

### **About the Coalition for Family and Children's Services in Iowa**

The Coalition for Family and Children's Services is an alliance of member agencies that provide most of the actual services to Iowa's abused, neglected and delinquent children and their families. The Coalition and its member agencies work to strengthen services for Iowa's children and families. For 33 years, the Coalition has supported efforts to build better futures for vulnerable children in Iowa. Central to this is the belief that public systems should promote programs and policies that sustain lifelong family connections for children and youth.

**Our Mission:** To influence and shape policy and practice for the betterment of Iowa children and families and the organizations that serve them.

**Our Vision:** We envision a true public/private partnership providing Iowa's at-risk children and their families an array of funded, quality, outcome-based services.

The Coalition offers training, networking and resource opportunities for child welfare, mental health, and juvenile justice professionals. The Coalition advocates at all levels for system and policy changes to positively impact the lives of children and their families.
