The primary purpose of the Aeronautics Commission is to promote and foster development of aviation within the state of Iowa and to register all Iowa owned airplanes annually, as well as all Iowa airmen. During 1964, there were 1,861 active aircraft registered in the state, which represents an 84 percent increase in 10 years, and there were 5,479 airmen registered, which represents an increase of 109 percent in 10 years. While ranking 23rd in population nationally, Iowa ranks 15th in the number of civil owned aircraft.

The commission provides the following services to Iowa aviation: airport consultation, contractual agreements with cities and towns for the construction and development of airports, engineering services to cities and towns, Air Age Education, liaison with all flying groups and organizations, accident investigation, information service for all airmen and the enforcement of all Iowa aviation laws.

As a result of the airport development program of the Aeronautics Commission there has been an increase in the number of municipally owned airports from 46 in 1948 to 98 in 1964. This represents a 113 percent increase in 16 years. Of the total airports in Iowa there are 101 which are lighted all night; in this category Iowa ranks fifth nationally. Iowa also ranks fifteenth in the nation in the number of airports having paved runways.
