

MEMORANDUM

TO: Members of the Iowa Senate and
Members of the Iowa House of Representatives

FROM: Eric M. Richardson

DATE: October 21, 2026

Twelve-Month Total Net Tax Receipts Through September 30, 2026

The attached spreadsheet presents net tax revenue deposited into State funds for the 12-month period ending September 30, 2026, with comparisons to the previous 12 months. September 2025 to September 2026 one-month comparisons are also presented. The source of the information is the State Accounting System and includes both General Fund and non-General Fund accounts. All accounting transactions related to taxes remitted to the State were reviewed, along with the refunds issued against those taxes.

Overview of Current Situation

Net tax revenue totaled \$990.9 million for the month of September 2026, a decrease of \$8.0 million (-0.8%) compared to the previous September. Corporate income tax, sales/use tax, and insurance premium tax increased compared to the previous September, while inheritance tax, other taxes, and individual income tax decreased.

Over the most recent 12-month period, net tax revenue decreased \$279.8 million (-2.8%). The recent decrease in individual income tax, insurance premium tax, and other taxes has been offset by an increase in sales/use tax, fuel tax, and real estate transfer tax.

Year-Over-Year Comparison — Net Tax Revenue

During the 12-month period ending September 30, 2026, net revenue from all taxes deposited into State funds totaled \$9,801.7 million, a decrease of \$279.8 million (-2.8%) compared to the prior 12 months. Major contributors to the year-over-year dollar and percentage changes include the following:

- **Individual Income Tax (negative \$500.8 million, -13.7%)** — Beginning January 1, 2023, Iowa reduced individual income tax rates and reduced the income tax base through a full exemption for retirement income. Individual income tax rates were reduced further for tax year (TY) 2024 and reduced to a flat 3.8% as of January 1, 2025. Individual income tax revenue growth has been negative over a 12-month period for 41 consecutive months.
- **Corporate Income Tax (negative \$24.5 million, -4.4%)** — Gross deposits decreased \$51.9 million year over year, while corporate tax refunds decreased \$27.3 million. Iowa corporate income tax rates were reduced at the beginning of calendar year 2021 and were further reduced beginning January 1, 2024.
- **Sales/Use Tax (positive \$323.0 million, 7.9%)** — The sales/use net tax growth breakdown for the most recent 12 months is as follows:
 - Gross tax receipts from the sale of vehicles (deposited into the Road Use Tax Fund) increased \$3.0 million (0.6%).
 - Sales/use tax transferred to other State funds (mainly the Flood Mitigation Fund, the Reinvestment District Fund, and two water quality funds) increased \$1.8 million.
 - Sales/use tax deposited into the General Fund increased \$369.4 million (8.6%).
 - Lower refunds of General Fund sales/use tax payments increased net revenue \$10.9 million.
 - Increased sales tax payments to the school infrastructure account (recorded as tax refunds) decreased net revenue \$62.1 million.
- **Banking Taxes (negative \$4.2 million, -5.4%)** — Over the most recent 12 months, bank franchise tax deposits decreased \$3.6 million, while franchise tax refunds increased \$0.7 million.
- **Beer and Wine Tax (negative \$0.4 million, -2.1%).**
- **Fuel Tax (positive \$32.5 million, 4.9%)** — According to Iowa Department of Revenue (IDR) monthly fuel sales [reports](#), the total gallons¹ subject to Iowa fuel tax increased 1.1% over the most recent 12-month period. The gross taxable gallons by fuel type sold over the most recent 12 months, along with the percentage change when compared to the previous 12 months, are as follows:
 - Unblended gasoline,² 438.7 million gallons, 2.5%.

¹ Taxable gallons distributed in Iowa (all fuel types) over the last 12 months totaled 2,500.8 million gallons. Taxed fuel later used for an exempt purpose is eligible for a fuel tax refund. Gallons that are originally distributed for an exempt purpose are not taxed and are not included in the IDR's monthly report.

² A portion of the gallons listed as unblended gasoline is later blended with ethanol.

- Gasoline blended with ethanol, 1,204.5 million gallons, 0.0%.
- Diesel, including biodiesel blends, 806.1 million gallons, 2.1%.
- Aviation, jet, and other fuels, 51.6 million gallons, 1.7%.
- **Gambling Tax (positive \$0.2 million, 0.1%)** — The annual gambling tax total has increased in 4 of the last 6 months after decreasing for 38 straight months.
- **Inheritance Tax (negative \$26.8 million, -84.0%)** — The inheritance tax was reduced by 20.0% per year starting in 2021 until all rates were 0.0% in TY 2025.
- **Insurance Premium Tax (negative \$46.0 million, -13.3%)** — The insurance premium tax rate decreased from 0.950% in TY 2025 to 0.925% in TY 2026 due to 2023 Iowa Acts, chapter [107](#) (Captive Insurance Act), and will further decrease annually to 0.900% in TY 2027. A managed care organization (MCO) premium tax was enacted in 2023 Iowa Acts, chapter [158](#) (Medicaid, Liens, and Third-Party Recovery Act), paid by an MCO contracting with the Iowa Department of Health and Human Services (HHS) for Medicaid services. The MCO premium tax was levied for payments received by the MCO for insurance premiums, services, and other benefits and for payments made by the MCO to other providers, insurers, or corporations for insurance premiums, services, and other benefits. The first MCO premium tax payments, categorized as insurance premium tax in the State Accounting System, were due by March 1, 2025. Upon receipt by the State, payments were deposited into the Medicaid MCO Premiums Fund. A new hospital management organizations (HMO) tax was enacted in 2026 Iowa Acts, chapter [1003](#) (Health Maintenance Organization Taxes, Supplemental Appropriations, and Transfers Act), that replaced the MCO premium tax, as of January 1, 2026, and renamed the Medicaid MCO Premiums Fund to the Health Care Tax Fund (HCTF).
- **Real Estate Transfer Tax (positive \$3.3 million, 10.1%)** — Real estate transfer tax revenue growth slowed beginning in October 2022 due to existing homeowners maintaining low-interest-rate mortgages. However, homebuying increased when the Federal Reserve began lowering the federal funds rate in September 2024. With the increase in the real estate transfer tax in September 2026, the annual total has now increased for 23 consecutive months.
- **Cigarette Tax and Tobacco Tax (negative \$1.8 million, -1.2%).**
- **Other Taxes (negative \$34.3 million, -31.9%)** — The Iowa Department of Revenue (IDR) instituted a revenue deposit process that began November 15, 2021. In addition to deposits for personal income tax and sales/use tax revenue, the suspense account has also received deposits of motor fuel tax, which are not included in General Fund revenues. At a future date, the IDR transfers deposits for motor fuel tax from the suspense account, removing those deposits from State General Fund revenue, and also transfers deposits of personal income tax and sales/use tax revenue categories to properly reflect the source of the revenue. These processes, along with monthly due dates for various tax types that may vary depending on the calendar, significantly affect month-to-month comparisons for other taxes.

Tax Spotlight — Beer and Wine Tax

Beer and wine sales in Iowa are taxed under Iowa Code chapter [123](#). The Iowa beer tax was first imposed through the enactment of 1933 Iowa Acts, chapter [37](#) (Beer and Malt Liquors Act), at a rate of \$0.04 per gallon. The current beer tax rate of \$0.19 per gallon went into effect July 1, 1986, with the enactment of 1986 Iowa Acts, chapter [1246](#) (FY 1987 Government Appropriations Act). The Iowa wine tax was first imposed with the enactment of 1985 Iowa Acts, chapter [198](#) (Sales and Local Option Tax and Wine Sales Act of 1985), at a rate of \$1.50 per gallon. The rate was increased to its current level of \$1.75 per gallon in 1986. The wine gallonage tax was expanded to include sales of wine shipped directly to consumers (not for resale) with the enactment of 2010 Iowa Acts, chapter [1193](#) (FY 2011 Standing Appropriations Act).

Revenue generated from the tax on beer is deposited into the General Fund. Barrel tax revenues collected at brew pubs from beer sold at retail is credited to the Barrel Tax Fund with the enactment of 2023 Iowa Acts, chapter [13](#) (Barrel Tax Revenues, Brewpubs Act), under control of the Iowa Economic Development Authority (IEDA) for the promotion of Iowa native wine and beer. Tax revenue generated from the sale of wine produced out of state is deposited into the Liquor Control Fund administered by the IDR. Tax revenue generated from the sale of wine produced in Iowa is deposited into the Wine Gallonage Tax Fund under control of the IEDA to be used for the promotion of native Iowa wine and beer.

The State does not have a special tax for distilled spirits. Instead, the Alcoholic Beverages Division operates a distilled spirits wholesale distribution system, and the State generates fee revenue through a wholesale price markup system established in 1987.

Tax Revenue and Employment

The average reading for Iowa nonfarm employment over the 12 months ending August 2026 was 1,581,400, and net State tax receipts over the same 12 months totaled \$9,809.5 million, or \$6,203 per nonfarm job. This is \$2,419 higher than the per-job average for the 12 months ending June 2005. The blue (upper) line on the following figure depicts the annual tax revenue collected by the State per job, calculated monthly. The red (lower) line subtracts the impact of inflation since June 2005 from the blue line. The red line indicates that inflation-adjusted tax revenue per job has decreased \$182 since June 2005, and the remainder of the \$2,419 increase (\$2,601) can be considered the impact of inflation.

Numbers are rounded to the nearest \$0.1 million. Percentages are calculated after rounding.

A percentage change displayed as "--" represents instances where the base year net revenue amount is zero or negative so no meaningful percentage change may be calculated.

Tax Categories Used in Table

Franchise (Bank) Tax: The franchise tax paid by banks is deposited into the General Fund. Credit unions are taxed under a different system than banks, but the credit union tax is also included in this line. Of the total deposited, the bank tax provides approximately 97.50% of the revenue and the credit union tax provides 2.50%.

Beer and Liquor Tax: Taxes on beer, liquor, and wine are deposited into the General Fund and Liquor Control Fund and a small amount is deposited into Iowa Economic Development Authority funds for wine and beer promotion.

Cigarette and Tobacco Tax: Prior to FY 2011, all cigarette and tobacco product tax revenues were deposited in the General Fund. Beginning FY 2014, all revenue from the [cigarette and tobacco tax](#) is legally required to be deposited in the [Health Care Trust Fund](#).

Corporate Income Tax: All corporate income tax is deposited into the General Fund.

Motor Vehicle Fuel Tax: All motor vehicle fuel tax is deposited in one of two road use funds, with the exception of tax revenue from the sale of aviation and marine fuels.

Gambling Tax: Gambling tax is deposited in several State funds. Funds receiving deposits of gambling tax revenue over the past two fiscal years include the General Fund, the Rebuild Iowa Infrastructure Fund, the County Endowment Fund, the Revenue Bond Debt and Subsidy Holdback Funds, the Sports Wagering Receipts Fund, the Iowa Skilled Worker and Job Creation Fund, the Water Quality Infrastructure Fund, the Iowa Horse Racing Fund, and the Levee Improvement Fund.

Individual Income Tax: Most individual income tax revenue is deposited into the General Fund. A total of \$7.8 million per year is deposited into the Workforce Development Fund. An annual \$2.6 million diversion to the Child Daycare Fund ended in FY 2009. In addition, several economic development programs are financed by individual income tax withholding. In those instances, the employer does not remit the tax withheld from employees and it is never deposited in a State fund. That revenue is not included here.

Inheritance Tax: All inheritance tax is deposited into the General Fund.

Insurance Premium Tax: Most insurance premium tax revenue is deposited in the General Fund. Beginning FY 2026, an HMO tax was collected from managed care organizations that administer the State's Medicaid program along with State HMOs and placed into the Health Care Tax Fund for federal reimbursement.

Other Taxes: Other taxes include brucellosis eradication property tax (repealed as of July 1, 2025), drug stamp tax (General Fund), utility replacement property tax (General Fund), device excise tax (Specialty Courts and Diversion Fund), and car rental tax (Road Use Tax Fund). Other taxes also include a suspense account used to hold tax deposits prior to determining the correct tax revenue type, composite tax, PTET, and tax revenue transferred by the Department of Revenue to separate accounts to fund tax collection activities (tax gap and Department operations).

Real Estate Transfer Tax: Real estate transfer tax is collected by counties. Counties retain 17.25% of the tax collected and remit 82.75% to the State, of which 5.00% is deposited in the Shelter Assistance Fund, the lesser of 30.00% or \$7.0 million to the Housing Trust Fund, and the remainder in the General Fund.

Sales/Use Tax: General sales/use tax is deposited in the General Fund, while most vehicle use tax is deposited in the Road Use Tax Fund. Beginning FY 2009, the vehicle use tax is referred to as a fee in the Iowa Code. To allow continuity of data, the revenue from the fee is reflected in this document as tax revenue. Also beginning FY 2009, the School Infrastructure Local Option (SILO) sales tax was converted to a statewide 1.00% sales/use tax. The revenue from that statewide tax is transferred from the General Fund monthly through a refund appropriation, which is subtracted from State revenue as part of the net sales/use tax calculation. Beginning FY 2014, a portion of State sales/use tax revenue is deposited in the Sales Tax Increment Fund and used for local flood mitigation projects. Beginning FY 2019, a portion of State sales/use tax revenue is deposited in the Reinvestment District Fund and used for local economic development projects. Also beginning FY 2019, a water excise tax is deposited in the General Fund and two water quality funds.

Local Option Taxes: Local option taxes are presented at the bottom of the table and are not included in the numbers above. Prior to FY 2009, local option taxes included the SILO tax, Local Option Sales Tax (LOST) for local government finance, Local Option Income Surcharge for schools, and hotel/motel tax. Beginning FY 2009, the SILO tax was converted to a 1.00% statewide tax and was eliminated. To allow for continuity of data, the transfers from the General Fund as a result of the 1.00% statewide tax are included in the local option tax amount. Flood mitigation sales tax increment transfers to local governments were added beginning July 2014.

Report Dataset: The dataset for this report is the State Accounting System. If transactions are incorrectly coded in the system as tax revenue or tax refunds, the numbers presented here will be impacted.
