

The purpose of the Accountancy Examining Board is to administer and enforce the provisions of Iowa Code chapter 542 (Iowa Accountancy Act of 2001) with regard to the practice of accountancy. This includes the examining of candidates, issuing of certificates and licenses, granting permits to practice accountancy, investigating violations and infractions of the accountancy law, and revoking, suspending, or refusing to renew certificates, licenses, or permits.

The board consists of eight members, five of whom must be practicing certified public accountants, two members representing the general public, and one licensed public accountant. Members are appointed to three-year staggered terms by the Governor.

The law for the registration of architects and appointment of the Architectural Examining Board was enacted in 1927. The General Assembly in 1965 amended the law to be a practice Act. The board also administers appropriate portions of the continuing education and regulation program, Iowa Code chapter 272C. The board consists of seven members, two of whom must be public members and five who possess a certificate of architect registration and have been in active practice for not less than five years. The board meets every other month on the second Tuesday of the month.

The architectural registration examination is administered via computer through a national testing service. The board is a member of the National Council of Architectural Registration Boards and collaborates closely with the council.

The Engineering and Land Surveying Examining Board was created by the General Assembly in 1919. A person cannot practice professional engineering or land surveying without first being registered with the board. The board meets regularly and conducts examinations of applicants for licensure regularly throughout the year.

The law provides that the membership of the board consists of seven members appointed by the Governor and confirmed by the Senate. Four of these members must be professional engineers, one member must be a land surveyor or a professional engineer who is also a land surveyor, and two
