DIA Lean Events

Health Facilities Division Value Stream Mapping (October 24-28, 2011)

- Changed how survey assignments are made, consolidation of databases and cross trained staff.

DIA/DHS Joint Eligibility Investigations Kaizen (June 11-14, 2012)

- DIA created two investigation protocols. One is a shorter with quick turnaround time for front end investigations and then a more in-depth, lengthy investigation for ongoing eligibility investigations.

Health Facilities Division Complaint Unit Kaizen (October 29 – November 2, 2012)

- DIA examined technology options so the surveyors are more efficient in their work. Stream lined the survey method for complaint/incident investigations.

DIA/SPD Indigent Claims Processing Kaizen (September 30 – October 4, 2013)

- Standardized the way claims were processed. Changed the W9 form to make it easier to fill out. Better communication between the DIA Fiscal staff and the SPD Claims staff.

CASA Process Kaizen (June 16 – 20, 2014)

- Went from 24 state coordinators doing their jobs in 24 different ways to one standardized process for coordinators. Duplication of effort by the coordinator, coach and advocate was eliminated.

Food App

- IA Food Inspections – Google Play Store or Apple Store
 - Brings up list of restaurants close to your location or you can search by name
 - Pull up latest inspection report for those restaurants
