

contributors to the loss of independence in older Americans. Time and experience have proven that even basic training in nonvisual techniques increases an individual's level of independence and self-sufficiency. The average direct expenditure per consumer is approximately \$700. This small investment effectively postpones or prevents the need for costly long-term care that can average \$4,000 a month in most nursing homes. Vocational and independent living rehabilitation services assist blind persons in realizing their maximum potential of independence and self-support. Rehabilitation counselors work with blind persons to develop vocational goals and provide appropriate vocational training and employment.

The Library for the Blind and Physically Handicapped provides books and magazines in the alternative media of braille, described video, cassette tape, and large type to eligible Iowans. Individuals who are blind include those with a vision loss that does not constitute legal blindness but is sufficient to prevent use of standard print with ease. Physically handicapped or reading-disabled persons qualify for library service. The library also distributes machines on which recorded books may be played.

The Business Enterprises Program enables blind Iowans to operate food service facilities on federal, state, municipal, and private property. The provision of initial and ongoing food service and management training, as well as beginning inventory and purchase of equipment, means that blind persons in the program can become self-sufficient, taxpaying citizens.

The department makes available a variety of specialized aids, appliances, and recreational items that can be purchased by blind Iowans at cost or furnished as part of some individual rehabilitation plans. White canes for independent travel, braille and electronic watches and clocks, specially marked games, braille and print-writing devices, various types of measuring equipment, and miscellaneous aids are among the items available.

Approximately 400 blind children are enrolled in regular public schools throughout the state. Upon request, the department works with the Bureau of Special Education of the Department of Education to procure books and specialized material for those children and to provide counseling and guidance.

A registry of the blind in Iowa showing cause of blindness, age, and other statistical information valuable in program evaluation and planning is maintained by the department. It is estimated that there are more than 69,000 blind Iowans and that 25 Iowans become blind each week.

The commission’s primary duty is to enforce state and federal laws that prohibit discrimination in employment, public accommodations, housing, education, and credit by investigating and litigating civil rights complaints. The commission also provides conflict resolution services including mediation and conciliation for civil rights matters. In addition to its role as a law enforcement agency, the commission works to prevent discrimination by providing training and education to the public.

The commission consists of seven members appointed by the Governor to staggered terms of four years subject to confirmation by the Senate. No more than four members of the commission shall
