**DEPARTMENT FOR THE BLIND**

**Overview and Funding History**

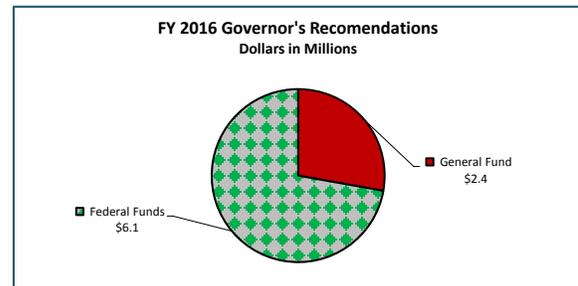

**Agency Overview:** The Department for the Blind provides vocational rehabilitation, independent living skills, library services, and other essential services to blind lowans. The Department's three major service areas are Vocational Rehabilitation (VR), Independent Living (IL), and the Library for the Blind and Physically Handicapped.

**Funding History:** The budget funding history for the Department for the Blind has remained relatively stable for the last five years for the General Fund and federal funds. The bar chart on the right shows the funding history for the Department for the Blind from FY 2012 through the Governor's recommendations for FY 2016. The Department has not had any other fund appropriations for the last five years.

**Governor's Recommendations**

**FY 2016:** The Governor is recommending an FY 2016 General Fund status quo appropriation compared to estimated FY 2015. The pie chart on the right shows the FY 2016 Department for the Blind budget as recommended by the Governor.

**Quick Facts - Blind**

**69,000**

Estimated lowans that are blind or visually impaired.

**6,430**

Individuals served by library services in CY 2013.

**60**

Business enterprises owned by legally blind clients and their employees in CY 2013.

## Discussion Items

**State Match Requirements for Federal Funds.** The majority of the General Fund appropriation to the Department for the Blind serves as nonfederal match to draw down federal funds at a ratio of 21.3%/78.7%. This funding is also subject to a maintenance of effort (MOE) requirement. A reduction in this state funding for this Department can lead to a loss of federal funding.

Due to federal legislation enacted on July 22, 2014, the Department's ability to match all available formula grants for the year ending September 30, 2015, is doubtful. New requirements related to transition-age clients will be difficult to meet in ways that effectively justify the use of federal funds.

**Reserve Funds.** As of December 15, 2014, the Department carried over approximately \$925,000 in federal grant formula funds. These funds accumulated from federal formula grants where the matching requirements have already been met or grants that required no matching funds.

## COLLEGE STUDENT AID COMMISSION

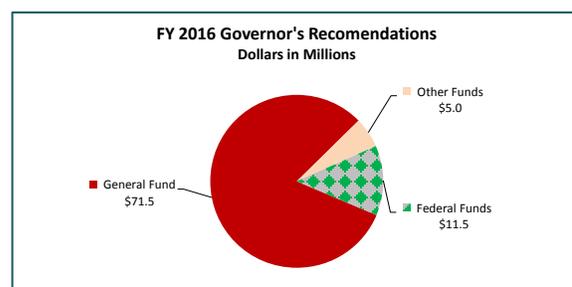

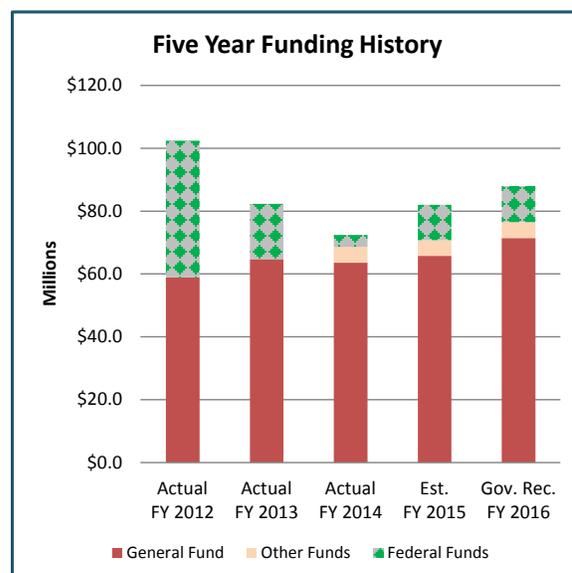

### Overview and Funding History

**Agency Overview:** The College Student Aid Commission, under the direction of a 12-member commission, administers a variety of State and federal programs to connect students with resources and services to finance a college education. The Commission offers need-based scholarships, grants, work study, and loans. The Commission provides school and lender services, borrower and collections services, communications services to assist students and families in planning and paying for college, and data collection and management.

**Funding History:** State funding for the College Student Aid Commission has gradually increased over the past few years. Beginning in FY 2014, the Skilled Workforce Shortage Grant is funded from the Skilled Worker and Job Creation Fund, rather than the General Fund. Combined General Fund and other fund support in FY 2015 reached \$70,786,278. The bar graph on the right shows a significant decrease in federal funding. This is a result of the discontinuation of the Federal Family Education Loan Program (FFELP). The Commission was the State guaranty agency for FFELP and received a variety of federal revenue as a result.

### Governor's Recommendations

**FY 2016:** The Governor is recommending FY 2016 General Fund appropriations totaling \$71,468,065, an increase of \$5,681,787 compared to estimated FY 2015. The Governor is recommending an FY 2016 other fund appropriation of \$5,000,000. This is no change compared to estimated FY 2015. The pie chart on the right shows the FY 2016 College Student Aid Commission budget as recommended by the Governor.

**Discussion Items**

**Commissioners’ Requested Funding Changes for FY 2016.** As in past years, the members of the Commission submitted their own budget request to the Governor, separate from the official request submitted by Commission staff in October. The LSA appropriations tracking reflects the October staff budget.

The Commission members are seeking a 5.0% increase for the State-funded aid programs, as well as an increase in the appropriation for Commission administration. Commissioners are requesting an increase for administration of \$503,021 (201.1%) compared to estimated FY 2015. The increase is intended to cover an increase in office rental fees (see below) and the cost of administering State-funded student aid programs. The requested administrative funding level represents 1.0% of the FY 2016 funding requested for those programs. Copies of the Commissioners' budget request are available upon request.

**Commission Administrative Costs.** In the report to the Education Appropriations Subcommittee in February 2013, the Commission provided data on estimated FY 2014 administrative costs by Program. Net administrative costs for State-funded financial aid programs totaled \$964,000 or 1.4% of State appropriations for the programs. Net administrative costs are estimated expenditures minus any estimated revenue generated by the Program. The expenditures include shared and indirect costs that are spread over all programs, regardless of funding source. Net direct administrative costs, excluding shared or indirect expenses, totaled \$90,000 or 0.1% of State appropriations for the programs. The report did not include the Rural Nurse Practitioner and Physician Assistant Loan Repayment Program that was enacted later in the 2013 Legislative Session.

**Commission Office Rent.** In September 2015, the Commission authorized an increase of \$134,683 in the FY 2015 budget to cover the increase in rent experienced as a result of moving off the Capitol complex when the Iowa Building was demolished. The Department of Administrative Services (DAS) had agreed to cover the additional cost for two years, beginning in FY 2014; however, due to loss of anticipated carryforward funding for DAS, the Commission was required to assume the increase a year earlier than planned. The Commission is using revenue from the Federal Family Educational Loan Program (FFELP) portfolio to fund the increase. *The Governor is recommending an increase in the Commission's appropriation for administration of \$181,787 to accommodate the increased costs associated with office rental.*

**FFELP Portfolio Projections.** In September 2014, the Commission received updated projections for revenue from the FFELP portfolio that was transferred to Great Lakes Higher Education Corporation in 2012. Because of a change in federal regulations for rehabilitation of outstanding FFELP loans effective in July 1, 2014, Great Lakes projects that operating costs will exceed revenues beginning in FY 2015 and the fund will be depleted in FY 2020. The Commission received revenues from Great Lakes of \$3.8 million in FY 2013 and \$7.0 million in FY 2014. Great Lakes is projecting Commission revenues of \$2.0 million in FY 2015 and FY 2016, with revenue steadily declining in subsequent years. At the beginning of FY 2015, the balance in the Commission's operating fund (revenue from the FFELP portfolio) was \$23,213,247.

**Nonprofit Iowa Tuition Grant.** The Commission estimates that an appropriation of \$50,834,120 is needed to fully fund the statutory maximum award of \$5,000 per recipient for FY 2016. This is the funding level requested by the Commissioners and represents a 5.0% increase compared to FY 2015. *The Governor is recommending an increase of \$4,000,000 for this appropriation, bringing the total appropriation to \$52,413,448.*

**For-Profit Iowa Tuition Grant.** The Commission estimates that an appropriation of \$5,500,000 would be needed to fully fund the statutory maximum award of \$5,000 per recipient for FY 2016. *The Governor is recommending an increase of \$200,000 for this appropriation, bringing the total appropriation to \$2,175,000.*

**Interstate Reciprocity for Postsecondary Registration.** The Commission's request for a waiver from the Midwest Higher Education Compact (MHEC) to allow Iowa to participate in the State Authorization

Reciprocity Agreement (SARA) for purposes of postsecondary registration, despite language differences in Iowa's statute, has been denied. In the 2014 Legislative Session, 2014 Iowa Acts, [Chapter 1063](#) (Postsecondary Education Reciprocity Agreement Act) was enacted to permit Iowa to participate in SARA. The language in SF 2271 differs somewhat from the language recommended by the National Council for State Authorization Reciprocity Agreements and was designed to accommodate the concerns of the Iowa Attorney General's Office regarding the impact on Iowa's strong consumer protection laws.

An update on the status of SARA nationally is available online at:

## DEPARTMENT OF EDUCATION

### Overview and Funding History

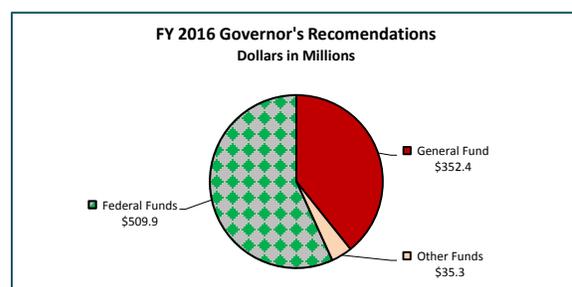

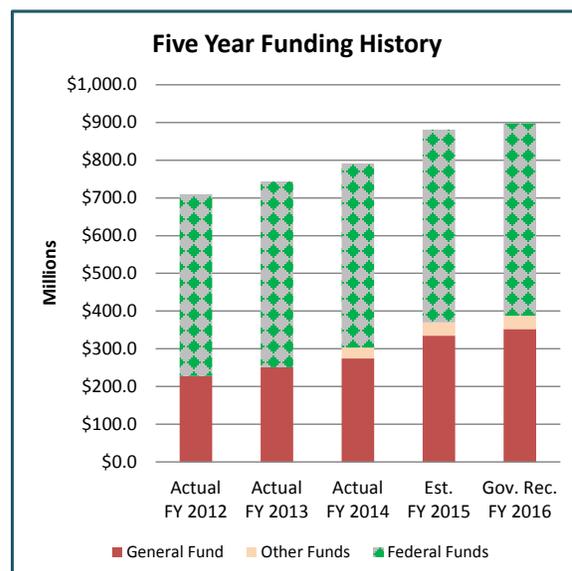

**Agency Overview:** The Department of Education oversees K-12 education in Iowa, as well as the community college system. In addition, the Department’s budget includes early childhood programming, the State Library and local library support, Iowa Public Television (IPTV), and Iowa Vocational Rehabilitation Services (IVRS). Direct aid to local schools is not part of the Subcommittee’s budget. For more information on school aid, see the State School Aid and the Unassigned Standing Appropriations section of this document.

**Funding History:** The budget funding history for the Department of Education has remained relatively stable for the last five years for General Fund and federal funds. The bar chart on the right shows the funding history for the Department of Education from FY 2012 through the Governor’s recommendations for FY 2016. Other fund appropriations from the Skilled Worker and Job Creation Fund for FY 2015 totaled \$35,300,000 for workforce training programs at the community colleges.

### Governor’s Recommendations

**FY 2016:** The Governor is recommending FY 2016 General Fund appropriations totaling \$338,075,946. This is an increase of \$17,342,531 compared to estimated FY 2015. The appropriation increase includes \$13,469,000 for six new programs. The pie chart on the right shows the FY 2016 Department of Education budget as recommended by the Governor.

The Governor is recommending other fund appropriations totaling \$35,300,000 for FY 2016. This is no change compared to estimated FY 2015.

## Discussion Items

**Federal Funds in the Department of Education.** There are four appropriations under the Department of Education that fulfill Maintenance of Effort (MOE) requirements for federal funds.

- **Vocational Education Administration and Vocational Education Secondary.** These funds are part of the State's receipt of federal Perkins funding. To fulfill MOE requirements, the State must spend an amount equal to or greater than the amount spent the previous year, unless the federal award is decreased. Failure to meet MOE requirements in either of these appropriations may jeopardize the entire Perkins funding of \$11,963,945. For FY 2012, the State appropriation for Vocational Education Administration failed to meet the MOE requirement. The Department was cited and the FY 2013 appropriation was increased to meet the MOE requirement.
- **School Food Service.** Based on past usage, the federal government determines how much funding the State is eligible for in the coming year and then determines the amount of State match required. The current match rate is 1 state dollar for every 71 federal dollars (\$2,176,797 of state match generates \$154,552,587 in federal funding). Reductions in State funding for this appropriation may result in the need to lower meal reimbursement rates to schools.
- **Special Education Services Birth to Three.** This appropriation funds the State's early childhood special education services under the federal Individuals with Disabilities Education Act (IDEA). Any reduction in State funding for this Program results in the loss of all federal funds for this Program that currently total \$3,880,191.

**Early Warning System.** The Early Warning System is a State system used to address requirements in Iowa Code section [279.68](#). The System addresses the mandate that school districts "assess all students enrolled in kindergarten through grade three at the beginning of each school year for their level of reading or reading readiness" and "provide intensive reading instruction to any student who exhibits a substantial deficiency in reading, based upon the assessment or through teacher observations." *The Governor is recommending an increase in funding from the current \$2,000,000 to \$3,200,000 to further support efforts to detect students with deficient reading skills. The increase will pay for licensing, implementation, and development fees. No new FTE positions are anticipated for this increase.*

**High Need Schools.** The High Need Schools Program provides supplemental assistance for identified schools with students whose first language is not English, who have special needs, and are of low-income backgrounds. Per [HF 215](#), the Program was to begin in FY 2015, but the Department is currently in the process of establishing a list of high-need schools eligible for supplemental assistance. The Department seeks further input from the Governor and legislators during the 2015 Legislative Session to complete the list. *The Governor is recommending a \$10 million General Fund appropriation to the High Need Schools for FY 2016, dependent upon the completion of a list of high-need schools for supplemental assistance during this legislative session.*

**Iowa Public Television (IPTV).** Funding is received from the Corporation for Public Broadcasting in the form of grants. Funding for the Community Service Grant is comprised of a base grant and then a calculation based on Non-Federal Financial Support (NFFS). The base grant is 20.0% of the Community Service Grant. The remaining 80.0% of the grant is calculated by multiplying NFFS by the Incentive Rate of Return (IRR). The NFFS includes state appropriations, membership contributions, nonfederal grants, underwriting and miscellaneous revenue. The IRR varies from year to year, but is

currently 11.5097%. A reduction in NFFS does not impact the base grant, but does directly reduce the size of the overall grant.

**Federal Funds Iowa Vocational Rehabilitation Services (IVRS).** For FFY 2014, the IVRS had a federal funds match shortage of \$545,958, and this resulted in the loss of \$2,017,227 in federal funds not earned. There was no MOE deficit in FFY 2014.

For FFY 2015, the IVRS estimates no match shortage and no MOE deficit. This is due in large part to the additional \$765,000 of State appropriated funds received for the vocational rehabilitation program from the 2014 Legislative Session. IVRS has also increased the number of third-party cooperative agreements that generate non-federal matching funds.

For FFY 2016, the IVRS estimates no match shortage and no MOE deficit.

*The Governor is recommending a \$5,911,200 General Fund appropriation for FY 2016. This is no change in State funding for the Department for FY 2016 compared to estimated FY 2015.*

**IVRS Waiting List.** Individuals not served by the Division are added to a waiting list. The waiting list averaged 3,813 people in 2011, 3,258 people in 2012, and 1,803 people in 2013, and 1,657 in 2014. Currently the waiting list has 1,600 people.

**Community Colleges — Voluntary Framework of Accountability.** The Department of Education is working with the Iowa Association of Community College Presidents to implement the Voluntary Framework of Accountability (VFA) for Iowa's community colleges. The VFA, designed by the American Association of Community Colleges, is a national effort to collect data and report results on success measures tailored to the public two-year college sector, including:

- Percent of students who progress through developmental education and into college-level work.
- Percent of students who reach two-year progress points and outcomes, such as retention, credit thresholds, earning a credential, and transferring.
- Percent of students achieving six-year outcome measures, such as earning a certificate or degree.
- Percent of career and technical students that achieve outcomes such as earning a certificate or credential, passing a licensure exam, gaining employment, and realizing a wage gain.
- Percent of Adult Basic Education students that obtain the General Education Development (GED) certification and progress to employment or college education.

In Iowa, 13 of the 15 colleges are currently piloting the submission of credit data for the VFA through the Department. The Department has obtained membership in the VFA project for the schools and has signed a memorandum of agreement with each school to define the roles of the college and the Department. The process is underway and the Department will upload the collected data to the VFA website by March 1, 2015. Colleges will have until June 1 to confirm and approve the information prior to the public debut in June 2015. After that, the Department will work with the colleges and subcommittees to achieve full implementation with all 15 colleges in the fall of 2015.

The VFA also includes voluntary noncredit and adult literacy data components. Subcommittees are working to develop a process for incorporating that data into future VFA data submissions from the Iowa community colleges.

**BOARD OF REGENTS**

**Overview and Funding History**

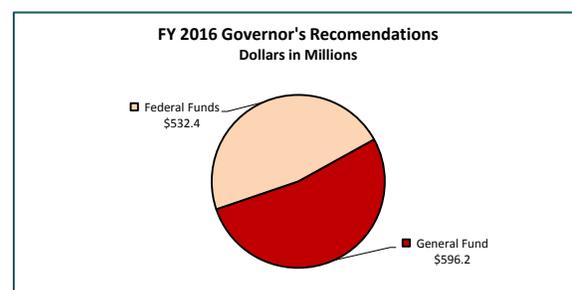

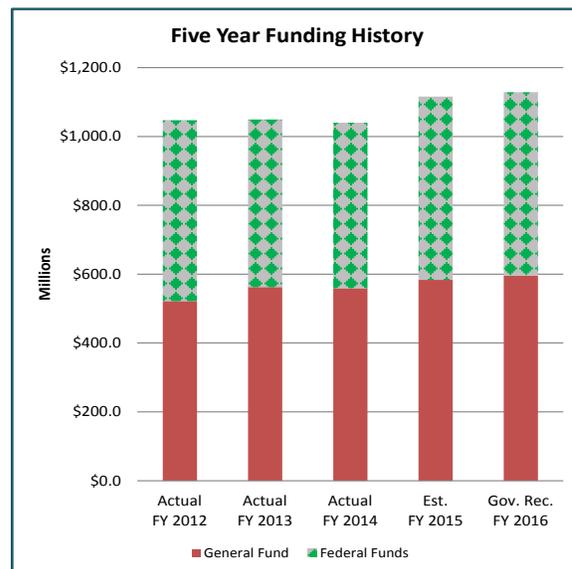

**Agency Overview:** The Board of Regents (BOR) is a nine-member board that oversees the University of Iowa, Iowa State University, the University of Northern Iowa, the Iowa School for the Deaf, and the Iowa Braille and Sight Saving School. The Board establishes policy for the institutions; hires the university presidents and special school superintendents; approves budgets, tuition and fees, bonding, investment policies, and other business and finance matters; reviews and approves academic programs; and serves as the trustees for the University of Iowa Hospitals and Clinics (UIHC).

**Funding History:** The FY 2015 level of General Fund support for the Board of Regents from the Education Appropriations Act was \$583,238,311. In the chart on the right, federal funding has remained relatively stable as State General Fund support has increased slightly.

**Governor’s Recommendations**

**FY 2016:** The Governor is recommending FY 2016 General Fund appropriations totaling \$596,239,492. This is an increase of \$13,001,181 compared to estimated FY 2015. The Governor is recommending FY 2016 other fund appropriations totaling \$8,700,000. This is no change compared to estimated FY 2015. The pie chart on the right shows the FY 2016 Board of Regents budget as recommended by the Governor.

The Governor is recommending funding of \$30,237,549 for tuition replacement from the Rebuild Iowa Infrastructure Fund (RIIF), an increase of \$502,126 compared to estimated FY 2015. This appropriation is under the purview of the Transportation, Infrastructure, and Capitals Appropriations Subcommittee.

**Quick Facts - Regents**

**56.3% and 7.9%**

Percentage of FY 2014 university operating revenues from tuition and fees and from State appropriations, respectively.

**\$4.96 billion**

Total FY 2014 revenue for the Board of Regents enterprise, including \$1.52 billion in general operating revenue, \$1.14 billion in UIHC operating revenue, and \$2.30 billion in restricted revenue.

**67.6%**

Percentage of FY 2014 General Operating Fund expenditures for salaries at all the Regents institutions, excluding the UIHC.

## Governor's Recommendations: Significant Increases/Decreases – Board of Regents

<b>General Fund</b>	
A 1.75% increase to each of the State universities for general operational support.	\$8,768,298
A 1.75% increase to each of the Special Schools for general operational support.	\$232,883
A new appropriation for Performance-Based Funding, to be divided approximately equally between Iowa State University and University of Northern Iowa.	\$4,000,000

## Discussion Items

**Tuition Freeze.** For the third year in a row, the Board of Regents voted to keep undergraduate tuitions frozen at the FY 2013 level in FY 2016, contingent upon receiving a 1.75% increase in general university appropriations to the three universities.

**Performance-Based Funding Proposal.** The Board of Regents has adopted a Performance-Based Funding (PBF) formula for allocating State general education funding between the three universities. The formula uses the metrics in the table below. The percentage of funding to be based on each metric is indicated.

If allocated using these metrics, the Board's requested FY 2016 general education funding (a 1.75% increase or a total of \$509,813,842) would result in a reduction of funding to the University of Iowa (UI) of \$46,462,625 compared to FY 2015, with a commensurate increase in funding for both Iowa State University (ISU) and University of Northern Iowa (UNI). To reduce the annual impact to the UI, the Board limited the amount of funding to be redistributed in a single year to 2.0% of UI's general education revenues in the most recently completed fiscal year. For FY 2016, that limits the redistribution to \$12,971,898, with ISU receiving \$6,366,297 and UNI receiving \$6,605,601.

To avoid a reduction in the UI's FY 2016 State appropriation, the BOR is asking that each university receive a 1.75% increase on the FY 2015 appropriation (a total of \$8,768,298) and that the General Assembly provide an additional \$12,971,898 in new funding to ISU and UNI to begin to implement the PBF formula. Assuming all the metrics remain unchanged in future years, it will take annual appropriations of similar size in FY 2017 and FY 2018 to fully implement the formula.

*The Governor is recommending a 1.75% general increase for each of the universities and a new appropriation of \$4.0 million to begin implementation of the performance-based funding formula. The formula would divide the \$4.0 million approximately equally between ISU and UNI for FY 2016.*

**FY 2016 Performance-Based Funding Metrics**

60% Resident Enrollment	Three-year rolling average headcount of full-time resident undergraduates and full-time equivalent enrollment of resident graduate and professional students.
5% Graduate/Professional Students	Three-year rolling average full-time equivalent enrollment of all graduate and professional students.
5% Student Progress	Number of resident undergraduates achieving credit hour thresholds of 24, 48, and 72.
10% Number of Graduates	Number of graduates in the most recently completed academic year, including Bachelor's, Master's, and Doctoral/Professional.
10% Access	Three-year rolling average enrollment of low-income students (part-time Pell Grant recipients and full-time students with need based on Expected Family Contribution), minority students, Iowa community college transfers, and veterans.
5% Sponsored Research	Sponsored research dollars for the most current year.
5% Customized Metrics	Determined by the Board of Regents. For FY 2016, this portion of funding will be distributed in the same proportion as the other metrics combined. The BOR will customize metrics in FY 2017.

**Status of Regents Efficiency Study.** Under a contract with the Board of Regents, Deloitte Consulting developed 17 case studies to look for possible efficiencies and has conducted and made recommendations regarding 12 administrative cases. The remaining five academic cases are still in process. Two of those will be conducted by subcontractor Ad Astra and will involve the use of classroom space and course scheduling. The BOR is reviewing proposals submitted for the other three academic case studies involving faculty staffing, class size, and the use of distance education.

The Board has adopted Deloitte's recommendations for the 12 administrative cases and is in the process of evaluating proposals from contractors for implementation of those. The universities have also been invited to submit their own proposals for implementation of any of the cases. Deloitte estimated cost savings from the administrative cases of approximately \$84,000,000, noting that the estimate is based on variables that may change as a result of implementation plans.

Board of Regents staff has indicated that additional information will be available in March 2015.

**Transfer of Funds between Regional Study Centers.** Enacted in 2014, [SF 2347](#) (FY 2015 Education Appropriations Act) codified language authorizing the Board of Regents to transfer funds between the three regional study centers. While the LSA tracking documents show the original appropriations to the three centers, the actual FY 2015 allocations after BOR transfers are as follows:

- Southwest Iowa Regents Resource Center - \$182,734
- Northwest Iowa Regents Resource Center - \$96,114
- Quad Cities Graduate Center - \$5,000

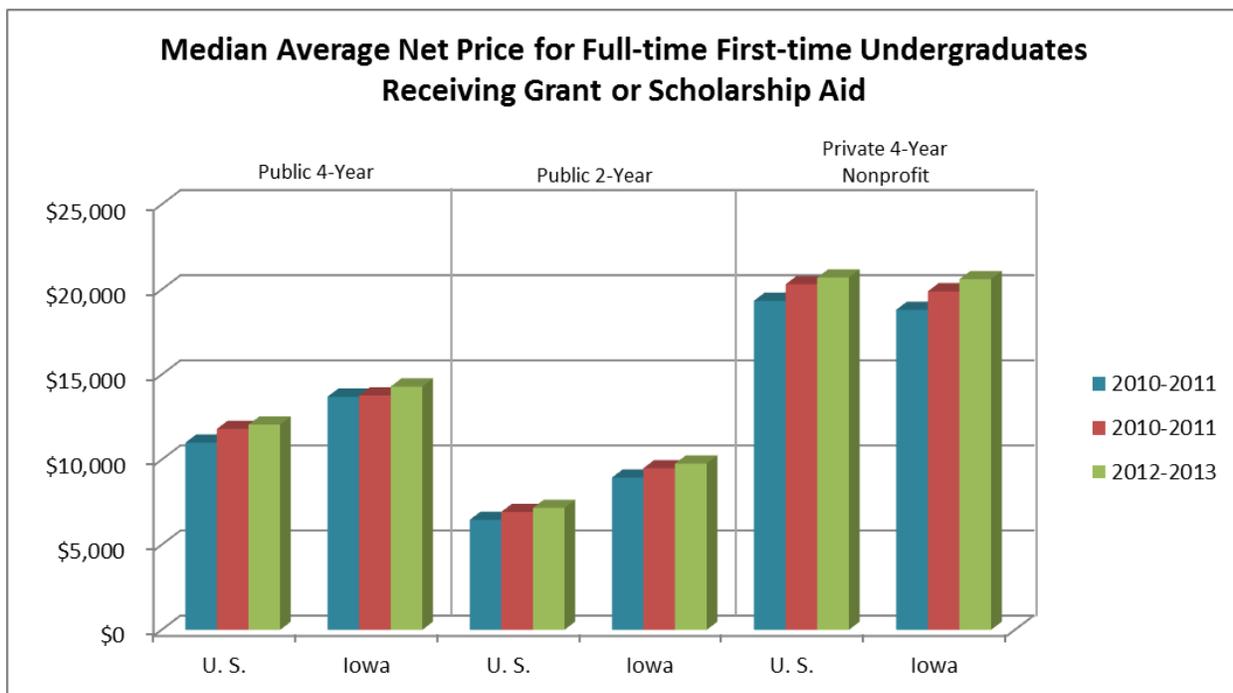

The Education Appropriations Subcommittee may want to consider making a single appropriation to the three centers for FY 2016, allowing the BOR to allocate the funding.

**University Reporting of Cash and Cash Equivalents.** At a meeting on October 20, 2014, the Legislative Fiscal Committee received and discussed a report from the Auditor of State pertaining to differences in the way the three State universities report cash and cash equivalents in annual financial statements. While each of the universities was in compliance with Governmental Accounting Standards Board (GASB) guidance, the flexibility permitted in that guidance had resulted in differences between the universities. As a result, the Board of Regents has revised its investment policy to differentiate between internally managed and externally managed funds. Only internally-managed funds purchased and maturing within 90 days will be reported as cash equivalents, while externally-managed funds will be reported as investments regardless of whether they include funds that meet the GASB definition of cash equivalents. The revised policy will be applied to amounts reported in the audited financial statements for the year ended June 30, 2014. Because the financial statements will compare FY 2014 to FY 2013, amounts for FY 2013 will be restated per the revised policy.

### Comparison to Other States – Average Net Price of College Attendance and Use of Financial Aid

**Average Net Price.** According to data submitted by institutions to the National Center for Education Statistics’ (NCES) Integrated Postsecondary Data System (IPEDS) for the three academic years between 2011 and 2013, Iowa’s public four-year and two-year institutions ranked above the national median in average net price of attendance for full-time first-time undergraduates that received grant or scholarship aid.

The following graph compares the U.S. median and the Iowa median average net price by sector.

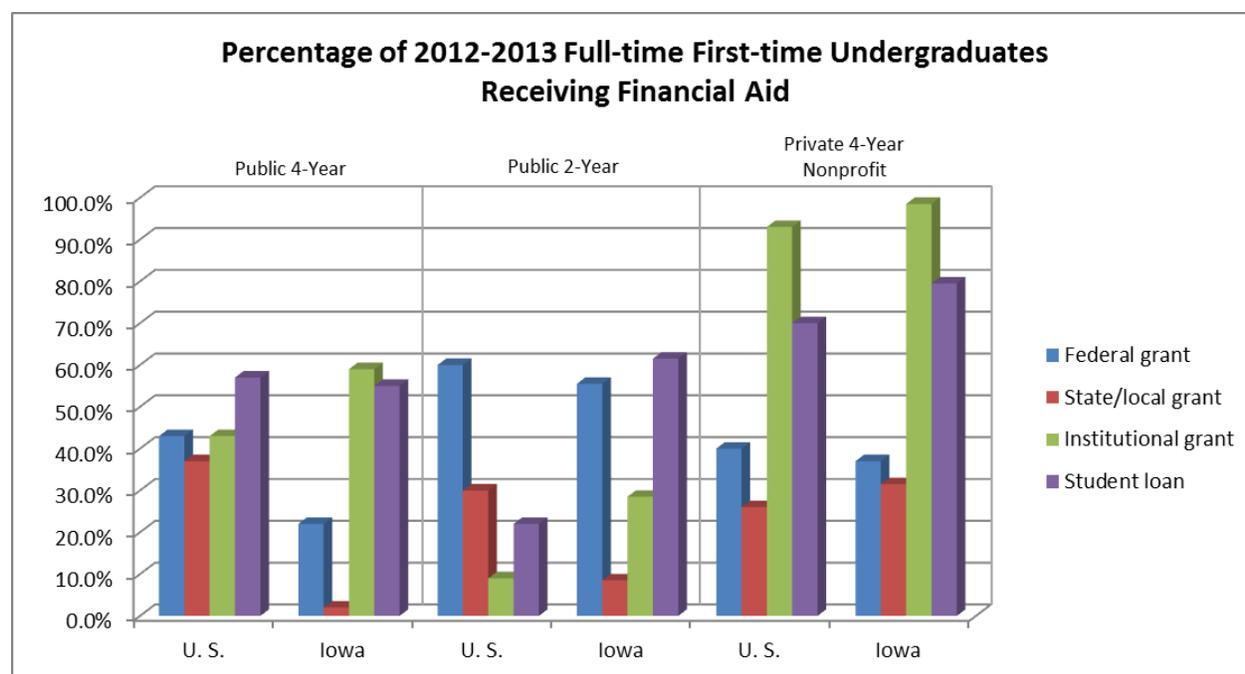

For public four-year institutions, the average net price increased by 4.4% in Iowa over the three years, compared to 9.7% nationally. The difference between the Iowa median and the national median ranged between 16.6% and 24.6% over the three years.

For public two-year institutions, the increase in net price in Iowa was 9.2%, while the national median decreased by 10.8%. The difference between the Iowa median and the national median ranged between 36.4% and 38.3% over the three years.

Iowa's private four-year nonprofit institutions remained slightly below the national median for that sector. The growth in average net price in Iowa was 9.5% over the three years, compared to 7.0% nationally.

**Use of Financial Aid.** Based on IPEDS data for the 2012-2013 academic year, approximately 87.0% of full-time first-time undergraduates at Iowa's public four-year and public two-year institutions received some type of financial aid. The national median percentage for public four-years was 88.0%, while it was only 83.0% for public two-years. At Iowa's private nonprofit four-year institutions, 100.0% of full-time first-time undergraduates received financial aid, while the national median for the sector was 98.0%.

The following graph shows the percentage of students receiving financial aid by institutional sector and type of aid.

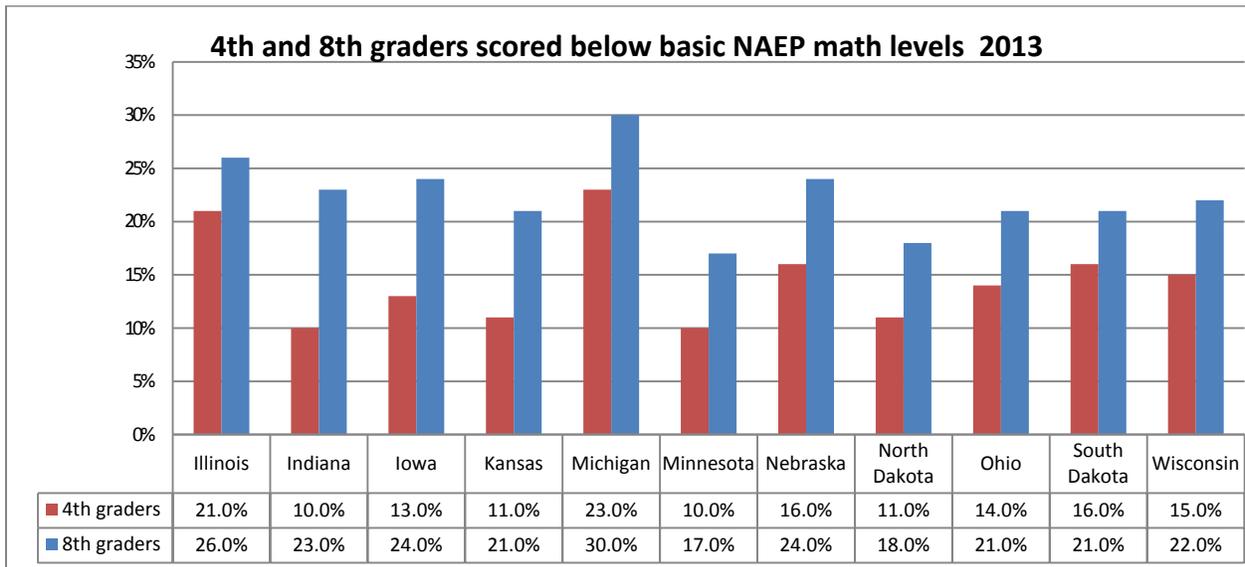

**Notes:**

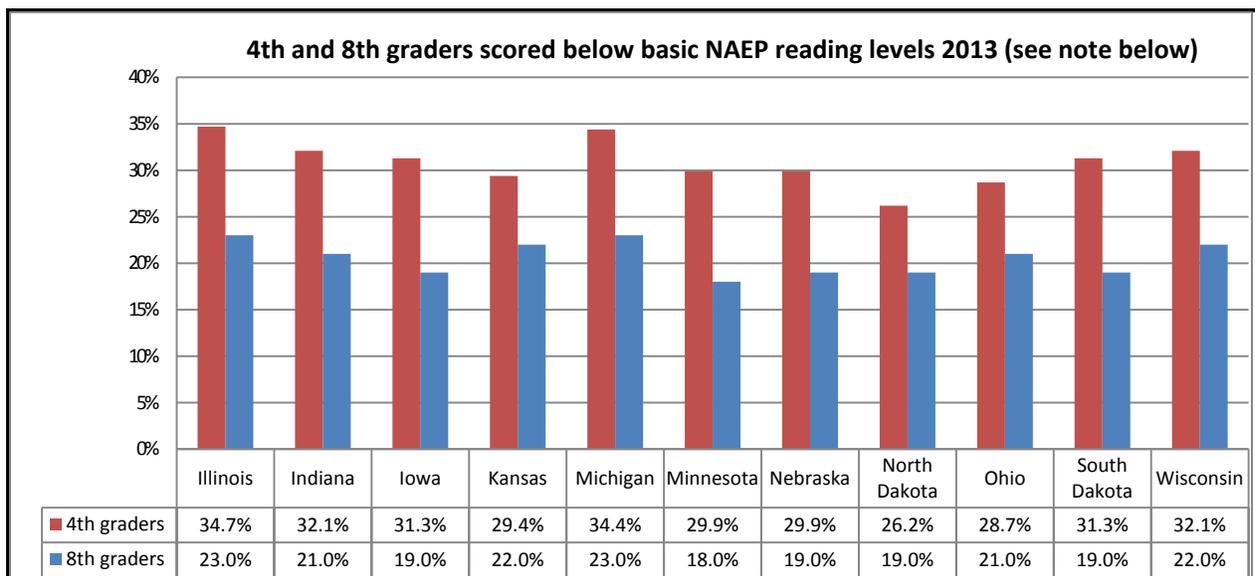

- 1) NCES is located within the U.S. Department of Education and the Institute of Education Sciences (IES). Data in the IPEDS system is reported by individual schools, colleges, and universities.
- 2) Average net price is generated by subtracting the average amount of federal, state, or local government, or institutional grant and scholarship aid from the total cost of attendance. Total cost of attendance is the sum of published tuition and required fees (lower of in-district or in-state), books and supplies and the weighted average room and board and other expenses.

### Comparison to Other States – Education Outcomes

Data gathered from the [Council of State Governments States Perform](http://www.statesperform.org) website show the percent of Iowa’s students that scored below basic levels in math on the National Assessment of Educational Progress (NAEP) in 2013 was 13.0% for 4th graders and 24.0% for 8th graders. The following figure shows the percentages of 4th and 8th graders that scored below basic NAEP math levels in 2013 for the Midwest region.

In reading, the percentage of Iowa students that scored below basic levels on the NAEP was 31.3% for 4th graders and 19.0% for 8th graders. The following figure below shows the percentages of 4th and 8th graders that scored below basic NAEP reading levels in 2013 for the Midwest region.

**Note:** Data on 4th grade reading levels are from 2011.

## **FTE Position Tracking**

## Explanation of FTE Position Data

The following is an explanation of the Full-Time Equivalent (FTE) position information provided on the following tables. The columns of FTE data represent different points in time that the numbers were compiled. For additional information on the State's FTE positions, see the *Issue Review* entitled [State of Iowa FY 2014 FTE positions and Personnel Costs](#).

**Final Action FY 2014:** This information represents the number of FTE positions that were appropriated in session law during the 2013 Legislative Session.

**Actual FY 2014:** This data represents the actual FTE utilization calculated at the close of the fiscal year. The FTE usage is calculated by taking the actual hours worked during the fiscal year and dividing the number by 2,080 hours. For example, if a department has budgeted a full-time position (equating to 1.0 FTE) and this position is vacant for six months of the fiscal year, at the close of the fiscal year, the calculation of the actual FTE would be 0.5 ( $1,040 \div 2,080 = 0.5$ ). The calculation of the actual FTE factors out the portion of the FTE that was vacant during the fiscal year.

**Actual vs Final Act FY 2014:** This shows the difference between the estimates being used at the close of the 2013 Legislative Session and the actual FTE utilization calculated at the close of FY 2014.

**Final Action FY 2015:** This information represents the number of FTE positions that were appropriated in session law during the 2014 Legislative Session.

**Estimated FY 2015:** This data represents the estimated FTE positions that were budgeted by the departments at the beginning of FY 2015 and incorporates any revisions that would have been made to the budget by the departments through (approximately) December of 2013. Changes to the estimates can occur for a variety of reasons. For example, if departments are not provided funding for salary adjustment to cover the costs of funding collective bargaining contracts, the departments will often reduce the number of FTE positions in order to cover costs.

**Estimated vs Final Act FY 2015:** This column shows the difference between the estimates provided at the beginning of FY 2015 and the FTE positions enacted for FY 2015 during the 2014 Legislative Session.

**Gov Rec FY 2016:** This is the Governor's recommendation for FY 2016.

**Gov Rec FY 2016 vs Est FY 2015:** Represents the difference between the Governor's recommended FTE positions and the most recent estimates for FY 2015.

**Gov Rec YR2 FY 2017:** This is the Governor's recommendation for FY 2017.

**Gov Rec FY 2016 vs Est FY 2015:** Represents the difference between the Governor's recommended FTE positions for FY 2017 and the Governor's recommendation for FY 2016.

## **Sample of Budget Schedules 1 and 6**

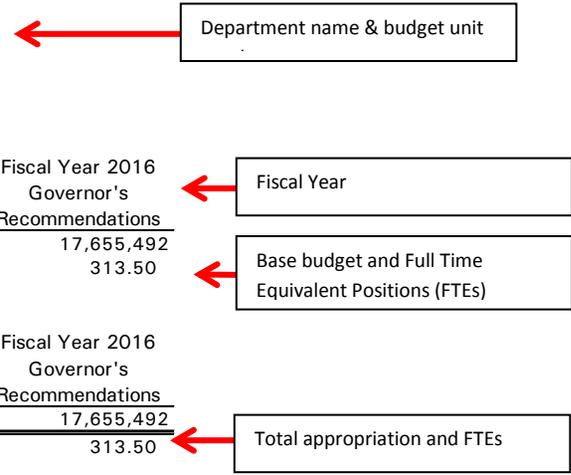

The Schedule 1 shows the “decision packages” used by the Executive Branch to arrive at the Department’s annual budget request (dollars and FTE positions) and the Governor’s recommendations for a particular budget unit.

**Schedule 1 Example**

**STATE OF IOWA**  
 Fiscal Year 2016 Annual Budget  
 SPECIAL DEPARTMENT: (040) Agriculture and Land Stewardship  
 Budget Unit: (009G410001) GF-Administrative Division  
 Schedule 1

# **Appendix E**

## **FY 2014 Year-End Appropriations**

# FY 2014 Appropriation Activity

The following information provides a summary of the FY 2014 General Fund and non-General Fund appropriations for the departments under the purview of the Administration and Regulation Appropriations Subcommittee. Appropriations are adjusted for several factors throughout the fiscal year, including supplemental appropriations, deappropriations, and adjustments to standing appropriations to account for actual expenditures. Other activity associated with appropriated funds include: balances brought forward, transfers, and reversions. The tables show each of the departments' appropriations and the changes that occurred throughout the fiscal year.

- Original Appropriation: The amounts appropriated from the General Fund in individual appropriation bills during the 2013 Legislative Session.
- DAS Distribution: These funds were appropriated to multiple State agencies in HF 603 (FY 2014 Administration and Regulation Appropriations Act) to partially offset costs associated with using the Integrated Information for Iowa (I/3) System. From FY 2014 forward, the funding becomes part of the base budgets of the departments. The I/3 System is the State's Enterprise Resource Planning System that supports the financial processes such as accounts payable, accounts receivable, procurement, general accounting, fixed assets, budget preparation and applicant tracking. The I/3 System is supported and administered by the Department of Administrative Services (DAS). The DAS bills State agencies on a monthly basis to cover costs of maintaining and operating the System.
- Salary Adjustment (Other Funds Only) – A few non-General Fund appropriations were authorized to receive appropriation adjustments to fund their salary increases for FY 2014.
- Supplemental/Deappropriations (Other Funds Only): These changes represent the supplemental appropriations and deappropriations enacted during the 2014 Legislative Session.
- Total Net Appropriation: This is the sum of all of the above numbers and represents the final appropriation amount after the above legislative changes were applied.
- Balance Brought Forward: Appropriated funds allowed to carry forward from FY 2013 to FY 2014. These funds provided additional spendable dollars for FY 2014.
- Appropriation Transfers In and Out: These adjustments represent transferred appropriation spending authority between enacted appropriations. These transfers are usually implemented by the Governor through the authority of Iowa Code section 8.39.
- Balance Carry Forward: Appropriated funds that are allowed to carry forward from FY 2014 to FY 2015. Provides additional spendable dollars for FY 2015.
- Reversions: These are the unspent appropriated funds that revert back to the fund from which they were appropriated.
- Total Appropriation Expended: This number represents the appropriation after all of the above adjustments have been made. The result is the total appropriated funds that were expended in FY 2014.

<b>Department for the Blind</b>						
Department for the Blind	\$ 2,048,358	\$ 2,298,358	\$ 250,000	\$ 2,298,358	\$ 0	Approximately 87.0% of this funding matches federal Vocational Rehabilitation (VR) funding at a ratio of 21/79 and is subject to a maintenance of effort requirement that the State spend an amount equal to or greater than the second previous year. The U.S. Department of Education enforces penalties for violations of the MOE requirement. Approximately another 2.0% of this funding matches federal funds at a ratio of 10/90 with no MOE.

## Education General Fund

	Actual FY 2014 (1)	Estimated FY 2015 (2)	Est FY 2015 vs. FY 2014 (3)	Gov Rec FY 2016 (4)	Gov Rec FY 2016 vs. Est FY 2015 (5)	Federal Funds Information (6)
<b>Education, Dept. of</b>						
<b>Education, Dept. of</b>						
Administration	\$ 6,304,047	\$ 8,304,047	\$ 2,000,000	\$ 9,504,047	\$ 1,200,000	
Vocational Education Administration	598,197	598,197	0	598,197	0	The State must spend at least one state dollar for every federal dollar spent on State administration. To fulfill MOE requirements, the State must spend an amount equal to or greater than the amount spent in the previous year.
State Library	2,715,063	2,715,063	0	2,715,063	0	This funding serves to meet MOE on federal funds that is based on a three-year rolling average. Due to the Library Service Areas appropriation being combined with the State Library appropriation for FY 2014, the State Library met the MOE requirement for FY 2015.
State Library - Enrich Iowa	2,524,228	2,574,228	50,000	2,574,228	0	
Vocational Education Secondary	2,630,134	2,630,134	0	2,630,134	0	The State must spend an amount equal to or greater than the amount spent in the previous year. This appropriation and the Vocational Education Administration appropriation are a part of the State's federal Perkins funding, which in FY 2015 is estimated at \$11,855,809.
Food Service	2,176,797	2,176,797	0	2,176,797	0	The federal statute establishes an amount in a baseline year; a State match rate is then set each year based on usage rates (no MOE). In FY 2014 the federal award was \$161,971,933. So every \$1 in state funding matched approximately \$71 federal dollars.
ECI General Aid (SRG)	5,386,113	5,386,113	0	5,386,113	0	
ECI Preschool Tuition Assistance (SRG)	5,428,877	5,428,877	0	5,428,877	0	
ECI Family Support and Parent Ed (SRG)	12,364,434	12,364,434	0	12,364,434	0	
Special Ed. Services Birth to 3	1,721,400	1,721,400	0	1,721,400	0	This appropriation funds the State's early childhood special education services under the federal Individuals with Disabilities Education Act (IDEA). The appropriation of \$1,721,400 must stay static to satisfy the MOE. Any reduction in State funding for this Program could result in the loss of all federal funds for this Program, which currently totals approximately \$4.0 million.

Funding for the Community Service Grant is comprised of a base grant and then a calculation based on Non Federal Financial Support (NFFS). The base grant is 20.0% of the Community Service Grant. The remaining 80.0% of the grant is calculated by multiplying NFFS by the Incentive Rate of Return (IRR). The NFFS includes state appropriations, membership contributions, non-federal grants, underwriting and miscellaneous revenue. The IRR varies from year to year, but is currently 11.5097%. A reduction in NFFS does not impact the base grant, but does directly reduce the size of the overall grant.

NOTES:

- 1) Changes in demographics that impact the formula (0-5 population, 0-5 population below 185% of federal poverty level) result in varying percentage increases/decreases among the areas.
- 2) Assumes the administrative carve-outs in the FY 2015 General Aid appropriation will remain the same for FY 2016.
- 3) Excess carryforward in FY 2014 and reallocation to all ECI Area Boards may impact total funding for FY 2016.
