

MEMORANDUM

TO: Members of the Iowa Senate and
Members of the Iowa House of Representatives

FROM: Eric M. Richardson

DATE: August 11, 2026

Twelve-Month Total Net Tax Receipts Through July 31, 2026

The attached spreadsheet presents net tax revenue deposited to State funds for the 12-month period ending July 31, 2026, with comparisons to the previous 12 months. July 2025 to July 2026 one-month comparisons are also presented. The source of the information is the State Accounting System and includes both General Fund and non-General Fund accounts. All accounting transactions related to taxes remitted to the State were reviewed, along with the refunds issued against those taxes.

Overview of Current Situation

Net tax revenue totaled \$854.5 million for the month of July 2026, an increase of \$69.9 million (8.9%) compared to the previous July. Corporate income tax, sales/use tax, and other taxes increased compared to the previous July, while fuel tax, individual income tax, and insurance premium tax decreased.

Over the most recent 12-month period, net tax revenue decreased \$547.2 million (-5.4%). The recent decrease in individual income tax, other taxes, and corporate income tax has been offset by an increase in sales/use tax, fuel tax, and real estate transfer tax.

Year-Over-Year Comparison — Net Tax Revenue

During the 12-month period ending July 31, 2026, net revenue from all taxes deposited to State funds totaled \$9,654.9 million, a decrease of \$547.2 million (-5.4%) compared to the prior 12 months. Major contributors to the year-over-year dollar and percentage changes include the following:

- **Individual Income Tax (negative \$578.1 million, -15.5%)** — Beginning January 1, 2023, Iowa reduced individual income tax rates and reduced the income tax base through a full exemption for retirement income. Individual income tax rates were reduced further for tax year (TY) 2024 and reduced to a flat 3.8% as of January 1, 2025. Individual income tax revenue growth has been negative over a 12-month period for 39 consecutive months.
- **Corporate Income Tax (negative \$115.7 million, -20.0%)** — Gross deposits decreased \$140.0 million year over year, while corporate tax refunds decreased \$24.3 million. Iowa corporate income tax rates were reduced at the beginning of calendar year 2021 and were further reduced beginning January 1, 2024.
- **Sales/Use Tax (positive \$269.6 million, 6.6%)** — The sales/use net tax growth breakdown for the most recent 12 months is as follows:
 - Gross tax receipts from the sale of vehicles (deposited into the Road Use Tax Fund) decreased \$4.5 million (-0.9%).
 - Sales/use tax transferred to other State funds (mainly the Flood Mitigation Fund, the Reinvestment District Fund, and two water quality funds) increased \$1.4 million.
 - Sales/use tax deposited into the General Fund increased \$296.4 million (6.9%).
 - Lower refunds of General Fund sales/use tax payments increased net revenue \$15.6 million.
 - Increased sales tax payments to the school infrastructure account (recorded as tax refunds) decreased net revenue \$39.3 million.
- **Banking Taxes (negative \$34.8 million, -35.3%)** — Over the most recent 12 months, bank franchise tax deposits decreased \$22.6 million, while franchise tax refunds increased \$12.2 million.
- **Beer and Wine Tax (negative \$0.5 million, -2.5%).**
- **Fuel Tax (positive \$13.9 million, 2.1%)** — According to Iowa Department of Revenue (IDR) monthly fuel sales [reports](#), the total gallons¹ subject to Iowa fuel tax increased 0.2% over the most recent 12-month period. The gross taxable gallons by fuel type sold over the most recent 12 months, along with the percentage change when compared to the previous 12 months, are as follows:
 - Unblended gasoline,² 430.0 million gallons, -1.0%.
 - Gasoline blended with ethanol, 1,199.9 million gallons, -0.2%.

¹ Taxable gallons distributed in Iowa (all fuel types) over the last 12 months totaled 2,479.9 million gallons. Taxed fuel later used for an exempt purpose is eligible for a fuel tax refund. Gallons that are originally distributed for an exempt purpose are not taxed and are not included in the IDR's monthly report.

² A portion of the gallons listed as unblended gasoline is later blended with ethanol.

- Diesel, including biodiesel blends, 798.8 million gallons, 1.3%.
- Aviation, jet, and other fuels, 51.3 million gallons, 1.3%.
- **Gambling Tax (negative \$5.7 million, -1.6%)** — The annual gambling tax total has increased in two of the last four months after decreasing for 38 straight months.
- **Inheritance Tax (negative \$27.3 million, -75.8%)** — The inheritance tax was reduced by 20.0% per year starting in 2021 until all rates were 0.0% in TY 2025.
- **Insurance Premium Tax (negative \$28.7 million, -9.3%)** — The insurance premium tax rate decreased from 0.975% in TY 2024 to 0.950% in TY 2025 due to 2023 Iowa Acts, chapter [107](#) (Captive Insurance Act), and will further decrease annually to 0.900% in TY 2027. A managed care organization (MCO) premium tax was enacted in 2023 Iowa Acts, chapter [158](#) (Medicaid, Liens, and Third-Party Recovery Act), paid by an MCO contracting with the Iowa Department of Health and Human Services (HHS) for Medicaid services. The MCO premium tax was levied for payments received by the MCO for insurance premiums, services, and other benefits and for payments made by the MCO to other providers, insurers, or corporations for insurance premiums, services, and other benefits. The first MCO premium tax payments, categorized as insurance premium tax in the State Accounting System, were due by March 1, 2025. Upon receipt by the State, payments were deposited into the Medicaid MCO Premiums Fund. A new Hospital Management Organizations (HMO) tax was enacted in 2026 Iowa Acts, [House File 2739](#) (Health Maintenance Organization Taxes, Supplemental Appropriations, and Transfers Act) that replaced the MCO premium tax, as of January 1, 2026, and renamed the Medicaid MCO Premiums Fund to the Health Care Tax Fund (HCTF).
- **Real Estate Transfer Tax (positive \$3.2 million, 9.8%)** — Real estate transfer tax revenue growth slowed beginning in October 2022 due to existing homeowners maintaining low-interest rate mortgages. However, homebuying increased when the Federal Reserve began lowering the federal funds rate in September 2024. With the increase in the real estate transfer tax in July 2026, the annual total has now increased for 21 consecutive months.
- **Cigarette Tax and Tobacco Tax (positive \$0.1 million, 0.1%).**
- **Other Taxes (negative \$43.2 million, -30.3%)** — On November 30, 2023, the IDR created a new revenue classification for the pass-through entity tax (PTET), which was enacted in 2023 Iowa Acts, [House File 352](#) (Pass-Through Business Entity Tax and Deduction Act). The PTET creates a voluntary election for a partnership or S corporation to be subject to Iowa income tax at the entity level and was applied retroactively beginning on or after January 1, 2022. As a significant amount of retroactive PTET revenue was collected during the prior 12-month period, other taxes are being collected at a relatively normal level during the current 12-month period, causing a decrease in year-over-year revenue.

Tax Spotlight — Motor Vehicle Fuel Tax

Motor vehicle fuel is taxed under Iowa Code chapter [452A](#). The tax is imposed on each gallon of fuel sold in Iowa for use in most motor vehicles and aircraft. Tax rates for July 1, 2026, through June 30, 2027, are:

- Gasoline — \$0.300 per gallon.
- Alcohol — \$0.280 per gallon.
- Ethanol Blended Gasoline (E-10 to E-14) — \$0.300 per gallon.
- E-15 or higher — \$0.280 per gallon.
- Diesel Fuel (including biodiesel B19 and lower) — \$0.325 per gallon.
- Diesel Fuel (biodiesel B20 and higher) — \$0.295 per gallon.
- Aviation Gasoline — \$0.080 per gallon.
- Aviation Jet Fuel — \$0.050 per gallon.
- Liquefied Petroleum Gas (LPG) — \$0.300 per gallon.
- Compressed Natural Gas — Taxed on a gasoline gallon equivalent basis designed to equal \$0.310 per gallon.
- Liquefied Natural Gas — Taxed on a diesel gallon equivalent basis designed to equal \$0.325 per gallon.
- Hydrogen — \$0.650 per gallon.
- Electric Fuel — \$0.026 per kilowatt-hour (kWh).

Tax rates for motor fuel are subject to potential adjustment each fiscal year by the IDR, and any changes are based on the previous calendar year's sales as reported through the [Retailers Fuel Gallons Annual Report](#) process.

The Iowa motor fuel tax was imposed in 1925 Iowa Acts, chapter [6](#) (Gasoline License Fee Act), at a rate of \$0.02 per gallon. The tax rates for gasoline and diesel fuel have increased periodically since enactment. Effective March 1, 2015, tax rates were increased in 2015 Iowa Acts, chapter [2](#) (Transportation Funding Act).

2001 Iowa Acts, chapter [123](#) (Ethanol Blended Gasoline and Related Taxes Act), established a motor vehicle fuel tax schedule. As originally established, the fuel tax schedule was subject to a statutory sunset in 2007. The schedule was extended through legislation several times and was replaced by a different schedule established in 2022 Iowa Acts, chapter [1067](#) (Renewable Fuels Incentives Act). According to the 2022 law, the current schedule is through July 1, 2030. The IDR establishes the per-gallon tax rate on gasoline and ethanol blended gasoline based on the tax schedule. The market share of ethanol blended gasoline sold as E-15 or higher (at least 15.0% ethanol by volume) during a calendar year determines the tax rate on gasoline and ethanol blended gasoline for the following fiscal year.

Motor vehicle fuel tax returns are filed by the licensee and are due by the last day of the month following the month when the fuel was withdrawn from its terminal. Aviation fuel tax receipts are credited to the State Aviation Fund (Iowa Code section [452A.82](#)). Beginning in FY 2008, tax receipts from the sale of gasoline used in watercraft have been deposited in the Marine Fuel Tax Fund (Iowa Code section [452A.84](#)). The remainder of the motor fuel tax revenue is credited to the Road Use Tax Fund.

Tax Revenue and Employment

The average reading for Iowa nonfarm employment over the 12 months ending June 2026 was 1,581,300, and net State tax receipts over the same 12 months totaled \$9,585.2 million, or \$6,062 per nonfarm job. This is \$2,278 higher than the per-job average for the 12 months ending June 2005. The blue (upper) line on the following figure depicts the annual tax revenue collected by the State per job, calculated monthly. The red (lower) line subtracts the impact of inflation since June 2005 from the blue line. The red line indicates that inflation-adjusted tax revenue per job has decreased \$253 since June 2005, and the remainder of the \$2,278 increase (\$2,531) can be considered the impact of inflation.

Numbers are rounded to the nearest \$0.1 million. Percentages are calculated after rounding.

A percentage change displayed as "--" represents instances where the base year net revenue amount is zero or negative so no meaningful percentage change may be calculated.

Tax Categories Used in Table

Franchise (Bank) Tax: The franchise tax paid by banks is deposited into the General Fund. Credit unions are taxed under a different system than banks, but the credit union tax is also included in this line. Of the total deposited, the bank tax provides approximately 97.50% of the revenue and the credit union tax provides 2.50%.

Beer and Liquor Tax: Taxes on beer, liquor, and wine are deposited into the General Fund and the Liquor Control Fund, and a small amount is deposited into an Iowa Economic Development Authority fund for wine promotion.

Cigarette and Tobacco Tax: Prior to FY 2011, all cigarette and tobacco product tax revenues were deposited in the General Fund. Beginning FY 2014, all revenue from the [cigarette and tobacco tax](#) is legally required to be deposited in the [Health Care Trust Fund](#).

Corporate Income Tax: All corporate income tax is deposited into the General Fund.

Motor Vehicle Fuel Tax: All motor vehicle fuel tax is deposited in one of two road use funds, with the exception of tax revenue from the sale of aviation and marine fuels.

Gambling Tax: Gambling tax is deposited in several State funds. Funds receiving deposits of gambling tax revenue over the past two fiscal years include the General Fund, the Rebuild Iowa Infrastructure Fund, the County Endowment Fund, the Revenue Bond Debt and Subsidy Holdback Funds, the Sports Wagering Receipts Fund, the Iowa Skilled Worker and Job Creation Fund, the Water Quality Infrastructure Fund, the Iowa Horse Racing Fund, and the Levee Improvement Fund.

Individual Income Tax: Most individual income tax revenue is deposited into the General Fund. A total of \$7.8 million per year is deposited into the Workforce Development Fund. An annual \$2.6 million diversion to the Child Daycare Fund ended in FY 2009. In addition, several economic development programs are financed by individual income tax withholding. In those instances, the employer does not remit the tax withheld from employees and it is never deposited in a State fund. That revenue is not included here.

Inheritance Tax: All inheritance tax is deposited into the General Fund.

Insurance Premium Tax: Most insurance premium tax revenue is deposited in the General Fund. Beginning FY 2026, an HMO tax was collected from managed care organizations that administer the State's Medicaid program along with State HMOs and placed into the Health Care Tax Fund for federal reimbursement.

Other Taxes: Other taxes include brucellosis eradication property tax (deposited in a Department of Agriculture and Land Stewardship fund), drug stamp tax (General Fund), utility replacement property tax (General Fund), device excise tax (Specialty Courts and Diversion Fund), and car rental tax (Road Use Tax Fund). Other taxes also include a suspense account used to hold tax deposits prior to determining the correct tax revenue type, composite tax, PTET, and tax revenue transferred by the Department of Revenue to separate accounts to fund tax collection activities (tax gap and Department operations).

Real Estate Transfer Tax: Real estate transfer tax is collected by counties. Counties retain 17.25% of the tax collected and remit 82.75% to the State, of which 5.00% is deposited in the Shelter Assistance Fund, the lesser of 30.00% or \$7.0 million to the Housing Trust Fund, and the remainder in the General Fund.

Sales/Use Tax: General sales/use tax is deposited in the General Fund, while most vehicle use tax is deposited in the Road Use Tax Fund. Beginning FY 2009, the vehicle use tax is referred to as a fee in the Iowa Code. To allow continuity of data, the revenue from the fee is reflected in this document as tax revenue. Also beginning FY 2009, the School Infrastructure Local Option (SILO) sales tax was converted to a statewide 1.00% sales/use tax. The revenue from that statewide tax is transferred from the General Fund monthly through a refund appropriation, which is subtracted from State revenue as part of the net sales/use tax calculation. Beginning FY 2014, a portion of State sales/use tax revenue is deposited in the Sales Tax Increment Fund and used for local flood mitigation projects. Beginning FY 2019, a portion of State sales/use tax revenue is deposited in the Reinvestment District Fund and used for local economic development projects. Also beginning FY 2019, a water excise tax is deposited in the General Fund and two water quality funds.

Local Option Taxes: Local option taxes are presented at the bottom of the table and are not included in the numbers above. Prior to FY 2009, local option taxes included the SILO tax, Local Option Sales Tax (LOST) for local government finance, Local Option Income Surcharge for schools, and hotel/motel tax. Beginning FY 2009, the SILO tax was converted to a 1.00% statewide tax and was eliminated. To allow for continuity of data, the transfers from the General Fund as a result of the 1.00% statewide tax are included in the local option tax amount. Flood mitigation sales tax increment transfers to local governments were added beginning July 2014.

Report Dataset: The dataset for this report is the State Accounting System. If transactions are incorrectly coded in the system as tax revenue or tax refunds, the numbers presented here will be impacted.
