The Plumbing and Mechanical Systems Board was established to administer and enforce the provisions of Iowa law regarding the licensing and regulation of plumbers, mechanical professionals, and contractors. The board issues trade licenses to plumbers, HVAC-refrigeration, sheet metal, hydronic and mechanical professionals; specialty licenses; contractor licenses; and medical gas piping installation certification. Anyone working in these disciplines in the state of Iowa is required to be licensed with the board. The board also investigates complaints filed against licensees and investigates complaints alleging someone is practicing one of these trades without a license.
