November 2002

This chart relates to the apportioned/budgeted distribution of new fiscal year income to the Department of Transportation. Road Use Tax Funds and Federal Highway Funds are estimated. The forecast income correlates directly with the Road Use Tax Fund Forecast presented to the Iowa Transportation Commission. Some amounts have been adjusted for rounding. This chart does not include reference to federal highway or transit funds administered by the DOT but transferred to local jurisdictions for local programming authority. It may not include additional sources of revenue related to prior years' allocations or as reimbursements for costs paid from previous years income. Amounts designated for specific programs may not reflect actual amounts expended during the current fiscal year.
