Dubuque City recycling collection crews **randomly collected one 30-gallon bag of Aluminum and PET** beverage containers from each route on each day from **Oct 12 to Oct 16, 2015**. These bags were sorted and tabulated by 3 Iowa GreenCorps members under the supervision of Paul Schultz. **1619 beverage container units** were identified as belonging to Three Class Groups: 1.) **Iowa deposits**, 2.) **No Iowa marking on alcohol and carbonated beverages**, and 3.) **non-carbonated beverages**.
