1 SEC. 3. Section one hundred sixty-four point three (164.3), Code 1966,
2 is hereby repealed and the following enacted in lieu thereof:
3 "All native female cattle between ages of three and eight months may
4 be officially vaccinated for brucellosis according to the method approved
5 by the United States department of agriculture. The expense of such vacci-
6 nation shall be borne in the same manner as set forth in section one

3 "All bovine animals two years of age and older received for sale or ship-

11 exempted from this requirement if the animals are identified as to the farm

12 of origin when delivered to a livestock market, stockyards, or slaughtering
 13 establishment which agrees to accept responsibility for back-tag identifica-
 14 tion. Every person required to identify animals in accordance with this
 15 section shall file reports of such identification on forms as specified by the

1 SEC. 5. Section one hundred sixty-four point fourteen (164.14), Code

5 1. Female cattle of a recognized beef type over eight months of age but
 6 under twenty-one months of age not visibly pregnant may enter the state
 7 for feeding and grazing purposes to be held under quarantine for a period
 8 not to exceed twelve months. An owner may upon written request receive
 9 an extension of quarantine not to exceed one hundred twenty days. Such
 10 cattle shall be individually identified by consecutively numbered metal
 11 ear tags. These cattle may be released from quarantine by passing a nega-
 12 tive brucellosis test at owner’s expense.

13 2. Female calves under eight months of age imported for any reason

 20 months of age, unless they are consigned to a state-federal approved mar-
 21 ket. They shall be quarantined for a one hundred twenty day period. A
 22 negative test at owner’s expense conducted no sooner than thirty days after
 23 the first test would release the cattle from quarantine and qualify them
 24 as breeding cattle. Female cattle officially vaccinated and under thirty
 25 months of age have free movement. Any imported cattle under feeder
 26 quarantine after attaining the age of twenty-one months if classified as
 27 breeding cattle must meet test requirements at owner’s expense.”
