- 6) How has your abortion affected others in your life? It affected my husband and children because of the mental anguish + guilt. Our relationships were not what they should be. It has also caused the loss of a friend.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her do not do it. You are destroying a human life, a baby, God's creation. You will not only suffer physical pain but also emotional pain.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is murder and we should not allow it. There are many people out there in the world who want children and can't have them because of infertility. There are other options for unwanted babies. murder is not an option.

BEFORE ME, the undersigned authority, on this day personally appeared Maureen Brett (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true: Center Plan. Rev. PA 12 July 1999

- 1) Tell when and where your abortion occurred: Bridgeport, PA, Jan. 1978 + March 1979 (approximate dates)
2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No. I was not informed to what would happen - to my knowledge I knew that the fetus would be suctioned out but didn't realize that the fetus was a baby w/ a soul.
3) Were you adequately informed of the consequences of abortion? No. I was told of the bleeding + need for rest. Nothing of the psychological effects.
4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No
5) Did anyone pressure you into having an abortion? If so, who? Boyfriends - fear of telling parents, no support.
6) How has your abortion affected you? I spent years going from relationship to relationship + I became more sexually active, alienated from family, problems in school, old friends became distant.
7) How has your abortion affected others in your life? I drew others in eg roommate gave me the money against her better judgement. We spent years not talking to one another.
8) Based on your own experiences, what would you tell a woman considering an abortion? It is a self-destructing decision that pulls you into a downward spiral. Every aspect of your life is affected. You eventually feel tremendous guilt which you try to cover + compensate for and never can.
9) Based on your own experience, what would you tell a court that believes abortion should be legal? It seems like an answer to a difficult situation. As with most quick fixes, it creates tremendous psychological + emotional difficulties that overflow + stay hidden for years. In most cases continues into following generations if not addressed. God is the only answer at that point.
I have read the above and foregoing statement and the same is true and correct.

5) How has your abortion affected you?

I have never had children. It took until last year for my heart to soften to the point that I understood what I had really done: I murdered my only child. I regret that the choice to have an abortion was available. If it had not been, I would have had to face the truth back then.

6) How has your abortion affected others in your life? I have told very few people.

7) Based on your own experiences, what would you tell a woman considering an abortion? DON'T DO IT! If you don't want the child, put it up for adoption.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? I would tell them if they make abortion legal they are condoning murder.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 1976 1. approx Feb. 2. approx Aug. *An abortion clinic on Stanwix St., Pittsburgh, PA.*
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? the only negative consequence I remember was being told that repeat abortions could cause difficulty in carrying future pregnancies to term.
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No.
- 4) Did anyone pressure you into having an abortion? No. If so, who? _____
- 5) How has your abortion affected you? Until recently I have been able to keep the fact that I have had 2 abortions hidden. But I have ~~carried~~ intense grief and shame that has manifested primarily in an inability to ~~get~~ form close relationships with anyone but my husband, who was the father. Though unproven, I believe the buried pain I carried figured in a clinical depression in 1988 with panic attacks and ongoing difficulties with responding sexually to my husband. ~~Until~~ I revealed my secret to my church and am now on the path to healing.
- 6) How has your abortion affected others in your life? When I told our 3 grown children, our 2nd son said he now understood why his dad & I fought & why I was so protective.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Don't do it! The burden of shame & grief & regret that will break through one day is not worth the "quick fix" to your current problem. Also the dangers to herself are well documented & it is not a blob of tissue being removed. It's a baby!
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? The court needs to listen to women who have experienced abortion and will always regret ~~the~~ the choice she made. Look at the volume of medical data now available. Remember that in America we have a right to life for everyone, including those who can not speak for themselves.

- 6) How has your abortion affected you? For much of my life, suppressed guilt, resulting in 7 years of active alcoholism, decades of promiscuity, low level depression and warped relationships with men. It took me until recently to feel forgiven for myself. I will always have regret that there was a life that didn't get a chance to live. We were not told about feelings of regret and depression.
- 7) How has your abortion affected others in your life? Broken relationships. Poor dating experiences.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Please don't do this. There will be a sadness that never completely goes away.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? You have no idea how damaging abortion is to a woman's psyche.

BEFORE ME, the undersigned authority, on this day personally appeared KATHLEEN GARNECK (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:"

1. Tell when and where your abortion occurred: June of 1989. ^{ERIE} Women's Health Clinic in Buffalo, NY.
2. Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: The explanation of physical pain was greatly understated. The pain was so horrible, I had hoped to pass out to get away from it. It was awful.
3. Were you adequately informed of the consequences of abortion? Some of the possible physical risks. I was in no way prepared for the emotional spiral downward that resulted. The loss & emotional pain was unbearable.
4. Were you informed of any link between abortion and breast cancer? No
Have you had breast cancer? No
5. Did anyone pressure you into having an abortion? Boyfriend left relationship. It was not a part of the decision. I was alone and panic hit.
If so, who? _____
6. How has your abortion affected you? Initially, it was the cause of much depression, grief, loss, guilt, self loathing, crying and anger. After much counseling & research, I am now able to counsel other women to seek recovery & healing.
7. How has your abortion affected others in your life? It brought support & counsel. It has been used to help others have a better understanding of post-abortion women. Initially my family was upset for not carrying.
8. Based on your experiences, what would you tell a woman considering an abortion? Do not underestimate the emotional consequences you feel. Abortion does NOT mean you weren't pregnant - it just means your not pregnant now, and sooner or later you'll have to deal with that.
9. Based on your own experience, what would you tell a court that believes abortion should be legal? It is not a political issue, it is a personal experience. If we want to empower women, it should not be by legalizing something that takes a physical life and an emotional one. Someone needs to have the courage to take a stand and call abortion what it really is.

(Questions For WOMEN Who Have Undergone Abortion)

The State of PA

County of Monroe

BEFORE ME, the undersigned authority, on this day personally appeared Deborah Kerby (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: Spring 1987, Camden County NJ
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No. I was told that the baby would not feel any pain. I was never informed that women, as well as men, often suffer grief and emotional distress after abortions are performed.
- 3) Were you adequately informed of the consequences of abortion? No. I was not informed of the possible side effects of abortion.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No and No
- 5) Did anyone pressure you into having an abortion? If so, who? No one pressured me. At the time, I was working in a bar and could not keep my job pregnant. The baby's father said he did not want the child, so I erroneously thought I had no choice. I had another child to support at the time.
- 6) How has your abortion affected you? For the rest of my life, I have to live with the knowledge that I murdered my child, and took away his/her chance to grow up and have a life of their own.
- 7) How has your abortion affected others in your life? Yes. The baby's father feels the same grief, sorrow and shame as I do.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? I would tell her what nobody told me - that there is another way. That there are people and organizations that will help you.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? The fact is that abortion is murder, and therefore should not be legal. I know some don't believe that an "embryo" is a baby - but if not, then what is it? Is it a fish or a bird? Can a pig become a human? No. It is a human child, and "I have read the above and foregoing statement and the same is true and correct." deserves protection under the law.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Aug. 1974, Polyclinic Hosp, HBG, PA
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No one can prepare you for the sense of loss and the shame and guilt involved with killing your child, even when it is referred to as a fetus
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? yes If so, who? the father of my baby did not want the responsibility of a child and informed me that I was on my own if I chose to have it.
- 6) How has your abortion affected you? I have 4 children who I gave birth to after my abortion. I finally realized that 4 million children would never replace that child whose life was vacuumed out of me. I would never have had an abortion if it was illegal, I fed into the lie that this was okay because it was legal. Abortion is not okay. It is murder and I truly regret that decision which ended my child's life.
- 7) How has your abortion affected others in your life? Shame, guilt and unforgiveness is caustic and surely not an environment to grow love and solid relationships
- 8) Based on your own experiences, what would you tell a woman considering an abortion? On paper it all looks good and legal, but this is a heart issue. Your heart will always hurt, and you will always regret that decision
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is murder - the murder of a baby. You can call it a fetus, but it is a baby. And because abortion was legal - I legally killed my child. My prison sentence has been a life of shame and remorse. Thanks!

- 6) How has your abortion affected you? Many psychological consequences - nightmares, flashbacks,
depression, self-hatred, substance abuse to escape the pain
- 7) How has your abortion affected others in your life? The father of the second baby, who later became
my husband, experienced psychological consequences such as sadness, much remorse
- 8) Based on your own experiences, what would you tell a woman considering an abortion? I would explain that
abortion is murder and a sin, it is killing a living human being. I would help her or
refer her to other people who would help her with emotional and financial.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would say
that an unborn child is just as alive and human as a born child, and no one has the
right to murder regardless of the age of the victim. Also, there are many physical and
psychological risks to the mother - it is not a safe procedure

The State of PA

AFFIDAVIT

County of Berks

BEFORE ME, the undersigned authority, on this day personally appeared Charlene Lang (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:"

- 1. Tell when and where your abortion occurred: I cannot remember name of clinic or exact date it was in Harrisburg near a river and around March of 1978
2. Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No. No one told me it killed a life. No one told me the development of the fetus I was told it was only tissue
3. Were you adequately informed of the consequences of abortion? I do not recall being told that there were any consequences to abortion.
4. Were you informed of any link between abortion and breast cancer? No
Have you had breast cancer? No
5. Did anyone pressure you into having an abortion? I felt pressured because I was asked If so, who? A question and not given the option to think about it and get back
6. How has your abortion affected your parent hood w/ my decision? Is it not obvious that the trauma has not allowed me to remember many of the details surrounding the abortion
7. How has your abortion affected others in your life? I'm not sure

- 8. Based on your experiences, what would you tell a woman considering an abortion? I would give her the facts as the development of a fetus and I would share my personal bias if she wanted to hear it. Including the hemorrhaging that took place for 5 months not realizing baby parts were left behind
9. Based on your own experiences, what would you tell a court that believes abortion should be legal? Look at the facts abortion is killing. Listen to the stories from those who have had an abortion. Feel for one minute the huge burden of regret a past abortive woman carries around wither for the rest of her life.

BEFORE ME, the undersigned authority, on this day personally appeared _____ (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: March 1986, Pittsburgh Pa.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?
No. My friend told me it would fix a problem and not to worry about it. No doctors or nurses said anything to me.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? Yes If so, who? the father of my baby + my friend.
- 6) How has your abortion affected you? I became very depressed for years. I didn't enjoy life. I would always cry when I heard a baby cry. I blocked the abortion out for 13 years. When the world brought what I did to light I was in a lot of pain. I couldn't even believe that I had done this. I had a pain in my heart I cannot explain. For years I was afraid of everything. I was never able to enjoy any pregnancy until I dealt with my abortion. I received counseling at a pregnancy care center and now I want to share my story so no woman will ever have to suffer the
- 7) How has your abortion affected others in your life? My parents missed out on another grandchild. My children lost a sibling. Our lives will never be complete. pain I had.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? I would tell this woman that this quick fix will bring eternal pain emotionally. This baby is a precious gift from God and she could consider adoption. Relationships will be affected. Her life will change forever.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Legalizing abortion is legalizing murder. Babies are dying, our future is dying. Women do not realize what they will have to deal with after an abortion. We should support a woman to deliver her child + help her to raise her child, not to give her the right to kill her child.

- 2) Were you adequately informed of the nature of abortion, what it is, what it does? NO If not, explain: I was informed that my pregnancy was just a 'blob of tissue' and that the procedure was 'no big deal'. Never was counseling offered except to offer birth control. No one ever explained the emotional pain to come
- 3) Were you adequately informed of the consequences of abortion? As stated above (No-!) No one ever told me of the life time of pain, emotionally + physically. That everyday there would be an empty place in my life. + that part of my soul would be torn out.
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? yes If so, who? My boy friend - the father of my aborted children
- 6) How has your abortion affected you? There is an emptiness deep in my heart. I suffer from flashbacks of the abortions themselves seeing the bloody tissue in the toilet bowl knowing that was part of my baby flushed down the toilet. I don't trust doctors - especially OB-GYN'S - unable to do for examines - I yearn to know my lost children + wonder about them often

- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? The court nor society has the right to decided who lives or dies - Abortion is the death of innocent lives not only the unborn child but also the soul of the Mother. That they as the court needs to be informed of the emotional devastation that occurs from Abortion + only one who has gone through can know. The killings must stop. - 1) Tell approximately when and where your abortion occurred: May 1982 Hillcrest Abortion Clinic Harrisburg, PA
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No, I never really thought of it as murder because it was legal, plus I had no idea it would affect my emotional well being so traumatically.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? No If so, who? _____
- 6) How has your abortion affected you? My abortion has contributed to 4 psychiatric hospitalizations. I had such guilt and shame that I couldn't share with others because it was my dirty secret. It affected my marriage two years later to my aborted child's father. It was an unspoken loss & sin between us that eventually helped ruin our marriage which broke up after 12 years. It has also affected my relationship with my son because I now know that I murdered his sibling through having an abortion. It was the biggest mistake of my life.
- 7) How has your abortion affected others in your life? It has left my son without a live sibling because he/she was aborted.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Please don't do it. Abortion does not fix things it makes even more problems and can ruin your emotional/spiritual health.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? By making abortion legal it makes it appear that killing your unborn child is perfect alright and thus deceives people.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: HARRISBURG, PA 1976? 75
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO, NOTHING informational, very vague terminology mostly about the procedure
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? X If so, who? not really pressure, just the information that was available and 'out there' that suggests that this was an 'easy' answer without repercussion - just a procedure! very deceitful!
- 6) How has your abortion affected you? a mental and emotional curse. when you gain the truth that you've taken a life, it's not easy to live with - it haunts me at the strangest of times. even though i know i have forgiveness, my thoughts of my child being lost is a very empty feeling. and the thought of it being my choice is even worse. in the process of "trying" to forget, i feel that my memory in all things has been impaired. one thing i've noticed is that in time, the feelings have not grown faint, but stronger, the opposite of what you'd expect. the affects of an abortion are not immediately felt i've learned, but they creep up on you as you mature and realize what you've done, much like a cancer. and the weeping does not last a nighttime, but a lifetime.
- 7) How has your abortion affected others in your life? i fully believe that my husband looks at me differently, i look at me differently and the only other (2) people who know i'd guess look at me differently... as probably i would if the shoe was on the other foot.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? not an answer under any circumstances. God is in control and he knows what he's doing. period - ...and even if he weren't, what this does to you physically, emotionally, mentally, and spiritually is devastating and i don't think we've even tapped into how deep!
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? all the above, where's your research? how many people who've been through this are pushing for its legality? i can only imagine that the only way to describe the feeling would be to ask someone what it feels like who has had their child kidnapped... never to return.

BEFORE ME, the undersigned authority, on this day personally appeared Christine Stouden (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: August 14, 1996 in New Jersey
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? no If not, explain: I didn't talk to any nurse or doctor or anyone at the clinic before the procedure was performed.
- 3) Were you adequately informed of the consequences of abortion? no. No one spoke to me at all about the physical or emotional consequences of the abortion before or after the abortion was performed.
- 4) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 5) Did anyone pressure you into having an abortion? no If so, who? _____
- 6) How has your abortion affected you? For several years after the abortion, the guilt and shame of what I did was overwhelming. Not a day goes by where I think of the child I would have and regret making the decision to have an abortion. I felt so ashamed and didn't think I could explain why because no one talks about the after-effects abortion has on women.
- 7) How has your abortion affected others in your life? my parents hurt for me knowing the pain I go through because of the abortion.
- 8) Based on your own experiences, what would you tell a woman considering abortion? I would tell her about the pain she is going to feel - the loss, the regret, the denial and would encourage her to not abort her child because it's a decision you can't take back later. The permanence of this decision is haunting.
- 9) Based on your own experiences, what would you tell a court that believes abortion should be legal? I would plead for more information to be given to women who want abortions. If they knew about the physical and emotional consequences, the court might not be so inclined towards the legality of abortion - it does so much more than end a baby's life.

THE STATE OF Pennsylvania §

Before me, the undersigned authority, on this day personally appeared Jody B. Diehl, (Print Name) who, being by me duly sworn, upon oath, stated the following facts:

 am over

the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

August 11, 2003

My name is Jody B. Diehl. I found myself in a crisis pregnancy in September, 1971, at the age of 21. Abortion was not legal in 1971, so there were no Crisis Pregnancy Centers and neither were there any abortion clinics. I found out through a friend that I could have an abortion in a hospital. I do not offer any reason why the mutual decision was made for me to have an abortion. The truth is, no reason on earth justifies taking the life of an unborn child.

I can't remember how long it was before guilt began to set in, but when it did it was tremendous guilt, sometimes over whelming. I spent the next twenty-five years of my life harboring a deep dark secret. I never spoke one word about it to anyone. Twenty-five years of emotional torment, wondering what my family, my friends and eventually my husband and children would think of me if they ever found out that I had had an abortion.

(continued on back)

Please return to: Texas Justice Foundation, 8122 Datapoint, Suite 812, San Antonio, TX 78229

(continued from front)

In Feb. 1996, I was sitting in a church service. I don't remember what the sermon was about, but I do distinctly remember hearing the pastor say, "If you have had an abortion, you have committed murder." I am very thankful for those words spoken that day because they brought me to the reality of just exactly what I had done — I had taken the life of another human being. I called the pastor that very afternoon and made an appointment for the following day. And for the first time in twenty-five years, I was able to share with one other person that I had had an abortion. It would take another year, however, for me to find healing from my guilt.

One Sunday in February of 1997, one year later, I knelt at the altar and gave my abortion to God and received total and complete healing from my guilt. The pain and sorrow of regret over what I did will follow me throughout the rest of my life, but the guilt that Jesus took so lovingly upon Himself when He died for me on the cross was gone.

It has now been thirty-two years since my abortion and the memory has never faded. I can remember every vivid detail as if it were yesterday. I heard a statistic quoted that three out of every four post-abortive women experience grief. I beg to differ with that statistic. I strongly believe that every woman who ^{has} had an abortion and every man that is involved with an abortion will at some time in their life struggle with grief, regret, sorrow and guilt over taking the life of their unborn child. It may not all be to the same degree, but I believe it will happen.

Thank you for allowing me to share my story. I pray that all the testimonies gathered will help overturn Roe v. Wade. I pray that the holocaust of abortion will be stopped in our life time and that abortion clinics will be forever closed, never to be heard of again.

God bless your mighty efforts for this most worthy cause.

Sincerely,
Jody B. Field

Before me, the undersigned authority, on this day personally appeared S [REDACTED]
H [REDACTED], (Print Name) who, being by me duly sworn, upon oath, stated the following
facts:

My name is SHERY HAWK (Print Name). My address is
[REDACTED] I am
over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I
have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm,
that the following facts are true:

In January of 1987 I had an abortion. This is not something I'm comfortable talking about. In fact, I have rarely talked about it. I try not to think about it because it is so painful. I am very ashamed of what I have done. Even after all these years, it brings me to tears when I allow myself to think about it. I have asked God for forgiveness and I know he has. It is a challenge for me to forgive myself.

I was twenty years old, newly married, and working a minimum wage part-time job. My husband did not think we were ready for a child. He asked me to set up an appointment for an abortion. It was a very scary time for me. I felt very alone. I tried to detach myself from what I was doing. I came from a small town so I had to locate a clinic in Pittsburgh, PA. They took down my name and number and scheduled an appointment. I really needed some one to talk to, but I didn't feel I could because in my heart I knew it was wrong.

My husband accompanied me to the appointment. When I arrived they gave me some paperwork to fill out. I was told I would need to speak with a counselor before they would perform the procedure. The session lasted less than ten minutes. The counselor was a nurse. She told me she had an abortion earlier in her life and never regretted it. I believe looking back on it now, that if she had been a qualified counselor, she would have known I was uneasy about my decision. I know that if I had been given any of the risk factors of abortion, I would not have gone through with it. I always wanted children and would never have done anything that might have jeopardized that. As it were, I did have some complications that day. I was sitting in the waiting room waiting to be released when I became very nauseated and had an increase in bleeding. I had to go back in to the Doctor and have my uterus suctioned out again, as if the first time was not traumatic enough. That complication pales in comparison to the mental pain I have suffered since that day.

I have never mentioned my abortion to any of my healthcare professionals. That probably isn't the brightest thing to do, but I cannot bring myself to admit to anyone, that I have done such a terrible thing.

God has blessed me with two beautiful children that I am eternally grateful for. I realize that some women who have had abortions are not so fortunate.

I know the trauma that I have been through as a result of my decision to have an abortion. I cannot even imagine going through it as a teen without the support of my parents. The idea that anyone would perform an abortion on a minor child without her Parents knowledge is very troubling. They require a parent's consent to administer any type of Medical treatment on a minor child. How can they begin to substantiate performing such a procedure on a child without a parent's consent? I know how devastating an abortion is and I would never want my daughter to go through such a life threatening situation without my support.

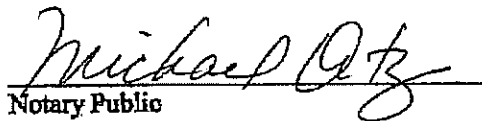

I have read the above and foregoing statement and the same is true and correct.

- 1) When and where did your abortion occur? Approximately 21 years ago in Harrisburg Hospital
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No. If no, explain: I tried to ask the abortionist questions, I remember him acting as if this was a waste of time for him. I was young & desperate - I don't know??
- 3) Were you adequately informed of the consequences of abortion? no information at all - even when in the last moments before the abortion
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? I was not told anything either way
- 6) How has abortion affected you? Before getting help I really thought I was worthless. When I look back the moment I woke up after the abortion it was the closest feeling to being raped. I'm not sure why there was such a physical & emotional realization, it was like there was a loss of nature or primal instinct that had been interrupted. I layed there (hospital room) and cried & cried asking God to take me - there are really no words or a short way to explain what a agony it is. I just know even though I've gotten help I will not recover fully. Abortion is a horrible act that claims the life of two people.
- 7) How has your abortion affected others in your life? My loss of self hurt all my relationships. My children had to deal with my thoughts of suicide, depression
- 8) Based upon your experience, what would you tell a woman considering abortion? I would tell them "choice" means knowing more than one side. I would try and educate her about the reality of abortion, about the child and herself.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would tell them that what's going on is a massacre unequal to any thing that's ever happened in our world, show them photos & testimony - they would have to see the mutilated bodies, also scientific evidence, these are facts not emotions

Continuation to:

Question (1)

the states of Maryland and Virginia.

Question (2)

the basic information I recall receiving was the length of time it would take for procedure, that I would receive a local anesthetic, there would be a short period of bleeding and possible cramping and that some slight pain may be involved. No warnings were supplied regarding possible long term physical problems. No warnings of any type were given regarding the emotional damage that abortion had the potential of causing.

Question (3)

I was never told of any link between abortion and breast cancer. This would have most certainly stuck out in my mind seeing that as I aged further into my teen years and began using birth control pills, the main reason I stopped taking the birth control pills was due to the fact that my physician spoke of a link between birth control use and increased risk of breast cancer. My mother has suffered from breast cancer in her early thirties and had a radical mastectomy.

Question (7)

the constant necessity for "swallowing down" the pain, and the nagging anxiety I feel each time I ride with my children and listen to news reports regarding abortion or abortion related issues. In addition, I have carried a great amount of anger toward others involved. I have also dealt with a gripping fear that my children will find out about my abortions before I am ready to tell them. Six children ranging from ages 12-24, I don't know how they will handle it.

Question (8)

It was thirty years ago at age 13, when I had my first abortion. I knew nothing of the procedure. The word was never spoken in my circle of friends and classmates. As I reflect back to that time, I realize that my first abortion preceded a teenage life of drugs, alcohol and subsequent abortions. I'll fast forward to the beginning of 2006 in which I came to work part-time for a human services organization. I "stumbled" upon this position after mentioning to a friend that I was interested in working just a few hours a week to supplement my family's income. The next week, my friend handed me a flyer announcing a position as secretary/bookkeeper, ironically, at a crises pregnancy center. After working for the center for several months, enjoying my interaction with the women who came in for help and feeling a strong urge to pursue volunteer peer counseling, I attended their next scheduled training. I sat through the second day of my initial week of training ashamed, panicky, and angry as I listened to the day's speaker describe in great detail the abortion procedure so that the trainees could understand the trauma experienced by the post-abortive woman and be better equipped to counsel her. None of the five new trainees that I sat with knew that I was post-abortive and I was ashamed to tell them. So after squirming through that day and the next (in which the speaker introduced our post-abortion recovery program) I knew that I desperately needed healing from my own experiences. Another aspect of the training is that you shadow several veteran peer counselors in order to glean additional knowledge. As I sat in on the first meeting, the young woman who appeared to be just a few months along was given the opportunity to choose a video to watch (as part of our prenatal program). The video the client selected showed life in the womb beginning from just a few weeks to nearly full term. By working at the center as regular staff, I had already been exposed to pictures on brochures of developing fetuses. Until that day, I had never viewed any *films* on the subject. As the film began I gasped as I witnessed a fetus approximately 5 weeks old nearly completely formed. I saw arms, fingers, legs and I even saw a beating heart. As the client made various comments about the film, I held back

Question (8-cont'd)

the tears because I could no longer possibly deny what I had done. At my own hand, my children were gone forever. After several minutes passed, the client, visibly amazed at what she was witnessing commented, "That's why I can't see how a woman can have an abortion." My silent response was "If I had only known." You see when I was thirteen, I remember sitting in parent's room, listening to my mom's sobs as she said to me, "Don't you want to know what it looks like, whether it's a boy or a girl (please keep in mind that *they* had made the decision for me to have an abortion)? My father interrupted her and said "it's too early for that. Right now it's just a blob of tissue. It hasn't formed into anything yet." Right or wrong, I believed him. Maybe I wanted to. And except for her tears, my mom was silent on the subject from that point on. I have no idea of whether my father's words had successfully convinced my mother as they did his thirteen year old daughter. So when the session ended with the client it bolstered my resolve to reach these women with the truth in as compassionate and loving ways as possible, but no less the absolute truth about abortion.

When Andrea Yates killed her five children and Susan Smith her two little boys, the public used terms such as horrific, brutal, sick, and even demonic to describe the deeds of these ladies. Yet over one million babies are murdered each year, and yet because we have not seen these children smile, or speak their first words, or come to us for comfort, the terms we use for their murders are a woman's right, pro-choice, tolerance. Please explain to me how a matter of days can devalue the life of a child so much?

Ladies and Gentleman, all I have left of my aborted children are tears, regretful memories, and their certificates of "life" given me during their memorial service. Yes, it was my choice, indeed one I will look back on with great sorrow and regret. But I implore you to carefully consider. I assume that most of you are probably well educated. You received this education through hard work, through study of course materials, through dedication to learning particular facts about your field of study. I can probably also safely assume that most of you have never dedicated an hour of your busy lives to visit a pregnancy care center. If you have done this, I sincerely apologize for my assumption. But for those of you who have not, maybe one day you can visit, sit down with the director or a counselor and ask them what goes on in the mind of post-abortive women who call or come to the center to seek help. I'll tell you this much—she struggles to reconcile in her mind how she could have possibly taken the life of her unborn child. She is a woman whose existence is tormented by the fact that this death of an innocent person was one that she herself could have prevented. And I don't care how many children she has after her abortion(s), they will never replace the child or children she lost. Her arms will always feel a little emptier. No amount of comforting words or passing of time will change this. Unfortunately, I speak as one with first hand experience. And I truly believe I only maintain my sanity because of God's forgiveness.

Thank you for allowing me to speak.

9. Based on your own experience, what would you tell a court that believes abortion should be legal? 1st - It is God's RIGHT TO decide who lives & who dies. IF YOU FEEL YOU CAN'T RAISE A BABY there are LOTS OF PEOPLE who WANT TO ADOPT.

BEFORE ME, the undersigned authority, on this day personally appeared _____ (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: June 1998, Women's Center, Allentown, PA.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?
At the time I thought so. Now I wish other options (adoptions) were presented to me.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? NO If so, who? _____

- 5) How has your abortion affected you? I often feel ashamed + disappointed in myself. At the time of the abortion I fell into deep depression and abused drugs + alcohol to ease the pain. I don't remember much of that year except feeling very dirty. The next year I went to a check up + they found some cancerous cells on my cervix and did a LEEP. I then met my current husband who I had a relationship with 8 years prior to this. He introduced me to the Lord, + taught me many
- 6) How has your abortion affected others in your life? 2 older children watched me in depression + abuse drugs + alcohol they were 7 years + 9 years old at the time they still don't know. I ended the life of their sibling. I feel this is a black in our relationship.
- 7) Based on your own experiences, what would you tell a woman considering an abortion?
You may be able to rid this pregnancy, but you will never get over the depression that comes with ending the life of your baby not just your baby but also God's baby. He created it maybe not for you maybe for someone who can't have their own.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal?
This is murder. The same one who created the earth + everything on earth including us has a purpose for each being. He creates He allows our bodies to conceive the baby. It should not be our choice to destroy His creations. The consequences women suffer as a result of abortion far out weigh giving birth + life to a baby.

Question #5 | Things about the Bible & a relationship with
Continued | God, I shared this tragic event in my life
with him & he is very patient with me. Some
days I still get very upset with myself
& feel something is missing. We married
in 2001. I became pregnant & delivered
in 2002, but it was a high risk pregnancy
because of my now shortened cervix.
I don't know that the cancerous cells
were a result of the abortion or maybe
just many sex partners. Either way I
believe it was God's way of punishing me.
Our baby is a year old and I'm pregnant
again. It is scary because I worry
about my body's ability to carry the baby.
Almost every day I think about the
baby I never gave the chance of life
to, I will never get over this loss
it will always be a part of my life.
And I am so sorry I made the wrong
decision & no one was there suggesting
something else. God gave me the opportunity
to share my experience with a friend who
was considering an abortion, I cried to her, and
begged her to reconsider, she went through
with it, now I feel some responsibility for
that lost baby too. What do I do about that?

4) Did anyone pressure you into having an abortion? If so, who? NO I was not pressure by anyone to have this abortion.

5) How has your abortion affected you?
I became precuopy with becoming pregnant again. A year later I did become pregnant and had a miscarriage. Is there a link to the adortion and my miscarriage. I do not know. I do know I was never able to conceive again.

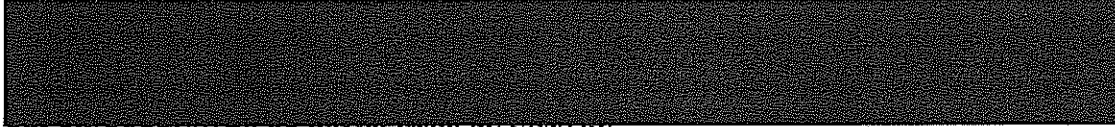

6) How has your abortion affected others in your life? About four months ago I started to tell people what I had done. They were very sad to hear.

7) Based on your own experiences, what would you tell a woman considering an abortion? Abortion is not the way to go. No matter what is going on in your life. Don't kill your baby. Give life to your child. There are so many family that are willing to adopt your baby and give you a good home.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is wrong. The lost I feel for my baby is over whelming the heart afe. My baby was a life that I killed and I live with that everyday. I will never know the joy my baby could have added to my life. Was my abortion the reason why I could never have any more children you tell me. I will never know.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: An abortion clinic in Providence in July of 1983
- 2) How has your abortion affected you? It has been 17 yrs and I still cry. I always look for ways to somehow give my baby life, memorials, etc... I am psychologically damaged forever. There will always be a void in my heart.
- 3) How has your abortion affected others in your life? It put a major strain on our marriage. For the longest time, I wanted my husband and blamed him. My children have seen me cry and they don't have their brother.
- 4) Were you adequately informed of the consequences of abortion? no, all I was told was that it would be over quick and never had to think about it again.
- 5) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: no, not at all. It was like an assembly line, you pay, have blood work, kill your baby, get birth control and sent on your way. It was cold and heartless. They said nothing.
- 6) Based on your own experiences, what would you tell a woman thinking of having an abortion? I would tell her that if she does it, a little part of her will die too along with her baby. It may take some time but she will grow this loss for the rest of her life.
- 7) Based on your own experience, what would you tell a court that believes abortion should be legal? Having abortion be legal is allowing innocent babies to die and women to suffer from PMS for the rest of their lives. You never truly & fully recover. You are psychologically damaged for the rest of your life. There should be a law to protect you from yourself.
- 8) Did anyone pressure you into having an abortion? If so, who? yes, at the time my boyfriend wanted the abortion because he didn't want his parents to know because they would be disappointed.
- 9) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? To this day I didn't know of any link between the two and so I have never had breast cancer.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: March 31, 1989; Volunteer Medical Clinic Inc., Tyson Medical Complex, 313 Concord St., Knoxville, TN 37919
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: I don't believe anyone who has an abortion is "adequately" informed. It was explained to me in such a way that it seemed I was merely removing a growth of tissue; the long-term effects were not discussed at all, and adoption was only mentioned in passing.
- 3) Were you adequately informed of the consequences of abortion? Only the physical aspects of the 1st week post-abortion was discussed. No one mentioned the emotional, mental, spiritual trauma that accompanied the abortion.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No and no.
- 5) Did anyone pressure you into having an abortion? If so, who? No one pressured me into or out of the abortion.
- 6) How has your abortion affected you? See attached pages please.
- 7) How has your abortion affected others in your life? It has changed the way I look at and interact with people, hardened me in some ways, driven out of me thoughts and feelings, reactions I wouldn't have had otherwise.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? I would tell her how it affected me, and offer to adopt her baby. I would tell her to listen to the voice trying to tell her not to do it, telling her it's wrong.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Compared to the number of women who died as a result of "back-alley" illegal abortions years ago, the millions of babies killed and the women who've died, gotten breast cancer, become infertile, suffered mental illnesses, and all the rest of the story to abortion, it is not worth the price of human life.

Question: How has your abortion affected you? What a question. Forgive me for making this so long, but I must say this. I can attest to this issue from two perspectives- both as a non-Christian, and as a Christian. I was not a Christian when I had the abortion, was 19, and single, and had gotten pregnant as a result of an all-night strip poker party at the apartment I shared with a female roommate. Not exactly a love story, to say the least; certainly an accident. When I found out I was pregnant I did not have a job, I no longer had the apartment, and I had absolutely no idea what to do with myself. I was completely lost. I don't remember thinking about being pregnant very much or very often. I just remember panic and depression, shock, utter despair at the thought of an embarrassing pregnancy. The thought that I had a life inside me did not really occur to me, so lost was I in my selfish despair. I didn't want the embarrassment, the inconvenience, the shame of being an unmarried mother. I reasoned that I was too young to have a family, and since I had no source of income, no place to live (long story), and was confused in absolutely every way a person could be, that it was the only logical solution.

I asked the thoughts of two friends; one said she didn't know what I should do, and the other offered to loan me the money for an abortion, a place to live, and a job, as a nanny to her two children. I took her up on it. She and her husband offered me what I thought I needed at the time, and I made the necessary arrangements. It seemed so simple. Little did I know the cost. It was so much greater than the \$300, \$150 of which I had borrowed from friends. The other half came from the "father" of the baby.

On March 31, 1989, we (the father and I) went to the clinic in Knoxville. I don't remember walking in, and I don't remember walking out. I do remember going into a room where there were a lot of women who, like me, were looking everywhere except at each other. The "counseling" session lasted about 15 minutes, and consisted of a short video which showed a tiny little mass of cells and explained to us that those cells were not actually living tissue yet, and those cells were not actually considered a fetus, but an embryo, which had no nerve endings and could therefore not feel any pain. The video all but congratulated us on making a mature, responsible decision, and further summarized the simplicity of the arrangement and the serenity that would come with knowing that we did the right thing for us at the time.

On that day I did the single most horrific thing I have ever done in my life. How did it affect my life?

At first, I had to make some choices. I had to decide if I was going to give in to my near madness the night I came back from the clinic and the couple for whom I was a nanny left me with the colicky 3 month old baby girl. Weak and sickened, I had literally crawled up the flight of stairs to my room. I'd laid down on my bed and stared at the ceiling. I was hurting physically, having menstrual-like cramps, and was mentally drained. I don't remember thinking about anything at all. The woman I worked for yelled up the stairs to see if I was okay, and I told her I was fine. Then she told me she and her husband were going to a bar in town because the baby would wake up soon for her nightly 3-4 hour crying colick time, and they "couldn't listen to it tonight." So, I worked my way downstairs and laid down in their bed, next to the bassinet to await the waking of the baby. The three-year old daughter was watching tv.

Sure enough, the baby woke up and began her nightly ritual of inconsolable crying. I sat, holding the screaming infant for three hours until she finally calmed down enough to take a bottle and go back to sleep. I cried silently and went to bed thinking that was what I got for doing what I'd done that day.

Within weeks I'd all but forgotten about the pregnancy. My life moved on, I found work, got a new apartment, and on the surface things had gotten better. However, I'd still not faced the

reality of the "choice" I'd made. I began therapy for depression the next year, and in September of 1991, still in therapy, I came to remember that I'd killed my child. The therapist had me write a letter to the child that I had, "committed to the universe," which I did, and one night I confessed what I'd done to my best-friend-at-the-time, by reading her the letter I'd written to my dead child. She cried with me and held me while I told her I was a monster and unforgivable.

My friend did the best she could to console me, and eventually helped me to calm down, as I was in hysterics by the time I'd finished reading the letter to her. To say that the ugliness of what I'd done hit me would be an understatement. Finally, I was confronting the truth about what I had done. Finally, I was grieving for the loss I'd inflicted on myself and my child. But there still was no relief from the agony I was experiencing. I was restless, agitated, depressed, out-of-sorts. The therapist offered a worldly view of what she considered sound advice for the grieving, and eventually I came to grips with it by reasoning to myself once again that it was the "right thing to do for me, my life being what it was at that time." It worked for a while (again).

I found out I was pregnant in November of 1991. Still single, I was determined to face this and "do the right thing." I was going to keep this baby. No question. I knew in my heart of hearts that there was no way I could endure again what I had been through with the abortion. I knew that no matter what happened, it could not be worse than what I went through because of that.

When my daughter was born, I found a new life in motherhood and the business and chaos it threw me into. It was a hard but blessed, precious time- the time I had with her by myself. While I struggled financially, emotionally, spiritually, and even physically to do everything that I had to do to do my best to bring this child up "right," I was determined to do that best I could. I had peace that I'd at least done the right thing by her. There was no question, no doubt.

I became a Christian on June 19, 1994. Since then I have married a wonderful man, become a stepmother to a daughter, and have been what most people would think of as "successful" in just about every way- financially, emotionally, physically, spiritually. Am I at peace with what I did on March 31, 1989? I don't know that there is ever peace for something like that. But I can look on it in a different light now. I can see that I was a sick person, and that I behaved in a way that is consistent with what society tells women. I believed the lie that is abortion. I believed it because it seemed easy and convenient, it seemed harmless and a one-time solution to a lifetime problem. While I can never say that I am glad I did it, I can say that I have learned from it, and the fact that I have survived it thankfully to God, with my sanity (I think!) and my health. And the experience has taught me how to be more sympathetic and understanding to those who are without a relationship with God. It's a sad, meaningless, lonely place to be. I know, because I was there. While I have experienced God's forgiveness for the murder I committed, albeit a legal murder, I have struggled ever since then to forgive myself. The thought of the child I killed is never far from me. And I have March 31st of every year to dread, and will for the rest of my life. Do I still feel guilty? Yes. I still AM guilty of abortion. I'm forgiven, but still guilty. Some things you can't take back. Life is one of those things.

Did abortion cause all my problems? No. Did abortion solve **ANY** of my problems? A *resounding* NO!

Often in the years since the abortion, I have wondered about the Holocaust. I've wondered about the monument that is a pile of shoes representing the persons killed in the Holocaust. And I've often thought about how tall the pile would be if we were to stack one baby shoe for each person killed by abortion.

I've also been angered more and more by society and the so-called women who preach "choice" "independence," and "reproductive freedom," which are both misnomers for the lies and

destruction that abortion is, and leads to. I label abortion as a lie. It is the most horrible thing we face on this planet today. I believe that with all my heart. To tell women that it is okay, it is legal, it is even EXPECTED and (shamefully) CELEBRATED- that we have the "right" to kill their own unborn children is a horror that should shame every person to tears and action. We are supposed to be the country that leads the "free world," yet we preach to our women, to mothers, that we have the "right" to take the lives of our own children. It is abhorrent, and it incenses me. Not just that it is legal; what makes me most angry is that we women BELIEVE the lie that is abortion. It is shameful, and it absolutely makes me embarrassed to be a woman. Our bill of rights states that all men have the "right to life, liberty, and the pursuit of happiness," and yet we continually, day in and day out, take the lives of those unfortunate enough to be conceived by persons who are too selfish to see what they are doing, and those too ignorant to understand the effects this is having on those of us left to live out the rest of our lives in longing for the ones we've lost.

If abortion had not been legal when I was faced with this "choice," my children would have another sibling. I would have more than my one birth daughter's arms to hold onto, more than her hands to teach to fold in prayer at bedtime, more than her voice and that of my stepdaughter's to say, "I love you, Mom."

No wonder our young people kill each other. Life is nothing to their parents. Why should it matter to them? Nobody talks about abortion because it is shameful and wrong, and everyone knows it. And no one admits to having done it, for those same reasons. People don't want to talk about it for fear of inciting those few loud-mouthed women's libbers who are hell-bent on pushing their agenda at literally any cost, while millions of babies are being flushed, incinerated, and even worse, used in scientific experiments for profit.

How has abortion affected me? It has broken me, taken me to the brink of madness; it has destroyed a part of myself that I will NEVER regain. It has affected every aspect of my life in a negative way. It has been a cruel cancer to me for which there is no cure. Yes, I survived it, but at what cost

God help us all.

I have read the above and foregoing statement and the same is true and correct.

I found myself pregnant and unmarried in the Winter of 1970. Our family was very visible in our local church. At this time in history, being an unmarried, pregnant young girl was one of the worst things that could happen to you. My boyfriend would have married me, but my Mother knew that everyone would know why.

I made the choice to terminate the pregnancy. Abortion was not legal in South Carolina at that time, so I called an abortion clinic in New York and scheduled a visit. I borrowed the money to pay for the procedure and plane tickets for my boyfriend and me. No one knew about the situation except me, my mother, my brother and sister, and my boyfriend. My mother did not tell my father and I have never been able to figure out why. He went to his grave never knowing what I did.

I went to a clinic located at White Stone General. That is about all I can remember about where it was. I was not told anything about what the procedure would be like or the risks involved. I was offered a chance to change my mind, but that was about it. No one told me what was being done to me or why. The clinic was a cold, unfriendly place, and the people there made me feel as though I was at their mercy.

I did not have a clue what I was doing. If only someone had taken a few minutes to show me how my baby looked at 12 weeks; that his heart was beating, that he could feel pain, that brain waves could be measured, that he had ten little fingers and ten little toes. I thought that he was just a blob of some kind. There was no counseling about any other alternative, such as adoption. And most important of all, there was nothing said about the risks involved. I could have died at that clinic, left with baby parts still left inside or a perforated uterus. If I had known these things, I would not have taken such a chance with my own life even if I didn't care about the life of the baby.

I left the clinic and returned to South Carolina, telling myself that all was right again; that I could get on with my life because this little problem was taken care of. A year later, I married my boyfriend and I became pregnant right away. Our daughter was born in 1972 and another daughter was born in 1975. I still refused to let myself acknowledge the horrible thing I had done. My husband and I never mentioned it again.

In 1995, an incident happened to me that brought the whole abortion issue back into my mind. I could not put it back deep inside my head where I had safely stored it for 25 years. It became a demon that totally dominated my life. I began to drink very heavily. My life was coming apart a little everyday. I told my husband that I could not live with myself any longer. I was a monster who lived with a secret that I was terrified of someone finding out. I decided that I deserved to die. What right did I have to live when I had so easily murdered my own child? The pain that came from the reality of knowing what I had done was something I cannot describe. I began to plan my suicide, even telling my husband of my intentions.

My husband pleaded with me to seek help by talking with someone. But how could I tell another person and risk that everyone in my small hometown would hear about it? The thought paralyzed me. But I was still sane enough to know that if I did not do something.....there was no happy ending to this scenario. I sought counseling with a wonderful Christian psychologist in a neighboring town. She lovingly worked me through the steps of dealing with the shame, the overwhelming guilt, the hatred for my mom and sister, and the acceptance of responsibility for my choice.

When I look back over my life, I can say without a doubt that having an abortion is the worst mistake I have ever made. I thought since it was legal, surely it must be okay. But I certainly know better now. Women who are considering having an abortion should be given every available fact before they make their choice. The abortion industry is all about money, with no thought about the women and babies whose lives are destroyed. Based on the number of abortions that have been performed in this country, I can understand why the family unit is having a hard time surviving. If every woman that has had an abortion has been through the guilt and depression I have, what else can we expect.

I only pray that I will see Roe v. Wade reversed during my lifetime.

- 1) Tell approximately when and where your abortion occurred: April 1973 in Rapid City, S.D. & 1977 in Mpls, MN
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No. It was compared to a miscarriage only. Both were presented as a mild surgery & no consequences. I was sent home same hour & the drive home being 3-400 miles away.
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? Yes If so, who? My parents & father of unborn
ON first abortion. Father of unborn on second one. ACTUALLY
counselor at clinic for second one encouraged me not to have it!
- 5) How has your abortion affected you? There is barely a day that goes by that I don't think about it. I have asked for forgiveness of it from God, but in my heart, I cannot forgive myself. So emotionally I still have an open wound. I drive to work each day by where the first one occurred. I am blessed that I did marry the father of the second one and have 2 children. But that ended in a divorce and I have never had a successful relationship since.
- 6) How has your abortion affected others in your life? My parents & I don't speak of it. The father of the first I don't believe ever had children. The father of the second ended up in an accident to be permanently housed in a nursing home & I wouldn't remember this.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? That the fetus is a person. And you don't want to rob that person of life. I AM adopted & found my birth mom to find out I was almost aborted in 1962. And I so, so love my boys that I did have.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? #7 what I answered. My sons do not know of my having abortions. But they at an early aged teen, knew this to be murder. And I didn't persuade them. They just knew that life begins at conception. I cannot see how you can blind yourself to it, but yet I did at such a young tender age. I have read the above and foregoing statement and the same is true and correct." know the hurt remains.

- 1) Tell approximately when and where your abortion occurred: March 1987, Billings, Montana Planned Parenthood
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO - I was not told about any consequences - the clinic referred to ~~me~~ the baby as "the pregnancy" not as a child
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? YES If so, who? my then boyfriend. He said he did not want to be a father. His sister had an abortion so he said that is what we would do.
- 5) How has your abortion affected you? It caused me to be suicidal & severely depressed for years. I lost such respect for myself that I became very self-destructive: excessive drinking, being promiscuous & engaging in unhealthy relationships. It took me 15 years to work through all the consequences of my abortion, including my guilt & my grief over the loss of my child.
- 6) How has your abortion affected others in your life? They've had to deal w/my behaviors & emotions from my abortion, even though they had no involvement in the abortion. My husband supports me but he bears a burden he had no choice in.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would tell them that what seems like an easy answer will affect them the rest of their life. I would say that they are carrying a life, not a choice & the only right choice is to give their baby life.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I would say that laws should exist for the purpose of benefitting society & that legal murder of babies is detrimental to the entire United States - the "right" to choose to end life is a poor argument for allowing this genocide to continue in our country.

OCTOBER 1994 DR. BUCK WILLIAMS OFFICE IN SIOUX FALLS, SD

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?

NO
I WAS ONLY INFORMED OF THE MEDICAL RISKS AND WHAT THE PROCEDURE INVOLVES. I WAS NOT INFORMED OF THE ABILITIES OF MY UNBORN BABY OR THE EMOTIONAL LONG TERM EFFECTS NOT SHOWN AN ULTRASOUND.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer?

I WAS NOT INFORMED OF ANY LINK BETWEEN ABORTION AND BREAST CANCER. I HAVE NOT HAD BREAST CANCER.

4) Did anyone pressure you into having an abortion? If so, who?

YES MY MOTHER AND THE SITUATION I WAS IN. I WAS DIVORCED AND HAD A BABY WHO WAS JUST OVER A YEAR. MY MOTHER CALLED ME A DISGRACE TO THE FAMILY. I FELT THIS WAS MY ONLY OPTION AT THE TIME!

5) How has your abortion affected you?

AT FIRST I EXPERIENCED AN IMMEDIATE FEELING OF RELIEF FOLLOWING MY ABORTION. I THOUGHT IT WAS OVER SINCE THEN I HAVE EXPERIENCED MEMORY REPRESSION FOR ABOUT 10 YRS. LAST OCTOBER 2004 IT ALL CAME TO THE SURFACE AND I HAVE EXPERIENCED A LOT OF GUILT, SADNESS, ANGER, HURT AND WHEN OCTOBER COMES IT MAKES EVERYTHING ESPECIALLY PAINFUL BECAUSE IT IS THE ANNIVERSARY. I HAVE

6) How has your abortion affected others in your life? ALSO EXPERIENCED FLASHBACKS OF THAT.
I HOLD A LOT OF RESENTMENT TOWARDS MY MOTHER. DAY! I FEEL I HAVE TO BE CAREFUL ABOUT WHO I TELL OR DONOT TELL BECAUSE I DO NOT WANT TO BE JUDGED OR DISGRACED.

7) Based on your own experiences, what would you tell a woman considering an abortion?

I WOULD SAY IT IS NOT YOUR ONLY OPTION, EVEN THOUGH IT MAY FEEL LIKE IT. AFTER HAVING TIME TO REFLECT ON THE EXPERIENCE I WOULD SAY THAT ADOPTION IS THE ANSWER: TO GIVE SOMEONE ELSE THE GIFT OF LIFE IS THE MOST LOVING ANSWER AND A WIN WIN OPTION.

8) Based on your own experience, what would you tell a court that believes abortion should be legal?

I WOULD SAY THAT HAVING AN ABORTION HAS LIFETIME EMOTIONAL EFFECTS NOT TO MENTION PHYSICAL EFFECTS. IT CREATES MORE PAIN IS THE MOST HAUNTING HURTFUL DECISION A WOMAN CAN MAKE. ABORTION IS AGAINST WHAT GOD WANTS BECAUSE EVERY HUMAN LIFE IS SPECIAL. I WOULD ALSO SAY I MISS MY SON OR DAUGHTER EVERYDAY OF MY LIFE.

In 1978 I became pregnant and went to my psychologist to seek advice. He told me to go to Rapid City and get an abortion. I was never told that my baby was really a baby, I was never told there would be pain, nor was I told that I would go through years of regret and mental anguish as a result of the abortion.

One day I silently slipped away and had my abortion. It was an easy enough procedure but it was after the abortion that I experienced the nightmare.

It was a few days after the abortion that I experience excruciating pain. I have never experienced such pain. All the muscles in my lower abdomen were agonizingly wrenched. There were no amount of pain meds in my medicine cabinet that would even touch the pain. I managed to call the doctor who preformed the abortion in the middle of the night. It was then that he told me that this could happen. I had told him what meds I had already taken. His advice to me was to take more. I was not concerned about over dosing, because at that point I had to do something and I didn't care!

I got through the night and the pain slowly subsided. I stayed in bed all the next day. I had absolutely no strength, every ounce of had been used. It was days after that I finally began to regain my strength.

I lied to the father of the child, saying I had had a miscarriage because I was so ashamed of what I did. Year after year I kept my secret and year after year I suffered not only the pain of losing my child but the guilt and shame of what I had done.

I cannot tell you the mental anguish that that abortion had on my life. To this day, I have only told a select few. I have had no formal counseling because I am too ashamed. This area is where great danger lies. Women who stuff, who appear to be healed going on with their lives, yet inside still carry the wounds and scars of killing their child. We who have had abortions have chosen to kill our children. We understand, too late, what we have done. I must live with the fact that I chose my reputation and my social appearance over the life of my child. It was my choice and I regret it to this day.

Even though my abortion was in the first few weeks of pregnancy, there was still a connective ness with the baby within me. Whether a physically formed baby is visible or not, it is a real baby and we (mother and baby) were connected.

I often wonder if it was a girl or a boy. I wonder if I would have had other children if this baby would have been allowed to live. My life would have been so different. I could have lived honestly amongst those who love me. However, even after 27 years I hide my secret.

I more than likely will never be able to prevent woman from getting an abortion, due to my concealed shame, however I can help by asking you who are the governing body in South Dakota, to make it mandatory for doctors to tell woman the facts and what they may encounter before the abortion.

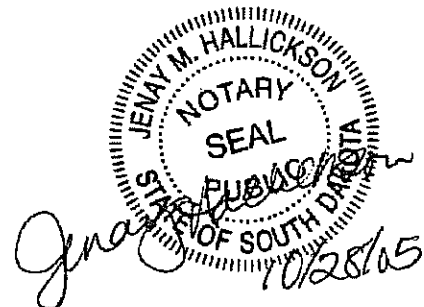

If I had known that my tiny baby was a real living life – I would not have done it.

If I had known of post abortion excruciating pain levels – I would not have done it.

If I had known the mental anguish, guilt, and shame involved – I would not have done it.

If I had known that someday I might have to disclose my terrible secret and be publicly disgraced and humiliated – I would not have done it.

Women have the right to know what will happen to them.

1) Tell approximately when and where your abortion

occurred: 1978 March - Omaha, NE

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?

Not at all. No literature was giving to me. No explanation of the procedure or any side effects. I was told it was a safe procedure.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer?

NO

4) Did anyone pressure you into having an abortion? If so, who?

I felt that I would tar our family name so it was a definite pressure in that arena. I also felt pressure in the relationship that I was in. Also, the pressure to 'succeed' in life did NOT include having a baby.

5) How has your abortion affected you?

I was in a downward spiral for about 6 years afterwards. I was involved in heavy drinking, promiscuous sex. I didn't know how to get out of everything I was doing - I felt trapped.

6) How has your abortion affected others in your

life? My husband has put up with me to a degree where I have a hard time showing my affections, my intimacy. It took a long time into our marriage where I realized he wasn't going to leave me. Because after my 'experiences' all my boyfriends left me.

7) Based on your own experiences, what would you tell a woman considering an

abortion? KNOW THE FACTS, CONSEQUENCES, ALTERNATIVES/OPTIONS. Get an ultrasound! Once a girl is told the "TRUTH" more than likely she chooses to carry to term.

8) Based on your own experience, what would you tell a court that believes abortion should be

legal? Back in 1973 we didn't have the technology such as ultrasound machines, etc. Now that we "see" this baby, moving, heart beating, sucking thumb, how can we as a NATION continue to rule that this is not a life. There is too much evidence to ignore - We must reverse this decision that was made in 1973. With all of the advancement of technology that we have, we simply have no excuse to continue the onslaught of human lives.

1) Tell approximately when and where your abortion occurred:

Boulder, Colorado - 1971

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?

I was given information pertaining to the procedure.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer?

no, no

4) Did anyone pressure you into having an abortion? If so, who?

my husband

5) How has your abortion affected you?

As I have come to my senses with the reality of the decision to have our baby removed from my womb, the affects have ran deep - piercing into my physical, mental, & spiritual being. Dealing with the truth is essential to healing, however, the repercussions unavoidably continue to be experienced.

6) How has your abortion affected others in your life?

Only they alone can answer that - However I have not worked through this for 25 some years as husband & wife, shared this truth with our 3 sons, our families, our best friends & community without knowing the great loss to all involved - knowing how this decision has brought consequences to all.

7) Based on your own experiences, what would you tell a woman considering an abortion?

I have done what you're thinking strongly of doing. Please share with me what's going on inside of you. Would you allow me to share with you the dears of where this seemingly simple and quick solution will lead you?

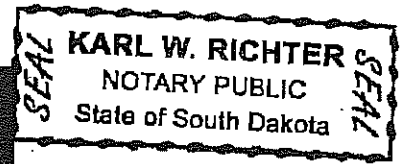

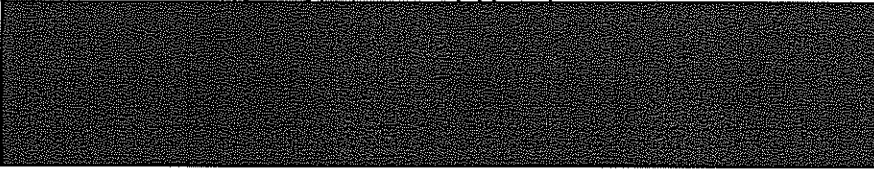

8) Based on your own experience, what would you tell a court that believes abortion should be legal? According to the highest authority of our land (Declaration of Independence, Constitution),

the highest duty of those in delegated positions of authority is to uphold life. It is the unalienable (not transferable ... example - to women) right of every child, of every human being of every developmental stage & race & creed & color. Because those in powerful places of authority put their stamp of approval on women choosing death, I entered a realm which no woman should tread & of which I would never escape - so horrible, so real, so near was the smell of death.

As a member of this court, you are in a powerful position to make a significant difference in redirecting our country and state to just standards. You have an opportunity and a responsibility to lead us down right paths. May you continue to faithfully uphold the right and not seek to compromise it. My Story of Abortion

How can I even begin to put so many emotions on paper? I guess I should start by saying, when I was 21 I had an abortion. Years later I have found out "it" did not only affect my life but also the lives of my parents. I have remained silent about my own feelings because I did not think my family wanted it any other way. Now, I know differently and I am ready to talk.

When I was 20 I was hospitalized with an eating disorder that I had kept a secret for 7 years. I was 5'4", 108lbs. I had lost over 40 lbs in less than eight months. My body was in terrible health and my mental state was not the most stable. I was emotionally immature and very much dependent on my parents. After my stay in the hospital, I was allowed to return to college and my boyfriend. I continued therapy where I lied one after another. I had not changed my behaviors. The following Fall I changed colleges while my boyfriend stayed at my previous school. Two weeks after our last weekend "together", I found out he had been sleeping around on me. Since we did not always use protection and sex was a new thing to me, I went to the school nurse to be tested for any sexually transmitted diseases the next week. Before we even got around to test for STDs, I was given a pregnancy test. The nurse told me I was just pregnant. It was very light on the strip but after blood work it was definite! I was so shocked and afraid! I called my ex-boyfriend and told him he needed to come see me right away. The only way he would come was for me to tell him on the phone. He came and we talked about what we should do. I thought we were certain we'd get married. After having "make-up sex" again that night I asked a stupid question. I asked, "If I had an abortion but you could never see me again or get married what would you choose?" Of course his answer was to never see me again. Once again I was shocked and afraid.

The next morning we woke up and went to my parents home. We told my mother before my father came home. I guess we were hoping she would take the news better. Still thinking we would get married and have a baby, we all went together to his home to tell his parents. His mother insisted I have an abortion because I was NOT going to ruin her son's life! As he and his father sat there not saying a word, my parents grew furious. My father said "let's go" and on the way out Dad told my boyfriend "I hope you grow up to be more of a man than your father." I will never forget the words or the last looks I ever saw on their faces. Once again, I was shocked and afraid.

We went home to a whole new ball game. My parents were willing to support me no matter what. However, it was clear to me after a long conversation at the breakfast table what they wanted. The words that stick out to me most were "THEY will have to be a part of OUR lives forever, your body is in no shape to carry a baby so what if the baby has health problems and having this baby will change ALL OUR lives." The idea of having a baby and giving it up for adoption was not an option for me. I knew if I delivered a child I could never give it up.

The decision was made but I had to wait. I was only three weeks pregnant and I had to be eight weeks to have an abortion. I returned to school to wait. It was a miserable time! "Why did I have to let this "thing" grow so I could kill it???" I just tried to forget about it all. Needless to say my eating disorder got worse. About the time I was eight weeks, I began passing a thick, brown matter which I also experienced after the births of two of my children. I wonder if I had or would have had a miscarriage????

The day came, March 3, 1995, and my mother took me to a clinic in Atlanta to have the procedure. I did not want to go. I was not doing this for myself. I did not want to have an abortion. As I sat in a waiting room with other women who were having an abortion, the feeling grew stronger in me that I did not want to do this. I made up my mind. Forget the papers I signed, not even sure what they were. When they came for me (I was next) I would just tell them I did not want to do it, they would show me to my clothes and I would leave. I could explain to my mother on the way home and it would be fine. Wrong!! They came for me and as they walked me to the room I told the nurse I had changed my mind. She said let's go in and talk to the "Doctor". No sooner did I sit down to "Talk to the "Doctor"" was she sticking me with a needle. When I woke up, I found myself in a different room laying next to the women who were in the

waiting room with me. A new nurse asked me if there was anything she could get for me. I asked if it was done and she simply said, "yes". I told her yes you can get a gun for me. I could not bear to walk out of there and face anyone! I had to. When I was walked out my mother was sitting in the office where we had started out in tears. They had to tell her I had requested a gun.

She took me home and I slept and cried for a few days. Something had to be done for me. The next decision was to put me on a plane to my cousins in Provo, Utah. I had to leave my surroundings and try to find myself or I was convinced I would die there. My parents agreed to help me go, to take time off from school and find myself. They knew I was going to a safe place with people who loved me. It was difficult for all of us. I will never forget the morning we left, I asked to go to one of my best friends home who had just had a baby boy. I am sure she has never figured out why when I held him I began to cry. I would not say I found myself in Utah but I did I begin to laugh and see beauty in the world again. How can you not in Utah! Life continued and I have managed to keep my secret and hide my pain. Every time something has gone wrong in my life since then I believed it was God's punishment for having had an abortion. Every time I see a pro-life sticker, ad, or billboard I am shamefully reminded. Every time I see my friends son who is now 10 years old I am sadly reminded. It never goes away! I would rather be able to look at my child and smile.

I am now 32, I am married and have three wonderful children. Our third child was not planned but is most definitely a gift from the Lord. At my first ultrasound, I was exactly 8 weeks pregnant. I heard the baby's heartbeat and began to cry. These were not tears of joy. I instantly thought that I had killed a heart beat just like that 9 years ago. Of course my husband did not understand but was very supportive. I had a friend who I knew counseled women like myself. I spoke to her about it one day because I began to believe no woman should be allowed to have an abortion without hearing that heartbeat. I know had I heard my first child's heartbeat that baby would be with me and I would not be writing this story. Today my friend has promised to be my strongest support as I begin a long awaited healing process. To me this is another sign that God puts people in your life at certain times for certain reasons ~ Ultimately his own.

I just went home to visit my family over the summer and had the most amazing talk with my Father. We have all come full circle with our faith walk. Dad and I began talking about forgiveness. He said God gives us signs and he had received one. I asked "What do mean". He said it had to do with me and we will probably both cry. He said on his birthday a couple years ago he was sitting in his office crying asking God to show him that he had been forgiven for the part he had played in my having an abortion. At that moment the phone rang. It was my niece, his first born grandchild, calling to wish him a happy birthday. She had never called him in the office and has never since. Dad felt like this was his sign. I did cry! I said, "I wish I had a sign like that". Dad said look behind you. My two youngest children were sweetly asleep in their car seats. It dawned on me. The many problems my children have had with their health and the fact that we a had a third child we could not afford were not punishment for what I had done. My children are signs of God's forgiveness.

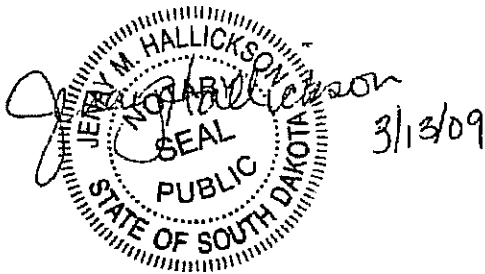

I then told my father that I wanted to do something with my experience that would help other women not make the same mistake I did. I was just worried my mother would not want me to tell anyone and I wanted to show her that respect. He then told me my mother was volunteering and giving large portions of her tithes to a place called the St. Francis House which houses and schools pregnant girls and single women. They also counsel but Mom has not taken them up on that part yet. I am hoping My story on paper will help. Before I left Atlanta I talked to my mother and let her know my plans. We went over the fact that we did what we thought was the best choice at the time. While that may be true it does not take away the pain or the fact that it was the wrong choice.

You see, My being pregnant was going to change all Our lives no matter what I did. I know God has a specific plan for our lives and He is telling me now is the time for me to take what He has given me and bring glory to Him. As hard as it is for me to forgive myself, God has forgiven me. Jesus paid the highest price for me and I am so humbled by His love. I am ashamed, regretful, and saddened by my mistake. However, I know if I kept it my secret I would never truly be able to give my life to glorify God. It is not our right to make such a mistake. If God did not want me to have that child I definitely would have

had the miscarriage my boyfriend wanted me to have. I had no right to make that call for him. Maybe I did or was going to have a miscarriage but I did not give God that chance. God knows what he is doing in everyone of our lives. It says in Malachi 3:3 that God sits like a refiner and purifier of silver. A silversmith must keep his eye on a piece of silver until he can see his reflection in the silver. We have to give God the chance to right wrongs and to be the controller of our lives. How else can he mold us into his image.?

I have had an abortion. I can tell you and my parents can tell you that it is wrong! No matter what decision you make it will never be an easy one. Your life will be change forever! Why not make the right decision. Ask yourself "What Would Jesus Do"? I think we all know the answer. I am so sorry for the choice I made. I know the affect abortion has on a woman and even a family. I would not wish it on anyone!

- 1) Tell approximately when and where your abortion occurred: August 17, 2002 - Knoxville, TN
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I was informed of physical risks and depression. There is much more to depression than that mere word. You cry as if your mother just died, you want to go back or lift your child up and put her back inside you. It hurts in your soul, something unshakable.
- 4) Were you informed of any link between abortion and breast cancer? Yes Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? Yes If so, who? _____

6) How has your abortion affected you? Since I had originally planned to keep my daughter, I was used to talking to her everyday. I was so excited to have her, but a friend of mine told me I would be selfish to keep her because I couldn't take care of her financially. He told me to remember the homeless and hungry kids of this world and how my baby could end up being like one of them. I was in the middle of finishing my college career. He said that I wouldn't be able to be a full time mother, got to school part time and work to support the two of us. He also told me that it was better for me financially to pay \$500 now instead of \$500,000 for the rest of my life - I cry everyday, I still talk to her everyday, I miss her so much. I feel like my heart has been ripped out. I gave up my child because I was afraid.

7) How has your abortion affected others in your life? _____

8) Based on your own experiences, what would you tell a woman considering an abortion? Do not listen to what everyone else is saying nor to yourself if you believe you can't support your child. You can do it! And when you finally see your child, you know you will finish school and obtain a career to support her. You can still get married, your life won't be over, it will be better.

9) Based on your own experience, what would you tell a court that believes abortion should be legal? There is no way to express the way I feel about the decision I made. But imagine it as a young woman killing her child to keep it from starving to death only to receive enough food to feed an army of 1,000,000 men 2 minutes later. Devastation. I loved my child. Fetus = Baby!

- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? parents

BEFORE ME, the undersigned authority, on this day personally appeared M. U. G. (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: August 1988 Memphis, TN
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? Yes If so, who? Boyfriend
- 5) How has your abortion affected you? I have been severely depressed, full of guilt, ashamed, fearful, anxiety attacks, cried all the time, didn't want to live anymore, life didn't feel the same anymore, constantly saw counselors, preachers, & psychologists, had a nervous breakdown in 1999. I stopped living, I only existed going through the motions of everyday life.
- 6) How has your abortion affected others in your life? I seemed to hurt everyone I touched. I can't keep or maintain any relationships with males or females. My colleagues & acquaintances think I am CRAZY.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Please don't kill your own child because he/she is truly innocent. God loves you and your unborn child and he will take care of both of you if you would trust Him and go to Him in prayer instead of an abortion clinic. You will regret aborting your child emotionally & spiritually. I made the wrong choice!
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion actually kills the unborn child and the mother! It is not the answer to anything. This country was originally built grounded and rooted on God's principles as its foundation... but killing innocent children is an abomination to God who created life. Legalizing abortion was wrong - the mother's emotional state is traumatized. Who can represent the innocent, unborn child?

BEFORE ME, the undersigned authority, on this day personally appeared M [redacted] H [redacted] (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 1989 - Planned Parenthood Nashville, TN
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? 1990 - Dr. Bill Chambers Nashville, TN
I was adequately informed of the actual procedure but I was definitely not adequately informed of the consequences.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? YES If so, who? My mother, my boyfriend, Planned Parenthood
- 5) How has your abortion affected you? I had 10 years of depression, anxiety, and panic attacks that I had trouble understanding. I did not understand what was causing me to be literally ill. I eventually learned of Post-Abortion Syndrome. I was apprehensive at first but agreed to see a counselor. Through this process I discovered that I was so full of guilt, shame, regret, unforgiveness, and sadness that I was unable to cope with day to day life. Those 10 years of my life were spent in anguish due to a decision that I had made based upon misinformation and untruths.
- 6) How has your abortion affected others in your life? For the 10 years that I spoke about ^{and untruths} my husband and children did not have a whole person as wife and mother. My depression and anxiety absolutely affected them all.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would make sure that she understood the facts of abortion and the procedures used and I would make sure she understood the risks involved physically and mentally. I would make sure she understood that there is such a thing as Post-Abortion Syndrome and what that means for her. I would share my story with her.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I would tell the court what my experience with abortion has been like and explain to them that I made a decision without understanding truth. I would hope that my story would help explain to them what the effects of abortion can do to a person both physically and mentally. Not to mention what it does to an unborn child. It is amazing to me that such a clearly immoral and dangerous procedure could actually be permitted. The well being of so many is in jeopardy everytime a "choice" "I have read the above and foregoing statement and the same is true and correct." is made.

- 1) Tell approximately when and where your abortion occurred: April 1969 Windsor, Ontario Canada
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No.
The MD at the MSU Campus Clinic gave no information or referrals to a counselor or adoption agency. He gave me no information on pregnancy or fetal development. He said, "Ten minutes and you won't think about it for the rest of your life." He was wrong.
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? wrong.
- 5) Did anyone pressure you into having an abortion? NO If so, who? Financial pressures. Fear of damaging my good name. I made the choice, because there was no other choice.
- 6) How has your abortion affected you? Physically, immediately after the procedure I developed an infection. I also have not had any more pregnancies. Emotionally, I was in denial of the reality of what happened on the abortion table for fourteen years. I developed defense mechanisms to deal with life, losing emotional feelings and being numb. After the abortion I was involved with exploitive relationships and had little self worth. Physically, I gained over 140 pounds. I became a hard, cold individual. The abortion affected my relationships with friend, relatives, and others. Fourteen years after the abortion, when a coworker became pregnant, I began to cry for my baby, I finally realized it was a baby. I then began an extensive grief/healing process.
- 7) How has your abortion affected others in your life? Yes. Friendships, relationships, family.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Abortion will not make you un-pregnant. Take time, get lots of information, and talk to others who care about you. Abortion is not an emergency - it is a permanent part of your life history.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Women are exploited by abortion, suffering lifelong physical and emotional consequences. Abortion is not just a medical procedure. Abortion impacts many aspects of that woman's life - and permanently harms and destroys women and those they love.

- 1) Tell approximately when and where your abortion occurred: Abortion Choice Clinic, Elizabethton Tennessee, 1991
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Kind of but not really, I had to watch a video prior to the procedure. No one told me about going into depression or the pain from the procedure, and of course they gave me birth control pills
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? NO If so, who? _____
- 6) How has your abortion affected you? After I had my abortion, I became depressed and suicidal. I have regretted having an abortion. I have been condemned about having an abortion because I have always wanted a child and gave the only opportunity I had to have a child up. I have felt ashamed that I took a babies life. My thoughts in the passed have been I want to be married and have a family but because I had an abortion I will never be able to have kids. If I would have known then what I know now I would have not had an abortion. God will provide.
- 7) How has your abortion affected others in your life? It hasn't because not many people know that I have had a abortion I have been ashamed of the fact. The dad did not know at first.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Not to consider it at all. That God is their provider and he will make a way and that eventually having an abortion will haunt you. That having an abortion can lead to depression.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? That legalizing abortion has opened doors for men that do not want the responsibility of a child to talk women into aborting a child. It also allows women that think they cannot provide for a child an easy way out when adoption is better than the regrets of having an abortion

AFFIDAVIT

To be filled out by women who have had an abortion.

The State of Tennessee

County of: Bradley

BEFORE ME, the undersigned authority, on this day personally appeared M. K. (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

Tell approximately when and where your abortion occurred: 1/20/84 - Chattanooga, Tennessee

Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No. I was only told what would be done in the procedure - eg. anesthesia administered, cervix dilated, extraction (but no mention of what was to be extracted), what I could expect to feel (physically only), bleeding that may occur. No one told me it would kill a baby or that there was even a baby inside me. Nothing was said about any possible consequences - esp. emotionally

Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no

Did anyone pressure you into having an abortion? no If so, who? _____

How has your abortion affected you? Has caused tremendous guilt, shame; emotional trauma when I realized what I had done. I have suffered from depression, bouts of crying, anger, great sorrow & grief. For a number of years I suffered from "Anniversary Syndrome," a type of depression around the time of conception, the date of the abortion & what would have been the estimated due date. I have also suffered from grief around Mother's Day. I have had low self-esteem. I "ran" from myself and from God for a number of years before I began to deal with this. It has affected my ability to relate well w/ others. It has interfered w/ intimacy w/ my husband. The depression, anger & emotional instability resulting from the abortion affected my ability to function properly on the job & almost caused me to lose a job. My first child was breech presentation due, I believe, to the fact that there had been death (murder) in my womb. He was delivered by C-section, which involves its own complications. I had difficulty forgiving myself and others who had any involvement w/ my decision to abort.

How has your abortion affected others in your life? It has caused friendships to be dissolved. Has caused grief, pain for loved ones in my life. It has caused a strain on my marriage. My grief has interfered w/ my ability to relate well to my children. Time spent dealing w/ this & related issues has taken away time from my children, husband

Based on your own experiences, what would you tell a woman considering an abortion? Please Don't!! It will kill your child & change your life forever. You would live to regret it all your life. God allowed your baby to be conceived. No matter the circumstances of how that occurred, He has a plan & a purpose for both your life and that of your unborn baby. Please allow him/her to be born. If pregnancy presents problems for you, killing this baby won't be a quick fix. It will only bring more problems into your life. Possibly physical & definitely spiritual & emotional.

Based on your own experience, what would you tell a court that believes abortion should be legal? Killing babies in the womb doesn't benefit anyone except those who perform or sell abortions. It doesn't solve problems - only creates more. It brings about trauma, emotional, psychological & physical problems that can take years to overcome or that one may have to live with forever. The cost to both the individual and to society are enormous. How many more taxpayers would we have today had over 30 million babies been allowed a chance to live? The elderly today would possibly have more persons to take care of them had these babies been allowed to live.

- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Yes - But some information was inaccurate.
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? Yes If so, who? The doctor and my mother. But I also was given false info to encourage me to go through with it. I got pregnant as a result of rape.
- 5) How has your abortion affected you? It has caused depression, guilt, and a lot of shame and embarrassment.

As I got older it became more and more evident to me that I made a horrible mistake. Now that I'm older I don't believe the fact that the father was on drugs and it would cause the baby to be deformed. I was not on drugs.

- 6) How has your abortion affected others in your life? I'm not sure if the abortion has directly affected others in my life, but probably has affected how I relate to them.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? DO NOT DO IT! A mother is supposed to protect her baby - Not kill it. While it may seem ok at the moment you will regret it later. Think about what exactly you are doing and why.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion should not be made legal for anyone wanting one. My personal feelings are that it should not be done under any circumstances. If it is a situation that the mother will die if she carries the baby, then maybe in this case. But otherwise - It is not fair to sentence an innocent baby to death because the parents decide it is to

It took much longer than I was led to believe and immediately afterward I cried + cried + knowingly at that instant what I had done was wrong. Spiritually it was a devastating experience that still affects me today. I have been blessed with 4 children and having them helps me realize what a huge mistake I made. I regret it above any other decision I have made.

6) How has your abortion affected others in your life? not so much.

7) Based on your own experiences, what would you tell a woman considering an abortion? Do not do it. you will have to live with knowledge that you killed a human being created by our creator. It will haunt you always. childbirth is a gift not a curse or burden - allow it to bless you not curse you.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? who's kidding who here? you can prosecute Scott Peterson for the murder of his unborn son yet it's ok when a woman aborts a child. Science has proven life begins at conception - you are telling yourself Rational lies to make a convenience available to those who do not wish to be inconvenienced and turning your head away from the facts!

BEFORE ME, the undersigned authority, on this day personally appeared Carrie Martin (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Spring 1990 Knoxville, TN
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?
I was given a general description of the process and the immediate physical changes, but no long term information.
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? NO If so, who? _____
- 6) How has your abortion affected you? In the beginning I thought I was literally going to go crazy. I did not sleep or eat and I was in a constant state of depression. Twelve years later I can still remember the horrible feeling. I am only recently realizing that ~~that~~ it is still affecting me now. My self-esteem has been damaged for years. They don't tell you how it affects your mind or your emotions. It was a traumatic experience that left deep scars that I still deal with today.
- 7) How has your abortion affected others in your life? The shame from the decision has caused me not to tell people. I know the father dealt with some of the same emotional issues though.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her NOT to do it. There are so many other alternatives. If I could turn back time I would not do it. I wish there had been someone there to tell me the same thing.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion should not be legal. They want to wrap everything in this pretty little package, "A woman has a right to choose". In reality, when the package is opened, it is ugly. Women go ignorantly into this trap and come out broken.

- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion stops a child's heart from beating and causes its brain waves to cease. These criteria are what we use to determine life in a human being. It damages the mother beyond imagination.

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO, NO, NO

3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
4) Did anyone pressure you into having an abortion? yes If so, who? Boyfriend

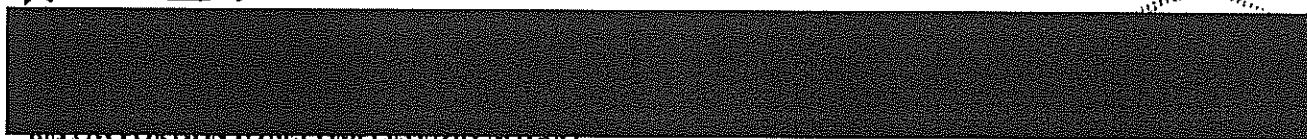

5) How has your abortion affected you? after the abortion, I felt unworthy, sad, broken for many years - I was self destructive, NO standards in my life - drank, drugs, men ect... I never forgot - I never told anyone until years later. It still affects me 19 years later - I'm crying now - And I remember that day so clearly. the date is stuck in my head forever.
6) How has your abortion affected others in your life?

7) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her I've been there - I pray that I would change her mind. I would tell her the things I didn't know then - That a baby is a gift from God - No matter what your situation is - or your age.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? I would ask if any members of the court has personally ever had an abortion or knew anyone who has. I would tell them that I had just turned 16 years old when I had mine, and my parents or family still to this day does not know. The decision I made that day lives with me forever - The pain inside hurts physically - And I have read the above and foregoing statement and the same is true and correct. The State of Tennessee

BEFORE ME, the undersigned authority, on this day personally appeared R [redacted] W R [redacted] (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: February, 1989, Marina del Rey, California
 - 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: I was told it was 'no big deal' and it would solve my problem without risk to me. They said it was not a baby at that point but only a blob of tissue that needed to be removed before it became a baby.
 - 3) Were you adequately informed of the consequences of abortion? No more baby, no more problem. That was about the extent of it.
 - 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No. I have been monitored for the past 2 years because of an abnormal exam and mammogram results. So far it seems to be ok.
 - 5) Did anyone pressure you into having an abortion? If so, who? Yes. The baby's father. He said that he could not bear to think that he had a child somewhere that he could not be involved with (his decision) and I would be very selfish to do this to him and his family.
 - 6) How has your abortion affected you? I feel guilty. I love children but don't really feel that I deserve one. I have been diagnosed with endometriosis (?) and may not be able to have any now anyway. Don't really think I can ever get close enough to anyone to trust them with this shame so I am still single.
 - 7) How has your abortion affected others in your life? Of the few who know it's not something we ever talk about. They don't want to so, even if I need to, I don't.
 - 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? Get all the facts and get all the options. 9 months of discomfort are nothing compared to the lifetime of guilt and shame you will feel. Not to mention the horror when you realize what you did to your own child. Be very sure you can live with the outcome.
 - 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Legal murder is still murder. We have no right to decide who lives or dies nor should we. If the truth about abortion were made public I cannot imagine any decent human being approving of this horror. We condemned Hitler. How can we not condemn ourselves for allowing this to continue.

Now I have to live with that guilt and regret. It has affected me emotionally and spiritually and for the rest of my life.
- 7) How has your abortion affected others in your life? _____
- 8) Based on your own experiences, what would you tell a woman considering an abortion? The baby should not be punished for your mistake. The child is already a human being and has a right to his life. There are organizations/people who can help you either keep the baby or plan for adoption.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: July 1984 in an abortion clinic in Dorien, IL
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? NO If not, explain: I was told nothing before hand. The doctor explained what he was doing during the procedure.
- 3) Were you adequately informed of the consequences of abortion? NO, I was told nothing
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? yes If so, who? boyfriend When I told him I was pregnant he made all of the arrangements - he set the date & place & paid for it. He even drove me there & took me home.
- 6) How has your abortion affected you? depression & flashbacks. After the abortion I had no self-worth. I turned to drugs & alcohol & relationships with no meaning. After I married & had a miscarriage the guilt was horrible. I blamed myself for the miscarriage because I was a horrible mother to have had an abortion. Having the D+C after my miscarriage brought back horrible memories of the abortion.
- 7) How has your abortion affected others in your life? It mostly affects me by lowering my self-worth & causing depression - although I certainly take out my feelings by yelling or pushing away those close to me.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Don't do it. You will regret it for the rest of your life. The emotional scars will haunt you all the days of your life.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? It should not be legal. Abortion kills babies & hurts women. No woman "chooses" to kill her child - she does so only because she believes she has no other options. Too many women have abortions without fully understanding the implications. Murdering one's baby & hurting oneself. "I have read the above and foregoing statement and the same is true and correct." should not be legal or easy.

BEFORE ME, the undersigned authority, on this day personally appeared Mitzi M. Turpin (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Sept. 5, 1980 - Bristol, TN (Sullivan Co.)
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO - I was told not to worry, that lots of girls were having abortions, and that it was only a blob of tissue.
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? yes If so, who? the father of the child (my boyfriend)
- 5) How has your abortion affected you? I have suffered for years with the knowledge that I allowed my child to be killed. Guilt plagued me for many years especially on the anniversary of the abortion, and each year around when the baby's birthday would have been (early to mid April). Every time I meet a young person who was born in 1981 I am struck with a deep sadness, knowing that if I had not aborted I would have a child that same age. I am taking medication for depression. God freed me of my guilt when I finally acknowledged my abortion to Him, others in my Church, and asked for forgiveness.
- 6) How has your abortion affected others in your life? My husband (not the father of the aborted child) has been a wonderful support for me, but I am sure it is difficult for him to be the shoulder I cry on each year on Sept. 5.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her: "Please, please do not have an abortion. What seems to be a quick and tidy answer to a messy problem (unwanted pregnancy) is really a decision that will probably haunt you for the rest of your life. Have your baby, difficult as that may be. Even if you give the baby up, your regret will not be as intense as knowing you killed him or her."
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I would tell them that an unborn child is indeed a human being, possessing unique personhood - the child is NOT part of the mother's body that she can do with as she pleases - the child has his or her own brain, heart and body. Abortion not only kills unborn children, it also mortally wounds the whole of society, cheapening life.

- 1) Tell approximately when and where your abortion occurred: Princeton 1969, NYC 1973
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No. No! No!
I was only told it would end the pregnancy. I was NOT told that it was murder. On the last level of a life I was not warned about the psychology of some pregnancies.
- 4) Were you informed of any link between abortion and breast cancer? NO. Have you had breast cancer? possibly now -
- 5) Did anyone pressure you into having an abortion? NO If so, who? no medical ins.
*I believed the lies of the liberals. It has cost me 40 years about personally 100 more years.
- 6) How has your abortion affected you? I didn't realize how it affected me until I read David C. Reardon's book, The Jericho Wall and Randy Alcorn's book, Deadline. I have felt guilt, anger, frustration and many depression's ever since. It was so hard to believe that God has forgiven me. It affected personal relationships, professional relationships and my relationships. The only thing that I have, FOUR children. I don't like the two ~~children~~ children who were alive. They were ever a live and affect the relationship I have with my two children who live in my home.
- 7) How has your abortion affected others in your life? It's probably affected my children and how we have bonded. In some ways they see me as someone that controlling and over protective.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? But first it's a crime against God and your child. Jesus will make a way where there is no way.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? They are wrong and they, themselves, will pay a price for a God for not honoring the unborn rights. They must protect the unborn. As they are the poster child for the loss, mothers simply do not have a right to choose to see their unborn children.

AFFIDAVIT

To be filled out by women who have had an abortion.

The State of Tennessee

County of Shelby

BEFORE ME, the undersigned authority, on this day personally appeared Jenifer B. Whitehead (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

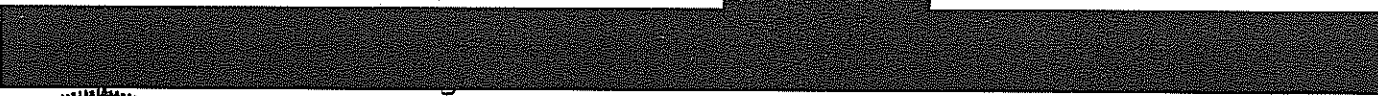

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: November 1988, Memphis Tenn., Planned Parenthood
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? No If not, explain: The entire experience was rushed. I was seeking abortion to due rape by my boyfriend, of whom I was very afraid. But the "Counselor" told me to talk to the father! she said it would be quick, painless, free of complication, and that ultimately it was the best decision - one I'd never regret because of the rape and that it wasn't really a baby yet!
- 3) Were you adequately informed of the consequences of abortion? No. In fact all the things I was told about abortion and what it would "do for me" have been utterly false. Something I was told I'd "never regret" is the single greatest regret of my life! It just made the rape experience worse.
- 4) Were you informed of any link between abortion and breast cancer? No. Have you had breast cancer? No.
- 5) Did anyone pressure you into having an abortion? Yes. If so, who? My boyfriend suspected I was pregnant and beat me up "just in case." I lied to him later and had the abortion on the sly out of fear. My mother, whom I went to for advice, presented it as my only alternative.
- 6) How has your abortion affected you? There was a dead, numb place inside me for a long, long time - 7 or 8 years. It lessened my respect and value for human life, and cheapened the value of my own. It was the catalyst for drug and alcohol abuse, sexual promiscuity, deep depression, shame greater than I'd ever known, suicidal thoughts and utter despair and hopelessness from the guilt. Jesus found me and saved me, from all this, or I'd be dead.
- 7) How has your abortion affected others in your life? The pain and consequences from this experience, resulted in family rifts; it affects my children today. The post-traumatic syndrome I suffered when I became pregnant was hard on family and friends. Today, though, there are positive effects because I counsel others.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Do. NOT. Do. It. Despite what you've heard, despite your fear, despite your situation - it is NOT worth it. In fact, it will only add to your pain and suffering, not reduce it. Also - it's definitely No convenience - look at my answer to nos. 6 and 7. Nothing "convenient" about any of that. It will destroy your life and your others.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? That its belief is silly, based on lies, propoganda and political/social agenda rather than FACT. All the "pro-choice" arguments supporting abortion, whether legal or moral, are utterly bankrupt. And the biggest lie of all is the term "pro-choice" - because abortion STEALS your choice, and by its very nature makes you the thief of your child's choice. Choosing abortion is no choice at all - it's not good for anyone.

- 1) Tell approximately when and where your abortion occurred: Scottsdale, Az. June (?) 1973 Boston, MA Feb. 1975
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I was informed only of what abortion does in the short term (your "problem" will be solved) but not the long term. Emotional consequences were trivialized.
- 4) Were you informed of any link between abortion and breast cancer? NO! Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? yes If so, who? My mother (first one) & my live-in boyfriend (second) - who, incidentally, was the father of both.
- 6) How has your abortion affected you? The first one must've not affected me much as I went and had another 2 yrs. later! After the second, I was sick (mentally & physically) for a long time. I remember extreme nervousness & anxiety with many psychosomatic "illnesses" - I was a miserable wreck. Drugs and promiscuity didn't help, so I left MA & went back to AZ. Basically, I just endured & lived with grinding my teeth all the time. I'm afraid Jesus has to put up with hearing me apologize over & over. I live with deep sorrow.
After the second, I participated in a landmark study by Carol Gilligan & Lawrence Kohlberg - In a Different Voice - no room here to expound on this study & how wrong she is!
- 7) How has your abortion affected others in your life? I can't say - it's been so long and I'm very good at stuffing things down. It probably has a lot to do with why I am so involved in my kids' lives (we homeschool) and am very hands-on - not willing to farm my kids out to anyone.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? DON'T! Have the baby & give him/her to me. If you change your mind later, I'll give the child back, just don't murder him/her. I would too!
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would remind them that they will, one day, be the defendant in the ultimate court - that they should consider what answer they plan to give God. Also, that the Bible, upon which our laws are based and upon which truth is sworn, calls abortion murder, an abomination.

BEFORE ME, the undersigned authority, on this day personally appeared SUZANNE YOUNG (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: January, 1979 - Little Rock, AR
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? YES If so, who? My mother and a close friend.
- 5) How has your abortion affected you? Until Jesus came for me on January 17, 1991, I struggled with an inability to maintain close relationships; anger and bitterness towards my mother, my friends, and the world in general. An absolute abhorrence for pro-life advocates. I drank a lot of alcohol, smoked a lot of marijuana and had a lot of casual relationships with men. At one point I considered suicide.
- 6) How has your abortion affected others in your life? My children suffered through all of the above with me, and only by God's grace are they functioning, productive adults, and only by God's grace do we have good relationships now.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? That the consequences are ENORMOUS and the emotional pain is UNSPEAKABLE.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion hunts women! The courts are always willing to hand down decisions to protect the general populace - except in regards to abortion. This is a procedure that hunts women, kills babies, destroys relationships. This is an issue of "the greater good." Abortion is NOT for the "greater good."

Attachment to affidavit concerning Roe vs Wade

1983- having been a life long church member and being taught that pregnant means baby, I was shocked and confused when my minister, parents, Planned Parenthood and law said abortion was an option. Did they know something I didn't? At 16 1/2 it was possible. Was it really just a mass of tissue? I had taken my pregnancy test with the help of my minister. I was 6 weeks along. No one spoke against abortion. Actually, it was presented as a quiet way to fix the problem. The doctor just cleans out some tissue, no one has to know, including future doctors. (Information from Planned Parenthood) I get to go on with school and college. When the father of the baby said he would deny me and the child, I put myself in Planned Parenthood's hands. Within 2 days I was sent 1 hour away to sit in a crowded waiting room with other girls 13-20. Some had moms with them like me, some had friends, or were alone. No one made eye contact. I went into a counseling room to be told about the procedure(the cleaning of tissue, some bleeding afterwards, if it's really bad see a doctor, you don't have to tell anyone, no one will ever know.)

Then it was into a changing room, 3-4 girls in a stall, getting into hospital gowns and waiting for their names to be called. (These were done in a clinic, a few floors up, in an office complex.)

Whoever came with us had to wait in the waiting room. It was a very lonely time. Then into the room- no one looked at you in your eye, very businesslike, cold, unfriendly. While the procedure went on, I cursed the father, felt like my insides were being ripped out, the sadness was overwhelming. I lay quiet and let the tears flow as inside my head I shouted STOP, I HATE YOU. The ride home was done in silence with the understanding that we were never to talk about it. Inside anger burned into hatred bound by sorrow and a grief that I was led to believe I didn't deserve. Every time I tried to talk about it, to anyone, I was spoken to in cautious ways that shut me up. But why, I did what the world said was ok, why did everyone run from it?

I didn't tell the father until months later when we had a blow out in school and I told him- "I took care of your problem, I hate you, Never talk to me again"

Drinking and being rebellious became my pastime. I drank to dull the emotions and slipped deeper into depression for the guilt of what went on when I drank. On the surface, life was good. I graduated, went on to college, earned a degree, was in church on Sunday. Underneath it all, I was a mess.

My self-abuse took on the form of abusive relationships. I earned my psychology and sociology degrees. Looking back, I see I had enough psychology to know better, enough self-hatred to feel I deserved it. I took exacto knives and carved crosses (of all things) into my arms.

I had anxiety attacks frequently and the ability to "go to my happy place" helped keep me sane (to disassociate myself from any discomfort).

1987- found me in a relationship with a guy who was physically and emotionally abusive, and pregnant. This pregnancy was a "problem" that needed fixed, the father was in jail for assault and battery on another kid. He said he would kill me if I left him. This was a problem. The world offered to fix my problem again. Self-doubt (maybe I am wrong, maybe they know more than me..) I had someone make the appointment, just within the first trimester window.

Same waiting room, same cattle stall dressing room, same cold, shameful attitudes from those that were suppose to be helping me. This time, as I lay on that table, I say to myself "Not again, I will never do this again" In the midst of the procedure, I felt myself begin to slip away. I told the nurse "I'm leaving you. Goodbye" and closed my eyes. Suddenly the doctor is issuing orders, there's a flurry of activity, they give me a shot of something...I sleep into the recovery room. It hurts more this time.

This time I am determined never to find myself in that position. One night, in my dorm room, I am awoken by the sound of a 5 year old boy yelling- "Help me, Mommy, help me" I bolt to the voice, only to come to and see my closet door. My heart knows it is the voice of my first child. I cry.

This path the world says is ok to walk is confusing and painful. I seek Truth and Love.

2 years later, I marry my best friend from high school. He has been by my side through everything.

My parents let me talk a little about it now. Looking back I see where my abortions effected others too. My brother found out through the grapevine about my first one shortly after it happened. He became angry, first at the kid, then me. He quit things that were important to him; football, boys scouts, came up with a "what's the use" attitude, got mixed up in drugs, alcohol, stealing, quit school half way through his senior year! His girlfriend became pregnant about the time I was in 1987. She had the baby. He wanted to father it. She kept him away. He married another and got divorced. Now he lives with his girlfriend, has a good job, but won't commit to any one and has a quick fuse.

My husband and I had a miscarriage the first year we were married. The doctor asked alot of questions, turns out they do need to know, and they can tell if you have had surgery. They need the information so you can have a healthy pregnancy. I was preoccupied with getting pregnant as soon as we were married.

We have two kids. For the first year of both, I had my husband check them in the morning to make sure they were alive. I was afraid they would die of SIDS. I was always afraid something was going to happen to them. I still am but not as intense. I didn't bond with them like I could have. Fear becomes a distached barrier.

I overreact if I see or hear something in them that could lead them down the wrong path- I am quick to sit them down and tell them how to do things. Also, I overreact if anyone jokes about my kids-"what if I pick up Bekah and she just stays with us?"

My periods are extremely heavy and painful. My emotions are haywire within my cycle. We had trouble conceiving the second time. The doctor wanted to put me on fertility pills. We chose not to. I have very lumpy breasts and had them checked when my son was three because they leaked fluid one month and hurt. (I nursed the first 6 months.) I have periods of grieving.

My parents overcompensate by buying my kids lots- LOTS -of gifts. They love them, dote on them, spoil them.

8) I would tell her what I tell everyone that comes into our center, what I told my church, the youth group and my kids- abortion is murder. We have been lied to and the lies have consequences. The "problem" resolved through abortion brings relief at first. The pregnancy brought to an end brings grief that has to be dealt with. The child has to be killed, then expelled. You are a mother. It is painful. It leads to depression, anger, abuse, cancer- because the body is developing all this new tissue to help you carry and deliver a baby- abortion stops this process in midstream. The body doesn't understand why suddenly the tissue has no place to go, no function to do- so it attacks the tissue as a foreign body. There are people to help you. This is a turning point, not a brick wall. We are here if you need to talk , no matter the choice.

9) What is the unborn? When does life begin? Why is homicide charged when a preborn baby dies in a car wreck but abortion is not? God tells us the unborn is a child. Science confirms that life begins at conception. Murder is murder. Pregnancy is not a disease or a problem to quickly wipe under the rug and do away with. An UNPLANNED pregnancy is the consequence of sexual behavior that we have come to accept- but it brings heartache outside of marriage. Every pregnancy is wanted= every baby is wanted. Either by the birth parents or the 40/1 parents looking to adopt because, for whatever reason, they can't have a child.

Abortion- if you haven't walked in the shoes of one who has- you don't know what you are talking about. Generations have been lied to; " it was an easy fix to a problem", It's a mass of tissue, not a baby', Isn't murder a crime?" Why would a group of people make a sinful crime a LAW? Acceptable, easy, ok to do? Deep in the soul the woman feels the tie to the baby, whether she is conscience of it or not. That is why there is a grieving process to walk through But we are told there is nothing to think about, we aren't parents, the problem's solved so forget it, which leads to a nation of grieving moms (and dads) who aren't allowed to grieve which leads to high rates of depression, suicide, abusive relationships, divorce (can't commit), shame, guilt, neurosis, detached parenting into a pot of confusion and pain. Then their bodies rebel against the abortion- cancer, extreme bleeding, problems with reproducing, psychosis....what?! Why would there be physical problems & emotional problems if this was a quiet resolution to a problem. BECAUSE IT'S NOT.

The body has to adjust, the mother has to grieve, but why? Because it was a baby!!!! A part of her, ripped out of her womb because she put her trust in the hands of her parents, minister, teachers, doctors, lawmakers - all these professionals saying this "choice" would benefit her and not hurt her. DECEPTION.

I will continue to speak out the TRUTH to keep as many kids as possible out of the abortionists hands. I will lead them to the healing they deserve and away from the wicked, perverse leaders that were suppose to uphold the Constitution and look after the well-being of our nation and our people- our children. When your lies come out- I will be shouting the Truth. You have let us down. You have brought undue pain and suffering, loss, grief, upon the children of this land- the living and the dead.

My family grieves now for the children that are not here. My children grieve for the siblings they never had a chance to know.

Abortion. 19 years of pain and grieving. Only God can heal. Praise be to God- the Creator of Life and the Lord of my healing. In Him, life finally makes sense.

AFFIDAVIT

THE STATE OF Tennessee §
THE COUNTY OF Blount §
§

Before me, the undersigned authority, on this day personally appeared Marilyn Lynn,
(Print Name) who, being by me duly sworn, upon oath, stated the following facts.

My name is Marilyn Lynn (Print Name). My address is

I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

I was raised in a Christian home but I just didn't "buy into it" at the time. I had started sneaking around and doing things I shouldn't have been very early. I learned early and, was very good at hiding the things I did. As time went on I made lots of bad choices.

I made it through school, had my own apartment, had survived several failed relationships, had a good job and was seeing a new boyfriend. After only about four weeks I had a positive home pregnancy test. I thought that maybe it was not really accurate so I went to Planned Parenthood for a pregnancy test. It also came back positive. I felt like my world had just caved in around me. Knowing I was upset, the lady at Planned Parenthood gave me a number to call when I got home where they could "help" me with this problem. My boyfriend was very recently divorced and paying child support on two children and certainly wasn't about to take responsibility for yet another child he didn't want. When I told him I was pregnant his response was that I needed to get rid of it. I was very scared and didn't know where to turn. I didn't want to marry him, I hardly knew him, I just wanted him to be supportive. He refused to discuss the pregnancy any further. I felt I couldn't tell my parents, or anyone else, that I was pregnant. I called the number to the abortion clinic and made an appointment. As it got closer I couldn't go through with it so I called to cancel the appointment. They told me I needed to be sure that was what I wanted to do because I may not be able to get in as soon as I would like if I waited and the longer I waited the more it would cost. I wasn't sure what to do but I cancelled the appointment. My boyfriend was not happy and wouldn't even talk to me about the pregnancy anymore and I just wanted the problem to go away. I couldn't see beyond my fear of the pregnancy itself to anything else. I was so scared and confused. After several days I called the clinic back and rescheduled the appointment for the abortion.

Early on a hot Saturday morning in July, my boyfriend's sister picked me up to take me for my appointment. We arrived at the clinic to find a group of protestors out front. My boyfriend's sister drove around the block and let me out on the street behind the clinic. She

said she would pick me up in the same place after it was all over, that she had changed her mind about going in because said she was afraid someone might recognize her. I went in through the back. The waiting room was already filling up. I felt like I was going to fall apart but wondered if maybe I was overreacting since no one else seemed worried. I was so scared. I signed in, took a seat and waited. They finally called my name and I followed a nurse into a little room. She took my name and social security number and then briefly explained the procedure by showing me a little model of a uterus and a little hose, explaining that it was like on a vacuum cleaner, and told me how the doctor would take the hose and insert it into the uterus and suck up the "pregnancy tissue". I asked her if "it" would feel any pain. She assured me that it was still just a bunch of cells with no real form yet and could feel nothing. She did another pregnancy test and it was also positive. She told me that after it was all over that I may feel bad for a few days but it was just my hormones trying to get back to normal because of being pregnant and then suddenly not being pregnant. I never realized there were risks to the procedure. They never mentioned any risks, just told me it was a very "simple procedure." I never dreamed it would interfere with the rest of my life.

I was given a hospital gown and told to put it on and have a seat in another room. I changed clothes and waited with several other girls. I remember talking with one who said there was nothing to be scared of, that it was a breeze, all over before you knew it. This wasn't her first abortion; I can't remember how many she said she had had. Finally, a nurse came, took me to a bed and started an IV. She said it was just a little Demerol to help me. Soon they took me to where the doctor was waiting. Lying there on the table I felt so scared and alone. I just wanted it to all be over. I heard the suction machine as the doctor began the procedure. I started crying and the nurse said to me, "We can stop right now and you can get up and go home if you want to." That made it worse because I knew as well as she did that that wasn't possible now because the doctor had already begun the procedure.

They said I would only feel some pressure and heavy cramping but it wasn't like that at all. It felt like my insides were being ripped from my body. The nurse kept telling me that it wouldn't hurt so much if I would just relax. I wanted it to just be over but it just went on, and on, and on. I couldn't stop crying. I was so scared and it hurt so much.

When it was finally over, I felt relieved but sad and angry. It was like I was somebody else and not really me anymore. I determined in my mind that I was going to forget about this. I refused to think about it and refused to let myself feel anything. I knew I wouldn't survive if I couldn't forget about the abortion. Every time I would begin to think about it, or see, or hear anything that reminded me of it, I would push it away. Over time, and with the constant conscious efforts, I became very successful at not remembering. I had become able to push all memory of it away as soon as it came up without even thinking about it. My boyfriend and I stayed together for less than two months after my abortion. I couldn't stand to be around him any more and finally told him. I moved from one bad relationship to another. My life was a mess but I didn't know what to do about it and I had no idea that the abortion could have any thing to do with my current state of mind. I didn't know why I couldn't seem to pull it together. I began having migraines, was gaining weight, drinking and smoking heavily. Long time friendships deteriorated. I couldn't seem to trust anyone anymore and just didn't want to be around anybody anymore. The only stable thing in my life had become my job, which I poured myself into. I had begun to notice that as I would be driving down the interstate that thoughts would just pop into my head about oncoming trucks and if I waited just the right amount of time and swerved into their lane if I would be killed or just injured.

After about a year, I decided to move to another state. It made no sense, as I had a very good job where I had just been promoted to a managerial position. I simply went in one day and turned in my resignation, rented a truck and moved. Nobody here knew me and maybe I could start over. I pretty much cut all ties. After moving, my life really didn't change and was still a mess. Church was still the last thing on my mind and I rarely attended anywhere. I was soon involved in yet another bad relationship with a guy who had just gotten out of prison.

When my husband and I started dating, I knew he was a Christian and that church was a very big part of his life. I began going to church with him. We married five months later.

A few months after we married, I joined his church. Soon, I was pregnant. This time I was ecstatic. From the beginning there were problems. I was frequently on bed rest due to bleeding and cramping. I was losing weight rapidly, and was hospitalized for hyper-emesis. Time went on; the problems continued. On September 6th another ultrasound was done and everything looked ok. On September 9th I went into labor. Our baby girl was born, dead, at five that morning. I blamed myself. For the first time in a very, very long time, I thought of my abortion. I was sure that God had taken the life of this baby because I had taken the life of my first one.

We tried and tried to have another baby. Finally, after various infertility treatments, a huge debt, and another two and a half years, I was pregnant again. Problem after problem developed but after another very hard, touch-and-go pregnancy, my son was born. He was early, but he was healthy and, he was alive. I began having nightmares about my child drowning.

Since my marriage I had been in church and finally I realized that the only reason I "got saved" when I was twelve was because I wanted everybody to stop trying to push me into it and leave me alone. I didn't really think too much about the fact that I hadn't done it for the right reasons. All I did was say a prayer that I was told to say. It didn't mean anything to me. I now began to realize that the profession of faith I had made when I was twelve was not because the Lord was drawing me but just to get people to leave me alone. At the time I didn't know that the Lord actually had to draw me. I thought all I had to do was say the prayer and it didn't really matter why I said it, just that I said it.

It was now around November of 1999. I don't know what day exactly. I couldn't sleep. I got up and tried to read but couldn't concentrate. I knew the profession of faith I had made at age twelve was not real and I knew I was lost. I wasn't sure what to do about it because now I had been going to church for ten years and everybody thought I was already saved. I had been playing church for ten years now. I knew what I needed to do. I knelt in our living room and poured out my heart to the Lord and asked him to save me.

One evening last winter the Pregnancy Resource Center in our town came to our church to present their ministry. When God removes your denial you have to deal with it. I couldn't eat or sleep. I threw up every time I tried to eat. I was afraid I was losing my mind. I had never told anybody about my abortion. I finally went to my pastor, whom I had come to trust, and tried to tell him about the abortion but I just couldn't. After a few more miserable days I went to him again and was finally able to tell him my deepest, darkest secret. He hooked me up with the Pregnancy Resource Center and their post-abortion coordinator. I began post-abortion counseling. I didn't tell my husband. He didn't know about my abortion. Counseling is the hardest thing I've ever had to do but soon the pieces of life's puzzle began falling into place. The nightmares stopped, I began losing weight as I went back to the pattern of eating I had before the abortion. The migraines stopped and I quit taking the meds. I don't think about pulling out in front of trucks anymore.

My pastor helped me to tell my husband about my abortion. He said he had always known there was something wrong but never could figure out what it was. He had begun to think that there was someone else in my life because I seemed so withdrawn from him. Now he knew the truth and my marriage, which was in trouble, has healed.

The scars remain – painful at times– but I'm forgiven. I'll never be able to see little girl on this earth but if I can let others know what the other side of abortion is like, hopefully it will touch some lives with the truth. I can never take it back. I can never "fix" it. I will always have to live with the consequences of my abortion but when I feel guilty I remember Romans 8:1-2, that there is now no condemnation to them which are in Christ Jesus and Hebrews 10:17, that He'll remember my sins no more.

I have read the above and foregoing statement and the same is true and correct.

#3 In the literature given to me describing possible complications, 10 out of the 11 items listed were worded in a way to downplay any danger. The literature stated that "emotional problems are uncommon, and when they happen they usually go away quickly".¹

They verbally assured me that the abortion would not be painful. They were wrong, it was excruciating.

#6 I was told that an abortion was a surgical procedure to remove unwanted tissue from my body. I have been grieving the death of my child for ten years now; my heart is in pain to this day.

#7 The option of aborting the pregnancy was first entertained by myself. The baby's father did not attempt to sway my decision either for or against the procedure. He accompanied me to each of my appointments to support me in my decision. The staff was reluctant to acknowledge his presence let alone answer his questions. They were extremely reluctant to explain anything to him. He was treated as insignificant, though he was involved just as much as I was in the activity leading to the pregnancy.

#8 Do not have an abortion. The danger to your health, mentally as well as physically, is not worth it. The implied relief the staff told me would be the result never came. After I was released from the recovery room, I went home and cried myself to sleep in the father's arms. I expected my life to be easy, it has not. Abandoning your responsibility as a parent does not result in peace of mind.

#9 It is not in the best interest of the mother to use abortion as a method of birth control. It is surely not in the best interest of the child involved. I expected to move on with my life with no repercussions, no regret, and no grief. Whether a pregnant woman is aware of it or not, her heart is desiring a relationship with her child. Murdering that child is not conducive to that end.

I have written and reviewed the forgoing statement and the same is true and correct.

BEFORE ME, the undersigned authority, on this day personally appeared Pamela Sanders (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:"

1. Tell when and where your abortion occurred: December, 1968, Michigan; October, 1972, Michigan
2. Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: N/A - both were illegal (one performed by physician, one performed by myself)
3. Were you adequately informed of the consequences of abortion? N/A - see #2 above.
4. Were you informed of any link between abortion and breast cancer? N/A - see #2 above
Have you had breast cancer? No
5. Did anyone pressure you into having an abortion? No
If so, who? _____
6. How has your abortion affected you? For many years I was bothered by guilt, regret, shame, remembered the horror of flushing tiny babies down the toilet. Becoming a Christian healed me.
7. How has your abortion affected others in your life? After convincing my parents to help me get the first one by threatening suicide (invalid threat), our relationship was damaged (my fault).
8. Based on your experiences, what would you tell a woman considering an abortion? I would tell her that I did not expect to have such strong emotions (listed in #6) and try to help her realize the importance of letting the baby live, offer to help meet her and her baby's needs.
9. Based on your own experience, what would you tell a court that believes abortion should be legal? I would tell them about my experience hoping they would understand how abortion causes more harm than help. Though my abortions were illegal, the pain I experienced would have been no less if they had been legal.

WHO WILL MOURN MY BABIES?

by

Pamela Sanders

Who will mourn my babies, my two sons who died before birth? Aborting them seemed like a practical solution to my problems; but later I experienced sadness, guilt, and regret. I share my story hoping to make women aware of the emotional distress caused by an abortion, enabling them to make wiser decisions.

It all began a few weeks before my eighteenth birthday when I moved into an apartment with Joe. I had dated Joe through high school, though my parents did not approve; but I was rebellious and

eager to be free of their authority.

Joe and I were married after my birthday, but within a month I realized I'd made a mistake. I thought being away from my parents and on my own would be fun; but when marriage didn't measure up to my ideal, I was disappointed and wanted out. I was stubborn and determined. I was also pregnant.

I told my parents I wanted a divorce and an abortion. They agreed to help because they wanted to see me in a better environment with hopes for a better future. Abortions were legal in only a few states in 1968 and Michigan was not one. But we located a doctor who was willing to perform the illegal abortion. My mother and I went to his office one night after office hours. I was nervous and scared and hoped it would be over quickly.

The doctor injected a local anesthetic into my cervix and did a D. and C. It was very uncomfortable and a bit painful. By the time I got home I was vomiting and had severe cramps for several hours before aborting a dead eight-inch baby boy.

It appeared to be perfectly formed, even the fingers and toes. As I looked at the tiny body, I thought of the name he would have been given and how proud Joe would have been. I wondered what it might be like to hold my own live, squirming, crying newborn; but I forced those thoughts from my mind as I reluctantly flushed it away.

For a long time I had bad dreams about what I'd done. I couldn't forget the tiny baby boy and I felt sorry for him. I also felt sad and guilty, feelings I did not expect to have.

When I felt better physically, I went to see Joe. We decided to try to make our marriage work. In an attempt to start the new

commitment on the right basis, I told Joe about the abortion. He'd been raised in a Catholic home, and, though not committed to his church as an adult, he had an ingrained belief in the value of unborn babies. He was appalled to learn that I had done such a thing.

My parents were angry and hurt when I returned to live with Joe. They had compromised their moral standards because of my thoughtless selfishness. I had used them to get something I wanted, or rather to get rid of something I didn't want.

My marriage continued to falter, but the following year I gave birth to a daughter. Joe was abusive to me and the baby. He was also involved in drugs and many scary people visited our home frequently. When our daughter was about eighteen months old, I decided divorce was the only answer.

I was pregnant again, about three months. How could I raise two children alone? Did I dare ask my parents for help again? They might have helped, but I was twenty-one by then and determined to prove something to myself. I didn't want to be under anyone's authority any more. I wanted to make by own decisions, to be my own person. I would be independent and never rely on anyone again. I would perform my own abortion.

The irony of this is that I knew my great-grandmother had died trying the same thing. She left behind a husband and four young sons. My grandfather had terrible memories of the mean woman his father married to be their stepmother.

But knowing that did not stop me. I was confident that if something went wrong, modern medicine would save me. So I proceeded with my plan. I purposefully did not sterilize the instrument I chose

to use; if infection developed, it would help to abort the baby.

One day when Joe and I were out, I started bleeding heavily. By the time we got home the four pads I used were soaked as well as my jeans from my waist to my knees. Alarmed, I called my obstetrician. The next day in his office, he told me I was about to miscarry. That, of course, is what I wanted to hear. A few days later I started to hemorrhage again. Along with the blood was the body of another baby boy. Again I felt sadness at what I had done, but I quickly removed those thoughts from my mind. Joe was disappointed and sad when he saw the dead baby, and angry. He was angry because he suspected what I had done. However, I insisted that I had done nothing to cause the "miscarriage", and another baby was flushed away.

Over the next week, I became very sick. My obstetrician said I needed to be hospitalized for a D. and C., but no beds were available and I had to wait.

The hemorrhaging started again suddenly one morning. After bleeding steadily for over thirty minutes I fainted. It was then that I realized that something was very wrong. I was admitted to the hospital in serious condition. The hospital admission form stated the diagnosis as "Incomplete Abortion". When Joe saw that, his suspicions were confirmed. He turned to me and shouted, "What's this?!?" The office clerks stared at us as I explained that the term "incomplete abortion" is the medical term for miscarriage. He seemed to accept my explanation, but I felt too sick to care.

Alone in the hospital room, I got into bed and closed my eyes. As I started to doze, I was awakened by someone checking my pulse. It was the anesthesiologist; he had come to explain the anesthesia I

would have during surgery the next day. He said I was so pale he didn't know if I was dead or alive; that's why he'd checked my pulse.

After he left, some nurses came in and started a blood transfusion. It was amazing to watch the palms of my hands and see the pink return. I needed four or five units of blood before surgery could be done. I was also given massive intravenous doses of antibiotic because of the infection that had developed. The D. & C. was done the next day. When I was discharged, I went to my parents' house with my daughter rather than going home with Joe.

The following week I went to my doctor's office for a check-up. He knew it wasn't a miscarriage and insisted that I tell him the details of the abortion. He scolded me severely, saying I'd done a foolish thing and was closer to death than I realized. He also said I could have trouble with future pregnancies because my cervix had been damaged. He spoke sternly to me and I was in tears when I left his office.

My grandparents had come from Florida when they heard how sick I was. My daughter and I went home with them for a three-month visit. The time away from Joe, along with having succeeded with the abortion, helped me to be strong in my decision to get the divorce. He tried to convince me to return to him; but when he realized my determination, he gave up. I think, too, that he suspected what I'd done. He was probably so disgusted with me that he didn't really want me back. How could he ever trust the one who had killed his sons?

During the months following our separation, I had no self-respect and didn't see how anyone could ever care about me if they found out about the abortions. Thoughts of what I had done stayed in the back

of my mind and dominated my thinking, especially while in Florida. Having nothing to do but rest while at my grandparents' home was just what my body needed; but it did nothing to help my emotional state. Back home in Michigan, I did all I could to keep from thinking about the abortions. I kept busy at work during the day, and at night I went out with friends; but nothing I did helped me forget what I'd done.

I soon felt the need to go to church. I had attended church on and off as a child but had never made any genuine commitment. Just after my divorce was final, some friends invited me to a week-long seminar that helped people learn to deal with everyday problems and relationships. I was in tears several times during that week as I was made aware of how wrong I'd been about so many things. As I faced the truth about what God thought about all I had done, feelings of guilt, regret, and sorrow flooded over me - guilt over the abortions, regret over the divorce, and sorrow over the realization of what an evil person I really was. However, I also realized that God loved me. I learned that He had made a way for me to escape the destructive thoughts that were almost more than I could bear. I found comfort, peace, and a new excitement in His forgiveness. At the end of the week I committed my life to Christ. That was June, 1973; I became a new creature!

I began to realize that the Lord had a plan for my life. He had allowed me to go through those difficult things for a special reason: He wants me to use my experiences to help others. It is by His grace that I am alive. I am not proud of what I did; but if it will keep others from making the same mistakes, I am willing to share it.

The physical pain that goes along with having an abortion is slight when compared to the emotional pain. My body healed, and, although there was the possibility that my damaged cervix could not stand another pregnancy, I remarried and gave birth to two sons. However, I will never forget the sadness and guilt I felt at the time. Nor will I ever forget holding those tiny bodies and not wanting to flush them down a toilet, but doing it just the same. I was very selfish in what I did, and I know now that my selfishness was the worst sin of all. I also know that God forgave my sinful selfishness. Because of Him I have no more guilt over my past.

My abortions had far-reaching consequences which involved many people. Abortion includes dishonesty, deceit, and distrust among all who are involved; there is never just one who suffers. An abortion is not an easy way out of an embarrassing or difficult situation, nor should it be used as a method of birth control. An abortion is not simply a visit to a clinic, a day or two of discomfort, then an erased memory. It becomes a nightmare in the back of the mind and is never forgotten. After an abortion a woman is troubled with thoughts of the baby. What would it have been like? Whom would it have resembled? What would it have become? These and many other questions remain forever unanswered. Feelings of regret, sadness, and guilt can be overwhelming. If I can prevent one person from experiencing such grief, God will have accomplished his will through me.

Who will mourn my babies? In Jeremiah 31:13 God says, "I will turn their mourning into joy, and will comfort them, and make them rejoice from their sorrow".

- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? yes/no If so, who? My boyfriend made it real clear that he did not want to have a baby. I also felt like I could not go home for help... I felt cornered.
- 5) How has your abortion affected you? It went with you later did I truly understand the magnitude of killing my child. I am the proud mother of 3 previous little girls ages 4, 3 and 1. I was not prepared or informed about the emotional trauma, the crying and the guilt and shame over having an abortion. Abortion is something you never quite get over.
- 6) How has your abortion affected others in your life? It has brought resentment at times with my relationship & my mother. Also the self loathing I feel for myself spills over into my relationships & my husband & girls.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Abortion is a tragic & traumatic exp. and you never quite get over it. When you chose abortion you think it's a quick fix... The reality is when you chose abortion and kill your baby, a part of you dies.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? The abortion industry is a money making business. A lot of people would be out of work if women chose life for their babies. The Doctors & Nurses who willingly assisted me during my abortion process are nowhere to be found. They did not really care about ME... All they cared about was me choosing death.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

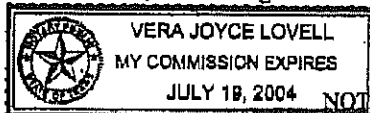

- 1) Tell approximately when and where your abortion occurred: 1984 at a Phoenix, AZ Clinic
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No
All I was told was that it was legal.
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? Yes If so, who? Planned Parenthood staff
- 5) How has your abortion affected you? There was an increase of self-destructive behavior regarding sexual activity, drugs and alcohol. I was irrational and full of fears. I would become overwhelmed and fall apart emotionally, but not knowing why. Ten years passed before I was able to admit to myself that I had killed my child and was able to grieve for him. After 13 years, I have given up hope of conceiving another child.
- 6) How has your abortion affected others in your life? My husband cried with me and said he would have my child. My stepson wanted to have a brother so much that he made imaginary ones. The hardest thing I had to do was tell him that I had killed the one that would have been his best friend.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Just because it's legal does not make it right. This child has a place in your life. That it will leave an emptiness in your life that no one else can ever fill.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? My choice was based on the wrong belief that if it was legal, it must be okay. I can honestly say that my baby would NOT have been killed by abortion, if abortion had not been legal. I do believe we all have a choice whether something is legal or not, right or wrong, but there must be consequences for wrong choices. The law that makes it okay to kill unborn children is deceitful because it is not okay.

AFFIDAVET

To be filled out by women who have had an abortion.

The State of Texas,
County of Tarrant

BEFORE ME, the undersigned authority, on this day personally appeared M A B who, being by me duly sworn upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make the affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: the year and place are correct - I'm unsure of the specific month - May, 1982 Austin, TX, February, 1985 Fort Worth, TX, April, 1987 Fort Worth, TX.
2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No. The only information I remember being given in all 3 cases was strictly about the physical procedure, nothing about future emotional impact, health risks or alternative choices.
3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
4) Did anyone pressure you into having an abortion? No, it was totally my idea each time.
5) How has your abortion affected you? Having gone through the blessing of "Forgiven and set Free" by Linda Cochrane, I look back and realize that my most intense decade of self-destructive behaviors - bulimia, promiscuity, anger and use of marijuana were fueled by my suppressed inner guilt of having violated a most sacred and basic moral law. I chose that wicked legal procedure 3 times. I chose to sacrifice my children on the alter of convenience. I regret my choices.
6) How has your abortion affected others in your life? After I did them I told my parents and siblings. They are pro-choice so my decisions were acceptable. I never told my husband (now ex-husband) or in-laws. I remarried and my husband has been affected in that he and other friends were/are helping me deal with the guilt of my actions.
7) Based on your own experiences, what would you tell a woman considering an abortion? There's more going on here than the here and now. It doesn't end with the abortion. Now that I'm older, I regret my decisions to have an abortion. Life is dealing with consequences of what we get ourselves into. Our society would have you believe that abortion is no big deal and that abortion makes the problem go away. That's a lie. It's not "a problem", it's your baby. I know there would have been hard times had I kept my baby. Now I see I could have given him or her up for adoption. Looking back, when I killed my babies, I killed a part of myself and it is a void I am dealing with 20 years later.
8) Based on your own experience, what would you tell a court that believes abortion should be legal? I didn't think twice when I chose it 3 times because it was legal, I was selfish and ignorant. You say you're doing it to help women. Your law didn't help me. It hurt me deeply. If you want to help women, why don't you tell the truth about it - the whole truth. By your action, you're not even interested in the truth. May I remind you that you tell if a law is a good law by looking at how it turns out. Are you big enough to do that about this law? Research the data. Listen to us, "the ones who chose abortion" believing it was the solution. You speak much about freedom of choice. My "choice" was whether or not to have sex.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 1984 Ruth Street Women's Clinic
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? As far as I can remember I know I must have been told something but I was counting on my mother to retain that then I answer any questions I might have had.
- 4) Were you informed of any link between abortion and breast cancer? Don't know Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? Yes If so, who? my parents, I guess they didn't want the embarrassment. There was a couple that had offered to take the child.
- 6) How has your abortion affected you? For many years I feel like I just blocked it out or never came to terms with what had happened. One day on a web site I saw pictures or graphs showing a partial abortion and I just wept for so long. Even though I had not had this procedure I know at that moment I had lost something very precious. I gave my baby a name and prayed for forgiveness for my part in it all. The men just want what they want to be but if I would have to go back and change the ending of a I would not change the wonderful life I have now.
- 7) How has your abortion affected others in your life? Only my parents and that couple that wanted the baby.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? There are only regrets that come along with it, if the people at the clinics cared for you they would tell. You if all the ladies both emotionally + physically I would rather wonder about how a child is growing up than wondering what might have been.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Aside from being cruel + unusual, if we are a protector of life, liberty and pursuit of happiness, we should be able to live & pursue those things.

BEFORE ME, the undersigned authority, on this day personally appeared R B (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Fall of 1992 in New York
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I don't recall receiving any information about the risks or the complete details of the procedure. There was no mention or discussion of the fetus being a baby
- 4) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 5) Did anyone pressure you into having an abortion? yes If so, who? my boyfriend did at the time. However, I fully agreed with him that this was the best solution
- 6) How has your abortion affected you? I have and still suffer tremendous grief and pain over the loss of my baby. It is often difficult to look at other children because I am reminded of the one I chose to have aborted. I am often angry and depressed. My choice so many years ago has burdened me and often feels like a deep dark secret that I am hiding from the world. The pain runs so deep and I struggle with the realization I can never change what I have done and bring back that precious life I so selfishly and wrongly took. I committed murder and I will have to live with this for the rest of my life.
- 7) How has your abortion affected others in your life? Not many people close to me know about it. My husband does and is often subjected unfairly to my anger. He doesn't understand. My mother is already
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Please give serious thought to this before you make any decision. This is a life a human being created by God in his image. From the moment of conception all the DNA is present in this little life - determining who he or she will be.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? This is not an issue of a woman's right to choose what is best for her. This is an issue of whether or not a life will be killed or saved - an innocent life.

- 1) Tell approximately when and where your abortion occurred: Lakeland, Florida 1990's
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I was informed of some of the physical consequences, but not what it was or what it did.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? YES
- 4) Did anyone pressure you into having an abortion? yes If so, who? Boyfriend/husband

5) How has your abortion affected you? I am very sorry for my choice. Now I realize it was wrong morally. I know I have been forgiven and I have forgiven myself. I do think about these babies and know I will be reunited with them in heaven. I am sorry I did not give them a chance at life. I wish I had been a Christian at the time or had a Christian to counsel me.

6) How has your abortion affected others in your life? I know it upset my parents and my present husband

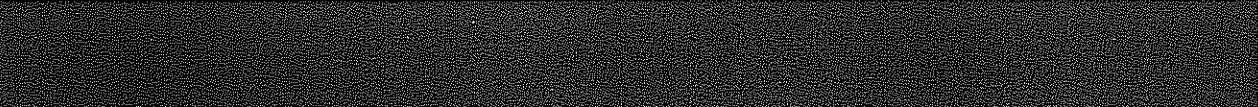

7) Based on your own experiences, what would you tell a woman considering an abortion? God loves her and has plans for that baby. The baby is no surprise to Him. It is murder. He will cherish that choice.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? If we truly believe in the American Slogan 'In God We Trust', we should not be murdering babies. Scientific evidence proves the fetus is alive. There are other alternatives for an unwanted pregnancy that do not involve murder. There are many people wanting to adopt babies.

- 1) Tell approximately when and where your abortion occurred: Summer of 1977 / Fairmont Clinic, DALLAS TX
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No, I was not. I was told it was a mass of tissue and that it was a quick and easy procedure and there would probably not be any complications or side effects.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? No If so, who? _____
- 6) How has your abortion affected you? I struggled for 13 years of mental hospitals, psychiatrist therapy, counseling. My abortion was one of the things I did that caused me so much guilt and condemnation. I hated myself and could not forgive myself for what I did. There will be a scar in my soul for the rest of my life. I don't think I will ever forget it. And I will always wonder what and who that little baby would have become. I will have to live with these thoughts the rest of my life. The only peace I have about this is that I have become a Christian since, and God has forgiven me and has healed me, but the scar will always be there.
- 7) How has your abortion affected others in your life? It hurt my mom and a few people that knew I did it. Abortion affects and hurts everyone.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? "NO! Please don't do it! It is murder! It will affect you the rest of your life. You will regret it later. What about the innocent child inside? Why make it pay with its life, a consequence that you brought on yourself."
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would tell them that one day they will have to answer for what they are doing. I would tell them it is murder. I would tell them most of the women getting an abortion don't really understand what they are doing.

I FELT THAT I WASN'T WORTHY TO STEP INTO A CHURCH OR BE IN THE PRESENCE OF GOD IN ANY WAY. WHEN I STARTED TO THINK OF MARRIAGE AND A FAMILY IN MY LIFE, MY HEART WAS NOT AT PEACE. "I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: first abortion 1976; second in 1977 (Sacramento, CA)
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? no; I filled out the appropriate paperwork (both times) and the abortion was performed; no counseling was offered before or after either abortion.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? NO If so, who? _____

- 5) How has your abortion affected you? The abortions affected every area of my life. I was a single mother of 2 children when I had my abortions. I remarried shortly after my second abortion and had another child. I didn't realize it at the time, but I withdrew emotionally and physically from my children - how could I truly love and want the children I had if I was willing to kill the ones I didn't want? The abortions affected my marriage in that I was unable to have any type of emotional commitments; it seems I carried around a lot of anger, mistrust, and no ability to care.
- 6) How has your abortion affected others in your life? My children were affected because I was unable to give them the love and emotional support they needed; my husband was affected in the same way; I withdrew from my mother and siblings.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? She is believing a lie that the abortion will "fix" her current situation because not only is the abortion not a "fix" she is setting herself up for a lifetime of problems that will affect not only herself but those around her, too.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? So much of the problems (i.e., divorce, suicide, drugs, drinking, crime) that plague a lot of young women (and older ones, too) today could probably be traced back to an abortion that took place in the woman's life.

- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: I have no recollection of any pre-abortion counseling. I only recall being told prior to my last abortion that I should take a day off a day and then everything would be fine. I was told to come back in two weeks. I did not return to the clinic.

- 6) How has abortion affected you? I immediately after my first abortion I was unable to look at a baby or anything associated with a baby without uncontrollable crying. After work of that and suicidal thoughts to the point of holding a knife to my wrist I was hospitalized to suppress the trauma. After the birth of my daughter in March 1983 I again had suicidal tendencies and struggled with eating disorders. Five years after my abortion my marriage ended in divorce. I remarried in 1988 and struggled with intimacy until my husband stated I was finally "let free" on January 15, 2001. Although I have been forgiven by God, I will never know the joy of the previous children I murdered.
- 7) How has your abortion affected others in your life? My oldest daughter has suffered because she was not raised and nurtured by her biological father. My husband has suffered because of
- 8) Based upon your experience, what would you tell a woman considering abortion? all of the years when intimacy was lacking. Abortion is the beginning of a lifetime filled with pain and regret. No matter what the circumstances of the pregnancy God wants you to mother your child (this may look like adoption for some)
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is murder. The abortion experience is just the beginning of a lifetime of pain. Abortion hurts the entire family unit. How can we ask God to bless (marry) when we knowingly allow the killing of the most innocent of human beings.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: October 1978, Fort Worth, TX @ a Planned Parenthood Clinic
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I was not. This baby was NEVER spoken of as a person of value - just a problem. They would help me get rid of for a price. The emotional trauma which followed was never warned about.
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? Yes If so, who? The man by whom I was pregnant pressured me & insisted I have an abortion.
- 5) How has your abortion affected you? My abortion so traumatized me that it was 10 years before I could even talk about it. Now - 23 years later - I cannot even think about what an awful thing I did to my own baby without crying. I have been severely depressed at times & often overwhelmed with guilt and fear. It has always been a struggle for me to ~~the~~ not think that God would "take" my other children as punishment for what I had done to that first baby.
- 6) How has your abortion affected others in your life? My daughter has probably suffered most out of my 4 children. I have been extremely overprotective of her for fear she would find herself in the same circumstances and ~~also~~ be pressured to choose abortion.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Planned Parenthood does not tell you exactly what you are doing to an unborn baby. They NEVER suggest to you the possible emotional scars this leaves. I can tell you from experience, this is not a painless way out of a "bad" situation.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Killing an innocent, unborn baby to hide the deeds of his/her parents should never be a choice, an option. To allow people to profit by the murder of innocent, unborn children for the sake of "convenience" is shameful and should be outlawed.

- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? No If so, who? _____
- 5) How has your abortion affected you? It separated me, even further from God. It also distanced me from my family because I was ashamed of what I did. When I met my husband - it took me a long time to gain a level of emotional intimacy with him (I am not referring to anything physical). I felt terrible about myself without understanding why. It was not until a few years ago that God prompted me to pursue a relationship w/ Christ and seek forgiveness for the murder of my child. It was not until I could call it, I am sure, it has my parents + my husband.
- 6) How has your abortion affected others in your life? what it was - MURDER - that the healing could begin.

- 7) How has your abortion affected others in your life? My interaction w/ friends and kids is weak, I am frustrated around kids.
- 8) Based upon your experience, what would you tell a woman considering abortion? Please don't do this - the pain emotionally is not worth it - there are options and God has a plan for you and for this baby
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? You don't understand the loss you are giving away. This is a baby, a gift not a blob of tissue. This is our future. You can't throw it away. Please don't throw it away.

To be filled out by women who have had an abortion.

The State of Texas

County of Lubbock

BEFORE ME, the undersigned authority, on this day personally appeared Sharla Cook (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Dec. 1982 or Jan. 1983 at 6th & Indiana ave.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? What it is - yes, what it does to the child - yes, what it does to me - NO (Planned Parent-hood)
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? Yes If so, who? My new husband of 1 or 2 months.
- 5) How has your abortion affected you? Of all the horrible things I've done, this is the only one I can't seem to get over. I am a Christian, & know I'm forgiven, yet the mental anguish of knowing what I did & how quick & easy it was to do just haunts me. It was as if I was just going to have a convenient procedure done to simplify my life, at the time without ever once thinking about how it would affect me for the rest of my life!
- 6) How has your abortion affected others in your life? It hurts them to know I would do such a thing. I can only hope to help others by warning them before they end up like me.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? You will regret it! There are too many other options that are better for all involved. It's the most selfish thing I ever did. PLEASE DON'T KILL AN INNOCENT CHILD BECAUSE YOU SCREWED UP!
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I've been through too many personal experiences with pregnancies that are "unwanted" or "unplanned" to believe such a thing is needed. What is needed is "thinking ahead" - before you even become intimate with someone. Be responsible for your own actions - without taking a life.

To drown the pain & loss I was sexually promiscuous for many years; I still have sexual difficulties even after 14 yrs of marriage - I long for my baby with a pain that is indescribable. I have woken up in the night and swear I heard him call my name. There is a shame that haunts me.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: at New Women's Clinic (San Pedro Rd) in San Antonio - I believe it was Wednesday the first week in July 1988.
2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: They did have a brief meeting before the abortion (in a group) where they explained the process, but did not tell about the possible side effects. They also kept referring to the baby as a group of cells, and they stressed the notion that it was not a baby.
3) Were you adequately informed of the consequences of abortion? No. The only problem they mentioned was infection if you went swimming in a lake, or excessive bleeding under very rare circumstances, according to the clinic.
4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? no, they didn't discuss the link. Have not been diagnosed.
5) Did anyone pressure you into having an abortion? If so, who? Friends/ boyfriend. My father had always said that if any of his daughters ever got pregnant that he would divorce my mom, because they disagreed about abortion. So, I felt I had no choice.
6) How has your abortion affected you? depression, loss of self-esteem (which eventually led to an eating disorder), before redemption in Christ-constant (almost daily) about the tragic manner in which my baby was killed, and extreme guilt.
7) How has your abortion affected others in your life? I've made an attempt to use my own experience in warning others about abortion. In one instance, I helped convince a friend to have her baby. However, my mother is devastated that her grandchild is dead.
8) Based on your own experiences, what would you tell a woman considering an abortion? Don't do it. It will be the worst mistake in your life. As difficult and painful as your situation may be, nothing compares to the agony of killing your child. Don't ignore the subtle voice from within that tells you it's wrong. That is the voice of God pleading with you to keep your child alive.
9) Based on your own experience, what would you tell a court that believes abortion should be legal? This so-called choice should never even be an option. The law tells us that we MUST wear seat belts, yet we can murder our babies within our very womb? Something is tragically wrong with our society. If abortion was illegal in 1988, there would be another happy twelve year old living today!

- 1) Tell approximately when and where your abortion occurred: Spring 1974, El Paso, TX Piedres St.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No, I was only informed of what I was going to hear and what I was supposed to do.
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? YES If so, who? my father made all the arrangements, paid for, and took me to have the abortion to save the reputation of the family.
- 6) How has your abortion affected you? For 26 years I never talked about my abortion even when abortion was brought up in conversation. For most of my adult life and late teens I abused alcohol, and for 10 years I was addicted to drugs, and I believe I took those actions to try and kill the pain of my secret murder of my child by abortion. My choices in my social life were not very picky because I tried to fill my pain with what I thought was love and it turned out to be lust, and the men left or I left due to physical abuse. At the age of 23 I gave a son up for adoption because I was so messed up I couldn't raise him, and at 33 I have my son. None of these events could replace the pain of
- 7) How has your abortion affected others in your life? It has left a headache on my mother, and she has worried about me since my abortion because she knew it was wrong and for years (26 years), I never mentioned it. the loss of my child.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Abortion is murder. It is something you cannot ever undo. This could be your only child. If they were parents and they have children, and if they had to choose which child they would kill, what niece or nephew would they kill? It's a baby.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? God creates life in the womb, and abortion is an act against God. Educate by telling details of some techniques of abortion. Abortion is not just a physical operation with risks, even death, but it can affect a woman emotionally and psychologically for years and even for life.

BEFORE ME, the undersigned authority, on this day personally appeared Cindy M. Fulmer (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: in the middle of 1980 I had an abortion at Women's Medical Clinic
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: no one said anything but lay on the table. They were very cold. I was in such a state that if anyone would have told me how bad or what to expect I would not have done it
- 3) Were you adequately informed of the consequences of abortion? no because as I said above I probably probably would not have done it.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? no
- 5) Did anyone pressure you into having an abortion? If so, who? ~~my ex-husband, boyfriend~~ at the time. He didn't want kids
- 6) How has your abortion affected you? yes it really messed me up. ^{from then} I started to reject food. I could eat if I should just come up. I understand ~~emphasized~~ went to the doctor he couldn't help me. I was too shocked to go back so I started living the life of a hermit. It was like my body just to purge out the pain and
- 7) How has your abortion affected others in your life? I don't really know
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Don't do it! we think the "so called problem" is eliminated but the problems are just begining. The information is awful. You'll take problems in your life you don't want to do it happens so subtly and like me I became very depressed and suicidal. You'll understand the reality of it you took a life.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? It's murder and a woman in such an emotional state at that time that she really doesn't know what she's doing. It's a decision they are making without knowing the consequences and the consequences aren't worth it. They may think the abortion is the end of it, but it's something that will always be there eating at them even though they may not realize it yet. Later when something goes wrong with their body or they try to have a baby and it's still as hard as the first one, the pain is still there and harder to live with and it's starts spraying it out.

- 2) Were you adequately informed of the nature of abortion, what it is, what it does? No If not, explain: I was told nothing about the procedure itself. I never saw a doctor. I was put under before she came in. I wasn't counseled at all. They just had a pregnancy test.

- 4) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no but I believe my hysterectomy was related to the abortion.
- 5) Did anyone pressure you into having an abortion? no If so, who? _____

- 6) How has your abortion affected you? I was depressed every spring not knowing why. I desperately wanted to have a replacement child. I was filled with self-hate & wanted to die. I have been emotionally crippled for eighteen years now for making this choice.
- 7) How has your abortion affected others in your life? My husband who was not the father of the baby has had to deal with the grief & shame & helping me overcome the pain & shame.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? It is not an easy out or fix for your problem. The emotional damage & possible physical damage is worse living with than it would have been to raise my baby or place her in adoption.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? We have been silent because of shame & grief but the truth is abortion is devastating to live with. It not only takes the life of the child but it sucks the life out of us, leaving dead.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: Salinas, Ca - Planned Parenthood 1986 - Spring or Summer
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? no If not, explain: No, no one talked to me about the abortion being anything different than say, having a mole removed, except bleeding would be bad, like a heavy period. It was treated as a routine medical procedure. The whole experience was a very dark, scary thing.
- 3) Were you adequately informed of the consequences of abortion? NO, I say this as I was informed of the immediate physical effects + what to expect, but I was not informed of later, possible pregnancy problems, not emotional problems, consequences or impact on physical health +
- 4) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no emotional health
- 5) Did anyone pressure you into having an abortion? yes If so, who? I was pressured by my boy-friend + ex-husband. My ex-husband was terrorizing my boy friend + I. We lived in fear of this man (whom the law did not protect us from) + could not make any important + decisive
- 6) How has your abortion affected you? live totally w/out fear. I feel this abortion affected me physically, mentally + emotionally. I was already the mother of 3 children + believed in life + loved being pregnant. Because of the fear I lived under, perpetrated by my ex-husband, I chose to have the abortion to avoid anymore of his wrath + terror. This abortion has affected me emotionally to this day, as I am still dealing w/ the loss. My health
- 7) How has your abortion affected others in your life? yes, also, deteriorated afterwards. My life, I + affects my emotions + even threaten my mental health to some degree as I did it against my own personal belief, believing it was legal it
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Never take the life of your child, because you'll always wonder what is it's potential would have been if you'd always live w/ the guilt + sadness of it. At least w/ the option of adoption, you chose life for your child + opportunity
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? That even at 8 weeks when I had my abortion I knew there was life in me. That making murder legal still does not make it right. Abortion is a legal convenience that is not worth the consequences, physically, emotionally, or mentally.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: 1985 Dr. Cavazos office at the time it was in OAK Hills Bldg. - Louis Pasteur - SAN ANTONIO, TEXAS
2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: Do not remember the details
3) Were you adequately informed of the consequences of abortion? Do not remember
4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? NO It was not told that
5) Did anyone pressure you into having an abortion? If so, who? NO

6) How has your abortion affected you? Physically - I later read that abortion can increase chances of cervical cancer - I underwent through two surgeries to remove pre-cancer cells from my cervix (cone biopsy) Emotionally - the guilt and shame of killing my baby has also affected my life.

7) How has your abortion affected others in your life? I am not sure. The father of the aborted baby is no longer part of my life since 1985. Very few people know I recently told my husband of almost 14 years it was a dark secret I kept from him.

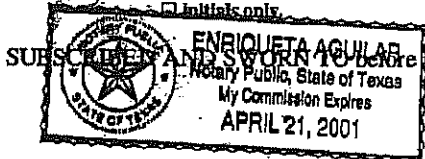

8) Based on your own experiences, what would you tell a woman considering an abortion? I would encourage her not to do it. The guilt of killing a child is not something you would want to have to live with, especially when adoption is an alternative. Abstinence should be #1 choice but if a woman gets pregnant (unplanned) then there is adoption.

9) Based on your own experience, what would you tell a court that believes abortion should be legal? The constitution states the Declaration of Independence - states "that all men are created equal" ... The creator has given all "certain unalienable Rights" ... Life, Liberty and the Pursuit of Happiness. These rights were not limited to only those men outside the womb - it states "I have read the above and foregoing statement and the same is true and correct." All !!

When I realized the level of development of my baby and how my baby suffered during the abortion I was horrified and had to come to grips with the fact that I had inflicted that horrible death on my own baby. I feel I have a void and the realization of what might have been. I feel betrayed and lied to in regards to my baby's viability & suffering.

I would tell her that no suffering should have to endure to have the baby dead.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I would argue that as a para-medical practitioner, I would have learned that death is determined by cessation of either heart or brain waves, depending on the state. I know that based on that same criteria, abortion is almost always performed on a child with legal "life". The baby is usually not detected until both heart and brain waves have begun.

- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No. I was 17 years old. I signed no papers. I was told nothing of the procedure or risks. - 1) Tell approximately when and where your abortion occurred: SAN ANTONIO,
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO. I WAS GIVEN A PAMPHLET AT Planned Parenthood office. It was stated that I had "options". THE OPTION OF KEEPING THE CHILD AND HOW I MIGHT TO DO WAS NEVER DISCUSSED.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? NO If so, who? BUT I DO NOT FEEL I WAS GIVEN OR COUNSELED IN ALL OPTIONS AVAILABLE - ADOPTION, KEEPING, ETC.
- 5) How has your abortion affected you? FOR MANY YEARS I STRUGGLED WITH TRENDEMOUS GUILT AND DEPRESSION OVER WHAT I HAD DONE. I HAD REALIZED THAT I HAD KILLED MY CHILD. AS I WENT THROUGH 5 YEARS OF INFERTILITY BEFORE HAVING MY DAUGHTER, I WONDERED IF PERHAPS SOMETHING HAD HAPPENED DURING MY ABORTION WHICH WOULD NOT ALLOW ME TO EVER HAVE CHILDREN. THE DAY OF THE ABORTION STANDS OUT AS THE LONELIEST, MOST GRIEF-FILLED DAY I HAD EVER KNOWN.
- 6) How has your abortion affected others in your life? ASIDE FROM THE CHILD I KILLED, MY HUSBAND IS THE ONLY OTHER PERSON THAT HAS BEEN AFFECTED. HE HELPED ME WORK THROUGH THE GRIEF AND DESPAIR. HE HAD TO WATCH HIS WIFE DEAL WITH THE PAIN AND REMORSE OF SOMETHING THAT HAPPENED YEARS PREVIOUSLY.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? WOMEN MUST KNOW THAT THE DECISION TO HAVE AN ABORTION IS ALSO A LIFELONG DECISION. IT IS NOT A QUICK FIX AND THEN DONE. THEY MUST KNOW THEY ARE ENDING A LIFE.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? THAT IF ABORTION - OR THE RIGHT TO CHOOSE - IS SUCH A POSITIVE ACT FOR WOMEN, THEN WHY ARE SO MANY WOMEN IN PAIN OVER SUCH A DECISION? WHY ARE WOMEN ASHAMED, REMORSEFUL AFTER HAVING AN ABORTION? WHY AREN'T WOMEN TOLD THE TRUTH ABOUT THE AFTER MATH OF ABORTION?

they made it sound okay to do it. To get my money for a surgical procedure. And go on my way like throwing something away!
- 5) How has your abortion affected you? I can only hope only Jesus will forgive me. I live with it everyday, the sadness & guilty feelings. My children are looking down at me from heaven with tears in their eyes, I took away their chance to live. I took away their opportunity to give the world a chance to know my babies. I am a murderer! Upon going away, thoughts never leave us. I took 4 lives. Sin's took me down that road & my poor babies paid the price not me. I cried through the procedure we end awake in tears also. Hoping the father would stop me

- 7) Based on your own experiences, what would you tell a woman considering an abortion? God is watching we are held accountable to all involved! How would you feel if your mother aborted you? - 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Life begins from the moment of conception. You have no right to take a life, you are just as bad as a criminal who commits a murder. There is no difference with protecting peoples' lives if you are going to take a say in abortion. 1. Tell when and where your abortion occurred: Houston, TX January 1990
2. Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: NO - on that day, those of us who were there for abortions, sat together in a circle in a "counseling" room. The only thing we were "counseled" on was we were asked if we were sure we were making the right decision.
3. Were you adequately informed of the consequences of abortion? Absolutely NOT!
4. Were you informed of any link between abortion and breast cancer? I never knew there was a link until just now.
Have you had breast cancer? NO

9. Based on your own experience, what would you tell a court that believes abortion should be legal? I would love to ask them what they would want their daughter to choose, after I tell them how my life will be forever changed, because of what I chose. "I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: April 1989 in Washington D.C. at a hospital at age 17
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No. I was 16 weeks and was told the baby was "a bunch of cells" They would not let me see the ultrasound. They told me that giving birth was more painful than having an abortion. They insisted I take a sedative to relax or rather
- 3) Were you adequately informed of the consequences of abortion? No. I was told that it was a simple procedure and very safe
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No and No
- 5) Did anyone pressure you into having an abortion? If so, who? Yes. My parents
- 6) How has your abortion affected you? It destroyed my life. It was done to keep my life from getting worse & it did the opposite. Only Jesus was able to redeem me & bless me with the life I have now.
- 7) How has your abortion affected others in your life? I have no relationship with my parents, I divorced the man who was the father as he became abusive after the abortion. It hurt my marriage emotionally w/ my husband right now, but we have been healed of it.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? I think all women need to sit through a post-abortion group counseling session and see just what abortion does to people. I would tell her that her baby deserves the right to live just as she does.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would ask them why a baby girl with a heart beating hasn't a "choice". Killing is cruel, ruthless and evil. In or out of the womb & women end up suffering with that guilt & shame the rest of their lives. Just because something is made legal doesn't make it legal in your heart.

- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?
Only that in the stage I was in that the baby was only a tissue and not formed, and that I would have some cramping.
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? Yes If so, who? In 1981 my mother was against me having a baby and in 86 & 88 my then husband refused to have children and told me basically to hit the road or have an abortion.
- 5) How has your abortion affected you? There isn't a day that goes by that I don't think about it. I look at my children now (2) and wonder what the other 3 would of been like. Sometimes I have crying spells where I cannot be consoled and once it passes I feel better, but the ache in my heart still remains. I have asked God to forgive me and I know He has but I can't forgive myself - I am easily motivated by guilt because of the way I feel about what I have done. I have had trouble with my uterus and have painful and long periods - I don't know if the abortions contributed to this but I can't imagine that they helped.
- 6) How has your abortion affected others in your life? Yes, when I get sad about them I pull away from my family and they don't understand but I can't help the way I feel - I don't know how.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Don't do it. Keep the baby and be blessed even if you allow the baby to be adopted. Giving a child life is a great blessing. Killing it isn't our choice to make!
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Our Country was founded on the principles of God almighty, our heritage is full of people who lost their lives for this Country. Who are we to allow the slaughter of our nation's heritage - our children? This Country's currency states 'In God we trust' - then how are we trusting God when we Kill His creation? 'I have read the above and foregoing statement and the same is true and correct.' especially if the only reason we have abortions is because a child at that time in our life would be an inconvenience! - 1) Tell when and where your abortion occurred: It was in July of 1995 and it occurred in Charlotte, NC
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: I don't remember. I was very numb. I remember being made to watch a video but I cannot remember the content. I was unaware of the aftermath of my decision.
- 3) Were you adequately informed of the consequences of abortion? No.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? Yes. No.
- 5) Did anyone pressure you into having an abortion? If so, who? Yes, my fiancé at that time.
- 6) How has your abortion affected you? It has affected me in the following ways: One, it changed my life dramatically. I was in denial for the first two years. Trying to ignore it had happened and trying to suppress. I didn't think anyone would understand. I certainly felt like I could not go to God because how could He forgive me. It hurt me because I had killed my child. It hurt me because I would not know that child. I went through anger, severe depression, insomnia, and fear. I had no peace whatsoever. I was miserable.
- 7) How has your abortion affected others in your life? Some of my family members have been shocked and angry. My friends were shocked but did not judge me.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? I would share with them that they do not have to know the torture and torment that I dealt with. That there are far more consequences in having an abortion than in having a child. It is a decision that they cannot erase. It will impact them for the rest of their lives. It is total destruction both physically and emotionally.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? That they are making the decision to offer destruction to a woman. It is not only a physical pain but emotional. It is something that the government will never be able to fix. It is lack of knowledge that destroys the people regarding abortion.

For years I felt guilt and depression and cried for my lost baby, I have other children, but I know one is gone --- to Heaven. It is such a lie to promote abortion (death) as a solution to a crisis pregnancy - it is the most physically, emotionally, and spiritually destructive solution - causing so much grief.
- 6) How has your abortion affected others in your life? I know it affected my husband and other children - I was withdrawn and sad - I couldn't cope with life.

To be filled out by women who have had an abortion.

The State of Texas

County of Bexar

BEFORE ME, the undersigned authority, on this day personally appeared [Redacted] (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 1983 Planned Parenthood SLC, UT
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I don't think so, I was just asked why I wanted to have one. I wasn't informed other than the doctor saying it would hurt. It was a long time ago but I don't believe they told me what actually happened.
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? no
- 5) Did anyone pressure you into having an abortion? NO If so, who? _____

To serve and protect has turned to serve a mind too young and unprotected ahead of a lifetime

6) How has your abortion affected you? I was 18 years of age and knew I was not ready to care for a child. I did not tell my mother because I did not want any influence on my decision. It has been almost 20 years now and I still can't help but grieve about the decision I made. I had so little experience in life yet was permitted to make a decision to take a life given to me. ~~Now~~ I can't believe our laws have turned to unprotect us, yet serve a mind too young to make wise decisions.

How has your abortion affected others in your life? When my mother found out she was heart broken.

8) Based on your own experiences, what would you tell a woman considering an abortion? Why not consider adoption. By making that choice you won't have to go through the rest of your life blaming yourself for taking a life.

9) Based on your own experience, what would you tell a court that believes abortion should be legal? Who has given anyone the authority to take a life. The laws should stand by the serve and protect service. Our taxes should not be used to support issues outside of that calling. There would be far less deaths of women giving birth than babies dying. Protect the deaths in numbers.

- 1) Tell when and where your abortion occurred: Feb 20, 1996 @ 9:30 am - Clinic in Dallas

- 3) Were you adequately informed of the consequences of abortion? No
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? _____
- 5) Did anyone pressure you into having an abortion? No If so, who? _____

6) How has your abortion affected you? When I aborted my child 6 years ago, I wish I had known how much misery I would live in because of it. I killed my own baby - I should have been the one person in the whole world to protect and love her. I think about her everyday and wish I had chosen to have her and know this precious baby. I am now overprotective of my 1 year old little girl - I overcompensate because of my loss.

7) How has your abortion affected others in your life? I feel resentment towards my husband for agreeing with me to have the abortion - I wish he would have fought for her right to live. My father whom I have told, mourns the loss too - I took a grandchild from him.

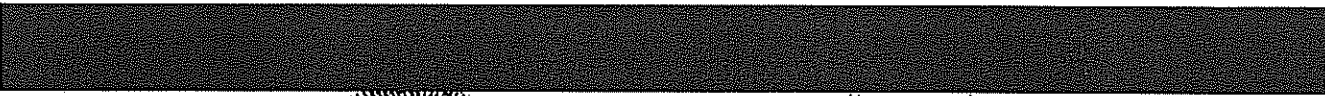

8) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her that no matter how much she thinks that having an abortion will remedy her situation - whatever it may be - it won't. It will destroy her as surely as it did me! We are women - our nature is to nurture our children - even if we think we don't have any emotional connection to an unborn baby - the day will come that she will. Abortion is most surely murder.

9) Based on your own experience, what would you tell a court that believes abortion should be legal? I believe abortion is murder of a defenseless child - just as much so as it is murder to kill a 2 year old. A baby is a baby from the moment of conception - A woman needs to realize that killing her own flesh and blood is the worst choice she will ever make. Children are our gift from God, they are not a problem to dispose of.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: February, 1973 only days after it was legal in a hospital
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No. I was under the impression that if done during the first month it was before it was truly a baby. I was only 15 & though the doctor talked to me, he only told me how easy & how much better it would be for me. He told me to lie to any nurse that asked questions.
- 4) Were you informed of any link between abortion and breast cancer? No. Have you had breast cancer? No.
- 5) Did anyone pressure you into having an abortion? Yes. If so, who? My family & the doctor. No one gave me any alternative for help or mentioned adoption!
- 6) How has your abortion affected you? At first I had deep depression. I was very sorry right away & I knew I would never make that mistake again! I became a Christian a few weeks later & my life turned completely into a new direction. However, I carried a deep loss in my heart. After I married and had children, the loss became even greater because the reality that it had been a "real" baby set in. God has given me a wonderful family & brought healing to my heart, but what I did will always be a reality. I can't un-do or change that wrong decision! I did something very wrong. It was not rightfully my choice. One of my children is missing from my life.
- 7) How has your abortion affected others in your life? The father of the baby was never informed until after the abortion. I know now that that was wrong.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Life is valuable! It is a precious gift. Circumstances change. Children always bring joy & life to us. God has promised provision to those who trust him!
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Making it easy, doesn't make it right. If we don't value the life of unborn babies then our society doesn't value life at all. Each one of us was once in our mother's womb. Some of our parents had it rough, they were inconvenienced, too, but they made right choices to be responsible to the gift of life they carried & gave birth!

- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? Yes If so, who? my mother who thought I was unprepared for parenting.
- 6) How has your abortion affected you? I have had many failed relationships. I am 38 and childless. I have made poor choices and have lived with depression and anxiety disorder.
- 7) How has your abortion affected others in your life? I really never told anyone but it affected them because it affected me and my ability to connect with people.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? That they will eventually have to face the truth about abortion in their lives. They will think it is ok and won't bother them, but in 20 yrs. it will come back and they will see in hindsight how much of their lives was affected by the abortion.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? That they should let Andrea Yates out of jail. Abortion is murder - what is the difference. Science proves when life begins - just because humans are selfish and want to avoid the consequences of sexual activity outside of marriage does not make it right.

- 1) When and where did your abortion occur? 1994, The Woodlands, Texas (during college years)
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: was not told what was involved with procedure, was not told of physical consequences except to be given a card w/ information should I get pregnant again. It was all unclear.
- 3) Were you adequately informed of the consequences of abortion? NO. I was in such an emotional state and scared, very little written information was given to me.
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? but my friends encouraged me
- 6) How has abortion affected you? 11 years later I am obviously still affected. Initially, I suffered from depression, alcohol use increased, increased promiscuity due to my lowered self esteem, my grades suffered in college, relationships were difficult I had nightmares, flashbacks and guilt. Now, with a 6 year old son, I am overprotective to a fault. His relationship with his father is damaged because of my own fears of losing my son. I feel God could still punish me by taking this child away. It's ruined my motivation, and hindered my career (ironically, since my reasoning in part to have an abortion was so my career wouldn't be hindered.) It has cut at the soul of my entire life.
- 7) How has your abortion affected others in your life? I am presently overprotective of my 6 yr old son, also concerned out of wedlock. I'm scared of losing him too. It also affects his father.
- 8) Based upon your experience, what would you tell a woman considering abortion? absolutely don't do it. you will 100% regret it. there are alternatives. it never is how "problem" alone. It will affect everyone you know: other children in your future, husband, parents, etc.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Two wrongs don't make a right. You don't fix a problem with a problem, or treating the symptom or result of a bad decision. (sex outside marriage mainly) It isn't about a choice women should make at time of pregnancy, but their choice before pregnancy.

BUT I LOOK AT MY PICTURE OF MY FAMILY AND I SEE AN EMPTY PLACE THERE WHERE THAT BABY SHOULD BE.

6) How has your abortion affected others in your life? I DON'T THINK IT HAS.

7) Based on your own experiences, what would you tell a woman considering an abortion? IT'S HORRIFYING, IT'S MURDER, IT'S NOT JUST TISSUE. THERE ARE OTHER OPTIONS.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? THAT ACCORDING TO THE WORD OF GOD EVERY LIFE HAS VALUE. IT'S INHUMAN. IF WE WERE TO DO THOSE PROCEDURES ON AN ANIMAL'S & THE UNBORN BABY. WE WOULD HAVE PEOPLE ALL OVER US. SO AN UNBORN ANIMAL'S LIFE HAS VALUE, BUT NOT AN UNBORN CHILD, WHO'S DNA IS PRESENT THE 1ST DAY OF CONCEPTION.

BEFORE ME, the undersigned authority, on this day personally appeared J [redacted] P [redacted] (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Spring 1977, office of Dr George Hermann, Del Rio, TX
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No - I was not advised and things happened that scared me and when they told me it was bone remnants I was horrified at what I'd done. That was when I realized what I'd done.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? yes If so, who? society disapproved of unwed mothers and I would embarrass my family and I wasn't in a stable financial situation
- 6) How has your abortion affected you? I kept it a secret over 30 years with only a handful of people knowing, most of whom are now dead. I was and am embarrassed, remorseful, sad and forgiven for the murder I allowed and sought for my baby when they called my "fetus." No counseling was given about after effects physically, mentally, socially or spiritually. Everyone can talk about tonsils being removed, but it's a deep dark secret to have murdered your child. I felt I had been weak, I let down everyone including God, and felt there was no option.
- 7) How has your abortion affected others in your life? My sister knew of it & she had one afterwards. If I did it, she thought it was okay. Horrible role model. On the otherhand, never telling my daughter about my experience I was
- 8) Based on your own experiences, what would you tell a woman considering an abortion? first - God says it's wrong. Second - many options now exist. Third - I mess up doesn't make it okay for murder. Her unborn baby is responding to light, sound, has organs forming, and God knew ages ago! glad she didn't have!
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Some of the ramifications are too deep and hurtful to describe. It was an uninformed decision. I saw no pictures of my baby. It was physically horrible, emotionally scarring, spiritually unacceptable and a **HUGE MISTAKE!**

1) Tell approximately when and where your abortion occurred: April 1973, San Antonio, TX
2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No

4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
5) Did anyone pressure you into having an abortion? YES If so, who? parents

6) How has your abortion affected you? It took me 16 years to forgive myself for killing one of God's children. I finally accepted Jesus into my life & let Him heal me. Prior to that, I would be depressed on the anniversary of my abortion every year. It changed my life - I felt empty & unlovable for 16 years. It was probably the worst thing God ever done in my 44 years of living. God is good & healed me finally!

7) How has your abortion affected others in your life? _____

8) Based on your own experiences, what would you tell a woman considering an abortion? The same thing I told my 16 year old daughter when she became pregnant. It will affect you every day of your life. Give your child up for adoption!

9) Based on your own experience, what would you tell a court that believes abortion should be legal? They need to consider the long-term after effects. It is emotionally devastating. It leaves one empty until one accepts Jesus (and some people never fill that void).

- 8) Based on your own experiences, what would you tell a woman considering an abortion? Though you may be in terrible anguish, please do the right thing. You already have a baby - not a potential one, as I told myself. How I wish I had talked to someone and been willing to listen.

- 1) Tell when and where your abortion occurred: December 19th, 1980; abortion clinic in Pasadena, Texas, behind Southmore Hospital. Dr. Swada (Schrade?) was the doctor.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No, I was not informed, by the dr, nurses, or anyone at the clinic about the nature of abortion or what it is, or what it does, or the dangers involved. I only remember signing a paper that released the clinic from any responsibility.
- 3) Were you adequately informed of the consequences of abortion? No, I was not informed of any consequences regarding my abortion. If anything, I was pressured to hurry and make a decision - the clinic even called me at home.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No, they did tell me. No breast cancer, but have had benign fibroid adenomas removed.
- 5) Did anyone pressure you into having an abortion? If so, who? Yes, the clinic pressured me. I was almost 4 months, and they called me every day asking me if I had decided. They sometimes called 2 to 3 times a day.
- 6) How has your abortion affected you? How has it not affected me!?!? Every area was affected - more drugs, alcoholism, promiscuousness, inability to have deep, sustained relationships. Inability to conceive since my abortion.
- 7) How has your abortion affected others in your life? Felt a lot of guilt and shame over my abortion, so felt unworthy of having "good" relationships; kept others, including my son, at a distance. Was unable to have healthy interaction.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her not to have one - it destroys your life and kills your baby. I would give anything to be able to go back and make a different choice - to choose life, for me and my baby.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? No, No, NO - abortion should NOT be legal. I wish it hadn't been legal when I had my abortion. There are other means to deal with an unwanted pregnancy - adoption, foster homes, carrying to term - there is only one way - LIFE!! abortion is murder.

- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? indirectly If so, who? The Shame to myself and family if I were to be pregnant and have a baby at seventeen.
- 5) How has your abortion affected you? I just recently, looking back realized the affects. Spiritually & emotionally. ~~the affect~~ Thank God nothing physically. Before the abortion I believed in God after I ran my own life & God didn't exist. Myself esteem was nothing and I looked for acceptance in all the wrong places. Forgiving myself was the hardest thing. There was a huge wall between my parents and I. it just recently started coming down
- 6) How has your abortion affected others in your life? My family - its never been mentioned or talked about since it was done. Only my parents know about it. My husband was shocked to hear I had one, but understanding of where I was spiritually then.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? It seems like an easy fix, a way out. You need to look ahead. Its a selfish choice. You are not aware of the affects until later on in life. Its a slow painful healing. At the time it may look like a horrible ->
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Birth Control is to prevent pregnancy. A fetus is already alive and growing. "I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 1980 Houston Texas
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO
I was at Planned Parenthood in a room with other women and was not told about any side effects or complications possible with an abortion, only that I was having a procedure to terminate pregnancy.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? No If so, who? _____

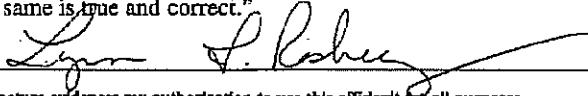

6) How has your abortion affected you? I now realize that this was sin and have gone to the Lord to ask for forgiveness. Unfortunately 20 years has passed and I have not had another child. That one pregnancy was my only chance to bare children. This has caused me much agony and personal pain. I have had to deal with anger and relationship problems and was divorced after the abortion. I have not remarried and feel this is also due to my abortion. I have had to deal with issues regarding my worth as a woman since I am not married and have no children. If I would have known the risks and complications from abortion both physical, emotional, and spiritual, I would not have had an abortion.

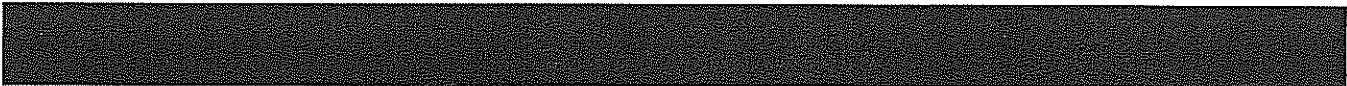

7) How has your abortion affected others in your life?
My family has had to emotionally support me through the loss I have endured since my abortion 20 years ago.

8) Based on your own experiences, what would you tell a woman considering an abortion?
I would make sure that the woman was informed regarding all the possible risks to her health and emotional wellbeing and also to the affect oh her relationship with God and her future without this child in her life.

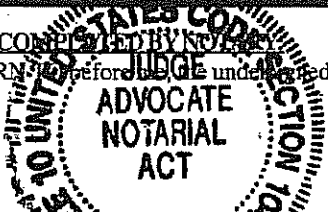

9) Based on your own experience, what would you tell a court that believes abortion should be legal?
I would tell the courts that abortion is a crime against humanity. A woman was not created to kill her own children. This is contrary to her nature and legalized abortion encourages the woman to take this option that will affect her for life. The child will never leave her emotionally, but will always exist. To be filled out by women who have had an abortion.

The State of Texas
County of Wilson

BEFORE ME, the undersigned authority, on this day personally appeared Jennifer Riley (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: New Women's Clinic, San Antonio, TX 1991
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Before the procedure a group of waiting patients were taken into a conference room. The nurse showed us the instruments used and briefly explained the actual procedure
- 3) Were you informed of any link between abortion and breast cancer? No. Have you had breast cancer? No.
- 4) Did anyone pressure you into having an abortion? No. If so, who? _____
- 5) How has your abortion affected you? I have to suppress the memory every day. The moment the procedure was over I felt like my soul had been sucked out of my body along with my baby. I'm haunted by the memory - horrified at my actions that no matter how hard I pray, can never be undone. The pain NEVER lessens, which is why I have to fight to suppress it. I let it out every now and then - in private. I certainly don't talk to anyone about it - I don't think anyone could possibly empathize. It is my burden alone - to carry for the rest of my life.
- 6) How has your abortion affected others in your life? Of course my mother & grandmother were extremely heart broken and disappointed. And my boyfriend - now my HUSBAND - though he doesn't talk about it, I think it forever changed how he thinks of me. I have to struggle to make him believe I am a woman.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would have to offer her a comparison of the pain - something she had already experienced so she would understand the consequences - ex. to think back on the loss of a loved one. Someone should have been very close to... now multiply that pain x 1000. + guilt, remorse, regret, responsibility!
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion absolutely causes irrevocable harm - the death of a baby and severe emotional distress, long-term distress, to the mother.

"I have read the above and foregoing statement and the same is true and correct."

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

- 1) When and where did your abortion occur? 1977 (?) Prince George, B.C., Canada.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: Just sign up + have case reviewed by a then-required medical panel. I don't think I wanted to ask any questions in case I wouldn't go through with it.
- 3) Were you adequately informed of the consequences of abortion? Never even came up - not with the doctor or at the hospital.
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? My husband - did not want the baby
- 6) How has abortion affected you? (1) Unrelenting guilt for 5 years, even after prayers aggravated because I happened to see (a year later) the medical report describing the pieces of my baby which had to be accounted for to be sure they "got it all"
(2) Wake-up call to my understanding of God: He would not ask me to kill my own child to save my marriage.
(3) ~~Updated~~ ~~allegations~~ ~~learning~~ about what the Bible tells us about a ~~well~~ right at conception + God's knowledge of us before we're born. → Complete reversal of attitudes that it's necessary at times
- 7) How has your abortion affected others in your life? Family - never been discussed. Have periodically shared with women who had/were concealing their abortions + young people who have not yet had to make the choice.
- 8) Based upon your experience, what would you tell a woman considering abortion? No matter what's happened in your life in the past, this is a kairos moment to change it all and do something right. Abortion is not just about the baby but the broken promises that have preceded it to the shallow relationships that hurt you.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Freedom does not mean license. Freedom comes with accountability. Science has proven a human - fully human - DNA at conception. The only difference between that soul + yours is 9 months. If we won't protect the most vulnerable in our society, who + what will we protect?

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 1972 New York
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Yes but I was led to believe that a fetus wasn't a real baby yet.
- 4) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? _____
- 5) Did anyone pressure you into having an abortion? no If so, who? _____
- 6) How has your abortion affected you? When I had my abortion I was 15 years old. To me at the time a fetus wasn't considered a child yet, at least that was the impression I was given. a few years later when I became a christian, I was old enough to realize that it was a real child that I had killed. It upset me very much I cried a lot over it. I had a 2 yr old son at the time so I knew what it meant to have and love a child. I know God forgave me but it took a little while to forgive myself.
- 7) How has your abortion affected others in your life? They realize that although no one had to deal with a teen pregnancy at the time, that my life would not have turned out much different-just one more child to love.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Don't do it. You may think you are solving a problem but it doesn't pay in the long run, to have the guilt and be sorry later. Children are a blessing, not a curse. I have 3 now and I wish I had 4.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is murder. A lot of women realize this too late, after they've had an abortion. Abortion should be made illegal again. It won't stop it from happening, but most women would think twice.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: San Diego, California 1970 & 1971 (age 17 yrs old)
2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: I knew it was killing my babies, but I did not know the procedure or risks of it was emotional.
3) Were you adequately informed of the consequences of abortion? None were explained to me. I was asked if I felt I could live with myself after an abortion - no information was given to me so how could I honestly answer the question, so I lied & said "yes".
4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No to both questions.
5) Did anyone pressure you into having an abortion? If so, who? #1 abortion! I was not forced however, both my parents and the babies' other parents & the father felt it was best and I was not strong enough emotionally to fight all stand up to them.
6) How has your abortion affected you? Emotionally, mostly - after divorce of aborted babies' father, I became suicidal in thought only, depressed for a while. I suppressed memory of abortion until 1995. Then took PACE classes. Physically, difficulty getting pregnant, top 3rd one - Endometriosis & alcohol use until 1996. No permanent.
7) How has your abortion affected others in your life? My parents felt guilty & shameful as I did. We did not talk about the abortion (they only knew of it) until I entered PACE counseling. Dad had the hardest time forgiving himself. All 3 of us are very regretful.
8) Based on your own experiences, what would you tell a woman considering an abortion? The Truth - it's wrong to kill your baby. Emotionally devastating & could be physically devastating (complications). Abortion does not fix anything - it only makes your life worse - it destroys. I would suggest they seek help at a Crisis Pregnancy Center where people care & help you in almost every way.
9) Based on your own experience, what would you tell a court that believes abortion should be legal? They are hurting women. There are better ways to help women as we do in the Crisis Pregnancy Centers. There should be minimal notification and informed consent at minimum, but I believe Roe v Wade should be overturned. Abortion is legalized murder & murder is wrong.

- 1) Tell approximately when and where your abortion occurred: March 1975
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No. Over the phone I was told to hurry & have the abortion, that I was 10-12 wks. along. I had absolutely no anesthetic, I was told by an assistant what the "Dr" was doing as he kept putting larger & larger dilators in. The "Dr" said absolutely nothing.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? No If so, who? _____
- 6) How has your abortion affected you? The guilt was overwhelming. I'd relive the abortion experience, wishing I could go back and stop it. I hated myself when I realized it wasn't just a "blob of tissue", rather a tiny baby that actually felt the pain as he was cut into pieces. The thought that I'd PAID someone to kill my baby was unbearable. Even after I knew God forgave me, it was impossible to forgive myself. Six years after my abortion I began the healing process with the help of my pastor, as well as other Christians God put in my path. I will grieve always.
- 7) How has your abortion affected others in your life? My 5 children have felt sadness for a sibling they'll never know this side of heaven.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? It's a quick fix, but the grief is unbearable later. Single & pregnant two times, I chose abortion the first time & chose to have the baby the second time. The former I'll always regret; the latter I'll NEVER regret!
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? It was ONLY because the court legalized it that I thought it was OK & safe to have the abortion. I NEVER would have had a "backalley" abortion.

AFFIDAVIT

The State of Texas

County of Bexar

BEFORE ME, the undersigned authority, on this day personally appeared F [REDACTED] J. T. [REDACTED] (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: Feb. 1975 San Angela, Texas
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: yes
- 3) Were you adequately informed of the consequences of abortion? physically yes. But, in fairness to the doctor's clinic, I don't think the emotional ramifications of abortion were fully known since abortion had only just been legalized.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? no
- 5) Did anyone pressure you into having an abortion? If so, who? no. I wanted the easy and quick solution to my "problem."
- 6) How has your abortion affected you? For the next 5 years my self esteem plummeted. I became sexually promiscuous because I believed I was a "bad" person & proved it over and over through these activities. I carried enormous GUILT BEYOND THAT AND WAS FINALLY DELIVERED FROM IT IN MAY OF 1998.
- 7) How has your abortion affected others in your life?
It was a "dark secret" that I only shared with a few people. But I had one courageous friend who challenged my belief that what I'd done was okay. She SAID, "Just because you had an abortion doesn't make it right."
- 8) Based on your own experiences, what would you tell a woman considering an abortion?
Don't do it!! As hard as you will try to believe that it is only "tissue," you will know that it is a life and you have sentenced it to death. The fact that decision will haunt you for a VERY LONG time!
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? That by permitting it to continue they are guilty of murder. It is not "tissue." It is a life. It is not a "fetus," it is a baby. We may try to anesthetize our consciences with words but that does not change the truth.

"I have read the above and foregoing statement and the same is true and correct."

Please use my: full name.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

- 1) When and where did your abortion occur? July 15, 1982 - Beaumont, Tx. Medical Clinic on Stagg Dr.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: They only explained the medical procedure - no details of after effects
- 3) Were you adequately informed of the consequences of abortion? No - not the mental stuff that followed - or the possibility of not being able to have children
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? Mother-in-law
- 6) How has abortion affected you? Abortion has affected me in many ways - mentally, physically & spiritually - I suffered headaches & nightmares for years - not to mention the guilt & condemnation & depression. I never was able to have a baby and ended up having an emergency hysterectomy at the age of 38. I have had a lot of depression & quit since the hysterectomy - My faith has been tried & my marriage. After the abortion they gave me a family magazine which was very upsetting - the doctor, nurses & my mom - emotional and were not being kind - the whole experience was traumatic.
- 7) How has your abortion affected others in your life? a lot of guilt & condemnation - bitterness - anger - depression - and shame - I don't really begin to talk about it.
- 8) Based upon your experience, what would you tell a woman considering abortion? Don't do it - it almost destroyed my life and I was never able to have children. I will never regret the decision I made - do not watch the mental torture.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is legalized murder - and is very selfish - what kind of message are we sending to future generations? I wish someone should have been outside the clinic that day to talk me out of it - I will live with regret the rest of my life - It took me years to forgive myself.

- 1) Tell approximately when and where your abortion occurred: 2/74-Jacksonville, FL -- 4/82- Houston, TX
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No, I was told "tissue" would be removed from my body. I was only instructed in what to expect from the procedure.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? No If so, who? I was encouraged by my doctor (ob/gyn) and the men involved.
- 6) How has your abortion affected you? Shortly after the first abortion I began to experience high levels of anxiety and depression which resulted in hospitalization. I numbed my negative emotions with lots of "partying" for many years after the hospitalization which led to another abortion. When I tried to give up the "party" lifestyle the anxiety and depression were worse than ever. Years of struggle with negative emotions followed: guilt, shame, low-self-esteem, anger/rage, anxiety, and depression to name a few. The ministry of a local church program called "Healing the Hurts of Abortion" helped me to work through the pain and grief of losing my children.
- 7) How has your abortion affected others in your life? I believe everyone I came into contact with was affected because of the negative emotions produced in me, but my family especially suffered. My marriage ended in divorce and my 1st born child endured a period of anger in my life directed at her.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Please trust those who have gone before you, a decision for abortion is a decision to begin a destructive process that will impact you and others you will love for years to come.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Please bring the deception to an end. On the exterior abortion looks like a simple fix to an annoying/embarrassing problem, when actually it is just the beginning of a process that shuts down the potential of human life. I know that untold numbers suffer silently and many never even get to know what the source of their suffering is.

AFFIDAVIT

To be filled out by women who have had an abortion.

The State of Texas

County of Harris

BEFORE ME, the undersigned authority, on this day personally appeared _____ (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

(Abortion was legal in AK then).

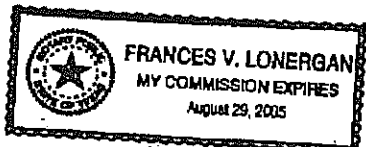

- 1) Tell when and where your abortion occurred: Anchorage, AK, March 10, 1972 at age 16.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? No If not, explain: I was given no details as to the procedure, fetal development, or any info on risks. I was told that the baby was not alive, yet, & there was no reason to feel badly.
- 3) Were you adequately informed of the consequences of abortion? No. I was told abortion was 10 times safer than carrying a child to term when I asked about risks. No possible complications were explained.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? Yes If so, who? My boyfriend & the adults we told (his older brother, age 21 and brother's girlfriend, age 26). My parents did not know.
- 6) How has your abortion affected you? Factor in several years of drug and alcohol abuse, development of bulimia. Experienced major clinical depression during & after birth of oldest living child after I learned how abortions were performed and more about fetal development. Years of nightmares, guilt.
- 7) How has your abortion affected others in your life? My mother was devastated when she learned the reason for my depression. My husband had to deal with months of my illness during a time that should have been joyful. Difficult for my children to process.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her that she can not even imagine the anguish an abortion can cause for a lifetime, that you never forget, that there is help available for her and her baby. I would give her any assistance I could.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion harms, not helps women. Because it is legal, girls & women are led to think it is "O.K.". It can also abuse others to put more pressure on a pregnant girl to abort. Abortion has become an industry, at the expense of girls and women.

"I have read the above and foregoing statement and the same is true and correct."

I often wonder what because of the 2 abortions & C-Section (although C-Section was necessary) if that was one of the reasons for my hysterectomy at age 46. NO - I was not informed of the emotional consequences of my actions.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? NO If so, who? _____
- 5) How has your abortion affected you? Having an abortion has robbed me of the incredible gift of a child whom my husband, son, I & the world will never know or enjoy. I live with the regret of my actions everyday.
- 6) How has your abortion affected others in your life? My husband today is the father of that aborted child. He & my whole family have lost out on the gift of a life to love & enjoy.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? That though it may seem like a "solution" to an unwanted event, it is replacing a perceived problem with one that will live in the heart & mind of the fetus' parents and those involved forever.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Legalizing abortion sends with it a message to Americans that abortion is morally & legally acceptable. To kill an unborn fetus is not only immoral but it secretly damages the mother as well as others involved. Only a woman who has had an abortion can testify to this damaging consequence.

2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: YES NO. I REMEMBER GOING FROM CLINIC TO CLINIC REQUESTING ONE & BEING DENIED IN ILLINOIS BECAUSE I WAS IN MY 2ND TRIMESTER. 7) How has your abortion affected others in your life? IT HASN'T.

8) Based on your own experiences, what would you tell a woman considering an abortion? THAT IT IS WRONG TO KILL A BABY REGARDLESS OF THE REASON; RAPE, INCEST, LIFE OF THE MOTHER. GOD CONSIDERS ALL LIFE PRECIOUS TO HIM.

9) Based on your own experience, what would you tell a court that believes abortion should be legal? THAT TAKING AN INNOCENT LIFE IS WRONG, MORALLY WRONG. PHYSICIANS/SURGEONS ARE PERFORMING SURGERIES ON BABIES IN UTERO WITH SUCCESS TO PRESERVE THAT LIFE. HOW CAN THE COURT JUSTIFY TAKING THAT LIFE JUST BECAUSE "A WOMAN HAS A RIGHT TO HER OWN BODY"? As I have now had other children, I've realized how precious each individual life is & how the child I gave up could have been such a wonderful gift to the world. I'm deprived that child of being that special gift. I have also realized that God made that child; it was a sin against Him & the child that I terminated its life. It has taken me awhile to realize God's forgiveness of my sin.
- 6) How has your abortion affected others in your life? It was very difficult for my children to hear that their mother had terminated the life of a child that could have been their sibling.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? That it is an act that once done can never be undone. And that she may not realize yet how much she may regret it for the rest of her life.

I have felt a huge void in my life for the loss of my babies and have been haunted by who and what they might have been and how my life would be so different because of them.
- 6) How has your abortion affected others in your life? The father of one of my babies wasn't told about the abortion till after it was done - He was very angry & upset at what I had done. No telling how this has affected him over the years!
- 7) Based on your own experiences, what would you tell a woman considering an abortion? To please consider the alternative! Abortion is not a quick fix to the "problem". Abortion hurts women emotionally and sometimes physically. Is she willing to suffer the possibility of infertility and all the shame and grief that goes along with ending her child's life?

AFFIDAVIT

To be filled out by women who have had an abortion.

The State of Texas

County of Montgomery

BEFORE ME, the undersigned authority, on this day personally appeared Darla Weaver (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Feb, 1983, Austin, TX.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I was told it was just tissue. I was never told exactly how far along I was, only that I was still in the first trimester.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? Yes If so, who? my parents and family
- 6) How has your abortion affected you? From 1983 until this year, 2002, I have suffered from Post Abortion Stress. I originally became out of control with alcohol, drugs and immoral relationships. Twice I tried to commit suicide, but I withdrew and had trouble in all relationships, being controlling and overly emotional. I have grieved silently, to ashamed to say I chose to kill my first child and to angry to love my own father any more. I can drive down the street and flashback to the abortion table. I have Care-Net and their PACE Bible Study I now have healing and hope. Although there is no proof of a connection I did have to have a hysterectomy at age 34.
- 7) How has your abortion affected others in your life? My husband has tried to comfort me thru many depressed years. My children have had to forgive me and my mom has apologized for her part. The daddy still cries for his son.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? It will affect you in ways you can never imagine, for the rest of your life. The devastation of the loss of a child is hard enough without the knowledge of 'you did it'!
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Women were created to nurture an care for their children, not kill them. It absolutely creates a woman who is warped in her judgement and unable to grieve, live normally or forgive herself without help. Society doesn't stop when it turns on itself!

Please use my: full name.
 initials only.

My signature evidences my authorization to use this affidavit for all purposes.

- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? NO and No.
- 5) Did anyone pressure you into having an abortion? If so, who? Yes, the 1st time my parents pressured me.
- 6) How has your abortion affected you? Self-destructive behaviors because of all the guilt and shame. I wanted to die. I had horrible nightmares and flashbacks. I was depressed and very angry with my parents.
- 7) How has your abortion affected others in your life? My parents regret their pressuring me, because they saw how bad it affected my life. Till this day, when brought up in conversation my mom comments on how sorry she is.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? It's not worth it. For the rest of your life you will have to live with the decision you made that took another life.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? It is wrong to murder. Since the reality of what took place during the abortion sets in, it is so painfully difficult to cope with. My behaviors were very harmful toward myself and others because of all the guilt and self-hatred.

- 8) Based upon your experience, what would you tell a woman considering abortion? the whole truth, for convenience and selfish reasons; you think: "choice = freedom" not realizing abortion = bondage = murder = not a quick fix! Not experience fullness of future loving relationships. Destroys families worldwide.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Stop the genocide, the holocaust of killing unborn babies created in the image of God. I cry out for God's justice and mercy to prevail.

"Recognize danger!" It's a minor problem? Radiologists have seen an unborn baby avoid invasive medical procedures.
 Action: Good prevention programs and good social policy needed. Abortion destroys babies + families! Provide pre-abortion counseling and support alternatives for unwed mothers and their babies. Expand homes and good help system + Expansion of adoption alternatives. Provide care for women who have post-abortion negative consequences.
"I have read the above and foregoing statement and the same is true and correct." Report! Reverse the decree 8/73.
 Leaders: Stop child sacrifice.

BEFORE ME, the undersigned authority, on this day personally appeared LINDA BAILES (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 1981, San Antonio, Texas
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO, I was not adequately informed.
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? No If so, who? —
- 5) How has your abortion affected you? The memory of my baby and blood in a jar haunted me for over 25 years; I never attained the goals I had set for my life; I lost my self-worth and self-confidence which caused me to continue a path of making risky decisions for my life; and because shame and guilt overcame me immediately after my abortion, I turned away from my spiritual background that I had known and never told anyone I had an abortion for over 25 years.
- 6) How has your abortion affected others in your life? My subsequent children were affected. As infants/toddlers I had trouble bonding with them, but as they grew up and wanted their freedom, I had trouble letting them go for fear of losing them. →
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Abortion is NOT the taking of a hlop of tissue or a quick fix or something you can do and go on and forget about. Abortion IS the taking of a life - a person - a human being - created in the image of God. Abortion causes an inner turmoil →
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? My abortion kept me in an emotional bondage for years. My abortion hurt me and took the life of my unborn baby. Abortion is a devastating act upon women and their babies with long term emotional and physical affects. Abortion should not be legal.

Cont. #6. I now have learned that I was suffering from post-abortion stress syndrome.

Cont. #7. that never ceases - it causes a hole in your soul that can never be replaced. If you choose abortion, you will never be the same. If she is far enough along, I would encourage her to have a sonogram so that she can see her baby formed in her womb.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No I was not informed. No I don't have breast cancer.

4) Did anyone pressure you into having an abortion? If so, who? Yes my boyfriend, friends. I fell in love with a guy and thought that if I got pregnant it would be okay I was wrong. He convinced me to do it. Then after that it wasn't hard to say yes.

5) How has your abortion affected you? At first it didn't because I blocked it out. But later had several more. It really affected me mentally, physically I had a hard time with relationships, with myself.

6) How has your abortion affected others in your life? It affected my mother, friends. My family was very upset with me. They disapproved of my decisions. They really wanted me see what I had done. It wasn't until I got saved at the age of 31 did I see my mistakes.

7) Based on your own experiences, what would you tell a woman considering an abortion? Not to do it. No matter what anyone says abortion is not an option.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? Unless they have had one, they should not consider it. Abortion is murder, no one should ever consider it. Killing innocent babies just because we have decided to have unsafe sex is not excuse to get an abortion.

AFFIDAVIT

The State of Texas

County of Bexar

BEFORE ME, the undersigned authority on this day personally appeared SHARON BLAKENEY, who, after being by me duly sworn, upon oath stated the following facts:

"My name is SHARON BLAKENEY. I am over the age of eighteen years and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm that the following facts are true:"

"It was the fall of 1988, I was seventeen years old and in my senior year of high school. My parents that had raised me in a strict Southern Baptist home were having marital problems and before the school year ended, they were divorced. I was an honor student and an officer for the school dance team. I had already been accepted to the University of Texas in Austin for college and looked forward to joining my boyfriend that I had been dating for a year and a half in Austin. He was on a golf scholarship to a private college there. Then I found out I was pregnant. I told my boyfriend first. He really didn't say anything. He was very concerned, but I don't think he knew what to say. He just held me while I cried."

"Then I told my mom. She was already under a considerable emotional strain with the problems she and dad were having, and I knew that my pregnancy would not be good news. She asked me what I was going to do."

"This threw me for a loop. I was not expecting her to ask me what I was going to do, I expected her to make the decision for me, or at least offer help if I wanted to have the baby. I believe in my heart I wanted to keep my child, but I was very afraid of the embarrassment of being pregnant while still in high school. If I kept my baby it would have meant being kicked off the drill team, probably having to drop out of high school, not graduating with my friends (or with honors), and definitely no college at UT. I was also terrified of how upset my dad would be if he found out. Looking back though, if someone had told me they would help me – anyone, my boyfriend, my mom, a counselor, anyone – I would have had my baby. Unfortunately, my boyfriend and mom never said they would help if I decided to have my baby, they just asked what I wanted to do, and there weren't any counselors to talk to at the clinic. Too embarrassed to talk to anyone else about it, and feeling like I had made a terrible mistake by getting pregnant, I decided in hopeless desperation to have an abortion. I felt it was the only way my

boyfriend could continue his college on his golf scholarship, my mom clearly didn't need any more stress in her life, and I felt terribly inadequate to bring a child into the world."

"I looked in the Yellow Pages under "abortion clinics". There were hundreds of listings. I called one on the 59 South Freeway and scheduled an appointment for the next day. The next morning my mother took me to the clinic. It was in a tall office building. I remember thinking how strange it was that there was an abortion clinic in the same building as travel agencies and law offices. I was also surprised there weren't any protestors outside. I think I wish there had been."

"We went upstairs to the clinic office. We got there before the clinic opened and there were several young girls waiting in the hall for the clinic to open. Some of them were crying. It all seemed like a very bad, very strange dream. When the clinic opened I went to the counter and signed in. They gave me a urine pregnancy test that came back positive. The receptionist asked me for two hundred dollars. I paid the money for the abortion and waited until they called my name. A lady took me in back and had me change into a gown. I then waited a while more and she came back in with the doctor. I kept waiting for someone to talk to me about other options, like adoption, or a crisis pregnancy program, or something. No one ever even said "Are you sure you want to do this?"

"The nurse told me to lie down and the doctor began the abortion. There was no physical exam done at all prior to the procedure to make sure it was safe to perform the abortion, they just did it."

"First, there were several very painful injections. Then, very painful cutting, scraping and poking deep inside me. Then a horrible, loud sucking machine was used. I felt my entire insides were being sucked out, like my very heart was being ripped from my body. I was crying and I tried to sit up. I think I wanted him to stop, but I don't know what I was trying to do, I just kept trying to sit up. The nurse pushed me down and put a gas mask on me. Then I couldn't move but I was still conscious of what was going on. There was more painful cutting and scraping, and more horrible vacuuming of my insides. It was the most awful thing I've ever experienced in my whole life."

"Then the nurse made me get up and get dressed right away, which was very difficult to do because of all the gas they gave me and the operation I had just gone through. She took me down the hall to a disgusting, crowded room full of cots with young girls laying down holding their stomachs, bleeding, and crying. It was terrible. I'm not sure how long they made me lay there but it seemed like an eternity. They would take the girls that were bleeding too much to change their sanitary napkins and then bring in another girl in the same awful state. The room stayed full. For every girl that left another was brought in. I couldn't believe how many girls were having abortions. I wondered if anyone had asked them if they were sure that was what they wanted, or if anyone offered help or another option."

"One month after the abortion when I went for my follow-up to my mother's OB/GYN, I found out that I had a cyst on my right ovary the size of a grapefruit. They scheduled an operation right away to remove it because the slightest movement of the cyst could cause it to twist my ovary and create a potentially life-threatening situation. If the doctor that performed my abortion had done a simple physical exam prior to beginning the procedure he would have discovered the cyst. Instead, he simply went ahead with the abortion and unnecessarily put my life in danger."

"After the abortion what I found out was that everything I was trying to protect by having the abortion was either severely damaged or completely destroyed. I went into a deep depression, and so did my mother. My mom, who had never even tasted alcohol before began to drink heavily. My parents divorced. My boyfriend and I both began to drink heavily as well. Some time later he began dealing illegal drugs and dropped out of college. I also began experimenting with drugs and quit the high school dance team. I missed almost thirty days of school my senior year after the abortion. I just didn't want to go. I didn't want to do anything but try to forget the horrible experience of losing my child."

"After many terrible fights, my boyfriend and I broke up. I had almost no control of my emotions and would turn what should have been happy occasions like my senior prom and graduation) into tragic fiascoes. I did graduate from high school, and went on to college, but did very poorly in school for the first few years. I had difficulties in every relationship with a man after my abortion, and my overall health and happiness drastically declined. I married the first man that loved me enough to ask me to marry him, just so that I could replace the child I lost and have a child I could keep. It was a terribly selfish thing to do. I was married 3 days after I turned 20, and was pregnant again one month after our wedding."

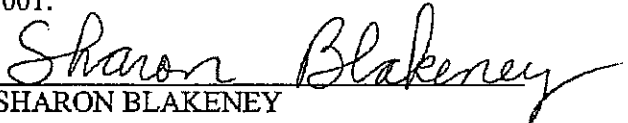

"I do have the most wonderful child in the world. His name is Cody, and he's eight years old. He is truly a blessing from God and I love him very much. While I was pregnant with Cody, I entered into a personal relationship with Jesus Christ and my whole life changed. Being a Christian doesn't give you a perfect life, but it does give you the perfect assurance that the Lord will never leave you or forsake you. Unfortunately, Cody's father and I were divorced two years after we were married. Although I had become a Christian, there were significant problems that existed in that relationship because it had not been founded in love from the beginning. It took a few years I received Christ as my savior before I fully realized that the depression I was suffering from, the unexplained feelings of guilt, the mood swings, the chemical abuse, all were symptoms of post-abortion syndrome. Once I realized that, and accepted the forgiveness and healing that Jesus Christ offered, I was a changed person."

"Now, because I'm allowing Him to, God is taking the biggest mistake I ever made and is using it for His glory, because He makes all things beautiful in His time. I pray that anyone who reads this affidavit will see that abortion was truly a harmful event in my life. The emotional and health consequences are real, and women should be told of

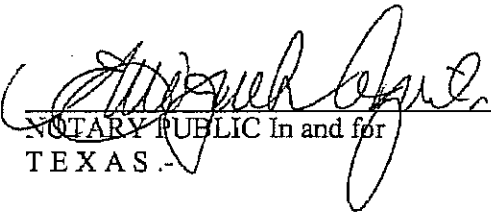

those consequences before making a decision that will affect them for the rest of their lives.”

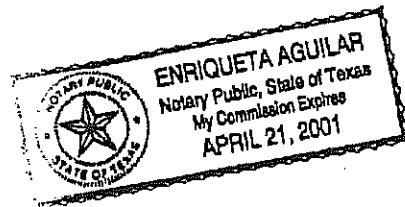

“I have read the above and foregoing statement and the same is true and correct.”

5) How has your abortion affected you?
I have since struggled with depression, I was after my abortion I attempted suicide. I was self destructive, sought out abusive relationships.

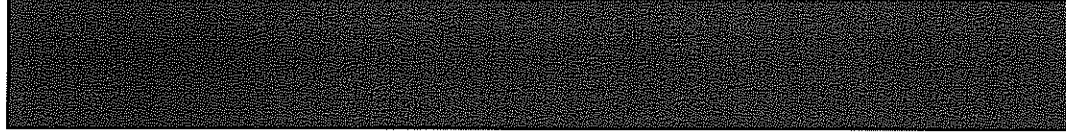

6) How has your abortion affected others in your life?
Because of my abortion I was shut down emotionally and was not emotionally available for my children. I sent my oldest daughter to live with her father. Our relationship suffered for years.

7) Based on your own experiences, what would you tell a woman considering an abortion?
To slow down and look ahead a few years down the road. I would tell her the truth about fetal development and that by the time she knows she is pregnant, her baby has a heartbeat.

8) Based on your own experience, what would you tell a court that believes abortion should be legal?
I would tell the court that the choice should be made before conception takes place. Abortion takes a human life. I wish that I did not have the choice to kill my unborn baby. My choice killed me emotionally, spiritually, and almost physically.

Abortion kills. Not only does it kill an innocent child, but it kills a woman emotionally, spiritually and sometimes physically. Abortion kills hopes, dreams, relationships and a woman's sense of self-worth. At least that is what it did to me. Not only did abortion kill 3 of my children but it killed a piece of me too.

At the age of 15 I became pregnant. My parents gave me a choice, abort the child I was carrying or lose my family. I chose my baby in the beginning. I was kicked out of my house and had absolutely no support from my family. The father of my unborn child was unable to financially support me. With nothing to eat, no money, still attending high school and my mother telling me to starve to death or dig in a dumpster to eat I felt abortion was my only option. She wouldn't give me a dollar for a loaf of bread but she took me to Houston and exchanged \$450.00 for the life of my child. I had no information or education about any other options available to me at that time, nor did anyone bother to tell me that abortion WAS NOT a quick fix with life long consequences.

The right for me to chose was taken from me as I sat in that doctor's office and said that I didn't think that I could go through with it and I was told that I was doing the right thing and that this was what was best. The person I trusted most told me, "it is going to be o.k." and in the same breath said that she couldn't get her money back anyway. Little did she know that her daughter's hopes, dreams, self-worth and chance at a normal life would be killed along with that unborn child. Nothing would be "ok" for a LONG time.

After my abortion experience I tried to find relief through drugs, alcohol and sex. Those were my ways of masking the guilt, shame and depression. I hated everything. I hated life, my mom, God and myself. Nothing mattered anymore and to die a physical death seemed my only way out. Many times I attempted suicide and the cycle of destruction continued.

I eventually married and we had a child together. My ability to bond with my son was killed by the guilt and shame of my first abortion. It took many years for our bonding to take place, and until it did, guilt, shame, embarrassment and depression tormented me. After 2 years of marriage, we divorced.

I went on to have 2 more abortions which only escalated my cycle of destruction. I was bitter, angry, hurt, ashamed and looking for a way out. In 2001 I found myself again wanting to end my life. I cried out to God and He answered me. He carefully laid a plan for my healing. 2 years later, in 2003, I went thru the FACE program at my local crisis pregnancy center. It was there that I found hope again. The healing process has been painful, but it is SO worth it.

Abortion is NOT a quick fix to a problem, it IS a problem, as well as a crime. Abortion kills and no longer can I stand by and remain silent. Tho I am but one voice, I know I speak for many women who have had children, hopes and dreams killed by this act of violence. It is time for the killing to stop!

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your abortion occurred: Spring 1979 - The Fairmont Center 2921 Fairmont Dallas, Texas I was 18 years old.

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Never, The only conversation that transpired before the abortion was about what contraceptive I would use afterwards.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No It is only within the last few years that I've been made aware of the link between the two. Even now, there seems to be a massive effort to cover the truth about abortion & breast cancer. Thank God, I've never had breast cancer.

4) Did anyone pressure you into having an abortion? If so, who? No

5) How has your abortion affected you?
There's not enough space to tell you how I've been affected. It is only through the grace of God that I've survived the ordeal both physically and emotionally. I lived for 16 years carrying the burden, guilt and shame of what I had done. If God had not set me free in 1995, I would probably be dead by now.

6) How has your abortion affected others in your life? My abortion caused me to put up a wall of self protection, never allowing others close enough to see the real me, for fear that they would see the horror of what I had done to my own son through abortion. I cut myself off emotionally from others, including my own husband. It was the only way to survive.

7) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her that abortion not only destroys your child, but it destroys you as well. It may seem like a quick fix to your problem, but you are left with a broken heart and a lifetime of regrets and emotional/physical problems.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? To me, courts were created to make/interpret laws that

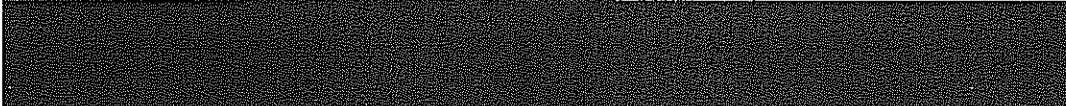

are in the best interest of those it represents. How is the killing of a child in the best interest of that child, its mother, or the society that would someday benefit from his/her existence? It's not, and no one can convince me it is, I've lived that lie + now know the truth!

I have had depression, thoughts of dying + a horrible 17 yr. addiction to drugs (cocaine, meth) + Alcohol. I have been free of drugs + Alcohol since Sept. 23, 1989. I'm ready to tell my story.

6) How has your abortion affected others in your life?

I've told my daughter (18) + she hugged me. I lead others to do this horrible sin. My sister + my friends - ~~my~~ my sister is regretful.

BEFORE ME, the undersigned authority, on this day personally appeared, ELIDA CRUZ who, after being by me duly sworn, upon oath states as follows:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

Some time in October 1966, when I had my abortion in Reynosa, Mexico. I was about 22 years old and I was about 4 months pregnant. The abortion was performed at a doctor's office in Reynosa. The doctor explained that he was going to inject a solution in me and that it would cause me to lose the baby. The doctor said I was too far along to do another method. He said the baby would not come out immediately. It would probably take a day or two. It was two or three months later when I went to the bathroom that the baby came out. I was devastated. It was too emotional for me to see what I had done.

The doctor didn't really communicate with me, but with the father of my baby. He did not explain anything other than I would lose the baby and that it was painless. I was not informed of the consequences of abortion. When the doctor had injected the solution, I had nausea, I was throwing up, and I was doubled over in pain. I never saw anything come out at that time.

I was never told about the risks of breast cancer. The doctor never told me that there would be any emotional problems or any physical problems by having this abortion.

The father of the baby pressured me into having this abortion. He was married at the time. I did not want to have the abortion but I was too ashamed and afraid of what people would say and I was afraid of my mother. The father said there was no other way.

I went through guilt, depression, I drank a lot, had a lot of dark moments of extreme anxiety. I married the father of the baby. I didn't feel I deserved to be happy. I was always afraid something bad was going to happen to me or my family because of what I had done. I was angry at the father, angry at myself. We were divorced eight years later. I have never been able to have any other children. I had endometriosis and the doctors told me I had a lot of scar tissue.

I never told anyone about the abortion other than the father. I guess it effected him somehow, but he never let it show.

I went through the PACE healing program and the only one I have been able to talk to was one of my younger sisters. She just felt so sorry for me that I was never able to have any other children and was very supportive.

I would tell a woman considering abortion do not do it under any circumstances. There is no shame or fear of how to raise the baby that is worth it. You will always think of that baby that you could have had and you will regret it for the rest of your life. I know several ladies that have been through abortion and they believed they could do this, that it was a woman's right to choose. Now they are going through the depression and all the baggage that goes with an abortion. Some don't even know why they have these problems, but it is because of the abortion.

A baby is a living person even if he is still in the womb and no man and no court has the right to decide whether that child should live or die. That baby is a gift from God, he has a right to live just like the judges on the court. They are giving women, physicians and nurses a license to murder innocent children."

- 1) Tell when and where your abortion occurred: At age 17, in the year of 1973 at John Hopkins Hospital
- 2) How has your abortion affected you? Since I am now 44 and unable to have my own children for over 15 years I will always regret that choice I made when I was young.
- 3) How has your abortion affected others in your life? Having two tubel pregnancies with my first marriage really hurt us both. Now I hope in my life for a child with adoption - cost?
- 4) Were you adequately informed of the consequences of abortion? I was told what would happen medically - and left to imagine what happened to my child. Not told of the emotional side.
- 5) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: I was told that a salt solution would be put in the womb - I was not told what happened to my child.
- 6) Based on your own experiences, what would you tell a woman thinking of having an abortion? Think about all the women & men (couples) wishing they could adopt & raise a family together. And do you really want to live with the fact of killing someone?
- 7) Based on your own experience, what would you tell a court that believes abortion should be a woman's choice? Yes it is her choice; I believe to keep her child or to find a home for this little gift.
- 8) Did anyone pressure you into having an abortion? If so, who? My family growing up was filled with words like "Don't do what I did" and "I'm sorry I every had you". Both negative.

BEFORE ME, the undersigned authority, on this day personally appeared PATRICIA LOUISE CURTIS, who, being by me duly sworn, upon oath stated the following facts:

My name is Patricia Louise Curtis. I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

When I was seventeen years of age, I became pregnant. At that time I was in 11th grade and I went to the school nurse. The school nurse informed me that I had three options and those were to keep the baby, give it up for adoption or have an abortion. She recommended that I give the child up for adoption explaining that there were many couples that would want my baby. I had been involved with drugs at that time and was sure it was not a good choice to have my child.

When I informed my parents, my mother asked me what I wanted to do and I told her I wanted the abortion. They sent me to my grandparents who arranged for the abortion. I was taken to John Hopkins Hospital where I had an abortion using saline solution. At that point, I still did not realize what I was doing. I was already four months pregnant. When they injected the saline solution I felt the baby kick and at that point I realized that it was all terribly wrong. I realized that I should not have done it but it was too late. I do remember that the hospital required me to sign a release form even though I was seventeen only.

I used money from my college fund to pay for the abortion. I had family supporting my decision and my father even called me the day of the abortion congratulating me that I had made the right decision. I think my parents were supporting me in this because they had began our family at age 16 or 17 due to their own unexpected pregnancy. They were going through marriage problems at that time. They had five children and I am sure they did not want me to go through what they were going through. They ended up divorcing and that devastated us.

I never fully realized what all was involved with abortion nor of its after effects. For two years after the abortion I went through a lot of feelings and guilt. Now I know I made a bad choice and live with it everyday. I am unable to carry children due to two tubal pregnancies in my life. I wonder if the saline solution or the IUD after my abortion damaged my organs. I will always wonder why I gave up my only child to an abortion.

In summary, if I had been fully informed of all the negative effects of abortion, I would have never gone through it. I believe that had I had the family support of choosing adoption instead of abortion, I would be able to have children today. Family support and support from society plays a very influential role in the life of a young woman that can not decide to keep the child knowing that she cannot provide for the child. But she needs to be aware that there is an alternative to give the child up for adoption. There are so many couples wanting to have a family. I know because we are one of them.

HOW TO COMPLETE AFFIDAVIT AND AUTHORIZATION FORM

An affidavit is a legal document that *must* be sworn to and notarized. We realize that this may be a very painful process, and we thank you for coming forward to tell the truth about abortion. With your help, and that of many other women, we hope and trust that the health of women in relation to abortion will be better protected in this country. We envision that, with your help, *Roe v. Wade* and *Doe v. Bolton*, the two cases that legalized abortion in this country, will be overturned.

Please fill out the post-abortion question and answer affidavit form or, if you prefer, write your own affidavit on the form provided. Please type, or print clearly, your information. If you need more room, insert extra pages between the first page and the signature page. Initial each inserted page at the bottom and be certain that the signature page is the last page. A sample affidavit has been provided as an example. **IT IS VERY IMPORTANT THAT THE AFFIDAVIT BE PROPERLY NOTARIZED.** Notaries are available in many locations including banks, offices, etc.

Please complete the authorization form with your contact information. If your contact information at any time changes, please inform us immediately of said changes. **PLEASE NOTE:** The fully completed authorization form must be included with the affidavit and returned to our office.

Thank you again for your willingness to relive a sensitive experience. We realize that this may be painful for you; however, only when people with actual knowledge of the problem speak out can anything be done to make a difference. We believe that your courage will not be wasted.

If you have any questions regarding the affidavit or any of the forms, please contact:

who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your abortion

occurred: I had multiple abortions, the first one was 25 years ago.

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Procedurally - yes. Scientifically no.

I was led to believe + deceived myself into thinking. It wasn't just "a little" it was only tissue mass not the life that it really was.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? no

4) Did anyone pressure you into having an abortion? If so, who? no

5) How has your abortion affected you?

I am healed + God has blessed me with children - but I'll never forget + really with time + experience the joy my children bring me, the enormity of what I did by having abortions continued to grow. I know I am forgiven but I can not forget.

6) How has your abortion affected others in your life?

7) Based on your own experiences, what would you tell a woman considering an abortion?

Please, don't do this to yourself + the life within you.

8) Based on your own experience, what would you tell a court that believes abortion should be legal?

If abortion is legal, then so is any other form of murder. Is it OK then to shoot someone because they are a helpless + happen to be an inconvenience for me? I don't think anyone would think →

COUNTY OF BEXAR

BEFORE ME, the undersigned authority, on this day personally appeared **ELENA DE JESUS DAVIS**, who, after being by me duly sworn, upon oath, stated the following:

"My name is ELENA DE JESUS DAVIS. I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

When I was around the age of sixteen or seventeen, I got pregnant with my first child. I was still living at home with my parents, but I was spending a lot of time with my boyfriend. I lived in Mountain Home, Idaho, and traveled to Boise to see a doctor that a friend at school had recommended. (They had been cold and rude to me at Planned Parenthood and I did not want to go back and see them.) The doctor that I went to see in Boise was an older, grandfather type man. He confirmed that I was pregnant and I told him that I wanted an abortion. He asked me if I was sure and I said that I was because my dad had been having heart problems and I just did not know how all of this would affect him. I also feared what my mother would say. He showed me an article from the newspaper about people picketing an abortion clinic. I think that the article told about the pro-life point of view. He wanted to show me both sides of the issues so I could make an informed decision but he never tried to talk me out of it. I told him I was sure that I wanted to do this and he gave me an appointment to come back to get me prepared for the procedure. The day after that I was supposed to come back and have the abortion. During all of this, I never felt pregnant and I never thought about having a baby inside. I just wanted to have all of this over with so that my parents would not find out that I was sleeping my boyfriend. My boyfriend took me to Boise the next day during school so my parents didn't find out. After the procedure, all I remember was waking up in a room and I felt fine because of whatever it was they had given me to knock me out. I picked myself up on my elbows to try to see what was going on. The nurse was at the sink with a clear hose and she was washing all the bloody stuff in the hose down the sink. I said something and she turned around and dropped what she was doing and pushed me back down so that I couldn't see what was going on. She was clearly trying to hide from me what she was doing. They let me go with a prescription for Valium. My boyfriend took me to his house and I slept the rest of the afternoon until it was time for me to come home as if I had been coming from school. I must have slept the rest of the evening because I don't remember the rest of the day. One thing that my boyfriend told me still haunts me to this day. When I came out of the room of the doctor's office after having the abortion, he asked me if I had been screaming. I told him no and he said that he had heard me or someone else screaming: "My baby! My baby!". I still wonder if it was me."

"Within the next two years my dad died of a heart attack and my mom wanted to move us to Mexico but my sister and I talked her into San Antonio, Texas. I was still in contact with my boyfriend and after a few months, he came down to marry me. We were married here in San Antonio and he took me back with him to Idaho. The marriage lasted one year and I came back to Texas to live with my mom and sister. I got a job at a temp agency, and then at Long John Silver's and eventually ended up at an insurance company downtown."

"One night I went out dancing at a local club with my sister's best friend and met a guy from Boise. I was determined to try a one-night stand so I took him home with me to the apartment I shared with my mom. My mom was visiting her family in Mexico. I did a home pregnancy test soon after and find out I was pregnant. And then somehow found Dr. Bahtia. They did a pregnancy test and without asking my opinion or my situation told me that she did abortions at an abortion clinic. It was almost like Dr. Bahtia was trying to push me into making this decision. Something about her manner made me uncomfortable but I knew I couldn't afford another doctor's appointment with another doctor. I was soon calling my one stand from Boise. He knew why I was calling and he told me he wanted me to have an abortion. This time I was feeling pregnant so it was easier to lie to the people at work about being sick and having to go for tests. One day I was at work and Dr. Bahtia called me to see if I was going to come in and have the abortion. She said that my time was getting short. A later term abortion was more difficult. I made the appointment and my one night stand took me down to the back entrance of the abortion. When I got there they asked me to sign all the forms and gave me a very cursory overview in general terms of the abortion process. They took me into a large room with which seemed a bunch of beds. I can kind of remember that there were other women prepped and laying in some of the beds, but I didn't see their faces. They laid me down and put a mask over my nose and mouth and told me to breathe. What we didn't realize was that the mask didn't fit properly on my face and that I was only getting a small amount of the gas that was supposed to be my painkiller. When the abortion started it hurt so I instinctively started to move away from the pain and moan. Dr. Bahtia started getting angry with me and was telling me to hold still. Soon there were nurses holding me down and I was still feeling the pain and trying to move away. That's when I figured out that the mask was not on properly and I grabbed it and pushed it on my face and started breathing deeply to get as much gas as I could. I felt the pain diminish and the abortion was soon over. When they took me to the recovery room I didn't feel very good and wanted to lie down. My lower abdomen hurt but they wouldn't let me lie down. They gave me an over the counter pain reliever and told me that it was all they could do for me. They told me I had to go and they had someone walk me down to the door. My one night stand was outside waiting for me and drove me to his house where he kind of tried to treat me like his girlfriend but just watched TV. I cried a little and then went home. That night I had terrible abdominal pain. I had to lay very still and try to relax my abdominal muscles to make the pain go away because the over the counter pain relievers were not working. Later that night, I woke up in a pool of blood. I called my sister and had her go with me to the hospital emergency room. We waited for a long while and never got seen and finally left. When I woke up in the morning there was no

blood but the next night the same thing happened – I woke up in a pool of blood. During the day I was going through a lot of sanitary pads. I ended up calling my work from a medical clinic by my house – the doctor said I had gotten a partial abortion but that everything looked fine and that there wasn't anything really they could do.”

“I believe that these experiences led me to have terrible anger, shame, grief, depression, and an inability to bond with my first living child. It was not until I came to the saving knowledge of Jesus Christ and went through the PACE Group at my church that I received the emotional healing and forgiveness. I thank God for the volunteers that work through PACE Group and for His grace and His mercy.”

“I have read the above and foregoing statement and the same is true and correct.”

Before me, the undersigned authority, on this day personally appeared Gina DeLaGarza, (Print Name) who, being by me duly sworn, upon oath, stated the following facts:

My name is Gina DeLaGarza (Print Name). I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

I was eighteen yrs old, when I realized I had become pregnant. ~~At~~ At first I could not believe that I had become pregnant, I told myself that it could not happen to me. I remember, I told my boyfriend at the time and he was surprised himself I was not taking any birth control, but we were being careful, but to my amazement I was pregnant.

I remember taking a pregnancy test at the clinic I went to, the clinic was on San Pedro St. and the clinic was called Reproductive Drs. I went in, they gave me a cup to urinate in, and told me ~~to~~ when I finished giving the sample, to go and wait in the waiting room. Well I did, then a few minutes later it was confirmed, I remember my heart wanted to jump out of my chest, I didn't know what to think, but I do remember the words, my mother used

to tell me, and that was, "if you ever get pregnant, you will be in the streets, because you will not be in my house! Those words stuck with me for along time". So I panicked! I told my boyfriend. And ~~he~~ ^{he} was very quiet. He really didn't say much. Anyway, the receptionist made another appointment for me to get checked, so when I went back, the doctor examined me and told me I was 1 1/2 wks along, so when I got dressed they had counselors who had spoke to me, and they went over all the options! They also told me that the abortion is a procedure that is fast and that my period would start right after it was done. They told me that the baby ^(embryo) was not yet formed and that it would not hurt me or that the baby ^(embryo) would not feel anything. They gave me the cost, and also told me that I had to make a quick decision, because if I waited another week, I would have to go to the hospital to get it done, because they won't be able to do it in the clinic. Well I was scared, and feeling very anxious, I kept saying "what do I do"! I didn't want to tell my parents, I didn't even tell my best friend (for a while) I did tell my boyfriend and we talked about we were planning a wedding before any of this began! and he had decided that I

Should go with the procedure, and asked how much it would cost, he told him \$150.00, he said he would give me the money and for me to make the appointment, but I didn't want to go thru with it, I was scared to death! But then he told me that if I didn't go thru with it, that we would not get married, so then I panicked again and made the appointment. I remember after making the appointment, I cried! I was ~~was~~ under control by the decision I did not know any better being 18 yrs old, being told by my mother that I better not come out pregnant and then my boyfriend telling me that we would not get married and then thinking of the baby! Well a couple of days later we were back at the clinic and they got me into a room with a lot of other girls who were there to have the same procedure. I remember this one girl who was about 13 yrs old and she was there with her mother and that little girl was there for her 3rd or 4th abortion. I myself did not know what I was in for, I did not know anybody who had done, so I did not know what they were going to do to me! Well when it came my time, they had me put on a paper gown, and they examined me again then they started to get me ready, they put my feet in stirrups and pulled a table with instruments on it. It was covered so I could not see any of the surgical instruments they were going to use, and in the ~~box~~ corner I saw this jar hooked up to a machine and they told me that it was a suction machine, well, ~~it~~ was already nervous and shaking and crying.

Then the doctor comes in and stuck his fingers in me, I guess to feel the uterus I didn't know then he says in a chair in front of me and I am with my legs open and he tells me that he is going to give me a shot to numb my uterus so he did, he stuck this needle in me and told me not to move, I felt the pinch and then he told me, ~~that~~ he was going to start the procedure what happens next is disturbing to me!

I remember he started ~~that~~ ~~to~~ ~~stick~~ ~~in~~ some instruments and I could feel the whole thing, I told me it hurt but he told me it would not take long, well then he took it out and put in another one and I started to cramp, I asked them what was he doing and he told me he was dilating my cervix, and must have done this about 5 times and each time hurt worse than the first then he started scraping me and I could feel this as well and I was telling me to "Stop cause it's hurt so bad, and I was crying and grabbed the table with my hands and was holding on ~~and~~ because he had told me not to move then I remember he turned ~~on~~ that suction machine and the noise filled the room, it was loud, and I could hear the suction and the spizzling. Then before I knew it, it was over. It didn't take 5 minutes. After it was done they put this huge Kotex on me and kept checking me for heavy bleeding after about 2 hrs they sent me home!

I remember feeling so lonely and depressed and empty. That even my boyfriend could

Comfort me. Well I got home and slept for hours and everytime I woke up, I thought it was all a dream. Well I tried to put behind me by trying to plan the wedding! We ended up getting married and that lasted 1yr and 6mths and when we divorced he had the nerve to tell me that he felt obligated to marry me, because of what I went thru for him.

Had I known then what I know now things would be a whole lot different. I went on for yrs not forgetting that experience, every now and then I would think about the baby I had aborted well for like 6yrs I began to party heavy and got mixed up with drugs, my life was a mess. but I did tell my self if that happened again I would never, never get another abortion again.

Well I ended up getting married again and ended up pregnant again. I was so happy, the Dr had confirmed the pregnancy and my husband and I went and told the whole family. Then tragedy happened I ended up having a miscarriage the very next day! And I kept thinking, had something gone wrong because of the abortion, I fell into depression again and into a crying spell! But all the time I kept thinking about that awful experience and I was condemning my self and believing that I was being punished for that sin, I kept trying to get pregnant, it took 4yrs

for me to get pregnant, and even then I kept thinking that I would lose the baby, for what I had done, well thank God, I had a full term pregnancy

and had a beautiful baby girl! and then 3 yrs later had another beautiful baby girl, then ended up divorced again, then I still felt at a loss till I gave myself to the Lord! now I know my sin is forgiven and that one day I will be reunited with my baby, I thank God every day for my Salvation!

I did learn 1 thing! no matter what the staff at the clinics or Dr's or even counsellors say about abortion! The bottom line is that it is murder & ~~murder~~ ^{destruction} from conception and that abortion should not be an option! It does affect your mind and it will stay with you! If you don't seek forgiveness and have the Lord guide you, I thank God for the 2 Blessings He has given me,

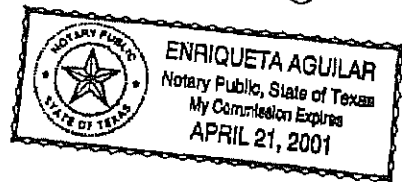

I have read the above and foregoing statement and the same is true and correct."

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: The year 1987 in February
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No, I was not aware of the cancer risk or the nature of the procedure.
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? Yes If so, who? The father of the baby, who was not interested in the baby; his name is Thomas Giles.
- 5) How has your abortion affected you? For twenty years I have experienced unresolved bouts of depression, anxiety and sadness, which I have attributed to unresolved grief from the nature of the cause. It has been difficult to seek help and resolve the pain, but through a group situation offered by a crisis pregnancy center, I've been able to achieve resolution of grief and healing. The greatest effect has been a dysfunctional sex interaction with my husband.
- 6) How has your abortion affected others in your life? My husband, my children by way of over protection perhaps from feelings of endangering and distrust.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? What seems like an easy, quick and legal way out of a complicated situation, really isn't in the long run. The consequences of abortion are grave and physically, emotionally and relationally. The price is too high to pay.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? What seems right in the eyes of men can only be so relative, to the nature of men which is to be self serving and immediately grabbing what seems at hand at the moment. Only not be right in the eyes of others whose standards for moral behavior are higher than themselves. Abortion is ending a life and a failure to protect those unable to protect themselves. Life should be protected and provided for.

I was 19 years old when I became pregnant. I felt very alone and scared. The one person who I thought would help me through this, my boyfriend, was not there to support me. He did not want to keep the baby and insisted that I have an abortion. I had never thought about having an abortion and I was heartbroken at the thought. As a matter of fact, I had always been against abortion. Even as a young girl I spoke out against abortion and why it was wrong.

I was ashamed and confused and I did not know how to communicate with my parents about being pregnant. I knew they would be disappointed. So, I kept my pregnancy a secret and kept it all bottled up inside. I remember crying myself to sleep every night at the thought of going through an abortion and losing my baby. The people that were a part of my life at that time, my so-called friends, all suggested that I have an abortion. So, that was the direction I went. I believed all the lies that I was told: how I was too young to have a child, that I needed to finish college, and that it would be better for everyone if I had the abortion. The bottom-line was that it was my "choice".

Having an abortion is something I will never forget. I was twelve weeks pregnant and should not have even been allowed to go through the procedure that day. My boyfriend was with me and was allowed to be in the room with me during the procedure. I'll never forget the look on his face as they started the machine they used for the abortion. We were not sure that we wanted to go through with it. I even asked if it was too late to change my mind. They said that it was "too late" and that they had already started the procedure. Whether this is true or not, I'll never know for sure. My instinct tells me otherwise. We cried through the whole procedure. And when it was done, we sat outside on the steps together in disbelief and in sadness, knowing that what we had done was wrong. We were numb. This was the beginning of a series of destructive behavior that continued for the next couple of years.

My parents, grandparents and siblings all found out about the abortion within days. It was heartbreaking to have to tell them what I/we did.

I went into a serious depression after the abortion. Of course, the clinics don't tell you about the depression. You've just lost a baby, and again you are going through hormonal changes. All of which I had never experienced!

I ended up going back to college the following semester, telling myself that I went through an abortion so I could continue my education. But, the depression followed me to school, and I ended up getting pregnant again. I wanted to be pregnant to fill the hole that I felt in my heart. I wanted a baby to replace the one that I had given up!

This pregnancy ended in a miscarriage. This time the baby could not survive in my already damaged uterus. I ended up having to be hospitalized because I was not having a natural miscarriage. I went through my first of two surgeries and was told later that I may never be able to have children because of the condition of my uterus.

The depression continued as I thought about how I aborted the only baby I may have ever had. I brought my depression and distress into my career and ended up losing my job because of it. I was a mess!

It wasn't until I was 21 years old that I gave my life to Christ, and found forgiveness from my savior. Through His forgiveness, and forgiving myself I was able to overcome the depression and start trying to function normally again.

I can look back and see how influenced I was at that point in my life. Why wouldn't I be? I was pregnant, scared and very hormonally influenced in everything I did. It is hard enough to

be pregnant and married, let alone, being pregnant, single, feeling alone and vulnerable. All women are at a very vulnerable time in their life when they become pregnant. I believe that abortion clinics and doctors know that we are vulnerable and they prey on our weakness. During this time in our life we make decisions we normally would not make.

I believe that if abortion were no longer legal, it would take away a lot of distress that a woman goes through when she finds that she is pregnant. I believe that a woman's natural instinct is to care for and love her child. When you throw the abortion option into the picture it makes things confusing and stressful. If abortion were not legal, a woman would be able to accept the idea of being pregnant easier and begin to plan for having a child in her life. I also believe if abortion were not a legal option, it would lead our country back to being more sexually responsible. Of course, this reshaping of our thoughts would take a little time. But in the long run, I am convinced it would make for a healthier country!

I tell you this story and share my intimate life in the hopes that you see abortion has brought only pain to me and many other women. Pain physically to the baby as they are being ripped apart and killed inside their mother's womb. And pain to the woman physically, mentally and emotionally as they realize what they have done to their baby.

Please protect women who are unable to protect themselves at this vulnerable stage in their life, and protect the unborn babies, who are unable to speak for themselves.

Thank you,
Laura Doyal

Before me, the undersigned authority, on this day personally appeared Lisa Dudley, who, being by me duly sworn, upon oath, stated the following facts:

My name is Lisa Dudley. [REDACTED]

[REDACTED] I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

At 24-years-old, I learned I was pregnant. My boyfriend immediately asked me not to have "it." He said that he would pay his half for an abortion. All of my friends said I shouldn't have "it." I was afraid to tell my family because I knew they would be disappointed that I had gotten pregnant under these circumstances. Because I was already a single parent of a son with no support from his father, I truly believed I had no options. I felt so much pressure and felt I had no way out. I had taken others to have abortions in the past, so it really didn't seem that big of a deal. Especially, if I did it right away. So at eight weeks pregnant, my friend, who I had taken for her abortion years before, was now taking me.

We quickly went into the abortion facility to avoid protestors on the sidewalk. I signed in, gave a urine sample, and waited. Along with five other women, a lady talked about how we should learn to use birth control and asked why we were there. The lady asked each of us one-by-one if this is what we wanted to do. Then we were shuffled into another waiting area. A Hispanic woman was there for her sixth abortion. I remember thinking, "How could she keep doing this?"

I was then called in for the procedure, changed into a gown, and had a sonogram. I asked if I could see the picture and was told that it wasn't a good idea. I told her it was OK, I just wanted to see. The assistant ran the probe across my stomach quickly, pressed a few buttons, turned the monitor towards me, and showed me a white dot on the screen. I remember thinking that "it" was really nothing, and it would be okay not realizing she wasn't even showing me my baby.

I was then taken into the next room and positioned on the table. The abortionist came into the room. I looked up and realized that the abortionist was one of the clients of the law office where I worked. I wanted to die right there. The shame that came over me was just unbearable; however, he never looked at me. He never examined me, he never looked at any paperwork on me, he never asked me any questions. The assistant gave me a mask with medication to relax me. She whispered to me that I needed to stay completely still. The abortionist said I was going to feel a little discomfort as he administered the local anesthetic. There was much more pain than a little discomfort.

Then came the vacuum machine. This was the longest time of my entire life. I felt like I was being violently shaken off of the table. The nurse yelled at me to be still. I had no control over what was happening to my body. Then came the tears. I knew right then I was making the biggest mistake of my life. But it was too late. The only compassion I received was from the assistant who patted my head and said for me to go ahead and cry, that it was good to cry. It seemed like an eternity. When was the machine going to stop? I really thought I was going to die. I prayed right then and asked God to forgive me.

When they finally shut down the machine, I heard the snap of the metal instruments and the abortionist's gloves as he removed them. He slapped me on the thigh and said, "Good luck to you," leaving the room without ever looking at me. At the time I was relieved because I was ashamed I was there, but now I realize how cold and disrespectful he was and how I wish he had had the guts to look me in the eye. I realize now he was not my doctor and there was no doctor-patient relationship.

The assistant helped me up, and the nurse told me to put a pad between my legs and not get blood everywhere. I was weak and shaking uncontrollably. As I stood the pad dropped and blood poured out all over the floor. The nurse yelled at me that I was making a mess on her floor and to hold onto the pad. I was escorted to a bathroom where I was allowed to clean up and put on my clothes.

I then was taken to another room where I was told to wait. There were recliners lined up with small tables next to them with juice and cookies. Girls were curled up in fetal positions crying and in pain. I remember thinking that I was going to be fine and that I just wanted to get out of there. I wasn't cramping yet so it was easy for me to show I was okay. I asked to leave and was told I had to stay for at least 20 minutes. I was desperate to get out. When I was released, I was given a prescription for antibiotics and told I had to return for a follow-up. I remember thinking right then, "I will never come here again."

My friend looked at me stunned and said that I must not have gone through with it. I told her that I did and just wanted to leave. She was shocked, I appeared to be okay. We sped away, past protestors and went to a restaurant. I made it through half of my meal when the cramping set in, and I told her that I had to go home.

My boyfriend came by my home to make sure I was okay. I was curled up on the couch in pain and couldn't even look at him. He consoled me, and left. Our relationship soon ended after that.

My mother called me that afternoon. I told her I wasn't feeling well because I had started my period. This is where I began wearing the mask to hide my shame that lasted years. The shame was so bad I wouldn't even fill the prescription for antibiotics following the abortion because I didn't want anyone to know where I had been. The pain I suffered was the worse physical and psychological pain I have ever experienced. I felt deceived and violated. I had no idea what abortion would do to me. If someone had only warned me.

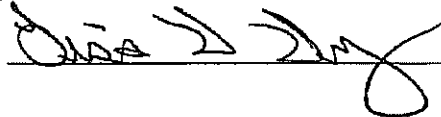

Unfortunately, my abortion began a long walk into a dark destruction lifestyle. I drank before the abortion, but drank heavier after the abortion, experimented with more drugs and spent most of my spare time in night clubs to numb the pain. I had become a "pro" at hiding things. I was a good mother when I had to be, and then I had "me" time where I could be as bad as I thought I was. I had no self-worth. All the things I said I would never do as a child, I had now done. There were few sins I hadn't committed. No one in my family was aware there was ever a problem. After the abortion, I had bouts of uncontrollable crying, sleeping too much, pain in my chest and trouble breathing. My doctor diagnosed me with depression and panic attacks for which I was prescribed medication. I never realized that this was because of my abortion.

If abortion had not been legal, I would have never been in that abortion facility that day. My child would be alive and starting high school. I would not have had the years of pain and anguish over taking the life of my own child. I would not have had the years of substance abuse and depression.

I believe that there is nothing that brings more shame and pain to women than abortion. A woman carries it the rest of her life. The government regulates and disallows procedures, medications and treatments that are not "safe" and bring harm to people. Abortion should be at the top of the list of procedures not allowed. Abortion brings only pain, sorrow and regret. Because of the scientific evidence we now have, because of the testimony of woman upon woman of how abortion hurt them, because we now know it is not good for women and it really isn't a choice, abortion should no longer be legal.

Affidavit to the Supreme Court of these United States of America.

I Margaret Gamy Ehardt offer the court my testimony in support to overturn Roe vs Wade & Doe vs Bolton, in support of Operation Outcry, Silent No More.

My first attempted abortion was 1960, I went to a midwife in San Antonio, Tx. An old dirty house close to downtown off of IH35. She placed a black pill of some type to induce abortion, at the opening of my uterus. This caused me to hemorrhage. I was taken to Baptist Memorial Hospital by my mother, she was not aware, even, that I was trying to abort this child. I told no-one. I stopped bleeding, and the pregnancy proceeded normally, my son Ronald Gary Gonzalez was born 12/9/60, healthy except for a weak eye. He is now a father of 4 boys & a minister of the gospel.

To this day my mother knows nothing of these abortions, but my five adult children do.

Let me add this important fact, my first 2 children, both boys, Michael & Ron, were born out of wedlock. The father of all my children is Jesse R. Gonzalez. He & I married in April 1962 in Bexar County, San Antonio, Texas.

1st abortion 1961. Same midwife, she used a catheter (sp) & inserted it into the uterus.

Again I started hemorrhaging, since my mother was not aware, I called a friend Janice Brunko and she took me to the midwife who cleared me out. I remember her saying I was alot further along than she had thought. I recovered.

2nd abortion about 1964. Jess & I were married & had moved to Stockton, Ca.. Finding myself pregnant again, I had my daughter Dawn Christine Gonzales by then; I had saved the catheter the midwife had used, & with a straight wire coat hanger, Jess inserted the catheter into my uterus. I will never forget when I passed the fetus/baby in the toilet, I can still see, in my minds eye, the embryo, and then I flushed my baby into the sewer lines. Not even a proper funeral. I was so ignorant.

But I still did not learn. 3rd abortion, about 1965. Again Jess with catheter & wire hanger inserted into uterus. But nothing happened & I removed it. Then during this same period of time. A day or two, I was at a stop sign, in the little english ford station wagon we owned, & was rear ended by another vehicle. I received a serious whiplash and did seek Doctors treatment. At this same time I started having a cream colored

discharge & serious pain for 2 or 3 days, until it got so bad one night I had my husband take me to the hospital. The pain was so bad I could not walk, so a wheelchair was brought to the car. I was wheeled into the ER room and when I stood up to get on the table I gushed out blood, flooding the floor, the rest is like a blur. I remember being in a hospital room, delirious (sp), fever, etc. Some time in the night, I remember the nurse coming in to check me, she rolled me over and said this is what we were waiting for, or words to that effect. The next morning I went in for a D+C. I do remember having, what some may call, an out of body experience. I remember I was floating above the operating table looking down, I remember nothing else. Then I believe later on the next day, the doctor came in and took my hand & with his other hand he held his thumb & index finger close together & said, honey, we came this close to losing you. I think I was in the hospital close to a week. I received iron shots, very painful in both hips, no blood transfusion, because I was so anemic.

Of course before long I was pregnant again, but this time I told my husband "no more

abortion) and convinced him to get a
 vasectomy. The result of this pregnancy
 was twins girls. Conceived 2 ~~wt~~ weeks apart.
 Perfect and healthy, born July 24, 1966 in
 Stockton, Ca. Antoninette Jude 4'10" &
 Leticia Margarita 4'2" both of 9 lbs exactly.

Jess & I divorced in April 1972, Bexar
 Cty., San Antonio, Tx.

I remained with (wks) to John Wheeler,
 no thought went into this marriage, I didn't
 even know this man. John & I divorced
 in April 1984, Travis Cty., Austin, Tx.,

Well on May 4, 1984 I met Robert Ehardt,
 he moved in within a few days & we finally
 married March 16, 1985. Today after 18 yrs
 together we are divorcing. Hopefully this should
 be final by or before July 15, 2002.

What is the result of these abortions, well
 in 1970, at the tender age of 28, I had a
 partial hysterectomy, the uterus, in a pre-
 cancerous state & half of the right ovary, plus
 cysts. Three marriages, each worse than the
 last, I have been my own worst enemy.

Lacking self worth, looking for love in all the
 wrong places. Shamed, abused, used, spit
 on, choked, thrown around, hit with a closed
 fist, cursed, verbally & emotionally abused.

I brought punishment on myself by very poor and wrong choices. Choices I made without conscience, but I do believe in my sub-conscience I have been punishing myself. Feeling rejected all my life, just as I rejected those precious babies I aborted.

I know now I am forgiven and renewed by the Blood of our Lord and Saviour Jesus the Christ.

I also realize that the moment that little embryos attached to my womb, life began, just as I live that embryos lived with every breath of mine so it was for that child.

I can never undo the past, but will never forget although forgiven.

Reproduction, pregnancy, is a God given gift, we have no right to kill what our Creator intends to create. Only Our Father can give life, and we are to live it until He calls us home.

Anything else is murder by choice.

So I am Pro-life but I also know it is a God given right to choose. Choose life!

But we must not be ignorant any longer, and our Father does give us the knowledge to learn what is the right choice.

I feel I must also give you a brief history of my own young life before the abortions.

My own father, Oscar Somy was at war in military service when I was born in London, Iowa, Webb Co. on October 17, 1942. I think I was about 4 yrs. old when I met him. But he was never a big part of my life. My father divorced my mother when I was about 6 yrs old. About this time I got shingled on my face & was a very sick little girl. I was treated with ultra-violet rays to dry the blisters because they were about to go into my left eye. I do not have any lashes on the lower left side of my left eye, due to these treatments. At any rate, I was left with a scar or burn on my face and was ~~teased~~ teased un-mercifully by other children. Later, ~~at~~ around 7 or so I was molested by a close family member. And at age 14 I was raped. I do believe that all of these things that happened, left me feeling rejected & a sense of abandonment. Most certainly, lack of self value. Maybe this is the only way to explain the lack of value I had for the babies I aborted. But no excuses will do. And yes I did look to abortion even with my first son. Thank God, I did not find anyone to perform the abortion. He has always been my best friend and a great son. Very sensitive & loving.

7.

I pray you will hear my plea, along with the other women honorable ~~enough~~ enough to come forward.

Please, I pray you will be given the wisdom of God and make the right decision, you will be saving our future and honoring our Creator, Father of all. After all He did send us His own Beloved and only Son to save us all.

May He Bless and Keep you and give you His wisdom.

With All Due Respect,
In His Service,
Margaret Gandy Eckhardt

Before me, the undersigned authority, on this day personally appeared ESTHER MARIE FLORES, who, being by me duly sworn, upon oath, stated the following facts:

My name is ESTHER MARIE FLORES. I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

"On October 31st, 1991, I had an abortion at a clinic called "A Woman's Choice" on San Pedro in San Antonio, Texas. Prior to this I had gone to Planned Parenthood. I was very shocked when they told me I was pregnant because I did not expect to be pregnant. I kept asking are you sure and she said yes. She said, "Don't worry, I'll give you a couple of numbers and they can help you." She said I could have a quick and easy procedure and it would be very simple. I remember her saying you'll be home in a couple of hours. Because of this statement, I drove myself to the clinic on the date of the abortion and had a hard time driving back home."

"I remember calling the Woman's Choice Clinic and they told me to go the next day. I kind of wanted to think about it and they kept insisting that I needed to come in right away because the longer I waited the more expensive it would be. They said they had an opening for the next morning. I remember feeling a lot of pressure to go in."

"I was told to be there at 10:00 a.m. and I was shocked how many women were there. I signed in and they took my money immediately. I paid \$350.00. When I paid they ushered me into a big room with all these women. I remember sitting there just shocked. I remember seeing women in the room crying. They were calling groups of 7-10 women at one time."

"When my turn came, our group was taken in. We were given some paper gowns and were told to undress and put the gowns on. Each one of us were taken to a small room with a table that had paper on it. The rooms looked dirty and dusty. It was not like anything you would expect in a clinic. They told me to get on the table and lie down. I had to wait maybe thirty minutes dressed like that. It was very cold in the room. When the nurse finally came in she told me to place my feet on the stirrups and told me the doctor would be coming soon. I started having second thoughts because they were so cold towards me. I felt that they were nice up until the time I paid my money and then they started treating me indifferently."

"The doctor came and he never acknowledged me. He just talked to the nurse and asked the nurse, "Is she ready?" He just started doing the abortion. I remember the pain and I told him to stop. The nurse then told me sarcastically honey, you can't stop now. I started wiggling and the doctor then angrily spoke and said the more you wiggle the more pain you'll feel. He never told me his name or said anything else but this. I have had a baby since then and the pain that I felt in the abortion was more painful than the delivery pains. I can't remember if they gave me any anesthetics but I do remember a lot of pain."

"After he finished, the nurse told me to get up and get dressed and go to a room across the hallway and there were about 10 other girls there. They all looked very weak. They gave us an orange drink because we had lost a lot of blood. A lot of the girls were crying. I remember feeling emotionally numb and angry that the women were crying. I remember thinking the only way I can deal with this is pretend it didn't happen. I had never been treated like an animal. I felt I was used. I still did not realize that I had killed the baby. I felt ashamed of the way I had been treated. I associated this shame with the shame that I had felt when I was in sixth grade and had been discriminated against because of my race."

"I did not know it was a baby. I had never been pregnant before. I did not talk to anyone about my pregnancy. I just pretended like it never happened. The only terminology I had heard was "fetus" and I thought it meant a blob. When I finally found out that the word "fetus" is latin for unborn baby I really realized what I had done.

"I still did not tell anyone but I started overeating, drinking alcohol, experimenting with drugs, struggling with depression, and avoiding any kind of intimate relationships. I could not admit the possibility that it could have been a baby but somewhere deep down inside I knew that it was a baby. It was almost like I wanted to be blind and think it was only tissue. I was in denial of what had happened."

"I started going to church and I remember at church women would go up and say that there was a support group for women that had gone through abortion. I remember feeling sorry for them without realizing I had done the same thing, but I was in denial. I was unable to turn this over to the Lord."

"I married the father of the baby I aborted. I never told him I had been pregnant nor that I had had an abortion. When I got pregnant with my son and I felt him kicking inside I could no longer deny what I had done. When I was six months pregnant, I told my best friend about the abortion I had had. She told me I needed to tell my husband but I told her no because I felt for sure the baby would be deformed or either would die and I also would die because that's what I deserved. I didn't feel that I deserved to have a healthy baby. I was also having a very hard time with my pregnancy. I did not want him to feel guilty at all."

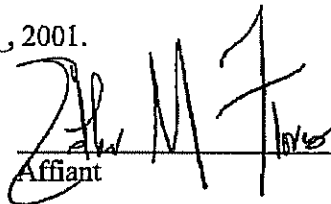

"I was nine months pregnant when I felt it necessary to tell my husband what had happened. He shared with me that before me when he was in the Navy he had impregnated a woman and paid for her abortion and he was dealing with a lot of feelings also. He said he would look at children that were approximately his baby's age and thought that could be his son or daughter. He told me that now he understood my weird behavior after the abortion. We had broken up for a short period of time and when he came back he noticed that I was different. We got back together after the abortion. I thought I was hiding it very well but I was the queen of denial."

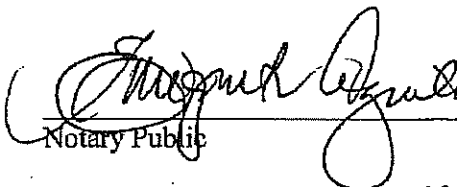

"I never knew that there were possible complications that could occur from having an abortion. I would tell a woman that is considering having an abortion that this is something that is irreversible. There will always be something missing in your life. There will always be sorrow associated with it. I would tell her that she needs to realize that the abortion doctors are just out to make money off of them. I have a friend that had three abortions and now as result of this she cannot go through a pregnancy full term because her uterus was forced opened and is very weak."

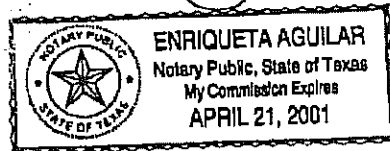

"I would tell the courts that abortion is only hurting women. The women are not being informed and are living with the consequences of this action. I can see my life totally destroyed had I not gotten help. I could have been a drug addict just to have been able to deal with the emotional pain that accompanies abortion. I did experiment with some drugs just to be able to numb the pain. I was going off the edge but I started going to church and that's when I was able to stop the self-destruction."

"There are no unwanted children. I have many friends that would love to adopt a child and have told me that they are willing to pay \$10,000.00 but they can't find any babies because they are being aborted so quickly. The babies are innocent. The babies are wanted. It is a lie that aborted babies are unwanted - there are many people that want these babies. We say that how could Hitler have killed all the Jews when we are doing worse here. Who knows what kind of illnesses develop because of abortion. Women are not being informed and they must be informed of the deadly consequences of abortion."

"I have read the above and foregoing statement and the same is true and correct."

- 1) Tell when and where your abortion occurred: 1983 or 1984 I had my first abortion at Southmore Abortion Clinic in Pasadena, Tx. Again in 1985 at Pasadena Bayshore Hospital in Pasadena, Tx
 - 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: All I knew is I wouldn't have a baby. The seriousness of taking an unborn life, that I was murdering what God Almighty blessed me to have never occurred to me at such a young age and as immature as I was then.
 - 3) Were you adequately informed of the consequences of abortion? No, or I'd certainly not done it had I'd known I'd have to learn how to live with this guilt and to forgive myself. To have to live with the knowledge of what I've done is unbearable.
 - 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No, I was not informed of any link between abortion and breast cancer that I recall. No I don't have it.
 - 5) Did anyone pressure you into having an abortion? If so, who? Yes, my mother, my ex-husband.
- 6) How has your abortion affected you? I don't like to remember what I've done. To remember is to grieve the loss of my children. To have to accept the fact I had no right to play God and take a human life.
 - 7) How has your abortion affected others in your life? My 2nd abortion I'm sure affected the father as it would have been a child out of wedlock and I gave him no choice, I simply acted on my mother's insistence of having an abortion.
 - 8) Based on your own experiences, what would you tell a woman considering an abortion? Please reconsider, there are so many couples unable to have children. That adoption is a much better option. Give life, don't take it. That whatever the circumstance it's not so horrible that an unborn child should suffer the consequences of our carelessness or from the hand of others.
 - 9) Based on your own experience, what would you tell a court that believes abortion should be legal? It is a very traumatic experience that I feel no human being in their right mind is prepared to handle. Only the unknown leaves such dramatic after effects that one must live with 'til they die unknowingly 'til they've had this horrid experience.

BEFORE ME, the undersigned authority, on this day personally appeared AVA FULMER, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

"In the summer of 1972, I was very sick with, what I thought, was a chronic stomach virus. I never imagined after running several tests the doctor would tell me I was pregnant at 14 years, a freshman in high school."

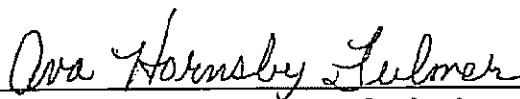

"My parents were devastated. My dad gave me two choices: one, to get out of the house or get an abortion. After giving me an ultimatum, he made my decision and took me to the hospital to have an abortion. I was too far along so they had to induce labor. I remember being very afraid. The nurses were so mean and cruel to me. They induced labor which caused me to have a lot of pain. They didn't explain anything to me. They just hooked me up to an I.V. and waited until I passed the baby."

"I remember one of the nurses saying it was twins. I started crying and the nurse kept saying, "You should have thought about that before you got pregnant." To my surprise, I was very depressed afterwards. The babies would have been born in January of 1973. I got depressed all over again knowing they would have been born. I fought feelings of guilt for years after the abortion. In the latter part of my senior year, the depression and guilt I was experiencing led me to one day attempt to commit suicide. I praise God I wasn't successful."

"I would not advise anyone to go through an abortion. It wasn't until I gave my life over to the Lord totally that I was able to completely heal from that experience."

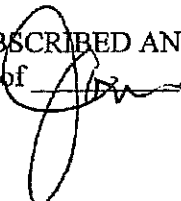

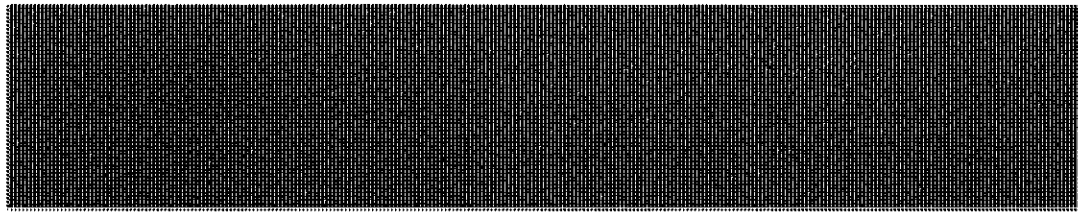

I have read the above and foregoing statement and the same is true and correct."

BEFORE ME, the undersigned authority, on this day personally appeared AMY E. GARRISON, who, being by me duly sworn, upon oath, stated the following facts:

"My name is Amy E. Garrison and I am over the age of eighteen years and of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

"I have had two abortions. In the fall of 1987 I had been dating a boy for about a year and a half and believed that he was the man that I was going to marry. I was eighteen years old at the time taking birth control pills. Even though I was taking the birth control pills I still became pregnant. My boyfriend was enraged and basically beat me the day that I told him. I also told my mother and seeing the hurt that it caused her, because of my closeness and deep love for my mother I decided that lying to her to protect her from the hurt was better than the truth and told her that I was only kidding and that I wasn't pregnant. My boyfriend and I decided that I would go to a women's clinic that was referred to me by my family doctor. My parents had medical coverage for me and I was able to get the abortion covered by the insurance without my parents' knowledge."

"The woman at the clinic confirmed my pregnancy. She told me that they would be able to schedule an abortion. There was never any discussion of any other options and there wasn't much description of what the procedure would be. In fact, they told me because I was taking birth control pills and with the abuse from my boyfriend, I probably wouldn't carry the baby. Just that they would do it and that would be it. They did tell me that I would have some spotting and cramping for the next couple of days but then I would be back to normal. A couple of days later, my boyfriend dropped me off at the clinic and he went back to work."

"They took me into a room and they gave me medication to relax and I laid down on the table. They began the procedure. I remember the sounds – a huge vacuum. They were very scary. I remember it hurting. I felt tugging and scraping. When the procedure was over I went into a recovery type room. I rested for a while. My boyfriend came and picked me up and took me to his home which was far out in the country and left me there for three days with no food and no transportation. That was the worst time for me. I was alone and hurting. I thought about what if I would have complications, what would I do?"

"After approximately one month, I moved to California. In California, I got mixed up with the wrong crowd and almost one year to the date I was pregnant again. I went to a California clinic and once again was given my only option of abortion. This time it was

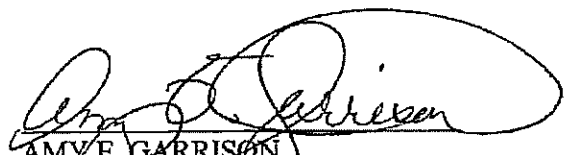

in a California teaching hospital. This abortion was paid for by Medi-Cal which is state aid. This procedure was different in that I was put to sleep by an anesthesiologist so the procedure was done while I was asleep. In ways this was much worse for me because I went to sleep pregnant and woke up not pregnant. The feeling inside me was overwhelmingly empty. The recovery was about the same as the previous with cramping and spotting."

"A year after this abortion I recommitted my life to the Lord and met my future husband. Once again I ended up pregnant but it was during our engagement period. Because of our closeness with the Lord and our families abortion was not an option this time. We kept our wedding date and were married when I was four and a half months pregnant. This child has been one of the most incredible blessings in our lives. About a year after she was born we decided to expand our family. After several years of trying with no success we discovered that we were suffering from secondary infertility. It was at this point that I felt the long-term effects of abortion. I felt like I was being punished and was only able to get pregnant when I "sinned". This was probably the most painful time in my life. So after five years of this struggle and many methods of infertility treatments we were given an incredible gift from the Lord through adoption. Our second child was given the gift of life from her birth mother and has blessed our lives in immeasurable ways. The birth mother shared with me that her option of adopting out her child hurt much less than her own choice of abortion."

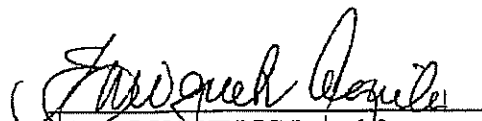

"I really feel that if someone would have informed me of other options and made it easy for me to do that I have chosen to give my children up for adoption and bless a family in the way that I have been blessed by adopting a child."

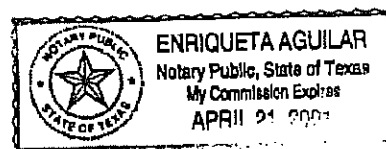

"Based on my experience I believe that abortion is physically and mentally harmful to women and that it should not be a legal option."

"I have read the above and foregoing statement and the same is true and correct."

in response to question how I would council for an informed decision on abortion. I had an abortion as a senior in high school in 1971/1972 My mother took me to Washington DC.. (was legal in DC before Roe Vs Wade) I do not remember the date or the hospital. I wanted to forget (common reaction to traumatic experience). I had no guilt over procedure at the time as I believed what I was told, that the fetus was only tissue. I was embarrassed and ashamed but not quilty. My mind ,intellect did not know the truth as my heart did. Society, even my own mother, did not council me correctly. Ignorance does not change fact. Disbelief does not change fact. The fact is that my first child was not allowed to develop, was rejected by his or her own mother, was killed in a gruesome, painful manner. I was responsible for this and will never be able to change this fact. I will live with this knowledge every day of my life.

I was lucky in that I was able to conceive again at a time when it was more "convenient". However, both my children were born prematurely (one 3 weeks , the other 4 weeks) and had to spent their first days in neonatal intensive care. Both are prone to allergies and upper respiratory problems, possibly due to compromised lung capacity at birth. Research has now found an added risk for breast cancer to young women who abort early thus interrupting the natural process of milk production.

Women must be told all the risks, physical as well as mental, spiritual before they can possibly make any decisions and a young woman in a crisis situation does not think clearly. A teen is not mature enough to make this decision on her own. In reality, abortion is never a right decision. Abortion is the taking of another's life. It is murder. I cannot "do away" with my born children, no matter how inconvenient I may see their care or if I feel they cause a hazard to my life. The same is true of the child in the womb. Society has made a huge mistake and is responsible for great deception and the lives of millions.

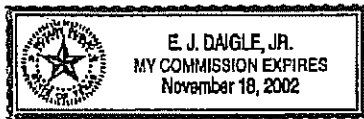

How I wish I had been told the truth, someone had said no, it is wrong, don't do it.

I have read the above and foregoing statement and the same is true and correct."

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

In the October of 1997, I had an abortion at the Women's Choice Clinic on San Pedro Avenue in San Antonio, Texas. At that time, I was fifteen years old.

I was popular at the high school I was attending. The school counselor and I were close friends. I confided in her that I was pregnant, and she advised me the best thing to do would be to have an abortion. She told me if I continued with my pregnancy I would probably be kicked out of the dance team and my life would be complicated with a child. We talked about this almost every day and she finally made an appointment for me with an abortion clinic. I did not go to the appointment. She then continued to talk to me about how hard it would be and scheduled another appointment for me. I went to the appointment and had the abortion done. I realize now that the school counselor pressured me into having the abortion because I was happy with the news that I was pregnant. My boyfriend was happy, too. Of course, at the age of fifteen and not having confided in anyone else for advise except her, I definitely feel that she coerced me into having the abortion. I was too vulnerable at that time.

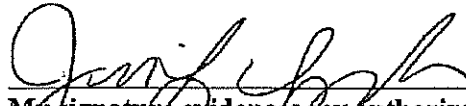

I felt very bad after the abortion and my life went downhill. I have battled with depression since then. I have been hospitalized twice for it and have not been able to overcome it. It hurts me to see children of the age that my child would be. Yearly in October I get very depressed thinking it's my baby's birthday.

If I had the opportunity to advise a woman considering abortion I would tell her not to do it. She will have to carry scars and emotional pain for the rest of her life. I would tell her to consider adoption. I believe giving a child up for adoption is the most unselfish act a mother could do.

Abortion is very painful, physically and emotionally. I don't think anyone should be able to have abortion.

I have read the above and foregoing statement and the same is true and correct."

No If not, explain: The procedure was explained as 1) painless (I paid extra for drugs); 2) quick & easy recuperation. Number 1, not painless, I felt the pain & pulling of the "extraction." Number 2, physical recuperation okay, but mental recuperation - years, decades. The memory is vivid.
- 3) Were you adequately informed of the consequences of abortion? No, they said the consequences were 1) immediate solution and 2) quick absolution of an unplanned pregnancy.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? Yes If so, who? Planned Parenthood and the clinic they sent me to. My parents were told of our plan... their silence was our consent.
- 6) How has your abortion affected you? For many years I never spoke of the incident, embarrassed, ashamed. In fact, for awhile I successfully blocked it out. Once I started having children, I kept wanting to be pregnant again & again to somehow make up for it. Spring 1993 I went to the hospital close to a nervous breakdown, started medications. In 1994 I joined grief-abortion-survival-recovery group, eventually finding healing.
- 7) How has your abortion affected others in your life? My husband of 20 years was the father cont. of our lost, aborted child. His grief is private and deep - almost never discussed. My parents still have regret. And even close friends don't know how to respond.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? "You have time." There is time to make a good decision. There is time to ask for advice and counsel. There is time to check out all the options. "You have time."
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Our nation has addressed the effects of slavery for over 100 years. Look at the effects of abortion under a similar scrutiny. This "medical solution" has caused a revolution of brokenness in generations of my family. I am only one - it has affected our nation - no doubt.

In May of 1999, there was finally a day when I could say, "I am personally, mentally and spiritually healed." I am able to talk about it, only if asked to; however, even now, 21 years later, I still flinch with an aching heart at abortion comments.

Before me, the undersigned authority, on this day personally appeared Robin Houghton, (Print Name) who, being by me duly sworn, upon oath, stated the following facts:

[REDACTED]

I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

My name is Robin Houghton and I am 39 years old. When I was in Middle school my parents divorced. That was a very hard time in my life and I guess that is where I started with my depression. All though at the time it wasn't something that I thought of as something wrong with me, just something wrong with everyone else. When I was nine years old I was molested by a distant family member, but I had put that out of my mind for a very long time and always just thought that it had been something that I had just imagined. After some counseling I realized that it had happened and was able to finally work through it.

During the time of the divorce my sister and Father and I all lived with my Grandmother and Grandfather for awhile. It was ok until I began to realize that both of my parents were dating other people. I did not enjoy them at all. As time went on they both remarried. I was not happy but I had not been happy for along time and there probably wouldn't have been anything that either of them could have done to change that. We moved in with my Father's new wife and family. I had always had alot of attention when I was younger and all that was gone now. I craved that attention again and since I was so depressed all the time I did what ever I could to gain that attention back again. I acted out as much as I could. I looked for ways of getting someone to love me. By the time I got into High School I had started dating anyone I could find. I finally found someone whom I thought loved me for me. We dated for a long time. There was a major problem, he was african american and I was white. In my community at the time that was unhard of in the early 80's. I dealt with family, friends and even the KKK. I had been followed by the klan and told to go home on a few occasions, tires slashed, etc. I tried at times to break away but just couldn't, I even ran away with him at one time.

I graduated High School and went to Houston to a business school, hoping that that would make me get some attention again. It was just an easy way to do what I wanted. I came back home at Christmas that year and met up with that old guy. He and I spent some time together and I returned to school. After a month or so I realized I was pregnant. I got kicked out of school and had to move home. I knew that abortion was wrong or that is what I had always been taught, not knowing the whole truth behind abortion. I at the time didn't plan on having one. I had so much conflicting advise I didn't know what to do. I finally talked to the guy and he demanded that I get rid of it. I was very hurt. My family wanted me to go to San Antonio to a home for unwed mothers. We talked and for a few short days that seemed like a good idea. Then it started, I had to do this or I had to do that. Then it was just think of what you are putting your sisters and brothers through. Also think of what we are all having to deal with, in a small community. I began to think that if I left that I would never be aloud to come back home. I thought of that idea as a plan to get rid of me for good. That was the scariest thought of my life to be sent away. It was like a choice that I hadn't made anymore but a choice that the whole community had made for me. I began to panic and my depression really took over. I had to stop this now before I was gone for good. The only other choice that I could see was an abortion. I felt like there was no other way out.

I thought it would just be an easy procedure and it would all be over and I could move on and be happy to start over again. The appointment was made and I went in early one cold morning. The clinic was just a plain brick building nothing special but somewhat secretive. There was a very large waiting room as you walked in. I checked in and they did a pregnancy test while I waited. After awhile I was called back with about five other women into a smaller waiting room. A lady came in and gave all of us the results of the tests. After that we were all taken into a very small room to have the procedure explained to us. That was a little hard but we were told that it would all be over soon and it wouldn't hurt very much at all. No counseling at all. We then all went into a large waiting area with lamps and a tv. It was quiet and a little dark. I was then called back into an exam room. A nurse gave me a shot to make me a little drozzy so it wouldn't hurt as much. That made me very sick. The room was like most Doctor's exam room except a canister vacuum looking device in the corner of the room covered with a very nice had knit doelly on top. The Doctor came in and told me to relax and the nurse held my hand as he turned on that vacuum and went to work. It was loud and very scary, I began to cry. It hurt very bad, I felt like my insides were being ripped out. The pain was as if I was being torchured. It was over in a matter of minutes but it was as if time stood still. The Doctor finished and moved on to the next lady. The nurse told me to dress and go across the hall to the next room where I was to lye down on a cot to rest before I could leave.

2. I wasn't even scheduled for a follow-up appointment.
5. Struggled with low self esteem and feelings of worthlessness.
7. I would also tell her of the health risks involved.
8. In the case of rape or incest, abortion will just inflict more harm and trauma to the girl or woman. And if she simply doesn't want to be a mother yet there are so many couples out there who would love that baby.

Life is precious and we should always view it as such. And if the child is less than healthy with health problems who are we to say that child shouldn't live.

What about protecting all individual rights. The unborn have rights as well, or at least they should.

My testimony:

I was a sophomore at a university in Mississippi when I became pregnant. My boyfriend was the first person with whom I had been sexually intimate. This was probably in 1984. I say "probably" because so much of it is a blur to me. I remember going to a facility in a neighboring city to have a pregnancy test done. Looking back, it may have been a Planned Parenthood clinic. The test came back a strong positive. I remember the lady saying that sometimes the results were weak and inconclusive, but that mine were definitely showing pregnancy. I remember I was gripped by fear. My biggest fear was facing my parents and disappointing them. I knew I would do anything to prevent them from finding out that I was pregnant and that their daughter wasn't so perfect after all.

I told my boyfriend that we were pregnant and we made a decision to terminate the pregnancy. We drove to Mobile, Alabama to a facility. I think I found it in the Yellow Pages. I don't remember hardly anything about the place, but I do remember signing in under a false name. I remember the sense that what I was doing was wrong, very wrong. On the table with my feet spread in stirrups, I remember that when I cried out from the pain of the procedure, the doctor barked at me that I was being a baby. I was crying. I had made a decision to prevent having to face my parents, to prevent me from having to feel shame before them, and yet, I didn't realize I had made a decision that would end up bringing me *decades* of shame and pain. I had bought into a lie. I had bought into a convenient solution and thought I'd simply be able to forget and put it behind me, but I never did, and in many ways, I never will. I remember being curled up in a fetal position on the drive home. There was no going back. It was done. It was over (or so I thought).

For twenty years, I kept the abortion a secret. I came to Christ about five years later, at 24, and knew I was forgiven of the sin and was so grateful for the unmerited grace extended to me by Jesus. I vowed I would never repeat such an act and I never have. I mourned the baby and believe it was a boy. I prayed for him and released him to the Lord. I know this innocent, precious one is with his maker and that I'll meet him someday.

In the fall of 2002, my husband and I miscarried, and I revealed to him about the abortion that had occurred when I was in my late teens. I was so humiliated to have to reveal such a thing to him. It took all the courage I could muster to tell him. I have come to realize this past year that Satan has used shame and my prideful desire to want to be viewed in a certain light, to keep me in bondage. I am breaking his power over me, no matter what it ends up meaning to my reputation. I contacted my college boyfriend after all these years and we openly talked about the abortion. It was very healing for me, as we both confessed it had been a wrong decision. Slowly, I have begun to share my story with my closest friends and have been received with amazing grace and love.

I now know that through my silence, I have stood by and endorsed the shedding of innocent blood in our nation and around the world. I wear a red "LIFE" bracelet as an outward demonstration that I stand against abortion. By submitting this affidavit testimony, I am making myself available to the Lord, to be used however He sees fit, no matter what that entails. I can be silent no more.

Answers to other questions:

No, I do not remember being adequately informed about the abortion, its consequences, how it terminates a pregnancy, nor do I remember being recommended options -- only the "easy" way out.

No, I was not informed about the link between abortion and breast cancer. No, I have never had breast cancer.

No, I was not pressured into having the abortion. While my boyfriend made the decision with me, I do not hold him responsible. I could have chosen LIFE and did not.

I would tell a woman considering an abortion that the after-effects of killing your child are with you long after the procedure. I would share my testimony with her and tell her it's simply not worth the regret she'll feel the rest of her life.

I would tell the judicial system that abortion violates human rights -- those of the baby who cannot speak for itself. I would tell the court that abortion tears away at the sanctity of life and that its effects bleed over onto our society across all levels. I don't know how much they would understand it, but I would tell them that there will be a day of reckoning! Father will avenge the blood that has been shed. We can stand with Him or against Him. As for me, I stand for LIFE.

Before me, the undersigned authority, on this day personally appeared CELIA G. MORROW, (Print Name) who, being by me duly sworn, upon oath, stated the following facts:

My name is Kathie Lynn Jones (Print Name). I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

My story begins May 5, 1978. It is 3 days before my 19th birthday. I'm in my freshman year of college, recently engaged to be married & 2 months pregnant. Instead of going to class, I'm on my way to an abortion clinic. The nurse at the college health clinic suggested it, my fiance demanded it & I was too scared to question it. Roe vs. Wade was a fairly new law. There was nobody protesting or handing out literature about the alternatives or consequences as we entered the clinic. I wouldn't fully realize the consequences of my decision until many years later.

At the clinic, they asked my age & my name, but didn't ask for any I.D. to confirm either. They introduced me to a counselor who asked if I was sure about my decision. She briefly explained about the procedure & what to expect afterwards. She spoke of the physical effects, the discomfort I might feel. She ~~spoke~~ never spoke of the emotional effects I might experience. She never mentioned that the life growing inside of me had its own heartbeat.

I went back out front to wait my turn with the others. Only a few of us were over 18. Several had been there before, abortion was their form of birth control.

After a long & scary wait, I was taken back to begin the "procedure". I was given a very painful shot & told to relax as the doctor turned on a machine. After several minutes, he told me he was sorry but he was unable to perform the abortion. He said it would be better for me to come back in a couple of weeks, when I was further along. As the nurse took me to a room to rest, she told me the next time I came a "better" doctor would probably be there.

I never went back. A week later my mom had to take me to the emergency room, I was having a miscarriage. Up until then, my parents didn't know I was pregnant.

They say abortion stops a beating heart, it also breaks countless others. I remember the pain in my father's eyes when I woke up in my hospital room. I remember feeling so sad & so ashamed. I felt that way for a long time. I never discussed my experience with anybody, I just wanted to forget all about it.

My fiancée & I got married that summer, but we were later divorced. I remarried & began attending church with my husband. I enjoyed the pastor's sermons, all except the one's he gave on Sanctity of Life Sunday. Sometimes I sat in my pew, silently crying. Other times I couldn't stand the pain I felt in my heart, so I would just leave. After many years of bearing the shame & depression of what I'd done, I went to speak with my pastor. I was so afraid of what he or others would think of me - I had committed such a horrible sin. He asked me one simple question; "Hattie, have you asked God to forgive you?" I told him yes. He said "Then forgive yourself."

The world says that abortion is a simple, safe procedure, with no lasting side effects. That's a lie. In every 100

abortion a child dies & the life of the mother is changed forever.

Jesus tells us in John 10:10 -

Before me, the undersigned authority, on this day personally appeared VERONICA ANGELA JUST, who, being by me duly sworn, upon oath, stated the following facts:

My name is VERONICA ANGELA JUST. [REDACTED]

[REDACTED] I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

“When I was 18 years old I find out I was pregnant. I was not raped but I was coerced into having sex with a man older than I. This happened around Thanksgiving 1987. I did not have any kind of relationship with this man. One month later I found out I was pregnant. My family were prominent church members and I did not want my family to be embarrassed so I figured the best thing to do is to have the abortion. For the whole month of December I kept thinking about this and having doubts. Finally in January 1988, I started calling clinics that were listed in the Yellow Pages and asked for prices. I found the least expensive, A Woman’s Choice, on San Pedro. I called and they informed me that no appointment was needed but to get there early because by 9:00 a.m. there would be a long wait and they stopped doing abortions at 1:00 p.m. They also told me I would need someone to drive me because I probably would be very tired. I asked the person that answered the phone if it would hurt and she said no but that was a lie. By this point, I was in tears and I told her that I felt like I didn’t have any choices and she said you probably don’t.”

“So I made plans for a friend to pick me up and told my mom I was going to a choir function. I did not go to anyone for help. I was too embarrassed. We made plans for Saturday morning. She picked me up around 6:30 a.m. or it might have been 7:00 a.m. My friend stayed with me. By the time we got there at 7:30 a.m. there were already twenty to forty people in line. They drew blood and for the most I remember just crying and being very upset. The lady at the clinic kept saying, “Don’t worry, it won’t hurt. It’ll be a part of your life that will soon be over with so don’t worry.” I remember waiting in the reception area and seeing there was another woman there that already had three children but did not want anymore. There was a couple that looked a lot younger than I and there were a lot of different people there.”

“They called my name and took me to a back room and showed me on a chart what they were going to do. The chart had a picture of a uterus. With a pointer she showed me and she spoke, “We’re going to up through here, we will scrape, and suction. Then we’ll be done – it’ll take less than five minutes.” She told me that there would be no pain maybe some menstrual cramping. I was then told to go back to the waiting room. I remember telling the front desk clerk, I don’t think I can do this. The clerk said well you already paid for it as if to say there were no refunds. I said OK and just sat back down waiting for my turn. They had charged me \$100.00 and I was able to get the \$100.00 because my father always gave all of us \$100.00 cash for Christmas so I saved my money for the abortion.”

Please return to: Texas Justice Foundation, 8122 Datapoint, Suite 812, San Antonio, TX 78229

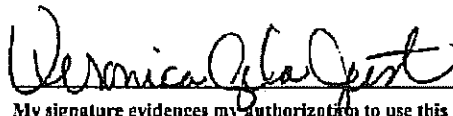

They called me and I went back. They told me to undress from the waist down and told me to get on the table. There were two nurses with the doctor. One nurse with at my head soothing me and the other nurse was assisting the doctor. I could hear the machine. The nurse instructed me to face the wall. I can't remember if the doctor said anything to me. I remember the procedure being very, very, very painful. I remember crying and I kept saying I'm sorry, I'm sorry. The doctor finished and they told me to get dressed. The nurse helped me clean up. I went into another room with cots and laid down. They gave me orange juice and crackers. They told me to go home and rest. They told me I would have bleeding and that I would need a certain amount of Kotex. They told me not to take a bath, not to have sex, and don't go swimming. I then went home. At home I was doing a lot of sleeping. I told my mom I had a really bad period and wasn't feeling well. I was cramping real bad that day and the next day. I felt very ashamed. I couldn't look at my dad or anyone else for that matter the feeling of shame was overwhelming. I kept wondering for a long time if God was going to punish me and I expected him to do so. I was not informed that I could get scarring in my uterus but I later found out that this could happen and I expected not to be able to have any children but I have two beautiful children."

"If I had to do it all over – I would hope I wouldn't do the same thing but it was too easy. No one asked my age, no one asked me for identification, no one asked if I had thought about adoption. I believe that if an adult would have sat me down and counseled me with the truth or offered their help and told me that there is an alternative, I would have chosen the alternative. It has only been through Christ's love that I have been able to forgive myself."

"I had two abortions; my first when I was fifteen in 1975 and my second when I was eighteen in 1977. My unborn children are in heaven and with my Lord. Peter is the son from my first abortion and Imane is the daughter from my second abortion."

"Abortion is a silent killer and it kills more than just the children. The children don't cry, you can't talk to anyone about it, and no one tells you that your life will ever be the same."

"I didn't know until recently how much abortion affected me. I knew the immediate loss of Peter, I cried and prayed to God to forgive me. I then became anesthetized. If I could kill my child, how much value was my own life? I became promiscuous, rebellious and suicidal. Only God knows how often He saved me from self-destruction because most of my teen life was spent in an alcoholic and drug daze. There is an untold trail of lives that I hurt beside my own, my parents, my friends, my brothers and sister and others I can't even remember. But then I took another life, Imane. If Peter didn't matter than why should I have Imane? Oh, but they both mattered then and do matter now."

"No one ever told me how the procedures worked. No one told me that when they stuck the needle in my stomach that they were going into my child's body and that he would feel pain – such great pain. No one told me what labor was and that I would actually deliver a child. No one told me with Imane that they would be breaking her up and sucking her out in pieces."

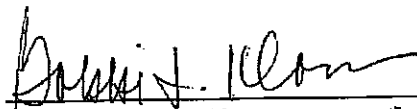

"If abortion should be a woman's choice, why don't they give us the information to make informed decisions? Why is everything hidden? Why don't they tell you how the procedure actually occurs? Why aren't records kept on how many children are killed? Why aren't records kept on how many women die on the abortion table? Why aren't records kept on how many women can no longer bear children? Why don't pro-abortionists tell us how we have to hide our head in shame? Why isn't there counseling

to assist women after they kill an innocent child. No one talks – if abortion is all right, approved by government – why does no one talk?”

“I now want to talk on behalf of Peter and Imane. Abortion is not the answer - loving our children is the answer. As parents, loving our children is to teach them right from wrong in a society where “safe alternatives” are provided. Instead of teaching the use of condoms, we should teach abstinence. Counseling and adoption alternatives should be provided for women in traumatic pregnancy situations. Please TALK!”

BEFORE ME, the undersigned authority, on this day personally appeared Carole LaFreniere, who being by me duly sworn, upon oath, stated the following facts:
"I am over the age eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

In 1973, I was 15, pregnant and scared. I was terrified of my friends and family finding out so I ran away from home to California where I had an abortion. Nobody at the clinic offered suggestions or offered any options. I didn't know that there were people who would have helped me. I felt trapped and scared and just wanted a way out of my problems. I made the decision to have an abortion without any real knowledge of what I was doing.

After the abortion, I felt so alone, ashamed and evil. I cried and cried for the baby I killed. I hated myself and wanted to die. I turned to drugs to kill the pain, and kept myself numb so I wouldn't have to think. I had terrible nightmares and took wild risks with my life.

I became addicted to heroin, and got involved in the lifestyle that goes with it. I tried to kill myself twice. I put myself in dangerous situations because I didn't care what happen to me. I believed that I deserved to suffer. My life became a nightmare. I grew to hate men, I was bitter and angry. I became pregnant again 8 months later and had another abortion. Shortly after the 2nd abortion I was arrested as a run-away and sent home. The courts placed me in a drug treatment center. I never was able to bring myself to admit to my abortions and seek counseling for the guilt and anger. But I did manage to turn my life around and finish high school and start college.

I became a supporter of the right to choose. I supported abortion on demand, recommended it to friends, voted for it, but never mentioned mine. In my heart, every time somebody choose abortion or backed it, I felt vindicated. If everyone was doing it, then I wasn't a monster. I never could bring myself tell anyone what I did. I kept my silence for over 22 years. I married, had two children, yet I couldn't tell anyone. My past crippled my ability to be a good mother. I was emotionally distant from my daughters. I suffered from depression and had big time trust issues with my husband.

Abortion cost me more than I ever dreamed was possible to pay. Abortion hurt me, my living children and my husband. It drove a wedge in my relationship with my parents. It kept me from God and forgiveness

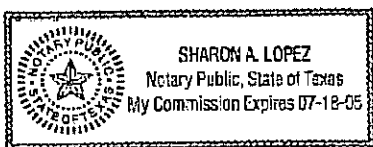

After 30 years, I still cry for the children I killed, I still struggle with issues of forgiveness and guilt. I don't want anyone else to feel the way I have. I was too young to make such a decision without knowing the cost or all the facts. I needed someone who cared about me, not about making a profit. With all the things I have done in my life, I am the most ashamed and sorry for my abortions. The other things I did to myself, but the abortions I did to my children. Abortion destroys women.

1) Tell approximately when and where your abortion occurred:

April 1996, Ft. Lauderdale Florida

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?

No. I hear some vague details. I heard there was a movie, but was not shown it.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer?

No. No

4) Did anyone pressure you into having an abortion? If so, who?

No

5) How has your abortion affected you?

I feel like a murderer. It affects me daily. I look at the children I have now and AM sad that they will never know their older sibling. I cry about the loss of my child at least once a month, usually more. It's the most horrible thing I've ever done and I often hate myself. I do

6) How has your abortion affected others in your life?

My husband who was the father of our unborn baby, before we married, also grieves. I know it has had a great impact on him too because we have cried together about our baby.

7) Based on your own experiences, what would you tell a woman considering an abortion?

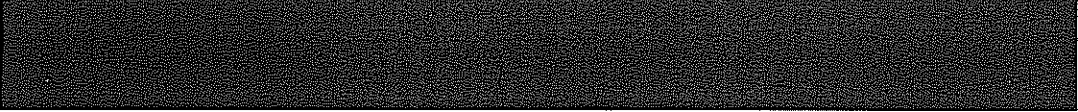

You will hate yourself for the rest of your life. It's murder. I feel like a murderer and you will too. That precious soul will linger around you forever and you will know who it is. It is one thing that you will never forget and always regret. That tiny fetus is a life!

8) Based on your own experience, what would you tell a court that believes abortion should be legal?

I AM a baby that could have been an abortion. My mother was too young to care for me and gave me up for adoption. She was strong and did the noble thing. I was weak and afraid. I AM now a murderer running around free. My baby's soul follows me everywhere and I hate that I cant hold her and watch her grow up.

My Story:

My story is short, I am sure there are far worse cases than mine but the outcome is the same... an unborn baby due to legal murder.

I was eighteen years old and in a relationship I should have not been in. My boyfriend suggested that I take a pregnancy test because he noticed that my period was late. I thought he was silly. I took one secretly and it came up negative so I agreed to take one with him but the results differed. I could not believe it! I took three more, all positive. He was so excited, his mom practically bronzed the test stick and the family began to rejoice. I pretended to be happy and excited, talking about shopping for baby clothes and nursery items but the whole time I knew desperately that this could not come to pass. I tried every natural remedy to "accidentally" lose the baby, I jump roped -my-legs-out hoping that would do something but it didn't. I remember sitting on my bed crying out, all alone, "there is nothing I can do but the unthinkable". I had been pro-life for as long as I can remember. I declared at a very young age I would never get an abortion, never, no matter what. But here I was, turning in the yellow pages to the front where the abortion pages were in abundance. I came from a very loving family, high-class, with a good background, and if I had decided to carry the baby they would have loved me anyway but *I never told them*. I was a good girl; I never wanted to disappoint my family. In addition to all of that I was a prominent social representative. I had given many motivational speeches all over the United States. If I was found pregnant I would have to step down. I could not bare the shame for myself or the shame for my family so I choose instead the shame that I could hide on the inside. I had an abortion and entangled myself in lies to my family, boyfriend and his family. But nobody found out, unfortunately. I say unfortunately because if someone had found out, especially from my family, even just one person then I may have not done it the second time. My boyfriend thought I was mourning over a miscarriage. I think he somehow thought that if he secretly got me pregnant again then it would make me feel better. I was trying to act normal with him even though I wanted to leave; I wanted to stop having sex. I was secretly taking birth control the second time I got pregnant and I was on my period the first time so we can carefully say that the two common methods of safe sex were not working for me, that must make me like ½ percent of women. But either way, the second time my friends (the 2 I had) abandoned me in my desperate state and I had to go in the clinic by myself and drive myself home. I used alias names the whole time to try to protect any identity I have had.

After that I was the only one that knew. I saw my friends on campus and I told them I miscarried. I told a couple of people later because when you have taken desperate measures like that you want to talk to someone but nothing helped. I had nightmares night after night, I would wake up screaming and my mom and dad would rush in to hold me but they didn't know how to comfort me because they didn't know the severity of my heart. I just pretended to be better, a lie. When a person has cornered themselves into a house of lies then you live alone. Alone. Alone.

Thank God, for grace! One year later (after the 2nd one) I dedicated my life to Jesus. Praise the Lord for the woman who prayed with me first in the alters. She laid her hand gently on my stomach and embraced me. My healing began there and continued. Now I am healed, free of guilt, free of shame but I have a voice. I did not want to write this story but God said it was the least I could do for all the other women that He has called to stand in public. I will stand with you in testimony and prayer. May the sanctity of life prevail and may we, as a nation, turn from the lie that was sent forth years ago that abortion is not murder, it is.

To the courts: Please hear our plea and stand for something refreshingly new. Life!

Thank You. A.L.

THE STATE OF Texas

COUNTY OF Dallas

Before me, the undersigned authority, on this day personally appeared Marie Moner Lowry, (Print Name) who, being by me duly sworn, upon oath, stated the following facts:

My name is Marie Moner Lowry (Print Name).

_____. I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

On September 28, 1985, I had an abortion. I terminated my pregnancy in the eighth week. Writing this is difficult because the pain of it is still so raw, it is an ache in my heart that will not ever be healed. I did not want to have an abortion. I wanted my boyfriend to accompany me while I told my parents, but he refused. He wanted me to have an abortion. Being a coward, and a very frightened eighteen-year-old, I complied. I will never forget the experience, all the little post-its thanking the staff for making the procedure as "smooth as butter." I was never told it was a baby, I was told it was a choice. During my counseling session, the counselor told me how the government was trying to take my choice about what happens to my body away from me. She elicited funds to keep abortion legal. The counseling session was more about politics than about what was going on with me. I gave my choice away when I had premarital sex. My baby was not a choice, he or she was a person. I remember while I was in the waiting room, a Mexican woman who was in this country illegally and who was visibly showing told me she had to get an abortion or her boss would fire her. When my "turn" finally came, I just remember freezing up, I went on automatic and afterwards I just felt so alone and sick and crazy. I don't think I even cried, in fact, it was years before I could cry again. My boyfriend and I got married. I sometimes hated him and I really hated myself for being such a coward. I could not even fully face what I had done. In order to cope, I became disconnected from my emotions when I murdered my baby. It was not a good marriage and I truly believe that if I had proceeded with the pregnancy, I would have never married him. My first daughter was born when we had been married a year. I thought having another baby would make it better, but the emptiness remained. After giving birth to my second daughter, I got pregnant while I was nursing her. My husband wanted me to abort the coming child because he could not handle another baby. I refused and he made it very difficult for me during that pregnancy. I have often wondered how many women are pressured into abortions? I believe there are many who are coerced. Abortion is a tool for those who seek to escape responsibility from their actions at any cost, even murder. Many men do not care about their babies or about the women who will never stop grieving for their murdered babies. The second time I was pressured to have an abortion, I refused. I knew the cost was too high, I knew that a baby was growing inside of me, not a choice. I was blessed to give birth to a precious baby boy. My marriage ended, my ex-husband never forgave me for "forcing" him to have a child he did not want. I have never regretted my choice to refuse to be coerced and thereby bringing my son into this world. They are my blessings. My daughter Jill is 17, Kaitlyn is 14, and Alex is 12. I thank my Lord for them every day. They are all incredibly good kids who love the Lord and care deeply for others. Through Jesus Christ, I have been able to forgive myself. However, I will always miss the precious little one I never got to meet. How I wish that abortion had never been an option! With three kids to support, I went on to finish college. What nonsense that a baby destroys anyone's future. How I wish I had chosen to give my baby up for adoption, pressure from my then boyfriend, my shame and fear of my parents reaction kept me from making that choice. I believe that if there had been no easy way out, I would have so gladly chosen life for my baby. Abortion is an evil thing that never goes away, there is nothing buttery about it. It is a painful, soul-tearing, life-altering decision that haunts you forever. I have remarried and my husband loves my children deeply and has adopted them. I have learned there is no situation that a Lord cannot turn to good. I would love to adopt any baby, ethnicity nor race would not be

an issue. There are many couples desperately seeking to adopt and there are not enough babies up for adoption. Please choose life, not only for the millions of babies who are murdered each year, but for their mothers.

AFFIDAVIT

To be filled out by women who have had an abortion.

The State of Texas

County of Bexar

BEFORE ME, the undersigned authority, on this day personally appeared Cathy L. Martinez, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) **Tell when and where your abortion occurred:** October, 1984; at a clinic on Broadway in San Antonio, Texas.

- 2) **Were you adequately informed of the nature of abortion, what it is, what it does? No. If not, explain.** I was not fully informed as to the reality of the human life within me, that it was truly a baby and what it looked like at that present time. The explanation of the procedure was very simplified and very toned down to what you actually experience. It sounded as if it was a very casual, effortless procedure that would be quickly completed and you would not have a thing to worry about. I was not told that it would be a two-day procedure until they had already began the procedure. Once the procedure was started the first day, I was never told that I could change my mind and stop it before the remainder of the procedure on the second day. There was a lot of physical pain and discomfort the first day. They didn't tell me that I would go through that. I was full of fear of the unknown and the lack of information and understanding of what I was physically experiencing. There was no phone numbers given to me in case I had questions or problems during that 24 hour period before the completion of the procedure. Until the second day, when I was on the table and the remaining part of the operation was underway, did I know that I was 15 weeks pregnant. The sex, male, and age of my baby was verbalized by the doctor to the documenting nurse as if I wasn't even in the room. I believe at that moment reality slammed me like a ton of bricks and it was too late. I began to cry and be very upset and the nurse only quieted me down and said to be still, that it was almost over. No compassion or inclination to stop what was happening. In most instances when you are being treated by a doctor, especially when you are undergoing a serious medical procedure, your comfort, your healing, your peace during the procedure, your full understanding of what you are undergoing is the concern of the doctor and nurses. That is quite the opposite when I underwent the abortion. It was aloof, detached and insensitive. I felt like I wasn't even acknowledged as a human being but just as part of a medical experiment. No one asked how I felt or if I was okay.

- 3) **Were you adequately informed of the consequences of abortion?** They did not prepare me at all for the emotional and spiritual shock that the abortion would cause me. They did not advise me that there would be any physical, spiritual, or emotional after effects to the procedure. There was no counseling offered prior to the procedure or after. They did not offer me any options or hope for any choice other than the abortion. They told me there would only be a little discomfort like menstrual cramps. That was a big lie. Emotional distress was not even discussed whatsoever. They definitely did not inform me of any future physical complications, like painful monthly cycles, hormonal roller-coasters, or giving premature birth to future children, all of which I have experienced.
- 4) **Were you informed of any link between abortion and breast cancer? No. Have you had breast cancer? No.**
- 5) **Did anyone pressure you into having an abortion? Not directly. If so, who?** The man who I thought was the father would not take responsibility and, as a matter of fact, his parents sent him to work out of town and closed the door on me. The fear of my parents rejecting me and not loving me anymore was the biggest force of all. I had no desire to shame them or hurt them. As a child, I had been raised in the Baptist denomination. Unfortunately, issues like abortion were a taboo subject. I did not trust the pastor of my parents church nor was there an adult in the church that I felt that I could go to. I had already dealt with a lot of judgment and hypocrisy from those in the church as a teenager.
- 6) **How has your abortion affected you?** Once the doctor had verbalized the age and sex of my baby, and reality had rammed me in the gut, I was physically and emotionally cold, helpless, ashamed, dirty, and violated. I wanted nothing more than to jump off that table, hide myself, and run. I always wanted to bathe myself thinking that somehow I could get clean. At that time, I did not have an intimate relationship with Jesus. Initially, I thought God would punish me by never allowing me to have other children. I dreaded the possibility that I would go to hell as the reality that I had committed murder set in. I praise God that I do have four wonderful living sons but I had difficulties carrying the first three. My first son was born when I was only 6-1/2 months pregnant. He was only 2 lbs., 4 oz. when he was born. My twins were born a month early. Although multiple births are known to be difficult, I had contractions from six months till birth. I went through a lot of grief and sorrow during the pregnancies of my living children because again more reality of the loss I had caused by my own ignorant decision. Most mistakes/sins we tend to be able to repent and find forgiveness for quite easily, but with abortion it's so hard to accept God's forgiveness. It's not that you are not sorry for what you have done, you just can't believe that there's anything that God or you can do to change the awful mistake that you have made. Nothing will bring the life of your child back. Until you have truly received the love of Christ, and know that your child is in heaven, and you can see him again, you go through life thinking that you will never see

his face, or count his fingers and toes, or hold him in your arms. When you should be finding joy in the birth of your child, as in the case of my living children, the occasion of a new baby was bittersweet because you experience the tremendous robbery of all the experiences you did not get to have with the child you aborted. In my case, I was already living in a very immoral lifestyle and because I thought so little of myself after the abortion, and I felt so unloved, I had multiple relationships and two broken marriages, trying to find someone who could fill the void in my heart and make the pain go away from what I had done. I don't know that I really understood at that time why I felt so empty and unfulfilled and why I couldn't peace and the love I needed in a relationship. I became very separated from my parents, blaming them that they were the cause of decision. Thinking that if they had loved me more and been the kind of parents I could talk about anything to, that I wouldn't have done what I had done. I never shared with them what I had done so I never gave them the chance to defend themselves. I was very untrusting in relationships. I trusted no man, assuming they would all eventually negate their responsibilities. I always tended to be the one that would take on the financial responsibilities, thinking that I would be abandoned again. I was very hurt by the "friend" who had advised me to get the abortion, who referred me to the clinic she had been to, and even drove me there. She was hesitant to take me herself but gave in when I had no one else to do it. She never told me what I would be getting into and the consequences. Our friendship soon fell away after I realized no true friend would have allowed me to go through what I had. I went "addictive" in some areas which I now realize were just useless ways to try and fill a void. I drank a lot. I had many illicit relationships. I got into money/credit problems. I was always trying to seek approval/affirmation beyond the normal desires in relationships and on jobs, becoming a workaholic. I don't know how anyone could recover from abortion in any way without God. The thought that I was never good enough and always a failure always seemed to reign in my life. I always felt feelings of insecurity and abandonment. A life in Christ has changed all that for me but many women don't have not looked to God for forgiveness and healing for one reason or another. Many, like I did initially, can not believe that God would forgive them for such a horrible act, especially when a person had been raised in a church and religious home.

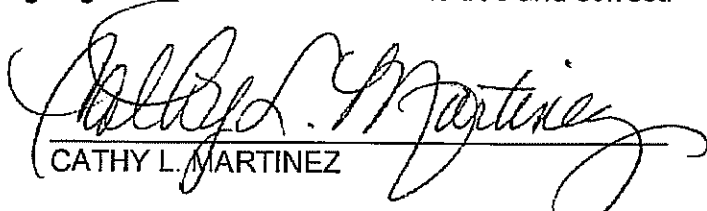

- 7) **How has your abortion affected others in your life?** As I mentioned above, my living sons had a difficult time coming into the world. The first three were born premature. I had a problem with anger in my early relationships so my partners took the brunt of my emotional upheavals. I believe that I used to be very overprotective of my children because I just couldn't bear the thought of anything happening to the ones I was blessed to have. I had a fear that because of what I had done, there was no protection for these, that they would be taken from me somehow. This was at times hard on my children because of the limitations I set on them.

- 8) **Based on your own experiences, what would you tell a woman considering an abortion?** Without a doubt, I would tell her absolutely do NOT have an abortion. It's a choice that you will always regret and never be able to make up for. It will affect you for the rest of your life. She could harm herself physically to the point of not being able to ever bear children, to have permanent physical problems the rest of her life. There are horror stories now of people who are very careless doctors or some who don't even have medical licenses or training performing abortions and causing great physical damage and sometimes death. I would tell her that what is inside her is a living, breathing human being purposed to be born by God and if she did not want or felt she could not raise this baby as her own, then I know someone would be willing to make it their own. I have even offered to take babies as my own if the women would go through with their pregnancies. There are so many foundations and caring people that help pregnant women with the resources they need for their babies. There's no reason a woman should have to submit herself to a human butcher and allow her child to be murdered. That may be harsh but the reality of life must be gotten across to the women. Something which abortionists fail to do, because they are in the death market, not the life market. I try to tell the women that the baby has a God-given right to life. It's mode of conception was not the baby's choice/fault. He didn't choose how he would be conceived or enter this world. We shouldn't take our mistakes out on an innocent child. We should not buy the lies of the world and the abortionists who think they are doing us a favor when they are ultimately destroying our lives and the lives of our children through deception, malpractice, and greed.
- 9) **Based on your own experience, what would you tell a court that believes abortion should be legal?** Very simply, murder is not legal, whether it be of an adult or a child. What's inside of a pregnant woman is a child, no matter the term of gestation. We put people in jail and even pronounce the death sentence on those who take the lives of others. Why is there an exception for killing a child? There are laws against suicide. Abortion is a living death for those women who have experienced it. They walk with the curse of death on them. Most people are put in asylums or psychiatric wards if they do physical harm to themselves yet a woman is allowed to let someone perform an abortion upon her and then expect her to continue a normal life when she has, in fact, undergone great harm, physically and mentally. There are laws against physical/mental abuse and victimization, yet that is what abortion is, and it is legally okay to do so. Abortion causes only anguish and grief. It is an assault of a woman. When a woman is not fully informed of all the details of an abortion prior to being involved and is not given the options to choose from, it is fraud. Abortionists have truly made the dirtied the medical profession. There is no integrity in the field of abortion. Doctors are expected to have malpractice insurance and be responsible for their actions when a person puts their physical welfare into their hands. So many women have been permanently impaired and continue to go through life in pain and torment, physically and emotionally because of the incompetence of abortionists. The present laws make murdering your child easier and cheaper than giving them life. To

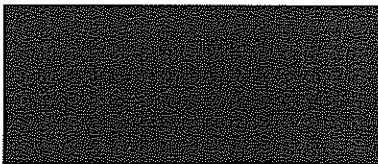

hire someone to kill an adult takes thousands of dollars and great secretive planning, yet for a few hundred you can murder your child on the spot with no appointment necessary. You can take the life of a human being for less than it takes to by a house appliance. We are not God. We have no right to decide who shall live and who shall die. Our creator did not give us that authority. The lies that abortion is a help to anyone is a serious, incredible, horrible deception. Abortion helps no one. It robs the life of all involved in one form or another. It only pads the financial pockets of the abortionists. Abortionists are only legalized assassins. We have the audacity to look in horror at what happened to people in the Holocaust or across the nations where women are treated like chattel or so-called "evil" people sacrifice their children, yet in America we have abortion and it's looked at as an everyday, common occurrence. It's okay for the abortion industry to crush women and the unborn under their feet for the sake of a dollar. It's even okay to allow a woman to take the life of her child and the father, an equal participant in the baby's conception, can do nothing to stop her. How can America continue in self-extinguishing its' people?

The State of
County of

BEFORE ME, the undersigned authority, on this day personally appeared
Mrs. Sydney McKinney, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your abortion occurred:
In Spring 1982

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?
No, they (the clinic) told me that it was no big deal, since it was legal. They said that it would do no harm, and that it (my child who is lost to me) was nothing and meant nothing.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer?
Yes I have heard of the link now, we did not know it then. No I haven't had breast cancer, but a friend of mine who has had multiple abortions many years ago has struggled with it twice.

4) Did anyone pressure you into having an abortion? If so, who?
Yes, my fiancé demanded that I have it, or he would leave me. He was very frightend to have a baby because or marriage was quite a few months away, and finances. I was scared, because I didn't want him to leave me. However, I did say no because I couldn't stop passing out and getting sick in the clinic before I went in to have it. The nurses (?) got very put out with me and took me out into the waiting room where my now husband was and told him they weren't going to do it if I didn't stop getting sick passing out and he got furious me in the waiting room, so I went back in and did it.

5) How has your abortion affected you?
My abortion was the beginning of a downhill spiral of horrible emotional illness. It has been over 21 years of recovery, and though I have gotten some healing, this is a grief and a pain I will never totaling recover from. Immediately, after the abortion came a deep depression, and nightmares too horrible to repeat that tormented me to near insanity for many years to come. It lead to thoughts and suicidal acts. It sadly took me to a place inside my mind that I wasn't even a capable and good mother for my two living children until they were 11 and 14 years old. So I missed out on the childhoods on all my children. There is more, too much pain from abortion. I know, I KNOW, as a young girl of 18, we would have never considered it had it not been legal. We look to our legal system to be moral, even maybe when we can not, or when we fail. When you don't know better, there has to be a legal system that will be correct and won't allow murder to be an option.

6) How has your abortion affected others in your life? The sadness about this is that this horrible crime is that not only did it kill a beautiful precious innocent child. It murdered the innocence of young girl who didn't know the ugly truth about the horrors of abortion and the ramifications of the aftermath. It started off a marriage with an ugly secret of murder between them. One that thought it was "ok" the other who had the life ripped from her. One who could go on and one who had the seed of hate and bitterness taking root. I could not be the wife I was meant to be. I could not be a great mother consistently to my two wonderful children, due to the fact that without warning, I could go into deep and long periods of grief. I would be more protective of them then is healthy and many other very ill things. Thankfully, we are a very open family and have always talked and they know it is me and not them. Nonetheless, it has been hard on them. I can not get close to people, and my family sees me as someone who hides in my house and won't leave. I will go to work and come home, however, I am trying to take a class or two in college now. But everyone "worries" about me constantly. It is hard for them.

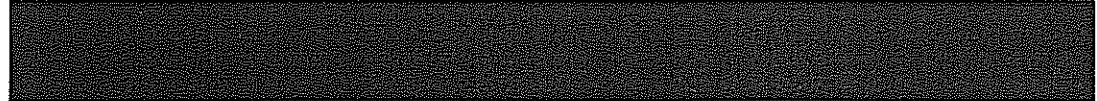

7) Based on your own experiences, what would you tell a woman considering an abortion? Ohh, I would say, precious child, your life and the one you are carrying are worth a great price. The heart that beats within you beats to live. Protect it with everything that is within you. For it is life and it is life through you and only you. Only you can bring this treasure here, to

give it the opportunity you have...life. It doesn't even matter if you feel like you have made mistakes. You have the opportunity now to do the most wonderful thing in the world, and that is make a choice for life, for someone that can't do it for itself. For someone whose next breath depends on you. Give it to them. You will never regret it. But you will always, always and forever regret it if you make the other choice, for this child, who is a child, is full of love and who can ever live with killing love. You can't.

8) Based your own experience, what would you tell a court that believes abortion should be legal? I would say ladies and gentlemen of the court: Abortion should never ever be and should have never have been made a legal act. It is a horrible act made only legal for a safety net of convenience for those who want to use it to make selfish people's life more convenient. There is no reason other then the life of the mother that it should ever be done. The pro life outfit has some believing that even teens should be able to have this done without parental consent. The physical dangers of this alone make this preposterous. But, the emotional dangers of this procedure make this a tragedy. Please do not underestimate the emotional damage it does to one when you are laying on a table with a hopeful and precious life safely within you and a doctor (?) come in and rip it out of your body, maybe not in one try, not even in two, but through three tries. Don't underestimate the emotional damage it does to a young vulnerable girl who has not told her parents and is alone in her thoughts, and knows that life, that she has been taught to protect at all cost, she is being told is ok to destroy, that it is nothing. Don't underestimate the emotional damage it does to one, when you know that that life really is something later, when it is too late because you have already believed them when you were most vulnerable that it was nothing. Don't underestimate the damage it does to a family when they see a mother/wife living her life out in her room for grief has so overcome her that she can't go out and do the most ordinary things. Don't underestimate the damage it does when you murder one child you say is nothing. It destroyed more in its death then it would have ever done in its life had it been able to live and in its' life it would have been able to give us so much more then it ever did in its death. I benefited nothing from its death.

BEFORE ME, the undersigned authority, on this day personally appeared CHRISTINA MCLAUGHLIN, who, after being by me duly sworn, upon oath stated as follows:

"My name is CHRISTINA MCLAUGHLIN and I was raised in a family where if it felt good, then do it. My dad was always running around with other women and flaunting it in front of my mother. It should come as no surprise that I thought that I had to have sex with boys to gain social approval. What is a surprise, however, is that I never got pregnant from all this until I was 17. I don't think I have ever been so scared in my whole life.

My mother counseled me to have an abortion saying all the while that she also had had one and it was no big deal. Then she paid the \$350.00 to "fix" the problem. So I was about nine weeks gestation and going in for this abortion and was so scared they had to sedate me during the procedure with laughing gas.

While I was drugged, I had this vision of little demons, green and rotting, dancing around a campfire. They were happy and dancing and singing. The stench of sulfur was emanating from these creatures and was unbearable and everywhere. But at this point, there was nothing I could do to stop anything. I woke up and everything had been "fixed." I went home that night and went to bed. I woke up after about an hour and was petrified. I could feel a presence unlike anything I'd ever felt before. I looked around my room and my walls were actually moving. I knew there were demons in my bedroom hovering over me that night and I was terrified. I loosed something in the spiritual realm with that abortion and I don't know what it was.

Surprisingly enough that wasn't enough to teach me a lesson. A year later, I got pregnant again. And I wanted to keep that baby so badly. Again, my mother counseled me to have another abortion. She said if I'd keep the baby, it would ruin my future, not to mention that she would kick me out and offer no support at all. I felt cornered, so I had another abortion. I was so scared and did not know where to turn. I had nobody. My mom gave me \$450.00 this time so I could be completely knocked out and not have to experience any of it.

I went through a grieving period after my friend, now my husband, witnessed to me. I had no idea what I had done. I know there were baby girls inside of me I'd killed. I am OK now by the grace of God. Right after my 19th birthday, I got saved. God has given me three beautiful daughters. I have a wonderful husband who is a godly man and is the priest of our household.

No matter what has ever happened to any of us. We all have the ability to overcome and to use all of our experiences to God's glory. God had told me that I am to help young women in "crisis" pregnancies understand why they should keep these babies and help them to know who they are in Christ. And then to go on and help them deliver healthy babies and become a godly parent.

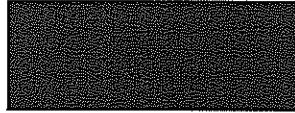

As a post-abortive woman, I have to keep my eyes on the Healer and make sure that the devil feels every lie and deceit all the more terribly as I assume my position in the body of Christ and accept my role as warrior.

I am 200% everything the Texas Justice Foundation is doing and am praying for them. I am happy that they are publicly exposing *Roe v. Wade* as the torturous lie that it is. I am committed to helping post-abortive women understand that God does still love them and that He never stopped loving them. There is healing in forgiving those who have hurt you.

I have read the above and foregoing affidavit and the same is true and correct.”

Debra Merry (Print Name),

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your abortion

occurred: I had an abortion in 1977 in Austin, Texas.

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it

does? No, I wasn't told much of anything, and I felt all of the pain + knew exactly what was going on when it happened. I heard the baby being sucked out quite and until I gave that child to the Lord in my 30's, the memory + hurt of the experience haunted me for years.

3) Were you informed of any link between abortion and breast cancer? Have you had breast

cancer? No I have not had breast cancer, but it does run in my family.

4) Did anyone pressure you into having an abortion? If so,

who? The only one that knew I was pregnant was my boyfriend. He didn't want to be a father and he talked me into having the abortion.

5) How has your abortion affected you?

It did not affect me until I was in my 30's, I was 19 at the time. But I never realized until that time how much hurt + guilt I was carrying around. I became a drug addict and alcoholic, so I didn't really think about it much until I got sober. I have forgiven myself + God has forgiven me, but I still have a deep sadness in my heart, when I hear or think about abortions.

6) How has your abortion affected others in your

life? It hurt my mother at the time, because I was too scared to tell her I was pregnant. I had moved out of the house + wasn't really talking to my parents at that time.

7) Based on your own experiences, what would you tell a woman considering an

abortion? I would tell her not to have an abortion. That since the child was conceived, it is living, breathing, human being. A Gift from God! That it is wrong to take an innocent person's life, and she will regret it for the rest of her life.

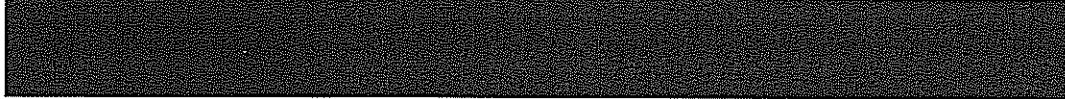

8) Based on your own experience, what would you tell a court that believes abortion should be

legal? That they all need to sit + watch a film on abortion + see what they do to the poor baby's. That it is murder in God's eyes, it is wrong in every way, and has long term effects mentally on EVERY woman that chooses to do it, no matter what they say.

Extra: My son's ex-girlfriend chose to abort his child recently, against his wishes, so he is suffering with the pain of losing his 1st born also. It broke my heart, like it broke my mother's, but God has both children in his arms, and we will both see our children again in Heaven.

1) Tell approximately when and where your abortion

occurred: My first abortion was in 1984 and my second one was in 1987. They were done in Fayetteville North Carolina. I had no idea that it was taking my children's lives.

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it

does? No I was not informed about the nature of this process. The only thing that was stressed was to take it easy for a couple of days. This is a quick and simple process. It will be over, done and forgotten about.

3) Were you informed of any link between abortion and breast cancer? Have you had breast

cancer? No I was not informed about this or any other illness or mental problems. The clinic was more concerned about prepping me for the procedure.

4) Did anyone pressure you into having an abortion? If so,

who? My boyfriend and his mother, whom I believe every word and put my trust in. The second abortion I had the guy dumped me. I felt lonely and scared.

5) How has your abortion affected you?

It has made me very angry toward the people who influence me to do it and also paid for it. I did not realize how much hurt, pain and self hate that I had until I came to Jesus. Mentally I almost lost my mind. I know physically I am suffering from this procedure. Abortion affects you the most

6) How has your abortion affected others in your

life? It has only affected the people who influenced me. I still have some anger toward them, when you hide it for years and then all of a sudden it comes back to haunt you.

7) Based on your own experiences, what would you tell a woman considering an

abortion? I would tell her to please think about what is going to take place, I would inform her about the absolute truth. I want to love her and tell her that she is beautiful and she has so much love to give. Not do it, it is harsh and cruel to mankind. I would tell her that it would emotionally damage her later in life.

8) Based on your own experience, what would you tell a court that believes abortion should be

legal? I would tell the courts that they are doing more harm than helping. They are destroying a woman's life as well as killing another life. So many of us have never thought twice about what we did until we are older and wiser. It is so hard for us now to come to terms with this misleading information. Abortions are wrong.

Abortions can and will damage your physical body, attack your emotions later on in life and make you feel self hate. An abortion is cold and cruel to babies. How can we justify this? Whoever says yes to abortion being legal is held responsible for every life murdered!

Dear Friends,

As you can see on the enclosed affidavit, between 1972 and 1981, I had four abortions, decisions I have regretted more than anything else in my life. I give thanks that God, in His infinite mercy, has healed me of the guilt, self hatred, anger, and shame of those terrible sins. I have experienced His forgiveness; the forgiveness of my children; and, at last, forgiveness of myself.

I got the affidavit at the Project Rachel retreat in San Antonio on August 18, 2001. It was an awesome healing experience for me. It was there that I was finally able to give up all self condemnation and to receive the forgiveness of my children.

I would be very happy and grateful to help your efforts in any way possible. Please send me another copy of your affidavit, and I will copy it and distribute it to some other people who may be interested in helping you. Can you use the help of people outside of Texas? I have lived here ~~for~~ less than 2 years. I have friends and acquaintances in Mississippi and Louisiana who may be interested in helping you.

I know that God is blessing your efforts, as you are seeking to bless His unborn children and their parents.

Bless Mary,

Camelia Murphy

P.S.: As I indicated on the back of the form, I do want to tell my story—in court or any other setting where I may be of help. Cammie

When I went to general confession, when I returned to the Catholic Church in 1992, Fr. Pete told me to name my children. It was a frightening task to undertake. Before Fr. Pete gave me that "penance," I had never thought of myself as ~~carrying~~ ^{having carried} these children - children whose lives were stolen from them. I never thought of them as persons at all.

When I sat down and prayed for God to enable me to choose those names, I chose ~~the~~ names ^{to honor my} 4 favorite spiritual people: Christopher (for Christ), Mary, Francis (of Assisi), and Catherine (laboure). Immediately God told me 4 totally different names, and I knew that God had given my children their names at their conception. It was, maybe, the most emotionally powerful experience of my life. It made me realize the "personhood" of my children more than ever, and I felt terribly guilty and afraid of God's justice. However, it also, on the other hand made me realize that God must love me very much to "give me" those names. I felt like - in a very paradigmatic^(?) sense - He had given my children back to me. It was the beginning (the "seed") of building a spiritual relationship with them. I wrote the poem

on the opposite side of this page in 1994.

After the Project Rachel retreat, I decided I should share it with others who are seeking healing of the wounds of abortion.

May God bless you
and your efforts,

Cammie Murphy

BEFORE ME, the undersigned authority, on this day personally appeared Marya J. Myers who, being by me duly sworn, upon oath, stated the following facts: "I am over the age of eighteen, and I am of sound mind and competent to make this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- (1) **Tell approximately when and where your abortion occurred:** In 1973, I was living in Neptune, New Jersey. The end of January, I went to a local planned parenthood clinic. The clerk set up an abortion appointment in New York for the following Saturday, an hour away, as locally they were not yet set up for abortions.
- (2) **Were you adequately informed of the nature and consequences of abortion, what it is, what it does?** The word abortion was not even spoken, by me nor the clerk at Planned Parenthood. The clerk merely asked, "What can we do for you?" My only reply was, "We have 4 children and don't want any more." "We can make an appointment for you in New York as we are not set up yet. If you have a problem with it afterwards, we have counseling available", was her only information. I was not provided with any information on fetal child development. There was no discussion of the nature and procedure of abortion or any consequences. In my thoughts I wondered, "Why, should I have any problem with it?"
- (3) **Were you informed of any link between abortion and breast cancer?** No. Have you had breast cancer? No. Following the last mammogram, I did have a sonogram to double check thickened tissue.
- (4) **Did anyone pressure you into having an abortion? Yes. If so, who?** My husband. In Jan. '73, when I informed him I was probably pregnant, he said, "There is only one thing to do". The word abortion was never spoken but I knew what he meant; abortion had been legalized the week before. Between 1965 and 1973, I conceived 6 children. In 1965 when I was a single college student and pregnant, I never considered abortion nor did the father. We married and had a girl in 1966 and a boy in 1967. Even in 1968 when we were expecting a 3rd child and thought it was too soon, we never considered abortion. The idea of aborting was never conceived in our minds. When this child was born 2 mos. premature, we wanted him to live. Though he was close to 4 lbs., his lung was weak and he died of a stroke the 2nd morning. We had two more children. Then came January, 1973, when my husband was assuming that I would be more anemic following the birth of another child than I had been after the previous. And I was assuming our marriage was not strong enough to raise another child based on what he said. Our choice to abort was made out of fear based on lies.
- (5) **How has the abortion affected you?** The Truth- was that 2 mos. following the abortion I would loose my womb causing a gradual reduction in my estrogen production, leading to estrogen deprivation resulting in delayed depression during an early and hard menopause. **An abortion, not a pregnancy, caused serious consequences.** The Truth - was that the night before my abortion appointment I asked aloud, God, "Is there anything wrong in what I am going to do? Man says it isn't even life. What do You say?" I didn't hear an audible response and assumed it was ok. However, in the morning, a clerk from the clinic called to let me know that the Dr. had to cancel his appointments for that morning and asked me what I wanted to do? I did not remember the night before; I did not make the connection. I was not listening. I informed my

husband and he asked about the next Saturday. So, I made another appointment and I became responsible for my child's death. Guilty of murder. "God is LOVE". "I have loved you with an Everlasting LOVE; therefore, with Loving Kindness have I drawn you unto Myself". He demonstrated it immediately following the abortion as we pulled into our drive way. There was a couple waiting for us who had met my husband's mother at his childhood church during a recent lay-witness meeting. Another time when my 3 yr. old fell off her chair, reaching for a vitamin that had dropped from my hand and rolled across the table past her. As I saw her land on her neck, I felt as though I would deserve it if she broke her neck but thankfully only her collarbone was broken. Later on my husband came home one night from work under much frustration saying, "I think I would be better off dead; at least that would give me some kind of peace". I did not think that would be true but said nothing. The next day looking out the kitchen window as I washed dishes, I spoke, "God, You know I believe in You and in Your Son Who died for me; I hope when my time comes, I find out what You say is true". Shortly afterwards, we visited my husband's younger brother and went to church with him. There were several boys being baptized. For the first time, I became aware that there was something wrong between God and me, but I had no idea what it was. I heard a voice say, "Stand up and acknowledge Me". I knew it was Jesus. I turned and looked at the room of strangers and said, "No, I can't, not now". I left that day without a right relationship with God. I wouldn't listen. I am so glad He persevered in Loving me and drawing me unto Himself. We moved from N.J. to New Hampshire in 1974. On Oct. 13th, 1974, my husband's youngest brother called from the west coast to talk to him about God. My husband was out of town on a business trip. But I told him I would talk with him. He said, "I have found God to be reality; it is man that has messed up this world". I replied, "I know; I am ready to let God be the center of our lives". He suggested I take the 4 children and go to a church that had an evening service. It was Sunday afternoon and I did. I heard the man who stood up say, "Tonight, I am going to talk about doing God's Will. To do God's will you must want God's will to be your will instead of trying to make your will His". I felt the Presence of God and began to talk with Him. "Oh God, what a miserable wretch I am; I have been trying to run my own life and I am going in circles. You know I believe in You and in Your Son, that He died for me and rose from the dead"...I felt a heavy weight on my shoulder ... "Oh God, I've murdered"! The weight was gone, replaced by the Peace that passes all understanding. I knew that God was no longer far away; I belonged to Him and that rightly I had 6 children - 2 were with Him. The 1 that had died 2 mos. premature 6 years earlier and the 1 I had aborted in early Feb. 1973. "As many as receive Him, Jesus gives the Power to become the children of God. There is therefore, no more condemnation to those who are in Christ Jesus". I have Victory over sin, guilt, and shame in Jesus!

- (6) **How has the abortion affected others? The Truth- Abortion destroys relationships:** Parent-Child, Marriages, Families due to the grief, guilt, shame, and blaming. Today my husband and I agree that our choice to abort was the worst decision we ever made. Only the Mercy and Grace of God brought us forgiveness and healing and saved our marriage. **God loves us so much that He gave His Son, Jesus, to pay our sin debt.**
- (7) **What would you say to a woman considering abortion? Based on my experience:** I know that your life is precious, a gift from God. He cares; He is for you. He knows everything about you and your situation. God has a purpose and plan for your life. He will provide in His way for you—trust Him: turn to Him and ask Him to take control of your life. God loves you so much that He gave His Son, Jesus, to pay your sin debt. As many as receive Jesus, He gives the power to become the daughters of God. There is no more condemnation when you are in Christ Jesus. Your child is a gift from God to Be a Blessing. 6 times I conceived and became a mother. I only delivered 5 and raised 4. 1 child was 2 mos. premature and died; there was loss and grief. 1 child I aborted: there is grief over the loss but in addition there is the weight of guilt which is crushing when a mother is responsible for taking the life of her child. Give yourself and your child to Jesus; He is the Lord God Creator and Lover of your souls. He is able and all who put their trust

in Him are your family. Before I aborted I asked God if there was anything wrong in what I was going to do. In the morning, the clerk from the clinic called and said the doctor had to cancel my appointment. But I made another appointment and became guilty of murder. I didn't listen. Please Listen, Jesus.

- (8) **What would you say to the court concerning women and abortion?** In 1965, I was a 20 yr. old college student and pregnant. I never considered an abortion; neither did the father. So we married. In 1968, we were expecting our 3rd child. Too soon we felt but we never considered abortion; the idea was never conceived in our minds. We had 2 more children. Then came Jan. 1973. I realized I was pregnant but I did not realize I had become a mother at conception for the 6th time. I had never had an ultrasound nor read information concerning fetal child development. When I told my husband I was pregnant, he said there was only one thing to do. Abortion had been legalized the week before. My husband was assuming that I would be even more anemic after another birth than I had been after the last. I was assuming that our marriage was not strong enough for another child. **The Choice to abort was made out of fear based on lies.** The Truth- was that 2 months following the abortion I would lose my womb causing a gradual reduction in my estrogen production, leading to estrogen deprivation resulting in delayed depression during an early and hard menopause. BEFORE ME, the undersigned authority, on this day personally appeared TIFFANY ANN KRUSE PIERCE, who, after being by me duly sworn, upon oath, stated the following facts:

"My name is TIFFANY ANN KRUSE PIERCE. I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

I was seventeen in January of 1989 and three weeks away from my eighteenth birthday at the time of my first abortion. I can say without a shadow of a doubt that if parental consent had been mandated by law back then, I would have been unable to abort my child. I went to a clinic on San Pedro Avenue in San Antonio, Texas. My doctor's name was Santoscoy. I got his name from another girl my age that had also had an abortion.

When I first realized that I was pregnant, I was very afraid. I first confided this information with my boyfriend. We made a pact at that time that we would not share this knowledge with anyone, especially our parents, until we had made a decision about what we were going to do -- together. I kept my end of the bargain but he ran home and told his parents. Not wanting themselves or their child to be responsible for my child or me, they counseled him on how to persuade me to have an abortion. He did so very convincingly. I was asked to think about all that was before me in my life, graduation, college, career and all that I had to lose by having a child. And of course, there were my parents to think about. How would they deal with a single pregnant daughter? I would be letting them down dashing all the dreams and aspirations that they held for my life. What about him, what did I expect from him and out of him? Did I really believe we were ready to be parents? Did I really want to give up all the experiences and fun that lied ahead? I guessed not.

I made an appointment on a weekday, Friday, I remember. I had a friend's mother write me an excuse note. I told her that I had another friend that needed to have an abortion and that she needed someone to go with her. She wrote me the note. My boyfriend was also going to skip school and take me to my appointment. We were going through this together after all, just he and I. He never showed, so I drove myself to the clinic. I parked my car, went inside, filled out the paperwork and waited to take my pregnancy test.

I recall thinking about not going through with it at this point. I was alone. I was scared. But, I didn't want to let anyone down. They called my name and handed me a cup into which I was to urinate. I had already taken a home pregnancy test, so I was certain of what the results would be. I went into the bathroom, past many other girls, and did as I was told. I remembering thinking to myself in the bathroom that there were no "women" in the clinic beyond the nurses and the receptionist, just girls. Soon, the nurse was telling me that my test was indeed positive (no big surprise) and that I needed to follow her back to the counselor.

I was sat in front of a table that was already laid out with the materials they were about to present to me. The counselor asked if I understood that I was pregnant. Yes, I said. Then she asked if I understood that I was here seeking an abortion. Yes, I said. Then she began to explain to me that

U/kep

although I was approximately 12 weeks pregnant that what was inside of me was nothing more than a small glob of flesh no larger in diameter than a half dollar coin. It was not alive yet, had no heartbeat or extremities. It was just a glob of flesh. She went on to describe the procedure as not much more than a DNC. She told me that I might feel some discomfort, but not much pain. I would be given a local anesthetic and that should more than ease any pain I might feel. She then showed me to the dressing room and handed me a hospital gown, explaining that the nurse would be back for me in a moment.

The rooms in the clinic were so cold. I remember shivering while I sat there waiting for the nurse. Before long, she came and got me and took me to the room where the doctor would perform the procedure. She put my legs up in stirrups and we both waited another minute or so for the doctor. When he arrived, he said nothing to me as he prepared. Finally, he broke the silence to say that I might feel a pinch and a slight sting as he administered the local. I was given the local and then he began the process. Not long into it, he turned on the pump. I did not know what it was at the time. He inserted a hose, I suppose, inside of me and began the pumping action. As I laid there, half-naked, feet in stirrups, with no one to hold my hand or ease my mind, I remember thinking that I was going to die. I had never felt such pain, nor have I since. I thought my entire insides were being sucked out. The counselor had left this information out of her description of the procedure. I just knew I was going to die. God was going to kill me as I lied there. That was my punishment for being this stupid. When is it going to be over? When is he going to stop? I'm dying here and he doesn't even care. These were the things running through my mind as I turned my head and to my horror saw the pumping device, filled with the blood and parts of my baby. What had I done? I guess the nurse saw the pain in my face. She was kind enough to take my hand and tell me that it was almost over. There was sadness in her eyes, too.

Afterwards, they took me to an area filled with cots and I was able to "rest" until I was able to leave. They gave me juice and a cookie, I guess to level off my blood sugar and left me there, saying nothing to me from that point on. I was cramping and bleeding profusely, something else the counselor had left out about the procedure. I was given no pain medication of any sort. I stayed maybe fifteen minutes and then got up and drove myself to a friend's house. School was out for the day, so she was home. Knowing what I had been through that day, she took me to another friend's house where for the second time in my life I got stoned (on marijuana). It temporarily relieved the physical pain. Soon, my boyfriend came and picked me up.

I stayed at my boyfriend's house that night. His parents were out of town for the weekend, so I should have been able to get some rest and sleep. It was just supposed to be the two of us. Instead, he threw a party while I lay bleeding to death (I thought) on his parent's bed. It was a rough night. I was in a house full of people, but I spent the night alone.

Saturday morning, I got up, cleaned up and went home. From that point on, I went on as if nothing had happened to me. I held everything inside. No one important in my life could know what I had done. It was to be a secret forever, to death. The walls began to build up inside. It was the only way to keep my abortion a secret, to build walls. This was the first serious lie I had ever told to my parents. We drifted apart inside my heart but the facade never changed. They never suspected a thing. I would never let them. The more emotion I felt inside the more walls that went up to deal with them. Soon I wasn't feeling much of anything; the walls were now not just emotional. I began to party quite a bit. I did some drugs, and tried many others. I drank every weekend and the lies about my lifestyle began to build walls upon walls upon walls, until I couldn't see over them anymore. I had lost myself.

Later that year, my sister came to me. She believed she was pregnant and said she needed an abortion. I thought it was her boyfriend's but she had been gang raped. She didn't tell me that until many years later. I told her where to go but she wanted me to go with her. I did. While at the clinic, a mother of another sister's friend saw me. She told her daughter, who in turn told my sister. It did not take long

Yup

for her to confront me. Not wanting to divulge the true nature of my visit, I let her think she was right. For quite awhile, she used that information against me every time she wanted to borrow my clothes or my car or my money.

Time went by and I was off to college. Not wanting to go through another abortion, I had gotten on the pill with the knowledge of my parents. The winters in Lubbock are cold and like most everyone else there I got sick with what I thought was just a normal cold. It turned out to be strep throat. I went to the college clinic and they put me on antibiotics. No one explained to me that antibiotics lessen the effectiveness of the pill. I got pregnant again. It was the same time of year as the last. I went to the same place, not knowing where else to go. This time I told no one until the deed was done. I took care of my "problem" over the Christmas/New Year break. The second abortion did not emotionally traumatize me like the first. The walls I had built were certainly doing their job.

Both of my pregnancies were from the same man, my boyfriend. After the first pregnancy, our relationship changed quite a bit. He had lost respect for me. He began cheating on me and treating me badly. He also began drinking heavily on a more regular basis. Looking back, I believe it was the beginning of his spiral downwards toward alcoholism. He has been sober now for about six years.

Well, it is 1991 now. I moved to Colorado to get away from the destructive relationship I was in with my boyfriend. He followed me there. It was very easy to fall back into old patterns with him. They were familiar and my self-esteem and self-worth issues wouldn't allow me much better. In April of that year I moved home to get away from him. Yet again, he came back to visit once. We slept together and bingo, I was pregnant once again. This time I made a different decision. I was going to have the baby. Out of respect for his role in the conception, I called to let my boyfriend know that I was pregnant, again and this time I was having he or she and "NO!" he did not have a say in what I was about to do with my body. He accepted the news rather well, I thought and said he was going to come home to be with me, soon. He did not come soon.

I told my mother I that I thought I was pregnant in the food court of our local mall. She took me in her arms and loved me as only a mother could with forgiveness already in her eyes. We went to the closest pharmacy to get a test, so that we could make sure. Once we were home, I felt the need to purge as we waited for the results. I told her everything, each and every bit. I broke those walls that had been building inside of me for so long down, one by one that afternoon, until there was nothing left. We cried together and she held me tight as I revealed to her a side of her daughter that she had never known existed. When I was finished confessing, we went into the bathroom to check the results. I knew before I even took one step into that room that the test was positive. Having been pregnant twice before, I knew the feeling of being pregnant quite well.

We decided to make me a doctor's appointment to confirm our findings. The appointment was three days away. We would wait to tell my father and sisters until after the appointment. I made it one day. Without all those walls built up inside my emotions were no longer in check. The guilt of not sharing this possibility with my father was overwhelming. I called him at his office and asked if I could come in with my little sister and my mother. We drove to the office, sat down around his conference table and I looked at him with tears in my eyes and said, "Daddy, I'm pregnant". He just smiled at me and exclaimed, "Thank God, we get to go to Disneyland!" He got our pastor on the phone and we all prayed together. My pastor told me every birth, every single one, was a miracle of God and worthy of thankfulness and love. My love for those two men grew abundantly that day.

During the beginning of my prenatal care, I found out that I had type A negative blood. The abortion clinic never tested me and I could have very well bled to death without being given a shot after each of my abortions. It was only by the grace of God that nothing ever happened to me. It was during

Yup

this time period that I saw what a fetus actually looks like at twelve weeks. The picture was quite different of the one shown to me at the clinic. In fact, a baby at the gestational age of twelve weeks has a brain complete with brainwaves, a heartbeat, appendages, fingers, toes and light/dark sensitive functioning eyes. To say the least, this information was quit shocking to me since I had been told that this lump of flesh in no way was qualified to be called human life.

It wasn't long until the news of my pregnancy met my boyfriend's parents. Once again they took what was in their opinion a proactive role on behalf of their son. In a hotel room in South Bend, Indiana, my boyfriend's (who was an ex by this time) father tracked my father and I down. He and my father were having a heated telephone discussion when suddenly my father handed me the phone telling me that he wanted to speak with me now. When I said hello, he began to explain to me that if I did not agree to, at the very least, give this baby up for adoption or preferably have another abortion that he was going to tell my father everything about my life. I had already told my dad about my old lifestyle but my Mother and I had decided against telling him about the abortions. I put the phone down and covered the mouthpiece with my hand and told my father the rest of my story. He began to weep and blame himself for my bad decisions. He took the phone out my hands and told my ex-boyfriend's father that under no circumstances were we going to abort or give this baby away. So, he told on me. At which time my father said to him, "I already know all the facts and that doesn't affect our decision in the least". My father went on to say that we wanted nothing from anyone in their family and that I, with my family's help, would raise this baby on my own. The ex-boyfriend's father then began to insist on marriage. This, too, my father denied him. I was very blessed to have such a forgiving and loving and merciful father.

When, I was about seven months along, the ex-boyfriend came back. I was already a different person by then. I lost most of my "friends" when I decided to have my baby. I was also quite reckoned with the fact that I was about to become a single mother. And most importantly, I had given my life to Jesus Christ, my Lord and Savior. I was no longer the weak-minded, drug-induced, no self-esteem girl that I had once been. I was confident and strong. This did not abide well with him since he was still knee deep in the party life style.

From the beginning, things were rough and by the time our child was eighteen months, he had enough and so had I. He left and went back to Boston, Massachusetts (which is where he was originally from) to live with his mother. His parents are divorced. His father and stepmother lived in San Antonio at the time and his mother in a suburb of Boston. He was now a raging alcoholic in the very essence of the meaning of the word. More than once, he tried to drink himself to death.

About this time, I began to feel very depressed. I had a lot of guilt concerning my abortions, as well as shame. I became suicidal. The only reason I did not kill myself was my child. As God always does, He got me through. Time went by quickly, as it tends to when you become a parent. My child was soon turning three. One day while driving home from work and preschool, she turned to me and said with authority and wisdom, "Mommy do you remember those first two times you didn't have me? Jesus and I cried for you in Heaven and we just want you to know how happy we are that we are a family. We love you and forgive you." Watching her say this to me with my mouth gaping open, I then asked her, "What did you say"? She then replied, "You know what I said and what I mean. We forgive you and we love you." God spoke through my child to me to not only tell me that I was forgiven and that He loved me but also that this child was truly intended for me.

Not long before this, my ex-boyfriend had hit rock bottom and joined AA. Through AA, he, too, found Jesus. He called my father and they said the sinner's prayer together. From that point forward, he began to call our child at least once a week. He also began to badger me about giving him a second chance. One year later, I did. Today, we are married and a complete family.

Yup

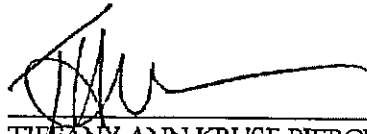

Just before our wedding, God completely healed me of my post-abortion emotions. He also has used to me to reach other women with His message of complete forgiveness and mercy and, of course, grace. I have had the chance to counsel women dealing with their post-abortion emotions. In most cases (excluding some rape victims), these women all wish they could have the chance to make the decision over again. The pain and shame of abortion changes a woman like nothing else could. It makes her weak and it makes her hate herself in the end. Time does not heal the wounds of an abortion. It makes them worse. The only healing that I have found true for such despair is God. He too, lost his Son and understands the loss that these women feel once they have time to reflect upon what they have done and the price they paid for temporary freedom. Abortion creates an emotional prison for those that have experienced it, firsthand.

Without God, I shudder to think of where I might be today. He has made me whole again. I no longer feel shame or guilt but I do still feel remorse. If I could go back and do it all over again, I would have had my child, the first time. If I could go out everyday and counsel women who were about to make the same mistake that I made, I would tell them of not only the physical pain that they will truly endure, but also the emotionally pain, for it lasts much longer. I feel deep empathy for the women who have chosen abortion and live with the horrifying emotions that go hand in hand with that decision, who never find their loving Father in Heaven. I've lived with the regret and the shame. I've lived each day figuring the age of my dead children and imagining their faces, bodies, hair color, eye color and their personalities. It's only been the grace of God that's allowed me to live free of such things.

I was a Christian, raised in a Christian home by good, loving parents. I was a straight A student. I was a well adjusted teenage who was responsible and very rarely lied especially to my parents. I was a leader among my friends and to my sisters. I was someone who did not do drugs or ever drink in excess. I was a good person who always followed the rules until I had an abortion."

AFFIDAVIT

THE STATE OF TEXAS

COUNTY OF DENTON

Before me, the undersigned authority, on this day personally appeared Tracy Reynolds, who, being by me duly sworn, upon oath, stated the following facts:

My name is Tracy Reynolds. [REDACTED]

[REDACTED] I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

I had my abortion in February 1981 at a doctor's office in Palo Alto California.

I was told very little about the consequences of abortion, only that there might be some bleeding and cramping afterwards. I was definitely not told of any emotional or psychological effects and this was ironic for the abortionist was not only an MD by also a psychiatrist.

I was never told of any link between abortion and breast cancer, and until recently did not know of such a link. I have been fortunate not to have had breast cancer, though I do have unusually lumpy breasts and often have to endure repeated mammograms.

I received a lot of subtle pressure to have an abortion and a lot of comments about it being a simple procedure, just tissue not a baby, etc. The strongest pressure to have an abortion came from the child's father who begged me not to have the baby, even though I was not asking him for any support or involvement in any way.

For years after my abortion, I had nightmares reliving the sounds and the feelings during my abortion. I could also hear my baby crying out to me. I was often depressed, ashamed, had very low self esteem which before the abortion was high, and shied away from intimate relationships. I was careful about friendships, and talked a lot about them, but revealed little about myself, and definitely did not talk about the abortion.

Others were affected by my abortion in that they could tell that I closed off a part of myself to them. I felt rejected easily, and often would become distant from friends if I felt that I was or was going to be rejected.

I would tell a woman that from my experience, my abortion was the biggest mistake and regret of my life. I would encourage her to really consider that she is choosing to give up her child and she will experience the loss of that child and it will hurt her for the rest of her life. I would ask her to visualize that child not as tissue but as a living, active baby with personality, a face and a soul and to imagine that child growing up into an incredible adult. I would also provide her avenues to get counseling and other help to facilitate the pregnancy and birth of the child.

When the esteemed members of the Supreme Court voted to legalize abortion I believe they had no idea the long term destructive effects abortion had and would have on women. I believe that abortion is directly responsible for the pain suffering, drug and alcohol addictions, and trauma of many women in America today. Unfortunately, it has also been used by some women as a form of birth control thereby seriously damaging their bodies and their psyches. This is a grief that can never really be completely healed for women and it goes against two things that are at the core of America and Americans, God and motherhood. Abortion is clearly wrong in the eyes of God; and it also goes against a mother's natural instincts to have and protect her children.

Testimony

I had my abortion in February of 1981, and it is only now over twenty years later, that I have begun to process and deal with it. When I first discovered that I was pregnant I had two distinctly different reactions. First, I was joyous and filled with wonder because I was carrying my child. I was also guilty and ashamed for the pregnancy was the result of a brief affair with a married colleague. I felt that God was punishing me, and yet I really wanted to have the child. My mistake was in not following my heart and convictions and turning to others. None of my friends at the time spoke out strongly in favor of having the child. In fact, they talked about it ruining my life, my career, etc. But the biggest influence was the father of the child who begged me not to have it saying that it would ruin his life. I never asked him, nor did I expect him to be a part of my life or the child's life, but still he reacted strongly.

I went to have the abortion initially and at the last minute I walked out, deciding against it. I then allowed myself to be influenced to go back a few days later. I still remember the sounds, the pain, the feeling of having that child ripped from me, and the terrible emptiness. I had dreams about the child for years, still do, some were nightmares, and later they were of the child being alive and talking.

Since the moment I had my abortion, I regretted it and for years tried to push it from my conscious mind. It seriously affected my relationships. I stayed away from involvement with men and have remained single with no serious relationships. I also found myself withdrawing from the church and from family and friends. I escaped into my work, throwing all my energy and my identity into my jobs, and strictly avoided thinking about the past. The abortion was that hidden shameful secret that few people knew about, and that I wasn't about to talk about or face until recently.

Now thanks to God, and to an incredible friend and sister who is also post-abortive, I have been able to face what I did, and begin to heal. I have also decided to dedicate myself to helping others who have gone through abortions, and influencing those who are considering abortion to really consider what they are doing. I wish that someone had been there for me to remind me of the sanctity of life and motherhood at the time I was going through my decision process, and I am grateful that finally women are now speaking out for the truth and for those unborn children who cannot speak for themselves.

I had eating disorders, sexual problems, guilt, shame, sadness, emotional shut down, distrust in men, depression, sense of loss, self hatred, uncontrolled weeping, dreams/flashbacks, low self-esteem, anger, rage, self destructive behavior, overwhelming desire for another child, I think about the baby I killed constantly and I miss him/her so bad! Regret, fear of being punished, mad that the option was even there, everyone acted like it was no big deal, I didn't know it would hurt so bad physically & emotionally. I remember it vividly and it was 10 years ago. It was horrible, I'm so angry that doctor killed my babies and didn't even care! Bottom line it was me who got on the table but I had no idea what I was doing, I was stupid!

BEFORE ME, the undersigned authority, on this day personally appeared Debera Stein, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1. My abortion occurred February 22, 1984 at a private OB/Gyn office in Houston, Texas.
2. I do not feel that I was adequately informed of the nature of the abortion. I was only told that the cervix would be dilated and the abortion performed by vacuum extraction. There were no other alternatives discussed such as adoption. In addition, there was no counseling concerning the life that was growing inside me. I was told that I was ten weeks pregnant. Even though I was a college graduate, I had no idea that the fetus already had a heart beat and fingers and toes. It wasn't until I was pregnant with my oldest daughter and had a sonogram at seven weeks and saw her beating heart, that I knew what I had done to my first child. Then there was the tiny feet pins that were out in the Christian bookstores showing the feet of a ten week old fetus that it really became evident that the life I terminated was that of a tiny person, not just a blob of tissue.
3. I was not informed of any consequences of the abortion. I was not told of the emotional or physical consequences. While I was still under the effects of the sedation, but after the procedure was completed, I began loud, uncontrollable sobbing. I remember coming out from under the anesthetic hearing the nurse telling my mother that I had been crying uncontrollably. I don't know when I started sobbing, but I can say that even though my body had been numbed to the pain, my mind had not. I can honestly say this was and is the lowest day of my life.
4. I was not informed of any link between abortion and breast cancer and did not hear of such a link until about three years ago. I have not had breast cancer.
5. No one pressured me into the abortion, but no one discouraged me either. Neither my friends nor my own mother ever discouraged me or discussed other options.
6. My abortion has affected me in so many ways. I could fill a book on the subject but will state only the large affects. First, after the abortion I became very depressed, though I did not know it at the time. I slept all the time and I lost a large amount of weight. I have lived most of my life since the abortion, trying to punish myself. I knew that God had forgiven me, but I refused to forgive myself. I felt so undeserving to ever have children, I married a man who had had a vasectomy. After eight years of marriage and my continued longing for a child, my husband had reversal surgery and we now have two beautiful daughters, one four years old and one five months.

7. Others have been affected by my self-punishing behaviors, but my grief and my longing to have children have affected mostly my husband.
8. Based on my experience, I would highly discourage a woman who was considering an abortion. The first thing I would have her consider is the innocent human being whose life was being taken. I would then tell her the emotional pain and suffering that will be with her every day of her life. There has not been one day since that horrible day that I have not thought about what my child would be like, was it a boy or girl, how my life would have been with this child. Every February 22, I grieve just like I would the passing of another family member. Every September 22, I grieve the lost birthday party for my child, as this was the due date.
9. Based on my experience, I would tell a court that abortion should not be legal. Had it been illegal, I would not have sought an illegal abortion. I would have given life to my child. Those of us who have this experience but are too ashamed to come forward must stop the lies in the media and by the feminists. If abortion is nothing but a choice, not the killing of an unborn human being, then why do most women keep this a secret? I'm tired of living in the quiet shadows of my "choice". I want a court to know that I know that I allowed an innocent life to be taken because of my wrong choices. Yes, it was legal, but for who? For the business of abortion? About a year after my first daughter was born, I was still grieving the loss of my first pregnancy. I have received professional counseling to help me deal with the pain. Just before I started counseling, I wrote this poem.

THE CRY OF MY WOMB

My heart was wounded,
 trying as hard as I could to be loved.
 Working hard to gain acceptance from man and the world, I would not be moved.
 The fear of rejection by others and not trying to please You Lord,
 led me down the road of many wrong choices.
 Though I knew Your grace,
 I did not reach out my hand and walk with You.
 Instead I walked with worldly thoughts and actions trying as hard as I might,
 to fulfill those needs You placed deep in my heart.
 Insanity was it not, trying to become whole in the sins of my flesh.
 Then, because of my own fleshly choices,
 my life was never to be the same.
 The words are too painful to say, let alone to write,
 the cry of my womb I still hear night after night.
 I always thought this choice was one others would make,
 I knew it was not right, and it would never be one I would take.
 Though I was 23 years of age, I feared rejection by those I loved,
 I chose to close my mind and heart to the life inside of my womb.
 It was all very simple, no one told me it was wrong, or about the heartbeat I was about to
 stop, instead they told me MasterCard and visa were accepted.

I was as surprised as the doctor and nurses by my uncontrolled weeping even though I was sedated,
my crying just continued on and on, until it was time to go.
A day never goes by that I don't think about what would have been and could have been.
Dear Lord, I know Your grace is sufficient for me,
but somehow I cannot stop condemning myself still these 14 years later,
little did I know that there was a little cry in my womb that day,
that will forever be the cry of my heart.

who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your abortion occurred: October 3, 1970, San Antonio, Texas.

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I had an abortion prior to it being legalized.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No

4) Did anyone pressure you into having an abortion? If so, who? No

5) How has your abortion affected you? Where do I begin! I had an illegal abortion because I had no one to turn to. Right after the abortion, I was sick with an infection and very scared. But, then I was well (I thought), and relieved it was done. Then, as the years went by, I began to realize what I had done and really regret what I did. If I had only had someone who could have counseled me, I was only 20 years old. Today I am 53 without any children of my own (that's another story). I have forgiven myself, but I think of my child everyday.

6) How has your abortion affected others in your life? N/A

7) Based on your own experiences, what would you tell a woman considering an abortion? Don't do it!!! There is a better way. Go to someone and talk. There is help for you at crisis pregnancy centers. There is always open adoption. But, most importantly, the fetus inside of you is a real, live human being. Don't kill it.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? Walk in my shoes and feel what I feel everyday of my life. Abortion is murder.

BEFORE ME, the undersigned authority, on this day personally appeared Caroline Wienecke, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1. Tell when and where your abortion occurred: It occurred in Dr. Franklin J. Stoke's office on July 13, 1989.
2. How has your abortion affected you? Directly afterwards I became severely depressed and suicidal. I abused alcohol/drank alcoholically. I ended up going to Alcoholics Anonymous. I stopped drinking eventually but I still think about the abortion. I now am married and have 2 children but I still think about the other one. I remember especially the anniversary of the abortion and every March I think that the other child would have been a certain age.
3. How has abortion affected other people in your life? I think that it hurts my husband when he thinks about it. He did not know me at the time but he knows how much I regret doing that and he has even suggested that I go to abortion recovery group at our church.
4. Were you adequately informed regarding the consequences of abortion? I knew that the ultimate consequence of the procedure was removal of the "product of conception." My doctor made me wait 3 weeks before having the abortion so there would be more tissue to ensure that the procedure was successful. I had to remain pregnant for 3 weeks so the baby would be large enough to kill. I was 7 weeks pregnant at time of examination and had to wait until I was 10 weeks pregnant to have the abortion. I did not anticipate, nor was I warned, about the extreme depression that I suffered. I was not offered any psychological counseling prior to the procedure nor afterwards.
5. Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: I was really not told anything about abortion – not even how the procedure was going to be done. I simply expressed my unhappiness about being pregnant and the doctor told me that he could "terminate" the pregnancy in his office if I wished. The abortion was referred

to as a "termination," not an abortion. Ending the pregnancy was how the procedure was described.

6. Based on your own experiences, what would you tell a woman thinking about having an abortion? I would warn them about the things that no one told me: that you will grieve, that you will feel guilt, that you will never forget the actual procedure which is painful both physically and emotionally, that you will always wonder what that child would have been like, that you will feel worthless and hatred towards yourself at times, that you will probably see the aftermath of the abortion which is collected in a clear glass jar, that you will have disturbing dreams for years afterwards, that you will cry about it for years afterwards, that it is not like having a wart removed which is the way that the medical staff will present it to you.
7. Based on your own experience, what would you tell a court that believes abortion should be legal? I believe that abortion is one of the most evil institutions that has ever been invented by man. Not only does a child lose it's life during the procedure, the mother loses something that she can never replace also. That child is dead and a part of the mother dies too. It is murder, pure and simple, and can cause horrible physical and emotional harm to the mother. I would have felt terrible about having the child and giving it up for adoption, but I would not have to feel responsible for terminating a life for the rest of my life. I wish that I would have known how I would feel afterwards.
8. Did anyone pressure you into having an abortion? If so, who? No one pressured me but everyone supported my decision – told me it was the smart thing to do. I even asked someone I worked with if they thought that a woman who chose to have a child out of wedlock would experience less career opportunities. I had just begun federal service right out of college. That person told me "probably."
9. Were you informed of any link between abortion and breast cancer? No.
Have you had breast cancer? No.

BEFORE ME, the undersigned authority, on this day personally appeared MALARTHA BOSIER, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts in this affidavit, and I do solemnly swear, or affirm, that the following facts are true."

1) Tell approximately when and where your abortion occurred:

1972 Kaiser Permanente Hospital/Wilshire Boulevard, Los Angeles, California

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?

A woman in the hospital clinic told me that it would be like a D&C, a dilation and curettage procedure that was a "dusting and cleaning" of the uterus. She said many women had it when they had a positive pregnancy test in order to clean out any tissue lodged there.

3) Were you informed of any link between abortion and breast cancer?

No. Have you had breast cancer? No

4) Did anyone pressure you into having an abortion? If so, who?

Yes. A male with whom I was having unprotected sex.

5) How has your abortion affected you?

The realization that my resolve to take the lives of three of my children and that I had asked "so called" doctors and nurses to help me destroy them, fueled many years of depression, self-destructive behaviors and distrust of doctors and medical professionals.

My selfishness, irresponsibility, and desire for comfort and convenience in having sexual intercourse, caused me to continue using abortion as a means of birth control.

My first pregnancy at fifteen was the result of repeated sexual assaults by my mother's husband. He continued using me to gratify his perverted lust for many years. I was told that what was happening to me was my fault. I felt overwhelming guilt and blamed myself. My condition was beyond my ability to control and outside my mother's will and capacity to intervene. When her husband unexpectedly impregnated me, to protect himself from discovery, he attempted murdering my son and me. The perpetrator used knitting needles, pressure from a corset, drugs, and finally a fist to my stomach, trying to abort my son.

Thankfully, all these attempts failed and my son was born at John Wesley County Hospital in Los Angeles on December 12, 1964. I was forced by the perpetrator, to put a fictitious name, as the father, on my son's birth certificate. This "parent" threatened the use of a weapon to force me into sexual relations with him, even after the birth of my son. For our safety, I escaped with my son, raising him alone for years and then later, with the help of my mother.

Miraculously, my son currently lives in California, is an accomplished writer and kind person.

At the time of my second pregnancy, I felt that I had no right to my body and consequently, did not value myself. I used sexuality as a means to attract men. My use of a defective contraceptive device called a "dalkon shield", inserted and later removed by staff at Kaiser Permanente Hospital, damaged my reproductive organs. As I continued in promiscuity, subsequent pregnancies were ended by abortion procedures. My fifth and last pregnancy resulted in a miscarriage.

6) How has your abortion affected others in your life?

My family witnessed my struggles in obtaining an education, maintaining stable employment and becoming a loving parent. My relationships with people in general were often strained and unhealthy, because of my anger and loss of self-respect.

My son was raised without a father because I did not trust men to protect and care for him or me.

After twenty-one years of marriage, my husband still suffers because of my occasional estrangement, not fully trusting him to care for me, and our not having children together.

7) Based on your own experiences, what would you tell a woman considering an abortion?

View an ultrasound, if possible, and witness the heartbeat. It will help you to understand the developing human being in your body. Even if you've had a prior abortion or given birth, viewing an ultrasound and perhaps a chart showing growth stages of an unborn child. This will surely soften your heart and convince you not to choose death for your child.

Become aware that abortion is taking the life of another human being. Whatever your ideas of morality, understand that you do not have the right to murder another human being, or to ask someone else to murder your child.

Keep asking for help in locating people, churches and community resources to provide a safe place for you to give birth to your child. Many institutions are established specifically to counsel you regarding alternatives to abortion and will help care for you and the child.

8) Based on your own experience, what would you tell a court that believes abortion should be legal?

Ladies and gentlemen, with all due respect, I believe that terminating the life of a developing human being is detrimental to the health of the mother and society. Asking a physician or medical personnel to terminate the life of a developing human being is destructive to a civil society.

If abortion is always terminating the life of another, then in no circumstance is it ever justified. I believe certain situations warrant killing in self-defense, but that no circumstance justifies murdering the helpless and innocent.

According to laws in 1964 on family rape, it would have been legal to abort my son, and most likely, I would have been encouraged to do so, had I told of the assaults.

Since there was no one acting on our behalf, the perpetrator escaped imprisonment, but thankfully my son did not lose his life.

In spite of my experience, I believe that the woman who is married, or unmarried, and pregnant, should not have the right to involve society and medical professionals in her murder for convenience, or other personal, non-medical, reasons.

If murder is defined as the crime of unlawfully killing a person, especially with malice aforethought and killing brutally, then legalized abortion allows men, women and the medical community to become a party to legalized murder.

When I asked abortionists to kill my babies I became a party to murder. This was and is a devastating reality for me to acknowledge.

Only by the help and kindness of healthy family members and friends was I able to survive and raise my son. The birth of my son elevated my life, whereas, the abortions degraded it beyond measure.

My overall health was diminished because of past sexual behaviors and abortions. Today I continue struggling to regain my health and become a loving wife to my husband.

Dear sirs and madames, legalizing actions which are claimed to be murder in one setting but considered benevolent in another is confusing and disturbs the peace and safety of all people.

The legalization of abortion did not relieve me of my personal responsibility for the deaths of my unborn children. Instead it freed me to continue engaging in an immoral, unhealthy and destructive lifestyle, producing more of what some call "atonement" pregnancies and more abortions.

In my opinion, when the courts legalized the murder of our unborn children, our society became more uncivilized, oppressive and inhumane. Each day we witness our debasement as we read of the growing abortion industry, along with attempts to recycle, or manufacture, human flesh.

I am grateful that you are reviewing this decision.

Thank you for allowing me to address you.

"I have read the above and foregoing statement and the same is true and correct."

- 3) Were you adequately informed of the consequences of abortion? No! I was never given any information about counseling, scar tissue, guilt, shame, and how it would destroy my self-esteem and keep me from becoming more in life.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? Never was this mentioned over the 4 years of my 5 abortions.
- 5) Did anyone pressure you into having an abortion? If so, who? Yes! My mother made the decision for me. My opinion was never asked, I was told that I didn't have a choice. She told me I was not going to support any babies.
- 6) How has your abortion affected you? I truly feel that because of the lack and negligence of the medical industry on informing the minor women about post-abortion trauma, I lived in a state of depression, guilt for 15 years not allowing me to further my education and better my lifestyle.
- 7) How has your abortion affected others in your life? Because I was never told about abortion leaves scar tissue, I was told that I could not have any children by two doctors. - 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would like for them to explain to me how is it possible that the remains of a "fetus" look like human body limbs. And when they are thrown into a trash can that is located behind an abortion clinic we refer to them as an abortion. But when we see human body limbs of an adult and or child thrown in a trash can in an alley of New York city we call that murder! Other than their size, what is the difference? Then I would like to show them some pictures of these abortion procedures and educate them on what is really going on in this nation. Then, I would like to ask them if it would sit right with them to know that one of those "fetuses" that were behind the clinic came from their youngest daughter, and that that daughter could never had children again because no one was required by law to give her the truths about what an abortion truly does to your life.

Before me, the undersigned authority, on this day personally appeared Cynthia Lauren Minarik, (Print Name) who, being by me duly sworn, upon oath, stated the following facts:

My name is Cynthia Lauren Minarik (Print Name). My address is

[REDACTED]

I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

I was sexually assaulted by my father as a young child. The second year that I attended Hillsdale College in Michigan my parents telephoned me to advise me that due to abusive + sexual problems, they were seeking to divorce. My world in 1978 imploded. I did not like college - my mom advised me that she could no longer afford to send me. I couldn't face going home to the Hell that my family was going through - so a sub-conscious effort was made on my part to reciprocate the affections of a senior at Hillsdale. Within weeks I became pregnant and the facts of my situation seared me. I had no one to call and therefore looked up "Planned Parenthood" (an oxymoron if there ever was) for help + advice.

I spoke to a counsellor who - when I couldn't put my fears into words - added them in for me. She spoke to me about my "no win" situation and pointed out for me the faultiness in providing for a child. She told me that she would take care of everything for me - her determination, strength was comforting. She made an appointment for me and told me that it was my body and my choice to come to the clinic and those thoughts were reinforced by the books + magazines I had read. I was a "woman of the 70's" and told the biological father that the sole decision was mine.

I drove to P.P. and still had not made up my mind. Once there - it was a factory. Over 30 young women - mostly black and younger than I - were there. We were filling out forms and given a pill to "relax" us. The most hideous fact - the "Dr." an Indian gentleman had about 16 rooms of young women to run through. He dashed into my room - complimented me on

my dark tan and then told me I had a choice to make. He could either extend my pain by doing the procedure slowly and gradually or make it more painful but quicker - I chose quick. I almost passed out and I wrenched the arm of the "nurse" as beads of sweat immediately fell from my forehead. I drove home (to college) and wanted to die. They told me not to take a bath for 3 days. I immediately took 3 steaming baths and thought of taking my life as well. My C-grade took a dive and I got mono nucleousis and almost developed a Rhumatic heart. I went home to total turmoil. This is my first tragic story.

I have read the above and foregoing statement and the same is true and correct.

BEFORE ME, the undersigned authority, on this day personally appeared Gythia Minarik (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: 1977 - late fall - early 1978 - Spring while attending Hillsdale College. I went to Detroit Michigan - Planned Parenthood.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No. A group of girls 4-6 taken into room to sign papers. Given a pill to calm nerves. Told to relax + wait for doctor. Then were taken to individual rooms.
- 3) Were you adequately informed of the consequences of abortion? No. Just given papers to read and sign - remember a bright green paper saying that I could die from procedure.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No. No.
- 5) Did anyone pressure you into having an abortion? If so, who? Myself. I knew I couldn't add to my parents' problems. I felt shame.
- 6) How has your abortion affected you? Pre-Christ I "imploded" into a black hole of depression + self hurt. Post Christ - He counselled me through issues - repentance + forgiveness like no psychiatrist + physician ever could. Now I am a warrior for His Truth + love, forgiveness on many fronts. I also intercede.
- 7) How has your abortion affected others in your life? I don't know. My 15 year old son knows + wishes I hadn't gone through it - he also thanks God that I birthed him.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? "Don't buy the lie." That no matter what term is associated with the baby that after abortion a woman knows that she murdered a child that God's forgiveness + grace thru Jesus is her only antidote for depression.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would boldly stand + say that they condone murder for the sake of expediency and profit - enabling a once great nation to sink in a quagmire of Godlessness. Claiming ignorance of harm doesn't absolve them of institutionalizing liars' business.

- 7) How has your abortion affected others in your life? My mother and myself will forever have this crime between us. It separated us terribly - the guilt does.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? Don't necessarily trust your mother's views. Her casual Christianity was thwarted by her need not to be embarrassed by her Golden Debutant daughter - the social status - threatened.

In the early 80's I dove into the world fully. I learned to numb myself - to my parents divorce and to my infertility. I kept hearing that everyone was sleeping with everyone else - all my friends certainly seemed to be. I believe in my heart that I was looking for love. And knowing that I only would be with a man once and bang. Then the reality hit and I heard echoes of my past condemning me and my ability to take care of a child. I did plead with this child's father to help me. He wouldn't except to say that if I chose to give birth - I would be totally on my own. I couldn't do that. I caved in yet again. I paid my fee and signed the papers and killed another child. I was lost and filthy and saw no where else to turn.

over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

I divorced my husband two years after my son was born. I bought a mobile home and opened a Travel Agency. We lived that way and I was totally celibate for ~~1~~ a year. I didn't go out at all. One night I was invited into downtown Cleveland by business friends. I met a British helicopter pilot - got drunk and again became pregnant. He came back to the US. ^(in the Navy) wanted to marry me and have me re-locate to England with Brett. I refused and had an abortion. I lived in a dreamworld - like it had never happened. In 1989 a man who said he loved me and my son wanted to marry me. I had terror in my soul. In 1990 on Aug. 16th (my grandma's Birthday) he came to my home and told me about Jesus - His love for me and the power of His Blood. Each time he spoke Jesus' name I felt almost a physical slap. I couldn't get him out of my home soon enough. As I slammed the door after he left, I looked up and prayed out loud in frustration. I told God that if this stuff was true and He knew all my pains and how I would never trust any human - then HE would have to show me about this Jesus. I left it at that. It was 8:00pm.

That night at 2:00 am I awoke in a cold sweat and had a terrifying experience (a spiritual one) which caused me to look Heavenward and yell: "Jesus... If you're up there... I need a savior right Now!"

- 3) Were you adequately informed of the consequences of abortion? No. I just signed the now familiar papers and went through the standard procedures.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No. No. Praise God.
- 5) Did anyone pressure you into having an abortion? If so, who? Yes. This time I was descending into a new low. I fell in love with a musician who had a wife and 3 children. I felt that my pregnancy would cause him to leave them.
- 6) How has your abortion affected you? I began to drink drugs and drink often. I sought counseling from psychologists. I could wrap my head around my little finger. I began to enjoy my private world of pain.
- 7) How has your abortion affected others in your life? The father of this child could have cared less. He was the only one who knew.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion?
"Don't buy the lie" I was a confused willing victim of a society gone to hell in the name of rebellion against God.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? By making abortion legal the courts decided to legislate immorality and condone it to its populace. The young women... many without the benefit of a Godly father. I became pregnant again by the musician, again. I was traumatized. I approached my mother - falling to my knees and sobbing into her lap. She said she would help me take care of my problem. I thought with her help I could mother this child - dad or not. She took me to her ob/gyn and he told me how scarred my neck of my uterus was - he also told me that my spine was crooked. He had obviously spoken to my mother previously - because he spoke to me ~~with~~ ^{with} disgust. He slapped a prescription for birth control pills in my hand and the following week I was admitted into the Cleveland clinic as an outpatient and given a D+C under anesthetic ^(sp) this time. No one spoke to me about a thing - I was simply eased through the process and Blue Cross Blue Shield paid for it. We never discussed it again till 1985. When I was married and became pregnant again. I was

so happy to be "legitimate!" and I drove to my mother's home and gave her the good news. She was in the kitchen and didn't even look at me. She told me that we couldn't afford a baby and do have an abortion.

ed was thunderstruck and angry. I ran crying from the kitchen. My 80+ year old quiet Christian grandma slipped upstairs - she motioned me to be quiet and to listen. She rocked me in her arms and whispered these exact words: "God takes care of babies." That gave me peace and as a consequence ed have a handsome, intelligent (straight A's) (saved by Jesus at 4 years of age (3)) spirit-filled 15 year old son who God gave me (and who blesses his grandma) and is a dynamite 3rd baseman. We saw a movie - about 8 women got counselled together, she told us that we had made a mistake. We couldn't be blamed for and expressed disdain for using abortion as a birth control method. It got ashamed + totally condemned.

- 1) Tell when and where your abortion occurred: 1980 in a doctors office in Cedar Falls, Iowa
2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: NO. There was no specific information regarding the abortion. I was told I would hear a suction noise, similar to that in a dentist office and then I would no longer be pregnant. There would be some bleeding and cramping afterward.
3) Were you adequately informed of the consequences of abortion? NO. NO consequences or potential risks were discussed or explained. The stage of development of my baby was never discussed. I bought into the lie that "it's just a blob of tissue"
4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? NO. I do not, yet, have breast cancer.
5) Did anyone pressure you into having an abortion? If so, who? NO. It was a fear based decision. No one checked to make sure I understood the realities of my decision or that there were other options.
6) How has your abortion affected you? I became emotionally dead. Because of my inability to form intimate attachments I was married and divorced 3 times. When I gave birth to my son I suffered severe depression and an inability to bond with my son.
7) How has your abortion affected others in your life? Very definitely yes - each of the men I had married and divorced and my sons formative years were influenced by my inability to fully love him and my struggle with depression.
8) Based on your own experiences, what would you tell a woman considering an abortion? Abortion is not a solution. It only creates other problems. Problems that are farther reaching and longer lasting than an unexpected baby. Abortion creates a hidden wound you carry with you for the rest of your life.
9) Based on your own experience, what would you tell a court that believes abortion should be legal? Laws are supposed to be created to protect people - even from ourselves. Abortion has a minimum of 3 victims, an innocent baby, a mother and a father. Murder is already against the law. Abortion is nothing short of murder. A developing baby is exactly that, a developing baby with a heartbeat, brain function, all of his or hers organs, just still tiny and desperately needing our protection.

BEFORE ME, the undersigned authority, on this day personally appeared L [redacted] C [redacted] (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Madison WI 1974
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? no facts other than the pregnancy would be terminated.
- 3) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 4) Did anyone pressure you into having an abortion? Kinda If so, who? My dad told me if I ever got pregnant that I shouldn't return home.
- 5) How has your abortion affected you? It is my biggest regret in life. It was the only pregnancy I've had & about 47. I've tried to forgive myself but don't know if I ever will be able to. I feel awful about doing such a horrible thing. It's something that will never go away.
- 6) How has your abortion affected others in your life? My father still does not know. If he did it would probably devastate him. He is anti-abortion.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? A lifetime of guilt is far worse than 9 months of trial to allow a child to fulfill gods purpose + live. Candy to term no matter what the cost.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion & murder should not be legal for any reason. Nine months of carrying a child is a very small price to pay to give the baby a life. Since adopting out the baby is an option the nine month term is the only price the mother pays. If it were a ten year term it would still be worth it.

- 5) Did anyone pressure you into having an abortion? Yes If so, who? Myself mostly. My boyfriend + his family knew I was going to "take care of it" + they didn't try + stop me, so I interpreted their silence as pressure to do it.
- 6) How has your abortion affected you? In many ways ... My 1st child was born 1 month early + my 2nd child was premature born 3 months early - he almost died. He weighed only 1 lb. 10 1/2 oz. I experienced much guilt, suicidal thoughts, depression, had trouble bonding with my children that were born, had intimacy problems, increased alcohol + drug abuse, etc.
- 7) How has your abortion affected others in your life? They are missing out on having the children here now.
- 8) Based on your own experiences, what would you tell a woman considering abortion? Abortion stops a beating heart. It is a baby. There are serious (sometimes deadly) consequences of having an abortion. Having multiple abortions increases risks of death to the mother, breast cancer, + other unhealthy problems.
- 9) Based on your own experiences, what would you tell a court that believes abortion should be legal? Women think if it's legal, it's okay. It's not okay - it's murder, and there are terrible consequences + risks associated w/ abortion. I know personally the devastation abortion has on women.

- 6) How has your abortion affected you? I am sad and depressed most of the time. I am lucky to still be w/ my baby's father whom I love very much. But the abortion put a lot of strain on our relationship. Until I got counseling and learned how to forgive him as the lord has forgiven me, I blamed it all on him and was mad at him. I have nightmares. Every-thing reminds me of what I did. I find myself separating myself from others who talk about babies just to go cry. It's a living nightmare. It's also the biggest mistake I ever made.
- 7) How has your abortion affected others in your life? It's put a lot of strain on the relationships I have w/ my fiance and my family. I had to get counseling before I could admit it was affecting me.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? think twice about it. There are other choices and there is so much help available if I'd known that then, I wouldn't be living this nightmare I'm living now.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? It is murder. It is an easy way out of a stressful situation. Killing innocent babies should never have been legal when there are so many other alternatives.

- 1) Tell approximately when and where your abortion occurred: A hospital in New York City - 1977
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I was not informed of the nature or what it does. My private physician confirmed the pregnancy, and my decision not to go through with it, caused him to recommend a doctor who would perform a hospital abortion.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? NO If so, who? _____
- 5) How has your abortion affected you? I have been married forty one years. I have two beautiful children, who at the time of the abortion, were 13 and 16. My husband said it was my decision. It was the worse decision I could have ever made. - I did not realize what a horrible sin this is against God. It has never left my mind - the guilt and the agony will not go away. For whatever the reason you may have, it is not worth it.
- 6) How has your abortion affected others in your life? My husband and one other family member are the only persons who are aware. It seems as though it had had no effect on their lives. (I now that I am sure.)
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Whether you are married or single, please do not do it. Remember, you will be taking a life (that created) and the pain, regret, guilt, and self destruction, is not worth it, and will never go away.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion, at any stage, is murder because life begins at the moment of conception. I know this because the Word of God has taught me this through Jeremiah 1:5+6 where the Lord told him "before I formed you in the womb, I knew the plans I have for you" (Paraphrase) When we take a life we have stopped the plan that God had for his or her lives. "I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: OCT 15, '91 @ Springfield's Women's Community Health Center
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO Springfield, MO
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? YES If so, who? MY husband, my neighbor and myself
- 5) How has your abortion affected you? If not for the PACE program (post abortion counseling education) at my local Crisis Pregnancy Center, I would be in a deep dark depression, as I had been for 6 yrs. after the abortion. The abortion left me broken, angry and numb. All my outside relationships suffered due to my feelings of isolation. Parenting my two children became very stressful. My joy was gone, my peace was gone and my soul was tormented with feelings of guilt and remorse. There was no one to talk to.
- 6) How has your abortion affected others in your life? Until my husband and I entered the PACE program, we had many struggles between us that strained our relationship greatly. There were also incidences of emotional abuse between us. Our children were caught in the middle.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would tell a woman to consider the emotional cost of having an abortion. A battle scar you will carry for the rest of your life. The mental anguish that never fades but festers inside as time goes by. I would say "Is it worth it?" It wasn't worth it for me.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I implore you to hear what I have to say. Dr. Seuss said, "A person's a person no matter how small" in his book written for children, Horton Hears a Who. The pre-born child I aborted would have been 11 yrs old this year. Recently, I ran into an 11yr old boy, my heart broke into a million pieces that day. Indeed Dr. Seuss was right, a person's a person no matter how small. I wish with much sorrow, I would have known that.

- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No.

- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? Yes If so, who? My mother
- 6) How has your abortion affected you? I have had a sense of lowered self worth and shame for many years. Initially, I felt that I had done the worst thing a woman could ever do - kill her child and I began several years of alcohol abuse & chronic promiscuity. After all I needed to numb the psychological pain I was experiencing. The guilt and shame separated me from family & friends & aspirations and goals for my future.
- 7) How has your abortion affected others in your life? They have (my children) a sense of sorrow over the loss of a family member.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? To have their child and consider adoption or parenting depending on their circumstances. To think of long term consequences and consider the life of their baby as valuable.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? An unborn baby is a person with God given life and God given value. It should not be killed as a measure of birth control or population control.

7) How has your abortion affected others in your life? they have had to learn to love a whole new person because I will never be the same daughter, mother, or wife again.

8) Based on your own experiences, what would you tell a woman considering abortion? ~~that this decision will be one she will remember forever!~~

9) Based on your own experiences, what would you tell a court that believes abortion should be legal? That this decision will be one she will remember forever! No matter how hard she tries to forget.
* That anything that destroys a persons worth should not be legal. They teach doctors to save lives even if it's just one, well if what I have to say saved just one women from putting herself through the agony of what I went through and saving her baby for her than its worth every tear I've cried to God.

BEFORE ME, the undersigned authority, on this day personally appeared, R. [REDACTED]

C. [REDACTED] (Print Name),

who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your abortion occurred: January, 9 1991-Roanoke Virginia

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I was very scared and it has been a long time ago. My memory is vague but a woman did talk to me briefly before the procedure.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No information on breast cancer that I can recall. I have not had it and don't that I know of.

4) Did anyone pressure you into having an abortion? If so, who? absolutely-my boyfriend at the time-thought his father would disown him

5) How has your abortion affected you? Since my abortion I have lived with @14 yrs of emotional pain in the forms of depression every year around that time due to the guilt and unforgiveness for myself, along with unhealthy sexual relations with my husband, not to mention at least two miscarriages and a stillbirth at eight months into a pregnancy all after having had the abortion, that I'm not sure weren't somehow related. I now have two beautiful daughters whom I love with all my heart but dread the day that could come when I would have to explain why I would have done such a horrific thing.

6) How has your abortion affected others in your life? Although my boyfriend at the time insisted that this was our only option, I can't imagine that he does not have a lot of problems with guilt too, considering he later became my first husband who fathered the miscarriages and the stillbirth(we divorced shortly after)The knowledge of my abortion also devastated our sisters and the following stillbirth was very hard on our friends and family, of course. My present husband has certainly missed out on healthy intimate relations between himself and I. My first husband and I were also very young at the time-19&16yrs.

7) Based on your own experiences, what would you tell a woman considering an abortion? I would explain to her as much as she would allow me to- the details of my own experience and the past 14 years -- the ways in which this mistake has robbed me, especially of the joys of mothering those children. I would emphasize the fact that there are people in our society that believe a lie about unborn BABIES and they are DEAD wrong. I have paid the price and painfully earned the right to state that FACT.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion does not protect women's health, it deteriorates it. It could even be the beginning of her decline in health-spiritually, emotionally, mentally, and physically. I know women are raped and become pregnant in some horrible ways, but this is not the answer. If a court is supposed to stand for justice they should start at the very beginning with those citizens who are not yet able to speak for themselves. Judges are supposed to be honorable. Honor does not contribute to the destruction of women and children. I would also ask that they do everything in their power to inform the public, especially young women about pregnancy help centers and about other alternatives to abortion. I have read the above and foregoing statement and the same is true and correct.

 - 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Do not remember. Was probably given pre-admission paperwork to sign, but I don't recall. If so, I didn't read it. I was 19 years old, afraid and alone.
 - 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NOT YET
 - 4) Did anyone pressure you into having an abortion? NO If so, who? _____
 - 5) How has your abortion affected you? Tremendous guilt, sorrow, anguish. Panic and fear during subsequent pregnancies. Secrecy and shame. Compelling need to perform in an effort to make up for my past.
 - 6) How has your abortion affected others in your life? Inability to bond with my first born, over protection of my second born child, and many problems with my spouse. Strained relationship with my parents.
 - 7) Based on your own experiences, what would you tell a woman considering an abortion? If you are fortunate to escape any physical complications, you can't be certain you will NOT escape the emotional consequences. It will be with you for the rest of your life.
 - 8) Based on your own experience, what would you tell a court that believes abortion should be legal? That they obviously do not realize the harm they are bringing on women. Abortion does not help women, it hurts them tremendously. It is not a solution for unwanted pregnancies, but rather an additional and worse yet unwanted problem a woman will be forced to face and deal with later in her life.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 1962 in Seattle, Wa.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?
No I was not informed of anything
- 4) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 5) Did anyone pressure you into having an abortion? yes If so, who? my sister
- 6) How has your abortion affected you? for the first 3 nights afterward, I dreamed that I had the baby but kept it hidden under my bed so no-one would take it away from me. Since that time, for 39 years I have suffered much guilt & depression. When I look at my 2 daughters and my 6 grand children, I wonder what my aborted baby would have been like & have suffered much (largest over the fact that I allowed my baby (3 month gestation) to be mutilated & cut up in little pieces. I have also consented my sister, even after her death, that she influenced me to get the abortion.
- 7) How has your abortion affected others in your life? It has served a hardship on family & friends, who down through the years, have tried to console me but have not succeeded.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Abortion is one of the most self-destructive things a woman could do. It is a severe prescription for adverse emotional & mental issues for a lifetime & a slow form of death & suffering.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? On the wall in most doctor's offices is the Hippocratic oath which is a promise to preserve life. What a contradiction. Abortion not only is the most cruel of deaths to the unborn baby, but has been a cause of much grief and regret in my own life.

ABORTION IS A HOMICIDE!

AFFIDAVIT

County of Yakima

BEFORE ME, the undersigned authority, on this day personally appeared S [redacted] P [redacted] (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:"

1. Tell when and where your abortion occurred: July 29, 1985 in a doctors office in Bellingham, WA.
2. Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: I was "counselled" at Planned Parenthood. They told me it was a good option, and made it sound easy.
3. Were you adequately informed of the consequences of abortion? NO
4. Were you informed of any link between abortion and breast cancer? I don't think so.
Have you had breast cancer? NO
5. Did anyone pressure you into having an abortion?
If so, who?
6. How has your abortion affected you? It affected my whole life. I felt guilty + ashamed. I felt I didn't deserve good things. I immediately gained lots of weight + drank. I later married someone I shouldn't have then divorced. I feel it poisoned everything I thought, felt or did.
7. How has your abortion affected others in your life? I pushed people away + they didn't know why. My family knew I wasn't ok, but didn't know why. It also affected my ex-husband negatively + he didn't know why.
8. Based on your experiences, what would you tell a woman considering an abortion? I would tell her the "easy solution" is NO solution at all. An abortion only makes the problem go away for a very short time, then it creeps back in + grows bigger with time. "It" doesn't go away.
9. Based on your own experience, what would you tell a court that believes abortion should be legal? A fetus is a baby. A live baby is a live human being. To terminate is to kill. Killing a live baby is murder. When this sinks into a woman's mind it's too late. She can't bring her baby back + this is a terrible truth to try to live with. Her life stops with the knowledge she killed her child.

BEFORE ME, the undersigned authority, on this day personally appeared Mary J. Perrin (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:"

- Tell when and where your abortion occurred: February 14, 1990 at Planned Parenthood in Seattle, WA.
- Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: yes.
- Were you adequately informed of the consequences of abortion? No.
- Were you informed of any link between abortion and breast cancer? No.
Have you had breast cancer? No.
- Did anyone pressure you into having an abortion? No.

If so, who? _____

- How has your abortion affected you? Immediately afterward, I fell into a state of extreme grief and depression. I contemplated suicide. Fortunately, an acquaintance interceded. I heard the story of the Gospel and became a Christian.
- How has your abortion affected others in your life? No others were informed, except the baby's father. I cannot say how the abortion affected him.

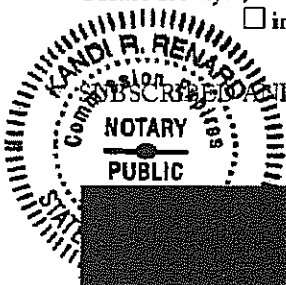

- Based on your experiences, what would you tell a woman considering an abortion? It may seem like a simple solution to you at this time. However, you have no way of understanding the feelings you may have afterward. A friend or relative may tell you she is pregnant. You will need to be happy for her. You will watch her child grow. You will remember your abortion, the date, your baby's expected due date, annually.
- Based on your own experience, what would you tell a court that believes abortion should be legal? The freedoms we enjoy in America are precious. They are continually being eroded by ever increasing encroachments on personal freedom of choice by the formation of new laws. I am required, by law, to wear a seatbelt when driving or riding in a car; to reduce harm to myself in the event of a crash. How much more harm, emotional/psychological, have I been allowed to cause myself through the choice to kill my unborn child?

- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? Yes If so, who? a woman named Peaches who worked at a family planning clinic in Rockland, Maine. She said she had had one, it's no big deal. What a lie.
- 5) How has your abortion affected you? I became disoriented from what actually happened but carried the shame deep in my soul. It was a deep wound that surfaced after my daughter was born 5 years later. I searched for peace but none came until 1992 I asked Jesus to forgive my sin & cleanse me of the shame. Until that point there was a scarlet "A" on my forehead for aborting a baby killer. It was only then that I had peace. I will always carry the scar of abortion but not the shame.
- 6) How has your abortion affected others in your life? I have withheld myself from people because I was damaged goods. I also was angry alot & it wasn't because of anything anyone had done.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? If having a baby is not in your plans, give your child a life by ~~not~~ carrying the baby to term & allowing another family care for that child. It is an act of love to allow childless couples to have your child & carry for him.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? It may be legal but we are not God who gives life. Abortion is the killing of an innocent child. The scars of abortion hurt women & the people around them. We talk about the rights of the woman but her child has God given rights to life also.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

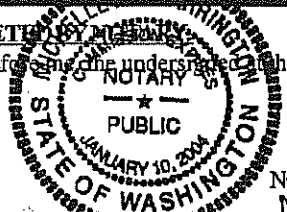

- 1) Tell approximately when and where your abortion occurred: MARCH 1974
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No. Dr. Patterson lied to me, saying that my 8wk baby was a "blob of cells" which he would vacuum from my uterus. I should then rest for the rest of the day after which I'd be fine.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? NO If so, who? _____
- 5) How has your abortion affected you? Guilt. Shame. Years (at least) of repeated bouts with serious, suicidal depression. After having married in 1989, became pregnant with our 1st child we were ecstatic. Troubles developed. At 7 weeks we were reassured by sonogram that baby was OK. I watched its little heart beat. At 8 weeks (May 1990) I miscarried our precious baby. Held in my hands and wept over our tiny, fully formed baby and the lie I had believed - "blob of cells" - "not human" - in 1974. I knew myself to be a murderer, capable of the most heinous crime against the most innocent of humanity.
- 6) How has your abortion affected others in your life? Not told no one except the genetic father. Went through this black time in my life utterly alone, having broken off with the father, and unwilling to disappoint friends and family by admitting my succession of devastating choices.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? An adult act got you pregnant. With it goes adult responsibility. What grows in your womb is a precious human life; a miracle. If you turn from your very womanly, natural inclination to nurture that precious life, you are choosing murder. The results to your own psyche, emotions, and physique will be long-term and
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion must not be far-reaching. A civilized people protects the weak, the infirm, the defenceless. For 30 years now our nation has been a nation of barbarians, heartless and cruel, murdering 43+ millions of innocents in the U.S. and trying to force this barbarism on nations worldwide. The consequences to our society as a whole have been devastating. The consequences to me personally were debilitating and repeatedly nearly deadly. I reject the lie of the "blob of cells", take responsibility for my actions, choose to nurture, to value all human life. I choose to be civilized. For the sake of the naive, like me, who thought "if it's legal, it must be OK", please overturn Roe v. Wade and Doe v. Bolton.

- 7) Based on your own experiences, what would you tell a woman considering an abortion? Abortion doesn't fix a problem, it kills a baby. AFFIDAVIT

BEFORE ME, the undersigned authority, on this day personally appeared Sherry L. Varkonyi (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:"

1. Tell when and where your abortion occurred: Early fall, 1969, in a hospital in Los Altos, California.
2. Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: The medical procedure was explained, but I did not understand what would happen to the baby.
3. Were you adequately informed of the consequences of abortion? No. Post abortion syndrome was not mentioned - that this would be a negative emotional experience, I would never forget. I did not know I might become sterile or could die.
4. Were you informed of any link between abortion and breast cancer? No.
 Have you had breast cancer? No.
5. Did anyone pressure you into having an abortion? No. But neither was I given options other than marriage or a safe place to talk about those options.
 If so, who? ---
6. How has your abortion affected you? It has been a central issue in my life that would have been totally negative had I not come to Christ because of it. It took a lot to become pregnant again, once married - then with a living child, I knew what I had lost in the abortion of another child.
7. How has your abortion affected others in your life? My parents were concerned about my being ostracized if this were found out. They lost a grandchild. Of course, it was stressful to everyone. It was difficult to tell my fiance. It is never easy to share this with others.
8. Based on your experiences, what would you tell a woman considering an abortion? At a crisis time, it is easy to think abortion will solve everything. It solves nothing but can harm you physically, emotionally + spiritually. It can cost you relationships - the father, other family. It kills a child.
9. Based on your own experience, what would you tell a court that believes abortion should be legal? Legalizing abortion does not help the woman it seeks to protect. There is no way she can know how she will feel about a child 'til she has one. The trauma of post abortion syndrome is real - wounding each person differently but deeply.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:"

1. Tell when and where your abortion occurred: Oct. 1989; Yakima, Wash.
2. Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: I don't feel that I was well informed; do recall being 'talked to' in a room with about 10 other women prior to procedure & being shown tools.
3. Were you adequately informed of the consequences of abortion? No
4. Were you informed of any link between abortion and breast cancer? No
Have you had breast cancer? No
5. Did anyone pressure you into having an abortion? Yes
If so, who? my boyfriend & one girlfriend of mine
6. How has your abortion affected you? It caused anxiety, guilt, depression, emotional detachment from others & more until I sought counseling 7 yrs. after. (Now I lead a Post-Abortion Counseling & Education Class.)
7. How has your abortion affected others in your life? It caused guilt & sense of loss for the grand-parents & a sadness in my eventual husband. We had many communication & other problems, including difficulty w/ intimacy until I received healing.
8. Based on your experiences, what would you tell a woman considering an abortion? "I would tell her it would be the worst/most devastating decision of her life. It is a human being. The 'quick-fix' solution of abortion is really a band-aid that quickly falls off & exposes the most horrible, bloody, raw, life-changing wound she could ever imagine."
9. Based on your own experience, what would you tell a court that believes abortion should be legal? that, thanks to Roe vs. Wade I suffered for 7 long, depressing years, lost all hope and motivation & that thousands of women are victims of abortion & its after-effects. Women were created to nurture & love their children--not to

BEFORE ME, the undersigned authority, on this day personally appeared Stephanie Yeazell (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: January or February, 1972. I was 19 & just starting college
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No. I was lied to. The women's "counseling center" gave me the phone # of a clinic, & told me to "do what I thought best, that was all their counsel. At the clinic, they told me it was not a baby, but a dividing cell.
- 3) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 4) Did anyone pressure you into having an abortion? yes If so, who? The people in the clinic. I was afraid of being pregnant, but also of the abortion. They bullied me about my uncertainty
- 5) How has your abortion affected you? I carried the guilt of that abortion for the next 11 years; for 5 of those years I was a Christian who, though pro-life, was so traumatized by what I had done that I was afraid for anyone to know it. Before I got saved, I used to get drunk or stoned sometimes, and talk about when I murdered my baby. It made people very nervous, & I told them that if I went ever pregnant again, I'd be a mother, because I could not do it again.
- 6) How has your abortion affected others in your life? It was a secret my sisters had to keep for me, & it cost me a friendship: a high school friend of mine, a guy, who drove me to DC, but was too horrified to be my friend after that.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I have known many women like myself, ragged with pain + guilt - & women whose lives were positively changed by their unplanned babies. The horror of taking a life is far worse, & more long-term, than a child's birth. He had recently done the same for his girl-friend, & didn't want to do it again because life is far worse, & more long-term, than a child's birth. he saw her devastation.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I would tell them that few women, if they really understood what they were doing, would choose abortion. And I would tell them abortion is infanticide. I knew that the day I walked out of that clinic, long before I believed in God. The depression and hopelessness lasted far longer than the pain of my first foolishness. I do not believe this is a matter to be decided by the suffering of women who made a mistake: the abortion industry is about the lucrative exploitation of women made vulnerable by fear.

They bullied me when I pressed for more details. A week later at a Right to Life table in the student union I saw photos of the aborted remains of a baby the same age as mine, with little toes + fingers. The clinic had refused to show me what they removed. I relived the horror of what I had done for years. Had I known before hand, I would not have done it.

At the age of fifteen I found myself pregnant with my boyfriends baby. I immediately went to Planned Parenthood to confirm my home pregnancy test. After a positive test result my boyfriend and I were taken to a room where a woman explained the abortion process. No other choices were offered to us. At the time I'm not sure if we would have listened, but I regret that the other choices were not readily offered to us. After agreeing to have an abortion it was completely set up and paid for by the state. All I had to do was go and fill out some paperwork, have a blood test, and give them an address to mail me medical coupons. They explained to me to give an address where my parents would not get my mail, so that I did not have to tell them.

The abortion was done by a nurse and doctor that were quick and cold. I was only given morphine and once completed, told that my clothes were under the chair. I was left in the office room drugged, bleeding, and by myself to get dressed and leave within minutes of the procedure. I left to go home that day not realizing that the physical pain I felt would only last days but the emotional pain would be a lasting scar.

I aborted my child in 1993, four years later I married a wonderful man and we now have two beautiful little girls. After going through two miscarriages and then finally having my first daughter I began the healing process to forgive myself for my selfish choice and allow myself to feel God's forgiveness.

I will always feel shame, and guilt for the choice I made. I will always be working on dealing with the doubts of how I might be punished for my baby's death. I will always have to remind myself that I am not the person today that I was then. I want every person to know that sex is a wonderful thing, but something that should only be shared between married mature couples, because it can change your life in a second. I want every person to know that if that change happens you have a choice no matter what age you are. How can it be the wrong choice to make a child proud that you gave them a chance at the life God wanted for them? I wish I could someday tell my daughters that I once made a mistake, but chose to allow that mistake to be a beautiful child. I only hope and pray that this freedom of choice can be eliminated so that pain and death can be turned into sacrifice and life.

Answers to questions for Women who have undergone abortion:

- 1) I had an abortion in March 1982, at a Planned Parenthood abortion clinic in Hollywood, California. First I want to clarify the situation I faced at that time.
After selling everything we owned, at the age of 15 my mother took my twin sister and I from Bellevue, Nebraska to Hollywood to join the cult, Scientology. I was only able to escape its insidious grasp on my mind after marrying a man who is still to this day my husband and was involved in Scientology at that time. Being young as I was and never living outside the control of my mother or Scientology I felt I had no safe way out (especially being in Hollywood) without the help of my husband who was 6 years older than I and more experienced in the ways of the world. The 7 years of involvement in Scientology took a great toll on my emotional well being. Having been suicidal while involved and experiencing major depression and for most of the 7 years I was there, followed by post traumatic stress for many years later, I was an emotional wreck. Scientology also influenced me to seek an abortion because of the implications made by its teachings though it was never said outright. It teaches reincarnation, and the ultimate goal is to be released from all the encumbrances caused by the mind and body from past experiences in previous lives so that one no longer even needs to depend on or need a body any longer, in order to be truly spiritually free. This to me meant, "life is cheap this baby will just come back and get a new body, no big deal"? Oh, how ignorant and brainwashed I was. Even though I was married when I found out I was pregnant I was terrified. I felt I had nothing left in me to give out any longer after being used and abused by this cult that dares to call itself a Church. I felt I had been used up and completely drained and void of everything that once was ME. I felt I had no tolerance for pain no matter how slight whether physical or emotional. I in no way could I conceive myself being pregnant nor giving birth to a child. I knew in my heart I would most certainly have seriously abused it. My husband left the choice up to me whether to have an abortion.
- 2) When I came to the clinic I was seated with my husband to watch a video on abortion. I can't remember all the details but recall that it explained the procedure and potential complication. I don't recall any detailed info about the fact that this was a fetus or a baby. I am appalled that Planned Parenthood calls itself "pro-choice" because they gave me **no** other choice, like adoption nor support for that type of option. They aren't really Pro-Choice.
- 3) I was only informed of the physical complications. There was never any discussion about the inevitable emotional complications.
- 4) I don't believe there was any information at whether abortion contributes to increased risk of cancer. I have not had breast cancer. I did have leukemia in 1988. Was diagnosed Christmas of 88', and underwent 2 years of chemo-therapy and radiation. The doctor gave me a 15% chance for survival but in 2 weeks the leukemia was gone!!
- 5) No pressure was placed on me to have an abortion
- 6) Immediately after the abortion I felt a sense of relief. But because I have had a lifetime of "stuffing" my emotions I had no awareness of the serious trauma that

had just occurred. I had just committed murder. Even though my mind could not accept that my spirit and body knew exactly what had just happened, and they did every thing they could to get through me to see the truth. God places a conscience in each one of us whether we choose to submit to it or not. And I had chosen not to see the truth.

- 7) For one year following the abortion my menstrual cycles became unusually painful with expulsive contractions and extraordinarily heavy flow of blood. I usually had no pain and very light cycles. I also remember being very obsessed with making very realistic soft sculptured baby dolls. All the while struggling with depression and post-traumatic stress and trying to find out who I was. One night almost a year to the date of my abortion, I was lying in bed with very painful contractions and heavy flow of blood during my period. I suddenly thought, "This feels just like that abortion!" And in an instant the pain subsided and the bleeding stopped! My body was reliving that abortion every month for a year until I realized what was happening. But that was just the first step toward healing. I hadn't yet grieved the loss yet. That didn't come until 10 years later. While I was driving home from work one day and the thought of the abortion came to mind and I suddenly became so engulfed with grief and pain I couldn't stop crying. I convulsed in agony with full recognition of WHAT ABORTION REALLY IS!!! And that I had destroyed an innocent life, my own flesh and blood! I had a close friend who as a teen was sexually abused and forced by her mother to have several abortions, one on her kitchen table!! I called her and she prayed with me for a while to help calm me down. The next day I called the local Crisis Pregnancy Center that had Post-abortion Counseling, and sought help there. That is how abortion has affected my life, and I live everyday knowing a large part of my life has been ripped from me. To say that abortion is "A Constitutional RIGHT" is repulsive! It does NOTHING for a woman's health and well-being. It causes death and loss and great pain because ABORTION IS MURDER!
- 8) I would tell a woman seeking abortion to not even go near a Planned Parenthood Clinic. They DO NOT GIVE YOU A CHOICE!!! To seek help at a Crisis Pregnancy Center where they can truly give you a wide range of choices and options and support along every step of the way. You may not experience any affects from the abortion right away but the pain is still there whether you want to confront it or not and your day will come like mine did whether its here on earth or when you have taken your last breath and face your Heavenly Father to give an accounting of your life. **You will eventually one way or another face the truth about your abortion!**
- 9) I have pondered greatly over this question. I believe abortion should not be considered a RIGHT. It is what it is, murder. I believe abortion cannot be abolished unless it is fully recognized as murder on all levels of society and if CHOICE in the fullest extent of the word is established in medical clinics; and pregnancy and LIFE support is offered rather than bondage and death. Pregnant teens and women aren't given a choice when they enter a Planned Parenthood Clinic. Their only option is abortion! One does not have to look far to see what the original intention of Planned Parenthood was and still is, it has never been to empower women but to demean them, especially women of color. The original

intention was to legalize genocide, to eliminate blacks and other minorities from our culture! But now that our culture is brainwashed to think abortion is a Right of all women, it will never be outlawed. If the Black women of America knew the truth they would be outraged.

The day of the abortion came and went as if I were in a very bad dream. I remember the requirement of having to pay the fee (\$125) in cash prior to the procedure, or no procedure. I remember emotional numbness and humiliation with the whole thing, and just trying to pretend that it wasn't really me that was doing this.

But it was me and 'it' didn't just go away and my life did not return to 'normal'. 'It' was a precious human life, not a blob of tissue, but a baby. I sacrificed a child on the alter of my own pride and selfishness and I have never been the same. If my child's life was only worth \$125.00, what was my life worth? I began a decent into drugs, alcohol and relationship after relationship, never loving, just being "loved". Abortion is a lie and the legality of it does not make it 'right'. It steals all innocence, it kills the baby and it destroys women's lives.

Three years after my abortion I married a man who was an alcoholic, angry and verbally abusive. Our first year of marriage was hell, but hell sometimes motivates people to change. My husband sought help through AA and a friend at work answered his questions about God. In July of 1980, he gave his life to Jesus Christ. I thought he was crazy and I knew we would end up in divorce court, but God had other plans for me.

Three months later I became pregnant with our first child. I was ecstatic (I even began to tolerate my husband's Bible readings) but my joy was short lived. My doctor informed me that I had an STD and I would need additional testing. I was devastated. It seemed like the final blow to a wasted life. I tearfully informed my husband of my problem and then went home to cry. As I lay sobbing I just kept thinking what a complete mess I had made of my life. I had been so proud of how 'in control' I was but it didn't seem to have gotten me where I wanted to go. I wondered if God would want such a miserable life, so I told Him He could have it, if He wanted. I got up and washed my face and went out for a walk. Somehow I knew something had changed and I would be o.k. no matter what happened. I had more testing, but when the results came back it turned out there had been some kind of 'clerical' error and I was 'clean'.

Seven months later I gave birth to my son, perfect and healthy although he was born 2-3 weeks prematurely, do to the weakness of my cervical muscle (probably damaged as a result of the abortion). I had to have six weeks of complete bed rest at the end of my second pregnancy to avoid premature delivery and 12 weeks at the end of my third pregnancy, but I considered it a small price to pay for my beautiful children. We desperately wanted a fourth child, but felt that the risk of losing the baby was too great, so we chose not to have any more children.

Little by little I have learned to love and to be truly loved. It began when I allowed God to love me with His pure love. I found His Innocence, His Life and His Hope and I will never be the same. I have also been involved at the Whatcom County Pregnancy Center for 6 years as a peer counselor and as a leader for the post-abortion bible study and yes, this year my husband and I will celebrate our 25th wedding anniversary because God IS Good.

I have read the above and foregoing statement and the same is true and correct.

I had an abortion in August 1972 at age 17. My boyfriend denied it was his baby and my father believed him. My mother feared for my safety, as my father was a violent alcoholic. Quickly, we scraped up the money and found an abortion clinic in town.

It was a terrible experience. I was told that it would be painless. They used a vacuum to suck the life out of me, and the noise still rings in my ears. I cried during the procedure and a nurse held my hands. I asked the doctor if it was a boy or girl and he said it was just tissue, not a baby. Afterwards, I was put in a ward with several girls and felt myself withdraw into a black hole. I was so empty and hurt and focused my anger on the boyfriend who had left me.

I went to high school in September and was determined to forget my past. The next spring, while volunteering as a candy striper in a hospital emergency room, the worst happened. A woman had a miscarriage and the nurses were examining the fetus in the back room where I was cleaning instruments. The fetus was in a bowl and they were casually discussing its development. I was shocked that this looked like a baby, so perfect with facial features and tiny fingers and toes. When I asked the gestation of the fetus they told me about three months. My head started spinning. I had been told my baby was just tissue when I had aborted it at two months. It was not a living person, just a mass. I panicked when the sickening reality of what I had done hit me. I wanted to run away but where could I go to get away from myself and the thoughts screaming through my head.

In 1997 we started attending a church that offered a bible study called HEART. It was for women with abortion related trauma. That experience has changed my life. I met other women that had been hurting like me; we all had our stories. I found God's love, healing and forgiveness. God pulled me out of my black hole of depression and I started living again, not just existing.

I have been married to wonderful man for 29 years and we have two adult sons with wonderful wives and three darling grandchildren. They have all loved and supported me through this devastating experience.

BEFORE ME, the undersigned authority, on this day personally appeared Jamie Renee Carte (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: November 1988 at "Women's Health Center" Charleston, West Virginia
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO, Not completely. I was told there would be a discomfort like a "cramp". It was terribly painful. But mostly now it affected my mind was the most painful. For the child died that day, but the child in my mind did not.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? YES If so, who? At the time I was spiritually lost, I felt I had no other choice. I was unmarried and my boyfriend cheated on me. I truly felt the pressure from the enemy himself, Satan. I listened to him and sacrificed my own child for the god of fear.
- 5) How has your abortion affected you? The shame of this sin, lets call it what it is, murder of my own child has had a lifelong effect. At first, anger that soon turned to rage overtook my life. I came against everyone. The secrets and hiding of it all lasted for years. When I'm in the presence of babies or small children, I began to feel uncomfortable. For the ones that knew, I felt was looking how I was around them. Now that I'm saved and in the ministry, I speak boldly to defend the unborn now. I speak that this is truly human sacrifices and not to do it, healing for those who have and praying for all of us to change it.
- 6) How has your abortion affected others in your life? It has broke my parents' hearts, and both of my sisters. When our dead family member - grandchild, niece or nephew is spoken of (and in front of crowds) we all still mourn. My husband, (not the baby's father) assists me with my pain.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? That the immediate "fix" to her pregnancy is a lie. That the decision is final. That it effects her family - you're taking away their grandchild, a niece, a nephew, a future brother or sister of your future children. Be strong! You can do this! God has chosen you - You'll help you!
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? That it being legal was all of our faults. We all were lazy and didn't fight the good fight. But now we can change our and our fore father mistakes. When a woman is in a "crisis" pregnancy, she is afraid, confused and desperate. We have to overturn this option for her. This is not against her. That our land is polluted with the blood of the innocent. (See Psalms. This is a holocaust.)

to be filled out by women who have had an abortion

The State of _____

County of _____

BEFORE ME, the undersigned authority, on this day personally appeared _____ (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Summer 1975, Washington, D.C. (Pre-term)
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Not at all. I was shown a tray full of all sorts of contraceptive options which just embarrassed me even more. That is the only canceling I received.
- 3) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 4) Did anyone pressure you into having an abortion? no If so, who? But being only 15 years old I was scared and didn't know what else to do. My parents did not find out about the abortion until several months afterward.
- 5) How has your abortion affected you? Tons of guilt and crying. Alcohol + drugs were a problem in my life from age 15-23. I felt shame + guilt for many years. At 35 (20yrs. post-abortion), I finally dealt with it between myself and God - I finally accepted His forgiveness and then I forgave the 15 year old child in me. Now at 43, I no longer have guilt but still have sorrow. I still get embarrassed when I fill out a medical form at the doctors office and have to list the abortion. I don't really like talking about it.
- 6) How has your abortion affected others in your life? I'm really not sure but I am very concerned how my only daughter will deal with it one day when she learns that she had a sister or brother that never got a chance at life.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Please don't. Abortions are dangerous. It is a human baby, a gift from God. There are so many other options you "will" regret it one day. It will always haunt you. You will never ever forget it.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Absolutely not. These are human beings, babies. God has given us the ability through technology to see inside the womb and even to see fertilization take place in a microscope. We "know" this is human life and as a civilized society with the "right to life" as one of our freedoms how can we possibly justify abortion which is murder. Women are being deceived. It is the cost of a life at the abortion clinic and the cost of a heart and possibly mental stability as well as physical problems later in life. Women have "I have read the above and foregoing statement and the same is true and correct." many choices, murder should not be one of them.

- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: Not really. I was told there would be a little clamping during the procedure, and there would be a tool with suction that would remove the fetus. There was no mention of how I would feel emotionally.

- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No, I was a teenager and all I knew was that I would no longer be pregnant. If I had an abortion.
- 3) Were you adequately informed of the consequences of abortion? No, I had no idea of the intense emotional strain that I would endure later in my life when trying to get pregnant and had numerous miscarriages.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? If so, who? Yes, both my parents (mainly my mother)
- 6) How has your abortion affected you? I was an emotional wreck for several years because I thought God was punishing me, by not allowing me to carry a pregnancy to term.
- 7) How has your abortion affected others in your life? I don't know - it has never been really discussed.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? DON'T DO IT!!! Life is such a precious gift. If you feel you can't take care of a child then adoption is the only answer.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is murder and should not be legal. Women need to be educated in all of their options such as a crisis pregnancy center where they can live until the baby is born and receive the proper support in their decision to either keep the child or give it up for adoption.

- 6) How has your abortion affected you? TOTAL DEVIATION, TOTAL SORROW, TOTAL SHAME, TOTAL REGRETS. I CAN'T BELIEVE I ACTUALLY HAD NOT ONE, BUT TWO ABORTIONS. IT IS WHAT I REGRET THE MOST IN MY LIFE - IT IS THE WORST THING I HAVE EVER DONE. AND THERE IS NO WAY TO MAKE RETRIBUTION. I RESIGNED MYSELF TO NOT BEING "WORTHY" OF EVER HAVING CHILDREN. WHEN I AGAIN GOT PREGNANT IN 1984 I COULDN'T ENJOY MY PREGNANCY AND LIVED IN GUILT + FEAR OF PROBLEMS, BECAUSE I FELT UNWORTHY TO HAVE A CHILD. I HAD TOXEMIA + HIGH BLOOD PRESSURE DURING PREGNANCY - I WAS STRESSED.

- 8) Based on your own experiences, what would you tell a woman considering an abortion? "PLEASE DON'T HAVE ONE." IT WILL BE THE GREATEST SORROW OF YOUR LIFE AS WELL AS YOUR BIGGEST REGRET. NOW THAT I HAVE A 17-YR. OLD SON I CAN TELL YOU THAT CHILDREN ARE THE GREATEST JOY OF YOUR LIFE!!!
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? IF A PERSON THINKS THAT ABORTION IS THE EASIEST WAY OUT - IT IS A HUGE MISCONCEPTION. ABORTION IS NOT ONLY THE DEATH OF AN INNOCENT CHILD, IT IS THE DEATH OF A WOMAN'S SPIRIT. ABORTION IS A WOMAN'S GREATEST REGRET + SHAME. 1) Tell approximately when and where your abortion occurred:
Summer of 1987 - Volunteer Women's Medical Clinic - Knoxville, TN

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?
Of course not!

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer?
No!

4) Did anyone pressure you into having an abortion? If so, who?
No

5) How has your abortion affected you?
It was the worst experience of my life! I went from being one of the happiest & ambitious teens my friends knew, to wanting nothing more than to be dead! I suffered for 20 years in silence, never telling anyone. I have since found forgiveness & healing, but will forever regret my abortion & will do everything I can to help end it.

6) How has your abortion affected others in your life?
Most family & friends did not know, however, I believe most if not all of my mental break downs & social & psychological problems were due to my abortion.

7) Based on your own experiences, what would you tell a woman considering an abortion?
It will not solve your "problem" but will only cause a new set of problems & make your situation worse. You can not prepare your self for the devastation you will experience. There are so many resources and help from numerous organizations who can assist you & so will I!

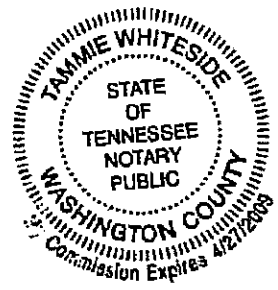

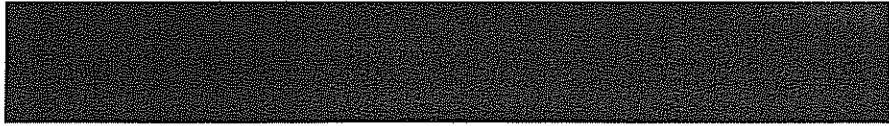

8) Based on your own experience, what would you tell a court that believes abortion should be legal?
Women should not be denied basic rights; however, these rights should not require the death of the innocent. This undermines the foundation of rights themselves. Freedom should not allow women to do whatever we wish w/o limits! Most of all, we are finally recognized as equals, but we fail to stand up for the equality & rights of our unborn women!

That individual, even though may be unborn, possesses his or her own unique genetic identity - completely separate from the mother. From conception, they are a complete human being, lacking only growth & development. Killing this human should not be legal just so we have the right to "choose." Choose what!

COUNTY OF JEFFERSON

Before me, the undersigned authority, on this day personally appeared L. M.
P. (Print Name) who, being by me duly sworn, upon oath, stated the following facts:

My name is L. M. P. (Print Name). My address is
[REDACTED] I am
over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

I relied on drugs and alcohol to ease the pain of rejection from both my parents and other related issues for many years. During a not so uncommon alcohol and drug induced haze, at the age of 17, I became pregnant. I was convinced bringing a child into my chaotic world would not be fair and opted to abort the "mass of cells" before it could change into a baby. (Possibly even a deformed baby from my addictions.)

I confided my pregnancy to a friend who drove me to have the abortion. Two days afterwards, this friend ended up rushing me to the hospital. I was quickly admitted and treated for severe hemorrhaging and an infection. It seems prescriptions are given after the abortion procedure to help prevent such complications. I didn't know this, I never received any. Not a good indication for "informed" consent or adequate counseling prior to such a life altering experience.

Due to my being under 18, the hospital had to have a parent's signature to treat me. (How ironic a hospital should need parental consent to save my life but, I could choose to have a surgical procedure to end my unborn child's life.) My mother was contacted, told what happened and asked to come sign the consent papers. Before leaving, she visited me just long enough to say the words that still burn my heart, she called me, "Baby killer". To make it worse, being under 18, despite why I was in the hospital, I was placed in Pediatrics for my long stay. How horrible to hear children's voices day and night, along with their loving parents praying for their speedy recovery, after what I had just done.

I didn't fully learn until four years later how accurate my mother's baby killer description could be. I was married and pregnant with our first child. Due to complications, I had a sonogram at eight weeks. I couldn't identify much but, one thing caught my eye very quickly, the heartbeat. My own heart felt as if it were going to burst in my chest. If my son's heartbeat was so easy to recognize at eight weeks, certainly my first child would have had a heartbeat at eleven weeks when I aborted. I had unknowingly stopped a beating heart. The horror of what I had done hit full force.

It has been almost 12 years since my abortion. I began counseling a few months ago to deal with the years of guilt and shame that accompanies me over my "choice". I would never wish the pain and regrets I have experienced on anyone, even those who continue to support abortion. I can only reason they do so because they are unaware of the price your body, mind, spirit and baby pay. Recovery is a very long hard road.

Can it be correct to consider killing anyone acceptable due to the stipulation - he/she has not passed through their mothers' birth canal? This seems to be the defining line that makes abortion legal and child abuse/neglect/murder illegal.

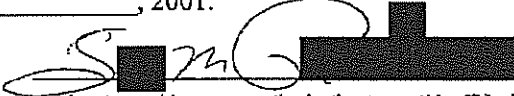

A tragic mistake was made in January of 1973. Please overturn Roe v. Wade and correct one of those times when millions of victims "fell through the cracks" of our legal system. Put justice back where it belongs, on the side of innocent victims, especially those who are unable to speak for themselves.

I have read the above and foregoing statement and the same is true and correct.

- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? The experience is very traumatic for the woman because of the emotional attachment to the child. It is similar to the loss of a loved one, to death but there is no funeral or chance to grieve. It is murder.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: 1980 in Milw. Wisconsin
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? NO If not, explain: There was not extensive conversation except that the first 6 weeks, I was carrying tissue + this tissue was not a baby.
- 3) Were you adequately informed of the consequences of abortion? "Not at all." I was not told that there would be any consequences.
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? NO If so, who? but Planned Parenthood instructed me that this was best option to do before 6 weeks gestation, since it was "tissue at this early stage"
- 6) How has your abortion affected you? Yes, I've had 2 premature births, one in 1985 (26 weeks gestation) + the other born at 32 weeks after being bed-ridden + not able to care for my first-born. I felt so much sadness + still do, 20 years later.
- 7) How has your abortion affected others in your life? My husband + I grieved over the loss of not having more children. My OB-GYN (High risk doctor) insisted I have a tubal ligation due to not able to carry my pregnancy to full-term + almost having to have hysterectomy.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? There will be consequences to future pregnancies; depression after; premature births; non-healthy pregnancy; regular hospital stays during the pregnancy. Fear of not having healthy children + sex life to follow.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? After reading women's testimonies of their abortion experiences + the unhealthy consequences, abortions should be out-lawed + made illegal. The risks are too great + will affect you a lifetime!

1. Tell when and where your abortion occurred: 1975, Los Angeles, CA (Clinic)
2. Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: I don't remember leaving my stomach explained to me about the procedure just where to go and when. During the procedure they gave me laughing gas to distract me from the pain.
3. Were you adequately informed of the consequences of abortion? no, it was presented as the best and probably the only solution for an unwanted pregnancy
4. Were you informed of any link between abortion and breast cancer? NO
Have you had breast cancer? NO
5. Did anyone pressure you into having an abortion? not pressure, but no other alternatives were offered.
If so, who? Planned Parenthood and the clinic dr I was sent to.
6. How has your abortion affected you? Physically, I had a very bad infection which caused a lot of scar tissue and I needed a medical procedure (D&C) to resolve the problem. Also there was the emotional trauma of grief, guilt and shame that followed.
7. How has your abortion affected others in your life? The father was very hurt over the loss of his child.
8. Based on your experiences, what would you tell a woman considering an abortion? Its not the best solution or the easy way out, its destructive and causes more problems than it solves.
9. Based on your own experience, what would you tell a court that believes abortion should be legal? Why should a woman be allowed to have her babies killed and possibly traumatize her body when there are better alternatives when there are not two victims.

- 8) Based on your own experiences, what would you tell a woman considering an abortion? I WOULD EXPLAIN THAT ABORTION IS A LIFE CHANGING EXPERIENCE. IT IS NOT FOR THE BETTER. ONCE CONCEIVED A BABY IS A BABY THEY WILL HAVE TO LIVE WITH THE FACT THAT THEY DECIDED TO KILL ANOTHER HUMAN BEING.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I WOULD TELL THEM THAT THEY DO NOT HAVE ALL THE EVIDENCE. WITH THE ADVANCES IN MEDICINE IT IS PROVEN THAT A BABY IS A BABY ON CONCEPTION. TO MAKE ABORTION LEGAL, THEY ARE LEGALIZING MURDER.

- 3) Were you adequately informed of the consequences of abortion? No I was not told of any consequences.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? If so, who? Yes. Mostly my parents but also my then boyfriend.
- 6) How has your abortion affected you? Very low self-esteem. Started drinking a lot and sleeping around. I just didn't care what happened to me. I also have felt undeserving of being treated with respect.
- 7) How has your abortion affected others in your life? They have had to put up with my mood swings, insecurities and over protection. Also, the distrust of people.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? Not to do it. This is not an easy out as a lot think. This is only the beginning of a personal hell!
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? No one has the right to take a life no matter what! Most women don't understand the emotional roller coaster you'll go through from this. The pain you experience every "anniversary" of the abortion and the month the baby should have been born!

BEFORE ME, the undersigned authority, on this day personally appeared J K [redacted] (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- July 1988, Madison WI (Bread + Roses)
- 1) Tell approximately when and where your abortion occurred: February 1993, Madison WI (Bread + Roses)
 - 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? no, I was not adequately informed of the nature + consequences of abortion
 - 3) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
 - 4) Did anyone pressure you into having an abortion? no If so, who? But I felt like I had no other choice - in both cases, I was in such a panic, I needed help!
 - 5) How has your abortion affected you? I was in denial for many years after my abortions. When the pain of what I'd done began to surface + I began to heal, I understood finally how deeply I'd been hurt. I was afraid to be around babies, I felt unworthy to be a mother, I was afraid of myself, I was terrified to go to the doctor. If I ever had other children I was sure afraid they would be born handicapped, as a punishment for what I'd done.
 - 6) How has your abortion affected others in your life? I have taken two grandchildren from my mother, nephews or nieces from my brother. I haven't been able to trust ~~any~~ the men in my life.
 - 7) Based on your own experiences, what would you tell a woman considering an abortion? I would do all I could to discourage her. Abortion leaves a woman wounded for life, + her child dead. I wouldn't want anyone to go through what I've been through, + will live w/ the rest of my life.
 - 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Based on my own experience, I would tell the court that abortion should be illegal. Abortion is absolutely not a solution to an unplanned pregnancy. There are loving alternatives, like adoption, or really caring for the woman through + after her pregnancy. We must make abortion illegal again - if we care about the lives of women + children!

- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I was a very heavy drinker back in college + I remember just wanting to get things over with. I know they explained the procedure but didn't discuss any difficulties it may cause down the road.
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? yes If so, who? the last one in 1982 - my parents had a big influence because I told them about being pregnant that time.
- 5) How has your abortion affected you? yes I believe it has. Although I have 4 children of my own from 1992-2002, I went through drug + alcohol abuse all before having them. I believe those years had a lot to do with being depressed about the decisions I made regarding my abortions. I thank God that I could have children but there are days I get very sad over the choices I made regarding abortions. Now I realize I did choose murder. Abortion - no matter what time (once a woman is pregnant) during her term is choosing to stop a life continuing to live. It's the beginning of a life the minute she conceives. Abortion terminates life!
- 6) How has your abortion affected others in your life? yes. My parents because they couldn't believe I even had sex. My older children (teenagers) cuz they were learning about it at school + I shared my story as to why abortion should never be allowed. And tears came to their eyes + I said I could have a half brother or sister. And then said I'm glad you didn't do it with me.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Do not do it! It will be with you the rest of your life. It can really hurt you - if not now - later. Many others will be affected by it to. You may not think so but they are. It's not just about you!!
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Do not allow it! Too many people are affected by this. Especially the one who thinks she'll be ok. She isn't - it's truly murder!

2. Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: I RECEIVED SOME INFORMATION WHICH I DIDN'T READ EXCEPT EXPLANATION OF THE TIME OF MONTH A WOMAN IS MOST LIKELY TO GET PREGNANT. I WAS COMPLETELY PRO-CHOICE AND DIDN'T WANT ANYTHING TO CHANGE THAT.
3. Were you adequately informed of the consequences of abortion? THROUGH THE PRINTED INFORMATION FROM THE CLINIC, I DON'T KNOW (SEE #2). NOT VERBALLY BY THE DOCTOR. "AUTHORITIES" OF THE PRO-CHOICE ADVOCATES CLAIMED ABORTION WAS SAFE - I TOOK THEIR WORD FOR IT.
4. Were you informed of any link between abortion and breast cancer? VERBALLY - NO.
Have you had breast cancer? NO. IT IS IN MY FAMILY BUT I BELIEVE I INCREASED MY CHANCES W/ THE ABORTION.
5. Did anyone pressure you into having an abortion? NO. ONE FRIEND WARNED ME OF TIME CONSTRAINTS IN THE LAW; IF I WAITED TOO LONG, THE ABORTION WOULDN'T BE ALLOWED.
If so, who? _____
6. How has your abortion affected you? I REALIZED THE TRUTH BEFORE LEAVING THE ROOM. DEVELOPED MAJOR DEPRESSION, SLEEPING DISORDERS, PANIC DISORDERS OVER NEXT 11 YEARS UNTIL A SEVERE BREAKDOWN INTO CLINICAL DEPRESSION OCT OF 1996, WHICH I DEAL WITH DAILY NOW.
7. How has your abortion affected others in your life? MY RELATIONSHIPS WITH MY FAMILY AND WORK ASSOCIATES DETERIORATED OVER TIME ALTHOUGH (VERY FEW PEOPLE KNEW OF MY ABORTION. I DIDN'T KNOW HOW TO DEAL WITH OTHERS BECAUSE I HAD LOST TOUCH OF MYSELF AND MY EMOTIONS.
8. Based on your experiences, what would you tell a woman considering an abortion? CONTRARY TO WHAT PRO-CHOICERS CLAIM, THERE ARE MANY PHYSICAL AND PSYCHOLOGICAL RISKS TO ABORTION. I WOULD SHOW DIFFERENT RESEARCHES, EXPLAINING WHERE I AND MANY WOMEN I KNOW WOULD BE GROUPED IN. MOST OF ALL, HAVING AN ABORTION IS THE BEGINNING OF LONG-TERM PROBLEMS.
9. Based on your own experience, what would you tell a court that believes abortion should be legal? BEYOND THE CONSTITUTIONAL PROBLEMS OF "ROE V WADE" AND INFORMATION USED FOR THE DECISION, I COMPARE THIS WITH MEDICINES AND PROCEDURES THAT REQUIRES STUDIES SHOWING IT'S SAFETY. THERE ARE MANY STUDIES SHOWING LONG-TERM NEGATIVE RESULTS, PARTICULARLY PSYCHOLOGICALLY, OF ABORTION THAT ARE BEING IGNORED.

To be filled out by women who have had an abortion:

The State of Wisconsin

AFFIDAVIT

County of Eau Claire

BEFORE ME, the undersigned authority, on this day personally appeared Elizabeth C. Patchet (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:"

1. Tell when and where your abortion occurred: November 1981 and October 11, 1983 Minneapolis, MN at the office of Mildred Hanson M.D.
2. Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: There was no mention of the development of the baby. I recall discussions of birth control, but no discussion of how the abortion would be carried out.
3. Were you adequately informed of the consequences of abortion? No, there was no discussion of the emotional devastation I was to feel. When I had my second abortion I asked if there would be any damage to my uterus which would hinder future pregnancies. The question made the woman doing the screening uncomfortable and she gave me a vague reply, something to the effect "Not that I know of."
4. Were you informed of any link between abortion and breast cancer? no
Have you had breast cancer? no
5. Did anyone pressure you into having an abortion? The first abortion I take primary responsibility for, although no one supported keeping the baby. For the second abortion I felt pressure from the father. If so, who? The father of the second baby felt there was no alternative.
6. How has your abortion affected you? Emotionally I have had a difficult time with grief, guilt, shame and regrets. The thought that I chose to kill two of my own children has been overwhelming. I am emotionally hardened as a result. In my last pregnancy I had placenta previa which was potentially life threatening to me and my child. Studies have shown that women who have had abortions have a greater risk of this.
7. How has your abortion affected others in your life? The bitterness I felt towards myself and the others involved in the abortions has caused me to harm others relationships primarily through anger and withdrawal. My living children have had to deal with the emotions of knowing I chose to take the lives of their half siblings which is a difficult emotional burden for them.
8. Based on your experiences, what would you tell a woman considering an abortion? I would tell her that abortion is a short-term solution with long-term consequences. The emotional and possibly physical consequences outweigh the temporary relief felt when the pregnancy is "taken care of." An abortion once performed, can never be reversed and is very difficult to handle emotionally. It is very possible that an abortion would hinder future pregnancies.
9. Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion not only harms the baby, which in and of itself is a terrible thing. Abortion harms the mother through emotional trauma and physical damage to her body. It is a violent act against a developing human being and its mother.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: Feb 2003 Madison Abortion Clinic, Madison, WI
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? NO If not, explain: I was told that the baby would not feel a thing & would be suctioned whole & die immediately with no pain. I was not told how far along I was
- 3) Were you adequately informed of the consequences of abortion? NO, what are the physical consequences? And how do I get over the mental mess
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? Yes If so, who? The clinic nurse & Dr. told me if I did not follow through I would lose this baby & my 2 children to social services
- 6) How has your abortion affected you? I barely sleep, I hate pregnant women & feel like my other 2 children aren't safe with me, after all I murdered their siblings & constantly have to keep busy or I go crazy with thoughts of the procedure. Faces of my baby & that doctor haunt me all the time. I see a hell of a lot of horror stuff on TV.
- 7) How has your abortion affected others in your life? My children are to young to know. This is something I've kept to myself & my mother, who I feel at times can't stand the sight of me.
- 8) Based on your own experiences, what would you tell a woman considering abortion? Please don't do it. The images will haunt you forever. You'll understand the meaning of self hate & you could only feel for a minute. Now I close my eyes for the rest of my life.
- 9) Based on your own experiences, what would you tell a court that believes abortion should be legal? From birth on a child depends on their mother, they don't worry about their next meal, ect. The one they trust so much is the one that may take their life. Why is it that I was able to murder my baby @ 20wks & a 17yr old girl I know is in prison on murder charges for killing her baby @ 40wks? Where's justice

- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No - I was not adequately informed - Although my abortions occurred many years ago, I still recall that counseling to be limited, on all 3 occasions, abortion was considered the "right" option.
- 3) Were you adequately informed of the consequences of abortion? Short term consequences yes - I would say that long term health/emotional consequences - no way! Only focus was on medical complications directly following an abortion.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No - not that I recall, I do not have breast cancer.
- 5) Did anyone pressure you into having an abortion? If so, who? No one pressured me, although no one encouraged me or counseled me against an abortion.
- 6) How has your abortion affected you? I gave up a baby for adoption when I was 18 - that was the best decision I ever made in my life. My abortions have given me great guilt, were the worst decisions I have made, but thanks to God I am forgiven of murder.
- 7) How has your abortion affected others in your life? I do not believe that I know the full ramifications/consequences of having 3 abortions.

- 1) Tell approximately when and where your abortion occurred: May 16, 1987 in Chicago, IL
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I WAS NOT informed about any of these things.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? Yes If so, who? My mother
- 6) How has your abortion affected you? The greatest way it affects me is in the overwhelming regret I feel and must live with for the rest of my life. In addition, I have suffered other emotional difficulties that I definitely contribute to my abortion experience. One area has been trying to deal with intense anger issues that come from feeling that I was incredibly deceived by the abortion industry. My life was changed forever, in a most horrible way, that day 15 years ago when I killed my own child and I can never take it back.
- 7) How has your abortion affected others in your life? My son has been affected because of my anger and also my inability to bond with him. Also, the father of my aborted child has had to deal with crippling pain in losing a child he wanted so bad.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her that abortion is not the end of your problems, but rather the beginning! I would share my own experiences and ask her if she could live with the regret of killing her own child - A CHILD, NOT A BLOB OF TISSUE - for the rest of her life?
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would tell them that I know that there are TWO victims of abortion - one dies physically and the other dies emotionally. Abortion DOES NOT help women, rather it hurts women!

1) Tell when and where your abortion occurred: Madison, WI October 1975

2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: NO, I was just taken into a room & the abortion was performed, after I paid them my money.

3) Were you adequately informed of the consequences of abortion? No, just how it would feel & that I would bleed 4 a few weeks afterwards.

4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? NO. But twice they have found lumps on my breast.

5) Did anyone pressure you into having an abortion? If so, who? NO

6) How has your abortion affected you? When I finally woke up to the reality of what I had done I was very upset & angry with myself. I truly feel like a murderer.

7) How has your abortion affected others in your life? I kept it a secret until just the past few years. I was so ashamed of what I had done.

8) Based on your own experiences, what would you tell a woman, thinking of having an abortion? I would tell her the whole truth. When my daughter got P.J. while still in high school I was able to share with her & she decided to have her baby & give him up for adoption. It was an open adoption & he has a great life!

AFFIDAVIT

BEFORE ME, the undersigned authority, on this day personally appeared Terri White (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:"

1. Tell when and where your abortion occurred: August 1980 in Rockford IL
2. Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: I was told I would have cramping, that the "procedure" wouldn't take long, would be quick, I would hear the machine & then it would be over.
3. Were you adequately informed of the consequences of abortion? No, I was told ^{of} no consequences, only that I would bleed for a few days afterward & would probably have some cramping.
4. Were you informed of any link between abortion and breast cancer? No
Have you had breast cancer? No
5. Did anyone pressure you into having an abortion? The pressure I felt came from the lack of support of my boyfriend who simply said he couldn't promise me he would stick around if I continued the pregnancy - I felt I had no support system to help me.
6. How has your abortion affected you? Physically, emotionally, spiritually - I died inside. I am unable to have more children, I have severely abused drugs & alcohol & been sexually active with many men I have had to stuff my grief & emotions because I could not handle the fact that I killed my daughter.
7. How has your abortion affected others in your life? My son has no sister, I have used & abused many men along the way, I have been unable to maintain a relationship, my parents are missing a granddaughter, all have suffered tremendous loss in many different ways.
8. Based on your experiences, what would you tell a woman considering an abortion? That a living, breathing little life, her son or daughter, grows within her - she is already a mother. That sorrow, regret & grief will haunt her for years. That CPC's exist to help her to look at all the options & educate her on abortion procedures & consequences. That adoption is a beautiful choice too. I would give her the knowledge she needs to make an informed decision - not a reaction to a situation.
9. Based on your own experience, what would you tell a court that believes abortion should be legal? That even science agrees that a human life is present at conception & therefore we have no more "right" to kill that human being than to kill a human being outside the womb. That our constitution affords each person the right to life, liberty & happiness. That abortion kills 2 people (at least) always - a baby dies & a mother's spirit dies too. A country that kills it's own children cannot survive. There is not enough space here to say all that I would like to say!

If so, who? I was 100% alone. There was no support, I felt I had no choice.
6. How has your abortion affected you? It almost cost me, me, my marriage, & fertility. I regret it the long run it did, because I had so many problems, I had to have a hysterectomy. From that day on my system was completely screwed up.
7. How has your abortion affected others in your life? Without a doubt. It made me doubt my self worth. I killed my child for convenience. What kind of person could do that? It affected my feelings towards my living children. Once they know how I would love them I love them 100% more.
8. Based on your experiences, what would you tell a woman considering an abortion? That it is not the answer. They lie to you. They don't tell you all you're going through. They definitely don't help when you ask them for help. They tell you you made the right decision, get over it. It's all over. There is a baby there, no matter how small it is, your life
9. Based on your own experience, what would you tell a court that believes abortion should be legal? Will never be the same, and worse if you kill your baby. no it should not. They lie and manipulate, and they ask you for your cash, march you in the door "kill your baby" no matter what they pay. There is no compassion, we talked to alot of women. In Sept, 1974, I decided to get an abortion for an unplanned pregnancy. I was 18 yrs old, + engaged to be married. My fiancé + I did not wish to have children for several years, + a friend of mine told us that we should get an abortion. She had one + said it was "easy" + no one knows + then I could go on like nothing happened. The clinic was in the city of Chicago - I don't know the name of it. We went on a Saturday + I think we paid \$200.00 cash. No one gave me "informed consent". I did sign a paper though, but had no instructions or counseling, except the nurse told me "I should take birth control" + I told her I was on the pill + got pregnant anyway. That's the only counsel I got from them. I was brought into a room to change into my gown + I saw quite a few very young girls in there - (maybe 13) ^{years old}. I was horrified!! I was brought into a very small room, like an exam room + they placed me on the table with my legs in stirrups. No one explained to me the procedure or told me what pain I'd have! No pain medicine or anything was given to relax me. It felt like my insides were being squeezed out + it was a horrible feeling!! The abortionist never even introduced himself to me, so I don't know his name.

Please return to: Texas Justice Foundation, 8122 Datapoint, Suite 812, San Antonio, TX 78229

I was then brought into a big room to recover with many other girls there. I was left there for about 1/2 hr + then the nurse said I could leave. She never gave me any instructions to watch for bleeding + infection. 2 wks. later I discovered I had a uterine infection + was placed on antibiotics by my own family Dr. The abortion clinic never scheduled a follow up appointment. My fiance + I suffered emotional + physical pain because of the abortion. He became a drug addict + alcoholic + died of a drug overdose 3 yrs. after this + I had a tubal pregnancy + a miscarriage several years later. I believe these both were related to damage to my uterus + tubes due to the abortion. With the tubal pregnancy, I nearly died, because it had ruptured + I was hemorrhaging internally. Thank God - He saved my life + I was able to preserve one of my tubes + ovaries. I was able to carry one pregnancy to term + my son is 13 yrs. old now - a real blessing!

I am willing to share my story + would love to see abortion abolished in this country. I am presently an OB R.N. + teach perinatal + childbirth education. Babies are now my focus + I love them!

Please call me if I can be of further assistance to your ministry!!

[REDACTED ADDRESS]

I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

I was pregnant 4 months before I was supposed to be married. I was so afraid I would lose my 'good' image in front of other people that I decided to get an abortion with the full cooperation of my boyfriend. I went to a place called "Bread and Roses" in Milwaukee very secretly. Had I known in my conscience this was a "good" thing to do why was it so secretive? The whole time was a blur to me - I was very frightened and they were very business-like. It felt like I wasn't my real self doing this, I was almost robotic about it. They told me the process was painless to the fetus. That's the only question I remember asking was if it would hurt the baby. They told me no, but I don't believe that now. I never asked if it would hurt me, but I should have.

The Lord blessed me with one son afterwards, who I ended up raising by myself through most of his childhood because the "consenting to murder" father also abandoned my son at the age of 6 months. I received less than \$1000 in child support in 18 years. In hindsight I could have managed just as well with my first child, but I received a government approval to murder my baby. The Lord God did not approve, and my conscience tormented me when as a police officer I was assigned to be a party to a crime: assisting mothers into abortion sites and arresting those that would try to interfere with the murder. It was 1981 when I killed my baby. It was 1994 when I overdosed on prescription asthma medications (unintentional) and

Please return to: Texas Justice Foundation, 8122 Datapoint, Suite 812, San Antonio, TX 78229

almost died. I was psychotic, had a heart rate of close to 200, and yet had enough humanity in me to realize that if I died that night that I was going to hell for my sinfulness, from lies to drunkenness to adultery to murder. All that was given a real pardon from the Lord Jesus Christ as I got on my knees and asked Him to save me, to forgive me. My heart still is torn within even though I have been forgiven - you can't help but feel real pain when you know that you brutally murdered your own child before she knew you. I didn't love my baby, I destroyed her. No one, no one shall escape the punishment of God for aiding in this ongoing genocide, be it by consenting to its legalization or by guarding a clinic. I found this out when I nearly died. By the Lord God Jesus Christ this is the truth. We have "in God we trust" on our currency, yet we have denied Him in our Court Rulings. If you deny Him in your decisions, I dare you to take His precious name off our filthy money that funds genocide clinics AKA abortion clinics..

[Redacted Address] I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

In August, 1990 at the age of 24 years old I found out I was pregnant. I was not married and was no longer seeing the father of this child. I had just moved somewhere & knew no one except my roommate and a man I started dating. My family was not talking to me. I felt I had nowhere to turn, no one to talk to or counsel me. My first thoughts were that there was NO WAY I could raise a child! I did not have a job, money, a decent apartment or a decent car. I felt justified in thinking I needed a way out of this predicament! My new boyfriend said nothing - my roommate encouraged me & said she would give me a ride. That was my support system. On Wednesday, September 5th, 1990 I went to Meadowbrook Clinic in Minneapolis. Nobody looked at each other! It seemed to take forever as I paid my \$275, talked to someone who only asked if I was "sure", saw a video about cellstissue and WAITED! Someone was crying because she was really far along & wearing maternity clothes & she wanted an abortion. My turn came. Doctor didn't look at me, nurse babbled on about where I was going for lunch, I heard the loud vacuum & felt my insides being sucked out. Saw the jar of "tissue" was put in a room to relax & eat PB & J toast & I felt RELIEVED!! I couldn't understand why so many others were crying, sobbing, losing it! I denied my pain & anguish for 5 years by drinking, eating compulsively, exercising obsessively & being promiscuous. I miscarried my first child with my husband and with that baby in my hand. The reality of what I had done in Sept. 1990 could no longer be denied & I was horrified by the truth! I killed my baby! I did that! Abortion is murder! I am a murderer! It took years to feel forgiven by Jesus and even more to forgive myself. I named my baby Aubrey Lynn and I deeply regret that I ended her life. It was the the worst mistake of my life and I want mine & Aubrey's story to spare someone else the pain!! I want Aubrey's short life to have meaning!! Aubrey would be 13 years old now - a beautiful teenager full of love & life but my "choice" ended all of that. I believe that God will hold her in heaven until I can.

Thank you.

The State of Wisconsin

County of St. Croix

BEFORE ME, the undersigned authority, on this day personally appeared Carla (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: _____
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No - Was only "counseled" by a woman who asked if I was sure I wanted an abortion.
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? Yes If so, who? My roommate did not so much pressure me as encourage me to. I found the Yellowpages, made a call, offered to drive me, said she had driven other friends to get there.
- 5) How has your abortion affected you? It filled me with guilt which I tried to stuff and deny for 8 years with drinking, overeating, obsessive exercise & promiscuity. Spiritually I thought God didn't want a murderer like me & could never love me. Emotionally I was a wreck as I ran from the truth of what I had done & I was filled with anger!! When I was forgiven by God the horror of what I had done almost destroyed me!! I deeply regret aborting my precious child & feel an emptiness & an ache that will never go away.
- 6) How has your abortion affected others in your life? It has affected my husband. We had just met and started dating & it was not his child. He did not believe abortion was right but did not say anything!! He regrets that he didn't share his convictions.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her that I love her & I love her baby and that I deeply regret having an abortion. The pain, guilt, shame & anguish will follow you to the grave if you do get one. - the only one that can help you heal is Jesus.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I believe that even if abortion is legal - it is still wrong. It is wrong to end a life - especially a life so young. Abortion hurts children, abortion hurts women. I am praying that society once again embrace the sanctity of human life from conception to the grave.

BEFORE ME, the undersigned authority, on this day personally appeared Karen Radke (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: May, 1976 at UW Hospital, Madison, WI
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No - Not at all. I really had no idea how painful it was going to be. I had a saline abortion and delivery was excruciating, worse than labor with a full-term baby.
- 3) Were you informed of any link between abortion and breast cancer? Never Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? NO If so, who? It was totally my decision. My parents were against it, however, my dad signed as guardian. My boyfriend remained neutral - didn't sway one way or other. In 1976 it was required.
- 5) How has your abortion affected you? Extreme guilt, chronic depressions, (I have taken anti-depressants for 10 years) I had 2 miscarriages after the abortion. I sometimes hear a baby cry (like a ghost.) My relationships with men fail. I am in my 3rd marriage. Feel like something in my life is missing. Worried that God will view me as a murderer. I always wonder what type of person the aborted baby could've been. I wonder about the father who was my boyfriend at the time feels about this.
- 6) How has your abortion affected others in your life? My kids know of this, but really can't believe I would do it. I am a person who preserves life, I don't kill inserts in the house, I carry them outside so they can live.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her that an abortion is just a temporary, quick fix. Today, there are many people and organizations that could help you if you decided to keep the baby and many people who would adopt if given the chance.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I would tell the court to focus instead on the baby. He/She has rights that need to be protected. All the babies who have been aborted had no say in the decision. They never grew to be a part of this world. And being post-abortion is not an ideal way to live. The woman and her family may suffer in ways not planned.

- 7) How has your abortion affected others in your life? Yes, My present husband, now for 17 yrs. I would always have fits of anger for no reason, then buying spells - living a hollow chaotic life until I accepted Christ into my life. Both of my children were sad to learn of this.

AFFIDAVIT

To be filled out by women who have had an abortion.

The State of Alabama

County of Dallas

BEFORE ME, the undersigned authority, on this day personally appeared [Redacted] D [Redacted] (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: an abortion clinic in Montgomery, AL 1985
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? no If not, explain: I was told the baby was a blob of tissue and nothing more. I had no idea what was going to happen - how etc.
- 3) Were you adequately informed of the consequences of abortion? no
- 4) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? I had a mass taken out of my left breast, it was benign.
- 5) Did anyone pressure you into having an abortion? no If so, who?
- 6) How has your abortion affected you? I will never be the same. I felt like a part of me died that day also. I was depressed, lonely, scared, and felt worthless.
- 7) How has your abortion affected others in your life? It robbed my other 3 children of their sibling. my oldest daughter (when we told her) was heartbroken.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? It is a decision you can never take back. There are people who will help her w/ her child if she keeps it and she is not alone.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? If abortion had not been legal I would have that child I aborted today. Abortion is harmful to women. It is not a real "solution to a problem." Abortion not only takes the life of a child, it takes a part of the mom also. There are other alternatives.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 1962 Athens, Alabama
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO

- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? NO If so, who? _____

6) How has your abortion affected you? Do not know of any effect. I was unsaved and did not understand what I was doing, had no idea! Upon being saved was forgiven of all sin and cleansed from all unrighteousness, so am not aware of any effect. Curious about what my baby will look like and be like when I see him or her. Sorry that I did not know any better at the time. At that time I bleat so much I was afraid I might die, so called my sister, Deanna, and she and her husband came over and stayed the night with me.

7) How has your abortion affected others in your life? Am not aware of any effect.

8) Based on your own experiences, what would you tell a woman considering an abortion? DO NOT ~~have to~~ do it. It is murder.

9) Based on your own experience, what would you tell a court that believes abortion should be legal? It should not be legal to murder anyone ever, whether inside the womb or outside. It is obvious to a woman carrying a child and anyone who looks the baby's movements and it is conclusively true and accurate that, based on ultrasound and recognition by doctors, an unborn child is a living human being.

- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No I was not. I was told the 1st time they would "empty the contents of my uterus". The 2nd time, no info was given at all. I had physical complications after this one.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? NO If so, who? _____
- 5) How has your abortion affected you? It was a prison for me emotionally for 12 years. I had to suppress all my feelings to function. Post partum was so awful when I did have children that I opted for a tubal ligation. I did not think I could handle that sort of grief and pain again. Each pregnancy and birth was a reminder that I was lied to and my children did because of it.
- 6) How has your abortion affected others in your life? It affected how I related to my husband and also my children.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her she is making a huge mistake. Abortion ends a pregnancy by killing a child, but you are a parent that child mother and you can never forget they existed.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion kills. It kills babies and mothers. It ruins lives and breaks hearts. You never get "over" having an abortion. My children are still my children, I just gave away the right for them to live because someone lied to me.

(Questions For Women Who Have Undergone Abortion)

The State of ALABAMA

County of BALDWIN

BEFORE ME. The undersigned authority, on the day personally appeared Jacquelyn Kirk Dunnam, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make the affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true.

- 1) Tell when and where your abortion occurred: October 1976 in Fairhope Alabama at Dr. Fred Diegman' office.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain No, all I was told was that I had to have an abortion. When I mentioned having and/or keeping the child, I was told by the Doctor "...you are young, still in school, you do not want to waste your life with a child, now..."
- 3) Were you adequately informed of the consequences of abortion? Medically not really, emotionally no.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No, at this time I have masses in each breast that are being watched by mammogram and ultrasound every 6 months.
- 5) Did anyone pressure you into having an abortion? If so, who? Yes, the Doctor that preformed the procedure. I fainted at school and went to Dr. Diegman, I did not suspect that I was pregnant. He gave me a prescription ..."to make my period start..." After a week my period did not start and I called his office and then a pregnancy test was preformed. I was pregnant and was told that I had to have an abortion because the medication I had taken would cause birth defects. The abortion was scheduled for that afternoon. It was suggested that I have "a little to drink" so I would be able to relax. I was not given any medication. I still remember the PAIN!!!
- 6) How has your abortion affected you? I now suffer from depression. The sadness and regret can never be explained in words. I could be a grandmother by now, but that child is dead.
- 7) How has your abortion affected others in your life? I have talked with the father of the child and he is very straight forward with his children about "he got a girl pregnant and she had an abortion" He makes sure they all take precautions.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? DO NOT!!! There are many options that are available. You can have the child, and raise it yourself, or there is adoption, either public or private. You can find another option. If you think abortion is the only way to go, please

- 6) How has your abortion affected you? I have a horrible emptiness inside for what I lost. I still ache over the death and I am deeply ashamed and do not tell anyone about it. I have had a hysterectomy at age 40 but it was not proven to be a result of the abortions

- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? IT IS BEYOND COMPREHENSION HOW PEOPLE WHO ARE NOT MENTALLY DEFICIENT COULD POSSIBLY DENY ABORTION IS MURDER. LIFE BEGINS AT CONCEPTION NO MATTER WHETHER YOU LIKE IT OR NOT. YOU IMPRISON A PERSON FOR KILLING SOMEONE WHO AT LEAST HAS A CHANCE TO FIGHT BACK, BUT "I have read the above and foregoing statement and the same is true and correct." I know you did not ask for a paper, but I implore you to read this short paper and you will see what lunacy it is to ask me to answer "what affect has the abortion had on you and others" in those few tiny lines. It is so much bigger than you can imagine. PLEASE READ THIS:

On August 16, 1974, I met Marc. I fell in love with him. Marc and I had sex. We were engaged to be married. I was floating on air. Then, I found out I was pregnant. My heart was full of joy as I phoned him. In my mind, we were in love and going to be married in a few months anyway. I couldn't have been happier. He was not. He told me to abort it. The laws had just been changed to allow that. I was shocked and devastated.

I asked him to see my preacher with me and talk about it. The associate pastor at the Methodist church was younger and gave us an appointment. I had babysat his children. He said abort it. I was shocked. I had assumed he would be on my side. He went further. He offered to drive me an hour each way to Chicago to an abortion clinic. Marc and the pastor were happy. I was in disbelief. I wanted this child - it was Marc's and my child and it was alive! They were forcing me. I still lived at home. I earned very little money. I could not do it alone and I was afraid, and the sun rose and set on Marc.

The pastor drove me to the clinic for a counseling session to get approved. I talked to the woman and told her I did not want to kill my child. She said absolutely I should not have an abortion feeling the way I did, that it was murder, and she refused to do it there. Good. I thought it was over.

The pastor was upset. Marc was upset. I was in trouble. It was very different being illegitimately pregnant in those days. I didn't feel illegitimately pregnant in the beginning. We were getting married. I had the diamond and the date, August 4, between his birthday on the 3rd and mine on the 5th. Now I knew I was indeed illegitimately pregnant and alone.

I had to tell my parents. I never could have expected what happened. My older married sister was pregnant again and living nearby. My parents were thrilled. I had a cousin visit and stay with us for a while who had two children by two different men. I don't think she married either. She was on drugs. My parents offered to take her children and raise them just shortly before I found out I was pregnant. They weren't nice children. My parents were furious. I had to abort it. What? You taught me that was murder? No discussion, I was ordered to abort it. Devastated.

It would cost money. They called Marc over, sat him down and browbeat him until he agreed to pay the \$500. I was powerless. Devastated. Why were they willing to raise my cousin's unpleasant children that had peed on their sofa every night but would not for a moment consider helping me with mine? They barely knew this cousin.

They said if I did not abort it, I could not live there at all, not even until the birth. I did not earn nearly enough to move out, much less pay for a baby. And what would I do with it when I was working? Daycare cost money too. Helpless. Hopeless. Shocked. I never missed a pill. They said the chances were one in a million.

My parents made arrangements at the clinic that refused me and made them agree to do it. My father took off work, the first time he ever took off work for something for me. He drove me there. They took me in. The doctor told me that because of epilepsy medicines I had been taking, that my baby would definitely be born with missing or additional limbs, very deformed. Years later a neurologist told me that was a lie.

Now I was scared of the child within me. I waited in line like for an appointment for a job interview. When it was my time, they told me to get up on the table. I had no idea what he would do. Within moments the doctor was yelling curses at me. Was I trying to get him put in jail? What? I was at least 5 ½ months along and it wasn't legal to do in my state. They ushered me out of there like a criminal. My father was mad. I had been hemorrhaging off and on for months, so I had no idea how far along I was and had not been examined.

The end? No. Everyone in my world was determined to kill my baby. My parents, who never made long distance phone calls because they were expensive, called around until they found a state where late term abortions were legal. Michigan. They made arrangements. Marc gave my father the money. He said we were still getting married, but we wouldn't if I didn't do this. I loved him so. I was so confused, but no one gave me a choice.

Daddy took off work again. He drove me to Lansing, Michigan. He got us a hotel room and took us for a bite of dinner. I still did not believe this would happen. But I was acutely aware this would be the last meal my child would ever eat if it did. Surely Daddy wouldn't do this. We shared a hotel room and I tried talking to him again. No.

November 6, 1975. He took me in the morning. Every detail is clear as if it were yesterday. I brought a picture of Marc and I and put it by my bed. I was wearing the diamond proof of our future together. Why was this happening? He said he loves me and we are to marry? I called Marc before they started. His mother said he was at a bar, celebrating. I thought I'd die.

I heard women in there saying they were on their third abortion, even married women. I seemed to be the only one upset. They x-rayed me. I asked why. They said they thought it might be twins. I had always wanted twins and they run in my family. I was excited waiting the results, still not believing this would happen.

It was a dangerous procedure...for me, and fatal for my child. I later found out it was a boy. Thirty-six hours of hard labor indelibly burned into my spirit. And when it was over they rushed me to some foreign doctor who was doing something in me because I couldn't pass the afterbirth, but no one explained anything to me. I didn't know about afterbirth. I was having an epileptic seizure and he was yelling at me. He was angry and yelling at me to be still in some Asian language.

It had been two weeks from finding out I was pregnant until I wasn't any more. When they finally released me, they said I was to lay down for a number of days and do nothing. My father looked very grim. I did not know at the time what this cost him.

He drove me home. As soon as we got home he collapsed. My mother never drove. I was the only one. Hours after my ordeal...I was driving my father to the hospital nearly an hour away. He had bleeding ulcers and was in very bad shape. He could have died. He had sat in that waiting room all 36 hrs. plus some recovery time, bleeding quietly. I drove home.

Marc felt badly when he saw how destroyed I was. He said, lets move the wedding up to December 20, 1975. Close to Christmas would make it special. We both loved Christmas. Get married fast and have a baby right away, he said. There was comfort in that. I was living in a fog and so condemned in myself. What little worth I might have had was gone forever.

Shortly later I went into labor again. The pain was the same. I went to the doctor and was told I had peritonitis from not passing all the afterbirth. I could die. I was told to go straight to the hospital. I called Marc. He came and got me.

We had planned to go pick out a cake topper for the wedding. I insisted we still do it. The pain was terrible, but in my crippled mind, I pretended we were married, I was in labor, and he was about to take me to the hospital to have our son. Those hours were blissful despite the pain. Once in the hospital they were very angry at me and mean and told me I could have died. They did a D & C. Daddy came home from the hospital.

No sooner than I am home from that, again put on bed rest, I came downstairs and looked at my father. He was gray. I said he didn't look right. Then people started noticing and called an ambulance. He was in CICU for ages. A massive heart attack that he barely survived. Again the doctors said it was a miracle, but he was never the same with most of his heart tissue dead.

He was still in CICU when my wedding came. No one would go to get a dress with me like we did with Paula. No one smiled. No one stood up with us. I paid everything for my tiny wedding. A clearance dress my mother wouldn't even look at. A bouquet, and an amateur photographer. That's all there was. No father to walk me down the aisle. He was barely alive, and it was all my fault. I had caused his bleeding ulcers. I had caused his heart attack. It was the first of five that killed my beloved Father.

I married the man I loved more than life and we went straight to the hospital. Bridal gown and suit found their way through the labyrinth of the great hospital to the secluded CICU room. They made a special exception and let us in. He managed to sit, looking terrible. He said now that it was done, he welcomed Marc as his son and hoped it would be a good marriage. I was amazed. After all Daddy had gone through, he was so generous.

We left for one night in a hotel where he watched TV and didn't touch me. He barely spoke to me. I probably should have known then, but I was blinded by love. Nine months later he moved back with his mother for the last time and divorced me. He said we had married "too young" and he'd "never had a chance to sew his wild oats". He said he was going to do that, come back to me and we'd remarry. The future

would show that neither of us was ever given another son, but two daughters, and oddly, of similar ages.

They wouldn't let me move home this time. My sister helped get me into the housing project that she managed. She lived there with her husband and two sons, one the age my child of rape would be, one the age my murdered son would be. Very painful. I spent hundreds of hours needle pointing my dead son a Christmas stocking. I wrote black poetry about murdering him and cried a lot.

My sister had been born at 6 months. She was the youngest to survive to that date in that hospital, though her twin, my brother, died at three days old. My son was only two weeks younger than my sister was when she was born. That has been very painful. She and I were close. My entire life I have watched my nephew grow up, knowing my son would be two months older than him. It has been very painful.

When I got engaged to the father of my children, the first thing I said was I wanted a baby right away. We went right out and bought two baby toys before we even told anyone we were to be married, and before a ring. Having a baby right away was the driving factor in getting married. I had such a void inside. We were blessed with two girls. They were always saying they wanted a big brother as they grew up, as if they knew he should be there. I told them I had "lost" a son with my first husband. I did not tell them the truth until they were in high school. It was very painful.

I was a very obsessive mother with my girls as a result of having killed my son. I was consumed with trying to keep them safe and shield them from any possible discomfort of any kind. I poured my life into them. As young adults they are having to deal with issues in their lives created by this unbalanced parenting from me. I am concerned that some of the wrong parenting I did for them will be passed on to their children one day because that is the example they had of what a mother acts like.

I lived many years as a Christian picturing an angry baby boy in heaven condemning me for shedding his innocent blood. My dear Christian Mother died of cancer in 1996. My last coherent conversation with her, I asked her to please hold my son when she got to heaven. No one had ever held him. She said she would.

I now have a step-son the same age as my son would be. More painful reminders. I watched him marry and have his first child recently. All things I stole from my own child.

Twenty-seven years later I am filling out this affidavit and the powerful emotions that are choking me have been difficult. My heart is about to leap out of my chest, I've had trouble breathing, and I've shaken the entire time I have written this. The part I wrote by hand was difficult to keep legible. I am glad to finally have a small way to strike a blow against this demon of abortion that has so crippled my life and blighted our land with the shedding of innocent blood. But it is being extremely difficult to do this. Had I been strong enough to do the difficult right thing twenty-seven years ago, I would not be having to do this one now. God bless your efforts to outlaw wanton murder of America's most helpless.

spend some time with a woman who has had an abortion, we can tell you like it really is.

- 9) Based on your own experiences. What would you tell a court that believes abortion should be legal? Maybe but ONLY IN RARE OCCASIONS!!! Never as a means of birth control, and never never never without counseling, parental, paternal and spousal consent.

My addendum:

If Roe VS Wade can not be overturned, many changes must be made. Women and children that are having abortions are not prepared for the years and the guilt that is to come. What really makes my upset is that I was with a friend, in an abortion clinic in Mobile, Al back in 1981. My friend was having an abortion and I was in the waiting room with a mother of a 14 year old pregnant girl, her husband (the father) was a pastor, they could not face the public humiliation of their child pregnant.

I have lived with the guilt for so long. I can not wait

NOTARY PUBLIC Amanda Weldon Biddle

6. In many ways, for a while I was able to push the horrible experience way down inside and I would tell myself that it never really happened. Everytime I would hear the word abortion I would cringe inside, I felt like digging a hole and crawling inside and NEVER coming out. It wasn't until the pregnancy of my last child, which was a ~~few~~^{few} little over 11 years after my abortion, that the shame and guilt of what I had done overwhelmed me. I suffered from extreme anxiety and some depression. I hated myself. I lived in fear of death every single day. I was terrified that someone in my immediate family or either I would die. I was afraid to go to bed at night in fear that I was going to die. I would wake up in the middle of the night having anxiety attacks, but thinking I was going to have a heart attack and die. I even went to see a cardiologist who diagnosed me with depression. If my husband and daughter were late coming back from anywhere they had gone, I would panic. I just knew that they were in a ditch somewhere dead. I would literally be sick at my stomach. I would not let our baby ride in the car with anyone, not even his own Daddy. I was terrified that he would be taken from me for punishment because of what I had done. I was always afraid to go anywhere by myself in fear that something terrible would happen that would end in death. I know without a doubt, that this year of death that took over my life stems back to the day I gave birth to my unborn child. →

It ought to be called MURDER instead of abortion and MURDER clinics instead of abortion clinics. It may be legally right by man's law, but it is still wrong under God's law. If it was not for my Lord and Savior Jesus Christ I would ~~have~~ ^{not} have never made it through. God is the ONLY way that I have made it through this experience. Praise God! He has forgiven me and set me free. He has healed me through Saw-a-Life ministries. Only God can use the very people that I thought were against me to save my life. God showed me that his Son, Jesus defeated death on the cross and so I no longer have to live in fear of death. He also showed me that I can celebrate the life of my unborn child. I feel that God revealed to me that my unborn child was a little boy. I said everytime I have the opportunity to give my testimony I want to recognize him. He deserves dignity to be recognized as a child formed by God's own hands. (Psalm 139: 13 ^{and} + Jeremiah 1: 5) His name is John Michael Meadows and he is alive and well with our Creator in heaven, which proves that he was NOT just "a blob of tissue". God has finally helped me forgive myself. It's still painful at times. I will never forget what I did. I will have to live the rest of my life with this "thorn in my side", a reminder, not for suffering, but to remember this precious life and so I won't forget ^{from} where and how far God has brought me. So God be all the glory! I pray He will continue to use my testimony to help others that are hurting from a past abortion and hopefully to help others see the REAL TRUTH about abortion, so that their babies lives may be spared. I now am a staff member at Saw-A-Life, Inc.

8. You are not eliminating a problem! You will create a much larger one by choosing abortion. One that is like pouring salt on an open wound. God can heal that wound and forgive, but the scar will always remain.

It is not just a "blob of tissue". This is a part of you. God's word says in Psalm 139:13 - "thou hast covered me in my mother's womb," and in Jeremiah 1:5 - "Before I formed thee in thy belly, I knew thee". This is a child formed by God's own hands.

Get the Facts on Abortion:

1. You could hemorrhage or contract an infection in which both usually require hospitalization and can be fatal.
2. Women have died due to small body parts being left inside the womb.
3. Chances of infertility increases
4. Chances of developing breast cancer increases.
5. You will more than likely have some sort of mental or emotional breakdown such as anxiety, depression, etc., and believe me these feelings are real.

Please know and believe that God will see you through this pregnancy.

(... I will never leave thee nor forsake thee?) Hebrews 13:5

(*And He said unto me, "My grace is sufficient for thee".) 2 Cor 12:9

9. I read this simple message that holds true to my experience. It read like this:

ABORTION:

One dead

One wounded.

Abortion is inhumane.

Only 2% of abortions are because of incest or rape.

This is NOT a "blob of tissue."

Abortion is internal infection.

Abortion is MURDER. It leaves a woman to self destruct.

How can abortionists sift through tiny body parts and make themselves believe that it is a blob of tissue instead of a baby made of flesh and bones? A human being, formed by God's own hands. (Psalm 139:13)

1) Tell approximately when and where your abortion occurred: It was May 1999 I was in Birmingham, AL

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I was only informed about how the procedure would occur I was not told about any of the psychological after effects

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? no I was not informed of the link between the two, but I have not had breast cancer

4) Did anyone pressure you into having an abortion? If so, who? yes my boy friend

5) How has your abortion affected you? I struggled w/ substance abuse after the abortion I attempted an act of suicide after the abortion I have chronic nightmares & chronic abdominal pain. I suffered from infection after the abortion & also relationship & psychological problems. (Anxiety disorder)

6) How has your abortion affected others in your life? My boyfriend at the time began using drugs & abusing after the abortion. He was a former roll student & basketball star he is now facing prison time for drug abuse, it destroyed his life & mine!!! until he turned my life over to God.

7) Based on your own experiences, what would you tell a woman considering an abortion? please do not do it, the effects of it are devastating. the spiritual ramifications and psychological effects are too hard to describe in this short survey. I am a psychologist myself & have worked as well as I experienced the horrible effects abortion brings to your life!

8) Based on your own experience, what would you tell a court that believes abortion should be legal? not this way because it does not promote health I am a mental health professional & I can speak from a personal as well as a professional testimony that the psychological effects of abortion are devastating & any court who looks over the fact of this correlation is in contempt of negligence. Simply b/c psychological health is correlated w/ physical health so, thus both are affected and women today are not told that
