The State Advisory Council for Vocational Education was created by enactment of a law during the first session of the 63rd General Assembly in 1969. This council advises the State Board of Public Instruction on policy matters relating to the administration of the state plan for vocational education, conducts an annual evaluation of the vocational education effort in the state, and is to advise on the development of or amendment to the state plan for vocational education. The council is also charged with the responsibility of conducting at least one public hearing annually at which any concerns about vocational and career education can be brought to the council. The council is to perform other duties as required in order for the state to qualify for federal aid and grants for vocational education.

The law provides that the membership of the council will have a minimum of twenty members and not more than twenty-three members and further specifies the backgrounds of the individuals that must be represented on the council. The council will hold a minimum of one meeting each quarter.
