The state board of vocational education was established by the thirty-seventh general assembly in the act accepting the terms of the federal law on vocational education commonly known as the Smith-Hughes Act.

The membership of the board is ex-officio. The board co-operates with public schools in formation of day classes in agriculture, trade and industry, and home making. Also in each of these lines part-time and evening classes are conducted by public schools working with the board.

In all cases mentioned above the districts receive reimbursement on teachers' salaries from federal funds alone.

The board also co-operates with the proper authorities at Iowa State College at Ames in preparing teachers of the above subjects.

The thirty-ninth general assembly approved the federal law of June 2, 1920, called the industrial rehabilitation act, for operation in Iowa. By the federal law the state board for vocational education became the board for conducting rehabilitation for all eligible disabled cases excepting those coming directly under the federal government for persons disabled as a result of enlisted service in army and navy.
