The board has the responsibility to administer and enforce the laws relating to the practice of nursing, licensure of nurses, nursing education, and continuing education as a prerequisite to license renewal. The board enforces the law and administrative rules applicable to the practice of nursing, including the use of disciplinary proceedings and disciplinary action. The board issues licenses to registered nurses, licensed practical nurses, and advanced registered nurse practitioners.

BOARD OF PHARMACY

§147.13, 147.14

400 Southwest Eighth Street, Suite E, Des Moines 50309-4688; (515)281-5944

The Iowa Commission of Pharmacy was organized in 1880 under the direction of the Executive Department and established the State Board of Pharmacy the same year. The board was composed of three members. The newly formed board developed a set of standards for individuals to be qualified as pharmacists by examination for the protection of public health, welfare, and safety.

The present board consists of seven members — five professional members and two representatives of the general public. They are all appointed by the Governor to three-year terms and function under the statutory authority of Iowa Code chapters 124, 124A, 124B, 126, 147, 155A, 205, and 272C. The board has the responsibility for administering competency examinations and issues licenses to qualified applicants.

Through the executive director, the board maintains all records relating to continuing education and licensure by examination or reciprocity, processes all applications for licensure, collects fees, and issues all new and renewal licenses to those persons engaged in the practice of pharmacy. The board has the authority to promulgate administrative rules and promotes and enforces minimum professional standards of practice.

The board is responsible for administering the regulatory provisions of the Iowa Code relating to the legal aspects of professional practice, pharmacy technician activities, functions of pharmacy support persons, and the licensing of drug manufacturers, wholesalers, and distributors, and community, institutional, and nonresident pharmacies; the adulteration and labeling requirements for drugs; the purity, quality, and strength of drugs; the Controlled Substances Act and a state registration program for all legal handlers of controlled substances; the sale, distribution, labeling, and records requirements of transactions for designated poisonous substances; and precursor substances.

The board administers the Pharmacist-Intern Training Program, which prepares pharmacy students for the contemporary practice of community or hospital pharmacy.
