion. I still haven't forgiven myself. I wake up in the middle of the night because of horrible nightmares! I have a hard time watching shows on tv or movies that have a lot to do with babies. And I constantly tell myself that I'm a murderer and that I deserve to die for what I've done.
 - 7) How has your abortion affected others in your life? I think people more or less feel bad for me, and just have sympathy for me.
 - 8) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her what they do to remove the baby, how it can cause complications with future pregnancies, and how it will emotionally destroy you for the rest of your life.
 - 9) Based on your own experience, what would you tell a court that believes abortion should be legal? that even though the baby isn't born yet it still has a right to live. This law gives ~~you~~ a woman the right to kill a living creature. It's like telling someone it's okay to go up to the next person they see and kill them in cold blood and that it's okay. - 1) Tell approximately when and where your abortion occurred: Atlanta, GA July 27, 1976
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO. I was in a group for counseling and was briefly told that I would be put to sleep. No consequences were discussed.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? YES If so, who? I can't really say "pressured"; however, I was given NO support or options by my mother or my boyfriend. Everyone supported having the abortion.
- 5) How has your abortion affected you? I was 16 at the time and thought it would end that day. It changed the way I felt about myself. My self esteem crumbled which affected the choices I subsequently made. My boyfriend went on his own way which compounded my self worth. I started drinking, did not choose college which I had always planned to do, and it affected my future choices in partners. It ultimately cost me my marriage many years later.
- 6) How has your abortion affected others in your life? My mother took her secret of my abortion to her grave 2 years ago. Underlying secrets always affect relationships. The abortion affected my relationship with husband and ultimately led to divorce.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Run the other way! Abortion destroys 2 lives - one is definitely the child, but the mother dies slowly from the inside out as she (me) struggles to deal with the pain of the loss, grief, despair, and intense sadness over the choice to abort.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Like Satan convinced Adam + Eve that eating the fruit was okay and they bought the lie, as a nation, so have we. My child had a beating heart and since I'm a human - the child was human; therefore my choice stopped that beating heart. Taking a life regardless of it's location is wrong - inherently wrong. The child's pain is over in a short time. Mothers continue to suffer for a lifetime, and like cancer, invades all areas of relationships with others - her own well being.

- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No. I was asked what I wanted to do when I was told I was pregnant. When I said I wanted an abortion, I was told that they (the place in Atlanta) would arrange everything to get me to the clinic in New York.
- 3) Were you adequately informed of the consequences of abortion? Not that I remember. I have a hard time remembering a lot of details.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No. Yes I had breast cancer in 1999
- 5) Did anyone pressure you into having an abortion? If so, who? No. A friend persuaded me.
- 6) How has your abortion affected you? I live everyday knowing that I killed a human being who would have been an adult now.
- 7) How has your abortion affected others in your life? My husband (the father of my baby) doesn't ever talk about it. It has made me overprotective of my children. I have trouble making close relationships.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? Do whatever you can to carry the baby, even if it means putting it up for adoption. At least you will be giving life to the baby and you will be able to live with yourself.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Life begins at conception. We are now able to hear a baby's heartbeat after only a few weeks after conception. Aborted babies feel pain. Abortion affects the mother physically and emotionally as well as killing a baby.

- 1) Tell when and where your abortion occurred: at Northside Hospital and in the summer of 1974
2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: They did not reveal the truth of what was really taking place.
3) Were you adequately informed of the consequences of abortion? Not at all.
4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No and No.
5) Did anyone pressure you into having an abortion? If so, who? Just people around me.
6) How has your abortion affected you? It has stayed with me all these years. I dealt with shame, guilt and knowing I murdered my baby son.
7) How has your abortion affected others in your life? I have spoken to young women that would listen to tell them there is another way.
8) Based on your own experiences, what would you tell a woman considering an abortion? Please realize that life is precious and please don't raise an abortion.
9) Based on your own experience, what would you tell a court that believes abortion should be legal? They're fooling themselves! It's murder!

"I have read the above and foregoing statement and the same is true and correct."

BEFORE ME, the undersigned authority, on this day personally appeared Debbie Gilleland (Print Name),
whn, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal
knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: June, 1976. Northside Women Center Atlanta, Ga
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No, I was led to believe that my baby was just tissue - not a live yet.
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? Yes If so, who? My mom, who thought it would be best for me, wanted me to have one. The father wanted me to have an abortion also.
- 5) How has your abortion affected you? After my abortion, I started drinking and sleeping around. I had no self confidence or self worth. When my second child was born or rather when I carried him, I realized that this is a real person with a real heartbeat. After he was born, I started praying for forgiveness for my sin of killing my baby. When a show about abortions came on one night, all I could do is sit there & cry, begging for forgiveness. God gave me forgiveness the 1st time I asked, but it took 4 years for me to forgive myself.
- 6) How has your abortion affected others in your life? By using my experience, God is allowing me to help other women by volunteering in a CPC. My family has been very supportive and non judgemental toward me & I feel that I have helped others.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? That you need to be in deep prayer about what you are about to do. The baby you are carrying has a heartbeat and has feelings, not a blob of tissue. I have never heard anyone say that they were glad they done it, in fact, they have a hard time dealing with the loss after it.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? In the Bible it says "Thou shalt not kill" We sometimes give murderers the death sentence and then say it's okay to kill an innocent baby. Where is the justice in that? God has a plan and a purpose for each person born. Who should put themselves above God by allowing women to choose whether their child should live or not. That decision should be made before you have sex.

BEFORE ME, the undersigned authority, on this day personally appeared D. [redacted] m. [redacted] D. [redacted] (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: August 13, 1971, Southside Hospital, Long Island, New York.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: I was told only that the pregnancy would be ended with a D&C procedure. I knew I was losing a child.
- 3) Were you adequately informed of the consequences of abortion? No. I didn't know that the hurt would never go away. Any future physical problems were not discussed.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No. I don't think there was any knowledge of the link in 1971. I have had a benign tumor removed.
- 5) Did anyone pressure you into having an abortion? If so, who? Yes, the father and his friend - an older attorney who assured me that I would have everyone's help if I carried the baby & that my husband could take my kids - I would be an unfit mother like killing my baby would make me a fit mother?
- 6) How has your abortion affected you? It affected me in so many ways I can't list them all. I lost trust in people - in love - in God. I looked into reincarnation in hopes that my child would return in another pregnancy. I felt hopeless inside and used "cocktail hour" to get through my life.
- 7) How has your abortion affected others in your life? I withdrew from my kids (5 & 9 at the time) and resented the fact that my stepchildren were welcomed to this world and my child was not. I felt inferior, unlovable and lonely.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Get away from the person or persons pressuring you. Talk to everyone until you find help to have your child. Your circumstances will change - but if you have an abortion the death of the child is permanent.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? To carefully weigh the mental and physical problems that affect women and are caused by abortion. Also to look at the consequences suffered by our society as well. This American holocaust must be stopped. We are on a slippery slope, where will it end? Who will chose in the future if a life is worth living?

- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Women are in emotional shock when faced with a "Surprise" pregnancy. Show the true picture of a 6-8 wk fetus - one that looks an inch long that is perfect - I now work in surgery and have seen a perfect 1-in-long BABY with a beating heart - it was a tubal pregnancy so we had to end its life to save the mother. - 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No - I was told it was just a blob of tissue. And it would be over in 10 min. It's been 13 years and it still isn't over.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? Yes. If so, who? The man who lived across from my house. He was a high rank service man, who thought my life was over if I had a child. He paid for it, + arranged for a driver
- 5) How has your abortion affected you? There are no words to express the remorse I have felt over my abortions, or how deeply I have mourned. My abortions broke my heart. The guilt and shame that followed my abortions prevented me from sharing my hurt with anyone. I still find myself wondering what they would look like now they would act. How old they are. I will never forget. It will never be over. Abortion is not good for anyone.
- 6) How has your abortion affected others in your life? My mother didn't know till afterwards but she cried, + cried. she lost her grandchildren. My Dad knew but didn't say anything, I found out later he was hurt.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her about other options. I would tell her she would always fill a void in her heart. I would tell her that her baby is a real, living child, who deserves life. Killing our children is wrong
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? America gave us a choice, saying we should have the right to do what we want with our bodies, but this isn't our body. This is the body of a child. - 1) When and where did your abortion occur? October 13, 1999 Planned Parenthood Stamford, CT
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: They told me I was pregnant on Oct. 10, 1999. I did not know the age of my baby nor my due date. Oct 13 I had an abortion with zero information given.
- 3) Were you adequately informed of the consequences of abortion? They did not tell me anything about abortion. All they said was "we will remove the tissue for you."
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? Boyfriend
- 6) How has abortion affected you? I felt like I spent the next 2 years of my life in a hole. I felt so much shame and guilt that it physically made me sick, especially since my boyfriend was the only other person that knew. I am a daughter of a pastor, so I felt that I had to keep quiet. It took another year of my life to really begin to understand what I had done and grieve for my child's death. It was then that I really began to receive forgiveness from Jesus Christ. My abortion has changed my life. Not a day goes by that I do not think about my child.
- 7) How has your abortion affected others in your life? It has given them understanding of the truth concerning abortion as murder.
- 8) Based upon your experience, what would you tell a woman considering abortion? You are a mother!! Your child is a gift no matter what your circumstances may be. Give him or her a chance to bless your life. Jesus loves them! You are not alone.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? The hearts and minds of women are being destroyed, because they are being deceived in believing they are not mothers even though inside they feel pain and grief. We grieve for 1 killed in a car accident, why do we not grieve over 50 million babies murdered? Abortion is murder!

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: Atlanta, Ga Downtown clinic
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? No If not, explain: That fetal tissue would be washed out by a saline injection. Not that the baby would drink it, be in pain and die and then they would suck his dead body out of me.
- 3) Were you adequately informed of the consequences of abortion? No - chances that I might never conceive again, breast cancer risk not informed of severe depression and suicidal thoughts for the next 5 years.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? Not yet
- 5) Did anyone pressure you into having an abortion? Yes If so, who? The baby's father, my parents, the clinic phone counselor
- 6) How has your abortion affected you? That baby would have been 11 years old now, and it haunts me that I murdered him so easily, without much thought. I have lived through many traumatic events - incest, rape, divorce, neglect, drugs, near-death surgery of all my life it is the one day and I event that changed my life the most. I would most like to take back.
- 7) How has your abortion affected others in your life? My 8 year old frequently asks why I killed his brother before he was even born. My husband can't talk about it because of his guilt over 2 aborted babies.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Do you realize that you would be taking the life of an innocent child that can not speak up for their rights. How many people are begging for children and the gift (priceless) you could give them. Do you want this decision to haunt you the rest of your life?
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? In the best circumstances, women are very emotional, scared and confused at what is happening to their bodies during the first trimester. If post-partum murders aren't legal and to be avoided, we also need to protect life from the start and avoid abortions as well. Every life is precious.

BEFORE ME, the undersigned authority, on this day personally appeared Tina C. Brock (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: I had an abortion in Atlanta GA. in August of 1985.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No, I was not told anything about abortion. I was not counseled in any way. I was not told that it was a form of surgery or anything to that effect. I was handed papers to sign, no one went over them with me. I was too emotionally unstable to be signing any papers. No one told me of the risks I was taking.
- 3) Were you adequately informed of the consequences of abortion? No, I was not told that having this abortion would affect me emotionally for the rest of my life, and I was not informed of all the physical affects it could have had on my body or that I could even lose my life. Or that I was taking the life of my baby.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? I most definitely was not informed of a link between abortion + breast cancer. My mom had breast cancer, but I thank God I have not had breast cancer.
- 5) Did anyone pressure you into having an abortion? If so, who? I don't believe I was pressured into having my abortion although family members took me there + no one advised against it. I only wish someone would have told me about a crisis pregnancy center or at least cared enough to counsel me about it.
- 6) How has your abortion affected you? After my abortion, my life was very emotionally unstable. I had severe episodes of depression + found myself crying uncontrollably for no reasons. Thank God a few years ago I accepted that God had forgiven me for killing my baby or allowing doctors to kill my baby, and God has healed me of my depression.
- 7) How has your abortion affected others in your life? No one wants to talk about it, because abortion is so horrible.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her everything that I was not told + I would tell her everything that I have learned about abortion. I would tell her that it is a living baby she is carrying + not just a blob of tissue, and that baby deserves life just as we live. I would explain the other options if she could not keep the baby.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would ask them since murder is illegal + they know it is, then why are they allowing millions of babies to be murdered each year. ABORTION IS MURDER!!! I would also ask them do they care about all the emotionally + physically scarred women + men left over after an abortion.

4) Did anyone pressure you into having an abortion? NO If so, who? _____

- 5) How has your abortion affected you? I have had an emotional rollercoaster in my life ever since it took place. I have experienced Depression, Panic Attacks, Grief, loss, Bouts of crying spells, anger, Regrets, no peace of mind, unforgiveness of self, mood swings, confusion and alot of mental torment. IF I could turn back time it would have never taken place. IF only I knew what was coming years ahead. This affidavit doesn't have enough room to explain the damage.

- 6) How has your abortion affected others in your life? Yes, my husband has heard me constantly talk about how much of a mistake I made. we would have made it.

- 7) Based on your own experiences, what would you tell a woman considering an abortion? no matter how difficult it may seem ^{relationship} wise, financially, support & the fear of having an unplanned child, you will and can make it. It is not worth the years of confusion to come.

- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? It is wrong for many reasons. Not only do you destroy your own child but, yourself too. IF it was not legal we would not have so many emotionally unstable people along with a society on medications to numb the hurt. I would like to know if the court has experienced such a traumatic experience. IF so, why and how can they live with a peace of mind knowing it is wrong and painful. June 28, 2002

Ms. Susan Renne
Texas Justice Foundation

Dear Ms. Renne,

Thank you for the opportunity to submit my affidavit. Hearing Pastor Hagee's program came at an interesting time for me. It was a few days before going in for surgery. The surgery would be an additional time of rebuilding in the lower abdomen. This is the sixth time to be cut there. I now have a hip to hip smiley face, it took 33 staples to close. I am recovering and grateful for that.

Not every surgery is because of the abortion I had when I was in my late 20's. But several of them are a direct result of the abortion. Can I prove that? No. Does anything else make sense? No.

With rare exception, I have not ever shared with people outside of my immediate family, that I had an abortion. I felt shame right away even though I was not a Christian at the time. I have never gone for counseling about the abortion. I know God does not want me dwelling in the past. I do not know how to forgive myself even though I believe Christ died to do just that. I know that is filled with conditions.

On June 11th, I was operated on. Much of the surgery was to correct what was not done properly two and a half years ago. Two and a half years ago, I made jokes about needing the kind of doctor that builds men into women, because I wanted someone who knew how to rebuild what was left inside of me.

Here I am at the age of 60, finally believing and hoping that the urologist from Emory Hospital has rebuilt properly and for the final time. On the third day after the operation and while still pumping morphine in, I was complaining to God about the pain and discomfort of having to go through it all again. I wanted it over. As I lay there feeling very sorry for myself, I recalled that I was alive and frustrated by the mutilating surgeries. But the baby, the innocent one that I did not give life to 30 years ago, must have gone through such horrible excruciation pain. I presume the baby was sucked out of my body, it's tiny limbs ripped apart, no anesthetic for the baby, just the adult making the "choice".

I stopped feeling sorry for myself and began to weep quietly. How dare I cry for me when I had inflicted so much destruction on another human being. The tears never remove the shame or guilt. I do not want to remain quiet any longer.

I have spent a good part of my life as a public speaker. I am willing now to speak about the emotional pain that accompanies my heart anytime I think of this great injustice to the

unborn voiceless children we throw away in America. The outcry about September 11th was appropriate. It's interesting how that bothers more people than abortion.

If my story about female parts falling out of my own body will help one young woman choose against abortion, it would be a blessing to me.

Thank you for what you are doing. And God bless you.

Sincerely,

Toni

Dear Ms. Renne,

Thank you for the opportunity to submit my affidavit. Hearing Pastor Hagee's program came at an interesting time for me. It was a few days before going in for surgery. The surgery would be an additional time of rebuilding in the lower abdomen. This is the sixth time to be cut there. I now have a hip to hip smiley face, it took 33 staples to close. I am recovering and grateful for that.

Not every surgery is because of the abortion I had when I was in my late 20's. But several of them are a direct result of the abortion. Can I prove that? No. Does anything else make sense? No.

With rare exception, I have not ever shared with people outside of my immediate family that I had an abortion. I felt shame right away even though I was not a Christian at the time. I have never gone for counseling about the abortion. I know God does not want me dwelling in the past. I do not know how to forgive myself even though I believe Christ died to do just that. I know that is filled with conditions.

On June 11th, I was operated on. Much of the surgery was to correct what was not done properly two and a half years ago. Two and a half years ago, I made jokes about needing the kind of doctor that builds men into women, because I wanted someone who knew how to rebuild what was left inside of me.

Here I am at the age of 60, finally believing and hoping that the urologist from Emory Hospital has rebuilt properly and for the final time. On the third day after the operation and while still pumping morphine in, I was complaining to God about the pain and discomfort of having to go through it all again. I wanted it over. As I lay there feeling very sorry for myself, I recalled that I was alive and frustrated by the mutilating surgeries. But the baby, the innocent one that I did not give life to 30 years ago, must have gone through such horrible excruciation pain. I presume the baby was sucked out of my body, it's tiny limbs ripped apart, no anesthetic for the baby, just the adult making the "choice".

I stopped feeling sorry for myself and began to weep quietly. How dare I cry for me when I had inflicted so much destruction on another human being. The tears never remove the shame or guilt. I do not want to remain quiet any longer.

10/29/02 I did send an affidavit w/
a copy of this letter back in June.
It obviously did not get to you.

Thank you for inviting me to
participate again.

God Bless you & your efforts

Before me, the undersigned authority, on this day personally appeared Joanne Vargas, (Print Name) who, being by me duly sworn, upon oath, stated the following facts:

My name is Joanne Vargas (Print Name) My address is
[REDACTED] I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

At the age of 16 I had my first abortion. I grew up a straight A student who lived a life for the sole purpose of pleasing my parents and making them proud of me. So when I found out I was pregnant, it was extremely difficult for me to tell my mom. She kind of figured it out on her own since she had noticed that I hadn't had a period for a few months. Of course she was devastated & angry but certain that we could hide this 'mistake' from the rest of the family if I had an abortion. And my boyfriend claimed he would stand by me no matter what I ended up doing. I got talked into going through with it with the all too common excuse that's fed to teenage girls about their futures and careers.

In the end it turned out that my boyfriend didn't agree with the decision and stalled several weeks as he "tried" to come up with the money for it. Finally, my mom got tired of waiting and took me to Midtown Hospital herself. Everything was happening so quickly that I felt numb to everything around

me. When we arrived that morning, I was very nervous but still very ignorant of what was about to happen. The hospital conditions were so poor that the women were lying up against the walls for lack of chairs. When we got on the floor, the staff made us get up. The line was so long that I remember looking around and thinking "wow, at least this is not the only one... it must not be such a bad thing."

It was finally our turn to go in. They took me into a small room to do an ultrasound & see how old the baby was. Although they would say things such as "looking to see how large the tissue was." They told me that I had to face the wall and I wasn't allowed to look at the monitor.

After the ultrasound, they took me in to speak to a doctor who told me that from the ultrasound, the tissue was too large to do a regular abortion. I was 16.5 weeks pregnant. He said I needed to have a different procedure done that would have to be a little bit more complicated and costly.

My mom said that it was fine, to do whatever it took. She left to get the rest of the money and I was told that they needed to insert something called a laminaria into my cervix to dilate me. The doctor said that once they inserted it, there was no turning back. They went ahead and inserted it. That was when the horror began as I realized at that moment what I was doing.

Vargas ³

I was sitting in a hallway waiting for my mom to return from getting the rest of the money. As close there I started getting really bad cramps. They stopped for a few minutes and I felt my baby move for the first time. As the cramps continued, she moved all the more and I knew she was in pain. I could feel it in my heart that my baby was suffering and it was all my fault and there was nothing I could do. I just sat there crying. They moved me to a different room where I sat waiting with a roomful of older women, all of us in hospital gowns waiting for our turn.

When it was my turn, the nurses put me on IV and took me to the operating room. At this point I had been there for almost 11 hours. The operating room was dirty, old, with holes in the walls & the paint cracking & peeling off. I remember tears streaming down as the doctor was saying, "Alright, ready to get cleared up?"

I woke up sitting on a chair in a pool of my own blood, dripping down my legs onto the floor. I remember feeling so ashamed that people walking by and looking at me as close there with all that blood. I felt so empty, so dead, so ashamed, so filthy, so naked. And still kind of numb and in shock.

I went home that evening as I entered into the

most severe depression I ever experienced in my life. I remember feeling so confused because I felt an obligation to be happy that my problems were over, yet, little did I know, they had just begun. I was sick for almost a month after that and I wouldn't stop bleeding. My boyfriend called me and told me that he was disgusted with me for murdering his baby. Then he tried to kill me. He kicked down our front door and tried to grab me by the neck to kill me.

At school, my grades went down from straight A's to straight U's in 6 weeks because I spent my days in the counselor's office crying. Algebra was the only class I was doing great in, because math kept my mind off my baby. I couldn't go to Biology because we were studying genetics & seeing the pictures of babies in my book would freak me out.

I started having suicidal thoughts until my mom encouraged me to get an after-school job so I can focus on other things. She also sent me to a psychiatrist who I went to see for about 3 months.

Just as things began to improve, my boyfriend who I had broken up with at this point, came over to my house. It was around 11pm & my family was asleep. He said he just

wanted to apologize for the lies he had been feeding me and wanted me to know that he loved me & wanted to be with me forever. At this point, we were outside talking. He pulled me by the arm around to the backyard and raped me. While he was raping me, he said that I was crazy if I thought I was going to get away with killing his baby. And then he said, "This is what you get for killing my baby, I hope you're pregnant again."

I didn't ever realize what had just happened because I was in such shock. He left me there crying, and a month later I found out I was pregnant again. This time, my mom didn't waste any time in telling my boyfriend's mother about the incident and the previous abortion (which she had no idea about). His mother gave my mother the money for the abortion and she took me to the Planned Parenthood Clinic. This clinic was much nicer than Middtown Hospital even though the nurses didn't even know how to draw blood.

I had the procedure done that August and started my Senior year of high school. At this point I had lost all self-respect, dignity and I just didn't care what I did anymore since I had already done the worst thing a human being could ever do, and twice. So I started sleeping

Largas ⑥

around a lot. After high school I started doing drugs and smoking. Sleeping with whoever treated me nice. I didn't know how to make a relationship work and in a way I didn't want them to work, because I couldn't stand the thought of having to share my past, knowing that I couldn't hide it forever. And the fear of the possibility of not being able to have children freaked me out even more. For years I felt as if I could never put any decent man through the pain of not being able to have kids with his wife. So I would choose men that I knew I'd never marry. And although I longed to be loved and longed for intimacy, I didn't feel I deserved it. I didn't believe I deserved a good man, a good marriage, or even a good life. I was afraid of children for years and felt as if I couldn't even trust myself around them, since I killed my own children.

My life was basically a living hell and if it wasn't for Jesus, I'm convinced I wouldn't be here today. I know I would've taken my own life eventually. But He saved me from myself. From the lies that ran through my mind, day in and day out. I found forgiveness and freedom and life in Him. And I finally forgave myself.

Vargas
JR

Now I want to get my story out and encourage any woman that's considering abortion as an 'option' to choose life. Abortion is murder, not only of children, but it brings death to your own life. The consequences are real and they are horrible. Especially when you realize that every life has a purpose and a plan. You will forever wonder what your child would have looked like. You will keep track of birthdays. You'll wonder if your baby had your hands or your eyes. That life is real, it's fragile. God created it for a purpose. Your baby is different from everyone else on earth. It is a unique creation and gift. Your womb is a place of nurture and safety for this child to develop in. What honor that God would choose you to carry a life within you whose destiny could change the world. What incredible honor to have life in your womb. That you are chosen to be a mother, whether you planned it or not, if there is a baby living inside you, that life was created for a purpose!

It's your body, yes, but within your body lies a separate life that has a special purpose and destiny. Please, don't kill your own child. You will regret it forever. I know, although I'm healed, forgiven and whole, I will always regret taking

Question 8:

Abortion is not a quick-fix. You're probably thinking I just want this situation to be solved. But doing things that seem right in your own eyes will only make matters worse. Legally you do have the right to an abortion but do you morally? I believe the Bible in Gen 1:26 where God says "let us make man in our image." All life has meaning and purpose because we are made in the image of God. God created this life in you. You do not morally have the right to take it.

1.

I have regretted the decision I made 25 years ago. No one told me there were other alternatives. Adoption, single parenting and marriage are all options that bring life. There are people who will help you. Only by the power of Jesus Christ could I deal with the guilt and shame of what I have done. There are physical dangers to abortion including the inability to have children and death in some cases. There are emotional consequences. I have experienced extreme remorse, guilt, depression and suicidal thoughts.

The answer to your problem is not an abortion. It will only make matters worse. There is hope in the person of Jesus Christ. Do you know Jesus Christ? Have you fled to Him for forgiveness of your sins? If not please submit your life to Jesus Christ. Confess and repent of your sins. "For the wages of sin is death, but the gift of God is eternal life in Christ Jesus our LORD." (Romans 6:23)
Come to Jesus Christ and believe.

Question

2.

9. From my experience abortion hurts ~~the~~ women and adds nothing to society. It takes from society a productive member. I believe abortion has contributed to the rise of child abuse, suicide and youth euthanasia. When life is disregarded in the most helpless of stages, (a baby in the womb,) I believe it can be disregarded in any stage. All life has meaning and purpose because we are made in the image of God. God created life and we don't have the right to take it. Please: reconsider the current laws on abortion.

- 4) Not really pressured, but certainly not discouraged.
I was so emotionally distraught during my abortion I can remember crying out, “God, please forgive me, please forgive me,” even before they began the abortion. No one, nurses, assistants or doctor stopped and said, “Are you sure you want to do this?”
- 5) I am not sure there are words enough to describe the depth and the degree in that the murder of my unborn child has affected my life. Right after the abortion, I had a horrible sense of loss and I can remember feeling my stomach and just crying realizing my loss and feeling the emptiness.
The thought of having my own children after I was married, was extremely traumatizing to me and I was very nervous around little ones and babies. I was extremely traumatized as time to begin conceiving, I was 29 by now, was in my face. I ended up having a nervous breakdown that was due to some additional precipitating factors. I, however, have no doubt that my abortion was a definite contributing factor. Another affect the abortion had on me, was a loathing and self-hate of myself. The abortion caused me to doubt myself and not have nay confidence regarding my opinions or judgments. I have become very indecisive, emotional and have allowed others to make decisions for my life that were I not so doubtful of my own decision-making ability that perhaps my life would be much different today. I grieve over my baby to *this* day. I didn’t have to go to jail for murder. I put myself in jail emotionally. I ache knowing that one day my baby won’t show up at my doorstep and say, “Are you my mother?” I destroyed that from ever happening. I want others to know the pain and grief I have suffered for 23 years. I sold my soul out to the devil the day I allowed others to take my baby. I was very vulnerable and alone. I was not in any kind of condition to make a decision that has molded and shaped my life far beyond what I’m sure I can even know or understand. All I know is I still ache over that decision and I think it hurts more rather than less today because with each passing year, I realize more and more the brevity of the decision I made. If I were given the ability to go back in time and change one decision in my life, it would be the choice I made to take the life of my unborn child with the help of others. They, however, weren't making their decision from an emotionally distraught position like I was. I could see myself being a much, much happier person today and much more confident regarding my decisions and choices.
- 6) My daughter who is 14 knows of my abortion, and I can tell at times she wonders and wishes she could have had her big sister. My marriage has suffered greatly due to my abortion. Because I have been at times indecisive and uncertain, it creates conflicts and problems between my husband and myself. He has also watched me grieve and hurt off and on during the 20 years of our marriage.

- 7) DON'T DO IT. There are so many places offering support and help now that weren't there when I became pregnant. Adoption is a much better option than abortion because you aren't causing the death of your unborn child, plus you can rest in knowing they are alive out there and living the life that God breathed into them while they were yet in your womb.
- 8) Abortion is another word for murder. It is a convenient out, but not one without consequence. The baby is a life that has every right to live just as much as you or I. I have grieved 23 years over what, certainly not a blob of tissue. It was a living, breathing baby.

The U.S. Supreme Court has given pregnant women, physicians, nurses and some organizations the right to make the decision that only God is suppose to make and that is who lives and who dies. Let's stop playing God and allowing legalized murder.

I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

I was nineteen years old and eight weeks pregnant and very scared about my situation. I had a friend that convinced me to have an abortion so that I could have a life. on March 19, 1988, I entered Planned Parenthood in Augusta, Ga and sitting in a room full of women waited till it was my turn. My turn came up after listening to several women talk of an abortion for them being a form of birth control. I was laid on a table and the doctor injected a medicine to cause me to dilate 7cm. I was told once this occurred I could not change my mind. I was not given anything to help relax me and I was awake during this whole process of destruction. I remember telling the nurse I would never do this again. I have gone through a time of depression and longing for my child and forgiveness. I suffer from panic attacks and I still get very emotional, when someone talks about abortions. I am telling my story, so that the courts will reverse the ruling to illegal abortions and to help others to understand, they are destroying a human life. I long to have children now, but I feel that I am not worthy because of my past actions.

BEFORE ME, the undersigned authority, on this day personally appeared Mary K. Jeffers (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 1970 - New York City 1977 - Ft Sill, Oklahoma
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Simply "tissue extracted" The doctor at Ft. Sill said, "Its simply trying to peel an orange with your eyes closed." After talking the Ft Sill doctor this was my 2nd abortion. He just said, "You're going to have another abortion!"
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? yes
- 5) Did anyone pressure you into having an abortion? NO If so, who? NO

6) How has your abortion affected you? After 14 yrs I began to grieve over what really happened. I had suppressed my feelings so intensely that I was totally disconnected to the events. I was saved in 1978 & in 1986 moved to a very pro-life church that was always talking about "pre-life & babies" I would feel very uncomfortable & began to get angry at the pro-life speakers. After attending a large pro-life rally in Wash D.C. in 1991 the "defense" walls began to crumble & the Dam burst!

7) How has your abortion affected others in your life? I had problems "bonding" with the 2 children I gave birth to later. On a positive side, my children have a respect for life & would never consider abortion.

8) Based on your own experiences, what would you tell a woman considering an abortion? First, that she is disrupting a plan that God has for her life. If she is disobedient & takes the babies life, those same issues will keep surfacing. Also she will lose a part of herself.

9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is a post-traumatic stress disorder, regardless of how a woman may feel at the time, over the long run abortion causes much more stress, confusion & deeper issues than choosing to give the baby life.

Addendum to Operation Outcry Affidavit

I would like to add that if abortion is such an important thing to legalize and is basically for the "wellness" of the mother, then why does the American Psychiatric Association list it under the diagnosis as a 'Post Traumatic Stress Disorder.' Any time a person has been diagnosed for PTSD they have usually experienced something brutal and barbaric; something that the human psyche is not able to process well. We can compare a woman's right to choose with America's right to go to war, such as during the Viet Nam conflict, when so many men and women suffered from PTSD. (After World War II, they called it "shell shock)."
Regardless of whether those men and women chose to go to war or were forced, they were all capable of suffering PTSD because of the intense "trauma" inflicted on their five senses. This too happens to ALL women who have had abortions, regardless of whether they willingly chose abortion or had the abortion against their wills; the fact remains that during some time in their life they will experience the symptoms of PTSD. I am a living example of this scenario. I was very relieved and willing to abort my babies, applying "numbness" and "indifference" to the events. I completely blocked it out of my mind and chose to ignore it for 14 years. What I did not realize was that the "suppression" of what actually took place was manifesting in my life as "coldness" and the inability to have intimacy with anyone, including my children and my husband. When I began to hear about "abortion" and those who wanted to protect babies, I found myself becoming irritable and very uncomfortable. I now realize that what was happening was my defense mechanisms were being ram-rodged and I then had to decide what to do with the new input. The trip to the Washington DC rally in 1991 was a "set-up" by the Lord to totally destroy my defenses. I say this because I did not plan to go nor did I want to go to this rally. Circumstances were set into motion that basically I could not ignore. My husband even went with me to the rally and saw first hand how I had suppressed my losses.

Over the years, I have given my testimony and for a few years I had post abortion support groups in my home. I would place ads in the newspaper for women who needed a biblical support group and I received multiple calls. During these years, I watched many, many women of all ages pour their hearts out and grieve over their loss. All of these ladies said that they wished they had allowed God to finish the process in their lives and give birth to their babies, regardless of whether they placed the baby for adoption or parented the baby, it did not matter. Abortion was a "DEATH" that they had to face and that they were responsible for this death. I even had one young girl (very seizure prone) who for medical reasons was told that because of her frequent seizure activity she should not attempt to carry this baby. Even though she had a legitimate excuse and was not married she still grieved over the loss of this baby. It is a DEATH and must be acknowledged so. During the end of the 12-13 week support group, we would have a memorial service for all of the babies. Every woman who participated would name their

Addendum (cont)
page 2

child and said that this was the most healing for them because they finally gave their babies dignity and acknowledged their lives.

Myself and all of these women could have refused to let down the defense walls and instead become more angry and bitter, never realizing the pain inside caused by that traumatic time. Just like many of the post war soldiers who would come back home and never acknowledge the losses they experienced until one day their minds and emotions could no longer hold the burden and they would act out in some way inflicting pain and suffering with those closest to them. Many of them still never realize the source of their pain. So it is with thousands of women. They are "walking wounded" carrying on as if nothing has happened and all the time continuing to justify what they did. So many of these women, (unfortunately) are in places of influence.

Over the years I have also worked with women who have placed their babies for adoption. I have spoken to these women on various occasions years after the placement of their babies. Yes, many of them grieve over their loss and wished things could have been different, but the grieving and loss does not even touch or compare to what post abortion women go through. These special birth mothers who chose life for their babies at least get to see pictures of their beautiful children and do not need to have flashbacks of having life ripped away from their insides. They have the satisfaction of knowing they allowed the child to live compared to the agonizing grief of allowing their child to die!!! I don't believe there can be any more grief than the death of a child. Why would anyone want to legalize that? They simply do not understand.

BEFORE ME, the undersigned authority, on this day personally appeared Lynn C. Hurley (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: Augusta, GA - November 26 1977 - at a clinic located directly across the street from the Medical College of Georgia
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: NO - I remember being told my baby was a "clump of cells about the size of a small jelly bean". I remember being shown pictures of supposed fetal development & all the fetal drawings in all stages did, in fact, look like "clumps of tissue".
- 3) Were you adequately informed of the consequences of abortion? NOT the psychological effects. I did know there was a possibility of - obsessive bleeding - infection and also that sterility was a side-effect.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? NO, but at that time I'm not sure anyone knew?? I have not had breast cancer.
- 5) Did anyone pressure you into having an abortion? If so, who? NO, I was not pressured. I was terrified of my father finding out I was pregnant.
- 6) How has your abortion affected you? Emotionally & spiritually. 17 years I carried a heavy load of emotional pain, shame & guilt. I was so afraid someone might find out what I had done. I drank & smoked pot to mask emotions.
- 7) How has your abortion affected others in your life? My husband, who is very supportive, has had to live with the depression I experienced through the years. I couldn't attend Mother's Day, the Anniversary of my abortion, & what should have been my child's birthday.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? The guilt, own shame, emotional numbing, etc. are much worse and last far longer than the embarrassment you may feel as an unwed mother pregnant for just 9 mos. Give your baby life and you can look back many years from now knowing you did the right thing.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? It is never OK for a mother to kill her child, no matter what age that child is. In an abortion, not only is a child killed, but a mother is making around wounds, and will carry the scar for the rest of her life.

I was born into a Christian home and raised in Sunday school and church. I can't remember a time in my life when I did not know about God and His Son, Jesus. But in my middle teen years, I began to feel an unexplainable void in my life, even though I couldn't put my finger on exactly what was missing. Then one Saturday night in February of 1972, at the age of 16, I attended a youth rally with some friends at a sister church in our community. I don't even remember what the message was about that night, but as the invitation was called, I was certain that the Holy Spirit was dealing with me. I answered the call to come forward. There at the altar I confessed to the Lord that I was a sinner. I asked forgiveness then, believing that Jesus Christ had died on the cross for me. I invited Him to take control of my life and to use me to fulfill the purpose for which He had created me. As I prayed with one of the counselors to commit my life to the Lord, the void I had felt was filled. I was not sure of exactly what God had planned for my life, but I had faith that He would reveal it to me. I had assurance that when my life ended, I would live with Him forever. I was then baptized in my church shortly thereafter.

Just a few months later, in September of that year, I began my junior year in high school. I began to date someone one year older than I was. Over the next several months, our physical relationship progressed very gradually—so gradually, in fact, that I could not see what was about to happen or the danger of it. I had never planned to have a sexual relationship before marriage, but then, I had never planned not to, and as I've heard it said many times, "To fail to plan is to plan to fail". By the end of that school year, I had stepped out of God's perfect will for my life. There was one area of my life that I had taken back from Him.

I was an honor student. I was responsible, dependable and well thought of by others. I was not a likely candidate for causing or getting into any kind of trouble. I was even president of the youth group at my church. I knew that what my boyfriend and I were doing wasn't right, but, after all, we really loved each other and planned to get married someday. God could have every other area of my life. I would control just this one. No one would ever have to know.

We became engaged the Christmas after I graduated from high school, but things did not work out as I had hoped or planned. At the end of my second year in college, after almost four years of being together, we broke up. I had no idea that I wouldn't be able to handle what I was left with. There are very strong emotions and feelings involved in a sexual relationship that were never meant to be experienced outside of marriage. We were both left severely wounded and permanently damaged. The emotional wreckage seemed irreparable. I became very depressed and had suicidal thoughts.

At the end of that summer, having finished my first two years of school at a small, private Christian college, I headed off to a large state university with my extremely low self-esteem and one thought on my mind, "I've had the worst, most miserable summer of my life. Now I'm going to have FUN, and plenty of it!" I made a lot of new friends during my first year at this new school and they all liked to party. I really didn't like the taste of beer, but I knew I could learn to like it. The alcohol made me much less inhibited and helped me forget painful memories. I wanted more than anything to once again find love and acceptance, but I was looking for them in places and

relationships where they could not be found. Everything I was looking to boost my self-esteem only served to lower it even further. I just could not see it at the time. By the end of that school year my grades had taken a nosedive. I had even failed two classes! Academic failure was before unheard of for me. I had always taken pride in my ability to study hard and earn good grades.

During that past year at the university, I went to church a couple of times a month, maybe. I knew my lifestyle was not one to be proud of, but I figured if I'd just go and pay God a little lip-service I could then go out and do as I pleased until I made it back to church again. Control of my life was now pretty much in my own hands, and the self-destruction continued.

In the summer following that school year, I got a job in the small hospital in my hometown. I immediately began to date an assistant for one of the doctors at the hospital. I knew deep down inside that he was not someone I'd really like to spend the rest of my life with, but I tried so very hard to convince myself that he was. He made me feel attractive and wanted, and that's really all I was looking for.

At the end of that summer I went back to the university for a second year and he began his first year of medical school. We were separated by a two-hour drive, and I'd sneak off to spend weekends with him whenever I could. It was during one of those weekends in October of 1977 that the unexpected, unthinkable, "it'll never happen to me" event took place. I just knew it a couple of weeks later. Being in medical school, my boyfriend had access to a lab, so he immediately came to collect a blood sample, took it back to the

lab and ran the test. It was positive. I was pregnant. His exact words to me were, “We’ve got to get rid of this thing!” That stung. I don’t even know what I wanted him to say, but that was not it. I know I agreed with him silently. I just couldn’t bring myself to say it out loud.

I was so scared. I knew I could never tell my parents! I didn’t want to disappoint them and I was so afraid of the anger I was certain to face. My father had a serious heart condition, and I was so afraid this news would just push him over the edge. He actually did die just one year later.

I had to tell someone. I decided to confide in a secretary I worked with in an office on campus. I was so surprised when she told me she’d gotten pregnant two years before and had an abortion—there was “nothing to it”—it was like “nothing ever happened”. Could it really be so easy? I then told a male friend. He said whatever choice I made and felt was right for me would be okay. For a fleeting moment I thought of what it might be like to have the baby and keep it. But then I’d be forever connected to the baby’s father and at this point I was pretty sure I didn’t want that. Also, I may never be able to finish school and attain the career goals I had set for myself. What about adoption? The most selfish thought I have ever had came to mind: “I’d rather kill my baby than carry it for nine months and give it away, then have a child of mine walking around somewhere in the world that I would never know.”

Thinking only of myself, what I wanted and what I thought would make me happy at the moment, I decided abortion was my only way out. It seemed like a quick, easy cover-up for a mistake I’d made. I wasn’t talking to God

much these days, but I do remember telling Him that I knew that what I was about to do was wrong and that I'd just have to accept the consequences, whatever they might be.

I went to the clinic early on Tuesday morning, November 25th. I don't remember everything about that day. I do remember them telling me my baby was a clump of cells about the size of a small jellybean. They made sure they told me I was not a "bad person" for doing this. They told me it was my body and my choice. They assured me that no one would ever know unless I told them. They told me it would only take three minutes. They told me that when it was over I could go home and have a "Happy Thanksgiving" afterwards.

For all that they did tell me, there was so much they didn't tell me. They didn't tell me I would struggle with all my might to stifle feelings that would surface as a result of my decision to abort, telling myself over and over to "just forget it ever happened". They didn't say that I'd react physically when abortion would be mentioned in public, with knots in my stomach and tightening of the jaw. They didn't tell me that I'd be so uncomfortable around babies or pregnant women, or especially around women that wanted more than anything to bear a child but couldn't. Maybe they forgot to warn me that every year around Thanksgiving I'd get depressed, remembering only the blessing I'd thrown away, or that every year on July 24th I'd again find myself depressed, wondering what my child would've looked like this year on his birthday. They didn't mention that I'd be so afraid of not ever being able to conceive and bear a child, but then feel so guilty for actually having two healthy ones so undeserved, or that on Mother's Day I would

mourn secretly, disregarding myself as a fit mother deserving of her children's praise. They didn't tell me my harmful lifestyle would continue, only worsening. I wish someone could've told me that my abortion would cost so much more than the three hundred dollars I paid for it, for as Mother Teresa once said, "In an abortion there are two deaths—the death of the baby and the death of the spirit of the mother." I wish they would've told me the pain would go on and on, or that the scar would last a lifetime.

I signed the papers that day saying they would not be held accountable for any one of several things that could possibly go wrong. I paid my money and then had something called lamenaria inserted into my cervix. This would cause it to dilate so that it would be easier for the doctor to perform the suction abortion the next morning. I left the clinic and later that afternoon began to experience severe cramping pain, which I knew was to be expected. My cervix was dilating. I didn't sleep well that night.

I walked into the clinic the next morning to experience what would be the most selfish act of my life and the longest three minutes imaginable. I'll never forget the sound of the suction machine. I remember watching the second hand on the clock on the wall, waiting an eternity for three minutes to go by. I was not given anything at all for anesthesia and I remember incredible pain. I remember sobbing—it must have been fairly loudly, because the nurse told me I was going to have to be quiet—the other girls would hear. Finally it was over. I had destroyed the heart that had just begun to beat only days earlier. I was given an instruction sheet of warning signs to look for and a phone number to call in case something went wrong. I was given nine pills to be taken over the next three days and I was given

several packs of birth control pills. I was wished a “Happy Thanksgiving” and sent on my way. I felt a vague sense of relief mixed with sadness. That sense of relief would be short-lived, and Thanksgiving dinner would be hard to swallow that next day.

I now had a dark secret to carry around—a secret that would go to bed with me at night and get up with me again the next morning—a secret that no one could ever find out. The burden was heavy. Not a day went by that I didn’t think about what I had done, but I kept pushing the memories aside, telling myself I had no other option. My boyfriend and I broke up less than three months after the abortion. Meanwhile, my life continued on in a downward spiral. More relationships, more risk-taking behavior. I began to smoke marijuana. It provided just one more cover-up for even more painful memories. I came to rely on it frequently.

I couldn’t believe what I’d become. I still, even at this point, believed deep down inside that God was there. But I had him nailed to a cross somewhere way in the back of my broken heart. I did not want Him to see me like this. I was so lost, so broken, and so used up. Maybe some day, if I could get my life cleaned up, I could find my way back to Him and His family. Maybe, at best, I could somehow one day be able to at least get close enough to stand on the outside and look in.

At the end of my second year at the university, I met a really sweet guy. He was such a gentleman. I wasn’t used to that. We became very good friends. I knew we could never be more than that. He was too good for me, and I could never deserve him. I certainly didn’t think it would be possible for

any man to ever really love me now. But one night, this man did tell me he loved me. I just knew right then and there I had no other choice but to tell him about the me he didn't know. I pulled all the skeletons out of the closet. I told him if he just wanted to walk away right then, that would be okay—he didn't owe me anything. His mouth dropped wide open, but he didn't go anywhere. He chose to stay with me and has done so faithfully to this day. I'm still amazed by it all. I thank the Lord every day for this godly husband he so graciously provided me, even though I had done nothing to deserve this kind of man.

God is so good! He never turned away from me—I turned away from Him. And when I didn't seek Him, He sought me. He had been through everything with me. He had felt all my pain, only now I realize that He hurt even worse than I did.

I know Proverbs 22:6 to be true: "Train up a child in the way he should go, and even when he is old he will not depart from it." Tim and I both came from similar backgrounds and circumstances, and as we grew together we both had the desire to be on the same spiritual pathway. It was our desire to one day have a marriage pleasing to the Lord. I had stopped smoking marijuana the day I finished my last class at the university. I began attending church more often. The drinking became less and less frequent. My life was taking an upward turn. In Tim, I had finally found I Corinthians 13 love. It wasn't just physical or momentary or conditional. This love lifted me out of the black hole into which it seemed I had fallen and led me back to the arms of a Savior I had run away from.

As time went on, the one area that I couldn't seem to find peace with was the abortion I had had three years before Tim and I married. It seemed I had condemned myself to a lifetime of shame and guilt, even though no court of law in this nation would've convicted me of any wrongdoing. A tiny, fragile life had been so cruelly yet "easily" removed from my womb, but that child would forever live on in my heart and in my mind, despite my vain attempts to deny to myself that he had ever existed. Because of my past, I just could not get completely comfortable with all those "good people" at my church who, I was sure, had "never done anything wrong". I still had trouble believing I could ever actually be used by God. Satan had convinced me that what I had done was probably too big and too ugly to be forgiven by my God. No matter how hard I tried to get involved and believe I "fit in", the "fit" felt a little less than comfortable. My spiritual growth was stunted. At times I even doubted my salvation.

For years I would try to pray for forgiveness for that terrible act, but then I'd find myself once again trying to justify and rationalize it all. I couldn't honestly say I was sorry for what I'd done, even though I knew it was wrong. I would tell myself that if I hadn't done what I did, I wouldn't have this wonderful life I was now experiencing with Tim. Looking back, I now realize that what I was asking God to do was to forgive me not for killing my baby, but for having to kill my baby. I wasn't feeling forgiven. For so many years I suffered so much for one reason only—my inability to see my sin for what it really was, confess it, feel truly sorry for it and ask God's forgiveness.

Finally, after about seventeen years, the turning point arrived. It happened on one of those "Sanctity of Human Life" Sundays in January. I always had such a hard time going to church on that day every year. I would be so careful not to make eye contact with anyone during those sermons. I would keep my jaw tightened and fight to hold back tears. But on one of those Sundays I know the Lord was using my pastor to speak to me. He said that if anyone in our congregation had had an abortion, to just be comforted in knowing their baby was in heaven. Comforted? Hardly! This truth hit me with a powerful blow. Never before had I ever thought about that being a possibility. My baby must hate me! That small clump of cells had a soul! I saw a bigger picture now. Heaven suddenly seemed like a scary place to me. I had sacrificed my baby to the god of ease and convenience. I didn't want to go to heaven and have to face him. For the next few days I couldn't get all this out of my head. I was so uncomfortable. At last, I was being convicted by the Holy Spirit. I was able to say I was truly sorry for what I had done. I should've trusted the Lord with my pregnancy and let Him work out all the details. After all, that is what He does best. I was finally able to cry out to God to please forgive me for murdering my baby. At that moment the journey to true peace and healing began to take place. I was able to experience the fullness of God's grace and mercy. I would be free at last!

"Now I rejoice, not that you were made sorry, but that your sorrow led to repentance. For you were made sorry in a godly manner, that you might suffer loss from us in nothing. For godly sorrow produces repentance leading to salvation, not to be regretted; but the sorrow of the world produces death."(II Corinthians 6:9-10).

We cannot work to earn our forgiveness, but we can work for God because He has forgiven us. I began to feel God's calling to share my experience with girls finding themselves in a crisis pregnancy. I was being led to volunteer at our local crisis pregnancy center. God had done the most wonderful work in my life. There's no way I could go through what I did and hold back from sharing the truth about abortion and its fallout with others who needed so desperately to hear it. I contacted the director of the CPC and expressed my desire to do that. When I told her that I'd had an abortion, she was very encouraging and assured me that I could be greatly used by God. First, though, I needed to participate in a Post Abortion Bible Study. I never knew such a class existed. I remember thinking how awesome it must be to be able to lead one of these studies. As I went through this wonderful 12 week class, I began to pray that if it be His will, the Lord would open doors for me so that I might one day lead a class.

Shortly after completing the Bible study, I participated in the volunteer training classes. It's so amazing to me how much we now know and how much information we have available to share with ladies that come in to our CPC that will lead them to the truth and enable them to make an informed decision about their pregnancy, a decision they will feel good about when they look back twenty years from now. I kept thinking, "Where was my crisis pregnancy center twenty years ago?"

One day this past January, I was asked to pray about co-leading a Post Abortion Bible Study class. I was so excited! I had already prayed about it! Here was my open door. Then, about half way through the session I co-led, I was asked to pray about leading a group! Again, I felt so sure God was

leading me through yet another open door. He has a plan and a purpose for my life and He is revealing it to me daily.

For me, this ministry is so fulfilling. Galatians 6:2 says, "Bear one another's burdens, and so fulfill the law of Christ." I love the way a fellow volunteer said it, "Out of our misery and our mourning comes our ministry." And, as I heard youth minister Dave Edwards say one time, "It is through those things in our lives which we hide and cover up, that, when we bring them out in the open and deal with them, God makes Himself great." I want God to use me to make Himself great.

II Corinthians 1:3-4 says, "What a wonderful God we have—He is the Father of our Lord Jesus Christ, the source of every mercy, and the One Who so wonderfully comforts us and strengthens us in our hardships and trials. And why does He do this? So that when others are troubled, needing our sympathy and encouragement, we can pass on to them this same help and comfort God has given us."

Heaven is no longer a scary place for me. Not only have I been forgiven by my Heavenly Father, but, believing that there is no unforgiveness in heaven, I have also been forgiven by my baby, who I have for some reason always felt very strongly was a boy. I call him "Lee". He would have been twenty ^{-tw} years old this past July. I think the story of Joseph and his brothers is one of the most beautiful stories in the Old Testament. As the story closes, Joseph forgives his brothers and says to them, "You intended to harm me, but God intended it for good to accomplish what is now being done, the saving of many lives. So then, don't be afraid." I can just hear Lee saying something

like this to me: “I love you, Mom. You hurt me, but I’m alright now. I forgive you, and God’s forgiven you, and He’s using it for good to accomplish His purpose. Don’t be afraid.” Well, I’m no longer afraid, and I know I’ll hold him in heaven some day.

Just a few years ago, if you had asked me if any good could come from this abortion tragedy, or any joy from my mourning, I could’ve found none. But I have since learned that God doesn’t waste the events in our lives—good or bad, happy, sad or tragic, whether we bring them on ourselves or whether someone else causes them to happen to us, or whether they’re totally out of human control. And now, every time I walk into the crisis pregnancy center, I do it with a heart full of joy and thanksgiving. And as I counsel girls faced with crisis pregnancies, or help lead them through the Post Abortion Bible Study, I can assure you that I find so much joy every time the Lord uses my story for good to touch a hurting soul and the Holy Spirit flows through me as I share the gospel and change is brought about in that life. And yes, sometimes, a new little life is saved—pure, inexpressible joy!

I no longer view myself as worthless, because I now know my self-worth comes from who I am in Christ. I have now come to know that the mightiest of men and also the least among them hold the same personal worth in His eyes, and Christ valued each of them—and me, and you—enough to die on the cross for us. I no longer have to stand on the outside and look in on God’s family. I have been healed, forgiven and set free. The shame is gone, the heavy burden of guilt has been lifted. I will always regret what I did. The scar will be there for a lifetime. So much pain is gone, but I’ve asked God to let me always remember a little of the pain so that I may more

effectively minister to these precious girls whose paths I am privileged to cross.

Memories of my abortion still surface, but they no longer serve, as they once did, to heap great portions of shame and guilt upon me. Instead, they serve simply as a sweet, sweet reminder of God's amazing grace and unconditional love for this prodigal child of His. I refuse to let my past presume authority over me. God's plan for my future is much stronger than poor choices from my past. I am so humbled, so awed, so grateful and so completely overwhelmed when I consider how special a privilege it is that my Father in Heaven has chosen me, loved me, saved me, forgiven me, claimed me, restored me and trusted me enough to allow me to serve Him in this way.

I couldn't be more sure of my salvation, and for the first time, I know what it's like to truly enjoy the presence of God. No matter who you are or what you've done, no matter where you've been or how you hurt, no matter how many pieces your life has been shattered into, God wants to make you whole again. No matter what kind of pull your past has on you, He wants you to just lay it at the foot of the cross, reach out for His hand and keep your eyes on Him. You can be a part of His family. You can be used by Him. You can be sure that when you die you will go to heaven, and you can truly enjoy the presence of God. He's done all this for me, and he wants to do it for you, too.

"I remember my affliction and my wandering, the bitterness and the gall. I well remember them, and my soul is downcast within me. Yet this I call to

mind and therefore I have hope. Because of the Lord's great love we are not consumed, for His compassions never fail. They are new every morning; great is Your faithfulness. I say to myself. 'The Lord is my portion, therefore I will wait for Him.'”(Lamentations 3:19-24).

"Full Circle"

A mother's womb with babe inside
A secret place where he can hide
While God's own hand does knit and form
Her tiny son till he is born

She doesn't know, she cannot see
God's perfect plan for this baby
All hope is gone, she's lost, she falls
When selfish desperation calls

The truth untold, she clutches lies
No one can hear her anguished cries
A violent tearing deep within
Her child dies broken for her sin

She's ever mindful of the choice
That so denied her child a voice
Held captive, languishing within
Her prison built by secret sin

This load of guilt alone she'll bear
The consequence of worldly snare
She hides the tears, she masks the pain
Of overwhelming, endless shame

She longs to cleanse, to purify
Her life so wrecked with wrongs piled high
The wound is wide, the hurt is deep
Broken, she falls at Jesus' feet

She cries, "Lord, you know what I've done.
I took the life of my small son
And now I've come to understand
I drove the nails into your hands.

I come to you now on my knees.
Draw near—hear my unworthy pleas
To be made whole, forgiven, renewed.
Know love of such great magnitude!"

He said, "I died upon a tree
My broken body set you free
I rose again to offer these—
My mercy, grace, forgiveness, peace."

Perhaps she'll never understand
Why Jesus snatched her by His hand
From slimy pit as black as night
And filled her with His radiant light

But every time she hears the cries
Of those like her, who bought the lies
Whose tears of grief, of deepest loss
Reflect how much their "choices" cost,

She with an ever thankful heart
To them the Savior's love imparts
And by His Spirit comforts them
And leads their broken hearts to Him.

Please feel free to use the enclosed information in any way you choose. I have shared my testimony many times since July 1998 when I finally realized I could be "silent no more". I would do anything I could to end abortion in this country. I am just one of many broken women who will be forever grateful for your efforts.

- 3) Were you adequately informed of the consequences of abortion? No.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No, I was not informed. No, I've never had breast cancer.
- 5) Did anyone pressure you into having an abortion? If so, who? Only myself
- 6) How has your abortion affected you? Severe guilt knowing I killed my baby. Depression, lack of self-respect, resentment all the anger, pain and not fully knowing and experienced my baby.
- 7) How has your abortion affected others in your life? The rest of my family was affected of knowing my baby. My attitude of anger and loss has affected my attitude towards others.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? Don't do it. You cut off your own soul when you take the life of your child. You will regret, never not experiencing the life of your child. The mental and emotional damage is beyond description it's torture.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? It is never to take anyone's life. A fetus is a baby. When abortion is legalized you are allowing a mother to make a choice that apart from that will eventually destroy her. I don't allow our babies to continue to be killed. What if your mother had an abortion when she was pregnant with you?

(Questions for WOMEN who have undergone abortion)

The State of Georgia
County of Gwinnett

BEFORE ME, the undersigned authority, on this day personally appeared K [REDACTED] G [REDACTED] who being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1. Tell when and where your abortion occurred: My abortions occurred in Atlanta. The following are approximate dates: October, 1987; July 1988; March 1991; June 1993 All of my abortions took place in the first trimester of pregnancy.
2. How has your abortion affected you? My abortions have affected me in so many ways that I cannot simply list them here. I can however, let you know the major points and problems I currently suffer from. I have a terrible fear of something happening to my children. I have an unusual fear of their death. I have had all of my children sleep next to me in my bed because of my fear of SIDS. Until they are about 2, I have them sleep with me. I still keep them with me during storms for fear of a tree falling through the roof and killing them. Please understand that I am not by nature an overly paranoid person. I carry on in society at a normal level, however, these things haunt me silently. Pregnancy has always been difficult for me because I lost my first baby at 5 months pregnant. This was a direct result of having abortions and now I have to have a cervical cerclage to avoid late term miscarriage due to an incompetent cervix. The pain of loosing a baby at that point in my pregnancy was unbelievable. I still feel as though I deserve more suffering. This is part of the reason I stay in an extremely difficult marriage. My husband is occasionally abusive to me. I choose to stay and pray to God that He will spare me the Hell I deserve if I can just suffer through this earthly unhappiness. My husband is not all bad and is continually striving to improve himself, however, I have suffered through extremely difficult times partly because I feel like I deserve it.
3. How has your abortion affected others in your life? My relationship with my mother is not as close as it could be due to the fact that in order to talk me into having an abortion she explained that she wished she had aborted me when

she had the chance. My mother advised me by explaining that when she was pregnant with me she worked for a doctor that knew a doctor who performed abortions in New York. She was going to have an abortion with me and regrets that she did not do so because of the unhappiness that her marriage to my father caused her. She was in college at the time and dropped out to raise me. She regretted not finishing college and doing something more meaningful with her life.

4. Were you adequately informed of the consequences of abortion? No. There is no way anyone can predict the impact it has on a life. Sure, they may tell me there is an increased risk of breast cancer, post traumatic stress, or anything else they may say. However, the way it weaves itself through every aspect of your life cannot be explained.
5. Were you adequately informed of the nature of abortion, what it is, what it does? If no, explain: All I knew was that I would no longer be pregnant after it was performed. I knew that suction was used to remove all the contents of my uterus.
6. Based on your own experiences, what would you tell a woman thinking of having an abortion? First I would say that realistically, there is probable nothing I can do to talk her out of it with the exception of telling her my story and hoping she can learn from it. Let me say most importantly that I am not going to lie. After each of my abortions I felt so relieved. It was like a giant weight being lifted from my shoulders. Especially the first two times. I never would have even imagined the pain to hit me years later. I encouraged so many other young women to take the same path I did. How guilty I feel. When I was 16 I had my first abortion. I went on to have 3 more abortions after that. I saw nothing wrong with it and did not think that I was using it as birth control because I never intentionally became pregnant. I always avoided it as best that I could. I was unable to take the pill due to so many side effects that affected me more strongly than most people. I figured I had gone through with one abortion already, why should I ruin my life now. I needed to finish college and do something important with my life. I had a miscarriage at 20 weeks pregnant as a direct result of my abortions. It was when I saw that precious child that I realized a fetus is something more than tissue. It caused me great pain to say goodbye to that tiny baby girl, but I thank God that the nurses insisted that I see the baby. I actually did not change my opinion of abortion at that point. I did become certain that abortions after 12 weeks were awful and should not be lawful. I realized when I saw that ½ pound baby that it was really a baby. It had every part a real baby has, eyes, ears, toenails, fingernails, even a belly button. What a heartbreak it was to realize that a baby really is a baby in the womb. Somehow I had just understood that it was tissue until the last trimester. Somehow, I thought before that if something in a woman's life came up and she decided having a baby was not going to work for her she should have the right to terminate the pregnancy. I now realized it was pure murder to do so. Life is lived in the present. We are simply concerned with now. When a woman or girl finds out she is pregnant the now is all she is thinking of. However, if she carries that baby to term, she will

also only think of the present when she holds the child. It is different then, all the dread is over, all the humiliation of telling people of the pregnancy, and it is pure love, whether she gives the child up for adoption or raises it herself. Abortion is just a cure for the now. It puts a bandage on the current situation of the inconveniences of pregnancy. What no woman realizes at the time of an abortion is the way it will affect her years down the road. For me it hurts me when I see my beautiful children and realize how much I love them and know that I would have loved any child just as much. If abortion had not been a legal option then I would have faced the choir and had the child. It was just such a simple choice to fix a problem. I was deceived though, because now the problem will forever haunt me. Not a day will go by that I don't feel regret for the awful choices that I made and the children that I aborted. The shame and guilt are so much more than simply facing responsibility at the time. We are responsible for what we do and abortion just makes it seem as though we can get out of a bad situation. Women don't know that often they are just getting themselves into a worse one. Society can make you feel like you have to be rich, or have a great career to be somebody. I know now that raising my children makes me somebody, and more of a 'somebody' than any money, job, or society can ever think of making me. A pregnancy is not the end of the world, it is the beginning, for the mother it is the beginning of a new world, and for the child it is the discovery of this world in such a delightful way that I feel sorry for people who don't get to have children to experience this new world with them.

7. Based on your own experience, what would you tell a court that believes abortion should be legal? If abortion is legal people just assume it is okay, especially young people. They know it is not the best choice and that they should have prevented this, but they will take the easy way out assuming it is best. It can never be best. There is no way the woman will ever forget what she did. Why should people be able to avoid the consequences of sex? If you have sex you are risking pregnancy, being able to do away with that risk only makes it okay to have sex with anyone any time. If we do away with abortion we will decrease sexual diseases, teenage pregnancy, and many more problems in our society. People say that abortion will never be overturned. That is what my mother said when I told her about this. Maybe it is a lost cause, but I cannot stand back and throw my hands up. Our nation and our young women depend on this, whether they realize it or not.
8. Did anyone pressure you into having an abortion? If so, who? When I had my third abortion my boyfriend at the time pressured me into an abortion. I really felt that it was the wrong choice and I had told myself I would never do it again, but he really begged me to do it. I figured I had already done it twice and I may as well make sure I don't screw up. I thought I needed to make something of myself or the first two would not have been worth it. The fourth abortion was the hardest. I was more mature and realized I should be making better choices. I still went through with it though.
9. Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No, I was not informed of any link and I have not had

breast cancer. I have had a lot of pain and difficulty associated with breastfeeding, especially in the first few months.

"I have read the above and foregoing statement and the same is true and correct."

I hope that my story can one day be heard, I hope it is something worth listening to. I am willing to suffer the pain, humiliation, and rejection that will go along with taking something like this on. If I could really make a difference I will do anything. I am open to telling some people that I have had one abortion, but four seems so outrageous and I am so ashamed and cannot even believe it was me that did it.

Because of this I prefer to use my initials, which are KG. I am only willing to use my name if it is necessary and if it will really make a difference.

My signature evidences my authorization to use this affidavit for all purposes.

Before me, the undersigned authority, on this day personally appeared Heather A. Gibbs, (Print Name) who, being by me duly sworn, upon oath, stated the following facts:

My name is Heather A. Gibbs (Print Name). My address is

I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

Please return to: Texas Justice Foundation, 8122 Datapoint, Suite 812, San Antonio, TX 78229

The Affects of Abortion and the Wounds it Leaves Behind

My name is Heather and I am currently 29 years old. In December of 1995 I had my first abortion in a clinic in Atlanta, Georgia. In February of 1996 I had my second abortion in the same clinic in Atlanta, Georgia. At the time, I was 21 years old and in college. I was on birth control pills and my partner was using condoms, both on a consistent and regular basis.

I was NOT adequately informed of the nature or consequences of abortion. I did not know what could and MAY have happened to my children or me. I was taken into an "office" for "counseling" and the nurse told me that I needed to sign on the line and then said that I should choose to be put to sleep instead of local anesthesia so that I would not remember the sounds of the machines. I was never once told how the procedure was to take place. I was not introduced to the doctor. I was not told the risks that were involved, that I would be at a higher risk for breast cancer, that I would be at a high risk for depression, that I may never be able to have children ever again, OR that I, should I choose to and if I could have children, would be catapulted into the 800th percentile of likelihood for birth defects! I was not told that I could bleed to death from internal bleeding. I was told nothing. When I found out I was pregnant, I was not told my options or that there was help

out there, financially or otherwise. I thought I was choosing the only choice there was for someone like me.

I cannot even scratch the surface of the horror, depression, and fear that has haunted me since my first abortion! Almost 9 years later and I am NOT completely healed from that "normal" surgery. Immediately after the first abortion I laid on my couch for 7 days, bleeding profusely and taking pain pills. I could not make it up my stairs to take a shower. I would crawl to the kitchen just for a glass of water and a couple of crackers. I had no idea of knowing if this was normal, all the blood. I could have bled to death and no one would have known. For six months after the first abortion I had the same nightmare every single night. Six months of screams and trying to run away but never knowing what or who was trying to get me or even why. After the first abortion I could not hold or be near a child of any age without breaking down and crying hysterically for hours. That lasted for about three years. I still remember the first baby I did hold. After the first abortion I became suicidal. I just wanted to die. I thought I was worthless, ugly, a monster. What kind of monster kills it's own child?!? I was that kind of monster.

My abortions have affected me in many aspects of my life. They affected my relationship with my immediate family. My dad is still somewhat estranged to this day. No one in my family talks about what I did, it's a taboo subject, one that is just not brought up. My parents got divorced a couple of years after I told them what I had done and I honestly believe that the strain and stress and heartache is a part of why they are not together today. I got into \$8000 worth of debt during my post-abortion days, trying to heal the wounds with clothes and fine dining that no college student could afford. My abortions and my premarital affairs have had a negative impact on my marriage. My husband has been beautiful and understanding and caring and wonderful and forgiving, he is not the problem. I, on the other hand, have been distant and disgusted with anything that has to do with physical intimacy. I would lie in bed staring at the ceiling hoping that he would hurry up and hoping I would not throw up when it was over! THAT IS NOT NORMAL or healthy! We have been married almost two years and only through the grace of God Almighty do I actually want to, and enjoy being with my wonderful husband intimately.

It looks as though my physical body has healed but my husband and I are trying to get pregnant and I still don't know if I can. If I do get pregnant will

our child be deformed because of my "operations?" Will I live with the fact that it is MY FAULT that our child cannot run and jump or do math equations because of an operation I had years ago that I knew nothing about?

If I could go back and change ONE thing in my life, I would have NEVER, NEVER, NEVER had the first abortion!! I would have chosen to put my child up for adoption because I was not in a position to raise or support that beautiful, innocent life. If I had chosen adoption over abortion then I could have slept at night knowing that a couple who could have no children of their own, were caring for, raising, and loving the child that I could not provide for. Maybe, just maybe, in 9 more years my child would have wanted to find his or her biological mother and I could tell that child how sorry I was for putting him/her up for adoption instead of raising him/her on my own. Unfortunately, since I chose abortion over adoption, I can never tell my child how sorry I am and how much I miss them and how much I love them.

I HATE myself for the decision I made. I will NEVER, ever, ever get over my abortions. Not even if I live for 500 more years. There is not enough counseling in the world to help me get over the destruction that the abortions

have caused me. Please stop the killing of unborn children! Please stop the **destruction** of the mothers who decide to have an abortion! I wish that it had never been made legal in the first place. I did not have the "right" to choose death.

AFFIDAVIT

BEFORE ME, the undersigned authority, on this day personally appeared D [redacted] E [redacted] (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: August 1975, Atlanta, Ga
2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: I was informed that it was a ball of tissue not yet formed into a living being. Also that it was a quick procedure.
3) Were you adequately informed of the consequences of abortion? No-No-No!
4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No, No
5) Did anyone pressure you into having an abortion? If so, who? No
6) How has your abortion affected you? Six weeks after the abortion, I almost had a nervous breakdown. Hair had suffered emotionally for 25 years
7) How has your abortion affected others in your life? It has affected me tremendously. I think about my baby, each April as this would have been my due date. This has been the greatest mistake I've ever made.
8) Based on your own experiences, what would you tell a woman considering an abortion? I first would let her know life begins at conception, I grow with her the nightmare I experienced and most important it is breaking Gods 6th commandment.
9) Based on your own experience, what would you tell a court that believes abortion should be legal? That an abortion is a legal form of murder. God has not given us the awe to take a life. Life should be in Gods hands as well as calling people home to heaven.

"I have read the above and foregoing statement and the same is true and correct."

Please use my: [] full name. [x] initials only. My signature evidences my authorization to use this affidavit for all purposes.

[Redacted] [Redacted] (Print Name),

who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your abortion

occurred: January 1990, Atlanta, GA

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No - nothing was disclosed.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No - No

4) Did anyone pressure you into having an abortion? If so,

who? No - the only people who knew I was pregnant were my doctor + one co-worker, who took me to the clinic to have the abortion.

5) How has your abortion affected you?

For years I lived with the shame of having aborted my baby. My abortion was and largely still is a secret - I never grieved the loss of life. I lived in isolation, with much anger and inability to forgive myself. Only recently was I able to let go of ~~some~~ these feelings for the first time by sharing my experience with others who have had abortions.

6) How has your abortion affected others in your

life? It has not impacted them directly as to this day very few people know that I had an abortion + nobody in my family knows.

7) Based on your own experiences, what would you tell a woman considering an

abortion? Don't have an abortion. The feeling of relief will last a short time - days, maybe weeks. The regret will last a lifetime. Call a crisis pregnancy center if you have no place else to turn. Get the support you need to have the baby. If you cannot raise your child, make plans to give him/her up for

8) Based on your own experience, what would you tell a court that believes abortion should be

legal? Life begins at conception. Abortion kills an innocent

adoption.

"I have read the above and foregoing statement and the same is true and correct."

- 1) Tell when and where your abortion occurred: The middle of December, 1996.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? YES If not, explain: _____
- 3) Were you adequately informed of the consequences of abortion? No. I did not realize the emotional or physical affects.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? Yes. If so, who? The Nurse Practitioner that I saw at Kaiser Permanente. She made many comments about needing to get rid of a problem I had, which at that time, I didn't think I had one.
- 6) How has your abortion affected you? It affected me in all aspects: Mentally, Emotionally, Socially & physically. Mentally, I had to deal with the fact I killed my child, yet think clearly, which was impossible to do for a while. Emotionally I became more angry, depressed and withdrawn. Socially, I did not want to be around others. Physically, I forced myself to lose weight which was unhealthy for me. I have dealt with these feelings through counseling & much prayer.
- 7) How has your abortion affected others in your life? I had a hard time bonding with my daughter. I was also angry at my husband, who was my boyfriend at the time of the abortion, and I would ~~beat~~ hit him very rudely. Forgiveness has made our relationship grow.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? That abortion doesn't get rid of a problem, it causes more problems. Whether you deal with the issue right after the abortion or many years later, the grief and sorrow you need to deal with is so much more problematic than to choose life. I'd say CHOOSE LIFE!!!
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Not only does abortion kill innocent babies, but it also kills part of every woman who chooses to do it. I'd also say to them that the people who are in the abortion business are in it for the money, not for the good of women. Give the choice of life, not death.

My name is Patricia Lee Cabalse (Print Name). My address is

[REDACTED] am over

the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

See enclosed sheet.

(three)

3 months after my abortion - I died - and was resuscitated. I lived only because someone found me after I was unconscious & called an ambulance. I wanted to take my own life (as I couldn't handle 1) the intense grief & 2) the fact that I'd taken a life) and nearly succeeded.

PL

9-2-2003

The following is my abortion experience:

While living in Philadelphia, I met a handsome (resident) doctor and we fell in love. A short time later I became sleepy & nauseated and the pregnancy test when done was positive. He told me he wanted no children and nothing more to do with me. I have 2 very abusive parents whom I could not tell for safety reasons, had no one to confide in, was a student, and feared being kicked out of school. I panicked and had an abortion at 2 1/2 months pregnant. My problems were "solved" – or so I thought. With my family background, I had a severe detachment disorder and felt nothing for this baby.

I was told nothing other than I was having a problem fixed.

Three months later, I put extra food out for my cat, took every pill in the apartment with a bottle of wine and woke up from the coma days later in the hospital. I had NO intention of living. The reaction to my abortion took away my desire to live and I had no idea that would happen to ME since I didn't have feelings for people and had run away from home after high school.

What followed was 21 years of grief, crying, and depression with suicidal periods. I'd see a lady walk by with a baby on the street and it'd start all over again. Time did NOT lessen the pain and had no healing affect. I named her Amy and I loved her.

Finally, 21 years later, at a church retreat, a miracle happened. I confessed my abortion to a priest. It was the first time I had talked about what happened so long ago. That night, I had a very real dream. In a huge bright white light were countless little children with bright white robes, hair, eyes and skin. One floated forward and said "I'm Amy. I forgive you and understand why you did this. I love you and I'll see you some day." I cried really hard for days and the healing began.

Today, I am married to a wonderful man, have 2 children and 3 grandchildren. I am in long-term psychotherapy and making good progress and still think about Amy.

To those who are considering abortion, I say please don't. Abortion kills not only the baby, but abortion destroys the life of the mother, and anyone close to the unborn child, including the father. Every life is precious and if you are like I was – young, frightened, alone with nowhere to go & unable to talk to family or anyone else – there are people who help with anything you need (a place to stay, clothing, food, non-judgmental love & support, counseling, medical care, and after birth help with adoption or keeping your baby). **Abortion is final** – no amount of crying will bring back your baby. And no amount of time or medicine will take the pain of the intense grief & guilt away. This is something I would not wish on anyone.

AFFIDAVIT

To be filled out by women who have had an abortion.

The State of IDAHO

County of ADA

BEFORE ME, the undersigned authority, on this day personally appeared N [redacted] M [redacted] (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: May 10, 1990; Lubbock Texas
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No. I simply said I wanted one and they told me how much it cost and I paid. The only mention of the procedure itself was that "I'd need Midol" for cramps.
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? No If so, who? I simply did not know of any good options.

5) How has your abortion affected you? Terribly. I had brief psychotic episodes the first couple of days. Every time I turned the light off at night - I immediately saw the abortion doctor coming at me with utensils to kill me. When I turned on the light, he disappeared. This was not a dream, but something my mind made real to my eyes. I slept with the light on for 2 weeks. I was emotionally numb, unable to feel or cry. Later, I began having dreams that I had murdered someone and was exceedingly fearful of discovery. Guilt and grief weighed heavily upon me as

6) How has your abortion affected others in your life? It was a strain upon my marriage. My husband suffered from my emotional problems and inability to cope with life or intimacy. He constantly feared what I would do to him for suicidal thoughts.

7) Based on your own experiences, what would you tell a woman considering an abortion? No matter how painful your current situation is - it does not even come close to the pain, trauma, and unending sorrow you will heap upon yourself through an abortion. It's the worst regret I

8) Based on your own experience, what would you tell a court that believes abortion should be legal? Have we all gone mad? It is murder. Gruesome, unnatural, tormenting pain for the child and a life of quiet, depression, and unending sorrow for the mother. As long as I live on this earth, my sorrow will be with me. How can we possibly legalize Murder as if we don't know there's a baby in the womb. God helps us all!

I later regretted my decision. I rarely look at a child that I don't painfully remember the brutal way that mine died.

P.S. Humans have never given birth to anything but humans and anything that is growing is alive, So how can we legalize killing a human life? I committed murder inside my body - against my own flesh. No amount of legislation will ever make this morally right.

AFFIDAVIT

To be filled out by women who have had an abortion.

The State of Idaho

County of Canyon

BEFORE ME, the undersigned authority, on this day personally appeared Nancy Blinford (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: The summer of 1993, Salt Lake City, Utah area.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? no, I was told where to go and what time.
- 3) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? yes
- 4) Did anyone pressure you into having an abortion? yes If so, who? from myself
- 5) How has your abortion affected you? I married the father of the baby I had aborted for I felt who would ever want someone who would kill her own baby. I didn't love him and after 16 really awful abusive years our marriage ended leaving me to raise our 2 children alone. Another regret, I didn't realize until years later that I never truly felt I had the right to truly enjoy my children, I murdered me remember, and I lived in fear of being found out. I had breast cancer over 10 years ago, which may have been a result. I won't ever forget but I finally know God forgave me when I sought His forgiveness and my baby waits for me.
- 6) How has your abortion affected others in your life? My children had a mother burdened with guilt and self anger and after their parents divorce had to watch their mother go through cancer at their young ages of 9 and 11.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? This is a baby not tissue! Place your trust in God and He will see you through this, but don't end your baby's life! If you can't raise your child there are so many wonderful couples who can and will. Save both your lives!
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I remember when abortion was legalized and women no longer had to die in backalley abortion clinics. I was young, that must be a good thing, then I got pregnant, wow a way out! If it had not been legal, and so easy to get my baby would be alive, I may not be now living under the shadows of cancer returning. A baby should be more protected than the animals and our children should be taught morals, not do what feels good there's always an easy way out!

Affidavit

(Questions For Women Who Have Undergone Abortion)

2) continued:

It wasn't until 3 months later that I was looking at a small booklet that Carnation Milk put out regarding milk. It showed the stages of growth of a baby and I saw a picture of a whole baby in the womb at 12 weeks and I went berserk. I then found out that I had killed a real person not just a mass of tissue. I cried for hours and hours.

5) continued:

what you want to do because I've got a lot of people to see!" and left the room.

6) continued:

After that long year of sleepless nights, I found Yeshua and was cleansed of that horrible sin but it took me 10 years to forgive myself and be cleansed of the shame. I'm 53 now and was 27 at the time of the abortion and everyday I long for a child of my own. In my heart I have wished many times to murder that doctor for what he has done to me and so many other women who really didn't know what they were doing. It's not my place to murder him and I've had to deal with those emotions.

8) continued:

be haunted with what you've done.

It will bring instability to your life. You will live under a curse until you resolve to repent of taking the life of an innocent person that couldn't defend themselves.

You could possibly never have another child.

Shame doesn't go away easily and will effect you for the rest of your life.

Because I had a harsh, critical condemning mother, I thought if I just got rid of the evidence no one would ever know. Little did I know that every day the evidence was before my eyes in children that I saw and a conscience that I violated.

The torment abortion brings is beyond words.

9) continued:

our nation. Abortion is murder in the most cruel and harsh way. There are laws that supersede the laws men make and the Creator of the Universe says we don't have the right to kill others especially the innocent and those that can't defend themselves. One day there will be a Perfect Judge that will judge all lawmakers. He will judge righteously and give to all men what they deserved. On that day, all the manmade excuses will be reduced to rubble. Any person placed in the position of a lawmaker has been placed there by their Creator and will have a much higher degree of accountability for their influence in establishing this nation uprightly or corruptly.

Abortion is ruthless, humiliating, shameful and only done by those who are without a heart. Woe to us that say right is wrong and wrong is right. We are creating a people with no conscience and concern for others. If we will murder our babies we are capable of anything.

I suffered a great sense of loss from losing the only two children I would have. I carried guilt and shame for years, I felt worthless as a human being,
I had anxiety attacks and suffered from bouts of depression.
My relationships with men suffered, also relationship with my mother.
If it were not for God's Love and Forgiveness for my sins of abortions, I know I would have continued on my road to destruction, harming myself with cigarettees, and alcohol. But Christ has set me free through the Truth I found in God's Word, the Bible, He has healed me from the pain of abortion.

BEFORE ME, the undersigned authority, on this day personally appeared Lynda S. Bartling (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

Valparaiso, IN 46383

- 1) Tell approximately when and where your abortion occurred: November 7, 1980 - Porter Memorial Hospital
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Given a brief description of type of procedure, No information given on consequences or future mental or physical problems I might have.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? YES If so, who? Both my mom and dad and the father. They were the only three that knew of my situation because I was told by parents to keep quiet and never tell anyone at any time, especially future husband.
- 5) How has your abortion affected you? First, I felt anger at myself for not trusting God for help and His outcome for my life. Then I felt and still feel anger at my parents for arranging my abortion and never speaking of it for 22 years. I now have low self-respect, low body image. I feel never "good enough". I exercise too much and had an eating disorder, which I feel I'm slowly overcoming. I also felt I let my siblings down for not speaking about it for 20 years. They were very supportive and understanding.
- 6) How has your abortion affected others in your life? You feel your life is a "big secret". It's hard to distinguish who you can trust in telling. My immediate family has been affected the most. They see the emotions and tears I've had around anniversary and due dates.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? God plans all life and has a hand in each creation, even in rape and incest. If you feel you cannot afford the baby, adoption is the best option. If you fear what family will think, go to God and ask for support and peace.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? All life is in God's plan. No pregnancy is a mistake. Adoption is the better option. The mother will suffer guilt and depression. Future pregnancies may not be possible due to complications. A choice for death for your baby is something the mother will think about every day of her life.

said I wouldn't live quiet I did baby would be a vegetable? Not knowing a true loving god I panicked.
- 6) How has your abortion affected you? YES. I went for almost 26 years with guilt and self hate for what I done. Of course I was told this was only a mass of tissue and I needed to think of the children I already had. When I was at a county fair and stopped at a booth I realized what I had done. There were pictures there and literature but selfishly for 26 years I carried this until I learned all I had to do was ask God's forgiveness and speak out against this murder. I hate myself if it is to live like that was terrible. Remembering each year.
- 7) How has your abortion affected others in your life? Not as strong enough example. Was divorced from husband. Lost trust for every one!!!
- 8) Based on your own experiences, what would you tell a woman considering an abortion? NO - in a loving way. Tell my own heartache and adoption is much better.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Tell of female problems I now have, the depression, you trust in other gods, sorrow you carry. It would have been better to die. NO I'm not wanting to die but given the option and knowing what I know now this is the choice I would have taken. "I have read the above and foregoing statement and the same is true and correct."

7) Based on your own experiences, what would you tell a woman considering an abortion? God says abortion is wrong. It is another word for murder. Life begins at conception. We live in a world where if a woman is pregnant & murdered, it's a double murder, yet it's okay if it's at her own hands. We need to protect the unborn & the women who feel as if they have no other options. We need the truth to be told that it's not a choice but a child. (Questions For WOMEN Who Have Undergone Abortion)

The State of TEXAS

County of BEXAR

BEFORE ME, the undersigned authority, on this day personally appeared Yvonne Florczak-Seeman, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: At the age of 19 years old in Albany Women's Clinic in Chicago, Ill.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No! And that is why I am filling this form out. If I had had all the information about the entire process, I would not have done what I did. I was 16 years old when I received my first abortion and at 16 making a decision like this was very frightening and I wasn't ever asked if I truly understood the process.
- 3) Were you adequately informed of the consequences of abortion? No! I was never given any information about counseling, scar tissue, guilt, shame, and how it would destroy my self-esteem and keep me from becoming more in life.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? Never was this mentioned over the 4 years of my 5 abortions.
- 5) Did anyone pressure you into having an abortion? If so, who? Yes! My boyfriend told me if I didn't have the abortion, he would leave me homeless.
- 6) How has your abortion affected you? I truly feel that because of the lack and negligence of the medical industry on informing the minor women about post-abortion trauma, I lived in a state of depression, guilt for 15 years not allowing me to further my education and better my lifestyle.
- 7) How has your abortion affected others in your life? Because I was never told about abortion leaves scar tissue, I was told that I could not have any children by two doctors. However, my faith in God told me different. I have two children now and the truth of the matter is that I have two failed marriages because of all the anger and unforgiveness that I've held over the abortions. I didn't realize until my life almost fell apart that I needed extensive counseling in my life regarding the abortions.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? Be prepared to face a lifetime of guilt, shame, disappointment, anger and the possibility of never being able to have children again because of the scar tissue that an abortion leaves behind.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would like for them to explain to me how is it possible that the remains of a "fetus" look like human body limbs. And when they are thrown into a trash can that is located behind an abortion clinic we refer to them as an abortion. But when we see human body limbs of an adult and or child thrown in a trash can in an alley of New York city we call that murder! Other than their size, what is the difference? Then I would like to show them some pictures of these abortion procedures and educate them on what is really going on in this nation. Then, I would like to ask them if it would sit right with them to know that one of those "fetuses" that were behind the clinic came from their youngest daughter, and that that daughter could never had children again because no one was required by law to give her the truths about what an abortion truly does to your life.

AFFIDAVIT

(Questions For WOMEN Who Have Undergone Abortion)

The State of TEXAS

County of BEXAR

BEFORE ME, the undersigned authority, on this day personally appeared Yvonne Florczak-Seeman, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: At the age of 20 years old in Albany Women's Clinic in Chicago, Ill.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No! And that is why I am filling this form out. If I had had all the information about the entire process, I would not have done what I did. I was 16 years old when I received my first abortion and at 16 making a decision like this was very frightening and I wasn't ever asked if I truly understood the process.
- 3) Were you adequately informed of the consequences of abortion? No! I was never given any information about counseling, scar tissue, guilt, shame, and how it would destroy my self-esteem and keep me from becoming more in life.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? Never was this mentioned over the 4 years of my 5 abortions.
- 5) Did anyone pressure you into having an abortion? If so, who? Yes! My boyfriend told me if I didn't have the abortion, he would leave me homeless.
- 6) How has your abortion affected you? I truly feel that because of the lack and negligence of the medical industry on informing the minor women about post-abortion trauma, I lived in a state of depression, guilt for 15 years not allowing me to further my education and better my lifestyle.
- 7) How has your abortion affected others in your life? Because I was never told about abortion leaves scar tissue, I was told that I could not have any children by two doctors. However, my faith in God told me different. I have two children now and the truth of the matter is that I have two failed marriages because of all the anger and unforgiveness that I've held over the abortions. I didn't realize until my life almost fell apart that I needed extensive counseling in my life regarding the abortions.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? Be prepared to face a lifetime of guilt, shame, disappointment, anger and the possibility of never being able to have children again because of the scar tissue that an abortion leaves behind.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would like for them to explain to me how is it possible that the remains of a "fetus" look like human body limbs. And when they are thrown into a trash can that is located behind an abortion clinic we refer to them as an abortion. But when we see human body limbs of an adult and or child thrown in a trash can in an alley of New York city we call that murder! Other than their size, what is the difference? - 1) Tell approximately when and where your abortion occurred: Peoria, Illinois 1988, 1992, 1993

- 3) Were you informed of any link between abortion and breast cancer? Never Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? NO If so, who? _____

5) How has your abortion affected you? The abortion seemed at first to be the easy way out of a difficult situation (unwanted pregnancy). It was extremely physically, emotionally, mentally & especially spiritually. I became resentful in all these areas. I had no understanding of the abortion procedure at the abortion clinic. My life was filled with a great deal of pain & self-destruction.

6) How has your abortion affected others in your life? You were it but not able at this time to articulate specifics.

7) Based on your own experiences, what would you tell a woman considering an abortion? I would share with her how damaging & traumatic an abortion can be. I would share how you will miss her that you disposed of your child. I would also tell her about Christ's grace & mercy.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? I truly don't believe that abortion is ever the answer to an unwanted or unplanned pregnancy. It causes damage the like of that woman it reduced the preciousness & sanctity of life and gives both men & women license to be careless & irresponsible.
