Adam Gregg, Lt. Governor

### **Technical Code Corrections/Clarifications 282.31 Funding for Special Programs**

The statute related to funding for special programs includes an outdated calculation method, which required a manual calculation by districts. This does not align with the student-level data currently submitted by districts at the end of each school year, which provides for an automated calculation by the Department.

To eliminate archaic Iowa Code language, the Department proposes to update Iowa Code language to reflect the current calculation process.
