## Declining Enrollments and Budget Guarantee

### ISSUE

This *Issue Review* examines the trend of enrollments of individual school districts and provides a brief history of the budget guarantee.

### AFFECTED AGENCIES

Department of Education  
Department of Management  
Local School Districts

### CODE AUTHORITY

Section 257.14, Code of Iowa

### BACKGROUND

Section 257.14, Code of Iowa, as amended by the 78<sup>th</sup> General Assembly in SF 2111 (FY 2001 Budget Guarantee Act), provides that school districts with declining enrollments may receive additional funds that guarantee that the current fiscal year's total regular program district cost is equal to the previous year's total regular program district cost.

Not all school districts with declining enrollments are eligible for the budget guarantee. However, the number of school districts that have been eligible to receive the budget guarantee has increased since FY 1996. Districts in which total regular program district cost is more in the previous fiscal year than the current fiscal year are eligible to receive a budget guarantee. Districts that have received the budget guarantee for a number of years have maintained a constant total regular program district cost amount over those years.

Two important concepts in determining the budget guarantee are the regular program district cost and the total regular program district cost. The following shows how each is determined:

- Regular Program District Cost = Budget Enrollment X District Cost per Pupil

- Total Regular Program District Cost = Regular Program District Cost + Previous Year's Budget Guarantee

**Example**

School District A's regular program district cost in FY 1996 was \$1.0 million dollars. District A had a budget enrollment of 400 students and the district cost per pupil equals the State cost per pupil of \$2,500. The regular program district cost was:

$$400 \times \$2,500 = \$1.0 \text{ million}$$

(Budget Enrollment X District Cost per Pupil = Regular Program Cost)

The FY 1997 allowable growth was set at 4.0% so the State cost increased by \$100 (1.04 X \$2,500) per pupil and the new district cost per pupil increased to \$2,600 (\$2,500 + \$100). District A's budget enrollment decreased by 5.0% to 380 students. The new regular program district cost was:

$$380 \times \$2,600 = \$988,000$$

(Budget Enrollment X District Cost per Pupil = Regular Program Cost)

The FY 1997 total regular program district cost was:

$$\$988,000 + \$12,000 = \$1.0 \text{ million}$$

(Regular Program District Cost + Budget Guarantee = Total Regular Program District Cost)

Since the regular program district cost was \$12,000 less than the previous year, the budget guarantee allowed the school district to receive the additional \$12,000 and maintain the total regular program district cost at \$1.0 million. This amount is indicated in Table 1.

**Table 1**  
**School District A's Example Data\***

Fiscal Year	Budget Enrollment	State Cost Per Pupil	Regular Program District Cost	100.0% Budget Guarantee Amt.	Total Program District Cost
1996	400	\$ 2,500	\$ 1,000,000		\$ 1,000,000
1997	380	2,600	988,000	\$ 12,000	1,000,000
1998	361	2,704	976,144	23,856	1,000,000
1999	343	2,812	964,516	35,484	1,000,000
2000	326	2,924	953,224	46,766	1,000,000
<b>Overall Change</b>	<b>-74</b>	<b>\$ 424</b>	<b>\$ (46,766)</b>	<b>\$ 46,766</b>	<b>\$ 0</b>

\*Note: Figures used in Table 1 are example data only.

In this example, had this trend continued through FY 2000 (enrollment decreasing by 5.0% each year and allowable growth increasing by 4.0% each year), district cost per student would be \$2,924 and the budget enrollment would be 326. The regular program district cost would be:

$$326 \times \$2,924 = \$953,224$$

(Budget Enrollment X District Cost per Pupil = Regular Program Cost)

Although District A's enrollment decreased each year, the total regular program district cost would still be \$1.0 million.

$$\$953,224 + \$46,766 = \$1.0 \text{ million}$$

(Regular Program District Cost + Budget Guarantee = Total Regular Program District Cost)

The 100.0% budget guarantee provision provides that the total regular program district cost will never decrease. This example demonstrates that despite the district having 74 fewer

students, the school district will receive \$1.0 million even though the formula, without the budget guarantee, would generate approximately \$950,000.

Table 1 shows the amount of budget guarantee District A would have received each year in this example.

## CURRENT SITUATION

### Budget Guarantee

Since FY 1996, legislation has passed each year that allows school districts to receive a budget guarantee. The legislation normally requires that school districts levy local property taxes for the 100.0% budget guarantee. However, the following deviations from that process have occurred:

- In FY 1996, 68 eligible school districts' were allowed to receive a 101.0% budget guarantee with the initial 100.0% to be funded through local property taxes and the remaining 1.0% to be funded by State aid. The budget guarantee for these districts totaled \$2.8 million of which \$1.9 million was local property tax and \$900,000 was State aid.
- In FY 2000, 105 eligible school districts' received a 100.0% budget guarantee that was entirely funded by State aid. Total cost of the budget guarantee was \$6.2 million.
- In FY 2001, 114 eligible school districts were given the option to levy for a maximum of a 100.0% budget guarantee amount. Eight school districts did not approve the budget guarantee levy. Out of the 106 that did approve a budget guarantee, 105 districts approved the 100.0% budget guarantee levy and one school district approved a budget guarantee of 70.0%. Total cost of the budget guarantee is estimated at \$6.6 million (which is entirely property tax).

Table 2 details the budget guarantee from property tax and State aid and the number of school districts that received the budget guarantee since FY 1996.

**Table 2**  
**Budget Guarantee Totals FY 1996 – FY 2001**

(Dollars in Millions)

	FY 1996	FY 1997	FY 1998	FY 1999	FY 2000	FY 2001
<b>Local Property Tax</b>	\$ 1.86	\$ 2.15	\$ 2.45	\$ 3.18		\$ 6.63
<b>State Aid</b>	0.90				\$ 6.23	
<b>Budget Guarantee Total</b>	\$ 2.76	\$ 2.15	\$ 2.45	\$ 3.18	\$ 6.23	\$ 6.63
<b>Number of Districts</b>	68	54	60	63	105	106

Table 2 indicates a trend of larger dollar amounts for the budget guarantee and a larger number of districts receiving the budget guarantee. Attachment A provides budget guarantee information for each existing school district for FY 1996 – FY 2001. The budget guarantee is a function of enrollment declines and allowable growth rates. The combination of a low to

moderate allowable growth rate and a decrease in enrollment will increase the number of schools receiving the budget guarantee.

**Enrollments**

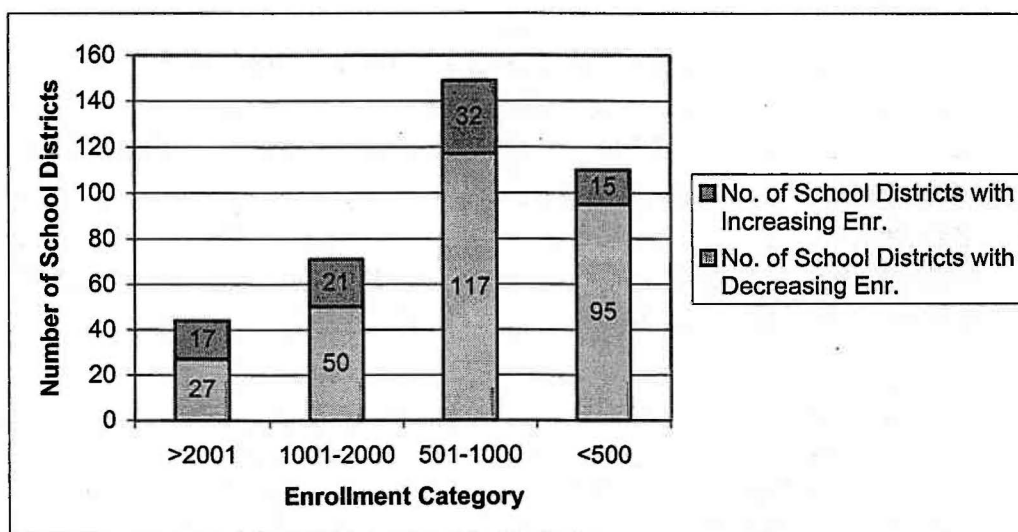

Since 1996, state-wide enrollments in Iowa's K-12 public schools has decreased 11,178 students (2.2%). The Department of Education anticipates enrollments to continue to decline for the next several years. **Chart 1** shows the state-wide enrollment trend taken for each September from 1985 through estimated 2000.

**Chart 1  
Statewide K-12 Public Enrollment Trends  
(Enrollments Reflect September Counts)**

Of the current 374 school districts, there are 289 (77.3%) school districts that have seen enrollments decrease since 1996. **Chart 2** divides the school districts into enrollment categories and details enrollment changes since 1996.

**Chart 2  
School District Enrollment Changes by Enrollment Category**

Enrollments in all the categories have decreased since 1996. The following highlights changes by enrollment category:

- In school districts with more than 2,000 students, enrollments have increased by 376 (0.1%) since 1996. Of the 44 school districts in this category, 27 (61.4%) have decreased in size.
- In school districts with less than 2,000 and more than 1,000 students, enrollments have decreased by 2,618 (2.5%) students since 1996. Of the 72 school districts in this category, 50 (69.4%) have decreased in size.
- In school districts with less than 1,000 and more than 500 students, enrollments have decreased by 3,968 (3.7%) students since 1996. Of the 148 school districts in this category, 117 (79.1%) have decreased in size.
- In school districts with less than 500 students, enrollments have decreased by 3,225 (8.1%) students since 1996. Of the 110 school districts in this category, 95 (86.4%) have decreased in size.

**Attachment B** provides enrollments for existing school districts since 1996. Since 1996:

- School districts that have enrollment losses over 10.0% total 82/374 (21.9%).
- School districts that have enrollment losses over 20.0% total 5/374 (1.3%).
- School districts that have enrollment increases over 10.0% total 25/374 (6.7%).
- School districts that have enrollment increases over 20.0% total 11/374 (2.9%).

### **ALTERNATIVES AND BUDGET IMPACT**

1. Allow school districts that meet the requirements for the 100.0% budget guarantee to receive the budget guarantee. The budget impact of this alternative for FY 2002 is approximately \$7.7 million and the number of eligible school districts is estimated to be 114. The 100.0% budget guarantee would be approximately 0.3% of the FY 2002 Total Regular Program District Cost.
2. Allow school districts that meet the requirements for the 99.0% budget guarantee to receive the budget guarantee. The budget impact of this alternative is approximately \$5.0 million and the number of eligible school districts is estimated to be 85. The 99.0% budget guarantee would be approximately 0.2% of the FY 2002 Total Regular Program District Cost.
3. Implement a two-year rolling average budget guarantee. This would allow school districts with declining enrollments to possibly increase the regular program district cost from the previous year. The estimated impact of this alternative is approximately \$15.7 million for FY 2002 and the number of eligible districts is estimated to be 261. The two-year rolling average budget guarantee would be approximately 0.7% of the FY 2002 Total Regular Program District Cost.
4. Eliminate the budget guarantee program. School districts with declining enrollments would not be allowed to receive funds that guarantee that the total

regular program district cost would not decrease from the previous year. There is no fiscal impact to this alternative.

**Attachment C** provides district-by-district estimates of the alternatives listed above. It also compares the budget guarantee amount to the total regular program district cost for all districts.
