

persons qualify for library service. The library also distributes machines on which recorded books may be played.

The Business Enterprises Program enables blind Iowans to operate food service facilities on federal, state, municipal, and private property. The provision of initial and ongoing food service and management training, as well as beginning inventory and purchase of equipment, means that blind persons in the program can become self-sufficient, taxpaying citizens.

The department makes available a variety of specialized aids, appliances, and recreational items that can be purchased by blind Iowans at cost or furnished as part of some individual rehabilitation plans. White canes for independent travel, braille and electronic watches and clocks, specially marked games, braille and print-writing devices, various types of measuring equipment, and miscellaneous aids are among the items available.

Approximately 400 blind children are enrolled in regular public schools throughout the state. Upon request, the department works with the Bureau of Special Education of the Department of Education to procure books and specialized material for those children and to provide counseling and guidance.

A registry of the blind in Iowa showing cause of blindness, age, and other statistical information valuable in program evaluation and planning is maintained by the department. It is estimated that there are more than 69,000 blind Iowans and that 25 Iowans become blind each week.

COMMISSION FOR THE BLIND

The Iowa Capital Investment Board (ICIB) was created in the 2002 Legislative Session. The only remaining function of the ICIB is the issuance of contingent tax credits and redeemed tax credit certificates (if necessary) related to investments in the Iowa Fund of Funds. The ICIB works with the Department of Revenue in the administration of the tax credits.
