

Dear Senator Ragan -

My Concern:

My grandson (autistic) has severe behaviors. ~~At~~ Doc. has found 4 or 5 meds. that have kept them under control; what happens if all these meds. are not ~~in the state~~ covered by one insurance provider?

Also - Are there premiums that Guardian will have to pay? How much are those? My daughter (his guardian) is ~~is~~ barely making it with a full time job.

Thank You

- ① What about doctors, if his doctor is not in same network as meds.?
- ② What happens when grandson's services are cut?
- ③ If funds don't completely cover grandson's care - he may have to come home. If he does ~~it~~ it is a huge problem for family.
