SENATE FILE 2249
BY COMMITTEE ON TRANSPORTATION

(SUCCESSOR TO SF 2122)

(As Amended and Passed by the Senate February 25, 2020)

_____ = New Language by the Senate

A BILL FOR

An Act relating to the classification and reclassification of certain secondary roads, and including applicability provisions.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF IOWA:

Section 1. Section 309.57, subsection 1, Code 2020, is amended to read as follows:

1. The county board of supervisors, after consultation with the county engineer, and for purposes of specifying levels of maintenance effort and access, may classify the area service system into three classifications termed area service "A", area service "B", and area service "C". The area service "A" classification roads shall be maintained in conformance with applicable statutes. Area service "B" classification roads may have a lesser level of maintenance as specified by the county board of supervisors, after consultation with the county engineer. Area service "C" classification roads may have restricted access and a minimal level of maintenance as specified by the county board of supervisors after consultation with the county engineer. An area service "C" classification shall apply to the entire portion of a road between the road's access points. The county board of supervisors shall not classify only part of a road between the road's access points, or only a bridge on the road, as area service "C". For purposes of this subsection, *"access point"* includes but is not limited to a driveway as defined in section 306.19.

Sec. 2. APPLICABILITY. All area service "C" classifications in effect on the effective date of this Act that are not in compliance with this Act shall be expanded or reclassified to meet the requirements of this Act on or before January 1, 2021.
