

IOWA

LOW-INCOME HOME ENERGY ASSISTANCE PROGRAM FFY 2006 FACTS & FIGURES

- Iowa received \$52.05 million* in federal Low-Income Home Energy Assistance Program (LIHEAP) funds for FFY 2006. Additionally, \$2.85 million was provided in state general funds. 89,638 households were certified eligible and approved for benefits this year. This represents a 5% increase in the number of households applying over the previous year.
- 89,638 Iowa households (217,894 individuals) received heating assistance benefits to assist with a portion of their heating costs.
- The average statewide heating assistance benefit was \$451.
- 30.8% of households assisted by LIHEAP have an elderly household member.
- 91.3% of households assisted by the Low-Income Home Energy Assistance Program are NOT on welfare, Temporary Assistance for Needy Families (TANF).
- 45.4% of households assisted by LIHEAP have a disabled member.
- 24.81% of households assisted by LIHEAP have a child less than 6 years of age.
- 60.3% of LIHEAP households are below 100% of federal poverty guidelines.
- Benefits are targeted to vulnerable households with low incomes and high heating costs. Elderly, disabled, families with young children, and working poor (who often don't receive any other form of assistance) are also targeted groups.
- 72.7% heat with natural gas; 11.2% heat with liquid propane gas; 14.3% heat with electricity; 1.4% heat with fuel oil; 0.4% heat with wood/coal/other.
- 72.3% live in single family homes; 27.7% live in duplexes/apartments/mobile homes.

* This amount does include \$15.3 million in Federal Emergency Contingency Funds
