**Why was this agency/
 program started?**

The purpose of this program is to provide transportation for students attending approved nonpublic schools. Public school districts are required to provide transportation to children attending an approved nonpublic school, through either the district's buses, contracted bus services, or parental reimbursement. Districts are reimbursed for costs of this service to the extent that funds are appropriated. If parents provide the transportation, claims are submitted to the Department of Education by the public school district to reimburse the parents. The amount of the claims is determined by a code specified formula. If the appropriation is insufficient to pay all claims of parent and districts, the payments are proportionally reduced.

**Why is this agency/
 program necessary today?**

The Department of Education manages the allocation of these funds, but since the creation of the fund was a legislative priority, we defer to the legislature on this question.
