September 19, 2001

Ms. Robin Madison
Legislative Fiscal Bureau
The Capitol
Des Moines, IA 50319

Dear Ms. Madison:

Pursuant to your request, I am enclosing a listing of community colleges and their fall-term credit enrollment for 2001 depicted as a percentage change vis-à-vis each colleges fall term enrollments for 2000. Exact numerical head counts will be available at a later date as included in the Management Information System at the Department of Education. Based on the percentage increases reported by our community colleges, it is estimated that total credit enrollments will approach 70,000 for the first time in our history. As you know, in recent years approximately 90% of community college credit enrollees have been Iowa residents. I do not foresee a significant change in the percentage of in-state and non-resident enrollments.

I trust this information will be helpful at this time. If our office can be of further assistance, please let me know. Thanks.

Sincerely,

A handwritten signature in black ink, appearing to read "Gene", written over the printed name of R. Gene Gardner.

R. Gene Gardner, Ph.D.
