

To the State of Iowa Health Policy Oversight Committee:

As a tax payer and with concern for fellow Iowans, I respectfully request a delay in changing the privatization of Iowa's Medicaid program until more information has been released. I have serious concerns about a change where a substantial increase in administration cost would appear to be a detriment to the program services. Cost details should be released before any changes are finalized to address all concerns.

Thank you for your consideration of this matter.

Best regards,
Debra Straub
