These two agencies became a composite Board of Medical Examiners by action of the 60th General Assembly in 1963. Board members are appointed by the governor for three-year terms, with confirmation by the Senate.

The board meets nine times annually and is responsible for administering and enforcing state laws and administrative rules governing licensure and the practice of medicine and surgery, osteopathic medicine and surgery, osteopathy, and registered acupuncturists.

The board administers Step 3 of the United States Medical Licensing Examination (USMLE)

to both allopathic (M.D.) and osteopathic (D.O) physicians twice annually. The board also determines the eligibility of physicians for licensure by endorsement of examination scores, and issues resident physician licenses, as well as temporary and special licenses.

The board is empowered with the duty and responsibility of licensure discipline, which involves the investigation of complaints, review of evidence, initiation and prosecution of disciplinary proceedings, and imposition of license discipline. The Board is authorized to operate the Impaired Physician Review Committee, a voluntary program for monitoring recovery/rehabilitation of impaired physicians. The board may, if necessary, petition the District Court for enforcement of its authority. The board registers and establishes peer review committees to investigate and report on the evaluation of certain complaints or other evidence of acts or omissions possibly constituting cause for licensee discipline. The board issues license renewals, certifications for licensure in other jurisdictions, and determines requirements for continuing medical education.

The board reviews and investigates professional liability claims filed against its licensees, including medical malpractice suits, to determine if the acts from which the claims were filed involved the violation of statutes, rules, or standards of practice.

The board is responsible for evaluating applications and issuing certificates of registration to qualified acupuncturists. At this time, through the Pharmacy Act under Chapter 75, the newly formed board developed a set of standards for individuals to be qualified as pharmacists by examination.
