

public health importance, including hospital acquired infections. These programs involve active monitoring of disease, case investigation, and consultation in diagnosis, treatment, and control. Environmental engineering activities of the division focus on nonmunicipal water/sewage problems, enforcement of USPHS milk standards, community swimming pool maintenance, publication of state plumbing code and investigation of various environmental problems. Also a program to license and inspect diagnostic radiation equipment is operational.

During 1980, the division established two new activities focusing on health promotion/risk reduction initiatives at state and local levels, and a program to provide management assistance for refugee health problems.

Boards of Examiners

Appointed by the governor. The Iowa State Department of Health provides administrative support and a large variety of services to all boards through the Licensing and Certification Section, a unit within the Office of External Affairs.

Barber Examiners

The board, responsible for the licensing and inspection of approximately 2,000 barbers and 1,250 establishments, is composed of three licensed barbers and two public members. The barber licensing law was enacted in 1927, and Chapters 147, 158 and 258A are the principal laws governing the board.
