

and develops standards for, accredits, and monitors community mental health and disability service providers and services. The division also operates the state disaster mental health crises response services through the creation of statewide disaster behavioral health response teams that provide critical incident stress debriefing for first responders, as well as crisis counseling for disaster-affected persons, and community mental health disaster preparation and response planning services. The division provides direct support for the Mental Health and Disability Services Commission, Mental Health Planning Council and Olmstead Consumer Task Force, Mental Health Risk Pool Board, and other interim workgroups related to mental health and disability issues and programs.

The Bureau of Medicaid Targeted Case Management is a service that manages multiple resources for Medicaid members and is designed to help persons with an intellectual disability, chronic mental illness, or developmental disabilities gain access to appropriate and necessary medical services and interrelated social and educational services. Medicaid Targeted Case Management (TCM) services ensure that necessary evaluations are conducted; individual services and treatment plans are developed, implemented, and monitored; and reassessment of consumers' needs and services occurs on an ongoing, regularly scheduled basis. (IAC 441 — Chapter 90) The targeted case manager monitors the physical and mental health status, placement, and service plan monthly for each individual served. Changes in the service plan, placement, or provider occur as needed to maintain the health and safety of the individual.

- County Boards of Supervisors select the TCM provider per Iowa Code. Iowa Code section 225C.20 states that targeted case management services can only be provided by a county or by DHS. Each county is required to designate a case management provider. However, the Iowa Code allows a county to subcontract for the provision of case management services.
- DHS provides TCM in 25 counties for all populations, an additional 69 counties utilize DHS TCM for specific populations.
- TCM providers must meet the standards established under Iowa Code chapter 24. Providers are accredited by the division and receive accreditation for up to three years. These standards set forth expectations for staff qualifications, staff development, case planning and service delivery, and documentation.

A seven-member Council on Human Services, appointed by the Governor, subject to confirmation by the Senate, serves in a policymaking capacity for all department services, and in an advisory capacity to the Governor and the director. In addition to the seven voting members appointed by the Governor, membership of the council also includes four legislators as ex officio, nonvoting members. Legislative appointments are made by the Majority Leader of the Senate, the Minority Leader of the Senate, the Speaker of the House of Representatives, and the Minority Leader of the House of Representatives.
