

What Families are Saying About *hawk-i*

The following are unedited comments made by families in the comment section of the health status survey.

- ▶ "I am very grateful for the *hawk-i* coverage. Without this plan, I would not be able to pay the insurance for my son under a family plan. I was under a lot of stress and worry for almost a year because he did not have any insurance and if something happened to him or he became ill, I would not have been able to pay for his care. This is a wonderful thing for single parents and their children. Thank you."
- ▶ "I just wanted to express my gratitude to *hawk-i* for the coverage they supply for my children and the peace of mind that comes with it. My children are seldom sick but it is so reassuring to know that medical attention is available to us if the need may arise. Thank you so much!"
- ▶ "This is the best program. It's been a lifesaver for us. We have 4 children and could not be without insurance for them. My husband and I currently have no health insurance but it is great to know our children have coverage. I don't know what we'd do without it!"
- ▶ "I love the *hawk-i* program. I used to worry so much how I would pay for medical bills and I don't have to worry about that on my kids. I just wish you could do the same for adults. I just have to worry about old bills now. The way this coverage is and the care my kids need I thank you for this insurance. We couldn't afford it if they were on an insurance plan like mine. I can barely afford copays for my own insurance. You're the best."
- ▶ "This is one of the best programs that there could be that is so desperately needed for so many people. Thank you!"
- ▶ "I think this program is just wonderful. It really takes a lot of stress off of me that I don't have to worry about him getting sick and not being able to pay for a doctor. Can't find a better program than this."
- ▶ "I want you to know what a God send this insurance has been. Without, our child probably would have serious problems."
- ▶ "This is a wonderful program. We would not be able to provide the ritalin without it. Dental & medical is wonderful."
