Funds shall be paid

to area education agencies as provided in section 257.35. Funds not required to be paid to the area education agency as provided in section 257.35 may be used by the school district for educational services provided by the district or by contract through the area education agency. The notice may be provided electronically, verbally, in writing, or posted at the physical location of the health care provider.

d. A health care provider shall not enter into a contract that prohibits the health care provider from offering a discounted cash price below the contracted rates the health care provider has with a health carrier, or that prohibits the health care provider from disclosing the health care provider's discounted cash price under paragraph *"b"*.

e. A health carrier shall not enter into a contract with a health care provider that prohibits the health care provider from offering a discounted cash price below the contracted rates the health care provider has with a health carrier, or that prohibits the health care provider from disclosing the health care provider's discounted cash price under paragraph *"b"*.

f. A covered person's out-of-pocket pricing for each prescription drug on a health carrier's formulary shall be

available to a pharmacist via an easily accessible and secure internet site hosted by the health carrier at the point the pharmacist fills a prescription drug to the covered person.

g. A health care provider shall provide an individual with an itemized list of all health care services provided to the individual, a statement that the individual paid out-of-pocket for the health care services, and a statement that the health care provider will not make a claim against a health carrier for payment for the health care services provided to the

PAGE 6

individual if the individual is a covered person.

2. Each health benefit plan shall disclose to the health benefit plan's covered persons the average allowed amount for each health care service that is covered under the covered person's health benefit plan. If a health benefit plan fails to disclose the average allowed amount for a health care service, a covered person may substitute a benchmark selected by the commissioner.

3. A covered person who elects to receive a covered health care service at a discounted cash price that is below the average allowed amount shall receive credit toward the covered person's in-network cost-sharing as specified in the covered person's health benefit plan, as if the health care service is provided by an in-network health care provider.

4. A health benefit plan shall not discriminate in the form of payment for any covered in-network health care service solely on the basis that the covered person was referred for the health care service by an out-of-network health care provider.

5. *a.* If a covered person elects to pay cash price for a generic-brand covered prescription drug that results in a lower cost than the average allowed amount for the name-brand covered prescription drug under the covered person's health benefit plan, excluding any drug manufacturer's rebate or other discount from the average allowed amount, the health benefit plan shall apply any payments made by the covered person for the generic-brand covered prescription drug to the covered person's cost-sharing as specified in the covered person's health benefit plan as if the covered person purchased the generic-brand prescription drug from a network pharmacy using the covered person's health benefit plan. The health benefit plan shall credit half the difference in the cash price for the generic-brand covered prescription drug and the average allowed amount for the name-brand covered prescription drug, excluding any drug manufacturer's rebate

PAGE 7

or other discount from the average allowed amount, toward the covered person's cost-sharing for health care services

that are covered or that are considered formulary under the covered person's health benefit plan. The health benefit plan may credit half the difference in the cash price for the generic-brand covered prescription drug and the average allowed amount for the name-brand covered prescription drug, excluding any drug manufacturer's rebate or other discount from the average allowed amount, toward the covered person's cost-sharing for health care services that are not covered or that are considered nonformulary under the covered person's health benefit plan. This paragraph shall not be construed to restrict a health benefit plan from requiring a preauthorization or other precertification normally required by the health benefit plan.

b. A health benefit plan shall provide a downloadable or interactive online form for a covered person to submit proof of payment under paragraph *"a"*, and shall annually inform covered persons of their options under this subsection.

6. Annually at enrollment or renewal, a health carrier shall provide notice to covered persons via the health carrier's health benefit plan materials and the health carrier's internet site of the option, and the process, to receive a covered health care service at a discounted cash price.

7. If a covered person pays a discounted cash price that is above the average allowed amount, the health benefit plan shall credit the covered person's cost-sharing an amount equal to the lesser of the discounted cash price or the average allowed amount.

8. *a.* If a health carrier denies a claim submitted by a covered person pursuant to this chapter, the health carrier shall notify the commissioner and provide evidence to support the denial to the covered person and to the commissioner.

b. A covered person may appeal a claim denial pursuant to chapter 514J.

PAGE 8

9. *a.* A covered person shall have access to a program that directly rewards the covered person with a savings incentive for medically necessary covered health care services received from health care providers that offer a discounted cash price below the average allowed amount. Annually at enrollment or renewal, a health carrier shall provide notice to covered persons via the health carrier's health benefit plan materials and the health carrier's internet site of the savings incentive program and how the savings incentive program works. If a covered person exceeds the covered person's annual deductible, the covered person's health benefit plan shall notify the covered person of the savings incentive program and how the savings incentive program works.

b. A covered person's savings incentive for a specific health care service shall be calculated as the difference between the discounted cash price and the average allowed

amount. A savings incentive shall be divided equally between the covered person and the covered person's health benefit plan, and may include a cash payment to the covered person. If a third party helps facilitate a covered person in utilizing a discounted cash price that saves money for the covered person, the covered person may share a portion of their savings incentive with the third party.

c. Savings incentives under this subsection shall not be an administrative expense of the health benefit plan for rate development or rate filing purposes.

10. This chapter shall not be construed to prohibit a health care provider from billing a covered person, a covered person's guarantor, or a third-party payor including a health insurer, for health care services provided to a covered person; or to require a health care provider to refund any payment made to the health care provider for a health care service provided to a covered person.

11. If a provision of this chapter or its application to any person or circumstance is held invalid, the invalidity does

PAGE 9

not affect other provisions or applications of this chapter which can be given effect without the invalid provision or application.

Sec. ___. SAVINGS INCENTIVE PROGRAM AND DEDUCTIBLE CREDIT PROGRAM FOR STATE EMPLOYEES.

1. Before August 1, 2025, the department of administrative services shall conduct an analysis of the cost-effectiveness of offering a savings incentive program and deductible credit for state employees and retirees.

2. On or before September 1, 2025, the department of administrative services shall submit a report to the general assembly that contains an explanation as to the decision to implement, or not implement, a savings incentive program or deductible credit program.

3. Any savings incentive program or deductible credit found to be cost-effective shall be implemented for the 2026 state employee health insurance open enrollment period.>

Amend House File 2672 as follows:

1. By striking everything after the enacting clause and inserting:

<Section 1. Section 427C.12, Code 2024, is amended to read as follows:

427C.12 Application — inspection — continuation of exemption — recapture of tax.

It shall be the duty of the assessor or the county conservation board to secure the facts relative to fruit-tree and forest reservations by taking the sworn statement, or affirmation, of the owner or owners making application under this chapter; to make an inspection of each forest and fruit-tree reservation once every three calendar years to confirm compliance with the requirements of a forest or fruit-tree reservation; and to make special report to the county auditor of all reservations made in the county under the provisions of this chapter.

The board of supervisors shall designate the county conservation board or the assessor who shall inspect the area for which an application is filed for a fruit-tree or forest reservation tax exemption before the application is accepted. Use of aerial photographs may be substituted for on-site inspection when appropriate. The application can only be accepted if it meets the criteria established by the natural resource commission to be a fruit-tree or forest reservation. Once the application has been accepted, the area shall continue to receive the tax exemption during each year in which the area is maintained as a fruit-tree or forest reservation without the owner having to refile. If the property is sold or transferred, the seller shall notify the buyer that all, or part of, the property is in fruit-tree or forest reservation and subject to the recapture tax provisions of this section. The tax exemption shall continue to be granted for the remainder of the eight-year period for fruit-tree reservation and for the following years for forest reservation or until

PAGE 2

the property no longer qualifies as a fruit-tree or forest reservation. The area ~~may~~ shall be inspected ~~each year~~ once every three calendar years by the county conservation board or the assessor to determine if the area is maintained as a fruit-tree or forest reservation. The assessor or the county conservation board may collect a fee from the owner of the area for the cost of the initial inspections and subsequent inspections. If the area is not maintained or is used for economic gain other than as a fruit-tree reservation during any year of the eight-year exemption period and any year of the following five years or as a forest reservation during any year for which the exemption is granted and any of the five years following those exemption years, the assessor shall assess the property for taxation at its fair market value as of January 1 of that year and in addition the area shall be subject to a recapture tax. However, the area shall not be subject to the recapture tax if the owner, including one possessing under

a contract of sale, and the owner's direct antecedents or descendants have owned the area for more than ten years. The tax shall be computed by multiplying the consolidated levy for each of those years, if any, of the five preceding years for which the area received the exemption for fruit-tree or forest reservation times the assessed value of the area that would have been taxed but for the tax exemption. This tax shall be entered against the property on the tax list for the current year and shall constitute a lien against the property in the same manner as a lien for property taxes. The tax when collected shall be apportioned in the manner provided for the apportionment of the property taxes for the applicable tax year.

Sec. 2. DEPARTMENT OF NATURAL RESOURCES — FOREST RESERVE PROGRAM TASK FORCE.

1. The department of natural resources shall convene a task force to meet during the 2024 legislative interim to examine the role of the forest and fruit-tree reservation program

The department shall adopt rules defining the term *"hardship"* and establishing procedures for the demonstration and determination of when completion of the course would impose a hardship upon an applicant.

c. The applicant submits a certification from the applicant's school certifying the applicant is enrolled at the school for courses of instruction or extracurricular activities, or from the applicant's primary instructor if the applicant receives competent private instruction or independent private instruction.

The written consent must include the name and address of the applicant's place of employment, or primary farm location, as applicable. The parent or guardian of a licensee must update the place of employment information if the place of employment changes prior to the licensee being authorized to operate a motor vehicle unsupervised to a new place of employment.

(4) To complete a scheduled work shift, if approved by the licensee's parent or guardian pursuant to subsection 2.

(5) For the purpose of assisting the licensee's parents, guardians, or employer with farm work or in connection with any farm job, employment, or other farm-related work, including traveling to or from the location of the farm work, if the licensee resides on a farm or is employed for compensation on a farm in this state. b. Transport more than one unrelated minor passenger in the motor vehicle when the licensee is operating the motor vehicle. For purposes of this paragraph, *"unrelated minor passenger"* means a passenger who is under eighteen years of age and who is not a sibling of the driver, a stepsibling of the driver, or a child who resides in the same household as the driver.

c. Operate the motor vehicle on a highway except as authorized under subsection 4, paragraph *"b"*.

d. Use an electronic communication device or an electronic entertainment device while operating a motor vehicle unless the

a. If the applicant attends a public school, the certification must be made by the school board, superintendent of the applicant's school, or principal, if authorized by the superintendent.

b. If the applicant attends an accredited nonpublic school, the certification must be made by the authorities in charge of the accredited nonpublic school or a duly authorized representative of the authorities.

c. If the applicant receives competent private instruction, the certification must be made by the applicant's primary instructor.

7. *License sanctions.*

The commissioners shall assist the division in the enforcement of this subsection. The agreement does not create a lien on the land, but is a charge personally against the owner of the land at the time of removal, alteration, or modification if an administrative order is made under section 161A.61, subsection 3.

Sec. 12. Section 161A.10, Code 2024, is amended to read as follows:

161A.10 Discontinuance of districts.

1. At any time after five years after the organization of a district under this chapter, any twenty-five owners of land lying within the boundaries of the district, but in no case less than twenty percent of the owners of land lying within the district, may file a petition with the ~~committee~~ division asking that the operations of the district be terminated and

the existence of the district discontinued. The ~~committee~~ division may conduct public meetings and public hearings upon the petition as necessary to assist in the consideration of the petition. Within sixty days after a petition has been received by the ~~committee~~ division, the division shall give due notice of the holding of a referendum, shall supervise the referendum, and shall issue appropriate rules governing the conduct of the referendum. The question is to be submitted by ballots upon which the words "For terminating the existence of

PAGE 7

the ..... (name of the soil and water conservation district to be here inserted)" and "Against terminating the existence of the ..... (name of the soil and water conservation district to be here inserted)" shall be printed, with a square before each proposition and a direction to insert an X mark in the square before one or the other of the propositions as the voter favors or opposes discontinuance of the district. All owners of lands lying within the boundaries of the district are eligible to vote in the referendum. No informalities in the conduct of the referendum or in any matters relating to the referendum invalidate the referendum or the result of the referendum if notice was given substantially as provided in this section and if the referendum was fairly conducted.

2. When sixty-five percent of the landowners vote to terminate the existence of the district, the ~~committee~~ division shall advise the commissioners to terminate the affairs of the district. The commissioners shall dispose of all property belonging to the district at public auction and shall pay over the proceeds of the sale to be deposited into the state treasury. The commissioners shall then file an application, duly verified, with the secretary of state for the discontinuance of the district, and shall transmit with the application the certificate of the ~~committee~~ division setting forth the determination of the ~~committee~~ division that the continued operation of the district is not administratively practicable and feasible. The application shall recite that the property of the district has been disposed of and the proceeds paid over as provided in this section, and shall set forth a full accounting of the properties and proceeds of the sale. The secretary of state shall issue to the commissioners a certificate of dissolution and shall record the certificate in an appropriate book of record in the secretary of state's office.

3. Upon issuance of a certificate of dissolution under this section, all ordinances and regulations previously adopted

PAGE 8

The ~~committee~~ division is substituted for the district or commissioners as party to the contracts. The ~~committee~~ division is entitled to all benefits and subject to all liabilities under the contracts and has the same right and liability to perform, to require performance, to sue and be sued, and to modify or terminate the contracts by mutual consent or otherwise, as the commissioners of the district would have had.

4. The ~~committee~~ division shall not entertain petitions for the discontinuance of any district nor conduct referenda upon discontinuance petitions nor make determinations pursuant to the petitions in accordance with this chapter, more often than once in five years.

Sec. 13. Section 161A.22, subsection 2, Code 2024, is amended to read as follows:

2. The governing body of the subdistrict, upon determination that benefits from works of improvement as set forth in the watershed work plan to be installed will exceed costs thereof, and that funds needed for purposes of the subdistrict require levy of a special benefit assessment as provided in section 161A.23, in lieu of the special annual tax as provided in section 161A.20, shall record its decision to use its taxing authority and, upon majority vote of the governing body and with the approval of the ~~committee~~ division, may issue warrants or bonds payable in not more than forty semiannual installments in connection with the special benefit assessment, and pledge and assign the proceeds of the special benefit assessment and other revenues of the subdistrict as security for the warrants or bonds. The warrants and bonds of indebtedness are general obligations of the subdistrict, exempt from all taxes, state and local, and are not indebtedness of the district or the state of Iowa.

The commissioners of each district shall, with approval of and within time limits set by administrative order of the ~~committee~~ division, adopt reasonable regulations as are

deemed necessary to establish a soil loss limit or limits for the district and provide for the implementation of the limit or limits. A district may subsequently amend or repeal its regulations as it deems necessary. The ~~committee~~ division shall review the soil loss limit regulations adopted by the districts at least once every five years, and shall recommend changes in the regulations of a district which the ~~committee~~ division deems necessary to assure that the district's soil loss limits are reasonable and attainable. The commissioners may:

Sec. 16. Section 161A.44, subsection 2, Code 2024, is amended to read as follows:

2. Establish different soil loss limits for different classes of land in the district if in their judgment and that of the ~~committee~~ division a lower soil loss limit should be applied to some land than can reasonably be applied to other land in the district, it being the intent of the general assembly that no land in the state be assigned a soil loss limit that cannot reasonably be applied to such land.

PAGE 10

Sec. 17. Section 161A.45, Code 2024, is amended to read as follows:

161A.45 Submission of regulations to ~~committee~~ division — hearing.

Regulations which the commissioners propose to adopt, amend, or repeal shall be submitted to the ~~committee~~ division, in a form prescribed by the ~~committee~~ division, for its approval. The ~~committee~~ division may approve the regulations as submitted, or with amendments as it deems necessary. The commissioners shall, after approval, publish notice of hearing on the proposed regulations, as approved, in a newspaper of general circulation in the district, setting a date and time not less than ten nor more than thirty days after the publication when a hearing on the proposed regulations will be held at a specified place. The notice shall include the full text of the proposed regulations or shall state that the proposed regulations are on file and available for review at the office of the affected soil and water conservation district.

Sec. 18. Section 161A.46, Code 2024, is amended to read as follows:

At the hearing, the commissioners or their designees shall explain, in reasonable detail, the reasons why adoption, amendment, or repeal of the regulations is deemed necessary or advisable. Any landowner, or any occupant of land who would be affected by the regulations, shall be afforded an opportunity to be heard for or against the proposed regulations. At the conclusion of the hearing, the commissioners shall announce and enter of record their decision whether to adopt or modify

the proposed regulations. Any modification must be approved by the ~~committee~~ division, which may at its discretion order the commissioners to republish the regulations and hold another hearing in the manner prescribed by this chapter.

Sec. 19. Section 161A.71, subsections 1 and 4, Code 2024,

PAGE 11

are amended to read as follows:

1. The division may establish a conservation practices revolving loan fund composed of any money appropriated by the general assembly for that purpose, and of any other moneys available to and obtained or accepted by the ~~committee~~ division from the federal government or private sources for placement in that fund. Except as otherwise provided by subsection 3, the assets of the conservation practices revolving loan fund shall be used only to make loans directly to owners of land in this state for the purpose of establishing on that land any new permanent soil and water conservation practice which the commissioners of the soil and water conservation district in which the land is located have found is necessary or advisable to meet the soil loss limits established for that land. A loan shall not be made for establishing a permanent soil and water conservation practice on land that is subject to the restriction on state cost-sharing funds of section 161A.76. Revolving loan funds and public cost-sharing funds may be used in combination for funding a particular soil and water conservation practice. Each loan made under this section shall be for a period not to exceed ten years, shall bear no interest, and shall be repayable to the conservation practices revolving loan fund in equal yearly installments due March 1 of each year the loan is in effect. The interest rate upon loans for which payment is delinquent shall accelerate immediately to the current legal usury limit. Applicants are eligible for no more than twenty thousand dollars in loans outstanding at any time under this program. *"Permanent soil and water conservation practices"* has the same meaning as defined in section 161A.42 and those established under this program are subject to the requirements of section 161A.7, subsection 3. Loans made under this program shall come due for payment upon sale of the land on which those practices are established.

4. This section does not negate the provisions of section 161A.48 that an owner or occupant of land in this

PAGE 12

state shall not be required to establish any new soil and water conservation practice unless public cost-sharing funds have been approved and are available for the land affected. However, the owner of land with respect to which an administrative order to establish soil and water conservation practices has been issued under section 161A.47 but not

complied with for lack of public cost-sharing funds, may waive the right to await availability of such funds and instead apply for a loan under this section to establish any permanent soil and water conservation practices necessary to comply with the order. If a landowner does so, that loan application shall be given reasonable preference by the ~~committee~~ division if there are applications for more loans under this section than can be made from the money available in the conservation practices revolving loan fund. If it is found necessary to deny an application for a soil and water conservation practices loan to a landowner who has waived the right to availability of public cost-sharing funds before complying with an administrative order issued under section 161A.47, the landowner's waiver is void.

Sec. 20. Section 161A.71, subsection 3, paragraph a, Code 2024, is amended to read as follows:

a. Contract, sue and be sued, and promulgate administrative rules necessary to carry out the provisions of this section, but the ~~committee~~ division shall not in any manner directly or indirectly pledge the credit of the state of Iowa.

The incentives shall be supported with funds appropriated by the general assembly, and moneys available to or obtained by the division ~~or the committee~~ from public or private sources, including but not limited to the United States, other states, or private organizations. The division shall adopt all rules consistent

PAGE 13

Sec. 22. Section 161A.74, subsection 1, paragraph a, Code 2024, is amended to read as follows:

However, the commissioners may allocate an amount determined by the ~~committee~~ division for management of soil and water conservation practices, except as otherwise provided regarding land classified as agricultural land under conservation cover.

Sec. 23. Section 161A.74, subsection 2, Code 2024, is amended to read as follows:

2. The ~~committee~~ division shall review requirements of this section once each year. The ~~committee~~ division may authorize commissioners in districts to condition the establishment of a mandatory soil and water conservation practice in a specific case on a higher proportion of public cost-sharing than is required by this section. The commissioners shall determine

the amount of cost-sharing moneys allocated to establish a specific soil and water conservation practice in accordance with an administrative order issued pursuant to section 161A.47 by considering the extent to which the practice will contribute benefits to the individual owner or occupant of the land on which the practice is to be established.

Sec. 24. Section 161A.75, subsection 3, Code 2024, is amended to read as follows:

3. Following the disaster emergency, the commissioners shall submit a report to the ~~committee~~ division providing information regarding restoration projects and moneys allocated under this section for the projects.

STORAGE TANK MANAGEMENT ACCOUNT

Section 1. Section 455B.471, subsections 1 and 3, Code 2024, are amended by striking the subsections.

Sec. 2. Section 455B.471, Code 2024, is amended by adding the following new subsections:

NEW SUBSECTION. 1A. *"Account"* means the storage tank management account created in the groundwater protection fund created in section 455E.11.

NEW SUBSECTION. 1B. *"Claimant"* means an owner or operator who has filed a claim for assistance under the account, and that claim has been approved by the department, or the Iowa comprehensive petroleum underground storage tank fund created in section 455G.3, Code 2024.

NEW SUBSECTION. 1C. *"Community remediation"* means a curriculum of coordinated testing, planning, or remediation involving two or more tank sites potentially connected with a continuous contaminated area, pursuant to rules adopted by the commission under section 455B.474. A community remediation does not expand the scope of coverage otherwise available or relieve liability otherwise imposed under state or federal law.

NEW SUBSECTION. 2A. *"Costs"* means all costs, charges, expenses, or other indebtedness incurred by a claimant that are determined by the department to be reasonable for carrying out all works and undertakings necessary or incidental to the accomplishment of any project. *"Costs"* includes reasonable attorney fees and costs of litigation for which moneys are expended from the account in connection with a release.

NEW SUBSECTION. 3A. *"Insurance"* means any form of financial assistance or showing of financial responsibility sufficient to comply with the federal Resource Conservation and Recovery Act, 42 U.S.C. §6901 et seq., or the department's underground

storage tank financial responsibility rules.

NEW SUBSECTION. 7A. *"Potentially responsible party"* means a person who may be responsible or liable for a release for which payments from the account were made for corrective action or third-party liability.

NEW SUBSECTION. 7B. *"Program"* means the storage tank management account financing program created pursuant to section 455B.472A.

NEW SUBSECTION. 10A. *"Third-party liability"* means any of the following:

a. Property damage including physical injury to tangible property, but not including loss of use. Property damage does not include costs to remediate.

b. Bodily injury including sickness, physical injury, or death.

Sec. 3. NEW SECTION. **455B.472A Storage tank management account financing program.**

1. The department shall establish and administer a storage tank management account financing program for the purpose of reimbursing eligible claimants for all or part of the costs of corrective action for petroleum releases previously eligible for payment from the Iowa comprehensive petroleum underground storage tank fund pursuant to chapter 455G, Code 2024.

2. The department may enter into any agreements and provide any documents, instruments, certificates, data, or information necessary in connection with the operation, administration, and financing of the program consistent with this part 8 of subchapter IV, the federal Resource Conservation and Recovery Act, 42 U.S.C. §6901 et seq., the rules of the commission, and other applicable federal and state law.

3. The department may act to conform the program to the applicable guidance and regulations adopted by the United States environmental protection agency.

4. The department shall administer the moneys in the account transferred pursuant to this Act to carry out the purposes

PAGE 3

of the program and shall manage the revenue, administration, restrictions, and disposition of the moneys in the account transferred pursuant to this Act.

5. Moneys in the account transferred pursuant to this Act are appropriated to the department for the purposes set forth in section 455E.11, subsection 2, paragraph *"d"*, subparagraph (1A).

6. Payments for reimbursement or other costs relating to any claim or cause of action in connection with a tank not owned or operated by the state or an agency of the state shall be made solely from the moneys in the account transferred pursuant to this Act and no liability is otherwise imposed upon the state. Moneys from the account transferred pursuant to this Act are limited to the extent of coverage provided by the provisions set forth in section 455E.11, subsection 2, paragraph *"d"*, subparagraph (1A). A court, an administrative law judge, the department, or the commission shall not order or approve a remedy that would require the account to exceed the account's then current funding limitations to satisfy an award or that would restrict the availability of moneys for higher priority purposes described in section 455E.11, subsection 2, paragraph *"d"*, subparagraph (1A), subparagraph division (c). The state is not otherwise liable for a claim related to the account and moneys from the general fund shall not be used to pay for reimbursement or other costs relating to any claim or cause of action in connection with a tank not owned or operated by the state or an agency of the state.

Sec. 4. NEW SECTION. **455B.472B Cost recovery enforcement.**

1. *Full recovery sought by department.* The department may seek full recovery from an owner, operator, or other potentially responsible party liable for a release that is

the subject of a corrective action for which moneys from the account are expended, or for which moneys from the Iowa comprehensive petroleum underground storage tank fund created in section 455G.3, Code 2024, were expended, including for

PAGE 4

third-party liability and for all other costs. If federal cleanup moneys are recovered, the federal cleanup moneys shall be used solely for the purpose of future cleanup activities.

2. *Limitation of liability of owner or operator.* Except as provided in subsection 3, the department shall not seek recovery for expenses in connection with corrective action for a release from an owner or operator eligible for assistance under the program, except for any unpaid portion of the deductible or copayment. This subsection does not affect any authorization of the department to impose or collect civil or administrative fines, penalties, or fees. Moneys from the account shall not be used to pay for any third-party liability.

3. *Owner or operator not in compliance.* Notwithstanding subsection 2, the liability of an owner or operator shall be the full and total costs of corrective action and bodily injury or property damage to third parties, as specified in subsection 1, if the owner or operator has not complied with the financial responsibility or other underground storage tank rules of the department or with this part 8 of subchapter IV or rules adopted under this part.

4. *Lien on tank site.* Any amount for which an owner or operator is required to pay to the account by statute, rule, contract, or determination of liability by the department after hearing, if not paid when due, shall constitute a lien upon the real property where the tank that was the subject of corrective action is located, and the payment shall be collected in the same manner as the environmental protection charge pursuant to section 424.11, Code 2016.

5. *Joinder of parties.* The department has standing in any case or contested action related to the account or a tank to assert any claim that the department may have regarding the tank at issue in the case or contested action. Upon motion and sufficient showing by a party to a cost recovery or subrogation action provided for under this section, the court or the administrative law judge shall join to the action any

PAGE 5

potentially responsible party who may be liable for costs and expenditures of the type recoverable pursuant to this section.

6. *Third-party contracts.* An insurance, indemnification, hold-harmless, conveyance, or similar risk-sharing or risk-shifting agreement shall not be effective to transfer any liability for costs recoverable under this section. The department may proceed directly against the owner, operator,

or other potentially responsible party. This subsection does not bar any agreement to insure, hold harmless, or indemnify a party to the agreement for any costs or expenditures under this part 8 of subchapter IV, and does not modify rights between the parties to an agreement, except to the extent the agreement shifts liability to an owner or operator eligible for assistance under the program for any damages or other costs in connection with a corrective action for which another potentially responsible party is or may be liable. Any such provision is void and of no further force and effect.

7. *Later proceedings permitted against other parties.* The entry of judgment against a party to the action does not bar a future action by the department against another person who is later alleged to be or discovered to be liable for costs and expenditures paid from the account. Notwithstanding section 668.5, a potentially responsible party shall not seek contribution or any other recovery from an owner or operator eligible for assistance under the program for damages or other costs in connection with corrective action for a release for which the potentially responsible party is or may be liable. Subsequent successful proceedings against another party shall not modify or reduce the liability of a party against whom judgment has been previously entered.

8. *Claims against potentially responsible parties.*

a. Upon payment from the account for corrective action or third-party liability pursuant to this part 8 of subchapter IV, the rights of the claimant to recover payment from any potentially responsible party are assumed by the department to

the extent paid from the account. A claimant shall not receive double compensation for the same injury.

b. In an action brought pursuant to this part 8 of subchapter IV seeking damages for corrective action or third-party liability, the court shall allow evidence and argument as to the replacement or indemnification of actual economic losses incurred or to be incurred in the future by the claimant by reason of insurance benefits, governmental benefits or programs, or other sources.

c. A claimant may elect to authorize the department to pursue the claimant's cause of action for any injury not compensated from the fund against any potentially responsible party, provided the attorney general determines such representation would not be a conflict of interest. If a claimant so elects, the department's litigation expenses shall be shared on a pro rata basis with the claimant, but the claimant's share of litigation expenses is payable exclusively from any share of the settlement or judgment payable to the claimant.

9. *Exclusion of punitive damages.* Moneys from the account shall not be used to pay punitive damages.

Sec. 5. NEW SECTION. **455B.472C Discretionary rulemaking.**

1. The commission may adopt rules pursuant to chapter 17A conditioning receipt of moneys from the account transferred pursuant to this Act to those petroleum-contaminated properties that present a higher degree of risk to the public health and safety or the environment and providing for denial of moneys from the account transferred pursuant to this Act to a person who did not make a good-faith attempt to comply with this part 8 of subchapter IV. This subsection does not confer a legal right to an owner of a petroleum-contaminated property, or an owner or operator of an underground storage tank located on the property, for receipt of moneys under this part 8 of subchapter IV.

2. The commission may adopt rules pursuant to chapter

PAGE 7

17A providing for the transfer of all or a portion of the liabilities relating to the account. Notwithstanding any other provision to the contrary, the department, upon such transfer, shall not maintain any duty to reimburse claimants for those liabilities transferred.

(i) Replacement or upgrade of a tank on a site classified as a high or low risk site shall be equipped with a secondary containment system with monitoring of the space between the primary and secondary containment structures or other ~~board approved~~ tank system or methodology approved by the department.

(j) The commission and the ~~board~~ department shall cooperate to ensure that remedial measures required by the corrective action rules adopted pursuant to this subparagraph (6) are reasonably cost-effective and shall, to the fullest extent possible, avoid duplicating and conflicting requirements.

d. The certification of groundwater professionals shall not impose liability on ~~the board,~~ the department~~,~~ or the ~~fund~~ account for any claim or cause of action of any nature,

PAGE 8

based on the action or inaction of a groundwater professional certified pursuant to this subsection.

Sec. 8. Section 455B.474, Code 2024, is amended by adding the following new subsection:

The rules shall include but are not limited to requirements for program eligibility, investigating and settling claims made against the account, appeal procedures, community remediation, prioritization of account moneys, funding for tank operator training, additional assessment and corrective action arising out of releases at sites for which a certificate of no further action has been issued, and reimbursement for the permanent closure of an underground storage tank system.

Sec. 9. Section 455B.477, subsection 7, Code 2024, is amended to read as follows:

7. ~~The civil penalties or other damages or moneys recovered by the state or the petroleum underground storage tank fund in connection with a petroleum underground storage tank under this part 8 of subchapter IV or chapter 455G shall be credited to the fund created in section 455G.3 and allocated between fund accounts according to the fund budget.~~ Any federal moneys, including but not limited to federal underground storage tank trust fund moneys, received by the state or the department of natural resources in connection with a release occurring on or after May 5, 1989, or received generally for underground storage tank programs on or after May 5, 1989, shall be credited to the ~~fund~~ account created in section ~~455G.3 and allocated between fund accounts according to the fund budget~~ 455E.11, subsection 2, paragraph *"d"*, unless such use would be contrary to federal law. The department shall ~~cooperate with the board of the Iowa comprehensive petroleum underground storage tank fund to~~ maximize the state's eligibility for and receipt of federal funds for underground storage tank related

2. The department of transportation and the department of public safety shall not share or provide information used to impose or collect a civil penalty that results from a violation captured by an automated or remote system for traffic law enforcement through any existing interstate compact that does not specifically allow or require information to be shared or provided for that explicit purpose.

3. For purposes of this section, *"automated or remote system for traffic law enforcement"* means a camera or other optical device designed to work in conjunction with an official traffic control signal or speed measuring device to identify motor vehicles operating in violation of traffic laws, the use of which results in the issuance of citations sent through the mail or by electronic means.

2. *a.* If, from the investigation, the peace officer has reasonable cause to believe an excessive-speed violation has occurred, the peace officer shall prepare a uniform citation and complaint pursuant to chapter 805 for the violation and shall serve it personally to the driver of the vehicle not more than seventy-two hours after the violation occurs.

b. A peace officer may contact the owner of a motor vehicle used to commit an excessive-speed violation detected by automated enforcement and request that the owner supply information identifying the driver in accordance with section 321.484. <DIVISION I

AUTOMATED OR REMOTE SYSTEMS FOR TRAFFIC LAW ENFORCEMENT — AUTOMATIC REGISTRATION PLATE READERS

Section 1. NEW SECTION. **321P.1 Definitions.**

As used in this chapter, unless the context otherwise requires:

1. *"Automated or remote system for traffic law enforcement"* or *"system"* means a camera or other optical device designed to work in conjunction with a speed measuring device to detect motor vehicles being operated in violation of the speed limit, the use of which results in the issuance of citations sent through the mail or by electronic means.

2. *"Critical traffic safety issues"* include traffic violations resulting in a traffic collision or accident and traffic collisions and accidents resulting in serious injury or death occurring at a location.

3. *"Department"* means the state department of transportation.

4. *"Local authority"* means a county or municipality having authority to adopt local police regulations under the Constitution of the State of Iowa and laws of this state.

Sec. 2. NEW SECTION. **321P.2 Permit required — local ordinances.**

1. A person shall not use an automated or remote system for traffic law enforcement unless authorized under this chapter. A local authority shall not adopt, enforce, or otherwise administer an ordinance authorizing the use of a system, and shall not use a system, unless the local authority holds a valid permit to use a system at the system's location. Notwithstanding section 331.302, subsection 6, and section 380.3, the governing body of a local authority that is considering an ordinance to authorize or implement traffic law

PAGE 2

enforcement by automated or remote systems shall not suspend the requirements of section 331.302, subsection 6, or section 380.3, as applicable.

2. A local authority may apply for a permit by submitting an application to the department in a manner determined by the department. The department may approve or disapprove the application for a permit based on the department's determination that a system is appropriate and necessary and the least restrictive means to address the critical traffic safety issues at a location. The department shall only issue one permit for a local authority, which shall set forth all locations at which a local authority is authorized to use a system. A local authority may submit an application to the department to update the local authority's permit with a new location in the same manner and with the same information as required for the initial permit. An application for a permit must contain all of the following for a location at which the local authority intends to operate a system:

a. Records detailing the number and description of traffic violations at the location, which shall be compiled and maintained by the local authority for at least one year prior to the installation of the system and for each year the system is in operation. The records shall be considered public records for purposes of chapter 22.

b. Records detailing the number and severity of traffic collisions and accidents occurring at the location.

c. An analysis of existing traffic speed data, posted speed limits, traffic volume data, and intersection and roadway measurements of the location. The analysis must demonstrate to the department that existing speed restrictions are appropriate and must describe how the speed restrictions were established.

d. The proposed cause of critical traffic safety issues at the location.

e. Alternative methods to improve traffic safety at the location that the local authority has implemented or has

PAGE 3

considered but declined to implement. Alternative methods to improve traffic safety may include but are not limited to

changes relating to law enforcement practices, roadway or intersection design, traffic control devices used, and public education campaigns.

f. Details of discussions, if any, held with an entity that has resources which may aid the reduction of traffic collisions and accidents caused at the location by failure to obey speed restrictions and subsequent actions taken by the local authority.

g. An explanation detailing the reasons that the use of a system at the location is appropriate and necessary and the least restrictive means to address the critical traffic safety issues.

Sec. 3. NEW SECTION. **321P.3 Use limited.**

1. A local authority shall not use an automated or remote system for traffic law enforcement to issue a citation for a traffic violation unless the violation is for exceeding the speed limit by more than ten miles per hour.

2. A local authority with a population of twenty thousand or less based on the most recent federal decennial census shall not use a mobile system to issue a citation for a traffic violation. The department shall adopt rules pursuant to chapter 17A otherwise authorizing and regulating the operation of mobile systems, taking into consideration a mobile system's mobility, flexible usage, and the needs of a local authority to control traffic speed to address critical traffic safety issues at a location. However, the rules shall not authorize the use of a mobile system other than in neighborhoods, construction zones, school zones, including collegiate zones, and locations where traffic enforcement is difficult or dangerous to enforce by alternative methods.

3. A local authority, regardless of its population, may issue a warning memorandum to the owner of a vehicle that was operated in violation of a traffic law if the violation was

detected by an automated or remote system for traffic law enforcement, including a mobile system.

Sec. 4. NEW SECTION. **321P.4 Automatic registration plate readers — data retention limited.**

1. The operator of an automatic registration plate reader or any associated data storage device shall permanently delete from the plate reader and storage device, as applicable, every image of a vehicle registration plate captured by the plate reader, and any other accompanying data, no later than thirty days after the image was captured.

2. Prior to deletion under subsection 1, an image of a vehicle registration plate captured by an automatic registration plate reader, and any other accompanying data, may be copied and stored by a law enforcement agency if the image and data are relevant to an ongoing criminal case or investigation. The law enforcement agency shall maintain

the copied registration plate image and accompanying data in accordance with the agency's evidence retention policies. Copies maintained by the law enforcement agency are not subject to subsection 1.

3. For purposes of this section, *"automatic registration plate reader"* or *"plate reader"* means a camera or other optical device designed or programmed to automatically detect a vehicle's registration plate, or to automatically capture or store an image of a vehicle's registration plate and any accompanying data.

4. A person who violates subsection 1 commits a simple misdemeanor.

Sec. 5. NEW SECTION. **321P.5 Notice — signage and reports.**

1. *a.* A local authority shall not operate an automated or remote system for traffic law enforcement at a fixed location unless permanent signs meeting the requirements as specified in the department manual on uniform traffic-control devices and giving notice of the system are erected at least five hundred feet but not more than one thousand feet along the approach of

PAGE 5

the highway where the system is used.

b. A local authority shall not operate a mobile automated or remote system for traffic law enforcement unless permanent signs meeting the requirements as specified in the department manual on uniform traffic-control devices and giving notice of the local authority's use of a mobile system within the boundaries of the local authority are posted at every location where a highway enters the boundaries of the local authority.

c. Signs required under this subsection shall be erected by the local authority at the local authority's expense at least thirty days prior to a system enforcing any detected violations.

2. A local authority using a system shall submit to the department an annual report by March 1 of each year detailing the number of traffic collisions and accidents that occurred at each location where a system is in use, the number of citations issued for each system during the previous calendar year, and any other relevant information about the systems that the local authority deems appropriate. The local authority shall post the report on the local authority's internet site, if the local authority has an internet site.

Sec. 6. NEW SECTION. **321P.6 Enforcement.**

1. A local authority shall not issue a citation or warning memorandum for a violation detected by a system until a peace officer of the local authority, or an individual trained and certified by the local authority, has reviewed and approved the recorded photograph or video to affirm a traffic violation occurred.

2. *a.* For an excessive speed violation detected by a system other than as provided in paragraph *"b"*, the fine shall not exceed the following amounts:

(1) Seventy-five dollars for speed greater than ten miles per hour in excess of the limit but not more than twenty miles per hour in excess of the limit.
(2) One hundred dollars for speed greater than twenty miles

PAGE 6

per hour in excess of the limit but not more than twenty-five miles per hour in excess of the limit.
(3) Two hundred fifty dollars for speed greater than twenty-five miles per hour in excess of the limit but not more than thirty miles per hour in excess of the limit.
(4) Five hundred dollars for speed greater than thirty miles per hour in excess of the limit.
b. For an excessive speed violation detected by a system in a road work zone, as defined in section 321.1, the fine shall not exceed the following amounts:
(1) One hundred fifty dollars for speed greater than ten miles per hour in excess of the limit but not more than twenty miles per hour in excess of the limit.
(2) Two hundred dollars for speed greater than twenty miles per hour in excess of the limit but not more than twenty-five miles per hour in excess of the limit.
(3) Five hundred dollars for speed greater than twenty-five miles per hour in excess of the limit but not more than thirty miles per hour in excess of the limit.
(4) One thousand dollars for speed greater than thirty miles per hour in excess of the limit.
3. A system not in compliance with this chapter shall not be used to detect violations. A citation issued while the system is not in compliance with this chapter is void and unenforceable.
4. A violation detected by an automated or remote system for traffic law enforcement is a civil infraction. Such a violation shall not be considered by the department of transportation for purposes of driver's license sanctions, and shall not be considered by an insurer for purposes of a person's automobile insurance rates. The fine associated with a citation issued by a local authority as the result of the use of a system must be a civil penalty.
Sec. 7. NEW SECTION. **321P.7 Liability for violations detected.**

PAGE 7

1. A citation for a violation detected by an automated or remote system for traffic law enforcement shall be issued to the owner of the identified motor vehicle.
2. *a.* Notwithstanding subsection 1, a local authority shall provide the owner of a motor vehicle who receives a citation for a violation detected by a system with an opportunity to submit evidence that the owner was not operating the

motor vehicle at the time of the violation. As part of the proceeding, the owner shall provide the name and address of the person who was operating the motor vehicle at the time of the violation.

b. Notwithstanding subsection 1, a citation issued to the owner of a motor vehicle may be amended and issued to the person identified under paragraph *"a"* who was operating the motor vehicle.

3. For purposes of this section, *"owner"* means a person who holds the legal title to a motor vehicle. However, if the motor vehicle is the subject of a security agreement with a right of possession in the debtor, the debtor is deemed the owner for purposes of this section, or if the motor vehicle is leased as defined in section 321.493, the lessee is deemed the owner for purposes of this section.

Sec. 8. NEW SECTION. **321P.8 Restrictions on use of revenue.**

A local authority shall not use any revenue received as a result of the use of a system and retained by the local authority, not including the cost to install, operate, and maintain the system, other than for any of the following purposes:

1. To fund transportation infrastructure improvement projects.

2. To offset costs incurred relating to the operation of a police department or fire department.

Sec. 9. NEW SECTION. **321P.9 Installation and maintenance.**

1. A local authority shall install a system in a manner that minimizes the effect of camera flash on drivers, if a camera

PAGE 8

flash is used.

2. An automated or remote system for traffic law enforcement must only record a photograph or video of the rear of a vehicle and the vehicle's registration plate while the vehicle is used to commit an alleged traffic violation. A local authority shall not install a system such that the system's camera is placed to capture the front of a motor vehicle or the face of any person in the vehicle being recorded. In accordance with section 321P.6, subsection 3, a citation issued by a system that captures the front of a motor vehicle or the face of any person in the vehicle is void and unenforceable.

3. A system must verify its internal calibrations daily, and a person trained in the calibration of the system shall conduct a monthly calibration.

4. A local authority operating a system shall maintain a monthly log detailing whether a person trained in the calibration of the system successfully performed the monthly calibrations and whether the system successfully performed the daily internal calibrations.

5. The log and documentation of the calibrations required under this section are admissible in any court proceeding relating to a violation detected by the system.

6. If a daily or monthly calibration is not successfully performed, the system shall not operate until a successful calibration is subsequently performed.

A local authority using an automated or remote system for traffic law enforcement prior to January 1, 2024, may submit to the department of transportation by July 1, 2024, a list of system locations and justifications for placement and use of the systems at the locations in conformance with section 321P.2, as enacted by this Act, to the extent practicable, as determined by the department. The department shall, by

October 1, 2024, issue a permit as provided in section 321P.2, as enacted by this Act, to a local authority that provided valid submissions in accordance with this subsection. A local authority using a system prior to January 1, 2024, may continue to use the system in the same manner and at the same locations as the system was used on or before January 1, 2024, during the period of time between the local authority's submission to the department and the date the department issues the permit to the local authority, unless the system is a mobile system prohibited under section 321P.3, as enacted by this Act. If, on October 1, 2024, a local authority has not been issued a permit by the department as a result of a submission that was not timely filed, or due to a timely filed submission that did not otherwise comply with this subsection, the local authority shall cease using all systems until the local authority obtains a permit from the department pursuant to section 321P.2, as enacted by this Act.

2. A local authority using an automated or remote system for traffic law enforcement at a location for the first time on or after January 1, 2024, shall not be issued a permit by the department of transportation pursuant to section 321P.2, as enacted by this Act, before July 1, 2026.

The commissioners shall assist the division in the enforcement of this subsection. The agreement does not create a lien on the land, but is a charge personally against the owner of the land at the time of removal, alteration, or modification if an administrative order is made under section 161A.61, subsection 3.

Sec. 12. Section 161A.10, Code 2024, is amended to read as follows:

161A.10 Discontinuance of districts.

1. The question is to be submitted by

PAGE 7

ballots upon which the words "For terminating the existence of the ..... (name of the soil and water conservation district to be here inserted)" and "Against terminating the existence of the ..... (name of the soil and water conservation district to be here inserted)" shall be printed, with a square before each proposition and a direction to insert an X mark in the square before one or the other of the propositions as the voter favors or opposes discontinuance of the district. All owners of lands lying within the boundaries of the district are eligible to

vote in the referendum. No informalities in the conduct of the referendum or in any matters relating to the referendum invalidate the referendum or the result of the referendum if notice was given substantially as provided in this section and if the referendum was fairly conducted.

2. When sixty-five percent of the landowners vote to terminate the existence of the district, the ~~committee~~ division shall advise the commissioners to terminate the affairs of the district. The commissioners shall dispose of all property belonging to the district at public auction and shall pay over the proceeds of the sale to be deposited into the state treasury. The commissioners shall then file an application, duly verified, with the secretary of state for the discontinuance of the district, and shall transmit with the application the certificate of the ~~committee~~ division setting forth the determination of the ~~committee~~ division that the continued operation of the district is not administratively practicable and feasible. The application shall recite that the property of the district has been disposed of and the proceeds paid over as provided in this section, and shall set forth a full accounting of the properties and proceeds of the sale. The secretary of state shall issue to the commissioners a certificate of dissolution and shall record the certificate in an appropriate book of record in the secretary of state's office.

3. Upon issuance of a certificate of dissolution under this

2. The governing body of the subdistrict, upon determination that benefits from works of improvement as set forth in the watershed work plan to be installed will exceed costs thereof, and that funds needed for purposes of the

subdistrict require levy of a special benefit assessment as provided in section 161A.23, in lieu of the special annual tax as provided in section 161A.20, shall record its decision to use its taxing authority and, upon majority vote of the governing body and with the approval of the ~~committee~~ division, may issue warrants or bonds payable in not more than forty semiannual installments in connection with the special benefit assessment, and pledge and assign the proceeds of the special benefit assessment and other revenues of the subdistrict as security for the warrants or bonds. The warrants and bonds of indebtedness are general obligations of the subdistrict, exempt from all taxes, state and local, and are not indebtedness of

The commissioners of each district shall, with approval of and within time limits set by administrative order of the ~~committee~~ division, adopt reasonable regulations as are deemed necessary to establish a soil loss limit or limits for the district and provide for the implementation of the limit or limits. A district may subsequently amend or repeal its regulations as it deems necessary. The ~~committee~~ division shall review the soil loss limit regulations adopted by the districts at least once every five years, and shall recommend changes in the regulations of a district which the ~~committee~~ division deems necessary to assure that the district's soil loss limits are reasonable and attainable. The commissioners may:

Sec. 16. Section 161A.44, subsection 2, Code 2024, is amended to read as follows:

2. Establish different soil loss limits for different classes of land in the district if in their judgment and that of the ~~committee~~ division a lower soil loss limit should be applied to some land than can reasonably be applied to other land in the district, it being the intent of the general assembly that no land in the state be assigned a soil loss

PAGE 10

limit that cannot reasonably be applied to such land.

Sec. 17. Section 161A.45, Code 2024, is amended to read as follows:

161A.45 Submission of regulations to ~~committee~~ division — hearing.

Regulations which the commissioners propose to adopt, amend, or repeal shall be submitted to the ~~committee~~ division, in a form prescribed by the ~~committee~~ division, for its approval. The commissioners shall, after approval, publish notice of hearing on the proposed regulations, as approved, in a newspaper of general circulation in the district, setting a date and time not less than ten nor more than thirty days after the publication when a hearing on the proposed regulations will be held at a specified place. The notice shall include the full text of the proposed regulations or shall state that the proposed regulations are on file and available for review at the office of the affected soil and water conservation district.

Sec. 18. Section 161A.46, Code 2024, is amended to read as follows:

161A.46 Conduct of hearing.

At the hearing, the commissioners or their designees shall explain, in reasonable detail, the reasons why adoption, amendment, or repeal of the regulations is deemed necessary or advisable. Any landowner, or any occupant of land who would be affected by the regulations, shall be afforded an opportunity to be heard for or against the proposed regulations. At the conclusion of the hearing, the commissioners shall announce and enter of record their decision whether to adopt or modify the proposed regulations. Any modification must be approved by the ~~committee~~ division, which may at its discretion order the commissioners to republish the regulations and hold another hearing in the manner prescribed by this chapter.

PAGE 11

Sec. 19. Section 161A.71, subsections 1 and 4, Code 2024, are amended to read as follows:

1. The division may establish a conservation practices revolving loan fund composed of any money appropriated by the general assembly for that purpose, and of any other moneys available to and obtained or accepted by the ~~committee~~ division from the federal government or private sources for placement in that fund. Except as otherwise provided by subsection 3, the assets of the conservation practices revolving loan fund shall be used only to make loans directly to owners of land in this state for the purpose of establishing on that land any new permanent soil and water conservation practice which the commissioners of the soil and water conservation district in which the land is located have found is necessary or advisable to meet the soil loss limits established for that land. A

loan shall not be made for establishing a permanent soil and water conservation practice on land that is subject to the restriction on state cost-sharing funds of section 161A.76. Revolving loan funds and public cost-sharing funds may be used in combination for funding a particular soil and water conservation practice. Each loan made under this section shall be for a period not to exceed ten years, shall bear no interest, and shall be repayable to the conservation practices revolving loan fund in equal yearly installments due March 1 of each year the loan is in effect. The interest rate upon loans for which payment is delinquent shall accelerate immediately to the current legal usury limit. Applicants are eligible for no more than twenty thousand dollars in loans outstanding at any time under this program. *"Permanent soil and water conservation practices"* has the same meaning as defined in section 161A.42 and those established under this program are subject to the requirements of section 161A.7, subsection 3. Loans made under this program shall come due for payment upon sale of the land on which those practices are established.

4. This section does not negate the provisions of

PAGE 12

section 161A.48 that an owner or occupant of land in this state shall not be required to establish any new soil and water conservation practice unless public cost-sharing funds have been approved and are available for the land affected. However, the owner of land with respect to which an administrative order to establish soil and water conservation practices has been issued under section 161A.47 but not complied with for lack of public cost-sharing funds, may waive the right to await availability of such funds and instead apply for a loan under this section to establish any permanent soil and water conservation practices necessary to comply with the order. If a landowner does so, that loan application shall be given reasonable preference by the ~~committee~~ division if there are applications for more loans under this section than can be made from the money available in the conservation practices revolving loan fund. If it is found necessary to deny an application for a soil and water conservation practices loan to a landowner who has waived the right to availability of public cost-sharing funds before complying with an administrative order issued under section 161A.47, the landowner's waiver is void.

Sec. 20. Section 161A.71, subsection 3, paragraph a, Code 2024, is amended to read as follows:

a. Contract, sue and be sued, and promulgate administrative rules necessary to carry out the provisions of this section, but the ~~committee~~ division shall not in any manner directly or indirectly pledge the credit of the state of Iowa.

Sec. 21. Section 161A.72, subsection 1, Code 2024, is amended to read as follows:

1. Financial incentives provided under this chapter shall be administered by the division. The incentives shall be supported with funds appropriated by the general assembly, and moneys available to or obtained by the division ~~or the committee~~ from public or private sources, including but not limited to the United States, other states, or private

PAGE 13

organizations. The division shall adopt all rules consistent with chapter 17A necessary to carry out the purpose of this subchapter as provided in section 161A.70.

Sec. 22. Section 161A.74, subsection 1, paragraph a, Code 2024, is amended to read as follows:

a. The financial incentives shall not exceed more than fifty percent of the estimated cost of establishing the practices as determined by the commissioners, or fifty percent of the actual cost of establishing the practices, whichever is less. However, the commissioners may allocate an amount determined by the ~~committee~~ division for management of soil and water conservation practices, except as otherwise provided regarding land classified as agricultural land under conservation cover.

Sec. 23. Section 161A.74, subsection 2, Code 2024, is amended to read as follows:

2. The ~~committee~~ division shall review requirements of this section once each year. The ~~committee~~ division may authorize commissioners in districts to condition the establishment of a mandatory soil and water conservation practice in a specific case on a higher proportion of public cost-sharing than is required by this section. The commissioners shall determine the amount of cost-sharing moneys allocated to establish a specific soil and water conservation practice in accordance with an administrative order issued pursuant to section 161A.47 by considering the extent to which the practice will contribute benefits to the individual owner or occupant of the land on which the practice is to be established.

Sec. 24. Section 161A.75, subsection 3, Code 2024, is amended to read as follows:

3. Following the disaster emergency, the commissioners shall submit a report to the ~~committee~~ division providing information regarding restoration projects and moneys allocated under this section for the projects.

Sec. 25. Section 161C.1, subsection 1, Code 2024, is amended by striking the subsection.

PAGE 14

1. A water protection fund is created within the division. The fund is composed of money appropriated by the general assembly for that purpose, and moneys available to and obtained

or accepted by the ~~committee~~ division from the United States or private sources for placement in the fund. The fund shall be a revolving fund from which moneys may be used for loans, grants, administrative costs, and cost-sharing.

Sec. 27. Section 161C.4, subsection 3, paragraph a, Code 2024, is amended to read as follows:

a. Contract, sue and be sued, and adopt rules necessary to carry out the provisions of this section, but the division ~~or committee~~ shall not in any manner directly or indirectly pledge the credit of this state.

Sec. 28. Section 207.2, subsection 2, Code 2024, is amended by striking the subsection.

Sec. 29. Section 207.3, subsections 2, 3, and 4, Code 2024, are amended to read as follows:

2. The division may~~, after notification to the committee,~~ commence proceedings to suspend, revoke, or refuse to renew a license of a licensee for repeated or willful violation of any of the provisions of this chapter or of the federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. §801 et seq.

3. The hearing shall be held pursuant to chapter 17A not less than fifteen nor more than thirty days after the mailing or service of the notice. If the licensee is found to have willfully or repeatedly violated any of the provisions of this chapter or of the federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. §801 et seq., the ~~committee~~ division may affirm or modify the proposed suspension, revocation, or refusal to renew the license.

Sec. 30. Section 207.9, subsection 5, Code 2024, is amended to read as follows:

5. Within sixty days a person having an interest which is or may be adversely affected may appeal ~~to the committee~~ the decision of the division granting or denying a permit as a contested case under chapter 17A.

Sec. 31. Section 207.14, subsection 4, paragraph a, Code 2024, is amended to read as follows:

a. A permittee may request in writing an appeal to the ~~committee~~ division of a decision made in a hearing under subsection 3 within thirty days of the decision. The ~~committee~~ division shall review the record made in the contested case hearing, and may hear additional evidence upon a showing of good cause for failure to present the evidence in the hearing, or if evidence concerning events occurring after the hearing

is deemed relevant to the proceeding. However, the ~~committee~~ division shall not review a decision in a proceeding if the division seeks to collect a civil penalty pursuant to section 207.15, and those decisions are final agency actions subject to direct judicial review as provided in chapter 17A.

Sec. 32. Section 207.14, subsection 5, Code 2024, is amended to read as follows:

5. In any administrative proceeding under this chapter or judicial review, the amount of all reasonable costs and expenses, including reasonable attorney fees incurred by a person in connection with the person's participation in the proceedings or judicial review, may be assessed against either party as the court in judicial review or the ~~committee~~ division in administrative proceedings deems proper.

COUNTY OF RESIDENCE DETERMINATIONS

Sec. 181. NEW SECTION. **331.190 County of residence — dispute resolution.**

1. *"County of residence"* means the county in this state in which, at the time a person applies for or receives services, the person is living and has established an ongoing

presence with the declared, good faith intention of living for a permanent or indefinite period of time. The county of residence of a homeless person is the county in which the homeless person usually sleeps. A person maintains residency in the county or state in which the person last resided during the time period that the person is present in a different county or state receiving services in a hospital, a correctional facility, a halfway house for community-based corrections or substance use disorder treatment, a nursing facility, an intermediate care facility for persons with an intellectual disability, a residential care facility, or for the purpose of attending a college or university.

2. *a.* The dispute resolution process in this subsection shall apply to county of residence disputes. The dispute resolution process shall not be applicable to any of the following:

(1) Disputes involving persons committed to a state facility pursuant to chapter 812.

(2) Disputes involving Iowa rule of criminal procedure 2.22(8)(b), commitment for evaluation.

(3) Disputes involving chapter 12 of Iowa court rules, rules for involuntary hospitalization of mentally ill persons.

b. If a county objects to a billing for services or a

PAGE 89

residency determination and asserts that either the person has residency in a different county or the person is not a resident of this state, the person's county of residence shall be determined as provided in this subsection. If the county asserts that the person has residency in a different county in this state, the county shall notify that county in writing within one hundred twenty calendar days of receiving the billing for services or of the county of residence determination.

c. The county that receives the notification under paragraph *"b"* shall respond in writing to the county that provided the notification within forty-five calendar days of receiving the notification. If the parties cannot agree as to the person's county of residence within ninety calendar days of the date of notification, on motion of either of the parties, the matter shall be referred to the administrative hearings division of the department of inspections, appeals, and licensing for a contested case proceeding under chapter 17A, before an administrative law judge assigned in accordance with section 10A.801, to determine the person's county of residence.

d. (1) Notwithstanding section 17A.15, the administrative law judge's determination of a person's county of residence shall be considered final agency action. Judicial review of the determination may be sought in accordance with section 17A.19.

(2) If following the determination of a person's county of residence under this subsection additional evidence becomes

available that merits a change in the determination of the person's county of residence, the affected parties may change the determination of county of residence by mutual agreement. Otherwise, a party may move that the matter be reconsidered by the county, or by an administrative law judge assigned in accordance with section 10A.801.

e. Unless a petition is filed for judicial review, the administrative law judge's determination of the person's county

PAGE 90

of residence shall result in one of the following:

(1) If a county is determined to be the person's county of residence, that county shall pay any amounts due and shall reimburse the other county for any amounts paid for services provided to the person by the other county prior to the county of residence determination.

(2) If it is determined that the person is not a resident of this state, neither the state nor either county shall be liable for payment of amounts due for services provided to the person prior to the determination of the person's county of residence.

f. (1) The party that does not prevail in a contested case proceeding or a subsequent judicial review pursuant to this subsection shall be liable for costs associated with the proceeding or judicial review, including reimbursement of the administrative hearings division of the department of inspections, appeals, and licensing's actual costs associated with the administrative proceeding, court costs, and reasonable attorney fees.

(2) A payment or reimbursement pursuant to this subsection shall be remitted within forty-five calendar days of the date the county of residence determination is issued by the administrative law judge or the date the court files an order determining the person's county of residence, whichever is later. After forty-five calendar days, the prevailing party may add a penalty of up to one percent per month to any amounts due.

Sec. 182. Section 35D.9, Code 2024, is amended to read as follows:

35D.9 County of residence upon discharge.

A member of the home does not acquire residency in the county in which the home is located unless the member is voluntarily or involuntarily discharged from the home and the member meets county of residence requirements. For purposes of this section, *"county of residence"* means the same as defined in section ~~225C.61~~ 331.190.

8. This subsection applies only to placements in a juvenile shelter care home which is publicly owned, operated as a county or multicounty shelter care home, organized under a chapter 28E agreement, or operated by a private juvenile shelter care home. If the actual and allowable costs of a child's shelter care placement exceed the amount the department is authorized to pay, the unpaid costs may be recovered from the child's custodial parent's county of residence. However, the maximum amount of the unpaid costs which may be recovered under this subsection is limited to the difference between the amount the department is authorized to pay and the statewide average of the actual and allowable rates as reasonably determined by the department annually. A home may only be reimbursed for the lesser of the home's actual and allowable costs or the statewide average of the actual and allowable rates as determined by the department in effect on the date the costs were paid. The unpaid costs are payable pursuant to filing of verified claims against the child's custodial parent's county of residence. A detailed statement of the facts upon which a claim is based shall accompany the claim. Any dispute between counties arising from ~~filings of~~ claims filed pursuant to this subsection shall be settled in the manner provided to determine ~~residency~~ county of residence in section ~~225C.61~~ 331.190.

JUDGE of Dallas

H-8339

Amend House File 2551 as follows:

1. By striking everything after the enacting clause and inserting:

<Section 1. Section 478.16, Code 2024, is amended to read as follows:

478.16 Electric transmission lines — federally registered planning authority transmission plans.

1. Development and investment in high-voltage transmission is urgently needed to ensure the reliable, adequate, secure, and stable delivery of electricity to consumers. To ensure reliable electric service to the people of Iowa as a matter of public policy, it is the intent of the general assembly to express a preference for further investment in Iowa transmission infrastructure by electric transmission owners who have already dedicated significant resources to develop the infrastructure on which Iowans rely.

~~1.~~ 2. As used in this section, unless the context otherwise requires:

a. "Electric transmission line" means a high-voltage electric transmission line located in this state with a capacity of one hundred kilovolts or more and any associated electric transmission facility, including any substation or other equipment located in this state.

b. "Electric transmission owner" means an individual or entity who, as of July 1, 2020, owns and maintains an electric transmission line that is required for rate-regulated electric utilities, municipal electric utilities, and rural electric cooperatives in this state to provide electric service to the public for compensation.

c. "Incumbent electric transmission owner" means any of the following, which may be formed, located, or headquartered in any state:

(1) A public utility or a municipally owned utility that owns, operates, and maintains an electric transmission line in this state.

PAGE 2

(2) An electric cooperative corporation or association or municipally owned utility that owns an electric transmission facility in this state and has turned over the functional control of such facility to a federally approved authority.

(3) An *"electric transmission owner"* as defined in paragraph *"b"*.

d. ~~"Landowner"~~ ~~means the same as defined in section 478.2~~ *"Initial construction"* means the construction necessary to establish and place an electric transmission line into initial operation.

e. "Municipally owned utility" means a *"city utility"* as defined in section 362.2, or an *"electric power agency"* as defined in section 390.9 ~~which~~ that is comprised solely of cities or solely of cities and other political subdivisions.

f. "Qualified individual" means someone who is capable and knowledgable enough to determine compliance with the standards set forth in this section.

~~2.~~ 3. An incumbent electric transmission owner has the right to construct, own, and maintain an electric transmission line that has been approved for construction in a federally registered planning authority transmission plan and ~~which~~ that directly connects to an electric transmission facility owned by the incumbent electric transmission owner. Where a proposed electric transmission line would directly connect to electric transmission facilities owned by two or more incumbent electric transmission owners, each incumbent electric transmission owner whose facility connects to the electric transmission line has the right to construct, own, and maintain the electric transmission line individually and equally. If an incumbent electric transmission owner declines to construct, own, and maintain its portion of an electric transmission line that would connect to electric transmission facilities owned by two or more incumbent electric transmission owners, then the other incumbent electric transmission owner or owners that own an electric transmission facility to which the electric

PAGE 3

transmission line connects has the right to construct, own, and maintain the electric transmission line individually.

~~3.~~ 4. If an electric transmission line has been approved for construction in a federally registered planning authority transmission plan after July 1, 2020, and the electric transmission line is not subject to a right of first refusal in accordance with the tariff of a federally registered planning authority, then within the later of ninety days of approval for construction or ninety days after enactment of this Act, an incumbent electric transmission owner, or owners if there is more than one owner, that owns a connecting electric transmission facility shall give written notice to the board

regarding whether the incumbent electric transmission owner or owners intend to construct, own, and maintain the electric transmission line. If the incumbent electric transmission owner or owners give notice of intent to construct the electric transmission line, the incumbent electric transmission owner or owners shall follow the applicable franchise requirements pursuant to this chapter. If the incumbent electric transmission owner or owners give notice declining to construct the electric transmission line or fail to provide timely notice of the intent to construct the project, the board may determine whether another person may construct the electric transmission line.

~~4.~~ 5. For projects ~~where~~ for which an election to construct an electric transmission line has been made under this section, all of the following cost accountability measures shall apply:

a. Within thirty days after the issuance of a franchise pursuant to this chapter for the electric transmission line, the incumbent electric transmission owner or owners shall provide to the board an estimate of the cost to ~~construct~~ complete the initial construction of the electric transmission line.

b. Until the initial construction of the electric transmission line is complete, the incumbent electric

PAGE 4

transmission owner or owners shall provide a quarterly report to the board, which shall include an updated estimate of the cost to construct the electric transmission line, ~~and~~ an explanation of changes in the cost estimate from the prior cost estimate, and documentation that the incumbent electric transmission owner or owners have used competitively bid construction contracts that meet all the technical, commercial, and other specifications, such as safety performance, that are required by the incumbent electric transmission owner or owners with respect to the initial construction of the electric transmission line.

c. The consumer advocate appointed under section 475A.1 shall have free access to documents, reports, and information submitted to the board pursuant to this subsection, consistent with section 475A.4. To the extent relevant, the board and the consumer advocate may use the information for any purpose properly within the scope of their respective duties including but not limited to use in proceedings before the federal energy regulatory commission to challenge the costs incurred by the incumbent electric transmission owner. However, this subsection does not create a private cause of action or complaint.

~~5.~~ 6. This section shall not modify the authority of the board under this chapter, the rights of landowners under this chapter, or the requirements, rights, and obligations relating to the construction, maintenance, and operation of electric transmission lines pursuant to this chapter.

~~6.~~ 7. This section shall not apply to an electric transmission line to be placed underground that has not been approved for construction in a federally registered planning authority transmission plan.

~~7.~~ 8. The board shall adopt rules pursuant to chapter 17A to administer this section, which shall include rules regarding the restoration of agricultural lands following the initial construction of an electric transmission line, as specified in

PAGE 5

subsection 9.

9. The board shall adopt rules to implement the following requirements, which shall not apply within the corporate limits of a city or to any construction, activity, or electric transmission lines other than the initial construction of an electric transmission line with a capacity of two hundred or more kilovolts and for which an election to construct has been made under this section:

a. An electric transmission owner shall repair a damaged underground drain tile as soon as practicable during construction of the electric transmission line. Permanent repairs to the damaged underground drain tile shall be completed within fourteen days, if practicable, after the initial construction of the electric transmission line is complete. The repairs made to the damaged drain tile shall be of at least equal quality, size, and flow capacity of the original drain tile.

b. Following the initial construction of an electric transmission line, the electric transmission owner shall remove from the easement area all rock larger than three inches in average diameter not native to the soil of the excavated land. The rock removed from the excavated land that cannot be used to backfill shall be disposed of at a location and in a manner agreed upon by the electric transmission owner and the landowner.

c. Upon completion of construction activities on a property, the electric transmission owner shall deep till agricultural land, including right-of-way access points or roads traversed by heavy construction equipment, to alleviate soil compaction. The land shall be tilled at least eighteen inches deep in land used for crop production and twelve inches deep in other lands unless requested by the landowner.

d. Upon completion of the electric transmission line, the electric transmission owner shall restore the soil conservation practices and structures damaged during construction of the

PAGE 6

electric transmission line to the elevation and grade existing on the land prior to the construction. The soil used to repair embankments intended to retain water shall be well

compacted. Any vegetation disturbed during construction shall be reestablished, including cover crops when appropriate.

e. Following compaction of the land, agricultural land that is not in row crop or small grain production at the time of construction, including hay ground and land in conservation or set-aside programs, shall be reseeded and a cover crop shall be utilized when appropriate. Seeding for cover crops may be delayed if the construction of the electric transmission line is completed too late in the year for a cover crop to become established and is not required if the land will be tilled in the following year. The landowner may request ground cover to prevent soil erosion in areas where construction on the electric transmission line is completed if the season is not suitable for seeding a cover crop.

f. Unless agreed upon by the electric transmission owner and the landowner, the electric transmission owner shall remove field entrances or temporary roads built for the purpose of constructing the electric transmission line upon the completion of the initial construction and restore the area to its previous use.

g. An incumbent electric transmission owner shall use best utility practices for constructing the electric transmission line in wet conditions, such as electing to use matting or padding when utilizing heavy equipment. An electric transmission owner shall grade and till any rutted land to restore, to the extent practicable, the original condition of the land prior to the construction of the electric transmission line. If agreed upon by the incumbent electric transmission owner and the landowner, the landowner may repair any damage caused by construction activities in wet conditions and the incumbent electric transmission owner shall reimburse the landowner for the reasonable cost incurred to repair the

PAGE 7

damage. If an incumbent electric transmission owner utilizes heavy equipment in wetlands or mudflats, mats or other measures shall be utilized to minimize soil disturbance.

<Section 1. STATUTE OF LIMITATION MODIFICATION — LEGISLATIVE FINDINGS. It is the finding of the general assembly that the following facts and circumstances are conditions precedent to this modification of an existing Iowa statute of limitation:

1. That legislatively created, after-the-fact exceptions to the operation of civil statutes of limitation are, in general, poor public policy.

2. Such exceptions tend to erode the rule of law, respect for the doctrine of equal protection, and due regard for the sanctity of contracts.

3. Notwithstanding such principles, various parties have represented to the general assembly that a defined and discreet group of Iowa sexual abuse victims face a grotesque miscarriage of justice if the operation of sections 614.1 and 614.8 is not suspended for their benefit.

4. These parties have also represented to the general assembly that the circumstances surrounding the lawsuits are unlikely to reoccur, and that the proposed retroactive enlargement of the statute of limitation will not injure any third party who has not already consented to settlement of their interests.

5. But for the unusual and exceptionally rare circumstances represented to be present, an after-the-fact enlargement of a statute of limitation would not be considered.

6. The action taken by the general assembly in this matter is not to be considered or offered in the future as creating a precedent for future legislative action by the general assembly.>

The county treasurer shall cancel the record of the vehicle. The junking certificate shall be printed on the registration receipt form and shall be imprinted with the words "junking certificate", as prescribed by the department. A space for transfer by endorsement shall be on the junking certificate. 2. Summer can be a time of increased hunger for children who no longer have access to regular school lunches.

3. Iowa is currently experiencing a food insecurity crisis as food banks and other charitable organizations continue to report record high demand from Iowans in need.

5. When Iowans are struggling financially, they are more likely to buy less expensive foods, which are high in calories and low in nutritional value.

6. Summer congregate and noncongregate meals are not always easily accessible to families in need, particularly in rural Iowa.

7. The summer EBT for children program offered by the federal government would provide an estimated twenty-nine million dollars to address the food insecurity crisis, which not only feeds children but stimulates local economic activity.

8. Iowa ended fiscal year 2022-2023 with a general fund balance of one billion eight hundred thirty-one million dollars. Iowa can afford to feed hungry children and cover the costs of administering the summer EBT for children program.

A Resolution designating November 2024 as Lung Cancer Awareness Month.

WHEREAS, in 1904, Dr. Edward Livingston Trudeau, a public health pioneer, believing that the combined efforts of physicians and laypersons working together against death and disease, could be more effective in the fight against tuberculosis, the leading cause of death in the United States at the time, co-founded the National Association for the Study and Prevention of Tuberculosis, later known as the American Lung Association; and

WHEREAS, the American Lung Association, recognizing the importance of education, advocacy, and the funding of research, as well as the power of people and communities in addressing critical public health and lung health issues, was instrumental in largely controlling tuberculosis in the United States; and

WHEREAS, just as tuberculosis was a great health threat in the early 20th century, lung cancer is now the number one cancer killer of both men and women; and

WHEREAS, in the United States, lung and bronchus (lung) cancer accounted for an estimated 127,000 deaths or 20 percent of all cancer deaths, and represented approximately 12 percent of all new cancer cases in 2023; and

WHEREAS, approximately 1 in 16 men and 1 in 17 women will be diagnosed with lung cancer in their lifetime; and

WHEREAS, lung cancer claims approximately the same number of lives annually as prostate, breast, and pancreatic cancer combined; and

WHEREAS, an estimated 6,310 Iowans died from lung cancer and an estimated 20,460 Iowans were newly diagnosed with lung cancer in 2023; and

WHEREAS, lung cancer has one of the lowest five-year survival rates with a five-year relative survival rate of approximately 63 percent following a diagnosis

of localized or stage 1 lung cancer, 35 percent following a diagnosis of regional lung cancer that has spread to regional lymph nodes, and 8 percent following a diagnosis of distant lung cancer that has metastasized, making early detection the key to length of survival; and

WHEREAS, while the rate of lung cancer death is higher for men than women, lung cancer is the leading cause of cancer deaths among women, Black Americans, and Asian Americans; and

WHEREAS, while smoking is the leading risk factor for lung cancer accounting for 80 percent of lung cancer deaths, those who never smoked account for the remaining 20 percent, and the proportion of lung cancer diagnosed in individuals who never smoked is increasing in the United States with women who never smoked being more than twice as likely to develop lung cancer as men who never smoked; and

PAGE 3

WHEREAS, while other leading risk factors of lung cancer include secondhand smoke, asbestos, certain metals and organic materials, radiation, air pollution, and diesel exhaust, family history and genetic factors may also play a role in the development of lung cancer; and

WHEREAS, funding for lung cancer research falls far behind funding for research of many other cancers, and additional research is needed in early diagnosis, screening, and treatment of lung cancer as well as to determine the unique impact of lung cancer on women and the effect of health disparities on diagnosis, treatment, and survival rates; and

WHEREAS, approximately 8 million Americans are at high risk for lung cancer and early detection for these individuals could reduce mortality by up to 20 percent, but only approximately 5.7 percent of these individuals are actually screened; and

WHEREAS, in 2024 as the American Lung Association, the oldest American voluntary health organization, marks its 120th anniversary of being at the forefront of improving public health and championing lung health by focusing on four strategic imperatives: to defeat lung cancer, create a tobacco-free future, champion clean air for all, and improve the quality of life for those living with lung disease; NOW THEREFORE,

BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES, That the House of Representatives designates the month of November 2024 as Lung Cancer Awareness Month and encourages the citizens of Iowa to speak with their

PAGE 4

doctors and other health care providers to learn more about lung cancer; and encourages the citizens of Iowa, government agencies, private businesses, nonprofit organizations, the media, and other interested entities to increase awareness about what Iowans can do to prevent, detect, and treat lung cancer.
