

## College of Business Building

The College of Business was established in 1984, received its initial accreditation in 1991, and was reaccredited in 2000. It offers eight undergraduate majors: Accounting, Finance, International Business, Management, Management Information Systems, Marketing, Production Operations & Management, and Transportation & Logistics. At the graduate level, the College offers a Master of Business Administration (MBA), a Master of Science (MS) in Accounting and an MS in Business. Additionally, the College participates in two interdisciplinary graduate programs: MS in Industrial Relations and MS in Information Assurance. The MBA program is delivered to three markets, a weekday and a Saturday program on campus and an evening program in Des Moines.

There are five academic departments in the College: Accounting, Finance, Management, Marketing, and Logistics Operations & Management Information Systems. Additionally, the Pappajohn Center for Entrepreneurship, the Iowa Small Business Development Center (SBDC), the Murray G. Bacon Center for Ethics in Business, and 3M Business Laboratory are integral part of the College.

The fall 2000 enrollment for the College was 3,821 (14% of ISU enrollment). Moreover, since fall 1995, enrollment has increased almost 35% (3,821 vs. 2,844). According to student enrollment, it is the third largest college on campus. There are approximately 70 tenure-track faculty, 7 continuous adjuncts, 5 temporary instructors and 40 staff members.

The College of Business is currently located in Carver Hall. Although the space limitations and technology constraints in Carver Hall are significant, the College has added several new programs and expanded existing ones. However, space constraints no longer allow such expansion.

Fortunately, a \$10 million commitment from Russ & Ann Gerdin presents an opportunity for the College to develop a state-of-the-art facility. A new facility will create an identity for the College and allow for continued program expansion and enhancement. Thus, ISU will be able to capitalize on the existing momentum of a significant growth in the college. Additionally, provision of the Outreach Center and availability of significant student interaction area in this new facility will allow the College to emphasize its strategic mission, "Linking Theory with Practice."

### New Building

- Budget: \$24.6 million (\$11.2 million State & 13.4 million private)
- Size: Approximately 110,000 gross square feet, 66,000 net assignable square feet
- Architect: Zimmer Gunsul & Frasca (Seattle, Washington)
- Exterior: Brick, Limestone and Glass
- Construction Time Line: Estimated start fall 2001, completion fall 2003
- Space Allocation:
  - About 50% for classrooms, laboratories, commons, team rooms, student interaction areas, graduate student offices and recruiting rooms.
  - About 50% for faculty offices, administrative offices, student services offices (advising, graduate programs, career services), outreach center, meeting rooms, and other college support services.
- Areas:
  - 12 classrooms (including a 300 seat auditorium)
  - 20 team & interview rooms
  - 50 graduate student offices
  - 4 computer labs
  - Trading & Simulation lab, and a Behavioral lab.
  - Number of spaces designated for student use (peer advising office, student organizations space, lockers, help rooms, career services resource area, commons area, and graduate student interaction space)
  - 125 faculty & staff offices (Typical faculty office 130 square feet, staff office 120 square feet)
